Key Wins Q4 2025

A global SaaS platform serving subscription-driven businesses has engaged R Systems to modernize its core platform and accelerate customer onboarding, enabling the company to advance its transformation from a SaaS solution to an AI powered platform.

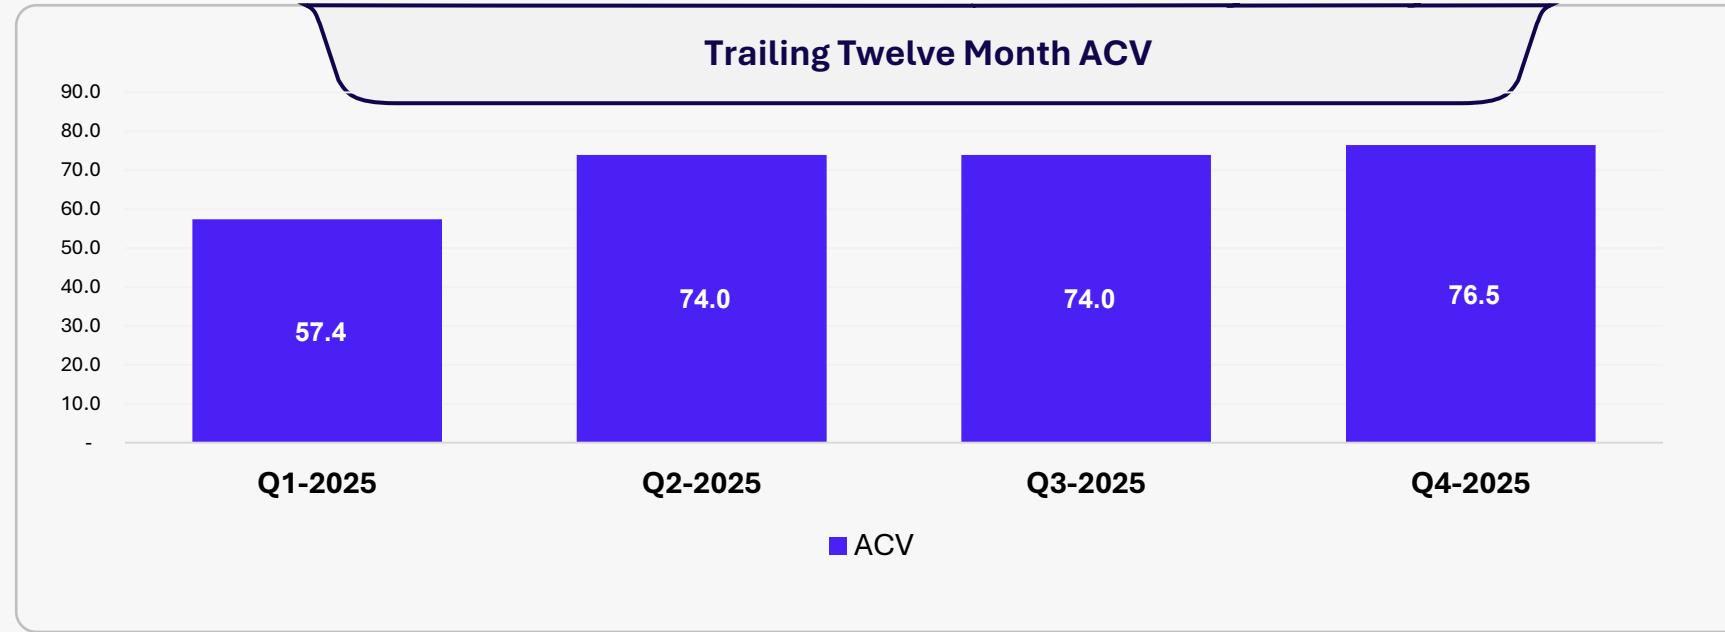

R Systems partnered with a leading global children's entertainment company to modernize its B2B commerce ecosystem through Salesforce. The engagement focuses on transforming end to end sales processes, streamlining order management, building robust data foundations, and elevating customer experience.

R Systems has been engaged by a leading Tier 1 telecommunications provider in Austria to advance their cloud native readiness and elevate security capabilities. The engagement spans core engineering and cloudification services to enhance operational agility and enable future ready digital infrastructure.

A leading Saudi mining company has engaged R Systems to implement a next generation data platform that consolidates disparate data sources and brings together storage, processing, analytics, and governance enabling real time insight and smarter decision making.

A leading foodservice distributor in Singapore has partnered with R Systems to implement Microsoft Dynamics 365 Business Central, streamlining and digitalizing its end-to-end business operations. The transformation enables improved financial visibility, tighter process controls, and enhanced operational excellence across the enterprise.

AI-native Journeys Across Customer Types : Expanding TAM

Pre-ChatGPT Software and SaaS Vendors

- ⌚ **Type 1:** AI on edges (copilots, chatbots, nudges).
- ⌚ **Type 2:** Integrate AI acquisitions into core.
- ⌚ **Type 3:** Platformization with data lake, build AI & agents on top
- ⌚ **R Systems:** Build AI capabilities and integrate in the platform.

\$ 120 Bn (7%-9% CAGR)

AI-Native Product Companies (Startups & Scale-Ups)

- ⌚ **Building new AI-native products:** audio/video AI, support agents, automated bookkeeping, claims processing, security/ops agents, content gen
- ⌚ **R Systems:** OptimaAI accelerators & agent frameworks accelerate prototype to MVP to scale. Standard patterns for multi-agent coordination, evaluation, governance

\$ 15 Bn (28%-32% CAGR)

Vertical Software Companies (Domain-Heavy SaaS)

- ⌚ **Deep industry moats:** specialized data models (sustainability, contracts, clinical, geospatial), rich integration ecosystems (ERPs, CRMs).
- ⌚ Fine tuned models, custom data schemas, higher quality context engineering
- ⌚ **R Systems:** Build vertical AI products from scratch in legal, healthcare, retail, etc.

\$ 65 Bn (10%-12% CAGR)

Enterprises with Strong Systems of Record (SoR)

- ⌚ Standardized on Salesforce, ServiceNow, ERPs, Dynamics. Not eager to replace cores.
- ⌚ **R Systems:** Build agentic workflows and digital workers on top of SoRs (claims, RCM, ITSM, HR). SoRs retain data gravity; agents orchestrate across systems; humans in the loop.

\$ 240 Bn (4%-5% CAGR)

We play on all with 3 AI offerings

- ⌚ Building AI features / Use cases
- ⌚ Using AI in SDLC – OptimaAI
- ⌚ Agentic AI for Business

Summing Up And Looking Ahead

While 2025 was year of experimentation, 2026 is going to be year of embedding AI into productive use cases

Novigo acquisition with its enterprise playbook will help accelerate Agentic implementations going beyond tech companies to the enterprise

Trends Shaping 2026

- AI remains the main discussion point. Tools fatigue is giving rise to more outcome discussions
- Modernization and tech debt reduction as well as accelerating engineering velocity are two vectors that show continuous promise
- GCCs are actively looking at AI adoption and becoming the AI COE for the enterprise – requiring expertise and enablement from partners like us
