Pan India Footprint : Leading Positions Across India

Pan India presence

- Opportunities for voice growth in rural areas given rural penetration of 57.09%⁽¹⁾
- Data services to drive data consumption
- Given inadequate wire-line infrastructure, wireless services expected to cater to new demand

	Bharti Infratel Circles	Indus Towers Circles	Overlapping Circles
No of Circles	7	11	4
No. of Operators	7 - 9	8 - 10	8 -10
No. of Subs. (m) ⁽²⁾	251	663	254
Teledensity (%) ⁽²⁾	88.1%	118.6%	79.3%

Note: Map not to scale. Map for representative purpose only

In the computation of wireless teledensity, following assumptions have been made:

A. Since only UP state teledensity was available, it was assumed to be the same between UP(E) and UP(W); B. Since teledensity was reported for West Bengal including Kolkata, the same teledensity was assumed for both circles; C. Since teledensity was reported for Maharashtra including Mumbai, the same teledensity was assumed for both circles; D. Delhi includes Ghaziabad, Noida, Gurgaon and Faridabad; E. Operator refers to wireless operators providing service as of 31 Dec 2016; F. No. of SIMs refers to wireless subscribers

Industry Overview

Operator Industry Dynamics

Market Concentrated in Hands of Select Players

Post consolidation the Indian market expected to be dominated by three operators

Top 3 operators (post consolidation) have 88.3% Revenue Market Share (RMS)

Non-discriminatory nature

Right of First Refusal (RoFRs) from Anchor Operators

All operators are customers

RMS is calculated on the basis of adjusted gross revenues including NLD.

Source: TRAI Financial Data for the quarter ended December 31, 2017; Others includes Aircel, Reliance Communications, Quadrant, Sistema Shyam.

Note: Operators have been clubbed together based on their announced transactions. These are subject to regulatory and other approvals

Increasing Operator Focus on Networks

An operator agnostic business model, superior network footprint and service quality standards allow Bharti Infratel to capitalize on the growth in the data and voice market

Operator Investment in Licenses¹

- 3G/4G auctions held since 2010 led to significant investments of over \$53bn by telecom operators
- Most of this spectrum has been acquired for data networks rollout
- Airtel 4G services are currently available in 22 circles across India
- Idea Cellular has launched 4G in 20 circles
- Reliance Jio has launched 4G in 22 circles across the country

Spectrum Outlay	2010	2012	2014	2015	2016	Cumulative
(Rs bn)	1,063	94	672	1,099	658	3,585
(USD bn)	15.9	1.4	10.1	16.4	9.8	53.7

Investments by Anchor Operators³

No. of circles	Pre 2016 Auctions		Post 2016 Auctions	
	3G	4G	3G	4G
Bharti	21	22	22	22
Vodafone	16	7	18	18
Idea	13	10	15	20

Data Revolution Unfolding

- Favorable demographics –Median Age of India's population ~26 years
- Broadband penetration ~28%¹ & Internet penetration ~34%²
- Technology Adoption and smartphone penetration leading to higher data uptake

Technology shift for future growth³

Mobile subscriptions by technology, India (million)

Data growth driven by smartphone traffic

India Mobile Data Trends

Findings from NSN MBIT Index

Pan-India mobile data usage – in Petabytes PB per month, December¹

- The Indian telecom market witnessed a paradigm shift in data consumption, with 4G traffic capturing 82% share of total data traffic in December 2017
- Increase in 4G device penetration, aggressive 4G network rollout, lower data prices, and development of video and locally relevant content ecosystem have all contributed to the rise in 4G traffic
- Falling data prices, bundled data plans, better coverage footprint, offload of 4G on to 3G, and better device availability have contributed to growth in 3G payload
- Overall data traffic grew 144% in 2017, driven by surge in 3G and 4G data consumption. Access to high-speed 4G internet increased appetite for overall data consumption in the country
- A significant increase in data consumption with 4G usage reaching ~11GB/user/month

Network & Data Growth Forecasts and Recent Trends

Exponential Growth expected in Data over the next five years¹

	2016	2022	CAGR 2016-2022
Mobile subscriptions (millions)	1,160	1,480	4%
Smartphone subscriptions (millions)	270	890	22%
Mobile broadband subscriptions (millions)	290	1,260	28%
LTE subscriptions (millions)	90	520	33%
Data traffic per active smartphone (GB/month)	4.1	11	18%
Total mobile data traffic (EB/month)	1	7.8	41%

Current Data usage trends indicate significant incremental opportunity²

Average data usage/month (MB)

Source: Nokia, Analysys Mason

- 4G data consumption at ~11GB per user sustained the usage levels seen in 2016 (when 4G data was not fully monetized)
- Increased appetite for data consumption in 2017 resulted in an increase in 3G data usage
- The growth in usage is driven by affordable data packs, better network coverage, device capabilities and availability of relevant content

Source: Deloitte, SEC filings, Annual and quarterly reports, company websites; For GTL and Tower Bersama tower data corresponds to December 31, 2017; for ATC, SBA, CCI, SMN tower data corresponds to March 31, 2018. All other data corresponds to March 31, 2015 as per Deloitte Report. *Others do not include any proprietary towers of Reliance Jio and ~10k Vodafone owned towers have been adjusted following completion of sale to ATC in 4Q18

1. Bharti Infratel and Indus tower and co-locations as at March 31, 2018; Sharing factor for Bharti Infratel standalone and Indus combined

2. Combined quarterly average sharing factor for Bharti Infratel including 42% stake in Indus. Unconsolidated sharing factors for Bharti Infratel is 2.29 and for Indus is 2.30, data as of March 31, 2018.

Long Term Contracts with Visibility of Future Growth

Key Features of Master Service Agreements (MSAs)		
Tenor		Long term (10 to 15 years) with built in escalations (2.5% p.a)
Termination Penalty		Significant exit penalties
Rentals	Base Rental	- A base rental rate is applicable, based on the following factors: - Total number of service providers at the site - Ground Based Tower or Roof Top Tower
	Premium	- A variety of premiums can be levied - Rental premium - Strategic premium - Active infrastructure charges - Contract term
	Fuel Cost	- Energy costs (electricity and fuel charges) are treated as pass through in two ways: - As per the amounts incurred - Based on a rate card per circle
Service Agreement		- Specifies service levels applicable - Site access service level sets out time period within which the service provider is to be provided access to the site
Weighted Average Life of Contracts is 5.31 years; Contracted Revenues of US\$7.43bn (as of Q4 FY18 exit)		

Business Model Unique to India

Key Features of Master Service Agreements unique to India unlike US Tower Cos

Purpose	Key Feature	Result
Disarming The Operators	It is not economically rewarding for the operators to build new towers themselves	Most operators in India are not building towers on their own now
Create Natural Entry Barrier	- Sliding scale of rent - Sharing Energy Cost	It is economically unviable to erect a new tower at a location where a tower is already present
Volume vs. Value	By sharing minimal value gain the model has ensured huge volume of towers, virtually entirely built in the Tower Cos	Having over 162k towers and >365k tenancies gives tower company a huge volume play going forward⁽¹⁾

(1) As at March 31, 2018; No. of towers and tenancies for Bharti Infratel and Indus Towers (100%) combined

Demonstrated Operational and Financial Performance

FY refers to fiscal year ending March 31.

Focus on Delivering Shareholder Value

Bharti Infratel is focused on delivering return to its shareholders through multi-pronged strategy

- Pursuit of viable value accretive inorganic growth
- Leverage Diversified Customer Base to Capitalize on Data Growth
- Explore Opportunities to Return Cash to Shareholders

Dividend Philosophy:

Dividend Philosophy:

- Aim to balance capital needs and distribution to shareholders
- Target payout to be higher of ⁽¹⁾ –
 - 100% Dividends received from Indus, or
 - 60-80% of Bharti Infratel PAT (including DDT)

Total Payout Ratio of 125% in FY18 ^(2 and 3)

	FY2014	FY2015	FY2016	FY2017	FY2018
(Rs/share)					
Interim Dividend	-	4.5	-	12.0	-
Final Dividend	4.4	6.5	3.0	4.0	14.0

% payout	73%	112%	119%	130%	125%

Note:

FY refers to fiscal year ending March 31

*Profit distribution for 2016 includes buyback of Rs.20,000mn

(1) Subject to adequate liquidity for planned business activities and capital expenditure and other uses including debt servicing requirements, acquisitions and ensuring an acceptable credit rating

(2) Amounts in Rs mn Include Dividend Distribution Tax where applicable

(3) FY18 amounts are proposed and subject to shareholders' approval

New opportunities for Telecom Infrastructure development under 'Smart Cities' Project

Development of Smart Cities key for 'Digital India' Program

- Government has announced the creation of 100 Smart Cities

Communication backbone is key to a Smart City

- Entails setting up of telecom infrastructure which will include towers, micro sites and fiberized backhaul
- Essentials include 100% coverage of area by cell phone towers coupled with fiber as a backhaul
- Expectations from Smart City also include wide availability of Wi-Fi, fiber optic connectivity to home, etc.
- Smart City usual business activity for Infratel, however counterparty and business model may vary from project to project

Infratel and Indus won Smart City bids and are working towards a successful project delivery

- Infratel led Consortium has signed Agreement for setting up Intelligent Street Poles in Bhopal Smart City
- Indus has won the bids for Smart city project of Vadodara and New Delhi Municipal Corporation area
- Paves the way for both companies to participate in similar bids in the future
- Opening up new business avenues wherein benefits of the shared infrastructure model can be replicated
- Shall assess opportunities in accordance with the Company philosophy and are value accretive

Best positioned given large footprint, strong balance sheet, relationship with leading operators and proven skills to manage distributed operations

Quarterly Performance Impacted by Recent Exits

Co-locations

Revenue¹ (US\$m)

EBITDA¹ (US\$m)

AFFO^{1,4} (US\$m)

Note: Constant exchange rate of US\$ 1 = INR 65.17 has been used, which is the closing exchange rate as on March 31, 2018

(1) Revenue, EBITDA, Operating Free Cash Flow and AFFO are excluding Other Income

(2) Consolidated figures for Bharti Infratel include 42% economic interest in Indus Towers

(3) Operating Free Cash Flow calculated as EBITDA – Capex; Capex is defined as the additions to the Tangible Assets during the period

(4) Adjusted Fund from operations, AFFO is calculated as EBITDA – Maintenance Capex

(5) Based on proforma consolidated financials as per proportionate consolidation method as per IND AS

Implementation of Green Initiatives

- Bharti Infratel has institutionalized 'GreenTowers P7' programme, aimed at minimizing dependency on diesel consumption and thereby, reducing the carbon footprint
- The 'GreenTowers P7' programme is based on seven innovative ideas deploying cleaner energy technologies
- We have adopted a three-pronged strategy to run this programme:

1

Solar Installations and Diesel Free Towers

- Close to ~3,000 solar powered towers
- Over 42,000 (~46% of the Portfolio) towers across the network are Green towers

2

Improving Energy Efficiency of Towers

- Implemented hybrid battery bank solutions in towers across the country

3

Reduction of Power Consumption via Free Cooling Units (FCU)

- FCUs utilize the outside ambient air for cooling the shelter

Experienced Management Team

Akhil Gupta
Chairman

- Joined Bharti Infratel in March 2008 as Director
- Work experience of over 30 years
- Certified Chartered Accountant and fellow member of ICAI. Completed an advanced management program at Harvard Business School.
- Has received various awards including 'CEO of the Year' at the National Telecom Awards 2012, and the 'CA Business Achiever Award' at the ICAI Awards 2008

Devender Singh
Rawat
*Managing Director
& CEO*

- Joined Bharti Infratel in July 2010 as Chief Executive Officer
- Work experience of 26 years
- B.E. (Electronics & Communication)
- Completed an advanced management program at Wharton Business School.

Pankaj Miglani
*Chief Financial
Officer*

- Joined Bharti Infratel in August 2011 as Chief Financial Officer
- Work experience of 22 years

Biswajit Patnaik
*Chief Sales and
Marketing Officer*

- Joined Bharti Infratel in October 2008 as Chief Sales & Marketing Officer
- Work experience of 22 years
- Bachelors Degree from Behrampur Univ. & Diploma in Sales & Marketing Management from National Institute of Sales

Sachin Naik
*Chief Operations
Officer & Chief O&M
Officer*

- Joined Bharti Infratel in August 2016
- Work experience of 28 years
- Bachelors Degree in E&C from Karnataka Regional Engineering college, Surathkal

The top management has an average experience of over 20 years in various sectors including telecom

CSR, Awards and Recognition

Awards and Recognition

ET NOW CSR Leadership Award 2018

- Bharti Infratel received the "ET NOW CSR Leadership Award 2018" for its efforts towards building an inclusive world, by supporting inclusion of differently abled people into the mainstream through the Bharti Infratel Scholarship Program.

Gold Award - Business Excellence Framework-2018

- Bharti Infratel has won the "Gold Award - Business Excellence Framework-2018" by "RE Assets India". The award is about adopting a holistic approach to strengthen the management practices, systems and processes of an organization.

Golden Peacock Awards 2017

- Bharti Infratel was felicitated with Golden Peacock Award for Risk Management at The Singapore Global Convention. It stimulates and helps organizations to rapidly accelerate the pace of improving Risk Assessment and Management System (RAM) in the organization

National CSR & Sustainability Awards 2017

- Indus has won the Best Sustainability Report award at the 3rd edition of National CSR & Sustainability Awards 2017

Dun & Bradstreet Infra Awards 2017

- Bharti Infratel has again excelled in Dun & Bradstreet India's Top 500 Companies listings and publication for the year 2017

Best Employer Award 2017

- Aon Hewitt released the list and Bharti Infratel is one of the best Employers in India third time in row

Golden Peacock Awards 2016

- Institute of Directors has awarded Golden Peacock Awards 2016 for Sustainability for our unique initiatives and significant contributions towards promoting sustainable development

Corporate Responsibility

1. Green Towers Program

- GreenTowers P7 program
- Comprehensive energy management plan
- Aimed at using alternative, renewable and energy efficient technologies
- "Go Green" Initiative

2. Provide free quality education to underprivileged children in rural India with a special focus on girl child through Satya Bharti School Program

3. Sanitation initiatives in partnership with Bharti Foundation as part of 'Clean India Campaign'

4. Empower women through vocational and life skills training and employment through Aaghaaz program

Bharti Infratel was also conferred with 'Green Initiative of the Year 2016' title at the TowerXchange A&ME Meetup in Johannesburg for adopting green and sustainable practices in business and operations

Proposed Merger with Indus

Merger of Bharti Infratel and Indus Towers

Creating a listed pan-India tower company which will be the largest tower company in the world outside China with over 163,000 towers

Highly complementary footprints to continue to support the delivery of the Government of India's vision of 'Digital India'.

Continue to offer high quality passive infrastructure services to all telecom operators on a non-discriminatory basis

Operational synergies in the form of capex/opex savings, simplification of organization structure envisioned

Bharti Airtel and Vodafone to jointly control the combined company

Key Highlights

Basic Construct

- Vodafone shall swap its 42% in Indus against shares in combined entity as per valuation construct
- Providence or PEP shall swap its 1.5% in Indus against shares in combined entity on same basis as Vodafone
- Idea for its 11.15% in Indus & PEP for their 3.35% in Indus would have the option to either
 - Get shares in combined entity on same basis as Vodafone or
 - Get cash as per valuation construct

Valuation Construct

Valuation Construct for Issuance of Shares (Vodafone for 42% and PEP for 1.5% stake in Indus)

- The merger ratio as at the date of agreement is 1,565 shares in Infratel for every one Indus share.
- The merger ratio has been based on an agreed adjusted net debt figure as 30th September 2017 and agreed relative Enterprise Values of Rs642bn and Rs731bn respectively for Infratel and Indus. These imply an EV/LTM EBITDA of 9.47x for Indus and EV/LTM EBITDA of 9.99x for Infratel.
- The final merger ratio and hence number of shares issued will depend on the actual net debt and working capital at closing in Infratel and Indus.

Construct for Cash (Idea for 11.15% Indus and PEP for 3.35% Indus)

- Enterprise Value of Infratel and Indus will be based on the last 12 months EBITDA as at Mar'18 i.e. FY17-18, VWAP of 60 days share price of Bharti Infratel at the date of closing and net debt of Infratel on the date of closing. The resultant EV/EBITDA for Infratel shall be discounted by 10% to arrive at the equity value for Indus.

Illustrative Scenarios

Illustrative Scenarios for Issuance of Shares based on SEBI pricing guidelines:

Illustratively, based on SEBI pricing guidelines for Bharti Infratel of INR 363 per share as at 23 April 2018 (date of agreement) and reported net debt as at 31 March 2018:

- The transaction values Indus Towers at an enterprise value of INR715bn or 9.27x EV/LTM EBITDA. For Infratel, the transaction implies an enterprise value of INR619bn. This gives an EV/EBITDA multiple for Infratel of 9.63x
- Vodafone will be issued with 783.1m new shares in the combined company, in exchange for its 42% shareholding in Indus Towers. On the basis that (a) Providence decides to sell 3.35% of its 4.85% shareholding in Indus Towers for cash, and (b) Idea Group decides to sell its full 11.15% shareholding in Indus Towers for cash
- PEP will be issued 28 Mn new shares in the combined company, assuming it elects to exchange 1.5% out of its 4.85% shareholding in Indus Towers for shares with the remaining 3.35% being taken in cash.
- Assuming Idea also elects to take cash this would imply that PEP has a resulting 1.1% shareholding in the combined entity. Vodafone's 783 Mn shares would give it a 29.4% shareholding, whilst Airtel would have 37.2% with the remaining shareholders holding 32.3%.

Illustrative Scenarios for cash consideration:

- Idea Group has the option to either: (a) sell its 11.15% shareholding in Indus Towers for cash based on a valuation formula linked to the VWAP for Bharti Infratel's shares during the 60 trading days prior to completion of the merger, which, if calculated at the time of this announcement, would equate to a cash consideration of INR65bn (US\$1.0bn), or alternatively, (b) receive new shares in the combined company based on the Merger Ratio.
- The consideration for the remaining 3.35% of its shareholding in Indus Towers will be settled by Bharti Infratel in cash or shares at Providence's election. The valuation terms of the cash consideration will be identical to that for Idea Group and the valuation terms for the share consideration will be based on the Merger Ratio.

The final number of shares issued to Vodafone and the cash paid or shares issued to Idea Group and Providence, will be subject to closing adjustments, including but not limited to movements in net debt and working capital for Bharti Infratel and Indus Towers.

Note: Above numbers are notional and final number of shares will be subject to closing adjustments as mentioned above

Other Highlights

Joint Governance and Management	▪ Bharti Airtel and Vodafone will have equal rights in the combined company
Board of Directors and Management	▪ The Board of the combined company will comprise of 11 directors, of whom three will be appointed by each of Bharti Airtel and Vodafone, one will be appointed by KKR/Canada Pension Plan Investment Board and four (including the Chairman) will be independent. ▪ The management team will be confirmed prior to closing.
Lock-in	▪ None of Bharti Airtel, Vodafone or Idea Group (if it elects to receive shares), will be subject to a lock-in on their shareholdings in the combined company
Dividend policy	▪ The combined company is expected to distribute any excess cash flow to its shareholders through dividends or share buybacks, without exceeding a maximum leverage ratio of 3.0x LTM EBITDA.
Capital structure	▪ It is intended that any cash consideration paid to Idea Group and/or Providence will be financed through new debt facilities and the existing cash resources of Bharti Infratel. On the basis that Idea Group and Providence elect to receive the maximum possible cash consideration, the pro forma net debt of the combined company would have been INR56bn (US\$0.8bn) as at 31 March 2018. This is equivalent to 0.5x net debt/LTM EBITDA
Closure and approvals	▪ The transaction is conditional on regulatory and other approvals, including from Bharti Infratel shareholders, CCI, SEBI, NCLT, DoT (FDI approval), and is expected to close before the end of the financial year ending 31 March 2019.

Current Shareholding Structure

Together with Indus Towers, Bharti Infratel is a leading tower company in India

(1) Public includes 10.34% held by Silverview Portfolio Investments Pte. Ltd. (KKR) and Canada Pension Plan Investment Board

(2) As at March 31, 2018; No. of towers for Bharti Infratel is consolidated including 42% stake in Indus Towers

(3) Ranking as per India revenue market share for the quarter ended December 31, 2017 (Source: TRAI)

(4) Based on tower count (Source: Deloitte); Bharti Infratel is #2 tower company including proportionate towers based on 42% economic interest in Indus; Bharti Infratel standalone has 39,523 towers as of March 31, 2018.

(5) Bharti Airtel shareholding as on March 31, 2018, includes 3.18% held by its wholly owned subsidiary Nettle Infrastructure Investments Ltd.

Indicative Post Merger Shareholding Structures

- Based on the assumption that Idea group sells its 11.15% shares for cash and Providence elects to receive cash for its 3.35% shareholding in Indus Towers. The final number of shares issued will be subject to closing adjustments, including movements in net debt and working capital for Bharti Infratel and Indus Towers .
- Ranking as per India revenue market share for the quarter ended December 31, 2017 (Source: TRAI)

Indicative Post Merger Shareholding Structures

- Based on the assumption that Idea group and Providence elect to receive shares for their 11.15% and 4.85% shareholding in Indus Towers. The final number of shares issued will be subject to closing adjustments, including movements in net debt and working capital for Bharti Infratel and Indus Towers .
- Ranking as per India revenue market share for the quarter ended December 31, 2017 (Source: TRAI)

In Summary

Company Strategy

Promote Tower Sharing

Organic Growth and Acquisition Opportunities

Capitalize on opportunities of Data growth, Digital India, Smart Cities Initiatives of Government

Achieving Cost Efficiencies Across Tower Portfolios

Increasing Revenue and Capital Productivity

Investment Thesis

Appendix

Impact of Data Growth on Tower Industry

- Expansion of 3G / 4G Networks by Operators will necessitate demand for towers
- Propagation on higher frequency band weaker
 - Data usage to drive co-location growth
 - 3G/4G only sites to drive tower demand

Propagation effects in different bands

Tower Multiplier when Switching Frequencies		New Frequency Band				
		900 MHz	1800 MHz	2100 MHz	2300 MHz	2600 MHz
Base Frequency Band	900 MHz	1.0x	1.6x	1.9x	3.2x	3.7x
	1800 MHz		1.0x	1.2x	2.0x	2.3x
	2100 MHz			1.0x	1.7x	2.0x
	2300 MHz				1.0x	1.1x
	2600 MHz					1.0x

All operators are customers of Bharti Infratel ~ Operator Agnostic Exposure to Secular Data Growth
