

Earnings Call Presentation

Oct 16, 2017

Certain words and statements in this communication concerning Sterlite Technologies Limited (“the Company”) and its prospects, and other statements relating to the Company’s expected financial position, business strategy, the future development of the Company’s operations and the general economy in India & global markets, are forward looking statements.

Such statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements of the Company, or industry results, to differ materially from those expressed or implied by such forward-looking statements.

Such forward-looking statements are based on numerous assumptions regarding the Company’s present and future business strategies and the environment in which the Company will operate in the future.

The important factors that could cause actual results, performance or achievements to differ materially from such forward-looking statements include, among others, changes in government policies or regulations of India and, in particular, changes relating to the administration of the Company’s industry, and changes in general economic, business and credit conditions in India.

The information contained in this presentation is only current as of its date and has not been independently verified. No express or implied representation or warranty is made as to, and no reliance should be placed on, the accuracy, fairness or completeness of the information presented or contained in this presentation. None of the Company or any of its affiliates, advisers or representatives accepts any liability whatsoever for any loss howsoever arising from any information presented or contained in this presentation. Please note that the past performance of the Company is not, and should not be considered as, indicative of future results. Furthermore, no person is authorized to give any information or make any representation which is not contained in, or is inconsistent with, this presentation. Any such extraneous or inconsistent information or representation, if given or made, should not be relied upon as having been authorized by or on behalf of the Company.

The Company may alter, modify or otherwise change in any manner the contents of this presentation, without obligation to notify any person of such revision or changes.

Persons should consult their own financial or tax adviser if in doubt about the treatment of the transaction for themselves

These materials are confidential, are being given solely for your information and for your use, and may not be copied, reproduced or redistributed to any other person in any manner. The distribution of this presentation in certain jurisdictions may be restricted by law. Accordingly, any persons in possession of this presentation should inform themselves about and observe any such restrictions

Industry Trends and Outlook

The Zettabyte Era: A Reality Now

Global IP traffic in Zettabytes (Actual & Forecasted)

- The world officially saw annual **global IP traffic crossing 1ZB (10²¹ bytes) in CY 2016**

Exponential Growth in Data Consumption to Continue

Internet Users (Bn)

Device Installed Base (Bn)

Average Data per Consumer (GB/month)

Fiber – Most Suited Media for Data Transmission

- Fiber Network is deployed across the Network Generation and are getting deployed by Conventional Telco's, CSP/DSP's and new class of OTT & Content Players

Fiber Consumption Directly Proportional to Data Growth

- Statistically, there is a strong correlation between Historical Data consumption and Optical Fiber consumption

Interesting New Developments Across the Globe

Verizon entered in long term contracts with global fiber manufacturers Corning (\$1 bn deal) & Prysmian (\$300 m deal)

At&T announced its 5G evolution plans for beyond 2017. To reach at least 12.5 m locations with 100% fiber network

Microsoft, Facebook and Telxius completed the highest-capacity subsea cable across the Atlantic ocean

Germany investing 100 bn € into national gigabit internet network: Common EU broadband targets for 2025

NBN Australia created a three year roll-out plan to provide broadband to entire Australia with Fiber

Airtel, BCS & Facebook to build shared Fiber backhaul connectivity in Africa to expand data capacity

Global Demand for Optical Fiber Continues to Reflect Strong Annual Growth

- Continuous growth of data driven by network evolution and changing consumption pattern reflecting strong demand for Fiber
- Globally >3bn kilometre cumulative fiber already deployed in the networks; replacement lifecycles building in

B

End to End Capability to Design, Build & Manage Data Networks for Telcos, Smart Cities, Rural Broadband & Defence

Business Updates: Q2FY18

Q2 Business Highlights at a glance

- Launched innovative high-speed 5G ready network solution, FlashFWD at IMC. Has highest fiber density in most compact cable packaging

- Overall open order book value increased from Rs. 3,140 Cr (at the end of Q1) to Rs. 3,832 Cr. Open order book to be further strengthened during Q3

- Patent count increased to 162. As an organization our core strength is Engineering and Technology. We believe in enabling our customers to solve problems better with our Patented Technology, Products and Solutions

- Won large-scale order from a leading telco to enable roll-out of FTTH networks
- Developed world's first 'citizen-safe' aerial cable to support rural broadband deployment in UK
- Bagged an order to enable Africa's leading global operator with Wi-Fi SMP & VoIP solutions

Awards and Accolades

Honoured with the Golden Peacock Award for **“Excellence in Corporate Governance - 2017”**

Won the **TelecomLead OSS/BSS Company** award at the TelecomLead Awards 2017

The CPO Forum India & Awards 2017 for **‘Recognizing Procurement Excellence’** - Winner in ‘Excellence in Risk Mitigation’ Category

Jeewan Jyoti initiative won the **“CSR Project of the Year”** title under the Women Empowerment category at the CSR Excellence Awards.

- Achieved 30 Mn fkm in OF Volume in Q2FY18, as per plan
- New plant is located in Aurangabad, Maharashtra (India)
- Integrated plant project progressing well to achieve phased capacity ramp-up (Mid CY 18 partial capacity & we expect full capacity to come live by June 2019)
- Cabling volumes reflecting an upward trend from demand perspective

Scaling Services & Software Business

Smart city orders are becoming larger in size and scope with integrated offerings

Silicon to Software and Server Capabilities will be executed in upcoming Smart Cities Projects; Ex. Kakinada Smart City Project

Network Solutions

- Integrated Design, Build and Management of Secure Network for Indian Army, reflecting capabilities in Designing and Rollout of Network in Toughest Part of India
- Scaling offering to Private Telcos: executing POC in MP

Long Term Customer Engagement to Drive Predictability

- Increasing Order book reflects predicable sale outlook for the company

Financial Updates: Q2FY18

Quarterly Financial Performance

- Registered sales growth of 42% on YoY basis
- Strong growth in EBITDA and Net Income, reflecting scalar and predictable bottom-line for the company

Note: In accordance with the requirements of Ind AS, revenue for the quarter ended September 2017 is net of Goods and Services Tax ('GST'). However, revenues for all the previous quarters are inclusive of excise duty
