DIVIDEND

The Board of Directors recommends a dividend of ₹ 20/- per equity share for the year ended March 31, 2014.

PERFORMANCE

Your Company has generated a business profit of ₹ 46.01 crores, during the year under review as compared to ₹ 26.04 crores (before tax and exceptional items) in the previous year.

During the course of the year, the Company has grown by 16% on a consolidated basis. This increase has come in the midst of a tough economic environment and can be credited to a combination of new product introductions, price increases as well as small volume improvements. The Company has been able to pass on much of the increase of input costs to its

customers and thereby managed to protect and even improve its bottom line.

The Company's efforts for organic as well as inorganic expansion both in India and abroad continues.

The Company has invested its investible funds of around ₹ 409 crores as on March 31, 2014 in a mixture of Debt markets, Equity/Equity Linked Instruments, Bonds/Debentures, Convertible Preference Shares, Non-Convertible Redeemable Preference Shares, Commodities, Real Estate, Opportunity based Funds, Real Estate Funds and Mutual Funds.

Scientific & Industrial Products Division (SIP)

The last year has been a tough one for the SIP division owing to very limited funding for government funded laboratories. In spite of this, the SIP division has seen a growth of 12%. Market reports suggest that sales made by our main competitors in this segment have shrunk or stayed flat during the year.

The Company has introduced two new product categories in this year :

- Chromatography vials mainly used in pharmaceutical quality control (QC)/Research & Development (R&D) labs.
- Disposable plastic tips used for liquid handling systems

The Company expects good growth in both these business segments in the coming years.

In addition to the domestic market, the Company has also focused on the international market and has grown substantially its laboratory glassware sales from ₹ 1.4 crores in the previous year to ₹ 4.3 crores. Exports of this product category has a large potential in the years to come.

Consumer Products Division

The consumer products division has seen a growth of 20% over the last financial year.

The various product categories introduced by the Company includes:

- Melamine range of Products comprising of dinner sets, trays and bowls.
- Appliances i.e. Various products such as Induction cookers, Mixer grinders, Sandwich maker, etc.
- Plastic items namely lunch boxes and Food storage containers.
- In the Home Décor items, new items such as tea lights and serving platters.

These category additions have a potential to add top line increases to the Company in the coming years. However, the market for these products is very competitive and the Company needs to do a lot of promotion in order to establish itself in these new categories.

The Company has also started selling consumerware products by means of e-commerce, through its own website and other websites like Amazon, Snap deal, Fab Furnish etc are few of them. The initial response is positive and the Company expects e-commerce to be a larger contributor of sales in the future.

Exports of consumerware division during the year almost remained flat at ₹ 3.20 crores as compared to ₹ 3.28 crores in the previous year. The Company feels that further improvement can be made in exports of this product category. The Company is already in touch with a number of potential large customers for its products in the international market.

Exports

The overall exports of the Company during the year was ₹ 7.50 crores as compared to ₹ 4.68 crores during the previous year.

Other Actions

Firstly, as reported last year, the Company has set up a modern warehouse at Village: Dumala Boridra in Bharuch District of Gujarat for its own use and a portion of which has been leased out .

Further, the Company has leased out on long term lease basis a major portion of its factory premises it acquired last year at MIDC Tarapur, Boisar, Dist: Thane, to its supplier company Vylene Glass Works Ltd for carrying out manufacturing activities there and for supply of such manufactured products to the Company. The Company has also set up a warehouse there for its own use to supply products to the western region of India.

BOROSIL

Investments

The Company has investments in various debt, equity and real estate instruments as per the Investment policy mandate approved by the Board. With the spurt in the equity market, the equity components of the investment have shown good return during the year. The trend continues even in the first quarter of the current financial year.

SUBSIDIARY

During the year, the Company has incorporated a wholly owned Free Zone Enterprise (FZE) viz. Borosil Afrasia FZE in Jebel Ali Free Zone situated in Dubai in United Arab Emirates (UAE) with an initial paid up capital of one million dirhams. (equivalent to ₹ 1.65 Crores). The objective of the FZE is to market the Company's products in the Middle East and African markets.

In accordance with the General Circular issued by the Ministry of Corporate Affairs, Government of India, the Balance Sheet, Statement of Profit and Loss and other documents of the subsidiary company are not being attached with the Balance Sheet of the Company. However, the financial information of the subsidiary company is disclosed in the Annual Report in compliance with the said circular. The Company will provide a copy of separate annual accounts in respect of its subsidiary to any shareholder of the Company who asks for it and the said annual accounts will also be kept open for inspection at the Registered Office of the Company and that of the Subsidiary company.

The Central Government has not yet prescribed any Rules in this respect. Considering the previous Rules, as per clarification issued by the Central Government vide Circular No. 67/2011 dated 30th November, 2011, the Cost Audit Rules do not apply to Wholesale or retail trading activities and ancillary products which constitute less than 2% of the total turnover of the Company or ₹ 20 Crores, whichever is lower provided required details of the same are maintained and disclosed. Since the Company is engaged in trading activities as also in business of some ancillary products having turnover less than the limit prescribed above, the said Rules regarding maintenance of cost records do not apply to the Company and as a consequence, Cost Audit is also not applicable to the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. Industry Structure and Developments

The Company has traditionally been engaged in the business of low expansion borosilicate glassware including a wide variety of scientific, industrial, lighting, pharmaceutical and Consumerware glass items, sourced both from international and domestic markets. However, as mentioned above, the company has introduced Melamine items, appliances, plastic items and new range of home décor items. These are commonly used domestic items having a large scope. However, the markets for these products are very competitive and the Company has to gradually penetrate the market for these product categories.

The entire Pharmaceutical industry, Research and Development, Education and Health segments of the market are major users of Scientific and Industrial Products, whereas Consumerware items cater to the need of the household sector.

B. Opportunities and Threats

- Opportunities:
 - * With its strong distribution channel and brand, the Company has an opportunity to grow beyond glassware in both the SIP and Consumer Products Division.
 - * With adequate reserves at its disposal, the Company has an opportunity to expand by inorganic expansion in the areas deemed fit.
- Threats:
 - * Availability of significant quantities of spurious goods bearing Company's brand name.
 - * Usage of plastics and instruments in laboratories as substitute for glassware.
 - * In view of volatile nature of equity and debt markets, the result of the investment activities of the Company may impact the profit of the Company.

C. Segment wise or Product wise Performance

Scientific and Industrial Products Division:

As reported above, the SIP division has seen a growth of 12% over the last financial year.

Consumerware Division:

As reported above, the consumer products division has seen a growth of 20% over the last financial year.

Investments:

The Company made a net profit of ₹ 28.24 crores (pre-tax & net of expenses) from its various investments during the year ended 31st March, 2014, as compared to net profit of ₹ 16.33 crores during the previous financial year. This was mainly owing to realisation of large unrealised income of the previous year, which was not accounted as per generally accepted accounting principles in India. The Company has entered into trading of commodities through National Spot Exchange Limited (NSEL), which defaulted in timely repayment and as a result, the Company is yet to realize a sum of ₹ 8.60 crores, which has become overdue. The Company has made a provision of ₹ 4.35 crores in this respect. The Company is taking all necessary steps in association with other investors, against NSEL and its Promoters.

D. Outlook

Scientific and Industrial Products:

The last year has been a tough one for the SIP division owing to very limited funding for government funded laboratories. However, with a stable government at the centre and with steady growth in the pharmaceutical industry, we expect a good demand for our laboratory products.

The focus on international business has resulted into a growth from ₹ 1.40 crores to ₹ 4.30 crores for the financial year 2013-14. We expect a continued enhancement in exports for this division.

The Company has expanded its exports to total 25 countries for the FY 2013-14. It expects to add 10 more countries to its list in the year 2014-15.

Consumerware Products:

In fiscal year 2013-14, the Indian economy experienced an economic slowdown with high inflation. The consumer products industry had to face the heat of high consumer price inflation with a decrease in consumer demand. The weak demand and rise in input prices due to currency fluctuation affected both sales and profitability.

However, with the change of Indian political scenario and market sentiments, the economy in general is likely to improve which will positively impact performance of consumer division. The division will also continue its growth by expanding its distribution channel through domestic appliances, melamine tableware and plastic storage range of products.

Investments:

While the investments in debt based instruments are likely to yield steady returns, the return from equity component is dependent on stock market scenario.

E. Risks and Concerns

- (a) Rupee depreciation and other inflationary pressures leading to dramatic increase in cost base.
- (b) Uncertainties in Government policies and delay in further economic reforms.
- (c) Increased usage of other scientific products e.g. plastics and instruments.
- (d) Competition from organised sector in trading of scientific and microwave glassware.
- (e) Spurious activities.
- (f) Competition from imported goods mostly from the grey market.

Investments:

In view of high volatility in the stock market(s), while the long term outlook remains attractive, there is uncertainty of return on the equity component of the Company's investment .

F. Internal Control Systems and their Adequacy

The Company has adequate Internal Control System commensurate with its size and nature of business. Internal Audit is periodically conducted by an external firm of Chartered Accountants and Internal Audit reports are reviewed by the Audit Committee. The Company has appointed a Practicing Chartered Accountant for close monitoring and adequate internal control of the Company's investments.

G Discussion on Financial Performance with respect to operational performance

Since the Company is debt free, the overall financial performance was in line with the operational performance, except that, the Company has income from its investible fund.

H. Material Development in Human Resources, Industrial Relations and number of people employed

In view to achieve growth aspirations of the organization, the Human Resources department of the Company has taken special initiatives to enhance the functional skills sets of the employees e.g. series of training for key account management of science & industrial products division and training of financial aspects of selling for consumer product division. Apart from this, a training calendar was implemented to address various training needs of the other employees too.

Human Resources department has also taken few other initiatives towards employee engagement of retention of good talents.

The Company had 185 office staff / managerial personnel employed as on 31st March, 2014 in various offices /locations.

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of '**Borosil Glass Works Limited**' ("the Company") and its subsidiary Company and associates (collectively referred to as 'the Group') which comprise the consolidated Balance Sheet as at March 31, 2014, and the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with Accounting Principles Generally Accepted in India including Accounting Standards notified under the Companies Act, 1956 ("the Act") read with General Circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditor on the financial statements of a subsidiary as noted below, we are of the opinion that the attached consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

The difference between the proceeds from disposal of investment in a subsidiary and the carrying amount of its assets less liabilities as of the date of disposal is recognised in the Consolidated Statement of Profit and Loss as the profit or loss on disposal of investment in subsidiary.
