Message from CMD's desk

Mr. C K Shastri

Founder & CMD

Commenting on the results, Mr. C.K. Shastri, Managing Director of Intense Technologies Limited said,

“With over three decades of solid industry experience across BFSI, Telecom, and now in Government sectors, we are confident in our ability to drive sustainable growth and deliver transformational value to our clients. Expansion into international markets, combined with strategic investments in building a high-performing sales team, is already yielding positive results with green shoots of opportunities firmly in place and gaining traction.

Our strong focus on leveraging advanced capabilities in AI, Generative AI, and data management positions us to meet our clients' evolving needs with agility and innovation. We are confident that these strategic initiatives will unlock new avenues for growth and secure long-term revenue streams.”

Message from Directors' desk

Ms. Anisha Shastri

Executive Director

Commenting on the results, Ms. Anisha Shastri, Director of Intense Technologies Limited said,

“In the first three quarters, we’ve successfully surpassed last year’s revenue. The strategic vision set forward two years ago under ‘Project Butterfly’ is progressing as planned, with green shoots such as Centralized Communications Hub, Transmission Services, Data Services, and Managed Services in the Government sector taking off successfully. These emerging opportunities are paving the way for sustained growth and long-term value creation for the company.

A key pillar of Project Butterfly was to strengthen our leadership team, and we have made significant strides in this area. We successfully onboarded seasoned professionals with deep industry expertise and extensive networks to head our growth and delivery teams. This includes the appointment of a Chief Revenue Officer (CRO) to drive growth and a Chief Customer Experience Officer (CCXO) to enhance operational excellence and delivery efficiency. Together, they will play a pivotal role in advancing our growth agenda and ensuring efficient service delivery for our clients.

Our state-of-the-art platforms continue to receive industry-wide recognition from leading global analyst firms such as IDC, Aspire, Celent, Omdia, and Gartner. These accolades validate our strong position and thought leadership in our key domains. We have successfully added three new logos in Q3, including a prominent life-insurance client.

As the world shifts to embrace AI-led automation, Gen AI, and data-driven technologies, we have strategically prioritized investments in AI to accelerate solution delivery. And improve customer experience. Our enhanced focus has allowed us to decrease implementation timelines, allowing clients to realize business value faster. This positions us as a trusted, future-ready partner committed to helping enterprises navigate evolving business needs with cutting-edge, AI-driven platforms.”

Key Highlights of FY25-26

**Crossed last year's
annual revenue
By Q3 FY'25**

**Strengthened Leadership team
with experienced professionals**

**Green shoots
are taking off**

**Streamlined team from 600 to 525,
reinvesting strategically in Sales**

**Successfully added
3 new logos in Q3
FY'25**

**Transitioned from a Tech-driven to a
Sales-driven powerhouse**

Consecutively declared dividend for the 5th year

For a Large Private Bank in India

Centralized Communication Governance

Our intensity.
Your agility.

About customer

The Customer

One of India's leading private sector banks. The company sells financial services to large and mid-sized companies, SMEs, and retail businesses, with a network of over 5100 domestic branches..

The Objective

To reduce operational cost leakages, streamline communications to minimize redundancy, and enhance governance and regulatory controls.

Problem – Solution – Result

Problem

- Increased cost of sending redundant communications
- Increased IT operation costs
- 250+ systems had siloed communications
- Lack of centralized visibility: Revenue leakages owing to disparate data and non-standardized reconciliation
- Penalty and fines due to non-adherence to regulatory reports of communications
- High TAT to deploy regulatory requirements

Solution

- Single source of billing for communication and seamless integrations with CRM, Fastag, transmission services, and more
- BPM-based process automation to optimize template approval workflow
- 8000+ templates developed so far
- Unicode-compliant application
- 100% compliance with RBI regulations

Results

- Improved cross selling and up-selling opportunities through transactional communications
- Communication personalization with omni-channel delivery
- Unified dashboard to track entire communication journey and improved visibility
- Centralized portal with governance

Impact delivered

Increased OpEx savings, revenue enhancement, and improved CX

85Cr

Operational cost savings of 85Cr with optimized customer communications

4X

Lead generation

6-8Cr

Unified platform for 6-8Cr communications per day

Large Private Bank

Improving Data Quality for Enterprise Excellence

Our intensity.
Your agility.

About customer

The Customer

One of India's leading private sector banks, the company has over 8,883 domestic branches and 21,080 ATMs across 3,836 cities and towns pan-India. The company is India's largest private sector bank by assets and the world's tenth-largest bank by market capitalization as of May 2024.

The Objective

To enhance data management and integrity, improve customer experience, and operational efficiency. The bank sought to minimize errors, ensure the accuracy of datasets, and enable data-driven decision-making

Problem – Solution – Result

Problem

- Managing a vast customer base of 100 million+ & significant challenges in data handling
- Inability to differentiate existing vs. new customers
- Heterogenous products, services, and source systems
- Improper stakeholder management

Solution

- **Data Profiling:** Conducted thorough analysis of existing data sets to identify patterns, duplicates, inconsistencies, and anomalies
- **Data Score Cards:** Developed a scoring mechanism to assess the reliability of each data source, enabling prioritization of data-cleaning efforts
- **DQ Check:** Implemented automated data quality checks at various stages of data handling to catch errors proactively

Results

- 73 data elements covered and standardized over 5 key systems; improved CX due to improved data accuracy
- Streamlined operations, enabling better decision-making and service delivery
- Cross system data remediation helped to equalize the data across all systems; standardization with reference master helped in making similar LOVs across all systems
- Data Visualization and exception reports helped operations teams to easily identify and resolve the data quality issues

Impact delivered

50% Reduction
in Customer Abandonment

Reduction in Customer Abandonment Rates Across the Digital Journey

5% Revenue Enhancement

Post successful data quality transformation

21 Source Systems

Integrated for seamless data processing

Tax body of a Large Democracy

Delivering Digitized and Seamless Citizen Experiences

Our intensity.
Your agility.

About customer

The Customer

This tax body is the major source of tax revenues to their Government.

The Objective

To triple taxpayer base by simplifying tax filing process and to adopt a system that enabled extremely easy change management of the forms

Problem – Solution – Result

- Problem**
- Network connectivity issues persist
 - 20000+ regulatory rules to be applied dynamically creating a change management overhead
 - Excessive dependency on database
 - Filling ITR forms lacked compatibility with multiple devices

- Solution**
- All forms were developed by non-IT with zero coding experience using drag and drop & configurable features
 - One-for-All: Built once using NXT for web, offline and mobile reducing change mgmt. efforts
 - Set up a 150+ member strong team delivering e2e managed services in a complex domain in short timeframe during the pandemic

- Results**
- Easy change management by taxation experts instead of coders
 - Filing process can be accessed even without connectivity
 - Server-less architecture reduced the need for huge infra expenditure
 - Compliance to Accessibility (GIGW) standards

Impact delivered

Outstanding citizen experience

63 days to 1 day

Reduced processing time from **63 days** to **1 day**

8.5Cr+

Users filed taxes using our low-code platform

85%

information is auto-filled reducing tax fraud possibilities
