Management Discussion and Analysis Report

1. Industry Structure and Developments

The Goods and Services Tax (GST) was implemented from July, 2017 as the nation moved to "One Nation – One Tax". The first two quarters of the Current Financial Year were marked by the uncertainty surrounding the GST. However, the Indian economy continued to grow strongly, as the economy recovered in the 2nd half post stabilization of the GST Regime.

The Indian wood panel industry is estimated to be around Rs285 bn. The industry has traditionally remained largely unorganised given the low technical know-how and skill set required in the sector. However, the pattern has gradually changed in the last few years as the organised players have grown at a much faster rate (12-15%) compared to industry growth rate of 5-7%, taking away the market share from unorganised entities. New construction activities (85-90%) drive most of the demand in the sector while the balance comes from renovation and replacement.

2. OPPORTUNITIES AND THREATS

The growth in the wood panel industry is highly correlated with the progression in the housing sector. The housing sector in India contributes around 5-6% to the GDP. The segment is expected to grow at a CAGR of 11.2% during FY18-20. The central government is undertaking certain decisive measures to reduce the housing shortages in the country, which at present is 60 million units. The central government's policy (Pradhan Mantri Awas Yojana) to ensure 'Housing for All by 2022' will be in a position to boost the revenue for the sector.

In the next seven years, there is a projection that 110 million houses will be built across 205 cities in 9 states. The implementation of the Real Estate Regulatory Act (RERA) will pave a way for a speedy settlement of housing disputes and would amplify foreign and domestic investments due to increased transparency. This could improve buyer's confidence and increase the sale of houses.

In addition, the growth of retail, hospitality and healthcare sectors have raised the demand for the commercial real estate. Additionally, as the FDI in real estate has been relaxed, foreign investments are expected, these will cater to the demand and would elevate the commercial real estate market

Another factor influencing the industry is the rapid urbanisation. Presently, roughly 33% of the overall population in India is settled in urban areas. This number is anticipated to reach 40% by 2030. The growth in the replacement market will also provide a boost to the industry as people would strive for a better standard of living as their per capita income increases. Currently, the replacement cycle for furniture is estimated to be 8-10 years, but this number is likely to come down to 5-7 years. This would ensure that the replacement market grows at a steady pace.

Price differential gap between organised and unorganised players will narrow down post-GST implementation. In November 2017, there was a revision of the GST on plywood from 28% to 18%, this could see a strong shift from cheap unorganised to organised branded sector

The introduction of GST would result in goods being taxed at every level, thereby creating a level playing field for the organised manufacturers, and would also make inferior-quality plywood & panel less competitive. The price advantage enjoyed by unorganized manufacturers would diminish gradually, making high-quality plywood competitive. Also, with labour costs going up in China, producers there are losing out to competition from India, Vietnam and Indonesia.

However, there are threats from wood substitutes made from agro waste, import of low cost products from overseas and Competition has led to the increased in the bargaining power of the customers making price cut throat

As your company's brand is well established in the market and pan India presence with dedicated channel partners nationwide for more than four decades and emphasis on quality and manufacture of eco friendly products serve as the tools to withstand competition and move forward and achieve the estimated growth.

The marketing strategies are backed by a dedicated & motivated marketing team to push the Brand in the market place.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **M/s. Archidply Industries Limited** ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that are operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting are operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note: - 1 SIGNIFICANT ACCOUNTING POLICIES

1. Corporate Information:

Archidply Industries Limited (the 'Company') is a public limited company domiciled in India incorporated under the provisions of the Companies Act. Its shares are listed on two recognised stock exchanges in India. The registered office of the company is located at Plot No. 7, Sector-9, Integrated Industrial Estate, SIDCUL, Pant Nagar, Rudrapur - 263 153, Uttarakhand, India.

Company is engaged in the business of manufacturing two broad product segments, as follows:

i) Wood Based Products: Decorative Laminates, Decorative Veneers, Plywood & Block Board, Prelaminated Particle Board.

ii) Paper Based Products: Laminated Sheets(HPL)
It has branches and dealers' network spread all over the country. The Company is procuring raw material & trading goods locally as well as imports them. Goods are sold both in domestic and overseas markets.

The company's shares are listed in Bombay Stock Exchange Ltd.(BSE) and National Stock Exchange of India(NSE).

2. Basis of preparation of Financial Statements :

The Financial Statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015. The Financial Statements upto year ended 31st March 2017 were prepared in accordance with accounting standards notified under the Company (Accounting Standards) Rules 2006 read with Rule 7(1) of the Companies (Accounts) Rules, 2014 and the provisions of the Companies Act, 2013 (hereinafter referred to as the 'previous GAAP').

These Financial Statements are the first financial statements of the company under Ind AS - the transition date being 1 April 2016 and accordingly Balance Sheet for FY 2017-2018, 2016-2017 and 2015-2016 are presented. The information as to how the company has adopted Ind AS and the impact thereof on Company's financial position, financial performance and cash flows is presented in notes to financial statements.

The financial statements have been prepared under historical cost convention and on an accrual basis, except for the following items which have been measured as required by relevant Ind AS:

a) Financial Instruments classified as fair value through other comprehensive income.

b) The defined benefit loss/(profit) is recognized as at the present value of defined benefit obligation less fair value of plan assets through other comprehensive income.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Company's management evaluates all recently issued or revised accounting standards on an on-going basis.

Where changes are made in presentation, the comparative figures of the previous years are regrouped and re-arranged accordingly.

3. Accounting Estimates And Assumptions:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

4. Property, Plant and Equipment

a) Property, Plant and Equipment are stated at original cost (net of tax/ duty credit availed) less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and installation, taxes, duties, freight, other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

b) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit and loss during the reporting period in which they are incurred.

c) Assets which are not ready for their intended use on reporting date are carried as capital work-in-progress at cost, comprising direct cost and related incidental expenses.

d) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property,

plant and equipment as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

- e) Property, Plant and Equipments including continuous process plants are depreciated and/or amortised on the basis of their useful lives as notified in Schedule II to the Companies Act, 2013. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.
- f) Depreciation in respect of additions to assets has been charged on pro rata basis with reference to the period when the assets are ready for use. The provision for depreciation for multiple shifts has been made in respect of eligible assets on the basis of operation of respective units.
- g) Useful lives of the Property, Plant and Equipment as notified in Schedule II to the Companies Act, 2013 are as follows :

Buildings – 30 to 60 years
Plant and Equipments - 15 years (Triple Shift)
Furniture and Fixtures - 10 years
Vehicles - 8 to 10 years
Office Equipments - 5 to 10 years
Computers – 3 years

5. Intangible Assets

- a) Intangible assets acquired by payment e.g., Goodwill and Computer Software are disclosed at cost less amortization on a straight-line basis over its estimated useful life.
- b) Intangible assets are carried at cost, net of accumulated amortization and impairment loss, if any.
- c) On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets
- d) Intangible assets are amortised on straight-line method as follows :
Goodwill – 20 years
Computer Software – 3 years

6. Investment Property

Investment Property are stated at original cost less accumulated depreciation and impairment losses except freehold land which is carried at cost. Cost includes cost of acquisition, construction and other incidental expenses related to the acquisition, trial run expenses (net of revenue) and pre-operative expenses including attributable borrowing costs incurred during pre-operational period.

Investment property are amortized on straight line method as follows:
Building – 30 years

7. Impairment of Assets

At each balance sheet date, the Company reviews the carrying amount of property, plant and equipment to determine whether there is any indication of impairment loss. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and the value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

8. Inventories

- a. Inventories related to raw materials, packing materials, stores & spares are valued at cost on weighted average basis or net realisable value whichever is lower.
- b. Waste & scraps are valued at estimated realizable value.
- c. Materials in transit and Semi Finished goods are valued at cost or market value which ever is lower.
- d. Finished goods and process stock include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition.
- e. Finished goods are valued at cost or net realizable value whichever is lower. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.
- f. Obsolete, defective and unserviceable stocks are duly provided for.

9. Cash Flow Statement

Cash flows are reported using indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from regular revenue generating, financing and investing activities of the Company is segregated.

Cash and cash equivalents in the balance sheet comprise cash at bank, cash/cheques in hand and short term investments (excluding pledged term deposits) with an original maturity of three months or less.

10. Financial Assets

The Company classifies its financial assets as those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss) and those to be measured at amortised cost.

Trade receivables represent receivables for goods sold by the Company upto to the end of the financial year. The amounts are generally unsecured and are usually received as per the terms of payment agreed with the customers and are classified under Current Assets.

A financial asset is de-recognized only when the Company has transferred the rights to receive cash flows from the financial asset, or when it has transferred substantially all the risks and rewards of the asset, or when it has transferred the control of the asset.

Investments that are readily realizable and intended to be held for not more than a year are classified as Current investments. All other investments are classified as Non-Current/Long-term Investments. Current investments are carried at lower of cost or market value on individual investment basis. Non-Current Investments are considered at cost, unless there is an "other than temporary" decline in value, in which case adequate provision is made for the diminution in the value of Investments.

11. Financial Liabilities:

Borrowings are initially recognized and subsequently measured at amortised cost, net of transaction costs incurred.

Borrowings are removed from balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the company has an Un-conditional right to defer settlement of the liability for at least 12 months after the reporting period.

Trade Payables represent liabilities for goods and services provided to the Company up to the end of the financial year. The amounts are unsecured and are usually paid as per the terms of payment agreed with the vendors. The amounts are presented as current liabilities unless payment is not due within 12 months after the reporting period.

12. Tax Asset

Tax assets and Tax liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

13. Revenue Recognition:

Revenue comprises of all economic benefits that arise in the ordinary course of activities of the Company which result in increase in Equity, other than increases relating to contributions from equity participants. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Sale of Goods: Revenue from sales of goods is recognised on transfer of significant risks and rewards of ownership to the customers. Revenue shown in the Statement of Profit and Loss are inclusive of Excise Duty and the value of self-consumption, but excludes Goods & Service Tax(GST), inter-transfers, returns, trade discounts, other benefits passed to customers in kind, value added tax and Central sales tax. Excise Duty expense has been disclosed in Statement of Profit and Loss as expenditure.

Services: Revenue from Services are recognized as and when the services are rendered. The Company collects service tax/Goods & Service Tax on behalf of the government and therefore, it is not an economic benefit flowing to the Company and hence excluded from Revenue.

Interest: Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Insurance Claims: Insurance Claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on grounds of prudence.

14. Foreign Currency Transactions:

The Company's financial statements are presented in Indian Rupees ('INR'), which is also the Company's functional currency.

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise.

Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value is determined.

15. Employee Benefits:

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the related service is rendered.

Post Employment and Retirement benefits in the form of Gratuity and Leave Encashment are considered as defined benefit obligations and is provided for on the basis of third party actuarial valuation, using the projected unit credit method, as at the date of the Balance Sheet. Every Employee who has completed five years or more of service is entitled to Gratuity on terms not less favourable than the provisions of The Payment of Gratuity Act, 1972.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of reporting period on government bonds that have terms approximating to the terms of the related obligation

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions of the defined benefit obligation are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Employee benefits in the form of Provident Fund is considered as defined contribution plan and the contributions to Employees' Provident Fund Organisation established under The Employees' Provident Fund and Miscellaneous Provisions Act 1952 is charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. The Company pays provident fund contributions to publicly administered provident funds as per local regulations.

The Company has no further payment obligations once the contributions have been paid.

16. Borrowing Costs:

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds.

General and specific borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is one that takes necessarily substantial period of time to get ready for its intended use.

All other borrowing costs are expensed in the period in which they are incurred.

17. Accounting for Taxes on Income:

Tax expenses comprise of current tax and deferred tax including applicable surcharge and cess.

Current Income tax computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profits against which the deductible temporary differences, and the carry forward unused tax credits and unused tax losses can be utilised.

Deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income. As such, deferred tax is also recognised in other comprehensive income.

Deferred Tax Assets and Deferred Tax Liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the Deferred Tax Assets and Deferred Tax Liabilities relate to taxes on income levied by same governing taxation laws.

18. Contingent Liabilities & Contingent Assets:

Contingent liabilities are not provided for but are disclosed by way of Notes on Accounts. Contingent liabilities is disclosed in case of a present obligation from past events

- (a) when it is not probable that an outflow of resources will be required to settle the obligation;
- (b) when no reliable estimate is possible;
- (c) unless the probability of outflow of resources is remote.

Provisions are made when

- (a) the Company has a present legal or constructive obligation as a result of past events;
- (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and

- (c) a reliable estimate is made of the amount of the obligation.

Contingent assets are neither accounted for nor disclosed by way of Notes on Accounts where the inflow of economic benefits is probable.

19. Current And Non- Current Classification:

The Normal Operating Cycle for the Company has been assumed to be of twelve months for classification of its various assets and liabilities into "Current" and "Non-Current".

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is current when it is

- (a) expected to be realised or intended to be sold or consumed in normal operating cycle
- (b) held primarily for the purpose of trading
- (c) expected to be realised within twelve months after the reporting period

- (d) Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period. All other assets are classified as non-current.

A liability is current when

- (a) it is expected to be settled in normal operating cycle
- (b) it is held primarily for the purpose of trading
- (c) it is due to be discharged within twelve months after the reporting period
- (d) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. All other liabilities are classified as non-current.
