Registered Office:

Plot No.111, Road No.10
Jubilee Hills, Hyderabad – 500 033, Telangana.

Notes:

1. The Statement setting out material facts concerning the business under Items No.5 and 6 in the Notice is given in the Annexure-1, which forms part of this Notice.
2. The details that are required to be given under Regulation 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 in respect of the persons seeking re-appointment as directors, are given in the Annexure-2.
3. A Member entitled to attend and vote at the Annual General Meeting is entitled to appoint a proxy to attend and vote instead of himself and the said proxy need not be a member of the company. The instrument appointing the proxy, in order to be effective, must be deposited at the Registered Office of the company, duly completed and signed, not less than forty eight hours before the commencement of the meeting.
4. A person can act as a proxy on behalf of members upto and not exceeding fifty and holding in aggregate not more than ten percent of the total share capital of the Company carrying voting rights. A member holding more than ten percent of the total share capital of the Company carrying voting rights may appoint a single person as proxy and such proxy shall not act as a proxy for any other person or member.
5. Corporate members intending to send their authorized representative(s) to attend the Meeting are requested to send to the Company a duly certified copy of the Board Resolution authorising their representative(s) to attend and vote on their behalf at the Meeting.
6. Members holding shares in dematerialized form are requested to intimate all changes pertaining to their bank details such as bank account number, name of the bank and branch details, MICR Code and IFSC Code, mandates, nominations, power of attorney, change of address, change of name, email address, contact numbers etc to their depository participant (DP). Changes intimated to the DP will then be automatically reflected in the Company's records. Similarly, Members holding their shares in physical form are requested to inform the above changes to the Company or its Registrar and Share Transfer Agents (RTA), M/s.Karvy Computershare Private Limited (Karvy).
The Securities and Exchange Board of India (“SEBI”) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their depository participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to Karvy.
7. To promote green initiative, members are requested to register their e-mail address through their Depository Participants for sending future communications to them by e-mail. Members holding the shares in physical form may register their e-mail addresses through the RTA, giving reference of their Folio Number.
8. Electronic copy of the Annual Report is being sent to all the members whose e-mail IDs are registered with the Company's RTA/Depository Participants, unless such members have requested for a hard copy of the same. However, for members, who have not yet registered their e-mail address, physical copies of the Annual Report are being sent through the permitted mode.

9. The Register of Members and Share Transfer Books of the Company will remain closed during the period from 21st September, 2018 to 27th September, 2018 (both days inclusive) for the purpose of determining members eligible for participation in voting on the resolutions contained in the Notice of AGM and for the further dividend, to be declared at the AGM.
10. The un-claimed dividends for the financial year ended 31st March, 1996 onwards and up to the financial year ended 31st March, 2010 were duly transferred to the Investors Education and Protection Fund (IEPF) set up by the Government of India in accordance with the Companies Act as applicable at the time of such transfer. No claim is entertained against the IEPF or the Company for the amount so transferred.

Pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 and Amendment Rules, 2017 notified by the Ministry of Corporate Affairs, the Company is required to transfer all shares in respect of which dividend has not been claimed by the members concerned for seven consecutive years or more to Investor Education and Protection Fund ("IEPF"). Adhering to various requirements set out in the Rules, the Company has taken appropriate action for transferring the shares to the Demat Account opened by the IEPF Authority.

The company has already sent notices to all the Members whose Dividends are lying unclaimed against their name for seven consecutive years or more. The Company has also uploaded on its website, www.sagarcements.in, the details of such members whose shares have been transferred to IEPF Suspense Account. The shares transferred to IEPF Suspense Account including all benefits, if any, accruing on such shares, can be claimed by the members concerned from IEPF Authority, after following the procedure prescribed under the said Rules. The company has transferred 1,49,334 shares to IEPF as per the requirements of the IEPF Rules in respect of the said unclaimed dividend.

11. Members who have not yet encashed their dividend warrants in respect of the dividend declared for subsequent years as detailed below are requested to make their claims to the Company. The details of dividend lying un-claimed in respect of these years are available in the Company's website, www.sagarcements.in.

The new password shall comprise of minimum 8 characters with at least one upper case (A- Z), one lower case (a-z), one numeric value (0-9) and a special character (@,#,\$, etc.). The system will prompt you to change your password and update your contact details like mobile number, email ID etc. on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you have forgotten it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.
 - v. You need to login again with the new credentials.
 - vi. On successful login, the system will prompt you to select the "EVENT" i.e., 'Name of the Company'
 - vii. On the voting page, enter the number of shares (which represents the number of votes) as on the Cut-off Date under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and partially "AGAINST" but the total number in "FOR/AGAINST" taken together shall not exceed your total shareholding as mentioned herein above. You may also choose the option ABSTAIN. If the Member does not indicate either "FOR" or "AGAINST" it will be treated as "ABSTAIN" and the shares held will not be counted under either head.
 - viii. Members holding multiple folios/demat accounts shall choose the voting process separately for each folio/ demat accounts.
 - ix. Voting has to be done for each item of the notice separately. In case you do not desire to cast your vote on any specific item, it will be treated as abstained.
 - x. You may then cast your vote by selecting an appropriate option and click on "Submit".
 - xi. A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you have voted on the resolution (s), you will not be allowed to modify your vote. During the voting period, Members can login any number of times till they have voted on the Resolution(s).
 - xii. Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI etc.) are also required to send scanned certified true copy (PDF Format) of the Board Resolution/Authority Letter etc., together with attested specimen signature(s) of the duly authorised representative(s), to the Scrutinizer at email bssass99@gmail.com with a copy marked to evoting@karvy.com. The scanned image of the above mentioned documents should be in the naming format "Corporate Name_Event No."
- (B) In case of Members receiving physical copy of Notice [for Members whose email IDs are not registered with the Company/Depository Participants (s)]:
- i. E-Voting Event Number – XXXX (EVEN), User ID and Password is provided in the Attendance Slip.
 - ii. Please follow all steps from Sl. No. (i) to (xii) above to cast your vote by electronic means.
- II. Voting at AGM: The Members, who have not cast their vote through Remote e-voting or by sending their assent/dissent through post can exercise their voting rights at the AGM. The Company will make necessary arrangements in this regard at the AGM Venue. The facility for voting through electronic voting system ('Insta Poll') shall be made available at the Meeting. Members who have already cast their votes by Remote e-voting or through post

are eligible to attend the Meeting; however these Members are not entitled to cast their vote again in the Meeting.

A Member can opt for only single mode of voting i.e. through Remote e-voting or by sending their assent/dissent through post or by voting at the AGM. If a Member casts votes by both electronic mode and through post, then the voting done through Remote e-voting shall prevail over the vote cast through post.

OTHER INSTRUCTIONS

- a. In case of any query and/or grievance, in respect of voting by electronic means, Members may refer to the Help & Frequently Asked Questions (FAQs) and E-voting user manual available at the download section of <https://evoting.karvy.com> (Karvy Website) or contact Mr.G.Ramesh Desai (Unit: Sagar Cements Limited) of Karvy Computershare Private Limited, Karvy Selenium Tower B, Plot 31-32, Gachibowli, Financial District, Nanakramguda, Hyderabad - 500 032 or at evoting@karvy.com or Phone No. 040 – 6716 1500 or call Karvy's Toll free No.1-800-34-54-001 for any further clarifications.

By Order of the Board of Directors

R.Soundararajan
Company Secretary

19th July, 2018

Registered Office:

Plot No.111, Road No.10, Jubilee Hills,
Hyderabad – 500 033, Telangana.

Annexure to the Notice of the 37th Annual General Meeting

Annexure 1

Statement pursuant to Section 102 (1) of the Companies Act 2013

As required by Section 102 of the Companies Act, 2013 (the Act), the following Explanatory Statement sets out all material facts relating to the business mentioned under Item Nos.5 and 6 of the accompanying Notice dated 19th July 2018.

On Item No.5

The company presently meets its power requirement for its operations at its units in Mattampally and Bayyavaram from its captive power units consisting of a thermal power plant located at its subsidiary company's plant, waste heat recovery plant and solar power plant located at its Mattampally Plant and the two mini hydel power plants one in Guntur District and the other in Kurnool district, both in Andhra Pradesh. In addition to these sources, the company also buys power from market through power exchange.

To enable your company to sell the power that may be rendered surplus after meeting its captive requirements from the above sources as well as to set up / acquire power plants to meet its future requirements and, if need be, to sell surplus power from them to third parties, it is proposed to insert a fresh sub-clause in the Memorandum of Association of the Company as mentioned in the resolution. Accordingly, a resolution seeking amendment to the objects clause in the Memorandum of Association to this effect is submitted in the Item No.5 of the Notice for approval of the members.

The Draft MoA of the Company will be open for inspection between 9:30 a.m. to 6:00 p.m. on all working days except Saturdays and Sundays at the registered office of the Company situated at Plot No.111, Road No.10, Jubilee Hills, Hyderabad-500 033, up to the date of the AGM of the Company.

None of the Directors or Key Managerial Personnel (KMP) or relatives of Directors and KMPs is concerned or interested, financially or otherwise in the said Resolution.

Your directors recommend the passing of the resolution.

On Item No.6

In accordance with the provisions of Section 148 of the Act, 2013 and the Rules made there under, the remuneration payable to the Cost Auditors needs to be ratified by the shareholders of the company.

DIRECTORS' REPORT AND MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Dear Members

Your Directors are pleased to present their Thirty Seventh Annual Report together with the audited Stand-alone and Consolidated financial statements of the Company for the year ended 31st March, 2018.

To avoid repetition in the Directors' Report and the Management Discussion and Analysis Report, the information under these reports is furnished below as a composite summary of the performance of the various aspects of the business of your company.

Financial Results

This discussion on the financial condition and results of operations of the Company should be read in conjunction with the Company's audited stand-alone and consolidated financial statements and notes thereto for the year ended 31st March 2018, which are summarized below: ₹ in Lakhs

Particulars	Stand-alone		Consolidated	
	2017-18	2016-17	2017-18	2016-17
Total income	79,461	64,312	1,08,502	94,511
Total expenses	71,852	61,908	1,03,935	94,089
Profit before tax	7,609	2,404	4,567	422
Total Tax	2,670	1,155	1,941	814
Profit after Tax	4,939	1,249	2,626	(392)
Other Comprehensive Income	(20)	(4)	(12)	(23)
Total Comprehensive Income	4,919	1,245	2,614	(415)
Basic & Diluted Earnings per share of ₹ 10 each	24.21	6.98	12.87	(2.19)

Higher capacity utilisation and growth in demand for cement in 2017-18 enabled your company to achieve its highest ever revenue from its stand-alone operations registering a growth of 23% over the previous year. On a consolidated basis, the total revenue crossed ₹ 1,000 crores during the year under report.

Dividend

Dividend is recommended by your Board in the context of the Company's overall profitability, free cash flow, capital requirements and other business needs as well as the applicable regulatory requirements.

In this background, an interim dividend of ₹ 2.50 (25%) per share on the 2,04,00,000 equity shares of ₹ 10/- was announced for the year 2017-18 on 26th October, 2017 and the same was paid on 16th November, 2017. Your Board has recommended a further dividend of ₹ 1.50 (15%) per share for the year 2017-18. The total dividend for the year 2017-18 would accordingly work out to ₹ 4/- (40%) per share, involving a sum of ₹ 9,82,11,840, which includes a sum of ₹ 1,66,11,840 towards dividend tax.

The above said further dividend of ₹ 1.50 per share, if approved by the shareholders at the ensuing Annual General Meeting, will be paid within 30 days of the said approval.

Transfer to reserves

As no transfer to any reserve is proposed, the entire balance available in the Profit and Loss Account is retained in it.

Share Capital

The paid up share capital of the company is ₹ 20,40,00,000/- consisting of 2,04,00,000 equity shares of ₹ 10/- each and there was no change in share capital during the year under report.

Pursuant to the approval accorded by the Shareholders at their Extraordinary General Meeting held on 23.11.2016, your board in the year 2016-17 had raised a sum of ₹ 48.96 crores by preferential allotment of 6,11,986 equity shares of ₹ 10/- each at a premium of ₹ 790/- per share and by allotment of 24,00,000 equity shares of ₹ 10/- each at a premium of ₹ 710/- per share through Qualified Institutional Placement, to fund the expansion of grinding capacity of your unit at Bayyavaram from 0.3 million tons to 1.5 million tons, for setting up of a coal based power plant of 18 MW capacity at your Mattampally Unit and for meeting its other general corporate purposes from time to time. Your directors are happy to inform you of the successful completion of the expansion of the said grinding unit well ahead of the schedule. The setting up of the power plant, which is progressing well, is also expected to be completed by the end of March, 2019.

Industry Structure and Development

Cement being a basic building material used widely in housing and industrial sectors and in developing infrastructure, its per capita consumption is an important index for measuring the economic growth of a country. India being the world's second largest producer of cement and because of its strong connection with other sectors such as construction, transportation, coal and power, cement industry occupies an important place in the economy, providing employment directly and indirectly to more than a million people.

One of the main features of the Indian cement industry is that the location of limestone reserves in some of its states has resulted in the formation of what is popularly known as cement clusters and Nalgonda in Telangana, where your company's Mattampally unit is located, is one of such clusters. The proximity to coal deposits is also an important factor in setting up of a cement plant. Cement being a high bulk and low value commodity, competition also tends to be localized, since the cost of transportation of cement to distant markets often results in the product being uncompetitive in those distant markets.

Further, though the structure of Indian cement industry is considered to be a highly fragmented one, still 70 % of the total cement production is from its top 20 cement companies.

Apart from the ready availability of raw materials such as limestone and coal, the other factor contributing to the growth of this industry is increasing demand for cement emanating from the development in the infrastructure and construction sectors. In this connection, some of the recent major initiatives such as development of 'smart cities' which are giving a push to the demand for cement, providing further boost to this sector, augur well for the industry.

Whether it is affordable housing, roads, highways or 'smart cities', the entire industry has high hopes from the Government as far as infrastructure spending is concerned and on such hopes materializing, the industry will look up and hopefully grow by 8% in the current year.

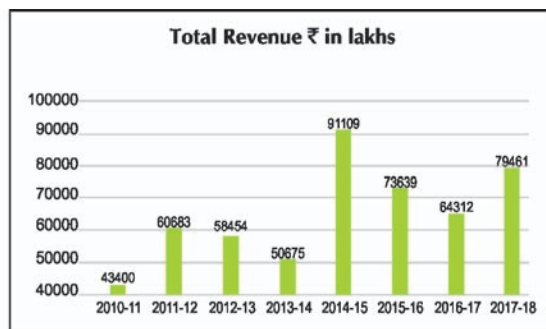

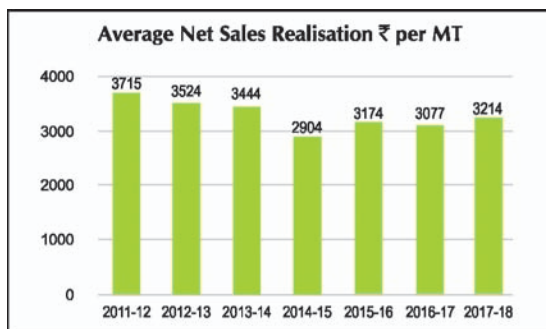

Company's stand-alone performance with reference to its operational performance:

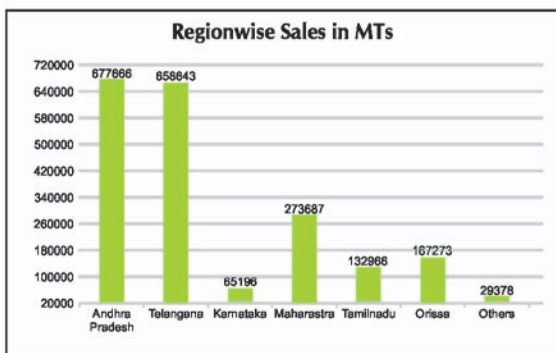

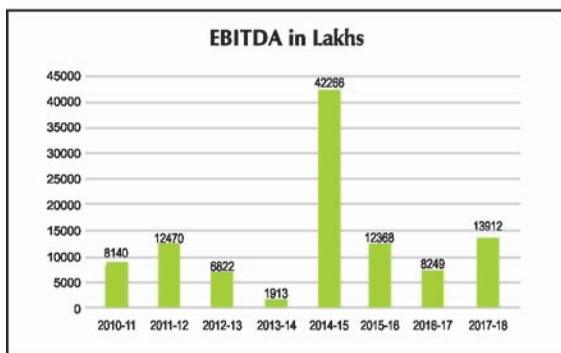

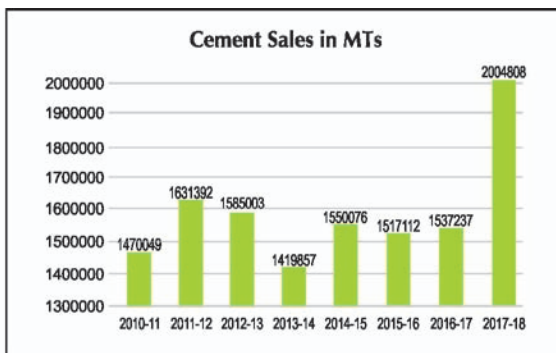

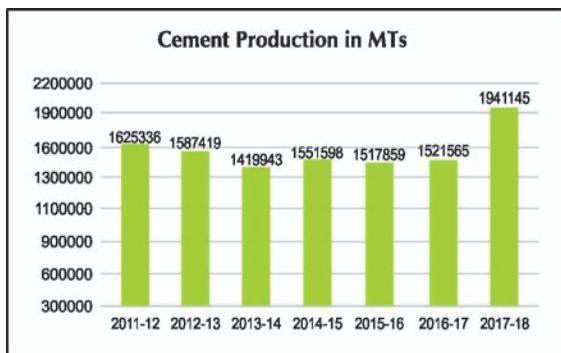

Demand for cement is a derived demand, as it depends on growth of Infrastructure, construction and realty sectors, which were on the path of recovery after a slow-down witnessed in the later part of the year 2016-17 due to disruption caused by demonitisation. Further, revival of demand for cement in Telangana and Andhra Pradesh that was expected following the bifurcation of the erstwhile State of Andhra Pradesh is also now gaining momentum, easing the pressure on the pricing front, though only marginally. However, even as the infrastructure sector is slowly looking up, the housing segment, which is the biggest demand driver for cement is yet to resume its potential growth.

Viewed in the above background, the overall performance of your company on a stand-alone basis during the year 2017-18 in terms of production, sale, revenue and average net sales realization per ton of cement is satisfactory.

In terms of volume, your company achieved an increase of 28% and 30% in the cement production and sales respectively over the previous year which, aided by a marginal increase in average sales realization per tonne of cement by 4.5%, resulted in an increase of 23% in revenue and a 68% increase in the EBITA over the previous year.

Particulars	2017-18	2016-17
Cement Production in MTs	19,41,145	15,21,565
Cement Sales in MTs	20,04,808	15,37,237
Average Net Sales Realization per MT (₹)	3,214	3,077
Total Revenue (₹ in lakhs)	79,461	64,312

Subsidiaries, Joint Ventures and Associate Companies

In the year 2015, your company acquired the entire equity stake in BMM Cements Limited, which has now been re-named as Sagar Cements (R) Limited. This wholly-owned subsidiary has its cement plant of 1.00 Million MTs per annum capacity along with a coal based captive power plant of 25 MW capacity in Gudipadu Village in Ananthapur District, A.P.

After overcoming the initial constraint of operating at a very low capacity due to outsourcing lime stone at a higher cost for its cement production on account of lack of permission to extract the limestone available in its captive mines, this unit is now making use of the lime-stone available in the said captive mines after obtaining necessary permission therefor and is currently operating at around 70% capacity. Its power unit is operating at 87% capacity.

As you are aware, the cement produced by this subsidiary is sold under the brand name "SAGAR CEMENT". With this subsidiary further consolidating itself and improving upon its operations, the investments made by your company in this subsidiary will prove to be beneficial to your company in the long run.

Statement containing salient features of the financial statement of the above mentioned subsidiary has been given in Form AOC-1 in the **Annexure 1** to this report.

Your Company does not have any Joint Ventures or Associate Companies.

Grinding Unit in Bayyavaram

We had earlier informed you of the acquisition of a grinding unit of 1,81,500 MT capacity at Bayyavaram in Visakhapatnam District in Andhra Pradesh and of the company's plan to expand its capacity to 1.5 million tons. Your Directors are happy to inform you that the said expansion as earlier mentioned in this report has since been completed.

The acquisition of the above said grinding unit and the subsequent expansion of its capacity, enable your company to transport the surplus clinker available at its plant in Mattampally to the said unit, for grinding into slag cement to meet the demand in markets in Odisha, West Bengal and in the Vizag region of Andhra Pradesh where, with the identification of Vishakhapatnam and Kakinada in Andhra Pradesh and Bhubaneswar in Odisha for development as 'smart cities' under the Prime Minister's 'Smart Cities Mission', the focus is currently more on the investments in their infrastructure sector.

Opportunities and threats:

Constraints on inputs:

The cement industry is a highly energy intensive sector. Energy, along with other raw materials mainly comprising coal and lime stone, forms a most critical component in the manufacture of cement. While your company does not face any problems with respect to the availability of limestone, it attaches high priority to keep its energy cost, which forms a significant portion of the input costs, to the minimum. This is sought to be achieved, among other means, by ensuring an optimum combination in the consumption of indigenous coal along with imported coal, which is relatively cheaper.

After successfully commissioning the Waste Heat Recovery Plant with an initial capacity of 6 MW capacity, which is presently operating at 8.50 MW capacity at its Mattampally plant, your company is now setting up a coal based plant of 18MW capacity at the said unit. Further, as your company is also keen on meeting its power requirement from renewable energy sources, apart from setting up of a solar power plant of 1 MW capacity at the said plant, it has recently acquired 2 mini hydel power units, one with a capacity of 4.3 MW on the Guntur Branch Canal and the other with a capacity of 4 MW in Lock-in-Sula in Kurnool District, both in Andhra Pradesh.

Your directors hope that the above measures would contribute to your company's efforts in further optimizing its energy cost.

Freight cost

Cement being a freight-intensive industry, transportation of cement over long distances can be uneconomical and this has made it largely a regional play. As the logistics and the optimizing the freight cost continue to be the main area of concern with the distribution cost remaining a significant component in the cost structure notwithstanding the availability of a railway siding at your plant, your company is also weighing various other options available to it like setting up of grinding stations/full fledged cement plants in distant areas where opportunities exist, to cater to the local market and this is sought to be achieved through routes like mergers, acquisitions, joint ventures, strategic marketing tie-ups and setting up of green field projects. As part of optimizing the freight cost, demand in the Eastern markets, which until recently was served by your company from its plant at Mattampally in Nalgonda District of Telangana is now being serviced from its plant at Bayyavaram in Visakhapatnam in A.P.

Lower demand

Housing sector which accounts for a major portion of cement demand is yet to pick-up in a big way both in Telangana and Andhra Pradesh, which are significant markets for your company. While the initiatives by the governments, like 'Smart Cities Mission', 'affordable housing' will help the construction, real estate, infrastructure and cement sectors in due course, the cement industry may have to wait for some more time to see any significant revival in demand in these states.

In the above circumstance, your company which has its major markets in Telangana, Andhra Pradesh and in the border areas of the other neighboring States, needs to look into expanding its Markets beyond these areas. However, the freight cost involved in moving the material from its plants at Mattampally and Bayyavaram to these areas, discourages it to do so, as the price of the locally produced cement in such areas would tend to be much cheaper.

As the company cannot afford any more to ignore the growing demand for cement in its neighboring states just because of the transportation cost involved in catering to these markets, apart from serving these markets from its own production, it buys cement in bulk from other sources located in these states and sell the same in the retail markets in those areas under the brand name 'Sagar Cement', wherever there is cost advantage in doing so. It is hoped that this, apart from increasing the sales turnover of the company without incurring any additional capital expenditure and in turn improving its bottom line, would help it in popularizing its brand in new areas as well as in firmly establishing it in the areas where it might only have a token presence at present.

Impact of new entrants:

The Indian cement industry with its huge potential continues to attract the entry of global cement majors and encourages the strengthening of production bases by existing companies. This may lead to a substantial part of the cement capacity being controlled by a few players. Sagar Cements proposes to meet some of the challenges posed by this development, by focusing on cost reduction and by further improving its brand image, greater expenditure on advertising, strengthening its distribution networks as well as by other customer-focused initiatives. Apart from these, Sagar Cements is looking for opportunities to expand its market through strategic alliance and setting up of grinding stations, wherever viable.

Segment-wise /product-wise performance:

As your company operates in only one segment, namely manufacture and sale of cement, there is no other reportable segment or product.

Future outlook

The per capita consumption of cement is still very low in India and therefore there is a vast scope for growth in its demand on the long term. However, for such a real growth to happen, there should be an overall growth in investments in the real estate and infrastructure sectors. Since India is emerging as one of the fastest growing economies in the world, the future outlook for cement looks to be bright, provided government formulates growth oriented policies, so that our per capita cement consumption matches at least with some of the developing economies. Notwithstanding the plans to expand its market in other states, Telangana and Andhra Pradesh will continue to be the major markets for your Company. With the respective Governments in these states rightly focusing on the development of infrastructure along with the importance given by the Union Government for the development of National Highways, Rural and Urban Roads, Affordable Housing, Port Connectivity, Development of smart cities, etc., coupled with private agencies coming up with a slew of their own infrastructure development projects, demand for cement in these and their neighboring states is expected to see a significant growth, which augurs well for your company, which, with its aggressive and innovative marketing duly supported by its well motivated marketing personnel, is poised to grab the opportunity available in this scenario.

However, till such time that the above scenario becomes a reality, your company may have to continue to face the problems like rising input and distribution costs, despite the efforts being made by your company as mentioned above to mitigate the same.

The impact of the Goods and Services Tax rate has since been absorbed by the cement industry. The Company, on its part, will optimize the distribution/warehouse network under GST regime to further improve its operational efficiency.

Therefore, taking an overall view of the above, your Board is cautiously optimistic about the future outlook for your company.

Risk Management System:

Your Company attaches utmost importance to the assessment of internal risks and the management thereof in all its dealings. Your Company is constantly on the lookout for identifying opportunities to enhance its enterprise value. Keeping the need to minimize the risks associated with such efforts, every proposal of significant nature is screened and evaluated for the risks involved and then approved at different levels in the organization before implementation.

With a view to overcoming the risk of dependence upon any particular marketing segment or region, your Company is trying to reach out to a wider section of its ultimate consumers. As the cement industry is witnessing rapid additions to its capacity in Telangana and A.P., in order to mitigate the risk associated with it, Sagar Cements, whose revenue is mainly from sales in these two states, is looking for growth opportunities in other States as well, where infrastructure spending is set to get a boost.

Your Company has adequate system to manage the financial risks of its operations. This system is implemented through imposition of checks and balances on extending credit to the customers, audits like internal audit, statutory, cost and secretarial audit, all of which are periodically carried out through external firms, proper appraisal of major capital expenditure, adherence to the budget norms covering all areas of its operations and by adequate insurance coverage for the company's facilities.

Internal Control System and its adequacy:

Your Board of Directors are satisfied with the adequacy of the internal control system currently in force in all major areas of operations of the Company, which is supported by an ERP and compliance management systems. Their audit committee assists the board of directors in monitoring the integrity of the financial statements, reservations, if any, expressed by the company's auditors including, the financial, cost, internal and secretarial auditors and based on their inputs, your board is of the opinion that the company's internal controls are adequate and effective.

Human resource development and Industrial Relations

Your Company continues to enjoy cordial relationship with all its personnel working at its Plants, Offices and on the field.

Your company is organizing training programmes wherever required for the employees concerned to improve their skill. Employees are also encouraged to participate in the seminars organized by the external agencies on the subjects related to the areas of their operations.

Your company continues to focus on attracting and retaining competent personnel and providing them with a holistic environment where they get opportunities to grow and realize their full potential. Your company is committed to providing all its employees with a healthy and safe work environment.

Sexual Harassment

Under the Sexual Harassment of Women at the work place (Prevention, Prohibition & Redressal) Act, 2013, your company has constituted an Internal Complaints Committee. No complaints were received or disposed off during the year under the above Act.

Awards and Recognitions

Your company has already achieved ISO Certification ISO 9001:2008 for Quality Management System Standard, ISO 14001:2004 for Environmental Management System Standard and OHAS 18001:2007 for Occupational Health and Safety Management System Standard.

As you are aware, your company's Laboratory at its Plant in Mattampally is the recipient of the Accreditation by the National Accreditation Board for Testing and Calibration Laboratories (NABL), which is the sole accreditation body for testing and calibration of laboratories under the aegis of Department of Science and Technology, Government of India.

Independent Auditors' Report

To the Members of Sagar Cements Limited

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **Sagar Cements Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Sagar Cements Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (b) The Company has a program of verification of property, plant and equipment to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain property, plant and equipment were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed / transfer deed provided to us, we report that, the title deeds, comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date. Immovable properties of land and buildings whose title deeds have been pledged as security for loans are held in the name of the Company based on the confirmations directly received by us from lenders.
- (ii) As explained to us, the inventories were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed on physical verification.
- (iii) According to the information and explanations given to us, the Company had granted unsecured loans to a company covered in the register maintained under section 189 of the Companies Act, 2013, in respect of which:
 - (a) The terms and conditions of the grant of such loans are, in our opinion, *prima facie*, not prejudicial to the Company’s interest.
 - (b) The schedule of repayment of principal and payment of interest has been stipulated and repayments or receipts of principal amounts and interest have been regular as per stipulations.
 - (c) There is no overdue amount remaining outstanding as at the year-end.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposit falling under the purview of the provisions of section 73 to 76 of the Companies Act, 2013 during the year and does not have any unclaimed deposits, and hence reporting under clause (v) of the order is not applicable.
- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended prescribed by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013, and are of the opinion that, *prima facie*, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees’ State Insurance, Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Goods and Services Tax, cess and other material statutory dues applicable to it to the appropriate authorities.
 - (b) There were no undisputed amounts payable in respect of Provident Fund, Employees’ State Insurance, Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Goods and Services Tax, Cess and other material statutory dues in arrears as at March 31, 2018 for a period of more than six months from the date they became payable.
 - (c) Details of dues of Income-tax, Sales Tax, Custom Duty, Excise Duty, Value Added Tax and Entry Tax which have not been deposited as on March 31, 2018 on account of disputes are given below:

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates	Amount Involved (₹ lakhs)	Amount Unpaid (₹ lakhs)

		Additional Divisional Commissioner, Rural Division, Hyderabad	2012-13 to 2015-16	11	10

There are no dues of Service tax and Goods and Services tax as on March 31, 2018 on account of disputes.

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to financial institutions, banks and government. The Company has not issued any debentures.
- (ix) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments). In our opinion and according to the information and explanations given to us, money raised by way of term loans have been applied by the Company during the year for the purposes for which they were raised other than temporary deployment pending application of proceeds.
- (x) To the best of our knowledge and according to the information and explanations given to us, no material fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.
- (xi) In our opinion and according to the information and explanations given to us, the Company has paid / provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of Order is not applicable to the Company.
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or directors of its subsidiary company or persons connected with them and hence provisions of section 192 of the Companies Act, 2013 are not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

SAGAR CEMENTS LIMITED

Notes to the Financial Statements

1. Corporate information and significant accounting policies

a) Corporate Information

Sagar Cements Limited ("the Company") was incorporated under the Companies Act, 1956 as a public limited company on January 15, 1981. The Company is engaged in the business of manufacture and sale of cement.

b) Significant accounting policies

(i) Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards prescribed under section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other accounting principles generally accepted in India and guidelines issued by the Securities and Exchange Board of India (SEBI).

(ii) Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for net realisable value in Ind AS 2 or value in use in Ind AS 36 that have some similarities to fair value but are not fair value.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

(iii) Use of estimates

In the application of the accounting policies, which are described in Note 1(b), the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable and the associated assumptions are based on historical experience and other factors that are considered to be relevant.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements is included in the following notes:

- Useful lives of property, plant and equipment and intangible assets
- Assets and obligations relating to employee benefits
- Evaluation of recoverability of deferred tax assets
- Financial instruments
- Provisions and contingencies
- Expected credit losses

(iv) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated rebates and other similar allowances. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, goods and services tax, etc.

Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

(v) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

(vi) Government grants

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached thereto and that the grants will be received.

(vii) Employee benefits

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund and compensated absences.

Defined Contribution Plans:

The Company's contribution to provident fund, superannuation fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined Benefit Plans:

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

(viii) Taxation

Income tax expense represents the sum of current tax and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(ix) Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and borrowings costs attributable to acquisition of qualifying property, plant and equipment up to the date the asset is ready for its intended use. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives.

Depreciation on plant and machinery and railway siding is charged under straight line method and on other assets depreciation is charged under WDV method, based on the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

- Railway siding - 25 years
- Plant and machinery other than continuous process plant – 25 years

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The Company follows the process of componentization for property, plant and equipment. Accordingly, the Company has identified a part of an asset as a separate component in whole asset value (beyond certain value) and useful life of the part is different from the useful life of the remaining asset. The useful life has been assessed based on technical advice, taking into account the nature of the asset / component of an asset, the estimated usage of the asset / component of an asset on the basis of management's best estimation of getting economic benefits from those class of assets / components of an asset. The Company uses its technical expertise along with historical and industry trends for arriving the economic life of an asset/component of an asset.

Individual assets costing less than or equal to ₹ 5,000 are depreciated in full in the year of acquisition.

(x) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

(xi) Inventories

Inventories are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Work-in-progress and finished goods include appropriate proportion of overheads.

The methods of determining cost of various categories of inventories are as follows:

Raw materials and coal	Weighted average method
Stores and spares and packing materials	Weighted average method
Work-in-progress and finished goods (manufactured)	Weighted average method and including an appropriate share of applicable overheads.

(xii) Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand, in bank and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows are reported using indirect method whereby profit/ (loss) after tax is adjusted for the effects of transaction of non-cash nature and any deferrals or accruals of past or future cash receipts and payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(xiii) Foreign currency transactions and translations:

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company that are measured in terms of historical cost in a foreign currency are not retranslated.

For the purposes of presenting these financial statements, the exchange differences on monetary items arising, if any, are recognised in the statement of profit and loss in the period in which they arise.

(xiv) Financial Instruments:

(A) Initial recognition:

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial asset or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or liabilities at fair value through profit or loss are recognized immediately in profit or loss.

(B) Subsequent measurement:

- a. **Financial assets carried at amortized cost:** A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- b. Financial assets at fair value through other comprehensive income:** A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.
 - c. Financial assets at fair value through profit or loss:** A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.
 - d. Financial liabilities:** Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.
- Investment in subsidiaries:** Investment in subsidiaries is carried at cost in the separate financial statements.

(C) De-recognition of financial assets and liabilities:

a. Financial assets:

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

b. Financial liabilities:

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

(xv) Impairment of assets

a. Financial assets:

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

As a practical expedient, the Company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the statement of profit and loss.

b. Non-financial assets:

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

(xvi) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

(xvii) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

(xviii) Operating cycle

Based on the nature of activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as twelve months for the purpose of classification of its assets and liabilities as current and non-current.

(xix) Recent accounting pronouncements

Standards issued but not yet effective:

In March 2018, The Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2018 notifying Ind AS 115 Revenue from Contracts with Customers and amendments to Ind AS 21 The Effects of changes in Foreign Exchange Rates, applicable for annual periods beginning on or after April 01, 2018.

**Ind AS 115 – Revenue from Contracts with Customers:**

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard IND AS 18 – Revenue and Ind AS 11 – Construction Contracts when it becomes effective.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services, based on the five step approach as defined in this standard.

Under this standard, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when ‘control’ of the goods or services underlying the particular performance obligation is transferred to the customer.

The Company is evaluating the impact of this amendment on its financial statements.

Ind AS 116 – Leases

Ind AS 116 sets out a comprehensive model for identification of lease arrangements and their treatment in the financial statements of the lessor and lessee. Ind AS 116 will supersede the current leases standard IND AS 17 – Leases when it becomes effective.

Ind AS 116 applies a control model for the identification of leases, distinguishing between leases and service contracts on the basis of whether there is an identified asset controlled by the customer.

The Company is evaluating the impact of this amendment on its financial statements.

- 1 (i) Includes investment of ₹ 401 (March 31, 2017: ₹ 401) on account of fair valuation of corporate guarantee given by the company on behalf of Sagar Cements (R) Limited, a wholly owned subsidiary.
- (ii) During the year 2016-17, the Company converted the outstanding loan balance of ₹ 17,200 given to its wholly-owned subsidiary, Sagar Cements (R) Limited, to 43,000,000 8% cumulative redeemable preference shares of ₹ 10 each at a premium of ₹ 30 each. At initial recognition, the preference shares are measured at fair value. The difference between the fair value at initial recognition and the transaction price is accounted as deemed capital contribution to the subsidiary company. Accordingly, ₹ 6,866 is accounted as the fair value of the preference shares and ₹ 10,334 is accounted as deemed investment on conversion of loan to preference shares at concessional rate and added to the cost of investment held in the subsidiary. As at March 31, 2018, ₹ 836 (March 31, 2017: ₹ 340) has been recognised as interest income on preference shares and added to the cost of preference shares.

28. Contingent liabilities, corporate guarantees and capital commitments

a) Contingent Liabilities:

Based on legal opinion/advice obtained, no financial implication to the Company with respect to the following cases is perceived as on the Balance Sheet date:

i) Claims against the Company not acknowledged as debt:

Particulars	As at March 31, 2018	As at March 31, 2017
Direct tax matters	1,190	1,199
Indirect tax matters (Refer Note (ii) below)	1,850	1,896
Others	428	428

- ii) The Finance Minister of Government of India has announced in the budget for the year 2010-11, imposition of clean energy cess as a duty of excise on coal, lignite and peat. This came into force with effect from July 1, 2010. As advised by the legal experts, the Company took CENVAT credit pertaining to clean energy cess on coal for an amount of ₹ 834 (As at March 31, 2017: ₹ 834) from July 2010 to March 2016. The Department of Central Excise issued an order and asked to reverse the amount on the ground that the clean energy cess is not specified tax for input CENVAT credit, thus the credit availed on cess is irregular. Based on department's order, the amount of ₹ 823 was reversed, but under protest. The balance of ₹ 11 pertains to the penalty imposed by the department and disclosed in contingent liabilities under indirect taxes. The matter is pending before the Department. Credit will be taken again once the issue is settled in favour of the Company.

b) Corporate Guarantees:

The Company furnished a corporate guarantee of ₹ 15,000 to IDBI Trusteeship Services Limited to secure the 1,500 Non-Convertible Debentures (₹ 10 lakhs each) aggregating to ₹ 15,000 (2016-17: ₹ 15,000) issued by its wholly-owned subsidiary, Sagar Cements (R) Limited, to International Finance Corporation and a further guarantee to secure the credit facilities aggregating ₹ 6,000 (2016-17: ₹ 14,900) availed by the said subsidiary from its lenders.

30. Financial Instruments:

The significant accounting policies, including the criteria for recognition, the basis for measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1(b)(xiv) to the financial statements.

A. Capital Management

The Company manages its capital to ensure that it will be able to continue as going concern while maximizing the return to stakeholders through the optimization of the debt and equity balances. The capital structure of the Company consists of net debt (borrowings as detailed in Notes 14 and 15 offset by cash and bank balances) and total equity of the Company. The Company is not subject to any externally imposed capital requirements. The Company's management reviews the capital structure of the Company on monthly basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

(iii) Other financial liabilities	5,548	4,573
Total Financial liabilities	39,536	36,269

There are no financial assets and financial liabilities measured at fair value through profit and loss.

C. Fair value hierarchy

Valuation technique and key inputs

Level 1 - Quoted prices (unadjusted) in an active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Quantitative disclosures of fair value measurement hierarchy for financial instruments:

Fair value measurement at the end of year using level 3

Particulars	As at March 31, 2018	As at March 31, 2017
Assets		
Investment in unquoted equity shares (Refer Note 4)	-	28

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

The fair values of the unquoted equity shares had been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, earnings growth, discount rate, and probabilities of the various estimates within the range used in management's estimate of fair value for these unquoted equity investments. During the current year, the Company sold the above unquoted equity shares.

All amounts are in ₹ lakhs unless otherwise stated

Valuation inputs and relationships to fair value:

The following table summarizes the quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, being investments in unquoted equity shares:

Fair value		Significant unobservable inputs	Valuation process	Sensitivity of the inputs to fair value
as at March 31, 2018	as at March 31, 2017			
-	28	Earnings growth rate	Earnings growth factor for unlisted equity shares are estimated based on the market information of similar type of companies and also considering the economic environment impact.	Any increase in the earnings growth rate would result in an increase in fair value.
		Discount rate	Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects the current market assessments of the time value of money and risk specific to that asset.	Any increase in the discount rate would result in a decrease in the fair value.

D. Financial risk management objectives:

The Company's corporate finance function monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (includes interest rate risk), credit risk and liquidity risk. The Company seeks to minimize the effects of these risks through continuous monitoring on day to day basis. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes. The corporate finance function reports monthly to the Company's management which monitors risks and policies implemented to mitigate risk exposures.

i) Market risk:

The Company's activities expose it primarily to the financial risk of changes in interest rates. The Company seeks to minimize the effect of this risk through continuous monitoring and take appropriate steps to mitigate the aforesaid risk.

Interest rate risk management:

The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings.

Interest rate sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's Profit for the year ended March 31, 2018 would decrease/increase by ₹ 131 (for the year ended March 31, 2017: decrease/increase by ₹ 116). This is mainly attributable to the company's exposure to interest rates on its variable rate borrowings.

ii) Credit risk management:

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk

All amounts are in ₹ lakhs unless otherwise stated

of financial loss from defaults. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The Company does not have significant credit risk exposure to any single counterparty. Concentration of credit risk to any counterparty did not exceed 5% of gross monetary assets at any time during the year.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks by the Company on behalf of its subsidiary. The Company's maximum exposure in this respect is the maximum amount the Company could have to pay if the guarantee is called on (Refer Note 28).

E. Liquidity risk management:

ANNEXURE “A” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of **Sagar Cements Limited** (hereinafter referred to as “Company”) and its subsidiary company, which is incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its subsidiary company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary company, which is incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the consolidated Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, Company and its subsidiary company, which is incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note.

SAGAR CEMENTS LIMITED

Notes to the consolidated financial statements

1. Corporate information and significant accounting policies

(a) Corporate Information

Sagar Cements Limited ("the Company") and its wholly owned subsidiary Sagar Cements (R) Limited (together referred to as "the Group") are engaged in the business of manufacture and sale of cement and generation of power for sale and captive consumption. The name of the wholly owned subsidiary was changed from BMM Cements Limited to Sagar Cements (R) Limited with effect from March 28, 2017.

(b) Significant accounting policies

(i) Statement of compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards prescribed under section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other accounting principles generally accepted in India and guidelines issued by the Securities and Exchange Board of India (SEBI).

(ii) Basis of preparation and presentation

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for net realisable value in Ind AS 2 or value in use in Ind AS 36 that have some similarities to fair value but are not fair value.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

(iii) Use of estimates

In the application of the Groups' accounting policies, which are described in Note 1, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The Management believes that the estimates used in preparation of the consolidated financial statements are prudent and reasonable and the associated assumptions are based on historical experience and other factors that are considered to be relevant.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that

period, or in the period of the revision and future periods if the revision affects both current and future periods. The significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements is included in the following notes:

- Useful lives of property, plant and equipment and intangible assets
- Assets and obligations relating to employee benefits
- Evaluation of recoverability of deferred tax assets
- Financial instruments
- Measurement of recoverable amounts of cash generating units
- Provisions and contingencies
- Expected credit losses

(iv) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has ability to use its power to affect its returns.

Entities controlled by the Company are consolidated from the date control commences until the date control ceases.

When necessary, adjustments are made to the financial statements of the subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Following subsidiary company has been considered in the preparation of the consolidated financial statements:

Name of the entity	Relationship	Country of Incorporation	Ownership held by	% of Holding and voting power held directly
Sagar Cements (R) Limited	Subsidiary	India	Sagar Cements Limited	100%

(v) Business combination

The Group accounts for its business combinations under acquisition method of accounting. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair value of assets transferred by the group, liabilities incurred by the group to the former owners of the acquiree and the equity interest issued by the group in exchange of control of the acquire. Acquisition related costs are generally recognised in consolidated statement of profit and loss as incurred.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed.

If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

(vi) **Goodwill**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

(vii) **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated rebates and other similar allowances. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, goods and services tax, etc.

Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Generation of Power

In case of power generation, revenue from sale of energy is recognized on accrual basis. Claims for delayed payment charges and any other claims, which the Group is entitled to, on grounds of prudence are accounted on admittance basis.

Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

(viii) **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

(ix) Government grants

Government grants and subsidies are recognised when there is reasonable assurance that the Group will comply with the conditions attached thereto and that the grants will be received.

(x) Employee benefits

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund and compensated absences.

Defined Contribution Plans

The Group's contribution to provident fund, superannuation fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined Benefit Plans

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

(xi) Taxation

Income tax expense represents the sum of current tax and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. Current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(xii) Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and borrowings costs attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives.

Depreciation on plant and machinery and railway siding is charged under straight line method and on other assets depreciation is charged under WDV method, based on the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

- Railway siding - 25 years
- Plant and machinery other than continuous process plant – 25 years

In case of the Subsidiary company, depreciation has been provided on straight-line method for all the class of depreciable assets as per the useful life prescribed in Schedule II to the Companies Act, 2013, except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

- Electrical Equipment (Plant & Machinery) - 15 years

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The Group follows the process of componentization for property, plant and equipment. Accordingly, the group has identified a part of an asset as a separate component in whole asset value (beyond certain value) and useful life of the part is different from the useful life of the remaining asset. The useful life has been assessed based on technical advice, taking into account the nature of the asset / component of an asset, the estimated usage of the asset / component of an asset on the basis of management's best estimation of getting economic benefits from those class of assets / components of an asset. The Group uses its technical expertise along with historical and industry trends for arriving the economic life of an asset/ component of an asset.

Individual assets costing less than or equal to ₹ 5,000 are depreciated in full in the year of acquisition.

(xiii) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

(xiv) Inventories

Inventories are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Work-in-progress and finished goods include appropriate proportion of overheads.

The methods of determining cost of various categories of inventories are as follows:

Raw materials and coal	Weighted average method
Stores and spares and packing materials	Weighted average method
Work-in-progress and finished goods (manufactured)	Weighted average method and including an appropriate share of applicable overheads.

(xv) Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand, in bank and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows are reported using indirect method whereby profit/ (loss) after tax is adjusted for the effects of transaction of non-cash nature and any deferrals or accruals of past or future cash receipts and payments. The cash flows from operating, investing and financing activities of the group are segregated based on the available information.

(xvi) Foreign currency transactions and translations

Transactions in foreign currencies entered into by the Group are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Foreign currency monetary items of the Group, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Group that are measured in terms of historical cost in a foreign currency are not retranslated.

For the purposes of presenting these financial statements, the exchange differences on monetary items arising, if any, are recognized in the statement of profit and loss in the period in which they arise.

(xvii) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The management evaluates the Group's performance and allocates resources based on analysis of various performance indicators by business segments.

(xviii) **Financial Instruments**

(A) **Initial recognition**

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial asset or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or liabilities at fair value through profit or loss are recognized immediately in profit or loss.

(B) **Subsequent measurement**

- a. **Financial assets carried at amortised cost:** A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- b. **Financial assets at fair value through other comprehensive income:** A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.
- c. **Financial assets at fair value through profit or loss:** A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.
- d. **Financial liabilities:** Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(C) **De-recognition of financial assets and liabilities**

a. **Financial assets:**

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

b. **Financial liabilities:**

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of

the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

(xix) Impairment of assets

a. Financial assets:

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables. As a practical expedient, the Group uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognized in the statement of profit and loss.

b. Non-financial assets:

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognized for the asset in prior years.

(xx) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

(xxi) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the

present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

(xxii) Operating cycle

Based on the nature of activities of the Group and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Group has determined its operating cycle as twelve months for the purpose of classification of its assets and liabilities as current and non-current.

(xxiii) Recent accounting pronouncements

Standards issued but not yet effective:

In March 2018, The Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2018 notifying Ind AS 115 Revenue from Contracts with Customers and amendments to Ind AS 21 The Effects of changes in Foreign Exchange Rates, applicable for annual periods beginning on or after April 01, 2018.

Ind AS 115 – Revenue from Contracts with Customers:

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard IND AS 18 – Revenue and Ind AS 11 – Construction Contracts when it becomes effective.

The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services, based on the five step approach as defined in this standard.

Under this standard, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when ‘control’ of the goods or services underlying the particular performance obligation is transferred to the customer.

The Group is evaluating the impact of this amendment on its financial statements.

Ind AS 116 – Leases

Ind AS 116 sets out a comprehensive model for identification of lease arrangements and their treatment in the financial statements of the lessor and lessee. Ind AS 116 will supersede the current leases standard IND AS 17 – Leases when it becomes effective.

Ind AS 116 applies a control model for the identification of leases, distinguishing between leases and service contracts on the basis of whether there is an identified asset controlled by the customer.

The Group is evaluating the impact of this amendment on its financial statements.

(ii) The Finance Minister of Government of India has announced in the budget for the year 2010-11, imposition of clean energy cess as a duty of excise on coal, lignite and peat. This came into force with effect from July 1, 2010. As advised by the legal experts the Company took CENVAT credit pertaining to clean energy cess on coal for an amount of ₹ 1,145 (As at March 31, 2017: ₹ 1,145) from July 2010 to March 2016. The Department of Central Excise issued an order and asked to reverse the amount on the ground that the clean energy cess is not specified tax for input CENVAT credit, thus the credit availed on cess is irregular. Based on department's order the amount of ₹ 1,134 was reversed, but under protest. The balance of ₹ 11 pertains to penalty imposed by the department and disclosed in contingent liabilities under indirect taxes. The matter is pending before the Department. Credit will be taken again once the issue is settled in favour of the Company.

b) Corporate Guarantees:

The Company has furnished a corporate guarantee of ₹ 15,000 to IDBI Trusteeship Services Limited to secure the 1,500 Non-Convertible Debentures (₹ 10 lakhs each) aggregating to ₹ 15,000 (2016-17: ₹ 15,000) issued by its wholly owned subsidiary, Sagar Cements (R) Limited, to International Finance Corporation and a further guarantee to secure the credit facilities aggregating ₹ 6,000 (2016-17: ₹ 14,900) availed by the said subsidiary from its lenders.

The amount of interest accrued and remaining unpaid at the end of the accounting year	-	-
The amount of further interest due and payable even in the succeeding year, until such date when the interest dues as above are actually paid to the small enterprise, for the purpose of disallowance as a deductible expenditure under section 23.	-	-

29. Financial Instruments:

The significant accounting policies, including the criteria for recognition, the basis for measurement and the basis on which income and expenses are recognized, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1(b)(xviii) to the financial statements.

A) Capital Management

The group manages its capital to ensure that it will be able to continue as going concern while maximizing the return to stakeholders through the optimization of the debt and equity balances. The capital structure of the group consists of net debt (borrowings as detailed in Notes 13 & 14 offset by cash and bank balances) and total equity of the group. The group is not subject to any externally imposed capital requirements. The group's management reviews the capital structure of the group on a monthly basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

C) Fair value hierarchy

Valuation technique and key inputs:

Level 1 - Quoted prices (unadjusted) in an active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Quantitative disclosures of fair value measurement hierarchy for financial instruments are as follows:

Fair value measurement at the end of year using level 3

Particulars	As at March 31, 2018	As at March 31, 2017
Assets		
Investment in unquoted equity shares (Refer Note 4)	-	28

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

The fair values of the unquoted equity shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, earnings growth, discount rate, and probabilities of the various estimates within the range used in management's estimate of fair value for these unquoted equity investments.

All amounts are in ₹ lakhs unless otherwise stated

Fair value measurements using significant unobservable inputs (Level 3)

Valuation inputs and relationships to fair value:

The following table summarizes the quantitative information about the significant unobservable inputs used in Level 3 fair value measurements, being investments in unquoted equity shares:

Fair value		Significant unobservable inputs	Valuation process	Sensitivity of the inputs to fair value
As at March 31, 2018	As at March 31, 2017			
-	28	Earnings growth rate	Earnings growth factor for unlisted equity shares are estimated based on the market information of similar type of companies and also considering the economic environment impact.	Any increase in the earnings growth rate would result in an increase in fair value.
		Discount rate	Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects the current market assessments of the time value of money and risk specific to that asset.	Any increase in the discount rate would result in a decrease in the fair value.

D) Financial risk management objectives:

The group's corporate finance function monitors and manages the financial risks relating to the operations of the group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (includes interest rate risk), credit risk and liquidity risk.

The group seeks to minimize the effects of these risks by continues monitoring on day to day basis. The group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The corporate finance function reports monthly to the group's management, which monitors risks and policies implemented to mitigate risk exposures.

i) Market risk:

The group's activities expose it primarily to the financial risk of changes in interest rates. The group seeks to minimize the effect of this risk by continues monitoring and take appropriate steps to mitigate the aforesaid risk.

Interest rate risk management:

The group is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the group by maintaining an appropriate mix between fixed and floating rate borrowings.

Interest rate sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the group's: Profit for the year ended March 31, 2018 would decrease/increase by ₹ 242 (for the year ended March 31, 2017: decrease/increase by ₹ 242). This is mainly attributable to the group's exposure to interest rates on its variable rate borrowings.

All amounts are in ₹ lakhs unless otherwise stated

ii) Credit risk management:

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The group has adopted a policy of dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management. Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

The group does not have significant credit risk exposure to any single counterparty. Concentration of credit risk to any counterparty did not exceed 5% of gross monetary assets at any time during the year.

E) Liquidity Risk Management:

30. Employee benefits:

The employee benefit schemes are as under:

(i) Defined contribution plan:

Provident Fund

The group makes provident fund contributions which are defined contribution plans for qualifying employees. Under the scheme, the group is required to contribute a specified percentage of the payroll costs to fund the benefits. These contributions are made to the Fund administered and managed by the Government of India. The group's monthly contributions are charged to the Statement of Profit and Loss in the period they are incurred. Total expense recognized during the year aggregated ₹ 238 (2016-17: ₹ 191).

All amounts are in ₹ lakhs unless otherwise stated

Superannuation Fund

Few directors receive benefit under a Superannuation scheme which is a defined contribution scheme wherein the director has an option to choose the percentage of contribution in between 5% to 15% of the basic salary of the covered employee. These contributions are made to a fund administrated by Life Insurance Corporation of India. The group's monthly contributions are charged to the Statement of Profit and Loss in the period they are incurred. Total expense recognized during the year aggregated ₹ 34 (2016-17: ₹ 48).

Employee State Insurance

The group makes employee state insurance contributions which are defined contribution plans for qualifying employees. Under the scheme, the group is required to contribute a specified percentage of the payroll costs to fund the benefits. These contributions are made to the funds administered and managed by the Government of India. The group's monthly contributions are charged to the Statement of Profit and Loss in the period they are incurred. The total expense recognized during the year aggregated ₹ 14 (2016-17: ₹ 10).

(ii) Defined benefit plan:

Gratuity:

In accordance with the 'Payment of Gratuity Act, 1972 of India, the group provides for gratuity, a defined retirement benefit plan (the 'Gratuity Plan') covering eligible employees. Liabilities with regard to such gratuity plan are determined by an independent actuarial valuation and are charged to the Statement of Profit and Loss in the period determined. The gratuity plan is administered by Life Insurance Corporation of India.

The following table sets out the funded status of the gratuity plan and the amounts to be recognized in the financial statements as per actuarial valuation as at March 31, 2018 and March 31, 2017:

a) The principal assumptions used for the purposes of actuarial valuations were as follows:

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
