- 2. Our business experiences an increase in sales during the summer seasons. And our major revenue comes from Air coolers. Any substantial decrease in our sales during such periods and our inability cope up with our service during this time, then our revenues and profitability will be affected and have a negative effect on our image and brand.**

Our company is engaged in the business of manufacturing of Air coolers and Electric Geysers. Our maximum revenue comes from our air cooler business. Our air cooler business experience significant increase in our sales during the summer seasons i.e. from March to June every year. Although our Electric Geysers is a product which has a sale all around the year but our company is still dependent on sales of air cooler as it is the established business. Our company has suffered the most in the Covid period. The lockdown started in the month of March 2020, it was a peak season and our company had suffered a push back in our sales. Hence our company is significantly depended on our sales of air cooler, which is a seasonal product. If our company doesn't add more product which aren't seasonal the company can restrict its growth. And any significant shortfall in sales or our inability to cope up with the growing demands during this period during these periods, would affect our profitability and we would experience adverse effect on our results of operations

- 3. Our Registered Office and our Factory are not owned by us. The same are occupied by us on a lease basis. Disruption of our rights as lessee or termination of the agreements with our lessor would adversely impact our operations and, consequently, our business.**

Our Registered Office premise situated at Shop No.39, Ground Level I, Dewan Centre, 183-186, S.V. Road, Jogeshwari West, Mumbai- 400102, Maharashtra, India and is not owned by us, it is taken on sublease and rental basis for a period of 36 months commencing from April 01, 2020 and ending on March 31, 2023. Our Company has been occupying the factory located at Palghar district, Maharashtra on lease basis through a lease deed dated entered into by our Company with for a period of 60 months commencing from October 01, 2020 and ending on September 30, 2025. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favourable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangements for new office and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable / favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

- 4. Under-utilization of our manufacturing capacities of Air Cooler and Electric Geysers could have an adverse effect on our business, future prospects and future financial performance.**

As on date of the Draft Red Herring Prospectus, we own and operate one manufacturing facility at Palghar, Maharashtra with an aggregate installed capacity of 2,39,000 quantity for manufacturing of Air Cooler and Electric Geysers. Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing facility, the market for our products, the availability of raw materials, industry/ market conditions, as well as by the product requirements of, and procurement practice followed by, our customers. In the event we are unable to expand our customer base for ductile iron pipe fittings or are unable to deliver requisite standards of products, our product line catering to ductile iron pipe fittings may face disruptions. Further if we face prolonged disruptions at our facilities including due to interruptions in the supply of electricity or as a result of labour unrest, or are unable to procure sufficient raw materials, we would not be able to achieve full capacity utilization of our current manufacturing facility, resulting in operational inefficiencies which could have a material adverse effect on our business and financial condition.

In Fiscals 2020, 2021 and 2022, our overall capacity utilization for manufacturing ductile iron pipe fittings were approximately 17.72%, 14.36% and 10.04% respectively. For further information, see **“Our Business – Capacity and Capacity Utilization”** on page 99 of this Draft Red Herring Prospectus. These rates are not indicative of future capacity utilization which is dependent on various factors, including demand for our products, availability of raw materials, our ability to manage our inventory and improve operational efficiency. Under-utilization of our manufacturing capacities over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance.

- 5. *If our customers do not continue to outsource manufacturing, or if there is a downward trend in consumer durable good business, our sales could be adversely affected.***

Our Company is Original Equipment Manufacturers (OEMs) of Air Coolers and Electric Geysers in India. In recent years, consumer companies/brands have increasingly outsourced the manufacturing of their products to OEM players like us. However, there can be no assurance that they will continue to do so in the future. A customer’s decision to outsource is affected by its ability and capacity for internal manufacturing and the competitive advantages of outsourcing. Our sales to our customers are also dependent on their business position and financial health. There can be no assurance that our customers will continue to outsource or increase the share of outsourcing. If the brands do not continue to outsource the manufacturing of their products or reduce the amount of manufacturing outsourced by them or if our customers decide to perform these functions internally or use other providers of these services, our future growth could be limited and our sales and operating results may suffer

- 6. *We may be unable to respond to changes in consumer demands and market trends in a timely manner.***

Our success depends on our ability to identify, originate and define product and market trends, as well as to anticipate, gauge and react to rapidly changing consumer demands in a timely manner. Our OEM products must also appeal to a broad range of customers whose preferences may vary. We cannot assure you that the demand for our products with end-consumers will continue to grow or that we will be able to continue to develop appealing styles or meet rapidly changing consumer demands in the future. If we misjudge the market or fail to anticipate a shift in consumer preferences, we may be faced with a reduction in revenues. Any inability to respond to changes in consumer demands and market trends in a timely manner could have a material adverse effect on our business, financial condition and results of operations.

- 7. *We could become liable to customers, suffer adverse publicity and incur substantial costs as a result of defects in our products, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.***

Any failure or defect in our products could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. Although we attempt to maintain quality standards, we cannot assure that all our products would be of uniform quality, meet the customer standards which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity. Also, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products or any other unforeseen events could affect our reputation and our results from operations.

- 8. *Our Promoters plays a key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our promoters remain associated with us.***

We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters have been actively involved in the day-to-day operations and management. Accordingly, our performance is heavily dependent upon the services of our Promoters. If our Promoters are unable or unwilling to continue in his present position, we may not be able to replace them easily or at all. Our Promoters, have over the years-built relations with various customers and other persons who are form part of our stakeholders and are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

- 9. *We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Some of the approvals are required to be obtained by our Company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.***

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Presently, we have applied for updating licenses and approvals in the name of “Comrade Appliances Limited” from “Comrade Appliances Private Limited”. Also, we have applied to the Maharashtra Pollution Control Board (MPCB) seeking their Consent to Establish vide Application Number MPCB-CONSENT-0000149187, dated September 26, 2022 and have applied for a Class 11 Trade Mark on February 1, 2023 vide Temporary Reference Number 8223482. Non-obtaining or non-renewal of the said

permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. Further we require to keep already obtained valid key approvals such as Tax Registrations, Shops and Establishment Act License, for running our operations in a smooth manner. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled "**Key Industry Regulations and Policies**" and "**Government and Other Statutory Approvals**" at pages 99 and 174 respectively of this Draft Red Herring Prospectus.

10. If we are not able to obtain, renew or maintain the statutory and regulatory permits and approvals required to operate our business it may have an adverse effect on our business.

We require certain statutory and regulatory permits, licenses and approvals to operate our business. Though we believe that we have obtained all permits and licenses which are adequate to run our business, we cannot assure that there is no other statutory / regulatory requirement which we are required to comply with. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business. For further details, see section on "**Government and Other Approvals**" beginning on page 174 of this Draft Red Herring Prospectus.

11. Our inability to obtain no objections from our lenders for the Issue, in a timely manner or at all could adversely affect raising of funds.

Our Company is required to obtain prior no objections from lender banks and Institution pursuant to restrictive covenants contained in the loan documents. Our Company have made application for no-objection / consents from the all the lenders and has yet to obtained their consent. Our inability to obtain such no objection certificate in a timely manner or at all, may adversely affect timely raising of funds.

12. We do not have firm commitment agreements with our customers. If our customers choose not to source their requirements from us, our business and results of operations may be adversely affected.

We do not have firm commitment, long-term supply agreements with all our customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. Many of the purchase orders we receive from our customers specify a price per unit and delivery schedule, and the quantities to be delivered are determined closer to the date of delivery. However, such orders may be amended or cancelled prior to finalisation, and should such an amendment or cancellation take place, it may adversely impact our production schedules and inventories. Further, where we have contracts with customers, such contracts do not bind our customers to provide us with a specific volume of business and can be terminated by our customers with or without cause, with little or no advance notice and without compensation. Consequently, there is no commitment on the part of the customer to continue to place new work orders with us and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers' vendor preferences and we may be unable to procure repeat orders from our customers.

Cancellation by customers or delay or reduction in their orders or instances where anticipated orders fail to materialize can result in mismatch between our inventories of raw materials and of manufactured products, thereby increasing our costs relating to maintaining our inventory and reduction of our margins, which may adversely affect our profitability and liquidity. Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur a loss. Further, our inability to find customers for surplus products may result in excessive inventories which may become obsolete and may be required to be written off in the future. Additionally, our customers have high and stringent standards for product quality and quantity as well as delivery schedules. Any failure to meet our customers' expectations could result in the cancellation or non-renewal of contracts or purchase orders. There are also a number of factors, other than our performance that could cause the loss of a customer. Customers may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, or replace their existing products with alternative products, any of which may have an adverse effect on our business, financial condition, results of operations and future prospects.

13. The continuing effect of the COVID-19 pandemic on our business and operations is highly uncertain and cannot be predicted.

The continuing effect of the COVID-19 pandemic on our business and operations is highly uncertain and cannot be predicted. In late calendar 2019, COVID-19, commonly known as “novel coronavirus” was first reported in Wuhan, China. Since then, the virus has progressively spread globally too many countries. The World Health Organization declared the COVID-19 outbreak as a health emergency of international concern on January 30, 2020 and thereafter categorised the outbreak as a pandemic on March 11, 2020. In order to contain the spread of COVID-19 virus, the Government of India initially announced a 21-day lockdown on March 24, 2020, which, after being subject to successive extensions, is being relaxed currently. During the duration of the lockdown, there were several restrictions in place including travel restrictions and directive to all citizens to not move out of their respective houses unless essential. Whilst the lockdown required private, commercial and industrial establishments to remain closed, subsequently manufacturing units of essential commodities were permitted to be functional. The team members have been working from home during lockdown and have been able to execute their responsibilities and service clients without any disruption, difficulty or delay. Due to the rising number of infected cases of COVID-19 in the country, there is no certainty if additional restrictions will be put back in place or if another lockdown would be re-imposed to control the spread of the pandemic. We cannot assure you that we may not face any difficulty in our operations due to such restrictions and such a prolonged instance of lockdown may adversely affect our business, financial condition and results of operations. Further, our ability to ensure the safety of our workforce and continuity of operations while confirming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team contract COVID-19, it may potentially affect our operations. Further, in the event any of our employees contract COVID-19, we may be required to quarantine our employees and shut down a part of or the entire operating facility as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, loss of life, injuries and impact the wellbeing of our employees. The ultimate impact will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and globally, the eventual level of infections in India, and the impact of any actions taken by governmental bodies or health organisations (whether mandatory or advisory) to combat the spread of the virus. These risks could have an adverse effect on our business, results of operations, cash flows and financial condition. To the extent that the COVID19 pandemic adversely affects our business and operations, it may also have the effect of heightening many of the other risks described in this “Risk Factors” section.

14. General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

Our business is highly dependent on economic and market conditions in India and other jurisdictions where we operate. General economic and political conditions in India, such as macroeconomic and monetary policies, industry-specific trends, mergers and acquisitions activity, legislation and regulations relating to the financial and securities industries, household savings rate, investment in alternative financial instruments, upward and downward trends in the market, business and financial sectors, volatility in security prices, perceived lack of attractiveness of the Indian capital markets, inflation, foreign direct investment, consumer confidence, currency and interest rate fluctuations, availability of short-term and long-term market funding sources and cost of funding, could affect our business. Global economic and political conditions may also adversely affect the Indian economic conditions. Market conditions may change rapidly and the Indian capital markets have experienced significant volatility in the past. The Indian economy has had sustained periods of high inflation in the recent past. If inflation or real interest rates were to rise significantly, the trends towards increased financial savings might slow down or reverse, our employee costs may increase and the sales of many of our products and services may decline.

15. If we are unable to respond to the demands of our existing and new clients, or adapt to technological changes or advances, our business and growth could be adversely affected.

Our industry is characterized by increasingly new and changing business models and rapid technological and regulatory changes. Our clients’ needs and demands for our products evolve with these changes. Our future success will depend, in part, on our ability to respond to our clients’ demands for new products, capabilities and technologies on a timely and cost-effective basis. We also need to adapt to technological advancements and keep pace with changing regulatory standards to address our clients’ increasingly sophisticated requirements. If we fail to adapt or keep pace with new technologies in a timely manner, provide customers with better products and services and user experience, or retain and attract skilled technology staff, it could harm our ability to compete, decrease the value of our products and services to our clients, and adversely affect our business and future growth.

16. Any increase in interest rates would have an adverse effect on our results of operations and will expose our Company to interest rate risks.

We are dependent upon the availability of equity, cash balances and debt financing to fund our operations and growth. Any fluctuations in interest rates may directly impact the interest costs of such loans and, in particular, any increase in

interest rates could adversely affect our results of operations. Furthermore, our indebtedness means that a material portion of our expected cash flow may be required to be dedicated to the payment of interest on our indebtedness, thereby reducing the funds available to us for use in our general business operations. If interest rates increase, our interest payments will increase and our ability to obtain additional debt and non-fund-based facilities could be adversely affected with a concurrent adverse effect on our business, financial condition and results of operations. For further details, please refer chapter titled “**Financial Indebtedness**” beginning on page 150 of this Draft Red Herring Prospectus.

17. Major fraud, lapses of internal control or system failures could adversely impact the company’s business.

Our Company is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, system failures, information system disruptions, communication systems failure and interception during transmission through external communication channels or networks. Failure to protect fraud or breach in security may adversely affect our Company’s operations and financial performance. Our reputation could also be adversely affected by significant fraud committed by our employees, agents, customers or third parties.

18. There are certain discrepancies and non-compliances noticed in some of our corporate records relating to e-forms filed with the Registrar of Companies and Taxation authorities

1. On March 19, 2018 allotment of 18,37,500 equity shares were made to Mr. Khursheed Alam, Mr. Shakir Khan and Mr. Mehboob Alam but the details mentioned in the form were 18,47,500 instead of 18,37,500 and equity shares. Inadvertently the Initial Subscription of 10,000 equity shares were mentioned in the said allotment.
2. Further, on August 19, 2019 allotment of 33,23,705 equity shares were made to Mr. Khursheed Alam, Mr. Shakir Khan and Mr. Mehboob Alam instead of 6,88,079 equity shares. The said allotment was shown as allotment made under Private Placement basis instead of Conversion of Loan to Equity Shares in form PAS-3 filed in respect of the allotment.
3. All the annual returns and financial statement submitted with Registrar of Companies contains discrepancy related to attached document and filled information in E-forms.
4. Some Provisions of Section 12 of the Companies Act, 2013.
5. Some attachments which were to be attached in the Forms filed are not attached by the Company. Further, some attachments of the Forms are not signed and stamped by the requisite authority.
6. Incorrect dates, resolution number etc mentioned in some of the Forms.
7. Our company has filed revised annual return in Form MGT-7 for the financial year ended on 2021-2022 due to some discrepancies in the said Form
8. Provisions of SS-1 and SS-2 of the Companies Act, 2013 were not fully complied by the company at the time of preparation of the documents for filling of forms.

Our company had made an application for compounding of error mentioned in point 1 and 2 above, Any penalty or action taken by any regulatory authority in future for non-compliance with provisions of corporate and other law could impact financial position of the company to that extent.

Further no-show cause notice has been issued against our Company till date, in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company and its directors, in which event the financials of our Company and our directors may be affected. Further we cannot assure that we may not do delay filings in future and not be subjected to penalty or interest.

19. We continue to explore the diversification of our business and the manufacturing of new products. These diversifications and our other strategic initiatives may not be successful, which may adversely affect our business and results of operations.

In order to achieve our goal, we are constantly evaluating the possibilities of expanding our business through new models, innovations and / or starting manufacturing new products. Although we believe that there are synergies between our current business and our expansion plans, we do have experience or expertise in these new areas. These new businesses and modes of delivery and the implementation of our strategic initiatives may pose significant challenges to our administrative, financial and operational resources, and additional risks, including some of which we are not aware of. The early stages and evolving nature of some of our businesses also make it difficult to predict competition and consumer demand therein. Our strategic initiatives require capital and other resources, as well as management attention, which could place a burden on our resources and abilities. In addition, we cannot assure you that we will be successful in implementing

any or all of our key strategic initiatives. If we are unable to successfully implement some or all of our key strategic initiatives in an effective and timely manner, or at all, our ability to maintain and improve our leading market position may be negatively impacted, which may have an adverse effect on our business and prospects, competitiveness, market position, brand name, financial condition and results of operations.

20. We face intense competition in our businesses, which may limit our growth and prospects. Our Company faces significant competition from other companies in OEM Manufacturing of Air Cooler and Electric Geysers.

We compete on the basis of a number of factors, including execution, depth of product and service offerings, innovation, reputation and price. Our competitors may have advantages over us, including, but not limited to:

- Substantially greater financial resources;
- Longer operating history than in certain of our businesses;
- Greater brand recognition among consumers;
- Larger customer bases in and outside India; or
- More diversified operations which allow profits from certain operations to support others with lower profitability. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

21. Orders placed by customers may be delayed, modified or cancelled, which may have an adverse effect on our business, financial condition and results of operations.

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such products or cause its cancellation. Due to the possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customers discretion or problems we encounter in the delivery of such products or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the customers may default or otherwise fail to pay amounts owed.

22. Further any defaults or delays in payment by a significant portion of our customers, may have an adverse effect on cash flows, results of operations and financial condition.

In the ordinary course of business, we extend credit to our customers. Our results of operations and profitability depend on the credit worthiness of our customers. Certain of these customers may have weak credit histories and we cannot assure that these counterparties will always be able to pay us in a timely fashion, or at all. Any adverse change in the financial condition of our customers may adversely affect their ability to make payments to us. Default or delays in payments by a significant portion of our customers may have an adverse effect on cash flows, results of operations and financial condition. Default or delays in payments by a significant portion of our customers may have an adverse effect on cash flows, results of operations and financial condition.

23. Our inability to manage growth could disrupt our business and reduce our profitability. We propose to expand our business activities in coming financial years.

We expect our future growth to place significant demands on both our management and our resources. This will require us to continuously evolve and improve our operational, financial and internal controls across the organisation. In particular, continued expansion increases the challenges we face in:

- Our ability to acquire and retain clients for our products;
- Services, products or pricing policies introduced by our competitors;
- Capital expenditure and other costs relating to our operations;
- The timing and nature of, and expenses incurred in, our marketing efforts;
- Recruiting, training and retaining sufficient skilled technical and management personnel;

- Adhering to our high quality and process execution standards;
- Maintaining high levels of customer satisfaction;
- Developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, and other internal systems.

You should not rely on yearly comparisons of our results of operations as indicators of future performance. It is possible that in some future periods our results of operations may be below the expectations of public, market analysts and investors. If we are unable to manage our growth it could have an adverse effect on our business, results of operations and financial condition.

24. Our funding requirements and the deployment of Net Proceeds are based on management estimates and have not been independently appraised. Further, our management will have discretion in the application of the Net Proceeds, and there is no assurance that the Objects of the Issue will be achieved within the time frame expected or at all.

We intend to use the Net Proceeds for the purposes described under “**Objects of the Issue**” on page 79. The Objects of the Issue include funding of working Capital Requirements of our company amounting Upto ₹ 800.00 Lakh, and general corporate purposes amounting to ₹ [●] Lakh. Our funding requirements and the deployment of the Net Proceeds are based on management estimates for which we have relied on internal assumptions and such assumptions have not been appraised by any independent agency. The Net Proceeds may be used to repay / prepay such term and / or working capital loans. While we believe that utilization of Net Proceeds for repayment of loans would help us to reduce our cost of debt and enable the utilization of our internal accruals for further investment in business growth and expansion, the repayment of loans will not result in the creation of any tangible assets for our Company. Given the nature of our business and due to various uncertainties involved, we may be unable to utilize the Net Proceeds within the time frame or as per the schedule of deployment that we currently estimate. In the case of increase in actual expenses or shortfall in requisite funds, additional funds for a particular activity will be met by means available to us, including internal accruals and additional equity and / or debt arrangements.

25. Our Company has a negative cash flow in its operating activities in the financial year ending on March 31, 2021, financing activities in Stub period ending on August 31, 2022 and financial year ending on March 31, 2022 and investing activities in the Stub period and past 3 years, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our investing activities and financing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

Net Cash from Financing Activities	(127.05)	(422.57)	548.95	(24.09)
Net Increase / (Decrease) in Cash & Cash Equivalents	10.24	(11.37)	30.57	5.32

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

26. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

27. *Brand recognition is important to the success of our business, and our inability to build and maintain our brand names will harm our business, financial condition and results of operation.*

Brand recognition is important to the success of our business. Establishing and maintaining our brand name in the industry or for people relying on products is critical to the success of the customer acquisition process of our business. Although, we expect to allocate significant amount of resources, financial and otherwise, on establishing and maintaining our brands, no assurance can be given that our brand names will be effective in attracting and growing user and client base for our businesses or that such efforts will be cost-effective, which may negatively affect our business, financial condition and results of operations.

28. *Significant disruptions in our information technology systems or breaches of data security could adversely affect our business and reputation.*

We may also face cyber threats such as: (i) Phishing and Trojans – targeting our customers, wherein fraudsters send unsolicited codes or mails to our customers seeking account sensitive information or to infect customer machines to search and attempt ex-filtration of account sensitive information; (ii) Hacking – wherein attackers seek to hack into our infrastructure with the primary intention of causing reputational damage to us by disrupting services; (iii) Data theft – This can be internal i.e. by someone who has access to data of our Company or external wherein unconnected cyber criminals may attempt to intrude into our network with the intention of stealing our data or information; and (iv) Advanced persistent threat – a network attack in which an unauthorized person gains access to our network and remains undetected for a long period of time. In the event of a significant decline in the demand for our products, our business, results of operations and financial condition may be materially and adversely affected.

Our systems are potentially vulnerable to data security breaches, whether by our employees, or our service providers or others that may expose sensitive data to unauthorized persons. We process and transfer data, including personal information, financial information and other confidential data provided to us by our clients. Although we maintain systems and procedures to prevent unauthorized access and other security breaches, it is possible that unauthorized individuals could improperly access our systems, or improperly obtain or disclose sensitive data that we process or handle. Data security breaches could lead to the loss of intellectual property or could lead to the public exposure of personal information (including sensitive financial and personal information) of our clients' investors or our employees. Any such security breaches or compromises of technology systems could result in institution of legal proceedings against us and potential imposition of penalties, which may have an adverse effect on our business and reputation.

29. *The nature of our business exposes us to liability claims and contract disputes and our indemnities may not adequately protect us. Any liability in excess of our reserves or indemnities could result in additional costs, which would reduce our profits.*

Time is often of the essence in our business work. In the event there are delays in our current or future products, we will not be able to get extensions from our customers. Further, in some contracts, in case of delay due to deficiency in products by us, clients may have the right to complete the work at our risk and cost by engaging a third party. In the event we fail to perform under the terms of a particular contract, that could adversely affect our financial conditions and business operations. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses. In addition, if there is a customer dispute regarding our performance or workmanship, the customer may delay or withhold payment to us.

30. *Employee fraud or misconduct could harm us by impairing our ability to attract and retain clients and subject us to significant legal liability and reputational harm.*

Our business is exposed to the risk of employee misappropriation, fraud or misconduct. Our employees could make improper use or disclose confidential information, which could result in regulatory sanctions and serious reputational or financial harm. While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures, we may be unable to adequately prevent or deter such activities in all cases. Our dependence upon automated systems to record and process transactions may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect. While we have not been able to identify such issues in the past, there could be instances of fraud and misconduct by our employees, which may go unnoticed for certain periods of time before corrective action is taken. In addition, we may be subject to regulatory or other proceedings, penalties or other actions in connection with any such unauthorized transaction, fraud or misappropriation by our agents or employees, which could adversely affect our goodwill, business prospects and future financial performance. We may also be required to make good any monetary loss to the affected party. Even when we identify instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, we cannot assure you that we will recover any amounts lost through such fraud or other misconduct.

31. The average cost of acquisition of Equity Shares by our Promoters is lower than the issue price.

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the Issue Price as decided by the Company in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title **"Capital Structure"** beginning on page 59 of this Draft Red Herring Prospectus.

32. We have entered into related party transactions in the past and may continue to do so in the future.

Our Company has entered into various transactions with our Promoters and associate companies. While we believe that all such transactions are conducted on arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter **"Related Party Transactions"** beginning on page 149 of this Draft Red Herring Prospectus.

33. Our top 5 and top 10 customers contribute major portion of our revenues or the period August 31, 2022. Any loss of business from one or more of them may adversely affect our revenues and profitability.

Our top five and top ten customers contribute to a substantial portion of our revenues for the year ended August 31, 2022. Any decline in our quality standards, growing competition and any change in the demand for our products by these customers may adversely affect our ability to retain them. We believe we have maintained good and long-term relationships with our customers. However, there can be no assurance that we will continue to have such long-term relationship with them, also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

Due to COVID-19 pandemic, there may have been a temporary reduction in demand for our products and there may have been an overall slowdown in the industry. Further, such pandemic situations may also arise in the future and that could materially and adversely affect our business, financial condition and results of operations. Our growth has required and will continue to require increased investments in management personnel and systems, financial systems and controls, and office facilities. However, we cannot assure you that such investments will yield desired results and we may incur costs that we may not be able to recover. We may also be unable to hire additional qualified personnel to support the offering of a wider range of services. If we fail to manage our growth, we may experience operating inefficiencies, dissatisfaction among our client base, and lost revenue opportunities, which may adversely affect our business, results of operations and financial condition. The contribution of our top 5 and top 10 customers to our total revenue are as follows:

Customers	Top 5 (%)	85.23 %
	Top 10 (%)	96.93 %

34. Our Promoters will continue to retain majority control over the Company after the Issue, which will allow them to influence the outcome of matters submitted to shareholders for approval.

Upon completion of the Issue, our Promoters will own 65.41% of the Post-Issue Equity Share capital of the Company. As a result, the Promoters and Promoter Group will have the ability to exercise significant influence over all matters requiring shareholders' approval, including the election of directors and approval of significant corporate transactions. The Promoters and Promoter Group will also have an effective veto power with respect to any shareholder action or approval requiring a majority vote. Such concentration of ownership may also have the effect of delaying, preventing or deterring a change in control. For further details of Promoter' shareholding, please refer chapter titled **"Capital Structure"** beginning on Page No. 59 of this Draft Red Herring Prospectus.

35. We are dependent on a number of Key Managerial Personnel and our senior management, and the loss of, or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.

Our performance depends largely on the efforts, expertise and abilities of our Key Managerial Personnel, senior management, and our operational personnel who possess significant experience in the industry in which we operate. We believe that the inputs and experience of our KMP and senior management, in particular, and other key personnel are valuable for the development of our business, operations and the strategic directions taken by our Company. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. Moreover, we may be required to substantially increase the number of our qualified

personnel in connection with any future growth plans, and we may face difficulty in doing so due to the intense competition in the technology industry for such personnel. We may also be required to increase our levels of employee compensation more rapidly than in the past in order to remain competitive in retaining.

Further, the COVID -19 pandemic has dynamically altered the approach on workplace hygiene and safety and continuity of operations while confirming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team contract COVID-19, it may potentially affect our operations. Further, in the event any of our employees' contract COVID-19, we may be required to quarantine our employees and shut down a part of or the entire operating facility as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, loss of life, injuries and impact the well-being of our employees.

36. Our operating expenses include overheads that may remain fixed in the medium term. In case there is any decline in our operating performance, we may be unable to reduce such expenses.

Our operating expenses include various fixed costs, which are as such, not dependent on sales revenue. Any shortfall in sales may cause significant variations in operating results in any particular quarter, as we would not be able to reduce our fixed operating expenses in the short term. The effect of any decline in sales may thereby be magnified because a portion of our earnings are committed to paying these fixed costs. Accordingly, we believe that period-to-period comparisons of our results may not necessarily give a correct presentation of the performance and should not be relied upon as indications of future performance.

37. Delays or defaults in payments from our clients could result into a constraint on our cash flows. The efficiency and growth of our business depends on timely payments received from our clients.

In the event, our client's default or delay in making payments and clearing their dues, we may not have adequate resources to fund our business and implement our growth plans. This could have an adverse effect on the results of operations and our financial condition.

38. The shortage or non-availability of power facilities may adversely affect our business processes and have an adverse impact on our results of operations and financial condition.

Our business processes require substantial amount of power facilities. We do not have arrangements for alternative / independent sources of power supply as of now. We are mainly dependent on local electricity service provider for meeting our electricity requirements, there may be factors beyond our control affecting the supply of power. Any power failure may lead to increased costs, thereby affecting the profitability.

39. Our insurance coverage may not adequately protect us against losses, and successful claims against us that exceed our insurance coverage could harm our results of operations and diminish our financial position.

We maintain insurance coverage of the type and in the amounts that we believe are commensurate with our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances and may be subject to certain deductibles, exclusions and limits on coverage. In addition, there are various types of risks and losses for which we do not maintain insurance, such as losses due to business interruption and natural disasters, because they are either uninsurable or because insurance is not available to us on acceptable terms. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or results in changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, future financial performance and results of operations.

40. There are no alternate arrangements for meeting our requirements for the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our working capital requirements through our owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not yet identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer chapter titled "*Objects of the Issue*" on page 79 of this Draft Red Herring Prospectus.

41. *Guarantees from Promoters & Director as well as others have been taken in relation to the debt facilities provided to us.*

In an event any of the guarantors withdraws or terminates this guarantee, the lender for such facilities may ask for alternate guarantee / s, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantee / s satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information, please see the chapter titled ***“Statement of Financial Indebtedness”*** beginning on page 150 of this Draft Red Herring Prospectus.

42. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholder’s investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see ***“Dividend Policy”*** on page 148 of this Draft Red Herring Prospectus.

43. *Any future acquisitions, joint ventures, partnerships, strategic alliances, tie-ups or investments could fail to achieve expected synergies and may disrupt our business and harm the results of operations and our financial condition.*

Our success will depend, in part, on our ability to expand our business in response to changing technologies, customer demands and competitive pressures. We have, in the past, explored and continue to explore opportunities on our own, through collaborations, tie-ups, strategic alliances, partnerships or joint venture across the country and regions of focus. In some circumstances, we may also decide to acquire, or invest in, complementary technologies instead of internal development. While we are currently evaluating opportunities and negotiating with several potential partners, we have not entered into any definitive agreements. The risks we face in connection with acquisitions may include integration of product and service offerings, co-ordination of R&D and marketing functions and the diversion of management’s time and focus from operating our business to addressing challenges pertaining to acquisition and integration. Our failure to address these risks or other problems encountered in connection with our acquisitions and investments could result in our failure to realize the anticipated benefits of these acquisitions or investments, cause us to incur unanticipated liabilities, and harm our business generally.

44. *Our future funds requirements, in the form of fresh issue of capital or securities and / or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

45. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, and formulation of a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios.*

There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that are not waived by our lenders or are not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. Though these covenants are restrictive to some extent to the Company however it ensures financial discipline, which would help the Company in the long run to improve its financial performance.

For further information, see the chapter titled “*Statement of Financial Indebtedness*” on page 150 of this Draft Red Herring Prospectus.

46. *Certain Agreements / deeds may be in the previous name of the company.*

Our certain agreements and deeds may be in the name of the erstwhile name of the company i.e., Comrade Appliances Private Limited. In case we fail to change the name in the agreements and deeds, it may cause adverse effect on Our company’s business.

47. *Some of the KMPs is associated with our company for less than one year.*

Our Key Management Personnel, Company Secretary and Chief Financial Officer are associated with the Company for a period of less than one year therefore they may not have been accustomed to the company affairs till date. For details of Key Management Personnel and their appointment, please refer to chapter “*Our Management*” beginning on page 121 of this Draft Red Herring Prospectus.

48. *There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all.*

In accordance with Indian law and practice, permission to list the Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Approval will require all other relevant documents authorizing the issuing of our Equity Shares to be submitted. There could be a failure or delay in listing our Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

49. *Excessive reliance on our information technology systems and their failure could harm our relationship with customers, expose us to lawsuits or administrative sanctions or otherwise adversely affect our provision of products to customers and our internal operation.*

As part of our business strategy, we use high quality of information technology system to deliver our products in the best possible way. We have an exemplary track record for completion of the projects within the stipulated time period but there may be the system interruptions, errors, or downtime which could result from a variety of causes including changes in technology, technology failure, changes in system, and power failure etc. these may affect our business adversely.

50. *The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of Our Company.*

Since, the Issue size is less than ₹10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised from this Issue, is hence, at the discretion of the management and the Board of Directors of Our Company and Our Company’s management will have flexibility in applying the proceeds of the Issue and will not be subject to monitoring by any independent agency. The fund requirement and deployment mentioned in the Objects of the Issue is based on internal management estimates and have not been appraised by any bank or financial institution. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials. However, our Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. Also, in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without the Company being authorized to do so by our shareholders by way of special resolution and other compliances as applicable in this regard. Our Promoters and controlling shareholders shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

51. *Negative publicity could adversely affect our revenue model and profitability.*

We work in the market where trust of the customers on us and upon the products provided by us matters a lot. Any negative publicity regarding our company or the products provided by the company due to any other unforeseen events may affect our reputation and image which leads to the adverse effect on our business and goodwill as well.

52. *Industry information included in this Draft Red Herring Prospectus has been derived from industry reports commissioned by us for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Draft Red Herring Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their depend ability cannot be assured. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Red Herring Prospectus.

53. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchanges which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and / or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

Issue Specific Risks:

54. *There are restrictions on daily / weekly / monthly movements in the price of the Equity Shares, which may adversely affect a shareholders' ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Once listed, we would be subject to circuit breakers imposed by all stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

55. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.*

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- a) Volatility in the Indian and global capital market;
- b) Company's results of operations and financial performance;
- c) Performance of Company's competitors,
- d) Adverse media reports on Company or pertaining to the agriculture Industry;
- e) Changes in our estimates of performance or recommendations by financial analysts;
- f) Significant developments in India's economic and fiscal policies; and
- g) Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

56. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

57. The Issue price of our Equity Shares may not be indicative of the market price of our Equity shares after the issue.

The Issue price of our equity Shares has been determined by Book Built method. This price is based on numerous factors and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuation after the issue and may decline below the issue price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue price. For further details you may refer chapter titled "**Basis for Issue Price**" beginning on the page 84 of this Draft Red Herring Prospectus.

Some of the factors which may affect our share price without limitations are as follows:

- Reports on research by analysts.
- Changes in revenue.
- Variations in growth rate of our financial indicators such as earning per share, income, profit etc.
- General Market Condition
- Domestic and International Economy.

58. Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the Trading price of the Equity Shares.

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISKS

Industry Related Risks:

59. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended / changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

60. Malpractices by some players in the industry affect overall performance of emerging Companies

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. Malpractices by some players in the industry affects the overall performance of the emerging Companies like us as the industry norms are applicable to all at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

OTHER RISKS:***61. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian Company are generally taxable in India. Any gain on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax (“STT”) has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain on the sale of shares held for a period of 12 months or less will be subject to capital gains tax in India. Further, any gain on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to Securities Transactions Tax (STT) under Chapter VII of the Finance (No 2) Act, 2004. In case this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long-Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after 1st day of April 2018 if the long-term capital gains exceeds ₹ 1,00,000/- p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of ₹ 1,00,000/- pa. shall be chargeable at the rate of 10%. Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

62. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements, prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus.

As stated in the reports of the Auditor included in this Draft Red Herring Prospectus under chapter “Financial Statements as Restated” beginning on page 149 the financial statements included in this Draft Red Herring Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Red Herring Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

63. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

64. Financial instability in Indian Financial Markets could adversely affect our Company’s results of operation and financial condition.

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each

country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

65. We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and our industry contained in this Draft Red Herring Prospectus.

While facts and other statistics in this Draft Red Herring Prospectus relating to India, the Indian economy and our industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "Our Industry" beginning on page 90 of this Draft Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

66. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency a magnitude, which may negatively affect our stock prices.

67. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection / tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

68. Natural calamities could have a negative impact on the Indian economy and cause Our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

69. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

70. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

3. *Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year/period adjusted by the number of equity shares issued during the year/period multiplied by the time weighting factor. - Net worth means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of statement of profit and loss, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off and non-controlling interest, as per the Restated Financial Information, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.
- Net Worth and the number of equity shares as at the end of the year/period have been adjusted to give effect to the consequent increase in share capital on the assumption that options outstanding to subscribe for additional equity capital (i.e. outstanding share warrants and employee stock options), wherever applicable, were exercised in the respective financial year/period. The computation considering aforementioned effects has been carried out in accordance with the requirements of SEBI ICDR Regulations and therefore the net worth and the number of equity shares outstanding as at the end of the year/period has not been derived from Restated Financial Information.

SECTION VIII: ABOUT THE ISSUER COMPANY

OUR INDUSTRY

The information in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with the issue has independently verified the information provided in this section. Industry sources and publications, referred to in this section, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information.

GLOBAL ECONOMY AT LARGE

- Global growth is projected to fall from an estimated 3.4 percent in 2022 to 2.9 percent in 2023, then rise to 3.1 percent in 2024. The forecast for 2023 is 0.2 percentage point higher than predicted in the October 2022 World Economic Outlook (WEO) but below the historical (2000–19) average of 3.8 percent. The rise in central bank rates to fight inflation and Russia’s war in Ukraine continue to weigh on economic activity. The rapid spread of COVID-19 in China dampened growth in 2022, but the recent reopening has paved the way for a faster-than-expected recovery. Global inflation is expected to fall from 8.8 percent in 2022 to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic (2017–19) levels of about 3.5 percent.
- The balance of risks remains tilted to the downside, but adverse risks have moderated since the October 2022 WEO. On the upside, a stronger boost from pent-up demand in numerous economies or a faster fall in inflation are plausible. On the downside, severe health outcomes in China could hold back the recovery, Russia’s war in Ukraine could escalate, and tighter global financing conditions could worsen debt distress. Financial markets could also suddenly reprice in response to adverse inflation news, while further geopolitical fragmentation could hamper economic progress.
- In most economies, amid the cost-of-living crisis, the priority remains achieving sustained disinflation. With tighter monetary conditions and lower growth potentially affecting financial and debt stability, it is necessary to deploy macroprudential tools and strengthen debt restructuring frameworks. Accelerating COVID-19 vaccinations in China would safeguard the recovery, with positive cross-border spillovers. Fiscal support should be better targeted at those most affected by elevated food and energy prices, and broad-based fiscal relief measures should be withdrawn. Stronger multilateral cooperation is essential to preserve the gains from the rules-based multilateral system and to mitigate climate change by limiting emissions and raising green investment.

FORCES SHAPING THE OUTLOOK

The global fight against inflation, Russia’s war in Ukraine, and a resurgence of COVID-19 in China weighed on global economic activity in 2022, and the first two factors will continue to do so in 2023. Despite these headwinds, real GDP was surprisingly strong in the third quarter of 2022 in numerous economies, including the United States, the euro area, and major emerging market and developing economies. The sources of these surprises were in many cases domestic: stronger-than-expected private consumption and investment amid tight labor markets and greater-than-anticipated fiscal support. Households spent more to satisfy pent-up demand, particularly on services, partly by drawing down their stock of savings as economies reopened. Business investment rose to meet demand. On the supply side, easing bottlenecks and declining transportation costs reduced pressures on input prices and allowed for a rebound in previously constrained sectors, such as motor vehicles. Energy markets have adjusted faster than expected to the shock from Russia’s invasion of Ukraine. In the fourth quarter of 2022, however, this uptick is estimated to have faded in most—though not all—major economies. US growth remains stronger than expected, with consumers continuing to spend from their stock of savings (the personal saving rate is at its lowest in more than 60 years, except for July 2005), unemployment near historic lows, and plentiful job opportunities. But elsewhere, high-frequency activity indicators (such as business and consumer sentiment, purchasing manager surveys, and mobility indicators) generally point to a slowdown.

COVID-19 deepens China’s slowdown. Economic activity in China slowed in the fourth quarter amid multiple large COVID-19 outbreaks in Beijing and other densely populated localities. Renewed lockdowns accompanied the outbreaks until the relaxation of COVID-19 restrictions in November and December, which paved the way for a full reopening. Real estate investment continued to contract, and developer restructuring is proceeding slowly, amid the lingering property market crisis. Developers have yet to deliver on a large backlog of presold housing, and downward pressure is building on house prices (so far limited by home price floors). The authorities have responded with additional monetary and fiscal policy easing, new vaccination targets for the elderly, and steps to support the completion of unfinished real estate projects. However, consumer and business sentiment remained subdued in late 2022. China’s slowdown has reduced global trade growth and international commodity prices.

Monetary policy starts to bite. Signs are apparent that monetary policy tightening is starting to cool demand and inflation, but the full impact is unlikely to be realized before 2024. Global headline inflation appears to have peaked in the third quarter of 2022 (Figure 1). Prices of fuel and nonfuel commodities have declined, lowering headline inflation, notably in the United States, the euro area, and Latin America. But underlying (core) inflation has not yet peaked in most economies and remains well above pre-pandemic levels. It has persisted amid second-round effects from earlier cost shocks and tight labor markets with robust wage growth as consumer demand has remained resilient. Medium-term inflation expectations generally remain anchored, but some gauges are up. These developments have caused central banks to raise rates faster than expected, especially in the United States and the euro area, and to signal that rates will stay elevated for longer. Core inflation is declining in some economies that have completed their tightening cycle—such as Brazil. Financial markets are displaying high sensitivity to inflation news, with equity markets rising following recent releases of lower inflation data in anticipation of interest rate cuts (Box 1), despite central banks' communicating their resolve to tighten policy further. With the peak in US headline inflation and an acceleration in rate hikes by several non-US central banks, the dollar has weakened since September but remains significantly stronger than a year ago.

Figure 1. Twin Peaks? Headline and Core Inflation
(Percent, year over year)

Sources: Haver Analytics; and IMF staff calculations.

Note: The figure shows the developments in headline and core inflation across 18 advanced economies and 17 emerging market and developing economies. Core inflation is the change in prices for goods and services, but excluding those for food and energy (or the closest available measure). For the euro area (and other European countries for which the data are available), energy, food, alcohol, and tobacco are excluded. The gray bands depict the 10th to 90th percentiles of inflation across economies.

Winter comes to Europe. European economic growth in 2022 was more resilient than expected in the face of the large negative terms-of-trade shock from the war in Ukraine. This resilience—which is visible in consumption and investment data for the third quarter—partly reflects government support of about 1.2 percent of European Union GDP (net budgetary cost) to households and firms hit by the energy crisis, as well as dynamism from economies reopening. Gas prices have declined by more than expected amid higher non-Russian pipeline and liquefied natural gas flows, compression of demand for gas, and a warmer-than-usual winter. However, the boost from reopening appears to be fading. High-frequency indicators for the fourth quarter suggest that the manufacturing and services sectors are contracting. Consumer confidence and business sentiment have worsened. With inflation at about 10 percent or above in several euro area countries and the United Kingdom, household budgets remain stretched. The accelerated pace of rate increases by the Bank of England and the European Central Bank is tightening financial conditions and cooling demand in the housing sector and beyond.

INDIAN OUTLOOK

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022-23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022-2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback. India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's Gross Domestic Production

MARKET SIZE

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of September 21, 2022, India's foreign exchange reserves stood at US\$ 524,520 million.
- The private equity-venture capital (PE-VC) sector investments stood at US\$ 2 billion in September 2022.

ROAD AHEAD

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

The Company is primarily engaged in Manufacture of Electrical Machinery and apparatus.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Statement of Assets and Liabilities of the Company as on August 31, 2022, March 31, 2022, March 31, 2021 and March 31, 2020, and the Restated Statement of Profit and Loss and Restated Statements of Cash Flows for the period ended on August 31, 2022 and for the year ended on March 31, 2022, March 31, 2021 and March 31, 2020 and the annexure thereto (collectively, the “**Restated Financial Statements**” or “**Restated Summary Statements**”) have been extracted by the management from the Audited Financial Statements of the Company for the period ended on August 31, 2022 and for the year ended on March 31, 2022, March 31, 2021 and March 31, 2020.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2014 as per section 133 of the Companies Act, 2013.

2. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles (‘GAAP’) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements, and the reported amount of revenue and expenses during the reporting period. The estimates and assumptions used in the accompanying financial statements are based upon management’s evaluation of the relevant facts and circumstances as of the date of the financial statements which in management’s opinion are prudent and reasonable. Actual results may differ from the estimates used in preparing the accompanying financial statements. Any revision to accounting estimates is recognized prospectively in current and future periods.

3. PROPERTY, PLANT & EQUIPMENT

Property, Plant & Equipment are stated at historical cost less accumulated depreciation and impairment losses. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

4. DEPRECIATION

Depreciation is provided on a written down value basis over the useful lives of assets, which is as stated in Schedule II of the Companies Act 2013 or based on technical estimation made by the Company.

Depreciation and amortization methods, useful lives and residual values are reviewed at each reporting date.

5. BORROWING COSTS

Borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are recognized as an expense in the period in which they are incurred. Capitalization of borrowing costs is suspended during the extended period in which active development is interrupted. Capitalization of borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Other borrowing costs are charged to statement of profit and loss as and when incurred.

6. IMPAIRMENT OF ASSETS

In accordance with AS 28 on 'Impairment of assets' as prescribed in the Companies (Accounting Standards) Rules, 2006, the Company assesses at each balance sheet date, whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the assets and from its disposal at the end of its useful life. An impairment loss is recognized whenever the carrying amount of an asset or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss is recognized in the statement of profit and loss or against revaluation surplus, where applicable. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciated historical cost.

7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

8. INVENTORIES

Raw materials, stores and spares and trading goods are valued at lower of cost and net realizable value.

Work-in-Progress and finished goods are valued at the lower of cost and net realizable value. Cost includes direct materials and labour and a part of manufacturing overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Cost comprises of cost of Purchase & other costs incurred in bringing them to their respective present location and condition and is determined on First-in-First-Out (FIFO) basis.

9. CURRENT/NON CURRENT CLASSIFICATIONS

The Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current. An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the entity's normal operating cycle;

- c) it is due to be settled within twelve months after the balance sheet date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

11. FOREIGN CURRENCY TRANSACTIONS

Initial recognition

Foreign currency transactions are recorded in the reporting currency which is Indian Rupee, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Monetary assets and liabilities in foreign currency, which are outstanding as at the year-end, are translated at the year-end at the closing exchange rate and the resultant exchange differences are recognized in the Statement of Profit and Loss. Non-monetary foreign currency items are carried at cost.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting monetary items of the Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

12. EMPLOYEE BENEFITS

Short Term Employee Benefits

The short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post-Employment Benefits

Defined Contribution Plans

The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is made.

Company's contribution to Provident Fund and other Funds for the year is accounted on accrual basis and charged to the Statement of Profit & Loss for the year.

Defined Benefits Plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The company has recognized the gratuity payable to the employees as defined benefit plans. The liability in respect of these benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

13. SEGMENT ACCOUNTING

(i) Business Segment

The Company operates in one Business Segment only and hence no separate information for business segment wise disclosure is required.

(ii) Geographical Segment

The Company operates in one Geographical Segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

14. ACCOUNTING FOR TAXES ON INCOME

Current Tax

Current tax is determined as the amount of tax payable under the provisions of Income Tax Act, 1961, in respect of taxable income for the year.

Deferred Tax

Deferred income taxes reflect the impact of current year timing difference between taxable income and accounting income for the year and reversal of timing difference of earlier year. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in the future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realized.

15. CONTINGENT LIABILITIES AND PROVISIONS

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

16. EARNINGS PER SHARE:

Basic earnings per share are computed by dividing the net profit for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six working days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three working days.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – issue BRLM will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI payment mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public Offers where the application amount is up to ₹ 500,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- a syndicate member
- a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) (“broker”)

The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹22.00. All Bids at or above this Issue Price and cut-off

The responsibility of granting approval for foreign investment under the Consolidated FDI Policy and FEMA has been entrusted to the concerned ministries / departments.

The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as Department of Industrial Policy and Promotion) (“DPIIT”), issued the FDI Policy, which is effective from October 15, 2020 (the “FDI Policy”), which subsumes and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. FDI in companies engaged in sectors / activities which are not listed in the FDI Policy is permitted up to 100% of the paid-up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions. For details, see “**Key Industry Regulations and Policies**” on page no. 112 of this Draft Red Herring Prospectus.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that: (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations, (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI policy, and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Each Applicant should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Applicant shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.
