Subject: - Investor Presentation for Q3 and 9M FY 2024-25

Dear Sir/Madam,

Pursuant to regulation 30 read with Para A of Part A of Schedule III of SEBI (LODR), Regulations 2015, please find enclosed a copy of Investor Presentation on the financial performance of the Company for Q3 and 9M FY 2024-25.

Further, in compliance with Reg. 46(2)(o) of SEBI (LODR) Regulations 2015, the aforesaid information shall also be hosted on the website of the company at www.fineotex.com.

This is for your information and records.

Thanking you,

Yours faithfully, For FINEOTEX CHEMICAL LIMITED

Sunny Parmar Company Secretary & Compliance Officer

Encl: As above

Single Stop sustainable solution provider across industries.

Investor Presentation

February 2025

- 01 About the Company
- 02 Business Verticals
- 03 Sustainability: Key Focus
- 04 Collaborations & Acquisitions
- 05 Industry: Growth Opportunities
- 06 Financial Performance
- 07 Way Ahead

Fineotex Overview

Single Stop sustainable solutions provider across industries

Among the leading producers of tailor made specialty performance chemicals offering technical services & sustainable solutions

Single Stop for textile, FMCG, Cleaning & Hygiene

Sustainable solutions by **substituting** polluting agents while remaining **cost effective**

Proven management more than **4 decades** of experience

Attractive industry dynamics with strong **technical barriers to entry** and high levels of development and **product customization**

3 Manufacturing Plants with a total manufacturing capacity of **1,04,000 MTPA** – **State-of-Art** Ambernath (61,000 MTPA), Mahape (36,500 MTPA), and Malaysia (6,500 MTPA)

Research & Development - JV with Biotex of Malaysia, and collaboration with EuroDye of Belgium, Healthguard of Australia, and Sasmira of India

Fineotex Overview

470+

Product Categories

100+

Dealers in Indian and International Market

2nd ICRA Rating Upgrade

Long Term Rating: A+ (Positive) Short Term Rating: A1+ (Positive)

Business Verticals

1,500+ SKUs

Across all product categories

NABL accredited

Second consecutive year Fineotex Chemical Laboratory

Solar Power Plant

Successfully running at Ambernath Plant

Long standing track record of consistently creating value

2004-07

Accredited with ISO 9001:2008

- Incorporation of Fineotex Chemical Private Limited (FCPL)
- Acquisition of FCPL by Fineotex Chemical Limited

2024

- Promoters participated in the fund raise of Rs. 3,425.5 million via preferential allotment
- Certified as a Great Place to Work for the third consecutive year
- ICRA rating upgraded Long Term Rating: A+ (Positive) and Short Term Rating: A1+ (Positive)
- Alloted 25,052 Equity shares through Fineotex Chemical Limited – Employee Stock Option Plan
- Received 2nd Dun & Bradstreet ESG Badge
- Purchased Additional factory land premises of 7 acres at Additional Ambernath MIDC
- Received accreditation by NABL: Second Consecutive Year

2011-14

- Listed on BSF
- Incorporated wholly owned subsidiary in Malaysia
- · Acquired majority stake in Biotex Group
- Bonus declared on 1:1 basis
- Accredited with ISO 4001:2004 & OHSAS 8001:2007 certifications

2022-23

- Ambernath facility capacity expanded by an additional 40,000 MTPA, taking the overall capacity to 104,000 MTPA
- ICRA rating upgraded Long Term Rating: A+ and -Short Term Rating: A1+
- Great Place to Work certified
- Dun & Bradstreet ESG Badge
- Successfully commissioned Solar Power Plant at Ambernath Facility
- Received accreditation by NABL

2015-19

- Listed on NSE
- Received Star Export House recognition
- Biotex partnered with Bluesign
- Manufacturing capacity increased to 43,000 MTPA annually and both facilities GMP certified

2020-21

- Buyback of 11 lacs shares up to a maximum price of Rs. 40
- Deploying Rs. 270 million for the new facility at Ambernath, Maharashtra
- One of the plants is approved and certified by the FDA
- · JV with HealthGuard
- Partnership with Sasmira
- JV with Eurodye-CTC
- Ambernath facility commenced production in Nov '21

Key Strengths

Single Stop Solution in Textile, FMCG, cleaning & Hygiene

Fungible Production capacities

R&D Strength via international collaborations

High customer retention

Minimal time loss; Maximizing
efficiency
Through in-depth know how of chemistry and
processes

Sustainable Product
Certification
Highest in India

Product Validation among the largest players in India

Diversifying Its Business Portfolio

Textile Chemical Vertical

- Specialty chemicals producer with a focus on textiles chemicals
- Offering tailor-made solutions to customers
- Attractive industry dynamics with technical barriers to entry and high levels of development and product customization
- Biotex Malaysia spearheads the R&D solutions, application research and product development

FMCG, Cleaning & Hygiene Vertical

- Successfully diversified into the cleaning and hygiene business
- Leveraged its existing technical expertise and knowledge in production and distribution to gain a competitive advantage
- Products such as floor cleaners, hand-washes, sanitizers, dishwashers, and toilet bowl cleaners are manufactured

Oil & Gas Vertical

- Produces chemicals which play an important role in improving the efficiency, safety, and environmental sustainability of oil and gas production
- Aids in reducing maintenance costs and increasing the lifespan of equipment.
- Chemicals Produced Demulsifiers, Corrosion inhibitors, Biocides. Surfactants.

Water treatment Vertical

 Manufactures wide range of polymers preventing scale deposits allowing higher flow rates and efficiency for water treatment

Developed technical expertise to enter attractive new markets

Drilling Specialty Chemicals

- Customised solutions for Oil and Gas
- Significant potential for offering effective products used for drilling in oil exploratory processes
- Sizable orders from a leading oil and gas company in India

Water Treatment Specialty Chemicals

- Offers wide range of polymers under Diquest brand, addressing the needs of variety of applications
- Prevents scale deposits in the cooling systems allowing higher flow rates and efficiency

Single Stop Solution for Textile Manufacturing

Key Customers

Added 30 new customers in Q3 F

FCL FINEOTEX

AKSHAYA

Unlimited food for education

Successful Foray into FMCG, Cleaning & Hygiene Vertical

Manufacturing at Ambernath Plant

Kitchen Care

Laundry

Plant approved & certified by Food & Drugs Administration (Maharashtra) Production of disinfectant/antimicrobial hygiene and cleaning products ensuring safety and effectiveness.

Clientele

FCL FINEOTEX

Synergy between Textile, FMCG, Cleaning & Hygiene Chemicals

The Synergy between Textile, FMCG, Cleaning & Hygiene chemical

- Fineotex utilised its fundamental strength in the textile chemical industry to enter the cleaning and hygiene industry
- Numerous chemical compounds that are utilised in the textile specialty vertical have potential applications in the cleaning and hygiene vertical as well
- This expansion allows Fineotex to diversify its business and revenue streams while **leveraging its core competencies**
- Its move into the cleaning and hygiene vertical aligns with the **heightened importance of cleanliness post-pandemic** has increased demand for hygiene products
- Fineotex aims to maintain the same standards of quality and performance in its cleaning and hygiene products as its textile chemicals
- We actively encourage sustainability and endeavor to minimise our environmental footprint by fostering collaboration and knowledge sharing between the textile and cleaning and hygiene industries

Manufacturing Platforms (GMP* Certified)

Location

Operating Facts

Strategic Advantages

Manufacturing Excellence

Total Production Capacity: **36,500 MTPA**

Total Production Capacity:

Additional factory land

premises of 7 acres at

(Construction work started)

Additional Ambernath MIDC

61,000 MTPA

Fungible and has the capabilities to manufacture products for both textile chemical and cleaning and hygiene vertical

Equipped with modern infrastructure and amenities, enabling sustainable chemical production with advanced automation, storage, and logistics handling

Efficient and environmentally friendly manufacturing processes Easy access to high quality raw materials in the region

Mahape

Ambernath

Provides raw materials to the Indian facilities

Cost benefits due to Free Trade Agreements (FTAs) with important regional markets like Vietnam, China and India

Selangor, Malaysia

Global Reach

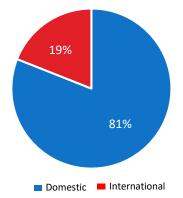

Diversified revenue mix across clients, products and geographies coupled with technical expertise

- Sales in ~70 countries including Brazil, Bangladesh, Germany, Indonesia, Malaysia, Singapore, Syria, Thailand, USA, Venezuela and Vietnam
- **34+** technical marketing experts
- 100+ dealers in Indian and International markets

Q3 FY25 Revenue Mix

Sustainability Key Focus

Focus on **Sustainability**

- Sustainability core of the company's activities, products, partnerships, and markets.
- Among the first movers in the journey of sustainability driving positive change within the industry

What Sustainability Means to Us

Goes beyond

or

avoiding certain chemicals.

Rather

Focuses on enabling customers to become sustainable.

1. Enhanced Resource Efficiency

- Reduced TDS, BOD, and COD in wastewater.
- Lower water consumption and steam usage.
- · Energy savings at every stage.

2. Operational Cost Reduction

- Lower utility bills and reduced labor costs.
- Smarter formulations for better efficiency.

3. Cost-Neutral Impact

- Incremental costs of chemicals offset by overall savings.
- Net financial benefits for customers.

4. Among the first in the country

- Use **Zero Formaldehyde Resin** for Textiles
- Introducing Soda Ash substitute
- Accredited with SA 8000 certification

Sustainability: Heart of our Business

Reducing CO2, NOx, SOx, dust emissions, water conservation and effluent treatment

Achieved ZDHC Certificate

o Plastic and Solid waste recycled via authorized agencies

o FY24 energy consumption: 5,210,177 Joules

o Installed 100 kw solar power plant at Ambernath.

Collaborations

& Acquisitions

Successful acquisition and realization of synergies with Biotex

Recent collaborations to focus on Innovation & Sustainability

Strategic collaboration with Eurodye-CTC, Belgium, to commercialize specialty chemicals for the Indian market

Facilitates an efficient production system and distribution network across the Indian textile market

Eurodye-CTC has REACH registration, Bluesign certification & GOTS 6 certification for a large selection of its product range

Fineotex is committed to sustainable practices and Eurodye-CTC is also an environmentally conscious company

Strategic collaboration with HealthGuard, Australia to become the exclusive global marketing and sales channel partner with joint operations from Malaysia

HealthGuard® will concentrate on developing cutting- edge solutions, that will be marketed and channelized across the world by Fineotex-Biotex

Synergy will provide durable metal-free sustainable chemistry solutions that are anti-microbial and anti- viral

Range of products over several industries - textile, detergent, leather and allied industries

Setting up a state of art Research & Development center in collaboration with Sasmira Institute, one of India's premier textile institutes

Develop a first-of-its-kind Support and Solution Centre for technical service in Sasmira to catalyze innovation and focus on sustainable chemistry

Focus on new sustainable solutions and chemicals to reduce water, time and energy consumption for the textile wet processing industry

Provide the much-needed exposure for students and help provide practical experience, which will benefit the industry in the long term

Opportunities **Textile Chemical Industry**

Expanding Textile & Apparel Industry

The rise of fast fashion, home textiles, and technical textiles, fueling the need for advanced textile chemicals like dyes, coatings, and softeners

Rising Demand for Sustainability

Organic and sustainable fabrics, increasing the need for environmentally friendly dyes, bio-based finishes, and low-VOC chemicals.

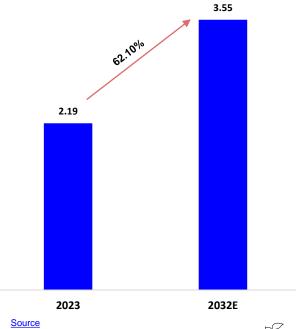

Growing Technical & Functional Textile

Rising adoption of anti-microbial, waterrepellent, and UV-resistant textiles in healthcare and defense sectors

Water & Energy Efficiency

Growth in wastewater treatment, watersaving, sustainable dyeing processes and low-effluent chemicals, driving the market for environmentally friendly auxiliaries.

Indian Textile Chemical Market Size (USD Bn)

Opportunities FMCG, Cleaning & Hygiene Sector

Rising Hygiene Awareness

Increased awareness post-COVID-19, has boosted demand for disinfectants, sanitizers, and surface cleaners

Eco-Friendly Cleaning Solutions

Increase in demand for biodegradable, non-toxic, and green cleaning chemicals

Expanding Healthcare & Pharma Sector

Expansion of hospitals, clinics, and diagnostic centers, increasing demand for disinfectants and sterilizers

Urbanization & Changing Lifestyle

Increased urbanization, growth in nuclear families and working professionals shifted consumer preferences towards convenience-based cleaning solutions like multipurpose cleaners and automatic dishwashing liquids.

Opportunities: Water Treatment Industry

Rising Industrialization & Urbanization

- Growth in sectors such as power, chemicals, textiles, and pharmaceuticals increases the demand for water treatment solutions.
- Increasing water pollution and growing population, driving advanced municipal water treatment systems

Stringent Environmental Regulations

- Effluent treatment laws limiting different parameters such as COD, TDS, TSS, and BOD in industrial wastewater.
- Zero Liquid Discharge (ZLD) policies encourage the use of coagulants and flocculants

Eco-Friendly & Technological Advancements

- Adoption of eco-friendly and biodegradable polymers is growing
- Advances in nanotechnology and smart polymers

Water Scarcity & Desalination

- Severe water scarcity, driving investments in desalination plants
- Desalination requires antiscalants and metal chelating agents to improve efficiency and reduce maintenance costs.

Expansion of Power & Energy Sector

- Thermal Power sector, relies on scale inhibitors and antiscalants to maintain boiler efficiency
- Growth in renewable energy (hydropower, bioenergy, solar)

Opportunities: Oil & Gas Industry

Expanding of Domestic Production

- ONGC, Oil India, and private players like Reliance and Cairn India are expanding their upstream activities
- Enhanced oil recovery techniques requires demulsifiers, corrosion inhibitors, and paraffin dispersants.

Deepwater & Unconventional Drilling

- Increasing offshore & deepwater exploration requires high-performance drilling and cementing fluids.
- Rising Shale Gas and CBM exploration drives demand for fracturing and stimulation chemicals.

Environmental & Safety Regulations

- Eco-friendly and high-performance drilling fluids to minimize environmental impact.
- Non-toxic and water-based drilling fluids (WBM) are gaining traction

Infrastructure & Pipeline Projects

- Expansion of refineries and natural gas pipeline networks boosting demand for cementing and production chemicals
- New oil & gas wells require advanced cementing fluids

Technological Advancements

 Hydraulic fracturing (fracking) for extraction leads to higher demand for fracturing fluids and proppants

Management Commentary

Mr. Sanjay Tibrewala Executive Director

"The Company's performance for the nine months of FY25 remained stable despite a challenging environment with muted demand in the FMCG space, one of the key sectors that we cater to. Our guidance for revenue and profitability is intact.

Revenue for the quarter was impacted by low volumes due to order postponements by a few customers. However, there has been no loss of customers, as demand fundamentals remain strong. While the FMCG segment experienced lesser demand in the quarter, which we foresee to boost in the forthcoming quarter, the textiles vertical is doing well. In fact in the textiles business, we added 30 new customers in Q3FY25.

As India's long-term growth trajectory remains intact with growth oriented budget and liquidly boosting by RBI, we are confident of our targets. Our diversification into new products, such as oil & gas and water treatment, is progressing well, with a strong order pipeline expanding across geographies. Additionally, our upcoming plant remains on track and is expected to be operational by Q2FY26, further enhancing our manufacturing capabilities. With innovation at the core of our business, new solutions like AquaStrike Premium reinforce our commitment to sustainability and global market expansion. During the quarter, we developed 15 new products increasing our product offerings.

We remain committed to creating long-term value and will be issuing a dividend, reflecting our confidence in the company's financial health. We see this slackness as an opportunity to grab the good targets for our inorganic growth opportunities, with our earmarked cash funds of more than ₹300 crores.

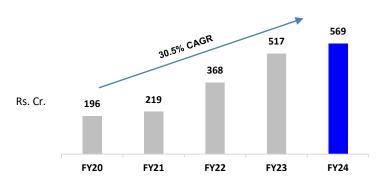

The outlook remains positive, our revenue and profitability guidance are intact."

Mosquito Life Cycle Controller & Water Preservation

Aquastrike Premium - Non Toxic & Eco-friendly Mosquito Killer & Water Preservation Additive

Non toxic, non polluting, Eco-friendly solution, produced in Malaysia with European design engineering

Declared as Non Pesticide by the Pesticide Board. NSF had also confirmed its Non Toxicity even in drinkable water. It will be under WHO registration application **Approved by:**

- · The Singapore Public Utility Board
- · The Vietnam and Cambodia bodies
- · EU approval for shipment to Europe

Benefits:

- Non smelly, invisible and to be poured/sprinkled like water instead of spraying in gases form.
- Simple handling unlike in the case of BTI etc. allowing greater productivity of the personnel

Opportunity:

- Increasing focus towards water preservation, public health and environmental sustainability
- · Eradicates the lifecycle of mosquito as against conventional methods
- Global market opportunity as the product has received multiple international approvals

Way Ahead

New Capacity Addition

- Acquired 7 Acre land at Ambernath, project expected to commence in Q2 FY26
- · Capacity addition of 15,000 MTPA
- · Fungible capacity with focus on sustainability

Growth Opportunities: Oil & Gas and Water Treatment Sector

- Eco-friendly solutions and sustainable growth
- · Rising industrialization and urbanization
- · Water scarcity, desalination and expansion of refineries & natural gas pipeline

Inorganic Growth Opportunities

· Focusing on inorganic growth opportunities

Other Strategies

- · Increasing wallet share from existing customers
- Increase share of sustainable products in detergent market

Accreditations: Biotex Malaysia

Certificate	Value Proposition
bluesign®	• Bluesign is recognized as a leading certification for sustainability in the global textile industry. As a partner, Biotex is committed to applying the bluesign system to meet the highest level of safety for both people and environment, to use resources responsibly, and to continuously improve environmental performance
The state of the s	• The Global Organic Textile Standard (GOTS) is recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental criteria along the entire organic textiles supply chain and requires compliance with social criteria as well
REACH 8	• European certification which validates raw materials used for Bioguard C6 repellent (manufactured by Biotex) from a sustainability stand point
	 BHive is a platform that promotes transparency and the use of more sustainable chemistry for textile and apparel manufacturers, brands, and retail organizations
BHive	BHive membership demonstrates commitment to chemical sustainability and transparency
9001:2015	• ISO 9001:2015 defines the guiding principles to create efficiencies by aligning and streamlining processes throughout the organization, create new opportunities, meet regulatory requirements, and help organizations expand into new markets in which clients demand ISO 9001 certification
Ø ZDHC	• Part of a global multi stakeholder initiative within the fashion and footwear industry working towards reducing chemical footprint
Lero Discharge of Hazardous Chemicals	Aim is to accelerate progress towards ultimate goals of cleaner water, cleaner air, and safer production
HACCP	 HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product. HACCP Principles & Application Guidelines
	Leading the transition from synthetic to lower carbon footprint products
