Letter from the Chairman

Dear Shareholders,

It gives me immense pleasure to share that FY 2016-17 was a year of strong performance by your company. **“We take pride to be a pioneer in Greenfield BOT projects in India and have been contributing towards building nation’s infrastructure for around 40 years. These four decades of huge and rich experience enabled your company to wade through the recent challenges in the infrastructure sector. Your company has exhibited a strong turnaround in the year on the back of its internal strength and strong execution capabilities, and thereby is on the cusp of entering into a phase of exponential growth.”**

The financial year gone by was relatively better for the infrastructure space, primarily due to improving macroeconomic environment, simpler guidelines and adequate policy support from the Statutory Authorities. Your company struggled against the odds and proved its mettle despite going through a financial restructuring in the year 2014-15, due to factors beyond its control. I am pleased to share that during FY 2016-17, your company has acquired EPC work amounting to ₹ 1150 Crores for 6-laning of Shamlaji-Chiloda stretch in Gujarat, financial closure for which is in advanced stage. It is a Hybrid Annuity Model (HAM) based project and will be completed in 2 years from date of commencement. Project in Punjab has achieved the Project Commercial Operation Date (PCOD) and toll collection commenced in Nov-2016. Moran-Bypass project in Assam has started and is gaining pace. Your company is also executing few small ticket EPC works at few other places. Thus, with an order book of around ₹ 17 billion on hand, we ended the FY 2016-17 on healthy note against the previous fiscal with around ₹ 6 billion worth of order book. In real estate, first phase of Atlanta Enclave at Thane is completed and the company intends to start Phase II of the project in Oct-2017, which is expected to be completed by Dec-2020. Though the real estate is part of non-core activity, the company is keen to leverage its existing resources to **exploit the opportunities in the fast growing affordable housing space.**

Your company is working with an objective of having a strong and diversified portfolio of high margin projects. As part of its **program to deleverage the balance sheet, the company is primarily focusing on EPC/Operate Maintain Transfer (OMT)/Hybrid Annuity projects**, since the equity requirement is low. Your company is very particular in project identification and bidding for only those projects, where EBITDA margins are at least 20%-25%. Going forward, your company shall be executing orders more than ₹ 1600 Crores in next 2.5 years. The company aims to add ₹ 1000-1500 Crores worth of projects in the order book for the next 3 years from hereon.

Performance review

The highlights of financial and operational performance during the year 2016-17 are:

- Total income of ₹ 224.5 Crores
- Net Profit after Tax of ₹ 82.4 Crores
- Earnings Per Share of ₹ 10.12
- Cash Earnings Per Share of ₹ 13.32
- Net worth of ₹ 458.7 Crores (over US\$ 70 million)

Sharp rise in Total Income and corresponding manifold jump in Net Profit in your company is attributed to increasing pace in project execution and arbitration awards received from the past projects. This led to exceptional rise in the EBITDA margin to 60%; and it is going to be above 20% in the next 2-3 years, based on current order book position. Your company realised ₹ 95 Crore and ₹ 63 Crore of arbitration awards from Lucknow-Bypass project and Mumbra-Bypass project, respectively. In addition, it is expected to realise around ₹ 375 Crores of arbitration awards by FY 19; out of remaining ₹ 1250 Crores Award amount. With timely inflow of these award amounts, your company is likely to be debt free by FY 2018-19.

With GDP growth of 7.1% in FY 2016-17, India continues to be the fastest growing economy in the world, driven by the improving business and policy environment in the country. India is likely to grow at a faster pace in the years to come as full implementation of GST can potentially add around 2% to the current growth rate. **The Roads and Highways space has been one of the prime beneficiaries of the government’s efforts to provide adequate thrust to the overall domestic infrastructure sector.** In FY 2016-17, National Highways Authority of India (NHAI) awarded around 3000 kms of road projects under the Build Operate Transfer (BOT), Hybrid Annuity Model (HAM), and Engineering Procurement Construction (EPC) models. NHAI together with The Ministry of Road Transport and Highways (MoRTH) awarded around 9700 kms of project during April-February 2017. The government built around 22 kms of roads per day in the fiscal year and augmenting its policies and regulatory structure to accelerate the construction rate to ambitious 41 kms per day.

There was notable improvement on regulatory and funding front to encourage more participation from private players. In fact, the project award mix, over the five year period has changed with HAM based projects finding greater weightage and BOT projects declining due to sector’s preference for debt light model.

NHAI Project Awards

Financial Year / Project Type	FY13	FY14	FY15	FY16	FY17E
HAM	0%	0%	0%	8%	56%
EPC	0%	80%	79%	72%	34%
BOT	100%	20%	21%	20%	10%

Source: CRISIL

Stable regulatory regime, easier funding norms, less bureaucracy and increasing co-ordination across concerned authorities; are among the other effective measures undertaken by the Government for providing thrust to India’s infrastructure sector.

On the policy front, in order to revive construction sector and to ease the liquidity constraint faced mainly due to receivables from Govt Agencies, Niti Aayog and CCEA have during the year come out with following measures:

- i) **In cases where Arbitration Award has been announced in favour of concessionaire and the same has been challenged by Govt. agencies, 75% of the award amount can be withdrawn immediately by giving bank guarantee with zero margin**
- ii) **In order to expedite the arbitrations, an Amended Arbitration Act has been put in place, whereby the award is to be announced within one year. Further the Arbitration award shall have decretal power**

Both these initiatives are likely to ease the operating environment in construction sector and lead to faster resolutions of disputes.

Your company is qualified to bid for individual project worth ₹ 1500 Crores. State Government eligibility criteria are much relaxed as compared to NHAI and hence the company can bid for much higher cost State awarded projects.

The Company ensures potential for huge profitability and cashflows by pursuing policy of investments in land parcels near road project sites. Post completion and at the opportune time, these land parcels are developed into commercial and residential property. Development of roads not only ensures multiple rises in land value but also creates adequate demand for commercial and residential property. Consistent cash flows from such projects not only help the Company to repay costly debt but also provide growth capital for future expansion. Mumbra bypass is one such example where the Company is

developing Residential Complexes. Over 0.2 mn sq. ft. out of total 1.2 mn sq. ft. of the project is completed and second phase is under development. With a view to grow in a collaborative manner, the Company is working into JVs model with third-party developers for developing various commercial and residential projects with over 1 mn sq. ft. of saleable area. This asset light model helps your company to effectively use its capital while boosting the bottom line. Introduction of Real Estate Regulation Act (RERA) will bring transparency and consumer confidence in the real estate market. This, coupled with low interest rate environment will boost the affordable housing demand in the years to come.

We believe in proactively preparing ourselves for achieving sustainable rapid growth by ensuring timely availability of necessary resources – be it human resources, finance, technology, equipments, infrastructure, systems, etc.

In the area of Corporate Governance, your Company is committed to the highest standards of probity, transparency, sustainability and corporate social responsibility.

I thank all the stakeholders for reposing confidence in our abilities and endeavours and expect to receive full support in taking the Company to newer heights.

Yours Sincerely,

Rajhoo Bbarot
Chairman

MANAGEMENT DISCUSSION ANALYSIS

Macroeconomic View

With over 7% real GDP growth, India surpassed China in growth terms in FY 2016-17 and registered itself as the fastest growing economy in the world. Stable growth despite a challenging macroeconomic environment reflects strong fundamentals of the country. Inflation has been well within the range and allowed Reserve Bank of India to reduce interest in the economy. Lower inflation combining with reducing interest rates has enhanced the purchasing power, that is reflecting in pick-up in demand for interest sensitive sectors such as consumer goods, non-durables, housing, automotive etc. Currency gained strength owing to improving country's fiscal health and stable trade balance. In addition, administrative bodies took various effective steps to fuel growth by bringing in structural changes in the economy. Indian parliament passed biggest tax reform in nation's history, which will help expand the base of formal economy and will enhance ease of doing business in the country. The Government announced demonetization of high value notes to hammer out black money and promote cashless transactions. Indian economy continue to show resilience to the uncertain and tighter global macroeconomic climate and thereby likely to remain the brightest spot among emerging economies.

Industry Structure, Developments and Outlook

With 4.7 mn km, India has the second largest road network in the world. This road network transports around 65 per cent of all the goods and almost 90 per cent of total passenger traffic in the country. Road transportation has gradually increased over the years with the improvement in connectivity between cities, towns and villages. Sales of automobiles and movement of freight by roads is growing at a rapid rate. Therefore cognizant of the need to create an adequate road network to cater to the increased traffic and movement of goods, Government of India (GoI) had earmarked around 20 per cent of the investment of US\$ 1 trillion reserved for infrastructure during the 12th Five-Year Plan (FY 2012–17) to develop the country's roads. According to industry experts, India needs to invest around ₹ 75 trillion in the sector to remain on track to fulfill its infrastructure needs during the period. Nation's National Highways constitute only about 1.7% of the road network but carry about 40% of the total road traffic. Number of vehicles has been growing at an average pace of 10.16% per annum over the last five years.

Infrastructure sector being a key driver for propelling the Indian economy enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Due to improving infrastructure India jumped 19 places in World Bank's Logistics Performance Index (LPI) 2016, to rank 35th amongst 160 countries.

Market Size

The value of roads and bridges infrastructure in India has grown at a Compound Annual Growth Rate (CAGR) of 17.4 per cent over FY 12–17. The country's roads and bridges infrastructure, which was valued at US\$ 6.9 billion in 2009, is expected to touch US\$ 19.2 billion by 2017. The total length of National highways is 1,03,933 kms, state Highways is 1,61,487 kms while district and rural roads is 52,07,044 kms. In FY 2016-17, 133 kms of roads were constructed per day under the Pradhan Mantri Gram Sadak Yojana (PMGSY) against 73 kms per day during FY 2011-14. The length of National highways which was 58,112 kms in FY 03 has grown to 1,03,933 Km in FY 17. The total toll collection which was USD 64 million in FY 13 currently stands at USD 1078 million. Highway projects awarded annually by NHAI stands at around 7000 kms.

Key Developments

According to the Union Minister of State for Road, Transport and Shipping the Government is aiming to boost corporate investment in roads and shipping sector, along with introducing business-friendly strategies that will balance profitability with effective project execution.

There have been various key developments in the Indian road sector:

- According to MoRTH, a total of 6,604 kms out of the 15,000 kms of target set for national highways in FY 2016-17 has been constructed by the end of February 2017
- Minister of Road Transport and Highways (MoRTH), has announced ₹ 25 trillion (US\$ 372.8 billion) investment in infrastructure over a period of three years, which would include ₹ 8 trillion (US\$ 119.3 billion) for developing 27 industrial clusters and an additional ₹ 5 trillion (US\$ 74.56 billion) for road projects and other related activities
- NHAI has planned to invest around US\$ 250 billion in 240 road projects spanning 50,000 kms over the next five to six years
- MoRTH has undertaken development of about 7,000 kms of national highways under Bharatmala Pariyojana at an estimated cost of ₹ 80,000 Crore (US\$ 11.93 billion) in consultation with State Governments. NHAI has invited bids for preparing Detailed Project Reports (DPRs) for road development along the borders and coast lines under the Bharat Mala project
- The Cabinet Committee on Economic Affairs (CCEA) has permitted 100 per cent equity divestment by private developers after two years of construction completion for all Build–Operate–Transfer (BOT) projects, irrespective of the year of award of the project

Government Initiatives and Policy Support

The statutory bodies have taken a number of initiatives to make conducive environment for investments in the infrastructure sector:

- The Budget 2017-18 proposed overall allocation for investment in infrastructure at ₹ 3.96 Lakh Crores. A whopping sum of ₹ 2,41,387 Crores was proposed for the transportation sector as a whole including rail, roads and shipping. The allocation for roads increased from ₹ 57,976 Crores in Budget 2016-17 to ₹ 64,900 Crores in the Budget. Moreover, 2,000 km of coastal connectivity roads was identified for construction and development
- Increase in allocation to ₹ 64,900 Crores is expected to provide further opportunity for the road developers. In addition, proposal to enhance coastal connectivity through road construction of 2,000 km is also expected to offer investment opportunity of around ₹ 24,000 Crores for the sector
- The GoI has planned to invest ₹ 3 trillion (US\$ 44.73 billion) for developing 35,000 km of roads across the country, of which 21,000 km would be economic corridors and 14,000 km would be feeder routes, which is expected to improve freight movement, ease traffic bottlenecks and improve inter-city connectivity
- A mechanism to streamline institutional arrangements for the resolution of disputes in infrastructure projects is going to be introduced as an amendment to the Arbitration and Conciliation Act 1996. Effective introduction of this mechanism and its implementation thereof in FY 2017-18 can help in addressing the hurdles faced by the sector
- Lock-in period for long-term capital gains on land and buildings has been reduced from three to two years
- NHAI has planned to offer a risk cover to foreign investors who are willing to invest in government owned operational national highways
- Extension of MAT carry forward to a limit up to 15 years can provide tax benefits to SPVs of road projects for a longer period
- The GoI has planned to introduce a new framework on renegotiation of Public Private Partnership (PPP) contracts, which would allow renegotiations based on sector-specific issues, especially for national highways and ports, and provide greater flexibility to the parties involved

- The CCEA has authorised the NHAI to monetise 75 publicly funded highway projects of value ₹ 35,600 Crores (US\$ 5.34 billion) via Toll-Operate-Transfer (TOT) mode which will fetch adequate funds to finance road construction of 2,700 km length of roads
- The CCEA has approved a hybrid annuity model for implementing highway projects, which adopts a more rational approach to allocation of risks between the government and the private developer, and is hence expected to revive highway projects construction in the country
- A panel set by GoI has cleared 16 highway projects worth ₹ 7,456 Crores (US\$ 1.11 billion) for bidding in 11 states, totaling a length of 622 km, including the construction of new roads, widening and expansion of existing highways, and rehabilitation and upgrade of some projects
- NHAI has sought to improve execution of highway projects by delegating powers to its Regional Officers (RO) for hiring of equipment and labourers to demolish structures falling within the project, which would enable it to make encumbrance free land available more speedily to the concessionaire/contractors
- The MoRTH has planned to set up Land Acquisition (LA) cells across the country, which would work towards resolving issues related to land acquisition and ensure speedy compensation disbursement by the State Governments
- MoRTH has planned to build five more greenfield expressways across the country, which are expected to reduce travel time and propel economic growth
- With the objective of reviving private investment in the roads sector, the MoRTH is now working on two more models for attracting capital. One model proposes allowing bidding of a road project on the basis of the least present value, and the other envisages selling off road projects that have been built using government funds
- The Government in collaboration with Japanese investors, has planned to set up a finance corporation with an amount of ₹ 1 trillion (US\$ 15 billion), to fund projects in the roads segment
- The GoI has announced highway projects worth US\$ 93 billion, which include government flagship National Highways Building Project (NHDP) with total investment of US\$ 45 billion over next three years
- The Reserve Bank of India (RBI) has notified 100 per cent Foreign Direct Investment (FDI) under automatic route in the construction development sector. The new limit came into effect in December 2014

Road Ahead

The government, through a series of initiatives, is working on policies to attract significant investor interest. The Indian government plans to develop a total of 66,117 km of roads under different programmes such as National Highways Development Project (NHDP), Special Accelerated Road Development Programme in North East (SARDP-NE) and Left Wing Extremism (LWE). The government has identified development of 2,000 km of coastal roads to improve the connectivity between ports and remote villages.

Real Estate

Real Estate sector in India which comprises of four sub sectors -housing, retail, hospitality, and commercial, is the second largest employer after agriculture and is expected to grow at 30 per cent over the next decade. The growth of the sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy. It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term.

Market Size

The real estate market in Indian is expected to reach about US\$ 180 billion by 2020. The housing sector alone contributes 5-6 per cent to the country's GDP. During FY 2008-20, the market size of this sector is expected to increase at a Compound Annual Growth Rate (CAGR) of 11.2 per cent. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for country's growing needs. Private equity investments in real estate increased 26 per cent to a nine-year high of nearly ₹ 40,000 Crores (US\$ 6.01 billion) during 2016. Sectors such as IT and ITeS, retail, consulting and e-commerce have registered high demand for office space in recent times. The office space absorption in the year 2016 across the top eight cities amounted to 34 million square feet. Mumbai is the sweet spot for commercial real estate investment, with returns of 12-19 per cent likely in the next five years

Investments

With sharp rise in demand for office as well as residential spaces, the real sector has witnessed high growth in recent times. According to Department of Industrial Policy and Promotion (DIPP), the construction development sector in the country has received Foreign Direct Investment (FDI) equity inflows to the tune of US\$ 24.28 billion in the period April 2000 - December 2016.

Government Initiatives

The union Budget for FY 2017-18 has given a big boost to the affordable housing segment. Infrastructure status to affordable housing will increase the private participation in this segment and also lending to this segment will be a priority lending for banks. This will allow developers to access funds at lower rates.

Under the scheme for profit-linked income tax deduction for promotion of affordable housing, carpet area instead of built up area of 30 and 60 square meters will be counted. The 30 square meters limit will apply only in case of municipal limits of 4 metropolitan cities while for the rest of the country including in the peripheral areas of metros, limit of 60 square meters will apply. With this, purchasers will get more spacious homes and affordable housing segment will be more lucrative for the developers.

The GoI along with the governments of the respective states has taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies. The GoI has taken several major initiatives to increase the demand and enhance the transparency in the housing space:

- The Ministry of Housing and Urban Poverty Alleviation has sanctioned the construction of 84,460 more affordable houses for urban poor in five states, namely West Bengal, Jharkhand, Punjab, Kerala and Manipur under the Pradhan Mantri Awas Yojana (Urban) scheme with a total investment of ₹ 3,073 Crores (US\$ 460 millions)
- CCEA has approved various measures to revive the construction sector, putting in place a mechanism to release funds stuck in arbitration awards to revive stalled projects
- Brihan Mumbai Municipal Corporation (BMC) has introduced a single-window clearance for construction which will cut the time taken for getting approvals for a building project and lead to correction in prices of residential property, thereby giving a fillip to Mumbai realty
- The Securities and Exchange Board of India (SEBI) has proposed easier regulations for real estate investment trusts (REITs), such as raising the cap of investment of REITs' assets in under-construction projects from 10 per cent to 20 per cent, in order to attract the interest of developers, and also plans to relax the rules for foreign fund managers to relocate to India

- SEBI has allowed Foreign Portfolio Investors (FPI) to invest in units of REITs, Infrastructure Investment Trusts (InvITs), category III Alternative Investment Funds (AIFs), and also permitted them to acquire corporate bonds under default

Key Risks

While the management is very optimistic about the Company's growth outlook, it is subject to certain risks and uncertainties. A spate of policy reforms by the statutory bodies has made the Indian infrastructure space more attractive for the new players to enter and therefore possible rise in competition in the sector. Atlanta Limited has around four decades of experience in the industry and has positioned itself in niche space following a conservative approach. Infrastructure being a capital intensive sector requires high level of long term debt financing. Moreover increasing interest rates during the span of project can challenge the profit margins. The Company has always ensured adequate capital for its operations and in fact it is working to become debt free in the next few quarters. Infrastructure projects involve complex design and engineering, substantial procurement of machinery and equipment, extensive construction management and sophisticated activities executed over an extended period of time. Moreover availability of input material and volatility in its cost, arrangement of manpower could be other risks the Company is exposed to. The Company maintains a healthy and long term relationship with its suppliers and workforce to ensure seamless execution of its projects. It also maintains strong execution efficiencies by effectively mobilizing its machineries and other resources. India is positioned for a sustainable and long term growth

Prospective Strategies and Outlook

Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The growing flow of FDI into Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards.

‘Annexure – B’ to the Independent Auditor’s Report

[Referred to in paragraph 2(f) under the heading ‘Report on Other Legal & Regulatory Requirement’ of our report of even date to the standalone financial statements of the Company for the year ended March 31, 2017.]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s. **Atlanta Limited** (‘the Company’), as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

‘Annexure – A’ to the Independent Auditor’s Report

[Referred to in paragraph 2(f) under the heading ‘Report on Other Legal & Regulatory Requirement’ of our report of even date to the consolidated financial statements of the Company for the year ended 31st March, 2017.]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March, 2017, we have audited the internal financial controls over financial reporting of **M/s. Atlanta Limited** (hereinafter referred to as “the Holding Company”) and its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

I believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding

the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, its associate companies and jointly controlled companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India except in case of one of the subsidiary (M/s. Atlanta Infra Assets Limited) of the Holding Company not audited by us, the other auditor who audited the financial statements of the subsidiary whose reports have been furnished to us by the Management, has been expressed disclaimer of opinion that the system of internal financial controls over financial reporting were not made available to enable to determine if the Company has established adequate internal financial control over financial reporting and whether such internal financial controls were operating effectively on 31st March, 2017.

We have considered the disclaimer reported above in determining the nature, timing, and extent of audit tests applied in audit of the financial statements of the Company, and the disclaimer does not affect our opinion on the financial statements of the Company.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 6 (six) subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.
