Sub.: Revised Investor presentation on the unaudited financial results for the quarter ended on 31st December, 2025

Ref.: Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”).

Dear Sir/Madam,

Pursuant to above referred Listing Regulations, please find enclosed, a copy of the Revised Investor Presentation on the unaudited financial results for the quarter and nine-months ended on 31st December, 2025.

This Investor Presentation may also be accessed on the website of the Company at <https://www.carraraindia.com/investors/investor-information/investor-presentation>.

You are requested to take this intimation on record.

Thanking you,

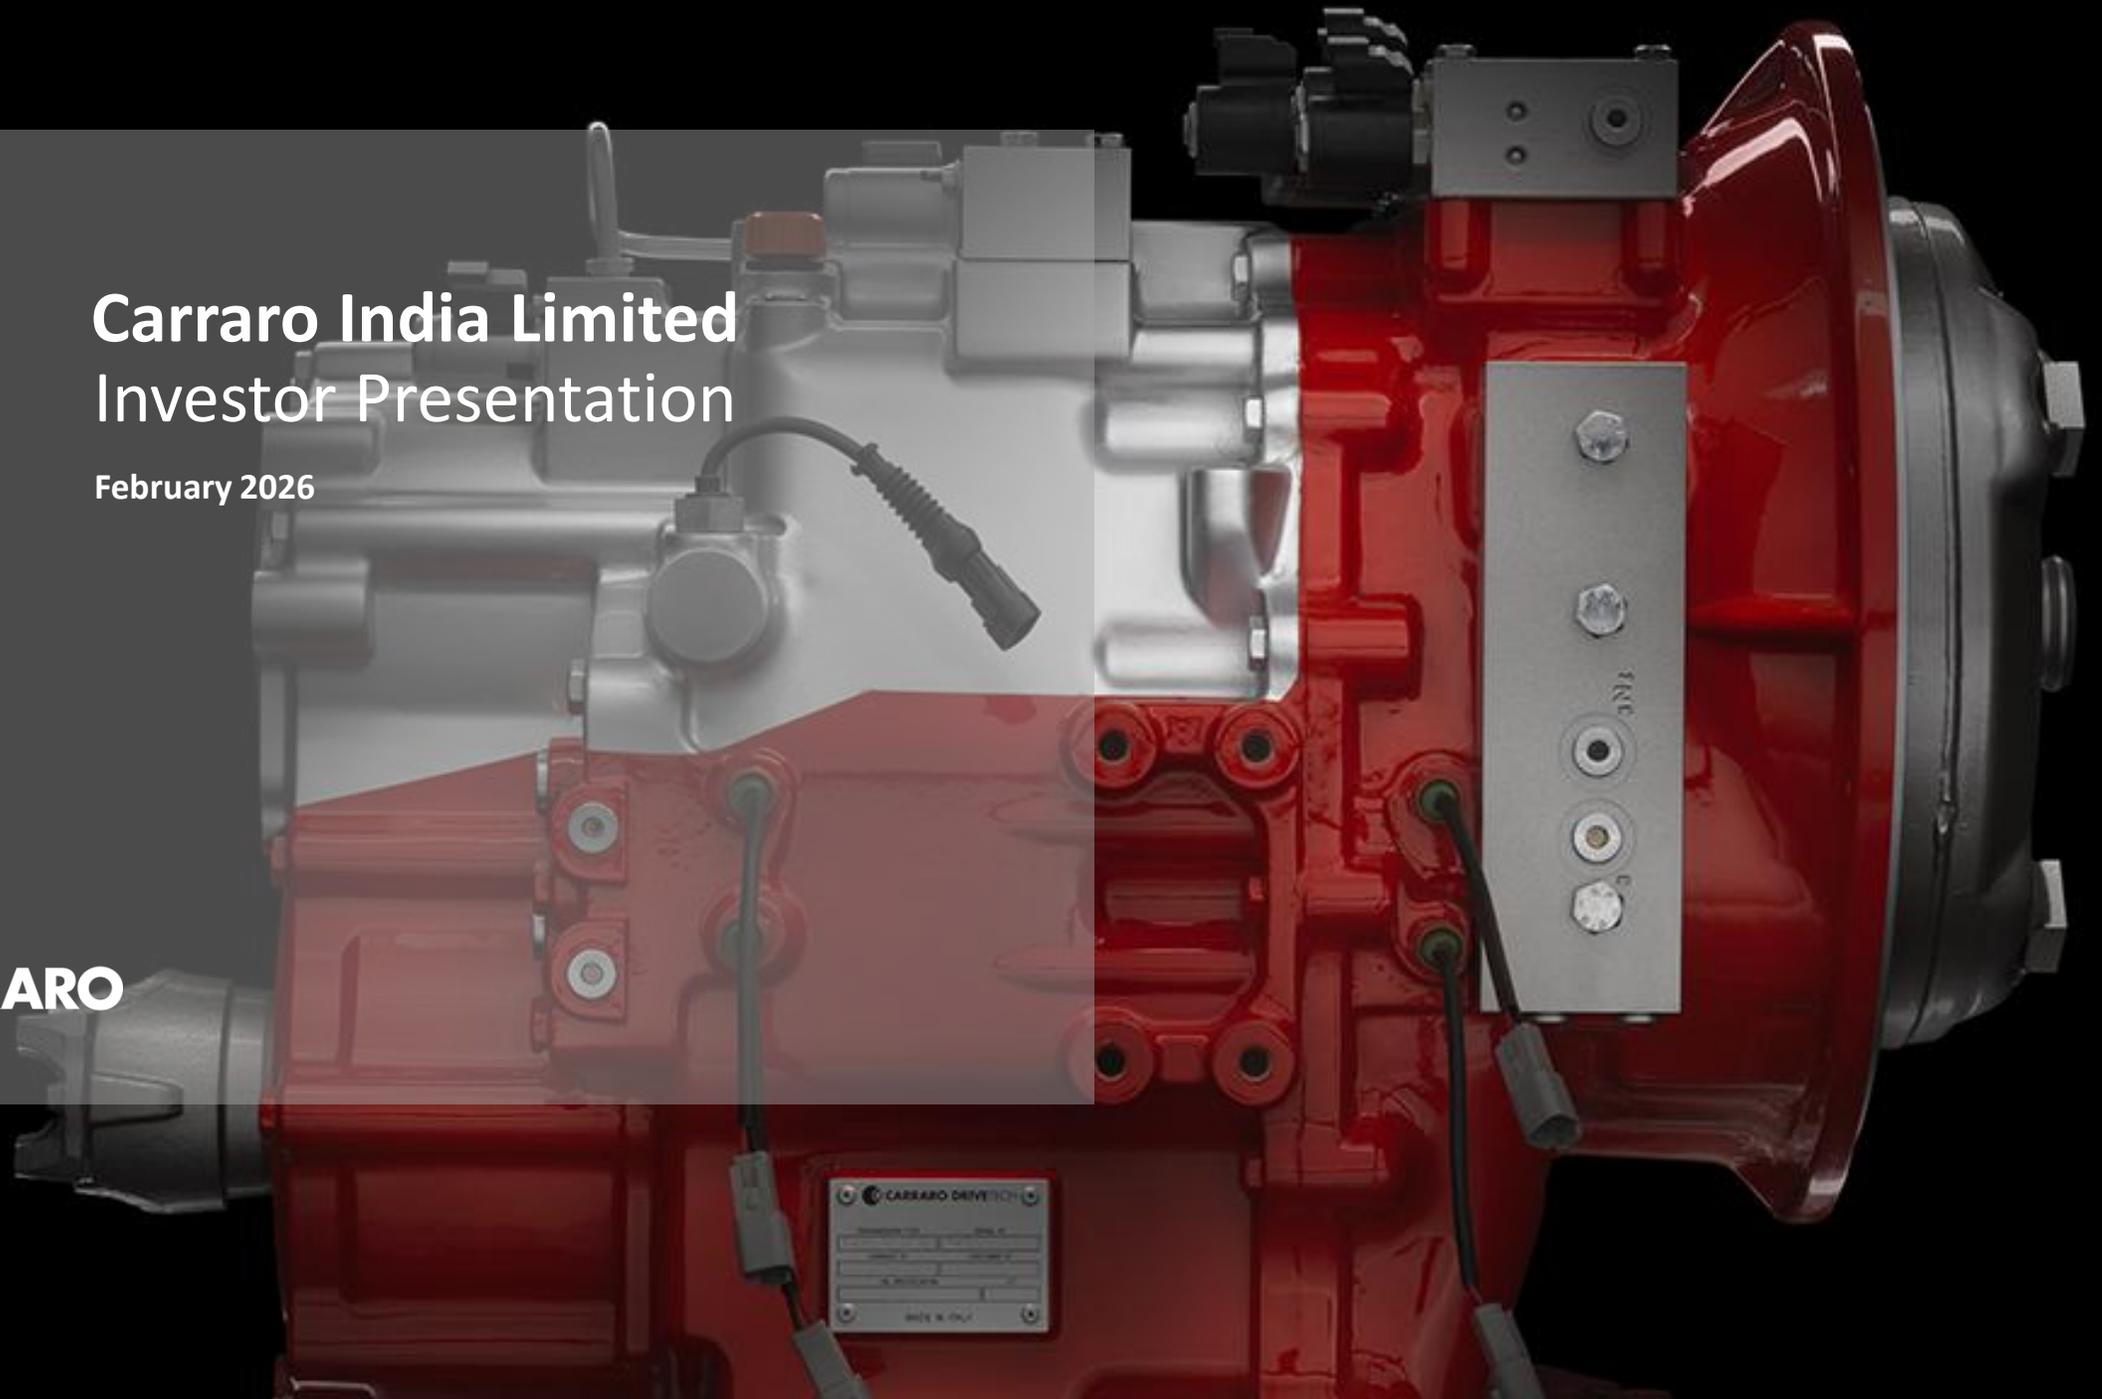

Yours faithfully,
For Carraro India Limited

Mohith Kumar Khandelwal
Company Secretary and Compliance Officer
Membership No.: F11243

Encl.: As above.

Carraro India Limited Investor Presentation

February 2026

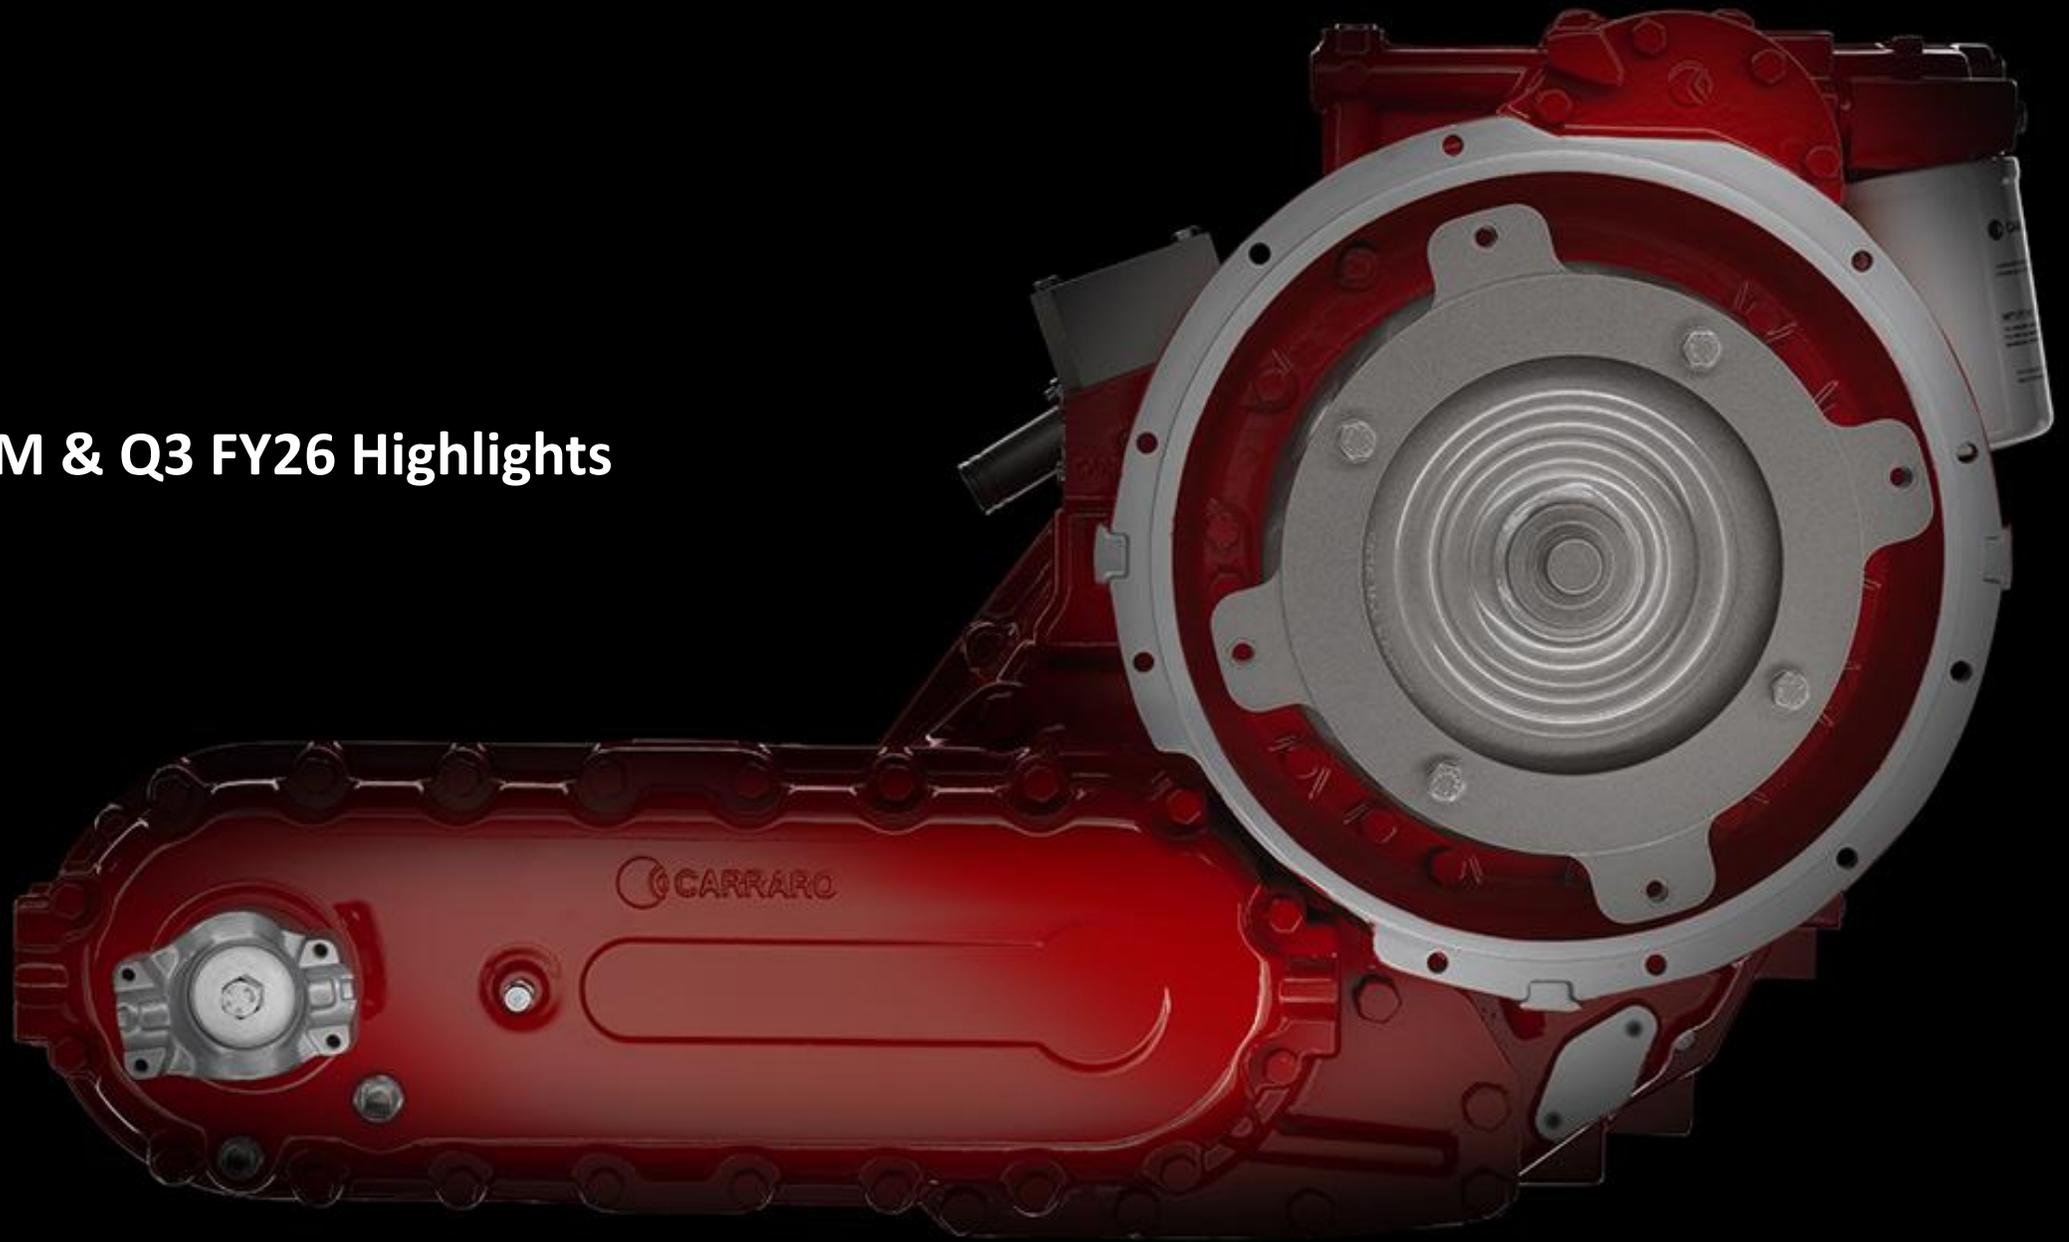

Safe harbour

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Carraro India Limited (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain forward-looking the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward-looking statements concerning the Company’s future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward-looking statements become materially incorrect in future or update any forward-looking statements made from time to time by or on behalf of the Company.

9M & Q3 FY26 Highlights

Management Commentary – 9MFY26

Commenting on the performance Dr. Balaji Gopalan, Managing Director said:

“For nine months FY26, Carraro India delivered a strong and encouraging performance. Revenue from operations grew 21% YoY, supported by healthy momentum across both domestic and export markets. Domestic revenues increased 17% Year on Year, led by robust demand for 4WD axles in the agriculture segment, while exports grew 29% Year on Year, driven by higher offtake of Tele Boom Handler (TBH) axles.

In line with our guidance, we continued to deliver strong volumes, reinforcing our confidence in the sustainability of our operating performance. Profitability improved meaningfully, with EBITDA up 28% YoY, supported by operating leverage, disciplined cost management and execution efficiencies, even as product mix remained dynamic across quarters.

Our engineering services business gained further traction, with revenues of INR 50 million in Q3 FY26 and INR 100 million in 9M FY26, supported by steady customer enquiries and progress in key development programmes, including e-transmissions for electric agricultural tractors, CVT pilot units, and new prototype development.

With positive off-highway market sentiment and strong execution momentum, we remain confident of scaling Carraro India beyond our earlier guidance in revenues by FY30, surpassing our earlier ambition, while continuing to focus on disciplined execution and value-driven growth.

On the manufacturing front, we strengthened capability through key equipment additions to improve throughput, flexibility and quality. Importantly, the Board has approved a capex outlay of INR 623 million to expand axle capacity from 1,34,028 to up to 1,54,160, to be completed over the next 18 months, funded through a mix of internal accruals and debt. This expansion is aligned with our strong demand outlook, with the plant currently operating at over 90% utilization.

We also inaugurated our first Authorized Service Centre in Faridabad and remain on track to establish four centers across India in 2026, strengthening our aftermarket and customer support ecosystem.

Carraro India is not just performing – it is transforming, innovating and leading across markets and technologies.”

Key Highlights

Key highlights for quarter & nine months ended December 2025

Tele-boom Handler (TBH): Construction Equipment:

- Ramp-up of the new range of Tele Boom Handlers (TBH) axles for a major international OEM continued during the period under review, with healthy traction and strong visibility of sustained growth in the coming quarters.
- New Projects with a domestic customer (global and Indian) for the Tele Boom Handlers (TBH) family of axles is progressing well & remain on track.

Backhoe Loader (BHL) transmission & axles:

- Sales of drivelines to CE Indian customers increased by approx. 4% during the first nine months, while CE market declined by -5% over the same period
- Sales of drivelines to BHL customers in the domestic market increased by approx. 5% over the same period of 9 months, significantly better than the broader market decline of ~12%.

Engineering services business:

- Receiving several enquiries for higher HP and technology configurations.
- Signed an engineering services agreement worth INR 17.5 crore with Montra (TICMPL) for industrialization and supply of e-transmissions from CIL; the project is progressing well.
- Efforts to acquire additional engineering services business are currently in progress. We expect revenue contribution from this segment to grow year on year.

Capex:

- In 9M FY26, capex of INR 304 Mn deployed to support new telescopic handler's axle production, high-performance new transmission range for agricultural applications, and to grant incremental capacity for FY26 sales.

Domestic AG 4WD axle & Gears business update:

- The shift from 2WD to 4WD tractors has accelerated following the GST reduction, which has nearly equalized the pre-GST price of 2WD tractors with the post-GST price of 4WD models. The domestic 4WD axle market has shown strong revenue growth in the first nine months. In response, CIL is ramping up capacity to sustain the anticipated increase in demand in the coming years.
- During 9M FY26, the gears business remained subdued. While near-term growth is expected to be limited, efforts are underway to strengthen the business, supporting a gradual improvement over the coming quarters.

Agri higher HP Transmission:

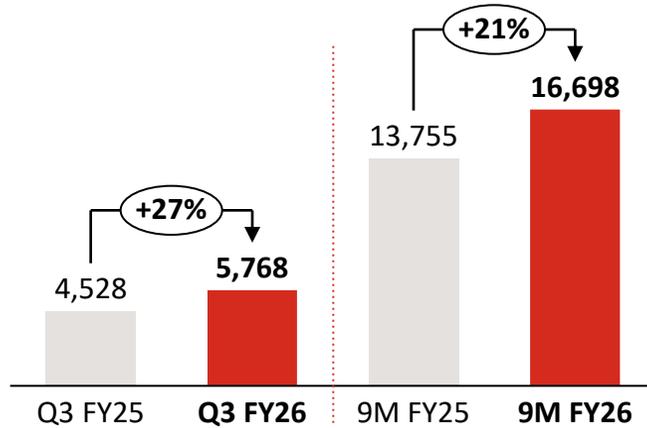

- Export market gradually recovering, which could positively impact transmission offtake for high HP tractors.
- A leading tractor OEM showcased a tractor equipped with Carraro's higher HP driveline at Agritechnica in Hanover, Germany in Nov 2025.

Export business Update: (Both direct & indirect):

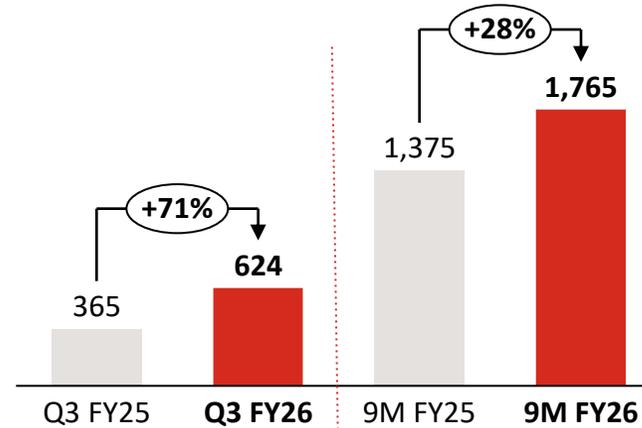

- Exports delivered a strong growth of 29% year-on-year, led primarily by sustained momentum in construction equipment, particularly from TBH as well as export of BHL.
- While indirect exports of agricultural drivelines remained soft, resilient domestic demand helped maintain our overall volume trajectory.

9M FY26

Revenue from Operations:

- Stood at INR 16,488 million in 9M FY26, up 21% year on year, driven by domestic volume growth and a healthy recovery in exports.
- **Domestic Business:** 17% year on year growth, led by strong demand for 4WD axles in agri segments.
- **Export Business:** 29% year on year growth, driven by strong demand for construction equipment, mainly by TBH.
- Although indirect exports of agricultural drivelines remained soft, healthy domestic demand has helped partially offset this decline.

Other Income

- Of the total other income, about INR 59.8 million pertains to the reversal of provisions previously made for vendor payments

EBITDA:

- In line with our past guidance, profitability improved meaningfully during the period, with EBITDA growing 28% year-on-year, supported by operating leverage, disciplined cost management, and execution efficiencies — even as product mix remained dynamic across quarters.

About us

Carraro Group: Overview

The Carraro Group: Over 90 years in Action
Headquarters in Italy

Special tractors for third-party brands

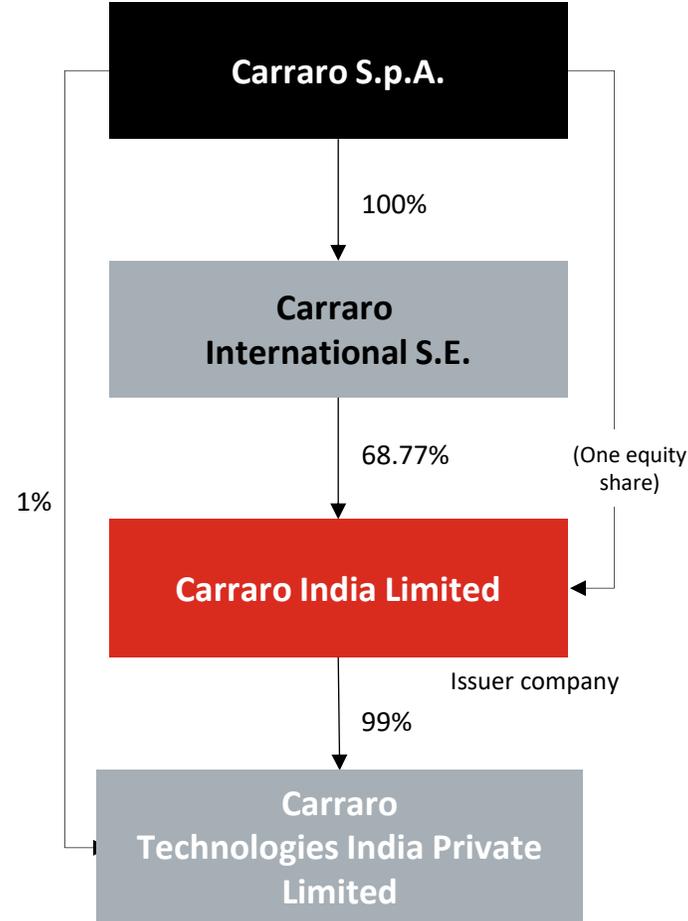

Transmission systems for agricultural and construction equipment for off-highway vehicles

Gears for diverse sectors (automotive, trucks, agricultural and construction vehicles)

Carraro India - Strong Synergy with the Carraro Group

- ✓ Collaboration with Carraro Group's global R&D centers for knowhow and technologies
- ✓ In-depth knowledge of OEM requirements acquired through hands-on experience in various product sectors
- ✓ Export to some of international customers through Carraro Drive Tech Italia S.p.A
- ✓ Leverage support of Group's relationship with international suppliers
- ✓ Leverage future-ready technologies developed by the Group to capture new applications

Carraro India: Overview

Presence of 25+ years

as an independent Tier-I solution provider for axles, transmission systems, gears and other related components

- **Leading sole supplier** in the non-captive segment of agriculture tractors transmission market¹
- Market leader with **60-65% market share** in the non-captive construction vehicle transmission market¹

Note: 1. Source: Markets and Markets report (As of CY23)

Growth Strategies

Huge Industry Opportunities:
Poised for significant growth

Customer centric & Customized solutions:
Co-partner

Future ready products for Emerging Technologies :
Product portfolio expansion

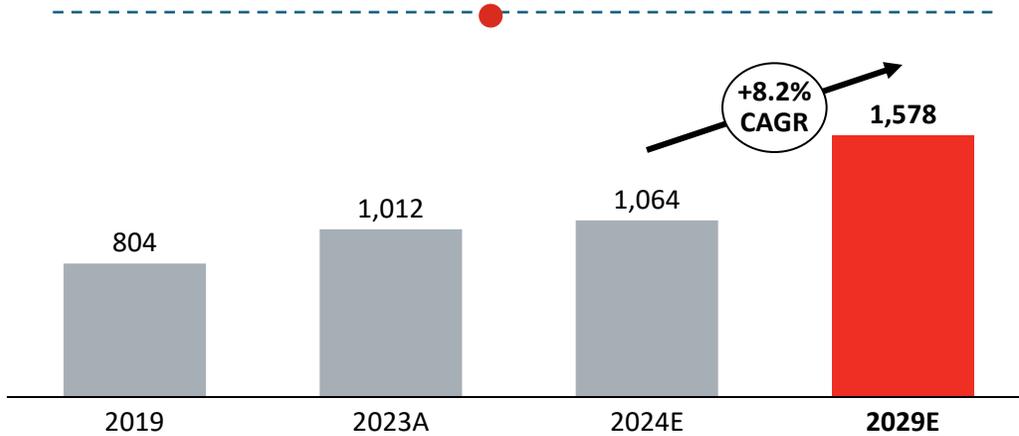

Critical and Complex Driveline Components:
Competitive edge

Diversifying & Localizing Supplier base:
Reducing cost of production

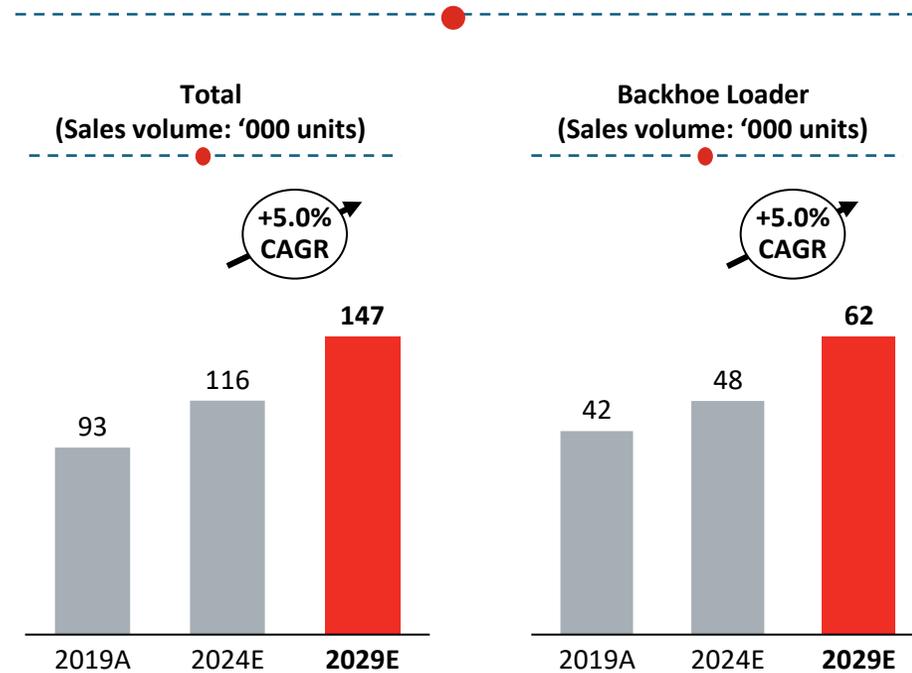

1. Huge Industry Opportunities

Total Indian Agriculture Tractor Market (Sales Volume: '000 units)

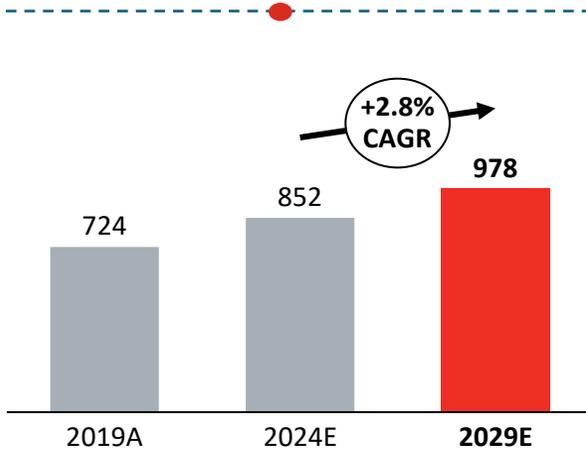

- India has the world's largest tractor market, consuming 35-40% of all tractors sold globally
- Demand is expected to improve on the back of increasing adoption of farm mechanization

Total Indian Construction Vehicle Market (Sales Volume: '000 units)

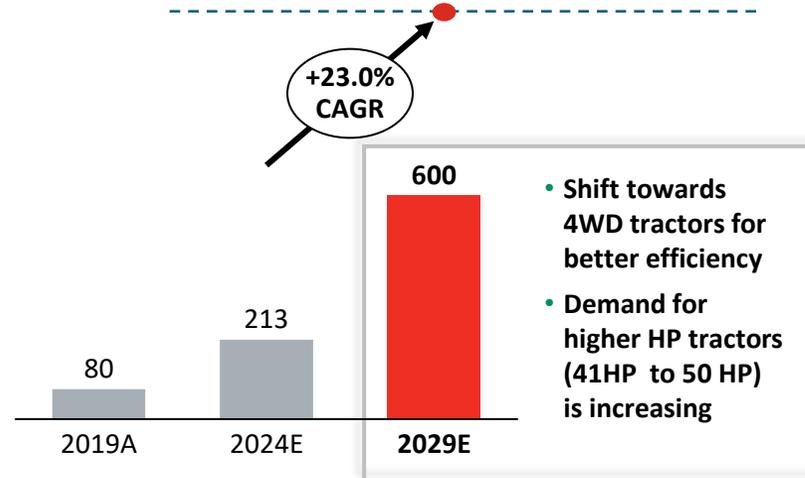

- India is Third-Largest Market for Construction Vehicles
- Demand is expected to improve on the back of Rapid urbanization and infrastructure development
 - Compact construction vehicle demand is expected to grow at higher rate

2WD Indian Tractor Market (Sales volume: '000 units)

4WD Indian Tractor Market (Sales volume: '000 units)

- Shift towards 4WD tractors for better efficiency
- Demand for higher HP tractors (41HP to 50 HP) is increasing

Demand towards larger axles and transmissions with higher power and higher technological specifications will result into higher volume growth

2. Critical and Complex Driveline Components

Leading Independent Tier 1 Supplier of Axles and Transmission Systems

Early-mover Advantage

Deep understanding of the Indian market

Longstanding Relationships with Customers

One-stop shop tier 1 OEM supplier offering customized solutions

High Switching Costs

High switching costs due to product customization

Infrastructure

High investment required for technology and manufacturing plants

Market Share¹

Indian agricultural tractor 4WD axles, >40HP volumes (non-captive)

+50%

Indian construction vehicle transmission volumes (non-captive)

+60%

Leading sole supplier in the non-captive segment of agriculture tractors transmission market¹

Comprehensive offerings providing seamless, end-to-end experience to customers¹

Market leader in transmission systems for tractors up to 150HP and 4WD capabilities⁽¹⁾

Carraro Group's **In-depth understanding of OEMs' needs** due to presence in product sector

3. Customer Centric & Customized Solutions

Innovation for one of the large OEM in Agricultural & Construction Vehicles

Motor grader < 100 HP

- Worked with one of the large OEM from concept stage to launching a product to address the demand of motor graders with less than 100 HP
- Year-long study of Indian roads and its infrastructure
- Product definition after R&D, prototyping and more than six months of field validation
- ✓ *Innovatively proposed a modified version of backhoe loader drivelines to produce a more cost-efficient solution*

Haulage tractors with lower cost of ownership and performance stability

- Worked with Mahindra to develop a cost-effective driveline for chassis-based tractor
- ✓ *Use of semi-automatic transmission instead of fully automatic with rigid rear axle*
- ✓ *Recirculating braking cooling system by using transmission as oil reservoir*

Innovation for one of the large OEM in Construction Vehicles

- Supported one of the large OEM in construction vehicles in its business growth over the years
- **Key Products - Backhoe loaders and loader series**

- Transmission (TCB80 2WD, TCB80 4WB and TCB80 SPS)
- Axles (Rear rigid axle 28.32 and 28.43, front steering axles 26.22)

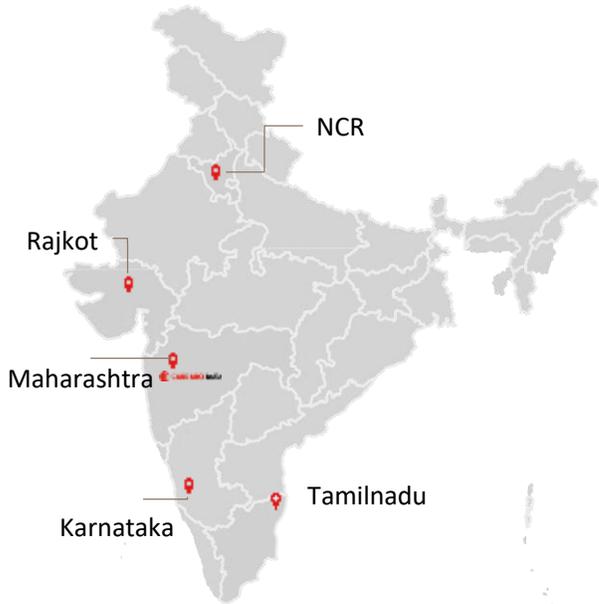

Proven track record of expanding the Carraro's product portfolio and proprietary innovations, increasing sales growth in emerging and developed markets

4. Diversifying & Localizing Supplier base

Geographical Spread of Key Suppliers in India (As of Dec'25)

Domestic Supplier base 180

Quality, cost, delivery and development

Supply chain localization

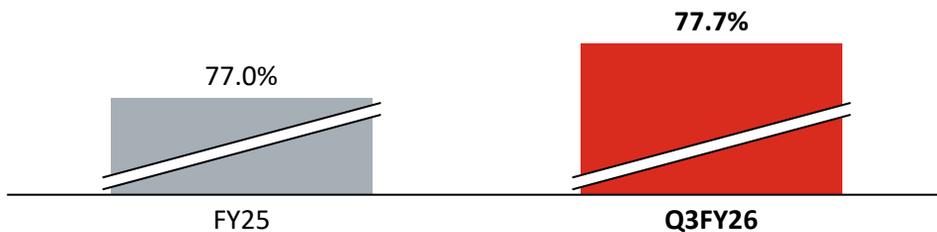

Minimum 2 suppliers per component supplier

Value analysis and engineering consulting

Total Supplier base 246

Continuously Increasing localization of Raw materials

Initiatives to Foster and Maintain Stable Supplier Relationships

Rapid improvement workshops to ensure quality of suppliers

Long-term agreements

Periodic engagement with suppliers

Formalized partnership with suppliers

Increase share of localization

Improve efficiencies of our supply chain

Vertical integration of key components of gearboxes

At least 2 suppliers for raw material to ensure supply

Avoid dependency on single source

Mitigate potential supplier concentration risk

Lower Production Costs

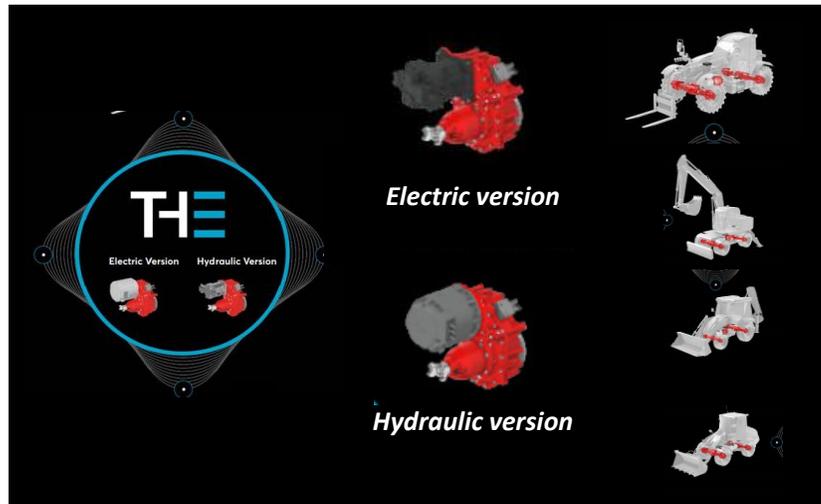

Optimize supply-chain logistics

Minimize lead times

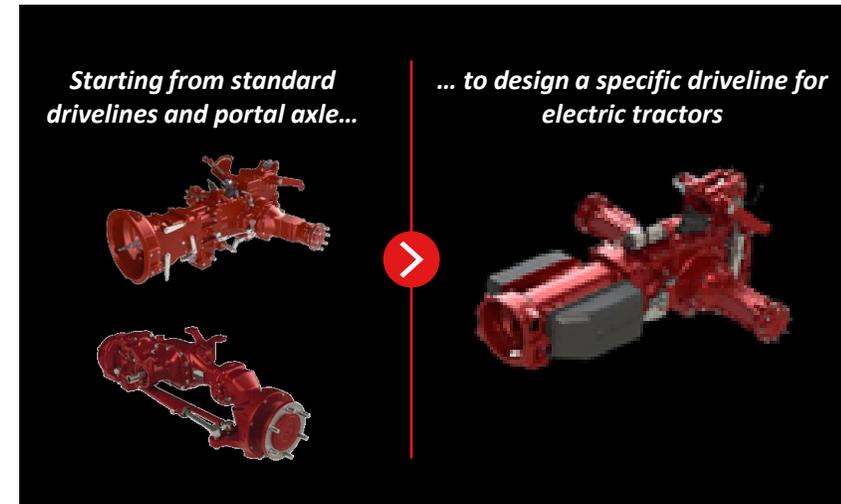

5. Future ready products for Emerging Technologies

...Positions Carraro India as an innovative player in the space with potential for collaboration in product development

Transmission-Hydrostatic-Electric

Transmission System for Electric Tractors

Develop future-ready solutions for emerging technologies (“THE” transmission for electric off-highway vehicles, higher HP tractor transmissions)

Provided engineering services to Carraro Group’s Luxembourg R&D center and customer in developing E-trans

Enabled Carraro India to internalize and develop specific technical competences on electric projects
