Forward-looking statement

In this Annual Report, we present forward-looking information to help investors understand our prospects and make informed decisions. This report, along with other periodic written and oral statements, contains forward-looking statements based on the management's plans and assumptions. We have tried to identify these statements with words like 'anticipates,' 'estimates,' 'expects,' 'projects,' 'intends,' 'plans,' 'believes,' and similar terms related to future performance discussions. While we believe our assumptions are prudent, we cannot guarantee that these forward-looking statements will be realised. The achievement of results is subject to risks, uncertainties and potential inaccuracies in our assumptions. If known or unknown risks or uncertainties materialise, or if our assumptions prove inaccurate, actual results could differ materially from those anticipated, estimated, or projected. Readers should keep this in mind. We are not obligated to publicly update any forward-looking statements due to new information, future events, or otherwise.

Speciality & Sustainability

Jai Balaji Industries Limited was largely a commodity steel manufacturer.

The Company has graduated to speciality steel products.

This has started a new phase of growth at the Company, reinforcing a sense of responsibility on the one hand and transforming the Company's profitability cum sustainability on the other.

3 principal messages of this annual report

- 1  Jai Balaji Industries Limited reported a record performance – revenues, margins, profits and capital efficiency – in FY 2023-24
- 2  The company strengthened its foundation around business sustainability through a ₹1,000 Crore expansion programme
- 3  The company will continue to focus on the speciality steel products segment that is relatively insulated from cyclical price movements

PART 1

What we are and what we do

Corporate snapshot

Jai Balaji Industries Limited.

The company, incorporated in 1999, is engaged in the manufacture of iron and steel products.

The company harnesses a combination of economies and entrepreneurship with the aspiration to emerge as a significant industry player.

The company's entrepreneurial approach is driving innovation and expansion.

In this manner, the company is positioned to enhance long-term stakeholder value.

Background

Jai Balaji Industries Limited, founded in 1999, has established itself as a key player in the iron and steel industry, driven by a strategic mix of economic efficiency and entrepreneurial spirit. The company continues to expand and innovate, reinforcing its leadership in a competitive market.

Corporate goal

Through our strategic approach, the company stands for making a difference and creating value for stakeholders. Our holistic approach comprises a commitment to address national needs, utilise natural resources, enhance stakeholder value and improving quality of life of communities. The company is committed to high ethical standards and governance benchmarkship, manifested in a high operational performance and green conservation.

Geographic footprint

Jai Balaji Industries enjoys a dispersed geographical presence in India, with four integrated steel manufacturing units located across West Bengal and Chhattisgarh.

Portfolio

Jai Balaji offers a complete range of steel products and ferro alloys. The breadth and depth of this range makes it possible for the Company to address every market upturn and customer need. The Company generated 47.29% of its revenue from value-added and specialised products (DI pipes and specialised ferro alloys) in FY 2023-24.

Human resource

Jai Balaji employs a skilled and diverse team of specialists. As of March 31, 2024, the company had 4431 employees / workforce. These employees comprised a range of competencies (metallurgical, finance, project management, marketing, brand building, distribution, technology, human resources, legal and accounting, among others).

Listing

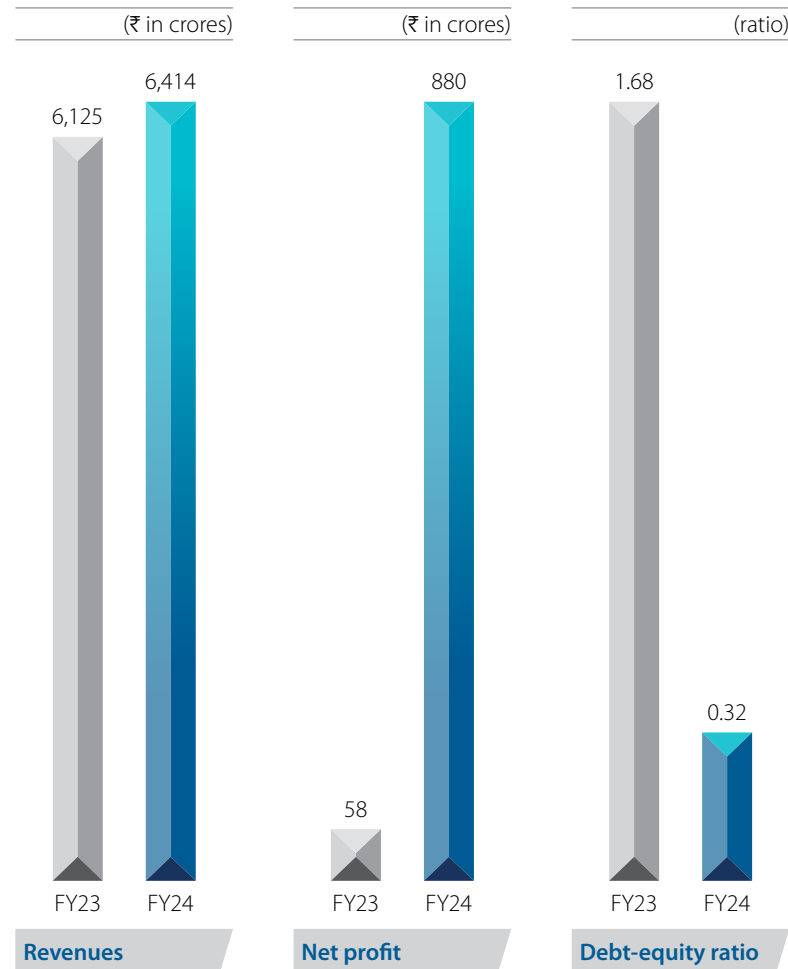

The company is listed on the National Stock Exchange of India Limited and BSE Limited, where its equity shares are actively traded. As of March 31, 2024, the market capitalisation of the company stood at ₹14,942.04 Crores.

Financial Highlights

PART 2

The Spirit of Jai Balaji Industries Limited

New phase

Jai Balaji's performance in FY 2023-24 represented the start of a new phase in the company's existence:

Improved credit rating, signifying that the company is conclusively out of the waters

Capital expenditure revival with an outlay of ₹1,000 Crore – all out of internal accruals

Increase in revenues from value-added & specialised steel products from 39.46% in FY 2022-23 to 47.29% in FY 2023-24

What we were

Nearly 30% of our revenues were derived from value-added products (DI pipes and Ferro alloys)

High cost of debt

Relatively low exports

What we are

Nearly 50% revenues are derived from value-added and specialised products (DI pipes and Specialised Ferro alloys)

Low cost of growth capital

Rise in exports

How we turned the company around

A story of resilience and responsiveness

Overview

Few Indian steel companies that were affected during the slowdown of the last decade succeeded in turning around. Jai Balaji Industries Limited is one of them. The company's commitment to its business is reflected in the longstanding engagement to reduce debt, protect manufacturing effectiveness, seek opportunities in an evolving market and return the company to sustainable health.

Background

The Indian steel industry experienced an extended downtrend through the last decade due to interrelated factors: a global economic slowdown, India's lower infrastructure spending, sectorial overcapacity, increased imports, increased input costs (iron ore and coking coal), stricter environment regulations, emergence of competitive technologies, policy uncertainty cum reform delays and sluggish domestic demand. The result was that steel companies that engaged in capital expenditure programmes (funded by debt) encountered rising debt and lower revenues, affecting their viability. Jai Balaji was one of these companies.

Protecting our priorities

The management of the company stayed resolute in implementing a number of initiatives at protecting the company's fundamentals during the sectorial downtrend and negotiating with lenders and regulatory agencies in taking the company's business ahead and taking all

stakeholders such as suppliers, vendors, customers, shareholders, employees etc. in confidence, before moving ahead.

Strengthening the foundation

The company utilised the extent of the downtrend to build a stronger business. The company continued to invest in a number of capital expenditure programmes with visible paybacks; the company did not retrench a single member of its workforce; it kept providing product-centric projects to its operations team even during the difficult times; it continued to fund its development programme. The result is that the company continued to protect team morale and enhance hope that the company would be among the first to turn around when sectorial realities revived.

Strategic clarity

The company continued to emphasise modernisation cum manufacturing integration where one end product would become the raw material of another. The company focused on value-added products with an export potential (ductile iron pipes and specialised ferro alloys). The company moderated hot metal manufacturing costs by revamping the blast furnace and increasing its sinter capacity. It commissioned a waste heat recovery boiler to optimise waste gas utilisation. The result was cost moderation on the one hand and enhanced value-addition on the other. When capacity utilisation increased, there was a sharp increase in surplus.

How we returned the company to health

This is how we intend to take the company ahead

Specialised

Grow our presence in non-commoditised and value-added speciality steel product segments

Non-cyclical

Deepen our respect as a non-commoditised steel company exposed to relatively low cyclicity

Utilisation

Operate around the highest capacity utilisation level, effectively amortising fixed costs

Integration

Deepen our manufacturing integration

Net worth-driven

Progressively move towards becoming a completely net worth-driven company

Competitive

Increase capital spending for brownfield expansions at around the lowest capital costs

Spirit of Jai Balaji

We created a specialised product during the most challenging days

During the most challenging days of the company, it prudently allocated cash for small projects with visible outcomes; it deepened its focus on products and processes development.

The company's research team focused on value-added products being imported into the country.

One of these products comprised speciality ferro chrome alloys. The company continued its research when the industry was in a downtrend and cash flows were stretched. The company's research team focused on achieving product stability and chemical composition in line with international standards. The company persevered, developed a product and supplied in a minuscule quantity to some of the most demanding global customers.

Thereafter, as confidence developed, and demanding customers were willing to trust the company with larger speciality ferro chrome orders, volumes and revenues grew.

The result of this challenge that had been embraced during the most difficult days of the sector is that the company is now the only one to make this product in India at an organised scale. During the last financial year, this product was exported to nearly 40 countries accounting for 96.27% of all exports of the company and 8.43% of the company's FY 2023-24 revenues.

The spirit of Jai Balaji prevailed.

Spirit of Jai Balaji

How we evolved from commodity steel to specialised steel

When Jai Balaji went into business, the company resolved that it would graduate from the conventional commoditised segment of the steel sector to the value-added.

This decision was influenced by the fact that the periodic cyclical nature of the sector affected stakeholder confidence, translating into a higher cost of growth capital and a correspondingly lower valuation. Besides, a premium on the ability to estimate the next upcycle affected the company's capacity to scale the business in line with a growing national appetite.

The company made a distinctive change: it selected to focus on speciality steel segments that were generally more insulated from sectorial cyclical nature.

Two products where the company deepened its speciality personality comprise ductile iron pipes and speciality ferro chrome alloys.

Five years ago, the aggregate revenues derived from these two products comprised 31.11%; this increased to 47.29% during the year under review and is likely to

be a projected 75-80% in a couple of years.

Going ahead, we believe that this focus on specialised steel products – as distinct from commodity – will make it possible for the company to resist the cyclical impact of the sector, enhance revenue visibility, generate predictable cash flows and provide the company with a larger proprietary resource pool to reinvest in the business.

Most importantly, this value-addition is likely to sustain the company's position as one of the highest in terms of capital efficiency within the country's iron and steel sector, reduce the company's debt and create a virtuous cycle of business sustainability.

The spirit of Jai Balaji will prevail.

Spirit of Jai Balaji

How we built a progressively integrated business to enhance competitiveness

At Jai Balaji, we went into business with a conviction that since it would be progressively difficult to pass cost increases to customers, we would need to find a way to absorb those cost increases within, without affecting our competitiveness.

The most effective means of doing so was through manufacturing integration, whereby one end product (produced from resources manufactured within the company) manufactured by the company would become the raw material for another product also manufactured by the company.

The upsides of this integration would comprise the following: low logistics cost in the transfer of products from within one part of the plant to another, compared to if they had to be procured. This would translate into high working capital efficiency since the transfer would not entail a cash outgo. There would be room for attractive value-addition since the end product being manufactured from this resource would be considerably value-added. The

integration would also mean that a large part of the resource would be consumed within the company, moderating the company's market exposure.

Best of all, competitive manufacture of the upstream product would translate into competitiveness along the value chain, strengthening offtake of the downstream product where the company enjoyed the highest margin.

The result is in the numbers.

The spirit of Jai Balaji prevailed.

PART 3

The context of our sector and business

The big picture of our business

India is the fifth largest economy and likely to emerge as the third largest by the end of this decade.

India is also the fastest growing major economy, positioned as the next global economy driver.

A number of sectors driving the next round of India's growth are likely to comprise modern technology-intensive businesses.

These technology-intensive businesses will warrant an increased appetite for speciality steel.

Jai Balaji is strategically positioned to address this requirement through a proactive investment in sizable capacity, manufacturing integration, sectorial relevance, product value-addition, clean manufacturing and Balance Sheet integrity.

Our preparedness comes down to two words: 'Speciality and Sustainability.'

Overview

In India, there is a premium in reaching water from water-abundant regions to water-scarce pockets.

As the need for safe and efficient water transportation increases, there will be a growing demand for ductile iron pipes. This preference is being driven by urbanisation and need for potable water safety.

Ductile iron pipes are fully recyclable with a lifespan of more than 100 years, making them environment friendly.

The Indian government is turning to public water transportation projects in a bigger way through enunciated policies and spending programmes. A large part of these programmes comprises the use of ductile iron pipes.

The projected outcome: India's ductile iron pipes market of approximately USD 3.19 Billion in 2023 is projected to grow to USD 9.22 Billion by 2032.

Preferred choice

Jai Balaji Industries Limited is a preferred provider of ductile iron pipes in India. Our company has been contributing to the ambitious projects of the government, namely Jal Jeevan Mission and AMRUT by actively providing supplies of DI pipes and enhancing capacities proactively for nation building and providing safe drinking water for all.

As water scarcity becomes an increasingly pressing issue in many regions, the demand for efficient and reliable water distribution solutions has never been greater. Ductile Iron pipes are crucial in addressing this challenge, as they offer durability and effectiveness in water transport, particularly in areas where resources are limited. Recognising this urgent need, our company is committed to making a meaningful impact by providing high-quality DI pipes that enhance water management and distribution. By aligning our efforts with

the growing demand for sustainable water solutions, we are proud to contribute significantly to alleviating water scarcity in vulnerable areas and ensuring secure water supply for communities.

The company has deepened its respect for advanced coating protection, field

training and assurance, validated durability, enhanced corrosion resistance, precision cutting methods, superior edge preparation, and validated resilience.

The result is that ductile iron pipes accounted for 26.87% of the company's revenues in FY 2023-24 compared to

22.05% in FY 2022-23; the company has been engaged in expanding its ductile iron pipe capacity leading to the possibility of sustained revenue growth.

Versatility, strength and longevity

Ductile iron pipes offer several benefits, making them a popular choice in various infrastructure applications.

High strength and durability:

Ductile iron pipes are known for their exceptional tensile strength, allowing them to withstand high internal and external pressures. This makes them suitable for a range of demanding applications, including water supply and sewage systems.

Corrosion resistance: The material's resistance to corrosion is one of its standout features. While cast iron pipes are prone to rust, ductile iron pipes are often coated with zinc, bitumen, or other materials to enhance their resistance to corrosion, especially in aggressive soils.

Flexibility: Unlike traditional cast iron, ductile iron enjoys higher flexibility, allowing it to bend under stress without breaking. This flexibility helps the pipes accommodate ground movements and

temperature variations, reducing the risk of cracks or leaks.

Longevity: Ductile iron pipes have a long service life, often exceeding 50 years. Their durability in various environments makes them cost-effective choice over time, as they require less frequent replacement or repair.

Ease of installation: These pipes are relatively easy to install due to their design and flexibility. They can be connected using a variety of joints, including push-fit, which simplifies the installation process and reduces labor costs.

Environmental benefits: Ductile iron is a recyclable material; pipes made from it can be repurposed at the end of their service life. Their long lifespan and reliability contribute to a reduced

environmental footprint compared to other piping materials.

High flow capacity: Ductile iron pipes possess a smooth inner surface, reducing friction and allowing for efficient fluid flow. This high flow capacity ensures effective water or wastewater transport over long distances.

Resilience to external loads: The strength of ductile iron pipes enables them to resist heavy external loads, such as traffic or construction activities above the ground, without compromising their integrity.

These benefits collectively make ductile iron pipes a preferred choice for infrastructure projects, particularly in water and sewage systems, where reliability, strength and longevity are crucial.

Downstream applications

Water supply systems: Ductile iron pipes are extensively used in the transportation of potable water due to their strength, durability and resistance to corrosion. Ductile iron pipes are commonly employed in urban, rural and industrial water distribution networks.

Sewage and wastewater systems: These pipes are also used for sewage and wastewater disposal systems. Their ability to withstand high pressure and

resist chemical corrosion makes them ideal for carrying wastewater.

Irrigation systems: In agricultural settings, ductile iron pipes are often used for irrigation. They help in transporting water efficiently over long distances, ensuring reliable supply to farmlands.

Fire protection systems: Ductile iron pipes are used in fire protection

systems, particularly in supplying water to fire hydrants and sprinkler systems, due to their ability to handle high-pressure conditions.

Industrial applications: These pipes are also used in various industrial settings where the transportation of water, chemicals, or other fluids (under pressure) is required.

Why our speciality steel products business addresses the needs of a modern India

We are focused towards speciality steel products

We have built sizable and growing capacities addressing the growing needs of a modernising India

We are among the leading special steel products producers within our niches

Our speciality steel products have been backed by the captive manufacture of raw materials

We are among the most competitive manufacturers of speciality steel products in India

Aerospace

Key national defence component
India the third-largest domestic aviation market in the world.
Indian Aerospace and Defence market projected at USD 70 Billion by 2030.
Growth to be driven by Defence spending and indigenous resource focus
Industry expected to benefit from policy reforms, and infrastructure modernisation

Construction

Key economy enabler
India's construction sector third largest in the world
Accounts for 9% of India's GDP
Grew 9.9% in FY 2023-24
Growth driven by demand for public infrastructure and housing
Growth driven by urbanisation, income expansion, increased aspirations, population growth and policy reforms

Automotive

Key economic driver and indicator
India's automotive sector was the third largest in the world as of 2023
Accounts for 7.1% of India's GDP
Grew 19% year-on-year in value to ₹10.2 Lakh Crores in FY 2023-24
Growth driven by increased disposable incomes
Long growth headroom on account of a low per capita consumption
Industry expected to benefit from Automotive Mission Plan 2026, scrappage policy, and production-linked incentive schemes

Renewable energy

Countering climate change
India's stands fourth globally by installed capacity
42.26% of India's installed capacity share
Growth driven by increased investments and governmental policies
Long growth headroom on account of global climate agreements, rural electrification and increasing energy demand
Industry expected to benefit from PLI schemes for solar modules and green financing.

Manufacturing sector

Key economy catalyst
India's manufacturing sector world's sixth largest
17% of India's GDP
Grew 9.9% in FY 2023-24
Growth being driven by increased production capacity, cost advantages, supportive policies, and private investment
Industry expected to benefit from PLI schemes

Infrastructure

Key national focus area
Comprises roads, bridges, ports, dams etc.
Infrastructure capex estimated to grow at a CAGR of 11.4% during FY 2021-26
Growth driven by government initiatives and increased investments
India's infrastructure spending to increase from 5.3% of GDP in FY 2023-24 to 6.5% of GDP by FY 2028-29
15.3% projected CAGR in infrastructure spending, amounting to a cumulative USD 1.45 trillion over the next five years

Defence

Critical national sector
Rising defence budgets
3.3% share of GDP is spent on defence
India's defence export grew to ₹16,954 Crore in FY 2023-24
India's defence manufacturing surged 16.7% in FY 2023-24,
Long growth headroom on account of an import ban on defence products and increased indigenisation

Consumer electronics

Essential life component
India's consumer electronics market the world's third largest
Sector contributes 3.4% of the country's GDP
India benefiting from a shift in manufacturing away from China
Industry expected to grow around 10% in 2024
Growth driven by increased internet penetration, supportive policies and advanced computerised systems.
Large growth headroom on account of a government commitment of nearly USD 17 Billion over the next six years across four PLI schemes

PART 4

Perspectives of the management on our performance and business model

JAI BALAJI INDUSTRIES LTD.
RANIGANU UNIT -1

Chairman's Review

Aditya Jajodia
Chairman and Managing Director

Deepening our commitment to the twin objectives of Speciality & Sustainability

Overview

The performance of the company during the year under review represented a watershed in our existence. At first glance, this watershed status was due to the company reporting its highest ever revenue from operations of ₹6,413.78 Crore in FY 2023-24, a substantial rebound from the ₹2,785.18 Crore reported in FY 2020-21 at the trough of the industry downcycle and a challenging phase in the company's history.

Importantly, this growth was not achieved by simply dumping the market with our products. Growth was achieved by making niche steel products addressing critical and demanding requirements. The result was that during the FY 2023-24, EBITDA was ₹1,121 Crore corresponded by an EBITDA margin of 17%.

This outperformance could not have come at a more opportune time, as the Indian steel market faced challenges due

to a combination of domestic and global factors during the last financial year.

Demand from major downstream consumers, such as construction, automotive, and infrastructure, was sluggish. Project delays, coupled with issues related to the overall economic environment and reduced spending, contributed to lower steel demand. Additionally, the global steel market encountered overcapacity, leading to price pressures. The prices for key raw materials, such as iron ore and coking coal, fluctuated significantly. The availability of cheaper imported steel, primarily from China, remained a challenge, compelling domestic producers to moderate their prices. Stricter environmental regulations and increases in compliance costs associated with pollution control affected operational efficiencies and costs for steel producers.

Faithfully true

The company's business model was designed for markets like those experienced during the last financial year. Our performance represented a validation of business priorities. We positioned ourselves in market segments that are relatively insulated from imports and price erosion. I am pleased to communicate that two such segments—ductile iron pipes and speciality ferro chrome alloys—operated in relatively protected spaces and performed creditably during the last financial year.

The aggregate revenues from these segments increased from 39.46% in FY 2022-23 to 47.29% in FY 2023-24. Additionally, the average realisation per tonne of ductile iron pipes strengthened by 18%, while the average realisation of speciality ferro chrome alloys rose by 28%. We believe that the performance of these segments remained commendable despite a relatively stable rupee and declining steel prices.

This outperformance was not a one-off event; it was the result of our deliberate positioning as a speciality steel products

manufacturer over a generic one. Our rationale for this distinctive positioning stemmed from the belief that demand and realisations for speciality steel would remain consistent in an economy committed to investing in infrastructure. Furthermore, we recognised that the speciality steel space is relatively under-crowded, providing pricing power that would generate adequate surpluses for reinvestment.

Ductile Iron pipes are essential for ensuring efficient and reliable water distribution,

deepen our recall and transition us from just another steel manufacturer into a credible value-enhancing institution. The performance of the company during the last financial year represented a decisive step towards that vision.

In the recent past, the company launched a product named 'JBG HEXA'. We aim to deliver the best TMT steel bars, manufactured by our qualified and dedicated workforce, in a socially and environmentally responsible environment,

The company's business model was designed for markets like those experienced during the last financial year. Our performance represented a validation of business priorities. We positioned ourselves in market segments that are relatively insulated from imports and price erosion. I am pleased to communicate that two such segments—ductile iron pipes and speciality ferro chrome alloys—operated in relatively protected spaces and performed creditably during the last financial year.

making them the cornerstone of modern infrastructure. With a strong commitment to excellence, we are playing a significant role in supporting government initiatives like Jal Jeevan Mission and AMRUT (Atal Mission for Rejuvenation and Urban Transformation). By aligning our efforts with these vital programs, we are contributing substantially to improving water accessibility and quality across regions. Our focus on DI pipe innovation and production underscores our commitment to advancing these critical water projects and enhancing the sustainability of water resources. The company accounted for around 10% of the DI pipes market of India and aims to reach 18-20% market share, capacity expansion.

We are confident that this distinctive positioning at Jai Balaji will generate superior brand upsides. By being recognised as a counter-cyclical speciality steel products following company, we will build a stakeholder community comprising the best talent, vendors, investors, and customers. This distinctive positioning will

seeking to not just meet customer needs but also in building the community by implementing the best business and production practices. We are gearing to extend our market presence with the aim to enter the B2C segment with this product.

Taking the business ahead

At Jai Balaji, we recognise the urgency of scaling our business in line with the growing infrastructure programs in the country and the widening appetite for speciality steel products. While there will always be an ongoing need for generic steel products in nation-building, we are confident that there will be disproportionate demand growth for speciality steel products.

The expansion of sectors like automotive, aerospace, construction, energy, and manufacturing drives the demand for speciality steel. Technological innovations will lead to new applications for speciality steel products; advanced manufacturing

processes and materials science will catalyse the demand for higher-strength, lighter-weight, and corrosion-resistant steel grades. There will be an increasing demand for speciality steel in infrastructure projects like bridges, highways, and railways that require materials capable of withstanding extreme performance conditions. The automotive sector is shifting toward lighter steel to enhance fuel efficiency and reduce emissions. Furthermore, the focus on renewable energy and energy efficiency has spurred demand for speciality steel

We will continue to focus on product and process development with the goal of developing new niche products that advance our speciality steel brand in larger markets providing superior realisations.

products in the manufacture of wind turbines and solar power systems.

The aerospace and defence industries seek speciality steels for components that require superior strength and heat resistance. A growing demand for consumer electronics and technological gadgets will drive the need for more speciality steel in machinery, casings, and components that demand precision and durability. Strengthening regulatory requirements for safety, durability, and environmental performance will likely add to speciality steel demand. There is an emerging need for specialised alloys and grades that address strict performance criteria, along with a widening focus on low-carbon and recyclable materials, leading to the development of speciality steel products that meet these standards.

Preparedness

This optimism is being derived from the direction spelt out in the Union Budgets starting in the last three Union Budgets, increased the capital outlay for infrastructure from ₹7.50 Lakh Crore in

Union Budget 2022-23 to ₹11.11 Lakh Crore in Union Budget 2024-25. This 21.71% compounded annual growth has been higher than the national economic growth. Even as it took India 74 years to reach an infrastructure outlay of ₹5.54 Lakh Crore until 2021-22: it took the country just three years to add another ₹5.57 Lakh Crore. This indicates that India is reaching an inflection point in infrastructure spending, translating into widening downstream opportunities.

At Jai Balaji, we have deepened our preparedness for this evolving environment.

De-risked personality

At Jai Balaji, we believe that the most sustainable companies are those that are largely de-risked in a world of increasing uncertainties and Black Swan events. This focus has been prioritised at our company and reflected in the following initiatives:

Investment in advanced technologies:

We invested in advanced technologies aimed at maximising the efficient conversion of resources into end products. This goes beyond achieving a superior input-output ratio; this will generate emissions and effluents that are well below the norms specified by regulatory authorities. We intend to reduce power consumption from finite fossil fuels by integrating renewable alternatives, moderating our carbon footprint to among the lowest for speciality steel companies of our scope and scale.

Debt-free transition: We are striving to become a net worth-driven company. Over the next few years, we expect to repay all existing debt and become a net cash company with ample resources for reinvestment.

Modular capex programmes: We will engage in modular capital expenditure programs, marked by staggered investments in smaller installments. The progressive commissioning of capacities will generate a surplus that will be immediately reinvested, moderating overall cost of doing business.

Cutting-edge technologies: Our focus will include investing in cutting-edge technologies that ensure the best quality of speciality steel, the most efficient resource conversion, the lowest manufacturing cost, and the smallest carbon footprint.

Product and process development:

We will continue to focus on product and process development with the goal of developing new niche products that advance our speciality steel brand in larger markets providing superior realisations.

Acquisition strategy: The company will remain open to acquisitions that can transform into enhanced value, accelerating our growth journey.

Outlook

We believe that balancing these priorities will deepen our commitment to a volume-and-value proposition that protects sustainability across market cycles and enhances value for all associated with our company.

How we have been enhancing value in an integrated way

How Jai Balaji is enhancing value for all its stakeholders

Overview

The Integrated Report enhances an understanding across diverse stakeholders (employees, customers, suppliers, business partners, local communities, legislators,

regulators and policy makers), underlining the need for an organisation to enhance value in a sustainable manner. The report draws on diverse strands (financial, management commentary, governance, remuneration and sustainability reporting)

in explaining an organisation's ability to create, enhance and sustain value. Management commentary, governance, remuneration and sustainability reporting) in explaining an organisation's ability to create, enhance and sustain value.

Our sustainability framework

Strategy

- Deepen a speciality steels orientation insulated from commodity price movements
- Stay under-leveraged, enhancing viability across market cycles
- Focus on niche products insulated from imports but with an attractive export potential

Procurement economies

- Secure resources through long-term supply chain partnerships
- Achieve cost-effective procurement through proximate sourcing
- Procure raw materials from within trough captive manufacture

Portfolio

- Focus on niche and value-added products
- Focus on products with a multi-decade demand potential
- Manufacture products resilient to price fluctuations and rampant competition

Manufacturing excellence

- Invest in technology to enhance operating efficiencies
- Optimise asset utilisation across all operations
- Manufacture proximate to resources and markets – lower logistics costs

Overview

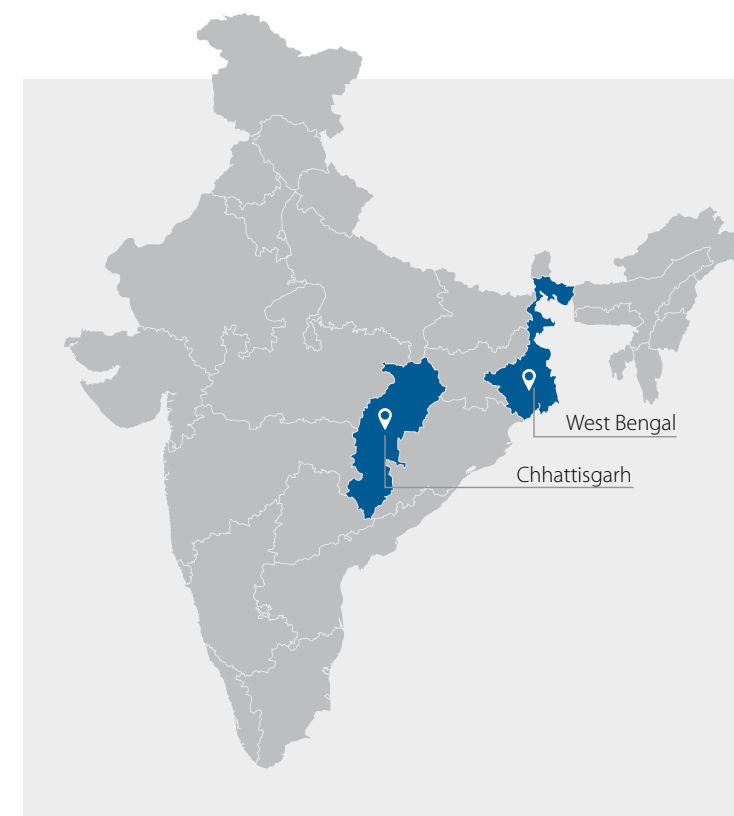

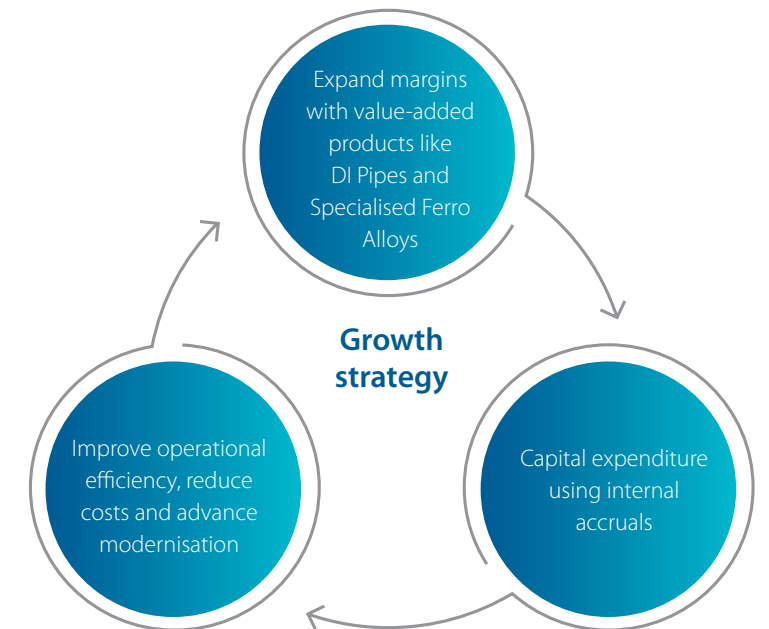

Jai Balaji is ranked among the largest manufacturers of value-added products (DI pipes and specialised ferro alloys) in the private sector in Eastern India. Jai Balaji has deepened its integration (backward and forward) across the value chain. The company has enhanced its design process engineering hardware and software, transitioning from mechanical to automated systems, empowering product innovation, multiple applications, portfolio expansion and product customisation. The Company has consistently adopted innovative approaches to create a diverse range of forward-looking products. The

company's recent product developments aim to achieve and maintain a prominent position in key downstream sectors such as automotive, construction, oil and gas. Jai Balaji's commitment to technological advancement extends to environmental stewardship, with a strong emphasis on transitioning to low-carbon practices, reducing reliance on freshwater resources, optimising waste utilisation, promoting circular economy models and innovating economically viable solutions for utilising lower-grade raw materials. The Company's development efforts focus on creating sustainable products and processes. Jai Balaji achieved significant advancements in

steel products manufacture over the past year. Jai Balaji has incorporated modern technologies to enhance product quality, exceeding customer expectations. The company enhanced downstream capacity; it expanded upstream capacities with corresponding technology interventions and upgrades. These technology interventions resulted in superior material yield, lower emissions or discharges, remote machine-driven interventions and superior product quality.

How Jai Balaji is deepening its EHS commitment

Overview

In a rapidly changing global landscape, companies need to recognise their role as responsible corporate citizens and prioritise the well-being of all stakeholders. Jai Balaji, is committed to safeguarding the health and safety of employees, given the exposure to hazardous chemicals and machinery in its business. This dedication is vital not only for meeting EHS regulations

but also for building brand loyalty, protecting its reputation and maintaining ethical practices. By focusing on EHS standards, the Company aims to proactively address potential risks such as accidents, fire hazards and environmental pollution. Through these comprehensive efforts, the Company seeks to operate sustainably, reducing its environmental impact while ensuring the safety and welfare of its workforce.

#1 Environment

At Jai Balaji, the company recognises the importance of addressing Environmental, Health and Safety (EHS) considerations in its operations. The iron and steel industry possesses a significant environmental footprint, being carbon-, water- and energy-intensive. If not managed properly, these operations can contribute to environmental pollution.

Key processes in the industry — mining ores, preparing raw materials, agglomerating fines, feeding the furnace, manufacturing coke, converting iron to steel, shaping steel products and granulating slag for use in other industries — impact air, water, land/soil and noise levels. These activities generate large amounts of emissions, including dust (particulate matter) and gaseous pollutants like SO₂ and NO_x, making it crucial to mitigate air pollution.

In the light of these challenges, Jai Balaji integrated EHS principles into its practices, ensuring that environmental impact was minimised while maintaining high standards of health and safety.

At Jai Balaji, the company believes that responsible environmental management can strengthen the business in several ways.

First, it can reduce costs by minimising waste generation and optimising the use of resources such as water and energy.

Second, effective environmental management can enhance corporate reputation and improve engagements with stakeholders, including customers, investors and regulatory agencies.

Third, it ensures long-term sustainability by mitigating negative environmental impacts, supporting enduring business continuity.

Our environment management approach

At Jai Balaji, the company's environmental management strategy is built around the 5R's approach (reduce, restore, recycle, renewable and replace), as demonstrated by the following initiatives:

Resource conservation: Consumption of coal, iron ore and water has been reduced through optimised processes and improved energy efficiency.

Pollution control: Emissions and pollutants are minimised through proactive investments in pollution control technologies such as scrubbers, filters and dust collectors.

Waste management: Waste products are collected, transported and disposed of by recycling and reusing materials, alongside proper hazardous waste disposal practices.

Water conservation: Water use and wastewater discharge are reduced through water-saving technologies like air-cooled system, closed-loop cooling systems, water reuse programmes and optimised processes to minimise wastewater generation.

Energy conservation: Energy use is minimised by utilising alternative energy sources and implementing energy-saving technologies.

#2 Our safety commitment

At Jai Balaji safety management is a top priority due to the hazardous processes, products and heat involved, posing risks to workers. Identifying and mitigating these risks is crucial for business continuity.

Physical risk areas

Falls: Working at heights, uneven ground and obstructed walkways can lead to slips, trips and falls. Jai Balaji minimises these risks with regular

safety training and personal protective equipment.

Heavy machinery: Large equipment poses safety hazards. Jai Balaji enforces strict safety protocols, regular maintenance, safety inspections and use of personal protective equipment.

Safety measures

Jai Balaji has a robust system for hazard identification, evaluation and control.

Equipment is regularly inspected and maintained. Hands-on training ensures personnel understand and apply safety procedures. An open reporting culture is encouraged, allowing personnel to report hazards or incidents without fear. Workplace stress management measures provide necessary resources and support. Leadership sets an example by adhering to safety procedures and reporting hazards or incidents.

At Jai Balaji, our governance platform is characterised by a clarity in our business conduct, prioritizing ethical practices and long-term business sustainability.

- Board of Directors:** We believe our strategic direction is the direct outcome of the composition of our Board. We prioritise selecting seasoned professionals and industrialists to serve on our Board. Their valuable contributions enrich our values, bring diverse yet extensive experience and improve our strategic capabilities.
- Trust:** Trust is foundational at Jai Balaji—the reason why customers choose us, employees engage with us, vendors partner with us, investors fund us and communities support us. We enhance this trust through various initiatives outlined in this document.
- Long-term focus:** We prioritise long-term viability, guiding our investments in assets, technologies, brands, personnel, locations, products and trade partners.
- Core competence:** We believe core competence safeguards against cyclical downturns. We leverage our expertise to manufacture a range of iron products, exposing us to emerging opportunities.
- Controlled growth:** We believe in sustainable and controlled growth rather than chasing temporary spurts in profitability. We strategically allocate our net worth into incremental investments without spreading our balance sheet, maintaining a net cash position. Consistent revenue growth year after year, except during the pandemic, reflects this approach.
- Balance:** We strive to balance caution and aggression, adopting strategic aggression and tactical conservatism. Our focus is on capital investments offering attractive short-term payback, maximising cash flows and reinvestments. This balance is evident in our low gearing and ability to fund expansions through net worth.
- Data-driven:** We are a technology-driven organisation leveraging analytics to generate data-based insights, catalysing informed decision-making. Our management uses this valuable data to effectively collaborate with executives and distribution partners.
- Broadbasing:** We have expanded our manufacturing infrastructure, diversified our product portfolio, broadened our geographic footprint and increased our presence across various categories.
- Manufacturing capacity:** We have made significant investments to establish one of the largest manufacturing capacities in India.

Risk assessment Our risk assessment involves identifying potential hazards and taking reasonable steps to prevent them. #3 Our health commitment

Some activities within Jai Balaji can compromise employee health, including exposure to heat, noise, dust, hazardous chemicals, machines and psychological stress. To protect employees, Jai Balaji has implemented several measures:

Safety and health measures

- Heat and fire control:** Use of sprinklers and water tankers.
- Dust control:** Use of bag filters to manage dust pollution and particulate matter.
- Noise control:** Provision of earmuffs and earplugs in high noise areas.

Health measures for blue and white-collar employees

Occupational health centre: Fully equipped and operational 24/7, staffed with trained medical personnel and a doctor.

Hazard identification: Continuous identification and reporting of workplace hazards.

Safety programmes: Implementation of workplace safety programmes and providing proper safety training.

Protective equipment: Ensuring the use of protective safety equipment.

Emergency preparedness: Availability of first-aid boxes in every department and two ambulances for emergencies.

Health coverage: Employees covered under a group Mediclaim insurance policy/ESI Scheme.

Ergonomics: Encouragement of correct posture and regular breaks.

Stress management: Measures to reduce workplace stress.

By implementing these measures, Jai Balaji ensures a safe and healthy working environment for all employees.

Health protection measures

Health checks: The company organises free health check camps for employees. Qualified doctors offer advice and consultation.

Training sessions: External trainers train employees in healthy living; the sessions are held periodically.

Jai Balaji established long-term goals to reduce healthcare costs per employee, focusing on preventive care and better fitness to avoid unnecessary emergency room visits for common ailments. To evaluate the health initiatives and identify areas for improvement, the company analyses key health indicators such as low absenteeism, high productivity, increased employee retention, reduced personal loans or salary advances for medical reasons and a strong emphasis on preventive care.

JBG Trail Run to 'JBG Kolkata World 10K'

With the aim of promoting and creating awareness about physical fitness and it's benefits, for public at large, the first-ever urban trail run - JBG Kolkata Trail Run - was flagged off around 8 years ago in 2016, which has since become an annual tradition of health awareness as well as recreation. After years of 'JBG Kolkata Trail Run,' we have now transited into 'JBG Kolkata World 10K,' an event that has evolved to attract athletes of all stages, from seasoned runners to eager newcomers, from all corners of the world. The metamorphosis into JBG Kolkata World 10K reflects our commitment to promoting a healthy and active lifestyle while embracing athleticism.

20. Securities and Exchange Board of India (SEBI) has mandated that for registration of transfer of securities, the transferee(s) as well as transferor(s) shall furnish a copy of their PAN Card to the Company for registration of transfer of securities. Also, as per SEBI notification number SEBI/LAD-NRO/GN/2018/24 dated June 08, 2018 for amendment to SEBI (Listing Obligations And Disclosure Requirements) Regulations, 2015, requests for effecting transfer of securities of listed companies shall not be processed unless the securities are held in the demat form with a depository, except in case of transmission or transposition of securities.

21. Awareness about Online Resolution of Disputes in the Indian Securities Market through Online Dispute Resolution ('ODR') Portal:

- i. This is to inform the members that Securities and Exchange Board of India ("SEBI") vide circular no. SEBI/HO/OIAE/OIAE_IAD1/P/CIR/2023/131 dated July 31, 2023 issued guidelines for online resolution of disputes in the Indian securities market through establishment of a common ODR Portal which harnesses online conciliation and online arbitration for resolution of disputes arising between investors/clients and listed companies (including their RTA's) or specified intermediaries/regulated entities in the securities market.
- ii. SEBI vide circular no. SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/135 dated August 4, 2023 has further clarified that the investor shall first take up his/her/their grievance with the Market Participant (Listed Companies, specified intermediaries, regulated entities) by lodging a complaint directly with the concerned Market Participant. If the grievance is not redressed satisfactorily, the investor may escalate the same through the SCORES Portal <https://scores.gov.in/scores/WelCome.html> in accordance with the process laid out. After exhausting the above options for resolution of the grievance, if the investor is still not

satisfied with the outcome, he/she/they can initiate dispute resolution through the ODR Portal.

The SMART ODR Portal can be accessed at: <https://smartodr.in/login>

22. Members are requested to note that dividends not encashed or claimed within 7 (Seven) years from the date of transfer to the Company's Unpaid Dividend Account, has been transferred to the fund established by the Central Government, namely the Investor Education and Protection Fund (IEPF). Further, once the unclaimed dividend is transferred to IEPF, no further claim shall be entertained by the Company in respect thereof. Details of dividend remained unclaimed by the Members for the past year which have been transferred to IEPF are readily available for view by the Members on the Company's Website.

Pursuant to the provisions of Section 124(6) of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, including the statutory modification(s) or re-enactment(s) thereof, for the time being in force ("IEPF Rules, 2016"), equity shares of the Company in respect of which dividend amounts have not been claimed/encashed for the last seven consecutive years or more are required to be transferred by the Company to the Demat Account of the Investor Education and Protection Fund Authority ("IEPFA"). Accordingly, equity shares which were due to be so transferred, have been transferred by the Company to the Demat Account of IEPFA. The voting rights on such shares shall remain frozen till the rightful owner claims the shares. Shares which are transferred to the Demat Account of IEPFA can be claimed back by the shareholder from IEPFA by following the procedure prescribed under the aforesaid rules. Details of shares transferred to the Demat Account of IEPFA have been uploaded by the Company on its website at www.jaibalajigroup.com.

23. Section 72 of Companies Act, 2013 extends the nomination facility to individual shareholders of the Company. Therefore, the shareholders holding share certificate in physical form and willing to avail this facility may make nomination in Form SH-13 as per Rule 19(1) of the Companies (Share Capital and Debentures) Rules, 2014 which may be sent on request. In case of demat holding, the shareholders should approach their respective Depository Participant for their nomination. Blank forms will be made available on request. The same can also be downloaded from the Company's website www.jaibalajigroup.com under the head 'Investor Relations'.

24. Subject to casting of requisite number of votes in favour of the resolution(s), the resolution(s) shall be deemed to be passed on the date of Annual General Meeting of the Company.

25. a) Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended), Secretarial

THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Business Responsibility & Sustainability Report

Forward

As the global landscape evolves, the steel industry remains a cornerstone of economic progress, driving infrastructural development and technological innovation. In this context, the Business Responsibility and Sustainability Report (BRSR) of Jai Balaji Industries Limited emerges not just as a mere document but as a testament to the company's commitment to responsible practices and sustainable growth.

In today's world, where the pursuit of profit often overshadows environmental and societal concerns, Jai Balaji Industries Limited stands as a beacon of responsible corporate citizenship. Through this report, the company opens its doors, inviting stakeholders to witness its journey towards harmonizing business objectives with societal well-being and environmental stewardship.

Integrated steel plants like Jai Balaji Industries Limited play a pivotal role in shaping the industrial landscape, generating employment and fostering economic growth. However, the significance of their contribution extends beyond mere numbers. It lies in their ability to embrace sustainable practices that mitigate environmental impact, uplift communities and uphold ethical standards across their operations.

Within these pages, readers will find not just a reflection of Jai Balaji Industries Limited's achievements but also its aspirations and commitments towards a better tomorrow. From sustainable resource management to fostering inclusive growth, each section of this report encapsulates the company's unwavering dedication to sustainable development.

Moreover, this report serves as a testament to the transparency and accountability that underpin Jai Balaji Industries Limited's operations. By openly sharing its successes, challenges, and future strategies, the company not only builds trust but also invites collaboration towards shared goals of sustainability and progress.

As we navigate the complexities of the modern world, the role of Organization in driving positive change has never been more critical. In this regard, Jai Balaji Industries Limited sets a commendable example, demonstrating that profitability and responsibility are not mutually exclusive but rather intertwined facets of long-term success.

I commend Jai Balaji Industries Limited for its commitment to transparency, sustainability, and responsible business practices. May this report inspire others in the industry to follow suit, forging a path towards a more sustainable and equitable future for generations to come.

Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Energy Efficiency - Rising Energy Costs	R	With increasing energy costs, there is a risk of higher production costs, impacting profitability.	Implementing energy-efficient technologies, optimizing processes, and exploring renewable energy sources can mitigate this risk.	Negative - Increased production costs
2	Raw Material Availability - Fluctuations in Supply	R	Uncertainties in raw material supply can disrupt production schedules and increase procurement costs.	Diversifying suppliers, maintaining strategic inventories, and exploring alternative sourcing options can mitigate supply chain risks.	Negative - Increased procurement costs, production delays
3	Environmental Regulations - Compliance Requirements	R	Non-compliance with environmental regulations can lead to fines, legal issues, and reputational damage.	Investing in environmental management systems, monitoring compliance closely and adopting sustainable practices can mitigate regulatory risks.	Negative - Fines, legal expenses, reputational damage
4	Market Demand - Cyclical Market Trends	R/O	Fluctuations in demand due to economic cycles can impact sales volumes and revenue. However, they also present opportunities for growth during upturns.	Diversifying product offerings, expanding into new markets and implementing flexible production strategies can mitigate risks and capitalize on opportunities.	Negative/Positive - Decreased/Increased revenue
5	Technology Disruption - Obsolescence Risk	R/O	Rapid technological advancements pose both risks of existing technologies becoming obsolete and opportunities for innovation and efficiency gains.	Investing in research and development, embracing digitalization, and fostering a culture of innovation can mitigate obsolescence risks and unlock new opportunities.	Negative/Positive - Increased/Decreased costs, revenue
6	Workforce Management - Skilled Labor Shortage	R	Shortages of skilled labor can hinder productivity, quality, and innovation.	Investing in training and development programs, promoting employee retention, and leveraging technology to automate tasks can mitigate workforce risks.	Negative - Decreased productivity, quality issues
7	Safety Hazards - Workplace Accidents	R	Workplace accidents can result in injuries, fatalities, and legal liabilities, impacting productivity and reputation.	Implementing stringent safety protocols, providing regular training, and fostering a safety-conscious culture can mitigate risks and improve workplace safety.	Negative - Legal expenses, reputational damage
8	Supply Chain Disruptions - Natural Disasters, Geopolitical Events	R	Disruptions in the supply chain due to natural disasters, geopolitical tensions, or global crises can halt production and affect customer satisfaction.	Developing contingency plans, diversifying suppliers geographically and implementing risk-sharing agreements can mitigate supply chain risks.	Negative - Production delays, decreased customer satisfaction
9	Economic Instability - Currency Fluctuations, Trade Policies	R/O	Economic instability, including currency fluctuations and changes in trade policies, can impact costs, revenues and market access. However, they also present opportunities for cost optimization and market expansion.	Hedging against currency risks, monitoring regulatory changes closely and diversifying revenue streams can mitigate risks and capitalize on opportunities.	Negative/Positive - Increased/Decreased costs, revenue

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)

"As the director responsible for overseeing our business responsibility initiatives, I am proud to highlight our ongoing commitment to Environmental, Social, and Governance (ESG) principles. In today's dynamic business landscape, we recognize the importance of addressing ESG-related challenges to ensure sustainable growth and long-term value creation for all stakeholders.

Throughout the reporting period, we have encountered various ESG-related challenges, ranging from the need to mitigate our environmental footprint to fostering inclusive workplaces and engaging with our communities. These challenges have presented opportunities for us to innovate, collaborate, and drive positive change across our operations.

In response to these challenges, we have set ambitious targets aligned with our ESG priorities. These targets include reducing our carbon emissions, enhancing workplace diversity and inclusion, and strengthening our community engagement efforts. By setting clear and measurable goals, we hold ourselves accountable for driving meaningful progress in these areas.

I am pleased to report that we have made significant achievements towards our ESG targets during the reporting period. Through investments in renewable energy, energy efficiency initiatives, and sustainable supply chain practices, we have made notable strides in reducing our environmental impact. Additionally, our focus on diversity and inclusion has led to improvements in employee engagement, retention, and overall workplace satisfaction.

While we celebrate these achievements, we recognize that our journey towards ESG excellence is ongoing. We remain committed to continuously improving our ESG performance, addressing emerging challenges, and seizing opportunities to create shared value for our stakeholders.

In conclusion, I would like to express my gratitude to our dedicated team members, partners, and stakeholders who have supported our ESG initiatives. Together, we will continue to drive positive change and contribute to a more sustainable and equitable future."

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

	Yes/No (If Yes, then give details of the mechanism in brief)
Permanent Workers	Yes, there is a mechanism available to receive and redress grievances for employees and workers at JBIL. Employees and workers are encouraged to share their concerns with their business heads, HR, or members of the senior management. JBIL follows an open door policy, wherein any employee, irrespective of hierarchy, has access to the senior management. The HR department at the head office and the plants attend to grievances of all employees and workers through regular meeting, notice board and emails etc. JBIL has a policy on the prevention, prohibition, and redressal of sexual harassment of women at the workplace and has established an Internal Complaints Committee (ICC) in compliance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. This policy is available on JBIL's website. JBIL regularly sensitises its employees on the prevention of sexual harassment through workshops, group meetings, online training modules, and awareness programmes.

10. Health and safety management system:

- a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system? Yes, an occupational health and safety management system has been implemented in all our plants & offices. The system is certified under ISO 45001:2018 and is also audited by a third party, BSI (British Standards Institution).

- b. **What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?** The entity uses the Hazard Identification and Risk Assessment (HIRA) process to identify work-related hazards and assess risks on both a routine and non-routine basis.
- c. **Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N).** Yes, the entity has processes for workers to report work-related hazards and to remove themselves from such risks.
- d. **Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)** Yes, employees/workers of the entity have access to non-occupational medical and healthcare services.

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

The entity prioritizes the safety and well-being of its employees & workers through a comprehensive approach to workplace health and safety. Regular Hazard Identification and Risk Assessment (HIRA) processes are conducted to proactively identify and mitigate potential hazards. Employees receive extensive training covering hazard recognition, safe work practices, and emergency procedures. The Safety Committee meets regularly to review safety performance, incident reports, and implement corrective actions swiftly. An Incident Reporting System enables employees to report incidents promptly, ensuring thorough investigation and preventive measures. Mock drills are conducted to simulate emergency scenarios, enhancing preparedness and response capabilities. The Occupational Health Center (OHC) provides regular health check-ups and monitoring, supported by first aid facilities and comprehensive Personal Protective Equipment (PPE) provisions. Clear signage and ongoing Tool Box Talks further reinforce safety protocols and foster a culture of safety among all employees.

Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

Stakeholders play an integral role in our journey and we recognise the need to partner with them and understand their concerns to deliver the targets which we have set for ourselves. Our process of stakeholder engagement involves identifying key internal and external stakeholders followed by analysing the impact of each stakeholder groups on our business and vice versa.

Any individual, group of individuals, or institution that adds value to the business chain of JBIL is identified as a core stakeholder. This includes employees, shareholders and investors, customers, suppliers and key partners, regulators, research analysts, communities and governmental / non-governmental organizations, among others.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Key Stakeholders	Identified as Vulnerable & Marginalised Group (Yes/No)	Channels of Communication	Frequency of Engagement (Annually/Half-yearly/Quarterly/others)	Purpose and Scope of Engagement including Key Topics and Concerns Raised During Such Engagement
Employees & workers	No	Email, Notice Board, Website, Meetings	Regular	Discussing work conditions, professional development, safety concerns, and feedback on policies
Shareholders and Investors	No	Email, Website, Annual General Meetings (AGM), Newspaper, SMS, Press release	Quarterly	Financial performance, strategic direction, and investment opportunities
Customers	No	Email, Website, , Surveys, advertisements, meetings	Regular	Product quality, service satisfaction, feedback, and support
Suppliers and Key Partners	No	Email, Meetings, Website	Regular	Contract performance, compliance, supply chain issues, and partnership opportunities
Regulators	No	Email, Official Reports, Compliance Audits	As required	Compliance with regulations, reporting, and policy updates
Communities	Yes	Community Meetings, Pamphlets, Newspaper, Website, CSR Activities	Regular	Community development, environmental impact, health and safety, CSR initiatives

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes. The HR Head of the company, both at plant and offices oversees the human resources function in the company

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

At JBIL, we have established comprehensive internal mechanisms to redress grievances related to human rights issues, ensuring that all stakeholders have access to fair and effective resolution processes. The Whistleblower Initiative allows employees and stakeholders to report grievances, including human rights violations, anonymously and confidentially. The Human Resources (HR) department plays a central role in addressing issues such as discrimination, harassment, and unfair labor practices, facilitating mediation and implementing corrective actions as necessary. Additionally, our Internal Complaints Committee (ICC), established in compliance with the Sexual Harassment of Women at Workplace Act, 2013, handles complaints of sexual harassment with impartiality and confidentiality. Regular training and awareness programs are conducted to educate employees and stakeholders about human rights and the available reporting mechanisms. These measures underscore JBIL's commitment to upholding ethical practices and ensuring the well-being of all stakeholders.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Yes. The company's manufacturing unit 1 and unit 5 have been identified as designated consumer under the Performance, Achieve and Trade (PAT) Scheme of the Government of India. Both the units could not achieve the targets set under the PAT scheme, but the company is actively taking energy efficiency measures to achieve the specific energy consumption targets set under the PAT scheme.

JBIL operates as a Zero Liquid Discharge (ZLD) plant, ensuring that no wastewater is discharged into the environment. All wastewater generated is treated and recycled within the plant, maintaining a closed-loop system that minimizes water consumption and eliminates any discharge of pollutants. This approach underscores JBIL's commitment to sustainable water management and environmental protection.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Zero Liquid Discharge (ZLD) mechanism at JBIL is currently in place. All wastewater generated within the premises is treated and reused, eliminating the discharge of untreated water into the environment. These involves treatment processes, including filtration, biological treatment, and reverse osmosis, to recycle and reuse water in industrial processes and other applications.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, JBIL has several projects aimed at reducing greenhouse gas emissions. These initiatives include the installation of solar photovoltaic (SPV) power plants to harness solar energy, conducting regular energy audits to identify and implement energy-saving measures, and utilizing biomass in captive power plants (CPP) as an alternative to conventional fuels. Additionally, JBIL undertakes large-scale tree plantation projects for carbon sequestration, implements waste heat recovery systems to capture and reuse heat from industrial processes, and explores hydrogen-based steelmaking to replace carbon-intensive methods. The company is also transitioning to a zero-carbon energy mix by integrating renewable energy sources and innovative technologies. These projects reflect JBIL's commitment to sustainability and its proactive approach to mitigating climate change by reducing greenhouse gas emissions.

**9. Provide details related to waste management by the entity, in the following format:**

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

At JBIL, we have adopted comprehensive waste management practices to ensure responsible handling and disposal of waste generated from our operations. Waste is systematically segregated at the source into categories such as hazardous, non-hazardous, recyclable, and organic waste, with designated collection points and bins placed throughout our facilities to facilitate proper segregation. Non-hazardous and recyclable waste is processed and reused wherever possible to minimize environmental impact. Hazardous waste is managed through PCB-approved authorized vendors, ensuring safe and compliant disposal. Additionally, JBIL has implemented a strategy to reduce the usage of hazardous and toxic chemicals in our products and processes. This includes substituting harmful chemicals with safer alternatives, optimizing process efficiencies to minimize chemical usage, and continually monitoring and reviewing chemical management practices. These efforts are part of JBIL's commitment to sustainability and environmental stewardship.

11. Report of the Directors on Corporate Governance

Corporate governance reporting is an ethically driven business process that reflects how corporations monitor the corporation's actions, policies, practices and decisions, as well as the effect of their actions on their agents and stakeholders. Good corporate governance forms the foundation for successful and integral organizations, institutions, and markets. It is based on the principles of integrity, fairness, equity, transparency, accountability, and commitment to values. These practices stem from an organization's culture and mindset, and their effectiveness depends on regular review, preferably by independent parties. The Company has implemented various codes and policies to ensure best corporate governance practices at all levels. By upholding these practices, the Company aims to create an efficient and sustainable environment that benefits its stakeholders in the long run. The Company is committed in seeking opportunities for improvements on an ongoing basis. These reports include information about corporate governance procedures, regulatory compliance, company and board performance, board composition and how effective the company is at following good governance practices.

In accordance with Regulation 34(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015 ("The Listing Regulations") read with disclosure requirements relating to the Corporate Governance Report contained in Schedule V of the SEBI (Listing Obligations and Disclosure Requirements), 2015, the details of compliance by the Company with the norms on Corporate Governance are as under:

1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

Jai Balaji Industries Limited (the Company) believes in and adheres to good corporate governance practices, implements policies and guidelines, communicates and trains all its stakeholders to develop a culture of compliance at every level of the organization. The Company believes that the governance process must aim at managing the affairs without undue restraints for efficient conduct of its business, so as to meet the aspirations of shareholders, employees and society at large. It envisages the attainment of the highest levels of transparency, accountability and equity, in all facets of its operation, and all its interactions with the stakeholders including shareholders, employees, customers, government and suppliers. The Company believes that establishing good corporate governance practices in each and every function of the organization leads to increased operational efficiencies

and sustained long term value creation for all stakeholders. The Company's philosophy is aimed at assisting the management of the Company in the efficient conduct of the business and in meeting its obligations to all its stakeholders.

The Board is responsible for and committed to sound principles of Corporate Governance in the Company. The Board plays a crucial role in overseeing how the management serves the short and long-term interests of shareholders and other stakeholders. This belief is reflected in our governance practices, under which we strive to maintain an effective, informed and independent Board. We keep our governance practices under continuous review and benchmark ourselves to best practices across the globe.

The Company's governance framework is based on the following principles:

- Appropriate composition and size of the Board, with each member bringing in expertise in their respective domains;
- Availability of information to the members of the Board and Board Committees to enable them to discharge their fiduciary duties;
- Timely disclosure of material operational and financial information to the stakeholders;
- Systems and processes in place for internal control;

○ Separate Meeting of Independent Director

During the year 2023-24, as per requirement of Schedule IV of the Companies Act, 2013 and Regulation 25(3) of the Listing Regulations, a separate meeting of Independent Directors was held on 11th March, 2024 without the presence of non-independent directors and members of the management. The meeting was conducted by Independent Directors to:

- Evaluate the performance of Non-Independent Directors and the Board of Directors as a whole.
- Evaluate the performance of the Chairman of the Company, taking into account the views of the Executive and Non-Executive Directors.
- Evaluate the quality, content and timeliness of flow of information between the Management and the Board that is necessary for the Board to effectively and reasonably perform its duties.

○ Performance Evaluation of Board

Pursuant to the provisions of the Companies Act, 2013 and Regulation 17(10), 19(4) and Part D of Schedule II of the Listing Regulations, a Board Evaluation Policy has been framed and approved by the Nomination and Remuneration Committee (NRC) and by the Board.

The Board of Directors has carried out an annual evaluation of its own performance, board committees, and individual directors pursuant to the provisions of the Companies Act, 2013 and the Listing Regulations.

The performance of the board was evaluated by the board after seeking inputs from all the directors on the basis of criteria such as the board composition and structure, effectiveness of board processes, information and functioning, etc.

The performance of the committees was evaluated by the board after seeking inputs from the committee members on the basis of criteria such as the composition of committees, effectiveness of committee meetings, etc.

The above criteria are broadly based on the Guidance Note on Board Evaluation issued by the Securities and Exchange Board of India on January 5, 2017.

The performance of non-independent directors, the board as a whole and the Chairman of the Company were evaluated by the Independent Directors, taking into account the views of executive directors and non-executive directors.

The Board and the Nomination and Remuneration Committee reviewed the performance of individual directors on the basis of criteria such as the contribution of the individual director to the board and committee meetings like preparedness on the issues to be discussed, meaningful and constructive contribution and inputs in meetings, etc.

The performance evaluation of independent directors was done by the board of directors excluding the ones whose evaluation was to be carried out including the fulfilment of the criteria of independence as specified in the Listing Regulations and independence of independent directors from the management.

The Directors expressed their satisfaction with the evaluation process.

Share transfer system

In accordance with Regulation 40 of the SEBI Listing Regulations, as amended, the Company had stopped accepting any fresh transfer requests for securities held in physical form. Members holding shares of the Company in physical form are requested to kindly get their shares converted into demat/electronic form to get inherent benefits of dematerialisation.

The SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022 has mandated the listed companies to issue securities in demat form only, while processing service requests viz. Issue of duplicate securities certificate; claim from Unclaimed Suspense Account; Renewal/Exchange of securities certificate; Endorsement; Sub-division/Splitting of securities certificate; Consolidation of securities certificates/folios; Transmission and Transposition. Accordingly, Shareholders are requested to make service requests by submitting a duly filled and signed Form ISR-4, the format of which is available on the Company's website under the weblink- <https://jaibalajigroup.com/nomination-cancellation-or-variation-of-nomination-form/>. The RTA will after processing such requests issue a Letter of Confirmation to the concerned shareholder for submission to DP within 120 days from the date of issue of Letter of Confirmation for dematerialisation of shares. In case shareholder fails to submit the demat request within the aforesaid period, the RTA shall credit the shares to Suspense Escrow Demat Account (SEDA) of the Company opened for this purpose. However during the year under review no shares were transferred to the SEDA account.

Nomination facilities

Section 72 of the Act read with Rule 19(1) of Companies (Share Capital and Debentures) Rules, 2014, provides for the facility of

nomination to security holders of the Company. This facility is mainly useful in the case of those holders who hold their shares in their own name. Investors are advised to avail of this facility to avoid any complication in the process of transmission, in case of death of the holders. Where more than one person holds the securities of the Company jointly, the joint holders may together nominate, in the prescribed manner, any person to whom all the rights in the securities shall vest in the event of death of all the joint holders. In case the shares are held in physical mode, the nomination form may be obtained from the Registrar & Share Transfer Agent. In case of shares held in Demat form, such nomination is to be conveyed to the DP as per the formats prescribed by them.

In view of the above, members holding shares in physical form are requested to send self-attested copy of valid PAN card (linked with Aadhar) or latest Demat account CML copy duly attested by DP, KYC details duly mentioned in ISR - 1 form (mobile number and email id are mandatory), ISR-2 form and Nominee Form (SH-13) immediately to the Company's Registrars & Transfer Agents i.e. M/s. Maheshwari Datamatics Private Limited ("the RTA") by post or courier. The required forms (ISR-1, ISR-2, SH-13 etc.) can be downloaded from <https://www.mdpl.in/> or send a request mail to mdpldc@yahoo.com for soft copy forms.

The summary of investor complaints, dematerialisation / rematerialisation/corporate action and transfer/transmission of shares are placed before the Stakeholders' Relationship Committee of the Company periodically.

The Company obtains from a Company Secretary in practice, a yearly certificate under Regulation 40(9) of the Listing Regulations and files the same with the stock exchanges. Also, pursuant to Regulation 76 of SEBI (Depositories and Participants) Regulations, 2018, quarterly certificate is issued by a Company Secretary in practice regarding dematerialisation of the shares of the Company.

Management Discussion and Analysis

Global Overview

The journey over the past few years has been eventful, starting with supply-chain disruptions in the aftermath of the pandemic, the Russia-Ukraine war that triggered a global energy and food crisis, and a considerable surge in inflation, followed by a globally synchronized monetary policy tightening. The global GDP is estimated to have grown at 3.2% in CY 2023, lower than 3.5% in CY 2022, led by fears of a hard recession. Yet, despite many gloomy predictions, the world avoided a recession, the banking system proved largely resilient, and major emerging market economies did not suffer sudden stops. Economic growth has been stronger than expected in the second half of 2023 in the United States, and several major emerging market and developing economies. However, the rising momentum was not felt everywhere, with notably subdued growth in the euro area, reflecting weak consumer sentiment, the lingering effects of high energy prices, and weakness in interest-rate-sensitive sectors.

The global steel market size reached around 1799.6 MMT in 2023. The market is projected to grow at a CAGR of 1.63% between 2024 and 2032 to reach a volume of nearly 2086.8 MMT by 2032.

The steel industry continues to be a cornerstone of global manufacturing and construction. This sector plays a pivotal role in producing essential materials for automobiles, appliances, and infrastructure. Notwithstanding the challenges posed by economic fluctuations, technological innovations, and environmental concerns, the steel industry stands poised for a resurgence.

In recent years, the industry has faced challenges due to global economic fluctuations, technological changes, and environmental concerns.

However, in 2024, the steel industry is expected to see positive trends as demand for steel products continues to rise. This increase in demand is driven by the growth of infrastructure projects, the automotive sector, and manufacturing activities worldwide.

As per the World Steel Association, global steel demand is expected to rise by 1.7% to 1.793 billion metric tons in 2024 and to increase further in 2025. The association expects India to be the main driver of demand growth as Chinese demand continues to decline. After two years of decline and severe post-pandemic market volatility, there are signs of global steel demand "settling in a growth trajectory in 2024 and 2025".

Indian Overview

Indian economy has continued to grow with resilience. With a GDP growth of 7.8% in Calendar Year 2023, the fifth- largest economy was the fastest growing major economy. The biggest contribution to the GDP growth has come in the form of capital expenditure by the Government. At 3% of GDP, ₹10 lakh crore was allocated towards capital expenditure, a record high. The Government's strengthened thrust on capex will augur well for the economy in mid to long term with the creation of employment opportunities, improved infrastructure, and elevated ease of doing business in the country.

India: Real gross domestic product (GDP) growth rate from 2019 to 2029 (compared to the previous year)

*projected

India has emerged as the strongest driver of steel demand growth since 2021 and projections suggest Indian steel demand will continue to charge ahead with 8 percent growth in its steel demand over 2024 and 2025. It will be driven by continued growth in all steel-using sectors and especially by continued strong growth in infrastructure investments.

Government has taken various steps to boost the sector including the introduction of National Steel Policy 2017 and allowing 100% Foreign Direct Investment (FDI) in the steel sector under the automatic route. According to the data released by the Department for Promotion of Industry and Internal Trade (DPIIT), between April 2000 - December 2023, Indian metallurgical industries attracted FDI inflows of US\$ 17.46 billion.

In the past 10–12 years, India's steel sector has expanded significantly. Production has increased by 75% since 2008, while domestic steel demand has increased by almost 80%. The capacity for producing steel has grown concurrently, and the rise has been largely organic.

In FY23, the production of crude steel stood at 125.32 MT. In FY24 (until January 2024), the production of crude steel stood at 118 MT.

In FY23, the consumption of finished steel stood at 119.2 MT. In FY24 (until January 2024), the consumption of finished steel stood at 114 MT.

The per-capita consumption of steel stood at 86.7 kgs in FY23.

(Source: IBEF.org)

The annual production of steel is anticipated to exceed 300 million tonnes by 2030-31. By 2030-31, crude steel production is projected to reach 255 million tonnes at 85% capacity utilisation achieving 230 million tonnes of finished steel production, assuming a 10% yield loss or a 90% conversion ratio for the conversion of raw steel to finished steel. With net exports of 24 million tonnes, consumption is expected to reach 206 million tonnes by the years 2030–2031. As a result, it is anticipated that per-person steel consumption will grow to 160 kg.

The fiscal year 2023-2024 presented a mix of challenges and opportunities for the steel manufacturing industry. Despite global economic uncertainties and supply chain disruptions, our company remained resilient, focusing on operational efficiency, innovation, and sustainable growth strategies.

Company's Financial Performance

Company has experienced a transformative year marked by substantial growth, driven by strong performance and a significant increase in sales for specialised and value-added products which includes specialised Ferro Alloys and Ductile Iron Pipe.

The Revenue from operations of the Company for the financial year under review is ₹6,41,378.02 lakhs as compared to ₹6,12,507.47 lakhs during the previous financial year.

The Company has made net profit of ₹87,956.46 lakhs during the F.Y. 2023-24 as compared to a profit of ₹5,783.59 lakhs during the F.Y. 2022-23.

The Company has achieved an impressive EBITDA of ₹1121 Crores and a PAT of ₹880 Crores this year.

The company has been contributing to the ambitious projects of the government namely Jal Jeevan Mission and AMRUT by actively providing supplies of DI pipes and its also enhancing its capacities which will help in contributing to the initiatives taken by the govt. for nation building and by providing safe drinking water to all.

The Company is committed to its vision to emerge as an efficient producer of iron and steel products. It is focused on increasing capacity utilisation of all units, reducing cost and improving operational efficiency.

Low cost capacity expansion plans, healthy balance sheet, cost reduction strategies, focus on specialized products and experienced management augurs well for the growth of the Company.

The Steel Industry growth depends on various factors as follows:

Growth drivers

Infrastructure development: The Indian government's continued focus on infrastructure development through initiatives like the National Infrastructure Pipeline (NIP), Smart Cities Mission, and Bharatmala project will drive significant demand for steel in construction of roads, bridges, airports, and urban infrastructure.

Automotive sector expansion: India's automotive sector is expected to grow, driven by increasing domestic demand, export opportunities, and the shift towards electric vehicles (EVs). Steel is a critical material in vehicle manufacturing, including both traditional and electric vehicles. Indian auto industry recorded 12.5% growth in 2023-24 and it is further expected to grow at US\$ 300 billion by 2026.

Opportunities, threats, risks and concern

Opportunities

The last decade was significant for the Indian steel industry, as India piped Japan to become the world's second-largest producer of crude steel. India also witnessed significant capacity consolidation under the Insolvency and Bankruptcy Code (IBC) with the acquisition of steel assets by leading players. Industry consolidation is expected to improve efficiencies and capacity utilisation and enhance domestic pricing power for the players, thus putting India firmly back on the path to potentially reach 300 Million Tonnes (MT) of crude steel capacity by 2030 and 500 MT by 2047. With the scope of growth and penetration in value-added special steel products for greater economies, the next 25 years seem promising for the Indian steel industry.

Urbanization and housing demand: Rapid urbanization and increasing demand for affordable housing will boost the construction sector, driving demand for steel in residential and commercial building projects.

Government policies and investments: Continued policy support and investments in key sectors such as manufacturing, defence, and railways will stimulate demand for steel-intensive products and infrastructure.

Demand for lightweight materials: The shift towards electric vehicles (EVs) in the automotive sector has led to an increased demand for lightweight materials to improve energy efficiency and extend the driving range of electric cars. Advanced high-strength steel (AHSS) and other innovative steel alloys offer a balance

between strength and weight, making them attractive for use in electric vehicle manufacturing.

Renewable energy infrastructure: The push towards renewable energy sources, such as wind and solar power, requires massive quantities of lightweight and cost-effective materials. This will likely fuel demand for steel in East Asian countries. Steel is a fundamental component in the construction of wind turbines, solar panels, and other components.

Threats, risks and concern

Several potential threats may impact the steel industry in the fiscal year 2024-2025. These threats can arise from various sources, including economic factors, geopolitical tensions, regulatory changes, technological disruptions, and environmental challenges. Here are some key threats to consider:

Raw material prices and supply: Fluctuations in the prices of raw materials like iron ore and coking coal can significantly impact production costs for steel manufacturers. Supply chain disruptions or geopolitical tensions affecting these resources can also create uncertainties.

Cyclical demand and monsoon challenges: The cyclical demand for steel in India, influenced by factors like monsoons that slow down construction, creates financial challenges for steel plants. During low-demand periods, steel plants must operate with minimal income, leading to financial strain and, in severe cases, closures.

The lower per capita consumption: The per capita steel consumption in the World is around 233 kg. However, the per capita consumption of steel in India is around 86.7 kg, with low per-capita income and consumption, the incentive to establish large-scale steel plants for economies of scale diminishes.

Environmental concern: The steel industry is among the three biggest producers of carbon dioxide. Consequently, steel players across the globe are increasingly facing a decarbonisation challenge to reduce their carbon footprint from both environmental and economic perspectives.

Market Outlook and Future Strategies

The steel industry has emerged as a major focus area given the dependence of a diverse range of sectors on its output as India works to become a manufacturing powerhouse through policy initiatives like Make in India. With the industry accounting for about 2% of the nation's GDP, India ranks as the world's second-largest producer of steel and is poised to overtake China as the world's second-largest consumer of steel. Both the industry and the nation's export manufacturing capacity have the potential to help India regain its favourable steel trade balance.

The National Steel Policy, 2017 envisage 300 million tonnes of production capacity by 2030-31. The government has a fixed objective of increasing rural consumption of steel from the current 19.6 kg/per capita to 38 kg/per capita by 2030-31.

			
GOVERNMENT INITIATIVES	Steel Research and Technology Mission of India (SRTMI)	Production-Linked Incentive (PLI) Scheme	National Steel Policy 2017

In the Interim Budget for 2024-25, Finance Minister Nirmala Sitharaman allocated ₹2.55 trillion to the Indian Railways, representing a 5.8% increase over the previous year's budget estimate of ₹2.41 trillion. The revised estimates for the 2023-24 financial year were set at ₹2.43 trillion.

Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

The ferroalloys market is poised for significant growth, driven by rising demand in the global steel industry and increased applications across various sectors. Projected to expand from USD 57.23 billion in 2024 to approximately USD 80.47 billion by 2031, the market is benefiting from a surge in steel production, especially in Asia-Pacific. Ferroalloys enhance steel properties such as strength and corrosion resistance, and their use is extending beyond steel to aerospace, defence, and automotive industries, where lighter, more efficient materials are sought.

In 2023, the Indian ductile iron pipes market was valued at approximately USD 3.19 billion and is projected to grow at a CAGR of 12.5% from 2024 to 2032, reaching around USD 9.22 billion by 2032. Ductile iron pipes are essential for public infrastructure, including irrigation, potable water distribution, sewage, and wastewater transport. The surge in smart city projects and urbanization, with 43.2% of India's population expected to live in urban areas by 2035, is driving demand. Increased awareness of safety and hygiene is also accelerating market growth, as these pipes address sanitary and water supply needs effectively.

Looking ahead, we remain cautiously optimistic about the future of the steel manufacturing industry. Key focus areas for our company in the coming years include:

1. **Innovation and Technology Adoption:** Embracing innovation and investing in cutting-edge technologies will remain crucial to maintaining our competitive edge and meeting evolving customer demands.
2. **Sustainability Initiatives:** We are committed to sustainability and will continue to prioritize environmental stewardship, energy efficiency, and carbon footprint reduction across our operations.
3. **Market Diversification:** Exploring new markets and diversifying our product portfolio will be essential for mitigating risks associated with market fluctuations and geopolitical uncertainties.

Product wise performance analysis

Your Company has an integrated steel plant and manufactures different products in Steel sector. Your Company's cumulative product wise actual production details are given hereunder:

The actual production of Sponge Iron was 2,37,157 MT during the year 2023-24 as compared to 2,52,290 MT during the year 2022-23. For Pig Iron, the actual production was 4,28,629 MT and 4,80,856 MT during the year 2023-24 and 2022-23 respectively. The actual production of Steel Bars/Rods was 2,52,709 MT during the year 2023-24 as compared to 2,14,955 MT during the year 2022-23. For Billet/MS Ingot, the actual production was 1,52,390 MT and 1,76,038 MT during the year 2023-24 and 2022-23 respectively. The actual production of Ferro Alloys was 1,15,384 MT during the year 2023-24. In case of Ductile Iron Pipe, the actual production was 2,42,121 MT and 2,12,636 MT during the year 2023-24 and 2022-23 respectively. For Sinter, the actual production was 6,22,480 MT and 7,04,481 MT during the year 2023-24 and 2022-23 respectively. The actual production of Coke was 3,25,051 MT during the year 2023-24 as compared to 3,67,522 MT during the year 2022-23.

Key financial ratio

The details of significant changes (i.e. change of 25% or more as compared to the immediately previous financial year) in key financial ratios, along with detailed explanations thereof along with details of change in Return on Net Worth are given in note no. 52 of the notes to Financial Statement provided in this Annual report.

Internal Control Systems and their Adequacy

The Company maintains appropriate and effective internal control systems in proportion to the business' size and complexity. In our opinion, these systems offer, among other things, a fair guarantee that transactions are carried out with management authorisation. These have been implemented at every level and are meant to ensure compliance with statutory and regulatory requirements for internal controls, as well as the accurate recording of financial and operational data. The permissible compilation of financial accounts in accordance with generally accepted accounting standards is also ensured, as is the sufficient protection of the Company's assets from major misappropriation or loss. In addition to this the Company also has a robust internal audit programme and the same is regularly reviewed by Management and the Audit Committee. The Audit Committee periodically meets the statutory and internal auditors of the Company to ascertain their views on the adequacy of internal control system and keeps the Board informed of its observations from time to time

Human resources

At JBIL, leveraging human capital is a key business imperative and the principle of always putting people first guides the Company's policies. Our constant endeavour is to foster a work culture that promotes collaboration, innovation, high performance, and agility. This has led us on a path of a new world of possibilities, requiring us to work on a new set of challenges for a future-ready workforce.

Company's success depends on the ability to attract, develop and retain best talent at every level. The company acknowledges the employee's contribution towards leading, thinking, working, creating, processing and dealing to enhanced growth. As on March 31, 2024, the number of permanent employees on the rolls of Company, was 4431 which comprises professionals from diverse backgrounds like finance, taxation, law, management, engineering etc. During the year, the company maintained positive relations with its employees and focused on providing training and skill development opportunities to help them navigate the changing work environment.

Cautionary Statement

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates and/or expectations may be "forward-looking statements" within the meaning of applicable laws and regulations. Actual results could

differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include, among others, domestic and international economic conditions affecting demand/supply and price conditions, changes in the government regulations, tax laws and other statutes and other incidental factor.

STANDALONE FINANCIAL STATEMENTS

Independent Auditor's Report

TO THE MEMBERS OF **JAI BALAJI INDUSTRIES LIMITED**

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of Jai Balaji Industries Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the material accounting policies information and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, and its profit, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the Standalone Financial Statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. NO.	THE KEY AUDIT MATTERS	HOW THE MATTER WAS ADRESSED IN OUR AUDIT
1	BORROWINGS (Refer Note 20 to the Standalone Financial Statements) The Company has satisfied rupee loan from asset reconstruction company. The Company has been sanctioned a Term Loan of ₹519,00 lakhs and working Capital Demand Loan of ₹40,00 lakhs from Tata Capital Financial Services Limited and term loan further has been refinanced by Piramal Enterprises Limited against rupee term loan aggregating ₹100,00 lakhs, Arca Fincap Limited against rupee term loan aggregating ₹50,00 lakhs, Tourism Finance Corporation of India Limited against rupee term loan aggregating ₹50,00 lakhs and Aditya Birla finance Limited against rupee term loan aggregating ₹10,000 lakhs.	OUR AUDIT PROCEDURES INCLUDE THE FOLLOWING: We reviewed and examined the relevant agreements. We obtained the understanding of these refinancing schemes through meetings with management and review of the minutes of the Board of Directors. We have also verified the related compliances including creation of Charge with Registrar of Companies.

S. NO.	THE KEY AUDIT MATTERS	HOW THE MATTER WAS ADRESSED IN OUR AUDIT
2	<p>THE COMPANY'S EXPOSURE TO LITIGATION RISK</p> <p>(Refer Note 35A to the Standalone Financial Statements)</p> <p>The Company is exposed to different laws, regulations and interpretations thereof and hence, there is a litigation risk. Consequently, the Company has significant litigation cases pending with Custom Authorities, Excise Authorities, Service tax Authorities and Income tax Authorities. Given the nature and amounts involved in such cases and the appellate forums at which these are pending, the ultimate outcome and the resultant accounting in the financial statements is subject to significant judgement, which can change over time as new facts emerge and each legal case progresses, and therefore, we have identified this as key audit matter.</p>	<p>OUR AUDIT PROCEDURES INCLUDE THE FOLLOWING:</p> <p>We obtained details of completed tax assessments and demands for the year ended March 31, 2024 from management.</p> <p>We assessed the process and relevant controls implemented to identify legal and tax litigations and pending administrative proceedings.</p> <p>We examined the assumptions used in estimating the tax provision and the possible outcome of the disputes.</p> <p>We considered legal precedence and other rulings in evaluating management's position on these tax positions.</p>

Emphasis of Matter

1. We draw attention to Note no. 54 to the Standalone Financial Statements in relation to outstanding balances of trade receivables, trade payables and loans and advances which are subject to confirmation and subsequent adjustments, if any. Our report is not modified in respect of this matter.
2. We draw attention to Note no. 18 to the Standalone Financial Statements in relation to redemption of 87,39,685 zero coupon unsecured unlisted non-convertible debentures at Rs 100.
3. We draw attention to Note no. 49 to the Standalone Financial Statements where the company has provided for the diminution in the value of investment in two joint ventures companies as the Hon'ble Supreme Court vide its order date 24th September, 2014 has cancelled number of coal blocks allotted to the companies. These included two coal blocks under development viz. Andal East in West Bengal and Rohne in Jharkhand allocated to the company jointly with the other parties. However the company had submitted claims w.r.t the cancellation of coal blocks which are still pending

Our opinion is not modified in respect of this matters.

Other Matter

The statement of the company for the year ended March 31, 2023 was audited by another auditor whose report dated May 30, 2023 expressed an unmodified opinion on that statement.

Our opinion is not modified in respect of this matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report and Shareholder's Information but does not include the Standalone Financial Statements and our auditor's report thereon. The Board's report including annexures to the Board's report and Shareholder's Information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read Annual Report, if we conclude that there is a material misstatement there in we are required to communicate the matter to those charged with Governance.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, Statement of Changes in Equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the Consolidated Financial Statement. We are also responsible for the direction, supervision and performance of the audit of other Consolidated Financial Statements of such entities included in the Consolidated Financial Statement of which we are the independent auditors. For the other entities included in the Consolidated Financial Statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating

the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in **"Annexure A"**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on 31st March 2024 taken on record by the Board of Directors, none of these directors is disqualified as on 31st March 2024 from being appointed as a director in terms of Section 164(2) of the act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations which would impact financial position. (Refer Note 35A to the financial statement)
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as referred to Note No. 6 to the Financial Statement, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The Management has represented, that, to the best of its knowledge and belief, other than as referred to Note No. 23 to the Financial Statement, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement
 - v. The company has not declared dividend in the previous year and nor during the current year ended March 31, 2024, therefore the company is not required to comply with section 123 of Companies Act, 2013.
 - vi. Based on our examination which included test check, the company has used accounting software for maintaining its books of accounts which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.
- As proviso to Rule 3 (1) of the Companies (Accounts) Rules, 2014 is applicable from 1st April, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention is not applicable for the financial year ended 31st March, 2024.

Annexure A referred to in paragraph 1 of Independent Auditor's Report of even date to the members of Jai Balaji Industries Limited on the Financial Statements of the company for the year ended 31st March, 2024.

In terms of Companies (Auditor's Report) Order 2020, issued by the Central Government of India, in terms of section 143(11) of The Companies Act, 2013, we further report, on the matters specified in paragraph 3 and 4 of the said Order, that: -

- (i) a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.
(B) The Company has maintained proper records showing full particulars of intangible assets.
- b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a program of physical verification of Property, Plant and Equipment and right-of-use assets so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the property tax receipts and lease agreement for land on which building is constructed, registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title in respect of self-constructed buildings and title deeds of all other immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in Note 3 of the financial statements included under Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.
- d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
- e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) a) As per the examination of the records of the Company and the information provided to us, the physical verification of inventory has been conducted at reasonable intervals by the management and in our opinion the coverage and procedure of such verification by the management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancy of 10% or more in the aggregate for each class of inventory were noticed during such physical verification.
- b) The quarterly returns/statements filed by the company with banks/financial institutions are in agreement with the books of the company.
- (iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the company has not given any loans or guarantees/made any investments within the meaning of sections 185 & 186 of The Companies Act, 2013.
- (v) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the companies Act and the rules made thereunder during the year. Accordingly, clause (v) of paragraph 3 of the Order is not applicable.

(vi) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

(vii) a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been regular in depositing undisputed statutory dues, including Provident Fund, Employees State Insurance, Income Tax, Duty of Customs, Goods and Services Tax, Cess and other statutory dues with the appropriate authorities during the year.

According to the information and explanations given to us, no undisputed amounts payable in respect of the aforesaid dues were outstanding as at 31st March, 2024 for a period of more than six months from the date of becoming payable.

b) Details of the statutory dues refer to in sub- clause (a) above which have not been deposited as on March 31, 2024 on account of disputes are given below:

- b) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, the Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- c) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, the company has utilised the term loans for the purposes for which they were obtained.
- d) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, funds raised on short term basis have, prima facie, have not been used during the year for long-term purposes by the Company
- e) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary.
- f) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, the company has not raised loans during the year on the pledge of securities held in its subsidiaries as defined under the Companies Act, 2013.
- (x) a) The Company has not raised any money by way of initial public offer and further public offer (including debt instruments) during the year.
- b) The company has issued convertible share warrant on preferential basis during the year and requirement of section 42 of The Companies Act, 2013 have been complied with and funds raised have been used for the purpose for which the funds were raised.
- (xi) a) According to the information and explanations given to us and on the basis of our examination of the books of accounts of the company no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Companies Act, 2013 has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government upto the date of this report.
- c) According to the information and explanation given to us no whistle blower complaints received by the Company during the year (and up to the date of this report), hence reporting under clause 3(xi)(c) of the Order is not applicable.
- (xii) The reporting under clause (xxi) is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.
- (xiii) The transactions entered into with related parties are in compliance with section 177 & 188 of The Companies Act 2013 and the details have been disclosed in the financial statements as required by the applicable Indian accounting standards.
- (xiv) a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

Annexure -B to the Independent Auditors' Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Jai Balaji Industries Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting with reference to Standalone Financial Statement of Jai Balaji Industries Limited ("the Company") as of 31st March, 2024 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls over financial reporting were operating effectively as at 31 March 2024, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over with reference to financial statement reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies

Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements

Meaning of Internal Financial Controls With Reference to Financial Statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference To Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

1 Corporate Information

Jai Balaji Industries Limited (JBIL) is a Public Limited Company incorporated in India in 1999 under the Companies Act, 1956 with its shares listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The registered office of the Company is at 5, Bentinck Street, Kolkata-700001.

The Company is primarily engaged in business of manufacturing of Iron and Steel products including Sponge Iron, Pig Iron, Ductile Iron Pipe, Ferro Chrome, Billet, TMT, Coke and Sinter with captive power plant.

The financial statements for the year ended March 31, 2024 were approved for issue by the Company's board of directors on 25th April, 2024.

2 Material Accounting Policies Information

The material accounting policies applied by the Company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these financial statements.

a) Statement of Compliance

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act 2013 (the 'Act') and other relevant provisions of the Act.

b) Basis of preparation

The financial statements have been prepared under the historical cost convention with the exception of following assets and liabilities which have been measured at fair value:

- Derivative financial instruments;
- Certain financial assets and liabilities measured at fair value (Refer accounting policy regarding financial instruments);
- Employee benefit expenses (Refer accounting policy regarding employee benefit expenses)

c) Use of estimates

In preparing the financial statements in conformity with Ind AS, management has made estimates, judgments and assumptions which affect the application of accounting policies and the reported amounts of assets and liabilities as at the date of financial statements and the reported amounts of revenues and expenses during the period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting are recognized prospectively. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to financial statements.

Critical estimates and judgements

The areas involving critical estimates or judgements are as follows:

○ Estimated fair value of unlisted securities

The fair value of financial instruments that are not traded in an active market is determined using valuation technique. The management uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

○ Estimation of defined benefit obligation

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

○ Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

○ Recognition and measurement of provisions and contingencies

The management has made key assumptions about the likelihood and magnitude of an outflow of resources.

○ Impairment of trade receivables

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The management uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

○ Measurement of Right of Use Asset (ROUA) and Lease liabilities Refer note "g".

d. Current and Non-Current classification

The company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current only.

e. Business Combination

Business Combinations are accounted for using the acquisition method of accounting, except for common control transactions which are accounted using the pooling of interest method and being accounted at carrying values.

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities assumed at their acquisition date i.e. date on which control is acquired. Contingent consideration to be transferred is recognised at fair value and included as part of cost of acquisition. Transaction related costs are expensed in the period in which the costs incurred.

For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

Material Accounting Policies Information and Notes to Standalone Financial Statements for the year ended 31st March 2024

Goodwill arising on business combination is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the fair value of net identifiable assets acquired and liabilities assumed. After initial recognition, Goodwill is tested for impairment annually and measured at cost less any accumulated impairment losses if any.

Common control business combination: Business combinations involving entities or business that are controlled by the company are accounted using the pooling of interest method.

f. Revenue from Contracts with Customers

Revenue from contracts with customers is recognized to the extent that is probable that the economic benefits will flow to the company and revenue can be reliably measurable regardless of when payment is being received. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract.

Ind AS 115 provides a single model of accounting for revenue arising from contracts with customers based on the identification and satisfaction of performance obligations. Specifically, the standard introduces a 5-step approach to revenue recognition.

Step1: Identify the contract(s) with a customer.

Step2: Identify the performance obligation in contract

Step3: Determine the transaction price

Step4: Allocate the transaction price to the performance obligations in the contract.

Step5: Recognise revenue when [or as] the entity satisfies a performance obligation.

Disaggregate revenue information:

The disaggregated revenue of the Company best depicts how the nature, amount, timing and uncertainty of revenues and cash flows are affected by industry, market and other economic factors.

Refer Note No. 25 for Disaggregate revenue information.

Other income

Other income is comprised primarily of interest income, insurance claim received, gain on investments and exchange gain etc.

A. Conversion Income

Revenue from sale of service is recognized when control has been transferred to the buyer usually when the delivery of goods after due process of conversion takes place, revenue is booked when all the performance obligations are satisfied.

B. Export Incentives

Income from export incentives such as duty drawback and Remission of duties and taxes on export products (RODTEP) are recognised on accrual basis.

C. Interest Income

Interest income is recognized using the Effective Interest Rate (EIR).

g. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

The Company as a lessor

Rental income arising is accounted for on a straightline basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of Use Assets

The Company recognises a right –of-use asset ("ROU") and a corresponding lease liability for all lease arrangements .The right- of- use assets are initially recognised at cost, which companies the initial amount of the lease liability adjusted for an lease payments made at or prior to the commencement date of the lease(i.e. the date the underlying asset is available for use) plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any Right-of-use assets are depreciated from the commencement date on a straight –line-basis over the shorter of lease term and the useful life of the underlying assets.

Lease Liability

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. There measurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

h. Property, Plant and Equipment

The Company has elected to continue with the carrying value of its Property Plant and Equipment(PPE) recognised as on April 1, 2017(transition date) measured as per the Previous GAAP and used that carrying value as its deemed cost as on the transition date as per Para D7AA of Ind AS 101.

Property, Plant and Equipment represent a significant proportion of the asset base of the company. Free hold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditures that are directly attributable to the acquisition of the items.

Property, Plant and Equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labor, any other costs directly attributable to bringing the item to working condition for its intended use.

Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Property,Plant and Equipment which are significant to the total cost of that item of Property,Plant and Equipment and having different useful life are accounted separately.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

Other Indirect Expenses incurred relating to project, during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in Progress.

Depreciation on property, plant and equipment is provided based on useful life of the assets using straight line method as prescribed in Schedule II to the Companies Act, 2013, as below

- Building: 5-60 years
- Office Equipments: 5 years
- Furniture and Fixtures: 10 years
- Vehicle: 8 years
- Plant and Machinery: 7.5-40 years
- Computers: 3-6 years
- Right-of-use of assets : Over the period of Lease

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

The gain or loss arising on disposal of an item of property, plant and equipment is determined as the difference between sale proceeds and carrying value of such item, and is recognised in the statement of profit and loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

i. Intangible Assets

Software

Software is measured initially at cost and subsequently at cost less accumulated amortization and impairment. Software is amortised over its useful life on a straight line basis, as below:

Item	Useful life
Computer Software	5 years

j. Provisions & Contingent Liability

A provision is recognized if, as a result of a past event, the company has a present obligation (legal or constructive) that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are not recognized for future operating losses.

Where the effect of time value of money is material, provisions are measured at the present value of management's best estimate of the required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to passage of time is recognized as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

k. Inventories

Inventories are valued at the lower of cost and net realizable value.

- i. **Raw materials:** Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.
- ii. **Finished goods and work in progress:** Cost of finished goods and work-in-progress comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.
- iii. **Stores and spares:** Cost is determined on weighted average basis.
- iv. **Stock-in-trade:** Cost is determined on weighted average basis.
- v. **Scrap and By Products:** At net realizable value.

The Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated costs necessary to make the sale.

l. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of shares outstanding during the year.

Diluted earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

m. Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

n. Cash and bank balances

Cash and bank balances consist of:

○ Cash and cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, balance with banks and short term deposits with an original maturity of three months, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, in banks and short term deposits with an original maturity of three months net of outstanding bank overdrafts as they are considered integral part of the company's cash management.

○ Other bank balances

This includes balances and deposits with banks that are restricted for withdrawal and usage having maturity of more than three months extending upto twelve years.

o. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company is predominantly engaged in a single reportable segment of "Iron and Steel" during the year.

p. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the interest costs.

q. Government grants and subsidies

Grants and subsidies from the government are recognized when there is a reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

Where the grant or subsidy relates to an asset, its value is deducted in arriving at the carrying amount of the related asset.

Government grants of the nature of promoter's contribution are credited to capital reserve and treated as a part of shareholder's funds.

r. Financial Instruments

Initial Recognition

The company recognizes financial assets and financial liabilities including derivatives when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, those are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date i.e., the date at which the company commits to purchase or sell the asset.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

Subsequent Measurement

a. Derivative financial instruments

Derivative instruments used by the Company include forward exchange contracts. These financial instruments are utilised to hedge future transactions. The company does not hold or issue derivative financial instruments for trading purposes. All transactions in derivative financial instruments are undertaken to manage risks arising from underlying business activities.

b. Non-derivative financial instruments

Financial Assets:

(i) Financial assets carried at amortized cost:

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the statement of profit and loss.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

(ii) Financial assets at fair value through other comprehensive income (FVTOCI):

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The company recognizes impairment losses and reversals and foreign exchange gain to the statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to the statement of Profit and Loss. Interest earned while holding FVTOCI debt instrument is reported as interest income using the EIR method.

(iii) Financial assets at fair value through profit or loss (FVTPL):

A financial asset which is not classified in any of the above categories is subsequently measured at fair value through profit or loss. The company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL, which is thereafter irrevocable. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The company has not designated any debt instrument as at FVTPL.

Financial liabilities:

Financial liabilities are subsequently carried at amortized cost using the effective interest method except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. The company's financial liabilities include trade and other payables and loans and borrowings.

Loans and Borrowings- After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognised in the statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Derecognition of Financial Instruments

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Fair Value of Financial Instruments

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. This legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

s. Impairment

a. Financial assets

Financial assets, other than those assets which are measured at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109-Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

b. Non-financial assets

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation).

t. Foreign currencies

The functional currency of the Company is determined on the basis of the primary economic environment in which it operates. The functional currency of the Company is Indian National Rupee (INR). The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting year, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in Statement of Profit and Loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

u. Fair value measurement

A number of company's accounting policies and disclosures require the measurement of fair values for both Financial and Non Financial Assets and Liabilities

The management measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The management uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the management determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

v. Employee benefits

i Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee's services up to the end of the reporting period.

ii Other Long Term Employee Benefits

The liabilities for earned leaves that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the government securities (G-Sec) rates at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements as the result of experience adjustment and changes in actuarial assumptions are recognized in the Statement of Profit and Loss.

iii Post-Employment Benefits

The Company operates the following post-employment schemes:

Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) rates at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the Statement of Profit and Loss.

Defined Contribution Plan

Contributions to defined contribution plans include provident fund contribution to government administered fund and are charged to the Statement of Profit and Loss as and when incurred. Such benefits are classified as defined contribution plans since the Company does not carry any further obligations, apart from the contributions made on monthly basis.

w. Taxes

Tax comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to a business combination or to an item recognized directly in equity or in other comprehensive income.

○ Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

○ Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized using liability method, to the extent that it is probable that future taxable profits will be available against which they can be used. The company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

Material Accounting Policies Information and Notes to Standalone Financial Statements

for the year ended 31st March 2024

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

○ **Deferred tax for the period**

Deferred Tax are recognised as an expense or income in the Statement of Profit and Loss except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

x. Investment in Subsidiary Companies, Joint ventures and Associates

Investments in subsidiaries, joint ventures and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss. However, the company has fully provided for the diminution in the value of the investments of two joint venture companies.

y. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Expected Credit Loss:

In determining the allowances for credit losses of trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Notes to Standalone Financial Statements for the year ended 31st March 2024

Note 17: Other Equity (Contd.)

Nature and purpose of reserves:

- (a) **Capital Reserve:** Capital Reserve represents amount received from West Bengal Industrial Development Corporation as a Capital Subsidy, amount forfeited against equity warrant application money and term loan amount written back.
- (b) **Amalgamation Reserve:** Amalgamation Reserve represents amount arisen on Amalgamation of erstwhile Shri Ramrupai Balaji Steels Limited.
- (c) **Securities Premium Account:** Securities Premium represents the amount received in excess of face value of securities and forfeited of shares.
- (d) **General Reserve:** The Company has transferred a portion of the net profit of the company before declaring dividend to general reserve pursuant to the earlier provisions of Companies Act, 1956. Mandatory transfer to general reserve is not required under the Companies Act, 2013.
- (e) **Retained Earnings:** Retained earnings generally represents the undistributed profit/amount of accumulated earnings of the Company.
- (f) **Remeasurements of Net Defined Benefit Plans:** Differences between the interest income on plan assets and the return actually received and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans are recognised in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.
- (g) **Equity Instruments through Other Comprehensive Income:** The fair value change of the equity instrument measured at fair value through other comprehensive income is recognised in Equity instruments through Other Comprehensive Income.
- (h) **Money Received against Share Warrant:** The Company had issued and allotted 5,00,00,000 warrants on preferential allotment basis on 27th May, 2022. Note 35A: Contingent liabilities

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an on-going basis with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Deferred tax assets are recognised for all deductible temporary differences and any unused tax credits and unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax is measured based on the tax rates and the the tax laws enacted or substantively enacted at the balance sheet date and derecognized to the extent it is no longer probable that sufficient future taxable profits will be available against which such deferred tax assets can be realized. Deferred tax items are recognized in correlation to the underlying transaction either in the Statement of Profit and Loss or other comprehensive income or directly in equity.

Note 37: Leases

The Company determines whether an arrangement contains a lease by assessing whether the fulfillment of a transaction is dependent on the use of a specific asset and whether the transaction conveys the right to use that asset to the Company in return for payment. Where this occurs, the arrangement is deemed to include a lease and is accounted for either as finance or operating lease.

Leases are classified as finance leases where the terms of the lease transfers substantially all the risks and rewards of ownership to the lessee, because of the lease period of land 90 or more years then the fair value computation for finance lease will have no material difference comparing to its carrying value, so that the company considered as finance lease.

Notes to Standalone Financial Statements for the year ended 31st March 2024

Note 37: Leases (Contd.)

The Company as lessee

Finance Lease:

Finance Leases are capitalised at the commencement of lease, at the lower of the fair value of the property or the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the statement of profit and loss over the period of the lease.

Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service is entitled to gratuity on terms not less favourable than The Provisions of Payment of Gratuity Act, 1972. The scheme is funded with an insurance company in the form of a qualifying insurance policy.

Notes to Standalone Financial Statements for the year ended 31st March 2024

Note 39: Employee Benefit Obligations (Contd.)

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market risk.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

b) Fair value hierarchy

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

- **Level 1:** Level 1 hierarchy includes Financial Instruments measured using Quoted prices. This include listed equity instruments, mutual funds that have quoted price. The Fair Value of all equity instruments which are traded in stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

- **Level 2:** The fair value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

- **Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in Level 3.

Note 46: Financial Risk Management Objectives And Policies

The Company is exposed to liquidity risk, market risk, credit risk. The company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Liquidity Risk

Liquidity risk is the risk that the company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2024 and 31st March, 2023. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The following table shows the maturity analysis of the Company's financial assets and financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

(B) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest risk and currency risk and other price risk. Financial Instrument affected by market risk include loans and borrowings in foreign currency.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates. The Company is not carrying its borrowings primarily at variable rate.

b) Currency risk

The Company is subject to the risk that changes in foreign currency values impact the company's export revenue and imports of raw material and property, plant and equipment.

The following table demonstrate the sensitivity to a reasonable possible change in USD, EURO, JPY, Ruble and AUD exchange rates, with all other variables held constant. The impact on the Company's profit/(loss) is due to changes in the fair value of monetary assets and liabilities.

(C) Credit Risk

Credit risk is the risk of financial loss arising from counter party failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

The Company has a policy of dealing only with credit worthy counter parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, loans, receivables, investments, cash and cash equivalents, derivatives and financial guarantees provided by the company. None of the financial instruments of the company result in material concentration of credit risk.

The carrying value of financial assets represents the maximum credit risk. The maximum exposure to the credit risk was ₹ 46,529.17 lacs and ₹ 37,976.23 lacs as at March 31, 2024 and March 31, 2023 respectively, being the total carrying value of trade receivables, balances with bank, bank deposits, investments in debt securities and other financial assets.

Note 47: Foreign Currency risk

a) Hedged Foreign Currency Exposures :

Derivative instruments used by the Company include forward exchange contracts. These financial instruments are utilised to hedge future transactions and cash flows. The Company does not hold or issue derivative financial instruments for trading purposes. All transactions in derivative financial instruments are undertaken to manage risks arising from underlying business activities.

As at the end of the reporting period, total amount of outstanding foreign currency forward contracts is as below:

CONSOLIDATED FINANCIAL STATEMENTS

Independent Auditor's Report

TO THE MEMBERS OF **JAI BALAJI INDUSTRIES LIMITED**

Report on the audit of Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of Jai Balaji Industries Limited ("the Parent"), and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group") and jointly controlled entity which comprise the Consolidated Balance Sheet as at 31st March, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Loss), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the material accounting policies information and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries referred to below in the Other Matter section below, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ('Ind AS') and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March, 2024, and their consolidated profit, their consolidated total comprehensive loss, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and

Informing our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. NO.	THE KEY AUDIT MATTERS	HOW THE MATTER WAS ADRESSED IN OUR AUDIT
1	BORROWINGS (Refer Note 20 to the Consolidated Financial Statements) The Company has satisfied rupee loan from asset reconstruction company. The Company has been sanctioned a Term Loan of ₹519,00 lakhs and working Capital Demand Loan of ₹40,00 lakhs from Tata Capital Financial Services Limited and term loan further has been refinanced by Piramal Enterprises Limited against rupee term loan aggregating ₹100,00 lakhs, Arca Fincap Limited against rupee term loan aggregating ₹50,00 lakhs, Tourism Finance Corporation of India Limited against rupee term loan aggregating ₹ 50,00 lakhs and Aditya Birla finance Limited against rupee term loan aggregating ₹10,000 lakhs.	OUR AUDIT PROCEDURES INCLUDE THE FOLLOWING: We reviewed and examined the relevant agreements. We obtained the understanding of these refinancing schemes through meetings with management and review of the minutes of the Board of Directors. We have also verified the related compliances including creation of Charge with Registrar of Companies.

S. NO.	THE KEY AUDIT MATTERS	HOW THE MATTER WAS ADRESSED IN OUR AUDIT
2	THE COMPANY'S EXPOSURE TO LITIGATION RISK (Refer Note 35A to the Consolidated Financial Statements) The Company is exposed to different laws, regulations and interpretations thereof and hence, there is a litigation risk. Consequently, the Company has significant litigation cases pending with Custom Authorities, Excise Authorities, Service tax Authorities and Income tax Authorities. Given the nature and amounts involved in such cases and the appellate forums at which these are pending, the ultimate outcome and the resultant accounting in the financial statements is subject to significant judgement, which can change over time as new facts emerge and each legal case progresses, and therefore, we have identified this as key audit matter.	OUR AUDIT PROCEDURES INCLUDE THE FOLLOWING: We obtained details of completed tax assessments and demands for the year ended March 31, 2024 from management. We assessed the process and relevant controls implemented to identify legal and tax litigations and pending administrative proceedings. We examined the assumptions used in estimating the tax provision and the possible outcome of the disputes. We considered legal precedence and other rulings in evaluating management's position on these tax positions.
3	THE COMPANY HAS ISSUED CONVERTIBLE SHARE WARRANT DURING THE YEAR (Refer Note 17 to the Consolidated Financial Statements.) The Company had issued and allotted 5,00,00,000 warrants on preferential allotment basis on 27 th May, 2022. The warrant holders had paid balance 75% of total consideration of ₹52/- per warrant i.e., ₹ 39/- per warrant on 1,50,00,000 warrants amounting to ₹5,850.00 lacs as application money against the above warrants. As on 16 th October, 2023 entire warrants issued on 27 th May, 2022 have been converted into equivalent number of Equity Shares. Further, The Company had issued and allotted 2,20,00,000 warrants on preferential allotment basis to Companies falling under Promoter group carrying a right to convert each warrant into an Equity Share of ₹ 45/- each within a period of 18 months from the date of allotment i.e. 20 th January, 2023. The warrant holders had paid balance 75% of total consideration of ₹ 45/- per warrant i.e. ₹ 33.75 per warrant on 32,00,000 warrants amounting to ₹ 1,080.00 lacs as application money against the above warrant. Out of total allotted 2,20,00,000 warrants the company had converted 32,00,000 warrants into Equity Shares during the year ended 31 st March, 2024. As the conversion of Share warrants by the company during the financial year 2023-2024, has the effect on enhancement of the Equity of the Company the same is considered to be a key audit matter.	OUR AUDIT PROCEDURES INCLUDE THE FOLLOWING: Our audit procedure includes gaining an understanding of the process of issue of share warrants followed by the company, to include amongst others: <ol style="list-style-type: none"> 1. Authorization by the Memorandum and Articles of Association of the Company; 2. Passing of resolution in a validly convened and constituted Board meeting of the company. 3. Passing of resolution in a validly convened and constituted general meeting of the company and necessary regulatory filing done by the Company. Obtaining permission from the NSE/BSE Ltd. under SEBI (Listing obligations and Disclosure requirements) Regulations, 2015. 4. We assessed the adequacy of disclosures in the financial statements. 5. We checked that allotment money are received in full and in a separate bank account. Also, checked that funds are flowing from the bank account of allottee on the same date.
4	ACCOUNTING SOFTWARE AND AUDIT TRAIL Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014.	OUR AUDIT PROCEDURES INCLUDE THE FOLLOWING: We have examined that the company is using customised software and audit trail is enabled but the software and its trail need to be strengthen more. The Company is in process of implementing more advance and latest ERP Software which will prove to be more efficient and effective for the company.

Emphasis of Matter

1. We draw attention to Note no. 54 to the Consolidated Financial Statements in relation to outstanding balances of trade receivables, trade payables and loans and advances which are subject to confirmation and subsequent adjustments, if any. Our report is not modified in respect of this matter.
2. We draw attention to Note no. 18 to the Consolidated Financial Statements in relation to redemption of 87,39,685 zero coupon unsecured unlisted non-convertible debentures at Rs 100.
3. We draw attention to Note no. 49 to the Consolidated Financial Statements where the company has provided for the diminution in the value of investment in two joint ventures companies as the Hon'ble Supreme Court vide its order date 24th September, 2014 has cancelled number of coal blocks allotted to the companies. These included two coal blocks under development viz. Andal East in West Bengal and Rohne in Jharkhand allocated to the company jointly with the other parties. However the company had submitted claims w.r.t the cancellation of coal blocks which are still pending.

Our opinion is not modified in respect of this matters.

Other Matter

The statement of the company for the year ended March 31, 2023 was audited by another auditor whose report dated May 30, 2023 expressed an unmodified opinion on that statement.

Our opinion is not modified in respect of this matters.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report and Shareholder's Information but does not include the Consolidated Financial Statements and our auditor's report thereon. The Board's report including annexures to the Board's report and Shareholder's Information is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read Annual Report, if we conclude that there is a material misstatement of this other

information, we are required to communicate the matter to those charged with Governance.

Management's Responsibilities for the Consolidated Financial Statements

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statement by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statement, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the Consolidated Financial Statement. We are also responsible for the direction, supervision and performance of the audit of the Consolidated Financial Statements of such entities included in the Consolidated Financial Statement of which we are the independent auditors. For the other entities included in the Consolidated Financial

Statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Consolidate Financial Statement has information in respect of a subsidiary Kesarisuta Industries Uganda Limited which is incorporated in Uganda and have no transaction during the year.

Our opinion on the Consolidated Financial Statements above, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate Consolidated Financial Statements and the other

financial information of the subsidiaries, associates and jointly controlled entities, incorporated in India, as noted in the 'Other Matters' paragraph we give in the "Annexure A" a statement on the matters specified in paragraph 3(xxi) of the Order.

2. As required by section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion proper books of account as required by law have been kept by the Group so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements
- d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Group 's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended. In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Group to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations which would impact financial position. (Refer Note 35A to the Consolidated Financial Statement)
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There has been no delay in transferring amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as referred to Note No. 6 to the Consolidated Financial Statement, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, other than as referred to Note No. 23 to the Consolidated Financial Statement, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee,

security or the like on behalf of the Ultimate Beneficiaries;

- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement
- v. The company has not declared dividend in the previous year and nor during the current year ended March 31, 2024, therefore the company is not required to comply with section 123 of Companies Act, 2013.

- vi. Based on our examination which included test check, the company has used accounting software for maintaining its books of accounts which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software.

As proviso to Rule 3 (1) of the Companies (Accounts) Rules, 2014 is applicable from 1st April, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirement for record retention is not applicable for the financial year ended 31st March, 2024.

Annexure -B to the Independent Auditors' Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Jai Balaji Industries Limited of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Jai Balaji Industries limited (hereinafter referred to as "the Holding Company"), its subsidiary (the Holding Company and its subsidiary incorporated outside India together referred to as "the Group") as of 31st March 2024 in conjunction with our audit of the Consolidated Financial Statements of the Group for the year ended on that date.

Opinion

In our opinion, the Holding Company and its subsidiary companies have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2024, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to financial statements issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate

internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respect.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to financial statements of the Holding Company and subsidiary companies, which are companies incorporated outside India.

Meaning of Internal Financial Controls With Reference To Financial Statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial

Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial Statements.

Inherent Limitations of Internal Financial Controls With Reference To Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

1 Corporate Information

These consolidated financial statements comprise the Parent Company i.e. Jai Balaji Industries Limited, its Subsidiary Companies and Joint Venture Companies (referred to collectively as 'the Group'). The Parent Company is one of the largest steel producers in the private sector in Eastern India. The Parent Company has Integrated Steel Plants with five manufacturing facilities located in Durgapur and Raniganj in West Bengal and Durg in Chhattisgarh manufacturing different products in steel sector such as Sponge Iron, Pig Iron, Ductile Iron Pipe, Ferro Chrome, Billet, TMT, Coke and Sinter with captive power plant.

The Consolidated financial statement for the year ended March 31, 2024 were approved for issue by the Company's board of directors on 25th April, 2024.

2 Material Accounting Policies Information

The material accounting policies applied by the Group in the preparation of its consolidated financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these consolidated financial statements.

a) Statement of Compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

b) Basis of preparation

The consolidated financial statements have been prepared under the historical cost convention with the exception of following assets and liabilities which have been measured at fair values:

- Derivative financial instruments;
- Certain financial assets and liabilities measured at fair value (Refer accounting policy regarding financial instruments);
- Employee benefit expenses (Refer accounting policy regarding employee benefit expenses)

c) Basis of Consolidation

The Consolidated Financial Statements of the Group have been prepared on the following basis:

i) The Subsidiary Companies considered in the financial statements are as follows:

Name of the Subsidiary	Country of Incorporation	Proportion of Ownership / Interest	
		As at March 31, 2024	As at March 31, 2023
Jai Balaji steels (Purulia) Limited #	India	-	100%
Jai Balaji Energy (Purulia) Limited #	India	-	100%
Kesarisuta Industries Uganda Limited ##	Uganda		

ii) In terms of Indian Accounting Standard 110-'Consolidated Financial Statements' issued by the Institute of Chartered Accountants of India, the financial statements of the Company and its Subsidiary are combined on a line- by-line basis by adding together the book values of like items of assets, liabilities, income and expenditure, after fully eliminating intra-group balances, intra-group transactions and any unrealized profit/loss included therein. The difference of the cost to the Company its investment in Subsidiary as at the date of acquisition of stake is recognized in the financial statements as Goodwill or Capital reserve, as the case may be. Any such difference arising subsequently is adjusted against Statement of Profit and Loss.

iii) The difference of the cost to the Company of its investment in Subsidiary as at the date of acquisition of stake is recognized in the financial statements as Goodwill or Capital Reserve, as the case may be. Any such difference arising subsequently is adjusted against Statement of Profit and Loss.

iv) The Joint Venture Companies considered in the financial statements are as follows:

Name of the Joint Venture Company	Country of Incorporation	Proportion of Ownership / Interest	
		As at March 31, 2024	As at March 31, 2023
Rohne Coal Company Private Ltd*	India	6.90%	6.90%
Andal East Coal Company Private Ltd* (Under liquidation)	India	32.79%	32.79%

* Refer Note (v) as below:

- v) The financials of the above joint venture companies namely Andal East Coal Company Pvt. Ltd (AECCLPL) and Rohne Coal Company Pvt Ltd (RCCPL) which was entered by the Company for Coal Blocks are not consolidated as the company has fully provided for the diminution in the value of investments. However, the Company had submitted claims w.r.t. the cancellation of coal blocks which are still pending.
- vi) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and are presented, to the extent possible, in the same manner as the Company's separate financial statements.
- vii) The financial statements of the entities used for the purpose of consolidation are drawn up for the same reporting period i.e year ending 31st March, 2024.

d) Use of estimates

In preparing the consolidated financial statements in conformity with Ind AS, management has made estimates, judgments and assumptions which affect the application of accounting policies and the reported amounts of assets and liabilities as at the date of consolidated financial statements and the reported amounts of revenues and expenses during the period. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting are recognized prospectively. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to consolidated financial statements.

Critical estimates and judgments

The areas involving critical estimates or judgments are as follows:

○ Estimated fair value of unlisted securities

The fair value of consolidated financial instruments that are not traded in an active market is determined using valuation technique. The management uses its judgment to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period.

○ Estimation of defined benefit obligation

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

○ Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

○ Recognition and measurement of provisions and contingencies

The management has made key assumptions about the likelihood and magnitude of an outflow of resources.

Material Accounting Policies Information and Notes to Consolidated Financial Statements for the year ended 31st March 2024

○ Impairment of trade receivables

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The management uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

○ Measurement of Right of Use Asset (ROUA) and Lease liabilities Refer note "h".

e) Current and Non-Current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current only.

f) Business Combination

Business Combinations are accounted for using the acquisition method of accounting, except for common control transactions which are accounted using the pooling of interest method and being accounted at carrying values.

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities assumed at their acquisition date i.e date on which control is acquired. Contingent consideration to be transferred is recognised at fair value and included as part of cost of acquisition. Transaction related costs are expensed in the period in which the costs incurred.

For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

Goodwill arising on business combination is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the fair value of net identifiable assets acquired and liabilities assumed. After initial recognition, Goodwill is tested for impairment annually and measured at cost less any accumulated impairment losses if any.

Common control business combination: Business combinations involving entities or business that are controlled by the company are accounted using the pooling of interest method.

for the year ended 31st March 2024

g) Revenue from Contracts with Customers

Revenue from contracts with customers is recognized to the extent that is probable that the economic benefits will flow to the Group and revenue can be reliably measurable regardless of when payment is being received. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Group as part of the contract.

Ind AS 115 provides a single model of accounting for revenue arising from contracts with customers based on the identification and satisfaction of performance obligations. Specifically, the standard introduces a 5-step approach to revenue recognition.

Step1: Identify the contract(s) with a customer.

Step2: Identify the performance obligation in contract

Step3: Determine the transaction price

Step4: Allocate the transaction price to the performance obligations in the contract.

Step5: Recognise revenue when [or as] the entity satisfies a performance obligation

Disaggregate revenue information:

The disaggregated revenue of the Group best depicts how the nature, amount, timing and uncertainty of revenues and cash flows are affected by industry, market and other economic factors.

Refer Note No. 25 for Disaggregate revenue information.

Other income

Other income is comprised primarily of interest income, insurance claim received, gain on investments and exchange gain etc.

A. Conversion Income

Revenue from sale of service is recognized when control has been transferred to the buyer usually when the delivery of goods after due process of conversion takes place, revenue is booked when all the performance obligations are satisfied.

B. Export Incentives

Income from export incentives such as duty drawback and Remission of duties and taxes on export products (RoDTEP) are recognised on accrual basis.

C. Interest Income

Interest income is recognized using the Effective Interest Rate (EIR).

h) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessor

Rental income arising is accounted for on a straight line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

The Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of Use Assets

The Group recognises a right –of-use asset ("ROU) and a corresponding lease liability for all lease arrangements .The right- of- use assets are initially recognised at cost, which companies the initial amount of the lease liability adjusted for an lease payments made at or prior to the commencement date of the lease (i.e. the date the underlying asset is available for use) plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any Right-of-use assets are depreciated from the commencement date on a straight –line-basis over the shorter of lease term and the useful life of the underlying assets:

Lease Liability

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable using the incremental borrowing rates. The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. There measurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

i) Property, Plant and Equipment

The Company has elected to continue with the carrying value of its Property Plant and Equipment(PPE) recognised as on April 1, 2017(transition date) measured as per the Previous GAAP and used that carrying value as its deemed cost as on the transition date as per Para D7AA of Ind AS 101.

Property, Plant and Equipment represent a significant proportion of the asset base of the company. Free hold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditures that are directly attributable to the acquisition of the items.

Property, Plant and Equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use.

Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Other Indirect Expenses incurred relating to project, during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in Progress.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

Depreciation on property, plant and equipment is provided based on useful life of the assets using straight line method as prescribed in Schedule II to the Companies Act, 2013,

- Building: 5-60 years
- Office Equipments: 5 years
- Furniture and Fixtures: 10 years
- Vehicle: 8 years
- Plant and Machinery: 7.5-40 years
- Computers: 3-6 years
- Right-of-use Assets: Over the period of Lease

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

The gain or loss arising on disposal of an item of property, plant and equipment is determined as the difference between sale proceeds and carrying value of such item, and is recognised in the statement of profit and loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

j) Intangible Assets

Software

Software is measured initially at cost and subsequently at cost less accumulated amortization and impairment. Software is amortised over its useful life on a straight line basis as below:

Item	Useful life
Computer Software	5 years

k) Provisions & Contingent Liability

A provision is recognized if, as a result of a past event, the Group has a present obligation (legal or constructive) that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are not recognized for future operating losses.

Where the effect of time value of money is material, provisions are measured at the present value of management's best estimate of the required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to passage of time is recognized as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

l) Inventories

Inventories are valued at the lower of cost and net realizable value.

- i. Raw materials: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis.
- ii. Finished goods and work in progress: Cost of finished goods and work-in-progress comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.
- iii. Stores and spares: Cost is determined on weighted average basis
- iv. Stock-in-trade: Cost is determined on weighted average basis.
- v. Scrap and By Products: At net realizable value.

The Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and estimated costs necessary to make the sale.

m) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of shares outstanding during the year.

Diluted earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

n) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

o) Cash and bank balances

Cash and bank balances consist of:

○ Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash on hand and balance with banks and short term deposits with an original maturity of three months, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash on hand, balance with banks and short term deposits with an original maturity of three months net of outstanding bank overdrafts as they are considered integral part of the company's cash management.

○ Other bank balances

This includes balances and deposits with banks that are restricted for withdrawal and usage having maturity of more than three months extending upto twelve years.

p) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group is predominantly engaged in a single reportable segment of "Iron and Steel" during the year.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

q) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the interest costs.

r) Government grants and subsidies

Grants and subsidies from the government are recognized when there is a reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is recognized as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

Where the grant or subsidy relates to an asset, its value is deducted in arriving at the carrying amount of the related asset.

Government grants of the nature of promoter's contribution are credited to capital reserve and treated as a part of shareholder's funds.

s) Financial Instruments

Initial Recognition

The Group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, those are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date i.e., the date at which the Group commits to purchase or sell the asset.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

Subsequent Measurement

a. Derivative financial instruments

Derivative instruments used by the Group include forward exchange contracts. These financial instruments are utilised to hedge future transactions and cash flows and are subject to hedge accounting under Ind AS 109 "Financial instruments" wherever possible. The Group does not hold or issue derivative financial instruments for trading purpose. All transactions in derivative financial instruments are undertaken to manage risks arising from underlying business activities.

b. Non-derivative financial instruments

Financial Assets:

(i) Financial assets carried at amortized cost:

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Material Accounting Policies Information and Notes to Consolidated Financial Statements for the year ended 31st March 2024

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the Statement of Profit or Loss. This category generally applies to trade and other receivables.

(ii) Financial assets at fair value through other comprehensive income(FVTOCI):

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group recognizes impairment losses and reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

(iii) Financial assets at fair value through profit or loss (FVTPL):

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss. The Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL, which is thereafter irrevocable. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instrument as at FVTPL.

(iv) Financial liabilities:

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. The Group's financial liabilities include trade and other payables and loans and borrowings.

Loans and Borrowings- After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

Derecognition of Financial Instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

Fair Value of Financial Instruments

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidate balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. This legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business.

t) Impairment

a. Financial assets

Financial assets, other than those assets which are measured at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. The Group recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Group follows the simplified approach permitted by Ind AS 109-Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Group to track changes in credit risk. The Group calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

b. Non-financial assets

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation). Impairment loss been recognized for the asset in the current years which is shown under exceptional item.

u) Foreign currencies

The functional currency of the Group is determined on the basis of the primary economic environment in which it operates. The functional currency of the Group is Indian National Rupee (INR). The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting year, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in Statement of Profit and Loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

v) Fair value measurement

The management measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The management uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the management determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

w) Employee benefits

i Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee's services up to the end of the reporting period.

ii Other Long Term Employee Benefits

The liabilities for earned leaves that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the government securities (G-Sec) rates at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements as the result of experience adjustment and changes in actuarial assumptions are recognized in the Statement of Profit and Loss.

Material Accounting Policies Information and Notes to Consolidated Financial Statements

for the year ended 31st March 2024

iii Post-Employment Benefits

The Group operates the following post-employment schemes:

Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method. The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) rates at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the Statement of Profit and Loss.

Defined Contribution Plan

Contributions to defined contribution plans include provident fund contribution to government administered fund and are charged to the Statement of Profit and Loss as and when incurred. Such benefits are classified as defined contribution plans since the Group does not carry any further obligations, apart from the contributions made on monthly basis.

x) Taxes

Tax comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to a business combination or to an item recognized directly in equity or in other comprehensive income.

○ Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

○ Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

Material Accounting Policies Information and Notes to Consolidated Financial Statements for the year ended 31st March 2024

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized using liability method, to the extent that it is probable that future taxable profits will be available against which they can be used. The company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority.

○ Deferred tax for the period

Deferred Tax are recognised as an expense or income in the Statement of Profit and Loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

y) Investment in Subsidiary Company and joint ventures and Associates

Investments in subsidiaries, joint ventures and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss. However, the company has fully provided for the diminution in the value of the investments of two joint venture companies.

z) Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Expected Credit Loss:

In determining the allowances for credit losses of trade receivables, the Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in the provision matrix.

Note 35A: Contingent liabilities

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an on-going basis with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

"The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Deferred tax assets are recognised for all deductible temporary differences and any unused tax credits and unused tax losses.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred tax is measured based on the tax rates and the the tax laws enacted or substantively enacted at the balance sheet date and derecognized to the extent it is no longer probable that sufficient future taxable profits will be available against which such deferred tax assets can be realized. Deferred tax items are recognized in correlation to the underlying transaction either in the Statement of Profit and Loss or other comprehensive income or directly in equity.

Note 37: Leases

The Company determines whether an arrangement contains a lease by assessing whether the fulfillment of a transaction is dependent on the use of a specific asset and whether the transaction conveys the right to use that asset to the Company in return for payment. Where this occurs, the arrangement is deemed to include a lease and is accounted for either as finance or operating lease.

Leases are classified as finance leases where the terms of the lease transfers substantially all the risks and rewards of ownership to the lessee, because of the lease period of land 90 or more years then the fair value computation for finance lease will have no material difference comparing to its carrying value, so that the company considered as finance lease.

Notes to Consolidated Financial Statements for the year ended 31st March 2024

Note 37: Leases (Contd.)

The Company as lessee

Finance Lease:

Finance Leases are capitalised at the commencement of lease, at the lower of the fair value of the property or the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the statement of profit and loss over the period of the lease.

Defined benefit plans

Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service is entitled to gratuity on terms not less favourable than The Provisions of Payment of Gratuity Act, 1972. The scheme is funded with an insurance company in the form of a qualifying insurance policy.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market risk.

Notes to Consolidated Financial Statements for the year ended 31st March 2024

Note 39: Employee Benefit Obligations (Contd.)

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

b) Fair value hierarchy

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

- **Level 1:** Level 1 hierarchy includes Financial Instruments measured using Quoted prices. This include listed equity instruments, mutual funds that have quoted price. The Fair Value of all equity instruments which are traded in stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.
- **Level 2:** The fair value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.
- **level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in Level 3.

Note 46: Financial Risk Management Objectives And Policies

The Company is exposed to liquidity risk, market risk, credit risk. The company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Liquidity Risk

Liquidity risk is the risk that the company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

The Company maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2024 and 31st March, 2023. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis.

The following table shows the maturity analysis of the Company's financial assets and financial liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet date.

(B) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises interest risk and currency risk and other price risk. Financial Instrument affected by market risk include loans and borrowings in foreign currency.

a) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates. The Company is not carrying its borrowings primarily at variable rate.

b) Currency risk

The Company is subject to the risk that changes in foreign currency values impact the company's export revenue and imports of raw material and property, plant and equipment.

The following table demonstrate the sensitivity to a reasonable possible change in USD, EURO, JPY, Ruble and AUD exchange rates, with all other variables held constant. The impact on the Company's profit/(loss) is due to changes in the fair value of monetary assets and liabilities.

Note 46: Financial Risk Management Objectives And Policies (Contd.)

(C) Credit Risk

Credit risk is the risk of financial loss arising from counter party failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks.

The Company has a policy of dealing only with credit worthy counter parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, loans, receivables, investments, cash and cash equivalents, derivatives and financial guarantees provided by the company. None of the financial instruments of the company result in material concentration of credit risk.

The carrying value of financial assets represents the maximum credit risk. The maximum exposure to the credit risk was ₹ 46,529.17 lacs and ₹ 37,976.23 lacs as at March 31, 2024 and March 31, 2023 respectively, being the total carrying value of trade receivables, balances with bank, bank deposits, investments in debt securities and other financial assets.

Note 47: Foreign Currency risk

a) Hedged Foreign Currency Exposures :

Derivative instruments used by the Company include forward exchange contracts. These financial instruments are utilised to hedge future transactions and cash flows. The Company does not hold or issue derivative financial instruments for trading purposes. All transactions in derivative financial instruments are undertaken to manage risks arising from underlying business activities.

As at the end of the reporting period, total amount of outstanding foreign currency forward contracts is as below:
