CHAIRMAN'S WELCOME

Dear Shareholders.

You are all aware that India has seen major regulatory reforms in the last financial year, which have significantly impacted the real estate industry. The long due implementation of GST replaces multi-level and varied indirect taxes with a uniform and standardised tax regime across the business value chain, enabling appropriate tax credit and thereby creating fiscal efficiency and transparency. The implementation of the state level RERA framework has veritably brought the customer to the forefront by demanding transparency and accountability from developers.

As a responsible corporate citizen, we welcomed both these reforms and I am proud to share that your Company was one of the first real estate developers in India to be fully prepared for the GST regime, as well as share the impact of input tax credit with its customers. It adopted the RERA framework with alacrity for all its applicable projects. This seamless transition to the new normal gives me confidence in your Company's ability and willingness to conduct business in the rightful manner. It reinforces that it is not only agile in envisioning the future business environment, but is also quick to implement the necessary changes in readiness for accelerated growth.

Your company focused on enhancing sustenance sales and operational efficiency across its projects, in the face of no new launches in the Mumbai market because of regulatory hurdles. Therefore, despite a slowdown in revenue on account of a decline in overall project activity, your Company has improved YOY profitability (PBDIT excluding profitability from joint ventures and associate companies) by 13.6 per cent to ₹135 crore; and profit after taxes net of non-controlling interest stood at ₹101 crore. Your Company sold 1,357 units aggregating 1.16 million square feet of saleable area in 2017-18 against 863 units / 0.91 million square feet in 2016-17. It handed over 1,592

residential units to customers during the year. You will be happy to know that your Company has pre-sold over 75 per cent of the work-in-progress inventory and does not have high levels of finished goods inventory. I am particularly proud of the two affordable housing projects in Avadi (near Chennai) and Boisar (near Mumbai) that are under implementation. Over 75 percent of the launched phases of Happinest - Avadi and Boisar have been completed, and your Company has already handed over ~1,155 units to its customers since its entry into affordable housing in 2014-15. Based on the learnings from these two projects, it has recently launched a third affordable housing project at Palghar, near Mumbai, with an estimated saleable area of 1.05 million square feet. The two operational Mahindra World Cities in Chennai and Jaipur leased 62 acres and meaningfully contributed to the profitability of your Company.

Your Company has launched a new brand of industrial clusters called 'ORIGINS by Mahindra World City'. These are relatively smaller clusters - one near Chennai and the other near Ahmedabad. The former has received all its approvals and we expect it to get its first set of customers in 2018-19, and the latter is in the process of getting its approvals.

I am happy to inform you that we are looking forward to launching five new residential projects on receipt of requisite approvals in 2018-19. The total estimated saleable area of these projects amounts to 1.97 million square feet.

Your Company believes that the regulatory thrust on transparency and accountability represents an opportunity for it to grow meaningfully. Going forward, your Company is focusing on scaling up its presence in its priority markets and segments even as it continues to differentiate itself with respect to its products and services.

Let me now focus on other key achievements in 2017-18. Your Company received the 'Vishwakarma Award' for 'Health, Safety and Environment' from the Construction Industry Development Council for two of its projects: Vivante in Mumbai and Happinest, Boisar. The second is the recognition of your Company's efforts towards gender diversity. During the year, Mahindra Lifespaces was selected by Working Mother and AVTAR as one of the '100 Best Companies for Women in India'.

As stated earlier, your Company has been focused on being future-ready to address a dynamic and changing business environment and serve its customers better and responsibly. I believe it is well-positioned to deliver greater scale and growth through a 'driven' core. Let me take this opportunity to thank all the customers, business and financial partners, associates of your Company and you, the shareholder, for your support.

With best regards,

Yours sincerely,

Arun Nanda Chairman

ANNEXURE TO NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF COMPANIES ACT, 2013

Item No. 5

The Board of Directors at its meeting held on 4th September, 2017 has appointed Mr. Ameet Hariani as an Additional Director of the Company in the category of Non-Executive Independent Director w.e.f. 4th September, 2017. Mr. Hariani holds office upto the date of this Annual General Meeting in terms of Section 161 of the Companies Act, 2013 ("the Act") and in respect of whom the Company has received a Notice in writing from a member under Section 160 of the Act proposing his candidature for the office of Director of the Company.

Pursuant to Section 149 and Section 152 of the Companies Act, 2013 read with the Companies (Appointment and Qualification of Directors) Rules, 2014, it is proposed that Mr. Ameet Hariani who meets the criteria of Independence as provided in Section 149(6) of the Companies Act, 2013, be appointed as an Independent Director of the Company, not liable to retire by rotation, to hold office for a term of 5 (five) consecutive years commencing from 4th September, 2017.

Mr. Ameet Hariani, is not disqualified from being re-appointed as Director by virtue of the provisions of Section 164 of the Companies Act, 2013.

In the opinion of the Board, Mr. Ameet Hariani fulfils the conditions specified in the Companies Act, 2013 and Rules made thereunder for his appointment as an Independent Director of the Company and is independent of the management of the Company. Having regard to the qualifications, knowledge and experience, his appointment for the first term of five consecutive years as Independent Director will be in the interest of the Company. Copy of the draft letter of appointment for Independent Director setting out the terms and conditions will be available for inspection without any fee by the members at the Registered Office of the Company during normal business hours on any working day, excluding Saturday and Sunday.

The Board recommends his appointment as an Independent Director in the interest of the Company and recommends passing of Resolutions at Item No. 5 as an Ordinary Resolution.

Brief resume of Mr. Ameet Hariani, nature of his expertise in specific functional areas, names of companies in which he holds directorships and memberships / chairmanships of Committees of the Board and his shareholding, etc. as stipulated under Regulation 36(3) of SEBI LODR and revised SS-2 on General Meetings, are provided in the Corporate Governance Report forming part of the Annual Report. Mr. Ameet Hariani does not hold any Equity Share in the Company.

None of the Directors are inter-se related to each other.

Except Mr. Ameet Hariani, none of the Directors and Key Managerial Personnel of the Company and their respective relatives are, in any way, financially or otherwise, deemed to be concerned or interested in this item of business.

Item No. 6

As per Section 42 of the Act read with the Companies (Share Capital and Debentures) Rules, 2014, the Companies (Prospectus and Allotment of Securities) Rules, 2014, a company offering or making an invitation to subscribe to Non-Convertible Debentures ("NCD") on private placement basis, is required to obtain prior approval of the members by way of a Special Resolution. Such an approval by way of special resolution may be obtained once a year for all the offers and invitations made for such NCDs during the year.

The borrowing of the Company as on 31st March, 2018 was ₹ 368.88 Crore.

The Company seeks to pass an enabling resolution to borrow funds in addition to the existing borrowing to meet its requirement of funds for acquisition of land parcels for Housing, Townships, Industrial parks, SEZs, commercial complexes and other real estate development activities at various cities / towns, capital expenditure for the Company's Businesses, repayment / reduction of high cost borrowings, working capital requirement,

augment long term resources, to provide financial support to Subsidiaries / Joint Ventures by way of loans / investments for their respective principle businesses, and to meet the general business requirement, in line with the growth strategy of Company.

The members at the 18th Annual General Meeting of the Company held on 25th July, 2017 had approved a similar resolution, the validity of which shall be expiring on 24th July, 2018. Therefore, the approval of the members is being sought by way of a Special Resolution under Sections 42 and 71 of the Act read with the Rules made thereunder, to enable the Company to offer or invite subscriptions for NCDs and / or other debt securities on a private placement basis, in one or more tranches, during the period of one year from the date of passing of the Resolution at Item No. 6, upto ₹ 750 crore within the overall borrowing limits of the Company, as approved by the members from time to time.

The Board recommends passing of the Resolution at Item No. 6, as a Special Resolution.

None of the Directors and Key Managerial Personnel of the Company and their respective relatives are, in any way, financially or otherwise, deemed to be concerned or interested in this item of business.

Item No. 7

The Board of Directors, at its Meeting held on 25th July, 2017, on the recommendation of the Audit Committee and subject to approval of the members on the remuneration to be paid to the cost auditor, approved the appointment of CMA Vaibhav Prabhakar Joshi, Cost Accountant, Mumbai, as Cost Auditor of the Company for conducting the audit of the cost records of the Company, for the financial year ended on 31st March, 2018 at a remuneration of ₹ 1,50,000/- (Rupees One Lakh Fifty Thousand Only) plus reimbursement of out of pocket expenses incurred during the course of audit and applicable taxes.

Pursuant to Section 148 of the Act read with the Companies (Audit and Auditors) Rules, 2014, Members of the Company are required to determine the remuneration to be paid to the cost auditor of the Company.

Accordingly, consent of the Members is sought for passing an Ordinary Resolution as set out at Item No. 7, for ratification of the remuneration payable to the Cost Auditor for conducting the audit of the cost records of the Company, for the financial year ending 31st March, 2018.

The Board recommends passing of the Resolution at Item No. 7, as an Ordinary Resolution.

None of the Directors, Key Managerial Personnel of the Company and their respective relatives are, in any way, financially or otherwise, deemed to be concerned or interested, in this item of business.

Item No. 8

As per the provisions of related party transactions as envisaged in SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR") and the Companies Act, 2013, all subsidiaries of the Company, fellow subsidiaries, associate companies, joint venture companies, the holding company and other companies forming part of Mahindra Group are related parties to the Company (collectively referred to as 'the Related Parties'). Further, as per SEBI LODR, transaction in the nature of transfer of resources, services or obligations with a related party is considered as a related party transaction ("the Related Party Transaction").

Further, as per SEBI LODR and as per Company's 'Policy on materiality of and dealing with Related Party Transactions' (the "Materiality Policy"), a transaction with a Related Party shall be considered material if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year, exceed(s) 10% of the annual consolidated turnover (excluding other income) of the Company as per the last audited financial statement of the Company (the "Material Related Party Transaction"). As at 31st March, 2018, the material related party threshold amounts to ₹ 56.62 crores. In terms of SEBI LODR, a Material Related Party Transaction requires approval of the Shareholders of the Company.

The Company works closely with its Related Parties to achieve its business objectives and enters into a range of Related Party Transactions with the Related Parties, from time to time in the ordinary course of business and at arm's length and such transactions with the Related Parties are likely to exceed the threshold of Material Related Party Transaction. The Audit Committee and the Board have, at their respective meetings held on 27th April, 2018 granted approval for seeking the approval of the Shareholders of the Company to enter into transactions with related parties and which are in the nature of providing or availing loans, providing or availing guarantee or security for loans borrowed by the Company or Related Parties, investments, sale, purchase or supply of goods or materials, selling or otherwise disposing of, or buying property of any kind; developing property of any kind, providing or availing services including but not limited to shared IT services, manpower services, development management fees and marketing fees, leasing of property of any kind and lease rentals and other transactions ("Transactions") which individually or taken together could be Material Related Party Transactions within the meaning of the Materiality Policy of the Company and within the meaning of Regulation 23 of SEBI LODR.

In view of the above, approval of the Shareholders is sought for following proposed Material Related Party Transactions:

OPERATIONS / STATE OF THE COMPANY'S AFFAIRS

India witnessed a marginal decline in macro-economic performance in 2017-18. According to estimates released by the Central Statistics Office (CSO), India's GDP growth is estimated at 6.6 percent in 2017-18, down from 7.1 percent in 2016-17. The deceleration was broad-based with a decline in both industrial and agricultural growth. More recently, quarterly growth has shown an upward trajectory and there has been a rebound in private consumption. As a result, the growth outlook for the Indian economy for 2018-19 has also turned positive with the RBI projecting the GDP growth to strengthen to 7.4 percent in 2018-19.

The Company sold 1,357 residential units aggregating to 1.16 million square feet of saleable area in 2017-18 compared to 863 units aggregating to 0.91 million square feet in the previous year. The sales growth of 57 percent and 27 percent by area sold was achieved inspite of the Company having to defer the launch of three of its projects in Mumbai due to High Court related restrictions and two of its projects, one each in Pune and Chennai, due to pending approvals. The launch of its third affordable housing projects, Happinest, Palghar met with a tremendous response with over 389 units sold in 45 days of launch.

The focus on execution continued during the year with the completion of construction aggregating to 0.68 million square feet and the handover of 1,592 units to customers.

In the affordable housing segment, where efficiencies are a critical component of the business plan, the two Happinest projects in Avadi and Boisar saw around 75 percent of the total launched phases being completed and around 1,155 units have already been handed over to the customers since construction commenced in 2015-16.

The Company is currently developing 3.97 million square feet with another 4.44 million square feet available in the form of forthcoming projects, new phases of ongoing projects and new projects that are in various stages of planning, for launch in the future.

In the Integrated cities and industrial clusters segment, around 62 acres of land leases were concluded during the year across the two operational World Cities in Jaipur and Chennai. In 2018-19, the Company expects to benefit from the ability to market to a wider customer base at Jaipur with the conversion of the sector-

specific SEZs into a multi-product SEZ in April, 2018. During the year, the Company also launched its new brand for mid-sized acres industrial clusters called 'ORIGINS by Mahindra World City'. The first two of these clusters, near Chennai and Ahmedabad, are in various stages of planning and development.

A more detailed account of the Company's operations is provided in the Management Discussion and Analysis Report, which forms a part of this Annual Report.

The standalone and consolidated financial statements for financial year 2017-18 have been prepared in accordance with applicable Indian Accounting Standards (INDAS).

The consolidated total income of your Company stood at ₹ 64,413 lakh in 2017-18 as compared to ₹ 83,102 lakh in 2016-17. The consolidated Profit before tax (PBT) stood at ₹ 13,454 lakh in 2017-18 as compared to ₹ 13,890 lakh in 2016-17, whereas the consolidated profit after tax (PAT) and minority interest was ₹ 10,100 lakh in 2017-18 as compared to ₹ 10,224 lakh in 2016-17.

Total income of your Company as a standalone entity was ₹55,722 lakh as compared to ₹75,320 lakh in 2016-17. PBT was ₹7,893 lakh as compared to ₹7,055 lakh in 2016-17, whereas PAT was ₹5,297 lakh as compared to ₹4,962 lakh in 2016-17. Total income in 2017-18 includes dividend income of ₹666 lakh from Mahindra World City (Jaipur) Limited and ₹370 lakh from Mahindra Integrated Township Limited, subsidiaries of the Company. In 2016-17, the Company had received dividend income of ₹824 lakh from Mahindra World City (Jaipur) Limited, a subsidiary of the Company.

No material changes and commitments have occurred after the close of the year till the close of this Report, which affects the financial position of the Company.

SUBSIDIARIES, JOINT VENTURES AND ASSOCIATE COMPANIES AS PER COMPANIES ACT, 2013

A report highlighting performance of each of the subsidiaries, associates and joint venture companies as per the Companies Act, 2013, and their contribution to the overall performance of the Company is provided in the Consolidated Financial Statement at Note no. 44.

The policy for determining material subsidiaries is available on the Company's website at https://www.mahindralifespaces.com/media/1323/policy-for-determining-material-subsidiaries.pdf

SUBSIDIARY COMPANIES

Mahindra World City (MWC), Chennai, is implemented by Mahindra World City Developers Limited (MWCDL), currently an 89:11 joint venture between the Company and the Tamil Nadu Industrial Development Corporation Limited (TIDCO), respectively. It is the first township in India to receive Green Township Certification (Stage I Gold certification) from IGBC. Mahindra World City, Chennai, was launched in September 2002, and currently has three sector specific Special Economic Zones (SEZs) — IT (services and manufacturing), Apparel and Fashion Accessories, and Auto Ancillaries, and a Domestic Tariff Area (DTA) for businesses catering to the Indian market. Integrated to the business zone is a Residential and Social zone. At the end of 2017-18, the project had a total area of 1,524 acres. With greater stabilization in the business zone, the focus is now on developing the residential and social infrastructure.

Mahindra World City, Jaipur, is being implemented by Mahindra World City (Jaipur) Limited (MWCJL), a 74:26 joint venture between the Company and Rajasthan State Industrial Development & Investment Corporation Limited (RIICO), a Government of Rajasthan enterprise, respectively. Mahindra World City, Jaipur is being developed as a Multi-Product Special Economic Zone and a Domestic Tariff Area for which 2,913 acres have already been acquired. Currently, the project has five SEZ zones (2 in IT / ITES, 1 each in Handicrafts, Engineering & Related Industries, Gems & Jewellery), a Domestic Tariff Area and a Residential and Social zone. The Ministry of Commerce and Industry (Department of Commerce) Government of India vide its notification dated 17th April, 2018 has approved consolidation of the sector specific Special Economic Zones (SEZs) into a multi-product SEZ and has re-notified the areas of these SEZs as a Multi-Product SEZ. The recognition as a MultiProduct SEZ will enable diverse sectors including those earlier notified, to establish their export units in the Multi-Product SEZ which may see increased exports and job opportunities from the export units set up in the Multi-Product SEZ. The focus is currently on lease of industrial land in the project as well as on developing the blueprint for the launch of the Residential and Social zone.

Mahindra Integrated Township Limited (MITL) is engaged as a co-developer in developing the residential township area at Mahindra World City, Chennai. Its current developments include 'Iris Court' and 'Nova'. Additionally, MITL is in the process of obtaining approvals for its next project at MWC, Chennai. After excluding the area under the above projects, MITL still has approximately 122 acres to be developed in phases for offering products in different formats and segments. MITL is 96.30 percent owned by the Company.

Mahindra Residential Developers Limited (MRDL), which is a wholly owned subsidiary of Mahindra Integrated Township Limited (MITL), and a co-developer is developing a gated residential community in approximately 55 acres within Mahindra World City, Chennai, under the name 'Aqualily'.

Mahindra Bebanco Developers Limited (MBDL) is a 70:30 joint venture between the Company and B.E. Billimoria & Co. Limited (BEBL), respectively. MBDL is developing a gated residential community 'Bloomdale' across approximately 25.2 acres at Multi-modal International Hub Airport at Nagpur (MIHAN). During 2016-17, certain disputes arose between the main contractor of Bloomdale BEBL and MBDL under the Construction Contract, which remained sub-judice on the date of this report. During the year, certain disputes arose under Shareholders Agreement (SHA) between the Company and BEBL. The Company has exercised its Call Option under the SHA and has called upon BEBL to tender its entire shareholding of 30%, in MBDL, for transfer to the Company. The disputes amongst BEBL, the Company and MBDL remained sub-judice on the date of this report and the Company and MBDL, in consultation with lawyers, have taken necessary steps to protect the interests of customers of Bloomdale and of the Company and MBDL.

Mahindra Homes Private Limited (MHPL), is a 74.98: 25.02 joint venture between the Company and SCM Real Estate (Singapore) Private Limited (SCM), respectively and is developing in collaboration with a developer and land owning companies, a group housing project "Luminare" at NCR on approximately 6.80 acres and a residential project "Windchimes" at Bengaluru on approximately 5.90 acres. The Company is exploring the possibility of undertaking additional projects in the mid-premium residential segment in India.

Mahindra Happinest Developers Limited (MHDL) incorporated on 6th September, 2017, is a 51:49 joint venture between MLDL and HDFC Capital Affordable Real Estate Fund – I, respectively. Thus, MHDL is a Subsidiary of the Company and cosequently, a subsidiary of the ultimate holding Company M&M.

MHDL launched its first affordable housing project in Palghar, Maharashtra, on approximately 8.35 acres, under the brand 'Happinest'.

Mahindra Industrial Park Chennai Limited (MIPCL), is a 60:40 joint venture between MWCDL and Sumitomo Corporation, Japan, respectively. Accordingly, MIPCL is a subsidiary of MWCDL and consequently, a subsidiary of the Company. MIPCL is setting up an industrial cluster in North Chennai (the NH-16 corridor) on approximately 264 acres under the brand 'Origins by Mahindra World City'.

Industrial Cluster Private Limited (ICPL) a wholly owned subsidiary of the Company has acquired approximately 268 acres of contiguous land at Jansali near Ahmedabad for setting up an industrial cluster. During the year, the Company partnered with International Finance Corporation (IFC), a member of the World Bank Group and received funding from IFC for the upcoming project at Jansali. The project will be marketed under the brand 'Origins by Mahindra World City'.

Mahindra Infrastructure Developers Limited (MIDL), a wholly owned subsidiary of the Company, is an equity participant in the project company namely, New Tirupur Area Development Corporation Limited (NTADCL) implementing the Tirupur Water Supply and Sewerage project.

Mahindra World City (Maharashtra) Limited (MWCML), is a wholly owned subsidiary of the Company, which was set up to undertake large format development. The Company is looking out for an appropriate business opportunity to take up projects in real estate development. During the year, consequent to the order of the Hon'ble National Company Law Tribunal pursuant to the scheme of arrangements, Raigad Industrial and Business Park Limited, a wholly owned subsidiary of the Company and Kismat Developers Private Limited, Topical Builders Private Limited, associate companies of the Company merged with Mahindra World City Maharashtra Limited (MWCML). As a result, Deep Mangal Developers Private Limited, which was a subsidiary of Topical Builders Private Limited became a subsidiary of MWCML and consequently a subsidiary of the Company and of the ultimate holding company. Deep Mangal Developers Private Limited is exploring the possibility of undertaking a large format development on the southern coast of Maharashtra where it already owns land. Also as a result of the merger, Mahindra Construction Company Limited and Moonshine Construction Private Limited became subsidiary companies of the Company. The merger process was initiated with the purpose of reducing non-operative entities and compliance costs thereby eliminating overheads. In the current year, the Company will continue the process of identifying other non-operating entities for merger to streamline the numbers of entities and eliminate overheads of such entities.

Knowledge Township Limited (KTL), a wholly owned subsidiary of the Company will be developing an industrial park in Maharashtra under the brand 'Origins by Mahindra World City'

for which the company is in the process of procuring the required land area.

Industrial Township (Maharashtra) Limited (ITML), a wholly owned subsidiary of the Company is exploring the possibility of taking up real estate development.

Anthurium Developers Limited (ADL) a wholly owned subsidiary of the Company is exploring the possibility of taking up real estate development projects.

Mahindra Water Utilities Limited (MWUL) is engaged in the business of operation and maintenance service for water and sewerage facilities at Tirupur, India and is a 98.99 percent subsidiary of Mahindra Infrastructure Developers Limited and consequently, a subsidiary of the Company.

ANNEXURE 1 DIVIDEND DISTRIBUTION POLICY

The Dividend Distribution Policy ("the policy") establishes the principles to ascertain amounts that can be distributed to equity shareholders as dividend by the Company as well as to enable the Company strike a balance between pay-out and retained earnings, in order to address future needs of the Company. The policy shall come into force for accounting periods beginning from 1st April, 2016.

Dividend would continue to be declared on per share basis on the Ordinary Equity Shares of the Company having face value of ₹ 10 each. The Company currently has not issued any other class of shares. Therefore, dividend declared will be distributed amongst all shareholders, based on their shareholding on the record date.

Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, out of the profits of the Company for current year or out of profits of the Company for any previous financial years or out of both, as may be permitted under the Companies Act, 2013 ("the Act").

In the event of inadequacy or absence of profits in any year, the Board may recommend to declare dividend out of the accumulated profits earned by the Company in any previous financial years and transferred to free reserves, provided such declaration of dividend shall be in accordance with the provisions of the Act and Rules framed thereunder.

The Board may also declare interim dividend as may be permitted by the Act.

The Company has a consistent dividend policy that balances the objectives of appropriately rewarding shareholders through dividends and to support the future growth.

As in the past, subject to the provisions of the applicable law, the Company's dividend payout will be determined based on available financial resources, investment requirements and taking into account optimal shareholder return. Within these parameters, the Company would endeavor to maintain a total dividend pay-out (including dividend distribution tax) ratio in the range of 20% to 35% of the annual standalone Profits after Tax (PAT) of the Company.

While determining the nature and quantum of the dividend payout, including amending the suggested payout range as above, the Board would take into account the following factors:

- Internal Factors:
 - Profitable growth of the Company and specifically, profits earned during the financial year as compared with:
 - a. Previous years and
 - b. Internal budgets.
 - 2. Cash flow position of the Company,
 - 3. Accumulated reserves,
 - Earnings stability,
 - 5. Future cash requirements for organic growth/ expansion and/or for inorganic growth,
 - 6. Brand acquisitions,
 - Current and future leverage and, under exceptional circumstances, the amount of contingent liabilities,
 - Deployment of funds in short term marketable investments,

- 9. Long term investments,
- 10. Capital expenditure(s), and
- 11. The ratio of debt to equity (at net debt and gross debt level).
- External Factors:
 - 1. Business cycles,
 - 2. Economic environment,
 - Cost of external financing,
 - 4. Applicable taxes including tax on dividend,
 - 5. Industry outlook for the future years,
 - 6. Inflation rate, and
 - Changes in the Government policies, industry specific rulings & regulatory provisions.

Apart from the above, the Board also considers past dividend history and sense of shareholders' expectations while determining the rate of dividend. The Board may additionally recommend special dividend in special circumstances.

The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analyzing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment. In such an event, the Board will provide rationale in the Annual Report.

The retained earnings of the Company may be used in any of the following ways:

- 1. Capital expenditure for working capital,
- Organic and/or inorganic growth,
- Investment in new business(es) and/or additional investment in existing business(es).
- 4. Declaration of dividend,
- 5. Capitalisation of shares,
- 6. Buy back of shares,
- 7. General corporate purposes, including contingencies,
- 8. Correcting the capital structure.
- Any other permitted usage as per the Companies Act, 2013.

Information on dividends paid in the last 10 years is provided in the Annual Report.

This policy may be reviewed periodically by the Board. Any changes or revisions to the policy will be communicated to shareholders in a timely manner.

The policy will be available on the Company's website at https://www.mahindralifespaces.com/media/1315/dividend-distribution-policy.pdf

The policy will also be disclosed in the Company's annual report.

ANNEXURE 4 POLICY FOR REMUNERATION OF THE DIRECTORS

PURPOSE

This Policy sets out the approach to Compensation of Directors in Mahindra Lifespace Developers Limited.

POLICY STATEMENT

We have a well-defined Compensation policy for Directors, including the Chairman of the Company. The overall compensation philosophy guides us to focus on enhancing the value of the Company by attracting and retaining Directors for achieving objectives of the Company.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act, 2013 and Part D of Schedule II of the SEBI LODR with Stock Exchanges and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

MANAGING DIRECTOR & CHIEF EXECUTIVE OFFICER (MD & CEO) AND EXECUTIVE DIRECTORS

Remuneration of the MD & CEO and Executive Directors reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director and Executive Directors, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies. The policy aims at a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

The remuneration to the MD & CEO shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as per the policy of the Company from time to time and as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of appointment which is also subject to annual review based on performance and responsibilities and the variable compensation will be determined annually by the NRC based on the performance of MD & CEO.

ANNEXURE 5 POLICY ON REMUNERATION OF KEY MANAGERIAL PERSONNEL AND EMPLOYEES

OBJECTIVE

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

STANDARDS

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will vary from 10% to 25% of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business
 performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated
 on Key Result Areas (KRA). Both BSC and KRA are evaluated at the end of the fiscal to arrive at the BSC rating of the business
 and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
 - a. The increment that needs to be paid for different performance ratings as well as grades;
 - b. The increment for promotions and the total maximum increment;
 - c. The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

MANAGEMENT DISCUSSION AND ANALYSIS

Mahindra Lifespace Developers Limited ('Mahindra Lifespaces', 'MLDL' or 'the Company') is one of the leading real estate development companies in India. Over the years, the Company has created a reputation for itself by delivering an array of highly successful projects and establishing industry benchmarks in sustainable development.

Mahindra Lifespaces, along with its subsidiary companies, joint ventures (JVs) and associates, is engaged in the development of residential projects in the mid-premium and affordable housing segments, and integrated cities and industrial clusters. This chapter presents an overview of the performance of the Company during 2017-18 and its strategy for future growth.

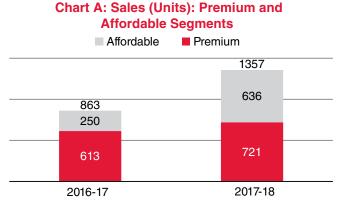

Performance Highlights

2017-18 was a significant year for the real estate industry from a regulatory standpoint with the establishment of state authorities and rules under the Real Estate (Regulation and Development) Act (RERA) and the implementation of Goods and Services Tax Act (GST).

These policy initiatives are aimed at making the sector more efficient and organised, as well as in increasing customer confidence through greater transparency and protection for home buyers. Despite the uncertainty and ambiguity in the short-term, Mahindra Lifespaces, with its transparent policies and preparedness, has smoothly transitioned to the new policy regime — which reflects through its credible performance across business segments during the year.

Strong Sales Performance in Residential

The Company sold¹ 1,357 residential units aggregating to 1.16 million square feet of saleable area in 2017-18 compared to 863 units aggregating to 0.91 million square feet in the previous year. As shown in Chart A, this improvement in sales performance was driven by a successful launch of its third affordable housing project – Happinest, Palghar in the Mumbai Metropolitan Region (MMR) and improved sales performance in its ongoing projects across the mid-premium and affordable housing segments. The Company recorded a 57 percent growth in sales volume and a 27 percent growth in area sold vis-a-vis the previous year.

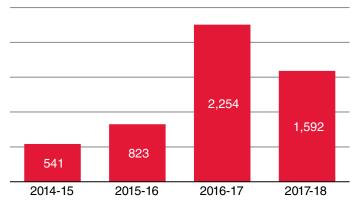

The planned launch of three new projects in the premium segment² had to be deferred due to high court orders banning new construction in Mumbai³. In addition, the launch of two projects, one each at Pune and Chennai were delayed pending approvals. The Company launched new phases in five of its existing projects – Windchimes (Bangalore), Antheia (Pune), Bloomdale (Nagpur), Happinest Avadi (Chennai) and Happinest Boisar (MMR). Sales in ongoing projects remained strong during the year with consistent efforts in the area of customer acquisition. These are discussed in greater detail in the section on 'Strategic Priorities'.

Continued Focus on Execution

The Company's focus on execution was strongly reflected through the handover of 1,592 units to customers during 2017-18 — taking the total number of units handed over in the last two years to over 3,800. This marked a significant uptick from the achievement in previous years, which can be seen in Chart B.

Chart B: Number of Units Handed Over

The Company continues to focus on reduction in cycle time of its projects. This is especially critical in the affordable housing segment, where construction efficiencies are critical to a positive project profitability and returns. The Company's affordable housing projects in Avadi and Boisar have seen a handover of around 1,155 units to customers since the commencement of construction in 2014-15.

Improvements in the pace of project execution and handovers have been a result of the Company's capabilities in scalable processes, customer relations and its focus on quality and safety. These have been discussed in greater detail in the respective sections of this report.

¹ Sales includes the Company's share, partners' share in joint developments and sales by its subsidiaries and JVs. Sales includes commercial / retail units that are a part of its residential projects.

² The premium segment includes all residential projects of the Company, barring the three affordable housing projects in Avadi, Boisar and Palghar marketed as Happinest.

³ The Bombay High Court placed restrictions on: (a) granting permissions for new construction due to solid waste management issue in Mumbai, and (b) granting building height approvals in the funnel area of the airport in Mumbai. These restrictions have affected upcoming projects of all developers, including Mahindra Lifespaces.

Significant Contribution from World Cities

The integrated cities and industrial clusters recorded 62 acres of land leases during the year, compared to 74 acres in the previous year. The two operational World Cities at Jaipur and Chennai contributed significantly to the Company's profits in 2017-18. Mahindra World City (MWC) Jaipur, which improved its inventory mix during the previous year with the launch of its second DTA, has further enhanced its ability to reach a wider customer base with the amalgamation approval for its sector specific SEZs into a Multi-Product SEZ towards the end of 2017-18, that was followed by the final notification in April 2018.

During the year, the Company launched its industrial clusters brand – 'ORIGINS by Mahindra World City'. The first two clusters, located near Chennai and Ahmedabad, are in various stages of planning and development. These smaller industrial clusters will have a relatively shorter project lifecycle than the existing large-format integrated cities in Chennai and Jaipur. Further details on the product offering are presented in the section on 'Opportunities and Strategy'; and details of the development activity in the first two clusters are discussed in 'Operations'.

Creditable Financial Performance

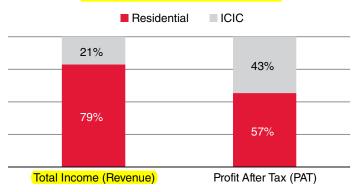

2017-18 was a difficult year for the real estate industry due to a challenging macroeconomic and regulatory environment. In addition, the Company had to defer its planned launches due to regulatory issues. Despite these headwinds, Mahindra Lifespaces registered a creditable performance.

- Consolidated⁴ revenue reduced from ₹ 831 crore in 2016-17 to ₹ 644 crore in 2017-18; however, operating profits (PBDIT) increased by 13.6 percent from ₹ 119 crore in 2016-17 to ₹ 135 crore in 2017-18. Operating margins improved from 14.3 percent in 2016-17 to 21 percent in 2017-18.
- Profit after taxes (PAT) of the standalone entity increased by 8.5 percent from ₹ 48.9 crore in 2016-17 to ₹ 53.1 crore in 2017-18. Consolidated profit after taxes (PAT) after noncontrolling interest (NCI), stood at ₹ 101 crore in 2017-18 compared to ₹ 102 crore in 2016-17.
- Diluted EPS was ₹ 19.88 for the consolidated entity.

The indicative share of operating entities⁵ engaged in the Residential and Integrated Cities & Industrial Clusters (ICIC)

businesses in the revenues and profits of 2017-18 is provided in Chart C. Further, details of financial performance of all operating entities are provided in the 'Financials' section.

Chart C: Share of Businesses in Revenue & Profit

In the remainder of the report, we will present the operational and financial performance of the Company, followed by a discussion on risks and concerns and conclude with future outlook. We begin with an overview of the opportunities in the current environment, and the Company's growth strategy.

Opportunities and Growth Strategy

Turnaround in global economic performance that started in mid-2016 gathered momentum, became stronger and more broad-based in 2017. According to the IMF, global growth is projected to increase from 3.2 percent in 2016 to 3.8 percent in 2017 — the steepest since 2011. Growth in emerging markets and developing economies is likely to firm up, along with a modest turnaround for commodity exporters. With advanced economies continuing to perform well and being host to an environment of supportive financial conditions, the IMF expects global growth to further improve to 3.9 percent in 2018 and 2019.

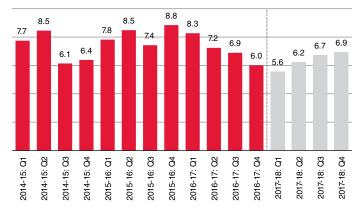

India witnessed a marginal decline in macroeconomic performance in 2017-18. According to the second advance estimates released by the Central Statistics Office (CSO) on 28th February, 2018, growth in India's Gross Value Added (GVA) for 2017-18 is estimated at 6.4 percent, compared to 7.1 percent in the previous year. This deceleration was attributed to a decline in industrial and agricultural growth, even as the services industry grew from 7.5 percent in 2016-17 to 8.3 percent in 2017-18.

⁴ Following the adoption of Indian Accounting Standards (IND AS) by the Company, classification of subsidiary is now based on control and not just shareholding. As a result, four entities including the two operating integrated cities in Chennai and Jaipur, which were formerly being consolidated as subsidiaries, are now treated as JVs. As per IND AS, for all JVs, equity method of accounting is applicable, whereby MLDL's share of profit in joint ventures is directly credited to profit and loss account instead of proportional line-by-line consolidation. List of these entities is provided in the section on 'Financials'.

⁵ Share is computed based on the sum of standalone Income and PAT of the operating entities engaged in the two businesses. The list of these entities along with the figures on Income and PAT are provided in Table 4, in the section on 'Financials'.

In a positive development, from the real estate industry perspective, the construction sector that accounts for around 8 percent of the GDP grew at a marginally higher 4.3 percent in 2017-18 after a lacklustre 3.7 percent and 1.3 percent in 2015-16 and 2016-17 respectively.

Chart D: Growth in Gross Value Added at Basic Prices (YoY, %)

The quarterly growth data of GVA as shown in Chart D, also depicts an upward trend in 2017-18. The Reserve Bank of India, in its first monetary policy statement released on 5th April, 2018, also assessed that demand strengthened in Q4, 2017-18 — with a strong rebound in private consumption and growth in sales of tractors and two-wheelers. This suggests that the transient negative impact of demonetisation and implementation of the Goods and Services Tax Act (GST) is over.

The manufacturing Purchasing Managers' Index (PMI) continues to be in an expansionary mode and the business sentiment measured by the RBI's Industrial Outlook Survey also improved in Q4, 2017-18. The investment outlook has also turned positive with sustained expansion in capital goods production and buoyancy in imports. Besides, global demand and investments have gathered steam and are likely to grow in the next couple of years.

The growth outlook for the Indian economy for 2018-19 is positive — with the RBI projecting a GDP growth of 7.4 percent in 2018-19. This has to be tempered by rising crude oil prices and their effect on the current account of India's balance of payments; plus a growth in 'core' inflation (excluding food and fuel) over the last few months, which may lead to the RBI opting for one or two rate hikes of 25 basis points each in the course of 2018-19. Despite these pitfalls, the upswing in GDP/GVA growth is expected to continue, which will augur well for the real estate industry.

Residential Developments

The residential segment continued to have high inventory levels in key markets despite a sharp drop in new launches due to implementation of RERA. Demand remained subdued, especially in the earlier part of 2017-18, with a gradual pick-up towards the fourth quarter, as the uncertainty around GST and its impact on prices dissipated.

Delhi-NCR, one of the geographies that Mahindra Lifespaces operates in, continued to be the most affected market. In comparison, the situation was better in Mumbai, Pune, Hyderabad and Bangalore, where prices remained stable despite muted end-user demand. The Company has identified the western and southern regions as growth corridors for its residential business. It currently has projects in the Mumbai Metropolitan Region (MMR), Pune and Chennai which are in advanced stages of planning or approvals. The Company seeks to grow its presence significantly in Mumbai, Pune and Bangalore and add to its presence in Hyderabad and NCR before exploring any other geographies.

The luxury segment, among the various product segments, was the most affected with dismal absorption levels. The situation was relatively better for projects in the premium to mid segment range. The Company will continue to focus its growth strategy on the mid- premium segment where it has a strong connect and equity with the target customer.

The affordable housing segment saw maximum traction during the year, with forward strides in government policies such as 'Housing for All' and the 'Pradhan Mantri Awas Yojana', which have further improved the viability and outlook for the segment. The Company, which launched its brand 'Happinest' in this segment, in 2014-15, has three operational projects with around 1,850 homes sold. Based on the learnings and success of its ongoing projects at Avadi and Boisar, and the recently launched project in Palghar, the Company is confident of scaling up its presence in this space as a part of its future growth strategy.

Integrated Cities & Industrial Clusters (ICIC)

The Company is a pioneer in integrated cities space, and currently has two operational integrated cities: Mahindra World City, Chennai and Jaipur, which have been developed in a public-private partnership model with the respective State Governments. During 2017-18, there was a moderate revival in the demand for industrial land and built-to-suit solutions from companies targeting the Indian market. Demand from export-oriented manufacturing units was subdued in comparison. Besides, longer decision cycles of companies looking to lease land have resulted in fewer deals, despite growth in interest and enquiries. The Company will focus on increasing its deal pipeline and closures in the balance inventory of industrial land in Chennai and in leveraging the enhanced product-mix at Jaipur to add more customers in its DTA and multi-product SEZ.

As a part of its growth strategy for this business, the Company has also decided to build a network of smaller industrial clusters, branded as 'ORIGINS by Mahindra World City'. Further details on the characteristics of these projects and the brand proposition are provided in Box 1.

Box 1: 'ORIGINS by Mahindra World City'

Vision: Accelerated economic growth by creating world-class industrial ecosystems that attract investment in manufacturing and promote 'Make in India'. Address the growing need for sustainable industrial infrastructure and provide impetus to India's rising prowess as a global manufacturing and investment hub.

Product: Industrial clusters spanning 250-600 acres meeting global standards located in high growth corridors across India. Allow faster go-to-market with clear land titles, plug-and-play infrastructure, in-house expertise in operations and security along with a range of business support services such as warehousing, logistics and banking. In addition, provide value-added services such as fulfilment centres, industrial kitchens and industrial waste management.

Business Case: Shorter turnaround time increases the capital efficiency and pre-aggregated approach to land acquisition reduces the risk profile. This also improves the attractiveness of such projects to strategic and financial investors, allowing the Company to raise capital through collaborations and equity participation. Smaller projects also enable focused offerings for specific industrial segments in the clusters that they operate.

Sustainable Urbanisation: Support development beyond current urban centres by making available a holistic environment conducive to accelerated business growth. Focus on sustainability principles and incorporate environment-friendly solutions in areas such as energy efficiency, water and waste management.

The Company has identified upcoming industrial destinations and corridors in the western and southern regions to start with. It has initiated planning / development on two projects: one, near Chennai (Tamil Nadu) in a joint venture with Sumitomo Corporation, Japan, and the other near Ahmedabad (Gujarat) with International Finance Corporation as a strategic partner.

Operations - Projects Update

Residential Developments

2017-18 witnessed continued focus on execution, with a sustained momentum in construction completion and a major step-up in the number of handovers by the Company. Table 1

provides a snapshot of the Company's project portfolio across different markets. As of 31st March, 2018, the Company along with its subsidiaries has completed projects covering 14.55 million square feet⁶ in the residential segment, including 0.68 million square feet completed during the year.

During 2017-18, the Company launched Happinest Palghar, its third affordable housing project, which received a tremendous response. Additionally, it launched fresh inventory in five of its existing projects. It is currently developing 3.97 million square feet with another 4.44 million square feet available in the form of forthcoming projects - new phases of ongoing projects and new projects that are in various stages of planning, for launch in the future.

Table 2 provides project-wise status of sales and construction completion of the Company's ongoing projects as well as information on forthcoming projects for which design development or approvals are underway. In addition to this, the Company has a landbank with a development potential aggregating around 10.44 million square feet⁷, 91 percent of which is within Mahindra World City, Chennai.

Integrated Cities & Industrial Clusters

2017-18 was host to new customer acquisition as well as expansion by existing customers in the two operational Mahindra World Cities at Chennai and Jaipur. Combined exports by companies at the two World Cities was ₹ 12,739 crore and their direct employment stood at around 50,000 persons. Mahindra World City, Jaipur was conferred the "Best PPP (Public-Private Partnership) Model" at the 'Business World Smart Cities Conclave & Awards, 2017'.

Mahindra World City, Chennai, leased 17.6 acres during the year, adding three new customers, while two existing customers

took up additional land for expansion. As a result, the total number of industrial customers increased to 66 (26 in the SEZ and 40 in the DTA). Of these, 54 companies were operational as of 31st March, 2018.

The four operational residential projects at Mahindra World City, Chennai, saw an increase in occupancy from around 1,100 families in the previous year to 1,850 families in 2017-18. Details of the residential projects in Mahindra World City, Chennai have already been provided in the section on residential developments.

On the social infrastructure front, considerable progress was made during the year with the on boarding of a new school and the expansion of the Mahindra World School and JSP Hospitals. Additionally, Mahindra World City, Chennai divested its stake in 'Canopy' — the city's retail and commercial centre — in line with the strategy to focus on its core business.

Mahindra World City, Jaipur leased 44 acres during the year, adding eight new customers, while five existing customers took up additional space. At the end of the year, the Company had 81 industrial customers — 47 in the Special Economic Zones (SEZs) and 34 in the Domestic Tariff Area (DTA). Of these, 49 companies are operational and another 10 are expected to start operations in 2018-19. The Company is currently in the process of finalising the master plan for its residential and social infrastructure area.

In an important development since the close of 2017-18, MWC Jaipur received the notification, constituting the final approval from the government, to establish a multi-product SEZ. As a result, the existing sector-specific SEZs — IT/ITeS, Engineering and Related Industries, Handicrafts, Gems & Jewellery — will be amalgamated into a composite multi-product SEZ, which will further widen the target customer base and improve the project outlook.

Origins, Chennai, is the Company's first venture in the industrial clusters space. It is a 264 acre project in North Chennai, which is being developed through its subsidiary in a JV with Sumitomo Corporation. All approvals for the project are in place and development work started in 2017-18.

Origins, Jansali, is the Company's second industrial cluster near Ahmedabad, Gujarat, with an area of 268 acres. It will be developed through its subsidiary, with International Finance Corporation as a strategic partner. The Company is in the process of securing necessary approvals for the project.

Operations – Strategic Priorities

The strategic priorities of the Company have been focused on building brand equity and shareholder value through differentiation and scale.

Customer Acquisition and Engagement

2017-18 was a tough year for the real estate sector, with sluggish demand and ambiguity due to implementation of GST and RERA. Additionally, the Company had to defer most of its new launches due to regulatory holdups. In this environment, the Company's focus was on driving sales in existing projects. Some of the key initiatives are discussed below.

Significant efforts were made during the year to improve lead quality, with increased focus on digital and referral sources. A rigorous process of enquiry tracking, aided by technology, helped increase actionable leads. This was supported by a customerfocused, upgraded contact centre, that significantly enabled direct integration with the sales function. Typical response time to enquiries came down from around 24 hours to less than 10 minutes. The Company also leveraged community events, during project milestones such as handovers, launch of club house and during festivals, to engage with the customers and generate referrals. Additionally, it also engaged pro-actively with its 700-odd channel partners during the year.

In January 2017, the Company launched 'Joyful Homecomings' as its brand proposition — the cornerstone of its communication strategy. 2017-18 saw significant activity, with all the campaigns and messaging consistent with the strategy. Social media was extensively leveraged to build the brand identity around four themes: spreading joy, transparency, environment and quality of life.

Several of the Company's campaigns saw success and social media engagement levels increased significantly during the year. These campaigns generated over 180 million Facebook and Twitter impressions and over 8 million video views during the year. The Company's #lamGreenArmy digital campaign received the "Best Social Media Campaign of the Year" at the CMO Asia, Global Youth Marketing Forum Awards. The campaign also received the Gold award for "Digital Marketing,

Effectiveness" at Asian Customer Engagement Forum and Awards (ACEF).

Execution Excellence

Robust project execution skills are an important enabler of scale. The Company during the previous year, initiated a large scale business process re-engineering exercise – Project Udaan. During the year Udaan focused on defining the road-map for reducing cycle time of projects in the product development and construction stages. Additionally, the intervention helped define the blue print for standardisation, the decision framework for building internal capabilities vs. outsourcing and the use of technology to enable better data management and faster decision cycles. The Company implemented the standardisation framework for segment-wise product specifications by segment, for materials like pre hung doors, windows, tiles, tile fixing and water-proofing during 2017-18.

The Company's strong quality management system has been instrumental in improving the quality of its products and processes. In the previous year's annual report, we had mentioned how the Company's focus on delivering a 'Zero-Snag Product' received a major boost with the implementation of a mobile application 'Q SCAN', which automates the entire home inspection process prior to handover. This was extended to all projects in 2017-18. Post-handover feedback mechanisms were also institutionalised to enable accurate analysis and corrective action.

Mahindra Lifespaces has an established 'Safety Policy' which underscores its commitment to prevent accidental injuries and improve the occupational health of its associates. Its flagship safety initiative "Safe Methods and Risk Reduction Techniques" (SMARRT) implements international best practices and aims to eliminate unsafe acts by proactive reporting of such incidents.

The Company had no fatal accidents in the last three years and zero reportable accidents in two of the three years. It furthered its journey in safety from monitoring accidents to monitoring near misses and reducing first-aid cases. It also carried out extensive safety training workshops to improve processes, sensitise workers and promote safe practices. In recognition of its efforts, Mahindra Lifespaces received the 'CIDC Vishwakarma Award' for 'Health Safety & Environment' for two of its projects: Vivante in Mumbai and Happinest, Boisar. These awards are given by Construction Industry Development Council (CIDC), established by the Planning Commission (now Niti Aayog) and the Construction Industry. There was one reportable accident during 2017-18.

Customer Relations

The Customer Relations (CR) function at Mahindra Lifespaces endeavours to service its customers during the entire lifecycle, from booking to post-handover facilitation. The Company has significantly invested in systems and process to achieve

differentiation and enhance its ability to handle scale. These efforts have enabled the Company to efficiently handover a total of over 3,800 residential units in 2016-17 and 2017-18.

In the previous year, the Company had initiated implementation of a tech-based CRM solution aimed at enabling a single view of the customer, right from the prospecting stage to post-handover. Considerable progress was made on this front during 2017-18, which enabled the roll-out of two significant initiatives to strengthen customer experience:

- "Customer Assist" a single contact number for the customer from sales to post-handover that logs and tracks all queries until they are successfully resolved.
- "M-Life" a mobile application for customers. Apart from enabling the complete set of transactions and enquiries during the customer's journey with the Company, it also allows them to avail value added services and connect with other homeowners in a project.

During the year, the Company also upgraded its website and to improve navigation and information content. New features such as grievance redressal, testimonials and blog were introduced and the website was enabled for e-commerce transactions, with online bookings taking place for projects in Boisar and Palghar.

With the significant increase in handovers, post-handover services and facility management (FM) have been other key areas of focus. During the year, the Company expanded its post-possession value added services that had been piloted in 2016-17 — both, in terms of number of projects and types of services. These now encompass complete interior solutions, electrical fittings, lighting solutions and modular kitchens. Going forward, the Company shall further increase the bouquet of value added services available to customers.

Land and Financial Capital

The Company is focused on adding significantly to its current portfolio of projects to meet its growth objectives. The Company sees an opportunity arising out of RERA and market conditions, to pursue asset light acquisitions through the joint-development, joint-venture and development management routes with land owners. To this end, it is enhancing its reach, access and team strength in business development to increase deal pipeline and closures. It is prioritising acquisitions in its focus markets of Mumbai, Pune and Bengaluru followed by Hyderabad and NCR.

Mahindra Lifespaces has seen increasing success in its ability to raise risk capital and scale up its presence through asset light models with credible partnerships. During the year, the Company entered into two such partnerships. The first partnership is with International Finance Corporation (IFC), a member of the World Bank Group, for the development of multiple industrial parks across Gujarat, Rajasthan and Maharashtra. This entails an investment commitment of USD 50

million, with the first investment in Origins, Jansali — the 268-acre industrial cluster near Ahmedabad. The second partnership is with a fund managed by HDFC Capital Advisors Limited for projects in the affordable housing space, with joint commitment of ₹ 500 crore that can deliver development footprint of 5-10 million square feet. Happinest, Palghar (I & II), in the Mumbai Metropolitan Region, which has an estimated saleable area of 1.05 million square feet, is the first project to be implemented under this partnership.

The Company already has a partnership with Standard Chartered Real Estate (Singapore) Private Ltd for residential projects in the mid-premium segment. The JV company has completed investments accounting for close to 65 percent of the total joint investment commitment of ₹ 1000 crore.

During the year, the Company also focused on reducing its cost of capital by re-negotiating interest rates on existing loans and prudently using alternatives like commercial paper. The average cost of consolidated debt reduced from 9.86 percent in 2016-17 to 9.49 percent in 2017-18.

Human Capital

Mahindra Lifespaces recognises that its people are key to the success of the organisation and in accelerating its growth trajectory. During the year, the Company continued its efforts to strengthen its HR policies and processes to attract and retain the best talent in the industry. It enjoys relationships with specialised institutions in the construction industry such as National Institute of Construction Management and Research and RICS School of Built Environment for entry level positions in project management and sales.

The Company is focused on catering to the learning and development needs of its associates, for which it regularly carries out structured training initiatives in functional areas such as sales, marketing, customer service, and project management. During the year, it extended its e-learning platform with a programme covering product design for its sales associates. It also carried out extensive programmes on RERA and GST across the country to familiarise its people with these developments. Overall, each associate of Mahindra Lifespaces received an average of 24 manhours of training in 2017-18.

Mahindra Lifespaces endeavours to keep its workplaces safe, transparent and friendly for people to work in. It also has a policy which is aligned to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. The Company has a 'Diversity Council' with the objective of creating an inclusive environment in the workplace. As of 31st March, 2018, the percentage of women as full-time associates stood at 18 percent. During the year, it introduced a mentorship programme for women associates. Moreover, three of its associates graduated from an 18-month Women Leadership Programme instituted by the Mahindra Group's a

Centre for Leadership Development. During the year, Mahindra Lifespaces was selected by Working Mother and AVTAR as one of the "100 Best Companies for Women in India".

As of 31st March, 2018, the Company together with its subsidiaries had 362 associates on its rolls. In addition, the Company had

more than 4,000 workmen, across all its sites, employed by its contractors. Associate relations remained cordial during the year.

Despite a challenging macroeconomic and regulatory environment for the real estate industry, Mahindra Lifespaces registered a creditable financial performance during 2017-18.

Consolidated⁸ total revenue reduced from ₹ 831 crore in 2016-17 to ₹ 644 crore in 2017-18, primarily due to decline in project activity during the year and a one time revenue of ₹ 176.71 crore through sale of land in the previous year. Even so, operating profits (PBDIT) increased by 13.6 percent from ₹ 119 crore in 2016-17 to ₹ 135 crore in 2017-18. Increase in efficiencies and ability to contain costs also resulted in an improvement in

operating margins — from 14.3 percent in 2016-17 to 21 percent in 2017-18.

Share of profit from JVs and associates remained stable during the year. However, with a significant increase in financial expenses (consolidated) from ₹ 20.2 crore in 2016-17 to ₹ 41.3 crore in 2017-18, net profits of the consolidated entity were marginally lower than the previous year. Profit before taxes (PBT) of the consolidated entity, after including share in profit from JV entities and associates, stood at ₹ 134.5 crore in 2017-18 as compared to ₹ 138.9 crore in 2016-17. After accounting for non-controlling

⁸ Following the adoption of Indian Accounting Standards (IND AS) by the Company, classification of subsidiary is now based on control and not just shareholding. As a result, four entities including the two operating integrated cities in Chennai and Jaipur, which were formerly being consolidated as subsidiaries, are now treated as JVs. As per IND AS, for all JVs, equity method of accounting is applicable, whereby MLDL's share of profit in joint ventures is directly credited to profit and loss account instead of proportional line-by-line consolidation. Further details are provided in Table 4.

interest (NCI), the consolidated PAT of the Company was ₹ 101 crore in 2017-18, compared to ₹ 102.2 crore in the previous year.

In contrast, net profits of the standalone entity grew at a fair pace. Standalone PBT increased by 11.9 percent from ₹ 70.6 crore in 2016-17 to ₹ 78.9 crore in 2017-18, and PAT grew by 8.5 percent from ₹ 48.9 crore in 2016-17 to ₹ 53.1 crore in 2017-18.

Under IND AS, line-by-line consolidation is not followed for

some of the operating entities. Table 4 provides a summary of the financial performance of legal entities operating in the two key businesses. These are drawn from standalone financial statements of these entities. Also, intercompany transactions have not been eliminated and a simple aggregation of numbers is shown as "Total" for entities engaged in the Residential and Industrial businesses. Accordingly, the "Total" of Revenues and PAT for the two businesses are indicative in nature.

As of 31st March, 2018, Mahindra Lifespaces' standalone debt equity ratio was at 0.20:1 and consolidated debt equity ratio was at 0.22:1. The liquidity situation during the year remained comfortable. Surplus funds available from time to time have been invested in credit worthy instruments, including money market instruments, mutual funds and deposits with banks.

Threats, Risks and Concerns

Mahindra Lifespaces has appropriate risk management systems in place for identification and assessment of risks, measures to mitigate them, and mechanisms for their proper and timely monitoring and reporting. It has a Risk Management Committee consisting of two Directors and the Chief Financial Officer, for

timely monitoring and review of the risk assessment, mitigation and risk management plan. The Board reviews implementation and monitoring of the Company's risk management plan.

Economic Risks

GDP growth decelerated marginally during the year. Although there are signs of a turnaround, there are still downside risks. Lending rates for business and home loans continue to be high and there are risks associated with increase in policy rates if inflation rises. These can have a direct impact on the performance of the real estate sector and the Company. Besides, even as global economic growth witnessed a significant revival, investment outlays in Indian businesses, especially those in export-oriented industries, is yet to benefit from these emerging trends.

Mahindra Lifespaces is conscious of these risks and is taking measures to mitigate them. For instance, the Company's focus on both the residential and industrial sectors has been a significant source of comfort during periods of slow economic performance. Similarly scaling up of presence in affordable housing space has mitigated risks associated with a seemingly poor outlook in the luxury housing segment. Prudent financial management has also kept the Company relatively insulated from the economic downturn. It has successfully raised risk capital through equity participation and strategic partnerships across segments, and is well placed to raise capital at competitive rates.

Operational Risks

Key operational risks include longer gestation period for land procurement, more time taken for approvals, inability to sell the project as per plan, inability to complete and deliver projects according to the schedule leading to additional cost of construction and maintenance, erosion of brand value, appointment and retention of quality contractors, inability to attract and retain talent, poor customer satisfaction, fraud and unethical practices, failure to comply with laws and regulations leading to fines, penalties and lengthy litigations.

The Company addresses these risks through a well-structured framework which identifies desired controls and assigns ownership to monitor and mitigate the risks. It has invested significant resources in transparent customer friendly processes and an enabling IT infrastructure, which are expected to effectively address some of these risks. It also has a Code of Conduct for all its associates. The Company's corporate governance policies ensure transparency in operations, timely disclosures and adherence to regulatory compliances.

Policy and Regulatory Risks

The real estate industry is easily affected by changes in government policies and regulations. There are considerable procedural delays with respect to approvals related to acquisition and use of land. Unfavourable changes in the government policies and the regulatory environment may adversely impact the performance of the Company. Inability to launch projects in MMR due to a ban in new construction by the High Court during 2016-17 and 2017-18 is one such instance.

The Company attempts to mitigate these risks through its approach towards acquisition of land based on thorough due diligence and its transparent processes in developing the projects. Besides, its focus on environment friendly and sustainable practices also help in mitigating risks associated with environmental regulations.

Internal Controls

The Company has adequate internal control systems, commensurate with the size and nature of its business. Well documented policies, guidelines and procedures to monitor business and operational performance are supported by IT systems, all of which are aimed at ensuring business integrity

and promoting operational efficiency.

An independent internal audit and assurance firm appointed by the Company conducts periodical audits to ensure adequacy of internal control systems, adherence to management policies and compliance with laws and regulations. Their scope of work includes internal controls on accounting, efficiency and economy of operations. The internal auditors also report on the implementation of their recommendations.

Reports of the internal auditors are regularly reviewed at the Audit Committee meetings. The Audit Committee of the Board also reviews the adequacy and effectiveness of the internal control systems and suggests improvements, when so required.

Outlook

Global economic performance strengthened and became more broad-based in 2017. The outlook for the world economy, including trade and investments, for the next couple of years remains positive. The performance of the Indian economy also picked-up as the year progressed, and this trend is expected to continue in 2018-19, and perhaps improve further with the stabilising of major reform initiatives of the government such as the GST and tailwinds from a buoyant global economy.

As far as the real estate industry is concerned, policy breakthroughs such as Real Estate (Regulation and Development) Act (RERA) have created of level playing field and will make the sector more efficient and organised in the long run. The housing cycle has also started showing positive signs in the form of improvement in cement demand, progress in the government's affordable housing scheme, step-up in execution under the Pradhan Mantri Awas Yojana scheme and large infrastructure development projects.

Mahindra Lifespace has a proven track-record in both residential and industrial developments. In the last few years, it has expanded its presence in the residential segment with a superior delivery model and a successful foray into affordable housing. Its recent creation of smaller industrial clusters is a part of a similar strategy of widening the playing field in the industrial space. The Company has been successful in securing risk capital in its residential and industrial projects, enabling it to grow in a capital-intensive sector while maintaining a strong balance sheet.

Today, therefore, the Company is favourably placed to raise capital at competitive terms to finance its growth. At the same time, it has built strong systems and processes that enable it to scale-up execution and delivery. Mahindra Lifespaces believes that it is well-positioned to benefit from the emerging opportunities in the real estate sector in India.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PHILOSOPHY

Mahindra Lifespaces is committed to good corporate governance and endeavors to implement the Code of Corporate Governance in its true spirit. The philosophy of the Company on corporate governance is to ensure transparency in all its operations, make disclosures, and enhance stakeholder value without compromising in any way on compliance with the laws and regulations. The Company believes that good governance brings about sustained corporate growth and long-term benefits for all its stakeholders.

In India, corporate governance standards for listed companies are regulated by Securities and Exchange Board of India (SEBI) through Regulation 15(2) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR") and also by the Ministry of Corporate affairs through the Companies Act, 2013 ("the Act"). As a Company which believes in implementing corporate governance practices in letter and in spirit, the Company has adopted practices mandated by the Act and SEBI LODR and has established procedures and systems to remain compliant with it. This report provides the Company's compliance with these provisions as on 31st March, 2018.

6. REMUNERATION PAID TO DIRECTORS

Remuneration Policy

The objective of the Remuneration Policy of the Company for Directors and Senior Management is to focus on enhancing the value of the Company by attracting and retaining Directors and Senior Management for achieving objectives of the Company and to place the Company in leading position. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Act and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc.

While reviewing the Company's remuneration policies and deciding on the remuneration for Directors, the Board and the Nomination and Remuneration Committee (NRC) considers performance of the Company, current trends in the industry, qualifications of the appointee(s), their experience, past performance, responsibilities shouldered by them, the Statutory provisions and other relevant factors.

The Non-Executive Chairman and Independent Directors are paid sitting fees and reimbursement of expenses incurred in attending the Board, Committee meetings and

meeting of Independent Directors. The Directors have voluntarily waived sitting fees for attending meetings of Corporate Social Responsibility Committee. The Board determines the remuneration, if any, of Non-Executive Directors, subject to requisite approvals, if any. At the 16th Annual General Meeting of the Company held on 31st July, 2015, the shareholders had approved the payment of commission, at a rate not exceeding one percent (1%) per annum or such percentage as may be specified by the Act from time to time in this regard, of annual net profit of the Company computed in accordance with the provisions of the Act or Rules framed thereunder from time to time, to such Directors of the Company (other than the Managing Director and / or Whole-time Director, Executive Directors and such of the remainder as may not desire to participate) but subject to such ceiling, if any, per annum, as the Board of Directors may, from time to time, fix in this behalf and the same to be divided amongst them in such manner as the Board may, from time to time, determine for each of the financial years commencing from 1st April, 2015. Accordingly, the Board of Directors at its meeting held on 27th April, 2018 has approved payment of commission for the financial year ended on 31st March, 2018.

Performance Evaluation

Pursuant to the provisions of the Act and Part D of Schedule II of SEBI LODR, evaluation of every Director's performance was done by Nomination and Remuneration Committee. The performance evaluation of Non-Independent Directors and the Board as a whole. Committees thereof and Chairman of the Company was carried out by the Independent Directors. Evaluation of Independent Directors was carried out by the entire Board of Directors, excluding the Director being evaluated. Structured questionnaires, covering various aspects of the evaluation such as adequacy of the size and composition of the Board and Committees thereof with regard to skill, experience, independence, diversity, attendance and adequacy of time given by the Directors to discharge their duties, Corporate Governance practices, etc. were circulated to the Directors for the evaluation process. The Directors expressed their satisfaction with the evaluation process and the outcome of evaluation which reflects high level of engagement of the Board of Directors amongst its members and with the management.

INDEPENDENT AUDITOR'S REPORT

To The Members of Mahindra Lifespace Developers Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **Mahindra Lifespace Developers Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 1. As required by Section 143(3) of the Act, we report that:
 - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - on the basis of the written representations received from the directors of the Company as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer

to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements;
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- 2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Lifespace Developers Limited ("the Company") as of 31st March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statement as at and for the year ended 31st March, 2018

1. General Information

Mahindra Lifespaces Developers Limited ('the Company') is a limited company incorporated in India. The equity shares of the Company is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) and its debentures are listed on BSE. Its parent and ultimate holding company is Mahindra & Mahindra Limited.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report. The Company along with its subsidiary companies is engaged in the development of residential projects and large formats developments such as integrated cities and industrial clusters.

2. Significant Accounting Policies

2.1 Statement of compliance and basis of preparation and presentation

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the Act) and other relevant provision of the act. The aforesaid financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 27th April, 2018.

2.2 Basis of measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.3 Measurement of Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these standalone financial statements is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2: Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Income from Projects

Income from real estate sales is recognised on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognised on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the balance sheet under trade receivables, whereas amount not billed for work performed are included as unbilled revenue under other current assets.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

- i. All critical approvals necessary for commencement of the project have been obtained and;
- ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and;
- iii. when at least 10% of the sales consideration is realised and;
- iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Income from Sale of land and other rights

Revenue from sale of land and other rights are considered upon transfer of all significant risks and rewards of ownership of such real estate/property as per the terms of the contract entered into with the buyers, which generally are with the firmity of the sale contracts/agreements.

2.4.3 Income from Project Management

Project Management Fees receivable on fixed period contracts is accounted over the tenure of the contract/ agreement. Where the fee is linked to the input costs, revenue is recognised as a proportion of the work completed based on progress claims submitted. Where the management fee is linked to the revenue generation from the project, revenue is recognised on the percentage of completion basis.

2.4.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Based on the nature of activity carried out by the company and the period between the procurement and realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 5 years for the purpose of Current – Non Current classification of assets & liabilities.

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Borrowings are classified as current if they are due to be settled within 12 months after the reporting period.

2.6 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

2.6.1 The Company as a Lessor

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

2.6.2 The Company as a Lessee

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

2.7 Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive
 use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on
 those foreign currency borrowings; and
- Exchange differences on transactions entered into in order to hedge certain foreign currency risks.

2.8 Employee Benefits

2.8.1 Superannuation Fund

The Company's contribution paid/payable during the year to Superannuation Fund is recognised in profit or loss.

2.8.2 Long term Compensated Absences & Gratuity

Company's liability towards long term compensated absences are determined by independent actuaries, using the projected unit credit method.

Company's liability towards gratuity are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

The obligation on long term compensated absences and defined benefit plans are measured at the present value of estimated future cash flows using a discount rate that is determined by reference to the market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the obligation.

2.8.3 Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

2.8.4 Employee Stock Option Scheme

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

2.9 Cash and Cash Equivalents

Cash and cash equivalent in the Balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.10 Earnings per share

Basic earnings per share is computed by dividing the profit/ (Loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue and bonus element in a right issue to existing shareholders, share split and reverse share split.

Diluted earnings per share is computed by dividing the profit/ (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for arriving the basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

2.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.12 Share based payment transaction of the Company

- Equity-settled share-based payment to employees are measured at the fair value of the equity instruments at the
 grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed
 on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will
 eventually vest, with a corresponding increase in equity.
- At the end of each reporting period the Company revises its estimate of the No. of equity instruments expected to
 vest. The impact of revision of the original estimate, if any, is recognised in profit or loss such that the cumulative
 expense reflects the revised estimate with the corresponding adjustments to the equity settled.

2.13 Income Taxes

Income Tax expense represents the sum of tax currently payable and deferred tax

2.13.1 Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rate that has been enacted or substantially enacted by the end of the reporting period.

2.13.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.13.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.14 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Furniture & Fixtures and Office equipment's are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on tangible fixed assets has been provided on pro-rata basis, on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for certain assets as indicated below:

Lease hold improvements are amortised over the period of lease/estimated period of lease.

Vehicles used by employees are depreciated over the period of 48 months considering this period as the useful life of the vehicle for the Company.

Sales office and the sample flat/ show unit cost at site is amortised over 5 years or the duration of the project (as estimated by management) whichever is lower.

Fixed Assets held for disposal are valued at estimated net realizable value.

The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.15 Intangible Assets

2.15.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The Company has elected to continue with the carrying value of its Intangible assets as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.15.2 Derecognition of Intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit or loss when the asset is derecognised.

2.15.3 Useful lives of Intangible assets

Estimated useful lives of the intangible assets are as follows:

Computer Software 5 years

2.16 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

Investment property includes freehold/leasehold land and building. Depreciation on investment property has been provided on pro-rata basis, on the straight-line method as per the useful life of such property. Buildings are depreciated over the period of 60 years considering this period as the useful life for the Company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

The Company has elected to continue with the carrying value of its Investment property as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.17 Impairment of tangible and intangible asset other than Goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash generating unit, as the case may be, is estimated and the impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.18 Inventories

Inventories are stated at lower of cost and net realisable value. The cost of construction material is determined on the basis of weighted average method. Construction Work-in-Progress includes cost of land, premium for development rights, construction costs and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Company.

2.19 Provisions, contingent liabilities and contingent assets

2.19.1 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the

obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

2.19.2 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.19.3 Contingent liabilities

Contingent liability is disclosed in case of:

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- b) a present obligation arising from past events, when no reliable estimate is possible.

2.19.4 Contingent assets

Contingent assets are disclosed where an inflow of economic benefits is probable.

2.20 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.20.1 Classification and subsequent measurement

2.20.1.1 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as - measured at:

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) equity investment; or
- Fair Value Through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long term strategic purpose.

Equity investments that are not designated as measured at FVTOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

2.20.1.2 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

2.20.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not

retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

2.20.3 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.20.4 Impairment of financial assets

The Company applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements based on estimates and assumptions, which have the significant effect on the amounts recognised in the financial statements:

Taxes

Deferred tax assets are recognised for temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

(i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from trade receivables, cash and cash equivalents, mutual Funds & other financial assets.

Trade Receivables:

The Company's trade receivables include receivables on sale of residential flats and rent receivable. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. The rent receivables are secured by security deposits obtained under the lease agreement. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats and rent receivables.

Cash and Cash Equivalents, Mutual Funds & Other Financial Assets

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

The Company holds mutual funds with financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its mutual funds have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. The Company does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Currency Risk

Foreign currency risk is the risk that the fair value or the future cash flows of an exposure will fluctuate because of changes in the foreign exchange rate. The Company undertakes transactions denominated in foreign currencies only for the purchases of the components which are required to carry out the construction activities. The Company manages its foreign currency risk by forward contracts that are expected to occur within a maximum 12 month from the entering of a contract.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Currency	Increase / decrease in basis points	Effect on profit before tax (₹ in lakh)
As at March 31, 2018	₹	+100	93.91
	₹	-100	(93.91)
As at March 31, 2017	₹	+100	(1.16)

34 - Segment information

"The reportable segments of the Company are 'Projects, Project Management and Development' and 'Operating of Commercial Complexes'. The segments are largely organised and managed separately according to the organisation structure that is designed based on the nature of business. Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director regarded as the Chief Operating Decision Maker ("CODM").

Description of each of the reportable segments for all periods presented, is as under:

- i) Projects, Project Management & Development: This Segment of the business includes income from sale of residential units across projects, project management and development in India.
- ii) Operating of Commercial Complexes: This Segment of the business includes rental income from commercial properties at Gurgaon and Pune.

The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as the performance indicator for all of the operating segments. The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the financial statements. Segment profit represents the profit before interest and tax. Information regarding the Company's reportable segments is presented below:

Revenue from type of products and services

The operating segments are primarily based on nature of products and services and hence the Revenue from external customers of each segment is representative of revenue based on products and services.

Geographical Information

The Company operates in one reportable geographical segment i.e. "Within India". Hence, no separate geographical segment wise disclosure is applicable as per the requirements of Ind AS 108 Operating Segments.

Information about major customers

During the year ended 31st March, 2018 and 2017 respectively, revenues from transactions with a single external customer did not amount to 10 percent or more of the Company's revenues from external customers.

Segment revenue reported above represents revenue generated from external customers. There were no inter-segment sales in the current year as well as previous year.

35 - Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund and Superannuation Fund aggregating ₹ 304.63 lakh (31st March, 2017 : ₹ 347.56 lakh) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Investment risk

The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	As	at
	31-Mar-18	31-Mar-17
Discount rate(s)	7.42%	6.68%
Expected rate(s) of salary increase	6.00%	6.00%
Attrition Rate	0 to 5: 5%	0 to 5: 5%
	5 to 42: 19.3%	5 to 42: 0%
Mortality	IALM (2006-08)	IALM (2006-08)

Retirement age of the employees is assumed to be 60 years.

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption		Changes in assumption	Impact on de obliga	
		(%)	Increase in assumption	Decrease in assumption
Discount rate	2018	1.00%	347.13	376.11
	2017	1.00%	225.44	305.72
Salary growth rate	2018	1.00%	372.62	349.80
	2017	1.00%	291.80	234.25

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous period.

The Company expects to contribute ₹ 97.96 lakh (31st March, 2017 ₹ 4.23 Lakh) to the gratuity trusts during the next financial year.

Maturity profile of defined benefit obligation:

	31 st March, 2018	31 st March, 2017

INDEPENDENT AUDITOR'S REPORT

To The Members Of Mahindra Lifespace Developers Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Mahindra Lifespace Developers Limited (hereinafter referred to as "the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), which includes Group's share of profit in its joint ventures, comprising the Consolidated Balance Sheet as at 31st March, 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity, for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Parent's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its Joint ventures in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group, its joint ventures and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Parent, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Parent's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Parent's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements/ financial information of the subsidiaries and joint ventures referred to below in the Other Matters paragraph, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2018, and their consolidated profit, consolidated total comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Other Matters

We did not audit the financial statements / financial information of ten subsidiaries, whose financial statements/ financial information reflect total assets of ₹ 32,323.00 lakh as at 31st March, 2018, total revenues of ₹ 8,380.22 lakh and net cash outflows amounting to ₹ 402.81 lakh for the year ended on that date, as considered in the consolidated Ind AS financial statements. The consolidated Ind AS financial statements also include the Group's share of net profit of ₹2,512.47 lakh for the year ended 31st March, 2018, as considered in the consolidated Ind AS financial statements, in respect of five joint ventures, whose financial statements / financial information have not been audited by us. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint ventures, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the

aforesaid subsidiaries and joint ventures is based solely on the reports of the other auditors.

Our opinion on the consolidated Ind AS financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditors on separate financial statements and the other financial information of subsidiaries and joint venture companies incorporated in India, referred in the Other Matters paragraph above we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements.
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Parent as on 31st March, 2018 taken on record by the Board of Directors of the Parent and the reports of the statutory auditors of its subsidiary companies and joint venture companies incorporated in India, none of

the directors of the Group companies and its joint venture companies incorporated in India is disqualified as on 31st March 2018 from being appointed as a director in terms of Section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A", which is based on the auditors' reports of the Parent, subsidiary companies and joint ventures incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies, for the reasons stated therein.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and joint ventures.
 - ii. The Group and its joint ventures did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary companies and joint venture companies incorporated in India.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph "f" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March, 2018, we have audited the internal financial controls over financial reporting of **Mahindra Lifespace Developers Limited** (hereinafter referred to as "Parent") and its subsidiary companies, which includes internal financial controls over financial reporting of the Company's subsidiaries and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent, its subsidiary companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent, its subsidiary companies and its joint ventures, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies and joint ventures, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent, its subsidiary companies, and its joint ventures, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of other auditors referred to in the Other Matters paragraph below, the Parent, its subsidiary companies and joint ventures, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to ten subsidiary companies and five joint ventures, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

Notes to the Consolidated Financial Statements for the year ended March 31, 2018

1. General Information

Mahindra Lifespace Developers Limited ('the Company') is a limited Company incorporated in India. The equity shares of the Company is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) and its debentures are listed on BSE. Its parent and ultimate holding Company is Mahindra & Mahindra Limited.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report. The Company along with its subsidiary companies (together referred to as "the Group") is engaged in the development of residential projects and large formats developments such as integrated cities and industrial clusters.

2. Significant Accounting Policies

2.1 Statement of compliance & basis of preparation and presentation

These Consolidated Financial Statements of the Group have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act. The aforesaid consolidated financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 27th April, 2018.

These Consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

2.2 Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Group and entities (including structured entities) controlled by the Group and its subsidiaries.

Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. Subsidiaries are consolidated on a line-by-line basis from the date the control is transferred to the Group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the Group. Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted as equity transactions. The carrying amount of the Company's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Inter-Company transactions, balances and unrealised gains on transactions between Group Companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. These financial statements are prepared by applying uniform accounting policies in use at the group.

Associates

Associates are the entities over which the Group has significant influence. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Joint Arrangements

A joint venture is a joint arrangement whereby the Company has the rights to the net assets of the arrangement. The results, assets and liabilities of a joint venture are accounted using the equity method of accounting. Where the Group's activities are conducted through joint operations (i.e. the parties have rights to the assets and obligation for liabilities relating to the arrangement), the Group recognises its share of assets, liabilities, income and expenses of such joint operations incurred jointly along with its share of income from the sale of output and any liability and expenses incurred in relation to the joint operations.

2.3 Measurement of Fair Values

A number of Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has established policies and procedures with respect to the measurement of fair values. The Chief Financial Officer and persons entrusted have overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and assessments that these valuations meet the requirements of Ind AS.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities that the Group can access on the
 measurement date.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Income from Projects

Income from real estate sales is recognised on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognised on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the balance sheet under trade receivables, whereas amount not billed for work performed are included as unbilled revenue under other current assets.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

- i. All critical approvals necessary for commencement of the project have been obtained and
- ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and
- iii. when at least 10% of the sales consideration is realised and
- iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Income from Sale of land and other rights

Revenue from sale of land and other rights are considered upon transfer of all significant risks and rewards of ownership of such real estate/property as per the terms of the contract entered into with the buyers, which generally with the firmity of the sale contracts/agreements.

2.4.3 Income from Project Management

Project Management Fees receivable on fixed period contracts is accounted over the tenure of the contract/agreement. Where the fee is linked to the input costs, revenue is recognised as a proportion of the work completed based on progress claims submitted. Where the management fee is linked to the revenue generation from the project, revenue is

recognised on the percentage of completion basis.

2.4.4 Land Lease Premium

Land lease premium is recognized as income upon creation of leasehold rights in favour of the lessee or upon an agreement to create leasehold rights with handing over of possession.

Property lease rentals, income from operation & maintenance charges and water charges are recognized on an accrual basis as per terms of the agreement with the lessees.

2.4.5 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

2.5.1 The Group as a Lessor

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Group's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

2.5.2 The Group as a Lessee

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

2.6 Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- Exchange differences on transactions entered into in order to hedge certain foreign currency risks.

2.7 Employee Benefits

2.7.1 Superannuation Fund

The Group's contribution paid/payable during the year to Superannuation Fund is recognised in profit or loss.

2.7.2 Long term Compensated Absences & Gratuity

Group's liability towards long term compensated absences are determined by independent actuaries, using the projected unit credit method.

Group's liability towards gratuity are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

The obligation on long term compensated absences and defined benefit plans are measured at the present value of estimated future cash flows using a discount rate that is determined by reference to the market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the obligation.

2.7.3 Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

2.7.4 Employee Stock Option Scheme

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

2.8 Cash and Cash Equivalents

Cash and cash equivalent in the Balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.9 Earnings per share

Basic earnings per share is computed by dividing the profit/ (Loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue and bonus element in a right issue to existing shareholders, share split and reverse share split.

Diluted earnings per share is computed by dividing the profit/ (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for arriving the basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

2.10 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.11 Share based payment transaction of the Company

- Equity-settled share-based payment to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straightline basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.
- 2. At the end of each reporting period the Company revises its estimate of the No. of equity instruments expected to vest. The impact of revision of the original estimate, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate with the corresponding adjustments to the equity settled.

2.12 Income Taxes

Income Tax expense represents the sum of tax currently payable and deferred tax

2.12.1 Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rate that has been enacted or substantially enacted by the end of the reporting period.

2.12.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.12.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.13 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on tangible fixed assets has been provided on pro-rata basis, on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for certain assets as indicated below:

Lease hold improvements are amortised over the period of lease/estimated period of lease.

Vehicles used by employees are depreciated over the period of 4 years to 8 years based on Group's expected usage pattern, considering this period as the useful life of the vehicle for the Company.

Sales office and the sample flat/ show unit cost at site is amortised over 5 years or the duration of the project (as estimated by management) whichever is lower.

Fixed Assets held for disposal are valued at estimated net realizable value.

The Group has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the

financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.14 Intangible Assets other than goodwill

2.14.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The Group has elected to continue with the carrying value of its Intangible assets as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.14.2 Derecognition of Intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit or loss when the asset is derecognised.

2.14.3 Useful lives of Intangible assets

Estimated useful lives of the intangible assets are as follows:

Computer Software 5 years

2.15 Goodwill

Goodwill is initially recognised as the excess of the acquirer's interest in the net fair value of the identifiable net assets of the acquired business. Subsequent to initial measurement, goodwill is measured at cost less accumulated impairment, if any. Goodwill is allocated to cash generating unit which is expected to benefit from the business combination.

2.16 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

Investment property includes freehold/leasehold land and building. Depreciation on investment property has been provided on pro-rata basis, on the straight-line method as per the useful life of such property. Buildings are depreciated over the period of 60 years considering this period as the useful life for the Company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

The Group has elected to continue with the carrying value of its Investment property as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.17 Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash generating unit, as the case may be, is estimated and the impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to

the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.18 Inventories

Inventories are stated at lower of cost and net realisable value. The cost of construction material is determined on the basis of weighted average method. Construction Work-in-Progress includes cost of land, premium for development rights, construction costs and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Group.

2.19 Provisions, contingent liabilities and contingent assets

2.19.1 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

2.19.2 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.19.3 Contingent liabilities

Contingent liability is disclosed in case of:

- a) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- b) a present obligation arising from past events, when no reliable estimate is possible.

2.19.4 Contingent assets

Contingent assets are disclosed where an inflow of economic benefits is probable.

2.20 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.20.1 Classification and subsequent measurement

2.20.1.1 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as - measured at:

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) equity investment; or
- Fair Value Through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Group makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long-term strategic purpose.

Equity investments that are not designated as measured at FVTOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

2.20.1.2 Financial liabilities and equity instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

2.20.2 Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

2.20.3 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.20.4 Impairment of financial assets

The Group applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

2.21 Business combinations

The Group accounts for its business combinations under acquisition method of accounting. The acquirer's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date. The difference between the fair value of the purchase consideration paid together with non-controlling interest on acquisition date and the fair value of net assets acquired is recognised as goodwill or capital reserve on acquisition. The excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed is recognized as goodwill. Any shortfall is recognised as capital reserve on consolidation.

In case of a bargain purchase, before recognising gain in respect thereof, the Group determines whether there exists clear evidence of underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional asset or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognises the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

The interest in non-controlling interest is initially measured at fair value or at the proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition by acquisition basis. Subsequent to initial acquisition, the carrying amount of non-controlling interest is the amount of those interest in initial recognition plus the non-controlling interest's share of subsequent changes in equity of subsidiaries.

When the consideration transferred by the Group in business combination includes assets or liabilities resulting in a contingent consideration arrangement, the contingent consideration is measured at its acquisition date fair value and included as a part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments, are adjusted retrospectively, with corresponding adjustments against goodwill or capital reserve as the case may be.

Measurement period adjustments are adjustments that arise from additional information during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as the measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at fair value at subsequent reporting dates with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amount for the items for which the accounting is incomplete. Those provisional amount are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amount recognised at that date.

2.21.1 Business Combination under common control

Business Combination under common control are accounted as per Appendix C in Ind AS 103 - Business combinations, at carrying amount of assets and liabilities acquired and any excess of consideration issued over the net assets acquired is recognized as capital reserve on common control business combination.

2.21.2 Acquisition of interest in associate and joint venture

Acquisition of interest in an associate or a joint venture, is initially recognised at cost. Any excess of the cost of the investment over the Group's share of the fair value of the identifiable assets and liabilities of the investee is regarded as goodwill, which is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised in equity as capital reserve in the period in which the investment is acquired.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the significant effect on the amounts recognised in the financial statements:

Taxes

Deferred tax assets are recognised for unused tax losses and other temporary differences leading to deferred tax assets to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

Particulars	For the year ended 31 st March, 2018	For the year ended 31 st March, 2017
Profit for the year	10,100.49	10,280.71
Weighted average number of equity shares	50,692,093	44,536,633
Basic earnings per share (₹)	19.93	23.08

Diluted earnings per share

The diluted earnings per share has been computed by dividing the Net profit after tax available for Equity shareholders by the weighted average number of equity shares, after giving dilutive effect of the outstanding Warrants, Stock options and Convertible bonds for the respective periods. Since, the effect of the conversion of Preference shares was anti-dilutive, it has been ignored.

All of the above entities have been treated as Joint Ventures even though the group holds more than half of the voting power in these entities as it does not have unilateral control over the investee, primarily due to existence of joint venture agreements that give the other investors substantive rights.

[#] On 18th September, 2017, the Company sold its 50% economic rights in its subsidiary Industrial Cluster Private Limited (ICPL) to International Finance Corporation (IFC). Subsequent to this, ICPL has become a joint venture Company. Accordingly, ICPL have been accounted on line by line consolidation method upto the 18th September, 2017 and using equity method of accounting thereafter.

^{*} On 6th September 2017, the Group has incorporated a new company as a wholly owned subsidiary viz. Mahindra Happinest Developers Private Ltd (MHDPL). Pursuant to shareholders' approval of MHDPL, it was converted to a public company with effect from 27th September, 2017 with the change in name to Mahindra Happinest Developers Ltd (MHDL). Consequent to the Joint Venture agreement between the Company and HDFC Capital Affordable Real Estate Fund-1, the equity shareholding of the Company has reduced to 51% in MHDL.

Financial Risk Management Framework

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Group operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

(i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises from trade receivables, cash and cash equivalents, mutual Funds & other financial assets.

Trade Receivables:

The Group's trade receivables include receivables on sale of residential flats and rent receivable. As per the Group's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. The rent receivables are secured by security deposits obtained under the lease agreement. Thus, the Group is not exposed to any credit risk on receivables from sale of residential flats and rent receivables.

Cash and Cash Equivalents, Mutual Funds & Other Financial Assets

For banks and financial institutions, only high rated banks/institutions are accepted. The Group holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Group considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

The Group holds mutual funds with financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Group considers that its mutual funds have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Group assesses and manages credit risk based on reasonable and supportive forward looking information. The Group does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium-term and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors of the respective companies.

Currency Risk

Foreign currency risk is the risk that the fair value or the future cash flows of an exposure will fluctuate because of changes in the foreign exchange rate. The Group undertakes transactions denominated in foreign currencies only for the purchases of the components which are required to carry out the construction activities. The Group manages its foreign currency risk by forward contracts that are expected to occur within a maximum 12 month from the entering of a contract.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The Group manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Currency	Increase / decrease in basis points	Effect on profit before tax (₹ in lakh)

38 - Segment information

The reportable segments of the Group are 'Projects, Project Management and Development' and 'Operating of Commercial Complexes'. The segments are largely organised and managed separately according to the organisation structure that is designed based on the nature of business. Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director regarded as the Chief Operating Decision Maker ("CODM").

Description of each of the reportable segments for all periods presented, is as under:

- i) Projects, Project Management & Development: This Segment of the business includes income from sale of residential units across projects, project management and development in India.
- ii) Operating of Commercial Complexes: This Segment of the business includes rental income from commercial properties at Delhi and Pune.

The CODM evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as the performance indicator for all of the operating segments. The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the financial statements. Segment profit represents the profit before interest and tax. Information regarding the Group's reportable segments is presented below:

Revenue from type of products and services

The operating segments are primarily based on nature of products and services and hence the Revenue from external customers of each segment is representative of revenue based on products and services.

Geographical Information

The Group operates in one reportable geographical segment i.e. "Within India". Hence, no separate geographical segment wise disclosure is applicable as per the requirements of Ind AS 108 Operating Segments.

Information about major customers

During the year ended 31st March, 2018 and 2017 respectively, revenues from transactions with a single external customer did not amount to 10 percent or more of the Group's revenues from external customers.

Segment revenue reported above represents revenue generated from external customers. There were no inter-segment sales in the current year as well as previous year.

39 - Employee benefits

(a) Defined Contribution Plan

The Group's contribution to Provident Fund and Superannuation Fund aggregating ₹ 322.45 lakh (2017 : ₹ 366.31 Lakh) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Group operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Group scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Group makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Group is exposed to a number of risks, the most significant of which are detailed below:

Investment risk

The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

IV. The Fair Value of the Plan Asset at the end of the reporting period for each	IV		•	212.92	220.98	
category, are as follows	IV.		. •			
- Insurer managed funds (Non Quoted Value) 212.92 226.98		-		212.92	226.98	

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption	Year	Changes in assumption	Impact on de oblig	fined benefit ation
			Increase in assumption	Decrease in assumption
Discount rate	2018	1.00%	407.01	451.19
	2017	1.00%	275.01	368.20
Salary growth rate	2018	1.00%	447.61	409.63
	2017	1.00%	354.23	283.77

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

The Group expects to contribute ₹ 97.96 lakh (31st March 2017: ₹ 4.23 Lakhs) to the gratuity trusts during the next financial year.

Maturity profile of defined benefit obligation:

(₹ in lakh)

	31 st March, 2018	31 st March, 2017
Within 1 year	100.61	6.52
1 - 2 year	93.87	21.61
2 - 3 year	75.10	26.13
3 - 4 year	75.22	13.94
4 - 5 year	77.78	15.74
5 - 10 years	587.12	254.49

Major Category of plan assets for Gratuity Fund is as follows:

	31 st March, 2018	31 st March, 2017
Asset category:		
Deposits with Insurance companies	100%	100%
	100%	100%

The weighted average duration of the defined benefit obligation as at 31st March, 2018 is 35.96 years (31st March, 2017: 35.39 years)

The CSR and the sustainability performance of the Company gets presented to the board every 6 months. The Executive Council (EC) meeting that takes place every quarter, also assesses the performance of the Company. The Managing Director & CEO is part of both the reviews.

 Does the Company publish a BR or a Sustainability Report? What is the hyperlink for viewing this report? How frequently is it published?

Mahindra Lifespace Developers Limited's sustainability report is published annually in accordance with the GRI framework. Sustainability reports of financial years 2012-13, 2013-14, 2014-15. 2015-16 2016-17 and accessible through the Company website https://www.mahindralifespaces.com/about/ sustainable-urbanisation/business-responsibility

Mahindra Group Sustainability Report (of which Mahindra Lifespaces is also a part of) is published annually as per the GRI framework. All Sustainability Reports from 2007-08 till 2016-17 are accessible on Mahindra & Mahindra website http://www.mahindra.com/about-us/sustainability

Section E: Principle-wise Performance

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

Ethics, transparency and accountability are the three pillars that build a successful and sustainable business. The Company has put in place comprehensive governance structures based on its core values to ensure that all associates observe the highest standards of ethical conduct and integrity.

Code of Conduct

The Company has defined the Code of Conduct for Directors as well as the Code of Conduct for senior management and associates of the Company that covers issues related to ethics, bribery, etc. The Code of Conduct for senior management and associates also covers all dealings with suppliers, customers and other business partners including joint venture partners and other stakeholders.

Stakeholder Complaints

10,481 customer complaints were received during the reporting year; of which around 75 percent were minor in nature. Ninety - nine percent of the complaints were resolved and closed during the year.

During the reporting year, 60 investor complaints were received from the shareholders, of which 59 were resolved as on 31st March, 2018 and 1 was resolved on 19th April, 2018.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

Customer delight is every company's desire, but good companies also strive for the safety and sustainability of their products and services. Mahindra Lifespaces ensures that its product portfolio not only serves customer aspirations but is also aligned with community goals and environmental objectives. The focus of its operations is on:

- Residential Projects (Mahindra Lifespaces and Happinest)
- Integrated Cities and Industrial Clusters (Mahindra World City and Origins)

Residential projects

At Mahindra Lifespaces, the Company has institutionalised an integrated systemic approach that straddles all three stages of a building's life cycle to yield maximum resource savings.

[Design stage	esign stage	Constructio stage	n Occupancy stage
•	Creating blueprints that encourage green living and manage the complex cause and effect relationships in resource efficiency	blueprints that encourage green living and manage the complex cause and effect relationships in resource	Use of resource efficient equipme and procedu in the construct stage	among on the use of green buildings

The Company continued building quality residential spaces, by flagging off new phases in the existing projects like Antheia, Happinest-Boisar, Aqualily, Windchimes, etc. and designing / launching new projects with green features like:

Health-friendly indoors | Energy-efficient lighting | Water-efficient plumbing fixtures |Alternative building materials | Sustainable location | Rainwater harvesting | Water recycling and re-use | Organic waste treatment | Energy-efficient building envelope | Efficient daylighting and ventilation

Integrated Cities and Industrial Clusters*

Operational energy efficiency for utilities (horizontal infrastructure includes Water Supply, Sewage Treatment Plant and Street Lighting) is also an important component of the energy impact reduction strategy. The following energy efficient strategies have been implemented in these developments:

- Energy efficient pumps and motors (including Class 1 motors, implementation of vertical in-line pumps and hydro-pneumatic water distribution systems).
- Dedicated use of LED energy efficient lamps for all street lighting. Street lighting fixtures have been fitted with timer based automatic control systems.

- Water supply and treatment pumping system provided with variable speed drive to conserve energy at part load.
- Ground water recharge mechanism through rain water harvesting is an effective tool to counter the rapid decline in ground water levels, and improve water supply and quality, for neighbouring communities
- An in-house Sewage Treatment Plant (STP) and a Tertiary Treatment Plant (TTP), ensuring that the waste water generated within the project is internally recycled and treated. The treated water is used to meet the requirements of flushing, cooling, irrigation (on-site landscaping) and other non-potable uses within the site.
- Ensuring effective waste segregation on site and conversion of biodegradable waste into biofuel and compost.

*these strategies have been planned for the industrial clusters as well and will be executed as per the stages of its development.

Performance

The performance during construction is appended below, which is as reported in the Mahindra Lifespaces Sustainability Report for FY 2016-17 and FY 2017-18 (will be released shortly):

Sustainable Sourcing (including transportation)

We involve our suppliers and vendors on a consistent basis through supplier meets, to actualise the commitment to sustainable sourcing. A Green Supply Chain Management Policy is in place.

Green Supply Chain Management (GSCM) Policy: The policy has been shared with suppliers to improve their awareness about legal compliances, enhance environmental efficiencies and ensure health & safety initiatives by the suppliers.

Local sourcing: The Company procures goods and services from producers through the GSCM policy, and encourage those suppliers who:

 ensure compliance to applicable legal and other requirements which have a significant impact on health, safety and environment;

- are locally-based suppliers to minimise environmental impact;
- are low on pollution and/or use clean technology and;
- take the waste or scrap materials from project sites and recycle them to manufacture new life products

50 percent of the total building materials (by cost) procured by the Company is within a 400 km radius. This data is captured for every project and the percentage varies as per the green rating (for e.g., the total building materials procured within a 400km radius goes up to 75 percent in the case of platinum rated buildings).

During the reporting year, the company conducted Suppliers and Contractors Meet in the western region engaging its key stakeholders. Over 80 companies participated in the meet with the objective of building sustainable supply chains

based on the Environment, Social and Governance (ESG) framework.

Reduction in Pollution...reduction of DG Emissions

Background: Threat of air pollution is a real and grave issue:

- 4th leading cause of death globally
- 88 percent of these deaths occur in developing nations
- Every third child in New Delhi has reduced lung function PM (Particulate Matter) 10, PM 2.5 are the key culprits of ambient air pollution and are responsible for major health scares
- Respiratory diseases including Asthma and Chronic Obstructive Pulmonary Disease
- Cardiovascular diseases including Stroke and Ischemic Heart Disease
- Cancer PM 2.5 is a Class I carcinogen (WHO)
- Pre-term births 18 percent higher likelihood

The global warming potential of PM is ~ 460 times that of CO,

Diesel Generators that are used for power backup are a major contributor to PM2.5 in metropolitan cities - ~9 percent of PM2.5 in Chennai is from Diesel Generators.

The team brainstormed and evaluated various alternatives and came across "Chakr shield" which is a retrofit on the existing DGs to capture emissions without adverse impact. Chakr's technology met the Company's sustainability objectives and the same was installed in its DG system as a Pilot.

Methodology

Step 1: Cools the exhaust in an optimal manner to cause rapid agglomeration of soot particles

Step 2: Captures the soot particles by slowly passing the exhaust gases through contours and meshes while interacting with a solution

Step 3: Continuously cleans the meshes and contours in real time, collecting soot at the bottom in a collection bin which can be reused as branding ink

Impact on Business

Before installing Chakr Shield – PM was at 68.7

Sr. No.	Parameters	Method	Units	Results	TNPCB Limits
1	Particulate Matters (PM)	IS 11255 PART 1 1985	mg/Nm ³	68.7	150

After installing Chakr Shield - PM is at 9.3

Sr. No.	Parameters	Method	Units	Results	TNPCB Limits
			mg/Nm ³	9.3	150
	Matters (PM)	PART 1 1985			

Adoption of the technology saw an 86 percent reduction in the PM. It is proposed to deploy the same across all DGs in a phased manner during 2018 - 19.

Principle 3: Businesses should promote the well-being of all employees

Employees who feel truly cared for are the key to a sustainable business. We believe they are our first customers. Our associates (that's what we call our employees) are encouraged to think independently, develop leadership skills and explore innovative ideas. We strive to foster a diverse workplace in which a wide range of individual perspectives makes us better as a whole.

Although, there are no employee associations recognised by the management, a comprehensive HR policy covers all facets of talent management. Based on the feedback received from associates, the HR policy evolves consistently.

Equal opportunity employer

Merit is the only condition to work and grow at Mahindra Lifespaces and the Company does not discriminate on the basis of caste, gender, race, religion or any other classification.

Details of Complaints:

Sr. No.	Category	No. of complaints filed during the financial year	No. of complaints pending as on end of the financial year
1.	Child labour/forced labour/involuntary labour	NIL	NIL
2.	Sexual harassment	NIL	NIL
3.	Discriminatory employment	NIL	NIL

Safety

Safety doesn't happen by accident. The Company continuously provides safety training to all its associates including contractual associates and considers safety as one of its topmost priorities.

- Permanent Associates: 100 percent (Safety induction training given to all associates*)
- Contract/ Casual/ Temporary Associates: 100 percent (Safety induction training given to all associates*)
- * Associates includes male, female and differently abled

Skill upgradation

In order to keep abreast with rapid technological changes, associates need to keep learning throughout their careers. The Company invests in staying ahead on the learning curve with knowledge enablement and capability development. Some of the key elements of learning and development includes self-development platforms, high value learning programmes and digital learning platforms.

- Permanent Associates: An average of 24 hours per person of job specific and skill upgradation training has been imparted to associates
- Contract/Casual/Temporary Associates: 124 workmen were certified by National Skill Development Council (NSDC) based on Pradhan Mantri Kaushal Vikas Yojana (PMKVY) 2.0 framework, under the Company's skill upgradation initiative 'Parivartan'.

Employee data

- Total number of Permanent Associates: As of 31st March 2018, the Company together with its subsidiaries and JV companies had 436 associates on rolls. (includes Fixed Term Contract + Third Party Contract associates)
- Total number of Contractual/Casual/Temporary associates:
 4,168 workmen were employed across sites by contractors
 (Contractual labourers on site hired by contractor)
- Number of permanent women associates: 78 associates on rolls (includes Fixed Term Contract+Third Party Contract associates)
- Number of permanent employees with disabilities: 1

Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised

All stakeholders, major or minor, affect or are affected by the decisions of a Company. At Mahindra Lifespaces, the Company informs, consults and involves stakeholders so that the Company is better planned and has responsible policies, projects, programmes and services.

The Company has mapped its internal as well as external stakeholders through materiality mapping, including the disadvantaged, vulnerable and marginalised stakeholders. Engaging with its stakeholders on a consistent basis leads to better understanding of its priorities. Hence, the Company conducts the materiality mapping once every two years to help validate its prioritisation and alignment with the Company's sustainability agenda and roadmap. The Company also conducted a few years back, a social impact assessment on a pilot basis for its integrated cities business to understand and map its footprint impact on various segments of stakeholders including villagers and the neighbouring community so as to develop and use the same as a blueprint for its CSR initiatives in the short and long term.

In addition, the Company has also undertaken community development initiatives, the details of which are given in answers under Principle 8.

Principle 5: Businesses should respect and promote human rights

Human rights form the foundation of a fair society. Fundamental in nature and applicable universally, they require the rule of law

as well as the empathy to understand the dignity of every human being. The Company adheres to this principle regardless of the status of any person, be it nation, location, language, religion, ethnic origin or any other form of classification.

Testimony to the Company's commitment are the policies and processes which are in place to implement and uphold human rights - Code of Conduct, CSR Policy, Prevention of Sexual Harassment Policy and Business Responsibility Policy, which covers all facets of human rights.

Principle 6: Businesses should respect, protect, and make efforts to restore the environment

With a burgeoning population and scarcity of natural resources, it has become imperative to use natural resources carefully, minimise damage to the environment, and ensure that these resources are available for the future generations. At Mahindra Lifespaces, environmental responsibility encompasses the entire gamut of our operations.

The Company's endeavour is to leverage urbanisation to accelerate progress, to trigger and cascade inclusive growth, and to ensure that both are done with minimal impact on the environment. In this regard, the Company has taken several steps to address environmental issues such as resource depletion, waste management, climate change, etc.

Responsible Urbanisation - Urboonisation

Urboonisation has helped the Company understand and cater to the needs of not just the affluent or large corporates, but also those of the aspiring middle and lower income segments. The Company continues to spearhead Urboonisation as an act of business responsibility as well as environmental stewardship.

Sustainability roadmap 2020

The Company has delineated a sustainability roadmap 2020, which is aligned with the National Action Plan on Climate Change (NAPCC). It includes all facets of environmental stewardship. For more details, please refer the link https://www.mahindralifespaces.com/about/sustainable-urbanisation

Green Design

Green architecture or green design is Mahindra Lifespaces' approach to development that minimises harmful effects on human health and the environment. With this aim in mind, we attempt to safeguard air, water and earth by choosing ecofriendly building materials and construction practices. We are committed to design and construct buildings, which are green across their lifecycle - from construction to use to end-of-life.

Some of the features of green design include:

- Energy-efficient lighting
- Water-efficient plumbing fixtures
- Alternative building materials

- Sustainable location
- Rainwater harvesting
- Water recycling and reuse
- Organic waste treatment
- Energy-efficient building envelope
- Efficient daylighting and ventilation

Mahindra TERI Centre of Excellence (COE)

With a view to improve energy efficiency in India's residential buildings sector, Mahindra Lifespaces and The Energy and Resources Institute (TERI) announced the creation of a Centre of Excellence (CoE). The 'Mahindra TERI CoE for Sustainable Habitats' will evaluate both traditional and innovative technologies and alternative materials customized for the Indian buildings sector and climate zones to create viable, scalable, market-ready and affordable solutions.

The Centre will bring much needed, validated knowledge about better performing materials and processes to mainstream green buildings in the country. The key focus areas of the CoE include energy and water efficiency and use of low cost green materials. Another important intended outcome of the research efforts of the CoE is to address the existing gap in available statistical datasets relevant to the Indian residential buildings sector. The research output from the CoE will be disseminated to multiple stakeholder communities via conferences, workshops, academic courses, reports, journal archives and webinars, amongst other mediums. Wider industry participation and contribution will be sought to increase capacity and reach. The CoE is located at TERI's Gual Pahari campus near Gurgaon, with research initiatives split into modules based on priority and scale.

During the year, the CoE's vision and objectives were set out, and research areas were identified. Work on the physical location of the CoE and on two modules of research activity were also initiated during the year.

Sustainable Housing Leadership Consortium (SHLC)

Mahindra Lifespaces became one of the five founding members of SHLC - a new consortium established in 2016-17 as a CEO-led think tank. Convened by International Finance Corporation (IFC), it aims to develop a low carbon roadmap for the housing industry which would also contribute towards the achievement of India's climate change goals. The key motivation is to mainstream sustainability in India's urban housing sector and support the transition to a low-carbon economy.

The objectives set for the consortium are:

- To make 100 percent of own housing portfolio sustainable by 2022 as evidenced by appropriate green building certification(s)
- To achieve 20 percent reduction in incremental variable

- costs for sustainable housing construction to further improve the business case for green buildings
- To provide leadership and advocacy for broader industry and government policy actions that aim to make 20 percent of India's new multi-family housing construction sustainable by 2022

During the year, SHLC identified and worked on the following four levers to enable the objectives:

Policy lever: to conduct a review of the policy landscape in India as well as globally, draw from best practices, and propose two-three key policy approaches to the government for incentivising the delivery of sustainable housing in India.

Technology lever: a comprehensive list of technologies has been identified (market ready, scalable, viable and sustainable) to help further enhance the business case for sustainable housing. The analysis of the shortlisted technologies that could be scaled up for reducing the incremental cost of building green will be completed in the next reporting year.

Consumer awareness: conducted a first-of-its-kind post occupancy evaluation (POE) of housing projects to understand the performance of green-certified projects and occupant perception. A nationwide multi-media consumer awareness campaign has also been designed to educate the Indian homebuyer about the benefits of buying green, which will be released in the next reporting year.

In addition to its approaches and initiatives, Mahindra Lifespaces also participated in the annual Clean Energy Ministerial (CEM8) in Beijing, China, and the Roundtable on 'Leveraging City-Scale Building Efficiency Action'.

The emissions/waste generated by the Company are within the permissible limits given by Central Pollution Control Board (CPCB)/ State Pollution Control Board (SPCB) for the financial year being reported. No show cause or legal notices were received from CPCB/SPCB, or that were pending as on 31st March 2018.

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

Regulations and policies affects the way a Company conducts its business. As pioneers of green design and healthy living, the Company engages with other like-minded organisations to espouse the philosophy of sustainable urbanisation. The Company also learns from and share its expertise with various bodies to improve the quality of urban living. The Company engages with many industry bodies, some of which include:

- Confederation of Indian Industry (CII)
- Federation of Indian Chambers of Commerce and Industry (FICCI)
- Maharashtra Chamber of Housing Industry (MCHI)
- Indian Green Building Council (IGBC)

India Business and Biodiversity Initiative (IBBI)

The Company undertakes need-based advocacy on issues pertaining to the industry, for the advancement of public good through its membership in relevant industry bodies.

Principle 8: Businesses should support inclusive growth and equitable development

Sustainable growth is accomplished by a combination of economic and equitable development, where economic progress lifts communities, which in turn feeds the economy. Mahindra Lifespaces, focusses on developing ecosystems that create a positive impact on the communities around its developments and drive interventions that positively influence society at large.

A total commitment / contribution of ₹ 601.17 lakh* was made in FY 2017-18 by the Company, its subsidiaries and JV companies towards CSR initiatives. This included community programmes and social interventions addressing key focus areas:

• Education: ₹ 299.67 lakh

Environment: ₹ 213 lakh*

Health: ₹ 67.90 lakh

• Community Development: ₹ 12.31 lakh

Skill Development: ₹ 8.29 lakh

*Includes ₹ 97.20 Lakh earmarked for 'Mahindra TERI Centre of Excellence' that was not spent during the year and is to be utilised in 2018-19.

A snapshot of the Company's community based CSR initiatives under various focus areas is provided below:

Education

- Vocational skill training, Mahindra World City, Jaipur (MWCJ): Till date 1,468 Students have been trained, of which 300 Students have been trained in 2017- 18. Around 45 percent of the trained youth have been placed in MWCJ and in the campuses of clients at MWCJ.
- o <u>Self Help Group, Mahindra World City, Jaipur</u> (MWCJ): Till date **1,276 women** have been trained, of which **152 women** have been trained in 2017-18.

Health

o <u>Health check-up camps:</u> 1,750 people from communities around the Company's project sites have undergone health check-up camps including eye, dental and general check-up. O Health and hygiene, Mahindra World City Chennai (MWCC): The project aims to address the health needs as well as encourage a healthy lifestyle and behaviour in the target communities of two gram panchayats near MWCC. It also aims to improve the infrastructure facilities in the Primary Health Centre at one of these villages. A baseline survey was conducted with 300 mothers who had children under the age of 5 yrs. Community-led sessions on sanitation and hygiene were conducted in 10 target communities, and 30 households in the village have been identified for partial support in individual toilet construction.

Environment

- o Green Army: Through the Green Army programme, the Company sensitises school children about the environment and how a more sustainable lifestyle can be led. During the year, the Company reached out to 60 schools covering more than 10,000 students and 30,000 citizens (including students' families). Till date, over 160 schools in MMR and Pune district have been covered, touching over 30,000 students and 120,000 citizens.
- o <u>Mahindra Hariyali:</u> 6,200 saplings were planted during the year across locations (Delhi, Bengaluru, Chennai, Pune, Nagpur and Jaipur).

Community Development

o <u>Blackboards in local schools:</u> With an aim to provide better quality infrastructure within the education space, the Company took the initiative to support a local tribal school in Palghar district, which is currently deprived of basic amenities like benches and blackboards. Multiple schools were visited to do a need assessment and understand the requirements of the tribal schools in the area. This initiative helped open up 12 class rooms that were closed for over 5 years due to lack of infrastructure.

In addition to investing in resources and expertise, the Company also mobilises employee volunteers known within the Mahindra Group as Esops (Employee Social Opportunities) Volunteers. The Esops Volunteers passionately take part in, as well as lead CSR initiatives. The Company undertakes Impact Assessment Surveys to gauge the impact of its major initiatives.

The detailed information about the Company's social initiatives will be a part of the Sustainability Report 2017-18. The report will be released shortly on the Company's website.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

All policies and processes finally transform into products for the customer. Mahindra Lifespaces delivers innovative customer-focussed solutions that are rooted in a legacy of trust and transparency. A pioneer of the green homes movement in India, we have been ranked 4th in Asia in our category, in the '2017 GRESB Real Estate ESG (Environmental, Social and Governance) Assessment'. Our customer-centric approach includes being accessible to our customers at all times, through

multiple channels of communication and using customer feedback and inputs to improve on our products and services.

Customer satisfaction surveys are also carried out by external agencies, like the 'Customer Satisfaction Study' conducted through IMRB International. Quick resolution of customer complaints is given top priority. The percentage of customer complaints and consumer cases pending as of 31st March 2018 is 1% and 86.96% respectively.

Being in the real estate business, product labels are not applicable to the Company. However, the detailing in its project brochures are in compliance with applicable laws.

There is no case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending, as on 31st March 2018.

The roadmap sports aggressive targets across all three bottom-lines and will help align efforts with the real needs of the enterprise and its stakeholders.

Set and uphold the highest standards of ethics & transparency with all our stakeholders

Increase shareholder value by significantly enhancing the Return On Capital Employed

Be recognised among the most trusted brand for customers in the markets we operate in, through reputable survey(s)

Be among industry leaders in the 'Great Places to Work' Survey

Improve our gender diversity ratio to 30% women

Build partnerships to drive innovation in the development of sustainable habitats and ecosystems

100% of our projects to have community engagement programmes

Community engagement programmes to reach out and cover >30% of the target group

Enable employability by driving skill development and upgradation programmes reaching out to over 10,000 persons

10% energy intensity reduction and 10% Greenhouse Gas intensity reduction

10% improvement in water efficiency and exceeding the minimum wastewater standards

5% of energy requirement to be met through renewable energy

Reduce waste intensity by 20%

Zero fatalities and reportable accidents at all sites and continued reduction in lost work day accident rates

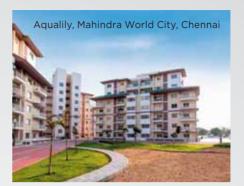

Ensure that 50% of the total building materials (by cost) are procured within a distance of 400 km

Build sustainable supply chain for top 100 suppliers through capacity building and establish monitoring mechanism for carbon and water footprint

Develop biodiversity plans for at least two key locations
