Commenting on company's performance for the quarter, Mr. Pradeep Jain, Chairman, Parsvnath Developers Limited said,

"I would term quarter three as moderate. We have offered possession of approximately 17.3 lac sq ft in the quarter which is four times than what we offered in second quarter. Our focus is on execution and delivery of our on-going projects. With our efforts of cost control and effective project management we expect to do better in the coming quarters".

Commenting on the sector, Mr. Jain said,

"Real Estate sector market drives on sentiments and many factors affect the sales including government policies and actions and during the quarter we saw apex bank increasing rates because of inflationary pressures and that has also sent negative vibes in the market. The sector is already facing a liquidity crunch. These moves by RBI of increasing rates will encourage banks to increase their lending rates that are already beyond reach. I am afraid that these rate hikes will demoralize home buyers who already prefer fence-sitting and will also result in escalated borrowing costs for developers."

On company's operations, Mr. Jain said, *"Parsvnath is working on quarter on quarter basis to fast-track execution and delivery of projects. While we have awarded construction work to some of the most reputed & renowned names like L&T, IL&FS to fulfill our commitments, we are also working on reducing our debt on quarter-on-quarter basis."*
