Pace Digitek Ltd Secures Rs. 17,750 million 250 MW Solar + 1.1 GWh BESS Project from KREDL

With this order win, Pace Digitek's order book stands at over Rs. 100,000 million

Bangalore, 11 February 2026: Pace Digitek Limited, an integrated provider of Telecom infrastructure and Energy solutions, has received a Letter of Award (LoA) from Karnataka Renewable Energy Development Limited (KREDL), a Government of Karnataka Undertaking, for the development of a renewable energy project at Pavagada Solar Park.

With the receipt of this order, Pace Digitek's total consolidated order book stands at Rs. 102,428 million, comprising Rs. 77,792 million in the Energy segment (*Solar EPC, standalone BESS, Solar + BESS and BOS projects*) and Rs. 24,637 million in the Telecom segment (*Tower infrastructure EPC, O&M and telecom power equipment supply*).

The project involves setting up a 250 MW Solar PV Power Project integrated with a 250 MW / 1,100 MWh Battery Energy Storage System (BESS) at Ryapte, located within the Pavagada Solar Park, Karnataka.

This project, awarded under a tariff-based competitive bidding process (Tranche I), is designed to supply peak power and optimize grid utilization in Karnataka. The Karnataka Electricity Regulatory Commission (KERC) has adopted an interim tariff of Rs. 5.51 per unit with Viability Gap Funding (VGF) for a tenure of 25 years in accordance with the PPA.

Key Highlights of the Agreement:

- **Total Capacity:** 250 MWAC Solar PV Project along with 250 MW / 1,100 MWh BESS
- **Location:** Annadanapura and Reddyvarahalli, Pavagada Taluk, Tumkuru District, Karnataka
- **Timeline:** Commercial Operation Date (COD) within 18 months from PPA signing
- **Project Duration:** 25 years
- **Tariff:** Interim tariff of Rs. 5.51 per unit, as adopted by KERC, with Viability Gap Funding (VGF) support

Commenting on the development, **Chairman & Managing Director, Mr. Venugopal Rao Maddisetty** said:

"We are honoured to have been selected by KREDL for this transformative project at Pavagada Solar Park. This win is a testament to Pace Digitek's evolving capabilities in delivering large-scale, integrated renewable energy and storage solutions. By combining 250 MW of solar power with a massive 1.1 GWh Battery Energy Storage System, the project increases Pace Digitek's total BESS order book portfolio to over 5 GWh, while enabling the delivery of dispatchable, peak-hour power aligned with long-term grid stability requirements in Karnataka.

Furthermore, our commitment to a minimum of 20% local content including our indigenously developed Energy Management System (EMS) software underscores our dedication to the 'Make in India' initiative and the development of a self-reliant domestic ecosystem for

advanced battery technology. We look forward to executing this landmark project within the next 18 months and contributing significantly to India's green energy transition."

About PACE Digitek Limited

At the core of Pace Digitek's extraordinary journey lies a legacy of innovation and commitment dating back to 2007. From our modest beginnings, we have established a successful track record in delivering projects and services across the Energy and Telecom & ICT sectors. Pace Digitek Limited and its subsidiary Lineage Power Private Limited are now leveraging this growth to make a significant impact in the renewable energy space. Our vision is to contribute to a more efficient and digitally connected nation.

The Group is structured such that Pace Digitek provides EPC execution and overall strategic direction, Lineage Power manufactures in-house cell-to-container BESS systems and TransGreenX, the Group's asset-holding company, manages asset ownership under the BOO platform and long-term infrastructure assets.
