## **Our CSR Initiative**

We have replicated same model and have started a school in the Pathankot district of Punjab, near the Amritsar- Pathankot BOT project.

The School building was inaugurated on 27 March 2017. The school building has been constructed and classes have started for the Academic year 2017-18. Currently 175 students, belonging to BPL category of population, have joined the school. With our focus being on girl child education, preference for admission was given to girl child like done earlier in school in Rajasthan. As a result , currently we have 100 girls and 75 boys studying in the school

We are committed to help the underprivileged sections of society and enable them to live a life of dignity. As a part of this commitment, we are contributing to the Right to Education of each and every Indian. IRB is successfully running a model IRB Primary School for the children of the village Maalion Ka Jhopra at Tonk district in Rajasthan, where we have provided free education including uniforms and books. We have also succeeded in encouraging girl children of the area for education. In a traditional and backward rural area of Rajasthan, where educating a girl child is frowned upon, IRB's school has the distinction of having more girl students (162) than boys (153) students.

We also generously contributed to the Chief Minister's drought relief fund in Maharashtra.

IRB financially supports artists and sports persons.

Over the last few years, we have come up with annual calendars, based on the jury selected paintings of artists from Sir J. J. School of Arts, Mumbai. The original paintings of these artists are sold at private auctions and the funds generated are used to promote such talent.
