MESSAGE FROM CHAIRMAN

Dixon achieved remarkable results in FY 2019, boosting

5%

growth in revenue to

₹2,99,008

lakhs

DEAR SHAREHOLDERS,

Dixon has been earnestly committed to reach the highest echelon of success since its inception. The team at Dixon is a pool of dedicated, smart and talented individuals, brimming with the prospects of enabling the company to achieve more with each step. This is exactly what we at Dixon have triumphantly effected for the past fiscal year and have been able to transform budding thoughts into acts of success.

The year has been exemplary for Dixon in terms of performance and results. Catering to the needs of our stakeholders is an agenda of paramount importance and we have been successfully capable in meeting the requisites of value creation for all. For our shareholders, the plan of action concerning the delivery of differentiated value was streamlined through the economies of scale, shifting towards the ODM model and focusing on backward integration whereas for customers, we

created value by leveraging superior technology in creating innovative product offering.

However, 2018-19 was yet another challenging year for electronics manufacturers in terms of depreciating rupee value and hardening commodity prices in the first half of the year in the domestic market. Post the arrival of the festive season and GST rate cuts, the industry saw an upward trend. Nevertheless, with discrepancies in global trade, India is expected to emerge as a major electronic manufacturing hub globally, giving opportunities to manufacturers like Dixon to expand our business footprints in the domestic as well as the international market.

Despite all the volatility presented by the market conditions, Dixon achieved remarkable results in FY 2019, boosting 5% growth in revenue to ₹ 2,99,008 lakhs. The growth in revenue was robust across

the majority of our segments, with the consumer electronics segment having maximum share of 40% followed by lighting solutions with 30.8% share in total. With the changes in cost structure, we were able to maintain healthy EBITDA and PAT margins. Our ODM business contribution has increased as compared to previous year representing a significant shift over last year.

Our strategy of backward integration has borne fruitful results across segments. This has resulted in healthy margins, strengthened relationship with customers and enabled us to enter the global market. During the year under review, we added many top-notch clients across most of our verticals including in the ODM segment. We were able to reach amongst the top five manufacturers global, in terms of scale, in LED bulbs and offered the largest bouquet of the ODM model in the washing machine segment.

We continue to put efforts in enhancing, strengthening and integrating our standard for how we conduct our business, across all our operations, and stay true to our vision of empowering society.

We, at Dixon, continue to focus on fostering internal growth and seize market opportunities in consumption and technological upgradation. On the technological side, we have installed SAP to drive efficiency and improve the information flow in the organisation. Investments for improving the quality of our products with an aim to achieve zero defects have been continuous and remain solid. With regard to the same, we have adopted six sigma projects and continuously monitored our customer complaints which have resulted in reduction in process rejection of goods as well as return of goods.

As a modern business organization, our aim is to build a user-centric business model and an innovation driven organization with amplified investment in R&D. We have been investing in capacity expansion, productivity improvement in almost all the segments and development of smart solutions in order to

accomplish our vision of being a 'one-stop-shop-solution' in our areas of operation.

The upcoming year rings a note of optimism in us, owing to a plethora of positives - firstly we have completed backward integration in the washing machine and consumer electronics segment and the order book for the same is very healthy. Secondly, in the lighting segment we have been successful in building a large scale and have been migrating more towards the ODM model and are planning to explore the global market. Lastly, the mobile segment has favorably been providing us many opportunities in terms of top brands outsourcing their production, opportunity to shift towards the ODM model and possibility of backward integration in this segment.

Apart from financial prospects, Dixon has an ambition to responsibly contribute towards economic, environmental and social development in our areas of operation. The key to being a responsible business is to create long-term value for all our stakeholders. In 2018-19, we made significant contributions to our society as a part of our CSR activities. These activities included active contribution in the field of child education, well-being of the senior citizens and eradicating hunger and malnutrition. We continue to put efforts in enhancing, strengthening and integrating our standard for how we conduct our business, across all our operations, and stay true to our vision of empowering society.

Our strategy for the coming year would be to diversify our product pipeline and enter into newer segments to capitalize on the

growing market opportunity in domestic as well as international market. In the washing machine segment, we plan to enter into fully-automatic washing machine. While, in the lighting business, we further plan to penetrate the street lighting market. We also plan to swift towards the ODM solution for mobile segment as well.

On behalf of the board, I would like to take this opportunity to express our heartfelt appreciation to all the employees of Dixon for their invaluable contribution to the company's success. I would also like to thank the board and the board members for their wisdom, guidance, support and dedicated efforts. I would also like to extend my vote of thanks to our shareholders, business partners and other stakeholders for their ongoing engagement and support.

We look forward to many more years of innovation, rewarding experiences and greater operational efficiencies and as one of the leaders in our industry space, we shall continue to invest in organic growth, R&D and scaling-up our business. The path of our evolution to become a global enterprise and to achieve a double-digit operating margin is long and arduous. However, we are making steady progress towards our goal and remain resolute in our resolve to speed up the actions needed to realize these ambitions.

Sunil Vachani

Executive Chairman

Q&A WITH **MANAGING DIRECTOR**

Q FY 2019 was the first full year for Dixon Technologies as a listed entity. In your view, what message would best summarize the achievements of the year?

A It has been another year of pleasing performance in a challenging operating environment. Our performance across all the sectors continued to be robust, supported by strong customer gain

and good growth in volume. If I had to summarize the year in one line, it would be that our strong overall performance was achieved through building of scale, shifting towards the ODM business model, completion

of backward integration in most segments, new customer additions and strengthened relationship with existing clients.

Q How pleased were you with the financial performance of the company?

A In line with our strategy to increase revenues via an organic route, we registered a robust growth of 5% from ₹ 28,575 million in FY 2018 to ₹ 29,900 million in FY 2019. Consequently, our EBITDA grew by 21% to ₹ 1,405 million with an increase in EBITDA margin of 60 bps to 4.7%. Our PAT showed an improvement of 4% to ₹ 633 million from ₹ 609 million in the previous year with the PAT margin remaining stable at 2.12%. The highest operating

profit earning segment is the lighting segment with an operating margin of 7.2% followed by home appliance segment with an operating profit margin of 9.9%.

As far as our balance sheet is concerned, we were able to maintain a healthy balance sheet. The CAPEX invested in our business segment stood at ₹ 1852 lakhs in Consumer Electronics, ₹ 1744 lakhs in Lighting

segment, ₹ 2722 lakhs in Home appliance, ₹ 1108 lakhs in mobile segment and ₹ 1348 lakhs in security devices segment. The investment is funded by a mix of debt and equity, and as of 31st March, 2019 it stood at 0.26 times with ROE and ROCE of 18.3% and 27.3% respectively.

Q What were the major highlights on the operational front?

During the year under review, overall volume growth across all the verticals was quite good. In consumer electronics segment, the production and sales volume of LED TV remained healthy with revenue by 11%. The growth was mainly on account of our association with **Xiaomi, dominating market share of more than 10% in India**. Our completion of backward integration of LCM, a fairly large R&D team in China & India and shifting more towards the ODM model added to our growth.

In the home appliances segment, revenue grew by 50%. We have around 140 models across all the categories catering to almost 30% of

the Indian market. This is backed by our large manufacturing capacity of 1 lac washing machines per month – one of the largest in the country.

Moving on to the lighting segment, we registered revenue growth of 19%. Currently, we are supplying LED bulbs to almost all the brands in India, offering them more than 2000 models. We have even initiated exporting bulbs from India for some of the clients.

In the mobile phone segment, we have initiated backward integration under this segment and have built a capacity of almost 300k to 350k of smartphones and 750k of future

phones. We have also acquired 100% share in Padget Electronics Pvt. Ltd making it our wholly owned subsidiary to strengthen the mobile segment further.

Under our security system segment, revenue from CCTV and DVR remained healthy at ₹ 11,204 lakhs during the year under review. We expanded our capacity in both these divisions with healthy order book for next year. Lastly, in the reverse logistic system, we consolidated the business and focused mainly on panel repair and mobile repair.

Q Dixon is planning to enter the global market especially in the LED segment. Does the company have the required resources to foray the global market?

A Dixon is pursuing the organic growth strategy through which we are ramping up our capacity and engaging new customers. Currently, we are one of the most competitive players and rank amongst the top five manufacturers in terms of volume of indoor lighting and LED bulbs, in the global sphere. We are experiencing major tailwinds in the sector with the given opportunity in the global lighting market. This makes us very optimistic about having a good transaction from export of LED Bulbs in the next fiscal year.

Q What steps are you taking towards sustainability and a positive environmental impact?

A As an organization, we are committed to the goal of sustainable and inclusive growth. We work towards reducing the impact of our operations on the environment and we are putting in place, policies to support the same. Our endeavor is to provide eco-friendly innovative solutions to our customers and address all the challenges of environmental impact. Our manufacturing units are ISO

9001:2015, quality management, and ISO 14001:2015, environmental management, certified from URS USA.

In order to reduce the industrialization impact, we have adopted the Restriction of Hazardous Substances Directive (RoHS) process. Through this process we restrict the use of six hazardous materials, including Lead (Pb), Mercury (Hg), Cadmium

(Cd), Hexavalent Chromium (Cr6), Polybrominated Biphenyls (PBB) and Polybrominated Diphenyl Ether (PBDE), in the manufacturing of electrical and electronic devices. Also, as part of our go-green initiative, we are in the process of installing solar roof tops panels to reduce our dependency on non-renewable sources. This will also enable us to reduce our costs and increase our efficiency.

Q What is your outlook for the company going forward?

A The opportunity landscape that lies ahead of us is wide and attractive. We can recognize significant potential in the ODM business model. Hence, we plan to penetrate the ODM solution for mobile segment as well. Our continued emphasis would remain focused on expanding our product offerings and entering into

newer segments, including street lighting and fully-automatic washing machines, to augment our domestic business. With our focus fixed on brand building initiatives, we are optimistic about leveraging various business opportunities to boost order intake in the market.

With the Indian economy on a growth trajectory and evolving industry landscape, we believe the outlook is positive and we are confident of reaching out across new boundaries of growth.

Overview and State of Company's Affairs

Indian economy continues to emerge as the fastest growing major economy in the world for the second time in a row despite a fall in the GDP growth rate. During 2018-19, the country's growth rate was hampered by various headwinds including decline in private consumption, tepid increase in investments and muted exports. The growth of electronics manufacturers also witnessed slower growth rate due to depreciating rupee value and hardening commodity prices in the first half of the year in the domestic market.

Despite these challenges in the domestic market, the performance of your Company in the year under review remained robust in terms of growth and sustainability. Your Company continued to emphasis on scaling up of operations and increase its portfolio of customers across all segments.

In line with our vision to emerge as the largest and the most cost-effective 'Complete Solution Provider' in Consumer Electronics, Home Appliances, Lighting Electronics, Mobile Phone sectors and security surveillance systems in the domestic and international market, your Company has achieved 20% to 25% of the internal target requirement

across all the verticals enabling us to strengthen our market share and giving us an edge over our competitors. Moreover, your company has successfully developed in-house capabilities to ensure backward integration in plastics moulding products, sheet metal products, polymers, wound components and LED TV Panel assembly. Also, your company has been migrating towards developing own solutions and hence not confining themselves to an EMS company. In case of washing machines, customers use the design of your Company, whereas, in the television segment, your Company is moving step by step towards creating its in-house designs. This will be a key accelerator for product indigenization. For the growth of your Company, we incurred CAPEX of ₹87.92 crore in FY 2018-19 as against ₹75.83 crore in previous year across all our segments.

Also, on 12th April, 2019, your Company had acquired 100% equity shareholding of Padget Electronics Pvt Ltd., earlier a Joint Venture Company wherein your Company held 50% equity shareholding prior to said acquisition, thereby making the said Company a Wholly owned subsidiary of your Company. Apart from the said acquisition, there has been no other acquisition, merger, expansion, modernization and diversification during the year under review.

During the year under review, the trademark “Dixon” got registered with the Trade Mark registry on 17th October, 2018 under class 37. Apart from the said registration, your Company has not developed, acquired or assigned any material Intellectual Property Rights during the year under review.

Further information on the Business overview and outlook and State of the affairs of the Company are discussed in detail in the Management Discussion & Analysis.

Appropriations

Dividend

The Directors are pleased to recommend a dividend of ₹2 per equity share of face value of ₹10/- each (@20%), payable to those shareholders whose name appears in the Register of Members of your Company as on 24th July, 2019. The payment of Dividend shall be subject to approval of shareholders at the ensuing Annual General Meeting (“AGM”) to be held on 31st July, 2019.

An amount of ₹46.56 Lakhs would be paid as Dividend Distribution tax on the Dividend.

The Board of Directors of your Company had approved and adopted the Dividend Distribution Policy containing all the necessary details as required as per SEBI (LODR) Regulations, 2015 (hereinafter referred to as “SEBI Listing

Regulations”). The Dividend shall be payable in accordance with the Dividend Distribution Policy, which is available on the website of your Company at <https://dixoninfo.com/dividend-distribution-policy/>. There has been no change in the said policy during the year. The said policy forms the part of the Annual report as **Annexure-I**.

The Register of Members and Share Transfer Books of your Company shall remain closed from 25th July, 2019 to 31st July, 2019 (both days inclusive) for the purpose of payment of final dividend for the financial year ended 31st March, 2019 and the ensuing Annual General Meeting. The Annual General Meeting is scheduled to be held on 31st July, 2019.

Transfer to Reserves

Further, during the period under review, your Company has not bought back any of its securities / has not issued any sweat equity shares / has not issued any Bonus shares and there has been no change in the voting rights of the shareholders.

Details of Employees Stock Options

Your Company has established share incentive scheme viz. Dixon Technologies (India) Limited-Employee Stock Option Plan, 2018 (“Dixon ESOP 2018” or “Plan”) pursuant to approval of members at the 25th Annual General Meeting of the Company held on 25th July, 2018. The Plan has been laid down in accordance with the terms of Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. A certificate from M/s S.N. Dhawan & Co., LLP, Statutory Auditors, in this regard would be placed at the ensuing Annual General Meeting of the Company for inspection by the members. The Company has not changed its Employee Stock Option Plan during the year. Pursuant to the said Plan, options to acquire shares could be granted to selected employees and Directors, whether a whole time director or not, but excluding Independent Director(s) of your Company and its present and future subsidiaries in India or outside India.

During the financial year, stock options have been granted to the employees of your Company and its subsidiaries under Dixon ESOP 2018. Upon exercise of the options so granted, the paid-up equity share capital of the Company will increase in terms of the Plan. The details of stock options granted by the Company are set out in **Annexure II** to this

Report in compliance with the Regulation 14 of the SEBI (Share Based Employee Benefits) Regulations, 2014.

Further, details of options granted and exercised are included in the notes to accounts forming part of Standalone financial statements.

Material Changes and Commitments affecting the Financial Position of your Company and Material Changes between the Date of the Board Report and End of the Financial Year

There have been no Material changes and commitments affecting the financial position of the Company which have occurred between the end of the Financial year of your Company to which the Financial Statements relate and the date of Board Report. After the closure of financial year under review, your Company has acquired remaining 50% equity shareholding of PEPL, effective 12th April, 2019, thereby making PEPL a wholly owned subsidiary of your Company.

Future Outlook

Considering that your Company now holds 100% shareholding of Padget Electronics Private Limited, the Group revenue is expected to rise in Fiscal year 2020.

Your Company's Board and management remain committed to maximising all the strategic opportunities while continuing

to grow the company's base business. Also, there are certain key factors which must be addressed for the growth of electronic manufacturing in India are:

- Lack of components manufacturing which has increased the import costs as well the delay in delivery of finished products.
- Need for endearing manpower equipped with varied skillsets which can be leveraged for high end manufacturing.
- Adherence and thorough implementation of governmental policies is vital in the growth of electronics manufacturing. Various policy provisions such as flexible labour and subsidized land and power tariffs will boost the manufacturing sector.

The scale of production has given your Company the operational leverage to make it competitive. The next factor which has contributed to the success of your Company is the backward integration and this has been achieved by developing in-house capabilities which were acquired over the period of time in plastics moulding products, sheet metal products, polymers, wound components and LED TV Panel assembly. Also, your Company is migrating towards developing their own solutions and hence not confining themselves to an EMS company. Your Company has adhered to its B2B business model which has allowed it to have long lasting relationship with its clients.

Corporate Governance

Your Company believes that executing strategy effectively and generating shareholder value over the long term requires high standards of corporate governance.

Throughout the year ended 31st March 2019, your Company has complied with all the provisions applicable on a listed entity including SEBI Listing Regulations and to a large extent the recommended best practices as well.

During the year under review, your Company introduced "The Handbook of Directors" which is a field guide to your Director's duties, responsibilities and liabilities. This handbook is an endeavour of your Company towards better governance initiated by Group Company Secretary and Compliance officer of the Company.

The Securities and Exchange Board of India ("SEBI") accepted some of the recommendations with or without modifications on 28th March, 2018 of the Kotak Committee on Corporate Governance and consequently, on 9th May, 2018 the SEBI amended SEBI Listing Regulations. Your Company welcomes this progressive step of SEBI and has already been in compliance with many of the recommendations made by the Kotak Committee as part of its Corporate Governance framework. Your Company shall ensure that its governance

framework incorporates the amendments introduced in the SEBI Listing Regulations and the same are complied with on or before the effective date.

Your Company is committed to the principles of 'Accountability', 'Transparency', and 'Trusteeship' in its dealing with stakeholders. Accordingly, in its endeavor to take a balanced care of stakeholders, your Company adheres to good Corporate Governance practices in its business. In terms of SEBI Listing Regulations, a separate section on "Corporate Governance" with a compliance report on corporate governance and a certificate from M/s. Shirin Bhatt & Associates, Company Secretaries, Secretarial Auditors of the Company regarding compliance of the conditions of Corporate Governance, has been provided in this Annual Report.

Management Discussion and Analysis Report

The Management Discussion and Analysis Report for the year under review as stipulated under SEBI Listing Regulations with the Stock Exchanges in India is presented in a separate section forming part of this Annual Report.

Board of Directors, Its Committees and Meetings thereof

The Board of Directors (the "Board") are responsible for and committed to sound principles of Corporate Governance in your Company.

The Board's focus is on the formulation of business strategy, policy and control. Matters reserved for the Board are those affecting your Company's overall strategic policies, finances and shareholders. These include, but are not restricted to, deliberation of business plans, risk management, internal control, preliminary announcements of interim and final financial results, dividend policy, annual budgets, major corporate activities such as material acquisitions and disposals and connected transactions.

The Board has delegated part of its functions and duties to Executive committee and day-to-day operational responsibilities are specifically delegated to the management.

The Board plays a crucial role in overseeing how the Management serves the short and long-term interests of Members and other stakeholders. This belief is reflected in our governance practices, under which we strive to maintain an effective, informed and independent Board. We keep our governance practices under continuous review and benchmark ourselves to best practices across the globe.

Your Company has a professional Board with right mix of knowledge, skills and expertise with an optimum combination of Executive, Non-Executive and Independent

Directors including one woman Director. The Board provides strategic guidance and direction to your Company in achieving its business objectives and protecting the interest of the stakeholders. Your Board is also supported by six Committees viz. Audit Committee, Nomination & Remuneration Committee, Corporate Social Responsibility Committee, Stakeholders' Relationship Committee, Executive Committee of the Board and Share Allotment Committee.

During the year under review, the designation of Dr. Ramesh Chandra Chopra (Dr. R. C. Chopra) was changed from Independent Director to Non- Executive and Non Independent Director as Dr. R. C. Chopra had been associated as an Independent Director of your Company since 14th July, 2008, whose term of 10 years under Companies Act, 2013 to serve as an Independent Director expired on 13th July, 2018.

Dr. R. C. Chopra was subsequently appointed as Additional director in the capacity of Non-Executive and Non-Independent Director by the Board at the Board Meeting

held on 26th May, 2018 which was effective from 14th July, 2018 and his appointment was subsequently regularized at the 25th Annual General Meeting of the Company held on 25th July, 2018. However, Dr. R. C. Chopra, resigned from the said position vide his resignation letter dated 6th August, 2018 as he can no longer serve as an Independent Director on the Board.

Your Company holds minimum of 4 (four) Board meetings in each calendar year with a gap of not more than one hundred and twenty days between any two consecutive Meetings. Additional meetings of the Board/ Committees are convened as may be necessary for proper management of the business operations of your Company.

The agenda and Notice for the Meetings is prepared and circulated in advance to the Directors. The Board of Directors of your Company met 6 (six) times during the Financial Year 2018-19 i.e. 4th May, 2018, 26th May, 2018, 6th August, 2018, 31st October, 2018, 30th January, 2019 and 18th March, 2019.

Dividend Distribution Policy

1. Introduction, Purpose and Scope:

Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016 mandated framing of Dividend Distribution Policy by top 500 listed companies, based on the market capitalization. Considering the provisions of the said Regulation 43A, the Board of Directors (the "Board") of Dixon Technologies (India) Limited ("Company") recognizes the need to strengthen the Corporate Governance in the Company by adopting the Dividend Distribution Policy.

The policy, in the interest of providing transparency to the shareholders, sets out the circumstances and different factors for consideration by the Board at the time of deciding on distribution or of retention of profits. In view of the said requirement, the Board of Directors of the Company recognizes the need to lay down a broad framework with regard to the distribution of dividend to its shareholders and utilization of the retained earnings. The Policy reflects the intent of the Company to reward its shareholders by distributing a portion of its profits after retaining sufficient funds for the business needs and growth of the Company.

The Company would ensure to strike the right balance between the quantum of the dividend paid and amount of profits retained in the business for various purposes. The Board of Directors will have regards to this policy while declaring/recommending dividends on the behalf of the Company. Through this policy, the Company would strive to maintain a consistent approach to dividend pay-out plans.

The Board of the Company at its meeting held on 7th February, 2018 had approved and adopted the Dividend Distribution Policy (the "Policy") pursuant to the terms of Regulation 43A of the SEBI (LODR) Regulations, 2015 read with SEBI (LODR) (Second Amendment), 2016.

The policy shall become effective from the date of its approval by the Board i.e. 7th February, 2018.

For the purpose of this Policy, Dividend includes Interim Dividend.

2. Parameters for the policy:

2.1 Operating Performance:

The Board shall determine the dividend pay-out in a particular year after taking into consideration the operating and financial performance of the Company, the advice of executive management (Executive

Chairman and Managing Director) and other relevant factors in this regard.

2.2 Operating cash flow of the Company:

In case of inadequacy in operating cash flow, the Company may need to rely on external funding to meet its financial obligations and other working capital needs. The Board will consider the same before its deciding on whether to declare dividend or retain its profits.

2.3 Inadequacy of profits:

If during any financial year, the Board determines that the profits of the Company are inadequate or in the event of loss, the Board may decide not to declare dividends for the financial year.

2.4 Statutory/ Regulatory requirements and tax considerations:

- The Company shall observe the relevant statutory requirements including those with respect to mandatory transfer of a certain portion of profits to any specific reserve(s), as may be applicable to the Company at the time of taking decision with regard to dividend declaration or retention of profit.
- Dividend distribution tax as per applicable tax regulations in India.
- Any restriction on payment of dividends by virtue of any regulation, if any, as may be applicable to the Company at the time of declaration of dividend.

2.5 Operational and working capital requirements, provision for depreciation and capital expenditure plans:

In addition to the operational and working capital requirements, the Board may also take into account the need to plough back the earnings on account of depreciation, replacement of capital assets, expansion and modernization or augmentation of capital assets, including any major capital expenditure proposal(s) and inter-corporate investments.

2.6 Prudential requirements:

The Company may take into account the following prudential requirements:-

- The need to augment long term financial resources for the Company.
- Ability of the Company to raise finance from the lending markets and capital markets and prevailing market conditions thereto.
- Prospective projects and strategic decisions in order decide to build a healthy reserve of retained earnings.

2.7 Stakeholder's expectations:

The Board, while considering the decision of dividend pay-out or retention of a certain amount entire profits of the Company, shall, as far as possible, consider the expectations of the major stake holders including the small shareholders of the Company, who generally expects for a regular dividend pay-out.

3. Other significant parameters:

3.1. Circumstances under which the shareholders may or may not expect dividend:

The Shareholders of the Company may not expect Dividend under the following circumstances:

- Significant expansion project requiring higher allocation of capital.
- Any acquisitions or joint ventures requiring significant allocation of capital.
- Utilisation of surplus cash for buy-back of securities.

3.2. Financial parameters that shall be considered while declaring dividend:

- Profits earned during the year.
- The need for ploughing back the profits into business.
- Need for conservation of cash due to economic downturn and
- Additional investments in subsidiaries/associates/ Joint Ventures.

3.3. Internal and External factors to be considered while declaring dividend.

The decision regarding dividend pay-out is a crucial business decision as it determines the amount of profit to be distributed among the shareholders and amount of profit to be retained in business. The Board of Directors may decide to declare / recommend dividend, subject to several factors and hence, any optimal policy in this regard may depend upon multifarious factors.

The dividend pay-out decision depends upon the following external and internal factors:-

External Factors:

Prevailing economic and monetary conditions including credit availability, both domestic and international.

Internal Factors:

- Restructuring events including mergers and acquisitions.
- Loan covenants entered into with Bankers / Lenders/ Financial institutions.
- Expansion of existing business.
- Legal and regulatory requirements.
- Any other relevant factors as may be deemed fit by the Board of Directors of the Company, including:

i. Policy on utilisation of retained earnings:

The Company may utilise the retained earnings for issue of fully paid bonus shares, buy back of shares, restructuring events including mergers and acquisitions, other general factors specified in this policy and for such other purposes as may be statutorily permissible.

ii. Parameters adopted with regard to various classes of shares:

- a) At present, the issued, subscribed and paid up share capital comprises only one class of equity shares.
- b) The payment of dividend shall be based on the respective rights attached to each class of shares as their terms of issue.
- c) The dividends shall be paid out of the Company's distributable profits and / or general reserves and from such other reserves as may be statutorily permissible, and shall be allocated among shareholders on a pro-rate basis according to the number of each type and class of shares held.

4. Rate/ Quantum of Dividend:

It has always been the Company's endeavour to deliver sustainable value to all its stakeholders, which has been evident from the consistent dividend track record of the Company. The Company will strive to distribute an optimal and appropriate level of the profits earned by it in its business, to the shareholders, in the form of dividend. The Company would maintain a dividend pay-out as may be determined by the Board from time to time, considering the general business factors and other significant parameters specified in this policy.

5. The Policy shall not apply to:

Determination and declaring dividend on preference shares, if any to be issued by the Company at a later date, as the same will be as per the terms of issue approved by the shareholders;

Distribution of dividend in kind, for instance- by issue of fully or partly paid bonus shares or other securities, subject to applicable law;

Distribution of cash as an alternative to payment of dividend by way of buyback of equity shares.

6. Amendments to the Policy:

This policy may be amended by the Managing Director of the Company at any time either suo-moto and / or pursuant to amendments to the LODR Regulations or such other law, rules, regulations, standards, guidelines as applicable. If there is any amendment to the policy, this policy will be deemed to have been amended and such amendment will take effect from date of the approval of such amendment.

The Black-Scholes model assumes stocks move in a manner referred to as a random walk. Random walk means that at any given moment in time, the price of the underlying stock can go up or down with the same probability. The price of a stock in time t+1 is independent from the price in time Interest rates remain constant and known: The Black -Scholes model uses the risk-free rate to represent this constant and known rate. Returns are normally distributed: This assumption suggests returns on the underlying stock are normally distributed. Constant volatility- The most significant assumption is that volatility, a measure of how much a stock can be expected to move in the near-term, is a constant over time. While volatility can be relatively constant in very short term, it is never constant in longer term. Some advanced option valuation models substitute Black-Scholes constant volatility with stochastic-process generated estimates. Liquidity- the Black-Scholes model assumes that markets are perfectly liquid and it is possible to purchase or sell any amount of stock or options or their fractions at any given time.

ANNEXURE-IV

FORM NO. MR-3 SECRETARIAL AUDIT REPORT

For The Financial Year Ended March 31st, 2019

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,

Dixon Technologies (India) Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Dixon Technologies (India) Limited** (hereinafter called the “Company”). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the Company’s books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the Financial Year ended 31st March, 2019, generally complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the period ended March 31st, 2019 to ascertain the compliances of various provisions of:

- a) The Companies Act, 2013 (the “Act”) and the Rules made thereunder;
- b) The Securities Contracts (Regulation) Act, 1956 (the “SCRA”) and the Rules made thereunder;

MANAGEMENT DISCUSSION & ANALYSIS (MD&A)

Indian Economy Overview

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers of the world over the next 10-15 years, backed by its strong democracy and partnership. (Source: IBEF)

India is the fastest-growing trillion-dollar economy in the world and the sixth-largest with a nominal GDP of USD 2.61 trillion. India is poised to become the fifth-largest economy overtaking the United Kingdom by 2019 as per the IMF projection. The country ranks third when GDP is compared in terms of purchasing power parity at USD 9.45 trillion. (Source: Top 20 Economies in the World, Investopedia)

Manufacturing has emerged as one of the high growth sectors in India. Govt had launched the 'Make in India' program to place India on the world map as a manufacturing hub.

Foreign companies are investing in India to take advantage of relatively lower wages, special investment privileges such as tax exemptions, etc. The Indian government's favorable policy regime and robust business environment have ensured that foreign capital keeps flowing into the country. According to Department for Promotion of Industry and Internal Trade (DPIIT).

The manufacturing sector of India has the potential to reach USD 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of USD 2.61 trillion along with a population of 1.32 billion people, which will be a big draw for investors. (Source: IBEF)

India has all the necessary ingredients for its major industrial push – a huge semi-skilled labour force, multiple government initiatives like Make in India, high investments and a big domestic market. Necessary support infrastructure is being developed with areas such as power being the prime focus. National Investment and Manufacturing Zones are being developed to create an ecosystem for industries in India. Initiatives like 'Make in India' and sector specific incentives to various manufacturing companies are aimed at making India a global manufacturing hub. Skill India, a multi skill development programme has been started to equip the workforce with the necessary skills required by the sector.

Industry Overview

Demand growth is likely to accelerate with rising disposable incomes, growing aspirational middle class & easy availability of consumer finance, along with investments by players to enhance distribution reach beyond the major cities. Increasing electrification of rural areas and wide usability of online sales would also aid growth in demand. Rise in working age population will also stimulate demand. Also industry factors like low product penetration levels, rising per capita incomes with sustained economic growth & in addition to Government's push for housing for all & GST rate reduction will give strong impetus to the industry & increase the affordability & consumption for these products.

Government Initiative in Consumer durable industries

- National Policy on Electronics Policy was passed by the Ministry of Electronics & Information Technology in February 2019. The policy aims to create an ecosystem for a globally competitive electronic manufacturing sector & to achieve a turnover of about USD 400 bn by 2025, target production of 1 billion mobile handsets for export. It also aims to create 10 million employment opportunities in the country by 2025.
- Rural electrification program and improved electricity supply & Government's elevated spends for rural development.
- The Union Cabinet has approved incentives up to ₹10,000 crore (USD 1.47 billion) for investors by amending the M-SIPS scheme, in order to further incentivise investments in electronics sector, create employment opportunities and reduce dependence on imports by 2020.
- The Government of India has allowed 100% Foreign Direct Investment (FDI) under the automatic route in Electronics Systems Design & Manufacturing sector. FDI into single brand retail has been increased from 51% to 100%; the government is planning to hike FDI limit in multi-brand retail to 51%. (Source: IBEF)

EMS Industry

The Indian Electronic Manufacturing Services (EMS) has witnessed a 26% CAGR over FY 13-17 to reach ₹192 bn in revenues & is expected to see a CAGR of 32% over FY 18-21E. The low penetration of consumer electronics, increased focus of brand owners to outsourcing production, and government incentives for Make-in-India are the key growth factors. Further, rising labour cost in China, along with INR depreciation and the recent increase in import duty, on various products augur well for indigenous EMS providers. Rising cost of imports from China could also potentially open export opportunities. Backward integration & economies of scale by contract manufacturers can drive better control over cost & product quality.

Segment wise Overview

Consumer Electronics: LED Television (TV):

LED TVs present a huge opportunity in India with a penetration level of just 14% households. Production of LED TVs have also grown at a fast pace in India from 8.7 million units in FY 15 to 14 million units in FY 18 and is likely to grow at CAGR of 4.4% till FY 2023. A fall in price due to a reduction in import duty on LCD panels, increasing penetration levels are driving the growth of LED or LCD TVs. (Source: Industry Reports)

The television market is also experiencing a growth in demand for smart TV due to higher internet penetration. Rising content consumption, cheaper content options, falling price of entry-level TVs, low levels of multi-TV homes in urban markets, replacement of CRT & Plasma TVs and reduction in replacement cycle should continue to drive growth (Source: CEAMA, Electronic Industries Association of India)

The consumer electronics segment of the company mainly comprises of LED TVs. This segment contributed 40% to overall revenues of the company in FY 18-19. The capacity

in the LED TVs have been expanded from 2.4 mn to 3.4 mn annually which will take care of 26% of the Indian Market requirement.

In line with the company's strategy to focus on backward integration, the Company has deepened their manufacturing facility with LCM manual insertions & have expanded the capacity there from 2.4 mn to 3.6 mn annually. Further the SMT lines have been installed & has a capacity of 1 million per annum & are making further investments and by second half of the current financial year the capacity would be expanded to 3 mn per annum

Volumes in LED TV segment were 11.3 lacs in FY 18-19, a 13% growth from FY 17-18, while the revenues were ₹1,194 crs as against ₹1,073 crs in FY 17-18, a growth of 11%. The major customers in this segment are Xioami, Panasonic, Llyod, Flipkart, Philips, Koryo.

Strong order book from Anchor customer Xiaomi & further rationalising of GST rates on larger TV's (above 32 inches) should lead to strong growth in FY 19-20

Consumer electronics (₹ crores)

Home Appliances (Washing Machine):

Production of washing machines in India increased 5.1% year on year in FY 2018 to 5.79 million units & is likely to grow at a CAGR of 9.6% till FY 2023. Washing machine market in India was estimated at around ₹7,000 crore (USD 1.09 billion) in FY 2018. The overall penetration level is just 15% in this category & semi-automatic accounts for 62% of the industry volume. Fully automatic washing machines are garnering an increasing share of the market due to reduction in prices & higher disposable incomes. (Source: CEAMA, Electronic Industries Association of India)

The Home appliances segment of the company presently comprises of semi-automatic washing machines. This segment contributed 12.5% to overall revenues of the company in FY 18-19. The company currently has 140 models from 6.0 Kg to 9.0 Kg & the capacity in this segment have been expanded from 7.2 lacs to 12 lac per annum which is 33% of the Indian Market requirement. The company has acquired in-house capabilities for designing the complete range of semi-automatic washing machines. Also, the company has in-house development of new design concepts with additional features like magic filter, water fall, side scrubber and air dry. The company undertake in-house early life test of parts as well as complete washing machines, water leakage testing and noise testing.

Volumes in Home Appliances segment grew to 7.5 lacs in FY 18-19, a stellar growth of 40% from FY 17-18, while the revenues were ₹374 crs as against ₹250 crs in FY 17-18, a strong growth of 50%. The major customers in this segment are Samsung, Godrej, Panasonic, Llyod, Flipkart.

The company has finalized the solution for top loading fully automatic washing machine & should commence production by end of Q4 of the current financial year

Strong order book in semi-automatic category, introduction of new and attractive models in the Fully Automatic category and the GST rate cut should aid growth in the medium to long term. Fully Automatic machines should continue to attract demand from metros and large urban towns due to time constraints of working class, less intervention required to operate & space constraints.

Home Appliances (₹ crores)

Lighting

Indian lighting market is one of the key drivers for growth in electronics manufacturing. The need for efficient energy lead to creation of efficient energy products and pushed the market towards LED. The Lighting market would be one of the fastest growing categories, driven by multiple factors such as 1) rising availability of electricity in rural India; 2) various government programs to drive demand through EESL; 3) government capex on roads, infrastructure and logistics, 4) continued construction of new houses across the urban areas; 5) significant reduction in LED bulbs/tube light prices; and 6) replacement of CFL bulbs and tubes along with demand for decorative lighting.

Over the past 12-15 months, the government has announced various energy saving schemes to deploy LED lighting and it has been aiding growth for the sector. Schemes such as Domestic Efficient Lighting Programme (DELP), Street Light National Programme (SLNP) are increasing awareness drives for LED lighting. These schemes had also significantly reduced the MRP of LED bulbs over the last three years. Significant reduction in cost to the consumer, lower electricity consumption, longer product life augur well for strong demand from both residential and government/ industrial projects. Robust volume growth will offset the impact of declining prices.

The Indian lighting market, which stood at ₹220 billion in 2018, is expected to grow at a CAGR of 13.6% to reach at ₹415 billion by FY 2023 (Source: CEAMA, Electronic Industries Association of India)

Mobile phones

The Demand for the mobile phone is expected to grow from USD 28 billion in FY 2017 to USD 61 billion in FY 2021. Domestic production of smart phones will rise to 360 units and that of feature phones will rise to 221 mn units by FY 2021 translating into total domestic production volume of 581 mn units Mobile Phones.

OEMs are increasingly outsourcing manufacturing to EMS partners. 66% of the manufacturing market shall be with EMS players in FY21, presenting an opportunity of 383 mn units in FY21 for the EMS industry (Source: Frost & Sullivan report)

The strong and rapid growth of the smartphone market has been made possible by several liberal policies of the Indian government, along with huge consumer demand According to IDC India, easy financing, with widely available equated monthly schemes (EMI), is driving smartphone sales in India. Also, convenience in purchasing handsets online is a key factor.

The Indian smartphone industry looks fertile, with new brands entering the market and making space with the existing ones. With budget phones a big hit with the educated middle class, more and more brands are jostling for space in the segment. At the same time, more expensive models are also gaining popularity. Market researchers predict that it isn't too difficult for India to become the leading handset market in the years to come.

This is one of the key segments where India is likely to see more growth in terms of local value addition and it will serve as the front-runner for the country's economic development. The government has announced the phase manufacturing programme (PMP) in order to raise the production of mobile components in the country.

The company manufactures both feature phones and smart phones and the company commenced SMT Line for mobile phone PCBA Manufacturing in Nov 2018. PCB is one of the most important components of the smart phone & contributes nearly 50% of the value add of the phone.

Mobile segment contributed 12 % to overall revenues of the company & Dixon 50% share of revenues for FY 18-19 was ₹355 crs. EBITDA Margins also expanded from 1% in FY 17-18 to 2.1% in FY 18-19 on account of the PCBA backward integration which has resulted in the increase the value add & the profitability. The company bought the balance 50% stake of the JV partner in Mobile business in April, 19 & will account for 100% of the revenues & profitability in FY 19-20.

Security Systems

The electronic security surveillance equipment market is growing at a CAGR of 27% over the last few years & clocked ₹5,467 crs in FY 17-18 (Dataquest estimates). The key drivers of this growth are increase in organized real estate sector, rise in threat perception, growing crime rates, data thefts, remote monitoring, growth of public infrastructure & Government initiatives leading to rise in demand for security equipment. Public safety has emerged as an important function for Governments. As cities continue to grow, security surveillance becomes the primary tool to monitor population movement and to fight crime as well.

The Indian security surveillance market is projected to grow at a CAGR over 10.5% during 2018-24. Currently, though analog-based surveillance systems have accounted for majority of the share (68%) in the overall market, yet IP-based surveillance systems are expected to increase in the next five years due to increasing IP infrastructure, declining prices and demand for remote access.

"CP Plus", trademark owned by Aditya Infotech Ltd is one of the leading industry players in the field of physical security with a market share of 24% & have been No.1 security and surveillance brand for the past 6 years.

The company entered into Security surveillance system in 2017 through a JV with Aditya Infotech Ltd for manufacturing of security devices including CCTV'S & Digital Video Recorders (DVR's)

The capacity in CCTV has been expanded from 3 lacs per month to 7 lacs per month & DVR from 50 k per month to 1.5 lacs per month from Jan, 2019. Dixon 50% share of the revenues for FY 18-19 was ₹112 crs, the order book for FY 19-20 is extremely healthy & the customer Aditya Infotech is doing very well in the market place & the company expects significant growth in profitability as capacity utilization improves

Reverse logistics

The Reverse Logistics business of the company involves repair & refurbishment of set top boxes, LED TV panels & mobile phones. This business is more strategic in nature, more to enhance the stickiness with the customers & provide them end-to-end solution. The company's LED TV Repair business is doing well & have added Panasonic & Xioami as customers lately. The mobile phone repair business continues to grow as well & the company is talking to some new accounts in that vertical as well.

SWOT Analysis

Strengths

- **Experienced and Efficient Top Management**

The top management at Dixon has along with them extensive industry and management experience. This has allowed the company to have a unique idea of the complexities involved in the business. An experienced and efficient senior management team allows the company to capture the market opportunities at right time, formulate and execute required business strategy, handle expectations of different clients, and manage the challenges posed by a dynamic environment.

- **Flexible and cost-effective manufacturing capabilities**

The company has successfully served products as per client requirements along with increased efficiency in cost, time, quality of the product, and scale in manufacturing processes. The company maintains flexibility at its plants by ways such as multiple-function training and standardization of the equipment. Various cost-effective solutions adopted by the company, helps it to sell products or prices which are competitive in nature.

- **End to End Solutions Provider**

The company which started as a colored television manufacturer has grown with time in terms of product portfolio, customer base, and technological expertise in designing and manufacturing of consumer durables and lighting products. Being an end-to-end solutions provider helped the company to satisfy its customers, promote customer loyalty and thus get repeat sales.

- **Strong relationships with a diverse top-tier customer base**

The company's major customers are well respected players in one or more product categories offered by them. The company has long-standing relationships with well-known customers across product verticals. Strong customer base will be a strong driver of the Company's future growth and help expand market share, develop new products and enter newer markets.

Weakness

- **Fluctuation in overall margin**

The company earns a comparatively higher margin in one business segment than the other. A change in product mix thus can lead to a change in margin of the company. Thus, the company is more dependent on a particular product to earn higher margins than on other products.

- **Dependent on key customers**

Dixon has entered into contracts with various companies as its main customers from different verticals. A problem with any of the customers can lead to a huge fall in profit for the company. The mobile phone division suffered a challenge because of this in FY 18-19.

Opportunities

Low penetration - India till now has an electronic industry which has low penetration. This works as an opportunity to manifold its strong business growth prospects. Identifying the right opportunity at the right time can help the company grow its profits.

Threats

Change in Tax rate- Introduction of GST had largely affected the electronics industry of India. An increase in the customs duty for any of the raw materials will also increase the cost of production. Thus, a huge change in tax rate or customs duty can have a negative effect on the electronics industry. The company imports its raw materials from China. An increase in customs duty for this will lead to a rise in cost of production of various products.

Research and Development

The Research & Development (R&D) center of Dixon concentrates on R&D for electronics hardware designing, system architecture, mechanical design, component engineering and optics design. It also gives its customers design enhancement and verification. The R&D center in Noida is equipped with latest technologies such as photometric system for light source and color analyzers. The company also has a R&D Center in China & for washing Machine in Dehradun.

R&D team of the company aims at providing techniques and measures to improve manufacturing efficiency on existing products. Improvement of efficiency is to be in an effective way that leads to cost reduction. The company has won various awards for its R&D facilities such as Development Excellence Award (semi-automatic washing machine) in 2016 from Panasonic India Private Limited. The company also received recognition for its R&D center in Noida from Department of Scientific and Industrial Research.

Key Business Developments

The fiscal year 2019 saw many developments on the operational front for the Company in terms of expanding capacities, shifting towards ODM business model, completing backward integration, acquiring new customers and strengthening relationship with the existing ones across all the segments. Through all these factors, Dixon has been able to strengthen its market share and differentiate itself from peers. To further strengthen our market share in the home appliance segment, we have established R&D centre which will enable us to deliver improved and innovative products. Dixon was even facilitated with electronic company of the year by ELCINA-EFY for its phenomenal growth and development over the years.

Risk Mitigation

Globalization Risk	The electronics industry of India faces tough competition by the electronic goods imported from China. Cheap imports from China will further pose a challenge in front of the electronics industry.	Dixon has installed measures which leads to a cost-effective way of production. Moreover, the company's aim to emerge as a cost-efficient player and attain cost leadership will help it mitigate any global economic risks.
Experience	Experience matters the most when it comes to identifying the right opportunities for business of the company. It is also important to work in a direction that will help to capture the opportunity available.	The company is in the electronics business since 1994, thus having an experience of 25 years. Company's senior management has an average experience of more than 20 years in the industry. This allows the company to capture the right opportunities at right time.
Industry Risk	Industry risk is when the industry has a whole may reach at a stagnant or declining position. This risk will not only affect a particular company but it will also affect the industry in which company deals in.	Dixon is in the industry of electronics. With rise in standard of living of people, and a change in lifestyle electronics industry is expected to grow in the years to come. The industry may face a change in taste or preference but it will never cease to exist.
Client Concentration Risk	Depending on limited number of clients for a majority share of the revenue poses a risk to the company. This risk is in terms of the fact that company may lose any of its key customers or a problem in the customer's business may affect the company as well.	Dixon has successfully maintained a strong relationship with its key customers. Some of its customers are connected with the company since last 4-5 years. Also, Dixon is constantly expanding its customer base which will help it to deal with this risk.
Regulatory Risk	The business in which Dixon deals in, requires the company to obtain or renew permits and licenses in a timely manner. The failure to do so may poses a risk to the company's revenue.	The company has made it sure to obtain or renew its licenses, permits, consents, and approvals from the government. This is being done in a manner so that Dixon's approvals are not delayed and thus there is no effect on the operations of company.

Technology Risk	The business in which Dixon deals in is affected with rapid change in technology. The company has to adopt dynamic changes in technology under electronics industry. The company has to be up to date with the rapidly changing technologies.	The company has always moved ahead with changing technology. Its R&D centers is equipped with the latest technology. Moreover, the company has expanded its product portfolio along with a change in technology in the market. For example, the company is planning to launch fully automatic washing machines to be in line with the change in technology.

INDEPENDENT AUDITOR'S REPORT

To the Members of
DIXON TECHNOLOGIES (INDIA) LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of **DIXON TECHNOLOGIES (INDIA) LIMITED** ("the Company"), which comprise the balance sheet as at 31 March, 2019, and the statement of Profit and Loss including other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Description of the Key audit matter

Key audit matter

The Company has operating facilities at various locations and based on the various incentive schemes of the respective state Government, the Company is eligible for the incentives.

The Company is required to fulfil the conditions mentioned in the notification/circular pertaining to that scheme for eligibility of incentive. The management applies its judgement for the recognition of incentive income. Where in the final determination of the claim accepted by the authorities can be modified/delayed.

Given the complexity and magnitude of potential exposures across the company, and the judgement involved, this is a key audit matter

Auditor's response

We have examined the processes and controls relating to recognition and measurement of incentive income. In this connection, we have:

- Reviewed Government schemes and policy relating to incentives of the respective state governments
- Examined registration for the scheme, subsequent departmental orders and regulations issued from time to time.
- Checked the eligibility criteria including investment made by the Company.
- Performed substantive procedures for calculation of eligible amount of incentives and the claims made by the Company.
- Reviewed management assessment for likelihood of recoverability.

Other Information

Information Other than the Ind AS Standalone Financial Statements and Auditor's Report thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises of the Director's Report and Corporate Governance Report, which we obtained on the date of this auditor's report.
- Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Director is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial

statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash

Flow dealt with by this Report are in agreement with the books of account.

- (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on 31 March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 36 (a) to the financial statements;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses - Refer Note 36 (f) to the standalone financial statements

- (iii) According to the information and explanations given to us, the Company has granted unsecured loan to a company covered in the register maintained under section 189 of the Companies Act, 2013.
 - (a) in our opinion the terms and conditions of grant of such loans are not, prima facie, prejudicial to the company's interest.
 - (b) The loan is repayable on demand
 - (c) there is no overdue amount in respect of loans granted to such company
- (iv) In our opinion and according to the information and explanations given to us, company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees, and security
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits during the year and had no unclaimed deposits at the beginning of the year within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) a. According to the information and explanations given to us, the Company is generally been regular in depositing undisputed statutory dues including, provident fund, employees' state insurance, income-tax, duty of customs, duty of excise, goods and services tax ('GST'), cess, and other material statutory dues, as applicable, to the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.
- b. According to the information and explanations given to us, the dues outstanding in respect of income-tax, goods and service tax, custom duty, duty of excise, sales tax and value added tax and other statutory dues on account of any dispute, are as follows:

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

of even date on the financial statements of DIXON TECHNOLOGIES (INDIA) LIMITED

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of DIXON TECHNOLOGIES (INDIA) LIMITED of even date)

Independent Auditor's report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls with reference to the financial statements of DIXON TECHNOLOGIES (INDIA) LIMITED ("the Company") as of 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to the financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the Institute of Chartered Accountants of India (ICAI) and deemed

to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the financial statements included obtaining an understanding of internal financial controls with reference to the financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to the financial statements.

Meaning of Internal Financial Controls with reference to the financial statements

6. A company's internal financial controls with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are

being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to the financial statements

7. Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial controls with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to the financial statements operating effectively as at 31 March 2019, based on the internal control with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting issued by the Institute of Chartered Accountants of India,.

1 CORPORATE INFORMATION

Dixon Technologies (India) Limited ('the Company') is a Public Limited Company incorporated in India having its registered office located at B-14 & 15, Phase-II, Noida, Gautam Buddha Nagar, Uttar Pradesh, India- 201305. The Company's CIN - L32101UP1993PLC066581. It was incorporated as per the provisions of the Companies Act as Dixon Utilities and Exports Private Limited in the year 1993. The Company is listed on BSE Limited and National Stock Exchange of India Limited. The Company transformed from being a manufacturer of electronic goods to leading multi-product corporation with widespread activities. The Company is primarily engaged in the manufacturing of electronics as its core business activity.

2 BASIS OF ACCOUNTING

2.1 Statement of Compliance

These Financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 as amended by the companies(Indian Accounting Standards) Amendment Rules, 2016, other relevant provisions of the Act and other accounting principles generally accepted in India.

The Financial statements of the Company for the year ended 31 March, 2019 have been approved by the Board of Directors in their meeting held on 24 May, 2019.

2.2 Functional and Presentation Currency

The Financial Statements have been presented in Indian Rupees (INR), which is also the Company's functional currency. All Financial information presented in INR has been rounded off to the nearest lakh as per the requirements of Schedule III of "the Act" , unless otherwise stated.

2.3 Use of Estimates and Judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and fair value measurement of financial instruments, these are discussed below. Key sources of estimation of uncertainty in respect of revenue recognition, employee benefits and provisions and contingent liabilities have been discussed in their respective policies.

Impairment of investments in subsidiaries

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy has been explained under note 2.7.

Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The policy has been further explained under note 2.17, 2.18 and 2.26.

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

2.4 Current vs. Non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

2.5 Inventories

Inventories are valued at Cost or Net Realizable Value, whichever is lower. Cost comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition and is determined on first in first out ('FIFO') basis. Net Realizable Value is the estimated selling price in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale. However materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

2.6 Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

2.7 Income Tax

Income Tax comprises current and deferred tax. It is recognized in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in Other Comprehensive Income.

Current Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period

Deferred Tax

Deferred Tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for Financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax relating to items recognized outside the Statement of Profit and Loss is recognized either in Other Comprehensive Income (OCI) or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax includes Tax Credit under section 115JAA of Income Tax Act, 1961 recognized as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period i.e. the period for which Tax credit is allowed to be carried forward. The company reviews the "Tax Credit Entitlement" asset at each reporting date and writes down the assets to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

2.8 Property, Plant and Equipment

Recognition and Measurement:

Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the Balance Sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).

Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.

In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour,

allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.

Reclassification to Investment Property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

Subsequent Expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to the Statement of Profit and Loss during the financial period in which they are incurred.

2.9 Depreciation and Amortization

Depreciation on tangible assets is provided on straight line method at the rates determined based on the useful lives of respective assets as prescribed in the Schedule II of the Act.

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

"In case the cost of part of tangible asset is significant to the total cost of the assets and useful life of that part is different from the remaining useful life of the asset, depreciation has been provided on straight line method based on internal assessment and independent technical evaluation carried out by external valuers, which the management believes that the useful lives of the component best represent the period over which it expects to use those components. In case of certain components of plant and machineries depreciation has been provided based on the useful life considered at 2-15 years.

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of office equipment and computer over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

Depreciation on assets built on leasehold land, which is transferrable to the lessor on expiry of lease period, is amortized over the period of lease.

Depreciation method, useful lives and residual values are reviewed at each Financial year-end and adjusted if appropriate.

Disposal of Assets

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Reclassification to Investment Property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest

on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

2.10 Leases

Determining whether an arrangement contains a lease

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

For arrangements entered prior to the date of transition, the company has determined whether the arrangement contains a lease on the basis of facts and circumstances existing on the date of transition.

Company as lessor

Finance Lease

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognized as revenue in the period in which they are earned.

Operating Lease

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease except where scheduled increase in rent compensates the Company with expected inflationary costs.

Company as Lessee

Finance Lease

Finance Leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease Payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

of return. Finance charges are charged directly to the Statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs are capitalized.

If there is no reasonable certainty that the Company will obtain the ownership by the end of lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Operating Lease

Assets acquired on leases where a significant portion of risk and reward is retained by the lessor are classified as operating leases. Lease rental are charged to Statement of Profit and Loss on a straight-line basis over the lease term, except where scheduled increase in rent compensates the Company with expected inflationary costs.

2.11 Revenue Recognition

The Company engaged in the manufacturing washing machine, Moulding and Other Electronics etc.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Description of performance obligations are as follows:

Sale of Goods

Revenue from sale of goods is recognised at the point intime when control of the asset is transferred to the customer, generally on delivery of the goods. Delivery occurs when the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Sales-related warranties associated with sale of goods cannot be purchased separately and they serve as an assurance that the products sold comply with agreed-upon specifications. Accordingly, the Company accounts for warranties in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

Interest Income

For all debt instruments measured either at amortized cost or at Fair Value through Other Comprehensive

Income (FVTOCI), interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the Financial instrument or a shorter period, where appropriate, to the gross carrying amount of the Financial asset.

Dividend Income

Dividend Income from investments is recognized when the Company's right to receive payment has been established.

Other Operating Revenue

Export incentive and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received.

Insurance claims

Insurance claims are accounted for on acceptance or to the extent amount have been received.

2.12 Employee Benefits

Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

Other Long Term Employee Benefits

Leave, as the leave accrued, if any, lapses at the end of the year and hence, no liability in respect of accrued leave arises.

Post Employment Benefits

The Company operates the following post employment schemes:

- Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

obligation is calculated annually by Actuaries using the projected unit credit method.

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.

Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in Other Comprehensive Income. Remeasurement recognized in Other Comprehensive Income is reflected immediately in retained earnings and will not be reclassified to the Statement of Profit and Loss.

Defined Contribution Plan

Defined contribution plans such as provident fund etc. are charged to the Statement of Profit and Loss as and when incurred.

Termination Benefit

Expenditure incurred on Voluntary Retirement Scheme is charged to the Statement of Profit and Loss immediately.

2.13 Government Grants

Government grants are recognized at their fair values when there is reasonable assurance that the grants will be received and the Company will comply with all the attached conditions. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. Grants related to purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Statement of Profit and Loss on a straight line basis over the expected useful life of the related asset and presented within other operating revenue or netted off against the related expenses.

2.14 Foreign Currency Transactions

Foreign currency transactions are translated into the functional currency using the spot rates of exchanges

at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

Non monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

2.15 Borrowing Cost

Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes exchange difference to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale. The Company considers a period of twelve months or more as a substantial period of time.

Transaction costs in respect of long term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

2.16 Interest in Subsidiaries and Jointly controlled entities

Investments in subsidiaries and jointly controlled entities are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries or the loss of significant influence over jointly controlled entities, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

2.17 Financial Instruments

A Financial instrument is any contract that gives rise to a Financial asset of one entity and a Financial liability or equity instrument of another entity.

Financial Assets

- Recognition and Initial Measurement:

All Financial assets are initially recognized when the company becomes a party to the contractual provisions of the instruments. A Financial asset is initially measured at fair value plus, in the case of Financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial asset.

- Classification and Subsequent Measurement:

For purposes of subsequent measurement, Financial assets are classified in four categories:

- o Measured at Amortized Cost;
- o Measured at Fair Value Through Other Comprehensive Income (FVTOCI);
- o Measured at Fair Value Through Profit or Loss (FVTPL); and
- o Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing Financial assets.

- o Measured at Amortized Cost: A debt instrument is measured at the amortized cost if both the following conditions are met:
 - The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
 - The contractual terms of the Financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such Financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

- o Measured at FVTOCI: A debt instrument is measured at the FVTOCI if both the following conditions are met:

- The objective of the business model is achieved by both collecting contractual cash flows and selling the Financial assets; and
- The asset's contractual cash flows represent SPPI.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in Other Comprehensive Income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the Statement of Profit and Loss in investment income.

- o Measured at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.
- o Equity Instruments measured at FVTOCI: Equity instrument in scope of Ind AS - 109 are measured at fair value. On initial recognition, an equity investment that is not held for trading, the company may irrevocably elect to present subsequent changes in fair value in OCI. The election is made on an investment by investment basis.
- o All other Financial instruments are classified as measured at FVTPL.

- Derecognition

The Company derecognizes a Financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the Financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

- Impairment of Financial Assets

The Company assesses at each date of Balance Sheet whether a Financial asset or a group of Financial assets is impaired. Ind AS - 109 requires expected credit losses to be measured through a loss allowance. The company recognizes lifetime expected losses for all contract assets and/ or all trade receivables that do not constitute a financing transaction. For all other Financial assets, expected credit losses are measured

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the Financial asset has increased significantly since initial recognition.

Financial Liabilities

- Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All Financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A Financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in Statement of Profit and Loss. Other Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in Statement of Profit and Loss. Any gain or loss on derecognition is also recognized in Statement of Profit and Loss.

- Financial Guarantee Contracts

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

- Derecognition

A Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

- Offsetting Financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there

is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

Derivative Financial instruments:

The Company enters into derivative Financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate and foreign exchange rate risks. The Company does not hold derivative Financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Statement of profit and loss immediately.

2.18 Impairment of Non-Financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

2.19 Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in Other Notes to Financial Statements.

Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

2.20 Intangible Assets

Recognition and Measurement

Other Intangible Assets

Software which is not an integral part of related hardware, is treated as intangible asset and are stated at cost on initial recognition and subsequently measured at cost less accumulated amortization and accumulated impairment loss, if any.

Subsequent Expenditure

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. All other expenditure is recognized in the Statement of Profit & Loss.

Amortization

- Other Intangible assets are amortized over a period of three years.
- The amortization period and the amortization method are reviewed at least at the end of each

Financial year. If the expected useful life of the assets is significantly different from previous estimates, the amortization period is changed accordingly.

Intangible Assets under Development

Intangible Assets under development is stated at cost which includes expenses incurred in connection with development of Intangible Assets in so far as such expenses relate to the period prior to the getting the assets ready for use.

2.21 Investment properties

- Investment Property is property (comprising land or building or both) held to earn rental income or for capital appreciation or both, but not for sale in ordinary course of business, use in the production or supply of goods or services or for administrative purposes.
- Upon initial recognition, an investment Property is measured at cost. Subsequently they are stated in the Balance Sheet at cost, less accumulated depreciation and accumulated impairment losses, if any.
- Any gain or loss on disposal of investment property is determined as the difference between net disposal proceeds and the carrying amount of the property and is recognized in the Statement of Profit and Loss.
- The depreciable investment property i.e., buildings, are depreciated on a straight line method at a rate determined based on the useful life as provided under Schedule II of "the Act".
- Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The net difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

2.22 Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the management. The Management monitors the operating results of all strategic business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

is measured consistently with profit and loss in the Financial statements. The operating segments have been identified on the basis of the nature of products/services:

- Segment revenue includes sales and other income directly identifiable with / allocable to the Segment including inter-Segment revenue.
- Expenses that are directly identifiable with/allocable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure.
- Income which relates to the Company as a whole and not allocable to segments is included in Unallocable income.
- Segment results includes margins on inter-segment sales which are reduced in arriving at the profit before tax of the Company.
- Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

2.23 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

2.24 Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on

the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

For cash-settled share-based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in profit or loss for the year.

2.25 Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's Financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments of subsidiaries, associate and joint ventures and impairment losses/write down in the value of investment in subsidiaries, associates and joint ventures and significant disposal of fixed assets.

2.26 Measurement of Fair Values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both Financial and non-Financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-Financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- **Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- **Level 2** — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- **Level 3** — Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets & liabilities. Involvement of external valuers is decided by the management of the company considering the requirements of Ind As and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

3 Standards issued but not yet effective

New Accounting pronouncements affecting amounts reported and/or Ind AS disclosures in the financial statements.

The following revisions to Ind ASs that have been issued but are not yet effective. The Company is evaluating the impact of these pronouncements on the financial statements:

i. Ind AS 116 - Leases

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116 Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related

Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor.

Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit and Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The Company is currently evaluating the effect of this amendment on the financial statements.

ii. Ind AS 12 Appendix C - Uncertainty over Income Tax Treatments

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates. The Company is currently evaluating the effect of this amendment on the financial statements.

iii. Amendment to Ind AS 12 - Income taxes

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Company is currently evaluating the effect of this amendment on the financial statements."

4 Significant Judgements and Key sources of Estimation in applying Accounting Policies

Information about Significant judgements and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the Financial statements is included in the following notes:

- a. Recognition of Deferred Tax Assets:** The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.
- b. Useful lives of depreciable/ amortizable assets (tangible and intangible):** Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to actual normal wear and tear that may change the utility of plant and equipment.
- c. Classification of Leases:** The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.
- d. Defined Benefit Obligation (DBO):** Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.
- e. Provisions and Contingencies:** The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.
- f. Impairment of Financial Assets:** The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.
- g. Allowances for Doubtful Debts:** The Company makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.
- h. Fair value measurement of Financial Instruments:** When the fair values of Financial assets and Financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.
- i. Warranty :** Warranty Provision is measured at discounted present value using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability. Product warranty liability and warranty expenses are recorded at the time the product is sold, if the claims of the customers under warranty are probable and the amount can be reasonably estimated.

c. Fair value hierarchy

The disclosure of the financial instruments measured at fair value, the details instrument and valuation technique are as follows:

(₹ in Lakhs)			
Particulars	Fair value hierarchy	As at 31 March, 2019	As at 31 March, 2018
Foreign currency forward contracts	Level 2	273.17	26.62

Valuation technique and key input

Discounted cash flow. Future cash flow estimated based on forward exchange rates (from observable forward exchange rates at the end of reporting period) and contract forward rates.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds, ETFs and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

NOTES TO **STANDALONE FINANCIAL STATEMENTS**

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

Valuation processes

- a. The finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the Chief Financial Officer (CFO) and the audit committee (AC).
- b. Discussions of valuation processes and results are held between the CFO, AC and the valuation team quarterly, in line with the company's quarterly reporting periods.

d. Summary statement of standalone financial risk management

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents that are derived directly from its operations.

D. Market Risk Management**I. Foreign Currency Risk**

- The operation of the Company give exposure to foreign exchange risk arising from foreign currency transactions and foreign currency loans, primarily with respect to the US\$. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The Company hedge the foreign currency exposure. The objective of the hedges is to minimize the volatility of the INR cash flows of highly probable forecast transactions.
- The company uses foreign exchange forward contracts to hedge its exposure in foreign currency risk. The company measures the forward contract at fair value through profit and loss.
- The spot component of forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points.

The foreign currency exposures for the year ended are as follows:

Description of Risk Exposure:

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such company is exposed to various risks as follow:

- Salary Increases- Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
- Investment Risk – If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.
- Discount Rate: Reduction in discount rate in subsequent valuations can increase the plan's liability.
- Mortality & disability – Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- Withdrawals – Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

Opinion

We have audited the accompanying consolidated financial statements of **Dixon Technologies (India) Limited** ("the Holding Company") and its subsidiary (Holding Company and its subsidiary together referred to as "the Group") and its joint ventures, which comprise the consolidated Balance Sheet as at 31 March 2019, and the consolidated statement of Profit and Loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies ("the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of the subsidiary and joint venture referred to on the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its joint ventures as at 31 March 2019, of consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical

responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to note 53 of the consolidated financial statements and 'Emphasis of Matter' paragraph given in statutory auditors reports on the financial statements of the subsidiary Company Padget Electronics Private Limited ("Padget") which is as below:

- a) Tri-party agreements have been entered among Padget, supplier and distributors for setting off Import payables to the suppliers against amount receivable from the distributors amounting to ₹33,331.92 Lakh. In this regard, Padget had filed application dated 3 January, 2019 with The Reserve Bank of India ("RBI") on 17 January, 2019 for approval and the same shall be adjusted in the books of Accounts once the company gets the approval from RBI.
- b) Apart from above, as on 31 March, 2019 there is payable against import to the supplier amounting to ₹8,887.34 Lakh and receivable from distributors amounting to ₹8718.68 Lakh outstanding in the books of accounts for which The Board of Directors in their meeting held on 24 May, 2019 passed resolution for setting of Import payable against amount receivable from distributor and to make an application to the Reserve Bank of India seeking its approval for such set off.

Our opinion is not modified in respect of above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

Description of the Key audit matter

Key audit matter

The Group have operating facilities at various locations and based on the various incentive schemes of the respective state Government, the Group are eligible for the incentives.

The Group are required to fulfil the conditions mentioned in the notification/circular pertaining to that scheme for eligibility of incentive. The management applies its judgement for the recognition of incentive income. Where in the final determination of the claim accepted by the authorities can be modified/delayed.

Given the complexity and magnitude of potential exposures across the company, and the judgement involved, this is a key audit matter

Auditor's response

We have examined the processes and controls relating to recognition and measurement of incentive income. In this connection, we have:

- Reviewed Government schemes and policy relating to incentives of the respective state governments
- Examined registration for the scheme, subsequent departmental orders and regulations issued from time to time.
- Checked the eligibility criteria including investment made by the Company.
- Performed substantive procedures for calculation of eligible amount of incentives and the claims made by the Company.
- Reviewed management assessment for likelihood of recoverability

Information Other than the Consolidated Financial Statements and Auditor's Report thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises of the Director's Report and Corporate Governance Report, which we obtained on the date of this auditor's report.
- Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect

to preparation of these consolidated financial statements in term of the requirements of the Act, that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated cash flows and consolidated statement of changes in equity of the Group including its joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its joint ventures and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its joint ventures are responsible for

assessing the ability of the Group and of its joint ventures to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its joint ventures are responsible for overseeing the financial reporting process of the Group and of its joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group and its joint ventures to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements of one subsidiary and one joint venture included in the consolidated financial statements, whose financial statements reflect total assets of ₹31,445.21 lakhs as at 31 March, 2019, total revenues of ₹35,626.19 lakhs, profit after tax (including other comprehensive income) of ₹593.36 lakhs and net cash outflows amounting to ₹378.93 for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiary and joint venture, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary and joint venture, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act based on our audit and on the consideration of reports of the other auditors on separate financial statements and the other financial information of subsidiary and joint ventures, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), and the Consolidated Statement of Cash Flows and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2019 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary and joint ventures, none of the directors of the Group companies and its jointly controlled companies is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of internal financial controls with reference to financial statements of the Group and its joint ventures and the operating effectiveness of such controls, refer to our separate report in **Annexure A**.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of other auditors on separate financial statements of the subsidiary and joint venture, the remuneration paid by the Holding Company and its subsidiary and joint ventures to its directors during the year is in accordance with the provisions of section 197 of the Act.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiary and joint venture, as noted in the 'Other matter' paragraph:

- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its joint ventures- Refer Note 38(a) to the consolidated financial statements.
- ii. The Group and its joint ventures did not have any material foreseeable losses on long-term contracts

including derivative contracts - Refer Note 38(f) to the consolidated financial statements.

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company

ANNEXURE A

Independent Auditor's report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the consolidated financial statements of the company as of and for the year ended 31 March 2019, we have audited the internal financial controls with reference to financial statements of Dixon Technologies (India) Limited (hereinafter referred to as the "Holding Company") and its subsidiary company and its joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary company and its joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the company's business, including adherence to the respective company's policies, the safeguarding of the company's assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company, its subsidiary company and its joint ventures as aforesaid, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter(s) paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company, its subsidiary company and its joint ventures as aforesaid.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary company and its joint ventures, which are companies incorporated in India, have, in all material respects, adequate internal financial controls system with reference to financial statements and such internal

financial controls with reference to financial statements were operating effectively as at 31 March 2019, based on internal control over financial reporting criteria.

Other Matter

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to one subsidiary and one joint venture, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1 CORPORATE INFORMATION

The Dixon Technologies (India) Limited ('the Company' or 'the Holding Company') is a Public Limited Company incorporated in India having its registered office located at B-14 & 15, Phase-II, Noida, Gautam Buddha Nagar, Uttar Pradesh, India- 201305. The Company's CIN - L32101UP1993PLC066581. It was incorporated as per the provisions of the Companies Act as Dixon Utilities and Exports Private Limited in the year 1993. The Company is listed on BSE Limited and National Stock Exchange of India Limited.

The Company transformed from being a manufacturer of electronic goods to leading multi-product corporation with widespread activities. The Company is primarily engaged in the manufacturing of electronics as its core business activity. It has one wholly owned Subsidiary Company namely ""Dixon Global Private Limited"" and two Joint Venture companies namely ""Padget Electronics Private Limited and ""AIL Dixon Technologies Private Limited"". The Parent Company, its subsidiary and Joint Venture companies together referred as "the Group".

2 BASIS OF ACCOUNTING

2.1 Statement of Compliance

These Consolidated Financial statements ('CFS') have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 as amended by the companies(Indian Accounting Standards) Amendment Rules, 2016, other relevant provisions of the Act and other accounting principles generally accepted in India.

The Consolidated Financial statements for the year ended 31 March, 2019 have been approved by the Board of Directors in their meeting held on 24 May, 2019.

2.2 Functional and Presentation Currency

The Consolidated Financial Statements have been presented in Indian Rupees (INR), which is also the Group's functional currency. All Financial information presented in INR has been rounded off to the nearest lakh as per the requirements of Schedule III of "the Act" , unless otherwise stated.

2.3 Use of Estimates and Judgements

The preparation of these consolidated financial statements in conformity with the recognition and measurement principles of Ind AS requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the consolidated financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the consolidated financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets and fair value measurement of financial instruments, these are discussed below. Key sources of estimation of uncertainty in respect of revenue recognition, employee benefits and provisions and contingent liabilities have been discussed in their respective policies.

Useful lives of property, plant and equipment

The management reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Valuation of deferred tax assets

The management reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy has been explained under note 2.8.

Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the consolidated financial statements cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The policy has been further explained under note 2.17, 2.18 and 2.26.

2.4 Current vs. Non-current classification

The Group presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current. Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

2.5 BASIS OF CONSOLIDATION

Subsidiary

Subsidiary is an entity over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiary is fully consolidated from the date on which control is transferred to the Group. Profit/(loss) and Other Comprehensive Income ('OCI') of subsidiary acquired or disposed of during the period are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable. Consolidated

subsidiary have a consistent reporting date. The Group consolidates the financial statements of the parent and its subsidiary on line by line basis adding together the items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiary are in consistency with the policies adopted by the Group

The Parent company have 100% control over its subsidiary so there is no Non controlling Interest.

Joint Venture

Investment in Joint Ventures has been accounted under the Equity Method as per Ind AS 28 - Investments in Associates and Joint Ventures. Investments in joint operations are accounted using the Proportionate Consolidation Method as per Ind AS 111 - Joint Arrangements

For the information of consolidated entities refer note 50.

2.6 Inventories

Inventories are valued at Cost or Net Realizable Value, whichever is lower. Cost comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition and is determined on first in first out (FIFO) basis. Net Realizable Value is the estimated selling price in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale. However materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

2.7 Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and in hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

2.8 Income Tax

Income Tax comprises current and deferred tax. It is recognized in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in Other Comprehensive Income.

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

Current Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

The current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred Tax

Deferred Tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for Financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Group reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire

deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax relating to items recognized outside the Statement of Profit and Loss is recognized either in Other Comprehensive Income ('OCI') or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax includes Tax Credit under section 115JAA of Income Tax Act, 1961 recognized as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period i.e. the period for which Tax credit is allowed to be carried forward. The Group reviews the "Tax Credit Entitlement" asset at each reporting date and writes down the assets to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

2.9 Property, Plant and Equipment

Recognition and Measurement:

Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the Balance Sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).

Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.

In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.

Subsequent Expenditure

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.

2.10 Depreciation and Amortization

Depreciation on tangible assets is provided on straight line method at the rates determined based on the useful lives of respective assets as prescribed in the Schedule II of the Act.

In case the cost of part of tangible asset is significant to the total cost of the assets and useful life of that part is different from the remaining useful life of the asset, depreciation has been provided on straight line method based on internal assessment and independent technical evaluation carried out by external valuers, which the management believes that the useful lives of the component best represent the period over which it expects to use those components. In case of certain components of plant and machineries depreciation has been provided based on the useful life considered at 2-15 years.

Based on technical assessment made by technical expert and management estimate, depreciates certain items of office equipment and computer over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

Depreciation on assets built on leasehold land, which is transferrable to the lessor on expiry of lease period, is amortized over the period of lease.

Depreciation method, useful lives and residual values are reviewed at each Financial year-end and adjusted, if appropriate.

Disposal of Assets

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

Reclassification to Investment Property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

2.11 Leases

Determining whether an arrangement contains a lease

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

For arrangements entered prior to the date of transition, the Group has determined whether the arrangement contains a lease on the basis of facts and circumstances existing on the date of transition.

Group as lessor

Finance Lease

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognized as revenue in the period in which they are earned.

Operating Lease

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease except where scheduled increase in rent compensates the Group with expected inflationary costs.

Group as Lessee

Finance Lease

Finance Leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease Payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly to the Statement of Profit and Loss. Lease management fees, legal charges and other initial direct costs are capitalized.

If there is no reasonable certainty that the Group will obtain the ownership by the end of lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Operating Lease

Assets acquired on leases where a significant portion of risk and reward is retained by the lessor are classified as operating leases. Lease rental are charged to Statement

of Profit and Loss on a straight-line basis over the lease term, except where scheduled increase in rent compensates the Group with expected inflationary costs.

2.12 Revenue Recognition

The Group engaged in the manufacturing washing machine, moulding, mobiles and Other Electronics etc.

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. Description of performance obligations are as follows:

Sale of Goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Delivery occurs when the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Sales-related warranties associated with sale of goods cannot be purchased separately and they serve as an assurance that the products sold comply with agreed-upon specifications. Accordingly, the Group accounts for warranties in accordance with IAS 37 Provisions, Contingent Liabilities and Contingent Assets.

Interest Income

For all debt instruments measured either at amortized cost or at Fair Value through Other Comprehensive Income (FVTOCI), interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the Financial instrument or a shorter period, where appropriate, to the gross carrying amount of the Financial asset.

Dividend Income

Dividend Income from investments is recognized when the Group's right to receive payment has been established

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

Other Operating Revenue

Export incentive and subsidies are recognized when there is reasonable assurance that the Group will comply with the conditions and the incentive will be received.

Insurance claims

Insurance claims are accounted for on acceptance or to the extent amount have been received.

2.13 Employee Benefits

Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

Other Long Term Employee Benefits

Leave, as the leave accrued, if any, laps at the end of the year and hence, no liability in respect of accrued leave arises.

Post Employment Benefits

The Group operates the following post employment schemes:

- Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using

the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.

Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in Other Comprehensive Income. Remeasurement recognized in Other Comprehensive Income is reflected immediately in retained earnings and will not be reclassified to the Statement of Profit and Loss.

Defined Contribution Plan

Defined contribution plans such as provident fund etc. are charged to the Statement of Profit and Loss as and when incurred.

Termination Benefit

Expenditure incurred on Voluntary Retirement Scheme is charged to the Statement of Profit and Loss immediately.

2.14 Government Grants

Government grants are recognized at their fair values when there is reasonable assurance that the grants will be received and the Group will comply with all the attached conditions. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. Grants related to purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Statement of Profit and Loss on a straight line basis over the expected useful life of the related asset and presented within other operating revenue or netted off against the related expenses.

2.15 Foreign Currency Transactions

Foreign currency transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

Non monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

2.16 Borrowing Cost

Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes exchange difference to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale. The Group considers a period of twelve months or more as a substantial period of time.

Transaction costs in respect of long term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

2.17 Financial Instruments

A Financial instrument is any contract that gives rise to a Financial asset of one entity and a Financial liability or equity instrument of another entity.

Financial Assets

Recognition and Initial Measurement:

All Financial assets are initially recognized when the Group becomes a party to the contractual provisions of the instruments. A Financial asset is initially measured at fair value plus, in the case of Financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial asset.

Classification and Subsequent Measurement:

For purposes of subsequent measurement, Financial assets are classified in four categories:

- o Measured at Amortized Cost;
- o Measured at Fair Value Through Other Comprehensive Income (FVTOCI);

- o Measured at Fair Value Through Profit or Loss (FVTPL); and
- o Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing Financial assets.

- o Measured at Amortized Cost: A debt instrument is measured at the amortized cost if both the following conditions are met:
 - The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
 - The contractual terms of the Financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such Financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

- o Measured at FVTOCI: A debt instrument is measured at the FVTOCI if both the following conditions are met:
 - The objective of the business model is achieved by both collecting contractual cash flows and selling the Financial assets; and
 - The asset's contractual cash flows represent SPPI.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in Other Comprehensive Income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the Statement of Profit and Loss in investment income.

- o Measured at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

- o Equity Instruments measured at FVTOCI: Equity instrument in scope of Ind AS - 109 are measured at fair value. On initial recognition, an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in OCI. The election is made on an investment by investment basis.
- o All other Financial instruments are classified as measured at FVTPL.

Derecognition

The Group derecognizes a Financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the Financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

Impairment of Financial Assets

The Group assesses at each date of Balance Sheet whether a Financial asset or a group of Financial assets is impaired. Ind AS - 109 requires expected credit losses to be measured through a loss allowance. The Group recognizes lifetime expected losses for all contract assets and/ or all trade receivables that do not constitute a financing transaction. For all other Financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the Financial asset has increased significantly since initial recognition.

Financial Liabilities

Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All Financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A Financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in Statement of Profit and Loss. Other Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange

gains and losses are recognized in Statement of Profit and Loss. Any gain or loss on derecognition is also recognized in Statement of Profit and Loss.

Financial Guarantee Contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

Derecognition

A Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting Financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

Derivative Financial instruments:

The Group enters into derivative Financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate and foreign exchange rate risks. The Group does not hold derivative Financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Statement of profit and loss immediately.

2.18 Impairment of Non-Financial Assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

2.19 Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Group discloses the existence of contingent liabilities in Other Notes to Financial Statements.

Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

2.20 Intangible Assets

Recognition and Measurement

Other Intangible Assets

Software which is not an integral part of related hardware, is treated as intangible asset and are stated at cost on initial recognition and subsequently measured at cost less accumulated amortization and accumulated impairment loss, if any.

Subsequent Expenditure

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Group and the cost of the item can be measured reliably. All other expenditure is recognized in the Statement of Profit & Loss.

Amortization

- Other Intangible assets are amortized over a period of three years.
- The amortization period and the amortization method are reviewed at least at the end of each Financial year. If the expected useful life of the assets is significantly different from previous estimates, the amortization period is changed accordingly.

Intangible Assets under Development

Intangible Assets under development is stated at cost which includes expenses incurred in connection with development of Intangible Assets in so far as such expenses relate to the period prior to the getting the assets ready for use.

2.21 Investment properties

Investment Property is property (comprising land or building or both) held to earn rental income or for capital appreciation or both, but not for sale in ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Upon initial recognition, an investment Property is measured at cost. Subsequently they are stated in the Balance Sheet at cost, less accumulated depreciation and accumulated impairment losses, if any.

Any gain or loss on disposal of investment property is determined as the difference between net disposal proceeds and the carrying amount of the property and is recognized in the Statement of Profit and Loss.

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

The depreciable investment property i.e., buildings, are depreciated on a straight line method at a rate determined based on the useful life as provided under Schedule II of "the Act".

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The net difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

2.22 Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the management. The Management monitors the operating results of all strategic business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit and loss and is measured consistently with profit and loss in the Financial statements. The operating segments have been identified on the basis of the nature of products/services:

Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter-segment revenue.

Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Group as a whole and not allocable to segments are included under unallocable expenditure.

Income which relates to the Group as a whole and not allocable to segments is included in Unallocable income.

Segment results includes margins on inter-segment sales which are reduced in arriving at the profit before tax of the Group.

Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.

2.23 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse

share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

2.24 Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

For cash-settled share-based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in profit or loss for the year.

2.25 Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Group's Financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments of subsidiaries, associate and joint ventures and impairment losses/write down in the value of investment in subsidiaries, associates and joint ventures and significant disposal of fixed assets.

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

2.26 Measurement of Fair Values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both Financial and non-Financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-Financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 — Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets & liabilities. Involvement of external valuers is decided by the management of the Group considering the requirements of Ind As and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

3 Standards issued but not yet effective

New Accounting pronouncements affecting amounts reported and /or Ind AS disclosures in the consolidated financial statements.

The following revisions to Ind ASs that have been issued but are not yet effective. The Group is evaluating the impact of these pronouncements on the financial statements:

i. Ind AS 116 - Leases

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116 Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor.

Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit and Loss. The Standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The Group is currently evaluating the effect of this amendment on the financial statements."

ii. Ind AS 12 Appendix C -

Uncertainty over Income Tax Treatments

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates. The Group is currently evaluating the effect of this amendment on the financial statements.

iii. Amendment to Ind AS 12 - Income taxes

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Effective date for application of this amendment is annual period beginning on or after April 1, 2019. The Group is currently evaluating the effect of this amendment on the consolidated financial statements.

4 Significant Judgements and Key sources of Estimation in applying Accounting Policies

Information about Significant judgements and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the Financial statements is included in the following notes:

- a. Recognition of Deferred Tax Assets: The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.
- b. Useful lives of depreciable/ amortizable assets (tangible and intangible): Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to actual normal wear and tear that may change the utility of plant and equipment.
- c. Classification of Leases: The Group enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.
- d. Defined Benefit Obligation (DBO): Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning

future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Group considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.

- e. Provisions and Contingencies: The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.
- f. Impairment of Financial Assets: The Group reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.
- g. Allowances for Doubtful Debts: The Group makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.
- h. Fair value measurement of Financial Instruments: When the fair values of Financial assets and Financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.
- i. Warranty : Warranty Provision is measured at discounted present value using pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability. Product warranty liability and warranty expenses are recorded at the time the product is sold, if the claims of the customers under warranty are probable and the amount can be reasonably estimated.

a. Capital Management

The Group objective to manage its capital is to ensure continuity of business while at the same time provide reasonable returns to its various stakeholders but keep associated costs under control. In order to achieve this, requirement of capital is reviewed periodically with reference to operating and business plans that take into account capital expenditure and strategic Investments. Sourcing of capital is done through judicious combination of equity/internal accruals and borrowings, both short term and long term. Net debt (total borrowings less current investments and cash and cash equivalents) to equity ratio is used to monitor capital.

Notes:

- There are no significant difference among the fair value of financial assets and liabilities classified as measured at cost or measured at fair value through profit and loss accordingly no separate disclosure of the same have been disclosed.
- The derivative instruments with respect to forward contract are accounted for as fair value hedge.
- The Group has not classified any financial assets as hedge instruments and hence hedge accounting is not applicable.

c. Fair value hierarchy

The disclosure of the financial instruments measured at fair value. The details of instrument and valuation technique are as follows:

(₹ in Lakhs)

	Fair value hierarchy	Year Ended 31 March, 2019	Year Ended 31 March, 2018
Financial assets			
Investments	Level 2	760.55	1,111.69
Financial liabilities			
Foreign currency forward contracts	Level 2	384.54	26.57

Valuation technique and key input

Discounted cash flow. Future cash flow estimated based on forward exchange rates (from observable forward exchange rates at the end of reporting period) and contract forward rates.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds, ETFs and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

There are no transfers between levels 1 and 2 during the year.

Valuation processes

- The finance department of the Group includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the Chief Financial Officer (CFO) and the audit committee (AC).

NOTES TO **CONSOLIDATED FINANCIAL STATEMENTS**

- b. Discussions of valuation processes and results are held between the CFO, AC and the valuation team quarterly, in line with the Group's quarterly reporting periods.

d. Summary statement of financial risk management

The Group's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include, trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group is exposed to market, credit and liquidity risk.

The Group senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Group are accountable to the Board of Directors and Audit Committee. This process provides assurance to the Group senior management that the Group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with the Group policies and the Group risk objective.

A. Credit Risk Management

Credit risk is managed on group basis. For banks and financial institutions, only high rated banks/institutions are accepted.

For other financial assets, the Group assesses and manages credit risk based on internal credit rating system. The finance function consists of a separate team who assesses and maintains an internal credit rating system. Internal credit rating is performed on a group basis for each class of financial instruments with different characteristics.

The Group's exposure to customers is diversified and two customer contributes to more than 10% of outstanding trade receivable ₹28,970.55 Lakh (Previous year ₹7819.02 Lakhs) as at 31 March, 2019 and 31 March, 2018.

Additional provision made	197.38	98.06
Provision adjusted against the amount written off	233.45	-
Closing provision	363.67	399.74

The provision for loss allowances of loan and advances and trade receivables have been made by the management on the evaluation of trade receivables. The management at each reporting period made an assessment on recoverability of balances and on the best estimate basis the provision for loss allowances have been created.

B. Liquidity Risk

- 1 The Group determines its liquidity requirement in the short, medium and long term. This is done by drawings up cash forecast for short term and long term needs.
- 2 The Group manage its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for diversified funding sources and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in certain fixed deposit which provide flexibility to liquidate. Besides, it generally has certain undrawn credit facilities which can be assessed as and when required; such credit facilities are reviewed at regular basis.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Group may be required to pay.

C. Market Risk Management

I. Foreign Currency Risk

- The operation of the Group give exposure to foreign exchange risk arising from foreign currency transactions and foreign currency loans, primarily with respect to the US\$. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The Group hedge the foreign currency exposure. The objective of the hedges is to minimize the volatility of the INR cash flows of highly probable forecast transactions.
- The Group uses foreign exchange forward contracts to hedge its exposure in foreign currency risk. The company measures the forward contract at fair value through profit and loss.
- The spot component of forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points.

The foreign currency exposures for the year ended are as follows:

		As at 31 March, 2019			As at 31 March, 2018

53 The Padget Electronics Private Limited ("Padget"), a joint control Company has been engaged by Rstar Limited ("Rstar"), Goldex (HK) Technology Limited ("Goldex"), and Syntech (HK) Technology Limited ("Syntech") (Rstar, Goldex and Syntech collectively referred to as "Suppliers" and individually as "Supplier") to manufacture mobile phones under the brand Gionee pursuant to manufacturing agreement dated 30th March, 2016 entered into by Padget with Rstar ("Manufacturing Agreement"). Pursuant to the Manufacturing Arrangement, the Padget has been importing Parts & Components directly from the Suppliers for the purpose of manufacturing the Products and the Padget is selling the manufactured Products to the distributors ("Distributors") appointed by the Suppliers in India.

As per the commercial arrangement between Padget and the Suppliers, the liability and obligation to ensure that Padget receive payment from the Distributors was on the Suppliers. The Distributors has not made the payment to Padget as the Suppliers have not been able to provide requisite service support/sales support/market support to the Distributors. The Distributors claimed to have bear the cost of same and insisted that the amount so incurred by the Distributors must be adjusted against the amount payable to Padget against purchase of Products. Since Padget has not received payment from the Distributors, it has not been able to make payment to the Suppliers towards import of the materials during the financial year 2016-17, 2017-18 and 2018-19.

To consider and adopt (a) the audited Standalone financial statements of the Company for the financial year ended 31st March, 2019 and the reports of the Auditors and Board of Directors thereon; and (b) the audited consolidated financial statements of the Company for the financial year ended 31st March, 2019 and the report of Auditors thereon and in this regard, pass the following resolutions, with or without modification(s), as an Ordinary Resolutions:

- (a) **“RESOLVED THAT** the audited standalone financial statements of the Company for the financial year ended 31st March, 2019 and the reports of the Auditors and Board of Directors thereon laid before this meeting, be and are hereby considered and adopted.”
- (b) **“RESOLVED THAT** the audited consolidated financial statements of the Company for the financial year ended 31st March, 2019 and the report of Auditors thereon laid before this meeting, be and are hereby considered and adopted.”

Item No. 2. Declaration of Dividend

To declare a final dividend of ₹2 per equity share for the Financial Year 2018-19.

Rational: With an intention that the members of the Company should also have an access to distributable earnings of the Company, the Company proposes to declare the aforesaid Dividend.

Therefore, members are requested to consider and if thought fit, to pass the following resolution with or without modification(s), as an Ordinary Resolution:

“RESOLVED THAT a dividend at the rate of ₹2/- (Rupees Two only) per equity share of ₹ 10/- (Ten Rupees) each fully paid-up of the Company be and is hereby declared for the financial year ended 31st March, 2019 and the same be paid as recommended by the Board of Directors of the Company, out of the profits of the Company for the financial year ended 31st March, 2019.”

Item No. 3. Appointment of Mr. Sunil Vachani as a Director liable to retire by rotation

To appoint a Director in place of Mr. Sunil Vachani, Executive Chairman and Whole Time Director (DIN: 00025431) who retires by rotation and being eligible, offers himself for re-appointment.

Rational: Mr. Sunil Vachani, being longest in the office amongst the Directors, liable to retire by rotation, is proposed to retire at the ensuing Annual General Meeting. Given his expertise, vast experience in the Electronic Manufacturing Industry and his contribution to the success of the Company, it is proposed to re-appoint him as a Director. Also, refer the explanation given under item No: 3 on page No: 9.

To the extent that Mr. Sunil Vachani is required to retire by rotation, he would need to be re-appointed as a Director of the Company, who shall continue his term as Executive Chairman and Whole Time Director of the Company.

Therefore, members are requested to consider and if thought fit, to pass the following resolution, with or without modification, as an Ordinary Resolution:

“RESOLVED THAT pursuant to Section 152 and other applicable provisions, if any, of the Companies Act, 2013, read with Article 58 of the Articles of Association of the Company, the approval of the Members of the Company be and is hereby accorded to the re-appointment of Mr. Sunil Vachani (DIN: 00025431) as a Director of the Company, who shall continue as Executive Chairman and Whole Time Director of the Company, to the extent that he is required to retire by rotation.”

B. SPECIAL BUSINESS**Item No. 4. Ratification of Remuneration to be Paid to M/S. A. N. Satija & Co., Cost Accountants, Cost Auditors of the Company**

Rational: Refer the explanation given under Item no. 4 on page no. 9

To consider and if thought fit, to pass the following resolution with or without modification(s) as an Ordinary Resolution:

“RESOLVED THAT pursuant to the provisions of Section 148 and all other applicable provisions, if any, of the Companies Act, 2013 and the Companies (Audit and Auditors) Rules, 2014 (including any statutory modification(s) or re-enactment thereof for the time being in force), M/s A.N. Satija & Co., Cost Accountants (Firm Registration Number 100267) appointed as Cost Auditors by the Board of Directors to Audit the cost records of the Company for the financial year 2019-20, be paid a remuneration of ₹3,75,000 per annum plus applicable taxes and reimbursement of out of pocket expenses incurred in connection with the aforesaid audit, be and is hereby ratified and confirmed by the members.

RESOLVED FURTHER THAT for the purpose of giving effect to this resolution, the Board of Directors be and is hereby authorised to do all such acts, deeds, matters and things as it may in its absolute discretion deem necessary, proper, or desirable and to settle any question, difficulty, doubt that may arise thereof and further to do all such acts, deeds and things and to execute all documents and writings as may be necessary, proper, desirable or expedient to give effect to this resolution.”

Item No. 5. To appoint Mr. Keng Tsung Kuo (DIN: 03299647) as a Non-Executive and Independent Director of the Company.

Rational: Refer the explanation given under Item no. 5 on page no. 9

To consider and, if thought fit, to pass, with or without modification(s), the following resolution as an Ordinary Resolution:

“RESOLVED THAT Mr. Keng Tsung Kuo (DIN: 03299647), who was appointed as an Additional Director in the capacity of Non-executive and Independent Director of the Company with effect from 12th April, 2019 by the Board of Directors and who holds office up to the date of this Annual General Meeting of the Company in terms of Section 161 of the Companies Act, 2013 (the ‘Act’) and who is eligible for appointment be and is hereby appointed as a Director of the Company.

RESOLVED FURTHER THAT pursuant to the provisions of Sections 149, 150, 152 and other applicable provisions, if any, of the Act (including any statutory modification or re-enactment thereof for the time being in force) read with Schedule IV of the Act and the Companies (Appointment and Qualification of Directors) Rules, 2014, as amended from time to time and Regulation 16(1)(b) of SEBI (Listing Obligations and Disclosure requirements) Regulation, 2015 (“SEBI Listing Regulations”), as amended from time to time, Mr. Keng Tsung Kuo (DIN: 03299647), who has submitted a declaration that he meets the criteria of independence as provided in Section 149(6) of the Act and Regulation 16(1)(b) of SEBI Listing Regulations and who is eligible for appointment, be and is hereby appointed as Non-executive and Independent Director of the Company, not liable to retire by rotation, for a term of five consecutive years commencing from 12th April, 2019 to 11th April, 2024, pursuant to recommendation of Nomination and Remuneration Committee.”

Item No. 6. Re-Appointment of Mr. Manoj Maheshwari (DIN: 02581704) as Non-Executive and Independent Director for Second Term of 5 Consecutive Years W.e.f. 3rd May, 2020.

Rational: Refer the explanation given under Item no. 6 on page no. 10
