Dear Sir/Madam,

Sub: Investor presentation of earnings call with analysts/ investors.

In compliance with Regulation 30 read with Para A of Part A of Schedule III and other applicable provisions of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and further to our announcements dated February 04, 2026, on earnings conference to be held on Tuesday, February 10, 2026, we enclose herewith a copy of the investor presentation.

The intimation is simultaneously uploaded on the Company's website at <https://pyramidtechnoplast.com/disclosures-under-regulation-46-of-sebi-lodr/>

You are requested to take the same on record.

Thanking you,

Yours faithfully,

For Pyramid Technoplast Limited,

Jaiprakash Bijaykumar Agarwal
Wholtime Director & CFO

Company Overview

01

Founded in 1997, Pyramid is a prominent industrial packaging company known for our polymer-based molded products

02

Specialize in rigid Intermediate Bulk Containers (IBCs), Polymer Drums and Mild Steel Drums used by the chemical, agrochemical, specialty chemical, and pharmaceutical industries

03

Operates across 9 manufacturing units with capacities of 33,128 MTPA for Polymer Drums, 600,000 Units of IBC, and 10,800 MTPA for MS Drums. Unit 9 (Recycling plant) commissioned on October 3rd, 2025.

04

Top Customer contributes 6% to revenues and top10 together accounts for 27%, indicating a well-diversified and low dependency client base.

05

Fully automated machines with advanced blow molding technologies are utilized in the manufacturing process

Infrastructure in place; Volume to drive growth..

Volume up 22% on a YoY basis, Utilizations to further ramp Up..

Quarterly Capacity (MTPA)

Volume (MT)

Driving Growth in Premium Segment: IBC Share Surges

*Other Operating Income includes trading, sale of raw material, scrap and accessories connected to our products.

Wada update: Strong operational momentum achieved in Q3FY26

- Production in HDPE and IBC lines are in full swing
- MS Drum Capacity commissioned in Jan'26.
- Overall, the utilization to ramp up to 80% in FY27.

Overall Utilization for WADA plant

HDPE: 72%
IBC: 47%

Drum category	Additional Capacity for FY26 (Annualized)	Update
Polymer Drum	3,780 MTPA	Fully operational in Q2FY26
IBC	1,50,000 Drums	Fully operational in Q2FY26
MS Drum	5,376 MTPA	To start by Dec'25

Commitment to sustainability, cost efficiency, and supply chain resilience – Recycling Plant Update

Date of Commissioning : October 3rd , 2025

Key highlights of the plant:

- Acquisition of ~4,448 sq. m of land in Bharuch
- Investment of ₹8–10 crores, with an attractive payback period of ~2-3 years, underscoring capital efficiency.
- 5,000 MT annual recycling capacity to cater to 10–12% of Pyramid's raw material needs, driving meaningful savings and margin enhancement.
- Lower reliance on imports, ensuring greater supply chain resilience and self-sufficiency in polymer sourcing.

Aligned with India's sustainability agenda, the facility will significantly reduce plastic waste and strengthen Pyramid's ESG credentials.

Green Energy Initiatives to further improve the financial performance –

Solar power plant update

Date of Commissioning : October 30th , 2025

Key highlights of the plant:

- 6 MW of the total planned capacity was commissioned in October'25.
- Further, On 2nd February additional 5 MW commenced in Bharuch and 2.25 MW in Maharashtra. The remaining 1 MW will be added in the next phase in Bharuch.
- Upon commissioning of the entire capacity:
 1. Lower its energy costs by saving over ₹15 Cr. of power cost annually, significantly improving operating leverage.
 2. The total investment in the project stands over ₹60 crore, implying a payback period of nearly four years- a strong demonstration of capital efficiency and disciplined cost management.

Q3 & 9M FY26 Performance

Volume growth ignites, Operating leverage to drive margin expansion next..

Robust Volume Growth Across Segments; With Capex Done, Utilization Set to Soar

Revenue in Q3 grew 5% YoY, backed by strong overall volume growth of 21% — with IBC up 37%, HDPE drums up 16%, and MS drums up 1%. The new Wada plant, currently at 44% utilization, brought overall utilization to 67%, but as it ramps up, topline growth is expected to accelerate further.

Improving Product Mix

YoY Product mix has improved with the ongoing capacity expansion, towards higher-margin segments, IBCs contributing 38% to the revenue and expanding growth observed in other drum categories as well.

Strong Operating Growth; Margins Steady Amid Initial Fixed Cost Build-Up; Recycling & Solar Plant to Drive Next Phase of Efficiency

Gross profit rose 22% YoY, with margins up 400 bps to 27%, driven by strong volume growth. The new recycling plant (commissioned Oct 3) is expected to cut raw material costs by 10–12% annually, supporting further margin gains.

EBITDA (including OI) decreased by 2% on a YoY basis with margins at 7% - highlighting the operating leverage that kicked in, despite the total expenses that increased by 32% because of the commissioning of new plants and temporary employee bonus hit taken this quarter.

PAT down by 29.3% YoY to INR 4.8 Cr in Q3FY26, with margins of 3% and due to higher fixed costs ahead of full utilization.

The 6 MW solar plant, commissioned in late October, will start yielding benefits soon, with full 14.25 MW capacity expected to lower power costs by ₹15 Cr annually.

Q3FY26 Revenue Bridge

All amounts in Rs. Cr

Overall volume growth continues to remain strong in Q3FY26, increasing by 22% YoY . However, fluctuating raw material prices, which are passed on with a lag, are temporarily impacting revenue

Q3FY26 EBITDA Bridge

All amounts in Rs. Cr

The other expenses rose due to expansion activities over the course of year and initial stabilization of newly commissioned plants. With solar power plant already in place, Improvement in EBITDA and margins will be reflected which will further reduce operational and annual power costs by ₹15 crore.

Capex largely done..

- Phase 1 operations commenced with one IBC line, 2 HDPE drum lines, and 30K/month MS drum capacity.
- Commercial production started for IBC and HDPE.
- **Operations commenced in January for MS Drums.**

UNIT 8 **Maharashtra**

(HDPE Drums, IBC & MS Drums)

UNIT 9 **Bharuch**

(Recycling Unit)

- Land adjacent to Unit 6 has been acquired for establishing a plastic and plastic products recycling plant.
- Operations have commenced.

6 MW captive solar plant commissioned in late October. On 2nd February additional 5 MW commenced in Bharuch and 2.25 MW in Maharashtra. The remaining 1 MW will be added in the next phase in Bharuch.

Gujarat **Maharashtra**

(Solar Power plant)

Capex Trend and Outlook

Capex* (Rs. Cr)

*for incremental capacity & operational efficiency

Strategic Priorities

Organic Growth & Green Energy Initiatives

The planned outlay for FY27 stands at ~₹10-20 Cr respectively.

Balance Sheet Strength

To fund capex from internal accruals and cash balance. Marginal increase in debt due to captive solar power plant capex.

Strengthening Portfolio

Greater revenue share of high-margin product like IBC. Increasing automation and capacity in metal drums production. Optimizing production at each site.

Our Journey

Our Key Strengths...

Comprehensive Product portfolio

Offering complete bulk industrial packaging solutions

IBC Containers - Streamlining Logistics and Enhancing Efficiency

- Pyramid Technoplast is a leading manufacturer of rigid Intermediate Bulk Containers (IBCs), specializing in the production of 1000-liter capacity IBCs.
- With a strong focus on organization, mobility, and integration capabilities, our IBC containers offer numerous benefits.
- They significantly enhance logistic and handling timelines, improve efficiencies, and increase capacity by enabling the filling, moving, loading, transit, and dispensing of materials in a single container.
- IBCs provide a reliable and consistent solution for the safe handling and storage of various substances, offering convenience to the customers.

Plastic Barrels - Versatile Solutions For Industrial Packaging

- Pyramid Technoplast is engaged in the manufacturing of all types of plastic barrels, containers, and HDPE drums that are widely used for industrial and commercial applications. Their plastic drums and containers are supplied to chemical, agrochemical, specialty chemical and pharmaceutical companies.
- The Company manufactures drums with capacities ranging from 20 LTR to 250 LTR and even higher according to the clients' specifications
- Key Features of Plastic Barrel: Easy to handle, Tamper proof design, Leak proof, Easy to fill, Easy to transport, Easy to unload.

Full Open Top Drums

MS Drums - Meeting Diverse Packaging Needs

- Pyramid Technoplast serves as a one-stop shop for all your packaging needs, offering a wide range of drum options such as General-Purpose Metal drums, Epoxy Coated/Lacquered drums, Composite drums, Galvanized drums, and Open top drums.
- The Company's IBCs and MS Drums have received UN certification, meeting the safety levels outlined by the United Nations Recommendations and conforming to the quality standards of IS 1783:2014.
- MS Drums are capable of storing and transporting both liquid and solid raw/finished goods of 18 gauge to 20 gauges with storage capacity of 200 L to 210 L.
- With the diverse selection, customers can find the perfect drum solution for their specific requirements, including various shapes, sizes, & dimensions.
