# About the Report

This is the inaugural Annual Report of Schloss Bangalore Limited, parent company of The Leela Palaces, Hotels and Resorts. The Report reflects our commitment to long-term value creation, responsible growth and transparent governance. It provides a comprehensive view of our strategic priorities, operational performance, financial results and environmental and social impacts for the reporting year.

This report is designed to communicate how we create value over time for our guests, associates, shareholders, partners, communities and all other stakeholders.

## Reporting Principle

The non-statutory section of this report draws inspiration from the principles of the International Integrated Reporting Framework (IIRC), reflecting an integrated approach to communicating strategy, governance, performance and prospects. It balances both qualitative and quantitative disclosures that are material to our operations and stakeholder expectations.

The statutory components of this report — including the Directors' Report, Management Discussion and Analysis (MDA) and Corporate Governance Report — comply with:

- The Companies Act, 2013 and applicable rules
- SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015
- Applicable Secretarial Standards issued by the Institute of Company Secretaries of India
- Financial statements are prepared in accordance with Indian Accounting Standards (Ind AS)

## Reporting Period

This Annual Report covers the financial year from April 1, 2024 to March 31, 2025 and provides insights into our business environment, risks, strategy, performance, governance and future outlook.

## Stakeholder Engagement

We believe that strong, transparent and consistent engagement with stakeholders is key to sustaining trust and long-term growth. Our key stakeholders include:

- Investors and Shareholders
- Guests and Loyalty Members
- Employees and Associates
- Local Communities
- Value Chain Partners
- Government and Regulatory Authorities

We are committed to understanding and addressing their evolving expectations through active dialogue, feedback mechanisms and collaborative initiatives.

## Feedback

We invite all stakeholders to share their feedback, suggestions and questions to help us strengthen our approach to transparency, communication and impact.

# *From the CEO's Desk*

//

The Leela has always stood for purpose beyond hospitality. We are custodians of a legacy deeply inspired by India's rich heritage, reinterpreted through a contemporary lens. This distinct positioning continues to be our strength.

## *Dear Shareholders,*

It is with great pride that I present the inaugural Annual Report of Schloss Bangalore Limited, an inflection point in The Leela's journey and a defining year of performance and strategic transformation. FY 2024-25 was a landmark year that saw our return to profitability, a stronger balance sheet and our successful listing in June 2025, marking our debut as a publicly listed entity. More importantly, it reaffirmed our commitment to creating enduring value for our shareholders, guests, partners and the communities we serve through a luxury brand that is rooted, refined and responsible.

The Leela has always stood for purpose beyond hospitality. We are custodians of a legacy deeply inspired by India's rich heritage, reinterpreted through a contemporary lens. This distinct positioning continues to be our strength. At a time when the global traveller seeks experiences that are meaningful, The Leela has emerged as one of the most admired Indian luxury brands. Our ability to combine authentic storytelling, intuitive service and a sense of place across every touchpoint sets us apart and drives our ambition forward.

## **The Landscape is Evolving and So are We**

India stands as one of the most dynamic and promising frontiers in global luxury hospitality. Of the 170,000 branded rooms in the country, just 29,000 are in the luxury segment. With demand in this category growing at 14% annually and supply expanding at only 9%, the opportunity for brands with authenticity, depth and operational excellence is immense.

The Leela is poised to lead this transformation. Our singular focus on luxury, presence in distinctive

destinations and commitment to immersive, culturally resonant experiences give us a clear advantage. Our RevPAR stands at 1.4x the Indian luxury average and nearly 3x the broader industry, a strong reflection of the power of our brand and the trust we have built with our guests.

We are shaping the future with purpose. Every investment is deliberate, anchored in quality, led by performance and guided by our long-term vision to elevate Indian luxury to a global benchmark.

## A Defining Year

The Leela delivered its strongest performance to date in FY 2024-25. We returned to profitability for the first time since our acquisition by Brookfield in 2019 where we reported a positive profit after tax (PAT). With an ADR of INR 22,545 and 67.9% occupancy, our RevPAR stood at INR 15,306. We delivered a consolidated net profit of INR 476.58 million and an EBITDA of INR 7,001.68 million with an EBITDA margin of 49.8%, which was also the highest in the Indian hospitality sector. This performance reflects not just premium positioning, but also our sharp focus on cost discipline and operational agility.

Food and Beverage remained a strong driver, contributing 34% to total income, driven by our experiential dining formats and modernised venues. Notably, non-room revenue accounted for 52% of total income, further demonstrating the breadth of our brand's impact.

Our IPO in June 2025 helped reduce adjusted net debt by over INR 23,402 million, improving financial flexibility, lowering interest burden and creating headroom for growth.

*We delivered a consolidated EBITDA margin of 49.8%, which was also the highest in the Indian hospitality sector. This performance reflects not just premium positioning, but also our sharp focus on cost discipline and operational agility.*

## Delivering Distinction, Deepening Trust

Our performance this year was a direct result of strategic clarity. We invested in enhancing guest experience, asset performance and cultural resonance - each aligned with our belief that service is an emotion, not a transaction. This belief is deeply rooted in the traditional Indian hospitality philosophy of Atithi Devo Bhava (Guest is God). Our mission is to offer luxury experiences defined by premier accommodation, exclusivity and personalised service, all inspired by the timeless ethos of Indian hospitality. Through this, we continue to strengthen our position as a world-class luxury hospitality brand.

Our Net Promoter Score (NPS) stood at 85 - well above the industry average of 76. Repeat business rose across leisure properties, a testament to rising guest trust and enduring brand affinity.

We continued to elevate key assets across the portfolio, with a focus on margin accretive initiatives. At The Leela Palace Bengaluru, we completed the redevelopment of the Maharaja Ballroom and retail arcade. In Udaipur, we added plunge pool villas, Arq at Pichola and additional inventory. Looking ahead, our focussed investments in F&B modernisation and the ARQ by The Leela Club in Chennai, Bengaluru and New Delhi are set to further drive non-room monetisation. Collectively, these initiatives have contributed to a rise in TRevPAR, with non-room revenues now accounting for 52% of the total.

Our asset-light strategy continued to gain traction, with managed assets contributing INR 698.20 million in management fees and 10% to consolidated EBITDA, affirming our ability to extend the brand with discipline, balancing capital efficiency with brand control and consistent guest experience.

## 13 Iconic Properties

Currently in operation, with 8 more in various stages of development across destinations that celebrate India's heritage and natural beauty.

## 85

Our Net Promoter Score (NPS) well above the industry average of 76

## Growth with Intention

Our growth strategy is rooted in thoughtful expansion, balancing scale with significance. Every new opening is chosen to enhance our brand story, diversify our revenue base and deepen our cultural connection.

We currently operate 13 iconic properties and have 8 more in various stages of development across destinations that showcase India's rich heritage and natural beauty — including Agra, Ayodhya, Ranthambore, Bandhavgarh, Sikkim, Srinagar and Mumbai. These upcoming additions will mark our entry into some of the country's most sought-after leisure, heritage, spiritual and wildlife destinations, as well as wellness retreats and service apartments.

In Mumbai, we will soon make our debut in the Bandra-Kurla Complex in partnership with Brookfield, entering India's most prestigious commercial district. With over 250 keys in the heart of the financial capital, the project is poised to set a new benchmark for contemporary urban luxury.

Beyond hotels, we are shaping the next chapter of Indian luxury. We are expanding into curated journeys that immerse guests in the culture, nature and spirit of India. We are also creating new ways to live and connect with the brand—through ARQ by The Leela, our invitation-only private club; branded residences in Mumbai; and purpose-built wellness retreats.

Together, these initiatives are transforming The Leela from a hospitality company into a multi-dimensional luxury ecosystem - one that inspires, engages and evolves with our guests across touchpoints.

## Sustainability with Substance

At The Leela, sustainability is integral to how we operate. In FY 2024-25, 55% of electricity consumed across our palace properties was sourced from renewables. With 18 MWp of installed solar and wind capacity, we avoided nearly 17,206 mtCO<sub>2</sub>e of emissions, driven by both our transition to clean energy and ongoing optimisation.

We eliminated 37 metric tonnes of single-use plastic by transitioning to in-house water bottling plants and biodegradable, bamboo-based in-room amenities. Our Circularity initiative, Leela Ke Phool, has upcycled 6.23 metric tonnes of floral waste into handcrafted incense products. Through this partnership with Phool we have supported livelihoods of women in local communities. Far from isolated interventions, these practices are deeply woven into our guest journey, reflecting our belief that luxury and responsibility go hand in hand.

We also continued investing in our people. We increased our average training hours to 81 per employee. Our retention rate stood at 72.7% in FY 2024-25, supported by initiatives like Shefs at The Leela, LEAD and immersive learning platforms that nurture both skill and spirit. Women represented 25% of our workforce at palace properties and 23% across the group. These figures mirror our commitment to growing meaningfully. Our sourcing philosophy remained proudly local and values-led, with 66% of procurement by value at palace properties coming from local suppliers, ensuring every guest experience is rooted in place and powered by purpose.

## The Strength Behind the Brand

Our partnership with Brookfield continues to be a vital anchor in our growth journey. Their global perspective, combined with a sharp focus on governance and disciplined capital deployment, brings both rigour and foresight to our decision-making. What sets this relationship apart is the shared emphasis on building enduring value over short-term returns.

This institutional support allows us to balance ambition with accountability, navigate complexity with confidence and stay true to our promise of thoughtful, purposeful luxury.

## Looking Ahead

Over the next five years, our strategy will centre around three key priorities: expanding thoughtfully in potential markets with high barriers of entry, extending the brand through asset-light and immersive lifestyle-led formats and embedding regenerative experiential hospitality at the heart of our operations. We will deepen our presence in gateway markets such as Mumbai and Srinagar while introducing curated expressions of luxury across wellness, private clubs and branded residences. Each initiative is crafted to elevate brand equity, optimise capital efficiency and create lasting, multi-dimensional value.

Our ambition is not defined by scale alone but by the standard we set. As we reimagine Indian luxury, we do so with intention and a commitment

to excellence - crafting a presence that inspires trust, sparks pride and resonates far beyond the stay.

We are ready and resolute, as we step into this next chapter.

## In Gratitude

To our shareholders, thank you for the trust you continue to place in us. Your belief in our vision sharpens our focus and fuels our ambition. The listing marked the beginning of a long-term journey and we are committed to creating enduring value, together.

To our people, you are the soul of The Leela. From the grace of a warm welcome to the diligence behind the scenes, it is your passion, precision and pride that breathe life into our promise each day.

We carry forward a legacy shaped by tradition and refined by vision. With discipline and imagination, we now step into the future with confidence and a deep sense of purpose.

Warm regards,

*Anuraag Bhatnagar*

Whole-time Director and Chief Executive Officer

# ABOUT SCHLOSS BANGALORE LIMITED

*The Leela is the epitome of true Indian luxury.*

Schloss Bangalore Limited is the parent company of The Leela Palaces, Hotels and Resorts, a name synonymous with India's finest expression of luxury hospitality. ## Our Vision

To be the definitive expression of Indian luxury hospitality — admired for our timeless elegance, purpose-led service and iconic experiences.

We envision a world where Indian traditions, values and craftsmanship are celebrated on the global stage. At The Leela, we aspire to lead this narrative by curating soul-stirring stays and becoming the brand of choice for discerning travellers, guests and all our stakeholders alike.

## Our Service Philosophy

Atithi Devo Bhava (Guest is God)

# The Leela Dharmas

## *The Guiding Principles*

The Leela Dharmas are eight core principles that guide how we lead, serve and interact with our guests, associates and communities. Inspired by the ancient wisdom of the Upanishads, the concept of Dharma signifies duty, purpose and right conduct. These values reflect our deep-rooted belief in Atithi Devo Bhava – Guest is God.

Practised across all our properties, The Leela Dharmas are a way of life that shapes our service culture and defines how we create meaningful, lasting experiences.

### Prathama Dharma

We shall place the guest first and foremost, the organisation second and the self last, while performing our duties to the finest standards.

### Dvitya Dharma

Everything we do shall be laced with courtesy and consideration for others, upholding the highest standards of conduct.

### Tritya Dharma

It shall be our constant endeavour to understand, anticipate and satisfy the needs of our guests with warmth and attention to detail.

### Chaturtha Dharma

Trust and team spirit will be the foundation stones upon which we raise our company's future and success.

### Panchami Dharma

We shall be fearless in performing our duties with conviction and pride.

### Sashti Dharma

We respect each other as much as we cherish our guests.

### Saptami Dharma

Like Mother Nature, we seek to nurture and protect.

### Ashtami Dharma

We believe in the Dharma of fairness in thought, word and action.

# THE LEELA EXPERIENCE

Across India's most storied landscapes, The Leela has crafted a collection of distinguished addresses where discernment meets discovery. From regal retreats that echo the grandeur of royal courts to cosmopolitan sanctuaries that embody contemporary elegance, every property is an exquisite homage to its locale. Set amidst bustling capitals, ancient cities, or serene natural vistas, each destination offers a rare alchemy of setting and soul, design and detail, thoughtfully curated to enchant the refined traveller. Not merely places to reach, but places to arrive at.

The Leela represents the apex of Indian luxury, where every detail is meticulously imagined to evoke beauty, significance and distinction.

Art infuses each space with heritage and grace.

Culinary journeys unfold with rarefied finesse, harmonising innovation with timeless tradition. Leisure becomes immersive, from curated cultural immersions to moments of tranquil escape.

Wellness is reimagined as a return to equilibrium, guided by rituals both ancient and exquisitely refined.

Across every touchpoint, craftsmanship and care shape the essence of the guest experience. In this seamless orchestration of resplendence and spirit, The Leela remains faithfully and profoundly, woven in grandeur.

# Art and Architecture

Art is revered as the silent heartbeat of our spaces, thoughtfully interwoven into the very soul of the surroundings.

From intricately carved staircases and luminous marble inlays to monumental sculptures and other worldly paintings, every detail honours India's rich artistic heritage. Each property is a distinctive architectural masterpiece, curated with precision to embody its own unique character. Drawing inspiration from the grandeur of regional palaces, the cultural essence of its locale and the nuances of celebrated architectural traditions, these residences blend historical elegance with modern sophistication. Brought to life by both master artisans and emerging voices, every detail, from the façade to the finest interior finishes, reflects the artistry and heritage of its inspiration, creating spaces that are both timeless and captivating.

These artworks are not embellishments, but enduring expressions of beauty, memory and meaning. At The Leela, art becomes an immersive narrative, inviting guests into the rare luxury of wonder.

# Unique Dining

Culinary artistry at The Leela transcends the food, becoming an immersive journey through flavour, culture and imagination. From regal recipes once savoured by maharajas to globally inspired creations reimagined with inventive flair, each dish narrates a story rooted in place and elevated in expression.

Dining unfolds as theatre, where interactive kitchens, award-winning chefs and The Leela's legendary service come together to orchestrate moments of pure indulgence. Guests may savour candlelit dinners by tranquil lakes, participate in masterclasses with our gastronomic virtuosos, or share joy over themed cook-offs and whimsical outdoor picnics.

Whether savouring rare spirits or embarking on curated vineyard excursions, every experience is meticulously designed to awaken the senses and honour the sublime.

# Destination Immersion

At The Leela, leisure is an invitation to pause, reflect and gently reconnect, with oneself, with loved ones and with the world beyond.

Curated with intention, these experiences encourage guests to venture beyond the expected, engaging with culture, nature and community in ways that are authentic and enriching. Whether wandering through a story-soaked spice market, tracing the architectural poetry of a heritage city, or surrendering to the stillness of a lakeside sunset, every moment is crafted to inspire presence and quiet wonder.

For families, for friends, for the curious and the contemplative alike, these journeys blossom into shared memories: quietly profound, deeply personal and enduring in their grace.

# Wellness

Anchored in a philosophy of holistic well-being, our wellness offerings are thoughtfully designed to meet the evolving aspirations of today's discerning luxury traveller.

Across our properties, we continue to invest in state-of-the-art fitness facilities, bespoke spa programmes and integrated wellness journeys that draw from both ancient Indian healing traditions and contemporary global practices.

Signature therapies, including Ayurveda, yoga and modern modalities, are delivered by expert practitioners in serene, purpose-built sanctuaries.

These initiatives are part of our broader commitment to crafting transformative guest experiences that prioritise health, mindfulness and inner balance, ensuring that wellness remains an essential pillar of The Leela's hospitality vision.

# *The Leela Palace Service*

*Personalised. Intuitive. Gracious.*

**The Leela Palace Service is a unique and signature service that curates highly personalised guest journeys, led by dedicated Butlers who serve as a single point of contact before, during and after each stay.**

Rooted in our ethos of 'Atithi Devo Bhava-Guest is God', this service is thoughtfully crafted around nine curated touchpoints: from pre-arrival messages and ceremonial welcomes to in-room check-ins, art walks, bespoke wake-up calls and packing assistance.

Our Butlers are meticulously trained to anticipate both stated and unstated needs while preserving each guest's preferred level of privacy. Every detail, from arrival to farewell, is orchestrated with warmth, refinement and discretion.

Available across all Leela Palaces and for VIP guests at other Leela Hotels, The Leela Palace Service exemplifies the graciousness of Indian luxury hospitality. Our Net Promoter Score of 85 reflects the consistently high levels of guest satisfaction across touchpoints.

# Aujasya by The Leela

## *The Vigour of Life*

Rooted in Indian wisdom and shaped by modern science, Aujasya by The Leela is our signature wellness programme, inspired by the Sanskrit word for ‘vigour of life.’ Introduced in 2022 and awarded Best Wellness Cuisine by GlobalSpa in both 2022 and 2025, Aujasya by The Leela integrates mindful nutrition, restorative therapies and sustainability into every guest journey.

From gut-friendly, locally inspired cuisine to sleep-enhancing amenities, guided meditation and spa rituals, each experience is designed to restore balance and vitality. Developed in collaboration with wellness expert Dr. Ankita Jalori, the programme is brought to life by trained specialists across our hotels. From curated high teas and à la carte offerings to spa journeys and mindful rituals, Aujasya by The Leela extends across every guest touchpoint. Furthering our sustainability efforts, in-house water bottling plants are now operational in 75% of our properties, eliminating 3.2 million single-use plastic annually and ensuring clean, consciously sourced hydration.

Aujasya by The Leela is our commitment to conscious living and a healthy approach to modern luxury. It reflects our belief that true hospitality nurtures not just the body, but the spirit and the world we share. In 2024, we launched the Aujasya by The Leela CXO Retreat in partnership with sporting icon Smriti Mandhana, tailoring mobility and mindfulness tools for the modern traveller. At The Leela, Aujasya is more than wellness, it's a way of life, designed to inspire vitality from within.

# *Tishya by The Leela*

## *The Scent of Luxury*

Inspired by the ancient Sanskrit word that describes ‘a sense of joy and happiness’, Tishya by The Leela is our signature fragrance crafted into an exclusive range of bath and body amenities.

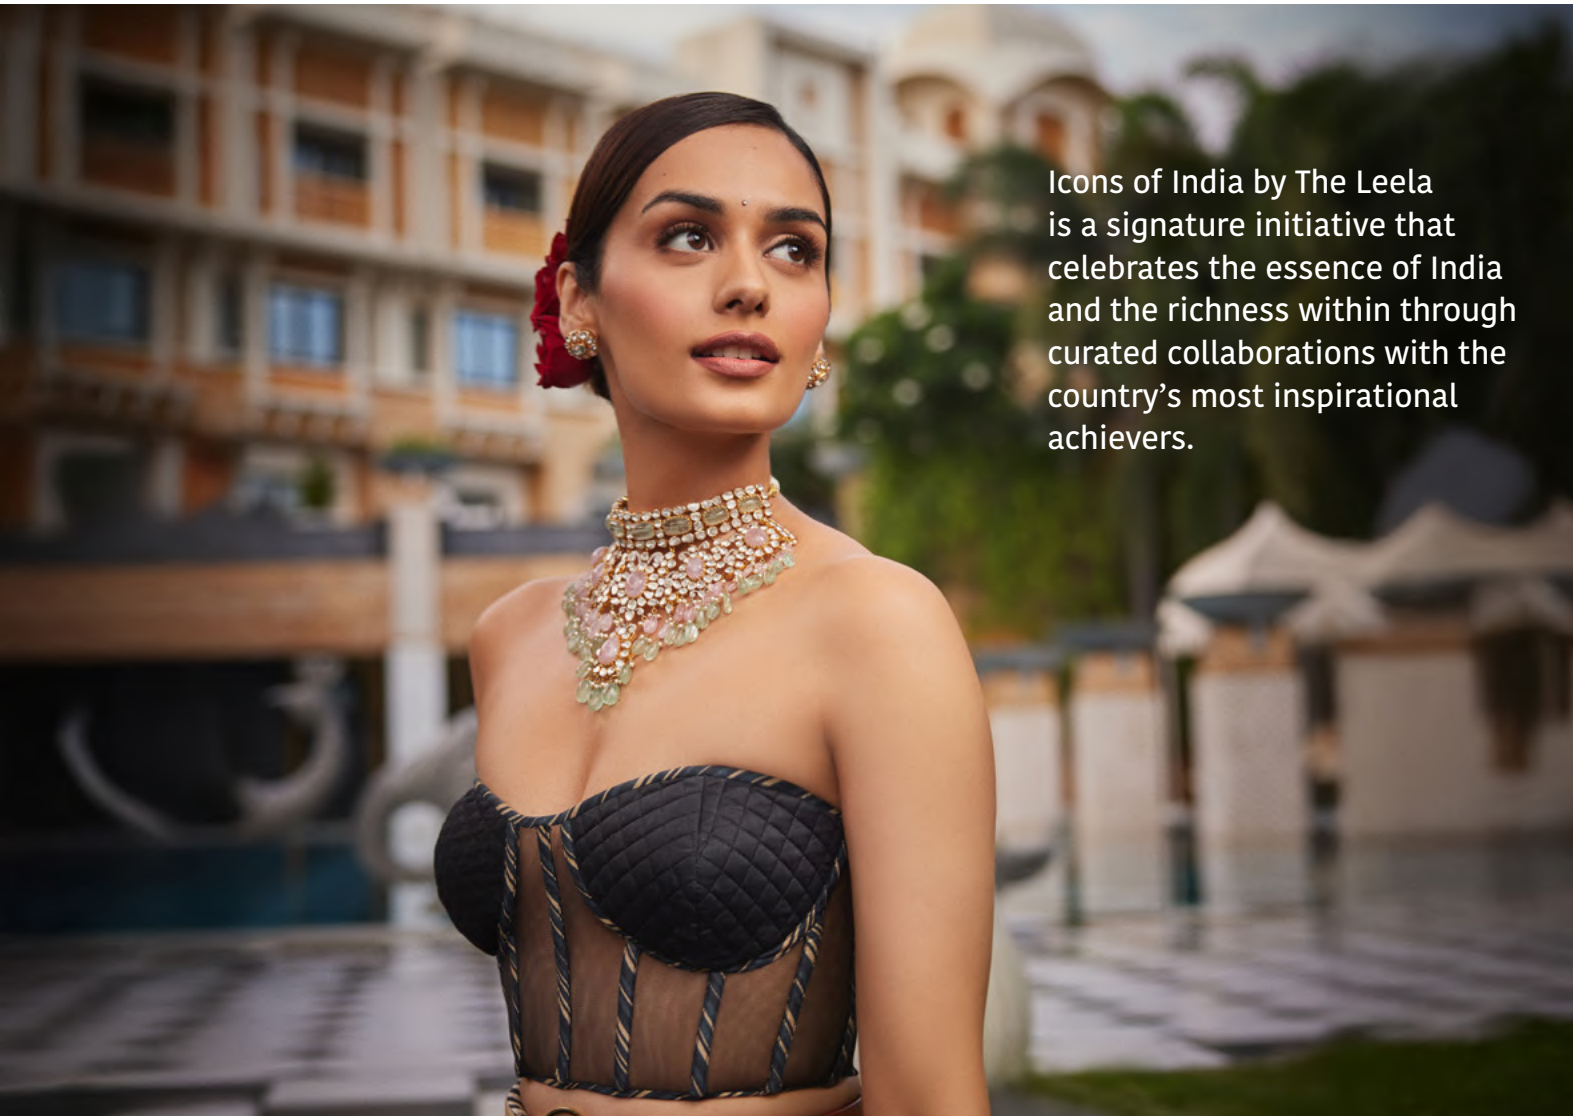

The fragrance is inspired by the national flower of India, Kumud or Lotus and the wonder flower, Nilgiri or Neelakurinji that blossoms once in 12 years. Conceptualised in collaboration with Kimirica Hunter International, the collection is 100% vegan, paraben-free and crafted with natural essential oils in fully recyclable packaging. In line with our sustainability charter, used bottles are collected and responsibly recycled. Recognised as Best Spa Product – Natural Line by GlobalSpa in 2022, Tishya by The Leela transforms everyday rituals into immersive sensory experiences, designed to evoke serenity, spark memories and embody the refined beauty of Indian luxury. It is yet another expression of our commitment to meaningful, guest-centric experiences.

# Icons of India by The Leela

*Celebrating India's Finest Who are the World's Best*

ICONS of INDIA  
by THE LEELA

Icons of India by The Leela is a signature initiative that celebrates the essence of India and the richness within through curated collaborations with the country's most inspirational achievers.

From sarod virtuosos Amaan and Ayaan Ali Bangash to Nobel Peace Laureate Kailash Satyarthi, Miss World 2017 Manushi Chhillar, world-renowned cricketer Smriti Mandhana and His Highness Maharaja Sawai Padmanabh Singh of Jaipur, each Icon reflects India's cultural legacy, global impact and pioneering spirit.

At the intersection of heritage and modernity, this initiative is an articulation of The Leela's brand philosophy, conscious luxury rooted in Indian culture. It serves as a platform to inspire, engage and connect with today's discerning traveller through experiences that are meaningful and memorable. Icons of India by The Leela is more than a celebration, it is a statement of leadership and a tribute to India's global influence.

# *Melodies by The Leela*

## *The Soundcape of Indian Luxury*

Curated by sarod virtuosos Amaan and Ayaan Ali Bangash, *Melodies by The Leela* is a signature expression of the brand's deep-rooted connection with Indian art, culture and classical music.

The compositions – Raaga and New Delhi – A Journey along with many others, have become an integral part of the guest experience, playing across hotel lobbies to create a serene and immersive atmosphere that reflects the soul of India and the spirit of each destination.

The Bangash brothers, representing the seventh generation of a musical lineage, lend their refined artistry to this collaboration, weaving elegant lyricism with technical mastery. This partnership is an extension of Icons of India by The Leela, an initiative that celebrates India's cultural custodians. *Melodies by The Leela* is more than just music, it is a sensory journey that evokes emotion, connection and a sense of place.

## The Joy of Gifting

*Signatures*  
by THE LEELA

An ode to the season of warmth and celebration, Signatures by The Leela is a thoughtfully curated collection of festive gourmet hampers. Rooted in India's rich tradition of gifting, each hamper blends artisanal indulgence with refined aesthetics—from chocolate pralines, cookies and Indian sweets to scented candles, Lord Ganesha idols and more.

Guests can personalise their gifts with bespoke offerings presented in intricately designed boxes and leatherette bags. This year's edition also includes a wellness-inspired selection from Aujasya by The Leela. Evoking the brand's 'Atithi Devo Bhava' philosophy, every hamper is a celebration of thoughtful craftsmanship, cultural richness and the joy of giving. Signatures by The Leela reflects the timeless Indian tradition of sharing festive cheer, now reimagined for the discerning global connoisseur.

## *A Celebration of Women in Culinary Art*

## Shefs at The Leela

*Launched in 2022 in collaboration with Dean With Us, Shefs at The Leela is a pioneering platform advancing gender diversity in professional kitchens. It empowers women in culinary through mentorship, training and visibility.*

From curated dinners and masterclasses to quarterly events across The Leela's properties in Bengaluru, Gurugram, Chennai and Jaipur, the initiative has showcased globally acclaimed women chefs and engaged over 250 participants. Each edition is led by an all-women culinary and service team and often paired with Indian art forms to create a rich, cultural experience.

In FY 2024-25, the programme led to the hiring of 15 women chefs through a structured two-phase training model. More than an event, Shefs at The Leela is a bold expression of our commitment to diversity and a step towards a more inclusive future for hospitality.

# *Hallmarks of Luxury Hospitality*

Luxury is not a product of chance. It is an orchestration of intent, craft and culture - a philosophy that permeates every detail of our service, every touchpoint of design and every nuance of the guest experience.

Each of our strengths, refined over decades, reflects a deliberate decision, to elevate the expected into the extraordinary and to transform a stay into something far more lasting: a moment etched in memory. From our iconic identity to our exceptional portfolio, from our immersive experiences to our disciplined, forward-looking governance, we have built a foundation that allows us not merely to participate in the industry, but to define its highest standard, with quiet confidence and timeless sophistication.

## Our Strengths

An Iconic Name in Global Luxury Hospitality

Strategically Located, High-Value Owned Assets

A Holistic Luxury Ecosystem Anchored in Diversified Revenues

Asset Management that Elevates Margin and Experience

Experienced Leadership and Strong Governance

### An Iconic Name in Global Luxury Hospitality

The Leela has been synonymous with Indian luxury at its most refined, a legacy defined by grace, authenticity and discernment. Our brand equity is built not just on globally acclaimed destinations, but on the emotional connections we foster through intuitive service, timeless aesthetics and a profound sense of place.

Since calendar year 2021, we have been honoured with more than 250 distinguished awards, including being ranked the World's #1 Hotel Brand by Travel + Leisure in 2020 and 2021 and consistently placed among the top three global hospitality brands through 2023 and 2024.

At the heart of our ethos lies the timeless Indian principle of Atithi Devo Bhava (Guest is God) which shapes every gesture, every experience. This philosophy empowers us to harmonise Indian tradition with contemporary global benchmarks, creating moments that feel both effortless and elevated.

# 85

Highest NPS Among Key Hospitality Peers

### Strategically Located, High-Value Owned Assets

Our Owned Portfolio comprises five marquee properties in New Delhi, Bengaluru, Chennai, Jaipur and Udaipur, each located in markets that are commercially compelling yet operationally demanding. These cities are defined by stringent regulations, constrained land availability and extended project timelines, making our presence in them a distinctive competitive advantage.

Every property is architecturally unique and strategically situated within high-demand micro-markets where new supply remains structurally limited. With room sizes averaging 36% larger than overall luxury hospitality segment and a premium rate realisation driven by brand equity, these assets form the cornerstone of our elevated positioning.

## A Holistic Luxury Ecosystem Anchored in Diversified Revenues

We have intentionally built a robust luxury ecosystem designed to attract a broad spectrum of guests: from international leisure travellers and affluent Indian families to business executives and event planners. Across our hotels, we operate 72 curated food and beverage venues and 13 wellness centres, alongside expansive banqueting and MICE facilities that cater to both celebratory and corporate needs. This integrated ecosystem enhances guest engagement while helping us mitigate seasonality, with softer periods in one vertical often counterbalanced by strength in another.

In FY 2024-25, non-room sources such as F&B, wellness and events contributed 52% of total income, underscoring the depth and resilience of our business model. Our room revenue also remained well-diversified, with:

- **57%**  
from leisure and retail  
travellers
- **25%**  
from group bookings
- **18%**  
from corporate clients

## Asset Management that Elevates Margin and Experience

We operate with the precision of an owner and the vision of a curator. Our approach to asset management is structured, deliberate and deeply proactive. Of the INR 6,545.84 million earmarked for capital expenditure, we had deployed nearly 65% by FY 2024-25, resulting in carefully considered enhancements across the portfolio. Renovations at The Leela Palace Jaipur and repositioning of The Leela Kovalam have not only delivered strong uplifts in ARR and RevPAR post-investment but also redefined the guest journey through upgraded rooms, refreshed aesthetics and enhanced service areas.

## Experienced Leadership and Strong Governance

Equally integral to our success is our governance framework designed to provide structure, integrity and long-term orientation. We benefit from a balanced and highly engaged Board of Directors that includes independent members with diverse experience across finance, strategy, law, real estate and hospitality. Additionally, with an average of over 20 years of experience across our core team, we are well-positioned to navigate evolving cycles in hospitality with calm agility and sound judgement.

Under the stewardship of our board and management team, we have delivered consistent, cross-metric growth across RevPAR, TRevPAR, operational EBITDA and portfolio scale. Further, our strong institutional ownership and governance frameworks provide the clarity, accountability and discipline needed for sustainable value creation.

# Backed by Brookfield

*We are proud to be promoted by private equity funds managed and advised by affiliates of Brookfield, one of the world's leading alternative asset managers, with over US\$ 1 trillion in assets under management as of March 31, 2025. Globally recognised for its domain leadership in real estate and luxury hospitality, Brookfield brings an exceptional track record in curating iconic destinations worldwide. Its institutional strength and deep sectoral expertise significantly bolster our financial resilience, execution capabilities and long-term growth trajectory.*

We have entered into a development management agreement with Brookprop Property Management Services Private Limited. This collaboration unites Brookfield's global expertise in real estate, capital precision and institutional stature with our vision of architectural grandeur and refined execution, a powerful synergy poised to redefine benchmarks in luxury development.

Furthermore, Brookfield serves as a strategic anchor to our management team, reinforcing a disciplined, value-accretive approach to capital allocation. Its global perspective shapes our investment philosophy and informs our acquisition strategy, while its institutional depth and expansive network enhance our capacity to steward assets with precision and pursue growth with bold, judicious ambition.

Rebranded as  
'The Leela' hotel in July 2023

On the placid banks of Ashtamudi Lake, The Leela Ashtamudi, A Raviz Hotel rests in quiet splendour, a sanctuary shaped by heritage and the gentle rhythm of Kerala's backwaters. Rooted in the graceful nalukettu tradition, its red-tiled roofs and whitewashed walls open onto shaded verandahs, where the breeze carries the scent of earth, spice and still water.

Evenings unfold with unhurried elegance. A floating pavilion glides into view, candlelit and fragrant, as stars gather softly overhead. On shore, oil lamps bloom at twilight and the sound of classical raga drifts through the warm night air, drawing guests inward toward something timeless and enduring.

The Leela Ashtamudi, A Raviz Hotel is an immersion in stillness, in craftsmanship and in the living art of Kerala expressed with rare grace.

### The Leela Palace BKC, Mumbai

Strategically situated at the gateway to Bandra Kurla Complex (BKC), this development represents a rare and prestigious opportunity. The hotel will rise on a 2.1 acre land parcel recently secured under an 80-year lease, a prized allotment in a location historically underserved by luxury accommodations. The project is anchored on an exceptionally attractive land basis compared to other recent transactions within G Block, BKC, highlighting a compelling investment foundation. With no new hotel supply introduced in the area since 2011, the fundamentals remain robust, pointing to a highly favourable supply-demand dynamic.

# Our Strategic Manifesto

*Rooted in heritage and driven by a forward-looking vision, we are strengthening our leadership in luxury hospitality through curated growth, elevated experiences and value creation. Backed by Brookfield's global expertise, we continue to expand our portfolio across hotels, residences, clubs and branded experiences.*

## Enhancing Profitability through Proactive Asset Management

We are focussed on maximising value through proactive management of both owned and managed assets. Enhancing RevPAR remains a core priority, driven by elevated guest experiences and thoughtful refurbishments. We're expanding our offerings with signature restaurants, private clubs, wellness sanctuaries and curated retail - all designed to create new revenue streams and deepen brand engagement. Food and Beverage plays a central role, with bespoke culinary concepts enhancing loyalty and driving margins.

## Expand Footprint through New Hotel Management Agreements

We are scaling through new hotel management agreements, embedding The Leela's brand DNA in third-party owned properties. For new developments, we work closely with partners from the planning stage to align with our standards. In operational hotels, we lead rebranding and repositioning through design transformation, service alignment and staff training. FY 2024-25 saw our managed assets outperform peers on ARR and RevPAR.

## Strategic Growth through Acquisitions and Development

We are expanding our footprint through the acquisition and development of high-potential properties that reflect The Leela's refined aesthetic and brand values. Our pipeline includes five fully owned hotels across premier leisure, heritage and wildlife destinations. Each opportunity is underpinned by market intelligence, feasibility analysis and capital prudence. We are also exploring selective partnerships, acquisitions and development of brands in the luxury segment to diversify offerings, unlock synergies, and enrich the guest journey.

## Capital Efficiency for Long-term Growth

Our future expansion in premier Indian gateway cities and select global destinations will be aligned with the tastes of the modern luxury traveller. Growth will be driven through greenfield developments, strategic acquisitions and bespoke management agreements, guided by disciplined capital allocation.

A portion of the Net Proceeds will be used to repay select borrowings. Backed by strong leadership and global expertise, we remain committed to thoughtful, excellence-driven growth rooted in timeless Indian hospitality.

## Expand the Reach of The Leela Brand

As The Leela evolves beyond hotels, we are curating new expressions of our brand to strengthen its resonance with discerning global travellers. These initiatives embody our core values of timeless sophistication, intuitive service and immersive luxury, while opening new avenues for growth and premium positioning.

### ARQ by The Leela

# *Charting Today's Landscape with Timeless Elegance*

The luxury hospitality landscape is evolving, shaped by new generation of discerning travellers who seek not just comfort, but depth: immersive, evocative and personalised experiences. As the boundaries between business, leisure and lifestyle journeys dissolve, expectations around wellness, sustainability and bespoke service are reaching unprecedented heights. At The Leela, we respond with refined agility, seamlessly marrying timeless heritage with purposeful innovation and classical elegance with contemporary intent. Backed by Brookfield's global stewardship and strategic depth, we are poised to lead in this evolving milieu, offering experiences that are enduring in their grace and resonant in their relevance to the modern connoisseur of luxury.

## Increasing Global Affluence

The steady rise of global affluence is catalysing an extraordinary evolution in the luxury landscape, as a growing cohort of high-net-worth individuals seek indulgence through meaningfully curated, high-touch experiences. As personal wealth and discretionary income rise, particularly in emerging powerhouses like India and China, consumers are choosing to invest in sophisticated, experiential luxuries over material accumulation. Luxury spending has begun to outpace broader economic growth, driven by a new ethos of identity, expression and cultural capital. Amplified by the reach of digital media and aspirational storytelling, luxury is coveted, celebrated and deliberately chosen. In this shifting paradigm, luxury hospitality stands at the forefront, offering not just a stay, but a symbolic expression of taste, discernment and aspiration.

## Demand for Luxury Hospitality

On the Rise

## Prosperity Driving Hospitality's Ascent

India's reported GDP growth of 6.5% in FY 2024-25 reflects the strength of its robust economic fundamentals: rising discretionary incomes, deepening urban affluence and the emergence of a sophisticated, aspirational class. This evolution is reshaping consumption patterns, fuelling a distinct pivot towards experience-led indulgence marked by exclusivity, nuance and tailored sophistication. In this climate, the luxury hospitality sector is experiencing an unprecedented surge in demand, as travellers increasingly favour high-touch, high-design stays that transcend accommodation to become immersive expressions of taste, refinement and gracious living.

2024-25

## Rising Middle-Class

India's economic renaissance is being reshaped by the rapid rise of its high-income and upper middle-income groups, which are projected to represent over 55% of the population by 2030. This demographic transformation is redefining the contours of consumption, evolving from value-led decisions to an embrace of aspirational, experience-rich indulgences. As disposable incomes expand and preferences grow increasingly sophisticated, India is emerging as a sought-after canvas for premium and luxury propositions across retail, travel, hospitality, residences and elevated lifestyle experiences.

**>55%**

## Affluence Redefining Aspirations

India's transforming affluence narrative is shaping a new era for its hospitality sector, driven not only by a rising per capita income, expected to reach US\$ 4,469 by 2030, but more notably by a structural elevation in income tiers. The true inflection lies in the growing segment of the middle class ascending into upper-middle ranks and the upper-middle aspiring toward affluence. These upwardly mobile cohorts are propelling the demand for luxury hospitality, drawn to refined accommodations, personalised service and immersive experiences that mirror their evolving identities and global worldview. The luxury segment is thus poised to benefit significantly from this socio-economic mobility, alongside continued spending by India's existing wealthy class.

## Growth in Aviation Connectivity

The aviation sector is soaring to new heights, with global passenger demand on the rise, driven by robust international recovery and accelerated growth across the Asia-Pacific region. In India, enhanced regional connectivity is transforming the mobility paradigm. In the Union Budget for FY 2025-26, strategic initiatives such as the UDAN scheme have unlocked over 100 new routes and connected 120 destinations, seamlessly bridging remote regions with urban centres. This sweeping expansion in air access is unleashing a new era of affluent travel, both for leisure and business, fuelled by rising aspirations and ease of movement. In turn, it is amplifying the appetite for luxury hospitality offerings that resonate with the elevated expectations of today's discerning traveller.

## Government's Push for Infrastructure

The Indian Government's continued focus on an infrastructure-led growth model, highlighted by the Union Budget 2025-26 allocation of INR 1,121 billion for capital expenditure, is catalysing transformative progress across key sectors such as roads, railways, energy, aviation and urban transit. These large-scale enhancements are significantly improving connectivity, accessibility and regional integration. As seamless travel becomes a reality for both domestic and international audiences, luxury hospitality stands to gain from the rising influx of high-value travellers seeking elevated experiences in well-connected destinations.

## India's Corporate Travel Takes Flight

India's corporate travel sector is entering a transformative era, shaped by innovation, sustainability and strategic foresight. As in-person engagement regains prominence, the nation is poised to redefine global business travel with enhanced efficiency, elevated sophistication and broader scale. In CY 2024, corporate travel spending soared to US\$ 38.2 billion, marking an 18.3% year-on-year surge. This momentum is propelled by infrastructure advancements and national initiatives like Make in India. Small and medium enterprises (SMEs) emerged as key contributors, accounting for 30% of this growth, driven by the adoption of hybrid travel trends. Meanwhile, the MICE segment flourished under the G20 legacy and the government's 'Meet in India' campaign. This robust upswing in corporate mobility is directly amplifying demand in the luxury hospitality sector, as business travellers increasingly seek refined stays, immersive experiences and world-class venues that seamlessly blend productivity with comfort and distinction.

## Boom in Culture and Heritage Tourism

Cultural and heritage tourism in India is flourishing, as discerning travellers, both domestic and international, seek to be enveloped in the nation's past and living traditions. From majestic forts and ancient temples to regal palaces, India's architectural splendour continues to enchant. With 43 UNESCO World Heritage Sites and over 3,600 protected monuments under the Archaeological Survey of India, the country stands as a beacon of heritage-led and sustainable tourism. This growing interest in immersive, culturally rich experiences is fuelling a parallel demand for luxury hospitality, where travellers seek refined accommodations that offer not only comfort, but also authentic connections to the grandeur and spirit of India's storied legacy.

## Increase in Wedding Tourism

In CY 2024, wedding tourism in India ascended to dazzling new heights, driven by the country's rich cultural allure and the rise of discerning, high-spending clientele. Destination weddings witnessed a 20-25% annual surge in CY 2024 compared to the year prior to that, with average wedding budgets soaring to INR 5.11 million, as couples gravitated toward majestic locales across Rajasthan, Goa, Kerala and beyond.

Boosted by visionary initiatives like 'Wed in India' and enhanced hospitality infrastructure, India now stands as a premier global canvas for unforgettable, culturally rich celebrations, thereby catalysing sustained demand for the luxury hospitality sector.

## Rise of Hospitality-Led Living

A new era of luxury living is unfolding as affluent buyers increasingly seek sanctuaries that transcend the conventional boundaries of a home. The surge in demand for hospitality-led living reflects a desire for bespoke experiences, effortless convenience and gracious, anticipatory service. Branded residences, meticulously designed in collaboration with iconic hotel and lifestyle marques, offer seamless access to 24/7 concierge, housekeeping, wellness sanctuaries and private social venues, harmoniously blending the intimacy of home with the grandeur of five-star hospitality.

# Integrating Technology to Elevate Hospitality

*At The Leela, technology is not merely a tool, it is an extension of our legacy. Our digital initiatives are deliberately orchestrated to elevate every interaction, weaving seamless sophistication into the guest journey without ever dimming the warmth of timeless Indian hospitality. By fusing cutting-edge innovation with tradition, we curate experiences that are intuitive and deeply personal.*

To maintain a unified standard of excellence across our distinguished portfolio, we have introduced an advanced suite of technology guidelines and protocols tailored for the hospitality sector and encompass:

IT Infrastructure  
Design

Networking  
Frameworks

System Security  
Protocols

Guest-Facing  
Technology Best  
Practices

Through the disciplined implementation of these best-in-class systems, all existing properties and new openings within The Leela portfolio have been seamlessly aligned with secure, scalable and future-ready practices. This digital integration has enhanced operational resilience, strengthened service precision and further deepened guest satisfaction, ensuring that every touchpoint, from check-in to farewell, reflects the signature finesse of The Leela experience.

## Initiatives for the Customer

### Front Office, F&B and Account Receivable Digitisation

To elevate front office operations and billing processes, we deployed a modern, eco-conscious digital solution offering:

Online pre-arrival check-in for a seamless welcome

iPad-enabled check-in/check-out for enhanced efficiency

E-invoicing and fully paperless billing

Real-time integration with PMS and AR for instant reconciliation

### Interactive Casting IPTV System

To enrich the in-room guest experience with contemporary luxury, we introduced a sophisticated, Chromecast-enabled IPTV system which offers:

Effortless streaming of personal content from guest devices

A harmonised digital entertainment experience across all properties

Intuitive access to bespoke hotel services

## Initiatives for the Customer

### Service Optimisation Digital Platform

To modernise and streamline back-of-house operations, we introduced the Unified Operations platform, a refined digital solution crafted for operational excellence. Key capabilities include:

Real-Time Task Tracking with Complete Status Transparency

Seamless Cross-Departmental Collaboration

Mobile-Enabled, Paperless Workflows

Automation-Led Enhancements in Efficiency

### Data Hub – Warehouse, Lake, BI and Dashboards

The Data Hub stands as The Leela's unified analytics backbone, architected to harness data with precision and purpose. Its core components include:

A robust Data Lake for high-volume, unstructured data ingestion

A refined Data Warehouse housing curated, business-ready datasets

Seamless integration of PMS, POS, CRM, finance and feedback systems

Power BI dashboards delivering real-time insights and reporting

### Digital Brand and Asset Protection

Cybersecurity solution has been deployed to safeguard our prestigious digital brand presence with advanced threat intelligence capabilities, including:

Real-time monitoring to detect online brand misuse

Dark web surveillance for exposed or compromised data

Identification and swift takedown of impersonating websites

### Security Operations Center (SOC) and Network Operations Center (NOC) and Vulnerability Assessment and Penetration Testing (VAPT)

A centralised Security Operations Center (SOC) and Network Operations Center (NOC) has been established to provide continuous, real-time oversight and protection of our IT infrastructure across all properties. Regular VAPT cycles have been institutionalised at The Leela to uphold a vigilant and fortified security environment. Key capabilities include:

Continuous threat detection and rapid incident response

Enforcement of regulatory and internal compliance

Real-time network performance monitoring and optimisation

### Enterprise Performance Management (EPM)

To elevate financial consolidation and strategic planning, The Leela implemented a sophisticated Enterprise Performance Management (EPM) platform, offering:

Centralised, reliable financial reporting

Collaborative budgeting and forecasting workflows

Real-time visibility into key performance metrics

Integrated audit trails and compliance safeguards

Cloud scalability with secure remote accessibility

## Data Loss Prevention (DLP) System

The Data Loss Prevention (DLP) system at The Leela is designed to safeguard sensitive information with precision and vigilance. Its key functions include:

Monitoring, detecting and blocking unauthorised data transfers

Enforcing strict compliance with data privacy and protection regulations

Proactively mitigating risks of data breaches, both internal and external

## Key Technology Enhancements in Progress: FY 2025-26 .....

Innovation is integral to our legacy of luxury. We continue to invest in strategic technology enhancements that enrich guest experiences, empower our teams and embed intelligence seamlessly across every dimension of hospitality and operations.

### AI-Driven Guest Engagement Platforms

We are advancing the integration of next-generation AI solutions to transform both our digital and on-property guest experience. A bespoke AI-powered concierge will soon be live on theleela.com, offering 24/7 multilingual assistance, personalised recommendations and voice-enabled interaction through a lifelike avatar.

In parallel, we are developing an intelligent chatbot platform in collaboration with leading technology partners to automate guest-facing and internal service interactions, ensuring instant responses to FAQs and service requests with exceptional accuracy. This unified ecosystem will leverage behavioural insights, intelligent targeting and real-time analytics to anticipate needs, enhance engagement and deliver service excellence with consistency and precision.

### Leela Reservation Worldwide (LRW)

We are in the advanced stages of implementing an AI Agent solution within The Leela's Central Reservation System, designed to significantly enhance booking efficiency and enrich guest interactions. The platform will feature intelligent chat and voice interfaces to address initial guest queries, with the ability to seamlessly transition to human agents for more complex requirements.

Fully integrated with PMS and CRM systems, the solution will also enable comprehensive conversation logging, advanced analytics and robust compliance safeguards, ensuring a smooth, personalised and secure reservation experience.

### CDP, CRM and Unified Communication Ecosystem

Our new digital ecosystem is meticulously designed to orchestrate seamless, personalised guest journeys. Key components include:

A Customer Data Platform enabling real-time profile creation and insights

A next-generation CRM for intelligent campaigns and loyalty management

A Unified Communication System integrating voice, chat, email and messaging channels

## Property Management and Point-of-Sale Systems Migration

We are migrating to next-generation property management hospitality platform, marking a pivotal advancement in our cloud-first transformation journey. This strategic move delivers:

Cloud-native point of sale solutions with unified, centralised control

Superior scalability, seamless integrations and enterprise-grade security

## AP Automation and Document Management

Planned features include:

Automated invoice processing

Workflow-based approvals

Real-time document tracking

Improved audit readiness and transparency

## Network Access Control (NAC) Implementation

The NAC solution will:

Enforce device-based access control

Monitor endpoint compliance in real time

Enable rapid isolation of non-compliant devices

Lay the groundwork for Zero Trust Architecture

# *ENVIRONMENTAL, SOCIAL AND GOVERNANCE*

# *Crafting a Legacy of Mindful Luxury*

At The Leela, we believe that luxury is not simply defined by grandeur or design — it is the art of thoughtful living, underpinned by a commitment to preserve, uplift and inspire. Our ESG philosophy is a harmonious confluence of opulence and obligation — to the planet, to people and to future generations. FY 2024–25 marked a year of meaningful progress as we wove responsibility into the very fabric of our brand — setting new benchmarks in the realm of mindful luxury.

We remain deeply attuned to the evolving priorities of our stakeholders — from investors to guests, partners to communities — as we strive to create long-term value while delivering experiences that are both luxurious and responsible.

## *Our Sustainability Framework: A Philosophy with Purpose*

At the heart of The Leela's ESG strategy lies a purpose-driven Sustainability Framework — a compass that guides every decision, every initiative and every guest experience. Anchored in four foundational pillars, this framework ensures that our commitment to excellence is holistic, future-ready and deeply human:

### **Environmental Stewardship**

Preserving natural resources and reducing environmental impacts

### **Inclusive Culture**

Empowering people and embracing diversity

### **Heritage and Communities**

Preserving legacy and uplifting society

### **Responsible Sourcing**

Curating conscious value chain partnerships

Together, these pillars form the architecture of our sustainable vision — where governance provides the foundation and the guest remains at the centre of everything we do.

## *Environmental Stewardship: Powering Luxury, Sustainably*

At The Leela, we view environmental responsibility not as an obligation, but as an intrinsic extension of luxury — one that respects the splendour of nature while reimagining indulgence through the lens of stewardship. As climate change intensifies globally, we are deeply conscious of our role as custodians of India's natural and cultural heritage. Guided by this ethos, we are committed to reducing our environmental footprint through thoughtful decarbonisation, renewable energy adoption and climate-resilient operations.

### **Advancing on the Path to Net Zero**

India has outlined its own climate goals, including achieving Net Zero emissions by 2070 and reducing emission intensity by 45% by 2030. At The Leela, we understand the hospitality sector's responsibility in supporting this national imperative and are committed to being a catalyst for change.

Our commitment to achieving Net Zero emissions by 2050 is rooted in science-aligned approach and measurable progress. In FY 2024-25, we made significant strides in mitigating climate impact across our

Palace portfolio through integrated renewable energy, sustainable mobility and energy efficiency interventions.

### **Pioneering Renewable Energy Integration**

Our renewable energy consumption is 55% in FY 2024-25 across our Palace properties, supported by a robust 18 MWp of installed solar and wind capacity. These efforts helped us avoid nearly 17,206 metric tonnes of CO<sub>2</sub> emissions this year alone — a result of both transition and optimisation.

## Driving Operational Decarbonisation

We are consciously redesigning energy-intensive systems to become cleaner, quieter and more climate-resilient. In FY 2024-25, we fully electrified laundry operations at The Leela Palace Udaipur and Chennai, replacing diesel-fired equipment and achieving a collective annualised saving of more than 43,000 litres of diesel – without compromising on the impeccable service our guests expect. Key operational upgrades in this year include - LED lighting across public areas, EC fan installations for improved HVAC efficiency, Shift from charcoal to gas-based tandoors, upgrading cooling towers and chillers and deployment of EV charging stations at 100% of our properties

In FY 2024-25

# 55%

Electricity consumption across our palace properties was sourced from renewable energy

# 0.08

GHG Intensity (tCO<sub>2</sub>e/guest nights sold) and Energy intensity of 0.76 (GJ/guest nights sold)

## Sailing Sustainably with EV Boats

Nestled on the serene banks of Lake Pichola, The Leela Palace Udaipur has long been a beacon of luxury and elegance, offering guests an unforgettable experience. In a bold move towards combating climate change and advancing sustainable tourism, the Palace has set a new industry benchmark by becoming the first palace property in India to introduce electric boats for guest commutes. This pioneering initiative underscores The Leela Palace Udaipur's unwavering commitment to blending timeless luxury with responsible environmental stewardship.

The Palace has launched a fleet of six state-of-the-art electric boats, transforming the guest arrival experience into an eco-conscious journey. These electric boats reduce noise and air pollution and eliminate the risks associated with fuel spills, which have historically posed threats to the health of the lake's delicate ecosystem. By eliminating the use of ~22,000 Liters of diesel annually, this initiative is a significant step in minimising carbon emissions and advancing our sustainability goals. Guests are now greeted by the beauty of Rajasthan's heritage and the stunning Aravalli ranges from the calm waters of Lake Pichola, all while contributing to a greener, more responsible future.

## The Leela's Palaces: South Asia's Benchmark for Sustainable Luxury

The Leela set an unprecedented standard by securing EDGE Advanced Final Certification for five of its iconic Palace properties, collectively forming South Asia's largest EDGE Advanced certified hotel portfolio, spanning nearly 2 million square feet. Aligned with The Leela's Mindful Luxury framework, these properties achieved:

Over **41%**  
Energy Savings

Over **30%**  
Water Savings

Up to **70%**  
Embodied Carbon Reduction

## From Petals to Purpose: Leela Ke Phool

At The Leela, we believe that true luxury is defined not only by elegance and experience, but by intention. As part of our journey towards conscious luxury and circular design, we partnered with Phool.co, a pioneering biomaterials startup, to give a renewed purpose to the flowers that once adorned our palaces and hotels. Since the launch of the initiative in 2023, we have upcycled 6.23 metric tonnes of floral waste—including 3.21 metric tonnes in FY 2025 alone—into beautifully handcrafted, charcoal-free incense sticks and cones, delicately infused with Tishya by The Leela—our signature fragrance inspired by Kumud and Nilgiri. Crafted by women from marginalised communities using Phool's patented flowercycling® technology, this initiative not only diverts biodegradable waste from landfills, but also exemplifies responsible sourcing, purposeful design and inclusive growth. Seamlessly blending sustainability with refinement, it transforms post-use materials into objects of cultural and sensory significance—championing a circular, regenerative approach to modern luxury

# *The Soul of Timeless Hospitality*

*Hospitality is a celebration of people – their warmth, intuition, empathy and presence. At its best, it is a human art, where every gesture carries meaning and every interaction becomes a moment of connection. In luxury hospitality, guest experience is a direct reflection of employee experience. A thriving, emotionally engaged workforce becomes the true differentiator between good service and exceptional service. For any brand rooted in heritage and elevated by global standards, the quality of its people defines its legacy and future alike.*

At The Leela, our people bring Indian luxury to life with grace, poise and genuine care. We nurture a culture where tradition meets modern thinking and every individual is valued for who they are - empowered to embody The Leela's values in everyday actions and significant decisions alike. Here, our associates are encouraged to be themselves, grow with purpose, strive for excellence and support one another.

This commitment shines through every step of their journey with us, from meaningful onboarding experiences and inclusive engagement to personalised growth opportunities, holistic wellbeing and leadership development that prepares them for the future.

## Talent Management

As hospitality continues to evolve, so does the approach to talent. It's no longer about static roles or rigid hierarchies. Talent management is about building capabilities, fostering engagement and shaping future leaders from within. It is a dynamic process that aligns individual aspirations with organisational goals. At The Leela, we bring this philosophy to life with a people-first approach. We invest in identifying emerging talent and nurturing it through personalised development journeys. Mobility across roles, properties and locations gives our people the freedom to explore and grow. We empower them to take charge of their careers, while aligning their growth with our commitment to excellence.

## Key Initiatives

### Leela Leadership Development Programme (LLDP)

#### Cultivating Tomorrow's Luxury Hospitality Leaders

At The Leela, our people are our greatest asset. Rooted in the belief that exceptional hospitality stems from exceptional leadership, the Leela Leadership Development Programme (LLDP) is our premier management training initiative. It is designed to identify, develop and accelerate high-potential talent into senior leadership roles within the luxury hospitality sector. Launched in May 2022 in collaboration with the Indian School of Hospitality (ISH) and Les Roches, LLDP is more than a training programme—it's a strategic investment in the future of luxury hospitality. The 15 months curriculum integrates global best practices with the essence of Indian service excellence.

## Employee Engagement

In luxury hospitality, true engagement is rooted in human connection. It's about making people feel seen, heard and valued – not just as employees, but as individuals. At The Leela, engagement is not a concept; it is a lived experience shaped by our philosophy of LeelaCares and guided by the principles of Leela Dharmas.

When our associates feel included, recognised and cared for, they naturally extend that same warmth and attentiveness in every guest interaction. Through LeelaCares, we foster a culture of empathy, wellbeing and professional growth – ensuring that every individual feels supported and inspired.

Leela Dharmas provide a shared code of purpose and behaviour, encouraging integrity, collaboration and mindfulness in everything we do. From daily conversations to enterprise-wide initiatives, every touchpoint is intentionally designed to build trust, belonging and pride – ensuring that our people remain at the heart of our guest promise.

This philosophy comes alive through a variety of initiatives that create shared experiences, invite continuous feedback and nurture a vibrant internal culture:

### Key Initiatives

#### LeelaListens

At The Leela, listening is not a moment – it's a mindset. LeelaListens, our continuous listening platform launched in December 2024, deepens real-time dialogue with teams and strengthens our people-first approach. Insights from this have shaped initiatives focused on wellbeing and designing Managerial Capability Workshops to build more inclusive, supportive and empowered workplaces across our hotels.

#### Quarterly Townhalls

These are our key engagement forums where the hotel's leadership connects with associates to share business updates, key initiatives and performance highlights. It fosters transparency, alignment and team spirit – culminating in recognition of outstanding contributions.

#### Feedback and GM Interaction Forums

Various forums and initiatives have been instituted across our hotels to encourage feedback, celebrate achievements and enhance associate wellbeing. While every hotel adopts what is most relevant to its context, the following are examples of initiatives implemented at different units across the organisation such as Chai Pe Charcha, Drive and Thrive, Coffee with GM, GM Round Table, Fresh Eyes, First Impressions and a QR-Based Feedback system that enables anonymous suggestions to reach the GM directly, ensuring timely responses.

## Wellness Initiatives

### Well-being and Team spirit

To promote associate well-being and team spirit, hotels also conducts Zumba sessions, sports tournaments along with health & dental check-ups regularly.

## Hiring and Onboarding

Hiring is about more than meeting immediate needs. It is about selecting people who align with the organisation's values and vision. Onboarding plays an equally important role by creating a smooth transition and helping new employees feel confident, connected and ready to contribute from the start. At The Leela, hiring is a thoughtful and people-focused process. We look for individuals who bring not just skills, but also empathy, intuition and a growth mindset. Our onboarding journey begins with Aarambh at The Leela, a signature programme that introduces new hires to our legacy, values and culture. Every detail is designed to create a strong sense of belonging and ensure that each person feels welcomed, respected and inspired to grow with us. New joiners are greeted with traditional Indian rituals like aarti, tika and garlands, setting the tone for a workplace anchored in culture and care.

- Aarambh, our 90-day onboarding journey, blends personal touchpoints like buddy systems and family engagement with structured training and regular feedback loops.
- Fresh Eyes Sessions invite new hires to share early ideas, while the Pride Pin Ceremony marks their formal inclusion into The Leela community.

## Recognition and Rewards

Recognising effort and celebrating excellence are essential to building a motivated and high-performing workforce. When appreciation is timely, sincere and aligned with values, it strengthens engagement, boosts morale and reinforces the behaviours that drive success. At The Leela, recognition is part of our everyday culture. From spontaneous appreciation cards to property-level ceremonies and structured rewards platforms, we celebrate contributions both big and small. Our approach also includes peer-led recognition, where associates can nominate one another based on our core values.

- The Leela Excellence Awards are part of our ongoing commitment to celebrating excellence in a consistent and meaningful way. Each quarter, hotels host Townhalls with a standardised recognition framework to honour achievements across teams. At the corporate level, various awards have been instituted to highlight standout contributions that reflect our values and spirit—fostering alignment and a shared culture of celebration across all hotels. The Wall of Fame showcases achievers to inspire and recognise excellence across the organisation.
- **Long Service Awards** – Celebrating employee loyalty and milestone years of service at The Leela.

## Diversity and Inclusion

A truly inclusive workplace values different perspectives, experiences and identities. Diversity goes beyond representation. It is about creating a culture where everyone feels respected, heard and empowered to contribute fully. Inclusion drives innovation, resilience and deeper human connection.

At The Leela, diversity is a lived experience. We foster a culture of belonging where individuality is celebrated and inclusivity is central to how we work. Our approach is both practical and personal, supported by thoughtful policies, sensitisation programmes and strong leadership advocacy. This creates an environment where every team member can grow, thrive and feel genuinely valued.

Our commitment to inclusion comes alive through targeted efforts that support gender equity and work-life harmony. These initiatives encourage authentic expression and help every individual feel at home.

## Health and Safety

In a people-centric industry like hospitality, safety is more than a protocol – it is a daily expression of care. A strong safety culture safeguards physical wellbeing while nurturing mental and emotional resilience. At The Leela, this commitment is anchored in our Zero Harm vision, embedding anticipation, preparedness and personal accountability into everyday practices.

Every property undergoes annual risk assessments, with renewed safety audits at each leadership transition to maintain vigilance. Monthly, role-specific health and safety training is reinforced through regular drills and interactive sessions, empowering every associate to take ownership of safety. In FY 2024-25 alone, we delivered 56,727 training hours, achieving zero fatalities across our portfolio.

Our ISO-certified Palace properties integrate advanced fire safety systems, rigorous health protocols and wellness programmes to create a secure, serene environment. From meticulous food safety audits and hygiene practices to water quality testing and wellness access, every space – front and back of house – is maintained to the highest standards of care and compliance.

## Ethics and Grievance Management

Strong ethics and sound governance are essential to building trust within an organisation. A clear code of conduct, fair processes and accessible grievance mechanisms help create a culture of integrity, accountability and transparency at every level.

At The Leela, our ethical code is the cornerstone of a respectful and fair workplace. We provide multiple channels for grievance redressal, including anonymous reporting and an open-door policy with leaders. Managers are regularly sensitised on ethical leadership, ensuring they uphold both our internal code and the governance framework of Brookfield Asset Management.

- ABC and POSH refresher trainings conducted to reinforce ethical awareness and workplace safety.
- The Ethics Line is enabled for anonymous and safe grievance redressal.
- Suggestion boxes placed at convenient locations to encourage open employee feedback.

## Performance Insights Future Readiness

Evaluating performance is essential to nurturing talent and driving growth. A strong framework combines clear goals, regular feedback and forward-looking conversations to recognise achievements and motivate employees to deliver superior results and delightful guest experiences.

## Heritage and Communities Preserving India's Living Legacy

At The Leela, each palace is a living expression of India's rich cultural tapestry – where art, architecture and ritual converge to honour tradition and empower local communities. Our signature evening ceremonies, co-created with over 50 regional artists each day, offer guests an immersive journey through India's diverse heritage – blending music, dance, storytelling, fragrance and regional flavours.

From Kathak in Delhi and Yakshagana in Bengaluru to Carnatic rituals in Chennai, coastal performances in Kovalam and folk traditions across Jaipur, Udaipur and Gandhinagar, every property showcases a distinct cultural lens. In Ashtamudi, Kerala's artistic spirit unfolds through classical forms, while a tranquil Koi feeding ritual in Delhi reflects harmony and reflection.

More than performances, these rituals are a tribute to India's living legacy – designed to inspire, preserve and uplift.

## Community Initiatives – Compassion in Action

At The Leela, our legacy of luxury is complemented by a deep sense of purpose. We believe that true excellence extends beyond our properties – into the heart of the communities we touch.

Since 2021, The Leela has partnered with the Kailash Satyarthi Children's Foundation – now known as the Satyarthi Movement for Global Compassion – to support the Bal Mitra Gram (BMG) initiative. In the first phase of the partnership (2021–2024), we helped uphold child rights for over 3,456 children and supported the rise of 638 women leaders across 11 villages in rural Rajasthan.

In FY 2024–25, The Leela proudly continued this commitment into the second phase of the programme, expanding the initiative to 15 villages. Through compassionate, on-ground interventions, the programme impacted over 7,200 children and engaged more than 28,000 community members, addressing critical issues such as child labour, early marriage and access to education.

Social responsibility is woven into the fabric of The Leela's identity. Guided by our CSR Policy – which focuses on education, empowerment, environment, livelihood, culture and health and well-being – our initiatives continue to align with the UN Sustainable Development Goals. Anchored in compassion and delivered with care, our community programmes are designed to leave a legacy of dignity, inclusion and resilience.

## Responsible Sourcing

### *Partnering Ethically*

At The Leela, we are committed to building a transparent, ethical and sustainable supply chain that reflects our values of quality, integrity and environmental responsibility. All our vendors are comply with our Code of Conduct and Anti bribery and Anti-Corruption Policy, which safeguards human rights, workplace safety and environmental standards.

We emphasise partnerships with suppliers who align with our ESG goals – from certified sustainable wood and eco-friendly tiles in construction to ethically sourced ingredients in our kitchens. We also actively seek to partner with vendors from a variety of backgrounds, including women-led businesses and Micro, Small and Medium Enterprises (MSMEs).

## Jodhpur Mahila Griha Udyog: Stitching Stories of Empowerment

At The Leela, we believe that responsible sourcing is a conscious act of inclusion — one that elevates communities while enhancing guest experience. The Leela proudly partners with Jodhpur Mahila Griha Udyog (JMGU) — a women-led cooperative in Rajasthan dedicated to transforming artisanal craft into dignified livelihoods. Till date, we have proudly procured 2,62,572 embroidered jute bags, directly supporting the livelihoods of 37 women. These women, many of whom are first-generation income earners, create from their homes — enabling them to balance work with familial responsibilities, while gaining financial independence and recognition for their craft.

### This initiative:

- Preserves traditional Marwari embroidery techniques
- Strengthens rural livelihoods through dignified, home-based employment
- Infuses our sourcing with authenticity, regional identity and purpose

## Jalinga Tea Estate – Sustainably Steeped

At The Leela, excellence in sourcing extends beyond taste — it embraces sustainability, traceability and social impact. Our partnership with Jalinga Tea Estate, one of the world's first carbon-neutral, organic-certified tea gardens, is a reflection of this philosophy.

Renowned for its single-origin organic CTC and green teas, Jalinga's commitment to regenerative farming and low-impact production aligns with our vision of mindful luxury. Our wellness teas, featured across properties, are sourced from Jalinga — delivering not just flavour, but purpose.

With over 80% of its workforce comprising women, the estate promotes economic inclusion and empowerment at scale. By choosing Jalinga, we support a supply chain that is as ethically rooted as it is environmentally responsible.

In FY 2024-25, 28% of our tea was sourced from certified carbon-neutral, organic estates, reinforcing our commitment to conscious consumption — one cup at a time.

# Governance in Gilded Harmony

*At The Leela, governance is not a backdrop. It is the silent scaffolding that supports every choice, action and encounter. We blend disciplined oversight, principled decision-making and ethical stewardship with the refined cadence of luxury hospitality.*

As part of Brookfield Asset Management, one of the world's largest alternative investment firms, our governance is fortified by global best practices, institutional accountability and a long-term commitment to value creation.

Together, this integrated framework fosters resilience, reinforces trust and safeguards The Leela's legacy, across every guest interaction, stakeholder engagement and strategic inflection point.

# *MANAGEMENT DISCUSSION AND ANALYSIS*

# Global Economy

In CY 2025, the global economy stood at a pivotal crossroads, grappling with persistent headwinds even as subtle signs of resilience began to surface. The International Monetary Fund (IMF) estimated global GDP growth at 2.8% for the year, a discernible moderation from pre-pandemic trajectories, signalling a measured deceleration. This tempered pace of expansion mirrored the compounded effects of escalating trade frictions, enduring policy ambiguities and subdued consumer sentiment, particularly across advanced economies. Heightened geopolitical tensions cast a further pall over investor confidence, fragmenting global supply chains and unsettling established norms. Yet, in spite of these prevailing challenges, the world economy continued its forward march, revealing both its intrinsic fragility and an enduring capacity for adaptation.

## GDP Growth Projections (%)

P: Projected

## Outlook

The global economy is undergoing a profound structural recalibration driven by accelerating automation and technological innovation. While these changes boost productivity and create new growth opportunities, they also bring challenges like job displacement, wage stagnation and rising income inequality, especially in advanced economies. This uncertainty has dampened investor sentiment, tightened financial conditions and softened short-term growth prospects. However, the long-term outlook remains promising if supported by coordinated, proactive policies. Key actions include workforce reskilling, strong social protection and support for innovation ecosystems to build economic resilience and societal adaptability. With inclusive, forward-looking governance, the global economy can move toward more balanced, equitable and sustainable growth in the future.

## Indian Economy

The Indian economy growth rate was reported at 6.5% in FY 2024-25, sustaining its trajectory despite prevailing global economic headwinds. This performance highlights the resilience of India's domestic economic architecture and the disciplined efficacy of its calibrated policy framework in navigating enduring trade frictions and tariff-linked disruptions. Augmenting this consumption-led foundation are ongoing structural reforms, a sweeping digital transformation and sustained investments in infrastructure, all of which are reinforcing the strength and depth of India's macroeconomic fundamentals.

### GDP Growth Projections (in %)

P: Projected

India's economic transformation has been propelled by the swift rise of its middle class, which is projected to comprise between 50% and 70% of the population by CY 2030. This demographic evolution is reshaping consumption patterns across the country, shifting from price-conscious choices to more aspirational, experience-led spending. Additionally, the Union Budget 2025-26 introduced ambitious tax reforms, including raising the basic exemption limit to INR 0.4 million and eliminating tax for incomes up to INR 1.2 million under the new regime. These measures are aimed at boosting disposable income and household spending, with broader effects on consumption, savings and premium demand emerging over time.

(Sources: <https://www.businessworld.in/article/rising-middle-class-to-define-indias-next-golden-consumption-decade-555057>, <https://www.pib.gov.in/PressReleasePage.aspx?PRID=2098406>)

India's services sector continued to underpin the nation's economic trajectory, with growth estimated at a strong 7.2% for FY 2024-25. This momentum has been driven by strong performance across financial services, healthcare, hospitality and public administration.

(Source: <https://www.pib.gov.in/PressReleseDetailm.aspx?PRID=2022323>)

## Outlook

India is poised to sustain a strong real GDP growth of 6.5% between FY 2025-26 and FY 2027-28, ranking among the fastest-growing major economies. This growth is driven by robust private consumption in rural areas, an expanding middle class and rising incomes. Manufacturing and infrastructure are gaining momentum through initiatives like 'Make in India' and PLI schemes, alongside investments in transport, logistics and digital infrastructure. However, global risks, especially from the US and China, could impact exports, necessitating vigilance.

## Indian Hospitality Industry

The Indian hospitality industry features a broad and diverse structure, spanning branded and unbranded hotels, resorts, luxury properties, budget and midscale accommodations, serviced apartments and emerging alternative lodging formats. This is supported by ancillary sub-sectors like F&B outlets, event venues, wellness services and branded residences. Together, they serve various segments – from domestic and international leisure travellers to business and MICE guests – positioning the sector as a key economic driver. In CY 2024, the industry reinforced its role in the economy, with hotel transactions reaching US\$ 348 million, reflecting strong investment momentum, bullish market sentiment and a deeper structural transformation built on sound fundamentals. The year also saw a solid occupancy rate of 63–65%, highlighting consistent demand across categories. Average room rates stood at INR 7,800–8,000, while RevPAR ranged between INR 5,000–5,200, indicating a healthy balance between occupancy and pricing power.

# Indian Luxury Hospitality Industry

The Indian luxury hospitality industry is experiencing a pronounced growth trajectory, driven by rising affluence, expanding middle and upper-middle-class demographics and a heightened appetite for premium lifestyle experiences. Increased business travel, both domestic and international, is fuelling demand for upscale accommodations, particularly in metro and Tier-1 cities. At the same time, leisure travellers are demonstrating a distinct preference for immersive, experience-led stays, seeking cultural authenticity, tailored service and elevated amenities. This evolving consumer sensibility, combined with enabling government policies and ongoing improvements in infrastructure, is intensifying momentum within the luxury segment and cementing its role as a cornerstone of India’s evolving hospitality landscape.

## Growth Drivers

### Domestic Travel Set for Strong Growth Trajectory

Domestic tourism continues to serve as a powerful engine of growth for India’s hospitality industry, with domestic tourist visits projected to more than double from an estimated 2.8 billion in CY 2024 to over 6 billion by CY 2030. This reflects a strong CAGR of 13.4% between CY 2024 and CY 2030. The surge is being propelled by rising disposable incomes, improved national connectivity through expanded air, road and rail networks and ongoing investments in the development of diverse tourist destinations across the country.

### Foreign Traveller Visits are Expected to Grow in India

India’s appeal to international travellers has risen significantly, driven by its rich cultural heritage, diverse experiences and improved accessibility through modernised airport infrastructure. Government initiatives such as new tourism circuits, the PRASHAD scheme and progressive visa reforms have further strengthened India’s global positioning. These combined efforts are translating into tangible results, with foreign tourist arrivals projected to grow from 9.7 million in CY 2024 to 14.6 million by CY 2030, reflecting a CAGR of 7.1%. This sustained growth reflects a strong recovery beyond pre-pandemic levels, reaffirming India’s emergence as a preferred destination for international travel.

Foreign Tourist Arrivals (millions)

### Significant Under-Penetration in Indian Luxury Hospitality Industry

India’s luxury hospitality industry remains notably under-penetrated when compared to global benchmarks. As of March 31, 2024, India had only 23 luxury hotel keys per million people, a figure that pales in comparison to key Asia-Pacific (APAC) markets such as Australia (973), Thailand (690) and China (177). This under-penetration is part of a broader trend across the Indian hospitality sector, which, at just 263 organised hotel keys per million population, ranks significantly below the global average of 7,877.

In contrast, developed markets like the US (17,020), Australia (12,478) and the UK (10,811) exhibit far greater hotel density. In addition to nationwide under-supply, Indian cities also lag behind global peers in the concentration of luxury hotel keys. These disparities underscore a substantial supply-demand gap and highlight considerable untapped potential for upscale and luxury hospitality development across the country.

Traveller preferences in India’s luxury hospitality sector are shifting toward immersive, experience-led stays. Leveraging the country’s rich culture and diverse geography, segments like heritage tourism, wildlife safaris, spiritual retreats and wellness getaways are gaining traction. Driven by millennials seeking authentic, personalised experiences, this marks a move away from traditional leisure travel toward more meaningful, transformative journeys and bespoke luxury offerings.

Luxury Demand to Outpace  
Supply Amid Structural  
Constraints

India’s luxury hospitality segment has shown strong momentum, with steady growth in ARR and occupancy over the past decade. From FY 2013-14 to FY 2023-24, demand in the segment witnessed a 6.5% CAGR,

outpacing supply at 5.1%, creating a 140-bps gap. This is projected to widen to 490 bps by FY 2027-28, as demand accelerates at a CAGR of 13.7%, with the supply lagging at 8.8%. The imbalance is likely to be driven by rising disposable incomes, growing preference for premium travel and experiential stays. Supply constraints like land scarcity, regulations, high costs and long timelines continue to limit growth, positioning the sector for strong Average Room Rate (ARR) gains and strategic expansion opportunities.

Widening Demand Supply Gap in  
the Luxury Hospitality Industry

## Significant Headroom for ARR Growth in Indian Luxury Hospitality

As of FY 2024-25, ARRs in India’s luxury hospitality segment have remained significantly below global benchmarks, highlighting strong growth potential. In cities like Bengaluru and Delhi, ARRs stood at US\$ 174 and US\$ 209, compared to the global average of US\$ 579. Other markets like Hong Kong (US\$ 363), Bangkok (US\$ 382) and Singapore (US\$ 473) commanded higher rates, while Bali, Dubai and London exceeded US\$ 669. This disparity signals a strategic opportunity for operators and investors as rising demand and enhanced service standards drive ARRs toward global norms.

## Robust Push in Infrastructure

Aligned with the Viksit Bharat @ 2047 vision, the Union Budget 2025-26 had allocated INR 1,121 billion for infrastructure development, targeting improvements in air, road and rail connectivity. By virtue, India aims to increase its operational airports from 157 in CY 2024 to 350-400 by CY 2047E, while expanding its aircraft fleet from 800 to 1,400 units by CY 2029E. The national highway network is also projected to grow from 146,145 km to 200,000 km by CY 2037E, enhancing mobility, reducing travel time and unlocking broad tourism and economic opportunities nationwide.

## Strong Policy Support Driving Tourism Sector Expansion

The Central Government, alongside various state governments, is actively promoting travel and tourism as a key pillar of national growth. In the Union Budget 2025-26, INR 25 billion was allocated to the Ministry of Tourism, with over INR 24 billion dedicated to Central Schemes and key development projects. Flagship initiatives like 'Dekho Apna Desh' and 'Incredible India' were launched with an aim of positioning the country as a premier global tourism destination. Cultural campaigns such as 'Atithi Devo Bhava' reinforce India's ethos of hospitality, while the 'Fast Track Immigration-Trusted Travelers Program' (FTI-TTP) enhances travel ease for Indian nationals and OCIs. Additionally, the Ministry is encouraging states to grant 'Industry Status' to tourism, unlocking incentives like tax rebates, land concessions and GST benefits to spur investment and growth.

## ESG Principles Gaining Momentum in Indian Branded Hospitality

ESG priorities are increasingly influencing the strategic direction of India's branded hospitality sector, driving a shift toward sustainable and responsible operations. Environmentally, hotels are adopting energy-efficient infrastructure, renewable energy and advanced water and waste management systems. Socially, there's growing focus on fair labour practices, diversity, community engagement and responsible tourism. Stronger governance through transparency, ethics and risk management is also taking hold. Together, these ESG pillars are becoming essential to long-term value creation, stakeholder confidence and the sector's future global competitiveness.

## Outlook

India's hospitality sector is set for strong growth in CY 2025, building on the momentum of the past two years. This expansion is fueled by rising domestic tourism, specialised travel trends, a recovery in inbound tourism and infrastructure improvements. Government support remains crucial, with INR 25.41 billion allocated for tourism in the Union Budget FY 2025-26 and plans to develop 50 new destinations, enhancing regional appeal. Simultaneously, the expansion of commercial real estate — driven by GCCs, IT/ITes and startups — is boosting business and MICE travel. Integrated mixed-use developments are emerging as dynamic urban ecosystems, reinforcing the synergy between real estate and hospitality.

## Indian Hotel Industry

India’s hotel sector is undergoing a phase of vigorous expansion, driven by strong domestic tourism, rising business travel and a growing consumer inclination toward premium hospitality experiences. With continued infrastructure upgrades and robust policy support, the industry is well-positioned for long-term growth and sustained value creation. CY 2024 marked a pivotal moment for hotel brand signings in India, underscoring the sector’s accelerating momentum. Record-breaking signings were fuelled by surging travel demand and growing confidence among hotel operators, signalling heightened interest and enduring optimism in the country’s hospitality landscape. Total hotel revenue per room sold rose 10% year-on-year, led by wellness (14.1%), F&B (10.9%) and Conferences and Banquets (C&B) (9.9%). Compared to CY 2019, room revenue rose 48.6%, F&B 32% and Conferences & Banquets 36.3%, highlighting the sector’s evolution into a high-margin, experience-led, diversified revenue ecosystem.

This data signals a broader shift in revenue generation, with Indian hotels increasingly tapping into high margin ancillary services. India’s hospitality sector is evolving into a diversified revenue ecosystem, with wellness, events, and dining playing a bigger role than ever.

# Outlook

India’s hotel industry is on a strong upward trajectory, buoyed by a vibrant domestic travel market, expanding infrastructure and growing investor confidence.

In CY 2025, ARR is projected to average INR 9,000, supported by a healthy 67% occupancy rate, resulting in a RevPAR of INR 6,030. This growth momentum is expected to intensify in CY 2026, with ARRs reaching INR 10,000 and occupancy climbing to 70 percent, driving RevPAR to INR 7,000. By CY 2027, the outlook becomes even more promising, with ARRs anticipated to touch INR 11,000 and occupancy edging up to 71%, lifting RevPAR to INR 7,810.

The consistent rise across these metrics highlights the maturation of India’s hospitality ecosystem, characterised by greater pricing power, improved operational efficiency and expanding demand across both leisure and business segments. With wellness tourism, F&B and MICE emerging as dynamic growth verticals, the sector is evolving into a more diversified and resilient revenue engine, well-positioned to harness the next wave of domestic and international travel demand.

## Company Overview

Schloss Bangalore Limited (also referred to as 'The Leela,' 'SBL' or 'The Company') is a premier player in the Indian luxury hospitality sector, owning, operating, managing and developing world-class hotels and resorts under the prestigious 'The Leela' brand. Deeply inspired by the traditional Indian hospitality belief of 'Atithi Devo Bhava' (Guest is God), SBL is dedicated to delivering luxurious and personalised guest experiences that reflect the richness of Indian heritage, art and culture.

Headquartered in Mumbai, the Company is backed by a private real estate fund sponsored by Brookfield Asset Management. Under its strategic stewardship, The Leela has evolved into one of India's most distinguished luxury hospitality brands, with thirteen award-winning properties across major metropolitan hubs and premier leisure destinations. These include landmark hotels in New Delhi (the flagship), Bengaluru, Chennai, Udaipur, Jaipur, Gurugram, East Delhi, Mumbai, Gandhinagar, Kovalam, Ashtamudi and Hyderabad.

The Leela operates through an integrated business model encompassing ownership, operations, management and development of luxury hotels. This diversified approach is thoughtfully designed to maximise returns, amplify brand equity and serve the discerning needs of a broad spectrum of luxury travellers.

- **Owned and Operated Portfolio:** The Company directly owns and manages five marquee properties located in high-barrier, premium markets. These hotels accounted for 93.46% of FY 2024-25 income, with a RevPAR premium of 1.4x over industry benchmarks.

- **Managed Hotels:** Through hotel management agreements, The Leela oversees operations at seven third-party-owned hotels, contributing 4.31% to FY 2024-25 income. These agreements provide stable fee-based income while expanding brand reach with minimal capital outlay.
- **Franchise Model:** One hotel operates under a franchise arrangement, wherein The Leela licenses its brand and offers centralised services. This asset-light model enables incremental growth with limited operational involvement.

Each iconic property under the brand is a luxurious ode to its locale, offering thoughtfully curated architecture, authentic regional cuisine, local artistry, meaningful cultural rituals and immersive experiences. The Leela delivers not merely a stay, but a refined embodiment of Indian culture and gracious hospitality, upheld by an unwavering commitment to elegance and warmth.

Through a strategic marketing alliance with US-based Preferred Hotels and Resorts and as a member of the Global Hotel Alliance, SBL continues to extend The Leela's international footprint, while remaining deeply anchored in its Indian heritage.

As of March 31, 2025, SBL is one of India's largest pure-play luxury hospitality companies by number of keys, with a portfolio comprising 3,553 keys across 13 operational hotels. These include The Leela Palaces, The Leela Hotels and The Leela Resorts, each a benchmark of exclusivity, elevated accommodation and impeccable service.

<b>Profit/(Loss) for the year</b>	<b>342.35</b>	<b>(128.51)</b>

Presented below is an analysis of the significant items of the standalone financial statements.

## Income

Total Income increased to INR 4,741.70 million in FY 2024-25 from INR 3,518.95 million in FY 2023-24.

Revenue from operations increased by 16.33 percent to INR 3,751.11 million in FY 2024-25 from INR 3,224.42 million in the previous year. This was mainly on account of

- Improved average occupancy for The Leela Bengaluru property to 70% from 68% for the previous year.
- Improved ARR to INR 21,445 for the current year from INR 18,872 for the previous year. Further, RevPAR for the Company's Property increased by 16% to INR 14,947 for the current year from INR 12,918 for the previous year.

Other income rose significantly to INR 990.59 million in FY 2024-25 from INR 294.53 million in FY 2023-24, primarily due to (i) an increase in interest income on deposits with banks to INR 423.84 million in FY 2024-25 from INR 43.75 million in FY 2023-24, which was primarily driven by the increase in average amount of deposits placed with banks, (ii) interest income on inter-corporate deposits during FY 2024-25 and (iii) the increase in income from rentals.

## Expenses

Total expenses increased by 14.15% to INR 4,163.75 million in FY 2024-25 from INR 3,647.46 million in FY 2023-24, mainly due to higher cost of food and beverages, employee benefits and operating expenses.

Cost of food and beverages rose by 16.62% to INR 310.61 million, driven by higher consumption, though cost of food and beverages as a percentage of revenues from sale of food and beverages has declined to 19.51% from 20.13%. Employee benefits expense increased to INR 593.92 million due to annual increments and transfer of key managerial personnel salary to the parent company. Finance costs increased to INR 1,888.32 million owing to higher interest on compulsorily convertible preference shares, partially offset by savings from conversion of compulsorily convertible debentures and repayment of inter-corporate deposits. Depreciation and amortisation expense increased to INR 276.15 million due to additional capex. Other expenses rose to INR 1,094.75 million, mainly on account of higher marketing spends, legal and professional fees and commissions linked to increased OTA revenues.

## Tax Expenses

Total tax expense increased significantly to INR 235.60 million in FY 2024-25, primarily due to higher deferred tax expense for the current year.

## Cash Flows

Particulars	(INR million)	
	For the year ended March 31, 2025	For the year ended March 31, 2024
<b>Net cash flow generated from operating activities</b>	1,328.21	1,774.26

<b>Net increase/ (decrease) in cash and cash equivalents</b>	298.16	(311.40)

## Net Cash Generated from Operating Activities

Net cash generated from operating activities was INR 1,328.21 million for FY 2024-25 driven by Profit before tax of INR 577.95 million for FY 2024-25, which was primarily adjusted for depreciation and amortisation expense of INR 276.15 million and finance costs of INR 1,888.32 million and interest income of INR 646.57 million. The Company also paid income tax of INR 23.16 million in FY 2024-25.

## Net Cash Used in Investing Activities

Net cash used in investing activities was INR 59,561.48 million in FY 2024-25, mainly due to acquisition of subsidiaries INR 36,018.87 million, investment in CCPS INR 11,123.05 million, intercorporate deposits to subsidiaries INR 2,965.01 million, purchase of property, plant and equipment INR 695.09 million and investments in properties under construction INR 296.11 million. It also included creation of bank deposits of INR 36,731.78 million, partially offset by maturity of deposits of INR 26,855.47 million and interest income of INR 165.13 million.

## Net Cash Generated from Financing Activities

Net cash generated from financing activities was INR 58,531.43 million in FY 2024-25, mainly driven by proceeds from issuance of compulsorily convertible preference shares INR 62,210.30 million and borrowings INR 763.65 million and proceeds from borrowings from related party INR 459.40 million. This was partly offset by repayment of borrowing from related party of INR 2,100.37 million and repayment of borrowing of INR 784.37 million to other party. Further, finance costs of INR 1,232.96 million (excluding lease liabilities), INR 116.31 million on lease liabilities and INR 505.19 million interest on CCD conversion were also paid during the year.

<b>Profit/(Loss) for the year</b>	<b>476.58</b>	<b>(21.27)</b>

Presented below is an analysis of the significant items of the consolidated financial statements.

- The Leela's results of operations for FY 2024-25 as compared to FY 2023-24 were positively impacted by an improvement in the average occupancy for its Owned Portfolio to 68% from 67%.
- An increase in ARR for the Company's Owned Portfolio to INR 22,545 from INR 20,966.
- The full-year consolidation of The Leela Palace Jaipur pursuant to the acquisition of 100% equity interest on May 27, 2023, compared to partial consolidation in FY 2023-24.
- Further, RevPAR for the Company's Owned Portfolio increased by 9.09% to INR 15,306 for FY 2024-25 from INR 14,030 for FY 2023-24.

## Revenue from Operations

(INR million)

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
<b>(a) Sale of products:</b>		
Food and beverages revenue	4,781.73	4,317.12
<b>(b) Sale of services:</b>

Other allied services*	538.58	488.49
<b>Total Revenue from operations</b>	<b>13,005.73</b>	<b>11,714.53</b>

Revenue from operations increased by 11.02% to INR 13,005.73 million for FY 2024-25 from INR 11,714.53 million for FY 2023-24, primarily due to increases in:

- Room income increased to INR 6,800.17 million from INR 6,150.58 million, driven by The Leela Palace Jaipur acquisition, 0.97% higher occupancy and a 7.53% rise in ARR of the Company's owned portfolio.
- Revenue from food and beverages rose to INR 4,781.73 million from INR 4,317.12 million, supported by higher average revenue per cover, promotions, events and stronger demand from digital marketing initiatives.
- Income from other allied services grew to INR 538.58 million from INR 488.49 million, mainly due to The Leela Palace Jaipur acquisition and the increase in average occupancy levels and in line with the growth of revenues.
- Management and other operating fees increased to INR 698.20 million from INR 594.97 million, reflecting the overall growth in revenue from operations.
- Manpower services income rose to INR 187.05 million from INR 163.37 million, in line with higher revenues recognised by The Leela Gandhinagar.

## Other Income

(INR million)

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Interest income	577.31	213.25

Other gains/(losses)	(4.08)	(15.91)
<b>Total Other income</b>	<b>1059.83</b>	<b>550.47</b>

Other income increased by 92.53% to INR 1,059.83 million in FY 2024-25 from INR 550.47 million in FY 2023-24, primarily due to higher interest income on bank deposits to INR 559.29 million in FY 2024-25 compared to INR 201.06 million in FY 2023-24, mainly due to increased average deposit balances. The increase in other income was also driven by a grant received from the Government of Rajasthan under the Rajasthan Investment Promotion Scheme, 2014 of INR 129.13 million in FY 2024-25 as compared to INR 64.50 million in FY 2023-24 and reversal of liabilities no longer required amounting to INR 40.52 million.

## Expenses Cost of Food and Beverages Consumed

(INR million)

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Cost of food and beverages consumed during the year	947.46	849.80
Percentage to Food and Beverage Income	19.81%	19.68%

Cost of food and beverages consumed increased by 11.49% to INR 947.46 million in FY 2024-25 from INR 849.80 million in FY 2023-24, primarily due to higher consumption, partially offset by improved procurement efficiencies. As a percentage of revenues

from sale of food and beverages, this cost increased marginally to 19.81% in FY 2024-25 compared to 19.68% in FY 2023-24.

## Employee Benefits Expense

(INR million)			
Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024	% change
<b>Total Employee benefits expense</b>	2,732.42	2,342.86	16.63%

The increase in employee benefits expense was primarily due to the effect of The Leela Palace Jaipur Acquisition, annual increments given to employees as well as an increase in the total number of employees. The Company's employee benefits expense as a percentage of total income increased to 19.43% for FY 2024-25 from 19.10% for FY 2023-24. The Company had 2,657 permanent employees as of March 31, 2025 as compared to 2,583 permanent employees as of March 31, 2024.

## Finance Costs

(INR million)		
Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
<b>Total Finance costs</b>	4,581.67	4,326.21

Finance costs increased in FY 2024-25 mainly due to higher interest expense on non-convertible bonds, which rose to INR 645.50 million in FY 2024-25 from INR 444.12 million in FY 2023-24. In addition, interest expense on compulsory convertible debentures and preference shares increased to INR 588.13 million in FY 2024-25 from INR 484.31 million in FY 2023-24.

## Depreciation and Amortisation Expense

(INR million)		
Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
<b>Total depreciation and amortisation expenses</b>	1,399.29	1,479.76

Depreciation and amortisation expense decreased by 5.44% to INR 1,399.29 million in FY 2024-25 from INR 1,479.76 million in FY 2023-24, primarily because the Leela Brand was fully amortised in Q2 2024-25, resulting in lower amortisation expense for the year.

## Other Expenses

(INR million)		
Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
<b>Total Other expenses</b>	3,382.11	3,072.08

Other expenses increased by 10.09% to INR 3,382.11 million for the Financial Year 2025 from INR 3,072.08 million in FY 2024-25, primarily due to the effect of The Leela Palace Jaipur Acquisition and the overall growth of the Company's business. Specifically, the increase in other expenses was primarily due to increases in:

- Business promotion expenses to INR 645.41 million in FY 2024-25 as compared to INR 530.25 in FY 2023-24, primarily due to additional marketing events such as overseas marketing, digital marketing and events, promotions and brand ambassador signups conducted.
- Sales and credit card commission to INR 438.71 million in FY 2024-25 as compared to INR 358.47 million in FY 2023-24 driven by an increase in revenues from online travel agencies.
- Power and fuel costs to INR 445.20 million in FY 2024-25 as compared to INR 431.17 million in FY 2023-24 in line with the increase in the Company's operating levels.
- Repairs and maintenance to INR 431.64 million in FY 2024-25 as compared to INR 417.49 million in FY 2023-24, primarily on account of consolidation of the company holding The Leela Palace Jaipur.
- Miscellaneous expenses to INR 376.91 million in FY 2024-25 as compared to INR 284.49 million in FY 2023-24.

## Tax Expenses

Total tax expense increased significantly to INR 544.14 million for FY 2024-25 from INR 215.56 million for FY 2023-24, primarily due to higher deferred tax expense for FY 2024-25.

## Cash Flows

(INR million)

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Net cash flows generated from operating activities	5,528.79	5,387.84
Net cash flows (used in) investing activities	(57,297.32)	(7,860.10)
Net cash flows generated from financing activities	52,358.85	1,469.94
Net increase/(decrease) in cash and cash equivalents	590.32	(1,002.32)

### Net Cash Generated from Operating Activities

Net cash generated from operating activities was INR 5,528.79 million in FY 2024-25, driven by profit before tax of INR 1,020.72 million, adjusted mainly for depreciation of INR 1,399.29 million and finance costs of INR 4,581.67 million. This was partially offset by adverse working capital movements of INR 560.63 million and income tax payments of INR 105.06 million.

### Net Cash (Used in) Investing Activities

Net cash used in investing activities was INR 57,297.32 million in FY 2024-25, mainly due to the acquisition of subsidiaries amounting to INR 46,893.55 million, purchase of property, plant and equipment of INR 2,077.01 million, payments towards investment in properties under construction of INR 296.11 million, investment in joint venture of INR 143.20 million and cash used towards creating bank deposits amounting to INR 41,593.40 million. These outflows were partially offset by maturity of bank deposits of INR 33,255.55 million and interest income of INR 448.92 million.

### Net Cash Flows Generated from Financing Activities

Net cash generated from financing activities was INR 52,358.85 million in FY 2024-25. This was primarily due to proceeds from issuance of compulsorily convertible preference shares of INR 62,210.74 million and proceeds from borrowings amounting to INR 1,343.20 million, partially offset by finance costs paid other than on lease liabilities of INR 4,166.47 million, repayments of borrowings of INR 3,176.04 million, finance costs paid towards lease liabilities of INR 140.94 million and interest paid on CCD Conversion (conversion of compulsorily convertible debentures) amounting to INR 3,726.91 million.

## Risks and Their Mitigation Strategy

Risks	Impact	Mitigation Strategy
<b>Economic slowdown or geopolitical instability</b>	Reduced travel and discretionary spending may lower occupancy and room rates across properties.	Diversify geographic presence across domestic leisure, business, spiritual and emerging tourism destinations to reduce dependency on any single demand segment. Maintain dynamic inventory management and curated experiential offerings to attract high-value domestic travellers.
<b>Deterioration in the quality or reputation of 'The Leela' brand</b>	May lead to loss of guest trust, reduced demand and negative publicity, adversely affecting business, financial condition and results of operations.	Strict quality checks, contractual safeguards with third parties, proactive reputation management and control over trademark usage under licensing agreements. Signature experiences like Aujasya by The Leela, award-winning F&B and consistent service excellence rooted in Atithi Devo Bhava help uphold brand equity.
<b>Delays or risks associated with the renovation and refurbishment of existing hotels</b>	May lead to extended property downtime, revenue loss and increased operational costs, affecting overall business performance and cash flow.	Plan renovations in phased blocks to ensure business continuity. Establish robust project governance frameworks with milestone-based reviews, qualified vendor networks and escalation mechanisms to ensure timeliness, quality and budget adherence.
<b>Delays or defaults in payment by customers</b>	May lead to increased bad debts, reduced cash flows and adverse effects on financial condition and operations.	Strengthen credit control through systematic profiling and due diligence of large clients and B2B partners. Leverage automated receivables tracking, early warning systems and appropriate provisioning norms. Promote pre-payment and digital settlement channels where feasible.
<b>Difficulty in ascertaining land ownership due to non-uniform and incomplete land records in India</b>	May hinder the ability to identify or rectify title defects, affecting development or acquisition of new hotels and properties.	Conducting thorough due diligence, legal verification and ongoing engagement with local authorities to validate and update land ownership records.
<b>Loss or infringement of intellectual property rights</b>	May hinder the ability to identify or rectify title defects, affecting development or acquisition of new hotels and properties.	Safeguard IP through timely trademark registration, global brand monitoring and legal enforcement where required. Regularly audit all brand assets and ensure clarity in franchise, management and licensing contracts regarding brand use.
<b>High and recurring operational expenses</b>	May adversely affect business performance if not effectively managed, especially during demand downturns.	Adopt a cost-discipline culture across the Company, with emphasis on energy efficiency, lean staffing models and technology-driven optimisation. Benchmark procurement, renegotiate vendor contracts and flex operating models to demand variability.
<b>Foreign ownership and regulatory restrictions under Indian law</b>	May restrict access to domestic borrowings and foreign investments, impacting funding and expansion plans.	Ensure compliance with foreign exchange regulations and explore alternative funding and investment structures.

## Human Resources

People are at the heart of the Company's success and the exceptional luxury experiences delivered under The Leela brand. The Company is deeply committed to fostering a high-performance, inclusive and values-driven work culture that empowers individuals across all levels of the Company. With a strong focus on talent development, SBL actively invests in continuous learning, leadership training and skill enhancement through initiatives such as The Leela Leadership Development Programme, designed to cultivate future-ready hospitality professionals. Diversity, equity and inclusion are foundational to the Company's human resources strategy, ensuring a respectful and collaborative workplace where every individual is enabled to thrive. This commitment is reflected in initiatives such as Shefs by The Leela, which champions gender diversity in culinary leadership. The Company also places considerable emphasis on employee well-being, offering comprehensive wellness programmes, structured engagement initiatives and clearly defined career progression pathways. By seamlessly aligning its human capital strategy with long-term business goals, SBL continues to nurture a motivated, agile and service-driven workforce, one that consistently upholds the authenticity and excellence synonymous with The Leela brand.

As of March 31, 2025, the Company had 2,657 permanent employees on its payroll.

## Corporate Social Responsibility (CSR)

At SBL, CSR is a core commitment aligned with the Company's values and guided by the requirements of the Companies Act, 2013. The Company has adopted a formal CSR policy that reflects its dedication to driving inclusive and sustainable development across communities.

## Internal Control Systems and Their Adequacy

SBL has instituted a well-integrated and resilient internal financial control framework, aligned with the operational scale and strategic objectives of the Company under The Leela brand. These controls are designed not only to ensure the integrity of financial and operational reporting but also to support compliance with applicable laws, regulations and internal policies.

The Internal control system encompasses key areas such as accurate financial documentation, asset protection, regulatory adherence and policy compliance. It also includes structured approval processes with clearly defined authority levels (DOA) for both capital and operational expenditures, fostering strong financial discipline across the organisation.

Internal controls are also reviewed through a comprehensive internal audit process in coordination with the inhouse audit and risk team and the external big four firms. This audit is conducted for every operational unit including the corporate office, ensuring that all areas of the organization are reviewed for compliance and efficiency. This thorough review helps maintain the organization's overall health and integrity, fostering trust among stakeholders and supporting continuous improvement.

Oversight of the above controls is maintained through an active and engaged Audit Committee, which works closely with the management team. The Committee routinely reviews the effectiveness of the internal control systems and incorporates feedback from both internal and external auditors. This ensures a dynamic approach to risk management and internal compliance.

Regular reporting to the Board of Directors reinforces transparency and governance, while the Company remains proactive in identifying areas for improvement. Although SBL recognises that no system can completely eliminate all risks, it remains committed to enhancing its internal controls through periodic assessments and ongoing refinements, ensuring that they remain effective, relevant and robust in a changing business environment.

## 1. COMPANY’S PHILOSOPHY ON CODE OF GOVERNANCE

As we usher in another year of growth and innovation, we reaffirm our unwavering commitment to governance as the foundation of our corporate culture and the guiding principle behind every decision and action. At the heart of our philosophy lies the conviction that governance transcends mere regulatory compliance, it is an enduring value that defines our conduct, shapes our responsibilities, and governs our interactions with all stakeholders.

We recognize that robust governance practices are indispensable to sustaining stakeholder trust, fostering long-term value creation, and securing the interests of our shareholders. With this in mind, we embrace a progressive and forward-thinking approach, continually refining our policies, procedures, and organizational structures to remain responsive to an evolving business landscape and the dynamic expectations of our stakeholders.

## 2. BOARD OF DIRECTORS (“BOARD”)

### Composition of Board

The Company’s governance framework is anchored by its Board, which plays a pivotal role in providing strategic direction and oversight. The Board comprises a well-balanced and diverse group of Executive and Non-Executive Directors with a majority comprising Non-Executive and Independent Directors. This composition

ensures compliance with the provisions of the Companies Act, 2013 (“the Act”) and the SEBI Listing Regulations, 2015. All Directors are competent and experienced personalities in their respective fields. The Chairman of the Board is Mr. Deepak S. Parekh, Independent Director of the Company.

As on March 31, 2025, the Board comprises of 8 (Eight) Directors out of which 1 (One) Director is Executive, 3 (Three) Directors are Non-Executive Independent, including one Woman Independent Director and 4 (Four) Directors are Non-Executive Non-Independent.

In accordance with Regulation 26(1) of the SEBI Listing Regulations, none of the Directors holds membership in more than ten (10) committees or serves as Chairperson of more than five (5) committees across all public limited companies in which they hold directorships. For this purpose, only Audit Committee and Stakeholders Relationship Committee are considered. Further, none of the Directors hold Directorships in more than 20 Companies including 10 Public Companies pursuant to the provisions of Section 165 of the Act. All Directors have duly disclosed their directorships and committee memberships/chairpersonships as required under applicable laws.

Each Independent Director has submitted a declaration confirming compliance with the criteria of independence prescribed under Section 149(6) of the Act and Regulation 16(1)(b) of the SEBI Listing Regulations. They have also affirmed that they are not aware of any circumstances that could compromise their ability to exercise independent judgment. Furthermore, all Independent Directors have confirmed compliance with the requirements of Rule 6(1) and 6(2) of the Companies (Appointment and Qualification of Directors) Rules, 2014, pertaining to inclusion of their names in the data bank maintained by the Indian Institute of Corporate Affairs (IICA).

# Independent Auditor's Report

To the Members of **Schloss Bangalore Limited** (formerly known as “Schloss Bangalore Private Limited”)

## Report on the Audit of the Standalone Financial Statements

### OPINION

We have audited the standalone financial statements of **Schloss Bangalore Limited** (formerly known as “Schloss Bangalore Private Limited”) (the “Company”) which comprise the standalone balance sheet as at 31 March 2025, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

### BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

## MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITIES FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is

## Independent Auditor's Report (Contd.)

a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are

inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Act, where applicable, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

- (xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) We have considered the internal audit reports of the Company issued till date for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.
- (b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.
- (c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.
- (d) According to the information and explanation provided to us, there is no core investment company within the Group (as per the provision of Core Investment Company (Reserve Bank) Directors 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The requirements as stipulated by the provisions of Section 135 are not applicable to the Company. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

## Annexure B

to the Independent Auditor's Report on the Standalone Financial Statements of Schloss Bangalore Limited (formerly known as "Schloss Bangalore Private Limited") for the year ended 31 March 2025

**Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act (Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

### OPINION

We have audited the internal financial controls with reference to financial statements of Schloss Bangalore Limited (formerly known as "Schloss Bangalore Private Limited") ("the Company") as of 31 March 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

### MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

## Annexure B (Contd.)

to the Independent Auditor's Report on the Standalone Financial Statements of Schloss Bangalore Limited (formerly known as "Schloss Bangalore Private Limited") for the year ended 31 March 2025

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

(All amounts are in Rupees million except as otherwise stated)

## 1 COMPANY INFORMATION

Schloss Bangalore Limited (“the Company”) an Indian subsidiary of Project Ballet Bangalore Holdings (DIFC) Private Limited was incorporated on 20 March 2019 under the provisions of Companies Act, 2013 and started its operations effective 17 October 2019 by acquiring Bangalore hotel undertaking of HLV Limited. The Company is in the hospitality industry and operates hotel under the brand name of “THE LEELA”.

## 2 BASIS OF PREPARATION, CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS, MATERIAL ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

Rounding of amounts :

All Amounts disclosed in the financial statements and notes have been rounded off to the nearest million as per the requirement of Schedule III, unless otherwise specified.

### 2.1 Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (“Ind AS”) as prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 and other provisions of the Companies Act, 2013 (“the Act”) as amended from time to time. The financial statements are prepared in Indian rupees in million.

#### Historical cost convention

The financial statements have been prepared on historical cost basis, except for the following -

- certain financial assets and liabilities - measured at fair value; and
- defined benefit plans - plan assets measured at fair value.

The financial statements are approved for issue by the company’s Board of directors on May 06, 2025.

### 2.2 Critical Accounting estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions, that affect the reported balances of assets and liabilities, accompanying disclosures and accompanying disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements pertain to:

- Useful Lives of Property, Plant and Equipment: The Company has estimated useful life of each class of assets based on the nature of assets, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, etc. The Company reviews the useful life of property, plant and equipment as at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. Refer Note 3 for further details.
- Impairment Testing: Property, plant and equipment and other intangible assets that are subject to depreciation/ amortisation are tested for impairment periodically including when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to sell. The calculation involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions. Refer Note 5 for further details. Goodwill is tested for impairment annually.

# Notes to Standalone Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

- **Income Taxes:** Deferred tax assets are recognised to the extent that it is regarded as probable that deductible temporary differences can be realised. The Company estimates deferred tax assets and liabilities based on current tax laws and rates and in certain cases, business plans, including management's expectations regarding the manner and timing of recovery of the related assets. Changes in these estimates may affect the amount of deferred tax liabilities or the valuation of deferred tax assets and thereby the tax charge in the Statement of Profit and Loss. Refer Note 32 for further details.

Provision for tax liabilities require judgements on the interpretation of tax legislation, developments in case laws and the potential outcomes of tax audits and appeals which may be subject to significant uncertainty. Therefore the actual results may vary from expectations resulting in adjustments to provisions, the valuation of deferred tax assets, cash tax settlements and therefore the tax charge in the Statement of Profit and Loss. Refer Note 32 for further details.

- **Defined Benefit Plans:** The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each Balance Sheet date.

The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value and the fair value of any plan assets are deducted.

Refer Note 40 for further details.

- **Leases:** The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Refer Note 4 for further details.
- **Fair value Measurement of Financial Instruments:** The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. This involves significant judgements in the selection of a method in making assumptions that are mainly based on market conditions existing at the Balance Sheet date and in identifying the most appropriate estimate of fair value when a wide range of fair value measurements are possible. Refer Note 33 for further details.
- **Contingent Liability:** The management evaluates possible obligation that arises from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The estimates of outcome and financial effect are determined by the judgement of the management of the entity, supplemented by experience of similar transactions and, in some cases, reports from independent experts. Refer Note 37 for further details.

# Notes to Standalone Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

- Impairment of financial assets: For trade receivables, the Company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables. The expected credit loss allowance is an estimate based on the ageing of the receivables that are due and rates used in a provision matrix.

## 2.3 Going Concern

The Company has generated profit of Rs.344.56 million during the year ended 31 March 2025, has accumulated losses of Rs.3,671.07 million and net worth of Rs.63,427.71 million at 31 March 2025 and as of that date, the Company's current assets exceeded its current liabilities by Rs.2,127.01 million.

The Company has assessed its capital and financial resources, profitability and overall liquidity position. In developing the assumptions and estimates relating to the future uncertainties in the economic conditions, the Company as at the date of approval of these financial statements has used internal and external sources of information and based on current estimates, expects to recover the carrying amounts of assets.

In view of the above, along with financial support from its shareholders, the Company believes that it will be able to meet all its contractual obligations and liabilities as and when they fall due in near future and accordingly, these financial statements have been prepared on a going concern basis.

## 2.4 Current / Non-current classification

All assets and liabilities are classified into current and non-current.

### Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;

- c. it is expected to be realised within 12 months after the reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of assets.

All other assets are classified as non-current.

### Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the balance sheet date; or
- (d) the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current liabilities.

All other liabilities are classified as non-current.

### Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

### 2.5 Material Accounting Policies

#### a) Foreign currency translation

- (i) Functional and presentation currency

The functional currency of the Company is Indian Rupee.

- (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation. A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as a part of the entity's net investment in that foreign operation. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

- (iii) Subsequent measurement

Foreign currency transactions subsequently are accounted using the exchange rates as at that date and difference, if any, between the exchange rates as at the subsequent date and the date of the balance sheet is recognised as income or expense in the Statement of Profit and Loss.

#### b) Cash flow statement

Cash flows are reported using indirect method, whereby profit / (loss) before tax for the year is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

#### b1) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

#### c) Earnings per share

Basic earnings per share is computed by dividing the profit or loss after tax by the weighted average number of equity shares outstanding during the year adjusting the bonus element for all the reported period arising on account of issue of equity shares on rights and including potential equity shares on compulsory convertible debentures. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the effects of all dilutive potential equity shares. Ordinary shares that will be issued upon the conversion of a mandatorily convertible instrument are included in the calculation of basic earnings per share from the date the contract is entered into.

#### d) Revenue recognition and other income

Revenue is recognised at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring the goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and discounts.

# Notes to Standalone Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

## Income from operations-

**Rooms, Food and Beverage & Banquets:** Revenue is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and banquet services which is recognised once the rooms are occupied, food and beverages are sold and banquet services have been provided as per the contract with the customer.

**Other Allied services:** In relation to laundry income, communication income, health club income, airport transfers income and other allied services, the revenue has been recognised by reference to the time of service rendered.

**Membership Fees:** Membership fee income majorly consists of membership fees received from the loyalty programme and Chamber membership fees. In respect of performance obligations satisfied over a period of time, revenue is recognised at the allocated transaction price on a time-proportion basis.

Some contracts include multiple performance obligations, such as sale of food and beverages and room revenue. These are considered as separate performance obligations as, the customer can benefit from the good or service on its own and the good or services are distinct within the context of the contract. Where the contracts include multiple performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices.

A contract asset viz. Unbilled revenue is recognized in respect of those performance obligations where the control of the goods has been transferred to the buyer or services are provided to the customer, and only the act of invoicing is pending.

A contract liability is recognised where the customer has paid in advance, but the services are yet to be rendered by the Company or the payment exceeds the services rendered.

A deferred revenue is recognised for revenue where performance obligations under the sales contract are to be satisfied.

The company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the company does not adjust any of the transaction prices for the time value of money.

## Space and Shop Rentals

Rentals basically consists of rental revenue earned from letting of spaces for retails and office at the properties. Revenue is recognised over the tenure of the lease/service agreement on a straight line basis over the term of the lease, except where the rentals are structured to increase in line with expected general inflation, and except where there is uncertainty of ultimate collection.

## Interest income

Interest income is recognised on a time proportion basis taking into account amount outstanding using effective interest rate applicable.

## Government Grants

Government grants/incentives that the company is entitled to on fulfillment of certain conditions, but are available to the Company only on completion of some other conditions, are recognised as income on actual receipt of incentive/ grants.

## e) Property, plant and equipment

Property, plant and equipment are stated at cost which includes capitalised borrowing costs, less accumulated depreciation (other than freehold land) and accumulated impairment losses, if any.

## Notes to Standalone Financial Statements (Contd.)

### for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

All property, plant and equipment are initially recorded at cost. Cost includes the acquisition cost or the cost of construction, including duties and non-refundable taxes, expenses directly related to bringing the asset to the location and condition necessary for making them operational for their intended use. Initial estimate of costs of dismantling and removing the item and restoring the site on which it is located is also included if there is an obligation to restore it.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Depreciation is charged to the Statement of Profit and Loss so as to expense the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight line method, as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets had been re-assessed as under based on technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support, etc.

The useful lives have been determined as per the useful life prescribed in Schedule II to the Companies Act, 2013. The residual values are not more than 5% of the original cost of the asset.

Based on the above, the estimated useful lives of the property, plant and equipment are as follows:

Category of assets	Useful life as per Schedule II (in years)	Useful life as per Technical Assessment (in years)
Buildings	60 years	60 years
Plant and machinery	15 years	10 years to 15 years
Plant and machinery - Windmill	25 years	25 years
Furniture and fixtures	8 years	8 years
Office equipments	5 years	Not Applicable
Computers	3 years	Not Applicable
Data processing units	6 years	Not Applicable
Vehicles	6 years	Not Applicable

Freehold land is not depreciated. The assets' useful lives and residual values are reviewed at the Balance Sheet date and the effect of any changes in estimates are accounted for on a prospective basis. An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Capital work-in-progress represents projects under which the property, plant and equipment are not yet ready for their intended use and are carried at cost determined as aforesaid.

#### f) Intangible assets

Intangible assets are initially measured at acquisition cost including any directly attributable costs of preparing the asset for its intended use and are carried at cost less accumulated amortisation and accumulated impairment losses.

# Notes to Standalone Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

Intangible assets with finite lives are amortised over their estimated useful economic life and assessed for impairment, whenever there is an indication that the intangible asset may be impaired. Intangible assets with indefinite useful lives are tested for impairment at least annually and whenever there is an indication that the asset may be impaired. The estimated useful life used for amortising for intangible assets is as under:

Class of asset	Estimated useful life
Computer software	6 years
Right to use (car park space)	60 years

An intangible asset is derecognised on disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss, when the asset is derecognised.

Goodwill is measured at cost less any accumulated impairment losses. Goodwill attributable to the acquisition of Bangalore hotel undertaking of HLV Limited is, from the acquisition date, allocated to cash-generating units that are expected to benefit from the combination.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

### g) Investment properties

Investment properties, principally office buildings, are held for long-term rental yields and are not occupied by the Company. They are carried at cost. Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Investment properties generally have useful lives of 60 years for building and land is not depreciated. The useful lives have been taken as per schedule II. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised only when future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment property under Construction represents projects under which the Investment property are not yet ready for their intended use and are carried at cost determined as aforesaid.

### h) Impairment of assets

Assets that are subject to amortisation/depreciation and goodwill are reviewed for impairment periodically including whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. Where the asset does not generate

# Notes to Standalone Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss. When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss to the extent that it eliminates the impairment loss which has been recognised for the asset in prior years.

### i) Taxation

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity, respectively.

#### Current tax

Current tax expenses are accounted in the same period to which the revenue and expenses relate. Provision for current income tax is made for the tax liability

payable on taxable income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

#### Deferred tax

Deferred income tax is recognised using the balance sheet approach. Deferred tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred tax arises from the initial recognition of goodwill, an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction and does not give rise to equal taxable and deductible temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

(All amounts are in Rupees million except as otherwise stated)

## j) Employee benefits

### Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include salary, wages and bonus, short term compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits (including compensated absences) expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period of rendering of service by the employee.

The obligations are presented as current liabilities in the balance sheet if the Company does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

### Long term employee benefits

#### Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company's contribution to provident fund and employee state insurance scheme are considered as defined contribution plans and are recognized as an expense when employees have rendered service entitling them to the contributions.

#### Defined benefit plans

##### *(Post-employment benefit)*

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value and the fair value of any plan assets are deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the

Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on government securities as at the balance sheet date. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan ("the asset ceiling").

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

### Other long-term employee benefits

#### Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences beyond twelve months and utilise it in future service periods or received cash compensation on termination of employment. The Company records obligation for compensated absences in the period in which the employee renders services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the Projected Unit credit method. The discount rates used for determining the present value of the liability is based on the market yields on Government securities as at the balance sheet date. Actuarial gains and losses are recognized immediately in the statement of profit & loss.

# Notes to Standalone Financial Statements (Contd.)

(All amounts are in Rupees million except as otherwise stated)

## k) Inventories

Stock of food and beverages and stores and operating supplies are carried at the lower of cost (computed on a weighted average basis) or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost includes the fair value of consideration paid including duties and taxes (other than those refundable), inward freight and other expenditure directly attributable to the purchase. Trade discounts and rebates are deducted in determining the cost of purchase.

## l) Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a binding present obligation. This may be either legal because it derives from a contract, legislation or other operation of law, or constructive because the Company created valid expectations on the part of third parties by accepting certain responsibilities. To record such an obligation it must be probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation. The amount recognised as a provision and the indicated time range of the outflow of economic benefits are the best estimate (most probable outcome) of the expenditure required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Non-Current provisions are discounted for giving the effect of time value of money.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

Provisions, contingent assets and contingent liabilities are reviewed at each balance sheet date.

## m) Financial instruments

### (i) Classification

The company classifies its financial assets in the following measurement categories

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

### (ii) Recognition

Regular way purchases and sales of financial assets are recognised on trade-date, being the date on which the company commits to purchase or sale the financial asset.

### (iii) Measurement

At initial recognition, the Company measures a financial asset at its fair value (trade receivables is measured at transaction price) plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

## - Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in Other Income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

## - Equity instruments

The company subsequently measures all equity investments at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognised in profit or loss as other income when the company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

## Compound financial instruments

Compound financial instruments issued by the Company comprise convertible debentures denominated in INR that can be converted to equity shares at the option of the holder during the tenure of the instrument, when the number of shares to be issued is fixed and does not vary with changes in fair value. The liability component of compound financial instruments is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts. Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequently. Interest related to the financial liability is recognised in profit or loss (unless it qualified for inclusion in the cost of an asset). On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognised.

## Trade and other receivables

A trade receivable without a significant financing component is initially measured at the transaction price.

Other receivables are recognised initially at fair value plus or minus transaction costs and subsequently measured at amortised cost using the effective interest method, less loss allowance.

### Classification & measurement of financial liabilities

#### Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method. If payment is expected in one year or less, they are classified as current liabilities. If not, they are presented as non-current liabilities.

#### Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of profit or loss over the period of the borrowings using the effective interest rate method.

Borrowings are classified as non-current liabilities if the Company has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date. If not, they are presented under current borrowings.

#### Derecognition of financial asset & financial liabilities

A financial asset (or, a part of a financial asset) is primarily derecognized when:

- (i) The contractual right to receive cash flows from the financial assets expire, or
- (ii) The Company transfers the financial assets or its right to receive cash flow from the financial assets and substantially all the risks and rewards of ownership of the asset to another party.

A financial liability (or, a part of financial liability) is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

### Gain or loss on derecognition

Gain or loss on derecognition of a financial asset or liability measured at amortised cost is recognized in the statement of profit and loss at the time of derecognition. Derecognition gain/loss on financial assets other than equity instruments measured at FVOCI is recycled to profit or loss. Gain or loss on derecognition of equity instruments measured at FVOCI is never recycled to profit or loss.

### Impairment of financial assets

The Company assesses on a forward-looking basis the expected credit losses associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in a provision matrix. For other financial assets (not being equity instruments or debt instruments measured subsequently at FVTPL) the expected credit losses are measured at the 12 month expected credit losses or an amount equal to the lifetime expected credit losses if there has been a significant increase in credit risk since initial recognition.

### Offsetting of financial asset and liabilities

Financial assets and liabilities are offset and the net amount reported in the balance sheet where Company currently has a legally enforceable right to offset the recognized amounts, and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

## n) Leases

### i. As a lessee

On inception of a contract, the Company assesses whether it contains a lease. A contract contains a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The right to use the asset and the obligation under the lease to make payments are recognised in the Company's statement of financial position as a right-of-use asset and a lease liability.

#### Right of use assets

The right-of-use asset recognised at lease commencement includes the amount of lease liability recognised, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received. Right-of-use assets are depreciated over the shorter of the asset's estimated useful life and the lease term. Right-of-use assets are also adjusted for any re-measurement of lease liabilities and are subject to impairment testing. Residual value is reassessed annually.

#### Lease Liabilities

The lease liability is initially measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments (including 'in-substance fixed' payments) and variable lease payments that depend on an index or a rate, less any lease incentives receivable, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option and payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease. 'In-substance fixed' payments are payments that may, in form, contain variability but that, in substance, are unavoidable. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease term includes periods subject to extension options which the Company is reasonably certain to exercise and excludes the effect of early termination options where the Company is reasonably certain that it will not exercise the option. Minimum lease payments include exercise price a purchase option if the Company is reasonably certain it will purchase the underlying asset after the lease term.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the 'in-substance fixed' lease payments or as a result of a rent review or change in the relevant index or rate.

#### Variable lease

Variable lease payments that do not depend on an index or a rate are recognised as an expense in the period over which the event or condition that triggers the payment occurs.

#### Short-Term Leases and Leases of Low-Value Assets

The Company has opted not to apply the lease accounting model to leases of low-value assets or leases which have a lease term of 12 months or less and don't contain purchase option. Costs associated with such leases are recognised as an expense on a straightline basis over the lease term.

#### Disclosure of lease liabilities and assets in balance sheet

The Company presents right-of-use assets that do not meet the definition of 'investment property' and 'property, plant and equipment' separately in the balance sheet and lease liabilities separately in the balance sheet within 'Financial Liabilities'.

# Notes to Standalone Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

## ii. As a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

## iii. Classification of lease

To classify each lease the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease, if not, it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

## o) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition or construction of qualifying assets that necessarily takes substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds.

Interest income earned on temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Borrowing costs that are not directly attributable to a qualifying asset are recognised in the Statement of Profit and Loss using the effective interest rate method.

## 4 LEASES

This note provides information for leases where the Company is a lessee. The Company leases hotel premises, plant and machinery and houses for employee accommodation. Rental contracts are typically made for fixed periods of 11 months to 36 years, but may have extension and termination options as described in (iii). The weighted average discount rate for lease liabilities is 10.5 % p.a.

### (i) The balance sheet shows the following amounts relating to leases:

	As at March 31, 2025	As at March 31, 2024
<b>Right-of-use assets</b>

The total cash outflow for leases for the year ended March 31, 2025 was Rs. 116.31 million (March 31, 2024 Rs. 114.43 million)

# Notes to Standalone Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

### (iii) Extension and termination options

Extension and termination options are included in a number of residential accommodation leases across the Company. These are used to maximise operational flexibility in terms of managing the assets used in the Company's operations. The majority of extension and termination options held are exercisable only if agreed by both the Company and the lessor. The termination option of the hotel premises leased by the Company held are exercisable only by the lessee.

### Critical judgements in determining the lease term:

The Company assesses at lease commencement whether it is reasonably certain to exercise the extension and termination options. The Company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its control and affects whether the Company is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

Goodwill is initially recognised based on the accounting policy for business combinations and is tested for impairment annually.

## Impairment testing

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any.

The Company tests goodwill for impairment at least annually, or more frequently if events or changes in circumstances indicate that it might be impaired. For the purpose of impairment testing, goodwill, which arose on acquisition of the assets/entities, is allocated to a cash generating unit "CGU" representing the lowest level with the company at which goodwill is monitored for internal management reporting purposes. The carrying value of the cash generating unit is the carrying value of the net assets of the entity.

The recoverable value in use of the CGU is determined on the basis of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

The carrying amount of goodwill is Rs. 757.20 million (March 31, 2024 - Rs. 757.20 million). The estimated value-in-use of this CGU is based on the future cash flows using a 5% annual growth rate for periods subsequent to the forecast period of 5 years and a discount rate (pre-tax) of 12.50% p.a. An analysis of the sensitivity of the computation to a change in key parameters (EBITDA, discount rates and terminal value), based on reasonable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

The outcome of the Company's goodwill impairment test as performed in March 2025 did not result in any impairment of goodwill.

### (iv) Contractual obligations

See note 38 for disclosure of contractual obligations to purchase, construct or develop investment properties or for its repairs, maintenance or enhancements.

### (v) Leasing arrangements

The investment properties are leased to tenants under operating leases with rentals payable monthly. Lease income from operating leases where the group is a lessor is recognised in income on a straight-line basis over the lease term. Lease payments have no variable lease payments that depend on an index or rate. Where considered necessary to reduce credit risk, the Company may obtain bank guarantees for the term of the lease. Although the Company is exposed to changes in the residual value at the end of the current leases, the Company typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases.

### (vi) Fair value

	As at March 31, 2025	As at March 31, 2024
Investment properties (including under construction)	3,505.11	2,852.00

#### Estimation of fair value

The Company obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active

market for similar properties. Where such information is not available, the group considers information from a variety of sources including:

1. Current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences.
2. Discounted cash flow projections based on reliable estimates of future cash flows.
3. capitalised income projections based upon property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data. All resulting fair value estimates for investment properties are included in level 3.

### (vii) Presenting cash flows

The Company classifies cash outflows to acquire or construct investment properties as investing cash flows and rental inflows as operating cash flows.

### (viii) Ageing of investment properties under construction

	Amount in Capital work in progress for a year				Total

\*During the current year, the Company has issued 128,843,758, 373,963,280 and 119,295,990 CCPS to its fellow subsidiaries of par value Rs. 100 amounting to Rs. 12,884.37 million, Rs. 37,396.33 million and Rs. 11,929.60 million respectively. These CCPS were non-redeemable, fully convertible participating preference shares. CCPS carried a preferential dividend of 12% per annum, payable at the discretion of the Company's board of directors.

The CCPS were to be settled using the entity's own equity instruments, and the Company was obligated to deliver a variable number of these instruments to the CCPS holders and dividend was discretionary. This arrangement met the definition of a compound financial instrument having an equity component and a liability component. Further, the conversion feature was not a derivative because its value does not vary in response to changes in the issuer's share price. Instead, the issuer is using its shares as a 'currency' to settle the obligation since, if conversion is elected, the investor would have always received the number of shares equal to par value of CCPS.

Liability component of Rs. 6,765.65 million was recorded as present value of cash outflows and the residual amount of Rs. 55,761.16 million after deducting the liability component from the gross value of the instrument of Rs. 62,210.30 million was recorded as equity component. The fair value of the instrument was determined by discounting the par value by considering conversion would happen only at maturity by applying a 12% discount rate.

These CCPS were converted into 100,501,294 Equity Shares bearing face value of Rs. 10 each and a premium of Rs. 609 per Equity Share. The resultant gain on conversion of such CCPS is accounted under other equity.

acquired (Rs. 2,000 million) fully fungible amongst each of the co-borrowers and the Company's hotel property in Bangalore. The door to door tenure of the loan is 15 years including moratorium of one year. The loan is repayable in 56 quarterly structured installments beginning 31 December 2020. The loan carries interest rate linked to lender's one year marginal cost of funds based lending rate ("MCLR"), subject to annual reset, plus spread of 0.10%. The Company has available facility of Rs.Nil and rate of interest as on March 31, 2025 is 9.10 % p.a. (March 31, 2024 8.65%) with monthly rests.

With the gradual drawdown of capex in the past three years the individual limits set for Schloss Chennai Private Limited and Schloss Udaipur Private Limited got exhausted and an application to the lender was made for revision in the individual limits. However, due to the system limitation at the end of the lender, the same cannot be revised and accordingly a cross utilisation of capex limit was done during the previous year. The Company has cross charged the interest expense on such utilisation to respective entities.

## D Unsecured compulsorily convertible debentures

- (a) The Company had issued 10.50% p.a. interest bearing 4,750,000 and 10,277,498 compulsory convertible debentures (“CCDs”) having face value of Rs. 100 each and term of 15 years during the year ended March 31, 2021 and March 31, 2022 respectively. These CCDs carried 10.50% p.a. coupon rate. The CCD holder shall be entitled to interest on the principal amount of CCDs outstanding at a rate of 10.50 % per annum compounded on a yearly basis, until conversion of the CCDs.

### Conversion terms:

At the end of the tenure (15 years), each Compulsorily Convertible Debentures (“CCD”) of face value of Rs 100 each will be converted into 1 equity share of face value of Rs 10 each. CCD can be converted during the tenure of CCD at the option of the parties i.e. CCD holders and the Company. Provided that the CCDs shall automatically stand converted into equity shares upon:

- (a) Commencement of the corporate insolvency resolution process of the Company or, any of the co-borrowers under the Common Facility Agreement dated 30 September 2019 executed with the lender; or

Ind AS 113, 'Fair Value Measurement' requires classification of the valuation method of financial instruments measured at fair value in the Statement of Balance sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to

un-adjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to un-observable inputs (Level 3 measurements).

The carrying amounts of trade receivables, cash and cash equivalents, fixed deposits with banks, current borrowings, trade payables, capital creditors, security deposits, employee dues payable are considered to be the same as their fair values, due to their short-term nature.

Where such items are non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis.

Investments in unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair value measurements, also the difference between the fair value and carrying value is not significant. Hence, carrying value has been considered as the best estimate of fair value.

Further, the Company has valued compound financial instrument (both financial liability and equity component) at fair value on initial recognition. Financial liability subsequently measured at amortised cost by adding unwinded interest. The inter-corporate deposit is having fair value equivalent to carrying amount as it is repayable on demand and classified as current financial liability.

The current lending rate and the rate used in determination of fair value at inception for security deposits, lease liabilities, non-current borrowings and compound financial instruments are not significantly different. Accordingly, the fair value and carrying value for security deposits, lease liabilities, non-current borrowings and compound financial instruments are same.

The fair-value-hierarchy under Ind AS 113 are described below:

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The mutual funds are valued using the closing NAV. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

# Notes to Standalone Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There have been no transfers between different fair value hierarchy levels for the year ended March 31, 2025 and March 31, 2024.

### 34 FINANCIAL RISK MANAGEMENT

The Company's business activities expose it to market risk, liquidity risk and credit risk. The management develops and monitors the Company's risk management policies. The key risks and mitigating actions are also placed before the Board of directors of the Company. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and to control and monitor risks and adherence to limits.

Finance team and experts of respective business divisions provides assurance that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The activities are designed to:

- protect the Company's financial results and position from financial risks
- maintain market risks within acceptable parameters, while optimising returns; and
- protect the Company's financial investments, while maximising returns.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

#### A. Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk arises from trade receivables, cash and cash equivalents, bank balance, fixed deposits with banks, security deposits and other financial assets.

The Company is exposed to credit risk on its financial assets, which comprise cash and cash equivalents, bank deposits, trade receivables, security deposits and other receivables. The exposure to credit risks arises from the potential failure of counterparties to meet their obligations. The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

With respect to other financial assets namely security deposits and other receivables, the maximum exposure to credit risk is the carrying amount of these classes of financial assets presented in the Balance Sheet. These are actively monitored and confirmed by the Company. Currently, the credit risk arising from such security deposits and other receivables is evaluated to be immaterial for the Company.

Credit Risk on cash and cash equivalents, deposits with the banks/financial institutions is generally low as the said deposits have been made with the banks/financial institutions, who have been assigned high credit rating by international and domestic rating agencies.

#### Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company operates only in one geographical location i.e. in India. Considering the industry in which the company is operating, there is no major long outstanding receivables.

## Notes to Standalone Financial Statements (Contd.)

### for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forwardlooking information. The carrying amounts of trade receivables as disclosed in note number 13 represent the maximum credit risk exposure.

The movement in loss allowance in respect of trade receivables is as follows:

	As at March 31, 2025	As at March 31, 2024
Balance at the begininng of the year	4.17	8.58
Impairment losses (recognised)/ reversed on receivables	(1.14)	(3.42)
Amounts written off during the year	-	(0.98)
<b>Balance at the end of the year</b>	<b>3.03</b>	<b>4.17</b>

Financial assets at FVTPL : The Company is also exposed to credit risks in relation to financial assets (investmenst) that are measured at FVTPL. The maximum exposure at the end of the reporting period is the carrying amount of these assets.

#### B. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. In addition, processes and policies related to such risks are overseen by senior management.

The company believes that the working capital is sufficient to meet its current requirements. The company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve banking facilities by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

#### (i) Financing arrangements

## C. Market risk

### (a) Foreign currency risk

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates. The Company makes payments internationally and is exposed to foreign exchange risk arising from foreign currency purchases, primarily with respect to USD and GBP. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Company's functional currency (Rs.) at the period end. The Company's exposure to foreign currency risk, expressed in Rs., is given in the table below. The amounts represent only the financial assets and liabilities that are denominated in currencies other than the functional currency of the Company.

### ii. Foreign exchange sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments. The table below shows the sensitivity of profit or loss to a 1% change in foreign exchange rates.

#### Impact on Profit or Loss

	For the year ended March 31, 2025	For the year ended March 31, 2024
EUR sensitivity		
Rs./ EUR - Increase by 1%	-	(0.00)
Rs./ EUR - Decrease by 1%	-	0.00
USD sensitivity		
Rs./ USD - Increase by 1%	-	(0.05)
Rs./ USD - Decrease by 1%	-	0.05

### b) Interest rate risk

Interest rate risk is the risk that changes in market interest rates will lead to changes in fair value of financial instruments or changes in interest income, expense and cash flows of the Company.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are included in the table below. As at the end of the reporting period, the Company had the following variable rate borrowings outstanding:

	As at March 31, 2025		
	Weighted average interest rate	Balance	% of total loans
Term loans	MCLR + spread of 0.1% to 0.75%	13,773.30	100%

	As at March 31, 2024		
	Weighted average interest rate	Balance	% of total loans
Term loans	MCLR + spread of 0.75% to 1.6%	15,499.52	93%

An analysis by maturities is provided in note 34(B)(ii) above. The percentage of total loans shows the proportion of loans that are currently at variable rates in relation to the total amount of borrowings.

### Cash flow sensitivity analysis for variable rate instruments

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

	As at March 31, 2025	As at March 31, 2024
	Impact on profit after tax	Impact on profit after tax
<b>Interest sensitivity</b>		
Interest rates – increase by 100 basis points	(137.73)	(155.00)
Interest rates – decrease by 100 basis points	137.73	155.00

## 35 CAPITAL MANAGEMENT

The Company considers its total equity as shown in the balance sheet including share capital and retained earnings as the components of its balance sheet of managed capital. The Company's objectives when managing capital are:

- Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital.

The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company will

### 40 EMPLOYEE BENEFIT OBLIGATION

#### a) Compensated absences

Compensated absences covers the Company's liability for earned leaves. Accumulated compensated absences, which are expected to be availed or encashed are treated as employee benefits. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

The Company's liability is actuarially determined (using the Projected Unit Credit method) by an Independent actuary at the end of the period. Actuarial losses/gains are recognised in statement of profit or loss in the period in which they arise.

The expense of compensated absences (non-funded) for the year ended March 31, 2025 amounting to Rs. 1.16 million (March 31, 2024: Rs. 3.32 million) has been recognized in the statement of profit and loss, based on actuarial valuation carried out using projected unit credit method.

#### b) Post employment obligations

Provident fund and Employees State Insurance Commission - Defined contribution plan

The Company makes provident fund contributions to defined contribution plans for qualifying employees. Under the plan, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable under these plans by the Company are at rates specified in the rules of the schemes.

The contributions are charged to the statement of profit and loss as they accrue. The amount as an expense towards contribution to provident fund and employees state insurance for the period aggregated to Rs. 24.96 million (March 31, 2024: Rs. 22.64 million).

#### Gratuity - Defined benefit plan

The Company operates post-employment funded defined benefit plan that provides gratuity. The scheme provides for lumpsum payment to eligible employees on retirement, death while in employment or on termination of employment, of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of six months subject to a limit of Rs. 20 lakhs. The amounts in excess of the limit are to be borne by the Company as per policy. Eligibility occurs upon completion of five years of service.

The present value of the defined benefit obligation and current service cost are measured using the projected unit credit method with actuarial valuations being carried out at each balance sheet date.

## Sensitivity analysis

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the change in defined benefit obligation and impact in percentage terms compared with the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points:

	As at March 31, 2025	As at March 31, 2024
a) Impact of the change in discount rate		
Present Value of Obligation at the end of the year	38.45	37.48
Impact due to increase of 0.50%	(1.10)	(1.08)
Impact due to decrease of 0.50%	1.16	1.14
b) Impact of the change in salary increase		
Present Value of Obligation at the end of the year	38.45	37.48
Impact due to increase of 0.50%	0.93	1.13
Impact due to decrease of 0.50%	(0.90)	(1.08)

Sensitivities due to mortality and withdrawals are not material and hence impact of change due to these not calculated. Sensitivities as rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable.

## The major categories of plans assets

The plans assets of the defined benefit plan are covered by the Company into funds managed by insurer.

## Maturity analysis

The weighted average duration to the payment of these cash flows is 3.84 years

The expected maturity analysis of undiscounted post-employment defined benefit obligations is as follows:

Particulars	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years	Total
<b>As at March 31, 2025</b>					
- Gratuity	6.31	2.70	9.98	19.46	38.45

### Risk exposure:

Gratuity is a defined benefit plan and the Company is exposed to the following risks:

**Interest rate risk:** A fall in the discount rate which is linked to the Government Security Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**Salary Risk:** The present value of the defined benefit plan liability is calculated by reference to the future expected salaries of employees. As such, an increase in the salary expected by more than assumed level will increase the plan's liability.

**Withdrawal risk:** The risk that the usual timeframe for withdrawal requests is not met, or the withdrawals from the fund due to severe adverse market conditions are suspended.

**Mortality risk:** Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.

# Independent Auditor's Report

To the Members of **Schloss Bangalore Limited** (formerly known as “Schloss Bangalore Private Limited”)

## Report on the Audit of the Consolidated Financial Statements

### OPINION

We have audited the consolidated financial statements of Schloss Bangalore Limited (formerly known as “Schloss Bangalore Private Limited”) (hereinafter referred to as the “Holding Company”) and its subsidiaries (Holding Company and its subsidiaries together referred to as “the Group”), and its joint venture, which comprise the consolidated balance sheet as at 31 March 2025, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as “the consolidated financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (“Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its joint venture as at 31 March 2025, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

### BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its joint venture in accordance with the ethical requirements that are relevant to our audit of the

consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) of the “Other Matters” section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

### MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its joint venture in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and the respective Management and Board of Directors of its joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

## Independent Auditor's Report (Contd.)

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and the respective Management and Board of Directors of its joint venture are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and the respective Board of Directors of its joint venture are responsible for overseeing the financial reporting process of each company.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of such entities or business activities within the Group and its joint venture to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain

## Independent Auditor's Report (Contd.)

responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### OTHER MATTER

- a. We did not audit the financial statements of six subsidiaries, whose financial statements reflects total assets (before consolidation adjustments) of Rs. 1,044.20 million as at 31 March 2025, total revenues (before consolidation adjustments) of Rs. Nil and net cash flows (before consolidation adjustments) amounting to Rs. 31.20 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to our reliance on the work done and the reports of the other auditors.

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by other auditors, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors, except:
    - (i) for the matters stated in the paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
    - (ii) in case of four subsidiaries, during the year new accounting software implemented for purchases, payables and inventory management which form part of the 'books of account and other relevant books and papers in electronic mode'. The back-up of aforementioned accounting software has not been maintained on the servers physically located in India.
  - c. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

## Independent Auditor's Report (Contd.)

- d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
- e. On the basis of the written representations received from the directors of the Holding Company dated between 03 April 2025 to 16 April 2025 and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies and joint venture company incorporated in India is disqualified as on 31 March 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- f. the modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(A)(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
- g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies and joint venture company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, as noted in the "Other Matters" paragraph:
- a. The consolidated financial statements disclose the impact of pending litigations as at 31 March 2025 on the consolidated financial position of the Group and its joint venture. Refer Note 36 to the consolidated financial statements.

f. Based on our examination which included test checks, and that performed by the respective auditors of subsidiary companies incorporated in India whose financial statements have been audited under the Act, except for the instances mentioned below, the Holding Company, its subsidiary companies and a joint venture company have used accounting softwares for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective softwares:

- (i) In case of four subsidiary companies, in the absence of reporting on compliance with the audit trail requirements in the independent auditor's report of a service organisation for an accounting software used for maintaining purchases, payables and inventory management, which is operated by a third party software service provider, we are unable to comment whether audit trail feature for the said software was enabled at database level and operated throughout the year for all the relevant transactions recorded in the software.
- (ii) In case of five subsidiary companies, the feature of recording audit trail (edit log) facility was not enabled at the database level to log any

direct data changes for the accounting softwares used for maintaining purchases, payables and inventory management upto 30 May 2024.

Further, where audit trail (edit log) facility was enabled and operated throughout the year for the respective accounting softwares, we did not come across any instance of the audit trail feature being tampered with. Additionally, except for the accounting software where the audit trail was not enabled and operated in the previous year, the audit trail has been preserved as per the statutory requirements for record retention.

- C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us and based on the reports of the statutory auditors of such subsidiary companies incorporated in India which were not audited by us, the remuneration paid during the current year by the Holding company and its subsidiaries and joint venture to its directors is in accordance with the provisions of Section 197 of the Act. The excess remuneration paid to the directors of the Holding company and five subsidiaries is in accordance with the requisite approvals as mandated by the provision of Section 197 of the Act read with schedule V to the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

## Annexure B

to the Independent Auditor's Report on the Consolidated Financial Statements of Schloss Bangalore Limited (formerly known as "Schloss Bangalore Private Limited") for the year ended 31 March 2025

**Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act (Referred to in paragraph under 'Report on Other Legal and Regulatory Requirements' section of our 2(A)(g) report of even date)**

### OPINION

In conjunction with our audit of the consolidated financial statements of Schloss Bangalore Limited (formerly known as "Schloss Bangalore Private Limited") (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2025, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary companies and a joint venture, as of that date.

In our opinion and based on the consideration of reports of the other auditors on internal financial controls with reference to financial statements of subsidiary companies, as were audited by the other auditors the Holding Company and such companies incorporated in India which are its subsidiary companies and joint venture company, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

### MANAGEMENT'S AND BOARD OF DIRECTORS' RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective

company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary companies in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

## Annexure B (Contd.)

to the Independent Auditor's Report on the Consolidated Financial Statements of Schloss Bangalore Limited (formerly known as "Schloss Bangalore Private Limited") for the year ended 31 March 2025

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### OTHER MATTER

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to five subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of this matter.

## 2 BASIS OF PREPARATION, CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS AND MATERIAL ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to the years presented in these financial statements.

### 2.1 Basis of preparation

The consolidated Financial Statements of Schloss Bangalore Limited (formerly known as Schloss Bangalore Private Limited) (hereinafter referred to as the ‘Holding Company’) and its subsidiaries together referred to as “the Group” and its joint venture, comprise the consolidated balance sheet as at March 31, 2025, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies (hereinafter collectively referred to as “Consolidated Financial Statements”).

The consolidated financial statements of the Group and its joint venture for the year ended March 31, 2025 have been prepared in accordance with Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Act as amended and other accounting principles generally accepted in India and presentation requirements of

Division II of Schedule III to the Companies Act, 2013, as amended. The comparative information in respect of the preceeding period (i.e. year ended March 31, 2024) is presented in these Consolidated Financial Statements.

These consolidated Financial statements have been prepared by the Group and its joint venture as a going concern. The accounting policies are applied consistently over the year.

Until financial year ended March 31, 2024, the Company prepared only standalone financial statements. During the year ended March 31, 2025, the Company acquired controlling stake in subsidiaries, which were under common control (refer note 43 for details) and is preparing consolidated financial statements for the year ended March 31, 2025 with comparative consolidated financial statements for the year ended March 31, 2024.

The consolidated Financial Statements of the Group and its joint venture for the year ended March 31, 2025 were approved for issue in accordance with the resolution of the Board of Directors of the Holding Company on May 06, 2025.

### Principle of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

## Consolidation procedure:

1. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiary. For this purpose, income and expenses of the subsidiaries are based on the amounts of the assets and liabilities recognised in the Consolidated Financial Statements at the acquisition date.
2. Eliminate the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiaries. Business combinations policy explains how to account for any related goodwill/common control adjustment deficit account.
3. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group.

## Investment in Joint Venture

The Group's interests in equity-accounted investees comprise interests in a joint venture.

A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in the joint venture are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of

the profit or loss and OCI of equity-accounted investees, until the date on which significant influence or joint control ceases.

Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee.

## 2.2 Critical Accounting estimates and judgements

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions, that affect the reported balances of assets and liabilities, the accompanying disclosures and disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expenses for the years presented. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements pertain to:

- Useful Lives of Property, Plant and Equipment: The Group has estimated useful life of each class of assets based on the nature of assets, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, etc. The Group reviews the useful life of property, plant and equipment as at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods. Refer note 2.5 (e) for further details.
- Impairment Testing: Property, plant and equipment and intangibles that are subject to depreciation/ amortisation are tested for impairment periodically

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

including when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to sell. The calculation involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions. Refer Note 3 and 5 for further details.

Goodwill represents the excess of the purchase price over the fair value of the identifiable net assets of acquired companies. Goodwill is not amortized; instead, it is tested for impairment at least annually. The recoverable amount is determined based on value in use or fair value less cost to sell whichever is higher. The calculations of recoverable amount requires the use of assumptions as directly observable market prices generally do not exist for the Group's assets. However, fair value may be estimated based on recent transactions on comparable assets, internal models used by the Group for transactions involving the same type of assets or other relevant information. Calculation of value in use is a discounted cash flow calculation based on continued use of the assets in its present condition, excluding potential exploitation of improvement or expansion potential. Refer Note 5 for further details.

- Income Taxes: Deferred tax assets are recognised to the extent that it is regarded as probable that deductible temporary differences can be realised. The Group estimates deferred tax assets and liabilities based on current tax laws and rates and in certain cases, business plans, including management's expectations regarding the manner and timing of recovery of the related assets. Changes in these estimates may affect the amount of deferred tax liabilities or the valuation of deferred tax assets and thereby the tax charge in the Statement of Profit and Loss. Refer Note 31 for further details.

Provision for tax liabilities require judgements on the interpretation of tax legislation, developments in case laws and the potential outcomes of tax

audits and appeals which may be subject to significant uncertainty. Therefore the actual results may vary from expectations resulting in adjustments to provisions, the valuation of deferred tax assets, cash tax settlements and therefore the tax charge in the Statement of Profit and Loss. Refer Note 31 for further details.

- Defined Benefit Plans: The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each Balance Sheet date. Refer Note 32 for further details.
- Leases: The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Refer Note 4 for further details.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

- Fair value Measurement of Financial Instruments: The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. This involves significant judgements in the selection of a method in making assumptions that are mainly based on market conditions existing at the Balance Sheet date and in identifying the most appropriate estimate of fair value when a wide range of fair value measurements are possible. Refer Note 33 for further details.
- Impairment of Financial Assets: For trade receivables, the Group applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables. The expected credit loss allowance is an estimate based on the ageing of the receivables that are due and rates used in a provision matrix.
- Contingent Liability: The management evaluates possible obligation that arises from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The estimates of outcome and financial effect are determined by the judgement of the management of the entity, supplemented by experience of similar transactions and, in some cases, reports from independent experts and the accompanying disclosures and disclosures relating to contingent liabilities. Refer Note 36 for further details.

## 2.3 Going Concern

The Group and its joint venture has earned a profit of Rs. 476.58 million and incurred a loss of Rs. 21.27 million for the year ended March 31, 2025 and March 31, 2024 respectively. The Group has accumulated losses of Rs. 16,443.05 million and Rs. 16,937.42 million for the year ended March 31, 2025 and March 31, 2024 respectively. The Group has net worth of Rs. 36,049.88 million and negative net worth of Rs. 28,257.23 million at March 31, 2025 and March 31, 2024 respectively.

The Group has assessed its capital and financial resources, profitability and overall liquidity position. In developing the assumptions and estimates relating to the

future uncertainties in the economic conditions, the Group as at the date of approval of these financial statements has used internal and external sources of information and based on current estimates, expects to recover the carrying amounts of assets. During the year ended March 31, 2025, the Company and one of its subsidiary have issued compulsorily convertible preference shares ("CCPS") and have received the consideration amounting to Rs. 73,333.35 million. Further, the Group has also received a letter of financial support from BSREP III India Ballet Holdings (DIFC) Limited to help enable the Group to meet all its contractual obligations and liabilities as and when they fall due in near future and accordingly, these financial statements have been prepared on a going concern basis.

## 2.4 Current / Non-current classification

All assets and liabilities are classified into current and non-current.

### Assets

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realised in, or is intended for sale or consumption in the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within twelve months after the balance sheet date; or
- (d) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for atleast twelve months after the balance sheet date.

Current assets include the current portion of non-current assets.

All other assets are classified as non-current.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

## Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the balance sheet date; or
- (d) the Group does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current liabilities.

All other liabilities are classified as non-current.

## Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

## 2.5 Material Accounting Policies

### a) Foreign currency translation

- (i) Functional and presentation currency

The functional currency of the Group and its joint venture is Indian Rupee.

- (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation. A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as a part of the entity's net investment in that foreign operation. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

- (iii) Subsequent measurement

Foreign currency transactions subsequently are accounted using the exchange rates as at that date and difference, if any, between the exchange rates as at the subsequent date and the date of the balance sheet is recognised as income or expense in the Statement of Profit and Loss.

### b) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

## c) Earnings per share

Basic earnings per share is computed by dividing the profit or loss after tax by the weighted average number of equity shares outstanding during the year adjusting the bonus element for all the reported period arising on account of issue of equity shares on rights and including potential equity shares on compulsory convertible debentures. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the effects of all dilutive potential equity shares. Ordinary shares that will be issued upon the conversion of a mandatorily convertible instrument are included in the calculation of basic earnings per share from the date the contract is entered into.

## d) Revenue recognition and other income

Revenue is recognised at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring the goods or services to a customer i.e. on transfer of control of the goods or service to the customer. Revenue from sales of goods or rendering of services is net of Indirect taxes, returns and discounts.

### Income from operations-

**Rooms, food and beverage and banquets:** Revenue is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and banquet services which is recognised once the rooms are occupied, food and beverages are sold and banquet services have been provided as per the contract with the customer.

**Management and other operating fees:** Management fees earned from hotels managed by the Group are usually under long-term contracts with the hotel

owner. Under the contract, the Group's performance obligation is to provide hotel management services and a license to use the Company's brand name and other intellectual property. As compensation for such services, the Group is generally entitled to receive:

Base fees: which are a percentage of the revenues of properties,

Incentive fees: which are generally based on a measure of hotel profitability and

Marketing fees: which are generally based on room revenue of the properties.

Entire consideration i.e. (Base fees, Incentive fees and Marketing fees) is variable consideration, as the transaction price is based on a percentage of revenue or profit, as defined in each contract. The Company recognize all fees on a monthly basis over the term of the agreement as those amounts become payable, as long as it does not expect a significant reversal due to projected future hotel performance or cash flows in future periods.

**Cost Recoverable :** Under the management agreements, the Group is entitled to be reimbursed for certain costs the Group incurs on behalf of the managed properties. These costs primarily consist of business promotion, payroll, travelling and related expenses at managed properties where the Group is employer of the employees at the properties and include certain operational and administrative costs as provided for in our contracts with the owners. The Group is entitled to reimbursement in the period it incur the related reimbursable costs, which it recognize within the "Management and other operating fees" under Revenue from operations caption of its Statements of profit and loss.

**Membership Fees:** Membership fee income majorly consists of membership fees received from club and spa services. In respect of performance obligations satisfied over a period of time, revenue is recognised at the allocated transaction price on a time-proportion basis.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

**Manpower services:** Manpower services consists of income related to supply of skilled manpower. The performance obligation for manpower services is satisfied over the period of time. Revenue is recognised by applying as invoiced practical expedient.

## Other Allied services:

In relation to laundry income, communication income, health club income, airport transfers income and other allied services, the revenue has been recognised by reference to the time of service rendered.

Some contracts include multiple performance obligations, such as sale of food and beverages and room revenue. These are considered as separate performance obligations as, the customer can benefit from the good or service on its own and the good or services are distinct within the context of the contract. Where the contracts include multiple performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices.

## Contract Balances:

A contract asset viz. unbilled revenue is recognized in respect of those performance obligations where the control of the goods has been transferred to the buyer or services are provided to the customer, and only the act of invoicing is pending.

A contract liability is the obligation to transfer services to a customer for which the Group has received consideration from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Group performs under the contract.

## Interest income

Interest income is recognised on a time proportion basis taking into account amount outstanding and using effective interest rate method.

## Space and shop rentals

Rentals basically consists of rental revenue earned from letting of spaces for retail and office at the properties. Revenue is recognised over the tenure of the lease/service agreement on a straight line basis over the term of the lease, except where the rentals are structured to increase in line with expected general inflation, and except where there is uncertainty of ultimate collection.

## Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

## e) Property, plant and equipment

Property, plant and equipment are stated at cost which includes capitalised borrowing costs, less accumulated depreciation (other than freehold land) and accumulated impairment losses, if any.

All property, plant and equipment are initially recorded at cost. Cost includes the acquisition cost or the cost of construction, including duties and non-refundable taxes, expenses directly related to bringing the asset to the location and condition necessary for making them operational for their intended use. Initial estimate of costs of dismantling and removing the item and restoring the site on which it is located is also included if there is an obligation to restore it.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

Depreciation is charged to the Statement of Profit and Loss so as to expense the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight line method, as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets had been re-assessed as under based on technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support, etc.

The useful lives have been determined as per the useful life prescribed in Schedule II to the Companies Act, 2013 or as per technical assessment. The residual values are not more than 5% of the original cost of the asset.

Based on the above, the estimated useful lives of the property, plant and equipment are as follows:

Category of assets	Useful life as per Schedule II (in years)	Useful life as per technical assessment (in years)
Buildings	60 years	60 years
Plant and machinery	15 years	3 years to 15 years
Plant and machinery - Windmill	25 years	25 years
Leasehold improvements	NA	Lower of lease term or useful life
Furniture and fixtures	8 years	8 years to 15 years
Office equipment	3 to 5 years	As per Schedule II / 5 years
Computers	3 years	As per Schedule II / 3 years
Data processing units	6 years	As per Schedule II / 6 years
Vehicles	6 years	As per Schedule II / 6 to 8 years

Freehold land is not depreciated. The assets' useful lives and residual values are reviewed at the Balance Sheet date and the effect of any changes in estimates are accounted for on a prospective basis. An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Capital work-in-progress represents projects under which the property, plant and equipment are not yet ready for their intended use and are carried at cost determined as aforesaid.

## f) Investment properties

Investment properties, principally office buildings, are held for long-term rental yields and are not occupied by the Group. They are carried at cost. Investment properties are depreciated using the straight-line method to allocate the cost of assets over their estimated useful lives. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. Investment properties generally have useful lives of 60 years for building and land is not depreciated. The useful lives have been taken as per schedule II. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised only when future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised. Investment properties under construction are carried individually at cost less impairment, if any. Impairment of investment properties is determined in accordance with policy stated for impairment of assets.

## g) Intangible Assets and Goodwill

Intangible assets include cost of acquired software and designs, cost incurred for development of the Group's website, certain contract acquisition costs, brand and Goodwill. Intangible assets are initially measured at acquisition cost including any directly attributable costs of preparing the asset for its intended use and are carried at cost less accumulated amortisation and accumulated impairment losses. Expenditure on projects which are not yet ready for intended use are carried as intangible assets under development. Intangible assets with finite lives are amortised over their estimated useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Intangible assets are amortized on a straight-line basis over the period in which economic benefits will be derived from their use. The amortisation period and the amortisation method are reviewed at least each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Goodwill on acquisitions of business is included in intangible assets note. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

Based on the above, the estimated useful lives of the intangible assets are as follows:

Category of assets	Useful life (in years)
Computer software	6 years
Right to access the parking space	60 years
Brand	5 years
Management contracts	5 years or terms of the contract
Website	3 years
Customer relationship	5 years

## h) Impairment of assets

Assets that are subject to depreciation and amortisation are reviewed for impairment periodically including whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss. When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss for non financial assets other than goodwill is recognised immediately in the Statement of Profit and Loss to the extent that it eliminates the impairment loss which has been recognised for the asset in prior years.

## i) Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity, respectively.

### Current tax

Current tax expenses are accounted in the same period to which the revenue and expenses relate. Provision for current income tax is made for the tax liability payable on taxable income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

### Deferred tax

Deferred tax is recognised using the balance sheet approach. Deferred tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred tax arises from the initial recognition of goodwill, temporary differences related to investments in subsidiaries to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss and does not give rise to equal taxable and deductible temporary differences at the time of the transaction. Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profit will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans of the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

## j) Employee benefits

### Short term employee benefits

All employee benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are classified as short-term employee benefits. These benefits include salary, wages and bonus, short term compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits (including compensated absences) expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period of rendering of service by the employee. The obligations are presented as current liabilities in the balance sheet if the Company does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

### Long term employee benefits

#### Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group's contribution to provident fund and employee state insurance scheme are considered as defined contribution plans and are recognized as an expense when employees have rendered service entitling them to the contributions.

#### Defined benefit plans

The Group's gratuity scheme is a defined benefit plan. The Group's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value and the fair value of any plan assets are deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary using the

Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on government securities as at the balance sheet date. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan ("the asset ceiling").

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of changes in equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in statement of profit and loss as past service cost.

### Other long-term employee benefits

#### Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences beyond twelve months and utilise it in future service periods or received cash compensation on termination of employment. The Group records obligation for compensated absences in the period in which the employee renders services that increase this entitlement. The obligation is

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

measured on the basis of independent actuarial valuation using the Projected Unit credit method. The discount rates used for determining the present value of the liability is based on the market yields on Government securities as at the balance sheet date. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the statement of profit and loss.

## k) Inventories

Stock of food and beverages and stores and operating supplies are carried at the lower of cost (computed on a weighted average basis) or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost includes the fair value of consideration paid including duties and taxes (other than those refundable), inward freight and other expenditure directly attributable to the purchase. Trade discounts and rebates are deducted in determining the cost of purchase.

## l) Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Group has a binding present obligation. This may be either legal because it derives from a contract, legislation or other operation of law, or constructive because the Group created valid expectations on the part of third parties by accepting certain responsibilities. To record such an obligation it must be probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation. The amount recognised as a provision and the indicated time range of the outflow of economic benefits are the best estimate (most probable outcome) of the expenditure required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Non-Current provisions are discounted for giving the effect of time value of money.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence

or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

Provisions, contingent assets and contingent liabilities are reviewed at each balance sheet date.

## m) Financial instruments

### (i) Classification

The Group classifies its financial assets in the following measurement categories

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

### (ii) Recognition

Regular way purchases and sales of financial assets are recognised on trade-date, being the date on which the Group commits to purchase or sale the financial asset.

### (iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value (trade receivables is measured at transaction price) plus, in the case of a financial asset not at fair value through profit or loss, transaction costs

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

## Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in Other Income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in statement of profit and loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in statement of profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other

income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in statement of profit and loss.

- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in statement of profit and loss and presented net within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

## Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognised in statement of profit and loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/ (losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

## Compound financial instruments

Compound financial instruments issued by the group comprises convertible debentures and compulsorily convertible preference shares denominated in Rupees. The liability component of compound financial instruments is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component

# Notes to Consolidated Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts. Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequently. Interest related to the financial liability is recognised in statement of profit and loss (unless it qualified for inclusion in the cost of an asset). On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognised.

### Trade and other receivables

Trade receivables are measured at their transaction price unless it contains a significant financing component in accordance with Ind AS 115 or pricing adjustments embedded in the contract. They are subsequently measured at amortised cost using the effective interest method, less loss allowance.

Other receivables are recognised initially at fair value plus or minus transaction costs and subsequently measured at amortised cost using the effective interest method, less loss allowance.

### Classification & measurement of financial liabilities

#### Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method. If payment is expected in one year or less, they are classified as current liabilities. If not, they are presented as non-current liabilities.

#### Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost.

Any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of profit and loss over the period of the borrowings using the effective interest rate method.

Borrowings are classified as non-current liabilities if the Group has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date. If not, they are presented under current borrowings.

### Derecognition of financial asset & financial liabilities

A financial asset (or, a part of a financial asset) is primarily derecognized when:

- (i) The contractual right to receive cash flows from the financial assets expire, or
- (ii) The Group transfers the financial assets or its right to receive cash flow from the financial assets and substantially all the risks and rewards of ownership of the asset to another party.

A financial liability (or, a part of financial liability) is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

### Gain or loss on derecognition

Gain or loss on derecognition of a financial asset or liability measured at amortised cost is recognized in the statement of comprehensive income at the time of derecognition. Derecognition gain/loss on financial assets other than equity instruments measured at FVOCI is recycled to profit or loss. Gain or loss on derecognition of equity instruments measured at FVOCI is never recycled to profit or loss.

### Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables. The expected credit loss allowance is based on the ageing of the receivables that are due and rates used in a provision matrix. For other financial assets (not being equity instruments or debt instruments measured subsequently at FVTPL) the expected credit losses are measured at the 12 month expected credit losses or an amount equal to the lifetime expected credit losses if there has been a significant increase in credit risk since initial recognition.

## Offsetting of financial asset and liabilities

Financial assets and liabilities are offset and the net amount reported in the balance sheet where Group currently has a legally enforceable right to offset the recognized amounts, and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

## n) Leases

### i. As a lessee

On inception of a contract, the Group assesses whether it contains a lease. A contract contains a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The right to use the asset and the obligation under the lease to make payments are recognised in the Group's statement of financial position as a right-of-use asset and a lease liability.

#### Right of use assets

The right-of-use asset recognised at lease commencement includes the amount of lease liability recognised, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

Right-of-use assets are depreciated over the shorter of the asset's estimated useful life and the lease term. Right-of-use assets are also adjusted for any re-measurement of lease liabilities and are subject to impairment testing. Residual value is reassessed annually.

#### Lease Liabilities

The lease liability is initially measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments (including 'in-substance fixed' payments) and variable lease payments that depend on an index or a rate, less any lease incentives receivable, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option and payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease. 'In-substance fixed' payments are payments that may, in form, contain variability but that, in substance, are unavoidable. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease term includes periods subject to extension options which the Group is reasonably certain to exercise and excludes the effect of early termination options where the Group is reasonably certain that it will not exercise the option. Minimum lease payments include exercise price a purchase option if the Group is reasonably certain it will purchase the underlying asset after the lease term.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the 'in-substance fixed' lease payments or as a result of a rent review or change in the relevant index or rate.

# Notes to Consolidated Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

### Variable lease

Variable lease payments that do not depend on an index or a rate are recognised as an expense in the period over which the event or condition that triggers the payment occurs.

### Short-Term Leases and Leases of Low-Value Assets

The Group has opted not to apply the lease accounting model to leases of low-value assets or leases which have a lease term of 12 months or less and don't contain purchase option. Costs associated with such leases are recognised as an expense on a straight-line basis over the lease term.

### Disclosure of lease liabilities and right of use assets in balance sheet

The Company presents right-of-use assets that do not meet the definition of 'investment property' and 'property, plant and equipment' separately in the balance sheet and lease liabilities separately in the balance sheet within 'Financial Liabilities'.

The Group presents right-of-use assets that do not meet the definition of 'investment property' and 'property, plant and equipment' separately in the balance sheet and lease liabilities separately in the balance sheet within 'Financial Liabilities'.

### ii. As a lessor

Leases for which the Group is a lessor is classified as a finance or operating lease. For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

### iii. Classification of lease

To classify each lease the Group, as a lessor, makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease, if not, it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

### o) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

### p) Business combination

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another.

The excess of the consideration transferred over the fair value of the net identifiable assets acquired is recorded as goodwill. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Common control business combination refers to a business combination involving companies in which all the combining companies are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. Business combinations involving

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

companies or businesses under common control have been accounted for using the pooling of interest method. The assets, liabilities and reserves of the combining companies are reflected at their carrying amounts. No adjustments have been made to reflect fair values, or to recognise any new assets or liabilities.

The financial information in the consolidated financial statements in respect of prior periods have been restated as if the business combination had occurred from the beginning of the earliest period presented in these consolidated financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information has been restated only from that date.

The difference, if any, between the purchase consideration paid either in the form of share capital or cash or other assets and the amount of share capital of the entities acquired is transferred to capital reserve in case of credit balance and common control adjustment deficit account in case of debit balance and presented separately from other reserves within equity.

Non-controlling interest in the net assets of the consolidated subsidiaries consists of:

- a) The amount of equity attributable to non-controlling shareholders at the date on which the investments in the subsidiary companies were made;
- b) The non-controlling share of movements in equity since the date the Parent-Subsidiary relationship comes into existence.

The total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interest having deficit balance.

## q) Statement of cash flows

Cash flows from operating activities are reported using the indirect method, whereby profit/ (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

## r) Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted in the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

## s) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The management assesses the financial performance and position of the group and makes strategic decisions. The chief operating decision maker is Board of Directors of the Company. Refer Note 39 for segment information presented.

## 4 LEASES

### (i) The balance sheet shows the following amounts relating to leases:

Particulars	As at March 31, 2025	As at March 31, 2024
<b>Right-of-use assets</b>		
- Building	2,597.77	2,501.53
- Plant and machinery	7.11	7.87
	<b>2,604.88</b>	<b>2,509.40</b>

Particulars	As at March 31, 2025	As at March 31, 2024
<b>Lease liabilities</b>		
Lease liabilities - Current	57.57	52.84
Lease liabilities - Non current	2,270.20	2,056.17
	<b>2,327.77</b>	<b>2,109.01</b>

Additions to right-of-use assets during the year ended March 31, 2025 was Rs. 215.39 million (year ended March 31, 2024: Rs. 313.59 million) on account of new leases or additional security deposit paid for the existing leases.

### (ii) Amounts recognized in the statement of profit and loss

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Depreciation charge of right-of-use assets (refer note 28)		
- Building	123.64	124.55
- Plant and machinery	0.76	0.76
Interest expense (included in finance costs)	227.09	204.34
Expense relating to short-term leases (included in other expenses)	9.45	19.96

The total cash outflow for leases for the year ended March 31, 2025 was Rs. 208.58 million (year ended March 31, 2024: Rs 177.56 million).

### (iii) Right of use assets

This note provides information for leases where the Group is a lessee. The Group leases hotel premises, plant and machinery and houses for employee accommodation. Rental contracts are typically made for fixed periods of 11 months to 36 years, but may have extension and termination options as described in (iv). The weighted average discount rate for lease liabilities is 10.5 % - 12.5% p.a.

### (iv) Extension and termination options

Extension and termination options are included in a number of residential accommodation leases across the Group. These are used to maximise operational flexibility in terms of managing the assets used in the Group's operations. The majority of extension and termination options held are exercisable only if agreed by both the Group and the lessor. The termination option of the hotel premises leased by the Group held are exercisable only by the lessee.

### (v) Critical judgements in determining the lease term:

The Group assesses at lease commencement whether it is reasonably certain to exercise the extension and termination options. The Group reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its control and affects whether The Group is reasonably certain to exercise an option not previously included in its determination of the lease term.

Goodwill and Other intangible assets are provided as collateral security against the term loans availed by the Group (refer note 17)

## (i) Impairment testing

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any.

The Group tests goodwill for impairment at least annually, or more frequently if events or changes in circumstances indicate that it might be impaired. For the purpose of impairment testing, goodwill, which arose on acquisition of the assets, is allocated to a cash generating unit "CGU" representing the lowest level with the Group at which goodwill is monitored for internal management reporting purposes. The carrying value of the cash generating unit is the carrying value of the net assets of the entity.

The recoverable value in use of the CGU is determined on the basis of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

The goodwill is attributable to the acquired businesses of HLV Limited. Subsequent increase in the goodwill is attributable to business acquisition under common control transaction of Tulsi Palace Resort Private Limited, as specified below each identified as a cash generating unit. The carrying value of the cash generating unit is the carrying value of the net assets of the respective entity. The Group has adopted 'value in use' method to determine the carrying value of cash generating unit.

Line of Services/Business	Carrying Value as at March 31, 2025	Carrying Value as at March 31, 2024
Bengaluru hotel	757.20	757.20
Hotel managed business	477.56	477.56
Udaipur hotel	158.57	158.57
Delhi hotel	527.57	527.57
Jaipur hotel	2,749.66	2,749.66
<b>Total</b>	<b>4,670.56</b>	<b>4,670.56</b>

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

## The base assumptions considered for testing the goodwill impairment for both the cash generating units are as follows:

A) The average growth rate of revenue as considered below:

- (i) Bangalore hotel: The estimated value-in-use of this CGU is based on the future cash flows using a 5% (March 31, 2024: 5%) annual growth rate for periods subsequent to the forecast period of 5 years and a discount rate (pre-tax) of 12.50% p.a (March 31, 2024: 11.30% p.a).
- (ii) Hotel managed business: The estimated value-in-use of this CGU is based on the future cash flows using a 5% (March 31, 2024: 5%) annual growth rate for periods subsequent to the forecast period of 5 years and a discount rate (pre-tax) of 12.50% p.a (March 31, 2024: 11.30% p.a).
- (iii) Udaipur hotel: The estimated value-in-use of this CGU is based on the future cash flows using a 5% (March 31, 2024: 5%) annual growth rate for periods subsequent to the forecast period of 5 years and a discount rate (pre-tax) of 12.50% p.a (March 31, 2024: 11.30% p.a).
- (iv) Delhi hotel : The estimated value-in-use of this CGU is based on the future cash flows using a 5% (March 31, 2024: 5%) annual growth rate for periods subsequent to the forecast period of 5 years and a discount rate (pre-tax) of 12.50% p.a (March 31, 2024: 11.30% p.a).
- (v) Jaipur hotel: The average growth rate of revenue for 6 years has been considered as 5% for March 31, 2025 (March 31, 2024: 5%). The Terminal value growth rate has been taken as 5% for March 31, 2025 (March 31, 2024 : 5% and a discount rate (pre-tax) 12.50% p.a for March 31, 2025 (March 31, 2024 : 11.30%).

B) The outcome of the Group's goodwill impairment test as at March 31, 2025 and March 31, 2024 did not result in any impairment of goodwill. The key assumptions considered by the Group are EBITDA margin, discount rate and

revenue growth rate considered for computing terminal value. An analysis of the sensitivity of the computation to a change in key parameters (EBITDA, discount rates and terminal value), based on reasonable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

Depreciation	5.23	5.22
<b>Profit from investment properties</b>	<b>174.67</b>	<b>136.33</b>

## (ii) Leasing arrangements

The investment properties are leased to tenants under operating leases with rentals payable monthly. Lease income from operating leases where the group is a lessor is recognised in income on a straight-line basis over the lease term. Lease payments have no variable lease payments that depend on an index or rate. Where considered necessary to reduce credit risk, the Group may obtain bank guarantees for the term of the lease. Although the Group is exposed to changes in the residual value at the end of the current leases, Group typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases.

Minimum lease payments receivable on leases of investment properties are as follows-

Particulars	As at March 31, 2025	As at March 31, 2024

## (iv) Contractual obligations

See note 37 for disclosure of contractual obligations to purchase, construct or develop investment properties or for its repairs, maintenance or enhancements.

## (v) Estimation of fair value

The Group obtains independent valuations for its investment properties at least annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the group considers information from a variety of sources including:

1. Current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

2. Discounted cash flow projections based on reliable estimates of future cash flows
3. Capitalised income projections based upon property's estimated net market income, and a capitalisation rate derived from an analysis of market evidence.

The fair values of investment properties have been determined by a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transactions and industry data. All resulting fair value estimates for investment properties are included in level 3.

## (vi) Presenting cash flows

The Group classifies cash outflows to acquire or construct investment properties as investing cashflows and rental inflows as operating cash flows.

- (vii) Investment properties are provided as collateral security against the term loans availed by the company (refer note 17)

### Notes

- (a) During the year ended March 31, 2023 one of the entity of the Group has entered into an agreement (the 'Agreement') with certain parties having direct and/or indirect shareholding interest in two specific hotel owning companies ("Shareholders"). Under the Agreement the Group has paid an amount of Rs. 850 million for securing an undertaking that the Shareholders will ensure that the Hotel Management Agreements (HMA) contracts of the two specific hotels subsist till the 20th anniversary beginning from October 2, 2023.

## Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

The Board of Directors of one hotel owning company has agreed to the arrangement and passed the requisite resolution and executed the Agreement as confirming party. The other hotel owning company has not executed the Agreement and certain shareholders of such hotel owning company have executed the Agreement.

The Shareholders will cause the hotel owing companies to perform and comply with the respective HMA contracts and ensure continuance of the contracts by exercising their voting rights (directly and indirectly). The Shareholder shall also ensure that the hotel owning companies does not take any action to terminate any HMA contract. In the event the stated obligations, specified in the Agreement, are not fulfilled by the Shareholders in accordance thereof, the amount paid is repayable, as per the terms of the Agreement.

As at March 31, 2024, the HMA contracts have been renewed for a period of 10 years for both hotels owning properties from the date of initial expiry of respective HMA contracts. These amounts paid will be amortised on a straight-line basis over a period of 20 years. During the year ended March 31, 2025: Rs. 31.87 million (March 31, 2024:Rs. 15.89 million) has been charged to the Statement of Profit and Loss. Based on management's assessment and independent legal advice obtained on this matter, the payments are considered to be in compliance with the applicable laws and regulations.

Gain on conversion of CCPS*	335.59	-
<b>Closing balance</b>	<b>(2,422.37)</b>	<b>(2,644.43)</b>

\*During the current year, the Company has issued 128,843,758, 373,963,280 and 119,295,990 CCPS to its fellow subsidiaries of par value Rs. 100 amounting to Rs. 12,884.37 million, Rs. 37,396.33 million and Rs. 11,929.60 million respectively. These CCPS were non-redeemable, fully convertible participating preference shares. CCPS carried a preferential dividend of 12% per annum, payable at the discretion of the Company's board of directors.

The CCPS were to be settled using the entity's own equity instruments, and the Company was obligated to deliver a variable number of these instruments to the CCPS holders and dividend was discretionary. This arrangement met the definition of a compound financial instrument having an equity component and a liability component. Further, the conversion feature was not a derivative because its value does not vary in response to changes in the issuer's share price. Instead, the issuer is using its shares as a 'currency' to settle the obligation since, if conversion is elected, the investor would have always received the number of shares equal to par value of CCPS.

Liability component of Rs. 6,765.65 million was recorded as present value of cash outflows and the residual amount of Rs. 55,761.16 million after deducting the liability component from the gross value of the instrument of Rs. 62,210.30 million was recorded as equity component. The fair value of the instrument was determined by discounting the par value by considering conversion would happen only at maturity by applying a 12% discount rate.

These CCPS were converted into 100,501,294 Equity Shares bearing face value of Rs. 10 each and a premium of Rs. 609 per Equity Share. The resultant gain on conversion of such CCPS is accounted under other equity.

## Contract Balances

The contract liabilities primarily relates to the advance consideration received from customers for which revenue is recognized when the performance obligation is over/ services delivered. Advance collection is recognised when payment is received before the related performance obligation is satisfied. This includes advances received from the customer towards rooms/ restaurant/ banquets. Revenue is recognized once the performance obligation is met i.e. on room stay/ sale of food and beverage/ provision of banquet services/ other allied services.

It also includes membership fee received for food and beverage based memberships programme and disclosed as Income received in advance.

The Group has recorded revenue of Rs. 497.60 million against opening balance of contract liabilities for the year ended March 31, 2025 (for the year ended March 31, 2024 is Rs. 493.77 million).

## 32 EMPLOYEE BENEFIT OBLIGATION

### a) Compensated absences

Compensated absences covers the Group's liability for earned leaves. Accumulated compensated absences, which are expected to be availed or encashed are treated as employee benefits. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the period end.

The Group's liability is actuarially determined (using the Projected Unit Credit method) by an Independent actuary at the end of the period. Actuarial losses/ gains are recognised in statement of profit and loss in the period in which they arise.

The expense of compensated absences (non-funded) for the year ended March 31, 2025 amounting to Rs 7.09 million (for the year ended March 31, 2024: Rs 22.17 million) has been recognized in profit or loss, based on actuarial valuation carried out using projected unit credit method.

### b) Post employment obligations

Provident fund and Employees State Insurance Commission - Defined contribution plan

The Group has defined contribution plans for provident fund for qualifying employees. Under the plan, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable under these plans are at rates specified in the rules of the schemes.

The contributions are charged to statement of profit and loss as they accrue. The amount of expense towards contribution to provident fund and employees state insurance for the year ended March 31, 2025 aggregated to Rs. 103.32 million (for the year ended March 31, 2024: Rs. 93.74 million).

### Gratuity - Defined benefit plan

The Group provides for gratuity for its employees. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement / termination is the employees last drawn basic salary per month computed proportionately for 15 days salary payable for each completed year of service or part thereof in excess of six months subject to a limit of Rs. 2 million. The group does not fully fund the liability.

The present value of the defined benefit obligation and current service cost are measured using the projected unit credit method with actuarial valuations being carried out at each balance sheet date.

## Sensitivity analysis

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the change in defined benefit obligation and impact in percentage terms compared with the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points:

	As at March 31, 2025	As at March 31, 2024
a) Impact of the change in discount rate		
Present Value of Obligation at the end of the year	116.37	120.91
Impact due to increase of 0.50%	(3.65)	(3.59)
Impact due to decrease of 0.50%	3.88	3.80
b) Impact of the change in salary increase		
Present Value of Obligation at the end of the year	116.37	120.91
Impact due to increase of 0.50%	3.37	3.76
Impact due to decrease of 0.50%	(2.94)	(3.58)

Sensitivities due to mortality and withdrawals are not material and hence impact of change due to these not calculated. Sensitivities as rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable.

## The major categories of plans assets

The plans assets of the defined benefit plan are covered by the Company into funds managed by insurer.

## Maturity analysis

The weighted average duration to the payment of these cash flows is 6.06 years (March 2024: 5.97 years).

Expected expense for the next annual reporting period is Rs. 31.67 million (March 2024: Rs. 28.12 million).

The expected maturity analysis of undiscounted post-employment defined benefit obligations is as follows:

Particulars	Less than a year	Between 1-2 years	Between 2-5 years	Over 5 years	Total
<b>As at March 31, 2025</b>					
- Gratuity	14.96	11.79	28.61	61.01	116.37

<b>Total</b>	<b>21.23</b>	<b>11.93</b>	<b>26.17</b>	<b>61.58</b>	<b>120.91</b>

## Risk exposure:

Gratuity is a defined benefit plan and the Group is exposed to the following risks:

**Interest rate risk:** A fall in the discount rate which is linked to the Government Security Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**Salary Risk:** The present value of the defined benefit plan liability is calculated by reference to the future expected salaries of employees. As such, an increase in the salary expected by more than assumed level will increase the plan's liability.

**Withdrawal risk:** The risk that the usual timeframe for withdrawal requests is not met, or the withdrawals from the fund due to severe adverse market conditions are suspended.

**Mortality risk:** Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Ind AS 113, 'Fair Value Measurement' requires classification of the valuation method of financial instruments measured at fair value in the Statement of Balance sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to un-adjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to un-observable inputs (Level 3 measurements).

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

The carrying amounts of trade receivables, cash and cash equivalents, fixed deposits with banks, trade payables are considered to be the same as their fair values, due to their short-term nature.

Where such items are non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis.

The carrying amount of non-current borrowings, security deposit liability, lease liability are fair valued using the current borrowing rate for similar instruments on similar terms. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

Further, The Group has valued compound financial instrument (both financial liability and equity component) at fair value on initial recognition. Financial liability subsequently measured at amortised cost by adding unwinded interest.

The current lending rate and the rate used in determination of fair value at inception for non-current borrowings, security deposits, compound financial instruments are not significantly different. Accordingly, the fair value and carrying value for non-current borrowings, security deposits and compound financial instrument are same.

The fair-value-hierarchy under Ind AS 113 are described below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There has been no transfer between different fair values hierarchy level for the year ended March 31, 2025.

## 34 FINANCIAL RISK MANAGEMENT

The Group's business activities expose it to market risk, liquidity risk and credit risk. The management develops and monitors the Group's risk management policies. The key risks and mitigating actions are also placed before the Board of directors of the Group. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and to control and monitor risks and adherence to limits.

Finance team and experts of respective business divisions provides assurance that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The activities are designed to:

- protect the Group's financial results and position from financial risks
- maintain market risks within acceptable parameters, while optimising returns; and
- protect the Group's financial investments, while maximising returns.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

### A. Credit Risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk arises from trade receivables, cash and cash equivalents, bank balance, fixed deposits with banks, security deposits and other financial assets.

The exposure to credit risks arises from the potential failure of counterparties to meet their obligations. The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

# Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

With respect to other financial assets namely security deposits and other receivables, the maximum exposure to credit risk is the carrying amount of these classes of financial assets presented in the Balance Sheet. These are actively monitored and confirmed by the Group. Currently, the credit risk arising from such security deposits and other receivables is evaluated to be immaterial for the Group.

Credit Risk on cash and cash equivalents, deposits with the banks/financial institutions is generally low as the said deposits have been made with the banks/financial institutions, who have been assigned high credit rating by international and domestic rating agencies.

## Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. The Group operates only in one geographical location i.e. in India. Considering the industry in which the Group is operating, there is no major long outstanding receivables.

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The carrying amounts of trade receivables as disclosed in note number 12 represent the maximum credit risk exposure.

The movement in loss allowance in respect of trade receivables is as follows:

	As at March 31, 2025	As at March 31, 2024
Balance at the beginning of the year	373.27	328.51
Addition from common control transaction (refer note 43)	-	3.52
Impairment losses (recognised)/ reversed on receivables	(24.89)	45.41

	As at March 31, 2025	As at March 31, 2024
Amounts written off during the year	(170.34)	(4.85)
Others	-	0.68
<b>Balance at the end of the year</b>	<b>178.04</b>	<b>373.27</b>

Financial assets at FVTPL : The Group is also exposed to credit risks in relation to financial assets (investments) that are measured at FVTPL. The maximum exposure at the end of the reporting period is the carrying amount of these assets.

## B. Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. In addition, processes and policies related to such risks are overseen by senior management.

The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial asset and liabilities (refer note 2.3 - Going Concern for further details). Accordingly, no liquidity risk is perceived.

### (i) Financing arrangements

## C. Market risk

### (a) Foreign currency risk

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates. The Group makes payments internationally and is exposed to foreign exchange risk arising from foreign currency purchases, primarily with respect to USD and GBP. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the Group's functional currency (Rs) at the period end. The Group's exposure to foreign currency risk, expressed in Rs, is given in the table below. The amounts represent only the financial assets and liabilities that are denominated in currencies other than the functional currency of the Group.

Tulsi Palace Resort Private Limited (TPRPL) <sup>(2)</sup>	BSREP III Joy Two Holdings (DIFC) Limited	12,575,000	50%	6,483.04
<b>Total purchase consideration*</b>				<b>46,599.49</b>

\* Under the terms of the respective share purchase agreements, this represents the cash consideration towards the equity share capital and compulsory convertible debentures (wherever applicable) of the acquiree companies.

\*\* BSREP III Joy Two Holdings (DIFC) Limited had initially acquired the 50% stake in equity capital in TPRPL on April 29, 2021 for which the Company has paid purchase consideration of Rs. 6,482.90 million to them. Moonburg Power Private Limited which is also under common control, acquired the remaining 50% equity capital in TPRPL on May 27, 2023 for a total consideration of Rs. 4,730.00 million. With this purchase of 50% equity shares, the TPRPL came under common control as on May 27, 2023. Further, pursuant to the Scheme of Arrangement (the 'Scheme') for merger of MPPL, with TPRPL, the said investment of Rs. 4,730.00 million has been cancelled against the corresponding proportion of equity share capital of TPRPL.

\*\*\* Includes equivalent number of equity shares on conversion of CCDs in Schloss Chanakya Private Limited, Schloss Udaipur Private Limited, Schloss Chennai Private Limited and Schloss HMA Private Limited.

# Notes to Consolidated Financial Statements (Contd.)

## for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

<sup>(1)</sup> It includes 50,00,000 CCDs which are not getting converted into equity shares. Equity shares and CCDs were subsequently transferred to Schloss Chanakya Private Limited on July 20, 2024.

<sup>(2)</sup> Equity shares of Schloss Udaipur Private Limited were subsequently transferred to Schloss Chanakya Private Limited on July 19, 2024. 7,545,000 equity shares and 5,030,000 equity shares of TPRPL were transferred to Schloss Chanakya Private Limited on July 18, 2024 and July 20, 2024 respectively.

<sup>(3)</sup> Equity shares were subsequently transferred to Schloss Bangalore Limited on July 25, 2024.

<sup>(4)</sup> Equity shares were subsequently transferred to Schloss Bangalore Limited on July 26, 2024.

<sup>(5)</sup> Equity shares were subsequently transferred to Schloss Bangalore Limited on July 30, 2024.

Since, the ultimate controlling entity of above acquiree companies and the Company both before and after the acquisition will be same, these acquisitions amount to a common control business combination in accordance with the provisions laid down in Appendix C of Ind AS 103.

The Company and acquiree entities except TPRPL were under common control before April 1, 2023 which is the earliest period presented in these consolidated financial statements. Hence, the consolidated interim financial statements for the period beginning April 1, 2023 has been restated as if these business combinations had occurred before April 1, 2023.

The financial information in respect of TPRPL has been restated as if business combination of TPRPL occurred as on May 27, 2023 (the date when TPRPL and the group came under common control)

The difference between the amounts recorded as cash consideration payable and the amount of the respective share capital and compulsory convertible debentures (wherever applicable) of the acquiree companies has been transferred to common control adjustment deficit account.[refer note 16(b)(v)]

## II Scheme of merger accounting

The Board of Directors of Tulsi Palace Resorts Private Limited ('Transferee Company'), a subsidiary of the Company, at its meeting held on October 20, 2023 had approved the

## Notes to Consolidated Financial Statements (Contd.)

for the year ended March 31, 2025

(All amounts are in Rupees million except as otherwise stated)

Scheme of Arrangement (the 'Scheme') for merger of Moonburg Power Private Limited ('Transferor Company'), with the Transferee Company. Both the Transferor Company and Transferee Company are under common control of the Company (refer section I above).

Application seeking approval of the Scheme was subsequently filed with Hon'ble National Company Law Tribunal (NCLT), Mumbai Bench on February 12, 2024. The Scheme has been approved by NCLT, Mumbai Bench by an order dated August 13, 2024, with an Appointed Date of May 27, 2023. The Transferee Company has submitted the INC 28 form with concerned Registrar of Companies ('ROC') in line with the requirements of the Companies Act, 2013 to make the Scheme effective on September 11, 2024. Considering the fact that filing the said order with ROC is routine in nature, the Group has accordingly given effect to the Scheme in these consolidated financial statements for the year ended March 31, 2024 from the Appointed date of May 27, 2023.

Accounting treatment prescribed by the scheme:

- a. All the assets, liabilities and reserves (if any) of the Transferor Company shall be transferred to and vested in the Transferee Company pursuant to this Scheme and shall be recorded in the books of accounts the Transferee Company at the carrying value of assets, liabilities and reserves as appearing in the financial statements of the Transferor Company as at the appointed date
- b. The equity shares issued by the Transferee Company to the shareholders of the Transferor Company as prescribed in the Scheme, shall be recorded at face value. As per the Scheme for one fully paid up equity shares having face value of Rs. 10 of the Transferee Company shall be issued and allotted to the shareholders of Transferor Company for every thirty six equity shares having face value of Rs. 10 each held in the Transferor Company.

- c. The investment in equity shares of the Transferee Company held by the Transferor Company, shall stand cancelled and shall be adjusted against share capital to the extent of face value of equity shares cancelled.
- d. All the inter company balances, appearing in the books of the Transferee Company shall stand cancelled and there shall be no further rights and obligations in that behalf.
- e. The difference arising on account of above, being debit, shall be adjusted to retained earnings of the Transferee Company
- f. In case there is any difference in the accounting policies adopted by the Transferor Company and the Transferee Company, the accounting policies followed by the Transferee Company will prevail and the difference will be quantified and adjusted in the reserves to ensure that the financial statements of the Transferee Company reflect the financial position on the basis of consistent accounting policy.

The book value of assets, liabilities and reserves taken over in accordance with the terms of the scheme at the following summarised values:

	Amount
Total assets	4,730.70
Total liabilities	(4,673.70)
Other equity	(56.90)
