MANAGEMENT DISCUSSION ANALYSIS AND BUSINESS OUTLOOK

A. Industry Overview

The Union Budget this year has made substantial allocation of funds for the Power Sector. The government will offer ultra-mega power projects worth a total of ₹ 1.5 lakh crores in the current and next fiscal year. There is major focus on Transmission & Distribution.

The renewable energy development on big scale will also boost demand for company products further. The government has set up ambitious target of 175 GW of renewable generation by 2022. The government has identified 34 solar parks in 21 states and EHV transmission system for evacuation of bulk power from these solar parks.

Government of India has chalked out massive programme of enhancement of transmission capacity at an estimated investment of about ₹ 2,00,000 Crores is underway. This includes laying of 11 High Capacity Power Transmission Corridors (HCPTCs) being implemented matching with generation projects in Chhatisgarh, Odisha, Madhya Pradesh, Sikkim, Jharkhand, Tamil Nadu and Andhra Pradesh.

The country is having more than 298 GW of generation capacity. The generation of power is more concentrated in pockets. The Power Surplus regions do not have adequate power evacuation infrastructure. There is improved generation due to fuel issues getting sorted out and corresponding increase in transmission capacity is required. Your company

products are widely used for the same.

The Government declared programme of 100% rural electrification of our villages by 1st May 2018.

The 12th plan (2012-17) has witnessed substantial addition of transmission lines particularly for 765 kV and 400 kV for which your company has requisite expertise. The company also developed import substitution product of 800 kV HVDC which has helped in meeting country's demand.

The rate of application of composite insulators has grown rapidly. In case of new lines the share is 50% and it is growing every month. The replacement demand is also on rise.

Launching of UDAY (Ujjwal Discom Assurance Yojana) will improve financial health of discoms and subsequently of transmission companies.

The Government, in order to fulfil its mission of power for all is pumping major investments in transmission and distribution projects. It appears that the Government shall be able to meet its objective as they are moving at fast pace by the Ministry of Power's apex organizations like CEA, REA, PFC and PGCIL.

Another area which looks attractive for company products is its acceptability in International markets. The acceptability of composite insulators is increasing and usage in Africa, Middle East, America and South America is increasing and so also demand. The finance ministry has indicated its support for export sector.

B. Opportunities & Threats

Opportunities

- 1) Government policies are encouraging more participation of Private Sector in transmission projects.
- 2) Green energy corridors to transfer power from renewable energy sources are being developed in the form of inter-state / intra state transmission schemes.
- 3) The upcoming national grid comprising 53,150 MW of inter regional capacity that would increase to 72,250 MW by the end of 13th plan period would create good requirement of company products.

Threats

- 1) The liquidity of buyers continues to be an issue.
- 2) In smart cities it is encouraged to use underground electricity distribution which reduces need for insulators which are mainly used in overhead transmission.
- 3) The continuous rise in costs of fuel, power, raw materials and other inputs continue to be cause of concern for the industry.

C. Segment or Product wise Performance

Keeping in view the industry overview as discussed in (A) above, the performance of the Company's product is reasonably good. During the year under review, inspite of intense competition, dollar fluctuations, increase in imports, reduction in margins due to inflationary trends and slow pace of implementation of EPC contracts, the Company was able to record a gross turnover of ₹ 101.42 Crores as against ₹ 99.51 Crores in the previous year.

D. Outlook

Indian Insulator Industry is continuously keeping pace with technological advancement that is occurring globally. The domestic industry manufactures various types of insulators in all ranges for LT, HT and EHT. The industry is also manufacturing for the range up to 1200 kV. Vision 2022 is to make India the country of choice for the production of electrical equipment and reach an output of US\$100 billion by balancing exports and imports. Goldstone has augmented its capacity to cater to growing market. We also intend to add more products as per customer requirement. After PGCIL, many state utilities are carrying out replacement of insulators which will boost demand.

The recent guideline from CEA to various utilities to buy in India by making payment in Indian Rupees will help domestic companies to cater to wider market.

Central power sector, state electricity boards, distribution companies, private sector power transmission companies, railways and telecom sector are all major customers for this industry. In order to meet the country's growing demand of up to 1200kV, your company strives to build sufficient swappable capacity of insulators since.

E. Risks and Concerns

The revenues of Indian manufactures of composite insulators have been eroded by the cheaper imports from China inspite of growth in overall transmission line network.

F. Internal Control systems and their adequacy

The internal audit and other internal checks

implemented in the Company are adequate and commensurate with the size and nature of operations providing sufficient assurance and safe guarding all assets, authorizing all transactions and its recording and timely reporting.

G. Discussion on Financial Performance with respect to operational performance

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 ('The Act')

We have audited the internal financial controls over financial reporting of Goldstone Infratech Limited ('the company') as of 31st march 2016 in conjunction with our audit of standalone financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the Guidance note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the standards on Auditing deed to be prescribed under section

143(10) of the Act to the extent applicable to an Audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. These standards and guidance note require that we comply with ethical requirements and plan and performed the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our Audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor's Judgment, including the assessment of the risk of martial misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion and the company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes these policies and procedures that (1) pertain to the maintenance of records that, in

reasonable detailed, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal Financial Controls over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate

because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute Of Chartered Accountants of India.

Annexure A to the Independent Auditor's Report

Report on the Internal Financial Controls under clause (i) of the Sub-section 3 of the Section 143 of the Companies Act, 2013 ('The Act')

In conjunction with our Audit of the consolidated financial statements of the company as of and for the year ended 31st March 2016, we have audited the internal financial controls over financial reporting of GOLDSTONE INFRATECH LIMITED ('the Holding company') and its subsidiary company companies which are incorporated in India, as of the date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary company, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our Audit. We conducted our audit in accordance with the

Guidance note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an Audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. These standards and guidance note require that we comply with ethical requirements and plan and performed the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our Audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor's Judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion and the company's internal financial control system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted

accounting principles. A Company's internal financial control over financial reporting includes these policies and procedures that (1) pertain to the maintenance of records that, in reasonable detailed, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted principles, and that receipts and expenditures of the Company are being made only in accordance with authorization of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitation of Internal Financial Controls over Financial Reporting

Because of the inherent limitation of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, Projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate

because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, The Holding Company and its subsidiary company, which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2016, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute Of Chartered Accountants of India.
