**RISKS IN RELATION TO THE FIRST OFFER**

This being the first public issue of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of each Equity Share is ₹10. The Floor Price, Cap Price and Offer Price determined by our Company in consultation with the Book Running Lead Managers on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process as stated in “Basis for Offer Price” beginning on page 140, in accordance with the SEBI ICDR Regulations should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

**GENERAL RISK**

Investments in equity and equity-related securities involve a degree of risk and Bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, Bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have neither been recommended, nor approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Red Herring Prospectus. Specific attention of the Bidders is invited to “Risk Factors” beginning on page 28.

**COMPANY’S AND PROMOTER SELLING SHAREHOLDER’S ABSOLUTE RESPONSIBILITY**

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Draft Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Draft Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. The Promoter Selling Shareholder accepts responsibility for and confirms only such statements made by them in this Draft Red Herring Prospectus to the extent such information specifically pertains to the Promoter Selling Shareholder and the Offered Shares and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect. Further, the

Promoter Selling Shareholder confirms that it does not assume any responsibility for any other statements, disclosures, and undertakings including without limitation, and all of the statements and undertakings made by or relating to our Company or Company's business or any other person(s), in this Draft Red Herring Prospectus.

Further, not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Bidders ("Non-Institutional Category") of which one-third of the Non-Institutional Category shall be available for allocation to Bidders with an application size of more than ₹200,000 and up to ₹1,000,000 and two-thirds of the Non-Institutional Category shall be available for allocation to Bidders with an application size of more than ₹1,000,000 and under-subscription in either of these two sub-categories of the Non-Institutional Category may be allocated to Bidders in the other sub-category of the Non-Institutional Category in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. Further, not less than 35% of the Net Offer shall be available for allocation to Retail Individual Bidders ("Retail Category"), in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer Price. All potential Bidders (except Anchor Investors) shall mandatorily participate in this Offer only through the Application Supported by Blocked Amount ("ASBA") process and shall provide details of their respective bank account (including UPI ID (defined hereinafter) in case of UPI Bidders (defined hereinafter) in which the Bid Amount will be blocked by the Self-Certified Syndicate Banks ("SCSBs") or pursuant to the UPI Mechanism, as the case may be. Anchor Investors are not permitted to participate in the Anchor Investor Portion through the ASBA process. For details, see "Offer Procedure" beginning on page 510.

### RISKS IN RELATION TO THE FIRST OFFER

This being the first public issue of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of each Equity Share is ₹10. The Floor Price, Cap Price and Offer Price, determined by our Company, in consultation with the Book Running Lead Managers, in accordance with the SEBI ICDR Regulations and on the basis of the assessment of market demand for the Equity Shares by way of the Book Building Process as stated in "Basis for Offer Price" on page 140 should not be considered to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

### GENERAL RISK

Investments in equity and equity-related securities involve a degree of risk and Bidders should not invest any funds in the Offer unless they can afford to take the risk of losing their investment. Bidders are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, Bidders must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have neither been recommended, nor approved by the SEBI, nor does SEBI guarantee the accuracy or adequacy of the contents of this Draft Red Herring Prospectus. Specific attention of the Bidders is invited to "Risk Factors" beginning on page 28.

### COMPANY'S AND PROMOTER SELLING SHAREHOLDER'S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Draft Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Draft Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Draft Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. The Promoter Selling Shareholder accepts responsibility for and confirms only such statements made by them in this Draft Red Herring Prospectus to the extent such information specifically pertains to the Promoter Selling Shareholder and the Offered Shares and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect. Further, the Promoter Selling Shareholder confirms that it does not assume any responsibility for any other statements, disclosures and undertakings including without limitation, and all of the statements and undertakings made by or relating to our Company or Company's business or any other person(s) in this Draft Red Herring Prospectus.

### LISTING

The Equity Shares that will be offered through the Red Herring Prospectus are proposed to be listed on the Stock Exchanges. Our Company has received 'in-principle' approvals from BSE and NSE for the listing of the Equity Shares pursuant to letters dated [●] and [●], respectively. For the purposes of the Offer, [●] is the Designated Stock Exchange. ## SUMMARY OF THE OFFER DOCUMENT

The following is a general summary of certain disclosures and the terms of the Offer and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Draft Red Herring Prospectus or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Draft Red Herring Prospectus, including the sections titled “Risk Factors”, “The Offer”, “Capital Structure”, “Objects of the Offer”, “Industry Overview”, “Our Business”, “Our Promoter and Promoter Group”, “Selected Statistical Information”, “Restated Consolidated Financial Information”, “Outstanding Litigation and Material Developments”, “Offer Procedure” and “Description of Equity Shares and Terms of the Articles of Association” beginning on pages 28, 63, 79, 134, 163, 233, 306, 313, 325, 421, 510 and 533, respectively.

### Primary Business of our Company

We are one of the leading, diversified retail-focused non-banking financial companies (“NBFCs”) in India in terms of Total Gross Loan book size, according to the CRISIL Report. Our Company is categorized as an Upper Layer NBFC (NBFC-UL) by the RBI. Our lending products are offered through our three business verticals: Enterprise Lending, Asset Finance and Consumer Finance. We also offer business process outsourcing services such as back-office support services, collection and sales support services to our Promoter as well as fee-based products such as distribution of insurance products primarily to our lending customers.

For further information, see “Our Business” beginning on page 233.

### Industry in which our Company Operates

NBFCs have shown remarkable resilience and gained importance in the financial sector ecosystem, growing from less than ₹2 trillion AUM at the turn of the century to ₹41 trillion at the end of Fiscal 2024. During Fiscals 2019 to 2024, NBFC credit is estimated to have witnessed a growth at CAGR of 11%. Rapid revival in the economy is expected to drive consumer demand in Fiscal 2025, leading to healthy growth in NBFCs. CRISIL MI&A expects NBFC credit to grow at 15-17% between Fiscal 2024 and Fiscal 2027 driven by growth in retail segment, and MSME loans in the wholesale segment.

For further information, see “Industry Overview” beginning on page 163.

### Our Promoter

Our Promoter is HDFC Bank Limited.

For details, see “Our Promoter and Promoter Group” beginning on page 306.

\* Our Company, in consultation with the BRLMs, may consider a Pre-IPO Placement, prior to filing of the Red Herring Prospectus. The Pre-IPO Placement, if undertaken, will be at a price to be decided by our Company, in consultation with the BRLMs. If the Pre-IPO Placement is completed, the amount raised pursuant to the Pre-IPO Placement will be reduced from the Fresh Issue, subject to compliance with Rule 19(2)(b) of the SCRR. The Pre-IPO Placement, if undertaken, shall not exceed 20% of the size of the Fresh Issue. Prior to the completion of the Offer, our Company shall appropriately intimate the subscribers to the Pre-IPO Placement, prior to allotment pursuant to the Pre-IPO Placement, that there is no guarantee that our Company may proceed with the Offer or the Offer may be successful and will result into listing of the Equity Shares on the Stock Exchanges. Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement (if undertaken) shall be appropriately made in the relevant sections of the RHP and the Prospectus.

- (1) The Offer has been authorized by the resolution of our Board of Directors at their meeting held on September 20, 2024, and the Fresh Issue has been authorised by a special resolution passed by our Shareholders through postal ballot declared on October 21, 2024.
- (2) Our Board has taken on record the approval for the Offer for Sale by the Promoter Selling Shareholder pursuant to their resolution dated October 28, 2024. The Promoter Selling Shareholder has confirmed its eligibility to participate in the Offer for Sale in accordance with Regulation 8 of the SEBI ICDR Regulations, to the extent applicable to the Promoter Selling Shareholder, as on the date of this Draft Red Herring Prospectus, as set out below:

For further details, see “The Offer” and “Other Regulatory and Statutory Disclosures” beginning on pages 63 and 474 respectively.

- (3) Subject to valid bids being received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange, subject to applicable laws. In the event of under-subscription in the Employee Reservation Portion (if any), the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹200,000, subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹500,000. The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation up to ₹500,000), shall be added to the Net Offer. The unsubscribed portion, if any, in the HDFC Bank Shareholders Reservation Portion, shall be added to the Net Issue. The Employee Reservation Portion shall not exceed 5% of our post-Offer paid-up Equity Share capital. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid under the Retail Portion in the Net Offer and such Bids will not be treated as multiple Bids. For further details, see “The Offer” and “Offer Structure” beginning on page 63 and 505.
- (4) The HDFC Bank Shareholder Reservation Portion shall not exceed 10% of the Offer size. For further details, see “Offer Structure” beginning on page 505.

The Offer and Net Offer shall constitute [●]% and [●]% of the post Offer paid up Equity Share capital of our Company, respectively. For further details, see “The Offer” and “Offer Structure” beginning on pages 63 and 505, respectively.

### Notes:

The ratios have been computed as follows:

- (i) Total Equity: Total Equity is equal to paid up equity share capital plus other equity
- (ii) Restated Profit/(loss) after tax for the relevant fiscal.
- (iii) Return on Equity (“RoE”): Ratio of Restated Profit/(loss) after tax for the specified period to Average Total Equity (which comprises of equity share capital and other equity) as at the last day of the specified period. Average Total Equity represents the simple average of total equity as at the last day of the specified period and total equity of the last day of the immediately preceding period.
- (iv) Net Asset Value per Equity Share represents Total Equity as at the end of the relevant fiscal, as divided by the number of Equity Shares outstanding at the end of the relevant Fiscal.
- (v) Total Borrowings: Outstanding borrowings as at the last day of the specified period. Total Borrowings is the sum of debt securities, borrowings (other than debt securities) and subordinated liabilities as at the last day of specified period.

## Risk Factors

The following is a summary of the top ten risk factors in relation to our Company:

1. Any downturn in the macroeconomic environment in India could adversely affect our business, results of operations, cash flows and financial condition.
2. Gross Stage 3 Loans amounted to 2.10%, 2.38%, 1.90%, 2.73% and 4.99% of Total Gross Loans as at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively. Non-payment or default by our customers, our inability to provide adequate provisioning coverage for non-performing assets or change in regulatorily mandated provisioning requirements may adversely affect our financial condition and results of operations.
3. As at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively, unsecured loans comprised 28.92%, 28.11%, 28.66%, 27.13% and 26.42% of our Total Gross Loans, respectively. Our unsecured loan portfolio is not supported by any collateral that could help ensure repayment of the loan, and in the event of non-payment by a borrower of one of these loans, we may be unable to collect the unpaid balance.
4. As at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively, secured loans comprised 71.08%, 71.89%, 71.34%, 72.87% and 73.58% of our Total Gross Loans, respectively. The value of collateral for our secured loans may decrease or we may experience delays in enforcing collateral, impacting our ability to fully recover the collateral value, thereby exposing us to potential loss that could adversely affect our business, results of operations, cash flows and financial condition.
5. We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company, which may have a material impact on our business operations and share price.
6. We rely on a trademark licence agreement with our Promoter, HDFC Bank, to use the HDFC Bank logo. Any termination of our rights to use the HDFC Bank logo or any reputational harm to the HDFC Bank could materially and adversely affect our brand recognition, business, financial condition and results of operations.
7. We may be impacted by volatility in interest rates, which could cause our Net Interest Income and our Net Interest Margins to decline and adversely affect our business, results of operations, cash flows and financial condition.
8. We may not be successful in implementing our growth strategies or sustaining our growth and financial performance at similar rates as experienced in recent years.
9. The lending services industry in India is highly competitive and our inability to compete effectively could adversely affect our business, results of operations, cash flows and financial condition.
10. We are subject to periodic inspections by the RBI in India. Non-compliance with regulations and observations made during the RBI’s inspections could expose us to penalties, suspension and restrictions as well as cancellation of our licence.

For further details of the risks applicable to us, see “*Risk Factors*” beginning on page 28. Investors are advised to read the risk factors carefully before making an investment decision in the Offer.

**Details of pre-IPO placement**

Our Company, in consultation with the BRLMs, may consider a Pre-IPO Placement, prior to filing of the Red Herring Prospectus. The Pre-IPO Placement, if undertaken, will be at a price to be decided by our Company, in consultation with the BRLMs. If the Pre-IPO Placement is completed, the amount raised pursuant to the Pre-IPO Placement will be reduced from the Fresh Issue, subject to compliance with Rule 19(2)(b) of the SCRR. The Pre-IPO Placement, if undertaken, shall not exceed 20% of the size of the Fresh Issue. Prior to the completion of the Offer, our Company shall appropriately intimate the subscribers to the Pre-IPO Placement, prior to allotment pursuant to the Pre-IPO Placement, that there is no guarantee that our Company may proceed with the Offer or the Offer may be successful and will result into listing of the Equity Shares on the Stock Exchanges. Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement (if undertaken) shall be appropriately made in the relevant sections of the RHP and the Prospectus.

**Exemption from complying with any provisions of securities laws, if any, granted by SEBI**

Our Company has not applied for or received any exemption from the SEBI from complying with any provisions of securities laws, as on the date of this Draft Red Herring Prospectus.

## CERTAIN CONVENTIONS, PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

### Certain Conventions

All references to “India” contained in this Draft Red Herring Prospectus are to the Republic of India and its territories and possessions and all references herein to the “Government”, “Indian Government”, “GoI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable. All references to the “U.S.”, “US”, “U.S.A” or “United States” are to the United States of America and its territories and possessions.

Unless otherwise specified, any time mentioned in this Draft Red Herring Prospectus is in Indian Standard Time (“IST”). Unless indicated otherwise, all references to a ‘year’ in this Draft Red Herring Prospectus are to a calendar year.

Unless stated otherwise, all references to page numbers in this Draft Red Herring Prospectus are to the page numbers of this Draft Red Herring Prospectus.

### Financial Data

Unless stated otherwise or the context otherwise requires, the financial information and financial ratios in this Draft Red Herring Prospectus have been derived from our Restated Consolidated Financial Information. For further information, see “*Restated Consolidated Financial Information*” beginning on page 325.

Restated consolidated financial information of HDB Group comprising the restated consolidated statement of assets and liabilities as at September 30, 2024, September 30, 2023, March 31, 2024, March 31, 2023 and March 31, 2022, the restated consolidated statement of profit and loss (including other comprehensive income), the restated consolidated statement of changes in equity and the restated consolidated statement of cash flows for the six months period ended September 30, 2024 and September 30, 2023 and for the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, and notes to the restated consolidated financial information, prepared in accordance with the requirements of Section 26 of the Companies Act 2013; Paragraph (A) of Clause 11 (I) of Part A of Schedule VI of the SEBI ICDR Regulations and the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India as amended from time to time. Our Company’s financial year commences on April 1 and ends on March 31 of the next year. Accordingly, all references in this Draft Red Herring Prospectus to a particular FY, Financial Year, Fiscal or Fiscal Year, unless stated otherwise, are to the 12-month period ended on March 31 of that particular calendar year.

There are significant differences between Ind AS, Generally Accepted Accounting Principles in the United States of America (the “U.S. GAAP”) and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited. For risks relating to significant differences between Ind AS and other accounting principles, see “*Risk Factors – Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to investors’ assessments of our financial condition.*” on page 56.

Unless the context otherwise indicates, any percentage amounts, or ratios as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 28, 233 and 387, respectively and elsewhere in this Draft Red Herring Prospectus have been calculated on the basis of amounts derived from our Restated Consolidated Financial Information.

### Non-Generally Accepted Accounting Principles Financial Measures

In addition to our results determined in accordance with Ind AS, we use a variety of financial and operational performance indicators like Average Total Assets, Average Total Gross Loans, Net Worth, Total Gross Loans, average Total Gross Loans, Total Borrowings, Return on Equity, Net Interest Income, Fee income, Net Total Income, Operating Expenses, Net Interest Margin, Gross NPA and Net NPA (“**Non-GAAP Measures**”) presented in this Draft Red Herring Prospectus which are a supplemental measure of our performance and are not required by, or presented in accordance with, Ind AS, Indian GAAP, or IFRS. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, or IFRS. In addition, these Non-GAAP Measures are not a standardised term, hence a direct comparison of similarly titled Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although the Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company’s operating performance. See “*Risk Factors*

– We have in this Draft Red Herring Prospectus included certain non-GAAP financial measures and certain other selected statistical information related to our operations and financial condition. These non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry and therefore may not be comparable with financial or statistical information of similar nomenclature computed and presented by other financial services companies” on page 53 and “Selected Statistical Information” on page 313.

## Currency and Units of Presentation

All references to:

- “Rupees” or “₹” or “INR” or “Rs.” are to Indian Rupee, the official currency of the Republic of India; and
- “USD” or “\$” or “US\$” are to Dollar, the official currency of the United States of America.

Our Company has presented certain numerical information in this Draft Red Herring Prospectus in “million” units or in whole numbers where the numbers have been too small to represent in such units. One million represents 1,000,000 and one billion represents 1,000,000,000.

However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than millions, such figures appear in this Draft Red Herring Prospectus in such denominations as provided in the respective sources.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures derived from our Restated Consolidated Financial Information in decimals have been rounded off to the second decimal place. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given, and (ii) the sum of the figures in a column or row in certain tables may not conform exactly to the total figure given for that column or row. However, where any figures may have been sourced from third-party industry sources, such figures may be rounded off to such number of decimal places as provided in such respective sources.

## Exchange Rates

This Draft Red Herring Prospectus contains conversion of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the Financial Years/ periods indicated, information with respect to the exchange rate between the Rupee and the other currencies:

| <i>(Amount in ₹, unless otherwise specified)</i> |                          |                          |                      |                      |                      |
|--------------------------------------------------|--------------------------|--------------------------|----------------------|----------------------|----------------------|
| Currency                                         | As of September 30, 2024 | As of September 30, 2023 | As of March 31, 2024 | As of March 31, 2023 | As of March 31, 2022 |
| 1 US\$                                           | 83.80                    | 83.05                    | 83.41                | 82.17                | 75.79                |

Note:

(1) Exchange rate is rounded off to two decimal points.

(2) If the RBI reference rate is not available on a particular date due to a public holiday, exchange rates of the previous working day have been disclosed.

## Industry and Market Data

Unless stated otherwise, information pertaining to the industry in which our Company operates in, contained in this Draft Red Herring Prospectus is derived from report titled “Report on Loans and Financial Services Industry in India” dated October 2024, prepared by CRISIL MI&A (“**CRISIL Report**”). CRISIL is an independent agency and has no relationship with our Company, our Promoter, any of our Directors, KMPs, SMPs or the Book Running Lead Managers. The CRISIL Report has been exclusively commissioned and paid for by our Company, for the purpose of understanding the industry in connection with this Offer, since no report is publicly available which provides a comprehensive industry analysis, particularly for our Company’s services, that may be similar to the CRISIL Report. This Draft Red Herring Prospectus contains certain data and statistics from the CRISIL Report, which shall be available on the website of our Company at <https://www.hdbfs.com/investor/offer-documents> and also included in “Material Contracts and Documents for Inspection” beginning on page 576 and is subject to the following disclaimer:

*CRISIL Market Intelligence & Analytics (CRISIL MI&A), a division of CRISIL Limited, provides independent research, consulting, risk solutions, and data & analytics to its clients. CRISIL MI&A operates independently of CRISIL’s other divisions and subsidiaries, including, CRISIL Ratings Limited. For the preparation of this report,*

*CRISIL MI&A has relied on third party data and information obtained from sources which in its opinion are considered reliable. Any forward-looking statements contained in this report are based on certain assumptions, which in its opinion are true as on the date of this report and could fluctuate due to changes in factors underlying such assumptions or events that cannot be reasonably foreseen. This report does not consist of any investment advice and nothing contained in this report should be construed as a recommendation to invest/disinvest in any entity. This industry report is prepared for use in the Offer Documents to be filed by the Company with the RoC, SEBI and the Stock Exchanges in India. The Company will be responsible for ensuring compliances and consequences of non-compliances for use of the Report or part thereof outside India.”*

Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources which are believed to be reliable but accuracy, completeness relevance of such information shall be subject to the disclaimers, context and underlying assumptions of such sources. Although the industry and market data used in this Draft Red Herring Prospectus is reliable, the data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable. Accordingly, no investment decisions should be based solely on such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors – Industry information included in this Draft Red Herring Prospectus has been derived from the CRISIL Report, and any reliance on information from the CRISIL Report for making an investment decision in the Offer is subject to inherent risks*” on page 52.

Industry sources and publications may base their information on estimates and assumptions that may prove to be incorrect. The extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful depends upon the reader’s familiarity with, and understanding of, the methodologies used in compiling such information. There are no standard data gathering methodologies in the industry in which our Company conducts business and methodologies and assumptions may vary widely among different market and industry sources. Such information involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors*” beginning on page 28.

In accordance with the SEBI ICDR Regulations, “*Basis for Offer Price*” beginning on page 140 includes information relating to our peer group companies. Such information has been derived from publicly available sources specified herein.

#### **Notice to Prospective Investors in the United States**

The Equity Shares have not been reviewed or recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Draft Red Herring Prospectus or approved or disapproved the Equity Shares. Any representation to the contrary is a criminal offence in the United States. In making an investment decision, investors must rely on their own examination of our Company and the terms of the Offer, including the merits and risks involved. The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**U.S. Securities Act**”) or any other applicable law of the United States (or any state or other jurisdiction therein), and, unless so registered, may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (a) in the United States only to persons reasonably believed to be “qualified institutional buyers” (as defined in Rule 144A under the U.S. Securities Act (“**Rule 144A**”)) and referred to in this Draft Red Herring Prospectus as “U.S. QIBs” and, for the avoidance of doubt, the term U.S. QIBs does not refer to a category of institutional investor defined under applicable Indian regulations and referred to in this Draft Red Herring Prospectus as QIBs) in transactions exempt from, or not subject to the registration requirements of the U.S. Securities Act and (b) outside the United States in “offshore transactions” (as defined in Regulation S) in compliance Regulation S and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made, by persons in any such jurisdiction except in compliance with the applicable laws of such jurisdiction.

## FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “continue”, “can”, “could”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “propose”, “project”, “seek”, “will”, “will achieve”, “will continue”, “will likely”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. All statements in this Draft Red Herring Prospectus that are not statements of historical fact are ‘forward-looking statements’.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, restrictions resulting from regulatory changes pertaining to the industry in India and other overseas jurisdictions in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industry in which we operate.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

1. Any downturn in the macroeconomic environment in India.
2. Non-payment or default by our customers, our inability to provide adequate provisioning coverage for non-performing assets or change in regulatorily mandated provisioning requirements.
3. Our unsecured loan portfolio is not supported by any collateral that could help ensure repayment of the loan, and in the event of non-payment by a borrower of one of these loans, we may be unable to collect the unpaid balance.
4. The value of collateral for our secured loans may decrease or we may experience delays in enforcing collateral, impacting our ability to fully recover the collateral value, thereby exposing us to potential loss.
5. We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company.

For further details regarding factors that could cause actual results to differ from expectations, see “Risk Factors”, “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 28, 163, 233 and 387 respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

There can be no assurance to Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect current views as on the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the Promoter Selling Shareholder, the Syndicate nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the requirements of the SEBI ICDR Regulations, our Company shall ensure that investors are informed of material developments from the date of the Red Herring Prospectus in relation to the statements and undertakings made by our Company in this Draft Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer.

In accordance with the requirements of SEBI ICDR Regulations, the Promoter Selling Shareholder shall (solely to the extent of statements specifically made or confirmed by the Promoter Selling Shareholder in relation to the Offered Shares in this Draft Red Herring Prospectus), through our Company and the BRLMs ensure that investors in India are informed of material

developments from the date of the Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Offer. Only statements and undertakings which are specifically confirmed or undertaken by the Promoter Selling Shareholder in relation to itself as a Promoter Selling Shareholder and its portion of the Offered Shares, in the Red Herring Prospectus shall be deemed to be statements and undertakings made by the Promoter Selling Shareholder.

## SECTION II: RISK FACTORS

An investment in our Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below before making an investment in our Equity Shares.

We have described the risks and uncertainties that we believe are material, but these risks and uncertainties may not be the only risks relevant to us, our Equity Shares or the industry in which we currently operate or propose to operate. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also have an adverse effect on our business, prospects, results of operations, financial condition and cash flows. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks mentioned in this section. If any or a combination of the following risks actually occur, or if any of the risks that are currently not known or deemed to be not relevant or material now actually occur or become material in the future, our business, cash flows, prospects, financial condition and results of operations could suffer, the trading price of our Equity Shares could decline, and you may lose all or part of your investment. For more details on our business and operations, see “Our Business”, “Industry Overview”, “Key Regulations and Policies”, “Selected Statistical Information”, “Restated Consolidated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 233, 163, 264, 313, 325 and 387, respectively, as well as other financial information included elsewhere in this Draft Red Herring Prospectus. In making an investment decision, you must rely on your own examination of our Company and the terms of the Offer, including the merits and risks involved, and you should consult your tax, financial and legal advisors about the particular consequences of investing in the Offer. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment which may differ in certain respects from that of other countries.

This Draft Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including but not limited to the considerations described below and elsewhere in this Draft Red Herring Prospectus. For more details, see “Forward-Looking Statements” beginning on page 26.

Unless otherwise indicated or the context requires otherwise, the financial information included herein is derived from our Restated Consolidated Financial Information as of and for the periods ended September 30, 2024 and September 30, 2023, and the fiscal years ended March 31, 2024, 2023 and 2022 included in this Draft Red Herring Prospectus. For further information, see “Restated Consolidated Financial Information” beginning on page 325. In addition, certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this section and elsewhere in this Draft Red Herring Prospectus. Such non-GAAP financial measures should be read together with the nearest GAAP measure. See “Certain Conventions, Presentation of Financial, Industry and Market Data—Non-Generally Accepted Accounting Principles Financial Measures” on page 23. Our fiscal year commences on April 1 and ends on March 31 of each year, and references to a particular Fiscal are to the 12 months ended March 31 of that year.

Unless otherwise indicated, industry and market data used in this section has been derived from industry publications, in particular, the report titled “Report on Loans and Financial Services Industry in India” (the “**CRISIL Report**”) prepared and issued by CRISIL Market Intelligence & Analytics, appointed by us pursuant to a technical proposal dated September 6, 2024, and exclusively commissioned and paid for by us in connection with the Offer. A copy of the CRISIL Report shall be available on the website of our Company at <https://www.hdbfs.com/investor/offer-documents> and has also been included in “Material Contracts and Documents for Inspection” on page 576. The data included herein includes excerpts from the CRISIL Report and may have been re-ordered by us for the purposes of presentation. There are no parts, data or information (which may be relevant for the proposed Offer), that has been left out or changed in any manner. Unless otherwise indicated, financial, operational, industry and other related information derived from the CRISIL Report and included herein with respect to any particular year refers to such information for the relevant calendar year. For more information, see “—Internal Risk Factors—Industry information included in this Draft Red Herring Prospectus has been derived from an industry report commissioned by us, and paid for by us for such purpose” on page 52. Also see, “Certain Conventions, Use of Financial Information and Market Data and Currency of Presentation—Industry and Market Data” on page 24. CRISIL is an independent agency and is not related to the Company, its Directors, Promoters or Promoter Selling Shareholder.

### INTERNAL RISK FACTORS

1. **Any downturn in the macroeconomic environment in India could adversely affect our business, results of operations, cash flows and financial condition.**

We are a retail focused non-banking financial company (“NBFC”) offering a diversified portfolio of lending products. All of our operations and assets are located in India, all our customers are located in India and all of our revenue from operations is derived from our business in India. As such, our financial performance is dependent on the condition of the Indian economy.

Factors that may adversely impact the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;

- any exchange rate fluctuations, imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian corporations;
- changes in India's tax, trade, fiscal or monetary policies;
- geopolitical tensions;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements, which may in turn adversely impact our access to capital, fund raising avenues and increase our borrowing costs;
- occurrence of natural or man-made disasters or outbreak of an infectious disease or epidemic such as COVID-19 or any other force majeure events in the region or globally, including in India's neighboring countries;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- prevailing regional or global economic conditions;
- any liquidity crisis affecting the financial services industry or NBFCs;
- any decline in India's foreign exchange reserves which may affect liquidity in the Indian economy; and
- any downgrading of India's debt rating by a domestic or international rating agency.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could reduce demand for our loans, increase loan default rates amongst our customers and generally adversely affect our business, results of operations, cash flows and financial condition as well as price of the Equity Shares. While we have not been materially affected by such a slowdown in the six months period ended September 30, 2024 and in Fiscals 2024, 2023 and 2022, any future downturn in the macroeconomic environment in India could have a material and adverse impact on our business, results of operation, cash flows and financial condition.

**2. Gross Stage 3 Loans amounted to 2.10%, 2.38%, 1.90%, 2.73% and 4.99% of Total Gross Loans as at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively. Non-payment or default by our customers, our inability to provide adequate provisioning coverage for non-performing assets or change in regulatorily mandated provisioning requirements may adversely affect our financial condition and results of operations.**

Our customers may default on their repayment obligations or may delay payments due to various factors. We may also experience a drop in collection efficiency. An increase in our level of Gross Stage 3 Loans due to various factors that are beyond our control, such as macro-economic factors and adverse regulatory changes as well as customer-specific factors, such as wilful default and mismanagement of a customer's financial obligations, may have a material adverse impact on the quality of our loan portfolio. As we expand our geographical footprint and deepen our vertical penetration, we may fail to make proper assessment of credit risks associated with new customers or products and a higher percentage of our loans may become non-performing. In respect of our secured loans, we may be exposed to risks of default in payment to the extent the value of the collateral declines or falls short of the amount of the loan or if the collateral goes missing or is destroyed. For further details, see “—As at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively, secured loans comprised 71.08%, 71.89%, 71.34%, 72.87% and 73.58% of our Total Gross Loans, respectively. The value of collateral for our secured loans may decrease or we may experience delays in enforcing collateral, impacting our ability to fully recover the collateral value, thereby exposing us to potential loss that could adversely affect our business, results of operations, cash flows and financial condition” on page 30. The table below provides a breakdown of Gross Stage 3 Loans and Net Stage 3 Loans as sums and as percentages of the Total Gross Loans as at the dates indicated below:

| Particulars                                                  | As at<br>(₹ in million except percentages) |                       |                |                |                |

We may also not achieve the anticipated collections which our statistical models predict and the analytical tools we use in our business may prove to be inaccurate. Our success depends on our ability to manage credit risk while attracting new customers. See also “—New-to-credit borrowers constituted 12.02%, 13.88%, 13.16%, 15.59% and 19.08% of our Total Gross Loans as at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively. We may not be able to properly assess the credit worthiness of new-to-credit borrowers, and loans extended to such new-to-

credit borrowers may accordingly have a higher risk of non-performance or default.” on page 40 and “—We rely on the accuracy and completeness of information about customers and counterparties. Any misrepresentation, errors or incompleteness of such information could adversely affect our business, results of operations, cash flows and financial condition” on page 40.

Any increase in our Gross Stage 3 Loans could adversely impact our credit ratings and translate into an increase in our Average Cost of Borrowings. Furthermore, if the level of Gross Stage 3 ratio increases, we will have to increase our respective provisions accordingly. This could have a material adverse effect on our business, results of operations, cash flows and financial condition.

We are also required to make provisions for Expected Credit Loss (“ECL”) on all our loans outstanding on the relevant reporting date. The computation of ECL provisioning is based on historical trends and macroeconomic factors and we may make errors in computing historical and recovery trends. The estimates used in computing variables for ECL may also undergo material change, which may have a significant impact on the carrying values of our loans, impairment on financial instruments and a consequential impact on our profitability, equity and capital to risk (weighted) assets ratio (“CRAR”).

Additionally, the RBI, under the SBR Regulations, has categorized us as “Upper Layer” (NBFC-UL) in its circular dated September 14, 2023. As a result, we are subject to certain additional provisioning requirements. For details, see “Key Regulations and Policies” on page 264. If regulators, including the RBI, continue to increase regulatory requirements regarding Gross Stage 3 Loans and provisioning for such assets, the level of Gross Stage 3 Loans as well as provisions could increase, which may have an adverse effect on our business, result of operations, cash flows and financial condition.

Our unsecured loan portfolio is not supported by any collateral that could help ensure repayment of the loan, and in the event of non-payment by a borrower of one of these loans, we may be unable to collect the unpaid balance.***

We offer unsecured enterprise loans to small businesses and unsecured personal loans to our retail customers as part of our Enterprise Lending and Consumer Finance business verticals, respectively. Unsecured loans represent a greater credit risk for us than our secured loan portfolio because they may not be supported by realisable collateral that could help ensure an adequate source of repayment for the loan. Although we normally obtain NACH or direct debit instructions from our customers for unsecured loan products, we may be unable to collect in part or at all in the event of non-payment by a borrower. Further, any expansion in our unsecured loan portfolio could require us to increase our provision for credit losses, which would decrease our earnings.

Since these loans are unsecured in nature, in the event of default by such customers, our ability to realise the amounts due to us would be restricted to initiating legal proceedings for recovery. There can be no guarantee as to the amount of our resources that would be utilised and the length of time it could take to conclude such legal proceedings or for the legal proceedings to result in a favourable decision to us. Any failure to recover the full amount due on such unsecured loans could adversely affect our business, profitability, financial condition, results of operations and cash flows.

4. ***As at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively, secured loans comprised 71.08%, 71.89%, 71.34%, 72.87% and 73.58% of our Total Gross Loans, respectively. The value of collateral for our secured loans may decrease or we may experience delays in enforcing collateral, impacting our ability to fully recover the collateral value, thereby exposing us to potential loss that could adversely affect our business, results of operations, cash flows and financial condition.***

Most of our products spanning across Enterprise Lending, Asset Finance and Consumer Finance are secured. The underlying security of our loans varies and depends on our assessment of the credit risk of the borrower. The main types of collateral in our business include charges over residential or commercial properties, commercial equipment and wheeled assets.

The value of the collateral such as wheeled assets and residential and commercial properties may fluctuate or decline due to factors beyond our control, including deterioration in regional economic conditions or asset values or deficiencies in the

perfection of collateral. Such risk is particularly higher in situations where the collateral is in the form of depreciating fixed assets, such as wheeled assets. In the case of collateral in the form of mortgage over our customers' residential or commercial property, we are exposed to adverse movements in the price of such immovable property and the real estate market in general. Our outstanding loans may exceed the value of the underlying collateral if the value of the collateral reduces significantly or if the collateral goes missing or is destroyed. As a result of the foregoing, we may not be able to realise the full value of the collateral, assign or refinance such loans.

The following table shows the concentration of our loans on the basis of the nature of the collateral:

**Notes:**

<sup>(1)</sup> "Others" includes Consumer Durables, Two Wheeler Loans, Gold Loans and Micro Lending.

Furthermore, there can be no certainty that we will be able to successfully repossess or liquidate the collateral in the event of a default. We may face delays, including in respect of legal proceedings and auction processes, which may be exacerbated by political instability or social factors in the states where we operate. We also incur legal and administrative costs in the repossession and sale of the collateral. In addition, foreclosure on collateral may be subject to administrative requirements that could result in, or be accompanied by, a decrease in the value of the collateral.

In particular, with respect to properties which are made collateral, there is no central title registry for real estate or immovable property in India and the documentation of land records in India has not been fully digitized. We are exposed to the risk of forged or defective title deeds and property documents from time to time in the ordinary course of business, including on account of out-of-date or illegible local land records which may only be available in the local vernacular languages. Although the Government of India established and operationalised the Central Registry of Securitisation Asset Reconstruction and Security Interest of India (the "CERSAI") on March 31, 2011, under the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (the "SARFAESI Act") to create a central database of all charges on receivables and moving assets (including mortgages) created by lending institutions, the management and maintenance of this database is subject to the accuracy of descriptions of property submitted by lending institutions and set out in the relevant property deeds. While data is required to be updated on the CERSAI portal, potential disputes or claims over title to our mortgaged properties may arise. Title to the property may be disputed including with respect to alleged short payment of stamp duty or registration fees, which may render the title documents inadmissible in evidence.

As a result of the above, we may not be able to realise the full value of our collateral due to delays in foreclosure proceedings and a failure to recover the expected value of collateral security could expose us to a potential loss. If we are unable to seize and/or recover the full value of collateral in a timely manner, or at all, our business, results of operations, cash flows and financial condition may be adversely affected.

- We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company, which may have a material impact on our business operations and share price.***

Our Promoter, HDFC Bank Limited ("HDFC Bank"), owns a 94.36% stake of the issued paid up capital of our Company (on a fully diluted basis) as of September 30, 2024. In connection with the Offer, our Promoter is expected to sell a portion of its stake, but it is still expected to continue to hold the majority of the shares in our Company following the Offer and to exercise significant influence over our business policies, affairs and other matters, on account of its shareholding. For further information on our Promoter's shareholding pre- and post-Offer, see "Capital Structure—History of the equity share capital held by our Promoter—Build-up of the shareholding of our Promoter in our Company" on page 120. This concentration of ownership may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of our Promoter. The interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders following the Offer. We may also compete with our Promoter or its other Group Companies as we or they both offer similar products and services, though currently we target different borrower segments. For further details, see "Our Promoter and Promoter Group—Interest of our Promoter" on page 308.

Conversely, our Promoter may be required or may make strategic decisions to further reduce its ownership in our Company to a potentially minority stake. In particular, the RBI issued a draft circular on October 4, 2024 aimed at eliminating any overlap

in business activities between a bank and its group entities (the “**Proposed Rules**”). Currently, our Company offers the same products as our Promoter and one of its Group Companies. The Proposed Rules currently require compliance within a period of two years from the date of the expected final circular. The Proposed Rules are subject to comments from the industry and the public and their final version may be subject to change. If implemented as currently drafted, we understand that our Promoter is expected to be required to decrease its ownership in our Company to less than 20% of the equity capital (or any such higher % with prior RBI approval) in order to continue offering overlapping products. Such significant decrease in ownership by our Promoter may have a material adverse impact on our business operations and share price. Further, any divestment by our Promoter will need to comply with applicable laws, including the SEBI SAST Regulations.

Further, we rely on the parentage of our Promoter for certain areas of our business, including as a lender under our borrowings for the funding of our growth, as well as for our strong credit ratings and low costs of borrowing (see “*Financial Indebtedness*” on page 416). We have also benefited from the long-term support and brand value of our Promoter. Such parentage and support of our Promoter may or may not continue following any reduction in shareholding. Additionally, our bank borrowings include covenants allowing banks to recall or reprice the relevant debt facilities if our Promoter’s stake in our Company falls below 51%. As a result, we may need to, among other things, access other lenders or additional sources of funding in the future for meeting our borrowing requirements, our credit ratings may be adversely impacted and our borrowing costs may increase. Any changes in the relationship between our Company and our Promoter may also have an impact on the price of our Equity Shares following the Offer. Any termination of our rights to use the HDFC Bank logo or any reputational harm to the HDFC Bank brand could materially and adversely affect our brand recognition, business, financial condition and results of operations.***

Our right to use the HDFC Bank logo (the “**Trademark**”) is subject to a trademark licence agreement entered into with our Promoter, HDFC Bank, on December 19, 2023 (the “**Agreement**”). The Trademark is crucial in marketing our products. Under the Agreement, our Company has been granted a non-exclusive, non-assignable (except in certain limited circumstances) and non-transferable licence to use the Trademark with respect to its business and subject to the terms and conditions set forth under the Agreement. For further details, see “*About our Company—History and Certain Corporate Matters— Trademark license agreement dated December 19, 2023 entered amongst our Company and our Promoter HDFC Bank Limited (the holding company of our Company) for the use of the corporate logo.*” on page 285.

The Agreement will continue to be in effect until the earlier of July 1, 2028, or the time at which the Company ceases to be a subsidiary of HDFC Bank. See “— *We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company, which may have a material impact on our business operations and share price*” on page 31. The Agreement may be terminated by HDFC Bank at any time with three months’ notice as well as on certain specific grounds. Any termination or failure to renew the Agreement could materially and adversely affect our business, results of operation and financial condition. In such circumstances or otherwise, the Company may potentially consider changing the legal entity name or the branding of the Company subject to receipt and compliance of applicable regulatory and statutory approvals.

Further, we are dedicated to maintaining the trust and confidence of our clients, and we believe that the good reputation created thereby, and inherent in the HDFC Bank brand, is essential to our business. As such, any reputational damage to HDFC Bank could substantially impair our ability to maintain or grow our business and may result in loss of business by our existing customers and existing partners or loss of business from potential new customers or potential new partners. In addition, any action on the part of any of the companies in the HDFC Bank group that negatively impacts the HDFC Bank brand could have a material adverse effect on our brand recognition, our business, financial condition and results of operations.

**7. *We may be impacted by volatility in interest rates, which could cause our Net Interest Income and our Net Interest Margins to decline and adversely affect our business, results of operations, cash flows and financial condition.***

Our results of operations and cash flows depend substantially on the level of our Net Interest Income—the largest component of our total income, which is the difference between our interest income on our loan portfolio and our finance costs. The following table sets forth an overview of our finance costs for the dates indicated:

**Notes:**

(1) Average Total Gross Loans: simple average of our Total Gross Loans as at the last day of the specified period and our Total Gross Loans as at the last day of the previous comparable period.

(2) Net Interest Income: Interest Income for the specified period reduced by finance cost for the specified period.

(3) Average Yield: Average interest on loan amounts extended to our customers in the specified period. Average interest rate is calculated as Interest Income as a percentage of Average of total gross loans (Average of Opening and Closing total gross loans during the specified period).

(4) Finance cost to Average Total Gross Loans: ratio of finance cost to average Total Gross Loans for the specified period.

(5) Net Interest Margin: Ratio of Net Interest Income to the Average Total Gross Loans during the specified period.

Given that we are a non-deposit taking NFBC relying on wholesale borrowing sources, our Net Interest Margin is affected by our interest income and interest expense. We extend loans to our customers and avail borrowings at both fixed as well as floating interest rate notes. Although most of our loans are on fixed interest rates, our loans against property are on floating interest rates. The table below sets forth a breakdown of our Total Gross Loans advanced and Total Borrowings by fixed and floating interest rates as at September 30, 2024 and September 30, 2023 and as at March 31, 2024, March 31, 2023, and March 31, 2022.

Interest rates are sensitive and volatility in interest rates could be a result of many factors, including the monetary policies of the RBI, aggressive pricing by competitors, de-regulation of the financial services sector in India, domestic and international economic and political conditions, inflation, monetary policies of global central banks and macro-economic environment and economic policies in India. Our cost of funds is sensitive to interest rate fluctuations exposing us to the risk of reduction in spreads. Changes in interest rates could affect the interest rates we charge on our loans to customers in a manner different from the interest rates we pay on our liabilities because of the different maturity periods applying to our assets and liabilities. In a rising interest rate environment, if the yield on our loans to customers does not increase simultaneously with or to the same extent as our cost of funds, and conversely, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our loans to customers, our Net Interest Income and Net Interest Margin would be adversely impacted. For example, in Fiscal 2024, even though our Net Interest Income increased, our Net Interest Margin declined from 8.25% in Fiscal 2023 to 7.85% in Fiscal 2024 due to an increase in finance costs, while the yield on our loans to customers did not increase to the same extent, i.e., from 13.59% in Fiscal 2023 to 13.92% in Fiscal 2024.

Our ability to manage our interest rate risk and mismatches between our assets and liabilities adequately is critical to our business and results of operations, cash flows and financial condition. We monitor our exposure to fluctuations in interest rates and the related liquidity risk primarily by categorising our assets and liabilities in different maturity profiles (based on the behavioural maturities pattern) and evaluating them for mismatches across periods.

**8. *We may not be successful in implementing our growth strategies or sustaining our growth and financial performance at similar rates as experienced in recent years.***

We have experienced growth in recent years, and we have significantly expanded our operations and branch network. The following table sets forth our total revenue, profit after tax, assets under management (“AUM”), number of branches and their respective year-on-year growths where indicated for the periods indicated:

| Particulars                                | For the six months period ended |                    | For Fiscal |           |           |

As part of our growth strategy, we intend to continue to expand our business in India and to deepen our penetration within each vertical. For more information on our business strategy, see “Our Business—Our Strategies” on page 246.

There is no assurance that we will be successful in executing our business growth strategies and continuing to grow our business in the future, including into new regions, at a rate similar to what we have experienced in the past.

Our ability to grow our business and loan portfolio depends on a number of factors, including the timely and cost-effective allocation of resources, our ability to select, retain and train personnel, our ability to manage and improve our operations, collections and recoveries, as well as our ability to maintain strict risk management policies to minimize credit risks. We must also be able to identify our target markets correctly, diversify and differentiate our product offerings and pricing to compete effectively, and anticipate and satisfy the changing needs of our target customers. While we have not, in the past, failed to develop and launch such products and services successfully, there is no assurance that such instances will not occur in the future, and any such occurrence may result in us losing a part or all of the costs incurred in the development and marketing of such offerings and fail to capture the growth opportunities associated with them, which could in turn adversely affect our business, results of operations, cash flows, financial condition and prospects.

Our present and future business may be exposed to various additional challenges, including identifying and collaborating with local businesses and partners with whom we may have no previous working relationship and expanding our technological infrastructure. Our ability to sustain our growth rate also depends significantly on our ability to select and retain employees, to invest in talent and employee training and to maintain effective risk management policies to address emerging challenges.

As we expand, we will also need to manage relationships with more customers, third-party partners and service providers, lenders and other parties. A number of external factors beyond our control could also impact our ability to continue to grow our business and loan portfolio, such as demand for loans in India, domestic economic growth, RBI’s monetary and regulatory policies, inflation, competition and availability of cost-effective debt and equity capital.

There is no assurance that our initiatives and strategies to grow our business may not fail or be unsuccessful, and any such occurrence may result in us losing a part or all of the costs incurred in the development and marketing of such offerings and fail to capture the growth opportunities associated with them, which could in turn adversely affect our business, results of operations, cash flows, financial condition and prospects.

**9. *The lending services industry in India is highly competitive and our inability to compete effectively could adversely affect our business, results of operations, cash flows and financial condition.***

The success of our business depends on our ability to compete with NBFCs, banks, micro-finance companies, digital lending platforms, small finance banks and private unorganised and informal financiers in the geographies in which we operate. We may also compete with our Promoter as we both offer similar products and services, though currently we target different borrower segments. See “—We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company, which may have a material impact on our business operations and share price” on page 31.

Our competitors may have greater resources, higher brand recognition among customers, greater customer loyalty, a wider

branch and distribution network, access to less costly funding, more attractive financial products or superior technology. Our competitors may also make more significant investments in digital and innovation strategies to expand and achieve enhanced customer reach and engagement and economies of scale, making it more difficult for us to compete effectively. In addition, our competitors may be able to rely on the reach of the retail presence of their affiliated group companies or banks. Some of the original equipment manufacturers we partner with also have captive finance affiliates or group companies, which provide similar services and with which we may not be able to compete. If we fail to compete effectively, it could affect the performance of our product offerings and services and reduce our attractiveness to existing and potential customers and we may be unable to successfully execute our growth strategy, thereby adversely affecting our business, results of operations, cash flows and financial condition.

Our ability to compete effectively will also depend, in part, on our ability to maintain or increase our margins. Price competition and related conduct, such as predatory pricing, could reduce our margins or fees to the point where profitability may not be achievable and, as a result, slow our growth. Our margins are affected in part by our ability to continue to secure low-cost debt funding, and to charge optimum interest rates when lending to our customers. Moreover, any increases in the interest rates on the loans we extend may also result in a decrease in business as it can result in early foreclosure or prepayment by customers. We cannot assure you that we will be able to react effectively to these or other market developments or compete effectively with new and existing participants in the increasingly competitive financial services sector. If we are unable to compete effectively, our business, results of operations, cash flows and financial condition may be adversely affected.

**10. *We are subject to periodic inspections by the RBI in India. Non-compliance with regulations and observations made during the RBI's inspections could expose us to penalties, suspension and restrictions as well as cancellation of our licence.***

We are subject to periodic inspections by the RBI under the RBI Act, 1934 on our operations, risk management systems, internal controls, regulatory compliance and credit monitoring systems, pursuant to which the RBI issues observations, directions and monitorable action plans, on issues related to various operational risks, information technology security and regulatory non-compliances, amongst others. During the course of finalising inspections, the RBI inspection team shares its findings and recommendations with us and provides us an opportunity to provide clarifications, additional information and, where necessary, justification for a different position, if any, than that observed by the RBI. Upon final determination by the RBI of the inspection results, we are required to take actions specified therein by the RBI to its satisfaction. Non-compliance with observations made by the RBI during these inspections could expose us to penalties and restrictions.

In its past inspection reports, the RBI has made some observations and also sought certain clarifications in relation to our operations including requirements for a documented policy for protection and privacy of customer data and process for evaluation for performance of the Board, oversight on outsourced vendors/partners, adherence to fair practices code and a data breach incident reported at one of the Company's external vendors.

While the RBI has not levied any penalty for such non-compliances in the six months period ended September 30, 2024 and in the last three Fiscals and we have provided necessary clarifications or undertaken to ensure compliance with the relevant observations, we cannot assure that such steps will be satisfactory and that the RBI will not have follow-up observations in the future or will not impose any penalties for non-compliances. We cannot assure that the RBI or any other regulatory authority will not make recommendations of improvement in the future or impose any penalties or restrictions on us, including having approvals withheld, receiving conditional approvals, or having our licences cancelled, which may have an adverse effect on our reputation, business, results of operations, financial condition, and cash flows.

**11. *If we are unable to secure funding on acceptable terms and at competitive rates when needed, it could have a material adverse effect on our business, results of operations, cash flows and financial condition.***

Given that we are a non-deposit taking NBFC, we rely on wholesale borrowing sources. We have historically relied on a combination of sources to meet our funding requirements, including the public and private sector banks, foreign banks, mutual funds, insurance companies, pension funds and other financial institutions. The funding has been of various forms including term loans, non-convertible debentures, subordinated bonds, perpetual bonds and commercial paper instruments. For more information, see "*Financial Indebtedness*" on page 416. Our business is highly dependent upon our timely access to, and the costs associated with, various sources of funding. The following table shows our Total Borrowings, finance costs and average cost of borrowings as at the dates indicated:

| Particulars                                                | As at              |                    |                |                |                |
|------------------------------------------------------------|--------------------|--------------------|----------------|----------------|----------------|
|                                                            | September 30, 2024 | September 30, 2023 | March 30, 2024 | March 30, 2023 | March 30, 2022 |
| Total Borrowings, including debt securities (in ₹ million) | 826,811.0          | 618,916.0          | 743,306.7      | 548,653.1      | 489,730.8      |
| Finance costs (in ₹ million)                               | 30,949.0           | 22,315.9           | 48,643.2       | 35,119.2       | 33,255.0       |
| Average Cost of Borrowings (%) <sup>(1)</sup>              | 7.88               | 7.65               | 7.53           | 6.76           | 6.70           |

**Notes:**

(1) Average Cost of Borrowings: Ratio of the finance cost to Average Total Borrowings for the specified period (Average Total Borrowings is calculated

as average of opening and closing total borrowings during the specified period).

For further details on our borrowings, see “Our Business—Treasury Operations and Financings” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Indebtedness” on pages 258 and 411, respectively.

Our business will continue to depend on our ability to access diversified borrowing and funding sources from within and outside India. Our ability to borrow on acceptable terms and at competitive rates continues to depend on various factors, including, but not limited to, (i) our credit ratings; (ii) policy initiatives and the regulatory environment; (iii) liquidity in the markets; (iv) the attractiveness of debt of our Company to investors and lenders; (v) our current and future results of operations and financial condition as well as (vi) general access to liquidity for NBFCs. We also depend on our Promoter as a lender under our borrowings. See “—We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company, which may have a material impact on our business operations and share price” on page 31.

Our high credit ratings enable us to borrow funds at competitive rates from varied sources. For more details on our credit ratings, see “Our Business—Treasury Operations and Financing” on page 258. Any downgrade in our credit ratings or a significant increase in Gross Stage 3 Loans may lead to an increase in our cost of funds for existing and future borrowings. Additionally, any downgrade of ratings below minimum investment grade ratings could reduce demand for our debt, thus making the raising of additional debt including refinancing of outstanding debt more difficult and increasing the probability that our lenders may impose additional terms and conditions to any financing or refinancing arrangements with them. This would increase our financing costs, consequently reducing spreads between the interest rates at which we borrow and lend, which could adversely affect our ability to maintain our current levels of profitability, thereby, impacting our business, results of operations, cash flows and financial condition.

If we are unable to obtain adequate financing or refinance our existing debt in a timely manner and on commercially reasonable terms, we may delay non-essential capital expenditures, implement cost cutting procedures, delay or reduce future hiring, or reduce our rate of future originations compared to current level. There can be no assurance that we can obtain sufficient sources of external capital to support the growth of our business. Delays in doing so or failure to do so may require us to reduce loan originations or limit our operations, which would harm our ability to pursue our business objectives as well as harm our business, results of operations and financial condition.

**12. We face cybersecurity threats, such as hacking, phishing and trojans, attempting to exploit our network to disrupt services to customers or theft or leaking of sensitive internal data or customer information. Such events may damage our reputation and adversely impact our business and financial results.**

We rely on digital banking and other digital services including mobile products and other web-and cloud-based products and applications, whether directly owned or through external vendors. We have in particular implemented several digital customer service channels over the years. For example, our “HDB On-the-Go” mobile application enables our customers to access our full suite of products and services online and get personalised assistance on the application. We also provide digital customer support on our online channels such as on chatbots. We expect to continue investing in digital services and channels in the future. See “Our Business—Our Strengths— Advanced technology tools driving enhanced customer experience and efficiency across each stage of the customer lifecycle” on page 243. We are therefore exposed to various cybersecurity threats, such as (i) phishing and trojans targeting our customers, wherein fraudsters send unsolicited emails to our customers seeking account-sensitive information, (ii) hacking, wherein hackers seek to hack into our website with the primary intention of causing reputational damage to us, (iii) data theft, wherein cyber criminals may intrude into our network with the intention of stealing our internal data or our customer information or to extort money and (iv) data leakage, wherein sensitive internal bank data or customer information is inappropriately disclosed by parties entitled to access it.

For example, in March 2023, one of our external vendors who processes data on our behalf experienced a data breach incident leading to the leak of customer data, despite being SOC 2 certified. While detailed forensic analysis determined that the breach did not impact our hosted systems and our vendor subsequently fixed its security gaps, we cannot ensure that our security measures will be adequate or successful in preventing future security breaches. While we continue to enhance our protective measures, investigate and remediate any vulnerability due to cybersecurity incidents, any such cybersecurity incident could lead to loss of customer data and damage our reputation and have a material adverse effect on our business, financial condition and results of operations. Any cybersecurity incident could also subject us to additional regulatory scrutiny and expose us to civil litigation and related financial liability.

Pursuant to RBI’s Master Direction—Information Technology Framework for the NBFC Sector dated June 8, 2017, we have an Information Technology Strategy Committee which ensures that the Company has put in place processes for assessing and managing IT and cybersecurity risks. Our implemented processes may however fail and cyber incidents may go undetected, potentially causing customer loss and regulatory scrutiny.

As cybersecurity threats increase and become more sophisticated, we may face increased costs to continue to modify or enhance our protective measures or to investigate and remediate any vulnerability to cybersecurity incidents. We may also face

operational risks and increased costs if new technologies we use in cybersecurity management, such as the artificial intelligence and machine learning capabilities we have deployed in connection with our security incident event management, are not used appropriately, are defective or inadequate, or are not fully integrated into our solutions, systems or controls.

**13. *We are subject to downtimes or failures of our information technology (“IT”) systems. Such events may damage our reputation and adversely impact our business and financial results.***

We are highly dependent on our IT systems, which cover all key areas and stages of our business, including customer sourcing, onboarding, underwriting as well as collections. For more information on our IT systems, see “Our Business— Information Technology and Digital Vision” on page 259.

Although we have IT disaster action plans in place to deal with any potential downtime or failure in our IT systems and while we have not experienced any such major events in the six months period ended September 30, 2024 and over the last three Fiscals, we may not be able to prevent such downtimes or failures which could damage our reputation and have a material adverse effect on our business, results of operations and financial condition. For example, any shortcoming in our IT systems may lead to a delay in the payment of our obligations under our borrowings or in any other payment processing.

Further, we rely on external vendors for certain parts of our operations, such as for payment processing, information processing and other services. Failures or breaches in external vendors’ systems could lead to significant information loss, legal liabilities, disruption of business operations and damage to our reputation and competitive position. For example, our transaction banking platform, which we use for loan disbursements, was down for over four hours in the first half of Fiscal 2024. While the financial impact of such instances is not quantifiable and these instances have not had any material adverse impact on our business and operations, similar future instances for a prolonged period of time or at a large scale could potentially impact our business, results of operations, cash flows, financial condition and reputation.

**14. *Our business may be adversely affected by seasonal trends in the Indian economy.***

Our operations and demand for our products are affected by seasonal trends in the Indian economy, which may affect our results of operations. For example, during the festive seasons in India (primarily October and November), while the demand for our Asset Finance products generally decrease, the demand for our Consumer Finance products tends to increase. By contrast, the demand for our Asset Finance products generally increase during the fourth quarter of the Fiscal, while the demand for our Consumer Finance products tends to decrease during this time. Furthermore, other events, such as weather changes like heatwaves and election periods at both state and national levels, may have an impact on our operations and results of operations.

Accordingly, our results of operations and financial condition in one quarter may not accurately reflect the trends for the entire Fiscal and may not be comparable with our results of operations and financial condition for other quarters.

**15. *Our business is subject to various operational risks associated with the financial industry, including fraud.***

Our business is subject to various operational and other risks associated with the financial industry, including:

- inadequate procedures and controls;
- failure to obtain proper internal authorisations;
- misreporting or non-reporting with respect to statutory, legal or regulatory reporting and disclosure obligations;
- improperly documented transactions;
- customer or third-party fraud, such as impersonation or identity theft or approval of loans on false pretences or inflated property values;
- failure of operational and information security procedures, computer systems, software or equipment;
- the risk of fraud or other misconduct by employees;
- failure to detect money laundering and other illegal or improper activities;
- unauthorised transactions or embezzlement by employees; and
- inadequate training and operational errors, including record keeping errors or errors resulting from faulty computer or communications systems.

For example, where customers repay their loans in cash directly to us or through representatives appointed by us, we are exposed to the risk of fraud, misappropriation or unauthorised transactions by our third-party representatives or employees responsible for dealing with such cash collections. While we have procured insurance for cash in safes and in transit and we have put in place systems to detect and prevent any unauthorised transactions, fraud or misappropriation by our authorised representatives and employees, these measures may not be effective in all cases. The table below provides a split of our cash and our cash collections as a percentage of total collections for the dates indicated:

Furthermore, there can be no assurance that measures adopted by us to detect fraud and illicit practice have been or will be effective in preventing fraud, or that any of these events will not occur again in the future or that we will be able to recover funds misused or misappropriated if such events occur. Further, where possible, there could be instances of fraud and misconduct by our employees which may go unnoticed for a certain period of time before they are identified and corrective actions are taken. The following table sets forth the fraud cases detected and reported as at the dates indicated:

| Particulars                                                | For the six months period ended |                    | As at          |                |                |

In particular, employees at our Ghaziabad branch fraudulently processed loans to non-eligible customers in contravention of our internal policies and using falsified documents. The fraud involved 228 loans amounting to ₹108.8 million, of which ₹51.4 million has been recovered as of September 30, 2024. The case remains ongoing and judicial proceedings are underway. While the Company has since strengthened its internal controls relating to underwriting of loans, there can be no assurance that similar or other fraud cases may not occur in the future.

If a regulatory proceeding is initiated due to a report made by us about an unauthorised transaction, fraud or misappropriation involving our employees, it could harm our reputation and financial condition. Moreover, substantial fraud by customers or external parties could result in an adverse effect on our business, results of operations, cash flows and financial condition.

**16. *We are subject to the risk of failure of, or a material weakness in, our internal control systems, which could have a material adverse effect on our reputation, business, results of operations, cash flows and financial condition.***

We are responsible for establishing and maintaining adequate internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and preparation and fair presentation of our financial statements and disclosures. We are exposed to risks arising from the inadequacy or failure of internal systems or processes, and any actions we may take to mitigate these risks may not be sufficient to ensure an effective internal control environment. In particular, given the increase in the volume of our transactions, errors may be repeated or compounded before they are discovered and rectified. Although we have taken appropriate measures to develop our internal control systems and policies to address those issues, we cannot assure you that our systems and policies will be sufficient or will fully correct such weaknesses, or that similar deficiencies will not arise in the future.

Further, our management information systems and internal control procedures may not be able to identify non-compliance or suspicious transactions in a timely manner, or at all. Where internal control weaknesses are identified, our actions may not be sufficient to fully correct such weaknesses. As a result, we may incur expenses or suffer monetary losses, which may not be covered by our insurance policies and may result in a material adverse effect on our reputation, business, results of operations, cash flows and financial condition.

**17. *If we fail to identify, monitor and manage risks and effectively implement our risk management policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.***

Our policies and procedures to identify, monitor and manage risks may not be fully effective and may be subject to human error. Some of our risk measuring criteria are based on the use of monitored historical market behaviour. As a result, these methods may not accurately predict future risk exposures, which could be significantly greater than those indicated by the historical measures. For more information on our risk management, see “Our Business—Risk Management” on page 258.

To the extent any of the instruments and strategies we use to hedge or otherwise manage our exposure to market or credit risk are not effective, we may not be able to effectively mitigate our risk exposures in particular market environments or against particular types of risk. For example, we have entered into hedging arrangements to hedge our exposure to foreign exchange fluctuations for our ECBs and into interest rate swaps to reduce our risk of exposure to interest rate fluctuations. For further

details, please see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations — Qualitative and Quantitative Disclosures about Market Risks — Foreign currency management*” on page 413. There can be no assurance that our hedging arrangements will continue to adequately reduce our foreign currency or interest rate risks, or that such hedging arrangements will protect us against any unfavourable fluctuations in exchange rates or interest rates. Further, the relevant counterparty may fail to perform its obligations under the relevant hedging arrangement. If we are unable to pass on any increase in our costs to our customers due to fluctuations in interest rates or exchange rates, our profitability may be reduced which may in turn result in a material and adverse effect on our business, results of operations, cash flows and financial condition.

Further, some of our risk management strategies may not be effective in a difficult or less liquid market environment, where other market participants may be attempting to use the same or similar strategies to deal with the difficult market conditions. In such circumstances, it may be difficult for us to reduce our risk positions due to the activity of such other market participants. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated.

Additionally, management of operational, legal or regulatory risk requires, among other things, policies and procedures to ensure certain prohibited actions are not taken and to properly record and verify a number of transactions and events. Although we have established such policies and procedures, they may not be fully effective, and we cannot guarantee that our employees will follow these policies and procedures as envisaged in all circumstances. Unexpected shortcomings in these policies and procedures or a failure of our employees to follow them may have a material adverse effect on our business, results of operations, cash flows and financial condition.

Our earnings are dependent upon the effectiveness of our management of changes in credit quality and risk concentrations, the accuracy of our valuation models and our critical accounting estimates, and the adequacy of our allowances for loan losses. To the extent our assessments, assumptions or estimates prove inaccurate or not predictive of actual results, we could suffer higher than anticipated losses.

**18. If we are unable to comply with the capital adequacy requirements stipulated by Reserve Bank of India, it could have a material adverse effect on our business, results of operations, cash flows and financial condition.**

Our Company is subject to the capital adequacy ratio requirements prescribed by the RBI under the non-banking financial company (“NBFC”) Scale Based Regulations. The capital adequacy ratio is defined as the ratio of Tier I and Tier II capital as compared to risk-weighted assets on balance sheet and risk adjusted value of off-balance sheet items. In accordance with the NBFC Scale Based Regulations, NBFCs such as our Company are required to maintain a minimum capital ratio, consisting of Tier I and Tier II capital, of not less than 15.00% of our aggregate risk-weighted assets on balance sheet and risk-adjusted value of off-balance sheet items, of which Tier I capital cannot be less than 10.00%. While our capital adequacy ratio did not fall below the level prescribed by the RBI in Fiscal 2024, 2023 or 2022, there can be no assurance that our CAR will continue to be compliant with RBI requirements in the future. The following table sets forth information relating to our capital adequacy ratio (capital to risk (weighted) assets (“CRAR”)) as at the dates indicated:

| Particular | As at              |                |                    |                | As at          |                |                |                |                |                |
|------------|--------------------|----------------|--------------------|----------------|----------------|----------------|----------------|----------------|----------------|----------------|
|            | September 30, 2024 |                | September 30, 2023 |                | March 31, 2024 |                | March 31, 2023 |                | March 31, 2022 |                |
|            | CRAR               | Tier I Capital | CRAR               | Tier I Capital | CRAR           | Tier I Capital | CRAR           | Tier I Capital | CRAR           | Tier I Capital |
| Ratios     | 19.30%             | 14.64%         | 19.42%             | 15.71%         | 19.25%         | 14.12%         | 20.05%         | 15.91%         | 20.22%         | 15.22%         |

Additionally, since we have been identified and categorized as “Upper Layer” NBFCs by RBI under the SBR Regulations, we are required to maintain, on an on-going basis, a common equity tier I (CET-1) capital of 9.0% of our risk weighted assets. For further details, see “*Key Regulations and Policies - Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 dated October 19, 2023 (“NBFC Scale Based Regulations”)*” on page 263.

While we have been in compliance with these requirements in the past three Fiscals, there can be no assurance that we will be able to maintain our CRAR within the regulatory requirements, and a failure to do so could have a material adverse effect on our business, results of operations, cash flows and financial condition. In particular, the RBI’s assessment of our CRAR may differ from our own. Any changes in the regulatory framework affecting non-banking financial services companies including the provisioning for NPAs, or capital adequacy requirements, or differences in interpretation of the same, could adversely affect our profitability or our future financial performance, by requiring a restructuring of our activities or an increase in our costs to comply with regulations applicable to us.

Furthermore, if we continue to grow, we will be required to raise additional Tier I capital and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that our Promoter or shareholders will approve additional investments into our Company, or that we will or at all. This could result in non-compliance with applicable capital adequacy ratios, which could have a material adverse effect on our business, results of operations, cash flows and financial condition.

19. ***New-to-credit borrowers constituted 12.02%, 13.88%, 13.16%, 15.59% and 19.08% of our Total Gross Loans as at September 30, 2024 and September 30, 2023, and as at March 31, 2024, March 31, 2023 and March 31, 2022, respectively. We may not be able to properly assess the credit worthiness of new-to-credit borrowers, and loans extended to such new-to-credit borrowers may accordingly have a higher risk of non-performance or default.***

We extend loans to new-to-credit (“NTC”) customers who do not have any credit history supported by documentation, which makes it difficult to assess their creditworthiness. For further details, please see “Our Business—Credit and Collections—Credit” on page 255. While conducting our due diligence, including through the external vendors we use for credit assessments, we may be unable to accurately predict the credit risk posed by such customers and may extend loans to some non-creditworthy borrowers. These customers tend to be more vulnerable to any adverse macroeconomic conditions and may have higher risk of non-performance or default. The table below provides the total amounts of loans extended to NTC and existing-to-credit (“ETC”) customers in absolute amounts and as a percentage of our Total Gross Loans at the dates indicated.

In case of default by our NTC customers on their loans, we may not be able to fully or partly recover loans extended to them, particularly if such loans are unsecured. Furthermore, even if such loans are secured, it may be difficult and time-consuming and we may incur additional expenses to enforce on the collateral and there can be no assurance that we will be able to recover the sums due to us in full. In each case, such non-performance of loans to our NTC customers could have an adverse effect on our business, financial condition and results of operations.

20. ***We rely on the accuracy and completeness of information about customers and counterparties. Any misrepresentation, errors or incompleteness of such information could adversely affect our business, results of operations, cash flows and financial condition.***

While evaluating whether to extend credit or enter into other transactions with customers and counterparties, we may rely on information furnished to us by or on behalf of customers and counterparties, including personal information, financial statements, collateral related information, credit history, purpose of availing the loan and other financial information. We may also rely on certain representations as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors of customers and counterparties. We also depend on credit bureaus for verifying the creditworthiness of our customers. While we have not experienced any material instances with credit reports obtained from credit bureaus in the six months period ended September 30, 2024 and in Fiscals 2024, 2023 or 2022, any inaccurate or incomplete information received in the future could have an adverse effect on our business, reputation, results of operations, financial condition and cash flows. See also “—India’s existing credit information infrastructure may cause increased risks of loan defaults” on page 55. Further, we may have customers who are unable to document their entire income comprehensively.

Although we follow Know Your Customer (“KYC”) guidelines prescribed by the RBI, we may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation and our risk management measures may not be adequate to or may fail to detect or prevent such activities in all cases. We may also not receive updated information regarding changes in the financial condition of our customers. Difficulties in assessing credit risks associated with our day-to-day lending operations may lead to an increase in the level of our non-performing and restructured assets, which could have a material adverse effect on our business, results of operations, cash flows and financial condition.

21. ***We may face asset-liability mismatches in the future, which may cause liquidity concerns and consequently affect our profitability, cash flows, business, results of operations and financial condition.***

We continue to cater to our liquidity needs and maintain adequate sources of funding for business growth through diversified funding sources. We have adopted a policy of managing assets while monitoring future cash flows and our liquidity on a daily basis.

Mismatches in the maturity of our assets and liabilities are a key financial and liquidity risk for us. Asset-liability mismatches may arise if assets and liabilities mature over different periods. Asset liability management is standard for a lending company, as some portion of our funding requirements is also met through short and medium-term funding sources, such as commercial

papers. Mismatches between our assets and liabilities are compounded in case of pre-payments of the loans by our customers. Our inability to obtain additional credit facilities or renew our existing credit facilities for matching the tenure of our loan portfolio in a timely and cost-effective manner or at all may lead to mismatches between our assets and liabilities, which in turn may adversely affect our results of operations and financial condition. The table below provides an overview of our asset and liability maturity pattern as at September 30, 2024:

| Particulars                        | Liabilities    | Assets    | Cumulative mismatch |

**22. Third-party partners contributed to 18.14%, 15.06%, 16.15%, 13.76% and 8.59% of our total disbursements for the six months period ended September 30, 2024 and September 30, 2023, and for Fiscals 2024, 2023 and 2022, respectively. We rely on third-party partners in certain parts of our business, and issues with these partners, or failure to continue to expand our current third-party partner network, could adversely affect our business and financial performance.**

We rely on an external distribution channel with over 80 brands and original equipment manufacturers (“OEMs”) and external distribution networks with over 140,000 retailers and dealer touchpoints (such as car dealers and direct selling agents) as at September 30, 2024.

The table below provides our total disbursements from third-party partners as an absolute sum and as a percentage of total disbursements from third-party partners as at the dates indicated.

While we do not depend on any specific third-party partner, our ability to access customers through third-party partners is subject to a number of risks, including:

- third-party partners may choose not to sell our services or to sell our services with lower priority for any reason, including absolute or relative performance, service sizes or fee structure compared to other services, or for no reason at all;
- third-party partners may have captive finance affiliates or group companies that offer similar services competing with our services;
- third-party partners also offer similar products from our competitors to our existing and prospective customers and do not provide services for us on an exclusive basis;
- third-party partners may provide better service to our competitors and promote their products to prospective customers instead of ours because of a more attractive compensation arrangement, close relationships with our competitors or for other reasons; and
- we may be liable for misrepresentations, inappropriate behaviour, mistakes, frauds and negligent acts on the part of third-party partners while marketing or providing services for our products.

In the event any of these third parties were to terminate their contractual relationships with us or fail to provide the agreed-upon services at acceptable standards or at all to us for any reason, our business and results of operations could be materially disrupted

until suitable alternatives are put in place. In addition, if the third-party partners make errors, leak customer or operational data, mismanage customer interface, or fail to operate or comply with applicable regulations or governance standards, we could suffer reputational harm and may be subjected to regulatory actions. Such situations and our inability to maintain relationships with third-party partners such as original equipment manufacturers could disrupt our operations and have a material adverse impact on our business, financial condition, results of operations and prospects.

**23. We outsource certain operational activities to third-party IT service providers and collection agents. Any lapse by such third-party service providers may have adverse consequences on our business and reputation.**

We rely on third-party service providers for certain IT-related services including, among others, data centers, IT maintenance, payment interface platforms, cloud and data analytics platforms and document storage. We also rely on collection agents and any deficiency or failure by such third parties in performing their services or any events that affect our collection network could adversely affect our business, results of operations, financial condition and cash flows.

The table below sets out our expenditure on third-party IT service providers and loan collection charges for the six months period ended September 30, 2024 and September 30, 2023 and for Fiscals 2024, 2023 and 2022.

| Particulars                                          | For the six months period ended |                    | For Fiscal |          |          |
|------------------------------------------------------|---------------------------------|--------------------|------------|----------|----------|

| Third-party service provider expenses (in ₹ million) | 767.0                           | 179.5              | 757.5      | 390.8    | 316.5    |
| Collection agent charges (in ₹ million)              | 1,121.9                         | 813.1              | 1,761.5    | 1,837.1  | 1,123.5  |

Our internal teams regularly assess the financial and operational health of our service providers to ensure they can fulfill their obligations. This review includes checking performance standards, confidentiality and security. Our internal audit team also regularly audits all our businesses and function and ensures their compliance with the RBI regulations that govern outsourcing arrangements, such as the requirement to outsource software licences out of India. We sometimes have external firms conduct on-site vendor audits for critical functions. However, there can be no assurance that such measures would prevent the risk of our service providers failing to meet their contractual duties, committing fraud, making operational mistakes, or having inadequate business continuity and data security systems. Any such lapse by our third-party service providers may have adverse consequences on our business and reputation.

Furthermore, while our contracts with third-party service providers often include indemnification for statutory payments, fines and employee benefits, they do not cover losses or damages caused by their personnel's actions or inactions. In the event of any such occurrence, we may incur losses, and to that extent, our business, results of operations, cash flows and financial condition may be adversely affected. Further, these contracts are generally subject to unilateral termination by either party. Any such termination by the service providers and our inability to appoint suitable replacements may adversely affect our business, results of operation and financial condition.

**24. We have distribution agreements with third parties and termination or failure to renew such distribution agreements may adversely affect our business, results of operation and financial condition.**

We offer value-accretive fee-based products such as distribution of life and non-life insurance products, provision of warranty services and third-party tie-ups for sale of protection products. The following table sets forth income generated through fee-based for the periods indicated:

| Particulars                                                           | For the six months period ended |                    | For Fiscal |         |         |

| Income from fee-based services (in ₹ million)                         | 5,454.7                         | 4,215.9            | 9,531.1    | 7,564.1 | 5,690.1 |
| Income from fee-based services as a percentage of total income (in %) | 6.91                            | 6.11               | 6.73       | 6.10    | 5.03    |

We hold a licence from the Insurance Regulatory and Development Authority of India (the “**IRDAI**”) and are a registered

corporate agent authorised to sell both life and general (non-life) insurance products and we have tie-ups with certain life insurance and general insurance companies.

In the event that our distribution agreements with third parties relating to such services are terminated or not renewed, we may lose the additional income stream from such services which could adversely affect our business, results of operation and financial condition. Further, such third parties may amend the terms of the distribution agreements, which in turn may lead to the product becoming unattractive or to a decrease in our commission.

**25. We provide back office, sales support and collection services to our Promoter, HDFC Bank. Discontinuation of such services to HDFC Bank may adversely impact our business, results of operations and financial condition.**

We provide BPO services for our Promoter, HDFC Bank. Such BPO services include back office, sales support and collection services.

The following table sets forth income generated through fee-based and BPO services for the periods indicated:

| Particulars                                                     | For the six months period ended |                    | For Fiscal |          |          |
|-----------------------------------------------------------------|---------------------------------|--------------------|------------|----------|----------|
|                                                                 | September 30, 2024              | September 30, 2023 | 2024       | 2023     | 2022     |
| Income from BPO services (in ₹ million)                         | 6,080.3                         | 11,752.2           | 19,495.5   | 26,339.3 | 23,634.1 |
| Income from BPO services as a percentage of total income (in %) | 7.71                            | 17.03              | 13.76      | 21.24    | 20.90    |

Our master service agreement with HDFC Bank relating to such services contains a change of control provision, which allows each party to terminate the master service agreement. Any termination or failure to renew our agreements with HDFC Bank would affect our BPO services which may adversely impact our business, results of operations and financial results.

**26. We have entered into and may continue to enter into related-party transactions, which may potentially involve conflicts of interest.**

HDFC Bank and its subsidiaries are considered related parties of our Company pursuant to the Companies Act, 2013 and the applicable Indian accounting standards. We have engaged in and expect to continue to engage in significant transactions with such related parties in the ordinary course of business and on an arm's-length basis. For example, we provide back office, sales support services and run collection call centers for HDFC Bank. HDFC Bank is also a lender under our borrowings. See “— We rely on the parentage of our Promoter. However, the interests of the Promoter as our controlling shareholder may conflict with our interests or the interests of our other shareholders. Our Promoter may also be required to significantly reduce its ownership in our Company, which may have a material impact on our business operations and share price.” on page 31. We also have tie-ups for distribution of insurance products with HDFC Life Insurance Co. Limited and HDFC Ergo General Insurance Co. Limited.

The transactions entered into with related parties during in the six months period ended September 30, 2024 and September 30, 2023, and in Fiscals 2024, 2023 and 2022 were undertaken by our Company in compliance with the applicable provisions of the Companies Act and all other applicable laws. See “Summary of the Offer Document” on page 16 and “Restated Consolidated Financial Information—Note 37: Related Party Transactions” on page 364. The following table sets forth details of our related-party transactions as at the dates indicated:

| For the six months period ended September 30, |                                        | For Fiscal                             |                                        |                                        |

Our related-party transactions may potentially involve conflicts of interest and may require significant capital outlay and there can be no assurance that we will be able to make a return on these investments. It is likely that we may enter into related-party transactions in the future. Although all related-party transactions that we may enter into will be subject to our Audit Committee, Board or Shareholder approval, as may be required under the Companies Act, 2013 and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the “SEBI Listing Regulations”), and are conducted on an arm's-length basis and in ordinary course of business, we cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on our business, results of operations, cash flows and financial condition, will be in the best interests of our minority shareholders, or that we could not have achieved more favorable terms if such transactions had not been entered into with related parties. Such future related-party transactions may also potentially involve conflicts of interest which may be detrimental to us and against the interest of prospective investors. In addition, we cannot

assure you that relevant shareholders' approval will be received for all material related-party transactions and, accordingly, certain transactions which may be favourable to us may not be executed.

**27. We are involved in certain legal proceedings and any adverse outcomes in such proceedings may have a material adverse effect on our reputation, business, results of operations, cash flows and financial conditions.**

In the ordinary course of business, our Company, Promoter and Directors are involved in legal proceedings, which are pending at varying levels of adjudication at different forums. For more information, see “*Outstanding Litigation and Material Developments*” on page 421. The summary of outstanding matters set out below includes details of criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving our Company, Promoters and our Directors.

Further, we have initiated certain recovery proceedings against our borrowers, for the dishonour of cheques and for dishonour of electronic funds transfer. We have, in the ordinary course of our business, filed certain complaints with respect to offences such as fraudulent activities committed by certain borrowers. While these proceedings are pending at various stages of adjudication before various courts, we cannot ensure that they will get resolved in our favor and may have an adverse effect on our business, results of operations, financial condition and cash flows.

Any adverse decision in legal proceedings pending or in the future may have a significant effect on our business, results of operations, financial condition and cash flows of our Company. There can be no assurance that the results of such legal proceedings will not materially harm our business, reputation or standing in the marketplace or that we will be able to recover any losses incurred from third parties, regardless of whether we are at fault. Even if we are successful in defending such cases, we may be subject to legal and other costs incurred pursuant to defending such litigation, and such costs may be substantial and not recoverable. There can be no assurance that losses relating to litigation or arbitration will be covered by insurance or that any such losses would not have a material adverse effect on our business, results of operations, financial condition and cash flows.

In particular, one of our Group Companies and member of our Promoter Group, HDFC Securities Limited (“HSL”), has received two show cause notices from the SEBI which are currently pending. The first show-cause notice dated October 9, 2024 is in the matter of Tradetron and other algorithm trading platforms where HSL was one of the brokers associated with one of the algorithm platforms being investigated by SEBI. The inquiry is being conducted under Rule 4(1) of SEBI (Procedure for Holding Inquiry and Imposing Penalties) Rules, 1995 read with Section 15-I of the SEBI Act and the show cause notice has been issued to provide reasons on why penalty should not be imposed under Section 15HB of the SEBI Act. The second show-cause notice dated August 8, 2024 is pursuant to an inspection conducted by SEBI jointly with the stock exchanges and depositories of HSL on various compliance requirements with respect to the provisions of various SEBI circulars and circulars of the stock exchanges applicable to HSL as a stock broker. The show cause notice was issued under Rule 4(1) of SEBI (Procedure for Holding Inquiry and Imposing Penalties) Rules, 1995 to HSL to provide reasons on why a monetary penalty should not be imposed under Section 15HB of the SEBI Act. HSL has filed a settlement application in this regard. Further, in the past, there have been actions initiated by SEBI against certain members of our Promoter Group and Group Companies which have now been settled.

A summary of the nature and number of outstanding material litigation as on the date of this Draft Red Herring Prospectus, as decided by our Board and further detailed in “*Outstanding Litigation and Material Developments*” on page 421, involving our Company, Promoters and certain of our Directors, along with the amount involved, to the extent quantifiable, has been set out below:

We cannot assure you that any of litigation matters will be settled in our favour or in favour of our Company, Promoter or Directors, as applicable, or that no additional liability will arise out of these proceedings.

As of the date of this Draft Red Herring Prospectus, there are no legal proceedings involving our Group Companies that may have a material impact on our Company.

For further details, see “*Outstanding Litigation and Material Developments*” on page 421.

**28. Our inability to comply with the financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations and financial condition.**

As at September 30, 2024, our Total Borrowings were ₹826,811.0 million and in order to fund our business growth, we will continue to incur additional indebtedness in the future. Our ability to meet our debt service obligations and repay our outstanding borrowings will depend primarily on the cash generated from our business, which depends on the timely repayment by our customers.

Some of the financing arrangements entered into by us include conditions that require us to obtain lender consents prior to carrying out certain activities and entering into certain transactions. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of these covenants include:

- to undertake any amendments to the constitutional documents of our Company;
- to effect any changes in our capital structure;
- to formulate or effect any scheme of amalgamation, merger or reconstruction;
- to issue any debentures, raise any loans, accept deposits from the public or create any charge on the assets of the Company or give any guarantees;
- to undertake guarantee obligations on behalf of any other person; and
- to create encumbrance on the assets of the Company

For more information, see “*Financial Indebtedness*” on page 416.

In particular, we have obtained the required consents from the relevant lenders for approval of the Offer and related transactions.

Under certain financing agreements, we are required to maintain specific credit ratings and if we were to fail to do so, it would result in an event of default. We are also required to maintain the value of our hypothecated assets, certain financial ratios and ensure compliance with regulatory requirements, such as maintenance of capital to risk assets ratios, qualifying asset norms and ensuring positive net worth. Such covenants may restrict or delay certain actions or initiatives that we may propose to undertake from time to time. Some of our financing agreements and instruments contain cross-default and cross-acceleration clauses, which are triggered in the event of a default by us under our respective financing agreements.

A failure to observe the covenants and other requirements under our financing arrangements or to obtain necessary waivers may lead to the termination of our credit facilities, acceleration of amounts due under such facilities and the enforcement of any security provided. If the obligations under any of our financing documents are accelerated or any security created under such agreements enforced, we may have to dedicate a substantial portion of our cash flows towards payments under such financing documents, thereby reducing the amounts available for business growth, working capital, capital expenditure and general corporate purposes.

**29. The bankruptcy code in India may affect our rights to recover loans from our customers.**

The Insolvency and Bankruptcy Code, 2016, as amended (the “**IBC**”) offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision and agree upon a plan for its revival or a speedy liquidation. The IBC creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

In case insolvency proceedings are initiated against our debtor, we may not have complete control over the recovery of amounts due to us. Under the IBC, upon invocation of an insolvency resolution process, a committee of creditors is constituted by the interim resolution professional, wherein each financial creditor is given a voting share proportionate to the debts owed to it. Certain decisions of the committee of creditors must be taken by a vote of not less than 51% of the voting share of all financial creditors. Any resolution plan approved by committee of creditors is binding upon all creditors, even if they vote against it.

In case a liquidation process is opted for, the IBC provides for a fixed order of priority in which proceeds from the sale of the

debtor's assets are to be distributed. Before sale proceeds are distributed to a secured creditor, they are to be distributed for the costs of the insolvency resolution and liquidation processes and debts owed to workmen and other employees. Pursuant to an amendment to the IBC, allottees in a real estate project are considered on par with financial creditors. Moreover, other secured creditors may decide to opt out of the process, in which case they are permitted to realise their security interests in priority. Accordingly, if the provisions of the IBC are invoked against any of our customers, it may affect our ability to recover our loans from the borrowers and enforcement of our rights will be subject to the IBC.

**30. *We may not successfully implement our sustainability initiatives or adequately meet India's Corporate Social Responsibility ("CSR") reporting requirements, which could adversely affect our reputation, access to capital, business and financial condition.***

We are committed to fostering positive change in the communities we serve and we recognise the important role of businesses in shaping the societal landscape and have recently expanded our CSR initiatives. In particular, in Fiscals 2024 and 2023, we have engaged in a range of CSR initiatives in areas that promote affordable healthcare, safe hygiene, education, livelihoods and environmental sustainability. During Fiscals 2024 and 2023, our CSR expenditure was ₹313.0 million and ₹217.8 million, respectively. For further details, see “Our Business—Corporate Social Responsibility (CSR)” on page 262 for more information on our CSR initiatives.

Our ability to meet our CSR initiatives may be affected by various factors, including competing priorities and transactional needs. Any failure to meet our own targets could have an adverse impact on our reputation, access to capital, business and financial condition.

In addition, CSR reporting for our Company is mandatory in India. While we have internal teams that ensure legal and regulatory compliance with CSR reporting requirements, we may fail to meet certain CSR reporting requirements which may adversely affect our reputation.

**31. *We have incurred negative cash flows from operating, investing and financing activities in recent years and may continue to do so as we invest in further expanding our distribution network in India.***

The table below shows our Restated Consolidated Financial Information on cash flows for six-month periods ended September 30, 2024 and September 30, 2023, and Fiscals 2024, 2023 and 2022:

| Particulars                                                 | Six-month period ended |                    | Fiscal         |                |                  |

Our net cash flow used in operating activities in the six-month periods ended September 30, 2024 and 2023, and in Fiscals 2024 and 2023 was primarily due to an increase in loan disbursements. Our net cash used in investing activities in the six-month period ended September 30, 2023, and Fiscals 2024 and 2022 was primarily due to purchase of investments. Our net cash used in financing activities in Fiscal 2022 was primarily due to repayment of borrowings (other than debt securities) and repayment of debt securities. For further details on our cash flows, please see “Management's Discussion and Analysis of Financial Condition and Results of Operations—Cash Flows” on page 409. We may continue to incur negative cash flows as we continue investing in our distribution network.

**32. *We may not be able to prevent others from unauthorised use of our intellectual property and may in the future become subject to patent, trademark and/or other intellectual property infringement claims.***

We rely on a combination of trademarks, domain names, proprietary technologies and similar intellectual property to establish and protect our rights in our technology and intellectual property. We have five registered trademarks as at the date of this Draft Red Herring Prospectus. For further details, see “Our Business—Intellectual Property” on page 261.

Further, we have the right to use the HDFC logo pursuant to a trademark licence agreement dated December 19, 2023 with our Promoter, see “—We rely on a trademark licence agreement with our Promoter, HDFC Bank, to use the HDFC Bank logo. Any termination of our rights to use the HDFC Bank logo or any reputational harm to the HDFC Bank could materially and adversely affect our brand recognition, business, financial condition and results of operations.” on page 32 and “Our Business—Intellectual Property” on page 262.

An intellectual property registration granted to us may not be sufficient to protect our intellectual property rights. Unauthorised use of our intellectual property rights by third parties could adversely affect our reputation. We may be required to resort to legal action to protect our intellectual property rights. Any adverse outcome in such legal proceedings or our failure to successfully enforce our intellectual property rights may impact our ability to use intellectual property, which could have an adverse effect on our business, results of operations, cash flows and financial condition. Intellectual property litigation is expensive and time-consuming and could divert management's attention from our business. Any intellectual property claim or litigation, whether we ultimately win or lose, could damage our reputation and adversely affect our business, cash flows, financial condition and results of operations.

**33. *If customers transfer their loans from us to other banks or financial institutions, our Total Gross Loans and assets under management may decrease or fail to increase.***

Our customers may seek to refinance their loans through balance transfers to other banks and financial institutions. For example, customers who have loans with equated monthly instalments ("EMIs") that increase over time typically seek to refinance their loans through balance transfers to other banks and financial institutions, to avoid increased EMIs. The table below shows the amount of balance transfers in the last three Fiscals as a percentage of our total AUM:

| Particulars                                                                                                    | For the six months period ended |                    | For Fiscal |         |         |

| Total amount of balance transfers of loans as a percentage of total AUM (%) (in ₹ million, except percentages) | 0.50                            | 0.47               | 0.84       | 0.96    | 1.17    |

In case of more attractive interest rates or other more competitive commercial terms on loans being offered by our competitors, we may incur an increase in loss of customers to our competitors resulting in a potential loss of interest income from such loans which in turn may affect our ALM. Such events may also slow the growth of our total AUM and reduce our ability to sell our other products. As our loan origination costs, including any commission paid to our third-party distribution channel partners, are amortised over the tenure of the loans, loan transfers or pre-payments result in higher expenses on account of the unrecoverable cost of loan acquisition, which in turn have an adverse effect on our financial performance and profitability. Further, any inability or failure on our part to refinance our customers' existing loans from other banks or financial institutions could adversely affect our business and prospects.

**34. *We are dependent on our Key Managerial Personnel and Senior Management Personnel, and the loss of, or our inability to attract or retain such persons could adversely affect our business, results of operations, cash flows and financial condition.***

We are dependent on our management team, including the efforts of our Key Managerial Personnel and Senior Management Personnel. While our attrition rates have generally been low, our future performance is dependent on the continued service of these persons or similarly skilled and qualified successors. For details regarding the experience of, and the changes in, our Key Managerial Personnel and Senior Management Personnel, see "Our Management" on page 288. The following table provides the number and attrition rates of the Company's Key Managerial Personnel and Senior Management Personnel for the periods indicated:

|                                                           | For the six months period ended |                    | For Fiscal |      |                   |

\*Excluding our Chief Compliance Officer who has been appointed based on a fixed term contract.

<sup>^</sup>Jaykumar Pravinchandra Shah and Mathew Panat were inducted in the management team as at March 2022 as two members of the management team were due to retire. Further, Sunil Raut was part of the management team in his role as leading Compliance. Post appointment of Arjun Bikas Dutta as the chief compliance officer, Arjun was considered as part of the senior management team while Sunil Raut continued to work as a senior member of our compliance team. As two members of the management retired and one member is continuing in employment with HDBFS, the attrition for the year has been considered as NIL.

If any of our Key Managerial Personnel and Senior Management Personnel joins a competitor, we may lose customers and know-how to them which may adversely affect our business, cash flows, financial condition and results of operations. We cannot assure you that our competitors will not offer better compensation packages, incentives and other perquisites to such

skilled personnel. There could also be unauthorised disclosure or use of our technical knowledge, practices or procedures by such personnel.

In addition, we face a continuing challenge to recruit and retain a sufficient number of skilled personnel, particularly if we continue to grow. The loss of key personnel may restrict our ability to grow and consequently have a material adverse impact on our results of operations and financial position. High voluntary employee turnover may also reduce organisational performance and productivity, which may have a further adverse impact on our results of operations and financial position and cause us to fail to deliver on our strategic growth plans. We may also require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. Further, we may be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting talent, which can potentially increase our employee costs. These factors may have an adverse effect on our business, results of operations, cash flows and financial condition.

If any dispute arises between our Key Managerial Personnel and Senior Management Personnel and our Company, any non-competition, non-solicitation and non-disclosure provisions in our employment agreements with such personnel might not provide effective protection to us.

**35. *Negative publicity could damage our reputation and adversely impact our business and financial results.***

Reputational risk, or the risk to our business, earnings and capital from negative publicity, is inherent in our business. The reputation of the financial services industry in general has been closely monitored as a result of the financial crisis and other matters affecting the financial services industry. We believe that we have been perceived as a trusted non-banking company in the financial sector, however, any negative public opinion about the financial services industry generally or us specifically could adversely affect our ability to attract and retain customers, employees, vendors and partners, raise equity capital and borrowings and may expose us to litigation and regulatory action. Negative publicity can result from our actual or alleged conduct in any number of activities, including lending practices and foreclosure practices, corporate governance, customer complaints, regulatory compliance, legal proceedings, mergers and acquisitions and related disclosure, sharing or inadequate protection of customer information, and actions taken by government regulators and community organisations in response to that conduct.

See also “—We rely on a trademark licence agreement with our Promoter, HDFC Bank, to use the HDFC Bank logo. Any termination of our rights to use the HDFC Bank logo or any reputational harm to the HDFC Bank could materially and adversely affect our brand recognition, business, financial condition and results of operations.” on page 32.

**36. *Our investments are subject to market and credit risk. Any decline in value of these investments may have an adverse effect on our business, results of operations, cash flows and financial condition.***

Some of our investments, which primarily include government securities, mutual funds, derivative financial instruments, securities receipt of ARC and unquoted equity shares, are subject to market risks. The following table sets forth our total investments, as at the dates indicated:

| Particulars                         | As at September 30, |          | As at March 31, |          |          |
|-------------------------------------|---------------------|----------|-----------------|----------|----------|
|                                     | 2024                | 2023     | 2024            | 2023     | 2022     |
| Total investments<br>(in ₹ million) | 20,644.1            | 17,072.1 | 33,803.3        | 12,432.5 | 22,335.1 |

The value of these investments and future investments depends upon several factors beyond our control, including the domestic and international economic and political scenario, volatility in interest rates and securities market, inflationary expectations and the RBI’s monetary policies. Further, investment in debt mutual funds and fixed deposits also carry credit risk and any inability of the counterparty in repaying the funds invested in timely manner may adversely affect our business, results of operations, cash flows and financial condition. Any decline in the value of these investments may have an adverse effect on our business, results of operations, cash flows and financial condition.

**37. *Our insurance coverage may not be sufficient or may not adequately protect us against losses, and successful claims that exceed our insurance coverage could harm our business, results of operations, cash flows and financial condition.***

We maintain insurance coverage of the type and in the amounts that we believe are commensurate with our operations. The following table sets forth details of our insurance coverage as at the dates indicated:

| Particular                             | Date                     | Amount of insurance coverage (in ₹ million) | Net Value of Assets <sup>(2)</sup> (in ₹ million) | Percentage of insurance coverage to Net Value of Assets (in %) |

**Notes:**

- (1) *Tangible Insured Assets—Building, Computers, Furniture and fixtures, Lease hold improvements, Vehicles and Office equipment and cash on-hand.*  
(2) *Net Value of Assets includes property, plant and equipment and cash-in-hand and excludes intangible assets.*

There can be no assurance that our current insurance policies will insure us fully against all risks and losses that may arise in the future, or that we will be able to maintain insurance of the types or at levels which we deem necessary or adequate or at premiums which we deem to be commercially acceptable. Even if such losses are insured, we may be subject to certain deductibles, exclusions and limits on coverage, and our insurance claims may not be successful. While such instances have not materialised in the six months period ended September 30, 2024 and in the last three Fiscals, the occurrence of a serious uninsured loss or a successful assertion of one or more large claims against us that exceeds our available insurance coverage or results in changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, results of operations, cash flows and financial condition. If we are unable to pass the effects of increased insurance costs on to our customers, the costs of higher insurance premiums could have a material adverse effect on our costs and profitability. In addition, our insurance coverage expires from time to time. While we apply for the renewal of our insurance coverage in the normal course of our business, we cannot assure you that such renewals will be granted in a timely manner, at acceptable costs or at all. Further, we do not have insurance coverage for losses that we incur from our loan portfolio or investments due to non-payment and delinquency.

**38. We may have to comply with regulations and guidelines issued by regulatory authorities in India, including the Reserve Bank of India, the Securities and Exchange Board of India (the “SEBI”) and the Insurance Regulatory and Development Authority of India (the “IRDAI”), which may subject us to penalties or business restrictions and increase our compliance costs.**

We are subject to strict regulations prescribed by the RBI, and the RBI exercises a supervisory role over our business. We are also subject to regulatory oversight by the SEBI (given that we have listed Non-Convertible Securities) and the IRDAI (given that the Company is registered as a corporate agent) with respect to compliance with the laws applicable to our business. Our business and financial performance could be adversely affected by changes in the laws, rules, regulations or directions applicable to us and the non-banking financial companies, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations governing our business, operations and investments.

Applicable regulations set forth various requirements in relation to, among other things, the manner in which a company carries out its business and internal operations, and various periodical compliances and filings, including but not limited to filing of forms and declarations with the relevant registrar of companies, the RBI and other relevant authorities. Further, notification of new regulations and policies may require us to obtain approvals and licences from the government and other regulatory bodies, or impose onerous requirements and conditions on our operations. New regulation may also change the manner in which we conduct KYC or authenticate our customers. Any such changes and the related uncertainties with respect to the implementation of new regulations may have an adverse effect on our business, results of operations, cash flows and financial condition. If we fail to comply with such requirements, we may be subject to penalties, business restrictions or compounding proceedings.

The regulatory and legal framework governing us differs in certain material aspects from that in effect in other countries and may continue to change as India’s economy and commercial and financial markets evolve.

Furthermore, as of the date of this Draft Red Herring Prospectus, our Company is categorized in the “Upper Layer” under the SBR Regulations, and accordingly, we are subject to certain additional capital, prudential guidelines, regulatory changes and governance requirements, based on the bracket we fall within. Further, the SBR Regulations also require mandatory listing of

all NBFC-ULs within three years of identification as NBFC-UL. While we are currently in compliance with the SBR Regulations as at the date of this Draft Red Herring Prospectus, as applicable, there can be no guarantee that we will be able to comply with any increased or more stringent regulatory requirements in a timely manner, in part or at all. For details, see “Key Regulations and Policies” on page 264.

Uncertainty in the applicability, interpretation or implementation of the above regulations may impact the viability of our current business or restrict our ability to grow our business in the future. If the interpretation of regulations by the regulators and authorities varies from our interpretation, we may be subject to penalties and our business could be adversely affected. Any changes in the existing regulatory framework, including any increase in the compliance requirements, may require us to divert additional resources, including management time and costs such as legal consultations or staff training required for such increased compliance. Such an increase in costs could have an adverse effect on our business, prospects, financial condition and results of operations. Additionally, our management may be required to divert substantial time and effort towards meeting such enhanced compliance requirements and may be unable to devote adequate time and efforts towards our business, which may have an adverse effect on our future business, results of operations, cash flows and financial condition.

**39. *We may not be able to obtain, renew or maintain statutory and regulatory permits and approvals required to operate our business, which may materially and adversely affect our business, results of operations, cash flows and financial condition.***

Our operations are subject to extensive government regulation and we are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in India for carrying out our business. While we currently possess or have applied for renewals of certain licences for our existing business operations, there can be no assurance that we will be able to maintain or renew such licences, registrations, permits or approvals nor that we will not be subject to new licensing requirements. In addition, we may apply for more approvals. There can be no assurance that the relevant authorities will grant the required permissions or renew the expired licences and approvals in the anticipated timeframe, or at all. We cannot assure you that we will be able to maintain the conditions required to retain all our licences.

Moreover, we cannot assure you that approvals and licences currently held by us would not be suspended or cancelled or withdrawn in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Additionally, failure by us to comply with the terms and conditions to which such licences, approvals, permits or registrations are subject, and/or to renew, maintain or obtain the required licences, approvals, permits or registrations may result in the interruption of our operations and may have a material adverse effect on our business, results of operations, cash flows and financial condition. For further details, see “Government and Other Approvals” on page 468.

**40. *We have certain contingent liabilities and our business, results of operations, cash flows and financial condition may be adversely affected if these contingent liabilities materialise.***

We have certain contingent liabilities and commitments, which, if materialised, could adversely affect our business and results of operations. As at September 30, 2024, our contingent liabilities in respect of disputed claims against our Company not acknowledged as debt was ₹1,216.6 million. If these contingent liabilities were to materialize, our business, results of operations, cash flows and financial condition may be adversely affected. Moreover, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current fiscal year, or in the future. The table below sets forth the breakdown of our contingent liabilities as at September 30, 2024:

| Particulars                                                                                        | September 30, 2024<br>(in ₹ million) |
|----------------------------------------------------------------------------------------------------|--------------------------------------|

| i) Suit filed by borrowers                                                                         | 360.1                                |
| ii) Other contingent liabilities in respect of:                                                    |                                      |
| Provident Fund matter                                                                              | 501.4                                |
| Payment of Bonus (Amendment) Act, 2015                                                             | 348.8                                |
| Payment of Labour Welfare Fund                                                                     | 3.2                                  |
| Maharashtra Professional Tax Assessment                                                            | 3.1                                  |
| II) Estimated amount of contracts remaining to be executed on capital account and not provided for | 1,021.4                              |
| III) Undrawn committed sanctions to borrowers                                                      | 3,899.3                              |
| Total contingent Liabilities                                                                       | 6,137.2                              |

For further information, see “Restated Consolidated Financial Information—Note 39: Contingent Liabilities and Commitments” on page 367.

**41. *Our Company is a public limited company, and in accordance with Section 111 of the Companies Act, 1956 and Section 58 of the Companies Act, 2013, may be unable to impose restrictions on the transfer of Equity Shares by our Shareholders.***

As on the date of the filing of this Draft Red Herring Prospectus, our Company has 41,411 Shareholders. The number of

shareholders can be attributed to the allotments done by the Company pursuant to ESOPs and rights issues transactions undertaken by our Company and subsequent secondary transactions by the shareholders as our Equity Shares are freely transferable. For further details, see “*Capital Structure —Share Capital history of our Company*” on page 80. As our Company is a public limited company, in accordance with Section 111 of the Companies Act, 1956 and Section 58 of the Companies Act, 2013, it may be unable to impose restrictions on the transfer of Equity Shares by our Shareholders.

**42. *Our Directors, Key Managerial Personnel and Senior Management have interests in our Company in addition to their remuneration and benefits and reimbursement of expenses.***

Certain of our Directors, Key Managerial Personnel and members of the Senior Management may be regarded as having interests in our Company other than the reimbursement of expenses incurred and normal remuneration or benefits. They may be deemed to be interested to the extent of Equity Shares held by them as well as to the extent of any dividends, bonuses, or other distributions on such Equity Shares. Additionally, certain of our Directors, Key Managerial Personnel and members of the Senior Management Personnel may also be interested to the extent of employee stock options granted by our Company under ESOS 2014, ESOS 2017 and ESOS 2022 and which may be granted to them from time to time. For further details, see “*Capital Structure*” and “*Our Management*” on pages 79 and 288 respectively.

**43. *Any failure, or perceived failure, by us to comply with the applicable regulations on personal information protection could expose us to proceedings and fines which may adversely affect our reputation, business, results of operations, cash flows and financial condition.***

Regulators in various jurisdictions are increasingly scrutinizing how companies collect, process, use, store, share and transmit personal data. This increased scrutiny may result in new interpretations of existing laws, thereby further impacting our business. In India, the Digital Personal Data Protection Act, 2023 (the “**Data Protection Act**”) has been enacted (but is yet to be made effective) for implementing organisational and technical measures in processing personal data, laying down norms for cross-border transfer of personal data to ensure the accountability of entities processing personal data. The Data Protection Act introduced stricter data protection norms for an entity such as ours and may impact our processes. The Data Protection Act is instituted to maintain the highest level of security and protection for all such information regarding our various customers. Any failure, or perceived failure, by us to comply with any applicable regulatory requirements, including but not limited to privacy, data protection, information security, or consumer protection related privacy laws and regulations, could result in proceedings or actions against us by governmental entities or individuals who may subject us to fines, penalties, and/or judgments, which may adversely affect our reputation, business, results of operations, cash flows and financial condition.

Furthermore, despite our efforts to comply with applicable laws, regulations and other obligations relating to privacy, data protection and information security, it is possible that our interpretations of the law or practices could be inconsistent with, or fail, or be alleged to fail to meet all requirements of, such laws, regulations or contractual obligations, which may adversely affect our reputation, business, results of operations, cash flows and financial condition.

**44. *Any non-compliance with mandatory anti-money laundering (“AML”), combating-terrorism financing (“CFT”) and know your customer (“KYC”) laws could expose us to liability and harm our reputation.***

In accordance with the requirements applicable to our Company, we are mandated to comply with AML, CFT and KYC regulations in India. These laws and regulations require us, among other things, to adopt and enforce AML, CFT and KYC policies and procedures. While we have adopted policies and procedures aimed at collecting and maintaining all relevant AML, CFT and KYC related information from our customers in order to detect and prevent the use of our networks for illegal money-laundering and terrorism financing activities, there may be instances where we collected information that may be used by other parties in attempts to engage in money-laundering, terrorism financing and other illegal or improper activities. In addition, a number of jurisdictions (including India) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA. Pursuant to these provisions, as part of our KYC processes, we are required to collect and report certain information regarding U.S. persons having accounts with us.

We have not had instances of breach of any applicable AML, CFT or KYC regulations and we consider that we have adequate internal policies, processes and controls in place to prevent and detect AML activity and ensure KYC compliance (including FATCA compliance). We may however not be able to fully control instances of any potential or attempted violation by other parties and may accordingly be subject to regulatory actions, including imposition of fines and other penalties by the relevant government agencies to whom we report to, including the Financial Intelligence Unit–India. Our business and reputation could suffer if any such parties use or attempt to use us for money-laundering, terrorism financing or illegal or improper purposes and such attempts are not detected or reported to the appropriate authorities in compliance with applicable regulatory requirements.

We are required to undertake customer due diligence procedures, including by verification of official valid documents and place of business/employment or residence, as applicable, in accordance with the Master Direction–Know Your Customer (KYC) Direction, 2016 issued by RBI, as updated from time to time. Such information includes representations with respect to the accuracy and completeness of valuation reports and title reports with respect to the property secured, as applicable. Any failure to comply with the applicable laws relating to Aadhaar or otherwise may expose us to penalties and regulatory scrutiny which may damage our reputation and lead to loss of customer confidence, which could have a material adverse impact on our

business, results of operations, cash flows and financial condition.

- 45. *We generally do not own our branch offices. Any termination or failure by us to renew the lease agreements in a favourable and timely manner, or at all, could adversely affect our business, results of operations, cash flows and financial condition. Moreover, many of the lease agreements entered into by us may not be duly registered or adequately stamped.***

To support our business and our offerings, we leased our corporate office, registered office as well as a total of 1,771 branches as at September 30, 2024. For further details, see “Our Business—Properties” on page 263. The lease agreements for these offices and branches can be terminated, and any such termination could result in any of our offices or branches being shifted or shut down. Some of the lease agreements may have expired in the ordinary course of business and we are currently involved in negotiations for the renewal of these lease agreements. While we have not faced major issues renewing the leases of our offices or branches in the past, if these lease agreements are not renewed or not renewed on terms favorable to us, we may suffer a disruption in our operations or increased costs, or both, which may affect our business and results of operations. Further, some of our lease agreements may not be adequately stamped or duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce these agreements legally, which may result in an adverse effect on our business, results of operations, cash flow and financial condition.

- 46. *Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures, restrictive covenants of our financing arrangements and compliance with applicable laws.***

While we have distributed dividends in the last three Fiscals, there is no guarantee that any dividends will be declared or paid in the future. The declaration and payment of dividend will depend on a number of internal and external factors. Pursuant to the notification dated June 24, 2021 issued by the RBI, the declaration of dividend of our Company shall, among other things, be dependent on the supervisory findings of the RBI in relation to non-performing assets of our Company, along with the capital adequacy requirements and the maximum dividend payout ratio prescribed under applicable laws. Additionally, our ability to pay dividends may also be restricted by regulatory restriction and the terms of financing arrangements that we may enter. The external factors on the basis of which our Company may declare the dividend shall, among other things, include business cycles, economic environment, both domestic and global, government and regulatory provisions, including taxation, inflation rates and cost of raising funds from alternate sources. Any dividends to be declared and paid in the future are required to be recommended by our Board of Directors and approved by its Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act, 2013. For further details, see “Dividend Policy” on page 312.

- 47. *Our debt securities are listed on the Wholesale Debt Market (“WDM”) segment of the BSE Limited (“BSE”) and the National Stock Exchange of India Limited (“NSE”), and we are subject to strict regulatory requirements with respect to such listed debt securities. Our inability to comply with or any delay in compliance with such laws and regulations may have an adverse effect on our business, results of operations, cash flows and financial condition.***

Our debt securities are listed on the WDM segments of the BSE and the NSE. We are required to comply with various applicable rules and regulations including the SEBI (Issue and Listing of Debt Securities) Regulations, 2008, the SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021 and the SEBI Listing Regulations in terms of our listed debt securities. In the event of non-compliance with such rules and regulations, we may be subject to certain penal actions, among other things, including restrictions on further issuance of securities and freezing of transfer of securities. Our inability to comply with or any delay in compliance with such rules and regulations may have an adverse effect on our business, results of operations, cash flows and financial condition.

- 48. *Our Promoter is a listed entity and any violation of rules and regulations applicable to listed companies by our Promoter may adversely impact our business, reputation, results of operation, cash flows and financial condition.***

Our Promoter is a listed entity with its own dispersed investor base and is subject to various compliance requirements under regulations promulgated by the SEBI and the U.S. Securities Exchange Commission (the “SEC”). Our Promoter is also subject to periodical checks and scrutiny by the SEBI, the SEC, the Stock Exchanges and the New York Stock Exchange (the “NYSE”). Any violations by our Promoter or adverse actions against our Promoter in the future may have an adverse impact on our business, reputation, results of operation, cash flows and financial condition. See “Our Promoter and Promoter Group” on page 306.

- 49. *Industry information included in this Draft Red Herring Prospectus has been derived from the CRISIL Report, and any reliance on information from the CRISIL Report for making an investment decision in the Offer is subject to inherent risks.***

Certain sections of this Draft Red Herring Prospectus include information based on or derived from the CRISIL Report, which was prepared by CRISIL MI&A and exclusively commissioned and paid for by our Company for the purposes of the Offer pursuant to the technical proposal dated September 6, 2024. CRISIL MI&A is not related to our Company, our Promoters, our

Directors, Key Managerial Personnel, Senior Management Personnel or the Book Running Lead Managers. A copy of the CRISIL Report will be available on the Company's website at <https://www.hdbfs.com/investor/offer-documents> from the date of the Draft Red Herring Prospectus until the Offer Closing Date.

The CRISIL Report is subject to various limitations and based on certain assumptions that are subjective in nature. Statements in the CRISIL Report that involve estimates are subject to change, and actual amounts may differ materially from those included therein. The CRISIL Report uses certain selected methodologies for market sizing and forecasting and, accordingly, investors should read the industry related disclosure in this Draft Red Herring Prospectus in this context. The CRISIL Report is not a recommendation to invest/disinvest in any company covered in the CRISIL Report. Accordingly, prospective investors should not place undue reliance on, or base their investment decision solely on this information. There are no parts, data or information (which may be relevant for the proposed Offer), that has been materially left out or changed in any manner. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on or base their investment decision solely on this information.

In view of the foregoing, investors should consult your own advisors and undertake an independent assessment of information in this Draft Red Herring Prospectus based on, or derived from, the CRISIL Report before making any investment decision regarding the Offer. See "*Certain Conventions, Presentation of Financial, Industry and Market Data—Industry and Market Data*" and "*Industry Overview*" on pages 24 and 163, respectively.

**50. *We have in this Draft Red Herring Prospectus included certain non-GAAP financial measures and certain other selected statistical information related to our operations and financial condition. These non-GAAP measures and statistical information may vary from any standard methodology that is applicable across the financial services industry and therefore may not be comparable with financial or statistical information of similar nomenclature computed and presented by other financial services companies.***

Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance have been included in this section and elsewhere in this Draft Red Herring Prospectus. For details on the various non-GAAP financial measures and the reconciliation of non-GAAP measures, please see "*Selected Statistical Information*" on page 313. These non-GAAP measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or U.S. GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit and loss for the respective Fiscals or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or U.S. GAAP. These non-GAAP measures and such other industry-related statistical and operational information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial and operational measures, and industry-related statistical information of similar nomenclature that may be computed and presented by other similar companies.

In addition, these non-GAAP measures are not standardised terms, hence a direct comparison of these non-GAAP measures between companies may not be possible. Other companies may calculate these non-GAAP measures differently from us, limiting its usefulness as a comparative measure. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our Restated Consolidated Financial Information disclosed elsewhere in this Draft Red Herring Prospectus. For more information, see "*Management's Discussion and Analysis of Financial Condition and Results of Operation*" on page 387.

**51. *Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior Shareholders' approval. Further, our funding requirements and deployment of the Net Proceeds of the Offer are based on management estimates and have not been independently appraised. Our management will have broad discretion over the use of the Net Proceeds.***

We propose to utilise the Net Proceeds towards augmenting our capital base to meet future business requirements of our Company, including towards onward lending. For further information of the proposed objects of the Offer, see "*Objects of the Offer*" on page 134. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain shareholders' approval in a timely manner, or at all. Any delay or inability to obtain such shareholders' approval may adversely affect our business or operations.

Further, our Promoter would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and in such manner as prescribed by the SEBI. Additionally, the requirement on our Promoter to provide an exit opportunity to such dissenting Shareholders may deter our Promoter from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interests

of our Company. Further, our Promoter may not have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by the SEBI.

In light of these factors, we may not be able to undertake variation of the objects of the Offer to use any unutilised proceeds of the Offer, if any, or vary the terms of any contract referred to in this Draft Red Herring Prospectus, even if such variation is in the interests of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

Subject to compliance with requirements under the Companies Act and the SEBI ICDR Regulations, our planned use of the proceeds of the Offer may change. These are based on current conditions and are subject to change in light of changes in external circumstances or costs or in other financial conditions or our business strategy. Further, our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions and have not been appraised by any bank or financial institution or other independent agency. In the absence of such independent appraisal, our funding requirements may be subject to change based on various factors which are beyond our control, such as interest or exchange rate fluctuations, among others. The deployment of the Net Proceeds will be at the discretion of our Board, subject to applicable laws and regulations. However, the deployment of the Gross Proceeds will be monitored by the Monitoring Agency. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of the Net Proceeds. For details, see "*Objects of the Offer*" on page 134.

**52. *A portion of the proceeds from this Offer will not be available to us.***

The proceeds from the Offer for Sale will be transferred to each of the Selling Shareholders, in proportion to their respective portion of the Offered Shares transferred by each Selling Shareholder in the Offer for Sale. Our Company will not receive any of the proceeds from the sale of Equity Shares by the Selling Shareholders. For details in relation to the Offer, see "*The Offer*" and "*Objects of the Offer—Offer for Sale*" on pages 63 and 134, respectively.

## **EXTERNAL RISK FACTORS**

**53. *Financial instability in other countries may cause increased volatility in Indian financial markets.***

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging market countries in Asia. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business, our future financial performance and the price of the Equity Shares.

The ongoing implications of Russia's invasion of Ukraine, the Israel-Hamas conflict, the Israel-Hezbollah conflict and the Iran-Israel conflict could result in increased volatility in, or damage to, the worldwide financial markets and economy. Any other global economic developments or the perception that any of them could occur may continue to have an adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition, cash flows and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

**54. *Financial difficulty and other problems in certain financial institutions in India could adversely affect our business, results of operations, cash flows and financial condition.***

Our Company, as an NBFC, is subject to the risks faced by the Indian financial system as a whole, which may be affected by the financial difficulties faced by certain Indian financial institutions because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. This risk, which may be referred to as "systemic risk", may adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges with whom we have lasting relationships and who may default on their obligations due to bankruptcy, lack of liquidity, operational failure or other reasons. Any such difficulties or instability of the Indian financial system in general could create an adverse market perception about Indian financial institutions and banks and hence, could adversely affect our business. Our transactions with these financial institutions and other non-banking financial institutions expose us to various risks in the event of default by a counterparty, which can be exacerbated during periods of market illiquidity.

**55. *Any adverse change in India's credit rating by an international rating agency could materially adversely affect our business and profitability.***

India's sovereign rating is Baa3 with a "stable" outlook (Moody's), BBB- with a "stable" outlook (S&P) and BBB- with a

stable outlook (Fitch). India's sovereign rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse change in India's credit ratings by international rating agencies may adversely impact the Indian economy and consequently our ability to raise additional financing in a timely manner or at all, as well as the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of the Equity Shares.

**56. *India's existing credit information infrastructure may cause increased risks of loan defaults.***

India's existing credit information infrastructure may pose problems and difficulties in running a robust credit check on our borrowers. We may also face difficulties in the due diligence process relating to our customers or to any security or collateral we take in relation to our loans. We may not be able to run comprehensive searches relating to the security and there are no assurances that any searches we undertake will be accurate or reliable. Hence, our overall credit analysis could be less robust as compared to similar transactions in more developed economies, which might result in an increase in our NPAs and we may have to increase our provisions correspondingly. Any of the foregoing may have a material adverse effect on our business, results of operations, cash flows and financial condition.

**57. *Natural or man-made disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business, results of operations, cash flows and financial condition.***

Natural disasters (such as flooding and earthquakes), epidemics, pandemics such as COVID-19 and man-made disasters, including acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our properties and may require us to suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or other countries could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 virus. Future outbreaks of the COVID-19 virus or a similar contagious disease could adversely affect the global economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business, results of operations, cash flows and financial condition and the trading price of the Equity Shares.

The short and long-term implications of Russia's invasion of Ukraine, the Israel-Hamas conflict, the Israel-Hezbollah conflict and the Iran-Israel conflict are difficult to predict at this time. To date, we have not experienced any material interruptions in our business operations in connection with these conflicts. We continue to monitor any adverse impact that the outbreak of war in Ukraine, the subsequent institution of sanctions against Russia by the United States and several European and Asian countries, and the Israel-Hamas conflict, Israel-Hezbollah conflict or the Iran-Israel conflict may have on the global economy in general, on our business and operations, our customers and other third parties with whom we conduct business. In particular, the Israel-Iran conflict has impacted oil prices and may continue to do so, which may in turn have an impact on the global economy and on India's economy in particular. To the extent such wars and conflicts may adversely affect our business as discussed above, it may also have the effect of heightening many of the other risks described herein.

**58. *Our ability to raise foreign capital may be constrained by Indian law.***

We raise debt capital in foreign currencies. As at September 30, 2024, our external commercial borrowings ("ECBs") totaled USD 1 billion. As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing foreign currencies, including the regulatory approval requirement to borrow in foreign currencies in excess of USD 750 million, will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

**59. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may materially adversely affect our business, results of operations, cash flows and financial condition.***

The regulatory environment in which we operate is evolving and is subject to change. Governmental and regulatory bodies in India and other countries may enact new regulations or policies, which may require us to obtain approvals and licences from applicable governments and other regulatory bodies or impose onerous requirements and conditions on our operations. Consequently, our business and financial performance could be materially adversely affected by changes in the laws, rules, regulations or directions applicable to us and the non-banking financial companies, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations.

The governmental and regulatory bodies may notify new regulations and/or policies, which may require us to obtain approvals and licences from the government and other regulatory bodies, impose onerous requirements and conditions on our operations,

in addition to those which we are undertaking currently, or change the manner in which we conduct KYC or authenticate our customers. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, results of operations, cash flows and financial condition.

In addition, unfavourable changes in or interpretations of existing rules and regulations including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent, may be time-consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and service tax, stamp duty and other special taxes and surcharges that are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. Any future increases or amendments could affect the overall tax efficiency of companies operating in India and could result in significant additional taxes becoming payable. If the tax costs associated with certain transactions because of a particular tax risk materializing are greater than anticipated, it could affect the profitability of such transactions. We are also subject to various labour laws and regulations governing our relationships with our employees and contractors, including in relation to minimum wages, working hours, overtime, working conditions, hiring and terminating the contracts of employees and contractors, contract labour and work permits. A change of law that requires us to increase the benefits to the employees from the benefits now being provided may create potential liability for us. Such benefits could also include provisions which reduce the number of hours an employee may work for or increase in number of mandatory casual leaves, which all can affect the productivity of the employees. Moreover, a change of law that requires us to treat and extend benefits to our outsourced personnel, and personnel retained on a contractual basis, similar to our full-time employees, may create potential liability for us. If we fail to comply with current and future health and safety and labour laws and regulations at all times, including obtaining relevant statutory and regulatory approvals, this could materially and adversely affect our business, results of operations, cash flows and financial condition.

**60. *Investors may have difficulty enforcing foreign judgments in India against us or our management.***

Our Company is incorporated under the laws of India. Our Company's assets are located in India and all of our Company's Directors, Key Managerial Personnel and Senior Management Personnel are residents of India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce against them judgments obtained in courts outside India. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the amount of damages as excessive or inconsistent with Indian public policy. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI under the Foreign Exchange Management Act, 1999 (the "**FEMA**") to repatriate any amount recovered, and such approval may not be forthcoming. The recognition and enforcement of foreign judgments in India are governed by Sections 13 and 44A of Code of Civil Procedure, 1908 (the "**Civil Code**"), which provide that a suit must be brought in India within three years of the date of the judgment sought to be enforced. Generally, there are considerable delays in the disposal of suits by Indian courts. Furthermore, enforcement of foreign arbitral awards is governed under Sections 48, 49, 55 and 57 of the Arbitration and Conciliation Act, 1996. However, the courts may refuse to enforce such awards if the courts find that the subject matter of the dispute is not capable of being settled under the laws of India or if the enforcement would be contrary to the public policy of India.

**61. *Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to investors' assessments of our financial condition.***

The financial statements included in this Draft Red Herring Prospectus have been prepared in accordance with Ind AS. We have not attempted to quantify the impact of U.S. GAAP or IFRS on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Ind AS. Accordingly, the degree to which the Ind AS financial statements, which are restated as per the SEBI ICDR Regulations included in this Draft Red Herring Prospectus, will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should be limited accordingly.

**62. *We may be affected by competition laws, the adverse application or interpretation of which could adversely affect our business, results of operations, cash flows and financial condition.***

The Competition Act, 2002, of India, as amended (the “**Competition Act**”), regulates practices having an appreciable adverse effect on competition in the relevant market in India (“**AAEC**”). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC, is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment, or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of customers in the relevant market or directly or indirectly, results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On April 11, 2023, the Competition (Amendment) Bill 2023 received the assent of the President of India to become the Competition (Amendment) Act, 2023 (the “**Competition Amendment Act**”), amending the Competition Act and giving the Competition Commission of India (the “**CCI**”) additional powers to prevent practices that harm competition and the interests of consumers. It has been enacted to increase the ease of doing business in India and enhance transparency. The Competition Amendment Act modifies, among other things, the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered by us could be within the purview of the Competition Act. Further, the CCI has extraterritorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered by us cannot be predicted with certainty at this stage. We may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and financial condition.

#### **RISKS RELATING TO THE EQUITY SHARES AND THE OFFER**

**63. *The ability of investors to acquire and sell Equity Shares is restricted by the distribution and transfer restrictions set forth in this Draft Red Herring Prospectus.***

No actions have been taken to permit a public offering of our Equity Shares in any jurisdiction, other than India. As such, our Equity Shares have not and will not be registered under the U.S. Securities Act, any state securities laws or the law of any jurisdiction other than India. Further, our Equity Shares are subject to restrictions on transferability and resale. You are required to inform yourself about and observe these restrictions. Please see “*Other Regulatory and Statutory Disclosures - Disclaimer in Respect of Jurisdiction*” on page 477. We, our representatives and our agents will not be obligated to recognise any acquisition, transfer or resale of our Equity Shares made other than in compliance with the restrictions set forth herein.

**64. *The average cost of acquisition of Equity Shares for our Promoter Selling Shareholder may be lower than the Offer Price.***

The average cost of acquisition of the Promoter Selling Shareholder for 750,596,670 Equity Shares is ₹46.4, which may be lower than the Offer Price. For details, see “*Basis for Offer Price*” and “*Capital Structure*” on pages 140 and 79, respectively. The Offer Price is not indicative of the price at which our Company has issued the Equity Shares in the past or that will prevail in the open market following listing of the Equity Shares.

**65. *We have issued Equity Shares during the preceding 12 months at a price which may be below the Offer Price.***

We have, in the last 12 months prior to filing this Draft Red Herring Prospectus, issued Equity Shares at a price that could be lower than the Offer Price. For further details, see “*Capital Structure—Notes to Capital Structure—Issue of Equity Shares at a price lower than the Offer Price in the last year*” on page 119.

**66. *The determination of the Price Band is based on various factors and assumptions and the Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer. Further, the current market price of some securities listed pursuant to certain previous issues managed by the Book Running Lead Managers is below their respective issue prices.***

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLMs. Furthermore, the Offer Price of the Equity Shares will be determined by our Company in consultation with the BRLMs through the Book Building Process. These will be based on numerous factors, including factors as described under “*Basis for Offer Price*” on page 140 and may not be indicative of the market price for the Equity Shares

after the Offer.

The market price of the Equity Shares could be subject to significant fluctuations after the Offer and may decline below the Offer Price. We cannot assure you that the investor will be able to resell their Equity Shares at or above the Offer Price resulting in a loss of all or part of the investment. The relevant financial parameters based on which the Price Band would be determined shall be disclosed in the advertisement to be issued for publication of the Price Band. For further details, see “*Basis for Offer Price*” on page 140.

Further, there can be no assurance that our key performance indicators (“**KPIs**”) shall become higher than our listed comparable industry peers in the future. An inability to improve, maintain or compete, or any reduction in such KPIs in comparison with the listed comparable industry peers, may adversely affect the market price of the Equity Shares. There can be no assurance that our methodologies are correct or will not change and accordingly, our position in the market may differ from that presented in this Draft Red Herring Prospectus.

The disposal of Equity Shares by our Promoter or any of our Company’s other principal shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India, may adversely affect the trading price of the Equity Shares. We cannot assure you that our Promoter and other major shareholders will not dispose of, pledge or encumber their Equity Shares in the future. Further, we cannot assure you that the disposal of the Equity Shares in the future, if any, by our Promoter or other major shareholders will not be at a price higher than the Offer Price.

In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the BRLMs is below their respective issue price. For further details, see “*Price information of past issues handled by the Book Running Lead Managers (during the current Financial Year and two Financial Years preceding the current Financial Year)*” on page 483. The factors that could affect the market price of the Equity Shares include, among others, broad market trends, financial performance, results of our Company post-listing and other factors beyond our control. We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

**67. Subsequent to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (“ASM”) and Graded Surveillance Measures (“GSM”) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.**

The SEBI and the Stock Exchanges, in the past, have introduced various pre-emptive surveillance measures with respect to the shares of listed companies in India (the “**Listed Securities**”) in order to enhance market integrity, safeguard the interests of investors and potential market abuses. In addition to various surveillance measures already implemented, and in order to further safeguard the interest of investors, the SEBI and the Stock Exchanges have introduced ASM and GSM.

ASM is conducted by the Stock Exchanges on Listed Securities with surveillance concerns based on certain objective parameters such as price-to-earnings ratio, percentage of delivery, client concentration, variation in volume of shares and volatility of shares, among other things. GSM is conducted by the Stock Exchanges on Listed Securities where their price quoted on the Stock Exchanges is not commensurate with, among other things, the financial performance and financial condition measures such as earnings, book value, fixed assets, net worth, and other measures such as price-to-earnings multiple and market capitalisation.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, and low trading volumes as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by the SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by the SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, limiting trading frequency or freezing of price on upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company. Any such instance may result in a loss of our reputation and diversion of our management’s attention and may also decrease the market price of our Equity Shares, which could cause you to lose some or all of your investment.

**68. Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.**

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors’ fiduciary duties, responsibilities and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights under Indian law, including in relation to class actions, may not be as extensive and widespread as shareholders’ rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as a shareholder of an entity in another jurisdiction.

**69. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares and dividends paid on the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. A securities transaction tax (“STT”) is levied on equity shares sold on an Indian stock exchange. Any capital gain exceeding ₹100,000 realized on the sale of listed equity shares on a recognized stock exchange and held for more than 12 months may be subject to long-term capital gains tax in India at the rate of 10% (without indexation and exchange variation benefit). This beneficial provision is subject to, among other things, payment of STT on both acquisition and sale of the equity shares. If the shares are not sold on a recognized stock exchange or if STT has not been paid as mentioned above, long term capital gain will be charged at 20% (with indexation) and short-term capital gain will be taxed at applicable slab rates. Non-residents are provided with the option of discharging tax on long term capital gain at 10% (without indexation and exchange variation benefit). Non-residents can also opt for the rate of tax as proposed in the double taxation avoidance agreement for the above transactions, if it is more beneficial, after providing the necessary documents as prescribed under the statute.

Further, any gain realized on the sale of our Equity Shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short-term capital gains tax in India at the rate of 15%, subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates.

Capital gains arising from the sale of the Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a treaty between India and the country of which the seller is resident read with the Multilateral Instrument, if and to the extent applicable, and the seller is entitled to avail benefits thereunder. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain realised upon the sale of the Equity Shares.

The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

Any dividends paid by an Indian company will be subject to tax in the hands of the shareholders at applicable rates. Such taxes will be withheld by the Indian company paying dividends. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations, including foreign investment and stamp duty laws governing our business and operations, could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

**70. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion and repatriation transaction charges incurred, if any, may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India. Delays in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated in recent years and may fluctuate in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

**71. *Our Company’s Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Offer, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile or may not be indicative of the market price of the Equity Shares after the Offer, and you may be unable to resell your Equity Shares at or above the Offer Price or at all.***

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for our Equity Shares will develop or, if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined through a book building process and may not be indicative of the market price of our Equity Shares at the time of commencement of trading of our Equity Shares or at any time thereafter. Further, the price of the Equity Shares may be volatile, and the investors may be unable to resell the Equity Shares at or above the Offer Price, or at all. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India and volatility in the Stock Exchanges and securities markets elsewhere in the world.

There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after this Offer could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Draft Red Herring Prospectus. The market price of our Equity Shares may be influenced

by many factors, some of which are beyond our control, including:

- failure of security analysts to cover the Equity Shares after this Offer, or changes in the estimates of our performance by analysts;
- activities of competitors;
- future sales of the Equity Shares by us or our shareholders;
- investor perception of us and the industry in which we operate;
- our quarterly or annual earnings or those of our competitors;
- developments affecting fiscal or sectoral;
- the public's reaction to our press releases and adverse media reports;
- the stake of our Promoter; and
- general economic conditions.

Furthermore, a decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment. Significant events affecting other listed companies within the HDFC Bank group could lead to volatility in their share prices and such fluctuations may also impact the valuation of our Company, reflecting in our share price performance.

**72. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.***

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and before trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in the Offer and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately two working days from the Bid/Offer Closing Date and trading in the Equity Shares upon receipt of final listing, and trading approvals from the Stock Exchanges is expected to commence within three working days of the Bid/Offer Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

**73. *Any future issuance of Equity Shares or convertible securities or other equity-linked instruments by us may dilute your shareholding, and sale of Equity Shares by the Promoter may adversely affect the trading price of the Equity Shares.***

We may be required to finance our growth, whether organic or inorganic, through future equity offerings. Any future equity issuances by us, including a primary offering, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or disposal of our Equity Shares by the Promoter or any of our other principal shareholders or any other change in our shareholding structure to comply with minimum public shareholding norms applicable to listed companies in India or any public perception regarding such issuance or sales may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. There can be no assurance that we will not issue further Equity Shares or that our existing shareholders including our Promoter will not dispose of further Equity Shares after the completion of the Offer (subject to compliance with the lock-in provisions under the SEBI ICDR Regulations) or pledge or encumber their Equity Shares. Any future issuances could also dilute the value of shareholder's investment in the Equity Shares and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the Offer Price. We may also issue convertible debt securities to finance our future growth or fund our business activities. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

**74. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate

from the Indian income tax authorities.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Rules, investments where the beneficial owner of the Equity Shares is situated in or is a citizen of a country sharing a land border with India can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020, and the FEMA Rules. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained with or without any particular terms or conditions or at all.

For further information, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 532.

**75. *Qualified Institutional Buyers (“QIBs”) and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Offer Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to block the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Offer Period and/or withdraw their Bids until the Bid/Offer Closing date, but not thereafter. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within three working days from the Bid/Offer Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors’ decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the investors’ ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing. Therefore, QIBs and Non-Institutional Investors will not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or otherwise between the dates of submission of their Bids and Allotment.

**76. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.***

Under the Companies Act, 2013, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the laws of the jurisdiction the investors are located in does not permit them to exercise their pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor’s benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

**77. *A third party could be prevented from acquiring control of us post this Offer, because of antitakeover provisions under Indian law.***

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Offer. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of the SEBI Takeover Regulations.

**78. *Due to the nature of our business, we may be classified as a passive foreign investment company (“PFIC”) for U.S. federal income tax purposes. Assuming we are so classified, U.S. investors in the Equity Shares may be subject to material adverse U.S. federal income tax consequences.***

A non-U.S. corporation will be classified as a PFIC for any taxable year if either: (a) at least 75% of its gross income for such year is “passive income” for purposes of the PFIC rules or (b) at least 50% of the value of its assets (generally determined on the basis of a quarterly average) during such year is attributable to assets that produce or are held for the production of passive income. For this purpose, passive income includes interest, dividends and other investment income, with certain exceptions. We mainly engage in the business of making loans to customers and our revenue mostly consists of interest income that will be considered passive income unless such interest income is derived in bona fide banking activities conducted by a U.S. licensed bank or a foreign corporation engaged in the banking business that is licensed as a bank in the country in which it is chartered

or incorporated and accepts deposits from and lends to unrelated customers as part of its banking business. We are not licensed as a bank in any jurisdiction and do not accept deposits. Therefore, we may be a PFIC for the current taxable year and the foreseeable future. If we are treated as a PFIC for any taxable year during which a U.S. investor held Equity Shares, such U.S. investor would generally be subject to material adverse U.S. federal income tax consequences. Certain elections that may alleviate such material adverse U.S. federal income tax consequences may be available.

- (4) Subject to valid bids being received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book

Running Lead Managers, and the Designated Stock Exchange, subject to applicable laws. In the event of under-subscription in the Employee Reservation Portion (if any), the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹200,000, subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹500,000. The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation up to ₹500,000), shall be added to the Net Offer. The unsubscribed portion, if any, in the HDFC Bank Shareholder Reservation Portion, shall be added to the Net Offer. The Employee Reservation Portion shall not exceed 5% of our post-Offer paid-up Equity Share capital. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid under the Retail Portion in the Net Offer and such Bids will not be treated as multiple Bids. For further details, see “Offer Structure” beginning on page 505.

- (5) The HDFC Bank Shareholder Reservation Portion shall not exceed 10 % of the Offer size. For further details, see “Offer Structure” beginning on page 505. Eligible HDFC Bank Shareholders Bidding in the HDFC Bank Shareholder Reservation Portion can also Bid under the Net Offer and Employee Reservation Portion (if eligible) and such Bids shall not be considered as multiple Bids subject to applicable limits. If an Eligible Shareholder is Bidding in the HDFC Bank Shareholder Reservation Portion up to ₹200,000, application by such Eligible Shareholder in the Retail Portion or Non-Institutional Portion and Employee Reservation Portion (if eligible and subject to applicable limits) shall not be treated as multiple Bids. Therefore, Eligible HDFC Bank Shareholders bidding in the HDFC Bank Shareholder Reservation Portion (subject to the Bid Amount being up to ₹200,000) can also Bid under the Net Offer and Employee Reservation Portion (if eligible and subject to applicable limits) and such Bids shall not be treated as multiple Bids.
- (6) Subject to valid bids being received at or above the Offer Price, undersubscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange, subject to applicable laws. In case of under-subscription in the Offer, after meeting the minimum subscription requirement of 90% of the Fresh Issue, the balance subscription in the Offer will be met in the following order of priority: (i) through the sale of Offered Shares being offered by the Promoter Selling Shareholder in the Offer for Sale; and (ii) through the issuance of balance part of the Fresh Issue. In the event of under-subscription in the Offer, Equity Shares shall be allocated in the manner specified in “Terms of the Offer” beginning on page 499.
- (7) Our Company may, in consultation with the Book Running Lead Managers, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds only, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, see “Offer Procedure” beginning on page 510.
- (8) Our Company, in consultation with the BRLMs, may consider a Pre-IPO Placement, prior to filing of the Red Herring Prospectus. The Pre-IPO Placement, if undertaken, will be at a price to be decided by our Company, in consultation with the BRLMs. If the Pre-IPO Placement is completed, the amount raised pursuant to the Pre-IPO Placement will be reduced from the Fresh Issue, subject to compliance with Rule 19(2)(b) of the SCRR. The Pre-IPO Placement, if undertaken, shall not exceed 20% of the size of the Fresh Issue. Prior to the completion of the Offer, our Company shall appropriately intimate the subscribers to the Pre-IPO Placement, prior to allotment pursuant to the Pre-IPO Placement, that there is no guarantee that our Company may proceed with the Offer or the Offer may be successful and will result into listing of the Equity Shares on the Stock Exchanges. Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement (if undertaken) shall be appropriately made in the relevant sections of the RHP and the Prospectus.

Allocation to Bidders in all categories except the Anchor Investor Portion, if any, Non Institutional Bidders and the Retail Portion, shall be made on a proportionate basis subject to valid Bids received at or above the Offer Price. The allocation to each of the RIB and the NIB, shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion, and the remaining available Equity Shares, if any, shall be allocated on a proportional basis. One-third of the Non-Institutional Portion shall be reserved for applicants with application size of more than ₹200,000 and up to ₹1,000,000, two-thirds of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than ₹1,000,000 and the unsubscribed portion in either of the above subcategories may be allocated to Bidders in the other sub-category of Non-Institutional Bidders. The allocation of Equity Shares to each Non-Institutional Bidder shall not be less than the minimum application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, shall be allocated on a proportionate basis.

Pursuant to Rule 19(2)(b) of the SCRR, the Offer is being made for at least [●]% of the post-Offer paid-up Equity Share capital of our Company. For more information including in relation to grounds for rejection of Bids, see “Offer Structure”, “Offer Procedure” and “Terms of the Offer” beginning on pages 505, 510 and 499, respectively.

### **Book Building Process**

Book building, in the context of the Offer, refers to the process of collection of Bids from Bidders on the basis of the Red Herring Prospectus and the Bid Cum Application Forms and the Revision Forms within the Price Band, which will be decided by our Company in consultation with the Book Running Lead Managers, and which will either be included in the Red Herring Prospectus or will be notified in all editions of [●], an English national daily newspaper and all editions of [●], a Hindi national daily newspaper and [●] editions of [●] (a widely circulated Gujarati newspaper, Gujarati being the regional language of Gujarat, where our Registered Office is located) each with wide circulation, at least two Working Days prior to the Bid/Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading on their respective websites. The Offer Price shall be determined by our Company in consultation with the Book Running Lead Managers after the Bid/Offer Closing Date. For details, see “Offer Procedure” beginning on page 510.

**All Bidders (other than Anchor Investors) shall participate in this Offer mandatorily through the ASBA process by providing the details of their respective bank accounts in which the corresponding Bid Amount will be blocked by the SCSBs. In addition to this, the RIB Bidders may participate through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs; or (b) through the UPI Mechanism. Non-Institutional Investors with an application size of up to ₹ 500,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with Syndicate Members, Registered Brokers, Collecting Depository Participants and Registrar and Share Transfer Agents. Anchor Investors are not permitted to participate in the Offer through the ASBA process. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings whose application sizes are up to ₹0.50 million shall use the UPI Mechanism.**

**In terms of the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of the number of Equity Shares or the Bid Amount) at any stage. RIBs and Eligible Employees Bidding in the Employee Reservation Portion and Eligible HDFC Bank Shareholders Bidding in the HDFC Bank Shareholder Reservation Portion can revise their Bid(s) during the Bid/ Offer Period and withdraw their Bid(s) until Bid/ Offer Closing Date. Anchor Investors are not allowed to withdraw their Bids after the Anchor Investor Bid/Offer Period. Except for Allocation to RIBs, Non-Institutional Bidders and the Anchor Investors, allocation in the Offer will be on a proportionate basis. Further, allocation to Anchor Investors will be on a discretionary basis.**

**Each Bidder by submitting a Bid in the Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.**

For further details, see “Terms of the Offer”, “Offer Structure” and “Offer Procedure” beginning on pages 499, 505 and 510, respectively.

**The process of Book Building under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to submitting a Bid in the Offer.**

**Bidders should note that, the Offer is also subject to obtaining (i) the final approval of the RoC after the Prospectus is filed with the RoC; and (ii) final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment.**

### **Underwriting Agreement**

Our Company and the Promoter Selling Shareholder intends to, prior to the filing of the Prospectus with the RoC, enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. The Underwriting Agreement is dated [●]. Pursuant to the terms of the Underwriting Agreement, the obligations of each of the Underwriters will be several and will be subject to certain conditions specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares which they shall subscribe to on account of rejection of bids, either by themselves or by procuring subscription, at a price which shall not be less than the Offer Price, pursuant to the Underwriting Agreement:

*(This portion has been intentionally left blank and will be filled in before filing of the Prospectus with the RoC.)*

| [●]                                                                           | [●]                                                          | [●]                                       |

The aforementioned underwriting commitments are indicative and will be finalised after the determination of the Offer Price and finalization of the Basis of Allotment and actual allocation in accordance with provisions of the SEBI ICDR Regulations.

In the opinion of our Board, the resources of the aforementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The aforementioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchanges. Our Board/ Strategic Transaction Committee, at its meeting held on [●], approved the acceptance and entering into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment set forth in the table above.

Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to the Equity Shares allocated to investors respectively procured by them in accordance with the Underwriting Agreement. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure purchasers for or purchase the Equity Shares to the extent of the defaulted amount in accordance with the Underwriting Agreement. The Underwriting Agreement has not been executed as on the date of this Draft Red Herring Prospectus and will be executed in accordance with applicable laws, after the determination of the Offer Price and allocation of Equity Shares, prior to the filing of the Prospectus with the RoC. The extent of underwriting obligations and the Bids to be underwritten in the Offer shall be as per the Underwriting Agreement.

- (4) Our Company, in consultation with the BRLMs, may consider an issue of specified securities, as may be permitted under the applicable law, at its discretion, prior to filing of the Red Herring Prospectus with the RoC. The Pre-IPO Placement, if undertaken, will be at a price to be decided by our Company, in consultation with the BRLMs. If the Pre-IPO Placement is completed, the amount raised pursuant to the Pre-IPO Placement will be reduced from the Fresh Issue, subject to compliance with Rule 19(2)(b) of the SCRR. The Pre-IPO Placement, if undertaken, shall not exceed 20% of the size of the Fresh Issue. Prior to the completion of the Offer, our Company shall appropriately intimate the subscribers to the Pre-IPO Placement, prior to allotment pursuant to the Pre-IPO Placement, that there is no guarantee that our Company may proceed with the Offer or the Offer may be successful and will result into listing of the Equity Shares on the Stock Exchanges. Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement (if undertaken) shall be appropriately made in the relevant sections of the RHP and Prospectus.
- (5) Subject to valid bids being received at or above the Offer Price, under-subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange, subject to applicable laws. In the event of under-subscription in the Employee Reservation Portion (if any), the unsubscribed portion will be available for allocation and Allotment, proportionately to all Eligible Employees who have Bid in excess of ₹ 200,000, subject to the maximum value of Allotment made to such Eligible Employee not exceeding ₹ 500,000. The unsubscribed portion, if any, in the Employee Reservation Portion (after allocation up to ₹ 500,000), shall be added to the Net Offer. The unsubscribed portion, if any, in the HDFC Bank Shareholder Reservation Portion, shall be added to the Net Offer. The Employee Reservation Portion shall not exceed 5% of our post-Offer paid-up Equity Share capital. Further, an Eligible Employee Bidding in the Employee Reservation Portion can also Bid in the Non-Institutional Portion or the under the RIB Portion and such Bids will not be treated as multiple Bids. The HDFC Bank Shareholders Reservation Portion shall not exceed 10.00% of the size of the Offer. For further details, see “Offer Structure” beginning on page 505.

\*Subject to finalisation of the Basis of Allotment.

^The percentage of the Equity Share capital on a fully diluted basis has been calculated on the basis of total Equity Shares held and such number of Equity Shares which will result upon conversion of vested options under the ESOS 2014, ESOS 2017 and ESOS 2022

Our Promoter has given their consent to include such number of Equity Shares held by our Promoter as disclosed above, constituting 20% of the fully diluted post-Offer Equity Share capital of our Company as Minimum Promoter's Contribution. Our Promoter has agreed not to sell, transfer, charge, pledge or otherwise encumber in any manner the Minimum Promoter's Contribution from the date of filing this Draft Red Herring Prospectus, until the expiry of the lock-in period specified above, or for such other time as required under SEBI ICDR Regulations, except as may be permitted, in accordance with SEBI ICDR Regulations.

Our Company undertakes that the Equity Shares that are being locked-in are not ineligible for computation of Promoter's contribution in terms of Regulation 15 of the SEBI ICDR Regulations. For details of build-up of shareholding of our Promoter, see “- Build-up of the shareholding of our Promoter in our Company” on page 120.

iii. In this connection, please note that:

- a. The Equity Shares offered for Minimum Promoter's Contribution do not include (i) Equity Shares acquired in the three immediately preceding years for consideration other than cash and revaluation of assets or capitalisation of intangible assets not involved in such transactions, or (ii) Equity Shares that have resulted from bonus issue by utilization of revaluation reserves or unrealised profits of our Company or resulted from bonus shares issued against Equity Shares, which are otherwise ineligible for computation of Minimum Promoter's Contribution.
- b. The Minimum Promoter's Contribution does not include any Equity Shares acquired during the immediately preceding one year at a price lower than the price at which the Equity Shares are being offered to the public in the Offer.
- c. Our Company has not been formed by the conversion of one or more partnership firms or a limited liability partnership firm.
- d. All the Equity Shares held by our Promoter are in dematerialised form.
- e. The Equity Shares held by our Promoter and offered for Minimum Promoter's Contribution are not subject to pledge or any other encumbrance.

**d. Other lock-in requirements:**

- i. In addition to the 20% of the post-Offer shareholding of our Company held by our Promoter and locked in for 18 months as specified above, in terms of Regulation 17 of the SEBI ICDR Regulations, the entire pre-Offer equity share capital of our Company will be locked-in for a period of six months from the date of Allotment or such other period as may be prescribed under the SEBI ICDR Regulations, except for (i) the Equity Shares offered pursuant to the Offer for Sale; (ii) the Equity Shares held by Shareholders who are VCFs, Category I AIFs, Category II AIFs or FVCIs, subject to the conditions set out in Regulation 17 of the SEBI ICDR Regulations, provided that such Equity Shares will be locked-in for a period of at least six months from the date of purchase by such VCFs or Category I AIFs or Category II AIFs or FVCI Shareholders respectively, and (iii) any Equity Shares allotted to and held by employees (whether currently employees or not) of our Company in accordance with ESOS 2007, ESOS 2014, ESOS 2017 or ESOS 2022. Further, any unsubscribed portion of the Offered Shares will also be locked in, as required under the SEBI ICDR Regulations.

- ii. As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.
- iii. In terms of Regulation 22 of the SEBI ICDR Regulations, the Equity Shares held by our Promoter, which are locked-in pursuant to Regulation 16 of the SEBI ICDR Regulations, may be transferred to and among our Promoter, the members of our Promoter Group or to any new promoter of our Company, subject to continuation of the lock-in in the hands of the transferees for the remaining period (and such transferees shall not be eligible to transfer until the expiry of the lock-in period as stipulated under SEBI ICDR Regulations) and compliance with the Takeover Regulations, as applicable.
- iv. Pursuant to Regulation 21(a) of the SEBI ICDR Regulations, the Equity Shares in excess of the Minimum Promoters Contribution held by our Promoter, which are locked-in for a period of 18 months from the date of Allotment (as mentioned above) may be pledged as collateral security for loans granted by scheduled commercial banks, public financial institutions, NBFC-SI or housing finance companies, provided that such loans have been granted by such bank or institution for the purpose of financing one or more of the objects of the Offer and pledge of the Equity Shares is a term of sanction of such loans.
- v. Pursuant to Regulation 21(b) of the SEBI ICDR Regulations, the Equity Shares held by our Promoter which are locked-in for a period of six months from the date of Allotment may be pledged only with scheduled commercial banks, public financial institutions, NBFC-SI or housing finance companies as collateral security for loans granted by such banks or public financial institutions, provided that such pledge of the Equity Shares is one of the terms of the sanction of such loans.
- vi. Pursuant to Regulation 22 of the SEBI ICDR Regulations, the Equity Shares held by any person other than our Promoter and locked-in for a period of six months from the date of Allotment in the Offer may be transferred to any other person holding the Equity Shares which are locked-in, subject to continuation of the lock-in in the hands of transferees for the remaining period (and such transferees shall not be eligible to transfer until the expiry of the lock-in period) and compliance with the Takeover Regulations, as applicable.

**e. *Lock-in of the Equity Shares to be allotted, if any, to the Anchor Investors***

50% of the Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 90 days from the date of Allotment and the remaining Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

- 9. As on the date of the filing of this Draft Red Herring Prospectus, our Company has 41,411 Shareholders (based on beneficiary position statement available on October 30, 2024)
- 10. None of our Promoter, members of the Promoter Group, Directors of our Corporate Promoter, our Directors or their relatives have purchased or sold any Equity Shares during a period of six months preceding the date of this Draft Red Herring Prospectus.
- 11. Except for Equity Shares to be allotted pursuant to the Fresh Issue and exercise of options granted under ESOS 2014, ESOS 2017 and ESOS 2022, our Company presently does not intend or propose to alter its capital structure for a period of six months from the Bid/Offer Opening Date, by way of split or consolidation of the denomination of Equity Shares, or by way of further issue of Equity Shares (including issue of securities convertible into or exchangeable, directly or indirectly for Equity Shares), whether on a preferential basis, or by way of issue of bonus shares, or on a rights basis, or by way of further public issue of Equity Shares, or otherwise.
- 12. Neither our Company, nor the Directors have entered into any buy-back arrangements for purchase of Equity Shares from any person. Further, the Book Running Lead Managers have not entered into any buy-back arrangements for purchase of Equity Shares from any person.
- 13. Except as disclosed below, none of our Directors or Key Managerial Personnel or Senior Management Personnel hold any Equity Shares of our Company.

## OBJECTS OF THE OFFER

The Offer comprises the Fresh Issue and the Offer for Sale.

### Offer for Sale

The Promoter Selling Shareholder will be entitled to the proceeds of the Offer for Sale in relation to the Equity Shares offered by the Promoter Selling Shareholder as part of the Offer for Sale after deducting its portion of the Offer related expenses and relevant taxes thereon, to be borne by the Promoter Selling Shareholder. Our Company will not receive any proceeds from the Offer for Sale and the proceeds received from the Offer for Sale will not form part of the Net Proceeds. For further details of the Offer for Sale, see “*Other Regulatory and Statutory Disclosures*” beginning on page 474.

### The Fresh Issue

Our Company proposes to utilize the Net Proceeds from the Fresh Issue towards augmenting our Company’s Tier – I Capital base to meet our Company’s future capital requirements including onward lending, arising out of the growth of our business. Further, a portion of the proceeds from the Fresh Issue will be used towards meeting Offer Expenses. For further details, see “*Offer Expenses*” on page 136 below.

In addition, our Company expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges, including enhancement of our Company’s brand name and creation of a public market for our Equity Shares in India.

The main objects clause and objects which are necessary for furtherance of the main objects as set out in our Memorandum of Association enable us to undertake the activities for which the funds are proposed to be raised by us through the Fresh Issue.

### Net Proceeds

The details of the proceeds from the Fresh Issue are summarized in the following table:

| Particulars                                      | Estimated amount (₹ in million) <sup>(2)</sup> |
|--------------------------------------------------|------------------------------------------------|
| Gross proceeds of the Fresh Issue <sup>(1)</sup> | 25,000                                         |
| (Less) Fresh Issue expenses <sup>(2)(3)</sup>    | [•]                                            |
| <b>Net Proceeds</b>                              | <b>[•]</b>                                     |

<sup>(1)</sup> Includes the proceeds, if any, received pursuant to the Pre-IPO Placement. If the Pre-IPO Placement is completed, the amount raised pursuant to the Pre-IPO Placement will be reduced from the Fresh Issue, subject to compliance with Rule 19(2)(b) of the SCRR. The Pre-IPO Placement, if undertaken, shall not exceed 20% of the size of the Fresh Issue. Prior to the completion of the Offer, our Company shall appropriately intimate the subscribers to the Pre-IPO Placement, prior to allotment pursuant to the Pre-IPO Placement, that there is no guarantee that our Company may proceed with the Offer or the Offer may be successful and will result into listing of the Equity Shares on the Stock Exchanges. Further, relevant disclosures in relation to such intimation to the subscribers to the Pre-IPO Placement (if undertaken) shall be appropriately made in the relevant sections of the RHP and the Prospectus.

<sup>(2)</sup> To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC.

<sup>(3)</sup> For details, see “*Offer Expenses*” below.

### Requirement of Funds and Utilization of Net Proceeds

The Net Proceeds are proposed to be utilised towards augmentation of our Company’s Tier – I Capital base to meet our Company’s future capital requirements including onward lending which are expected to arise out of the growth in our Company’s business and assets, and to ensure compliance with regulatory requirements on capital adequacy prescribed by the RBI from time to time.

### Proposed Schedule of Implementation and Deployment of Funds

The Net Proceeds are proposed to be deployed in accordance with the details provided hereunder:

| Particulars                                                                                                                    | Amount (in ₹ million) | Percentage of Net Proceeds (%) |
|--------------------------------------------------------------------------------------------------------------------------------|-----------------------|--------------------------------|
| Augmentation of our Company’s Tier – I Capital base to meet our Company’s future capital requirements including onward lending | [•]                   | 100%                           |
| <b>Total</b>                                                                                                                   | <b>[•]</b>            | <b>100%</b>                    |

The Net Proceeds are proposed to be deployed over the course of Fiscals 2025 and 2026. The fund deployment is based on current circumstances of our business, and we may have to revise our estimates from time to time on account of various factors, such as financial and market conditions, competition, interest rate fluctuations and other external factors, which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management, subject to compliance with applicable laws.

In the event that the estimated utilization of the Net Proceeds in a scheduled Financial Year is not completely met, due to the reasons stated above, the same shall be utilised in the next Financial Year, as may be determined by our Company, in accordance with applicable laws. For details on risks involved, see “Risk Factors – Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior Shareholders’ approval. Further, our funding requirements and deployment of the Net Proceeds of the Offer are based on management estimates and have not been independently appraised. Our management will have broad discretion over the use of the Net Proceeds.” on page 53.

#### Details of the Objects of the Fresh Issue

##### 1. *Augmentation of our Company’s Tier-I capital base to meet our Company’s future capital requirements including onward lending*

We are an NBFC in India and are registered with the RBI under Section 45 IA of the Reserve Bank of India Act, 1934. Our diversified product portfolio serves multiple credit needs of customers across three business verticals: (i) Enterprise Lending; (ii) Asset Finance; and (iii) Consumer Finance. We also offer business process outsourcing (“BPO”) services such as back-office support services, collection and sales support services to our Promoter as well as fee-based products such as distribution of insurance products primarily to our lending customers. For details, see “Our Business” beginning on page 233. As an NBFC, we are subject to regulations relating to the capital adequacy, which determine the minimum amount of capital we must hold as a percentage of the risk-weighted assets on our portfolio and of the risk adjusted value of off-balance sheet items, as applicable. For further details, see “Key Regulations and Policies” beginning on page 264.

Notes:

- As per the capital adequacy norms issued by the RBI, we are required to have a regulatory minimum Capital to Risk Weighted Assets Ratio (“CRAR”) of 15% consisting of Tier I and Tier II Capital. Additionally, we are required to maintain a Tier I Capital of 10% at all times. For further details, see “Key Regulations and Policies” on page 264. Our Company proposes to utilise the Net Proceeds towards augmenting its capital base to meet future capital requirements, which are expected to arise out of growth of our business and assets, including but not limited to, onward lending under our Company’s lending verticals.
- The computations of Tier I Capital (as defined in the NBFC Scale Based Regulations) and Tier II Capital (as defined in the NBFC Scale Based Regulations) in the above table conform to guidelines in the NBFC Scale Based Regulations, as updated from time to time.

As of September 30, 2024, our Company’s CRAR was 19.30%, of which Tier – I capital was 14.64%. The following table sets forth certain details regarding the Company’s CRAR and tier I and tier II capital ratios based on audited standalone financial statements, as of the dates indicated:

Notes:

(1) Net worth means sum of equity share capital and other equity as of the last day of relevant fiscal less deferred tax assets.

As we continue to grow our loan portfolio and asset base, we will require additional capital in order to continue to meet applicable capital adequacy ratios with respect to our business. The Net Proceeds will be utilised to increase our Company's Tier – I capital base to meet our future business requirements which are expected to arise out of growth of our business and assets, including but not limited to, onward lending under our Company's lending verticals, and to ensure compliance with regulatory requirements on capital adequacy prescribed by the RBI from time to time. We anticipate that the Net Proceeds will be sufficient to satisfy our Company's Tier – I capital requirements for Financial Year 2026.

While our Company's Tier – I capital base as at September 30, 2024, March 31, 2024, March 31, 2023 and March 31, 2022 exceeds the regulatory thresholds prescribed by the RBI, we believe that in order to maintain our Company's growth rate, we will require further capital in the future in order to remain compliant with such regulatory thresholds.

Until such time as our Company is not able to achieve the extent of business / risk weighted assets for Tier-I and Tier-II capital and/or payment of operating expenditure, repayment and/or prepayment of outstanding liabilities and interest thereon as part of our business activities, capital expenditure towards technology and other general corporate purposes, the Net Proceeds will be temporarily invested in accordance with the SEBI ICDR Regulations.

We typically use our Tier – I capital towards our Company's business and growth, including onward lending, payment of operating expenditure, repayment and/or prepayment of outstanding liabilities and interest thereon as part of our business activities, capital expenditure towards technology and other general corporate purposes.

The Net Proceeds are expected to lead to an improvement in the overall capital position of our Company, which in turn will help reducing the overall leverage of our Company. We, accordingly, propose to utilize an amount aggregating to ₹[●] million out of the Net Proceeds towards maintaining higher Tier-I Capital in light of our onward lending requirements.

## Offer Expenses

The total expenses of the Offer are estimated to be approximately ₹[●] million.

Other than (i) the listing fees and audit fees of Statutory Auditors (to the extent not attributable to the Offer), and expenses in relation to product or corporate advertisements (other than the expenses relating to marketing and advertisements undertaken in connection with the Offer), which will be borne solely by our Company, and (ii) fees for counsel to the Promoter Selling Shareholder, if any, which shall be solely borne by the Promoter Selling Shareholder, our Company and the Promoter Selling Shareholder agree to share the costs and expenses directly attributable to the Offer, on a *pro rata* basis, in proportion to the number of Equity Shares issued and Allotted by the Company through the Fresh Issue and sold by the Promoter Selling Shareholder through the Offer for Sale, upon listing of the Equity Shares on the Stock Exchange(s) pursuant to the Offer in accordance with Applicable Law, including section 28(3) of the Companies Act. All the expenses relating to the Offer shall be paid by the Company in the first instance and upon commencement of listing and trading of the Equity Shares on the Stock Exchanges pursuant to the Offer, the Promoter Selling Shareholder agrees that it shall reimburse the Company for any expenses in relation to the Offer paid by our Company on behalf of the Promoter Selling Shareholder.

The estimated Offer related expenses are as under:

SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023.

(5) This includes fees payable to our Joint Statutory Auditors, practicing company secretary and the independent chartered accountant appointed for providing confirmations and certificates for the purpose of the Offer, CRISIL, for preparing the industry report commissioned by our Company, the virtual data room provider in connection with due diligence for the Offer, etc.

## Means of finance

The fund requirements set out for the aforesaid objects of the Offer are proposed to be met entirely from the Net Proceeds. Accordingly, our Company confirms that there is no requirement to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Fresh Issue and existing identifiable accruals as required under the SEBI ICDR Regulations. In case of a shortfall in the Net Proceeds or any increase in the actual utilization of funds earmarked for the aforesaid objects, our Company may explore a range of options including utilizing our internal accruals and/ or seeking additional debt from existing and/ or other lenders.

## Interim use of Net Proceeds

The Net Proceeds shall be retained in the Public Offer Account until receipt of the listing and trading approvals from the Stock Exchanges by our Company. Our Company, in accordance with the policies established by the Board from time to time, will have the flexibility to deploy the Net Proceeds. Pending utilization of the Net Proceeds for the purposes described above, our Company will deposit the Net Proceeds only with one or more scheduled commercial banks included in the second schedule of the RBI Act as may be approved by our Board or Strategic Transaction Committee.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in the equity shares of any other listed company or for any investment in equity markets.

### **Bridge Financing Facilities**

Our Company has not raised any bridge loans from any bank or financial institution as on the date of this Draft Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds.

### **Monitoring of Utilization of Funds**

In accordance with Regulation 41 of the SEBI ICDR Regulations, our Company shall appoint a Monitoring Agency for monitoring the utilisation of Gross Proceeds prior to the filing of the Red Herring Prospectus with the RoC, as the proposed Fresh Issue exceeds ₹1,000.00 million.

Our Audit Committee and the Monitoring Agency will monitor the utilisation of the Gross Proceeds and the Monitoring Agency shall submit the report required under Regulation 41(2) of the SEBI ICDR Regulations, on a quarterly basis, until such time as the Gross Proceeds have been utilised in full. Our Company shall for the purposes of the quarterly report to be prepared by the Monitoring Agency, provide description for all the expense heads under the objects of the Offer. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay. Our Company will disclose and continue to disclose, the utilisation of the Gross Proceeds, including interim use under a separate head in our balance sheet for such Fiscal periods as required under the SEBI ICDR Regulations, the SEBI Listing Regulations and any other applicable laws or regulations, clearly specifying the purposes for which the Gross Proceeds have been utilised, till the time any part of the Gross Proceeds remains unutilised. Our Company will also, in its balance sheet for the applicable Fiscal periods, provide details, if any, in relation to all such Gross Proceeds that have not been utilised, if any, of such currently unutilised Net Proceeds. Further, our Company, on a quarterly basis, shall include the deployment of Gross Proceeds under various heads, as applicable, in the notes to our quarterly results. Our Company will indicate investments, if any, of unutilised Gross Proceeds in the balance sheet of our Company for the relevant Fiscal periods subsequent to receipt of listing and trading approvals from the Stock Exchanges.

Pursuant to Regulation 18(3), Regulation 32(3) and Part C of Schedule II, of the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Gross Proceeds. The Audit Committee shall make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilised for purposes other than those stated in this Draft Red Herring Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Gross Proceeds remain unutilised. Such disclosure shall be made only until such time that all the Net Proceeds have been utilised in full. The statement shall be certified by the joint statutory auditors of our Company. Furthermore, in accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Fresh Issue from the objects of the Fresh Issue as stated above; and (ii) details of category wise variations in the actual utilisation of the proceeds of the Fresh Issue from the objects of the Fresh Issue as stated above. This information will also be published in newspapers simultaneously with the interim or annual financial results and explanation for such variation (if any) will be included in our Director's report, after placing the same before the Audit Committee.

### **Variation in Objects**

In accordance with Sections 13(8) and 27 of the Companies Act and applicable rules, and the SEBI ICDR Regulations, our Company shall not vary the objects of the Fresh Issue without our Company being authorised to do so by the Shareholders by way of a special resolution. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details as required under the Companies Act and applicable rules. In addition, the notice shall simultaneously be published in the newspapers, one in English, one in Hindi and one in Gujarati, the vernacular language of the jurisdiction where our Registered Office is situated, in accordance with the Companies Act and applicable rules. Further, the dissenting Shareholders shall be provided an exit opportunity at a price and in such manner as prescribed under Regulation 59 and Schedule XX of the SEBI ICDR Regulations.

### **Appraising entity**

None of the objects of the Offer for which the Net Proceeds will be utilised have been appraised by any bank/ financial institution or agency.

**Other Confirmations**

No part of the Net Proceeds will be paid by us as consideration to our Promoter, the members of the Promoter Group, Group Companies, the Directors, Key Managerial Personnel or Senior Management Personnel except in the normal course of business and in compliance with applicable law.

Our Company has not entered into and is not planning to enter into any arrangement/ agreements with our Promoter, Promoter Group, Directors, Key Managerial Personnel and Senior Management Personnel in relation to the utilisation of the Net Proceeds. Further there is no existing or anticipated interest of such individuals and entities in the objects of the Fresh Issue, as set out above.

## BASIS FOR OFFER PRICE

The Price Band and the Offer Price will be determined by our Company in consultation with the Book Running Lead Managers on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹10 each and the Offer Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band.

Investors should refer to “Risk Factors”, “Our Business”, “Restated Consolidated Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 28, 233, 325 and 387, respectively, to have an informed view before making an investment decision.

### Qualitative Factors

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are as follows:

- Highly granular retail loan book, bolstered by a large and rapidly growing customer base with a focus on serving the underbanked customer segments.
- Large, diversified and seasoned product portfolio with a sustainable track record of diversification, growth and profitability through the cycles.
- Tailored sourcing supported by an omni-channel and digitally powered pan-India distribution network.
- Comprehensive systems and processes contributing to robust credit underwriting and strong collections.
- Advanced technology tools driving enhanced customer experience and efficiency across each stage of the customer lifecycle
- High-quality liability franchise with access to lowest cost, diversified borrowing sources and the highest credit rating
- Track record of robust financial performance with sustainable and profitable growth.
- Stable, highly experienced and professional management team supported by a talented workforce.
- Distinguished parentage of HDFC Bank, India’s largest private bank, enjoying strong trust and brand equity with consumers.

For details, see “Our Business – Our Strengths” on page 237.

### Quantitative Factors

Some of the information presented below relating to our Company is derived from the Restated Consolidated Financial Information. For details, see “Restated Consolidated Financial Information” and “Other Financial Information” beginning on pages 325 and 386, respectively.

Some of the quantitative factors which may form the basis for computing the Offer Price are as follows:

#### A. Restated Basic and Diluted Earnings Per Equity Share (“EPS”)<sup>(1)</sup> (face value of each Equity Share is ₹10):

\*Not annualised

Notes:

(1) Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each year/Total of weights.

(2) The face value of each Equity Share is ₹ 10.

(3) Basic EPS (₹) = Basic earnings per share are calculated by dividing the net restated profit or loss for the year/ period attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year/ period.

(4) Diluted EPS (₹) = Diluted earnings per share are calculated by dividing the net restated profit or loss for the year/ period attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year/ period as adjusted for the effects of all dilutive potential Equity Shares outstanding during the year/ period.

(5) Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year/ period adjusted by the number of Equity Shares issued during the year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year/ period.

(6) Earnings per Share calculations are in accordance with the notified Indian Accounting Standard 33 ‘Earnings per share’.

#### B. Price/Earning (“P/E”) ratio in relation to Price Band of ₹[●] to ₹[●] per Equity Share:

| Particulars                                                      | P/E at the Floor Price<br>(number of times) | P/E at the Cap Price<br>(number of times) |
|------------------------------------------------------------------|---------------------------------------------|-------------------------------------------|
| Based on basic EPS for the financial year ended March 31, 2024   | [●]*                                        | [●]*                                      |
| Based on diluted EPS for the financial year ended March 31, 2024 | [●]*                                        | [●]*                                      |

\* To be computed after finalisation of the Price Band.

### C. Industry Peer Group P/E ratio

|         | P/E Ratio (x) |
|---------|---------------|
| Highest | 36.2          |
| Lowest  | 15.5          |
| Average | 44.0          |

Notes:

- (1) The industry high and low has been considered from the industry peers set out in Part G of this chapter. The industry composite has been calculated as the arithmetic average P/E of the industry peer set disclosed.
- (2) P/E Ratio has been computed based on the closing market price of equity shares on NSE on October 29, 2024 divided by the diluted earnings per share.
- (3) All the financial information for listed industry peers mentioned above is on a consolidated basis and is sourced from the audited financial statements of the relevant companies for Fiscal 2024, as available on the websites of the stock exchanges.

### Re: Proposed initial public offering of HDB Financial Services Limited – Report on Statement of Special Tax Benefits to Issuer and its Shareholders

We, G D Apte & Co, Chartered Accountants (Firm Registration Number: 100515W) and Kalyaniwalla & Mistry LLP, Chartered Accountants (Firm Registration Number: 104607W/W100166) are the current joint statutory auditors (the “**Statutory Auditors**”) of HDB Financial Services Limited (the “**Company**”) The Company, along with its controlled structured entity, is hereinafter referred as the “**HDB Group**”.

This report is being issued at the request of the Company in accordance with terms of our engagement letter dated September 7, 2024 (the “**Engagement Letter**”) in connection with the proposed initial public offering of the equity shares of the Company (the “**Equity Shares**”, and such offering, the “**Offer**”).

We have been informed that the Company proposes to file the draft red herring prospectus (the “**DRHP**”) prepared by it in accordance with the provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the “**SEBI ICDR Regulations**”) with the Securities and Exchange Board of India (the “**SEBI**”) and the stock exchange(s) where the Equity Shares are proposed to be listed (the “**Stock Exchanges**”), and proposes to file the red herring prospectus (the “**RHP**”) and the prospectus (the “**Prospectus**”) with the Registrar of Companies, Gujarat at Ahmedabad (the “**RoC**”) and thereafter file those with the SEBI and the Stock Exchanges and also prepare certain other materials or documents in relation to the Offer (collectively, the “**Offer Documents**”).

In connection with the Offer and preparation of the Offer Documents, we have been requested by the Company to verify and confirm the details of the various special tax benefits available to the Company and their respective shareholders.

The preparation of the accompanying statement of the possible special tax benefits available to the Company and its shareholders under direct and indirect tax laws (the “**Statement**”) as enclosed in **Annexure I** is the responsibility of the management of the Company (“**Management**”). This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and presentation of the Statements, and applying an appropriate basis of preparation.

The Management is also responsible for ensuring compliance with the SEBI ICDR Regulations and all applicable laws and regulations and also ensuring that the Company provides complete and accurate information.

We have conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) (the “**Guidance Note**”) issued by the ICAI. The Guidance Note requires that we comply with ethical requirements of the Code of Ethics issued by the ICAI.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial information, and Other Assurance and Related Services Engagements, issued by the ICAI.

Based on our examination as stated in the paragraph on Auditors’ Responsibility above, and the information and explanations given to us and representations made by the Management, we hereby confirm that the enclosed **Annexure I** provides a statement of the possible special tax benefits available to the Company and its shareholders under direct and indirect tax laws, including the Income Tax Act, 1961, as amended by the Finance Act 2024, i.e., applicable for the financial year 2024-2025, relevant to the assessment year 2025-2026, the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act,

2017, each read with the relevant rules, circulars, and notifications issued thereunder and each as amended (collectively, the “**Tax Laws**”).

Several of these benefits are dependent on the Company and/or its shareholders, as the case may be, fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and/or its shareholders to derive the possible special tax benefits is dependent upon their fulfilling such conditions, if any, which based on business imperatives the Company and/or its shareholders face in the future, the Company and / or its shareholders may or may not choose to fulfil.

The statement of possible special tax benefits available to the Company and its shareholders is required as per Schedule VI (Part A) (9)(L) of the SEBI ICDR Regulations. While the term ‘special tax benefits’ has not been defined under the SEBI ICDR Regulations, it is assumed that with respect to special tax benefits available to the Company and/or its shareholders, the same would include those benefits as enumerated in the Statement. The benefits discussed in the enclosed Statement cover only the possible special tax benefits available to the Company and its shareholders and do not cover any general tax benefits (under both direct and indirect tax laws) available to them. The benefits discussed in the enclosed Statement are not exhaustive. Any benefits under the Tax Laws other than those specified in the Statement are considered to be general tax benefits and therefore not covered within the ambit of the Statement.

In respect of non-residents, the tax rates and the consequent taxation shall be further subject to any benefits available under the applicable double taxation avoidance agreement, if any, between India and the country in which the non-resident has fiscal domicile.

The Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Offer.

We are unable to express any opinion or provide any assurance as to whether:

- (i) The Company or its shareholders will continue to obtain the benefits per **Annexure I** in future;
- (ii) The conditions prescribed for availing the benefits per **Annexure I** have been/would be met with; or
- (iii) The revenue authorities/courts will concur with the views expressed therein.

The contents of the enclosed Statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Our views expressed herein are based on the facts and assumptions indicated to us. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of the Tax Laws and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes

We undertake to immediately communicate, in writing, any changes to the above confirmations, as and when: (i) made available to us; or (ii) we become aware of any such changes to the Company, the book running lead managers appointed in relation to the Offer (“**Lead Managers**”) and the legal advisors to each of the Company and the Lead Managers, until the date when the Equity Shares commence trading on the Stock Exchanges (the “**Listing Date**”). In the absence of any such communication from us, the Company, the Lead Managers and the legal advisors to each of the Company and the Lead Managers can assume that there is no change to the above information until the Listing Date.

#### **Restriction on use**

This report is for the information relating to, and inclusion (in part or full) in, the Offer Documents, and may be relied upon by the Company, the Lead Managers and their respective affiliates and the legal advisors to each of the Company and the Lead Managers.

This report is addressed and provided to the board of directors of the Company and we hereby consent to the submission of this report as may be necessary for the purpose of the Offer to the Lead Managers, the SEBI, the RoC, the Stock Exchanges and any other regulatory authority and/or for the records to be maintained by the Lead Managers and in accordance with applicable law.

We also consent to this report being disclosed by the Lead Managers, if required (i) by reason of any law, regulation, order or request of a court or by any governmental or competent regulatory authority, or (ii) in seeking to establish a defence in connection with, or to avoid, any actual, potential or threatened legal, arbitral or regulatory proceeding or investigation.

Except for the purposes and parties as stated in the preceding paragraphs, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing, which consent will not be unreasonably withheld.

All capitalized terms used but not defined herein shall have the same meaning as is ascribed to them in the Offer Documents.

Yours faithfully,

## **ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO HDB FINANCIAL SERVICES LIMITED ('THE COMPANY') AND ITS SHAREHOLDERS**

### **UNDER THE INCOME-TAX ACT, 1961 ('Act')**

This statement sets out below the possible tax benefits available to the Company and its investors to whom shares may be allotted in terms of proposed issue under the current tax laws presently in force in India. Several of these benefits are dependent on fulfilling various conditions prescribed under the relevant tax laws. Accordingly, the ability of the Company and its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which are based on the business imperatives, the Company or the shareholders may or may not choose to fulfil.

This statement sets out below the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences/implications of the subscription, ownership and disposal of equity shares pursuant to the proposed Issue. This statement is only intended to provide general information to the investors and is neither exhaustive or comprehensive nor designed or intended to be a substitute for professional/legal tax advice. In view of the individual nature of tax consequences and the changing tax laws, each investor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the issue.

#### **Special Tax benefit available to the Company under the Act:**

- **Deduction of provision for bad and doubtful debts incurred by the Company.**

- 

Any bad debt or part thereof which has been written off as irrecoverable in the books of accounts is allowable as a deduction under section 36(1)(vii) of the Act in computing the "Profits and gains of business or profession", subject to the fulfilment of the conditions specified in section 36(2) of the Act. The Company should be entitled for such deduction under section 36(1)(vii) of the Act.

The Company being a non-banking finance company registered with the Reserve Bank of India ('RBI') is entitled to a deduction under section 36(1)(viia) of the Act in respect of provisions made for bad and doubtful debts in its books of account to the extent of 5% of its total income (computed before making any deduction under this section and Chapter VI-A of the Act), subject to certain conditions, while computing the total income under the head "Profit and gain of business of profession."

The subsequent claim of deduction of actual bad debts under section 36(1)(vii) of the Act should be reduced to the extent of deduction already allowed under section 36(1)(viia) of the Act.

Further, as per section 41(4) of the Act, where any deduction has been allowed to the Company in respect of a bad debt under Section 36(1)(vii) of the Act, then any amount subsequently recovered on any such debt is greater than the difference between such debt and the amount so allowed as a deduction under section 36(1)(vii) of the Act, the excess shall be deemed to be business income of the year in which it is recovered.

- **Special provision in case of income under section 43D of the Act:**

As per section 43D of the Act, the income by way of interest in relation to certain categories of bad and doubtful debts as prescribed in Rule 6EA, shall be chargeable to tax in the year in which it is credited to profit and loss account for that year or in which it is actually received, whichever is earlier. The Company is complying the provision of section 43D.

#### **General tax benefits available to the Company under the Act:**

- **Benefit of lower rate of tax under Section 115BAA of the Act**

Section 115BAA of the Act provides an option to a domestic company to pay corporate tax at a reduced rate of 22% (plus applicable surcharge and education cess) for financial year 2019-20 and onwards, provided the total income of the company is computed without claiming certain specified deductions, and specified brought forward losses. Deduction for additional depreciation is not permitted and the provisions of section 115JB

regarding Minimum Alternate Tax ('MAT') are not applicable if the Company opts for the concessional income tax rate as prescribed under section 115BAA of the Act. Further, the Company will not be entitled to claim tax credit relating to MAT paid in earlier years.

The option needs to be exercised on or before the due date of filing the income tax return. Option once exercised, cannot be subsequently withdrawn for the same or any other subsequent assessment year. Further, if the conditions mentioned in section 115BAA are not satisfied in any financial year, the option exercised shall become invalid for assessment year in respect of such financial year and subsequent assessment years, and the other provisions of the Act shall apply as if the option under section 115BAA had not been exercised.

The Company has opted to apply section 115BAA of the Act and pays tax as per rates prescribed under section 115BAA of the Act.

▪ **Section 80JJAA – Deduction of additional employee cost**

The Company is entitled to claim a deduction (of an amount equal to 30%) of additional employee cost incurred in the course of business in the previous year, for three assessment years including the assessment year relevant to the previous year in which such employment is provided (under section 80JJAA of the Act), subject to the fulfilment of prescribed conditions therein.

▪ **Income Computation Disclosure Standard ('ICDS')**

The Company is maintaining its books of account as per IND AS and follows ICDS for computing total income for income-tax purpose. The Company will have to make ICDS adjustments to arrive at taxable total income.

**Tax benefits/implications to Shareholder/ Investors of the Company**

▪ **Resident shareholder**

- Dividend income earned by the shareholders is taxable in their hands at the applicable rates in accordance with the provisions of the Act. A domestic company receiving dividend is eligible to claim deduction under section 80M of the Act on fulfilling certain conditions. (The Company paying dividend will withhold tax at applicable rates on payment of dividend to shareholders.)
- Where shares are held as capital assets for more than 12 months immediately preceding its date of transfer, then as per Section 112A of the Act, long-term capital gains arising from transfer of an equity share through the recognized stock exchange, should be taxed at 12.5% (plus applicable surcharge and cess), without indexation and foreign exchange fluctuation benefit, subject to fulfillment of prescribed conditions under the Act. Tax shall be levied on capital gains exceeding INR 1,25,000. Further, any capital gain realized on sale of shares held for more than 12 months, which are sold without payment of STT, will also be subject to tax at 12.5% (plus applicable surcharge and cess) without indexation benefit.

### MACROECONOMIC SCENARIO IN INDIA

#### **Global economy is witnessing unwinding of tight monetary conditions**

As per the International Monetary Fund (the “**IMF**”) (World Economic Outlook – July 2024 update), global GDP growth prospects for calendar year (“**CY**”) 2024 and CY 2025 will hold steady at 3.2% and 3.3%, respectively. Major global economies showed resilience in the second quarter of 2024, despite a slight moderation experienced in some. The US and Japan performed better in the first quarter of 2024, while the UK and China saw growth moderation. The Euro area, meanwhile, held steady. The Bank of Japan turned hawkish and raised interest rates once again, while the weak US payroll data in July 2024 sparked fears of a rapidly cooling labour market and an imminent recession, resulting to a rate cut of 50 basis points in September 2024 by the Federal Reserve. The combination of these developments led to an unwinding of the global Yen carry trade and a rush of outflows from emerging markets to safe-haven assets with most emerging market currencies (and some developed market ones) seeing depreciation. Heightened geopolitical tensions in the Middle East also added to the global volatility. While inflation has slowed down, the pace of inflation decline has decreased in CY 2024 on account of sticky inflation. As per IMF (World Economic Outlook – July 2024 update), global headline inflation is expected to be around 5.9% in CY 2024 and 4.5% in CY 2025.

#### **India expected to remain one of the fastest growing economies in the world**

The Indian economy was amongst the fastest-growing in the world prior to onset of the COVID-19 pandemic. In the years leading up to the global health crisis which disrupted economic activities, the country’s economic indicators posted gradual improvements owing to strong local consumption and lower reliance on global demand. Despite global geopolitical instability, India continues to maintain its position as one of the fastest-growing economies globally. In May 2024, the National Statistical Office (NSO) in its provisional estimate of national income estimated the real GDP to have grown at 8.2% year-on-year in Fiscal 2024, while in Q4 of Fiscal 2024, growth was at 7.8%, which is much stronger than the estimated forecasts of 5.9%. Going forward, CRISIL MI&A expects a moderation in GDP growth rate to 6.8% in Fiscal 2025, largely due to various factors like Government’s focus on fiscal consolidation, high interest rates and low fiscal impulse, which is likely to lead to moderation in investments, which is a key factor for economic growth.

## Indian economy expected to grow at 6.8% in Fiscal 2025

Note: E = Estimated, P = Projected; GDP growth till Fiscal 2023 is actuals. GDP Estimates for fiscals 2023- 2024 is based on NSO Estimates and 2024-2025 is projected based on CRISIL MI&A estimates and that for fiscals 2025-2029 based on IMF estimates; Source: NSO, CRISIL MI&A, IMF (World Economic Outlook – April 2024 update)

Over the past three fiscals (Fiscals 2022 to 2024), the Indian economy has outperformed its global counterparts by witnessing a faster growth. In the IMF’s July 2024 update, it raised the GDP growth forecast for India highlighting India’s improved prospect for private consumption particularly in rural areas. Going forward as well, IMF projects that Indian economy will remain strong and would continue to be one of the fastest growing economies.

## Indian economy to be a major part of the world trade

Along with being one of the fastest growing economies in the world, India ranked fifth in the world in terms of nominal GDP according to IMF forecasts (World Economic Outlook – October 2024 Update). India overtook the United Kingdom to become the fifth-largest economy in the world in CY 2022. In terms of purchasing power parity (“PPP”), India is the third-largest economy in the world, after China and the United States. According to United Nations Conference on Trade and Development, global trade improved in between January and March 2024. Notably, India was a key driver, along with the United States and China. The World Trade Organisation expects the volume of global goods trade to have grown 2.6% on-year in 2024 from -1.2% in 2023. With reviving global trade, exports of goods and services in India saw a significant increase in the first quarter of Fiscal 2025 (average growth of 7.8% compared to 4.8% the previous quarter). However, imports in India also rose sharply (average increase of 7.5% compared to 1.9% the previous period). Hence, net exports dragged GDP growth in the first quarter of Fiscal 2025.

## Repo rate remains unchanged, with phase of aggressive rate hikes behind us

Since the beginning of the current Fiscal year, the repo rates have so far remained unchanged by the RBI. The RBI’s MPC in its August 2024 meeting voted to keep the repo rates unchanged. The repo rates have increased by 250 basis points from Q4 of Fiscal 2022 to Q4 of Fiscal 2024 and remained at 6.50% in Q2 of Fiscal 2025, with standing deposit facility (SDF) at 6.25% and marginal standing facility (MSF) at 6.75%. SBI MCLR has increased by 145 basis points from Q4 of Fiscal 2022 to Q1 of Fiscal 2025. MPC maintained status quo on the “withdrawal of accommodation” stance.

### Consumer Price Index (“CPI”) inflation to average at 4.5% in Fiscal 2025

Consumer price index (CPI) inflation, after remaining steady at 4.8% during April and May 2024, increased to 5.1% in June 2024. Core (CPI excluding food and fuel) inflation, touched a new low at 3.1% during May and June 2024 and fuel inflation also deflated to 3.7% in June 2024 from 3.8% in May 2024, reflecting the cumulative impact of the sharp cut in LPG price in August 2023 and March 2024. CRISIL MI&A expects CPI inflation to continue to soften in Fiscal 2025 to 4.5% from 5.4% in Fiscal 2024, mainly led by softer food inflation and a mild uptick in non-food inflation.

## Macroeconomic outlook for India (Fiscal 2025)

| Macro variables                                | Fiscal 2024 | Fiscal 2025 | Rationale for outlook                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------------------|-------------|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Real GDP (y-o-y)                               | 8.2%#       | 6.8%        | Slowing global growth is likely to weaken India's exports, while peak impact of past rate hikes and lower fiscal impulse could temper domestic demand. Despite the lower forecast in Fiscal 2025P as compared to Fiscal 2024, India continues to grow at the highest rate among major economies propelled by budgetary support to capital expenditure and strong rural demand to support growth. |
| Consumer Price Index (CPI) inflation (y-o-y)   | 5.4%        | 4.5%        | Lower commodity prices, base effect, and cooling off domestic demand is likely to help in moderating inflation in Fiscal 2025. With IMD prediction of above normal monsoon, food inflation is expected to soften. But if crude oil prices surge and stay elevated on account of geopolitical reasons, inflation can increase going forward.                                                      |
| 10-year Government security yield (Fiscal end) | 7.1%        | 6.8%        | CRISIL MI&A expect the yield to decrease in Fiscal 2025 driven by rate cuts and fiscal consolidation. This, coupled with lower inflation, is likely to moderate yields in Fiscal 2025. India's inclusion in the JP Morgan Emerging Market Bond Index is favourable for capital flows into government debt.                                                                                       |
| Fiscal Deficit (% of GDP) *                    | 5.6%        | 5.1%        | Persistent efforts in fiscal consolidation aided by moderation in revenue spend and robust tax collections to bring down the deficit that will lead to lower government market borrowings.                                                                                                                                                                                                       |
| CAD (Current Account Deficit as % of GDP)      | -0.7%       | -1.0%       | Softer crude oil prices and moderation in domestic growth will keep the trade deficit in check despite tepid exports of goods. Alongside, robust services trade surplus and healthy remittances will keep the current account deficit (CAD) in check.                                                                                                                                            |
| ₹/\$ (March average)                           | 83.0        | 84.0        | Narrower CAD and healthy foreign portfolio flows into debt amid a favourable domestic macro environment will support the rupee.                                                                                                                                                                                                                                                                  |

## Positive government measures to aid economic growth for India

- The Union Budget of 2024-2025 announced a 17.1% rise in capital expenditure in Fiscal 2025 at ₹11.1 lakh crore from ₹9.5 lakh crore in Fiscal 2024, with infrastructure sectors continuing to get the highest allocation (24.5% of total budgetary capex). In a year where the Indian economy is expected to see a cyclical slowdown owing to global slowdown and impact of interest rates and tightening financial conditions on domestic demand, higher capex would support growth in the economy.
- MSMEs have received special focus, with initiatives such as the new credit guarantee scheme, offering coverage of up to ₹100 crore per applicant and increases in the limit for the Tarun category under Mudra loans from ₹10 lakhs to ₹20 lakhs. The Credit Guarantee Fund Scheme for Micro and Small Enterprises (CGMSE) was launched to make available collateral-free credit to the micro and small enterprise sector. Both the existing and the new enterprises are eligible to be covered under the scheme. The Ministry of Micro, Small and Medium Enterprises and Small Industries Development Bank of India (SIDBI), established a Trust named Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) to implement the Credit Guarantee Fund Scheme for MSMEs. Moreover, Public Banks have taken steps to develop an in-house technology-based underwriting model to assess MSMEs, which will improve credit facilities for these enterprises.
- Budgetary support towards rural areas through higher allocation under PM Awas Yojana (up 70.3% year-on-year) and PM Gram Sadak Yojana (up 11.8% year-on-year), aggregate allocation on major rural schemes like Pradhan Mantri Kisan Samman Nidhi, Mahatma Gandhi National Rural Employment Guarantee Act (MNREGA), PM Gram Sadak Yojana, PM Awas Yojana- Rural to ₹2.2 lakh crore, a 12.6% year-on-year increase will support rural employment, income and consumption.

## **Key structural reforms: Long-term positives for the Indian economy**

- The GST regime has been stabilizing fast and is expected to bring more transparency and formalisation, eventually leading to higher economic growth. The number of GST returns filed saw a jump of around 38% from Fiscal 2019 (approximately 169 million returns) to Fiscal 2023 (approximately 232 million returns).
- The government has also launched the Jan Dhan-Aadhaar-Mobile (JAM) trinity which aims to link Jan Dhan accounts, mobile numbers and Aadhar cards of all Indian nationals to transfer cash benefits directly to the bank account of the intended beneficiary and avoid leakage of government subsidies.
- The government introduced the Emergency Credit Line Guarantee Scheme (ECLGS) in May 2020, as a part of the government's COVID-19 financial relief package. Under this scheme, financial institutions provide emergency credit facilities to MSMEs that have suffered due to the pandemic. The scheme aimed at aiding MSMEs to meet their working capital and operational expenditure needs. Banks and NBFCs are directed to offer up to 20% of entire outstanding credit to MSMEs. ECLGS provided for collateral free loans to existing eligible borrowers with 100% guarantee in respect of the eligible amount as per the Scheme guidelines. As per the State Bank of India's research report in January 2023 on ECLGS, almost 1.46 million MSME accounts, of which about 93.8% of the accounts were in MSE categories, were saved.
- Government launched the Digital India program, on 1st July 2015 with the vision of transforming India into a digitally empowered society and a knowledge-based economy, by ensuring digital access, digital inclusion, digital empowerment and bridging the digital divide. Some of the key initiatives and related progress under Digital India are as follows-
  - Unified Payment Interface (UPI) is the leading digital payment mechanism. It has more than 600 live members and has facilitated more than 131.1 billion transactions (by volume) worth ₹199.9 trillion in Fiscal 2024.
  - Unified Mobile Application for New-age Governance (UMANG) - for providing government services to citizens through mobile. More than 1,984 e-Services as of March 2024 and over 4 billion transactions have taken place on UMANG as of March 2024.
  - Cyber Security: The Government has taken necessary measures to tackle challenges about data privacy and data security through introducing the Information Technology (IT) Act, 2000 which has necessary provisions for data privacy and data security.
  - Common Services Centers - CSCs are offering government and business services in digital mode in rural areas through Village Level Entrepreneurs (VLEs). Over 400 digital services are being offered by these CSCs. As of March 2024, 0.58 million CSCs are functional (including urban & rural areas) across the country, out of which, 0.47 million CSCs are functional at Gram Panchayat level.

Overall, these initiatives will improve the digital connectivity of Indians along with boosting business sentiment, thereby creating new opportunities.

## **India's Long Term Structural Growth Drivers**

### **India has the world's largest population**

As per Census 2011, India's population was around 1.3 billion and comprised nearly 187 million households. The population, which grew at nearly 1.5% CAGR between 2001 and 2011, is expected by CRISIL MI&A to have increased at 1.1% CAGR between 2011 and 2021 and reached 1.4 billion. The population is expected to reach 1.5 billion by 2031 at 1.0% CAGR between 2011 and 2031, and the number of households are expected to reach around 385 million over the same period at 3.7% CAGR between 2011 and 2031.

## India's population growth trajectory and number of households

Note: As at the end of each Fiscal. P: Projected, Source: United Nations Department of Economic and Social Affairs, (<https://population.un.org/wpp/>), Census India, CRISIL MI&A

## Favorable demographics

India has one of the world's largest youth populations, with a median age of 28 years. About 90% of Indians are below 60 years of age. In 2022, it is estimated that India had the highest share of young working population (15-30 years) compared to major developed and developing countries with the share of 27%. CRISIL MI&A expects that the large share of working population, coupled with rapid urbanisation and rising affluence, will propel growth in the economy.

## Rising Urbanisation

Urbanisation is one of India's most important economic growth drivers. It is expected to drive substantial investments in infrastructure development, which in turn is expected to create jobs, develop modern consumer services, and increase the ability to mobilise savings. India's urban population has been rising consistently over the decades. As per the 2018 revision of World Urbanization Prospects, the urban population was estimated at 36% of India's total population in 2022. According to the World Urbanization Prospects, the percentage of the population residing in urban areas in India is expected to increase to 40.1% by 2030.

## Increasing per capita GDP

India's per capita net national income at constant price expanded 7.4% in Fiscal 2024, reflecting robust economic growth and the government's continued endeavour to make the country an upper middle-income economy. As per IMF estimates, India's per capita income (at constant prices) is expected to grow at 5-6% CAGR in real terms from Fiscal 2025 to Fiscal 2027.

#### Rising Middle India population to help sustain economic growth

The proportion of “Middle India” (defined as households with annual income of ₹0.2-1.0 million) has been on the rise over the past decade and is expected to continue increasing with rising GDP and household incomes. CRISIL MI&A estimates there were 41 million middle-income households in India in Fiscal 2012 and expects it to increase to 181 million households by Fiscal 2030. A large number of households that have entered the middle-income bracket in the past few years are likely to be from semi-urban and rural areas. CRISIL MI&A believes that improvement in literacy levels, increasing access to information and awareness, increase in the availability of necessities and improvement in road infrastructure have increased the aspirations of Middle India, which is likely to translate into increased demand for financial products and financial services providers.

### Middle India households to witness high growth over fiscals 2012-2030 (in millions)

Note: E: Estimated, P: Projected; Source: CRISIL MI&A

### Credit penetration is lower in India compared to other countries

In terms of the credit to GDP ratio, India has a low credit penetration compared with other developing countries, such as China, indicating the potential that can be tapped. Similarly, in terms of credit to households as a proportion of GDP, India lags other markets, with retail credit hovering at around 26% of GDP as of Fiscal 2023. As per World Bank, private retail bureau coverage is 63% of total adults in India as of 2019.

### Rural and semi-urban India: Under penetration and untapped market presents a huge opportunity for growth of financiers

Bank credit to metropolitan areas has decreased over the past few years with its share decreasing from 66% as of March 31, 2019, to 61% as of March 31, 2024. Between the same period, credit share has witnessed a marginal rise in rural (7% as of Fiscal 2019 to 8% as of Fiscal 2024) and semi-urban areas (12% as of Fiscal 2019 to 14% as of Fiscal 2024). As of March 31, 2024, rural areas, which is estimated to account for 47% of GDP, received just 9% of the overall banking credit, which shows the vast market opportunity for banks and NBFCs to lend in these areas. With increasing focus of government towards financial inclusion, rising financial awareness, increasing smartphone and internet penetration, CRISIL MI&A expects delivery of credit services in rural area to increase. Further, usage of alternative data to underwrite customers is also expected to help banks and NBFCs to assess customers and cater to the informal sections of the society in these regions.

The contrast in per capita banking credit as of Fiscal 2024 is about ₹300,000 in urban areas versus about ₹14,000 in rural areas, indicating a vast untapped potential in rural regions. This gap presents an opportunity for financial institutions to expand and enhance financial inclusion in rural areas. ### Digitisation aided by technology to play pivotal role in growth of economy

Technology is expected to play an important role by progressively reducing the cost of reaching out to smaller markets. India has seen a tremendous rise in fintech adoption in the past few years. Among many initiatives by the government, the Unified Payments Interface (UPI) is playing a pivotal role towards financial inclusion. It

provides a single-click digital interface across all system for smartphones linked to bank accounts and facilitates easy transactions using a simple authentication method. The volume of digital transactions has also seen a surge in the past few years, driven by increased adoption of UPI. Apart from financial services industry, digitisation in other industries like retail will also play an important role in the growth of the economy.

### **Rise in 4G and 5G penetration and smartphone usage**

India had 1,165 million wireless subscribers at the end of Fiscal 2024. The reach of mobile network, internet and electricity is continuously expanding the subscriber footprint to remote areas leading to rising smartphone and internet penetration in India. In Fiscal 2023, 5G was launched which led to conversion of 25 million subscribers to 5G. This shift was facilitated by offering 5G services at the price of 4G data plans, coupled with a surge in data demand and the accessibility of affordable handsets. In Fiscal 2025, CRISIL MI&A expects 5G subscribers to reach 270-280 million since data consumption will increase due to high usage on OTT platforms, in education services, banking services, healthcare, and the gaming industry.

### **Digital payments have witnessed substantial growth**

Higher mobile penetration, improved connectivity, and faster and cheaper data supported by Aadhaar, and bank account penetration have led India to shift from being a cash-dominated economy to a digital one. Total digital payments in India have witnessed significant growth over the past few years. Between Fiscal 2021 and Fiscal 2024, the volume of digital payments transactions has increased from 43.7 billion to 164.4 billion, growing at a CAGR of approximately 56%. During the same period, the value of digital transactions has increased from ₹1,414.6 trillion in Fiscal 2021 to ₹2,428.2 trillion in Fiscal 2024. Consumers are increasingly finding transacting through mobile convenient. CRISIL MI&A expects the share of mobile banking to increase dramatically over the

coming years. In addition, CRISIL MI&A expects improved data connectivity, low digital payment penetration and proactive government measures to drive digitalisation in the country.

### **Financial inclusion is on a fast path in India**

According to the World Bank's Global Findex Database 2021, the global average percentage of adult population with an account opened with a bank, financial institution or mobile money provider, was approximately 78% in CY 2021. India's financial inclusion has improved significantly over CYs 2014 to 2021 as adult population with bank accounts increased from 53% to 78% (Source: Global Findex Database) due to the Indian government's efforts to promote financial inclusion and the proliferation of supporting institutions.

The two key initiatives launched by the Government to promote financial inclusion are the Pradhan Mantri Jan Dhan Yojana (PMJDY) and Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY). Under the PMJDY, the Government's aim is to ensure that every household in India has a bank account which they can access from anywhere and avail all financial services such as savings and deposit accounts, remittances, credit and insurance affordably. PMJJBY is a one-year life insurance scheme that offers a life cover of ₹0.2 million at a premium of ₹436 per annum per member, which can be renewed every year. The Government has also launched the Pradhan Mantri Suraksha Bima Yojana (PMSBY), an accident insurance policy that offers an accidental death and full

disability cover of ₹0.2 million at a premium of ₹20 annually. As per the Government, more than 100 million people have registered for these two social security schemes.

As of September 11, 2024, 535 million PMJDY accounts had been opened, of which around 67% were in rural and semi-urban areas, with total deposits of ₹2,319 billion. (Source: *Pradhan Mantri Jan-Dhan Yojana: Progress Report*)

### Under-penetration of the Indian banking sector provides opportunities for growth

The Indian banking sector is significantly under-penetrated as observed in the current bank credit-to-GDP ratio of 56% for India as of the fourth quarter of CY 2023. The number of commercial bank branches as well as ATMs in India per 100,000 people, contrast in comparison to other countries. This provides immense opportunities for banks and other financial institutions over the long term.

### Rural economy is becoming structurally far more resilient

According to Census 2011, there are about 640,000 villages in India, which are inhabited by about 893 million people. The rural economy is far more resilient today due to increased spends under PM-Kisan scheme, Mahatma Gandhi National Rural Employment Guarantee Act, 2005 and irrigation programmes. Additionally, schemes such as direct benefit transfer (“DBT”), PM Ujjwala Yojana for cooking gas, PM Awas Yojana for housing, and Ayushman Bharat scheme for healthcare are supporting growth in rural areas. To supplement this, there has been a continuous improvement in rural infrastructure, such as electricity and roads. These government initiatives have led to lesser leakages and higher incomes in the hands of the rural populace, thereby enhancing their ability and willingness to spend on discretionary products and services. The structural changes, combined with a positive macro environment, are expected to improve rural business prospects, provide business opportunities for the banking and financial services sector and drive the long-term growth of the economy.

### Rural sector supporting India growth story

India’s rural segment has been a key driver of the country’s consumption growth story in recent years. In the past decade, the rural segment in India has expanded at a rapid pace, driven by factors, such as rising disposable income, urbanisation, and the proliferation of e-commerce.

According to the Economic Survey (2023-2024), the government strategy has been that of an integrated and sustainable development of rural India. The government aims to fuel rural growth through decentralised planning, better access to credit, skilling of youth, enhanced livelihood opportunities, empowerment of women, social security net provision, basic housing, education, health and sanitation facilities, etc.

Additionally, e-commerce has been a significant contributor to the growth of rural areas. The e-commerce market in India has grown exponentially in recent years. This growth can be attributed to increased internet penetration, the proliferation of smartphones, and the convenience offered by online shopping.

The government has taken various steps to improve overall financial inclusion:

- **Direct-benefit transfer (DBT):** DBT has been instrumental in the acceleration of financial inclusion since it has helped eliminate human interface and leakages in the system, ensuring timely, accurate and quality services and fund transfers to the beneficiaries. This tool has helped in the disbursement of benefits to a wide population spread geographically through 312 government schemes, such as the Pradhan Mantri Matru Vandana Yojana (PMMVY) for women, Pradhan Mantri Ujjwala Yojana (PMUY), Krishi Unnati Yojana (KUY) or Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) for beneficiary bank accounts held by any gender. The total DBT was ₹5,566 billion in Fiscal 2024 (provisional figures) and Cumulative Total DBT was ₹35,410 billion as of March 2024.
- **Aadhaar:** It has played a critical role in promoting financial inclusion in India by enabling easy and efficient identification of individuals and reducing the need for physical documents. Aadhaar has been used for various initiatives, such as PMJDY, DBT, mobile wallets, and e-KYC, to improve financial access.
- **Mobile banking:** The government has promoted mobile banking to make financial services accessible to people who are unable to access physical bank branches. Mobile banking has increased financial inclusion in rural areas. Some of the mobile banking initiatives for financial inclusion are United Payments Interface (UPI), mobile wallets, Jan Dhan Yojana Mobile App, and business correspondent (BC) model.
- **Financial literacy programmes:** The government has launched various financial literacy programmes to educate people about the benefits of financial planning and management. These programmes aim to improve financial literacy among the marginalised sections of the society and empower them to make informed financial decisions. The government and financial institutions have launched various financial literacy programmes (National Centre for Financial Education, Swabhimaan, etc.) to improve financial literacy among the general public, especially in rural areas.
- **Kisan Credit Card (KCC):** The KCC scheme aims at providing adequate and timely credit support to farmers for their agricultural activities at various stages of farming. According to Ministry of Finance, Department of Financial Services, total number of operative KCC accounts stood at 73.6 million, with total outstanding amount of ₹8.86 lakh crores as of June 30, 2023.
- **National Pension Scheme (NPS):** Regulated by the Pension Fund Regulatory and Development Authority (PFRDA), NPS is mandatory for Central government employees and voluntary for corporates and all citizens (aged 18-65 years) with matching contributions by the employer. As of May 31 2024, National Pension System Trust reported assets under management (“AUM”) of ₹372 billion and a subscriber base of 56 million.
- **Priority-sector lending:** PSL is an important policy tool used by the RBI to promote financial inclusion in India. The PSL requirement mandates banks to allocate a specified percentage (40% in case of scheduled commercial banks and 75% for regional rural banks and small finance banks) of their lending portfolio to priority sectors, such as agriculture; MSMEs; education; housing; and other weaker sections of the society. Lending to such priority sectors not only increases the credit access to underserved sectors but also lead to higher economic growth and promotes inclusive development. It also encourages banks to develop innovative products and services specifically for priority sectors. As of Fiscal 2024, bank credit to PSL stood at ₹59.1 trillion (which is 45.1% of adjusted net bank credit), up from ₹50.2 trillion from Fiscal 2023. (provisional amounts from the RBI’s annual report).
  - Priority sector lending ensures credit flow to underserved segments of the population through banks. PSL also encourages bridging the gap between rural and urban credit and hence lower regional imbalances. PSL is also used by the government to ensure that credit is given to sectors which can help the country in the long term. PSL mandates banks to lend to MSMEs, which ultimately adds to the overall manufacturing output of the country.
- **Small Saving Schemes:** Sukanya Samridhi Yojana is a savings scheme designed by the government especially for female children. Parents of a female child can save for their education and marriage purposes through this investment scheme. The scheme was launched as a part of the Beti Bachao, Beti

Padhao campaign. As of December 2023, 3.2 crore accounts were active as part of the scheme. Mahila Samman Savings Certificate was launched as a part of Union Budget 2023-2024 through which women of any age could open an account with a minimum deposit of ₹1,000 and maximum deposit of ₹2,00,000 provided with a facility of partial withdrawal. The interest rate for the accounts was declared at 7.5% p.a., which will be compounded quarterly. Other small saving schemes available include Kisan Vikas Patra.

### Rural India accounts for 47% of GDP, but only 10% of deposits and 8% of credit

Rural India has a crucial role to play, as 65% of the population resides in rural areas, as per 2021 data from the Economic Survey (January 2023) and as per the Census data of 2011, there are over 6.4 lakh villages in India. As per CRISIL MI&A estimates, about 47% of India's GDP comes from rural areas; however, their share of bank penetration is abysmally low at just 10% of total banking deposits and 8% of total banking credit as of March 2024. Lack of bank infrastructure, low level of financial literacy and investment habits, along with lack of formal identification, are some of the reasons for low penetration.

## OVERVIEW AND MARKET LANDSCAPE OF NBFC SECTOR IN INDIA

### Systemic Credit

Corporate credit determines the growth in overall credit as it accounts for nearly two-third of systemic credit. The slowdown in economic activity, coupled with heightened risk aversion among lenders, tightened the overall credit growth to approximately 6.3% in Fiscal 2021. In Fiscal 2022, the systemic credit growth picked up steam despite the second wave of COVID-19 hurting economic growth in the first quarter of the fiscal. The retail credit has been a strong driving force behind the growth in overall credit. Retail credit witnessed a growth of 9% year-on-year during Fiscal 2021 and 13% during Fiscal 2022, while non-retail credit grew at a slower pace of 3% and 9% during Fiscal 2021 and Fiscal 2022.

The systemic credit grew at 10.5% year-on-year in Fiscal 2022 to reach approximately ₹161 trillion. The growth was mainly driven by the budgetary push towards investments, pick-up in private investment, and business activities. In Fiscal 2023, systemic credit showed strong growth at 12.8% year-on-year on back of pent-up retail demand. In Fiscal 2024, credit growth was healthy at 14.1% year-on-year on the back of disbursements to the retail segment, resilient demand for home and vehicle loans and supported by the services segment with healthy demand from NBFC's and trade segments.

Going forward in Fiscal 2025, loan growth in the retail segment, although normalizing, is expected to remain the top credit growth driver supported by banks' focus in expanding their retail portfolios. The normalisation is due to moderation in credit growth of unsecured credit owing to RBI's risk weight circular (Regulatory Measures towards consumer credit and bank credit to NBFCs, November 2023). CRISIL MI&A projects systemic credit to grow at 13-15% between Fiscal 2024 and Fiscal 2027.

The retail credit (which includes Housing finance, Vehicle Financing, Gold Loans, Education Loans, Consumer Durables, Personal loans, credit cards and microfinance) in India stood at ₹75 trillion, as of Fiscal 2024, which rapidly grew at a CAGR of 15% between Fiscals 2019 and 2024. Retail credit growth in Fiscal 2020 was around approximately 12%, which came down to approximately 9% in Fiscal 2021. However, post-pandemic, retail credit

growth revived back to reach approximately 13% in Fiscal 2022. In Fiscal 2023, retail credit has grown at around 22% on a year-on-year basis due to strong growth in retail book of private banks as compared to public banks. Retail credit grew at 20% in Fiscal 2024 supported by steady demand in underlying assets like housing, auto and growth in credit card and personal loans growth driven by consumption. The Indian retail credit market has grown at a strong pace over the last few years and is expected to grow further at 14-16% between Fiscal 2024 and Fiscal 2027 with risks evenly balanced. Moreover, the increasing demand and positive sentiments in the Indian retail credit market presents an opportunity for both banks and NBFCs to broaden their investor base. However, RBI's risk weight circular, sustained inflation and increase in lending rates could play spoilsport in the retail credit growth.

### Key growth factors that will aid the growth of retail credit

### Overview of NBFC Sector in India

The Indian financial system includes banks and non-banking financial companies (NBFCs). Though the banking system dominates financial services, NBFCs have grown in importance by carving a niche for themselves by catering to customers in underbanked regions or those who would not be catered to by traditional financial institutions, due to absence of credit history or lack of proper collateral records.

### NBFC credit to grow faster than systemic credit

The credit growth of NBFCs, which has trended above India's GDP growth historically, is expected to continue to rise at a faster pace. NBFCs have shown remarkable resilience and gained importance in the financial sector ecosystem, growing from less than ₹2 trillion AUM at the turn of the century to ₹41 trillion at the end of Fiscal 2024. During Fiscals 2019 to 2024, NBFC credit is estimated to have witnessed a growth at CAGR of 11%. Rapid revival in the economy is expected to drive consumer demand in Fiscal 2025, leading to healthy growth in NBFCs.

Going forward, CRISIL MI&A expects NBFC credit to grow at 15-17% between Fiscal 2024 and Fiscal 2027 driven by growth in retail segment, and MSME loans in the wholesale segment.

### NBFC credit to grow at 15-17% between Fiscal 2024 and Fiscal 2027

Note: P = Projected, E: Estimated; HDFC is not considered while calculating overall NBFC Credit, Source: RBI, Company reports, CRISIL MI&A,

NBFC's share in systemic credit is estimated to have increased from 12% in Fiscal 2008 to 20% in Fiscal 2024. Overall, consolidation in certain corporate groups and other corporate activities indicate buoyancy in the NBFC space and expectations of healthy credit growth.

CRISIL MI&A believes that NBFCs will remain a force to reckon within the Indian credit landscape, given their inherent strength of providing last-mile funding and catering to customer segments that are less in focus by the Banks. Going forward, NBFCs are expected to continue to gain market share over other lenders due to their ability to provide flexible lending solutions and tailored services, focused approach to tap under-served and niche

customer segments, ability to penetrate deeper into geographies, leveraging technology to reimagine the lending process, strong origination skills and shorter turnaround time.

### Growth of NBFCs reflects the customer value proposition offered by them

Source: CRISIL MI&A

### With high focus on retail loans, NBFCs are driving financial inclusion

The NBFC sector has, over the years, evolved considerably in terms of size, operations, technological sophistication, and entry into newer areas of financial services and products. The number of NBFCs as well as the size of the sector have grown significantly, with a number of players with heterogeneous business models starting operations. The increasing penetration of neo-banking, digital authentication, and mobile phone usage as well as mobile internet has resulted in the modularisation of financial services, particularly credit. Overall NBFC credit during Fiscals 2019 to 2024 is estimated to have witnessed a CAGR of around 11%, which was majorly led by retail segment which is estimated to have witnessed a CAGR of approximately 14%, while NBFC non-retail credit is estimated to have witnessed a CAGR of around 9% during the same time period.

Going forward, growth in the NBFC retail segment is expected at 14-16% from Fiscal 2024 to Fiscal 2027, which will support overall NBFC credit growth, with continued focus on the retail segment and multiple players announcing plans to reduce wholesale exposure.

### NBFCs retail credit is expected to grow at 14%-16% from Fiscal 2024 to Fiscal 2027

Note: P = Projected; Retail credit above includes housing finance, vehicle finance, microfinance, gold loans, construction equipment finance, consumer durable finance and education loans; Source: Company reports, RBI, CRISIL MI&A

## MSME, auto and other retail loans contributed approximately 53% to overall NBFC credit in Fiscal 2024

Though infrastructure accounts for the highest share in NBFC credit (24%) as of Fiscal 2024, its share in the overall NBFC credit outstanding has come down over the past fiscals from 29% in Fiscal 2019. Retail and MSME segments are expected to experience higher growth in the upcoming fiscals. MSME credit accounted for 21% share as of Fiscal 2024, witnessing a rise in its market share from 16% in Fiscal 2019.

## MSME LOANS

### Overview of MSME sector in India

The MSME (Micro Small and Medium Enterprises) sector has experienced remarkable growth and transformation, becoming a cornerstone of India's economy. The estimated number of MSMEs in India is around 70 million as of Fiscal 2022. MSMEs in India are significantly contributing to the economy by generating substantial employment opportunities at a lower capital investment compared to larger industries. Additionally, they facilitate the industrialisation of rural and underdeveloped regions, thereby mitigating regional disparities and promoting a more equitable distribution of national income and wealth. The MSME sector contributes to India's socio-economic development by providing huge employment opportunities in rural and backward areas and reducing regional imbalances.

The Government expects that MSMEs' contribution to GDP to increase from 29.2% in Fiscal 2022 to 40-50% by Fiscal 2030. As of Fiscal 2024, MSMEs contribute a 45.73% share of India's exports. Further, as on October 2024, the total employment recorded on the UDYAM registration portal (since inception July 1, 2020 to October 8, 2024) is 196.0 million.

### MSME segment accounts for about around 29% of Indian GDP

The RBI has adopted the definition of MSMEs in line with the Micro, Small and Medium Enterprises Development (MSMED) Act, 2006. This definition is based on investments in plant and machinery in the manufacturing and services sectors. To bring in more enterprises under the ambit of MSMEs and widen the definition of MSMEs considering inflation over the past few years, in June 2020, the Government revised the MSME investment limit across each category and introduced an alternate and additional criterion of turnover buckets to the definition. It further removed the difference between the definition of manufacturing based and services based MSMEs.

In June 2021, the Indian government has included retailers and wholesalers under the MSMEs definition to extend the benefits of priority sector lending to traders as well. The move is structurally positive from a long-term perspective, as it will enable entities operating in the segment to register on Government's Udyam portal, participate in government tenders and avail financing options/benefits available to the category.

### Formalisation of MSMEs: Around 36% of total estimated MSMEs in India are registered under UDYAM system

After the government revised the definition of MSMEs in June 2020, MSMEs that had an existing MSME registration (Udyog Aadhaar Number or UAN), or Enterprise Memorandum (“EM”), were required to re-register themselves under UDYAM. Thereafter, in August 2020, the RBI issued a notification allowing financiers to obtain the UDYAM certificate from entrepreneurs for lending purposes.

There has been a large push for formalisation of MSMEs in recent years. In Fiscal 2016, MSMEs registered on the UDYAM portal (similar government portals) were almost 0.5 million, which increased to approximately 24.9 million in Fiscal 2024. As of October 8, 2024, close to 29.9 million MSMEs are registered on UDYAM. A UDYAM certificate will be required by MSMEs for taking benefit of any scheme of the Central government. The UDYAM portal is also integrated with the Government e-Marketplace (“GeM”) and the Trade Receivables and Discounting System (“TReDS”), so that enterprises can participate in government procurement and have a mechanism for discounting their bills.

## Overview of MSME financing in India

### MSME credit gap

High risk perception and prohibitive cost of delivering services physically have constrained formal lending to MSMEs. The emerging self-employed individuals and micro, small and medium enterprise segment is largely unaddressed by lending institutions in India.

An IFC report titled Financing India's MSMEs (November 2018) estimated the MSME credit demand at ₹69.3 trillion in Fiscal 2017, of which only approximately 16% of demand was met through formal financing and consequently, the MSME credit gap (defined as the gap between the demand for funds amongst MSMEs and the supply from formal financiers) was estimated at ₹58.4 trillion. This gap was met through informal sources including moneylenders, chit funds and personal sources from friends and relatives. The interest rate for these sources generally ranges between 30-60% per annum.

The credit gap is estimated to have further widened over the last four years due to slower economic growth in Fiscal 2020, followed by the COVID-19 pandemic in Fiscal 2021. In Fiscal 2021, the nationwide lockdown to contain the spread of the COVID-19 pandemic disrupted economic activity, hurt demand, impacted working capital needs and supply chain along with future investments and expansions. Furthermore, government schemes post the COVID-19 pandemic such as the ECLGS scheme provided relief only to MSME units with existing loans from a formal financial institution.

As of Fiscal 2024, the MSME credit demand is estimated to be around ₹138 trillion, of which 25% of demand is met through formal financing. Assuming an increase of around 10% annually in the demand for credit and the availability of credit from formal sources, CRISIL MI&A estimates the credit gap to have increased to ₹103 trillion as of Fiscal 2024.

### Despite increase in MSME loans outstanding, large credit gap still exists

Note: E: Estimated, Source: IFC report on Financing India's MSMEs dated November 2018, CRISIL MI&A estimates

As per the IFC report titled Financing India's MSMEs (November 2018), out of total MSME credit demand of ₹69.3 trillion in Fiscal 2017, the addressable credit demand was at ₹36.7 trillion after removing demand from new MSMEs, commercially unviable MSMEs and micro MSMEs that do not seek formal financing as these types of MSMEs voluntarily go for informal source of credit on account of the process being much faster, some MSMEs are quite young with no operational track record to prove their credit worthiness to the lender and MSMEs which are estimating near term bankruptcy. Out of the total addressable credit demand of ₹36.7 trillion (53% of the total credit demand of ₹69.3 trillion) in Fiscal 2017, formal source accounted for ₹10.9 trillion taking potentially addressable credit demand gap to ₹25.8 trillion (Fiscal 2017), which represented MSME credit gap that could have been addressed by Financial Institutions in the near term.

On the similar lines, as of Fiscal 2024, CRISIL MI&A estimates the total addressable credit demand at ₹67.5 trillion, out of which current formal financing stands at ₹35 trillion taking the total addressable MSME credit gap to ₹32.5 trillion, which needs to be met by Financial Institutions. CRISIL MI&A expects total addressable credit demand to have increased on account of higher bank support, favourable government policies and increased lender focus with tailored products and technological advancements. Technology and use of various data sources are helping lenders analyse cash flow for NTC (New to Credit) MSME customers faster and bring many MSMEs into the formal financing network. Further, this demand is expected to grow as the Government expects MSMEs' contribution to GDP to increase in the coming years.

Even while the credit gap has increased, new MSME units continue to be set up across India. Between Fiscal 2016 and Fiscal 2022, 18.3 million units were set up, according to the Indian government registration data of MSMEs. Thus, though a myriad of small businesses is set up every day in India, access to credit remains a challenge. However, the industry has witnessed an increase in access to formal credit to MSME, which could be attributed to the increase in the number of UDYAM registered MSMEs.

The two pandemic waves were particularly tough for the MSMEs on account of no or fewer economic activities. The pandemic led to frequent lockdowns and restrictions that interrupted supply chains, demand and hence profitability of the MSMEs. During Fiscal 2023, the Indian economy normalised, with industrialisation and urbanisation picking up pace. As a result, revenue increased by 20% for corporate India, while SMEs' revenue grew 11%. In line with the overall growth, aggregate MSME credit grew 30% in Fiscal 2023. In Fiscal 2024, overall MSME credit grew by 30% due to higher credit demand from MSMEs and higher focus by lenders on the asset class leading to higher disbursements.

### Smaller enterprises relatively more starved of credit

The smaller enterprises are much more starved of institutional credit, and therefore, they primarily depend on promoter contribution for working capital and fund requirements. While the access to funding has improved in the last few years, credit remains out of bounds for large swathes of the MSME population in India.

## Modes of funding for MSMEs

Banks and NBFCs offer various credit products based on the need of MSMEs. Such products include Loan against property, Supply chain financing, Inventory funding, Unsecured business loans, etc.

**Loan against property:** It is a secured business loans which is disbursed by financial institutions against the mortgage of property. The property act as collateral/security and therefore the financial institution charges comparatively lesser interest rates than unsecured loans.

**Supply chain finance (SCF):** SCF consists of financing MSMEs against invoices and receivables as intermittent collaterals. It includes providing cash to suppliers against receivables from buyers.

**Inventory funding:** Inventory acts as one of the most important factors for running business smoothly. Inventory financing facilitate MSMEs to buy adequate inventories which could act as collateral for the loan. It helps MSMEs in maintaining optimal stock levels without impacting their cash flows.

**Portfolio outstanding (in ₹ trillions) for MSME portfolio to grow at 17-19% CAGR between Fiscal 2024 and Fiscal 2027**

## Growth drivers for MSME Credit

### High credit gap in the MSME segment

As per estimates, less than 15% of approximately 70 million odd MSMEs have access to formal credit in any manner as of March 2022. High risk perception and the prohibitive cost of delivering services physically have constrained traditional institutions' ability to provide credit to underserved or unserved MSMEs and self-employed individuals historically. As a result, they resort to credit from informal sources. This untapped market offers huge growth potential for financial institutions. As stated earlier, the credit gap was estimated at around ₹58.4 trillion as of Fiscal 2017 (Source: IFC report named Financing India's MSMEs released in November 2018) and is estimated to have widened further to around ₹103 trillion as of Fiscal 2024.

### Increased data availability and transparency

With increased digital initiatives by the MSMEs, the shift towards their formalisation and digitisation has created a plethora of data points for lenders that would help improve the efficacy of credit assessment and gradually enable provision of credit to hitherto underserved customer segments. This increase has created a digital footprint of customers, which can be potentially used for credit decision making, along with other relevant parameters such as customer demographics, business details, credit score, and personal situation of the borrower. Demonetisation and GST have further accelerated formalisation of the Indian economy.

### **Increasing access and faster turnaround time**

Due to availability of multiple data points and technology solutions, the lending process involving documentation, verification and processing of the transactions has evolved and now takes much lesser time. Technology led enhancements such as use of big data analytics and social media campaigns to acquire customers, use of direct and derived variables for underwriting, automated processes, minimum documentations, Aadhar based e-KYC, account aggregators and flexible repayment options due to simplified real-time digital payments system have helped reduce processing time, increasing access to credit for borrowers and faster TAT.

### **Growth in branch network of players in MSME segment**

Over past few years, players offering MSME loans have expanded their branch network with the intent to serve a larger customer base. Share of borrowers from top cities in India has been on a declining trend indicating that lenders are shifting their focus on MSMEs in rural and semi urban areas. In the future also, CRISIL MI&A expects lenders with a strong focus on MSME lending and healthy competitive positioning to continue to invest in branch expansion. With increasing branch network, customer acquisition and credit penetration, share of MSME loans is also expected to increase.

### **Entry of new players and partnerships between them**

Lenders are increasing the use of digital platforms to help automate and digitize loan sanctioning process however the borrower is required to possess documents for the initial clearance as stated by the banks. Incumbent traditional lenders will increasingly leverage the network of their partners and/or digital ecosystem to cross-sell products to existing customers, tap customers of other lenders, and cater to new-to-credit customers. This will expand the market for MSME loans.

### **Robust government support**

The government has a special focus on the MSME sector on account of its economic contribution to the economy and number of people employed in the sector. MSMEs in India come under the purview of Government of India, Ministry of MSME, Khadi Village and Coir Industries Commission (KVIC). The government launched Udyam Assist Platform (UAP) on January 11, 2023 to enhance formalisation of the economy. As of June 28, 2024, 19 million informal micro enterprises have joined UAP to come under the formal economy. Government of India has also introduced a new scheme called 'PM Vishwakarma' aiming to improve the quality of products and services of small artisans and craftsman and ensure that their companies are a part of national and global supply chain. The scheme was launched on September 2023. The initial amount to be disbursed under the scheme is ₹13,000 crores for five years from Fiscal 2023-2024 to Fiscal 2027-2028.

### **Relaxation in the threshold under the SARFAESI Act from ₹5 million to ₹2 million for NBFCs**

In the Union Budget 2021-2022, for NBFCs with a minimum asset size of ₹1 billion, the minimum loan size eligible for debt recovery under the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act (SARFAESI) Act, 2002 was proposed to be reduced from the existing level of ₹5 million to ₹2 million. The objective of this move is to improve credit discipline while continuing to protect the interest of small borrowers. This relaxation is expected to facilitate recovery from stressed books, help the NBFCs to improve their ability to recover smaller loans and strengthen their overall financial health. More importantly, it acts as a deterrent to default and enhances the enforceability of collateral for players focused on the medium ticket size LAP segment with loans of ₹2 million-₹5 million.

### **Inclusion of retail and wholesale trade under MSME category**

In July 2021, the Ministry of Micro, Small and Medium Enterprises decided to include Retail and Wholesale trade as MSMEs for the purpose of Priority Sector Lending and they would be allowed to be registered on UDYAM Registration Portal. The move is structurally positive from long-term perspective, as it will enable entities operating in the segment to register on Government's UDYAM portal, participate in government tenders and also avail financing options/benefits available to the category. This move will also aid in the formalisation of India's retail trade and enable financial support to small and mid-sized retail businesses. By widening the scope of MSME to cover wholesale as well as retail trade, this move also creates an additional opportunity for MSME lenders to increase their penetration and business.

### **Prime Minister's Employment Generation Programme (PMEGP) providing margin money to MSMEs**

PMEGP is a credit linked subsidy scheme to provide employment opportunities by establishing new micro enterprises in the non-farm sector where margin money is provided to MSMEs availing loan from banks to set up new enterprises. The maximum margin money provided under the scheme for setting up a new project is ₹5 million for manufacturing sector and ₹2 million for service sector. Geo-tagging for the products and services of the units set up under this scheme has been initiated. This will help the enterprises with creating market linkages.

### **Credit Guarantee Fund Scheme extended to cover NBFCs**

One of the major reasons why MSMEs are credit-starved is the insistence by banks or financial institutions for the provision of collateral against loans. Collaterals are not easily available with such enterprises, leading to a high-risk perception and higher interest rates for these MSMEs. In order to address this issue, the government launched the Credit Guarantee Fund Scheme under the aegis of the Credit Guarantee Fund Trust for Micro and Small Enterprises (CGTMSE) in order to make collateral-free credit available to micro and small enterprises. In January 2017, the scheme was extended to cover systemically important NBFCs as well.

### **Digital penetration**

The lenders have been increasingly leveraging technology solutions and alternative data to source and underwrite MSME loans. Such changes in MSME lending have been driven by:

#### **Digital/technological changes:**

- E-commerce platforms (B2C and B2B): Connecting buyers and sellers
- Introduction of digital lending focused NBFCs: Use of technology to provide MSME lending
- Low-cost internet data availability: Facilitating increase in internet penetration
- Business solutions focussed on MSME such as digitising accounting, workflows, operations, etc., leading to better data availability

#### **Government led initiatives:**

- Introduction of UPI: Simplified real-time digital payments
- GST implementation: Simplified business taxes, improved formalisation of businesses
- Aadhaar based e-KYC: Reduced documents requirements, faster TAT, Aadhaar-PAN linkage facilitating lenders to verify information
- ONDC: Facilitated adoption of e-commerce through open protocol

#### **RBI-led initiatives:**

- TReDS: TReDS is an electronic platform for facilitating the financing/discounting of trade receivables of MSMEs through multiple financiers
- Account aggregators: Act as a common platform which enable sharing and consumption of data from various entities with user consent

## Key success factors for NBFCs offering MSME Loans

- **Ability to dive into deeper geographies with a strong branch network:** Players need to have a clear and deeper understanding of their target customer segment, the markets they operate in and develop a strong local network. The deeper understanding and presence of inhouse sales team for direct sourcing within the segment also leads to lower customer churn.
- **Focussed approach to tap underserved niche borrower segments:** MSME focussed lenders need to build a portfolio with deep understanding of the target segment and market. Specific tailor-made lending products for MSMEs with easier data availability to help lenders take a focussed approach.
- **Strong underwriting capabilities:** MSMEs tend to generally be more impacted by vagaries of the business cycle given their limited financial wherewithal and/or reliance on larger buyers. On account of limited data to support credibility of the MSME borrower, lenders are now using alternate methods of underwriting like cash flow analysis to strengthen their underwriting capabilities.
- **On-the-ground presence to manage collections and maintain portfolio quality:** Additionally, given that players in the segment also cater to a relatively riskier profile, a strong focus on collections and monitoring risk of default at customer level is vital to manage asset quality. Direct Sourcing allows control over the quality of customers and processes involved for disbursement, which can lead to better asset quality, as compared to other methods of customer acquisition.
- **Collateral risk management:** Properties that are used as collateral for MSME loans sometimes lack proper property titles, especially in the outskirts of large cities, semi-urban and rural areas.
