Management Discussion & Analysis

Global Economy

After an estimated contraction of -3.3 percent in 2020, the global economy is projected to grow at 6 percent in 2021, moderating to 4.4 percent in 2022 as per IMF. The contraction in 2020 is less than projected, reflecting the higher-than-expected growth outturns in the second half of the year for most regions after lockdowns were eased and as economies adapted to new ways of working. The projections for 2021 and 2022 are slight revised upwards reflecting additional fiscal support in a few large economies and the anticipated vaccine-powered recovery in the second half of the year.

Global growth is expected to moderate to 3.3 percent over the medium term—reflecting projected damage to supply potential and forces that predate the pandemic, including aging-related slower labour force growth in advanced economies and some emerging market economies. Thanks to unprecedented policy response, the COVID-19 recession is likely to leave smaller scars than the 2008 global financial crisis.

The factors shaping the appropriate stance of policy vary by country, especially progress toward normalization. Hence, countries will need to tailor their policy responses to the stage of the pandemic, strength of the recovery, and structural characteristics of the economy. Once vaccination becomes widespread and spare capacity in health care systems is generally restored to pre-COVID-19 levels, restrictions can begin to be lifted.

While the pandemic continues, policies should first focus on escaping the crisis, prioritizing health care spending, providing well-targeted fiscal support, and maintaining accommodative monetary policy while monitoring financial stability risks. Strong international cooperation is vital for achieving these objectives and ensuring that emerging market economies and low-income developing countries continue to narrow the gap between their living standards and those of high-income countries. On the health care front, this means ensuring adequate worldwide vaccine production and universal distribution at affordable prices—including through sufficient funding for the vaccine facility—so that all countries can quickly and decisively beat back the pandemic.

Indian Economy

2020-21 was one of the most difficult & challenging year globally as well as for India. The onset of the COVID-19 pandemic has presented India with complex economic and public health challenges. Furthermore, these two crises interact with each other in unpredictable ways where there is considerable uncertainty in designing a policy response. To prevent the spread of the virus, nationwide lockdowns were implemented by the Government, bringing the whole economy to the standstill for over 2

months. India, perhaps, had implemented one of the strictest lockdowns in comparison to other nations globally.

To support the economy in the midst of distress, the Indian Government unveiled a stimulus package targeted at reviving the economy through a combination of fiscal and monetary support. This included relief to small businesses, taxpayers, shadow banks, power distribution companies, real estate, organised sector employees and contractors working with the government. This lockdown brought much of economic and social activity to a halt. However, this had a salutary effect on cutting down the mortality from COVID. The lockdown had also given the country's health system time to strengthen its response.

The next leg of the recovery strategy was structural reforms. These include amendment of Essential Commodities Act to allow farmers to sell their produce at the highest price anywhere in the country, limit for foreign direct investment (FDI) in the defence sector was raised from 49% to 74% and modification of labour laws to make it more flexible etc. Perhaps, the most impactful reform undertaken during the year was the "Aatmanirbhar Bharat" which promotes the country to be self-reliant. This will be achieved by India developing a manufacturing hub that is globally competitive and through switching of tastes from imported to domestic products.

Early signs of economic revival became visible during the second half of the year with easing of lockdown restrictions, recovery of economic activities and development of vaccines in India and throughout the world. However, as the vaccination drives started and the economy was strongly recovering from the wounds of the pandemic, much bigger second wave of COVID-19 struck again towards the end of FY21 bringing back the lockdown restrictions in almost all parts of the country.

As per the National Statistical Office, contraction in real GDP for 2020-21 is estimated at 8.0%. RBI, in its April-21 monetary policy committee meeting has estimated the real GDP growth for 2020-21 at 10.5% consisting of 26.2 per cent in Q1; 8.3 per cent in Q2; 5.4 per cent in Q3; and 6.2 per cent in Q4. Prospects for 2021-22 have strengthened with the progress of the vaccination programme. MPC committee has unanimously decided to continue with the accommodative stance as long as necessary to sustain growth on a durable basis and continue to mitigate the impact of COVID-19 on the economy, while ensuring that inflation remains within the target going forward. The Government has retained the inflation target at 4 per cent with the lower and upper tolerance levels of 2 per cent and 6 per cent, respectively, for the next five years (April 2021-March 2026).

In contrast to the previous year, the hope generated by vaccination drives in several countries at the start of the year 2021 has been somewhat offset by rising infections

and new mutant strains worldwide. Yet, the speed and collective endeavour with which the world mobilised scientific energies to develop vaccines, and pandemic-related protocols, that have now become a way of life, give the hope and confidence that economy will sail through this renewed second/third surge and will be on the new path of growth for years to come.

Industry Scenario

As per the report released by India Ratings & Research, the revenue growth at about 11% CAGR witnessed over FY11-FY20 in the cables and wires industry could continue even during the next decade. The growth is likely to be backed by continued urbanisation, higher infrastructure spending, increase in electrification and data communication. Sector consolidation will shift gears into market share gains for organised players, despite rising competition.

Cables & Wire has a strong growth potential, given lower per capita consumption in India than global counterparts. Key end-user segments include real estate, construction, power, consumer electricals and agriculture. The government thrust to invest in infrastructure and focus on renewable energy and advancement in telecommunication technology all augur well for a sustained strong growth rate in the long term. The sector revenue growth rate has a high correlation with gross fixed capital formation nominal at about 0.8x on a three-year rolling average basis. Also, the historical sector revenue growth median multiplier is at about 1.1x to nominal GDP and 1.3x to gross fixed capital formation.

As per the industry report by Yes Securities, the Cables & Wires (C&W) industry grew by a whopping 23% CAGR in volume between FY 2013-14 and FY 2017-18 to touch 14.5 million kms. In terms of sales value, it recorded 11% CAGR over the same period. The market size of C&W industry is expected to grow by 15% CAGR from Rs. 525 billion in FY 2017-18 to Rs. 1,033 billion in FY 2022-23. The factors behind the cable industry growth in the industry has been and will be due to the huge growth in infrastructure by the government majorly led by investments in smart cities, railways, metro railways, airport development & modernization, power sector and hydrocarbon sector etc.

The prospects of the Wire and Cable industry are interlinked with the other industries viz: Power, Telecom, Railways, Real estate, Steel, Cement, Refineries, Infrastructure etc. With investments across different infrastructure segments in the background of government initiatives, the demand for cables is expected to increase considerably. With the growth of other related industries, the Indian Wire and Cable industry is indeed bound to grow & prosper.

Company Overview

Cords Cable Industries Limited (CORDS) is a specialised Control & Instrumentation cable company offering wide range of cable products to multiple industries. CORDS has over 3 decades of rich experience and enjoys a strong brand image in the B2B segment. CORDS designs, develops and manufactures a varied range of Power, Control, Instrumentation, Thermocouple Extension / Compensating and Communication cables. The company's state of the art manufacturing plants are located in Rajasthan at 2 locations.

CORDS is in the business of providing cost-effective and quality solutions for various electrical connectivity requirements. CORDS has carved a niche in manufacturing of customised cables as per the customers' specifications. Investments in infrastructure and various industries will prove to be a big positive for the company. CORDS continuously strives to achieve higher efficiencies, cost control, better preventive maintenance and focuses on improving its product mix to attain economies of scale.

Company's current capacity stands at ~65,000 Kms p.a. spread across 2 manufacturing facilities in Rajasthan. Chopanki unit has a capacity of ~30,000 Kms p.a. while Kahrani unit has a capacity of ~35,000 kms p.a. The cable manufactured conform to International standards such as EN, BS, IEC & VDE. The cables cater to various areas which include oil & gas, hydrocarbons, airports, railways, metro rail, smart cities as well as power sector.

COVID-19 Impact

COVID-19 Pandemic has disrupted businesses around the world. This the most difficult economic challenge faced by economies in recent history. In responding to this crisis, company's primary objective is to ensure the safety of our employees, to deliver client commitments, and put in place mechanisms to protect the financial well-being of the Company and protect its long-term prospects.

Company has implemented strict guidelines and undertaken necessary precautionary measures for social distancing, limited manpower, staggered working, work from home, regular screening and sanitisation and necessary guidance and advisory for providing a safe working environment to all employees.

Government has been pushing Public Sector Companies to fast-track capex as a part of the government's drive to boost investment in the economy and revive growth. Separately, the government is looking at ways to fast-track some of the investment as part of the over Rs 100-lakh-crore National Infrastructure Pipeline as higher spending in creating assets is expected to spur the demand for cement, steel and other crucial inputs, in addition to creating employment. These measures are expected to

improve demand scenario for all kinds of cables ranging from industrial, power and specialised which augurs well for the company in the long term. Company has adequate capital to meet business requirements and is servicing all debts & financial commitments as and when due. The company is in a firm position to grab the business these new opportunities may bring in.

Opportunities in various sectors

Oil & Gas

As per IBEF, Oil and gas sector is among the eight core industries in India and plays a major role in influencing decision making for all other important sections of the economy. India's economic growth is closely related to its energy demand; therefore, the need for oil and gas is projected to grow more, thereby making the sector quite conducive for investment. The Government has adopted several policies to fulfil the increasing demand. It has allowed 100% Foreign Direct Investment (FDI) in many segments of the sector, including natural gas, petroleum products and refineries among others.

According to the data released by Department for Promotion of Industry and Internal Trade Policy (DPIIT), the petroleum and natural gas sector attracted FDI worth US\$ 7.91 billion between April 2000 and December 2020. Energy demand of India is anticipated to grow faster than energy demand of all major economies on the back of continuous robust economic growth. India's energy demand is expected to double to 1,516 Mtoe by 2035 from 753.7 Mtoe in 2017. Moreover, the country's share in global primary energy consumption is projected to increase by two-fold by 2035. This will be led by huge investments in Oil & Gas industry indirectly creating a long-term demand for the industrial cables.

Railways, including Metro Rails

Cables are an integral part of the railway infrastructure for current supply, control tasks, data transmission etc. Indian Railways is among the world's largest rail network, and its route length network is spread over 67,956 kms, with 13,169 passenger trains and 8,479 freight trains, plying 23 million travellers and 3 million tonnes (MT) of freight daily from 7,349 stations. India's railway network is recognised as one of the largest railway systems in the world under single management.

Government of India has focused on investing in railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.

Indian Railway network is growing at a healthy rate. In the next five years, Indian railway market will be the third largest, accounting for 10% of the global market. Indian Railways, which is one of the country's biggest employers, can generate one million jobs, according to Mr Piyush Goyal, Union Minister for Railways and Coal. Cables being one of the most important components in railway network is bound to be a being beneficiary from continuous expansion of the railways.

Power

Power is among the most critical component of infrastructure, crucial for the economic growth and welfare of nations. The existence and development of adequate infrastructure is essential for sustained growth of the Indian economy. India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

The Government of India's focus on attaining 'Power for all' has accelerated capacity addition in the country. At the same time, the competitive intensity is increasing at both the market and supply sides (fuel, logistics, finances, and manpower). Between April 2000 and September 2020, the industry attracted US\$ 15.23 billion in Foreign Direct Investment (FDI), accounting for 3% of total FDI inflow in India. Large scale investments in the power sector will lead to sustained long term demand for the power cables.

RISKS AND CONCERNS

Finance Cost Risk: Finance Cost risk arises due to payment of high rate of interest & charges on term loans and other funds & non-fund-based facilities being availed by the company from banks and other financial institutions. The company tries to minimize this risk by keeping a check on the interest rates & charges charged by various banks & financial institutions and by swapping its long term/short term loans with banks/ FIs charging lesser interest rates and other charges.

Liquidity Risk: Liquidity risk is the risk that the company may be unable to meet short term financial demands. This

usually occurs due to the inability to convert a security or hard asset to cash without a loss of capital or income in the process. The company manages the liquidity risk by ensuring the availability of adequate funds at all times to meet its liability obligations on before the due dates.

Raw Material Availability and Price Fluctuations: Scarce availability and price-volatility in Company's Basic Raw Materials - Copper, Aluminium, Steel, and PVC etc. can severely impact the profits of the Company. To mitigate these risks, the Company inculcates MOUs with its suppliers, price escalation clauses for large orders and hedges these raw-materials on the commodity exchange.

Foreign Exchange Risk: Foreign exchange risk is a financial risk posed by an exposure to unanticipated changes in the exchange rate between two currencies. Company may import a part of its raw materials, spare parts etc. and is also engaged in export of its products. To mitigate this risk, the company resorts to forward booking where deemed appropriate.

Human Resource Risk: In the absence of quality human resources, the company may not be able to execute its growth plans. To mitigate this risk, the company places due importance to its human capital assets and invests in building and nurturing a strong talented pool to gain strategic edge and achieve operational excellence in all its goals.

POLICY ON DIRECTORS' APPOINTMENT AND REMUNERATION AND OTHER DETAILS

The Nomination and Remuneration Committee ("The NRC") is responsible for developing competency requirements for the Board based on the industry and strategy of the Company. The Board composition analysis reflects in-depth understanding of the Company, including its strategies, environment, operations, financial condition and compliance requirements. The Committee is also responsible for reviewing the profiles of potential candidate's vis-à-vis the required competencies and meeting potential candidates, prior to making

recommendations of their nomination to the Board. At the time of appointment, a specific requirement for the position including expert knowledge expected is communicated to the appointee.

During the year under review, the Board has also reviewed the list of core skills, expertise and competencies of the Board of Directors as are required in the context of the businesses and sectors applicable to the Company which were mapped with each of the Directors on the Board. The same is disclosed in the Corporate Governance Report forming part of the Annual Report

Criteria for Determining Qualifications, Positive Attributes and Independence of a Director:

The NRC has formulated the criteria for determining qualifications, positive attributes and independence of Directors in terms of provisions of Section 178(3) of the Act and Regulation 19 read with Part D of Schedule II of the SEBI Listing Regulations.

Independence: In accordance with the above criteria, a Director will be considered as an 'Independent Director' if he/ she meets the criteria for Independence as laid down in the Act and Rules framed thereunder, as amended and Regulation 16(1)(b) of the SEBI Listing Regulations.

Qualifications: A transparent Board nomination process is in place that encourages diversity of thought, experience, knowledge, perspective, age and gender. It is also ensured that the Board has an appropriate blend of functional and industry expertise. While recommending the appointment of a Director, the NRC considers the manner in which the function and domain expertise of the individual will contribute to the overall skill-domain mix of the Board.

Positive Attributes: In addition to the duties as prescribed under the Act, the Directors on the Board of the Company are also expected to demonstrate high standards of ethical behaviour, strong interpersonal and communication skills and soundness of judgement. Independent Directors are also expected to abide by the 'Code for Independent Directors' as outlined in Schedule IV to the Act.

REMUNERATION POLICY

On the recommendation of the NRC, the Board has adopted and framed a Remuneration Policy for the Directors, Key Managerial Personnel and other employees pursuant to the provisions of the Act and the Listing Regulations. The remuneration determined for Executive Directors is subject to the recommendation of the Nomination and Remuneration Committee and approval of the Board of Directors. The Executive Directors are not paid sitting fees; the Independent Directors are entitled to sitting fees for attending the Board Meetings.

It is affirmed that the remuneration paid to Directors, Key Managerial Personnel and all other employees is in accordance with the Remuneration Policy of the

Company. The Company's Policy on Directors' Appointment and Remuneration and other matters provided in Section 178(3) of the Act and Regulation 19 of the Listing Regulations have been disclosed in the Corporate Governance Report, which forms part of the Annual Report.

MATERIAL CHANGES AND COMMITMENTS

There have been no material changes and commitments affecting the financial position of the Company which have occurred between the end of the financial year of the Company to which the financial statements relate and the date of the report.

IMPACT OF COVID 19

The year started amidst a strict nationwide lockdown in India with tough restrictions on economic activity and mobility. The company initiated temporary suspension of entire manufacturing operations of the company, on March 22, 2020, in view of situation arising out of the outbreak of COVID-19 pandemic & in line with various government & local authorities' guidelines. Our manufacturing operations at Chopanki & Kaharani, both situated in Rajasthan, were partially re-commenced on 25th & 28th April 2020 respectively after obtaining requisite consent(s) from concerned government/authorities, as applicable. We are currently operating at around 55% production capacity.

Due to outbreak of COVID-19 globally and in India, the Company's management has made initial assessment of likely adverse impact on business and financial risks, and believes that the impact is likely to be short term in nature. The management does not see any medium to long term risks in the Company's ability to continue as a going concern and meeting its liabilities as and when they fall due, and compliance with the debt covenants, as applicable.

ORGANISATIONAL RESILIENCE & COMBATING COVID-19

In these difficult times of the Covid-19 pandemic, resilience for an organisation is paramount. During the year, the Company focussed on achieving its business

goals hand-in-hand with improving cash from operations and cutting costs. Necessary efforts were made towards business continuity and resilience.

The Company continued extending its support to the workers and employees. Annexure 2 to the Directors' Report

CORPORATE GOVERNANCE REPORT

In accordance with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Listing Regulations"), the Directors of Cords Cable Industries Limited ("the Company" / "CORDS") have pleasure in presenting the Company's Report on Corporate Governance for the Financial Year ended March 31, 2021.

1. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

The fundamental principle of Corporate Governance is achieving sustained growth ethically and in the best interest of all stakeholders. It is not a mere compliance of laws, rules and regulations but a commitment to values, best management practices and adherence to the highest ethical principles in all its dealings to achieve the objects of the Company, enhance stakeholder value and discharge its social responsibility.

Our corporate governance practices are a reflection of our value system encompassing our culture, policies, and relationships with our stakeholders. Integrity and transparency are key to our corporate governance practices to ensure that we gain and retain the trust of our stakeholders at all times. Corporate governance is about maximizing shareholder value legally, ethically and sustainably. At CORDS, the Board exercises its fiduciary responsibilities in the widest sense of the term. Our disclosures seek to attain the best practices in international corporate governance. We also endeavour to enhance long-term shareholder value and respect minority rights in all our business decisions.

To succeed, we believe, requires highest standards of corporate behaviour towards everyone we work with, the communities we touch and the environment on which we have an impact. This is our road to consistent, competitive, profitable and responsible growth and creating long-term value for our shareholders, our people and our business partners. The above principles have been the guiding force for whatever we do and shall continue to be so in the years to come.

Your Company is in compliance with the conditions of corporate governance as required under the SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 ("SEBI Listing Regulations"), as applicable.

ANNEXURE –A**Secretarial Audit Report**For the financial year ended 31st March, 2021**The Members**

CORDS CABLE INDUSTRIES LIMITED

CIN: L74999DL1991PLC046092

Our Secretarial Audit Report of even date is to be read along with this letter:

1. Secretarial Audit is primarily audit of compliance of various provisions of Companies Act, 2013 and other laws as mentioned in the audit report. Audit is conducted for transactions taking place during financial year **2020-21** and it should not be considered audit for any previous period. The compliance of the provisions of Companies Act, 2013 and other laws as mentioned in the report is the responsibility of the management. Our examination was limited to the verification of procedures on test basis.

The audit is performed considering the relaxations granted by the Ministry of Corporate Affairs and Securities and Exchange Board of India warranted due to the spread of the COVID-19 pandemic.

Further, it is not about audit of financials and accounting transactions of the Company. We have not verified the correctness and appropriateness of financial records, financial statements, books of accounts, other financials, compliances of income tax and other tax laws and in this regard, we relied upon the audit done by statutory auditors of the Company.

2. In terms of Secretarial Standard on Meeting of the Board of Directors issued by The Institute of Company Secretaries of India, the company is required to pass resolution at the Board meeting specifying the list of laws applicable specifically to the company.

The list of laws specifically applicable to the company as mentioned at Para (VI) of the report is based on the resolution passed by the Board on 12th February, 2021.

3. Maintenance of secretarial record and its safe custody is the responsibility of the Company Secretary and other officers of the company. Our responsibility is to express an opinion on these secretarial records based on our audit.
4. We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial record required to be maintained under the Companies Act, 2013. The verification was done on test basis to ensure that correct facts are reflected in such records in order to form a reasonable view and opinion.
5. In case compliances of various statutory provisions, we have also obtained management representation letter especially for transactions where it is not feasible as an auditor to form view and opinion regarding compliance of various provisions.
6. The Secretarial Audit report is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company. Any person entering into transactions with the company should separately verify about the affairs of the company before such transaction keeping in view the nature of such transaction to be entered into with the Company.

Independent Auditors' Report

**To the Members of
Cords Cable Industries Limited**

Report on the Audit of Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Cords Cable Industries Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2021, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

During our audit, we had not come across with any significant areas that require reporting under "Key Audit Matter" paragraph and hence we are not including the same in our audit report as per para (A59) of SA 701.

Emphasis of Matter

We draw attention to Note 9 of the financial statements, which states that balance with Government Authorities includes Rs 234.64 Lakhs deposited with GST Department

under protest for ITC disallowed by Department for the financial year 2017-2018 & 2018-19 and same has been taken up at appropriate authority & at appropriate forum for recovery.

Our opinion is not modified in respect of this matter.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards prescribed under Section 133 of the Act read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) amendment Rules, 2016.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility for the Standalone Financial Statements

Our responsibility is to express an opinion on these standalone Financial Statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the

assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the standalone financial statements.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure I", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of changes in Equity dealt with by this Report are in agreement with the relevant books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) amendment Rules, 2016.
- (e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure II" and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
 - ii. The Company did not have any long term contracts including derivatives contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE II TO INDEPENDENT AUDITORS' REPORT- 31 MARCH 2021 (REFERRED TO IN OUR REPORT OF EVEN DATE)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Cords Cable Industries Limited as at 31st March, 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct

of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting but requires more strengthening and such internal financial controls over financial reporting were operating effectively during the period ended 31st March 2021, based on the internal control over financial reporting criteria established by the Company consisting the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 28: Significant accounting policies:

This note provides a list of the significant accounting policies adopted in preparation of these financial statements. These policies have been consistently applied to all the years presented unless otherwise stated.

The financial statements were approved for issue by Board of Directors on 30th June, 2021.

a) Basis of preparation:**i. Compliance with Ind AS :**

These financial statements for the year ending 31st March, 2021 comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with rule 4 of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the act.

ii. Historical cost convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities and contingent consideration that are measured at fair value.
- Defined benefit obligations which are measured at fair value based on actuarial valuation.

b) Foreign currency transactions:**i. Functional and presentation currencies:**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in **INR** which is the functional and presentation currency for Cords Cable Industries Limited.

ii. Transactions and Balances:

Foreign currency transactions are translated into the functional currency at the exchange rates on the date of transaction. Foreign exchange gains and losses resulting from settlement of such transactions and from translation of monetary assets and liabilities at the year-end exchange rates are generally recognized in the profit and loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the "Statement of Profit and Loss".

c) Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue is net of GST and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

The company recognizes revenue when the amount can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement

i. Sale of goods:

Timing of recognition: Sale of goods is recognized when substantial risks and rewards of ownership are passed to the customers, depending on individual terms, and are stated net of trade discounts, rebates, incentives, subsidy and GST.

Measurement of revenue: Accumulated experience is used to estimate and provide for discounts, rebates, incentives and subsidies. No element of financing is deemed present as the sales are made with credit terms, which is consistent with market practice.

d) Income recognition:

- Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

- ii. Dividends are recognized in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.
- iii. Revenue from royalty income is recognized on accrual basis.

e) Government Grants:

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grants relating to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and reduce from corresponding cost.

Income from export incentives such as premium on sale of import licenses, duty drawback etc. are recognized on accrual basis to the extent the ultimate realization is reasonably certain.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other operating income.

f) Income Tax:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions which appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the Balance Sheet method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset will be realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Minimum Alternative Tax (MAT) credit, which is equal to the excess of MAT (calculated in accordance with provisions of Section 115JB of the Income Tax Act, 1961) over normal income-tax is recognized as an item in deferred tax asset by crediting the Statement of Profit and Loss only when and to the extent there is convincing evidence that the Company will be able to avail the said credit against normal tax payable during the period of fifteen succeeding assessment years.

g) Property, plant and equipment:

All items of property, plant and equipment are stated at historical cost, less accumulated depreciation/amortization and impairments, if any. Historical cost includes taxes, duties, freight and other incidental expenses related to acquisition and installation. Indirect expenses during construction period, which are required to bring the asset in the condition for its intended use by the management and are directly attributable to bringing the asset to its position, are also capitalized.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation on Property, Plant and Equipment is charged on straight line method on the basis of rates arrived at with reference to the useful life of the assets prescribed under Part C of Schedule II of the Companies Act, 2013.

The estimated useful lives are as mentioned below:

Type of Asset	Useful Lives (in years)
Leasehold Land	99
Factory Buildings	30
Furniture & Fittings	10
Plant & Machinery	15
Office Equipment	5
Tools and Instruments	15
Generator	15
Computer	3
Computer-Server	6
Vehicle (Car)	8
Vehicle (Bike)	10
Right to Use Assets(Machineries)	4

h) Depreciation and amortization

Depreciation is calculated using the Straight Line Method. Depreciation is calculated using the useful life given in Schedule II to the Companies Act, 2013.

Depreciation on additions / deletions during the year is provided from the day in which the asset is capitalized up to the day in which the asset is disposed off.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

i) Intangible Assets:

i. Intangible assets with finite useful life:

Intangible assets with finite useful life are stated at cost of acquisition, less accumulated depreciation/ amortization and impairment loss, if any. Cost includes taxes, duties and other incidental expenses related to acquisition and other incidental expenses.

Amortization is recognized in profit or loss on a straight-line basis over the estimated useful lives of respective intangible assets.

ii. Research and Development:

Capital expenditure on research and development is capitalized and depreciated as per accounting policy mentioned in para h and i above. Revenue expenditure is charged off in the year in which it is incurred.

j) Investment property:

Property (land or a building-or part of a building-or both) that is held for long term rental yields or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for administrative purposes; or
- Sale in the ordinary course of business.

is recognized as Investment Property in the books.

Investment property is measured initially at its cost, including related transaction costs and, where applicable, borrowing costs. Subsequent expenditure is capitalized to the assets carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the company and the cost of the item

can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognized.

Depreciation is provided on all Investment Property on straight line basis, based on useful life of the assets determined in accordance with para "h" above.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

k) Lease:

The company has applied Ind AS 116 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under Ind AS 17.

i. As a lessee

The company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The company has elected not to recognize right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Under Ind AS 17

In the comparative period, as a lessee the company classified leases that transfer substantially all of the risks and rewards of ownership as finance leases. When this was the case, the leased assets were measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Minimum lease payments were the payments over the lease term that the lessee was required to make, excluding any contingent rent.

Subsequently, the assets were accounted for in accordance with the accounting policy applicable to that asset.

Assets held under other leases were classified as operating leases and were not recognized in the company's statement of financial position. Payments made under operating leases were recognized in profit or loss on a straight-line basis over the term of the lease. Lease incentives received were recognized as an integral part of the total lease expense, over the term of the lease.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards incidental to the ownership of an asset to the Company. All other leases are classified as operating leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Land under perpetual lease for is accounted as finance lease which is recognized at upfront premium paid for the lease and the present value of the lease rent obligation. The corresponding liability is recognized as a finance lease obligation. Land under non-perpetual lease is treated as operating lease.

Operating lease payments for land are recognized as prepayments and amortised on a straight-line basis over the term of the lease. Contingent rentals, if any, arising under operating leases are recognized as an expense in the period in which they are incurred.

I) Investment and Other financial assets:

i. Classification:

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.
- Classification of debt assets will be driven by the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously

ii. Measurement:

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset.

- **Amortized Cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flow represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of

impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income.

- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognized in profit or loss as other income when the company's right to receive the dividend is established.

iii. Impairment of financial assets:

The Company assesses if there is any significant increase in credit risk pertaining to the assets and accordingly creates necessary provisions, wherever required.

iv. De-recognition of financial assets:

A financial asset is de-recognized only when

- The company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients or
- The contractual right to receive the cash flows of the financial assets expires.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

m) Derivatives and hedging activities:

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Company designates certain derivatives as either:

- hedges of the fair value of recognized assets or liabilities or a firm commitment (fair value hedges)
- hedges of a particular risk associated with the cash flows of recognized assets and liabilities and highly probable forecast transactions (cash flow hedges).

The Company documents at the inception of the hedging transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Company also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

Cash flow hedge reserve

The effective part of the changes in fair value of hedge instruments is recognized in other comprehensive income, while any ineffective part is recognized immediately in the statement of profit and loss.

n) Inventories:

Raw materials, packing materials, stores and spares are valued at lower of cost and net realizable value.

Work-in-progress, finished goods and stock-in-trade (traded goods) are valued at lower of cost and net realizable value.

By-products and unserviceable / damaged finished goods are valued at estimated net realizable value.

Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also includes all other costs incurred in bringing the inventories to their present location and condition. Cost is assigned on the basis of First In First Out. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

o) Trade Receivables:

Trade receivables are recognized initially at fair value and subsequently measured at cost less provision for impairment.

p) Trade and other payables:

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

q) Borrowings:

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using effective interest rate method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

r) Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other borrowing costs are expensed in the period in which they are incurred.

s) Employee Benefits:**i. Short term obligations:**

Liabilities for wages and salaries, including non- monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services upto the end of the reporting and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Provident fund:

Provident fund contributions are made by the Company. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of the year.

iii. Gratuity:

Liabilities with regard to the gratuity benefits payable in future are determined by actuarial valuation at each Balance Sheet date using the Projected Unit Credit method and contributed to Employees Gratuity Fund. Actuarial gains and losses arising from changes in actuarial assumptions are recognized in other comprehensive income and shall not be reclassified to the Statement of Profit and Loss in a subsequent period.

iv. Leave encashment / Compensated absences:

The Company provides for the encashment of leave with pay subject to certain rules. The employees are entitled to accumulate leave for future encashment/utilization. The liability is provided based on the number of days of unutilized leave at each Balance Sheet date on the basis of an independent actuarial valuation. Actuarial gains and losses arising from changes in actuarial assumptions are recognized in the 'Statement of Profit and Loss'.

t) Provisions and Contingent Liabilities:

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

A contingent asset is disclosed, where an inflow of economic benefits is probable. An entity shall not recognize a contingent asset unless the recovery is virtually certain.

u) Cash and Cash Equivalents:

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank Overdraft and cash credits are not included in the cash & cash equivalent according to Ind AS 7 as there is no arrangement for positive and negative balance fluctuation in those accounts, they are basically the integral part of loans and credit management.

v) Impairment of assets:

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units).

Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

w) Earnings Per Share

- i. Basic earnings per share: Basic earnings per share is calculated by dividing:
 - the profit attributable to owners of the Company
 - by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.
- ii. Diluted earnings per share: Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:
 - the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
 - the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

x) Contributed Equity:

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

y) Foreign Currency

The functional currency of the company is Indian Rupee. These financial statements are presented in Indian Rupees.

The foreign currency transactions are recorded on initial recognition in the functional currency by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of transaction.

The foreign currency monetary items are translated using the closing rate at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those which they were translated on initial recognition during the period or in previous financial statements are recognized in statement of profit and loss in the period in which they arise.

z) Dividend:

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

aa) Rounding off:

All amounts disclosed in the financial statement and notes have been rounded off to the nearest Lacs, unless otherwise stated.

Note 29: Critical Estimates and Judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The preparation of the financial statements in conformity with GAAP requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. These estimates and associated assumptions are based on historical experience and management's best knowledge of current events and actions the Company may take in future.

Information about critical estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities are included in the following notes:

- (a) Estimation of defined benefit obligations
- (b) Estimation of current tax expenses and payable
- (c) Estimation of provisions and contingencies

(a) Impairment of financial assets (including trade receivable)

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial assets that are debt instruments, and are measured at amortized cost e.g., Loans, Debt Securities, Deposits and Trade Receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18. The Company follows 'Simplified Approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach recognizes impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition. Trade receivables are recognized initially at fair value and subsequently measured at cost less provision for impairment. As a practical expedient the Company has adopted 'Simplified Approach' using the provision matrix method for recognition of expected loss on trade receivables. The provision matrix is based on three years rolling average default rates observed over the expected life of the trade receivables and is adjusted for forward-looking estimates. These average default rates are applied on total credit risk exposure on trade receivables and outstanding for more than one year at the reporting date to determine lifetime Expected Credit Losses. Company has a policy to recognize expected credit loss only if there is reasonable certainty of default from trade receivable. To be prudent in booking of expected credit loss, company recognize the expected credit loss when legal right to recover the debt expires which is normally after 3 years of raising sales invoice and that to on the basis of management expectation of recoverability.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL impairment loss allowance (or reversal) recognized during the period is recognized under the head 'Other Expenses' in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

- i. **Financial assets measured as at amortized cost:** ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount.
- ii. **Debt instruments measured at FVTPL:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. The change in fair value is taken to the statement of Profit and Loss.
- iii. **Debt instruments measured at FVTOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'Accumulated Impairment Amount' in the OCI. The Company does not have any Purchased or Originated Credit Impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

(b) Estimation of defined benefit obligations

The liabilities of the Company arising from employee benefit obligations and the related current service cost, are determined on an actuarial basis using various assumptions. Refer note 29 for significant assumptions used.

(c) Estimation of current tax expenses and payable

Taxes recognized in the financial statements reflect management's best estimate of the outcome based on the facts known at the balance sheet date. These facts include but are not limited to interpretation of tax laws of various jurisdictions where the company operates. Any difference between the estimates and final tax assessments will impact the income tax as well the resulting assets and liabilities.

(d) Estimation of provisions and contingencies

Provisions are liabilities of uncertain amount or timing recognized where a legal or constructive obligation exists at the balance sheet date, as a result of a past event, where the amount of the obligation can be reliably estimated

and where the outflow of economic benefit is probable. Contingent liabilities are possible obligations that may arise from past event whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events which are not fully within the control of the Company. The Company exercises judgement and estimates in recognizing the provisions and assessing the exposure to contingent liabilities relating to pending litigations. Judgment is necessary in assessing the likelihood of the success of the pending claim and to quantify the possible range of financial settlement. Due to this inherent uncertainty in the evaluation process, actual losses may be different from originally estimated provision. Warranty provisions are determined based on the historical percentage of warranty expense to sales for the same types of goods for which the warranty is currently being determined. The same percentage to the sales is applied for the current accounting period to derive the warranty expense to be accrued. It is very unlikely that actual warranty claims will exactly match the historical warranty percentage, so such estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

(e) Fair Value Measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Other Fair Value related disclosures are given in the relevant notes.

I. BASIC AND DILUTED EARNINGS PER SHARE:

The basic earnings per equity share is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity shares and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been actually issued at fair value.

Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The number of equity shares and potential diluted equity shares are adjusted for stock split, bonus shares, Convertible Preference Shares, Share Warrants and the potential dilutive effect of Employee Stock Option Plan as appropriate.

Basic & Diluted Earnings per share of the company is as under:

K. Fair Value Hierarchy:

This Section explains the judgements and estimates made in determining fair values of financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair values are disclosed in financial statements. To provide an indication about reliability of inputs used in determining fair value, group has classified its financial instruments into three levels prescribed under accounting standard. An explanation of each level follows underneath the table:

(Amount INR in Lakhs)

Financial assets and liabilities measured at fair value - recurring fair value measurements as at 31st March, 2021	Note Reference	Level 1	Level 2	Level 3	Total
Financial assets					
Investments at FVTPL	5				
- Mutual Fund		27.05	-	-	27.05
- ULIP		8.80	-	-	8.80
- Others		4.40	-	-	4.40

Financial assets and liabilities measured at fair value - recurring fair value measurements as at 31st March, 2020	Note Reference	Level 1	Level 2	Level 3	Total
Financial assets					
Investments at FVTPL	5				
- Mutual Fund		23.68	-	-	23.68
- ULIP		8.40	-	-	8.40
- Others		4.34	-	-	4.34

Fair value of financial instruments as referred to in note above has been classified into three categories depending on inputs used in valuation technique. Hierarchy gives highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurements).

The categories used are as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: The fair value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data rely as little as possible on entity specific estimates.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Company's policy is to recognize transfers into and transfer out of fair value hierarchy levels as at the end of the reporting period.
