SECTION II – RISK FACTORS

Investment in the Equity Shares involves a high degree of risk. You should carefully consider all of the information in this Red Hearing Prospectus, including the risks and uncertainties described below and the Financial Statements incorporated in this Red Hearing Prospectus, before making an investment in the Equity Shares of our Company. Any potential investor in, and subscribers of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment which in some material respects may be different from that which prevails in other countries. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the risks involved. If any or some combination of the following risks occur or if any of the risks that are currently not known or deemed to be not relevant or material now, actually occur, our business, prospects, financial condition and results of operations could suffer, the trading price of the Equity Shares could decline, and you may lose all or part of your investment. For further details, please refer to chapters titled “Business Overview” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 84 and 162, respectively of this Red Hearing Prospectus, as well as the other financial and statistical information contained in this Red Hearing Prospectus. If our business, results of operations or financial condition suffers, the price of the Equity Shares and the value of your investments therein could decline.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality therein:

- *Some risks may not be material at present but may have a material impact in the near future.*
- *Some risks may not be material individually but may be found material when considered collectively*
- *Some risks may have material impact qualitatively and not quantitatively and vice-versa*

We have described the risks and uncertainties that our management believes are material, but these risks and uncertainties may not be the only ones we face. Additional risks and uncertainties, including those we are not aware of, or deem immaterial or irrelevant, may also result in decreased revenues, increased expenses or other events that could result in a decline in the value of the Equity Shares and may also have an adverse effect on our business. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in the Equity Shares.

This Red Hearing Prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Hearing Prospectus. For further details, please refer to chapter titled “Forward-Looking Statements” beginning on page 15 of this Red Hearing Prospectus.

Unless otherwise indicated, all financial information included herein are based on our Financial Statements. Please refer to the section titled “Restated Financial Statements” beginning on page 126 of this Red Hearing Prospectus.

INTERNAL RISK FACTORS:

- 1. We have entered in to lease agreement for term of 20 years and upon expiry of the term the lease shall be renewable for such further period as may be mutually agreed between both the parties with a Lock in Period of 5 years with Mahindra Holidays and Resorts India Limited (Club Mahindra). In case the Club Mahindra terminate the lease agreement after Lock in period of 5 years, the income, profitability of the company will be adversely effected.***

We have executed an agreement to Lease with Mahindra Holidays and Resorts India Limited (Club Mahindra) on December 27, 2023 for a term of 20 years and upon expiry of the term the lease shall be renewable for such further period as may be mutually agreed between both the parties with a Lock in Period of 5 years. There is no conflict of interest between the lessor of the immovable properties and our Company, Promoters, Promoter Group, Key Managerial Personnel, Directors and the Subsidiary/ Group Companies and its directors. According to the agreement the club house and Villas constructed on the land comprising of 100 rooms (15 Villas with 75 rooms and & 25 rooms in the club house building, together with bed, besides table, Television, sofa, entre table, writing table and other furniture and fixtures including interiors etc are given on lease basis for the above period at a fixed

rent. Though, there is a provision for increase of rent on annual basis, but it may not be matching with the increase of rent of the resorts in the surrounding places. In such case, company will not receive any additional benefit from the Room tariff hiked by the Club Mahindra and to that extent our business and profitability will not reflect any increase in it.

2. *Our inability to manage the timing of vacation requests of our members and our affiliates members could lead to member dissatisfaction as well as loss of revenue generation opportunities.*

Our members and our affiliates members have the flexibility to choose the time (within certain seasonal limitations) and location of their vacations. If more than our anticipated number of members apply for a vacation in the same resort at the same time of the year, we may not be in a position to satisfy their vacation requests. Declining members the usage of their requested week may lead to member dissatisfaction, which could have an adverse effect on our reputation, growth and results of operations. Conversely, if less than our anticipated number of members apply to stay at any resort at any given time, we may have a large number of unused apartments, which could lead to a loss of revenue generation opportunities. Our inability to manage the timing of vacation requests from both our members and affiliate members could lead to dissatisfaction. However, we have not experienced any instances in the past where vacation requests from our members and affiliate members have conflicted.

3. *Our inventory of rooms and cottages may be in excess of the vacation ownerships sold by us to our members and affiliates and this may have an adverse effect on our results of operations. Similarly, our inventory of rooms and cottages could limit our growth prospects if such inventory is less than the number of vacation ownerships sold by us.*

As part of our growth strategy, we continuously work towards creation of rooms and cottages. As such the development and addition of rooms and cottages take a substantial lead-time, there may be circumstances wherein our inventory of rooms and cottages may be more than the number of vacation ownerships sold by us. As we generate revenues primarily through sale of vacation ownerships such mismatch between our inventory of rooms and cottages and the number of vacation ownerships sold, may increase our total expenditure during the period of the development of our resorts and the period where our excess inventory is unused. We have not experienced any such situation in the past where the vacation ownerships sold to our members and affiliates have exceeded our inventory of rooms and cottages.

In addition, the vacation ownerships we sell ranging from one to seven-day periods, are limited by the total number of rooms and cottages available during the relevant season. As such, if we do not develop, acquire or lease additional resorts or increase the number of rooms and cottages at our existing resorts, we may not be able to sell additional vacation ownerships. This would limit our growth prospects and adversely affect our business.

4. *Our Company has entered in to an Agreement with RCI affiliates for a period of 10 years w.e.f October 24, 2017, as per the terms of agreement the RCI affiliates can also book our rooms and to that extent the availability of rooms to our members will be restricted which create the dissatisfaction to our members and may affect our reputations, business and profitability adversely. In case our members also not get the booking in RCI affiliates it will spoil our reputation.*

Our Company has entered into an agreement with RCI affiliates, effective October 24, 2017, for duration of 10 years. Valencia Club Abu membership grants members the opportunity to enjoy a vacation at any of Split Week Programme of RCI-affiliated resorts. Members can select their preferred season and apartment, depending on their membership tenure. As on November 30, 2024, 30 members are currently benefiting from this offer and on the other hand we have to extend the accommodation booking arrangement to the members of RCI affiliates, this may restrict the accommodation availability to our members on required day, which may create dissatisfactions to our members and may affect our reputations adversely. This being long term agreement for a period of 10 years, we may have to continue with the terms of agreement for a period of 10 years, whether it is suitable to us or not.

5. *With the execution of agreement to Lease with the Mahindra Holidays and Resorts India Limited (Club Mahindra), we are relying on club Mahindra for our rent income which is the major portion of our income.*

We have executed an agreement to lease with Mahindra Holidays and Resorts India Limited (Club Mahindra) on December 27, 2023 for a term of 20 years and upon expiry of the term the lease shall be renewable for such further period as may be mutually agreed between both the parties with a Lock in Period of 5 years. As per one of

the conditions of the Lease Agreement, there shall be a lock-in period of 5 years for Lessee from the date of the commencement of lease, lock-in period for the lessor shall be the tenure of the agreement i.e. 20 years.

As per the terms, if the lessee chooses to terminate the lease after the 5-year lock-in period, the Company will only receive rental income during the lease period and will not be entitled to any share in the revenue generated from the villas managed by Club Mahindra. In the event of such early termination, the Company would lose its rental income and would be required to re-market the resort. This transition period could significantly impact the Company's profitability and liquidity until a new tenant is secured.

6. Our business is seasonal and our revenue is highly volatile.

Our business is seasonal business. Generally, summer is a peak season for our business because tourist preferred to go to hill station or resort during summer to overcome the problem of heat of the summer temporarily and in addition to this their children will have summer vacation during summer. Similarly, Diwali vacation and Christmas vacation, we are having heavy demand for reservation. Thus, in peak season of summer Vacation, Diwali vacation and Christmas vacation, we are having almost full occupancy and we are not able to meet with the demand of the customer for room booking. On the other hand, during winter and monsoon season, the demand for our rooms is very limited and occupancy ratio will be very low. Our income from restaurant and other activities will also be decreased considerably. Thus, our occupancy and income will be high during summer and festival season and very much low during off season like winter and monsoon and consequently our income, profitability will be highly volatile during the different seasons.

7. We have stopped enrolling new members for our resorts and affiliates and such discontinuation of new enrollments will lead to a reduction in overall income.

Until now, we have been enrolling new members for our club and resorts. However, following the execution of a long-term lease agreement with Mahindra Holidays and Resorts India Limited (Club Mahindra) on December 27, 2023, for a 20-year term (with the option for renewal at the end of the term, subject to mutual agreement, and a 5-year lock-in period), we have strategically decided to discontinue enrolling new members from the next year. Existing members will still enjoy the same services and benefits as per the previous terms.

The Segment wise breakup of revenue for the period ended December 31, 2024 and year ended on 2024, 2023, 2022 and 2021 and the percentage of their total revenue are stated as below:

As shown in the table above, if we calculate the average of the last three years, during which we stopped enrolling new memberships, the average revenue loss due to discontinuation of new enrolment was Rs. 18.60 Lakhs per year. The percentage of revenue loss in terms of total income for the FY 2024 and 9 month ended on December 31, 2024 is as follow:

(₹ in Lakhs)				
Particulars	December 31, 2024	% of Loss	March 31, 2024	% of Loss
Average Loss due to discontinuation of new enrolment	13.95	2.45	18.60	2.55
Total Revenue from Operation	555.82	97.55	711.49	97.45

As a result of ceasing new member enrolments, the growth of our business may be impacted. Both existing and potential new members would have previously contributed to our revenue through the use of restaurant services and other chargeable amenities. Furthermore, existing members may experience delays or queues when making reservations or accessing amenities, including restaurant services. Consequently, the discontinuation of new member enrolments will likely affect our income and overall profitability.

Additionally, with the partnership with *Club Mahindra for the operation and management of our Valencia Resort, the income generated for the issuer company has been fixed*. Enrolling additional members would disrupt the management of the resort. As we are no longer directly managing the resort, we have decided to cease enrolling new members for both our resorts and other affiliate programs. Although the rental income remains fixed, the discontinuation of new enrolments will lead to a reduction in overall income.”

8. *We have to incur additional expenditure to full fill the terms and conditions of the Agreement executed with the Club Mahindra and to that extent our liquidity will be adversely affected.*

We have executed the long-term agreement to lease with the Mahindra Holidays and Resorts India Limited (Club Mahindra) on December 27, 2023 for a term of 20 years and upon expiry of the term the lease shall be renewable for such further period as may be mutually agreed between both the parties with a Lock in Period of 5 years on certain terms and conditions. The agreement stipulates that our company will undertake the construction and refurbishment of the Club Building and Villas on the designated property and all construction activities must adhere to the standards and specifications approved by Club Mahindra, as outlined in the Project Improvement Plan. The development and operational aspects of the resort must meet Club Mahindra's quality and service standards to ensure consistency with their brand expectations. The facilities and services provided must align with the benchmarks set forth in the agreement, including amenities and guest experience. Thus, we have to incur sizable *additional expenditure to full fill the terms and conditions of the Agreement to lease executed with the Club Mahindra and to that extent our liquidity will be adversely affected*.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20.00 to ₹24.00 per share, Issue size of [●] Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Amount (₹)	Cumulative Quantity	Subscription
500	24.00	500	16.67 %
1000	23.00	1500	50.00 %
1500	22.00	3000	100.00 %
2000	21.00	5000	166.67 %
2500	20.00	7500	250.00 %

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

FUTURE OF HOTEL INDUSTRY IN INDIA

The Indian hotel industry is on the verge of exponential growth, with projections indicating a 7-9% revenue increase in FY2025. This surge is driven by the surging demand for domestic leisure travel, along with a rise in events like weddings and business travel. ICRA anticipates occupancy rates will reach their highest in a decade, fuelled by growing interest in tier-II cities and spiritual tourism destinations. Premium hotel occupancy rates are predicted to hover at 70-72% in FY24 and FY25, with average room rates expected to reach between US\$ 94.06 and US\$ 96.47 (Rs. 7,800-8,000) in FY25. The industry is likely to experience a significant increase in domestic tourism due to the large population. Moreover, increasing global interest for leisure and business trips to India promises to further catalyse industry growth over the long term. The expansion of the Indian hospitality industry is supported by escalating travel and tourism activities, marked by a noticeable increase in both domestic and international tourists visiting for business and leisure, thus creating new opportunities in tourism and hospitality.

Amid these developments, the Indian hotel market is identifying substantial growth prospects, aiming to broaden its footprint in key urban areas and offer quality services across renowned brands. This expansion is driven by robust corporate performance, enhanced air travel connectivity across the country and a growing preference for

domestic leisure travel. Indian hotel chains are increasingly investing in digital technology and platforms to improve the customer journey from pre-booking to post-booking experiences.

Further, the state governments have also enacted laws regulating public order and police, which provide, *inter alia*, for the licensing of places of public amusement or entertainment, registering eating houses and obtaining a 'no objection certificate' for operating such eating houses with the police station located in that particular area, along with prescribing penalties for non-compliance.

National Environment Policy, 2006

This Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of the National Environmental Policy:

OTHER RELEVANT LEGISLATIONS

The Digital Personal Data Protection Act, 2023 (the “DPDP Act” or the “Act”)

The DPDP Act received the assent of the President on August 11, 2023, and will be effective from the date to be notified by the Central Government. The Act provides for the processing of digital personal data in a manner that recognises both the right of individuals to protect their personal data and the need to process such personal data for lawful purposes and for matters connected therewith or incidental thereto.. The Act defines Data Principal as individuals to whom the personal data relates and Data Fiduciary as people determining the purpose and means of processing personal data. By virtue of the Act, all Data Fiduciaries are required to obtain free, informed and unconditional consent from individuals before processing their data. This consent should be accompanied or preceded by a notice including the details of personal data and the purpose for which the same is proposed to be processed. The jurisdiction of the Act also extends to the processing of digital personal data outside India if it is

for offering goods or services or profiling individuals in India. The DPDP Act further provides that where consent is the basis of processing personal data, the data principal providing the consent, may withdraw such consent at any time. Data principals will have the right to demand the erasure and correction of data collected by the data fiduciary. Any data processed prior to such withdrawal shall be considered lawful. The Act introduces the concept of 'deemed consent' in instances where the data principal provides personal data (i) to the data fiduciary voluntarily and for a legitimate purpose, (ii) for performance of function under any law, or service or benefit to the data principal, (iii) in compliance with a judgment or order, (iv) responding to medical emergency involving threat to life or immediate threat to health of the data principal, (v) for provision of medical treatment or health services during an epidemic, outbreak of diseases or any other public threat to public health, (vi) for taking measures to ensure safety during any disaster or any breakdown of public order, (vii) for purposes related to employment including prevention of corporate espionage, maintenance of confidentiality of trade secrets, intellectual property, classified information, recruitment, termination of employee. The data can only be processed for the specific purpose for which it is deemed to be given and must be necessary for fulfilling the purpose for which it has been provided. It further imposes certain obligations on data fiduciaries including (i) implementation of technical and organisational measures to ensure compliance, (ii) adopting reasonable security safeguards to prevent personal data breach, (iii) ensuring that personal data processed is accurate and complete, (iv) informing the Data Protection Board of India (the "Data Protection Board") regarding any personal data breach, (v) deleting or removing personal data no longer in use or necessary for legal or business purposes with exemption given to only start-ups registered with Ministry of Commerce and Industry, (vi) publishing the business contact information of the data protection officer, (vii) implementing a grievance redressal mechanism to redress grievances of data principals, and (viii) processing of data to another data fiduciary under a valid contract. The Act provides for the rights and duties to be complied by the data principals and also provides a tiered mechanism for grievance redressal. Individuals aggrieved under the law will be required to first approach the grievance redressal mechanism provided by the data fiduciary. Once they have exhausted this option, they will be allowed to approach the Data Protection Board. Appeals from the Data Protection Board will lie before the Telecom Disputes Settlement and Appellate Tribunal. Any form of noncompliance shall attract a financial penalty as prescribed in the Schedule of the Act which may extend to INR 2500 million.

Furthermore, it provides for the establishment of a regulatory authority known as the Central Consumer Protection Authority (CCPA), with wide powers of enforcement. The CCPA will have an investigation wing, headed by a Director-General, which may conduct inquiry or investigation into consumer law violations. Further, the CCPA has been granted wide powers to take *suo moto* actions, recall products, order reimbursement of the price of goods/services, cancel licenses and file class action suits, if a consumer complaint affects more than one individual.

The Information Technology Act, 2000 (the "IT Act") and the rules made thereunder.

Provision is made for diminution in the value of the investments, if, in the opinion of the management, the same is considered to be other than temporary in nature. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Current investments are carried at lower of cost and fair value determined on an individual basis. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss."

f) PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS

(i) Tangible Assets

Property, plant and equipment are stated at historical cost less accumulated depreciation, and accumulated impairment loss, if any. Historical cost comprises of the purchase price including duties and non-refundable taxes, borrowing cost if capitalization criteria are met, directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management and initial estimate of decommissioning, restoring and similar liabilities.

Subsequent costs related to an item of property, plant and equipment are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in statement of profit and loss during the reporting period when they are incurred.

An item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gains or losses arising from de-recognition are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is de-recognized.

g) DEPRECIATION AND AMORTISATION

Depreciation on property, plant and equipment is provided on written down value basis using the rates arrived at based on the useful lives specified in the Schedule II to the Companies Act, 2013.

h) IMPAIRMENT OF ASSETS

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations are recognised in the statement of profit and loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

i) RETIREMENT BENEFITS

(i) Short-term employee benefits:

Short term employee benefits are recognised as an expense at the undiscounted amount in the statement of Profit and loss for the year which includes benefits like salary, wages, bonus and are recognised as expenses in the period in which the employee renders the related service.

(ii) Post-employment benefits:

Defined Contribution Plan

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit Plans

Unfunded Plan: The Company has a defined benefit plan for post-employment benefit in the form of Gratuity.

Liability for the above defined benefit plan is provided on the basis of valuation, as at the Balance Sheet date, carried out by an independent actuary. The actuarial method used for measuring the liability is the Projected Unit Credit method.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company recognises termination benefit as a liability and an expense when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will

be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefits fall due more than 12 months after the balance sheet date, they are measured at present value of future cash flows using the discount rate determined by reference to market yields at the balance sheet date on government bonds."

j) BORROWING COST

Borrowing costs are interest, commitment charges and other costs incurred by an enterprise in connection with Short Term/ Long-Term borrowing of funds. Borrowing cost directly attributable to acquisition or construction of qualifying assets are capitalized as a part of the cost of the assets, upto the date the asset is ready for its intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the year in which they are incurred.

k) EARNINGS PER SHARE

The earnings in ascertaining the Company's EPS comprises the net profit after tax attributable to equity shareholders and includes the post tax effect of any extraordinary items. The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/(loss) after tax attributable to Equity Shareholders (including the post tax effect of extra ordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period.

l) TAXATION

Tax expense for the year comprising current tax & deferred tax are considered in determining the net profit for the year. Provision is made for current tax and based on tax liability computed in accordance with relevant tax laws applicable to the Company. Provision is made for deferred tax for all timing difference arising between taxable incomes & accounting income at currently enacted or substantively enacted tax rates, as the case may be. Deferred tax assets (other than in situation of unabsorbed depreciation and carry forward losses) are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each Balance Sheet date. Deferred tax assets, in situation of unabsorbed depreciation and carry forward losses under tax laws are recognised only to the extent that where is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be recognised. Deferred Tax Assets and Deferred Tax Liability are been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liability and where the Deferred Tax Asset and Deferred Tax Liability relate to Income taxes is levied by the same taxation authority.

m) PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS:

(i) Provisions

A provisions is recognized when the Company has a present obligation as a result of past event, if it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

(ii) Contingent Liability

Contingent Liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(iii) Contingent Assets

Contingent Assets are neither recognised nor disclosed in the financial statements.

n) SEGMENT REPORTING

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under “unallocated revenue / expenses / assets / liabilities”.

o) CASH & CASH EQUIVALENTS

Cash & cash equivalents comprise cash and cash on deposit with banks and corporations. The company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amount of cash to be cash equivalents.

p) LEASES

Leases where the Lessor effectively retains substantially all the risks and benefits of ownership of the Leased Asset, are classified as 'Operating Leases'. Lease rentals with respect to assets taken on 'Operating Lease' are charged to Statement of Profit and Loss on a straight-line basis over the lease term.

Leases which effectively transfer to the Company substantially all the risks and benefits incidental to the ownership of the leased item are classified as 'Finance Lease'. Assets acquired on Finance Lease which substantially transfer all the risks and rewards of ownership to the Company are capitalized as assets by the Company at the lower of the fair value and the present value of the minimum lease payment and a liability is created for an equivalent amount. Lease rentals payable is apportioned between the liability and finance charge so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

q) GOVERNMENT GRANTS

Government grants / subsidies received towards specific fixed assets have been deducted from the gross value of the concerned fixed assets and grant / subsidies received during the year towards revenue expenses have been reduced from respective expenses.

Export benefits / incentives are accounted on accrual basis. Accordingly, estimated export benefits against exports affected during the year are taken into account as estimated incentives accrued till the end of the year. In case of License not revalidated after the date of expiry, the proportionate export benefit / incentive taken credit in earlier year(s) is written off in the year of expiry of License.
