## **MANAGEMENT DISCUSSION & ANALYSIS REPORT**

### **Industry Structure and Developments:**

Industry Structure and Developments: The close linkage of the textile industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles make the Indian textiles sector unique in comparison to the industries of other countries. The Indian textile industry has the capacity to produce a wide variety of products suitable to different market segments, both within India and across the world. The textiles industry is also labour intensive and employs large number of persons. The fundamental strength of the textile industry in India is its strong production base of wide range of natural fibers like cotton. The Textile Industry is a major export earner for the country by export of cotton yarn and value added products like fabrics and garments. The revival of economy in the overseas market will add stimulus to the Industry. The Industry depends upon availability of cotton at a stable price. The Management continues to upgrade the quality of yarn produced to ensure competitive advantage in marketing its products more through exports and sustain profitability.

### **Opportunities and Threats:**

#### **Opportunities:**

The condition of the spinning industry is dependent on the vagaries of cotton fibre production in the country. The acreage, output rainfall and minimum support prices always have bearing on the fortunes of the industry from time to time. Adequate availability of cotton at right prices is very much crucial for spinning mills. The cotton prices are exposed to price fluctuations and in case of exports, the exchange fluctuations is also one of the major risk.

#### **Threats:**

- i. Some of the threats faced by spinning industry include technological obsolescence, high minimum support price for cotton, increasing input costs, skilled labour availability besides fluctuating demand for yarn.
- ii. In both domestic & International Markets the overall demand for cotton yarn is projected to remain good. The uptrend in domestic yarn price and its higher exports may provide opportunities and some respite to the spinning industry.
- iii. However, global pricing might impact the Indian textile sectors supply and demand dynamics.

### **Product-wise performance:**

The Company's main product range continues to be Cotton Yarn, Knitted fabrics and Garments catering to the needs of Hosiery/Knitted Garment Industries. The company continues to pursue a policy of constant up-gradation of quality of yarn and fabric produced.

**Outlook:**

Due to competitiveness at all levels, it is necessary to implement consolidation strategies such as cost reduction measures, improving productivity and exploring new markets, maintaining high quality and these measures are under way as ongoing process.

**Risks and Concerns:**

Though banks may be liberal in sanctioning loans but higher interest cost will affect the margin. The key raw material for our industry is cotton and major area under cotton cultivation is rain-fed and hence it is dependent on vagaries of monsoon. Price fluctuation is high in both domestic and import cotton. Any disruption in the supply and / or violent changes in the cost structure would affect the profitability of the company. Power also plays a major role in cost structure.

**Internal Control system and their adequacy:**

The Company has proper and adequate systems of internal controls commensurate with its size and nature of its business, to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition. These systems also ensure that all transactions are authorized, recorded and reported correctly. A strong system of internal audit and effective and comprehensive reviews by the Audit Committee of the Board have strengthened the internal controls within the organization. The Company has a well-defined organization structure, authority levels and internal rules and guidelines for conducting business transactions.

**The Company's Financial Performance & Analysis:**

The Company earned post tax Profit of Rs. 1,978.92 Lakh (Previous year Rs. 619.99 Lakh) after providing for current Income Tax and deferred Tax. The Financial performances of the company are explained in detail in the Directors report to Shareholders.

**Human Resources/Industrial relations:**

The efforts of the staff and management are on imparting continuous training to improve overall working practices; Industrial relations are cordial and satisfactory.

**Cautionary Statement:**

Certain Statements in this report on Management Discussion may be forward looking statements and which have been issued as required by applicable Securities Laws and Regulations. There are several factors which would be beyond the control of Management and as such, may affect the actual results which could be different from that envisaged.

#### **Management's responsibility for the Ind AS financial statements:**

The Company's board of directors is responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) and other Indian accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the company and for preventing and deducting frauds and other irregularities, selection and application of appropriate accounting policies, making judgement and estimate that are reasonable prudent, and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to a fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management has also made appropriate adjustments to the Ind AS financial statements and ensuring necessary disclosures that may impact future operating results, cash flows and financial position of the company.

The board of directors are also responsible for overseeing the financial reporting process of the company.

#### **Auditor's responsibilities for the audit of the Ind AS financial statements**

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Board of Director' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of Ind As financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public

disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT**

(Referred to in paragraph 2(f) under 'Report on other legal and regulatory requirements' section of our report of the even date to the members of M/s. Salona Cotspin Limited on the Ind AS financial statements for the year ended March 31, 2022.)

### **Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-Section 3 of section 143 of the Companies Act.2013 ("the Act")**

We have audited the internal financial controls over financial reporting of M/s Salona Cotspin Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management and Board of Director is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143 (10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system over financial reporting.

**Meaning of Internal Financial Controls Over Financial Reporting:**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- (i) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transaction and dispositions of the assets of the company.
- (ii) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisation of management and directors of the company; and
- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting.**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion:**

In our opinion, to the best of our information and according to the explanations given to us the company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

## (p) Earnings Per Share

### Basic earnings per share:

Basic earnings per share is calculated by dividing:

- Earnings per share is arrived by dividing the Net Profit after tax attributable to the equity shareholders by the number of equity shares.

### Diluted earnings per share:

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to taken into account:

-the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and  
-the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

## (q) Critical estimates and judgements -

The preparation of financial statements requires the use of accounting estimates which by definition will seldom equal the actual results.

Management also need to exercise judgement in applying the Group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

## Fair value measurement

Financial Instrument by category and hierarchy The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale The following methods and assumptions were used to estimate the fair values:

1. Fair value of cash and short-term deposits, trade and other short-term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The fair values for loans and security deposits were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counter party credit risk.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the used of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have significant effect on the recorded fair value that are not based on observable market data.

### Financial risk management

#### Credit risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operation activities (primarily trade receivables) and from its financing activities, foreign exchange transactions and other financial instruments.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business,
- ii) Actual or expected significant changes in the operating results of the counterparty,
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations,
- iv) Significant increase in credit risk on other financial instruments of the same counterparty,

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company.

#### Trade Receivables

Customer credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and generally on 7 days to 180 days' credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral security. The Company evaluated the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

#### Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

#### COVID-19

The world has been afflicted with an unprecedented epidemic COVID-19 which has adversely affected all businesses in all countries including India, during the 1<sup>st</sup> Quarter of financial year 2021-2022.

Epidemic COVID-19 had shown signs of recession during the second half of the financial year 2021 -22 and our business had speedily improved during the second half. In spite of lock down in few State, we achieved a Sales turnover of Rs. 610.63 Lakhs in 2021-22.
