I have with me Mr. Rahul Sharma, Mr. Amar Deep Sharma, Mr. Deepanshu and CFO, Mr. Jitender with us. So, I will ask Mr. Deepanshu to brief you all about our half-yearly data. And post that, I will take you through our future projections of the business.

Deepanshu: Hi, everyone. In the half-year ending on 31st September 2025, we secured a turnover of INR17.60 crores and along with the other income, it's approx INR17.78 crores with a PBT of INR98.28 lakhs. In last year, in audited accounts, we achieved a profit before tax of INR9.12 crores approx with a profit after tax of INR6.70 crores. And corresponding to the half-year ending on 30th September 2024, we achieved a turnover of INR28.42 crores with a profit before

tax of INR2.23 crores and profit after tax same INR2.23 crores. So, this is the basic financial position of the company. Now, I would like to invite questions, answer session.

Moderator:

Sure, sir. Thank you so much. We will now begin the question and answer session. Vishal sir, you can proceed with the projections inside. Over to you.

Vishal Prakash:

Sure. So over and above what our finance team has shared, the data till 31st September, 2025, I wish to inform everybody that we already have an order booking of around INR74 crores for this financial year, out of which we have already billed around INR18 crores. Rest is going to be billed in H2 and we are expecting an order worth of around INR30 more crores from different agencies, government agencies rather, which will be billing in this financial year.

In this financial year, we are eyeing that we'll be crossing INR90 plus crores and we'll be maintaining our PBT and PAT percentage compared to the last year. Out of these INR74 crores of booking, there is a significant order which we have received last week only that is worth around INR42 crores for us. That is a multi-year contract for 8 years starting from 2025, out of which INR42 crores, we'll be billing INR28 crores in this financial year before 31st March, 2026.

We are also expecting a couple of, I'll say, mission-critical projects of the Government of India, which will be billed within this financial year. We are also aspiring to become a premier partner to a company called Fortinet, which is a leader in the IT security domain across the world. So, we are already in the process of getting the certifications done for this particular premier certification of Fortinet. That's it from my side.

Moderator:

Thank you, sir. As there are no further questions, I would now like to hand the conference over to Ms. Geeta for closing comments. Please go ahead, ma'am.

Geeta Kumari:

Thank you so much, ma'am. Thank you, everyone, for joining us today and for your continued interest in our company. We appreciate the time you have taken to understand our performance strategy and future direction. Thank you so much and have a great day. You may now disconnect the call.
