MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Directors have pleasure in presenting this Management Discussion and Analysis Report for the year ended on March 31, 2017.

INDUSTRY STRUCTURE AND DEVELOPMENTS:

Packaging industry continued to grow in 2016-17, but the growth rate was lower compared to previous years. It grew at about 8-10%. Primary reason for slower growth is due to demonetization, which immediately affected volumes of FMCG industry, from where packaging industry derives its demand. Also during the year, prices of major raw materials viz. plastic granules and Aluminium-foil also firmed up, compared to previous year where they were quite stable for most part of the year.

SRMTL'S PERFORMANCE AS INDUSTRY:

In this backdrop, sales of your company grew at about 13%. More importantly this growth has come after three years of flat sales. During the year, as per plan, your company shifted seven tubing lines from Ambliyara factory and consolidated entire tubing operation at Moti Bhoyan plant. This move will give sustained benefit to your company in terms of various cost savings viz labor costs, power costs, security costs and interplant transfer costs. During the year, recertification audits were carried out by external agencies and accordingly your company has been recertified for ISO-9001-2015 and FSSC 22000. During the year one eight color Rotogravure machine was installed and commissioned, which would be used for production of Flexible laminates.

SEGMENT-WISE/ PRODUCT WISE PERFORMANCE:

Your company's largest product is laminated tubes, which is used for packing products in paste or gel form, grew by about 1.6%. Key growth drivers for the year were tube laminate which grew at 48% and seamless tube business which grew at 109%.

Another high potential segment for your company is flexible packaging materials, which has varied applications for packing powders, granules, liquids, condoms etc. In this segment your company grew by impressive 38%.

In addition to domestic market, overseas markets continue to hold substantial potential for your company. Export sales grew from Rs 1,710 Lakh in 2015-16 to Rs 1,908 Lakh in 2016-17 – growth of 11.6%. Hence exports would continue to remain focused on developing export business.

OPPORTUNITIES, THREATS AND RISK PERCEPTION:

In the way ahead, the growth in the plastic packaging industry in India will be majorly impacted by the end use industries, growing consumerism and government initiatives such as Make in India. With expected growth in FMCG segment, coupled with more money in the hands of consumers, we expect packaging industry to show growth momentum. In line with this expectation, capacities are being built up in all segments of packaging and hence competition is expected to intensify in coming years. However, with its value system and dedicated team, your company is geared up to accept and overcome challenges of future.

RISK AND CONCERNS:

As key products of your company are composite materials, involving use of plastics, paper and Aluminum foil, they are not biodegradable. With increasing awareness on environmental issues, any decision by Government restricting use of such composites is a key risk to business of your company. However,

SHREE RAMA MULTI-TECH LIMITED

probability of such actions from Government are low since these packaging materials are light weight and consume lesser energy compared to traditional packaging materials like Aluminum collapsible tubes, glass, metal etc. Another area of concern for your company's business is advent of low cost tubing lines from China. However, your company is capable of dealing with such low cost competition by improving efficiencies on their high tech tubing lines and reducing scrap generation.

BUSINESS OUTLOOK

On the back of increasing consumerism and higher income in the hands of consumers, packaging industry is on its course to achieve Y-O-Y growth of about 15%. Additional growth impetus for lamitube industry is conversion from traditional Aluminum collapsible tubes to Lamitubes. The industry would also witness slew of capacity additions and product innovations. However, for the year 2017-18 there would be two key challenges the industry will have to manage.

Aluminium-foil is major and expensive raw material for the industry and China has been world's leading supplier. Most Indian convertors, including your company, have been procuring their major requirement from China. Since beginning of 2017, the Ministry of Finance (MOF) has been contemplating imposition of anti-dumping duty on Aluminium-foil arriving into country from China. Industry's ability to pass on this additional cost would be a key parameter for success during the year.

Packaging industry derives its demand from consumer sectors like FMCG, Pharma etc. During initial phase of GST implementation, sales of these industry are likely to get affected, albeit for the short term, which will directly impact packaging industry. Managing this short term challenge would also be key parameter for success during the year. Your company is confident of meeting these challenges and continue its growth momentum.

The Company has adequate and effective internal controls to provide reasonable assurance on achievement of its operational, compliance and reporting objectives. The Company has deployed controls through its policies and procedures. These policies and procedures are periodically revised to ensure that they remain updated to changes in the environment. Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements

Opinion
