EXPLANATORY STATEMENT PURSUANT TO SECTION 102 (1) OF THE COMPANIES ACT, 2013

Item No. 3

At the board meeting held on 1st August, 2016, Mr Vidyuth Rajagopal, was appointed as whole-time director of the Company for a period of three years from 1st August, 2016 on such remuneration within the limit prescribed under applicable provisions of the Companies Act, 2013. The shareholders approved his terms of appointment and remuneration payable to him at the 27th AGM held on 30th September, 2016.

Considering his increased responsibilities, the board, at its meeting held on 05th April, 2017, appointed him as Joint Managing Director (JMD), as recommended by the NRC, for the remaining period of his tenure up to 31st July, 2019, without any other change in his terms of appointment and remuneration. This was approved by the shareholders at the AGM held on 25th September 2017.

The board reviewed the remuneration payable to him after taking into consideration his active involvement in all spheres of management for exploring business opportunities both in India and abroad and felt that, JMD can be compensated by way of enhanced commission. The board was of the opinion that the existing remuneration was considerably inadequate, when compared with the industry norms and similarly placed senior management personnel of the Company. Therefore, the board, at its meeting held on 11th December 2017, proposed the following revision in the terms of remuneration payable to him effective 1st October 2017, as recommended by the NRC, subject to the approval of the shareholders in the ensuing AGM.

i) Salary

Basic salary Rs.2,50,000/- per month.

ii) Medical Benefits

Suitable Mediclaim Policy for hospitalization for himself and family. Reimbursement of all actual medical expenses for himself and family to the extent not reimbursed under Mediclaim Policy.

iii) Telephone

Telephone, Tele fax and other communication facilities at residence at Company's cost.

iv) Automobile

He shall be entitled to a fully maintained Company car with driver for company's business.

v) Reimbursement of expenses

He shall be entitled to the reimbursement of all actual expenses or charges, including travel, entertainment and other out of pocket expenses incurred by him for and on behalf of the Company, in furtherance of its business and objects.

vi) Sitting Fees

He will not be entitled to any sitting fees for attending the meetings of the Board or of any committee thereof.

The valuation of perquisites will be as per the Income-Tax Rules in cases where the same is otherwise not possible to be valued.

It is therefore conceivable that such modification in the terms of remuneration will amount to revision in the overall remuneration payable to him, in terms of Sections 197 and 198 read with Schedule V to the Act and require approval of the shareholders.

The terms of remuneration payable to JMD as specified above are now being placed before the members for their approval by way of a special resolution, as set out in item no. 3 of this Notice, in compliance with the provisions of Sections 196, 197 and 203 read with Schedule V to the Act, as recommended by the NRC and by the board.

Mr Vidyuth Rajagopal is deemed to be concerned / interested in this resolution, since it relates to his remuneration as JMD. Mr Venkatesh Rajagopal, Chairman and Mrs Rama Rajagopal, Director are also deemed to be interested, being his relatives.

None of the other Directors or Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the resolution as set out in item no.3 of this Notice. The board, therefore, recommends the special resolution, as set out in item no.3, for approval by the shareholders of the Company.

Item No. 4

In terms of Section 196, 197 read with Schedule V of the Act, a special resolution is proposed to be passed for payment of remuneration to Mr. Vidyuth Rajagopal for a period of 3 years with effect from 08th August, 2018. The Board of Directors of the Company and the Nomination & Remuneration Committee have recommended the appointment of Mr. Vidyuth Rajagopal for a period of 3 years effective 08th August 2018 to 07th August 2021 for a remuneration of Rs. 2,50,000/- per month plus applicable perquisites, with authority to the Board to sanction increment, subject to the provisions of the Companies Act, 2013.

The terms of the appointment and remuneration details are given below.

i) Tenure

For a period of 3 years with effect from 08th August 2018 to 07th August 2021

ii) Salary

Basic salary Rs.2,50,000/- per month.

iii) Medical Benefits

Suitable Mediclaim Policy for hospitalization for himself and family. Reimbursement of all actual medical expenses for himself and family to the extent not reimbursed under Mediclaim Policy.

iv) Telephone

Telephone, Tele fax and other communication facilities at residence at Company's cost.

v) Automobile

He shall be entitled to a fully maintained Company car with driver for company's business.

vi) Reimbursement of expenses

He shall be entitled to the reimbursement of all actual expenses or charges, including travel, entertainment and other out of pocket expenses incurred by him for and on behalf of the Company, in furtherance of its business and objects.

vii) Sitting Fees

He will not be entitled to any sitting fees for attending the meetings of the Board or of any committee thereof.

The above may be treated as an abstract of the terms of appointment and Memorandum of concern or interest, pursuant to Section 190 of the Companies Act, 2013.

The valuation of perquisites will be as per the Income-Tax Rules in cases where the same is otherwise not possible to be valued.

The Board recommends Item No. 4 as special resolution for approval of Members.

PERFORMANCE REVIEW

The clothing Export scenario continued to be fiercely competitive. Textile and clothing exports slid 0.4% in the last financial year (2017-18) to \$ 35 billion as apparel exports fell. While exports of cotton yarn, fabrics and made ups grew 4%, outbound apparel shipments registered a 4% decline, reducing from \$ 17.3 billion to \$ 16.7 billion. Garment exports from Vietnam and Bangladesh were increasing whereas Garment production in India has declined in the last 10 months. As pricing are too competitive, great effort is necessary to bag orders. Furthermore Duty Drawback element also reduced by about 70% during the period.

IMF said India's growth is expected to rise from 6.7% in 2017-18 to 7.3% in 2018-19 and 7.5% in 2019-20, as the effects of demonetization and the introduction of the goods and services tax fade.

The performance of the Company has to be viewed from the context of the back drop of the business conditions that it was compelled to operate during the year.

Pursuant to the notification, issued by the Ministry of Corporate Affairs dated February 16, 2015 relating to the Companies (Indian Accounting Standards) Rules, 2015, the Company has adopted "IND AS" with effect from 1st April 2017 with transition date of 1st April 2016. Accordingly, the financial statements for the year 2017-18 have been prepared in compliance with the Companies (Indian Accounting Standards) Rules, 2015.

The Company has turned in a satisfactory performance in the year 2017-18 with a net Revenue from operations at Rs.203.54 crs reflecting ~ 6 percent rise vis-à-vis Rs.192.05 crs recorded in the previous year. The Operating EBITDA stood at Rs.12.80 crs against Rs.8.97 crs the previous year.

A detailed analysis of the financial results is given in the Management Discussion and Analysis Report which forms part of this report.

CHANGES TO SHARE CAPITAL

Preferential Allotment

Allotment of Equity Shares on Preferential basis upon conversion of Warrants: "During the financial year 2016-'17, the Company has issued and allotted 56,96,756 Warrants at a price of Rs.11.41 (including premium of Rs.1.41 per Warrant) per Warrant to promoters and Managing Director convertible into equivalent number of Equity Shares on preferential basis in accordance with and in terms of the provisions of Sections 39, 42 and 62(1)(c) of the Companies Act, 2013 read with rules framed thereunder, Chapter VII of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended from time to time and other applicable laws. Out of the 56,96,756 warrants allotted, 35,05,696 Warrants were converted into equivalent number of Equity Shares during the year under review.

Consequent upon allotment of 35,05,696 equity shares on preferential basis, the paid up equity share capital of the Company has been increased from Rs.42,07,12,490/- to Rs. 45,57,69,450.

The entire issue proceeds were utilized for Augmenting Long Term Capital and for general corporate purpose. This equity infusion reiterates the promoter's commitment towards the business of the company and confidence in its growth prospects and will strengthen the balance sheet of the company.

MANAGEMENT DISCUSSION & ANALYSIS

Disclaimer

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities, laws and regulations. Actual results could materially differ from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, global demand-supply conditions, changes in governmental regulations and tax structure, economic structure within India and the countries with which the Company has business contacts and other incidental factors.

The following discussion and analysis should be read in conjunction with the Company's financial statements included herein and the notes thereto.

Overview of the Economy

Despite recent softening, global economic growth remained robust at 3.1 % in 2018. Even more important, some of the countries that have had high unemployment for some time, including several in the euro area, participated in the growth and are experiencing strong employment growth. Some of the larger emerging market economies, such as Argentina, Brazil, and Russia, came out of their recessions. Growth in emerging market and developing economies overall is projected to strengthen to 4.5 % in 2018-19 as the recovery in commodity exporters matures and commodity prices level off following this year's increase.

As per the IMF's World Economic Outlook, *"Global economic growth strengthened in 2017 to 3.8 %, with GDP continuing to accelerate over much of the world in what is seen as the broadest cyclical upswing since the start of the decade with a notable rebound in global trade. It was driven by an investment recovery in advanced economies, continued strong growth in emerging Asia, a notable upswing in emerging Europe, and signs of recovery in several commodity exporters."*

Global growth is expected to tick up to 3.9 % this year and next, supported by strong momentum, favorable market sentiment, accommodative financial conditions, and the domestic and international repercussions of expansionary fiscal policy in the United States but tensions over trade threaten to derail months of synchronized global expansion.

The global economic upswing that began around mid-2016 has become broader and stronger.... advanced economies as a group will continue to expand above their potential growth rates this year and next before decelerating, while growth in emerging market and developing economies will rise before levelling off. For most countries, current favorable growth rates will not last. Policymakers should seize this opportunity to bolster growth, make it more durable, and equip their governments better to counter the next downturn."

Overview of Industry

India's huge \$100 billion-plus textiles and apparels industry, which employs more than 45 million people, accounts for almost 14% of exports and over a quarter of foreign exchange earnings. It is the second-largest employment sector after agriculture. Of this, the apparel sector alone accounts for more than 12 million jobs and a chunk of the exports. However, India is quickly losing its place at the top of the table of apparel-exporting nations.

Apparel exports in February (the latest month for which data are available) stood at \$1.44 billion, a decline of 10.25% compared to the year before. In fiscal 2017-18 (April to February), overall apparel production declined 10.4%, while garment exports fell 4%. Worse, the trend is clearly downwards.

In the first year of implementation of the goods and services tax (GST), India's apparel or readymade garment (RMG) exports have declined by nearly 4 % during FY 2018. Duty drawback rate and ROSL were lowered to 2 % and 1.2% from 7.5 % and 3.9 %, respectively, in the post-GST era and incentive under the Merchandise Exports from India Scheme (MEIS) was increased to 4 % from 2 %.

A significant factor of the industry is its competitiveness with respect to Price. India is at a significant disadvantage to countries such as Bangladesh & Vietnam. The 2 countries boast much lower labor costs in comparison to our country and is a significant reason why Apparel exports from Bangladesh crossed India's in 2003, while Vietnam passed India in 2011. Both nations also enjoy an abundance of cheap & skilled labor which is today a scarcity in the traditional manufacturing zones of the India. Movement into underdeveloped portions of the country where the supply of labor is addressed could be the next step in the short run, however the lack of a competent eco system to support the entire value chain is a significant hurdle that will take considerable investment & time to put in place.

Increasingly, Speed to market & Product Leadtime is the next deciding factor guiding global sourcing decisions. As the customer has more access to a variety of products and brands, thank to the advent of commerce, it is increasingly getting tougher to retain the attention of the customer. Many of the brands are struggling with how to address this point, keeping in mind that their sourcing strategies for the longest time have been focused on sourcing product at the cheapest price point in bulk; allowing them to boast significant margins. It is also increasingly clear that a portion of inventory bought by brands is put on discount. Hence brands are focusing on buying more often in lesser quantities across many styles as opposed to buying in bulk as they did in the past. The challenge here is how do vendors & manufacturers react to this new way of working when for the last 20-30 years, the global industry has thrived on large scale manufacturing across homogenous products and where the importance of efficiency and capacity utilizations are counter to the present requirements of the industry.

Lastly, brands are increasingly looking at Social & Ethical compliance as a way to differentiate themselves from other brands. A lot of scrutiny is being put on their sourcing policies & the ethics/values of their vendors. Topics such as the health & security of their worker & Equal Open Equitable Working Culture have become important in the recent past. As brands increasingly communicate their values to the customer, they must match their communication with equal action, whether it be in terms of the environment, the end customer or the communities they impact. The approach of the apparel industry to this requirement, has been very short term.

Any action to ensure vendors are more compliant has been met with increased costs which are always viewed as an expense. If vendors are to view this requirement as an investment, as brands internationally are looking to align them with vendors who are respectful of these conditions, they will find themselves with a larger share of market share than they had originally envisioned. To take advantage of this development, requires a change in approach and mindset.

Financial Performance Overview

Until the year ended 31st March 2017, the Company prepared financial statements in accordance with the requirements of previous GAAP, which includes standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act. These are the Company's first Ind AS based financial statements. The date of transition to Ind AS is 1st April 2016 and necessary changes were made to the corresponding figures of the previous year.

We have witnessed Growth in Revenues & Operational EBITDA of 6.3% and 42.7% respectively. The reduction in wastage is trimmed down to 3%. Our relentless focus on Operational Excellence, Wastage Elimination & Fiscal Discipline have significantly contributed to our improved performance during the year.

The financial results of the Company are as under:

Revenue from Operations

The Company's operational revenues were Rs.203.54 crores as against Rs.192.05 crores during the previous year. The first quarter of the year realized an improved machinery efficiency of 3% and same has been sustained throughout the year. Other income of Rs.2.65 crores consists of interest income, rental and gain on foreign currency transactions.

Cost of Materials & Changes in inventories

The cost of materials adjusted for changes in inventories of finished goods and work in progress is 53.4 % as against 52.1 % in the previous year.

Employee Costs

Though the manpower cost is up by 4.5% in absolute terms, it is 26.6 % to revenues as against 27.0% in the previous year.

Other Expenses

The other expense is reduced by about 7.8% in absolute terms as well by about 2.2% against revenues compared to the previous year.

Operating Margins

The operating EBITDA is up by 42.7% in absolute terms and is up by 1.6% against the previous year as a % to revenue from operations.

Depreciation

Depreciation during the year reduced to Rs.6.89 crores as against Rs.7.03 crores in the previous year.

Finance Costs

Finance cost remained almost stable both in absolute terms as well as % to operating revenues.

Profit before tax and net profits

The net loss during the year is Rs.1.30 crores as against Rs.13.43 crores after accounting for exceptional items of Rs.8.22 crores in the previous year.

Forex Risk

The Company's policy is to systematically hedge its long term foreign exchange risks as well as short term exposures in line with its hedging policy. In addition to this, the company also has a natural hedge on the imports of the company which is almost 40%-50% of its Exports.

Business Philosophy

At Celebrity Fashions, our business philosophy is based on 3 pillars:

1. Operational Excellence
2. Wastage Elimination
3. Fiscal Discipline/Cost Management

The 3 fundamentals frame the culture of the organization and permeate each and every interaction of stakeholders, both internal & external.

I. Operational Excellence

As the preferred supply chain partner for global brands, our approach is centered on maximizing the efficiency of our business operations & ensuring that we optimize usage of the fixed assets of the company. A central activity of ours is to build a culture of performance with a relentless focus on execution

Our operations are modular in nature, involving the synchronization of multiple stations & processes to deliver product to our customer

- i. On time
- ii. World class quality
- iii. At a Competitive cost

We have focused on the real time application of the above principles to ensure that once an order is taken into production, that it is packed and delivered without any disturbances.

Our aim is to shift from an efficiency led model to an inventory light model which will allow the organization to benefit from continuous cash flows and at the same have a clear indication of future revenues.

II. Wastage Elimination

The above pillar can be further segregated into 2 categories:
Wastage in terms of

- i. Raw Materials
- ii. Non-Value Adding processes

As a manufacturer with 30 years of experience, there is a large amount of domain knowledge existing in the company that has come from working with the very best of global brands across product categories.

In the coming quarters, we aim to centralize this domain knowledge with a focus on elimination non-value adding processes; resulting in more predictability in the outcome & maximizing our opportunity to ship given a set of inputs.

We have prioritized preparatory work & other R&D activities to ensure that the factory is able to pursue a plug and play approach which would allow them to minimize disruptions and maximize output.

III. Fiscal Discipline

The business of Apparel Manufacturing is price sensitive & competitive. As a member of a global supply chain, we are no longer competing with just other vendors from India, but with vendors from across the globe. As mentioned earlier, countries such as Bangladesh & Vietnam enjoy far lower labor costs putting India at a straight disadvantage as a result.

Apart from the yields that bear fruit as result of the combination of the earlier 2 points, we are also driving a culture of fiduciary responsibility across all stakeholders.

Our focus is on rationalizing every rupee spent to ensure that it is spent to improve the performance of the organization and weed out any unnecessary expenditure. This fundamental has pushed us to relook at our inventory carrying levels to minimize holding & interest costs.

We continue to work with our vendors and suppliers with the aim to save every possible rupee in the value chain, without compromising on the world class service that we are known for.

REPORT ON CORPORATE GOVERNANCE

[Pursuant to Part C of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 "Listing Regulations"]

COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Corporate Governance is the combination of voluntary practices and compliance with laws and regulations leading to effective control and management of the Organisation. The Company endeavours to ensure that highest standards of ethical and responsible conduct are met.

We believe in our employees and other stakeholders; and ensure adequate control system to enable the Board to efficiently conduct the business and discharge its responsibilities to shareholders.

The Company has adopted the requirements of Corporate Governance as stipulated under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('the Listing Regulations'), the disclosure requirements of which are given below:

BOARD OF DIRECTORS

The Board provides strategic guidance and independent views to the Company's senior management while discharging its fiduciary responsibilities. The Board also provides direction and exercises appropriate control to ensure that the Company is managed in a manner that fulfills stakeholder's aspirations and societal expectations.

The Key to good corporate governance is the optimum combination of the executive and non-executive directors on the board and the extent of their independence. The Board consists of 8 (eight) members with knowledge and experience in diverse fields and professionally acclaimed to understand their role in addressing the issues raised by the management. The day-to-day affairs of the company are managed by the Managing Director & Joint Managing Director under the supervision of the Board.

COMPOSITION OF THE BOARD

As on 31st March, 2018, the Company's Board of Directors ('Board') comprises eight members, which includes four Executive Directors and four Non – Executive Independent Directors of which two are Woman Directors.

The Board's composition is in compliance with the requirements of Regulation 17(1) of the SEBI Listing Regulations read with Section 149 of the Companies Act, 2013.

Independent directors are Non-Executive directors as defined under Regulation 16(1)(b) of the SEBI Listing Regulations entered into with the Stock Exchanges. The maximum tenure of the independent Directors is in compliance with the Companies Act, 2013. All the Independent Directors have confirmed that they meet the criteria as mentioned under regulation 16(1)(b) of the SEBI Listing Regulation and Section 149 of the Companies Act, 2013. INDEPENDENT AUDITOR'S REPORT

To the Members of CELEBRITY FASHIONS LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements drawn in accordance with the Indian Accounting Standards ("the Financial Statements") of **CELEBRITY FASHIONS LIMITED** ("the Company"), which comprise the Balance sheet as at 31st March 2018, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and the Statement of Cash Flow for the year ended 31st March 2018 and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance (including Other Comprehensive Income), Changes in Equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Account) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards, of the state of affairs (financial position) of the Company as at 31st March 2018, its Loss (financial performance including Other Comprehensive Income), Changes in Equity and its Cash Flows for the year ended on 31st March 2018.

Emphasis of Matter

We draw attention to Note No. 33 of the Ind AS financial statements which discloses that as at the date of the Balance Sheet the Company has significant accumulated losses. We have evaluated the appropriateness of the 'going concern' concept in accordance with SA-570, based on such evaluation, in our opinion and on the basis of the information and explanations given to us, we report that we have obtained sufficient evidence to establish the continuance of the Company as a going concern. The Ind AS financial statements of the Company have been prepared on a going concern basis for the reasons stated in the said Note. Our opinion is not modified in respect of this matter.

Other Matters

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at 1st April 2016 included in these Ind AS financial statements are based on the previously issued statutory financial statements prepared in accordance with Accounting Standards prescribed under Section 133 of the Act, read with Rule 7

of the Companies (Accounts) Rules, 2014 (as amended) and other accounting principles generally accepted in India, jointly audited by CNGSN & Associates LLP, Chartered Accountants, and Anil Nair & Associates, Chartered Accountants, the predecessor auditors, whose report for the year ended March 31, 2016 and March 31, 2017 dated 30th May, 2016 and 26th May, 2017 respectively expressed an unmodified opinion on those standalone financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Our opinion is not modified in respect of these matter.

Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- As required by Section 143 (3) of the Act, we report that:
 - We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - The Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of accounts.

- d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Account) Rules, 2014.

Annexure B to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **CELEBRITY FASHIONS LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Upto the year ended 31st March 2017, the Company prepared financial statements in accordance with the requirements of previous GAAP, which includes standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act.

These are Company's first Ind AS based financial statements. The date of transition to Ind AS is 1st April, 2016. Company has opted certain exemptions while first-time adoption of Ind AS based Financial statement (refer transition note in Financial Statement)

1.2 Basis of Preparation of Financial Statements

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below. Historical cost is generally based on the fair value of the consideration given in exchange of goods or services.

The principal accounting policies are set out below:

All assets and liabilities have been classified as current or noncurrent according to the Company's operating cycle and other criteria set out in the Act. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

1.3 Going Concern

The board of directors have considered the financial position of the Company at 31 March 2018 and projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course.

The board of directors have taken actions to ensure that appropriate long-term cash resources are in place at the date of signing the accounts to fund the Company's operations.

1.4 Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods affected.

1.5 Revenue Recognition

The Company recognizes revenue when the amount of revenue and its related cost can be reliably measured and it is probable that future economic benefits will flow to the entity and specific criteria in relation to significant risk.

1.5.1 Sale of Goods

Revenue from sale of products is recognised when the products are delivered to the dealer / customer or when delivered to the carrier, when risks and rewards of ownership pass to the dealer / customer, as per terms of contract.

Revenue is measured at the fair value of the consideration received or receivable and net of returns, trade allowances and rebates. It includes excise duty but excludes Value Added Tax and Sales Tax.

1.5.2 Income from service

Income from services is accounted over the period of rendering of services.

1.6 Foreign Currencies

1.6.1 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The financial statements are presented in Indian rupee, which is the company's functional and presentation currency.

1.6.1 Transaction balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

1.7 Employee Benefits

1.7.1 Short term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

1.7.2 Other Long term employee benefit

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of the expected future payments to be made in respect of services provided by employee upto the end of reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Measurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional

amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the period-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the leave as a current liability in the balance sheet; to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

1.7.3 Post employment obligation

The Company operates the following post-employment schemes:

- Defined benefit plans such as gratuity for its eligible employees, and
- Defined contribution plans such as provident fund

Defined Contribution plan:

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme and pension scheme as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plan:

The Company has a gratuity defined benefit plans for its employees. The costs of providing benefits under these plans are determined on the basis of actuarial valuation at each year-end. Separate actuarial valuation is carried out for each plan using the projected unit credit method. Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and the balancesheet. The Company has funded this with Reliance Life Insurance and SBI Life Insurance. The defined benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by the fair value of plan assets.

1.7.4 Bonus Plans

The Company recognizes a liability and an expense for bonus. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

1.8 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1.8.1 Current Tax

The income tax expenses or credit is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted.

1.8.2 Deferred Tax

Deferred tax assets arising from timing differences are recognised to the extent there is reasonable certainty that these would be realised in future. In case of unabsorbed losses and unabsorbed depreciation, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profit. Unrecognized deferred tax assets of earlier periods are re-assessed and recognized to the extent that it has become reasonably certain or virtually certain as the case may be, that future taxable income will be available against which such deferred tax assets can be realized.

1.8.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are also recognised in other comprehensive income or directly in equity respectively.

1.9 Property, Plant and Equipment

Property, Plant And Equipment are stated at cost including incidental expenses related to acquisition and installation, less accumulated depreciation and impairment if any. Direct costs are capitalized until the Property Plant And Equipment are ready for use. These costs includes non recoverable taxes, duties or levies, freight and any other directly attributable costs of bringing the asset to its working condition for its intended use.

Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

Gains and losses arising from retirement or disposal of the Property, Plant And Equipment are determined as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss on the date of retirement or disposal.

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management. Depreciation for assets purchased / sold during a period is proportionately charged.

Category of Assets	Useful life under Companies Act, 2013	Useful life estimated by the Management
Buildings - Factory	30	30
Buildings - Office	60	60
Plant & Machinery*	15	18
Electrical Installation*	10	14
Office Equipments	5	5
Computers	3	3
Vehicles	8	8
urniture & Fixtures	10	10

Additional depreciation is being provided to the extent required during the year of sale of assets. Assets, for which the estimated useful life is completed, have been removed from gross block and accumulated depreciation.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work - in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Transition to Ind AS

On transition to Ind AS, the Company has elected adopt fair value as its deemed cost for the land and apply Ind-AS 16 retrospectively for other class of assets as at 1st April 2016,.

1.10 Intangible Assets

Intangible assets are stated at cost less accumulated amortisation / depletion and impairment loss, if any. The cost comprises purchase price, borrowing costs and any cost directly attributable in bringing the asset to its working condition for the intended use. Intangible assets are amortized over their respective individual estimated useful lives on a straight line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Amortization of Intangible Assets

The amortization period and the amortization method for an intangible asset are reviewed, at least, at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Category of Assets	Useful life under Companies Act, 2013	Useful life estimated by the Management
Computer Software (Intangible)	3	3

1.11 Investment property

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the company, is classified as investment property. Investment property is measured initially at its cost, including related transaction cost and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

1.12 Deemed cost on transition to Ind AS

For transition to Ind AS, the Company has elected to continue with the carrying value of all of its investment property recognised as of 1st April, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

1.13 Impairment of tangible and intangible assets

The Company assesses at each Balance Sheet date whether there is any indication due to internal or external factors that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the profit and loss account. If at any subsequent balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at recoverable amount subject to maximum of depreciated historical cost and is accordingly reversed in the profit and loss account.

1.14 Inventories

Raw Materials and Components are valued at lower of Cost or Net Realizable Value. Cost of the said is computed by applying Specific Identification Method. Work in Progress and Finished Goods are valued at lower of Cost or Net Realizable Value. Cost of these inventories includes Costs of Conversion and Other costs incurred in bringing them to the present location and condition.

Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

1.15 Provisions and contingencies

Provisions

Provisions are recognised when there is a present obligation or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are determined by discounting the expected future cash flows at a pre tax rate that reflects current market assessment of the time value of money and the risks specific to the liability

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

1.16 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

1.17 Financial Assets

1.17.1 Classification of financial assets

Classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

Amortised Cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss:

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain or losses in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

1.18 Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost less provision for impairment.

1.19 Cash and Cash equivalents

In the cash flow statement, cash and cash equivalents includes cash in hand, cheques and drafts in hand, balances with bank and deposits held at call with financial institutions, short-term highly liquid investments with original maturities of three month or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet and forms part of financing activities in the cash flow statement. Book overdraft are shown within other financial liabilities in the balance sheet and forms part of operating activities in the cash flow statement.

1.20 Impairment of Financial assets

The Company assesses impairment based on expected credit losses (ECL) model to the following:

- Financial assets measured at amortized cost
- Financial assets measured at fair value through other comprehensive income
- Expected credit loss are measured through a loss allowance at an amount equal to :
 - the twelve month expected credit losses (expected credit losses that result from those default events on the financial instruments that are possible within twelve months after the reporting date); or
 - full life time expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument).

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

1.21 Income Recognition

Interest Income

Interest income from debt instruments is recognized using the effective interest rate method.

1.22 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method or at fair value through profit or loss.

1.22.1 Trade and other payables

Trade and other payables represent liabilities for goods or services provided to the Company prior to the end of financial year which are unpaid.

1.22.2 Borrowing

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest rate method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

1.22.3 Foreign exchange gains or losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period,

the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in profit or loss.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the exchange rate at the end of the reporting period. For financial liabilities that are measured as at fair value through profit or loss, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss.

1.23 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Company has only a single reportable segment.

1.24 Leases

Leases of property, plant and equipment where the Company, as a lessee has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Contingent rents are payable as per the agreed terms.

1.25 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are

assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

1.26 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

1.27 Earning Per Share

Basic earnings per share have been computed by dividing the net income by the weighted average number of shares outstanding during the year. Diluted earnings per share has been computed using the weighted average number of shares and diluted potential shares, except where the result would be anti-dilutive.

1.28 Exceptional Items

Exceptional Items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of Company's financial performance. Items which may be considered exceptional are diminution in value of investments in equity shares of subsidiaries, Impairment Loss, etc.

44 SEGMENT REPORTING		
The Company has considered business segment as the primary segment for disclosure. The Company is primarily engaged in a single segment business of manufacture and sale of garments and is managed as one entity for its sale and is governed by a similar set of risks and return. Hence, no additional disclosures are required, other than those already given in the Financial Statements.		
The Company has identified Geographical Segment as the secondary segment which consists of:		
a) Domestic (Sales to customers located in India)		
b) International (Sales to customers located outside India)		
Revenue directly attributable to segments is reported based on items that are individually identifiable to that segment. The Company believes that it is not practical to allocate segment expenses, segment results, assets used, except trade receivables, in the Company's business or liabilities contracted since the resources/ services/ assets are used interchangeably within the segments. All fixed assets are located in India. Accordingly, no secondary segmental information is disclosed.

(i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

The company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include the use of quoted market prices or dealer quotes for similar instruments. The carrying amounts of trade receivables, trade payables, cash and cash equivalents and other current financial liabilities are considered to be the same as their fair values, due to their short-term nature.

Capital management

(a) Risk management

The company's objectives when managing capital are to

-safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and

-maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, The company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Financial instruments and risk management (contd.)

Financial risk management

The company's activities expose it to market risk, liquidity risk and credit risk.

A.Credit risk

Company faces credit risk from cash and cash equivalents, deposits with banks and financial institutions and unsecured trade receivables. The company doesn't face any credit risk with other financial assets.

(i) Credit risk management

Credit risk on deposit is mitigated by depositing the funds in reputed private sector bank. For trade receivables, the primary source of credit risk is that these are unsecured. The Company sells the products to customers only when the collection of trade receivables is certain and whether there has been a significant increase in the credit risk on an on-going basis is monitored throughout each reporting period. As at the balance sheet date, based on the credit assessment the historical trend of low default is expected to continue. An impairment analysis is performed at each reporting date on an individual basis for major clients. Any recoverability of receivables is provided for based on the impairment assessment. Historical trends showed as at the transition date and 31st March 2017 company had no significant credit.

B.Liquidity risk

Objective of liquidity risk management is to maintain sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Management monitors rolling forecasts of The company's liquidity position and cash and cash equivalents on the basis of expected cash flows.

(ii) Maturities of financial liabilities

The tables below analyse The company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

a) all non-derivative financial liabilities, and

b) net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows.

Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

C.Market risk

(i) Foreign currency risk

The company activities exposes it to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD and EURO. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

A.1 Ind AS optional exemptions

A.1.1 Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities.

Accordingly, The company has elected to measure all of its property, plant and equipment, intangible assets and investment property at their previous GAAP carrying value.

A.1.2 Designation of previously recognised financial instruments

Ind AS 101 allows an entity to designate investments in equity instruments at FVOCI on the basis of the facts and circumstances at the date of transition to Ind AS. The company has elected to apply this exemption for its investment in equity investments.

A.2 Ind AS mandatory exceptions

A.2.1 Estimates

An entity's estimates in accordance with Ind ASs at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at 1 April 2016 are consistent with the estimates as at the same date made in conformity with previous GAAP. The company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

Estimation of expected credit loss

A.2.2 De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition

provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

A.2.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (investment in debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

C: Notes to first-time adoption:

Note 1: Investment Property

Under the previous GAAP, investment properties were presented as part of non-current investments. Under Ind AS, investment properties are required to be separately presented on the face of the balance sheet. There is no impact on the total equity or profit as a result of this adjustment.

Note 2: Preference shares

Under the previous GAAP, Cumulative redeemable preference shares were classified as part of equity, under Ind-AS 109, the same has been classified as borrowings. Consequent to this equity has reduced by ₹25.10 crores as at April 1, 2016 and March 31, 2017

Note 3: Interest accounted on EIR basis on Preference shares

Under the previous GAAP, un-declared dividend was shown as contingent liability, consequent change in classification of preference shares interest has been accounted as per effective interest rate method. The above reduced the equity by ₹0.88 crores as at 31 March 2017 (April 1, 2016 ₹0.63 crores)

Note 4: Revenue

On adoption off Ind AS, company has reassessed it revenue recognition and has de-recognised where it had continuing managerial involvement post the sale. Consequently, the total equity as at 31 March 2017 decreased by ₹32. 29 (1 April 2016 ₹14.71) and profit for the year ended 31 March 2017 decreased by ₹19.51.

Note 5: Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. There is no impact in overall equity due to above adjustment

Note 6: Mark to Market of Forward contracts

Under previous GAAP premium on forward contracts were amortised over the tenor, under Ind AS the forward contracts are marked to market, Profit for the year 31 March 2017 decreased by ₹0.03 and equity reduced by NIL as at 31 March 2017, equity increased by ₹0.03 as at 1 April, 2016
