MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structure and Development

Your Company was incorporated on 13th September 2002 and is an ISO 9001:2015 and ISO 14001:2015 Company. It is primarily engaged in the Business of refilling Non-Ozone depleting refrigerant gases popularly known as Hydro Fluoro Carbon or HFC's, which are used in Automobile Air-Conditioners, Room Air Conditioners and Refrigerating Equipment.

Since November 2011 the Company also entered in to the business relating to Generation and Distribution of Solar Power by running a Solar Power Plant at Balmer District, Rajasthan.

During the year the actual production of the refrigerant gases accounted for 591.34 MTs as against the installed capacity of 2000 MTs. The sale of products in term of quantity recorded at 533.37 MTs .The current facility is 2000 MTs Capacity refilling with Single shift.

The income earned by the Company arising out of solar power generation and distribution during 2019-20 is Rs.1258.44 Lakhs.

OPPORTUNITIES

REFRIGERANT GASES:

The Company is engaged in the Business of Hydro Fluoro Carbon (HFCs) which is replacement of the Ozone depleting CFC which is already banned in India and HCFC that are to be banned in a phased manner from 2020 onwards as per the implementation schedule of the Montreal protocol by the developing Countries. This phase had already started in 2012 in parts and a complete ban will come in by 2020. The phase out of HCFC gives immense potential to your Company to gain additional market share from domestic manufacturers. The Company's products are placed as a premium brand in the industry and commend a premium over the other brands. The Company's refrigerant business has grown from Rs.1325.57 Lakhs in 2018-19 to Rs. 1938.80 Lakhs In 2019-20. It resulted in the increase of market share of your Company. Your Company is now primarily focusing on after markets and retail. Also, planning to reach OEMs, besides also getting Enquiries from Government Sectors.

The margins are better and the demand is increasing in these markets sharply due to the extreme weather conditions.

With increasing power shortage in the Country due to growing gap between demand and supply status, the opportunities relating to Non-Conventional energy sources, such as solar energy, is bound to increase in the years to come and the company would be in a position to convert this opportunity to its advantage.

Your company is working with various science and technical institutions to introduce new refrigerants which have Zero Global Warming Potential (GWP) to work towards a more CO2 free world. Your company will have an early mover advantage to launch new refrigerants in the market. Your company

is also working on adding additional Solar Power Plants and is keenly looking for opportunities to build more Solar Power Plants.

ASH AND COAL BUSINESS

The energy demand globally is steadily rising. India's 70% demand is met by coal based thermal power plants. Ash is the by-product from the burning of coal which is the fuel to all thermal power plants. 30-45% of the burnt coal is ash. This ash is full of heavy metals and toxins which if not handled properly could pollute air, land and water bodies.

During the running of a power plant ash is continuously produced and stored in silos which have to be continuously evacuated. The fly ash from the silos is a raw material required for the production of PPC cement, manufacturing of bricks, concreting of infrastructure projects like roads, bridges etc. This fly ash from the silos is transported in closed bulkers.

The excess undisposed ash from the silos is then sent to the ash dyke from where it is evacuated by filling in trucks for mine reclamation, filling of low lying areas, embankments etc. as per the guidelines of Ministry of Mines and Ministry of Environment and Forests (MoEF).

With a boost in infrastructure in India, there is huge potential for supply of ash to such projects.

THREATS

REFRIGERANT GASES:

The Company is largely dependent on foreign countries for the supply of raw materials and hence the shortage in the availability of raw materials coupled with adverse foreign exchange will affect the cost structure and bottom line of the company. HFCs are having GWP potential and is being now phased out in developed countries. India will also have to work towards the phase out in the next 20-25 years. Year 2019-20 has seen a lot of fluctuation in Forex and hence the risk of higher cost is there. One of the primary products R134a faces Anti-Dumping duties from China and other countries, which will be a major drawback for your Company. Solar Power is driven by Government policies and also any change in Tariff or policy will affect the business plan.

The instability in global economy is also bound to affect the company in both business activities.

ASH AND COAL BUSINESS

Since we have work on the basis of the work orders from the power plants, cancellation of such work orders is a potential threat. These threats we however try to mitigate by clauses in the work order and introducing notice periods. Another threat is that most power plants in India are currently financially stressed. This could result in delayed payments from power plants.

COMPETITIVE STRENGTH**REFRIGERANT GASES:**

The Company is working with various institutions on developing refrigerants which have Zero GWP potential. Various research agencies and scientist have approached your company to commercialize some products. Your company is evaluating the same. The after markets for HFC is increasing with increase in sale of cars and refrigerants.

“Being the first company to setup a re-filling facility in the country more than a decade back among non-manufacturers, Brand REFEX is a prominent brand in the Refrigerant Industry and commands a premium over other brands. The end users like Mechanics and Installers have preferred Refex products over other products. Innovative packing and continuous product and service development has placed the brand in the top in the country.

ASH AND COAL BUSINESS:

With good relation with cement factories and other sub-contractors we are able to push for higher disposal of ash. With a lot of abandoned mines in the vicinity of the power plant we are working with, we have an advantage in terms of distance compared to other competitors.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Refex's stringent internal control systems and procedure is well defined and commensurate with the size and nature of the Business to provide reasonable assurance that all assets are safeguarded; transactions are authorized and reported properly. All applicable statutes, code of conduct and corporate policies are duly complied with. The internal Audit Division reviews the adequacy and efficiency of the internal controls. The scope of the Audit activity is guided

by the Annual Audit Committee of the Board. The Audit Committee reviews the reports of the Internal Auditors and provides guidance.

HUMAN RESOURCE DEVELOPMENT

Your Company provides a diverse and inclusive work environment. It is the policy, practice and aim of your company to provide Employment Opportunities to all qualified persons on an equal basis. Your company does not discriminate against any employee or applicant for employment on the basis of race, religion, disability, ethnicity, marital status or any other characteristic protected by law. Your company does not employ or engage child labour. It provides training, education and promotion opportunities that permit development and career advancement to the company's work force. It provides wellness programs to the employees. Your company is concerned about the safety of its employees. Works of the employees are evaluated periodically. Policies on human rights including the code of Ethical Business Conduct, Anti-Sexual Harassment and Whistle Blower Policies along with the group Business Responsibility Policy covers all aspects on human rights for your company and also extend to all stakeholders of your company. Your company follows an extensive performance Management system

to review the performance of its employees, Senior Management Personnel and provide rewards on the basis of Meritocracy.

INDEPENDENT AUDITOR'S REPORT

To the Members of M/s.Refex Industries Limited Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Refex Industries Limited ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss, and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and profit and loss, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial

statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements as mentioned in Note No: 28
 - ii. The Company had made provisions, as required under the applicable law or accounting standards, for material foreseeable losses, if any long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

- B. With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT

The Annexure referred to in Independent Auditors' Report to the members of the Company on the standalone Ind AS financial statements for the year ended 31 March 2020, we report that:

- i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of three years. In accordance with this programme, certain fixed assets were verified during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The title deeds of immovable properties are held in the name of the company.
- ii. The inventory has been physically verified during the year by the Management. In our opinion, the frequency of verification is reasonable. The discrepancies noticed on verification between the physical stock and book records such were not material.
- iii. (a) The Company has not granted any loans, secured or unsecured to Companies, Firms, LLP or other parties covered in the register maintained under section 189 of the Companies Act, 2013 ('the Act') except for loans granted during the year for business purposes. The year-end balance of which is Nil. In our opinion the grant of such loans is not prejudicial to the interest of the company.
- (b) In our opinion and according to the information and explanations given to us, the terms of repayment of the loan and payment of interest have not been stipulated; however, they are repayable on the mutual agreement of both the parties involved.
- iv. In our opinion and according to the information and explanations given to us, the Company has not complied with the provisions of section 185 of the Act to the extent the loan which was granted and repaid during the year.
In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act, with respect to the loans and investments made.
- v. The Company has not accepted any deposits from the public.
- vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

ANNEXURE - A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Refex Industries Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone IND AS Financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial reporting issued by the Institute of Chartered Accountants of India.

A. Corporate Information:

Refex Industries Limited (RIL), From realizing the commercial potential of HFC gases and diversifying into refrigerant gases, Refex Industries Limited (RIL) has consistently delivered out-of-the-box innovation coupled with positive financial sustainability, at every step of the way. With its inception in the year 2002, Refex Industries successfully broke the monopoly that existed in the controlled refrigerant gas market. After its well-established leadership in refrigerant gases, Refex now brings its delivery expertise in offering services like coal trading, coal yard management and coal ash handling to thermal power plants.

Refrigerant Gas:

Refex Industries Limited (RIL) is a specialist manufacturer and re-filler of Refrigerant gases, particularly, environmentally acceptable gases that are replacements for Chloro-Fluoro-Carbons (CFC's). These are used primarily as refrigerants, foam blowing agents and aerosol propellants. It exercises superior quality control and efficiency with the help of advanced technology. Refex has been committed to being an exemplary player in terms of safety, protection of health and environment, and sustainable development.

Handling and Disposal of Fly Ash:

Ash is the by-product from the burning of coal which is the fuel to all thermal power plants. 30-45% of the burnt coal is ash. This ash is full of heavy metals and toxins which if not handled properly could pollute air, land and water bodies.

During the running of a power plant ash is continuously produced and stored in silos which have to be continuously evacuated. The fly ash from the silos is a raw material required for the production of PPC cement, manufacturing of bricks, concreting of infrastructure projects like roads, bridges etc. This fly ash from the silos is transported in closed bulkers.

The excess undisposed ash from the silos is then sent to the ash dyke from where is it evacuated by filling in trucks for mine reclamation, filling of low lying areas, embankments etc. as per the guidelines of Ministry of Mines and Ministry of Environment and Forests (MoEF).

Round the clock services for coal yard management, shifting of uncrushed coal and Housekeeping Works:

With immense experience in handling ash in large number of trucks and bulkers, company have ventured into providing coal yard management services.

Uncrushed coal from trucks is first stored in the coal yard in the form of heaps. This coal is then transported and fed into the track hoppers at the Coal Handling Plant area. The un-sized coal which doesn't pass through the grizzly is broken to smaller sizes before it goes through. These services are provided round the clock to ensure sufficient supply of coal to run the power plant uninterruptedly.

The Company also provide housekeeping services in the coal handling plant (CHP) areas like in the conveyor belt surrounding areas, cable trays, trenches, drains, sump pit where spilled coal is to be collected and shifted manually with adequate manpower to ensure the smooth functioning of the equipment.

Coal Trading:

The Company source quality coal from domestic and international players and offer at competent prices to the power plants.

With a boost in infrastructure in India, Refex foresees a tremendous growth in all the business segments.

B. Significant Accounting Policies Basis of Preparation of financial statements

• Statement of Compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

• Preparation and compliance with Indian Accounting Standards (IND AS)

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company considers the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these Standalone financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

- **Recent accounting pronouncements**

2.1.3.a. Ind AS 116 Leases:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition:

- Full retrospective – Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors
- Modified retrospective – Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

Under modified retrospective approach, the lessee records the lease liability as the present value of the remaining lease payments, discounted at the incremental borrowing rate and the right of use asset either as:

- Its carrying amount as if the standard had been applied since the commencement date, but discounted at lessee's incremental borrowing rate at the date of initial application or
- An amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments related to that lease recognized under Ind AS 17 immediately before the date of initial application.

Certain practical expedients are available under both the methods

On completion of evaluation of the effect of adoption of Ind AS 116, the Company is proposing to use the 'Modified Retrospective Approach' for transitioning to Ind AS 116, and take the cumulative adjustment to retained earnings, on the date of initial application (April 1, 2019). Accordingly, comparatives for the year ended March 31, 2019 will not be retrospectively adjusted. The Company has elected certain available practical expedients on transition.

The effect of adoption as on transition date would be insignificant on the financial statements.

2.1.3.b. Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss),

tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition –

- i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and
- ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019.

The company is in the process of evaluation of impact of such pronouncement.

2.1.3.c. Amendment to Ind AS 12 – Income taxes:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment

2.1.3.d. Amendment to Ind AS 19 – plan amendment, curtailment or settlement:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

•The amendments require an entity:

- to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- to recognize in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019.

The company is in the process of evaluation of impact of such pronouncements.

Historical Cost convention

The financial statements have been prepared under historical cost convention on accrual basis except for certain assets and liabilities as stated in the respective policies, which have been measured at fair value.

- **Current / Non-Current classification**

The assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities. Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

- **Revenue recognition**

Revenue from Sales of goods and Electricity

The company manufactures and sells a range of refrigerant gases and generates electricity. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. In case of electricity, sales are recognised when power generation is passed on to the electricity grid.

Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customers has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the customer has objective evidence that all criteria for acceptance have been satisfied.

Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

No element of financing is deemed present as the sales are made with the credit term, consistent with market practice.

A receivable is recognised when the goods/electricity are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Revenue from sale of services

Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided the proportion of service rendered is determined by cost involved for the project as against total cost. Any promise made in the contract, which are identified distinct is accounted for as a separate performance obligation. Where the contracts include multiple performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Where these are not directly observable, they are estimated based on expected cost-plus margin.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management. In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by the company exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.

Interest income:

Interest income from, if any, non-current financial assets are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

Interest income from fixed deposits in banks is recognised on time proportion basis, determined by the amount outstanding and the rate applicable.

Fair value gains on current investments carried at fair value are included in Other income.

Other items of income are recognised as and when the right to receive arises.

- **Property Plant and Equipment**
- **Tangible Assets**

Freehold land is carried as historical cost. All other items of property plant and equipment are stated at historical cost of acquisition less accumulated depreciation and amortization and impairment. Historical cost includes purchase price, taxes and duties (Net of tax credits), labour cost and directly attributable overhead expenditure incurred upto the date the asset is ready for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component

accounted for as separate asset is derecognized when replaced. All other repairs and maintenance are charged to Profit or Loss during the reporting period in which they are incurred.

Depreciation is recognised using the straight-line method. The estimated useful lives and residual values are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis. The useful lives of assets are adopted to as specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

On transition to Ind AS, Group has elected to continue carrying value of all its property plant and equipment recognized as at 1 April 2017 measured as per the previous GAAP and use that carrying value as deemed cost of the property, plant and Equipment.

An item of property, plant and equipment is derecognised upon disposal. Any gain or loss arising on the disposal of an item of property plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

2.3.2 Intangible Assets

Rights under Service Concession Arrangements

Intangible assets are recognised when it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment.

Other intangible assets

Specialized software is amortized over a period of three to six years on straight line there is no time period, only subscription payable basis from the month in which the addition is made.

Intangible assets acquired are measured at cost less accumulated amortisation and impairment losses.

Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods to allocate the assets' revised carrying amount over its remaining useful life.

- **Impairment of assets**

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/ cash generating unit is made. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance

Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

- **Capital Work in Progress**

The cost of self-constructed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

- **Depreciation and Amortization**

Depreciation

The depreciable amount of an item of PPE is allocated on a straight-line basis over its useful life as prescribed above.

If part of an item of PPE with a cost that is significant in relation to the total cost of the asset and useful life of that part is different from remaining part of the asset; such significant part is depreciated separately. Depreciation on all such items have been provided from the date they are 'Available for Use' till the date of sale / disposal and includes amortization of intangible assets. An item of PPE is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Depreciation is charged on pro-rata basis from the date of addition / till the date of disposal. Gains and losses on disposal of assets are determined by comparing the sale proceeds with the carrying amount. These are included in profit or loss within other income.

The residual values are not more than 5% of original cost of the asset. The asset's residual value and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

- **Borrowing costs**

The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset as a part of the cost of the asset. The Company recognises other borrowing costs as an expense in the period in which it incurs them. A qualifying asset is an asset that necessarily takes a substantial period to get ready for its intended use or sale.

To the extent the Company borrows generally and uses them for the purpose of obtaining a qualifying asset, amount of borrowing cost eligible for capitalization is computed by applying a capitalization rate to the expenditure incurred. The capitalization rate is determined based on the weighted average of borrowing costs, other than borrowings made specifically towards purchase of a qualifying asset.

- **Foreign Currency translation**

- Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.
- Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing rate are adjusted in the cost of fixed assets specifically financed by the borrowings contracted, to which the exchange differences relate.
- Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

- **Employee Benefits**

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

- **Short Term Obligations**

All employee benefits falling due wholly within twelve months of rendering the service are classified as short-term employee benefits. The benefits like salaries, wages, short term compensated absences etc. and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service.

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- in case of non-accumulating compensated absences, when the absences occur.

- **Post-employment obligation**

The company operates the following post-employment benefit schemes.

Defined benefit plans such as gratuity for its eligible employees and defined contribution plans such as provident fund.

Defined Benefit Plan (Gratuity)

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets — unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets — unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company has a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

Current and deferred Tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax (MAT) is accounted as current tax when the Company is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Company is subjected to tax as per normal provisions in the future. Credit on account of MAT is recognized as an asset based on its recoverability in the future.

- **Provision and Contingent Liabilities**

- **Provisions**

A provision is recorded when the Company has a present or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

- **Contingent Liabilities**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

- **Leases**

The determination of whether an agreement is, or contains, a lease is based on the substance of the agreement at the date of inception.

Finance leases:

- Property, plant and equipment acquired under leases where the Company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value or the present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, to obtain a constant periodic rate of interest on the outstanding liability for each period.
- Property, plant and equipment given under a finance lease are recognised as a receivable at an amount equal to the net investment in the lease. Lease income is recognised over the period of the lease to yield a constant rate of return on the net investment in the lease.

Operating leases:

(a) Property, plant and equipment acquired on leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease.

(b) Property, plant and equipment leased out under operating leases are continued to be capitalised by the Company. Rental income is recognised on a straight-line basis over the term of the relevant lease.

- **Cash and Cash equivalents**

Cash and cash equivalents include cash in hand, Balances in Bank and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

- **Financial assets**

- **Classification**

The Company classifies its financial assets in the following measurement categories:

(i) Those measured subsequently at fair value through other comprehensive income (in case of investments in equity instruments) through profit or loss (in case of investments in mutual funds)

(ii) Those measured at amortised cost

The classification is based on the Company's business model for managing the financial assets and the contractual terms of the cash flow for assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

- **Measurement**

- **Initial Measurement**

The Company measures a financial asset at its fair value plus cost that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

- **Subsequent measurement**

Investments**Fair value through Profit and loss**

Assets that do not meet the criteria for amortised cost or Fair Value Through Other Comprehensive Income (FVOCI) are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other

gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

- **Other financial assets**

After Initial Measurement, financial assets are subsequently measured at amortised cost using the effective interest rate method (EIR) method. Amortised cost is calculated by considering any discount or premium and fees or cost that are an integral part of EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

- **Impairment of financial assets**

The Company assesses on a forward-looking basis, the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been significant increase in credit risk.

For trade receivables (If any), the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognised from initial recognition of the receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each Balance Sheet date, right from its initial recognition

- **De recognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when the rights to receive cash flows from the asset have expired.

- **Financial Liabilities**

- **Classification**

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities shall be subsequently measured at fair value

- **Initial recognition and measurement**

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- **Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss. This category generally applies to interest-bearing loans and borrowings.

- **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

- **Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

- **Government grants**

Government grants are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. Government grants in the nature of promoters' contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve.

- **Dividend to Shareholders**

Final dividend distributed to equity shareholders is recognized in the period in which it is approved by the members of the Company in the Annual General Meeting. Interim dividend is recognized when approved by the Board of Directors at the Board Meeting. Dividend distributed is recognized in the Statement of Changes in Equity.

- **Earnings per Share**

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

- **Derivative financial instruments**

The Company uses derivative financial instruments, such as forward contract to manage its exposure to foreign exchange risks. Any derivative that is either not designated as a hedge or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value through profit

or loss and the resulting exchange gains or losses/ fair value changes are included in Statement of profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

• **Segment Information**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ("CODM").

The board of directors of the Company assesses the financial performance and position of the Company, and makes strategic decisions. The board of directors has been identified as being the CODM. Refer note 34.

• **Prior Period**

Errors of material amount relating to prior period(s) are disclosed by a note with nature of prior period errors, amount of correction of each such prior period presented retrospectively, to the extent practicable along with change in basic and diluted earnings per share. However, where retrospective restatement is not practicable for a particular period then the circumstances that led to the existence of that condition and the description of how and from where the error is corrected are disclosed in Notes on Accounts.

• **Cash flow statement**

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

Cash flows are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of no cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year is classified by operating, investing and financing activities.

• **Critical Estimates and Judgements**

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date and reported revenue and expenses for the year and disclosure of contingent liabilities as of the date of balance sheet. The estimates and assumptions used in the accompanying financial statements are based upon the management's evaluation of the relevant circumstances as of the date of financial statements. Actual amounts could differ from these estimates. This note provides an overview of the areas that involve a higher degree of judgment or complexity, and of items which may be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed in about each of these estimates and judgments is included in the relevant notes together with information about the basis of calculation of each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- i. Estimation of current tax expense and payable – Note 5 in notes to accounts
- ii. Estimation of defined benefit obligation – Note 33 in notes to accounts
- iii. Estimation of useful life of Property, Plant and Equipment and Intangibles – Note 2.3

b. Fair Value Hierarchy

- **Level 1** - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2** - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3** - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

c. Valuation Technique used to determine Fair Value:

Specific valuation techniques used to value financial instruments include:

- Use of DCF for Unquoted instruments

d. The following tables present fair value hierarchy of assets and liabilities measured at fair value:

(Rs. In lakhs)

Particulars	For the year 31.03.2020				For the year 31.03.2019			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Financial Assets								
Investments in Subsidiary			5	5			5	5

The carrying amount of current financial assets and current trade and other financial liabilities measured at amortised cost are considered to be the same as their fair values, due to their short-term nature. The carrying amount of Security Deposit measured at amortized cost is considered to be the same as its fair value due to its insignificant value. The carrying value of Rupee Term Loan and Term loan from related parties' approximate fair value as the instruments are at prevailing market rate.

32. Financial risk management

The Company's activities expose to limited financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

Market risk

Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument.

The company is exposed to market risk primarily related to foreign exchange rate risk (currency risk), Interest rate risk and the market value of its investments.

Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. It principally arises from the Company's Trade Receivables, Retention Receivables, Advances and deposit(s) made.

Trade receivables

The company has outstanding trade receivables amounting to Rs. 72,27,26,787 as at March 31, 2020 & Rs.87,49,67,181 as at March 31, 2019 respectively. Trade receivables are typically unsecured, except for security deposits received from the new dealers and are derived from revenue earned from customers. Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The company is not exposed to concentration of credit risk to any one single customer. Default on account of Trade Receivables happens when the counterparty fails to make contractual payment when they fall due.

Further for amounts overdue are constantly monitored by the management and provision towards expected credit loss are made in the books. Management estimated of expected credit loss for the Trade Receivables are provided below with the classification on debtors.

Particulars	Overdue period

Trade receivables are impaired in the year when recoverability is considered doubtful based on the recovery analysis performed by the company for individual trade receivables. The company considers that all the above financial assets that are not impaired and past due for each reporting dates under review are of good credit quality.

Liquidity Risk

Our liquidity needs are monitored on the basis of monthly and yearly projections. The company's principal sources of liquidity are cash and cash equivalents, cash generated from operations, Term loan from Banks, and Contribution in the form of share capital.

We manage our liquidity needs by continuously monitoring cash inflows and by maintaining adequate cash and cash equivalents. Net cash requirements are compared to available cash in order to determine any shortfalls.

Short term liquidity requirements consist mainly of sundry creditors, expense payable, employee dues, repayment of loans and retention & deposits arising during the normal course of business as of each reporting date. We maintain a sufficient balance in cash and cash equivalents to meet our short-term liquidity requirements.

We assess long term liquidity requirements on a periodical basis and manage them through internal accruals. Our non-current liabilities include Unsecured Loans from Promoters, Term Loans from Banks, Retentions & deposits.

The table below provides details regarding the contractual maturities of non-derivative financial liabilities. The table have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay.

The table include both principal cash flows.

INDEPENDENT AUDITOR'S REPORT

To the Members of M/s. Refex Industries Limited Report on the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of Refex Industries Limited (hereinafter referred to as "the Holding Company"), its subsidiary (the Holding Company and its subsidiary together referred to as "the Group), which comprise the Consolidated balance sheet as at 31st March 2020, and the statement of Profit and Loss, and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and loss, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Management's Responsibility for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated financial

statements that give a true and fair view of the financial position, consolidated financial performance and consolidated cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the group are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our Opinion on the consolidated financial statements, and our report on other Legal and Regulatory Requirements above, is not modified in respect of the above matters with respect to our reliance on the work done on the reports of the other auditors and financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law relating to preparations of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- c) The consolidated Balance Sheet, the consolidated Statement of Profit and Loss, and the consolidated statement of Cash Flow Statement dealt with by this Report are in agreement with the relevant books of accounts maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors of the Holding company as on 31st March, 2020 taken on record by the Board of Directors of the Holding company and the report of the statutory Auditors of its subsidiaries incorporated in India and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

“Annexure – A” to the Independent Auditors’ Report of even date on the Consolidated Financial Statements of Refex Industries Limited**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Refex Industries Limited (“the Company”) as of 31 March 2020 in conjunction with our audit of the Consolidated Ind AS financial statements of the Holding Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The

procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated IND AS Financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial reporting issued by the Institute of Chartered Accountants of India.

A. Corporate Information:

Refex Industries Limited (RIL), From realizing the commercial potential of HFC gases and diversifying into refrigerant gases, Refex Industries Limited (RIL) has consistently delivered out-of-the-box innovation coupled with positive financial sustainability, at every step of the way. With its inception in the year 2002, Refex Industries successfully broke the monopoly that existed in the controlled refrigerant gas market. After its well-established leadership in refrigerant gases, Refex now brings its delivery expertise in offering services like coal trading, coal yard management and coal ash handling to thermal power plants.

Refrigerant Gas:

Refex Industries Limited (RIL) is a specialist manufacturer and re-filler of Refrigerant gases, particularly, environmentally acceptable gases that are replacements for Chloro-Fluoro-Carbons (CFC's). These are used primarily as refrigerants, foam blowing agents and aerosol propellants. It exercises superior quality control and efficiency with the help of advanced technology. Refex has been committed to being an exemplary player in terms of safety, protection of health and environment, and sustainable development.

Handling and Disposal of Fly Ash:

Ash is the by-product from the burning of coal which is the fuel to all thermal power plants. 30-45% of the burnt coal is ash. This ash is full of heavy metals and toxins which if not handled properly could pollute air, land and water bodies.

During the running of a power plant ash is continuously produced and stored in silos which have to be continuously evacuated. The fly ash from the silos is a raw material required for the production of PPC cement, manufacturing of bricks, concreting of infrastructure projects like roads, bridges etc. This fly ash from the silos is transported in closed bulkers.

The excess undisposed ash from the silos is then sent to the ash dyke from where is it evacuated by filling in trucks for mine reclamation, filling of low lying areas, embankments etc. as per the guidelines of Ministry of Mines and Ministry of Environment and Forests (MoEF).

Round the clock services for coal yard management, shifting of uncrushed coal and Housekeeping Works:

With immense experience in handling ash in large number of trucks and bulkers, company have ventured into providing coal yard management services.

Uncrushed coal from trucks is first stored in the coal yard in the form of heaps. This coal is then transported and fed into the track hoppers at the Coal Handling Plant area. The un-sized coal which doesn't pass through the grizzly is broken to smaller sizes before it goes through. These services are provided round the clock to ensure sufficient supply of coal to run the power plant uninterruptedly.

The Company also provide housekeeping services in the coal handling plant (CHP) areas like in the conveyor belt surrounding areas, cable trays, trenches, drains, sump pit where spilled coal is to be collected and shifted manually with adequate manpower to ensure the smooth functioning of the equipment.

Coal Trading:

The Company source quality coal from domestic and international players and offer at competent prices to the power plants.

With a boost in infrastructure in India, Refex foresees a tremendous growth in all the business segments.

B. Significant Accounting Policies Basis of Preparation of financial statements

• Statement of Compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

• Preparation and compliance with Indian Accounting Standards (IND AS)

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company considers the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these Standalone financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

- **Recent accounting pronouncements**

2.1.3.a. Ind AS 116 Leases:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is annual periods beginning on or after April 1, 2019. The standard permits two possible methods of transition:

- Full retrospective – Retrospectively to each prior period presented applying Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors
- Modified retrospective – Retrospectively, with the cumulative effect of initially applying the Standard recognized at the date of initial application.

Under modified retrospective approach, the lessee records the lease liability as the present value of the remaining lease payments, discounted at the incremental borrowing rate and the right of use asset either as:

- Its carrying amount as if the standard had been applied since the commencement date, but discounted at lessee's incremental borrowing rate at the date of initial application or
- An amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments related to that lease recognized under Ind AS 17 immediately before the date of initial application.

Certain practical expedients are available under both the methods

On completion of evaluation of the effect of adoption of Ind AS 116, the Company is proposing to use the 'Modified Retrospective Approach' for transitioning to Ind AS 116, and take the cumulative adjustment to retained earnings, on the date of initial application (April 1, 2019). Accordingly, comparatives for the year ended March 31, 2019 will not be retrospectively adjusted. The Company has elected certain available practical expedients on transition.

The effect of adoption as on transition date would be insignificant on the financial statements.

2.1.3.b. Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss),

tax bases, unused tax losses, unused tax credits and tax rates.

The standard permits two possible methods of transition –

- i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and
- ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives.

The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after April 1, 2019.

The company is in the process of evaluation of impact of such pronouncement.

2.1.3.c. Amendment to Ind AS 12 – Income taxes:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment

2.1.3.d. Amendment to Ind AS 19 – plan amendment, curtailment or settlement:

On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

• The amendments require an entity:

- to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- to recognize in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognized because of the impact of the asset ceiling.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019.

The company is in the process of evaluation of impact of such pronouncements.

Historical Cost convention

The financial statements have been prepared under historical cost convention on accrual basis except for certain assets and liabilities as stated in the respective policies, which have been measured at fair value.

- **Current / Non-Current classification**

The assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities. Cash or cash equivalent is treated as current, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

- **Revenue recognition**

Revenue from Sales of goods and Electricity

The company manufactures and sells a range of refrigerant gases and generates electricity. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. In case of electricity, sales are recognised when power generation is passed on to the electricity grid.

Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customers has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the customer has objective evidence that all criteria for acceptance have been satisfied.

Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur.

No element of financing is deemed present as the sales are made with the credit term, consistent with market practice.

A receivable is recognised when the goods/electricity are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Revenue from sale of services

Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided the proportion of service rendered is determined by cost involved for the project as against total cost. Any promise made in the contract, which are identified distinct is accounted for as a separate performance obligation. Where the contracts include multiple performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Where these are not directly observable, they are estimated based on expected cost-plus margin.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management. In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by the company exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.

Interest income:

Interest income from, if any, non-current financial assets are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

Interest income from fixed deposits in banks is recognised on time proportion basis, determined by the amount outstanding and the rate applicable.

Fair value gains on current investments carried at fair value are included in Other income.

Other items of income are recognised as and when the right to receive arises.

- **Property Plant and Equipment**
- **Tangible Assets**

Freehold land is carried as historical cost. All other items of property plant and equipment are stated at historical cost of acquisition less accumulated depreciation and amortization and impairment. Historical cost includes purchase price, taxes and duties (Net of tax credits), labour cost and directly attributable overhead expenditure incurred upto the date the asset is ready for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component

accounted for as separate asset is derecognized when replaced. All other repairs and maintenance are charged to Profit or Loss during the reporting period in which they are incurred.

Depreciation is recognised using the straight-line method. The estimated useful lives and residual values are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis. The useful lives of assets are adopted to as specified by Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

On transition to Ind AS, Group has elected to continue carrying value of all its property plant and equipment recognized as at 1 April 2017 measured as per the previous GAAP and use that carrying value as deemed cost of the property, plant and Equipment.

An item of property, plant and equipment is derecognised upon disposal. Any gain or loss arising on the disposal of an item of property plant and equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

2.3.2 Intangible Assets

Rights under Service Concession Arrangements

Intangible assets are recognised when it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment.

Other intangible assets

Specialized software is amortized over a period of three to six years on straight line there is no time period, only subscription payable basis from the month in which the addition is made.

Intangible assets acquired are measured at cost less accumulated amortisation and impairment losses.

Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods to allocate the assets' revised carrying amount over its remaining useful life.

- **Impairment of assets**

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset (tangible and intangible) may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset/ cash generating unit is made. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance

Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.

- **Capital Work in Progress**

The cost of self-constructed assets includes the cost of materials, direct labour and any other costs directly attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management and borrowing costs.

Expenses directly attributable to construction of property, plant and equipment incurred till they are ready for their intended use are identified and allocated on a systematic basis on the cost of related assets.

- **Depreciation and Amortization**

Depreciation

The depreciable amount of an item of PPE is allocated on a straight-line basis over its useful life as prescribed above.

If part of an item of PPE with a cost that is significant in relation to the total cost of the asset and useful life of that part is different from remaining part of the asset; such significant part is depreciated separately. Depreciation on all such items have been provided from the date they are 'Available for Use' till the date of sale / disposal and includes amortization of intangible assets. An item of PPE is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Depreciation is charged on pro-rata basis from the date of addition / till the date of disposal. Gains and losses on disposal of assets are determined by comparing the sale proceeds with the carrying amount. These are included in profit or loss within other income.

The residual values are not more than 5% of original cost of the asset. The asset's residual value and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

- **Borrowing costs**

The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset as a part of the cost of the asset. The Company recognises other borrowing costs as an expense in the period in which it incurs them. A qualifying asset is an asset that necessarily takes a substantial period to get ready for its intended use or sale.

To the extent the Company borrows generally and uses them for the purpose of obtaining a qualifying asset, amount of borrowing cost eligible for capitalization is computed by applying a capitalization rate to the expenditure incurred. The capitalization rate is determined based on the weighted average of borrowing costs, other than borrowings made specifically towards purchase of a qualifying asset.

- **Foreign Currency translation**

- Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.
- Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing rate are adjusted in the cost of fixed assets specifically financed by the borrowings contracted, to which the exchange differences relate.
- Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

- **Employee Benefits**

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

- **Short Term Obligations**

All employee benefits falling due wholly within twelve months of rendering the service are classified as short-term employee benefits. The benefits like salaries, wages, short term compensated absences etc. and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service.

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- in case of non-accumulating compensated absences, when the absences occur.

- **Post-employment obligation**

The company operates the following post-employment benefit schemes.

Defined benefit plans such as gratuity for its eligible employees and defined contribution plans such as provident fund.

Defined Benefit Plan (Gratuity)

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets — unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets — unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company has a legally enforceable right to set-off assets against liabilities and where such assets and liabilities relate to taxes on income levied by the same governing taxation laws.

Current and deferred Tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax (MAT) is accounted as current tax when the Company is subjected to such provisions of the Income Tax Act. However, credit of such MAT paid is available when the Company is subjected to tax as per normal provisions in the future. Credit on account of MAT is recognized as an asset based on its recoverability in the future.

- **Provision and Contingent Liabilities**

- **Provisions**

A provision is recorded when the Company has a present or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reasonably estimated.

- **Contingent Liabilities**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is termed as a contingent liability. Show cause notices are not considered as Contingent Liabilities unless converted into demand.

- **Leases**

The determination of whether an agreement is, or contains, a lease is based on the substance of the agreement at the date of inception.

Finance leases:

- (a) Property, plant and equipment acquired under leases where the Company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value or the present value of minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost, to obtain a constant periodic rate of interest on the outstanding liability for each period.
- (b) Property, plant and equipment given under a finance lease are recognised as a receivable at an amount equal to the net investment in the lease. Lease income is recognised over the period of the lease to yield a constant rate of return on the net investment in the lease.

Operating leases:

(a) Property, plant and equipment acquired on leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease.

(b) Property, plant and equipment leased out under operating leases are continued to be capitalised by the Company. Rental income is recognised on a straight-line basis over the term of the relevant lease.

- **Cash and Cash equivalents**

Cash and cash equivalents include cash in hand, Balances in Bank and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

- **Financial assets**

- **Classification**

The Company classifies its financial assets in the following measurement categories:

(i) Those measured subsequently at fair value through other comprehensive income (in case of investments in equity instruments) through profit or loss (in case of investments in mutual funds)

(ii) Those measured at amortised cost

The classification is based on the Company's business model for managing the financial assets and the contractual terms of the cash flow for assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

- **Measurement**

- **Initial Measurement**

The Company measures a financial asset at its fair value plus cost that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

- **Subsequent measurement**

Investments**Fair value through Profit and loss**

Assets that do not meet the criteria for amortised cost or Fair Value Through Other Comprehensive Income (FVOCI) are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other

gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

- **Other financial assets**

After Initial Measurement, financial assets are subsequently measured at amortised cost using the effective interest rate method (EIR) method. Amortised cost is calculated by considering any discount or premium and fees or cost that are an integral part of EIR. The EIR amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

- **Impairment of financial assets**

The Company assesses on a forward-looking basis, the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been significant increase in credit risk.

For trade receivables (If any), the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected credit losses to be recognised from initial recognition of the receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each Balance Sheet date, right from its initial recognition

- **De recognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when the rights to receive cash flows from the asset have expired.

- **Financial Liabilities**

- **Classification**

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities shall be subsequently measured at fair value

- **Initial recognition and measurement**

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- **Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss. This category generally applies to interest-bearing loans and borrowings.

- **Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

- **Offsetting of financial instruments**

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

- **Government grants**

Government grants are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. Government grants in the nature of promoters' contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve.

- **Dividend to Shareholders**

Final dividend distributed to equity shareholders is recognized in the period in which it is approved by the members of the Company in the Annual General Meeting. Interim dividend is recognized when approved by the Board of Directors at the Board Meeting. Dividend distributed is recognized in the Statement of Changes in Equity.

- **Earnings per Share**

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

- **Derivative financial instruments**

The Company uses derivative financial instruments, such as forward contract to manage its exposure to foreign exchange risks. Any derivative that is either not designated as a hedge or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value through profit

or loss and the resulting exchange gains or losses/ fair value changes are included in Statement of profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

• **Segment Information**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ("CODM").

The board of directors of the Company assesses the financial performance and position of the Company, and makes strategic decisions. The board of directors has been identified as being the CODM. Refer note 34.

• **Prior Period**

Errors of material amount relating to prior period(s) are disclosed by a note with nature of prior period errors, amount of correction of each such prior period presented retrospectively, to the extent practicable along with change in basic and diluted earnings per share. However, where retrospective restatement is not practicable for a particular period then the circumstances that led to the existence of that condition and the description of how and from where the error is corrected are disclosed in Notes on Accounts.

• **Cash flow statement**

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

Cash flows are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of no cash nature and any deferrals or accruals of past or future cash receipts or payments. Cash flow for the year is classified by operating, investing and financing activities.

• **Critical Estimates and Judgements**

The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities as of the balance sheet date and reported revenue and expenses for the year and disclosure of contingent liabilities as of the date of balance sheet. The estimates and assumptions used in the accompanying financial statements are based upon the management's evaluation of the relevant circumstances as of the date of financial statements. Actual amounts could differ from these estimates. This note provides an overview of the areas that involve a higher degree of judgment or complexity, and of items which may be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed in about each of these estimates and judgments is included in the relevant notes together with information about the basis of calculation of each affected line item in the financial statements.

The areas involving critical estimates or judgments are:

- i. Estimation of current tax expense and payable – Note 5 in notes to accounts
- ii. Estimation of defined benefit obligation – Note 33 in notes to accounts
- iii. Estimation of useful life of Property, Plant and Equipment and Intangibles – Note 2.3

b. Fair Value Hierarchy

- **Level 1** - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2** - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3** - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

c. Valuation Technique used to determine Fair Value:

The carrying amount of current financial assets and current trade and other financial liabilities measured at amortised cost are considered to be the same as their fair values, due to their short-term nature. The carrying amount of Security Deposit measured at amortized cost is considered to be the same as its fair value due to its insignificant value. The carrying value of Rupee Term Loan and Term loan from related parties' approximate fair value as the instruments are at prevailing market rate.

32. Financial risk management

The Company's activities expose to limited financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

Market risk

Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument.

The company is exposed to market risk primarily related to foreign exchange rate risk (currency risk), Interest rate risk and the market value of its investments.

Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. It principally arises from the Company's Trade Receivables, Retention Receivables, Advances and deposit(s) made.

Trade receivables

The company has outstanding trade receivables amounting to Rs. 72,27,26,787 as at March 31, 2020 & Rs.87,49,67,181 as at March 31, 2019 respectively. Trade receivables are typically unsecured, except for security deposits received from the new dealers and are derived from revenue earned from customers. Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The company is not exposed to concentration of credit risk to any one single customer. Default on account of Trade Receivables happens when the counterparty fails to make contractual payment when they fall due.

Further for amounts overdue are constantly monitored by the management and provision towards expected credit loss are made in the books. Management estimated of expected credit loss for the Trade Receivables are provided below with the classification on debtors.

Particulars	Overdue period							
	0-30days	30-60days	60-90 days	90-120 days	150-180 days	180-360 days	360 days-3 Years	> 3 Years
Trade Receivables	3.00%	3.00%	3.00%	5.67%	5.67%	14.00%	31.33%	100.00%

The above% has been arrived by taking a simple average of 3 Variants. The 3 variants are arrived on by the management on the basis of Conservative, Moderate and aggressive estimates.

Credit risk exposure:

Trade receivables are impaired in the year when recoverability is considered doubtful based on the recovery analysis performed by the company for individual trade receivables. The company considers that all the above financial assets that are not impaired and past due for each reporting dates under review are of good credit quality.

Liquidity Risk

Our liquidity needs are monitored on the basis of monthly and yearly projections. The company's principal sources of liquidity are cash and cash equivalents, cash generated from operations, Term loan from Banks, and Contribution in the form of share capital.

We manage our liquidity needs by continuously monitoring cash inflows and by maintaining adequate cash and cash equivalents. Net cash requirements are compared to available cash in order to determine any shortfalls.

Short term liquidity requirements consist mainly of sundry creditors, expense payable, employee dues, repayment of loans and retention & deposits arising during the normal course of business as of each reporting date. We maintain a sufficient balance in cash and cash equivalents to meet our short-term liquidity requirements.

We assess long term liquidity requirements on a periodical basis and manage them through internal accruals. Our non-current liabilities include Unsecured Loans from Promoters, Term Loans from Banks, Retentions & deposits.

The table below provides details regarding the contractual maturities of non-derivative financial liabilities. The table have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the company can be required to pay.

The table include both principal cash flows.
