GALLANTT METAL LIMITED
Annual Report 2016-17

Letter to Shareowners

Dear Shareowners

This has been an exciting year for your Company and we have delivered a good financial and operational performance. We continued to focus on cost optimisation and productivity enhancement. It has also been satisfying to witness a steady and stable growth even when external environment was volatile and largely unpredictable.

We are pleased with our performance in FY 2017 having closed the year with Profit After Tax at ₹ 2,710.25 Lacs. But we are looking forward to a stronger and even more exciting year ahead. We are today more equipped and confident that our foresight is taking us towards the right direction and long-term sustainability. With the benefits of volume growth from invested capital yet to reach their full potential, coupled with favourable demand-supply dynamics, we believe the Company has the potential to deliver even better.

Economic Outlook and Industry

Indian economy continues to remain as an economic bright spot, despite some growth moderation during 2016-17. As per the provisional estimates released by the Central Statistical Organization (CSO), India's Gross Domestic Product (GDP) grew by 7.1% y-o-y in 2016-17 compared to 8.0% in the previous year (under the new base year 2011-12). The inflation rate remained well under control and remained within the Reserve Bank of India (RBI) comfort level. The retail inflation rate measured by Consumer Price Index (CPI) came down to 3.89% in March 2017 compared to 4.83% in March 2016. However,

Wholesale Price Index (WPI) rose to 5.29% in March 2017 against a decline of 1.09% in March 2016.

The lack of momentum in the global economy, lacklustre demand growth in India, and the liquidity crunch post demonetisation, all put severe pressure on our business. Our rapid capacity ramp-up together with smart management of raw materials helped us not just report sales, but generate significantly higher margins and free cash flows. Fiscal 2016-17 remained exciting for the economy, industries and country. We are encouraged by reforms including to the Goods and Services Tax (GST), initiatives to develop infrastructure and focus on providing affordable housing. These are all transformative steps, designed to strengthen the country from within and unleash its full economic potential.

Your Company's Performance

The flagship company of the Gallantt Group, Gallantt Metal is one of the leading steel producer with integrated steel manufacturing capabilities in the Western India. The company has established its presence with strong technological competencies. Poised to lead the market, Gallantt Metal has achieved stellar growth and has maintained its winning streak through the years. We venture for continued distinction in the industry supported by our four core values of transparency, strive for excellence, dynamism, and passion for learning.

Your Company has delivered good operational performance in FY 2016-17 with relentless focus on cost discipline and improved productivity across all our operations that enabled us to deliver strong earnings and record cash flow. As a result, your company reduced debt and strengthened its ability to withstand volatility in the tough and challenging commodities market during the year. During 2016-17, your company have witnessed unprecedented challenges but remained steadfast to the belief to counter these challenges with resilience. This we reflected through our strong operational performance. Our revenues stood at 61,673.14 Lakh and EBIT at 3,659.79 Lakh in the fiscal. Profit before Tax and Profit after Tax stood at ₹ 3,031.52 Lakh and ₹ 2,710.25 Lakh respectively.

I am confident that we will have a more promising year ahead of us in view of the strategies we have undertaken, the gradually developing positivity in our core operative sectors. And, finally, I would like to thank you for the unstinted support and unwavered confidence in the Company.

Yours truly,

Annexure - III**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

Forming part of the Report of the Directors for the year ended 31st March, 2017

OVERVIEW OF THE ECONOMIC ENVIRONMENT

Global economic growth slowed to 3.1% during calendar year 2016, with moderation in both advanced as well as emerging economies. The US Federal Reserve increased policy rates towards the end of calendar year 2016, and again in March 2017, while the monetary policy stance remained accommodative in most other economies. Commodity prices, which had declined sharply in calendar year 2015, partially recovered during calendar year 2016, particularly those of crude oil and metals. Global trade showed an improvement towards the later part of the year, partly led by the rise in commodity prices. The key political developments during the year were the presidential election in the US and the UK referendum decision to withdraw from the European Union.

India's economy recorded a growth rate of 7.1 per cent in terms of real Gross Domestic Product (GDP) in 2016-17. While agriculture growth rose to 4.4 per cent in 2016-17 from 0.8 per cent in 2015-16, services sector growth declined to 7.9 per cent from 9.8 per cent during the same period. Inflation moderated, with the average level of Consumer Price Inflation declining to an estimated level of 4.6 per cent in 2016-17 from 4.9 per cent in 2015-16. Foreign Direct Investment inflows (FDI) increased by 12 per cent in the April–December period of 2016 over the corresponding period of the previous year.

Indian economy was epitomized by Demonetization. When 86% of a country's legal tender becomes illegal, it is but expected that finding 'a new level of equilibrium' would require time. It was initially unsettling for all but due to some brisk actions on the parts of Government and RBI, normalcy returned without much delay. A constitutional amendment paved the way for the long-awaited and transformational Goods and Services Tax.

INDUSTRY OVERVIEW

Global steel markets recovered during Financial Year 2016-17 registering better than estimated production & demand growth. During the year, the global steel demand grew by 1% to 1.52 billion tonnes on the back of stronger than expected demand growth in China (1.3%) coupled with optimism on supply-side structural reforms and restocking. The crude steel production was 1.63 billion tonnes, up by 0.8% compared to the previous year. China remains the world's largest crude steel producer with the production at 0.8 billion tonnes. China's apparent steel consumption has continued to remain structurally below its production

level leading to exports of 0.1 billion tonnes in spite of global protectionism. The global capacity utilization ratio remained around 70% in spite of proactive measures being undertaken in China and Europe. The overcapacity of steel production in the developing world particularly in China has weighed on global steel prices for quite some time. During the year under review, the raw material prices remained volatile especially for coking coal due to supply related issues. In addition, prolonged oversupply in iron ore has led to lower level for raw material prices despite steel realizations getting support from cost push as raw material prices fluctuated on supply issues in the second half of 2016. However, regulatory measures announced by the Indian Government during the year have continued to aid domestic steel prices.

According to the World Steel Association, global steel output will be tapering in the next year and the slowdown is expected to continue through 2035 as countries around the world start to rein in output while demand retreats.

During the year, India's steel sector was impacted by intense competitive pressure with a surge in domestic steel production and elevated level of steel imports at predatory pricing. In FY 2016-17, India's crude steel production grew by 8.5% y-o-y to 97.4 million tonnes. India imposed 'Minimum Import Price' (MIP) in Feb 2016 on various iron and steel products, after seeing that the provisional safeguard duty of hot rolled sheet failed to have a desirable impact on unbridled and unfair flow of steel imports into the country. This was an emergency provision, which provided some relief to the industry.

The Indian steel industry has increased its capacity in the recent years, though the demand growth has remained muted. This has resulted in financial stress in the balance sheet of the steel players. The Government of India and the Reserve Bank of India is currently deeply engaged to find a structural solution to the above issue.

Given the current stage of development of the Indian economy and the likely growth path for the country's economy in the next decade, the steel demand in India will witness significant growth in future. While the Steel sector in India is financially stressed currently, the Government of India has outlined its intent for ensuring long-term viability of the sector through the recently announced National Steel Policy 2017.

OPPORTUNITIES

Given the current stage of development of the Indian economy and the likely growth path for the country's economy in the next decade, especially in automotive and infrastructure sector, the steel demand in India will

witness significant growth in the next decade. While there is currently financial stress in the Steel sector in India, the Government of India and the Reserve Bank of India are deeply engaged to provide a policy enabled structural resolution for the future. Steel is a critical material for the future growth of India and the Indian Steel industry is very well poised to leverage the opportunities and serve the country's needs.

THREATS AND RISKS

The Company is exposed to risks arising out of the dynamic macro-economic environment as well as from internal business drivers. Overcapacity and oversupply in the global steel industry and high levels of imports may negatively affect steel prices and demand thereby reducing the Company's profitability. Developments in the competitive environment in the steel industry, such as consolidation among the Company's competitors, could have a material adverse effect on the Company's competitive position. This could potentially impact the Company's business, financial condition, results of operations and future prospects.

The cost of iron ore and coal constitute more than 80% of cost of production. Therefore the profitability of the Company depends on market price of these raw materials. The sure way to substantially reduce the cost of iron ore and coal is to have ownership of these raw materials. The company does not have any iron ore or coal mine and sources all of it from market. The road transportation cost, both for iron ore and coal, is steadily going up over the time. Global warming and climate change have been recognised by the company as serious concerns. Increase in competition, increase in interest rates, inflation, fluctuating markets etc. are area of concern for the Companies.

OUTLOOK

The growth momentum is expected to rise, driven by the Government's policy initiatives in areas such as taxation (GST), foreign direct investment (FDI), and the ease of doing business, among others. Other major factors helping India stay as a bright spot in the global economic landscape include the lower global oil price, with positive impact on the country's import bill, a well-regulated monetary policy by the Reserve Bank to stabilise prices, and improving fiscal condition. The Government's endeavour to drive a bigger as well as a cleaner GDP is expected to augur well for the economy in the medium and long terms. The introduction of GST and higher outlays in the Budget 2017 are expected to drive growth as well.

INTERNAL CONTROL AND SYSTEMS

Company has Internal Audit and Compliance functions which are responsible for independently evaluating the adequacy of all internal controls and ensuring operating and business units adhere to internal processes and procedures as well as to regulatory and legal requirements. The audit function also proactively recommends improvements in operational processes and service quality. Company has always adhered to the highest standards of compliance and governance and has put in place controls and an appropriate structure to ensure this. The Audit Committee of the Board also reviews the performance of the audit and compliance functions and reviews the effectiveness of controls and compliance with regulatory guidelines.

STATUTORY COMPLIANCE

The Company Secretary acting as a compliance officer ensures that the company has adhered to the SEBI rules and regulations, provisions of the listing agreement with Stock Exchanges, Companies Act and other applicable laws and regulations.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Sec 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. ANNEXURE 'B' TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Gallantt Metal Limited ("the Company") as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure - A to the Auditors' Report

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of M/S GALLANTT METAL LIMITED ("the Holding Company") and its associates (collectively referred to as "the Group"), as of 31 March 2017 in conjunction with our audit of

the Consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Company and its associate companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued

by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Holding Company its associate company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting

includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its associate companies have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one associate company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company.
