Commenting on the update, Mr. Gopal Sarda, Group CEO, Kolte-Patil Developers Limited said, *"KPDL has closed Q4FY21 with strong sales momentum both on a YoY and QoQ basis that has allowed us to surpass our stated annual guidance. Q4FY21 has been our best ever sales quarter in the last six years both in terms of volume and value. Sales traction has been strong across markets of Pune, Mumbai and Bengaluru as well as across product categories. This evidences our robust sales & marketing machinery as well as brand recognition.*

We have had two successful launches recently – 'Universe' at 'Life Republic', Pune and 'Evara' at Borivali – both of which were launched towards end of Q3. We have sold substantial volumes in Universe, and at a higher realization compared to other sectors in the project, once again highlighting the strength of the township brand created at 'Life Republic'. Evara, which has been the first new launch in Mumbai in four years, has sold 54 units till Q4, which is 75% of the total inventory in the project. Contribution from projects in Mumbai and Bengaluru have now expanded to ~Rs. 300 cr, which is ~25% of FY21 Sales Value, diversifying the business portfolio further. We are happy with the way our Mumbai journey is shaping up, and expect to record a strong performance from this market in the coming year on the back of two new launches – Verve at Goregaon and Vaayu at Dahisar.

Also, very importantly, Q4FY21 was the best ever quarter for us in terms of collections – highest in the company's three-decade history. We have had consecutive record breaking quarters in terms of collections this year and have managed to reduce Net Debt further during Q4. Given our collections growth and lower interest outgo, we have delivered healthy free cash flows despite FY21 being a pandemic year.

Over the last year, the entire KPDL team came together and displayed unwavering focus in the midst of several pandemic induced uncertainties. Despite operating in Pune and Mumbai, two cities which have been most impacted by the pandemic, the recovery in our performance in H2 is quite noteworthy – Collections up 2.7x, Sales Value up 2.4x and Sales Volume up 2x compared to H1. In a year where we got only eight months to operate optimally, we have achieved strong recovery in both financial and operational parameters. We look forward to sustain this performance momentum and spirit; and create newer records in the coming year.”
