MANAGEMENT DISCUSSION ANALYSIS

INDUSTRY STRUCTURE, DEVELOPMENTS AND OUTLOOK

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads and urban infrastructure development.

The Indian roads carry almost 90 per cent of the country's passenger traffic and around 65 per cent of its freight.

Market Size

Foreign Direct Investment (FDI) received in Construction Development sector (townships, housing, built up infrastructure and construction development projects) from April 2000 to December 2017 stood at US\$ 24.67 billion, according to the Department of Industrial Policy and Promotion (DIPP).

The transport infrastructure sector in India is expected to grow at 6.1 per cent in real terms in 2017 and at a Compounded Annual Growth Rate (CAGR) of 5.9 per cent through the year 2021, thereby becoming the fastest-expanding component of the country's infrastructure sector.

The construction of highways reached 8,142 km during FY 2016-17, with an all-time high average pace of 22.3 km per day. In the first two months of FY 2017-18, 1,627 km of highway was constructed at an average of 26.3 km per day.

Investments

India has a requirement of investment worth ₹ 50 trillion (US\$ 777.73 billion) in infrastructure by 2022 to have sustainable development in the country. India is witnessing significant interest from international investors in the infrastructure space.

Government Initiatives

The Government of India is expected to invest highly in the infrastructure sector, mainly highways and urban transport in 2019.

The Government of India is taking every possible initiative to boost the infrastructure sector.

Some of the steps taken in the recent past are being discussed hereafter.

- Announcements in Union Budget 2018-19:
- Massive push to the infrastructure sector by allocating ₹ 5.97 lakh crore (US\$ 92.22 billion) for the sector.
- 90 smart cities shortlisted by the Government of India have proposed projects with investments of ₹ 191,155 crore (US\$ 30.02 billion) which include Projects Focusing on Revamping an Identified Area (Area Based Projects) with investment of ₹ 152,500 crore (US\$ 23.95 billion).
- Contracts awarded under the Smart Cities Mission would show results by end of 2018 as the work is already in full swing, according to Ministry of State for Housing and Urban Affairs, Government of India.
- The Ministry of Road Transport and Highways, Government of India has sanctioned projects worth ₹ 13,411 crore (US\$ 2.1 billion) for development of National Highways in Assam between 2014-15 and 2017-18.
- The Government of India has succeeded in providing road connectivity to 85 per cent of the 178,184 eligible rural habitations in the country under its Pradhan Mantri Gram Sadak Yojana (PMGSY) since its launch in 2014.

- The land acquisition process and detailed project reports (DPR's) for the Bharatmala Pariyojana are underway and the first project is expected to be awarded before the end of 2018, according to the Ministry for Road Transport and Highways.

Road Ahead

India's National Highway network is expected to cover 50,000 kilometers by 2019, with around 20,000 km of works scheduled for completion in the next couple of years, according to the Ministry of Road Transport and Highways.

REAL ESTATE

Introduction

The real estate sector is one of the most globally recognized sectors. In India, real estate is the second largest employer after agriculture and is slated to grow at 30 per cent over the next decade. The real estate sector comprises four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short term and the long term.

India's rank in the Global House Price Index has jumped 13* spots to reach the ninth position among 55 international markets, on the back of increasing prices in mainstream residential sector.

Market Size

The Indian real estate market is expected to touch US\$ 180 billion by 2020. Housing sector is expected to contribute around 11 per cent to India's GDP by 2020. In the period FY 2008-2020, the market size of this sector is expected to increase at a Compound Annual Growth Rate (CAGR) of 11.2 per cent. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

India is expected to witness an upward rise in the number of real estate deals in 2018, on the back of policy changes that have made the market more transparent.

Sectors such as IT and ITES, retail, consulting and e-commerce have registered high demand for office space in recent times. The office space absorption in 2017 across the top eight cities amounted to 18 million square feet (msf) as of September 2017. Private equity inflows in office and IT/ITES real estate have grown 150 per cent between 2014 and 2017 backed by a strong attraction towards office sector. In 2017, new retail space of 6.4 million has finished and supply of around 20 mn sq ft is expected in 2019.

Investments/Developments

The Indian real estate sector has witnessed high growth in recent times with the rise in demand for office as well as residential spaces. Private equity investments in real estate are estimated to grow to US\$ 100 billion by 2026 with tier 1 and 2 cities being the prime beneficiaries. India stood third in the US Green Building Council's (USGBC) ranking of the top 10 countries for Leadership in Energy and Environmental Design (LEED) certified buildings, with over 752 LEED-certified projects across 20.28 million gross square meters of space. According to data released by Department of Industrial Policy and Promotion (DIPP), the construction development sector in India has received Foreign Direct Investment (FDI) equity inflows to the tune of US\$ 24.67 billion in the period April 2000-December 2017.

Government Initiatives

The Government of India along with the governments of the respective states has taken several initiatives to encourage the development in the sector. The Smart City Project, where there is a plan to build 100 smart cities, is a prime opportunity for the real estate companies. Below are some of the other major Government Initiatives:

- In February 2018, creation of National Urban Housing Fund was approved with an outlay of ₹ 60,000 crore (US\$ 9.27 billion).
- Under the Pradhan Mantri Awas Yojana (PMAY) Urban 1,427,486 houses have been sanctioned in 2017-18. In March 2018, construction of additional 3,21,567 affordable houses was sanctioned under the scheme ₹ 16,000 crore (US\$2.47 billion) towards Sahaj Bijli Har Ghar Yojana (Saubhagya) scheme. The scheme aims to achieve universal household electrification in the country.
- The Government of India is working to ensure a good living habitat for the poor in the country and has launched new flagship urban missions like the Pradhan Mantri Awas Yojana (Urban), Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and Swachh Bharat Mission (Urban) under the urban habitat model, according to Ministry of State for Housing and Urban Affairs, Government of India.

Road Ahead

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform which will help in allowing all kinds of investors to invest in the Indian real estate market. It would create an opportunity worth ₹ 1.25 trillion (US\$ 19.65 billion) in the Indian market over the years. Responding to an increasingly well-informed consumer base and, bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The growing flow of FDI into Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards.

Key Risks

While the management is very optimistic about the Company's growth look, it is subject to certain risks and uncertainties. A spate of policy reforms by the statutory bodies has made the Indian infrastructure space more attractive for the new players to enter and therefore possible rise in competition in the sector. Atlanta Limited has around four decades of experience in the industry and has positioned itself in niche space following a conservative approach. Infrastructure being a capital intensive sector requires high level of long term debt financing. Moreover increasing interest rates during the span of project can challenge the profit margins. The Company has always ensured adequate capital for its operations and in fact it is working to become debt free in the next few quarters. Infrastructure projects involve complex design and engineering, substantial procurement of machinery and equipment, extensive construction management and sophisticated activities executed over an extended period of time. Moreover availability of input material and volatility in its cost, arrangement of manpower could be other risks the Company is exposed to. The Company maintains a healthy and long term relationship with its suppliers and workforce to ensure seamless execution of its projects. It also maintains strong execution efficiencies by effectively mobilizing its machineries and other resources. India is positioned for a sustainable and long term growth

Cautionary Statement

Statements in the Management Discussion and Analysis describing Atlanta Limited's objectives, projections, estimates, expectations may be "forward-looking statements". Actual results may differ materially from those expressed or implied. Important factors that could make difference to the Atlanta Limited's operations include economic conditions in which Atlanta Limited operates, change in government regulations, tax laws, statutes and other factors such as litigations and industrial relations.

INDEPENDENT AUDITOR'S REPORT

To the Members of Atlanta Limited

Report on the Standalone Restated Financial Statements

We have audited the accompanying standalone restated Ind AS financial statements of **Atlanta Limited** ('the Company'), which comprise the Balance Sheet as at 31st March, 2018, the statement of profit and loss, the statement of changes in equity and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Restated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone Restated Ind AS financial statements that give a true and fair view of the state of affairs, profit/(loss) (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone restated Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone restated Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone restated Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone restated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone restated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone restated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone restated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone restated Ind AS financial statements

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists we are required to draw attention in the auditor's report to the related disclosures in the financial statements or if such disclosures are inadequate to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone restated Ind AS financial statements.

Background to the Restated Ind AS Financial Statements

The Standalone Ind AS Audited Financial Statements for the year ended 31st March, 2018 were approved by the Board of Directors at their meeting held on July 28, 2018 ("Original Financial Statements.") which were placed before the members in the Annual General Meeting held on September 28, 2018 for their approval.

In the Original Financial Statements so prepared and placed before the members as aforesaid, the Auditor's Report contained "Emphasis of Matter" in relation to realization of certain receivables from PWD, Maharashtra.

In the said AGM, the members were of the view that the amount shown as receivable from PWD, Maharashtra was unlikely to realize. Hence, the members resolved that an amount of ₹ 39,62,28,303/- be considered as not realizable and hence should be written-off.

The Board of Directors were accordingly directed at the AGM to restate the said Original Financial Statements and to get the same audited by the Statutory Auditors.

Consequent to the above, the Board of Directors of the Company have restated the Original Financial Statements for the year ended 31st March, 2018. The impacts of the restatements are as under:

'Annexure – A' to the Independent Auditors' Report

Referred to in paragraph 1 under the heading 'Report on Other Legal & Regulatory Requirement' of our report of even date to the standalone restated Ind AS financial statements of the Company for the year ended 31st March, 2018, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets;
- (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of two years. In accordance with this programme, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the company.
- (ii) (a) As explained to us, the inventories have been physically verified during the year by the management. In our opinion, having regard to the nature and location of inventories, the frequency of the physical verification is reasonable.
- (b) In our opinion, the discrepancies noticed on physical verification of the inventories were not material in relation to the operations of the Company and the same have been properly dealt with in the books of account.
- (iii) The Company has granted interest free loans to five bodies corporate covered in the register maintained under section 189 of the Companies Act, 2013 ('the Act') and balance outstanding as on 31st March, 2018 were ₹ 126,44,62,843/-.
- (a) In our opinion, other terms and conditions on which the loans had been granted to the bodies corporate listed in the register maintained under Section 189 of the Act were not, prima facie, prejudicial to the interest of the Company
- (b) In the case of the loans granted to the bodies corporate listed in the register maintained under section 189 of the Act, the borrowers have been regular in the repayment of principal on demand. All loans given are interest free hence question of payment of the interest does not arise. The terms of arrangements do not stipulate any repayment schedule and the loans are repayable on demand.

‘Annexure – B’ to the Independent Auditor’s Report

[Referred to in paragraph 2(f) under the heading ‘Report on Other Legal & Regulatory Requirement’ of our report of even date to the standalone restated financial statements of the Company for the year ended 31st March, 2018.]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s. **Atlanta Limited** (‘the Company’), as of 31st March, 2018 in conjunction with our audit of the standalone Restated Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone restated Ind As financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone restated Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

b) Background to the Restated Ind AS Financial Statements

The Standalone Ind AS Audited Financial Statements for the year ended 31st March, 2018 were approved by the Board of Directors at their meeting held on July 28, 2018 ("Original Financial Statements.") which were placed before the members in the Annual General Meeting held on 28th September, 2018 for their approval.

In the Original Financial Statements so prepared and placed before the members as aforesaid, the Auditor's Report contained "Emphasis of Matter" in relation to realization of certain receivables from PWD, Maharashtra.

In the said AGM, the members were of the view that the amount of ₹ 61,37,56,574/- shown as receivable from PWD, Maharashtra was unlikely to be realized. Hence, the members resolved that revenue from operations for the year be reduced by ₹ 21,75,28,271/- and an amount of ₹ 39,62,28,303/- be considered as not realizable and should be written-off as bad debt.

The Board of Directors were accordingly directed at the AGM to restate the said Original Financial Statements and to get the same audited by the Statutory Auditors.

The impact of restatement of financial statements has been disclosed in note 4.28.(i to vii)

These restated financial statements were authorized for issue by the Board of Directors on October 02, 2018.

2) Significant accounting policies and critical accounting estimate and judgments:

2.1 Basis of preparation, measurement and significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

Compliance with Ind AS

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and relevant provisions of the Companies Act, 2013 ("the Act"). These are the Company's first Ind AS financial statements and Ind AS 101- 'First-time Adoption of Indian Accounting Standards' has been applied. The policies set out below have been consistently applied during the years presented.

For all periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act ("Previous GAAP").

These financial statements for the year ended March 31, 2018 are the first financial statements which the Company has prepared in accordance with Ind AS. An explanation of how the transition from Previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows including reconciliations and descriptions of the effect of the transition is provided in note 3 below.

Historical cost convention

The financial statements have been prepared under the historical cost convention, as modified by the following:

- Certain financial assets and financial liabilities at fair value;
- Defined benefit plans – plan assets that are measured at fair value;

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company uses valuation techniques that are appropriate in the circumstances for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

ATLANTA LIMITED

NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Current vis-à-vis non-current classification

The assets and liabilities reported in the balance sheet are classified on a “current/non-current basis”, with separate reporting of assets held for sale and liabilities. Current assets, which include cash and cash equivalents, are assets that are intended to be realized, sold or consumed during the normal operating cycle of the Company or in the 12 months following the balance sheet date; current liabilities are liabilities that are expected to be settled during the normal operating cycle of the Company or within the 12 months following the close of the financial year. The deferred tax assets and liabilities are classified as non-current assets and liabilities.

(b) Property, plant and equipment:

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Expenditure incurred on assets which are not ready for their intended use comprising direct cost, related incidental expenses and attributable borrowing cost are disclosed under Capital Work-in-Progress.

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized at April 01, 2016 measured as per previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value:

Depreciation is calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives which are as follows:

Particulars	Estimated useful lives (Years)
Buildings	60
Plant and equipment’s and earthmoving machinery	12
Furniture and fixtures	10
Vehicles	9
Office and equipments	5
Temporary structures	3

Estimated useful lives, residual values and depreciation methods are reviewed annually and adjusted if appropriate, at the end of each reporting period.

(c) Intangible assets:

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization / depletion and impairment loss, if any. The cost comprises of purchase price, borrowing costs and any cost directly attributable to bringing the asset to its working condition for the intended use.

Expenditure incurred on acquisition of intangible assets which are not ready to use at the reporting date is disclosed under “intangible assets under development”.

Amortization method and periods

Amortization is charged on a straight-line basis over the estimated useful lives. The estimated useful lives, residual value and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognized as at April 01, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

(d) **Investment properties:**

Property that is held for long term rental yields or for capital appreciation or both, and that is not occupied by the Company is classified as investment property. Investment property is measured initially at cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties are depreciated using the straight line method over their estimated useful lives. Investment properties which are buildings generally have a useful life of 60 years.

(e) **Impairment of non-financial assets:**

Assets which are subject to depreciation or amortization are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(f) **Trade Receivable:**

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method, less provision for impairment, if any.

(g) **Investments in subsidiaries, Joint ventures and Associates**

Investments in subsidiaries, Joint ventures and associates are measured at cost less provision for impairment, if any.

(h) **Financial instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

Investments and other financial assets

i. **Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through Other Comprehensive Income or through profit or loss) and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or Other Comprehensive Income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments in subsidiaries, the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through Other Comprehensive Income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii. **Measurement**

At initial recognition, the Company measures financial assets at its fair value plus, in the case of financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial assets. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Fair value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value through Profit or Loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognized in profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

iii. **Impairment of financial assets:**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109-'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv. **Derecognition of financial assets**

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v. **Income recognition:**

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(i) **Contributed equity:**

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax from the proceeds.

(j) **Financial liabilities:**

i. **Classification as debt or equity**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii. **Initial recognition and measurement:**

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

iii. **Subsequent measurement:**

The measurement of financial liabilities depends on their classification, as described below:

Borrowings: Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the Statement of Profit and Loss over the period of the borrowings using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

Trade and other payables: These amounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Those payable are classified as current liabilities if payment is due within one year or less otherwise they are presented as non-current liabilities. Trade and other payables are subsequently measured at amortised cost using the effective interest rate method.

Financial guarantee contracts: Financial guarantee contracts are recognised as a financial liability at the time when guarantee is issued. The liability is initially at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 and the amount initially recognised less cumulative amortisation, where appropriate.

Where guarantees in relation to loans of subsidiaries are provided for no compensation, the fair values as on the date of transition are accounted for as contribution and recognized as part of the cost of the equity investment.

iv. **Derecognition:**

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/ (losses). When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

(k) **Borrowing costs:**

General and specific borrowing costs that are directly attributable to the acquisition, construction or productions of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(l) **Provisions, Contingent Liabilities and Contingent Assets:**

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made, is termed as contingent liability.

Contingent Assets

A contingent asset is disclosed, where an inflow of economic benefits is probable.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

(m) Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable, and represents amount receivable for goods supplied, stated net of discounts, returns, value added taxes and Goods and service tax (GST).

i. Revenue from construction contracts

When the outcome of a construction contract can be estimated reliably and it is probable that the contract will be profitable, contract revenue is recognized over the period of the contract by reference to the stage of completion. Contract revenue is measured at the fair value of the consideration received or receivable.

For the purpose of recognizing revenue, contract revenue comprises the initial amount of revenue agreed in the contract, the variations in contract work, claims and incentive payments to the extent that its receipt is considered probable and the amounts are capable of being reliably measured.

Contract costs are recognized as expenses by reference to the stage of completion of the contract activity at the end of the reporting period. When it is probable that total contract costs will exceed the total contract revenue, the expected loss is recognized as an expense immediately.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Claims and amount in respect thereof are recognised only when the negotiations have advanced to a stage where it is probable that the customers will accept them and amount can be reliably measured. In the case of Arbitration awards and disputed claims pertaining to construction contracts revenue is recognized when the claims are granted in favour of the Company and where it is reasonable to expect the ultimate collection of such arbitration awards / disputed claims pertaining to construction contracts.

The Company evaluates whether it is acting as a principal or agent by considering a number of factors which includes inventory risk, customer's credit risk for the amount receivable from the customer, primary responsibility for providing goods and services to the consumer. Where the Company is acting as a principal in the transaction, revenue and related costs are recorded at their gross values. Where the Company is effectively acting as an agent in the transaction, revenue and related costs are recorded at their net values.

ii. Revenue recognition on account of arbitration/litigation claims

The Company has exercised judgment over recognition of revenue arising on account of claims made by the Company to the customer on account of several breaches committed by the contracting authorities during the period of contract, dispute over quantity and rates of materials used in execution of the project leading to dispute which has been settled vide arbitration process and the outcome of these awards including the timing and the amount of revenue recognition requires a reasonable degree of estimation.

Additional claims including escalations and receivable against Arbitral Tribunal awards, which in the opinion of the management, are certain and recoverable on the contracts are recognized at the time of evaluating the job.

iii. Revenue from Toll operations

Income from toll contracts on Build Operate and Transfer (BOT) basis are recognised on actual collection of toll revenue as per the Concession agreement.

iv. Revenue from Real estate development

Income from real estate sales is recognized on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognized on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when:

- ii. All critical approvals necessary for commencement of the project have been obtained; and
- iii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost); and
- iv. when at least 10% of the sales consideration is realised; and
- v. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

(n) **Employee benefits:**

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in Statement of Profit or Loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Post employee obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund and superannuation fund.

Gratuity obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in Other Comprehensive Income. They are included in Retained Earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans

Provident fund

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(o) **Income tax:**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in Other Comprehensive Income or directly in equity. In this case, the tax is also recognized in Other Comprehensive Income or directly in equity, respectively.

(p) Cash and cash equivalents:

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents include cash on hand, demand deposits with banks, short-term balances (with an original maturity of three months or less from date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(q) Earnings per share:

Basic earnings per share

Basic earnings per share are calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(r) Cash flow statement:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(s) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified by the Chairman and Managing Director that makes strategic decisions.

(t) Business combinations:

Business combinations involving entities that are controlled by the Company are accounted for using the pooling of interests method as follows:

- i. The assets and liabilities of the combining entities are reflected at their carrying amounts.
- ii. No adjustments are made to reflect fair values, or recognize any new assets or liabilities.
- iii. Adjustments are only made to harmonize accounting policies.
- iv. The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- v. The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against General Reserve.
- vi. The identities of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- vii. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

(u) Dividends:

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.2 Critical accounting estimates and judgments:

The preparation of the financial statements under Ind AS requires management to take decisions and make estimates and assumptions that may impact the value of revenues, costs, assets and liabilities and the related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(a) Classifications of Joint Arrangement as Jointly Controlled Operations

The Company based on rights and obligations that arises from the contractual arrangement entered into between the parties has classified certain Joint Arrangements entered into by the Company with parties to execute the construction contracts as Jointly Controlled Operations where the contractual agreement provides rights to assets and obligations for liabilities for those parties sharing joint control and the legal form does not confer separation between the investors and the special purpose vehicle i.e. partnership firms formed under the Indian Partnership Act, 1932 to execute the project.

(b) Revenue recognition

i. Revenue recognition on account of construction contracts and real estate development

The Company uses the 'percentage-of-completion method' to determine the appropriate amount to recognize in a given period. The stage of completion is measured by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion.

ii. Revenue recognition on account of arbitration/litigation claims

The Company has exercised judgment over recognition of revenue arising on account of claims made by the Company to the customer on account of several breaches committed by the customer during the period of contract, dispute over quantity and rates of materials used in execution of the project leading to dispute which has been settled vide arbitration process and the outcome of these awards including the timing and the amount of revenue recognition requires a reasonable degree of estimation.

(c) Expected Credit Loss

Company has a policy of regularly reviewing the recoverability of trade receivables. Substantial amount of trade receivables of the Company represents amount recoverable from the customers arising on account of arbitration claims pending against the Company. The expected credit loss allowance for trade receivables is made as per provision policy of the Company which takes into account the historical credit loss experience and adjusted for forward looking information.

3) Transition to Ind AS:

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 01, 2017, with a transition date of April 01, 2016. For all periods upto and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the previously applicable Indian GAAP (previous GAAP).

The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS Standards and interpretations that are issued and effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the Company has prepared financial statements which comply with Ind AS for year ended March 31, 2018, together with the comparative information as at and for the year ended March 31, 2017. The Company's opening Ind AS Balance Sheet has been prepared as at April 01, 2016, the date of transition to Ind AS.

I. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the Company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognized directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the Company in restating its previous GAAP financial statements, including the Balance Sheet as at April 01, 2016 and the financial statements as at and for the year ended March 31, 2017.

(a) Ind AS optional exemptions

i. Deemed cost

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets and investment property covered by Ind AS 40 Investment Properties.

ii. Business combinations

Ind AS 101 provides an exemption for all transactions qualifying as business combinations, not to restate any business combinations under Ind AS103, occurring before the transition date. The Company has elected to apply this exemption and accordingly the Company has not restated business combinations occurring before April 01, 2016.

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

(b) Ind AS mandatory exceptions

The Company has applied the following exceptions from full retrospective application of Ind AS as mandatorily required under Ind AS 101:

i. Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 01, 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for Impairment of financial assets based on expected credit loss model in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

ii. Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Consequently, the Company has applied the above assessment based on facts and circumstances existing at the transition date.

II. Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The regrouped previous GAAP information is derived based on the audited financial statements of the Company for year ended March 31, 2017.

The following tables represent the reconciliations from previous GAAP to Ind AS.

III. Notes to first-time adoption of Ind AS:

a. Rectification of errors identified under previous GAAP.

i. Interest on arbitration claims

The Company in the previous year ended March 31, 2017 had inadvertently accounted for interest on arbitration claim amounting to ₹ 1,58,71,122/- which has been rectified by restating the financial statements for the year ended March 31, 2017 in accordance with Ind AS 101. Consequent to above, the total equity as on March 31, 2017 and Profit for the year ended March 31, 2017 has decreased by ₹1,03,81,300/-.

ii. Proposed Dividend

The Company in the previous year ended March 31, 2017 had inadvertently accounted for Proposed Dividend pertaining to year ended March 31, 2017 which was declared by the Board subsequent to report signing date of the financial statements which otherwise under the previous GAAP is required to be recognized in the year in which the Dividend is declared. The said error has been rectified by restating the financial statements for the year ended March 31, 2017 in accordance with Ind AS 101. Consequent to above, the total equity as on March 31, 2017 has increased by ₹1,08,69,444/-.

b. Classification of Preference shares as compound financial instruments.

The Company has issued Redeemable Preference Shares. The Preference shares carry fixed rate of dividend which is non-discretionary. Ind AS 32 requires Classification of such kind of instruments into equity and liability component based on the terms of the contract. Interest on liability component is recognized using effective interest method. Under the previous GAAP, the preference shares were classified as equity and dividend payable thereon was considered treated as distribution of profit. Consequent to this change, the total equity as on March 31, 2017 ₹ 12,50,00,000/- (April 01, 2016:) has decreased by ₹ 2,11,59,004/- due to classification of equity component of Preference shares in equity which has been partially off-set by notional interest cost of ₹ 3,31,47,322/- recognized on preference shares using effective interest rate method and the profit for the year ended March 31, 2017 has been decreased by ₹ 50,37,899/- on account of interest on preference shares recognized using effective interest rate method.

c. Borrowings – Transaction cost adjustment

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognized in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Consequently, the total equity as at March 31, 2017 is increased by ₹ 89,57,020/- (April 01, 2016 - ₹1,16,96,666/- and profit for the year ended March 31, 2017 is decreased by ₹ 27,39,646/-

ATLANTA LIMITED
NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

d. Deemed cost - Property, Plant and Equipments (PPE)

Under the previous GAAP, property, plant and equipment, were carried at cost. Under Ind AS, the Company has opted the policy to carry such property, plant and equipment at deemed cost on the date of transition. Accordingly, the revaluation reserve recognized under the previous GAAP has been reversed and transferred to retained earnings and on account of the aforesaid adjustments, the additional depreciation charged of ₹ Nil on account of revaluation under previous GAAP has been reversed during the year 2016-17 leading to increase in profit for the year ended March 31, 2017 by (Nil).

e. Security Deposits

Under Ind AS, all financial assets are required to be recognized at fair value. Accordingly, the Company has fair valued the security deposits under Ind AS. Under the previous GAAP, interest free security deposits (that are refundable in cash on completion of cash term) were recorded at their transaction value. Difference between the fair value and transaction value of security deposit has been recognized as prepaid rent. Consequent to this change, the profit for the year and the total equity as at March 31, 2017 decreased by ₹ 3,17,25,179/- (April 01, 2016: ₹ 3,86,84,854/- due to amortisation of prepaid rent which has been partially off-set by notional interest income of ₹ 19,34,309/- in (April 01, 2016: ₹ 4,57,808/-) recognised on security deposits.

f. Financial guarantee obligations

Under Ind AS, financial guarantees are accounted as financial liabilities and measured initially at fair value. Accordingly, the Company has created financial guarantee obligations of ₹ 25,19,54,304/- as on April 01, 2016. On account of the aforesaid adjustment, the Company has recognised Other Income of ₹ 3,73,71,728/- in the Statement of Profit and Loss for the year ended March 31, 2017

g. Fair valuation of investment

Under Ind AS, investment in equity instruments of others carried at FVTPL, Investment measured initially at fair value. Accordingly, the Company has transferred ₹ 10,39,535/- to retained earnings as on April 01, 2016.

h. Tax adjustments on above GAAP adjustments

The Company in the previous year ended March 31, 2017 had not accounted for MAT credit pertaining to year ended March 31, 2017. The said error has been rectified by restating the financial statements for the year ended March 31, 2017 in accordance with Ind AS 101. Consequent to above, the total equity as on March 31, 2017 has increased by ₹ 23,43,92,574/-.

i. Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in Other Comprehensive Income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the profit for the year ended March 31, 2017 increased by ₹ 12,52,048/-. There is no impact on the total Equity as at March 31, 2017.

j. Other Comprehensive Income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the Statement of Profit and Loss as 'Other Comprehensive Income' includes remeasurements of post-employment benefit obligation and fair valuation of investments in subsidiaries.

k. Retained earnings

Retained earnings as at April 01, 2016 has been adjusted consequent to the above Ind AS transition adjustments.

- i. Provident fund
- ii. State defined contribution plans
 - Employees' Pension Scheme, 1995

The provident fund and the state defined contribution plan are operated by the regional provident fund commissioner. Under the schemes, the Company is required to contribute a specified percentage of payroll cost to the retirement benefit schemes to fund the benefits.

The Company has recognized the following amounts in the Statement of Profit and Loss for the year:

(Amount in ₹)

	Year ended March 31, 2018	Year ended March 31, 2017
(i) Contribution to provident fund	327,181	288,346
(iii) Contribution to employees' pension scheme 1995	645,004	562,447

c) Post employment obligation

Gratuity

The Company has a defined benefit plan, governed by the Payment of Gratuity Act, 1972. The plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days basic salary for every completed years of services or part thereof in excess of six months, based on the rate of basic salary last drawn by the employee concerned.

(i) Significant estimates: actuarial assumptions

Valuations in respect of gratuity have been carried out by an independent actuary, as at the Balance Sheet date, based on the following assumptions:

Particulars	March 31, 2018	March 31, 2017	April 01, 2016
Discount rate (per annum)	7.50%	7.20%	-
Rate of increase in compensation levels	5.00%	5.00%	5.00%
Rate of return on plan assets	NA	NA	NA
Expected average remaining working lives of employees in number of years	5	5	5

The estimate of rate of escalation in salary considered in actuarial valuation, takes into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market.

Sensitivity analysis:

The sensitivity of the provision for defined benefit obligation to changes in the weighted principal assumptions is:

(Amount in ₹)

Particulars	Impact on closing balance of provision for defined benefit obligation					
	Change in assumptions		Increase in assumptions		Decrease in assumptions	
	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017
Discount rate	1%	1%	(138,514)	(490,214)	150,021	570,281
Rate of increase in compensation levels	1%	1%	98,520	577,258	(92,830)	(504,184)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. While calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(a) Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

(Amount in ₹)

Financial assets and liabilities measured at fair value - recurring fair value measurements as at March 31, 2018	Level 2	Level 3	Total
Financial assets at FVTPL			
Investment in equity instruments	1,189,535	4,405,441,455	4,406,630,990
Others (Investment in Govt. Securities)	-	953,740	953,740
Total financial assets	1,189,535	4,406,395,195	4,407,584,730

(b) Valuation processes

The Company obtains assistance of independent and competent third party valuation experts to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the Company and the valuer on periodically basis.

(c) Valuation technique used to determine fair values

The main level 3 inputs used by the Company are derived and evaluated as follows:

The fair value of financial instruments is determined using discounted cash flow analysis.

The carrying amount of current financial assets and liabilities are considered to be the same as their fair values, due to their short term nature.

The fair value of the long-term Borrowings with floating-rate of interest is not impacted due to interest rate changes, and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the Company borrowing (since the date of inception of the loans). Further, the Company has no long-term Borrowings with fixed rate of interest.

For financial assets and liabilities that are measures at fair value, the carrying amount is equal to the fair values.

Note:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities which are included in level 3.

There are no transfers between any levels during the year.

The Company's policy is to recognise transfer into and transfer out of fair value hierarchy levels as at the end of the reporting period.

14) Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost.	Aging analysis	Diversification of bank deposits, letters of credit
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Un hedged

(a) Credit risk

The Company is exposed to credit risk, which is the risk that counterparty will default on its contractual obligation resulting in a financial loss to the Company.

Credit risk arises from cash and cash equivalents, financial assets carried at amortised cost and deposits with banks and financial institutions, as well as credit exposures to trade customers including outstanding receivables.

Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Company's credit risk arises from accounts receivable balances. Major customers of the Companies include public sector enterprises and state owned companies having high credit quality. Accordingly, the Company's customer credit risk is very low. With respect to inter corporate deposits/ loans given to subsidiaries, the Company will be able to control the cash flows of those subsidiaries as the subsidiaries are wholly owned by the Company.

For banks and financial institutions, only highly rated banks/institutions are accepted. Generally all policies surrounding credit risk have been managed at company level.

(b) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

In respect of its existing operations, the Company funds its activities primarily through long-term loans secured against each SPV's and long terms loans and advances. In addition, each of the Special Purpose Vehicle (SPV's) has working capital loans available to it which are renewable annually, together with certain intra-group loans.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in the operating subsidiaries of the Company in accordance with practice and

limits set by the Company. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(i) **Maturities of financial liabilities**

The amounts disclosed below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

* Includes contractual interest payments based on the interest rate prevailing at the reporting date.

(c) **Market risk**

Market risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because of volatility of prices in the financial markets. Market risk can be further segregated as: a) Foreign currency risk and b) Interest rate risk.

(i) **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Company does not have any foreign currency loans, receivables or payables, hence the risk towards foreign currency risk is not applicable to the Company.

For that reason, sensitivity analysis with respect to foreign currency risk has not been disclosed

(ii) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During March 31, 2018, March 31, 2017 and April 01, 2016 the Company's borrowings at variable rate were mainly denominated in Rupees.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS-107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(iii) **Interest rate risk exposure**

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(Amount in ₹)			
	March 31, 2018	March 31, 2017	April 01, 2016
Variable rate borrowings	1,616,162,201	2,287,401,802	2,132,215,678

(iv) **Sensitivity of Interest**

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

(Amount in ₹)		
	Impact on profit before tax	
	March 31, 2018	March 31, 2017
Interest sensitivity		
Interest rates – increase by 1% on existing Interest rate*	22,884,018	21,322,157
Interest rates – decrease by 1% on existing Interest rate*	(22,874,018)	(21,322,157)
* Holding all other variables constant		

15) **Capital Management**

(a) **Risk Management**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company monitors capital on basis of total equity and debt on a periodic basis. Equity comprises all components of equity. Debt includes term loan and short term loans. The following table summarizes the capital of the Company:

(Amount in ₹)		
	March 31, 2018	March 31, 2017
Equity (excluding other reserves)	4,790,769,100	5,073,449,922
Debt	3,165,265,747	3,909,151,490
Total	7,956,034,847	8,982,601,412

- (b) The Company is irregular in payment of its debt service obligation and the Company has not received any communication from Lenders for non compliance of any debt covenant.

16) **Segment reporting**

The Company's Committee of the Chairman and the Managing Director examine the Company's performance.

Presently, the Company is engaged in only one segment viz 'Construction activity' and as such there is no separate reportable segment as per Ind AS 108 'Operating Segments'. Presently, the Company's operations are predominantly confined in India.

Information about major customers

Revenue for the year ended March 31, 2018 and March 31, 2017 were from customers located in India. Customers include public Sector companies and State owned Public companies. INDEPENDENT AUDITOR'S REPORT

To, The Members of M/s. Atlanta Limited

Report on the Consolidated Restated Ind AS Financial Statements

We have audited the accompanying consolidated restated Ind AS financial statements of M/s. **ATLANTA LIMITED** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associates and jointly controlled entities, comprising of the Consolidated Balance Sheet as at 31st March, 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), consolidated statement of changes in equity and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated restated financial statements").

Management's Responsibility for the Consolidated Restated Ind AS Financial Statements

The Company's Board of Directors is responsible for the preparation of these consolidated restated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit (including other comprehensive income), consolidated statement of changes in equity and the Consolidated cash flows of the Group including its Associates and Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated restated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated restated Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated restated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated restated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated restated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated restated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated restated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion

on whether the Holding Company has an adequate internal financial controls system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated restated financial statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists we are required to draw attention in the auditor's report to the related disclosures in the financial statements or if such disclosures are inadequate to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated restated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associates and joint ventures, the aforesaid consolidated restated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associates and joint ventures as at 31st March, 2018, and their consolidated profit (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

Emphasis of Matter

- a) Without qualifying our opinion and based on information and explanations given to us and audit report of subsidiaries, associates, jointly controlled entities not audited by us, which are furnished to us by the management whose financial statement have been audited by the other auditors, we draw attention to following:
 - i) Note no 4.3(a) to 4.3(e) of the consolidated financial statement which indicate the termination of the agreement with the contracting authority (BSRDC) due to disputes and claimed termination payment. In these circumstances, these condition indicate the existence of a material uncertainty that cast significant doubt on the Company's ability to continue as a going concern.
 - ii) Note no. 4.9(a)(i) & 4.9(a)(ii) of the consolidated financial statement, based on the factor mentioned in the said note the management is of opinion that no provision in respect ₹ 29.35 crores is required to be made in the accompanying consolidated financial statement.
 - iii) In the consolidated restated financial statements which describes Non Current Liabilities includes current maturities of long-term debt (principal and unpaid interest) due on 31st March, 2018 to banks and financial institutions as per the recall of loan notices of the bankers/ financial institutions on account of termination of concession agreement with BSRDC on 20-02-2015.
 - iv) Note no 4.9 (a) (iii), (iv) & (v) in respect of amounts receivable from National Highways Authority of India (NHAI):
Substantial amount of trade receivables of the Company represents amount recoverable from the customers arising on account of arbitration claims pending against the Company. In recognising the trade receivables the management has

relied on various correspondences between the company and NHAI, and auditor's opinion is based on the representations received from the management of the company on this aspect.

- v) Note no.4.22 (a)(b)(c)& (d) in respect of revenue recognition on account of arbitration/litigation claims:

The Company has exercised judgment over recognition of revenue arising on account of claims made by the Company to the customer on account of several breaches committed by the customer during the period of contract, dispute over quantity and rates of materials used in execution of the project leading to dispute which has been settled vide arbitration process and the outcome of these awards including the timing and the amount of revenue recognition requires a reasonable degree of estimation

Our opinion is not modified in respect of these matters.

Other Matters

1. The Standalone Ind AS Audited Financial Statements for the year ended 31st March, 2018 of Holding Company was approved by the Board of Directors at their meeting held on July 28, 2018 ("Original Financial Statements.") which were placed before the members in the Annual General Meeting held on September 28, 2018 for their approval.

In the said AGM, the members were of the view that the amount shown as receivable from PWD, Maharashtra was unlikely to be realized and therefore should be considered as bad debt and should be written-off in the accounts for the year ended 31st March, 2018.

The Board of Directors of holding Company have accordingly restated the said original financial statements and got the same audited by the Statutory Auditors.

Accordingly in the preparation of the consolidated restated Ind AS financial statement of the Group for the year ended 31st March, 2018, the effect of the standalone restated Ind AS financial statement of the Holding Company has been incorporated, the impacts whereof on the restated Consolidated Financial Statement are as per the impacts as stated in the note 4.28 (i to vii) to Restated Standalone Ind As Financial Statements of the Holding Company.

The registered office of the Company is located at 101, Shree Amba Shanti Chambers, Andheri Kurla Road, Andheri – East, Mumbai – 400 059.

- b) The Standalone Ind AS Audited Financial Statements of the Holding Company for the year ended 31st March, 2018 were restated as per the direction of the members in the Annual General Meeting held on September 28, 2018. approved by the Board of Directors at their meeting held on July 28, 2018 ("Original Financial Statements")

The Board of Directors have accordingly restated the standalone Ind AS financial statement of the Holding Company and the corresponding effect of the restatement have been incorporated in the Consolidated Financial Statement of the the Group for the year ended on March 31, 2018.

These restated consolidated financial statements were authorized for issue by the Board of Directors on October 02, 2018.

2) Significant accounting policies and critical accounting estimate and judgments:

2.1 Basis of preparation, measurement and significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

Compliance with Ind AS

The financial statements of the Group have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and relevant provisions of the Companies Act, 2013 ("the Act"). These are the Company's first Ind AS financial statements and Ind AS 101-'First-time Adoption of Indian Accounting Standards' has been applied. The policies set out below have been consistently applied during the years presented.

For all periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act ("previous GAAP").

These financial statements for the year ended March 31, 2018 are the first financial statements which the Company has prepared in accordance with Ind AS. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows including reconciliations and descriptions of the effect of the transition is provided in note 3 below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Group and entities including structured entities) controlled by the Group and its subsidiaries.

Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. Subsidiaries are consolidated on a line-by-line basis from the date the control is transferred to the Group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the Group. Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted as equity transactions. The carrying amount of the Company's interests and then on-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. These financial statements are prepared by applying uniform accounting policies in use at the Group.

Associates

Associates are the entities over which the Group has significant influence. Investment in associates are accounted for using the equity method of accounting, after initially being recognized at cost. Joint Arrangements joint venture is a joint arrangement whereby the parties have the rights to the net assets of the arrangement. The results, assets and liabilities of a joint venture are accounted using the equity method of accounting. Where the Group's activities are conducted through

Historical cost convention

The financial statements have been prepared under the historical cost convention, as modified by the following:

- Certain financial assets and financial liabilities at fair value;
- Defined benefit plans – plan assets that are measured at fair value;

ATLANTA LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Company uses valuation techniques that are appropriate in the circumstances for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Current vis-à-vis non-current classification

The assets and liabilities reported in the balance sheet are classified on a “current/non-current basis”, with separate reporting of assets held for sale and liabilities. Current assets, which include cash and cash equivalents, are assets that are intended to be realized, sold or consumed during the normal operating cycle of the Company or in the 12 months following the balance sheet date; current liabilities are liabilities that are expected to be settled during the normal operating cycle of the Company or within the 12 months following the close of the financial year. The deferred tax assets and liabilities are classified as non-current assets and liabilities.

(b) Property, plant and equipment:

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Expenditure incurred on assets which are not ready for their intended use comprising direct cost, related incidental expenses and attributable borrowing cost are disclosed under Capital Work-in-Progress.

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized at April 01, 2016 measured as per previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value:

Depreciation is calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives which are as follows:

Particulars	Estimated useful lives (Years)
Buildings	60
Plant and equipment's and earth moving machinery	12
Furniture and fixtures	10
Vehicles	9
Office and equipments	5
Temporary structures	3

Estimated useful lives, residual values and depreciation methods are reviewed annually and adjusted if appropriate, at the end of each reporting period.

(c) Intangible assets:

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated amortization / depletion and impairment loss, if any. The cost comprises of purchase price, borrowing costs and any cost directly attributable to bringing the asset to its working condition for the intended use.

Expenditure incurred on acquisition of intangible assets which are not ready to use at the reporting date is disclosed under “intangible assets under development”.

Amortization method and periods

Amortization is charged on a straight-line basis over the estimated useful lives. The estimated useful lives, residual value and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognized as at April 01, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

(d) Investment properties:

Property that is held for long term rental yields or for capital appreciation or both, and that is not occupied by the Company is classified as investment property. Investment property is measured initially at cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Investment properties are depreciated using the straight line method over their estimated useful lives. Investment properties which are buildings generally have a useful life of 60 years.

(e) Impairment of non-financial assets:

Assets which are subject to depreciation or amortization are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(f) Trade Receivable:

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest rate method, less provision for impairment if any.

(g) Investments in subsidiaries, Joint ventures and Associates

Investments in subsidiaries, Joint ventures and associates are measured at cost less provision for impairment, if any.

(h) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

Investments and other financial assets

i. Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through Other Comprehensive Income or through profit or loss) and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or Other Comprehensive Income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments in subsidiaries, the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through Other Comprehensive Income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

ii. Measurement

At initial recognition, the Company measures financial assets at its fair value plus, in the case of financial assets not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial assets. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through Other Comprehensive Income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured

ATLANTA LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair Value through Profit or Loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognized in profit or loss in the period in which it arises. Interest income from these financial assets is included in other income.

iii. **Impairment of financial assets:**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109- 'Financial Instruments', which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv. **Derecognition of financial assets**

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised. Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v. **Income recognition:**

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividend

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(i) **Contributed equity:**

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax from the proceeds.

(j) **Financial liabilities:**

i. **Classification as debt or equity**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

ii. **Initial recognition and measurement:**

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

iii. **Subsequent measurement:**

The measurement of financial liabilities depends on their classification, as described below:

Borrowings: Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the Statement of Profit and Loss over the period of the borrowings using the effective interest rate method.

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

Trade and other payables: The seamounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Those payable are classified as current liabilities if payment is due within one year or less otherwise they are presented as non-current liabilities. Trade and other payables are subsequently measured at amortised cost using the effective interest rate method.

Financial guarantee contracts: Financial guarantee contracts are recognised as a financial liability at the time when guarantee is issued. The liability is initially at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 and the amount initially recognised less cumulative amortisation, where appropriate.

Where guarantees in relation to loans of subsidiaries are provided for no compensation, the fair values as on the date of transition are accounted for as contribution and recognized as part of the cost of the equity investment.

iv. Derecognition:

Borrowings are removed from the Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/ (losses). When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

(k) Borrowing costs:

General and specific borrowing costs that are directly attributable to the acquisition, construction or productions of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

(l) Provisions, Contingent Liabilities and Contingent Assets:

Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made, is termed as contingent liability.

Contingent Assets

A contingent asset is disclosed, where an inflow of economic benefits is probable.

(m) Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable, and represents amount receivable for goods supplied, stated net of discounts, returns, value added taxes and Goods and service tax (GST).

i. Revenue from construction contracts

When the outcome of a construction contract can be estimated reliably and it is probable that the contract will be profitable, contract revenue is recognized over the period of the contract by reference to the stage of completion. Contract revenue is measured at the fair value of the consideration received or receivable.

For the purpose of recognizing revenue, contract revenue comprises the initial amount of revenue agreed in the contract, the variations in contract work, claims and incentive payments to the extent that its receipt is considered probable and the amounts are capable of being reliably measured.

Contract costs are recognized as expenses by reference to the stage of completion of the contract activity at the end of the reporting period. When it is probable that total contract costs will exceed the total contract revenue, the expected loss is recognized as an expense immediately.

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Claims and amount in respect thereof are recognised only when the negotiations have advanced to a stage where it is probable that the customers will accept them and amount can be reliably measured. In the case of Arbitration awards and disputed claims pertaining to construction contracts revenue is recognized when the claims are granted in favour of the Company and where it is reasonable to expect the ultimate collection of such arbitration awards / disputed claims pertaining to construction contracts.

The Company evaluates whether it is acting as a principal or agent by considering a number of factors which includes inventory risk, customer's credit risk for the amount receivable from the customer, primary responsibility for providing goods and services to the consumer. Where the Company is acting as an principal in the transaction, revenue and related costs are recorded at their gross values. Where the Company is effectively acting as an agent in the transaction, revenue and related costs are recorded at their net values.

i. Revenue recognition on account of arbitration/litigation claims

The Company has exercised judgment over recognition of revenue arising on account of claims made by the Company to the customer on account of several breaches committed by the customer during the period of contract, dispute over quantity and rates of materials used in execution of the project leading to dispute which has been settled vide arbitration process and the outcome of these awards including the timing and the amount of revenue recognition requires a reasonable degree of estimation.

Additional claims including escalations and receivable against Arbitral Tribunal awards, which in the opinion of the management, are certain and recoverable on the contracts are recognized at the time of evaluating the job.

ii. Revenue from Toll operations

Income from toll contracts on Build Operate and Transfer (BOT) basis are recognised on actual collection of toll revenue as per the Concession agreement.

iii. Revenue from Real estate development

Income from real estate sales is recognized on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognized on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when:

- ii. All critical approvals necessary for commencement of the project have been obtained; and
- iii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost); and
- iv. when at least 10% of the sales consideration is realised; and
- v. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

(n) Employee benefits:

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in Statement of Profit or Loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Post employee obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity
- defined contribution plans such as provident fund and superannuation fund.

Gratuity obligations

The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Rupees is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in Other Comprehensive Income. They are included in Retained Earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined contribution plans

Provident fund

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(o) Income tax:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in Other Comprehensive Income or directly in equity. In this case, the tax is also recognized in Other Comprehensive Income or directly in equity, respectively.

(p) Cash and cash equivalents:

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents include cash on hand, demand deposits with banks, short-term balances (with an original maturity of three months or less from date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(q) Earnings per share:

Basic earnings per share

Basic earnings per share are calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year.

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(r) Cash flow statement:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

(s) Segment reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified by the Chairman and Managing Director that makes strategic decisions.

(t) Business combinations:

Business combinations involving entities that are controlled by the Company are accounted for using the pooling of interests method as follows:

- i. The assets and liabilities of the combining entities are reflected at their carrying amounts.
- ii. No adjustments are made to reflect fair values, or recognize any new assets or liabilities.
- iii. Adjustments are only made to harmonize accounting policies.
- iv. The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- v. The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against General Reserve.
- vi. The identities of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- vii. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

(u) Dividends:

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.2 Critical accounting estimates and judgments:

The preparation of the financial statements under Ind AS requires management to take decisions and make estimates and assumptions that may impact the value of revenues, costs, assets and liabilities and the related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(a) Classifications of Joint Arrangement as Jointly Controlled Operations

The Company based on rights and obligations that arises from the contractual arrangement entered into between the parties has classified certain Joint Arrangements entered into by the Company with parties to execute the construction contracts as Jointly Controlled Operations where the contractual agreement provides rights to assets and obligations for liabilities for those parties sharing joint control and the legal form does not confer separation between the investors and the special purpose vehicle i.e. partnership firms formed under the Indian Partnership Act, 1932 to execute the project.

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

(b) Revenue recognition

i. Revenue recognition on account of construction contracts and real estate development

The Company uses the 'percentage-of-completion method' to determine the appropriate amount to recognize in a given period. The stage of completion is measured by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion.

ii. Revenue recognition on account of arbitration/litigation claims

The Company has exercised judgment over recognition of revenue arising on account of claims made by the Company to the customer on account of several breaches committed by the customer during the period of contract, dispute over quantity and rates of materials used in execution of the project leading to dispute which has been settled vide arbitration process and the outcome of these awards including the timing and the amount of revenue recognition requires a reasonable degree of estimation.

(c) Expected Credit Loss

Company has a policy of regularly reviewing the recoverability of trade receivables. Substantial amount of trade receivables of the Company represents amount recoverable from the customers arising on account of arbitration claims pending against the Company. The expected credit loss allowance for trade receivables is made as per provision policy of the Company which takes into account the historical credit loss experience and adjusted for forward looking information.

3) Transition to Ind AS:

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 01, 2017, with a transition date of April 01, 2016. For all periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the previously applicable Indian GAAP (previous GAAP).

The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the Company has prepared financial statements which comply with Ind AS for year ended March 31, 2018, together with the comparative information as at and for the year ended March 31, 2017. The Company's opening Ind AS Balance Sheet has been prepared as at April 01, 2016, the date of transition to Ind AS.

I. Exemptions and exceptions availed

In preparing these Ind AS financial statements, the Company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and previous GAAP have been recognized directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the Company in restating its previous GAAP financial statements, including the Balance Sheet as at April 01, 2016 and the financial statements as at and for the year ended March 31, 2017.

(a) Ind AS optional exemptions

i. Deemed cost

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets and investment property covered by Ind AS 40 Investment Properties.

ii. Business combinations

Ind AS 101 provides an exemption for all transactions qualifying as business combinations, not to restate any business combinations under Ind AS103, occurring before the transition date. The Company has elected to apply this exemption and accordingly the Company has not restated business combinations occurring before April 01, 2016.

(b) Ind AS mandatory exceptions

The Company has applied the following exceptions from full retrospective application of Ind AS as mandatorily required under Ind AS 101:

i. Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 01, 2015 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for Impairment of financial assets based on expected credit loss model in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

ii. **Classification and measurement of financial assets**

Ind AS 101 requires an entity to assess classification and measurement of financial assets (debt instruments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. Consequently, the Company has applied the above assessment based on facts and circumstances existing at the transition date.

II. **Reconciliations between previous GAAP and Ind AS**

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The regrouped previous GAAP information is derived based on the audited financial statements of the Company for year ended March 31, 2017.

The following tables represent the reconciliations from previous GAAP to Ind AS.

III. Notes to first-time adoption of Ind AS:

i. Rectification of errors identified under previous GAAP.

a) Interest on arbitration claims

The Company in the previous year ended March 31, 2017 had inadvertently accounted for interest on arbitration claim amounting to ₹ 1,58,71,122/- which has been rectified by restating the financial statements for the year ended March 31, 2017 in accordance with Ind AS 101. Consequent to above, the total equity as on March 31, 2017 and Profit for the year ended March 31, 2017 has decreased by ₹ 1,03,81,300/-.

b) Proposed Dividend

The Company in the previous year ended March 31, 2017 had inadvertently accounted for Proposed Dividend pertaining to year ended March 31, 2017 which was declared by the Board subsequent to report signing date of the financial statements which otherwise under the previous GAAP is required to be recognized in the year in which the Dividend is declared. The said error has been rectified by restating the financial statements for the year ended March 31, 2017 in accordance with Ind AS 101. Consequent to above, the total equity as on March 31, 2017 has increased by ₹ 1,08,69,444/-.

ii. Classification of Preference shares as compound financial instruments.

The Company has issued Redeemable Preference Shares. The Preference shares carry fixed rate of dividend which is non-discretionary. Ind AS 32 requires Classification of such kind of instruments into equity and liability component based on the terms of the contract. Interest on liability component is recognized using effective interest method. Under the previous GAAP, the preference shares were classified as equity and dividend payable thereon was considered treated as distribution of profit. Consequent to this change, the total equity as on March 31, 2017 ₹ 12,50,00,000/- (April 01, 2016:) has decreased by ₹ 2,11,59,004/- due to classification of equity component of Preference shares in equity which has been partially off-set by notional interest cost of ₹ 3,31,47,322/- recognized on preference shares using effective interest rate method and the profit for the year ended March 31, 2017 has been decreased by ₹ 50,37,899/- on account of interest on preference shares recognized using effective interest rate method.

iii. Borrowings – Transaction cost adjustment

Ind AS 109 requires transaction costs incurred towards origination of borrowings to be deducted from the carrying amount of borrowings on initial recognition. These costs are recognized in the profit or loss over the tenure of the borrowing as part of the interest expense by applying the effective interest rate method. Consequently, the total equity as at March 31, 2017 is increased by ₹ 89,57,020/- (April 01, 2016 - ₹ 1,16,96,666/- and profit for the year ended March 31, 2017 is decreased by ₹ 27,39,646/-).

iv. Deemed cost - Property, Plant and Equipments (PPE)

Under the previous GAAP, property, plant and equipment, were carried at cost. Under Ind AS, the Company has opted the policy to carry such property, plant and equipment at deemed cost on the date of transition. Accordingly, the revaluation reserve recognized under the previous GAAP has been reversed and transferred to retained earnings and on account of the aforesaid adjustments, the additional depreciation charged of ₹ Nil on account of revaluation under previous GAAP has been reversed during the year 2016-17 leading to increase in profit for the year ended March 31, 2017 by (₹ Nil).

v. Security Deposits

Under Ind AS, all financial assets are required to be recognized at fair value. Accordingly, the Company has fair valued the security deposits under Ind AS. Under the previous GAAP, interest free security deposits (that are refundable in cash on completion of cash term) were recorded at their transaction value. Difference between the fair value and

ATLANTA LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. While calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

***Note 1: Short term borrowings (Demand loan from bank):**

During the year ended March 31, 2017, an Arbitration Award dated 29-09-2016 was passed by the Arbitral Tribunal, in favor of the Company, relating to the agreement dated 09-02-2005 for Improvement, Operation and Maintenance including Strengthening and Widening of existing 2-lane road to 4-lane dual carriageway from Km.9.200 – Km.50.000 of NH-6 (Nagpur – Kondhali Section) in the State of Maharashtra on Build, Operate and Transfer basis.

As per the NHAI's letter dated 15-03-2017 by fulfilling the conditions stipulated by NHAI such as Standard Operating Procedure and Escrow Account Agreement, Company has withdrawn ₹ 117.88 Crores towards 75% of the Arbitral Award amount on 11-04-2017 by furnishing Bank Guarantee issued by Union Bank of India for ₹ 139.10 Crores (Including Union Bank share of ₹ 13.06 Crores) and Letter of Comfort (LOC) issued by other member Bankers as tabulated below:

Name of the Bank/

Financial Institution	Amount in Crores
Union Bank of India	₹ 13.06
Dena Bank	₹ 58.34
IIFCL	₹ 56.04
Corporation Bank	₹ 5.83
DNS Bank	₹ 5.83
Total	₹ 139.10

As per SOP issued by Niti Ayog, the Bank Guarantee is required to be extended by the Bank till the receipt of final outcome of the petition and the extended Bank Guarantee should reach to beneficiary 60 days before the expiry of the Bank Guarantee.

As per Clause 7 of the BG, notwithstanding anything contained hereinbefore, the liability of the Bank under this Guarantee is restricted to the Guarantee Amount. This Bank Guarantee shall come in force from the date on which the Authority deposits an amount equal to 75% of the Arbitral Award awarded to the Concessionaire/ Contractor and shall remain in force until, the earlier of the 3 (three) years from the date of such deposits or two 2 (two) months from the date of the Court deciding the Appeal in favour of the Concessionaire / Contractor.

However, since the respective Banks have not extended the validated of said Bank Guarantee along with additional interest @18% pa. on ₹139.10 Crores for a further period of 1 (one) year within the time limit as stipulated by Niti Ayog, NHAI has invoked the Bank Guarantee of ₹ 139.10 Crores.

In response to Bank Guarantee invocation demand from NHAI, the Union Bank and member Bankers have paid to NHAI, the sum amount of ₹ 137.63 Crores against invocation of Bank Guarantee. As at March 31, 2018 this amount of ₹ 137.63 Crores is classified as Demand loan from Banks under current liability .

Fair value hierarchy

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

(Amount in ₹)

Financial assets and liabilities measured at fair value - recurring fair value measurements as at March 31, 2018	Level 2	Level 3	Total
Financial assets at FVTPL			
Investment in equity instruments	1,189,535	1,100,000	2,289,535
Others (Investment in Govt. Securities)	-	953,740	953,740
Total financial assets	1,189,535	2,053,740	3,243,275

(a) **Valuation processes**

The Company obtains assistance of independent and competent third party valuation experts to perform the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the Company and the valuer on periodically basis.

(b) **Valuation technique used to determine fair values**

The main level 3 inputs used by the Company are derived and evaluated as follows:

The fair value of financial instruments is determined using discounted cash flow analysis.

The carrying amount of current financial assets and liabilities are considered to be the same as their fair values, due to their short term nature.

The fair value of the long-term Borrowings with floating-rate of interest is not impacted due to interest rate changes, and will not be significantly different from their carrying amounts as there is no significant change in the under-lying credit risk of the Company borrowing (since the date of inception of the loans). Further, the Company has no long-term Borrowings with fixed rate of interest.

For financial assets and liabilities that are measures at fair value, the carrying amount is equal to the fair values.

Note:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities which are included in level 3.

There are no transfers between any levels during the year.

The Company's policy is to recognize transfer into and transfer out of fair value hierarchy levels as at the end of the reporting period.

(c) **Fair value of financial assets and liabilities measured at amortized cost**

ATLANTA LIMITED
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED MARCH 31, 2018

14) Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, financial assets measured at amortized cost.	Aging analysis	Diversification of bank deposits, letters of credit
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Un hedged

(a) Credit risk

The Company is exposed to credit risk, which is the risk that counterparty will default on its contractual obligation resulting in a financial loss to the Company.

Credit risk arises from cash and cash equivalents, financial assets carried at amortised cost and deposits with banks and financial institutions, as well as credit exposures to trade customers including outstanding receivables.

Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Company's credit risk arises from accounts receivable balances. Major customers of the Companies include public sector enterprises and state owned companies having high credit quality. Accordingly, the Company's customer credit risk is very low. With respect to intercorporate deposits/ loans given to subsidiaries, the Company will be able to control the cash flows of those subsidiaries as the subsidiaries are wholly owned by the Company.

For banks and financial institutions, only highly rated banks/institutions are accepted. Generally all policies surrounding credit risk have been managed at company level.

(b) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

In respect of its existing operations, the Company funds its activities primarily through long-term loans secured against each SPV's and long terms loans and advances. In addition, each of the Special Purpose Vehicle (SPV's) has working capital loans available to it which are renewable annually, together with certain intra-group loans.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in the operating subsidiaries of the Company in accordance with practice and limits set by the Company. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(i) Maturities of financial liabilities

The amounts disclosed below are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

* Includes contractual interest payments based on the interest rate prevailing at the reporting date.

(c) **Market risk**

Market risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because of volatility of prices in the financial markets. Market risk can be further segregated as: a) Foreign currency risk and b) Interest rate risk.

(i) **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Company does not have any foreign currency loans, receivables or payables, hence the risk towards foreign currency risk is not applicable to the Company.

For that reason, sensitivity analysis with respect to foreign currency risk has not been disclosed

(ii) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During March 31, 2018, March 31, 2017 and April 01, 2016 the Company's borrowings at variable rate were mainly denominated in Rupees.

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS-107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

15) **Capital Management**

(a) **Risk Management**

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company monitors capital on basis of total equity and debt on a periodic basis. Equity comprises all components of equity. Debt includes term loan and short term loans. The following table summarizes the capital of the Company:

	(Amount in ₹)	
	March 31, 2018	March 31, 2017
Equity (excluding other reserves)	3,919,822,107	4,650,918,308

Total	16,974,336,658	17,469,159,284

- (b) The Company is irregular in payment of its debt service obligation and the Company has not received any communication from lenders for non compliance of any debt covenant.

16) **Segment reporting**

The Company's Committee of the Chairman and the Managing Director examine the Company's performance.

Presently, the Company is engaged in only one segment viz 'Construction activity' and as such there is no separate reportable segment as per Ind AS 108 'Operating Segments'. Presently, the Company's operations are predominantly confined in India.

Information about major customers

Revenue for the year ended March 31, 2018 and March 31, 2017 were from customers located in India. Customers include public Sector companies and State owned Public companies. 18) **Corporate Social Responsibility (CSR)**

As per the Section 135 of the Companies Act, 2013, the Company has not spent any amount during the year and preceding financial years, towards CSR activity.

19) **Disclosure under Micro, Small and Medium Enterprises Development Act, 2006**

Disclosure of amounts payable to vendors as defined under the "Micro, Small and Medium Enterprise Development Act, 2006" is based on the information available with the Company regarding the status of registration of such vendors under the said Act. There are no overdue principal amounts / interest payable amounts for delayed payments to such vendors at the Balance Sheet date. There are no delays in payment made to such suppliers during the year or for any earlier years and accordingly, there is no interest paid or outstanding interest in this regard in respect of payments made during the year or brought forward from previous years.

20) The Company has regrouped/reclassified the previous year figures wherever necessary to conform the current year presentation.

Letter from the Chairman

Dear Shareholders,

It gives me immense pleasure to share with you highlights of your company's performances during the FY 2017-18.

Financial Year 2017-18 was a tough year for the Infrastructure Sector and two unanticipated incidents occurred during the year, adversely impacting your Company's performance. As informed last year, the company was on advance stage of financial closure for its Hybrid Annuity Model (HAM) Road project in Gujarat costing ₹ 1200 Crores. However, due to turmoil in lending capacity of major public sector Banks and consequent non-support by the company's consortium of Banks in issuing the performance bank guarantee for the Special Purpose Vehicle (SPV) from the company's sanctioned limits, the SPV could not furnish Performance Bank Guarantee within the time frame stipulated in the Concession Agreement and National Highways Authority of India (NHAI) cancelled the said project.

Secondly, National Highways & Infrastructure Development Corporation Limited (NHIDCL) wrongfully and illegally terminated Moran-Bypass Project in the state of Assam on untenable grounds. Your company is in the process of filing suit for money recovery.

These two unanticipated events beyond the control of your company diminished the performance during the last quarter.

Your company was poised to launch second phase of Atlanta Enclave, Thane, a real estate project in the last Financial Year 2017-18. However due to sluggish demand in real estate sector, your company has decided to postpone the new launch.

During the year under review, your company has recovered substantial outstanding receivables through Arbitrations / litigations and the said realisation of old outstanding has been utilised to prepay part of the outstanding term loans.

Price Waterhouse Chartered Accountants LLP, statutory auditors appointed in the last AGM, abruptly resigned as statutory auditors of the company on 29th May, 2018 on the ground that the company did not provide the significant information in timely manner. The company has provided all the information as and when sought by the Auditor. The company has disclosed all the relevant facts to the stock exchanges and the regulator.

Performance review:- The highlights of financial and operational performance during the year are: -

- Total Income of ₹ 152.02 Crores
- Total Comprehensive Income after tax of ₹ 16.17 Crores
- Earnings per share of ₹ 1.98
- Cash Earnings per share of ₹3.24
- Net worth of ₹ 521.25 Crores.

Outlook on Road Sector

India has the second largest road network across the world at 5.4 million km. This road network transports more than 60 per cent of all goods in the country and 85 per cent of India's total passenger traffic. Road transportation has gradually increased over the years with the improvement in connectivity between cities, towns and villages in the country.

The market for roads and highways is projected to exhibit a CAGR of 36.16% during 2016-25, on account of growing government initiatives to improve transportation infrastructure in the country. Almost half (742) of the 1,531 PPP projects awarded in India until March 2018 were related to roads.

The highways sector in India has been at the forefront of performance and innovation. In FY 2017-18, national highway construction hit record of 28 km per day.

Total length of roads constructed under Prime Minister's Gram Sadak Yojana (PMGSY) was 47,447 km in 2017-18.

The Union Minister of State for Road, Transport and Shipping has stated that the Government aims to boost corporate investment in roads and shipping sector, along with introducing business-friendly strategies that will balance profitability with effective project execution.

The Ministry of Road Transport and Highways, Government of India plans to implement 'Value Engineering Programme' in order to promote use of new technologies and material in highway projects being executed in India.

In April 2018, the Government of India signed a US\$ 210 million deal with World Bank to improve rural roads at a stretch of 10,510 km in Madhya Pradesh under the Gram Sadak Yojana programme.

In May 2018, the Government of India signed US\$ 500 million loan agreement with World Bank to provide additional funding for construction of 7,000 km climate resilient roads out of which 3,500 km will be built using green technologies under Pradhan Mantri Gram Sadak Yojna (PMGSY).

In May 2018, the Government of India approved construction of a 9.9 km 6 lane bridge project across Ganga in Uttar Pradesh on NH-36 with the total capital cost of ₹ 1,948.25 Crores (US\$ 302.29 million). The construction of the project is expected to be completed by December 2021.

The Government, through a series of initiatives, is working on policies to attract significant investor interest. The Indian government plans to develop a total of 66,117 km of roads under different programmes such as National Highways Development Project (NHDP), Special Accelerated Road Development Programme in North East (SARDP-NE) and Left Wing Extremism (LWE). The government has identified development of 2,000 km of coastal roads to improve the connectivity between ports and remote villages.

The National Highways Authority of India (NHAI) plans to build 50,000 km of roads worth US\$ 250 billion by 2022 as part of a long-term goal of doubling the length of the national highway network to 200,000 km.

The Government of India will spend around ₹ 1 lakh crore during FY 2018-20 to build roads in the country under Pradhan Mantri Gram Sadak Yojana (PMGSY). Road infrastructure sector always key priority of the government and the sector received strong budgetary support over the years. During FY 2018-19, Government of India allocated ₹ 71000 Crores for development of national highways across the country.

The Government of India has decided to invest ₹ 7 trillion for construction of new roads and highways over the next five years.

Your company is confident of getting new Engineering Procurement Construction (EPC) road contracts in the coming fiscal and it will help in improving top line and profitability of your company. Moreover, your company is expecting realisation of further claims in the coming year and the same will be used to reduce outstanding debt of the company.

We believe in proactively preparing ourselves for achieving sustainable rapid growth by ensuring timely availability of necessary resources – be it human resources, finance, technology, equipment, infrastructure, systems, etc.

In the area of Corporate Governance, your Company is committed to the highest standards of probity, transparency, sustainability and corporate social responsibility.

I thank all the stakeholders for reposing confidence in our abilities and endeavours and expect to receive full support in taking the Company to newer heights.

Yours Sincerely,

Rajhoo Bbarot
Chairman

SECRETARIAL AUDITOR AND SECRETARIAL AUDIT REPORT

Pursuant to Section 204 of the Companies Act, 2013, and Rules thereunder, a Secretarial Audit Report for the FY 2017-18 in Form MR 3 given by Mrs. Shilpa Rathi, Practicing Company Secretary, is attached as Annexure-IV with this report.

The Secretarial Audit Report contains following observations. The reason for the same are mentioned below:

Qualification 1:

The Company has not spent 2% of its average net profits during the year on Corporate Social Responsibility Activities as required under Section 135 of Companies Act, 2013 read with Schedule VII and The Companies (Corporate Social Responsibility) Rules, 2014.

Board Explanation:

The Company had identified one charitable institution at Dhule for imparting education training as required under CSR activity. However, two unanticipated incidents beyond the control of the Company diminished performance during the last two quarters. The Company is taking all the steps to implement the CSR activity in good and reliable charitable institutions.

Qualification 2:

During the year the Company has received notice from Registrar of Companies for non-filing of Form DPT-4 in accordance with Rule 20 of the Companies (Acceptance of Deposits) Rules, 2014 which, as per the management's explanation, the Company has responded appropriately.

The Company has responded appropriately to the notice received from Registrar of Companies.

Qualification 3:

Form DIR-12 for appointment and resignation of CFO and DPT-3 were filed after the due date. As informed by the Company, non-filing of forms within prescribed time limit was due to technical issues being faced with the MCA website.

The Company is regular in filing all the forms within the prescribed time limits. The Company had no intention to delay the filing of Form DIR-12 and from DPT-3. However due to technical issues on MCA website, these forms were filed after the due date.

Qualification 4:

There are various legal proceedings against or by the Company, which are pending in various Courts/Tribunals which, as per the management's explanation, are being handled adequately.

The Company is in the business of infrastructure development. At times there may be issues with the authorities for which the Company files legal proceedings in the Court. The Company has recovered substantial outstanding receivable through Arbitrations / Litigations.

The Company is confident of realising the money/award from the authorities.

COST AUDITOR

The Board has appointed the M/s. Anup Palo & Co., Cost Accountant in whole time practice as cost auditor for conducting the audit of cost records of the Company for the financial year 2018-19.

As required under the Companies Act, 2013, the remuneration payable to the Cost Auditor is required to be placed before the shareholders in a General Meeting for their ratification. Accordingly, a resolution seeking shareholder's ratification for the remuneration payable to M/s. Anup Palo & Co., Cost Auditor is included at Item No. 9 of the Notice convening the Annual General Meeting.

MATERIAL CHANGES AND COMMITMENT AFFECTING FINANCIAL POSITION OF THE COMPANY

There are no material changes and commitments affecting the financial position of the Company which has occurred between the financial year of the Company i.e. March 31, 2018 and till the date of Directors' Report i.e. July 28, 2018. However Dr. Shankar Vishwanath, Independent Director resigned from the Board w.e.f. May 28, 2018 and M/s. Price Waterhouse Chartered Accountants LLP Statutory Auditor tendered their resignation on May 29, 2018.

CONSERVATION OF ENERGY AND TECHNOLOGY ABSORPTION

The particulars in relation to conservation of energy and technology absorption are currently not applicable to the Company.

FOREIGN EXCHANGE EARNINGS AND OUTGO

During the year, there were neither foreign exchange earnings nor any outgo.

PARTICULARS OF EMPLOYEES AND RELATED DISCLOSURES

In accordance with the provisions of Section 197(12) of Companies Act, 2013, the ratio of the remuneration of each director to the median employee's remuneration and other details in terms of sub-section 12 of Section 197 of the Companies Act, 2013 read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, are forming part of this report as Annexure V.

FORM No. MR-3

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

**Secretarial Audit Report
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018**

To,
The Members,
Atlanta Limited
101, Amba Shanti Chambers,
Opp. Hotel Leela, Andheri-Kurla, Road.
Andheri (East), Mumbai-400 059
CIN No. : L64200MH1984PLC031852

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Atlanta Limited (hereinafter called the Company) for the audit period covering the financial year ended on 31st March, 2018. Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018 (audit period) complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made in Annexure I:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by **The Company** for the financial year ended on 31st March, 2018, according to the provisions of:

- I) The Companies Act, 2013 (**the Act**) and the Rules made thereunder;
 - a) The Company has given loans/advances to the following Companies in which directors of the Company are interested :
 - Atlanta Infra Assets Limited (Subsidiary Company)
 - MORA Tollways Limited (Subsidiary Company)
 - Atlanta Ropar Tollways Private Limited (Subsidiary Company)

As informed, the Company has provided interest free loans for providing infrastructural facilities, and therefore pursuant to Section 186(11) such loan has not been violation of Section 186 of Companies Act, 2013.
- II) The Securities Contracts (Regulation) Act, 1956 (**'SCRA'**) and the Rules made thereunder;
- III) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- IV) Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings; (Not applicable to the Company during the Audit period)
- V) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 (**'SEBI Act'**) as **amended from time to time** to the extent applicable to the Company:-
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 and amendments from time to time; (Not applicable as the Company has not issued any further share capital during the period under review);
 - d. The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999; (Not applicable to the Company during Audit period).
 - e. The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; (Not applicable to the Company during Audit period)
 - f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (Not applicable to the Company during Audit period)

h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not applicable to the Company during Audit period)

VI) I have relied on the representation made by the Company and its officers for systems and mechanism formed by the Company for compliances under other applicable Acts, Laws and Regulations to the Company. The list of other laws applicable to the Company as per the representation made by the Company is given in Annexure II.

I have also examined compliance with the applicable clauses of the following:

- a) Secretarial Standards issued by The Institute of Company Secretaries of India.
- b) The Listing Agreements entered into by the Company with the BSE Limited & National Stock Exchange of India Limited read with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, Listing Agreements etc mentioned above subject to the observations contained in Annexure I.

I further report that

- The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. *However, the Composition of Nomination and Remuneration Committee were not in terms of SEBI (LODR) Regulations, 2015 / Clause 49 of Listing Agreement and section 178 of the Act during the period from 06.10.2017 to 20.01.2018 due to resignation of Director and the same was informed to the stock exchanges by the Company in their quarterly Corporate Governance Report.* The changes in Composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.
- Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarification on the agenda items before the meeting and for meaningful participation at the meeting.
- All decisions at the Board Meeting and Committee meeting have been carried out unanimously as recorded in the minutes of the meetings of the Board or Committee of the Board.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

AUDITORS' CERTIFICATE ON CORPORATE GOVERNANCE

To,

The Members of Atlanta Limited

We have examined the compliance of conditions of Corporate Governance by Atlanta Limited ("The Company") for the financial year ended on: March 31, 2018, as stipulated in Regulation 34(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 entered into by Atlanta Limited with the Stock Exchanges.

The Compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination has been limited to a review of the procedures and implementation thereof, adopted by the Company for ensuring compliance with the condition of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statement of the Company.

In our opinion and to the best of our information and according to the explanations given to us and based on the representations made by the Directors and the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in Regulation 34(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.
