them. During the financial year, we launched five new residential projects including Brigade Topaz, Brigade El Dorado- Gallium and Helio and Brigade Cornerstone Utopia- Halycon.

We continue to set benchmarks in our Commercial projects which are designed for software development and business purposes. All our buildings are state-of-the-art and are offered on a built-to-suit and ready-to-occupy basis. They are located in prime commercial, business and IT localities. We have delivered best-in-class projects in Brigade International Financial Centre in GIFT City, Gujarat, World Trade Centres (WTC) in Kochi and WTC and Signature Towers in Bengaluru to name just a few. Our commercial brand is well recognised in the region with marquee clients.

Our retail projects offer strategic locations, convenient access, imaginative architectural planning, excellent front and back-end infrastructural facilities and a winning mix of retail outlets. We have already

delivered various top-class retail projects including Orion Mall, The Arcade, Orion Avenue in Bengaluru and Brigade Vantage in Chennai.

Brigade's hospitality offerings include star hotels, recreational clubs and convention centres, Celebrations Catering & Events and The Baking Company.

Since our inception in 1986, we have completed over 250 buildings aggregating to over 70 mn. sqft of developed space in residential, offices, retail and hospitality sectors across 7 cities.

We have been consistently ranked among the 100 Best Places to Work in India by Great Place to Work Institute for 10 years in a row. The Group has also been socially responsible and has vastly contributed to society. This responsible attitude and innovative mind-set combined with uncompromising quality of the projects over the years has created a reputed brand.

CMD's Communiqué

Dear Shareholders,

It has been an eventful year for us as we went through cycles of hope, despair and desolation. With an unprecedented victory in the general elections by a single party, we were hopeful that infrastructure and real estate development will see a huge upswing in activities and get the industry out of its cyclical 10-year business slowdown. We are no strangers to economic slowdown / recession, particularly for the real estate sector and had seen similar trends in the years 1988-1991, 1998-2001, 2008-2011 and now. Our current slowdown cycle for the industry started quite early in 2016-2017 due to demonetisation, the introduction of RERA and Goods and Service Tax. However, the hope set into despair as the liquidity crisis plagued the country furthering the negative consumer sentiment across the country. While we did see some green shoots by the third quarter of the financial year 2019-20, the year ended on a desolate note with the outbreak of the COVID-19 across the globe.

It was certainly a tough, uncertain and challenging financial year. In the past and even during the current slowdown, we did what we do best – treat challenges as opportunities. Brigade with its diverse portfolio, and more importantly due to following its core values, is managing not only to survive but also grow during the financial year.

We launched multiple projects across residential and commercial and ensured that we are on track to complete our projects. During the year, we saw a sale of 4.3 million square foot (msf), an increase of 44% over FY19 of which 3.9 msf was for residential including three projects in the affordable housing segment and 0.4 million msf of commercial projects. Further, we launched Real Estate projects of 5.28 msf during the financial year 2019-20 even as we added 151 keys to our hospitality portfolio taking our total keys to 1345 keys for financial year 2019-20. This was Brigade's best operational

performance in a financial year, where we have sold an area of 4.3 million sft and cash collections at ₹ 2,539 crores. All our business segments- Residential, Lease Rental and Hospitality, have performed strongly in FY20 and the same is reflected in the numbers. Brigade Group has posted revenue of ₹ 2,682 crores with Earnings before Depreciation, Interest, Tax & Amortization (EBDITA) margin of 27% at ₹ 713 crores and a Net Profit after Tax & Minority Interest of ₹ 131 crores for the financial year 2019-20.

The unprecedented crisis due to COVID-19 pandemic resulting in the nationwide lockdown has had a negative impact on all sectors. However, we expect business to gradually pick up from the third quarter of the financial year 2020-21. We had undertaken COVID-19 relief efforts and initiatives during the lockdown period for around 10,000 migrant workers at our various project sites. The details of the same are listed out in this Annual Report as you read further.

“

Our commitment to our customers ensured that we continued to deliver them best-in-class quality and top facilities in projects. Another core feature of our projects is focusing on sustainability and making them environment friendly.

”

Our commitment to our customers ensured that we continued to deliver them best-in-class quality and top facilities in projects. Another core feature of our projects is focusing on sustainability and making them environment friendly. I am proud to mention that we received a ‘Platinum’ rating by the US GBC Council for our Brigade Tech Gardens IT SEZ project at Bengaluru, which is a clear testimony of our commitment to the environment.

The year saw our continued commitment for our customers and public at large as we signed an MoU with the reputed St. John’s Hospital to set up a ‘Not for Profit’ health centre to start with, and a Hospital subsequently for the benefit of the neighbourhood at our large residential project - Brigade Meadows, Near Art of Living, Kanakapura Road, in Bengaluru South.

The Indian Music Experience (IME) museum was our contribution to the city of Bengaluru. We formally launched the IME Museum during

the financial year with an outstanding music event by Padma Bhushan Ustad Zakir Hussain in July 2019. Each one of us at Brigade is elated with the continued appreciation for the concept and content of IME, by all those who have visited the museum.

Looking forward, the financial year 2020-21 will be a challenging year due to the impact of COVID-19 and the consequent lockdown. The COVID-19 uncertainties will continue to haunt us, directly impacting each one of us, our business, our way of working and the economy. At Brigade, we are geared up to face these challenges and wade through these tough times. Let us stay positive and believe in our capabilities. Remember, The Sun will Rise and the Shadows will fall behind.

Your Company has been “Ranked 43” and recognised as one of India’s Top 100 Best Companies to Work For 2020, in one of India’s largest workplace study conducted by the Great Place to Work® Institute and

The Economic Times. Your Company has the distinction of being among India’s Top 100 Best Companies to Work For, 10 years in a row. Brigade Hospitality Services Ltd. has been ranked 3rd amongst India’s Great Mid-Size Workplaces in 2020 by the Great Place to Work Institute and The Economic Times. Employees are the greatest assets for any organisation and I wish to thank them for their contribution and take the Group to the next level of growth in the near future.

I take this opportunity to thank all the banks, business partners, employees and our customers for their unstinted support and actively contributing to our success. Equally, I am humbled with your continued support and grateful for standing with us in times of prosperity and adversities. We will continue in our efforts to keep delivering even better value to you.

Our COVID-19 Response

The outbreak of the COVID-19 pandemic declared by WHO in March, 2020 has had a huge impact across the globe. The COVID-19 continues to have negative impact on consumer sentiments, stakeholder sentiments and spending appetite across the country. While the nationwide lockdown period impacted on our Hospitality business and Retail Malls in terms of revenues and profits, we have resumed activities immediately after the lockdown was lifted across all our business segments with adequate social distancing norms. From a business perspective, we continue to be positive about all our business segments and already aligned our Hospitality and Retail businesses to the new normal caused by the pandemic. We have undertaken substantial reduction of overheads and hope to tide over this pandemic.

However, the brunt of the lockdown was borne by the migrant population. With our core values of being 'Responsible Socially', we supported around 9,500-10,000 migrant workers and around 3,500 families in Bengaluru with dry ration. We also distributed over 7 truckloads of rice in Chennai and provided bread loaves to over 11,500 people for the economically weaker section of society. Further, we provided around 3,65,000 meals during the lockdown period to migrant workers and the economically weaker section of the society. We remitted money to our migrant workers Jan Dhan Bank Accounts or gave it to them, if they did not have an account. Beyond such supports, we counselled the workers and also did engagement programmes like exercises, aerobics, yoga, etc.

Values at the Core

We believe that core values are the most important aspect of our business as they lay down the way we do business. Values support our vision, help us to shape the culture of our company and is the thread that strongly ties our multiple businesses across multiple segments.

Quality and Customer Centricity - Fairness, Innovation, Responsible Socially, Trustworthy. QC – FIRST, our core values, are the essence of our company's identity and

continues to guide each employee of the organization to work toward a common goal.

While real estate has been an unorganised sector for a long time, branded and organised players like us having strong core values have changed the way the industry functions.

Our core values – QC – focus on building trust amongst our customers by offering best-in-class product every time.

“ Values reflect what is important to the way you live and work.”

Anonymous

“ When your values are clear to you, making decisions becomes easier.”

Roy E. Disney

“ Great people have great values and great ethics.”

Jeffrey Gitomer

“ Our mission and core values drive our culture and are the foundation of our practice. We measure each decision against these standards.”

Chris Hanslik

“ Values are like fingerprints. Nobody's are the same but you leave them all over everything you do.”

Elvis Presley

It is only by keeping the ‘customer’ at the centre of our scheme of things and delivering on quality that we have firmly established a reputation of developing Grade A properties across residential, hospitality and commercial segments. In fact, a large percentage of our new property sales happen due to the strong testimonials of our existing customers. And no wonder, year after year, we have been honoured with awards from various organisations.

Along with QC, our other values - Fairness, Innovation and Trustworthy – continue to shape how we deliver to our customers, how we build our projects, how our customers continue to repose faith in the company. We set up a Real Estate focused startup Accelerator Program in 2016. The start-ups in the REAP programme support our quest to create innovation in the real estate segment. Some of these are being incorporated in our own projects like treating sewage without electricity or chemicals and creating better air quality. We offer the best value for money to our customers and have a host of flexible transparent offers to ensure that customers have nothing but love and trust for the company.

We take our Social Responsibility very seriously as we believe that it should be the karma of every organization to give

back to society and the people. As Jon Stewart, American comedian, director, writer, producer, activist and television host, quoted, “If you don’t stick to your values when they are being tested, they’re not values, they’re hobbies.”

COVID-19 has tested the values of each individual and companies. We are proud to say that not only as a company, but each employee lived up to the value of being Socially Responsible with elan. Our employees made voluntary financial contributions supporting the cause.

Also, we recently commenced the ‘Not for Profit’ Health Centre in association with the St. John’s Hospital at Brigade Meadows in Bengaluru South.

With over three decades of existence, we continue to build ‘positive experiences’ for all our stakeholders.

Management Discussion and Analysis

ECONOMIC OVERVIEW

The Indian economy has been amongst the fastest growing economies in the world. While the Financial Year 2018-19 (FY19) did close on a sub 7% GDP growth rate, it was expected that the economic powerhouse will outshine its previous year and be back on a northward trajectory.

The Financial Year(FY) began in midst of the general elections and saw a lull in the economic activity during the first quarter of the FY. With an unprecedented victory, it was expected that remaining quarters will show strong economic growth. However, the economy was plagued with a liquidity crisis of the previous FY which choked the credit flow to the economy, especially the Micro, Small and Medium Enterprises (MSME) sector. As the situation worsened, consumer sentiments too took a beating and resulting in low demand generation in the economy. Even as the Reserve Bank of India eased policy to tackle the evident slowdown, the government widened budget deficit goals to spur economic growth.

While we did see consumer sentiment moving in the positive zone in the third quarter of the financial year, the news of COVID-19 pandemic and its spread quickly in parts of the world and India dashed all hopes of the economic gains in the quarter and the whole FY. According to data released by the National Statistical Office, India saw its

economy growth hitting a 11-year low of 4.2% for FY20.

INDUSTRY OVERVIEW

Real estate sector comprises of four key segments – residential, offices, retail and hospitality.

The economic slowdown along with poor consumer sentiment played the devil to the residential segment. Coupled with the COVID-19 pandemic it further deteriorated the fortunes of the segment. The subdued sentiments saw consumers keen to focus solely on ready-to-move-in or almost-complete homes.

According to data from PropTiger, housing sales declined by 11% during the last fiscal to 3.22 lakh units across nine cities, but demand for ready-to-move-in flats increased by over 19 per cent, driven by nil GST and no risk of any delays. Further, the sales of under-construction apartments dipped 16% to 2,58,281 units in FY20 as against 3,08,113 units in FY19.

According to India Rating, the affordable housing segment (homes valued up to ₹ 50 lakh), had shown steady growth in the past 2-3 years. At the other end of the spectrum - Luxury and ultra-luxury segments - remained limited to end-user interest with no serious investor activity.

However, the silver lining for real estate player in the residential sector is that the top tier / Grade-I residential players

continued to generate strong sales due to the ongoing market consolidation. The other big news for the residential sector was the announcement of the alternative investment fund of ₹ 25,000 crores to facilitate the completion of stuck affordable and mid-segment homes.

On the Retail segment, the situation was no different as consumers spends took a major hit during the financial year, both in terms of purchase volumes and ticket sizes. Overall retail leasing activity reduced drastically. The struggles were faced by all segments of the economy including automobiles, fashion and telecom industries impacting space absorption. Nevertheless, few segments like F&B, family entertainment centres, cinemas and beauty/wellness boutiques saw some appreciable growth. This led to a drop in leasing activity in the major cities. According to ANAROCK Property Consultants, the top 7 cities saw retail leasing activity drop by 35% in 2019 over 2018 - from 5.5 mn sq. ft. in 2018 to 3.6 mn sq. ft. in 2019. However, the average vacancy levels improved by a percentage point to almost 14% in 2019 as against nearly 15% a year ago.

The government further relaxed FDI norms for single-brand retail and widened the definition of mandatory 30% domestic sourcing norms. While this will see increased space absorption by big players like IKEA and Apple, the FY did not witness much traction due to this norm.

During the FY, the Commercial segment did better than the other segments of real estate industry. Commercial segment had the highest absorption in the FY. The segment saw good traction from investors as private equity inflows continued to pour into this segment. As per estimates, commercial realty attracted the maximum private equity investments, totalling nearly \$3 billion in the first three quarters of the financial year. With the first Real Estate Investment Trust (REIT) being rolled out in FY19, India entered the league of mature markets. The successful REIT will be a boost for the segment as it will provide infusion of liquidity in commercial property and developers will come up with more projects in this segment. Further, the year also saw the emergence of the other sub-segments in the commercial space including co-living, warehousing, data centres, etc.

In the Hospitality segment Leading global investors and steady infrastructure development in metros as well as Tier 2 and Tier 3 are driving the demand for more hotels. "Industry-friendly policies, including GST reduction from 28% to 18% for premium and luxury hotels, reduction of corporate tax and UDAN (Ude Desh ka Aam Naagrik), the regional airport development and regional connectivity scheme aimed at making air travel affordable, will pave way for market demand. All these initiatives along with general positive business and consumer sentiments saw renewed interest by established real estate developers as

they announced expansion plans across key corporate markets in India. While the sector saw good growth in the first months of the year, the growth could not be sustained in the last quarter on back of two events in India. Firstly, with the introduction of Citizenship Amendment Act, the country saw communal unrest dampening travel across the country. This was followed by outbreak of COVID-19 and with prohibited travel across business and leisure sectors, the occupancy level dipped considerably. According to estimates by JLL, March 2020 saw hotels nationwide witnessing a decline of more than 65% in occupancy levels as compared to the same period of the previous year.

INDUSTRY AND COVID-19

The COVID-19 pandemic has come at a time when the industry was already battling a crisis and it will make matters only worse for lot of real estate players. For instance, we already saw a visible, direct impact on housing sales in the last quarter of FY20 as March is usually one of the biggest months for sales. With the lockdown and people working from home, office segment will see a huge disruption due to the pandemic with co-working spaces bearing the brunt. Further the continued fear of COVID-19 will see lower footfalls in malls and other retail outlets.

For the hospitality segment, it is very hard to quantify the actual impact of lockdown. It will be a long time before people start

travelling. Across industries, companies are trying to conserve cash and looking at cutting costs including travel of its employees. The businesses of hotels are very capital intensive and also have very high fixed costs and we see lot of players putting new projects on hold.

The other aspect of COVID-19 which will have a greater impact is the mass exodus of migrant population from the top cities. Even as construction activities have come to a virtual halt, we are not sure how soon normalcy returns to the industry and the migrant population returns back to work. Experts estimate that even after the lockdown is lifted, activity will only recommence gradually, which will cause project delays of anywhere between 4 to 6 months at the least. This will have a severe impact on developer's cash flows and project delivery capabilities, giving rise to wider credit negative implications and making it extremely difficult for the industry to get back on its feet for a long time.

COMPANY PERFORMANCE REVIEW - STRATEGIC, OPERATIONAL, FINANCIAL

Consolidated

FY20 saw our continuing focus to build top of line facilities, best in class design, world class quality and sustainable projects for our stakeholders. As a responsible developer, our goal is to enrich the lives of those who spend time in our buildings through human-centric, sustainable designs and seamless

operational best practices. We have also taken up the sustainable journey and continued to focus on developing a portfolio of green buildings across the country in the last couple of years. Our Brigade Tech Gardens, for instance, is a prime example of a paradigm shift from conventional office spaces.

During the year, we launched around 12 projects including nine projects in Bengaluru, two in Chennai and one in Mysuru. The projects launched aggregated to a total of 5.28 msf of which 4.16 msf was for residential including two projects in the affordable housing segment of 1.4 msf. Further, we launched commercial projects of 1.12 msf and added 151 keys to our hospitality portfolio.

The financial results for FY20 has been our best year since inception operationally. We did the highest ever sales of 4.3 msf during the year. The consolidated revenue for FY20 stood at ₹ 2,682 crores versus ₹ 3,027 crores in FY19. The real estate segment clocked a turnover of ₹ 1,974 crores in FY20 as compared to a turnover of ₹ 2,398 crores in FY19. It has to be noted that the decline in revenue is due to the disparity in revenue recognition criteria as per the Ind-AS115 which is being followed by all real estate companies.

The financial results for FY20 has been our best year since inception operationally. We did the highest ever sales of 4.3 msf during the year. The consolidated revenue for FY20 stood at ₹ 2,682 crores and real estate segment clocked a turnover of ₹ 1,974 crores.

sales and collections in the residential business for Brigade Group. Riding on the success of a record 3 mn sft area sold in FY19, the overall sales volume in FY20 saw a 44% growth in volume 4.3 mn. sft. The sale value grew by 45% from ₹ 1,644 crores in the financial year 2018-19 to ₹ 2,377 crores in the financial year 2019-20. This growth was enabled by a series of new launches, significant push on marketing the products through channel partners and a significant strengthening of sales team quality and capability. The year saw four new projects being launched in Bengaluru and Chennai. Despite the slowdown in the last month of the year due to Covid-19 pandemic and the nationwide lockdown, the fourth quarter of the financial year 2019-20 was the best ever as we achieved 1 mn sft of new sales. This was enabled by launches in Whitefield, Bengaluru as well as two projects in Chennai.

During the year, we launched 5.28 mn sft in residential projects with a pipeline of 2.65 mn sft for the coming financial year, as the market sentiment was severely impacted by the pandemic and lockdown. We expect the effect to be short-lived and hope to see a revival by the second half of the financial year.

• Affordable Housing

Brigade has initiated a series of projects with an intent to contribute to the affordable housing mission of Government of India. Our objective is to provide housing that fits within the budget of the common man, yet ensuring that such projects are designed

with all the amenities such as community gardens, swimming pool, community areas which are the hallmarks of Brigade projects. We launched three blocks in Brigade El Dorado in Aerospace Park in North Bangalore, a proposed 50 acre township to be developed over multiple phases. The project has received an overwhelming response from customers, since almost all units are under 45 lakhs and 1% GST.

• **Brigade Residences at World Trade Centre, Chennai**

The year also saw the launch of a one-of-a-kind project, the Brigade Residences at the World Trade Center, Chennai, in Perungudi, OMR, with 298 units of 3 and 4 bedrooms in a 26-storied twin tower residential development, adjacent to the World Trade Center, Chennai. Despite the market conditions, the high-end project has done well thus far, showing there is appetite for unique, differentiated product from a trusted name.

The revenue in the real estate business segment during the year was ₹ 1,974 crores, which accounts for 74% of the total revenue of the Company. The EBITDA in the business segment for the year came in at ₹ 392 crores, which accounts for 55% of the Company's total EBITDA. The EBITDA margin for the year has been 20%.

As of March 31, 2020, a total of 15.62 mn. sft. of real estate space is under development.

Over the years, we have focussed on building a robust commercial / retail lease portfolio. We believe that we can offer our stakeholders a better valuation and return on investment via our lease portfolio.

It is a testimony to the world class quality and amenities provided in our office projects that they have become a choice for top Indian and numerous Fortune 500 Companies, prominent MNCs and Knowledge Leaders.

Retail:

Our Retail portfolio is currently 1.04 mn. sft. generating a revenue of ₹ 143 crores in the financial year 2019-20 which forms part of the overall leasing income. Orion Uptown in Bengaluru with 0.27 mn. sft. will be operational in the financial year 2020-21. "Orion Uptown" is the retail extension of "Brigade Golden Triangle", an integrated mixed –use development with strategically located and equidistant from the international airport, MG road and Whitefield, Bengaluru.

At Brigade, we have always stood for adding value to the spaces we create. A defining feature to our developments has been offering our occupants, be it residential or office spaces, easy access to their lifestyle needs. One way of doing this is by adding retail component to our mixed use developments in the form of Shopping Arcades. The Arcades are uniquely positioned retail offerings for the functional requirements and daily essentials of the campus and neighbourhood such as supermarkets, restaurants, ATM's, clinics, pharmacies, spas and salons.

Hospitality

The Group has a total of 1,345 keys which are operational as on March 31, 2020. The revenue, from the hospitality segment, for the financial year 2019-20 was ₹ 334 crore accounting for 12% of the total revenue. The revenues have increased by 8% as compared to the previous financial year. The EBITDA

for the segment was ₹ 90 crore making 12.6% of the total EBITDA of the Company. The EBITDA margin for the year was 27%. The hotel assets are

under a wholly owned subsidiary of the Company to enhance the focus and tap the strong growth prospects in this segment.

COVID-19 IMPACT AND OUTLOOK

The COVID-19 pandemic has created negative impact on customer sentiments, stakeholder sentiments and spending appetite due to nation-wide lockdown in the short term due to economic uncertainties. Lockdown period had impact on the Hospitality business and Retail Malls in terms of revenues and profits. Residential business was impacted as the demand remain muted during the lockdown period. During the lockdown period we had intensified our strategy of online sales to reach out to prospective customers. We resumed business activities immediately after the lockdown was lifted with adequate social distancing norms.

We have a positive outlook on all our business segments. Residential business is slowly gaining traction. We are seeing steady increase in the number of bookings from NRI customers. The demand for large size units and finished inventory is also gaining momentum. Office business remained stable with 95% lease rental

collections during the lockdown period. The Hospitality and Retail businesses are being aligned to the new normal caused by the Pandemic. Substantial reduction in overheads across all business segments was carried out during this period.

Organised developers like us having a strong balance sheet are in good position to manage the operations and continue to maintain liquidity to meet all business obligations.

In this dynamic situation, it is difficult to ascertain the impact on the business segments for the financial year 2020-21.

RISK REVIEW

Brigade operates in various domains of real estate like residential, commercial-office spaces & retail and hospitality which leverages risk to a certain extent. We have implemented robust risk management policies and guidelines that set out the tolerance for risk and our general risk management philosophy. We believe that a proactive approach in identifying, analysing, evaluating, mitigating, monitoring and reporting the risks associated with the business is the key to sustained operations without any disruption. It thereby helps in protecting shareholder value, improving governance process and achieving strategic objectives.

Some challenge for future developments include inter alia, credit risks, liquidity risks, counter party risks, regulatory risks, commodity inflation risks and market risks.

The focus of risk management is to assess risks and deploy mitigation measures. This is done by integrating concepts of defining internal control, ICFR, internal audits, COSO 2017

framework, strategic planning and periodic review meetings of the risk management committee of the Board.

INTERNAL CONTROLS

Brigade believes that Internal Control is one of our key pillars of governance and adequate internal control framework which has been instituted considering the nature, size and risks in the business. Our framework is supported by documented policies, guidelines and procedures to monitor business and operational performance. This is done to ensure business integrity and for promoting operational efficiency. This framework is complimented by a management information and monitoring system. Our Internal Audit Department and independent audit firms conduct periodical audits to ensure adequacy of internal control systems, adherence to management policies and compliance with applicable laws and regulations.

The scope of work includes:

- Reviewing of internal controls on accounting, efficiency and economy of operations
- Presenting to the audit committee the findings of the internal auditor's audit
- Recommending better practices by the internal auditors
- Reporting on the status of implementation of their recommendations
- Continuously reviewing of the efficiency and effectiveness of the internal controls based on the reports from our internal audit team

and the Internal Auditors Audit Committee and board reviews

Environment Health and Safety Strategy

EHS is an integral part of our routine work with defined EHS policy at Brigade and is regarded to be of the highest importance as an ISO 14001:2005 and ISO 45001:2008 (OHS) certified company, safety is viewed with utmost importance with references to safety compliance in terms of the Work orders for trade contractors as well.

Our proactive approach through periodic review of statutory approvals is key to ensuring all compliances are met on the project and extensions applied for on time.

We have well established procedures for EHS Operational controls. The control mechanism is defined for the all key aspects that is necessary for effective EHS management. The operational control manual defines the Objective of the Control, the scope, the responsible departments/ teams followed by the tried & tested procedures with list of records required for the process.

We stringently follow the procedures and safety plans established to mitigate the identified hazards and risk and environmental impacts. In addition to it, we have a EHS Annual Activity Plan. Our EHS activity plan identify the key activities that are undertaken during construction along with the periodicity. The activity plan includes Safety Hazard

Identification and Risk Assessment (HIRA) and Environmental aspect impact evaluation, compliance to statutory requirement, monthly 'Helmet of Honour' rating, internal audits. External audits and training calendar.

We follow the HIRA mechanism for all activities. This procedure is applicable for all the activities which have impact on Environment Health & Safety. Our vendor partners submit safe work method statements which will undergo our scrutiny before it is implemented at site. Considering that the building is a high-rise, our focus on height works, deep excavation, hot works shall be highest. The equipment's shall undergo regular maintenance with periodic inspection by third-party.

Activity specific Checklists and Permits are followed to ensure safety of workmen and workplace. All the construction Emergencies are listed, detailed emergency response plan is prepared considering the roles and responsibilities of the Emergency response team. Trainings are conducted to Emergency response team and regular mock drills are conducted to check the preparedness of the Emergency response team.

EHS awareness trainings are conducted regularly to educate the vendor partners on the system implementations, monitoring and ensure safe work place. Workers undergo EHS induction, job specific training and regular toolbox talks are held to educate on the hazards and risks associated with the job, procedure

to be followed and to use applicable personal protective equipment's.

Monthly Safety committee meetings are held with 50% participation of contractor representatives to record and address the issues.

We have a sustained initiative started in 2009 for monthly rating the EHS system implemented at project sites known as Helmet of honor rating. Every month Helmet of Honour awarded to the maximum scorer contractors in the Engineers meet. We have yearly EHS Star awards known as Brigade Platinum Star, Golden star and Silver star for best EHS implementation.

Safety week celebrations in the month of March to motivate and create awareness among work force by organizing skit, Quiz, safety poster painting competition, athlete meet and exhibition on Personal Protective Equipment's. World environment day, Road safety week, Fire safety week are observed.

HUMAN RESOURCES

We at Brigade with over 3 decades of market presence and many successful projects creating landmarks, have been able to grow and sustain because, we Learnt, Collaborated, and Improvised at every opportunity. Collaboration has been our success mantra and an effective tool for achieving business goals. We believe that a strong collaborative work culture and engaged workforce is what creates the most productive workplaces. Our people philosophy of ensuring

corporate Credibility, Care for individuals and Career opportunities have kept our team engaged at every level. Our focus is always to enhance people efficiency through optimised resources, enhanced performance and market competitiveness.

HR initiatives in 2019-20 were in line with these priorities with concentrated efforts on anchoring our values (QC-FIRST) and people practices like Talent acquisition, Performance management, Talent development, Compensation and Benefits. Increased employee communication channels and frequent interactions have ensured creating an open and transparent environment with greater employee accountability. In the Financial Year 2019-20, we have strengthened our practices to drive cross functional collaboration, customer & business focus through some of the initiatives listed below:

1. Talent Acquisition – Brigade’s way of sowing the seed for the future.

- TA Automation - “BHARAT” – “Brigade’s Hiring and Resume Administration Tool” is the automated Talent Acquisition and pre-Onboarding System at Brigade. BHARAT allows us to manage the full process of Talent acquisition from Requisition to Onboarding on one platform.

2. Rewarding @ Brigade- A means to Appreciate Brigadiers for making

the difference and telling them- This is the difference we needed.

- STAR AWARDS – Our commitment to help employees achieve higher performance standards. STAR (Special Thanks & Recognition) Awards @ Brigade are the candy floss, the expression of high performance and the value generated by an employee. They act as the echoes of extraordinary performances and the value created. Our STAR awards help to sweeten the relationship between the organization and the high performers and create a sense of self-assurance within the employees. It instils a sense of pride to express that their work is being valued and is of great significance.
- Exchanging - Thank You Cards – “A Small moment with Big Ripples of Camaraderie and Compassion among Brigadiers. We have designed physical and digital “Thank you” cards that are made available at ease at designated places and on the HRMS platform which makes it convenient to express the feelings of gratitude. The design and message of the Thank you card envisaged to give the right message. We have ensured to capture every single emotion and each card has a “Capitative emoji and a heart touching message” which invariably brings smile on the

face of the receiver.

- The Dogma of Value Cards: We do not act Rightly because we have Virtue or Excellence, but we rather have those because we have acted rightly. We at Brigade, Appreciate, Acknowledge, Reward, and Emulate the person who lives by our Brigade core values – QCFIRST. Recognition for the help extended is done far and wide but recognition for the character and the value demonstrated is something that makes Brigade stand out. To add to the brilliance... this card is given by anyone to anyone irrespective of the levels, designations or functions they belong to. These Cross functional appreciations have fostered teamwork, built camaraderie, broken the barriers, and built strong relationship which has become a strong pillar and sustained Brigade.

3. Initiatives @ Brigade – Brigade’s way of expanding the horizons and achieving milestones:

- Did You Know: In the era of Information Technology, everyone has access to lot of more information than ever, yet employees are struggling to find the Right Information in the midst of the informational noise, as Knowledge silos become harder and harder to break. In this regard we have our DYK Series to educate and engage employees and support them in being the best versions of themselves.

Our DYK Series is an internal communication which are shared as a mailer to all the employees of Brigade every week with a Curated information on varied topics.

- **Knowledge Series:** Knowledge is for awareness or understanding of someone or something, such as facts, information, descriptions, or skills, which is acquired through experience or education by perceiving, discovering, or learning. Knowledge Series at Brigade helps Brigadiers in their personal growth by helping them widen their skillset. Knowledge series is communicated in the form of a mailer to all the employees of Brigade fortnightly.
- **Capability Building Training Program for – Sales Team:** The real estate industry has significantly changed over the last few years and continues to change with each passing day. In our kind of industry where product differentiation does not play a huge role, customer service is a major differentiator. Hence, it is imperative that we create and deliver a consistent and impeccable experience to our customers throughout the sales journey. To accentuate this, we organized a comprehensive training cum certification program for our staff.

We have tied up with Industry Best consultants specialised in Sales

Customer Centricity Training

training with focus on providing practical, highly customised, and implementable solutions through its consulting and organisation development engagements. 100+ employees from Residential Sales have undergone this training. The trained employees were assessed and certified as “Sales Professionals” and this is a mandatory programme for any sales personnel at Brigade. Brigade L&D team is relentlessly working on enhancing the capability of employees and help company achieve its “VMVG”. (Vision, Mission, Values & Goals).

4. Brigade Symphony: We found solution to every problem by collaborating. We divided the task, Ignited Teamwork and multiplied success through these initiatives.

- We launched AIM-BIG- All Ideas Matter! Brigade Ideas Galore – The SPIRIT of innovation because every Innovation Begins with an IDEAL- AIM-BIG is a means to INSPIRE... INNOVATE... IGNITE Imagination amongst Brigadiers. This initiative provides an opportunity to all the Brigadiers to bring forward ideas that they think will add value to the business or to their work. All ideas shared on this form will go through a evolutionary process before becoming a “AIM-BIG Idea”. Every idea is received with respect and suitably rewarded.
- BOOST an initiative to foster the culture of putting the “CUSTOMER” in the centre of everything. We emphasise with every brigadier that, No matter the department, every single person in the organization should understand sales as at the end of the day, it's everyone's job to sell the brand and impact customer. In order to enable every Brigadier to deeply imbibe our Core Value – ‘Customer Centricity’, and experience the complete sales process, we have launched the BOOST program. BOOST is an acronym - Brigadier Operate On Site as Sales Champion To experience moments of truth. As part of this drive, every brigadier (barring the direct sales team) will spend 3 days in a year (Friday to Sunday) as a Salesperson on site during their respective month of joining Brigade. During these 3 days, brigadiers will wear the hat of salesperson and shadow the assigned Sales Resource at the Project Site, meet & assist customers, and answer their queries. The learnings from the program will serve as a significant feedback on all that needs to be collectively translated back to the workplace to delight and create a wow factor for the ultimate customer.
- Big-6-Employee Engagement Club to achieve the 3 C's – Communicate, Collaborate & Connect- Different people with Different Perspective to demonstrate “1+1 ≠2 but =11”. Big-6- Employee Engagement Club is a cross functional team with an underlying theme of 3 C's.
 - o Connect employees Emotionally
 - o Communicate Core Values
 - o Collaborate- Create cross functional teams and enhance Trust.

Cross functional team driving “Employee Engagement Initiatives” breaks down silos and acts as a gateway for business alignment, greater involvement and comprehend customer centric mindset. To enable this, all employees at Brigade are divided into 6 teams each representing our “Core Value- QC First”, Viz, “Quality Team”, “Customer Centricity Team”, “Fairness Team”, “Innovation Team”, “Responsible Socially Team” and “Trust Team”. Through this we intend to connect employees with Brigade Core Values, resonate their personal values and have the sense of belongingness. Under the banner of Big-6-Employee Engagement Club we conducted following competitions

- Story Writing Competition on Core Values
- BPL- Big6 Premier League
- Dussera competitions
- Value Workshop: QC FIRST - Brigade's Core values is the

essence of Brigade's identity, the Principles and belief system. QC FIRST Core values is ingrained in every brigadier through "Living the values- Value workshop" run by our Business Leaders. All the way through the workshop we make our employees understand:

- The Meaning of Our Core Value: "Quality", "Customer Centricity", "Fairness", "Innovation", "Responsible Socially", "Trust".
 - The values of the employee themselves
 - Alignment of the values of the employee and Brigade's values
 - Framework to understand the use of values in decision-making
- Blood Donation Camp - Every blood donor is a life saver.

Blood cannot be manufactured it can only be collected from volunteers. There's no substitute for blood. One donation can save 3 lives and there is no greater joy than gifting life to someone. Our fellow Brigadiers enthusiastically volunteered in the Blood Donation camp conducted at Brigade. This year we conducted this camp not only at our Corporate Office but also at our Project sites and our Clubs. We collected over 500 bottles of blood under the auspices of the Indian Red Cross.

Leadership Development Programme

Dasara Celebration 2019

5. Employer of Choice: Recognised as the “Great Place to Work” for 10 Consecutive Years.

At Brigade, it is not about doing ‘more’. It is about doing things ‘differently’. We are focused and committed to building a culture where employees trust the people they work for, take pride in what they do, and enjoy working with peers and other colleagues. For consecutive 10 years in a row, we have excelled on the five dimensions of building a high trust, high performance culture (Credibility, Respect, Fairness, Pride, Camaraderie) and have been recognized as India’s best company to work for. Our ranking this year in one of the India’s largest workplace study conducted by The Economic Times & Great place to Work Institute, has seen a significant shift from 69 to 43, among the top 100 companies across different industries. We have also retained the feat of being among the best in the Industry – ‘Construction & Real Estate’. This recognition is a testimony of our commitment and solidarity to the organizational goals and reinforces our strong belief that people are one of the prime movers in fuelling organizational growth & success.

6. BCMS:

Brigade Compliance Management System- an effort by Brigade to

be a statutory complaint company. We strongly believe that, It takes less time to do things right than to explain why you did it wrong. To ensure this, “Statutory Compliance tool – BCMS” was launched. BCMS will help us track all compliances at our offices and project sites online. It captures Compliance under the various acts like BOCW, Contract Labour, Factories act, PF Act, ESI Act, Workmen Compensation, Shops and Establishment Act, Interstate Migrant Workmen Act, Payment of Bonus, etc. Through BCMS we are able to track notices received and responses. Project site heads can view online status of all compliances. Quarterly Audits of our Vendors/contractors at project sites by 3rd Party Organization nominated by Brigade would now be done online by checking these records updated by the vendors. Reports and analytics of all Compliances which are accurate and up to date can be generated.

We are truly grateful to all our Employees, Senior Leadership team and Management for their unstinted support and cooperation in the financial year 2019-20 which helped us to achieve the milestones and make “Brigade The Best Place to Work”.

OUTLOOK

The country's real estate sector has seen a slump since late 2016 due to demonetisation, goods & services tax and RERA. Since this the slowdown in the economy along with the liquidity crisis have only aggravated the problems of the real estate companies. And now a virus-driven lockdown dealt a fresh blow.

According to a report by KMPG, the Indian India's real estate sector is estimated to face losses of as much as ₹ 1 lakh crore by the end of the current FY21 due to the COVID-19 pandemic. The report suggests that the pandemic will have serious repercussion of the real estate industry in the next 6-12 months and things are likely to look up only after 18-24 months.

While continued liquidity crisis might see to a further contraction of residential sales, we are hopeful that the new ways of working from home will put in more money in the hand of people and spurring the demand for residential homes. However, the demand in the commercial segment is expected to see upswing, especially from the IT and BPM sector is likely to continue driving demand for office space. While Work for Home will become a reality, however companies will have to be much more conscious of their own responsibility

and give sufficient space to the people. So this might see a an increased requirement of office space will happen, even as companies focus on partial working from home. The industry also needs to tap into the untapped real estate segments such as data centres, integrated supply chains, warehousing, self-sustaining industrial parks, etc.

The Hospitality and Retail businesses are being aligned to the new normal caused by the Pandemic. We are confident that these businesses will revive in the second half of the financial year 2020-21.

We are hopeful that the government supports the industry, given that it is one of the largest contributors to employment and directly impacts the GDP growth in the country. The government can give multiple sops stamp duty waiver or tax benefit to encourage a positive sentiment for the industry.

From our perspective, it is heartening to note that the industry is seeing some signs of mild consolidation as consumers are preferring grade A developers with better brand and execution ability. With a well-established, premium brand, we will certainly benefit from this shift in the coming years as we continue to deliver best-in-class projects with top design and appeal.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2020

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To
The Members,
Brigade Enterprises Limited
Bengaluru.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Brigade Enterprises Limited** (hereinafter called the company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the **Brigade Enterprises Limited** books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2020 complied with the statutory provisions listed hereunder and also that the Company has proper Board-Processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by **Brigade Enterprises Limited** ("the Company") for the financial year ended on March 31, 2020 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;¹
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;²

ANNEXURE-9

I. Conservation of Energy

(a) Energy conservation measures taken:

The conservation of Energy and Water, and the protection of the environment – air, water & Land from pollution – is an integral part of Design and Development. The cost of power / fuel consumption doesn't constitute a major cost of the project. This cost per se is the power and fuel purchased for construction process such as operation of cranes, lifts, conveyors lighting, welding, cutting, drilling and operation of other electrical instruments at the project sites. The buildings being Mega and High raised structures it is imperative to use power assisted gadgets for the safety of the workers.

However the company has been taking energy saving measures viz.,

- Design of Energy Efficient Buildings by carrying out Energy, Fresh Air and Day Lighting Simulation.
- All light fixtures installed in the projects are energy efficient and Smart LED lights with motion sensor, timers and dimmers.
- Dimmers are used to optimize the use of energy efficient lighting systems
- Use of occupancy sensors in sparingly used area in the buildings, viz., Rest Rooms, Change Rooms, Corridors, Staircase, Car Parking / Basement Area, etc.
- Passive architectural features such as planting tall growing and large canopy trees for shading the building, design of fixed shading device on the building façade, cross ventilation for air circulation, high reflective paints on the roof, etc. are used to reduce the energy demand for the Buildings
- It is estimated that companies' commercial projects save 15-20% energy when compared to base case of Energy Conservation Building Code (ECBC).
- The Window to Wall ratio in the buildings are optimized to reduce the Air conditioning energy demand at the same time does not increase the need for artificial lighting within the projects.
- The glazed glass façade used in the construction of the buildings are scientifically selected after many iterations of building material simulation to maximize

the use of Day-light in offices and projects of the company and at the same time not increasing the air conditioning load by suitably shading the building.

- Non-air conditioned buildings are designed with cross ventilation to minimize the dependency on fans, coolers, split air conditioners, etc.
- Utilization of solar energy wherever possible for water heating and lighting in all the projects of the company
- Solar PV Panels are installed in all commercial projects of the company to harness renewable energy sources
- Green Power is purchased by getting into a long term agreement with Green Energy Developers, thus encouraging installation of renewable energy systems.
- Bureau of Energy Efficiency (BEE) certified electro-mechanical equipments (Viz., Pumps, Drives, Compressors, etc.) are used in the project.
- Green Pro Certified construction materials are used to reduce the embodied energy of the buildings
- Use of Energy efficient Water Cooled Air Conditioning System with high coefficient of performance in all Commercial Buildings developed by the company
- Use of low flow water fixtures to reduce the water demand and energy requirement for pumping water in all the projects of the company
- Use of waterless urinals in all office buildings by the company
- Adopting Green Building norms in all our projects of the company
- 100% of the sewage effluent generated from the all the projects of the company is treated in scientifically designed Sewage Treatment Plant and is made fit for reuse for toilet flushing, landscaping and Make-up water for water-cooled air-conditioning systems. This reduces the dependency on municipal water supply which is pumped from far off location; indirectly saving energy and fresh water.
- Charging points for Electric vehicles are installed to encourage use of alternative fuel

- The company's projects are in close proximity to public transport or shuttle services are provided for free of cost to all the occupants to the nearest Bus station
- Design of landscape with native and drought tolerant tree species to reduce the water demand and save energy for pumping
- Installation of smart app based electrical systems to control and optimize their use
- Reduce energy wastage due to distribution by designing the right sizing of copper cables
- Optimizing the use of back-up power systems (DG Sets) by using synchronizing panels and sensors
- Preventive maintenance for all electrical and electro-mechanical installations are prepared and handover to facilities team or to the respective buildings associations as guidelines to ensure right usage of systems
- IOT sensors for collection of data are installed for all water and energy consuming fixtures or devices.
- Interface with SCADA system of utilities (Use of Building Management Systems- BMS)
- Effective Rooftop Rainwater and Storm Water harvesting systems are implemented in all company projects to conserve water & energy. The Rooftop rainwater is collected in underground sumps and used for domestic purposes after suitable treatment
- Modern construction technologies (Viz., Precast / Prefabricated, Aluminum Form Work, etc) are adopted to minimize construction and demolition wastes. This also reduces the time taken for construction.
- Use of Manufactured Sand (M-Sand) instead of natural river sand in all our projects to avoid negative impacts of sand mining.
- Use of ready mix concrete (RMC) along with curing agents for construction reduces the negative impact of Ambient Air and also conserves water respectively.

- (b) Additional investment and proposals, if any being implemented for reduction in consumption of energy.

The Company as a matter of policy has a regular and ongoing programme for investments in energy saving devices, wherever possible, used in construction. Studies are being made to reduce energy consumption and make suitable investments in this area, if necessary.

- (c) Impact of measures taken at (a) and (b) above for reduction of Energy consumption and consequent impact of the same

The impact of the measures taken cannot be quantified as the company is in the construction field

- (d) Total energy consumption and energy consumption per unit as per form – A of the Annexure to the rules of industries specified in the schedule thereto:

Standalone Financial Statements

Independent Auditor's Report

To the Members of Brigade Enterprises Limited

Report on the Audit of the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying Standalone Ind AS financial statements of Brigade Enterprises Limited ("the Company"), which comprise the Balance sheet as at March 31, 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the Limited Liability Partnership's (LLP's), the aforesaid Standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance

with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 2.3 to the Standalone Ind AS financial Statements for the year ended March 31, 2020, which describes the management's evaluation of COVID-19 impact on the future business operations and future cash flows of the Company and its consequential effects on the carrying value of its assets as at March 31, 2020. In view of the uncertain economic conditions, the management's evaluation of the impact on the subsequent periods is highly dependent upon conditions as they evolve.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the Standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Standalone Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
Recognition of Revenue from Contract with Customers (as described in note 21 of the Standalone Ind AS financial statements)	
The Company applies Ind AS 115 for recognition of revenue from real estate projects. The revenue from real estate projects is recognised at a point in time upon the Company satisfying its performance obligation and the customer obtaining control of the underlying asset, which involves significant estimates and judgement. For revenue contract forming part of joint development arrangements that are not jointly controlled operations ('JDA'), the revenue from the development and transfer of constructed area/revenue share with a corresponding land/ development rights received by the Company is measured at the fair value of the estimated construction service rendered by the Company to the land owner under JDA. Such revenue is recognised over a period of time in accordance with the requirements of Ind AS 115. For contracts involving sale of real estate unit, the Company receives the consideration in accordance with the terms of the contract in proportion of the percentage of completion of such real estate project and represents payments made by customers to secure performance obligation of the Company under the contract enforceable by customers. The assessment of such consideration received from customers involves significant judgment in determining if the contracts with customers involves any financing element. Application of Ind AS 115 involves significant judgment in determining when 'control' of the property underlying the performance obligation is transferred to the customer. Further, for revenue contract forming part of JDA, significant estimate is made by the management in determining the fair value of the underlying revenue. As the revenue recognition involves significant estimates and judgement, we regard this as a key audit matter.	Our audit procedures included, among others, the following: - We have read the accounting policy for revenue recognition and assessed compliance of the policy in terms of principles enunciated under Ind AS 115. - We assessed the management evaluation of determining revenue recognition from sale of real estate inventory property at a point in time in accordance with the requirements under Ind AS 115. We obtained and understood the revenue recognition process and performed test of controls over revenue recognition including determination of point of transfer of control, completion of performance obligation and fair value of estimated construction service under JDA, on a sample basis. - We performed test of details, on a sample basis, and tested the underlying customer/JDA contracts and sale deed/ handover documents, evidencing the transfer of control of the asset to the customer based on which the revenue is recognized at a point of time. - We obtained the joint development agreements entered into by the Company and compared the ratio of constructed area/ revenue sharing arrangement between the Company and the landowner as mentioned in the agreement to the computation statement prepared by the management, on a sample basis. - We obtained and tested the computation of the fair value of the construction service under JDA, on a sample basis. - We tested the computation for recognition of revenue over a period of time for revenue contracts forming part of JDA and management's assessment of stage of completion of projects and project cost estimates on test check basis. - We assessed the disclosures made by management in compliance with the requirements of Ind AS 115.

Recording of related party transactions and disclosures (as described in note 34 of the Standalone Ind AS financial statements)

The Company has undertaken transactions with its related parties in the ordinary course of business at arm's length. These include making new or additional investments in its subsidiaries, associates and other related parties and lending and borrowing of Inter-corporate deposits ('ICD') and other transactions to or from the related parties.

We identified the accuracy and completeness of the said related party transactions and its disclosure as set out in respective notes to the Standalone Ind AS financial statements as a key audit matter due to the significance of transactions with related parties and regulatory compliance thereon.

Our audit procedures included, among others, the following:

- Obtained and read the Company's policies, processes and procedures in respect of identifying related parties, obtaining approval, recording and disclosure of related party transactions.
- Read minutes of shareholder meetings, board meetings and minutes of meetings of those charged with governance in connection with Company's assessment of related party transactions being in the ordinary course of business at arm's length.
- Tested, on a sample basis, related party transactions with the underlying contracts, confirmation letters and other supporting documents.
- Agreed the related party information disclosed in the Standalone Ind AS financial statements with the underlying supporting documents, on a sample basis.

Carrying value of inventory and land advances/deposits (including refundable deposits paid under JDA) (as described in note 7,9 and 10 of the Standalone Ind AS financial statements)

As at March 31, 2020, the carrying value of the inventory of real estate projects is ₹ 297,569 lakhs and land advances/deposits of ₹ 31,636 lakhs.

The inventories are carried at the lower of the cost and net realisable value ('NRV'). The determination of the NRV involves estimates based on prevailing market conditions and taking into account the estimated future selling price, cost to complete projects and selling costs.

On account of COVID-19 outbreak and country-wide lockdown thereon, the Company conducted its annual inventory count at a date subsequent to year-end and performed the rollback workings.

Deposits paid under joint development arrangements, in the nature of non-refundable amounts, are recognised as land advance under other assets and on the launch of the project, the same is transferred as land stock under inventories. Further, advances paid by the Company to the seller/ intermediary towards outright purchase of land is recognised as land advance under other assets during the course of transferring the legal title to the Company, whereupon it is transferred to land stock under inventories.

The aforesaid deposits and advances are carried at the lower of the amount paid/payable and net recoverable value, which is based on the management's assessment including the expected date of commencement and completion of the project and the estimate of sale prices and construction costs of the project.

We identified the assessment of the carrying value of inventory and land advances/deposits as a key audit matter due to the significance of the balance and the involvement of estimates and judgement in the assessment.

Our procedures in assessing the carrying value of the inventories/land advances/deposits included, among others, the following:

- We read and evaluated the accounting policies with respect to inventories/land advances/deposits
- We assessed the Company's methodology applied in assessing the carrying value under the relevant accounting standards based on current economic and market conditions including effects of COVID-19 pandemic, applied in assessing the carrying value, launch of the project, development plan and future sales.
- We obtained and tested the computation involved in assessment of carrying value and the net realisable value/ net recoverable value including effects of COVID-19 on test check basis.

We compared the realisable/recoverable amount of the asset to the carrying value in books on test check basis.

- We made inquiries with management to understand key assumptions used in determination of the net realisable value/ net recoverable value including effects of COVID-19 on test check basis.
- On account of COVID-19 outbreak and country-wide lockdown thereon, we observed the physical verification of inventory at a date subsequent to year-end and tested the rollback procedures performed by the Company, on a test check basis.

Carrying value of Investments and loans and advances made by the Company in subsidiaries and associate entities (as described in note 6 of the Standalone Ind AS financial statements)

As at March 31, 2020, the carrying values of Company's investment in subsidiaries and associate entities amounted to ₹ 173,645 lakhs. Further, the Company has granted loans and advances to its subsidiaries and associates. Management reviews on a periodical basis whether there are any indicators of impairment of such investments and loans and advances

For cases where impairment indicators exist, management estimates the recoverable amounts of the investments, being higher of fair value less costs of disposal and value in use. Significant judgements are required to determine the key assumptions used in determination of fair value / value in use.

As the impairment assessment involves significant assumptions and judgement, we regard this as a key audit matter.

Our procedures in assessing the impairment of the investment included, among other, the following:

- We read and evaluated the accounting policies with respect to investment.
- We assessed the Company's methodology applied in assessing the carrying value under the relevant accounting standards.
- We assessed the Company's valuation methodology and assumptions based on current economic and market conditions including effects of COVID-19 pandemic, applied in determining the recoverable amount.
- We compared the recoverable amount of the investment to the carrying value in books.
- We obtained and considered management evaluation based on current economic and market conditions including effects of COVID-19 pandemic, applied in determining the recoverability of loans and advances granted to its subsidiaries and associate entities.
- We assessed the financial condition of entities to whom loans and advances were granted by obtaining the most recent audited financial statements of such entities.
- We performed inquiries with management on the project status and future business plan of entities to whom loans and advances were granted to evaluate their recoverability.
- We assessed the disclosures made in the Standalone Ind AS financial statements regarding such investments and loans and advances.

Carrying value of Investment property including investment properties under construction (as described in note 3.2 and 4 of the Standalone Ind AS financial statements)

As at March 31, 2020, the carrying value of the Investment property is ₹ 145,285 lakhs (including properties under construction Rs 7,465 lakhs). The carrying value of the investment property is calculated using land costs, construction costs, interest costs and other related costs. Management reviews on a periodical basis whether there are any indicators of impairment of such investment properties.

For assets where impairment indicators exist, management estimates the recoverable amounts of the investments, being higher of fair value less costs of disposal and value in use. Significant judgements are required to determine the key assumptions used in determination of fair value / value in use.

In view of the COVID -19 pandemic, the management has reassessed its future business plans and key assumptions as at March 31, 2020 while assessing the adequacy of carrying value of the investment property.

We identified the assessment of the carrying value of investment property and impairment, if any as a key audit matter due to the significance of the balance to the Standalone Ind AS financial statements as a whole and the involvement of estimations in the assessment.

Our procedures in assessing the carrying value (including impairment assessment) of the investment properties included, among others, the following:

- We read and evaluated the accounting policies with respect to investment properties.
- We assessed the Company's methodology applied in assessing the carrying value under the relevant accounting standards.
- We assessed the Company's valuation methodology and assumptions based on current economic and market conditions including effects of COVID-19 pandemic, applied in determining the recoverable amount, including valuation report in certain cases used by the Company's management for determining the fair value ('recoverable amount') of the investment property.
- We assessed the Company's valuation methodology applied and compared key property related data used as input with historical actual data.
- We compared the recoverable amount of the investment property to the carrying value in books.
- We assessed the disclosures made in the Standalone Ind AS financial statements regarding such investment property.

Compliance with repayment terms of borrowings (as described in note 15 of the Standalone Ind AS financial statements)

The Company has significant borrowings as it is the key source of funds taken to finance its various real estate development projects as well as for general corporate purpose.

We consider compliance with repayment terms of borrowings as a key audit matter as this is a key consideration for appropriate classification of loan balances and relevant disclosures thereon in the Standalone Ind AS financial statements. Further, compliance with repayment terms is part of management's assessment of evaluating its gearing and liquidity profile.

Our procedures in relation to compliance with repayment terms of borrowings include, among others, the following:

- Obtained an understanding of the process and testing the internal controls over timely repayment of borrowings.
 - We tested the repayments of borrowings for a sample of transactions by reading the underlying contracts for repayments schedules, comparing the actual cash flows with the repayment schedules and tracing the amounts paid as per books of account to the bank statements of the Company.
 - Assessed the maturity profile of the borrowings to evaluate the classification and disclosure of borrowings on test check basis.
 - Compared the balances confirmed by the lenders with the balances as per the books of accounts.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Standalone Ind AS financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the Standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate

accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it

exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Ind AS financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements and other financial information, in respect of two LLP's, whose financial statements include total assets of ₹2,857 lakhs as at March 31, 2020, and total revenues of ₹233 lakhs and net cash outflows of ₹28 lakhs for the year ended on that date. These financial statements and other financial information of the said LLP's have been audited by other auditors, whose financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the Standalone Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these LLP's and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid LLP's, is based solely on the reports of such other auditors.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the LLP's, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE 1 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF BRIGADE ENTERPRISES LIMITED

To the Members of Brigade Enterprises Limited

Report on the matters specified in paragraphs 3 and 4 of the Companies (Auditor's Report) Order, 2016 ("the Order")

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and investment property.
- (b) All property, plant and equipment and investment property have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management and based on the examination of the registered sale deed/transfer deed/registered joint development agreements provided to us, we report that, the title deeds of immovable properties included in property, plant and equipment and investment property including capital work-in-progress are held in the name of the Company. Immovable properties of land and buildings whose title deeds have been pledged as security for loans, are held in the name of the Company based on confirmations received by us from lenders.
- (ii) The inventories held by the Company comprise raw materials, land stock, stock of units in completed projects and work in progress of projects under development. Having regard to the nature of inventory, the management has conducted physical verification of inventory by way of physical verification of raw materials, verification of title deeds, site visits conducted and certification of extent of work completion by competent persons, at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- (iii) (a) The Company has granted loans to 7 parties (including interest-free loans) covered in the register maintained under section 189 of the Companies Act, 2013 ("the Act"). In our opinion and according to the information and explanations given to us, the terms and conditions of the loans are not prejudicial to the Company's interest, having regard to management's representation that the loans are given to such parties considering the Company's economic interest and long-term trade relationship with such parties.
- (b) In respect of the loans granted to parties covered in the register maintained under Section 189 of the Act, the loans are repayable as per the contractual terms. As per the contractual terms, the loans have not fallen due for repayment. Accordingly, there has been no default on the part of the parties to whom the money has been lent.
- (c) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Act which are overdue for more than ninety days.
- (iv) In our opinion and according to the information and explanations given to us, provisions of section 185 and 186 of the Act in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and, guarantees, and securities given have been complied with by the Company, as applicable.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Act, related to the construction activities and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of custom, goods and services tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities.

(b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, duty of customs, goods and services tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(c) According to the records of the Company, the dues outstanding of income-tax, sales-tax, wealth-tax, service tax, goods and services tax, duty of custom, duty of excise, value added tax and cess on account of any dispute, are as follows:

- (viii) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a bank or financial institution. The Company did not have any loans or borrowing from government or dues to debenture holders.
- (ix) In our opinion and according to the information and explanations given by the management, the Company has utilized the monies raised by way of term loans (representing loans with a repayment period beyond 36 months) for the purposes for which they were raised. The Company has not raised any monies by way of initial public offer/ further public offer (including debt instruments).
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the Standalone Ind AS financial statements and according to the information and explanations given by the management, we report that no material fraud by the Company or on the Company by its officers and employees has been noticed or reported during the year.
- (xi) According to the information and explanations given by the management, we report that the managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.
- (xii) In our opinion, the Company is not a nidhi company. Accordingly, the provisions of Clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of the Act, where applicable and the details have been disclosed in the notes to the Standalone Ind AS financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given by the management, the Company has not made any preferential allotment or private placement of shares or fully/ partly convertible debentures during the year. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company and hence not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in Section 192 of the Act.
- (xvi) According to the information and explanations given to us, the provisions of Section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF BRIGADE ENTERPRISES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Brigade Enterprises Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Standalone Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over

financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these Standalone Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with reference to these Standalone Ind AS financial statements

A company's internal financial control over financial reporting with reference to these Standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Standalone Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the Standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Standalone Ind AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements, including the possibility of collusion

or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to these Standalone Ind AS financial statements and such internal financial controls over financial reporting with reference to these Standalone Ind AS financial

statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

1. Corporate information

Brigade Enterprises Limited ('BEL' or the 'Company') is a public company domiciled in India and is incorporated on November 8, 1995 under the provisions of the Companies Act applicable in India. Its shares are listed on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The registered office of the Company is located at 29th & 30th Floors, World Trade Center, Brigade Gateway Campus, 26/1, Dr Rajkumar Road, Malleswaram-Rajajinagar, Bangalore 560 055.

The Company is carrying on the business of real estate development, leasing and related services.

The Standalone Ind AS financial statements were authorized for issue in accordance with a resolution of the directors on June 18, 2020.

2. Basis of preparation

The Standalone Ind AS financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) specified under section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The Standalone Ind AS financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.1 Changes in Accounting policies and disclosures

The accounting policies adopted and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below.

Ind AS 116 Leases

The Company has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective method prescribed in para C8(b)(ii) to ongoing leases as on April 01, 2019. The standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. Accordingly, the comparatives have not been restated and hence not comparable with previous period figures. On transition,

the adoption of new standard resulted in recognition of Right of use asset (ROU) of ₹ 251 lakhs, and a lease liability of ₹ 251 lakhs and there was no impact to retained earnings.

In the statement of profit and loss for the current period, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost of ROU and finance cost for interest accrued on lease liability. In the context of initial application, the Company has exercised the option — not to apply the new recognition requirements to short-term leases and to leases of low-value asset. The impact of application of Ind AS 116 for the year ended March 31, 2020 is as detailed in note 33 of the Standalone Ind AS financial statements.

2.2 Summary of significant accounting policies

(a) Use of estimates

The preparation of Standalone Ind AS financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities. The effect of change in an accounting estimate is recognized prospectively.

(b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has evaluated and considered its operating cycle as below and accordingly has reclassified its assets and liabilities into current and non-current:

- Residential/ commercial/mixed use projects for real estate development – 3-5 years
- Leasing business – 1 year

Assets and liabilities, other than those discussed above, are classified as current to the extent they are expected to be realized/ are contractually repayable within 12 months from the Balance sheet date and as non-current, in other cases.

Deferred tax assets/liabilities are classified as non-current assets/liabilities.

(c) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the

intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of Property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

(d) Depreciation

Depreciation is calculated on written down value basis using the following useful lives estimated by the management, which are equal to those prescribed under Schedule II to the Companies Act, 2013:

Category of Asset	Useful lives (in years)
Buildings	60
Plant and machinery	15
Electrical Installation and equipment	10
Furniture and fixtures	10
Computer hardware	
i. Computer equipment	3
ii. Servers and network equipment	6
Office equipment	5
Motor Vehicles	8

Leasehold land is amortized on a straight-line basis over the balance period of lease.

The residual values, useful lives and methods of depreciation of property, plant and equipment and investment property are reviewed at each financial year end and adjusted prospectively, if appropriate.

(e) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following

initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets, comprising of software are amortized on a straight-line basis over a period of 3 years, which is estimated to be the useful life of the asset.

The residual values, useful lives and methods of amortization of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when asset is derecognized.

(f) Investment property

Investment properties and capital work-in-progress are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

Though the Company measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized when the entity transfers control of the same to the buyer. Further the entity also derecognises investment properties when they are permanently

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

(g) Impairment

A. Financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired and measures the required expected credit losses through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life-time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

B. Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(h) Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

Where the Company is lessee

The Company assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves—

- (a) the use of an identified asset,
- (b) the right to obtain substantially all the economic benefits from use of the identified asset, and
- (c) the right to direct the use of the identified asset.

The Company at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets. The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right-of-use assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at inception, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

The Company recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in the statement of profit and loss.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

Lease payments have been classified as cash used in Financing activities. Also refer note 33 to the Standalone Ind AS financial statements.

Where the Company is lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included under Investment property.

Lease income from operating lease is recognized on a straight-line basis over the term of the relevant lease including lease income on fair value of refundable security deposits. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

(i) Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss.

(j) Inventories

Direct expenditure relating to real estate activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the real estate activity.

- i. Work-in-progress: Represents cost incurred in respect of unsold area (including land) of the real estate development projects or cost incurred on projects where the revenue is yet to be recognized. Work-in-progress is valued at lower of cost and net realizable value.
- ii. Finished goods - Stock of Flats: Valued at lower of cost and net realizable value.
- iii. Raw materials, components and stores: Valued at lower of cost and net realizable value. Cost is determined based on FIFO basis.
- iv. Land stock: Valued at lower of cost and net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(k) Land

Advances paid by the Company to the seller/ intermediary toward outright purchase of land is recognized as land advance under loans and advances during the course of obtaining clear and marketable title, free from all encumbrances and transfer of legal title to the Company, whereupon it is transferred to land stock under inventories/ capital work in progress.

Land/ development rights received under joint development arrangements ('JDA') is measured

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

at the fair value of the estimated construction service rendered to the landowner and the same is accounted on launch of the project. The amount of non-refundable deposit paid by the Company under JDA is recognized as land advance under other assets and on the launch of the project, the non-refundable amount is transferred as land cost to work-in-progress/ capital work in progress. Further, the amount of refundable deposit paid by the Company under JDA is recognized as deposits under loans.

(I) Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. The Company presents revenue from contracts with customers net of indirect taxes in its statement of profit and loss.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer, if any.

Revenue from real estate development of residential or commercial unit is recognised at the point in time, when the control of the asset is transferred to the customer.

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated/ interdependent.

The performance obligation in relation to real estate development is satisfied upon completion

of project work and transfer of control of the asset to the customer.

Further, for projects executed through joint development arrangements not being jointly controlled operations, wherein the land owner/ possessor provides land and the Company undertakes to develop properties on such land and in lieu of land owner providing land, the Company has agreed to transfer certain percentage of constructed area or certain percentage of the revenue proceeds, the revenue from the development and transfer of constructed area/revenue sharing arrangement in exchange of such development rights/ land is being accounted on gross basis on launch of the project. Revenue is recognised over time using input method, on the basis of the inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation.

For contracts involving sale of real estate unit, the Company receives the consideration in accordance with the terms of the contract in proportion of the percentage of completion of such real estate project and represents payments made by customers to secure performance obligation of the Company under the contract enforceable by customers. Such consideration is received and utilised for specific real estate projects in accordance with the requirements of the Real Estate (Regulation and Development) Act, 2016. Consequently, the Company has concluded that such contracts with customers do not involve any financing element since the same arises for reasons explained above, which is other than for provision of finance to/from the customer.

Contract balances

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

Trade receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Cost to obtain a contract

The Company recognises as an asset the incremental costs of obtaining a contract with a customer if the Company expects to recover those costs. The Company incurs costs such as sales commission when it enters into a new contract, which are directly related to winning the contract. The asset recognised is amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

Income from leasing

Rental income receivable under operating leases (excluding variable rental income) is recognized in the income statement on a straight-line basis over the term of the lease including lease income on fair value of refundable security deposits. Rental income under operating leases having variable rental income is recognized as per the terms of the contract.

Income from maintenance and other services

Commission, management fees, maintenance services and other fees receivable for services rendered are recognized as and when the services are rendered as per the terms of the contract.

Interest income

Interest income, including income arising from other financial instruments, is recognised using the

effective interest rate method. Interest on delayed payment by customers are accounted when reasonable certainty of collection is established.

Dividend income

Revenue is recognised when the shareholders' or unit holders' right to receive payment is established, which is generally when shareholders approve the dividend.

Share in profits/ losses of Limited Liability Partnership ("LLP") investments

The Company's share in profits/ losses from an LLP where the Company is a partner, is recognized as income/loss in the statement of profit and loss as and when the right to receive its profit/ loss share is established by the Company in accordance with the terms of contract between the Company and the partnership entity.

(m) Foreign currency translation

Functional and presentation currency

Items included in the Standalone Ind AS financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The Standalone Ind AS financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

Foreign currency transactions and balances

- i) Initial recognition - Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.
- ii) Conversion - Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

- iii) Exchange differences - The Company accounts for exchange differences arising on translation/ settlement of foreign currency monetary items as income or as expense in the period in which they arise.

(n) Retirement and other employee benefits

Retirement benefits in the form of state governed Employee Provident Fund, Employee State Insurance and Employee Pension Fund Schemes are defined contribution schemes (collectively the 'Schemes'). The Company has no obligation, other than the contribution payable to the Schemes. The Company recognizes contribution payable to the Schemes as expenditure, when an employee renders the related service. The contribution paid in excess of amount due is recognized as an asset and the contribution due in excess of amount paid is recognized as a liability.

Gratuity, which is a defined benefit plan, is accrued based on an independent actuarial valuation, which is done based on project unit credit method as at the balance sheet date. The Company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income. In accordance with Ind AS, re-measurement gains and losses on defined benefit plans recognized in OCI are not to be subsequently reclassified to statement of profit and loss. As required under Ind AS compliant Schedule III, the Company recognizes re-measurement gains and losses on defined benefit plans (net of tax) to retained earnings.

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method, made at the end of each financial year. Actuarial gains/losses are immediately taken to the statement of profit and loss. The Company presents the accumulated leave liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

(o) Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

i. Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

ii. Deferred income tax

Deferred income tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

(p) Share based payment

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model and the cost is recognized, together with a corresponding increase in share options outstanding account in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognized for equity-

settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(q) Segment reporting

- i. Identification of segments - The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.
- ii. Inter-segment transfers - The Company generally accounts for intersegment sales and transfers at appropriate margins.
- iii. Unallocated items - Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.
- iv. Segment accounting policies - The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the Standalone Ind AS financial statements of the Company as a whole.

(r) Provisions and contingent liabilities

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate,

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the Standalone Ind AS financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

If the Company has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before a separate provision for an onerous contract is established, the Company recognises any impairment loss that has occurred on assets dedicated to that contract.

(s) Cash dividend to equity holders of the Company

The Company recognizes a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

(t) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents in the balance sheet

comprise cash on hand and bank balances which are unrestricted for withdrawal and usage.

(u) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(v) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Initial recognition and measurement of financial assets and liabilities

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

ii. Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- iii. Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- iv. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in statement of profit and loss.

- v. Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR

amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

- vi. Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

- vii. Financial liabilities at amortized cost

Financial liabilities are subsequently carried at amortized cost using the effective interest ('EIR') method.

Interest-bearing loans and borrowings are subsequently measured at amortized cost using EIR method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

- viii. De-recognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

- ix. Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial instruments.

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

x. Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the Standalone Ind AS financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the Standalone Ind AS financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

xi. Investment in subsidiaries

Investment in subsidiary is carried at cost.

2.3 Significant accounting judgments, estimates and assumptions

The preparation of the Company's Standalone Ind AS financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Company's accounting policies, management makes judgment, estimates and assumptions which have the most significant effect on the amounts recognized in the Standalone Ind AS financial statements:

The key judgment, estimates and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its judgments and assumptions and estimates on parameters available when the Standalone Ind AS financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Significant accounting judgements, estimates and assumptions used by management are as below:

Revenue from contracts with customers

The Company applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

a) *Identification of performance obligation*

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated/ interdependent. In assessing whether performance obligations relating to sale of undivided share of land and constructed area are highly interrelated/ interdependent, the Company considers factors such as:

- whether the customer could benefit from the undivided share of land or the constructed area on its own or together with other resources readily available to the customer.
- whether the entity will be able to fulfil its promise under the contract to transfer the undivided share of land without transfer of

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

constructed area or transfer the constructed area without transfer of undivided share of land.

b) *Timing of satisfaction of performance obligation*

Revenue from sale of real estate units is recognised when (or as) control of such units is transferred to the customer. The entity assesses timing of transfer of control of such units to the customers as transferred over time if one of the following criteria are met:

- The customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs.
- The entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

If control is not transferred over time as above, the entity considers the same as transferred at a point in time.

For contracts where control is transferred at a point in time, the Company considers the following indicators of the transfer of control of the asset to the customer:

- When the entity obtains a present right to payment for the asset.
- When the entity transfers legal title of the asset to the customer.
- When the entity transfers physical possession of the asset to the customer.
- When the entity transfers significant risks and rewards of ownership of the asset to the customer.
- When the customer has accepted the asset.

c) *Accounting for revenue and land cost for projects executed through joint development arrangements ('JDA')*

For projects executed through joint development arrangements, the Company has evaluated that land owners are not engaged in the same line of business as the Company and hence has concluded that such arrangements are contracts with customers. The revenue from the development and transfer of constructed area/revenue sharing arrangement and the corresponding land/ development rights received under JDA is measured at the fair value of the estimated construction service rendered to the land owner and the same is accounted on launch of the project. The fair value is estimated with reference to the terms of the JDA (whether revenue share or area share) and the related cost that is allocated to discharge the obligation of the Company under the JDA. Fair value of the construction is considered to be the representative fair value of the revenue transaction and land so obtained. Such assessment is carried out at the launch of the real estate project and is not reassessed at each reporting period. The management is of the view that the fair value method and estimates are reflective of the current market condition.

Estimation of net realizable value for inventory (including land advance)

Inventory is stated at the lower of cost and net realizable value (NRV).

NRV for completed inventory is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Company, based on comparable transactions identified by the Company for properties in the same geographical market serving the same real estate segment.

NRV in respect of inventory under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction and an estimate of the time value of money to the date of completion.

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

With respect to land advance given, NRV is based on the present value of future cash flows, which depends on the estimate of, among other things, the likelihood that a project will be completed, the expected date of completion, the discount rate used and the estimation of sale prices and construction costs.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to disclosure of fair value of investment property recorded by the Company.

Defined benefit plans - Gratuity

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates and expected salary increase thereon.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and market risk. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Measurement of financial instruments at amortized cost

Financial instruments are subsequently measured at amortized cost using the effective interest ('EIR') method. The computation of amortized cost is sensitive to the inputs to EIR including effective rate of interest, contractual cash flows and the expected life of the financial instrument. Changes in assumptions about these inputs could affect the reported value of financial instruments.

Useful life and residual value of property, plant and equipment, investment property and intangible assets

The useful life and residual value of property, plant and equipment, investment property and intangible assets are determined based on evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

judgments involved in such estimates the useful life and residual value are sensitive to the actual usage in future period.

Provision for litigations and contingencies

Provision for litigations and contingencies is determined based on evaluation made by the management of the present obligation arising from past events the settlement of which is expected to result in outflow of resources embodying economic benefits, which involves judgments around estimates the ultimate outcome of such past events and measurement of the obligation amount. Due to judgments involved in such estimation the provision is sensitive to the actual outcome in future periods.

Classification of property

The Company determines whether a property is classified as investment property or inventory as below.

Investment property comprises land and buildings (principally office and retail properties) that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.

Inventory comprises property that is held for sale in the ordinary course of business. Principally, this

is residential and commercial property that the Company develops and intends to sell before or during the course of construction or upon completion of construction.

Impact of Pandemic COVID-19

The Company's management has considered the possible effects that may result from the COVID-19 pandemic on the carrying value of assets including property, plant and equipment, investment property, capital work in progress, intangible assets, investments, inventories, land advances, deposits, loans and receivables. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Company, as at the date of approval of these financial results has used internal and external sources of information to assess the expected future performance of the Company. The Company has performed sensitivity analysis on the assumptions used and based on the current estimates, the Company expects that the carrying amount of these assets, as reflected in the balance sheet as at March 31, 2020, are fully recoverable. The management has also estimated the future cash flows for the Company with the possible effects that may result from the COVID-19 pandemic and does not foresee any adverse impact on realising its assets and in meeting its liabilities as and when they fall due. The actual impact of the COVID-19 pandemic may be different from that estimated as at the date of approval of these Standalone Ind AS financial statements.

* During the year ended March 31, 2020, an impairment loss of ₹ 1,450 lakhs has been recognised in the statement of profit and loss, which represents the write-down value of certain investment properties in the leasing segment to the recoverable amount. The impairment charge arose in the leasing segment Cash Generating Unit ('CGU') due to vacant leased space coupled with the current economic conditions due to COVID-19 pandemic. The annual impairment test performed considers the current economic conditions and revised business plans to determine the higher of the "value in use" and the "fair value less cost to lease" in accordance with Ind AS 36. The recoverable amount of the said properties of ₹ 3,281 lakhs as at March 31, 2020 was based on value in use and was determined at the level of the CGU being individual leased properties. The financial projections basis which the future cash flows have been estimated consider the increase in economic uncertainties due to COVID-19, revisiting the key operating assumptions as well as growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis.

Capitalised borrowing costs

The amount of borrowing costs capitalised during the year ended March 31, 2020 was ₹ 311 lakhs (March 31, 2019: ₹ 1,071 lakhs). The rate used to determine the amount of borrowing costs eligible for capitalisation was 8-12%, which is the effective interest rate of the specific borrowing.

The management has determined that the investment properties consist of two classes of assets – office and retail based on the nature, characteristics and risks of each property. The valuations are based on valuations performed by an accredited independent valuer.

The Company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements, except as disclosed in note 32(a)(i).

Fair value of Investment Properties:

₹

	Office properties	Retail Properties	Total
As at March 31, 2019	167,330	168,318	335,648
As at March 31, 2020	207,464	211,451	418,915

The fair value of investment properties is based on discounted cash flows and classified as level 3 fair value in the fair value hierarchy due to the use of unobservable inputs. There has been no change in valuation techniques used since prior years.

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment properties	Valuation technique	Significant unobservable inputs	Range (weighted average)	
			March 31, 2020	March 31, 2019
Office properties	DCF method	- Estimated rental value per sq. ft. per month	₹40-₹130	₹30-₹112
		- Rent growth p.a.	5%	5%
		- Discount rate	9%	8%
		- Vacancy rate	5%	5%
Retail properties	DCF method	- Estimated rental value per sq. ft. per month	₹50-₹310	₹50-₹310
		- Rent growth p.a.	5%	5%
		- Discount rate	9%	8%
		- Vacancy rate	5%	5%

Under the DCF method, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a real estate property interest. To this projected cash flow series, a market-derived discount rate is applied to establish the present value of the income stream associated with the asset.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related re-letting, redevelopment, or refurbishment. The appropriate duration is typically driven by market behaviour that is a characteristic of the class of real estate property. Periodic cash flow is typically estimated as gross income, non-recoverable expenses, collection losses, lease incentives, maintenance cost and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

29 Earnings per share

Basic earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2020 ₹	March 31, 2019 ₹
Profit after tax attributable to equity shareholders	26,080	23,422
Weighted average number of equity shares for basic EPS (No. in lakhs)	2,043	2,042
Effect of dilution: stock options granted under ESOP and Share Warrants (No. in lakhs)	16	1
Weighted average number of equity shares adjusted for the effect of dilution (No. in lakhs)	2,059	2,043

*In accordance with Ind AS 33 - Earnings per share, the earnings per share has been adjusted for previous year to give effect to the bonus issue. (refer note 13)

	95,180	8,579

Other Litigations:

The Company is also subject to certain legal proceedings and claims, which have arisen in the ordinary course of business, including certain litigation for commercial development or land parcels held for construction purposes, either through joint development arrangements or through outright purchases, the impact of which is not quantifiable. These cases are pending with various courts and are scheduled for hearings. After considering the circumstances and legal evaluation thereon, the management believes that these cases will not have an adverse effect on the Standalone Ind AS financial statements.

Note: The Company does not expect any reimbursement in respect of the above contingent liabilities and it is not practicable to estimate the timing of the cash outflows, if any, in respect of aforesaid matters and it is not probable that an outflow of resources will be required to settle the above obligations/claims.

In November 2017, a search under Section 132(1) of Income Tax Act, 1961, was conducted at various premises of the Company. The management has complied with / responded to the notices received in this regard. During the year, the Company has received assessment orders and have submitted their appeals/rectifications with the concerned authorities and does not expect any additional liability beyond the amounts already provided for, on final assessment of the aforesaid matter. Based on management evaluation, the amounts demanded as per the assessment orders have been disclosed as contingent liability above.

33 Leases

A. Transition to Ind AS 116

1. Effect of adoption of new accounting standard on Leases: Ind AS 116

The Company has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective method prescribed in para C8(b)(ii) to ongoing leases as on April 01, 2019. The standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. Accordingly, the comparatives have not been restated and hence not comparable with previous period figures.

On transition, the adoption of new standard resulted in recognition of Right of use asset (ROU) of ₹ 251 lakhs, and a

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

lease liability of ₹ 251 lakhs and there was no impact to retained earnings.

In the statement of profit and loss for the current period, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost of ROU and finance cost for interest accrued on lease liability.

In the context of initial application, the Company has exercised the option — not to apply the new recognition requirements to short-term leases and to leases of low-value asset.

2. Reconciliation of lease liability

	March 31, 2019 ₹
Off-balance sheet lease obligations as of March 31, 2019	-
Add:- Current leases with lease term of 12 months or less (short-term leases)	-
Add:- Leases of low value assets (low-value leases)	-
Operating lease obligations as of April 01, 2019 (gross without discounting)	337
Less:- Effect from discounting at the incremental borrowing rate as at April 01, 2019	86
Lease liabilities due to initial application of Ind AS 116 as at April 01, 2019	251

The lease liabilities were discounted using the incremental borrowing rate of the Company as at April 01, 2019. The weighted average discount rate used for recognition of lease liabilities was 10.50%.

36 Share based payment

The Company provides share-based payment schemes to its employees. During the year ended March 31, 2020, two employee stock option plans (ESOPs) were in existence. The relevant details of the scheme and the grants are as below:

Employees Stock Option Scheme ('ESOP 2011'): The Company instituted this scheme pursuant to the Board of Directors and Shareholders' resolution dated May 04, 2011 and August 11, 2011, respectively. As per ESOP 2011, the Company granted 2,494,300 (till March 31, 2019: 24,94,300) options comprising equal number of equity shares in one or more tranches to the eligible employees of the Company and its subsidiaries. The options under this grant would vest to the employees equally as 25% of the total grant every year at the end of first, second, third and fourth year from the date of the grant respectively,

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

with an exercise period of five years from the date of respective vesting. The contractual life (comprising the vesting period and the exercise period) of options granted is 9 years from date of such grant. The other relevant terms of the grant are mentioned below.

Employees Stock Option Scheme ('ESOP 2017'): The Company instituted this scheme pursuant to the Board of Directors and Shareholders' resolution dated August 08, 2017 and September 21, 2017, respectively. As per ESOP 2017, the Company granted 22,14,557 (till March 31, 2019: 13,68,270) options comprising equal number of equity shares in one or more tranches to the eligible employees of the Company and its subsidiaries. The options under this grant would vest to the employees equally as 25% of the total grant every year at the end of first, second, third and fourth year from the date of the grant respectively, with an exercise period of five years from the date of respective vesting. The contractual life (comprising the vesting period and the exercise period) of options granted is 9 years from date of such grant. The other relevant terms of the grant are mentioned below.

The fair value of the share options is estimated at the grant date using Black Scholes Model taking into account the terms and conditions upon which the share options are granted and there are no cash settled alternatives for employees.

Expense recognised for employee services received during the year is shown in the following table:

Particulars	March 31, 2020	March 31, 2019

The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

	Grant 1	Grant 2	Grant 3	Grant 4
Dividend yield (%)	0.78%	0.78%	0.78%	0.78%
Expected volatility (%)	35.24%	37.30%	35.20%	47.40%
Risk-free interest rate (%)	6.41%	7.20%	7.20%	7.20%
Weighted average share price (₹)	255	214	161	198
Exercise price (after bonus issue) (₹)	167	167	167	167
Expected life of the options granted (in years) [vesting and exercise period]	7.50	7.50	7.50	7.50

The expected life of the stock is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

37 Segment reporting

For management purposes, the Company is organised into 2 Strategic Business Units (SBUs) based on risks and rates of return of the products and services offered by those SBUs as per Ind AS 108 as follows: Real Estate and Leasing. The management reviews operating results of SBUs separately for the purpose of making decisions about resource allocation and performance assessment. Also, the Company's financing activities (including finance costs and finance income) and income taxes are managed at corporate level and are not allocated to operating segments. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Capital expenditure consists of additions of property, plant and equipment, investment property, intangible assets and capital work-in-progress.

Other income (including finance income) and finance costs and fair value gains and losses on financial assets are considered as unallocated as they are also managed on a Company basis.

Current taxes, deferred taxes and certain financial assets and liabilities are considered as unallocated as they are also managed on a Company basis.

The Company is domiciled in India. The Company's revenue from operations from external customers primarily relate to operations in India and all the non-current assets of the Company are located in India.

38 Fair value measurements

The details of fair value measurement of Company's financial assets/liabilities are as below:

	Level	March 31, 2020 ₹	March 31, 2019 ₹
Financial assets/liabilities measured at fair value through profit/loss:			
Investment in quoted investments - mutual funds	Level 1	1,620	2,020
Investment in equity instruments of other companies	Level 3	13	16

Notes to Standalone Ind AS Financial Statements

for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. There have been no transfers between levels during the period.

The management assessed that the carrying values of cash and cash equivalents, trade receivables, investments, loans, trade payables, borrowings and other financial assets and liabilities approximate their fair values largely due to the short-term maturities.

The following methods and assumptions were used to estimate the fair values:

- The quoted investments (mutual funds) are valued using the quoted market prices in active markets.
- The fair values of the unquoted equity shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

39 Capital management

The Company's objectives of capital management is to maximize the shareholder value. In order to maintain or adjust the capital structure, the Company may adjust the return to shareholders, issue/ buyback shares or sell assets to reduce debt. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

The Company monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt as below.

- Equity includes equity share capital and all other equity components attributable to the equity holders
- Net debt includes borrowings (non-current and current), trade payables and other financial liabilities, less cash and cash equivalents (including bank balances other than cash and cash equivalents and margin money deposits with banks)

Particulars	March 31, 2020 ₹	March 31, 2019 ₹
Borrowings (non-current and current, including current maturities of non-current borrowings)	203,522	190,694
Trade payables	29,994	38,091
Other financial liabilities (current and non-current excluding current maturities of non-current borrowings)	40,849	30,445
Less: Cash and cash equivalents (including balances at bank other than cash and cash equivalents and margin money deposits with banks)	(18,571)	(15,699)
Net Debt (A)	255,794	243,531
Equity share capital	20,438	13,618
Other equity	233,915	217,087
Equity (B)	254,353	230,705
Equity plus net debt (C = A + B)	510,147	474,236
Gearing ratio (D = A / C)	50%	51%

In order to achieve the objective of maximize shareholders value, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing borrowings that define capital structure requirements. Any significant breach in meeting the financial covenants would allow the bank to call borrowings. There have been no breaches in the financial covenants of above-mentioned interest-bearing borrowing.

No changes were made in the objectives, policies or processes for managing capital during the current and previous years.

41 Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade, other receivables and cash and cash equivalents and bank balances other than cash and cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks and ensures that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision and are used exclusively for hedging purposes and not as trading or speculative instruments.

i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real-estate risk.

The sensitivity analysis in the following sections relate to the position as at March 31, 2020 and March 31, 2019. The sensitivity analysis has been prepared on the basis that the amount of net debt and the ratio of fixed to floating interest rates of the debt. The analysis excludes the impact of movements in market variables on the carrying values of gratuity and other post retirement obligations/provisions.

The below assumption has been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2020 and March 31, 2019.

Interest rate risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in Interest rate. The entity's exposure to the risk of changes in Interest rates relates primarily to the entity's operating activities (when receivables or payables are subject to different interest rates) and the entity's net receivables or payables.

Notes to Standalone Ind AS Financial Statements

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

The Company is affected by the price volatility of certain commodities/ real estate. Its operating activities require the ongoing development of real estate. The Company's management has developed and enacted a risk management strategy regarding commodity/ real estate price risk and its mitigation. The Company is subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

Interest rate sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in interest rates, with all other variables held constant. The impact on the entity's profit before tax is due to changes in the fair value of financial assets and liabilities.

Particulars	Change in interest rate	Effect of profit before tax
March 31, 2020	+1%	(2,310)
	-1%	2,310
March 31, 2019	+1%	(2,157)
	-1%	2,157

The Company invests surplus funds in liquid mutual funds. The Company is exposed to market price risk arising from uncertainties about future values of the investment. The Company manages the equity price risk through investing surplus funds on liquid mutual funds for short term basis.

The table below summarises the impact of increase/decrease of the Net Asset Value (NAV) on the profit for the year. The analysis is based on the assumption that the NAV price would increase 5% and decrease by 5% with all variable constant.

Increase/(decrease) in profit	March 31, 2020 ₹	March 31, 2019 ₹
Price - increase by 5%	81.00	100.98
Price - decrease by 5%	(81.00)	(100.98)

ii. Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. The Company's exposure to credit risk arises majorly from trade receivables/ unbilled revenue and other financial assets.

Other financial assets like security deposits, loans and bank deposits are mostly with employees, government bodies and banks and hence, the Company does not expect any credit risk with respect to these financial assets.

With respect to trade receivables/ unbilled revenue, the Company has constituted teams to review the receivables on periodic basis and to take necessary mitigations, wherever required. The Company creates allowance for all unsecured receivables based on lifetime expected credit loss ('ECL').

Amount provided during the year	11	228
Amount reversed during the year	(44)	-
Closing balance	196	229

iii. Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly no liquidity risk is perceived.

The break-up of cash and cash equivalents, deposits and investments is as below.

INDEPENDENT AUDITOR'S REPORT

To the Members of Brigade Enterprises Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

Opinion

We have audited the accompanying Consolidated Ind AS financial statements of Brigade Enterprises Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its associate company comprising of the consolidated Balance sheet as at March 31, 2020, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the Consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and associate company, the aforesaid Consolidated Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate company as at March 31, 2020, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group and associate company, in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated

Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 2.3 to the Consolidated Ind AS financial Statements for the year ended March 31, 2020, which describes the management's evaluation of Covid-19 impact on the future business operations and future cash flows of the Group and its consequential effects on the carrying value of its assets as at March 31, 2020.. In view of the uncertain economic conditions, the management's evaluation of the impact on the subsequent periods is highly dependent upon conditions as they evolve.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Ind AS financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Consolidated Ind AS financial statements.

Key audit matters**How our audit addressed the key audit matter****Recognition of Revenue from Contract with Customers** *(as described in note 21 of the Consolidated Ind AS financial statements)*

The Group applies Ind AS 115 for recognition of revenue from real estate projects. The revenue from real estate projects is recognised at a point in time upon the Group satisfying its performance obligation and the customer obtaining control of the underlying asset, which involves significant estimates and judgement.

For revenue contract forming part of joint development arrangements ('JDA') that are not jointly controlled operations, the revenue from the development and transfer of constructed area/revenue share with a corresponding land/ development rights received by the Group is measured at the fair value of the estimated construction service rendered by the Group to the land owner under JDA. Such revenue is recognised over a period of time in accordance with the requirements of Ind AS 115.

For contracts involving sale of real estate unit, the Group receives the consideration in accordance with the terms of the contract in proportion of the percentage of completion of such real estate project and represents payments made by customers to secure performance obligation of the Group under the contract enforceable by customers. The assessment of such consideration received from customers involves significant judgment in determining if the contracts with customers involves any financing element.

Application of Ind AS 115 involves significant judgment in determining when 'control' of the property underlying the performance obligation is transferred to the customer. Further, for revenue contract forming part of JDA, significant estimate is made by the Group in determining the fair value of the underlying revenue.

As the revenue recognition involves significant estimates and judgement, we regard this as a key audit matter.

Our audit procedures included, among others, the following:

- We have read the accounting policy for revenue recognition and assessed compliance of the policy in terms of principles enunciated under Ind AS 115.
- We assessed the management evaluation of determining revenue recognition from sale of real estate inventory property at a point in time in accordance with the requirements under Ind AS 115.
- We obtained and understood the revenue recognition process and performed test of controls over revenue recognition including determination of point of transfer of control, completion of performance obligation and fair value of estimated construction service under JDA, on a sample basis.
- We performed test of details, on a sample basis, and tested the underlying customer/ JDA contracts and sale deed/ handover documents, evidencing the transfer of control of the asset to the customer based on which the revenue is recognized at a point of time.
- We obtained the joint development agreements entered into by the Company and compared the ratio of constructed area/ revenue sharing arrangement between the Company and the landowner as mentioned in the agreement to the computation statement prepared by the management, on a sample basis.
- We obtained and tested the computation of the fair value of the construction service under JDA on a sample basis.
- We tested the computation for recognition of revenue over a period of time for revenue contracts forming part of JDA and Group's assessment of stage of completion of projects and project cost estimates on test check basis.
- We assessed the disclosures made by the Group in compliance with the requirements of Ind AS 115.

Key audit matters	How our audit addressed the key audit matter
Recording of related party transactions and disclosures (as described in note 32 of the Consolidated Ind AS financial statements)	
The Group has undertaken transactions with its related parties in the ordinary course of business at arm's length. These include making new or additional investments in its associate company and other related parties and lending and borrowing of Inter-corporate deposits ('ICD') and other transactions to or from the related parties. We identified the accuracy and completeness of the said related party transactions and its disclosure as set out in respective notes to the Consolidated Ind AS financial statements as a key audit matter due to the significance of transactions with related parties and regulatory compliance thereon	Our audit procedures included, among others, the following: - Obtained and read the Group's policies, processes and procedures in respect of identifying related parties, obtaining approval, recording and disclosure of related party transactions. - Read minutes of shareholder meetings, board meetings and minutes of meetings of those charged with governance in connection with Group's assessment of related party transactions being in the ordinary course of business at arm's length. - Tested, on a sample basis, related party transactions with the underlying contracts, confirmation letters and other supporting documents - Agreed the related party information disclosed in the Consolidated Ind AS financial statements with the underlying supporting documents, on a sample basis.
Carrying value of inventory and land advances/deposits (including refundable deposits paid under JDA) (as described in note 7,9 and 10 of the Consolidated Ind AS financial statements)	
As at March 31, 2020, the carrying value of the inventory is ₹ 520,936 lakhs and land advances/deposits of ₹ 39,282 lakhs. The inventories are carried at the lower of the cost and net realisable value ('NRV'). The determination of the NRV involves estimates based on prevailing market conditions and taking into account the estimated future selling price, cost to complete projects and selling costs. On account of Covid-19 outbreak and country-wide lockdown thereon, the Group conducted its annual inventory count at a date subsequent to year-end and performed the rollback workings. Deposits paid under joint development arrangements, in the nature of non-refundable amounts, are recognised as land advance under other assets and on the launch of the project, the same is transferred as land stock under inventories. Further, advances paid by the Group to the seller/ intermediary towards outright purchase of land is recognised as land advance under other assets during the course of transferring the legal title to the Group, whereupon it is transferred to land stock under inventories. The aforesaid deposits and advances are carried at the lower of the amount paid/payable and net recoverable value, which is based on the Group's assessment including the expected date of commencement and completion of the project and the estimate of sale prices and construction costs of the project. We identified the assessment of the carrying value of inventory and land advances/deposits as a key audit matter due to the significance of the balance to the Consolidated Ind AS financial statements as a whole and the involvement of estimates and judgement in the assessment.	Our procedures in assessing the carrying value of the inventories/land advances/deposits included, among others, the following: - We read and evaluated the accounting policies with respect to inventories/land advances/deposits - We assessed the Group's methodology applied in assessing the carrying value under the relevant accounting standards. - We obtained and tested the computation involved in assessment of carrying value including the net realisable value/ net recoverable value including effects of Covid-19 on test check basis. - We compared the realisable/recoverable amount of the asset to the carrying value in books on test check basis. - We made inquiries with the Holding Company's management to understand key assumptions used in determination of the net realisable value/ net recoverable value including effects of Covid-19 on test check basis. - On account of Covid-19 outbreak and country-wide lockdown thereon, we observed the physical verification of inventory at a date subsequent to year-end and tested the rollback procedures performed by the Group, on a test check basis.

Key audit matters**How our audit addressed the key audit matter****Carrying value of Investments and loans and advances made by the Group in associate entities** (as described in note 6 of the Consolidated Ind AS financial statements)

As at March 31, 2020, the carrying values of Group's investment in its associate company amounted to ₹1,161 lakhs. Further, the Group has granted loans and advances to its associate company. Management of the Holding Company reviews on a periodical basis whether there are any indicators of impairment of such investments and loans and advances

For cases where impairment indicators exist, management of the Holding Company estimates the recoverable amounts of the investments, being higher of fair value less costs of disposal and value in use. Significant judgements are required to determine the key assumptions used in determination of fair value / value in use.

As the impairment assessment involves significant assumptions and judgement, we regard this as a key audit matter.

Our procedures in assessing the impairment of the investment included, among others, the following:

- We read and evaluated the accounting policies with respect to investment.
- We assessed the Group's methodology applied in assessing the carrying value under the relevant accounting standards.
- We assessed the Group's valuation methodology and assumptions based on current economic and market conditions including effects of COVID-19 pandemic, applied in determining the recoverable amount.
- We compared the recoverable amount of the investment to the carrying value in books.
- We obtained and considered management evaluation based on current economic and market conditions including effects of COVID-19 pandemic, applied in determining the recoverability of loans and advances granted to its associate company.
- We assessed the financial condition of entities to whom loans and advances were granted by obtaining the most recent audited financial statements of such entities.
- We performed inquiries with the management of the Holding Company on the project status and future business plan of entities to whom loans and advances were granted to evaluate their recoverability
- We assessed the disclosures made in the Consolidated Ind AS financial statements regarding such investments and loans and advances.

Compliance with repayment terms of borrowings (as described in note 15 of the Consolidated Ind AS financial statements)

The Group has significant borrowings as it is the key source of funds taken to finance its various real estate development projects as well as for general corporate purpose.

We consider compliance with repayment terms of borrowings as a key audit matter as this is a key consideration for appropriate classification of loan balances and relevant disclosures thereon in the Consolidated Ind AS financial statements. Further, compliance with repayment terms is part of Group's assessment of evaluating its gearing and liquidity profile.

Our procedures in relation to compliance with repayment terms of borrowings include, among others, the following:

- Obtained an understanding of the process and testing the internal controls over timely repayment of borrowings.

Key audit matters	How our audit addressed the key audit matter
	- We tested the repayments of borrowings for a sample of transactions by reading the underlying contracts for repayments schedules, comparing the actual cash flows with the repayment schedules and tracing the amounts paid as per books of account to the bank statements. - Assessed the maturity profile of the borrowings to evaluate the classification and disclosure of borrowings on test check basis. - Compared the balances confirmed by the lenders with the balances as per the books of accounts.
<u>Carrying value of Goodwill, Intangible Assets (including Intangible Assets under development) Property, plant and equipment (PPE), Investment property (IP) and Capital work-in-progress (including investment properties under construction) [CWIP] (as described in note 3,1,3.2,4 and 5 of the Consolidated Ind AS financial statements)</u>	
As at March 31, 2020, the carrying value of the Goodwill, Intangible Assets (including Intangible Assets under development) PPE, IP and CWIP is ₹ 430 lakhs, ₹ 2,077 lakhs, ₹ 101,188 lakhs, ₹ 196,927 lakhs and ₹ 208,909 lakhs respectively.	Our procedures in assessing the carrying value (including impairment assessment) of the investment properties included, among others, the following:
Goodwill with indefinite useful life, acquired in a business combination is tested for impairment by the Group on a periodical basis. In performing such impairment assessment, Holding Company's management compared the carrying value of each of the identifiable cash generating units ("CGUs") to which goodwill with indefinite useful life had been allocated with their respective 'value in use' computed, to determine if any impairment loss should be recognized.	- We read and evaluated the accounting policies with respect to Goodwill, PPE, IP and CWIP
The carrying value of the PPE, IP and CWIP is calculated using land costs, construction costs, interest costs and other related costs. The Group reviews on a periodical basis whether there are any indicators of impairment Assets, i.e. ensuring that Assets are carried at no more than their recoverable amount.	- We evaluated Holding Company's management's identification of CGU's, the carrying value of each CGU and the methodology followed for the impairment assessment in compliance with the applicable accounting standards.
For assets where impairment indicators exist, the Group estimates the recoverable amounts of the investments, being higher of fair value less costs of disposal and value in use. Significant judgements are required to determine the key assumptions used in determination of fair value / value in use.	- We assessed the Group's valuation methodology and assumptions based on current economic and market conditions including effects of COVID-19 pandemic, applied in determining the recoverable amount, including valuation report used by the Group for determining the fair value ('recoverable amount') of the goodwill, Intangible Assets (including Intangible Assets under development) PPE, IP and CWIP.
In view of the COVID -19 pandemic, the Group has reassessed its future business plans and key assumptions as at March 31, 2020 while assessing the adequacy of carrying value of the goodwill, PPE, IP and CWIP.	- We assessed the Group's valuation methodology applied and compared key property related data used as input with historical actual data
We considered the assessment of carrying value of Goodwill, Intangible Assets (including Intangible Assets under development) PPE, IP and CWIP as a key audit matter due to significance of the balance and significant estimates and judgement involved in impairment assessment	- We compared the recoverable amount of the goodwill, Intangible Assets (including Intangible Assets under development) PPE, IP and CWIP to the carrying value in books. - We assessed the disclosures made in the Consolidated Ind AS financial statements for compliance with the relevant accounting standards requirements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Ind AS financial statements and our auditor's report thereon. The Annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the Consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its associate company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and management of the limited liability partnerships ("LLP's") and of its associate company are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its associate company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in

the Group and management of the LLP's and of its associate company are responsible for assessing the ability of the Group and of its associate company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless respective Board of Directors and management of the LLP's either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors and Those Charged with Governance of the companies included in the Group and management of the LLP's and of its associate company are also responsible for overseeing the financial reporting process of the Group and of its associate company.

Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Ind AS financial statements, including the disclosures, and whether the Consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate company of which we are the independent auditors, to express an opinion on the Consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated financial statements of which we are the independent auditors. For the other entities included in the Consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements for the financial year ended March 31, 2020 and

are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements and other financial information, in respect of 13 subsidiaries, whose financial statements include total assets of ₹ 313,953 lakhs and net assets of ₹ 85,626 lakhs as at March 31, 2020, and total revenues of ₹ 48,450 lakhs and net cash inflows of ₹ 3,260 lakhs for the year ended on that date. These financial statements and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The Consolidated Ind AS financial statements also include the Group's share of net profit (after elimination) of ₹ 160 lakhs for the year ended March 31, 2020, as considered in the Consolidated Ind AS financial statements, in respect of 1 associate company, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the Consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate company, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associate company, is based solely on the reports of such other auditors.

Our opinion above on the Consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and associate company, as noted in the 'other matter' paragraph, we report, to the extent applicable, that:

- We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS financial statements;
- In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation

of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;

- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Consolidated Ind AS financial statements;
- (d) In our opinion, the aforesaid Consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2020 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies and associate company, none of the directors of the Group's companies and its associate company, incorporated in India, is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) The matter described in Emphasis of Matter paragraph above, in our opinion, may have an adverse effect on the functioning of the Group;
- (g) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements of the Holding Company and its subsidiary companies and its associate company, incorporated in India, refer to our separate Report in "Annexure 2" to this report
- (h) In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries and associate company incorporated in India, the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Holding Company, its

subsidiaries and associate company incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act; and

- (ii) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and associate company, as noted in the 'Other matter' paragraph:
 - i. The Consolidated Ind AS financial statements disclose the impact of pending litigations on its consolidated financial position of the Group and its associate company in its Consolidated Ind AS financial statements – Refer Note 31(b) to the Consolidated Ind AS financial statements;
 - ii. The Group and its associate company have made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts – Refer Note 17 to the Consolidated Ind AS financial statements; and
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its subsidiaries and its associate company incorporated in India during the year ended March 31, 2020.

ANNEXURE 1 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF BRIGADE ENTERPRISES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS financial statements of Brigade Enterprises Limited as of and for the year ended March 31, 2020, we have audited the internal financial controls over financial reporting of Brigade Enterprises Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies and its associate company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and its associate company and, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Consolidated

Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Ind AS Financial Statements

A Company's internal financial control over financial reporting with reference to these Consolidated Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting with reference to these Consolidated Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Ind AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated

Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and its associate company, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements and such internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of

Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these Consolidated Ind AS financial statements of the Holding Company, insofar as it relates to these 11 subsidiary companies and 1 associate company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiary and associate incorporated in India.

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

1. Corporate information

The Consolidated Ind AS financial statements comprise financial statements of Brigade Enterprises Limited ('BEL' or the 'Company' or the 'Holding Company') and its subsidiaries and associate (collectively, the Group) for the year ended March 31, 2020. The Holding Company is a public company domiciled in India and is incorporated on November 8, 1995 under the provisions of the Companies Act applicable in India. Its shares are listed on the National Stock Exchange of India Limited and Bombay Stock Exchange Limited. The registered office of the Holding Company is located at 29th & 30th Floors, World Trade Center, Brigade Gateway Campus, 26/1, Dr Rajkumar Road, Malleswaram-Rajajinagar, Bangalore 560 055.

The Group is carrying on the business of real estate development, leasing and hospitality and related services.

The Consolidated Ind AS financial statements were authorised for issue in accordance with a resolution of the directors on June 18, 2020.

2. Basis of preparation

In accordance with the notification issued by the Ministry of Corporate Affairs, the Group has adopted Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The Consolidated Ind AS financial statements of the Group are prepared and presented in accordance with Ind AS.

The Consolidated Ind AS financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.1 Changes in Accounting policies and disclosures

The accounting policies adopted and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below.

Ind AS 116 Leases

The Group has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective method prescribed in para C8(b)(ii) to ongoing leases as on April 01, 2019. The standard is applied retrospectively

with the cumulative effect of initially applying the standard recognised at the date of initial application. Accordingly, the comparatives have not been restated and hence not comparable with previous period figures. On transition, the adoption of new standard resulted in recognition of Right of use asset (ROU) of ₹ 3,673 lakhs (net of adjustment of lease equalisation reserve of ₹ 2,600 lakhs), and a lease liability of ₹ 6,273 lakhs and there was no impact to retained earnings.

In the statement of profit and loss for the current period, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost of ROU and finance cost for interest accrued on lease liability. In the context of initial application, the Group has exercised the option — not to apply the new recognition requirements to short-term leases and to leases of low-value asset. The impact of application of Ind AS 116 for the year ended March 31, 2020 is as detailed in note 33 of the Consolidated Ind AS financial statements.

2.2 Summary of significant accounting policies

(a) Basis of consolidation

i. Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and are deconsolidated from the date that control ceases.

Consolidation procedure:

- a. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the Holding Company with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the Consolidated Ind AS financial statements at the acquisition date.
- b. Offset (eliminate) the carrying amount of the Holding Company's investment in each subsidiary and the Holding Company's portion of equity of each subsidiary. The manner of accounting for any related goodwill is explained below.
- c. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

recognition in the Consolidated Ind AS financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

- d. The financial statements of all subsidiaries used for the purpose of consolidation are drawn up to same reporting date as that of the Holding Company, i.e., year ended on March 31st and are prepared using uniform accounting policies for like transactions and other events in similar circumstances.
- e. Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.
- f. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI. After initial recognition, goodwill is measured at cost less any accumulated impairment losses and tested for impairment annually.

When the Group ceases to consolidate for an investment because of a loss of control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for and reclassified to profit or loss.

ii. Associate

An associate is an entity over which the Group has significant influence. Significant influence is the power to

participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate are accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill, if any, relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The statement of profit and loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

If an entity's share of losses of an associate equals or exceeds its interest in the associate (which includes any long term interest that, in substance, form part of the Group's net investment in the associate), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit and loss.

The financial statements of associate used for the purpose of consolidation are drawn up to same reporting date as that of the Holding Company, i.e., year ended on March 31st and are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

After application of the equity method, the Group determines whether it is necessary to recognise an

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of profit in associate' in the statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

(b) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve.

(c) Use of estimates

The preparation of Consolidated Ind AS financial statements in conformity with Ind AS requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the

disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities. The effect of change in an accounting estimate is recognized prospectively.

(d) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has evaluated and considered its operating cycle as below and accordingly has reclassified its assets and liabilities into current and non-current:

- Residential/ commercial/mixed use projects for real estate development – 3-5 years
- Hospitality/ leasing business/ others – 1 year

Deferred tax assets/ liabilities are classified as non-current assets/ liabilities.

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

(e) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

(f) Depreciation on property, plant and equipment and investment property

Depreciation is calculated on written down value basis using the following useful lives estimated by the management, which are equal to those prescribed under Schedule II to the Companies Act, 2013:

Category of Asset	Useful lives (in years)
Buildings	60
Plant and machinery	15
Electrical Installation and equipment	10
Furniture and fixtures	
i. General Furniture and fixtures	10
ii. Furniture and fixtures used in hotels	8
Computer hardware	
i. Computer equipment	3
ii. Servers and network equipment	6
Office equipment	5
Motor Vehicles	8

Leasehold land is amortized on a straight-line basis over the balance period of lease

Based on the planned usage of certain project-specific assets and technical evaluation thereon, the management has estimated the useful lives of such classes of assets as below, which are lower from the useful lives as indicated in Schedule II and are depreciated on straight line basis:

i.	Buildings	-	14 – 25 years
ii.	Furniture and fixtures	-	5-10 years
iii.	Office equipment	-	5-10 years
iv.	Plant and Machinery	-	5-10 years
v.	Motor Vehicles	-	5 years
vi.	Computer hardware	-	3 years

The residual values, useful lives and methods of depreciation of property, plant and equipment and

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

investment property are reviewed at each financial year end and adjusted prospectively, if appropriate.

(g) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Intangible assets comprising of computer software are amortized on a written down value basis over a period of three years, which is estimated by the management to be the useful life of the asset.

The residual values, useful lives and methods of amortization of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when asset is derecognized.

Costs of assets not ready for use at the balance sheet date are disclosed under intangible assets under development.

(h) Investment property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in profit or loss as incurred.

Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are de-recognized either when they have been disposed of or when they are permanently withdrawn from use and no future

economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

(i) Impairment

A. Financial assets

The Group assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Group recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

B. Non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

(j) Leases

The Group evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

Where the Group is lessee

The Group assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves—

- (a) the use of an identified asset,
- (b) the right to obtain substantially all the economic benefits from use of the identified asset, and
- (c) the right to direct the use of the identified asset.

The Group at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets. The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right-of-use assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

For lease liabilities at inception, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

The Group recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in the statement of profit and loss.

For short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

Lease payments have been classified as cash used in Financing activities. Also refer note 34 to the

Consolidated Ind AS financial statements.

Where the Group is the lessor

Leases in which the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included under Investment property.

Lease income from operating lease is recognized on a straight-line basis over the term of the relevant lease including lease income on fair value of refundable security deposits, unless the lease agreement explicitly states that increase is on account of inflation. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

(k) Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss.

(l) Inventories

Direct expenditure relating to real estate activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the real estate activity.

- i. Work-in-progress: Represents cost incurred in respect of unsold area (including land) of the real estate development projects or cost incurred on projects where the revenue is yet to be recognized. Work-in-progress is valued at lower of cost and net realizable value.
- ii. Finished goods- Stock of Flats: Valued at lower of cost and net realizable value.

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

- iii. Raw materials, components and stores: Valued at lower of cost and net realizable value. Cost is determined based on FIFO basis.
- iv. Land stock: Valued at lower of cost and net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(m) Land

Advances paid by the Group to the seller/ intermediary toward outright purchase of land is recognised as land advance under other assets during the course of obtaining clear and marketable title, free from all encumbrances and transfer of legal title to the Group, whereupon it is transferred to land stock under inventories/ capital work in progress.

Land/ development rights received under joint development arrangements ('JDA') is measured at the fair value of the estimated construction service rendered to the land owner and the same is accounted on launch of the project. The amount of non-refundable deposit paid by the Group under JDA is recognised as land advance under other assets and on the launch of the project, the non-refundable amount is transferred as land cost to work-in-progress/ capital work in progress. Further, the amount of refundable deposit paid by the Group under JDA is recognized as deposits under loans.

(n) Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. The Group presents revenue from contracts with customers net of indirect taxes in its statement of profit and loss.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Group considers the effects of variable consideration, the existence of significant financing components,

noncash consideration, and consideration payable to the customer, if any.

Revenue from real estate development of residential or commercial unit is recognised at the point in time, when the control of the asset is transferred to the customer.

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Group as a single performance obligation, as they are highly interrelated/ interdependent.

The performance obligation in relation to real estate development is satisfied upon completion of project work and transfer of control of the asset to the customer.

Further, for projects executed through joint development arrangements not being jointly controlled operations, wherein the land owner/possessor provides land and the Group undertakes to develop properties on such land and in lieu of land owner providing land, the Group has agreed to transfer certain percentage of constructed area or certain percentage of the revenue proceeds, the revenue from the development and transfer of constructed area/revenue sharing arrangement in exchange of such development rights/ land is being accounted on gross basis on launch of the project. Revenue is recognised over time using input method, on the basis of the inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation.

For contracts involving sale of real estate unit, the Group receives the consideration in accordance with the terms of the contract in proportion of the percentage of completion of such real estate project and represents payments made by customers to secure performance obligation of the Group under the contract enforceable by customers. Such consideration is received and utilised for specific real estate projects in accordance with the requirements of the Real Estate (Regulation and Development) Act, 2016. Consequently, the Group has concluded that such contracts with customers do not involve any financing element since the same arises for reasons explained above, which is other than for provision of finance to/from the customer.

Contract balances

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Cost to obtain a contract

The Group recognises as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The Company incurs costs such as sales commission when it enters into a new contract, which are directly related to winning the contract. The asset recognised is amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

Income from leasing

Rental income receivable under operating leases (excluding variable rental income) is recognized in the income statement on a straight-line basis over the term of the lease including lease income on fair value of refundable security deposits. Rental income under operating leases having variable rental income is recognized as per the terms of the contract.

Revenue from hospitality services

Revenue from hospitality operations comprise revenue from rooms, restaurants, banquets and other allied services, including membership, telecommunication, laundry, etc. Revenue is recognized as and when the services are rendered and is disclosed net of allowances. Revenue from membership fees is recognized as income on straight-line basis over the membership term.

Income from maintenance and other services

Commission, management fees, maintenance services and other fees receivable for services rendered are recognized as and when the services are rendered as per the terms of the contract.

Interest income

Interest income, including income arising from other financial instruments measured at amortised cost, is recognized using the effective interest rate method.

Dividend income

Dividend income is recognized when the Group's right to receive dividend is established, which is generally when shareholders approve the dividend.

Share in profits of partnership firm investments

The Group's share in profits from a firm where the Group is a partner, is recognized basis of such firm's audited accounts, as per terms of the partnership deed.

(o) Foreign currency translation

Functional and presentation currency

The Group's Consolidated Ind AS financial statements are presented in Indian rupee (INR), which is also the Holding Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

Foreign currency transactions and balances

- i) Initial recognition- Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.
- ii) Conversion- Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.
- iii) Exchange differences- The Group accounts for exchange differences arising on translation/ settlement of foreign currency monetary items as income or as expense in the period in which they arise.

(p) Retirement and other employee benefits

Retirement benefits in the form of state governed Employee Provident Fund, Employee State Insurance

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

and Employee Pension Fund Schemes are defined contribution schemes (collectively the 'Schemes'). The Group has no obligation, other than the contribution payable to the Schemes. The Group recognizes contribution payable to the Schemes as expenditure, when an employee renders the related service. The contribution paid in excess of amount due is recognized as an asset and the contribution due in excess of amount paid is recognized as a liability.

Gratuity, which is a defined benefit plan, is accrued based on an independent actuarial valuation, which is done based on project unit credit method as at the balance sheet date. The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. In accordance with Ind AS, re-measurement gains and losses on defined benefit plans recognized in OCI are not to be subsequently reclassified to statement of profit and loss. As required under Ind AS compliant Schedule III, the Group recognizes re-measurement gains and losses on defined benefit plans (net of tax) to retained earnings.

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method, made at the end of each financial year. Actuarial gains/losses are immediately taken to the statement of profit and loss. The Group presents the accumulated leave liability as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

(q) Income taxes

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that

are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

i. Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

ii. Deferred income tax

Deferred income tax is recognised using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

(r) Share based payment

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model and the cost is recognised, together with a corresponding increase in share options outstanding account in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(s) Segment reporting

- i. Identification of segments- The Group's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Group operate.
- ii. Inter-segment transfers- The Group generally accounts for intersegment sales and transfers at appropriate margins. These transfers are eliminated in consolidation.
- iii. Unallocated items- Unallocated items include general corporate asset, liability, income and expense items which are not allocated to any business segment.
- iv. Segment accounting policies- The Group prepares its segment information in conformity

with the accounting policies adopted for preparing and presenting the Consolidated Ind AS financial statements of the Group as a whole.

(t) Provisions and contingent liabilities

A provision is recognized when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses it in the Consolidated Ind AS financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

(u) Financial Instruments

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

- i. Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

amount outstanding.

ii. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in statement of profit and loss.

iii. Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

iv. Investment in subsidiaries, joint ventures and associates

Investment in subsidiaries and associate are carried at cost. Impairment recognized, if any, is reduced from the carrying value.

v. De-recognition of financial asset

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

vi. Financial liabilities

Financial liabilities are classified, at initial

recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as payables, as appropriate. The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. The subsequent measurement of financial liabilities depends on their classification, which is described below.

vii. Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

viii. Financial liabilities at amortized cost

Financial liabilities are subsequently carried at amortized cost using the effective interest ('EIR') method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Interest-bearing loans and borrowings are subsequently measured at amortized cost using EIR method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ix. De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

x. Fair value of financial instruments

In determining the fair value of its financial instruments, the Group uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Ind AS financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ♦ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ♦ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ♦ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the Consolidated Ind AS financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(v) Convertible preference shares and debentures

Convertible preference shares and debentures are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares and debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are deducted from equity, net of associated income tax.

The carrying amount of the conversion option is not remeasured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares and debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

(w) Cash dividend to equity holders of the Holding Company

The Holding Company recognizes a liability to make cash distributions to equity holders of the Holding Company when the distribution is authorized and the distribution is no longer at the discretion of the Holding Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Holding Company's Board of Directors.

(x) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(y) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

For the purpose of the consolidated cash flow statement, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

outstanding bank borrowings repayable on demand as they are considered an integral part of the Group's cash management.

2.3 Significant accounting judgements, estimates and assumptions

The preparation of Consolidated Ind AS financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

(a) Judgments

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the Consolidated Ind AS financial statements:

Classification of property

The Group determines whether a property is classified as investment property or inventory as below.

- Investment property comprises land and buildings (principally office and retail properties) that are not occupied substantially for use by, or in the operations of, the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business.
- Inventory comprises property that is held for sale in the ordinary course of business. Principally, this is residential and commercial property that the Group develops and intends to sell before or during the course of construction or upon completion of construction.

Basis of Consolidation

For the purpose of consolidation, judgements are involved in determining whether the Group has control over an investee entity by assessing the Group's exposure/rights to variable returns from its involvement with the investee and its ability to affect those returns

through its power over the investee entity. The Group considers all facts and circumstances when assessing whether it controls an investee entity and reassess whether it controls an investee entity if facts and circumstances indicate that there are changes to one or more elements of control. Changes in judgements about these inputs could affect the reported value in the Consolidated Ind AS financial statements.

(b) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Consolidated Ind AS financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Revenue from contracts with customers

The Company applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

i) Identification of performance obligation

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated/ interdependent. In assessing whether performance obligations relating to sale of undivided share of land and constructed area are highly interrelated/ interdependent, the Company considers factors such as:

- whether the customer could benefit from the undivided share of land or the constructed area on its own or together with other resources readily available to the customer.
- whether the entity will be able to fulfil its promise under the contract to transfer the undivided share of land without transfer of constructed area or transfer the constructed area without transfer of undivided share of land.

ii) Timing of satisfaction of performance obligation

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

Revenue from sale of real estate units is recognised when (or as) control of such units is transferred to the customer. The entity assesses timing of transfer of control of such units to the customers as transferred over time if one of the following criteria are met:

- The customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs.
- The entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

If control is not transferred over time as above, the entity considers the same as transferred at a point in time.

For contracts where control is transferred at a point in time, the Company considers the following indicators of the transfer of control of the asset to the customer:

- When the entity obtains a present right to payment for the asset.
- When the entity transfers legal title of the asset to the customer.
- When the entity transfers physical possession of the asset to the customer.
- When the entity transfers significant risks and rewards of ownership of the asset to the customer.
- When the customer has accepted the asset.

Accounting for revenue and land cost for projects executed through joint development arrangements ('JDA')

For projects executed through joint development arrangements, the revenue from the development and transfer of constructed area/revenue sharing arrangement and the corresponding land/ development rights received under JDA is measured at the fair value of the estimated construction service rendered to the land owner and the same is accounted on launch of the project. The fair value is estimated with reference to the terms of the JDA (whether revenue share or area share) and the related cost that is allocated to discharge the obligation of the Group under the JDA. Fair value of the construction is considered to be the representative fair

value of the revenue transaction and land so obtained. Such assessment is carried out at the launch of the real estate project and is not reassessed at each reporting period. The Group is of the view that the fair value method and estimates are reflective of the current market condition.

Estimation of net realizable value for inventory (including land advance)

Inventory is stated at the lower of cost and net realizable value (NRV).

NRV for completed inventory property is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Group, based on comparable transactions identified by the Group for properties in the same geographical market serving the same real estate segment.

NRV in respect of inventory property under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction and an estimate of the time value of money to the date of completion.

With respect to Land advance given, the net recoverable value is based on the present value of future cash flows, which depends on the estimate of, among other things, the likelihood that a project will be completed, the expected date of completion, the discount rate used and the estimation of sale prices and construction costs.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to disclosure of fair value of investment

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

property recorded by the Group.

Defined benefit plans- Gratuity

The cost of the defined benefit gratuity plan and other post-employment medical benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds. The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates and expected salary increase thereon.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and market risk. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Measurement of financial instruments at amortized cost

Financial instrument are subsequently measured at amortized cost using the effective interest ('EIR') method. The computation of amortized cost is sensitive to the inputs to EIR including effective rate of interest, contractual cash flows and the expected life of the financial instrument. Changes in assumptions about these inputs could affect the reported value of financial instruments.

Evaluation of control, joint control or significant influence

by the Company over its investee entities for disclosure:

Judgment is involved in determining whether the Company has control over an investee entity by assessing the Company's exposure/rights to variable returns from its involvement with the investee and its ability to affect those returns through its power over the investee entity. The Company considers all facts and circumstances when assessing whether it controls an investee entity and reassess whether it controls an investee entity if facts and circumstances indicate that there are changes to one or more elements of control. In assessing whether the Company has joint control over an investee the Company assesses whether decisions about the relevant activities require the unanimous consent of the parties sharing control. Further, in assessing whether Company has significant influence over an investee, the Company assesses whether it has the power to participate in the financial and operating policy decisions of the investee, but is not in control or joint control of those policies.

Provision for litigations and contingencies

Provision for litigations and contingencies is determined based on evaluation made by the management of the present obligation arising from past events the settlement of which is expected to result in outflow of resources embodying economic benefits, which involves judgments around estimates the ultimate outcome of such past events and measurement of the obligation amount. Due to judgments involved in such estimation the provision is sensitive to the actual outcome in future periods.

Useful life and residual value of property, plant and equipment, investment property and intangible assets

The useful life and residual value of property, plant and equipment, investment property and intangible assets are determined based on evaluation made by the management of the expected usage of the asset, the physical wear and tear and technical or commercial obsolescence of the asset. Due to the judgments involved in such estimates the useful life and residual value are sensitive to the actual usage in future period.

Impact of Pandemic Covid-19

The Group has considered the possible effects that may result from the Covid-19 pandemic on the carrying value of assets [including property, plant and equipment, investment property, capital work in progress, intangible assets (including under development), goodwill,

investments, inventories, land advances, deposits, loans and receivables]. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Group, as at the date of approval of these Consolidated Ind AS financial statements has used internal and external sources of information to assess the expected future performance of the Group. The Group has performed sensitivity analysis on the assumptions used and based on the current estimates, the Group expects that the carrying amount of these assets, as reflected in the

balance sheet as at March 31, 2020, are fully recoverable. The Group has also estimated the future cash flows with the possible effects that may result from the COVID-19 pandemic and does not foresee any adverse impact on realising its assets and in meeting its liabilities as and when they fall due. The actual impact of the Covid-19 pandemic may be different from that estimated as at the date of approval of these Consolidated Ind AS financial statements.

* During the year ended March 31, 2020, an impairment loss of ₹ 600 lakhs has been recognised in the statement of profit and loss, which represents the write-down value of certain property, plant and equipment in the hospitality segment to the recoverable amount. The impairment charge arose in the hospitality segment Cash Generating Unit ("CGU") due to slower ramp up of occupancy coupled with the current economic conditions due to Covid-19 pandemic. The annual impairment test performed considers the current economic conditions and revised business plans to determine the higher of the "value in use" and the "fair value less cost to lease" in accordance with Ind AS 36. The recoverable amount of the said properties of ₹ 15,098 lakhs as at March 31, 2020 was based on value in use and was determined at the level of the CGU being individual hotel property. The financial projections basis which the future cash flows have been estimated consider the increase in economic uncertainties due to COVID-19, revisiting the key operating assumptions as well as growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis.

Fair value disclosure

The Group has determined that the fair value of the investment property under construction is not reliably measurable and expects the fair value of the property to be reliably measurable when construction is complete. Accordingly, the Group will measure and disclose the fair value of the investment property when the construction is complete and its fair value becomes reliably measurable.

Fair value of Investment Properties:	Office properties	Retail Properties	Total
As at March 31, 2019	178,538	168,318	346,856
As at March 31, 2020	324,819	211,451	536,270

These fair values are based on valuations performed by an independent valuer, who is assessed by the Group to be an expert in valuing these types of investment properties. The fair value of investment properties is based on discounted cash flows and classified as level 3 fair value in the fair value hierarchy due to the use of unobservable inputs. There has been no change in valuation techniques used since prior years.

Description of valuation techniques used and key inputs to valuation on investment properties:

Investment properties	Valuation technique	Significant observable inputs	Range (weighted average)	
			March 31, 2020	March 31, 2019
Office properties	DCF method	- Estimated rental value per sq. ft. per month	₹40-₹130	₹30-₹112
		- Rent growth p.a.	5%	5%
		- Discount rate	9%	8%
		- Vacancy rate	5%	5%
Retail properties	DCF method	- Estimated rental value per sq. ft. per month	₹50-₹310	₹50-₹310
		- Rent growth p.a.	5%	5%
		- Discount rate	8%	8%
		- Vacancy rate	5%	5%

Under the DCF method, fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a real estate property interest. To this projected cash flow series, a market-derived discount rate is applied to establish the present value of the income stream associated with the asset.

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related re-letting, redevelopment, or refurbishment. The appropriate duration is typically driven by market behaviour that is a characteristic of the class of real estate property. Periodic cash flow is typically estimated as gross income less vacancy, non-recoverable expenses, collection losses, lease incentives, maintenance cost, agent and commission costs and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

29 Earnings per share

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders of the holding company by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2020 ₹	March 31, 2019 ₹
Profit after tax	13,058	23,991
Weighted average number of equity shares for basic EPS (No. in lakhs)	2,043	2,042
Effect of dilution: stock options granted under ESOP and share warrants (No. in lakhs)	16	1
Weighted average number of equity shares adjusted for the effect of dilution (No. in lakhs)	2,059	2,043

*In accordance with Ind AS 33 - Earnings per share, the earnings per share has been adjusted for previous year to give effect to the bonus issue. (refer note 13)

31 Commitments and contingencies

a. Other Commitments

- (i) The estimated amount of contract (net of advance) remaining to be executed on capital account not provided for is ₹ 86,394 lakhs (March 31, 2019: ₹92,809 lakhs)
- (ii) The Group has given ₹ 39,282 lakhs (March 31, 2019: ₹ 38,239 lakhs) as advances/deposits for purchase of land/ joint development. Under the agreements executed with the land owners, the Group is required to make further payments and/or give share in area/ revenue from such development in exchange of undivided share in land based on the agreed terms/ milestones.
- (iii) In connection with Group's investments in certain subsidiaries, the Group has entered into shareholders agreement with other shareholders wherein it has certain commitments including further investment in accordance with the terms of the agreement.
- (iv) The holding company has entered into a power purchase agreement with a party wherein the holding company has committed minimum purchase of power.

b. Contingent liabilities

	March 31, 2020 ₹	March 31, 2019 ₹
Claims against the Group not acknowledged as debts

Others	1,075	-
	32,854	11,378

Other Litigations:

The Group is also subject to certain legal proceedings and claims, which have arisen in the ordinary course of business, including certain litigation for commercial development or land parcels held for construction purposes, either through joint development arrangements or through outright purchases, the impact of which is not quantifiable. These cases are pending with various courts and are scheduled for hearings. After considering the circumstances and legal evaluation thereon, the management believes that these cases will not have an adverse effect on the Consolidated Ind AS financial statements.

The Group has received a legal notice from a vendor demanding payment of compensation of ₹1,214 lakhs for procuring maximum permissible Floor Space Index for development of land parcels procured from such vendor. The Group does not expect any payment in respect of the aforesaid obligation/ claim and it is not probable that an outflow of resources will be required to settle the same and hence, no provision has been made in the Consolidated Ind AS financial statements in this regard.

In November 2017, a search under Section 132(l) of Income Tax Act, 1961, was conducted at various premises of the Group. The management has complied with / responded to the notices received in this regard. During the year, the Group has received assessment orders and have submitted their appeals/rectifications with the concerned authorities and does not expect any additional liability beyond the amounts already provided for, on final assessment of the aforesaid matter. Based on management evaluation, the amounts demanded as per the assessment orders have been disclosed as contingent liability above.

Note: The Group does not expect any reimbursement in respect of the above contingent liabilities and it is not practicable to estimate the timing of the cash outflows, if any, in respect of aforesaid matters and it is not probable that an outflow of resources will be required to settle the above obligations/claims.

33 Leases

A. Transition to Ind AS 116

1. Effect of adoption of new accounting standard on Leases: Ind AS 116

The Group has adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 01, 2019 using the modified retrospective method prescribed in para C8(b)(ii) to ongoing leases as on April 01, 2019. The standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. Accordingly, the comparatives have not been restated and hence not comparable with previous period figures.

On transition, the adoption of new standard resulted in recognition of Right of use asset (ROU) of ₹ 3,673 lakhs (net of lease equalisation reverse of ₹ 2,600 lakhs as on April 01, 2019, and a lease liability of ₹ 6,273 lakhs.

In the statement of profit and loss for the current period, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost of ROU and finance cost for interest accrued on lease liability.

In the context of initial application, the Group has exercised the option — not to apply the new recognition requirements to short-term leases and to leases of low-value asset.

35 Share based payment

The Company provides share-based payment schemes to its employees. During the year ended March 31, 2020, two employee stock option plans (ESOPs) were in existence. The relevant details of the scheme and the grants are as below:

Employees Stock Option Scheme ('ESOP 2011'): The Company instituted this scheme pursuant to the Board of Directors and Shareholders' resolution dated May 04, 2011 and August 11, 2011, respectively. As per ESOP 2011, the Company granted 24,94,300 (till March 31, 2019: 24,94,300) options comprising equal number of equity shares in one or more tranches to the eligible employees of the Company and its subsidiaries. The options under this grant would vest to the employees equally as 25% of the total grant every year at the end of first, second, third and fourth year from the date of the grant respectively, with an exercise period of five years from the date of respective vesting. The contractual life (comprising the vesting period and the exercise period) of options granted is 9 years from date of such grant. The other relevant terms of the grant are mentioned below.

Employees Stock Option Scheme ('ESOP 2017'): The Company instituted this scheme pursuant to the Board of Directors and Shareholders' resolution dated August 08, 2017 and September 21, 2017, respectively. As per ESOP 2017, the Company granted 22,14,557 (till March 31, 2019: 13,68,270) options comprising equal number of equity shares in one or more tranches to the eligible employees of the Company and its subsidiaries. The options under this grant would vest to the employees equally as 25% of the total grant every year at the end of first, second, third and fourth year from the date of the grant respectively, with an exercise period of five years from the date of respective vesting. The contractual life (comprising the vesting period and the exercise period) of options granted is 9 years from date of such grant. The other relevant terms of the grant are mentioned below.

The fair value of the share options is estimated at the grant date using Black Scholes Model taking into account the terms and conditions upon which the share options are granted and there are no cash settled alternatives for employees.

Expense recognised for employee services received during the year is shown in the following table:

** Pursuant to the Bonus Issue (refer note 13) there has been modification to ESOP 2017 scheme.

Committee of Directors vide resolution dated August 30, 2019 have further approved the grant of 6,28,721 additional Options and revised the issue price of Options to ₹ 166.67 in accordance with the bonus issue ratio. This is in accordance with the Brigade Employee Stock Option Plan, 2017 and the approval provided by the Members.

For options exercised during the period, the weighted average share price at the exercise date was ₹ 226.02 per share (March 31, 2019: Nil). The weighted average remaining contractual life for the stock options outstanding as at March 31, 2020 is 5.9 years (March 31, 2019: 6.74 years)

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

	Grant 1	Grant 2	Grant 3	Grant 4
Dividend yield (%)	0.78%	0.78%	0.78%	0.78%
Expected volatility (%)	35.24%	37.30%	35.20%	47.40%
Risk-free interest rate (%)	6.41%	7.20%	7.20%	7.20%
Weighted average share price (₹)	255	214	161	198
Exercise price (₹)	167	167	167	167
Expected life of the options granted (in years) [vesting and exercise period]	7.50	7.50	7.50	7.50

The expected life of the stock is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

36 Segment reporting

For management purposes the Group is organised into 3 Strategic Business Units (SBUs) based on risks and rates of return of the products and services offered by those SBUs as follows: Real Estate, Hospitality and Leasing. The management reviews operating results of SBUs separately for the purpose of making decisions about resource allocation and performance assessment. Also the companies financing (including finance costs and finance income) and income taxes are managed at corporate level and are not allocated to operating Segments. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

37 Fair value measurements

The details of fair value measurement of Group's financial assets/liabilities are as below:

	Level	March 31, 2020 ₹	March 31, 2019 ₹
Financial assets/liabilities measured at fair value through profit/loss:			
Investment in quoted investments	Level 1	2,022	4,584
Investment in unquoted equity instruments of other companies	Level 3	13	16

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. There have been no transfers between levels during the period.

The management assessed that the carrying values of cash and cash equivalents, trade receivables, investments, loans, trade payables, borrowings and other financial assets and liabilities approximate their fair values largely due to the short-term maturities.

The following methods and assumptions were used to estimate the fair values:

- The quoted investments (mutual funds and bonds) are valued using the quoted market prices in active markets for identical investments.
- The fair values of the unquoted equity shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

38 Capital management

The Group's objectives of capital management is to maximize the shareholder value. In order to maintain or adjust the capital structure, the Group may adjust the return to shareholders, issue/ buyback shares or sell assets to reduce debt. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants.

The Group monitors capital using a gearing ratio, which is net debt divided by total equity plus net debt as below.

- Equity includes equity share capital and all other equity components attributable to the equity holders
- Net Debt includes borrowings (non-current and current), trade payables and other financial liabilities, less cash and cash equivalents (including bank balances other than cash and cash equivalents and margin money deposits with banks)

Particulars	March 31, 2020 ₹	March 31, 2019 ₹
Borrowings (non-current and current, including current maturities of non-current borrowings)	452,159	378,547
Trade payables	50,049	60,808
Other financial liabilities (current and non-current excluding current maturities of non-current borrowings)	99,841	54,971
Less: Cash and cash equivalents (including balances at bank other than cash and cash equivalents and margin money deposits)	(37,444)	(29,529)
Net Debt (A)	564,605	464,797
Equity share capital	20,438	13,618
Other equity	224,262	222,165
Equity (B)	244,700	235,783
Equity plus net debt (C = A + B)	809,305	700,580
Gearing ratio (D = A / C)	70%	66%

In order to achieve the objective of maximize shareholders value, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing borrowings that define capital structure requirements. Any significant breach in meeting the financial covenants would allow the bank to call borrowings. There have been no breaches in the financial covenants of above-mentioned interest-bearing borrowing.

No changes were made in the objectives, policies or processes for managing capital during the current and previous years.

39 Financial risk management objectives and policies

The Group's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include loans, trade, other receivables and cash and cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's management oversees the management of these risks and ensures that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision and are used exclusively for hedging purposes and not as trading or speculative instruments.

i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and other price risk, such as equity price risk and commodity/ real-estate risk.

Notes to Consolidated Ind AS Financial Statements for the year ended March 31, 2020

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

Interest rate risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in interest rate. The entity's exposure to the risk of changes in interest rates relates primarily to the entity's operating activities (when receivables or payables are subject to different interest rates) and the entity's net receivables or payables.

The Group is affected by the price volatility of certain commodities/ real estate. Its operating activities require the ongoing development of real estate. The Group's management has developed and enacted a risk management strategy regarding commodity/ real estate price risk and its mitigation. The Group is subject to the price risk variables, which are expected to vary in line with the prevailing market conditions.

Interest rate sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in interest rates, with all other variables held constant. The impact on the entity's profit before tax is due to changes in the fair value of financial assets and liabilities.

	Change in interest rate	Effect of profit before tax
March 31, 2020	+1%	4,571
	-1%	(4,571)
March 31, 2019	+1%	3,717
	-1%	(3,717)

The Group invests surplus funds in liquid mutual funds. The Group is exposed to market price risk arising from uncertainties about future values of the investment. The Group manages the equity price risk through investing surplus funds on liquid mutual funds for short term basis.

The table below summarises the impact of increase/decrease of the Net Asset Value (NAV) on the profit for the year. The analysis is based on the assumption that the NAV price would increase 5% and decrease by 5% with all variable constant.

Increase/(decrease) in profit	March 31, 2020	March 31, 2019
Price - increase by 5%	81.00	206.63
Price - decrease by 5%	(81.00)	(206.63)

ii. Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. The Group's exposure to credit risk arises majorly from trade receivables/ unbilled revenue and other financial assets.

Other financial assets like security deposits, loans and bank deposits are mostly with employees, government bodies and banks and hence, the Group does not expect any credit risk with respect to these financial assets.

With respect to trade receivables/ unbilled revenue, the Group has constituted teams to review the receivables on periodic basis and to take necessary mitigations, wherever required. The Group creates allowance for all unsecured receivables based on lifetime expected credit loss.

The following table summarizes the change in the loss allowance measured using ECL

Particulars	March 31, 2020 ₹	March 31, 2019 ₹
Opening balance	261	26
Amount provided during the year	162	235
Amount reversed during the year	(78)	-
Closing balance	345	261

(All amounts in Indian Rupees Lakhs, except as otherwise stated)

iii. Liquidity risk

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Group believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly no liquidity risk is perceived.

The break-up of cash and cash equivalents, deposits and investments is as below.

	March 31, 2020	March 31, 2019
Cash and cash equivalents	23,989	18,103
Bank balances other than Cash and cash equivalents	6,502	4,119
Margin money deposit	6,953	7,307
Investments - current	1,620	4,133

The table below summarises the maturity profile of the Group's financial liabilities at the reporting date, which are based on contractual undiscounted payments.

NOTES:

1. The Statement pursuant to Section 102 of the Companies Act, 2013 with respect to the special business set out in the Notice is annexed.

Board of Directors of the Company at its meeting held on June 18, 2020 and August 12, 2020 considered that the special business under Item Nos. 4 to 9, being considered unavoidable, to be transacted at the AGM of the Company.

2. In view of the prevailing lockdown situation across the country due to outbreak of COVID-19 pandemic

and resultant travel restrictions as well as continuing Government guidelines to maintain social distancing, the Ministry of Corporate Affairs (MCA) vide its Circular No. 20/2020 dated May 5, 2020 read with Circular Nos. 14/2020 dated April 8, 2020 and 17/2020 dated April 13, 2020 and SEBI Circular dated May 12, 2020 has permitted companies to hold their Annual General Meetings (AGM) through Video Conferencing ('VC')/ Other Audio Visual Means ('OAVM') not requiring the physical presence of the Members at a common venue. Considering the health and safety of all stakeholders including the shareholders, the 25th AGM of the Company is being conducted through VC/OAVM in compliance with the provisions of the Companies Act, 2013 (Act), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations) and applicable circulars issued in this regard herein after called as "e-AGM".

Members attending the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum for the meeting under Section 103 of the Act.

3. Company has appointed M/s KFin Technologies Private Limited, Registrars and Transfer Agents, to provide Video Conferencing facility for the Annual General Meeting.
4. **A Member entitled to attend and vote is entitled to appoint a proxy to attend and vote on his / her behalf and the proxy need not be a member of the company. However, as this AGM is being held through VC/OAVM, physical attendance of Members is being dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM. Hence the proxy form and attendance slip are not being annexed to this Notice and the resultant requirement for submission of proxy forms does not arise.**

Corporate Members are required to access the link <https://evoting.karvy.com/> and upload a certified copy of the Board resolution authorizing their representative to attend the AGM through VC and vote on their behalf. Institutional investors are encouraged to attend and vote at the meeting through VC

5. In case of joint holders attending the AGM, the member whose name appears as the first holder in the order of the names as per the Register of Members of the Company will be entitled to vote.
6. The Register of Directors and Key Managerial Personnel and their shareholding, maintained under Section 170 of the Companies Act, 2013, will be available for inspection by the members electronically during the meeting.

Members seeking to inspect such documents can send an e-mail to investors@brigadegroup.com

7. The above may be treated as a written understanding setting out the terms of appointment of Mr. Roshin Mathew under Section 190 of the Companies Act, 2013.

The Board recommends passing of resolution no. 6 as an Ordinary resolution.

Except Mr. Roshin Mathew, none of the other Directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No. 6 of the Notice

Item No.7:

The provisions of Section 148 of the Companies Act, 2013 and the Companies (Cost Records and Audit) Rules, 2014 mandates the Company to get its cost records audited every year. The Board of Directors, based on the recommendation of the Audit Committee, have appointed Messrs Murthy & Co. LLP, Cost Accountants (LLP ID No. AAB-1402) as the Cost Auditors of the Company for the financial year 2019-20 at a remuneration of Rs.1,25,000/- (Rupees One Lakh and Twenty Five Thousand only) apart from applicable taxes and out of pocket expenses, if any.

Ratification of remuneration payable to Cost Auditors needs to be done by the Shareholders of the Company in terms of Section 148 of the Companies Act, 2013 read

with the Companies (Audit and Auditors) Rules, 2014. Due to which consent of the members is sought for ratification of the remuneration payable to the Cost Auditors for the financial year 2019-20.

The Board recommends passing of resolution no. 7 as an ordinary resolution.

None of the Directors, Key Managerial Personnel or their relatives are interested, financially or otherwise, if any in the Resolution No. 7 of the accompanying Notice except to the extent of their Shareholding, if any in the Company.

Item No.8:

Regulation 17(6)(e) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the fees or compensation payable to executive directors who are promoters or members of the promoter group shall be subject to approval of shareholders by way of special resolution if:

- a) the annual remuneration payable to such executive director exceeds rupees 5 crores or 2.5 percent of the net profits of the listed entity, whichever is higher;
- or
- b) where there is more than one such director, the aggregate annual remuneration to such directors exceeds 5 percent of the net profits of the listed entity.

Mr. M. R. Jaishankar, Chairman & Managing Director and Promoter of the Company was re-appointed for a further period of five years w.e.f April 1, 2017. The Members have approved remuneration payable to him is within the limits as prescribed at that time as per Companies Act, 2013, while approving his re-appointment earlier, which is in excess of the newly prescribed threshold limits specified in Regulation 17(6)(e) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. This necessitates seeking fresh approval of the members by way of special resolution for retaining all existing terms and conditions of appointment of Mr. M. R. Jaishankar including remuneration payable to him for the rest of his tenure till March 31, 2022.

Based on the recommendation of Nomination and Remuneration Committee, the Board of Directors of the company has approved the above proposal at their respective meetings.

Except Mr. M.R. Jaishankar, Ms. Pavitra Shankar and Ms. Nirupa Shankar none of the Directors, Key Managerial Personnel or their relatives are interested, financially or otherwise, if any in the Resolution No. 8 of the accompanying Notice except to the extent of their Shareholding, if any in the Company.

Item No.9:

The Company has in pipeline various real estate and commercial projects for which apart from internal accruals funding by way of equity as well as debt will be required. The Board of Directors have continuously evaluated funding requirements for the various projects of the Company through optimum mix of equity as well as debt funding mainly by way of project loans & lease rental discounting loans.

The Company proposes to raise capital for the purpose of financing, inter alia, the ongoing projects in Residential business & Commercial business, proposed capital expenditure and for general corporate purposes for which the Company may offer or invite subscription for securities, in one or more series/ tranches on private placement/ on preferential basis, issuable/ redeemable at par/premium.

Pursuant to Sections 23, 42, 62, 71 of the Companies Act, 2013, Companies (Prospectus and Allotment of Securities) Rules, 2014, the Companies (Share Capital and Debentures) Rules, 2014 and other applicable provisions, if any, including any amendment(s), statutory modification(s) and/ or re-enactment thereof for the time being in force, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (the "ICDR Regulations") and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations"), the approval of members is required to be obtained by a special resolution for making any further issue of equity shares or Securities to any person(s) other than the existing members of the Company.

As the Members are aware, the Company, its subsidiaries and associate are engaged in the business of real estate development, leasing and related services., the Company is exploring various avenues for raising additional funds. Considering buoyancy in capital market and global investor's appetite it is necessary that the Company should be prepared for accessing any window of opportunity for capital / fund raising going forward as and when the opportunity arises. Accordingly, the Board of Directors, at its meeting held on August 12, 2020, has approved, and decided to obtain an enabling approval from the Company's Members to raise funds for an amount aggregating up to ₹ 500 Crores (Rupees Five Hundred Crores Only).

For the above purpose, the Company has been exploring various avenues for raising funds by way of issue of Equity Shares or by way of issue of any financial instrument or securities convertible into Equity Shares such as warrants (in registered or bearer form), fully convertible debentures, partly convertible debentures and preference shares convertible into Equity Shares, and/or any other eligible securities which may or may not be listed (instruments

mentioned above collectively with the Equity Shares to be hereinafter referred to as the “Securities”) for an aggregate amount of up to ₹ 500 Crores (Rupees Five Hundred Crores Only) including through qualified institutions placement (the “QIP”) to qualified institutional buyers (the “QIBs”) as defined in ICDR Regulations or public and / private offerings, preferential issue, rights issue or through any other permissible mode and/or combination thereof as may be considered appropriate under the applicable laws. The issue of Securities may be consummated in one or more tranches at such time or times at such price as may be determined by the Board in its absolute discretion, taking into consideration prevailing market conditions and other relevant factors and wherever necessary in consultation with advisors, lead managers, underwriters and such other authority or authorities as may be necessary and subject, as applicable, to the ICDR Regulations, and other applicable guidelines, notifications, rules and regulations, each as amended.

The proposed Special Resolution seeks to confer upon the Board (including any Committee thereof) the absolute discretion to determine the terms of the aforementioned issuance of Securities, including the exact price, proportion and timing of such issuance, based on an analysis of the specific requirements. The detailed terms and conditions of such issuance will be determined by the Board or any Committee duly authorised by the Board, considering prevailing market conditions, practices and in accordance with the applicable laws. Accordingly, the Board (including a Committee thereof) may, in its discretion, adopt any one or more of the mechanisms prescribed above to meet its objectives as stated in the aforesaid paragraphs without the need for fresh approval from the Members of the Company.

The relevant date for the purpose of pricing the Securities shall be the meeting in which the Board or any Committee duly authorised by the Board decides to open the issue of such Securities, subsequent to receipt of Members’ approval in terms of the applicable laws. In the event that convertible securities (as defined under the ICDR Regulations) are issued to QIBs by way of a QIP, the relevant date for the purpose of pricing of such Securities shall be either the date of the meeting in which the Board decides to open the

issue of such convertible securities or the date on which the holders of such convertible securities become entitled to apply for the Equity Shares, as determined by the Board or any Committee duly authorised by the Board.

In the event of issuance of Securities by way of a QIP, as per the provisions of Chapter VI of the ICDR Regulations, an issue of Securities shall be made at a price not less than the floor price calculated in accordance with Chapter VI of the ICDR Regulations. The Board or any Committee duly authorised by the Board may offer a discount of not more than five percent on such price determined in accordance with the pricing formula provided under the said Chapter, in accordance with the applicable laws. Further, in the event that such issuance of Securities is undertaken by way of a QIP, the allotment of Securities shall be completed within a period of 365 days from passing the Special Resolution by the Members.

The Board recommends passing of resolution no. 9 as a special resolution.

None of the Directors, Key Managerial Personnel or their relatives are interested, financially or otherwise, if any in the Resolution No. 9 of the accompanying Notice except to the extent of their Shareholding, if any in the Company.

Message from the Chairman & MD

Dear Stakeholders,

It is my great pleasure to present our Annual Sustainability Report for the financial year 2019-2020. This is our Second Year of Sustainability Reporting and this year we have decided to report as per the Global Reporting Initiative (GRI) standards. The properties developed have been built on the foundation of Brigade Group's vision, mission and core values. With a vision "to be a world class organisation in our Products, Processes, People and Performance" and with a mission "to constantly endeavour to be the preferred Developer of Residential, Commercial and Hospitality spaces in the markets in which we operate, without compromising on our core values (QC FIRST – Quality, Customer Centricity, Fairness, Innovation, Responsible Socially and Trustworthy) for the benefit of all our Stakeholders.

Over 33 years, we have become one of India's leading property developers with expertise in building positive experiences for all our stakeholders and winning customer's trust. Instituted in 1986, we have developed many landmark buildings and transformed the city skyline of cities across South India namely: - Bengaluru, Mysuru, Mangaluru, Hyderabad, Chennai and Kochi with developments across Residential, Offices, Retail, Hospitality and Education Sectors.

Brigade has an impressive compounded annual growth rate even during difficult market and business cycles (like the depression of 1996,

the post-9/11 shadow period and the present COVID-19 pandemic). And in the process of successfully negotiating changing conditions, Brigade has created a brand name that stands for trust, reliability and innovation, across all our domains.

Brigade Group is a pioneer in developing Mixed Use Developments especially in Bengaluru since 2000 with its projects Brigade Millennium and Brigade Gardenia. Brigade Group introduced Bengaluru to Mixed Use Developments comprising of Residences,

Clubhouse, School, Convention Centre, Auditorium, Music Experience Museum and various other amenities. Subsequently, Brigade Group developed Brigade Metropolis, Brigade Gateway, Brigade Meadows, Brigade Orchards and Brigade Golden Triangle comprising Residences, Mall, Hotel, School, Hospital, Clubhouse and Office complex all in same campus. Brigade Cornerstone Utopia, Brigade Eldorado, Bengaluru and World Trade Centre, Chennai along with Residences are under construction Mixed Use Developments.

With the success of the completed projects, Brigade has raised the bar and has added various new age amenities viz., Shared residences, Coworking spaces, etc.

The Construction industry consumes about 40% of the global energy use and emits 30% of the global GHG emissions. The Intergovernmental Panel on Climate Change (IPCC) has requested the construction sector to enhance its energy performance by adopting best practices and initiatives.

Brigade strongly focuses on creating sustainable energy efficient buildings. All our commercial projects are Green Building Certified that prioritizes energy efficiency. We strive to set new benchmarks by adopting several energy conservation measures.

We have over 22 Green Building Certified projects and many more are in various stages of certification. Brigade Tech Gardens project is a state-of-the-art green building that confirms to regulations laid down by United States Green Building (USGBC) and American society of heating, refrigeration and Air-conditioning Engineers (ASHRAE). Brigade Tech Garden, Bengaluru was awarded Platinum Certification under the LEED-USGBC New Construction (Tenant Occupied) rating system.

We have pledged to plant 30,000 trees in Bengaluru. Until now, 40 tree planting camps have been organized and we have completed planting the 30,000, supporting the city with much needed green cover. Our efforts have borne fruit, which is evident from the native and indigenous trees that are growing well. Trees are closely monitored during their early years of planting, and therefore the survival rates are very encouraging. As an organisation, we will continue to further improve our measures and goals.

While our sustainability contributions grew, so did our business. FY 2019 – 20 has been Brigade's best operational performance where we have sold an Area of 4.3 million Sq.ft. All our business segment – Residential, Lease Rental and Hospitality, have performed strongly in FY 2019-20 and the same is reflected in the numbers. The unprecedented crisis due to COVID-19 pandemic resulting in the nation-wide lockdown has had a negative impact on all sectors. However, we expect business to gradually pick-up from the third quarter of this financial year.

We will continue to incorporate innovative and sustainable design concepts into the Indian Real Estate Industry. Through this report, we wish to shine light on our continued endeavours in developing sustainable buildings. I thank all the stakeholders for their association with Brigade in this journey of sustainable development

Wishing you all the best,

M. R. Jaishankar

Chairman & Managing Director

Key Projects

Brigade Enterprises Ltd. launched the Group's new brand in the co-working space 'BuzzWorks' in March 2019 with 'Your Vibe, Your Tribe' as the tag line.

We have pioneered a number of our projects being first of its kind in the market. We have developed Brigade Gateway, one of India's most appreciated integrated enclaves, Bengaluru's tallest commercial building - the World Trade Center, holding licenses across South India and Brigade Exotica, one of the tallest residential buildings in Bengaluru.

We have been rated one of the best companies to work for in the Real Estate Industry for 10 years in a row by the Great Place to Work Institute and Economic Times. Brigade Group has tried it's best to be socially responsible and contribute extensively to society. A responsible attitude, an innovative mind-set and an uncompromising quality in our projects over the years has made us one of the most reputed and sought-after brands in the industry.

Presence

The Indian Music Experience (IME) is India's only interactive music museum. The IME is an initiative of the non-profit Indian Music Experience Trust, supported by the Brigade Group. The vision of the museum is to increase the understanding and appreciation of the diversity of Indian music, from the traditional to the contemporary through exhibits, performances and learning activities

About the Report

Brigade Enterprises Ltd. operates as a transparent business entity and we value the importance of communicating our progress on all fronts to our stakeholders. Through our very first GRI Sustainability Report, we aim to showcase our sustainability performance across key impact areas with a focus on the triple bottom-line. Adhering to the Global Reporting Initiative (GRI) Standards Framework, the report serves as a transparent communication channel, providing the reader with a holistic overview of the business entity. The report supports decision making for environment, social, economic and governance aspects, as it discloses the current performance based on KPIs for these aspects. Thus, the report serves as a self awareness exercise helping us set relevant targets, track our progress year-on-year, facilitating efficient strategy development and improvement of operational efficiency.

Report Scope and Boundary

This report covers Brigade Group's performance against economic, environmental, social and governance indicators, covering Brigade Enterprises Ltd.'s offices and project sites for the reporting period April 1, 2019 to March 31, 2020. The entity's subsidiaries are also included within the boundary of the report.

Report Data and Framework

This report has been prepared in accordance with the GRI Standards: Core option. The indicators from the GRI G4 Sector Supplement for the Construction and Real Estate Sector have also been reported. Both qualitative and quantitative information are provided in this report. Certain data points that were unavailable are not reported. Brigade group is working on streamlining the data collection systems to improve the reporting process in the coming years.

Report Content

While defining the report content, several factors and principles such as stakeholder inclusiveness, materiality, completeness and accuracy and close attention to our own unique sustainability context have been taken in to consideration. The content of the report is guided by our core values to represent authenticity and transparency. The report discloses sustainability progress against each material aspect identified. The report content will also serve as a data-base to draw trends and track progress across the years to come.

Stakeholder Engagement

As an inclusive business entity that believes in collective growth, we value the involvement of our stakeholders in our business decisions and in the preparation of this sustainability report. We have a Stakeholders' Relationship Committee at the Board level, which overlooks investor relations and redressal of Shareholders' grievances in general and any other matters as may be necessary. The Committee proactively engages with all shareholders at least once a year along with members of the Committee, Board or Key Managerial Personnel as required and identifies actionable points for implementation.

By developing a strong stakeholder engagement framework, we have been able to proactively engage with our key stakeholder groups. This has allowed us to effectively identify stakeholder concerns and key material aspects for the sustainability reporting exercise. Using the Stakeholder Engagement Standard (AA1000SES) as a guide, our stakeholder engagement strategy follows three key principles – completeness, materiality and responsiveness. It includes engagement methods – both formal and informal mechanisms as indicated by AA1000SES.

The criteria for stakeholder identification, engagement processes, implementation mechanisms are defined by a dedicated internal team.

Stakeholders are identified based on multiple factors such as dependency, proximity, responsibility, influence, representation and policy intent. Stakeholders are then classified as internal and external stakeholders. This engagement process serves in identifying focal points for sustainability reporting and captures unresolved stakeholder concerns and helps in strategizing innovative methods to meet stakeholder expectations and concerns.

Our first formal stakeholder engagement exercise to gather stakeholder opinions, was conducted online, owing to the movement restrictions arising from the COVID-19 pandemic. This exercise included representatives of key stakeholder groups including – customers, key suppliers, employees and members of the management. Stakeholder expectations and concerns both in the short term and long term were discussed, relative to sustainability aspects.

Stakeholder Groups	Engagement Method	Frequency	Key Topics & Concerns
Customers	Herefor you Brigade Showcase Facility Team at the Project Site Insight Communication with customer during lockdown	Regular Need based	Automation of processes
Employees	Townhall Engaging Employees HR Helpdesk	Regular Annual Need based	Environmental Sustainability Evolving market risks Human Resource policy
Suppliers	Communication through Insight Performance evaluation yearly	Annual Need based	Environmental Sustainability Improved processes
Government	Credai, CII	Annual	Compliance
Communities	Brigade Foundation Ugly India	Annual	Engagement

Our stakeholder engagement process includes:

Materiality

Materiality is the process of determining the issues that are most relevant to the reporting organization and its stakeholders. For our first GRI based Sustainability Report, we developed a strategic approach to identify and address aspects of our operations that are of highest priority for our stakeholders. We combined internal and external stakeholder responses to identify aspects that are important based on stakeholder interests while also considering the impacts arising from our operations. Identifying material topics provides a strong foundation for the report. It helps in prioritizing and formulating the content of the report and defines the focal points of the report.

Material topics for the reporting period 2019-20 is the result of an in-depth stakeholder engagement exercise, conducted virtually in

June 2019, with representatives from both internal and external stakeholder groups of Brigade. Using the GRI Standards and the GRI Construction and Real Estate Sector Supplement as a guide, we have identified sustainability aspects that are most relevant to our business operations. Broader societal responsibilities and environmental concerns were also taken into consideration to determine the material topics.

These aspects were presented to the representatives of our internal and external stakeholder groups for consultation on priority areas in terms of sustainability and impact. Stakeholder inputs were mapped alongside organizational impact to generate the materiality matrix.

Brigade Group and Sustainability

Sustainable development is of paramount importance to us. It is one of the core values of Brigade and we showcase our commitment to sustainability by delivering environment friendly projects to our clients and investors.

As we progress along our journey, we realize that rapidly evolving customer needs ask for more robust sustainability targets and goals. Our sustainability agenda drives us to take a meticulous approach towards addressing the impact and build a resilient management plan. Being mindful of our long-term growth, we strive to create a positive impact

on people, profit and the planet. We view this as a business opportunity that encourages us to design a sustainable business model. It further enables us to strengthen the bond with our customers and investors.

Through our Green Building Certifications and other best practices, we strive each day to make a seamless transition from linear to circular economy. Ever since our inception, we have adhered to environmental laws and regulations. Furthermore, we have been upgrading ourselves with ISO certifications covering different aspects of sustainability.

Corporate Governance

At Brigade, we firmly believe that a business entity is as good as its business ethics, business vision and entrepreneurial skills. We regard corporate governance as the true measure of our business relevance, aside from tangible business growth and success.

Driven by strong core values and robust philosophies, our governance framework strives to ensure the highest levels of integrity and quality. It aims to develop a strong legacy of fair, transparent and ethical governance practice. The spirit of our corporate governance goes beyond statutory compliance as we recognize it as a key driver of sustainable corporate growth and long-term value creation for our stakeholders.

Translated into action, we are governed by a diverse Board of Directors, that adorns 30% female and 50% independent directors. The other 40% of executive directors, while belonging to the promoter family, are diversely qualified and experienced with demonstrated contributions in Brigade's all-round progress and growth. It also demonstrates the promoter family's deep belief and conviction in robustness of Brigade's business.

The composition of the Board of Directors as on March 31, 2020 was as follows:

Name of the Director	Functions & Independence Status
M. R. Jaishankar	Chairman & Managing Director
Pavitra Shankar	Executive Director
Nirupa Shankar	Executive Director
Amar Mysore	Executive Director
Roshin Mathew	Executive Director
Aroon Raman	Independent Director
Bijou Kurien	Independent Director
Lakshmi Venkatachalam	Independent Director
Pradeep Kumar Panja	Independent Director
Dr. Venkatesh Panchapagesan	Independent Director

The Board is at the core of our Corporate Governance practice. The Board oversees the Management's functions and protects the long-term interests of our stakeholders. Our Chairman and Managing Director is the key decision maker, consulting with the members of the Board. The composition of the Board of Directors is in compliance with the provisions of the Companies Act, 2013 and SEBI Regulations, 2015. The Independent Directors have declared that they meet the criteria of independence as set out in the provisions of The Companies Act, 2013 and SEBI Regulations, 2015.

Mr. M. R. Jaishankar, Chairman & Managing Director, Mr. Atul Goyal, Chief Financial Officer and Mr. P. Om Prakash, Company Secretary & Compliance Officer are the Key Managerial Personnel in accordance with the provisions of the Companies Act, 2013.

Diversity of Governance Body (age)

Diversity of Governance Body (gender)

Committees of the Board

To ensure good governance, our Board has constituted several committees at the Board level, to oversee specific functions. The following section outlines the different Committees of the Board. The composition of these committees is in terms of SEBI Regulations, 2015 and the committee members are made aware of their powers, responsibilities and specific roles in line with the provisions of SEBI Regulations, 2015.

1. Audit Committee
2. Nomination and Remuneration Committee
3. Corporate Social Responsibility Committee
4. Stakeholders Relationship Committee
5. Risk Management Committee

Director Appointment and Remuneration

The Nomination and Remuneration Committee of the Board is responsible for formulating the criteria for identification and Board nomination of suitable candidates. The Committee also frames the policy on remuneration for Key Managerial Personnel and other senior employees of the Company, based on which the Committee makes recommendations to the Board. During the evaluation process of potential candidates for membership on the Board, the Committee also considers various personal attributes including experience, intellect, foresight, judgment and transparency.

The Remuneration Policy provides the framework for remunerating the members of the Board, Key Managerial Personnel and other employees of the Company. The policy is guided by the principles and objectives enumerated in the Companies Act, 2013 and elucidates the criteria for determining remuneration for people from different levels of the organizational hierarchy.

The remuneration structure for Executive Directors and Key Managerial Personnel is fixed by the Board of Directors based on the individual's qualification, experience, expertise, core competencies, job profile, positive attributes and industry standards. This is done with due consideration of the Nomination and Remuneration Committee's recommendations, and within the limits approved by the shareholders. The remuneration structure for Executive Directors, Key Managerial Personnel and Senior Management Personnel consists of Basic Pay, perquisites and allowances, commission (applicable to executive directors), Employee Stock Option Schemes (ESOP and variable pay is applicable only to Key Managerial personnel and Senior Management personnel not on the Board). The policy also outlines the criteria and details of remuneration for Non-Executive Directors, Directors, Independent Directors and other employees.

Performance Evaluation

The Board, along with the Nomination and Remuneration Committee developed and adopted the criteria and framework for the evaluation of each of the Directors and of the Board and its Committees pursuant to the provisions of the Companies Act, 2013 and the Corporate Governance requirements of SEBI Regulations, 2015.

The Board is evaluated across various criteria that indicate the Board's functioning – its structure, meetings, strategy, governance and other dynamics of its functioning, apart from the financial reporting process, internal controls and risk management. Structured assessment forms were sent to all the Directors as a survey link to gather their evaluations. The evaluation of the Committees of the Board is based on their terms of reference fixed by the Board, besides the dynamics of their functioning, such as frequency of meetings, effectiveness of contribution etc. Separate questionnaires are used to evaluate the performance of individual Directors on parameters such as their level of engagement and contribution, objective judgment etc.

The Chairman and Managing Director's evaluation was based on the key aspects of his role such as leadership qualities, strategic planning, communication and engagement with the Board. Performance evaluation of Independent Directors is carried out by the entire Board, while the performance of the Chairman, the Board as well as of the Non-Independent Directors is evaluated by the Independent Directors at a separate meeting.

The Independent Directors have expressed satisfaction at the robustness of the evaluation process, the Board's freedom to express its views on matters transacted at the Meetings and the openness and transparency with which the Management discussed various subject matters specified on the agenda of meetings.

The results of the evaluation are discussed on an individual basis with the Chairperson of the Board, along with any action areas identified, to enable better interface.

Ethics and Integrity

As a business entity, we are driven by strong core values that reflect emphasis on ethics and integrity. We carry these core values to all our business relationships and extend this to our interactions with all our stakeholders as a premise. To ensure our operations are

governed by ethical practices, we have put into place several frameworks which serve as guidance, as well as systemic checks to reinforce professional conduct and ethical behavior.

Brigade Group’s core system is defined as “QC-FIRST”

Each letter in this collective noun signifies an important attribute or value that Brigade Group stands for:

Code of Conduct

We have in place a Code of Conduct and Ethics which helps our employees maintain high standards of ethics. The Code lays down the standard of conduct which is expected to be followed by the Directors and by the senior management employees in their business dealings and in particular, on matters relating to integrity in the work place, in business practices and in dealing with our stakeholders. The Code explains our Core Values in depth, along with pointers on their effective implementation. Further, the Code details the expectations from every person that Code applies to and provides guidelines and best practices while dealing with various matters ranging from personal conduct, personal finances, commission or abatement of fraud, acceptance of gifts and bribes, conflict of interests, insider trading and insider information, confidential information, prevention of sexual harassment, whistle blowers, work ethics and online etiquette.

We have adopted our Code of Conduct which applies to all our Directors and employees in terms of SEBI Regulations, 2015. All members of the Board and of the Senior Management affirm their compliance to the Code of Conduct each year. A declaration signed by the Chairman and Managing Director and Chief Financial Officer

affirming compliance of the Code of Conduct by the Directors and senior management personnel for each year is part of our respective Corporate Governance Reports.

Additionally, we have also adopted a Code of Conduct for Prevention of Insider Trading in accordance with SEBI Regulations, 2015, in order to regulate trading in securities by our Directors and designated employees. The Code aims to protect the interest of Shareholders at large, to prevent misuse of any price sensitive information and to prevent any insider trading activity. The Code requires pre-clearance for dealing in the Company's shares for all transactions by Directors and designated employees (known collectively as Designated Persons) and prohibits the purchase and sale of Company's securities by Designated Persons while in possession of unpublished price sensitive information in relation to our Company. The Company Secretary is responsible for implementation of the Code.

Anti-Corruption

As an entity that is strongly rooted in business ethics and promotes integrity, employees at Brigade Group are advised to consider carefully before accepting gifts, even those of very moderate value from business associates, even on customary occasions. Our Code of Conduct clearly states that acceptance of bribe in any form is totally prohibited. Any employee charged with bribe-taking will face immediate dismissal from service.

Additionally, we recognize that Related Party Transactions may have potential or actual conflicts of interest and may raise questions whether such transactions are consistent with the provisions of The Companies Act 2013 and SEBI (LODR) regulations, 2015 and other applicable Regulations. Considering this, we have implemented a policy for Related Party Transactions. Accordingly, all the transactions with related parties are entered into at an arm's length basis and within the ordinary course

of business. All transactions with Related Parties are placed before the Audit Committee for approval. The proposed related party transactions for a financial year are approved by the Audit Committee and Board in the first meeting held in the financial year. Apart from that the related party transactions entered during the quarter are noted by the Audit Committee and Board. The proposed transactions for the subsequent quarter are approved by the Audit Committee and Board. There are no materially significant related party transactions made by the Company with its Promoters, Directors, Key Managerial Personnel or their relatives which may have a potential conflict with the interest of the Company at large. None of the Directors and the Key Managerial Personnel has any pecuniary relationships or transactions vis-à-vis the Company. Further, transactions with related parties during the year are listed in the Annual Report.

Whistle Blower Policy

To uphold, promote and protect the values of ethics and integrity in our operations, we have a well-established whistle-blower policy as part of our vigil mechanism. This enables observation of the conduct of Directors and employees and provides a space to report concerns about unethical behavior, actual or suspected fraud or violation of our Code of Conduct to the Ethics Committee members or to the Chairman of the Audit Committee. This mechanism also provides for adequate safeguards against victimization of Director(s)/employee(s) who avail the mechanism and provides direct access to the Chairman of the Audit Committee in exceptional cases. The disclosures made to the Ethics committee or to the Audit Committee will be treated in a sensitive manner and the identity of the whistle-blower will be kept confidential.

Economic Performance

Economic Performance

At Brigade, we believe positive economic performance is a significant way of adding value to our stakeholders and to the economy we function in. It enables and enhances our performance across the triple-bottom line and boosts value addition in these areas too. The financial year ending 2020 has witnessed Brigade's best operational performance, with sales of 4.3 Mn sq. ft. of sales during the financial year – a 44% increase since the previous year. This supplemented a 45% increase in sale value to INR 2,377 Crores. All of our business segments – Residential, Lease Rental and Hospitality, have performed strongly in the financial year 2020.

The unprecedented crisis arising due to the Covid-19 pandemic and the resulting nationwide lockdown has had a negative bearing on all sectors. With restrictions easing up and with a slow rise of business-as-usual scenario, it is expected for business activities to gradually pick-up from the 3rd quarter of this financial year (FY21).

Covid-19 Impact and Outlook

Impact & Response

- A negative impact on consumer sentiments, stakeholder sentiments and spending appetite was observed due to nation-wide lockdown in the short term due to economic uncertainties.
- Lockdown period had an impact on the Hospitality business and Retail malls in terms of revenues and profits.
- Brigade has resumed activities immediately after the lockdown was lifted, across all its business segments with adequate social distancing norms and social responsibility

Company Outlook & Operations

- Brigade has a positive outlook in all its business segments. The negative impact on hospitality and retail business due to the COVID-19 Pandemic lasted only for a short time horizon.
- We are working to align our Hospitality & Retail businesses to the new normal caused by the pandemic, to adapt to the changing business environment, identifying opportunities for growth.
- There has been a substantial reduction of overheads in all the segments under operation.
- In this dynamic situation, it is difficult to ascertain the material impact on business segments for the financial year 2020-21.

Sector Liquidity Impact

- As Banks and NBFCs are getting more risks averse, liquidity situation of the sector is more likely to worsen.
- However, Brigade has a strong balance sheet and is in a good position to manage all its operations and continues to maintain liquidity to meet its business obligations.

Risk Management

Risk management at Brigade is a comprehensive, structured and continuous process in which risks are identified, evaluated and mitigated or consciously accepted within approved risk appetite. It is regarded as a collective responsibility of the Board of Directors and all employees of Brigade to understand the risks that fall within their areas of responsibility and to manage those risks in a timely and efficient manner. We believe that effective risk management is based upon open communication of the best available information – both qualitative and quantitative – from a range of sources, including historical data, experience, stakeholder feedback, observation, forecasts, expert judgment and also external factors like macro-economic developments, evolution of technology, climate change, sovereign status, government policies and regulations, international trade and relations etc.

The real estate industry has undergone rapid changes in the light of implementation of Real Estate (Regulation and Development) Act, 2016 and Goods and Services Tax Act, 2016 coupled with the introduction of Income Computation and Disclosure Standards (ICDS) and Indian Accounting Standards – all having an outcome of new set of challenges for the industry as a whole and for our Company in particular. Some of the risks that may exist in the industry and constitute a challenge for future developments include inter alia, credit risk, liquidity risk, counter party risk, regulatory risk, commodity inflation risk and market risk.

Brigade has a presence in various verticals of real estate like residential, commercial office spaces, retail and hospitality which leverages risks to a certain extent. We have developed and implemented robust risk management policies and guidelines that set out the tolerance for risk and our general risk management philosophy. We believe in a proactive approach in identifying, analyzing, evaluating, mitigating, monitoring and reporting the risks associated with the business as the key to sustained operations without disruption. This helps in protecting the interests of our stakeholders, shareholder value, improving governance processes and in achieving strategic objectives. The focus of risk management is to assess risks and deploy mitigation measures. This is done by integrating concepts of defining internal control, ICFR, internal audits, COSO 2017 Enterprise Risk Management framework, strategic planning and periodic review meetings of the risk management committee of our Board.

The Board of Directors has formed the risk management committee at the Board level, to frame, implement and monitor the risk management plan for our Company. The Committee is responsible for reviewing the risk management plan and ensure its effectiveness. Major risks identified by the business and functions are addressed systematically through mitigating actions on a continuing basis.

Key responsibilities of the Risk Management Committee are as follows:

- To establish a risk policy for the Company.
- To oversee and review the implementation of risk management and internal control systems.
- To establish policies to monitor and evaluate the risk management systems in the Company from time to time.
- To identify, assess and mitigate the existing as well as potential risks to the Company and to recommend strategies to the Audit Committee/ Board to overcome them.
- To review the internal control systems based on internal audit exercise done by the external and the internal auditors in the Company from time to time.
- To review the reports, develop and implement action plans to mitigate risks.
- To perform such other tasks as may be requested by the Audit Committee / Board.
- Monitoring and reviewing of Cyber Security.

Financial Implications of Climate Change

Climate change is a global challenge and we recognize that it has the potential to affect business growth and development. As such, we have identified several risks arising due to climate change that could have financial implications. Risks such as increased occurrence of extreme weather events, higher temperatures could affect the availability and accessibility of raw materials and labour. Locations vulnerable to the impacts of climate change could imply financial losses due to decrease in property value. Increasing electricity and water prices, rising material costs, and increasing compliance requirements are also risk factors arising from climate change.

However, we also acknowledge the opportunities that climate change brings to our business development and growth. By being aware of these risks and taking proactive measures to mitigate the negative impacts of climate change, we are able to continue on the growth path. Integrating precautionary approach and sustainability into our business strategy, while being aware of our own impact on the climate, we are gradually building measures to reduce our impact, be a part of the solution and build a better tomorrow by seizing these opportunities to grow sustainability.

Indirect Economic Impacts

It is evident that construction and real estate industry is one of the key industries contributing directly to the growth of India's economy. However, as the country's second largest employer after the agriculture sector, the construction and real estate industry supports millions of livelihoods in both direct and indirect ways. Since the industry is resource intensive, the process of procurement of raw materials, resources, labour and talent in itself adds

immense value to the economy. By interacting with several contractors, suppliers, laborers and employees, an entire business ecosystem is generated and nurtured. By providing homes, the standard of living of people is ameliorated and through the provision of office and commercial spaces a further enabling of economic activities takes place. At Brigade we are proud to be a part of an industry that supports collective growth and development.

Collaborating for Growth

We believe in the power of collective growth and hold strategic memberships in several industry associations to enable knowledge sharing and boost collective growth potential.

Environmental Performance

Environmental Performance

Our Approach

We at Brigade, aim to leave a positive impact on the environment where we operate and relentlessly try to improve our performance. By adhering to stringent environmental standards, we manage our emissions through efficient use of resources and encouraging recycling. Brigade upgraded to ISO 14001:2015 (Environment Management System) in 2018 and ensured that our projects complied to this standard.

For all our construction projects, we incorporate green strategies that focus on water conservation, energy efficiency, materials conservation

and indoor environmental quality. This has helped us reduce the environmental impact arising from Greenhouse Gas Emissions.

Environmental performance is at the top of our sustainability pyramid making it an integral part of organizational growth strategy. Our commitment to sustainability is demonstrated through our key environment-friendly practices in all our projects. Keeping environmental protection in mind, we cover a plethora of aspects to deliver world class design to our customers.

KEY ENVIRONMENTAL ASPECTS

Salient Features of Brigade's Green Building Projects:

- Use of high efficiency LED systems.
- Maximum use of Bureau of Energy Efficiency (BEE) rated and Green Pro certified products.
- Optimum use of energy using natural insulation designs, solar cells and use of daylight.
- Use of low-flow water fixtures that can reduce fresh water use by 20-40%
- Procurement of construction materials from local manufacturers.
- Use of water from Sewage Treatment Plant for construction activities.
- Installation of Photo-Voltaic cells and solar water heaters.
- Regular monitoring of ambient air quality.

Materials Management

Materials management is a vital element in project planning and construction. Efficient materials management ensures that the right quantity and quality of

materials are selected, purchased, utilized and reused. This significantly improves the productivity of the project, helps save costs and protects the environment.

Our approach

At Brigade, we are cognizant of the impact created by the materials used. We ensure sustainable material usage throughout our projects. To reduce the impact on the environment, we consciously procure materials from local vendors. For example, Cement, Steel, Glass, UPVC, Paints, etc. are sourced with a radius of 400km from the project site. While we assess different

kinds of materials from different sources, we prefer to purchase “Green Certified Products” for a majority of our projects. Green Pro Certification by IGBC CII / Star Label Certificate from BEE are few of the certificates we use for construction materials and are preferred during selection of materials and vendors..

Sourcing Materials

Majority of the construction materials (Sand, Gravel, Cement, Ready Mixed Concrete, Steel, Solid / Hollow Blocks, Pavers, Glass, UPVC, Paints, Wood, Aluminum, Mild Steel Pipes, Wire ropes, Cables) used at Brigade’s project sites are sourced from local manufacturers to reduce emissions arising from transportation. We make conscious efforts to source materials from the

nearest available source without compromising on the quality of the material. The vehicles hired for transporting construction materials like Sand and Gravel are covered with tarpaulin sheets to prevent deposits on public roads. The construction materials are transported during non-peak hours to reduce the traffic congestion near the project site. The vehicles are regularly serviced / repaired to ensure the emission from the vehicles are within the industry norms.

Some Of The Materials Consumed in FY 2019-20.

Recycled Content

We demonstrate our commitment to circular economy by recycling or reusing the materials used in our projects. We give preference to post-consumer recycle content to divert them from landfills. Aluminum, paper, plastic, demolished concrete, steel, glass are some examples. This content is commonly generated by commercial, industrial, or institutional end-users. Some of the Materials recycled for buildings are glass, aluminum, plastic furniture like bollards,

barriers, fly-ash, cement, waste timber, plastic bricks, precast concrete blocks, recycle concrete aggregate concrete pipes, drains, etc.

Materials made of recycled content are sourced after evaluating the quality of the finished product. On an average, each of the project site saves about 10-20% of the cost in construction materials by utilizing recycled content.

Recycled Materials	Units (Kg/Tonne)	Total
GGBS	kgs	1,43,22,693
Fly Ash	kgs	0
Recycled Wood	kgs	0
Re-use concrete waste	Tons	1,410
Re-use content in steel	Percentage	63
Re-use content in glass	Percentage	18

Energy and Emissions

Construction industry consumes about 40% of the global energy use and emits 30% of the global GHG emissions. The Intergovernmental Panel of Climate Change (IPCC) has requested

the construction sector to enhance its energy performance by adopting best practices and initiatives.

Our approach

Another area of environmental sustainability that we strongly focus on is to create a sustainable energy future. We continue to work towards delivering energy efficient buildings to our customers. All our commercial projects are

Green Building Certified that prioritizes energy efficiency. We strive to set a new benchmark by adopting several energy conservation measures.

Energy Conservation Measures

- 20% reduction in energy demand by using LED lights, Carbon dioxide sensors in HVAC return air duct, solar street lights, Variable Frequency drives (VFDs) for Pumps, Motors and other electro mechanical equipment.
- High performance Glazing (allows visible light and blocks Heat and Glare into the building.
- Optimum Window (Glass) to Wall (WWR) Ratio (Not more than 40%)
- Energy Efficient water-cooled chillers
- Measurement of verification of Green Building Parameters (Energy, Chilled Water, Domestic Water, Irrigation water)
- Solar Water Heaters are used for top 2 floors of the residential projects
- About 1 MVA Solar PV Panels are being installed at Brigade Tech Gardens (Installation of about 300kVA complete, about 500kVA underway).
- 80kVA Solar PV Panels installed at Brigade Opus.

Brigade Tech Gardens project is a state-of-the-art green building that confirms to regulations laid down by United States Green Building (USGBC) and American society of heating, refrigeration and Air-conditioning Engineers (ASHRAE).

Various green strategies were practiced in the project as per USGBC new construction categories. With respect to energy, the following energy conservation measures were incorporated in the building.

- All lighting fittings were designed with more than 40% reduction in power density compared to the ASHRAE baseline.

- Energy efficient products have been selected for the project.
- Efficient chillers were designed to reduce the overall power demand of the building.
- High COP chiller systems have been used for the project.
- Installation of Solar PV panels for power generation.

Units of energy generated from 250 kW installed Solar PV (kWh/annum)	3,99,750
Total Cost of Electricity generated from solar PV (considering 4 Rs/unit)	15,99,000

Emissions

Emissions from the construction sector arise from electricity use and energy for heating, cooling and lighting. Being mindful of these factors, we strive to reduce our carbon footprint by adhering to Green Building standards and by adopting energy conservation measures. A lot of our projects that are “Green Building Certified”

have shown about 15-20% energy savings. Furthermore, we have gradually increased the use of renewable energy in our projects to maximize carbon efficiency. We regularly monitor our emissions performance to embed climate action in our business plan.

Water Management

Sustainable water management is a key aspect in the construction industry. With crisis like water scarcity and depleting ground water levels, it is

necessary for the sector to practice sound water management and constantly improve resource efficiency in all construction projects.

Our Approach

We ensure that during construction, the contractor takes all necessary precautions to avoid wastage of water by optimizing the usage. Curating agents and ready-mix concrete are frequently used to reduce water consumption. Furthermore, we ensure to use treated water from completed projects for dust suppression and vehicle washing.

During the operational phase, we adopt best practices such as:

- Using low-flow waterfixtures such as aerators in washbasins, showers etc., to conserve water. About 20 -30 % reduction in water demand is achieved by installing low flow water fixtures.
- Rooftop rainwater system is constructed and the rainwater is stored in underground sumps. The collected rainwater is treated and used for domestic purposes (viz., drinking, bathing and washing).
- Storm water is directed to infiltration wells to recharge the groundwater table.
- Waterless urinals are used in all commercial projects

Water Consumption FY 2019-20:

Water usage by type (Lt)

Construction Water Usage	27,24,49,353
Drinking Water Usage	5,13,76,848
Kitchen and Washroom	31,28,140
Domestic (Labor colony)	1,23,88,650
Toilets & Pantry - BEL project office and Marketing office and garden maintenance	4,25,880
Irrigation of garden	75,47,330
Workers camp utility purpose	23,38,000
STP Water	58,08,000
BEL Site & Market office & Garden usage	1,15,000

Total Volume of water recycled and reused is 1,20,91,000 Liters

Waste and Effluents Management

Considering the increasing urbanization, construction industry is growing at a fast pace. Besides, the demand for office spaces in the commercial hubs keeps growing. To cater to this need, builders keep constructing and erecting structures

generating massive amounts of waste. Unlike typical commercial waste, construction waste is very heavy and bulky occupying enormous amount of space in landfills. To address this problem, the builders need to formulate effective waste management plans.

Our Approach

Construction and demolition waste from the construction sites are handled as per Construction and Demolition Waste Rules 2016. The buildings or structure is demolished in a systematic manner, for maximum re-use of materials. In cases where the demolished structures cannot

be reused, the waste is crushed to recover steel or any reusable materials. The inert debris are segregated and used for backfilling, leveling, construction of internal roads and basement flooring. Any excess debris identified, is given to the concerned authority for disposal.

Hazardous Waste:

Used oil, oil-soaked cotton and DG filters are some of the hazardous waste that is generated from our project sites during the operation phase. These hazardous wastes are stored in

leak-proof drums in a secured area until they are disposed to State Pollution Control Board (SPCB) authorized recyclers.

Hazardous wastes (Lt/Kg)

Used Oil	33
Chemical wastes	875
Paint wastes	213
Used oil filter	401
Cotton waste (Pack)	28
E-waste	3,951
Rubber waste	33

Non-hazardous Waste:

Non-hazardous waste (Municipal Solid Waste) from our construction sites is segregated into organic and inorganic waste at the source. The

segregated waste is then handed over to the local municipal authority for treatment and safe disposal.

Non-Hazardous wastes (Kg)

Plastic waste	768
Paper waste	628
Waste wood	15,384
Scrap Steel	17,8,962
Wet garbage (Labor Colony)	40,606
Construction debris	760
Food waste	77,864
Paper waste	162

With respect to completed projects, we make occupants aware of Waste (Municipal Solid Waste) segregation. It is mandatory for all occupants to segregate the solid waste into Wet (Kitchen), Reject (Sanitary) and Dry (Recyclable) Waste as per the Municipal Solid Waste

Management Rules. The segregated wet waste is then composted within the project campus and the reject waste is handed over to local municipal authority and the dry waste is sold to local recyclers

Wastes (plastic, paper, food, e-waste, waste wood and scrap steel) together has emitted approximately 64 tCO₂e in FY 2019-20

Construction Waste Management Measures:

- **Construction debris and scrap metals are segregated and reused. For example, metal containers are used for collecting oils, greasy rags and waste and debris are used for backfilling.**
- **Concrete waste is reused for making cover blocks, drain covers etc.**
- **Cut steel is stacked according to diameter and length wise and is used to make chairs, stirrups etc.**
- **Conduits, GI wires, GI firefighting pipes, G I and PVC plumbing pipes, taken back by respective agencies.**
- **Used helmet, safety shoes, gum boots, rubber gloves etc. are collected and disposed to authorized agency by contractors.**
- **Replaced oil from plant and machinery is taken by authorized agency from KSPCB.**
- **Empty paint containers are taken back by painting agency for reuse.**

Waste water Management

During the construction phase, the wastewater generated is partially treated in Septic Tanks and discharged into municipal sewers. In some of Brigade's recent projects, temporary STP has been installed and the treated water is reused for construction activities (mainly water sprinkling to suppress dust emissions along the driveways, curing, water jets to wash the wheels of vehicles exiting the construction site). In case of completed projects, STPs are installed to treat 100% of wastewater generated. The treated wastewater is reused for Toilet Flushing, Gardening and

make-up water for Air Conditioning Systems. In the project Brigade Orchards - Arcade, we adopted SBR technology for treating black water and Sullage treatment for grey water.

In Residential projects about 2/3rd of the treated water is used for Toilet Flushing and Gardening. Whereas, in Commercial (Office) projects 100% of the treated water is reused for Toilet Flushing, Gardening and make-up water for Air Conditioning systems.

Water Consumption 2019-20:

Waste generated in 2019-20 has emitted approximately 63.9 tCO₂e

Wastewater quality parameter (mg/L)	
BOD	625
COD	1,175
Total Solids	578
Total Dissolved Solids	775
Total Suspended Solids	375
Phosphorous	0
Chloride	171
Alkalinity	158
Grease	40

No significant oil spills have been reported during the operational phase in 2019-20

Air Quality Management

The phases of construction, demolition, remediation and site preparation can significantly affect air quality. If not properly

measured and mitigated, it can release toxic gases, vapors and particulate matter, contributing to air pollution.

Our Approach

At Brigade, we conduct stack monitoring every month to ensure that the emissions are within the limits.

Parameter

Particulate Matter (10)	4,432
Particulate Matter (2.5)	388
Carbon Monoxide	37
Oxides of Sulphur (SOx)	676

As we incorporate green strategies in all our projects, we ensure to promote optimal indoor air quality. Some of the measures we include in Brigade Brookfield B3 project are as follows:

- Implemented non-smoking policy in the entire campus.
- We provided 30% extra fresh air to interior spaces.
- Thermal comfort was designed as per AHSRAE 55 standard.
- MERV 13 filters are mandated in AHU for air quality.
- Green products such as low VOC content paints, adhesive and sealant, low emitting carpets and composite wood materials were used.

Biodiversity:

Construction projects whether it is residential or commercial have the potential to significantly impact natural habitats affecting flora and fauna. Construction sector is also a resource intensive

industry that extracts resources affecting biodiversity. Therefore, this sector has a vital role to play in minimizing the damage to ecology.

Our Approach

At Brigade Group we design projects that avoid deforestation and promote tree plantation. In cases where cutting trees is necessary, we

obtain approval from concerned authority prior to the start of the project.

Existing Projects:

Brigade Utopia

Our organization associated with Vanantara Farms, to create an urban forest at Brigade Cornerstone Utopia on the Whitefield-Sarjapur Road, Bangalore. This 47-acre mixed-use township is envisioned to be an extraordinary, adaptable, and authentic ecosystem where technology is seamlessly integrated with the natural ecosystem. Furthermore, we have planted 12,500 trees of different native species in this integrated enclave. To promote this activity, we hosted tree plantation drives at the project site. The experts from Vanantara Farms worked closely with the team and participants to ensure that the best practices were followed while building this urban forest.

Urban Forest – Akira Miyawaki

We collaborated with a Japanese botanist to launch our latest initiative called “Urban Forest”. Akira Miyawaki pioneered this technique of building compact dense forests. These mini forests are very dense, almost thirty times more than regular plantations. It also involves planting saplings of different native species very close to each other which prevents side-ward growth, enabling the trees to grow only upwards. This unique method creates a mini-forest in about 10-15 years unlike the conventional forests which can take centuries. This forest is planned keeping in mind the native species of the region, the nature of the soil, and irrigation techniques before the forest can become self-sustaining.

Biodiversity Conservation: Future Goals

Tree Planting- 30K Initiative - A GOAL TO PLANT 30,000 TREES

We have pledged to plant 30,000 trees in Bengaluru. Until now, 40 tree planting camps have been organized and over 13,000 trees have already been planted, supporting the city with a much needed green cover. Our efforts have borne fruit, which is evident from the native and indigenous trees that are growing well.

Trees are closely monitored during their early years of planting, and therefore the survival rates are very encouraging. As an organisation, we strive to stay committed to the target of planting 30,000 trees and we will continue to further improve our measures and goals.

Total number of trees planted in 2019-20: 13,000

Environmental Compliance:

During the phase of construction and operation of our project sites, we ensure we comply with the environmental laws, regulations and other requirements such as site permits to operate. No construction activities are taken-up without obtaining all necessary approvals from State and Central Authorities including Environment Clearance from Ministry of Environment, Forests and Climate Change (MOEFCC) and Consent for Establishment (CFE) from State Pollution Control Board. The Environment Clearance and the CFE issued by authorities list out several conditions which are diligently integrated during construction and operation stages of the project.

Some of the Important Environment Compliances followed are:

1. Hi-tech and latest construction equipment complying to latest emission norms are used.
2. No construction activity is carried out during the nighttime.
3. DG Sets with acoustic enclosures complying to Environment Protection Rules are used.
4. Low Sulphur High Speed Diesel with sulphur content <50ppm is used as fuel for DG sets.
5. Barricading is done along the boundary of the project site to prevent pollutants from dispersing into the surroundings.
6. Water is sprinkled along the driveways to suppress Dust emissions
7. Personal Protective Equipment (PPEs) like Hard Hats, Safety Goggles, Gum Boots, Gloves etc., are provided to construction labourers.
8. Drinking water and Toilets are provided at site for the labourers.
9. Ready Mix Concrete (RMC) is used during construction, to reduce the total water demand.
10. First aid facilities are provided at the project both during construction and operation of the project.
11. All the laborers engaged for construction are screened for health and adequately treated before engaging them to work at the site.
12. All the topsoil excavated during construction activities are stored and used in horticulture / landscape development within the project site.
13. Excess Construction waste which cannot be reused within the project is disposed as per construction and demolition waste management rules 2016
14. Vehicles that are hired to bring construction materials to the site are ensured to be in good condition and conform to applicable air and noise emission standards and are operated only during non-peak hours.
15. Ambient Air Quality, Noise, Soil and Groundwater quality are monitored during construction phase of the project to ensure that they are within permissible limits.
16. The storm water runoff is diverted to series of Infiltration wells provided for recharge of groundwater table
17. Tertiary treated water from Brigade's completed projects is used to meet the water demand during construction
18. All vehicles, equipment and machinery used for construction are regularly maintained to ensure that the emission levels confirm to the norms.
19. Low VOC paints, sealants and adhesives are used in all our projects. Paints containing lead are strictly prohibited.

20. The project complies with all regulations & follows good construction & safety practices for scaffolding, ladders, working platforms, gangway, stairwells, excavations, etc.
21. Mock-up fire drills and first aid training is conducted at site at regular intervals.
22. Periodic Compliance reports are submitted to concerned authorities
23. Reviews and Audits are conducted periodically to verify compliance to all statutory conditions.

Some of the environmental laws, standards and policies that Brigade comply to are:

- Ministry of Environment, Forests and Climate Change
- State Pollution Control Board
- State Environment Impact Assessment Authority
- Indian Green Building Council (IGBC)

- Green Business Certification Inc. (GBCI)

Training & Education

Learning and development is a vital part of organizational growth. Our Human Resources Team recognizes individual efforts and strives to create an atmosphere where everyone can grow along with the organization. Our Learning and Development initiatives are centered around the philosophy that “we grow as our staff grows”. This is based on the belief that man-days of training attended alone are not sufficient to ensure upskilling or reskilling the competencies. We believe that embracing change is a must to experiment and discover newer attitudes, behaviors and skills. Therefore, our approach to training and development is seen as an investment, rather than a need.

Accordingly, training needs are identified at organizational, individual and at departmental levels during the performance appraisal process, which serves as an input into the training calendar. This training calendar is revisited each month and is updated based on business needs.

Individual training needs are categorized under

1. Technical training
2. Behavioral training

External training programs are organized to equip our employees with modern concepts and to enhance their learning curve. Management Development Programs are also implemented to facilitate continuous development, especially for the senior management. Our senior leadership team takes active initiative to improve their knowledge and skills through these programs.

The main aim of our learning and development program is to

1. Ensure knowledge transfer
2. Building future capabilities
3. Governance or compliance related training

Accordingly, we have several training programs curated to meet specific needs.

1. Pathshala – Classroom Training initiative
2. Pathshala – Popcorn - Pathshala popcorn is a new initiative to impart short training programs, which are focused.
3. Campus to Corporate Program – includes onboarding and structural training
4. Jump Start - program is specially designed for Management Trainees (Sales)
5. Did you know - internal communication which is shared as a mailer to all the employees.
6. Knowledge series – fortnightly mailer on industry, general and functional knowledge

A regular performance review is done to identify areas of development. During the reporting period, 13% of male employees and 59% of female employees received performance and career development reviews.

Our Approach

Creating a safe, inclusive and motivating working atmosphere is amongst our top priorities. We emphasize the importance of maintaining professional conduct, in line with our ethics and core values. We do not discriminate employees/potential employees /stakeholders based on gender, caste, race, sexuality, disability etc. and we expect a very high code of conduct from all our employees. An important area of professional conduct pertains to fair treatment of all employees at the work place. We strongly believe that every individual has the right to work in a professional atmosphere that provides equal opportunities to all and prohibits discriminatory practices that may distress or inhibit a section of the employees. At Brigade Group, sexual harassment, whether verbal, physical, or environmental, is completely unacceptable. Sexual harassment at the work place involving employees is a grave offence and is, therefore, punishable. This policy applies to all our employees and there is a robust system of reporting in place to ensure protection of the

complainant. We have formed a Complaint Redressal Committee, constituted by our Management to review and redress complaints of sexual harassment.

Another facet of creating a great place to work is our whistle blower policy. It is a mechanism by which employees can raise concerns of any unacceptable, improper, or unethical practices being followed in the Company to the Ethics Committee or to the Audit Committee and to prohibit superiors from taking any adverse personal action against such employees. The Policy is intended to ensure that whenever any unacceptable, improper, or unethical practice is reported by an employee, the concerned employee is protected against any vindictive action and/or any discrimination for such reporting.

Our efforts to build a great place to work have resulted in our achievement of the following accolades.

Brigade was recognized as the Best Place to work in the real estate category for the 10th year in a row by Great Place to Work Institute

Brigade Hospitality Services Ltd this year has for the first time been certified by Great Place to Work Institute and ranked 15th amongst India's Great Mid-size Workplaces 2020.

Employee Engagement and Initiatives

All our HR initiatives are designed in line with our priorities and executed to achieve Brigade Group's vision throughout our journey.

CORE VALUES: QC FIRST

Human Resources focus on anchoring the values (QC-FIRST) and beliefs in people management right from recruitment to performance management, talent development, and remuneration. Some of the key focus areas of our people agenda is Communicating, accelerating employees' professional and personal development, creating a more open and transparent environment, and giving greater accountability to employees

NEO-B: RED CARPET

Brigade's onboarding ritual Neo-B Red Carpet aims to integrate the new joiners into the team and make them feel connected to the organization. We address new joiners as "Neo-B's" and conduct this program to build Positive Experience for them. It is typically a 3-day activity that is divided into 2 sessions

- "Shubh Aarambh" – It includes joining activities, led by the HR Team and "Neo-B's" colleagues from the respective departments. Usually, it is conducted on 1st or 3rd Thursday of the given month.

Women's Day Celebrations 2019

- “AaGaaz – The beginning” – It is an elaborate Corporate Induction Program conducted by the HR Team and the respective Business Unit Heads, to familiarize the Neo-B's about the Company and the business.
- Day-3 of the Red Carpet is when all Neo-B's are taken for a full day site visit.

CAMPUS TO CORPORATE PROGRAM:

C2C is a flagship program to attract and train the best “Fresh Graduate” talents, through actively planned campus recruitments. This program is divided into 2 sessions.

1. ‘First things First’: It is a Pre-onboarding session that is conducted twice before they join, one session each in the 2 months before they come on board.

2. ‘STT’- STT is a Structured Technical Training Program. It is a 45 days long program that is conducted as soon as all GETs come on board.

EMPLOYEE - ENGAGEMENT PROGRAMS

Big 6 employee engagement club:

It is an “Employee Engagement community” formed by the Brigadiers, for the Brigadiers, to the Brigadiers. The main objectives of this club are to achieve the 3C's:

- **Connect employees emotionally**
- **Communicate our Core Values**
- **Collaborate:**
- **Assigning BU heads as mentors.**

The entire organization is divided into 6 teams irrespective of departments, age and designation. Each team is assigned a mentor who is one of the BU Heads. A captain and a vice captain is selected for each team and they in turn help elect 4 representatives of the team through voting. Further, a meeting is held with the big6EEC committee every quarter to decide on the next set of cultural and sports activities. After the completion of each activity, the best performed team will be awarded the rolling trophy. A scoreboard mail is also communicated to the teams every month. Finally, the team with the highest points at the end of the financial year will be the champions.

Operate

On Site as

Sales Champion

To Experience Moments of Truth

This initiative has been launched to deeply imbibe our Core Value – ‘Customer Centricity’ and experience the complete sales process this initiative. The main objective is to understand the customer preference and design a function that can support our customers. It is applicable to all the eligible employees of the Brigade Group (except the direct sales team, CCS & CRM) As part of this initiative, all eligible employees will spend two & half days in a year (Friday second half to Sunday) as a “Salesperson” on site during their respective month of joining Brigade.

During this, Brigadiers wear the hat of salesperson and shadow the assigned Sales Resource at the Project Site, meet & assist customers, and answer their queries. The learning from the program will be considered as a significant feedback which is translated back to the workplace to create a seamless experience for our customers. This initiative serves as one of the most important tools to drive our focus towards customer centricity.

Occupational Health & Safety

Occupational Health and Safety are handled earnestly at Brigade. We provide highly detailed EHS specifications covering all the statutory requirements in the Tender documents issued to bidders. The tenders elaborate on various aspects such as EHS Management, Brigade's EHS Policy, Condition of eligibility of EHS personnel, EHS Goals and Objectives, Monitoring and Reviewing arrangements, EHS Training, EHS Committee establishment and duties, project site requirements, workplace environment, health and hygiene, violations, PPE, tools and forms apart from the aforementioned compliance requirements. Such detailed EHS tenders are provided for Civil Works, Electrical Safety, Lift Works, Painting works and Plumbing and Firefighting.

Brigade ensures it addresses every EHS need in the following ways:

Communities

Communities

At Brigade, we feel responsible for the social settings we operate in. Our commitment to improving them is evident from the number of projects we have taken up to support and

enhance the communities and the natural environment around our operation sites as well as the institution of a detailed and robust CSR Policy.

CSR Policy

The CSR policy for Brigade Enterprises Ltd. (BEL) has been formulated in accordance with Section 135 of the Companies Act, 2013 read with Corporate Social Responsibility (CSR) Rules, 2014 together with Schedule VII of the Companies Act, 2013.

BEL genuinely believes that the benefits of development should reach a larger number of people, especially the weaker sections of society, to whom greater access to opportunities is the surest way to enable all-round socio-economic progress. It is wholly committed to environmentally sustainable development and growth in India in all areas, given the challenges of climate change.

The CSR Policy of the Company sets out the framework which will guide the Company's CSR activities. The Policy also sets out the rules that need to be adhered to while designing and implementing CSR activities.

The company has carried out activities in the areas of environment protection, public amenities development, urban art and culture, education etc. with the objective of social and economic development of the community.

The Corporate Social Responsibility Committee (CSR Committee) of the Board of Directors of BEL is the governing body that will articulate the scope of activities for the Company and ensure compliance with the CSR Policy. The CSR Committee consists of four Directors, including two independent Directors.

CSR Committee

As part of the entire system for CSR programs through the CSR policy, BEL has set up a CSR Committee detailing its functions, role and functions of the Board of Directors in CSR, implementation framework for CSR activities as well as details on the monitoring mechanism of CSR activities. The policy also outlines disclosures about CSR activities to be made in BEL's Annual report, employees' engagement in the activities, capacity building for CSR and quite importantly review of the CSR policy itself

which is due every 2 years unless required earlier.

The CSR Committee will consider and recommend for approval of the Board, the projects or programmes that BEL should undertake as CSR in India.

In terms of Schedule VII of the Act the Company's primary focus of CSR Activities are:

A central body we have established to execute such projects by the group is the non-for-profit Brigade Foundation in 2003 registered with the Karnataka Societies Registration Act, 1960. The foundation currently serves in the areas of education, health and community development. The foundation has 7 members of the Board of Trustees including the founder, CMD of

Brigade Group Mr. M. R. Jaishankar as Managing Trustee and Lifetime Trustee. It also has a well-structured hierarchy involving the trustees, a review committee, an executive committee, administrator and managers and other staff under them to enable execution of programs efficiently.

Overall CSR spend during 2019- 20

Education

The foundation works with one vision, that is to provide an international level of education to children living within its projects. It has created unique initiatives for the exclusive use of the teacher at the schools. The schools have been in operation for 15 years, with a student strength of 3459 and having now increased the staff to 289.

Health

One of the major initiatives taken up by the foundation is the establishment of St. John's Health Centre at Brigade Meadows in partnership with St. John's Hospital, Bangalore. With the infrastructure and equipment in place, the centre is due for opening during June/July 2020.

Community Development

The foundation recognised a dire need for youth surround some of its projects for employable skills and felt the need to address it. To fulfill this need, it plans to set up a Skill Development and Vocational Training Institute in the North side of Bangalore.

The foundation has been making contributions to support communities in the aftermath of natural calamities.

The foundation has also made many contributions to offer support during the Covid 19 pandemic.
