TECHNICAL AND INDUSTRY RELATED TERMS

TERM	DESCRIPTION
AC	Air Conditioners
Alloy	Any combination or compound of metals fused together; a mixture of metals.
Alumina	Any of several forms of aluminium oxide used in aluminium production and in abrasives, refractories, ceramics, and electrical insulation. Alumina occurs naturally as the mineral corundum and, with minor traces of chromium and cobalt, as the minerals ruby and sapphire, respectively. In its hydrated form it also occurs as the rock bauxite. Also called aluminium oxide.

TERM	DESCRIPTION
Aluminium	Aluminium is a soft, durable, lightweight, ductile and malleable metal with appearance ranging from silvery to dull gray, depending on the surface roughness. Aluminium is non-magnetic and does not easily ignite.
Aluminium Armour rods	Aluminium Armour rods are manufactured using high strength corrosion resistant aluminium alloy wire. Aluminium armour rods may be used in all environments.
Aluminium Billets	A billet is a length of metal (aluminium) that has a round or square cross-section, with an area less than 36 sq. inches (230 cm ²). Billets are created directly via continuous casting or extrusion or indirectly via rolling an ingot. Billets are further processed via profile rolling and drawing. Final products include bar stock and wire.
Aluminium Extrusion	Aluminium extrusions are of different kinds and can be broadly classified as channels, angles, frames, tubes, trims and pipes.
Aluminium Foils	Aluminium foil is aluminium prepared in thin metal leaves, with a thickness less than 0.2 millimeters.
Aluminium Ingots	An ingot is a material usually metal (Aluminium), that is cast into a shape suitable for further processing. Ingots are large rough castings designed for storage and transportation. The shape usually resembles a rectangle or square with generous fillets. They are tapered, usually with the big-end-down.
Aluminium Slabs	A slab is a length of metal (Aluminium) that is rectangular in cross-section. It is created directly from continuous casting or indirectly by rolling an ingot. Slabs are usually further processed via flat rolling, skelping, and pipe rolling. Common final products include sheet metal, plates, strip metal, pipes, and tubes.
Anodising	Anodising is the general name applied to methods of treating metals, where the work piece is made the anode in an electrolytic cell, usually to form oxide coatings for the purpose of increasing the performance of the surface. In the case of aluminium, the anodising process forms a layer of aluminium oxide - Al ₂ O ₃ - or corundum, which is very hard, relatively inert, electrically insulating and can absorb dyes to colour the film.
Bauxite	A soft, whitish to reddish-brown rock consisting mainly of hydrous aluminium oxides and aluminium hydroxides along with silica, silt, iron hydroxides, and clay minerals. Bauxite forms from the breakdown of clays and is a major source of aluminium. It is the primary ore of aluminium.
Bauxite Ore	The primary and main provider of aluminium.
Biodegradability	Chemical dissolution of materials by bacteria or other biological means.
Blister Packs	Blister pack is a term for several types of pre-formed plastic packaging used for small consumer goods, foods, and for pharmaceuticals.
Bus bars	In electrical power distribution, a bus bar is a strip of copper or aluminium that conducts electricity within a switch board, distribution board, substation or other electrical apparatus.
CAGR	Compound Annual Growth Rate. It is a business and investing specific term for the smoothed annualized gain of an investment over a given time period.
CSO	Central Statistical Organizations
Capital Intensity	Capital intensity is the amount of capital per unit of labour input.
Casting	Casting is a manufacturing process by which a liquid material is usually poured into a mold, which contains a hollow cavity of the desired shape, and then allowed to solidify. The solidified part is also known as a casting, which is ejected or broken out of the mold to complete the process. Casting materials are usually metals or various cold setting materials that cure after mixing two or more components together.
Coils	A series of connected spirals or concentric rings formed by gathering or winding.
Conductors	A material or an object that conducts heat, electricity, light, or sound. Electrical conductors contain electric charges (usually electrons) that are relatively free to move through the material; a voltage applied across the conductor therefore creates an electric current.

TERM	DESCRIPTION
Copper	A common metal of a reddish colour, both ductile and malleable and very tenacious. It is one of the best conductors of heat and electricity. It is one of the most useful metals in itself, and also in its alloys, brass and bronze
Corrosion resistance	Ability of a substance to withstand corrosion.
Cylinder head	The detachable metal casting that fits onto the top of a cylinder block
Door frame	A frame that supports a door, also called door case.
Dies	Dies are made of high temperature-resistant steel and come in various shapes, sizes and levels of complexity.
Extrusions	The process of shaping aluminium by forcibly making it flow through a shaped opening in a die. Extruded aluminium comes out as an elongated piece with the same profile as that of the die opening.
°F	Fahrenheit
Ferrous	Of or relating to or containing iron. Ferrous metals are those containing iron such as nickel, steel and iron itself.
Foil	A thin, flexible leaf or sheet of metal: aluminium foil. Aluminium foil is aluminium prepared in thin metal leaves, with a thickness less than 0.2 millimeters
GDP	Gross Domestic Product
Galvanised steel	Galvanised steel is mild steel with a coating of zinc. The zinc protects the steel by providing cathodic protection to the exposed steel, so should the surface be damaged the zinc will corrode in preference to the steel.
IAI	International Aluminium Institute
IIP	Index of Industrial Production
KW	Kilowatt
Laminated pouches	Two kinds of laminated pouches widely used in India are Aseptic pouch and Retort pouch
MT	Metric Ton
MTPA	Metric Tonnes Per Annum
Malleability	The property by virtue of which a material can be extended in all directions without rupture by the application of load; a material's ability to be bent, formed, or shaped without cracking or breaking. It is a material's ability to deform under compressive stress.
M.E.R.C	Maharashtra Electricity Regulatory Commission.
Non-Ferrous	Metals other than iron and alloys that do not contain an appreciable amount of iron.
OEMs	Original Equipment Manufacturers
Oligopolistic	A market condition in which sellers are so few that the actions of any one of them will materially affect price and have a measurable impact on competitors.
Panel	The space or section in a fence or railing between two posts.
Power cables	A power cable is an assembly of two or more electrical conductors, usually held together with an overall sheath. The assembly is used for transmission of electrical power. Power cables may be installed as permanent wiring within buildings, buried in the ground, run overhead, or exposed.
Profiles	Aluminium rod through the hot melt, extrusion, resulting in different cross-sectional shape of the aluminium material.
Radiator	A heating device consisting of a series of connected pipes, typically inside an upright metal structure, through which steam or hot water is circulated so as to radiate heat into the surrounding space. The radiator is always a source of heat to its environment, although this may be for either the purpose of heating this environment, or for cooling the fluid or coolant supplied to it, as for engine cooling.
Roofing	The materials of which a roof is composed; materials for a roof.
Smelting	Smelting is a form of extractive metallurgy; its main use is to produce a metal from its ore. Alumina is extracted from the ore Bauxite by means of the Bayer process at an alumina refinery.
T bar	A rolled metal bar or beam with a cross section resembling a T
Thermal conductivity	The property of a material's ability to conduct heat.

TERM	DESCRIPTION
Transformer	An electrical device by which alternating current of one voltage is changed to another voltage.
Ultra Violet Rays	Ultraviolet rays are invisible rays that are part of the energy that comes from the sun.
Venetian blinds	A blind, as for a window, having overlapping horizontal slats that may be opened or closed, especially one in which the slats may be raised and drawn together above the window by pulling a cord.
Vials	A small container, usually with a closure, used especially for liquids.
Window frame	A frame that supports a window
Wire rod	A metal rod from which wire is formed by drawing.
y-o-y	Year on year

CERTAIN CONVENTION, PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

CERTAIN CONVENTIONS

All references to 'India' contained in this Draft Prospectus are to the Republic of India and its territories and possessions and all references herein to the 'Government', 'Indian Government', 'GoI', 'Central Government' or the 'State Government' are to the GoI, central or state, as applicable.

Unless otherwise specified, any time mentioned in this Draft Prospectus is in Indian Standard Time ("IST").

Unless indicated otherwise, all references to a year in this Draft Prospectus are to a calendar year.

In this Draft Prospectus, the terms "we", "us", "our", the "Company", "our Company", "AAL", "Aluwind Architechtrual Limited" and, unless the context otherwise indicates or implies, refers to Aluwind Architechtrual Limited. In this Draft Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word "Lac / Lakh" means "one hundred thousand", the word "million (mn)" means "Ten Lac / Lakh", the word "Crore" means "ten million" and the word "billion (bn)" means "one hundred crore".

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Draft Prospectus are extracted from the Restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act and Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditors, set out in the Section titled "*Financial Information*" beginning on page number 143 of this Draft Prospectus.

Our fiscal year commences on 1st April of each year and ends on 31st March of the next year. All references to a particular fiscal year are to the 12 months period ending on 31st March of that year. In this Draft Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company's financial data. Accordingly, to what extent, the financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

Any percentage amounts, as set forth in "*Risk Factors*", "*Our Business*", "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" and elsewhere in this Draft Prospectus unless otherwise indicated, have been calculated on the basis of the Company's restated financial statements prepared in accordance with the applicable provisions of the Companies Act and Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the Section titled "*Financial Information*" Statements, as Restated' beginning on page number 143 of this Draft Prospectus.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry data used throughout the Draft Prospectus has been obtained or derived from industry and government publications, publicly available information and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Although our Company believes that industry data used in the Draft Prospectus is reliable, it has not been independently verified.

Further, the extent to which the industry and market data presented in the Draft Prospectus is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

All statements contained in the Draft Prospectus that are not statements of historical facts constitute “forward-looking statements”. All statements regarding our expected financial condition and results of operations, business, objectives, strategies, plans, goals and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, our revenue and profitability, planned projects and other matters discussed in the Draft Prospectus regarding matters that are not historical facts. These forward-looking statements and any other projections contained in the Draft Prospectus (whether made by us or any third party) are predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections.

These forward-looking statements can generally be identified by words or phrases such as “will”, “aim”, “will likely result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

- a. General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- b. Competition from existing and new entities may adversely affect our revenues and profitability;
- c. Political instability or changes in the Government could adversely affect economic conditions in India and consequently our business may get affected to some extent.
- d. Our business and financial performance is particularly based on market demand and supply of our Products/services;
- e. The performance of our business may be adversely affected by changes in, or regulatory policies of, the Indian national, state and local Governments;
- f. Any downgrading of India’s debt rating by a domestic or international rating agency could have a negative impact on our business and investment returns;
- g. Changes in Government Policies and political situation in India may have an adverse impact on the business and operations of our Company;
- h. The occurrence of natural or man-made disasters could adversely affect our results of operations and financial condition.
- i. Our ability to respond to technological changes;
- j. Our ability to attract and retain qualified personnel;
- k. Our ability to manage our growth effectively.

For further discussion of factors that could cause the actual results to differ from the expectations, see the sections/chapters “*Risk Factors*”, “*Business Overview*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” beginning on page number 22, 94 and 180 respectively of this Draft Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

Forward looking statements reflect the current views as of the date of this Draft Prospectus and are not a guarantee of future performance. These statements are based on the management’s beliefs and assumptions, which in turn are based on currently available information. Although our Company believes the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. None of our Company, the Directors, the LM, or any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. Our Company and the Directors will ensure that investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange.

SECTION II – SUMMARY OF ISSUE DOCUMENT

A. Primary Business of our Company:

The company, led by Mr. Murli Manohar Ramshankar Kabra, Managing Director, is a prominent player in the aluminum manufacturing industry, specializing in windows, doors, curtain walls, cladding, and glazing systems. With decades of expertise, it has earned a stellar reputation for delivering tailored solutions to architects, builders, institutions, and corporations. Operating from a cutting-edge facility in Pune, Maharashtra, spanning 45,000 square feet, the company utilizes advanced machinery for fabrication and assembly. Rigorous quality checks are integrated into its streamlined production process to ensure consistent high standards.

The impressive infrastructure and track record have facilitated market expansion, with products reaching cities across India. The company's portfolio boasts numerous completed projects, and it currently manages an ambitious pipeline of 85 projects. This success underscores its commitment to excellence, sustained growth, and a dedication to delivering exceptional results for clients, making it an attractive prospect for potential investors.

(For Detailed information on our business, please refer to the chapter titled “Business Overview” beginning from page 94 of this Draft Prospectus)

B. Summary of the Industry in which our Company Operates:

India's economy has showcased strong growth, with a 7.8% GDP increase in the April-June quarter of the 2023-2024 fiscal year. The growth is driven by factors like rapid urbanization, rising consumer aspirations, increased digitalization, and supportive government reforms and policies.

The real estate sector in India is experiencing significant growth, presenting opportunities for the facade and fenestration industry. With a projected market size of US\$1 trillion by 2030, the sector is witnessing increased investments and demand for various real estate segments, including commercial spaces and residential properties. The construction industry, ranking third among major sectors, plays a pivotal role in driving economic effects. Key urban centres like Bengaluru, Pune, and Chennai are emerging as favoured destinations for property investments, indicating a rising need for quality building solutions. The completion of approximately 558,000 homes in 2023 highlights the robust activity in the real estate market, creating a demand for innovative facade and fenestration solutions.

Additionally, the information on office market transactions, the growth of data centres, and the focus on commercial real estate investments further underscore the relevance and potential opportunities for the facade and fenestration industry in India's evolving real estate landscape. Foreign investments in the sector and the commitment of major investors like Blackstone further emphasize the positive trajectory and attractiveness of the Indian real estate market.

SECTION III – RISK FACTORS

Any investment in equity securities involves a high degree of risk. Investor should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a more complete understanding, you should read this section together with Sections titled, “Business Overview”, “The Issue”, “Industry Overview”, “Restated Financial Information”, “Outstanding Litigation and Material Developments”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page numbers 94, 40, 81, 143, 198 and 180 respectively, as well as the other financial and statistical information contained in this Draft Prospectus.

Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Prospectus, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of your investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial conditions, and Prospects.

This Draft Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Draft Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. You should not invest in this Issuing unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the consequences to you of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Restated Standalone Financial Statements prepared in accordance with Indian GAAP, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

1. Some risks may not be material individually but may be material when considered collectively.
2. Some risks may have material impact qualitatively instead of quantitatively.
3. Some risks may not be material at present but may have a material impact in the future.

INTERNAL RISKS

- 4. Our Company, Promoter-Director are involved in certain Direct tax litigation which is currently pending at various stages. Currently, our Company is also involved in direct tax related proceedings; any adverse decision in such proceedings may render us liable to liabilities and penalties and may adversely affect our business and results of operations.**

There is no assurance that in future, we, our promoters, our directors or group companies or subsidiary may not face legal proceedings; any adverse decision in such legal proceedings may impact our business. For further details in relation to legal proceedings involving our Company, Promoters, Directors, see the chapter titled “Outstanding Litigation and Material Developments” on page 198 of this Draft prospectus.

- 5. Our business requires the services of third parties, including suppliers and subcontractors, which entail certain risks.**

Our business generally requires the services of third parties, including sub contractors and suppliers of labour and materials. The timing and quality of products we install depends on the availability and skill of those third parties, as well as contingencies affecting them, including labour and material shortages and industrial action, such as strikes and lockouts. We cannot assure you that skilled third parties will continue to be available at reasonable rates and in the areas in which we need to execute our projects. As a result, we may be required to make additional investments or provide additional services to ensure the adequate performance and delivery of contracted services, and any delay in project execution could adversely affect our profitability. There is also a risk that we may have disputes with our subcontractors arising from, among other things, the

quality and timeliness of work performed by the subcontractor, customer concerns about the subcontractor, or our failure to extend existing orders or issue new orders under a subcontract. In addition, if any of our subcontractors fail to deliver on a timely basis the agreed upon supplies and/or perform the agreed-upon services, our ability to fulfil our obligations as a prime contractor may be jeopardized. In most instances, there is no contractual relationship between our customers and our suppliers, subcontractors. Consequently, we would have to seek remedies from our suppliers or sub-contractors, as the case may be, should any service or product liability claim be made by our customers against us. In case of any such claim against us, even if it is not proven, our reputation may suffer and our business may be materially and adversely affected. We cannot assure you that claims of such nature will not be brought against us, which could have a material adverse effect on our reputation, business and financial performance.

6. Our projects are typically awarded to us on satisfaction of prescribed pre-qualification criteria and following a competitive bidding process. Our business and our financial condition may be adversely affected if new projects are not awarded to us.

Our contracts are generally obtained through a competitive bidding process which involves certain prequalification criteria like net worth, experience, capacity and performance, reputation for quality, safety record, financial strength and bonding capacity and size of previous contracts in similar projects. In selecting contractors for major projects, customers generally limit the tender to contractors they have pre-qualified based on these criteria, although price competitiveness of the bid is the most important selection criterion. Our ability to bid for and win such projects is dependent on our ability to show experience of working on similar or larger projects and developing strong execution capabilities and credentials to execute more challenging projects. The growth of our business mainly depends on our ability to obtain new contracts in the sectors in which we operate. Generally, it is very difficult to predict whether and when we will be awarded a new contract. Our future results of operations and cash flows can fluctuate materially from period to period depending on the timely award of contracts, commencement of work and completion of projects in the scheduled time period. If we fail to qualify or are unable to obtain new contracts, our business and financial condition could be adversely affected.

7. Increase in costs or a shortfall in availability of the materials we purchase could have a material adverse effect on our Company's sales, profitability and results of operations.

Our Company is dependent on third party suppliers for procuring the materials which we use in executing our projects. We are exposed to fluctuations in the prices of these materials as well as its unavailability, particularly as we typically do not enter into any long term supply agreements with our suppliers and our major requirement is met in the spot market. The cost and availability of such materials are subject to a variety of factors and any increase in their cost and their availability at a reasonable price or at all, could adversely affect our margins, sales and results of operations. Though the company recovers the increase in cost from the customers, there can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of materials. If we were to experience a significant or prolonged shortage of such materials from any of our suppliers, and we cannot procure the products from other sources, we would be unable to meet our execution schedules and to deliver such products to our customers in timely fashion, which would adversely affect our sales, margins and customer relations. We cannot assure you that a particular supplier will continue to supply the required materials to us in the future. Any change in the supplying pattern of our products can adversely affect our business and profits. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our execution cycles and delivery schedules, which may result in the loss of our customers and revenues.

8. The nature of our business exposes us to liability claims and contract disputes and our indemnities may not adequately protect us. Any liability in excess of our reserves or indemnities could result in additional costs, which would reduce our profits.

Time is often of the essence in our projects. We typically enter into contracts which provide for liquidated damages for time overruns. In the event there are delays in our current or future orders and we are unable to receive extensions from our customers, we may be exposed to liquidated damages and termination apart from entailing significant cost and time overruns. Additionally, in some contracts, in case of delay due to deficiency in services or because of defective work done by us, clients may have the right to complete the work at our risk and cost by engaging a third party. We are generally required to furnish performance guarantees in the form of bank guarantees. In the event we fail to perform under the terms of a contract, a bank guarantee may

be called upon by our customer, which could adversely affect our financial condition and results of operations. In addition, our operations are subject to hazards inherent in providing fabrication services, such as risk of work accidents, fire or explosion, including hazards that may cause injury and loss of life, severe damage to and destruction of property and environmental damage. We may also be subject to claims resulting from defects arising from fabrication services provided by us within the warranty periods extended by us. Further, our subcontractors may not have adequate financial resources to meet their indemnity obligations to us. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses. Faults in design and execution might also require repair work, which may not be foreseen. In addition, if there is a customer dispute regarding our performance or workmanship, the customer may delay or withhold payment to us.

9. Our results of operations and cash flows could be adversely affected, if we are unable to collect our dues and receivables from, or invoice our unbilled services to, our clients.

Our business depends on our ability to successfully obtain payment from our clients of the amounts they owe us for work performed. We evaluate the financial condition of our clients and usually bill and collect on relatively short cycles. There is no guarantee that we will accurately assess the creditworthiness of our clients. Such conditions could cause clients to delay payment, request modifications of their payment terms, or default on their payment obligations to us, all of which could increase our receivables. Timely collection of fees for client services also depends on our ability to complete our contractual commitments and subsequently bill for and collect our contractual service fees. If we are unable to meet our contractual obligations, we might experience delays in the collection of, or be unable to collect, our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. Our results of operations and cash flows could be adversely affected, if we are unable to meet our contractual obligations, we might experience delays in the collection of, or be unable to collect, our client balances. In addition, if we experience delays in billing and collection for our services, our cash flows could be adversely affected.

10. Our pricing structures do not accurately anticipate the cost and complexity of performing our work and if we are unable to manage costs successfully, then certain of our contracts could be or become unprofitable.

Our ability to improve or maintain our profitability is dependent on managing our costs successfully. Our cost management strategies include maintaining appropriate alignment between the demand for our products and services and our resource capacity, optimizing the costs of service delivery through business process digitalization and deployment of tools, and effectively leveraging our sales and marketing and general and administrative costs. Our contracts could prove unprofitable for us or yield lower profit margins than anticipated, if we do not accurately estimate the resources required, costs and timing for completing projects, future rates of wage inflation and currency exchange rates, or if we fail to complete our contractual obligations within the contracted timeframe. There is a risk that we will underprice our contracts, fail to accurately estimate the costs of performing the work or fail to accurately assess the risks associated with potential contracts. In particular, any increased or unexpected costs, or wide fluctuations compared to our original estimates or delays, or unexpected risks we encounter in connection with the performance of this work, including those caused by factors outside of our control, could make these contracts less profitable or unprofitable, which could adversely impact our profit margin. However our contracts usually provides for escalation and delay charges clause to minimise such risks.

11. Failure to anticipate and develop new products & services and enhance existing execution capabilities in order to keep pace with rapid changes in technology and industry may suffer our business.

The facade industry is characterized by rapid technological changes, evolving industry standards, changing client preferences, and new product and service introductions that could result in product obsolescence and short product life cycles. Our success depends on our ability to anticipate these advances, enhance our existing offerings or develop new service offerings to meet client needs, in a timely manner. We may not be successful in anticipating or responding to these advances on a timely basis. It may also happen that the products or services or technologies we develop may not be successful in the marketplace. We may also be unsuccessful in stimulating customer demand for new and upgraded products & services, or seamlessly manage to introduce new products, service or transitions. If we fail to address the demands of the rapidly evolving IT environment, particularly with respect to emerging technologies, and technological obsolescence, it could have a material adverse effect on our business, results of operations and financial condition.

12. We have certain contingent liabilities that have not been provided for in our Company's financials which if materialised, could adversely affect our financial condition.

Our contingent liabilities as per our Restated Standalone Financial Statements on September 30, 2023 is as under:

Contingent Liabilities :		(₹ in Lakhs)		
Particulars	As at Sep 30, 2023	As at March 31,		
		2023	2022	2021
Letter of credit and bank guarantee given by the bank on behalf of the company	933.90	753.90	427.13	267.86

The company has outstanding demand of TDS as on date of ₹ 4,23,630/- which is under the verification process by the company.

The company has an outstanding demand of Income tax for AY 2017-18 of Rs 6,78,926/- including interest u/s 143 (1) (a) and Rs 8220/- is the interest amount outstanding for AY 2019-20.

In the event any such contingencies mentioned above were to materialize or if our contingent liabilities were to increase in the future, our financial condition could be adversely affected. For further details, see the section entitled "Financial information" on page 143 of this Draft prospectus.

(For further details, please refer section "Financial Information" beginning from page no. 143 of this Draft Prospectus)

13. We generate our major portion of sales from our operations in certain geographical regions especially Maharashtra. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.

Our revenue from our customers situated in Maharashtra contributed significant portion of our total revenue from operations as per our Restated Standalone Financial Statements. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. We may not be able to leverage our experience in Maharashtra region to expand our operations in other parts of India and overseas markets, should we decide to further expand our operations. Factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in such regions, and our experience in these regions may not be applicable to other markets. In addition, as we enter new markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with local dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside Maharashtra market may adversely affect our business prospects, financial conditions and results of operations. While our management believes that the Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we may face and should not rely on our results of operations for any prior periods as an indication of our future performance.

14. There are certain discrepancies in some of our corporate records relating to forms filed with the Registrar of Companies.

In the past, our company has filed certain forms with the RoC which have certain inadvertent, clerical, or typographical errors. We are not in the receipt of the data pertaining to multiple e-forms and challans paid w.r.t RoC forms. Also, we are not being able to access the MCA platform for public domain data due to technical error, to ascertain the compliance of the filling of the RoC forms. Therefore, we are not being able to ascertain the filing date and compliances of the filings of RoC Forms.

Further, as on date of this Draft prospectus, there have been no queries or penalties imposed by any authorities. In the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company and its directors, in which event the financials of our Company, Directors, Key Managerial Personnel, and if any officer in default may be affected.

Further we cannot assure that we may not make delayed filings in future and not be subjected to fine, penalty or interest. Further with the expansion of our operations there can be no assurance that deficiencies in our internal controls and non-compliances will not arise, or that we may be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all.

15. The company does not have proof of payment of stamp duty on issuance/allotment of securities:

As the entire paid up Equity Shares Capital of the Company is in Demat mode, we do not have the copies of the share certificates and further we do not have the proof of payment of applicable stamp duty in relation to issuance/allotment of securities. Consequently, the absence of these physical share certificates and proof of payments, we are not in a position to ascertain, whether the applicable stamp duty have been paid by the company or not.

Further, as on date of this Draft prospectus, there have been no queries or penalties imposed by any authorities. In the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company and its directors, in which event the financials of our Company, Directors, Key Managerial Personnel, and if any officer in default may be affected.

16. We do not own the land on which our Pune office is located.

We do not own the land on which our Pune office is located. The Pune office of our Company which is situated at First floor, at Flat no-4, Amrut Park Co-operative Housing Society, situated at S. No. 219, Plot No.19 Final plot No. 12 Town planning scheme no 1, Kalyani Nagar Road, Yerwada, Pune 411006, is taken on rent from Mrs Alice Avelino Lobo. If we do not comply with certain conditions of the lease/rent agreement, the lessor may terminate the lease, which could have an adverse effect on our operations and there can be no assurance that renewal of lease agreement with the owner will be entered into. In the event of non-renewal of lease, we may be required to shift our office to a new location and there can be no assurance that the arrangement we enter into in respect of new premises would be on such terms and conditions as the present one.

17. Our Company has negative cash flows from its operating activities, investing activities as well as financing activities in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our operating activities, investing activities as well as financing activities in the previous year(s) as per the Restated Standalone Financial Statements and the same are summarized as under:

Particulars	For the six-months period ended September 30, 2023	For the Financial Years ended March 31,		
		2023	2022	2021
Net cash (used in)/ Generated from operating activities	(246.07)	152.70	(181.88)	301.40
Net cash (used in)/ Generated from investing activities	40.66	(155.60)	(324.62)	(38.64)
Net cash (used in)/ Generated from finance activities	246.41	20.07	465.66	(211.91)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

(For further details, please refer section "Financial information" beginning from page no. 143 of this Draft Prospectus)

18. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive. A significant portion of our working capital is utilized towards inventories, trade receivables and other current assets. Summary of our working capital position as per our Restated Financial Statements is given below:-

(₹ in Lakhs)

Sr. No.	Particulars	Actual	Actual	Actual	Actual
		Fiscal 2021	Fiscal 2022	Fiscal 2023	September 2023
I	Current Assets				
	Inventories	562.07	787.08	938.88	716.72
	Trade receivables	764.83	1106.36	1428.07	1917.12
	Short-Term Loans and Advances	25.06	109.17	95.10	152.22
	Cash & Bank balances	112.09	71.24	88.41	129.40
	Other Current Assets	140.05	335.07	633.41	1167.52
	Total (A)	1604.11	2408.91	3183.87	4082.99
II	Current Liabilities				
	Trade payables	483.05	653.66	1089.59	987.62
	Other Current Liabilities	176.17	472.85	486.36	706.13
	Short Term Provisions	33.65	31.85	91.80	131.34
	Total (B)	692.88	1158.35	1667.76	1825.10
III	Total Working Capital Gap (A-B)	911.23	1250.56	1516.10	2257.89

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly inventories, trade receivables and other current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “Objects of the Issue” beginning on page 64 of this Draft prospectus.

19. Our business is subject to seasonal and other fluctuations that may affect our financial performance and business operations.

Our business and operations are affected by seasonal factors. In particular, the monsoon season in the second quarter of each Fiscal may restrict our ability to carry on activities related to our projects and fully utilize our resources. During periods of curtailed activity due to adverse weather conditions, we may continue to incur operating expenses and our project related activities may be delayed or reduced. Adverse seasonal developments may also require the evacuation of personnel, suspension or curtailment of operations, resulting in damage to project sites or delays in the delivery of materials. Such fluctuations may adversely affect our liquidity, business, financial condition, results of operations and prospects. As a result, our revenues and profits may vary significantly during different financial periods and certain periods are not indicative of our financial position for the year.

20. Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

We believe that the industry in which we operate faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive is highly dependent on labour force for carrying out its business operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions to our business operations due to disputes or other problems with our work force in the past; there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized,

there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

21. At present our manufacturing facility is not fully automated. Further any disruption in production at, or shutdown of, our manufacturing facility could adversely affect our business, results of operations and financial condition.

We own and operate from manufacturing facility situated at Pune, Maharashtra. Our products are fabricated and assembled at this facility. At present, our manufacturing facility is not fully automated and requires manual intervention and processes. Our manufacturing facility is susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, loss of services of our external contractors, terrorist attacks, acts of war, break-ins, and industrial accidents and similar events. Further, our manufacturing facility is also subject to operating risk arising from compliance with the directives of relevant government authorities. Operating risks may result in personal injury and property damage and in the imposition of civil and criminal penalties. If our Company experiences delays in production or shutdowns due to any reason, including disruptions caused by disputes with its workforce or any external factors, our Company's operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

22. We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business. Some of the approvals are required to be transferred in the name of "Aluwind Architectural Limited" from "Aluwind Architectural Private Limited" pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.

We were a private limited company in the name of "Aluwind Architectural Private Limited" which was carrying business of manufacturing, engineering, designing and installation of all types of windows and façade systems. Our Company was converted into a public limited company pursuant to shareholders resolution passed at the extraordinary general meeting of our Company held on October 4, 2023, and the name of our Company was changed to "Aluwind Architectural Limited" and a Fresh Certificate of Incorporation dated January 03, 2024, was issued by the Registrar of Companies, Mumbai

Additionally, we need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business pursuant to our conversion from a private limited company to a public limited company, we need to take necessary steps for transferring the approvals of our company in the new name. In case of delay or failure to obtain the same, it could affect our business operations. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licences, registrations or permits, or any suspension or revocation of any of the approvals, licences, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. For more information, see chapter "Government and Other Approvals" on page 203 of this Draft prospectus.

23. We depend on certain brand names and our corporate name and logo that we may not be able to protect and/or maintain. We have a logo which is used for our business purpose.

Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. The registered owners of trademark "ALU-WinD" under class 6 are Aluwind Architectural Private Limited. Our Company would be required to file an application to get the above trademark transferred in the name of Aluwind Architectural Limited. This may affect our ability to protect our trademark in the event of any infringement of our intellectual property. We may not assure you that we shall be able to successfully transfer the above logo in the name of M/s Aluwind Architectural Limited. As a result, this could materially and adversely affect our business, financial condition, results of operations and prospects. In case of failure to renew our intellectual property on time, it may adversely affect our business operations. Our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and

prospects. The material approvals, licences or permits required for our business include trade licence, excise and tax laws, environment laws and shops and establishment licences, among others. See “Government and other Approvals” on page 203 of this Draft prospectus for further details on the required material approvals for the operation of our business.

24. Our revenues have been significantly dependent on few customers and our inability to maintain such business may have an adverse effect on our results of operations.

For the period ended March 31, 2023 and September 30, 2023, our revenue from operations from our top 5 customers contributed to 42.88% and 40.47% respectively and our revenue from operations from our top 10 customers contributed to 67.11% and 59.09% respectively of our revenues from operations as per our Restated Financial Statements. Our Company is primarily engaged in providing windows and façade systems and solutions to customers and usually a single contract may take 6 months to 3 years for completion. As we operate on contract basis, our revenue from operations for a particular period may be concentrated in few clients or may be dependent on some large contracts. Larger contracts from few customers may represent a larger part of our portfolio, increasing the potential volatility of our results and exposure to individual contract risks. We may be vulnerable to accepting onerous contractual terms with regard to change in scope of work or inclusion of additional work within the scope of an existing contract. Such concentration of our business on a few projects or clients may have an adverse effect on our results of operations and result in a significant reduction in the award of contracts which could also adversely affect our business if we do not achieve our expected margins or suffer losses on one or more of these large contracts, from such clients. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations. However, the composition and revenue generated from these customers might change as we continue to add new customers in the normal course of business. While we believe that we shall not face challenges in finding new customers in the ordinary course of business, our results of operations and financial condition may be adversely affected if we remain dependent on few customers.

25. Any slowdown in the real estate sector in India could significantly decrease the demand for our products.

The demand for our products is dependent, among other things, on the conditions of the global and, in particular, the Indian economy. For instance, the demand for our products is significantly affected by the real estate sector. A decline in economic activity in India or in international markets may have an adverse effect on consumer and industrial demand for new infrastructural structures or complexes. If development of real estate declines, it would have a corresponding impact on the demand for our products leading to lower margins or slack in project executions and may materially and adversely affect our business, financial condition, results of operations, cash flows and business prospects.

26. Any delay in completion of civil structure by the principal contractor or third parties involved or the customer could result in delay of our project execution and consequently affect our business operations.

We are primarily engaged in designing, drawing, fabricating and installation of windows and façade systems at various civil structure sites. We are dependent on the principal contractor and other parties to carry out their scope of work so as to enable us to initiate our project execution. In the life cycle of a construction project, there are phases which need to be completed by other respective parties post which we can start our work. Any delay in execution of work by such parties may result in consequent delay in our project execution and may hinder our business operations adversely. Also if there is any delay from the customer like delay in approval of plans of the project, delay in starting the construction activity, delay in release of payments etc. we may also suffer a delay in our project execution or cash flows which may adversely affect our financial condition and results of operations.

27. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into various transactions with our Promoters, Promoter Group, Directors and their relatives. While we believe that all such transactions are conducted on arms length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter “Related Party Transactions” beginning on page 179 of the Draft prospectus.

28. Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- a. Environment (Protection) Act, 1986
- b. Air (Prevention and Control of Pollution) Act, 1981
- c. Water (Prevention and Control of Pollution) Act, 1974
- d. Hazardous Waste Management & Handling Rules, 2008
- e. Other regulations promulgated by the Ministry of Environment and Forests and the
- f. Pollution Control Boards of the state of Maharashtra.

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

29. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

30. Our insurance coverage may not be adequate.

Our Company has obtained insurance coverage in respect of certain risks. We have taken insurance policies to insure our assets against standard fire and special perils, employee's compensation insurance policy to insure our employees against some specified risks and vehicle insurance policies to insure our vehicles. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like housebreaking, terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected. Further, we deem it imperative to uphold a Keyman Insurance policy as a strategic measure to safeguard our business against potential financial ramifications arising from the unfortunate event of the death or incapacitation of a crucial team member. This policy serves as a crucial tool in mitigating the adverse financial consequences associated with the loss of a key employee. By ensuring funds are readily available, the policy covers prospective losses, recruitment expenses, and other related costs. Given the substantial reliance our company places on our Individual Promoter and their relatives, the absence of this insurance policy exposes us to significant risks. Therefore, the maintenance of this policy is deemed indispensable for risk mitigation and the sustained stability of our operations. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For further details, please refer chapter titled "Our Business" beginning on page 94 of this Draft prospectus.

31. The industry segments in which we operate being fragmented, we face competition from other players, which may affect our business operations and financial conditions.

The market for our products and services is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as technical competence, quality of products and services, designing and execution, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products & services at highly competitive prices which may not be matched by us and consequently affect our revenue from operations and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

32. We are susceptible to risks relating to fluctuations in currency exchange rates.

We meet some of our input material requirements through imports. Currently, we do not import any raw materials. However, if in the future we import glass, aluminium composite panels, some hardware items, etc. Any fluctuation in the value of the Indian Rupee against any other foreign currency will affect our results of operations. Further, we currently do not use any foreign exchange hedging contracts to manage our exchange rate risk. Although we may, in the future, enter into such foreign exchange hedging contracts, we cannot assure you that such hedges will be available or commercially viable or effective to hedge our exposure to foreign currency risks. In addition, the policies of the RBI may also change from time to time, which may limit our ability to effectively hedge our foreign currency exposures and may adversely affect our costs of works contracts and financial results. We cannot guarantee that we will not experience foreign exchange losses going forward and that such losses will not adversely affect our business, financial condition or results of operations.

33. Failure or disruption of our IT and/or business resource planning systems may adversely affect our business, financial condition, results of operations, cash flows and prospects.

We have implemented some information technology ("IT") and/or business resource planning systems to cover key areas of our operations. We are dependent on technology in relation to customer order management and dispatches, production planning and reporting, manufacturing processes, financial accounting and scheduling material purchase and shipments. We rely on our IT infrastructure to provide us with connectivity and data backup across our locations and functions. While the business resource planning systems that we have implemented have enabled us to improve our working capital cycles, despite an increase in our sales over the period, we can provide no assurance that we will be able to do so in the future. We believe that we have deployed adequate IT disaster management systems including data backup and retrieval mechanisms, at our manufacturing facility and registered office. However, any failure or disruption in the operation of these systems or the loss of data due to such failure or disruption (including due to human error or sabotage) may affect our ability to plan, track, record and analyze work in progress and sales, process financial information, manage our creditors, debtors, or otherwise conduct our normal business operations, which may increase our costs and otherwise adversely affect our business, financial condition, results of operations and cash flows.

34. If we fail to maintain and enhance our brand and reputation, our clients' recognition of, and trust in us, and our business may be materially and adversely affected.

Our business depends significantly on the strength of our brand and reputation of completing our projects in a timely and efficient manner. Our Company is known to conduct operations in a manner that ensures that our projects are free of any defects or vulnerabilities. We believe that continuing to develop awareness of our brand, through focused and consistent branding and marketing initiatives is important for our ability to increase our revenues, grow our existing market share and expand into new markets. Consequently, defects, delays, consumer complaints, or negative publicity or media reports involving us, or any of our projects could harm our brand and reputation and may dilute the impact of our branding and marketing initiatives and adversely affect our business, financial condition, results of operations and prospects. In addition, adverse publicity about any regulatory or legal action against us could damage our reputation and brand image, undermine public confidence in us and reduce long-term demand for our operations, even if the regulatory or legal action is unfounded or immaterial to our operations. We may be involved in costly lawsuits or time consuming regulatory proceedings. If we are unable to neutralize the impact of such negative publicity effectively or efficiently, we may suffer damage to our reputation and relationships with our clients, lenders, suppliers and communities and experience significant project delays or cost overruns.

35. Our operations are subject to accidents and other risks and could expose us to material liabilities, loss in revenues and increased expenses. Further glass being a fragile commodity is also susceptible to breakages.

While we conduct various scientific and site studies during the course of bidding for projects, there are always anticipated or unforeseen risks that may come up due to adverse weather conditions, geological conditions, specification changes and other reasons. Additionally, our operations are subject to hazards inherent in providing fabrication and construction services, such as risk of equipment failure, work accidents, fire or explosion, including hazards that may cause injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage. Also our input material glass being a fragile commodity is susceptible to breakages. Our policy of covering these risks through contractual limitations of liability, indemnities and insurance may not always be effective and this may have a material adverse effect on our reputation, business, financial condition and results of operations.

36. If we are unable to manage our growth or execute our strategies effectively, our business and prospects may be materially and adversely affected.

Our revenue and our business operations have grown in recent years. We may not be able to sustain these rates of growth in future periods due to a number of factors, including, among others, our execution capability, our ability to maintain customer satisfaction, macroeconomic factors out of our control, the greater difficulty of growing at sustained rates from a larger revenue base, our inability to control our expenses and the availability of resources for our growth. In addition, our anticipated expansion will place a significant strain on our management, systems and resources. Our development and expansion strategies will require substantial managerial efforts and skills and the incurrence of additional expenditures and may subject us to new or increased risks. Further, pursuing these strategies may require us to expand our operations through internal development efforts as well as partnerships, joint ventures, investments and acquisitions. We may not be able to efficiently or effectively implement our growth strategies or manage the growth of our operations, and any failure to do so may limit future growth and hamper our business strategies.

37. Our Company has no formal supply agreement or contract with our vendors/suppliers for the uninterrupted supply of major materials. Our business may be adversely affected if there is any disruption in the material supply.

We do not have any formal agreements with our vendors/suppliers as we operate on a purchase order system. Due to the absence of any formal contract with our vendors/suppliers, we are exposed to the risks of irregular supplies or no supplies at all and delayed supplies which would materially affect our results of operations. In the event of any disruption in the materials supply or the non availability of materials, the assembling, fabrication and dispatch schedule may be adversely affected impacting the sales and profitability of the Company. In the event the prices of such materials were to rise substantially, we may find it difficult to make alternative arrangements for supplies of our materials, on the terms acceptable to us, which could materially affect our business, results of operations and financial condition. Our management believes that we maintain good relations with our suppliers and we shall also not face any challenge in finding new suppliers if required.

38. Our Company is dependent on vendors/suppliers providers for the delivery of our input materials and products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

Our Company uses vendors/suppliers providers for delivery of our input materials and final products. Though, our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. In addition, goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our input materials or finished goods may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could impair ability to procure input materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

39. Our lenders have imposed certain restrictive conditions on us under our financing arrangements.

Under our financing arrangements, we are required to comply with certain financial and other covenants. There can be no assurance that we will be able to comply with these financial or other covenants. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled “Financial Indebtedness” on page 195 of the Draft prospectus. Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

40. Our Company has unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.

As on September 30, 2023, our Company has unsecured loans amounting to ₹ 48.99 lakhs as per our Restated Standalone Financial Statements from related and other parties that are repayable on demand to the relevant lender. Further, some of these loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer the chapter titled Restated Financial Statements as beginning on page 143 of this Draft Prospectus.

41. Our lenders have charge over our movable and immovable properties in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information on the “Financial Indebtedness” please refer to page 195 of this Draft Prospectus.

42. We have not made any alternate arrangements for meeting our working capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our working capital requirements mentioned in the objects of the issue. We meet our working capital requirements through our bank finance, owned funds, unsecured loans and internal accruals. Any shortfall in our, internal accruals and our inability to raise borrowings in future would result in us being unable to meet our working capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may hamper our operations. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 64 of this Draft Prospectus.

43. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Additionally, under some of our loan agreements, we may not be permitted to declare any dividends, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There

can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 142 of this Draft Prospectus.

- 44. Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 64 of this Draft prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.**

We intend to use entire Issue Proceeds towards meeting the working capital requirement, and general corporate purposes. We intend to deploy the Net Issue Proceeds in financial year 2024 and 2025 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised by the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “Objects of the Issue” beginning on page 64 of this Draft Prospectus. The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled ‘Objects of the Issue’ beginning on page 64 of this Draft Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue.

- 45. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.**

Since the Issue size is less than ₹10,000 lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

- 46. Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.**

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

- 47. Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.**

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

- 48. In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding, as lenders and dividend entitlement in our Company.**

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding, unsecured

loan given by them or entities in which they are interested and dividend entitlement in our Company. For further information, see “Capital Structure” and “Our Management” on pages 51 and 117, respectively, of this Draft Prospectus.

49. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Issue, our Promoters and Promoter Group will collectively own 72.13 % of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

50. We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

51. The average cost of acquisition of Equity Shares by our Promoters could be lower than the issue price.

Our Promoters average cost of acquisition of Equity Shares in our Company may be lower than the issue price as may be decided by the Company in consultation with the Lead Manager.

ISSUE SPECIFIC RISKS

52. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue Price of our Equity Shares will be determined by fixed price method. This price is based on numerous factors (For further information, please refer chapter titled “Basis for Issue Price” beginning on page 70 of this Draft Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

53. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us may dilute your shareholding and any sale of Equity Shares by our Promoters or members of our Promoter Group may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, including through exercise of employee stock options granted pursuant to the ESOP Schemes may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to

raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoters and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. Except as disclosed in “Capital Structure” on page 51, we cannot assure you that our Promoters and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

54. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

55. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While our Company is required to complete Allotment pursuant to the Offer within six Working Days from the Bid/Offer Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders’ ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

EXTERNAL RISKS

56. Our industry is highly fragmented and competitive and increased competitive pressure may adversely affect our results.

The aluminium market in India is growing fast and many small and big companies are entering into manufacturing and trading of aluminium products, as consumers are opting aluminium to be a better substitute of steel and other metals and has created demand for the same. Due to this, there have been a large number of players entering into this market which has created intense competition. We believe that the principal competitive factors in our markets are price, quality and raw material supply. There are many companies in India, which are present across the value chain and hold a commanding position in the industry; such companies pose a threat to our Company.

57. A slowdown in economic growth in India or in the States in India, in which we operate, could cause our business to suffer.

Our performance and the quality and growth of our assets are dependent on the health of the overall Indian economy and the economy of the States in India in which we operate. India’s economy could be adversely affected by a general rise in interest rates, weather conditions adversely affecting agriculture, commodity and energy prices or various other factors. Any slowdown in the Indian economy or in the States in India in which we operate or future volatility in global commodity prices could adversely affect the policy of the various Governments towards infrastructure, which may in turn adversely affect our financial performance.

58. The extent and reliability of Indian infrastructure could adversely affect our results of operations and financial condition.

India's physical infrastructure is less developed than that of many developed countries. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have an adverse effect on our results of operations and financial condition.

59. We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

60. Any downgrading of India's debt rating by a domestic or international rating agency could have a negative impact on our business.

India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of our Equity Shares.

61. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse impact on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments in India that impact our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. There can be no assurance that these tax rates/slab will continue in the future. Further, with the Introduction of the Goods and Services Act, tax rates and its implication may have material impact on our products. Any changes in these tax rates/slabs could adversely affect our financial condition and results of operations.

62. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

63. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, change in regulatory framework, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism.

64. Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

65. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

The Covid-19 pandemic had brought the world to a standstill affecting all sectors and the livelihood of many are at stake including the Indian economy. However, our Country is achieving normalcy by various measures taken by the Government. The pandemic is controlled, however any major outbreak will seriously impact our business. Further, our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

66. Terrorist attacks, civil unrest, and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition, and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability.

67. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended / changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

68. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager has appointed [●] as Designated Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

69. You will not be able to sell immediately on Indian Stock Exchanges any of the Equity Shares you subscribe in the Issue until the Issue receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading on stock exchange. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with Section 40 of the

Companies Act, 2013 if the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

70. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after this Issue.

The price is based on numerous factors and may not be indicative of the market price for our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that you will be able to resell your Shares at or above the Issue Price. Among the factors that could affect our Share price are: quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net profit and income; changes in income or earnings estimates or publication of research reports by analysts; speculation in the press or investment community; general market conditions; and domestic and international economic, legal and regulatory factors unrelated to our performance.

71. Investors may not be able to enforce a judgment of a foreign court against our Company.

Our Company is incorporated under the laws of India. Our Company's assets are primarily located in India and all our Directors and Key Managerial Personnel are residents of India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce against them judgments obtained in courts outside India. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with Indian public policy.

SECTION V – PARTICULARS OF THE ISSUE

OBJECTS OF THE ISSUE

Our Company proposes to utilize the funds which are being raised towards funding the following objects and achieve the benefits of listing on the Emerge Platform of NSE:

1. Funding of working capital requirements of the Company
2. General Corporate Expenses
3. Issue Expenses

Our Company believes that listing will enhance our Company's corporate image, brand name and create a public market for its Equity Shares in India besides unlocking the value of our Company. Having a listing on a stock exchange also affords our company increased credibility with the public, having the company indirectly endorsed through having their stock traded on the exchange. It also Improves supplier, investor and customer confidence and improves our standing in the market place. It will also provide liquidity to the existing shareholders.

The main objects clause of our Memorandum of Association and the objects incidental and ancillary to the main objects enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum.

ISSUE PROCEEDS

The proceeds of the Issue, after deducting Issue related expenses, are estimated to be ₹ [●] Lakhs (the "Net Issue Proceeds"). The following table summarizes the requirement of funds:

Particulars	Estimated Amount ₹ in lakh)
Gross Proceeds from the Issue	[●]
(Less) Issue Related Expenses	[●]
Net Proceeds	[●]

REQUIREMENT OF FUNDS

Our funding requirements are dependent on a number of factors which may not be in the control of our management, changes in our financial condition and current commercial conditions. Such factors may entail rescheduling and / or revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure.

The following table summarizes the requirement of the fund:

Sr. No.	Particulars	Amount (₹ In Lakhs)
1.	Funding of Working Capital requirements	2,045
2.	General Corporate Expenses	[●]
3.	Issue Expenses	[●]
Total		[●]

The fund requirements mentioned above are based on internal management estimates of the Company and have not been verified by the Lead Manager or appraised by any bank, financial institution, or any other external agency. They are based on current circumstances of business and the Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, cost of commodities and interest or exchange rate fluctuations. Consequently, the fund requirements of the Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the issue proceeds as stated above, the Company may re-allocate the issue proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the issue proceeds or cost overruns, the management may explore a range of options including utilizing our internal accruals or seeking debt financing.

PROPOSED SCHEDULE OF IMPLEMENTATION AND UTILIZATION OF NET PROCEEDS

We propose to deploy the Net Proceeds for the aforesaid purposes in accordance with the estimated schedule of implementation and deployment of funds set forth in the table below:

Particulars	Amount to be funded from Net Proceeds (₹ In Lakhs)	Estimated schedule of deployment of Net Proceeds in FY2024 (₹ In Lakhs)	Estimated schedule of deployment of Net Proceeds in FY2025 (₹ In Lakhs)
Funding of Working Capital requirements	2,045	400	1,645
General Corporate Expenses	[•]	[•]	[•]
Total	[•]	[•]	[•]

As per Management estimation, the total amount proposed to be utilized from the IPO Proceeds for the above-mentioned purpose is to be deployed by March 31, 2025, subject to getting approvals from regulatory authorities in a timely manner.

Since such expenditure does not involve the implementation of any specific project, a schedule of deployment of funds in relation to such an object has not been provided. If the Net Proceeds towards any of the Objects are not completely utilized towards such objects by March 31, 2025, such amounts will be utilized (in part or full) in subsequent periods as determined by us, in accordance with applicable law.

Any expenditure after filing of Draft Prospectus till the listing for the above-mentioned objects, will be reimbursed to the Company on actually basis from the IPO Proceeds.

MEANS OF FINANCE

Our Company proposes to meet the entire requirement of funds for the objects of the Issue from the following means.

1. Issue of Equity Shares through this Draft Prospectus.
2. Internal Accruals of the Company.

Accordingly, as required under the SEBI (ICDR) Regulations, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Net Proceeds or through existing identifiable internal accruals.

The requirements of the objects detailed above are intended to be funded from the Proceeds of the Issue. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance under Regulation 230(1)(e) and 9 (C) of Part A of Schedule VI of SEBI (ICDR) Regulations, through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed public Issue or through existing identifiable internal accruals.

The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs, other financial conditions, business, or strategy, as discussed further below.

In case of variations in the actual utilization of funds allocated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If surplus funds are unavailable, the required financing will be through our internal accruals and/or debt.

We may have to revise our fund requirements and deployment as a result of changes in commercial and other external factors, which may not be within the control of our management. This may entail scheduling, revising, or cancelling the fund requirements and increasing or decreasing the fund requirements for a particular purpose from its fund requirements mentioned below, at the discretion of our management. In case of any shortfall or cost overruns, we intend to meet our estimated expenditure from internal accruals and/or debt. In case of any such re-scheduling, it shall be made by compliance of the relevant provisions of the Companies Act, 2013.

DETAILS OF THE OBJECTS OF THE ISSUE

1. Funding of working capital requirements of the company

Our business is working capital intensive and we fund the majority of our working capital requirements through internal accruals, net worth, financing from different banks and financial institutions and unsecured loans. We expect a further increase in the working capital requirements in view of current and potential operations that may be awarded. Accordingly, we have proposed to use 2,045 Lakhs out of the issue proceeds to meet the working capital requirements.

Justification for “Holding Period” levels derived from our Restated Financial Statements

S. No.	Particulars
Current Assets	
Inventory	Our inventory based on the restated financial statement was 132, 129, 91 days for the years ended March 31, 2021, March 31, 2022 and March 31, 2023 and 44 days for six month period ended on September 30, 2023. Going forward we have estimated slightly inventory level and hence, a lower inventory holding period for coming years, as we aim to complete more projects. We also have taken steps to improve our inventory management; like implementing better inventory tracking systems, improving supply chain management, improved logistics and renegotiating contracts with suppliers.
Advance to suppliers Days	Our Advance to Suppliers days on restated financial statements was 6,17,9 for the years ended March 31, 2021, March 31, 2022 and March 31, 2023 and 9 days for six month period ended on September 30, 2023. Going forward we have estimated advance to suppliers level of 15 days in coming years as we expect to increase our Inventories by giving advances to our suppliers to ensure efficient completion of projects and for better price negotiations. This will in turn lead to improvements in our profitability margins.
Trade Receivables	Our trade receivables based on restated financial statements was 131,139,107 days for the years ended March 31, 2021, March 31, 2022, and March 31, 2023, and 83 days for six month period ended on September 30, 2023. Going forward we have estimated trade receivables level of 91, 114 days, and 114 days in coming years as by ensuring faster completion of projects, we are expecting realisation of more revenue. We also expect to implement a stringent debtor management policy. This is planned by revising credit terms, refined collection processes and adjusting credit checks.
Current Liabilities	
Trade Payables	Our Trade Payable on restated financial statements were 113, 107, 106 for the years ended March 31, 2021, March 31, 2022 and March 31, 2023 and 61 days for six month period ended on September 30, 2023. Going forward, we have estimated Trade payable days to reduce in coming years to ensure better negotiable payment terms and faster delivery of goods to ensure efficient completion of projects. This would also ensure improvements in profitability margins.
Advance from Customers Days	Our advance from customers days on restated financial statements were 15, 46, 25 for the years ended March 31, 2021, March 31, 2022 and March 31, 2023 and 18 days for six month period ended on September 30, 2023. Going forward, we have estimated the Advance from Customers days to reduce as we are expecting more efficient completion of projects, this would ensure revenue recognition on a timely basis and hence, advances reflecting in the books would reduce.

(For the above details relating to the working capital requirement, we have relied upon the certificate dated 25 January 2024, UDIN – 24171607BKBFA9783 issued by the Statutory Auditors of the Company i.e., M/s. R Kejriwal & Co., Chartered Accountants)

2. General corporate purposes

The Net Proceeds will be first utilized towards the Objects as mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the amount being raised by the Company through this issue, in compliance with the Regulation 230(2) of SEBI (ICDR) Regulations. The Company intends to deploy the balance Net Proceeds i.e., ₹ [●], which is [●] of the amount being raised by the Company through this issue, towards general corporate purposes, subject to above mentioned limit, as may be approved by the management of the Company, including but not restricted to, the following:

- Strategic Initiatives
- Brand Building and strengthening of marketing activities; and
- Ongoing general corporate exigencies or any other purposes as approved by the Board subject to compliance with the necessary regulatory provisions.

The quantum of utilization of funds towards each of the above purposes will be determined by the Board of Directors of the Company based on the permissible amount actually available under the head “General Corporate Purposes” and the business requirements of the Company, from time to time. We in accordance with the policies of the Board, will have flexibility in utilizing the balance Net Proceeds for general corporate purposes, as mentioned above.

3. Issue Related Expenses

The total expenses of the Issue are estimated to be approximately ₹ [●]. The expenses of this Issue include, among others, underwriting and Issue management fees, printing and stationery expenses, advertisement expenses and legal fees, etc. The estimated Issue expenses are as follows:

Activity	Amount (₹ In Lakhs)	Percentage of the total Issue expenses	Percentage of the total Issue size

Industry sources and publications may also base their information on estimates, projections, forecasts, and assumptions that may prove to be incorrect and, accordingly, investment decisions should not be based on such information. You should read the entire Draft Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Statements” beginning on page 22 and 143 of Draft Prospectus.

MACROECONOMIC OVERVIEW

The global recovery from the COVID-19 pandemic and Russia’s invasion of Ukraine is slowing amid widening divergences among economic sectors and regions.

The World Health Organization (WHO) announced in May that it no longer considers COVID-19 to be a “global health emergency.” Supply chains have largely recovered, and shipping costs and suppliers’ delivery times are back to pre-pandemic levels. But forces that hindered growth in 2022 continue to persist. Inflation remains high and continues to erode household purchasing power. Policy tightening by central banks in response to inflation has raised the cost of borrowing, constraining economic activity. Immediate concerns about the health of the banking sector have subsided, but high interest rates are filtering through the financial system, and banks in advanced economies have significantly tightened lending standards, curtailing the supply of credit. The impact of higher interest rates extends to public finances, especially in poorer countries grappling with elevated debt costs, constraining room for priority investments. As a result, output losses compared with pre-pandemic forecasts remain large, especially for the world’s poorest nations.

Despite these headwinds, global economic activity was resilient in the first quarter of 2023, with that resilience driven mainly by the services sector. The post-pandemic rotation of consumption back toward services is approaching completion in advanced economies (including in tourism dependent economies of southern Europe), and it accelerated in a number of emerging market and developing economies in the first quarter. However, as mobility returns to pre-pandemic levels, the scope for further acceleration appears more limited. At the same time, non-services sectors, including manufacturing, have shown weakness, & high-frequency indicators for the second quarter point to a broader slowdown in activity. Amid softening consumption of goods, heightened uncertainties regarding the future Geo-economics landscape, weak productivity growth, & a more challenging financial environment, firms have scaled back investment in productive capacity. Gross fixed capital formation and industrial production have slowed sharply or contracted in major advanced economies, dragging international trade and manufacturing in emerging markets with them. International trade and indicators of demand and production in manufacturing all point to further weakness. Excess savings built up during the pandemic are declining in advanced economies, especially in the United States, implying a slimmer buffer to protect against shocks, including those to the cost of living and those from more restricted credit availability.

Global growth is projected to fall from 3.5 % in 2022 to 3.0 % in both 2023 and 2024 on an annual average basis. The forecast for 2023–24 remains well below the historical (2000–19) annual average of 3.8 %. It is also below the historical average across broad income groups, in overall GDP as well as per capita GDP terms. Advanced economies continue to drive the decline in growth from 2022 to 2023, with weaker manufacturing, as well as idiosyncratic factors, offsetting stronger services activity. In emerging market and developing economies, the growth outlook is broadly stable for 2023 and 2024, although with notable shifts across regions. On a year-over-year basis, global growth bottomed out in the fourth quarter of 2022. However, in some major economies, it is not expected to bottom out before the second half of 2023. World trade growth is expected to decline from 5.2 % in 2022 to 2.0 % in 2023, before rising to 3.7 % in 2024, well below the 2000–19 average of 4.9 %. The decline in 2023 reflects not only the path of global demand, but also shifts in its composition toward domestic services, lagged effects of US dollar appreciation—which slows trade owing to the widespread invoicing of products in US dollars—and rising trade barriers. These forecasts are based on a number of assumptions, including those regarding fuel and non-fuel commodity prices and interest rates. Oil prices rose by 39 % in 2022 and are projected to fall by about 21 % in 2023, reflecting the slowdown in global economic activity. Assumptions regarding global interest rates have been revised upward, reflecting actual and signaled policy tightening by major central banks since April.

The Federal Reserve and Bank of England are now expected to raise rates by more than assumed in the April 2023 WEO—to a peak of about 5.6% in the case of the Federal Reserve - before reducing them in 2024. The European Central Bank is assumed to raise its policy rate to a peak of 3.75 % in 2023 and to ease gradually in 2024. Moreover, with near-term inflation expectations falling, real interest rates are likely to stay up even after nominal rates start to fall.

1. Difference based on rounded figures for the current and April 2023 WEO forecasts. Countries for which forecasts have been updated relative to April 2023 WEO forecasts account for approximately 90 % of world GDP measured at purchasing-power-parity weights.
 2. For World Output (Emerging Market and Developing Economies), the quarterly estimates and projections account for approximately 90 % (80 %) of annual world (emerging market and developing economies') output at purchasing-power-parity weights.
 3. Excludes the Group of Seven (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and euro area countries.
 4. For India, data and projections are presented on a fiscal year basis, with FY 2022/23 (starting in April 2022) shown in the 2022 column. India's growth projections are 6.6 % in 2023 and 5.8 % in 2024 based on calendar year.
 5. Indonesia, Malaysia, Philippines, Singapore, Thailand.
 6. Simple average of growth rates for export and import volumes (goods and services).
 7. Simple average of prices of UK Brent, Dubai Fateh, and West Texas Intermediate crude oil. The average assumed price of oil in US dollars a barrel, based on futures markets (as of June 1, 2023), is \$76.43 in 2023 and \$71.68 in 2024.
 8. Excludes Venezuela.
 9. The inflation rate for the euro area is 5.2% in 2023 and 2.8% in 2024, that for Japan is 3.4% in 2023 and 2.7% in 2024, and that for the United States is 4.4% in 2023 and 2.8% in 2024.

Advanced Economies Group

For advanced economies, the growth slowdown projected for 2023 remains significant: from 2.7 % in 2022 to 1.5 % in 2023. About 93 % of advanced economies are projected to have lower growth in 2023, and growth in 2024 among this group of economies is projected to remain at 1.4 %.

In the **United States**, growth is projected to slow from 2.1 % in 2022 to 1.8 % in 2023, then slow further to 1.0 % in 2024. For 2023, the forecast has been revised upward by 0.2 % point, on account of resilient consumption growth in the first quarter, a reflection of a still-tight labor market that has supported gains in real income and a rebound in vehicle purchases. However, this consumption growth momentum is not expected to last: Consumers have largely depleted excess savings accumulated during the pandemic, and the Federal Reserve is expected to raise rates further.

Growth in the **Euro zone** is projected to fall from 3.5 % in 2022 to 0.9 % in 2023, before rising to 1.5 % in 2024. The forecast is broadly unchanged, but with a change in composition for 2023. Given stronger services and tourism, growth has been revised upward by 0.4 % point for Italy and by 1.0 % point for Spain. However, for Germany, weakness in manufacturing output and economic contraction in the first quarter of 2023 means that growth has been revised downward by 0.2 % point, to -0.3 %.

Growth in the **United Kingdom** is projected to decline from 4.1 % in 2022 to 0.4 % in 2023, then to rise to 1.0 % in 2024. This is an upward revision of 0.7 % point for 2023, reflecting stronger-than-expected consumption and investment from the confidence effects of falling energy prices, lower post-Brexit uncertainty (following the Windsor Framework agreement), and a resilient financial sector as the March global banking stress dissipates.

Growth in **Japan** is projected to rise from 1.0 % in 2022 to 1.4 % in 2023, reflecting a modest upward revision, buoyed by pent-up demand and accommodative policies, then slow to 1.0 % in 2024, as the effects of past stimuli dissipate.

For **Emerging market and developing** economies, growth is projected to be broadly stable at 4.0 % in 2023 and 4.1% 2024, with modest revisions of 0.1 % point for 2023 and - 0.1 % point for 2024. However, this stable average masks divergences, with about 61 % of the economies in this group growing faster in 2023 and the rest - including low-income countries and three of the five geographic regions described in what follows - growing more slowly. Growth in **emerging and developing Asia** is on track to rise to 5.3 % in 2023, then to moderate to 5.0 % in 2024, reflecting a modest (0.1 % point) downward revision for 2024. The forecast for China is unchanged at 5.2 % for 2023 and 4.5 % for 2024, but with a change in composition: Consumption growth has evolved broadly in line with April 2023 WEO projections, but investment has underperformed due to the ongoing real estate downturn in that country. Stronger-than-expected net exports have offset some of the investment weakness, although their contribution is declining as the global economy slows. Growth in India is projected at 6.1 % in 2023, reflecting momentum from stronger-than-expected growth in the fourth quarter of 2022 as a result of stronger domestic investment.

Growth in **Emerging and developing Europe** is projected to rise to 1.8 % in 2023, and to rise further to 2.2 % in 2024. The forecast for Russia in 2023 has been revised upward by 0.8 % point to 1.5 %, reflecting hard data (on retail trade, construction, and industrial production) that point to a strong first half of the year, with a large fiscal stimulus driving that strength.

Latin America and the **Caribbean** is expected to see growth decline from 3.9 % in 2022 to 1.9 % in 2023, although this reflects an upward revision of 0.3 % point since April, and to reach 2.2 % in 2024. The decline from 2022 to 2023 reflects the recent fading of rapid growth during 2022 after pandemic reopening, as well as lower commodity prices; the upward revision for 2023 reflects stronger-than-expected growth in Brazil—marked up by 1.2 % points to 2.1 % since the April WEO - given the surge in agricultural production in the first quarter of 2023, with positive spillovers to activity in services. It also reflects stronger growth in Mexico, revised upward by 0.8 % point to 2.6 %, with a delayed post-pandemic recovery in services taking hold and spillovers from resilient US demand.

Growth in the **Middle East & Central Asia** is projected to decline from 5.4 % in 2022 to 2.5 % in 2023, with a downward revision of 0.4 % point, mainly attributable to a steeper-than-expected growth slowdown in Saudi Arabia, from 8.7 % in 2022 to 1.9 % in 2023, a negative revision of 1.2 % points. The downgrade for Saudi Arabia for 2023 reflects production cuts announced in April and June in line with an agreement through **OPEC+** (the Organization of the Petroleum Exporting Countries, including **Russia** and other non-OPEC oil exporters), whereas private investment, including from “giga-project” implementation, continues to support strong non-oil GDP growth.

In **Sub-Saharan Africa**, growth is projected to decline to 3.5 % in 2023 before picking up to 4.1 % in 2024. Growth in Nigeria in 2023 and 2024 is projected to gradually decline, in line with April projections, reflecting security issues in the oil sector. In South Africa, growth is expected to decline to 0.3 % in 2023, with the decline reflecting power shortages, although the forecast has been revised upward by 0.2 % point since the April 2023 WEO, on account of resilience in services activity in the first quarter.

Inflation and Uncertainty:

Global headline inflation is set to fall from an annual average of 8.7 % in 2022 to 6.8 % in 2023 and 5.2 % in 2024, broadly as projected in April, but above pre-pandemic (2017–19) levels of about 3.5 %. About three-quarters of the world’s economies are expected to see lower annual average headline inflation in 2023. Monetary policy tightening is expected to gradually dampen inflation, but a central driver of the disinflation projected for 2023 is declining international commodity prices. Differences in the pace of disinflation across countries reflect such factors as different exposures to movements in commodity prices and currencies and different degrees of economic over-heating. The forecast for 2023 is revised down by 0.2 % point, largely on account of subdued inflation in China. The forecast for 2024 has been revised upward by 0.3% point, with the upgrade reflecting higher-than-expected core inflation.

Core inflation is generally declining more gradually. Globally, it is set to decline from an annual average of 6.5 % in 2022 to 6.0 % in 2023 and 4.7 % in 2024. It is proving more persistent than projected, mainly for advanced economies, for which forecasts have been revised upward by 0.3 % point for 2023 and by 0.4 % point for 2024 compared with the April 2023 WEO. Global core inflation is revised down by 0.2 % point in 2023, reflecting lower-than-expected core inflation in China, and up by 0.4 % point in 2024. On an annual average basis, about half of economies are expected to see no decline in core inflation in 2023, although on a fourth-quarter-over-fourth-quarter basis, about 88 % of economies for which quarterly data are available are projected to see a decline. Overall, inflation is projected to remain above target in 2023 in 96 % of economies with inflation targets and in 89 % of those economies in 2024.

Inflation persists: Tight labor markets and pass-through from past exchange rate depreciation could push up inflation and risk de-anchoring longer-term inflation expectations in a number of economies. The institutional setup of wage setting in some countries could amplify inflation pressures on wages. Moreover, El Niño could bring more extreme temperature increases than expected, exacerbate drought conditions, and raise commodity prices. The war in Ukraine could intensify, further raising food, fuel, and fertilizer prices. The recent suspension of the Black Sea Grain Initiative is a concern in this regard. Such adverse supply shocks might affect countries asymmetrically, implying different dynamics for core inflation and inflation expectations, a divergence in policy responses, and further currency movements.

Financial markets reprise: Financial markets have adjusted their expectations of monetary policy tightening upward since April but still expect less tightening than policymakers have signaled, raising the risk that unfavorable inflation data releases could - as in the first quarter of 2023 - trigger a sudden rise in expectation regarding interest rates and falling asset prices. Such movements could further tighten financial conditions and put stress on banks and non-bank financial institutions whose balance sheets remain vulnerable to interest rate risk, especially those highly exposed to commercial real estate. Contagion effects are possible, and a flight to safety, with an attendant appreciation of reserve currencies, would trigger negative ripple effects for global trade and growth.

INDIAN ECONOMIC OVERVIEW

After reaching 7.2% in FY 2022-23, real GDP growth is expected to slow to 6% in FY 2023-24, before rising to 7 % in FY 2024-25. While indicators suggest that India's growth is stable for now, headwinds from the impact of rapid monetary policy tightening in the advanced economies, heightened global uncertainty and the lagged impact of domestic policy tightening will progressively take effect. With slower growth, inflation expectations, housing prices and wages will progressively moderate, helping headline inflation converge towards 4.5%. This will allow interest rates to be lowered from mid-2024. The trade restrictions (including export bans on various rice varieties) imposed in 2022 to fight inflation are assumed to be withdrawn. The current account deficit will narrow, reflecting abating import price pressures.

FY 2022-23 ended on a positive note, due to higher-than-expected agriculture output and strong government spending. However, high inflation, in particular for energy and food, and the ensuing monetary tightening to anchor expectations are weighing on purchasing power and household consumption, particularly in urban areas. Tighter financial market conditions are reflected in weakening credit-supported demand for capital goods, a good proxy for business investment. Although services export growth remains brisk and the sectoral surplus rose by 35%, it is insufficient to offset the imbalance in goods' trade. Low labor productivity is affecting the competitiveness of "Made in India" goods and participation in global value chains. The current account deficit narrowed in the October-December quarter to 2.2% of GDP, from 2.7% in the same period in FY 2021-22. Headline inflation has fallen below 6% (the central bank's upper bound of the tolerance band) since March 2023, due to lower food prices, as well as base effects. Employment and wage estimates suggest improving labor market conditions in rural areas, while export-oriented service firms report increasing difficulties filling vacancies.

In the first quarter of the fiscal year 2024 (Q1FY24), India's Gross Domestic Product (GDP) is projected to exhibit a robust growth of 7.8%, showcasing a notable increase from the 13.1% growth recorded in the same period last year. This growth reinforces India's position as the fastest-growing major economy.

The National Statistical Office (NSO) data highlights a promising trajectory, with the agricultural sector demonstrating a growth of 3.5%, a notable improvement from the 2.4% growth observed year-on-year (YoY). Conversely, the manufacturing sector witnessed a slight deceleration, achieving a growth rate of 4.7% in Q1FY24, down from the 6.1% YoY growth seen in the previous year.

(Source: [PIB](#))

This impressive economic growth, outpacing regional counterparts, can be attributed to several factors. Notably, a surge in government capital expenditure, strong momentum in the services sector, and improved consumption played vital roles. Additionally, the favorable base effect contributed to the remarkable growth. Despite softness in external trade due to global economic challenges, India's GDP growth remained resilient.

The services sector's growth was bolstered by vibrant activity in financial services, trade, hotels, and the transport sector. This robust economic performance provides the Reserve Bank of India (RBI) with the flexibility to focus on managing inflationary expectations while fostering a conducive economic environment.

Domestic growth prospects are strongly influenced by global developments. India has seized the opportunity of discounted Ural oil, which has increased Russia's share in its energy imports. The sourcing of fertilizers from Russia has also increased considerably, more than doubling in volume in case of urea. Overall, Indian imports from Russia rose from USD 9.9 billion (1.6% of total imports) in FY 2021-22 to USD 46.2 billion (6.5%) in FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. In the coming period, the significance of merchandise exports in India's overall trade landscape may experience fluctuations, influenced by the economic slowdown observed in various partner countries. India's current account deficit (CAD) exhibited a decline in Q4 of 2022-23 compared to the previous quarter (Q3:2022-23) and the same quarter in the previous fiscal year (Q4:2021-22). This shift suggests a noteworthy change in India's trade dynamics and economic indicators over the specified periods.

The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030. In the Union Budget of 2022-23, the government announced funding for the production linked incentive (PLI) scheme for domestic solar cells and module manufacturing of ₹ 24,000 crore (US\$ 3.21 billion).

INDUSTRIAL SECTOR:

The industry sector the world over was adversely impacted during FY23 owing to supply chain disruptions & high raw material costs. Major economies witnessed PMI Manufacturing entering the contractionary zone post-August 2022. However, in the case of India, PMI Manufacturing remained in an expansionary zone throughout the year, supported by new orders and output expansion. Yet the growth in the manufacturing sector's GVA witnessed a temporary moderation in Q2 & Q3 of FY23 owing to elevated input costs. However, with the decline in input costs, rising demand and increased capacity utilization, the manufacturing sector's GVA revived in Q4 of FY23.

The growth in the manufacturing sector's GVA, which constitutes around three-fourths of the industrial Gross Value Added (GVA), led to a rebound in the industrial sector in Q4 of FY23. This was also supported by growth in Q4 of the other major component of the industries, i.e. the construction sector.

SERVICE SECTOR:

The growth in the services sector also remained strong in FY23, largely driven by the contact-intensive services sectors. This sector completely recovered to the pre-pandemic level in FY23, driven by the removal of mobility restrictions, the release of pent-up demand, and near-universal vaccination coverage. PMI Services remained in the expansionary zone throughout the year, supported by improvement in new business intakes, increased orders placed, and flagged price pressures of inputs and raw materials post-October 2022. Trade, Hotels, Transport, Communication and Services related to Broadcasting and Financial Real Estate & Professional Services are major drivers of the growth in this sector.

The India Services PMI survey for July reported a strong performance in the sector, driven by increased demand and new business gains. The Business Activity Index rose from 58.5 in June to 62.3 in July, marking the sharpest increase in output since June 2010. International sales also contributed to the growth in total new orders. To mitigate rising costs, services firms raised their selling charges. Among sub-sectors, Finance & Insurance stood out with the highest growth in business activity and new orders.

In July, there was a notable increase in overall new orders, marking the strongest growth in over 13 years. This increase was particularly pronounced in the service sector, while manufacturing orders saw a similar pace of growth as in June. Cost inflation increased in July, affecting both goods producers and service providers, with input costs rising at their fastest rate in a year. However, the prices charged for Indian goods and services increased at a slower rate, reaching a three-month low. Charge inflation moderated in both manufacturing and services.

INDIAN REAL ESTATE MARKET

The real estate sector is one of the most globally recognized sectors. It comprises of four sub-sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth in the corporate environment and the demand for office space as well as urban and semi-urban accommodation. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. It is also expected that this sector will incur more non-resident Indian (NRI) investment, both in the short term and the long term. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

By 2040, real estate market will grow to ₹ 65,000 crore (US\$ 9.30 billion) from ₹ 12,000 crore (US\$ 1.72 billion) in 2019. Real estate sector in India is expected to reach US\$ 1 trillion in market size by 2030, up from US\$ 200 billion in 2021 and contribute 13% to the country's GDP by 2025. Retail, hospitality, and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

In FY23, India's residential property market witnessed with the value of home sales reaching an all-time high of ₹ 3.47 lakh crore (US\$ 42 billion), marking a robust 48% year-on-year increase. The volume of sales also exhibited a strong growth trajectory, with a 36% rise to 379,095 units sold.

Indian real estate developers operating in the country's major urban centres are poised to achieve a significant feat in 2023, with the completion of approximately 558,000 homes.

India's real estate sector saw over 1,700 acres of land deals in top eight cities in the first nine months of FY22. Foreign investments in the commercial real estate sector were at US\$ 10.3 billion from 2017-2021. As of February 2022, Developers expect demand for office spaces in SEZs to shoot up after the replacement of the existing SEZs act.

As per ICRA estimates, Indian firms are expected to raise > ₹3.5 trillion (US\$ 48 billion) through infrastructure and real estate investment trusts in 2022, as compared with raised funds worth US\$ 29 billion to date.

The office market in the top eight cities recorded transactions of 22.2 msf from July 2020 to December 2020, whereas new completions were recorded at 17.2 msf in the same period. In terms of share of sectoral occupiers, Information Technology (IT/ITeS) sector dominated with a 41% share in the second half of 2020, followed by BSFI and Manufacturing sectors with 16% each, while Other Services and Co-working sectors recorded 17% and 10%, respectively.

Around 40 million square feet were delivered in India in 2021. It is expected that the country will have a 40% market share in the next 2-3 years. India is expected to deliver 46 million square feet in 2022.

According to Savills India, real estate demand for data centres is expected to increase by 15-18 million sq. ft. by 2025.

In 2020, the manufacturing sector accounted for 24% of office space leasing at 5.7 million square feet. SMEs and electronic component manufacturers leased the most between Pune, Chennai and Delhi NCR, followed by auto sector leasing in Chennai, Ahmedabad and Pune. The 3PL, e-commerce and retail segments accounted for 34%, 26% and 9% of office space leases, respectively. Of the total PE investments in real estate in Q4 FY21, the office segment attracted 71% share, followed by retail at 15% and residential and warehousing with 7% each.

In 2022, office absorption in the top seven cities stood at 38.25 million Sq. ft.

In the first quarter of 2023 (January-March), net office absorption in the top six cities stood at 8.3 million sq. ft. Fresh real estate launches across India's top seven cities grabbed a 41% share in the first quarter of 2023 (January-March), marking an increase from the 26% recorded in the same period four years ago. Out of approximately 1.14 lakh units sold across the top seven cities in the first quarter of 2023, over 41% were fresh launches.

In the third quarter of 2021 (between July 2021-September 2021), new housing supply stood at ~65,211 units, increased by 228% YoY across the top eight cities compared with ~19,865 units launched in the third quarter of 2020.

In 2021-22, the commercial space is expected to record increasing investments. For instance, in October 2021, Chintels Group announced to invest ₹ 400 crore (US\$ 53.47 million) to build a new commercial project in Gurugram, covering a 9.28 lakh square feet area. The transactions of commercial real estate doubled and reached 1.5 million sq. ft. in Q1 of 2023.

According to the Economic Times Housing Finance Summit, about three houses are built per 1,000 people per year compared with the required construction rate of five houses per 1,000 population. The current shortage of housing in urban areas is estimated to be ~10 million units. An additional 25 million units of affordable housing are required by 2030 to meet the growth in the country's urban population.

The Government of India has been supportive towards the real estate sector. In August 2015, the Union Cabinet approved 100 Smart City Projects in India. The Government has also raised FDI (Foreign Direct Investment) limits for townships and settlements development projects to 100%. Real estate projects within Special Economic Zones (SEZ) are also permitted for 100% FDI. Construction is the third-largest sector in terms of FDI inflow. FDI in the sector (including construction development & activities) stood at US\$ 55.5 billion from April 2000-December 2022.

Exports from SEZs reached ₹ 7.96 lakh crore (US\$ 113.0 billion) in FY20 and grew ~13.6% from ₹ 7.1 lakh crore (US\$ 100.3 billion) in FY19. Indian real estate is expected to attract a substantial amount of FDI in the next two

years with US\$ 8 billion capital infusion by FY22. As of December 31, 2022, India formally approved 425 SEZs.

In the first-half of 2021, India registered investments worth US\$ 2.4 billion into real estate assets, a growth of 52% YoY.

Share of the top listed developers in the Indian residential market is expected to increase to 29% in FY24, from 25% in FY21, driven by a strong pipeline for residential project launch.

Between July 2021-September 2021, a total of 55,907 new housing units were sold in the eight micro markets in India (59% YoY growth).

In 2022, housing sales in the NCR surged 67% to reach 58,460 units compared with the same period last year.

In October 2021, Chintels Group announced to invest ₹400 crore (US\$ 53.47 million) to build a new commercial project in Gurugram, covering a 9.28 lakh square feet area.

Government of India's Housing for All initiative is expected to bring US\$ 1.3 trillion investments in the housing sector by 2025. Since 2019, 122.69 lakh houses have been sanctioned and 71.57 houses have been completed and delivered to urban poor under the Pradhan Mantri Awas Yojana-Urban (PMAY-U).

The scheme is expected to push affordable housing and construction in the country and give a boost to the real estate sector. On July 09, 2020, Union Cabinet approved the development of Affordable Rental Housing Complexes (AHRCs) for urban migrants and poor as a sub-scheme under PMAY-U.

In October 2021, the RBI announced to keep benchmark interest rate unchanged at 4%, giving a major boost to the real estate sector in the country. The low home loan interest rates regime is expected to drive the housing demand and increase sales by 35-40% in the festive season in 2021.

Government has also released draft guidelines for investment by Real Estate Investment Trusts (REITs) in non-residential segment.

The Ministry of Housing and Urban Affairs has recommended all the states to consider reducing stamp duty of property transactions in a bid to push real estate activity, generate more revenue and aid economic growth.

In July 2021, the Securities and Exchange Board of India lowered the minimum application value for Real Estate Investment Trusts from ₹ 50,000 (US\$ 610.7) to ₹ 10,000-15,000 (US\$ 122.13-183.2) to make the market more accessible to small and retail investors.

MARKET OUTLOOK

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform, which will allow all kind of investors to invest in the Indian real estate market. It would create an opportunity worth ₹ 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family-owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

The current shortage of housing in urban areas is estimated to be ~10 million units. An additional 25 million units of affordable housing are required by 2030 to meet the growth in the country's urban population.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY22.

OVERVIEW OF FACADE AND FENESTRATION INDUSTRY IN INDIA

The India facade market size reached US\$ 2,855.4 Million in 2023. Looking forward, IMARC Group expects the market to reach US\$ 5,431.9 Million by 2032, exhibiting a growth rate (CAGR) of 7.18% during 2024-2032. The increasing construction activities, rising number of commercial spaces, and the growing number of remodeling and upgradation projects represent some of the key factors driving the market

(Source: *India Facade Market Report, IMARC Group*)

In recent years, the global facade market has experienced a notable surge in profitability, propelled by the increasing demand for alternative electricity sources in both commercial and residential constructions. This growth can be attributed to advancements in technology, particularly the emergence of energy-efficient facade materials. Consequently, promising opportunities lie ahead for the market, buoyed by the robust pace of construction activities worldwide.

Facades seamlessly blend aesthetic appeal with superior performance in a unique manner unmatched by other construction systems. This characteristic is expected to significantly drive product demand in the forthcoming years.

A key factor anticipated to propel the facade industry is the imperative to curtail heating and air conditioning expenses, striving for energy efficiency. This cost-cutting trend is projected to foster sustainable product development over the forecast period.

The surge in popularity of green buildings necessitates high-transparency glass, facilitating light penetration while maintaining heat resistance. The forecast period is expected to witness an uptick in the application of high-performance facades focused on energy conservation and solar control, delivering substantial economic and ecological benefits. This shift has spurred demand for triple-glazed facades, boasting a lower U-value compared to their double-glazed counterparts.

Presently, the industry is dominated by classic designs exuding a rigid and elegant appearance. However, modern facades utilizing advanced lightweight materials are anticipated to exhibit significant growth in the years ahead. Benefits such as resilience against adverse weather conditions and detection of unwanted intrusions are among the primary reasons for the remarkable growth of modern facades during the forecast period.

In India, the facade cladding industry is undergoing a transformative phase concerning functionality and performance parameters. Adherence to stringent energy and quality standards, coupled with technological advancements, has empowered architects and designers to express their preferences and ideologies in distinctive and more accessible ways than before. These norms and technological strides have led to:

1. Development of robust, energy-efficient, innovative, and adaptable facade systems like Back Ventilated Facade System, Double Skin Facade System, Louvers Facade Systems, and Energy-Efficient Facade Cladding Systems.
2. Introduction of innovative cladding materials such as Exterior Grade HPL Compact Laminates, Glass Fibre Reinforced Concrete, Metal Claddings (Zinc, Copper, Aluminum, and Steel), Polycarbonate Panels, Fibreglass Reinforced Plastics, and Clay Tiles. Architects now must consider not only technical aspects but also design elements that enhance aesthetic appeal and exclusivity while ensuring energy efficiency.

The spending patterns of Indian consumers concerning their homes have witnessed a shift. Presently, Indian consumers prioritize both cost-effectiveness and value, willing to invest in robust, aesthetic, uniquely designed, and durable products.

The Indian fenestration industry is evolving gradually, driven by a changing and more experimental generation of end-users seeking revolutionary, non-traditional materials, new designs, colors, and energy-efficient elements for their homes and offices. Traditional materials like timber are being swiftly replaced by engineered products and thermoplastics like PVC resin, with uPVC gaining traction in the Indian market. Architects and interior designers recognize the potential of these materials in reducing air conditioning costs, driving a discernible yet steady market expansion.

DIFFERENT TYPES OF BUILDING FAÇADE SYSTEMS

1. Steel Facade Systems:

Lightweight steel-filled walls have become a prevalent replacement for traditional inner blockwork sheets in both steel-framed and concrete buildings. Various facade systems can be affixed to these filler walls.

2. Light Steel Infill Walls:

Light steel walls in a steel-framed building come in two primary types:

- Light steel infill walls spanning between floors or between floors and edge beams.
- Panelized systems positioned outside the slab edges, attached at specific discrete points.

The preference for lightweight steel fill walls is due to the simplicity of installation and the ability to provide custom-cut C sections according to project dimensions. This innovation has been a significant development in the past decade. These walls, made of C sections, span between 2.4 and 5 meters between floors and are designed to withstand wind pressures on the building facade and the weight of the specific coating system applied.

3. Aluminum Composite Panels (ACP):

ACP refers to flat panels with a thermoplastic core sandwiched between two aluminum sheets. Widely used for exterior cladding of buildings, ACP is favored for its remarkable rigidity and strength despite being lightweight. It offers versatility in color options and can mimic various materials like wood or marble. ACP finds applications not only in building exteriors but also in coatings, partitions, false ceilings, and more. The sheets come in varying thicknesses and are coated with PVDF for a superior finish.

4. Double-Skin Facade Systems:

Originating in northern Europe, double-skin facades comprise two glass walls separated by a cavity, primarily facing south. They are designed to reduce a building's energy consumption. Shading devices are typically installed within the cavity. These facades have multiple variations in layout, creating a thermal buffer zone and passive solar gains that aid in reducing heat loss in winter.

5. Brick Slip Systems:

Modern bricks can be manufactured in the form of brick planks attached to supporting steel sheets or composite panels. This lightweight system allows for quick installation, and mortar may not be necessary. The brick sheets can be stacked vertically, allowing for creative architectural effects, and their weather resistance relies on the backing material.

6. Precast Concrete Panels:

Masonry facades are established using natural stone panels or prefabricated concrete panels placed at floor heights. Stainless steel support brackets and restriction pins are employed for stability. The thickness of manually placed stone varies based on wind load and stone tensile strength. Continuous areas of masonry siding exhibit low air permeability, controlled with careful detailing at interfaces and penetrations.

7. Steel and Glass Facades:

Steel and glass synergies are frequently seen in multi-storey building facades and roofs. Glass panels are typically supported by vertical steel elements separate from the main structural frame.

8. Insulated Wall Panels:

These are sandwich panels with composite metal cladding or concrete panels with insulation between internal and external elements. Steel-faced insulated panels are common in low-rise, single-storey industrial and commercial buildings. Various insulating materials are available, and careful selection is necessary to meet functional and performance requirements.

9. Curtain Walling:

Curtain walls are light metallic or glazed cladding systems supported directly by a structural framework. They can mimic a monolithic coating system by attaching stone plates or large tiled fascias. These systems offer strength, an eco-friendly environment inside buildings, and reduced energy consumption.

The facade construction process, though costly (often accounting for up to 35% of total construction costs), is deemed worthwhile due to the significant contributions it makes to energy cost reduction and building longevity. In the current construction landscape, sustainability is paramount, and achieving sustainable structures requires making informed choices regarding materials, opting for those that reduce environmental impact in the long run, such as clay, argemax, and wood.

KEY DEMAND DRIVERS OF THE INDUSTRY

Prospects in Façade Materials Market in Asia Pacific:

The construction industry in Asia Pacific has been exhibiting a robust Compound Annual Growth Rate (CAGR). This growth, propelled by rapid expansion in the industrial sector, positions the region as a significant market for façade materials. Emerging nations like India, China, and Southeast Asia are anticipated to present the most lucrative opportunities in the forthcoming years. Moreover, the governments in the Asia Pacific region are enacting stringent regulations to encourage the use of eco-friendly materials, attracting investors to capitalize on these opportunities.

Global Capital Inflow and Real Estate Transformation in India:

The evolving real estate landscape in India holds significant implications for the real estate investment community. The year 2018 marked a pivotal phase for the realty market, driven by policy changes such as demonetization, RERA, and REITs in 2016, followed by GST in 2017. Global capital inflow into Indian real estate is set to expand substantially, especially in emerging economies, catalyzed by world population growth and increasing GDP per capita. Collaboration with governments is becoming increasingly important for real estate developers to revamp their business models and ensure project completion within stipulated deadlines.

Transformation of Office Sector and REIT Impact:

The listing of Real Estate Investment Trusts (REITs) is set to transform the office sector, enabling builders to secure funds more easily for building projects. REITs are expected to attract smaller investors with minimal risk appetite, contributing to increased funding in the office sector. The rise of REITs will influence developers to either corporatize or face potential takeovers by larger counterparts.

Trends Shaping the Real Estate Sector:

The real estate sector is witnessing an increase in industry consolidation due to the surge in developers, projects, and a lack of customers. Competition for prime assets is intensifying, fueled by new wealth from emerging economies. The affordable housing segment is significantly impacted, with plans to build over one crore houses in rural India by 2019, supported by cheaper sources of finance. The real estate investment community needs to adapt to these trends and ensure they possess the necessary capabilities to navigate the evolving real estate landscape.

Emerging Trends in Real Estate Investment:

With shifting trends in the real estate sector, people are increasingly considering investments on a smaller scale. Real estate investment, even on a small scale, continues to be a reliable means of generating cash flow and building wealth. The evolving dynamics of the real estate market are compelling individuals to explore investment opportunities at various levels.

DIFFERENT TYPES OF WINDOWS IN THE MARKET

1. Aluminium Bi-fold Windows:

Aluminium bi-fold windows stand out as a prevalent choice for residential settings due to their versatile design, capable of swinging in and out, opening to one side or both sides, and even accommodating a 90-degree corner, depending on the specific model chosen. Notably, their effortless cleaning and maintenance features contribute to their popularity. The conventional charm of aluminium bi-fold windows is undeniably captivating and adds a visually appealing element to any space.

2. Aluminium Stacking Windows:

Known by various names such as folding windows, folding-sliding windows, or concertina windows, this particular window style encompasses the entire vertical expanse of a wall, providing an unobstructed panoramic view of the surroundings. Comprising multiple panels, typically ranging from 3 to 10, these windows elegantly fold upon one another when opened. Originating as a modern-day innovation, they prove to be an ideal choice for individuals residing in spacious homes with ample room to spare. For those seeking to imbue their living spaces with an air of refinement, transforming even modest residences into sanctuaries of pure sophistication and modern elegance, aluminium stacking windows emerge as the window solution of choice.

3. Aluminium Tilt-Turn Windows:

Aluminium tilt-turn windows, also referred to as windows with a unique dual functionality, can either open at an angle from their top portion or swing wide open akin to a door. Their distinctive feature of accommodating both horizontal and vertical movements renders them particularly suitable for residences characterized by limited space and petite balconies. The versatility of these windows not only facilitates efficient ventilation but also complements the spatial constraints often encountered in smaller homes.

4. Aluminium Sliding Windows:

Aluminium sliding windows, characterized by their horizontal opening mechanism as they smoothly slide from one side to another, embody a minimalistic design that seamlessly complements various home settings. Particularly well-suited for residences lacking extensive balcony or backyard spaces, these windows stand out for their sleek appearance. Renowned for their stylish aesthetic, they introduce a sense of versatility and contemporary design elements into any home. Opting for glazing on these windows can enhance insulation and energy efficiency, contributing to a reduction in electricity bills. Enthusiasts of this window type will find a diverse range of aluminium sliding window options readily available in the home improvement market, catering to different preferences and styles.

5. Aluminium Casement Windows:

An aluminium casement window distinguishes itself as a casement window featuring frames and hinges crafted from aluminium. Affixed to its frame through one or more side hinges, these windows gracefully open outward, presenting an inviting opportunity to welcome the refreshing morning or evening breeze into the living space. The growing trend of embracing aluminium casement windows is evident, with an increasing number of individuals recognizing them not only for their ease of cleaning and aesthetic appeal but also as a desirable addition to their homes.

Investors are accordingly cautioned against placing undue reliance on such information in making an investment decision and should consult their own advisors and evaluate such information in the context of the Restated Financial Statements and other information relating to our business and operations included in this Draft Prospectus.

BUSINESS OVERVIEW

Our company was incorporated as “Aluwind Architectural Private Limited” on April 22, 2003, as a private limited company under the provisions of the Companies Act, 2013 pursuant to Certificate of Incorporation issued by Registrar of Companies, Mumbai (“RoC”) with the object to take over the business of M/s. Alu-Wind Industries [a Partnership Firm, between Mr. Murli Manohar Ramshankar Kabra & Mr. Rajesh Kabra] and further to run the takeover Business. Our Company was converted into a public limited company pursuant to shareholders resolution passed at the extraordinary general meeting of our Company held on October 4, 2023, and the name of our Company was changed to “Aluwind Architectural Limited” and a Fresh Certificate of Incorporation dated January 03, 2024, was issued by the Registrar of Companies, Mumbai. The Corporate Identification Number of our Company is U74140DL2015PLC286390. The company has its registered office at 604, Palm Spring Centre, Link Road, Malad (West), Mumbai City, MUMBAI, Maharashtra, India, 400064.

With a rich operating history spanning over years, the company commenced its business operations as a family venture. In 2000, a significant transformation occurred as the proprietorship evolved into a partnership between MM Kabra and Rajesh Kabra. Today, the company stands out as a prominent specialist in manufacturing and installing a diverse range of aluminum products. This includes windows, doors, curtain walls, cladding, and glazing systems, all meticulously crafted to meet the unique needs of architects, consultants, builders, institutions, and corporations. Over the decades, the company has not only solidified its position as a leading name in the industry but has also garnered a strong reputation for its exceptional expertise in manufacturing aluminum windows and glass facades.

At the helm of the company stands Mr. Murli Manohar Kabra, the Managing Director, whose extensive knowledge and practical experience in managing large projects have played a pivotal role in guiding the organization. Thanks to his leadership and expertise, the company has achieved numerous successful milestones in this industry, consistently delivering quality products and services to its clients.

Operating from a cutting-edge 45,000-square-foot facility in Pune, Maharashtra, this tech-driven company specializes in a niche product segment. With elite infrastructure and advanced machinery, including a powder coating facility and CNC machines, it ensures precision in manufacturing aluminum products like windows, doors, and curtain walls. The facility is strategically organized with distinct sub-divisions for manufacturing, testing, and storage, ensuring an efficient production process. Specialized machines, such as a two-part pump for glazing, contribute to the company's unique offerings. Additionally, it maintains a display center and goods storage premise in Pune. Rigorous quality checks at multiple stages underscore the company's commitment to meeting the highest standards.

In addition to this impressive infrastructure and track record, the company has successfully expanded its market presence. With products sold in cities across India, including Mumbai, Pune, Bangalore, Hyderabad, among others, the company demonstrates a widespread reach and a commitment to serving customers across the nation.

Expanding upon this robust foundation, the company has successfully executed numerous projects over the years and is presently managing an impressive portfolio of ongoing projects. These achievements reflect the company's commitment to excellence, continuous growth, and its dedication to delivering outstanding results for its clients.

The company is dedicated to achieving excellence in product quality and has recently solidified its commitment through a strategic collaboration with Eternia, a cutting-edge product line from Hindalco (Aditya Birla Group). This collaboration positions the company as anchor partner for Eternia products in the MMRDA region. By aligning with this latest offering, the company not only reinforces its dedication to maintaining high-quality standards but also establishes itself as a key player in delivering state-of-the-art solutions to its clientele in the fenestration industry.

The company aspires to lead the facade and fenestration industry, aiming to be at the forefront by delivering elegant products that contribute to enhancing the city's skyline. With a clear vision, it strives to redefine architectural landscapes and set new standards for aesthetic and functional excellence in the industry.

OUR VISION

To be the most trusted name and become the market leader in the Facade and Fenestration industry across India by delivering high quality and innovative products on time. We are Committed to Customer Satisfaction and Value creation for all our stakeholders.

OUR MISSION

AluWind is committed to exceeding Customer expectation, crafting architectural masterpieces and fostering the culture of excellence and innovation. While meeting our commitments, AluWind is striving to become a vendor of choice in the Façade and Fenestration industry. We aspire to bring growth and well-being for all our stakeholders.

OUR VALUES

Safety: Prioritizing the safety of our employees, communities, and the environment at large is paramount.

Quality: Delivering products that meet the highest standards in quality of material and its performance.

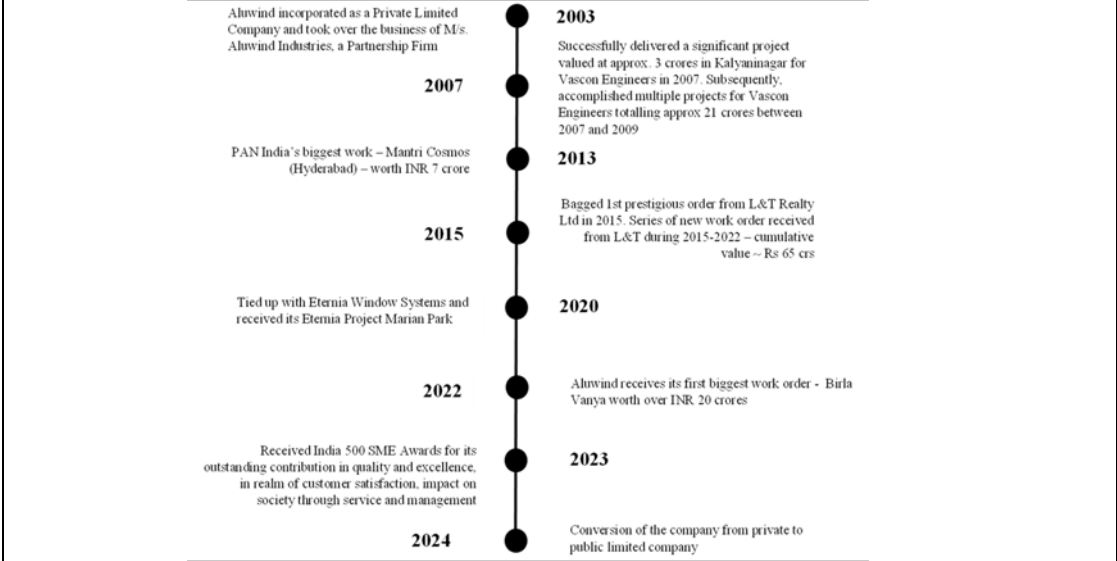

Sustainability: Attaining operational efficiencies and building an ecosystem that minimizes environmental impact and utilizes resources responsibly.

Innovation: Embracing new technologies and approaches to improve efficiency, safety, and quality of products.

Commitment: Committed to excellence and continuous improvement in all aspects of the business and its responsibility.

Journey of the company:

Keys events and Milestones in the history of our Company

Throughout its decades of operation, the company has effectively sustained a strong presence in multiple cities across India.

OUR KEY OFFERINGS

Since its establishment, Aluwind has proudly undertaken and successfully concluded numerous prestigious projects. Our diverse portfolio of products tailored to architectural aluminum needs encompasses an extensive array, catering to a wide spectrum of requirements. This includes but is not limited to aluminum profiles, glass facades, doors, windows, curtain walls, and structural glazing solutions. Our commitment to excellence and innovation allows us to deliver superior quality products that meet the unique demands of modern architecture and construction projects.

1. Systemized Doors & Windows

Our company excels in crafting innovative architectural solutions, notably in the form of systemized doors & windows which are laboratory tested to international market standards following European & American Standards. These system windows seamlessly blend functionality with aesthetics, allowing for versatile space division and efficient natural light penetration along with maintaining high grade structural elements for long term usability. Each element is meticulously designed and manufactured using high-grade aluminum profiles, ensuring durability and a sleek, modern finish. These systemized windows & doors serve as a hallmark of our commitment to providing top-notch, customizable solutions that enhance the overall ambiance and usability of any space. Ranging from economic to premium to ultra premium windows, we provide diverse range of products fitting into our clients requirements.

2. Curtain Walls

Curtain walls represent a pinnacle of architectural ingenuity, and our company takes pride in crafting exceptional curtain wall systems. These walls seamlessly blend aesthetic elegance with structural robustness, providing an iconic exterior to modern buildings. Utilizing top-quality aluminum profiles and advanced glazing techniques, our curtain walls ensure energy efficiency and environmental sustainability. They create a striking visual impact while allowing an abundance of natural light, fostering a harmonious interaction between the building and its surroundings. With numerous cost engineering options available, these curtain walls fit into the budget and provide quick and elegant solution and value for money for our clients.

3. Structural Glazing

At our company, we excel in engineering sophisticated structural glazing systems that redefine architectural possibilities. Structural glazing involves the use of high-performance glass bonded to the aluminium structure with specialized sealants and adhesives, presenting a seamless, frameless appearance. This technique allows for uninterrupted expanses of glass, optimizing views and natural light while maintaining exceptional structural integrity. Our approach combines precision engineering, top-tier materials, and expertise to create iconic and contemporary facades that merge design brilliance with engineering excellence. These factory made glazing panels offer high degree of quality and an easier solution to complicated facades.

4. Unitized Glazing

In the realm of engineering at its peak, where glass has revolutionized architectural façade, our company specializes in a modern architectural marvel product. These unitized glazing products are a testament to our dedication to elegance and functionality, providing a transparent and inviting facade that entices customers. These pre-fabricated factory-made panels are meticulously quality designed and manufactured in factory and transported with our in-house logistics system on site. This kind of glazing reduces all the on-site construction hassle and complications and installation is very quick on site to match the client's time requirement. Crafted with premium materials and employing advanced techniques, these unitized are epitomes of glazing technique in the construction sector.

5. Spider Glazing

Innovative and visually striking, our company specializes in crafting suspended glazing, often referred to as spider glazing. This cutting-edge system utilizes slender, stainless steel point-fixings resembling spider legs to suspend glass panels. The result is a stunning, modern facade with minimal structural obstructions, providing a sense of openness and transparency. Our suspended glazing solutions are meticulously designed and engineered to ensure not only an aesthetically pleasing look but also exceptional strength and durability. This represents our commitment to pushing design boundaries and offering solutions that redefine architectural aesthetics.

6. Aluminium Composite Panel

A cornerstone of our product lineup, aluminum composite panels (ACP) reflect our dedication to blending versatility with aesthetics. These panels consist of a composite structure, typically comprising two aluminum sheets bonded to a non-aluminum core. ACPs offer a range of design and color shade options, enabling architects and designers to achieve a variety of looks, from modern to rustic look. Our ACPs are crafted using high-quality materials, ensuring durability, weather resistance, and ease of installation. These panels symbolize our commitment to providing adaptable and visually appealing architectural solutions.

7. Sky Light

Sky lights, a hallmark of our architectural offerings, epitomize our dedication to natural illumination and elegance. These roof-mounted windows or panels allow an abundance of daylight to infuse interiors, creating a vibrant and uplifting atmosphere. Our skylights are meticulously designed to maximize energy efficiency while accentuating architectural aesthetics. Utilizing high-quality materials and advanced glazing technologies, we engineer skylights that not only enhance the aesthetic appeal of a space but also promote a sustainable and

energy-conscious environment along with providing a good weather tightness to avoid water ingress to our internal side of the building. Our sky lights stand as a testament to our commitment to innovative design and enhancing the connection between indoor and outdoor spaces.

8. Railing & Balustrades

Railing & Balustrades exemplify a safety & reliable solution to our clients. Whether be it commercial office space for employees and business owners or residential house occupants, these structures are highly structurally tested to adverse effects of weather to offer a sound high tested system. These structures are either supported by aluminium or stainless steel vertical post or anchored to the building structure and glass is held in between the post or with seamless horizontal aluminium system where glass is cantilevered. Our Railing & Balustrade Systems ensures longevity and weather resistance.

9. Canopy

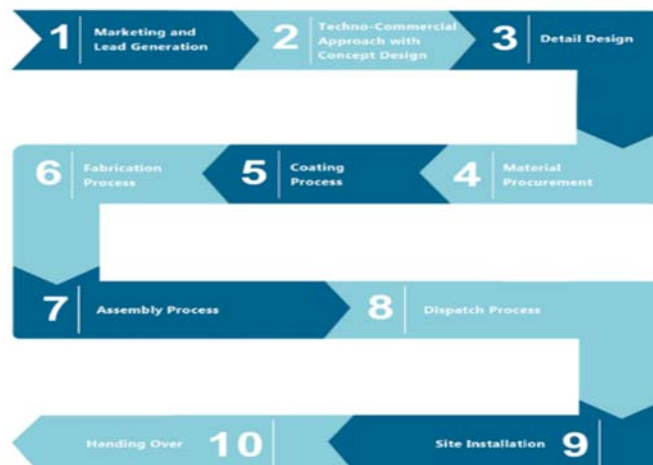

At Aluwind, we specialize in creating canopies that go beyond mere architectural features, becoming elegant expressions of form and function. Our canopies are crafted to provide a perfect harmony of shade, shelter, and style, transforming both outdoor and indoor spaces. Whether envisioning a modern, minimalist design or a classic, ornate structure, our solutions are tailored to unique aesthetic preferences and practical needs.

Functioning as inviting extensions of your space, our canopies enhance outdoor lounges, building entrances, and offer protection against the **elements**. They redefine the look and feel of your property, making it more inviting, comfortable, and energy-efficient. Customization options in materials, colors, and lighting ensure that your canopy complements existing surroundings or stands out as a statement piece. Embrace the transformative potential of canopies with Aluwind and elevate your spaces with their beauty and versatility.

Tailored to suit various architectural styles and preferences, our canopies are a harmonious blend of design, functionality, and durability. They symbolize our commitment to enhancing outdoor spaces while offering protection and visual appeal.

OUR BUSINESS PROCESS FLOW:

OUR BUSINESS PROCESS CAN BE EXPLAINED AS FOLLOWS:

Marketing and Lead Generation:

We employ a proactive approach to generate inquiries and establish a stable order pipeline. Our Head of Department conducts weekly review meetings to devise strategies for targeting specific clients and areas based on the prevailing market conditions. Notably, our business thrives on an impressive 80% repeat client rate, indicative of our strong, enduring client relationships. This stems from our deeply ingrained value culture, which dictates that we only make commitments when we are confident and capable of delivering orders as per the client's specifications and timelines.

Techno-Commercial Approach with Concept Design:

Our client engagement process includes providing detailed estimates and concept drawings to offer a clear view of the required product, all within the specified budget. Subsequently, our team engages in value engineering to tailor the product to the client's architectural requirements without compromising technical parameters while staying within the client's budget.

Detail Design:

Once awarded a project, the initial step is the detail design stage, where our expert designers create shop drawings based on the client's specific requirements. These designs undergo scrutiny by expert consultants to ensure they meet the client's demands and adhere to industry standards.

Material Procurement:

Following the approval of the detail design, the material procurement process begins. Our design team generates material requirements, which are then reviewed by our store team. This process is facilitated by our ERP system, which streamlines order placement and stock reservation. Material procurement planning takes into account supplier turnaround times and project timelines.

Coating Process:

The coating process involves applying the desired colour to the raw aluminium, aligning with the client's or architect's intent. Our quality-focused approach utilizes a thorough 7-tank process to ensure an even and long-lasting coating on the aluminium surface.

Fabrication Process:

After coating, the materials move through the fabrication process, where various operations like cutting, milling, drilling, and more are performed on the aluminium profiles. Our fabrication line is equipped with CNC cutting and 4-axis CNC machining, along with pneumatic punching presses, to ensure precise and efficient production.

Assembly Process:

The fabricated components are meticulously assembled by our highly skilled workforce. Stringent quality checks are conducted at multiple stages by our production and quality teams. Regular training sessions keep our assembly team updated to consistently deliver high-quality products.

Dispatch Process:

Our dispatch and in-house logistics team meticulously organizes the assembled panels, marked by a separate Finished Goods layout. This meticulous approach ensures that our in-house vehicles are optimally utilized while prioritizing product quality.

Site Installation Process:

Our site installation team ensures precise placement of fabricated components, conducting thorough quality checks for fit and finish. Safety standards are paramount, with on-site supervisors overseeing the process.

Handing Over Process:

Before project completion, a detailed inspection ensures all components meet specifications. We provide comprehensive documentation, address client concerns, and prioritize clear communication for a smooth transition.

OUR BUSINESS STRATEGIES

1. Organic Growth:

Our business strategy emphasizes organic growth through continual innovation and improvement. By investing in research, development, and honing our in-house capabilities, we aim to organically expand our product offerings, customer base, and market reach. This approach enables us to adapt to changing market dynamics and sustain a steady, controlled growth trajectory.

2. Brownfield Expansion:

Opting for brownfield expansion aligns with our strategic goal to maximize operational efficiency and optimize resources. By strategically utilizing existing infrastructure and enhancing production capacities, we minimize costs and accelerate our growth trajectory. This expansion approach ensures a seamless transition into higher production levels and allows us to meet increasing market demands effectively.

3. Tie-up with World-renowned Vendors:

Collaborating with world-renowned vendors is a cornerstone of our strategy to ensure the highest quality materials and components for our products. These partnerships enable us to integrate cutting-edge technologies and superior materials into our offerings, enhancing the value proposition for our customers. The tie-up strengthens our product portfolio and positions us as a reliable and quality-focused industry player.

4. Expansion of Eternia Brand:

Expanding the Eternia brand is a key aspect of our growth strategy, focusing on establishing a strong brand presence. By leveraging the trust and credibility associated with the Eternia brand, we seek to diversify our product line and capture a larger share of the market. The expansion strategy includes introducing new product variants, improving brand visibility, and ensuring consistent quality to resonate with a broader customer base.

5. Geographical Expansion:

We recognize the potential for expansion and are considering regions like Karnataka, Gujarat, and Telangana. We plan to create a superior value proposition, a strong go-to-market strategy, competitive profit structures, and a high market share before expanding. The demand for more pleasant and naturally lit workspaces, along with the increasing need for office space beautification, supports this expansion strategy. Additionally, we are exploring the export of our manufactured panels to leverage our manufacturing excellence and experience.

6. Product Expansion:

Considering the significant growth potential in the facade systems market, we aim to expand our current facade business. The facade systems market includes a range of products such as cladding materials and curtain walls, offering benefits like improved thermal and sound insulation, as well as increased natural lighting. The growing demand for sustainable building solutions, including energy-efficient facade systems, aligns with our expansion goals.

7. Marketing Strategy

Our marketing strategy centers on fostering customer loyalty and expanding our client base. With substantial business originating from our existing customer base in the facade and windows verticals, we prioritize encouraging repeat orders. To achieve this, we engage with personalized post-purchase messaging, leaving a positive, lasting impression and keeping our brand top-of-mind for re-purchases. Additionally, we strategically incentivize second purchases through discounts and promotions. Simultaneously, for new client acquisition, we're targeting the top builders in the construction industry, showcasing our expertise in windows and our innovative site/factory management system. We are also assessing the market viability of potential client segments and actively participating in community events, exhibitions, forums, and industry events to generate new leads and build relationships. This combined strategy ensures strong customer retention and new client acquisition, positioning us for sustained growth.

Our office is furnished with essential technological infrastructure, including computer systems, servers, specialized software, communication equipment, uninterrupted power supply, internet connectivity, security systems, and other amenities necessary to facilitate seamless business operations.

Power and Electricity

We have a sanctioned load (KW) of 60.00 HP from Maharashtra State Electricity Distribution Co. Ltd. at our factory premises at Koregaon (Maharashtra), which is sufficient to meet our power requirements. Our manufacturing processes require uninterrupted supply of power in order to ensure that we are able to manufacture our products in time. We have installed 82.5 KVA DG set in factory situated at Koregaon Bhima. It is installed to meet electricity requirement in the event of power failure. This reliably fulfills our power needs.

Our Company meets its power requirements at our registered office from Adani Electricity and the same is sufficient for our day-to-day functioning.

Water

Our registered office has adequate water supply arrangements for human consumption purpose. The requirements are fully met at the existing premises.

Competition

The industry we serve is highly competitive, characterized by a mix of small, medium, and large companies. While many small and medium-sized companies contribute, a few large enterprises dominate the market. Competing in this landscape, we prioritize agility in responding to dynamic market demands and consumer preferences. Our strategy centers on delivering a comprehensive range of high-quality products and services tailored to diverse customer needs, providing integrated solutions. Our goal is to expand our business, innovate, and consistently offer outstanding products and distinctive services. We maintain rigorous safety and control measures to effectively compete. Our commitment involves robust competition to secure a greater market share while efficiently managing our growth.

INSURANCE

Our existing insurance coverage includes protection for various aspects, including factory stock, registered office, furniture and fixtures, factory building and other assets including computers, etc, ensuring comprehensive risk management. We are confident that we have all essential insurance policies in place, aligned with industry norms. Regular reviews are conducted to ensure the adequacy of coverage. While we strive to minimize liability for damages, it's important to note that our insurance may not always provide full protection or be enforceable in every situation, potentially leaving us partially liable for damages.

INTELLECTUAL PROPERTY

Intellectual property rights are important to our business, and we devote significant time and resources to their development and protection. We rely on a combination of trademark protection in India, as well as confidentiality procedures and contractual provisions to protect our intellectual property. As of the date of this Draft Prospectus, we are the registered owners of trademark “ALU-WinD” under class 6. For details, see “Government and Other Approvals – Intellectual property related approvals” on page 203.

COLLABORATIONS / PERFORMANCE GUARANTEE

Aluwind and Eternia (a brand of Hindalco, a company forming part of the Aditya Birla Group) have been into an exclusive fabricator agreement since June 2000. As per the renewed agreement signed between the companies, in December 2023, Aluwind is now an Anchor partner for Eternia for MMRDA region. This renewed agreement is valid for 3 years and would be due for renewal in December 2026.

The Anchor Partnership agreement brings synergies in marketing, sales and quality products for the two companies. The arrangement also benefits Aluwind in optimising its operational efficiencies through multiple projects being undertaken. The companies synergistically cater to large scale B2B building projects (both residential and commercial).

As of the filing of the Draft Prospectus, we have entered into a strategic agreement with Eternia as our Committed Anchor Partner. This collaboration further solidifies our dedication to providing value-added products, allowing us to access high-quality window materials, ensure top-notch sourcing, and expand our product distribution network. Partnering with Eternia, a trusted brand, aligns with our goal of delivering quality and excellence to customers, thereby reinforcing our position in the market as committed anchor partners.

RAW MATERIAL

Our core materials for the fabrication of facades, windows, and related products comprise a range of essential elements, including glass, aluminum composite panels, aluminum profiles, mild steel, GI sheets, sealants, gaskets, and hardware. These key materials are sourced from both local and international markets to ensure product quality and diversity in our supply chain.

KEY INDUSTRIAL REGULATIONS AND POLICIES

The following description is a summary of certain key statutes, rules, notifications, memorandum, circulars and policies which are applicable to the Company and business undertaken by the Company.

The information available in this chapter is based on current provision of key statutes, rules, regulations, notifications, memorandums, circulars and policies, as amended, subject to future amendments, changes and/or modifications. The information in this chapter has been obtained from publications available in the public domain. The description of laws and regulations set out below may not be exhaustive and is only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice.

For details of government Approvals obtained by our Company, see ‘Government and Other Approvals’ on page 203 of this Draft Prospectus.

Industrial Policy of Relevant State

The Maharashtra Industrial Policy 2013

The Maharashtra Industrial Policy 2013 has given a special attention to encourage small scale industries. For financial stability of MSMEs (Micro Small and Medium Enterprises), the state government will provide fiscal incentives and support to less developed areas, such as 75% reimbursement of cost of water and energy admissible. There is 100% stamp duty exemption within investment period for acquiring land and for term loan purposes. Exemption from payment of electricity duty to eligible new units is also available in certain cases. Power tariff of INR 1/- per unit consumed is available for eligible new units located in Gondia, Kinvat, Chandrapur, etc. Financial incentives are available in the form of Industrial Promotion Subsidy (IPS), Interest Subsidy, Electricity duty exemption, Waiver of Stamp Duty, Power Tariff Subsidy, etc. Up to 70 lacs can be utilized in the various ways. The Industrial Promotion Subsidy, which is receivable in cash as a specific percentage of net VAT and CST is also provided. Existing units can also be benefited under this scheme provided that they make 1) minimum investment in capital assets of 25%; 2) same increase in production capacity; and 3) minimum 10% increase in employment.

GENERAL COMPLIANCE

The Companies Act, 2013 (to the extent notified)

The Companies Act, 2013, has been introduced to replace the existing Companies Act, 1956 in a phased manner. The 2013 Act is divided into 29 chapters containing 470 sections as against 658 Sections in the Companies Act, 1956 and has 7 schedules. A new term of "one-person company" is included in this act that will be a private company. Further, the Act deals with incorporation of companies and the procedure for incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act, 2013. The procedure related to appointment of Directors. The procedure relating to winding up, voluntary winding up, appointment of liquidator also forms part of the Act. The Ministry of Corporate Affairs has issued the rules and new improved e-forms complementary to the Act establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Act.

The Indian Stamp Act, 1899

Under the Indian Stamp Act, 1899, stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title, or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state.

The Registration Act, 1908

The purpose of the Registration Act, amongst other things, is to provide a method of public registration of documents so as to give information to people regarding legal rights and obligations arising or affecting a particular property, and to perpetuate documents which may afterwards be of legal importance, and also to prevent fraud.

SEBI REGULATIONS

Securities And Exchange Board of India is the regulatory body for securities market transactions including regulation of listing and delisting of securities. It forms various rules and regulations for the regulation of listed entities, transactions of securities, exchange platforms, securities market and intermediaries thereto. Apart from the SEBI Act, 1992, SCRA 1956, SCRR 1957 and other rules and regulations, listed entities are mainly regulated by SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 and SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015, SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and SEBI (Prohibition of Insider Trading) Regulations, 2015.

TAX RELATED LEGISLATIONS

Income Tax Act, 1961

The government of India imposes an income tax on taxable income of all persons including individuals, Hindu Undivided Families (HUFs), companies, firms, association of persons, body of individuals, local authority and any other artificial judicial person. Levy of tax is separate on each of the persons. The levy is governed by the Indian Income Tax Act, 1961. The Indian Income Tax Department is governed by CBDT and is part of the Department of Revenue under the Ministry of Finance, Govt. of India. Income tax is a key source of funds that the government uses to fund its activities and serve the public. The quantum of tax determined as per the statutory provisions is payable as:

- a) Advance Tax;
- b) Self-Assessment Tax;
- c) Tax Deducted at Source (TDS);
- d) Tax Collected at Source (TCS);
- e) Tax on Regular Assessment.

Goods and Service Tax (GST)

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state is levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For interstate transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produce.

LABOUR LAW LEGISLATIONS

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code, 2020 received the assent of the President of India on September 28, 2020 and proposes to subsume certain existing legislations, including the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979 and the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996. The provisions of this code will be brought into force on a date to be notified by the Central Government. The Central Government has issued the draft rules under the Occupational Safety, Health and Working Conditions Code, 2020. The draft rules provide for operationalization of provisions in the Occupational Safety, Health and Working Conditions Code, 2020 relating to safety, health and working conditions of the dock workers, building or other construction workers, mines workers, inter-state migrant workers, contract labour, journalists, audio-visual workers and sales promotion employees.

The Industrial Relations Code, 2020

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the Central Government.

The Code on Social Security, 2020

The Code on Social Security, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume certain existing legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganized Workers' Social Security Act, 2008. The provisions of this code will be brought into force on a date to be notified by the Central Government. The Central Government has issued the draft rules under the Code on Social Security, 2020. The draft rules provide for operationalization

of provisions in the Code on Social Security, 2020 relating to employees' provident fund, employees' state insurance corporation, gratuity, maternity benefit, social security and cess in respect of building and other construction workers, social security for unorganized workers, gig workers and platform workers.

In addition to above, we are subject to wide variety of generally applicable labour laws concerning condition of working, benefit and welfare of our laborers and employees such as the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 and the Employees (Provident Fund and Miscellaneous Provision) Act, 1952.

Employees Provident Fund and Miscellaneous Provisions Act, 1952

Under the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 (EPF Act), compulsory provident fund, family pension fund and deposit linked insurance are payable to employees in factories and other establishments. The legislation provides that an establishment employing more than 20 (twenty) persons, either directly or indirectly, in any capacity whatsoever, is either required to constitute its own provident fund or subscribe to the statutory employee's provident fund. The employer of such establishment is required to make a monthly contribution to the provident fund equivalent to the amount of the employee's contribution to the provident fund. There is also a requirement to maintain prescribed records and registers and filing of forms with the concerned authorities. The EPF Act also prescribes penalties for avoiding payments required to be made under the abovementioned schemes.

Employees State Insurance Act, 1948, as amended (the "ESIC Act")

The ESI Act, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Payment of Gratuity Act, 1972, as amended (the "Gratuity Act")

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions.

Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed 1 million.

ENVIRONMENTAL LEGISLATIONS

National Environmental Policy, 2006

The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

Environment (Protection) Act, 1986 as amended (“EPA”)

The EPA has been enacted for the protection and improvement of the environment. It stipulates that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emitted any environmental pollutant in excess of such standards as may be prescribed. Further, no person shall handle or cause to be handled any hazardous substance except in accordance with such procedure and after complying with such safeguards as may be prescribed. EPA empowers the Central Government to take all measures necessary to protect and improve the environment such as laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and generally to curb environmental pollution. Pollution control boards have been constituted in all states in India to exercise the powers and perform the functions provided for under these statutes for the purpose of preventing and controlling pollution. Companies are required to obtain consents of the relevant state pollution control boards for emissions and discharge of effluents into the environment.

Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”)

The Water Act provides for one Central Pollution Control Board, as well as state pollution control boards, to be formed to implement its provisions, including enforcement of standards for factories discharging pollutants into water bodies. The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State PCB. The Water Act also provides that the consent of the State PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage effluent. The Water Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (the “Hazardous Waste Rules”)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste. Under the Hazardous Waste Rules, “hazardous waste” inter alia means any waste which by reason of characteristics such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive, causes danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment or third party resulting from the improper handling and management and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

The Public Liability Insurance Act, 1991 (the “PLI Act”) and the Public Liability Insurance Rules, 1991 (the “PLI Rules”)

The PLI Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the government by way of a notification. Under the PLI Act, the owner or handler is also required to take out an insurance policy insuring against liability. The PLI Act also provides for the establishment of the Environmental Relief Fund, which shall be utilized towards payment of relief granted under the Public Liability Act. The PLI Rules mandate the employer to contribute a sum equal to the premium paid on the insurance policies towards the Environmental Relief Fund.

INTELLECTUAL PROPERTY LAWS

Indian Patents Act, 1970

The purpose of the Patent Act in India is to protect inventions. Patents provide the exclusive rights for the owner of a patent to make, use, exercise, distribute and sell a patented invention. The patent registration confers on the patentee the exclusive right to use, manufacture and sell his invention for the term of the patent. An application

for a patent can be made by (a) person claiming to be the true and first inventor of the invention; (b) person being the assignee of the person claiming to be the true and first invention in respect of the right to make such an application; and (c) legal representative of any deceased person who immediately before his death was entitled to make such an application. Penalty for the contravention of the provisions of the Patents Act include imposition of fines or imprisonment or both.

The Copyright Act, 1957

The Copyrights Act governs copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Following the issuance of the International Copyright Order, 1999, subject to certain exceptions, the provisions of the Copyright Act apply to nationals of all member states of the World Trade Organization. While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favouring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for 60 years. The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner. The Copyright Act also provides for criminal remedies, including imprisonment of the accused, imposition of fines and seizure of infringing copies.

Trade Marks Act, 1999

A trademark is used in relation to goods so as to indicate a connection in the course of trade between the goods and a person having the right as proprietor or user to use the mark. The Trademarks Act, 1999, (Trademarks Act) governs the registration, acquisition, transfer and infringement of trademarks and remedies available to a registered proprietor or user of a trademark. Registration is valid for a period of 10 years but can be renewed in accordance with the specified procedure. As per the Trademarks (Amendment) Bill, 2009, Registrar of Trade Marks is empowered to deal with international applications originating from India as well as those received from the International Bureau and maintain a record of international registrations. It also removes the discretion of the Registrar to extend the time.

OTHER APPLICABLE LAWS

Other Indian Laws

In addition, to the above, the company is also governed by the provisions of the Competition and rules framed thereunder, other relevant central and state tax laws, foreign exchange and investment laws, applicable building and fire-safety related laws, customs act, contract act and foreign trade laws and other applicable laws and regulation imposed by the Central Government and State Governments and other authorities for over day to day business, operations and administration.

State Laws

We own and operate hotels and commercial projects in various states. Accordingly, legislations passed by the state governments are applicable to us in those states. These include legislations relating to *inter alia* classification of land use, fire prevention and safety measures and legislations dealing with license for sale of alcohol. Further, we require several approvals from local authorities such as municipal bodies. The approvals required may vary depending on the state and the local area.

Municipality Laws

Pursuant to the Constitution (Seventy-Fourth Amendment) Act, 1992 the respective state legislatures in India have power to endow the municipalities with power to implement schemes and perform functions in relation to matters listed in the Twelfth Schedule to the Constitution of India. The respective States of India have enacted laws empowering the municipalities to issue trade license for operating eating outlets and implementation of regulations relating to such license along with prescribing penalties for non-compliance.

Approvals from Local Authorities

Setting up of a factory or manufacturing / housing unit entails the requisite planning approvals to be obtained from the relevant Local Panchayat(s) outside the city limits and appropriate Metropolitan Development Authority within the city limits. Consents are also required from the state pollution control board(s), the relevant state

electricity board(s), the state excise authorities, sales tax, among others, are required to be obtained before commencing the building of a factory or the start of manufacturing operations.

Shops and Establishments legislations in various states

Under the provisions of local shops and establishment legislations applicable in the states in which establishments are set up, establishments are required to be registered under the respective legislations. These legislations regulate the condition of work and employment in shops and commercial establishments and generally prescribe obligations in respect of *inter alia* registration, opening and closing hours, daily and weekly working hours, holidays, leave, health and safety measures and wages for overtime work.

OTHER REGULATIONS

Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986, The Arbitration & Conciliation Act, 1996 are also applicable to the company.

PROPERTY RELATED LAWS

The Company is required to comply with central and state laws in respect of property. Central Laws that may be applicable to our Company's operations include the Land Acquisition Act, 1894, the Transfer of Property Act, 1882, Registration Act, 1908, Indian Stamp Act, 1899, and Indian Easements Act, 1882.

GROUP ENTITIES OF OUR COMPANY

In terms of the SEBI ICDR Regulations, the term “group companies of our Company”, for the purpose of disclosure in this Draft Prospectus, shall include:

1. companies with which there were related party transactions, during the period for which financial information is disclosed in the Restated Financial Information, as covered under the applicable accounting standards, and
2. such other companies as considered material by the Board pursuant to the Materiality Policy.

Accordingly, for (1) above, all such companies (other than the Promoters) with which there were related party transactions during the periods covered in the Restated Financial Statements, as covered under the Accounting Standard 18 issued by the Institute of Chartered Accountants of India (ICAI) shall be considered as ‘Group Companies’ of the Company in terms of the SEBI ICDR Regulations.

With respect to (2) above, our Board in its meeting held on January 10, 2024 has adopted the Materiality Policy and has considered group companies of our Company to be such companies (other than the companies categorised under (1) above) that are a part of the Promoter Group (as defined in Regulation 2(1)(pp) of the SEBI ICDR Regulations) with which the our company has entered into one or more transactions in last restated financial statement exceeding 10% of total revenue of our Company for the last Restated Financial Statements.

Based on the parameters outlined above, our Company does not have any group company as on the date of this Draft Prospectus.

DIVIDEND POLICY

Our Company does not have any formal dividend policy for the equity shares. Our Company can pay Final dividends upon a recommendation by Board of Directors and approval by majority of the members at the General Meeting of the shareholders subject to the provisions of the Articles of Association and the Companies Act, 2013. The Members of our Company have the right to decrease, not to increase the amount of dividend recommended by the Board of Directors. The Articles of Association of our Company also gives the discretion to Board of Directors to declare and pay interim dividends.

The dividends may be paid out of profits of our Company in the year in which the dividend is declared or out of the undistributed profits or reserves of previous fiscal years or out of both which shall be arrived at after providing for depreciation in accordance with the provisions of Companies Act, 2013. The declaration and payment of dividend will depend on a number of factors, including but not limited to the results of operations, earnings, capital requirements and surplus, general financial conditions, applicable Indian legal restrictions, contractual obligations and restrictions, restrictive covenants under the loan and other financing arrangements to finance the various projects of our Company and other factors considered relevant by our Board of Directors.

Interim Dividend/Dividends are payable within 30 days of approval by the Board of Directors of the Company or the Equity Shareholders at the annual general meeting of our Company, respectively. When dividends are declared, all the Equity Shareholders whose names appear in the register of members of our Company as on the “record date” are entitled to be paid the dividend declared by our Company. Any Equity Shareholder who ceases to be an Equity Shareholder prior to the record date, or who becomes an Equity Shareholder after the record date, will not be entitled to the dividend declared by our Company.

Our Company has not declared any dividends on the Equity Shares during the last three financial years, and the period from March 31, 2023 until the date of this Draft Prospectus. Our Company’s corporate actions pertaining to payment of dividends in the past are not to be taken as being indicative of the payment of dividends by our Company in the future.

(For the above details relating dividend, we have relied upon the certificate dated 29 January 2024, UDIN – 24171607BKBFR7684 issued by the Statutory Auditors of the Company i.e., M/s. R Kejriwal & Co., Chartered Accountants)

2.2. Functional and Presentation Currency

The Restated Financial Information are presented in Indian Rupees (₹) which is the functional and the presentation currency of the Company and all values are rounded to the nearest lakhs with two decimals, except when otherwise indicated.

2.3. Basis of Measurement

The Restated Financial Information have been prepared on historical cost basis.

A historical cost is a measure of value used for accounting in which the price of an asset on the balance sheet is based on its historical cost, it is generally fair value of consideration given in exchange for goods and services at the time of transaction or original cost when acquired by the Company.

2.4. Key Accounting Estimates & Judgements

The preparation of financial statements in conformity with IGAAP requires the Management of the Company to make judgements, estimates and assumptions in the application of the accounting policies that affect the reported amounts of assets, liabilities, income, expenses and disclosure of contingent assets and liabilities. Accounting estimates could change from period to period. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgements based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

3. Significant Accounting Policies

The Restated Financial Information have been prepared using the significant accounting policies summarised below. These were used throughout all the periods presented in the Restated Financial Information.

3.1. Current and Non-current classification

The Company presents assets and liabilities in the Statement of Assets and Liabilities based on current / non-current classification.

An asset it is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within 12 months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- It is Expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within 12 months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has determined its operating cycle, as explained in schedule III of the Companies Act, 2013, as twelve months, having regard to the nature of business being carried out by the Company. The same has been considered for classifying assets and liabilities as current and non-current while preparing the financial statements.

3.2. Foreign Currency Transactions

Foreign currency transactions are recorded on initial recognition in the reporting currency, using the exchange rate at the date of the transaction.

Subsequently, at each Balance Sheet date, foreign currency monetary items are reported using the closing rate, whereas non-monetary items are carried at historical cost, determined using the exchange rate at the date of the transaction.

Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing rate are recognised as income or expense in the period in which they arise.

3.3. Property, Plant and Equipment

Items of property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, but includes import duties and other non – refundable purchase taxes and any directly attributable costs of bringing the asset to working condition and location for its intended use, including relevant borrowing costs.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance cost are charged to the Statement of Profit and Loss during the period in which they were incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Material items such as spare parts, stand-by equipment and service equipment are classified as property, plant and equipment when they meet the definition of property, plant and equipment as specified in AS 10 – Property, Plant and Equipment.

An item of property, plant, and equipment is derecognized upon its disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal of the item of property, plant, and equipment is included in the Statement of Profit and Loss.

Capital subsidy receivable, if any has been deducted from the gross block of the Property, Plant & equipments.

An item of property, plant and equipment that is not ready for its intended use on the date of the Balance Sheet is disclosed as "Capital work-in-progress".

3.4. Inventories

Inventory includes raw materials, work-in-progress, stores and spares and finished goods which are valued at lower of cost or net realisable value. The Company used First-In-First-Out (FIFO) or Specific Identification Method for valuing its inventory.

Cost of inventory comprises all costs of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and the estimated cost necessary to make the sale.

The Company reviews the condition of its inventories and makes provision against obsolete and slow – moving inventory items which are identified as no longer suitable for sale or use. Obsolete and slow – moving items are valued at cost or estimated net realisable value, whichever is lower. Any write down of inventories is recognised as an expense during the year. However, the value of raw materials, stores and spares is not impaired to its net realisable value and is carried at cost where the finished good in which they are used is sold at or above cost.

3.5. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand and at banks and short-term investments with original maturity of three months or less, which are subject to an insignificant risk of changes in value. It also includes fixed deposits made by the Company, which are marked as lien against the bank guarantees offered by the Company.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.6. Investments

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the Restated Financial Information at lower of cost and fair value determined for each category separately. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

3.7. Intangible assets and amortisation

Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and cumulative impairment. Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are amortized over their useful life as follows:
Specialised software: over a period of six years.

Technical know-how: over a period of six years in case of foreign technology and three years in the case of indigenous technology.

Development costs for new products: over a period of five years.

Administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets. Intangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as “intangible assets

underdevelopment”. Amortisation on impaired assets is provided by adjusting the amortisation charges in the remaining periods so as to allocate the asset’s revised carrying amount over its remaining useful life.

3.8. Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non—occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation or reliable estimate of the same is possible. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably.

A contingent asset is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent asset are disclosed.

Contingent assets and liabilities are reviewed at each balance sheet date.

3.9. Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income-tax Act, 1961.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is recognised on timing differences between the income accounted in financial statements and the taxable income for the year, and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head “capital gains” are recognised and carried forward to the extent there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

Other deferred tax assets are recognised and carried forward to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

3.10. Employee Benefit Expenses

Short-term Employee Benefits

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. The benefits like salaries, wages, short term compensated absences etc., and the expected cost of bonus, ex-gratia are recognised in the period in which the employee renders the related service.

Post-employment Benefits

Defined Contribution Plans

The Company recognizes contribution payable to the provident fund scheme as an expense, during the period in which employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the

scheme is recognized as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.

Defined Benefit Plans

The company's liabilities under Payment of Gratuity Act is determined on the basis of actuarial valuation made at the end of each financial year using the projected unit credit method.

The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the related obligations at the Balance Sheet date.

Actuarial gains and losses, Current service cost and interest obligation thereon are recognised immediately in the Statement of Profit and Loss as Employee Benefit Expenses.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs. Past service cost is recognised as expense on a straight-line basis over the average period until the benefits become vested.

3.11. Revenue Recognition

The Company derives revenue primarily from the fabrication and installation of Aluminium Windows and Glass Facade Work on client premises under contractual agreements. The Company enters into fixed price contracts with its customers and recognizes the revenue on same based on the accounting prescribed under AS – 7 i.e., “Construction Contracts”.

Contract Revenue is recognized only to the extent of cost incurred till such time the outcome of the job cannot be ascertained reliably. When the outcome of the contract is ascertained reliably, contract revenue is recognized at cost of work performed on the contract plus proportionate margin, using the percentage of completion method. The percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

Expected loss, if any, on the construction/project-related activity is recognised as an expense in the period in which it is foreseen, irrespective of the stage of completion of the contract. While determining the amount of foreseeable loss, all elements of costs and related incidental income not included in contract revenue are taken into consideration.

Revenue from contracts for the rendering of design services and other services which are directly related to the construction of an asset is recognised on similar basis as stated above.

Revenue excludes amounts collected on behalf of government authorities such as Goods and Service Tax (GST), returns, trade allowances, rebates and amounts collected on behalf of third parties.

3.12. Finance Costs

General and specific borrowing costs that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of such asset till such time the asset is ready for its intended use and borrowing cost are being incurred. A qualifying asset is an asset that necessarily takes a substantial time to get ready for its intended use. All other borrowing costs are recognised as an expense in the period they are incurred.

Borrowing cost includes interest expense, commitment charges, amortisation of discounts and ancillary costs incurred in connection with borrowing of funds. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

3.13. Depreciation and Amortization

Depreciation is the systematic allocation of the depreciable amount of property, plant and equipment over its useful life and is provided on a straight-line basis over the useful life as prescribed in Schedule

II to the Companies Act, 2013 (“the Act”) or as per technical assessment by the Management.

Freehold land with indefinite life is not depreciated.

Depreciable amount for property, plant and equipment is the cost of property, plant and equipment less its estimated residual value. The useful life of property, plant and equipment is the period over which it is expected to be available for use by the Company or the number of production or similar units expected to be obtained from it by the Company. The Company has considered the useful lives prescribed by Schedule II of the Act, for the purpose of depreciating its property, plant and equipment.

Depreciation on additions is provided on a pro – rata basis from the month of installation or acquisition and in case of projects from the date of commencement of commercial production. Depreciation on deductions / disposals is provided on a pro-rata basis up to the month preceding the month of deduction / disposals.

Depreciation charge for impaired assets is adjusted in future periods in such a manner that the revised carrying amount of the asset is allocated over its remaining useful life.

3.14. Impairment

As at each Balance Sheet date, the carrying amount of assets is tested for impairment so as to determine:

- the provision for impairment loss, if any; and
- the reversal of impairment loss recognised in previous periods, if any.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

- in the case of an individual asset, at the higher of the net selling price and the value in use;
- in the case of a cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of the cash generating unit’s net selling price and the value in use.

Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.

3.15. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, bonus element in right issue, share split, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.16. Commitments

Commitments are future liabilities for contractual expenditure. Commitments are classified and disclosed as follows:

- Estimated amount of contracts remaining to be executed on capital account and not provided for,
- Uncalled liability on shares and other investments partly paid,
- Funding related commitment to subsidiary, associate and joint venture companies and,
- Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

Other commitments related to sales/procurements made in the normal course of business are not disclosed to avoid excessive details.

3.17. Extraordinary and Exceptional Items

Income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the Company are classified as extraordinary items. Specific disclosure of such events/transactions is made in the financial statements. Similarly, any external event beyond the control of the Company, significantly impacting income or expense, is also treated as extraordinary item and disclosed as such.

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company, is such that its disclosure improves an understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the notes to accounts.

Particulars	As at 30th Sep 2023	As at 31st March 2023	As at 31st March 2022	As at 31st March 2021
(i) Current Ratio = Current Assets/Current Liabilities				
Current Ratio	1.50	1.40	1.43	1.57
Current Assets	4,082.99	3,183.87	2,408.91	1,604.11
Current Liabilities	2,714.51	2,270.15	1,682.61	1,022.96
% Change from Previous Period/ Year	7.25%	(2.04%)	(8.70%)	(16.16%)
(ii) Debt- Equity Ratio = Total Debt/ Shareholder's Equity				
Debt - Equity Ratio	0.48	0.42	0.45	0.42
Total Debts	993.98	707.52	638.92	436.06
Shareholder's Equity	2,069.53	1,702.56	1,429.87	1,041.33
% Change from Previous Period/ Year	15.58%	(7.00%)	6.71%	(32.82%)
Reason/ Comments: In the financial year 2020-21, the company's debt service coverage ratio (DSCR) has decreased as the company has repaid its borrowings during the year.				
(iii) Debt Service Coverage Ratio (DSCR) = Earnings Available for debt Service/ Debt Service				
Debt Service Coverage Ratio	9.68	7.37	4.34	5.92
Earnings available for debt service	580.96	489.06	226.82	205.50
Debt service	60.05	66.35	52.30	34.70
% Change from Previous Period/ Year	31.26%	69.95%	(26.77%)	82.79%
Reason/ Comments: (a) In the financial year 2020-21, the company's debt service coverage ratio (DSCR) has increased as the machinery loan was repaid during the year. (b) In the financial year 2021-22, the company's debt service coverage ratio (DSCR) has decreased as the company has obtained new secured loans during the year. (c) In the financial year 2022-23, the company's debt service coverage ratio (DSCR) has increased as the company's profit has increased to a significant level. (d) For the six-month period ended Sep 23, the company's debt service coverage ratio (DSCR) has increased as the company's profit has increased to a significant level.				
(iv) Return on Equity Ratio = Net Profit After Tax/ (Shareholder's Equity – Misc. Expenses)				
Return on Equity Ratio	0.20	0.17	0.06	0.08
Net profit after taxes less preference dividend	372.83	270.05	78.80	76.92
Average shareholder's equity	1886.05	1566.21	1235.60	1002.35
% Change from Previous Period/ Year	14.65%	170.37%	(16.89%)	21.86%
Reason/ Comments: The Return on Equity ratio increased during the FY 2022-23 as the company generated higher net profits.				
(v) Inventory Turnover Ratio = Cost of Goods Sold/Average Inventory				
Inventory Turnover Ratio	3.53	4.36	3.31	2.29
Cost of Goods Sold	2925.72	3761.72	2229.60	1556.18
Average Inventory	827.80	862.98	674.58	680.27
% Change from Previous Period/ Year	(18.92%)	31.88%	44.48%	68.59%
Reason/ Comments: In the financial year 2020-21, 21-22 and 22-23 the company's inventory turnover ratio has increased as the sales has increased over the years				
(vi) Trade Receivables Turnover Ratio = Net Credit Sales/ Average Trade Receivables				
Trade Receivables Turnover Ratio	2.47	3.86	3.10	3.27
Net sales	4136.15	4886.72	2898.65	2128.35
Average Trade receivables	1672.60	1267.21	935.59	650.64
% Change from Previous Period/ Year	(35.87%)	24.47%	(5.29%)	1.62%
Reason/ Comments: During the six month period ended Sep, 23, the company's trade receivable turnover ratio decreased due to outstanding collection from debtors which is under follow-up.				

(vii) Trade Payable Turnover Ratio = Net Credit Purchase/ Average Trade Payables				
Trade Payable Turnover Ratio	2.20	3.76	3.61	2.86
Net credit purchases	2285.69	3280.64	2051.52	1082.52
Average Trade payables	1038.61	871.63	568.35	378.07
% Change from Previous Period/ Year	(41.53%)	4.27%	26.06%	(38.73%)
Reason/ Comments: The Trade Payable Turnover Ratio decreased during the financial years 2020-21 and the six months ending in September 2023. This was due to delays in payments to creditors. However, in the financial year 2021-22, the ratio improved as the company began paying its creditors at a faster pace than in the previous year.				
(viii) Net Capital Turnover Ratio = Revenue From Operations/ Average Working Capital				
Net Capital Turnover Ratio	2.19	3.53	2.68	2.14
Revenue from Operations	4136.15	4886.72	2898.65	2128.35
Average Working Capital	1887.00	1383.33	1080.89	996.75
% Change from Previous Period/ Year	(37.95%)	31.73%	25.59%	34.68%
Average Working Capital= (Opening Working Capital + Closing Working Capital)/2	1887.00	1383.33	1080.89	996.75
Working Capital= Current Assets- Current Liability(Excluding short term borrowing)	2257.89	1516.10	1250.56	911.23
Reason/ Comments: The net capital turnover ratio has increased in the financial years 2020-2021, 2021-2022, and 2022-2023, indicating that the company has effectively managed its working capital. However, for the six-month period ending in September 2023, the ratio decreased due to an increase in the average working capital during the period.				
(ix) Net Profit Ratio = Net Profit After Tax/ Revenue from Operations				
Net Profit Ratio	9.01%	5.53%	2.72%	3.61%
Profit After Tax	372.83	270.05	78.80	76.92
Revenue From Operations	4,136.15	4,886.72	2,898.65	2,128.35
% Change from Previous Period/ Year	63.11%	103.29%	(24.78%)	6.14%
Reason/ Comments: During the financial year 2022-23 and six month ended Sep, 2023, the net profit ratio increased significantly due to growth in company profits.				
(x) Return on Capital Employed = Earnings before Interest & Tax/ Total Assets less current liability				
Return on Capital Employed	24.55%	22.62%	9.74%	14.23%
Earnings before interest & Tax	538.35	410.83	150.98	164.29

% Change from Previous Period/ Year	8.55%	132.22%	(31.54%)	17.01%
Reason/ Comments: During the financial year 2021-22, the ratio decreased as the profit for the year was lower than the previous year. However, in the following financial year, 2022-23, the ratio improved due to a significant increase in profits.				
(xi) Return on Investments = Earnings before Interest & Tax/ Total Assets less current liability				
Return on Investments	24.55%	22.62%	9.74%	14.23%
Earnings before interest & Tax	538.35	410.83	150.98	164.29

	-			
Net Profit/ (Loss) After Tax as Restated	372.83	270.05	78.80	76.92

Explanatory notes to the above restatements to profits made in the audited Financial Statements of the Company for the respective years:

1. Gratuity: The Company has provided for gratuity liability by adjusting against the reserves. Also, gratuity liability for FY 2022 and FY 2021 was not calculated by the management. The same has now been restated and debited to the statement of profit and loss as per actuarial valuation reports for all the 3 years.
2. Income Tax Expense: The Company has inappropriately calculated income tax liability which has now been restated for restatement adjustment as above and provided for using tax rates related to the respective financial year as per Statement of tax shelters.
3. Deferred Tax Expenses: The Company has not calculated deferred tax impact on gratuity liability which has now been restated and provided for after considering gratuity liability.
4. Revenue from operations: The company has adopted the "percentage completion method" as per AS-7 for revenue recognition from FY 2023, so the respective adjustments is made in FY 2021 and FY 2022.

2. Reconciliation of restated reserves and surplus

(₹ in Lakhs)				
Adjustments for	As at Sep 30, 2023	As at March 31,		
		2023	2022	2021
Reserves and surplus as per audited balance sheet	1816.09	1449.05	1416.71	1027.04
Adjustments for:				
Deferred tax	-	-05.79	-06.53	-06.14
Provision for Gratuity	-	-	-06.40	-08.58
Due to change in method of revenue recognition	-	-	16.66	24.03

Reserve & Surplus as per Restated Balance Sheet	1816.09	1449.13	1417.80	1030.56

Explanatory notes to the above restatements to profits made in the audited Financial Statements of the Company for the respective years:

1. Income Tax Expenses for earlier years: The Company has not netted off provisions and related year's advance tax, TDS, and TCS receivable balances which have now been restated resulting in changes in the provision of income tax of earlier years and so it is restated and its effect is given in Reserves and Surplus.

2. Provision for gratuity: The Company has provided for gratuity liability by adjusting against the reserves. Also, gratuity liability for FY 2022 and FY 2021 was not calculated by the management. The same has now been restated and debited to the statement of profit and loss as per actuarial valuation reports for all the 3 years.
3. Revenue from operations: The company has adopted the "percentage completion method" as per AS-7 for revenue recognition from FY 2023, so the respective adjustments of unbilled revenue and advance from customers has been restated in FY 2021 and FY 2022.
4. Deferred Tax Expenses: The Company has not calculated deferred tax impact on gratuity liability which has now been restated and provided for after considering gratuity liability.

3. Adjustments having no impact on Reserves and Surplus and Profit

a. Material Regrouping

Appropriate regroupings have been made in the Restated Summary Statements, wherever required, by a reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows in order to bring them in line with the groupings as per the audited Financial Statements of the Company, prepared in accordance with Schedule III and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2018 (as amended).

b. Earning per share

Adjusted Earnings per share have been calculated for FY 2021, FY 2022 and FY 2023 as the profit has been restated and the number of shares considered is as outstanding on 30th September 2023. This does not have any effect on the profit or networth of the company.

COMPARISON OF FINANCIAL YEAR ENDED MARCH 31, 2023, TO FINANCIAL YEAR ENDED MARCH 31, 2022**Income:****Total Revenue:**

Our Total Revenue increased by 67.54% to ₹4,900.62 Lakhs for Fiscal 2023 from ₹2,925.13 Lakhs for Fiscal 2022.

Revenue from Operations

Our Revenue from Operations increased by 68.59% to ₹4,886.72 Lakhs for Fiscal 2023 from ₹2,898.65 Lakhs for Fiscal 2022. The surge in revenue generation can be primarily attributed to the advancement in execution in our existing work contracts and obtaining of new contracts.

Other Income

Our other income decreased by 47.50% to ₹13.90 Lakhs for Fiscal 2023 from ₹26.48 Lakhs for Fiscal 2022. The notable shift in financial performance is largely attributed to changes in key revenue drivers, specifically the one-off Miscellaneous income received in FY22, constituting approximately 50% of the total other income for that particular year.

Expenditure**Cost of material consumed**

Our Cost of Services increased by 68.72% to ₹3,761.72 Lakhs for Fiscal 2023 from ₹2,229.60 Lakhs for Fiscal 2022 on account of increase in raw material consumption in our business operations.

Employee Benefit Expenses

The employee benefits expense increased significantly by 35.25% to ₹496.95 Lakhs for Fiscal 2023 from ₹367.44 Lakhs for Fiscal 2022. This was primarily attributed to increase in Salaries and Wages, Staff Welfare Expense and Gratuity as compared to the previous year. The salary component in the company's balance sheet varies in response to dynamic operational demands, such as contract-based projects or recurring tasks, necessitating adjustments in the employment structure. This fluctuation is a result of the company's strategic approach to staffing, aligning workforce levels with specific project or workload requirements.

Administrative, Selling & Other Expenses

Our administrative, selling and other expenses substantially increased by 53.64% to ₹204.55 Lakhs for Fiscal 2023 from ₹133.14 Lakhs for Fiscal 2022. The principal attribute was substantial rise in Freight & Forwarding expenses, Legal & Professional Expense, Office/Factory expense, Printing and Stationery, Site Expenses and Travel & Conveyance.

Depreciation & Amortization

Our depreciation and amortization expense increased from ₹61.00 Lakhs for Fiscal 2022 to ₹78.81 Lakhs for Fiscal 2023.

Profit before tax

Profit before tax has increased substantially by 239.77% from ₹105.87 lakhs for Fiscal 2022 to ₹359.73 lakhs for Fiscal 2023. The rise in Profit before Tax can be attributed to the faster growth of revenue from operations compared to the increase in the company's expenditures.

Tax Expense

Our Tax Expense increased from ₹27.08 lakhs to ₹89.67 lakhs for Fiscal 2023, primarily due to increase in Profit before Tax.

Profit after tax

For the reasons discussed above, our profit after tax increased substantially by 242.72% to ₹270.05 Lakhs for Fiscal 2023 from ₹78.80 Lakhs for Fiscal 2022. The rise in Profit after Tax can be attributed to the faster growth of revenue from operations compared to the increase in the company's expenditures.

COMPARISON OF FINANCIAL YEAR ENDED MARCH 31, 2022, TO FINANCIAL YEAR ENDED MARCH 31, 2021

Income:

Total Revenue:

Our Total Revenue increased by 36.73% to ₹2.925.13 Lakhs for Fiscal 2022 from ₹2,139.29 Lakhs for Fiscal 2021.

Revenue from Operations

Our Revenue from Operations increased by 36.19% to ₹2.898.65 Lakhs for Fiscal 2022 from ₹2,128.35 Lakhs for Fiscal 2021. The uptick in revenue generation can be principally ascribed to advancement in execution in our existing work contracts and obtaining of new contracts.

Other Income

Our other income increased to ₹26.48 Lakhs for Fiscal 2022 from ₹10.94 Lakhs for Fiscal 2021. This can be primarily attributed to the one-off transaction of IT Refund amounting to ₹0.67 Lakhs and Miscellaneous Income which constituted 50% of Other Income for FY22 recorded during the year.

Expenditure

Cost of material consumed

Our Cost of Services increased by 43.27% to ₹2,229.60 Lakhs for Fiscal 2022 from ₹1,556.18 Lakhs for Fiscal 2021 on account of increase in raw material consumption in our business operations.

Employee Benefit Expenses

The employee benefits expense increased by 43% to ₹367.44 Lakhs for Fiscal 2022 from ₹256.96 Lakhs for Fiscal 2021. This was primarily attribute to increase in Salary component as compared to the previous year. The salary component in the company's balance sheet varies in response to dynamic operational demands, such as contract-based projects or recurring tasks, necessitating adjustments in the employment structure. This fluctuation is a result of the company's strategic approach to staffing, aligning workforce levels with specific project or workload requirements.

Administrative, Selling and Other Expenses

Our administrative, selling and other expenses increased by 15.89% to ₹133.14 Lakhs for Fiscal 2022 from ₹114.89 Lakhs for Fiscal 2021. The rise can be attributed to bad debts, loss and disposal of assets, printing and stationery, Rates and Taxes and Travelling and Conveyance and was offset by GST Expenses and Legal and Professional Expenses.

Depreciation & Amortization

Our depreciation and amortization expense increased from ₹40.12 Lakhs for Fiscal 2021 to ₹61.00 Lakhs for Fiscal 2022. The resultant increase was primarily due to addition of office space, machinery and motor vehicles recorded in the fiscal ending 21-22.

Profit before tax

Profit before tax has decreased by 7.16% from ₹114.04 lakhs for Fiscal 2021 to ₹105.87 lakhs for Fiscal 2022. The decrease in Profit before Tax was mainly attributed to a significant surge in operational revenue, accompanied by a higher rate of increase in total expenses compared to the previous year.

Tax Expense

Our Tax Expense decreased from ₹37.12 lakhs to ₹27.08 lakhs for Fiscal 2022, primarily due to decrease in Profit before Tax.

Profit after tax

For the reasons discussed above, our profit after tax increased by 2.44% to ₹78.80 Lakhs for Fiscal 2022 from ₹76.92 Lakhs for Fiscal 2021. There has been a slight increase in profit, primarily attributable to lower tax expenses incurred during the financial year ending in 2023.

SECTION IX: ISSUE INFORMATION

TERMS OF THE ISSUE

The Equity Shares being issued are subject to the provisions of the Companies Act, 2013, SEBI (ICDR) Regulations, SEBI (LODR) Regulations, SCRA, SCRR including amendments thereof, our Memorandum and Articles of Association, the terms of this Draft Prospectus, the Prospectus, the Abridged Prospectus, Application Form, any Revision Form, the Confirmation of Allocation Note and other terms and conditions as may be incorporated in the allotment advice and other documents/certificates that may be executed in respect of this Issue. The Equity Shares shall also be subject to laws as applicable, guidelines, notifications and regulations relating to the issue of capital and listing, and trading of securities issued from time to time by SEBI, the Government of India, the Stock Exchange, the RBI, ROC and/or other authorities, as in force on the date of the Issue and to the extent applicable or such other conditions as may be prescribed by the SEBI, the RBI, the Government of India, the Stock Exchange(s), the RoC and / or any other authorities while granting its approval for the Issue.

Please note that, in terms of Regulation 256 of the SEBI ICDR Regulations read with SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015, all the applicants have to compulsorily apply through the ASBA Process and further in terms of SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, and as modified through its circular SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 (together, the “UPI Circular”) in relation to clarifications on streamlining the process of public issue of equity shares and convertibles it has proposed to introduce an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. Currently, for application by RIIs through Designated Intermediaries, the existing process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds is discontinued and RIIs submitting their Application Forms through Designated Intermediaries (other than SCSBs) can only use the UPI mechanism with existing timeline of T+6 days until March 31, 2020 (“UPI Phase II”). Further SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 has decided to continue with the Phase II of the UPI ASBA till further notice. SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 05, 2022 has revised the UPI Limit from 2 lakhs to 5 Lakhs. Therefore, all Individual Investors applying in Public Issues where the application amount is upto 5 Lakhs can use UPI and shall also provide their UPI ID in the bid-cum-application. However, due to the outbreak of COVID19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, vide SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, Phase III has been notified, and accordingly the revised timeline of T+3 days (i.e., the time duration from public issue closure to listing of be 3 Working Days) has been made applicable in two phases i.e., (i) voluntary for all public issues opening on or after September 1, 2023; and (ii) mandatory on or after December 1, 2023 (“UPI Phase III”). Accordingly, the Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI Circular no. SEBI/HO/CFD/P/CIR/2022/75 dated May 30, 2022 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances.

Further vide the said circular Registrar to the Issue and Depository Participants have been also authorized to collect the Application for Investor may visit the official website of the concerned for any information on operationalization of this facility of form collection by the Registrar to the Issue and Depository Participants as and when the same is made available.

RIGHT OF EQUITY SHAREHOLDERS

Subject to applicable laws, rules, regulations and guidelines and the Articles of Association, the Equity shareholders shall have the following rights:

- a. Right to receive dividend, if declared;
- b. Right to receive Annual Reports and notices to members;
- c. Right to attend general meetings and exercise voting rights, unless prohibited by law;
- d. Right to vote on a poll either in person or by proxy;
- e. Right to receive offer for rights shares and be allotted bonus shares, if announced;
- f. Right to receive surplus on liquidation subject to any statutory and preferential claim being satisfied;
- g. Right of free transferability subject to applicable law, including any RBI rules and regulations; and
- h. Such other rights, as may be available to a shareholder of a listed public limited company under the Companies Act, 2013, the terms of the SEBI Listing Regulations, and the Memorandum and Articles of Association of our Company.

For a detailed description of the provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and/or consolidation/splitting, please refer to the section titled “Main Provisions of the Articles of Association” beginning on page number 266 of this Draft Prospectus.

ALLOTMENT ONLY IN DEMATERIALISED FORM

In terms of Section 29 of Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed among our Company, the respective Depositories and the Registrar and Share Transfer Agent to the Issue:

- a. Tripartite agreement dated January 16, 2024 between our Company, NSDL and the Registrar and Share Transfer Agent to the Issue.
- b. Tripartite agreement dated January 10, 2024 between our Company, CDSL and the Registrar and Share Transfer Agent to the Issue.
- c. The Company's shares bear ISIN INE0STM01017.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

The trading of the Equity Shares will happen in the minimum contract size of [●] Equity Shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012 and the same may be modified by the Emerge Platform of NSE from time to time by giving prior notice to investors at large.

Allocation and allotment of Equity Shares through this Issue will be done in multiples of [●] Equity Shares and is subject to a minimum allotment of [●] Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Further, in accordance with Regulation 267(2) of the SEBI (ICDR) Regulations the minimum application size in terms of number of specified securities shall not be less than ₹1.00 lakh per application.

MINIMUM NUMBER OF ALLOTTEES

In accordance with Regulation 268 (1) of SEBI (ICDR) Regulations, the minimum number of allottees in this Offer shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the amounts in the ASBA Account shall be unblocked within 4 Working Days of closure of Issue.

JOINT HOLDERS

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

NOMINATION FACILITY TO INVESTOR

In accordance with Section 72 of the Companies Act, 2013 the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Articles of Association of the Company, any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

In accordance with the SEBI (ICDR) Regulations, our Company, in consultation with Lead Manager, reserves the right not to proceed with this issue at any time after the Issue Opening Date, but before our Board meeting for Allotment without assigning reasons thereof.

If our Company withdraws the Issue after the Issue Closing Date, we will give reason thereof within two days by way of a public notice which shall be published in the same newspapers where the pre-issue advertisements were published.

Further, the Stock Exchanges shall be informed promptly in this regard and the Lead Manager, through the Registrar to the Issue, shall notify the SCSBs to unblock the Bank Accounts of the ASBA Applicants within one Working Day from the date of receipt of such notification.

In case our Company withdraws the Issue after the Issue Closing Date and subsequently decides to undertake a public offering of Equity Shares, our Company will file a fresh Offer Document with the Stock Exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is also subject to obtaining the final Listing and Trading Approval of the Stock Exchange, which the Company shall apply for after Allotment. In terms of the SEBI Regulations, Non-Retail Applicants shall not be allowed to withdraw their Application after the Issue Closing Date.

The Bidder shall be compensated in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.

In terms of Regulation 265 of SEBI ICDR Regulations, the issue shall be open after at least three (3) working days from the date of filing the Prospectus with the Registrar of Companies. In terms of regulation 266(1) of SEBI (ICDR) Regulation, 2018, except as otherwise provided in these regulations, the public issue shall be kept open for at least three working days and not more than ten working days. In terms of regulation 266(2) of SEBI (ICDR) Regulation, 2018, in case of a revision in the price band, the issuer shall extend the bidding (issue) period disclosed in the Draft Prospectus, for a minimum period of three working days, however the same is not applicable to our company as this is fixed price issue. In terms of Regulation 266 (3) of SEBI ICDR Regulations, in case of force majeure, banking strike or similar circumstances, our Company may, for reasons to be recorded in writing, extend the Issue Period disclosed in the Prospectus, for a minimum period of three (3) working days, subject to the provisions of Regulation 266(1).

The above timetable is indicative and does not constitute any obligation on our Company or the Lead Manager. While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on NSE is taken within three (3) Working Days from the Issue Closing Date, the time table may change due to various factors, such as extension of the Issue Period by our Company or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Application Forms and any revisions to the same will be accepted only between 10:00 a.m. to 5:00 p.m. (IST) during the Issue Period (except for the Issue Closing Date). On the Issue Closing Date, the Application Forms will be accepted only between 10:00 a.m. to 3:00 p.m. (IST) for retail and non-retail Applicants. The time for applying for Retail Individual Investors on Issue Closing Date maybe extended in consultation with the Lead Manager, Registrar and Share Transfer Agent and NSE Emerge platform of NSE taking into account the total number of Applications received up to the closure of timings.

On the Bid/ Issue Closing Date, the Bids shall be uploaded until:

- a. 4.00 P.M. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- b. until 5.00 P.M. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Retail Individual Bidders.

On the Bid/ Issue Closing Date, extension of time will be granted by the Stock Exchange only for uploading Bids received from Retail Individual Bidders after taking into account the total number of Bids received and as reported by the Lead Manager to the Stock Exchange

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the Lead Manager and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after closure of the time for uploading Bids.

It is clarified that applications not uploaded on the electronic bidding system or in respect of which the full application Amount is not blocked by SCSBs or under the UPI Mechanism, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Offer Closing Date, and are advised to submit their Bids no later than prescribed time on the Bid/ Offer Closing Date. Any time mentioned in this Draft Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Offer. Bids will be accepted only during Working Days, during the Bid/Offer Period. Investors may please note that as per letter no. List/smd/sm/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays, Sundays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges. The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not allowed to withdraw or lower the size of their applications (in terms of the quantity of the Equity Shares or the Applications Amount) at any stage. Retail Individual Investors can revise or withdraw their Applications prior to the Issue Closing Date. Except Allocation to Retail Individual Investors, Allocation in the Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or the electronic Application Form, for a particular Applicant, the details as per the file received from the Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSB/ RTAs / DPs / stock or the member of the Syndicate for rectified data.

MINIMUM SUBSCRIPTION AND UNDERWRITING

In accordance with Regulation 260 (1) of ICDR Regulations, this Issue is 100% underwritten, so this Issue is not restricted to any minimum subscription level.

As per section 39 of the new Companies Act, if the “stated minimum amount” has not been subscribed and the sum payable on Application is not received within a period of 30 days from the date of Prospectus, the Application Amount has to be returned within such period as may be prescribed.

If our Company does not receive the subscription of 100% of the Issue through this Offer document including devolvement of Underwriters, our Company shall forthwith unblock the entire subscription amount received. If there is a delay beyond 8 days after our Company becomes liable to pay the amount, our Company shall pay interest prescribed under section 73 of the Companies Act, 2013 and applicable law.

In accordance with Regulation 260 (1) of the SEBI ICDR Regulations, our Issue shall be 100% underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the Issue through this Draft Prospectus and shall not be restricted to the minimum subscription level. Further, in accordance with Regulation 267 (2) of the SEBI ICDR Regulations, our Company shall ensure that the minimum application size shall not be less than ₹ 1.00 Lakhs (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

ISSUE PROCEDURE

All Applicants shall read the “General Information Document for Investing in Public Issues” prepared and issued in accordance with the circular SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 notified by SEBI, suitably modified from time to time, if any, and the UPI Circulars (“General Information Document”), highlighting the key rules, procedures applicable to public issues in general in accordance with the provisions of the Companies Act, 2013, the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957, and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchange and the LM. Please refer to the relevant provisions of the General Information Document which are applicable to the Issue, especially in relation to the process for Applications by Retail Individual Bidders through the UPI Mechanism. The investors should note that the details and process provided in the General Information Document should be read along with this section.

Additionally, all Applicants may refer to the General Information Document for information in relation to (i) Category of investor eligible to participate in the Issue; (ii) maximum and minimum Issue size; (iii) price discovery and allocation; (iv) Payment Instructions for ASBA Applicants; (v) Issuance of CAN and Allotment in the Issue; (vi) General instructions (limited to instructions for completing the Application Form); (vii) designated date; (viii) disposal of applications; (ix) submission of Application Form; (x) other instructions (limited to joint applications in cases of individual, multiple applications and instances when an application would be rejected on technical grounds); (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Applications by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Applications with existing timeline of T+6 days will continue for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Retail Individual Investors (“UPI Phase III”), is prescribed by SEBI vide circular SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023 effective from issue opening on or after September 01, 2023 on voluntary basis and on or after December 01, 2023 on mandatory basis.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public issue from existing 6 working days to 3 working days from the date of the closure of the issue. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public issues opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public issue to three Working Days. Accordingly, the Offer will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

The list of Banks that have been notified by SEBI as Issuer Banks for UPI are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognisedFpi=yes&intmId=40>. The list of Stock Brokers, Depository Participants (DP), Registrar to an Issue and Share Transfer Agent (RTA) that have been notified by NSE & BSE to act as intermediaries for submitting Application Forms are provided on www.nseindia.com and www.bseindia.com. For details on their designated branches for submitting Application Forms, please see the above mentioned website of respective Stock Exchanges

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Issue Closing Date, the Applicant shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding four Working Days from the Issue Closing Date by the intermediary responsible for causing such delay in unblocking. The LM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, has reduced the timelines for refund of Application money to four days.

Our Company and Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and is not liable for any amendment, modification or change in the applicable law, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that their application are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in this Draft Prospectus and the Prospectus.

This section applies to all the Applicants, please note that all the Applicants are required to make payment of the full Application Amount along with the Application Form. Further, the Company and the LM are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Issue.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the “UPI Circulars”) in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six working days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (“T+3 Notification”). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in

compliance with circulars prescribed by SEBI and applicable law. The Offer will be made under UPI Phase III of the UPI Circular.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Applicants into the UPI payment mechanism.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Lead Manager.

FIXED PRICE ISSUE PROCEDURE

The Issue is being made in compliance with the provisions of Reg. 229(2) of Chapter IX of the SEBI (ICDR) Regulations, 2018 and through the Fixed Price Process wherein 50% of the Net Issue to Public is being offered to the Retail Individual Applicants and the balance shall be offered to Non-Retail Category i.e., QIBs and Non-Institutional Applicants. However, if the aggregate demand from the Retail Individual Applicants is less than 50%, then the balance Equity Shares in that portion will be added to the non-retail portion offered to the remaining investors including QIBs and NIIs and vice-versa subject compliance with Regulation 253(2) of the SEBI ICDR Regulations and subject to valid Applications being received from them at or above the Issue Price.

Subject to the valid Applications being received at Issue Price, allocation to all categories in the Net Offer, shall be made on a proportionate basis, except for the Retail Portion where Allotment to each Retail Individual Applicants shall not be less than the minimum lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under subscription, if any, in any category would be allowed to be met with spillover from any other category or a combination of categories at the discretion of our Company in consultation with the Lead Manager and the Stock Exchange. However, if the retail individual investor category is entitled to more than fifty per cent of the net Issue on a proportionate basis, the retail individual investors shall be allocated that higher percentage.

Applicants are required to submit their Applications to the Application collecting intermediaries i.e., SCSB or Registered Brokers of Stock Exchanges or Registered Registrar to the Issue and Share Transfer Agents (RTAs) or Depository Participants (DPs) registered with SEBI.

In case of QIB Applicants, the Company, in consultation with the Lead Manager, may reject Applications at the time of acceptance of Application Form provided that the reasons for such rejection shall be provided to such Applicant in writing. In case of Non-Institutional Applicants and Retail Individual Applicants, the Company would have a right to reject the Applications only on technical grounds.

Investors should note that according to section 29(1) of the Companies Act, 2013, allotment of Equity Shares to all successful Applicants will only be in the dematerialised form. The Application Forms which do not have the details of the Applicant's depository account including DP ID, PAN and Beneficiary Account Number shall be treated as incomplete and rejected. In case DP ID, Client ID and PAN mentioned in the Application Form and entered into the electronic system of the stock exchange, do not match with the DP ID, Client ID and PAN available in the depository database, the application is liable to be rejected. Applicants will not have the option of getting allotment of the Equity Shares in physical form. The Equity Shares on allotment shall be traded only in the dematerialized segment of the Stock Exchange.

An applicant in the Net Public Category cannot make an application for that number of Equity Shares exceeding the number of Equity Shares offered to the public.

APPLICATIONS BY ELIGIBLE FPIs INCLUDING FIIs ON REPATRIATION BASIS

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our total paid-up Equity Share capital on a fully diluted basis. Further, in terms of the FEMA Rules, the total holding by each FPI shall be less than 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs could be up to 100%, being the sectoral cap, of the paid-up Equity Share capital of our Company on a fully diluted basis.

In case of Applications made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Application Form, failing which our Company reserves the right to reject any Application without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Application Form for Non-Residents (blue in colour).

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

As specified in 4.1.4.2 (b)(i) and 4.1.4.2 (c)(iv) of the General Information Document, it is hereby clarified that bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Applications from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (“MIM Structure”), provided such Applications have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Applications received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Applications, FPIs making multiple Applications using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Application Forms that the relevant FPIs making multiple Applications utilize the MIM Structure and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Applications are liable to be rejected.

Further, in the following cases, the Applications by FPIs will not be considered as multiple Applications: involving the MIM Structure and indicating the name of their respective investment managers in such confirmation; offshore derivative instruments (“ODI”) which have obtained separate FPI registration for ODI and proprietary derivative investments; sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;

FPI registrations granted at investment strategy level / sub fund level where a collective investment scheme or fund has multiple investment strategies / sub-funds with identifiable differences and managed by a single investment manager; multiple branches in different jurisdictions of foreign bank registered as FPIs; Government and Government related investors registered as Category 1 FPIs; and Entities registered as Collective Investment Scheme having multiple share classes.

With effect from the April 1, 2020, the aggregate limit shall be the sectoral caps applicable to the Indian company as prescribed in the FEMA Rules with respect to its paid-up equity capital on a fully diluted basis. While the aggregate limit as provided above could have been decreased by the concerned Indian companies to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its board of directors and its shareholders through a resolution and a special resolution, respectively before March 31, 2020, our Company has not decreased such limit and accordingly the applicable limit with respect to our Company is 100%.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to inter alia the following conditions:

- a. such offshore derivative instruments are transferred only to persons in accordance with Regulation 22(1) of the SEBI FPI Regulations; and
- b. prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Participation of FPIs in the Issue shall be subject to the FEMA Rules

A Resident Retail Individual Investor shall submit his Application through an Application Form, either in physical or electronic mode, to the SCSB with whom the bank account of the ASBA Applicant or bank account utilized by the ASBA Applicant ("ASBA Account") is maintained. The SCSB shall block an amount equal to the Application Amount in the bank account specified in the ASBA Application Form, physical or electronic, on the basis of an authorization to this effect given by the account holder at the time of submitting the Application.

The Application Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount against the allocated shares to the ASBA Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the ASBA Application, as the case may be.

The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchange. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable to the successful ASBA Applicants to the ASBA Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Lead Manager.

ASBA Applicants are required to submit their Applications, either in physical or electronic mode. In case of application in physical mode, the ASBA Applicant shall submit the ASBA Application Form at the Designated Branch of the SCSB or Registered Brokers or Registered RTA's or DPs registered with SEBI. In case of application in electronic form, the ASBA Applicant shall submit the Application Form either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for applying and blocking funds in the ASBA account held with SCSB, and accordingly registering such Applications.

CHANNELS OF SUBMISSION OF APPLICATION FORMS

From July 1, 2019 in Phase II, RIIs shall use only Channel I, Channel II and Channel IV (as described below) for making applications in a public issue:

(Rest of the page is intentionally left blank)

Category of Investor	Channel I	Channel II	Channel III	Channel IV
Retail Individual Investor (RII)	Investor may submit the Application Form with ASBA as the sole mechanism for making payment either physically (at the branch of the SCSB) or online.	Investor may submit the Application Form online using the facility of linked online trading, demat and bank account (3-in-1 type accounts) provided by Registered Brokers.	Not Applicable	RIIs may submit the Application Form with any of the Designated Intermediaries and use his/her UPI ID for the purpose of blocking of funds.
Non-institutional Investor (NII) including Qualified institutional Buyer (QIB)	For such applications the existing process of uploading the Application and blocking of funds in the RIIs account by the SCSB would continue.		Investor may submit the Application Form with any of the Designated Intermediaries, along with details of his/her ASBA Account for blocking of funds. For such applications the Designated Intermediary will upload the Application in the stock exchange bidding platform and forward the application form to Designated Branch of the concerned SCSB for blocking of funds.	Not Applicable

Upon receipt of the Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form, prior to uploading such Applications with the Stock Exchange.

If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Applications and shall not upload such Applications with the Stock Exchange.

If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Application Amount mentioned in the Application Form and will enter each Application into the electronic bidding system as a separate Application and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Applicant on request.

The Application Amount shall remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Application Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Application Form, as the case may be.

Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Applicants to the Public Issue Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Offer.

PROCESS FLOW FOR APPLICATIONS IN PUBLIC ISSUE SUBMITTED BY RETAIL INDIVIDUAL INVESTOR

In addition to application to be submitted to SCSB, with whom the bank account to be blocked, is maintained, a RII would also have the option to submit application form with any of the intermediary and use his / her bank account linked UPI ID for the purpose of blocking of funds with effect from January 01, 2019.

The detailed process in this regard is as detailed hereunder:

Application and validation process

- a. submission of the application with the intermediary, the RII would be required to have / create a UPI ID, with a maximum length of 45 characters including the handle (Example: InvestorID@bankname).
- b. RII will fill in the Application details in the application form along with his/ her bank account linked UPI ID and submit the application with any of the intermediary.
- c. The intermediary upon receipt of form will upload the Application details along with UPI ID in the stock exchange bidding platform.
- d. Once the Application has been entered in the bidding platform, the exchange will undertake validation of the PAN and Demat Account details of RII with the depository.
- e. Depository will validate the aforesaid Application details on a real time basis and send response to stock exchange which would be shared by stock exchange with intermediary through its platform, for corrections, if any.
- f. SMS from exchange to RII for applying: Once the Application details are uploaded on the stock exchange platform, the stock exchange shall send an SMS to the RII regarding submission of his / her application, daily at the end of day basis, during bidding period. For the last day of applying, the SMS may be sent out the next working day.

The Block Process

- a. Post undertaking validation with depository, the stock exchange will, on a continuous basis, electronically share the Application details along with RIIs UPI ID, with the Sponsor Bank appointed by the issuer.
- b. The Sponsor Bank will initiate a mandate request on the RII i.e. request the RII to authorize blocking of funds equivalent to application amount and subsequent debit of funds in case of allotment. For all pending UPI Mandate Requests, the Sponsor Bank will initiate requests for blocking of funds in the ASBA Accounts of relevant investors with a confirmation cut-off time of 12:00 pm on the first Working Day after the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, RIIs using the UPI Mechanism need to accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests after the Cut-Off Time will lapse.
- c. The request raised by the Sponsor Bank, would be electronically received by the RII as a SMS / intimation on his/ her mobile no. / Mobile app, associated with UPI ID linked bank account.
- d. The RII would be able to view the amount to be blocked as per his / her Application in such intimation. The RII would also be able to view an attachment wherein the IPO Application details submitted by RII will be visible. After reviewing the details properly, RII would be required to proceed to authorize the mandate. Such mandate raised by sponsor bank would be a one-time mandate for each application in the IPO.
- e. Upon successful validation of block request by the RII, as above, the said information would be electronically received by the RIIs’ bank, where the funds, equivalent to application amount, would get blocked in RIIs account. Intimation regarding confirmation of such block of funds in RIIs account would also be received by the RII.

- f. The information containing status of block request (e.g. – accepted / decline / pending) would also be shared with the Sponsor Bank, which in turn would be shared with stock exchange. The block request status would also be displayed on stock exchange platform for information of the intermediary.
- g. The information received from Sponsor Bank, would be shared by stock exchange with RTA in the form of a file for the purpose of reconciliation.
- h. RIIs would continue to have the option to modify or withdraw the Application till the closure of the Issue period. For each such modification of Application, RII will submit a revised Application and shall receive a mandate request from sponsor bank to be validated as per the process indicated above.

Post closure of the Offer, the stock exchange will share the Application details with the Registrar along with the final file received from the Sponsor Bank containing status of blocked funds or otherwise, along with the ASBA Account details with respect to applications made by RIIs using UPI ID.

NUMBER OF APPLICATIONS PER BANK ACCOUNT

An investor making application using any of channels under UPI Payments Mechanism, shall use only his / her own bank account or only his / her own bank account linked UPI ID to make an application in public issues. Applications made using third party bank account or using third party linked bank account UPI ID are liable for rejection. Sponsor Bank shall provide the investors UPI linked bank account details to RTA for purpose of reconciliation. RTA shall undertake technical rejection of all applications to reject applications made using third party bank account.

HOW TO APPLY?

In accordance with the SEBI circular no. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Applicants has to compulsorily apply through the ASBA Process. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Retail Individual Investors applying in public Issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

MODE OF PAYMENT

Upon submission of an Application Form with the SCSB, whether in physical or electronic mode, each ASBA Applicant shall be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount, in the bank account maintained with the SCSB.

Applicants must specify the Bank Account number, or the UPI ID, as applicable, in the Application Form. The Application Form submitted by applicant and which is accompanied by cash, demand draft, cheque, money order, postal order or any mode of payment other than blocked amounts in the ASBA Account, may not be accepted. The SCSB or Sponsor Bank shall keep the Application Amount in the relevant bank account blocked until withdrawal/rejection of the application or receipt of instructions from the Registrar to unblock the Application Amount.

However, Non-Retail Applicants shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Application Form or for unsuccessful Application Forms, the Registrar to the Issue shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalisation of the Basis of Allotment in the Issue and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the application by the ASBA Applicant, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018 and all related circulars issued thereafter, Retail Individual Investors applying in public Issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

On the Designated Date, the SCSBs shall transfer the amounts allocable to the ASBA Applicants from the respective ASBA Account, in terms of the SEBI Regulations, into the ASBA Public Issue Account. The balance amount, if any against the said Application in the ASBA Accounts shall then be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the Issue.

In case of applications made by using any of channels under UPI Payments Mechanism, post closure of the Offer, the stock exchange will share the Application details with the Registrar along with the final file received from the Sponsor Bank containing status of blocked funds or otherwise, along with the ASBA Account details with respect to applications made by RIIs using UPI ID.

The RTA, based on information of Applications and blocking received from stock exchange, would undertake reconciliation of the Applications data and block confirmation corresponding to the Applications by all investor category applications (with and without the use of UPI) and prepare the basis of allotment.

Upon approval of basis of allotment, RTA will share the debit file with Sponsor bank (through Stock exchange) and SCSBs, as applicable, for credit of funds in the public issue account and unblocking of excess funds in the RIIs account. The Sponsor bank based on the mandate approved by the RII at the time of blocking of funds, will raise the debit / collect request from RIIs bank account, whereupon the funds will be transferred from RIIs account to public issue account and remaining funds, if any, will be unblocked without any manual intervention by RII or his / her bank.

Upon confirmation of receipt of funds in the public issue account, shares would be credited to the RII's account. RII will be notified for full/partial/no allotment. For partial allotment the remaining funds would be unblocked. For no allotment, mandate would be revoked and application amount would be unblocked for the RII.

UNBLOCKING OF ASBA ACCOUNT

On the basis of instructions from the Registrar to the Issue, the SCSBs shall transfer the requisite amount against each successful ASBA Applicant to the ASBA Public Issue Account as per section 40(3) of the Companies Act, 2013 and shall unblock excess amount, if any in the ASBA Account.

In case of applications made by using any of channels under UPI Payments Mechanism, Registrar to the Issue will share the debit file with Sponsor bank (through Stock exchange) and SCSBs, as applicable, for credit of funds in the public issue account and unblocking of excess funds in the RIIs account. The Sponsor bank based on the mandate approved by the RII at the time of blocking of funds, will raise the debit / collect request from RIIs bank account, whereupon the funds will be transferred from RIIs account to public issue account and remaining funds, if any, will be unblocked without any manual intervention by RII or his / her bank.

However, the Application Amount may be unblocked in the ASBA Account or Bank Account link in UPI Mechanism prior to receipt of intimation from the Registrar to the Issue by the Controlling Branch of the SCSB regarding finalization of the Basis of Allotment in the Issue, in the event of withdrawal/failure of the Issue or rejection of the ASBA Application or Application made through UPI Mechanism, as the case may be.

Hence, payment through stock invest would not be accepted in this Issue.

OTHER INSTRUCTIONS

JOINT APPLICATIONS IN THE CASE OF INDIVIDUALS

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Applicant whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Applicant and will be dispatched to his or her address as per the Demographic Details received from the Depository.

MULTIPLE APPLICATIONS

An Applicant should submit only one Application (and not more than one). Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

- a. All applications are electronically strung on first name, address (1st line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/ husband's name to determine if they are multiple applications
- b. Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually checked to eliminate possibility of data entry error to determine if they are multiple applications.
- c. Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 (Twenty) valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of "know your client" norms by the depositories. The Company reserves the right to reject, in its absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application or Application through UPI Mechanism either in physical or electronic mode, an Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such manner will be deemed a multiple Application and would be rejected.

An investor making application using any of channels under UPI Payments Mechanism, shall use only his / her own bank account or only his / her own bank account linked UPI ID to make an application in public issues. Applications made using third party bank account or using third party linked bank account UPI ID are liable for rejection. Sponsor

Bank shall provide the investors UPI linked bank account details to RTA for purpose of reconciliation. RTA shall undertake technical rejection of all applications to reject applications made using third party bank account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple applications and are liable to be rejected. The Company, in consultation with the Lead Manager reserves the right to reject, in its absolute discretion, all or any multiple applications in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple applications is given below:

- a. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII sub-accounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.
- b. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

PERMANENT ACCOUNT NUMBER OR PAN

Pursuant to the circular MRD/DoP/Circ 05/2007 dated April 27, 2007, SEBI has mandated Permanent Account Number (“PAN”) to be the sole identification number for all participants transacting in the securities market, irrespective of the amount of the transaction w.e.f. July 2, 2007. Each of the Applicants should mention his/her PAN allotted under the Income Tax Act, 1961. Applications without the PAN will be considered incomplete and are liable to be rejected. It is to be specifically noted that Applicants should not submit the General Index Registration (“GIR”) number instead of the PAN, as the Application is liable to be rejected on this ground.

Our Company/ Registrar to the Issue/ Lead Manager can, however, accept the Application(s) in which PAN is wrongly entered into by ASBA SCSB's in the ASBA system, without any fault on the part of Applicant.

RIGHT TO REJECT APPLICATIONS

DISPOSAL OF APPLICATIONS AND APPLICATION MONEYS AND INTEREST IN CASE OF DELAY

The Company shall ensure the dispatch of Allotment advice, instructions to SCSBs and give benefit to the beneficiary account with Depository Participants and submit the documents pertaining to the Allotment to the Stock Exchange within one working day of the date of Allotment of Equity Shares.

The Company shall make best efforts that all steps for completion of the necessary formalities for listing and commencement of trading at Emerge Platform of NSE where the Equity Shares are proposed to be listed are taken within 3 (three) working days of closure of the issue.

IMPERSONATION

Attention of the applicants is specifically drawn to the provisions of section 38(1) of the Companies Act, 2013 which is reproduced below:

- a. **‘Any person who: makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or**
- b. **Makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or**
- c. **Otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under section 447 of Companies Act, 2013 and shall be treated as Fraud.**

Section 447 of the Companies Act, 2013, is reproduced as below:

Without prejudice to any liability including repayment of any debt under this Act or any other law for the time being in force, any person who is found to be guilty of fraud involving an amount of at least ten lakh rupees or one per cent. of the turnover of the company, whichever is lower shall be punishable with imprisonment for a term which shall not be less than six months but which may extend to ten years and shall also be liable to fine which shall not be less than the amount involved in the fraud, but which may extend to three times the amount involved in the fraud:

Provided that where the fraud in question involves public interest, the term of imprisonment shall not be less than three years.

Provided further that where the fraud involves an amount less than ten lakh rupees or one per cent. of the turnover of the company, whichever is lower, and does not involve public interest, any person guilty of such fraud shall be punishable with imprisonment for a term which may extend to five years or with fine which may extend to twenty lakh rupees or with both.

BASIS OF ALLOTMENT

Allotment will be made in consultation with NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category x number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio).
3. For applications where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - a. Each successful applicant shall be allotted [●] equity shares; and
 - b. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
4. If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] equity shares, the applicant would be allotted Shares by rounding off to the lower nearest multiple of [●] equity shares.
5. If the Shares allocated on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares.
6. Since present issue is a fixed price issue, the allocation in the net Issue to the public category in terms of Regulation 253(2) of the SEBI (ICDR) (Amendment) Regulations, 2018 shall be made as follows:
 - a. minimum fifty per cent to retail individual investors; and
 - b. remaining to:
 - i. individual applicants other than retail individual investors; and
 - ii. other investors including corporate bodies or institutions, irrespective of the number of Equity Shares applied for;

Provided that the unsubscribed portion in either of the categories specified in clauses (a) or (b) may be allocated to applicants in the other category.

Explanation: If the retail individual investor category is entitled to more than fifty per cent of the net issue size on a proportionate basis, the retail individual investors shall be allocated that higher percentage.

Please note that the Allotment to each Retail Individual Investor shall not be less than the minimum application lot, subject to availability of Equity Shares in the Retail portion. The remaining available Equity Shares, if any in Retail portion shall be allotted on a proportionate basis to Retail individual Investor in the manner in this para titled “BASIS OF ALLOTMENT”.

“Retail Individual Investor” means an investor who applies for shares of value of not more than ₹ 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with the Emerge Platform of National Stock Exchange of India (“NSE”).

INSTRUCTIONS FOR COMPLETING THE APPLICATION FORM

In addition to the instructions for completing the Application Form provided in the sub-section “General Information Document for Investing in Public Issue – Applying in the Issue – Instructions for filing the Application Form / Application Form” Applicants are requested to note the additional instructions provided below.

- 1) Thumb impressions and signatures other than in the languages specified in the Eighth Schedule in the Constitution of India must be attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal. Applications must be in single name or in joint names (not more than three, and in the same order as their Depository Participant details).
- 2) Applications must be made in a single name or in joint names (not more than three, and in the same order as their details appear with the Depository Participant), and completed in full, in BLOCK LETTERS in ENGLISH and in accordance with the instructions contained in the Prospectus and in the Application Form.
- 3) Applications on a repatriation basis shall be in the names of FIIs or FPIs but not in the names of minors, OCBs, firms or partnerships and foreign nationals.

BASIS OF ALLOTMENT IN CASE OF UNDER SUBSCRIPTION

In the event of under subscription in the Issue, the obligations of the Underwriters shall get triggered in terms of the Underwriting Agreement. The Minimum subscription of 100% of the Issue size as specified in chapter titled as “General Information” on page number 44 shall be achieved before our company proceeds to get the basis of allotment approved by the Designated Stock Exchange.

The Executive Director/Managing Director of the Emerge Platform of NSE – the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations, 2018.

NAME OF ENTITIES RESPONSIBLE FOR FINALISING THE BASIS OF ALLOTMENT IN A FAIR AND PROPER MANNER

The authorised employees of the Designated Stock Exchange, along with the LM and the Registrar to the Issue, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

METHODS OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

Our Company will not make any Allotment in excess of the Equity Shares through the Offer Document except in case of over-subscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. Further, upon over-subscription, an allotment of not more than one per cent of the Issue may be made for the purpose of making Allotment in minimum lots.

The allotment of Equity Shares to applicants other than to the Retail Individual Applicants shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum Allotment being equal to the minimum application size as determined and disclosed.

The allotment of Equity Shares to each Retail Individual Applicants shall not be less than the minimum Application lot, subject to the availability of shares in Retail Individual Applicants portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis.

RESTRICTED ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the FEMA, the Consolidated FDI Policy and the circulars and notifications issued thereunder. Unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy, subject to certain applicable pricing and reporting requirements. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy 2020 (“FDI Policy 2020”), which is effective from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular.

The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment, as updated from time to time by RBI and Master Direction–Foreign Investment in India (updated up to March 08, 2019). In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular and Master Direction. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT, all investments by entities incorporated in a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government of India, as prescribed in the Consolidated FDI Policy.

As per the existing policy of the Government, OCBs were not permitted to participate in this issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge, or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates, and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

In terms of the FEMA NDI Rules, a person resident outside India may make investments into India, subject to certain terms and conditions, and provided that an entity of a country, which shares land border with India or the beneficial owner of an investment into India who is situated in or is a citizen of any such country, shall invest only with government approval.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include:

- i. the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations;
- ii. the non-resident shareholding is within the sectoral limits under the FDI policy; and
- iii. the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the

Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

INVESTMENT CONDITIONS/RESTRICTIONS FOR OVERSEAS ENTITIES

Under the current FDI Policy 2020, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule I to X of Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment up to aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

INVESTMENT BY FPIS UNDER PORTFOLIO INVESTMENT

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 percent and 24 percent will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

INVESTMENT BY NRI OR OCI ON REPATRIATION BASIS

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as “Capital Instruments”) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule III of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019.

The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 percent

of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

INVESTMENT BY NRI OR OCI ON NON-REPARTRATION BASIS

As per current FDI Policy 2020, Investment by NRIs under Schedule IV of Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will be deemed to be domestic investment at par with the investment made by residents— Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers, and sale occur.

Further, no Issue to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Draft Prospectus Directive except for any such Issue made under exemptions available under the Draft Prospectus Directive, provided that no such Issue shall result in a requirement to publish or supplement a Draft prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Draft Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
