[#] In Q3 FY22, Employee benefit expenses includes non-cash charge of ₹ 173.27 mm (Q2 FY22 ₹ 166.73 mm) towards amortised cost of outstanding Employee Stock options

^{\$} The increase in Other expenses is mainly on account of increase in New fund offer expense, Business promotion expense.

1. The Nomination and Remuneration Committee of the Board of Directors of the Company at its meeting held on February 22, 2021 had approved grant of 11,45,000 stock options representing 11,45,000 equity shares of ₹ 5 each, at a grant price of ₹ 2,934.25 per equity share (being the market price as defined in the applicable SEBI Regulations), to its eligible employees under Employees Stock Option Scheme - 2020 ("ESOS - 2020").

Accounting for equity settled share based payment transaction (ESOPs) at fair value increases the non cash component of Employee Benefits Expenses and is reflected in Share Options Outstanding Account under Other Equity. This balance of Share Options Outstanding Account is transferred to Securities Premium as and when the stock options are exercised by the employees and hence this charge is neutral to Equity of the Company.

2. COVID-19 was declared a pandemic in March 2020 and since then it has had a sizable impact on the economies of various countries. While the situation had improved significantly and there had been an all-round recovery in economic activity, a new variant of the virus named Omicron recently emerged which has led to fresh concerns. Since the new variant has a high degree of transmissibility, fresh restrictions have been imposed in varying degrees in different jurisdictions. While the effect on economic activity in India seems limited at this point in time, the situation will have to be monitored till the pandemic is finally put to rest.

While the company's operations have shown resilience, the extent to which the pandemic may impact its future results will depend on ongoing developments. The Company continues to closely monitor material changes in economic conditions, markets and the operating environment.

Further, during the quarter ended December 31, 2021, there has been no material change in the controls or processes followed in the preparation of the financial results.

Operating Profit Margin

Operating margin (bps of AAUM) for Q1 FY 22, Q2 FY 22 and Q3 FY 22 are 35, 36 and 35 respectively
