Rajvir Industries Limited | 9th Annual Report 2012-13

Forward-looking statement

In this Annual Report we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements – written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and the underlying assumptions undergoing change. Should known or unknown risks or uncertainties materialize, or should underlying assumptions not materialise, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Financial performance in 2012-13

Spinning the wheel of growth!

From the Chairman's desk:

The Indian textile industry contributes about 14 per cent to the industrial production, 4 per cent to the country's gross domestic product (GDP), and 17 per cent to the country's export earnings. The industry provides direct employment to over 35 million people and is the second largest provider of employment after agriculture.

The domestic consumption of MMF (Man Made Fiber) to grow at a CAGR of 5.8 per cent from 2,802 thousand tones in FY12 to 3,717 thousand tones in FY17. The share of MMF in the overall fibre consumption by the textile industry is expected to increase from 41 per cent in FY11 to 45 per cent in FY17. With this, the Indian textile industry (predominantly a cotton-based industry) would inch towards the global benchmark where the share of MMF is dominant at about 62 percent. Supply-side constraints and the huge price differential between the cotton and MMF prices will help the MMF industry grow its share in the overall fibre consumption pattern of the textile industry. Also, the inherent superior quality of polyester and viscose over the cotton is likely to have a positive impact on its demand, especially from the technical textiles and blended yarn segments.

The demand for blended yarn is to grow at a faster rate compared to cotton & 100 percent non-cotton yarn during the next five years. The demand for blended yarn is expected to grow at a CAGR of 12.4 percent over the period of FY12-FY17 whereas the cotton yarn and 100 percent non cotton yarn demand is expected to grow at a CAGR below 10 per cent. The demand of yarn would come from both domestic as well as the international markets. The domestic demand comprises yarn used to make apparels and home textiles which are consumed domestically and exported. The demand would also be driven by the rising yarn exports.

The Indian textile industry is set for strong growth, buoyed by both rising domestic consumption as well as export demand.

SWOT Analysis

Strengths:

- Indian textile industry is an independent and self-reliant industry.
- Abundant raw material availability helps industry to control costs and reduces the lead-time across the operation. It accounts for about 22 percent of the global cotton production.
- Availability of large varieties of cotton fibre and a fast growing synthetic fibre industry.
- India has a huge growing domestic market and new products are gaining acceptance.
- Indian textile industry has a presence throughout the value chain.
- India exports 25 percent of its cotton yarn production.
- Industry has manufacturing flexibility that helps to increase the productivity.
- More and more buyers have come to trust India as a competent manufacturing country.
- India's textile industry is seeing an increase in collaboration between national and international companies.
- Appreciation of rupee against the Dollar.

Weaknesses:

- The Indian textile industry is a highly fragmented industry with a huge informal sector.
- Infrastructural bottlenecks leading to a loss in transportation and transaction time.
- Old and inflexible labour laws.
- High incidence of power tariffs, indirect taxes and interest rates.

Opportunities:

- Robust retail boom in domestic market owing to favourable consumer demographics and increasing consumption coupled with rising disposable incomes.
- Growth rate of the domestic textile industry is a significant 6-8 percent per annum.
- Elimination of quota restriction leads to greater market developments.
- Large and potential domestic and international market still waiting to be tapped.
- Availability of greater investment and FDI opportunities.
- Emerging retail industry and malls provide significant opportunities for the apparel, handicraft and other segments of the industry as the market is gradually shifting towards branded readymade garments.

Threats:

- The downtrend in the textile industry may hamper the company's prospects. The tough times induced the Company to frame the following strategies :
- Aggressive marketing strategies backed by participation in all domestic & international fairs & exhibitions.
- Drew up market requirement plan to minimize inventory losses.
- Drew up plans to target countries with an appetite for niche products and with a potential to generate superior realizations.
- Strengthened research to produce innovative designs, leading to higher realizations.
- Deepened penetration in North India, enhancing national and regional market shares.

Participated in various international exhibitions in promoting its value-added yarn varieties like –

- Yarn Expo – Beijing
- Yarn Expo – Shanghai
- Texworld Paris – France
- Texworld – USA
- Indian Textile Exhibition – Cairo, Egypt
- Mega Indian Textile and Clothing Exhibition – Brazil and Argentina
- Indian Textile Exhibition – Czech Republic & Poland for Textiles
- 'MADE IN INDIA' – Dubai
- CEMS – Bangladesh
- TITAS – Taiwan
- Cambodia International Textile Apparel Exhibition

Financial Risk

A high cost of debt could compel a deferment of expansion plans and adversely impact the profitability of the company.

Marketing risk

Ineffective marketing could dent the market share.

To address slowing demand, the company embarked on the following marketing initiatives:

- The Company deepened its domestic market presence, fetching 5-7% higher realizations than exports and enhanced its market share by 10%.
- The Company evolved its product mix as per the prevailing demand and targeted eight new geographies to diversify its global presence.

Market Size

The Indian textile industry is set for strong growth, buoyed by both rising domestic consumption as well as export demand. Abundant availability of raw materials such as cotton, wool, silk, jute and skilled workforce have made India a sourcing hub. Textile machinery sector at present meets 45-50 per cent of the overall demand of the domestic textile industry whose main constituent is ginning, spinning, weaving and processing, a report stated. The textile industry currently contributes about 14 per cent to industrial production, 4 per cent to GDP, and 17 per cent to the country's export earnings.

Favourable market trend

"The domestic textile and apparel market in India is worth \$58 billion and has the potential to grow at a CAG of 9 per cent, to reach \$141 billion by 2021," the white paper on 'Challenges in Textile and Apparel Industry' said.

Overall, India's textile and apparel exports were at \$31 billion in 2011 and are growing at an annual rate of 10 per cent since 2005. Apparel exports contribute the most to the overall exports in terms of value, followed by contributions from fibre, yarn and fabrics.

However, fibre exports have the highest CAGR with substantial growth in recent years.

India's share of the world's textile and apparel exports stands at 4.5 per cent. It is estimated that due to the increasing shift of textile and apparel production to Asian nations and the deteriorating export-competitiveness of China, this figure will grow to 8 per cent by 2020, with a total exports value of \$82 billion.

This growth, from 4.5 per cent to 8 per cent of world trade, will open up huge potential for Indian players, the report said.

"The recession in textile industry seems to be over. Investment in weaving and processing segments is required to strengthen value chain and bankers commitment level to serve the client," Ministry of Textiles, Deputy Director S P Verma said at a FICCI organised annual conference on textile and apparels TAG 2012 here.

With this positive outlook in the market, Rajvir industries have already made strategies to expose the company towards growth and development. The company is hopeful for a brighter foreseeable future and is gearing up to take full advantage of the changing market scenario.

Investments

The textiles sector has witnessed a spurt in investment during the last five years. The industry (including dyed and printed) attracted foreign direct investments (FDI) worth ₹5,674.45 crores (US\$ 1.04 billion) during April 2000 to February 2013.

Some of the major investments in Indian textile industry are:

- Swedish retailer Rusta plans to import Indian textiles and handicraft worth ₹200 crores (US\$ 36.53 million) annually over 3-4 years.
- India plans to set up a textile training institute in Kaduna state, Nigeria, as per Dr. Milan Sharma, Head, Africa Initiatives and Industry Research of IL&FS Cluster Development Initiative Ltd.
- British clothing brand Superdry plans to open 20 stores in India over the next five years, as per Mr. James Holder, Founder, Superdry.
- American apparel-maker, Tommy Hilfiger plans to add 500 stores in India over the next five years as part of their expansion spree. Currently, Tommy Hilfiger operates 58 franchisee outlets and over 60 shop-in-shops in other department stores.

Government Initiatives

The Government of India has promoted a number of export promotion policies for the textile sector. It has also allowed 100 per cent foreign direct investment (FDI) in the Indian textile sector through automatic route.

According to the Union Budget 2013-14:

- Technology Upgradation Fund Scheme (TUFS) to continue in 12th Plan with an investment target of ₹151,000 crores (US\$ 27.58 billion).
- ₹50 crores (US\$ 9.13 million) were allocated to Ministry of Textile to incentivize setting up apparel parks within the Scheme for Integrated Textile Parks (SITP) to house apparel manufacturing units.

- A new scheme called the Integrated Processing Development Scheme will be implemented in the 12th Plan to address the environmental concerns of the textile industry.

- Working capital and term loans at a concessional interest of 6 per cent to handloom sector.

- Scheme of Fund for Regeneration of Traditional Industries (SFURTI) extended to 800 clusters during the 12th Plan.

Road Ahead

For the textile industry, the proposed hike in FDI limit in multi-brand retail will bring in more players, thereby providing more options to consumers. It will also bring in greater investments along the entire value chain – from agricultural production to final manufactured goods.

With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade with several international players like Marks & Spencer, Guess and Next having entered the Indian market. The organized apparel segment is expected to grow at a compound annual growth rate (CAGR) of more than 13 per cent over a 10-year period.

Company capacities

Rajvir industry's unhindered bulk production capacity is a pride of the company. The company's state-of-the-art production capacity is massive. With a dedicated vision towards growth, the company keeps adding to its capacity every year making it bigger, introducing newer products and widening its area of function. The company with sheer focus on evolution and technical upliftment, installs new machinery and machinery improvements in Slub Motion Machinery LRSB draw flame Additions/improvements in Effluent Treatment Plants Created spindle conversion and additions in plant infrastructure.

Management Discussion & Analysis

Industry Structure and Developments

One of the leading industries in the world is the Indian Textile Industry. Though the sector is unorganized, the economic liberalization of the Indian economy in 1991, provided a way that led to the success of the domestic Industry. Textile manufacturing and exports are the growth drivers of the Textile industry in India. Through Textile exports, the foreign exchange contributes around 27%, for which the GDP gains about 3%. The industry not only generates jobs in its own, but it also helps to develop other ancillary sectors. Cotton Textiles, Silk Textiles, Woolen Textiles, Readymade Garments, Hand-crafted Textiles, Jute & Coir are some major segments of Indian Textile Industry.

Opportunities and Threats

Strength:

- Rajvir has a strong R&D team for developing new products required in the fashion world
- Highly dedicated workforce, technical team and senior executives working hard for the development of the company
- The capacity to translate any idea into reality in product development
- Wide range of collections in all the blends allowing customers to have a wide range of choice in product selection

Weakness:

- Geographical location leading to delay in transportation

Opportunities:

- Abundant opportunities for the high value-added innovative new products in the market
- Close access with all leading and established global garment buyers and leading chain stores / brands, where even the garment exporters have little access

Threat:

- Indian Rupee weak against the US Dollar
- Political instability in other countries where we have our markets (Egypt, Turkey, Bangladesh)
- Increasing raw material cost against lower demand in the market

Productwise Performance

While launching any new product, your company also keeps in mind that it is to position them in the market for the long run and provides all required services to the customers to make the product a success. Frequent market visits, close interaction, providing all feedbacks about the product etc., makes it possible for Company to sustain the products launched in the markets.

Your company has been constantly making the presentation of its product range not only to the Garment Buying houses and Garment exporters across the world, but also to the Direct Buyers of leading brands in the organised meetings arranged by the Buying houses. The feedback and the remark of such Direct Buyers are quite overwhelming and give lot of encouragement to the Company to further accelerate the development of its new products and add more number of products to its Product catalogue.

There is a vast demand for the fiber-dyed mélange's new varieties in the market and the Company develops many new qualities in this range. But at the same time, it also develops such products in Raw white version for its customer, which is cost effective, easy to use with quick and fast deliveries.

Outlook

The growth and development of the Textile Industry has a major impact on improvement of the economy of the nation evidenced by 14 percent of total industrial production and 17 percent of the country's export earnings. A potential increase around 3.5 percent is also

noticed in world trade and is expected to increase to US\$ billion by 2020 as 100% Foreign Direct Investment is allowed through Automatic Route. In fact, the Textile sector attracted Foreign direct investment worth of US\$ 1.04 billion during the period the April to November 2012.

Your company also received an award from **Marks & Spencer** for EXPORTING GOOD VOLUMES of BCI YARNS (better cotton initiative) to Bangladesh and the Turkey market. It is mainly concentrating on exporting yarns to focused countries announced by the Government of India and the R&D department of the company is continuously working towards developing new fashion yarns with the feedback of leading retailers/buying house like **GAP, NEXT, Kohl's, Tommy Jeans, American Eagle, Sainsbury, Tesco, George, Zara, Bershka, American Eagle, J.C. Penney, Polo Ralph Lauren, Abercrombie & Fitch, J. Jill, C.K. Jeans, Primark, Matalan, H & M.** To understand the consumer needs more, the company is also participating in almost all the trade fairs related to textiles in the world to have a global presence and understanding.

Internal Control System

The company has adequate internal control systems/procedures. An independent Chartered Accountant has been appointed by the Management to carry out the Internal Audit work. The Internal controls are periodically checked by the Internal Auditors who have access to all relevant records and information of the company. The Board and Management take corrective measures, wherever necessary, based on the recommendations made by Internal Auditors.

Discussion on Financial Performance with respect to Operational Performance

Your company is concentrating on export earnings and accordingly ₹71.09 crores received as export earnings during the year 2011-2012. There was a slight increase around 5% i.e. 76.92 cores in the financial Year 2012-2013. Simultaneously ₹85 crores are targeted for the Financial 2013-2014 and even by July 2013, your company achieved ₹28 crores. Your Company is also proud to announce that so far the company has made exports to more than 42 countries in the world and is planning to enter other focused countries in the near future.

Material Developments in Environment and Human Resources / Industrial Relations

Your company takes utmost care to prevent and avoid Environment Pollution. We would like to place on record our appreciation for the efforts made by the company and the keen interest taken by the employees of your Company in this regard.

Auditors Certificate on compliance of Corporate Governance

To
The Shareholders of
RAJVIR INDUSTRIES LIMITED

We have examined the compliance of conditions of Corporate Governance by **M/s RAJVIR INDUSTRIES LIMITED**, for the year ended 31st March, 2013 as stipulated in clause 49 of the Listing Agreement of said Company with Stock Exchanges.

The compliance of said conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to the procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of an opinion on the financial statements of the Company.

Financial section

Independent Auditors' Report

To The Members of
RAJVIR INDUSTRIES LTD.

Report on the Financial Statements

We have audited the accompanying financial statements of RAJVIR INDUSTRIES LTD (the "Company"), which comprise the Balance Sheet as at March 31, 2013, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- (b) in the case of the Statement of Profit and Loss, of the Profit for the year ended on that date; and
- (c) in the case of Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 2. As required by section 227(3) of the Act, we report that:
 - a. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from branches not visited by us;
 - c. the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account and with the returns received from branches not visited by us;
 - d. in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
 - e. on the basis of written representations received from the directors as on March 31, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

Annexure to Auditors' Report

(Annexure referred to in Point 1 of Other Legal and Regulatory Requirements of the Report of the Auditors)

1. a) The company has maintained proper records to show full particulars including quantitative details and situation of its fixed assets;
b) As explained to us, the fixed assets have been physically verified by the management at reasonable intervals, in a phased verification programme, which, in our opinion, is reasonable looking to the size of the company and the nature of its business. According to the information and explanations given to us, discrepancies noticed on physical verification have been properly dealt with in the books of account;
c) In our opinion, and to the information and explanations given to us, no substantial part of fixed assets has been disposed off by the company during the year.
2. a) The inventory has been physically verified during the year by the management except the stock lying with the third party (consignment agent). In our opinion, the frequency of verification is reasonable.

Note No. 1

Significant Accounting Policies:

1.1 Basis for Preparation of Accounts:

The Accounts have been prepared by following the going concern concept, on historical cost convention, on an accrual basis and the relevant provisions of the Companies Act, 1956.

1.2 Revenue Recognition:

- Revenue from sale of goods is recognized when significant risks and rewards of ownership are transferred to the customer.
- Revenue is recognized when it is earned and no significant uncertainty exists as to its Realization or collection.
- Income from services rendered is accounted as per contractual terms with the parties concerned.
- Dividend income is accounted for in the year in which it is declared.
- Export benefits under the duty remission scheme and the DEPB scheme are recognized as income when the right to receive the incentive as per the terms of the scheme is established in respect of the exports made.

1.3 Expenditure:

Expenses are accounted for on an accrual basis and provision is made for all known losses.

1.4 Fixed Assets:

- Fixed assets are stated at cost less accumulated depreciation and impairment loss if any, except for Plant & Machinery and other equipment which were revalued on 31.03.1993 and shown as a separate item.
- Depreciation has been provided on assets on Straight Line method at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956.
- Depreciation on revalued part is transferred from Revaluation Reserve to Profit & Loss account.
- All costs, including financing costs till commencement of commercial production, net charges on Foreign exchange contracts and adjustments arising from exchange rate variations attributable to fixed assets are capitalized.

1.5 Inventories:

Inventories are valued as follows:

Raw Material	At lower of cost or net realisable value.
Work in process	At lower of cost or net realisable value.
Stores & Spares	At lower of cost or net realisable value.
Finished Goods (Yarn)	At lower of cost or net realisable value.

Cost of raw-material, stores & spares and packing material and trading goods is determined on Weighted Average basis.

Cost of Work in process includes costs of raw material, conversion and other costs incurred in bringing the inventories to their present location and condition. Cost formulae used is on FIFO basis.

Cost of yarn includes costs of raw material, conversion and other costs incurred in bringing the inventories to their present location and condition.

1.6 Employee Benefits:

The company has adopted Accounting Standard-15 (Revised 2005) 'Employee benefits'. The company has used the Projected unit credit method for arriving at gratuity liability.

i) Defined contribution schemes:

- Employee Provident Fund
- Family Pension Scheme
- Employee State Insurance Scheme
- Labour Welfare Fund

ii) Defined benefit Schemes:

- Gratuity plan – Gratuity is payable to all eligible employees of the Company in terms of the provisions of the Payment of Gratuity Act.
- Leave Encashment Plan – Eligible employees can carry forward and encash leave on superannuation death / resignation subject to maximum accumulation of 15 days.

1.7 Foreign Exchange Transactions:

- Foreign currency transactions are accounted at the exchange rates prevailing at the date of the transaction. Monetary assets and liabilities relating to Foreign currency transactions remaining unsettled at the end of the year are translated at the year end rate and the difference in translation and realized gains and losses on Foreign exchange transactions (other than for fixed assets) are recognized in the profit and loss account.
- Pursuant to adoption of the Companies (Accounting Standards) Rules, 2006 exchange differences arising on settlement or restatement of foreign currency denominated liabilities relating to the acquisition of fixed assets are recognized in the profit and loss account.

Note No. 1

Significant Accounting Policies:

- c) Any income or expense on account of exchange difference either on settlement or on translation is recognized as Revenue.
- d) In case of forward contracts, the exchange difference between the forward rate and the exchange rate at the date of transaction is recognized as income or expense over the life of the contract.

1.8 Derivative transactions

In respect of Derivative contracts, premium paid and provision for losses on restatement and gains/losses on settlement are recognized along with the underlying transactions and charged to Profit & Loss Account.

1.9 Taxes on Income

The Current charge for income taxes is calculated in accordance with the relevant tax regulations applicable to the Company on the computed total income for the year.

Deferred Tax assets and liabilities are recognized on timing differences between taxable income and accounting income, originating in one period and expected to reverse in subsequent periods.

The Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted as on the Balance Sheet date.

Minimum alternative tax (MAT) under the provisions of Income Tax Act 1961 is recognised as current tax in the Statement of Profit and Loss.

The Credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal Income Tax during the period for which the MAT credit can be carried forward for set - off against the normal tax liability.

MAT credit recognised as an asset is reviewed at each Balance Sheet date and written down to the extent the aforesaid convincing evidence no longer exist.

1.10 Borrowing Costs:

Borrowing costs are recognized as expenses in the period in which they are incurred except for borrowings for acquisition of qualifying assets which are capitalized upto the date, the asset is ready for its intended use.

1.11 Government Grants:

Grants and subsidies are recognized when there is a reasonable assurance that the grant or subsidy will be received and that all the underlying conditions will be complied with.

Grants and Subsidies related to specific fixed asset is shown as deduction from the gross value of the asset concerned and subsidies not related to specific fixed asset are treated as Capital Reserve.

1.12 Deferred Revenue Expenditure:

Deferred revenue expenditure, the benefit of which is accrued to the company over a period of time, is written off in 10 years.

1.13 Segment Reporting:

The operations of the company predominantly comprises of "Manufacturing of yarn". These activities constitute the Primary segment and is the only reportable segment.

1.14 Leases:

The Company's significant leasing arrangements are in respect of Operating leases for premises like operational units, offices, residences etc. These leases which are not non-cancelable are generally for more than 11 months, or for longer period and are usually renewable by mutual consent on mutually agreeable terms. The aggregate lease rentals payable are charged as Rent to the Statement of Profit and Loss.

1.15 Impairment of Assets:

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such an indication exists, then the carrying value is reduced to the higher of the net selling price or the value in use. The value in use is the present value of estimated future net income expected from use of the asset.

1.16 Provisions/Contingent Liabilities:

Provisions are recognized, when the Company has a present legal or constructive obligation, as a result of past events, for which it is probable that an out flow of economic benefits will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation. The disclosure is made for all present or possible obligations that may but probably will not require outflow of resources as contingent liability in the financial statements.

National ECS/Electronic Clearing Service (ECS) for payment of Dividend

To

The Shareholders

M/s. Rajvir Industries Limited

The Company has introduced NECS/ Electronic Clearing Service (ECS) for payment of dividend. This would facilitate the shareholders to obtain the dividend electronically and the payment would consequently be faster and loss of dividend instrument in postal transit would be eliminated. Under this method, the Company would issue payment instructions to the Clearing House of Reserve Bank of India through the Bankers of the Company. The Clearing House would furnish to the service branches of the destination banks branch wise credit reports indicating the beneficiary details such as names of the branches where the accounts are maintained, the names of the beneficiaries, account type, account numbers and the respective amounts. The service branch in turn would pass the advices to the concerned branches of their bank, which would credit the beneficiary's accounts on the appointed date. An advice of remittance would be sent by the Company to the shareholders opting for electronic transfer.

Considering the benefits derived in NECS/ECS for payment of dividend, shareholders are advised to avail this facility. Securities and Exchange Board of India and the Ministry of Company Affairs, Government of India, have made it mandatory on the part of the companies to offer NECS/ECS facility, wherever the said facility is available.

Presently NECS/ECS facility is available at 15 centers of the Reserve Bank of India viz., Ahmedabad, Bangalore, Kolkata, Chandigarh, Chennai, Guwahati, Hyderabad, Jaipur, Kanpur, Mumbai, Nagpur, New Delhi, Patna, Pune and Thiruvananthapuram. This facility is available only for payment up to a maximum amount of ₹5 lakhs.

Shareholders holding shares in physical form wishing to participate in this scheme may please fill in the NECS/ECS Mandate Form printed overleaf in eligible English, sign and return the same to the Company/Registrar and Share Transfer Agent. Please note that the information provided by you should be accurate and complete in all respects and duly certified by your bankers. In lieu of the bank certification, you may attach a blank cancelled cheque or a photocopy of a cheque for verification of the particulars provided by you in the NECS/ECS Mandate Form.

The shareholders holding shares in electronic form in the depository system are requested to forward the NECS/ECS particulars to their depository participant for incorporation in their records. The depository would forward the required information to the Company at the time of payment of Dividend in a future date as and when declared/approved.

In case you require any clarification/assistance, please feel free to contact the Company.
