

Chairman's Letter

Dear Shareowners,

It is my pleasure and privilege to communicate to you through this annual report. In fiscal 2013-14, India was besieged by high inflation, rapidly depreciating Rupee, rising NPAs, declining manufacturing, stagnant investments and subdued exports with adverse downside risk to future economic growth. However, prudent and timely measures by RBI and the Government restored macroeconomic stability, lowering Current Account Deficit to below 2.5% and contained Fiscal Deficit at 4.6%. In nutshell, the fiscal year ended 31st March 2014 proved to be a challenging year with the Indian economy witnessing sustained slowdown across sectors and Industry continued to be in the midst of a slowdown. On the demand side, the consumption growth remained weak amid elevated inflation and subdued income growth.

INDUSTRY AND YOUR COMPANY

While global steel demand increased by 3.6% in 2013-14, and demand in advanced countries is likely to improve further, China's demand growth has been moderating. In the last 13 years, Indian steel sector has witnessed rapid growth. Apparent Finished Steel Consumption grew 2.7 times at 8.6% Compound Annual Growth Rate (CARG) to reach 74 MnT. Crude Steel Production increased three times at a CAGR of 10% to reach 82 MnT. Despite these achievements, FY 2013-14 was a tough year for the industry as it recorded abnormally low consumption growth of 0.6% to reach a total of 73.9 MnT during FY 2013-14. Flat Steel demand was down by 2% while Longs displayed a growth of 2.6%. Indian steel sector continued to face inadequacy of iron ore with inconsistency in quality and supplies.

It has been a moderate year for Gallantt Metal. Our strategy is to establish a dominant position in the core areas of our business. For our steel business, we are constantly investing in reducing costs, increasing capacity, and improving quality so that we establish a leadership position. We follow a similar approach for our Power business also. Our teams have worked hard, actively managing the

business, focusing on improving our customer offer and optimising our cash generation in these difficult markets. These are the right things to do to ensure we can deliver value for shareholders over the medium term. Your Company has reported a turnover of ₹ 669.90 Crores and continues to maintain a healthy EBIDTA (₹ 44.55 Crores) and Net Profit margins (₹ 15.06 Crores) in line with the best industry benchmarks. A tight control on expenses and lower raw material inflation helped the operations of the Company to deliver a strong performance despite difficult market conditions.

Your Company always believed that keeping a keen ear to customer's requirement and feedback goes a long way. We have kept the customer at the center of all our strategies and this approach of Customer Centricity is paying rich dividends.

A decisive mandate in the General Elections has re-kindled hopes of an economic revival. The new Government has promised to focus on infrastructure development while de-bottlenecking the administrative and clearance procedures. Housing and infrastructure creation are said to be key focus areas for the new government, and this augurs well for the steel sector outlook in India. Gallantt Metal, being a flagship company of Gallantt Group, is striving to be a key participant in the Indian steel sector and contribute to help in the country's economic progress.

Thanking you,

Yours truly
C. P. Agrawal

Management Discussion Analysis

Forming part of the Report of the Directors for the year ended 31st March, 2014)

BUSINESS ENVIRONMENT

The global economic scenario in fiscal 2013-14 remained challenging with output growth estimated at 3.0% - lower than the 3.2% growth recorded in 2012. Economic environment remained challenging with growth slowing down globally. The Indian economy underwent yet another challenging environment in 2013-14 driven by subdued domestic growth, extreme volatility in the exchange rate and a much higher than expected spike in inflation rates. While domestic GDP growth did show a marginal improvement from 4.5% (YoY) in FY13 to 4.7% in FY14 (estimated), most of the increase can be attributed to an increase in agricultural growth from 1.4% to 4.2%. Growth in both the industrial sector and service sector remained lackluster on the back of weakness in both consumption and investment demand. A major problem for the economy in First Half of Fiscal 2013-14 was a very aggressive and disorderly bout of currency depreciation. The Indian rupee weakened to its lowest level against the greenback driven by concerns about the domestic macroeconomic landscape that made investors somewhat circumspect of investing in domestic assets. To counter pressures of currency depreciation, the RBI introduced a series of emergency measures so as to tighten domestic liquidity in order to push short term rates higher so as to provide the Indian Rupees with some yield advantages. However, in Last Quarter of Fiscal 2013-14 there were some signs of an improvement in the overall domestic macroeconomic landscape that in turn provided some stability to the Indian Rupees. Hence, the fiscal year ended 31st March 2014 proved to be a challenging year with the Indian economy witnessing sustained slowdown across sectors. While the economic growth for the year is expected to have marginally improved to 4.9% from the lows of 4.5% witnessed in 2012-13, it is still a far cry from the above 8% growths witnessed during most part of 2004 to 2011.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Global steel demand grew by 3.6% to 1.48 billion tonnes in Calendar Year (CY) 2013 due to improved performance in the developed economies especially in North America and Euro Zone in the second half of the year. However, growth in emerging markets slowed down in 2013 due to weak demand especially in developed countries and tighter financial conditions. The World crude steel production rose by 3.5% to 1.607 billion tonnes in the year 2013. In CY 2013, China continued to dominate the global steel industry with 46% of the production and 102% of the incremental steel production.

In 2013, India remained the 4th largest steel producing country in the world, behind China, Japan and the US. Crude steel production grew by 4.6% to 81.2 million tonnes and steel demand grew by 1.8%. India's GDP growth has slowed down to 5% in 2013 on account of rising inflation and tight monetary controls. This has led to weak domestic steel demand, which grew by 3.3% in 2013 in spite of rise in demand in the last quarter. This has resulted in India becoming the net exporter of steel in Financial Year 2013-14 after a gap of six years. Total steel exports by India during the Financial Year stood at 5.59 million tonnes, as against imports of 5.44 million tonnes as per the report issued by Joint Plant Committee (JPC), a unit of the steel ministry.

OPPORTUNITY AND THREATS

The steel industry is subject to cyclical swings arising from factors such as excess capacity, regional demand & supply imbalances and volatile swings in market demand and prices, more recently exacerbated by swings in input prices as well as changes in the regulatory environment. Company retains the focus on improving its operations through a variety of measures such as continuous improvement programmes, enhancing technical Knowledge and skill, improving process safety, targeted capital expenditure and focussed risk management.

A decisive mandate in the General Elections has re-kindled hopes of an economic revival. Infrastructure is the prime focus area of the newly formed Government and the Government is undertaking proactive policy initiatives for Infrastructure development and industrial growth, which will accelerate steel demand in line with economic growth.

The access to and cost of raw materials supplies depend, to a large extent, on the supply and demand relationships, notably iron ore, coal and scrap. The volatility in prices of raw materials and energy, including the mismatches between the trends in prices for raw materials and steel, as well as limitations on or disruptions in the supply of raw materials, could adversely affect the Company's profitability. Financial markets affecting liquidity and volatility in exchange and interest rates, increasing competition, cheaper imports from countries such as China and Ukraine, shortage of electricity supply etc. are the major area of threats.

As always, your Company looks forward to do well in the year ahead and is optimistic of its abilities to address the set of opportunities and challenges that the coming year will present.

RISK & CONCERN

Raw Material costs and price volatility continue to pose major area of concern for the steel sector. The cyclical area of concern continues to be the restrictions on mining resulting in poor availability of iron ore and its inconsistent quality. Despite lifting

of mining bans in Goa and Karnataka, continued restrictions have given inadequate relief to Indian steel companies. Another major area of concern is the high import dependency of coking coal despite large domestic resources remaining unutilized. Insufficient infrastructure and logistics, overburdened port facilities are area of concern which needs to be intervened by the Government. Availability of skilled work force, latest technology and overcapacity remains a concern of the Company.

FUTURE OUTLOOK

The macro economic environment has shown offshoots of recovery, specifically in the second half of 2013-14. Most of the indicators in the developed markets point to growth stability, which in turn should support the developing and emerging markets. Even in India, there are signs that the growth has bottomed out with the marginal improvement recorded in the later half of 2013-14. Going forward, the key to a sustainable recovery would be reviving the investments especially in the private sector through continued efforts to clear the stalled projects. It would be interesting to watch out for the key policy actions from the new Central Government as this would be crucial for reviving the critical growth drivers in the economy.

In 2013-14, particularly, our efforts at focusing on optimising cost of production yielded positive results. Faced as we were, with raw material shortages and poor quality supplies accentuated by the prevailing uncertainty in the regulatory environment, we succeeded in reigning in costs through various measures of cost-efficiency in our production processes. Constant monitoring of processes resulted in enhanced yields.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Your Company is committed to ensuring that its operations are carried out within a well defined internal control framework. Good governance, well defined systems and processes, a vigilant finance function and an independent internal audit function are the foundation of the internal control systems. The internal audit function of the Company independently audits critical areas of operations based on an audit plan approved by the Audit Committee. Significant audit findings are presented to the Audit Committee which meets regularly to review the findings and status of corrective actions taken by the management.

HUMAN ASSETS

As always, people development continues to be an extremely important area in your Company. Anchoring developmental conversations at every level and ensuring that all managers are skilled in holding developmental conversations has been an area of focus.

Accordingly, a strong focus on training helps enhance employee skill and capability in a dynamic business environment. Besides conducting internal workshops, Company identifies and groom high potential employees, while also focusing on the high performers. Industrial relations were cordial across all the locations during the year under review.

STATUTORY COMPLIANCE

The Company Secretary, as Compliance Officer, ensures compliance of the SEBI regulations, provisions of the Listing Agreement, Companies Act and other applicable laws and regulations.

Item No. 8

The members of the Company at their Extraordinary General Meeting held on August 22, 2005 approved Resolution under Section 293(1)(d) of the Companies Act, 1956, borrowings over and above the aggregate of paid up share capital and free reserves of the Company provided that the total amount of such borrowings together with the amounts already borrowed and outstanding at any point of time shall not be

in excess of ₹ 500 Crore (Rupees Five Hundred Crore).

Section 180(1)(c) of the Companies Act, 2013 effective from September 12, 2013 requires that the Board of Directors shall not borrow monies in excess of the Company's paid up share capital and free reserves, apart from temporary loans obtained / to be obtained from the Company's bankers in the ordinary course of business, except with the consent of the Company accorded by way of a special resolution. It is, therefore, necessary for the members to pass a Special Resolution under Section 180(1) (c) of the Companies Act, 2013 and other applicable provisions of the Companies Act, 2013, as set out at Item No. 8 of the Notice, to enable the Board of Directors to borrow monies not exceeding ₹ 500 Crore (Rupees Five Hundred Crore).

None of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No. 8.

Item No. 9

Under the erstwhile Section 293 (1) (a) of the Companies Act, 1956, the Board of Directors of a Company could, with the consent of the shareholders obtained by an Ordinary Resolution, create charge/ mortgage/ hypothecation on the Company's assets, both present and future, in favour of the lenders, to secure the repayment of moneys borrowed by the Company (including temporary loans obtained from the Company's Bankers in the ordinary course of business).

In the normal course of business, the Company from time to time is required to avail Term Loans, Working Capital, External Borrowings or any other financial accommodation. A charge on the assets/properties of the Company, both present and future, is normally given as security for such borrowings. As the documents to be executed for the creation of such charge/mortgages from time to time to secure such borrowings, may contain the power to take over the management of the Company in certain events, it is necessary for the shareholders to pass a resolution under section 180(1)(a) of the Companies Act, 2013 for the creation of the mortgage/charge as set out in this resolution.

Under the provisions of Section 180 (1) (a) of the Companies Act, 2013, the above powers can be exercised by the Board only with the consent of the shareholders obtained by a Special Resolution. Further, as per a clarification issued by the Ministry of Corporate Affairs, the Ordinary Resolution earlier passed under Section 293 (1) (a) of the Companies Act, 1956 will remain valid for a period of one year from the date of notification of Section 180 of the Companies Act, 2013, i.e. up to 11th September, 2014. As such, it is necessary to obtain fresh approval of the shareholders by means of a Special Resolution, to enable the Board of Directors of the Company to create charge/ mortgage/ hypothecation on the Company's assets, both present and future, in favour of the lenders/ trustees for the holders of debentures/ bonds, to secure the repayment of moneys

borrowed by the Company (including temporary loans obtained from the Company's Bankers in the ordinary course of business). As the documents to be executed between the Company and the lenders may contain the power to take over the management of the Company in certain events, it is necessary to obtain Members' approval under Section 180 (1) (a) of the Companies Act, 2013, by way of a Special Resolution. Your directors recommend the resolution for approval of the shareholders.

None of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No. 9.

Item No. 10

The Board of Directors at its meeting held on July 10, 2014 appointed M/s. U. Tiwari & Associates, Cost Accountants (Firm Registration No. 23872), as the Cost Auditor for audit of the cost accounting records of the Company for the financial year ending 31st March, 2015, at a remuneration amounting to ₹ 35,000 (Rupees Thirty Five Thousand only) excluding out of pocket expenses, if any. In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to Cost Auditor shall be ratified by the shareholders of the Company.

Accordingly, consent of the members is sought for approving the Ordinary Resolution as set out in Item No. 10 for ratification by the shareholders at the ensuing Annual General Meeting of the Company.

None of the Directors, Key Managerial Personnel or their relatives are concerned or interested in the proposed Ordinary Resolution as set out at Item No. 10 of this Notice.

Item No. 11

The Articles of Association (AoA) of the Company as currently in force was originally adopted as per the provisions of the Companies Act, 1956 and further amendments were adopted pursuant to the provisions under the Companies Act, 1956,

from time to time. The references to specific sections of the Companies Act, 1956 in the existing Articles of Association may no longer be in conformity with the Companies Act, 2013. The new Companies Act, 2013 is now largely in force. On September 12, 2013, the Ministry of Corporate Affairs ("MCA") had notified 98 Sections for implementation. Subsequently, on March 26, 2014, MCA notified most of the remaining Sections. Considering that substantive sections of the Companies Act which deal with the general working of the companies stand notified, it is proposed to amend the existing Articles of Association to align it with the provisions of Companies Act, 2013 including the Rules framed thereunder and adoption of specific sections from Table "F" to Schedule I to the Companies Act, 2013 which sets out the model articles of association for a company limited by shares.

With the coming into force of the Act several regulations of the existing AoA of the Company require alteration or deletions in several articles. Given this position, it is considered expedient to wholly replace the existing AoA by a new set of Articles. The proposed new draft AoA is being uploaded on the Company's website for perusal by the shareholders.

None of the Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 11 of the Notice.

The Board commends the Special Resolution set out at Item No. 11 of the Notice for approval by the shareholders.
