# Contents

# Q3 & 9M FY26 Financial Overview

# MD's Insights and Reflections

**MR. NARESH JALAN**

"We are pleased to report an improved performance in Q3 FY26, driven by strong performance in the domestic business and resilient performance in global business on the back of effective execution of new orders. We have reported consolidated revenues of ₹1,099 crore in Q3 higher by 21% on a QoQ basis and PBT of ₹30 crore against loss of ₹ 5 crores.

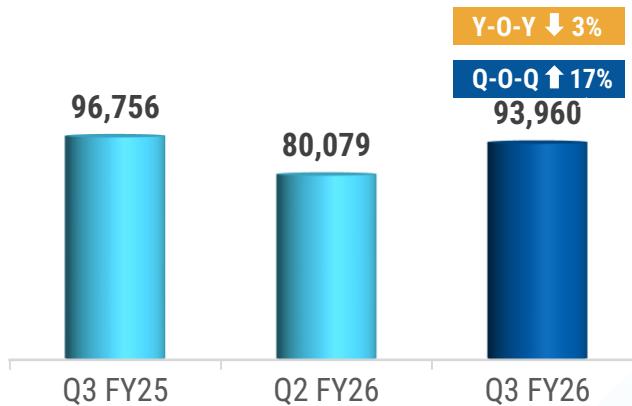

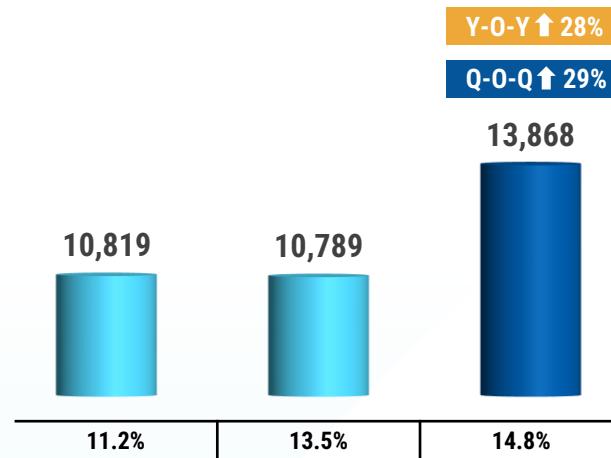

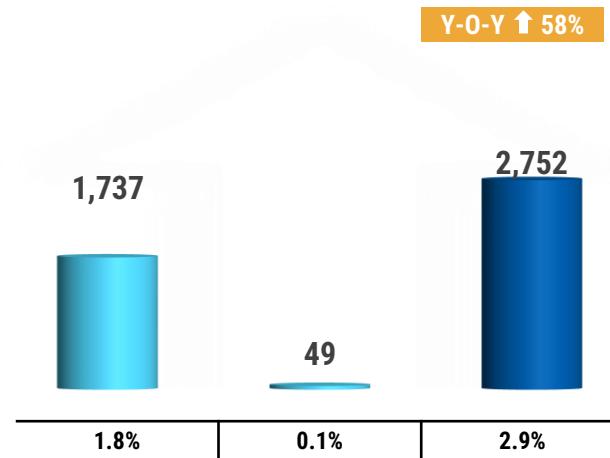

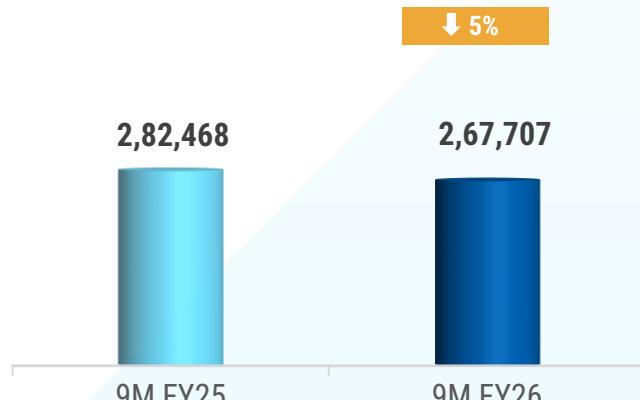

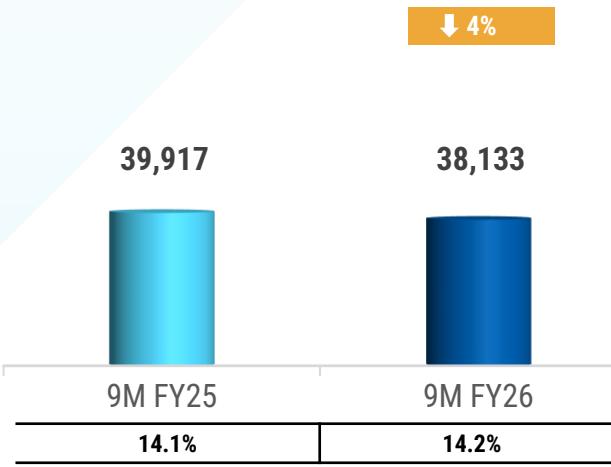

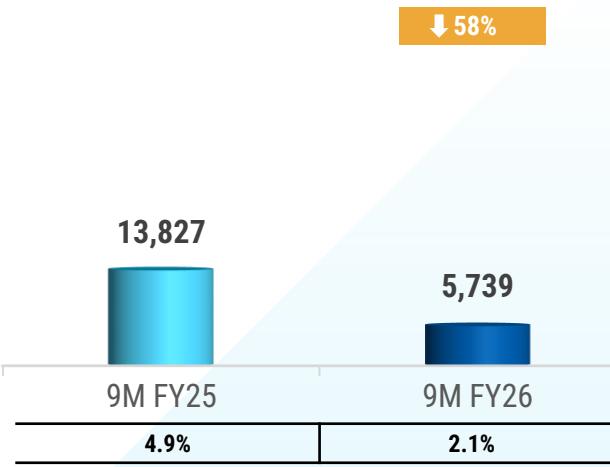

While the global operating environment remains uncertain, the robust performance of our domestic business has helped us partially mitigate these external headwinds. Our strategic emphasis on deepening domestic capabilities and diversifying our revenue base is yielding tangible results and providing greater stability to our overall business profile.

During the quarter, we further strengthened our order book by securing new contracts worth ₹680 crore across the Auto and Non-Auto segments, reflecting the strength of our increasingly diversified portfolio.

Looking ahead, the outlook remains encouraging. Production ramp-up at our casting facility is underway, aluminum forging capacity has been successfully commissioned, and we continue to make steady progress towards commissioning the machining facility in Mexico. We are confident of improved performance in Q4 and are well positioned to build on this momentum through FY27.

Even as we steadily rebuild our performance trajectory, we continue to advance key strategic priorities, including the development of new products, expansion of our Railway business, foray into the passenger vehicle segment, geographic diversification, and capacity augmentation. Supported by strategic agility and operational discipline, we remain confident that these initiatives will further de-risk the business, strengthen our competitive positioning, and drive sustainable, long-term value creation for all stakeholders."

# Order Wins in Q3 & 9M FY26

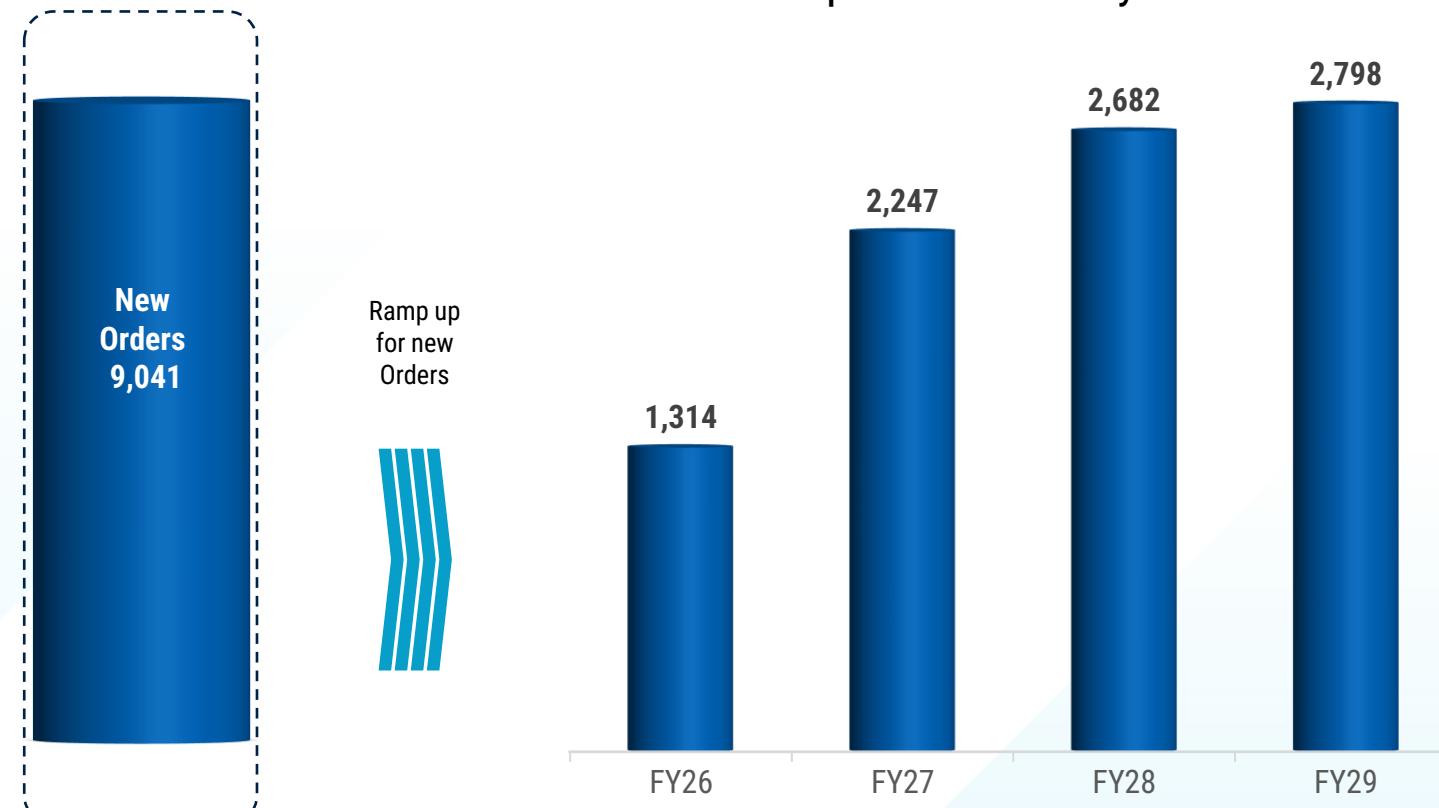

- During Q3, the Company secured new orders worth ₹680 crore, with a program life of four years.
- Approximately 66% of these orders were from the automotive segment and the balance 34% from the non-automotive segment, reflecting continued progress in the Company's diversification strategy.
- In Q3FY26- Auto orders amounting to ₹406 Crores is in CV Segment, ₹26 Crores is in PV Segment and ₹18 Crores is in EV Segment
- In Q3FY26- Non Auto orders amounting to ₹189 Crores out of ₹ 230 Crores is in the Oil & Gas Sector

# New Order Wins in Standalone Business (in ₹ Crores)

Last 3 years New orders

New orders split over next 4 years

Note:- Projected sales is from new orders only

# Well Positioned to Capture Future Growth

Over the last four years, the Company has invested approximately ₹300 crores for acquisition of machining facilities in Gurgaon and Jharkhand, alongside casting and forging facilities in Jharkhand. These facilities achieved stabilization during FY25-26.

In addition, the Company has invested ₹242 crores in the rail wheel project, which is scheduled for commercial production in next financial year.

Incremental capex of about ₹2651 crores has been deployed across Hot Forging (Presses and Upsetters), Warm Forging, Cold Forging, Aluminum Forging, Spindle lines, RA shaft lines, Casting Facilities and corresponding Machining Facilities during the last four years.

The above outflow of ₹ 3193 Crores is funded largely from Internal Accruals and Equity.

These strategic investments will materially benefit operations in forthcoming years.

Summary on Capacity Expansion	Particulars (In Metric Tonnes)	Existing	Under Commissioning	Total
		Capacity		
	Forging	293,400	40,000	333,400
	Casting	33,600	45,000	78,600
	<b>Total</b>	<b>327,000</b>	<b>85,000</b>	<b>412,000</b>

# Way Forward

- ✿ Major Growth drivers:

- Aluminum Forgings – Production commenced
- Castings plant of 45,000 MT per annum expected to get commissioned in Q4FY26
- Forging – 40000 MT per annum expected to get commissioned in Q4FY26
- New products in Domestic and LCV markets
- Railways - Bogie Assemblies which is a good value addition as assemblies supply along with our core items of Frame & Bolster. Bulk supplies have started and Indian Railway is showcasing huge demand for full assemblies supplies.

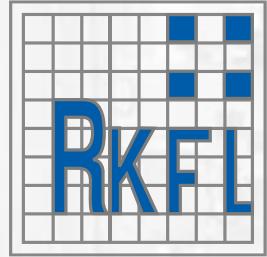

- ✿ Post-GST cut:

- Robust demand in the domestic market has already driven growth and improved capacity utilization

# Update on Subsidiary and Joint Venture

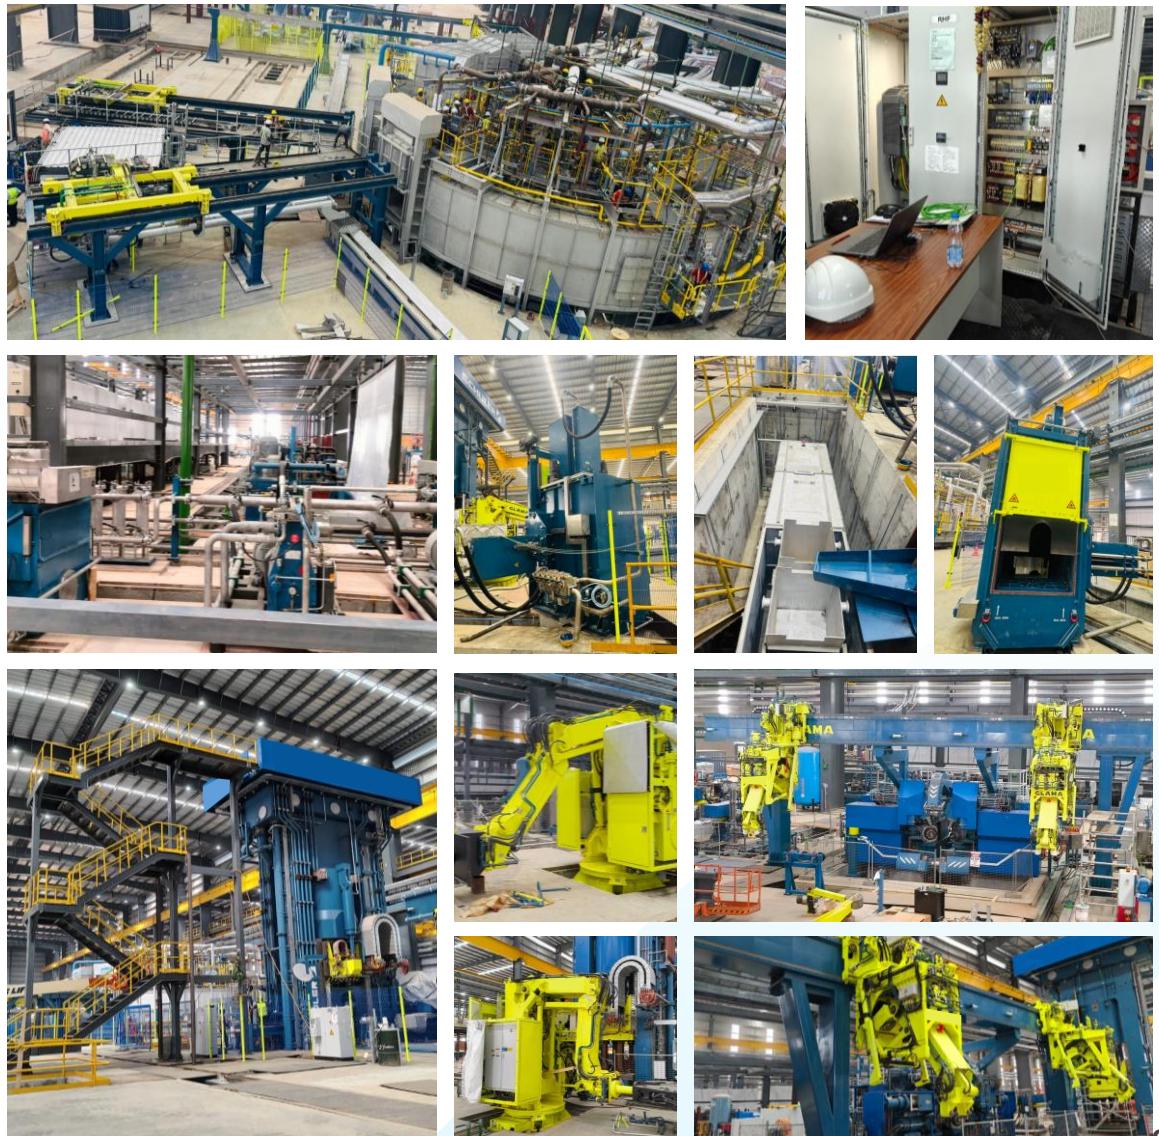

# Update on Merger of Subsidiaries with Ramkrishna Casting Solutions Limited

- ✿ A joint petition seeking approval for the Scheme of Amalgamation involving Mal Metalliks Private Limited and Multitech Auto Private Limited with Ramkrishna Casting Solutions Limited was filed before the Hon'ble National Company Law Tribunal, Kolkata Bench ("NCLT"), on September 27, 2025. The hearing concluded on January 22, 2026, with the order reserved by the NCLT.
- ✿ All three entities are wholly owned subsidiaries, ensuring no change in RKFL's shareholding.
- ✿ Merger to simplify group structure and eliminate duplicate compliances
- ✿ Expected to enhance operational efficiency and synergies across casting and machining businesses

# Update on Rail Wheel Project

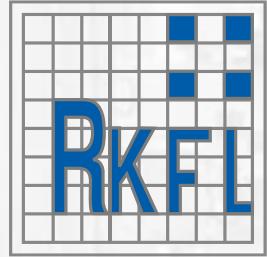

- ✿ Ramkrishna Forgings & Titagarh Rail Systems Consortium received an LOA for Manufacturing and Supplying of Forged Wheels for the Indian Railways.
- ✿ Ramkrishna Forgings holds a 51 % stake in the Joint Venture and is the lead partner in this railway contract.
- ✿ The company will establish Asia's 2nd largest manufacturing plant in India to produce 228,000 forged wheels per annum.
- ✿ The total project cost is estimated at ₹2,000 crores, which is being funded through a mix of debt and equity.
- ✿ As on December 31, 2025, a total of ₹455 crores equity has been infused in the JV.
- ✿ Project at Chennai, Tamil Nadu and construction work at site is progressing as per schedule.
- ✿ Trial run production is expected to begin by March, 2026

# Update on Mexico Facility

- ✿ Ramkrishna Forgings Limited has acquired a company in Mexico and the same is named as Ramkrishna Forgings Mexico S.A. de C.V.
- ✿ The Company has taken a factory space on lease at Monterrey, Mexico, and has already commenced its machining operations along with storage.
- ✿ Current Machining is done on Machines supplied by a North American customer on Forgings also supplied by them.
- ✿ We have secured significant orders amounting to ₹200 crores for machining services from a major North American customer, to be fulfilled over the next five years.
- ✿ All machines for the above project has been received and installed at the plant. Some of the tooling and fixtures already received and the balance expected to be received by last week of January. PPAP of the products to start from February 2026 onwards and Bulk production is scheduled to begin from April 2026.
