“The ability to simplify means to eliminate the unnecessary so that the necessary may speak.”

~ Hans Hofmann

Business environment is growing increasingly complex with increased competition, changing consumer behaviour, rapidly evolving technologies and emerging disruptive business models. Organisations across the world have been re-strategising to counter the challenges and capitalise on new opportunities.

At IIFL Holdings, we have consistently responded to the challenges of each businesses and their ever-growing disruptions. We are cognizant of the need to constantly adapt and transform. As a result, we have grown exponentially over the years, diversified into multiple business lines and achieved scale in all of them.

With the aim of thriving in the evolving competitive and regulatory environment, we have taken the momentous decision to re-organise our unified corporate structure and create independent entities focused on their core businesses. We believe that this move will enable each business to grow faster, attract the right talent and become more innovative and efficient.

We remain committed towards optimising our operations and being a continuous value enhancer for our investors and customers.

About IIFL Holdings Limited

IIFL was founded in 1995 by two professionally qualified, driven entrepreneurs, Nirmal Jain and R Venkataraman, with the vision of becoming the most respected company in the financial services space.

IIFL is mainly engaged in the business of loans and mortgages, wealth and asset management, and capital market related activities. The loans and mortgages business comprises the non- banking finance, housing finance and micro finance verticals. The wealth management business includes wealth and asset management. The capital market business consists of retail and institutional broking and investment banking.

IIFL brings deep industry expertise, innovative solutions, ability to reinvent and a differentiated digital experience to the table, which has led to the Company's phenomenal success across business segments.

Operations review

Loans and Mortgages

IIFL Finance is a leading, well-diversified non-banking financial company providing home, business, gold, commercial vehicle and microfinance loans among others to a broad segment of customers including salaried and self-employed personnel and corporates. The operations are carried out by the Company and its two subsidiaries – a housing finance and a micro finance company. With a pan-India network of 1,378 branches, IIFL Finance is well placed to cater to India's retail loan demand. The Company has long-term credit rating by CRISIL AA/Stable, [ICRA] AA (Stable), CARE AA (Positive).

Key Highlights of 2017-18

- Loan assets under management (AUM), grew 40% annually to ₹ 311.34 billion

Wealth Management

IIFL Wealth is one of India's leading wealth management companies, offering a broad range of products and services to high networth families including advisory, wealth structuring solutions, asset management and distribution services. An in-house asset management business allows the Company to launch innovative products. Today, it actively manages assets of over 10,000 High Net Worth Individuals (HNI) and Ultra HNI families in India and abroad.

Key Highlights of 2017-18

- Total assets under management (AUMs), distribution and advice grew 39% annually to reach ₹ 1,317.62 billion
- Alternative Investment Fund (AIF) assets grew 52% annually to ₹ 117.36 billion; IIFL Wealth continued to be the largest manufacturer and distributor of AIFs in India

- The portfolio mix continued to become more granular with an increased share of small ticket home loans, SME loans and microfinance loans
- Asset quality remained sound with gross and net NPA levels at 1.71% and 0.79%
- Over 13,000 customers were benefited with a subsidy of over ₹ 3 billion under the Pradhan Mantri Awas Yojana – Credit Linked Subsidy Scheme

Focus Areas

IIFL continues to stay ahead of the competition with its cutting-edge technology and wide retail distribution network.

With the realisation of the need to remain relevant in today's digital world, we will continue to look for and adopt the latest technology and innovation tools. Retail home loans, business loans and microfinance loans, will be key areas for growth in the coming year.

- A new Affordable Housing Fund was launched in the last quarter, which also received an outstanding response with commitments of over ₹ 13.60 billion
- The AMC subsidiary created a record, garnering commitments of over ₹ 84.50 billion in the Special Opportunities Fund, including ₹ 30.00 billion from third party channel partners
- IIFL Wealth Finance, witnessed 85% annual growth in its loan book, touching ₹ 67.00 billion in March 2018

Focus Areas

As we continue to scale-up the business, we remain focussed on providing innovative products and best customer service to our clients through optimum usage of technology, effective processes and best-in-class workforce. The focus in the coming year will be on digitising the entire client and sales journey at the firm, taking the client and employee engagement to the next level of advice and delivery.

Capital Market and Distribution

IIFL is a key player in both retail and institutional segments of the capital market. The main verticals the Company operates under, are retail and institutional broking and investment banking. The institutional segment caters to leading global funds and is backed by a strong research team. The retail segment offers a wide variety of products and services to clients all across the country with widespread presence backed by a robust technological platform.

Key Highlights of 2017-18

- IIFL's Investment Banking division was ranked No. 1 in equity issuances for private companies for the financial year 2017-2018 (*Source: Prime database*) having completed

27 transactions, including 11 IPOs (Initial Public Offerings) and 8 follow-on offers involving listed companies

- The retail broking division recorded daily cash turnover growth of 39% annually to ₹ 15.63 billion versus 30% annual growth in exchange cash turnover
- Our distribution business had a breakout year with the total Mutual Fund AUM growing by 50% to reach ₹ 28.86 billion

Focus Areas

We will continue our digitisation drives, enhance service offerings and improve manpower productivity. We have a strong pipeline of transactions for the Investment banking business, and enhancing our Research offering and acquisition of clients for Mutual Funds and SIP investments will be key focus areas in the coming year.

Discovering the value potential

India's growth story is evolving, building opportunities at every stage. The country has adopted aggressive measures to bring about necessary structural changes in the economy. A host of reforms implemented recently like Goods and Service Tax, Insolvency and Bankruptcy code, RERA etc. have laid down a firm foundation for the future.

This has reflected in strong domestic economic performance and global rating agencies turning optimistic about the country's growth prospects.

Evolving and Agile

At IIFL, we have a clear purpose – to sustain the growth momentum in financial services, improve every business we serve and the quality of each life we touch. By embracing change, we want to build a company that empowers and creates value for all our stakeholders.

Transformation requires a deep understanding of evolving environment and taking disruptive decisions requires belief in the vision.

Today, IIFL is on the path of discovering more value each day and has strategically initiated reorganisation of its businesses.

Currently, the activities of IIFL Holdings can be grouped under three distinct business lines:

The reorganisation will result in three listed entities, one for each of the above businesses.

Why are we doing this?

Each business is DIFFERENT

All the three businesses have distinct set of customers, products, different success factors and strategies.

Features	IIFL Finance	IIFL Wealth	IIFL Securities
Key Products	Loans and mortgages	Wealth and asset management	Broking, advisory services, financial product distribution
Customer Segment	Retail	High net worth individuals	Retail/Institutional
Success Factor	Operational excellence	Customer relationship	Product innovation and customer service

All the core businesses have acquired a critical mass. Each has a different competitive and regulatory environment and a separate growth trajectory.

A shift from a close-knit conglomerate to separate entities will enable further concentration on individual business segments. Management of each of the companies can pursue independent growth strategies in different regional and overseas markets. Besides, a sharply focussed and flexible business approach will mean a stronger brand and more value for all stakeholders.

SIMPLER Regulatory compliance

Each business has different sets of regulators. In the current form, every decision passes through multiple compliances and all the regulators. The independent structure would result in simpler regulatory compliance by avoiding multiplicity of regulators.

Attracting the RIGHT TALENT

Each business requires different skills and talent to thrive in the relevant competitive environment thereby making it important for each company to attract, retain and reward the best talent. As separate entities, the companies will also have greater flexibility to allot ESOPs to employees within individual businesses which will facilitate the acquisition of best-in-industry talent.

Shareholders WIN: Liquidity and Value

All three businesses have attained scale in terms of revenues and profits. Reorganisation of the Company will offer future and current investors a path to liquidity as well as price discovery for their investments.

Most of the financial investors have different objectives in the long run. Based on the risk profile, some investors are keen to invest in asset-heavy businesses while some are willing to pay more for higher returns. Once the companies are listed separately, they can attract relevant sets of investors and meet their aspirations.

Cross-sell and SYNERGIES

Each of the proposed entities have multiple products and a distinct customer base. There are more cross-selling opportunities within the three businesses rather than in intra-business. A person borrowing gold loan may also become a customer for home loan. There are synergies across businesses, but there are greater synergies within each of the businesses.

Ownership, Control and RISK

Conglomerates with convoluted structures allow control over several companies through the parent Company. However, today, the evolving culture is that small and innovative ideas driven independent enterprises do far better.

From an audit and regulations point of view, a clear and differentiated structure is better since the potential risk of one business can be isolated from the other. It also becomes easy for the analysts, regulators and investors to understand the businesses better.

Eventually, we believe that these distinct businesses will have more transparency for the outside world, public, media, analysts as well as the regulators.

The reorganisation will enable IIFL group companies to focus on their niche verticals and embark on the path of swift growth.

Creating value through innovation and digitisation

India is transforming into a digital economy with a thrust for enhanced digitisation of the financial sector. Customers are empowered with greater access to internet and multiple digital options. With the 'Digital India' programme and focus on technology, the country is on the cusp of a digital revolution.

At IIFL, we are committed to invest in technology, enabling us to drive growth and unlock competitive advantages across our diversified businesses. Digital and analytics continue to be the key focus areas to bring in agility, availability and relevance. Our continuous focus on technology is resulting in sustained growth, healthy assets and a controlled-risk framework.

Key highlights and developments:

- The Company executed the 'eSign', 'eMandate' and biometric integration across all its mobile and web platforms
- The loan on-boarding process was enhanced by using tablets with customised software for customer on-boarding. 97% of the loans originated in the year were on-boarded digitally via the Tablets. An integration with analytics based credit scorecards also allows instant sanction decisions
- The digitisation of the process has led to significant reduction in the disbursal time
- A 'personal loan' option was launched on the web based platforms as a self-service portal, enabling customers to apply for a loan directly online and get a speedy disbursement
- All the Company's customer facing applications were upgraded to support UPI payments, in addition to existing internet banking options and other traditional channels

Message from the Chairman

Your Company's strategy for the next decade is best captured in the theme of this annual report 'simplify for speed'. As part of this strategy, your Company proposes to reorganise all its business verticals into three core entities, namely, IIFL Finance, IIFL Wealth and IIFL Securities.

SIMPLIFY FOR SPEED

Dear Shareholders,

I am pleased to report that your Company's financial performance has scaled a new peak with a consolidated net profit of ₹1,162 crores prior to minority adjustment. Over the last two decades, the Company has remained focussed on financial services while expanding its activities to encompass a wide gamut of services including wealth and asset management, loans and mortgages, securities and investment banking, and distribution of financial products. Your Company has emerged as one of the leading players in the financial services industry.

But what has brought us here may not take us there. Taking cognisance of present environment, opportunities and challenges, your Company's strategy for the next decade is best captured in the theme of this annual report 'simplify for speed'. As part of this strategy, your Company proposes to reorganise all its business verticals into three core entities, namely, IIFL Finance, IIFL Wealth and IIFL Securities. They will serve three different segments of customers namely borrowers, HNI investors and retail/ institutional investors.

Speed to survive

Your Company's market value was close to ₹22,500 crore as at year end; a growth of about 65 times in 13 years since the IPO. One could argue that, at this size, the typical approach would be to consolidate and conserve rather than sprint. However, we live in extraordinary times where disruptive innovations have become a norm rather than an exception. Revolutionary changes in digital technology will make 'slow' organisations easy targets for the innovative players- new or existing. The fintech revolution has altered traditional wisdom; it is not speed, but a lack of it, that can kill. At the same time, the growing economy will drive faster growth in demand for financial services products. An organisation that adapts with speed will be better placed to grow faster as well.

Increasingly complex world

Regulatory environment is getting stricter. Compliance is becoming more complicated by the day. Technology is changing faster than anybody's imagination. The internet age 'millennial' consumer's behaviour is defying all theories. Customer loyalty is turning fragile. Real time information and knowledge is ubiquitous and almost free. Marketing communication can be tailor made for each prospect. Data science and artificial intelligence are changing every aspect of business. Investors are backing inexperienced innovators over experienced incumbents, making the industry even more complex

Simplify to unlock speed

The more complex the world gets, the more is the power of simplicity, to unleash innovation and superior products. Customers prefer simple products and employees thrive on simple processes. Investors look for simple business models. But to make things simple has never been easy. We have to start with making the organisation structure simple, where key people have their rewards directly linked to their performance with concomitant responsibility for their acts and omissions. Simple

organisations make it possible to have tailor made processes optimised for respective businesses as well.

Challenges arising from simplification

There are some complications that arise from the simplification of strategy. Let me discuss them as well.

Control – traditionally, conglomerates have thrived on complex ownership structures, allowing management control with much lower effective economic ownership. The convoluted structures have been abstruse for analysts, shareholders and regulators to analyse and understand. However, we believe that a simpler structure facilitates greater transparency, fosters superior governance and allows true democracy to mirror ownership and control. Institutional investors have choice of businesses to suit varying objectives of the funds they manage.

Size – is an edge and also a drag. All entities together have much greater size, an edge to absorb shocks or risks. A larger balance sheet wields more power. However, these advantages are outweighed by the fact that size, which is summation of parts driven by diverse forces, is a drag to speed. For instance, any new activity may require compliance and regulatory clearance of all businesses. Any shock in one business can slow down others too. Heightened risks in one business can shadow the other businesses.

Costs – are lower for many support functions when shared. However, these savings come at a hidden cost of trying to make one size or shape fit all. It may be worth the extra cost to let distinct businesses have flexibility to structure support functions, operations and technologies that best serve their respective business requirements and customers.

Reorganisation is just the beginning

Organisations like your Company, growing at a fast clip for over two decades, do tend to develop complex processes, systems, layers and control procedures. The reorganisation presents a unique opportunity. The reorganisation process will create three new organisations - simpler and nimbler than their predecessor conglomerate. They will serve distinct segments of customers, have separate management teams, varied growth trajectories and, distinct products and propositions requiring dissimilar culture and systems. The independent entities can take the simplification strategy forward to their products, processes, work flow, organisation structure, reward system and communication. Our goal is to gather speed to stay ahead of the industry.

Next year

If we get all approvals in time, you will own shares of three listed companies and will receive three annual reports next year. Our loyal shareholders would find this a bit of a compromise on the simplicity of owning one Company and reading one annual report, but I would say it's a small price to pay for a group getting ready to shift gears. We have a thrilling ride ahead as each business can scale up many times.

Thank you,

Nirmal Jain

Chairman,
IIFL Holdings Limited

Message from the Managing Director

As our business gathers speed and scale, it is important we ensure work flows are simple, secure and safe, so that we can leap forward as an organisation and build a highly customer-centric service and delivery organisation.

SPEED WITH STABILITY

Dear Shareholders,

"It is true that speed kills. In distance running, it kills anyone who does not have it."

– Brooks Johnson

The pace at which society is progressing, companies need to simplify their processes and increase speed to stay relevant. History is replete with stories of companies which have gone from domination to obscurity in a matter of years. Our organisation has witnessed speed and growth. People, Process and Platform, and the need to strengthen them, have been part of our business plan and action for years. This time, I would like to share my thoughts on the Process aspect. This, however, does not mean that People or Platforms become less important. As any organisation witnesses speedy growth in revenues and profits, it is imperative that the internal systems and processes also keep pace. As articulated in earlier annual reports, strengthening the backbone i.e. the internal organisation, leads to greater speed in the external world.

Processes are crucial to the smooth functioning of an organisation, and a conscious effort at process improvement can generate huge benefits including speed, efficiency and cost optimisation. Deriving from Henry Ford's assembly line innovation, simplification of a process is the primary contributor to generating efficiency, increasing speed and maintaining quality. As organisations become large, many processes become complex because of multiple touch points of various departments. As a result, turnaround time increases, and unknowingly bureaucratic layers are built.

Simple

We strongly believe process simplification is critical to increasing speed and reducing turnaround times for customers, which is very important in today's age. Customers are spoilt for choice and demand a seamless experience with minimum waiting time. They have no qualms about moving elsewhere if service lacks simplicity and speed.

With a keen organisational focus on improving customer experience, we are continuously looking at each process to make it simple in order to enhance customer experience. We are happy to share that speed permeates every aspect of our organisation. This is evident in the speed at which decisions are taken, the fast response time and the time to market new age products. We also engage with consultants to help us breakdown and analyse all aspects of individual workflows and identify best practice methods for streamlining the same. These activities have resulted in notable reduction in turnaround time and minimal errors. This remains a continuous process and we cannot rest on our laurels.

"Almost all quality improvement comes via simplification of design, manufacturing... layout, processes, and procedures."

– Tom Peters

A major component of process simplification is the digitisation of workflows. We have made significant enhancements to all our offerings with technological advances especially on mobile platforms. Aadhar has made KYC simple. Data availability has increased, which has helped in faster credit decisions. CIBIL and other bureau reports give relevant information at the click of a button. All these are used seamlessly to simplify the earlier cumbersome paper-driven credit appraisal process. We've consciously taken steps to make processes as paper-less as possible.

Retail Lending – Digital Delivery is the cornerstone of our business strategy. Digital delivery has simplified the process and increased speed in all our businesses.

Secure

Exposure to and dependence on technology comes with risks to cyber security and this is a sensitive risk for us in financial services. Information Security is of paramount importance to us and we leave no stone unturned to ensure that data is shared only on a need to know basis. Data is an asset and facilitates various kinds of analysis, which in turn enters the feedback loop to further fine tune the decision-making process. We are ISO 27001:2013 certified. We are upgrading our firewall to next generation with advanced threat protection controls for data centre and application layer.

Safe

With speed, it is important to ensure safety. We keep on checking work flows for possible leakages to make them as safe as possible. The safety of the entire organisation is closely linked to the robust risk management policy that we have in place. Profit earned is commensurate with risk we take and understanding of risk is critical in our business, be it credit or operations. Data analytics is being increasingly used for managing the risk. We have identified risk officers for various business lines, but that is not enough, it is important that all our people have a risk management mindset. This function cannot be outsourced to specific departments like internal audit or risk but must permeate the entire organisation. Towards this, we have made investments in training our people on various aspects of risk, including compliance.

As our business gathers speed and scale, it is important we ensure work flows are simple, secure and safe, so that we can leap forward as an organisation and build a highly customer-centric service and delivery organisation.

Thank you,

R. Venkataraman

Chouras - 'Building futures'

Mission "Chouras" was recently launched through IIFL Foundation to help construction workers with their children's education. The aim is to provide access to education for these children who are otherwise without means to attend school, and contribute to their skill development in order to empower them to take up jobs in the future other than construction work thus break the vicious circle of poverty and illiteracy.

IIFL Foundation appoints a teacher for five hours each day to teach these children, when their parents are on the site. The focus is more on providing functional literacy as the engagement period is often limited as a worker typically spends four months to a year on the site. The program was launched in Noida, Gurgaon and Ghaziabad and will be expanded in future.

DIRECTORS' REPORT (Contd.)

2. REVIEW OF BUSINESS AND OPERATIONS AND STATE OF YOUR COMPANY'S AFFAIRS

During the year under review, your Company's total income, on a consolidated basis, increased to ₹ 64,376 million, up 31% year-on-year (y-o-y). Profit before tax increased to ₹ 16,677 million, up 36% y-o-y and Profit after tax before minority interest increased to ₹ 11,621 million, up 41% y-o-y.

During the year, the income from the loans and mortgages business has increased by 22% y-o-y to ₹ 38,570 million. This was driven by growth in the loan AUM by 40% from ₹ 222,810 million in FY17 to ₹ 311,336 million in FY18. The Loan book of Housing Finance Company grew robustly by 45% to ₹ 119,169 million as of March 31, 2018 as against ₹ 81,924 million in the previous year. The Company's MFI subsidiary namely Samasta Microfinance Limited has achieved a significant growth of 252% in its AUM to ₹ 8406.19 million and its branch network increased to 186. During the year, income from the wealth management business witnessed robust growth of 60% y-o-y to reach ₹ 17,378 million and assets under advice, distribution and management increased by 39% y-o-y to ₹ 1,317,617 million. The Wealth Management arm i.e. IIFL Asset Management Limited continued to be the largest AIF platform in the Country with AUM of ₹ 117,359 million. Income from Capital Market related activities increased significantly by 24% y-o-y to ₹ 8,428 million.

There is no change in the nature of business of the Company. There were no significant or material orders passed by regulators or courts or tribunals impacting the going concern status and Company's operations in future.

3. MACROECONOMIC OVERVIEW

Indian Economy has regained the tag of fastest growing economy in the world in FY18, despite the two major reforms, namely GST and Demonetisation that deterred the growth rate in the short run. The growth has been mainly driven by manufacturing and construction sectors. The country posted an overall growth of 6.7% in 2017 and is expected to rise to 7.4% in 2018. The construction sector grew at 3.4% in FY18, compared with 6.3% in FY17. The agricultural sector grew at 3.4% in FY18, compared with 6.3% in FY17.

The GDP growth rate for FY18 is expected to be at 6.75% as per government estimates (Economic Survey report 2018) and between 7% and 7.5% in 2019. Production momentum in the country remaining strong, capacity utilisation and private sector capital expenditure is expected to increase in FY19. However, despite a general upside sentiment, the economy remains vulnerable to external risks, key among them is the anticipated rise in crude price and input costs.

The concerns regarding banking sector credit quality after the discovery of recent frauds have slowed down the investment pace in the country. It is expected that further re-capitalisation, as part of a broader package of financial reforms to improve the governance of public sector banks and lenders' debt recovery mechanisms, will improve the banking sector's ability to support growth.

On the NBFC front, one of the biggest challenges in FY19 is higher borrowing costs and narrowing options to raise funds, as they seek to raise ₹ 3,800 billion to ₹ 4,000 billion of debt to finance a 20% growth in loan portfolio, according to rating agency ICRA. ICRA expects the weighted average cost of funds for NBFCs to increase to about 9.3%-9.5% in FY19 compared to 8.4%-8.5% in FY18. The weighted average cost of funding for NBFCs could be higher by a minimum of about 45 basis points in FY19, based on the debt maturity profiles and incremental funding requirement.

4. DIVIDEND ON EQUITY SHARES

During the year 2017-18, Board of Directors of the Company declared and paid an interim dividend of ₹ 5/- per equity share (i.e. 2.5 times of face value of ₹ 2/- per equity share). This led to an outgo of ₹ 1592.38 million owing to dividend (excluding dividend distribution tax). Your Directors recommend that said interim dividend be considered as final. The total dividend paid during the previous financial year 2016-17 was ₹ 4.5/- per equity share.

The dividend payout for the year under review is in accordance with the Company's policy to pay sustainable dividend linked to long-term growth objectives of the Company, to be met by internal cash accruals. The Board had approved the Dividend Distribution Policy on January 25, 2017 in line with the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015. The Policy is available on the Company's website at <https://www.iifl.com>.

The Board of Directors of the Company at its meeting held on January 31, 2018, approved the Composite Scheme of Arrangement amongst the Company, India Infoline Media and Research Services Limited ("IIFL M&R"), IIFL Securities Limited ("IIFL Securities"), IIFL Wealth Management Limited ("IIFL Wealth"), India Infoline Finance Limited ("IIFL Finance"), IIFL Distribution Services Limited ("IIFL Distribution"), and their respective shareholders, under Sections 230 - 232 and other applicable provisions of the Companies Act, 2013 ("Scheme") which inter-alia, envisages the following:

DIRECTORS' REPORT (Contd.)

- i. amalgamation of IIFL M&R with the Company;
- ii. demerger of the Securities Business Undertaking (as defined in the Scheme) of the Company into IIFL Securities;
- iii. demerger of the Wealth Business Undertaking (as defined in the Scheme) of the Company into IIFL Wealth;
- iv. amalgamation of IIFL Finance with the Company; and
- v. transfer of the Broking and Depository Participant Business Undertaking (as defined in the Scheme) of IIFL Wealth to its wholly owned subsidiary i.e., IIFL Distribution, on a going-concern basis.

The share entitlement ratio under the scheme is as under:-

- a. For the demerger of the Securities Business Undertaking from the Company:
For every 1 (One) fully paid equity share of ₹ 2 each held in the Company, the shareholder of the Company will get 1 (One) fully paid equity share of ₹ 2 each of IIFL Securities Limited.
- b. For the demerger of the Wealth Business Undertaking from the Company:
For every 7 (Seven) fully paid equity share of ₹ 2 each held in the Company, the shareholders of the Company will get 1 (One) fully paid equity share of ₹ 2 each of IIFL Wealth Management Limited.
- c. For amalgamation of India Infoline Finance Limited with the Company:
For every 100 (One hundred) fully paid equity shares of ₹ 10 each held in India Infoline Finance Limited, the shareholder of India Infoline Finance Limited will get 135 (One Hundred and Thirty Five) fully paid equity shares of ₹ 2 each of the Company.

The Appointed Date for the amalgamation of IIFL M&R with the Company is opening hours of April 1, 2017 and for all the other steps, the Appointed Date is opening hours of April 1, 2018. The Scheme will be given effect to upon receipt of requisite approvals of National Company Law Tribunal ("NCLT") and other authorities.

This will enable the Company's three dominant focused businesses i.e. loan & mortgage, securities and wealth management to list as independent entities at Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited subject to necessary approvals.

The Rationale of the Scheme is as under:

- (i) Over the course of time, Company has grown into a diversified financial conglomerate with interests in loans & mortgages, wealth management services, distribution of financial products and capital market

services. Each of the core businesses have acquired critical mass, requiring flexibility and independence to grow faster in the fast changing technology and innovation driven environment.

- (ii) Each core business has a differentiated strategy, different industry specific risks and operate inter alia under different market dynamics and growth trajectory. The nature and competition involved in each of the businesses is distinct from others and consequently each business or undertaking is capable of attracting a different set of investors, strategic partners, lenders and other stakeholders.
- (iii) Accordingly, the Company proposes to re-organise and segregate, by way of a composite scheme of arrangement, its businesses and undertakings into three different listed verticals dealing in loans & mortgages business, wealth management services and capital market business. These listed entities will be subject to public, media, analysts and regulatory review. A clean corporate structure with no cross holdings will ensure transparency, accountability, highest standards of corporate governance and compliance. It also enhances operational flexibility and helps quick response to competitive or environmental challenges.
- (iv) The proposed reorganisation pursuant to this Scheme is expected, inter alia, to result in the following benefits:
 - a) unlocking of value and create enhanced value for shareholders and allow a focused strategy in operations, which would be in the best interest of all the stakeholders; and
 - b) creation of listed loans & mortgages business, wealth management services and capital market business with ability to achieve valuation based on respective risk-return profile and cash flows, attracting the right investors and thus enhancing flexibility in accessing capital;
- (v) Further, each listed company can separately attract and motivate its key people with stock options such that their rewards are strongly correlated with their own and their business's performance and connect to the IIFL Group's philosophy of 'owner mindset', which believes in shared ownership and shared accountability by all team members.

The above is subject to regulatory and NCLT approval. The Company has filed the draft Scheme with exchanges, SEBI and other authorities for their approval and approval is awaited.

Annexure – I to Directors' Report (Contd.)

Brief Description of Key Projects:

- 1) Disaster Support – Relief & Rehabilitation: This year the deadly floods in Rajasthan & Gujarat not only killed a lot of people but made several other people homeless. Most of these were extremely poor. It was important that they are immediately provided with medical support and food and clothing. Work was undertaken in both Rajasthan & Gujarat.
- 2) Protection of Culture: Melathur Bhagwat Mela each year strives to protect the centuries old dance form very unique to that region.
- 3) Support to children of Martyrs: Financial support for continuation of education to children of martyrs who have laid their lives for the protection of our country.
- 4) Girl Child illiteracy eradication program: It is a matter of great concern and shame that girls in large number continue to be out of school and remain illiterate. This problem is particularly severe in northern state of Rajasthan. India Infoline Foundation has vowed to change this in next few years through starting community schools which are multi grade multi level schools started in the villages as per the convenience of the girls to enable them to get educated. With 1067 such schools called "Sakhiyon ki Baadi", India Infoline foundation has already brought back over 33,000 girls into the fold of education. And this is just the beginning.

5. Responsibility statement of the CSR Committee

Through this report, IIFL Holdings Limited seeks to communicate its commitment towards CSR to the Ministry of Corporate Affairs and other stakeholders. The implementation and monitoring of the CSR Policy is in compliance with the CSR objectives and policies as laid down in this report. The Board of the Company and the CSR Committee is responsible for the integrity and the objectivity of all the information provided in the disclosure above. All projects reported have been selected based on careful evaluation of the extent to which they create sustainable positive outcomes for marginalised segments of society. The Company has adopted measures to ensure that these projects are implemented in an effective and efficient manner so that they are able to deliver maximum potential impact. In line with the requirements of the Section 135, the Company has also established a monitoring mechanism to track the progress of its CSR projects.

Management Discussion and Analysis

GLOBAL ECONOMY OVERVIEW

After a prolonged period of economic stagnation, 2017 saw a strong upswing in economic activity. Global economic growth was recorded at 3%, an improvement of 60 basis points over the 2.4% recorded in 2016 and the highest achieved since 2012. (Source: World Bank)

USA and Euro region saw significant improvement in output growth, achieving 2.3% each in 2017 over 1.6% and 1.7% in 2016, respectively. China sustained its growth at 6.9% in 2017 over 6.7% last year and emerging and developing economies recorded a growth of 70 basis points over the previous year to post 4.8% output growth (Source: IMF).

The growth spurt in the United States was driven by stronger than expected economic activity in 2017, higher projected external demand and the expected macroeconomic impact of tax reforms. The major changes of reduction in corporate tax rates and temporary allowance for full expensing of investments in the new tax reforms are expected to add to growth through 2020.

The European region saw a turnaround owing to rising wages, low inflation and high employment levels on the domestic front, and strong corporate profitability, confidence amongst investors and rising investments on the global front.

Brexit continues to be a dampener with uncertainties looming large. UK's growth output is projected to slow to 1.6% in 2018 and 1.5% in 2019.

China managed to sustain its growth level mainly owing to recovery of global economic activity and increase in export revenue over international demand, and a rebound in the domestic real estate sector.

Overall global growth momentum is expected to continue and sustain at 3.9% through 2019. USA is expected to grow marginally at 2.9% in 2018, EU to sustain at 2.4%, China to moderate gradually to 6.6%, and Emerging economies to grow at 4.9%. Asia will continue to be the fastest growing region, and India is expected to be a major contributor with a growth projection of 7.4% for 2018.

INDIAN ECONOMY OVERVIEW

Indian economy continues to be one of the fastest growing economies around the world, despite the two major reforms, namely GST and Demonetisation that deterred the growth rate in the short run. With a policy change such as GST, which is of a huge scale, scope, and complexity, the transition unsurprisingly encountered challenges of policy, law, and information technology systems, which especially affected the informal sector in the country. In the second half of the year, the economy witnessed signs of revival. Economic growth improved as the shocks began to fade, corrective actions were taken, and the synchronous global economic recovery boosted exports. The GST implementation also brought about a 50% increase in unique indirect taxpayers.

The country posted an overall growth of 6.7% in 2017 and is expected to rise to 7.4% in 2018.

The GDP growth rate for FY18 is expected to be at 6.75% as per government estimates (Economic Survey report 2018) and between 7% and 7.5% in FY19. The Consumer Price Index (CPI) based headline inflation was at 3.7% for FY18.

In a major validation to the governments' initiatives to improve business environment, the World Bank's Ease of Doing Business rankings promoted India by 30 spots over the previous year, and the international ratings agency Moody's upgraded India's sovereign bond ratings to Baa2 from Baa3, with a stable outlook, for the first time in 14 years.

FINANCIAL SERVICES INDUSTRY

The financial services sector in India is predominantly a banking sector with commercial banks accounting for more than 64% of the total assets held by the financial system.

Management Discussion and Analysis (Contd.)

India has a diversified financial sector undergoing rapid expansion with many new entities entering the market along with the existing financial services firms. The sector comprises commercial banks, insurance companies, non-banking financial companies, housing finance companies, co-operatives, pension funds, mutual funds and other smaller financial entities. Reserve Bank of India (RBI) recently allowed new entities such as payments banks and small finance banks to commence operations, focussed on specific segments of transactional banking and small-ticket lending respectively.

The Government and RBI have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for micro and small enterprises, issuing guideline to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). In 2017, a new portal named 'Udyami Mitra' has been launched by the Small Industries Development Bank of India (SIDBI) with the aim of improving credit availability to MSMEs.

Due to the joint efforts by both government and the private sector, India has undoubtedly one of the world's most vibrant capital markets. Reforms implemented by Securities and Exchange Board of India (SEBI) have played a very important role in protecting shareholders' rights.

From the year 2017, the Mutual Fund (MF) industry in India has seen rapid growth in total Assets Under Management (AUM). Total AUM of the industry increased 22 % y-o-y to hit a record ₹ 21,360 billion at the end of March 2018.

Another crucial component of India's financial sector is the insurance industry. The insurance industry has been expanding at a fast pace. The total first year premium of life insurance companies grew by 11 % y-o-y to ₹ 1,940 billion in FY18 from ₹ 1,750 billion in FY17.

First Year Life Insurance Premium (₹ in Billion)

Furthermore, India's leading bourse Bombay Stock Exchange (BSE) will set up a joint venture with Ebix Inc to build a robust insurance distribution network in the country through a new distribution exchange platform.

The amount of loans advanced by NBFCs rose to ₹ 14,846 Billion in FY17, growing at a robust 12.7%, from ₹ 13,169 Billion in FY16, according to an RBI report. Such rise has helped bridge the credit gap in the country and reduced the dependence on banking institutions.

Loans and Advances by NBFCs (₹ in Billion)

The RBI's revised framework for the resolution of large stressed assets has the potential to bring a big change in the approach of banks for monitoring of exposures and resolution of non-performing assets (NPAs), and thereby strengthening the banking system in India. Directions by the RBI such as mandating weekly information on large delinquent accounts, scripting of a resolution plan immediately after default, and setting up of stringent timelines (180 days from default) for referring an account to the Insolvency and Bankruptcy Code

Management Discussion and Analysis (Contd.)

process, is establishing an ecosystem where NPAs would get recognised on time and their resolutions are structurally quicker than before.

Further, independent credit evaluation of the residual debt in resolution plans, and minimum investment grade rating for any upgrade of NPA cases, will improve investor and other stakeholder confidence over the long-term.

Other Government initiatives

- In order to promote the financial service system in the country, the Government of India is likely to allow 100 % foreign direct investment (FDI) in cash and ATM management companies. Also, these companies are not required to comply with the Private Securities Agencies Regulations Act (PSARA).
- Exchanges in India have been allowed by SEBI to provide both equity and commodity trading facility simultaneously, starting from October 2018, as opposed to the bifurcation of platforms required currently. The convergence will help individuals to trade through a single account for all asset classes
- SEBI has relaxed norms for registered foreign portfolio investors (FPIs) in India. These investors now no longer require any additional documentation or prior approval process to operate through the International Financial Services Centre (IFSC).
- The hike in agriculture credit by 10% to ₹11,000 billion for FY19 and in minimum support prices of all crops at 1.5X of production costs, as proposed in the Budget 2018, is expected to lead to better rural incomes and spending. This should benefit banks through improved credit offtake as well as an improvement in asset quality in the agriculture segment. Regional Rural Banks (RRBs) can now support credit flow to the rural sector after the proposal to allow them to raise market capital gets passed. The proposals to review the refinancing norms for NBFCs under MUDRA and receivable discounting by PSBs would improve credit supply to MSMEs and support the credit growth of banks and NBFCs.

Going Forward

The Association of Mutual Funds in India (AMFI) is targeting nearly five fold growth in assets under management (AUM) to ₹ 95,000 billion and a more than three times growth in investor accounts to 130 million by 2025.

On the digital financial services front, India's mobile wallet industry is estimated to grow at a compound annual growth rate of 150% by 2022 while mobile wallet transactions are forecast to touch ₹ 32 trillion by FY22 from the current level of ₹ 0.5 trillion in FY17. (Source: RBI)

OPPORTUNITY

Changing trend towards financial savings

Traditionally in India, savings were primarily into physical assets such as real-estate and gold. Financial savings such as mutual fund products and insurance plans were less known or understood by most households. From the year FY17, the trend changed in favour of financial savings. Ten years of regulatory work on making the product hard to miss, a massive investor outreach by mutual funds to educate, the 'Mutual Funds Sahi Hai' campaign by AMFI and the good work done by independent financial advisers (IFAs) over the years all came together and resulted in the systematic investment plan (SIP) book touching an all time high of ₹ 71 billion in the month of March 2018. This shows that there is a gradual shift in the mindset of people towards savings in the country, inclining more towards financial savings in the years ahead.

Growth of Digital Financial Services

Although financial services have been computerised for decades, with segments such as retail brokerages using digital channels for some 20 years, a more radical transformation of the industry was delayed due to the dependency of customers on traditional financial services providers, low digital and internet penetration in the country, regulatory barriers to entry in banking and insurance, and supervisory approaches that required internalising all or most of the value chain.

In recent times though, we have seen tremendous expansion in digital channels owing to evolving needs of customers, greater accessibility to internet services and a marked change in regulatory environment. This has led to a proliferation of Fintech companies. Fintechs operate separately from and

Management Discussion and Analysis (Contd.)

compete directly with banks and also offer solutions to banks and NBFCs. Banks and NBFCs will be dragged into this age of reconfiguration by market forces and, in some cases, by government interoperability mandates.

The digital transformation of financial services is likely to result in more competition, with significant portions of products and profitability at risk for traditional service providers. Cloud infrastructure and mobile channels mean that the provision of financial services no longer requires high fixed-cost mainframe data centres and branch networks, so costs are more variable. This poses a surge of opportunities for NBFCs to adapt to these technological changes in the digital era and increase their efficiency.

Major FinTech trends going ahead:

Blockchain

NITI Aayog is creating India's largest blockchain network, called 'IndiaChain'. It aims to reduce fraud, speed up contract enforcement, and increase transparency. Blockchain is so crucial in today's environment that the value addition by its adoption cannot be ignored. Several major players have already begun pilot projects to measure the feasibility of adopting blockchain into their ecosystems. As blockchain is virtually un-hackable due to time stamps that mark a data entry in a distributed ledger, financial service providers will explore options to leverage the power of blockchain to transform backend operations.

Artificial Intelligence (AI)

With the help of embedded AI aiding the backend operations of financial service providers, they will be able to enhance customer offerings in terms of speed and accuracy of solutions, quickly identify bottlenecks in their operation workflows and bring in significant improvements in process efficiencies. Financial service providers are slowly moving towards AI powered solutions to provide personalised financial advice based on predefined algorithms. It also does predictive 'what if' assessments and portfolio recommendations, ushering in a new era in financial services.

Credit gaps in Eastern India

Despite contributing to 47 % of India's GDP, rural India's share in total credit outstanding was just 10% in FY16, indicating very low penetration of banking credit in rural areas. Banking credits and deposits are largely concentrated in the Southern (38% of total credit) and Western (25%) regions of India. Credit penetration has been significantly lower in the Eastern region, according to a report by KPMG in January 2018. Banking retail-

credit income per capita is also the lowest in the Eastern states at 20% of that in Southern states.

Low banking credit penetration points towards a large area without access to banking services, often dependent on informal sources of credit. Government initiatives for financial inclusion and the steady rise of digitisation are expected to create analytics, operational and business synergies for NBFCs and MFIs that can then capture these markets through operationally efficient and cost-effective models.

MSME Credit

MSME financing is a very promising segment in the credit industry, with estimates of unmet credit demand amounting to ₹ 25,000 billion in FY17 according to a report by FICCI-CMSME. The unmet credit demand is likely to increase going forward.

NBFCs share in the MSME credit pie is expected to expand to 22-23% by March 2022 compared to 16% in March 2017 [Source: ICRA]. NBFCs with their niche positioning, differentiated product offering and good market knowledge would be able to grow at a healthy rate vis-a-vis banks.

Gold Demand

The World Gold Council estimates that average demand in the country for gold would go up to around 850 to 950 tonnes per annum by 2020 from 727 tonne in 2017, with two-thirds of this demand coming from the rural market. The gold credit market is estimated to grow at 13.7% to ₹ 3,101 billion through FY20 from ₹ 2,139 billion in FY17, according to a report by KPMG. This presents a huge opportunity for gold loan lenders in the formal sector comprising banks, NBFCs and cooperatives.

THREATS

- Technology can help banks and other financial institutions address industry issues such as promoting growth and sustaining profitability in an environment with low interest rates, rebuilding asset quality and strengthening capital positions, increasing the business value of customer relationships, especially when customers have become more demanding, competing with aggressive, innovative non-traditional competitors, incorporating a risk management culture into daily operations etc. However, keeping up with technological innovation presents a huge challenge to the financial service industry. According to the 20th PwC CEO Survey 2017, nearly 60% of industry leaders view the speed of technological change as a threat to their growth prospects.
- Cyber Security – The PwC CEO Survey found that more than 70% of industry leaders believe cyber insecurity is a threat to growth. The ongoing news reports of data breaches at retailers highlight the risks all businesses face.
- Uncertainty in the global markets, owing to slow growth in the advanced economies and increased strain in certain emerging economies can result in volatile capital inflows and currency fluctuations. Increased restrictions on migration and global trade could hurt productivity and incomes and take an immediate toll on market sentiment. In Indian context, slow implementation of regulatory reforms and lack of consensus on important legislations can further delay growth.
- Notable risks to global economy include a possible shift towards inward-looking policies and protectionism, a sharper than expected tightening in global financial conditions that could interact with balance sheet weaknesses in parts of the euro area and in some emerging market economies, increased geopolitical tensions, and a more severe slowdown in China.
- Any adverse change in the regulatory and policy environment affecting the financial services industry.

SEGMENT OVERVIEW

NBFC

A big reason for the success of NBFCs in India of late has been their unique value proposition. Most NBFCs, whether online or offline, leverage alternative and tech-driven credit appraisal methodologies to gauge the credit worthiness of prospective borrowers.

This differentiated and unique approach allows them to meet loan requirements of individuals and businesses left

traditionally underserved by banks. With the introduction of e-KYC and digital loan agreements making borrowing an instant and hassle-free experience, NBFC lenders are already offering the right financial product to consumers and small businesses in a closely customised manner. The use of technology to optimise business processes also keeps cost overheads to a minimum, enabling credit to be availed at highly competitive interest rates.

Moreover, NBFCs often have deep regional reach, which they leverage to build robust relationships with their target customer bases. Many new-age NBFCs have started investing in analytics and AI capabilities to connect to their customers in a hyper-personalised manner to serve their credit needs better.

PE Investors

Private equity (PE) investment into the NBFC sector in the past few years has changed the way these firms progress and grow. PE firms provide not only financial support to NBFCs for growth, but also enable the creation of world-class financial organisations with a focus on industry developments around the world.

The value addition of PE firms does not stop at just financial support. Corporate governance requirements and standards of PE firms protect investee NBFCs from future regulatory risks, fraud, and other losses. PE firms' history and experience can also provide early visibility to sector losses, affording an opportunity to NBFCs to correct the problem in a timely manner.

PE firms also provide access to a wide business network, facilitating strategic partnerships, and other business opportunities. Collaboration opportunities unlocked through common investors allow NBFCs - whether online, offline, or hybrid – to work towards mutual goals of enabling seamless access to credit. This approach of co-opetition, or collaborative competition, helps the broader NBFC sector to strengthen its standing in the Indian financial sector, allowing it to truly stand strong when the banking sector is stumbling due to numerous frauds and rising NPAs.

Going Forward

NBFCs, including HFCs, have been steadily increasing their share in the total credit market. As per an analysis done by IIFL Research, the share of NBFCs in total system credit increased from 10% in FY15 to 13% in FY18. During this period, the share of private banks increased from 22% to 26% and that of public sector banks (PSBs) reduced from 67% to 61%.

Management Discussion and Analysis (Contd.)

Further according to rating agency CRISIL, NBFCs in India are expected to see an 18% compounded annual growth rate (CAGR) for the next two and a half years and raise their share in total credit to 19% by 2020. PSBs will see a further shrinking of their share to 47% by 2020 as they battle with capital constraints.

The home loans segment, the second largest business segment for NBFCs, is expected to grow at a steady CAGR of 18% over the next three years starting from 2018 as they focus on self-employed customers and lower ticket size loans. NBFCs are also expected to increase their market share in the wholesale finance business from 12% in 2014 to 19% in 2020. They had a market share of 12% of the total real estate and structured credit segment in 2017, which is expected to increase to 14% in 2020, as per CRISIL.

With the expected quantum of growth in the future, NBFCs need to have stricter underwriting practices and closely monitor client repayment. The most significant driver of growth will be the ability to create innovative products, delivered efficiently through the use of technology.

Regulatory Updates: Ombudsman Scheme

With a view to providing customers of NBFCs with a cost-free and expeditious grievance redressal mechanism, it has been decided to introduce an Ombudsman Scheme for NBFCs. The scheme will cover all deposit taking NBFCs and those with customer interface having asset-size of Rupees one billion and above.

Home Finance

India's housing finance sector has remained relatively underpenetrated compared to its peers as evident by the low mortgage-to-GDP ratio of less than 10% as at the end of FY17.

Mortgages as a % of GDP around the world

The Indian housing finance market has grown rapidly, with mortgage lending significantly contributing to growth in construction and demand for housing. Loans by Housing finance companies (HFC) have outpaced those by banks between FY11 and FY18. As per CRISIL Research estimates, HFCs have been at the forefront, achieving a CAGR of approximately 22% in loan outstanding between FY12 and FY17 vis-a-vis the industry's (bank housing loan + HFCs) 18-19%. This is due to higher growth in non-metro cities supported by government's support, rising finance penetration, increasing demand from Tier-II cities as well as improved transparency and higher focus by HFCs.

Management Discussion and Analysis (Contd.)

Housing finance is the second-largest portfolio after infrastructure for NBFC. Several NBFCs have shifted focus to secured lending post global slowdown in 2008-09, when delinquencies on unsecured loans soared. The shift in focus can be gauged from the fact that a large number of players started full-fledged housing finance divisions as a result of which loan outstanding by HFCs accelerated. The change in focus to secured assets helped de-risk the loan books of NBFCs and HFCs and resulted in continuous improvement in asset quality.

Since the Pradhan Mantri Awas Yojana provides home buyers with a Credit Linked Subsidy Scheme, the effective rate of interest payment falls below rental yields. This improves the conditions for buying affordable housing property, enabling HFCs to begin investing more in this segment. With regulations and government policy pushing developers to focus on the affordable housing market, there is potential for growth by investing in and financing these properties for HFCs.

HFCs' loan outstanding is projected to clock 17-19% CAGR from ₹ 7.8 trillion in 2016-17 to ₹ 10.8 trillion in 2018-19, aided by higher finance penetration and demand for affordable housing.

Capital Markets

Capital markets have been buoyant and both primary and secondary markets have seen healthy growth in activities over the last one year. Corporates raised a record ₹ 2 trillion from primary markets via IPOs, QIP, rights issue etc. in FY17. The domestic investors are now a dominant player in equity markets even as foreign portfolio flows have decelerated. Investments in mutual funds via 'Systematic Investment Plan' or SIPs have gained significant traction and collections via SIPs have more than doubled in the last two years. AMFI also contributed to the popularisation of mutual fund investments, majorly through its nationwide campaign over the years of "Mutual Fund sahi hai". However, mutual fund AUM as a percentage of GDP is low in India as compared to its peers. Driven by rise in domestic investments and an optimistic outlook for earnings growth, Indian equity indices hit all-time highs in early 2018.

Mutual Fund AUM as a % of GDP (FY17)

Buoyant markets have helped push trading volumes. Average daily cash trading volumes went up ~38% Y-o-Y to ₹ 338 billion/day in FY18 from ₹ 244 billion/day in FY17. Also the share of institutions (FII + DII) in cash trading segment edged up to 31.9% in FY18 from 29.7% in the previous year.

However rise in transaction volumes has been offset by steadily falling broking commission rates or yields. Yields have been declining over the past few years due to multiple factors including i) rise of passive investment, ii) rising participation of domestic funds that have lower yields and iii) the European and UK regulators have introduced Markets in Financial Instruments Directive or MIFID II norms from January 2018. Under MIFID investors need to separately account for execution and research instead of the bundled cost model followed so far.

Despite disruptions caused by structural reforms, IPO activities remained strongly buoyant in FY18. Investments in IPO activities will continue to remain stronger amid strengthening investor sentiment. We will see more primary issues from companies in the BFSI space including companies from insurance sector, Asset management companies, small banks, HFCs and NBFCs.

WEALTH

Wealth Management

The global wealth management industry, estimated at \$ 176 trillion in client assets, as of 2017, grew at ~6% as opposed to the 4-5% growth seen in the previous couple of years. This acceleration of growth in assets under management has been driven by the strong performance of the equity markets in many parts of the world, over 2016 and 2017, with Asia Pacific being the key driver, posting near double digit growth over the last two years. India and China continue to be the key drivers of the APAC region, with ~18% and ~10% growth respectively. (Source: Oliver Wyman Report, Rise of Global Asset Managers in China)

Given the statistics above, India is one of the fastest growing wealth management markets in the world and is primarily driven by a rapidly expanding economy, with Real GDP averaging an annual growth of 7.3% over the last 4 years, ahead of China at 6.9% and global GDP expansion at 3.5% for the same period.

Management Discussion and Analysis (Contd.)

This sustained economic expansion over the last 10-years, well-above global growth averages, has created pools of wealth in India, which have traditionally been held in asset classes like gold and real estate.

This over-indexation to non-financial asset classes vis-à-vis global benchmarks has begun to change rapidly due to primarily two factors. Firstly, the prolonged slump in these traditional asset classes and secondly, driven by the emergence of SIP as a disciplined investment product, being adopted by many households, and the emergence of newer instruments like AIFs.

Credit Suisse report: Source AMFI, Company Data, Credit Suisse estimates

Wealth managers typically grow their book of business, by offering a broader, and a more sophisticated range of products to their clients. In this regard, wealth managers typically rely on asset management companies (AMCs) to create some of these product offerings. The AMC AUM in India has been growing at a scorching 26% CAGR over the past 5-years and is expected to continue growing at an 18% CAGR till FY25 to reach \$1.1 trillion in AUM, driven primarily by MF, topped-up additionally by higher adoption of PMS and AIF. Asset managers expect the affinity towards riskier assets, like equities, is likely to continue albeit at a slightly slower pace, given the past performance of the equity markets is unlikely to be repeated in the next few quarters.

Credit Suisse report: Source: SEBI, AMFI, Credit Suisse estimates

A fundamental underlying driver for growth of the wealth management industry in India is the number of High Net Worth Individuals (HNWI). This number, is expected to continue growing at a ~6% CAGR through 2020, to an estimated 577,000 households with net-worth above USD 1 million.

Management Discussion and Analysis (Contd.)

Thus, driven by robust economic growth outlook, an increasing proclivity for financial assets, a rapidly expanding product offering, and steady growth in the HNWI population, the wealth management industry in India is expected to continue surging ahead through to the next decade.

Micro Finance

Micro Finance is very significant to the process of attaining financial inclusion in India. There is a huge gap in demand and supply in micro credit in India and that a large part of gap is serviced by informal sources including money lenders. This represents an attractive business opportunity for MFIs in India. The Reserve Bank of India (RBI) has undertaken various initiatives to promote financial inclusion such as the 'no frills accounts' (2005) and the business correspondent model (2010). Under-penetration of banking facilities in India, especially in the Eastern region, has pushed the customers to avail options that are of higher risk such as chit funds, which has led to several scams that has duped retail investors. Thus MFIs may encash on this opportunity to provide small scale loans and financial services to individuals primarily in rural and semi-urban areas that have been traditionally excluded from the formal financial system due to multiple constraints including geographical presence, unavailability of financial history etc. The microfinance industry in India has grown at a CAGR of 51% over FY13-17 to ₹ 684 billion in FY17 (Source: CRISIL Research).

COMPANY OVERVIEW

IIFL Holdings Limited (Bloomberg Code: IIFL IN, NSE: IIFL, BSE: 532636) is a leading player in the Indian financial services space. IIFL Group offers financing, asset and wealth management, equity, commodity and currency broking, financial product

distribution, investment banking, institutional equities, project financing and advisory services through its various subsidiaries.

Promoted by first generation entrepreneurs, Mr. Nirmal Jain and Mr. R. Venkataraman, IIFL Group is backed by number of marquee institutional investors including Fairfax Group, General Atlantic and CDC Group Plc. The Group's subsidiaries are led by highly qualified and experienced management team who promote a culture of growth, entrepreneurship and innovation among the huge talent pool of more than 15,000 people. IIFL Group has a strong geographic footprint in India with nearly 2,500 business locations, besides an extensive global presence with offices in London, New York, Geneva, Singapore, Hong Kong, Dubai, Mauritius and Toronto.

Founded in 1995 as a research firm, IIFL has consistently innovated, reinvented and adapted itself to the dynamic business environment without losing focus on its domain of financial services. Today, IIFL has diversified into a full range of financial services, serving over 5 million customers across various business segments. The Group has de-risked itself from the volatility of capital markets with multiple revenue streams and a good mix of fee and funding-based income. IIFL's strong presence across various customer segments (retail, affluent, institutional) and wide network encompassing branches, franchisees, sub-brokers, online and mobile platforms help in catering to the financial needs of aspiring and growing India.

Group Reorganisation

The Board of Directors of the Company at its meeting held on January 31, 2018, had approved a draft Composite Scheme of Arrangement amongst the Company, India Infoline Media and Research Services Limited, IIFL Securities Limited (Formerly India Infoline Limited), IIFL Wealth Management Limited, India Infoline Finance Limited, IIFL Distribution Services Limited, and their respective shareholders, under Sections 230 - 232 and other applicable provisions of the Companies Act, 2013.

During the quarter ended March 31, 2018, the draft scheme has been filed with the exchanges/SEBI and approval of the same is awaited.

BUSINESS OVERVIEW

Financing

NBFC

India Infoline Finance Limited (IIFL Finance), the Group's NBFC business, continued to strengthen its position with a diverse suite of products comprising home loan, loan against property, commercial vehicle loan, gold loan, SME loan, digital finance, capital market finance and micro finance. During the year, AUM has grown by 40%Y-o-Y to ₹ 311,336 million.

Management Discussion and Analysis (Contd.)

AUM Break-Up (%)

We believe that the overall portfolio risk is on the decline as our portfolio mix continues to become more granular with greater share of small ticket home loans, SME loans and microfinance loans. The increasing granularity is driving down portfolio risk while at the same time helps us derive better yields versus large ticket lending. Retail loans including consumer loans and small business finance constitutes nearly 85% of our loan book.

Another strong characteristic of our loan book is the large portion of loans that are compliant with RBI's priority sector lending (PSL) norms. About 45% of our home loans, 60% of loan against property, 90% of commercial vehicle loans, 40% of SME and nearly all of our micro-finance loans are PSL compliant. In aggregate nearly 40% of our loans are PSL compliant, which we can sell-down to banks. The share of securitised book currently stands at 11% of our AuM.

Medium and high yielding assets currently constitute 51% of our AUM versus 46% at the end of March 2017. These include microfinance loan, SME loan, gold, commercial vehicle and construction finance loans. The other half of AUM consists of relatively lower yielding assets including home loans, loan against property and capital market loans. We believe our AUM mix is well balanced with some scope for the share of high yielding assets to go up.

With a pan India network of 1,378 branches, IIFL Finance is well placed to cater to the retail loan demand across India.

Our average cost of borrowing declined by 90 basis points Y-o-Y to 8.5%. Availability of funds has considerably tightened

over the past few months and there is a corresponding rise in the cost of borrowings. We are resorting to borrow a mix of term loans and banks and bonds with an endeavour to lock in longer tenure funds at fixed rates.

Cost of Funds (%)

Our NIM was at 7.1% for FY18. Lower borrowing cost and rising share of high yielding SME, gold and micro-finance loans helped support our NIMs partially offset by higher share of lower yielding retail home loans.

Net Interest Margin (%)

Our cost-to-income ratio was at 39.1% for FY18. Many of our small ticket loan products are operating expenses intensive, including Gold, MSME and micro-finance. As the share of these products rises, it puts an upward pressure on our operating costs. Still we believe that we can contain the cost ratios on the back of operating leverage and digitisation benefits.

Management Discussion and Analysis (Contd.)

Cost to Income (%)

Our GNPA's were at 1.7% of loans and NNPA's were at 0.8% of loans. During the last three years, we successfully moved from 180+dpd to 90+dpd NPA recognition norm, without any undue rise in NPA levels. This was due to a combination of constant improvement in credit underwriting standards and concerted collection efforts.

Gross NPA (%)

Net NPA (%)

The NBFC consolidated net worth is ₹ 39,167 million. Our Tier I CAR stands at 14.84% and total CAR at 16.32%

Profit after tax has grown 31% Y-o-Y to ₹ 5,543 million.

Home Finance

IIFL believes in the government's 'Housing for All' mission and expects this initiative to be instrumental in reaching out to the masses. India Infoline Housing Finance Limited (IIHFL), a wholly owned subsidiary of India Infoline Finance Limited, has increased its focus on retail home loan segment. Its added emphasis is on affordable housing, offering loans under Pradhan Mantri Awas Yojana – Credit Linked Subsidy Scheme (PMAY-CLSS) to the society's targeted sections.

The fastest growing segment in home loans is the affordable home segment, or Swaraj loans, with average ticket size of ₹ 1.3 million. Swaraj loans accounted for 22% of our home loan disbursements in Q4FY18 and 12% of closing home loan AUM. Our Swaraj product is especially designed to support the informal income segment in fulfilling their dream of owning a house.

Within construction and real-estate finance, the mix continues to change towards construction finance for small-ticket housing projects. As on March 31, 2018, we had over 6,200 approved housing projects, up nearly 1.6x from 3,900+ approved projects a year back. All our construction finance loans and 50% of home loans were made through these approved projects. We expect that this approach will reduce our operating and credit costs going forward, for our housing finance company.

After recent changes in the environment including RERA, Bankruptcy code etc, we are now more confident of growing our construction finance book. RERA has provided confidence to end customers and lenders on expected transparency. Information and documents uploaded by builders with RERA such as approved building plans, title deeds, encumbrance, construction stage update, inventory, timeline of completion

of projects, escrow account towards payment etc. give us better control and comfort for speedy disbursements to individual customers.

The company believes in the power of digitisation to achieve process excellence and facilitate scalability of the business. IIHFL has pioneered digital initiatives across sourcing, processing, decisioning, operations, collections and customer service to provide a seamless customer experience.

We continue to focus on digitisation of our loan process with 40% of our loans being on-boarded and sanctioned on tablet application available with our sales team. The underwriting is automated on Tab to give an instant sanction decision. Called the "Jhatpat loans", this initiative has also led to enhancement in productivity of support teams and enabled IIFL to handle greater volumes of retail home loans in the future.

Wealth Management

IIFL Wealth Management Limited (IIFLW) is the leading wealth management company in India. The company has catapulted itself to become the largest private wealth management firm in India in less than a decade since its inception. Today, it actively manages assets of more than 10,000 High Net Worth Individuals (HNWI) and Ultra HNWI families in India and abroad. Headquartered in Mumbai, IIFL Wealth has more than 800 employees and a presence in 23 locations in India and across major global financial hubs.

General Atlantic Singapore Fund Pte. Limited (GA), a leading global growth equity firm, holds a stake of 22.64% in the equity of IIFLW.

During the year, IIFLW made considerable progress in all its business segments - domestic and offshore services, asset management, distribution of financial products and trustee services. Total assets under management, distribution and advice witnessed 39% y-o-y growth to reach ₹ 1,318 billion as on March 31, 2018.

Management Discussion and Analysis (Contd.)

IIFL Wealth's PAT grew at 54% Y-o-Y to ₹ 3,853 million.

IIFL Wealth Finance, which offers primarily loan against securities and margin funding to high networth individuals, grew its loan book 85% Y-o-Y to ₹ 67 billion

AMC:

IIFL Asset Management acts as an Investment Manager to IIFL Mutual Fund, IIFL Alternative Investment Funds and Portfolio Management Services.

The total assets managed by IIFL AMC under Mutual Fund, AIF and Portfolio Management Services has increased to ₹ 1,35,832 million as on March 31, 2018 vis-a-vis ₹ 92,651 million as on March 31, 2017. Under IIFL Mutual Fund Platform, the assets under management have increased from ₹ 6,252 million to ₹ 9,012 million. IIFL Capital Enhancer Fund, an annual interval mutual fund scheme was launched which garnered approx. 4,600 million.

AIF assets saw a growth of 52% Y-o-Y to ₹ 117 billion as on March 2018. IIFL AMC offers various products to investors, which are beyond the mainstream investments and has been

a market disrupter. IIFL Special Opportunities Fund, which invests in Pre-IPO and IPO opportunities, garnered a lot of interest and huge demand of over ₹ 84 billion, which required the AMC to launch various series under this Scheme.

During the year, the Company took initiatives to diversify and strengthen its distribution. IIFL AMC got empanelled with several large banks and wealth management firms enabling it to significantly enhance its reach and distribution. The Company has also significantly strengthened its sales and mid-office team in order to service investors better.

Capital Markets

IIFL is a key player in both retail and institutional segments of the capital market, and category I merchant banker. We have close to 1,200 service locations comprising a wide branch and sub-broker network and providing unparalleled research coverage on over 500 companies. The business has recorded a robust performance despite volatility in the market.

Our mobile trading app, 'IIFL Markets' continues to be the highest rated (4.3) on Android amongst peers with over 1.5 million downloads. There has been a steady increase in number of clients trading through the mobile platform; during the quarter 41% of retail customers have traded through the app. IIFL's Mutual Fund App crossed 270,000 downloads with a 4 star rating on Android, and is steadily building on its customer base.

Besides the broking platform, IIFL offers a varied product suite to its customers, including mutual funds, insurance, portfolio management services and structured products. Also, fresh SIP book grew by 52% in FY18, monthly fresh business has crossed \$1 billion in FY18. The present trend of clients investing through mutual fund route has been steadily increasing the retail participation in capital market.

Our continuous focus and persistent efforts towards digitisation, enhanced service offering and manpower productivity, has improved profitability for the retail broking business.

Institutional Equities

Market volumes in the institutional segment witnessed a large increase in FY18 principally due to the sharp rise in inflows into domestic mutual funds and AIFs. The segment's cash segment volumes were up 25% Y-o-Y in FY18 in line with the market growth. Higher share of volumes from domestic MFs / DMA was a drag on the yields. On the derivatives side, the segment's volumes were up almost 3.3x thanks to the renewed thrust on the business. IIFL's institutional equities research remained well regarded for its in-depth and thematic reports.

Management Discussion and Analysis (Contd.)

Investment Banking

FY18 has been the best year for investment banking in IIFL since the Company's inception. IIFL Holdings Limited completed 27 transactions viz. IPOs, QIPs, right issues, private equity advisory and pre IPO placements. This included 11 IPOs and 8 follow on transactions involving listed companies.

As was the case in FY17, IIFL completed a number of large transactions with marquee clients in FY18 as well. Some of the notable transactions completed by the Company in FY18 include:

The largest QIP in Indian capital markets till date (~₹150 billion QIP of State Bank of India)

Largest private sector IPO over the last 9 years (~₹87 billion IPO of HDFC Standard Life Insurance Company)

First IPO of a Power Exchange in India (i.e. Indian Energy Exchange)

First IPO of a General Insurance Company in India (ICICI Lombard General Insurance Company)

First listing of an Infrastructure Investment Trust (IRB InvIT Fund)

The first IPO of an asset management company in India (Reliance Nippon Life Asset Management)

IIFL has a robust pipeline of investment banking transactions across a number of product categories, which are in different stages of execution. IIFL continues to diversify its product/service offerings and invest in people, processes and technology.

RISK MANAGEMENT and GOVERNANCE

Risk management is a key element of IIFL's business strategy and is integrated seamlessly across all of its business operations. The objective of IIFL's risk management process is to optimise the risk-return equation and ensure meticulous

compliance with all extant laws, rules, and regulations applicable to all its business activities.

IIFL seeks to foster a strong and disciplined risk management culture across all of its business entities and at all levels of employees. IIFL takes a holistic view of risk management and undertakes an enterprise-wide risk management approach under the Enterprise Risk Management (ERM) Framework. IIFL believes that ERM provides a sound foundation to ensure that the risk-taking activities across the Group are in line with the business strategy, the risk appetite approved by the Board and regulatory requirements.

Management Discussion and Analysis (Contd.)

IIFL adopts the 'three lines-of-defence' (3 LOD) model wherein management control at the business entity level is the first line of defence in risk management. Various risk control and compliance oversight functions, established by the management are the second line of defence. Finally, the third line comprises the internal audit/ assurance function. All three lines play a distinct role within IIFL's wider governance framework.

The Group operates primarily in the financial services space. Each of its businesses is carried on under separate units/ entity and is regulated by the respective regulator. IIFL is registered and regulated by SEBI for merchant banking, stock broking, depository participant, commodity broking, portfolio management, advisory, asset management, mutual fund, and alternate investment fund businesses. India Infoline Finance Limited is an NBFC registered with RBI, and the housing finance subsidiary namely India Infoline Housing Finance Limited is registered with National Housing Bank. The insurance broking subsidiary is registered with IRDA. Besides, the foreign subsidiaries are registered with respective overseas regulatory authorities.

The compliance function forms a critical part of the Group's operations. IIFL's experienced compliance and audit and risk management teams play a vital role in ensuring that rules and regulations are strictly followed in all processes, not just in letter but also in spirit. The risk management discipline is centrally initiated but implemented at across business entity level. Each of the main businesses viz. NBFC, HFC, Wealth

Management and AMC, Capital Markets, have a dedicated risk management teams in place. IIFL Wealth has also formed a central Risk Management department led by a Chief Risk Officer. This ensures that each of the operating subsidiaries is fully responsible for the initiation, management, measurement, and mitigation of all risk-taking activities within the business unit, and for meticulous compliance to all regulatory guidelines pertaining to the specific business.

IIFL has adopted digital initiatives in all its key businesses, starting with broking and distribution followed by loans and credit as well as customer service, internal operations and HR. Digitisation helps in growing business faster and to achieve critical mass and further grow exponentially using Do-It-Yourself model in a seamless manner with the cutting edge technology with minimum physical infrastructure and manpower. Digitisation ensures less human intervention and superior customer service. Moreover, technology vastly eliminates the scope for any fraud, omission, and commission of errors.

The diversified financial services at IIFL are exposed to various risks that are either inherent to the business or exposed to the changes in external environment. In order to maintain financial soundness of the Company, it seeks to promote a strong risk culture throughout the organisation. All major risk classes viz Credit Risk, Market Risk, Operational Risk, Fraud Risk, Liquidity Risk, Business Risk and Reputational Risk are managed via well defined risk management processes.

Risk	Risk Response Strategies
Credit, Liquidity and Finance Risk	<ul style="list-style-type: none"> IIFL has a separate multi-level Credit and Investment Committee consisting of Directors of the Board / Head of the Departments for each of the entities: India Infoline Finance Limited, IIFL Wealth Finance Limited and India Infoline Housing Finance Limited, to consider medium to large credit proposals. However, smaller proposals are decided at appropriate level as per the approval matrix. The Group has in place Risk Management Committee and Asset Liability Management Committee (ALCO), consisting of Directors and senior officials. They regularly meet and review the policies, systems, controls, and positions of the financing business. The Risk Management Committee reviews the risk management processes, covering credit and underwriting controls, operations, technology and compliance risks. IIFL Wealth now has a central Risk Management department led by a Chief Risk Officer in order to provide a central, organisation-wide view of Risk Management and advise the Board and senior management on risks and mitigating actions required to be taken, Also in place are product specific lending policies, credit approval committees and regular monitoring of exposures. In the housing finance business, every policy and procedure is approved jointly by CEO, CRO and policy head in consultation with concerned functional heads.

Risk	Risk Response Strategies
Technology Risk	<ul style="list-style-type: none"> • Management periodically reviews various Technology risks such as protecting sensitive customer data, identity theft, cybercrimes, data leakage, business continuity, access controls, etc. • Company has put in processes, systems and tools for ensuring vigilant monitoring, audit logging and suspicious activity reporting. • Audit logs are reviewed for any anomalies and pattern deviations on a periodic basis • This year company implemented tools for mitigating various security risks - privileged identity management, advanced malware detection and protection, end-point encryption, mobile device management and secured internet access. • The Company successfully completed the ISO 27001:2013 annual re-certification in January 2018. During the year, many processes are automated to reduce the risk of manual error and frauds.
Compliance Risk	<ul style="list-style-type: none"> • The Company has a full-fledged compliance department manned by knowledgeable and well-experienced professionals in compliance, corporate, legal and audit functions. The department guides the businesses/support functions on all regulatory compliances and monitors implementation of extant regulations/circulars, ensuring all the regulatory compliances, governance and reporting of the Group. • The Company has put in place adequate systems and controls to ensure compliance with anti-money laundering standards. Besides, the Group entities are also registered with US-IRS under the Foreign Account Tax Compliance Act (FATCA), wherever applicable, in compliance with regulatory requirements. • The Company has instituted special purpose audits for multiple functions such as credit audit, verification audit, broking systems audit, portfolio management audit and asset management function, among others. • The company has implemented business-specific Compliance Manuals, limit monitoring systems and AML/ KYC policies and enhanced risk based supervision systems • In the year, compliance with corporate acts, including Companies Act, SEBI Act, FEMA, Securities Contracts (Regulation) Act and Rules, RBI-NBFC regulations, NHB-HFC regulations, Insurance Act, and so on was verified by independent secretarial auditors on the holding company and major subsidiaries, during the year. Their reports and recommendations were considered by the Board and necessary implementations have been initiated. • The compliance requirements across various service points have been communicated comprehensively to all, through compliance manuals and circulars. To ensure complete involvement in the compliance process, heads of all businesses/zones/area offices and departments across businesses/entities submit quarterly compliance reports. The compilations of these reports are reviewed by the Audit Committee/Board and are also submitted to regulatory authorities, periodically. Besides, the internal auditors verify the compliances as part of their audit process. • In the broking business, IIFL has put in place robust surveillance & risk management systems and has implemented Graded Surveillance Measures implemented by Exchanges. Further, it is also in the process of implementing enhanced risk based supervision as stipulated by SEBI.
Human Resource Risk	<ul style="list-style-type: none"> • The Group has taken several actions to ensure that the talent pipeline for the Company is strong especially when it comes to key management positions. We have been able to attract top notch talent from MNC and Indian corporates wherever required to supplement our existing management capability. • The Group also has a strong focus on ensuring that employees are adequately trained in their job functions and on all compliance related trainings. • The HR function also ensures all statutory compliances with labour laws and other relevant statutes and ensures that strong background screening standards are in place to minimise any risk of fraud from incoming employees. • Training and certification requirements have been laid down for relevant personnel.

Risk	Risk Response Strategies
Reputation Risk	<ul style="list-style-type: none"> Over the years, the Company has fostered a culture that enables operating managers to say 'No' to poor quality business and eschewing from adopting short cuts and stopgap alternatives. In addition, it has in place stringent employee code of conduct and trading guidelines, which are to be followed by every employee. The Company's policy and processes ensure close monitoring and strict disciplinary actions against those deviating from the same. The organisation pays special attention to issues that may create a Reputational risk. Events that can negatively impact the organisation position are handled cautiously ensuring utmost compliance and in line with the values of the organisation.
Risk Culture	<ul style="list-style-type: none"> Risk management is integral to the Company's strategy. A strong risk culture is designed to help reinforce resilience by encouraging a holistic approach to the management of risk throughout the organisation. The Company has, over the years, invested in people, processes and technology to mitigate the risks posed by the external environment and by its borrowers. A strong risk management team and an effective credit operations structure ensures that risks are properly identified and addressed in a timely manner to ensure minimal impact on the Company's growth and performance. The Company has developed the necessary competency to identify early stress signals and has also defined processes, including corrective and remedial actions as regards people and processes, for mitigation to ensure minimum damage.
Fraud & Operational Risk	<ul style="list-style-type: none"> The Company has constituted an independent Fraud Control Unit (FCU), and Operational Risk (OR) and Internal Audit (IA) functions; which, on an ongoing basis, evaluate fraud & operational risks within various businesses and processes. FCU does a screening of all KYC documents and key income documents of all borrowers by external specialised Fraud Control agencies Fraud Risk Assessment of critical processes has been conducted to address any vulnerabilities. IA teams play a vital role in ensuring that rules and regulations are strictly followed in all processes, not just in letter but also in spirit There are Fraud Risk Management Policies at an IIFL Wealth level and at an IIFL Wealth Finance level, which lay down the areas vulnerable to fraud, the mitigating controls and the procedures to be followed when an instance of fraud comes to light. Standard Operating Procedures (SOPs), Business Continuity Plans and Internal Audits are performed by independent firms of Chartered Accountants, who directly present their reports to the respective boards. The Company periodically reviews the processes and controls and also updates its systems to meet the business requirements. In addition to this, employees are provided with continuous trainings and there is effective segregation of duties to reduce risk of fraud.
Security Risk	<ul style="list-style-type: none"> In the NBFC business under India Infoline Finance, the Company has installed electronic surveillance systems at all gold loan branches. These are monitored based on predefined triggers / alerts by external specialised agencies who are experts in the field.
Market Risk	<ul style="list-style-type: none"> The Company aims to mitigate inherent market risks by using sound investment policies, dedicated product advisory teams, Investment Committees, requirement of investment justifications and regular monitoring of performance. The Company also engages in diversified borrowing through multiple sources like working capital from banks, term loans, non-convertible debentures, commercial papers etc.

Management Discussion and Analysis (Contd.)

HUMAN RESOURCES

IIFL's human resource department has been constantly striving to align with business, implement digital solutions, and build a strong culture of transparency and service orientation within the organisation. The Group continued to put in place people-friendly policies and practices in the past year and continues to focus on adopting best practices for its HR policies.

Strong Management Team

The Company continues to attract professional and experienced talent from various sectors including, BFSI, Technology, Software and Start-ups. This has created a transparent, meritocratic and performance driven culture. With the right leadership at the helm, we are able to attract and create a professional team driven by a sense of purpose.

Technology Enablement

The group uses Adrenalin as a one stop employee interface for all their human resources related requirements. This system is easily accessible 24X7 through intranet and as a mobile app. We have this year implemented our recruitment solution – Hirecraft and integrated the same with Adrenalin which has facilitated our employees to access all features and activities from on-boarding to exit through a single system.

Training & Development

The Group has a dedicated training and development team which caters to areas of providing knowledge, building skills and supporting in areas of functional and technical development. With a strong focus on digital learning, our learning interventions right from Induction to functional training and refresher courses, have been developed and deployed online, supported by technology enablers to enhance the user experience of anytime anywhere learning. The group is using multiple learning methodologies like e-learning modules, video based modules, simulation learning, mobile based micro learning etc. to support our employees on the quest for professional development.

Sensitivity towards driving a compliant business is ensured through learning aids/ modules covering topics such as mandatory courses on Anti Money Laundering, Information Security, Prevention of Sexual Harassment, Anti Corruption and Bribery are also being assigned to employees through our Learning Management System. A mobile App is being developed to cater to learning requirements of remote employees who are part of the organisation.

Encouraging Performance

IIFL, as an organisation, holds performance and potential to determine employee growth and promotions. Individual Performance Measures (IPMs) for employees is IIFL's very own way of setting expectations across clearly demarcated parameters. Thereafter an effective feedback mechanism from time to time helps the employees to improve their skills. This helps in alignment of the organisational objectives and employees personal goals. An effective PMS helped Group in recognition and rewarding people's performance.

Fast Track Career Path

In line with our meritocratic culture we have introduced the 'Role Elevation Panel Process' to fast track careers of high-performers through a fair and transparent panel process. This has encouraged employees to perform their best and grow rapidly in their career within the organisation.

Management Connect

Considering the importance of management interaction, our Chairman has a periodic live connect session with all employees through Facebook @ Work. During this session the management discusses the Company overview, goals and future plans, opportunities and challenges etc. The sessions are also opened to live questions from employees which are answered by the management. These sessions have enabled all employees to be aligned with the group's vision, get clarification or bring to the management's notice any concerns and helped enhance management connect across hierarchy.

Employee Engagement

IIFL believes in engaging its work force and grooming them to become leaders of tomorrow. We have been taking employee feedback through our annual 'Pulse' survey, which enables us to continue doing the things going well and improve on the areas where we need to improve. These engagement scores are tracked to monitor improvement.

Special fast track program was formulated for the recognised high potential employees. These include program towards honing their skills and competencies, special learning and development initiatives which will enable them to meet their career aspirations within the organisation.

Monthly, Quarterly and Annual Rewards and Recognition programs are conducted to not only appreciate the exemplary contributions of performing employees, but also to make it aspirational for the others to leverage their potential.

Other engaging events like sports, cultural and festive celebrations, contests, etc are regularly conducted which enable employees to de-stress, improve team bonding and bring about a new spurt of exuberance within the employees. The Company had a strong workforce of 15,921 employees as at the year ended March 2018.

INTERNAL CONTROLS

The Company's internal audit is conducted as per the Annual Audit Plan approved by the Audit Committee. The scope of internal audit covers all aspects of business including regular front-end and back-end operations and internal compliances. It lays emphasis to check on process controls, measures undertaken by the Company to monitor risk and to check on leakages or frauds. The Company has invested in ensuring that its internal audit and control systems are adequate and commensurate with the nature of business, regulatory prescriptions and the size of its operations. Moreover, the Company successfully re-audited ISO 27001:2013 certificate

Management Discussion and Analysis (Contd.)

during the year and implemented effective information security processes reinforcing our commitment to provide robust and secure technology for all our customers.

The internal control system is supplemented by concurrent and internal audits, as well as special audits and regular reviews by the management. For Group-wide internal audits, the Company has distributed the audit of major businesses to separate top audit firms to have wider and heterogeneous verification approach and inputs, and derive larger value from the audit process. In this regard, the Company has in place Mahajan & Aibara for the capital markets businesses and agency businesses, KPMG for NBFC and HFC businesses, M.P. Chitale & Company for asset management business.

The Company also retains specialised audit firms to carry out specific / concurrent audit of some critical functions, such as half-yearly internal audit of broking business mandated by SEBI/ Exchanges, DP processes, Know Your Customer (KYC) verifications, demat transfers, pay-outs verifications, systems audit, branches and sub brokers audits, PMS, mutual fund and alternative investment funds operations audit, credit audit, loan documentation audits, pre / post disbursement audit, end use verification audits and verification of related party transactions, among others. The Company has put in place enhanced risk based supervision systems and ensures continuous monitoring. The Company also has an internal team of audit professionals at its head office in Mumbai, supported by regional teams at zonal offices. The Group has in place separate internal audit teams dedicated for major business verticals i.e., NBFC, HFC, distribution and asset management business. The internal team undertakes special situation audits and follows up on implementation of internal auditors' recommendations and action taken reports. In addition, the Company complies with several specific audits mandated by regulatory authorities such as SEBI / Exchanges / Depositories, and the reports are periodically submitted to the regulators.

The Board/Audit Committee reviews the overall risk management framework and the adequacy of internal controls instituted by the management team. The Audit Committee reviews major instances of fraud on a quarterly basis and actions are taken on the same. It also focuses on the implementation of the necessary systems and controls to strengthen the system and prevent such recurrence. The internal processes have been designed to ensure adequate checks and balances, regulatory compliances at every stage. Internal audit team carries out a risk-based audit of these processes to provide assurance on the adequacy and effectiveness of internal controls for prevention, detection, reporting and remediation of frauds.

INTERNAL FINANCIAL CONTROLS

The Company has in place adequate internal controls with reference to financial statements and operations and the same are operating effectively. The Internal Auditors tested

the design and effectiveness of the key controls and no material weaknesses were observed in their examination. Further, Statutory Auditors verified the systems and processes and confirmed that the Internal Financial Controls system over financial reporting are adequate and such controls are operating effectively.

OUTLOOK

The outlook for Indian economy also remains optimistic as the economy seems to be finally recovering from the twin shocks of demonetisation and implementation of GST. Most high frequency indicators are suggesting acceleration in growth, even as headline inflation remains benign. Strong growth in domestic air traffic, personal vehicle sales and rise in personal credit growth suggest that urban consumption is on a strong footing. Also drivers for capex cycle recovery are falling in place and we should see gradual increase in private sector capex over the coming quarters. PAT growth, one of the key factors for private sector capex decisions has seen a sharp improvement over last couple of quarters and this growth is likely to sustain. Recent improvement in capacity utilisation is also a positive for capex cycle. Also the overhang of unproductive assets is receding as share of capital work in progress in total assets has come off over last couple of years.

That said, the economy faces multiple risks especially on macro-economic stability that we have achieved in last few years. Rising commodity prices, especially of crude, could widen current account deficit and for the first time in four years, foreign direct investments would not be able to cover the deficit. Dependency on the more volatile foreign portfolio flows to cover the current account deficit would exert pressure on INR. While the decision to hike MSPs to 1.5 times the cost could provide support to rural consumption, it could also lead to acceleration in inflation and derail urban consumption. Also we have elections due in many large states during the course of the year followed by general elections in early next year. The uncertainty around election outcomes could make investors jittery. Investors prefer status quo and any change of government post elections could hurt investor sentiment, at least in the short run.

Our company in past few years has made substantial investments in people, processes and technology and continues to focus on delivering steady performance. We are cognizant of the changes in the financial services sector and well prepared to overcome challenges and sustain performance.

SECTION E: PRINCIPLE- WISE PERFORMANCE

Principle1

1. Does the policy relating to ethics ,bribery and corruption cover only the Company ?Yes/No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs/Others?

IIFL Holdings Limited conducts its business with utmost integrity. It considers ethics, transparency and accountability to be its most important operational

Business Responsibility Report (Contd.)

Principle 2

1. List upto 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

IIFL Holdings Limited is a diversified financial services Company offering investment banking, institutional equities, advisory services, financing, asset & wealth management, financial advisory, broking and financial product distribution, by itself and through its various subsidiaries. It caters to the investors/ customers spread across the country as well as global investors. IIFL undertaken several initiatives for investor education, financial awareness campaigns etc. contributing to the financial inclusion.

Some of our products offered by Company or its Subsidiaries which incorporate social concerns / opportunities are:

(i) Housing Finance

In the housing finance segment, we majorly provide small ticket home loans to borrowers from the lower income segments. Our 'Swaraj' program specially caters to loans provided under the affordable housing category. Our typical borrower profiles are first time buyers, employed in the informal sector or owning small businesses. With this product we aim to address the essential social need of owning a house.

(ii) Microfinance

In the Microfinance Segment, we are offering credit support to women who have either limited or no access to formal banking channels. We provide financial services to the economically weaker section of the society with an aim to bring microfinance services like micro loans and credit linked insurance to the doorstep of the rural and semi-urban BoP (Bottom of Pyramid) families in India. Microfinance facilitates the creation of business and markets for the economically weaker communities and leads to improvement in their quality of life.

(iii) SME Loans

In the SME loans segment, we provide working capital finance to small business owners. We provide small ticket loans, thereby being able to meet the needs of small scale businesses including standalone shops etc. This product helps facilitate bank-excluded customers access essential capital to keep their business running, and provides support to the plethora of micro and small scale enterprises that are crucial to India's economy.

(iv) Gold Loans

Gold has traditionally been a critical asset for Indian households, and is relied upon to meet major personal financial needs from time to time for example to finance marriages, education, medical emergencies etc. We provide loans against gold, catering to these needs, from a wide network of branches spread all across the country.

(v) Commercial Vehicle Finance

In the Commercial Vehicle segment, we finance first time buyer and small fleet owners of commercial vehicles, providing access to finance to such small-scale operators, mostly facing challenges with bank funding, and enabling them to set up/expand their services.

(vi) Retail Broking / Financial Product Distribution

In the evolving economic environment, it is increasingly critical for people to be investing in financial assets. Apart from savings' investments, socially essential financial products like insurance also form part of investment plans. With our widespread network, broad range of products under an open platform, and dedicated professional investment advisors, we are able to provide customers greater access to essential financial services and thereby enable them to manage their personal investments better.

The India Infoline Foundation focuses on inclusive growth in the areas of elementary education, sustainable livelihoods, primary healthcare and financial inclusion. IIFL has a Corporate Social Responsibility Policy which can be viewed on the website of the Company i.e. www.iifl.com. The initiatives of India Infoline Foundation for Inclusive Growth can be viewed on the website of the Company i.e. www.iifl.com.

8. What percentage of your under mentioned employees were given safety & skill up-gradation training in the last year?

- (a) Permanent Employees
- (b) Permanent Women Employees
- (c) Casual/Temporary/Contractual Employees
- (d) Employees with Disabilities

Safety at Work place is looked at in a multidimensional approach at IIFL. Following elements fall under the purview of employee safety:

1. Fire and Safety Training

Fire and Safety trainings are provided by qualified Security inspectors at our Zonal, regional and area offices, and awareness drive is also undertaken at our branches regularly.

2. Information Security Awareness

Information security awareness and training is regularly undertaken to ensure that there is no data theft or leakage or malicious content which may disrupt the functioning of the organisation.

3. Prevention against Sexual Harassment at Work place

Apart from the presence of a Prevention of Sexual Harassment Committee, e-learning courses are also deployed to every employee in the organisation, under the set of mandatory courses for completion.

Business Responsibility Report (Contd.)

4. Health and Insurance Safety

- a. Regular blood donation and other health camps are organised through HR and CSR teams to spread the word of living a healthy life.
- b. Often health checkup camps and yoga sessions are conducted to ensure mental and physical well being of employees, irrespective of gender.

5. Safety against indulging in Insider trading activities

The Company has laid down clear policies on Insider trading norms and every employee undertakes a commitment towards not engaging in acts which fall under the purview of insider trading norms. We also have digital learning content which clearly explain the expectations from management w.r.t. compliance of insider trading rules and norms.

6. Work Process Adherence and Safety

- a. Through sensitising employees on 'Gifts Policy' through an online medium, organisation ensures that employees are adequately informed and trained on nuances with regard to acceptance of gifts from third party Associates/ Consultants/ Customers/ Vendors.
- b. Through our e-learning module on 'Anti-Bribery & Corruption', awareness among employees is developed on various organisational policies on bribery and corruption, clearly demarcating the do's and don'ts of business

7. Women Empowerment Sessions

- a. Through 'Women Orientation' programs, we have addressed personal grievances of women specific employees at specific regions in the country.
- b. 'Take Charge' was an initiative taken specifically for women employees to help them understand the nuances of managing work and home, and ensure being successful at both.

Apart from the above areas, skill development is looked at from various angles, which include orientation of any new employee, providing the required technical and functional skill exposure, team management and leadership skills etc. through On The Job training sessions, video based modules, e-learning's, classroom sessions etc. For identified High Potential employees, we have established tie-up with management institutes like IIMs to provide a unique learning experience. Confirmation and evaluation panels are also setup to ensure that employees are adequately skilled before they are being considered for their job roles or job elevations

Independent Auditor's Report

TO THE MEMBERS OF IIFL HOLDINGS LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **IIFL HOLDINGS LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2006, as amended ("Accounting Standards"), and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk

assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Accounting Standards and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit and its cash flows for the year ended on that date.

Other Matters

The standalone financial statements of the Company for the year ended March 31, 2017, were audited by M/s. Sharp and Tannan Associates, the predecessor auditor, who expressed an unmodified opinion on those standalone financial statements on May 4, 2017.

Our opinion on the standalone financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of this matter.

Report on other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, based on our audit we report, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards prescribed under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.

Independent Auditor's Report (Contd.)

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **"Annexure A"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in **"Annexure B"** a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" To The Independent Auditor's Report (Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **IIFL HOLDINGS LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

ANNEXURE "A" To The Independent Auditor's Report (Contd.)**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and

such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Standalone Financial Statements of IIFL Holdings Limited

Notes forming part of Standalone Financial Statement for the year ended March 31, 2018

NOTE 1. CORPORATE INFORMATION:

IIFL Holdings Limited was incorporated on October 18, 1995 and is engaged in Merchant Banking and Investment Advisory services besides holding investments in subsidiaries. The Group's business consists of finance, financial services, capital market services, distribution of financial products and wealth management services which are carried out by separate subsidiaries of IIFL Holdings Limited.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES:

2.1 Basis of accounting and preparation of financial statements:

The financial statements of the Company have been prepared under the historical cost convention on accrual basis of accounting and in accordance with the Generally Accepted Accounting Principles in India (IGAAP) to comply with the Accounting Standards specified under section 133 of the Companies Act 2013 and the relevant provisions of the Companies Act 2013. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2.2 Use of Estimates:

The preparation of financial statements in conformity with IGAAP requires the management to make estimates and assumptions considered in the reported amount of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the period in which the results are known /materialise.

2.3 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.4 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows

from operating, investing and financing activities of the Company are segregated based on the available information.

2.5 Fixed Assets, Depreciation and Amortisation:

Fixed assets are stated at cost of acquisition less accumulated depreciation and impairment loss, if any, thereon. Depreciation is charged using the straight line method based on the useful life of fixed assets as estimated by the management as specified below. Depreciation is charged from the month in which new assets are put to use. No depreciation is charged for the month in which assets are sold. In the case of transfer of used fixed assets from group Companies, depreciation is charged over the remaining useful life of the assets. Individual assets / group of similar assets costing up to ₹ 5,000 has been depreciated in full in the year of purchase.

Estimated useful life of the assets is as under:

Class of assets	Useful life in Years
Buildings*	20
Computers*	3
Office Equipment	5
Electrical Equipment *	5
Furniture and Fixtures*	5
Vehicles*	5
Software	3

* For these class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Capital work-in-progress:

Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

2.6 Foreign currency transaction and translation

Initial recognition:

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the balance sheet:

Foreign currency monetary items (other than derivative contracts) of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

Standalone Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Standalone Financial Statement for the year ended March 31, 2018

All other assets and liabilities of are translated at the year-end rates.

2.7 Revenue Recognition:

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

- (a) Income related to advisory activities, Investment banking, Merchant banking is accounted on accrual basis.
- (b) Dividend income is recognised when the right to receive payment is established.
- (c) Capital Gain/Loss on sale of Investments is recognised on the date of trade.
- (d) Interest Income is recognised on accrual basis.

2.8 Employee Benefits:

Defined contribution plans

The Company's contribution towards Provident Fund and Family Pension Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are

expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) In case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) In case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

2.9 Deferred Employee Stock Compensation:

The stock options granted by the Company are accounted for as per the accounting treatment prescribed by SEBI (Employee Stock Option Scheme and Employee Stock Purchase) Guideline, 1999/ SEBI (Share Based Employee Benefits) Regulations, 2014 and the guidance note on Accounting for Stock Options issued by The Institute of Chartered Accountant of India, whereby the intrinsic value of the options are recognised as deferred employee compensation.

2.10 Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the notes. Contingent assets are not recognised in the financial statements.

2.11 Taxes on Income:

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. Provision for current tax is computed based

Standalone Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Standalone Financial Statement for the year ended March 31, 2018

on estimated tax liability computed after adjusting for allowance, disallowance and exemptions in accordance with the applicable tax laws.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

Current and deferred tax relating to items directly recognised in reserves are recognised in reserves and not in the Statement of Profit and Loss.

2.12 Operating Leases:

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Initial direct cost incurred specifically for operating leases are recognised as expense in the Statement of Profit and Loss in the year in which they are incurred.

2.13 Investments:

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

2.14 Earnings Per Share:

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

2.15 Borrowings:

Borrowings are bifurcated under long term and short term liabilities. Commercial papers are recognised at Face value at the time of its issue. Any difference between the proceeds and the redemption value is recognised in profit & loss account over the period of the borrowings.

2.16 Impairment of assets

The carrying amount of the assets at each Balance Sheet date is reviewed for impairment. If any indication of impairment based on internal / external factors exists, the recoverable amount of such assets is estimated and impairment is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and its value in use, which is arrived at by discounting the future cash flows to their present value, based on an appropriate discounting factor. If at the Balance Sheet date, there is an indication that previously recognised impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of

the depreciable historical cost and reversal of such impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

2.17 Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.18 Segment reporting

The Company's primary business segments are reflected based on the principal business carried out, i.e. merchant banking. All other activities of the Company revolve around the main business. The risk and returns of the business of the Company is not associated with geographical segmentation, hence there is no secondary segment reporting based on geographical segment. As such, there are no separate reportable segments as per the Accounting Standard 17 on 'Segment Reporting'.

Description of method and significant assumption used to estimate the fair value of Options	The fair value of the Options granted has been estimated using the Black-Scholes option pricing Model. Each tranche of vesting have been considered as a separate grant for the purpose of valuation. The assumptions used in the estimation of the same have been detailed below:	

d) Variables

Weighted average values for grant made during the year

Particulars	ESOP 2008	
	2017-18*	2016-17
Stock price (₹)	479.75	-
Volatility	43.98%	-
Risk-free Rate	6.94%	-
Exercise price (₹)	480.00	-
Time to Maturity (Years)	5	-
Dividend yield	1.99%	-
Weight Average Option Fair Value (₹)	197.23	-

* The aforesaid variables are based on grant dated April 29, 2017 before considering effect of demerger of 5paisa digital undertaking from IIFL Holdings Limited in terms of Scheme of Arrangement approved by NCLT vide its order dated September 06, 2017. Post demerger, the revised exercise price got reduced by 2.36% to ₹ 468.67 and fair value of option stand revised to ₹ 201.65, as approved by Nomination and Remuneration Committee of the Board of Directors of the Company.

Stock Price: The closing market price on NSE one day prior to the date of grant has been considered for the purpose of Option valuation.

Volatility: The daily volatility of the stock prices on BSE, over a period prior to the date of grant, corresponding with the expected life of the Options has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise Price: Price of each specific grant has been considered.

Standalone Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Standalone Financial Statement for the year ended March 31, 2018

Time to Maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share

NOTE 29. In the opinion of the management, there is only one reportable business segment as envisaged by AS 17 'Segment Reporting'. Accordingly, no separate disclosure for segment reporting is required to be made in the financial statements of the Company.

Independent Auditor's Report

TO THE MEMBERS OF IIFL HOLDINGS LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **IIFL HOLDINGS LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and jointly controlled entity, comprising of the Consolidated Balance Sheet as at 31 March 2018, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Jointly controlled entity in accordance with the Accounting Standards prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules, 2006, as amended ("Accounting Standards"), and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group and of its jointly controlled entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its jointly controlled entity and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the

consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and other auditors in terms of their reports referred to in sub-paragraphs (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to in the Other Matters paragraph below, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Accounting Standards and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2018, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matters

(a) We did not audit the financial statements of twenty one subsidiaries, whose financial statements reflect total assets of ₹ 38,356.38 million as at 31 March 2018, total revenues of ₹ 11,299.12 million and net cash inflows amounting to ₹ 2,536.58 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Eleven subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion

Independent Auditor's Report (Contd.)

adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the Management of the Company and audited by us.

- (b) We did not audit the financial statements of the jointly controlled entity whose financial statements reflect total assets of ₹ 376.28 million as at 31st March 2018, total revenues of ₹ 135.74 million and cash inflows amounting to ₹ 1.51 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this jointly controlled entity, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.
- (c) The consolidated financial statements of the Company for the year ended 31 March 2017, were audited by M/s. Sharp and Tannan Associates, the predecessor auditor, who expressed an unmodified opinion on those consolidated financial statements on 4 May 2017.

Our opinion on the consolidated financial statements above and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors, the financial statements certified by the Management and the report of the predecessor auditor.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditors on separate financial statements of the subsidiaries, referred to in the Other Matters paragraph above, we report to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2018 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A", which is based on the auditors' reports of the Holding company and the subsidiary companies incorporated in India to whom internal financial controls over financial reporting is applicable. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial controls over financial reporting of those companies, for the reasons stated therein.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and jointly controlled entity.
 - Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies and jointly controlled entity incorporated in India.

ANNEXURE “A” To The Independent Auditor’s Report (Referred to in paragraph (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of **IIFL Holdings Limited** (hereinafter referred to as “the Holding Company”) and its subsidiary companies and jointly controlled company which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company its subsidiary companies and jointly controlled company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company, its subsidiary companies and its jointly controlled company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

ANNEXURE "A" To The Independent Auditor's Report (Contd.)**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the criteria for internal financial control over financial reporting established by the respective

companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to eleven subsidiary companies, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matter.

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

NOTE 1. CORPORATE INFORMATION:

IIFL Holdings Limited was incorporated on October 18, 1995 and is engaged in Merchant Banking and Investment Advisory services besides holding investments in subsidiaries. The Group business consist of finance, financial services, capital market services, distribution of financial products and wealth management services which are carried out by separate subsidiaries of IIFL Holdings Limited.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES:

2.1 Basis of Consolidation:

a) Basis of accounting and preparation of financial statements:

The Consolidated Financial Statements of IIFL Holdings Limited ('the Company') and its subsidiaries and joint ventures ('companies and / or subsidiaries/ joint ventures'), collectively referred to as 'Group' have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis of accounting. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year by the Group.

b) Principles of Consolidation:

The consolidated financial statements relate to IIFL Holdings Limited (the 'Company'), its subsidiary companies, jointly controlled entities and the Group's share of profit / loss in its associates. The consolidated financial statements have been prepared on the following basis:

- i. The Company's investments in equity shares of associates are accounted for under the equity method and its share of pre-acquisition profits/losses is reflected as goodwill/capital reserve in the carrying value of investments in accordance with the Accounting Standard 23 on 'Accounting for Investments in Associates in Consolidated Financial Statements' (AS 23).
- ii. Share of profit / loss, assets and liabilities in the jointly controlled entities, which are not subsidiaries, have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, incomes and expenses on a proportionate basis to the extent of the Group's equity

interest in such entity as per AS 27 Financial Reporting of Interests in Joint Ventures. The intra-group balances, intra-group transactions and unrealised profits or losses have been eliminated to the extent of the Group's share in the entity.

- iii. The financial statements of the subsidiary companies, the associates and the joint ventures used in the consolidation are drawn up to the same reporting date as that of the Company, i.e. March 31, 2018.
- iv. The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealised profits or losses, unless cost cannot be recovered.
- v. The excess of cost to the Company of its investments in the subsidiary companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies are made, is recognised as 'Goodwill' being an asset in the consolidated financial statements. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investment of the Company, it is recognised as 'Capital Reserve' and shown under the head 'Reserves and Surplus', in the consolidated financial statements.
- vi. Minority Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit / loss for the year of the subsidiaries attributable to minority interest is identified and adjusted against the profit after tax of the Group in order to arrive at the income attributable to shareholders of the Company.
- vii. In case of foreign subsidiaries, being non-integral operations, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

are converted at the rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in the Foreign Currency Translation Reserve.

- c) The list of subsidiaries, associates and joint venture that have been consolidated are given in Note 31.

2.2 Use of Estimates:

The preparation of financial statements, in conformity with Indian GAAP requires the management to make estimates and assumptions that affect in the reported amount of assets, liabilities (including contingent liabilities), income and expenses reported in the financial statements. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Future results could differ from these estimates and the differences between the actual results and the estimates are recognised in the period in which the results are known / materialise.

2.3 Cash and Cash Equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.4 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

2.5 Fixed Assets, Depreciation and Amortisation:

Fixed assets are stated at cost of acquisition less accumulated depreciation and impairment loss, if any thereon. Depreciation is charged using the straight line method, based on the useful life of fixed assets as estimated by the management, as specified below. Depreciation is charged from the month in which new assets are put to use. No depreciation is charged for the month in which assets are sold. In the case of transfer of used fixed assets from group companies, depreciation is charged over the remaining useful life of the assets.

Individual assets / group of similar assets costing up to ₹ 5,000 have been depreciated in full in the year of purchase. Leasehold land is depreciated on a straight line basis over the leasehold period.

Estimated useful life of the assets is as under:

Class of assets	Useful life in years
Buildings *	20 years
Computers *	3 years
Non-Compete Fees	5 years
Electrical Equipment *	5 years
Office Equipment	5 years
Furniture and Fixtures *#	5 years/10 years
Vehicles *	5 years/8 years
Software	3 years
Servers and networks	6 years

* For these class of assets, based on internal assessment and independent technical evaluation carried out by external valuers, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Furniture and fixtures includes leasehold improvements which is depreciated on a straight line basis over the period of lease.

Capital work-in-progress

Projects under which tangible fixed assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest.

2.6 Translation of foreign currency items :

Initial recognition

Transactions in foreign currencies entered into by the Group are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the balance sheet

Foreign currency monetary items (other than derivative contracts) of the Group, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Group are carried at historical cost.

2.7 Revenue Recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised.

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

- a. Brokerage income earned on secondary market operations is accounted on trade date basis.
- b. Income related with advisory activities, Investment banking, Merchant banking and Income in respect of other heads is accounted on accrual basis.
- c. Income from arbitrage comprises profit/loss on sale of securities held as stock-in-trade and profit / loss on such instruments is accounted as follows:

Initial and additional margin paid over and above initial margin for entering into contracts for Commodity Futures which are released on final settlement/squaring-up of underlying contract are disclosed under "other current assets". Mark-to-market margin- Commodity Futures representing the amounts paid in respect of mark to market margin is also disclosed under "other current assets". On final settlement or squaring up of contract for Commodity Futures, the realised profit or loss after adjusting the unrealised loss already accounted, if any, is recognised in the Statement of Profit and Loss. As at the Balance Sheet date, the Mark to Market / Unrealised Profit / (Loss) on all outstanding arbitrage portfolio comprising of Commodity Futures positions is determined on Commodity basis.
- d. Interest income is recognised on accrual basis in the Statement of Profit and Loss, except in the case of non-performing assets (NPAs), where it is recognised in accordance with the RBI/NHB guidelines upon realisation. Interest income on investments is accounted on accrual basis.
- e. Dividend on equity shares, preference shares and on mutual fund units is recognised as income when the right to receive the dividend is established.
- f. Processing fees and charges are recognised as and when they become due and revenue can be reliably measured and reasonable right of recovery is established.

Investment/Fund Management Fees are accounted on accrual basis as follows:

In case of percentage based fees, in accordance with the Portfolio Management Agreement entered with the respective clients, on a quarterly basis.

Distribution fee / Arranger Fee / commission income is recognised on accrual basis in accordance with the terms agreed with the counter party.
- g. Manpower services/ Advisory/ Trustee fees are accounted on accrual basis.
- g. Profit / loss on sale of investment are recognised on trade date basis. Profit / loss on sale of investments are determined after consideration of cost on weighted average basis.
- h. **Securitisation transactions**
In accordance with the regulatory guidelines, gain arising on securitisation is amortised over the life of the securities issued by the Special Purpose Vehicle ("SPV"). Loss, if any, is recognised upfront in the Statement of Profit and Loss.
- i. **Assignment transactions**
In accordance with the regulatory guidelines, gain arising on assignment is amortised over the residual life of the loan. Loss, if any, is recognised upfront in the Statement of Profit and Loss.
- j. **In case of real estate broking business:**
Group recognises revenue from real estate projects, undertaken as builder/developer, under development/construction as per Guidance Note on Accounting for Real Estate Transactions issued by the Institute of Chartered Accountants of India.

Revenue is recognised in relation to the real estate units sold to the extent it is probable that the economic benefits will flow to the Group demonstrated either by way of an Agreement for Sale or when receipt of advance from the buyer is adequate enough to demonstrate a commitment to pay. Revenue recognised is net of adjustment on account of cancellation.

In accordance with the Guidance Note on Recognition of Revenue by Real Estate Developers issued by Institute of Chartered Accountants of India the revenue from sale of real estate units is recognised on the "percentage of completion method". Percentage of completion is determined on the basis of the ratio of actual project cost (excluding cost of land) incurred to total estimated project cost. Where the total project cost based on technical and other estimates is expected to exceed the corresponding project revenue, such expected loss is provided for. Revenue from sale of finished goods (completed property for sale) is recognised when significant risks and rewards of ownership of units in real estate have passed to the buyer.
- k. **In case of insurance broking business:**
Commission income on first year premium on insurance policies is recognised, when an insurance policy sold by the Company is

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

accepted by the principal insurance company.
Renewal commission on policies is accounted for on receipt basis.

2.8 Employee Benefits:

Defined contribution plans

The Group entities contribution towards Provident Fund and Family Pension Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) In case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) In case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

2.9 Deferred Employee Stock Compensation:

The stock options granted by the Group entities are accounted for as per the accounting treatment prescribed by SEBI (Employee Stock Option Scheme and Employee Stock Purchase) Guideline, 1999/ SEBI (Share Based Employee Benefits) Regulations, 2014 and the guidance note on Accounting for Stock Options issued by The Institute of Chartered Accountant of India, whereby the intrinsic value of the options are recognised as deferred employee compensation. The deferred employee compensation, if any, is charged to the Statement of Profit and Loss on a straight line basis over vesting period of the options.

2.10 Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

2.11 Taxes on Income:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there is unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Group has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their reliability.

Current and deferred tax relating to items directly recognised in reserves is recognised in reserves and not in the Statement of Profit and Loss.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Group will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is highly probable that future economic benefit associated with it will flow to the Group.

2.12 Operating Leases:

Lease rentals in respect of operating lease arrangements are charged to the Statement of Profit and Loss in accordance with Accounting Standard 19 on 'Leases'.

2.13 Investments:

Investments intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are stated at lower of cost and market/fair value. Long-term investments (excluding investment properties) are carried at cost. Provision for diminution, other than temporary, is made to recognise a decline in the value of the investments.

An investment in buildings, which is not intended to be occupied substantially for use by, or in the operations of, the Group, is classified as investment property. Investment properties are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

2.14 Inventories:

Closing stock is valued at cost or market value whichever is lower. Cost is computed on FIFO basis. The comparison of cost and market value for arbitrage portfolio is done separately for each script.

2.15 Earnings Per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares

outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented.

2.16 Impairment of assets

The carrying amount of the assets at each Balance Sheet date is reviewed for impairment. If any indication of impairment based on internal / external factors exists, the recoverable amount of such assets is estimated and impairment is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and its value in use, which is arrived at by discounting the future cash flows to their present value, based on an appropriate discounting factor. If at the Balance Sheet date, there is an indication that previously recognised impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of the depreciable historical cost and reversal of such impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

2.17 Debenture Issue Expenses:

Debenture issue expenses including ancillary and other acquisition cost incurred on non-convertible debentures are amortised over the tenure of the underlying debenture.

2.18 Provisions and write-offs on loans and other credit facilities

Non-performing loans are written off / provided for, as per management estimates, subject to the minimum provision required by the RBI/NHB Directions. Delinquencies on assets securitised / assigned are provided for based on management estimates. Provision on standard assets is as per the RBI/NHB Directions.

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

2.19 Derivative transactions

Mark to Market (MTM) valuation of the embedded derivative portion of borrowings by way of Market Linked Bonds and outstanding position in Market linked derivatives are recorded in accordance with principles enunciated in Accounting Standard 30 'Financial Instruments: Recognition and Measurement' and Guidance Note on Accounting for Derivative Contracts issued by the Institute of Chartered Accountants of India. MTM valuation is determined based on quotes available from exchange / counter party / rating agency. The Group enters into derivative contracts in the nature of foreign currency swaps with an intention to hedge its existing liabilities in foreign currency. Derivative contracts are marked-to-market and gains / losses are recognised in the Statement of Profit and Loss in accordance with Guidance Note on Accounting for Derivative Contracts issued by the Institute of Chartered Accountants of India.

2.20 Segment Reporting

The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

Revenue, expenses, assets and liabilities which relate

to the Group as a whole and are not allocable to segments on reasonable basis have been included under 'unallocated revenue / expenses / assets / liabilities'.

2.21 Operating Cycle

Based on the nature of products / activities of the Group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as twelve months for the purpose of classification of its assets and liabilities as current and non-current.

2.22 Assignment of loan portfolio:

De-recognition of loans assigned, in the books of the subsidiary company, is based on the concept of surrender of control over the loans resulting in a "true sale" of loans. Future interest spread receivables in case of a par structure deals are recognised over the tenure of agreements as per guidelines issued by the RBI. Expenditure in respect of direct assignment is recognised upfront. Credit enhancement in the form of cash collateral provided by the subsidiary company is included under Cash and bank balance / Loans and advances, as applicable.

16.2 The India Infoline Finance Limited during the year has acquired an existing capital advance portfolio from M/S IIFL Management Services Limited (IIFLMSL), a fellow subsidiary of the India Infoline Finance Limited. IIFLMSL has been underwriting affordable residential units with recognised developers in past, but IIFLMSL is now in the process of winding down the broking business and is finding it challenging to manage this book. The Company, being in the business of financing and having contact with the developers, is in a better position to manage this book and has therefore acquired the portfolio from IIFLMSL, which shall be repaid by the developers through their cash flows or sales at regular rests with a fixed rate of return. The Company is in the process of obtaining requisite no objection certificates / agreements from the respective developers/ builders for transferring said allotments letters in its name.

16.3 Prepaid expenses includes funded gratuity amounting to ₹ 1.00 millions (P.Y. ₹ Nil). Also refer note 24.1

2) Amount paid under protest with respect to service tax demand ₹ 2.19 millions.

3) Amount paid under protest with respect to profession tax demand ₹ 0.47 millions.

(b) Apart from the above, group is subject to legal proceedings and claims which have arisen in the ordinary course of the business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have material and adverse effect on the Group's financial position.

(c) One of the step down subsidiary IIFL Commodities Limited (Formerly known as India Infoline Commodities Limited") ("IICL") was a member of National Spot Exchange Limited (NSEL). NSEL had defaulted in its settlement obligations to investors including pay-out of ₹ 2,816.6 millions to IICL's Clients who traded on the Exchange Platform till July 2013. The matter has been under investigation by EOW, ED, SEBI, SFIO as well as other investigating authorities/Courts and is currently pending. IICL and its officials have been fully cooperating in the investigations and submitting all the required informations and clarifications to the authorities. IICL acted as a broker for the investors on NSEL and facilitated execution of the orders of the investors through exchange system as a registered broker as per the Bye-Laws, Rules and circulars of NSEL. As per the Bye-laws and Rules of NSEL, NSEL was the counter party for the trades and it guaranteed settlement of the trades i.e. funds and commodities of the clients. The same was also confirmed by erstwhile commodities regulator Forward Markets Commission vide its order dated December 17, 2013.

Further, the Settlement of outstanding funds payout by NSEL to the clients is still pending with various courts, Government and regulatory authorities. The Bombay High Court, constituted a Committee for verifying the claims of the investors and the process for the settlement of their claim is yet to be concluded. The Government of India, Ministry of Corporate Affairs, passed an order dated February 12, 2016, directing amalgamation of NSEL with its holding company i.e. 63 Moons Technologies Limited (Erstwhile Financial Technologies (India) Limited), in the larger interest of Public with a view to inter alia leverage the combines assets, capital and reserves and gainful settlements of rights and liabilities of shareholders and creditors. 63 Moons Technologies Limited preferred an appeal against the said order before the Bombay High Court and the same has been dismissed. 63 moons technologies has filed a special leave petition (SLP) in the Supreme Court challenging the High Court order directing merger of NSEL with FTIL and the same is pending.

Description of method and significant assumption used to estimate the fair value of Options	The fair value of the Options granted has been estimated using the Black-Scholes option pricing Model. Each tranche of vesting have been considered as a separate grant for the purpose of valuation. The assumptions used in the estimation of the same have been detailed below:	

d) Variables

Weighted average values for grant made during the year

Particulars	ESOP 2008	
	2017-18*	2016-17
Stock price (₹)	479.75	-
Volatility	43.98%	-
Risk-free Rate	6.94%	-
Exercise price (₹)	480.00	-
Time to Maturity (Years)	5	-
Dividend yield	1.99%	-
Weight Average Option Fair Value (₹)	197.23	-

* The aforesaid variables are based on grant dated April 29, 2017 before considering effect of demerger of 5paisa digital undertaking from IIFL Holdings Limited in terms of Scheme of Arrangement approved by NCLT vide its order dated September 06, 2017. Post demerger, the revised exercise price got reduced by 2.36% to ₹ 468.67 and fair value of option stand revised to ₹ 201.65, as approved by Nomination and Remuneration Committee of the Board of Directors of the Company.

Stock Price: The closing market price on NSE one day prior to the date of grant has been considered for the purpose of Option valuation.

Volatility: The daily volatility of the stock prices on BSE, over a period prior to the date of grant, corresponding with the expected life of the Options has been considered to calculate the fair value.

Risk-free rate of return: The risk-free rate being considered for the calculation is the India Government Bond Generic Bid Yield with a maturity about equal to the expected life of the options.

Exercise Price: Price of each specific grant has been considered.

Consolidated Financial Statements of IIFL Holdings Limited (Contd.)

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2018

Time to Maturity: Time to Maturity / Expected Life of Options is the period for which the Company expects the Options to be live. The minimum life of a stock option is the minimum period before which the Options cannot be exercised and the maximum life is the period after which the Options cannot be exercised.

Expected dividend yield: Expected dividend yield has been calculated as an average of dividend yields for the three financial years preceding the date of the grant. The dividend yield for the year is derived by dividing the dividend per share by the average price per share of the respective period.
