About Syngene International Limited (Syngene)

Syngene is among the world's leading Contract Research Organisations (CROs), providing integrated discovery and development services for novel molecules across multiple platforms, including small molecules, large molecules, antibody drug conjugates and oligonucleotides.

We bring together state-of-the-art infrastructure and a highly experienced team of scientists to help R&D-focussed organisations achieve better research efficiency and reduce development time. We cater to global pharma companies as well as industry leaders in segments such as biotechnology, nutrition, animal health, consumer goods and specialty chemicals.

Our macro and micro strategies focus on innovation and cost-effective efficiencies to partner our clients in their complex research endeavours. We do this by harnessing the power of science, integrated infrastructure, advanced technology and teamwork.

We have developed significant expertise in managing large integrated collaborations and executing complex projects across multiple sectors.

Our emphasis on scientific innovation, operational efficiencies, quality and safety compliance, ethics and integrity differentiate us as one of the preferred partners for scientific services, attracting new clients as well as deepening our existing client relationships through successive renewals and expansion of contractual arrangements.

We see this as reflecting the high level of science we do for them and the deep impact we make on their business strategies.

Our value-creation model is deeply anchored in our ability to innovate and accomplish industry-next efficiencies to usher in profound and transformative impact in the lives of millions of people.

DRIVING INNOVATION

We are putting our science to work for developing innovative solutions that meet the R&D requirements of global organisations.

By constantly engaging with our clients to better understand their current and future requirements and gearing up our capabilities.

By offering 'one-stop' discovery and development solutions for complex projects that help us deliver value to clients.

By empowering our growing multi-disciplinary scientific talent pool, who bring their experience and expertise to elevate our innovation curve.

By investing in state-of-the-art research and manufacturing infrastructure; we have one of the largest campuses in India, with sophisticated equipment and facilities.

By developing comprehensive capabilities across therapeutic platforms and service models.

DELIVERING EFFICIENCIES

Our capabilities help us deliver efficiencies to global clients in an agile, flexible and cost-effective manner.

By expanding the scale and scope of our business, while at the same time extending our client collaborations.

By strengthening our systems and processes to ensure data confidentiality, data integrity and Internet Protocol (IP) protection.

By enhancing emphasis on quality of delivery and compliance with regulatory requirements at every stage of our operations.

SOLUTIONS THAT DRIVE LASTING IMPACT

Our track record of successful delivery of complex projects, process efficiencies, consistent innovation, turnaround times and enhanced productivity has helped us create significant impact for our clients.

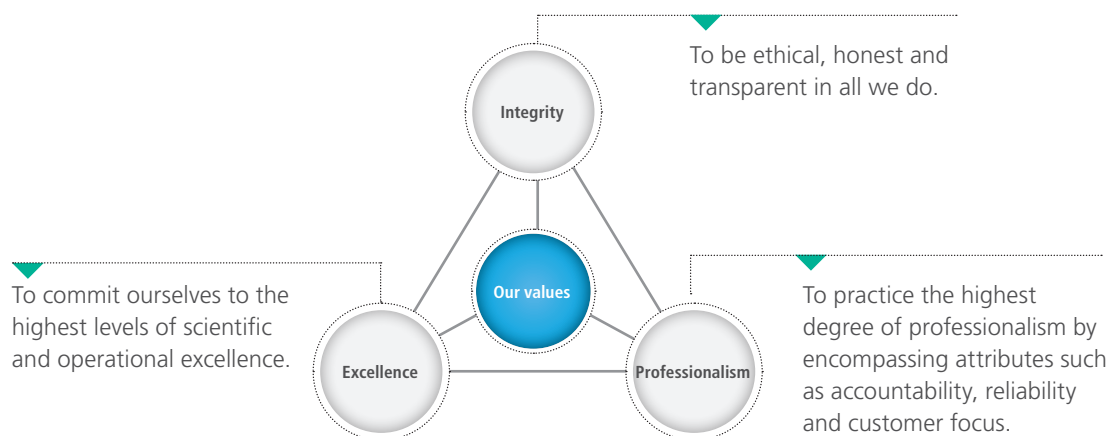

We are one of the world's fastest growing CROs, providing one-stop solutions to the global life sciences and other research-focussed industries. Our integrated capabilities help organisations conduct discovery (from hit to candidate selection), development (including pre-clinical and clinical studies, analytical and bio-analytical evaluation, formulation development and stability studies) and manufacturing (scale-up, pre-clinical and clinical supplies) under one roof with a distinctive economic advantage. We offer an attractive variable cost alternative to the traditionally fixed-cost, in-house, resource-intensive business model of R&D-focussed organisations.

Over the years, we have steadily enhanced our investments to build robust infrastructure and a strong scientific talent pool to remain ahead of the curve.

Our world-class facilities are certified with ISO 9001:2008, ISO 14001:2004, and OHSAS 18001:2007 certifications and have been audited by US Food and Drug Administration (USFDA), European Medicines Agency (EMA), Pharmaceuticals and Medical Devices Agency (PMDA) and major life sciences partners. Moreover, our animal health facilities are Good Laboratory Practice (GLP) certified by the Indian authorities and The Association for Assessment and Accreditation of Laboratory Animal Care International (AAALAC) accredited.

Our Vision and Values

To be a world-class partner delivering innovative scientific solutions.

Our Stakeholder Commitment

Customers

- ▲ To meet their current and future requirements by providing world-class talent, infrastructure and systems
- ▲ To deliver sustained quality and productivity
- ▲ To provide flexible and effective partnership models

Employees

- ▲ To ensure a safe and sociable working environment
- ▲ To offer work opportunities with high-performing teams
- ▲ To develop scientific, managerial and leadership skills and cultivate professional competencies

Society and Environment

- ▲ To safeguard the environment by reducing waste, controlling pollution and creating eco-friendly products
- ▲ To support community health and wellness programmes

Patients, Physicians and Providers

- ▲ To maintain the highest standards of ethics with regard to patient care

MANAGING DIRECTOR'S MESSAGE TO SHAREHOLDERS

Kiran Mazumdar Shaw
Managing Director

Dear Shareholders,

As we endeavour to add value in research and innovation for our partners and customers, we are focusing on executing a strategy of differentiated services by expanding and strengthening our current range of capabilities.

FY18 delivered a strong performance for Syngene driven by an expansion of our client base as well an enhancement of our dedicated centres.

Through a combination of competency and capability building over the years, we have created sustainable value and laid a solid foundation for our long-term growth.

The global contract research industry continues to become ever more dynamic, with clients demanding not only the traditional range of high-quality, cost competitive services but are increasingly looking for more sophisticated, fully integrated research solutions, often delivered through a strategic partnership model. In meeting the needs of this growing and diverse customer group, Syngene continues to move up the R&D value chain, transitioning from providing simple, cost-arbitrage based offerings to complex, fully integrated services that deliver enhanced R&D innovation, with greater efficiency and at an operating cost that ensures real value creation.

Syngene, with its deep scientific capabilities, flexible business models, focus on operating efficiency and strong track record of service excellence, offers much to its clients.

Technology is increasingly playing a disruptive role in redefining the way R&D is conducted. Advancements in data science, automation, and artificial intelligence has made it possible to sift through large volumes of genetic and other multiplexed research and clinical data to figure out how biology works and why diseases happen. The ability to read and edit DNA is improving rapidly. The latest data analytics tools are helping gain better insights and make useful predictions about what new approaches will and won't work, thus enabling faster and better decision making. Syngene's growing capability in this area positions us well to support clients in the longer term.

The rapid pace of innovation within biology is poised to bring further transformational change within healthcare across the world. In this context, it was particularly pleasing to see the strong growth within our Discovery Biology business bolstered with the commissioning of our state of the art, single-use bioreactor biologics manufacturing facility. The combined strength we now have in Discovery Biology and in Biologics Manufacturing augurs well for the future and allows us to offer high end services in one of the fastest growing areas of the industry.

The breadth of Syngene's scientific capabilities stretch beyond the core client industries of pharmaceuticals and biotechnology and are now gaining increasing relevance in other adjacent industry groups like speciality chemicals, food and nutrition, cosmetics as well as agri-tech.

Changing consumer behavior, increased awareness about health and hygiene, rising income and changes in life style

are altering the dynamics of industries as diverse as pharmaceuticals, food and nutrition, cosmetics, consumer goods and animal health. All of these industries are seeing increasing demand for newer products and breakthrough innovation.

To cater to this demand, companies are both increasing their own investments in R&D but also looking to tap into the deep scientific knowledge and experience within CRO's like Syngene to stay ahead of the curve. This trend continues to offer further avenues for growth through outsourcing and collaborating as an external partner to these companies.

All this is bringing about a paradigm change in the contract research space. Providing integrated services across multiple domains, simultaneously driving innovation, efficiency and a superior customer experience is playing a central role in redefining the relationship between a client and their outsourcing partner. When outsourcing complex science, it is evident that effective collaboration, transparent communication and the ability to operate as a trusted partner become key determinants of the success of any collaboration.

Syngene, with its deep scientific capabilities, flexible business models, focus on operating efficiency and strong track record of service excellence, offers much to its clients. We have earned a reputation for our ability to consistently deliver advanced services, accelerate time-to-market for client projects, lower operating costs and help our clients improve the ROI of their R&D investments. Syngene has evolved to become a trusted long

term strategic partner for many of our clients. Our responsiveness, agility and adaptability to change have been central to achieving this position and are the source of our ability to create value to our clients.

FY18 was another good year, for Syngene. During the year our revenues grew by 17%, EBITDA by 10% and PAT increased by 6%. We continued to closely engage with our clients to get a deeper insight into their evolving R&D requirements to ensure we continue to align our strategies to meet their emerging needs. We strengthened our collaborations with existing clients and also added many new leading global players in the life and non-life sciences space to our clientele. We expanded our geographical presence, with the opening of a US subsidiary, to enable us to be ever closer our US based clients.

Through the year we have been fortunate to win various awards and accolades from both national and international certification bodies. These serve as a testament to the high standards with which we operate and reflect the hard work and dedication seen across the thousands of staff at Syngene.

As we move forward into FY19, I would like to express my sincere gratitude to my fellow Directors for their commitment and professionalism in paving Syngene's long-term path. My deep appreciation to all our loyal and valuable shareholders for their continued confidence and support. My thanks to our suppliers and lenders, who continue to be our partners in growth. Lastly, our management team and staff for their valuable and ongoing dedication over the past year in contributing to Syngene's growth.

Thank you,

Kiran Mazumdar Shaw

CEO'S OPERATIONAL REVIEW

Jonathan Hunt
Whole-time Director and Chief Executive Officer

Dear Shareholders,

Driving innovation.
Delivering efficiencies.
These are the two
guiding philosophies
that underpin
everything we do, every
day at Syngene.

As a leading global CRO, we make a significant beneficial impact on our clients' research programs through our integrated drug discovery services, dedicated R&D centers, development and manufacturing services as well as a myriad of other niche service offerings. Our cutting-edge scientific expertise, focus on operational excellence and ongoing commitment to conformance to high quality standards and regulatory compliance, allied to our industry leading operating costs continue to create great value for our clients.

The global R&D landscape, especially within the life sciences industry, is witnessing rapid change and this is throwing up ever more opportunities, borne out of breakthrough scientific innovation as well as technological advancements. The increasing convergence of information technology, with conventional discovery and development processes is opening up new possibilities to further speed up the rate of innovation, reduce the risk of failure and identify within the vast flow of data being created new ways to address disease.

At the same time, while the rate of scientific innovation is booming, many of our clients continue to grapple with the challenges of falling R&D efficiencies, diminishing return on investments, increasing risk and greater complexity in new drug discovery as well as pricing pressure from end users and payors.

Together, these challenges continue to drive change in our clients operating models and lead many of them to look at outsourcing all or part of their R&D activities. In doing so, they are not only seeking to access the lower operating cost model and scale benefits delivered by companies like Syngene but as importantly, they are looking to access innovation, delivered within an environment of high quality, regulatory compliance and integrity.

Syngene, with its range of differentiated service models, excellent track record of compliance and quality, world-class infrastructure and rich talent pool, has successfully accessed many of these opportunities and has emerged as one of the leaders in the global R&D outsourcing market.

As a full service, integrated discovery and development service provider, we are among the few global organisations that cater to the growing R&D requirements of not just the life sciences industry but also of other industries such as nutrition, animal health, cosmetics, consumer good and specialty chemicals.

Over the years, we have made well thought out investments in broadening our service portfolio, widening our scientific expertise and strengthening our delivery capabilities. Together these investments have enhanced our position as a trusted 'one-stop' scientific partner for our clients

FY18 Operational Review

FY18 was an excellent year for Syngene on many fronts.

We added new clients to our growing, diversified list of global clientele, expanded the scope of engagement with many of our existing clients, successfully passed regulatory and client audits, made good progress on our strategic priorities and CAPEX plans and hired some of the very best talent in the industry.

The decision to expand our ongoing collaborations with Bristol-Myers Squibb and Amgen is a testimony to the high-quality science that Syngene delivers and our ability to consistently operate at global standards. It gives our teams of scientists more opportunity to collaborate ever more closely with our clients global R&D teams in providing innovative solutions to develop better products in an efficient manner. We are happy and proud that our dedicated R&D centers have become an important component of our clients global R&D network.

The extension of our collaboration with Merck KGaA will enable us to work on more advanced and complex projects in the areas of protein technology, molecular biology, cell science and antibody drug conjugates.

While we expand our collaborations with existing clients, we are also constantly exploring new client engagement opportunities. One of the most significant highlights of the year was the signing of a strategic, multiyear collaboration with GlaxoSmithKline (GSK). This collaboration will focus on new drug discovery projects using Syngene's discovery services platforms. Discovery research has traditionally been one of Syngene's core strengths and this collaboration in many way underlines Syngene's position as one of the most innovative, capable and cost effective providers of discovery research services.

Our development and manufacturing collaboration with Zoetis, a global leader in animal health, further strengthened our presence in the animal health sector enabling us to use our scientific expertise in developing superior products for the betterment and welfare of the animals. The collaboration entails research and development of monoclonal antibodies and provides for commercial scale manufacturing. During the year we also entered into a multi-year manufacturing agreement with a Japanese specialty

FY18 was an excellent year for Syngene on many fronts. company to manufacture a novel chemical entity for commercial launch in the Japanese market.

As we strengthened our position in the small molecule market, we also took rapid steps forward in the biologics arena as well.

Globally biologics are gaining traction and it is estimated that by 2020 about 1/3rd of the global pharmaceutical industry revenue will be contributed by biologics. During the year, we made good progress in our biologics business, which we see as an important long term strategic growth driver. We commissioned our new Biologics Manufacturing Plant and this has significantly boosted our biologics manufacturing capacity. This state-of-the-art mammalian manufacturing facility is designed to manufacture clinical as well as commercial scale batches for global markets.

During the year we also strengthened our clinical development business by expanding our bio-equivalence study capacity by setting up an additional 76-bed Human Pharmacology Unit (HPU). The HPU facility serves to conduct Phase I and bioequivalence studies in human volunteers and can support early stage as well as translational research studies that help clients make faster clinical development decisions.

The construction activities at our upcoming commercial scale API manufacturing facility in Mangalore commenced and the facility is scheduled to be operational by FY20. This is one of our larger strategic investments and when complete will significantly strengthen Syngene's position in the "drug discovery to manufacture" value chain.

In a significant regulatory achievement, our manufacturing facility in Bangalore received PMDA accreditation. This is a significant achievement as the PMDA is considered by many to be among the most stringent regulatory bodies in the world. This accreditation will help us boost our presence in the Japanese market.

Pursuant to an unannounced audit, the US FDA issued a Form 483 to our BA-BE facility. This is the first time that Syngene has received a Form 483. However, we see this as an operational observation and do not see it as having any adverse impact on our operations or our credibility with clients. We have submitted our response to the regulator and are awaiting their final report.

Any organisation is as strong as its systems and processes and the people who run it. During the year, we implemented various initiatives and activities aimed at improving our

systems and processes and investing the skills and capabilities of our employees.

"Kavach", our corporate safety initiative, focuses on bringing about a cultural and behavioral change among employees to help us make Syngene one of the safest places to work globally.

To improve productivity, reduce turnaround times and maintain better consistency in delivering service excellence, we put in place a fast-paced learning ecosystem to upgrade the skills and capabilities of our employees. We introduced several skill development programs during the year available to people across all levels of the organisation. Our diversity and inclusion initiatives during the year showed increasingly improving results and our investments here reflects our commitment towards empowering women at Syngene. We continued with our investments in further evolving our IT infrastructure to ensure world-class data and IP protection.

During the year we also set up our first international subsidiary, in the USA, bringing us closer to our US and North American clients.

Globally biologics are gaining traction and it is estimated that by 2020 about 1/3rd of the global pharmaceutical industry revenue will be contributed by biologics. During the year, we made good progress in our biologics business, which we see as an important long term strategic growth driver.

Financial Performance

FY18 was a good year for Syngene, not only on the operational front but also for our financial performance. Despite a competitive operating environment, we managed to accelerate revenue growth through the year and reported a strong overall performance for the full year with revenue growth of 17%, taking total revenue from Rs. 12,716 **Mn** in FY17 to Rs. 14,849 **Mn** in FY18. Performance was well balanced across the main business verticals.

EBITDA touched Rs. 5,266 **Mn** in FY18, compared to Rs. 4,783 **Mn** in FY17, recording a 10% growth. PAT increased by 6% to Rs. 3,054 **Mn** in FY18, compared to Rs. 2,873 **Mn** in FY17. Through the year we maintained a healthy profit margin, though it was marginally lower than the previous year. This is largely due to two factors; the decreasing non-operational benefit coming from interest income, as well as strategic investments made in strengthening our business development activities and increased investments in regulatory compliance and safety.

We are sure these investments will further strengthen our fundamentals and will result in better sales performance and in building a stronger organisation for the future.

Outlook FY19

We continue to see good demand for research and discovery services across the world and based on this we expect good growth to continue across our Discovery and Development Services verticals.

We are well positioned to leverage the emerging opportunities in biologics and see its contribution to our growth to increase further.

Our investments in strengthening our safety systems and processes, as well investments in enhancing the skills and capabilities of our employees will help us gain further operational efficiencies and provide better value added services to our clients.

Our success, as in the past, will depend upon our ability to align ourselves with the evolving needs of our clients and to keep pace with emerging technology.

The continuous broadening of our portfolio of services and developing new scientific expertise is particularly critical as clients are increasing their reliance on outsourcing as a way of delivering their R&D priorities.

As we implement our strategic priorities, we will continue to maintain our focus on innovation and efficiency which have been vital to our ability to provide a compelling value proposition for our clients. To this we will add a growing focus on building a differentiated "safety culture", alongside our traditional focus on operating to the highest compliance and regulatory standards.

I would like to thank our employees for their continued focus on and commitment to our strategy, which has enabled us to be a partner of choice for our clients; our clients, for giving us the opportunity to collaborate with them in the true spirit of scientific partnership; and our shareholders, for their conviction and support in us.

CFO'S FINANCIAL REVIEW

M. B. Chinappa
Chief Financial Officer

Pursuing sustainable revenue growth through continued capital investment and focussed returns.

Highlights of the FY18 Performance

FY18 was a good year for Syngene, both operationally and financially. Our growth momentum picked up pace as reflected in our FY18 revenue growth of 17% in INR terms and 20% in USD terms vis-à-vis 14% and 13% in FY17. Net profit grew by 6% to Rs. 3,054 Mn. The Return on Equity (ROE) at 20% is in line with the trend of previous years.

We saw positive growth across all our business verticals: Dedicated R&D Centres, Discovery Services and Development and Manufacturing Services. Our Dedicated R&D Centres particularly had a very good year, with the expansion and extension of our strategic collaborations with Bristol-Myers Squibb and Amgen.

We also signed strategic collaborations with market leaders like GSK and Zoetis. These collaborations further validate our capabilities and ability to provide world-class research, development and manufacturing services in both small and large molecule spaces.

Cost and Margin Overview

At Syngene, we have a disciplined approach towards managing our cost structure to ensure healthy and sustainable margins. Our gross margins, after adjusting for personnel, material and power expenses, decreased by 200 basis point in FY18 but remained around our historical norm of 46%. The employee cost as a percentage of revenue increased to 26% from 24% in FY17, reflecting a net increase in headcount of 650 and a 23% increase in total employee costs. Our material and power expenses as a percentage of our revenue remained at 28%.

Our earnings before interest, tax and depreciation (EBITDA) grew by 10% to Rs. 5,266 Mn from Rs. 4,783 Mn in FY17. However, increased investment in business development, safety and compliance, resulted in a decline in our EBITDA margin by 300 basis point to 35% from 38% in FY17.

Capex

During FY18, we made USD 55 Mn of capital investment to further increase existing capacities as well as strengthen scientific capabilities in line with the client requirement. This is part of our on-going efforts to strengthen our existing services portfolio across multiple platforms and provide innovative solutions.

Our USD 200 Mn multi-year capex expansion plan is progressing as per plan. We committed USD 108 Mn as on March 31st, 2018, which includes USD

75 Mn towards the expansion of our facilities in Bangalore. This includes a research centre, formulation facility and biologics manufacturing plant.

The research centre spans 200,000 sq. ft. and has been set up to deliver a broad range of discovery services to multiple clients besides supporting SARC, the dedicated Syngene Amgen Research Centre. The formulation facility is a 17,000 sq.ft. facility that manufactures range of solid oral dosage forms including tablets, pellets, capsules, granules, powders and NDDS (Novel Drug Delivery Systems) for the global markets. Our new state of the art biologics manufacturing plant has a capacity to accommodate 3x 2000L single-use disposable bioreactors that support the production of both clinical and commercial scale manufacturing batches.

As part of the USD 108 Mn investment commitment during the year, we also earmarked USD 33 Mn for the commercial scale intermediate and API manufacturing facility coming up at Mangalore, Karnataka. In line with our initial plans, we expect this facility to be operational in FY20.

Associated with the increased fixed asset base, our depreciation for the year grew by 15% to Rs. 1,314 Mn from Rs. 1,143 Mn in FY17.

We have also planned an additional investment of USD 100 Mn, spread over the next 3-4 years, to further support our future growth strategies.

Foreign Exchange Management

Nearly 95% of our revenue from operations are denominated in foreign currency, which exposes the Company to the risk of changes in exchange rates. To mitigate such risk, the Company seeks to hedge between 50% and 100% of the expected net foreign exposure for the near term and up to 100% of net foreign exchange exposure for the long-term fixed price contracts. These hedges are obtained through a combination of various derivative instruments such as foreign exchange forward and put option contracts.

During the year, we recorded an exchange gain of Rs. 739 Mn, compared to Rs. 229 Mn in FY17. This results from an average hedged rate of Rs. 68 in comparison to the average billing rate of Rs. 65.

Special Economic Zone (SEZ) Benefits

Syngene operates in a Special Economic Zone (SEZ) and accordingly enjoys favourable tax provisions including full exemption from corporate income tax for the first five years of operations for each new Unit and 50% exemption for the next five years of operations. Our effective tax rate for FY18 stood at 18%, compared to 17% in FY17, as we continued to benefit from these exemptions.

Certain taxation related matters, worth Rs. 2,383 Mn, are pending at different levels of adjudication. These issues are recorded as a contingent liability as on March 31, 2018. Please also refer note 31(i)(a) of Standalone Financials for further details.

Under the Foreign Trade Policy 2015, the incentives applicable on specified export services have been extended to SEZ units. During the year, the Company recorded an export incentive income of Rs. 738 Mn, covering for the period April 2015 till March 2018.

Apart from the above, the Company also enjoys the benefit of importing raw materials and capital goods without payment of import duties.

Shareholder Value

We believe, sustainable business growth needs to be supported by a robust balance sheet. Therefore, we have always focused on maintaining a positive cash flow and adequate resources to support future growth.

As on March 31, 2018, our net cash position stood at Rs. 3,200 Mn and generated a positive operating cash flow of Rs. 4,462 Mn.

The Company has adopted a Dividend Distribution Policy with the objective of rewarding shareholders through a prudent balance between dividend pay-outs and long-term capital appreciation. Considering the Company is in a growth and investment phase,

the Board has recommended a dividend pay-out at Rs.1 per equity share (i.e. 10% of the face value of the equity share) for shareholders' approval in line with the trend over the last few years.

Closing Comments

As we progress into FY19, we will continue to pursue our strategic priorities, focus on our financial commitments and build on our growth momentum. We thank all our stakeholders, both internal and external, for their continued support and confidence in our vision and initiatives.

M. B. Chinappa

We believe, sustainable business growth needs to be supported by a robust balance sheet. Therefore, we have always focused on maintaining a positive cash flow and adequate resources to support future growth.

PERFORMANCE SHOWS OUR POTENTIAL

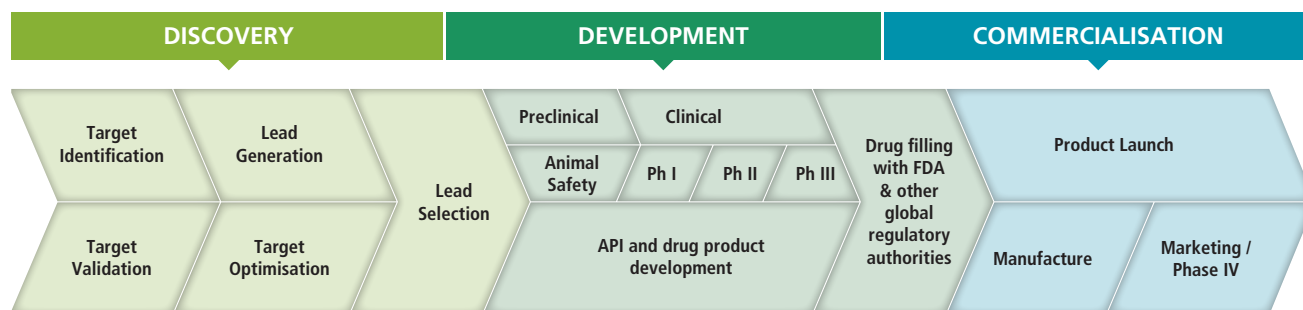

OFFERING A 'ONE-STOP' SOLUTION

Syngene began its journey as a discovery chemistry focussed CRO and gradually expanded its service basket across the entire Discovery- Development- Commercialisation (DDC) value chain.

This expansion of capabilities was done to provide better value to our customers and have more strategic collaborations with them in their R&D journey.

Robust and flexible business model

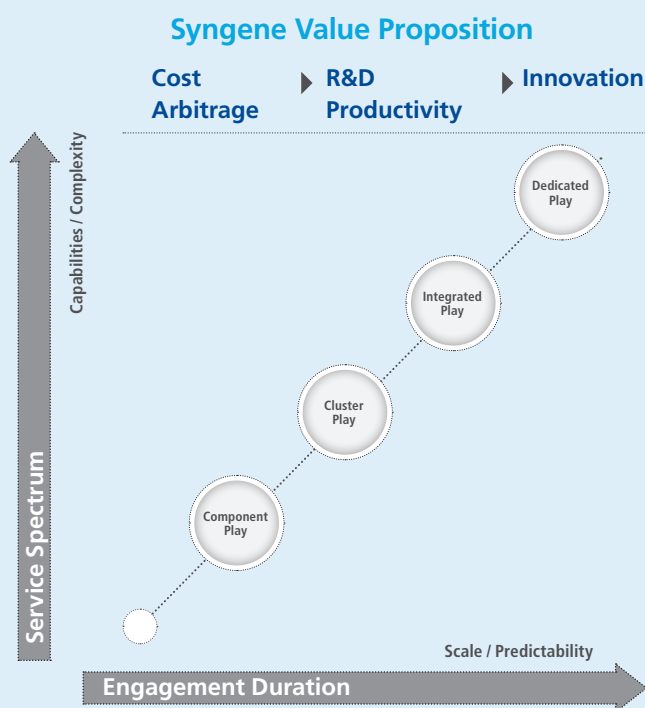

Providing multiple points of engagement

Our flexible business model allows our clients to engage with us at any point across the DDC spectrum. This allows us the flexibility to customise our service offerings to meet specific client requirements.

Syngene's business is broadly divided into three main verticals – Dedicated R&D Centre, Discovery Research Services, and Development and Manufacturing Services.

As an integrated service provider, we offer our clients multiple opportunities to engage with us, ranging from a single service to a cluster of services across multiple scientific disciplines and domains. Single-service engagements (component play) are typically short-term collaborations, focussing primarily on cost arbitrage.

However, multiple service engagements (cluster play) are longer term collaborations and focus not only on cost arbitrage, but also on increasing R&D productivity. With the involvement of multi-disciplinary teams, it provides greater scope for driving innovation as well as improving efficiency. The dedicated R&D centres that we have set up for our clients, reflect the strong value proposition that we can deliver to our clients.

Dedicated R&D Centres

Our unique 'dedicated research centre business model' allows us to offer customised services to suit the requirements of each client. This model entails the setting up of dedicated infrastructure that not only complies with regulatory norms, but also meets the client's internal standards and requirements.

A dedicated team of multi-disciplinary scientists work closely with the client's R&D teams on various discovery and development projects. At present, we have four Dedicated R&D Centres for Bristol-Myers Squibb, Baxter, Amgen and Herbalife.

During FY18, the Dedicated R&D Centre business got a significant boost with the expansion and extension of our ongoing strategic collaborations with Bristol-Myers Squibb and Amgen. Our collaboration with Bristol-Myers Squibb is one of our flagship collaborations that commenced in 1998. BBRC, the dedicated R&D centre for Bristol-Myers Squibb, was set up in 2007 and is today the largest research facility for Bristol-Myers Squibb outside the US. It has contributed to the discovery and pre-clinical development of numerous drug candidates for further study, as well as generated data that has led to multiple patent filings globally.

Syngene and Bristol-Myers Squibb further consolidated this partnership by expanding the scope as well as extending the duration of the collaboration. As part of the expansion, Syngene will set up a new dedicated facility, spanning 25,000 sq ft. of laboratory and office space for Bristol-Myers Squibb. This facility will house an additional team of 75 scientists, who will work exclusively in support of Bristol-Myers Squibb.

Syngene set up Syngene Amgen Research and Development Centre (SARC), the dedicated R&D centre for Amgen, in September 2016, with an initial team of around 100 Syngene scientists. With the expansion in the scope of the collaboration, around 185 Syngene scientists will now work closely with Amgen's global scientific team, on a wider range of discovery and development projects. The size of SARC will also double from the initial 25,000 sq ft. to 50,000 sq ft. with the setting up of additional facilities.

The expansion of these collaborations is a validation of the exceptional quality of science that Syngene delivers to its clients and the strategic contribution it makes in meeting their R&D requirements. It will enable us to collaborate more closely with these clients across a wider range of R&D projects for developing new drugs to ease the suffering of the patient community.

Our collaboration with Abbott Nutrition for the Abbott Nutrition R&D Centre expired during the year. Syngene had set up this dedicated R&D facility for Abbott in 2012. During these five years of collaboration, the Centre had significantly contributed in advancing Abbott's R&D activities in the nutrition space and had helped in developing some highly successful products for them.

Our Dedicated Centre Partners

Biocon Bristol-Myers Squibb Research & Development Centre (BBRC)

- Started in 2007
- Largest R&D Centre in Asia for Bristol-Myers Squibb
- Contract extended till 2026
- Dedicated Centre of research excellence with world-class facilities
- ~500 scientists supporting novel molecule research in small and large molecules
- Produced nine drug candidates for further study and advanced new compounds for first-in-human studies

Baxter Global Research Centre (BGRC)

- Started in 2013
- State-of-the-art facility supporting R&D of medical products and devices worldwide
- Engages a multidisciplinary team of ~150 scientists
- R&D activities centred on product and analytical development, preclinical evaluation in parenteral nutrition and renal therapy

Syngene Amgen Research and Development Centre (SARC)

- Started in 2016
- Exclusive R&D Centre for Amgen Inc. in India
- State-of-the-art dedicated Centre supporting a variety of discovery and development projects for biotechnology and small-molecule medicines
- Engages a multidisciplinary team of 185 scientists
- Focus on medicinal and process chemistry, biologics, bioprocess, drug metabolism, pharmacokinetics, bioanalytical research and pharmaceutical development

Herbalife Nutrition R&D Centre (HNRD)

- Started in 2016
- Herbalife's first Nutrition Research and Development Lab in India
- Dedicated Centre spans 3,000 sq ft. and houses a Current Good Manufacturing Practice (cGMP) formulation lab to support product testing, sampling and end-product development
- Focus on product development, sensory evaluation and testing, scientific content writing, project management, formulation development, analytical service, stability study and other related services

Discovery Services

Discovery research has traditionally been one of Syngene's core forte. Our Discovery Services comprise Discovery Chemistry and Discovery Biology services.

Over the past two decades, Syngene has steadily strengthened its capabilities in the area of Discovery Chemistry to cater to the diverse needs of its clients. Syngene offers purely Synthetic Chemistry support as well as Medicinal Chemistry support. Medicinal Chemistry services can be accessed with emphasis either on Chemistry discipline capabilities (iterative synthesis including library design; computational chemistry) or more comprehensively along with DMPK and Biological support (integrated drug discovery and research).

Apart from the pharmaceuticals industry, Syngene also provides Synthetic Chemistry support in the field of Material Chemistry (by synthesising ultra-pure compounds for Organic Light Emitting Diodes, Photovoltaics, Organic Thin Film Transistors and Printed Electronics), Agro Chemistry, Animal Health, Petrochemicals and Flavour Industries. Our synthetic chemistry expertise also spans into other areas such as Peptides, Carbohydrates and Nucleosides.

We also offer services in Antibody Drug Conjugate (ADC) where we strive to make a difference to the lives of cancer patients by purveying scientific excellence through a cost-effective, one-stop-shop approach in ADC discovery and development.

Syngene offers services in the area of Flow Chemistry. Our flow reactors can handle temperature range from -70 to 250 °C and all type reagents, including organometallic reagents. Optimisation on a small scale is readily translated to scale up as per the requirements.

During FY18, Syngene signed a multi-year strategic research and development agreement with the British drug giant GSK to provide drug discovery services. Syngene will set up a customised discovery research laboratory for GSK, where our scientists will work closely with GSK's global R&D teams in identifying new drug candidates across several therapeutic areas.

Syngene's Discovery Biology services provide innovative solutions in protein sciences, antibody discovery, cell line engineering, in vitro assays, in vivo disease models and DMPK services to support both large and small molecule discovery for the pharma and non-pharma sectors.

Biologics (proteins, antibodies and cell engineering) and DMPK services, considered as key growth drivers, continue to expand and attract business from large pharma clients. In FY18, we have significantly strengthened our capabilities in immuno-oncology, newer antibody discovery platforms, Next Generation Sequencing, CAR-T cell proof-of-principle studies, and

high-throughput bioanalysis using TOF platforms. The team has successfully generated biosimilarity assay-data for multiple clients for Food and Drug Administration (FDA) and European Medicines Agency (EMA) regulatory filings. We have also initiated an integrated drug discovery programme with Theravance Biopharma for immunological disorders and solved the crystal structure of an Antigen-Antibody complex to support Biotherapeutic discovery efforts for a client, the first of its kind for Syngene. Additionally, we have entered into a partnership with Zumutor Biologics to access their proprietary naïve human phage/yeast display library to add to our antibody discovery platforms.

New Horizons in Bioinformatics

Bioinformatics deals with high-end computational management and meticulous analysis of biological information (genes, genomes, proteins and cells, among others). We offer integrated bioinformatics services to biotech and pharmaceutical companies, right across the drug discovery pipeline. Our bioinformatics services span the entire spectrum: from building data packages, pathway databases and knowledge bases, all the way to the analysis of high-throughput data, predictive modelling, mechanistic toxicology and systems biology.

Case Study: Biologics		Case Study: Discovery Biology	
Processes for five antibodies used in cocktail products had to be developed and transferred to manufacturing.	Client Requirement	To establish a methodology and produce a human protein that is a target of their Biotherapeutic drug discovery efforts.	
To develop a single harmonised process of difficult-to-express multiple antibodies for use in product cocktails. The target was to complete development in less than one year as against a typical development timeline range of seven to nine months per antibody.	Key Challenges	Earlier efforts by client to produce this protein had failed and they were procuring this material from an American CRO at a very steep price.	
Syngene's robust process development platform for monoclonal antibodies that has the capability to handle antibodies of variable characteristics was customised. The widest varying antibody attributes were considered in the strategy to develop a single harmonised process.	Syngene's Approach	Syngene scientists designed multiple constructs for this protein using available molecular design tools and performed multi-parameter optimisation in order to improve the production of this protein in significant quantities. Eventually, the Syngene scientists demonstrated structural and functional equivalence of the Syngene-produced protein versus the same protein produced by the American CRO by testing against a panel of antibodies.	
Development was completed within eight months for all the five antibodies and the processes and methods were delivered four months ahead of projected timelines.	Outcome	Cost savings on the order of hundreds of thousands of dollars. This case study also helped build client confidence in Syngene's scientific capabilities and helped grow the collaboration with this client.	

Development and Manufacturing Services

Our development services include preclinical development, formulation development, stability and safety study services, alongside manufacturing services for small molecules and biologics.

Under the Drug Substance Development services, we offer characterisation studies that include the establishment and qualification of scale-down models, followed by the establishment of limits/ranges and technical and quality auditing of established processes. Our Drug Product Development services, include pre-formulation services along with formulation process development and compatibility studies with administration components.

Our allied development services include non-GMP and GMP Stability Studies of Drug Substance and Drug Product, Viral Testing and Clearance services that address the client's need for fulfilling the viral safety for their biologics programmes, and bio-analytical services to characterise proteins.

Over the years, many of our programmes have progressed through

the development phase, where we have gained significant process knowledge and experience by conducting process development and optimisation for these molecules. This has positioned us as a partner of choice to manufacture developmental batches as well as commercial supplies of these molecules.

We have a state-of-the-art cGMP facility to manufacture New Chemical Entities (NCEs) that is designed to support multi-gram to 100 kgs/ batch of intermediates and APIs for clinical trials as well as initial commercial supplies.

During FY18, we entered into a multi-year manufacturing agreement with a Japanese specialty company to manufacture a novel chemical entity for commercial launch in the Japanese market.

Upcoming Manufacturing Facility at Mangalore

To strengthen our commercial manufacturing capacities, we are investing USD 100 Mn in our upcoming commercial-scale manufacturing facility, spanning 40 acres in the Mangalore SEZ. When operational, the plant will support commercial scale manufacturing of APIs and Intermediates and will comply with national and global regulatory guidelines. The construction activities of the facility have commenced and it is scheduled to be commissioned by FY20.

Biologics – A Key Growth Driver

At Syngene, our end-to-end development services in biologics vary from cell line and process development through large-scale production and supply of animal studies, clinical trial and commercial material. The services include support for the development of protein-based products for pharmaceutical and life sciences industries.

Our mammalian and microbial capabilities include intracellular soluble expression, inclusion body expression and secreted proteins. Syngene's manufacturing facilities that include separate suites for microbial and mammalian productions have been audited and accepted by several quality

personnel from top pharma companies and third-party regulatory consultants.

During FY18, Syngene commissioned a modern, disposables-based mammalian manufacturing facility with multiple 2,000L bioreactors and a microbial manufacturing facility. Both the facilities will be used for commercial manufacturing of biologic products for the global markets. FY18 also saw excellent traction in our biologics business on the back of clinical manufacturing contracts, providing a good base for future growth. During the year, we also signed a services, manufacturing and supply contract with Zoetis, the largest global animal health company, that envisages commercial manufacturing in the future.

Case Study: Biologics Manufacturing

Nine batches for seven products at different volumes (for three clients) had to be executed.

The Biologics Manufacturing Plant (BMP1) is a newly commissioned plant with > 70% new personnel and with single-use disposable reactors (first time at this scale at Syngene). The challenge was to execute all batches First-Time-Right and provide material to clients within projected timelines.

Mock batches were run, process scale-up was de-risked through multiple rounds of discussion on potential risks and mitigation and sustained trainings were provided to personnel on equipment and processes. All the nine batches were executed successfully within six months.

Material was supplied to two clients meeting the projected timelines and to one client three months ahead of the projected timelines.

Client Requirement

Key Challenges

Syngene's Approach

Outcome

Case Study: Bioinformatics

Syngene was approached by the client with the proposition of using the Heptox platform to differentiate safe and unsafe compounds. The objective was to understand the mechanism behind liver toxicity.

It is extremely difficult to predict toxicity for this class of compounds. A competitor compound went all the way to the USFDA before it was rejected due to liver toxicity. Other competing platforms had failed to distinguish between safe and unsafe compounds in this chemical class.

The scientists at Syngene tested the compound with a special panel of assays, feeding the data into the Heptox platform. Computer simulations assisted the scientists in studying the impact of the compound on liver biology, enabling them to distinguish between safe and unsafe compounds. They successfully identified two mechanisms that drive toxicity.

One of the compounds under study had a black box warning for Drug-induced Liver Injury (DILI); the other was not approved by USFDA. Syngene's analysis helped the client to understand the reasons behind the toxicity of the compounds. Subsequently, the client now uses the platform to screen its own compounds, before testing it on animals.

OUR QUALITY BENCHMARKS KEEP US AHEAD OF THE CURVE

Integrated drug discovery, development and manufacturing services demand meticulous care in ensuring good documentation practices are adhered to in every phase of the development lifecycle of the molecule.

At Syngene, quality attributes are appropriately applied and the applicable systems, processes and controls are in place to ensure the same. This is inclusive of addressing adherence to the relevant regulatory requirements across the countries that our client is interested in. These quality attributes enable our clients to strategically address the varied regulatory requirements throughout the lifecycle of the molecule. We adhere to various regulatory standards, as we successfully cater to a wide cross-section of clients across the US, Europe and Asia Pacific, including Japan.

Quality Imperatives

There are three core non-negotiable quality objectives we demand of our employees—ensuring patient/consumer safety, data integrity and compliance.

Our quality assurance processes are driven by:

- Regular updates in compliance and regulatory requirements
- Quality standards as defined by the relevant industry we cater to
- Proactive efforts to strengthen the quality systems in line with industry best practices

Our quality assurance team consistently interacts with project teams and shares inputs for projects. We also assess our practices regularly and benchmark them with global practices.

Our Quality Management Systems have been reviewed by various National and International regulatory authorities and accreditation bodies over the past five years, including Drug Controller General of India (DCGI), National GLP Compliance Monitoring Authority (NGCMA) and National Accreditation Board for Testing and Calibration Laboratories (NABL) from India, ANVISA (Brazil), European Medicines Agency (Europe), Medicines and Healthcare products Regulatory Agency (UK), US Food and Drug Administration (USA), College of American Pathologists (USA), Bureau of Laboratory Quality Standards (Thailand) and Pharmaceuticals and Medical Devices Agency (Japan).

Systems-driven quality management

The framework for quality has been established for all business verticals across Syngene. This is based on the regulatory and industry requirements of Quality Management Systems. The framework is monitored, evaluated and updated as and when there are updates in the applicable regulations and best practices in the industry. This has enabled the teams to be compliant to quality requirements and attributes.

Quality systems have been integrated into the end-to-end discovery, development and manufacturing services of the lifecycle of the product. This is inclusive of (but not limited to):

- ▲ Vendor compliance
- ▲ Material systems

- ▲ Facilities and equipment
- ▲ Laboratory controls
- ▲ Packaging and labelling
- ▲ Manufacturing systems
- ▲ Non-clinical and clinical studies

As data integrity is of paramount importance, controls and mechanisms based on regulatory requirements, inclusive of escalation mechanisms, to address the same have been incorporated into the Quality Management Systems. Our teams depend considerably on our robust IT architecture that supports data integrity. Various software solutions such as LIMS, electronic lab notebooks and chromatographic data systems, among others, support us in maintaining transparency and data integrity.

Vendor Compliance

We have a robust vendor qualification programme, which is aligned with our client's expectations.

Laboratory Information Management System (LIMS)

This programme is designed to manage the entire end-to-end processes in a laboratory, such as project creation, study design, sample receipt, sample storage, sample retrieval and sample allocation, among others.

Quality Assurance Certifications

We have the following accreditations:

Current Good Manufacturing

Practices (cGMP): Our manufacturing and testing facilities are GMP certified by the Indian drug regulatory authorities and conform to the USFDA, ICH, EU and PMDA GMP guidelines. Quality Management Systems of medical devices as per ISO 13485 have been implemented for regulatory purposes of the S15 formulation unit. Quality Management Systems as per ISO 9001 have been implemented for contract services in the discovery, development and manufacture of chemical molecules, drug products and biopharmaceuticals.

Good Laboratory Practices (GLP):

Our GLP test facility is certified by the National GLP Compliance Monitoring Authority (NGCMA), India for conducting studies in compliance with the Organisation for Economic Co-operation and Development (OECD) Principles of GLP. Services provided under this umbrella are mutually accepted by the OECD member countries for assessment of chemicals.

Good Clinical Practices (GCP):

The Clinical Development Quality Assurance group comprises Clinical and Analytical Quality Assurance. Clinical BA/BE studies are conducted as per the requirements of ICH, CDSCO, USFDA, ANVISA, WHO and EU. The central lab is certified by the College of American Pathologists (CAP) and is NABL (ISO 15189) accredited.

ROBUST IT ARCHITECTURE FACILITATES INDUSTRY-NEXT OUTCOMES

We are cognisant of the highly confidential and sensitive information and data that we deal with. Therefore, we ensure high levels of data security and compliance across the organisation. Technology plays a key role in helping us achieve security and compliance as well as our innovation and efficiency roadmaps.

Syngene recognises the pervasiveness of technology and makes continuous investments in Information Technology (IT) to gain operational efficiencies and improve customer service. Our IT initiatives during the year helped us realise larger organisational objectives and enable faster decision making, enhanced turnaround time for tasks and reduced documentation and approval times.

We have deployed an organisation-wide SAP Enterprise Resource Planning (ERP) system to integrate various aspects of our operations, including project management, supply chain and invoicing, among others, for smooth and seamless functioning.

Safeguarding Data Threats

Our IT standards and controls help us ensure enterprise-wide security in an ever-changing risk landscape. We engage in enterprise-wide data control and data governance. The investments made towards data security efforts are not only policy and compliance driven, but also holistic and proactive. We also invest in technology and applications based on specific client and varying business case requirements.

For data confidentiality, we have strengthened information security at the end points with Data Loss Prevention (DLP) and Advanced Threat Protection (ATP) systems that ensure safety of data.

Vulnerability Assessment Penetration Testing (VAPT)

VAPT is a process to identify and mitigate any vulnerabilities in Syngene's IT systems and network. This procedure is conducted twice a year with the help of external partners.

Elevating the Efficiency Curve

We are enhancing our efficiencies through the adoption and implementation of the latest IT solutions. We introduced the best-in-class technologies such as electronic lab notebooks, customised client-specific dashboards and virtual team rooms, among others.

During FY18, we completed the assimilation of the following IT tools in the organisation:

Citrix's Thin-Client systems: We deployed Citrix's Thin-Client systems for desktop virtualisation. This enables our people to work from 'anywhere, anytime' in a secured environment. Besides, we also completed data centre virtualisation, which will eliminate downtime, data loss and performance degradation.

LIMS: The Laboratory Information Management System (LIMS) has totally transformed laboratories into modern centres of excellence. Implementation of LIMS has helped us significantly reduce human error and enhance quality compliance and data integrity.

'e-Recruitment Solution and Online Learning Management Systems:

We implemented these digital solutions to enhance our HR technology integrations and boost process efficiency.

Quality Management Systems (QMS) and Document Management Systems (DMS):

We launched the fully compliant and traceable QMS and DMS to eliminate manual intervention, reduce the approval cycle time and enable 'anytime audit readiness'.

21 CFR Part 11: We implemented the DMS to electronically manage the document lifecycle, from creation to final disposition, under USFDA's 21 CFR Part 11 regulation.

General Data Regulation Protection (GDPR):

We initiated the European Union (EU) mandated accountability principles for data protection. GDPR guidelines are considered the gold standard for data protection regulation globally.

Dedicated Centres: We used the assistance of computing, communication and infrastructure to support scope expansion by our Dedicated Centre partners.

CRAFTING AN ENCOURAGING ROADMAP FOR LEARNING AND LEADERSHIP

Our operating environment demands constant learning, engagement and development of specialist scientific skills to deliver solutions in an ever-changing and challenging environment.

By investing in our people, we build careers and a formidable knowledge pool that helps drive innovation and efficiency.

Empowering our Teams

Research breakthroughs need futuristic thinking and innovative approaches to solve complex problems. Therefore, we, at Syngene, focus on building a culture of continuous learning and execution excellence.

We have put in place several initiatives, both at the business unit level as well as at the individual level, to equip our employees with the right skills and competencies to face business challenges. Our targeted training programmes are designed to meet clear objectives of developing technical capability and behavioural competencies to provide a people-driven impetus to growth.

Leadership and Management

We launched our flagship Leadership programme, Leadership and Beyond (LAB), addressing various facets of leadership. This immersive programme with a blended learning approach, spread over six to eight months, covered 350+ Managers across the organisation.

We continue to focus on building technical capabilities through bespoke training programmes and our participation at leading international conferences helped us align with the global best practices.

Engagement

We implemented innovative measures during the year to improve employee engagement at various levels, considering the diverse employee groups. Welfare initiatives, including cafeteria, transport and crèche facilities, have been upgraded. The Employee Assistance Programme (EAP), offering counselling in the areas of health and wellness, parenting, work-life balance, financial planning and behavioural issues, among others, was well received.

Our participation in the Great Place to Work (GPTW) survey saw a 11-point jump in our engagement scores over the previous survey results.

Gender Diversity

The Stree@Syngene initiative is pivotal in driving gender diversity and inclusion in our organisation. Various steps have been implemented with a focus on employee welfare and career development under this programme. During FY18, women constituted 20% of our workforce.

The Company has a strict Prevention of Sexual Harassment Policy (POSH) in accordance with the statutory requirements of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. All such complaints are diligently reviewed and investigated by an Internal Complaints Committee (ICC) constituted under the POSH.

Connect and Communicate

Continuous and open communication channels have been the hallmark of our interventions to effectively manage our employee life-cycle from 'hire-to-retire'. Regular MD, CEO and departmental town halls, along with skip-level meetings, have ensured high levels of engagement.

During the year, we also engaged with our people through various Employee Resource Groups (ERGs).

SUSTAINABILITY IS DEEPLY EMBEDDED IN OUR CORPORATE STRATEGY

Sustainability is a journey that we have undertaken in right earnest. We deliver on client commitments in a manner that respects the communities and the environment in which we operate.

We have adopted best-in-class practices to embed Environment, Health, Safety and Sustainability (EHSS) in our operations. We empower employees through education and training to adopt environment, health and safety policies; practices and procedures, while adding strategic value to businesses. We identify, assess and manage EHSS risks that could impact our business, employees, contractors and the communities around us. We implement an effective audit and verification approach across the Company to track compliance with our EHSS policies, procedures and practices. We continuously interact with our clients to understand the best practices and incorporate them in our operations as applicable.

Environment

At Syngene, our environmental practices are accredited with the ISO 14001: 2015 and OHSAS 18001: 2007 certifications from TUV Nord. We have successfully implemented various measures aimed at optimising, recycling, recovering and reusing resources. The effluent waste generated in our research laboratories and manufacturing facilities is transferred to our tertiary Effluent Treatment Plant and the treated water is recycled for use in utilities and landscaping, in line with prescribed norms. Similarly, other types of waste are treated as per the norms defined by the Pollution Control Board. We have also put in place systems and processes to recover solvents used in the manufacturing process and reuse them in the best possible manner in line with regulatory guidelines. During the FY18, about 70% solvents were recycled and reused.

Sustainability

During the year, we introduced 'Chain of Custody', an upgraded internal manifest for waste disposal, attaching responsibility and accountability. We used a trapping flask to reduce solvent exposure and increased the number of traps where there is higher solvent exposure. Metal beads were used instead of oil for the reaction heating to reduce the waste oil generation. Installation of LED lights in the office area and laboratories to reduce energy consumption, implementation of reverse phase purification to reduce solvent consumption in the research laboratories and gradually shifting from paper-based documentation to electronic documentation were some of the other sustainability initiatives undertaken during the year.

Safety Initiatives

During FY18, we implemented various initiatives to strengthen the overall safety of our operations and provide a secure work environment for our employees. We installed more than 450 fire suppression systems in our fume hoods, installed new static dissipating equipment and introduced anti-static personal protective equipment (PPE) to mitigate possibilities of fire by static charge. We also invested in upgrading our chemicals and solvent warehouses as well as installed online Lower Explosion Level (LEL) detectors in our facilities. We also moved towards following Just-in-Time (JIT) inventory management system to minimise the storage of chemicals and solvents, thereby reducing the associated risks.

Kavach: The Shield of Sustainable Safety

Kavach, a corporate safety initiative, was launched during FY18 to bring about a cultural and behavioural change within Syngene and to establish a world-class safety management system within the organisation. As part of the initiative, over 4,000-man hours of training across 16 modules on safety and compliance was conducted to sensitise employees on the importance of safety and to make them aware about the various safety guidelines and procedures that they need to comply with. Over 1,000 chemists were given special training on handling pyrophoric materials and safety orientation programmes were conducted for all contractors engaged by Syngene. Periodic mock drills were conducted to ensure preparedness in case of any emergency.

1 Personal Protective Equipment (PPE) Exhibition for Occupational Safety, Health and Prevention.

2 Fire Fighting Training to equip people with the necessary skills to manage and extinguish fire in the home or office environment.

3 4 National Safety Week celebration.

COMMUNITY COUNTS WHEN YOU TAKE A LONG VIEW OF THE BUSINESS

We are committed to help transforming our communities and shaping the diverse workforce of tomorrow. We focus on primary healthcare, education, environment sustainability and rural development to create a tangible impact in the lives of millions of people. We believe that engaging and providing thought leadership to public policy issues helps sustain growth for the long-term.

As part of the Biocon Group, all Corporate Social Responsibility (CSR) activities are conducted at a Group level through the Biocon Foundation. The major focus areas of our CSR activities are healthcare, education, environmental sustainability, rural development, promotion of art and culture, gender equality and safety of the vulnerable sections of the society.

Supporting Healthcare

During the year, we have undertaken several primary healthcare programmes such as healthcare camps and initiatives for women and children, health programme for adolescent girls, donation of medicines for communicable and non-communicable diseases and more. We also help by setting up cancer detection camps, generating awareness about family planning and nutrition and providing potable water and sanitation facilities to marginalised communities.

eLAJ Smart Clinic

We contributed to growing eLAJ Smart Clinic models that deliver primary healthcare to marginalised communities that have poor access to quality healthcare. The clinics have laboratories equipped to conduct more than 50 types of tests and transmit the reports seamlessly to physicians. Doctors view vital parameters of patients through live dashboards that also reflect the disease profile.

These smart clinics help reduce the burden on secondary and tertiary healthcare facilities, while

providing quality healthcare. They profile diseases and trigger alerts in case of disease outbreaks, generating reports at multiple levels. During FY18, we helped Biocon add 13 new eLAJ smart clinics.

Empowering Through Education

We believe primary education is a basic human right.

During the year, we distributed over 1,00,000 books in over 1,000 schools in six districts of Karnataka in association with Bangalore Political Action Committee (BPAC, Bengaluru). We also participated in school enrichment programmes, which help students of government schools enhance learning outcomes through activity-based learning.

We contributed towards women empowerment by building and furnishing a women's hostel for the accommodation of women from marginalised communities undergoing vocational training at Haliyal, North Karnataka.

Encouraging Environmental Sustainability

Improving the ecosystem and enhancing biodiversity is an important measure of environmental sustainability. Biocon Foundation has adopted two rain-fed lakes in Bengaluru at Hebbagodi and Yarandahalli, and taken up the responsibility of restoring them. Garbage and weeds were removed from these lakes and a bund road was constructed, along with the installation of street lights and fencing.

Rural Development

By way of providing infrastructure for the socio-economic development of the rural population, Biocon Foundation has constructed school classrooms and a sub-road that connects a rural area to a growing industrial hub. In addition, furniture, fixtures and medical devices were donated to government schools and health centres.

Free books distributed to school children across Karnataka

BOARD PROFILE

Our diverse and experienced Board shapes our overarching strategies and focusses on strengthening our position as a profitable, global business, underpinned by high standards of corporate governance.

Kiran Mazumdar Shaw
Managing Director

Ms. Shaw is a first-generation entrepreneur with over 43 years' of experience in the field of biotechnology. She is a recipient of 'Padma Shri' and the 'Padma Bhushan' Awards. She was also conferred with the highest French distinction – Chevalier de l'Ordre National de la Légion 'Honneur (Knight of the Legion of Honour) in 2016. She is Ranked #1 in Business Captains category in Global 'Medicine Maker Power List' 2018. Ms. Shaw is the only Indian in the Hurun Global Self- Made Women Billionaires List 2017. She is also the Chairperson and Managing Director of Biocon Limited, Independent Director on the Board of Infosys and United Breweries Ltd.

Jonathan Hunt
Whole-time Director and
Chief Executive Officer

Mr. Hunt is an MBA from Durham University with over 25 years of experience in the global biopharmaceuticals industry. At Syngene, he is responsible for leading the Company's business operations and steering its investments in developing and strengthening its capabilities and capacities. He held various leadership positions at Astrazeneca for over a decade, including President and Director of Astrazeneca, Austria, and President and Chief Operating Officer (COO), Astrazeneca, India.

Key highlights of the Company's financial performance during FY18 are as under:

- Revenue increased by 17% (from Rs. 12,716 Mn to Rs. 14,849 Mn)
- Earnings before interest tax depreciation and amortisation (EBITDA) grew by 10% (from Rs. 4,783 Mn to Rs. 5,262 Mn)
- Profit after tax increased by 6% (from Rs. 2,873 Mn to Rs. 3,051 Mn)

A detailed financial performance analysis is provided in the Management Discussion & Analysis Report, which is part of this Annual Report.

OPERATIONAL REVIEW

During FY18, the Company continued to make significant impact on its customers' businesses through its commitment to innovation, operational efficiencies, diligent cost control, strong emphasis on quality and compliance. In line with the Company's vision of becoming a world-class partner to its clients, it ramped its capabilities, expanded capacity, entered new markets and successfully cleared various regulatory audits. Moreover, the Company also added new clients and widened the scope of engagement with existing clients. All this was done with a singular objective of becoming a truly 'one-stop solution' for our partners.

The year saw significant traction in the Company's dedicated R&D Centre vertical. The ongoing collaboration with Bristol Myers-Squibb (BMS) for the BMS Biocon R&D Centre (BBRC) has been extended until 2026. Syngene will also set up a new dedicated facility for BMS spread across 25,000 sq. ft. that will house an additional team of 75 scientists. Syngene and Amgen Inc. also expanded the size and scope of the Syngene Amgen R&D Centre (SARC), the dedicated R&D Centre set up for Amgen. According to the agreement, the size of SARC will double to 50,000 sq. ft. and will house a multi-disciplinary team of up to 185 Syngene scientists. The collaboration with Abbott Nutrition for the Abbott

Nutrition Research & Development (ANRD) centre expired at the end of the calendar year 2017.

The discovery research business got a significant impetus with the signing of a strategic collaboration with GlaxoSmithKline (GSK). The collaboration will focus on accelerating the discovery of new drug candidates using Syngene's discovery services platforms. Syngene will set up a customised discovery research laboratory for GSK to support projects across several therapeutic areas.

Adherence to quality and compliance is one of the cornerstones of Syngene's success. The Company diligently complies with global regulatory requirements and continues to impress regulatory authorities and auditors with the quality of its facilities and its adherence to various GXP requirements. During FY18, Syngene successfully cleared inspection of the Pharmaceutical and Medical Devices Agency (PMDA) inspection, considered one of the most stringent regulatory authorities globally. During FY18, a Form 483 was issued by the US FDA for the small molecule Human Pharmacology Unit (HPU) laboratory. The Company has filed its responses to the regulator and expects the Form 483 to be withdrawn. It also strengthened its presence in the non-pharma sector with the signing of a multi-year development and manufacturing collaboration with Zoetis, a global leader in animal health.

Biologics is one of the most promising sectors and is estimated to contribute close to 30% of the total pharma market revenue globally by 2020. The Company has made strategic investments in strengthening its capacity and capabilities in biologics research and manufacturing to leverage on the emerging business opportunities in this domain. It commissioned a new state-of-the-art biologics manufacturing plant complete with three cutting-edge single-use bioreactors, each with a capacity of 2,000 litres, and is designed for manufacturing clinical as well as commercial batches for global markets.

The construction activities at the upcoming API manufacturing facility at Mangalore has commenced and the facility is scheduled to begin operations by FY20. When commissioned, it will significantly ramp up Syngene's commercial manufacturing capacities. The S2 facility, that was significantly impacted due to the fire in December 2016 has been refurbished and is expected to be operational in the first half of FY19. Once operational, it will further add to Syngene's capacity. The total capacity at the Human Pharmacology Unit ("HPU") in Bangalore currently stands at 190, with the addition of 76 more beds during FY18. This will further strengthen the bioequivalence study capabilities of the Company's clinical development business.

SUBSIDIARY COMPANY/JOINT VENTURE

During FY18, the Company incorporated a wholly-owned subsidiary, Syngene USA Inc., to have a firm foothold in the US market and allow easy access to its clients based in that region.

Pursuant to the first proviso to Section 129(3) of the Companies Act, 2013 ('the Act') and Rules 5 and 8(1) of the Companies (Accounts) Rules, 2014, salient features of the financial statements, performance and financial position of subsidiary is given in Form AOC-1 as Annexure 1 to this Report. The consolidated financial statements presented in this Annual Report include the financial results of the subsidiary.

MATERIAL CHANGES AND COMMITMENTS

No material changes and commitments have occurred after the closure of the financial year till the date of this Report, which may affect the financial position of the Company.

DIVIDEND

The Board recommended a final dividend of Re. 1 (i.e. 10%) per equity share for FY18. The total dividend pay-out will amount to approximately Rs. 242 Mn (including dividend distribution tax). The dividend, if approved at the Annual General Meeting (AGM), will be paid to those members whose name appears in the Company's Register of Members as on the record date of July 18, 2018 and the dividend pay out date is August 1, 2018.

In compliance with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 ("SEBI Listing Regulations"), the Dividend policy of the Company is available on the Company's website at <http://www.syngeneintl.com/investor-relations/corporategovernance>. A copy of the same is annexed to this Report as Annexure 2.

RELATED PARTY CONTRACTS OR ARRANGEMENTS

There were no materially significant related party transactions entered between the Company, Directors, management or their relatives, except for those disclosed in the financial statements.

All the contracts/arrangements/transactions entered by the Company with the related parties during FY18 were in the ordinary course of business and on an arm's length basis.

Accordingly, particulars of contracts or arrangements with related parties referred to in Section 188(1) along with the justification

for entering into such a contract or arrangement in Form AOC-2 does not form a part of the Report.

The Company formulated the policy on 'Materiality of Related Party' transactions and on dealing with 'Related Party Transactions' and the same is available at <http://www.syngeneintl.com/investor-relations/corporate-governance>.

The details of related party disclosures form part of note to the financial statements provided in the Annual Report.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNINGS AND OUTGO

The particulars, as prescribed under Section 134 (3) (m) of the Companies Act, 2013, read with Rule 8(3) of the Companies (Accounts) Rules, 2014, are annexed to this Report as Annexure 3.

TRANSFER OF UNPAID AND UNCLAIMED AMOUNT TO INVESTOR EDUCATION AND PROTECTION FUND

The Ministry of Corporate Affairs under Section 124 and 125 of the Companies Act, 2013 requires dividends that are not encashed/claimed by the shareholders for a period of seven consecutive years, to be transferred to the Investor Education and Protection Fund (IEPF). In FY18, there was no amount due for transfer to IEPF.

CHANGE IN THE NATURE OF BUSINESS

There has been no change in the Company's nature of business. Your Company continues to be one of the largest and fastest growing Contract Research Organisation ("CRO") in the world.

LOANS, GUARANTEES OR INVESTMENTS

Loans, guarantees and investments covered under Section 186 of the Companies Act, 2013 forms part of the notes to the financial statements.

DEPOSITS

During the financial year, the Company did not accept any deposits covered under Chapter V of the Companies Act, 2013.

CREDIT RATING

CRISIL has rated 'CRISIL AA/Positive' on the banking facilities availed by Syngene from various banking/financial institutions. The rating on the short-term facilities were reaffirmed at 'CRISIL A1+'.

PAID-UP CAPITAL

During the financial year, the paid-up share capital stood at Rs. 2,000 Mn.

HUMAN RESOURCES

Your Company considers its people its biggest assets. As on March 31, 2018, it had 4,138 full-time employees, including 3,540 scientists. This diverse talent pool of scientific and non-scientific professionals continues to support its business in achieving

sustainable growth by building the right capabilities. In FY18, your Company was awarded for its Best Talent Management Strategy by the ET Now – World HRD Congress. To attract and retain the best talent, Syngene continues to foster an engaging work environment to attract and retain the best talent. Going forward, the Company intends to continue driving significant growth with its strong intellectual strength and deep knowledge base.

PARTICULARS OF EMPLOYEES

Disclosures pertaining to remuneration and other details as required under Section 197(12) of the Companies Act, 2013 read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 are annexed to this Report as Annexure 4.

Particulars of employees' remuneration, as required under Section 197(12) of the Companies Act, 2013, read with Rule 5(2) and 5(3) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, forms part of this report. Considering the first proviso to Section 136(1) of the Companies Act, 2013, the Annual Report, excluding the said information, was sent to the shareholders of the Company and others entitled thereto. The said information is available for inspection at the registered office of the Company during working hours up to the date of the ensuing AGM. Any shareholder interested in obtaining such information may write to the Company Secretary in this regard.

EMPLOYEE STOCK OPTION PLAN

Syngene's Employee Stock Option Plan ("the Plan") is administered by the Syngene Employee Welfare Trust ("the Trust") under the instructions and supervision of the Nomination and Remuneration Committee (NRC). The Trust overall holds 66,80,000 equity shares of the Company. The NRC, on various occasions, had granted options to various eligible employees of the Company through the trust. The options under each tranche will vest in the ratio of 25%, 35% and 40% at end of second, third and fourth year from the date of each grant, respectively. The exercise period under each tranche is three years from the date of each vesting.

During the financial year, there was no change in the Plan and the Plan is in compliance with SEBI (Share Based Employee Benefits) Regulation, 2014. A total of 1,21,500 options were granted to eligible employees and 14,47,561 equity shares were transferred to eligible employees by the Syngene Employee Welfare Trust on exercise of stock options. DECLARATION BY INDEPENDENT DIRECTORS

The Company has received declarations from all the Company's Independent Directors confirming that they meet with the criteria of independence as prescribed under Section 149 (6) & (7) of the Companies Act, 2013 and SEBI Listing Regulations.

BOARD DIVERSITY

A diverse Board enables efficient functioning through differences in perspectives and skills and fosters differentiated thought processes at the back of varied industrial and management expertise, gender, knowledge and geographical background. The Board recognises the importance of a diverse composition and has adopted a 'Board Diversity Policy', which sets out the approach to diversity. The Board Diversity Policy of the Company is available at <http://www.syngeneintl.com/investor-relations/corporate-governance>.

BOARD EVALUATION

Pursuant to the provisions of the Companies Act, 2013 and SEBI Listing Regulations, the annual performance of the Board, its Committees, Chairperson and Individual Directors including Independent Directors was evaluated as per the criteria laid down by the Nomination and Remuneration Committee. The details of said evaluation has been enumerated in the Corporate Governance Report that forms part of this Annual Report. The outcome of the Board evaluation for FY18 was discussed by the Independent Directors, the Nomination and Remuneration Committee and the Board at their meeting held on January 23, 2018.

NUMBER OF MEETINGS OF THE BOARD

The Board met four (4) times during the year under review. The details of Board meetings and attendance of the Directors is provided in the Corporate Governance Report.

AUDIT AND RISK COMMITTEE

The Audit and Risk Committee has reviewed the accounts for the year ended March 31, 2018. The Board accepted all recommendations made by the Audit and Risk Committee.

The members of the Audit and Risk Committee are Paul Blackburn (Chairman), Russell Walls and Suresh Talwar. The list and composition of the various other Board-level Committees are provided in the Corporate Governance Report.

ADEQUACY OF INTERNAL FINANCIAL CONTROL

The Company had laid down certain guidelines, policies, processes and structures to enable implementation of appropriate internal financial controls across the organisation. These control processes enable and ensure the orderly and efficient conduct of the Company's business, including safeguarding of assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and timely preparation of reliable financial information. There are control processes both in manual and IT applications, including ERP applications, wherein the transactions were approved and recorded. Review and control mechanisms are built in to ensure that such control systems are adequate and operating effectively.

Because of the inherent limitations of internal financial controls, including the possibility of collusion or improper management override of controls, material misstatements in financial reporting due to error or fraud may occur and may not be detected. Also, evaluation of the internal financial controls is subject to the risk that the internal financial control may become inadequate because of changes in conditions or that the compliance with the policies or procedures may deteriorate.

The Company has, in all material respects, an adequate internal financial controls system and such internal financial controls were operating effectively based on the internal control criteria established by the Company considering the essential components of internal control stated in the guidance note on audit of internal control over financial reporting issued by the Institute of Chartered Accountants of India.

RISK MANAGEMENT POLICY

Syngene has in place an enterprise-wide risk management architecture that provides a holistic approach to the best of its capabilities. The Company identifies, assesses and mitigates risks that could materially impact its performance in achieving the stated objectives. The Audit and Risk Committee, on a quarterly basis, reviews critical risks along with its mitigation plans. The Committee also ensures that the Company is taking appropriate measures to achieve prudent balance between risk and reward in both ongoing and new business activities. The Committee, on a regular basis, reviews the Company's portfolio of risks and examines it under the light of the Company's Risk Appetite. The Committee also recommends changes to the risk management technique, associated frameworks, processes and practices of the Company.

DIRECTOR'S RESPONSIBILITY STATEMENT

Based on the framework of internal financial controls established and maintained by the Company, work performed by the internal, statutory and secretarial auditors, reviews performed by the management and the relevant Board Committees, the Board, in concurrence with the Audit and Risk Committee, is of the opinion that the Company's internal financial controls were adequate and effective as on March 31, 2018.

In compliance with Section 134(5) of the Companies Act, 2013, the Board, to the best of their knowledge, hereby confirm the following:

- (a) In the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures.
- (b) The Directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit and loss of the Company for that period.
- (c) The Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities.
- (d) The Directors had prepared the annual accounts on a going concern basis.
- (e) The Directors had laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and operating effectively.
- (f) The Directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively.

The Committee monitors and oversees various CSR initiatives of the Company.

The Company's CSR initiatives are based on the principle of making a long-term impact through programmes that promote social and economic inclusion. The Company is committed to innovation and access to affordable healthcare. In line with this commitment and as a socially responsible organisation, the Company invested in CSR programmes aimed at making a difference to the lives of marginalised communities.

The Company's CSR activities are executed through Biocon Foundation, which develops and implements programmes in the areas of healthcare, education, infrastructure projects, rural development, promotion of art and culture, gender equality and safety of the vulnerable sections of the society.

The Company's CSR policy is available on its website at <http://www.syngeneintl.com/investor-relations/corporate-governance>. A detailed report on CSR activities is annexed to this Report as Annexure 10.

BUSINESS RESPONSIBILITY REPORT

In compliance with Regulation 34(2)(f) of the SEBI Listing Regulations, the Business Responsibility Report ("BRR") forms part of this Annual Report. The BRR contains a detailed report describing the initiatives taken by the Company on business responsibilities vis-à-vis the nine principles of the National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business framed by the Ministry of Corporate Affairs.

WHISTLE BLOWER POLICY/VIGIL MECHANISM

The Company's Whistle Blower Policy allows employees, Directors and other stakeholders to report matters such as genuine grievances, corruption, fraud, misconduct, misappropriation of assets, non-compliance of code of conduct of the Company or any other unethical practices. The Policy provides adequate safeguard against victimisation to the Whistle Blower and enables them to raise concerns to the Integrity Committee and also provides an option of direct access to the Chairperson, Audit and Risk Committee. Syngene has engaged "In Touch India, Ernst & Young" to provide online platform to raise complaints by the whistle blower. During FY18, none of the personnel have been denied access to the Chairman of the Audit and Risk Committee.

The Whistle Blower Policy is available on the Company's website at <http://www.syngeneintl.com/investor-relations/corporate-governance>.

DISCLOSURE UNDER SECTION 22 OF THE SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013

Syngene has a strict Prevention of Sexual Harassment (POSH) Policy in accordance with the statutory requirements of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. The Policy is applicable to all employees, including the Company's contractual employees. The Company is committed to providing a workplace that is free from discrimination, harassment and victimisation, regardless of gender, race, creed, religion, place of origin and sexual orientation of a person employed or engaged with the Company. The Internal Committee (IC) has been constituted to consider and redress all complaints of sexual harassment at workplace. Employee sensitisation programmes on POSH were conducted during the year under review. In FY18, one case was reported and resolved under POSH as on March 31, 2018.

ANNEXURE 2

DIVIDEND DISTRIBUTION POLICY

INTRODUCTION

Syngene, being a listed Company, is obligated to comply with the requirements under Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 ('Listing Regulations') and any amendment thereof.

This Dividend Distribution Policy ("the Policy") is being made and adopted by the Board of Directors of the Company in compliance with the regulation 43A of Listing Regulations & applicable provisions of Companies Act, 2013.

"Dividend" here means the distribution of a portion of the Company's earnings, decided by the Board of Directors of the Company to its Equity Shareholders and also includes Interim Dividend.

OBJECTIVE

The Company has an objective of appropriately rewarding shareholders through dividends and long term capital appreciation. As such, the Company would seek to strike the right balance between the quantum of dividend paid and amount of profits retained in the business for various purposes.

The Board of Directors will refer this policy while declaring/recommending dividend on behalf of the Company. Through this, the Company would endeavour to maintain a consistent approach to dividend pay-out plans.

GUIDELINES

The Board, pursuant to provisions of section 123 of the Companies Act, 2013 and rules made thereunder, may declare interim dividend or recommend final dividend, payable to the existing shareholders of the Company subject to shareholders' approval. The Board may consider the free cash flow position, profit earned during that year, capex requirements, applicable taxes, overall market situation and other things as per company's state of profitability.

The Board as may deem fit, declare the interim dividend one or more times in a financial year in line with this policy. This would be in order to supplement the annual dividend or in exceptional situations.

Whereas, the final dividend is paid once for the financial year after the annual accounts are prepared. The Board of Directors of the Company has the power to recommend the payment of final dividend to the shareholders in an Annual General Meeting.

OTHER PROCEDURES

1. After satisfying the financial position of the Company, the Board shall declare interim dividend or recommend final dividend at its meetings.
2. The Company shall notify in advance to the stock exchange(s) where the securities of the Company are listed

and also after the meeting of its Board of Directors at which the declaration of dividend is to be considered.

3. On declaration of the dividend, the Company shall notify stock exchange(s) for the record date or book closure date as the case may be and determine the shareholders eligible for the dividend.
4. The payment of declared dividend will be processed with the help of Registrar & Share Transfer Agents and the banks.
5. The final dividend needs the approval of shareholders at the Annual General Meeting.
6. In case of unpaid or unclaimed dividend, the Company shall prepare the statement of unclaimed dividend and the same shall be uploaded on Company's website at: www.syngeneintl.com as required under law.
7. According to applicable laws, the unpaid or unclaimed dividend amount shall be transferred to the Investor Education and Protection Fund (IEPF) of the Central Government after the expiry of seven years from the date of transfer to "Unpaid Dividend Account" of the Company.

APPROACH

As the Company is in a growth and investment phase, the Board may consider the investment requirements, long term growth strategies, cash availability, debt commitments and other internal and external factors while determining whether or not to declare dividend or in determining the rate/amount of dividend to be declared for the shareholders.

FINANCIAL PARAMETERS THAT SHALL BE CONSIDERED WHILE DECLARING DIVIDEND

Subject to the provisions of the Companies Act, dividend shall be declared or paid only out of:

- (i) Profit of current financial year;
 - a) After providing for depreciation in accordance with law;
 - b) After transferring to reserves such amount as may be prescribed or as may be otherwise considered appropriate by the Board at its discretion.
- (ii) The profits for any previous financial year(s):
 - a) After providing for depreciation in accordance with law;
 - b) Out of remaining undistributed amount; or
- (iii) Out of (i) & (ii) both

In computing the above, the Board may, at its discretion, subject to provisions of the law, exclude any or all of (i) extraordinary charges (ii) exceptional charges (iii) one off

charges on account of change in laws or rules or accounting policies or accounting standards (iv) provisions or write offs on account of impairment in investments (long term or short term) (v) non-cash charges pertaining to amortization or ESOP or resulting from change in accounting policies or accounting standards.

The Board may, at its discretion, declare a special dividend under certain circumstances such as extraordinary profits from sale of investments, changes in financial structure, such as debt ratio or any other situation.

POLICY AS TO HOW THE RETAINED EARNINGS SHALL BE UTILIZED

The profits earned by the Company can either be retained in business and used for expansion of the business, capital expenditure, working capital, acquisitions, diversifications, buy back of shares, general corporate purposes, including contingencies, etc. or it can be distributed to the shareholders as dividend.

INTERNAL AND EXTERNAL FACTORS THAT SHALL BE CONSIDERED FOR DECLARATION OF DIVIDEND

The Dividend pay-out decision of the Company, whether interim or final dividend shall be based upon external and internal factors as mentioned below-

EXTERNAL FACTORS:

- State of Economy;
- Global Market conditions;
- Business Cycle;
- Industry outlook;
- Capital Markets;
- Government policies;
- Change in laws;
- Statutory Restrictions;
- Tax laws; and
- Any other factors.

INTERNAL FACTORS:

- Profits earned during the year;
- Availability of Cash flow;
- Availability of undistributed profits;

- Earnings stability;
- Present & future capital requirements of the businesses;
- Brand/ Business Acquisitions;
- Expansion or modernization of existing businesses;
- Investments in subsidiaries/associates of the Company;
- Investments into external businesses;
- Debt obligations;
- Future cash flows; and
- Any other factor as deemed fit by the Board.

CIRCUMSTANCES UNDER WHICH THE SHAREHOLDERS MAY OR MAY NOT EXPECT DIVIDEND

The Equity Shareholders of the Company may expect dividend only if the Company is having surplus profits after providing for all expenses, depreciation and other necessary deductions and after complying with all other statutory provisions of the Companies Act, 2013 and other applicable laws. The internal and external factors specified above shall be a crucial factors for taking a dividend declaration decision and determining the dividend distribution amount.

The equity shareholders of the Company may not expect dividend, if the Company does not have surplus funds after providing for all expenses, depreciation, or other necessary deductions and after complying all other statutory provisions of the Companies Act, 2013 and other applicable laws. Also, the equity shareholders of the Company may not expect dividend, if the internal and external factors specified above warrant full retention of the surplus profit.

CLASSES OF SHARES

The Company currently has only one class of shares i.e. equity shares.

DISCLOSURE

This Policy shall be uploaded on the Company's website for public information and the web link of the same shall be provided in the Annual Report of the Company.

AMENDMENTS AND UPDATES

The Key management personnel's (KMPs) or the person authorised by the Board may review this Policy from time to time. Any material changes to this Policy will need prior approval of the Board. In case of any inconsistency between the terms of this Policy, Listing Regulations & Companies Act, the provisions of the Listing Regulations & Companies Act shall prevail.

ANNEXURE 5**SYNGENE INTERNATIONAL LIMITED****Disclosures pursuant to SEBI (Share Based Employee Benefits) Regulations, 2014**

SEBI, vide its notification dated October 28, 2014, had issued the Securities and Exchange Board of India (Share-based Employee Benefits) Regulations, 2014 ('SEBI Regulations') which replaced the SEBI ESOP Guidelines, 1999.

Syngene ESOP Plan:

The Board of Directors has approved the Syngene Employee Stock Option Plan 2011 (the ESOP Plan 2011) and created the Syngene Employee Welfare Trust ("the Trust") for the benefit of the employees and directors of the Company. The ESOP Plan 2011 was approved by the shareholders at an Extra Ordinary General Meeting held on December 14, 2011. The trust subscribed 6,680,000 equity shares (Face Value of Rs. 10 per share) of the Company by using the proceeds from an interest free loan of Rs. 150 million availed from the Company, adjusted for the consolidation of shares and bonus issue. Subsequent to Syngene's listing, the ESOP Plan-2011 was ratified by the shareholders via postal ballot on December 5, 2015. The ESOP Plan 2011 is the only prevailing plan and used by the Board for granting options through trust to eligible employees of the Company. As at March 31, 2018, the Trust holds 3,065,964 (March 31, 2017 - 4,513,525) equity shares of face value: Rs. 10/- each. During the financial year, the Trust has transferred 1,447,561 (March 31, 2017 - 1,405,694) equity shares to the employees who has exercised their stock options.

Grant

Pursuant to the Scheme, the Company has granted options to eligible employees of the Company under ESOP Plan 2011. Each option entitles for one equity share. The options under each tranche will vest in the ratio of 25%, 35% and 40% at the end of second, third and fourth year from the date of each grant respectively. The exercise period under each tranche is three years from the date of each vesting. The vesting conditions include service terms and performance grades of the employees. The options are exercisable at an exercise price of Rs. 22.50 per share (Face Value of Rs. 10 per share).

- The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP and recommend to the Board his / her appointment;
- A person should possess adequate qualification, expertise and experience for the position he / she is considered for appointment. The Committee has discretion to decide whether qualification, expertise and experience possessed by a person is sufficient / satisfactory for the concerned position;
- The Company shall not appoint any person as Whole-time Director who has attained the age of seventy years. Provided that the term of the person holding this position may be extended beyond the age of seventy years with the approval of shareholders by passing a special resolution

based on the explanatory statement annexed to the notice for such motion indicating the justification for extension of appointment beyond seventy years.

Term / Tenure

- **Managing Director/Whole-time Director:** The Company shall appoint or re-appoint any person as its Managing Director or Executive Director for a term not exceeding such term as may be specified under the Act. No re-appointment shall be made earlier than one year before the expiry of term, and which shall be done with the approval of the shareholders of the Company.
- **Independent Director:** An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company and disclosure of such appointment in the Board's report. No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for re-appointment after expiry of three years of ceasing to become an Independent Director. Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.

Evaluation

The Committee shall carry out evaluation of performance of every Director and shall review the performance of KMP and Senior Management Personnel at regular intervals and at least on an annual basis.

Removal

Due to reasons for any disqualification mentioned in the Act or under any other applicable Act, rules and regulations thereunder, the Committee may recommend, to the Board with reasons recorded in writing, removal of a Director or KMP subject to the provisions and compliance of the said Act, rules and regulations.

Retirement

The Director and KMP shall retire as per the applicable provisions of the Act and the prevailing policy of the Company. The Board will have the discretion to retain the Director or KMP in the same position/ remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

SECTION IV

This Section of the Policy covers provisions relating to the Remuneration for the Whole-time Director, KMP, Senior Management Personnel and other employees.

General

- The relationship of remuneration with the performance is clear and meets performance benchmarks;
- The remuneration to the Whole-time Director and KMP will

be determined by the Committee and recommended to the Board for approval. Wherever required, the remuneration / compensation / commission etc. shall be subject to approval of the shareholders of the Company and Central Government;

- The remuneration and commission including increments recommended to be paid to the Whole-time Director shall be in accordance with the percentage / slabs / conditions laid down as per the provisions of the Act. These would be subject to approval of the shareholders of the Company;
- The remuneration including increments payable to KMPs, senior management and any other employees shall involve balance between fixed and variable pay and as per the prevailing policy of the Company.

Remuneration to Whole-time / Executive / Managing Director, KMP and others

- a) **Fixed pay:** The Whole-time Director / Managing Director shall be eligible for a monthly remuneration as may be approved by the Board on the recommendation of the Committee. The breakup of the pay scale and quantum of perquisites including, employer's contribution to P.F, pension scheme, medical expenses, club fees etc. shall be decided and approved by the Board and approved by the shareholders and Central Government, wherever required.
- b) **Minimum Remuneration:** If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Whole-time Director in accordance with the provisions of Schedule V of the Act and if it is not able to comply with such provisions, then with the previous approval of the Central Government.
- c) **Long-term rewards:** These long-term rewards are linked to contribution to the performance of the Company based on relative position of the personnel in the organisation. These rewards could be in the form / nature of stock options and are based on level of employees and their criticality.
- d) **Provisions for excess remuneration:** If any Whole-time Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Act or without the prior sanction of the Central Government, where required, he / she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration to Non- Executive / Independent Director:

- a) **Remuneration / Commission:** The remuneration / commission shall be fixed as per as per the limits mentioned in the Act, subject to approval from the shareholders as applicable.
- b) **Sitting Fees:** The Non- Executive / Independent Director shall receive remuneration by way of fees for attending meetings of Board or Committee thereof. Provided that the amount of such fees shall not exceed such amount as may be prescribed by law from time to time.
- c) **Stock Options:** An Independent Director shall not be entitled to any stock option of the Company.

The remuneration structure for Independent directors per meeting of the Board / Committee effective April 1, 2014 is as follows –

CORPORATE GOVERNANCE REPORT

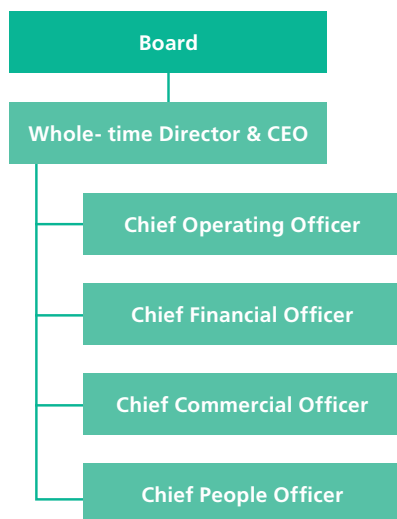

Our Corporate Governance Report reveals the philosophy of the Company and its unceasing dedication to ethical business practices across the organisation. The Report further defines the processes, controls and limits within which the Company functions.

The detailed report on corporate governance for the financial year ended March 31, 2018, as per regulation 34(3), read with Part C of Schedule V of the SEBI (Listing Obligations and Disclosures Requirements) Regulations 2015 ("SEBI Listing Regulations"), is set out below:

We believe that timely reporting, transparent accounting policies and a strong and Independent Board go a long way in preserving shareholders' trust and maximising long-term corporate value. Our stakeholders view our business operations through the ethical prism and a robust corporate governance framework only strengthens their confidence in us.

The corporate governance framework of Syngene is guided by its core values of professionalism, integrity and excellence. The Company is committed to continually evolve and adopt the best corporate governance practices.

GOVERNANCE STRUCTURE

■ Comprises Executive Committee ("EC")

The Board is the apex body constituted by shareholders to oversee the Company's overall functioning. It provides strategic guidance to the management, reviews operations and ensures shareholders' long-term value.

The Whole-time Director & CEO, to whom the Company's affairs are entrusted, functions under the guidance of the Board.

He is supported by the Executive Committee (EC), comprising the Chief Operating Officer, Chief Financial Officer, Chief Commercial Officer and Chief People Officer. The CEO, together with the EC, provides strategic direction leading to a stronger and healthier organisation. They drive company-wide processes, systems and policies and act as role models for leadership development within the organisation. Additionally, they provide cross-functional and cross-business perspectives on organisational issues.

BOARD OF DIRECTORS

Board Composition and Category of Directors

The Company has an appropriate mix of Executive Directors, Non-Executive Directors and Independent Directors to maintain the Board's independence and separate its functioning of governance and management. Currently, the Board comprises of ten members, including three women directors. The detailed profile of our Directors is available on the Company's website at www.syngeneintl.com.

Composition of the Board as on March 31, 2018 is as follows:

Category	Number of Directors	Percentage
Executive Directors	2	20
Non-Executive Directors	2	20
Independent Directors	6	60
Total	10	100

Role of Board of Directors

To ensure effective management, the Board is regularly updated about the Company's operations, strategic opportunities, business development activities, the global business environment, financial matters, internal controls and risk management practices, before taking on record the Company's quarterly/ annual financial results.

The matters required to be placed before the Board, inter alia, include:

- Regular business updates, strategic opportunities and diversification plans of the Company, if any;
- Updates of Corporate Social Responsibility (CSR) activities;
- Related party transactions and significant changes in accounting policies and internal controls;
- Mergers or acquisitions or acquiring a controlling or substantial stake in another company;
- Recruitment and remuneration of Senior Management Personnel just below the level of Board of Directors including appointment or removal of Chief Financial Officer and Company Secretary.
- Annual operating plans, major borrowings, investments and any updates thereof;
- Quarterly and annual consolidated and standalone results for the Company;
- Update of capital structure;
- Update on investor relations;
- Minutes of meetings of the Board and other Board level committees and resolutions passed;
- Materially important show cause, demand, prosecution notices and penalty notices, if any;

- Fatal or serious accidents, dangerous occurrences, material effluent or pollution problems, if any;
- Any material default in financial obligations to and by the Company, or substantial non-payment for goods sold by the Company;
- Issues that involve possible public or product liability claims of substantial nature, including any judgement or order that may have passed strictures on the conduct of the Company or taken an adverse view regarding another enterprise that can have negative implications on the Company, if any;
- Details of any joint venture or collaboration agreement;
- Transactions that involve substantial payment towards goodwill, brand equity or intellectual property;
- Significant labour, employee and Industrial Relations issues;
- Quarterly details of foreign exchange exposures and the steps taken by the management to limit the risks of adverse exchange rate movement, if material; and
- Non-compliance of any regulatory, statutory or listing requirements and shareholders service such as non-payment of dividend, delay in share transfer and so on.

Board Procedure

The Board and its Committees meet at regular intervals to discuss and decide on the Company business policies and strategies apart from statutory and other matters. The Board and Committee meetings are pre-scheduled and a tentative annual calendar of the meetings are circulated to the Directors well in advance to help them plan their schedule and to ensure meaningful participation in the meetings. However, in case of a special and urgent business need, the Board's approval is taken by passing resolutions by circulation, as permitted by law, which is noted and confirmed in the subsequent Board meeting. The

Company Secretary drafts the agenda for each meeting, along with explanatory notes, in consultation with the Chairperson and Management and circulates to the Directors as per timelines. In special and exceptional circumstances, additional or supplementary item(s) are permitted to be taken up as 'any other item' with the permission of the Chairperson and consent of a majority of Board members/Committee members.

The Company Secretary records minutes of each Board and Committee meeting. The draft minutes are circulated to Board/Committee members within 15 days from the meeting for their comments. Directors communicate their comments, if any, in writing on the draft minutes within 7 days from the date of circulation. The minutes are entered in the Minutes Book within 30 days from the conclusion of the meeting and signed by the Chairperson at the subsequent meeting. The certified true copy of the duly signed minutes is also circulated to the Board and Committee members within 15 days of signature.

The guidelines for Board and Committee meetings facilitate an effective post-meeting follow-up, review and reporting process for decisions taken by the Board and Committees thereof. Important decisions taken at Board/Committee meetings are communicated promptly to the concerned departments.

Apart from Board members and the Company Secretary, the Board and Committee meetings are also attended by the EC and, wherever required, the heads of various corporate functions.

None of the other Non-Executive Directors hold any equity shares or non-convertible instruments in the Company.

Independent Directors Meeting

All Independent Directors of the Company meet the definition of "Independent Directors" given by the Companies Act, 2013 and SEBI Listing Regulations. At the time of appointment, and thereafter at the beginning of each financial year, the Independent Directors submit a self-declaration confirming their independence and compliance with various eligibility criteria, among other disclosures. All such declarations are placed before the Board for information and noting.

The Independent Directors are given a formal letter of appointment containing the terms of appointment, roles, duties and code of conduct, among other items, as required by Regulation 46 of the Listing regulations. The draft letter of appointment is available on the Company's website at www.syngeneintl.com.

Companies Act, 2013 and Rules thereunder mandate that the Independent Directors of the Company hold at least one meeting in a year, without the attendance of Non-Independent Directors and members of Management. The Independent Directors, at its meeting held on January 23, 2018, evaluated the performance of the Chairperson, Non-Independent Directors and the Board. Independent Directors also reviewed the quality, quantity and timeliness of flow of information between the management and board of directors.

Details of Familiarisation Programmes Imparted to Independent Directors

Complying with rule 25(7) of SEBI Listing Regulations, familiarisation programmes to empower Independent Directors with the knowledge of Syngene's business and operations were conducted during the financial year. Further, under the 'Director's Education Programme', latest developments affecting the Company and the Contract Research Organisation ("CRO") industry and functions of various business units/verticals were presented to the Directors by the Senior Management team. Further, under the 'Director Induction Programme', newly appointed directors are appraised to the organisation structure, operational overview, financial overview, board matters and procedures, key risk issues and its mitigation strategy, facility tour, among others. The details of such programmes are available at <http://www.syngeneintl.com/investor-relations/corporate-governance>.

Board Evaluation

In compliance with Section 134 of the Companies Act, 2013 and SEBI Listing Regulations, the Board has carried out an annual evaluation of its own performance as well as the working of its Committees as per the criteria laid down by the Nomination and Remuneration Committee, which includes the following:

- The Board: Composition, structure, meetings, functions, management and professional development, among others.

- The Committees: Composition, effectiveness, structure, meetings, independence of the committee, contribution to decision making of the Board, among others.
- Individual Directors (including Chairperson, Independent Directors and Non-Independent directors): Leadership, Commitment, Contribution, Experience, Expertise, Independence, Integrity, Attendance, Responsibility, among others.

A structured questionnaire was used to capture responses online.

A 360-degree feedback-cum-assessment of individual Directors, the Board and its Committees was discussed by Independent Directors and Board at their meeting held on January 23, 2018 and collective action points for improvement were put in place. The Directors acknowledged the effective functioning of the Board and its Committees. They also acknowledged the efforts and contributions made by the Chairperson, Executive, Non-Executive and Independent Directors towards the Company's performance.

BOARD COMMITTEES

The Board has constituted various committees to focus on specific areas and to make informed decisions within their authority. Each committee is governed by its charter, which outlines the scope, roles, responsibilities and powers of the committee. All the decisions and recommendations of the committee are placed before the Board for its approval.

The various Board-level committees are:

- Audit and Risk Committee
- Stakeholders Relationship Committee
- Corporate Social Responsibility Committee
- Nomination and Remuneration Committee

AUDIT AND RISK COMMITTEE

The Board, on October 19, 2011, constituted the Audit and Risk Committee in accordance with Section 177 of the Companies Act, 2013 and SEBI Regulations 2015. Our Audit and Risk Committee comprises three Independent Directors as on March 31, 2018.

- Approving appointment of Chief Financial Officer after assessing the qualifications, experience and background, etc. of the candidate;
- Reviewing the functioning of the whistle-blower/vigil mechanism; and
- Any other matters as specified by law.

The Audit and Risk Committee shall also mandatorily review the following information:

- Management Discussion and Analysis of financial condition and results of operations;
- Statement of significant related party transactions (as defined by the Audit Committee), submitted by management;
- Management letters/letters of internal control weaknesses issued by the statutory auditors;

- Internal audit reports relating to internal control weaknesses; and
- Review of appointment, removal and terms of remuneration of the Chief Internal Auditor
- Statement of deviations, if any.

The Company has in place an enterprise-wide risk management framework. This holistic approach provides the assurance that to the best of its capabilities, the Company identifies, assesses and mitigates risks that could materially impact its performance in achieving the stated objectives. The Audit and Risk Committee, on a quarterly basis, reviews critical risks along with its mitigation plans. The Committee also ensures that the Company is taking appropriate measures to achieve prudent balance between risk and reward in both ongoing and new business activities. The Committee, on a regular basis, reviews the Company's portfolio of risks and considers it against the Company's risk appetite. The Committee also recommends changes to the risk management technique, associated frameworks, processes and practices of the Company.

All the members of the Committee are Independent Directors and possess sound knowledge of accounts, finance, audit and legal matters.

During the financial year, four meetings of the Committee were held i.e. on April 26, 2017; July 26, 2017; October 25, 2017 and January 23, 2018.

The Executive Committee, Statutory Auditors and Internal Auditors attended all meetings of the Audit and Risk Committee. The Company Secretary acts as Secretary to the Committee. The Internal Auditor reports functionally to the Audit and Risk Committee. The Board accepted all recommendations made by the Audit and Risk Committee during the financial year.

Paul Blackburn, Chairman of the Audit and Risk Committee, was present at the AGM of the Company held on July 28, 2017.

STAKEHOLDERS RELATIONSHIP COMMITTEE

The Board, on July 23, 2014, constituted Stakeholders Relationship Committee in accordance with Section 178 (5) of the Companies Act, 2013 and SEBI Listing Regulations. Our Stakeholders Relationship Committee comprises three Independent Directors as on March 31, 2018.

The composition of the Committee and the attendance details of the members are given below:

Name of the Member	Category	Designation	Number of Meetings Held	Number of Meetings Attended
Suresh Talwar	Independent Director	Chairman	4	4
Russell Walls	Independent Director	Member	4	4
Paul Blackburn	Independent Director	Member	4	4

Terms of Reference

The Stakeholders Relationship Committee looks into the redressal of grievances of investors or other security holders relating to transfer of shares, non-receipt of declared dividends, non-receipt of Annual Reports, among others.

During the financial year, four meetings of the Committee were held i.e. on April 26, 2017; July 26, 2017; October 25, 2017 and January 23, 2018.

Suresh Talwar, Chairman of the Stakeholders Relationship Committee, was present at the AGM of the Company held on July 28, 2017.

- To monitor the Company's CSR policy from time to time.

Syngene believes and acknowledges its responsibility towards the environment, its consumers, employees and other stakeholders.

Its CSR initiatives are based on the principle of making an enduring impact on the society through programmes that promote social and economic inclusion.

The Company is committed to innovation, affordability and access to healthcare. In line with this commitment, and as a socially responsible organisation, the Company has invested in CSR programmes aimed at making a difference in the lives of marginalised communities.

The Company's CSR activities are executed through Biocon Foundation that develops and implements healthcare, educational and infrastructure projects; rural development; promotion of art and culture; gender equality and safety of vulnerable sections of society. The CSR policy of the Company is available on our website at <http://www.syngeneintl.com/investor-relations/corporate-governance>.

During the financial year, two meetings of the Committee were held i.e. on April 27, 2017 and October 25, 2017. The CSR Report as required under the Companies Act, 2013 for the year ended March 31, 2018 is annexed as Annexure 10 to the Board's Report.

The Committee also works with the Board on the Leadership Succession Plan and prepares contingency plans for succession in case of any exigencies.

During the financial year, three meetings of the Committee were held i.e. on April 26, 2017; October 25, 2017 and January 23, 2018.

Remuneration Policy

The Remuneration Policy of the Company is broadly based on the following criteria:

- The remuneration structure is reasonable and sufficient to attract, retain and motivate employees at all levels in the Company;

- Relationship of remuneration with the performance is clear and meets performance benchmarks; and
- Remuneration to Directors/Senior Management/Key Managerial Personnel involves balance between fixed pay, variable pay and stock options reflecting short and long-term objectives derived from the Company's goal.

For details, refer Annexure 7 of the Board's Report on policy relating to Director's appointment and remuneration.

REMUNERATION OF DIRECTORS

Pecuniary Relationship or Transactions of the Non-Executive Directors

There were no pecuniary relationships or transactions of the Non-Executive Directors vis-à-vis the Company, which has potential conflict with the interest of the Company at large.

Criteria for Making Payment to Non- Executive Directors

The roles of Non-Executive/Independent Directors are not just restricted to corporate governance or outlook of the Company, but they also bring with them significant professional expertise and rich experience across the wide spectrum of functional areas such as marketing, technology, corporate strategy, human capital, legal, finance and other corporate functions. The Company seeks their expert advice on various matters in science, technology, human resource and legal or intellectual property from time to time. Hence, the compensation to the Non-Executive/Independent Directors are recommended. The Nomination and Remuneration Committee determines and recommends to the Board the compensation payable to Directors.

Compensation/Fees Paid to Non-Executive Directors

Non-Executive Independent Directors of the Company are paid remuneration as detailed below by way of commission, which was approved by the Board and subsequently by the shareholders at an Extraordinary General Meeting held on September 11, 2014. The overall limit is 1% per annum of net profits of the Company calculated as per the provision of Section 198 of the Companies Act, 2013, for remuneration by way of commission payable to the Non-Executive Independent Directors of the Company.

The details of remuneration and sitting fees paid or provided to all the Directors during the financial year ended March 31, 2018 are as under:

The Directors are entitled to reimbursement of all expenses for participation in the Board and Committee meetings. Further, the Non-Executive Directors were paid a consolidated sitting fee of Rs. 1 Lac each quarter for attending the Board and Committee meetings.

Compensation to Executive Directors

Kiran Mazumdar Shaw and Jonathan Hunt are the Company's Executive Directors and all others are Non-Executive Directors. Kiran Mazumdar Shaw does not draw any remuneration from the Company.

The shareholders, at their 24th AGM held on July 28, 2017, had appointed Jonathan Hunt as the Whole-time Director of the Company, not liable to retire by rotation and for a period of five years effective from May 1, 2017. His appointment is on such terms and conditions, including remuneration, subject to the limit of 5% of the net profit of the Company. The remuneration includes annual base pay subject to performance-linked increment, variable pay linked to Company's performance, long-term incentives, including stock options, and perquisites and other allowances as per the Company's policy and approved by the Board.

During the financial year, no stock options were granted to any Executive/Non-Executive Directors of the Company.

Any annual pay, variable pay or incentives payable to Executive Directors is determined keeping in view their performance on various financial and non-financial parameters approved by the Board.

Service Contracts, Notice Period and Severance Fees

As on March 31, 2018, the Board comprised ten members, including two Executive Directors and eight Non-Executive Directors, of which six are Independent Directors. Kiran Mazumdar Shaw, Managing Director, is not an employee of the Company. Hence, there is no separate provision for payment of severance fees to her. Additionally, Jonathan Hunt, being in employment, as per terms of appointment will be eligible for severance fees equivalent to three months' notice. However, other Directors are not subject to any notice period and severance fees.

SECTION E: PRINCIPLE-WISE PERFORMANCE

P. No.	Description	Response
Principle 1 – Ethics, Transparency and Accountability		
1.1	Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/ Contractors/NGOs /Others?	Syngene is committed to observing good corporate governance practices. Its corporate governance framework is an integral element of the organisational culture and covers the Company and its Suppliers/Contractors/Others. It has adopted a policy on Code of Ethics and Business Code, which is applicable to all employees and Directors to guide them to conduct business in an ethical, responsible and transparent manner.
1.2	How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.	The Company's Whistle Blower Policy allows employees, Directors and other stakeholders to report matters such as genuine grievances, corruption, fraud, misconduct, misappropriation of assets, non-compliance of code of conduct of the Company or any other unethical practices. The Policy provides them adequate safeguard against victimisation to the Whistle Blower and enables them to raise concerns to the Integrity Committee and also provides an option of direct access to the Chairperson, Audit and Risk Committee. Syngene has engaged "In Touch India, Ernst & Young" to provide an online platform to raise complaints by the whistle blower. For details pertaining to shareholders complaints, refer the 'Shareholders Complaints' section in the Corporate Governance Report of the Annual Report. For other grievances, refer Principle 3.7 of this Report. The Company did not receive any external stakeholder complaints during the last financial year.
Principle 2 – Product Life Cycle Safety and Sustainability		
2.1	List up to three of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.	Syngene offers a range of integrated services across the drug discovery and development value chain. Due to the integrated nature of the Company's services, it is not possible to define the concerns, risks and opportunities for each service individually. However, it considers EHSS as a top priority in all its processes and is committed to achieving it in the most responsible manner.
2.2	For each such product, provide the following details in respect of resource use (energy, water, raw material, etc.) per unit of product (optional):	The performance indicators are different in each of the Company's business units, most common being the laboratory footprint and equipment occupancy. The Company has set standards to monitor and control the consumption of resource at various stages of its operation. During the year, the electricity consumption has increased owing to the addition of new facilities. Below is the reduction shown based on the internal performance monitoring:
Laboratory Footprint		
(a) Reduction during sourcing/ production/ distribution achieved since the previous year throughout the value chain?	Particulars	FY17
	Electrical Units Consumed	29.83 Units/sq ft.
	Water	Raw Water: 0.019 KL /sq ft. Processed Water: 0.055 KL/sq ft.
	Steam	0.008 Ton /sq ft.
(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?	Particulars	FY18
	Electrical Units/KL of reactor occupancy	33.9 Units/sq ft.
	Water	Raw Water: 0.017 KL /sq ft. Processed Water: 0.048 KL/sq ft.
	Steam	0.014 Ton /sq ft.
Equipment Occupancy		
(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year?	Particulars	FY17
	Electrical Units/KL of reactor occupancy	552 Units /KL of reactor occupancy
2.3	Particulars	FY18
	Electrical Units/KL of reactor occupancy	441 Units /KL of reactor occupancy
We offer services to clients who further take it to customers. Hence, there are no established monitoring mechanism to ascertain reduction in energy and water usage by consumers.		
2.3	Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.	Syngene has set in place a comprehensive sourcing procedure. Various procurement and commercial related policies define the parameters based on which vendors are evaluated and selected for supplying various materials. Periodic vendor audits are also conducted to ensure compliance with the Company's sourcing policies. During FY18, 78% of the procurement was from domestic vendors.

P. No.	Description	Response
2.4	Has the Company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve the capacity and capability of local and small vendors?	As part of the Company's community development philosophy, it supports functions such as catering, employee transportation services, housekeeping, landscaping and others. These functions are outsourced to local vendors in the vicinity of its operations with an objective of developing them as well as supporting economic growth.
2.5	Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10% and >10%). Also, provide details thereof, in about 50 words or so.	Syngene is accredited with ISO 14001: 2015 and OHSAS 18001: 2007 certification from TUV Nord. It has successfully implemented various measures aimed at optimising, recycling, recovering and reusing resources and is working towards achieving 'Zero Liquid Discharge' at the site. The waste generated in its research laboratories and manufacturing facilities is transferred to its tertiary effluent treatment plant and the treated water is recycled for use in utilities and landscaping as per prescribed norms. The Company has also put in place systems and processes to actively recover solvents used in the manufacturing process and reuse them in the best possible manner in line with regulatory guidelines. During the financial year, about 70% solvents were recycled and reused.

Principle 3 – Employee Well-being

The employee initiatives at Syngene are driven by the philosophy of 'Hire-Train-Retain'. A company's workforce is its valuable asset and employee morale, engagement and productivity often form a glue that holds the business together. Innovation in HR practices is central to institutionalising collaborative work environment, driving transformational leadership and developing value-based culture.

Principle 4 – Stakeholder Engagement																	
4.1	Has the Company mapped its internal and external stakeholders? Yes/No.	The Company has identified its stakeholders, both internal as well as external, who directly or indirectly influence its business. Key stakeholders include employees, contract workers, clients, consultants, investors and shareholders, vendors, suppliers and distributors, Government and regulators and local communities.															
4.2	Out of the above, has the Company identified the disadvantaged, vulnerable and marginalised stakeholders?	Yes, the Company has identified the disadvantaged, vulnerable and marginalised stakeholders and through Biocon Foundation, it undertakes various initiatives for the benefit of these communities. For more details, please visit http://www.bioconfoundation.org/ .															
4.3	Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalised stakeholders? If so, provide details thereof, in about 50 words or so.	Social responsibility is integral to Syngene's corporate spirit. The Company engages with the disadvantaged, vulnerable and marginalised stakeholders through various programmes at the national and state levels. Primary healthcare, potable water, education programmes, sanitation, women's empowerment programmes, environmental sustainability and rural development programmes were undertaken during FY18. The Company also undertakes projects under Schedule VII of the Companies Act, 2013. All CSR activities for FY18 were executed through Biocon Foundation. Please refer the 'Corporate Social Responsibility' section of the Director's Report of Annual Report 2017-18 for more information.															
Principle 5 – Human Rights of Stakeholders																	
5.1	Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/Suppliers /Contractors /NGOs/ others?	The policy covers the Company including its subsidiary.															
5.2	How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?	None															
Principle 6 – Environmental Protection																	
6.1	Does the policy related to Principle 6 cover only the Company or extends to the Group/Joint Ventures /Suppliers / Contractors /NGOs/ others?	Syngene supports environmental protection through its EHSS policy. The policy is applicable to the Company, its subsidiary and its employees. The policy and principles are also communicated to all its stakeholders.															
6.2	Does the Company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc.? Yes/No. If yes, please provide the hyperlink for the webpage, etc.	<p>Syngene, as a responsible R&D partner, believes in practicing the highest standards of EHSS by complying with all applicable local laws and regulations. The detailed EHSS policy can be accessed at www.syngeneintl.com.</p> <p>As a responsible corporate entity, the Company is committed towards managing climate change and global warming. With the help of latest technologies and a well-paved EHSS policy, it strives to combat climate change and global warming through energy and water conservation and by reducing, reusing and recycling waste.</p>															

P. No.	Description	Response
		<p>Key initiatives towards addressing environmental issues during FY18 include:</p> <ol style="list-style-type: none"> The Company sent 16 tonnes of waste for composting. An upgraded internal manifest for waste disposal attaching responsibility and accountability was introduced. More high-pressure water jet pumps were installed to reduce water usage. Syngene implemented reusable lids (reduction of waste). It adopted trapping flask to reduce exposure to solvent. Improvised SOP for handling pyrophoric chemicals was introduced and training programmes in this direction were conducted towards reducing fire hazards. LED lights were used in the office areas and laboratories wherever feasible to reduce power consumption and improve energy conservation. Alternate chemicals were used in place of highly hazardous chemicals, replacing resources for better environment. Metal beads were used instead of oil for reaction heating to reduce waste oil generation. Chemical sweep programme was undertaken for cold rooms to minimise waste and fire risk. Reverse phase purification was implemented to reduce solvent consumption at R&D. The Company successfully moved many of its operations to paperless electronic documentation with the aim of becoming a 'paper less' organisation in future. It continues to pursue the philosophy of 'Zero Liquid Discharge' (reusing treated effluent for gardening and utilities).
6.3	Does the Company identify and assess potential environmental risks? Yes/No.	Yes. Syngene carries out an extensive and exhaustive risk assessment procedure before commencing a project. Either with the assistance of an in-house or an external team, it conducts detailed risk assessment regarding facility, infrastructure, equipment and raw materials to identify hazards associated with the processes. Once identified, these can be eliminated or mitigated using appropriate measures. The Company also puts administrative control in place through extensive documentation and checklists listing hazards and timelines for mitigation, attaching a responsible person for the same. In addition to risk assessment, all risks associated with the environment have been checked through Aspect Impact Analysis.
6.4	Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if yes, whether any environmental compliance report is filed?	Nil
6.5	Has the Company undertaken any other initiatives on clean technology, energy efficiency, renewable energy, and others? Yes/No. If yes, please provide the hyperlink for the web page, etc.	Yes, visit our website at http://www.syngeneintl.com/about-syngene/environment-health-and-safety .
6.6	Are the emissions/waste generated by the Company within the permissible limits given by CPCB/SPCB for the financial year being reported?	Syngene's emissions/waste generated by its laboratories and plants are within the permissible limits given by CPCB/SPCB for the financial year being reported. The waste generated at our research centres are disposed/treated as per regulatory norms and guidelines.
6.7	Number of show cause/ legal notices received from CPCB/SPCB that are pending (i.e. not resolved to satisfaction) as on end of FY18.	None
Principle 7 – Responsible Policy Advocacy		
7.1	Is your Company a member of any trade and chamber or association? If yes, name only those major ones that your business deals with.	Syngene is committed to contributing in the development of the CRO industry by partnering with regulatory authorities and industry associations in framing appropriate policies and guidelines. It is a member of the Association of Biotechnology Led Enterprises (ABLE) and Basic Chemicals, Cosmetics and Dyes Export Promotion Council (Chemexcil).

P. No.	Description	Response
7.2	Has the Company advocated/lobbied through the above associations for the advancement or improvement of public goods? Yes/No. If yes, specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy Security, Water, Food Security, Sustainable Business Principles, Others)	Syngene works closely with multiple national and international industry and trade associations. Through active participation across these platforms, it tries to advance its views on new standards or regulatory developments pertaining to the Contract Research industry. The Company also uses its industry domain knowledge and experience to make sound policy decisions to drive change in public policies that are beneficial to the industry.
Principle 8 – Inclusive Growth and Equitable Development		
8.1	Does the Company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes, please provide details thereof.	Syngene goes beyond the business case for CSR and adopts a more proactive moral case for action. The Company works primarily through Biocon Foundation, towards supporting projects in primary healthcare, education, environmental sustainability and rural development. Most of the programmes undertaken during the year were at the national and state levels. For more details, please refer Annexure 10 of Board's Report, page 73.
8.2	Are the programmes/projects undertaken through in-house team/ own foundation/external NGO/ Government structures/any other organisation?	Syngene's CSR initiatives are executed through Biocon Foundation, a registered body under the Indian Trust Act.
8.3	Has the Company conducted any impact assessment of its initiative?	For impact assessment, please visit http://www.bioconfoundation.org/ .
8.4	What is the Company's direct contribution to community development projects – amount in INR and the details of the projects undertaken?	During the financial year 2018, Syngene contributed Rs. 52.39 Mn towards its CSR initiatives. For more details, please refer Annexure 10 of Board's Report, page 73.
8.5	Has the Company taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words or so.	Yes. The steps taken to ensure that the programmes are successfully adopted by the community can be illustrated with a few examples: <ul style="list-style-type: none"> • Children from class I to VII of Thithimati Govt. School, Coorg, who participated in a school enrichment programme in the areas of communication, life skills, arts and crafts, digital literacy and games are responding well to the programme. • The only park that serves the population of Hebbagodi has been completely levelled and fenced. Paths and gardens have been properly laid and children play equipment were installed. • Cancer screening in low resource settings and quality care and referral has encouraged more individuals to participate in the screening process. During FY18, population-based screening was undertaken in the remote rural areas of Karnataka, Rajasthan and Nagaland.
Principle 9 – Customer Value Creation		
9.1	What percentage of customer complaints/consumer cases are pending as on the end of FY18?	A customer complaints redressal system has been set up to effectively document and address any customer complaint in an efficient and timely manner. During the financial year, 10 customer complaints were received, out of which 4 (40%) were pending as on March 31, 2018.
9.2	Does the Company display product information on the product label, over and above what is mandated as per local laws? Yes /No /NA/Remarks (additional information).	NA
9.3	Is there any case filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on the end of the financial year. If so, provide details thereof, in about 50 words or so.	None
9.4	Did the Company carry out any consumer survey/ consumer satisfaction trends?	Syngene provides scientific solutions to a global customer base of over 300 companies across various industry segments, including pharmaceuticals, biotechnology, nutrition, animal health, agro chemicals, consumer products and others. It regularly interacts with its customers to get their feedback on services and deliverables.

MANAGEMENT DISCUSSION AND ANALYSIS

CHANGING R&D ENVIRONMENT

According to a World Economic Outlook Report published by the International Monetary Fund (IMF) in January 2018, the global economy is expected to grow by 3.9% in 2018, compared to 3.7% in 2017. Increasingly, greater focus on R&D-driven innovation is seen as a key driver for delivering economic growth. Empirical studies have shown that increasing Gross Domestic Expenditure on R&D (GERD) as a percentage of GDP is an indicator of the competitiveness of a country's economy and growth.

Global R&D investments are expected to increase by 4.14% in 2018 to USD 2.19 trillion on a Purchasing Power Parity (PPP) basis, compared to 3.4% growth in 2017. The life sciences industry continues to be one of the major investors in R&D and is expected to account for more than USD 180 Bn¹ in 2018, growing at about 4% per year. Life sciences R&D involves the development of pharmaceuticals, biotech products, agricultural products, medical devices and animal testing and research.

THE R&D CHALLENGE

As economic growth trends improve, the increased focus on investment in R&D is expected to continue across both the life sciences and non-life sciences sectors. At the same time, these sectors face ongoing challenges in improving the Return on Investment (ROI) of investments in R&D, often brought about through a combination of pricing pressure, the need to invest in new capabilities to keep pace with advances in technology and heightened regulatory scrutiny that have increased the duration, cost and complexity of conducting research into new products.

In order to overcome these challenges while delivering on the potential of innovation companies are increasingly seeking to partner their R&D activities to integrated Contract Research Organisations (CROs).

CRO INDUSTRY

Integrated CROs provide services across the discovery, development and manufacturing stages of the lifecycle of a new life science product. These same services and capabilities can also support scientifically focussed non-life sciences industries and help them to not only reduce costs but also increase their scope for innovation. Increasingly, in addition to traditional project delivery related activities, clients are engaging CROs to provide value added services, data-driven insights and to help them navigate the changing drug development landscape to deliver the next generation of medicines.

This move to more complex, added value services is changing the client-CRO relationship from being primarily a service provider to becoming a strategic partner.

The global CRO market value for drug discovery and development stood at USD 32 Bn in 2017 and is expected to reach USD 45 Bn² by 2022.

As the cost and complexities of developing new therapies continue to rise, companies will increasingly look to collaborate with integrated CROs like Syngene that have the scale, technology and expertise to drive efficiency into the discovery research and development process.

SYNGENE'S PERFORMANCE REVIEW

Operational Performance

Syngene's business is broadly categorised into three main business verticals: Dedicated R&D Centres, Discovery Services and Development and Manufacturing Services.

Dedicated R&D Centres: During FY18, Syngene's Dedicated R&D Centres continued to gain excellent traction with the expansion and extension of our collaborations with Bristol-Myers Squibb (BMS) and Amgen Inc. The distinctive feature of this vertical is its ability to offer complex services, at scale, that are tailor-made to the client's specific requirements and then to integrate that capability into the clients own R&D processes, systems and culture to make it an integral part of their own R&D network.

As part of our strategic collaboration with Amgen, the scientific team at the Syngene Amgen Research and Development Centre (SARC) was strengthened by increasing the headcount from 100 to 185 scientists. Additionally, the supporting infrastructure was doubled from 25,000 sq. ft. to 50,000 sq. ft. A similar facility and headcount expansion was undertaken to support our collaboration with BMS and the collaboration contract was extended to 2026. Together, the expansion and extension of these ongoing collaborations with BMS and Amgen are indicative of their growing confidence in Syngene's value proposition and the strong track record of delivery the Syngene teams have had in partnership with their client colleagues.

Discovery Services: Syngene's Discovery Services vertical received a positive boost with the signing of a strategic collaboration with GlaxoSmithKline (GSK). The partnership will focus on accelerating the discovery of new drug candidates using Syngene's discovery services platforms. Syngene will set up a customised discovery research laboratory for GSK where its scientists will work closely with GSK's global R&D teams in identifying new drug candidates across several therapeutic areas. During the year we also strengthened our capabilities in the areas of immuno-oncology, new antibody discovery platforms, Next Generation Sequencing, CAR-T cell proof-of-principle studies and successfully generated bio similarity assay-data for multiple clients to support their regulatory filings.

Development and Manufacturing Services: During FY18, Syngene's Development and Manufacturing group registered good growth on the back of a strong performance in the Chemical Development segment. Syngene's Current Good Manufacturing Practices (cGMP) manufacturing facilities help clients move up the value chain by taking projects in their final stages of development towards commercialisation. Construction activities at the upcoming API manufacturing facility at Mangalore commenced during the year and the facility is scheduled to be completed and become operational in FY20.

HUMAN RESOURCES

Syngene focusses on collaborative learning and engagement for its employees as a key component of delivering its corporate strategy. Through a range of HR-led initiatives we offer diverse opportunities to our staff to hone their scientific and leadership skills through customised training programs as well as by the opportunity to interact and work with high-performing teams from various global client organisations. Syngene supports a culture of meritocracy as a way to build a competent and engaged workforce, which we see as key to the growth of both employees and also our business.

During the year we continued to hire, retain and develop a multi-talented and diverse workforce to support the delivery of our strategic priorities. In FY18, we added a further 650 employees, taking total headcount to 4,144 for the year. Of this, 3,540 were scientists across multiple disciplines. The retention rate among campus hires rose to 86%, while the overall attrition rate continued to decrease to 16%, which is below the industry average.

Talent management and personal development is seen as a critical component of Syngene's success. Consequently, the Company continues to step up investment in identifying and recruiting top talent and implementing a range of initiatives aimed to further develop the scientific, leadership and service delivery skills of employees. During FY18, total training hours stood at 33,753, an 85% increase over FY17.

Periodic behavioural and technical training was provided to help individuals and teams stay up to date with the latest developments in their domains. The Company also provided specialist training to high-potential individuals to prepare them to take on bigger roles within the organisation as well as to ensure that they move along a path of structured advancement. LAB or Leadership and Beyond, a customised training program, was launched during the year to support the development of leadership skills within the organisation. More than 350 Managers participated in this program during the year.

The positive work atmosphere at Syngene is built on a solid foundation of 'respect for all'. During the year we made good progress on our gender diversity activities. 'Stree@Syngene', our diversity and inclusion initiative, works towards creating a work environment that gives equal opportunities to all employees, with a particular focus on improving gender diversity and also help all employees to strike a balance between their professional aspirations and personal lives. Over the last four years, the proportion of female employees in Syngene's total work force has increased from 16% in FY15 to 20% in FY18.

The Company has implemented a robust framework of policies and procedures aimed at protecting the interests and well-being of all employees and preventing discrimination. Mandatory training programmes on Prevention of Sexual Harassment (POSH), Information Security and Safety Awareness were conducted during the year to sensitise employees on these issues and create a cohesive workplace. Through 'Kavach', our corporate safety initiative, a wide range of activities were undertaken to bring about a cultural change in the organisation's mind-set towards workplace safety and to further improve our safety systems and processes. Over 4000-manhours of training on safety and compliance was conducted during the year, in particular, specialist training on the handling of pyrophoric materials was given to over 1000 chemists.

FINANCIAL PERFORMANCE

During FY18, revenues grew by 17% to Rs. 14,849 Mn compared to Rs. 12,716 Mn in the previous financial year. This growth was driven by robust performances across all business verticals and was complemented by treasury gains. FY18 revenue includes an export incentive scheme benefit of Rs. 470 Mn from the previous years realised during the current year.

Earnings Before Interest Taxes Depreciation and Amortisation (EBITDA) grew by 10% to Rs. 5,266 Mn from Rs. 4,780 Mn in FY17. Net profit grew by 6% to Rs. 3,054 Mn vis-à-vis Rs. 2873 Mn during FY17. The net cash position as on March 31, 2018 was Rs. 3,200 Mn. Syngene continues to benefit from the tax

incentives applicable to Special Economic Zones (SEZs) and the effective tax rate for the year was 18%.

Non-current Assets

During FY18, non-current assets grew by 17% primarily due to:

- investments in tangible assets for the Syngene Research Centre, Biologics Manufacturing Plant, the upcoming Mangalore API facility and expansion of facilities across the three main business verticals;
- increase in fair value of premiums paid on forex contracts maturing beyond 12 months and interest rate swap contracts;
- increase in Minimum Alternate Tax (MAT) credit entitlement and income tax deposited under dispute.

Working Capital

Working capital increased from Rs. 9,238 Mn in FY17 to Rs. 9,366 Mn in FY18.

The increase was due to:

- growing cash reserves invested in fixed deposits;
- realisation of Rs. 615 Mn from insurance company towards loss incurred due to the fire incident in 2016;
- increased inventories, receivables and payables reflecting business growth.

Shareholders' Funds

The equity share capital of the Company comprises 200,000,000 equity shares of Rs. 10 each.

Reserves and Surplus

The total reserves and surplus of the Company increased by 22% in FY18 vis-à-vis FY17. The increase was due to the accumulation of profits earned during FY18 and an increase in Other Comprehensive Income arising out of Mark-to-Market (MTM) gains on designated forex and interest rate swap contracts outstanding as on March 31, 2018.

Non-current Liabilities

Non-current liabilities mainly include:

- Long-term borrowings in the form of External Commercial Borrowing (ECB) facility of USD 100 Mn and Buyer's Credit facility of USD 6 Mn availed for capital expenditure at the Bangalore and Mangalore campuses of the Company. Of these, USD 18.5 Mn will fall due for repayment in the next 12 months;
- Deferred revenues relating to assets funded by third parties that are to be amortised over the useful life of the assets or the period of contract to Other Operating Income.

Statement of Profit and Loss

The following table details key components of the Statement of Profit and Loss for the fiscals ended March 31, 2018 (FY18) and March 31, 2017 (FY17):

(Rs. in Mn)			
Particulars	FY 18	FY 17	Change
Total Revenue	14,849	12,716	17%
Expenses			
Cost of chemicals, reagents and consumables consumed	3,817	3,218	19%

Total Expenses	11,124	9,251	20%
Profit before tax	3,725	3,465	8%
Tax expenses	671	592	13%
Profit for the year	3,054	2,873	6%

Operating Revenue

During FY18, consolidated revenue grew by 17% to Rs. 14,849 Mn compared to last year's revenues of Rs. 12,716 Mn. The growth was driven by a strong business momentum in all three verticals complemented by the key achievements of the year.

Cost of Materials Consumed

The material cost consists of raw materials consumed and change in stock. In FY18, material costs as a percentage of the Company's overall revenue from operations increased by 40 bps, reflecting a change in the composition of its revenues among the key verticals.

Employee Benefit Expenses

The Employee Benefit Expenses comprise the following items:

- Salaries, wages and bonus
- Contributions to Provident Fund and other funds
- Contributions towards Gratuity provisions
- Amortisation of employee stock compensation expense
- Welfare expenses

The above expenses increased by 23% during FY18, driven largely by increased employee headcount and annual salary increments to employees.

Foreign Exchange Fluctuation

Forex fluctuation includes gains arising from Syngene's hedging policy, yielding an average realisation rate of Rs. 68.5/USD in comparison with the average spot rate of Rs. 65/USD.

Other Expenses

Other expenses primarily include power and fuel costs, professional fees, selling expenses such as freight outwards, provision for doubtful debts and other general overheads. Overall cost grew by 46% in FY18 compared to FY17. The increase in expenses was driven by the expansion of facilities, increased expenditure on safety and write-off of one of the assets associated with the non-renewal of customer contract.

Depreciation and Amortisation

During this fiscal, the depreciation and amortisation increased to Rs. 1,314 Mn from Rs. 1,143 Mn in FY17. This increase is due to the commissioning of new facilities during the year.

Finance Costs

The finance cost increased to Rs. 227 Mn in FY18 from Rs. 175 Mn in FY17 due to the growing cost of funds and finance lease charges.

Tax Expenses

EPS (diluted) for the year grew by 6.05% to Rs. 15.43 in FY18 as against Rs. 14.55 in the previous year.

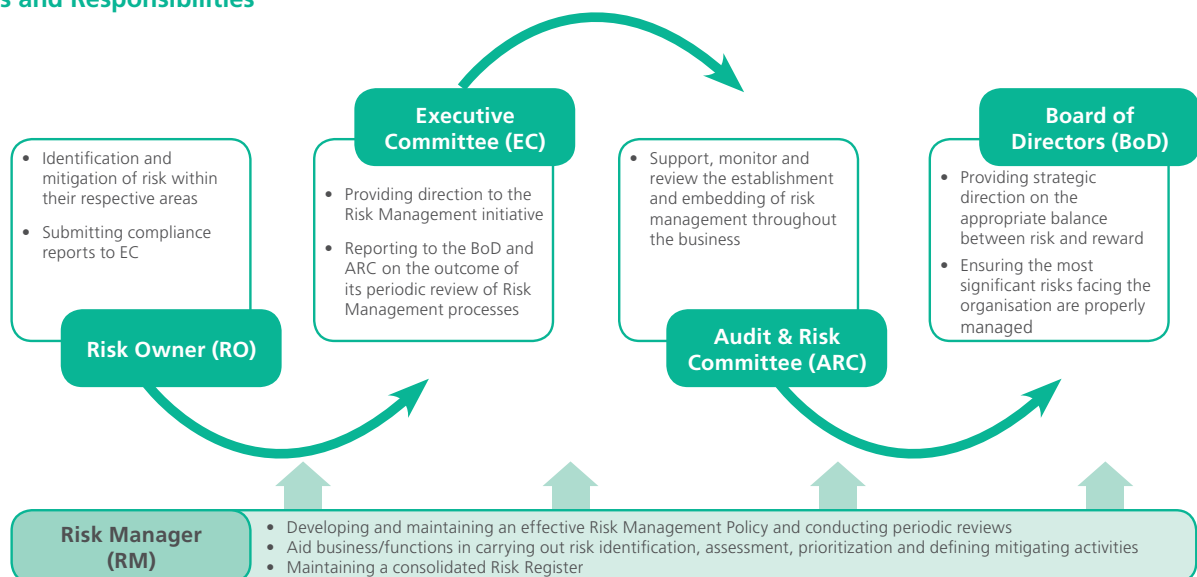

Earnings Per Share (EPS)

EPS (diluted) for the year grew by 6.05% to Rs. 15.43 in FY18 as against Rs. 14.55 in the previous year.

Risks and Concerns

Syngene acknowledges that risk is integral to business and is committed to proactively managing it in an effective manner. The Company's risk management objective is to maintain an effective and sustainable balance between risk and return and ensure that it operates within the Board-approved risk framework. The Company's Board regularly assesses critical risks across the business as well as the overall risk exposure and reviews and maintains oversight of the Company's risk management architecture.

Roles and Responsibilities

Syngene has an established risk management architecture embedded within the business to support the identification and effective management of risks across all its areas of business. Each business unit within the Company is responsible for identifying, managing and reporting risk in accordance with the Board-approved risk management policy and standards. Risks are then consolidated into a corporate risk register, which provides the Board and management with an overview of the Company's risk profile. The Board, through the Audit and Risk Committee, assesses Syngene's principal risks, including those that could threaten its business model, future performance, solvency or liquidity as well as assessing actions taken to manage the identified risks.

Risk Management Process

The Company has a robust identification, monitoring and reporting mechanism to ensure that all significant risks are identified, and mitigation controls put in place. Each business unit develops a comprehensive list of risks relevant to their area of operation. These risks are then documented and maintained in a 'Risk Register' by the Risk Manager. Likelihood and impact analysis is performed to assess the criticality of the risks identified in the risk register. The probability and cumulative effect on the business unit and on the company as a whole are determined through these analyses.

Based on the quantitative analysis, risks are prioritised and ranked. Under the risk mitigation plan, the Company responds with appropriate control measures to either terminate, transfer, tolerate or treat risks.

The Executive Committee reviews the Risk Register, including the mitigation plan, on an ongoing basis and conducts a complete review at least annually with the Board. When, during the course of business, new risks are identified, the Executive Committee reports these to the Board.

Syngene's Risk Profile

The key business risks facing the Company and the steps taken to mitigate their impact are detailed below:

Financial Risk:

1. **Currency Risk:** While the Indian rupee is the primary operating currency of the company, Syngene earns a substantial proportion of its revenue in US dollars. Furthermore, the company also incurs a large portion of its operating and capital expenses, such as expenditure on specialized equipment and raw materials in US dollars. This exposes Syngene to currency risk arising from exchange rate fluctuations and may adversely impact its financial results. The company mitigates this risk by hedging its foreign exchange exposure, however, volatility in the currency market, hedging costs and regulatory barriers may prevent Syngene from effectively hedging all its currency exposure. As a result, hedging activities cannot and may not eliminate all currency risks.
2. **Credit Risk due to default on contractual obligations by clients:** As a scientific service provider, Syngene earns all its revenue through client service contracts. Any default on or delay in timely payment by a client may have an adverse impact on the Company's earnings and cash flow. Syngene addresses this risk through its credit risk policy and by regularly monitoring the credit ratings of its key clients as well as regularly monitoring its overall credit exposure. Additionally, business development efforts are focused on forging broad collaborations with credible organizations across multiple industries and markets to lessen the exposure to any particular client or industry

group. Depending on the nature and duration of client collaborations, the Company may include milestone-based payment terms in its agreements to lessen the total credit exposure through the life of the contract.

Operational Risk:

3. **Capacity Expansion and Asset Utilization Risk:** Syngene's business development activities are focused around both new client acquisition as well as expanding the scope of engagement with existing clients to include a broader range of services. Over the years, there has been a steady increase in demand for its services. To match this growing demand, the Company is required to adjust, align and expand its capacity on an ongoing basis. Any inability to expand capacity to meet rising demand may restrict future growth. Setting up new capacity may require access to additional capital, which in turn may be dependent on the Company maintaining strong financials and a good credit rating. Furthermore, returns from investment in new capacity is dependent on future demand expectations materializing and becoming actual demand for services.
4. **Manpower Risk:** Syngene's ability to perform cutting edge research and provide innovative and effective solutions to clients largely depends on its scientific manpower. Loss of any key human resource or a higher attrition amongst its scientific teams can impact its business operations and affect the quality and timeline of service delivery. Attracting and retaining the right talent is critical to ensuring future growth and expansion of operations. To mitigate the impact of manpower risk, Syngene invests in talent development and employee engagement initiatives to nurture employee skills, deliver an engaging, welcoming working environment and to support staff in building successful careers. Competition for talented staff is a challenge within the CRO industry and the Company may not always be able to attract sufficient staff to meet of its requirements.
5. **IT Risk:** Syngene's operations rely on its IT infrastructure and IT systems. Data security is particularly critical for Syngene's operations as data, usually held in digital form is often the key output of the services provided to clients and is central to the IP rights created for and owned by our clients. Any failure to keep this data secure may adversely affect the value of the services provided to clients and consequently impact the Company's reputation and business model. Failure to maintain data confidentiality may severely impact business integrity, our reputation and may lead to legal and regulatory issues and loss of revenue. Extensive IT security systems and controls have been implemented to mitigate this risk. These systems and controls are regularly evaluated against the changing threat scenarios and additional investments are made to maintain an appropriate level of IT security. Despite the measures taken, the Company's IT systems may still be vulnerable to new cyber security threats and any failure in this area could lead to a breach of data confidentiality which in turn may result in a loss to the business.

Strategic Risk:

6. **Risk of Reduction in R&D Spending by clients:** As a service provider, Syngene's growth and ability to expand its operations are dependent on its client's ability to invest in R&D as well as willingness to outsource the delivery of this R&D. Any adverse trend in client R&D spending or a reduction in their willingness to outsource delivery of R&D may have an adverse impact on Syngene's growth prospects. Demand for Syngene's services can also be impacted by any negative perception of the CRO industry due to the actions of other CROs which may result in reduced outsourcing by clients. Despite the Company's efforts towards strengthening its competitive position in the industry, these macro-economic factors beyond its control may have a material adverse effect on its operations.
7. **Risk of over dependence on few clients:** Syngene's top 10 clients contribute approximately 65% of its revenue. Any loss of business or a significant reduction in business from any of these clients can adversely impact operations, revenues and future growth prospects. The volume of outsourcing done by these clients to Syngene may also vary year-on-year. Any M&A activity within this client group may adversely impact the ongoing relationship with client and the Company may cease to receive any further work from the acquired entity. In order to reduce the impact of this risk on its operations, Syngene's business development activities strive to expand its client base to a larger group of client company's and to other industry segments.
8. **Risk of short-term contracts:** Syngene primarily offers its services either through a Fee-for-Services (FFS) model or a Fulltime Equivalent (FTE) model. FFS services are generally short-term contracts and involve standalone services with defined deliverables. FTE services are generally longer term contracts covering multiple services. Deliverables are not always clearly defined at the start and gets defined as the collaboration progresses. Upon completion of a FFS service, there is a risk of the client not outsourcing any more work to Syngene. The Company's efforts are focused on building long term FTE collaboration with the clients and expanding the scope of engagement to cover multiple services.

Regulatory Risk:

9. **Risk of Changing Regulatory Framework:** The Company operates in and serves clients in a number of highly regulated industries. Regulatory non-compliance can result in termination of contracts, disqualification of data, criminal penalties, loss of clients and business and/or litigation by the affected parties. Adverse observations by regulatory authorities may have long term repercussions on the business and its reputation. The Company has an excellent track record of successful regulatory and compliance audits and maintains a continued commitment to achieving the highest standards of quality compliance.
10. **Political Risk:** The Company serves clients from around the world. Geo-political uncertainties such as increases in protectionist policies and changes in government

regulations may impact the business adversely. Changes in government policy towards outsourcing in countries where our clients are based may affect their outsourcing plans. The USA continues to be Syngene's largest market in terms of client concentration and contribution to its total revenues. To mitigate over reliance on revenue from one geographical region the Company actively explores business opportunities in other regions of the world.

Reputational Risk:

11. Reputational risk can arise due to many factors. For example, failure by the Company to comply with environmental standards, employee malpractice, non-compliance to quality standards by vendors or the Company's failure to effectively address the risks in its business can put the reputation of Syngene at risk. Reputational risk can have an adverse impact on revenue or on the market capitalization of the Company as a result of stakeholders taking a negative view of the Company's actions. Syngene emphasizes all employees the need to maintain high standards of integrity in decision making and in our dealings with customers, suppliers and stakeholders. The Company's Code of Conduct provides direction to all staff on safeguarding its reputation.

Catastrophic Risk:

12. Like all businesses, Syngene's operations can be adversely impacted due to a catastrophic event. Besides forces of nature, human negligence can also adversely affect the operations of the Company, resulting in loss or damage to property and lives, delayed service delivery or reduction in operating capacity which could render part or all of its affected facility non-operational leading to revenue losses. The company maintains a Business Continuity Plan (BCP) and a disaster recovery plan to manage challenges arising out of a catastrophic event, however, natural catastrophes are unpredictable, it may not be possible to fully mitigate the impact of a catastrophic event.

Internal Controls

A strong internal control mechanism is a critical element in ensuring that the organization functions in an ethical manner, complies with all legal and regulatory requirements and meets the generally accepted principles of good corporate governance. It is an extension of the overall corporate risk management framework as well as is an integral part of the accounting and financial reporting process.

Syngene's internal control mechanism aims to safeguard its assets as well as authorize, record and report all transactions correctly and on time. The Company has laid down guidelines, policies, processes and structures to enable implementation of appropriate internal financial controls across the organization. These control processes enable and ensure the orderly and efficient conduct of the Company's business, including safeguarding of assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and timely preparation of reliable financial information. The control mechanism ensures that

the manual and automated processes for transaction approval and recording are adequately and effectively reviewed.

The management has constituted a body of internal auditors comprising Chartered Accountants who perform periodic audits. The Internal Auditors independently evaluate the adequacy of internal controls and simultaneously audit the transactions. Independence of the audit and compliance is ensured by direct reporting of Internal Auditors to the Audit and Risk Committee of the Board. The Audit and Risk Committee, consisting of Independent Directors, reviews the adequacy and effectiveness of the Company's internal controls and is also periodically briefed on the corrective and preventive action taken to mitigate identified risks.

Cautionary Statement

The management of Syngene has prepared and is responsible for the financial statements that appear in this report. These

statements conform to the accounting principles generally accepted in India and include amounts based on informed judgments and estimates.

Syngene's projections, estimates and expectations described in this report should be interpreted as 'forward looking statements' that can be impacted by various internal and external risks. Risks associated with market, strategy, technology, operations and stakeholders can significantly impact the business and the actual results may differ substantially or materially from those expressed or implied.

Note: The Company has incorporated its wholly owned overseas subsidiary, Syngene USA Inc., during the year and it is operational from 1st November, 2017. The Company has therefore prepared consolidated financial statements for the first time for the year ended 31 March, 2018. Comparative figures for year ending March 31, 2017 is based on Standalone Financial Statements.

INDEPENDENT AUDITOR'S REPORT

To The Members of Syngene International Limited

Report on the Audit of Standalone Indian Accounting Standards ('Ind AS') Financial Statements

We have audited the accompanying Standalone Ind AS Financial Statements of Syngene International Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Standalone Ind AS Financial Statements").

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is also responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS Financial Statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Standalone Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether

the Standalone Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Standalone Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS Financial Statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2018, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

ANNEXURE – A TO THE INDEPENDENT AUDITOR'S REPORT

The Annexure referred to in paragraph 1 in 'Report on Other Legal and Regulatory Requirements' of the Independent Auditor's Report to the members of Syngene International Limited ("the Company") on the Standalone Ind AS Financial Statements of the Company for the year ended 31 March 2018. We report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment by which all property, plant and equipment are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment were verified during the year and no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and basis our examination of the records of the Company, the Company is in the process of registering the title deeds of immovable properties comprising of land and building acquired during the year ended March 31, 2015, from merger of Clinigene International Limited (an erstwhile wholly owned subsidiary of the Company) amounting to INR 177 million. Also refer Note 3 to the Standalone Ind AS Financial Statements pertaining to buildings constructed on leasehold land.
- (ii) Inventories apart from goods in transit have been physically verified by the Management at reasonable intervals during the year and the discrepancies noticed on such verification between the physical stock and book records were not material.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 ("the Act"). Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Companies (Auditor's Report) Order, 2016 ("the Order") are not applicable to the Company and hence not commented upon.
- (iv) According to the information and explanations given to us, there are no loans, guarantees, and securities granted in respect of which provisions of section 185 and 186 of the

Act are applicable. However, the investment made by the Company during the year is in compliance with Section 186 of the Act.

- (v) According to information and explanations given to us, the Company has not accepted any deposits. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014 as amended, prescribed by the Central Government under Section 148 of the Act and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However we have not made a detailed examination of such records.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including employees' state insurance, income-tax, sales tax, value added tax, duty of customs, duty of excise, service tax, goods and service tax and other material statutory dues have been regularly deposited during the year with the appropriate authorities. However, regarding the deposit of provident fund dues, there have been delays due to the timely availability of the Universal Account Number / Aadhar Number in respect of certain employees.

According to the information and explanations given to us, no undisputed amounts payable in respect of employees' state insurance, income tax, sales tax, value added tax, duty of customs, duty of excise, service tax, cess, goods and service tax and other material statutory dues were in arrears as at 31 March 2018 for a period of more than six months from the date they became payable. However, provident fund dues aggregating to INR 3 million for the period from July 2017 to September 2017 were outstanding for a period of more than six month as at 31 March 2018 due to the delays in the availability of Universal Account Number/Aadhar Number in respect of certain employees. Such dues have since been deposited on 15 April 2018.

- (b) According to the information and explanations given to us, there are no dues of income tax, sales tax, value added tax, service tax, duty of customs, duty of excise, goods and service tax which have not been deposited with the appropriate authorities on account of any dispute other than those mentioned below:

Name of the statute	Nature of dues	Amount disputed (INR in million)	Amount paid under protest (INR in million)	Period to which the amount relates	Forum where dispute is pending
Income-tax Act, 1961	Income tax	706	11	2002-03 to 2008-09	High Court of Karnataka
Income-tax Act, 1961	Income tax	1,173	443	2009-10 to 2014-15	Commissioner of Income tax (Appeals)
Finance Act, 1994	Service tax (including interest)	6	1	March 2005 to February 2007	Customs, Excise and Service Tax Appellate Tribunal

(viii) In our opinion and according to the information and explanations give to us, the Company does not have defaults existing as at the balance sheet date in repayment of borrowings to banks. The Company did not have any borrowings during the year by way of debentures, loans from financial institutions or loan from the Government.

(ix) According to the information and explanations give to us and based on our examination of the records of the Company, we report that monies raised by the Company by way of term loans were applied for the purpose for which the loans were obtained. No monies were raised, during the year, by the Company by way of initial public offer or further public offer (including debt instruments).

(x) According to the information and explanations given to us, no material fraud by the Company or any fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) According to the information and explanations given to us and based on our examination of the records of the

Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act, where applicable, and details of such transactions have been disclosed in the Standalone Ind AS Financial Statements, as required by the applicable accounting standards.

(xiv) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3 (xv) of the Order is not applicable.

(xvi) According to the information and explanations given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

ANNEXURE – B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE IND AS FINANCIAL STATEMENTS OF SYNGENE INTERNATIONAL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Syngene International Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on

the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Ind AS Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Ind AS Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1. COMPANY OVERVIEW

1.1 Reporting entity

Syngene International Limited ("Syngene" or "the Company"), is engaged in providing contract research and manufacturing services from lead generation to clinical supplies to pharmaceutical and biotechnology companies worldwide. Syngene's services include integrated drug discovery and development capabilities in medicinal chemistry, biology, in vivo pharmacology, toxicology, custom synthesis, process R&D, cGMP manufacturing, formulation and analytical development along with Clinical development services. The Company is a public limited company incorporated and domiciled in India and has its registered office in Bengaluru, Karnataka, India. The Company's shares are listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE) in India.

1.2 Basis of preparation of financial statements

a) Statement of compliance

The standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

These standalone financial statements have been prepared for the Company as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, March 31, 2018. These standalone financial statements were authorised for issuance by the Company's Board of Directors on April 25, 2018.

Details of the Company's accounting policies are included in Note 2.

b) Functional and presentation currency

These standalone financial statements are presented in Indian rupees (INR), which is also the functional currency of the Company. All amounts have been rounded-off to the nearest million, unless otherwise indicated.

c) Basis of measurement

These standalone financial statements have been prepared on the historical cost basis, except for the following items:

- Certain financial assets and liabilities (including derivative instruments) are measured at fair value;
- Net defined benefit assets/(liability) are measured at fair value of plan assets, less present value of defined benefit obligations;

d) Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These

estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 1.2(b) — Assessment of functional currency;
- Note 2(a) and 28 — Financial instruments;
- Note 2(b) and 2(c) — Useful lives of property, plant and equipment and intangible assets;
- Note 2(m) — Lease classification;
- Note 27 — measurement of defined benefit obligation; key actuarial assumptions;
- Note 34 — Share based payments; and
- Note 2(k) and 30 — Provision for income taxes and related tax contingencies.

1.3 Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending March 31, 2019 is included in the following notes:

- Note 27 – measurement of defined benefit obligations: key actuarial assumptions;
- Note 28 – impairment of financial assets; and
- Note 14 and 31 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

1.4 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 34 – share based payment arrangements; and
- Note 2(a) and 28 – financial instruments.

2 SIGNIFICANT ACCOUNTING POLICIES

a. Financial instruments

i. Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss. However, see Note 28 for derivatives designated as hedging instruments.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in statement of profit and loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

iii. Derecognition Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither

transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit and loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Derivative financial instruments and hedge accounting

The Company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in statement of profit and loss.

The Company designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates and interest rates.

At inception of designated hedging relationships, the Company documents the risk management objective and strategy for undertaking the hedge. The Company also documents the economic relationship between the hedged item and the

hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated in other equity under 'effective portion of cash flow hedges'. The effective portion of changes in the fair value of the derivative that is recognised in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in statement of profit and loss.

If a hedge no longer meets the criteria for hedge accounting or the hedging instrument is sold, expires, is terminated or is exercised, then hedge accounting is discontinued prospectively. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in other equity remains there until, for a hedge of a transaction resulting in recognition of a non-financial item, it is included in the non-financial item's cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit or loss in the same period or periods as the hedged expected future cash flows affect profit or loss.

If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified to statement of profit and loss.

vi. Treasury shares

The Company has created an Employee Welfare Trust (EWT) for providing share-based payment to its employees. Own equity instruments that are acquired (treasury shares) are recognised at cost and deducted from equity. When the treasury shares are issued to the employees by EWT, the amount received is recognised as an increase in equity and the resultant gain / (loss) is transferred to / from securities premium.

vii. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term

deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash dividend to equity holders

The Company recognises a liability to make cash to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

b. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Exchange differences arising on long-term foreign currency monetary items initially recognized in the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP are capitalised.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

ii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Freehold land and land under perpetual lease are not depreciated.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II
Building	25 years	30 years
Plant and equipment (including electrical installation and laboratory equipment)	9-11 years	8-20 years
Computers and servers	3 years	3-6 years
Office equipment	3 years	5 years
Furniture and fixtures	6 years	10 years
Vehicles	6 years	6-10 years
Leasehold improvements	10 years or lease period whichever is lower	

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

c. Intangible assets

Internally generated: Research and Development: Expenditure on research activities is recognised in statement of profit and loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in statement of profit and loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Others

Other intangible assets are initially measured at cost. Subsequently, such intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses.

i. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands,

is recognised in statement of profit and loss as incurred.

ii. Amortisation

Intangible assets are amortised on a straight line basis over the estimated useful life as follows:

- Computer software 5 years
- Intellectual property right 5-10 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

d. Business combination

In accordance with Ind AS 103, Business combinations, the Company accounts for business combinations after acquisition date using the acquisition method when control is transferred to the Company (see Note 4). The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration and deferred consideration, if any. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred.

e. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Chemicals, reagents and consumables held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

f. Impairment

i. Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime expected credit losses. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

ii. Impairment of non-financial assets

The Company assess at each reporting date whether there is any indication that the carrying amount may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount in the statement of profit and loss.

The Company's non-financial assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or groups of CGUs) on a pro rata basis.

An impairment loss in respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the

recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

g. Employee benefits

i. Gratuity

The Company provides for gratuity, a defined benefit plan ("the Gratuity Plan") covering the eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of the employment with the Company.

Liability with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The defined benefit plan is administered by a trust formed for this purpose through the Company gratuity scheme.

The Company recognises the net obligation of a defined benefit plan as a liability in its balance sheet. Gains or losses through re-measurement of the net defined benefit liability are recognised in other comprehensive income and are not reclassified to profit and loss in the subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income. The effect of any plan amendments are recognised in the statement of profit and loss.

ii. Provident Fund

Eligible employees of the Company receive benefits from provident fund, which is a defined contribution plan. Both the eligible employees and the Company make monthly contributions to the Government administered provident fund scheme equal to a specified percentage of the eligible employee's salary. Amounts collected under the provident fund plan are deposited with in a government administered provident fund. The Company has no further obligation to the plan beyond its monthly contributions.

iii. Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet

date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

iv. Share-based compensation

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

h. Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

i. Revenue

i. Contract research and manufacturing services income

In respect of contracts involving research services, in case of 'time and materials' contracts, contract research fee are recognised as services are rendered, in accordance with the terms of the contracts.

Revenues relating to fixed price contracts are recognised based on the percentage of completion method determined based on efforts expended as a proportion to total estimated efforts. The Company monitors estimates of total contract revenue and cost on a routine basis throughout the contract period. The cumulative impact of any change in estimates of the contract revenue or costs is reflected in the period in which the changes become known. In the event that a loss is anticipated on a particular contract, provision is made for the estimated loss.

In respect of contracts involving sale of compounds arising out of contract research, revenue is recognised when the significant risks and rewards of ownership of the compounds have passed to the buyer.

The Company collects service tax and sales taxes, as applicable, on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

ii. Dividends

Dividend income is recognised when the Company's right to receive dividend is established by the reporting date.

iii. Interest Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

iv. Contribution received from customers towards plant and equipment

Contributions received from customers towards items of property, plant and equipment which require an obligation to supply services to the customer in the future, are recognised as a credit to deferred revenue. The contribution received is recognised as revenue from operations over the useful life of the assets. The Company capitalises the gross cost of these assets as the Company controls these assets.

j. Government grants

The Company recognises government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants received in relation to assets are recognised as deferred income and amortized over the useful life of such asset. Grants related to Income are recognized in statement of profit and loss as other operating revenues.

k. Income taxes

Income tax comprises current and deferred income tax. Income tax expense is recognised in statement of profit and loss except to the extent that it relates to an item recognised directly in equity in which case it is recognised in other comprehensive income. Current income tax for current year and prior periods is recognised at the amount expected to be paid or recovered from the tax authorities, using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when:

- taxable temporary differences arising on the initial recognition of goodwill;
- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred income tax assets and liabilities are measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognised as income or expense in the period that includes the enactment or substantive enactment date. A deferred income tax asset is recognised to the extent it is probable that future taxable income will be available against which the deductible temporary timing differences and tax losses can be utilised. The Company offsets income-tax assets and liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

l. Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency

borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

m. Leases**i. Determining whether an arrangement contains a lease**

At inception of an arrangement, it is determined whether the arrangement is or contains a lease.

At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values.

ii. Assets held under lease

Leases of property, plant and equipment that transfer to the Company substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Assets held under leases that do not transfer to the Company substantially all the risks and rewards of ownership (i.e. operating leases) are not recognized in the Company's Balance sheet.

iii. Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

n. Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted-average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options and warrants, except where the results would be anti-dilutive.

o. Recent Indian Accounting Standards (Ind AS)

Following new standard and amendment to Ind AS have not been applied by the Company as they are effective for annual periods beginning on or after April 1, 2018:

Ind AS 115 – Revenue from Contracts with Customers

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Ind AS 115 'Revenue from Contracts with Customers' (New Revenue Standard), which replaces Ind AS 11 'Construction Contracts' and Ind AS 18 'Revenue'. The core principle of the New Revenue Standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Some of the key changes introduced by the New Revenue Standard include additional

guidance for multiple-element arrangements, measurement approaches for variable consideration, specific guidance for licensing of intellectual property. The new standard also provides guidance on evaluation of performance obligations being distinct to enable separate recognition and could impact timing of recognition of certain elements of multiple element arrangements.

Significant additional disclosures in relation to revenue are also prescribed. The New Revenue Standard also provides two broad alternative transition options – Retrospective Method and Cumulative Effect Method – with certain practical expedients available under the Retrospective Method. The Company is in the process of evaluating the impact of the New Revenue Standard on the present and future arrangements and shall determine the appropriate transition option once the said evaluation has been completed.

27. EMPLOYEE BENEFIT PLANS

- (i) The Company has a defined benefit gratuity plan as per the Payment of Gratuity Act, 1972 ('Gratuity Act'). Under the Gratuity Act, employee who has completed five years of service is entitled to specific benefit with no monetary limit. The level of benefit provided depends on the employee's length of service and salary at retirement/termination age. The gratuity plan is a funded plan and the Company makes contributions to a recognised fund in India.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

	Defined benefit obligation	Fair value of plan assets	Net defined benefit (asset)/liability
Balance as on April 01, 2017	241	(2)	239

The nature of assets allocation of the plan assets is in debt based mutual funds of high credit rating.

(All amounts are in Indian Rupees Million, except share data and per share data, unless otherwise stated)

(ii) The assumptions used for gratuity valuation are as below:

	March 31, 2018	March 31, 2017
Interest rate	7.7%	6.7%
Discount rate	7.7%	6.7%
Expected return on plan assets	7.7%	6.7%
Salary increase	9.0%	9.0%
Attrition rate (based on Age of the Employee)	5% - 16%	7% - 26%
Retirement age - Years	58	58

Assumptions regarding future mortality experience are set in accordance with published statistics and mortality tables.

The weighted average duration of the defined benefit obligation was 8 years (March 31, 2017 - 8 years)

The defined benefit plan exposes the Company to actuarial risks, such as longevity and interest rate risk.

(iii) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions are as below:

	March 31, 2018		March 31, 2017	
	Increase	Decrease	Increase	Decrease
Discount rate	(22)	25	(11)	13
Salary increase	24	(21)	12	(11)
Attrition rate	(4)	5	(2)	2

Sensitivity of significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of defined benefit obligation by one percentage, keeping all other actuarial assumptions constant. Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumption shown.

As of March 31, 2018 and March 31, 2017, the plan assets have been invested in insurer managed funds and the expected contribution to the fund during the year ending March 31, 2019, is approximately Rs 30 (March 31, 2018 - Rs 40)

Measurement of fair values

Fair value of liquid mutual funds are based on quoted price. Derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the market place.

Sensitivity analysis

For the fair values of forward/option contracts of foreign currencies, reasonably possible changes at the reporting date to one of the significant observable inputs, holding other inputs constant, would have the following effects.

Significant observable inputs	Impact on Profit or (loss)		Impact on other components of equity	
	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017

B. Financial risk management

The Company's activities expose it to a variety of financial risks : credit risk, market risk and liquidity risk.

(i) Risk management framework

The Company's risk management is carried out by the treasury department under policies approved by the Board of Directors. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments and investment of excess liquidity.

(ii) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primarily trade receivables and unbilled revenues) and from its investment activities, including deposits with banks and financial institutions, investments in mutual funds and other financial instruments.

The Company has established a credit mechanism under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, where available, and other publicly available financial information. Outstanding customer receivables are regularly monitored.

The Company establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. The maximum exposure to credit risk as at reporting date is primarily from trade receivables and unbilled revenue amounting to Rs. 3,224 (March 31, 2017: Rs 2,230). The movement in allowance for impairment in respect of trade receivables during the year was as follows:

Allowance for Impairment	March 31, 2018	March 31, 2017
Opening balance	32	14
Impairment loss recognised	32	18
Closing balance	64	32

Receivable from two customers of the Company's receivables is Rs. 671 [March 31, 2017 - Rs. Nil] which is more than 10 percent of the Company's total receivables.

Credit risk on cash and cash equivalent is limited as the Company generally invests in deposits with banks having high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. In addition, the Company maintains line of credits as stated in Note 13.

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities as of March 31, 2018:

Particulars	Less than 1 year	1 - 2 years	2-5 years	5 - 10 years	Total

Total	3,303	1,226	5,672	-	10,201

(All amounts are in Indian Rupees Million, except share data and per share data, unless otherwise stated)

(iv) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as foreign exchange rates, interest rates and equity prices.

Foreign currency risk

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently, the Company is exposed to foreign exchange risk through operating and borrowing activities in foreign currency. The Company holds derivative instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates and foreign currency exposure.

The currency profile of financial assets and financial liabilities as at March 31, 2018 and March 31, 2017 are as below:

March 31, 2018	USD	EUR	Others	Total
Financial assets				
Trade receivables	2,284	75	-	2,359

Sensitivity analysis

The sensitivity of profit or loss to changes in exchange rates arises mainly from foreign currency denominated financial instruments from foreign exchange forward/option contracts designated as cash flow hedges.

Particulars	Impact on profit or loss		Impact on other components of equity	
	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017

INR/EUR - Decrease by 1%	1	- *	1	- *

* Less than Rs. 0.5 million.

Derivative financial instruments

The following table gives details in respect of outstanding foreign exchange forward and option contracts:

Particulars	March 31, 2018	March 31, 2017
Foreign exchange forward contracts to buy	USD 383 (INR 24,916)	USD 30 (INR 1,946)
European style option contracts with periodical maturity dates	USD 190 (INR 12,368)	USD 276 (INR 17,859)

(All amounts are in Indian Rupees Million, except share data and per share data, unless otherwise stated)

Cash flow and fair value interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. During the year ended March 31, 2018 and March 31, 2017 the Company's borrowings at variable rate were mainly denominated in USD.

(a) Interest rate risk exposure

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	March 31, 2018	March 31, 2017
Variable rate borrowings	2,826	3,203
Fixed rate borrowings	5,048	4,861
Total borrowings	7,874	8,064

(b) Sensitivity

The Company policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. They are therefore not subject to interest rate risk as defined under Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of change in market interest rates.

29. CAPITAL MANAGEMENT

The key objective of the Company's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The Company focused on keeping strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required without impacting the risk profile of the Company.

The Company's goal is to continue to be able to return excess liquidity to shareholders by continuing to distribute annual dividends in future periods.

The amount of future dividends/buy back of equity shares will be balanced with efforts to continue to maintain an adequate liquidity status.

The capital structure as of March 31, 2018 and 2017 was as follows:

Particulars	March 31, 2018	March 31, 2017
Total equity attributable to the equity shareholders of the Company	17,201	14,131
As a percentage of total capital	69%	64%
Long-term borrowings	7,093	7,092
Short-term borrowings	781	972
Total borrowings	7,874	8,064

INDEPENDENT AUDITOR'S REPORT

To the Members of Syngene International Limited

Report on the Audit of Consolidated Indian Accounting Standards ('Ind AS') Financial Statements

We have audited the accompanying Consolidated Ind AS Financial Statements of Syngene International Limited ("the Holding Company") and its subsidiary (foreign subsidiary – Refer Note 1.2 of the Consolidated Ind AS Financial Statements) (collectively referred to as "the Company" or "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2018, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "Consolidated Ind AS Financial Statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Consolidated Ind AS Financial Statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS prescribed under Section 133 of the Act.

The respective Board of Directors of the Companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility

Our responsibility is to express an opinion on these Consolidated Ind AS Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are

required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the Consolidated Ind AS Financial Statements.

We are also responsible to conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the Consolidated Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Group to cease to continue as a going concern.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS Financial Statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March, 2018, and its consolidated profit and other comprehensive income, its consolidated statement of changes in equity and consolidated cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge

and belief were necessary for the purposes of our audit of the aforesaid Consolidated Ind AS Financial Statements;

- (b) In our opinion proper books of account as required by law relating to preparation of the aforesaid Consolidated Ind AS Financial Statements have been kept so far as it appears from our examination of those books;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Cash Flows and Consolidated Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Ind AS Financial Statements;
- (d) In our opinion, the aforesaid Consolidated Ind AS Financial Statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act;
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2018 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding company is disqualified as on 31 March 2018 from being appointed as a Director in terms of Section 164(2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to Ind AS Financial Statements of the Holding Company, incorporated in India and the operating effectiveness of such controls, refer to our separate report in "Annexure A"; and
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. the Consolidated Ind AS Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 31(i)(a) to the Consolidated Ind AS Financial Statements;
- ii. provision has been made in the Consolidated Ind AS Financial Statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 28 to the Consolidated Ind AS Financial Statements;
- iii. there were no amounts during the year which were required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2018; and
- iv. the disclosures in the Consolidated Ind AS Financial Statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made since they do not pertain to the financial year ended 31 March 2018.

ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS OF SYNGENE INTERNATIONAL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS Financial Statements of the Group as of and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting of Syngene International Limited ("the Holding Company"), a company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company, which is a company incorporated in India, is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Ind AS Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, which is a company incorporated in India, has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1. COMPANY OVERVIEW

1.1 Reporting entity

Syngene International Limited ("Syngene" or "the parent company" or "the Company"), together with its subsidiary (collectively, the "Group") is engaged in providing contract research and manufacturing services from lead generation to clinical supplies to pharmaceutical and biotechnology companies worldwide. Syngene's services include integrated drug discovery and development capabilities in medicinal chemistry, biology, in vivo pharmacology, toxicology, custom synthesis, process R&D, cGMP manufacturing, formulation and analytical development along with Clinical development services. The Company is a public limited company incorporated and domiciled in India and has its registered office in Bengaluru, Karnataka, India. The Company's shares are listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE) in India.

1.2 Basis of preparation of financial statements

a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The Company has incorporated its wholly owned overseas subsidiary, Syngene USA Inc., ('the Subsidiary') during the year and operational from 1 November 2017. With the incorporation of the Subsidiary, the Company has prepared consolidated financial statements for the first time for the year ended 31 March, 2018. Accordingly, comparative figures have not been presented.

These consolidated financial statements have been prepared for the Group as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, March 31, 2018. These consolidated financial statements were authorised for issuance by the Company's Board of Directors on April 25, 2018.

Details of the Group's accounting policies are included in Note 2.

b) Functional and presentation currency

These consolidated financial statements are presented in Indian rupees (INR), which is also the functional currency of the parent company. All amounts have been rounded-off to the nearest million, unless otherwise indicated. In respect of subsidiary whose operations are self-contained and integrated, the functional currency has been determined to be the currency of the primary economic environment in which the entity operates. Accordingly, the financial

statements of Syngene USA Inc. has been prepared in United States Dollar (USD).

c) Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis, except for the following items:

- Certain financial assets and liabilities (including derivative instruments) are measured at fair value;
- Net defined benefit assets/(liability) are measured at fair value of plan assets, less present value of defined benefit obligations;

d) Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 1.2(b) — Assessment of functional currency;
- Note 2(c) and 28 — Financial instruments;
- Note 2(d) and 2(e) — Useful lives of property, plant and equipment and intangible assets;
- Note 2(o) — Lease classification;
- Note 27 — measurement of defined benefit obligation; key actuarial assumptions;
- Note 34 — Share based payments; and
- Note 2(m) and 30 — Provision for income taxes and related tax contingencies.

1.3 Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending March 31, 2019 is included in the following notes:

- Note 27 – measurement of defined benefit obligations: key actuarial assumptions;
- Note 28 – impairment of financial assets; and
- Note 14 and 31 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

1.4 Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 34 – share based payment arrangements; and
- Note 2(c) and 28 – financial instruments.

2 SIGNIFICANT ACCOUNTING POLICIES

a. Basis of consolidation

i. Subsidiary

Subsidiary is entity controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiary are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The financial statements of the Group are consolidated on line-by-line basis. Intra-group transactions, balances and any unrealised gains arising from intra-group transactions, are eliminated. Unrealised losses are eliminated, but only to the extent that there is no evidence of impairment. All temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions are recognised as per Ind AS 12, Income Taxes.

For the purpose of preparing these consolidated financial statements, the accounting policies of subsidiary has been kept consistent with the policies adopted by the Group.

Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition.

Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

ii. Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in statement of profit or loss.

b. Foreign currency

i. Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of companies at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in statement of profit or loss, except exchange differences arising from the translation of the qualifying cash flow hedges to the extent that the hedges are effective which are recognised in OCI.

Under previous GAAP exchange differences arising on restatement of long-term foreign currency monetary items related to acquisition of depreciable assets was added to/ deducted from the cost of the depreciable assets. In accordance with Ind AS 101 *First time adoption of Indian Accounting Standards* the Group continues the above accounting treatment in respect of the long-term foreign currency monetary items recognised in the financial statements as on March 31, 2016.

ii. Foreign operations

The assets and liabilities of foreign operations (subsidiary) including goodwill and fair value adjustments arising on acquisition, are translated into INR, the functional currency of the Group, at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into INR at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Foreign currency translation differences are recognised in OCI and accumulated in equity (as exchange differences on translating the financial statements of a foreign operation), except to the extent that the exchange differences are allocated to NCI.

c. Financial instruments

i. Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to

its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost as described above are

measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss. However, see Note 28 for derivatives designated as hedging instruments.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in statement of profit and loss. Any gain or loss on derecognition

is also recognised in statement of profit and loss.

iii. Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit and loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Derivative financial instruments and hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in statement of profit and loss.

The Group designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates and interest rates.

At inception of designated hedging relationships, the Group documents the risk management objective and strategy for undertaking the hedge. The Group also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in OCI and accumulated in other equity under 'effective portion of cash flow hedges'. The effective portion of changes in the fair value of the derivative that is recognised in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in statement of profit and loss.

If a hedge no longer meets the criteria for hedge accounting or the hedging instrument is sold, expires, is terminated or is exercised, then hedge accounting is discontinued prospectively. When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in other equity remains there until, for a hedge of a transaction resulting in recognition of a non-financial item, it is included in the non-financial item's cost on its initial recognition or, for other cash flow hedges, it is reclassified to profit or loss in the same period or periods as the hedged expected future cash flows affect profit or loss.

If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified to statement of profit and loss.

vi. Treasury shares

The Company has created an Employee Welfare Trust (EWT) for providing share-based payment to its employees. Own equity instruments that are acquired (treasury shares) are recognised at cost and deducted from equity. When the treasury shares are issued to the employees by EWT, the amount received is recognised as an

increase in equity and the resultant gain / (loss) is transferred to / from securities premium.

vii. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

Cash dividend to equity holders

The Group recognises a liability to make cash to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

d. Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Exchange differences arising on long-term foreign currency monetary items initially recognized in the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP are capitalised.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

ii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Freehold land and land under perpetual lease are not depreciated.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II
Building	25 years	30 years
Plant and equipment (including electrical installation and laboratory equipment)	9-11 years	8-20 years
Computers and servers	3 years	3-6 years
Office equipment	3 years	5 years
Furniture and fixtures	6 years	10 years
Vehicles	6 years	6-10 years
Leasehold improvements	10 years or lease period whichever is lower	

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

e. Intangible assets**Internally generated: Research and Development:**

Expenditure on research activities is recognised in statement of profit and loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in statement of profit and loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and

any accumulated impairment losses.

Others

Other intangible assets are initially measured at cost. Subsequently, such intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses.

i. Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in statement of profit and loss as incurred.

ii. Amortisation

Intangible assets are amortised on a straight line basis over the estimated useful life as follows:

— Computer software	5 years
— Intellectual property right	5-10 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

f. Business combination

In accordance with Ind AS 103, Business combinations, the Group accounts for business combinations after acquisition date using the acquisition method when control is transferred to the Group (see Note 4). The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration and deferred consideration, if any. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as capital reserve if there exists clear evidence of the underlying reasons for classifying the business combination as resulting in a bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred.

g. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out formula, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their present location and condition. In the case of manufactured inventories and work-in-progress, cost includes an appropriate share of fixed production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products.

Chemicals, reagents and consumables held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

h. Impairment

i. Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets measured at amortised cost.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime expected credit losses. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

Loss allowance for financial assets measured at amortised cost are deducted from gross carrying amount of the assets.

ii. Impairment of non-financial assets

The Group assess at each reporting date whether there is any indication that the carrying amount may not be recoverable. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount in the statement of profit and loss.

The Group's non-financial assets, inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of

any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or groups of CGUs) on a pro rata basis.

An impairment loss in respect of assets for which impairment loss has been recognised in prior periods, the Group reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

i. Employee benefits

i. Gratuity

The Group provides for gratuity, a defined benefit plan ("the Gratuity Plan") covering the eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of the employment with the Company.

Liability with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The defined benefit plan is administered by a trust formed for this purpose through the Company gratuity scheme.

The Group recognises the net obligation of a defined benefit plan as a liability in its balance sheet. Gains or losses through re-measurement of the net defined benefit liability are recognised in other comprehensive income and are not reclassified to profit and loss in the subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognised in other comprehensive income. The effect of any plan amendments are recognised in the statement of profit and loss.

ii. Provident Fund

Eligible employees of the Company receive benefits from provident fund, which is a defined contribution plan. Both the eligible employees and the Company make monthly contributions to the Government administered provident fund scheme equal to a specified percentage of the eligible employee's salary. Amounts collected

under the provident fund plan are deposited with in a government administered provident fund. The Company has no further obligation to the plan beyond its monthly contributions.

iii. Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

iv. Share-based compensation

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service and non-market vesting conditions are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

j. Provisions (other than for employee benefits)

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

k. Revenue

i. Contract research and manufacturing services income

In respect of contracts involving research services, in case of 'time and materials' contracts, contract research fee are recognised as services are rendered, in accordance with the terms of the contracts.

Revenues relating to fixed price contracts are recognised based on the percentage of completion method determined based on efforts expended as a proportion to total estimated efforts. The Group monitors estimates of total contract revenue and cost on a routine basis throughout the contract period. The cumulative impact of any change in estimates of the contract revenue or costs is reflected in the period in which the changes become known. In the event that a loss is anticipated on a particular contract, provision is made for the estimated loss.

In respect of contracts involving sale of compounds arising out of contract research, revenue is recognised when the significant risks and rewards of ownership of the compounds have passed to the buyer.

The Group collects service tax and sales taxes, as applicable, on behalf of the government and, therefore, it is not an economic benefit flowing to the Group. Hence, it is excluded from revenue.

ii. Dividends

Dividend income is recognised when the Group's right to receive dividend is established by the reporting date.

iii. Interest Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.

iv. Contribution received from customers towards plant and equipment

Contributions received from customers towards items of property, plant and equipment which require an obligation to supply services to the customer in the future, are recognised as a credit to deferred revenue. The contribution received is recognised as revenue from operations over the useful life of the assets. The Group capitalises the gross cost of these assets as the Group controls these assets.

I. Government grants

The Group recognises government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants received in relation to assets are recognised as deferred income and amortized over the useful life of such asset. Grants related to income are recognized in statement of profit and loss as other operating revenues.

m. Income taxes

Income tax comprises current and deferred income tax. Income tax expense is recognised in statement of profit and loss except to the extent that it relates to an item recognised directly in equity in which case it is recognised in other comprehensive income. Current income tax for current year and prior periods is recognised at the amount expected to be paid or recovered from the tax authorities, using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when:

- taxable temporary differences arising on the initial recognition of goodwill;
- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- temporary differences related to investments in subsidiary to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred income tax assets and liabilities are measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognised as income or expense in the period that includes the enactment or substantive enactment date. A deferred income tax assets is recognised to the extent it is probable that future taxable income will be available against which the deductible temporary

timing differences and tax losses can be utilised. The Group offsets income-tax assets and liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

n. Borrowing cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

o. Leases

i. Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease.

At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values.

ii. Assets held under lease

Leases of property, plant and equipment that transfer to the Group substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Assets held under leases that do not transfer to the Group substantially all the risks and rewards of ownership (i.e. operating leases) are not recognized in the Group's Balance sheet.

iii. Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

p. Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted-average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options and warrants, except where the results would be anti-dilutive.

q. Recent Indian Accounting Standards (Ind AS)

Following new standard and amendment to Ind AS have not been applied by the Group as they are effective for annual periods beginning on or after April 1, 2018:

Ind AS 115 – Revenue from Contracts with Customers

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Ind AS 115 'Revenue from Contracts with Customers' (New Revenue Standard), which replaces Ind AS 11 'Construction Contracts' and Ind AS 18 'Revenue'.

The core principle of the New Revenue Standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Some of the key changes introduced by the New Revenue Standard include additional guidance for multiple-element arrangements, measurement approaches for variable consideration, specific guidance for licensing of intellectual property. The new standard also provides guidance on evaluation of performance obligations being distinct to enable separate recognition and could impact timing of recognition of certain elements of multiple element arrangements.

Significant additional disclosures in relation to revenue are also prescribed. The new revenue standard also provides two broad alternative transition options – Retrospective Method and Cumulative Effect Method – with certain practical expedients available under the Retrospective Method. The Group is in the process of evaluating the impact of the new revenue standard on the present and future arrangements and shall determine the appropriate transition option once the said evaluation has been completed.

27. EMPLOYEE BENEFIT PLANS

- (i) The Company has a defined benefit gratuity plan as per the Payment of Gratuity Act, 1972 ('Gratuity Act'). Under the Gratuity Act, employee who has completed five years of service is entitled to specific benefit with no monetary limit. The level of benefit provided depends on the employee's length of service and salary at retirement/termination age. The gratuity plan is a funded plan and the Company makes contributions to a recognised fund in India.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

	Defined benefit obligation	Fair value of plan assets	Net defined benefit (asset)/liability
Balance as on April 01, 2017	241	(2)	239
Current service cost	53	-	53
Interest cost	27	-	27
Amount recognised in Statement of profit and loss	80	-	80
Remeasurements:			
Return on plan assets, excluding amounts included in interest expense / (income)	-	(1)	(1)
Actuarial (gain) / loss arising from:			
Demographic assumptions	23	-	23
Financial assumptions	(29)	-	(29)
Experience adjustment	17	-	17
Amount recognised in other comprehensive income	11	(1)	10
Benefits paid	(9)	-	(9)
Balance as at March 31, 2018	323	(3)	320
			March 31, 2018
Non current			290
Current			30
			320

The nature of assets allocation of the plan assets is in debt based mutual funds of high credit rating.

(ii) The assumptions used for gratuity valuation are as below:	March 31, 2018
Interest rate	7.7%
Discount rate	7.7%
Expected return on plan assets	7.7%
Salary increase	9.0%
Attrition rate (based on Age of the Employee)	5% - 16%
Retirement age - Years	58

Assumptions regarding future mortality experience are set in accordance with published statistics and mortality tables.

The weighted average duration of the defined benefit obligation was 8 years.

The defined benefit plan exposes the Company to actuarial risks, such as longevity and interest rate risk.

(iii) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions are as below:

	March 31, 2018	
	Increase	Decrease
Discount rate	(22)	25
Salary increase	24	(21)
Attrition rate	(4)	5

Sensitivity of significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of defined benefit obligation by one percentage, keeping all other actuarial assumptions constant. Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumption shown.

As of March 31, 2018, the plan assets have been invested in insurer managed funds and the expected contribution to the fund during the year ending March 31, 2019, is approximately Rs 30.

Measurement of fair values

Fair value of liquid mutual funds are based on quoted price. Derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the market place.

Sensitivity analysis

For the fair values of forward/option contracts of foreign currencies, reasonably possible changes at the reporting date to one of the significant observable inputs, holding other inputs constant, would have the following effects.

Particulars	Impact on profit or loss	Impact on other components of equity
	March 31, 2018	March 31, 2018

B. Financial risk management

The Group's activities expose it to a variety of financial risks : credit risk, market risk and liquidity risk.

(i) Risk management framework

The Group's risk management is carried out by the treasury department under policies approved by the Board of Directors. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments and investment of excess liquidity.

(ii) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or customer contract, leading to financial loss. The credit risk arises principally from its operating activities (primarily trade receivables and unbilled revenues) and from its investment activities, including deposits with banks and financial institutions, investments in mutual funds and other financial instruments.

The Group has established a credit mechanism under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, where available, and other publicly available financial information. Outstanding customer receivables are regularly monitored.

The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. The maximum exposure to credit risk as at reporting date is primarily from trade receivables and unbilled revenue amounting to Rs. 3,224. The movement in allowance for impairment in respect of trade receivables during the year was as follows:

(All amounts are in Indian Rupees Million, except share data and per share data, unless otherwise stated)

Allowance for Impairment	March 31, 2018
Opening balance	32
Impairment loss recognised	32
Closing balance	64

Receivable from two customers of the Group's receivables is Rs. 671 which is more than 10 percent of the Group's total receivables.

Credit risk on cash and cash equivalent is limited as the Group generally invests in deposits with banks having high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units.

(iii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. In addition, the Group maintains line of credits as stated in Note 13.

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities as of March 31, 2018:

Particulars	Less than 1 year	1 - 2 years	2-5 years	5 - 10 years	Total
Borrowings (non-current)	1,238	2,450	3,295	110	7,093
Borrowings (current)	781	-	-	-	781
Trade payables	2,035	-	-	-	2,035
Derivative liabilities (non-current)	-	2	24	92	118
Derivative liabilities (current)	13	-	-	-	13
Other financial liabilities	809	-	-	-	809
Total	4,876	2,452	3,319	202	10,849

(iv) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as foreign exchange rates, interest rates and equity prices.

Foreign currency risk

The Group operates internationally and a major portion of the business is transacted in several currencies and consequently, the Group is exposed to foreign exchange risk through operating and borrowing activities in foreign currency. The Group holds derivative instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates and foreign currency exposure.

The currency profile of financial assets and financial liabilities as at March 31, 2018 is as below:

March 31, 2018	USD	EUR	Others	Total
Financial assets				
Trade receivables	2,284	75	-	2,359
Cash and cash equivalents	434	-	-	434
Other financial assets (current)	520	14	-	534
Financial liabilities

Net assets / (liabilities)	(5,049)	50	(124)	(5,123)

Sensitivity analysis

The sensitivity of profit or loss to changes in exchange rates arises mainly from foreign currency denominated financial instruments from foreign exchange forward/option contracts designated as cash flow hedges.

Particulars	Impact on profit or loss March 31, 2018	Impact on other components of equity March 31, 2018
USD Sensitivity		
INR/USD - Increase by 1%	(54)	(395)
INR/USD - Decrease by 1%	54	395
EUR Sensitivity		
INR/EUR - Increase by 1%	(1)	(1)
INR/EUR - Decrease by 1%	1	1

(All amounts are in Indian Rupees Million, except share data and per share data, unless otherwise stated)

Derivative financial instruments

The following table gives details in respect of outstanding foreign exchange forward and option contracts:

Particulars	March 31, 2018
Foreign exchange forward contracts to buy	USD 383 (INR 24,916)
European style option contracts with periodical maturity dates	USD 190 (INR 12,368)

Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. During the year ended March 31, 2018, the Group's borrowings at variable rate were mainly denominated in USD.

(a) Interest rate risk exposure

The exposure of the Group's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	March 31, 2018
Variable rate borrowings	2,826
Fixed rate borrowings	5,048
Total borrowings	7,874

(b) Sensitivity

The Group policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. They are therefore not subject to interest rate risk as defined under Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of change in market interest rates.

29. CAPITAL MANAGEMENT

The key objective of the Group's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The Group focused on keeping strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required without impacting the risk profile of the Group.

The Group's goal is to continue to be able to return excess liquidity to shareholders by continuing to distribute annual dividends in future periods.

The amount of future dividends/buy back of equity shares will be balanced with efforts to continue to maintain an adequate liquidity status.

The capital structure as of March 31, 2018 was as follows:

Particulars	March 31, 2018
Total equity attributable to the equity shareholders of the Company	17,204
As a percentage of total capital	69%
Long-term borrowings	7,093
Short-term borrowings	781

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 5: Appointment of Vinita Bali (DIN: 00032940) as an Independent Director of the Company.

Based on the recommendation of the Nomination and Remuneration Committee, the Board has appointed Vinita Bali as an Additional Director (Independent) of the Company, not liable to retire by rotation, effective from July 31, 2017, for a tenure of three years commencing from the date of Board's appointment till the conclusion of 27th Annual General Meeting ("AGM") proposed to be held in 2020, subject to the approval of shareholders of the Company.

The Company has, pursuant to the section 160 of the Companies Act, 2013 ("the Act") received a notice in writing from a member proposing the appointment of Vinita Bali as an Independent Director, under the provision of section 149 of the Act.

The Company has received from Vinita Bali (i) Consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of Companies (Appointment & Qualification of Directors) Rules 2014, (ii)

Intimation in Form DIR-8 in terms of Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that she is not disqualified under Section 164 (2) of Act, (iii) A declaration to the effect that she meets the criteria of independence as provided in Section 149 (6) of Act.

In the opinion of the Board, she fulfils the conditions for appointment as an Independent Director, as specified in the Act and the SEBI Listing Regulations and is Independent of the Management of the Company.

The resolution seeks the approval of the shareholders in terms of Section 149 and other applicable provisions of the Act, read with Schedule IV of the Act and the Rules made thereunder, for appointment of Vinita Bali as an Independent Director of the Company for a term of three years commencing from July 31, 2017 till the conclusion of 27th AGM proposed to be held in 2020. Vinita Bali is not liable to retire by rotation.

The profile and specific areas of expertise of Vinita Bali is provided in annexure to this notice.

A copy of the draft letter of appointment setting out the terms and conditions of appointment of an Independent Director is available for inspection, without any fee, by the shareholders at the Company's registered office during normal hours on working days up to the date of the ensuing AGM and will also be kept open at the venue of the AGM.

Except Vinita Bali and her relatives, None of the Directors, Key Managerial Personnel of the Company or their respective relatives are interested or concerned in the resolution.

The Board recommends the resolution set forth in Item No. 5 for approval of the shareholders.

Item No. 6: Re-appointment of Suresh Talwar (DIN: 00001456) as an Independent Director of the Company.

The shareholders at its 22nd Annual General Meeting ("AGM") held on June 30, 2016 had approved the appointment of Suresh Talwar as an Independent Director, for a tenure of three years commencing from the date of Board's approval till the conclusion of 25th AGM proposed to be held in the year 2018. Now, tenure of Suresh Talwar is coming to an end at this AGM.

As per section 149(10) and (11) of the Act, an independent director shall hold office for a term up to five consecutive years on the Board of the Company, but shall be eligible for re-appointment on passing of a special resolution by the Company and disclosure of such appointment in the Board's report.

Based on the recommendation of the Nomination and Remuneration Committee, the Board at its meeting held on April 25, 2018, has re-appointed Suresh Talwar as an Independent Director on the Board of the Company, not liable to retire by rotation, for another period of five years commencing from the conclusion of this AGM till the conclusion of 30th AGM proposed to be held in 2023, subject to the approval of shareholders of the Company.

The Company has, pursuant to section 160 of the Act, received a notice in writing from a member proposing the re-appointment of Suresh Talwar as an Independent Director under the provision of section 149 of the Act.

The Company has received from Suresh Talwar (i) Consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of Companies (Appointment & Qualification of Directors) Rules 2014, (ii) Intimation in Form DIR 8 in terms of Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under Section 164 (2) of Act, (iii) A declaration to the effect that he meets the criteria of independence as provided in Section 149 (6) of Act.

In the opinion of the Board, he fulfils the conditions for appointment as an Independent Director, as specified in the Act and the SEBI Listing Regulations and is Independent of the Management.

The resolution seeks the approval of the shareholders in terms of Section 149 and other applicable provisions of the Act, read with Schedule IV of the Act and the Rules made thereunder, for re-appointment of Suresh Talwar as an Independent Director of the Company for another term of five years commencing from the conclusion of this AGM till the conclusion of 30th AGM proposed to be held in 2023. Suresh Talwar is not liable to retire by rotation.

The profile and specific areas of expertise of Suresh Talwar is provided in annexure to this notice.

A copy of the draft letter of appointment setting out the terms and conditions of appointment of an Independent Director is available for inspection, without any fee, by the shareholders at the Company's registered office during normal hours on working days up to the date of the AGM and will also be kept open at the venue of the AGM.

Except Suresh Talwar and his relatives, None of the Directors, Key Managerial Personnel or their respective relatives are interested or concerned in the resolution.

The Board recommends the resolution set forth in Item No. 6 for approval of the shareholders.

Item No. 7 & 8: Approval of Syngene Restricted Stock Units Plan 2018 and grant of Restricted Stock Units to eligible employees of the Company and its subsidiaries

In the present competitive scenario, the Board of Directors of the Company (hereinafter referred to as the "Board") has identified the need to enhance the employee engagement, to reward the employees for their association and performance as well as to motivate them to contribute to the growth and profitability of the Company and to create a sense of ownership and participation amongst them.

In view of this, the Board had earlier formulated a Syngene Employee Stock Option Plan 2011 which was approved by the members of the Company on December 14, 2011 which was further ratified by the members subsequent to the IPO on December 05, 2015. Continuing with the same objective the Company has formulated a new plan by the name "Syngene International Limited Restricted Stock Units Plan 2018" (hereinafter referred to as "the Plan") for the present and/or future permanent employees of the Company and its present and future Subsidiary Company (ies) (hereinafter referred to as 'employees' or 'said employees') in accordance with the applicable laws.

In terms of the provisions of Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and Section 62 and other applicable provisions of the Act, issue of shares to employees under a scheme of employees' stock option/RSU, requires an approval of the existing Members by way of a Special Resolution and accordingly, the Special Resolution at Item No. 7 seeks your approval for the issue of further Equity Shares, under the "Syngene International Limited Restricted Stock Units Plan 2018", to the employees of the Company, as may be determined by the Board of the Company.

Further, as per Regulation 6(3)(c) of SEBI SBEB Regulations approval of the shareholders by way of separate Special Resolution is also required for grant of Restricted Stock Units (RSU's) to the employees of subsidiary company(ies), hence the Special Resolution at Item No. 8 seeks your approval for the said purpose.

The Plan shall be implemented by trust route wherein the Company will issue the shares to the Trust by way of fresh allotment over a period of time. The Plan will be administered by the Nomination and Remuneration Committee (hereinafter referred to as "Committee") of the company. The Committee shall delegate its power to the Trust to the extent it deems fit for proper administration of the Plan.

The main features and other details of the Plan as per Regulation 6(2) of SEBI (Share Based Employee Benefits) Regulations, 2014 ("SEBI SBEB Regulations") are as under:

1. Brief description of the Plan

The Plan shall be called as the Syngene International Limited Restricted Stock Units Plan 2018 ("the Plan") and shall extend its benefits to the present and/or future permanent employees of the Company and its present and future Subsidiary Company (ies), in accordance with the applicable laws.

The Plan shall be implemented by trust route wherein the Company will issue the shares to the Trust by way of fresh allotment over a period of time.

The Plan will be administered by Committee of the company. The Committee shall delegate its power to the Trust to the extent it deems fit for proper administration of the Plan.

The scheme also provides an option to the employees to exercise their shares through cashless route.

2. Total number of RSUs to be granted under the Plan.

The maximum number of RSU's to be granted under the Plan shall not exceed 1,00,00,000 (One Crore) RSU's convertible into equal number of Equity Shares of the Company of face value Rs 10/- each.

3. Identification of classes of employees entitled to participate and be beneficiaries in Plan.

- a permanent employee of the company who has been working in India or outside India; or
- a director of the company, whether a whole-time director or not but excluding an independent director; or
- an employee as defined in clause (i) or (ii) of a subsidiary company, in India or outside India.

But does not include:

- an employee who is a promoter or a person belonging to the promoter group; or
- a director who either himself or through his relative or through any body corporate, directly or indirectly, holds more than ten per cent of the outstanding equity shares of the company.

4. Requirement of Vesting and period of Vesting.

The RSU's granted under Plan shall vest based upon the performance of the Employee, subject to completion of minimum 1 (One) year from the date of Grant and as may be decided by the Committee subject to maximum period of 5 (Five) years.

The specific Vesting schedule and Vesting conditions subject to which Vesting would take place would be outlined in the grant letter given to the employee at the time of Grant of RSU's.

5. Maximum period within which the RSUs shall be vested.

The RSU's granted under the Plan shall vest as may be decided by the Committee subject to maximum period of 5 (Five) years. Vesting of RSU's would be subject to continued employment with the Company, or as the case may be, on the date of vesting.

6. Exercise Price or Pricing Formula.

Under this Plan, the Exercise price of the Shares will be the face value of the shares as on date of exercise.

7. Exercise period and process of Exercise.

The RSU's granted may be exercised by the employee within a maximum period of 5 (five) years from the date of vesting of the respective RSU's or time period as set forth in the grant letter. The grantees can exercise the vested RSU's in full or in part at different interval of time during the exercise period.

The mode and manner of the Exercise of the RSU's shall be communicated to the employees individually. On exercise of the RSU's, the employee shall forthwith pay to the Company the exercise price and applicable taxes. The RSU's shall lapse if not exercised within the specified exercise period.

8. Appraisal process for determining the eligibility of the Employees to Plan.

The appraisal process for determining the eligibility of the employees will be in accordance with the Plan or as may be determined by the Committee at its sole discretion.

The employees would be granted RSU's under the Plan based on various parameters which may include among others:

- **Performance:** Employee's performance against set objectives.
- **Designation:** Employee's designation reflecting roles and responsibilities.
- **Contribution:** The present and potential contribution of the Employee to the success of the Company.
- **Value Addition:** High market value/difficulty in replacing the Employee and value addition by the new entrant, if any.
- **Loyalty:** Tenure of employment of an Employee in the Company.

9. The Maximum number of RSUs to be granted per employee and in aggregate.

The maximum number of RSU's to be granted under this Plan shall not exceed 1,00,00,000 (One Crore).

The maximum number of RSU's that can be granted to any single eligible employee during any one-year shall not be equal to or exceed 1% of the issued capital of the Company at the time of grant of RSU's unless otherwise approved by the shareholders.

10. The Maximum quantum of benefits to be provided per Employee under the Plan.

The maximum quantum of benefit that will be provided to every eligible Employee under the Plan will be the difference between the market value of Company's Share on the Stock Exchanges as on the date of exercise of RSU's and the Exercise Price paid by the employee.

11. Implementation and administration of the Plan.

The Plan shall be implemented by trust route wherein the Company will issue the shares to the Trust by way of fresh allotment over a period of time.

The Plan will be administered by the Committee of the Company. The Committee shall delegate its power to the Trust to the extent it deems fit for proper administration of the Plan.

12. Whether the Plan involves new issue of shares by the company or secondary acquisition by the Trust or both.

The Plan shall be implemented by trust route wherein the Company will issue the shares to the Trust by way of fresh allotment over a period of time.

13. The amount of loan to be provided for implementation of the Plan by the company to the trust, its tenure, utilization, repayment terms, etc.

The amount of loan to be provided for implementation of the plan by the Company to the Trust shall not exceed 5% (Five percent) of the aggregate paid-up capital and free reserves as provided in the Act. The tenure of such loan shall be the point where the objects of the Trust are accomplished or the repayment of loan is made, whichever is earlier. The utilization of such loan shall be for the objects of the Trust as mentioned in the Trust Deed including the implementation of the plan. The Trust shall repay the loan to the company by utilising the proceeds realised from exercise of RSU's by the Employees.

14. The Maximum percentage of secondary acquisition (subject to limits specified under the regulations) that can be made by the trust for the purposes of the Plan.

Not Applicable

15. Disclosure and accounting policies.

The Company shall comply with the disclosures requirements and the accounting policies prescribed under Regulation 15 of the SEBI SBEB Regulations or as may be prescribed by regulatory authorities from time to time.

16. The method which the Company shall use to value its RSUs.

Fair Value Method or any other method as per applicable statutory provisions from time to time.

17. Statement with regard to Disclosure in Director's Report.

As the company is adopting fair value method, presently there is no requirement for disclosure in director's report. However, if in future, the Company opts for expensing of share based employee benefits using the intrinsic value, then the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value, shall be disclosed in the Directors' report and the impact of this

difference on profits and on earnings per share ("EPS") of the company shall also be disclosed in the Directors' report.'

In terms of Section 62 of the Act and Regulation 6 of the SEBI SBEB Regulations, the approval of the Shareholders is sought by way of Special Resolution for the approval of the "Syngene International Limited Restricted Stock Units Plan 2018" and issuance of shares under this plan to the employees of the Company and its present and future Subsidiary Company (ies).

 - II. Enter the login credentials (i.e. User ID and password). In case of physical folio, User ID will be EVEN (E-Voting Event Number) followed by folio number. In case of Demat account, User ID will be your DP ID and Client ID. However, if you are already registered with Karvy for e-voting, you can use your existing User ID and password for casting your vote.
 - III. After entering these details appropriately, click on "LOGIN".
 - IV. You will now reach password change Menu wherein you are required to mandatorily change your password. The new password shall comprise of minimum 8 characters with at least one upper case (A- Z), one lower case (a-z), one numeric value (0-9) and a special character (@, #, \$, etc.,). The system will prompt you to change your password and update your contact details like mobile number, email ID etc. on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.
 - V. You need to login again with the new credentials.
 - VI. On successful login, the system will prompt you to select the "EVENT" i.e., Syngene International Limited i.e. name of the Company.
 - VII. On the voting page, enter the number of shares (which represents the number of votes) as on the Cut-off Date under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and partially "AGAINST" but the total number in "FOR/AGAINST" taken together shall not exceed your total shareholding as mentioned herein above. You may also choose the option ABSTAIN. If the Member does not indicate either "FOR" or "AGAINST" it will be treated as "ABSTAIN" and the shares held will not be counted under either head.
 - (B) In case of Members receiving physical copy of Notice [for Members whose email IDs are not registered with the Company/Depository Participants(s)]:
 - i. E-Voting Event Number –(EVEN), User ID and Password is provided in the Attendance Slip.
 - ii. Please follow all steps from Sl. No. (i) to (xii) above to cast your vote by electronic means.
- VIII. Members holding multiple folios/demat accounts shall choose the voting process separately for each folio/ demat accounts.
- IX. Voting has to be done for each item of the notice separately. In case you do not desire to cast your vote on any specific item, it will be treated as abstained.
- X. You may then cast your vote by selecting an appropriate option and click on "Submit".
- XI. A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you have voted on the resolution (s), you will not be allowed to modify your vote. During the voting period, Members can login any number of times till they have voted on the Resolution(s).
- XII. Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI etc.) are also required to send scanned certified true copy(PDF Format)of the Board Resolution/Authority Letter etc., together with attested specimen signature(s) of the duly authorised representative(s), to the Scrutinizer at email sree@sreedharancs.com with a copy marked to evoting@karvy.com and Mayank.verma@syngeneintl.com. The scanned image of the above mentioned documents should be in the naming format "Corporate Name Event No." The documents should reach the Scrutinizer on or before 5:00 pm on July 24, 2018.
- (B) In case of Members receiving physical copy of Notice [for Members whose email IDs are not registered with the Company/Depository Participants(s)]:
 - i. E-Voting Event Number –(EVEN), User ID and Password is provided in the Attendance Slip.
 - ii. Please follow all steps from Sl. No. (i) to (xii) above to cast your vote by electronic means.
- II. **Voting at AGM:** The shareholders, who have not cast their vote through remote e-voting can exercise their voting rights at the Annual General Meeting ("AGM"). We have made the necessary arrangements in this regard at the AGM Venue. The facility for voting through electronic voting system ('Insta Poll') shall be made available at the AGM. Members who have already cast their votes by remote e-voting are eligible to attend the AGM; however those Members are not entitled to cast their vote again in the AGM. A Member can opt for only single mode of voting i.e. through Remote e-voting or voting at the AGM. If a Member casts votes by both modes then voting done through Remote e-voting shall prevail and vote at the AGM shall be treated as invalid.
- III. The Company has appointed Mr. V Sreedharan, Partner of M/s. V. Sreedharan & Associates, Company Secretaries, Bengaluru (FCS 2347; C.P. No. 833) as Scrutinizer to scrutinize the e-voting process in fair and transparent manner.

- IV.
