Electronic and Physical Transaction as % of Total Transactions

 Strong online presence - dedicated separate digital platforms distribution partners and customers

 FY15 to FY20 CAGR of 36% in electronic transactions, and CAGR of 15% in total transactions

 14% of all transaction during FY20 were through HDFC MF Online and mobile application

Our Response

People

Initiated BCP

Maintained Workflow

Maintained Client Servicing

- **Well prior to the government initiated lockdown**, precautions and measures were taken to ensure a **safe** and **hygienic** work environment

- ✓ Banned travel, social gathering and external meetings
- ✓ **Mandatory temperature checks** carried out for all individuals upon entry
- ✓ Provision of sanitization equipment and thorough **sanitization** of office premises including desks, common areas etc.
- ✓ Frequent employee engagement and communication
- ✓ **Rotation of workforce** present at the offices.

- Initial response was to utilize branches as alternate sites, work from home and IT Disaster Recovery site (which are tested on a regular basis)

- At start of Covid-19 Pandemic the AMC's **BCP Plans were fully activated** from the alternate sites, the Virtual Private Network connectivity ensured all **critical functions worked seamlessly** from home and also adhered to all regulatory timelines

Successfully operated from home working with our partners and service delivery providers remotely utilizing our cloud based infrastructure

- ✓ Ensured **99.99%** uptime
- ✓ Launched our What's App service
- ✓ New features to facilitate emerging business needs due to complete shut down
- ✓ **Customer engagement support** to all investors via email. All queries from our branches, sales team and investors were met within the TAT.
- ✓ Communicated with investors on digital options **to transact via email and SMS**
- ✓ **Provided** regular updates and reminders to partners on multiple ways **to transact digitally**

Seamless Transition

"Security by Design" Concept

Resilient IT Infrastructure

Innovative Technological Practices

Electronic transactions have dominated our total transactions and have continued to do so since the start of COVID-19. With a **robust electronic transactions platform**, we are well equipped and prepared since the onset of the pandemic

1. The Company holds certain Non Convertible Debentures (NCDs) that are secured by a pledge of listed equity shares. These NCDs are classified as financial assets at fair value through profit and loss. Hence, any changes in their fair value on the reporting date is reflected as a part of 'Other Income'. In case where a fall in their value results in the aggregate fair value of financial assets measured through profit and loss turning negative, the aggregate amount is shown as 'Other Expenses'.

On fair valuation of the said NCDs as at March 31, 2020, the unrealized loss recognized in the results for the year ended March 31, 2020 stands at ₹1,203.60 mm as compared to ₹251.07 mm for the nine months ended December 31, 2019. As a result of this, the changes in fair value of all financial assets measured through profit and loss for the year ended March 31, 2020, in aggregate amounted to negative ₹33.95 mm which has been shown as a component of Other Expenses. The carrying value of these NCDs as at March 31, 2020 was ₹294.21 mm. The value of the collateral as at March 31, 2020 is ₹358.78 mm.

2. The Company has elected to exercise the option of a lower tax rate provided under Section 115BAA of the Income-tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated September 20, 2019. Accordingly, the Company had recognised provision for income tax for the half year ended September 30, 2019 and re-measured its deferred tax assets basis the rate provided in the said section. The full impact of above mentioned change, amounting to approximately ₹667 mm. had been recognised in the result for the half year ended September 30, 2019, out of which, approximately ₹343 mm. pertains to quarter ended June 30, 2019.

3. Effective April 01, 2019, the Company has adopted 'Ind AS 116 - Leases' and applied it to all lease contracts existing on April 01, 2019 using the modified retrospective method. Consequently, the cumulative adjustment has been taken to retained earnings on the date of initial application i.e. April 01, 2019. Based on the same and as permitted under the specific transitional provisions in the standard, the Company is not required to restate the comparative figures. The effect of this adoption is not material to the profit for the year and earnings per share.

4. In early 2020, the existence of a new coronavirus named SARS-CoV-2 responsible for the disease COVID-19, was confirmed and since then the virus has spread across the globe necessitating the World Health Organization (WHO) to declare it a global pandemic. The pandemic has caused disruption to businesses and economic activity which has been reflected in recent fluctuations in markets across the globe. Various governments have introduced a variety of measures to contain the spread of the virus. The Government of India announced a country wide lockdown which still continues across large swathes of the country with some variations. In this nation-wide lock-down, though most services across the nation have been suspended, some establishments like securities market intermediaries including our Company are exempt from the lock-down and therefore functional. There has been no material change in the controls or processes followed in the closing of these financial statements of the Company.

The Company has assessed the impact of the pandemic on its operations and its assets including the value of its investments and trade receivables as at March 31, 2020. The management does not, at this juncture, believe that the impact on the value of the Company's assets is likely to be material. However, since the revenue of the Company is ultimately dependent on the value of the assets it manages, changes in market conditions and the trend of flows into mutual funds may have an impact on the operations of the Company. Since the situation is rapidly evolving, its effect on the operations of the Company may be different from that estimated as at the date of approval of these financial results. The Company will continue to closely monitor material changes in markets and future economic conditions.
