SECTION III: RISK FACTORS

RISK FACTOR

Any investment in equity securities involves a high degree of risk. Investor should carefully consider all the information in this draft prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a more complete understanding, you should read this section together with Sections titled, “Our Business”, “Particulars of the Issue”, “Industry Overview”, “Financial Statement as Restated”, “Outstanding Litigation and Other Material Developments”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page no. 68, 48, 56, 103, 128, and 124 respectively, as well as the other financial and statistical information contained in this draft prospectus.

Any of the following risks, as well as the other risks and uncertainties discussed in this draft prospectus, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of your investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

This draft prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this draft prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. You should not invest in this Issuing unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the consequences to you of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Restated Financial Statements prepared in accordance with Indian GAAP, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some risks may not be material individually but may be material when considered collectively.*
- 2. Some risks may have material impact qualitatively instead of quantitatively.*
- 3. Some risks may not be material at present but may have a material impact in the future.*

INTERNAL RISK FACTOR:

- 1. Our business is dependent on a few customers and the loss of, or a significant reduction in award of contracts by such customers could adversely affect our business.**

We have started our business from a single client in the FY 2019-20. In FY 2020-21 and up to 6 Months period ended 30/09/2021 in FY 2021-22, our 100% revenue comes from 7-8 major customers. Revenues from any particular client may vary significantly from one reporting period to another depending on the nature of work orders. Larger orders from few customers may represent a larger part of our portfolio, increasing the potential volatility of our results and exposure to individual business risks. Such concentration of our business on a few clients may have an adverse effect on our results of operations and result in a significant reduction in the business which could also adversely affect our business if we do not achieve our expected margins or suffer losses on one or more of these large businesses, from such clients.

Our long-standing relationship with certain of our customers is a result of our timely and efficient delivery of work. However, in the event we are unable to complete our delivery within the duration as decided, or the quality of our products deteriorates, then our relationship will get strained and we may not get further orders from our current clients which could adversely affect our business. In addition, our clients may also be entitled to terminate the order in the event of delay in supply of products if the delay is not on account of any of the agreed exceptions. Consequently, the loss of any of our significant clients, could have an adverse effect on our business, cash flows and results of operations.

- 2. We are highly dependent upon few suppliers for our raw material for our current manufacturing facilities. In an eventuality where our suppliers are unable to deliver us the required materials in a time-bound manner it may have a material adverse effect on our business operations and profitability.**

We have started our business with a single supplier in the FY 2019-20. For the Financial Year ended as on March 31, 2021, our top 10 suppliers contributed around 79.35% and top 5 suppliers contributed around 63.75% of our purchases. For the 6 months period ended September 30, 2021 in Financial Year 2021-22, our top 10 suppliers contributed around 82.94% and top 5 suppliers contributed around 70.78% of our purchases. In the event of a delay, inadequacy or default in

deliveries by any of our vendors, we may not be able to source our material on an adequate and timely basis or on commercially acceptable terms. A major disruption to the timely and adequate supplies of our materials could adversely affect our business, results of operations and financial condition. Any problems faced by our suppliers in their manufacturing facilities resulting in delays or non-adherence to quality requirements could adversely impact our ability to meet our customers' requirements in time and our operations would be affected to the extent we are unable to line up supplies from alternate suppliers.

3. Our Company is planning to set up manufacturing unit at Rakhiyal, Ahmedabad out of the Issue proceeds

Our Company has identified the place for the Manufacturing unit but the same is under planning and negotiation stage. Further the Machineries and other ancillary items required for the manufacturing process is under planning stage and orders are yet to be placed. The proposed unit is not appraised by any Bank or financial institution or any independent authority. Even though we are putting our efforts in purchasing the property and getting the right machinery with optimal output but there may be a possibility of delay in implementation schedule and manufacturing defects of the Machinery procured and in turn may affect our productivity. Further, our manufacturing unit is man power oriented and the machineries are not fully automated ones. So our productivity is mostly dependent on the skill of the manpower operating the machine and the deployment of efficient designers and other experts required to produce the desired output. Our inability to procure the right kind of raw materials, Machineries, skilled man-power, efficient designers and other operational persons or any inefficiency or trade union disputes may adversely affect our business and our financial position.

4. Currently our manufacturing of Kurtis and dress materials are under outsourcing model and in future also we will continue to have this model in addition to our own manufacturing unit

Outsourcing model enables us to deploy lesser fixed costs and administrative costs. However, our dependencies are more on the person/entity to whom the work is entrusted. We cannot strictly monitor the quality and timelines and any adverse outcome resulting in loss of client will have an adverse impact on our brand and our financial position.

5. Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

Particulars	30-09-2021	31-03-2021	31-03-2020	31-03-2019
Net cash from operating activities	10,37,13,814	(96,76,924)	(1,14,784)	(500)
Net Cash (used in) / from investing activities	(88,83,107)	(36,93,774)	-	-
Net Cash used in financing activities	2,45,21,667	1,64,74,224	-	-
Net increase/(decrease) in cash and cash equivalent	11,93,52,374	31,03,526	(1,14,784)	(500)

6. The average cost of acquisition of Equity Shares by our Promoters is lower than the Issue Price.

The average cost of acquisition of Equity Shares by our promoter is lower than the issue price.

Sl. No.	Name of the Promoter	No. of Equity Shares Held	Avg. Cost of Acquisition (In ₹ per Equity Share)
1	Shah Vimalkumar Mishrilal	9,75,000	14.36
2	Hitesh Loonia	9,75,000	14.36

7. Our results of operations may be materially adversely affected by our failure to anticipate and respond to changes in fashion trends and consumer preferences in a timely manner

Our results of operations depend upon the continued demand by consumers for our products. We operate in an industry that is highly competitive and where customers' purchases are highly subjective and sensitive to trends and fashion tastes. Creativity and being abreast with the latest fashion trends are one of the key attributes for success in this industry. For our Company to remain competitive in respect of appealing designs, our designers have to keep themselves abreast with the latest trends, and fashion demands and more importantly understand the requirements of the customers. If we are unable to anticipate consumer preferences or industry changes, or if we are unable to modify our products on a timely basis, we may lose customers to our competitors, or may be forced to reduce our sales realization on products by having to offer them at a discount, thereby reducing our margins

8. Our business is seasonal in nature in domestic market with the peak happening during festivals and other important functions. Any substantial decrease in our sales during the said period can have a material adverse impact on our financial performance.

Currently, we are engaged mainly in domestic sales of trading in cotton bales, yarn, Kurtis and other dress materials. Our business exhibits seasonality particularly for the Dress materials including kurtis due the festivals or important functions like Marriage, Religious activities etc. We are impacted by seasonal variations in sales volumes, which may cause our revenues to vary significantly between different quarters in a Fiscal. Typically, we see an increase in our business during navarati, before Diwali and during end of season sales. Any substantial decrease in sales other than the other quarters could have a material adverse effect on our financial condition and results of operations.

9. Competition from Other established competitors

Our Company's business is driven with various factors like intense competition from established as well as unorganized players. Our competition depends on several factors which includes quality, price and most importantly to upgrade with the latest trend to reap optimum sales.

Our competition varies for our products and regions. We compete with other manufacturers on the basis of product range, product quality, and product price including factors, based on reputation, regional needs, and customer convenience. While these factors are key parameters in client's decisions matrix in purchasing goods; product range, product quality and product price is often the deciding factor in most deals. Our Company faces competition from several other domestic and foreign brands present in the market as also new brands that may enter in the market in the future.

10. *We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms may have an adverse effect on our operations, profitability and growth prospects.*

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

11. *Delays or defaults in payment by our customers could affect our cash flows and may adversely affect our financial condition and operations.*

In the past, we have extended credit to our customers for a certain tenure and at times for a long period of time and for reason concerning the financial health of our customer we may not be able to realize or recover outstanding amounts in part or in full within a pre-determined timeframe. We have and may continue to have high levels of outstanding receivables. Our average outstanding receivable tenure is in the range of 2 to 3 months in the past financial years. Hence, if delays or defaults in client payments continue or increase in proportion to our total revenues, it could negatively affect our cash flows and consequently affect our financial condition and operations. Further, while we may take appropriate action in the event of a non-payment of receivables, there can be no assurance that we will be able to successfully recover outstanding amounts owed to us in part or in full, which in turn could affect our cash flows and may adversely affect our financial condition and operations.

12. *Our Registered Office from where we operate are not owned by us.*

Our Registered Office premise is situated at 503, Sun Square, Nr Hotel Nest, Off C. G. Road, Navrangpura, Ahmedabad - 380006, Gujarat, India, which is owned by promoters of our company. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable/favourable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

13. *Our Company has made an application for registration of trademark. We are unable to assure you that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.*

We have applied with 'The Registrar of Trade Marks, Trade Marks Registry' for registration of trademark of our logo. We are taking steps to secure our Trademark as the registration for the said trademark in our name is important to retain our brand equity. If our application for registration is not accepted or if any oppositions filed against our trademark application are successful, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. Further, we cannot assure that our future application would be granted registration or will not be challenged or if granted registration, will not be invalidated or circumvented or will offer us any meaningful protection. We are unable to assure that the future viability or value of any of our intellectual property or that the steps to be taken by us to protect the proprietary rights of our Company will be adequate.

14. *The extent to which the Coronavirus pandemic (COVID-19) may affect our business and operations in the future is uncertain and cannot be predicted.*

During the first half of calendar year 2020, COVID-19 spread to a majority of countries across the world, including India and even in the current year 2021 there was a severe second wave impact. The COVID-19 pandemic has had, and may continue to have, significant repercussions across local, national and global economies and financial markets. In particular, a number of governments and organizations have revised GDP growth forecasts for calendar year 2020 downward in response to the economic slowdown caused by the spread of COVID-19. The global impact of the COVID-19 pandemic has been rapidly evolving and public health officials and governmental authorities have responded by taking measures, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting travel, issuing "stay-at-home" orders and restricting the types of businesses that may continue to operate, among many others. On March 14, 2020, India declared COVID-19 as a "notified disaster" and imposed a nationwide lockdown beginning on March 25, 2020. The lockdown has been extended periodically by varying degrees by state governments and local administrations.

The lifting of the lockdown across various regions has been regulated with limited and progressive relaxations being granted for movement of goods and people in other places and calibrated re-opening of businesses and offices. Despite the lifting of the lockdown, there is significant uncertainty regarding the duration and long-term impact of the COVID-19 pandemic, as well as possible future responses by the Government, which makes it impossible for us to predict with certainty the impact that COVID-19 will have on our business and operations in the future.

We are closely monitoring the impact of COVID-19 on our financial condition, liquidity, operations, suppliers and workforce. Any intensification of the COVID-19 pandemic or any future outbreak of another highly infectious or contagious disease may adversely affect our business, results of operations and financial condition.

15. *Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support.*

Our success depends heavily upon the continuing services of Promoters & Directors who are the natural person in control of our Company. Our Promoters have a good experience in the field of business and finance. They have established cordial relations with various customers and suppliers over the past 2-3 years, which have immensely benefitted our Company's current customer and supplier relations. We believe that our relation with our Promoters, who have rich experience the industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters are also part of certain other firms / ventures and may continue to do so. If they divert their attention to such other concerns, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

16. *Our Company has entered into certain related party transactions and may continue to do so in the future.*

Our Company has entered into related party transactions with our Promoters, Directors, Group Entities and their relatives. While our Company believes that all such transactions have been conducted on arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to ***"Related Party Transactions"*** under section titled ***"Financial Statements as Restated"*** on page no. 1 of this Draft Prospectus.

17. *Our Company has availed certain unsecured loan which is repayable on demand. Any demand from the lender for repayment of such unsecured loan may affect our cash flow and financial condition.*

Our Company has availed certain unsecured loan and are repayable on demand. Though our Company intends to repay the loan amount in near future, sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section ***"Unsecured Loans"*** under ***"Financial Statements as restated"*** beginning on page no. 103 of this Draft Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

18. *We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses in timely manner or comply with such rules and regulations or at all may adversely affect our operations.*

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled ***"Government and Other Key Approvals"*** at pages 131 of this Draft Prospectus.

19. *If we are unable to manage our growth effectively or if our estimates or assumptions used in developing our strategic plan are inaccurate or we are unable to execute our strategic plan effectively, our business and prospects may be materially and adversely affected.*

Our revenue and our business operations have grown in recent years. Although we plan to continue to expand our scale of operations, we may not be able to sustain these rates of growth in future periods due to a number of factors, including, among others, our execution capability, our ability to retain, maintain & enter into new supplier MOUs / agreements, our

ability to maintain customer satisfaction, our ability to mobilise sufficient working capital, macroeconomic factors beyond our control such as decline in global economic conditions, competition with other players in the organized and unorganized segments, the greater difficulty of growing at sustained rates from a larger revenue base, our inability to control our expenses and the availability of resources for our growth. There can be no assurance that we will not suffer from capital constraints, operational difficulties or difficulties in expanding existing business operations.

Our development and expansion strategies will require substantial managerial efforts and skills and the incurrence of additional expenditures may subject us to new or increased risks. We may not be able to efficiently or effectively implement our growth strategies or manage the growth of our operations, and any failure to do so may limit future growth and have an adverse effect on our business. Further, our strategy to improve our debt – equity ratio may not materialise in the manner we intend to, and we may be required to obtain additional debt to meet immediate capital requirements, resulting in unfavourable ratios.

Also, the fund requirement and deployment for our strategies are based purely on management estimates and assumptions considering the current market scenario and are subject to revision in the light of changes in external circumstances or costs. If we are unsuccessful in executing our strategic plan, or if the underlying estimates or assumptions used to develop our strategic plan are materially inaccurate, our business and financial condition would have an adverse impact.

20. *In addition to normal remuneration, other benefits and reimbursement of expenses our directors (including our Promoter) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors (including our Promoters) and Key Management Personnel may be interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration, incentives or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Promoters & our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Promoters and Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Promoters and Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects. For further details of our transactions or interests of our promoters / promoter group, please refer the chapters titled “*Capital Structure*” and “*Financial Information as Restated*” beginning on page nos. 38, and 103 respectively, of this Prospectus.

21. *We are dependent on a number of key managerial personnel, including our senior management, and the loss of or our inability to attract or retain such persons with specialized technical know-how could adversely affect our business, results of operations, cash flows and financial condition.*

Our performance depends largely on the efforts and abilities of our senior management and other key managerial personnel, including our present officers who have specialized technical know-how. The inputs and experience of our senior management and key managerial personnel are valuable for the development of our business and operations strategy. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Our Company does not maintain any director’s and officer’s insurance policy or any keyman insurance policy. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

22. *Upon completion of the Issue, our Promoters / Promoter Group may continue to retain significant control, which will allow them to influence the outcome of matters submitted to the shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own 61.91% of the total post issue Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring any strategic decision favourable to the Company or effecting a change in control of our Company for the betterment of the stakeholders.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

23. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies.

Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

24. *Industry information included in this draft prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this draft prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this draft prospectus.

25. *Within the parameters as mentioned in the chapter titled “Objects of this Issue” beginning on page 48 of this draft prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.*

We intend to use entire Issue Proceeds towards purchase of building, plant & machinery, doing interior work for display centre, meeting the working capital requirement and general corporate purposes. We intend to deploy the Net Issue Proceeds in financial year 2021-22 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 48 of this draft prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “*Objects of the Issue*” beginning on page 48 of this draft prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors and the Audit Committee will monitor the proceeds of this Issue.

26. *Our business is significantly affected by fluctuations in general economic activity.*

Demand for our products is significantly affected by the general level of commercial activity and economic conditions in the regions and sectors in which we operate. An economic downturn in a region or sector in which we operate may adversely affect our operations in that region or sector. Our clients are basically located in India and any downturn in the Indian market may adversely affect our operations, thereby affecting our business, financial conditions or results of operations. We may also experience more competitive pricing pressure during periods of economic downturn.

27. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since the Issue size is less than Rs. 10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances.

28. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 102 of this draft prospectus.

29. Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.

Any future equity issuance by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

30. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue price is based on numerous factors. For further information, see the chapter titled *"Basis for Issue Price"* beginning on page no. 52 of this draft prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

31. Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/ salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

32. Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

33. The requirements of being a public listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange(s) which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

EXTERNAL RISK FACTORS

1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Public companies in India, including our Company, shall be required to prepare financial statements under Indian Accounting Standards.*

Our Company currently prepares its annual financial statements under Indian GAAP. The MCA, Government of India, has, through a notification dated February 16, 2015, set out the Indian Accounting Standards (Ind AS) and the timelines for their implementation. In accordance with such notification, our Company is required to prepare its financial statements in accordance with Ind AS. Ind AS is different in many aspects from Indian GAAP under which our financial statements are currently prepared. Accordingly, the degree to which the restated financial statements included in the draft prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the draft prospectus should accordingly be limited.

4. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

5. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

6. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the draft prospectus.*

While facts and other statistics in the draft prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "*Industry Overview*" beginning on page 56 of this draft prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

7. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

8. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

9. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

10. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

11. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

12. *Terrorist attacks, civil unrest and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Introduction

The textiles and apparel industry can be broadly divided into two segments - yarn and fibre and processed fabrics and apparel. India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital-intensive sophisticated mills sector on the other end. The decentralised power looms/ hosiery and knitting sector forms the largest component in the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce wide variety of products suitable for different market segments, both within India and across the world.

Market Size

India's textiles industry contributed 7% to the industry output (by value) in 2018-19. The Indian textiles and apparel industry contributed 2% to the GDP, 12% to export earnings and held 5% of the global trade in textiles and apparel in 2018-19. The share of the India's textiles and apparel exports in mercantile shipments was 11% in 2019-20. Textiles industry has around 4.5 crore employed workers including 35.22 lakh handloom workers across the country. Cotton production is expected to reach 37.10 million bales and consumption is expected to reach 114 million bales in FY21—13% growth over the previous year.

The domestic textiles and apparel market stood at an estimated US\$ 100 billion in FY19. The production of raw cotton in India is estimated to have reached 35.4 million bales in FY20[^]. During FY19, production of fibre in India stood at 1.44 million tonnes (MT) and reached 2.40 MT in FY21 (till January 2021), while that for yarn, the production stood at 4,762 million kgs during same period. Exports of textiles (RMG of all textiles, cotton yarn/fabs./made-ups/handloom products, man-made yarn/fabs./made-ups, handicrafts excl. handmade carpets, carpets and jute mfg. including floor coverings) stood at US\$ 2.99 billion, as of June 2021. In July 2021, exports of cotton yarn/fabrics/made-ups, handloom products, etc., from India increased by 50.86% in June 2021 over June 2019.

Investment

The textiles sector has witnessed a spurt in investment during the last five years. (ICIL), announced an investment of Rs. 200 crore (US\$ 26.9 million) to expand its production capacity. The production-linked incentive (PLI) scheme for man-made fibre and technical textiles will help boost manufacturing, increase exports and attract investments into the sector.

SOURCING ALL MATERIALS, FABRICS AND ACCESSORIES:

Sourcing of materials and fabrics can play a vital role in manufacturing and Process Time. The detailed process is being explained as follows:

At first instance, fabric quality is specifically derived. There are so many different types of fabrics variants to choose from. The best start is to have an idea of some material and feel of sample fabrics you might want to work with before you go into its supplies.

Once the fabrics are finalized then crocky designing starts. Crocky Designing is done by the designing team of our company. For designing extensive research is being done.

After our designing team is ready with the design, patterns are made. Patterns are developed making paper-based outlines or design which will be used as a template, laid onto the fabric, traced and cut out.

Several types of accessories are required to enhance the beauty of the product. If our garment requires accessories like embroidery, buttons, Laces, stones etc. are then developed and finalized.

An analysis of reasons for the changes in significant items of income and expenditure is given hereunder:

1. Unusual or infrequent events or transactions

Except as described in this Draft Prospectus, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent except that the business from proprietorship firm is gradually transferred to company.

2. Significant economic changes that materially affected or are likely to affect income from continuing operations.

There are no significant economic changes that may materially affect or likely to affect income from continuing operations except the Covid-19 pandemic which is still to be controlled. However, Government policies governing the sector in which we operate as well as the overall growth of the Indian economy has a significant bearing on our operations. Major changes in these factors can significantly impact income from continuing operations.

3. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.

Apart from the risks as disclosed under Section "Risk Factors" beginning on page 17 in the draft prospectus, in our opinion there are no other known trends or uncertainties that have had or are expected to have a material adverse impact on revenue or income from continuing operations.

4. Expected Future changes in relationship between costs and revenues

Our Company's future costs and revenues will be determined by demand/supply situation, Government Policies and Currency fluctuations.

5. Extent to which material increases in net sales or revenue are due to increased sales volume, introduction of new products or increased sales prices

Changes in revenue in the last financial years are as explained in the part "Comparison of the financial performance" of above.

6. Total turnover of each major industry segment in which our Company operates

The Company is mainly engaged in trading of Cotton bale, Yarn and Readymade garments and also started manufacturing of Kurtis. Therefore, there are no separate reportable segments.

7. *Status of any publicly announced New Products or Business Segment*

Our Company has not announced any new product other than disclosed in this draft prospectus.

8. *Seasonality of business*

Our company's business pertaining to dress materials is seasonable in nature wherein sales are more during the Festival season, marriage season, other religious functions etc. Trading of cotton bales and yarn are not particularly seasonal.

9. *Competitive conditions*

Competitive conditions are as described under the Chapters "***Industry Overview***" and "***Our Business***" beginning on page 56 and 68 respectively of the draft prospectus.

10. *Details of material developments after the date of last balance sheet i.e., September 30, 2021.*

Except as mentioned in this draft prospectus, no material circumstances have arisen since the date of last financial statement until the date of filing the draft prospectus, which materially and adversely affect or are likely to affect the operations or profitability of our Company, or value of its assets, or its ability to pay its liability within next twelve months.

Phased implementation of Unified Payments Interface (UPI)

SEBI has issued the various UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by Retail Individual Investors through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Investor had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by Retail Individual Investors through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days. For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Managers.
