Subject: Investor/analyst presentation on Un-Audited financial results for the Quarter ended on June 30, 2025

Dear Sir/Ma'am

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, enclosed herewith is the investor/analyst presentation with respect to **Un-Audited financial results** for the Quarter on June 30, 2025.

The above information is also available on www.interarchbuildings.com

Kindly take the same on record.

For INTERARCH BUILDING SOLUTIONS LIMITED (Formerly known as Interarch Building Products Limited)

ARVIND NANDA MANAGING DIRECTOR DIN: 00149426

(Formerly known as Interarch Building Products Limited)

Head Office: B-30, Sector 57, Noida - 201301, India. Tel.: +91 120 4170200, **CIN: L45201DL1983PLC017029**

INTERARCH BUILDING SOLUTIONS LIMITED

August 2025

Safe Harbour

This presentation and the accompanying slides (the "Presentation"), which have been prepared by Interarch Building Solutions Limited (the "Company"), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward looking statements concerning the Company's future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

Performance Highlights Q1 FY26

MD's Commentary

"We are pleased to begin FY26 on a strong note, delivering revenue growth of 25.5% to ₹381 Cr, with EBITDA and PAT rising by 16.9% and 39.9%, respectively on a YoY basis. Based on our healthy order book and robust pipeline, we expect this growth momentum to sustain through the year.

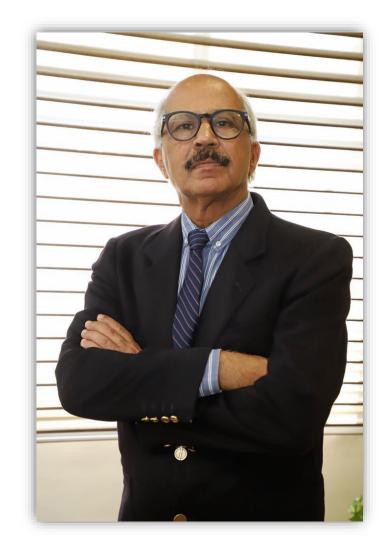

Our strategic partnerships with Jindal Steel & Power and Moldtek Technologies position us to transform urban infrastructure while expanding our global footprint. These collaborations align with our vision of promoting steel as the preferred material for high-rise buildings, data centers, and heavy industrial structures, while driving innovation and sustainable practices in the construction industry.

Operationally, Phase-1 of our 5th Pre-Engineered Building (PEB) unit at Athivaram, Andhra Pradesh, is ramping up well. The planned capacity expansions — Phase-2 at Athivaram and the new facility at Kiccha, Uttarakhand — are on track for commissioning in Q2 FY26. Together, these will increase our total installed capacity by 40,000 MT, from 1,61,000 MT to approximately 2,00,000 MT.

Our recently acquired 20 acres of adjoining land at our Andhra Pradesh facility to establish a dedicated plant for pre-engineered heavy steel structures will enable us to execute complex, large-scale projects in high-growth sectors such as data centers, semiconductors, and renewable energy manufacturing.

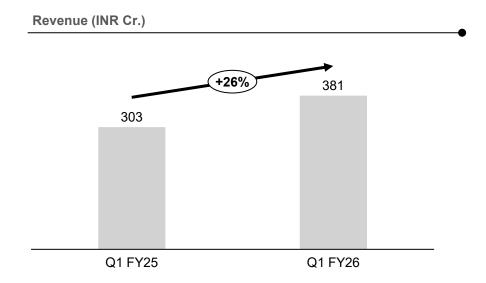

Backed by strong customer relationships, a net cash-positive balance sheet, efficient working capital management, and robust cash flows, we are well-positioned to scale further. We remain committed to sustaining our growth trajectory and have set an ambitious target to double revenues over the next 3–4 years."

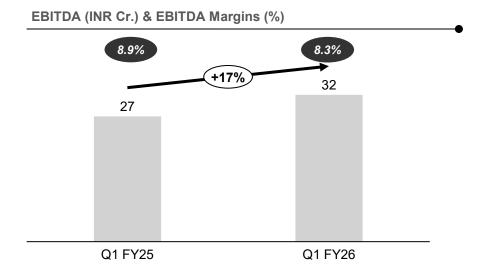

Arvind Nanda Managing Director

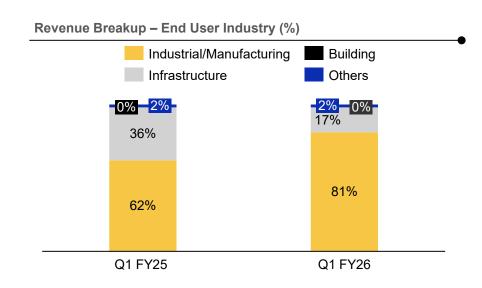

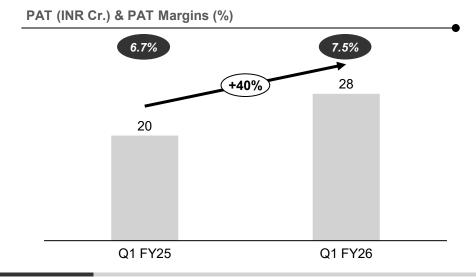

Q1 FY26 Performance Highlights

Key Business Highlights

Secured India's single largest PEB Order

The company has secured the largest-ever single PEB order in the Indian PEB industry, valued at over Rs 300 crore

Capacity Expansion

The Company is on track to commence production at Andhra Pradesh Phase-2 and the new Kicha line by Q2FY26, thereby enhancing the overall production capacity to 2,00,000 MT

Setting up of Heavy Steel Structures Capacity

Setting up of Heavy Steel Structures plant on the recently acquired 20-acre land adjoining our existing Andhra Pradesh facility. The plant is expected to be commercialized by July 2026, supporting growth in large-scale fabrication capabilities

Further strengthening of Capabilities

In line with company's strategy to strengthen engineering excellence, the company plans to set up two new engineering offices in India during the current financial year to enhance design and technical capabilities

Sustainability Initiatives

As part of our sustainability initiatives, the company has set up rooftop solar units under opex model at Kichha and Pantnagar plants with a combined capacity of 1 MW, leading to reductions in power costs. Work is in advance stage for similar set up at Chennai and Andhra Pradesh Plant

Recent Developments

R&D Work done in Engineering Department

- Development of customized tools to automate various tasks being done manually.
- This will result into increased efficiencies and productivity in engineering

Optimizing Logistic Operations and Costs

- Introduction of new procurement platforms like Ariba.
- Identification of new and capable logistic partners, primarily the ones having their own fleet.

Capability Building in Engineering/Projects and Design

- Continual implementation of GET / PGET initiatives in inducting, training, and mentoring the fresh talent.
- This will enhance our manpower and talent pipeline, to support our future growth

Active participation to upgrade IS Codes

Actively contributing to upgradation & revision of IS codes, for steel usage.

- IS800(General Construction in Steel–Code of Practice)
- IS801(Code of Practice for Use of Cold Formed Light Gauge Steel Structural Members)
- National Building Code (NBC) and more

Key Collaborations

Enhancing Export Presence Through Strategic Collaboration with Mold-Tek Technologies (MTTL)

Interarch Building Solutions Limited

Collaboration will focus on global markets, with a strong emphasis on driving export orders

Key Rationale:

Scope of Business:

Interarch and MTTL will jointly assess client requirements for building, pricing, and delivery under a two-year business plan, extendable by mutual consent

Consideration Details:

Interarch will pay MTTL a commission on export orders generated through MTTL's efforts, with rates adjustable by mutual agreement to facilitate order conversion

Agreement Terms:

Both companies will work exclusively with each other on projects introduced by MTTL, ensuring a dedicated partnership for these initiatives

Strategic Partnership with Jindal Steel & Power for Urban Infrastructure (JSPL)

Interarch Building Solutions Limited

Interarch is a leader in turnkey pre-engineered steel construction solutions (PEBs). The company caters to a broad spectrum of industrial and non-industrial construction needs.

Jindal Steel and Power Limited

Jindal Steel and Power is an industrial powerhouse with a dominant presence in the steel, mining, and infrastructure sectors. The company continually enhances its capacity utilization and efficiency, driving towards a self-reliant India.

To Promote

Steel as preferred material for multi-story buildings, data centers, and heavy structures, redefining India's urban infrastructure.

Areas of Collaboration

- 1. Marketing Awareness Campaign
- 2. Technical Expertise & Training
- 3. Advocacy & Policy Support

Key rationale

- Steel is the preferred material for modern urban construction due to its speed, strength, flexibility, and sustainability
- The partnership combines expertise in PEB construction with advanced steel production to meet growing demands
- This collaboration combines company's expertise in design, engineering, manufacturing and project management with JSPL's advanced manufacturing facilities for heavy structures, creating high-performance steel solutions
- Together, they aim to drive innovation and promote sustainable, efficient urban development

To enter into multi story buildings & heavy building structure and offer a comprehensive solution to customers

Company Overview

Company Evolution

1993

Introduced brand TRACDEK® for metal roofing and cladding systems

2005

Set up of Pantnagar Manufacturing Facility

2009-2011

2009: Commenced supply from Tamil Nadu Manufacturing Facility II

2011: Completed roofing and sheeting for Delhi Airport

2024

Listing on NSE & BSE

Inaugurated its 5th State-of-the-Art PEB Manufacturing plant (4th fully integrated unit) in Athivaram, Andhra Pradesh

1983

Incorporated in Delhi

2000

Set-up 1st PEB manufacturing facility in Greater Noida*

2007 - 2008

2007: Commenced supply from Tamil Nadu Manufacturing Facility I OIH Mauritius acquired ~13% stake in the Company

2008: Set up of Kiccha Manufacturing Facility

2020-2023

2021: Expansion of Kiccha Facility

2023: Revenue from operations cross Rs 1.000 crores(1)

2025

Secured India's single largest PEB Order

Company Overview

One of the leading turnkey pre-engineered steel construction solutions providers in India with integrated facilities for design and engineering, manufacturing, on-site project management capabilities for the installation and erection of pre-engineered steel buildings ("PEB")

2nd

Largest aggregate installed capacity of 161,000 MTPA among integrated PEB players in India⁽¹⁾

2nd

Ranked among integrated PEB players in India in FY25

756

Completed execution of PEB Contracts from FY15 to FY25

5

Manufacturing facilities in Uttarakhand, Andhra Pradesh & Tamil Nadu and 1 planned facilities in Gujarat

128

Qualified structural design engineers and detailers⁽²⁾

INR 1,454 Cr

Revenue from Operations in FY25

82%

Repeat Orders in FY25⁽³⁾

3 of 5

Customer Groups have been associated for over five years

PEB Contracts

PEB Sales

1. Metal Ceilings & Roofing

- ✓ TRAC® Metal suspended ceiling systems
- ▼ TRACDEK® Metal roofing & cladding systems
- ✓ TRACDEK® Bold Rib Permanent / metal decking (lost shuttering) over steel framing

2. PEB Steel Structures

- ✓ Primary Framing Systems: including primary load bearing frames, end-wall frames, wind bracings, crane brackets and mezzanine beams & joints
- ✓ Secondary Framing Systems such as Roof purlins, wall girts, eave struts and clips
- ✓ Interarch Life (Non-industrial buildings): Complete PEBs for erection with installations by third party builders / erectors which include customization to specifications

3. Light Gauge Framing Systems

✓ Comprising primary framing systems, secondary framing systems & metal ceiling and / or corrugated roofing

Complete PEBs on a turn-key basis with on-site project management capabilities for the installation & erection of PEBs

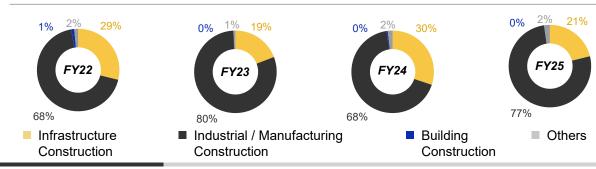

Estimation, designing, engineering, manufacturing and supply of PEBs

Revenue from Operations (Rs crs)

Revenue from Operations by End-Use Sector

Key Strengths

Key Strengths

Presence of over 40 years in the PEB industry and has worked with industry leaders in project development & construction, providing support to critical industrial, commercial and infrastructure projects

Market Position and Established Brand Presence in The Growing Pre-engineered Steel Building Industry in India (1/2)

2nd

Largest aggregate installed capacity of 161,000 MTPA among integrated PEB players in India⁽¹⁾

2nd

Ranked among integrated PEB players in India

6.5%

Market share among integrated PEB players in India

756

Completed execution of PEB Contracts from FY15 to FY25

40+ Years

Presence in the PEB industry

Extensive track record

Domain experience

Established brand presence and market position

Integrated facilities for design and engineering, manufacture

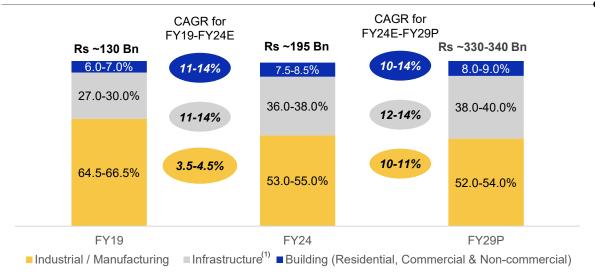

On-site project management capabilities

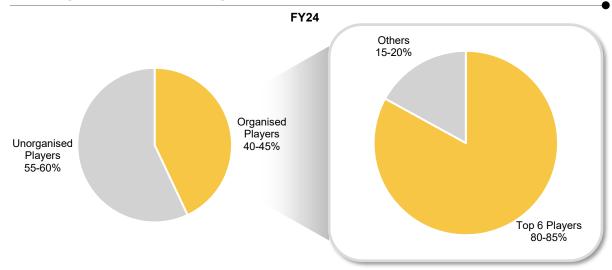

Market Position and Established Brand Presence in The Growing Pre-engineered Steel Building Industry in India (2/2)

Growing Shift towards the Organised Sector

Top six players in the industry have grown at a faster rate than rest of the players

Organised sector has an edge over the unorganised sector in terms of

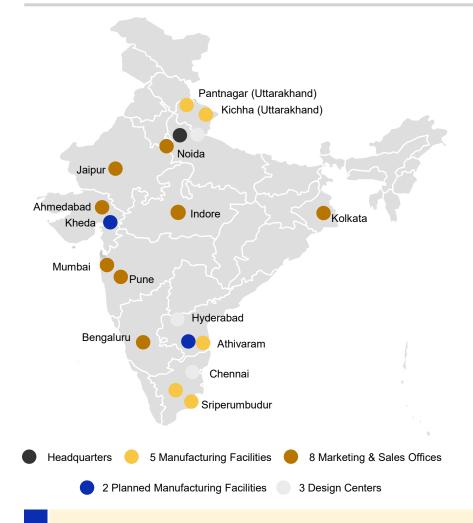

Extensive track record & domain experience, established brand presence & market position, integrated facilities for design & engineering, manufacture, on-site project management expertise for installation and erection of PEBs position us to benefit from growth of the PEB industry

Significantly Integrated Manufacturing Operations, Backed by In-house Design and Engineering, On-site Project Management and Sales & Marketing Capabilities

Manufacturing Facilities

| Facility | Set up Year | Installed capacity (MTPA) ⁽¹⁾ | Utilizable capacity (MTPA) |
|--|----------------|--|----------------------------------|
| Pantnagar Manufacturing Facility | 2005 | 31,000 | ~26,000 |
| Kiccha Manufacturing Facility | 2008 | 59,500 | ~50,000 |
| Tamil Nadu Manufacturing Facility I | 2007 | 10,000 | ~8,500 |
| Tamil Nadu Manufacturing Facility II | 2009 | 40,500 | ~34,000 |
| Andhra Pradesh Phase 1 (Commissioned) | 2024 | 20,000 | ~17,000 |
| Andhra Pradesh Phase 2 + Kiccha Expansion (Planned) | Q2FY26 | 40,000 | ~32,000 |
| Andhra Pradesh (Heavy Steel Structures) | July-26 | - | _ |
| Gujarat (Planned) | _ | - | - |
| Total ⁽¹⁾ | | 1,61,000 | ~1,35,500 |

Design & Engineering Centers

- Supported by dedicated design and engineering centers in Noida, Uttar Pradesh; Chennai, Tamil Nadu and Hyderabad, Telangana
- ✓ In-house design and engineering team of **119** qualified structural design engineers and detailers
- ✓ Computer aided design technologies including Staad Pro, MBS, FrameCad, Tekla, Auto Cad and ZWCAD

Project Management

- ✓ Dedicated team of 49 project managers, augmented by a network of **65** empanelled and approved builders / erectors
- ✓ Established dedicated safety & quality control teams to oversee each stage of the erection process

Vertically integrated manufacturing operations with presence across the product lifecycle of PEBs – estimation, designing, engineering & fabrication of PEBs, on-site project management of the installation and erection of PEBs

Demonstrated Track Record of Execution Backed by On-site Project Management Capabilities

Extensive Track Record of Delivering Significant / Complex Projects across India

AIRPORT
At Delhi

HOSPITAL BUILDING
In Bangalore, Karnataka

FOOD PROCESSING MANUFACTURING

At Muzaffarnagar, Uttar Pradesh

INDUSTRIAL & LOGISTICS PARK
In Haryana, Punjab, Maharastra, Tamil Nadu

PACKAGING MANUFACTURING
At Greater Noida, Uttar Pradesh

PLASTIC PRODUCTS MANUFACTURING
At Roorkee, Uttarakhand

SOLAR PV MODULES MANUFACTURING
In Dholera, Gujarat & Jaipur, Rajasthan

DATA CENTER BUILDING
In Navi Mumbai, Maharashta

On-site project management capabilities, together with process-driven operations; lean corporate structure and coordination efforts between internal departments, suppliers and customers have contributed towards our demonstrated track record of executing PEB Contracts

Experienced & Qualified Promoters and Management Team

Promoters

ARVIND NANDA Managing Director

- Responsible for overall business decisionmaking and financial oversight of operational Management
- Bachelor's degree in Commerce (Honours) from University of Delhi, New Delhi, India
- Admitted as an associate of the Institute of Chartered Accountants in England and Wales

GAUTAM SURIWhole-time Director

- Responsible for critical technical business decisions
- Bachelor's degree in technology in mechanical engineering from Indian Institute of Technology Delhi, New Delhi India
- Nearly 30 years of experience in the preengineered steel buildings industry with the company

VIRAJ NANDA
Executive Director

- Bachelors' degree in tourism and hospitality management from William Angliss Institute, Melbourne, Australia
- Diploma in CAD from CADD Centre Training Services, New Delhi, India
- Associated with the Company since February 14, 2017

ISHAAN SURI Non-Executive Director

- Bachelor's degree in science from the London School of Economics and Political Science, University of London, London, United Kingdom
- Associated with the Company since September 26, 2011

Key Managerial Personnel

MANISH KUMAR GARG
Chief Executive Officer

- Diploma in civil engineering from the Board of Technical Education, Delhi, India
- Senior executive leadership program from Havard Business School, Boston, Massachusetts, United States
- Previously associated with Everest Industries Limited and Safal Building System Limited

PUSHPENDRA KUMAR BANSAL
Chief Financial Officer

- Bachelor's degree in commerce from Ajmer University, Rajasthan, India and has been admitted as a fellow of the ICAI
- Previously associated with Action Construction Equipment Limited, Omax Autos Limited, Jakson Limited and Microtek International Private Limited

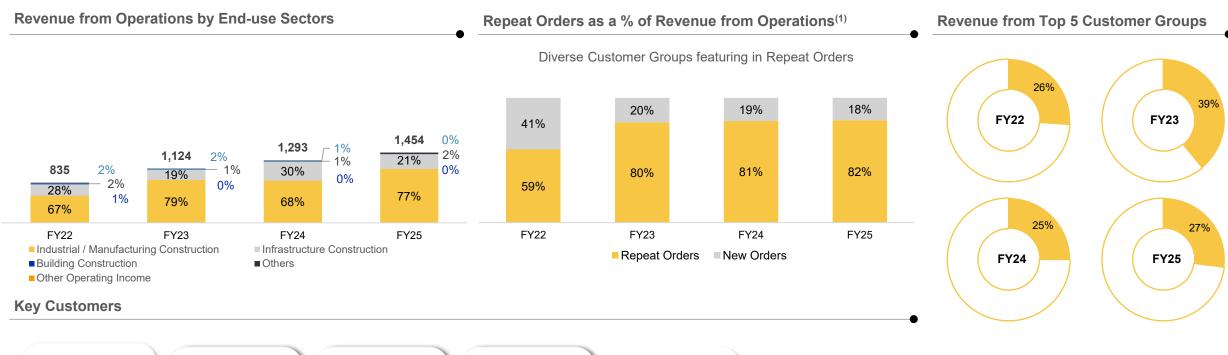

NIDHI GOEL
Company Secretary and
Compliance Officer

- Appointed as the Company Secretary on April 24, 2006 and as the Compliance Officer on January 15, 2024
- Holds Bachelor's degree in Commerce (Honours) from the University of Delhi, New Delhi, India
- Admitted as an associate of the Institute of Company Secretaries of India

Diverse Customer Base and Long-standing Relationships with Key Customers

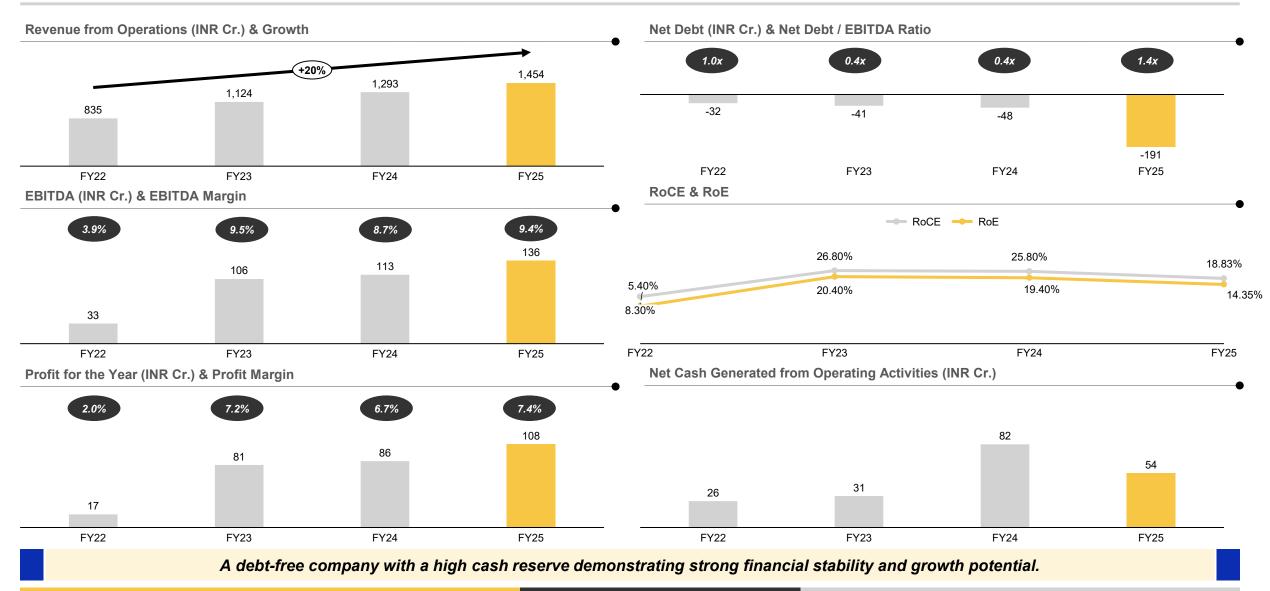

3 of top 5 Customer Groups have been associated with our Company for over 5 years⁽³⁾

Considering the critical nature of the use cases of PEBs, customer standards, requirements and required service levels are stringent and accordingly, consider the quality, durability and reliability of PEBs as essential to maintaining customer relationships

Debt-free company with high cash reserves and strong financial performance.

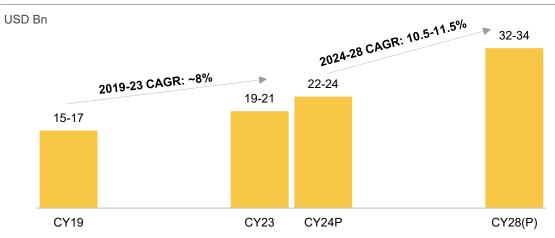

Industry Overview

Global Pre-engineered Steel Buildings Market - Overview

Global Pre-engineered Steel Buildings Market

Key Growth Drivers

The industrial and commercial sector, the mainstay of the global PEBs market, is expected to drive demand for pre-engineered steel buildings

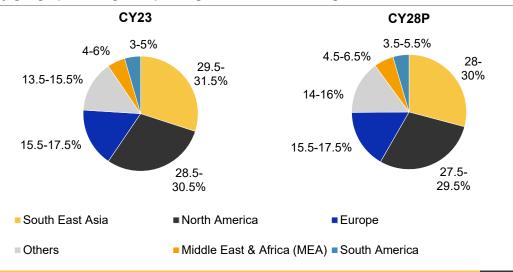

Increasing investments in public infrastructure, growing urbanisation and increasing awareness of benefits of pre-engineered construction vis-à-vis the traditional onsite model

Increasing awareness regarding modern off-site construction techniques as well as rising demand for green buildings globally

Key geographies in global pre-engineered steel building in CY23 and CY2028P

As of 2023, South-East Asia region had the largest share of pre-engineered steel building at 29.5-31.5%, followed by North America at 28.5-30.5%

Key Factors

Rapid industrialisation, urbanisation and the high adoption rate of advanced construction practices

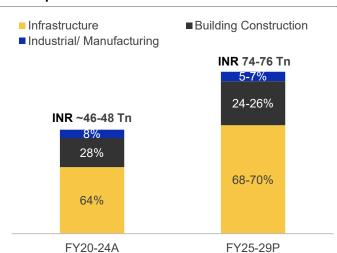

Tourism and ecommerce sectors are expected to boost demand for commercial and industrial structures such as warehouses, restaurants, hotels, etc.

Indian Construction Sector - Overview

Breakup of the Domestic Construction Sector

Growth Drivers

Increased Urbanisation

- Increased demand for affordable housing
- Better public infrastructure connectivity

Smart City Mission

Smart Cities Mission to develop 100 smart cities across India

Growing Investments in Renewable Energy

 Surge in the construction of solar & wind power projects

Increased Spending on Warehousing

 Rapid growth of the e-commerce sector, leading to a surge in demand for efficient warehousing & cold storage facilities

Favourable Government Initiatives

✓ Various initiatives have led to an increase in capex investments

Major Government Initiatives

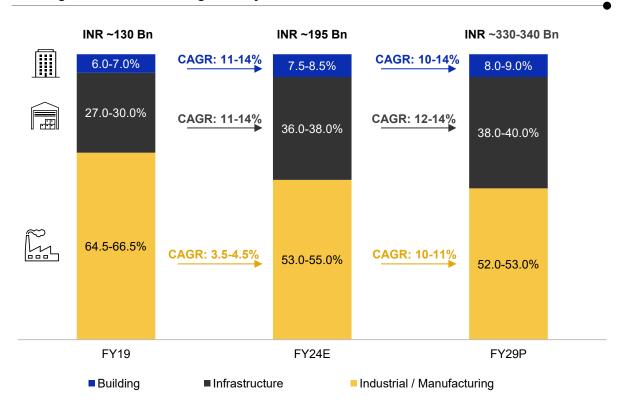

| Initiative | Overview |
|-----------------------|--|
| PLI SCHEME | ✓ Boost domestic manufacturing, attract investments and enhance exports by offering incentives ✓ Financial limits of INR 1.97 Tn for implementation across 14 sectors ✓ The scheme will also provide a fillip to the Industrial sector |
| NATIONAL STEEL POLICY | ✓ Aims to increase per capita steel consumption to 160 kgs by 2030 ✓ Aims to boast steel consumption in infrastructure sector and is expected to positively impact PEBs |
| NIP | ✓ Projected infrastructure investment of around INR 111 Tn over FY20-25 ✓ 9,288 projects with a total investment of more than INR 108 Tn |

| Initiative | Overview |
|--|--|
| PRADHAN MANTRI AWAS YOJANA - URBAN (PMAY-U) | ✓ Housing for all initiative with fast-paced execution of ~0.95 Mn units in FY24 |
| ATMANIRBHAR BHARAT ABHIYAN | Strong emphasis on infrastructure development, including roads, highways, bridges, airports and urban projects |
| URBAN INFRA PROJECTS | ✓ Strong growth due to urban infra such as AMRUT, Smart Cities Mission and the implementation of metro projects |
| SAGARMALA | √ 839 projects at an estimated cost of ~INR 5.8 Tn have been identified to promote port-led development |
| BHARATMALA PARIYOJANA | √ 34,800 km of National Highway Length planned for Phase 1, with 76% awarded for construction and INR 4.23 Tn spent till Dec 23 |

India's Pre-engineered Steel Buildings Market - Overview

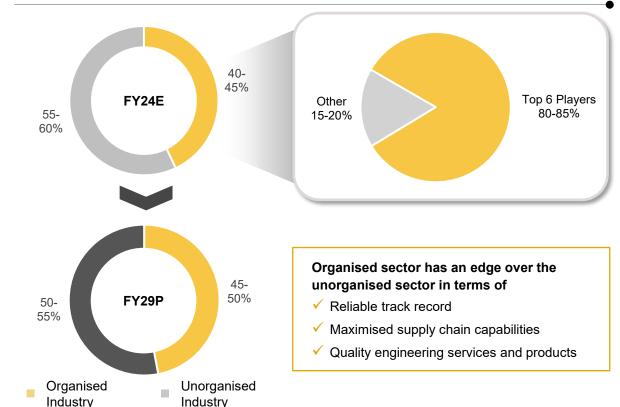

Pre-engineered Steel Building Industry in India

- ✓ The industrial sector's share in the PEB market is led by higher penetration in the automobile, cement and oil & gas markets amongst others
- ✓ Infrastructure segment is growing at a faster rate led by increased adoption of PEBs in warehouses, cold storage facilities and data centers, power plants, aircraft hangers and railway yards
- ✓ The growth in the building sector share will be led by growing adoption of preengineered steel buildings

Organised Sector Remains Superior to Unorganised Sector

Large, organised players grow at faster clip than overall pre-engineered steel building industry

India's Pre-engineered Steel Buildings Market - Growth Drivers

Low share of pre-engineered construction in overall construction indicates high growth potential

Share of pre-engineered construction in overall construction

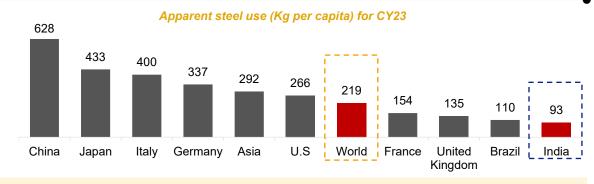

■ Pre-engineered Construction

Conventional Construction

Low share of PEBs in India combined with the increasing of awareness of benefits of pre-engineered buildings over RCC, provides a substantial growth potential

Low steel consumption in India

Domestically Manufactured Iron & Steel Products (DMI&SP) policy for promoting Made in India steel for Government procurement

Shift from RCC to PEB due to growing awareness of preengineered structures

- Helps in expediting the project timelines and more sustainable due to less wastage
- Expected to serve as a catalyst for the growth of pre-engineered structures in the construction industry

INDUSTRIAL

Inclusion of the PLI scheme in the capex investments

Increasing popularity of green and sustainable buildings

Construction investments in Industrial, Oil & Gas sectors

Increasing popularity of green and sustainable buildings

- ✓ PEBs support deconstruction and reconstruction, enabling the building components to be reused or recycled
- ✓ Growing shift of logistics players towards green logistics

INFRASTRUCTURE

Growing demand from warehouses and cold storage

Increase in the demand of data centres India

Growing focus on renewable energy capacity additions

Rise in government-led innovative construction projects

Policy & regulatory factors will play a crucial role in shaping the demand, growth and adoption of prefabrication and preengineering in the construction sector

BUILDING

Low share of pre-engineered construction in building construction (residential + commercial + non-commercial)

Increasing awareness of PEBs in India

Rise in government-led innovative construction projects

Pre-engineered Steel Buildings - Advantages and Cost Savings

Advantages of Pre-engineered Steel Buildings over Traditional Construction

TECHNICAL DIFFICULTIES AND SHORTAGE OF LABOUR IN TRADITIONAL CONSTRUCTION

- ✓ Majority of the construction is done in controlled factory environments, reducing the need for on-site labour
- ✓ Achieves economies of scale with improved manufacturing

MORE SUSTAINABLE

- ✓ Causes less disturbance to the construction site's surroundings
- ✓ Reduces the carbon footprint due to standardised processes and streamlined procedures

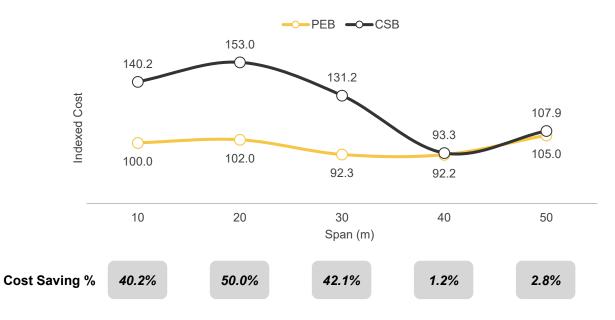

FASTER CONSTRUCTION TIMELINES & COST OPTIMISATION

- ✓ Allows simultaneous preparation of the foundation at the construction site
- ✓ Helps accelerate project timelines and allows cost optimisation

Cost Saving

✓ Cost-saving advantages of PEB increases as the span of the structure increases till an inflection point, after which cost savings diminish

✓ Significant inflection point at 50m span, where the cost-saving benefit of PEB diminishes considerably, offering only marginal savings of approximately 2.8% compared to conventional streel structures

Low share of pre-engineered buildings in India combined with the increasing of awareness of benefits & cost savings in pre-engineered buildings over RCC, provides a substantial growth potential of pre-engineered buildings in India

Comparison Between RCC and Pre-engineered Steel Construction

| Parameter | Traditional RCC Construction | Pre-engineered Steel Construction |
|-------------------------|--|---|
| MAJOR COMPONENT | ✓ Concrete and reinforced steel bars | ✓ Steel and metal accessories |
| RAW MATERIALS USED | ✓ Cement, steel, sand, bricks, etc | ✓ Steel, anchors, channels, coils etc |
| © CONSTRUCTION LOCATION | ✓ Completely on site | Manufactured in controlled environments such as factories, only assembling of structures happens onsite. |
| CONSTRUCTION TIME | ✓ Takes more construction time than PEB construction | √ 40%-50% lesser time than RCC as majority of components are manufactured in a controlled environment and only assembling of parts takes place on site |
| MANPOWER | Demands a substantial workforce since the entire construction process, including moulding and shaping concrete, occurs on-site | Approximately 25% lesser than the conventional method as only assembling of the final structure happens on site |
| APPLICATIONS | ✓ Residential as well as industrial; even infrastructural | Largely industrial and warehouse or shed requirements at infrastructure setup |
| EFFECT ON ENVIRONMENT | ✓ More adverse environmental impact owing to the generation of significant waste and landfill mass during on-site construction activities | Owing to the streamlined nature of construction, it minimises its environmental footprint by minimising wastage, less air pollution |
| MODIFICATIONS | ✓ Challenges in modifications once the concrete has hardened, making alterations complex & costly | Offers flexibility as modifications involve changing the assembly of prefabricated components, adjusting to make it more manageable & cost- effective |
| COST EFFICIENCY | ✓ highly labour-intensive work in an uncontrolled environment, which makes it more costly than PEB structures | ✓ Comparatively lighter, requires less material, needs shorter construction time, less labour on-site, contributing to lower cost |

Growth Strategies

Growth Strategies

Capitalize on industry tailwinds, including through proposed expansion and upgradation of our Manufacturing Facilities

- ☐ The industry growing at a 11.0-12.0% CAGR between FY24-29
- Government policies to create a technologically advanced & globally competitive steel industry
- ☐ Upgradation of Kichha Manufacturing Facility, Pantnagar Manufacturing Facility and Tamil Nadu Manufacturing Facilities
- Proposes to set-up planned Gujarat Manufacturing Facility

Expanding geographical footprint to cater to strategic markets in India and overseas

- ☐ Enhance manufacturing presence in South, Eastern India and Western India
- □ Proposes to expand sales & marketing team, including to service customers in Maharashtra
- □ Evaluating expanding sales & marketing network to Central & West Asia, South East Asia & Africa
- Evaluating strategic partnerships in India and Overseas

Expand customer base and increase sales to existing customers

- ☐ Intends to rely on existing customer relationships to generate Repeat Orders
- Proposes to expand sales, marketing and business development teams
- ☐ Intends to focus on customers engaged in electric vehicle manufacturing, renewable power & data centre
- Intends to foray into multi-storey commercial buildings, residential buildings and institutional buildings

Continue to invest in our technology infrastructure to enhance in-house design and engineering and manufacturing capabilities and thereby improve operational efficiencies

- ☐ Intends to continue to invest in technology infrastructure
- □ Aims to identify opportunities to implement manufacturing improvements & dedicate design & engineering resources
- ☐ Intends to rely on investment in design & engineering capabilities
