Strong Foundation

A large flock of white geese is gathered on a paved path that curves along a body of water. In the background, an industrial facility with blue and green structures is visible, along with a tall, red and white striped chimney. The sky is a clear, vibrant blue.

At GMR Power and Urban Infra Limited (GPUIL), we have built a firm foundation based on our experience in executing and efficiently operating high impact projects across various infrastructure. Our large-scale thermal assets at Kamalanga and Warora, coupled with successful implementation of projects across transportation and urban infrastructure domains, have reinforced stakeholder trust– equipping us to navigate change with confidence and embrace emerging opportunities while expanding scale of our operations.

Smarter Future

Delivering High-Impact Infrastructure

As the energy and infrastructure landscape is being reshaped by digital transformation, evolving consumer needs, and an increasing demand for clean energy, we at GPUIL are seizing the moment by pivoting towards Energy 2.0. We are building a future-ready portfolio that blends our conventional strengths with next-generation solutions. Our forays into smart metering, EV charging networks and planned expansion in renewable energy and power distribution franchise models align with national priorities and place us at the forefront of India's transition to a cleaner, smarter future.

With a strong foundation and clear strategic direction, we are well-positioned to unlock sustained growth, bolster our market position, and create long-term value for all stakeholders.

Chairman's Message

With ministries directed to develop a three-year pipeline of projects under the Public Private Partnership (PPP) model and state governments encouraged to follow suit, private sector participation is set to expand substantially. This sets the stage for businesses like ours to leverage India's strong fundamentals and prepare for a smarter future.

G M Rao,
Chairman, GMR Group

Dear Stakeholders,

It is my privilege to welcome you all to the 6th Annual General Meeting of your Company and to share with you the performance and progress achieved during FY 2024-25. This has been a year of consolidation, resilience and sustainable growth.

Flourishing Domestic Economy

Throughout the past year, the Indian economy continued to stand out as an engine of growth, even as global economic prospects remained subdued amid geopolitical and trade uncertainties. The country surpassed Japan to become the world's 4th largest economy and is now well on track to displace Germany from the third position. This remarkable growth trajectory is in line with India's aspiration to become a developed

country – Viksit Bharat – by 2047 as it approaches the centenary year of its independence.

The infrastructure sector is poised to play a defining role in the country's growth story. With ministries directed to develop a three-year pipeline of projects under the Public Private Partnership (PPP) model and state governments encouraged to follow suit, private sector participation is set to expand substantially. This sets the stage for businesses like ours to

leverage India's strong fundamentals and prepare for a smarter future.

Strengthening the Foundation

Your Company has already begun to reap the rewards of the disciplined efforts it has undertaken over the past few years. These include strengthening the balance sheet and reducing debt through asset monetisation and claim realisations.

Last year, we reached an amicable settlement with the National Highways Authority of India (NHAI) on the Hyderabad-Vijayawada project, as part of which NHAI had agreed to pay a compensation of ₹ 1,387 crore. The project was then handed back to NHAI on July 01, 2024, after receipt of compensation. In another significant development in July 2024, Foreign Currency Convertible Bonds (FCCBs), originally held by the Kuwait Investment Authority (KIA), were sold by KIA in the secondary market to new investors, who subsequently exercised their option of converting

I am pleased to share that smart meter operations have already achieved 'Operational Go-Live' across all three Special Purpose Vehicles (SPVs) implementing the projects. Moreover, SPVs have begun receiving payments against invoices submitted to the distribution companies (DISCOMs).

Chairman's Message

their respective FCCBs into equity at GPUIL. In a welcome move, these new investors also waived all accumulated interest before conversion, providing your Company with a stronger balance sheet.

We also addressed long-standing challenges at GMR Rajahmundry Energy Limited (GREL) and GMR Vemagiri Power Generation Limited (GVPGL), which had remained non-operational due to the unavailability of affordable natural gas. With no viable pathway to source affordable natural gas despite our sustained efforts to explore alternatives and repeated representations at appropriate forums to revive the gas-based plants, we negotiated and concluded a one-time settlement with the consortium of GREL lenders to address the liabilities/contingent liabilities of the Company for the full and final settlement of the entire exposure, including term loan, NCDs, CRPS, interest payable and equity shares, and for closure of corporate guarantees.

Furthermore, we strategically divested majority stakes in stressed assets, including GMR Bajoli Holi Hydropower Private Limited (GBHHPL), GREL and GVPGL. This transaction will reduce debt by ₹ 4,400 crore, streamline our portfolio by spinning off non-operational gas-based assets and other stressed assets, and enable us to focus more on growth-oriented businesses.

Collectively, these material developments mark an inflection point in our journey. By consolidating our position, rationalising and managing corporate debt and stressed assets, we are positioning GPUIL for sustained growth.

Smart Energy for the Future

You would recall that in FY 2023-24, your Company secured an order under the country's Revamped Distribution Sector Scheme (RDSS) to install around 75 lakh smart meters across three districts of Uttar Pradesh as part of the Energy 2.0 initiative. To execute this, we have partnered with Bosch Global Software Technologies as the technology provider and arranged debt funding from the Indian Renewable Energy Development Agency Limited (IREDA). I am pleased to share that smart meter operations have already achieved 'Operational Go-Live' across all three Special Purpose Vehicles (SPVs) implementing the projects. Moreover, SPVs have begun receiving payments against invoices submitted to the distribution companies (DISCOMs).

Following the resolution of issues relating to some of our stressed assets, the balance portfolio of GPUIL has continued to deliver robust performance. Energy demand in India has remained strong, with thermal power witnessing sustained demand to meet base load requirements.

Our Warora and Kamalanga plants have been operating at record Plant Load Factor (PLF) levels, generating healthy cash flows. The Government's Late Payment Surcharge (LPS) Rules have further strengthened liquidity by ensuring timely payments from DISCOMs. We have also made substantial progress in the recovery of previously disputed receivables. As a result, our thermal assets stand today on their strongest footing ever, providing a solid base to pursue opportunities in the dynamic energy landscape.

Sustainability as a Core Driver

Sustainable development has been integral to the GMR Group since its inception. It forms the basis on which we build and operate all our projects. Our assets, recognised as national assets of the highest quality, reflect this commitment. To uphold these standards, we have consistently invested significant resources in ensuring compliance with environmental standards, implementing pollution control measures, and adopting rigorous environment, health, and safety (EHS) norms across operations. I am delighted to share that our efforts have been acknowledged through several prestigious recognitions:

- ◆ GMR Warora Energy Limited (GWEL) won the National Award for Excellence in Energy Management from the Confederation of Indian Industry (CII) for the 7th consecutive year and emerged as a national energy leader
- ◆ GWEL is the first Independent Power Producer (IPP) to receive a

Gold Rating in the CII Blue rating system for Water Management

- ◆ GWEL bagged the 'Utkrith' rating (scoring 99.1%) in the 5S assessment conducted by the National Productivity Council
- ◆ GMR Kamalanga Energy Limited (GKEL) secured a 4.5/5-star rating in the Energy Conservation Awards (ENCON) 2024
- ◆ GKEL was also awarded the CII National Award for Excellence in Water Management at the 10th Water Innovation Summit 2024

Delivering on Our Social Commitments

Our social responsibility agenda prioritises enabling inclusive and participatory development in the communities we serve. Through the GMR Varalakshmi Foundation, we drive a wide spectrum of programmes focused on education, healthcare and sustainable livelihoods aimed at uplifting those in need. These efforts are supported by participatory rural appraisal tools, structured community engagement and robust grievance redress mechanisms that ensure responsiveness to local needs.

During the reporting year, our Corporate Social Responsibility (CSR) initiatives touched over 70,000 lives, with more than 95% of these beneficiaries belonging to vulnerable and marginalised communities. This impact reflects our commitment to advancing inclusive growth in the regions where we operate.

Our focus on social accountability also extends to our workplace practices. The certification of our Warora plant under the SA 8000 Social Accountability Standard highlights our emphasis on adhering to the highest standards of occupational safety. Employee well-being and diversity remain our key priorities, backed by regular health and safety training, ethics awareness initiatives and inclusive hiring practices. We continuously maintain a work culture that values holistic employee well-being, safety, mutual respect and ongoing professional development.

Good Governance Reinforcing Stakeholder Trust

Our culture is anchored in the seven core values of the GMR Group – Humility, Entrepreneurship, Delivering the promise, Learning & Inner excellence, Teamwork & Respect for the individual, Social Responsibility and Financial Prudence. These values not only define who we are but also shape how we operate, reminding us that achieving the desired results is only meaningful when pursued through the right means. By consistently going beyond statutory requirements, we aim to safeguard stakeholder expectations and reinforce trust.

To translate these principles into practice, we ensure transparency and accountability across all Group companies and subsidiaries. Our internal audit teams conduct regular and structured assessments, complemented by independent reviews from external agencies. These findings are further scrutinised by the Audit Committee and our

distinguished Board of Directors, reinforcing the robustness of our governance framework.

Looking Ahead with Confidence

During the year under review, India's business environment became more

conductive, with moderating inflation and interest rate cuts creating favourable conditions for growth. This momentum is expected to continue in FY 2025-26, supported by rising private sector spending, along with sustained government spending, which are poised to drive

India's GDP on a steeper growth trajectory together. Although, some downside risks remain on account of geopolitical uncertainties, in today's volatile, uncertain, complex and ambiguous (VUCA) world, we will continue to fortify our Enterprise Risk Management (ERM) framework to ensure resilient risk mitigation.

Amid this positive macroeconomic backdrop, India's energy demand is also projected to rise significantly, driven by population growth, higher per capita energy consumption and rapid electrification. Factors such as urbanisation, industrialisation, economic expansion and increasing adoption of energy-intensive technologies across sectors will further add to the growing demand.

In response, our focus in the year ahead will be on maintaining high operational efficiencies at our existing energy assets. Also, the planned debt refinancing at GWEL and GKEL will help mobilise cash flow, enabling us to deleverage our balance sheet and create capacity for future growth.

Our growth strategy, Energy 2.0, is firmly aligned with the evolving power sector. With footholds in smart metering, smart mobility and renewable energy, we look forward to exploring firm and dispatchable renewable energy (FDRE) solutions to serve commercial and industrial (C&I) customers.

Closing Remarks

As I conclude, I extend my sincere gratitude to our customers, suppliers and other stakeholders for their confidence in the GMR Group. I also thank the Board of Directors and the senior leadership team for their strategic vision and our shareholders for their steadfast support. Last but not least, I express my deepest

appreciation to our employees, whose dedication and hard work fuel our progress.

With your continued support, I am confident that GPUIL will reach even greater heights in the years ahead. Together, we remain committed to building on a strong foundation and shaping a smarter future.

Stay safe and healthy,

Best regards,

G M Rao,
Chairman, GMR Group

Board's Report

Dear Shareholders,

The Board of Directors present the 6th Annual Report together with the audited financial statements of the Company for the financial year ("FY") ended March 31, 2025.

Your Company, GMR Power and Urban Infra Limited ("The Company" or "GPUIL"), is a leading global infrastructure conglomerate with interest in, Energy, Road, Smart Meter Infrastructure and Urban Infrastructure business sectors in India.

Over the past decade, India's Energy Sector has undergone a paradigm shift, with increasing focus on transition to non-fossil sources of energy. As of March 31, 2025, India's total installed power generation capacity stood at approximately 467 GW, reflecting a continued expansion to meet the nation's growing energy needs. Conventional sources, primarily coal-based thermal power, accounted for around 250 GW (54% of total capacity), while non-fossil energy sources reached a cumulative capacity of approximately 217 GW (46%). The sector is also benefiting from policy focus on grid modernisation, and energy security, while balancing the imperative of reliable and affordable electricity to power India's economic ambitions.

GPUIL's energy business has commissioned capacity of around 2,840 MWs of Coal, Gas and renewable power plants in India and around 1,775 MWs of power projects under development. The energy portfolio has a healthy and diversified sale strategy with a mix of merchant and long-term Power Purchase Agreements ("PPAs").

Under the company's Energy 2.0 strategy, last year the Company entered the smart meter sector after winning the project to install 75.69 lakh smart meters in various districts of Uttar Pradesh. The project is progressing well.

GPUIL's EPC business has finished construction of all sections under the prestigious Eastern Dedicated Freight Corridor project awarded by Dedicated Freight Corridor Corporation of India ("DFCC"). The sections are fully operational and have moved over 200 GMT of goods.

After amicable settlement of Hyderabad-Vijayawada highway project and subsequent handover to NHAI, the transportation division of the Group now has three operating highway assets spanning around 888 lane kilometers.

GPUIL also continued its land monetisation initiatives at the GMR Krishnagiri Special Investment Region (GKSIR), monetising ~407 acres of land during the year. Going forward, the Company plans to develop select land at GKSIR by creating infrastructure facilities suitable for prospective clients for setting up their industrial units.

The Group continues to actively take up various initiatives on ESG front as well.

Performance highlights – FY 2024-25

Performance Highlights of your Company on consolidated basis for the FY 2024-25:

- The USD 275 Mn 7.5% Subordinated Foreign Currency Convertible Bonds (FCCBs) due 2075, issued by GPUIL to Kuwait Investment Authority (KIA) have been transferred by

KIA to two eligible lenders i.e., Synergy Industrials, Metals and Power Holdings Limited ("Synergy") (USD 154 Mn) and to GRAM Limited ("GRAM") (USD 121 Mn). Thereafter, on July 10, 2024, the 7.5% USD 275 Mn FCCBs due in 2075 have been converted into 11,12,41,666 number of equity shares of ₹ 5/- each, proportionately to the above mentioned two FCCB holders, as per the agreed terms and basis receipt of a conversion notice from the said FCCB holders. As the FCCB Holders are equity investors, and as part of the overall commercial discussions and agreement between the parties, the outstanding interest on the FCCBs was waived off.

Post the above conversion on July 10, 2024, Synergy held 8.71% of the equity share capital of the Company and GRAM held 6.85% of the equity share capital of the Company.

- GMR Hyderabad Vijayawada Expressways Private Limited ("GHVEPL") had executed a Concession Agreement ("Agreement") in October 2009 with National Highway Authority of India ("NHAI"), to construct, operate and maintain a two-lane 181.50 km national highway stretch between Hyderabad and Vijayawada on the NH-65. In view of significant loss of revenue on account of bifurcation of the stretch between two states i.e. Telangana and Andhra Pradesh, post the date of commissioning of the project, GHVEPL had raised certain claims in terms of the Agreement, against NHAI, seeking compensation against such losses, arising due to change in law.

While the matter was sub-judice, both the parties have decided to amicably settle all the disputes without further intervention of court / tribunal. In this regard, a settlement was agreed between both the parties as per which NHAI paid an amount of ₹ 1,387.21 crore to GHVEPL as claim in two tranches and project was handed back to NHAI on July 01, 2024 (Handover Date).

The entire settlement claim has been received by GHVEPL which has been utilized towards total closure of loans with its consortium of lenders and for further reduction of GPUIL corporate debts and investments in growth of other businesses of GPUIL.

- On March 28, 2025, the consortium of lenders of GMR Rajahmundry Energy Limited ("GREL"), an associate of the Company, unanimously approved to accept the One-time Settlement ("OTS") amount of ₹ 657.00 crore towards the full and final settlement of all exposures, including Term Loan, Non-Convertible Debentures ("NCDs"), Compulsorily Redeemable Preference Shares ("CRPS"), Interest Payable and for release of the Corporate Guarantees issued by the Group and transfer of CRPS and Equity Shares of GREL held by consortium of lenders. GREL has accepted the proposal and paid the first instalment of ₹ 165.70 crore towards the OTS on March 29, 2025. Subsequent to the year end, GREL has paid the entire balance OTS amount of ₹ 491.30 crore and successfully concluded the OTS including transfer of shares, satisfaction of charges, release of all securities/ Corporate Guarantees issued to the lenders.

- On April 13, 2025, the Company, GMR Energy Limited ("GEL"), GMR Rajam Solar Power Private Limited ("GRSPPL"), GMR Corporate Services Limited ("GASL") and GMR Generation Assets Limited ("GGAL"), ('subsidiaries of the Company') had signed a framework agreement with Synergy Investments Holding Limited ("Synergy") for the divestment of their respective stakes in:

- GMR Bajoli Holi Hydropower Private Limited ("GBHHPL"), engaged in operation of 180 MW hydro-electric power project,
- GMR Vemagiri Power Generation Limited ("GVPGL"), engaged in operation of 388 MW natural gas-based combined cycle power plant, and
- GMR Rajahmundry Energy Limited ("GREL"), engaged in operation of 768 MW natural gasbased combined cycle power plant.

Pursuant to the Framework Agreement;

- GEL was to transfer:
 - 79.86% of equity stake in GBHHPL in two stages along with 100% convertible debentures ("CCD") of GBHHPL held by the Group Companies ;
 - 51% of equity stake in GVPGL to Synergy
- GGAL was to transfer 51% of GREL's equity stake to Synergy following the release of shares pledge and corporate guarantee from the lenders.

The combined value for the transfer of securities for all three entities under the Framework Agreement was ₹ 653.00 crore, subject to adjustments based on net working capital and other factors at closing.

The transaction, for all three entities upon meeting necessary conditions and receiving requisite approvals, is anticipated to be completed by September 30, 2025, or a later date mutually agreed upon by the parties involved.

In accordance with the aforesaid agreement, transfer of 70% of equity stake and 100% of CCDs of GBHHPL, 51% of equity stake in Vemagiri and 51% of equity stake in GREL were concluded. GPUIL and its relevant subsidiaries have thus far received a total consideration of ₹ 664 crore. towards the said transfers.

- The Company along with Shree Naman Developers Private Limited have incorporated a new Company in the name of Portus Ventures Private Limited with the main objective of carrying out the design, operation and maintenance of the superstructures on the land parcels at the airport site of Mumbai International Airport with an authorised capital of ₹ 1,00,000/- divided into 10,000 equity shares of ₹ 10/- each.

The Company has subscribed for 2600 equity shares at face value of ₹ 10/- each constituting 26% of the total paid up capital of the JV Company for an aggregate cash consideration of ₹ 26,000/-.

- GMR Smart Electricity Distribution Private Limited (Formerly GMR Mining & Energy Private Limited ("GSEDPL")), a subsidiary of the Company had received Letter of Intent ('LOI') from Purvanchal Vidyut Vitran

Nigam Limited and Dakshinanchal Vidyut Vitran Nigam Limited, to implement smart metering project in the Purvanchal (Varanasi, Azamgarh zone and Prayagraj, Mirzapur zone) and Dakshinanchal (Agra and Aligarh zone) area of Uttar Pradesh. GSEDPL will install, integrate and maintain 75.69 lakh smart meters in the given area. GSEDPL had formed three separate SPVs ("Project SPVs") for implementation and operations of the project, which is expected to span over a period of 10 years. This Advanced Metering Infrastructure ("AMI") Project shall include Supply, Installation, Integration, Commissioning and Operation & Maintenance of smart meters on DBFOOT basis backed by state-of-the-art technology and software solutions for end-to-end automated system management. The project is being executed under Revamped Distribution Sector Scheme (RDSS). The focus is on creating value in the Adjacent Business areas, working on implementation of AMI Project. The Company has started the installation of Smart meters as per the scheduled plan. The Company has installed smart meters at consumer premises, meeting all performance obligations outlined in the contract. Since the meters are operational and all performance obligations are met, the Project SPVs have recorded the revenue in accordance with Ind AS 115.

- In the Krishnagiri Special Investment Region, 30 acres of land is under discussion for sale to an agency of Tamil Nadu Government and 100 acres to Tata group company. Next phase of development is being planned for 55 acres. Further, discussion with various other parties for the sale of lands is underway.
- Power demand and improved coal supply have resulted in mixed operating performance in the Energy business. Warora Power Project achieved PLF of 85% in FY 2024-25 as against 83% in FY 2023-24 and Kamalanga Power Project achieved PLF of 86% in FY 2024-25 as against 82% in FY 2023-24.
- The Group has received certain favourable orders on various ongoing matters in energy, highway and DFCC for compensation for change in Law and late payment which involve significant value of claims.

Strategy and way forward – Maximising value of existing assets and building a top tier tech enabled Clean Energy business. Below are 3 Pillars of Company's strategy going forward:

- Enhance Value of existing businesses - aim for higher utilization of existing assets and efficiency improvement measures, tie-up open capacities through innovative PPA models including RTC., operationalize gas assets.
- Create Value in Adjacent Areas- Technology oriented Asset Light opportunities, scale power trading business, differentiated service offerings using new-age technology solutions.
- Nurture and develop opportunities in green ecosystem - Continued focus on hydro, clean energy solution for commercial and industrial segment, opportunities in distributed segments like electric mobility & storage solutions, forge technology & strategic partnerships and access green financing.

The total income for FY 2024-25 is ₹ 6,857.82 crore as against ₹ 4,833.20 crore for the FY 2023-24, registering an increase of 41.89%, primarily due to increase in revenue from electrical energy in energy sector, recognizing smart meter revenue for the first time in current financial year, higher annuity income, increase in management and consultancy income offset by decrease in revenue from coal trading, toll income in road sector mainly on account of amicable settlement between GHVEPL and NHAI and EPC construction revenue.

The revenue from the power sector has increased by 67.85% from ₹ 3,176.05 crore in FY 2023-24 to ₹ 5,330.85 crore in FY 2024-25 primarily due to consolidation of revenue for full year for major operating energy entities like GWEL, GKEL and GMR Gujarat Solar Power Private Limited ("GGSPPL") in FY 2024-25. However, revenue of these entities was consolidated only for four months approximately in FY 2023-24 as these were assessed as subsidiaries of the group on acquisition of additional stake in GEL with effect from November 22, 2023. The increased revenue has been set off by decrease in coal trading revenue during the current year.

The revenue from smart meter infrastructure has been accounted for the first time in current FY amounting to ₹ 320.54 crore as Smart meter SPVs have started installing the meters at consumer premises meeting all performance obligations outlined in the contract. Accordingly, revenue is recorded in accordance with Ind AS 115 since smart meters are operational and all performance obligations are met.

The revenue from road segment has decreased by 44.69 % from ₹ 717.26 crore in FY 2023-24 to ₹ 396.69 crore in FY 2024-25 mainly on account of handover of project pursuant to amicable settlement between GHVEPL and NHAI.

EPC revenue decreased by 44.04% from ₹ 340.88 crore in FY 2023-24 to ₹ 190.75 crore in FY 2024-25 as DFCC project is completed and track is handed over to DFCCIL for

operations. However, certain ancillary works are pending completion, which company is in process of completion.

Income from other sectors include management services income, investment income and operating income of aviation business. During FY 2024-25 Income from other sectors decreased from ₹ 586.26 crore in FY 2023-24 to ₹ 315.23 crore in FY 2024-25.

Decrease in purchase of traded goods in the FY 2024-25 is corresponding to decrease in revenue in coal trading.

Increase in cost of materials consumed in the FY 2024-25 is corresponding to recognizing smart meter revenue for the first time in current financial year.

The increase in other operating and administrative expenses is mainly due to consumption of fuel, rates and taxes, legal and professional fees, rent expense, travelling and conveyance expenses and other miscellaneous expenses on account of consolidation of GEL and its subsidiaries for full year in the FY 2024-25, whereas these were consolidated only for four months approximately in FY 2023-24.

There is an increase in finance cost and depreciation and amortization expenses on account of consolidation of GEL and its subsidiaries for full year in the FY 2024-25, whereas these were consolidated only for four months approximately in FY 2023-24.

b) Standalone Financial Results

The following table sets forth information with respect to the standalone statement of profit and loss of the Company for FY 2024-25:

During the year ended March 31, 2025, the revenue from EPC segment has decreased by 42.62% from ₹ 329.71 crore in FY 2023-24 to ₹ 189.18 crore in FY 2024-25, which was mainly due to the ongoing DFCC (Railways) project as DFCC project is completed and track is handed over to DFCCIL for operations. However, certain ancillary works are pending completion, which company is in process of completion. Other operating income mainly includes interest income on inter-corporate loans given to group companies and income from management and other services.

There is a decrease in operating and administrative cost in line with decrease in EPC revenue mainly due to ongoing DFCC (Railways) project as DFCC project is completed and track is handed over to DFCCIL for operations. However, certain ancillary works are pending completion, which company is in process of completion.

Exceptional items comprise of the reversal/ (creation) of provision for impairment in carrying value of investments, assets classified as held for sale and loans/ advances/ other receivables carried at amortised cost and write back/ waiver/ creation of liability.

There are no material changes or commitments, except those already disclosed in this report affecting the financial position of the Company which have occurred between the end of the financial year 2024-25 and the date of this report.

Management Discussion and Analysis Report (MDA)

In terms of the provisions of Regulation 34 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR"), the Management Discussion and Analysis Report is set out in this Annual Report.

State of Affairs of the Company and its Subsidiaries

A brief overview of the developments of each of the major subsidiaries' business is presented below. Further, MDA, forming part of this Report, also brings out a review of the business operations of major Subsidiaries, Joint Ventures, Associates and jointly controlled entities.

Energy Sector

As of March 31, 2025, India's total installed power generation capacity stood at approximately 467 GW, reflecting a continued expansion to meet the nation's growing energy needs. Conventional sources, primarily coal-based thermal power, accounted for around 250 GW (54% of total capacity), while renewable energy sources reached a cumulative capacity of approximately 170 GW (36%). The remaining ~47 GW was contributed by nuclear and large hydro installations. Despite the growing share of renewable energy in installed capacity, conventional sources continued to dominate electricity generation, contributing nearly 74% of the total electricity generated during FY 2024-25.

Key developments and metrics for the Indian power sector in FY 2024-25 include the following:

- Electricity generation increased to an estimated 1,810 Billion Units (BU), marking a 4% growth over 1,738 BU in FY 2023-24, driven primarily by rising industrial and residential demand.
- Peak power demand reached an all-time high of 250 GW in May 2024, up from 243 GW in FY 2023-24, reflecting sustained economic growth and urbanisation.
- Thermal generation rose marginally to 1,345 BU, up 1.4% YoY, supported by stable coal supply and higher Plant Load Factors ("PLFs") across key power plants.
- Renewable energy generation increased by approximately 12% YoY, reaching 253 BU, supported by strong solar and wind additions and favourable policy support.
- Renewable capacity additions saw a robust increase, with an estimated 26 GW addition during the year, the highest ever annual RE capacity addition, taking cumulative RE capacity to 170 GW by March 2025.
- Coal production by Coal India Limited ("CIL") reached a record high of over 1,050 million tonnes, marking a 5% growth YoY, enabling improved fuel availability for thermal generators.
- The sector continues to evolve rapidly with policy focus on energy transition, grid modernisation, and energy security, while balancing the imperative of reliable and affordable electricity to power India's economic ambitions.

GMR Energy Sector companies had an operating capacity of around 2,840 MWs of Coal, and Renewable power plants in India and around 1,775 MWs of power projects under various stages of development, besides a pipeline of other projects in FY 2024-25. The Energy Sector has a diversified portfolio of thermal and renewable projects with a mix of merchant and long-term Power Purchase Agreements ("PPAs").

The focus over the last year has been on improving profitability, achieving operational excellence, and monetisation of idling assets.

On the regulatory front, we were able to continue to get positive results for our efforts on regulatory orders in the Appellate Tribunal for Electricity ("APTEL") and Central Electricity Regulatory Commission ("CERC"). Our focus continued to be on the recovery of regulatory receivables during FY 2024-25, and we have succeeded in adding significant cash flow from regulatory receivables.

Given the above background, the energy assets have also performed well. Following are the major highlights of the Energy Sector assets:

A. Operational Assets:

I. Generation:

1. **GMR Warora Energy Limited (GWEL) – 600 MW:**

- GWEL, a subsidiary of GMR Energy Limited ("GEL"), operates a 600 MW (2x300) coal-fired power plant at Warora, Maharashtra.
- Currently, 83% of power off-take capacity is tied up under long/medium term PPA with Maharashtra through Maharashtra State Electricity Distribution Company Limited ("MSEDCL"), Tamil Nadu through Tamil Nadu Generation and Distribution Corporation ("TANGEDCO") and Haryana Power Purchase Centre ("HPPC").
- GWEL met with 91% compliance for MSEDCL PPA, 91% for TANGEDCO PPA and 91% for HPPC PPA.
- Balance ~50 MW untied capacity is sold in the open market through power exchanges.
- During the year, the Plant has achieved availability of 93% and Plant Load Factor ("PLF") of 84.7% (Deemed PLF – 88.7%), the highest ever since the commissioning of the plant.
- Ash utilisation of 103% was achieved by tying with nearby Cement Factories and NHAI for Fly Ash and various Brick Manufacturers for Bottom Ash.
- Plant achieved zero Loss Time Injury ("LTI") and fatality incidents.
- Plant was awarded many prestigious awards during the year, some of which are as below:
 - o National Award for excellence in Energy management from Confederation of Indian Industry (CII) for the seventh consecutive year, emerged as National Energy Leader. GWEL is one of only 3 National Energy Leaders.
 - o National Award for excellence in water management in the: beyond the fence category, organised by CII for its integrated approach in managing the Water Shed at Majra Kurd village.
- During the Year, the plant has received the following Certifications:
 - o "Utkrith" rating (99.1% score) in 5S assessment carried by the National Productivity Council.
 - o 1st IPP to receive Gold Rating in CII Blue rating system for Water Management.
 - o Certification under SA 8000 which reflects commitment to labour rights, while targeted investments in occupational health, inclusion, and mental well-being reinforce our employee-first culture.
 - o Business Excellence Internal Assessment: Emerging Industry Leader (582). First GMR Group company to secure this band on the very first attempt.
- During the year, the plant has carried out the following activities in ESG:
 - o Installed Biomass Pellet Machine, with a capacity of 100 Kg/hr for converting horticulture waste into biomass pellets.
 - o Education and Skilling: Smart classes and robotics sessions benefited 1,100+ students; Pratibha Library helped 20 youth secure government jobs; 163 youth trained in vocational courses.
 - o Health and Sanitation: Health Clinic/MMU treated 43,000+ people; 17 RO plants serve potable water to 3,200 households; 1,024 toilets constructed, making 8 villages ODF.
 - o Livelihoods and Community Development: 1,140 individuals who are supported in farm and non-farm income-generating activities; repair of check dams and ponds created 15,000 m³ water storage, irrigating 65 acres.
 - o Agri-Tech and Employee Engagement: Drone-based precision farming benefited 3,000+ farmers; 894 employees clocked 1,984 volunteer hours and donated 162 blood units.
 - o Recognition and Awards: GWEL CSR earned ISO 26000:2010 and 3 Anganwadi's received ISO 9001:2015 certifications.

2. **GMR Kamalanga Energy Limited (GKEL) – 1,050 MW:**

- GKEL, a subsidiary of GEL, operates a 1,050 MW (3x350) coal-fired power plant at Kamalanga village in Odisha.
- 90% of the capacity is tied up under long/medium-term PPAs with Haryana through PTC India Limited, Odisha through GRIDCO Limited, Bihar through Bihar State Power Holding Company Limited and Tamil Nadu through TANGEDCO.
- GKEL met 89.8% compliance for Haryana, 88.87% for GRIDCO PPAs, 89.79% for Bihar PPA and 89.7% for TANGEDCO PPA.

- During the year, the Plant has achieved availability of 90% and a PLF of 86.4%, the highest ever since the commissioning of the plant.
- 100% Ash Utilisation was achieved by tying up with NHAI, Cement Manufacturers and various brick manufacturers for Fly Ash.
- Plant achieved zero LTI and fatality incidents.
- Plant was awarded many prestigious awards and certifications during the year, some of them are as below:
 - o British Safety Council ("BSC") assessment score 93.27%. Five-Star rating for second consecutive time. Sword of Honour was awarded.
 - o Pradarshak rating (99.08%) in 5S assessment by National Productivity Council.
 - o Energy Efficiency Unit at CII National Energy Efficiency Conference.
 - o CII National Award for Excellence in Water Management at 10th Water Innovation Summit 2024.
 - o Secured 4.5/5 Star rating in Energy Conservation Award (ENCON) 2024.
 - o ISO 46001:2019 for sustainable water management.
 - o External assurance completed for GHG emissions and Zero Waste to Landfill (FY 2023-24).
- During the year, the plant has carried out the following activities in ESG:
 - o Education and Youth Development: Set up a Mini Science Centre with 80 scientific models. Provided scholarships to 17 girls and study materials, tablets, and ran computer/tailoring training programs for students and women.
 - o Healthcare and Nutrition: Supported 55 families with medical reimbursements; operated 4 nutrition centres benefitting 45 pregnant women, telemedicine services (584 beneficiaries), and a Mobile Medical Unit (MMUs) (9,826 treatments).
 - o Livelihood and Agriculture: Assisted over 200 beneficiaries through paddy, groundnut, potato cultivation, fish farming, mushroom farming, poultry, beekeeping, farming equipment, and registered a Farmers Producer Company.
 - o Employee Engagement and Social Impact: Executed 4 volunteering projects with staff participation and raised, ₹ 24.4 lakhs through Daan Utsav, benefitting 2,600+ people.

3. GMR Bajoli Holi Hydropower Private Limited (GBHHPL) - 180 MW:

- GBHHPL, a subsidiary of GEL (since divested as detailed above), located on the river Ravi in Chamba District, Himachal Pradesh, commissioned the 180 MW Bajoli Holi Hydro Electric Plant (HEP) on March 28, 2022.

- GBHHPL has a tie-up with DIAL and UPPCL for supply of its power. Any surplus power generation is available for sale on the merchant that is being availed based on market opportunity.
- During the year, the Plant achieved availability of 99.4% and PLF of 47%. There was no unplanned/forced shutdown.
- In a subsequent development, 79.86% equity stake in GBHHPL was agreed to be sold to Synergy Investments Holding Limited as per the framework agreement entered in April 2025 of which, 70% equity stake has been divested.

4. GMR Vemagiri Power Generation Limited (GVPGL) - 388 MW:

GVPGL, a wholly owned subsidiary of GEL (since divested as detailed above), operates a 388 MW natural gas-fired combined cycle power plant at Rajahmundry, Andhra Pradesh.

- GVPGL did not operate in the last financial year due to scarcity of gas.
- Efforts and discussions with the government and other stakeholders were on-going to arrive at possible options to operate the plant or monetise.
- In addition, a legal case is being pursued for allowing Deep Water Gas under the existing PPA.
- In subsequent development, the Company has entered into a framework agreement with Synergy Investments Holding Limited and accordingly transfer 51% stake in GVPGL has been concluded.

5. GMR Rajahmundry Energy Limited (GREL) - 768 MW:

GREL is a 768 MW (2 x 384 MW) combined cycle gas-based power project at Rajahmundry, Andhra Pradesh.

- Efforts and discussions with the government and other stakeholders were on-going to arrive at possible options to operate the plant or monetise.
- In subsequent development, the Company has entered into a framework agreement with Synergy Investments Holding Limited and accordingly transfer 51% stake in GREL has been concluded.
- Further, the Company has completed a one-time settlement for entire outstanding debt as per the proposal agreed with GREL's lenders.

6. GMR Gujarat Solar Power Limited (GGSPL), Charanka Village, Gujarat:

- GGSPL, a wholly owned subsidiary of GEL, operates a 25 MW Solar power plant at Charanka village, Patan district, Gujarat.
- GGSPL had entered into a 25-year PPA with Gujarat Urja Vikas Nigam Limited for the supply of entire power generation.
- GGSPL attained commercial operation on March 4, 2012.

- Plant achieved a gross PLF of 13.53 % for FY 2024-25.

7. **GMR Rajam Solar Power Private Limited (GRSPPL), Rajam:**

- GRSPPL, a wholly owned subsidiary of GEL, has been operating a 1 MW Solar power plant in Rajam, Andhra Pradesh, since January 2016.
- The Company had signed a 25-year PPA with both GMR Institute of Technology (700KW) and GMR Varalakshmi Care Hospital (300KW) for the sale of power generated.
- For 2024-25, the Plant achieved a gross PLF of 13.32%.

B. Projects:

1. **UP – Advanced Metering Infrastructure Service Provider (AMISP):**

- GPUIL through its subsidiary GMR Smart Electricity Distribution Private Limited ("GSEDPL") has secured orders for Smart Meter projects development from UP DISCOMs.
- GSEDPL has to install, integrate and maintain 75.69 lakh smart meters in Purvanchal (Varanasi, Azamgarh zone and Prayagraj, Mirzapur zone) and Dakshinanchal (Agra and Aligarh zone) area of UP.
- The number of smart meters is likely to increase during execution, which will result in increased revenue and returns.
- Post receiving the order, GSEDPL has made substantial progress on ground and started smart meter installation backed up with technology infrastructure. More than 7 Lakhs smart meters have been installed during FY 2024-25.
- On the CSR front, launched three Mobile Medical Units at GMR's Smart Meter Projects in Varanasi, Agra, and Prayagraj; two were deployed at Maha Kumbh, providing free treatment and medicines to ~10,000 people.

2. **GKEL – Unit#4**

- GKEL, at Kamalanga Village, Odisha, is planning to add one more unit of a coal-fired power plant of 350 MW capacity.
- For this additional unit, the foundations of most of the equipment/packages, including Boiler, turbine and generator, were constructed during phase 1.
- Also, majority of the common facilities like the coal handling system etc. were already installed during Phase 1.
- Efforts are focused on securing PPA for the 4th unit and finalising orders for BTG and BoP packages.

3. **GMR Upper Karnali Hydro Power Public Limited (GUKHPL) – 900 MW:**

- GUKHPL, a subsidiary of GEL through its subsidiary GMR Lion Energy Limited ("GLEL"), is developing

900 MW Upper Karnali Hydroelectric Project located on river Karnali in Nepal.

- Post execution of Project Development Agreement ("PDA"), several key activities have been completed. Technical design of the project has been finalised post due diligence by Independent IFC/ World Bank empaneled and member Panel of Experts.
- Detailed Project Report is also being vetted by Central Electricity Authority of India ("CEA") and Techno-Economic Clearance ("TEC") is expected in the second quarter of FY 2026.
- Subsequent to the date of financial statements, the Company/GEL as per the approval granted by applicable authorities/Ministry of Govt. of India, entered a Memorandum of Agreement (MoA) with Satluj Jal Vidyut Nigam Limited ("SJVNL") and Indian Renewable Energy Development Agency Limited ("IREDA") for the implementation of Upper Karnali Hydroelectric Project and its associated Transmission Line Project in Nepal.
- The aforesaid partnership between SJVNL, GMR Group and IREDA shall have a shareholding ratio of 34:34:5 (SJVNL: GMR: IREDA) while Nepal Electricity Authority ("NEA") will retain 27% stake in this Special Purpose Vehicle in Nepal.
- Company is actively following up with States like Haryana, Odisha, Chhattishgarh, Himachal Pradesh and Uttar Pradesh for long term power supply arrangement.

4. **GMR (Badrinath) Hydro Power Generation Private Limited (GBHPL) - Badrinath - 300 MW:**

- Alaknanda Power Project is a 300 MW run-of-the-river power facility to be constructed on the Alaknanda River in the Chamoli district of the State of Uttarakhand.
- The Project has also achieved registration with UNFCCC as a Clean Development Mechanism ("CDM") Project.
- Possession of the entire land required for project development (including forest land and private land) has been completed.
- The power project had received, required statutory permits and clearances and was in state of readiness for the start of construction when the Hon'ble Supreme Court issued a stay order for all such projects in the State with similar status.
- The financial closure process has been held up due to the stay order of Hon'ble Supreme Court on 24 Hydro Electric Projects in Uttarakhand and the same is effective till date.
- Considering 11 years' delay in implementation of the project due to extraneous reasons, the Company has filed an application praying for directions for the reimbursement towards the costs incurred by the Company in connection with the

project from Ministry of Power (MoP)/Ministry of Jal Shakti (MoJS)/ Ministry of Environment & Forest (MoEF), Government of India (GoI) / Government of Uttarakhand (GoUK). The last hearing in this regard was held on November 13, 2024 and the date for the next hearing is yet to be listed.

5. GMR Londa Hydropower Private Limited (GLHPL)- 225 MW:

- Talong Londa HEP is a 225 MW Hydropower project in East Kameng district in Arunachal Pradesh.
- Project has received Techno-Economic concurrence from CEA.
- Project has received Defence clearance and in-principle Environmental clearance.
- Forest land diversion proposal has been submitted and is under process in MoEF&CC.
- The Company is continuously engaged with the Government of Arunachal Pradesh for further development.
- Recently, the Company has executed an MoU with the Government of Assam for formation of JV in the project including power offtake arrangement for State captive power.

Transportation and EPC sector

GPUIL's transportation business consists of the Highway segment, which is engaged in the development of Highways on a BOT / Annuity basis. As on date, the transportation business holds a portfolio consisting of three operational roads located in Telangana, Haryana-Punjab and Tamil Nadu.

Highways:

Company's highways portfolio consists of two BOT (Annuity) and one BOT (Toll) projects with a total operating length of 888 lane kilometers.

In Ambala Chandigarh Project (GACEPL), toll revenue for FY 2024-25 improved significantly amid farmer strike at Shambhu toll plaza due to diversion of traffic to project highway. However, upon reopening of Shambhu toll plaza in March'2025, traffic on the project highway is normalised.

During FY 2024-25, all the ongoing litigations with NHAI for Hyderabad Vijayawada Project ("GHVEPL") were resolved amicably. As part of settlement agreement signed with NHAI, GHVEPL received settlement consideration of 1,387.21 crore from NHAI and the project was handed over to NHAI with effect from July 1, 2024.

Further, during the year, GMR Pochanpalli Expressways Limited ("GPEL") carried out major maintenance for 111 Lane Km stretch of Adloor Yellareddy - Gundla Pochanpalli using Hot In-Place Recycling (HIPR) Technology. This will improve the riding quality of the surface and will provide users a safe and high-quality ride.

At all GMR highways projects, High-Pressure Sodium Vapour ("HPSV") streetlights have also been converted to LED lights

without incurring any capital expenditure for achieving energy saving.

EPC:

Group was awarded EPC contracts by Dedicated Freight Corridor Corporation of India Limited ("DFCCIL") to construct two packages on the Eastern Dedicated Freight Corridors ("EDFC") between New Bhaupur to New Deen Dayal Upadhyay (DDU) junction (Packages - 201 and 202) worth about 5,081 crore in the State of Uttar Pradesh. These projects for a total length of about 422 km for a total value of about 6,600 crore have been commissioned. As on date, over 200 Gross Million Tonnes (GMT) have moved on this EDFC track.

The aforesaid project is an engineering marvel and a game changer in the logistics sector. It provides seamless connectivity of the major coal belts of Eastern Coalfields Limited ("ECL"), Central Coalfields Limited ("CCL"), Bharat Coking Coal Limited ("BCCL") and Northern Coalfields Limited ("NCL") of Jharkhand and West Bengal to Power Houses of Northern India.

Subsequently, two more packages of DFC from Ludhiana-Khurja-Dadri (Packages - 301 and 302) were awarded in the state of Haryana, Uttar Pradesh and Punjab. The Company has successfully commissioned these projects.

Urban Infrastructure:

Company's Urban Infrastructure business is engaged in holding and developing land in India as Special Investment Regions (SIR), which are special economic interest areas. GPUIL is currently holding land parcel in the Krishnagiri district in the State of Tamil Nadu in a subsidiary company GMR Krishnagiri SIR Limited ("GKSIR"). Additionally, GPUIL, through other subsidiaries possesses large land parcels in the Krishnagiri district. GPUIL has undertaken the development of SIR in a phased manner.

GMR Krishnagiri Special Investment Region (GKSIR)

The Group through GKSIR & other subsidiaries had around 990 acres of land in Krishnagiri district of Tamil Nadu for developing industrial infrastructure at the beginning of FY 2024-25. During FY 2024-25, the Group has sold around 407 acres, including around 286 acres to Tamil Nadu State Government agency i.e. State Industries Promotion Corporation of Tamil Nadu ("SIPCOT").

f. Share Transfer System:

In terms of Regulation 40 of SEBI LODR, as amended, no transfer of shares in physical mode is permitted. Transfer of shares is permitted only in dematerialised form. The dematerialised shares are directly transferred by the depositories to the beneficiaries without involvement of the Company.

A summary of the de-materialisation request / re-materialisation requests is placed every quarter, before the meeting of the Stakeholders' Relationship Committee.

The Company has a Board-level Stakeholders' Relationship Committee to oversee and provide

guidance towards redressal of investors' complaints. The status on complaints and request for demat/remat of shares is placed before the Committee. Securities of listed companies can be transferred only in dematerialised form effective April 1, 2019. Further, SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022, has mandated all listed companies to issue securities in dematerialised form only, while processing the service request of issue of duplicate securities certificate, claim from Unclaimed Suspense Account, renewal/exchange of securities certificate, endorsement, sub-division/splitting of securities certificate, consolidation of securities certificates/ folios, transmission and transposition.

In view of the same and to eliminate all risks associated with physical shares and avail various benefits of dematerialisation, Members are advised to dematerialise the shares held by them in physical form. Members can contact the Company or RTA, for assistance in this regard.

Also, share transactions in electronic form can be effected in a much simpler and faster manner. After a confirmation of a sale/purchase transaction from the broker, shareholders should approach the Depository Participant ('DP') with a request to debit or credit the account for the transaction. The DP will immediately arrange to complete the transaction by updating the account.

Shareholders should communicate with Company's RTA i.e. KFin Technologies Limited quoting their folio number or Depository Participant ID ('DP ID') and Client ID number, for any queries related to their securities. Shareholders are advised to refer the latest SEBI guidelines/ circular(s) issued for all the security holders of listed companies in physical form from time to time and keep their KYC details updated at all times, to avoid freezing their folio as prescribed by SEBI. Further, the Company's RTA has implemented various investor initiatives, available on their website, as part of their endeavor to enhance investor servicing. The Shareholders may avail the facility as per the requirements.

Management Discussion & Analysis

Forward-looking Statements

This document contains certain forward-looking statements based on the currently held beliefs and assumptions of the management of **GMR Power and Urban Infra Limited ("GPUIL")**, which are expressed in good faith, and in its opinion and judgment, are fairly reasonable. For this purpose, forward-looking statements mean statements, remarks or forecasts that address activities, events, conditions or developments that the Company expects or anticipates which may occur in the future. Because of the inherent risks and uncertainties in the social and economic scenarios, the actual events, results or performance can differ materially and substantially from those indicated by these statements. GPUIL disclaims any obligation to update these forward-looking statements to reflect future events or developments.

Introduction

FY 2024-25 was a very important year for GPUIL. The Company focused on rationalisation and management of corporate debt and addressing stressed assets while building a platform for growth for the future. During the year, significant steps were taken to reduce debt through monetisation of stressed assets. At the same time, the Company laid groundwork to expand operations in selected areas under our Energy 2.0 strategy. The impact of these new revenue streams from new business areas will become visible in medium term.

In regard to global economic outlook, during the past year inflation has moderated, which gave central banks across the world confidence to cut interest rates, which has in turn given boost to global growth outlook. However, the new US administration has taken up the target to reduce US trade deficit by implementing higher tariffs on imports from various countries. These steps may result in re-organisation of global supply chains, which may result in short to medium term supply chain disruptions resulting in higher inflation.

As a consequence, Governments have prioritised economic security and diversified supply chains, leading to increased protectionist measures and select trade deals. Climate Change and Energy Security issues remained high on the global agenda, with nations competing for dominance in green energy technologies and critical mineral resources. The increasing reliance on digital infrastructure has made cybersecurity a critical geopolitical concern, with potential for state-sponsored attacks and disruptions.

In summary, the past year witnessed a turbulent geopolitical landscape marked by ongoing conflicts and escalating tensions, alongside a significant realignment of global power dynamics driven by super-power competition, economic nationalism, and rapid technological advancements. This complex environment poses both challenges and opportunities for global cooperation and stability in the coming years.

Overall, the geo-political situation remains uncertain, as various flashpoints are present which may flare up intermittently. Macro-

economic outlook also remains uncertain as global repercussions of US tariff policy are still unfolding. Amid these uncertainties, India has been performing relatively well with stable inflation, good GDP growth numbers and increasing financial discipline. In fact, during the year India surpassed Japan to become the 4th largest economy in the world.

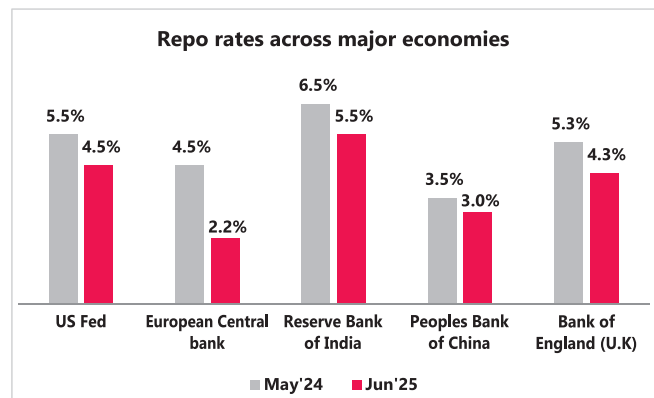

Economic overview

Global economic scenario

The Year 2023 was a challenging year for global growth. Growth was impacted by high inflation, high interest rates across most countries and regional conflicts. Still, there were some bright pockets of growth, due to which global growth remained resilient and grew by ~3.3% during 2023.

As we entered 2024, things looked up with inflation levels normalising across major economies. This gave central banks the confidence to cut interest rates to support growth. As a result, global economy grew at ~3.3% during the year, in spite of various geo-political and trade related tensions. Average inflation levels came down to 5.8% from 6.8% in 2023.

US economy in 2024, was supported by exceptional domestic demand and initial rate cuts by Federal bank. USA recorded a GDP growth of 2.8% in 2024, up from 2.5% in 2023. However, as we enter 2025, consumer spending seems to be on a decline and Federal bank has put a pause on rate cuts. The new US tariff policy is expected to adversely impact inflation levels. As a result, growth outlook for 2025 remains uncertain. IMF projects US growth rate to fall to ~1.8% during 2025.

In the Euro area, domestic demand exhibited tepid growth as the economies digested the impact of energy prices due to Russia – Ukraine conflict and ECB supported growth by slashing interest rates from a high of 4.5% in May 2024 to 2.4% in May 2025. As a result, Euro area GDP grew at 0.9% in 2024 as compared to 0.4% in 2023. IMF projects GDP growth rate for 2025 at ~0.8%.

China continues to face weakness in real estate sector and depressed domestic demand resulting from a weakened consumer confidence. In addition, rising trade tensions with US have also adversely affected Chinese economy. In 2024, China's GDP grew by 5%, down from 5.2% in 2023. As per IMF forecast, Chinese economy growth rate expected to further slow down to 4.0% in 2025.

Way forward

Since early 2025, the economic landscape has changed dramatically as governments around the world reoriented policy priorities. A series of new tariff measures by the United States and countermeasures by its trading partners have been announced and implemented, potentially being a major negative shock to growth. The unpredictability with which these measures have been unfolding also has a negative impact on economic activity and the outlook. The swift escalation of trade tensions and extremely high levels of policy uncertainty are expected to have a significant impact on global economic activity.

The above situation is aggravated by the various geo-political tensions. According to the latest IMF World Economic Outlook, the global growth is estimated at 3.3% for 2024 and is expected to significantly decelerate to 2.8% in 2025. On the positive side, headline inflation is expected to decrease further. Global average inflation decreased from 6.8% in 2023 to 5.8% in 2024 and is expected to further reduce to 4.5% by end of 2025.

Recent history has taught us that despite various challenges, global economy tends to perform better than expected. This is mainly because more countries are responding to these challenges with agility and pragmatism. We live in an increasingly multi-polar world characterised by economic nationalism, where countries will change military and economic alliances, when the situation calls for such a change. Even amid many geopolitical fractures, new alliances and partnerships are emerging. Trading partners may change, but global trade should continue to grow. Even regional tensions and temporary flare-ups have failed to make a major dent in global growth forecast.

Going forward, we expect energy prices to remain low, as OPEC nations and US ramp up production. Low energy prices along with further decreasing inflation should provide some room for Central banks to reduce interest rate further. This should act as a major impetus for global growth.

Indian economic scenario

While global economic and geo-political uncertainties have threatened to de-rail global growth, India has remained a positive factor contributing to global growth outlook.

India continues to be the fastest growing major economy in the world. During the year, India overtook Japan to become the fourth largest economy in the world. With its economic growth

trajectory, India is expected to become third largest economy by 2030. According to RBI, India's GDP growth in 2024-25 was recorded at 6.5% and a similar level of growth is expected for 2025-26, maintaining its position as a major driver of global GDP growth. Such growth has been made possible by strong domestic demand, substantial infrastructure development initiatives, rural consumption coming back and effective government policy measures.

At the start of FY 2025-26, CPI inflation eased to a 6-year low in April 2025 at 3.16% and WPI reached a 13-month low at 0.85% in April 2025 as prices of crude oil fell and food inflation tapered off. This gave RBI confidence to cut repo rate to accelerate GDP growth. RBI has reduced repo rates from 6.5% to 5.5% during the past 12 months. In addition, to shore-up liquidity position, RBI has committed to reduce CRR (cash reserve ratio) by 100 basis points bringing it down to 3% in four tranches starting September 2025. By cutting both the repo and CRR in tandem, the central bank has sent a strong signal that it is ready to inject liquidity and revive demand aggressively, while keeping a close eye on inflation numbers.

While the economic growth has remained stable, Indian rupee has been lately experiencing some pressure due to US tariff risks and wild swings in crude oil prices. Indian Rupee depreciated by ~2.4% against USD during FY 2024-25 after falling by 1.5% in FY 2023-24. Indian currency depreciated significantly against EURO by ~3.2% in FY 2024-25 vs ~1.3% in FY 2023-24. Subsequently, Rupee has depreciated further vis-à-vis Euro by ~8.5% reaching a conversion rate of 1 EURO = ~100. However, risk of further depreciation is mitigated to some extent due to India's rising forex reserves. By June 2025, India's forex reserves crossed USD 700 Bn, up from ~USD 620Bn in April 2024. This does give RBI some manoeuvring space to protect against any drastic depreciation in Rupee.

With stable GDP growth driven by increased economic activity, India's GST collections have continued to rise. GST collection in FY 2024-25 stood at 22 Tn, up 9.4% year on year. April 2025 saw the highest-ever GST collection at 2.36 Tn. Other economic indicators have also performed well. India's index of industrial production continues to exhibit good month on month growth rates. Both India services and manufacturing PMI have also been inching upwards during the year. Such indicators give confidence that economic activity in India will continue to expand.

Indian government has also made a visible effort to rein in fiscal deficit, which had significantly increased during the pandemic, as government tried to support the impacted population and economy through social and other infrastructure spending.

On the geo-political front, situation heated up as India responded to a terrorist attack in Jammu and Kashmir in April 2025, leading to a 4-day confrontation with Pakistan in May 2025. The conflict escalated quickly, but eventually a cease-fire was reached. While the conflict cemented India's military prowess and no-tolerance policy towards terrorism, it has resulted in closure of Pakistan airspace for Indian commercial aircrafts.

Amid other geo-political conflicts and increasing political fragmentation, India has followed its philosophy of 'Vasudhaiva Kutumbakam' (The world is one family) to navigate through geopolitical pressures and obligations with sufficient success while maintaining strategic autonomy.

Way forward

In the Union Budget for 2025-26, the Indian government has lowered its fiscal deficit target to 4.4% of GDP for FY 2026. This reduction is supported by increasing GST collections, significant surplus transfer from the central bank to government as dividends and robust economic performance. A reduced fiscal deficit is anticipated to boost foreign investor confidence and enhance India's chances for a sovereign rating upgrade.

India has emerged as the fourth largest major economy in world. This has been enabled by accelerated pace of economic reforms over the last few years in the domains of fiscal, digital and physical infrastructure. Initiatives like Unified Payments Interface (UPI), creation of National Investment and Infrastructure fund (NIIF), National Single Window System (NSWS), MSME trade enablement and marketing, Production Linked Incentive (PLI) and many more are improving ease and cost of doing business, and positioning India for higher and sustainable growth. In addition, India's vibrant start-up ecosystem with more than 161,000 DPIIT recognised start-ups and 100+ unicorns are spearheading innovation and fostering opportunities across sectors and becoming catalysts for India's economic growth.

On the global front, India is improving its competitiveness by establishing bilateral ties with partnering nations. In this direction, India and the UK finalised a landmark free trade agreement (FTA) which will build strategic partnership between both nations and catalyse trade and investments in both economies. Currently bilateral trade between both the nations is about USD 60 Bn, which is projected to double by 2030. India's trade deal with USA is also expected during FY 2026. Additionally, India is also in conversation with major partners like EU, and ASEAN countries and exploring new agreements with Africa, Latin America, and Middle East as well, aimed at strengthening bilateral and regional trade partnerships.

Infrastructure Initiatives

Indian Government to achieve its ambition of Viksit Bharat (India as a developed nation) by 2047, has taken various initiatives. The government has particularly stepped-up infrastructure spending outlay. In FY 2025-26, budget allocation towards infrastructure sector was at ₹ 11.21 lakh crore, which is approximately 3.1% of GDP, building on the previous year's ₹ 10.2 lakh crore.

To increase private sector participation in infrastructure projects, Ministries have been guided to develop a three-year pipeline of projects to be implemented in PPP mode. State Governments are also being encouraged to follow the same path. Additionally, for capital expenditure and to incentivise infrastructure reforms, an outlay of ₹ 1.5 lakh crore is allocated for states in the form of 50-year interest free loans. This capital outlay aims to advance logistic ecosystems, focus on industrial development and encourage public private partnership models in the country.

Recognising the role of consumption in economic growth, during the year government made radical changes to the direct tax regime. The government significantly lowered tax rates in the new tax regime translating to a net zero tax for income up to ₹ 12 lakhs annually. This major reduction will increase discretionary spending of the growing Indian middle class income group and thus leading to greater urban consumption.

Government also recognises the importance of energy security to attain the objective of sustainable development. In this direction, budget FY 2025-26 increased its thrust on adding more capacity from green, nuclear and traditional sources. Thus, budget allocation for the Ministry of New and Renewable Energy (MNRE) was increased from ₹ 19,100 crore during previous year to ₹ 26,549 crore in FY 2025-26. Additionally, for the Ministry of Power, ₹ 21,847 crore was allocated in this year's budget versus ₹ 20,502 crore allocated during previous year.

In addition, Government has set a target of 100 GW nuclear energy capacity from the current ~8 GW by 2047. Accordingly, an allocation of ₹ 20,000 crore has been made towards nuclear energy mission focusing on R&D of Small Modular Reactors (SMRs) with aim to operationalise at least five SMRs by 2033. Additionally, to encourage private sector participation in nuclear energy, government is proposing amendments in the Atomic Energy Act and Civil Liability of Nuclear Damage Act.

Advancing the momentum towards strengthening of power distribution infrastructure and reducing aggregate technical and commercial losses, Government allotted ₹ 16,021 crore in budget towards Revamped Distribution Sector Scheme (RDSS). The scheme also aims to improve operational efficiency and financial stability of State DISCOMS. Moreover, depending on

implementation of specific reforms by State Governments, an additional borrowing of 0.5% of the State Gross Domestic Product (GSDP) can be availed.

Impact on sectors in which GPUIL operates

Introduction of reforms and various initiatives by the government have bolstered the infrastructure sector. Power sector is essentially the fuel on which the Indian economy runs. As the economy grows, so does the power requirement. Hence, major impetus has been given for the power sector growth. Further for the past almost 10 years, government has laid great focus on transition to clean energy to enable the nation to fulfil its decarbonisation goals and achieve energy security.

As a result, power sector has witnessed continuous expansion, with total installed capacity reaching 476 GW by June 2025 compared to 305 GW in 2015-16.

Majority of this power capacity growth has been driven by renewables, where capacity has increased by ~72% since FY 2015-16 and now contributes to ~49% of India's total power capacity. This transition to clean energy is expected to happen at a faster pace, as India aims to reach 500 GW of installed capacity by 2030 in line with its commitments announced in COP26.

This transition has been enabled by favourable policy support by the government and increased private sector participation.

While India's power generation capacity has been increasing significantly, government also recognised a need to improve power distribution network infrastructure. This will result in increased billing efficiency and reduce Aggregate Technical & Commercial (AT&C) losses, which in turn should result in better

financial health of State Power Distribution Companies (DISCOMS). To further this objective, the government has earlier launched the Revamped Distribution Sector Scheme (RDSS) setting an ambitious target to install 250 million smart consumer meters along for all distribution transformers and feeders in India. The projects are being executed in Public Private Partnership in TOTEX (CAPEX+ OPEX) mode. Through bidding process DISCOMs will be selecting advanced metering infrastructure service providers (AMISPs) which will be in charge for handling end to end metering responsibility, covering costs through equity and debt financing under TOTEX model with concession period of 10 years. Till July 2025, approximately ₹ 1.30 lakh crore have been sanctioned for smart meters and a physical progress of ~12% has been achieved across India. Contracts of ~120mn meters have already been awarded.

Another step taken by India towards energy security and reduction in carbon emissions was the launch of scheme National Green Hydrogen Mission (NGHM) in January 2023 with an allocation of ₹ 600 crore till 2030, with a goal to become global leader in production and export of green hydrogen. By 2030, India expects production capacity to reach to 5MMT per annum.

To supplement this effort towards clean energy and increase self-reliance in renewable energy supply chain, the National Manufacturing mission will support manufacturing related to clean-tech. The policy intends to increase domestic value addition and create the ecosystem for EV batteries, grid scale batteries, Solar PV cells, wind turbines, voltage transmission equipment. Custom duties have also been lowered on solar modules and cells.

Demonstrating its commitment towards accelerating EV adoption in the country, government announced complete exemption of duties on 25 critical minerals that are not available domestically. And to spur lithium-ion battery manufacturing, 35 capital goods are also included in the exempted list. These steps are expected to reduce costs, increase competitiveness and advance India's battery manufacturing capabilities.

Additionally, Ministry of Heavy Industry (MHI) launched the FAME II scheme that included financial support for development of public charging Infrastructure. Ministry of Power has also taken up several initiatives and developed guidelines to support the acceleration of public charging infrastructure development in the country. Currently, India has over 12,000 operational EV charging stations.

While power sector acts as the fuel for economic growth of India, government also recognises the role of transport infrastructure in growth of the economy. With an aim to reduce logistics costs and time and thus increase economic productivity, Government increased its allocation to Ministry of Road Transport and Highways (MoRTH). As an outcome of government's continuous focus on transport infrastructure, National Highway network in India till December 2024 increased by 60% to 146,195 Km from 2014.

Further, to ensure seamless movement of traffic and increase efficiency in toll operations, the National Electronic Toll Collection (NETC) program was implemented. By December 2024, total 10.3 crore FASTags were issued enabling a 98.5% penetration in total fee collection.

Key Developments at GPUIL

Over the past few years, we have consolidated our position, focused on rationalisation and management of corporate debt and addressing stressed assets while building a platform for growth for the future. We have taken many significant steps in implementing our stated strategy to strengthen the balance sheet through improved cash flows driven by increased profitability, debt reduction through asset monetisation, value unlocking and prudent working capital management while creating avenues for growth.

During the year, your Company has taken up various initiatives in this direction. Some of these initiatives are mentioned below:

1. Conversion of FCCBs with interest waiver

Pursuant to the Demerger of GMR Airports Limited's (formerly GMR Airports Infrastructure Limited) ("GAL") non-Airport business into the Company (GPUIL), during January 2022, the FCCBs (Foreign Currency Convertible Bonds) liability of GAL was split between GAL and GPUIL. Accordingly, USD 275 Mn 7.5% subordinated FCCBs due 2075 were issued to Kuwait Investment Authority ("KIA") by GPUIL. KIA, in July 2024 transferred the FCCBs to two new parties, i.e., Synergy Industrials Metals and Power Holdings Limited ("Synergy") (USD 154 Mn) and to GRAM Limited ("GRAM") (USD 121 Mn) who subsequently exercised their option of converting their respective FCCB holdings into equity shares in GPUIL.

The GPUIL FCCBs were converted into 111,241,666 number

of equity shares of ₹ 5/- each, proportionately to both the FCCB holders. As part of the overall commercials, the outstanding interest on the FCCB was waived off. Post the above conversion, Synergy held 8.71% of the equity capital of the Company and GRAM held 6.85% of the equity capital of the Company.

2. Settlement of Hyderabad-Vijayawada toll project disputes

GMR Hyderabad Vijayawada Expressways Private Limited ("GHVEPL") had executed a Concession Agreement in October 2009 to construct, operate and maintain a two-lane 181.50 km stretch between Hyderabad and Vijayawada on the NH-65. In view of significant loss of revenue on account of bifurcation of the stretch between two states i.e. Telangana and Andhra Pradesh post the date of commissioning of the project, GHVEPL had raised claims in terms of the agreement with National Highways Authority of India ("NHAI"), seeking compensation against such losses, arising due to the provisions of change in law. Both parties decided to amicably settle all the disputes without further intervention of court / tribunal. In this regard, a settlement was agreed between GHVEPL and NHAI as per which NHAI agreed to pay an amount of ₹ 1,387.21 crore to GHVEPL as claim and project was handed back to NHAI on July 1, 2024.

3. GREL One time settlement

GMR Rajahmundry Energy Limited ("GREL"), an associate of GPUIL in which GMR Generation Assets Limited ("GGAL"), a subsidiary of GPUIL held about 45% of the equity share capital and balance 55% was held by the GREL lenders, had set up a 768 MW (2x384 MW) gas based Combined Cycle Power Plant (CCPP) project in Andhra Pradesh.

Despite several attempts of finding alternatives and various representations at appropriate forums to revive the plant, due to non-availability of affordable natural gas, GREL could not commence regular operations and accordingly as a force majeure provision, the Company approached for a One-Time Settlement (OTS) proposal with its lenders. The total amount outstanding by GREL to its lenders including sustainable and unsustainable debt was ₹ 837.70 crore of term loan, ₹ 261.40 crore of Non-Convertible Debentures (NCD) and ₹ 940.60 crore of Cumulative Redeemable Preference Shares ("CRPS"). The consortium of lenders of GREL approved to accept the One-time settlement ("OTS") amount of ₹ 657.00 crore towards full and final settlement of entire exposure including Term Loan, NCDs, CRPS, Interest Payable and Equity Shares and for closure of Corporate Guarantees, and your Company accepted the proposal. Post the payment of entire amount as per agreed schedule, the OTS now stands completed.

4. Monetisation of select energy assets

In furtherance to the OTS reached with lenders of GREL, GPUIL decided to divest the Company's non-operating and other non-strategic assets.

In this regard, GMR Energy Limited ("GEL"), a wholly owned subsidiary of the Company and GMR Generation Assets Limited ("GGAL") a subsidiary of the Company, signed a framework agreement with Synergy Investments Holding Limited ("Synergy") for the divestment of their respective

stakes in: (a) GMR Bajoli Holi Hydropower Private Limited ("Bajoli Holi"), (b) GMR Vemagiri Power Generation Limited ("Vemagiri") and (c) GMR Rajahmundry Energy Limited ("GREL").

According to the Framework Agreement, (a) GEL was to transfer 79.86% of the equity shares of Bajoli Holi and the relevant GMR Group entities were to transfer 100% of the compulsorily convertible debentures issued by Bajoli Holi, to Synergy; (b) GEL was to transfer 51% of the equity shares of Vemagiri to Synergy; and (c) GGAL was to transfer 51% of the equity shares of GREL to Synergy, upon completion of the OTS.

The consolidated consideration for the transfer of securities pursuant to the transactions contemplated (for all the above 3 entities) under the Framework Agreement was ₹ 653.00 crore. While significant parts of the divestments have been completed, a balance of 9.86% equity of Bajoli Holi is yet to be transferred and the same is expected to be concluded by September 2025. One of the objective for this transaction as envisaged was to enable the Company to meet the proposed OTS with the lenders of GREL, deleverage the balance sheet by ~ ₹ 4,400 crore and spin off the non-operational gas plants and other selected assets of GPUIL, which will further improve the bottom line of the Company.

5. Foray into the Smart Meter Sector

Advancing our Energy 2.0 strategy, GMR won a smart metering project in Uttar Pradesh through competitive bidding and was chosen as the Advanced Metering Infrastructure Service Provider (AMISP) for the project to install 75.69 lakh smart meters across three districts of Uttar Pradesh. The project entails the installation, integration and maintenance of around 75.69 lakh smart meters. In order to implement the whole project, GMR Smart Electricity Distribution Private Limited ("GSEDPL"), a subsidiary of the Company, incorporated three Special Purpose Vehicles (SPVs). Additionally, GSEDPL entered into an arrangement with Bosch Global Software Technologies ("BGSW"), the technology partner for the Project. As a part of the arrangement, BGSW will be investing 10% equity capital in each of the three project SPVs, and GSEDPL will hold the balance 90% of the equity capital of these SPVs.

The project is under implementation at a pegged cost of ₹ 3,467 crore, to be funded through a mix of debt, equity and internal accrual. Indian Renewable Energy Development Agency Limited ("IREDA") has sanctioned a total project loan of ₹ 2,128 crore (to be disbursed in tranches) to the three project SPVs.

Energy Sector Outlook and Future Plan

Indian Economy - Power Sector Scenario

India continues its march toward becoming the world's third-largest economy, backed by a resilient growth trajectory and structural reforms. Despite this progress, per capita electricity consumption in India remains modest at approximately 1,380 kWh in FY 2024–25, still well below the global average and indicating a significant headroom for growth.

The country's expanding economic base, rapid urbanisation,

manufacturing push under PLI schemes, rising demand from electric mobility, railway electrification, irrigation, AI-driven data centres, and digital infrastructure are collectively driving a structural surge in electricity demand. During FY 2024–25, power demand rose by approximately 4.2% to reach 1,810 Bn Units (BU), maintaining the strong momentum built in the previous fiscal.

Higher demand has also resulted in merchant prices shooting up which resulted in improved profitability and improved PLF for power generating companies. Consequently, Distribution Companies (DISCOMs), in a bid to shield themselves from merchant price volatility, are anticipated to solicit bids for long-term contracts from conventional sources such as thermal power. Additionally, to ensure reliable power supply amidst the growing penetration of intermittent renewables, DISCOMs will continue to rely on thermal power. This strategy involves entering into new long-term contracts and drawing additional power from existing capacities, ultimately contributing to improved average Plant Load Factors (PLFs) in the sector in short period and expansion and addition of generation capacity in the long term.

As of March 31, 2025, India's total installed power generation capacity stood at approximately 467 GW, reflecting a continuing expansion to meet the nation's growing energy needs. Conventional sources, primarily coal-based thermal power, accounted for around 250 GW (54% of total capacity), while renewable energy sources reached a cumulative capacity of approximately 170 GW (36%). The remaining ~47 GW was contributed by nuclear and large hydro installations.

Conventional Power: Resurgence of Thermal

- The increase in power demand and limited storage capacity for renewables resulted in a tight power supply situation, especially during peak summer months. Consequently, merchant market prices surged, improving realisations and profitability for generators.
- Higher demand and pricing triggered a resurgence in thermal PLFs, prompting DISCOMs to seek fresh long-term Power Purchase Agreements (PPAs) from existing and new thermal capacities.
- Given the intermittency of renewables, thermal generation continues to serve as the backbone of grid reliability, particularly during evening peak hours and seasonal demand spikes.
- As per Central Electricity Authority of India ("CEA") estimates, India would require an additional 80 GW of coal-based capacity by 2032, reinforcing the transitional role of coal in supporting a reliable energy ecosystem.

Coal Availability and Pricing Trends

- Coal remained the dominant fuel, accounting for over 72% of power generation in FY 2024–25.
- Domestic coal production crossed 1,050 million tonnes, a 5% increase YoY, driven by higher output from Coal India Limited and improved logistics.
- Coal imports moderated, aided by improved domestic supply and a cooling of global coal and LNG prices, which had spiked post-Ukraine crisis. This led to better coal stock positions at thermal plants and helped stabilise PLFs.

- Cost-effective fuel availability supported short-term and merchant market operations, ensuring affordability while maintaining grid stability.

Renewables: Strong Momentum, Global Leadership

- India retained its position as a global clean energy leader, ranking 4th in total RE capacity, 4th in wind, and 5th in solar, according to the International Energy Agency ("IEA").
- In FY 2024–25, India added a record 26 GW of renewable capacity, led by solar (over 20 GW), driven by strong policy tailwinds, investor appetite, and improving storage economics.
- The cumulative renewable energy capacity rose to 170 GW, advancing India's target of 500 GW of non-fossil fuel capacity by 2030 under the Panchamrit commitments.
- The year also witnessed momentum in green hydrogen, with pilot projects announced and progress towards the 2030 target of 5 million tonnes of production supported by 125 GW of RE.

India's power sector is at an inflection point balancing the growth imperative with the sustainability agenda. As the country moves toward becoming a global economic powerhouse, the energy ecosystem must evolve to:

- Integrate firm RE-backed capacity (including RTC, hybrid, and BESS solutions)
- Modernise grid infrastructure and interregional transmission
- Continue reforming DISCOMs and deepening energy markets (DAM, RTM, GDAM)
- Foster climate resilience and energy security in parallel

In summary, India's power sector is entering a phase of accelerated transformation, where conventional and renewable sources will co-exist to power economic aspirations. The emphasis will remain on achieving a low-carbon trajectory, while ensuring 24x7 affordable, reliable, and sustainable electricity for all.

Progress on Energy 2.0 Initiative

India's power and energy sector is undergoing a paradigm shift, with profit pools transitioning from conventional generation to renewables, distributed energy, digitalisation, and consumer-centric models. The sector is also witnessing deeper integration with adjacent domains such as e-mobility, smart metering, energy trading, and technology-enabled services.

GMR Energy remains aligned with this evolving landscape. While continuing to enhance operational performance of the existing assets and pursuing organic growth, GMR Energy has articulated a clear roadmap to expand its presence in next-generation energy opportunities under the Energy 2.0 vision.

The smart metering foray gained strong momentum during the year. GMR Energy continued implementation of its first large-scale AMISP project for UP DISCOMs, covering 7.56 million smart meters. Post receiving the order, it made substantial progress on the ground and started smart meter installation backed up with technology infrastructure. It is actively pursuing adjacent opportunities in analytics, customer engagement platforms, and energy efficiency services to maximise lifecycle value from the

smart metering vertical. It also continues to look for more AMISP opportunities so as to attain economies of scale.

In EV charging infrastructure, it is leveraging synergies with GMR Group's Airport and urban infrastructure assets, positioning itself to serve high-footfall, strategic locations. This vertical will play a key role in enabling green mobility while opening consumer-facing monetisation models.

Additionally, the Energy 2.0 Strategy includes a focus on exploring avenues for expanding the Company's clean energy portfolio with a focus on C&I and hybrid (solar + wind) power supply. This strategy underscores the Company's shift towards sustainable energy solutions, aiming to reduce carbon footprints and promote environmental stewardship. It also intends to explore opportunity to use land bank at the existing projects for this purpose.

Its engagement in power trading is expected to deepen as India transitions to more dynamic and real-time electricity market. It is exploring participation in DAM, RTM, GDAM, and green power corridors with innovative solutions that balance flexibility, cost-efficiency, and compliance. All of the above initiatives are anchored on a strong technology backbone.

The world is entering a new energy era, and India is at the forefront of this transformation—committed to a clean, affordable, and resilient power future. GMR Energy, a key arm of GPUIL, is fully aligned with this transition. Its ambition is to build a resilient Energy 2.0 platform, blending sustainability, innovation and consumer engagement, thus positioning it as a future-ready energy player.

Transportation and Urban Infrastructure Sector Outlook and Future Plan

Transportation

Railways

The Group made a big leap into Railway EPC Projects in 2015, when the Dedicated Freight Corridor Corporation of India Limited ("DFCCIL") awarded two packages on the Eastern Dedicated Freight Corridor ("EDFC") in the State of Uttar Pradesh. The projects for a total length of about 422 Km between New Bhaupur and New Deen Dayal Upadhyaya junction have been commissioned. As on date about 200+ Gross Million Tonnes ("GMT") moved on this EDFC Track.

Subsequently in 2016, two more DFCCIL packages (Contract Package - 301 & 302) on the EDFC were awarded in States of Punjab-Haryana-Uttar Pradesh (Ludhiana –Khurja – Dadri). The projects are already commissioned.

Going forward, the Company will be exploring new projects under DFCCIL/IR in PPP /EPC mode that are expected to come up during FY 2025-26 and beyond. The Company has knowledge and experience in undertaking such big Railway Projects. In addition, Company has heavy plant and machinery and fleet of track machines including fully mechanised NTC (New Track Construction) machines, that can be effectively utilised in future Railway projects as well.

Apart from the construction of railway tracks, Government has opened private participation opportunities in Operation & Maintenance (O&M) of Railway Tracks. Your Company has

requisite track machines and skilled manpower to undertake such O&M opportunities, if they align with the overall Group Strategy.

Highways

For the fiscal year 2024-25, the National Highways Authority of India ("NHAI") has been actively engaged in several significant projects and outlook is also aimed at such initiatives expanding and enhancing the national highways infrastructure.

Ambitious Construction Targets

Working relentlessly towards development of the National Highway infrastructure in the country, NHAI, during the FY 2024-25, constructed 5,614 km of National Highways against the target of 5,150 km for the year.

Currently in FY 2025-26, it targets 10,000 KMs of Highway Construction, continuing its efforts to upgrade India's road infrastructure and attract private investment.

The Capital Expenditure by NHAI in FY 2024-25 for development of National Highway Infrastructure reached an all-time high of over ₹ 2.50 Tn (provisional) against a target expenditure of ₹ 2.40 Tn. This highest ever capital expenditure in a financial year by NHAI includes both Government budgetary support and NHAI's own resources.

Monetisation and Private Participation:

During FY 2024-25, NHAI leveraged three modes for monetisation that included Toll Operate Transfer ("TOT"), Infrastructure Investment Trust (InvIT) and Toll Securitisation. During the financial year, NHAI monetised assets worth ₹ 28,724 crore. This includes NHAI's highest ever single round InvIT receipt worth ₹ 17,738 crore.

Digital Highway Development

NHAI plans to develop 10,000 km of optic fibre cable infrastructure across India, facilitating internet connectivity in remote areas and supporting the deployment of advanced telecom technologies.

The Delhi-Mumbai Expressway (1,367 km) and Hyderabad-Bangalore corridor (512 km) have been identified as pilot routes for digital highway development. Presently, this initiative is pushed back as the Authority has failed to procure cables from the market.

Project Awards and Construction

The Cabinet Committee on Economic Affairs has approved the development of 8 important National High Speed Corridor projects with a length of 936 km at a cost of ₹ 50,655 crore across the country.

Conclusion

NHAI's performance in FY 2024-25 highlights significant achievements in highway construction and project awards, supported by increased budget allocations and financial prudence. Looking ahead to FY 2025-26, NHAI aims to further increase its construction activities, reduce its debt burden, and develop a comprehensive digital highway network. The continued focus on financial management and strategic project execution will be crucial for achieving these goals.

Your Company's current highways portfolio consists of two BOT (Annuity) and one BOT (Toll) projects with a total operating length of 888 lane kilometres. These include Ambala-Chandigarh Highway project, Chennai Outer Ring Road and Adloor – Gundla – Pochanpalli highway.

Urban Infrastructure

GPUIL's subsidiary, GMR Krishnagiri SIR Limited ("GKSIR") is developing the Special Investment Region ("SIR") in phases. GKSIR has already sold about 504 acres in Phase 1 to M/s. Tata Electronics Private Limited ("TEPL"). TEPL has established a greenfield mobile phone component manufacturing facility with a projected investment of ₹ 4,500 crore and with employment potential of 18,000 persons and commercial production has already started.

In Phase 2, GKSIR has leased ~101 acres of land to TEL Components Private Limited during the current financial year or their greenfield Mobile phone assembly plant. During the FY 2024-25, the Group has sold around 407 acres including around 286 acres to Tamil Nadu State Government Agency (SIPCOT).

GKSIR is planning to develop ~75 acres of land in Phase 3 by creating infrastructure facilities suitable for prospective clients for setting up their industrial units

Integrating ESG into the business.

GPUIL continues to demonstrate its commitment to sustainability and responsible business practices through a structured, policy-driven approach that fully integrates Environmental, Social, and Governance (ESG) considerations across its operations. The Company operates under robust systems and frameworks focused on enhancing its Environment, Health and Safety performance across all facilities. Its major assets are certified under globally recognised standards including ISO 14001 for Environmental Management, ISO 45001 for Occupational Health and Safety, and ISO 50001 for Energy Management. These certifications ensure systematic and responsible environmental and safety performance. The Company continues to report publicly its sustainability and ESG performance through its annual Sustainability Report and the SEBI mandated Business Responsibility and Sustainability Report (BRSR), demonstrating transparency and accountability to its stakeholders.

During the reporting year, GPUIL intensified its efforts to reduce environmental impact. Greenhouse Gas (GHG) emission inventorisation as per ISO 14064 was carried out at both major power assets at Warora (Maharashtra) and Kamalanga (Odisha), underscoring the Company's commitment to rigorous emissions monitoring. Both facilities were also certified under ISO 46001 Water Efficiency Management System, highlighting GPUIL's focus on responsible water use and stewardship.

GPUIL's Warora plant received significant recognition for its environmental leadership, winning the CII Excellence Award in Water Management for its integrated watershed management approach, becoming India's first thermal power plant to achieve a Gold Rating under the CII Blue Rating Program, and receiving CII's National Award for Excellence in Energy Management for the 8th time (for 7th consecutive year) along with National Energy Leader status for the 5th time. Kamalanga was similarly recognised with the National Award for Excellence in Water Management

from CII and received the prestigious Sword of Honor from the British Safety Council for its robust Occupational Health and Safety Management System.

GPUIL has continued to expand renewable energy adoption within its operations, with 642/kW of rooftop solar capacity installed at Kamalanga and 70/kW at Warora. The Company is also working to reduce value chain emissions by maximising fly ash evacuation via rail instead of road, lowering transportation-related carbon impacts. Nearly 100% of fly ash generated at both power plants was utilised or diverted from landfill, supporting a circular economy and reducing environmental liabilities. At Warora, a Biomass Pellet Machine with a capacity of 100/kg/hr was installed to convert horticultural waste into biomass fuel. Extensive greenbelts covering over 33% of land at major assets further support biodiversity while helping to maintain biodiversity and mitigate dust and emissions.

Environmental Stewardship and Resource Efficiency

GPUIL's approach to environment management goes well beyond compliance, focusing on long-term resilience, biodiversity protection, and the responsible use of natural resources. The Company maintains a proactive stance on environment monitoring, deploying advanced systems to manage and transparently report performance across its project sites. Circularity is central to its operations, with systematic tracking and nearly 100% utilisation of fly ash for cement and construction materials, eliminating landfill disposal and supporting resource efficiency.

To further minimise emissions, GPUIL prioritised rail transport for fly ash evacuation, reducing road transport emissions, installed a biomass pellet machine at Warora to convert local horticultural waste into usable fuel and adopted Hot-in-Place recycling methods for road maintenance to reduce material consumption for highways business. Air quality initiatives included the deployment of fog cannons to reduce fugitive dust emissions, while energy-efficient LEDs are installed across highway operations to lower energy consumption.

Social Responsibility and Inclusive Development

GPUIL's social responsibility agenda is built on its commitment to inclusive and participatory development in the communities where it operates. Through the GMR Varalakshmi Foundation, the Company implements a broad range of programs in education, healthcare, and livelihoods development to improve quality of life. This is supported by participatory rural appraisal tools, structured community engagement, and robust grievance redress mechanisms to ensure responsiveness to local needs. In FY 2025, Corporate Social Responsibility ("CSR") efforts of the Company made a significant impact, positively benefiting over seventy thousand lives, with more than 95% of these beneficiaries coming from vulnerable and marginalised communities. This underscores GPUIL's commitment to driving inclusive growth and social development in the communities where it operates.

GPUIL's commitment to social accountability is further demonstrated through Warora's certification under the SA 8000 Social Accountability Standard, highlighting its adherence to high

standards of employee welfare. Employee well-being and diversity remain central priorities, with ongoing health and safety training, ethics awareness initiatives, and inclusive hiring practices. The Company fosters a work environment that values mental well-being, safety, respect, and continuous professional development.

Governance Excellence and ESG Oversight

Strong governance is central to GPUIL's sustainability agenda. The Company has implemented a robust ESG governance framework with dedicated oversight by the ESG Committee at the Board level, ensuring ESG aspects are integrated into strategic decision-making. GPUIL remains fully committed to meeting all regulatory obligations, including compliance with SEBI's Business Responsibility and Sustainability Reporting (BRSR) framework.

Ethical conduct is maintained through mandatory employee training, effective whistleblower mechanism, and rigorous anti-corruption safeguards. On the digital front, GPUIL has implemented strong cybersecurity and data protection protocols, with reviews to ensure operational resilience and safeguard data and information.

Charting a Sustainable Future

GPUIL's sustainability strategy is guided by its vision to create long-term value for society through responsible and resilient infrastructure of national importance. By embedding ESG principles across all aspects of its business, from energy transition and operational efficiency to stakeholder engagement and governance, the Company continues to position itself as a leader in India's evolving energy and infrastructure landscape. These integrated efforts support national and global sustainable development goals while ensuring positive and enduring outcomes for all stakeholders and communities.

Discussion and analysis of financial conditions and operational performance

The consolidated financial position as at March 31, 2025 and performance of the Company and its subsidiaries, joint ventures and associates during the financial year ended on that date are discussed hereunder:

Further, during the previous year ended March 31, 2024, the Company on November 21, 2023 acquired 1,051.15 mn equity shares of GMR Energy Limited (GEL) representing 29.14% of the equity share capital of GEL, from Power and Energy International (Mauritius) Limited, a subsidiary of Tenaga Nasional Berhad. With this complete buy-out of Tenaga stake, the Shareholders Agreement with Tenaga stood terminated. The Group accounted for the acquisition of additional stake in GEL by applying acquisition method of accounting in accordance with Ind AS 103 'Business Combination' thereby enabling control over GEL and subsidiaries and full line-by-line consolidation of Assets, Liabilities, Revenues and Earnings of GEL and subsidiaries with the Group with effect from November 22, 2023 which was earlier done on an equity method in accordance with Ind AS 28 'Investment in associates and joint venture'. For more details on business combination, refer note 50 of the consolidated financial statement.

1. ASSETS- NON-CURRENT ASSETS

1.1. Property Plant and Equipment (PPE)

PPE has decreased from ₹ 7,889.38 crore as at March 31, 2024 to ₹ 7,124.94 crore as at March 31, 2025 primarily due to depreciation charged during the year and due to transfer of PPE of GMR Vemagiri Power Generation Limited (GVPGI) to 'Assets included in disposal group held for sale'.

1.2. Right of use asset

Right of use asset has decreased from ₹ 284.13 crore as at March 31, 2024 to ₹ 275.46 crore as at March 31, 2025 due to amortization during the year.

1.3. Capital work- in -progress

Capital work in progress increased from ₹ 357.38 crore as at March 31, 2024 to ₹ 505.26 crore as at March 31, 2025, mainly on account of purchase of asset which was not ready to use as on March 31, 2025.

1.4. Investment Property

Investment property has decreased from ₹ 339.71 crore as at March 31, 2024 to ₹ 165.02 crore as at March 31, 2025 primarily due to transfer of Investment property to 'Assets included in disposal group held for sale' and also sale of stake of subsidiary during the year.

1.5. Goodwill

There is no change in the value of Goodwill amounting ₹ 36.93 crore.

1.6. Other Intangible Assets

Other Intangible assets have decreased from ₹ 2,387.48 crore as at March 31, 2024 to ₹ 564.34 crore as at March 31, 2025 primarily due to full amortization of balance carrying value of carriage ways on account of handover of project pursuant to amicable settlement between GMR Hyderabad Vijayawada Expressways Private Limited (GHVEPL) and NHAI.

1.7. Investments accounted for using equity method

Investments accounted for using equity method has decreased from ₹ 197.86 crore as at March 31, 2024 to ₹ 4.00 crore as at March 31, 2025 primarily due to transfer of investment in GMR Bajoli Holi Hydropower Private Limited (GBHHPL), to 'Assets included in disposal group held for sale' due to divestment of the stake.

1.8. Other Investments

Other investments have decreased from ₹ 215.32 crore as at March 31, 2024 to ₹ 113.64 crore as at March 31, 2025 mainly due to transfer of Investment in debentures in GBHHPL to 'Assets included in disposal group held for sale'.

1.9. Non-current trade receivables

Non-current trade receivables have decreased from ₹ 110.20 crore as at March 31, 2024 to ₹ 31.99 crore as at March 31, 2025 due to reclassification of trade receivables from non-current to current.

1.10 Loans

Loans have decreased from ₹ 870.17 crore as at March 31, 2024 to ₹ 66.86 crore as at March 31, 2025 due to realisation of loans and conversion of loans into Compulsorily Convertible Debentures .

1.11 Other financial assets

Other financial assets have decreased from ₹ 945.68 crore as at March 31, 2024 to ₹ 803.06 crore as at March 31, 2025 mainly due to realization from Receivable against service concession arrangements (SCA) and due to receipt of refund of deposit from NHAI in GHVEPL on account of handover of project pursuant to amicable settlement between GHVEPL and NHAI.

1.12. Other non-current assets

Other non-current assets have decreased from ₹ 58.85 crore as at March 31, 2024 to ₹ 51.07 crore as at March 31, 2025 in normal course of business.

2. ASSETS – CURRENT ASSETS

2.1. Inventories

Inventories have increased from ₹ 211.88 crore as at March 31, 2024, to ₹ 394.84 crore as at March 31, 2025 primarily on account of inventory of smart meters pursuant to commencement of operations in smart metering companies during the year.

2.2. Financial assets – Investments

Investments have increased from ₹ 237.11 crore as at March 31, 2024 to ₹ 247.37 crore as at March 31, 2025 primarily on account of investment in mutual fund during the year.

2.3. Financial assets – Trade receivables

Trade receivables has increased from ₹ 1,541.04 crore as at March 31, 2024 to ₹ 1,704.94 crore as at March 31, 2025 primarily on account of account of increase in trade receivables in group entities in normal course of business.

2.4. Financial assets – Cash and cash equivalents

Cash and Cash equivalents have increased from ₹ 430.22 crore as at March 31, 2024 to ₹ 688.67 crore as at March 31, 2025 mainly on account of borrowing taken by the group companies.

2.5. Financial assets – Bank balances other than cash and cash equivalents

Bank balances other than cash and cash equivalents increased from ₹ 251.59 crore as at March 31, 2024 to ₹ 297.68 crore as at March 31, 2025 in the normal course of business.

2.6 Loans

Loans have increased from ₹ 19.79 crore as at March 31, 2024 to ₹ 25.63 crore as at March 31, 2025 in the normal course of business.

2.7. Other financial assets

Other financial assets have decreased from ₹ 2,258.79 crore

as at March 31, 2024 to ₹ 2,215.35 crore as at March 31, 2025 is primarily due to decrease in Interest accrued receivable and realisation of SCA receivable in normal course of business.

2.8. Other current assets

Other current assets have increased from ₹ 472.87 crore as at March 31, 2024 to ₹ 694.24 crore as at March 31, 2025 primarily due to increase in advances to supplier in normal course of business.

2.9. Assets included in disposal group held for sale

Assets classified as held for sale increased from ₹ 319.53 crore as at March 31, 2024 to ₹ 948.74 crore as at March 31, 2025 mainly due to divestment of stake in GVPGL and GBHHPL pursuant to framework agreement entered with Synergy Investments Holding Limited ("Synergy").

3. EQUITY

Increase in equity share capital from ₹ 301.80 crore as on March 31, 2024 to ₹ 357.42 crore as on March 31, 2025, mainly due to shares issued pursuant to conversion of Foreign Currency Convertible Bonds (FCCBs) into Equity.

Other equity has increased from ₹ (3,219.02) crore as at March 31, 2024 to ₹ 229.49 crore as at March 31, 2025 primarily on account of increase in securities premium, waiver of interest payable pursuant to conversion of FCCBs into Equity and also due to receipt of claim on account of handover of GHVEPL project to NHAI pursuant to amicable settlement between GHVEPL and NHAI.

Non-controlling interest have increased from ₹ (65.09) crore as at March 31, 2024 to ₹ 130.82 crore as at March 31, 2025 mainly due to share of profit of minority and acquisition of non-controlling interests during the year ended March 31, 2025.

4. NON-CURRENT LIABILITIES

4.1. Borrowings

Non-current borrowings have decreased from ₹ 11,684.16 crore as at March 31, 2024 to ₹ 8,770.47 crore as at March 31, 2025 pursuant to conversion of FCCBs into Equity.

4.2. Lease Liabilities

Lease liabilities have increased from ₹ 16.22 crore as at March 31, 2024 to ₹ 17.16 crore as at March 31, 2025 in normal course of business.

4.3. Other Financial Liabilities

Other financial liabilities have decreased from ₹ 1,022.81 crore as at March 31, 2024 to ₹ 956.04 crore as at March 31, 2025, mainly due to reclassification of interest payable to current financial liability as per the repayment terms.

4.4. Provisions

Provisions have decreased from ₹ 147.87 crore as at March 31, 2024 to ₹ 135.92 crore as at March 31, 2025 mainly due to decrease in provision for operation and maintenance in highway entities.

4.5. Other non-current Liabilities

Other non-current liabilities have decreased from ₹ 47.01 crore as at March 31, 2024 to ₹ 20.52 crore as at March 31, 2025 on account of transfer of Government grant payable of GVPGL to 'Liabilities included in disposal group held for sale'.

4.6. Deferred Tax Liabilities

Deferred tax liabilities have increased from ₹ 44.33 crore as at March 31, 2024 to ₹ 75.37 crore as at March 31, 2025 mainly due to deferred tax liabilities created during the year.

5. CURRENT LIABILITIES

5.1. Borrowings

Borrowings have decreased from ₹ 2,170.72 crore as at March 31, 2024 to ₹ 1,467.83 crore as at March 31, 2025 mainly due to repayment of working capital and related party loans.

5.2. Trade Payables

Trade payables have decreased from ₹ 2,595.88 crore as at March 31, 2024 to ₹ 1,154.96 crore as at March 31, 2025 mainly due to adjustment of payable to NHAI on account of handover of project pursuant to amicable settlement between GHVEPL and NHAI.

5.3. Lease Liabilities

Lease liabilities have decreased from ₹ 4.51 crore as at March 31, 2024 to ₹ 3.82 crore as at March 31, 2025 in normal course of business.

5.4. Other financial liabilities

Other financial liabilities have decreased from ₹ 2,621.10 crore as at March 31, 2024 to ₹ 1,864.16 crore as at March 31, 2025 mainly due to decrease in interest payable to FCCB holders pursuant to conversion of FCCBs into Equity and also due to settlement of liability towards put option.

5.5. Provisions

Provisions have decreased from ₹ 759.09 crore as at March 31, 2024 to ₹ 420.20 crore as at March 31, 2025 mainly due to reversal of provision for loss in associate pursuant to One-time Settlement ('OTS') with the consortium of lenders of GMR Rajahmundry Energy Limited ('GREL')

5.6. Other current liabilities

Other current liabilities have decreased from ₹ 1,276.97 crore as at March 31, 2024 to ₹ 1,088.86 crore as at March 31, 2025 mainly due to decrease in advance from customers and Statutory dues payable in the normal course of business.

5.7. Liabilities directly associated with the assets classified as held for sale

Liabilities directly associated with assets classified as held for sale increased from ₹ 23.10 crore as at March 31, 2024 to ₹ 255.14 crore as at March 31, 2025 mainly due to divestment of stake in GVPGL pursuant to framework agreement entered with Synergy Investments Holding Limited ("Synergy").

Sales/Operating Revenue

The segment wise break-up of the Sales/Operating Revenue are as follows:

(₹ in crore)

Particulars	For the year ended	
	March 31, 2025	March 31, 2024
Revenue from Operations:		
Power segment	5,330.85	3,176.05
Smart Meter Infrastructure segment	320.54	-
Road segment	396.69	717.26
EPC segment	190.75	340.88
Others segment	315.23	586.26
Inter segment revenue	(210.09)	(331.88)
Total Revenue from operations	6,343.97	4,488.57

Operating revenue from power segment

Revenue from our power segment consists of generation and sale of electrical energy from GMR Warora Energy Limited (GWEL), GMR Kamalanga Energy Limited (GKEL) and GMR Gujarat Solar Power Limited (GGSPL). Also, it includes energy and coal trading revenue from GMR Energy Trading Limited (GETL) and GMR Infrastructure (Singapore) Pte Limited (GISPL) respectively. Other major operating energy entities include GBHHPL, which are assessed as Joint Venture.

The operating revenue from power segment has increased 67.85% from ₹ 3,176.05 crore in FY 2023-24 to ₹ 5,330.85 crore in FY 2024-25 primarily due to consolidation of revenue for full year for major operating energy entities like GWEL, GKEL and GGSPL in FY 2024-25. However, revenue of these entities was consolidated only for four months approximately in FY 2023-24 as these were assessed as subsidiaries of the group on acquisition of additional stake in GMR Energy Limited (GEL) with effect from November 22, 2023.

Operating revenue from smart meter infrastructure segment

Revenue from smart meter infrastructure segment mainly consists of revenue from smart meters installation & control and maintenance. The SPVs have started installing the meters at consumer premises meeting all performance obligations outlined in the contract. Accordingly, revenue is recorded in accordance with Ind AS 115 since smart meters are operational and all performance obligations are met.

Operating revenue from road segment

Revenue from our road operations is derived from annuity payments received from NHAI for our annuity projects and toll charges collected from road users of the toll road projects.

The operating revenue from road segment has decreased by 44.69% from ₹ 717.26 crore in FY 2023-24 to ₹ 396.69 crore in FY 2024-25 mainly due to closure of operation in GHVEPL on account of handover of project pursuant to amicable settlement between GHVEPL and NHAI.

Operating revenue from EPC segment

Revenue from our EPC segment is derived from the execution of engineering, procurement and construction works in connection with railways and road.

During the FY 2024-25, the EPC sector operating revenue has decreased by 44.04% from ₹ 340.88 crore in FY 2023-24 to ₹ 190.75 crore in FY 2024-25 as DFCC project is completed and track is handed over to DFCCIL for operations. However, certain ancillary works are pending completion, which company is in process of completion.

Operating revenue from Other Sectors

Revenue from other sector includes management services revenue, investment revenue and operating revenue of aviation businesses. During the FY 2024-25, other sector has contributed ₹ 315.23 crore to the operating revenue as against ₹ 586.26 crore in FY 2023-24.

Expenditure

Revenue share paid/payable to concessionaire grantors

The revenue share paid/payable to various concessionaires has decreased from ₹ 211.99 crore in FY 2023-24 to ₹ 56.57 crore in FY 2024-25 primarily on account of handover of project pursuant to amicable settlement between GHVEPL and NHAI.

Operating and administrative expenditure

Sub-Contracting expenses

The decrease in Sub Contracting expenses is mainly on account decrease in corresponding revenue in ongoing DFCC project as DFCC project is completed and track is handed over to DFCCIL for operations. However, certain ancillary works are pending completion, which company is in process of completion.

Consumption of fuel

The increase in Consumption of fuel is mainly as the major operating energy entities like GWEL and GKEL are consolidated for full year in FY 2024-25. However, these entities were consolidated only for four months approximately in FY 2023-24 as these were assessed as subsidiaries of the group on acquisition of additional stake in GMR Energy Limited (GEL) with effect from November 22, 2023.

Purchase of Traded goods

The decrease in purchase of traded goods in the FY 2024-25 is mainly on account of decrease in corresponding revenue in coal trading.

Cost of material consumed

The increase in cost of materials consumed in the FY 2024-25 is corresponding to recognizing smart meter revenue for the first time in current financial year.

Employee benefits expenses

The increase in employee benefit costs in the current year is mainly on account of consolidation of GEL and its subsidiaries for full year in FY 2024-25. However, these entities were consolidated only for four months approximately in FY 2023-24 as these were assessed as subsidiaries of the group on acquisition of additional stake in GMR Energy Limited (GEL) with effect from November 22, 2023.

Other expenses

Other expenses include:

- Consumption of stores and spares, electricity and water charges, manpower hire charges, rentals, repairs and maintenance, legal and professional charges, provision for doubtful advances, fair valuation on financial instruments through PL, write off/provision towards investments, travelling and conveyance, communication, foreign exchange differences and other miscellaneous expenses.

There is increase in other expenses in FY 2024-25 mainly on account of consolidation of GEL and its subsidiaries for full year in FY 2024-25. However, these entities were consolidated only for four months approximately in FY 2023-24 as these were assessed as subsidiaries of the group on acquisition of additional

stake in GMR Energy Limited (GEL) with effect from November 22, 2023.

Finance Cost

The increase in finance cost mainly on account of consolidation of GEL and its subsidiaries for full year in FY 2024-25. However, these entities were consolidated only for four months approximately in FY 2023-24 as these were assessed as subsidiaries of the group on acquisition of additional stake in GMR Energy Limited (GEL) with effect from November 22, 2023.

The same is offset by decrease in finance cost pursuant to conversion of FCCBs into Equity and repayment of borrowings during the year.

Exceptional items

Exceptional items comprise of the impairment of investment in joint venture and associates, reversal of impairment of investments, gain/(loss) on disposal/ liquidation of investment in subsidiaries, share of exceptional item of its associate, write back /waiver of liability, write off/ provision against receivables/ loans, reversal of provision of receivables, settlement of claim and provision / loss on investment property

Share of profit / (loss) of investments as per accounting under equity method.

Decreased in share of loss of JV and Associates mainly due to accounting of share of profit/(loss) consolidation of GEL and its subsidiaries which were assessed as joint ventures of the group till November 21, 2023.

Tax expenses

Tax expense mainly comprises of current tax expense and deferred tax expense .There is increase in tax expenses in 2024-25 as compared to 2023-24 mainly on account of increase in taxable profits in GWEL.

Significant changes in key financial ratios, along with detailed explanations

In compliance with the requirement of listing regulations, details of significant changes (i.e. Change of 25% or more as compared to the immediately previous financial year) in key financial ratios and any changes in return on net worth of the company (on standalone basis) including explanations therefor are given below:

Particulars	Numerator	Denominator	March 31, 2025	March 31, 2024	Variance	Reasons for variance
Interest Coverage Ratio	Earnings before interest, taxes, depreciation and amortisation	Interest Expenses	1.05	0.95	10.21%	Not applicable
Operating Profit Margin	Earnings before interest, taxes, depreciation and amortisation	Revenue	63.75%	54.47%	17.05%	Not applicable
Return on Net Worth	Net Profit / (loss)	Equity (excluding fare valuation through other comprehensive income)	45.14%	124.25%	(63.67%)	Due to conversion of FCCBs into Equity share Capital

Also refer note 40 of the standalone financial statements for key financial ratios including reason for variances (other than above), on standalone basis.

Corporate Social Responsibility

GMR Varalakshmi Foundation ("GMRVF") is the Corporate Social Responsibility arm of the GMR Group. The Group has been undertaking CSR activities on a significant scale since 1991. GMRVF supports the companies under the Group in implementing their CSR mandates. GMRVF's purpose is to work in the fields of Education, Health and Empowerment such that its activities directly benefit mainly the communities in the immediate neighborhood of the Group's projects. Currently, GMRVF is working with selected communities in about 20 locations in India. The locations are spread across different states namely Himachal Pradesh, Odisha, Maharashtra, Punjab, Tamil Nadu and Telangana.

During the FY 2024-25, GMRVF implemented the CSR activities in the areas of Education, Health and Livelihoods in all its project areas.

Significant achievements of GMRVF in the year FY 2024-25 are as below:

- Initiated CSR activities at Varanasi, Agra and Prayagraj clusters around GMR Smart Meter projects in UP.
- Precision farming program through Drone use and IoT in Agriculture were introduced at Warora demonstrating the Foundation's commitment to support farming communities by leveraging advanced technology.
- At Kamalanga, GMRVF facilitated formation of a Farmer Producer Company to facilitate collective initiatives of the farmers.

At Warora, 110 families from 7 villages were supported for construction of Individual Sanitary Lavatories demonstrating the Group's commitment to the cause of Swachh Bharat.

Risk Concerns and Threats Identification, assessment, profiling, treatment and monitoring the risks

The Company, having recognised the need for a comprehensive Risk Management Framework, is in the process of reviewing and revising its existing Group ERM Policy and Framework during the year.

During the year, the Company hired an industry expert to help it review the existing ERM framework and amend and develop a new ERM Policy and Framework. This process is currently in its final phase, with the revised policy and framework being rolled out across the organisation.

The revised policy and framework take into account best practices in Enterprise Risk Management, and amendments have been primarily focused on the following aspects:

- Establish stronger linkage between Corporate Strategy and Risk Management functions which has been designed to help the Company focus on key strategic risks.
- Detailed risk assessment will be seamlessly integrated into the Company's annual exercise of Strategy-setting and Annual Operating Plan, with stronger governance being put into place to track and report key risks across the organisation.
- For organisation to quickly adapt to disruptions while maintaining continuous business operations and safeguarding people, assets and overall brand equity, the Business Continuity Plans ("BCP") and Disaster Recovery Plans ("DRP") for key assets have been integrated into the framework.
- Company's commitment to sustainability and demonstrable efforts to reduce, eradicate or mitigate the impact of its operations on the environment and community have also become more comprehensive. The Company's ESG program is rooted in materiality that has helped us organise and prioritise relevant ESG factors.

During FY 2024-25, the Company has prioritised the Top Risks among other identified risks that it regards as significant for its business operations and strategies. These top risks have been described hereunder along with existing and proposed mitigation measures:

➤ **Arbitration/ Litigation risks**

GPUIL and/or its subsidiaries have ongoing arbitrations/ litigations in both energy and transportation sectors.

- It has outstanding receivables/ arbitrations going on with various DISCOMs and other parties (coal pass-through, change in law, SEPCO, etc.)
- It also has arbitrations/ litigations in its transportation business:
 - o Two of the highway assets have ongoing litigation with NHAI (Ambala-Chandigarh, case of competing highways and Pochanpalli).
 - o The DFCC railway project is in arbitration for prolongation claims.

For addressing these risks:

- GPUIL relies on its robust in-house mechanism for dispute risk assessment, which provides the management with an early evaluation of the risks and costs associated with every potential arbitration / litigation, before the same is triggered.

- The Company would typically work with a combination of strong in-house counsel both corporate and sectoral, and specialist external counsel as per the specific requirements.
- Positive outcomes received during FY 2024-25:
 - o DFCC: DAB (Dispute Adjudication Board) awarded ₹ 517 crore against a claim of ₹ 1,826 crore, both parties issued notice of dissatisfaction.
 - o GWEL and GKEL claims against DISCOMs significant amount of long pending regulatory receivables received.

➤ **Financial Risks**

• **Liquidity Risks**

- GPUIL, being the holding company with limited operating cash flows, has been constrained to service or refinance the corporate debt / outstanding loans.
- Additionally, at the subsidiary level, there remains a liquidity risk to meet obligations including debt servicing/ repayment on account of the following:
 - o Continued outstanding regulatory receivables from DISCOMs
 - o Any adverse outcome of ongoing litigations
 - o ESG pressures may increase the funding requirements (e.g. additional capex for Flue Gas Desulfurisation ("FGD"))
- Liquidity requirements for Smart Meters project, renewable assets at thermal Plants/ airports, other Energy 2.0 and other new business initiatives will need to be arranged.

There have been positive developments during the year that have mitigated some risks and the Company is monitoring other developments:

- **Strategic Sale transaction:** Framework agreement signed with Synergy for divestment of stake in Bajoli Holi, Vemagiri and Rajahmundry. Divestment has enabled the one-time settlement with the lenders of GREL, reduction of loan and spin off the non-operational gas plants and stressed assets.
- **Hyderabad Vijayawada arbitration** claim award received: Settlement was agreed between GHVEPL and NHAI as per which NHAI has paid an amount of ₹ 1,387.21 crore to GHVEPL as claim and project was handed back to NHAI on July 01, 2024.
- Significant progress has been made on the recovery of regulatory receivables from DISCOMs.
- Significant land monetisation at Krishnagiri SEZ has been achieved so far
- **DFCC:** PBGs, RBGs & CGs of ₹ 294 crore will be released during Q2 FY 2026 after completion of Defect Liability period.

- Government of India has categorised thermal power plants into three categories (A, B, and C) based on their location. Category C is exempted from installing FGD. GWEL is in category C. GKEL, currently category B, has appealed to be considered as category C.
- GWEL and GKEL refinancing targeted in FY 2026; change in debt covenants to enable cash upstreaming to GPUIL.

• Interest Rate risk

- Risk from heightened inflation leading to high interest rates.
- High interest rate for Holding Company Debts.
- Existing Debt at various assets also contribute to interest rate risk.

Some development in the direction of mitigating the interest rate risks are:

- o Inflation moderated during FY 2024-25, RBI cut repo rates by 100 bp during last 12 months.
- o Refinancing of HoldCo Debt targeted during FY 2025-26; will lead to significant reduction in interest rates.
- o Potential Refinancing of Debt at GWEL and GKEL targeted FY 2025-26, will lead to reduction in interest costs.
- o Divestment of stake in Bajoli Holi, Vemagiri and Rajahmundry has led to substantial reduction in consolidated debt.
- o Company has initiatives to increase operating cash flows and further reduce corporate debt at holding company to sustainable levels. Existing project entities are focused on improving operating cash flows and improve their ratings to access cheaper debt.

• Credit risk

- The Company's exposure to sale of electricity to DISCOMs may expose us to credit risk.
- Although historically, the credit risks from DISCOMs have been materially high, but in recent years, DISCOMs have been relatively regular in making payment for operational dues.
- However, in case of regulatory dues, DISCOMs have been mostly taking the litigation route and delaying the payments (covered under Regulatory Risks).
- Smart Meters business may be exposed to credit risk due to exposure to payments from DISCOMs.

For mitigating Credit Risk:

- o All receivables are being closely monitored and reviewed frequently by the top management.
- o In order to encourage DISCOMs to clear their current operation dues, the government notified the LPS Rules which substantially raised the

DISCOM's cost for delaying payments to suppliers.

- o DISCOMs are now clearing the non-regulatory dues regularly while clearing the regulatory dues only after the conclusion of legal process. The Company has made substantial progress in addressing long overdue regulatory receivables from DISCOMs.
- o For Smart Meters business, majority of the payments to be realised through direct debit facility, thus minimising the credit risk. Recently, we have raised first invoice and payment for the same is received.

➤ Investment Risks

- GREL and GVPGL remain un-operational despite being commissioned, because of unavailability of gas. As such, the Company is exposed to risk of investment impairment.
- Continued uncertainties in outcome of arbitrations pose risk to the Company's investment (SEPCO, DFCC, Gammon).
- Smart Meters being a new business area with significant financing, execution, operational and performance-based risks expose GPUIL to investment risk.
- Kamalanga Power Plant : Investment planned for an additional 4th unit (350 MW).

For mitigating investment risks:

- The portfolio is periodically reviewed and necessary decisions like divestments are explored. In case of material disputes, arbitrations are initiated.
- Gas assets:
 - o The consortium of lenders of GREL approved to accept the **OTS** amount of ₹ 657.00 crore towards full and final settlement of entire exposure including Term Loan, NCDs, CRPS, Interest Payable and Equity Shares and for closure of Corporate Guarantees.
 - o **Strategic Sale transaction:** Framework agreement signed with Synergy for divestment of 51% stake in Vemagiri and Rajahmundry. Divestment will enable reduction of loan and spin off the non-operational gas plants.
- Significant number of regulatory receivables in GWEL and GKEL have been realised.
- DFCC: Dispute Adjudication Board ("DAB") awarded ₹ 517.00 crore against a claim of ₹ 1,826 crore, both parties issued notice of dissatisfaction.
- For Smart Meters, we have partnered with Bosch as financial and strategic investor (10%). Debt funding tied up with IREDA. Payment against initial invoice received.

- The Company is actively pursuing land monetisation in the Krishnagiri SIR and have been able to monetise it to a large extent.
- The Company has strengthened our Go No-Go process evaluation for new opportunities.

➤ Regulatory Risks

- The Energy sector is under intense scrutiny for impact on climate and environment. The pressure to uphold ESG targets and to implement new procedures in line with global trends poses hurdles in accessing cheaper capital for coal-based projects.
- Further, changes and modifications in regulations related to tariffs and environmental protection under ESG mandate (like Flue Gas Desulfurisation (FGD)), use of 5% blend of biomass pellets along with coal) continued to pose funding and cash flow risks to GPUIL's energy business.
- Slow pace of resolution at regulatory forums also delays outcome of several unresolved regulatory matters.
- Change in policies at State Government level:
 - Market coupling regulation for power sector may have adverse impact on merchant tariffs.
 - New policies on toll collections on highways may affect how revenue is generated.
 - The portfolio rationalisation/ monetisation effort at Krishnagiri SEZ will require close co-operation with State Government.

As mitigation measures, the Group actively pursues:

- o Tracking of all developments in the regulatory environment.
- o Make representations through participation in industry associations to safeguard the business interests from effects of political intervention that have bearings on the businesses.
- o Identifying, monitoring and updating the management on regulatory developments and their impact.
- o Where necessary, the Group has engaged in arbitration and/or litigation as appropriate, in order to protect its interest in this regard.
- o Government of India has categorized thermal power plants into three categories (A, B, and C) based on their location. Category C is exempted from installing FGD. GWEL is in category C. GKEL, currently category B, has appealed to be considered as category C.
- o More than 90% of power generated at GKEL and GWEL is tied up in long term fixed tariff PPA; thus, impact of market coupling regulation could be minimal.
- o The Energy 2.0 initiative aims to steer the Company towards clean energy businesses, thus

making it increasingly ESG compliant.

- o The Company works closely with all relevant stakeholders to mitigate impact of the change in policies due to change in State Governments.

➤ Operational Risks

- Thermal Power Plants: Any lower side deviation to the project PLFs will impact cashflows; PLFs may be impacted due to any unscheduled maintenance, linkage coal supply, low power demand etc.
- Smart Meter Installation: Low installation rate of smart meters will erode profitability of the project on account of liquidated damages for delay, loss of monthly meter charges etc.
- Highways: Lower traffic will adversely impact earnings.

Over the years, some positive developments have taken place, which mitigate some of the operational risks:

- o Plant PLFs have improved considerably due to higher demand for power and better availability of coal which resulted in considerable profitability improvement. During FY 2024-25, both GKEL and GWEL achieved best plant performance since COD with PLFs of 88% and 87% respectively.
- o Smart meter installation: The Company has addressed teething issues and has now a well established process for meter installation with materially improved productivity, which will help in scaling up operations and reduce the potential impact of delays.
- o Highways: Out of the 3 highway assets, 2 are annuity based and immune to risk on account of lower traffic. Ambala Chandigarh project is already under arbitration on account of loss of traffic due to competing highway.

➤ Technology Risks

- GPUIL's coal-based power plants are exposed to business risks from a shift from fossil-fuel power plants to renewable-energy plants like solar power, wind power and from advancement of technology that is driving the renewable power industry.
- The smart and data driven solutions with in-built intelligence that are influencing how energy is generated, transported, stored and distributed is impacting the overall energy sector. Some of these trends have emerged around smart metering, prosumer model, IOT, energy storage, etc.
- The emerging technologies have brought in a paradigm shift with newer business models being implemented in the energy and utility sectors.

These risks may have only moderate impact on the business/ assets:

- o Conventional coal-based power plants have long term PPAs which ensure that they are not directly exposed to material risks from renewable energy. Further, coal-based power plants are expected to continue to play an important role for meeting base load requirements, as Round-the-Clock renewable energy is not yet easily available or viable.
- o Energy 2.0 initiative is aimed at adapting to new technologies at early stage to increase efficiency and to be able to enter new business streams in the sector.
- o Under Energy 2.0, the Company has scanned and analysed available technologies w.r.t Smart Meters, EV Chargers, etc. and has tried to mitigate technological risk by engaging with / adopting the latest available technology.

GPUIL also partners with leading technology companies for technology partnership in its projects. Bosch joined as technological partner in implementing Uttar Pradesh's smart meter projects.

➤ **Reputation/ Brand Risks**

GPUIL's businesses do not have noteworthy exposure to reputation and brand risks. However, reputation may have some impact if:

- The energy businesses may be lagging behind in meeting ESG expectations.
- Risk of certain assets defaulting on debt obligations.
- Negative litigation outcomes.
- Smart meter installation is consumer facing business which requires interaction with residents and can pose a brand reputation risk due to potential customer resistance to adoption.

Taking cognizance of increasing pressure on power generation industry to meet ESG expectations, GPUIL has taken proactive action in diversifying its energy portfolio and is taking measures to ensure full compliance with any new regulations that existing businesses may be subjected to.

- To mitigate risks to reputation in broader public perception, GPUIL takes proactive steps to ensure it communicates through PR and Investor teams.
- The Company's policies are continuously being updated to assess, check and enhance brand value with respect to:
 - o Operational Excellence
 - o Strong Governance (including ethics standards)
 - o Strong Sustainability Credentials
 - o CSR
- The Company is making continuing efforts to meet its debt obligations, improve liquidity and credit profile of GPUIL.

- The Company continues to work proactively with stakeholders for protecting brand name.
- Outsourced manpower installing smart meters are provided training on softer aspects to deal with consumers.

➤ **Cybersecurity Risks**

There has been no noticeable breach of cyber security in the company's network. However, due to evolving threats, vulnerability to increasingly sophisticated hacking methods, the Company's businesses may be affected in different ways as below:

- o Data loss
- o Malware/ Cyber-threat
- o Impersonation
- Given the nature of operations at GPUIL's assets the Company is not exposed to any severe cybersecurity risk.
- Smart Meters business, being highly digital in nature, may be exposed to cyber attacks

As the energy and road assets do not have any operations that heavily depend on information-sharing or live online transactions, they generally face minimal risk of disruption from online threats.

- o GPUIL is part of the group-wide centralised cyber security program in place, covering people, process and technologies aspects of Cyber Protect, Detect, Respond & Recover capabilities.
- o 24 x 7 Next Generation Security Operations Centre monitoring all critical infrastructure for any suspicious activity.
- o AI/ML based End Point Detection implemented across all computing devices.
- o Next Gen Web Application Firewall protecting all public facing websites.
- o Periodic Vulnerability assessments and Penetration testing are conducted of the environment along with continuous attack surface monitoring.
- o Periodic User awareness communications and trainings are conducted.
- o Periodic program maturity assessment is conducted to drive continuous improvement plan.
- o For UP smart meter project, BOSCH was appointed as technology partner.

➤ **Competition Risks**

Competition risk can be assessed on following dimensions:

- Competition from renewable energy projects.
- Due to large amount of capital chasing the renewable energy opportunities in India, the competition for the entry in this segment is high.

- Competition for coal-based power

Due to significant availability of cost effective renewable energy in the market and new thermal power plants coming up, the Company is exposed to risk of non-renewal of PPAs for GWEL/ GKEL.

- Competition for highways/ roads

Intense competition on highways/ EPC with players having low cost of capital

- Aggressive competition from big strategic competitors and financial players in Energy 2.0 growth areas such as Smart Metering/ Transportation projects.
- The Company has to compete with other players having access to potentially lower cost of capital resulting in highly competitive/ unviable bids, thus impacting the growth plans.

The Company's rich experience provides with the options and opportunities to mitigate risks well:

- o Overall competencies and rich experience in transportation and energy sectors (including power trading) will enable maintaining competitive position in both sectors.
- o The Company is constantly reviewing its business strategy based on assessment of growth prospective in the sectors that the Company operates in.
- o The Company is working towards improving cashflows at Holdco through various initiatives like asset monetisation, debt restructuring/ improving Credit rating of the assets to lower the cost of debt; upstreaming of cash from assets to Holdco. These initiatives will help in arranging low-cost capital/ tie up with strategic investors, to be able to bid competitively.
- o The Company is always scanning for the best opportunities available in the market and devise the business development strategy accordingly.
 - Despite the aggressive competition, the Company has been able to win Smart Meter projects in state of Uttar Pradesh.
 - The Company is looking for opportunities with low competition and has installed EV chargers at strategic locations at Group assets.

➤ Climate Risks

- Changing weather patterns are leading to more probability of extreme weather events such as
 - o Rainfall, floods, landslides
 - o Drought conditions
 - o Earthquakes
- Since, the Company has hydro and road projects in its portfolio, these are exposed to such weather

events.

The Company relies on vast experience from its businesses and internal processes to mitigate climate risks.

- The Business Continuity Plans continue to focus on:
 - o Operational continuity of the energy assets
 - o Financial sustainability – cash conservation and reduction of cost structure
 - o Organisational resilience
- The Company maintains adequate insurance to cover for such contingencies.

➤ Business Environment/ Macroeconomic risks

The Company's businesses may be exposed to risks in the following ways:

- Power demand has a strong linkage with growth, any slowdown in economy will have direct impact on power demand and may bring down energy prices.
- Volatility in power tariffs and variability in quality and quantity of coal supplied under coal linkage may pose a risk to the power plants.
- Highways are exposed to risk of lower traffic due to unfavorable macroeconomic conditions.

To mitigate the impact of these macroeconomic risk factors, GPUIL relies on diversified portfolio of assets and projects in both energy and infrastructure sectors.

- o The Company tries to maximise realisation under linkage coal and use alternate sources (power trading) to meet PPA obligations.
- o Since most of the power generated is tied up through long/ medium term PPAs, the risk of volatility in power prices is mitigated.
- o Of the three highways assets, two are on Annuity model. Therefore, exposure of the road assets to macroeconomic risks is not significant.

The Power Sector is witnessing strong demand due to buoyant economic growth, resulting in the plants being able to sell all the power generated at good prices. Coal supply has also improved with increased production by Coal India.

➤ Business Strategy and Growth risks

As a new entity, GPUIL is immediately faced with challenges in:

- Sustaining current diverse portfolio of assets across various sectors.
- Given the capital availability constraints, GPUIL needs to create a long-term sustainable business pipeline to mitigate:
 - o evolving technologies and related uncertainties (ESG driven tech, smart metering, etc.)

- o volatile regulatory environment
- o talent optimisation
- Developing a robust pipeline of projects is key to sustainability of GPUIL, given that existing portfolio faces several challenges.
- Ability to finance new projects is impacted due to capital availability constraints.

As mitigation, GPUIL will focus on below initiatives:

- o Asset-light, platform-based, and technology-oriented business models.
- o Enter strategic partnerships with global reputed majors and institutes of excellence.
- o Invest in emerging start-ups in the clean tech ecosystem where there are potential synergies.
- o Build on the group's strengths and leverage infrastructure assets and businesses of the group as a launch pad for new offerings.
- o Target Smart Metering projects, having already won the bid to install about 75 lakh meters in Uttar Pradesh and now in installation phase.
- o Growing the portfolio of renewable projects at available land at thermal plants and Group land banks, explore offering hybrid renewable power.
- o Growing the EV charging business with synergies through group businesses.
- o Hiring of new talent/ skill-development of existing talent for emerging businesses.
- o Working with strategic and financial partners to mitigate the growth risk arising from capital availability constraints.

➤ Talent risks

- For Company's 'Energy 2.0' initiative, a pool of trained manpower specialising in handling new technologies, and project management skills for their rollout at large scale, may not be readily available.
- Availability for skilled manpower for new projects in Smart Metering, renewable sector may be impacted if the current pool of talent is depleted due to factors like limited Business Development pipeline, manpower poaching by new players, etc.

For mitigation:

- o The Company plans to develop a pool of manpower with specialised skills and management capabilities.
- o The Company is working on different strategies like outsourcing/ consulting for meeting critical resource requirements.
- o For smart meters there has been significant impact of shifting from agency model to staffing model, which has helped to significantly increase productivity.

Internal control systems and their adequacy

The Company's internal financial control framework has been established in accordance with COSO framework to ensure adequacy of design and operating effectiveness of operational, financial and compliance related controls. The design and operating effectiveness of the internal controls are regularly reviewed by Management Assurance Group ("MAG") (Internal Auditors of the Company) during audits.

The Company has put adequate policies and procedures in place, which play a pivotal role in implementation and monitoring of internal controls, which are embedded in various business processes, including IT & SAP. MAG assesses opportunities for improvement in business processes, policies, systems and controls and provides their recommendations to strengthen Company's internal control environment.

Respective Business/Company CEOs are responsible for ensuring compliance with laid down policies and procedures. It helps the Company to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

MAG is responsible for undertaking internal audits across the group and they are assisted by outsourced audit firms. The internal audit scope covers, *inter alia*, all businesses and corporate functions, as per the annual audit plan reviewed and approved by the Audit Committee in the beginning of every financial year.

Audit issues identified are addressed through systemic implementation of appropriate corrective and preventive action by the respective functions. Emphasis is always placed on automation of controls within the processes to minimise deviations and exceptions.

MAG presents in quarterly Audit Committee Meeting, key audit issues along with action taken report on pending audit issues. Head MAG provides an assurance to the Audit Committee confirming compliance to prescribed processes while carrying out audits, reporting audit observations, monitoring and implementation of the agreed action plan for closure.

Developments in Human Resources and Organisation Development at GPUIL

Human Resources ("HR") being one of the key strategy partners, contributed comprehensively to the Organisational Development over the years. Following are some of the initiatives taken up by HR in the year under review:

Organisational structuring & design

Job evaluation for all roles in Renewables business and building organisation structure for Renewables business and growth businesses.

Other key initiatives for Human Resource development & Engagement:

1. Completed career conversations exercise with employees identified under Merit List, including Internal Job Postings ("IJP") transition for employees from the Merit List.
2. Completed Manpower productivity study for GKEL.

3. Recreated competency dictionary for entire Energy sector and T&UI sector.

3. We have performed assurance engagement on the Identified Sustainability Information for reporting boundaries as disclosed under Question 13 of Section A – General Disclosures of the BRSR.
4. Our reasonable assurance engagement is with respect to the Identified Sustainability Information for the reporting boundary as mentioned above for the financial year ended 31st March 2025 only unless otherwise stated and we have not performed any procedures with respect to earlier periods or any other elements included in the BRSR and, therefore, do not express any opinion thereon.

Criteria

5. The criteria used by the Holding Company to prepare the Identified Sustainability Information is summarised below (hereinafter referred to as 'Criteria'):
- a. Regulation 34(2)(f) of the Securities and Exchange Board of India ("SEBI") (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('LODR Regulations') as amended, read with SEBI Master circular SEBI/HO/CFD/PoD2/CIR/P/0155 dated 11 November 2024 and SEBI Circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2025/42 dated 28 March 2025; and
- b. SEBI Circular SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated 20 December 2024 read with BRSR Core Reporting Standard formulated by Industry Standards Forum.

Management's Responsibilities

6. The Holding Company's management is responsible for selecting or establishing suitable criteria for preparing the Identified Sustainability Information, taking into account applicable laws and regulations, if any, related to reporting on the Identified Sustainability Information, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal control relevant to the preparation of the BRSR and the measurement of Identified Sustainability Information, which is free from material misstatement, whether due to fraud or error.

Inherent limitations

7. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Practitioner's Independence and Quality Control

8. We have complied with the independence and other ethical requirements of International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants ('IESBA'), which is founded on fundamental principles of integrity, objectivity, professional competence, and due care, confidentiality and professional behaviour.
9. Our firm applies International Standard on Quality Management (ISQM) 1, "Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements" which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Practitioner's Responsibility

10. Our responsibility is to express a reasonable assurance in the form of an opinion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained. We conducted our reasonable assurance engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000 (Revised), "Assurance Engagements other than Audits or Reviews of Historical Financial Information ('ISAE 3000 (Revised)') issued by the International Auditing and Assurance Standards Board ('IAASB'). This standard requires that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information is prepared, in all material respects, in accordance with the Criteria.
11. A reasonable assurance engagement involves assessing the suitability in the circumstances of the Holding Company's use of the Criteria as the basis for the preparation of the Identified Sustainability Information, assessing the risks of material misstatement of the Identified Sustainability Information whether due to fraud or error, responding to the assessed risks as necessary in the circumstances and evaluating the overall presentation of the Identified Sustainability Information.
12. The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.
13. Given the circumstances of the engagement, in performing the procedures listed above, we:
 - a. Conducted physical discussion at the corporate office and virtual discussion with teams for data and document verification.
 - b. Interviewed senior executives to understand the reporting process, governance, systems and controls in place during the reporting period.
 - c. Reviewed the records and relevant documentation including information from audited financial statements or statutory reports submitted by the Group to support relevant performance disclosures within our scope.
 - d. Evaluated the suitability and application of the Criteria and that the Criteria have been applied appropriately to the subject matter.
 - e. Selected key parameters and representative sampling, based on statistical audit sampling tables and agreeing claims to source information to check accuracy and completeness of claims such as source data, meter data, etc.
 - f. Re-performed calculations to check accuracy of claims,
 - g. Reviewed data from independent sources, wherever available,
 - h. Reviewed data, information about sustainability performance indicators and statements in the report.
 - i. Reviewed and verified information/ data as per the Criteria;
 - j. Reviewed accuracy, transparency and completeness of the information/ data provided;
14. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our reasonable assurance opinion.

Exclusions

15. Our reasonable assurance engagement scope excludes the following and therefore we do not express an opinion on the same:
 - a. Aspects of the BRSR and data/information (qualitative or quantitative) other than the Identified Sustainability Information
 - b. Operations of the Group and its associates other than those mentioned in Identified Sustainability Information section above

- c. Data and information outside the defined reporting period
- d. Data related to Group and its associate's financial performance, strategy and other related linkages expressed in Identified Sustainability Information.
- e. The Group and its associate's statements that describe expression of opinion, belief, aspiration, expectation, forward looking statements provided by the Group and its associates and assertions related to Intellectual Property Rights and other competitive issues.
- f. Mapping of the Identified Sustainability Information with reporting frameworks other than those mentioned in Criteria above.
- g. While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.
- h. The procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

Opinion

16. Based on the procedures we have performed and the evidence we have obtained, the Identified Sustainability Information included in the BRSR for the financial year ended 31st March 2025, is prepared in all material respects, in accordance with the Criteria.

Other Matter

17. The information pertaining to the financial year ended 31st March 2024, included as comparative information in the Identified Sustainability Information, has been certified by the management and was not subjected to either limited/reasonable assurance engagement.

Our opinion is not modified with respect to this matter.

Restriction on use

18. The Assurance Report is prepared by the Holding Company's management solely for the purpose of inclusion in Annual Report of the Group and its associates for the year ended 31st March 2025. This report issued by us has been prepared and addressed to the Board of Directors of the Holding Company at the request of the Group and its associates, to assist the Group in reporting on the Group and its associate's sustainability performance and activities. Accordingly, this report may not be suitable for any other purpose and should not be used by any other party other than the Board of Directors of the Holding Company. Further, we do not accept or assume any duty of care or liability for any other purpose or to any other party to whom this report is shown or into whose hands it may come without our prior consent in writing.

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change and GHG emissions	Risk	<ul style="list-style-type: none"> Increased frequency and intensity of extreme weather events can cause disruption in operations and lead to increased maintenance and repair costs. Failure to comply with Climate Change regulations can result in fines, penalties, and reputational damage. 	<ul style="list-style-type: none"> To mitigate the risk, we at GMR have a structured system of ISO 14064 for disclosing Climate change emissions. This system enables us to reduce emissions. Resilient Infrastructure: Investing in resilient infrastructure, such as drainage systems, can reduce the impacts of extreme weather events on highways infrastructure. 	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
2	Energy Management	Risk	<ul style="list-style-type: none"> • Energy Costs: High energy consumption and inefficient energy management can result in high energy costs, which can impact the financial performance. • Energy Security: Dependence on fossil fuels and centralized energy systems can pose risks to energy security, such as supply disruptions and price volatility, which can impact the operational and financial performance. • Regulatory Compliance: Non-compliance with energy regulations, such as energy efficiency standards and emissions regulations, can result in fines and penalties, as well as reputational damage, which can impact the financial performance. • Environmental Performance: High energy consumption and emissions can have negative environmental impacts, such as air pollution and climate change, which can result in increased regulatory scrutiny, reputational damage, and potential litigation risks. 	<ul style="list-style-type: none"> • Energy Efficiency Measures: Implementing energy efficiency measures, such as upgrading lighting systems, HVAC systems, and building insulation, can reduce energy consumption and costs. • Energy Management Systems: Adopting energy management systems, such as energy monitoring and building automation systems, can optimize energy consumption and improve operational efficiency. • Stakeholder Engagement: Engaging with stakeholders, such as regulators, customers, and local communities, can improve compliance with energy regulations and enhance reputational benefits. By identifying and addressing these material ESG issues and implementing effective mitigation measures, the sector can minimize risks and negative financial implications and ensure long-term sustainability and resilience. 	Negative
3	Waste Management and Resource Conservation	Opportunity	<ul style="list-style-type: none"> • Recycling: Implementing a recycling program for construction waste, such as asphalt, concrete, and steel, can reduce waste disposal costs and generate revenue by selling recycled materials. • Circular Economy: Adopting a circular economy approach can promote the reuse and recycling of materials, reduce waste generation, and create new business opportunities. For example, waste materials can be used as inputs for new products, such as recycled asphalt or concrete. • Increasing efficiency: Improving water management practices, such as reducing water use and improving wastewater treatment, can help energy companies become more efficient and reduce their operational costs. • Lowering risks: Water scarcity and quality issues can pose a risk to the energy sector, especially for companies that rely heavily on water for their operations. Implementing sustainable water management practices can help reduce these risks and ensure long-term viability. 	Not Applicable	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Workforce health and safety	Opportunity	<ul style="list-style-type: none"> Increasing productivity: A safe and healthy workforce is generally more productive, as employees are less likely to be absent due to illness or injury. This can help Energy and Highways companies improve their operational efficiency and reduce costs. Enhancing reputation: Demonstrating a commitment to workforce health and safety can help Energy and Highways companies enhance their reputation and build trust with stakeholders, including customers, investors, and regulators. Reducing regulatory risks: The energy sector is subject to a wide range of health and safety regulations, and noncompliance can result in financial penalties and legal liability. Implementing effective health and safety practices can help energy companies avoid these risks. Attracting and retaining talent: In a competitive labour market, offering a safe and healthy work environment can help energy companies attract and retain top talent, reducing recruitment and training costs. <p>GMR Energy also has an ISO certified health & safety management system, and this management system is implemented separately at the entities of Energy sector (GWEL and GKEL- ISO 45001). Energy sector's entity GWEL received Five Star rating and Sword of Honor in British Safety Council. This demonstrates our ability and commitment to establish, implement and maintain an OH&S management system to improve occupational health and safety, eliminate hazards and minimize OH&S risks (including system deficiencies), take advantage of OH&S opportunities, and address OH&S management system nonconformities associated with its activities.</p>	Not Applicable	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5	Road Safety	Opportunity	<ul style="list-style-type: none"> Increased Revenue: Safer roads can lead to increased use of highways facilities, as customers and businesses are more likely to choose roads with a lower risk of accidents and injuries. This can result in increased revenue for the facilities. Improved Reputation: Adopting and promoting strong safety practices can enhance the reputation of facilities, increase employee, customer and investor confidence, and improve the bottom line. Compliance: Meeting and exceeding safety regulations can avoid fines and penalties, reduce legal risks, and improve overall compliance with laws and regulations. 	Not Applicable	Positive
6	Human Rights	Risk	The energy sector is subject to a wide range of human rights regulations, and non-compliance can result in financial penalties and legal liability. Implementing effective human rights practices can help companies avoid these risks.	GPUIL has various policies such as the Code of Conduct, Whistle blower Policy, Disciplinary Policy, Policy against Sexual Harassment, and Policy on Work Environment. These, alongside transparent HR procedures, effectively address human rights issues.	Negative
7	Employee Development and Engagement	Opportunity	<ul style="list-style-type: none"> Increased employee retention: When employees feel that their development and growth are prioritized by their employer, they are more likely to stay with the company long-term, reducing recruitment and training costs. Improved productivity: Engaged employees are more likely to be productive and efficient in their work, leading to better business outcomes. Enhanced innovation: When employees are given the opportunity to develop their skills and knowledge, they can bring new ideas and innovations to the company, leading to competitive advantages in the marketplace. <p>At GPUIL, we have adopted a Performance Management Process (PMP) to optimize staff performance, aiming to keep our employees motivated and engaged. This process ensures continuous interaction across hierarchies to identify and address developmental needs, nurturing future leaders.</p>	Not Applicable	Positive

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
8	Business Ethics	Risk and Opportunity	<p>The exposure to risks related to code of conduct, irresponsible and unethical business practices lead to reputational and financial losses.</p> <p>GMR has developed a strong culture focused on ethical conduct. This stems from the GMR Code of Business Conduct & Ethics (COBCE) which is supported by a dedicated Ethics & Integrity team, making ethics a competitive advantage for GMR. This also supports the Group in terms of strengthening its reputation and trust across stakeholders, building employee morale and avoiding any related risks.</p>	<p>GPUIL along with its' subsidiaries has a code of business conduct, that cover facets of business ethics such as child labour/ forced labour, corruption and bribery, discrimination. Public disclosure on breaches/ violations of code of conduct at group level. Compliance audits are conducted to ensure ethical standards are adhered. Dedicated helpdesk, Ombudsman, focal point and escalation matrix to ensure effective implementation of code of conduct</p>	Positive and Negative

Governance, leadership and oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements

At GMR Power and Urban Infra Limited (GPUIL), our belief in sustainability is rooted in the Group's vision of "making a difference to society through creation of value". Given this, GPUIL continues to integrate Environmental, Social, and Governance (ESG) principles across its operations and strategic decisions.

In FY 2024-25, we moved ahead with the implementation of Energy 2.0 Strategy, a strategic initiative towards capex-light low-carbon solutions. We completed GHG inventorization aligned with ISO 14064 and strengthened our water efficiency performance by securing ISO 46001 certification at both major units at Warora and Kamalanga. Further, nearly 100% fly ash utilization, expansion of rooftop solar capacity, and promotion of biomass usage reinforced our commitment to circularity and emission reduction. We launched a CO₂ reduction pilot program at Warora, aimed at driving long-term decarbonization. A significant achievement, for the year, came in form of Warora becoming the first thermal power plant in India to receive a Gold Rating under the CII Blue Rating Program. Both Warora and Kamalanga units received recognition from the National Productivity Council in the 'Pradarshak' category along with multiple other national recognitions for environmental stewardship.

On the social front, GPUIL continued its focus across community empowerment, employee well-being and safety. Through the GMR Varalakshmi Foundation, we positively impacted over 70,000 lives. It is noteworthy that over 95% of these beneficiaries were from marginalized and vulnerable communities. Warora's certification under SA 8000 reflects our commitment to labour rights, while targeted investments in occupational health, inclusion, and mental well-being reinforce our employee-first culture. Kamalanga also received the prestigious Sword of Honor from the British Safety Council for its robust Occupational Health and Safety Management System.

Guided by the ESG Committee and other Board level Committees, we have continued to our rigour across aspects such as data protection, anti-corruption safeguards, ethical conduct through ongoing capacity building and awareness programs.

As we move ahead, GPUIL remains steadfast in its pursuit of long-term value creation by aligning its business model with national sustainability imperatives. Through a future-focused, technology-driven, and socially-inclusive ESG strategy, we aspire to lead India's energy security and transition and contribute to a more sustainable, equitable tomorrow.

Anti-Bribery and Anti-Corruption Policy

- GMR Group has an Anti-Bribery and Anti-Corruption policy as part of our Code of Business Conduct & Ethics. The policy is applicable to all employees, Board of Directors, subsidiaries, and Business Associates (suppliers, contractors, service providers and other key business partners) of the Company and states zero tolerance towards any form of bribery and corruption.
- As per the policy, it applies to all the Employees and Value Chain Partners. Every individual or entity to whom the Policy applies, is bound to exhibit honest and ethical conduct in his/her/its official/business dealings and relationships, both in letter and in spirit. Policy also provides guidelines on political, community and charitable contributions to avoid any risk of corruption and bribery.

Governing Legislations

- The policy has been prepared after giving specific attention to the requirements of the relevant laws to prevent/counter acts of bribery and corruption in the conduct of its business across jurisdictions as per the applicable law(s) of the land where the GMR Group operates and forbids employees and Value Chain Partners from indulging in such acts. In setting out the principles, due consideration has been paid to Indian and International laws including the following:
 - Prevention of Corruption Act, 1988 and Prevention of Money Laundering Act, 2002 – as amended from time to time
 - UN Convention on Corruption
 - UK Bribery Act; and
 - US Foreign Corrupt Practices Act

Training on Anti-Bribery and Anti-Corruption Policy

Regular training and awareness sessions on the Policy is provided to all employees and concerned stakeholders to acknowledge their understanding and commitment to adhere to the defined guidelines

Reporting of Concerns and Violations

- Every person to whom the Policy applies, is encouraged to raise valid concern(s) about any Bribery or Corruption issue or suspicion of malpractice at the earliest possible stage. The GMR Group has formulated a Whistle Blower Policy with a view to provide a mechanism for the Personnel to raise concern(s) on any violation of GMR Group's Policies.
- GMR Ethics Helpline (Toll Free Number 1800 1020 467 & Email: gmr@ethicshelpline.in).

Leadership Indicators

1. Awareness programmes conducted for value chain partners on any of the Principles during the financial year:

Total number of awareness programmes held	Topics / principles covered under the training	% age of value chain partners covered (by value of business done with such partners) under the awareness programmes
5	ESG awareness for suppliers, introduction to BRSR Core, BRSR Value Chain Indicators, ISO 20400, Sustainable procurement, circular economy	60%

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/ No) If Yes, provide details of the same.

Yes, The Company has a defined Code of Conduct for its Board of Directors, which includes processes to identify and manage conflicts of interest. Directors are required to disclose changes in external board positions and any interests in other entities. The Code mandates appropriate disclosures to avoid conflicts with the Company's interests, ensures confidentiality of sensitive information, and restricts media interactions to authorized spokespersons. It also requires that Company assets and resources be used strictly for official purposes or as per the terms of appointment.

PRINCIPLE 2

Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2024-25	FY 2023-24	Details of improvements in environmental and social impacts
R&D	NA	NA	NA
Capex	6.4%	10%	Includes spends for solar power unit, CAAQMS upgradation, automatic weather monitoring station, ETP Analyzer, CEMS etc.

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No) Yes

b. If yes, what percentage of inputs were sourced sustainably? 32%

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

- **Plastics:** Plastic waste is primarily generated through packaging materials. It is sold as scrap to authorized recyclers to avoid landfill disposal. In certain cases, innovative technology is deployed at highways by integrating plastic waste into road construction as per IRC SP 98-2013 guidelines. This enhances road durability while addressing plastic waste management
- **E-Waste:** E-waste such as LEDs, computers, and accessories is stored in designated areas and sold to authorized recyclers in compliance with environmental regulation. In certain cases the equipment may be replaced and returned to the service provider.
- **Hazardous Waste:** Hazardous waste is collected and stored in designated hazardous waste facilities and then sent to authorized recyclers compliant with environmental regulations. Used batteries are returned to authorized dealers/recyclers, in line with the regulations.
- **Other Waste:** Fly ash is fully utilized for bricks, cement manufacturing, and road construction as per fly ash notification. Sludge is used as manure for horticulture development. Domestic waste is segregated into biodegradable and non-biodegradable at source. Biodegradable waste is processed via in-house mechanical bio-digester to produce compost, used for horticulture. Non-biodegradable waste is sent to authorized municipal vendors or recyclers. Significant portions of construction waste is reused or recycled, especially in road/highway projects. Non-hazardous operational waste like scrap is sold via tender for recycling. Damaged solar PV modules are handled by the OEM for safe recycling/disposal.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief.

	Yes/No (If Yes, then give details of the mechanism in brief)
Permanent Workers	Not Applicable as we do not have any permanent workers in GPUIL
Other than Permanent Workers	Not Applicable as we do not have any other than permanent workers in GPUIL
Permanent Employees	<p>Yes, HR related grievances can be logged by the employees through the 'Ask HR' section of the intranet portal. Post logging of the grievance, it is allotted to the concerned SPOC who is responsible for providing a resolution in two working days. In cases, where the resolution is not provided within two working days, automatic escalation happens, with the resolution turn-around time of one working day. In cases which still remain open post escalation, Operational Head of HR is required to provide resolution on priority.</p> <p>For non-HR related operations, employees can raise such grievances in written to the reporting authority, who is required to provide resolution within five working days. In cases where resolution requires more time, the complainant should be informed within five working days. For an unsatisfactory resolution, the employee can write to Head of the Department with a copy to Business HR who would be providing the resolution in two working days. The grievance is reviewed and post consultation with the relevant stakeholders, feedback / resolution is provided to the employee. If the employee finds the resolution to be inadequate, he / she can submit the grievance to the CEO / Group CXO (GCXO), who is required to provide the employee a personal hearing within two working days on receipt of the grievance and document the discussion. Post examining the grievance, aggrieved employee is provided a solution within 10 working days. Here, the CEO / GCXO may consult a neutral expert consultant or committee before taking a decision. The aggrieved employee who is not satisfied with the decision of the CEO / GCXO has an option to appeal to Chairman with the detailed reasons for the appeal. The Chairman will take a decision and communicate the same within 7 working days from the receipt of the appeal and the decision will be considered final and binding.</p>
Other than Permanent Employees	The process remains the same across all employee categories.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Yes, an Occupational Health and Safety Management System (OHSMS) has been implemented by GPUIL. The system is aligned with ISO 45001 standards and is in place across all major assets. It covers employees and contractors operating at our units. It includes structured processes such as Permit to Work (PTW), Hazard Identification, Risk Assessment and Control (HIRAC), Certified medical teams on site for occupational health services etc.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

GPUIL has implemented a comprehensive process to identify and assess work-related hazards and risks on both routine and non-routine basis, as part of its ISO 45001-certified Occupational Health and Safety Management System (OHSMS). Hazard Identification and Risk Assessment (HIRA) is conducted for plant activities, ensuring risks are evaluated and mitigated before the commencement of any task. Detailed Job Safety Analysis (JSA) is prepared and reviewed, specific to the task and location. Standard Operating Procedures (SOPs) and Work Instructions (WIs) are developed for each activity based on HIRA outcomes to guide safe execution. A Permit to Work (PTW) system is in place to manage high-risk tasks, ensuring that necessary controls are enforced prior to job initiation. These processes apply to all departments and personnel, from top management to the ground-level workforce, including contractors at the units.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N)

Yes, GPUIL has well-defined processes in place that allow workers to report work-related hazards and withdraw from unsafe conditions as part of its robust Occupational Health and Safety Management System. Employees and contractors at site are actively encouraged to report hazards through structured mechanisms such as near-miss reporting systems, safety observations, and suggestion schemes. These inputs are formally captured and addressed through safety forums, plant-level safety committees, and the "Sarathi" safety incident management platform. All employees or contractors are empowered to halt or not undertake tasks until identified risks are mitigated to acceptable levels, in line with the Hierarchy of Controls principle. This participatory framework ensures that safety concerns are promptly addressed and that everyone has the right and means to remove themselves from hazardous situations without fear of reprisal.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes. GPUIL has medical centres at all the offices which are accessible to the employees and contractors.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category*	FY 2024-25	FY 2023-24

	Workers	0	0

*Including in the contract workforce

Includes contractors not directly employed by GPUIL

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

GPUIL has instituted a comprehensive set of measures to ensure a safe and healthy workplace for all employees and contract workers across its operations. The entity has implemented a robust Occupational Health and Safety Management System aligned with ISO 45001, encompassing clear safety protocols, and emergency response plans. Regular safety training and awareness programs are conducted for employees and contract workforce, often facilitated by external experts, and include mental health and stress management workshops. For high-risk tasks, Job Safety Analysis (JSA) is conducted, and third-party safety audits are carried out to ensure compliance with legal and regulatory standards.

To further mitigate risks, appropriate Personal Protective Equipment (PPE) such as helmets, gloves, and masks is provided, with a focus on continuous improvement in PPE quality and usage. Health and wellness are supported through on-site medical facilities or hospital tie-ups, regular BMI checks, periodic health check-ups, and Employee Assistance Programs. Clean and ergonomically designed workspaces with proper lighting, ventilation, sanitation, and noise control are maintained to prevent physical strain and promote hygiene. Emergency preparedness is reinforced through routine fire drills, mock drills, and first aid training.

The Company also has well-defined mechanisms for reporting and addressing safety concerns. These include anonymous reporting systems, regular safety committee meetings, and digital platforms to track and investigate incidents and near-misses. All these measures collectively reinforce GPUIL's commitment to creating a safe, healthy, and compliant work environment for its workforce.

13. Number of Complaints on the following made by employees and workers:

	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Working Conditions	0	0		0	0

14. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health and safety practices	100%
Working Conditions	100%

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

GPUIL has a structured approach in place for taking corrective actions in response to safety-related incidents and addressing significant risks identified through health and safety assessments. Corrective actions are tracked and implemented under the framework of its ISO 45001-certified Occupational Health and Safety Management System (OHSMS). Following any incident or observation, root cause analyses are conducted, and corresponding corrective and preventive actions (CAPA) are implemented to eliminate recurrence. These actions are reviewed at safety committee meetings and tracked through internal digital systems "Sarathi". Additionally, third-party safety audits, job safety analyses (JSA), and routine inspections help proactively identify gaps or unsafe conditions, which are promptly addressed through updated Standard Operating Procedures (SOPs), retraining, and engineering or administrative controls.

At the GMR Warora plant, for example, significant risks are mitigated through safety modifications in equipment, enhanced PPE protocols, and periodic safety drills. At the highway operations, awareness campaigns and stakeholder engagement (e.g., during National Safety Week, road safety drives, and distribution of safety kits) have been undertaken as corrective actions in response to safety risk hotspots on corridors.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

Yes, GPUIL extends life insurance and compensatory benefits to its employees. There are no workers in GPUIL.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

Measures undertaken by the entity to ensure statutory dues are deducted and deposited by supply chain partners:

- Vendor Due Diligence: Verification of statutory registrations (PF, ESI, GST, PAN) during vendor onboarding and assessment of compliance history.
- Contractual Requirements: All vendor contracts include mandatory clauses enforcing compliance with labour laws and timely payment of statutory dues.
- Monthly Compliance Checks: Regular verification of vendor-submitted PF/ESI challans and registers; vendors must provide monthly declarations confirming payment of statutory dues.
- Enforcement Mechanism: Non-compliance results in penalties, payment suspension, or disqualification from future work.
- Worker Grievance Redressal: HR teams at sites facilitate contractors in reporting non-payment or delays in statutory benefits.

3. Provide the number of employees / workers having suffered high consequence work- related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

	Total no. of affected employees/ workers		No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment	
	FY 2024-25	FY 2023-24	FY 2024-25	FY 2023-24
Employees	0	0	0	0
Workers	0	0	0	0

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

Yes, GPUIL provides transition assistance to employees to support career endings resulting from retirement or separation. This includes retirement benefits as per statutory requirements and company policy (such as gratuity and provident fund), formal exit interviews and HR counselling to ensure employees understand their benefits and clearances, and ongoing training programmes focused on technical, safety, and soft skills to promote overall employee growth and readiness for career progression.

5. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	32%
Working Conditions	32%

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

To address significant risks and concerns identified through ESG assessments among value chain partners, GPUIL is working with its suppliers through targeted corrective actions. These include holding discussions with low-performing supply chain partners to address gaps, conducting training sessions to improve awareness of sustainability requirements, and organising regular vendor meets to reinforce expectations, share best practices, and ensure continuous improvement in performance across the value chain.

PRINCIPLE 4

 **Businesses should respect the interests of and be responsive to all its stakeholders**

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

GPUIL identifies key stakeholder groups through a structured process that considers the level of influence, impact, and engagement relevance to its operations. Stakeholders are mapped based on their interaction with the Company both internal (employees, leadership) and external (investors, regulators, communities, suppliers, and customers). The process is guided by factors such as legal obligations, operational dependence, and sustainability impact, and is regularly reviewed through materiality assessments and ongoing engagement initiatives to ensure alignment with business and ESG goals.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

GPUIL has established structured processes for stakeholder consultation on economic, environmental, and social topics, with mechanisms to ensure that stakeholder feedback reaches the Board or its designated committees. Consultations are conducted through various channels such as periodic meetings, investor interactions, sustainability assessments, grievance redressal mechanisms, and community engagement programs. Feedback is compiled and reported to the senior management and relevant Board-level committees, including the CSR Committee, Audit Committee, and ESG Committee. These bodies assess the feedback and integrate key insights into strategic decision-making. Additionally, outcomes from stakeholder engagement and materiality assessments are periodically presented to the Board, ensuring alignment between stakeholder expectations and corporate strategy.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, GPUIL uses stakeholder consultation to identify and manage environmental and social topics. Inputs are gathered through community engagements and materiality assessment and are integrated into relevant policies and practices.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

GPUIL, through GMR Varalakshmi Foundation (GMRVF), actively engages with vulnerable and marginalized stakeholder groups using a participatory, need-based approach. The Foundation views communities as partners and tailors its initiatives to address their specific challenges. For instance, in Kamalanga, around 50 elderly and destitute individuals receive regular dry ration support, while over 200 TB patients in Kamalanga and Bajoli Holi are provided with nutritional assistance to support their recovery. Additionally, Mobile Medical Units operate in three locations, delivering essential primary healthcare to underserved populations, especially the elderly.

3. Details of remuneration/salary/wages (Standalone)

a. Median remuneration / wages:

	Male		Female	
	Number	Median remuneration/ salary/ wages of respective category	Number	Median remuneration/ salary/ wages of respective category
Board of Directors (BoD)*	10	2,31,94,540	2	0
Key Managerial Personnel**	3	80,93,001	0	0
Employees other than BoD and KMP	3	9,99,345	2	4,50,033
Workers	0	0	0	0

* Out of 13 directors, remuneration was paid to 2 two executive directors. Seven independent directors were paid sitting fee and not considered in the determination of the median remuneration.

** Managing director has been included in the category of KMP and not in Board of directors.

b. Gross wages paid to females as % of total wages paid by the entity, in the following format:

	FY 2024-25	FY 2023-24
Gross wages paid to females as % of total wages	0.93%	0.78%

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, Chief Human Resource Officer (CHRO) of the respective Business Units is responsible for addressing human rights related grievances. However, CHRO is supported by the Business Unit Human Resources team for effective implementation and responsiveness to local context and concerns.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

GPUIL encourages all employees and partners to promptly report any suspected human rights violations, policy breaches, or unprofessional conduct to Human Resources. Concerns are addressed in line with GMR's HR practices and Disciplinary Policy. To ensure secure, confidential, and retaliation-free reporting, GMR has established the following mechanisms:

- (a) Whistle Blower Policy/Vigil Mechanism for unethical behaviour or suspected fraud,
- (b) Policy for Prohibition, Prevention and Redressal of Sexual Harassment at Workplace,
- (c) Direct reporting to the Chief Human Resources Officer for other human rights issues.

6. Number of Complaints on the following made by employees and workers:

	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks
Sexual Harassment	0	0	-	0	0	-
Discrimination at workplace	0	0	-	0	0	-
Child Labour	0	0	-	0	0	-
Forced Labour/Involuntary Labour	0	0	-	0	0	-
Wages	0	0	-	0	0	-
Other human rights related issues	0	0	-	0	0	-

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

	FY 2024-25	FY 2023-24
Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	0	0
Complaints on POSH as a % of female employees / workers	0	0
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

Please refer to Code of Business Conduct and Ethics at

<https://investor.gmrpui.com/pdf/GMR%20Code%20of%20Business%20Ethics%202022.pdf>

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes

10. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others - please specify	

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.

Though no significant risk / concern was reported through the assessments conducted, GPUIL ensures regular monitoring and compliance with respect to these aspects. The Company also ensures proper verification of age at the time of employment on company rolls or through the contractor. Well defined grievance redressal mechanism has also been laid out to address any such concerns or discrimination at workplace. GPUIL also ensures that all employees receive salary as per minimum wage requirements across all locations.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.

While no human rights grievances or complaints were received, GPUIL, operates in compliance with requirements on child and forced labour, non-discrimination, minimum wage, and prevention of sexual harassment, has proactively introduced a dedicated Human Rights Policy. Approved by the Chairman, this policy is being rolled out across the organisation to further strengthen awareness, alignment, and accountability on human rights standards.

2. Details of the scope and coverage of any Human rights due-diligence conducted.

GPUIL has embedded human rights through its Human Rights Policy, aligned with UNGPs, ILO conventions, and national laws. The policy covers all operations addressing issues such as child labour, forced labour, discrimination, and workplace safety. While a standalone HRDD assessment hasn't been conducted during the year, regulatory compliance with respect to key human rights parameters is tracked.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	32%
Discrimination at workplace	32%
Child Labour	32%
Forced Labour/Involuntary Labour	32%
Wages	32%
Others - please specify	

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

To address any risks and concerns identified through ESG assessments among value chain partners, GPUIL has undertaken targeted corrective actions. These include holding discussions with low-performing supply chain partners to address gaps, conducting training sessions to improve awareness of ESG requirements including human rights, and organising regular vendor meets to reinforce expectations, share best practices, and ensure continuous improvement in performance across the value chain.

**PRINCIPLE 6**

Businesses should respect and make efforts to protect and restore the environment

Essential Indicators**1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:**

Parameter	FY 2024-25	FY 2023-24
From renewable sources (in GJ)		
Total electricity consumption (A)	2,159	1,142
Total fuel consumption (B)	27,887	0
Energy consumption through other sources (C)	0	0
Total energy consumed from renewable sources (A+B+C) (in GJ)	30,046	1,142
From non-renewable sources (in GJ)		
Total electricity consumption (D)	21,628	1,34,693
Total fuel consumption (E)	11,43,23,720	11,66,47,006
Energy consumption through other sources (F)	0	0
Total energy consumed from non-renewable sources (D+E+F) (in GJ)	11,43,45,349	11,67,81,699
Total energy consumed (A+B+C+D+E+F) (in GJ)	11,43,75,395	11,67,82,841
Energy intensity per rupee of turnover (Total energy consumed / Revenue from operations) (GJ/₹ Crores)	18,029	26,015
Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed / Revenue from operations adjusted for PPP)	3,72,479	5,37,470
Energy intensity in terms of physical Output (in GJ/MWh)*	8.68	9.23
Energy intensity (optional) - the relevant metric may be selected by the entity	-	-

*While energy consumption from all assets is considered, output parameter is considered for energy operations only as highways would not have specific output as it is not a core manufacturing unit.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency: Yes, Grant Thornton Bharat LLP.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Both Warora and Kamalanga power plants have achieved their respective targets as per the applicable PAT scheme / cycle.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2024-25	FY 2023-24
Water withdrawal by source (in kilolitres)		
(i) Surface water	2,31,89,380	2,57,31,756
(ii) Groundwater	10,861	46,876
(iii) Third party water	40,455	0
(iv) Seawater / desalinated water	0	0
(v) Others	0	0
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	2,32,40,696	2,57,78,632
Total volume of water consumption (in kilolitres)	2,35,81,965*	2,57,78,632
Water intensity per rupee of turnover (Total water consumption / Revenue from operations) (KL/₹ Crore)	3,717	5,743
Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total water consumption / Revenue from operations adjusted for PPP)	76,798	1,18,650
Water intensity in terms of physical Output (KL/MWh)**	1.79	2.04
Water intensity (optional) - the relevant metric may be selected by the entity	-	-

*Water consumption includes recycled water as well.

** While water consumption from all assets is considered, output parameter is considered for energy operations only as highways would not have specific output as it is not a core manufacturing unit.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, Grant Thornton Bharat LLP

4. Provide the following details related to water discharged:

Parameter	FY 2024-25	FY 2023-24
Water discharge by destination and level of treatment (in kilolitres)		
(i) To Surface water		
- No treatment	7,482	0
- With treatment - please specify level of treatment	0	0
(ii) To Groundwater		
- No treatment	48,882	0
- With treatment - please specify level of treatment	0	0
(iii) To Seawater		
- No treatment	0	0
- With treatment - please specify level of treatment	0	0
(iv) Sent to third-parties		
- No treatment	0	0
- With treatment - please specify level of treatment	0	0
(v) Others		
- No treatment	0	0
- With treatment - please specify level of treatment	0	0
Total water discharged (in kilolitres)	56,364	0

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, Grant Thornton Bharat LLP

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, our major power plants operate as per the zero discharge principles.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2024-25	FY 2023-24
NOx	mg/Nm3	384	336
SOx	mg/Nm3	1287	1,132
Particulate matter (PM)	mg/Nm3	36.76	35
Persistent organic pollutants (POP)	NA	NA	NA
Volatile organic compounds (VOC)	NA	NA	NA
Hazardous air pollutants (HAP)	NA	NA	NA
Others - please Specify		-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Assurance conducted only for BRSR Core indicators.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	1,07,61,931	1,03,81,737
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	4,355	27,220
Total Scope 1 and Scope 2 emission intensity per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	Metric tonnes of CO ₂ equivalent/ Crores ₹	1,697	2,319
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations adjusted for PPP)		35,062	47,911
Total Scope 1 and Scope 2 emission intensity in terms of physical output (tCO₂/MWh)*		0.82	0.82
Total Scope 1 and Scope 2 emission intensity (optional) - the relevant metric may be selected by the entity		-	-

*While GHG emissions from all assets is considered, output parameter is considered for energy operations only as highways would not have specific output as it is not a core manufacturing unit.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, Grant Thornton Bharat LLP

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes, GPUIL is working towards installing solar panels for captive usage of its power plants.

9. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2024-25	FY 2023-24
Total Waste generated (in metric tonnes)		
Plastic waste (A)	4.78	3.97
E-waste (B)	4.75	41.95
Bio-medical waste (C)	0.03	0.04
Construction and demolition waste (D)	0	45
Battery waste (E)	76.88	26.14
Radioactive waste (F)	0	0
Other Hazardous waste. Please specify, if any. (G)	51.91	31.9
Other Non-hazardous waste generated (H) . Please specify, if any. (Break-up by composition i.e. by materials relevant to the sector)	37,38,536	34,69,421
Total (A+B + C + D + E + F + G + H)	37,38,674	34,69,570

Parameter	FY 2024-25	FY 2023-24
Waste intensity per rupee of turnover (Total waste generated / Revenue from operations) (Metric tonnes/ Crores ₹)	589	773
Waste intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total waste generated / Revenue from operations adjusted for PPP)	12,176	15,970
Waste intensity in terms of physical output (Metric tonnes/MWh)*	0.28	0.27
Waste intensity (optional) - the relevant metric may be selected by the entity	-	-

For each category of waste generated, total waste recovered through recycling, re-using or other recovery operations (in metric tonnes)

Category of waste		
(i) Recycled	10,17,039	51.34
(ii) Re-used	1,745	34.1
(iii) Other recovery operations	4.15	34,69,325
Total	10,18,788	34,69,411

For each category of waste generated, total waste disposed by nature of disposal method (in metric tonnes)

Category of waste		
(i) Incineration	0	0
(ii) Landfilling	0	0
(iii) Other disposal operations	27,19,832	17.78
Total	27,19,832	17.78

*While waste generation from all assets is considered, output parameter is considered for energy operations only as highways would not have specific output as it is not a core manufacturing unit.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Yes, Grant Thornton Bharat LLP

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

GPUIL adopts a structured and compliant waste management approach focused on segregation, recycling, and safe disposal. At power plants, fly ash is utilized in bricks, cement, and roads, while sludge is used as manure. Biodegradable waste is composted on-site, and non-biodegradable waste is sent to authorized recyclers. Units follow IMS-defined procedures for hazardous and non-hazardous waste, with departmental reduction targets reviewed monthly. Across sites, used batteries and e-waste are returned or sold to authorized handlers. GPUIL also minimizes hazardous chemical use through reduction targets and process improvements.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval/clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not applicable			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law/ regulation/ guidelines which was not complied with	Provide details of the non-compliance	Any fines/penalties/ action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Not applicable				

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area: GMR Gujarat Solar Power Limited, Patan, Gujarat
- (ii) Nature of operations: Electricity Generation
- (iii) Water withdrawal, consumption and discharge in the following format:

Parameter	FY 2024-25	FY 2023-24
Water withdrawal by source (in kilolitres)		
(i) Surface water	0	-
(ii) Groundwater	7,482	-
(iii) Third party water	0	-
(iv) Seawater / desalinated water	0	-
(v) Others	0	-
Total volume of water withdrawal (in kilolitres)	7,482	-
Total volume of water consumption (in kilolitres)	7,482	-
Water intensity per rupee of turnover (Water consumed / turnover)	1.18	-
Water intensity (optional) - the relevant metric may be selected by the entity (KL/MWh)	0.001	-
Water discharge by destination and level of treatment (in kilolitres)		
(i) Into Surface water		
- No treatment	7,482	-
- With treatment - please specify level of treatment	0	-
(ii) Into Groundwater		
- No treatment	0	-
- With treatment - please specify level of treatment	0	-
(iii) Into Seawater		
- No treatment	0	-
- With treatment - please specify level of treatment	0	-
(iv) Sent to third-parties		
- No treatment	0	-
- With treatment - please specify level of treatment	0	-
(v) Others		
- No treatment	0	-
- With treatment - please specify level of treatment	0	-
Total water discharged (in kilolitres)	7,482	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Assurance conducted only for BRSR core indicators.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

No operations near ecologically sensitive areas

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Producing biomass pellets by using horticulture waste	This project aims to unlock value from waste by adopting circular economy principles. The project will enhance resource efficiency, minimize waste, and deliver economic and environmental benefits through structured workplace practices and sustainable waste management. It also aligns with UN Sustainable Development Goals 12 (Responsible Consumption and Production) and 13 (Climate Action).	<ul style="list-style-type: none"> Biomass pellet combustion is carbon neutral, contributing to cleaner energy use Emits significantly lower greenhouse gases compared to conventional fossil fuels Helps prevent fire hazards caused by dry leaves, enhancing overall site safety
2.	Installation of 70 KWp solar panels at Admin building	Supply green power to admin building as well as to reduce auxillary power consumption	Carbon emission avoidance of over 50 tCO ₂

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes, GPUIL has robust Business Continuity and Disaster Management Plans in place to ensure operational resilience. For example, Warora follows an Onsite Emergency Response Plan that covers all potential emergencies in a power plant along with mitigation measures and available emergency services. Kamalanga integrates its Disaster Management Plan within a comprehensive Emergency Preparedness Plan, while Bajoli Holi operates with an Emergency Action Plan tailored for hydropower-specific risks. Rajam Solar also maintains a site-level emergency plan. These frameworks ensure timely response, safety of personnel, and continuity of operations during unforeseen events, aligning with regulatory and internal risk protocols.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

No significant adverse environmental impact has been brought to notice or identified during the assessments of vendors and suppliers in the reporting period. However, recognising the potential environmental risks linked to supply chain activities, the Company has implemented mitigation measures such as incorporating environmental, health, and safety requirements into contracts, and organising training and vendor meets to raise awareness of compliance expectations. These efforts help ensure that suppliers align with GMR's environmental standards and reduce overall value chain impacts.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

32%

PRINCIPLE 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/ associations.
- b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to.

S. No.	Name of the trade and industry chambers/ associations	Reach of trade and industry chambers/ associations (State/National)
1	Confederation of Indian Industry (CII)	National
2	The Associated Chambers of Commerce & Industry of India (ASSOCHAM)	National
3	Federation of Indian Chambers of Commerce & Industry (FICCI)	National
4	Association of Power Producers	National

2. **Provide details of corrective action taken or underway on any issues related to anti- competitive conduct by the entity, based on adverse orders from regulatory authorities.**

Name of authority	Brief of the case	Corrective action taken
Not applicable		

PRINCIPLE 8

Businesses should promote inclusive growth and equitable development

Essential Indicators

1. **Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not applicable					

2. **Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:**

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amounts paid to PAFs in the FY (In ₹)
1.	Bajoli Holi Hydro Power	Himachal Pradesh	Chamba	300	99%	1.75 crores

3. Describe the mechanisms to receive and redress grievances of the community.

GPUIL addresses community grievances through a structured, inclusive, and community-friendly mechanism implemented by its CSR arm, the GMR Varalakshmi Foundation (GMRVF). The grievance redressal process ensures transparency, responsiveness, and accountability in all community engagements. Community members including individuals, groups, and institutions such as schools and Anganwadis can raise grievances, provide feedback, or request support through multiple accessible channels. These include direct interactions with GMRVF field staff, written or verbal submissions during visits to GMRVF offices, or participation in forums and events organized by the Foundation.

All grievances are documented by designated program staff and discussed with the location program head for appropriate action. Each grievance is tracked using a Grievance Redressal Record Sheet to monitor progress and ensure timely resolution. Once adequately addressed, the grievance is formally marked as resolved and closed, reinforcing GMRVF's commitment to transparent and continuous community engagement.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

Parameter	FY 2024-25	FY 2023-24
Directly sourced from MSMEs/ small producers	24%	6%
Directly from within India	99.99%	72%

5. Job creation in smaller towns - Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost

Location	FY 2024-25	FY 2023-24
Rural	25.2%	29.6%
Semi-urban	68.2%	66.5%
Urban	0.5%	0.0%
Metropolitan	6.2%	3.9%

(As per RBI Classification System - rural / semi-urban / urban / metropolitan)

*The above data has been reported on GPUIL Consolidated basis

Leadership Indicators

1. Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):

Details of negative social impact identified	Corrective action taken
Not applicable	

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount spent (In ₹)
1.	Odisha	Dhenkanal	4,93,98,000
2.	Himachal Pradesh	Chamba	44,47,000

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)

While there is no formal preferential policy, GMR takes a responsible approach towards procurement, and it aims to promote local MSMEs and suppliers

(b) From which marginalized /vulnerable groups do you procure?

Not applicable

(c) What percentage of total procurement (by value) does it constitute?

Not applicable

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:

S. No.	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/No)	Benefit shared (Yes / No)	Basis of calculating benefit share
Given the nature of business intellectual property pertaining to traditional knowledge is not applicable				

5. Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.

Name of authority	Brief of the Case	Corrective action taken
Not applicable given the nature of business		

6. Details of beneficiaries of CSR Projects:

S. No.	CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
1.	Support to Government Schools and Anganwadis	10,290	95%
2.	Mobile Medical Units	40,293	98%
3.	Medical Clinics	18,731	98%
4.	Women empowerment programs	252	95%
5.	Support to farmers	1,484	95%

PRINCIPLE 9

Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Customers can register complaints through multiple access points, with the most preferred being direct communication with the Plant Operations Shift-in-Charge. Daily emails sent by the Shift-in-Charge regarding scheduling, curtailment, or consent include a link to the PPA team's website. All customer interactions are logged in a complaint register maintained by the Operations Department. If the issue falls within the Shift-in-Charge's scope, it is resolved within a defined timeframe and the customer is informed of the closure. Escalations, if needed, are directed to the COO for resolution.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	Not applicable given the nature of business
Safe and responsible usage	Not applicable given the nature of business
Recycling and/or safe disposal	Not applicable given the nature of business

3. Number of consumer complaints in respect of the following:

	FY 2024-25			FY 2023-24

Independent Auditor's Report

To the Members of GMR Power and Urban Infra Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of GMR Power and Urban Infra Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), its associate and joint ventures and joint operation, as listed in Annexure 1, which comprise the Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries, associate, joint ventures and joint operation, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group, its associate, joint ventures and joint operation, as at 31 March 2025, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate and joint ventures and joint operation in accordance with the Code of Ethics issued by the Institute of Chartered Accountants

of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 16 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters

4. We draw attention to note 45(ii) to the accompanying consolidated financial statements, regarding settlement of the ongoing litigations between GMR Hyderabad Vijayawada Expressways Private Limited ('GHVEPL'), step-down subsidiary of the Holding Company and National Highways Authority of India ('NHAI') including foregoing of claim on concession period of 25 years with resultant adjustment of carrying value of carriageways and handing over of the project to NHAI on receipt of compensation as per the settlement agreement dated 13 June 2024. The impact of the aforesaid settlement has been disclosed as an exceptional item in the accompanying consolidated financial statements. Our opinion is not modified in respect of this matter.

The above matter has also been reported as an emphasis of matter in the audit report dated 21 April 2025 issued by other firm of chartered accountants on the financial statements of GHVEPL, for the year ended 31 March 2025.

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, associate, joint ventures and joint operation, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
1. Evaluation and disclosure of accrual estimates for legal claims, litigation matters and contingencies (refer note 2.2(t) for material accounting policy and note 40(c) for disclosures of the accompanying consolidated financial statements)	
<p>The Group has ongoing litigations with various authorities and third parties which could have a significant impact on the consolidated financial statements, if the potential exposures were to materialize. The amounts involved are significant, and the application of accounting standards to determine the amount, if any, to be provided as a liability or disclosed as a contingent liability, is inherently subjective. Claims against the Group are disclosed in the consolidated financial statements by the Group.</p> <p>We have determined the evaluation and disclosure for litigations matters and contingencies as a key audit matter because the outcome of such legal claims and litigation is uncertain and the position taken by management involves significant judgments and estimations to determine the likelihood and/or timing of cash outflows and the interpretation of preliminary and pending court rulings.</p> <p>Considering the aforementioned matter is fundamental to the understanding of the users of the consolidated financial statements, we further draw attention to the following specific matters involving significant litigations and contingencies:</p> <p>a. Note 44(ii) to the accompanying consolidated financial statements relating to certain claims and counter claims filed by GMR Power Corporation Limited ('GPCL'), (an erstwhile step down subsidiary of the Holding Company, now merged with GMR Generation Assets Limited ('GGAL'), a subsidiary of the Holding Company vide National Company Law Tribunal ('NCLT') order dated 13 March 2020) and Tamil Nadu Generation and Distribution Corporation Limited (TANGEDCO) which are pending before the Honorable Supreme Court of India and Appellate Tribunal For Electricity ('APTEL') as detailed in the aforesaid note. Based on GPCL's internal assessment and legal opinion, pending final outcome of the litigation, the management is of the view that no further adjustments in addition to those described in aforementioned note are required to be made to the accompanying consolidated financial statements for the aforesaid matter.</p> <p>The above matter is also reported as an emphasis of matter in the audit report dated 14 May 2025 issued by another firm of chartered accountants on the financial statements of GGAL for the year ended 31 March 2025.</p>	<p>Our audit procedures in relation to the assessment of legal claims, litigation matters and contingencies included but were not limited to the following:</p> <ul style="list-style-type: none"> • Obtained an understanding of management's process and evaluated design, implementation and operating effectiveness of management's key internal controls over assessment of legal claims, litigations and various other contingencies and completeness of disclosures; • Obtained and read the summary of litigation matters provided by management, the supporting documentation on sample basis and held discussions with the management of the Group; • For claims/matters/disputes settled during the year if any, we have read the related orders/directions issued by the courts/ settlement agreements in order to verify whether the settlements were appropriately accounted for/disclosed; • Evaluated various legal opinions obtained by management and conducted a review of the assessment done by the management through internal and external tax and legal experts for the likelihood of contingencies and potential impact of various litigations and legal claims, examining the available supporting documents; • Involved auditor's experts to assess relevant judgements passed by the appropriate authorities in order to assess the basis used for the accounting treatment and resulting disclosures for entities audited by us; • Assessed the financial statements of the components with regards to the disclosures pertaining to the various legal claims, litigation matters and contingencies; and • Assessed the appropriateness and adequacy of the related disclosures in note 40(c) to the consolidated financial statements in accordance with the requirements of applicable accounting standards.

Key audit matter	How our audit addressed the key audit matter
<p>b. Note 45(iii) to the accompanying consolidated financial statements, which states that Honorable High Court of Delhi vide its order dated 6 April 2022, in favour of GMR Pochanpalli Expressways Limited ('GPEL'), a step-down subsidiary of the Holding Company, has held that overlay work is to be carried out as and when the roughness index of roads surpasses the specified thresholds. However, basis legal opinion obtained, the Group's management is of the view that pending finality of the appeal filed by NHAI before the divisional bench of Hon'ble Delhi High Court, since the matter is sub-judice, the Group has not given financial effect to the impact of the aforementioned order in the accompanying consolidated financial statements.</p> <p>The above matter has also been reported as an emphasis of matter in the audit report dated 21 April 2025 issued by other firm of chartered accountants on the financial statement of GPEL for the year ended 31 March 2025.</p> <p>c. Note 44(iii) in connection with the dispute pertaining to recovery of transmission charges from Maharashtra State Electricity Distribution Company Limited ('MSEDCL') by GMR Warora Energy Limited ('GWEL'). GWEL has disputed the contention of MSEDCL that the cost of transmission charges are to be paid by GWEL. However, based on the order of the Appellate Tribunal for Electricity ('APTEL') ('the Order') dated 8 May 2015, currently contested by MSEDCL in the Supreme Court and pending conclusion, GWEL has accounted for reimbursement of such transmission charges amounting to ₹ 616.33 crore for the period from 17 March 2014 to 30 November 2020. Further, GWEL has disclosed the aforesaid transmission charges and those invoiced directly to MSEDCL, a customer of the GWEL, by Power Grid Corporation Limited, for the period 01 December 2020 to 31 March 2025 as contingent liability, as further described in aforesaid note.</p> <p>The above matter with respect to GWEL has also been reported as emphasis of matters in the audit report dated 23 April 2025 issued by other firm of chartered accountants on the financial statements of GWEL for the year ended 31 March 2025.</p>	
2. Revenue recognition and measurement of upfront losses on long-term construction contracts (refer note 2.2(f) for the material accounting policy and note 24 for disclosures of the accompanying consolidated financial statements)	
<p>For the year ended 31 March 2025, the Holding Company has recognized revenue from Engineering, procurement and construction (EPC) contracts of ₹ 189.18 crore and has accumulated provisions for upfront losses amounting to ₹ 2.09 crore as at 31 March 2025.</p> <p>The Holding Company's revenue primarily arises from construction contracts, which is recognised over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contract with Customers, as further explained in note 2.2(f) to the accompanying consolidated financial statements, and which, by its nature, is complex given the significant judgements involved in the assessment of current and future contractual performance obligations.</p>	<p>Our audit procedures for recognition of contract revenue, margin and contract costs, and related receivables and liabilities included, but were not limited to, the following:</p> <ul style="list-style-type: none"> Evaluated the appropriateness of the Holding Company's accounting policy for revenue recognition from construction contracts in accordance with Ind AS 115, 'Revenue from Contracts with Customers'; Assessed the design and implementation of key controls, over the recognition of contract revenue and tested the operating effectiveness of these controls;

Key audit matter	How our audit addressed the key audit matter
<p>The Holding Company recognises revenue and margins based on the stage of completion which is determined on the basis of the proportion of value of goods or services transferred as at the Balance Sheet date, relative to the value of goods or services promised under the contract.</p> <p>The recognition of contract revenue, contract costs and the resultant profit/ loss therefore rely on the estimates in relation to forecast contract revenue and the total cost. These contract estimates are reviewed by the management on a periodic basis. In doing so, the management is required to exercise judgement in its assessment of the valuation of contract variations and claims and liquidated damages as well as the completeness and accuracy of forecast costs to complete and the ability to deliver contracts within contractually determined timelines. The final contract values can potentially be impacted on account of various factors and are expected to result in varied outcomes. Changes in these judgements, and the related estimates as contracts progress can result in material adjustments to revenue and margins/ onerous obligations.</p> <p>Owing to these factors, we have determined revenue recognition and provision for upfront losses from EPC contracts as a key audit matter for the current year audit.</p> <p>In addition to the above, following disclosures made in the accompanying standalone financial statements have been considered as fundamental to the users' understanding of such financial statements:</p> <p>a. We draw attention to note 24(h) to the accompanying consolidated financial statements which describes that the Holding Company has recognised certain claims in the current year and preceding years pertaining to Dedicated Freight Corridor Corporation ('DFCC') project basis evaluation by the joint venture ('JV') incorporated between the Company and SEW Infrastructure Limited, of JV's entitlement under the contract towards recovery of prolonged cost, as further detailed in the aforesaid note. Based on the legal opinion and favourable award received from Dispute Adjudicating Board as stated in the said note, the management is of the view that the aforesaid claims as included in unbilled revenue are fully recoverable.</p> <p>The above matter has also been reported as an emphasis of matter in the audit report dated 13 May 2025 issued by other firm of chartered accountants on the financial statements of GIL-SIL JV for the year ended 31 March 2025.</p>	<ul style="list-style-type: none"> For a sample of contracts, we have tested the appropriateness of amount recognized as revenue by evaluating key management judgements inherent in the determining forecasted contract revenue and costs to complete that drive the accounting under the percentage of completion method by performing following procedures: <ul style="list-style-type: none"> reviewed the contract terms and conditions; evaluated the identification of performance obligation of the contract; evaluated the appropriateness of management's assessment that performance obligation was satisfied over time and consequent recognition of revenue using percentage of completion method; obtained an understanding of the assumptions applied in determining the forecasted revenue and cost to complete; assessed management's estimates of the impact to revenue and budgeted costs arising from scope changes made to the original contracts, claims, disputes and liquidation damages (including prolongation claims) with reference to supporting documents including variation orders and correspondence between the Holding Company and the customers; and Assessed the appropriateness and adequacy of disclosures made by the management with respect to revenue recognised during the year in accordance with applicable accounting standards.
3. Impairment testing carried out for carrying value of non-current assets of an energy sector entity and carriage-ways grouped under other intangible assets of the Group (refer note 6(b) to the accompanying consolidated financial statements)	
<p>The Group has carriage-ways grouped under other intangible assets amounting to ₹ 149.41 crore as at 31 March 2025. The aforementioned intangible assets are accounted for in accordance Ind AS 38, Intangible Assets. Further, the Group has non-current assets aggregating to ₹ 4,706.68 crore in non-current assets of an energy sector entity.</p>	<p>Our audit procedures with respect to assessment of impairment loss on carrying value of non-current assets of an energy sector entity and carriage-ways grouped under other intangible assets of the Group included but not limited to the following:</p> <ul style="list-style-type: none"> Obtained an understanding of the management's process for identifying impairment indicators as well as determining the appropriate methodology to carry out impairment testing for the carrying value of investments in accordance with the requirements of Ind AS 36, Impairment of Assets;

Key audit matter	How our audit addressed the key audit matter
<p>The Group assesses aforesaid non-current assets and intangible assets for impairment when impairment indicators exist by comparing the recoverable amount (determined as the higher of fair value less costs of disposal and value in use) with the carrying amount of the respective assets as on the reporting date. The value in use is computed using the Discounted Cash Flow Model ('DCF') model.</p> <p>The determination of recoverable amounts of the carrying value of aforesaid assets is dependent on various management estimates of future cash flows and their judgment with respect to the following:</p> <p>Non-current assets of an energy sector entity:</p> <p>In case of carrying value of non-current assets of an energy sector entity, GMR Kamalanga Energy Limited ('GKEL'), cash flow projections are based on estimates and assumptions relating to conclusion of tariff rates, operational performance of the plants, and settlement with capital creditor/vendor etc.</p> <p>Carrying values of carriage-ways grouped under other intangible assets:</p> <p>In case of carriage-ways, cash flow projections are based on assumptions relating to periodic major maintenance by using a model that incorporates a number of assumptions, including the life of the concession agreement, annual traffic growth and the expected cost of the periodic major maintenance which are considered as reasonable by the management and also consider favourable outcomes of litigations etc. in the carriage-ways business.</p> <p>The key assumptions underpinning management's assessment of the recoverable amount further include, but are not limited to, projections of growth rates, discount rates, estimated future operating and capital expenditure. Changes to assumptions could lead to material changes in estimated recoverable amounts, resulting in impairment of carriage-ways grouped under other intangible.</p> <p>Considering the significance of the amounts involved and auditor attention required to test the appropriateness of the accounting estimates that involves high estimation uncertainty and significant management judgement, this matter has been determined as a key audit matter for current year's audit.</p> <p>Considering the matter is fundamental to the understanding of the users of the accompanying consolidated financial statements we further draw attention to:</p> <p>a. Note 45(i) to the accompanying consolidated financial statements which relates to the ongoing arbitrations with National Highways Authority of India (NHAI) for compensation of losses being incurred by GMR Ambala Chandigarh Expressways Private Limited ('GACEPL'), step-down subsidiary of the Holding Company, since the commencement of commercial operations. Pending outcome of the aforementioned arbitration proceedings, GACEPL has not provided for interest on the negative grant amounting to ₹ 60.32 crore calculated up-to 25 August 2020 in the accompanying consolidated financial statements, as explained in the said notes.</p>	<ul style="list-style-type: none"> Evaluated the Group's valuation methodology in determining the value-in-use and fair value to estimate the recoverable value of such investments. In making this assessment, we also assessed the professional competence, objectivity and capabilities of the valuation specialist engaged by the management; Involved auditor's valuation specialists to assess the appropriateness of the value-in-use and fair value determined by the management and to test reasonability of the key assumptions used in the cash flow forecasts such as growth rates during the explicit period, terminal growth rate and the discount rate; We have carried out discussions with management on the performance of these investments as compared to previous year in order to evaluate whether the inputs and assumptions used in the aforesaid cash flow forecasts were suitable; Discussed the significant ongoing litigations in these entities which had a material impact to ascertain the appropriateness of the outcome considered in the respective valuation models; Tested the arithmetical accuracy of the calculations performed by the management expert; and Assessed the appropriateness and adequacy of the related disclosures in the consolidated financial statements in accordance with the requirements of relevant accounting standards.

Key audit matter	How our audit addressed the key audit matter
<p>GACEPL's claim for compensation of losses is currently pending for re-initiation of arbitration proceedings as per the order of the High Court of Delhi dated 26 September 2022 which has set aside the earlier issued Arbitral Award dated 26 August 2020 appealed under Section 34 by GACEPL.</p> <p>Further, based on management's internal assessment of compensation inflows, implementation of resolution plan of GACEPL, external legal opinions, and valuation performed by independent valuation experts, the management is of the view that the recoverable amounts of the carriageways of GACEPL is assessed to be higher than the respective carrying values amounting ₹ 149.41 crore as at 31 March 2025.</p> <p>The above matters have also been reported as an emphasis of matters in the audit reports dated 21 April 2025 issued by other firms of chartered accountants on the financial statements of the GACEPL, for the year ended 31 March 2025. Further, considering the erosion of net worth and net liability position of GACEPL, such auditors have also given a separate section on the material uncertainty relating to going concern in their respective audit reports.</p> <p>b. Note 44(iv) to the accompanying consolidated financial statements in connection with trade receivables and unbilled revenue of ₹ 1,194.66 crore and ₹ 722.51 crore respectively of GMR Kamalanga Energy Limited ('GKEL'), step-down subsidiary of Holding Company, which are disputed and pending settlement/ realisation as on 31 March 2025.</p> <p>Further, the carrying value of non-current assets relating to GKEL, amounting to ₹ 4,706.68 crore, as at 31 March 2025 is dependent upon achievement of certain key assumptions considered in the valuation performed by an external valuation expert using the discounted future cash flows method as explained in the said note.</p> <p>The management of GKEL based on its internal assessment, external legal opinions and certain interim favorable regulatory orders and valuation assessment made by the external expert, is of the view that the aforesaid balances pertaining to trade receivables and unbilled revenue are fully recoverable as at 31 March 2025 is appropriate and the carrying value of non-current assets relating to GKEL is appropriate and accordingly, management has not made any adjustments in the accompanying consolidated financial statements.</p>	

Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, If we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate and joint venture in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group and its associate company, joint venture company covered under the act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated

financial statements by the Board of Directors of the Holding Company, as aforesaid.

8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate, joint ventures and joint operation are responsible for assessing the ability of the Group and of its associate, joint ventures and joint operation to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group and of its associate, joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based

on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate, joint ventures and joint operation to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate, joint ventures and joint operation to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, and its associate, joint ventures and joint operation, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. We did not audit the financial statements of 68 subsidiaries and 1 joint operation (including 9 subsidiaries and 1 joint operation consolidated for the year ended 31 December 2024, with a quarter lag), whose financial statements reflects total assets of ₹ 16,982.95 crore as at 31 March 2025, total revenues of ₹ 4,610.85 crore and net cash inflows amounting to ₹ 135.08 crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net loss (including other comprehensive income) of ₹ 133.82 crore for the year ended 31 March 2025 in respect of 1 associate and 3 joint ventures, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, associate, joint ventures and joint operation, and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries, associate, joint ventures and joint operation, are based solely on the reports of the other auditors.

Further, of these subsidiaries, associate, joint ventures and joint operation, 11 subsidiaries and 1 joint operation are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries, associate and joint ventures located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiaries, associate, joint ventures and joint operation located outside India, is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

16. We did not audit the financial statements of 2 subsidiaries (consolidated for the year ended 31 December 2024, with a quarter lag), whose financial statements reflects total assets of ₹ 23.69 crore as at 31 March 2025, total revenues of ₹ 1.69 crore and net cash outflows amounting to ₹ 0.43 crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit

Annexure I

Independent Auditor's Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of GMR Power and Urban Infra Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), its associates and joint ventures as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to consolidated financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary companies, its associate companies and joint venture companies, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial

controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary companies, its associate companies and joint venture companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

6. A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Consolidated Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become

inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of the subsidiary companies, associate companies and joint venture companies, the Holding Company, its subsidiary companies, its associate companies and joint venture companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to consolidated financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Other Matter

9. We did not audit the internal financial controls with reference to financial statements insofar as it relates to 55 subsidiary companies, which are companies covered under the Act, whose financial statements reflect total assets of ₹ 13,341.77 crore and net assets of ₹ 1,322.26 crore as at 31 March 2025,

total revenues of ₹ 3,860.16 crore and net cash outflows amounting to ₹ 113.81 crore for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net loss (including other comprehensive income) of ₹ 133.92 crore for the year ended 31 March 2025, in respect of 1 associate company and 2 joint venture companies, which are companies covered under the Act, whose internal financial controls with reference to financial statements have not been audited by us. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary companies, associate company and joint venture companies have been audited by other auditors whose reports have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company, its subsidiary companies, its associate company and joint venture companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary companies, associate company and joint venture companies is based solely on the reports of the auditors of such companies.

Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

These are SPVs which have entered into concessionaire agreements with National Highways Authority of India ('NHAI') or the respective state governments for carrying out these projects.

Construction business

Certain entities of the Group are in the business of construction including as an EPC contractor. These entities are engaged in handling of EPC solution in the infrastructure sector.

Others

Entities of the Group which cover all residual activities of the Group that include special economic zones, investment activities and management / technical consultancy.

Other explanatory information to the consolidated financial statement comprises of notes to the consolidated financial statements for the year ended March 31, 2025. The consolidated financial statements were approved by the Board of Directors and authorised for issue in accordance with a resolution of the directors on May 19, 2025.

2. Material accounting policies

The material accounting policies applied by the Group in the preparation of its consolidated financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these consolidated financial statements, unless otherwise indicated below.

Recent accounting pronouncement:

On May 09, 2025, MCA notifies the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 01, 2025. The Group is currently assessing the probable impact of these amendments on its financial statements.

2.1. Basis of Preparation and Consolidation

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, including the rules notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and Presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013 as amended from time to time.

The consolidated financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities (refer accounting policy regarding financial instruments) which have been measured at fair value.

The functional and presentation currency of the Group is Indian Rupee ('₹') which is the currency of the primary economic environment in which the Group operates.

The consolidated financial statements comprise the financial statements of the Holding Company and its subsidiaries as at March 31, 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities, used for the purpose of consolidation are drawn up to same reporting date as that of the Holding company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so. In case of entities, where it is impracticable to do so, they are consolidated using the most recent financial statements available, which has a lag of three months, adjusted for the effects of significant transactions or events occurring

between the date of those financial statements and consolidated financial statements.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant and equipment, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements.
- Non-controlling interest represents that part of the total comprehensive income and net assets of subsidiaries attributable to interests which are not owned, directly or indirectly, by the Holding Company.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

2.2. Summary of material accounting policies:

a. Business combination and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.
- Re-acquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at pooling of interest method. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill on consolidation as on the date of transition represents the excess of cost of acquisition at each point

of time of making the investment in the subsidiary over the Group's share in the net worth of a subsidiary. For this purpose, the Group's share of net worth is determined on the basis of the latest financial statements, prior to the acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Capital reserve on consolidation represents excess of the Group's share in the net worth of a subsidiary over the cost of acquisition at each point of time of making the investment in the subsidiary. Goodwill arising on consolidation is not amortised, however, it is tested for impairment annually. In the event of cessation of operations of a subsidiary, the unimpaired goodwill is written off fully.

b. Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The results, assets and liabilities of joint venture and associates are incorporated in the consolidated financial statements using equity method of accounting after making necessary adjustments to achieve uniformity in application of accounting policies, wherever applicable. An investment in associate or joint venture is initially recognised at cost and adjusted thereafter to recognise the Group's share of profit or loss and other comprehensive income of the joint venture or associate. On acquisition of investment in a joint venture or associate, any excess of cost of investment over the fair value of the assets and liabilities of the joint venture, is recognised as goodwill and is included in the carrying value of the investment in the joint venture and associate. The excess of fair value of assets and liabilities over the investment is recognised directly in equity as capital reserve. The unrealised profits/losses on transactions with joint ventures are eliminated by reducing the carrying amount of investment.

The carrying amount of investment in joint ventures and associates is reduced to recognise impairment, if any, when there is objective evidence of impairment.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of profit and loss.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When the end of the reporting period of the parent is different from that of an associate or a joint venture, an associate or a joint venture, for consolidation purposes, prepares additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of an associate or a joint venture, unless it is impracticable to do so. In case of entities, where it is impracticable to do so, they are consolidated using the most recent financial statements available, with a lag of three months, adjusted for the effects of significant transactions or events occur between the date of those financial statements and consolidated financial statements. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

c. Interest in joint operations

In respect of its interests in joint operations, the Group recognises its share in assets, liabilities, income and expenses line-by-line in the standalone financial statements of the entity which is party to such joint arrangement which then becomes part of the consolidated financial statements of the Group when the financial statements of the Holding Company and its subsidiaries are combined for consolidation. Interests in joint operations are included in the segments to which they relate.

The financial statements of the joint operations are prepared for the same reporting period as the Group. When the end of the reporting period of the parent is different from that of a joint operation, a joint operation for consolidation purposes, prepares additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of a joint operations, unless it is impracticable to do so. In case of entities, where it is impracticable to do so, they are consolidated using the most recent financial statements available, with a lag of three months, adjusted for the effects of significant transactions or events occurring between the date of those financial statements and consolidated financial statements. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

d. Current versus non-current classification

The Group presents assets and liabilities in the consolidated balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- i. Expected to be realised or intended to be sold or consumed in normal operating cycle,
- ii. Held primarily for the purpose of trading,
- iii. Expected to be realised within twelve months after the reporting period, or
- iv. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- i. It is expected to be settled in normal operating cycle,
- ii. It is held primarily for the purpose of trading,
- iii. It is due to be settled within twelve months after the reporting period, or
- iv. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Advance tax paid is classified as non-current assets.

Operating cycle for the business activities of the Group extends up to the realisation of receivables (including retention monies) within the agreed credit period normally applicable to the respective line of business.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

e. Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date using valuation techniques.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

f. Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made.

Revenue from contracts with customers is recognised when it satisfies a performance obligation by transferring promised good or service to a customer. The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation. The Group has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

The specific recognition criteria described below must also be met before revenue is recognised.

Significant financing component

Generally, the Group receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised service to the customer and when the customer pays for that service will be one year or less.

The Group also receives long-term advances from customers for rendering services. The transaction price for such contracts are discounted, using the rate that would be reflected in a separate financing transaction between the Group and its customers at contract inception, to take into consideration the significant financing component.

Contract modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for services transferred to the customer (which consist of unbilled revenue). If the Group performs by transferring services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognized as and when the performance obligation is satisfied.

Trade receivables

The trade receivables are measured at transaction price and where the value are different from the fair value, at fair value. Trade receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is the obligation to transfer services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Power sector

In case of power generating and trading companies, revenue from energy units sold as per the terms of the Power Purchase Agreement and Letter Of Intent ('LOI') (collectively hereinafter referred to as 'the PPAs') is recognised on an accrual basis and includes unbilled revenue accrued up to the end of the accounting year.

Revenue earned in excess of billings has been included under "other assets" as unbilled revenue and billings in excess of revenue earned have been disclosed under "other liabilities" as unearned revenue.

Claims for delayed payment charges and any other claims, in which the Group companies are entitled to under the PPAs, are recognized on reasonable certainty

to expect ultimate collection.

Revenue from energy units sold on a merchant basis is recognised in accordance with billings made to customers based on the units of energy delivered and the rate agreed with the customers. Revenue/ charges from unscheduled interchange for the deviation in generation with respect to scheduled generation are recognized/ charged at rates notified by CERC from time to time, as revenue from sale of energy and adjusted with revenue from sale of energy. Further, revenue is recognized/adjusted towards truing up in terms of the applicable CERC regulations.

Revenue from electrical energy transmission charges is recognized on an accrual basis in accordance with the provisions of the transmission service agreements.

Revenue from sale of coal is recognised when the risks and rewards of ownership passes to the purchaser in accordance with the terms of sale, including delivery of the product, the selling price is fixed or determinable, and collectability is reasonably assured. Revenue earned in the pre-production stage and related operating costs have been recorded against the carrying value of mining and exploration and development properties.

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Revenue from energy trading is recognised as per the agreement with the customer. In case of the energy trading agreements, where the Group is entitled only for a fixed margin and the associated risk and rewards are with the third parties, revenue is recognised only to the extent of assured margin.

Smart Meter Infrastructure

Revenue from smart metering project is comprised of supply, installation, operation and maintenance of smart meters and related infrastructure used to provide public service under "Design-Build- Finance-Own Operate-Transfer" (DBFOOT) basis. These smart meters including related infrastructure will be transferred to relevant authority at the end of the terms of the contract. These arrangements are accounted as per Ind AS 115, Appendix C & D - Service Concession Arrangements ("SCA"). These arrangements are accounted for based on the nature of the consideration.

In accordance with Appendix C of Ind AS 115, Service Concession Arrangements, the Group recognizes the rights granted by these arrangements as a financial asset to the extent that it has an unconditional contractual right to receive cash or another financial asset from the grantor for the services it performs. These rights arise as the Group performs the agreed upon

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

scope of work related to the supply and installation phase of the Advance Meter Infrastructure Provider ('AMISP') project.

The AMISP contract involves two separate performance obligations: (a) the supply, installation, integration, testing, and commissioning of the AMI system including the smart meters, cables and related infrastructure, and (b) the operation, maintenance, and support services post-installation. The allocation of the transaction price to these obligations is to be based on their relative standalone selling prices for the purpose of revenue recognition.

The Group recognizes revenue from the supply and installation of smart meters and of armoured cables using an input method to measure progress towards the complete satisfaction of the service. This approach is adopted because the customer simultaneously receives and consumes the benefits provided by the Group as the services are performed.

Revenue from the supply and installation of smart meters and related products is recognized at a point in time, on satisfaction of the performance obligations typically upon the completion and certification of all necessary activities, including the supply and installation of cables and meters. Until such certification is received, the revenue is recorded as unbilled revenue. Revenue for operations, maintenance and support post installation are recognized in each period as and when services are rendered.

Delay payment charges are recognised when recovery is virtually certain. Compensation recoverable from customers/suppliers for variations or default in purchase / sale is accrued as determined under the terms of the respective agreements and acknowledged by customers / suppliers. Claims are recognised on acceptance or receipt whichever is earlier or on attainment of finality in case of litigation.

Highways Sector

In case of entities involved in construction and maintenance of Roads, revenue is recognised in line with the Appendix C to Ind AS 115 – Service Concession Arrangements. Toll revenue is recognised on an accrual basis which coincides with the collection of tolls from the users of highways.

Revenue share paid / payable to concessionaire grantors:

Revenue share paid / payable to concessionaires / grantors as a percentage of revenues, pursuant to the terms and conditions of the relevant agreement for development, construction, operation and maintenance of the respective highways has been disclosed as revenue share paid / payable to concessionaire grantors in the consolidated statement of profit and loss.

For Construction business entities

Construction revenue and costs are recognised by reference to the stage of completion of the construction activity at the balance sheet date, as measured by the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs. Where the outcome of the construction cannot be estimated reliably, revenue is recognised to the extent of the construction costs incurred if it is probable that they will be recoverable. When the outcome of the contract is ascertained reliably, contract revenue is recognised at cost of work performed on the contract plus proportionate margin, using the percentage of completion method i.e. over the period of time. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

The estimated outcome of a contract is considered reliable when all the following conditions are satisfied:

- i. The amount of revenue can be measured reliably,
- ii. It is probable that the economic benefits associated with the contract will flow to the Group,
- iii. The stage of completion of the contract at the end of the reporting period can be measured reliably,
- iv. The costs incurred or to be incurred in respect of the contract can be measured reliably.

Provision is made for all losses incurred to the balance sheet date. Variations in contract work, claims and incentive payments are recognised to the extent that it is probable that they will result in revenue, and they are capable of being reliably measured. Expected loss, if any, on a contract is recognised as expense in the period in which it is foreseen, irrespective of the stage of completion of the contract. For contracts where progress billing exceeds the aggregate of contract costs incurred to-date and recognised profits (or recognised losses, as the case may be), the surplus is shown as the amount due to customers.

Amount received before the related work is performed are disclosed in the Balance Sheet as a liability towards advance received. Amounts billed for work performed but yet to be paid by the customers are disclosed in the Balance Sheet as trade receivables.

Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable except the interest income received from customers for delayed payments which are accounted on the basis of reasonable certainty / realisation.

For all debt instruments measured either at amortised cost or at fair value through other comprehensive

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other operating income / other income in the consolidated statement of profit and loss depending upon the nature of operations of the entity in which such revenue is recognised.

Others

- i. Income from management / technical services is recognised as per the terms of the agreement on the basis of services rendered.
- ii. Insurance claim is recognised on acceptance of the claims by the insurance company.
- iii. Revenue from charter services is recognised based on services provided as per the terms of the contracts with the customers.

Revenue earned in excess of billings has been included under 'other financial assets' as unbilled revenue and billings in excess of revenue has been disclosed under 'other liabilities' as unearned revenue.

g. Service concession arrangements

The Group constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include Infrastructure used in a public-to-private service concession arrangement for its entire useful life.

Under Appendix C to Ind AS 115 – Service Concession Arrangements, these arrangements are accounted for based on the nature of the consideration. The intangible asset model is used to the extent that the operator receives a right (i.e. a concessionaire) to charge users of the public service. The financial model is used when the operator has an unconditional contractual right to receive cash or other financial assets from or at the direction of the grantor for the construction service. When the unconditional right to receive cash covers only part of the service, the two models are combined to account separately for each component. If the operator performs more than one service (i.e. construction, upgrade services and operation services) under a single contract or arrangement, consideration

received or receivable is allocated by reference to the relative fair values of the service delivered, when the amount are not separately identifiable.

Other intangible asset is amortised over the shorter of the estimated period of future economic benefits which the other intangible assets are expected to generate or the concession period, from the date they are available for use.

An asset carried under concession arrangements is derecognised on disposal or when no future economic benefits are expected from its future use or disposal.

The Group recognises a financial asset to the extent that it has an unconditional right to receive cash or another financial asset from or at the direction of the grantor. In case of annuity-based carriageways, the Group recognises financial asset.

h. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

i. Taxes on income

Current tax

Tax expense for the year comprises current tax and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using the tax rates and tax laws that have

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

been enacted or substantively enacted by the end of the reporting period.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of the taxable profit and is accounted for using the balance sheet liability model. Deferred tax liabilities are generally recognised for all the taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Deferred tax assets include Minimum Alternative Tax ("MAT") paid in accordance with the tax laws in India, which is likely to give future economic benefits in the

form of availability of set off against future income tax liability. Accordingly, MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably, and it is probable that the future economic benefit associated with the asset will be realized.

In the year in which the Group recognises MAT credit as an asset, it is created by way of credit to the statement of profit and loss shown as part of deferred tax asset. The Group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

j. Non-current assets included in disposal group held for sale and discontinued operations.

The Group classifies non-current assets included in disposal group as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- a) The appropriate level of management is committed to a plan to sell the asset,
- b) An active programme to locate a buyer and complete the plan has been initiated,
- c) The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- d) The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- e) Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets included in disposal group held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the consolidated balance sheet.

Property, plant and equipment and other intangible assets once classified as held for sale/ distribution to

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

owners are not depreciated or amortised.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- i) Represents a separate major line of business or geographical area of operations,
 - ii) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations
- Or
- iii) Is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented separately in the consolidated statement of profit and loss.

k. Property, plant and equipment

Freehold land is carried at historical cost and is not depreciated. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Capital work in progress includes cost of property, plant and equipment under installation/under development as at the balance sheet date and is stated at cost less accumulated impairment loss.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset having useful life that is materially different from that of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the consolidated statement of profit or loss as and when incurred.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset are derecognised when replaced. All other repairs and maintenance are

charged to profit and loss during the reporting period in which they are incurred.

l. Depreciation on property, plant and equipment

Energy sector

In case of domestic entities, the depreciation on property, plant and equipment is calculated on a straight-line basis using the rates arrived at, based on useful lives estimated by the management, which coincides with the lives prescribed under Schedule II of the Act except on case of plant and machinery in case of some gas based power plants and power generating units dedicated for generation of power under CERC tariff regulations where the useful life of the asset is considered as 25 years as prescribed by CERC being the regulatory authority in the energy sector, as against 40 years as per Schedule II of the Act.

Other entities

For domestic entities other than aforesaid entities, the depreciation on the Property plant and equipment is calculated on a straight-line basis using the rates arrived at, based on useful lives estimated by the management, which coincides with the lives prescribed under Schedule II of the Companies Act, 2013.

The management has estimated the useful life of assets individually costing ₹ 5,000 or less to be less than one year, which is lower than those indicated in Schedule II.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation charge for impaired assets is adjusted in future periods in such a manner that the revised carrying amount of the asset is allocated over its remaining useful life.

Assets acquired under finance leases are depreciated on a straight-line basis over the lease term. Where there is reasonable certainty that the Group shall obtain ownership of the assets at the end of the lease term, such assets are depreciated based on the useful life prescribed under Schedule II to the Companies Act, 2013 or based on the useful life adopted by the Group for similar assets.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

Useful life of Property, plant and equipment, other than disclosed above:

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Category of asset	Estimated useful life
Plant and equipment-General	4 – 15 years
Plant and equipment-Power Plant	1- 32 years
Buildings	7 – 30 years
Office equipment	5 years
Furniture and fixtures	3- 10 years
Vehicles and Aircrafts	5 – 25 years
Computers	3- 6 years

Leasehold improvements are depreciated over the primary period of lease or estimated useful life, whichever is lower, on straight line basis.

The Group, based on technical assessment made by the technical expert and management estimate, depreciates certain items of plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013.

m. Investment property

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes borrowing costs for long-term construction projects if the recognition criteria are met.

Depreciation is recognised using straight line method so as to write off the cost of the investment property less their residual values over their useful lives specified in Schedule II to the Companies Act, 2013, or in the case of assets where the useful life was determined by technical evaluation, over the useful life so determined. Depreciation method is reviewed at each financial year end to reflect the expected pattern of consumption of the future benefits embodied in the investment property. The estimated useful life and residual values are also reviewed at each financial year end and the effect of any change in the estimates of useful life / residual value is accounted on prospective basis. Freehold land and properties under construction are not depreciated.

Investment properties are derecognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal.

The difference between the net disposal proceeds and

the carrying amount of the asset is recognised in consolidated statement of profit and loss in the period of derecognition.

Investment property under construction

Investment property under construction represents expenditure incurred in respect of capital projects and are carried at cost. Cost includes land, related acquisition expenses, development/construction costs, borrowing costs and other direct expenditure.

n. Other intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of other intangible assets are assessed as either finite or indefinite.

o. Amortisation of other intangible assets

Other intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period, with the effect of any change in the estimate being accounted for on a prospective basis. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the consolidated statement of profit and loss unless such expenditure forms part of carrying value of another asset.

The Group amortises the Power Purchase Agreement over the remaining useful life of the Plant as per the agreement.

Carriageways related to toll based road projects are amortized based on proportion of actual revenue received during the accounting year to the total projected revenue till the end of the concession period in terms of MCA notification dated April 17, 2012 and in terms of the amendments to the Schedule II of the Act vide MCA notification dated March 31, 2014 pursuant to the exemption provided as per D22 (i) of Ind AS 101.

The total projected revenue for the entire useful life is reviewed at the end of each financial year for expected changes in traffic and adjusted to reflect any changes

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

in the estimate which will lead to actual collection at the end of useful life.

Other intangible assets representing power plant concessionaire rights and carriageways are amortized over the concession period, ranging from 23 to 40 years and 18.5 to 25 years respectively, as the economic benefits from the underlying assets would be available to the Group over such period as per the respective concessionaire agreements.

Software is amortised based on the useful life of six years on a straight-line basis as estimated by the management.

Amortisation on impaired assets is provided by adjusting the amortisation charge in the remaining periods so as to allocate the asset's revised carrying amount over its remaining useful life. Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of profit and loss when the asset is derecognised.

p. Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds including interest expense calculated using the effective interest method, finance charges in respect of assets acquired on finance lease. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset until such time as the assets are substantially ready for the intended use or sale. All other borrowing costs are expensed in the period in which they occur.

q. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement convey a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

Group as a lessee

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rentals

are charged to statement of profit and loss on straight-line basis except where scheduled increase in rent compensates the lessor for expected inflationary costs.

The Group enters leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist. At lease commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset. The Group has elected to account for short-term leases using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

Group as a lessor:

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

r. Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs.
- Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- Contract work in progress: contract work in progress comprising construction costs and other directly attributable overheads is valued at lower of cost and net realisable value

Cost of inventories is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Costs incurred that relate to future activities on the contract are recognised as "Contract work in progress".

Contract work in progress comprising construction costs and other directly attributable overheads is valued at lower of cost and net realisable value.

Assessment of net realisable value is made in each subsequent period and when the circumstances that previously caused inventories to be written-down below cost no longer exist or when there is clear evidence of an increase in net realisable value because of changed economic circumstances, the write-down, if any, in the past period is reversed to that extent of the original amount written-down so that the resultant carrying amount is the lower of the cost and the revised net realisable value.

s. Impairment of non-financial assets, investments in joint ventures and associates

As at the end of each accounting year, the Group reviews the carrying amounts of its property plant and equipment ('PPE'), investment properties, other intangible assets and investments in associates and joint ventures to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the said assets are tested for impairment so as to determine the impairment loss, if any. Goodwill and the intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- in case of an individual asset, at the higher of the net selling price and the value in use; and
- in case of a cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net selling price and the value in use.

(The amount of value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life. For this purpose, the discount rate (pre-tax) is determined based on the weighted average cost of capital of the respective company suitably adjusted for risks specified to the estimated cash flows of the asset).

For this purpose, a cash generating unit is ascertained as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the consolidated statement of profit and loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. For this purpose, the impairment loss recognised in respect of a cash generating unit is allocated first to reduce the carrying amount of any goodwill allocated to such cash generating unit and then to reduce the carrying amount of the other assets of the cash generating unit on a pro-rata basis.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

immediately in the consolidated statement of profit and loss.

t. Provisions and contingent liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

Provisions and contingent liabilities are reviewed at each balance sheet.

Decommissioning liability:

Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognised as part of the cost of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The

unwinding of the discount is expensed as incurred and recognised in the consolidated statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

u. Retirement and other employee benefits

Retirement benefit in the form of provident fund, pension fund and superannuation fund are defined contribution scheme. The Group has no obligation, other than the contribution payable. The Group recognizes contribution payable to provident fund, pension fund and superannuation fund as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet reporting date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end.

The Group presents the leave as a current liability in the consolidated balance sheet, to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method using actuarial valuation to be carried out at each balance sheet date

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

amounts included in net interest on the net defined benefit liability), are recognised immediately in the consolidated balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- a. The date of the plan amendment or curtailment, and
- b. The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- a. Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- b. Net interest expense or income.

v. Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at transaction cost and where such values are different from the fair value, at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are immediately recognised in the consolidated statement of profit and loss. In case of interest free or concession loans/debentures/preference shares given to associates and joint ventures, the excess of the actual amount of the loan over initial measure at fair value is accounted as an equity investment.

Investment in equity instruments issued by associates and joint ventures are measured at cost less impairment.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the

expected life of the financial instrument, or where appropriate, a shorter period.

(a) Financial assets

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets measured at fair value

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset not measured at amortised cost or at fair value through other comprehensive income is carried at fair value through the statement of profit and loss.

For financial assets maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Impairment of financial assets, excluding investments in joint ventures and associates

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through profit or loss.

The Group recognises impairment loss on trade receivables using expected credit loss model, which involves use of provision matrix constructed on the basis of historical credit loss experience as permitted under Ind AS 109 – Financial instruments.

For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

De-recognition of financial assets

The Group de-recognises a financial asset only

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

when the contractual rights to the cash flows from the financial asset expire, or it transfers the financial asset, and the transfer qualifies for de-recognition under Ind AS 109.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the carrying amounts measured at the date of de-recognition and the consideration received is recognised in the consolidated statement of profit and loss.

For trade and other receivables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(b) Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial Liabilities

Financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the consolidated statement of profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

a. Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

b. De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit and loss.

Put option liability

The potential cash payments related to put options issued by the Group over the equity of subsidiary companies to non-controlling interests are accounted for as financial liabilities when such options may only be settled other than by exchange of a fixed amount of cash or another financial asset for a fixed number of shares in the subsidiary. The financial liability for such put option is accounted for under Ind AS 109.

The amount that may become payable under the option on exercise is initially recognised at fair value under other financial liabilities with a corresponding charge directly to equity. All subsequent changes in the carrying amount of the financial liability are recognised in the profit or loss attributable to the parent. The entity recognises both the non-controlling interest and the financial liability under the NCI put. It continues to measure non-controlling interests at proportionate share of net assets.

If the put option is exercised, the entity accounts for an increase in its ownership interest. At the same time, the entity derecognises the financial

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

liability and recognises an offsetting credit in the same component of equity reduced on initial recognition. In the event that the option expires unexercised, the liability is derecognised with a corresponding adjustment to equity.

Off-setting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

w. Derivative financial instruments

The Group uses derivative financial instruments, such as call spread options, embedded derivatives, interest rate swap etc. forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognised in consolidated OCI and later reclassified to profit or loss when the hedge item affects profit or loss.

For the purpose of hedge accounting, hedges are classified as:

- a) Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment.
- b) Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.
- c) Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Group's risk management objective and strategy for undertaking hedge, the hedging / economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging

instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Cash flow hedges that meet the strict criteria for hedge accounting are accounted for as described below:

The effective portion of the gain or loss on the hedging instrument is recognised in consolidated OCI in the cash flow hedge reserve, while any ineffective portion is recognised immediately in the consolidated statement of profit and loss.

Amounts recognised as consolidated OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in consolidated OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

x. Convertible preference shares/ debentures

Convertible preference shares / debentures are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares / debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for conversion right. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not re-measured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares / debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

y. Cash and cash equivalents

Cash and cash equivalent in the consolidated balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

z. Cash dividend

The Group recognises a liability to make cash distributions to equity holders of the respective Companies when the distribution is authorised and the distribution is no longer at the discretion of such Company. Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the respective Company's Board of Directors.

aa. Foreign currencies

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Group uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of the following:

- Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognised in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., consolidated financial statements when the foreign operation is a subsidiary), such exchange differences are recognised initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.
- Exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net

investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.

- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.
- Exchange differences arising on translation of long term foreign currency monetary items recognised in the financial statements before the beginning of the first Ind AS financial reporting period in respect of which the Group has elected to recognise such exchange differences in equity or as part of cost of assets as allowed under Ind AS 101-"First time adoption of Indian Accounting Standard" are recognised directly in equity or added/ deducted to/ from the cost of assets as the case may be. Such exchange differences recognised in equity or as part of cost of assets is recognised in the statement of profit and loss on a systematic basis.

Group companies:

On consolidation, the assets and liabilities of foreign operations are translated into Indian Rupees at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the Group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that foreign operation is recognised in the consolidated statement of profit and loss.

bb. Exceptional items

An item of income or expense which due to its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Group is treated as an exceptional item and the same is disclosed in the consolidated financial statements.

cc. Corporate social responsibility ('CSR') expenditure

The Group charges its CSR expenditure during the year to the consolidated statement of profit and loss.

dd. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

Notes:

i) Allocation of goodwill to cash generating units (CGU):

Goodwill has been allocated to the following CGUs for impairment testing purpose with carrying amount of goodwill being significant in comparison with the entity's total carrying amount of goodwill with indefinite useful lives:

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Goodwill relating to GEL (refer note 50)	35.89	35.89
Goodwill relating to GCSL (refer note 50)	1.04	1.04
	36.93	36.93

The recoverable amount of the above mentioned groups, for impairment testing is determined based on value-in-use calculations which uses cash flow projections based on financial budgets approved by management covering a period ranging from 13-38 years, as based on the agreements with respective authorities.

ii) Key assumptions used for value in use calculations are as follows: ^{##}

The Group prepares its cash flow forecasts based on the most recent financial budgets approved by management with projected revenue growth rate ranges from 0% to 12.80% (March 31, 2024 : 0%-15.60%) for the forecast period. The rate used to discount the forecasted cash flows ranges from 12.20% to 27.30% (March 31, 2024 : 11.30% to 19.10%).

***Discount rates** Management estimates discount rates that reflect current market assessments of the risks specific to the CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its weighted average cost of capital (WACC).

***Growth rates** The growth rates are based on industry growth forecasts. Management determines the budgeted growth rates based on past performance and its expectations on market development. The weighted average growth rates used were consistent with industry reports.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

Notes:

- Aggregate amount of unquoted investment in joint ventures - ₹ 4.00 crore (March 31, 2024: ₹ 197.86 crore). In addition, the Group has Investments in GBHHPL amounting to ₹ 101.40 crore which has been disclosed as Assets classified as held for sale. (Also refer note 35).
- During the year ended March 31, 2019, the Group had accounted for the put option to acquire additional 17.85% stake from investors in regard to GMR Energy Limited at an agreed amount. However, the same has been considered for effective holding but not for voting rights since March 31, 2019.

The entire 17.85% stake has been transferred to GPUIL as at March 31, 2025.(12.52% holding transferred to GPUIL as at March 31, 2024).

- Group held 69.58% stake in GEL till November 21, 2023 and accordingly the investment was shown as 'Investment in Joint Venture'. The Company entered into a settlement agreement with Power and Energy International (Mauritius) Limited (hereinafter referred to as 'Tenaga') on November 17, 2023 to acquire additional 29.14% stake of GEL at a purchase consideration of ₹ 237.55 crore (USD 28.50 million).

With this complete buy-out of Tenaga stake, the Shareholders Agreement ("SHA") with Tenaga stands terminated thereby increasing the shareholding of the Group by 29.14% and enabling control over GEL and full line -by-line consolidation w.e.f November 22, 2023 in accordance with Ind AS 110 'Consolidated Financial Statements'.

- The reporting dates of the joint ventures entities coincide with the Holding Company except in case of Limak whose financial statements for the year ended and as at December 31, 2023 and December 31, 2024 as applicable were considered for the purpose of consolidated financial statements of the Group as these are the entities incorporated outside India and their financials statements are prepared as per calendar year i.e., January to December.
- GEL, its subsidiaries and joint ventures as detailed in note 2.3 have been referred to as 'GEL and its components'.
- The Holding Company has acquired 26% stake in Portus Ventures Limited during the year ended March 31, 2025.
- During the year ended March 31, 2025 the Board has given in principle approval for Divestment of stake in Non-operating and Stressed assets – GMR Bajoli Holi Hydropower Private Limited ("GBHHPL"), GMR Vemagiri Power Generation Limited ("GVPG") and GMR Rajahmundry Energy Limited ("GREL"). Accordingly, on April 13, 2025, the Company, GEL, GRSPPL, GASL and GGAL, ('subsidiaries of the Company') have signed a framework agreement with Synergy Investments Holding Limited ("Synergy") for the divestment of their respective stakes in GBHHPL, engaged in operation of 180 MW hydro-electric power project. Accordingly, the Group has shown its investment in GBHHPL as Assets classified as held for sale. (Also refer note 35).
- GEL has acquired additional stake of 50% in GTOMPL on March 27, 2025.

1. GMR Airports Limited ("GAL") (formerly known as GMR Airports Infrastructure Limited) had issued 6 (six) Foreign Currency Convertible Bonds (FCCBs) of USD 5,00,00,000 each, aggregating to USD 300 million due in 2075 to the Kuwait Investment Authority ("KIA") on December 10, 2015. The National Company Law Tribunal (NCLT), Mumbai vide its dated on December 22, 2021 had approved the Composite Scheme of Amalgamation and Arrangement amongst GMR Power Infra Limited, GAL and the Holding Company ("Scheme"). The Scheme inter-alia provides for Demerger of EPC and Urban Infra business of GAL into the Holding Company. In accordance with the requirements of Section 2(19AA) of the Income Tax Act, 1961, part of the liability pertaining to the outstanding FCCBs of GAL attributable to the Demerged Undertaking stands vested to the Holding Company pursuant to the Demerger. Thus upon effectiveness of the Scheme, subject to necessary regulatory approval, FCCBs of USD 275 million stands vested to the Holding Company. To give effect to the split of FCCBs between GAL and the holding company, the Holding Company, GAL and KIA had entered into an agreement on January 12, 2022 inter-alia for redenomination of the FCCBs into a total of 300 FCCBs, each having a face value of USD 10,00,000, from 6 FCCBs of USD 5,00,00,000 each and split of FCCBs between GAL and the Holding Company such that GAL will retain FCCBs of USD 25 million and remaining FCCBs of USD 275 million which stands vested to the Holding Company.

The tenure of FCCBs was 60 years from the date of allotment by GAL and the USD 275 million FCCBs outstanding in the Holding Company if converted shall account for 111,241,666 equity shares of the Holding Company. The right of conversion of any or all of the FCCBs to equity shares of GAL and/or GPUIL, will need to be simultaneously exercised in the equivalent ratio. The outstanding amount as at March 31, 2025 is ₹ Nil (March 31, 2024 : ₹ 2,247.67 crore). Interest was payable on annual basis.

During the year ended March 31, 2025, USD 275 million 7.5% Subordinated Foreign Currency Convertible Bonds (FCCBs), have been transferred by KIA to two eligible lenders i.e., Synergy Industrials Metals and Power Holdings Limited ("Synergy") (USD 154 million) and to GRAM Limited ("GRAM") (USD 121 million).

On July 10, 2024, the Holding Company has converted 7.5% USD 275 million FCCBs into 111,241,666 number of equity shares of ₹ 5/- each, to the above FCCB holders, as per the agreed terms and basis receipt of a conversion notice from the FCCB holders. As the FCCB holders are equity investors, and as a part of the overall commercials between the Holding Company and the FCCB holders, the FCCB holder waived off the outstanding accrued interest on such FCCB's amounting ₹ 1,175.75 crore. The Group has recognized gain on account of such waiver exceptional gain in the consolidated statement of profit and loss for the year ended March 31, 2025.

2. 6,500 Non convertible listed redeemable debentures at 9.38% interest rate of the face value ₹ 10,00,000 each amounting to ₹ 650.00 crore are repayable in 34 half yearly unequal installments commencing from April 15, 2010 to October 15, 2026. NCD's are secured by way of first charges in all the assets of the GPIL both movable and immovable properties, both present and future (including future receivables) but excluding project assets (unless permitted by the NHAI under the concession agreement).

- Interest free security deposit received from customers (that are refundable in cash on completion of its term) are carried at amortised cost. Difference between the amortised value and transaction value of the security deposits received has been recognised as deferred revenue.
- GKEL has invoked the Bank Guarantees of its EPC Contractors (herein after called 'party') amounting to ₹ 579.26 crore on November 12, 2014 for liquidated damages, non-payment of debit notes issued by GKEL and other liabilities. The amount of invoked bank guarantee has been disclosed under 'other liabilities' is pending settlement of the litigation and no effect has been given to the carrying value of the fixed assets.

GKEL has in its books made liability in view of the disputes between SEPCO and GKEL and taken into consideration the Award passed by the Arbitral Tribunal based on generally accepted accounting practices. Irrespective of the heads under which they appear or their nomenclature/heading/title/narration, etc., such liability do not make the Company liable for payment since liability is disputed.

- In terms of the Power Purchase Agreement between the Company and GRID Corporation of Orissa Limited (GRIDCO Limited), it had deducted ₹ 5.00 crore towards Orissa Environment Management Fund (OEMF) during December 2016 from the power purchase bill payable to the Company. As per the Memorandum of understanding (MOU) entered between the Group and the State of Odisha, an annual contribution of 6 paise per unit of the energy sent out from the Thermal Power Plant to outside the State is to be contributed by the Group towards the Environment Management Fund (OEMF). In this regard, the Group has filed a writ petition WP(C) No-21550/17 against the State of Odisha and 3 Others before the Hon'ble High Court of Orissa, Cuttack to direct GRIDCO not to collect/ deduct any amount towards OEMF from the monthly bill payable to the Company and refund the amount already deducted. Hon'ble High Court has granted stay vide its Order on October 10, 2017.

The Management of the Group is of the opinion that the contribution to the OEMF is a contractual arrangement between the Govt. of Odisha and the Company and the claim does not have any regulatory/legislative backing. The management is hopeful of getting a favourable order from courts in view of the internal legal opinion received stating that the OEMF set up under Section 27E of Orissa Minor Mineral Concession Rules 2004 for reclamation, and rehabilitation of mined out areas of minor minerals and conservation of environment thereof is applicable to mining companies and power generating companies will not fall under the ambit of this Act nor the same is any statutory obligation. However, as a matter of prudence, the Group has made a provision for OEMF and disclosed under other current liabilities.

- During the year ended March 31, 2010, GVPGL was granted a refund of customs duty of ₹ 69.10 crore which was paid earlier towards the import of plant and machinery. Subsequently, GVPGL received a refund of ₹ 59.11 crore. During the year ended March 31, 2011, GVPGL received an intimation from the Office of the Joint Director General of Foreign Trade ('DGFT') for cancellation of duty drawback refund order received in 2009-10 to the extent of the unpaid amount of ₹ 9.99 crore. During the year ended March 31, 2012, GVPGL received a further intimation from DGFT for cancellation of duty drawback refund order of ₹ 59.11 crore received in 2009-10, thereby seeking refund of the amount GVPGL received earlier. Based on an expert's opinion the management is confident that the duty drawback refund granted earlier was appropriate and that the cancellation of the duty drawback refund is not tenable. Accordingly, no adjustment has been made with regard to the refund of ₹ 59.11 crore already received by GVPGL in the consolidated financial statements of the Group. GVPGL has filed a writ petition with the Hon'ble High Court of Delhi in November 2011. During the year ended March 31, 2015, the matter has been transferred to

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

h) The Company and SEW Infrastructure Limited ('SIL') had incorporated a Joint venture, GIL- SIL JV (the "JV") and entered into a contract with Dedicated Freight Corridor Corporation of India Limited ("DFCCIL") in 2015 for execution of design and construction of civil structures and track works for double line railway involving formation in embankments/ cuttings, ballast on formation, track works, bridges, structures, buildings, yards, integration with existing railway system and testing and commissioning on design-build lump sum basis for Mughalsarai - New Karchana Station (including) of Eastern Dedicated Freight Corridor Project (Contract Package - 201) and New Karchana (excluding) - New Bhaupur Station (excluding) of Eastern Dedicated Freight Corridor Project (Contract Package - 202) (hereinafter together referred as 'DFCC project') to the JV.

Subsequently JV had sub-contracted a significant portion of such contract to the Company. During the execution of the project, DFCCIL failed to fulfil its obligations in a timely manner and as a consequence of such non-fulfilment, the execution of DFCC project got significantly delayed. In view of the aforementioned delay, the JV sought extensions as per Clause 8.4 of the General Conditions to the Contract and DFCCIL had granted such extensions from time to time.

During the year ended March 31, 2023, the JV had submitted its claim against DFCCIL for the period of delay i.e. from January 2019 to December 31, 2021. DFCCIL has rejected such claim citing the amendments made in the contract, while granting extension of time. JV has invoked the dispute resolution process and accordingly Dispute Adjudicating Board (DAB) is constituted.

As per directions of DAB, JV has submitted its Statement of Claim ('SoC') before DAB on May 22, 2023 for an amount of ₹ 449.01 crore for Contract Package 202 and on June 09, 2023 for an amount of ₹ 398.63 crore for Contract Package 201 respectively (excluding interest and GST) for cost incurred during the period from January 21, 2019 to September 30, 2022.

Further, JV has reserved its right to claim further additional cost for the damages to be suffered during the period (i.e. September 30, 2022 till completion of the project) to be computed in the same manner as set out in the SoC. DFCCIL has submitted its Statement of Defense ('SoD') and has also filed counter claims for both the Contract Packages.

JV has further amended its Statement of Claim for ₹ 812.99 crore on March 15, 2024 for Contract Package 201 and for ₹ 1,013.47 crore on February 17, 2024 for Contract Package 202 for cost incurred during the period from January 21, 2019 to September 30, 2022. As per the revised timelines set forth by DAB, both JV and DFCCIL has submitted their revised Statement of Defense and Rejoinders.

On November 01, 2024 majority of the DAB members have awarded an amount of ₹ 262.54 crore for Contract Package 201 to JV for the claim period from January 21, 2019 to September 30, 2022 subsequently on November 21, 2024 they have given its award for Contract Package 202 wherein they have awarded an amount of ₹ 254.80 crore. Further, DAB members unanimously have rejected all the counter claims of DFCCIL for Contract Package 202 and 201.

However, JV and DFCCIL, being dissatisfied with the Award for Contract Package 201 & Contract Package 202 issued Notice of Dissatisfaction. Thereafter, JV issued Notice of Amicable Settlement for Contract Package 201 & Contract Package 202 against which no response was received from DFCCIL. JV consequently has issued Notice invoking Arbitration in Contract Package-201 and Contract Package-202 on January 23, 2025. Arbitration Tribunal for both the Contract Packages has been constituted.

Arbitration Tribunal for Contract Package 201 held its first preliminary hearing on April 15, 2025 wherein the Tribunal directed the JV to file its Statement of Claim by June 10, 2025 and DFCCIL to file its Statement of Defense and Counter Claim, if any, by August 19, 2025. Next date of hearing by the Tribunal is fixed for August 21, 2025.

Similarly, Arbitration Tribunal for Contract Package 202 held its first preliminary hearing on March 21, 2025 wherein the Tribunal directed the JV to file its Statement of Claim by May 07, 2025, DFCCIL is required to file its Statement of Defense and Counter Claim, if any, by July 07, 2025, JV to submit its reply to Counter Claim by August 07, 2025 and all other procedural steps needs to be completed by August 21, 2025. Next date of hearing by the Tribunal is fixed on September 04, 2025 for framing points / issues for determination and hearing of applications, if any. Accordingly, the JV filed its statement of claim on May 07, 2025.

In addition to the aforementioned claim for January 21, 2019 to September 30, 2022 the JV has further filed the claims of Prolongation Cost with DAB for the period October 01, 2022, till April 30, 2024 for Contract Package 202 and Contract Package 201 for and for ₹ 226.86 crore and ₹ 278.28 crore on June 19, 2024 and December 16, 2024 respectively. DFCCIL has submitted letters for raising counterclaims in Contract Package 202 and Contract Package 201 on November 20, 2024 and November 25, 2024 respectively which has been duly objected by the JV on December 20, 2024.

The Claim for the period from October 01, 2022 to April 30, 2024, for Contract Package 202, arguments have been concluded on December 05, 2024 and the matter was reserved for judgement. JV filed their written submissions on January 15, 2025. The DAB award was received on March 10, 2025 without any adjudication of monetary claims. JV is under the process of taking steps to invoke arbitration against the DAB award.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

The Claim for the period from October 01, 2022 to April 30, 2024, for Contract Package 201, Statement of Defense has been submitted by DFCCIL on March 31, 2025 and Rejoinder of JV on May 05, 2025. The hearing before DAB is scheduled for June 27, 2025 and June 28, 2025.

Based on internal assessment and review of the technical and legal aspects by independent experts, the managements of the JV and the Company recognized such claim in its books of account and basis back-to-back agreement with the JV, the Company has also included an incremental budgeted contract revenue of ₹ 506.15 crore (out of total claim amount of ₹ 2,331.61 crore) for determination of the revenue recognition in accordance with Ind AS 115 and has recognised during the previous years and year ended March 31, 2025.

However, based on legal opinion, the management of the JV and the Company is confident of recoverability of the entire claim amount of ₹ 2,331.61 crore (including unbilled revenue recognized amounting to ₹ 498.76 crore) as at March 31, 2025.

34 Earnings per share ('EPS')

Basic EPS amounts are calculated by dividing the profit/ loss for the year attributable to equity shareholders of the parent by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted EPS amounts are calculated by dividing the profit attributable to equity shareholders (after adjusting for interest on the convertible securities) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	March 31, 2025	March 31, 2024
Profit / (loss) attributable to equity holders of the parent:		
Continuing Operations (₹ in crore)	1,603.18	(57.74)
Discontinued Operations (₹ in crore)	(185.65)	(45.29)
Profit / (loss) Attributable to equity holders of the parent for basic/ diluted earning per share (₹ In crore)	1,417.53	(103.03)
Weighted Average number of equity shares for basic EPS	684,054,254	603,594,528
Effect of dilution	-	-
Weighted Average number of equity shares adjusted for the effect of dilution	684,054,254	603,594,528
Earning per share for continuing operations - Basic and Diluted (₹)	23.43	(0.96)
Earning per share for discontinued operations - Basic and Diluted (₹)	(2.71)	(0.75)
Earning per share for continuing and discontinued operations - Basic and Diluted (₹)	20.72	(1.71)

Notes:

- During the year ended March 31, 2016, GAL had issued FCCB (attributable to the Demerged Undertaking stands Vested to the holding company pursuant to the Demerger), however, the same has not been included in the calculation of diluted earnings per share for year ended March 31, 2024 because they are anti-dilutive. (also refer note 18(1)).

35. Non-current assets held for sale and discontinued operations.

- In GMR Male International Airport Private Limited ('GMIAL'), during the year ended March 31, 2018, Maldives Inland Revenue Authority ('MIRA') has issued tax audit reports and notice of tax assessments demanding business profit tax amounting to USD 1.44 crore, USD 0.29 crore as the additional withholding tax excluding fines and penalties. During the year ended March 31 2019, MIRA has issued additional demands of USD 0.21 crore and USD 0.13 crore on account of fines on business profit tax and withholding taxes respectively. However, the management of the Group is of the view that the notice issued by MIRA is not tenable.

On May 23, 2019, the Attorney General's office has issued statement on this matter to MIRA stating that in the event of the Maldives parties deducting any sum from this award in respect of taxes, the amount payable under the award shall be increased to enable GMIAL to receive the sum it would have received if the payment had not been liable to tax.

Further, as per the letter dated January 22, 2020 received from Ministry of Finance Male', Republic of Maldives (the "Ministry"), the amount of tax assessed by MIRA relating to the final arbitration award is USD 0.59 crore and in the event of any tax payable

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

by GMIAL on the same shall be borne by whom the payment was settled to GMIAL, without giving any workings/ break-up for the same. As such the Ministry has confirmed that GMIAL is not liable to pay for the tax assessed by MIRA on the final arbitration award. GMIAL has obtained the statement of dues from MIRA on December 31, 2020, according to which GMIAL is required to settle business profit tax amounting to USD 0.72 crore and fines on business profit tax amounting to USD 0.82 crore and GMIAL is required to settle withholding tax amounting USD 0.29 crore and fines on withholding tax amounted to USD 0.44 crore (withdrawing the interim tax liability claim of USD 0.72 crore).

In addition to that, GMIAL has obtained the statements of dues from MIRA on October 28, 2021 and as per the statement, GMIAL requires to settle business profit tax amounting to USD 0.72 crore fines on business profit tax amounting to USD 0.81 crore, withholding tax amounting to USD 0.29 crore and fines on withholding tax amounting to USD 0.44 crore. As per business profit tax assessments issued by MIRA GMIAL should pay tax on net income of the final arbitration award.

Accordingly, as per the letter dated April 10, 2023 received from Ministry of Finance of the Republic of Maldives (the "Ministry"), the amount of tax assessed by MIRA relating to the final arbitration award is USD 0.73 crore and in the event of any tax payable by GMIAL on the same shall be borne by whom the payment was settled to GMIAL. As such the Ministry has confirmed that GMIAL is not liable to pay for the tax assessed by MIRA on the final arbitration award.

Furthermore, despite above communication, GMIAL has received a letter dated September 11, 2024 from MIRA as a demand to settle outstanding WHT payables of USD 0.29 crore and BPT payables of USD 0.13 crore. Accordingly, GMIAL has replied to this letter of demand on September 18, 2024 stating that GMIAL is no longer liable for BPT payables to MIRA with the background of the letter received on April 10, 2023 by the Ministry as a settlement of the BPT liability on the arbitration award. Further, GMIAL has claimed in the reply letter stating that GMIAL has reversed management fee and operator fee which were payable to relevant parties during 2016 before changes brought in to Income Tax Act via tax ruling TR-2016/B54 which says WHT shall be payable on accruals also.

Considering the entire tax liability pertaining to the business profit taxes is relating to the Arbitration Award Sum, the management of Group is of view that GMIAL will be able to successfully defend and object to the notice of tax assessments and accordingly, no additional provision is required to be recognized in these consolidated financial statements. Further, in respect of the matters pertaining to the withholding taxes and the fines thereon, Group, believes that since these pertain to the aforementioned matter itself, the tax demand on these items is not valid and based on an independent legal opinion, no adjustments to the books of account are considered necessary.

- b) During the year ended March 31, 2024, GMR Krishnagiri SIR Limited ('GKSIR') had received a Govt. Order from State Industries Promotion Corporation of Tamil Nadu ('SIPCOT') for acquisition of 301 Acres of land, the realisable value of the land is classified as assets included in disposal group held for sale during the year ended March 31, 2024. Further out of this 301 Acres, SIPCOT has acquired 272 Acres of land during the year ended March 31, 2025.

Further during the year ended March 31, 2025, 100.30 acres of land has been transferred to assets included in disposal group held for sale on sale of these land to third party.

- d) During the year ended March 31, 2025, the group has sold its 100% investment in Namitha Real Estates Private Limited ('NREPL') to GMR Enterprises Private Limited ('GEPL') at a consideration of ₹ 0.01 crore. By virtue of the said transaction the group has classified the loss incurred during the period ended July 05, 2024 as discontinued operation in accordance with Ind AS – 105 "Non -current assets held for sale and Discontinued operations".
- e) During the year ended March 31, 2025 the Board has given in principle approval for Divestment of stake in Non-operating and Stressed assets – GMR Bajoli Holi Hydropower Private Limited ("GBHHPL"), GMR Vemagiri Power Generation Limited ("GVPGP") and GMR Rajahmundry Energy Limited ("GREL"). Accordingly, on April 13, 2025, the Company, GMR Energy Limited ("GEL"), GMR Rajam Solar Power Private Limited ("GRSPPL"), GMR Corporate Services Limited ("GASL") and GMR Generation Assets Limited ("GGAL"), (subsidiaries of the Company) have signed a framework agreement with Synergy Investments Holding Limited ("Synergy") for the divestment of their respective stakes in:
- GMR Bajoli Holi Hydropower Private Limited ("GBHHPL"), engaged in operation of 180 MW hydro-electric power project,
 - GMR Vemagiri Power Generation Limited ("GVPGP"), engaged in operation of 388 MW natural gas-based combined cycle power plant, and

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

- iii. GMR Rajahmundry Energy Limited ("GREL"), engaged in operation of 768 MW natural gas-based combined cycle power plant.

Pursuant to the Framework Agreement;

- (i) GEL will transfer:
- 79.86% of equity stake in GBHHPL in two stages (70% initially and 9.86% subsequently) and
 - 51% of equity stake in GVPGL to Synergy
- (ii) The Company, GRSPPL and GASL will transfer 100% compulsorily convertible debentures (CCD) issued by GBHHPL to Synergy and
- (iii) GGAL will transfer 51% of GREL's equity stake to Synergy following the release of shares pledge and corporate guarantee from the lenders.

The combined value for the transfer of securities for all three entities under the Framework Agreement is ₹ 653.00 crore, subject to adjustments based on net working capital and other factors at closing.

The transaction, for all three entities upon meeting necessary conditions and receiving requisite approvals, is anticipated to be completed by September 30, 2025, or a later date mutually agreed upon by the parties involved.

Accordingly, the Group has disclosed the operations of GVPGL as discontinued operation and the related assets under 'Assets included in disposal group held for sale' and related liabilities under 'Liabilities included in disposal group held for sale' and Investment in GBHHPL under 'Assets included in disposal group held for sale' in accordance with Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations',

Further, subsequent to the year end, GEL has transferred its 70% equity stake in GBHHPL as mentioned in (i)(a) and the Company, GRSPPL and GASL, has transferred their respective stakes in CCD's as mentioned in (ii) above.

- f) During the year ended March 31, 2024, the group has sold its 100% investment in Indo Tausch Trading DMCC ('ITTD') to GMR Holdings (Mauritius) Limited at a consideration of USD 0.34 crore. By virtue of the said transaction the group has classified the loss incurred during the period ended June 30, 2023 as discontinued operation in accordance with Ind AS – 105 "Non -current assets held for sale and Discontinued operations".

Notes:

- In case of certain entities, deferred tax asset has not been recognised on unabsorbed losses on the grounds of prudence in view of the management's assessment of future profitability.
- In case of certain entities, as the timing differences are originating and reversing within the tax holiday period under the provisions of section 80-IA of the Income Tax Act, 1961, deferred tax has not been recognised by these companies.
- As at March 31, 2025 aggregate amount of temporary difference associated with undistributed earnings of subsidiaries for which deferred tax liability has not been recognised is ₹ 26.80 crore (March 31, 2024 : ₹ 93.25 crore). No liability has been recognised in respect of such difference as the Group is in a position to control the timing of reversal of the temporary difference and it is probable that such difference will not reverse in the foreseeable future.
- The Holding Company has not recognised deferred tax asset on unused tax losses and unabsorbed depreciation of ₹ 6.76 crore (March 31, 2024 ₹ 1,070.61 crore) and other deductible temporary differences of ₹ 270.01 crore (March 31, 2024: ₹ 211.27 crore). The unused tax losses will be adjustable till assessment year 2033-34.

36 (b) Income tax

The domestic subsidiaries of the Group are subject to income tax in India on the basis of their standalone financial statements. As per the Income Tax Act, 1961, these entities are liable to pay income tax which is the higher of regular income tax payable or the amount payable based on the provisions applicable for MAT.

MAT paid in excess of regular income tax during a year can be carried forward for a period of 15 years and can be offset against future tax liabilities.

Notes:

1. Certain entities of the Group have incurred losses during the relevant period, which has resulted in reduction of profit/ increase of losses in the consolidated financial statements. However, the tax liability has been discharged by the respective entities on a standalone basis. Further, in view of absence of reasonable certainty, the Group has not recognised deferred tax asset in such companies.
2. On September 30, 2019, the Taxation Laws (Amendment) Ordinance 2019 ('the Ordinance') was passed introducing section 115BAA of the IT Act which allowed domestic companies to opt for an alternative tax regime from financial year 2019-20 onwards. As per the regime, companies can opt to pay reduced income tax @22% (plus surcharge and cess) subject to foregoing of certain exemptions. Central Board of Direct taxes vide circular number 29/2019 clarified that companies opting for lower rates of taxes will not be allowed to carry forward minimum alternate tax (MAT) credit and also will not be allowed to offset brought forward losses on account of additional depreciation.

37. Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results could differ from those estimates. Estimates and underlying assumptions are

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

reviewed on an ongoing basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

Significant judgements and estimates relating to the carrying values of assets and liabilities include impairment of investments, other non-current assets including Goodwill, determination of useful life of assets, estimating provisions, recoverability of deferred tax assets, commitments and contingencies, fair value measurement of financial assets and liabilities, fair value measurement of put options given by the Group, applicability of service concession arrangements, recognition of revenue on long term contracts, treatment of certain investments as joint ventures/associates and estimation of payables to Government / statutory bodies.

a) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

i. Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The estimates include considerations of inputs such as liquidity risk, credit risk and volatility. The changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note 48 for further disclosures.

ii. Revenue recognition from Engineering, procurement and construction (EPC)

Revenue from EPC contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. Due to the nature of the contracts, the Group uses the percentage of completion method in accounting for its fixed price contracts. The use of the percentage of completion method requires the Group to estimate the costs incurred till date as a proportion of the total cost to be incurred along with identification of contractual obligations and the Group's rights to receive payments for performance completed till date, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts/onerous obligations. The costs incurred have been used to measure progress towards completion as there is a direct relationship. The provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

iii. Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in note 39.

iv. Impairment of non-current assets including property, plant and equipment, right of use assets, investment property, intangible assets under development, capital work-in-progress, other intangible assets, investments accounted for using equity method and goodwill.

Determining whether property, plant and equipment, right of use assets, investment property, intangible assets under development, capital work-in-progress, other intangible assets, investments accounted for using equity method and goodwill

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

are impaired requires an estimation of the value in use of the individual investment or the relevant cash generating units. The value in use calculation is based on Discounted Cash Flow Model ('DCF') over the estimated useful life of the power plants, concession on roads etc. Further, the cash flow projections are based on estimates and assumptions relating to operational performance of the plants and coal mines, life extension plans, availability and market prices of gas, coal and other fuels, restructuring of loans etc in case of entities in the energy business and favorable outcomes of litigations etc. in the expressway business, assumptions relating to realization per acre of land from monetization for SEZ business which are considered as reasonable by the management (refer note 3,4,5,6 and 7).

v. Recognition of revenue for change in law and other claims

The recognition of revenue is based on the tariff rates/methodology prescribed under PPA/LOI with customers. A significant management judgement is required to determine the revenue to be recognized in cases where regulatory order in favour of the Group is yet to be received or which is further challenged in higher judicial forums. The estimate of such revenue is based on similar existing other favorable orders/ contractual terms of the PPA with the customers.

The billed / unbilled revenue recognised in respect of the above is treated as current as the Company estimates the finality of proceedings during the current ensuing year.

vi. Trade Receivables and Unbilled Revenue

Trade receivables and unbilled revenue also consists of significant regulatory dues in respect of Revenue from operations recognised on account of change in law events including coal cost pass through in terms of Power Purchase Agreements with various State Power Distribution Utilities which in some cases are accounted for by the Group based on best estimates including orders / reports of Regulatory Authorities, which may be subject to adjustments on receipt of final orders of the respective Regulatory Authorities. These receivables are outstanding in view of pendency of final orders on tariff or result of clarificatory petitions by the customers / Company. The Management has considered the said receivables good and recoverable as the outstanding amounts are receivable from the State Power Distribution utilities which does not have a track record of default, except for delay in payments being backed by respective state governments. The amount recognised also are based on the computational methodology prescribed and approved by CERC and APTEL in the Group's own case where the order is received. The Group also has received favourable orders on the receivables by regulatory authorities instructing the customers to pay certain significant percentage of dues immediately. The management based on the said assumptions is of the opinion that the amount disclosed under Trade Receivables and Unbilled Revenue are good and are of the value stated.

vii. Provision for periodic major maintenance

The entities in the road sector of the Group are engaged in development of highways on build, operate and transfer model on annuity or toll basis. These are SPVs which have entered into concessionaire agreements with National Highways Authority of India ('NHAI') or the respective State Governments for carrying out these projects.

The Group is contractually committed to carry out major maintenance whenever the roughness index exceeds the limit as indicated in the respective concession agreement.

The management estimates provision w.r.t periodic major maintenance by using a model that incorporates a number of assumptions, including the life of the concession agreement, annual traffic growth and the expected cost of the periodic major maintenance which are considered as reasonable by the management. (Refer note 42).

viii. Valuation of investment property

Investment property is stated at cost. However, as per Ind AS 40 'Investment Property', there is a requirement to disclose fair value as at the balance sheet date. The Group engaged independent valuation specialists to determine the fair value of its investment property as at reporting date. (Refer note 5).

b) Significant judgements

In the process of applying the Group's accounting policies, the management has made the following judgements, which have the most significant effect on the amounts recognized in these consolidated financial statements.

i. Determination of control and accounting thereof

As detailed in the accounting policy, consolidation principles under Ind AS necessitate assessment of control of the subsidiaries independent of the majority shareholding. Accordingly, consequent to investment made by Power and Energy

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

International (Mauritius) Limited (hereinafter referred to as 'Tenaga') in GEL with certain participative rights in the operations of GEL, GEL and its underlying subsidiaries have also been accounted as joint ventures w.e.f. November 04, 2016 till November 21, 2023 under Ind AS.

The Company entered into a settlement agreement with Tenaga on November 17, 2023 to acquire additional 29.14% stake of GEL at a purchase consideration of ₹ 237.55 crore (USD 28.50 million). The Company paid the entire purchase consideration on November 21, 2023 ('transaction date').

With this complete buy-out of Tenaga stake, the Shareholders Agreement ("SHA") with Tenaga stands terminated thereby increasing the shareholding of the Group by 29.14% and enabling control over GEL and full line-by-line consolidation w.e.f. November 22, 2023 in accordance with Ind AS 110 'Consolidated Financial Statements'.

Under Ind AS, joint ventures are accounted for under the equity method as per the Ind AS-28 against the proportionate line by line consolidation under previous GAAP.

Refer note 7a and 7b for further disclosure.

ii. Classification of leases

The Group enters leasing arrangements for various premises. The assessment (including measurement) of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/terminate etc. After the commencement date, the Group reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to extend or to terminate.

iii. Recoverability of advances/receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

iv. Taxes

Deferred tax assets including unused tax losses are recognized to the extent that it is probable that taxable profit will be available against which the same can be utilised. A significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Refer note 36 for further disclosures.

v. Property plant and Equipment and Intangible Assets

Property, plant and equipment and Intangible Assets represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation / amortisation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired/ constructed and reviewed periodically, including at each financial year end.

The lives are based on the technical assessment which has relied on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence and Government Policies impacting the assets use.

vi. Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Group, including legal and contractual claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events.

The Group has ongoing litigations with various regulatory authorities and third parties. Where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take a number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the consolidated financial statements.

In respect of financial guarantees provided by the Group to third parties, the Group considers that it is more likely than not that such an amount will not be payable under the guarantees provided. Refer note 40 for further disclosure.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

vii. Other significant judgements

- Refer note 45(i) and 45(ii) as regards the recovery of claims in GACEPL and GHVEPL.
- Refer note 44(iii) and 44(iv) as regards the recovery of receivables in GWEL and GKEL.

b) Defined benefit plan

Gratuity plan

The Group has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (based on last drawn basic) for each completed year of service.

The fund provides a capital guarantee of the balance accumulated and declares interest periodically that is credited to the fund account. Although we know that the fund manager invests the funds as per products approved by Insurance Regulatory and Development Authority of India and investment guidelines as stipulated under section 101 of Income Tax Act, the exact asset mix is unknown and not publicly available. The Trust assets managed by the fund manager are highly liquid in nature and we do not expect any significant liquidity risks. The Trustees are responsible for the investment of the assets of the Trust as well as the day to day administration of the scheme.

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss / OCI and amounts recognised in the balance sheet for defined benefit plans/ obligations.

Statement of profit and loss

The Group expects to contribute ₹ 3.38 crore (March 31, 2024 : ₹ 1.15 crore) towards gratuity fund in next year.

The major category of plan assets as a percentage of the fair value of total plan assets is as follows:

Particulars	March 31, 2025	March 31, 2024
Investments with insurer managed funds	100.00%	100.00%

Expected benefit payments for the year ending:

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
March 31, 2025	NA	3.29
March 31, 2026	3.08	2.00

* for previous year read as March 31, 2030 to March 31, 2034.

The principal assumptions used in determining gratuity obligations:

Particulars	March 31, 2025	March 31, 2024
Discount rate (in %)	6.60%	7.00%
Salary escalation (in %)	6.00%	6.00%
Attrition rate (in %)	5.00%	5.00%
Mortality rate	Indian Assured Lives	Indian Assured Lives
	Mortality (2006-08) (modified)Ult	Mortality (2006-08) (modified)Ult

Notes:

- The estimates of future increase in compensation levels, considered in the actuarial valuation, have been taken on account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.
- Plan characteristics and associated risks:**
The Gratuity scheme is a final salary defined benefit plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design means the risks commonly affecting the liabilities and the financial results are expected to be:
 - Interest rate risk: The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

- b. Salary Inflation risk : Higher than expected increases in salary will increase the defined benefit obligation
- c. Demographic risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

A quantitative sensitivity analysis for significant assumption is as shown below

(₹ in crore)

Assumptions	Discount rate		Future salary increases		Attrition Rate	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
Sensitivity level (%)	1.00%	1.00%	1.00%	1.00%	1.00%	1.00%
Impact on defined benefit obligation due to increase	(1.41)	(1.31)	1.23	1.24	0.11	0.07
Impact on defined benefit obligation due to decrease	0.42	1.49	(1.18)	(1.17)	(0.12)	(0.12)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

40. Commitments and contingent liabilities

a) Capital commitments

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

Other contingent liabilities

1. The management of the Group believes that the ultimate outcome of the below matters will not have any material adverse effect on the Group's consolidated financial position and result of operations.
2. A search under section 132 of the IT Act was carried out at the premises of the Holding Company and certain entities of the Group by the income tax authorities on October 11, 2012, followed by search closure visits on various dates during the year ended March 31, 2013 to check the compliance with the provisions of the IT Act. The income tax department has subsequently sought certain information / clarifications. Block assessments have been completed for some of the companies of the Group and they have received orders/demand from the Income Tax Authorities for earlier years. The management of the Group has filed the appeals with the income tax department against the disallowances made in the assessment orders and believes that these demands are not tenable as it has complied with all the applicable provisions of the IT Act with respect to its operations.
3. There are numerous interpretative issues till now relating to the Supreme Court (SC) judgement on PF dated February 28, 2019. The Group, its joint ventures and associates have paid the liability on a prospective basis from the date of SC order. The Group, its joint ventures and associates have not made any provision related to the period before the order due to lack of clarity on the subject.
4. MSEDCL has raised a legal dispute on GETL at the Central Electricity Regulatory Commission seeking revocation of its trading license on account of failure to supply power. The Group is confident that litigation filed at the CERC by MSEDCL will not hold good as the same is not in accordance with the terms of the LOI and there is no financial implication expected of this matter.
5. Refer note 35(a) with regard to contingent liability of the Group in case of tax demands in GMIAL.
6. Refer note 7(a) and 7(b) with regards to contingent liabilities of the Group on behalf of joint ventures and associates.
7. During the year ended March 31, 2019, the erstwhile GMR Infrastructure Limited (demerged company) and its subsidiary Company GGAL, had extended corporate guarantees amounting to ₹ 2,353.20 crore in favour of IDBI Bank Limited (as the Lead Bank) wherein the demerged company had guaranteed the obligations of unsustainable debt of GMR Rajahmundry Energy Limited ('GREL'), an associate of the Company. Pursuant to the scheme of demerger approved on December 31, 2021, such corporate guarantee has been transferred to the Holding Company. However, the demerged company had passed board resolutions/ executed undertakings for aforementioned corporate guarantees jointly with the Company.

During the current year, the consortium of lenders of GREL unanimously approved to accept the One-time Settlement ('OTS') amount of ₹ 657.00 crore towards the full and final settlement of all exposures. Pursuant to such settlement, on March 29, 2025 GREL paid the first instalment of ₹ 165.70 crore. Further, after the year ended March 31, 2025, GREL has paid the entire balance OTS payment of ₹ 491.30 crore and is working with the consortium of lenders for extinction of aforementioned exposures.
8. Interest accrued, if any, and unpaid is not included above.
9. The Holding Company has provided guarantees to Dedicated Freight Corridor Corporation of India Limited ('DFCCIL') on behalf of GIL SIL JV amounting to ₹ 380.00 crore sanctioned (March 31, 2024: ₹ 380.00 crore) and outstanding balance ₹ 366.38 crore (March 31, 2024: Outstanding Balance ₹ 192.30 crore). The Company agrees to be the principal obligor in respect of all payment due to DFCCIL.
10. GKEL and GWEL have been made a party to various litigation in relation to land acquired and other matters for their power project. The compensation award has already been deposited with the Government and the possession of all these lands have already been handed over to GKEL/GWEL. In all these matters there are no adverse interim orders as at March 31, 2025. The management of the Group believes that the claims filed against GKEL/GWEL are not tenable and does not have any adverse impact on the consolidated financial statements.
11. GEL had entered into a Power Purchase Agreements ('PPAs') with Karnataka Power Transmission Corporation Limited for supply of energy during the period December 15, 1997 to July 07, 2008. GEL had a Fuel Supply Agreement ('FSA') with a fuel supplier towards purchase of Naphtha for generation of electricity during the aforementioned period. The FSA provided for payment of liquidated damages to the fuel supplier in the event there was a shortfall in the purchase of the annual guaranteed quantity.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

During the year ended March 31, 2013, GEL received a demand towards liquidated damages amounting to ₹ 296.16 crore along with an interest of ₹ 5.55 crore towards failure of GEL to purchase the annual guaranteed quantity for the period from November 21, 2001 to June 06, 2008 under the erstwhile FSA. GEL had disputed the demand from the supplier towards the aforementioned damages. Further, GEL has filed its statement of defense and counter claim amounting to ₹ 35.96 crore along with interest at the rate of 18% p.a.

The matter was under arbitration. During the year ended March 31, 2017, the Arbitration Tribunal issued its arbitral award directing the fuel supplier to pay ₹ 32.21 crore to GEL towards its counter claim filed by GEL and rejected the claims of the fuel supplier. Subsequently, the fuel supplier filed an appeal before the District Civil Court of Bangalore for setting aside the entire arbitration award. The fuel supplier has also filed an interim application under Section 36 of the Arbitration and Conciliation Act for grant of interim stay on execution of the Arbitration award. The District City Civil Court vide its order issued the stay order on the operation of the Arbitration Award on furnishing of a bank guarantee by the fuel supplier equivalent to 50% of counter claim amount. Fuel supplier has filed writ petition before Hon'ble High Court of Karnataka for setting aside the interim stay order dated March 04, 2017. Hon'ble High Court of Karnataka has dismissed the objection petition. GEL has filed execution petition before Honble High Court of Delhi for execution of Arbitral award, the outcome of which is awaited.

Fuel supplier has filed an appeal before Hon'ble High court of Bangalore against the order passed by the District Civil Court. Hon'ble High Court, ordered stay of the Award subject to Fuel supplier depositing 50% of the Award amount. Hon'ble High Court has allowed GEL to withdraw the amount on furnishing BG of equivalent amount. GEL has filed application for permission to withdraw amount upon submission of Corporate Guarantees. During the year ended March 31, 2020, High court allowed GEL's Application with the condition that GEL give Affidavit-cum-Undertaking to state that it will not encumber/sell its land offered as security, till the disposal of the Appeal of fuel supplier.

Further, based on submission of two Corporate Guarantee copies by GEL and GGAL and Affidavit of undertaking by GMR Budelkhand Energy Limited the court had permitted GEL to withdraw the amount which has been deposited by the fuel supplier on a condition that GEL shall re-deposit the aforesaid amount before the court, within a time frame to be stipulated by the Court at the time of final disposal if the fuel supplier is successful in the appeal. The amount withdrawn by GEL has been shown as payable under other financial liabilities.

The final outcome of the case is pending conclusion. However, based on its internal assessment and a legal opinion, the management of the Group is confident that the claim of the fuel supplier towards such liquidated damages is not tenable and accordingly no adjustments have been made to the consolidated financial statements of GEL and the claim from the fuel supplier has been considered as a contingent liability.

12. During the year ended March 31, 2023, GMR Energy Limited ("GEL") has received order from National Green Tribunal ("NGT") dated September 27, 2022 post disposing off the Petition filed by Mr. E.A.S Sharma along with K.M. Rao (Applicants) and held that Andhra Pradesh Maritime Board ("APMB") and GEL are jointly and severally liable for the damage caused to the mangroves and mudflats in the GEL/ East Coastal Concession Private Ltd (ECPL) plant opposite to Coast Guard office, Kakinada, and are liable to pay environmental compensation to be assessed by the Committee appointed by NGT; and for maintenance of mangroves for a period of five years will have to be undertaken by GEL, under the supervision of the Andhra Pradesh Maritime Board (who is currently in possession of the land) and the Forest Department. Currently, the Committee is yet to be formed as per the NGT Order and inspect the overall site. GEL plans to demonstrate its bona-fide efforts and work already undertaken for restoration of mangroves leading to its speedy growth. Based on the above-mentioned facts, GEL is confident that there will not be any material liability on GEL on account of environmental compensation in near future.
13. GETL had entered into a Letter of Intent ('LOI') with Maharashtra State Electricity Distribution Company Limited ('MSEDCL') for supply of power in the month of October, 2018. However, on account of the power generator's failure to supply power, GETL was not able to meet its obligations under the LOI. On account of this failure, MSEDCL had invoked the Bank Guarantees to the extent of ₹ 1.72 crore and adjusted receivables amounting to ₹ 1.76 crore. MSEDCL had also raised a legal dispute on GETL at the Central Electricity Regulatory Commission ('CERC') seeking revocation of its trading license on account of this failure. GETL had filed an interim application at CERC for dismissal of petition filed by MSEDCL for revocation of license and for recovery of amount deducted by MSEDCL. MSEDCL's prayer to cancel the trading license has not been allowed by CERC vide order dated June 02, 2023 and further directed MSEDCL and GETL to reconcile the deduction/ forfeiture in accordance with the Order. Subsequent to the order, MSEDCL has released part payment of ₹ 1.60 crore, under protest, and appealed to the Appellate Tribunal for Electricity (APTEL) against the said CERC order.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

GETL is of the view that the invocation of Bank guarantee amount and receivable adjusted aggregating to ₹ 3.48 crore is not valid in law and the litigation filed at the APTEL by MSEDCL will not hold good, as the same is not in accordance with the terms of the LOI and there is no further financial implication expected out of this matter or effect on its continuation of energy trading business. GETL is also confident of recovering the balance amount adjusted by MSEDCL. However, it has currently provided for the said amount under prudence in its books.

14. GETL has also been party to various petitions filed by the power generating / distribution companies against various DISCOMs / procuring Companies in respect of claim for compensation / increased tariff rates which are pending before various statutory authorities and Hon'ble Courts. The management is of the opinion that the recoveries / payables, if any, arising out of such litigations are a pass through considering GETL being a trader in electricity and accordingly there is no liability or outflow foreseen by / against GETL.
15. The management is of the opinion that the grant of Long Term Open Access ('LTOA') is beyond the generation capacity of the plant and requirement of reduction of LTOA was not on GKEL, own accord but was forced due to reasons attributable to implementing agencies. The management is hopeful of getting relief as requested in its petition before Appellate Tribunal of Electricity ('APTEL') and does not foresee any financial implication on such relinquishment that requires any adjustment in consolidated financial statements.

GKEL has entered into a Bulk Power Transmission Agreement ('BPTA') with Power Grid Corporation of India Limited ('PGCIL') for availing LTOA for inter-state transmission of 220MW of power to western region from its fourth unit of generating station on long term basis in future. The said BPTA was amended with revision in its commissioning schedule to September 2017. GKEL provided bank guarantees of ₹ 11.00 crore against the said BPTA. GKEL was unable to get longer term or medium term PPA for the generation of 4th Unit and had to temporarily suspend its construction and since the matter was beyond the control of GKEL, surrendered the transmission facility under force majeure conditions. GKEL had filed a petition with CERC to consider the relinquishment under force majeure without any liability to GKEL.

CERC had informed to take up the matter for adjudication after its decision in petition no. 92/MP/2015. The order in case of 92/MP/2015 was pronounced during FY 2019-20 wherein the CERC has decided that relinquishment charges have been payable in certain circumstances and methodology of such computation of relinquishment charges. It further ordered PGCIL that the transmission capacity which is likely to be stranded due to relinquishment of LTA shall be assessed based on load flow studies and directed it to calculate the stranded capacity and the compensation (relinquishment charges) payable by each relinquishing long term customer as per methodology specified in the Order respectively within one month of date of issue of the Order and publish the same on its website. The CERC order held that the relinquishment charges were liable to be paid for the abandoned projects.

As per calculations furnished by PGCIL in terms of order in 92/MP the relinquishment charges for the 220 MW surrendered capacity is ₹ 3.05 crore (at sr. no. 48 of the list published on the website of PGCIL). However, PGCIL have not yet raised any demand against this Order. Further GKEL has challenged the Order and filed an Appeal in association with Association of Power Producers ('APP') before APTEL in appeal no 417/2019.

The Group is hopeful of getting favorable order and does not foresee any financial implication on the consolidated financial statements and no provision is considered necessary.

16. Refer note 44(iv) with regard to dispute with MSEDCL on transmission charges pending the final outcome of the matter in the Hon'ble Supreme Court of India.
17. GVPGL has trade payables (including interest) amounting to ₹ 8.80 crore as at March 31, 2024 towards purchase of services outstanding beyond three years as at the year end. As per the Master Direction - External Commercial Borrowings, Trade credits and Structured Obligations dated March 26, 2019 issued by the Reserve Bank of India ('the RBI') such trade credits outstanding beyond three years are considered as External Commercial Borrowings. GVPGL has submitted an application to its authorised dealer for obtaining an approval from RBI to make the payment and is currently awaiting RBI's approval. The management is in the process of regularising these overdue payables and is confident that required approvals would be received and penalties, if any that may be imposed on GVPGL would not be material. Accordingly, no adjustments have been made by the management in these consolidated financial statements in this regard.

Provisions for operations and maintenance

The Group has a contractual obligation to maintain, replace or restore infrastructure, except for any enhancement element. Cost of such obligation is measured at the best estimate of the expenditure required to settle the obligation at the balance sheet date and recognised over the period at the end of which the overlay is estimated to be carried out. The Group has estimated the cost for such overlay work in terms of Para 36 of Ind AS 37 and started providing the same. During the current year, based on report by independent agency on road roughness index, the management has revised its assumption about the timing and quantum of the estimated overlay expenditure which has resulted in the reversal of excess provision of ₹ 16.18 crore (March 31, 2024: ₹ Nil). Also refer note 37a(vii).

Contingent provisions against standard assets

As per regulation 10 of the prudential norms issued by Reserve Bank of India ("RBI"), every Non-Banking Financial Institution i.e. Systematically Important Core Investment Company (CIC-ND-SI) is required to make provision @ 0.40% (March 31, 2024: 0.40%) on all standard assets and as per regulation 9 at other defined percentages for all "sub-standard assets, doubtful assets and loss assets".

In order to comply with the prudential norms, DSL, based on the legal opinion, has identified only interest-bearing assets to be considered for provisioning. Accordingly, DSL have created provision on standard assets @ 0.40% (March 31, 2024: 0.40%) on inter corporate deposits only.

Provision for replacement obligation

GKEL and GWEL has made provision towards replacement cost of the asset which is to be dismantled/ replaced after the end of the Power Purchase Agreement.

- 43.** The Board of directors of GMR Airports Infrastructure Limited (GIL) in its meeting held on March 19, 2023 had approved, a detailed Scheme of Merger of GMR Airports Limited (GAL) with GMR Infrastructure Developers Limited (GIDL) followed by merger of GIDL with GIL referred herein after as Meger Scheme. Subsequent to year ended March 31, 2024, the Merger Scheme

Notes to the Consolidated Financial Statements

has been approved by the Hon'ble National Company Law Tribunal, Chandigarh bench ("the Tribunal") vide its order dated June 11, 2024 (Certified copy of the order received on July 02, 2024). The said Tribunal order was filed with the Registrar of Companies by GAL, GIDL and GIL on July 25, 2024 thereby the Scheme becoming effective on that date.

Accordingly, GAL merged with GIDL and merged GIDL stands merged into GIL with an appointed date of April 01, 2023

After the scheme become effective the resultant company is named as GMR Airports Limited (formerly GMR Airports Infrastructure Limited) (GAL).

Accordingly, all the transactions and balances entered with GIL, GAL and GIDL has been clubbed as a single transaction entered with resultant company GMR Airports Limited (formerly GMR Airports Infrastructure Limited) (GAL)

44. Matters related to certain power sector entities:

- i) The Central Electricity Regulatory Commission ('CERC') has issued CERC (Procedures, terms and conditions for grant of trading license and other related matters) Regulation 2020, (the 'Regulations') on January 31, 2020 repealing its earlier subsisting regulations in this regard. The said regulations have wide ranging impact on the operations of the trading licensee regarding the requirement of Net worth, operating ratios, trading margins and various other matters undertaken by GMR Energy Trading Limited (GETL), a subsidiary of the Company. GETL has assessed the impact of its loans given to associate companies on the net worth calculation and other regulations in terms of the regulations and implemented processes to ensure necessary compliances.
- ii) GMR Generation Assets Limited ('GGAL') (earlier called GMR Power Corporation Limited ('GPCL') now merged with GGAL with effect from March 31, 2019), a subsidiary of the Holding Company, approached Tamil Nadu Electricity Regulatory Commission ('TNERC') to resolve the claims / counterclaims arising out of the PPA and Land Lease Agreement ('LLA') in respect of the dues recoverable from Tamil Nadu Generation and Distribution Corporation Limited ('TAGENDCO') on account of sale of energy including reimbursement towards interest on working capital, Minimum Alternate Tax ('MAT'), rebate, start / stop charges and payment of land lease rentals to TAGENDCO. GPCL received a favorable order from TNERC and in pursuance of the Order, filed its claim on April 30, 2010 amounting to ₹ 481.68 crore.

TAGENDCO filed a petition against TNERC Order in Appellate Tribunal for Electricity ('APTEL'). In terms of an interim Order from APTEL, dated November 11, 2010. TAGENDCO deposited ₹ 537.00 crore including interest on delayed payment of the claim amount. Subsequently APTEL vide its Order dated February 28, 2012, dismissed the appeal and upheld TNERC order. TAGENDCO then filed a petition in the Hon'ble Supreme Court challenging APTEL order in 2012, which appeal is still pending before the Hon'ble Supreme Court of India.

During the year ended March 31, 2022, based on recent legal pronouncements which have provided clarity on the tenability of such appeals as filed by TAGENDCO in the current matter together with advice from independent legal experts, GPCL has recognised the aforementioned claims as exceptional item.

APTEL as a part of its order of February 28, 2012 has further directed erstwhile GPCL to verify and pay counter claims of TAGENDCO in respect of the benefits earned if any, by GPCL with regard to the delayed payment towards fuel supply that are not as per the terms of the FSA. GPCL challenged the said direction by way of an appeal in the Hon'ble Supreme Court. The Hon'ble Supreme Court vide its Order dated April 24, 2014, has referred the dispute to TNERC for examining the claim of the contesting parties. In November 2018, TNERC issued an order whereby GPCL liability to TAGENDCO was upheld at a value of ₹ 121.37 crore. This order has been challenged by GPCL before APTEL which appeal is pending adjudication. Pending final outcome of the litigation, GPCL has recognised the claims as contingent liability.

GPCL's counter claim of ₹ 191.00 crore under old PPA towards interest on delayed payments, start and stop charges and invoice for nil dispatches and invoice for differential rates for the period from July 2011 to February 2014 has not yet been adjudicated by TNERC.

Hence, pending acceptance of claims by TAGENDCO and pending adjudication of petition before the TNERC, the Group has not recognised the aforesaid claim in the books of account.

- iii) GMR Warora Energy Limited ('GWEL'), a subsidiary of GPUIL, entered into a PPA with Maharashtra State Electricity Distribution Company Limited ('MSEDCL') for sale of power for an aggregate contracted capacity of 200 MW, wherein power was required to be scheduled from power plant's bus bar. MSEDCL disputed place of evacuation of power with Maharashtra Electricity Regulatory Commission ('MERC'), wherein MERC has directed GWEL to construct separate lines for evacuation of power through State Transmission Utility ('STU') though GWEL was connected to Central Transmission Utility ('CTU'). Aggrieved by the MERC Order, GWEL preferred an appeal with APTEL.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

APTEL vide its interim Order dated February 11, 2014 directed GWEL to start scheduling the power from GWEL's bus bar and bear transmission charges of inter-state transmission system towards supply of power.

GWEL in terms of the interim order scheduled the power from its bus bar from March 17, 2014 and paid inter-state transmission charges. APTEL vide its final Order dated May 08, 2015 upheld GWEL's contention of scheduling the power from bus bar and directed MSEDCL to reimburse the inter-state transmission charges hitherto borne by GWEL as per its interim order. Accordingly, GWEL has raised claims of ₹ 616.33 crore towards reimbursement of transmission charges from March 17, 2014 till November 30, 2020.

MSEDCL paid the aforementioned claim amount and preferred an appeal with the Hon'ble Supreme Court of India and the matter is pending conclusion. Pursuant to notification No. L-1/250/2019/CERC, whereby the transmission charges (other than the deviation charges) are being directly billed to the respective customers (DISCOMS) by Power Grid Corporation of India Limited ('PGCIL') and accordingly, GWEL has not received transmission charges (other than the deviation charges) related invoices for the period from December 2020 to March 2025. The final obligation towards the transmission charges will be decided based on the order of the Hon'ble Supreme Court of India as stated above.

In view of the favorable Order from APTEL, receipt of aforementioned claim amount towards reimbursement of transmission charges and also considering the legal opinion received from legal counsel that GWEL has tenable case with respect to the appeal filed by MSEDCL against the said Order which is pending before the Hon'ble Supreme Court of India, GWEL has consequentially accounted for the reimbursement of transmission charges of ₹ 616.33 crore relating to the period from March 17, 2014 to November 30, 2020 in its books of accounts. Further the cost of transmission charges as stated with effect from December 2020 has been directly invoiced by PGCIL to DISCOMS and such amount together with aforesaid reimbursement has been disclosed as contingent liability in the financials of GWEL pending the final outcome of the matter in the Hon'ble Supreme Court of India.

Further, GWEL generated profit after tax of ₹ 188.05 crore during the year ended March 31, 2025 and the management of GWEL expects that the plant will generate sufficient profits in the future years also and will be able to recover the receivables and based on business plans and valuation assessment by an external expert during the year ended March 31, 2025, considering key assumptions such as capacity utilization of plant in future years based on current levels of utilization including merchant sales and sales through other long term PPA's, the management of the Group is of the view that the carrying value of the assets in GWEL as at March 31, 2025 is appropriate.

- iv) GMR Kamalanga Energy Limited ('GKEL'), a subsidiary of GPUIL, is engaged in development and operation of 3*350 MW under Phase I and 1*350 MW under Phase II, coal-based power project in Kamalanga village, Orissa and has commenced commercial operation of Phase I of the project. GKEL has accumulated losses of ₹ 790.04 crore as at March 31, 2025 due to operational difficulties faced during the early stage of its operations. GKEL has generated profit after tax amounting to ₹ 301.70 crore during the year ended March 31, 2025. Further, GKEL has trade receivables and unbilled revenue of ₹ 1,194.66 crore and ₹ 722.51 crore respectively as at March 31, 2025, for coal cost pass through and various "change in law" events from its customers under the PPAs and have filed petitions with the regulatory authorities for settlement of such claims in favour of GKEL. The payment from the customers against the claims is substantially pending receipt as at March 31, 2025. Based on certain favorable interim regulatory orders with regard to its petition for 'Tariff Determination' and 'Tariff Revision' with its customers, internal assessment and external opinion, the management is confident of a favorable outcome towards the outstanding receivables of GKEL. Accordingly, the management of GKEL based on its internal assessment, external consultant opinion and certain favorable interim regulatory orders is of the view that the carrying value of the trade receivables and unbilled revenue as at March 31, 2025 is appropriate.

Further, GKEL had entered an agreement with SEPCO in 2008 for the construction and operation of coal fired thermal power plant. There were certain disputes between the parties in relation to the delays in construction and various technical issues relating to the construction and operation of the plant. SEPCO served a notice of dispute to GKEL in March 2015 and initiated arbitration proceedings. The Arbitral Tribunal has issued an opinion (the Award) on September 07, 2020 against GKEL. Since there were computation/ clerical / typographical errors in the Award, both parties (GKEL and SEPCO) immediately applied for correction of the award under Section 33 of the Arbitration & Conciliation Act 1996 (as amended). The Arbitral Tribunal considered the applications of both the parties and has pronounced the corrected award on November 17, 2020. GKEL already accounted for the aforementioned liability as per the award pertaining to the retention money, unpaid invoices and the Bank Guarantee revoked. GKEL had challenged the award under section 34 of the Arbitration and Conciliation Act, 1996 before the Hon'ble High Court of Orissa on February 15, 2021 and December 31, 2021 respectively.

The Hon'ble High Court of Orissa vide its judgement and order dated June 17, 2022 has dismissed the petition filed by GKEL on February 15, 2021 to put aside the Final Award on the basis that impugned award does not fall under the category which warrants interference under Section 34 of the Arbitration Act. GKEL has challenged judgement by filing special leave

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

petition before the Supreme Court of India on grounds; a) Violation of Principles of Natural Justice, b) Judgement is in violation of the guidelines laid by the Hon'ble Supreme Court for timely pronouncing of judgements c) Violation of due process of law and others.

The Hon'ble Supreme Court of India in the hearing on July 25, 2022 has issued notice and stayed the operation of the Section 34 Judgment. The Hon'ble Supreme Court of India vide its order date May 15, 2023, has disposed of SLP and allowed GKEL to approach the Commercial Appellate Division Bench, as constituted by the Hon'ble High Court of Orissa by way of an appeal under Section 37 of the Arbitration Act with liberty to raise all grounds and contentions. It had further directed that the aforesaid stay shall continue till June 30, 2023. In furtherance of the order of the Hon'ble Supreme Court, GKEL has filed an appeal under Section 37 of the Arbitration Act before the Hon'ble High Court of Orissa on June 09, 2023, challenging Section 34 judgement and the Award.

The Hon'ble High Court of Orissa has pronounced its judgement on September 27, 2023 wherein it has allowed the Section 37 appeal and set aside Section 34 judgement and the Award. Further, on December 20, 2023, SEPCO has filed a special leave petition (SLP) with the Hon'ble Supreme Court of India which was registered on January 30, 2024 by the Hon'ble Supreme Court and heard on May 14, 2025 and reserved the judgement. GKEL has also raised and filed its preliminary objections to the very maintainability of the SLP filed by SEPCO. Based on the ongoing status of the case, the management of GKEL is not expecting any outflows with respect to SEPCO matter in next 12 months from the reporting date.

Based on legal advice, the liability including interest and other costs under the Final Award has been set aside until the claims are raised again by SEPCO basis the available legal recourse. GKEL in its books has made provisions in view of the disputes between SEPCO and GKEL, based on generally accepted accounting practices. Irrespective of the heads under which they appear or their nomenclature/ heading/ title/ narration, etc., such provisions do not make GKEL liable for payment since liability is disputed. GKEL expects to have a favourable outcome in the aforesaid pending litigations, hence resulting in a reduction of liabilities towards SEPCO. Consequently, pending conclusion, GKEL has retained liabilities towards SEPCO as per the Arbitration award dated September 07, 2020.

In view of these matters explained above, favorable interim orders, external legal opinion, business plans and valuation of GKEL performed by an external expert using the discounted future cash flows method which is significantly dependent on the achievement of certain key assumptions considered such as expansion and optimal utilization of existing plant capacity, timing and amount of settlement of disputes with customers and capital creditors which are outstanding as on March 31, 2025, the management is of the view that the carrying value of the non-current assets amounting to ₹ 4,706.68 crore of GKEL as at March 31, 2025 is appropriate.

v) Bihar PPA

- a. GKEL under long term Power Purchase Agreement (the PPA), has committed to sell up to 260 MW with Bihar State Power (Holding) Company Limited [erstwhile Bihar State Electricity Board] ("Bihar Discoms") under Section 63 of the Electricity Act, 2003 (i.e. competitive bidding). GKEL claimed compensation for various change-in-law (CIL) events, including compensation for additional fuel cost on account of the shortage of linkage coal, in accordance with the power purchase agreement and filed petitions with Central Electricity Regulatory Commission (CERC) regarding the same.
- b. The CERC in its order dated April 07, 2017 disallowed GKEL's claim on coal cost pass through stating that changes in fuel supply agreement and deviation in New Coal Distribution Policy (NCDP) was not a change in law event. GKEL filed an appeal with Appellate Tribunal for Electricity (APTEL) against the CERC order.
- c. Hon'ble Supreme court on April 11, 2017 in Energy Watchdog vs CERC and others concluded in its order that deviation in NCDP policy would constitute to change in law event.
- d. Subsequent to the same on March 20, 2018, CERC in GKEL's case against PTC India Limited (Haryana Discoms) in petition no. 105/MP/2017 read along with IA No. 42 /2017, respectively following the Hon'ble Supreme Court judgement, held that deviation in NCDP is a change in law event and upheld GKEL's claim of coal cost pass through along with the method for computation of coal cost pass through.
- e. GKEL has received a favorable order on September 16, 2019, whereby the CERC had allowed the coal cost pass through to be charged to the Bihar Discoms, based on a certain methodology. However, GKEL has filed a review petition with The Hon'ble Appellate Tribunal for Electricity dated November 14, 2019 against this methodology. The Hon'ble Appellate Tribunal passed an Order in Appeal no. 423 on August 06, 2021 allowing GKEL to recover expenditure incurred in procurement of alternate coal due to short fall in domestic coal supply corresponding to schedule generation pertaining to Bihar PPA and further allowed GKEL to recover the carrying cost from the date of Change in Law events

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

till the dues are paid. Accordingly, GKEL had reversed excess revenue recognized on coal cost pass through claims and carrying cost thereon for the period from September 01, 2014 to July 31, 2021 amounting to ₹ 60.92 crore (including net impact of carrying cost recognised amounting to ₹ 39.71 crore) during the financial year 2021-22. Against the order of APTEL, Bihar filed a petition with the Hon'ble Supreme Court. The Hon'ble Supreme Court pronounced its judgement dated April 20, 2023 in favour of GKEL. In the current period, GKEL has received a substantial amount of overdue from Bihar. The total outstanding receivable (including unbilled revenue amounting to ₹ 60.04 crore) from Bihar Discoms amounts to ₹ 80.36 crore as at March 31, 2025.

vi) Haryana PPA

- a. GKEL under long term Power Purchase Agreement (the PPA), has committed to sell up to 300 MW with Uttar Haryana Bijli Vidyut Nigam Limited and Dakshin Haryana Bijli Vidyut Nigam Limited ("Haryana Discoms") through PTC India Limited (PTC) under Section 63 of the Electricity Act, 2003 (i.e. competitive bidding).
- b. GKEL filed petitions before CERC claiming additional tariffs considering various change in law events for variable cost components and has recognized the revenues based on the CERC orders received. In respect of these orders, the Appellate Tribunal for Electricity (APTEL), New Delhi has concluded that CERC has jurisdiction to determine the tariff and has dismissed the appeals filed by the GRIDCO and PTC India Limited (Haryana Discoms) thereby upholding the Tariff determined by CERC. The Company had also filed petition for recovery of dues with CERC wherein the CERC in its order dated March 20, 2018 has directed PTC India Limited to pay the above dues with late payment interest and reaffirmed the CERC order dated February 03, 2016 on change in law claims including Coal Cost Pass Through. The management of GKEL is of the view that it would not be unreasonable to expect ultimate collection of the amount involved, accordingly GKEL has recognized the same as revenue from operations.
- c. The CERC vide Order no. 79/MP/2013 dated February 03, 2016 had prescribed a formula and methodology to calculate compensation towards shortfall of linkage coal. GKEL raised invoices towards coal pass through based on the said Order. However, Haryana Discoms disputed the Order and challenged the matter before APTEL and did not pay for the bills raised. APTEL in its judgement dated December 20, 2019 upheld the CERC Judgement and directed Haryana Discoms to pay the amount along with the late payment surcharge (LPS). The Order dated December 20, 2019 was again challenged by Haryana Discoms before Hon'ble Supreme Court of India. However, an agreement was signed on September 02, 2020 between GKEL and Haryana Discoms without prejudice to case pending before Supreme Court and agreed to a separate formula of change in law, coal pass through and LPS. Haryana Discoms agreed to pay 50% of revised value as per the agreed formula, the remaining 50% amount will be paid by Haryana Discoms post receipt of favorable order from the Hon'ble Supreme Court of India.

vii) GRIDCO PPA (Orissa)

- a. GKEL under long term Power Purchase Agreement (the PPA), has committed to sell up to 262.5 MW for twenty-five years to GRIDCO Limited for tariff to be determined by the CERC. GKEL has considered the impact of Central Electricity Regulatory Commission (Terms and conditions of Tariff) Regulations, 2019 ("2019-24 Regulation") at the time of billing to GRIDCO from April 01, 2024 onwards on prudent basis and keeping certain parameters in line with the 407/GT/2020 Order pertaining to the period 2019-2024 by CERC. GKEL has raised the invoices considering the 2024-29 Regulation except for annual fixed cost component which is as per Order 407/GT/2020 in respect of which a reversal of ₹ 4.52 crore was made during the year ended March 31, 2025. GKEL will file the tariff petition before the CERC in respect of 2024-29 Regulations.
- b. CERC has passed the Tariff order for the period 2019-24 on May 17, 2024 in case 407/GT/2024 along with truing-up Order for the period 2014-19. Based on this order GKEL has calculated the differential Capacity charges for the financial year 2014-19 at ₹ 35.34 crore and for 2019-24 at ₹ 48.03 crore. GKEL has already made a provision of ₹ 111.02 crore till financial year ended March 31, 2024. Thus, the additional provision amount of ₹ 27.62 crore has been reversed in the current year. Further based on this above order and relevant CERC regulation 8(13) and 10(7), GRIDCO has claimed provisional interest of ₹ 37.78 crore on excess annual fixed cost paid by GRIDCO.
- c. As per the PPA, GKEL shall raise a combined invoice for capacity charge and energy charge to GRIDCO. The capacity charges shall be calculated based on declared availability i.e., as per Clause 2.2(a) of the PPA and the energy charges shall be calculated on ex-bus energy scheduled/ sent out from GKEL. The tariff for capacity charges and energy charges shall be determined by CERC in every five years. Pursuant to provisions of Clause 2.2(a) of the PPA, GRIDCO vide letter dated February 26, 2013 exercised its right to off-take 25% of the installed capacity of the project and agreed to pay capacity charges.

GKEL started supplying power to GRIDCO from April 2013. However, CERC passed the Tariff Order on November 12,

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

2015 in Case no. 77/GT for the Regulation period FY 2009-14 and approved the annual fixed cost and energy charges and till such time GKEL was billing on provisional basis. Further CERC had passed the tariff order on June 29, 2018 in case No. 61/GT and approved the capacity and energy charges for the period FY 2014-19. Based on above two orders GKEL had raised invoices and claimed capacity charges based on availability declared to State Load Despatch Center (SLDC). However, GRIDCO disputed the declared availability and revised on its own and calculated the capacity charges and paid the partial amount, which GKEL has objected to the method of calculation and filed a petition before CERC in case no. 115/MP/2019 due to non-receipt of capacity charges along with late payment surcharge. CERC has passed an Order on February 04, 2020 and directed GRIDCO to pay the outstanding amount along with late payment surcharge (LPS) as per CERC Tariff Regulation 2014. Further directed SLDC to revise the availability for the said period as available by GKEL. Further, GKEL has filed a petition before CERC seeking implementation of Order dated February 04, 2020 to pay the old Plant Availability Factor achieved during the Month ("PAFM") dues along with LPS. On April 04, 2022, CERC passed an Order and directed GRIDCO to pay capacity charges along with LPS based on corrected PAFM computed by SLDC within 2 months from the date of the Order.

viii) Regulatory Receivable from Haryana and GRIDCO Discoms

GKEL subsequent to favourable Orders from CERC has started claiming and accounting revenue towards tariff determination petition in case of GRIDCO Limited and Change in Law events (CIL Claims) in case of power purchase agreement (the PPA) with Haryana Discoms. In respect of the aforesaid claims, GRIDCO and Haryana Discoms have preferred appeals against the CERC Orders in various forums and have not released payments except for some partial payments pursuant to interim orders of the regulators though not fully complied. Haryana's and GRIDCO's petition had been dismissed by the Appellate Tribunal vide Order dated December 20, 2019. The total outstanding receivable (including unbilled revenue amounting to ₹ 662.47 crore) from GRIDCO and Haryana Discoms (customers) towards these claims are ₹ 1,836.81 crore as at March 31, 2025. Out of these, ₹ 1,699.90 crore (including unbilled revenue amounting to ₹ 589.15 crore) is pending due to ongoing litigation with these customers. Further, these balances from the aforesaid customers are net of payables / provision for customers claims amounting to ₹ 154.90 crore as at March 31, 2025. The management is of the opinion that the CERC Orders are binding on the customers for tariff fixation and disputes from the customers are not tenable under fact and law and is confident of winning the cases which are pending before different legal forums considering favorable interim Orders received from the regulators and external legal opinions obtained by the management and is hopeful of recovering the entire receivables in the due course.

45. Matters related to certain road sector entities:

- i. GMR Ambala Chandigarh Expressways Private Limited ('GACEPL'), a subsidiary of the Holding Company has been incurring losses since the commencement of its commercial operations and has accumulated losses of ₹ 549.72 crore as at March 31, 2025. The management of the Group believes that these losses are primarily attributable to the loss of revenue arising as a result of diversion of partial traffic on parallel roads.

GACEPL had invoked arbitration proceedings against National Highways Authority of India (NHAI), State of Haryana (SoH) and State of Punjab (SoPb) as per the terms of the Concession Agreement entered into with NHAI dated November 16, 2005 ('Concession agreement') and State Support Agreement dated February 21, 2006 and March 8, 2006 respectively due to continued losses suffered by GACEPL on account of diversion of traffic to parallel roads developed by SoH and SoPb. GACEPL has raised its contention that NHAI, SoH & SoPb has breached the provisions of Concession Agreement and State Support Agreements by building parallel highways resulting in loss of traffic to the GACEPL's toll road. GACEPL had filed a net claim of ₹ 1,003.35 crore including interest, calculated up to March 31, 2019 before the Tribunal.

The three member Hon'ble Tribunal vide its order dated August 26, 2020, has pronounced the award wherein majority of the Tribunal has disagreed with the contention of the GACEPL and has rejected all the claims of GACEPL.

Further, in accordance with the terms of the Concession Agreement entered into with National Highways Authority of India (NHAI), dated November 16, 2005, GACEPL has an obligation to pay an amount of ₹ 174.75 crore by way of Negative Grant over the concession period. The total value of Negative Grant has been recognized in the financials by way of capitalization in the cost of carriageway and a corresponding obligation has been created towards Deferred Payment. During earlier years GACEPL has paid negative grant to NHAI in various instalments and balance negative grant of ₹ 66.40 crore was due but have not been remitted to NHAI as there was a stay on account of arbitration. The Arbitral Tribunal on August 26, 2020 while rejecting the GACEPL's prayer for compensation for breach of State Support Agreement & Concession Agreement by State Government of Haryana, State Government of Punjab and NHAI, vacated the stay granted on payment of Negative Grant and NHAI consequently demanded the payment of negative grant including interest from GACEPL and the Escrow Banker. The claim by NHAI for interest communicated to GACEPL and the Escrow Banker was ₹ 101.34 crore

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

calculated up to October 31, 2020, though the interest on balance negative grant dues as computed by GACEPL up to August 25, 2020 from aforesaid respective due dates is ₹ 60.32 crore (@SBI PLR plus 2%), which is disclosed as contingent liability. NHAI has been demanding the Negative grant along with interest calculated at the rate SBI plus 2% from GACEPL through various communications. GACEPL has discharged the entire liability of negative grant of ₹ 66.40 crore in entirety.

GACEPL in terms of its communication to NHAI has been providing for delay in payment of interest on negative grant w.e.f August 25, 2020 onwards amounting to ₹ 22.29 crore till March 31, 2025 under prudence, pursuant to the vacation of stay on payment of negative grant vide Arbitral Award dated August 26, 2020. GACEPL has not accounted for interest estimated up to August 25, 2020 amounting to ₹ 60.32 crore for non-payment of negative grant in terms of concession agreement.

Further, the management is of the opinion that there is no charge of interest in pursuance of stay given by the Arbitral Tribunal for the period prior to August 26, 2020 and effect, if any will be given on the matters attaining finality as the management is of the opinion that the GACEPL's claim on NHAI for diversion of traffic and interest there on are higher than the counter claim of interest payable on negative grant as the total claim has to be looked at net effect, considering the favorable order of the Hon'ble High Court of Delhi as detailed herein.

GACEPL aggrieved by rejection of all claims by majority members had preferred an appeal, in both Punjab and Haryana matters, under Section 34 and Section 9 of the Arbitration Act before Hon'ble High Court of Delhi. The Hon'ble High Court of Delhi vide its order dated September 26, 2022 set aside the Arbitral Award dated August 26, 2020 appealed under section 34 and has referred the entire dispute back to Arbitration for which the parties are at liberty to re-initiate Arbitration proceedings as per the Contractual covenants.

The Divisional Bench further had upheld the order of Single Bench vide its order dated September 20, 2023 by rejecting the appeal of NHAI and SoH.

In the meanwhile, NHAI and SOH has filed SLPs against the order of Divisional Bench before the Hon'ble Supreme Court of India, the SLP of SoH has been dismissed due to the non-rectification of defects within the timelines allowed by Hon'ble Supreme Court of India. Next date of hearing for the SLPs filed by NHAI is not fixed yet.

GACEPL has reinitiated the Arbitration Process and has also appointed its nominee, however NHAI is yet to appoint its nominee, in this regard the GACEPL has approached the Hon'ble High Court of Delhi for appointment of Arbitrator on behalf of NHAI, SoPb and SoH, in view of the pendency of the SLPs in the Hon'ble Supreme Court of India, the matter is listed for hearing on August 04, 2025.

Furthermore, GACEPL's right to receive the user fee for usage of the toll roads have been affected due to the farmers protests from October 12, 2020 to December 14, 2021 where the farmers did not allow for collection of toll fees. GACEPL has approached NHAI for loss of revenue due to farmer's protest. GACEPL had submitted its claim for compensation of ₹ 15.18 crore towards Operation and Maintenance expenses and interest on RTL incurred from October 12, 2020 to December 14, 2021. Pursuant to the claim filed by the GACEPL, NHAI vide its communication dated October 19, 2022 has approved the claim of ₹ 8.70 crore which was recognized during the previous year ended March 31, 2023.

GACEPL has been discharging interest on debt at the rate ranging from 11.40% to 11.75% during the period of protest whereas NHAI had considered interest rate of 8.50% while approving the claim resulting in difference of ₹ 4.28 crore. GACEPL has filed a communication objecting to the method of calculating the interest. The independent engineer has agreed with the claim of GACEPL and recommended the same to NHAI for release of ₹ 4.28 crore, which is pending approval of NHAI. GACEPL is confident of receiving the amount of ₹ 4.28 crore as has been recommended by independent engineer from NHAI.

Further, NHAI has also conveyed its approval for extension of concession period by 429 days equal to the period effected by Farmers agitation from the scheduled completion of the Concession agreement.

Based on internal assessment and external legal opinions, the management is confident of compensation inflow from claims for loss due to diversion of traffic in arbitration proceedings. Based on the valuation performed by independent experts as at December 31, 2024 (i.e. valuation date), the management is of the view that the recoverable amounts of the carriageways of GACEPL is higher than the carrying value of the carriageways. Accordingly, management is of the opinion that carrying value of Carriageway in GACEPL of ₹ 149.41 crore as at March 31, 2025 is appropriate.

- ii. GMR Hyderabad Vijayawada Expressways Private Limited ('GHVEPL') a subsidiary of the Company had been incurring losses since the commencement of its commercial operations. These losses are primarily due to loss of revenue arising as a result of drop in commercial traffic on account of bifurcation of State of Andhra Pradesh and ban imposed on sand mining in the region. The management of the Group based on its internal assessment and a legal opinion, believed that these events constitute a Change in Law as per the Concession Agreement and GHVEPL is entitled to a claim for losses

for the year ended March 31, 2025

suffered on account of the aforementioned reasons and accordingly filed its claim for the loss of revenue till the year ended March 31, 2017 with National Highways Authority of India ('NHAI'). The claim of GHVEPL was rejected by NHAI and accordingly during the year ended March 31, 2018, GHVEPL had decided to proceed with arbitration and accordingly Arbitral Tribunal was constituted and claims were filed.

The project was initially developed from existing 2 lanes to 4 lanes to be further developed to 6 laning subsequently (before 14th anniversary of the appointed date). If 6 laning was not carried out (if so required by NHAI/desired by GHVEPL), concession period would be restricted to 15 years as against 25 years. GHVEPL has been amortising intangible assets over the concession period of 25 years.

The Arbitral Tribunal vide its order dated March 31, 2020, had pronounced the award unanimously, upholding GHVEPL's contention. Further, the said tribunal order was also upheld by the Hon'ble High Court of Delhi and division bench of the Hon'ble High Court of Delhi vide its Judgement dated May 07, 2024.

NHAI, upon receipt of Divisional Bench judgement, requested for conciliation of all the disputes amicably, which GHVEPL accepted and accordingly a Conciliation Committee of Independent Expert was formed. Based on the meetings and discussions of the issues at length, NHAI and GHVEPL reach an amicable settlement at ₹ 1,387.21 crore along with early handover of the Project back to NHAI w.e.f. July 01, 2024. The Settlement Agreement dated June 13, 2024 was entered between NHAI and GHVEPL with the following major terms and conditions:

- i) The amount of ₹ 1,387.21 crore is payable by NHAI to GHVEPL as net compensation amount towards the full and final settlement of in respect of all claims, counter claims, including interest and all the other disputes under the Concession Agreement.
- ii) NHAI shall waive off the damages imposed by Independent Engineer ('IE') towards default for O&M obligation amounting to ₹ 54.52 crore.
- iii) NHAI and GHVEPL shall withdraw all claims / legal proceedings pending at any legal forum against each other.
- iv) GHVEPL shall not make any claim emanating from the Change in Law arbitration from June 13, 2025 onwards and shall also forego its claim and rights for undertaking six laning and six laning to be disposed off (i.e. foregoing of claim on concession period of 25 years) by giving a joint application to the Arbitral Tribunal.
- v) GHVEPL shall hand over to NHAI the project Highway with all assets, Road work, building accessories on the Project Highway.
- vi) The net compensation of ₹ 1,387.21 crore included an amount of ₹ 405.41 crore towards the future revenue for the balance concession period from toll and related change in law claim net of additional concession premium at present value.

GHVEPL has evaluated the implications of the Settlement of the Concession Agreement during the year with balance period ending on June 13, 2025 in respect of which projected surplus for the balance period has been received as to be of an distinct nature arising from the settlement of litigation in the regular course of business. GHVEPL has been legally advised that the settlement is in ordinary course and not a termination or abandonment in terms of the relevant contractual clauses of the Concession Agreement. Accordingly, GHVEPL has fully amortised and charged off the balance carrying value of Carriageways of ₹ 1,680.81 crore.

The net compensation received from NHAI including interest and waiver of excess premium along with the additional charge of amortization of carriageways including the write off various assets handed over has been disclosed as exceptional item in the audited consolidated financial results. Pursuant to such settlement, GHVEPL has recognized an exceptional gain of ₹ 1,324.00 crore during the year ended March 31, 2025.

Further, GHVEPL has settled the outstanding dues to the senior lenders out of the proceeds of compensation received from NHAI.

During the year ended March 31, 2025, GHVEPL has received an amount of ₹ 1,387.21 crore as net compensation amount towards the full and final settlement in respect of all claims, counter claims, including interest and all the other disputes under the Concession Agreement by which it has arranged to settle all the dues to its creditors and lenders.

The management of the Group does not foresee any further losses other than those provided for in the accounts on the realization of the assets which it expects to realise in the ordinary course and expects full settlement of liabilities. The management of the Group further plans to synergise the operations with the continuing operations of other suitable companies in the Group.

- iii. GMR Pochanpalli Expressways Limited ('GPEL') a subsidiary of the Company had invoked Arbitration proceedings against NHAI in respect of the dispute on applicability of carrying out periodic maintenance (overlay work) of the road project once in every five years in the Concession Agreement. On January 14, 2020, the Hon'ble Tribunal had pronounced the award wherein it had directed GPEL has to carry out overlay irrespective of the condition of the road and commence second overlay work with effect from April 01, 2020 and complete by December 31, 2020 and also complete the third overlay work by April 01, 2025. The NHAI has challenged the award before the Hon'ble High Court of Delhi with regard to extending the timeline to commence and complete the second overlay work and third overlay work stating that such concession is not in accordance with Concession Agreement.

The Arbitral Tribunal had further directed NHAI to refund the amount of ₹ 10.79 crore which was wrongly deducted from the annuity along with interest @12% p.a. from the date of deduction. The Arbitral Tribunal has also directed NHAI to pay ₹ 0.30 crore towards costs of litigation and the entire amount of fee paid to the Arbitrators by GPEL on behalf of NHAI. NHAI had challenged the award with regard to directions for refund of amount before the Hon'ble High Court of Delhi.

Aggrieved by the findings of the Tribunal, to the limited issue of requirement of overlay upon every 5 years, GPEL has filed an application under Section 34 of the Arbitration and Conciliation Act, 1996 before Hon'ble High Court of Delhi. By challenging the award to the extent of wrong interpretation of clause 4.3.1 of schedule "I" to CA and rejection of claims for reimbursement of cost of overlay incurred by the company which under given circumstance was not required pending disposal of appeal.

The Hon'ble High Court of Delhi vide its order dated April 06, 2022 had upheld GPEL's contentions and held that the overlay is to be carried out as and when the roughness index exceeds 2000 mm/km and rejected the arbitration order which had held that GPEL has to carry out overlay irrespective of the condition of the road every five years. It has further upheld the GPEL's claim in respect of the cost incurred on the first major maintenance and directed that the quantification of the claim to be done by the arbitrator appointed by it. The awards of tribunal on other matters favorable to GPEL was further upheld by the Hon'ble High Court of Delhi.

NHAI has filed an appeal under Section 37 of the Arbitration and Conciliation Act, 1996 against the order of Single Judge of Hon'ble High Court of Delhi before the Division bench of Hon'ble High Court of Delhi and the Court has directed on July 11, 2022 to maintain status quo of arbitration proceeding and the matter is listed for hearing on July 03, 2025.

The implication of the favorable order to GPEL would have affected the carrying value of Service Concession Receivables by reduction of the outflows on overlay cost which would have resulted in significant modification gain to GPEL on reversal of those provisions. Pending finality and clarity in the matters the Group under prudence has not affected the financial impact of the order. The impact of modification gains and reversal of provision for overlay cost, if any, would be given on the finality of legal proceedings.

- iv. Government of Tamil Nadu (GoTN) had awarded an annuity-based highway project to GMR Chennai Outer Ring Road Private Limited ('GCORR'). GCORR had awarded EPC contract to Boyance Infrastructure Private Limited (BIPL) for the construction of highway project. Subsequently BIPL had sub-contracted a significant portion of such contract to the Company. On May 30, 2015, BIPL and the Company entered into a novation agreement whereby all the right and obligation related to the execution of EPC contract lies with the Company. Due to various reasons the project got delayed. Since the delay in completion of EPC Contract is due to factors which were attributable to GoTN and were beyond control, time to time, the Company has raised claim to GCORR and in turn GCORR, has raised the claim on GoTN for an amount of ₹ 675.00 crore plus interest. GoTN has disputed the amount claimed, hence GCORR has invoked Arbitration. The Hon'ble Tribunal vide its order dated January 30, 2020, against a claim of ₹ 675.00 crore have directed GoTN to pay ₹ 340.97 crore within 3 months from the date of award failing which the same shall be payable with interest at 18% p.a. from the date of Award till date of realization. Time for payment by GoTN expires on April 30, 2020. GCORR had filed an application under section 34 of Arbitration Act, 1996, before Madras High Court restricting the challenge to non-grant of pendente lite interest as per contract.

GoTN has also challenged the award by filing an application under section 34 of Arbitration Act, 1996. The Ld. Single judge of Hon'ble Madras High Court, vide order dated November 17, 2021, has dismissed the challenge of Government of Tamil Nadu thereby upholding the Award in its entirety. The Ld. Single Judge has also partly upheld the challenge of GCORR by awarding pendent-lite interest at the rate of 9% p.a from the date of filing Statement of Claim till the date of Award and thereafter @ 18% p.a. as ordered by the Tribunal. The total amount (including interest) estimated to be received by virtue of the above order is ₹ 597.00 crore approx.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

GCORR has filed execution petition u/s 36 of the Arbitration and Conciliation Act, 1996 on January 05, 2022 before the Madras High Court for enforcement of Arbitral Award.

Against the dismissal of its appeal u/s 34, GoTN has filed an application u/s 37 of Arbitration and Conciliation Act, 1996 before Division Bench of Madras High Court, which was ultimately dismissed by the Division Bench.

Against the dismissal of appeal u/s 37 of Arbitration and Conciliation Act 1996 by Hon'ble Division Bench of Madras High Court vide order dated August 11, 2022, GoTN had filed Special Leave Petition. The Hon'ble Supreme Court confirmed the Arbitral Award for an amount of ₹ 340.97 crore plus interest @ 18% p.a., aggregating to ₹ 510.47 crore (interest calculated up to November 02, 2022) and issued notice confining to the issue of Pendente Lite interest awarded by the Single Judge.

GCORR in the execution petition filed u/s 36 of the Arbitration and Conciliation Act, 1996 on January 05, 2022, requested the Madras High Court for enforcement of the Award. GCORR also filed an application for directions to GoTN to deposit 100% of the amount confirmed by Hon'ble Supreme Court i.e., ₹ 510.47 crore. Vide order dated November 08, 2022, the Hon'ble Madras High Court directed GoTN to deposit a sum of ₹ 510.47 crore with Registrar by February 20, 2023.

GCORR, based on the judgement of the Hon'ble Supreme Court dated November 03, 2022 confirming the claim amount of ₹ 510.47 crore have recognized the amount pertaining to its portion of claim in the award along with Interest up to the date of order and consequential provision for amount payable to the Company amounting to ₹ 418.55 crore (including Interest calculated up to November 02, 2022) in the books of accounts of GCORR during the year ended March 31, 2023. Accordingly, pursuant to the aforesaid novation agreement, the Holding company has recognized an exceptional gain of ₹ 418.55 crore (including Interest calculated up to November 02, 2022) in its standalone financial statements and ₹ 463.92 crore in the consolidated financial statements during the year ended March 31, 2023.

Further, for additional Pendente Lite interest awarded by the Hon'ble High Court of Madras, the matter is pending before the Hon'ble Supreme Court of India.

Meanwhile, GCORRPL had entered into negotiation with Managing Director, Tamil Nadu Road Development Corporation Limited ('TNRDC') for settlement of dispute and has put forth the final claim for ₹ 234.10 crore which includes pendente lite interest, post award interest for the period up to actual payment of claim, interest on delayed payment of annuity, claim for commission on performance bank guarantee, amount wrongly deducted by TNRDC while releasing withheld annuity & interest thereon and claim for additional GST paid under change in law. GCORRPL has proposed to settle all the disputes for an amount of ₹ 55.00 crore and the cases in Hon'ble Supreme Court of India and Hon'ble High Court of Madras will be withdrawn in case of final settlement is agreed by the Government of India. Based on the finality of the negotiation, GCORRPL and TNRDC/GOTN has agreed to settle the claim at ₹ 54.80 crore. Further on January 08, 2024 GCORRPL has received the entire amount of ₹ 54.80 crore from TNRDC towards settlement of claims. Accordingly, GCORRPL has recognized the amount of ₹ 54.80 crore pertaining to amicable settlement of claim in the books of accounts and has been disclosed as exceptional income in consolidated financial statement during the year ended March 31, 2024.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

Notes:

1. The Group has provided securities by way of pledge of investments for loans taken by certain companies.
2. Certain Key management personnel have extended personal guarantees as security towards borrowings of the Group and other body corporates. Similarly, GEPL and certain fellow subsidiaries have pledged certain shares held in the Company as security towards the borrowings of the Group
3. Remuneration to key managerial personal does not include provision for gratuity, superannuation and premium for personal accidental policy, as the same are determined for the Group as a whole.
4. The Group has entered into sub-contract agreements with unincorporated joint ventures formed by the Group and other joint venturer under joint operation arrangements. Such joint ventures are rendering services ultimately to an unrelated party. Accordingly, the transactions entered on account of such sub-contract arrangement with the unincorporated joint ventures have not been disclosed above.
5. Refer note 7a and 7b for investment in joint venture and associates.
6. In the opinion of the management, the transactions reported herein are on arm's length basis.
7. The amount of the outstanding balances as shown above are unsecured and will be settled in due course.

(b) Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares and mutual and overseas fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

- (i) Short-term financial assets and liabilities are stated at carrying value which is approximately equal to their fair value.
- (ii) The Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Interest rate swaps are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves and forward rate curves of the underlying commodity.
- (iii) Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Group could have realised or paid in sale transactions as of respective dates. As such, fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date.
- (iv) The fair value of Embedded Derivatives are based on certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for Investments by the group in unquoted equity investments in Energy Sector. Based on the inputs provided by the management the independent external valuer performs the valuation of Investments and based on the same the valuer determines the value of the Derivatives.
- (v) The fair values of investment property have been determined based on available data for similar investment property or observable market prices less incremental cost for disposing of the investment property on the basis of valuation done by independent valuer.
- (vi) There have been no transfers between Level 1, Level 2 and Level 3 for the year ended March 31, 2025 and year ended March 31, 2024.
- (vii) Fair value of mutual funds and overseas funds is determined based on the net asset value of the funds.

(c) Financial risk management objectives and policies

In the course of its business, the Group is exposed primarily to fluctuations in foreign currency exchange rates, interest rates, equity prices, liquidity and credit risk, which may adversely impact the fair value of its financial instruments. The Group has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

- (i) create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Group's business plan.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised in respect of each class of financial asset, financial liability and equity instrument are disclosed in accounting policies, to the consolidated financial statements.

Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(a) Market risk- Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term and short-term debt obligations with floating interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Variable rate borrowings	3,228.78	4,412.84
Fixed rate borrowings	7,009.52	9,442.04
Total borrowings	10,238.30	13,854.88

Particulars	Increase / (decrease) in basis points	Effect on profit before tax (₹ in crore)
March 31, 2025		
Increase	+50	(16.14)
Decrease	-50	16.14
March 31, 2024		
Increase	+50	(22.06)
Decrease	-50	22.06

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

(b) Market risk- Foreign currency risk

The fluctuation in foreign currency exchange rates may have potential impact on the consolidated statement of profit and loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the respective consolidated entities. Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries.

i. Foreign currency exposure

The following table demonstrate the unhedged exposure in USD exchange rate as at March 31, 2025 and March 31, 2024. The Group's exposure to foreign currency changes for all other currencies is not material.

Particulars	Year ended	USD in crore	₹ in crore

	March 31, 2024	(40.83)	(3,397.25)

ii. Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities. The Group's exposure to foreign currency changes for all other currencies is not material.

Particulars	Change in USD rate	Effect on profit before tax (₹ in crore)
March 31, 2025		
Increase	5.00%	(181.51)
Decrease	-5.00%	181.51
March 31, 2024		
Increase	5.00%	(169.86)
Decrease	-5.00%	169.86

The sensitivity analysis has been based on the composition of the Group's net financial assets and liabilities as at March 31, 2025 and March 31, 2024. The period end balances are not necessarily representative of the average debt outstanding during the period.

Credit risk

Credit risk is the risk of financial loss arising from counterpart's failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of credit worthiness as well as concentration risks. The Group has a policy of dealing only with credit worthy counter-parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults.

Notes to the Consolidated Financial Statements

for the year ended March 31, 2025

Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables/unbilled revenue, loans receivables, investments in debt securities, balances with bank, bank deposits, derivatives and financial guarantees provided by the Group. None of the financial instruments of the Group result in material concentration of credit risk except investment in preference shares made by the Group in its group companies and loans provided to its group companies. The credit risk in respect of such investments in preference shares/ debentures and loans are assessed on the basis of the fair value of the respective group companies determined based on their business plans. Also refer note 46 for the details of such instruments.

The carrying value of financial assets represents the maximum credit risk. The maximum exposure to credit risk was ₹ 6,195.19 crore and ₹ 6,879.91 crore as at March 31, 2025 and March 31, 2024 respectively, being the total carrying value of trade receivables, balances with bank, bank deposits, investments (other than investments accounted for using equity method) and other financial assets.

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major clients. The Group does not hold collateral as security.

The Group's exposure to customers is diversified and there is no concentration of credit risk with respect to any particular customer as at March 31, 2025 and March 31, 2024.

Credit risk from balances with bank and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

In respect of financial guarantees provided by the Group to banks and financial institutions, the maximum exposure which the Group is exposed to is the maximum amount which the Group would have to pay if the guarantee is called upon. Based on the expectation at the end of the reporting period, the Group considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

Liquidity risk

Liquidity risk refers to the risk that the Group can not meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group has obtained fund and non-fund based working capital lines from various banks. Furthermore, the Group has access to funds from debt markets through convertible debentures, non-convertible debentures, bonds and other debt instruments. The Group invests its surplus funds in bank fixed deposit and in mutual funds, which carries no or low market risk.

The Group monitors its risk of a shortage of funds on a regular basis. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, debentures, preference shares, sale of assets and strategic partnership with investors etc.

The following table shows a maturity analysis of the anticipated cash flows excluding interest and other finance charges obligations for the Group's financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value. Floating rate interest is estimated using the prevailing interest rate at the end of the reporting period.

49. Capital management

The Group's capital management is intended to create value for shareholders by facilitating the meeting of long-term and short-term goals of the Group.

The Group determines the amount of capital required on the basis of annual business plan coupled with long-term and short-term strategic investment and expansion plans. The funding needs are met through equity, cash generated from operations and sale of certain assets, long-term and short-term bank borrowings and issue of non-convertible / convertible debt securities and strategic partnership with investors.

For the purpose of the Group's capital management, capital includes issued equity capital, convertible preference share, share premium and all other equity reserves.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is total debt divided by total capital plus total debt. The Group's policy is to keep the gearing ratio at an optimum level to ensure that the debt related covenant are complied with. Refer note 2.1

50 Business Combination

I GMR Energy Limited ('GEL') was incorporated on October 10, 1996 and is engaged in the business of development, operation and maintenance of power projects, power generation, transmission, distribution and trading of electricity, through its subsidiaries and Joint ventures.

The Company along with its subsidiaries ('the Group') held 57.76% stake in GEL till November 21, 2023. Considering the future growth prospects and opportunities available in the Energy sector, the Group has entered into a settlement agreement with Energy International (Mauritius) Limited ('Tenaga') on November 17, 2023 to acquire additional 29.14% stake of GEL at a purchase consideration of ₹ 237.55 crore (USD 2.85 crore). The Group paid the entire purchase consideration of ₹ 237.55 crore on November 21, 2023 ('transaction date').

With this complete buy-out of Tenaga stake, the Shareholders Agreement ("SHA") with Tenaga stands terminated thereby enabling control over GEL and full line by line-by-line consolidation w.e.f. November 22, 2023 in accordance with Ind AS 110 'Consolidated Financial Statements', which till November 21, 2023 was being done on an equity method in accordance with Ind AS 28 'Investments in Associates and Joint Ventures'.

On account of this transaction, GEL Group entities total assets (before elimination), total liabilities (before elimination) and total revenue (before elimination) amounting to ₹ 13,973.91 crore, ₹ 12,782.08 crore and ₹ 1,709.70 crore, respectively have been consolidated in consolidated financial statement which constitute significant portion of the consolidated total assets, consolidated total liabilities and consolidated revenue of the Group.

If the acquisition would have taken place on April 01, 2023, the group would have higher revenue of ₹ 2,904.62 crore (before elimination), and higher loss after tax (before elimination) of ₹ 116.23 crore.

Further, the Group accounted for the business combination by applying the acquisition method of accounting in accordance with Ind AS 103 – 'Business Combination'. Accordingly, the purchase price was allocated to the assets acquired (including identifiable intangible assets and investments in subsidiaries and Joint ventures) and liabilities (including contingent liabilities and non controlling interest) assumed based on their fair values on their respective acquisition dates. Based on the purchase price allocation to the various identifiable acquired assets and assumed liabilities, goodwill of ₹ 35.89 crore has been recognized.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>1. Revenue recognition and measurement of upfront losses on Long-term construction contracts (refer note 2.2.c for the material accounting policy and note 33 for disclosures of the accompanying standalone financial statements)</p> <p>For the year ended 31 March 2025, the Company has recognized revenue from Engineering, procurement and construction (EPC) contracts of ₹ 189.18 crore and has accumulated provisions for upfront losses amounting to ₹ 2.09 crore as at 31 March 2025.</p> <p>The Company's revenue primarily arises from construction contracts, which is recognised over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contract with Customers, as further explained in note 33 to the accompanying standalone financial statements, and which, by its nature, is complex given the significant judgements involved in the assessment of current and future contractual performance obligations.</p> <p>The Company recognises revenue based on the stage of completion which is determined on the basis of the proportion of value of goods or services transferred as at the Balance Sheet date, relative to the value of goods or services promised under the contract.</p>	<p>Our audit procedures for recognition of contract revenue, margin and contract costs, and related receivables and liabilities included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Evaluated the appropriateness of the Company's accounting policy for revenue recognition from construction contracts in accordance with Ind AS 115, 'Revenue from Contracts with Customers'; • Assessed the design and implementation of key controls, over the recognition of contract revenue and tested the operating effectiveness of these controls; • For a sample of contracts, we have tested the appropriateness of amount recognized as revenue by evaluating key management judgements inherent in the determining forecasted contract revenue and costs to complete that drive the accounting under the percentage of completion method by performing following procedures: <ul style="list-style-type: none"> - reviewed the contract terms and conditions;

Key audit matter	How our audit addressed the key audit matter
<p>The recognition of contract revenue, contract costs and the resultant profit/loss therefore rely on the estimates in relation to forecast contract revenue and the total cost. These contract estimates are reviewed by the management on a periodic basis. In doing so, the management is required to exercise judgement in its assessment of the valuation of contract variations and claims and liquidated damages as well as the completeness and accuracy of forecast costs to complete and the ability to deliver contracts within contractually determined timelines. The final contract values can potentially be impacted on account of various factors and are expected to result in varied outcomes. Changes in these judgements, and the related estimates as contracts progress can result in material adjustments to revenue and margins/ onerous obligations.</p> <p>Owing to these factors, we have determined revenue recognition and provision for upfront losses from EPC contracts as a key audit matter for the current year audit.</p> <p>In addition to the above, following disclosures made in the accompanying standalone financial statements has been considered as fundamental to the users' understanding of such financial statements:</p> <p>Note 33(i) to the accompanying standalone financial statements which describes that the Company has recognized certain claims in the current year and preceding years pertaining to Dedicated Freight Corridor Corporation ('DFCC') project basis evaluation by the joint venture ('JV') incorporated between the Company and SEW Infrastructure Limited, of JV's entitlement under the contract towards recovery of prolonged cost, as further detailed in the aforesaid note.</p> <p>Based on the legal opinion and favourable award received from Dispute Adjudicating Board as stated in the said note, the management is of the view that the aforesaid claims as included in unbilled revenue as at 31 March 2025 are fully recoverable.</p>	<ul style="list-style-type: none"> - evaluated the identification of performance obligation of the contract; - evaluated the appropriateness of management's assessment that performance obligation was satisfied over time and consequent recognition of revenue using percentage of completion method; - obtained an understanding of the assumptions applied in determining the forecasted revenue and cost to complete; - assessed management's estimates of the impact to revenue and budgeted costs arising from scope changes made to the original contracts, claims, disputes and liquidation damages (including prolongation claims) with reference to supporting documents including variation orders and correspondence between the Company and the customers; and <ul style="list-style-type: none"> • Assessed the appropriateness and adequacy of disclosures made by the management with respect to revenue recognised during the year in accordance with applicable accounting standards.
2. Fair value measurement of investments in subsidiaries, associate and joint ventures (refer note 2.2.o for the material accounting policy and note 5 for disclosures of the accompanying standalone financial statements)	
<p>The Company has determined the fair value of its investments in unquoted equity shares, including instruments in the nature of equity of its subsidiaries, associate and joint ventures as at the year end. Determining the fair value of such unquoted investments requires use of valuation techniques which has been performed by independent valuation experts, applying applicable valuation methodologies.</p> <p>The Company has total investment of ₹ 1,851.53 crore (including classified under held for sale) as at 31 March 2025 which constitutes 39.52% of total assets of the Company. The aforementioned investments are carried at their respective fair values as at the reporting date as per Ind AS 109 - 'Financial Instruments'.</p>	<p>Our audit procedures to assess the reasonableness of fair valuation of investments included, but were not limited to the following:</p> <ul style="list-style-type: none"> • Obtained a detailed understanding of the management's process and controls for determining the fair valuation of unquoted equity and preference instruments; • Evaluated the design and tested the operating effectiveness of key controls implemented for fair valuation of the investments; • Obtained the valuation reports of the management's valuation expert and assessed the expert's professional competence, objectivity and capabilities in performing the valuation of the investments;

Key audit matter	How our audit addressed the key audit matter
<p>The determination of carrying value of the Company's investments in subsidiaries, associate and joint ventures is dependent on management's estimates of future cash flows and their judgment with respect to final determination of tariff rates, operational performance of the plants, life extension plans, availability and market prices of coal and other fuels, restructuring of loans, outcome of litigations, etc. in case of investments in entities in the energy business and estimation of vehicle traffic and rates and favourable outcomes of litigations etc. in case of investments in expressway business.</p> <p>Owing to the uncertainties involved in forecasting and discounting future cash flows, significant management's judgement and subjectivity involved in estimates and underlying key assumptions used in the valuation models and the significance of the Company's investments as at 31 March 2025 in context of standalone financial statements, we have determined this as a key audit matter for current year audit.</p> <p>In addition to the above, following disclosures made in the accompanying standalone financial statements have been considered as fundamental to the users' understanding of such financial statements:</p> <p>a. As explained in note 5.2 to the accompanying Standalone financial statements, the Company has invested in GMR Consulting Services Limited ('GCSL'), subsidiary of the Company, which have further invested in step down subsidiaries. The Company together with GCSL has investments in GMR Energy Limited ('GEL'), a subsidiary of the Company, amounting to ₹ 1,190.38 crore and has outstanding loan (net of impairment) (including accrued interest) amounting to ₹ 1,997.52 crore recoverable from GEL as at 31 March 2025. GEL has further invested in GMR Kamalanga Energy Limited ('GKEL') and GMR Warora Energy Limited ('GWEL'), both subsidiary companies. The carrying value of investment of the Company in GEL is dependent upon fair values of GKEL and GWEL. The aforementioned investments are designated at their respective fair values as at the reporting date as per Ind AS 109- 'Financial Instruments'. The carrying values are based on the respective valuations performed by an external expert using the discounted future cash flows method and other matters as follows:</p> <ul style="list-style-type: none"> - Note 5.4 to the accompanying standalone financial statements which states that the fair value of investment in GKEL is significantly dependent on the achievement of certain key assumptions considered in aforementioned valuation such as expansion and optimal utilization of existing plant capacity, and timing and amount of settlement of disputes with customers and capital creditors, which are outstanding as on 31 March 2025 as further explained in the said note. 	<ul style="list-style-type: none"> • Assessed the appropriateness of the valuation methodology used for the fair valuation computation; • Carried out an assessment of forecasts of future cash flows prepared by the management across various sectors and business of the investee companies which involved, evaluating the key assumptions including the discount rate and comparing the estimates to externally available industry, economic and financial data with the support of our auditor's expert and assessed the appropriateness of the aforesaid key assumptions; • Engaged in discussions with the management on the performance of the Company's investments as compared to previous year in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable; • Discussed the significant ongoing litigations in the investee companies which had a material impact to ascertain the appropriateness of the outcome considered in the respective valuation models; • Tested the arithmetical accuracy of the computations done in accordance with the valuation models; and • Ensured the appropriateness and adequacy of the related disclosures in the standalone financial statements in accordance with the accounting standards.

Key audit matter	How our audit addressed the key audit matter
<p>- Note 5.3 to the accompanying standalone financial statements which states that the fair value of investment in GWEL is also dependent upon recoverability of claims relating to transmission charges from Maharashtra State Electricity Distribution Company Limited (MSEDCL) as explained below, which are under dispute and pending settlement / realization as on 31 March 2025, capacity utilization of plant in future years and certain other key assumptions as considered in the valuation performed by an external expert as explained in the said note.</p> <p>The claims pertain to recovery of transmission charges from MSEDCL by GWEL. GWEL has disputed the contention of MSEDCL that the cost of transmission charges is to be paid by GWEL. However, based on the Order of the Appellate Tribunal for Electricity ('APTEL') ('the Order') dated 8 May 2015, currently contested by MSEDCL in the Supreme Court and pending conclusion, GWEL has accounted for reimbursement of such transmission charges in the Statement of Profit and Loss amounting to ₹ 616.33 crore for the period from 17 March 2014 to 30 November 2020 and accordingly, GWEL has disclosed the aforesaid transmission charges and those invoiced directly to MSEDCL, a customer of GWEL, by Power Grid Corporation Limited for the period 01 December 2020 to 31 March 2025 as contingent liability, as further described in aforesaid note.</p> <p>The management of the Company, based on its internal assessment, legal opinion, certain interim favourable regulatory orders and valuation assessment made by an external expert, is of the view that the carrying value of the aforesaid investment of the Company in GEL, taking into account the matter described above in relation to the investment made by GEL in GWEL and GKEL, is appropriate and accordingly, no adjustments to the aforesaid balance have been made in the accompanying standalone financial statements for the year ended 31 March 2025.</p>	

Information other than the Standalone Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our

knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified

under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to

financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

17. Further to our comments in Annexure I, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) Except for the matters stated in paragraph 17(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) The matters described in paragraph 2(a) under the key audit matters section in paragraph 5 above, in our opinion, may have an adverse effect on the functioning of the Company;
 - f) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2025 from being appointed as a director in terms of section 164(2) of the Act;
 - g) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 17(b) above on reporting under section 143(3)(b) of the Act and paragraph 17(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);
 - h) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2025 and the operating effectiveness of such controls, refer to our separate report in Annexure II wherein we have expressed an unmodified opinion; and
 - i) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company, as detailed in note 34(II) to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2025;
 - ii. The Company, as detailed in note 33(h) to the standalone financial statements, has made provision as at 31 March 2025, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2025;
 - iv.
 - a. The management has represented that, to the best of its knowledge and belief, other than as disclosed in note 50(iv) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any persons or entities, including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. The management has represented that, to the best of its knowledge and belief, as disclosed in note 50(v) to the standalone financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
 - v. The Company has not declared or paid any dividend during the year ended 31 March 2025; and
 - vi. As stated in note 45 to the standalone financial statements and based on our examination which included test checks, the Company, in respect of financial year commencing on 1 April 2024, has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software, except that audit trail feature was not enabled at the database

level upto 24 May 2024. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software where such feature is enabled and logs maintained. The audit trail feature has been preserved by the Company as per the statutory requirements for record retention from the date the audit trail was enabled for the accounting software.

Annexure I referred to in paragraph 16 of the Independent Auditor's Report of even date to the members of GMR Power and Urban Infra Limited on the standalone financial statements for the year ended 31 March 2025

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we report that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment and relevant details of right-of-use assets under which the assets are physically verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment and relevant details of right-of-use assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in note 3 to the accompanying standalone financial statements, are held in the name of the Company.
- (d) The Company has adopted cost model for its Property, Plant and Equipment (including right-of-use assets) and intangible assets. Accordingly, reporting under clause 3(i)(d) of the Order is not applicable to the Company.
- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed as compared to book records.
- (b) As disclosed in note 50(viii) to the standalone financial statements, the Company has been sanctioned a working capital limit in excess of ₹ 5 crore, by banks on the basis of security of current assets. Pursuant to the terms of the sanction letters, the Company is not required to file any quarterly return or statement with such banks.
- (iii) The Company has not made any investment in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to firms or Limited Liability Partnerships (LLPs) during the year. Further, the Company has made investments in, provided guarantee or security and granted unsecured loans to companies during the year, in respect of which:
- (a) The Company has provided loans or guarantee, or security to Subsidiaries/Joint Ventures/Associate/Others during the year as per details given below (also refer note 34(II) to the accompanying standalone financial statements):

(₹ in crore)		
Particulars	Guarantees*	Loans

	(527.79)	-
- Joint Ventures	-	-
	-	-
- Associates	-	100.00
	-	-
- Others	-	-
	-	-

*Amount in bracket represents the total outstanding liabilities of the respective loan against such guarantees/letter of comfort.

[#] This represents the total amount of guarantee given.

- (b) In our opinion, and according to the information and explanations given to us, the investments made, guarantees provided, security given and terms and conditions of the grant of all loans and guarantees provided are, prima facie, not prejudicial to the interest of the Company.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments/ receipts of principal and interest are regular.
- (d) There is no overdue amount in respect of loans granted to such companies, firms, LLPs or other parties.
- (e) The Company has granted loans which had fallen due during the year, and such loans were renewed/ extended during the year. The details of the same have been given below:

(₹ in crore)

Name of the party	Nature of the loan	Total loan amount granted during the year*	Aggregate amount of over dues of existing loans renewed or extended or settled by fresh loans	Nature of extension (i.e., renewed/ extended/fresh loan provided)	Percentage of the aggregate to the total loans or advances in the nature of loans granted during the year
Suzone Properties Private Limited	General Purpose Loan	4.17	4.17	Extended	100.00%
GMR Energy Limited	General Purpose	506.19	317.49	Extended	62.72%

GMR Energy Trading Limited	General Purpose Loan	1.96	1.96	Extended	100.00%

*Loans renewed or extended have been considered as "loans granted during the year" for the purpose of reporting under this clause.

- (f) The Company has not granted any loans which are repayable on demand or without specifying any terms or period of repayment.
- (iv) The Company has not entered into any transaction covered under section 185 of the Act. As the Company is engaged in providing infrastructural facilities as specified in Schedule VI of the Act, provisions of section 186 except sub-section (1) of the Act are not applicable to the Company. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of sub-section (1) of section 186 of the Act in respect of investments, as applicable.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.
- (vi) The Central Government has specified maintenance of cost records under sub-section (1) of section 148 of the Act in respect of the products of the Company. We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) (a) In our opinion and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, we report that there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

(₹ in crore)

Name of the statute	Nature of dues	Gross Amount	Amount paid under Protest	Period to which the amount relates	Forum where dispute is pending	Remarks, if any

Income Tax, 1961	Income Tax	2.29	-	A.Y. 2023	CIT(A)	Against this demand, the Company has filed for rectification.

(viii) According to the information and explanations given to us, we report that no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.

(ix) (a) According to the information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowings to any lender or in the payment of interest thereon, except for the below:

(₹ in crore)

Nature of borrowing, including debt securities	Name of lender	Amount not paid on due date	Whether principal or interest	No. of days delay or unpaid till the date of audit report	Remarks, if any
Delayed but paid on or before reporting date Foreign Currency Convertible Bonds (FCCBs)	Kuwait Investment Authority	1,175.75	Interest	213 days to 943 days	On 10 July 2024, the lender has waived off the total outstanding interest. Also refer note 16 to the accompanying standalone financial statements.

(b) According to the information and explanations given to us including representation received from the management of the Company, and on the basis of our audit procedures, we report that the Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion and according to the information and explanations given to us, money raised by way of term loans were applied for the purposes for which these were obtained.

(d) In our opinion and according to the information and explanations given to us, money raised by way of

term loans were applied for the purposes for which the loans were obtained, except for the term loan from Hero Fincorp Limited amounting to ₹ 100.00 crore which remain unutilised as on 31 March 2025 because funds were received towards the end of the year.

(e) In our opinion and according to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures, except for the following:

(x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.

- (xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no fraud on the Company has been noticed or reported during the period covered by our audit.
- (b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.
- (c) According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.
- (xiii) In our opinion and according to the information and explanations given to us, all transactions entered by the Company with the related parties are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.
- (xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system which is commensurate with the size and nature of its business as required under the provisions of section 138 of the Act.

- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information in the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
- (xx) According to the information and explanations given to us, although the Company has met the criteria as specified under sub-section (1) of section 135 of the Act read with the Companies (Corporate Social Responsibility Policy) Rules, 2014, however, in the absence of average net profits in the immediately three preceding years, there is no requirement for the Company to spend any amount under sub-section (5) of section 135 of the Act. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

(xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

Annexure II

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of GMR Power and Urban Infra Limited ('the Company') as at and for the year ended 31 March 2025, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial

statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Recent accounting pronouncement:

On May 09, 2025, MCA notifies the amendments to Ind AS 21 - Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual periods beginning on or after April 01, 2025. The Company is currently assessing the probable impact of these amendments on its financial statements.

2.1. Basis of Preparation

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS), including the rules notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and Presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013 as amended from time to time.

The standalone financial statements have been prepared on a historical cost basis except for certain financial assets and liabilities (refer accounting policy regarding financial instruments) which have been measured at fair value.

The functional and presentation currency of the Company is Indian Rupee ("₹") which is the currency of the primary economic environment in which the Company operates, and all values are rounded to nearest crore except when otherwise indicated.

2.2. Summary of significant accounting policies

a. Current versus non-current classification

The Company presents assets and liabilities in the standalone financial statements based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Advance tax paid is classified as non-current assets.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b. Fair value measurement of financial instruments

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date using valuation techniques.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the standalone financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

c. Revenue from contracts with customer

The Company recognises revenue from contracts with customers when it satisfies a performance obligation by transferring promised good or service to a customer. The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. Performance obligation is satisfied over time when the

transfer of control of asset (good or service) to a customer is done over time and in other cases, performance obligation is satisfied at a point in time. For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring good or service to a customer excluding amounts collected on behalf of a third party. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and there is no financing component involved in the transaction price.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in the statement of profit and loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Significant judgments are used in:

1. Determining the revenue to be recognised in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.
2. Determining the expected losses, which are recognised in the period in which such losses become probable based on the expected total contract cost as at the reporting date.

Revenue from operations

Revenue from operation is exclusive of goods and service tax (GST). Revenue includes adjustments made towards liquidated damages and variation wherever applicable. Escalation and other claims, which are not ascertainable/acknowledged by customers are not taken into account.

Revenue from construction/project related activity is recognised as follows:

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

1. **Cost plus contracts:** Revenue from cost plus contracts is recognized over time and is determined with reference to the extent performance obligations have been satisfied. The amount of transaction price allocated to the performance obligations satisfied represents the recoverable costs incurred during the period plus the margin as agreed with the customer.
2. **Fixed price contracts:** Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

Impairment loss (termed as provision for foreseeable losses in the standalone financial statements) is recognized in the statement of profit and loss to the extent the carrying amount of the contract asset exceeds the remaining amount of consideration that the Company expects to receive towards remaining performance obligations (after deducting the costs that relate directly to fulfil such remaining performance obligations). In addition, the Company recognises impairment loss (termed as provision for expected credit loss on contract assets in the standalone financial statements) on account of credit risk in respect of a contract asset using expected credit loss model on similar basis as applicable to trade receivables.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognized as and when the performance obligation is satisfied.

Trade receivables

The trade receivables are measured at transaction price and do not contain significant financing component. Trade receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Income from management/ technical services

Income from management/ technical services is recognised as per the terms of the agreement on the basis of services rendered.

Sale of electrical energy/ Renewable Energy Certificate ('REC')

- a. Revenue from energy units sold is recognised on accrual basis as per the terms of the Power Purchase Agreement (PPA) and Letter of Intent (LOI) [collectively hereinafter referred to as 'the PPAs'] and tariff rates determined by Central Electricity Regulatory Commission ('CERC'). Revenue includes unbilled revenue accrued up to the end of the year.

Revenue from energy units sold on a merchant basis is recognised in accordance with billings made to the customers based on the units of energy delivered and rates agreed with customers.
- b. Revenue from sale of infirm power are recognised as per the guidelines of CERC. Revenue prior to date of commercial operation are reduced from Project cost.
- c. Revenue/charges from Unscheduled Interchange for the deviation in generation with respect to scheduled units are recognized/ charged at rate notified by CERC from time to time, are adjusted to revenue from sale of energy.
- d. Revenue from sale of power is net of prompt payment rebate eligible to the customers.
- e. Claims for delayed payment charges and any other claims, which the Company is entitled to under the PPAs, are accounted for in the year of acceptance by the customers. Similarly commission, liquidated damages and any other charges are accounted for in the year of acceptance.

Interest income

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable except the interest income received from customers for delayed payments which are accounted

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

on the basis of reasonable certainty / realisation.

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss. Interest income is included in other operating income in the statement of profit and loss.

Dividends

Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

d. Taxes on income

Current income tax

Tax expense for the year comprises current and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The Company's liability for current tax is calculated using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying values of assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of the taxable profit and is accounted for using the balance sheet liability model. Deferred

tax liabilities are generally recognised for all the taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that is probable that future taxable profits will be available against which the temporary differences can be utilised.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

e. Non-current assets held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

The criteria for held for sale classification is regarded met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- a) The appropriate level of management is committed to a plan to sell the asset,
- b) An active programme to locate a buyer and complete the plan has been initiated,

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

- c) The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- d) The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- e) Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the consolidated balance sheet.

Property, plant and equipment and other intangible assets once classified as held for sale/ distribution to owners are not depreciated or amortised.

f. Property, plant and equipment

Freehold land is carried at historical cost and is not depreciated. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset are derecognised when replaced. All other repairs and maintenance are charged to the statement of profit and loss during the reporting period in which they are incurred.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset having useful life that is materially different from that of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Category of asset*	Estimated useful life
Plant and equipment	4 – 15 years*
Office equipment's	5 years
Furniture and fixtures	10 years
Vehicles	8 – 10 years
Computers	3 years

* The Company, based on technical assessment made by the technical expert and management estimate, depreciates certain items of plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013.

Further, the management has estimated the useful lives of asset individually costing Rs 5,000 or less to be less than one year, whichever is lower than those indicated in Schedule II. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the standalone statement of profit and loss when the asset is derecognised.

g. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period with the effect of any change in the estimate being accounted for on a prospective basis. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the standalone statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

the net disposal proceeds and the carrying amount of the asset and are recognised in the standalone statement of profit and loss when the asset is derecognised.

A summary of the policies applied to the Company's intangible assets is, as follows:

Intangible assets	Useful lives	Amortisation method used	Internally generated or acquired
Other concession and operator rights	Definite (25 years)	Straight-line basis	Acquired

h. Borrowing cost

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds including interest expense calculated using the effective interest method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset until such time as the assets are substantially ready for the intended use or sale. All other borrowing costs are expensed in the period in which they occur.

i. Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

The Company as a lessee

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straight-line basis except where scheduled increase in rent compensate the lessor for expected inflationary costs.

The Company enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist. At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset. The Company has elected to account for short-term leases using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

The Company as a lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

j. Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Costs incurred that relate to future activities on the contract are recognised as "Contract work in progress".

Contract work in progress comprising construction costs and other directly attributable overheads is valued at lower of cost and net realisable value.

k. Impairment of non-financial assets

As at the end of each accounting year, the Company reviews the carrying amounts of its Property, plant and equipment, intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the said assets are tested for impairment so as to determine the impairment loss, if any. Goodwill and the intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- (i) in the case of an individual asset, at the higher of the fair value less costs of disposal and the value in use; and
- (ii) in the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit's net fair value less costs of disposal and the value in use.

(The amount of value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life. For this purpose, the discount rate (pre-tax) is determined based on the weighted average cost of capital of the company suitably adjusted for risks specified to the estimated cash flows of the asset).

For this purpose, a cash generating unit is ascertained as the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the statement of profit and loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss.

l. Government Grant

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset. When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities.

m. Provisions and contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

Provisions and contingent liability are reviewed at each balance sheet date.

n. Retirement and other employee benefits

Retirement benefit in the form of provident fund, pension fund and superannuation fund are defined contribution schemes. The Company has no obligation, other than the contribution payable. The Company recognizes contribution payable to provident fund, pension fund and superannuation fund as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet reporting date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement

that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end.

The Company presents the leave as a current liability in the standalone balance sheet, to the extent it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method using actuarial valuation to be carried out at each balance sheet date.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the standalone balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the statement of profit and loss in subsequent periods.

Past service costs are recognised in the statement of profit and loss on the earlier of:

- a. The date of the plan amendment or curtailment, and
- b. The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- a. Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- b. Net interest expense or income.

o. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at transaction

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

cost and where such values are different from the fair value, at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are immediately recognised in the statement of profit and loss. In case of interest free or concession loans/debentures/preference shares given to subsidiaries, associates and joint ventures, the excess of the actual amount of the loan over initial measure at fair value is accounted as an equity investment. On de-recognition of such financial instruments in its entirety, the difference between the carrying amount measured at the date of de-recognition and the consideration received is adjusted with equity component of the investments.

The Company has made an irrevocable election to measure investments in equity instruments issued by subsidiaries, associates and joint ventures at Fair Value Through Other Comprehensive Income (FVTOCI). Amounts recognised in Other Comprehensive Income are not subsequently reclassified to the statement of profit and loss.

Investment in preference shares/ debentures of the subsidiaries are treated as equity instruments if the same are convertible into equity shares or are redeemable out of the proceeds of equity instruments issued for the purpose of redemption of such investments. Investment in preference shares/ debentures not meeting the aforesaid conditions are classified as debt instruments at amortised cost.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

(a) Financial assets

• Measurement and Valuation

1. Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the

financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2. Financial assets measured at fair value

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset not measured at amortised cost or at fair value through other comprehensive income is carried at fair value through the statement of profit and loss.

For financial assets maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

• Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through the statement of profit and loss.

The Company recognises impairment loss on trade receivables using expected credit loss model, which involves use of provision matrix constructed on the basis of historical credit loss experience as permitted under Ind AS 109 – Impairment loss on investments.

For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition.

• De-recognition of financial assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the financial asset expire, or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the carrying amounts measured at the date of de-recognition and the consideration received is recognised in standalone statement of profit and loss.

For trade and other receivables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(b) Financial liabilities and equity instruments

• Classification as debt or equity

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

• Measurement and valuation

1. Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

2. Financial liabilities

Financial liabilities are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of

borrowings is recognised over the term of the borrowings in the statement of profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

• Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

• Put option liability

The potential cash payments related to put options issued by the Company over the equity of subsidiary companies to non-controlling interests are accounted for as financial liabilities when such options may only be settled other than by exchange of a fixed amount of cash or another financial asset for a fixed number of shares in the subsidiary. The financial liability for such put option is accounted for under Ind AS 109.

The amount that may become payable under the option on exercise is initially recognised at fair value under other financial liabilities with a corresponding debit to investments.

If the put option is exercised, the entity derecognises the financial liability by discharging the put obligation. In the event that the option expires unexercised, the liability is derecognised with a corresponding adjustment to investment

• De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(c) Off-setting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

p. Convertible preference shares/ debentures

Convertible preference shares/debentures are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible preference shares/debentures, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for conversion right. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not re-measured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible preference shares/debentures based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

q. Cash and cash equivalents

Cash and cash equivalent in the standalone balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

r. Foreign currencies

In preparing the financial statements, transactions in the currencies other than the Company's functional currency are recorded at the rates of exchange

prevailing on the date of transaction. At the end of each reporting period, monetary items denominated in the foreign currencies are re-translated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on translation of long term foreign currency monetary items recognised in the standalone financial statements before the beginning of the first Ind AS financial reporting period in respect of which the Company has elected to recognise such exchange differences in equity or as part of cost of assets as allowed under Ind AS 101-“First time adoption of Indian Accounting Standard” are recognised directly in equity or added/ deducted to/ from the cost of assets as the case may be. Such exchange differences recognised in equity or as part of cost of assets is recognised in the statement of profit and loss on a systematic basis.

Exchange differences arising on the retranslation or settlement of other monetary items are included in the statement of profit and loss for the year.

s. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

t. Exceptional items

An item of income or expense which due to its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and the same is disclosed in the financial statements.

u. Corporate social responsibility ('CSR') expenditure

The Company charges its CSR expenditure during the year if any, to the statement of profit and loss.

- 2 The Company together with GCSL, have invested in GMR Energy Limited ("GEL"), a subsidiary of the Company, amounting to ₹ 1,190.38 crore (March 31, 2024: 1,169.61 crore) and has outstanding loan (net of impairment) (including accrued interest) amounting to ₹ 1,997.52 crore (March 31, 2024: ₹ 2,268.77 crore) in GEL as at March 31, 2025. GEL has certain underlying subsidiaries which are engaged in energy sector as further detailed in note 3,4 and 5 below, which have accumulated losses resulting in substantial erosion in their net worth. Based on management's internal assessment with regard to future operations and valuation assessment by an external expert, the management of the Company has fair valued its investments and for reasons as detailed in 3,4 and 5 below, the management is of the view that the fair value of the Company's investments in GEL is appropriate.
- 3 GMR Warora Energy Limited ('GWEL'), a subsidiary of GEL, entered into a PPA with Maharashtra State Electricity Distribution Company Limited ('MSEDCL') for sale of power for an aggregate contracted capacity of 200 MW, wherein power was required to be scheduled from power plant's bus bar. MSEDCL disputed place of evacuation of power with Maharashtra Electricity Regulatory Commission ('MERC'), wherein MERC has directed GWEL to construct separate lines for evacuation of power through State Transmission Utility ('STU') though GWEL was connected to Central Transmission Utility ('CTU'). Aggrieved by the MERC Order, GWEL preferred an appeal with APTEL.

APTEL vide its interim Order dated February 11, 2014 directed GWEL to start scheduling the power from GWEL 's bus bar and bear transmission charges of inter-state transmission system towards supply of power. GWEL in terms of the interim order

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

scheduled the power from its bus bar from March 17, 2014 and paid inter-state transmission charges. APTEL vide its final Order dated May 08, 2015 upheld GWEL's contention of scheduling the power from bus bar and directed MSEDCL to reimburse the inter-state transmission charges hitherto borne by GWEL as per its interim order. Accordingly, GWEL has raised claims of ₹ 616.33 crore towards reimbursement of transmission charges from March 17, 2014 till November 30, 2020.

MSEDCL paid the aforementioned claim amount and preferred an appeal with the Hon'ble Supreme Court of India and the matter is pending conclusion. Pursuant to notification No. L-1 /250/20 19/CERC, the transmission charges (other than the deviation charges) are being directly billed to the respective customers (DISCOMS) by Power Grid Corporation of India Limited ('PGCIL') and accordingly, GWEL has not received transmission charges (other than the deviation charges) related invoices for the period from December 2020 to March 2025. The final obligation towards the transmission charges will be decided based on the order of the Hon'ble Supreme Court of India as stated above.

In view of the favourable Order from APTEL, receipt of aforementioned claim amount towards reimbursement of transmission charges and also considering the legal opinion received from legal counsel that GWEL has tenable case with respect to the appeal filed by MSEDCL against the said Order which is pending before the Hon'ble Supreme Court of India, GWEL has consequentially accounted for the reimbursement of transmission charges of ₹ 616.33 crore relating to the period from March 17, 2014 to November 30, 2020 in its books of accounts. Further the cost of transmission charges as stated with effect from December 2020 has been directly invoiced by PGCIL to DISCOMS and such amount together with aforesaid reimbursement has been disclosed as contingent liability in the financials of GWEL pending the final outcome of the matter in the Hon'ble Supreme Court of India.

Further, GWEL has generated profit after tax of ₹ 188.05 crore (March 31, 2024: ₹ 194.02 crore) during the year ended March 31, 2025 and the management of GWEL expects that the plant will generate sufficient profits in the future years and will be able to recover the receivables and based on business plans and valuation assessment by an external expert during the year ended March 31, 2025, considering key assumptions such as capacity utilization of plant in future years based on current levels of utilization including merchant sales and sales through other long term PPA's, the management is of the view that the carrying value of the investments in GWEL by GEL as at March 31, 2025 is appropriate.

- 4 GMR Kamalanga Energy Limited ('GKEL'), a subsidiary of GEL, is engaged in development and operation of 3*350 MW under Phase I and 1*350 MW under Phase II, coal-based power project in Kamalanga village, Orissa and has commenced commercial operation of Phase I of the project. GKEL has accumulated losses of ₹ 790.04 crore (March 31: 2024 ₹ 1,091.14 crore) as at March 31, 2025 due to operational difficulties faced during the early stage of its operations. GKEL has generated profits after tax amounting to ₹ 301.70 crore (March 31, 2024: ₹ 296.14 crore) during the year ended March 31, 2025.

Further, GKEL has trade receivables and unbilled revenue of ₹ 1,194.66 crore and ₹ 722.51 crore respectively as at March 31, 2025, for coal cost pass through and various "change in law" events from its customers under the PPAs and have filed petitions with the regulatory authorities for settlement of such claims in favour of GKEL. The payment from the customers against the claims is substantially pending receipt as at March 31, 2025. Based on certain favourable interim regulatory orders with regard to its petition for 'Tariff Determination' and 'Tariff Revision' with its customers, the management is confident of a favourable outcome towards the outstanding receivables of GKEL.

The management of GKEL based on its internal assessment, external consultant opinion and certain favourable interim regulatory orders is of the view that the carrying value of the trade receivables and unbilled revenue as at March 31, 2025 is appropriate.

Further, GKEL had entered an agreement with SEPCO in 2008 for the construction and operation of coal fired thermal power plant. There were certain disputes between the parties in relation to the delays in construction and various technical issues relating to the construction and operation of the plant. SEPCO served a notice of dispute to GKEL in March 2015 and initiated arbitration proceedings.

The Arbitral Tribunal has issued an opinion (the Award) on September 07, 2020 against GKEL. Since there were computation/ clerical/ typographical errors in the Award, both parties (GKEL and SEPCO) immediately applied for correction of the award under Section 33 of the Arbitration & Conciliation Act 1996 (as amended). The Arbitral Tribunal considered the applications of both the parties and has pronounced the corrected award on November 17, 2020. GKEL already accounted for the aforementioned liability as per the award pertaining to the retention money, unpaid invoices and the Bank Guarantee revoked. GKEL had challenged the award under section 34 of the Arbitration and Conciliation Act, 1996 before the Hon'ble High Court of Orissa on February 15, 2021 and December 31, 2021 respectively.

The Hon'ble High Court of Orissa vide its judgement and order dated June 17, 2022 has dismissed the petition filed by GKEL on February 15, 2021 to put aside the Final Award on the basis that impugned award does not fall under the category which warrants interference under Section 34 of the Arbitration Act. GKEL has challenged judgement by filing special leave petition ('SLP') before the Hon'ble Supreme Court of India on grounds; a) Violation of Principles of Natural Justice, b) Judgement is in

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

violation of the guidelines laid by the Hon'ble Supreme Court of India for timely pronouncing of judgements, c) Violation of due process of law and others.

The Hon'ble Supreme Court of India in the hearing on July 25, 2022 has issued notice and stayed the operation of the Section 34 Judgement. The Hon'ble Supreme Court of India vide its order dated May 15, 2023, has disposed of SLP and allowed GKEL to approach the Commercial Appellate Division Bench, as constituted by the Hon'ble High Court of Orissa by way of an appeal under Section 37 of the Arbitration Act with liberty to raise all grounds and contentions. It had further directed that the aforesaid stay shall continue till June 30, 2023.

In furtherance of the order of the Hon'ble Supreme Court of India, GKEL has filed an appeal under Section 37 of the Arbitration Act before the Hon'ble High Court of Orissa on June 09, 2023, challenging Section 34 judgement and the Award. The Hon'ble High Court of Orissa pronounced its judgement on September 27, 2023 wherein it has allowed the Section 37 appeal and set aside Section 34 judgement and the Award. Further, during the year ended March 31, 2024, SEPCO had filed a special leave petition (SLP) with the Hon'ble Supreme Court of India on December 20, 2023 which was registered on January 30, 2024 by the Hon'ble Supreme Court of India and heard on May 14, 2025 and reserved the judgement.

GKEL has also raised and filed its preliminary objections to the very maintainability of the SLP filed by SEPCO. Basis the ongoing status of the case, the management of GKEL is not expecting any outflows with respect to SEPCO matter in next 12 months from the reporting date.

Based on legal advice, the liability including interest and other costs under the Final Award has been set aside until the claims are raised again by SEPCO basis the available legal recourse, GKEL in its books has made provisions in view of the disputes between SEPCO and GKEL, based on generally accepted accounting practices. Irrespective of the heads under which they appear or their nomenclature/ heading/ title/ narration, etc., such provisions do not make GKEL liable for payment since liability is disputed. GKEL expects to have a favourable outcome in the aforesaid pending litigations, hence resulting in reduction of liabilities towards SEPCO. Consequently, pending conclusion, GKEL has retained liabilities towards SEPCO as per the Arbitration award dated September 07, 2020.

In view of these matters explained above, business plans and valuation of GKEL performed by an external expert using the discounted future cash flows method which is significantly dependent on the achievement of certain key assumptions such as expansion and optimal utilization of existing plant capacity, timing and amount of settlement of disputes with customers and capital creditors which are outstanding as on March 31, 2025, the management is of the view that the carrying value of the investments in GKEL held by GEL as at March 31, 2025 is appropriate.

- 5 On April 13, 2025, the Company, GMR Energy Limited ("GEL"), GMR Rajam Solar Power Private Limited ("GRSPPL"), GMR Corporate Services Limited ("GASL") and GMR Generation Assets Limited ("GGAL"), ('subsidiaries of the Company') have signed a framework agreement with Synergy Investments Holding Limited ("Synergy") for the divestment of their respective stakes in:

- (a) GMR Bajoli Holi Hydropower Private Limited ("GBHHPL"), engaged in operation of 180 MW hydro-electric power project,
- (b) GMR Vemagiri Power Generation Limited ("GVPGL"), engaged in operation of 388 MW natural gas-based combined cycle power plant, and
- (c) GMR Rajahmundry Energy Limited ("GREL"), engaged in operation of 768 MW natural gas-based combined cycle power plant.

Pursuant to the Framework Agreement;

- (i) GEL will transfer:
 - (a) 79.86% of equity stake in GBHHPL in two stages (70% initially and 9.86% subsequently) and
 - (b) 51% of equity stake in GVPGL to Synergy.
- (ii) The Company, GRSPPL and GASL will transfer 100% compulsorily convertible debentures (CCD) issued by GBHHPL to Synergy and
- (iii) GGAL will transfer 51% of GREL's equity stake to Synergy following the release of shares pledge and corporate guarantee from the lenders.

The combined value for the transfer of securities for all three entities under the Framework Agreement is ₹ 653.00 crore, subject to adjustments based on net working capital and other factors at closing.

The transaction for all three entities upon meeting necessary conditions and receiving requisite approvals is anticipated to be completed by September 30, 2025, or a later date mutually agreed upon by the parties involved.

Accordingly, the Company has classified investment in GBHHPL as non-current assets held for sale in accordance with Ind AS 105 'Non-current Assets Held for Sale and Discontinued Operations',

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

Further, subsequent to the year end, GEL has transferred its 70% equity stake in GBHHPL as mentioned in (i)(a) and the Company, GRSPPL and GASL, has transferred their respective stakes in CCD's as mentioned in (ii) above.

- 6 The Company together with GMR Highway Limited ("GMRHL") a subsidiary of the Company, has invested in GMR Hyderabad Vijayawada Expressways Private Limited ('GHVEPL'). GHVEPL, a step-down subsidiary of the Company, has been incurring losses since the commencement of its commercial operations. These losses are primarily due to loss of revenue arising as a result of drop in commercial traffic on account of bifurcation of State of Andhra Pradesh and ban imposed on sand mining in the region. The management of the Group till March 31, 2024 based on its internal assessment and a legal opinion, believed that these events constitute a Change in Law as per the Concession Agreement and GHVEPL was entitled to a claim for losses suffered on account of the aforementioned reasons and accordingly filed its claim for the loss of revenue till the year ended March 31, 2017 with National Highways Authority of India ('NHAI').

The claim of GHVEPL was rejected by NHAI and accordingly during the year ended March 31, 2018, GHVEPL had decided to proceed with arbitration and accordingly Arbitral Tribunal was constituted and claims were filed.

The project was initially developed from existing 2 lanes to 4 lanes to be further developed to 6 laning subsequently (before 14th anniversary of the appointed date). If 6 laning was not carried out (if so required by NHAI/ desired by GHVEPL), concession period would be restricted to 15 years as against 25 years. GHVEPL had been amortising intangible assets over the concession period of 25 years.

The Arbitral Tribunal vide its order dated March 31, 2020, had pronounced the award unanimously, upholding GHVEPL's contention. Further, the said tribunal order was also upheld by the Hon'ble High Court of Delhi and division bench of the Hon'ble High Court of Delhi vide its Judgement dated May 07, 2024.

NHAI, upon receipt of Divisional Bench judgement, requested for conciliation of all the disputes amicably, which GHVEPL accepted and accordingly a Conciliation Committee of Independent Expert was formed. Based on the meetings and discussions of the issues at length, NHAI and GHVEPL reach an amicable settlement at ₹ 1,387.21 crore along with early hand over of the Project back to NHAI w.e.f. July 01, 2024. The Settlement Agreement dated June 13, 2024 was entered between NHAI and GHVEPL. GHVEPL has settled the outstanding dues to the senior lenders out of the proceeds of compensation received from NHAI.

Further, till the date of settlement, the Company determined the fair valued its investments in GHVEPL using Discounting Cash flow method considering management intention to operate the highway project and receive ongoing claims. However, after such settlement the management of the Company has reassessed the fair value of investment after considering the impact of the settlement as explained above.

- 7 During the year ended March 31, 2025, the Company has entered into a joint venture agreement with other venturer. Both the venturers have incorporated a Company viz, Portus Ventures Private Limited ('PVPL'). The Company has invested in 2,600 fully paid up equity shares of face value of ₹ 10/- each issued by PVPL. The Company share in joint venture is 26%.
- 8 i) During the year ended March 31, 2025;
 - a) The Company has agreed for conversion 585,340,100, 0.001% Compulsory Convertible Debentures (CCD) held in GRSSPL into 585,340,100, 0.001% Optionally Convertible Debentures (OCD).
 - b) GRSSPL has agreed to redeem 440,000,000, 0.001% Optionally Convertible Debentures (OCD).
 - c) The Company has agreed to take Inter Corporate Deposits and Other Financial Assets in GBHHPL against the redemption amount of 440,000,000, 0.001% Optionally Convertible Debentures (OCD) held in GRSSPL.
 - d) The Company has agreed for conversion of Inter Corporate Deposits and Other Financial Assets in GBHHPL into 440,000,000, 0.01% Compulsory Convertible Debentures (CCD) in GBHHPL.
 - e) On April 13, 2025, the Company, GEL, GRSPPL, GASL and GGAL, ('subsidiaries of the Company') have signed a framework agreement with Synergy Investments Holding Limited ("Synergy") for the divestment of their respective stakes in GBHHPL, engaged in operation of 180 MW hydro-electric power project. Accordingly, the Company has shown its investment in 440,000,000, 0.01% Compulsory Convertible Debentures (CCD) in GBHHPL as Assets classified as held for sale. (Also refer note 43).
 - f) The Company has purchased 17,860,000, 0.01% unsecured Non-Convertible Debentures (NCD) of face value of ₹ 10/- each issued by GWEL from bank.

- m) The Company has agreed for conversion of Inter Corporate Deposit and interest receivable from GCSL of ₹ 175.00 crore into 175,000,000, 0.001% Compulsory Convertible Debentures (CCD) of face value of ₹ 10/- each.
- n) The Company has agreed for conversion of Inter Corporate Deposit and interest receivable from GSEDPL of ₹ 30.84 crore into 30,840,000, 0.001% Compulsory Convertible Debentures (CCD) of face value of ₹ 10/- each.

ii) During the year ended March 31, 2024;

- a) The Company along with its subsidiaries (Group) held 69.58% stake in GEL till November 21, 2023 and accordingly the investment was accounted as Investment under equity method in accordance with Ind AS. The Company entered into a settlement agreement with Power and Energy International (Mauritius) Limited (hereinafter referred to as 'Tenaga') on November 17, 2023 to acquire additional 29.14% stake of GEL comprising 1,051,154,500 equity shares at a purchase consideration of ₹ 237.55 crore (USD 28.50 million). The Company paid the entire purchase consideration of ₹ 237.55 crore on November 21, 2023 ('transaction date').

With this complete buy-out of Tenaga stake, the Shareholders Agreement ("SHA") with Tenaga stands terminated thereby increasing the shareholding of the Group by 29.14% and enabling control over GEL. Hence the Investment in GEL and its subsidiaries are accounted as 'Investment in Subsidiaries' from November 22, 2023.

- b) Investment in 15,000,000 shares of ₹ 10/- each in GEL during the year against the settlement of loan paid to GMR Welfare Trust for group employees.
- c) The Company has sold 597,827,146 shares of GEL to GCSL at ₹ 3.95/- per share.

- GMR Airports Limited ('GAL') (formerly known as GMR Airports Infrastructure Limited) had issued 6 (six) Foreign Currency Convertible Bonds (FCCBs) of USD 5,00,00,000 each, aggregating to USD 300 million due in 2075 to the Kuwait Investment Authority ("KIA") on December 10, 2015. The National Company Law Tribunal (NCLT), Mumbai vide its dated on December 22, 2021 had approved the Composite Scheme of Amalgamation and Arrangement amongst GMR Power Infra Limited, GAL and the Company ("Scheme"). The Scheme inter-alia provides for Demerger of EPC and Urban Infra business of GAL into the Company. In accordance with the requirements of Section 2(19AA) of the Income Tax Act, 1961, part of the liability pertaining to the outstanding FCCBs of GAL attributable to the Demerged Undertaking stands vested to the Company pursuant to the Demerger. Thus upon effectiveness of the Scheme, subject to necessary regulatory approval, FCCBs of USD 275 million stands vested to the Company. To give effect to the split of FCCBs between GAL and the Company, the Company, GAL and KIA had entered into an agreement on January 12, 2022 inter-alia for redenomination of the FCCBs into a total of 300 FCCBs, each having a face value of USD 10,00,000, from 6 FCCBs of USD 5,00,00,000 each and split of FCCBs between GAL and the Company such that GAL will retain FCCBs of USD 25 million and remaining FCCBs of USD 275 million which stands vested to the Company.

The tenure of FCCBs was 60 years from the date of allotment by GAL and the USD 275 million FCCBs outstanding in the Company if converted shall account for 111,241,666 equity shares of the Company. The right of conversion of any or all of the FCCBs to equity shares of GAL and/or GPUIL, will need to be simultaneously exercised in the equivalent ratio. The outstanding amount as at March 31, 2025 is ₹ Nil (March 31, 2024 : ₹ 2,247.67 crore). Interest was payable on annual basis.

1. In July 2010, IDFC and Temasek ('PE investors') had made certain investments through preference shares in GMR Energy Limited (GEL). There were certain amendments to the original arrangement between the Company, GEL and the PE investors. Per the latest amended Subscription and Shareholder Agreement executed in May 2016, preference shares held by the PE investors were converted into equity shares of GEL. Post conversion, the PE investors held 17.85% of equity shares in GEL with an exit option within the timelines as defined in the aforesaid amended agreement. As the said timelines have expired, the PE investors have sort for an exit without any further extensions and consequently, the Company has recognized the financial liability of ₹ Nil (March 31, 2024: ₹ 205.28 crore) in the standalone financial statements.

The entire 17.85% stake has been transferred to GPUIL as at March 31, 2025 (12.52% holding transferred to GPUIL as at March 31, 2024).

29 Income Tax

Business loss can be carried forward for a maximum period of eight assessment years immediately succeeding the assessment year to which the loss pertains. Unabsorbed depreciation can be carried forward for an indefinite period.

On 30 September 2019, the Taxation Laws (Amendment) Ordinance 2019 ('the Ordinance') was passed introducing section 115BAA of the IT Act which allowed domestic companies to opt for an alternative tax regime from financial year 2019-20 onwards. As per the

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

regime, companies can opt to pay reduced income tax @22% (plus surcharge and cess) subject to foregoing of certain exemptions. Central Board of Direct taxes vide circular number 29/2019 clarified that companies opting for lower rates of taxes will not be allowed to carry forward minimum alternate tax (MAT) credit and also will not be allowed to offset brought forward losses on account of additional depreciation.

The Company has already opted for the aforementioned regime. Deferred tax is the effect of timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

30 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit/(loss) for the year attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting year. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted EPS is calculated by dividing the profit attributable to equity shareholders (after adjusting for interest on the convertible securities) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Face value of equity shares (₹ per share)	5	5
Profit attributable to equity shareholders	746.60	645.01
Profit attributable to equity shareholders for diluted earnings per share	746.60	645.01
Weighted average number of equity shares used for computing earnings per share (basic and diluted)	684,054,254	603,594,528
Earnings per share		
Basic (in ₹)	10.91	10.69
Diluted (in ₹)	10.91	10.69

Notes:

- (i) During the year ended March 31, 2016, GAL had issued FCCB (attributable to the Demerged Undertaking stands Vested to the company pursuant to the Demerger), however, the same has not been included in the calculation of diluted earnings per share for year ended March 31, 2024 because they are anti-dilutive. (also refer note 16(1)).

31 Significant accounting judgements, estimates and assumptions

The preparation of the Company's standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Significant judgements and estimates relating to the carrying values of assets and liabilities include fair value measurement of investments in subsidiaries, joint ventures and associates, provision for employee benefits and other provisions, recoverability of deferred tax assets, commitments and contingencies and recognition of revenue on long term contracts.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are described below. The Company based on its assumptions and estimates on parameters available when the Standalone Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a. Taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the same can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Refer note 10 and 29 for further disclosures.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

b. Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The cash flow projections used in these models are based on estimates and assumptions relating to conclusion of tariff rates, operational performance of the plants and coal mines, life extension plans, availability and market prices of gas, coal and other fuels, restructuring of loans etc in case of investments in entities in the energy business, estimation of vehicle traffic and rates and favourable outcomes of litigations etc. in the expressway business which are considered as reasonable by the management. Fair value of investment in SEZ sector is determined based on available data for similar immovable property/ investment or observable market prices less incremental cost for disposing of the immovable property/ investments. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility, as applicable. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note 5 and 36 for further disclosures.

c. Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal and contractual claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events.

In respect of financial guarantees provided by the Company to third parties, the Company considers that it is more likely than not that such an amount will not be payable under the guarantees provided. Refer note 34 for further disclosure.

d. Revenue recognition

The Company recognises revenue from contracts with customers when it satisfies a performance obligation by transferring promised good or service to a customer.

The Company uses the percentage of completion method in accounting for its fixed price contracts. Use of the percentage of completion method requires the Company to estimate the costs incurred till date as a proportion of the total cost to be incurred. Costs incurred have been used to measure progress towards completion as there is a direct relationship. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

e. Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about gratuity obligations are given in note 37.

f. Recoverability of advances/receivables

At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

h) The Company has a process whereby periodically long term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that adequate provision as required under the law/accounting standards for the material foreseeable losses on such long term contracts has been made in the books of accounts amounting to ₹ 2.09 crore (March 31, 2024: ₹ 2.77 crore). Further, the Company does not have any derivative contracts at the end of the year.

i) The Company and SEW Infrastructure Limited ('SIL') had incorporated a Joint venture, GIL- SIL JV (the "JV") and entered into a contract with Dedicated Freight Corridor Corporation of India Limited ("DFCCIL") in 2015 for execution of design and construction of civil structures and track works for double line railway involving formation in embankments/ cuttings, ballast on formation, track works, bridges, structures, buildings, yards, integration with existing railway system and testing and commissioning on design-build lump sum basis for Mughalsarai-New Karchana Station (including) of Eastern Dedicated Freight Corridor Project (Contract Package – 201) and New Karchana (excluding) – New Bhaupur Station (excluding) of Eastern Dedicated Freight Corridor Project (Contract Package – 202) (hereinafter together referred as 'DFCC project') to the JV.

Subsequently the JV had sub-contracted a significant portion of such contract to the Company. During the execution of the project, DFCCIL failed to fulfil its obligations in a timely manner and as a consequence of such non-fulfilment, the execution of DFCC project got significantly delayed. In view of the aforementioned delay, the JV sought extensions as per Clause 8.4 of the General Conditions to the Contract and DFCCIL had granted such extensions from time to time.

During the year ended March 31, 2023, the JV had submitted its claim against DFCCIL for the period of delay i.e. from January 2019 to December 31, 2021, DFCCIL has rejected such claim citing the amendments made in the contract, while granting the extensions of time. JV has invoked the dispute resolution process and accordingly Dispute Adjudicating Board (DAB) is constituted.

As per directions of DAB, JV had submitted its Statement of Claim ('SoC') before DAB on May 22, 2023 for an amount of ₹ 449.01 crore for Contract Package 202 and on June 09, 2023 for an amount of ₹ 398.63 crore for Contract Package 201 respectively (excluding interest and GST) for cost incurred during the period from January 21, 2019 to September 30, 2022.

Further, JV has reserved its right to claim further additional cost for the damages to be suffered during the period (i.e. September 30, 2022 till completion of the project) to be computed in the same manner as set out in the SoC.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

DFCCIL has submitted its Statement of Defense ('SoD') and has also filed counter claims for both the Contract Packages.

JV has further amended its statement of Claim for ₹ 812.99 crore on March 15, 2024 for Contract Package 201 and for ₹ 1,013.47 crore on February 17, 2024 for Contract Package 202 for cost incurred during the period from January 21, 2019 to September 30, 2022.

As per the revised timelines set forth by DAB, both JV and DFCCIL has submitted their revised statement of defense and rejoinders.

On November 01, 2024 majority of the DAB members have awarded an amount of ₹ 262.54 crore for Contract Package 201 to JV for the claim period from January 21, 2019 to September 30, 2022, subsequently on November 21, 2024, they have given its award for Contract Package 202 wherein they have awarded an amount of ₹ 254.80 crore. Further, DAB members unanimously have rejected all the counter claims of DFCCIL for Contract Package 202 and 201.

However, JV and DFCCIL, being dissatisfied with the Award for Contract Package 201 & Contract Package 202 issued Notice of Dissatisfaction. Thereafter, JV issued Notice of Amicable Settlement for Contract Package 201 & Contract Package 202 against which no response was received from DFCCIL. JV consequently has issued Notice invoking Arbitration in Contract Package-201 and Contract Package-202 on January 23, 2025. Arbitration Tribunal for both the Contract Packages has been constituted.

Arbitration Tribunal for Contract Package 201 held its first preliminary hearing on April 15, 2025 wherein the Tribunal directed the JV to file its Statement of Claim by June 10, 2025 and DFCCIL to file its Statement of Defense and Counter Claim, if any, by August 19, 2025. Next date of hearing by the Tribunal is fixed for August 21, 2025.

Similarly, Arbitration Tribunal for Contract Package 202 held its first preliminary hearing on March 21, 2025 wherein the Tribunal directed the JV to file its Statement of Claim by May 07, 2025, DFCCIL is required to file its Statement of Defense and Counter Claim, if any, by July 07, 2025, JV to submit its reply to Counter Claim by August 07, 2025 and all other procedural steps needs to be completed by August 21, 2025. Next date of hearing by the Tribunal is fixed on September 04, 2025 for framing points / issues for determination and hearing of applications, if any. Accordingly the JV has filed its statement of claim on May 07, 2025.

In addition to the aforementioned claim for January 21, 2019 to September 30, 2022, the JV has further filed the claims of Prolongation Cost with DAB for the period October 01, 2022 till April 30, 2024 for Contract Package 202 and Contract Package 201 for ₹ 226.86 crore and ₹ 278.28 crore on June 19, 2024 and December 16, 2024 respectively. DFCCIL has submitted letters for raising counter claims in Contract Package 202 and Contract Package 201 on November 20, 2024 and November 25, 2024 respectively which has been duly objected by the JV on December 20, 2024.

Claim for the period from October 01, 2022 to April 30, 2024, for Contract Package 202, arguments have been concluded on December 05, 2024 and the matter was reserved for judgement. JV has filed their written submissions on January 15, 2025. DAB award was received on March 10, 2025 without any adjudication of monetary claims. JV is under process of taking steps to invoke arbitration against the DAB award.

Claim for the period from October 01, 2022 to April 30, 2024, for Contract Package 201, Statement of Defense has been submitted by DFCCIL on March 31, 2025 and Rejoinder of JV on May 05, 2025. The hearing before the DAB is scheduled for June 27, 2025 and June 28, 2025.

Based on internal assessment and review of the technical and legal aspects by independent experts, the management of the JV and the Company recognized such claim in its books of account and basis back-to-back agreement with the JV, the Company has also included an incremental budgeted contract revenue of ₹ 506.15 crore (out of total claim amount of ₹ 2,331.61 crore) for determination of the revenue recognition in accordance with Ind AS 115 and has recognized revenue during the previous years and current year ended March 31, 2025.

The management of the JV and the Company considers the unbilled revenue recognized amounting to ₹ 498.76 crore as at March 31, 2025 out of the aforesaid claims as fully recoverable.

However, based on the legal opinion, the management of the JV and the Company is confident of recoverability of the entire claim amount of ₹ 2,331.61 crore (including unbilled revenue recognized amounting to ₹ 498.76 crore) as at March 31, 2025.

II Contingent liabilities

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the Standalone Financial Statements but does not record a liability in its accounts unless the loss becomes probable.

Litigations

The Company is involved in legal proceedings, both as plaintiff and as defendant. The Company believes the following claims to be material nature.

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Matters relating to indirect taxes under dispute	64.17	75.59
Claim against the company not acknowledged as debts	7.60	8.37

The indirect taxes under dispute against the Company primarily represent ongoing litigation related to the Service Tax matters. These claims are mainly on account of ineligible input tax credit, reverse tax charge liability tax, etc. These matters are pending before various indirect tax authorities and the Management including its tax advisors expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

In addition to above table, following are the additional contingent liabilities:

1. During the year ended March 31, 2019, the erstwhile GMR Infrastructure Limited (demerged company) and its subsidiary Company GGAL, had extended corporate guarantees amounting to ₹ 2,353.20 crore in favour of IDBI Bank Limited (as the Lead Bank) wherein the demerged company had guaranteed the obligations of unsustainable debt of GMR Rajahmundry Energy Limited ('GREL'), an associate of the Company. Pursuant to the scheme of demerger approved on December 31, 2021, such corporate guarantee has been transferred to the Company. However, the demerged company had passed board resolutions/ executed undertakings for aforementioned corporate guarantees jointly with the Company.

Further, during the current year, the consortium of lenders of GREL unanimously approved to accept the One-time Settlement ('OTS') amount of ₹ 657.00 crore towards the full and final settlement of all exposures. Pursuant to such settlement, on March 29, 2025 GREL paid the first instalment of ₹ 165.70 crore. Further, after the year end, GREL has paid the entire balance OTS payment of ₹ 491.30 crore and is working with the consortium of lenders for extinction of aforementioned exposures. Also refer note 35.

2. There are numerous interpretative issues relating to the Supreme Court (SC) judgement on provident fund dated February 28, 2019. As a matter of caution, the Company has evaluated the same for provision on a prospective basis from the date of the SC order and is of the view that no such provision is required. The Company will update its provision, on receiving further clarity on the subject.
3. The Company has provided guarantees to Dedicated Freight Corridor Corporation of India Limited ('DFCCIL') on behalf of GIL SIL JV and Company's subsidiaries (including step down subsidiary) amounting to ₹ 380.00 crore sanctioned (March 31, 2024: 380.00 crore) and outstanding balance ₹ 366.38 crore (March 31, 2024: Outstanding Balance ₹ 192.30 crore).

III Commitments

a. Other commitments

The Company has committed to provide financial assistance as tabulated below:

(₹ in crore)

Nature of relationship	Outstanding commitment for financial assistance	
	March 31, 2025	March 31, 2024
Subsidiaries and fellow subsidiaries	1,232.83	869.74
Joint Ventures/ Associates	11.00	11.00
Total	1,243.83	880.74

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

- The Company has extended comfort letters to provide continued financial support to certain subsidiaries/ joint ventures/ associates to ensure that these subsidiaries are able to meet their debts, commitments (including commitments towards investee entities) and liabilities as they fall due and they continue as going concerns.
- The Company has entered into agreements with the lenders of subsidiaries/ joint ventures/ associates wherein it has committed to hold directly or indirectly at all times at least 51% of the equity share capital of the subsidiaries/ joint ventures/ associates and not to sell, transfer, assign, dispose, pledge or create any security interest except pledge of shares to the respective lenders as covered in the respective agreements with the lenders.
- The Company has certain long term unquoted investments which have been pledged as security towards loan facilities sanctioned to the Company and the investee companies.

35 On March 28, 2025, the consortium of lenders of GMR Rajahmundry Energy Limited ('GREL'), an associate of the Company, unanimously approved to accept the One-time Settlement ('OTS') amount of ₹ 657.00 crore towards the full and final settlement of all exposures, including Term Loan, Non-Convertible Debentures ('NCDs'), Compulsorily Redeemable Preference Shares ('CRPS'), Interest Payable, corporate guarantees issued by the Company and GGAL, Subsidiary of the Company, and transfer of CRPS and Equity Shares of GREL held by consortium of lenders. GREL has accepted the proposal and paid the first installment of ₹ 165.70 crore towards the OTS on March 29, 2025.

Subsequent to the year end, GREL has paid the entire balance OTS payment of ₹ 491.30 crore and is working with the consortium of lenders for extinction of aforementioned exposures. Consequently, the Company has considered the impact of the aforesaid OTS transaction and reversed the liability for commitment of ₹ 233.42 crore and disclosed the same as an exceptional item in the accompanying audited standalone financial statements.

36 Disclosures on Financial instruments

This section gives an overview of the significance of financial instruments for the Company and provides additional information on balance sheet items that contain financial instruments.

The details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2.2 (b) and 2.2 (n), to the standalone financial statements.

(i) Investments in mutual funds and derivative instruments are mandatorily classified as fair value through statement of profit and loss.

(b) Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to Level 3, as described below:

Quoted prices in an active market (Level 1): This level of hierarchy includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of investment in quoted equity shares, and mutual fund investments.

Valuation techniques with observable inputs (Level 2): This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Valuation techniques with significant unobservable inputs (Level 3): This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

(i) Short-term financial assets and liabilities are stated at carrying value which is approximately equal to their fair value.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

- (ii) Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Company could have realised or paid in sale transactions as of respective dates. As such, fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date.
- (iii) The fair values of the unquoted equity shares have been estimated using a discounted cash flow model except in case of fair value of investment in SEZ sector which has determined based on available data for similar immovable property/ investment or observable market prices less incremental cost for disposing of the immovable property/ investments. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility. The probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments. Based on the inputs provided by the management the independent external valuer performs the valuation of Investments in subsidiaries, associates and joint ventures.
- (iv) There have been no transfers between Level 1, Level 2 and Level 3 for the year ended March 31, 2025 and March 31, 2024.
- (v) Fair value of mutual funds is determined based on the net asset value of the funds.

(vi) Reconciliation of fair value measurement of unquoted equity shares classified as FVTOCI assets:

(c) Financial risk management objectives and policies

In the course of its business, the Company is exposed primarily due to fluctuations in foreign currency exchange rates, interest rates, equity prices, liquidity and credit risk, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as interest rate risks and credit risks. The risk management policy is approved by the Board of Directors. The risk management framework aims to:

- (i) create a stable business planning environment by reducing the impact of currency and interest rate fluctuations on the Company's business plan.
- (ii) achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

i) Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(a) Market risk- Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings.

(i) Interest rate risk exposure

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(₹ in crore)		
Particulars	March 31, 2025	March 31, 2024
Variable rate borrowings	36.29	19.76
Fixed rate borrowings	1,871.58	3,895.97
Total borrowings	1,907.87	3,915.73

(ii) Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on the portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Change in basis points	Effect on profit before tax (₹ in crore)
March 31, 2025		
Increase	+50	(0.18)
Decrease	(50)	0.18
March 31, 2024		
Increase	+50	(0.10)
Decrease	(50)	0.10

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

(b) Market risk- Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's investing and financing activities. The Company's exposure to foreign currency changes from operating activities is not material.

* Exchange rate of ₹ 85.48/- on March 31, 2025 and ₹ 83.40/- on March 31, 2024. USD has been taken from FEDAI website.

ii) Credit risk

Credit risk is the risk of financial loss arising from counterpart's failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of credit worthiness as well as concentration risks. The Company has a policy of dealing only with credit worthy counter-parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults.

Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables/unbilled revenue, loans receivables, investments in debt securities of group companies, balances with bank, bank deposits, derivatives and financial guarantees provided by the Company. None of the financial instruments of the Company result in material concentration of credit risk except investment in preference shares/debentures made by the Company in its group companies and loans provided to its group companies. The credit risk in respect of such investments in preference shares/ debentures and loans are assessed on the basis of the fair value of the respective group companies determined based on their business plans. Also refer note 32 for the details of such instruments.

The carrying value of financial assets represents the maximum credit risk. The maximum exposure to credit risk was ₹ 4,568.25 crore as at March 31, 2025 (March 31, 2024: ₹ 6,633.89 crore), being the total carrying value of investments, loans, trade receivables, balances with bank, bank deposits and other financial assets.

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. An impairment analysis is performed at each reporting date on an individual basis for major customers. The Company does not hold collateral as security. Further, the top 5 customers of the Company in the EPC segment contributes to more than 90% of the trade receivables during the year ended March 31, 2025 and March 31, 2024.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

The following table summarizes the changes in the loss allowance measured using ECL:

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Opening balance*	31.97	31.97
Amount (reversed) / Provided during the year (net)	-	-
Closing provision*	31.97	31.97

* Pertains to provision for doubtful receivables and unbilled revenue.

Reconciliation of loss allowance provision- Loans and other financial assets

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Opening balance	179.30	977.44
Amount provided/ (reversed) during the year (net)	58.74	(798.14)
Closing provision	238.04	179.30

Credit risk from balances with bank and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

In respect of financial guarantees provided by the Company to banks and financial institutions, the maximum exposure which the Company is exposed to is the maximum amount which the Company would have to pay if the guarantee is called upon. Based on the expectation at the end of the reporting period, the Company considers that it is more likely than not that such an amount will not be payable under the guarantees provided.

iii) Liquidity risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company has obtained fund and non-fund based working capital lines from various banks. Furthermore, the Company has access to funds from debt markets through commercial paper programs, non-convertible debentures and other debt instruments. The Company invests its surplus funds in bank fixed deposit and in mutual funds, which carry no or low market risk.

The Company monitors its risk of shortage of funds on a regular basis. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, debentures, preference shares, sale of assets and strategic partnership with investors, etc.

The following table shows a maturity analysis of the anticipated cash flows (excluding interest obligations) for the Company's financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

b) Defined benefit plan

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (based on last drawn basic) for each completed year of service.

The fund provides a capital guarantee of the balance accumulated and declares interest periodically that is credited to the fund account. Although we know that the fund manager invests the funds as per products approved by Insurance Regulatory and Development Authority of India and investment guidelines as stipulated under section 101 of Income Tax Act, the exact asset mix is unknown and not publicly available. The Trust assets managed by the fund manager are highly liquid in nature and we do not expect any significant liquidity risks. The Trustees are responsible for the investment of the assets of the Trust as well as the day to day administration of the scheme.

The following tables summarise the components of net benefit expense recognised in the standalone statement of profit or loss and the funded status and amounts recognised in the standalone balance sheet for gratuity benefit.

* for previous year read as April 01, 2030 to April 01, 2034

The average duration of the defined benefit plan obligation at the end of the reporting period is 10 years. (March 31, 2024: 10 years).

vii. The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

Particulars	March 31, 2025	March 31, 2024
Investments with insurer	100%	100%

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

viii. The principal assumptions used in determining gratuity obligation for the Company's plans are shown below:

Particulars	March 31, 2025	March 31, 2024
Discount rate (in %)	6.60%	7.00%
Salary escalation (in %)	6.00%	6.00%
Employee turnover	5.00%	5.00%
Mortality rate	Refer Note 4 below	Refer Note 4 below

Notes:

- Plan assets are fully represented by balance with the Life Insurance Corporation of India.
- The expected return on plan assets is determined considering several applicable factors mainly the composition of the plan assets held, assessed risks of asset management, historical results of the return on plan assets and the Company's policy for plan asset management.
- The estimates of future salary increase in compensation levels, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.
- As per Indian Assured Lives Mortality (2006-08) (modified) Ultimate.
- Plan Characteristics and Associated Risks:

The Gratuity scheme is a Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

- Interest rate risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.
- Salary Inflation risk : Higher than expected increases in salary will increase the defined benefit obligation
- Demographic risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

ix. A quantitative sensitivity analysis for significant assumption as at March 31, 2025 and March 31, 2024 is as shown below:

(₹ in crore)

Particulars	March 31, 2025	March 31, 2024
Discount rate		
Impact on defined benefit obligation due to 1% increase in discount rate	(0.02)	(0.01)
Impact on defined benefit obligation due to 1% decrease in discount rate	0.02	0.01
Salary escalation rate		
Impact on defined benefit obligation due to 1% increase in salary escalation rate	0.01	0.01
Impact on defined benefit obligation due to 1% decrease in salary escalation rate	(0.01)	(0.01)
Attrition Rate		
Impact on defined benefit obligation due to 1% increase in attrition rate	-	-
Impact on defined benefit obligation due to 1% decrease in attrition rate	-	-

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

38 Capital management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan coupled with long term and short term strategic investment and expansion plans. The funding needs are met through equity, cash generated from operations and sale of certain assets, long term and short term bank borrowings and issue of non-convertible debt securities and strategic partnership with investors.

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares and debentures, share premium and all other equity reserves attributable to the equity holders of the Company.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is total debt divided by total capital plus total debt. The Company's policy is to keep the gearing ratio at an optimum level to ensure that the debt related covenant are complied with.

Further the outstanding interest payable on such FCCB's amounting to ₹ 1,175.75 crore has been waived off. Also refer note 16(1).

49 Government of Tamil Nadu (GoTN) had awarded an annuity based highway project to GMR Chennai Outer Ring Road Private Limited ('GCORR'). GCORR had awarded EPC contract to Boyance Infrastructure Private Limited (BIPL) for the construction of highway project. Subsequently BIPL had sub-contracted significant portion of such contract to the Company. On May 30, 2015, BIPL and the Company entered into a novation agreement whereby all the right and obligation related to the execution of EPC contract lies with the Company. Due to various reason the project got delayed. Since the delay in completion of EPC Contract is due to factors which were attributable to GoTN and were beyond the control, time to time, GPUIL has raised claim to GCORR and in turn GCORR, has raised the claim on GoTN for an amount of ₹ 675.00 crore plus interest. GoTN has disputed the amount claimed, hence GCORR has invoked Arbitration.

The Hon'ble Tribunal vide its order dated January 30, 2020, against a claim of ₹ 675.00 crore have directed GoTN to pay ₹ 340.97 crore within 3 months from the date of award failing which the same shall be payable with interest at 18% p.a. from the date of Award till date of realization. Time for payment by GoTN expires on April 30, 2020. GCORR had filed an application under section 34 of Arbitration Act, 1996, before Madras High Court restricting the challenge to non-grant of pendente lite interest as per contract.

GoTN has also challenged the award by filing an application under section 34 of Arbitration Act, 1996. The Ld. Single judge of Hon'ble Madras High Court, vide order dated November 17, 2021, has dismissed the challenge of Government of Tamil Nadu thereby upholding the Award in its entirety. The Ld. Single Judge has also partly upheld the challenge of GCORR by awarding pendent-lite interest at the rate of 9% p.a from the date of filing Statement of Claim till the date of Award and thereafter @ 18% p.a. as ordered by the Tribunal. Total amount (including interest) estimated to be received by virtue of the above order is ₹ 597.00 crore approx.

GCORR has filed execution petition u/s 36 of the Arbitration and Conciliation Act, 1996 on January 05, 2022 before the Madras High Court for enforcement of Arbitral Award. Against the dismissal of appeal u/s 37 of Arbitration and Conciliation Act 1996 by Hon'ble Division Bench of Madras High Court vide order dated August 11, 2022, GoTN had filed Special Leave Petition., The Hon'ble Supreme Court confirmed the Arbitral Award for an amount of ₹ 340.97 crore plus interest @ 18% p.a., aggregating to ₹ 510.47 crore (interest calculated upto November 02, 2022) and issued notice confining to the issue of Pendente Lite interest awarded by the Single Judge.

Notes to the Standalone Financial Statements

for the year ended March 31, 2025

GCORR in the execution petition filed u/s 36 of the Arbitration and Conciliation Act, 1996 on January 05, 2022, requested the Madras High Court for enforcement of the Award. GCORR also filed an application for directions to GoTN to deposit 100% of the amount confirmed by Hon'ble Supreme Court i.e. ₹ 510.47 crore. Vide order dated November 08, 2022, the Hon'ble Madras High Court directed GoTN to deposit a sum of ₹ 510.47 crore with Registrar by February 20, 2023.

GCORR, based on the judgement of Hon'ble Supreme Court dated November 03, 2022 confirming the claim amount of ₹ 510.47 crore, have recognized the amount pertaining to its portion of claim in the award along with Interest up to the date of order and consequential provision for amount payable to the Company amounting to ₹ 418.55 crore (including Interest calculated up to November 02, 2022) in the books of accounts of GCORR. Accordingly, pursuant to aforesaid novation agreement, the Company has recognized an exceptional gain of ₹ 418.55 crore (including Interest calculated up to November 02, 2022) during the previous year ended March 31, 2023.

For additional Pendente Lite interest awarded by the Hon'ble High Court of Madras, the matter was pending before the Hon'ble Supreme Court of India. Meanwhile, GCORRPL had entered into negotiation with Managing Director, Tamil Nadu Road Development Corporation Limited ('TNRDC') for settlement of dispute and has put forth the final claim for ₹ 234.10 crore which includes pendalite interest, post award interest for the period up to actual payment of claim, interest on delayed payment of annuity, claim for commission on performance bank guarantee, amount wrongly deducted by TNRDC while releasing withheld annuity & interest thereon and claim for additional GST paid under change in law. GCORRPL has proposed to settle all the disputes for an amount of ₹ 55.00 crore and the cases in Hon'ble Supreme Court of India and Hon'ble High Court of Madras will be withdrawn in case of final settlement is agreed by the Government of India. Based on the finality of the negotiation, GCORRPL and TNRDC/GOTN has agreed to settle the claim at ₹ 54.80 crore. Accordingly, GCORRPL has recognized the amount of ₹ 54.80 crore pertaining to amicable settlement of claim in the books of accounts during the current quarter. Necessary effects has been disclosed as exceptional Income in standalone financial statement. Further on January 08, 2024, GCORRPL has received the entire amount of ₹ 54.80 crore from TNRDC towards settlement of claims.

NOTES:

1. The Ministry of Corporate Affairs ("**MCA**") vide its General Circular Nos. 14/2020 dated April 08, 2020 and 17/2020 dated April 13, 2020, General Circular Nos. 20/2020 dated May 05, 2020, and subsequent circulars issued in this regard, the latest being, General Circular No. 09/2024 dated September 19, 2024 (collectively referred to as "**MCA**

Circulars") has allowed the companies to conduct the Annual General Meeting ("**AGM**") through Video Conferencing ("**VC**"), without the physical presence of the Members at a common venue. In terms of the said Circulars, the 6th AGM of the Company is being held through VC. Hence, Members can attend and participate in the AGM through VC only.

Further, MCA vide its aforesaid Circulars and the Securities and Exchange Board of India ("**SEBI**") vide its Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated May 12, 2020, and subsequent circulars issued in this regard, the latest being, Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated October 3, 2024 (hereinafter referred to as "**SEBI Circulars**") prescribing the procedures and manner of conducting the AGM through VC/ OAVM and has granted relaxation in respect of sending physical copies of annual report to shareholders and requirement of proxy for general meetings held through electronic mode.

2. In line with the aforesaid MCA Circulars and SEBI Circulars, Notice of the AGM along with the Annual Report 2024-25 are being sent only through electronic mode to those Members whose email addresses are registered in respect of electronic holdings with the National Securities Depository Limited ("**NSDL**")/Central Depository Services (India) Limited ("**CDSL**"), collectively ("**Depositories**") through the concerned Depository Participants and in respect of physical holdings with the Company's Registrar and Share Transfer Agent ("**RTA**"), KFin Technologies Limited (formerly known as KFin Technologies Private Limited) ("**KFintech**"). However, hard copy of Annual Report shall be sent to those shareholders who specifically request for the same. Members may also note that the Notice of the 6th AGM and the Annual Report 2024-25 will also be available on the Company's website at <https://investor.gmrpui.com>, websites of the Stock Exchanges, i.e. BSE Limited and National Stock Exchange of India Limited, at www.bseindia.com and www.nseindia.com respectively, and on the website of KFintech at <https://evoting.kfintech.com>.

Further, pursuant to Regulations 36 (1) (b), a letter providing the web-link and QR Code, including the exact path, where complete details of the Annual Report are available, is being sent to those shareholders who have not registered their email address(es) as mentioned above.

3. The deemed venue of the AGM shall be Registered Office of the Company.
4. Pursuant to the aforesaid MCA Circulars, Members attending the 6th AGM through VC shall be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013, ("the Act").
5. As per the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf. However, in terms of the MCA Circulars, the 6th AGM is being held through VC and physical attendance of Members has been dispensed with. Accordingly, in terms of the MCA Circulars and SEBI Circulars, the facility of appointment of proxies by Members under Section 105 of the Act will not be available

for the 6th AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice.

6. The Board of Directors have considered and decided to include item nos. 5 to 10 as Special Businesses in the Notice to the 6th AGM, as they consider them unavoidable in nature.
7. The Explanatory Statement setting out the material facts pursuant to Section 102 of the Act relating to item nos. 5 to 10 and the additional information required to be provided relating to item no. 4 and 8 pursuant to Regulation 36 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as "**SEBI LODR**") and Secretarial Standard on General Meetings (SS-2) prescribed by Institute of Company Secretaries of India (ICSI), regarding the Directors who are proposed to be appointed/re-appointed are annexed hereto.
8. KFintech is the Registrar and Share Transfer Agent (RTA) of the Company to perform the share related work for shares held in electronic form.
9. Corporate/Institutional Members (i.e. other than individuals, HUF, NRI etc.) are entitled to appoint authorised representatives to attend the AGM through VC on their behalf and cast their votes through remote e-voting or at the AGM. Corporate/ Institutional Members intending to authorise their representatives to participate and vote at the Meeting are requested to send a certified copy of the Board resolution/authorisation letter to the Scrutiniser at e-mail ID compliance@sreedharancs.com with a copy marked to RTA at email id evoting@kfintech.com and to the Company at GPUIL.CS@gmrgroup.in authorising its representative(s) to attend and vote through VC on their behalf at the Meeting pursuant to Section 113 of the Act. In case if the authorised representative attends the Meeting, the above-mentioned documents shall be submitted, any time before the commencement of said Meeting.
10. Members of the Company under the category of Institutional Shareholders are encouraged to attend and participate in the AGM through VC and vote.
11. The Company has engaged KFintech for providing the facility of voting through remote e-voting, for participation in the 6th AGM through VC facility and e-voting thereat.
12. Members who have not registered their e-mail addresses are requested to register the same in respect of shares held in electronic form with their respective Depository through their Depository Participant(s). EXPLANATORY STATEMENT UNDER SECTION 102(1) OF THE COMPANIES ACT, 2013 READ WITH SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015 AND CIRCULARS ISSUED THEREUNDER.

Item No. 4

This Explanatory Statement is in terms of Regulation 36(5) of the SEBI LODR, though statutorily not required in terms of Section 102 of the Act.

The Members at the 1st Annual General Meeting ('AGM') of the Company held on October 16, 2020, prior to listing, had approved appointment of M/s Walker Chandiok & Co LLP, Chartered Accountants (Firm Registration No. 001076N/N500013), as the Statutory Auditors of the Company to hold office for a term of 5 (five) consecutive years from the conclusion of the 1st AGM till the conclusion of the 6th AGM of the Company to be held in the year 2025. In terms of the provisions of Section 139 of the Act, the Companies (Audit and Auditors) Rules, 2014, and other applicable provisions, if any, the Company can appoint or re-appoint an audit firm as statutory auditors for not more than 2 (two) terms of 5 (five) consecutive years.

After evaluating and considering various factors such as industry experience, competency of the audit team, efficiency in conduct of audit, independence and specialization in the Audit of large Corporates, and considering the performance of the Auditors in their first term of 5 (five) years on parameters such as availability of adequate audit team with understanding of the Company and its subsidiaries' business, time spent by the audit partners in supervising the team and interacting with the management on key audit issues, use of adequate technology, conduct of audit with professional integrity and objectivity etc., the Board of Directors of the Company ('Board'), at its meeting held on July 30, 2025 based on the recommendation of the Audit Committee, recommended to the members, the re-appointment of M/s Walker Chandiok & Co LLP, as the Statutory Auditors of the Company, for a further

term of 5 (five) consecutive years from the conclusion of 6th AGM till the conclusion of 11th AGM of the Company to be held in the calendar year 2030, at a remuneration as determined by the Board.

M/s Walker Chandiok & Co LLP have consented under Section 139 of the Act for their re-appointment as the Statutory Auditors and have confirmed that the re-appointment, if made, would be within the limits specified under Section 141(3)(g) of the Act and that they are not disqualified to be re-appointed as the Statutory Auditors in terms of the provisions of Section 139 and 141 of the Act and the Rules framed thereunder. M/s. Walker Chandiok & Co. LLP have also, confirmed that they hold a valid certificate issued by the Peer Review Board of Institute of Chartered Accountants of India as required under the SEBI LODR.

M/s. Walker Chandiok & Co LLP is a firm of Chartered Accountants registered and empanelled with the Institute of Chartered Accountants of India (ICAI). It was established in the year 1935 and is a Limited Liability Partnership Firm incorporated in India. It has its registered office at L-41, Connaught Circus, New Delhi - 110001 apart from 15 other branch offices in various cities in India. It is primarily engaged in providing audit and assurance services to its clients. It is amongst the largest and highly reputed audit firms in India and are auditors for several large companies including some of the Top 100 listed entities.

None of the Directors and/ or Key Managerial Personnel of the Company and/ or their relatives are, in any way, concerned or interested in the proposed Ordinary Resolution.

The Board recommends passing of the resolution set out in Item No. 4 of the notice as an Ordinary Resolution.

Disclosures under Regulation 36(5) of the SEBI LODR, for the appointment of M/s Walker Chandiok & Co LLP, Chartered Accountants, are as under:

Proposed fees payable to the statutory auditor(s) along with terms of appointment	<p>Proposed fee of upto ₹ 1.20 crore p.a. (Rupees One crore Twenty lakh only)*</p> <p>*The said proposed fee does not include the fee payable to the Auditors for the permissible services availed other than the statutory audit, whether in terms of Section 144 of the Act or otherwise, as may be approved by the Audit Committee/ Board.</p> <p>The above proposed fee is an indicative amount and the Board of Directors and the Audit Committee shall approve the fee payable to the Statutory Auditors for each financial year including any upward revision in remuneration of Statutory Auditors, if any, any time during their tenure as Statutory Auditors of the Company, based on the performance review and any additional scope of work on account of changes in regulations or management process, business acquisitions, internal restructurings or other considerations, in such manner and to such extent as may be mutually agreed.</p> <p>Re-appointment of M/s Walker Chandiok & Co. LLP, Chartered Accountants, is being proposed for a further term of 5 (five) years commencing from the conclusion of the 6th AGM till the conclusion of the 11th AGM of the Company to be held in the calendar year 2030.</p>
Any material change in the fee payable to such auditor from that paid to the outgoing auditor along with the rationale for such change	Not Applicable, as it is proposed to re-appoint the existing Statutory Auditor.

Basis of recommendation for appointment including the details in relation to and credentials of the statutory auditor(s) proposed to be appointed.	<p>The first term of 5 (five) years of M/s Walker Chandio & Co. LLP would be completed at the ensuing AGM.</p> <p>Considering the fact that in terms of Section 139 of the Act, M/s Walker Chandio & Co. LLP are eligible for re-appointment as Statutory Auditors for their second term of 5 (five) years and considering the performance of the Auditors in their first term of 5 (five) years, it is proposed to re-appoint M/s. Walker Chandio & Co. LLP, Chartered Accountants, as the Statutory Auditors of the Company for a further period of 5 (five) years being their second term, w.e.f. the conclusion of the 6th AGM till the conclusion of the 11th AGM of the Company to be held in the calendar year 2030.</p> <p>The Board on the basis of Auditors' performance evaluation undertaken by the Audit Committee, has recommended the re-appointment of M/s Walker Chandio & Co LLP, as the statutory auditor of the Company. The evaluation parameters include:</p> <p>Availability of adequate audit team with understanding of the Company and its subsidiaries' business, time spent by the audit partners in supervising the team and interacting with the management on key audit issues, use of adequate technology, conduct of audit with professional integrity and objectivity etc.</p>

Item No. 9

The Board of Directors ("Board") of the Company at its meeting held on July 30, 2025 on recommendation of the Audit Committee, approved the appointment of M/s. J.S.N & Company, Cost Accountants for conducting the audit of the cost records of the Company for the financial year ending March 31, 2026 at a remuneration of ₹ 1,25,000 plus applicable taxes, if any. According to section 148 of Act read with the Companies (Cost Records & Audit) Rules, 2014 ("Rules"), the Company is required to have its cost records audited by a Cost Accountant in practice. Further, in terms of the provisions of Section 148(3) of the Act read with Rules, the remuneration payable to the Cost Auditor is required to be ratified by the Members of the Company. Accordingly, the Members are requested to ratify the remuneration payable to the Cost Auditor for the financial year ending March 31, 2026, as set out in the resolution.

It may be noted that in terms of mutual discussion between the Company and Cost Auditor, there is no change in the fees proposed to be paid to Cost Auditor for the financial year 2025-2026.

None of the Directors and/ or Key Managerial Personnel of the Company and/ or their relatives are, in any way, concerned or interested in the proposed Ordinary Resolution.

The Board recommends the Ordinary Resolution with respect to Ratification of remuneration to Cost Auditors of the Company for the Financial Year ended March 31, 2026, as set out in Item No. 9 of this Notice, for approval of the Members.

Item No. 10

In order to adequately fund the existing and emerging business requirements of the Company and its subsidiaries, and to manage the existing debts better, the Company may require to raise additional funds in the form of QIP or other related modes. This will also facilitate the continuing efforts of the Company and its subsidiaries to reduce the debts and to optimize existing overall cost of debts.

The aforesaid funds would be utilised for the purpose of reduction of existing debts of the Company and or its subsidiaries/ associates, providing assistance to the subsidiaries for fulfilling and/ or expanding their existing and/or new business obligations,

including towards the new and/or ongoing projects such as smart meters, EV Charging, Renewable Energy, etc. from time to time and for meeting any general corporate purpose.

In line with the above, the Company proposes to raise funds upto aggregate amounts of ₹ 3,000 crore (Rupees Three Thousand Crore Only), either singly or in any combination of issuance of equity shares of the Company ("**Equity Shares**"), non-convertible debentures along with warrants (collectively, referred to as the "Securities") to Qualified Institutional Buyers (as defined under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("**SEBI ICDR Regulations**"), whether they are holders of Equity Shares or not, for cash, in one or more tranches and/or issuance of Foreign Currency Convertible Bonds ("**FCCB**") to eligible investors permitted under the Issue of Foreign Currency Convertible Bonds and Ordinary shares (Through Depository Receipt Mechanism) Scheme 1993 ("FCCB Scheme") or under any Regulations made under Foreign Exchange Management Act, 1999 ("**FEMA**") or combination thereof, in terms of (a) the SEBI ICDR Regulations; (b) applicable provisions of the Companies Act, 2013 (the "**Act**") and the applicable rules made thereunder [including the Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Companies (Share Capital and Debentures) Rules, 2014], each including any amendment(s), statutory modification(s), or re-enactment(s) thereof ("**Companies Act**"); (c) FCCB Scheme, as amended, Foreign Exchange Management (Transfer or Issue of any Foreign Security) Regulations, 2004 as amended and (d) other applicable law including the Securities and Exchange Board of India (Issue and Listing of Non- Convertible Securities) Regulations, 2021, FEMA including ECB Guidelines as amended, as may be applicable.

Accordingly, the Board, at its meeting held on August 22, 2025, subject to the approval of the Members of the Company, approved the issuance of the Securities/ FCCB on such terms and conditions as may be deemed appropriate by the Board ("Board", which term shall include the Management Committee of the Board or any other committee which the Board may hereinafter constitute for this purpose) at its sole and absolute discretion, taking into consideration market conditions and other relevant factors and wherever necessary, in consultation with the book running lead manager(s) and /or other advisor(s) appointed in relation to issuance of the QIP/ FCCB, in accordance with applicable laws. The Securities allotted will be listed and traded on the stock exchange(s) where Equity Shares of the Company are currently listed, subject to obtaining necessary approvals. The offer, issue, allotment of the Securities/ FCCB, shall be subject to obtaining regulatory approvals, if any by the Company.

In terms of Section 62(1)(c) of the Act, convertible securities may be issued to persons who are not the existing shareholders of a company, if the company is authorised by a special resolution passed by its shareholders. Further, in terms of provisions of Section 42 and 71 of the Act read with the Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Companies (Share Capital and Debentures) Rules, 2014, SEBI ICDR Regulations, FCCB Scheme, shareholders' approval is required for issuance of Securities/ FCCB. Therefore, the consent of the Members is being sought for passing the special resolution, pursuant to applicable provisions of the Act and other applicable laws.

The Securities offered, issued, and allotted by the Company pursuant to the QIP in terms of the resolution and shares arising out of conversion of Securities/FCCB would be subject to the provisions of the Memorandum of Association and Articles of Association of the Company and any Equity Shares that may be created, offered, issued and allotted by the Company shall rank, in all respects, pari-passu with the existing Equity Shares of the Company.

The pricing of the Securities shall be determined in accordance with the relevant provisions of the SEBI ICDR Regulations, the Act, FCCB Scheme and any other applicable laws. The resolution enables the Board in accordance with applicable law, to offer a discount of not more than 5% or such percentage as may be permitted under applicable law on the floor price determined in accordance with the SEBI ICDR Regulations.

The allotment of the Securities issued by way of QIP shall be completed within a period of 365 days from the date of passing of this resolution by the Members of the Company or such other time as may be allowed under the SEBI ICDR Regulations from time to time. The Securities shall not be eligible to be sold for a period of one year from the date of allotment, except on the recognised Stock Exchanges, or except as may be permitted under the SEBI ICDR Regulations from time to time.

The 'relevant date' for the purpose of the pricing of the Securities to be issued and allotted in the proposed QIP shall be decided in accordance with the applicable provisions of the SEBI ICDR Regulations, which shall be the date of the meeting in which the Board decides to open the QIP (or in case of allotment of eligible convertible securities, the relevant date may be either the date on which the Board decides to open the issue or the date on which the holders of such convertible securities become entitled to apply for the Equity Shares as may be decided by the Board), which shall be subsequent to receipt of shareholders' approval in terms of provisions of the Act and other applicable laws, rules, regulations and guidelines in relation to the proposed issue of the Equity Shares. The relevant date for purpose of FCCB will be determined in accordance with the FCCB Scheme or as may be permitted under the applicable laws.

The resolution proposed is an enabling resolution and the exact amount, exact price, proportion and timing of the issue of the Securities/ FCCB in one or more tranches and the remaining detailed terms and conditions for the QIP/ FCCB will be decided by the Board, in accordance with the SEBI ICDR Regulations, FCCB Scheme or other applicable laws in consultation with book running lead manager(s) and / or other advisor(s) appointed and such other authorities and agencies as may be required to be consulted by the Company. Further, the Company is yet to identify the investor(s) and decide the quantum of Securities/ FCCB to be issued to them. Hence, the details of the proposed allottees, percentage of their post- QIP shareholding and the shareholding pattern of the Company are not provided. The proposal, therefore, seeks to confer upon the Board the discretion and adequate flexibility to determine the terms of the QIP/ FCCB, including but not limited to the identification of the proposed investors in the QIP/ FCCB and quantum of Securities and/or FCCB or combination thereof to be issued and allotted to each such investor, in accordance with the provisions of the SEBI ICDR Regulations, the Securities and Exchange Board of India (Listing Obligations

and Disclosure Requirements) Regulations, 2015, as amended ("SEBI LODR Regulations"), the Act, the FCCB Scheme, the FEMA and the regulations made thereunder, including the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, as amended, the Foreign Exchange Management (Debt Instruments) Regulations, 2019, as amended, the ECB guidelines as amended, Consolidated FDI Policy issued by the Department for Promotion of Industry & Internal Trade, Ministry of Commerce and Industry, Government of India from time to time, each as amended; and other applicable laws.

Necessary disclosures have and will be made to the recognised Stock Exchanges, as may be required under the listing agreements entered into with them and the SEBI LODR Regulations.

The approval of the Members is being sought to enable the Board, to decide on the issuance of Securities/FCCB, to the extent and in the manner stated in the Special Resolution, as set out in item No. 10 of this notice, without the need for any fresh approval from the Members of the Company in this regard.

None of the Directors or Key Managerial Personnel of the Company, or their respective relatives, is concerned or interested, financially or otherwise, except their shareholding, if any, in the Company, in the resolution set out at Item No. 10 of the notice.

The proposed QIP/FCCB is in the interest of the Company and the Board recommends the resolution set out at Item No. 10 of the notice for the approval of the Members as a Special Resolution.

By order of the Board of Directors

Additional information for Members:

- 1) In terms of SEBI Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024 and other applicable provisions, the Members of the Company (who have not opted for the nomination) are encouraged, in their own interest, to provide 'choice of nomination' for ensuring smooth transmission of securities held by them as well as to prevent accumulation of unclaimed assets in securities market. To avail the facility of nomination or to opt out or cancel/ make any variation in the already submitted nomination, are requested to reach out to RTA in case of shares held in physical mode and to their respective DPs in case of shares held in Demat form.
- 2) In accordance with the applicable provisions of the Companies Act, 2013 ("Act") read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (including any statutory modification(s) or re-enactment(s) thereof for the time being in force) (IEPF Rules), all unclaimed dividends, if not claimed for a period of seven (7) years from the date of transfer to Unclaimed Dividend Account of the Company, are required to be transferred by the Company to the Investor Education and Protection Fund (IEPF).

Pursuant to the Scheme of Arrangement Sanctioned by NCLT, Mumbai, the Company had allotted 6,03,016 number of equity shares in favour of IEPF, against the shares of GMR Airports Limited (Formerly GMR Airports Infrastructure Limited) that had already been transferred to IEPF by GAL. The eligible shareholders would be able to reclaim these shares from the IEPF authorities subject to the procedure prescribed under the Act.

The members can claim the shares transferred to the IEPF Authority by submitting an online application in web Form No. IEPF-5 available on the website www.iepf.gov.in as per the procedure prescribed under the Act. No claim shall lie against the Company in respect of the shares so transferred.

In accordance with IEPF Rules, the Board of Directors have appointed Mr. Vimal Prakash, Company Secretary of the Company, as the Nodal Officer for the purpose of verification of claims and for co-ordination with IEPF Authority.

Details of the Nodal Officer for the purpose of coordination with the IEPF Authority are available on the website of the Company at <https://investor.gmrpui.com/contact-us/investor-grievances>

Thanking you
Yours faithfully,
