MANAGEMENT DISCUSSION & ANALYSIS

Outlook of Indian Economy:

Overall Indian economy is in good shape and growing. India's gross domestic product (GDP) grew by 7 per cent year-onyear in October-December 2016 quarter, which is the strongest among G-20 countries, as per Organization for Economic Co-operation and Development (OECD) Economic Survey of India, 2017. According to IMF World Economic Outlook Update (January 2017), Indian economy is expected to grow at 7.2 per cent during FY 2016-17 and further accelerate to 7.7 per cent during FY 2017-18.

There has been a pick-up in the reform momentum and the lead indicators of economy have shown improvement. The inflation is under control and the current account deficit (CAD), on a cumulative basis, narrowed to 0.7% of GDP in 2016-17 from 1.1% in 2015-16 on the back of the contraction in the trade deficit to \$112.4 billion in 2016-17 from \$130.1 billion in 2015-16, could well narrow further during the next fiscal. The various initiatives undertaken by the new Government like structural reform initiative, deregulation of diesel prices, relaxation of labour market laws linking of cash transfers with a view to increase the financial inclusion, thrust on domestic manufacturing sector under –Make in India initiative alongwith fall in international crude oil prices and introduction of Goods & Service Tax Act are bond to have positive effects on the economy in the coming years. However, the Gross Fiscal Deficit remains an area of concern. Total Foreign direct investment (infows) hit a record all time high of USD 60.08 billion during 2016-17, a massive hike from the previous fiscal, according to a report released by DIPP.

Industry Overview:

As you are aware that your Company is engaged in the business of manufacturing and trading in varied products:

Liquefied Petroleum Gas (LPG):

With India's economic growth closely linked to energy demand, the need for oil and gas is projected to grow further, rendering the sector a fertile ground for investment. As per projections by the Petroleum and Natural Gas Ministry of the Government of India, it is expected that by 2016-17, India's demand for gas will touch 124 MTPA against a domestic supply of 33 MTPA and higher imports of 47.2 MTPA, leaving a shortage of 44 MTPA, and as per Business Monitor International (BMI) predicts that India will account for 12.4 per cent of Asia-Pacific regional oil demand by 2015.

Textile:

With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade. Changing lifestyles and increasing demand for quality products are set to fuel the need for apparel. The sector contributes 14% to industrial production, 4% to India's GDP and constitutes 13% of the country's export earnings.

The future for the Indian textile industry looks promising, buoyed by both strong domestic consumption as well as export demand. The domestic textile and apparel industry in India is estimated to reach USD 100 Billion by 2016-17 from USD 67 Billion in 2013-14. Exports in textiles and apparel from India are expected to increase to USD 65 Billion by 2016-17 from USD 40 Billion in 2013-14.

Agriculture Industry:

Given the importance of the agriculture sector, the Government of India, in its Budget 2016–17, planned several steps for the sustainable development capacity building of agriculture. The 12th Five-Year Plan estimates the food grains storage capacity to expand to 35 MT. Also, 4 per cent growth would help restructure the agriculture sector in India in the next few years. It has marked an ambitious target of Rs 9 Lakh Crore of agriculture credit during 2015-16. Government has announced 100% FDI through FIPB route for marketing of food products that are produced or manufactured in India and also to make food trade and processing industry more efficient

Factors such as reduced transaction costs and time, improved port gate management and better fiscal incentives would contribute to the sector's growth. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers.

(Referred to Paragraph 2(f) of Report on Other Legal and Regulatory Requirements of our Report of even date)

We have audited the internal financial controls over financial reporting of MAURIA UDYOG LIMITED as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
