Management Discussion and Analysis:

Current Year Review

During the year under review, the Economic growth declined. This is attributed mainly to weak industrial growth in the context of tight monetary policy, inflation and continued uncertainty in the global economy. The crisis in the Euro-zone countries and slow growth in many advanced economies have also affected growth in India through dynamic linkages. This reflected on the performance of the Textile Industry in the form of sluggish demand, increase in input cost and reduced margins. However, your Company was able to record good growth in its topline along with better than expected profitability.

Future Outlook

The World Economy is expected to perform better, however the recovery is expected to be slow and uncertain. In the Indian context the current data indicate that deceleration in industrial growth may have bottomed out. With improved business sentiments and investor perception and a partial rebound in industrial activity in other developed countries, industrial growth is expected to improve in the year 2013-14. This coupled with the reform measures initiated to improve the investor sentiments in the economy and those to improve the fiscal situation there is a possibility of better than moderate growth in 2013-14. Of course, these projections assuming that monsoon is normal, the rate of inflation declines further and that the anticipated mild recovery of global growth takes place.

As for the Indian Textile Industry, the Union Budget 2013-14, continued with the existing incentives and schemes providing the required support for technology up-gradation, tackling pollution and boosting competitiveness. It is therefore expected that the Textile Industry will perform better during the year 2013-14.

Your Company is fully geared up to take advantage of this situation. With the expected increase in production capacities from the completion of the on going expansion project, its well-known brands, wide distribution network, introduction of new products, innovative marketing and improved operational efficiency, your Company expects to continue on the path of good growth and profitability, in the year 2013-14.

SIGNIFICANT ACCOUNTING POLICIES

A Basis of Accounting :

Financial statements are prepared under the historical cost convention on accrual basis and in accordance with the generally accepted accounting principles in India and the provisions of the Companies Act, 1956.

B Use of Estimates:

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known / materialised.

C Fixed Assets:

i) Tangible Assets :

- a) Fixed Assets are stated at cost net of Cenvat, Government subsidy and VAT wherever applicable and less depreciation. Cost comprises of purchase price and attributable cost (including financing cost).
- b) Expenditure (including financing costs) incurred for fixed assets, the construction/installation/acquisition of which is not completed upto the year end is included under the capital work-in-progress and on such completion the same is related/classified to the respective fixed assets.

ii) Intangible Assets

Intangible Assets (representing Computer Software and Trade Mark) are amortised over a period of three years.

iii) Asset Impairment :

The Company reviews the carrying values of tangible and intangible assets for any possible impairment at each balance sheet date. Impairment loss, if any, is recognised in the year in which impairment takes place.

D Depreciation :

- a) Depreciation on fixed assets (other than leasehold land and except as stated in d) below) is provided for in accordance with Schedule XIV to the Companies Act, 1956 on the straight-line method.

- d) Cost of Furniture and Fixtures and Office Equipments of retail shops operated on lease basis is written off over the period of lease or within Three years whichever is earlier.

E Investments :

Investments are classified into Current and Long term Investments. Current Investments are stated at lower of cost and fair value Long term Investments are stated at cost. A provision for diminution is made to recognise a decline, other than temporary, in the value of Long term Investments.

F Valuation of Inventories :

Inventories are valued at lower of the cost and net realisable value. The cost is arrived at moving weighted average method except for garment division where FIFO method is followed and includes related overhead and excise duty payable on Finished Goods lying in factory premises/bonded warehouses.

G Sales :

Sales are inclusive of excise duty wherever paid. Export Incentive under the Duty Drawback schemes has been recognised on the basis of entitlement and included in Sales.

H Cenvat :

Cenvat benefit is accounted for by reducing the purchase cost of the materials / fixed assets wherever applicable.

I Excise Duty :

Excise Duty wherever recovered is included in Sales. Excise Duty paid on goods cleared and provision made in respect of finished goods lying at factory premises/bonded warehouses is shown separately as an item of manufacturing and other expenses and included in the valuation of finished goods.

J Government grants and subsidies :

- i. Grants and subsidies from the Government are recognised when there is reasonable certainty that the grant/ subsidy will be received and attaching conditions will be complied with.

- ii When the grant or subsidy relates to an expense item, it is recognised as income over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.
- iii Where the grant or subsidy relates to an asset, its value is deducted from the gross value of the asset concerned in arriving at the carrying amount of the related assets.
- iv Government grants is the nature of Project capital subsidy / Promoters' contribution are credited to capital reserve and treated as a part of Shareholders' Funds.

K Foreign Exchange Transaction :

The Current Assets and Current Liabilities related to foreign currency transactions, other than those covered by forward contracts, remaining unsettled at the end of the year are adjusted at the rates prevailing at the year end, except for Pre-Shipment Credits in Foreign Currencies (PCFCs) which have been stated at the amounts received on the date of disbursement, since the PCFCs are liquidated against future export proceeds, at the rate of exchange at which the loans were disbursed.
- ii) Monetary items denominated in foreign currencies at the year end are restated at year end rates. In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference and the premium paid on forward contracts is recognized over the life of the contract. Any income or expense on account of exchange difference either on settlement or on translation is recognised in the statement of profit and loss.

L Employee Benefits

M Research and Development :

Revenue expenditure on research and development is charged to statement of Profit and Loss as incurred, Capital expenditure on assets acquired for research and development is added to fixed assets and depreciated at applicable rates.

N Borrowing Costs :

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to revenue.

O Deferred Tax :

Deferred tax resulting from timing differences between book and tax profits is accounted for at the current rate of tax, to the extent that the timing difference are expected to crystallize.

P Leases :

Lease rentals in respect of assets acquired under operating lease are charged off to the Statement of Profit & Loss as incurred. Lease rentals of assets given under operating lease are credited to the statement of profit and loss as accrued.

Q Provision, Contingent Liabilities and Contingent Assets :

A Provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are determined based on management estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.

R Derivatives :

The Company uses foreign exchange forward contracts to hedge its exposure to movements in foreign exchange rates. The use of these foreign exchange forward contracts reduces the risk or cost to the company and the company does not use the foreign exchange forward contracts for trading or speculation purposes. The company records the gain or loss on effective hedges in the statement of profit and loss of that period.
