

Annual Report 2010-11

Many rays.
One rising sun.

The rising sun is the mark of a new beginning.

A symbol of change that dispels darkness to shower light and warmth on the world.

And so keeping the Sun as our ideal, the Jagran group is proud to awaken to a new beginning.

A new identity that symbolises renewed energy and determination to progress with the changing times.

An embodiment of how various disciplines can unite to form a whole greater than the sum of its parts.

The same way as many rays uniting to form one rising sun.

We are Jagran. A progressive media group.

The Company's Code inter alia, prohibits purchase and/or sale of shares of the Company by an insider, while in possession of unpublished Price Sensitive Information in relation to the Company during prohibited period which is notified to all sufficiently in advance. The Company's updated Code is available on Company's website.

v) Non-Mandatory Requirements

The Company has complied with following non-mandatory requirements of Clause 49 of the Listing Agreement.

(a) Remuneration Committee:

A Sub-Committee of Board of Directors named as Remuneration Committee is constituted on November 18, 2005.

(b) The Company has a whistle blower mechanism wherein the employees are free to report violations of laws, rules, regulations, frauds or unethical conduct to their immediate supervisor or such other person within the organization as they deem fit including CMD/CEO/CFO. The confidentiality of those reporting violations is maintained and they are not subjected to any discriminatory practices.

(c) Audit Qualifications:

During the year, there is no qualification except the one regarding amortization of the Title-Dainik Jagran ("the Title") as contained in previous year's audit report.

Accounting Standard 26 – Intangible Assets prescribed by the Companies (Accounting Standards) Rules, 2006, and the relevant provisions of the Companies Act, 1956, requires amortization of intangible assets over their estimated useful life. In view of the Management, Title Dainik Jagran has an indefinite life and therefore it is not amortised.

Considering the impending convergence of Indian Accounting Standards with International Financial Reporting Standard ("IFRS") as indicated by the Institute of Chartered Accountants of India, and recent press note from Ministry of Corporate Affairs, the Company considers it likely that its financial statements will also be prepared in accordance with IFRS over the next three years or so.

Post migration to IFRS, the Company will no longer be required to amortize the Title but will need to test the same for impairment annually or earlier, if there arises a triggering event in the interim period. The Company believes that on the basis of its business projections, no impairment on such review is likely. Accordingly, considering the impending migration to IFRS, the Company has not amortized the value of Title of Rs 1,700 lakhs, as currently required by Accounting Standard – 26.

15. MEANS OF COMMUNICATION:

The Company regularly intimates and publishes its audited/un-audited results in all the editions of Business Standard (English) and Dainik Jagran (Hindi). The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

Overview:

Indian Economy and Media & Entertainment Industry

In line with the expectations, India's GDP registered a healthy growth of around 8.4% as per advance estimate of Central Statistics Office which is higher than the final revised GDP growth of 8% for the year 2009-10. All those fears and apprehensions surrounding the European crisis were dismissed by India recording strong growth exceeding 5% in agricultural and allied activities and a still stronger pick up in exports and demand for consumer durables and automobiles that helped the Company record a growth of 20% in advertisement revenue as against expected growth of 18%.

There is no doubt, India is well poised to sustain growth exceeding 8% for several years owing to its demographic advantage and increasing level of income. However, the immediate and long term threats to high growth are governance issues keeping GDP growth lower than the national average in some States, inflationary and resultant cost pressures, overhyped corruption hurting the confidence, slow movement of files for clearance of projects and investments, frequent changes and modifications in policies for Foreign Direct Investment (FDI) and environmental issues that are delaying or halting the progress of various projects. Under the circumstances, there is no surprise that FDI inflow has fallen in recent times. It needs to be addressed on urgent basis to keep India an attractive investment destination which is a key to long term sustainable growth.

Media and Entertainment industry which has a proven correlation with GDP benefitted and recorded a growth of over 11% in the calendar year 2010 as against mere 1.38% in the calendar year 2009. In terms of advertising revenue, the growth was nearly 10% as against a highly subdued growth of 3.16% in calendar year 2009 which was the lowest in past 5 years.

The year 2010 witnessed a jump in subscription revenues which augurs well for the industry as the media consumers are learning to pay for relevant content. However, in print media where cost of creation and delivery of content is far higher than in any other media, subscription revenues remain under pressure because of expansion in the name of increasing penetration which is not backed by any thought on return on investment even in long term. These long term stories are near impossible to materialize and ever give return to an investor. As discussed in the previous year as well, still worst is that this does not increase the penetration to any notable extent, and at best results in duplicity of readership. This is a serious threat to the industry as well as to the investors.

Print Industry

India continues to be the largest newspaper market with more than 100 million copies circulated daily, accounting for more than 20% of all dailies in the world. It is also true that India's print industry is probably most fragmented with over 75000 registered newspapers circulating in India with different periodicities. Still, owing to less than 30% penetration, rising income and literacy, huge growth potential remains intact for years and India is not likely to witness a reversal of this trend like many other developed countries in next couple of decades or so. Once the economy was in shape, print industry bounced back and recorded a growth of more than 10% in the year 2010 as against a meager growth of 1.75% in the corresponding previous year but at the same time the industry's dependence on advertisement revenue has increased further. Growth in advertisement revenue was nearly 15% as against growth of mere 3% in subscription revenue. This trend is opposite to the trend noticed in electronic media which is fast moving to the paid content model, reducing its dependence on advertisement revenue. If we look at past 5 years from 2005 to 2010, the ratio between advertisement revenue and circulation revenue has dramatically changed from 59:41 in 2005 to 63:37 (on higher base) in 2010. Not only in developed countries but even in the under-developed countries like Bangladesh and Pakistan cover prices are far higher than those in India. This has primarily happened as the high potential Hindi speaking belt has been facing the worst of the cover price war. On the one hand cover price has been falling; on the other hand industry continues to pay high distribution cost. Print probably is the only industry where the distributor gets 30% or more of the cover price. The percentage drastically increases to an unbelievable percentage once the cover price is reduced and distributors do not agree to reduce their per copy commission in absolute amount.

Cover price lower than the realisable value of waste paper is a greater challenge as this directly impacts Industry's effort to market expansion. The measurement of penetration in print industry has for long been considered most reliable by the advertisers as each newspaper copy sold is certified by Audit Bureau of Circulation(ABC) following stringent audit norms, which gets further corroborated to an extent by the readership survey. In a regime where cover price is lower than value of waste paper, publishers can not have their circulation certified by ABC. This denies advertisers to a realistic assessment of a newspaper's true effectiveness. Without doubt, readership survey is an effective tool of measurement but since it is based on sample, its findings have sampling limitations and therefore cannot be deemed as accurate as ABC certified circulation, which is globally regarded as most reliable source to determine the penetration of a newspaper. Moreover, as against two tools of measurement, advertisers will be left only with one tool. Lower degree of assurance on effectiveness of a media vehicle will most certainly put pressure on pricing as we see in case of radio or electronic media. Even in case of government advertisement so low cover price coupled with high distributor commission adversely affects the DAVP rate and thus restricts market expansion.

As discussed in the previous year, we reiterate our belief that low cover price or cover price lower than the realization per copy waste paper will take the industry anywhere and will make the business model too vulnerable to the uncontrollable external environment such as increase in newsprint price or slowdown in economy and shall make the publishers desperate for advertisement revenue. These practices are not healthy. Over dependence on advertisers for survival creates question mark on the credibility of contents, does not let the industry expand to its potential and hurts the sentiments of the investors. Further, publishers also need to unite to reduce exorbitant distribution cost.

Newspaper industry is also currently under some pressure on account of un-expected hike in prices of domestic newsprint which probably for the first time have got delinked or decoupled from International prices. The reason cited by the domestic newsprint suppliers is the shortage of waste paper used for recycling which has created a bit of uncertainty with regard to availability of domestic newsprint and its prices. The reason for shortage may not be fully justifiable due to India's continued dependence on imported newsprint for most of its requirements but the possibility of some pressure on availability of waste paper is not ruled out due to unexpected demand from altogether new industries, such as Pan Masala - which have been prohibited by the Government to use plastic for packaging for environmental reasons. If this demand increases further, it will bring the domestic newsprint prices under additional pressure. However, we believe that even domestic newsprint prices will fall, sooner than later. Further, impact of increase in newsprint prices differs from publisher to publisher. Publishers who have diversified offerings and flexible circulation model get less affected.

Another concern that industry is currently facing is with regard to expected wage revision based on Wage Board recommendations. These recommendations are too arbitrary and are not based on facts and figures. Indian Newspaper Society and individual publishers have made representations against these recommendations and we believe that the Government will consider them favorably before taking a decision otherwise it will hit small publishers irreparably.

Competition, so far as in Hindi speaking areas is concerned, has been intensifying for past 3-4 years but it is likely to peak in next couple of years. We hope and trust that it does not get more irrational while peaking.

Disparity in advertisement rates between English and Indian language publications continues despite better reach and more or less similar demography of the readers of Indian language newspaper. Fortunately, this gap has been bridging, albeit slowly.

Also, the industry's dependence on education sector will continue to remain high for some years and focus on regionalization of contents and innovation will remain key to the success in the industry as hitherto.

Low penetration and increasing income will keep on driving the growth of print media companies but the real challenge is to maintain profitable growth given pressure on pricing owing to irrational competition and continuing disparity between English and Indian language newspapers in terms of advertisement rates. We believe that answers to this lie in cost control, growth through inorganic route and above all preference to innovation over expansion to create a differentiator. Here too, the companies with diversified offerings and flexible circulation models will have an edge.

The Company

Once again the Company outperformed the industry registering a top line growth of 18.41% as against an overall growth of around 11% in Media and Entertainment industry and 10.28% growth in print media industry in the calendar year 2010. Besides the Company's print business, other allied businesses viz. Outdoor advertising, revenue from Event Management activity and Digital business too registered steep growth. Outdoor business reported profit for the first time since inception in 2006. Digital business registered a

growth of 169.28%.

Whereas, Dainik Jagran, the Company's flagship brand, continues to retain No.1 position in Indian print industry as per IRS2010Q4 and has also strengthened its market position in urban markets in accordance with the strategy adopted by the Company in last 5 years, other print brands of the Company viz. i-next and City Plus too performed satisfactorily. There was some dip in average issue readership as compared to IRS2010Q1 in case of i-next but total readership registered a growth of 7%. Fall in average issue readership was primarily due to controlling the copies slipping unintentionally to upcountry which is not the target market for this youth oriented premium brand and drop in circulation in certain pockets where main dailies reduced the effective cover price to the level of I-Next or even lower. However, strategies have been formulated and steps have been taken to ensure that average issue readership numbers register growth in forthcoming surveys and accordingly circulation of I-Next grew by about 15% in Quarter 4 from Quarter 3.

Average issue readership of Dainik Jagran that was more or less stagnant for some time due to Company's focus on monetization of existing numbers and strengthening its position in urban markets, has seen reversal in trend in last two surveys as a result of steps taken to boost circulation keeping in mind requirement of numbers to sustain high advertisement revenue growth after couple of years from now. We expect that this trend will now continue in future as well.

During 2010-11 the Company, after a gap of few years, has increased the circulation by 8.17%. In 2011-12, it is expected to increase further by over 10% in identified markets. In addition, the Company is launching Punjabi Jagran, a Punjabi newspaper to penetrate further in Punjab and has already commenced expansion of The Inquilab, the largest read Urdu daily of the Country, in its foot print areas through its subsidiary Middy Infomedia Limited (MIL).

The Company's other businesses namely Outdoor advertising and Event management performed incredibly, expanding their customer base and outperforming the industry by miles in terms of growth. The high point of their performance was control over cost while expanding and this is what enabled Outdoor Advertising reporting profit for the first time and becoming self dependent for its requirement of funds in a short period of less than 5 years.

Relevance of presence of a print media company in internet space need not be over emphasized. Even though it is not expected to generate significant revenues in relation to a publishing company's total revenue in foreseeable future, all print media companies especially those, who, unlike the Company, have significant revenue from classifieds/tender advertisements, should remain prepared to meet the threat if any from the internet. Accordingly, your Company has regularly been investing in online without going overboard and has significantly increased its offerings and investment over a period of years. However, it has successfully recovered most of its investment by generating revenues and has thus been able to reduce its net investment (i.e. investment minus revenue generated). During the year, the Company has launched English version named JagranPost.com and iPHONE version of its popular Hindi news portal Jagran.com. Besides above, JagranJosh.com an education portal was also launched successfully and the award winner Khojle.in was extended to cover tenders as well as white label solution for classifieds. Company's subsidiary Middy Infomedia Limited too has strong presence in digital space through its website midday.com which is hugely popular and has had increase in traffic of more than 300% from the previous year with growth in revenue exceeding 200%.

Keeping in view the increasing penetration of mobile phones which we believe is going to become one of the important platforms to deliver the contents in times to come, the Company launched Jagran on mobile named as m.Jagran.com which has already gained 6 million page views per month in addition to about 70 million page views of Jagran.com with unique users base of 1.7 million.

Pursuing the object of growth through inorganic route, acquisition of MIL was completed and it became a 100% subsidiary of the Company with effect from 1st April 2010. The Company also came close to become a strategic partner with one of the strong Indian language brand but unfortunately the same could not materialize as the findings of due diligence did not justify investment. Endeavor, however, continues in this direction as we firmly believe that this is the most economical and profitable growth strategy.

Subsidiary and Associates

MIL became a 100% subsidiary of the Company with effect from 1st April 2011. Post 31st March 2011, 3.81% of the paid up equity capital has since been diluted in favour of the erstwhile promoters of Next Mediaworks Limited (formerly Mid-Day Multimedia Limited) by way of fresh issue of shares. Leet OOH Media Private Limited (Leet) and X-pert Publicity Private Limited (X-pert) are associates. The Company holds 37% equity shares and 39.2% equity shares respectively. Remaining shareholding in both these companies is partly held by third party and partly by the promoters and their family members. Leet and X-pert both are in outdoor business and the Company has made investment in these companies in accordance with its strategy to acquire/invest in small operators to inorganically grow its outdoor business.

Post acquisition by the Company, MIL commenced implementation of the Company's strategy of strengthening Midday English and Midday Gujarati in Mumbai and identifying the areas of synergies and cost cutting, the full impact of which will be seen in next couple of years.

In addition to its equity holding, the Company has invested Rs.25 crores in MIL by subscribing to the Cumulative Non-convertible Redeemable Preference Shares of the aggregate face value of Rs.10 crores to retire high interest bearing debts and to strengthen MIL's capital base. These Preference Shares carry a coupon rate of 22.5% and are redeemable after 12 years or such other period as may be mutually decided between the Company and MIL.

Leet came in operation in the last month of the previous year and X-Pert commenced operations in the last quarter of financial year 2008-09. Leet has display rights of 253 bus shelters at Goa for 20 years extendable for another 20 years whereas X-pert has outdoor properties in various towns of Uttar Pradesh.

Awards and Recognition

The most notable recognition of the group was winning 6 awards at INMA Awards 2011 leaving behind all its peers in India by miles. In fact, the group has won 6 awards which is highest number of awards won by any single group in whole of the world. - 13) Jagran Engage, the Out of Home Solutions Division has been selected amongst the Top 7 media owners of India by Outdoor Advertising Association.
- 14) The CMD and CEO continue to remain as India's Top 50 Powerful People as per India Today.

Outlook:

The low penetration of print media sector in smaller towns and rural India offer opportunities for growth. According to FICCI-KPMG Indian Media & Entertainment Report, the industry is expected to register a CAGR growth of 10% during the next 5 years starting from the year 2011 as against CAGR growth of 6% during the period 2007-2010. These data clearly demonstrate that the times ahead are filled with enormous growth opportunities and the industry needs to capitalize on the same. As per their projections, Out of Home advertising will register a CAGR growth of 12% in next 5 years as against 6% during the year 2007-10. Digital advertising is projected to grow at a CAGR of 28% in next 5 years as against 39% during the year 2009-10. The said report also forecasts that local and regional markets will grow faster as it has been happening for past 4-5 years. Advertising and circulation revenues are estimated to grow at a CAGR of 13% and 2% respectively during the aforesaid period in the country.

In 2011, the industry is expected to grow at over 9%. Hindi newspapers and other Indian language newspapers are estimated to have shared little over 60% in the total industry size, which means the share of English newspapers will shrink to 40% from 50% about 5 years ago. This growth story of Hindi and other Indian languages shall continue in future as well and at the end of 5 years, share of English newspapers is likely to be around 36% only as against 67% share of other languages out of which Hindi newspapers are expected to command 31% share. We reiterate that if the pressure on pricing is eased which is not ruled out, Hindi newspapers will have much larger share than expected.

Basis these estimates and given the fact that Indian per capita advertisement spend continues to be pretty low as compared to the global per capita advertisement spend. We believe that the growth in print industry is inevitable. In our areas of operation, which houses nearly 60% of the country's population and primarily comprise tier-II and tier-III towns and rural India, it is going to be still higher as has been witnessed in the last decade and it will be sustainable in long term also.

The media sector will also benefit from the demographic impetus with rising income levels, growing urban class and increasing Indian middle class. As per McKinsey, income levels are likely to triple in India in next two decades, with the country becoming the fifth largest consumer market from twelfth at present. The Indian middle class is expected to swell by over 10 times, increasing from the current size of 50mn to 583mn by 2025. Also, as income levels rise with the burgeoning middle class, spending patterns will shift to discretionary items rather than basic necessities. Discretionary spending and consumption of lifestyle products augur well for the advertising industry.

The Company is well poised to capitalize on this growth opportunity and outperform the industry as hitherto.

Opportunities and Threats:

As discussed above, the industry has tremendous growth potential. The next 5 years are filled with opportunities.

Your Company has appropriate plans to ensure that it continues its past trend of growth in future. In immediate future, the Company's focus is not to lose market share in spite of intensifying competition and rely on innovation to create differentiator. Cost control and endeavor to grow by joining hands with other brands shall continue to ensure that the Company achieves a profitable growth.

The threats to the whole industry, and not to the Company alone, are irrational competition resulting in undue pressure on pricing and over dependence on advertisement revenue for survival. However with large and loyal reader base, the Company's not so aggressive policies and the Company's commitment to give reasonable return on investment will help Company meet these threats successfully.

Risks and Concerns:

1) Economic slowdown

Any slowdown in economy would adversely impact the advertisement revenue.

Management Perception:

Our business model is not so heavily dependent on advertisement revenue as to result in operating losses in the event of economic slow down unless it is too steep, which we do not foresee. Further, the economic slowdown does not have or has little bearing on local market as well as revenue from Government. In our case, local market contributes 56% of total advertisement revenue. Lastly, the degree of economic slowdown is not necessarily the same across the country and therefore our presence through various print brands and allied businesses in 14 States gives us an edge.

2) Competition

The Indian newspaper industry in general and Hindi newspaper industry in particular has become intensely competitive. In each of our markets, we face competition from other newspapers for circulation, readership and advertising. In addition, we face competition from other forms of media, such as, television, radio and internet.

In the event of competition for circulation or advertisement revenue, we may (i) increase number of pages per copy, (ii) reduce the cover price, (iii) reduce advertisement rates (iv) offer other price incentives or (v) offer promotional schemes. Any reduction in prices or rates or the introduction of price incentives/promotional schemes will have a material adverse effect on our results of operations.

Management Perception:

Like any other newspaper publisher, we too have competition but our competitive strengths such as strong national brand, bouquet of titles, offering of 360° solution to the client, experienced management team, reader connect, Pan-India infrastructure, strong net-worth, liquidity and investment in product development and upgradation of technology on regular basis enhance our capabilities to meet the competition effectively. Further, we have competed successfully in the past and in the new markets and have always endeavored to expand the market size and make our own readers base, more than targeting the readers of existing newspapers. Acquisition or association with other publication brands will add to our strength and increase our market share. Our ability to compete is demonstrated in the fact that Dainik Jagran continues to be No.1 newspaper since 2003 without break (Source: Indian Readership Survey). Our other publication brands too are successfully established over a short span of time.

3) Dependence on Advertisement Revenue- From Publication Business

We rely substantially on advertising customers for our revenue. During the year ended on 31st March 2011 and 31st March 2010, we derived respectively from advertisement revenues 76.85% and 74.23% of our total revenues from publication business.

Ad-spend by our customers and our ability to attract new customers is influenced largely by the circulation and readership of our newspapers, by readership demographics, by the preference of advertising customers for one media over another and with respect to national advertising the geographical reach of our newspapers. In addition, ad-spend is influenced by a number of factors including the Indian economy, the performance of particular industry sectors, shifts in consumer spending patterns, changes in consumer sentiments and tastes and competitive pressures.

Management Perception:

The Company has been achieving higher than industry's overall growth rate for years which coupled with advertiser friendly policy gives us confidence that we will continue to attract advertisers. Further, the bouquet of print titles and other businesses help company in providing 360° solution to the customers and thereby gives an edge over its competitors. Further, our competitive strength, leadership position in the fastest growing Hindi segment and ability to innovate will continue to attract readers and advertisers alike.

4) Newsprint price fluctuation

Newsprint forms the major raw material for our business and represents a significant portion of our expenses. For the years ended 31st March 2011 and 31st March 2010, newsprint costs represented 26.41% and 25.29% respectively of our total income.

Management Perception:

The Company has always been successful in minimizing the impact of sharp increase in prices given its flexible circulation model and expects to do so even in future. Also, the Company has sufficient quantity of imported newsprint tied up for whole of the financial year 2011-12. Lastly, with increasing contribution of non-newsprint based business in total revenue, the Company's vulnerability to any erratic newsprint price fluctuation is less than many. We also expect that increasing prices of domestic news print will stabilize sooner than later, any further increase does not seem justifiable.

5) Dependence of business on senior management team

We have a team of professionals to oversee the operations and growth of our businesses. Our success is substantially dependent on the expertise and services of our management team. The loss of the services of such management personnel or key personnel could have an adverse effect on our business and results of operations. Further, our ability to maintain our leadership position in the print media business depends on our ability to attract, train, motivate and retain highly skilled personnel.

Management Perception:

The Company has team of professional managers commensurate with its size of operations, with dependence on no single person. We have second line management in all our departments to takeover from seniors. Further, the Company is enjoying a leader's position and does not have threat of losing key personnel as is evident from the facts that we have not had any significant turnover at senior management level. The company has been attracting best of talent available in the industry.

6) Our investments in M.P based companies

Besides Rs. 10.50 lakhs invested as equity, an aggregate amount of Rs. 2511.08 lakhs plus unpaid interest (Previous year: Rs.2771.78 lakhs plus unpaid interest) is outstanding from Jagran Publications Private Limited and Jagran Prakashan (MPC) Private Limited as loan. The Company (JPL) holds 50% voting rights. Balance 50% voting

rights are held by another group of shareholders (hereinafter referred to as "Other Group") in these two companies.

Various litigations have been initiated by Other Group against the Company. In case of Jagran Publications Private Limited, the Company has also filed the petition against Other Group, which is in management, alleging mismanagement and oppression of the Company as shareholder and seeking a direction from the Company Law Board against the Other Group to sell their shareholding to company at a price to be determined by an independent valuer or alternatively to vest the management rights with the Company.

The Other Group companies have also not been holding Board meetings nor have they been supplying any financial information to the Company. Owing to the stalemate situation the accounts of these two companies have also not been finalized since 2006-07.

To recover the debt owed by Jagran Prakashan (MPC) Private Limited, the bank has sold all assets under its charge.

Articles of Association of the two Madhya Pradesh companies also restrict the transferability of the shares in a manner that JPL cannot transfer shares without the consent of other group of shareholders.

Given these litigations, the realization of outstanding loans from these two companies may take unduly long time.

Management Perception:

In none of the litigations initiated against the Company by the Other Group any interim relief has been granted by the Company Law Board or High Courts. Rather, the petitions seeking striking off the Company's name from the register of shareholders in Jagran Publications Private Limited has been dismissed by Hon'ble Company Law Board. Other Group has since appealed in the High Court which has neither stayed the impugned order nor has passed any order so far.

As per legal advice received by the Company, decisions against the Company in the suits / petitions filed by Other Group are unlikely as the Company has merit in its petition filed against Other Group. Based on the legal advice the management is of the view that the Company's investment in equity and loan in these associate companies are fully realisable even in an unlikely event of outcome going against it.

Even though Jagran Prakashan (MPC) Private Limited does not have any tangible asset, the debt due from them will be settled alongwith the debts from other company i.e. Jagran Publication Private Limited.

Despite having 50% voting power and having equal representation on the Board with Company's nominee as the Chairman with a casting vote, the Company is not in reality has been in a position to exercise any control over these companies or influence any of the decision taken by Other Group. In view of the aforesaid situation the investment in these two companies has been classified as investment instead of as investment in Associate Companies without prejudice to the legal rights with JPL. (Also, refer to Note No.2 of Schedule 20B to annual accounts).

Internal control systems and their adequacy

We have put in place requisite internal control system in all areas of operation. These systems have stood the test of time and ensure that the activities are carried -on efficiently. The role and responsibility of all managerial positions are established, monitored and controlled regularly. All the transactions are authorized, timely recorded and reported truly and fairly. However, as part of an on going process, we have further strengthened it by making a few more processes and workflows IT system based to ensure tighter control, monitoring and increased accountability in various areas of operation.

In order to ensure adherence to the laid- down systems, apart from internal reporting and monitoring, we have also put in place formal Internal Audit System commensurate with the size and nature of business. We will continue our focus on improving the systems and procedures further to improve efficiency, transparency and accuracy

in financial reporting.

SEGMENT PERFORMANCE

The Company continues to be primarily engaged in printing and publishing newspaper and magazines in India. The Company also has various other businesses such as out of home advertising, event management and digital business including Short Code Service (57272) for mobile phone users. However, for the fiscal under report, printing and publication business has continued to be the only reportable segment in terms of Accounting Standard 17 issued by the Companies (Accounting Standards) Rules, 2006 as it had contribution of 89.42% in total sales and other operating income of the Company.

FINANCIAL PERFORMANCE

Previous year's figures have been regrouped / recast wherever necessary to make them comparable to the corresponding figures of the current year and therefore may not necessarily match with those reported in the previous year. Further, the figures have been rounded off to nearest lakh.

THE COMPANY (STANDALONE)

Revenue break-up

(Rs in lakh - rounded off to nearest lakh)				
	2010-11	Percentage (In relation to total income)	2009-10	Percentage (In relation to total income)
Sale and other operating Income *	111524	97.96	94186	96.49
Other Income	2319	2.04	3425	3.51
Total Income	113843	100	97611	100

* Includes increase / decrease in stocks, which is insignificant.

Sales and other operating income

It comprises of advertisement revenue, newspaper sales, revenue from out of home advertising, revenue from event management, job charges, scrap and waste paper sale, magazine/supplement sale and revenue from digital business. The overall revenue grew by 18.41% over the previous year. This was primarily contributed by increase in advertisement revenue by 20.07%, revenue from event management by 53.91%, revenue from outdoor advertising by 21.26% and revenue from digital business by 169.28%. The growth in advertisement revenue was attributed to increase in space as well as yield per square cm.

Growth in operating revenue of 18.41% is way ahead of over all entertainment and media industry's growth as well as print media industry's growth, which are estimated to have grown by 11% and 10.28% respectively in the calendar year 2010.

Other Income

Other income primarily comprises treasury income, exchange fluctuation gain, miscellaneous income representing write back of certain personal account balances considered no longer payable, provision no longer required written back and bad debts recovered. The fall in other income is primarily because of lower treasury income due to deployment of funds in business and insignificant exchange fluctuation gain as compared to gain of Rs.8 crores approx. in the previous year.

Taxation	9591	8.42	8332	8.54
Profit After Tax (PAT)	20583	18.08	17590	18.02

Materials consumed

It comprises cost of newsprint and art paper (used for magazine), ink and stores which includes printing plates, chemicals, films etc. The newsprint alone constituted 83.90% of the total material consumed as against 83.42% in the pervious year. Out of the total value of consumption of newsprint, imported newsprint accounted for 24.93% as against 20.65% in the previous year. The increase in material consumption was on account of increase in newsprint cost by about 10.40% from the previous year which lowered the operating profits by Rs.2800 lakh approx. or reduced the operating margin by 250 basis point.

Employees cost

Employees cost increased by 17.95% compared with the previous year primarily due to annual increments, dearness allowance and upward revision in ESI limit from Rs.10,000/- to Rs.15,000/- besides increase in strength due to expansion of capacity, launch of new editions of i-next and City Plus and steep increase in volume of other businesses.

Manufacturing and other Direct expenses

Other manufacturing expenses comprise direct expenses relating to outdoor advertising, event management and digital business, news collection and articles contribution charges, power and fuel, inward freight cartage on items other than newsprint and repairs and maintenance of building and plant and machinery including computer. These expenses have increased by 20.60% compared with previous year primarily due to increase in circulation and steep increase in volume of other businesses, which recorded an aggregate growth of 43.99%.

Selling, Administrative and other expenses

Selling, administrative and other expenses grew by 6.16% to Rs.15252 lakhs (Previous year Rs. 14367.31 lakhs). These include newspaper distribution, representative, promotional, publicity, incentives to agencies/advertisers, communication, travelling, rent, donations, auditor's fees, foreign exchange fluctuation, write offs and provisions. The increase is marginal despite steep increase in publicity and promotional expenses due to competitive pressures and new editions of i-next and City Plus.

PBIDTA increased as a result of foregoing factors.

Interest charges increased by Rs.63 lakhs as compared to previous year primarily due to increase in interest rate on working capital limits, higher security deposits from newspaper agents, and higher borrowings due to higher scale of operations. But for this, interest would have been lower than the previous year due to increased availment of buyer's credit facility in foreign currency and stringent monitoring of debt collection.

Depreciation is provided on the written down value method as against straight line method adopted by the peers. As a consequence, the Company's depreciation charged to Profit & Loss account remains significantly higher in the initial years of additions to the gross block. Depreciation for the year was higher due to addition of Rs.13239 lakhs to the gross block of fixed assets.

As a result, overall, company's profit before tax increased by 16.4% to Rs 30174 lakhs (previous year Rs 25922 lakhs). Due to increased profit, company's tax increased to Rs 9591 as against 8332 in the previous year. Profit after tax for the year increased by 17% to Rs 20583 lakhs as against Rs 17590 lakhs in the year 2009-2010.

Share Capital

The Company's Share Capital consists of 316267857 Equity Shares of Rs.2 each. During the year, there was a fresh issue of 15097272 Equity Shares pursuant to the Scheme of Arrangement to the shareholders of Next Mediaworks Limited (formerly Mid-Day Multimedia Limited) from whom their print business was taken over.

Reserves and surplus

During the year under review, there was no change in security premium.

A capital reserve of Rs.1451.39 lakhs was realised pursuant to the calculation of difference between consideration and value of net identifiable assets acquired under the Scheme of Arrangement under sections 391 to 394 of the Companies Act 1956 entered with Next Mediaworks Limited (formerly Mid-Day Multimedia Limited). Professional fees (Rs 700 lakhs) paid in connection with the above Arrangement has been adjusted from the Reserve and Surplus (Schedule 2) from the Profit and Loss Account balance (refer Note No.6 of Schedule 20B) In the opinion of management, this is realized capital reserve that is available for distribution of dividend.

Transfer of Rs.2100 lakhs to General Reserve from Profit and Loss Account was in compliance with statutory requirements.

The entire Reserves and Surplus as reflected in the Audited Accounts (except as stated above) represent either realized profit or premium received on issue of Shares.

Loans

Secured loans represent the loans raised from Indian as well as International banks.

The Company has availed buyer's credit facility in foreign currency of Rs.4724.75 lakhs and has an ECB loan of Rs. 5377.20 lakhs. ECB loan is repayable in three installments after expiry of 3rd, 4th, 5th year from the date of disbursement i.e.5th November 2008. The outstanding foreign currency loan and buyer's credit are not hedged for fluctuation in foreign currency as in our view cost of hedging

is higher than the expected fluctuation. In previous as well as current fiscal, we have had exchange fluctuation gain. The exchange fluctuation on the said borrowings is accounted for in accordance with the accounting policy as disclosed in Schedule 20. Remaining secured loan is on account of the working capital loan from Central Bank of India.

The rate of interest on ECB and Buyer's credit is linked to LIBOR, and on cash credit facilities it is linked to Base Rate.

Deferred Tax liability has been accounted for in accordance with Accounting Standard 20 issued by the Companies (Accounting Standards) Rules, 2006 (Please refer to Note no.11 of Schedule 20B annexed to the Accounts for details)

Fixed Assets

Fixed Assets worth Rs.13239 lakhs were added during the year, significant portion of which relates to enhancing the printing and publishing capabilities.

Fixed Assets include Rs.1700 lakhs, the value of masthead "Dainik Jagran" described as "Title". Non-amortisation by the company of value of "Title" has been commented upon by the Auditors. In the opinion of the company, title has indefinite life and does not need to be amortized and its non-amortization is also in accordance with the internationally accepted accounting practices. Please also refer to paragraph 14 (V) (C) of Report on Corporate Governance.

Capital work in progress includes advances for capital goods which have been given to the suppliers for supplying the equipments/plants to enhance the existing printing and publishing capabilities. It also includes machines and equipments under installation and advances to civil contractors. The total value of unexpired commitments representing orders for supply of equipment and plant, purchase of land and construction of building pending for execution as at 31st March 2011 were Rs.11656.54 lakhs.

Investments of Rs.23159.58 lakhs comprise of units of debt based mutual fund, equity and preference shares in subsidiary and associates and other equity investments in companies largely in nature of trade investment. Units of debt based mutual fund constitute approximately 80%, investment in subsidiary and associates 17% and remaining 3% in others. Units of mutual funds are liquid. (Please also refer to Schedule Number 5 for details)

Sundry debtors

Due to stringent targets fixed for collection and its monitoring, the debtors (net) turnover ratio for the year remains at the same level as in the previous year as less than 70 days.

Inventories were slightly higher primarily due to increased cost of newsprint. However, the inventory levels have come down from 65 days of consumption to 58 days consumption in the previous year.

Other current assets includes security deposits of Rs.826.75 lakhs given to the Promoters, Directors, their relatives and HUFs and also a group Company in respect of premises taken from them on lease in terms of agreement with them for company's use. These are interest free.

Other Current Assets have decreased from the previous year primarily due to decrease in interest accrued on FDRs.

Loans and Advances

It includes an amount of Rs 2511.08 lakhs (previous year Rs 2771.78 lakhs) given to certain companies in which the Company has share holding, having 50% voting rights. Out of this, an amount of Rs.350 lakhs was given interest free to one of the companies when the Company was a private limited Company. There was no stipulation with regard to repayment of Rs.350 lakhs. Please also refer to the paragraph titled as "Risks and concerns" hereof in respect of these loans. It also includes ICDs aggregating Rs. 11141.91 lakhs, out of which Rs.500 lakhs is given to a company in which some of the directors and / or their relatives are interested as shareholders/

directors. All these ICDs are interest bearing with rate of interest from 9% per annum to 15% per annum with ICD to aforesaid company at interest rate of 15% per annum. None of these ICDs have tenure exceeding 12 months. All ICDs are encashable on demand even before maturity.

Loans and advances also include an amount of Rs.5670 lakhs given to Jagran Prakashan Employee Welfare Trust (Trust) created to administer ESOP Scheme launched and approved by the shareholders of the Company for the benefit of the employees. This is a long term loan bearing interest @ 9.5% per annum. Interest is payable by the Trust as per their convenience.

Increase in loans and advances from the previous year is due to fresh ICDs and loan to the aforesaid Trust.

Current liabilities

Current liabilities mainly represent the liability for unpaid expenses, security deposits from Newspaper Agents and statutory liabilities such as deduction of Provident Fund from the employees and TDS. The Company has been regular in depositing statutory dues as well as paying its other liabilities on due dates. The liabilities are higher as compared to the previous year primarily due to higher purchases of newsprint in anticipation of increase in prices.

Provisions are higher as compared to the previous year because of higher proposed final dividend and tax thereon.

Taxation	166	1.52	502	5.00
Profit After Tax (PAT)	206	1.89	934	9.31

During the year material consumption has increased by 23 % from Rs. 2,262 Lakh to Rs. 2,785 Lakh. It comprises cost of newsprint, ink and stores. Newsprint constituted 83.80% of the total value of material consumed in the year 2010-11 as against 84.21% in the previous year. Increase in material consumption is mainly due to increase in average newsprint rates by 14.68% and increase in quantity consumed by 6.86% over previous year due to higher pagination.

Manufacturing and other direct expenses have increased by 9.89% from Rs. 687 Lakh to Rs. 755 Lakh primarily because of major repairs to plant and machinery, some repairs to building and increase in freight and cartage.

Employee Costs have increased from Rs. 2,675 Lakh to Rs.2, 968 Lakh an increase of 10.95% which is normal and primarily because of annual increments.

Selling, administrative & other expenses increased to Rs. 2,685 Lakh as compared to Rs. 2,345 Lakh in 2009-10 primarily due to one-off write offs and provisions on extremely conservative basis in line with the policies of holding company. But for these changes, increase in expenses is less than 5% which became possible due to stricter control over the expenses.

Depreciation was Rs. 1,002 Lakh as compared to Rs 265 Lakh in 2009-10. Pursuant to the scheme of arrangement, the Company has aligned its accounting policies with those of the holding company. Accordingly it changed the method of charging depreciation in respect of certain assets to Written-down Value Method which were earlier depreciated using the Straight-line Method as also changed its policy with regard to depreciation in case of leasehold improvement

to bring it at par with accepted accounting principles. As a result of these changes, depreciation expense for the year ended March 31, 2011 was higher by Rs. 737 Lakh.

Interest and Finance Charges were Rs. 193 Lakh as compared to Rs. 364 Lakh in 2009-10 mainly due to repayment of debt by the company from funding received from holding company.

As a consequence of one-off adjustments in the Profit & Loss account in order to bring the accounting policies in line with accounting policies and more specifically depreciation policy of holding company, the Profit Before Tax has been adversely impacted by an estimated amount of Rs.1029 Lakh.

As a result of above, Operating Profits, Profit Before Tax and Profit After Tax decreased from the previous year, yet at the same time the company has moved to conservative accounting policies that would largely help it to record impressive performance in future.

Share Capital comprises of 8861500 Equity Shares of Rs.10 each entirely held by the holding company Jagran Prakashan Limited (JPL) and 10000000 22.5% Cumulative Non-convertible Redeemable Preference Shares of Rs.10 each subscribed during the year and held by JPL. These Preference Shares were originally agreed to be redeemed in 2 years from the date of subscription but looking into the requirements of funds and proposed expansions, the holding company has agreed to extend the period to 12 years or such other period as may be mutually agreed. Redemption of Preference Shares has to be at the same value at which these were subscribed by the holding company i.e. including premium.

Reserves and surplus primarily include security premium of Rs.1500 Lakh received from the holding company on subscription of Preference Shares.

Secured loan comprises of Cash Credit of Rs.1204.11 Lakh and External Commercial Borrowing of Rs.48.60 Lakh. The Cash Credit facility is also guaranteed by Mr. Khalid Ansari and Mr. Tarique Ansari, the erstwhile promoters of the company's erstwhile holding company Midday Multimedia Limited.

Unsecured loans outstanding in the beginning have been retired during the year out of the funds received from holding company.

Investments comprise of unquoted investments aggregating to Rs.426.16 Lakh out of which an amount of Rs.226.16 Lakh (after providing for Rs.24.06 Lakh towards diminution in value of investment) is the value of immovable property. These investments have been made under private treaty arrangements with the advertisers.

Inventories have increased from Rs.285.26 Lakh in previous year to Rs.725.82 Lakh which is equivalent to 3.12 months consumption and is slightly on higher side because the excess material was purchased in expectations of rising newsprint prices.

Sundry debtors have reduced from 67 days of turnover to 65 days primarily due to provisioning and write offs on extremely conservative basis.

Cash and Bank balances have decreased from Rs.113.14 Lakh to Rs.35.58 Lakh owing to stricter monitoring of idle funds.

Other current assets have reduced from Rs.449.05 Lakh to Rs.249.86 Lakh primarily on account of provisioning in line with conservative policy of JPL.

Loans and Advances have increased from Rs.277.66 Lakh to Rs.416.38 Lakh primarily on account of higher advance tax paid.

Current Liabilities have reduced from Rs.3705.30 Lakh to Rs.1822.57 Lakh mainly due to payment of overdue consideration for sale of undertaking of Rs.1686 Lakh approximately.

Provisions have decreased from Rs.425.50 Lakh to Rs.273.29 Lakh primarily because the tax due for the previous year remained unpaid as at close of that year.

Cash flow statement

The summary of cash flows is as follows:

(Rs. in lakh rounded off to nearest lakh)			
		2010-11	2009-10
(A)	Net Surplus/(Deficit) generated from operations	755	2152
(B)	(Deficit)/Surplus from investing activities	(375)	(165)
(C)	Surplus/(Deficit) from financing activities	(457)	(2206)
(D)	Net Surplus/(Deficit) (other than surplus generated from operations) (B+C)	(832)	(2371)
(E)	Net Increase/(Decrease) in cash and cash equivalent (A-D)	(77)	(219)
(F)	Opening cash and cash equivalent	113	332
(G)	Cash and cash equivalent at the end (F-E)	36	113

Lower generation of cash from operating activity is on account of deployment of cash in working capital margin which was hugely negative in the previous year.

Material development in Human Resources:

Our people are our key asset. We have been able to create a work environment that encourages pro-activeness and responsibility. The relationship with the employees has been harmonious during the year and the Company did not have any work loss.

During the year, the Company has for the first time introduced online appraisal system in order to objectively assess the performance of the employees and decide their grades and increments. The Company has also launched an ESOP scheme for senior management.

Compliance **Certificate** **on Corporate Governance**

To
The Members,

Auditors' Report

1. We have audited the attached Balance Sheet of Jagran Prakashan Limited (the "Company") as at March 31, 2011, and the related Profit and Loss Account and Cash Flow Statement for the year ended on that date annexed thereto, which we have signed under reference to this report. These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies (Auditor's Report) (Amendment) Order, 2004 (together the "Order") issued by the Central Government of India in terms of sub-section (4A) of Section 227 of 'The Companies Act, 1956' of India (the 'Act') and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we further report that:
 - (i) (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
 - (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies between the book records and the physical inventory have been noticed.
 - (c) In our opinion and according to the information and explanations given to us, a substantial part of fixed assets has not been disposed of by the Company during the year.
 - (ii) (a) The inventory (excluding stocks with third parties) has been physically verified by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. In our opinion, the frequency of verification is reasonable.
 - (b) In our opinion, the procedures of physical verification of inventory followed by the Management are reasonable and adequate in relation to the size of the Company and the nature of its business.
 - (c) On the basis of our examination of the inventory records, in our opinion, the Company is maintaining proper records of inventory. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
 - (iii) (a) The Company has granted unsecured loans, to three companies covered in the register maintained under Section 301 of the Act. The maximum amount involved during the year and the year-end balance of such loans aggregates to Rs. 3,751.50 lakhs and Rs. 651.50 lakhs respectively.
 - (b) In our opinion, the rate of interest and other terms and conditions of such loans are not prima facie prejudicial to the interest of the Company.
 - (c) In respect of the aforesaid loans, the parties are repaying the principal amounts as stipulated and are also regular in payment of interest, where applicable.
 - (d) In respect of the aforesaid loans, there is no overdue amount more than Rupees One Lakh.
 - (e) The Company has not taken any loans, secured or unsecured, from companies, firms or other parties covered in the register maintained under Section 301 of the Act. Accordingly, the question of commenting on the rate of interest and other terms and conditions of such loans including regularity of repayment does not arise.
 - (iv) In our opinion and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business for the purchase of inventory, fixed assets and for the sale of goods and services. Further, on the basis of our examination of the books and records of the Company, and according to the information and explanations given to us, we have neither come across nor have been informed of any continuing failure to correct major weaknesses in the aforesaid internal control system.
 - (v) (a) In our opinion and according to the information and explanations given to us, the particulars of contracts or arrangements referred to in Section 301 of the Act have been entered in the register required to be maintained under that section.
 - (b) In our opinion and according to the information and explanations given to us, there are no transactions made in pursuance of such contracts or arrangements and exceeding the value of Rupees Five Lakhs in respect of any party during the year, which have been made at prices which are not reasonable having regard to the prevailing market prices at the relevant time.
 - (vi) The Company has not accepted any deposits from the public within the meaning of Sections 58A and 58AA of the Act and the rules framed there under.
 - (vii) In our opinion, the Company has an internal audit system commensurate with its size and nature of its business.
 - (viii) The Central Government of India has not prescribed the maintenance of cost records under clause (d) of sub-section (1) of Section 209 of the Act for any of the products of the Company.

- (ix) (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues including provident fund, investor education and protection fund, employees' state insurance, income-tax, sales-tax, wealth tax, service tax, customs duty, excise duty, cess and other material statutory dues as applicable with the appropriate authorities. .
- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of income-tax, sales-tax, wealth-tax, service-tax, customs duty, excise duty and cess which have not been deposited on account of any dispute.
- (x) The Company has no accumulated losses as at March 31, 2011 and it has not incurred any cash losses in the financial year ended on that date or in the immediately preceding financial year.
- (xi) According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of dues to any financial institution or bank or debenture holders as at the balance sheet date.
- (xii) In our opinion, the Company has maintained adequate documents and records in the cases where the Company has granted loans and advances on the basis of security by way of pledge of shares, debentures and other securities.
- (xiii) The provisions of any special statute applicable to chit fund / nidhi / mutual benefit fund/ societies are not applicable to the Company.
- (xiv) In our opinion, the Company is not a dealer or trader in shares, securities, debentures and other investments.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not given any guarantee for loans taken by others from banks or financial institutions during the year.
- (xvi) In our opinion, and according to the information and explanations given to us, on an overall basis, the term loans have been applied for the purposes for which they were obtained.
- (xvii) On the basis of an overall examination of the balance sheet of the Company, in our opinion and according to the information and explanations given to us, there are no funds raised on a short-term basis which have been used for long-term investment.
- (xviii) The Company has not made any preferential allotment of shares to parties and companies covered in the register maintained under Section 301 of the Act during the year.
- (xix) The Company has not issued any debentures during the year and no debentures were outstanding at the year-end.
- (xx) The Company has not raised any money by public issues during the year.
- (xxi) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the Management.
4. *We draw your attention to Note 5 on Schedule 20B, regarding non-amortisation of costs, aggregating Rs. 1,700 Lakhs (March 31, 2010: Rs. 1,700 Lakhs), of the title 'Dainik Jagran' owned by the Company (the "Title") and forming part of 'Intangible Assets' in the financial statements, over the 'finite' life of the Title, which is considered as indefinite by the management, and has not been determined; resulting in non-compliance with Accounting Standard 26 - Intangibles - referred to in sub-section (3C) of Section 211 of the Act. As finite life of the title has not been determined, the impact of the aforesaid non amortisation on the net profits for the year and the net assets as at year end is not quantifiable.*
5. Further to our comments in paragraph 3 above, we report that:
- (a) *Except for the matter referred to in paragraph 4 above, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit;*
- (b) *Except for the matter referred to in paragraph 4 above, the impact of which is not quantifiable, in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;*
- (c) The Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (d) *Except for the matter referred to in paragraph 4 above, in our opinion, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of Section 211 of the Act;*
- (e) On the basis of written representations received from the directors, as on March 31, 2011 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2011 from being appointed as a director in terms of clause (g) of sub-section (1) of Section 274 of the Act;
- (f) In our opinion and to the best of our information and according to the explanations given to us, the said financial statements together with the notes thereon and attached thereto, *except for the matter referred to in paragraph 4 above, the impact of which is not quantifiable, give, in the prescribed manner, the information required by the Act, and give a true and fair view in conformity with the accounting principles generally accepted in India:*
- (i) in the case of the Balance Sheet, of the state of affairs of the company as at March 31, 2011;
- (ii) in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Significant Accounting Policies and Notes to Accounts

SCHEDULE - 20

A. SIGNIFICANT ACCOUNTING POLICIES

1. Accounting Convention

The financial statements are prepared to comply in all material respects with notified accounting standards by the Companies (Accounting Standards) Rules, 2006, the relevant provisions of the Companies Act, 1956 and guidelines issued by the Securities and Exchange Board of India (SEBI), to reflect the financial position and the results of operations of the Group. Accounting policies have been consistently applied, except where a newly issued accounting standard or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use or to the extent disclosed in this schedule.

2. Fixed Assets and Depreciation

- a) Fixed Assets are recorded by the Company at the cost of acquisition or construction after considering the grants received and depreciated on Written-Down Value basis, at the rates prescribed in Schedule-XIV to the Companies Act, 1956.
- b) Assets individually costing less than Rs. 5000 each are fully depreciated in the year of acquisition. In respect of assets acquired, sold or discarded during the year, depreciation is provided on pro-rata basis for the period during which each asset was in use.
- c) Depreciation is provided on composite cost of Land and Building wherever cost of Land is not separately available. In these cases, the said composite cost is capitalised under Building.
- d) Title Dainik Jagran has an indefinite life and therefore not amortized. (Also refer Note 5 of Schedule 20B)
- e) Leasehold land and Leasehold improvements are amortised on a straight-line basis over the total period of lease including renewals.

3. Investments

Long term investments are stated at cost of acquisition inclusive of expenditure incidental to acquisition. A provision for diminution is made to recognise a decline, other than temporary in the value of long term investments.

Current investments are stated at lower of cost and fair value determined on an individual basis.

4. Inventories

Inventories are valued at cost or net realisable value, whichever is lower. Cost of raw materials and stores is determined on first-in-first-out basis and cost of finished goods is determined on direct cost basis.

5. Foreign Currency Transactions

Exchange differences arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in the previous financial statements, are recognized as income or as expense in the year in which they arise. Gain or loss on transactions relating to acquisition of Fixed Assets in foreign currency is recognised as profit or loss in the Profit and Loss Account and adjusted to the corresponding liability. Non-monetary items other than Fixed Assets are carried at fair value or other similar values using exchange rates when values were determined. Foreign Currency Monetary Items outstanding as at Balance Sheet date are valued using the conversion rate prevailing as at Balance Sheet date. The company does not have any derivative transactions.

6. Revenue Recognition

Revenues are recognized to the extent that it is probable that economic benefit will flow to the company and revenue can be reliably measured. It is accounted for net of trade discounts.

Specifically the following bases are adopted in respect of various sources of revenues of the company:-

a) Advertisement

Revenue from advertisement space is recognized, as and when the relevant advertisement is published.

Revenue/Expense against all Barter-Contracts is recognised at the time of actual performance of the contract to the extent of performance completed by either party against its part of contract.

b) Sale of Publications

Revenue from sale is recognised on dispatch, net of credits for unsold copies.

c) Others

Revenue from printing job work is recognised on delivery of goods after completion as set out in the relevant contracts.

Revenue from Outdoor activities is recognised as and when the relevant advertisement is displayed.

Revenue from Event Management services is recognised when the event is completed.

Claims from insurance companies/ Interest on income tax refunds/ Government department are recognised as and when amount receivable can be reasonably determined.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend income is recognised if the right to receive payment is established by the Balance Sheet date.

7. Employee Benefits

Short term employee benefits are recognised in the period during which the services have been rendered. The Company's contribution to Employee Provident Fund, Employee's State Insurance Fund and Employee's Pension Scheme 1995 is charged to revenue.

The Company has Defined Benefit plans namely leave encashment and gratuity for all employees, the liability for which is determined on the basis of an actuarial valuation at the end of the year. Gratuity Fund is recognised by the income tax authorities and is administered and managed by the Life Insurance Corporation of India ("LIC").

Termination benefits are recognised as an expense immediately. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Profit and Loss Account as income or expense.

8. Taxation

- Tax expense comprises current tax and deferred tax.
- Current tax comprises Company's tax liability for the current financial year as well as additional tax paid, if any, during the year in respect of earlier years on receipt of demand from the authorities. For computation of taxable income under the Income Tax Act, 1961, cash basis of accounting has been adopted and consistently followed by the Company.
- Deferred tax assets and liabilities are computed on the timing differences at the Balance Sheet date using the tax rate and tax laws that have been enacted or substantially enacted by the Balance sheet date. Deferred tax assets are recognised based on management estimates of reasonable certainty that sufficient taxable income will be available against which such deferred tax assets can be realised. Unrecognised deferred tax assets of earlier years are re-assessed and recognised to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realised.

9. Lease

Assets acquired under finance leases are recognised as fixed assets. Liability is recognised at the lower of the fair value of the leased assets at inception of the lease and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability and charge to the profit and loss account.

Payments made under operating leases are charged to Profit and Loss Account on a straight line basis over the period of the lease.

In case of non-cancellable operating leases, the total rent payable including future escalations till the expiry of lease is charged equally to profit and loss account over the period of lease including renewals.

10. Impairment of Assets

At each balance sheet date, the Company reviews the carrying amounts of its fixed assets to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the impairment loss is recognised for the amount by which the assets carrying value exceeds its recoverable amount. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset.

11. Provisions and Contingent Liability

- The Company creates a provision when there is a present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.
- A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that probably will not require an outflow of resources or where a reliable estimate of the obligation can not be made.

12. Earnings Per Share

Earnings Per Share (EPS) are computed on the basis of net profit after tax for the year. The number of shares used in computing basic EPS is weighted average number of shares outstanding during the year.

The diluted EPS is calculated on the same basis as basic EPS, since there are no dilutive equity shares.

13. Segment Information

The Company is engaged primarily in printing and publication of Newspaper and Magazines in India. The other activities of the company comprise outdoor advertising business, event management services and digital business. However, these in the context of the Accounting Standard 17 on Segment Reporting prescribed by the Companies (Accounting Standards) Rules, 2006 are considered to constitute single reportable business segment and single geographic segment. Accordingly, no separate disclosure for primary or secondary segments is given.

14. Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature. The cash flows from operating, investing and financing activities of the Company are segregated.

15. Borrowing Cost

Borrowing cost attributable to the acquisition or construction of fixed assets which takes substantial period of time to get ready for its intended use is capitalised as part of the cost of that asset. Other borrowing costs are recognized as an expense in the year in which they are incurred.

2. (a) Pending final disposal of various litigations initiated since June 2007 by a common group of shareholders hereinafter referred to as "Other Group" against the Company in case of Jagran Publications Private Limited and Jagran Prakashan (MPC) Private Limited and the Company's petition filed in case of former against the Other Group (which is in management) alleging mismanagement and oppression and seeking the directive against them to sell their shareholding to the Company at fair price or alternatively to vest the management rights with it, the management, on the basis of legal advice received and on evaluation of various developments including the decision of Company Law Board in its favour in one of the crucial petitions filed by Other Group and continuing decrease in outstanding balances considers its entire exposure, in both the companies, of Rs. 2,521.58 lakhs including equity investment of Rs.10.50 lakhs as fully realisable. However, the Company, being extremely conservative, recognises interest on the loans granted to these companies as income only when interest is realised and accordingly no interest income has been recognised for the period from October 1, 2007 to March 31, 2011.
- (b) The shares held in Jagran Publications Private Limited and Jagran Prakashan (MPC) Private Limited are not transferable to a third party (i.e. persons and body corporate not belonging to U.P. group, defined to be lineal descendants of late Mr. P.C. Gupta and Company in which not less than 51% shareholding is owned and controlled by their family members) without complying with certain conditions as contained in the Articles of Association of these two companies.

5. Accounting Standard 26 – Intangible Assets prescribed by the Companies (Accounting Standards) Rules, 2006, and the relevant provisions of the Companies Act, 1956, requires amortization of intangible assets over their estimated useful lives. In view of the Management, Title Dainik Jagran has an indefinite life and therefore is not amortised.

Considering the impending convergence of Indian Accounting Standards with International Financial Reporting Standard (“IFRS”) as indicated by the Institute of Chartered Accountants of India, and recent press note from Ministry of Corporate Affairs, the Company considers it likely that its financial statements will also be prepared in accordance with IFRS over the next three years or so.

Post migration to IFRS, the Company will no longer be required to amortize the Title but will need to test the same for impairment annually or earlier, if there arises a triggering event in the interim period. The company believes that basis its business projections, no impairment on such review will arise and accordingly, considering the above impending migration to IFRS, it has not amortized the value of Title of Rs 1,700 lakhs in these financial statements, as currently required by Accounting Standard – 26.

6. Transfer of the Print Business of Mid-Day Multimedia Limited

Pursuant to the scheme of arrangement formulated under the provisions of Sections 391 to 394 of the Companies Act, 1956 between Mid-Day Multimedia Limited (“MML”) and Jagran Prakashan Limited (“JPL”), as approved by the Honourable High Court of Judicature at Mumbai and Honourable High Court of Judicature at Allahabad vide their orders dated October 15, 2010 and January 4, 2011 respectively, which became effective on January 6, 2011, the investment in Midday Infomedia Limited (“MIL”) and all the estate, assets, rights, claims, title, interest, licenses, liabilities and authorities including accretions and appurtenances of MML pertaining to the Print Business (“Demerged Undertaking”) were transferred to JPL with effect from the Appointed Date i.e. April 1, 2010. Pursuant to the scheme, 15,097,272 equity shares of Rs. 2 each have been issued to the shareholders of MML as consideration. Professional fees paid for the arrangement with MML of Rs 700 lakhs, being directly attributable to the acquisition of the investment, has been adjusted in the Reserve and Surplus (Schedule 2) from the Profit and Loss Account balance.

The scheme of arrangement has been accounted for in accordance with the approval accorded whereby the assets and liabilities pertaining to the Demerged Undertaking have been recorded at the respective book values as appearing in the books of MML as on the Appointed Date and the excess of the assets over the liabilities and consideration has been credited to capital reserve. None of the Accounting Standards notified under Section 211(3C) of the Companies Act, 1956, is applicable to the transaction.

The calculation of difference between consideration and value of net identifiable assets acquired is as follows:

Assets/(Liabilities) acquired	Rs. in Lakhs

Consolidated financial Statements

Auditor's Report

The Board of Directors of Jagran Prakashan Limited

1. We have audited the attached consolidated Balance Sheet of Jagran Prakashan Limited (the "Company") and its subsidiary, its jointly controlled entity and associate companies; hereinafter referred to as the "Group" (refer Note 2 on Schedule 20A to the attached consolidated financial statements) as at March 31, 2011, the related consolidated Profit and Loss Account and the consolidated Cash Flow Statement for the year ended on that date annexed thereto, which we have signed under reference to this report. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We did not audit the financial statements of (i) one jointly controlled entity included in the consolidated financial statements, which constitute total assets of Rs. Nil and net assets of Rs. Nil as at March 31, 2011, total revenue of Rs. Nil, net loss of Rs 0.06 Lakhs and net cash outflows amounting to Rs 0.06 Lakhs for the year then ended; and (ii) three associate companies which constitute net loss of Rs. 21.20 Lakhs for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the consolidated financial statements to the extent they have been derived from such financial statements is based solely on the report of such other auditors.
4. We report that the consolidated financial statements have been prepared by the Company's management in accordance with the requirements of Accounting Standard (AS) 21 - Consolidated Financial Statements, Accounting Standard (AS) 23 - Accounting for Investments in Associates in Consolidated Financial Statements, and Accounting Standard (AS) 27 - Financial Reporting of Interests in Joint Ventures notified under Section 211(3C) of the Companies Act, 1956.
5. We draw your attention to Note 5 on Schedule 20B, regarding non-amortisation of costs, aggregating Rs. 1,700 Lakhs (March 31, 2010: Rs. 1,700 Lakhs), of the title 'Dainik Jagran' owned by the Company (the "Title") and forming part of 'Intangible Assets' in the financial statements, over the 'finite' life of the Title, which is considered as indefinite by the management, and has not been determined; resulting in non-compliance with Accounting Standard 26 - Intangibles - referred to in sub-section (3C) of Section 211 of the Act. As finite life of the title has not been determined, the impact of the aforesaid non amortisation on the net profits for the year and the net assets as at year end is not quantifiable.
6. In our opinion and to the best of our information and according to the explanations given to us, the attached consolidated financial statements, except for the matter referred to in paragraph 5 above, the impact of which is not quantifiable, give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2011;
 - (b) in the case of the consolidated Profit and Loss Account, of the profit of the Group for the year ended on that date: and
 - (c) in the case of the consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

SCHEDULE - 20

A. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted by Jagran Prakashan Limited ('JPL' or the Company) and its subsidiary, joint venture, and associates (hereinafter referred to as the "Group") in respect of these Consolidated Financial Statements, are set out below.

1. Accounting Convention

The consolidated financial statements are prepared to comply in all material respects with notified accounting standards by the Companies (Accounting Standards) Rules, 2006, the relevant provisions of the Companies Act, 1956 and guidelines issued by the Securities and Exchange Board of India (SEBI), to reflect the financial position and the results of operations of the Group. These consolidated financial statements are prepared under the historical cost convention on the accrual basis of accounting and reporting requirements of Accounting Standard ('AS') 21 'Consolidated Financial Statements', AS-23 'Accounting for Investments in Associates in Consolidated Financial Statements' and AS-27, Financial Reporting of Interests in Joint Ventures notified under Companies (Accounting Standards) Rules, 2006. Accounting policies have been consistently applied, except where a newly issued accounting standard or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use or to the extent disclosed in this schedule.

2. Principles of Consolidation

These accounts represent consolidated accounts of the Group and its wholly owned subsidiary, joint-venture and investment in associates as follows:

Entity	Relationship	Shareholding as at March 31, 2011
Midday Infomedia Limited ("MIL")	Subsidiary	100.00%
Jagran 18 Publication Limited (ceased with effect from March 1, 2011)	Jointly Controlled Entity	-
X-pert Publicity Private Limited	Associate	39.20%
Leet OOH Media Private Limited	Associate	48.64%
Jagran Infotech Limited (ceased with effect from March 1, 2011)	Associate	-

- The financial statements of the parent company and its subsidiary have been consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses, after eliminating intra-group balances and the unrealised profits / losses on intra-group transactions, and are presented to the extent possible, in the same manner as the Company's standalone financial statements.
- Investments in associate companies have been accounted for, by using equity method whereby investment is initially recorded at cost and the carrying amount is adjusted thereafter for post acquisition change in the Company's share of net assets of the associate. The carrying amount of investment in associate companies is reduced to recognise any decline which is other than temporary in nature and such determination in value, if any, is made for each investment individually. The associates are consolidated from the date of acquiring significant influence and are no longer consolidated from the date the influence is diluted.
- The Company's interest in jointly controlled entity is proportionately consolidated on line-by-line basis by adding together the book values of assets, liabilities, income and expenses, after eliminating the unrealised profits / losses on intra group transactions.
- Goodwill represents the difference between JPL's share in the net identifiable assets of a subsidiary or an associate or a joint venture and the cost of acquisition at each point of time of making the investment in the subsidiary or the associate or the joint venture. The goodwill arising on consolidation is not amortised but tested for impairment on a periodic basis.

3. Fixed Assets and Depreciation

- Fixed Assets are recorded by the Group at the cost of acquisition or construction after considering the grants received, and depreciated on Written-Down Value basis, at the rates prescribed in Schedule-XIV to the Companies Act, 1956.
- Assets individually costing less than Rs. 5000 each are fully depreciated in the year of acquisition. In respect of assets acquired, sold or discarded during the year, depreciation is provided on pro-rata basis for the period during which each asset was in use.
- Depreciation is provided on composite cost of Land and Building wherever cost of Land is not separately available. In these cases, the said composite cost is capitalised under Building.
- Title Dainik Jagran has an indefinite life and therefore not amortized. (Also refer Note 5 of Schedule 20B)
- Title 'MiD Day Delhi' is amortised over a period of ten years on a straight-line basis.
- Leasehold land and Leasehold improvements are amortised on a straight-line basis over the total period of lease including renewals.

4. Investments

Long term investments are stated at cost of acquisition inclusive of expenditure incidental to acquisition. A provision for diminution is made to recognise a decline, other than temporary in the value of long term investments.

Current investments are stated at lower of cost and fair value determined on an individual basis.

5. Inventories

Inventories are valued at cost or net realisable value, whichever is lower. Cost of raw materials and stores is determined on first-in-first-out basis and cost of finished goods is determined on direct cost basis.

6. Foreign Currency Transactions

Exchange differences arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in the previous financial statements, are recognized as income or as expense in the year in which they arise. Gain or loss on transactions relating to acquisition of Fixed Assets in foreign currency is recognised as profit or loss in the Profit and Loss Account and adjusted to the corresponding liability. Non-monetary items other than Fixed Assets are carried at fair value or other similar values using exchange rates when values were determined. Foreign Currency Monetary Items outstanding as at Balance Sheet date are valued using the conversion rate prevailing as at Balance Sheet date. The premium or discount arising at the inception of forward exchange contract is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the Profit and Loss Account in the year in which the exchange rates change. Any profit and loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or expense for the year.

7. Revenue Recognition

Revenues are recognized to the extent that it is probable that economic benefit will flow to the Group and revenue can be reliably measured. It is accounted for net of trade discounts.

Specifically the following bases are adopted in respect of various sources of revenues of the Group:-

a) Advertisement

Revenue from advertisement space is recognized, as and when the relevant advertisement is published.

Revenue/Expense against all Barter-Contracts is recognised at the time of actual performance of the contract to the extent of performance completed by either party against its part of contract.

b) Sale of Publications

Revenue from sale is recognised on dispatch, net of credits for unsold copies.

c) Others

Revenue from printing job work is recognised on delivery of goods after completion as set out in the relevant contracts.

Revenue from Outdoor activities is recognised as and when the relevant advertisement is displayed.

Revenue from Event Management services is recognised when the event is completed.

Claims from insurance companies/ Interest on income tax refunds/ Government department are recognised as and when amount receivable can be reasonably determined.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend income is recognised if the right to receive payment is established by the Balance Sheet date.

8. Employee Benefits

Short term employee benefits are recognised in the period during which the services have been rendered. The Group's contribution to Employee Provident Fund, Employee's State Insurance Fund and Employee's Pension Scheme 1995 is charged to revenue.

The Group has Defined Benefit plans namely leave encashment and gratuity for all employees, the liability for which is determined on the basis of an actuarial valuation at the end of the year. Gratuity Funds

are recognised by the income tax authorities and are administered and managed by the Life Insurance Corporation of India ("LIC") and HDFC Standard Life Insurance Company Limited ("HDFC Life").

Termination benefits are recognised as an expense immediately. Actuarial gains and losses comprise experience adjustments and the effects of changes in actuarial assumptions and are recognised immediately in the Profit and Loss Account as income or expense.

9. Taxation

- a) Tax expense comprises current tax, deferred tax and MAT credit entitlement
- b) Current tax comprises Group's tax liability for the current financial year as well as additional tax paid, if any, during the year in respect of earlier years on receipt of demand from the authorities.
- c) Deferred tax assets and liabilities are computed on the timing differences at the Balance Sheet date using the tax rate and tax laws that have been enacted or substantially enacted by the Balance sheet date. Deferred tax assets are recognised based on management estimates of reasonable certainty that sufficient taxable income will be available against which such deferred tax assets can be realised. Unrecognised deferred tax assets of earlier years are re-assessed and recognised to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realised.
- d) Minimum Alternative tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Profit and Loss account and shown as MAT Credit Entitlement. The Group reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Group will pay normal Income Tax during the specified period.

10. Lease

Assets acquired under finance leases are recognised as fixed assets. Liability is recognised at the lower of the fair value of the leased assets at inception of the lease and the present value of minimum lease payments. Lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability and charge to the profit and loss account.

Payments made under operating leases are charged to Profit and Loss Account on a straight line basis over the period of the lease.

In case of non-cancellable operating leases, the total rent payable including future escalations till the expiry of lease is charged equally to profit and loss account over the period of lease including renewals.

11. Impairment of Assets

At each balance sheet date, the Group reviews the carrying amounts of its fixed assets to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the impairment loss is recognised for the amount by which the assets carrying value exceeds its recoverable amount. Recoverable amount is the higher of an asset's net selling price and value in use. In assessing value in use, the estimated future cash flows expected from the continuing use of the asset and from its disposal are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of time value of money and the risks specific to the asset.

12. Provisions and Contingent Liability

- a) The Group creates a provision when there is a present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.
- b) A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that probably will not require an outflow of resources or where a reliable estimate of the obligation can not be made.

13. Earnings Per Share

Earnings Per Share (EPS) are computed on the basis of net profit after tax for the year. The number of shares used in computing basic EPS is weighted average number of shares outstanding during the year.

The diluted EPS is calculated on the same basis as basic EPS, since there are no dilutive equity shares.

14. Segment Information

The Group is engaged primarily in printing and publication of Newspaper and Magazines in India. The other activities of the Group comprise outdoor advertising business, event management services and digital business. However, these in the context of the Accounting Standard 17 on Segment Reporting prescribed by the Companies (Accounting Standards) Rules, 2006 are considered to constitute single reportable business segment and single geographic segment. Accordingly, no separate disclosure for primary or secondary segments is given.

15. Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature. The cash flows from operating, investing and financing activities of the Group are segregated.

16. Borrowing Cost

Borrowing cost attributable to the acquisition or construction of fixed assets which takes substantial period of time to get ready for its intended use is capitalised as part of the cost of that asset. Other borrowing costs are recognized as an expense in the year in which they are incurred.

B. NOTES TO ACCOUNTS:**1. Contingent Liabilities:**

	(Rs. in Lakhs)
Particulars	As at March 31, 2011
Bank Guarantees/Letter of Credit given	432.50
In respect of various pending labour and defamation cases (In view of large number of cases, it is impracticable to disclose the details of each case).	Amount not ascertainable

2. (a) Pending final disposal of various litigations initiated since June 2007 by a common group of shareholders hereinafter referred to as "Other Group" against JPL in case of Jagran Publications Private Limited and Jagran Prakashan (MPC) Private Limited and JPL's petition filed in case of former against the Other Group (which is in management) alleging mismanagement and oppression and seeking the directive against them to sell their shareholding to JPL at fair price or alternatively to vest the management rights with it, the management, on the basis of legal advice received and on evaluation of various developments including the decision of Company Law Board in its favour in one of the crucial petitions filed by Other Group and continuing decrease in outstanding balances considers its entire exposure, in both the companies, of Rs. 2,521.58 lakhs including equity investment of Rs.10.50 lakhs as fully realisable. However, JPL, being extremely conservative, recognises interest on the loans granted to these companies as income only when interest is realised and accordingly no interest income has been recognised for the period from October 1, 2007 to March 31, 2011.
- (b) The shares held in Jagran Publications Private Limited and Jagran Prakashan (MPC) Private Limited are not transferable to a third party (i.e. persons and body corporate not belonging to U.P. group, defined to be lineal descendants of late Mr. P.C. Gupta and Company in which not less than 51% shareholding is owned and controlled by their family members) without complying with certain conditions as contained in the Articles of Association of these two companies.

- c) Title Deeds for the Investments done in Immovable Properties, included in Investments, with the carrying value amounting to Rs. 143.06 Lakhs are yet to be executed in favour of MIL.

5. Accounting Standard 26 – Intangible Assets prescribed by the Companies (Accounting Standards) Rules, 2006, and the relevant provisions of the Companies Act, 1956, requires amortization of intangible assets over their estimated useful lives. In view of the Management, Title Dainik Jagran has an indefinite life and therefore is not amortised.

Considering the impending convergence of Indian Accounting Standards with International Financial Reporting Standard ("IFRS") as indicated by the Institute of Chartered Accountants of India, and recent press note from Ministry of Corporate Affairs, Group considers it likely that its financial statements will also be prepared in accordance with IFRS over the next three years or so.

Post migration to IFRS, the Group will no longer be required to amortize the Title but will need to test the same for impairment annually or earlier, if there arises a triggering event in the interim period. The Group believes that basis its business projections, no impairment on such review will arise and accordingly, considering the above impending migration to IFRS, it has not amortized the value of Title of Rs 1,700 lakhs in these financial statements, as currently required by Accounting Standard – 26.

6. Transfer of the Print Business of Mid-Day Multimedia Limited

Pursuant to the scheme of arrangement formulated under the provisions of Sections 391 to 394 of the Companies Act, 1956 between Mid-Day Multimedia Limited ("MML") and JPL, as approved by the Honourable High Court of Judicature at Mumbai and Honourable High Court of Judicature at Allahabad vide their orders dated October 15, 2010 and January 4, 2011 respectively, which became effective on January 6, 2011, the investment in Midday Infomedia Limited ("MIL") and all the estate, assets, rights, claims, title, interest, licenses, liabilities and authorities including accretions and appurtenances of MML pertaining to the Print Business ("Demerged Undertaking") were transferred to JPL with effect from the Appointed Date i.e. April 1, 2010. Pursuant to the scheme, 15,097,272 equity shares of Rs. 2 each have been issued to the shareholders of MML as consideration. Professional fees paid for the arrangement with MML of Rs 700 lakhs, being directly attributable to the acquisition of the investment, has been adjusted in the Reserve and Surplus (Schedule 2) from the Profit and Loss Account balance.

The scheme of amalgamation has been accounted for in accordance with the approval accorded whereby the assets and liabilities pertaining to the Demerged Undertaking have been recorded at the respective book values as appearing in the books of MML as on the Appointed Date and the excess of the assets over the liabilities and consideration has been credited to capital reserve. None of the Accounting Standards notified under Section 211(3C) of the Companies Act, 1956, is applicable to the transaction.

The calculation of difference between consideration and value of net identifiable assets acquired is as follows:

Assets/(Liabilities) acquired	Rs. in Lakhs
