This Presentation is prepared by Tracxn Technologies Limited (“Company”) solely for information purposes and does not constitute an offer, solicitation, recommendation, or invitation to purchase or subscribe for any securities and shall not form the basis of or be relied on in connection with any contract or binding commitment whatsoever. This Presentation does not consider, nor does it provide any tax, legal, or investment advice or opinion regarding the specific investment objectives or financial situation of any person. This Presentation may not be copied, reproduced, summarised, disseminated, or redistributed to any other person in any manner whatsoever without the Company’s prior consent in each instance. This Presentation has not been and will not be reviewed or approved by any regulatory authority or by any stock exchange in India. No rights or obligations of whatsoever nature are created or shall be deemed to be created by the contents of this Presentation.

The Company, its affiliates, shareholders, directors, employees, or advisors do not make any representation or warranty, expressed or implied, and no undue reliance should be placed on the accuracy, fairness, or completeness of the information contained in this Presentation. The Company, nor any of its advisers or representatives accepts any liability whatsoever for any actual or consequential loss or damages howsoever arising from the provision or use of any information contained in this Presentation. The information contained in this Presentation should be considered in the context of the situations prevailing at the time when the Presentation was made and are to be read in conjunction with the company’s financial results, uploaded on the Stock Exchanges where the Company is listed. The Company expressly disclaims any obligation or undertaking to supplement, publicly amend or disseminate any updates or revisions to any information/statement contained in the Presentation to reflect any change in events, conditions, or circumstances including economic, regulatory, market, and other developments on which any such information is based.

This Presentation may contain, words or phrases that are forward-looking statements that involve risks and uncertainties and are based on certain beliefs, plans, and expectations of the Company. Although the Company believes that such forward-looking statements are based on reasonable assumptions, it can give no assurance that such expectations will be met. Actual future performance, outcomes, and results may differ materially from those expressed in forward-looking statements because of several risks, uncertainties including but not limited to our ability to implement our strategy successfully, the market acceptance of and demand for our offering, technological changes, volatility in global capital markets, pandemic and international and domestic events having a bearing on the Company’s business. You must not place undue reliance on these forward-looking statements, which are based on the current views of the Company’s management.

The operating metrics reported in this Presentation are calculated using internal Company data based on the operational activities. While these numbers are based on what the Company believes to be reasonable estimates for the applicable period of measurement, there are inherent challenges in measuring across some operational metrics. The methodologies used to measure these metrics require considerable judgment and are also susceptible to an algorithm or other technical errors. The Company systematically reviews its processes for calculating these metrics from time to time and may discover inaccuracies in the metrics or may make adjustments to improve their accuracy, which can result in adjustments to previously disclosed metrics. In addition, the Company metrics may differ from estimates published by third parties due to differences in methodology.

To facilitate understanding, some non-GAAP metrics are used and financial amounts are converted from ₹ Lakhs into ₹ Crores for this Presentation hence, there could be some totalling anomalies in the numbers.

# Significant cost advantages from India-based operations

Significant cost advantage due to **make-in-India**. Especially:

- **Data-production & technology platform** is built from India
- **Global sales** happens from India (sales & support teams work across all time zones)
- Very efficient content-driven **customer acquisition flywheel**

These give us a significant and long-lasting cost advantage

# Q3 FY25: Greenshoots (1/5)

Accelerated growth in India due to vertical sales teams

Revenue split by India and International  
(in INR Cr.)

	FY24	YoY %	9M FY25	YoY %
India Revenue	28.4	14%	24.7	16%
International Revenue	54.3	2%	38.6	-6%
Total Revenue	82.8	6%	63.3	1%

India **growth accelerated** from 14% in FY24 to **16% in 9M FY25** - primarily due to the growth initiatives including launch of vertical teams.

Plan to **replicate the same strategy internationally** - scale the vertical teams to top countries.

# Q3 FY25: Greenshoots (2/5)

International	54.3	2%	-5%	38.6	-6%	21%
Total	82.8	6%	7%	63.3	1%	39%

In India, the volume growth accelerated from 20% YoY in FY24 to 55% YoY in 9M FY25 which subsequently saw revenue growth accelerate.

Similarly, we are seeing volume growth starting to happen in international customers.

# Q3 FY25: Greenshoots (5/5)

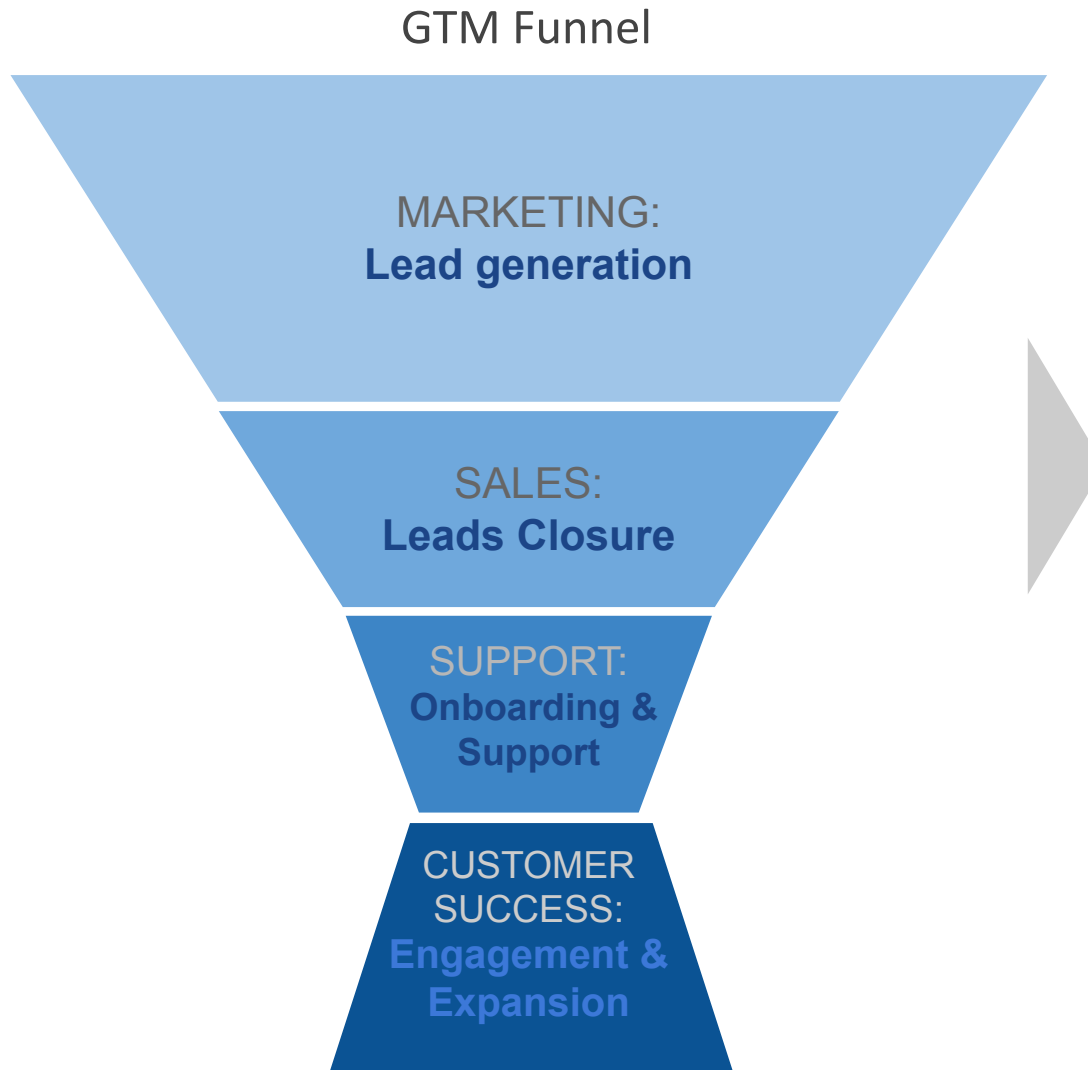

Platform Engagement continues to increase

Trend of platform usage metrics in terms of  
# of Exports and Myanalyst queries

**Customers' platform engagement continues to increase** - customer exports & myanalyst queries have grown ~**2X** over the last 2 yrs

# Growth Initiatives

We have been investing across various growth initiatives - spanning across sales, marketing and account expansion. The following slides give an overview of some of the recent initiatives where we are seeing good results and hence expect further acceleration to happen.

# Select Recent Growth Initiatives

## Organic Search Traffic\* (in millions)

1

## Scaling Organic Traffic & Inbound Leads Pipeline

- We have built a large organic inbound traffic funnel, & it continues to increase
- **Over 16 Million** visits in the first 9M of FY25
- Current annualized run-rate of **20 Million+** which is more than double of that 2 yrs back

# Select Recent Growth Initiatives

## #New Tracxn Lite Signups<sup>1</sup>

## #Monthly Active Users<sup>2</sup>

Note: (\*) For the partial period since the launch of Tracxn Lite in Dec'23.

(1) Does not include ~2L old unpaid users migrated to Tracxn Lite, (2) Includes users from organic signups and old unpaid users that were migrated to Tracxn Lite

## 2 Tracxn Lite

- Had launched **Tracxn Lite** ~last year for **PLG** (Product-Led Growth) to make the customers aware of the richness of the platform and drive product led growth
- Users get full platform access (with limitations such as restricted daily hits for profile views, exports and certain platform modules)
- **Great traction** - in just one year since launch, more than **1,00,000 sign ups** for Tracxn Lite, with pace of acquisition increasing QoQ. Monthly active users have crossed **23,000**
- Very good **increase in overall sales acquisition pipeline**. For instance - Q1 v/s Q4 2024
  - #Organic sign-ups have **more than doubled (2.4X)**
  - Avg monthly actives have **more than tripled (3.6X)**
  - Avg. #users / day hitting the credit limit **more than tripled**
  - Increase in upgrade requests, demos, etc.

# Select Recent Growth Initiatives

## 3 Specialized Teams - Universities

- Specialized team with cumulative experience of over 20 years in selling to universities
- Bulk of our relevant customer segments come from top universities globally. More than a revenue segment, universities are a good marketing and discovery channel for us
- Seeing very good success: Customer count\* has **more than tripled** in this segment and **revenue has more than doubled** in just the last 12 months
- Continuing to increase penetration, while also working towards increasing engagement - eg. through inclusion in relevant courseworks, on-campus activation sessions & more

# Select Recent Growth Initiatives

Specialized teams for:

## 4 Startups

- We continue to see high volume of inbound leads from startups
- Though they are served by the same platform, they have a differentiated use case and workflow requirements
- Some of the uses cases that are particularly interesting for startups are Fundraising, Competitor analysis, Market research & Business development
- ~50% revenue from new accounts in this segment is from international customers

## 5 Accelerators & Incubators

- This is a new team, only a few months old
- Focusing on customers across private incubators, government incubators, universities and corporates
- We are seeing good initial success in India and plan to expand this internationally as well

# Select Recent Growth Initiatives

## Specialized Teams - Investment Banks

- Specialised team for selling to IBs through both inbound & outbound reach outs
- Coupled with augmenting the platform coverage for this segment. For instance, increased coverage of private company financials, VC & PE databases for their outreach efforts, etc.
- Also launching additional features - for eg. startups can mention if they are looking to hire an IB on our platform, which becomes a sales pipeline for the investment banks
- Seeing very good initial success:
  - Increasing logo penetration in India by ~1% MoM
  - Pace of new customer acquisition has ~tripled
- Plan to scale across geographies

## Account Expansion & Engagement

Various initiatives are underway for improving paid customer engagement as well as account expansion to enhance growth from existing customers.

For account expansion, we had setup a separate team to work on increasing penetration of licenses within existing accounts moving from reactive to more proactive account upgrades. This has led to account expansions through user addition as well as increased data on the platform.

- **Curbing login sharing** continues to be one of the ways for account expansion
- We have also seen some initial success in city trips and **on-site onboarding sessions** etc.
- Recently launched initiative includes proactive reach-outs to **under penetrated accounts**

We're also working on initiatives to boost engagement at both user and account levels. These include specialized engagement teams, regular touchpoints, personalized dashboards, alerts based on customer investment mandates, and analyzing user behavior to help them use the platform more effectively.

### UAE Tech startups continue to see downward trend; Funding falls 49% in Q3 2023

Tracxn Geo Quarterly Report: UAE Tech - Q3 2023

Press Release

October 4, 2023

- Total funding into UAE Tech startups dropped 49% to \$112 million in Q3 2023, compared with \$219 million in Q3 2022
- No IPOs took place, and no Unicorns emerged in Q3 2023
- Number of acquisitions dip to four in Q3 2023 from 10 in Q3 2022
- FinTech, Enterprise Applications and HealthTech were the top-performing segments
- Dubai takes the lead in terms of total funding in Q3 2023

**UAE:** Tracxn, a leading global SaaS-based market intelligence platform, has released its Geo Quarterly Report: UAE Tech - Q3 2023. The report, based on Tracxn's extensive database, provides insights into the UAE Tech space.

The UAE Tech space is the second highest-funded sector in the Middle East and North Africa (MENA) region, followed by Saudi Arabia and Egypt. Funding in this space saw a peak in 2021 after which it has

### Funding galore in spaceteck start-ups; \$62 mn infused this year

UMA KANNAN @Bengaluru

FROM just \$35 million funds raised between 2010 and 2019, the Indian spaceteck sector has already attracted \$62 million in funding so far this year, which is a 60% increase as compared to the same period last year. According to recent insights by Tracxn, India ranks seventh in terms of funding within the international spaceteck landscape for the year. In 2020, the sector secured \$28 million in funding and it was \$86 million in 2021. In 2022, the sector witnessed an impressive \$112 million funding. As per experts, after the launch of Chandrayaan-3 mission, venture capital funding and the number of start-ups in this space might increase in the coming years. "The success of Chan-

### Startup funding dips to lowest in 5 yrs in Q3 to \$1.5 bn, says report

ARYAMAN GUPTA  
New Delhi, 27 September

Funding among Indian startups declined to the lowest in five years in the third quarter of calendar year 2023. Investments fell 54 per cent compared to the same period last year at \$1.5 billion. On a sequential basis, funding fell 29 per cent from the previous quarter, according to a report by market intelligence platform Tracxn.

"Despite facing the challenges of a funding winter, India ranks as the fifth highest funded country in Q3 2023 and maintains its fourth-place position in terms of total funding for the year to date (YTD). It underscores the resilience of India's tech startups and their ability to adapt to changing market conditions," said Neha Singh, co-founder, Tracxn. The quarter saw five funding rounds cross the \$100 million mark, including the likes of Perfios, Zepto, Ola Electric, Ather Energy and Zyber 365. "Despite the decline in funding, India remains among the top-performing tech ecosystems globally. A promising sign in the report is the month-on-month funding growth, with an impressive 91% increase from \$376 million in August 2023 to \$720 million in September 2023," said Abhishek Goyal, co-founder, Tracxn.

# AI in Data Production

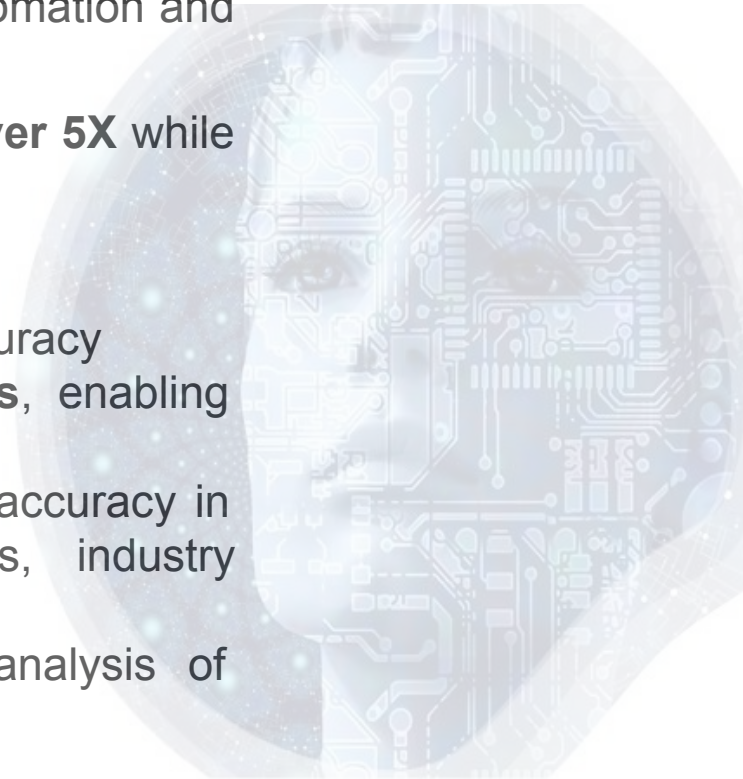

We continue to harness GenAI for key initiatives in data production yielding significant and promising results. We have been able to multiply our datasets while reducing manual intervention & shrinking headcount, which is a great testimony to our use of automation and intelligence in data production.

- In 2024, we increased the coverage of key data points on our platform **over 5X** while the **data production headcount reduced by ~10%**

Some interesting ways in which we are leveraging AI:

- In company profiling, transactions data, data updation, improving data accuracy
- Extracting relevant data points from **unstructured data & documents**, enabling massive scalability to accelerate the pace of data addition
- **Training the models on our internal historical data**, to achieve high accuracy in select modules, such as identifying upcoming private companies, industry classification, & more
- Empowering our **GTM teams** by refining lead profiling, sentiment analysis of interactions, and optimizing engagement strategies

In the coming year, we expect significantly **more optimization** in the data production units while we expect the **throughput** of the systems to further **accelerate**. We are excited about the possibilities with GenAI technology and its potential to help build data on private companies globally.

# Key Business Strengths (1/2)

## Large, Growing Market & Rich Customer segment

- More than 1,00,000 addressable organizations
- We currently work with small single digit % of this market & remains largely untapped.

## High Operating Leverage & Margin Expansion

- Incremental cost to serve customers is very low
- Offering is productized & there is no custom servicing work required
- Between FY21 to FY24, the revenue grew at a CAGR of 24% while the total expense grew only at 9%

## India Cost Advantage

- Significant cost advantage because we make-in-India while selling globally, ~ 70% of revenue comes from international customers.

## Profitable operations and increasing free cash flow

- Consistent margin expansion, positive EBITDA of INR 4.6 Cr. and a positive PAT of INR 6.5 Cr. in FY24.
- FCF stood at INR 10.3 Cr. and cash & cash equivalents stood at INR 75.2 Cr. at the end of FY24, a 25% increase, YoY.

## Scalable & Proprietary Technology Platform

- In-house platform built on leading technologies and architectures.
- Highly agile and scalable, and aggressively leverage the latest technology stacks, machine learning and generative AI capabilities

# Key Business Strengths (2/2)

## Low cost, content driven acquisition flywheel

- Content-based marketing helps us to acquire a high velocity of leads without having to spend on paid marketing.
- 16 million visits across all our public pages and over 3000 press mentions in prominent news media in FY24.

## Debt-free, Asset Light. Negative Working Capital

- Asset-light business, fixed assets on balance sheet of INR 0.2 Crores
- Depreciation expense was INR 0.2Cr & capex of INR 0.01Cr. in FY24
- Capital efficient and able to scale with flexibility
- Debt-free since inception

## Strong Team & Experienced Board of directors

- Strong and experienced top management team.
- Board consists of 4 independent directors bringing rich experience from the investment industry and the corporate development.

## Strong Focus on Good Governance

- Right from the 3rd year of our operations, we have had our statutory audits conducted by one of the Big4 auditors and we never had any qualifications.
- We continue to work on adopting the best governance practices as much as we focus on growing the business
