Dear Sir/Madam,

Sub.: Errata to the Annual Report for FY 2018-19 ("Errata")

Ref.: Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations')

Pursuant to Regulation 30 of the SEBI Listing Regulations, we wish to notify following correction in the Annual Report of the Company for the FY 2018-19:

On Page No.43 of the Annual Report, the present long term credit rating of the Company should be read as AA-(Positive) instead of AA-(Negative). The words used in bracket suggest the outlook of the Company for the given rating.

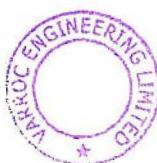

The above correction is being simultaneously intimated to the shareholders by email and newspaper advertisement and also incorporated in the Annual Report made available on the website of the Company at weblink [http://www.varrocgroup.com/financial\\_results#tab1](http://www.varrocgroup.com/financial_results#tab1).

We regret the inconvenience caused and request you to kindly take the above on record.

Thanking you,

Yours Faithfully,  
For Varroc Engineering Limited

Dear Sir/Madam,

Sub.: Annual General Meeting, Annual Report 2018-19

The 31<sup>st</sup> Annual General Meeting of the Company is scheduled to be held on Friday, August 09, 2019 at 10:00 a.m. at the Auditorium located at the Registered Office of the Company at Plot No. L-4, MIDC Industrial Area, Waluj, Aurangabad-431136, Maharashtra.

We would like to inform that the Company has completed dispatch of the Notice of AGM (i.e. including attendance slip, proxy form and route map for reaching the AGM venue) and the Annual Report for the financial year 2018-19, to all its Members on July 15, 2019.

Further, pursuant to Regulation 34(1) of Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations'), we are submitting herewith the Annual Report of the Company along with the Notice of AGM for the financial year 2018-19.

The Notice of AGM and the Annual Report for the financial year 2018-19, are also available on the Company's website at [www.varrocgroup.com](http://www.varrocgroup.com).

Kindly take the above on your record and disseminate to all concerned.

Thanking you.

Yours faithfully,  
For Varroc Engineering Limited

Rakesh Darji  
Company Secretary & Compliance Officer

# WE ARE FUTURE READY

ANNUAL REPORT  
2018-19

# Forward-Looking Statement

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions.

This report and other statements-written and oral-that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should, known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should keep this in mind.

We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

# Future Is Created By Paving The Way For A Better Tomorrow

Diverse trends impact the world we live in and present complex and uncertain outcomes. These disruptive factors with respect to the automotive industry include innovations pertaining to autonomous driving, connected vehicles, government pursuing environment-friendly public mandates, emission-related regulations and changing consumer preferences of ownership—all challenging our ability to make decisions today.

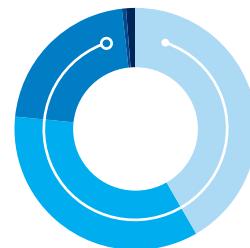

Varroc, however, sees the future being filled with opportunity, discovery and expansion that will take Varroc to the next level.

## Hence at Varroc, we believe We are Future Ready

- Comprehensive global footprint across 5 continents, 14 countries, 41 operating and 2 upcoming manufacturing facilities, 16 Research & Development centres
- Over 13800 employees across the globe
- Broad-based client base including major global PV OEMs and leading Indian 2W OEMs
- Manufacturing base in low-cost countries like Czech Republic, India, Mexico, Morocco, China, Poland and Turkey
- Technology-focused products aligned to the upcoming trends in the automotive sector such as Electric vehicles, connected vehicles and advanced lighting applications for a greener, connected and autonomous world
- An empowering culture to enable every employee with a sense of purpose. We nurture talent and have created future-ready programs to drive sustainable expansion
- Strong Competitive Position in a Growing Market Segments

# About Us

## Group Overview

Varroc is a global tier-1 automotive component group. We design, manufacture and supply exterior lighting systems, plastic and polymer components, electrical-electronics components, and precision metallic components to passenger car, commercial vehicle, 2-wheeler, 3-wheeler and off-highway vehicle ("OHV") OEMs directly worldwide. We are the second largest Indian auto component group (by consolidated revenue for FY2017) (Source: CRISIL Research) and a leading tier-1 manufacturer and supplier to Indian 2-wheeler and 3-wheeler OEMs (by consolidated revenue for FY2017) (Source: CRISIL Research). We are the sixth-largest global exterior automotive lighting manufacturer and one of the top three independent exterior lighting players (by market share in 2016) (Source: Yole).

In FY19, we clocked in revenue in excess of ₹120 billion. Between FY2016 and FY2019, we had a compound annual growth rate ("CAGR") of 13.6% in our revenue.

## History

We commenced operations in India with our Polymer business in 1990. We initially grew organically in India by adding new business lines, such as our Electrical division and Metallic division. Subsequently, we diversified our product offerings and expanded our production capacity through various investments, joint ventures and acquisitions. The acquisitions most notably included our 2012 acquisition of Visteon's global lighting business, now known as Varroc Lighting Systems. In 2007 we acquired I.M.E.S (a manufacturer of hot steel forged parts for the construction and oil and gas industries) in Italy and in 2011 we acquired TRI.O.M. (now known as VLS Italy, a manufacturer of high-end lighting systems for global motorcycle OEMs) with operations in Italy, Romania and Vietnam. On February 13, 2018, we entered into a joint venture with Dell'Orto S.p.A., Italy, for the development of electronic fuel injection control systems for 2-wheelers and 3-wheelers. In 2018 we acquired a Turkey-based lighting products manufacturer.

## Our Businesses

We have end-to-end capabilities across design, R&D, engineering, testing, manufacturing and supply of various products across our business. We have two primary business lines, namely (i) the design, manufacture and supply of exterior lighting systems to passenger cars OEMs worldwide (our "Global Lighting Business" or VLS) which we undertake through our subsidiaries forming part of the VLS group and (ii) the design, manufacture and supply of a wide range of auto components in India (our "India Business"), primarily to 2-wheeler and 3-wheeler OEMs, including exports. Our India Business offers a diversified set of products across three product lines, namely Polymers/Plastics, Electrical/Electronic and Metallic components. In addition, we have other smaller businesses, which include the design, manufacture and supply of 2-wheeler lighting to global OEMs, and undercarriage forged machine components for OHVs and drill bits for the oil and gas sector (our "Other Businesses").

By locating its manufacturing facilities in comparatively lower cost countries, VLS is able to provide customers with lighting systems in a cost-efficient manner. VLS has a diversified customer base across nearly all major automotive markets in the world, except Japan and Korea. VLS has long-term relationships with leading auto manufacturers across the premium, mid-range and mass-market pricing spectrum, including Ford, Jaguar Land Rover, the Volkswagen Group, Renault-Nissan-Mitsubishi, Groupe PSA, FCA, a European multinational car manufacturer and an American electric car manufacturer. VLS has a broad portfolio of lighting products, including Halogen, Xenon/high-intensity discharge, light-emitting diode ("LED"), Matrix LED, high definition Micro-Electro-Mechanical Systems ("MEMS") and digital micromirror device ("DMD"), surface LED, organic light-emitting diode ("OLED") module, Flex LED, LED pixel and LED pixel headlamp, catering to the five product segments within external automotive lighting. VLS has sales offices in France, Germany and the United Kingdom and is headquartered in Plymouth, Michigan (United States of America).

# Vision

To be a ₹200 Billion supplier of innovative solutions for transportation and allied industry in 2020.

- Core business sectors will be exterior lighting and 2-wheelers mobility
- Be a partner of choice for vision, mobility and emission technologies
- Be the fastest growing player in our core sectors

# Mission

Bring leading edge technologies to the mainstream markets with high quality, cost competitive solutions.

- By delivering customized solutions with superior service
- Incorporating speed, agility and creativity
- Fostering an environment that empowers employees and encourages the pursuit of excellence

# Values

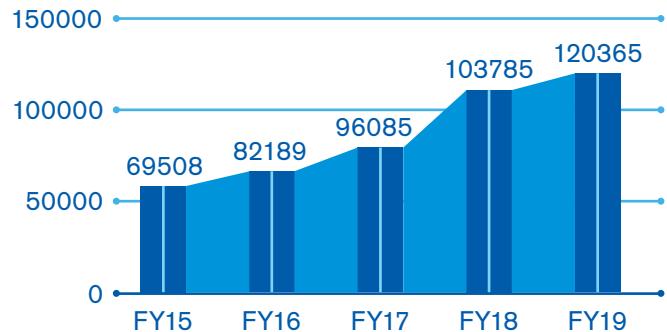

Our core values SHIPS serve as a common identity for every employee in the organization. These values have been ingrained in Varroc since inception and have stood the test of time. Our principles have helped us thrive in the global competitive market.

## **SHIPS:**

Earnings Per Share (₹)

# Future is Discovery

We have taken concrete steps to inculcate future readiness in all our new endeavours. One such step is that we are investing in new technology for the mass market application. As a move to enhance the cost-effectiveness and to increase our reach, we have developed technology that is expected to be used on a broader scale.

## New Product Offerings: VLS Business

### Adaptive Driving Beam (ADB)

VLS has developed ADB Headlamps, which communicate with onboard cameras and sensors to allow the customer to drive with high beams on permanently without creating glaring issue for upcoming vehicles. VLS already supplies ADB to various customers in Europe and is now waiting for positive regulatory changes in the US to start supplying ADB Headlamps in this critical market.

### Surface-LED Technology

VLS patented Surface-LED technology uses thin layers of micro-optic filters and conventional LED light sources to achieve the homogeneous appearance generally associated with OLED. Each homogeneously lit element is only 3.5mm thick, with a luminous intensity that can be scaled from 2,000-13,000 cd/m<sup>2</sup>. Unlike the current automotive-qualified OLED in the market, Surface-LED elements can be designed and produced in curved and 3-D shapes, as well as with multiple colours that enable them to achieve various functions.

With this new product, Varroc Lighting Systems combines the benefits of the still-emerging OLED technology, including its ultra-thin and homogeneous lighting profile, with the proven reliability, low cost and the flexibility of the LED. Surface-LED presents OEM designers with a new, cost-effective and high-impact avenue to create innovative lighting signatures on vehicles.

## New Product Offerings: India Business

The 2-wheeler segment of the auto industry in India is expected to see major changes in the near term. Some of those relate to emission norms like BS-VI and some are led by technology upgradations, particularly the transition to EV's.

Varroc has developed futuristic technology-driven products that relate to these trends. Some examples are:

### Telematics Products

The future trends indicate the need for an interdisciplinary field that encompasses telecommunications, vehicular technologies, and computer science. We have developed products such as turn-by-turn dashboards and connected 2-wheeler/car devices, which enable a host of analytical capabilities for multiple stakeholders apart from the drivers.

Varroc has developed the Varroc Telematics Control unit. It gathers vehicle data from ECU and transmits to a cloud-based platform (fig.1) and then the information is used for various use cases (fig.2) depending on the functionality of the location, fuel consumption or speed.

The telematics help not only keep up with the latest government legislation in telematics, but also helps cope with climate change.

The OEMs and fleet operators are strongly emphasizing energy saving and vehicle safety measures. At the same time, they want to ensure business models which can reduce total operational cost.

The primary use case for telematics is to measure driving data to offer services like driver behaviour analysis, predictive analysis and connected vehicle frameworks. Data collected from the vehicle is converted into a structured form to make accurate business decisions. For instance, helping an insurance company know the driver performance data to offer better products.

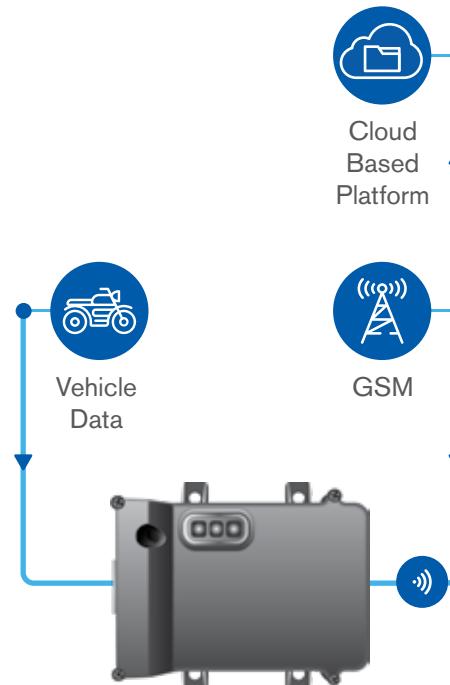

Figure 1 Varroc Standalone Telematics Unit

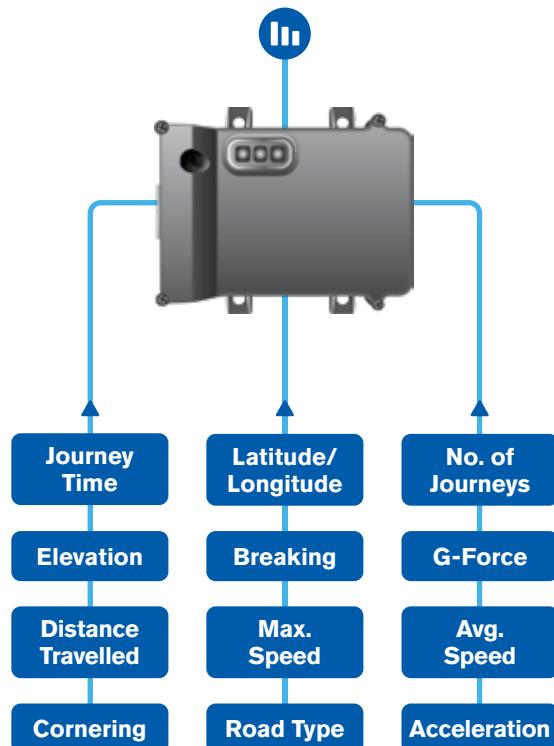

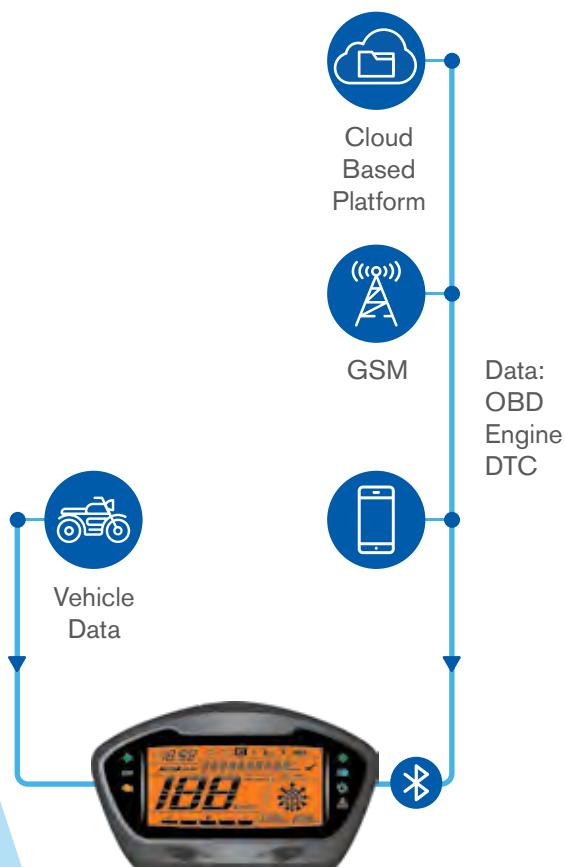

Figure 2 Various Data That Is Assimilated From The Telematics Control Unit

## Connected Vehicles

Increase in the purchasing power of customers has led to a shift in preference for vehicles equipped with advanced functions which are driven by Connectivity and Telematics, rather than simple commuting machines.

Varroc's engineering team has also developed a connected instrument cluster with mobile phone connectivity and turn-by-turn functionality (fig.3). This optionally can also be offered with cloud connectivity.

**Figure 3** Varroc Instrument Cluster integrated with Telematics

## Electronic Fuel Injection (EFI)

As per the stricter BS-VI norms, the use of EFI is expected to become widespread in 2-wheelers from April 2020. The EFI system presents electronics hardware that can be used to integrate multiple product lines. We have developed an EFI technology with our joint venture with Dell'Orto and have received initial orders for the same.

## Advance Driver Assistance System (ADAS)

An autonomous car is a vehicle that can guide itself without human intervention. This kind of vehicle has become a concrete reality and may pave the way for future systems where computers take over the art of driving. We are advancing our technology to aid autonomous cars, that are going to be the future.

Varroc is laying the foundation for an era where vehicles drive themselves (ADAS) offering services to vehicle OEMs.

### BS-VI Catalytic Converters

Regulatory emission norms have been the most significant factor driving the dynamics of the industry. We have taken steps to enable our technology to equip the best of the mechanics to all the vehicle components, which reduces the emission rate compared to the normal vehicles. As newer alternatives are being considered, it will aid us to create a more sustainable environment for all. We have developed the BS-VI compliant catalytic converters with technological support from Heraeus, Germany and already secured orders for the same.

### Traction Motors for EV's

A traction motor is an electric motor used for propulsion of a vehicle, such as locomotives or electric roadway vehicle. With the impending transition to electric vehicle happening over the coming years, traction motors are expected to replace the traditional internal combustion engines. Varroc has completed development of Traction Motor and Controller with prototypes ready for 2-wheelers and work is in the development stage for 3-wheelers.

### LED Lamps

Varroc is the first tier-1 supplier/ancillary to produce LED lamps for a leading 2-wheeler OEM in India. Since then LED lamps have become a trend in the new launches. Our technological capabilities in Indian markets have enabled us to offer a variety of innovative solutions in this product category and Varroc is the only company in India to own technology in LED lamps. We now look forward to increasing our presence in 4 wheeler LED lamps in India.

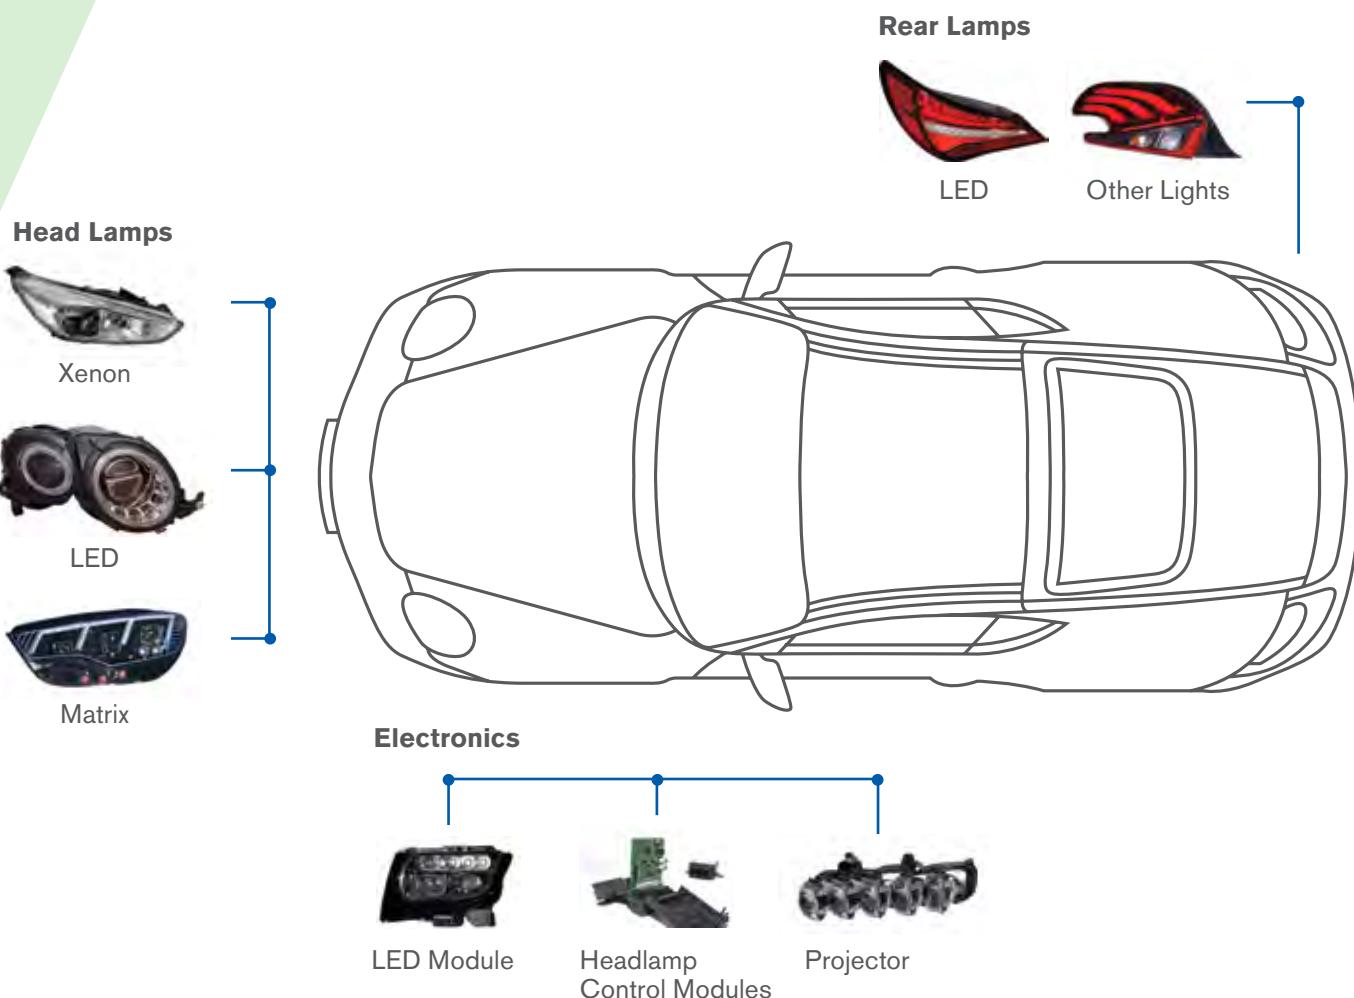

### Paintless Polymer Products

We have introduced an alternate process to eliminate traditional painting process involved in 2-wheeler plastic parts and developed a technology to obtain similar durability and finishing using a new moulding technology.

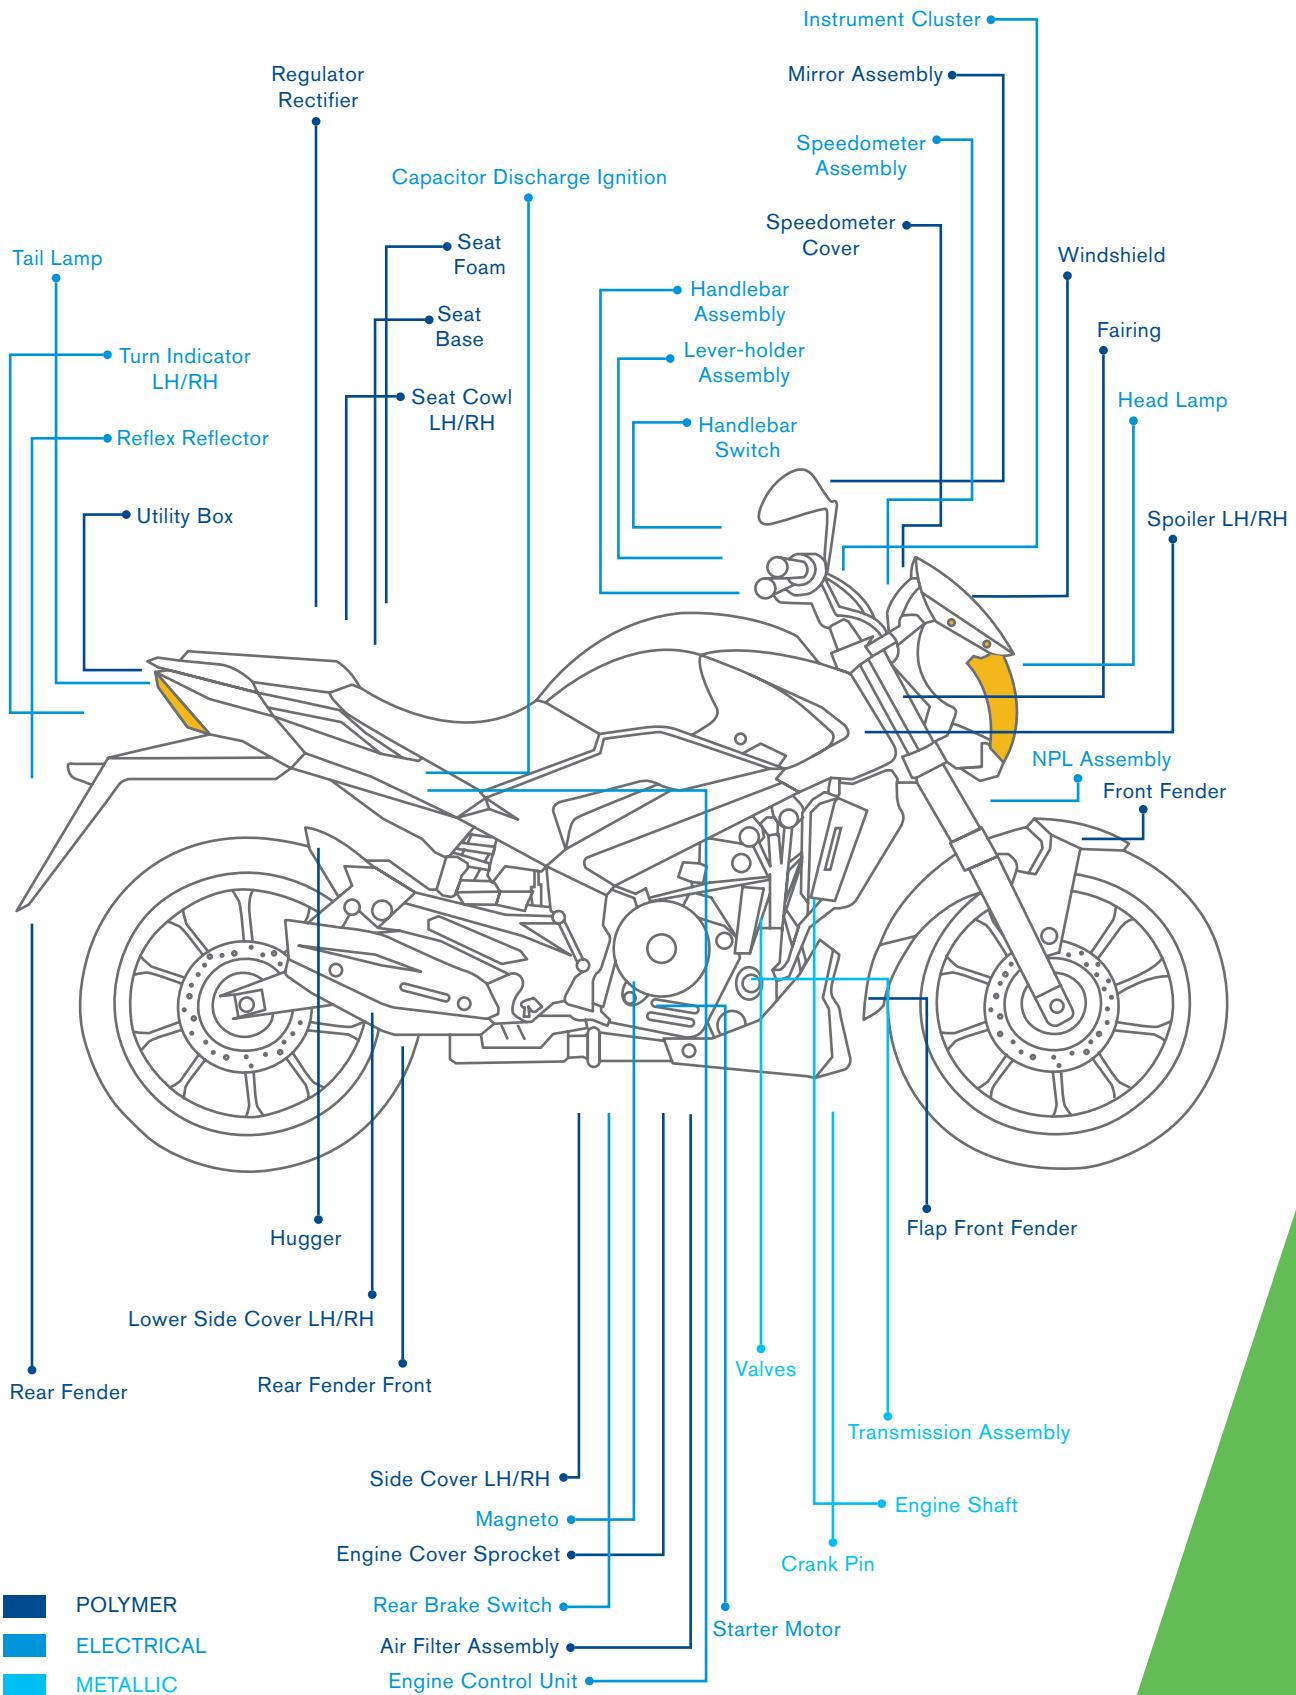

## Research & Development Capabilities In Numbers

Future is always created with innovations and with our in-house R&D capabilities spread across India, China, USA, Mexico, Germany, Italy, Romania and Poland, we have established ourselves at a steady pace. With 1,500 R&D engineers and 185 patents granted globally, we have been at the forefront of discovering newer ways and means of simplifying mobility.

## PRODUCT OFFERINGS/R&D CAPABILITIES

# Future is Customer

## Unique Customer Proposition

We have always offered a unique customer proposition for all our businesses. Since inception, we have built our reputation as a preferred supplier to many OEMs such as Bajaj, Royal Enfield, Honda and others. This reputation has helped us to diversify our customer portfolio and recently we have expanded our presence with Hero Group and we have secured our first order with TVS. Customer propositions have been part of our strategy and have helped us grow. Post our acquisition of VLS business our first priority was restoring confidence with the existing customers. This helped us in doubling our revenue to over USD 1 billion over a period of 5 years. The next phase of growth is expected to be driven by expanding our presence with leading global players like VW and Renault-Nissan-Mitsubishi combine. During the year FY19, our VLS business secured orders for 462 million Euro (526 million USD) equivalent in annual revenues, which is the highest ever order within a particular year in the history of VLS.

## Building Blocks Of Our Unique Customer Proposition Are:

### Speed

We are quick to respond to the needs of our customers. We have equipped ourselves with the means to be ever ready with the needs of the customer and it has helped us in reducing our turnaround time.

### Flexibility

We have always been flexible to the needs of the customers. We go the extra mile to make sure our customers are happy and satisfied with our products and services.

### Strong Customer Relationships

We make sure our relationship with the customer extends more than just transactional. It is imbibed in our culture to respect relationships and create a lasting bond that goes beyond business and services.

### One-Stop Solution Provider to Key OEMs

From the latest technology to the latest lighting components, we are a one-stop shop for all our customers need.

### Geographical Reach

We are an Indian company with a global presence in 17 countries.

### Low Cost and Comprehensive Footprint for Lighting Business

Our manufacturing and R&D footprints are in low-cost geographies which enable us to provide cost-effective solutions to our customers without compromising on quality and technology.

### Technology Focus

For our India business, we are focused on bringing the best of the technology into the market and creating a unique offering which differentiates us from the competition.

For our global lighting business, by continuously adopting as well as inventing emerging technologies in the shortest possible time we have positioned ourselves as the fastest technology follower. This strategy has helped us optimize our R&D costs and improvise our product offerings.

# Future is Capability

Our relentless focus on technology-enabled capability development has played a key role in driving growth. We continuously focus on building capabilities by expanding our locational footprints for manufacturing as well as R&D, focusing on select value-accretive acquisitions and expanding customer base. During the year many such initiatives were undertaken. A summary of them is given below:

## Expanding our Geographical Footprints

### Turkey Acquisition

To capitalize on emerging market growth and increase our global presence we acquired a Turkey-based interior and exterior lighting manufacturer viz. Sa-Ba, Turkey. This being a growing market, the acquisition enhances our ability to support existing customers on a global platform. This also increases our global manufacturing presence to 14 countries.

### New Facilities

#### Morocco & Brazil:

During the year, VLS has set up a new manufacturing plant in Brazil, to serve the South American market, and in Morocco, to serve the Southern European and North African markets. Both these facilities started commercial production in the fourth quarter of FY19.

#### Poland & Chennai:

VLS is in the process of setting up a new manufacturing plant in Poland, to serve key customers in European markets, and in Chennai, to serve some of the key global OEMs. We anticipate that our manufacturing plants in Poland and Chennai will commence production in FY20.

#### Japan:

Varroc has expanded its footprints in Japan with the opening up of an office in Tokyo to increase the level of collaboration with existing and potential Japanese customers. They currently constitute a substantial portion of India revenue.

Brazil

Morocco

Japan

### Expanding our R&D Capabilities

Focus on R&D and the quest for low-cost solutions has always been our key strength. Recently we have expanded our R&D footprint by commissioning a facility in Krakow, Poland. This centre hosts a workspace for 120 engineers with spaces for mechanical, electrical and optical engineering. Coupled with electronic laboratory, we intend to use this facility as a focal point for global purchase team.

### Expanding our Customer Base

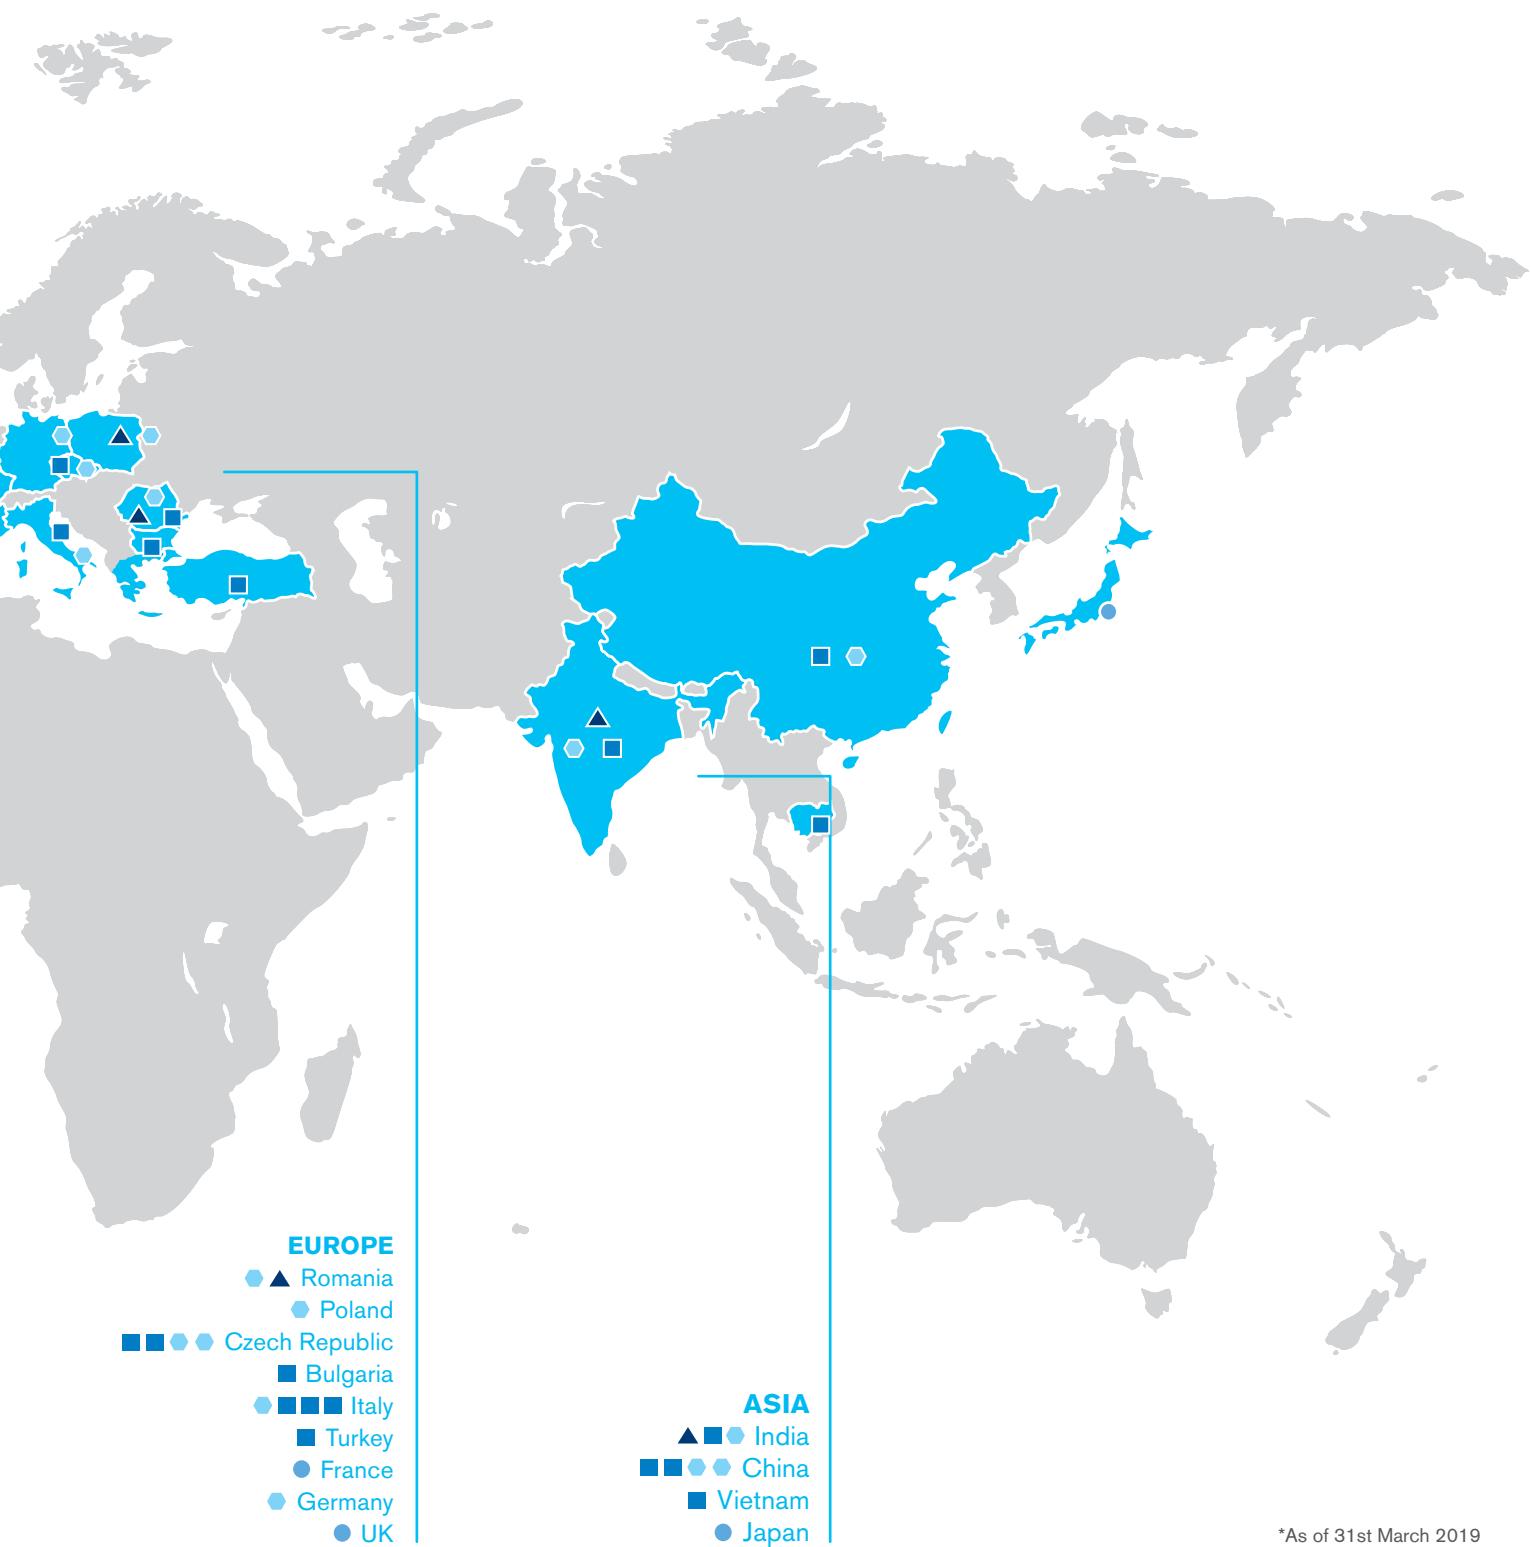

During the year we have been successful in penetrating deeper into the existing customer and adding new customers for both of our businesses. We successfully added TVS Motor Company as a customer for our India business and expanded the existing offering to Hero Group. For our international business, we have won several orders from VW group and won significant orders from Renault-Nissan-Mitsubishi combine.

# Geographical presence for our Global Business

# Future is Digitalization

Digitalization is core to the successful functioning of a future-ready organization. This process needs to happen in every core function of the organization. Our process will introduce new softwares that would replace the old transactional ways and streamline everything for the ease of function. Our aim is to centralise the mode of transaction and make employees, vendors and customers a part of a system that is for all. To make our internal operations seamless and dynamic, we have aimed at achieving Digitalization across two spectrums viz. Business Process Automation and Digital Operations. The key activities undertaken in these two areas are:

Spectrum	Category	Activities Being Undertaken
Business Process Automation	Business Development	<ul style="list-style-type: none"> <li>Use of Digital platforms in the management of customer wise product profiles including cost structures and subsequent amendments</li> </ul>
	Production	<ul style="list-style-type: none"> <li>Automation of the capacity planning process</li> </ul>
	Finance	<ul style="list-style-type: none"> <li>Digitalized Capex approval system</li> <li>Digitization of Debtors/Creditors related processes and Cash Management Systems</li> </ul>
	Human Resources	<ul style="list-style-type: none"> <li>Employee Self Service modules integrating all processes BI Module for the HR Function</li> <li>“Real-Time Data” of shop headcount of each Plant/Process/BU to take Business decisions. Upgradation of Contract Labour Management System (CLMS) is not in a matured stage</li> </ul>
Digital Operations	New Product Development	<ul style="list-style-type: none"> <li>Driver Telematics to explore opportunities by providing Real-Time Data to various stakeholders</li> </ul>
	Production	<ul style="list-style-type: none"> <li>Driving IoT and Energy Management System for all Electrical Business unit plants</li> </ul>
	Purchase & Procurement	<ul style="list-style-type: none"> <li>Supplier Capacity Planning and Real-Time Monitoring of the same</li> </ul>

# Future is People

## How is HR planning to create an empowering culture

Human resources require a continuous process of systematic planning ahead or being future ready to achieve optimum use of an organization's most valuable asset—quality employees. Human Resources ensures the best fit between employees and jobs while avoiding manpower shortages or surpluses. At Varroc, our main goal for HR is to create and communicate a clear picture of the organization and to hire and develop the resources needed to achieve the organization's business objectives. The uncompromising factor about the organization is that it has one global framework. As Varroc grows, the diversity grows, and HR is the leader in ensuring the organizational culture is clearly defined. At Varroc, our culture is clearly defined through our SHIPS values. Our SHIPS culture is an inclusive and empowering culture that enables all employees to achieve their goals. Over a number of years, we have grown from a few employees to many thousands and spread ourselves to different corners of the world. During these transitions, we have successfully maintained the agility and as we are growing, we will keep the same feeling of empowerment and inclusiveness as a footnote for all our future endeavours.

## People Readiness—Nurturing Talent

We are living in exciting times where technology is changing frequently and impacting the role requirements of our jobs. This also means that many new jobs will be created over the next 10 years. The key to tackle this situation is by predicting the future and be future ready by nurturing and developing our talent. 4.0 is becoming a new normal. BS-VI is in the sight. EVs is the necessity of time. ABS is mandatory for 2-wheelers. These norms have heavily influenced the automobile sector and have cascaded onto the auto-ancillary space. This means talent can not only be developed functionally to meet future challenges but also be agile and flexible to deal with uncertainties. Customer Centricity and Operational Excellence will continue to remain pivotal to the performance of employees. In such a scenario, improving the ability to predict job performance is an important goal for Varroc. It is only by estimating an employee's probability of contributing to the organization in the future that we will be able to make smart hiring and promotion decisions.

**To be future ready, Varroc distinctly focuses on following interventions:**

### Future Ready Program

Building functional capability and creating a talent pool to meet future challenges is planned through our various university programs globally. We hire fresh talent from various premier engineering colleges across the globe and map them to critical projects in various functions like Quality, Advanced Engineering, R&D, SCM and Manufacturing Engineering to work on. These projects are supervised and fast-tracked through the guidance of project guides and mentors. There are project reviews scheduled across the year to track their progress or at the completion of the projects. Towards the end of projects, they are evaluated for potential assessment for future full-time roles. To guarantee utmost exposure, they may be provided an opportunity of job rotation through feeder roles, world-class training programs and on the job training. Individual Development Plans help to define their career paths and transition into the aspirational role.

### Future Leaders Program

We at Varroc are unique in identifying and nurturing talent from colleges and universities across all of our locations to be future leaders at Varroc. The selection is based on hiring plans in our Annual Business Plan and is decided on expertise to be brought on depending on the projects. The candidates in these schools undergo a series of assessment tests ranging from personality, reasoning, analytical tests, etc. Varroc strongly believes in aligning the organizational goals with the individual goals. Hence, it is paramount to steer talent in the right direction for greater impact. For achieving this, we have focused induction giving management trainees the business context, future critical projects, organizational challenges and opportunities. Business Leaders share their perspective to infuse confidence and they are given high impact projects. A strong review mechanism is set to analyze and track progress on deliverables, value-add in the business, and key contribution made.

## **Leadership Capability Building**

Technology is a game changer for Varroc. Technology also brings in niche skills that are rare to find in the market. The speed of technological advancement is immense. However, technology along with leadership competence is necessary for excellence. We at Varroc understand that retaining talent in a VUCA (Volatility, Uncertainty, Complexity and Ambiguity) world is of extreme priority. Varroc focuses on developing successors for critical roles to ensure that there are no gaps in the leadership succession plan. Varroc invests into critical talent to build flexibility by aligning an employee's potential to the Varroc Competency Framework. It also aims to build capability through blended learning experiences, partnership with universities and learning partners. Our focus is on building world-class leadership and a culture of learning, build talent for the future. We have mapped high potential employees to critical roles, identified them on the grid of performance and potential and looked at gaps to plan for succession and growth movements that meet business needs.

## **Building a Strong Succession Pipeline**

Varroc has successfully identified high-impact critical roles in the company's succession plan for employee's that are ready now and those that need additional development assignments. The identified successors are earmarked to these roles along with tenure for such transition. The pipeline of leadership with a high readiness quotient requires a sustainable process of selection, training, and development. We have implemented periodic reviews of learning on the job, trainings, teach back sessions, and leadership coaching program for targeted diverse populations.

# We are Future Ready

I am pleased to present you the annual report of the Company for the financial year 2018-19. I take this opportunity to thank you for the trust and confidence reposed by you on the Company and the management.

## • **Global and Indian economic scenario**

The financial year gone by posed a number of challenges. Economic growth slowed down in all the major economies. The consumer demand softened across the globe due to a confluence of factors like trade tensions between United States and China, the slowdown in economic growth, Brexit, higher fuel prices and more stringent emission regulations. The demand for passenger vehicles in China actually declined during the year after many years of strong growth, while the growth in Europe and North America was marginal.

India's economic growth was also impacted by the softness in rural demand and the policy uncertainties due to the upcoming elections, with the slowdown more pronounced in the later part for the year. The demand for both 2-wheeler and passenger vehicles actually declined in the second half of the year due to the slowdown in economic growth, higher fuel prices, new regulations related to insurance and the constraints in the availability of financing for new vehicles from the non-banking sector.

## • **Global lighting industry**

In 2018, the worldwide sales of passenger cars and light commercial vehicles declined for the first time since 2009, as car makers sold 0.5% fewer vehicles, according to JATO Dynamics figures, based on their data of 54 top markets.

Chinese auto sales were impacted by the macroeconomic situation, trade sanctions by the US and the withdrawal of Government incentives for new car purchases, leading to a YoY decline of 13.5% in passenger vehicles sales after many years of growth.

The overall decline in demand for passenger vehicles has naturally impacted the demand for lighting products as well. However, the increasing penetration of advanced lighting technologies like LED, resulting in higher lighting content per vehicles has helped in neutralising the same to some extent. This trend is expected to continue in the medium term, which augurs well for the medium-term growth prospects of the business.

## ● Indian 2-Wheeler Industry

The 2-wheeler production in India grew at a slower pace of 5.8% YoY in FY19 when compared to double-digit growth in FY18, according to the data published by SIAM. The strong growth in the first 6 months of the year was offset by a decline of almost 10% in the last quarter of the year. The export of 2-wheeler from India saw a strong growth of 16.5% over the previous year.

## ● Varroc Performance during FY19

In these challenging economic environment and market conditions, we outperformed the market and reported another year of strong revenue growth. During the year, we saw our consolidated revenue growing past the ₹120 billion-mark, a reported growth of 16.0%. Our India Business grew by 17.1% and our Global Lighting Business revenue growth was 15%.

The consolidated EBITDA for the full year was at ₹11.5 Billion, a growth of 25.7% over the previous year. The India Business contributed EBITDA of ₹4.6 billion while our Global Lighting Business contributed 6.4 billion (excluding our share of China JV but after considering the positive impact of Ind AS 115). Our Consolidated PAT for the year was ₹4.5 Billion, almost equal to that in FY18, in spite of the significant reduction in the contribution of profit from the China JV from ₹673 mn to less than ₹303 mn in the current year.

During the year, our VLS business won the highest ever new orders of Euro 462 million. In India business, we won our first order from TVS, expanded the range of products we supply to other customers and secured the first orders for new BS-VI related products like the Electronic Fuel Injection (EFI) and Catalytic Converter. We have also developed a prototype for Traction Motor for 2-wheeler EV, which is currently under test by potential customers. We are also developing other products related to EVs.

During the year, we started commercial production at three new manufacturing facilities (Brazil, Morocco and Halol, Gujarat, India) and started construction of new plants for the VLS business in Poland and in Chennai, India. We also completed the expansion and technological upgradation of VLS Czech plants. The full benefit of these investments will be visible in the next two to three years.

Our key strengths continue to be our strong competitive position in attractive growing markets, strong and long-standing customer relationships, comprehensive product portfolio and low cost, strategically located manufacturing and design footprint. We also have robust in-house technology, innovation and R&D capabilities, which gives us a clear edge over our competition and helps us to meet our customer requirements for customised solutions in a cost-effective manner.

## ● Outlook

The economic outlook in the short term continue to be quite uncertain. This, coupled with the upcoming regulatory changes relating to BS-VI poses challenges with visibility in the recovery of demand. In order to protect our profitability, we will be focusing on increasing productivity, optimising operational costs and capex, and capitalising on new opportunities such as BS-VI emission norms and increasing 2-wheeler EV penetration in India.

Thank you for your ongoing commitment to Varroc. I also like to thank our Customers, Creditors, Banks, Financial Institutions and other Stakeholders, without whose patronage we could not have been where we are.

**TARANG JAIN**

# Board of Directors

## Naresh Chandra

Chairman and  
Non-Executive Director

Mr. Naresh Chandra holds a bachelor's degree in economics and a master's degree in history from the University of Delhi. He also holds a diploma in business administration from the City of Birmingham College of Commerce, United Kingdom. He has over 50 years of work experience, with over 35 years' experience in the automobile industry and has previously been associated with Kaycee Industries Limited. He has been associated with the Company since incorporation and became the Chairman of the Company in the year 1997.

## Tarang Jain

Managing Director

Mr. Tarang Jain holds a bachelor's degree in commerce from Sydenham College of Commerce and Economics, University of Bombay and a diploma in business administration from the University of Laussane, Switzerland. He has approximately 31 years of experience in the automotive industry. He has been associated with our Company since incorporation and was appointed as the Managing Director in the year 2001.

## Marc Szulewicz

Independent Director

Mr. Marc Szulewicz holds an engineering degree from the Ecole Nationale Supérieure des Arts et Métiers, Paris. He has previously worked at Valeo and served as executive vice president in-charge of plastic activities at Carnaud Metalbox, a Crown Cork & Seal Company. Later, he was also the general manager of the Auto Exterior division at Plastic Omnim. He has been on Varroc Board since July 2017.

## Gautam Khandelwal

Independent Director

Mr. Gautam Khandelwal holds a bachelor's degree in economics from Mumbai University and holds a general certificate of education examination in economics and history from the University of London. He has been associated with Nagpur Power and Industries Limited since 1996. He is currently the executive chairman of Nagpur Power & Industries Limited and the non-executive chairman of Informed Technologies India Limited. He has been on Varroc Board since 2011.

## Vijaya Sampath

Independent Director

Mrs. Vijaya Sampath holds a bachelor's degree in arts from Madras University and a bachelor's degree in law from Mysore University. She is registered as an advocate with the Bar Council of Delhi. She is also a fellow member of the Institute of Company Secretaries of India. She attended the advanced management program of Harvard Business School, USA and a program on managing strategic alliances conducted by the Wharton School, University of Pennsylvania, USA. Previously, she has been associated with Lakshmikumaran & Sridharan Attorneys as a senior partner and with the Bharti Airtel Limited as group general counsel and company secretary. She has been on Varroc Board since July 2017.

## Vinish Kathuria

Independent Director

Mr. Vinish Kathuria holds a bachelor's degree in chemical engineering from Indian Institute of Technology, Delhi and a master's degree in science from Case Western Reserve University, Cleveland, Ohio. He also holds a master's degree in business administration from the Duke University's Fuqua School of Business, North Carolina. He is the co-founder and president of Rank Software Inc. He has previously been associated with Ericsson India Private Limited, HT Mobile Solutions Limited, Indian Angel Network Services Private Limited and has served on the boards of Phonon Solutions Private Limited and Rank Software Inc. He has been on Varroc Board since February 2018.

## Ashwani Maheshwari

Whole-time Director  
CEO, India business

Mr. Ashwani Maheshwari holds a bachelor's degree in engineering (mechanical engineering) from the Indian Institute of Technology, Roorkee (formerly University of Roorkee) and a master of science degree in leadership and strategy from the London Business School, London, United Kingdom. He has also successfully completed the executive development program from the Wharton School, University of Pennsylvania, USA. He has previously worked with The Tata Iron and Steel Company Limited as a graduate trainee, as a senior vice president—India business division in ITC Infotech India Limited and as the president—Birla Tyres at Kesoram Industries Limited. He has been on Varroc Board since March 2016.

## Arjun Jain

Whole-time Director  
Business Head Electrical-Electronics  
Division

Mr. Arjun Jain holds a bachelor's degree in arts from Vassar College, New York. Previously he was associated with Bain & Company India Private Limited. He joined in October 2013 as the general manager—business excellence division. He was appointed as the business head of the electrical division in May 2015. From July 2015 to February 2018, he was also the whole-time Director of the Company.

# Key Management

In addition to Tarang Jain, our Managing Director and Ashwani Maheshwari, our whole-time Director and CEO of India Business and Arjun Jain, Whole-time Director and Business Head-Electrical-Electronics Division, the following persons are the Key Management of our Company.

## Stephane Vedie

**President and Chief Executive Officer, Varroc Lighting Systems**

Mr. Stephane Vedie holds a diploma in purchasing management function from the Academy of Grenoble, France and a degree from Amiens Business School, France. He has previously been associated with Magneti Marelli. He has 15 years of experience in automotive lighting. He joined our Subsidiary, Varroc Lighting Systems Inc. in December 2016.

## T.R. Srinivasan

**Group Chief Financial Officer**

Mr. T. R. Srinivasan holds a bachelor's degree in commerce from Bharathidasan University, Tamil Nadu. He has obtained a post-graduate diploma in management from Indian Institute of Management, Calcutta. He is a member of the Institute of Cost and Works Accountant of India. He has previously been associated with Hindustan Lever Limited, Philips Electronics India Limited, Reliance Digital Retail Limited, Siro Clinpharm Private Limited, ATC Tires Private Limited. He has approximately 30 years of work experience. He joined the Company in October 2017 and was appointed as a Chief Financial Officer in February 2018.

## Sethumadhavan D.

**Business Head-Polymer Division**

Mr. Sethumadhavan D. holds a Master's degree in Material Science from the Regional Engineering College, Trichy, India.

In his career spanning 22 years, he has been associated with Assa Abloy, Stanley Black & Decker, Schneider Electric, General Electric and Lucas TVS. He joined Varroc in June 2018.

# Management Discussion and Analysis

## ECONOMIC REVIEW

### Global Economic Overview

Following a broad-based upswing in cyclical growth that lasted nearly two years, the global economic expansion decelerated in the second half of 2018. Activities softened amid an increase in trade tensions and tariff hikes between United States and China, a decline in business confidence, a tightening of financial conditions and policy uncertainty across many economies.

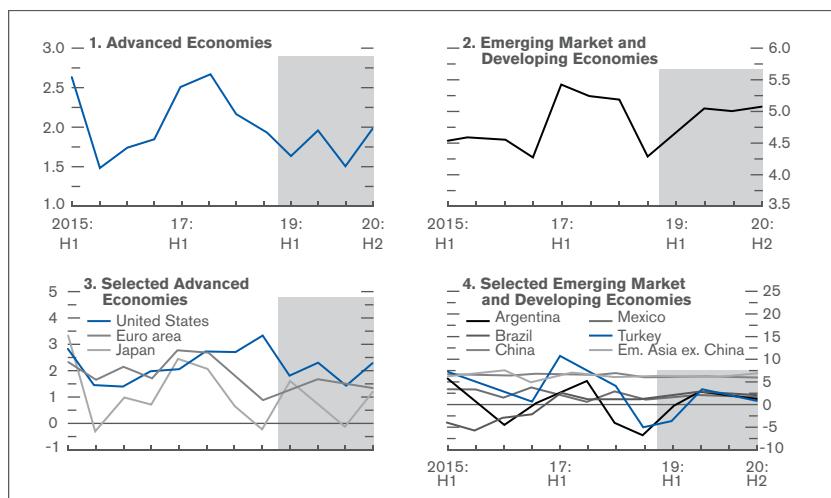

The Euro area economy lost more momentum than expected as consumer and business confidence weakened and car production in European countries like Germany was disrupted by the introduction of new emission standards. Trade tensions contributed to the worsening of financial market sentiments with conditions tightening for emerging economies in the spring of 2018 and for developed economies later in the year, weighing on global demand. Conditions have relatively eased in 2019 as US Federal Reserve signaled a more accommodative monetary policy stance and the markets become more optimistic about a US-China trade deal.

As a result of these developments, global economic growth is now projected to slow from 3.6% in 2018 to 3.3% in 2019, before returning to 3.6% in 2020. The projected pickup in the second half of 2019 is predicted on an ongoing buildup of policy stimulus in China, recent improvements in global financial market sentiments and the waning of some temporary drags on growth in the Euro area.

Improved momentum for emerging market and developing economies is projected to continue in 2020, primarily reflecting recovery from the economic distress. By contrast, activity in advanced economies is projected to continue to slow gradually as the impact of US fiscal stimulus fades and growth tends towards modest potential.

(Source: World Economic Outlook - April 2019, IMF)

Exhibit 01: Global GDP Growth (%)

(Source: World Economic Outlook - April 2019, IMF)

### Indian economy overview

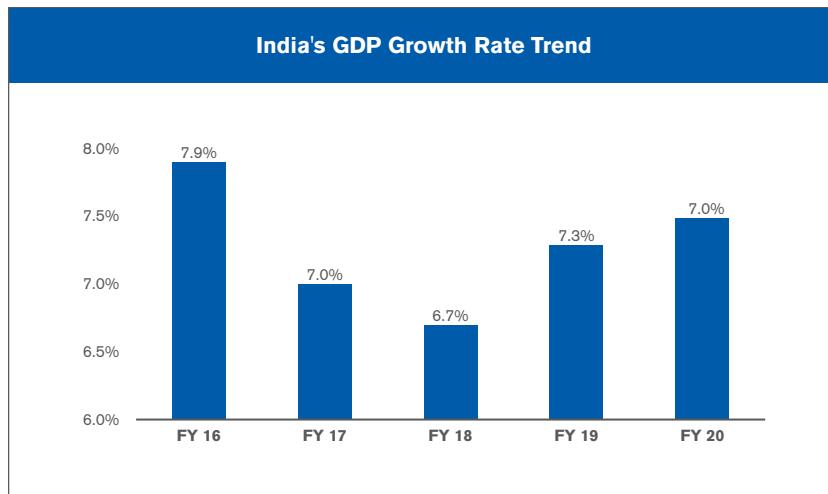

In India growth is projected to pick up to 7.0% in FY2020, supported by the continued recovery of investments and robust consumption amid a more expansionary stance of monetary policy and some expected impetus from fiscal policy. This stabilization will also be due to continued implementation of structural reforms and easing of infrastructure bottlenecks.

While growth will remain consumption driven, investment will improve gradually, aided by bank recapitalization and improved capacity utilization. Export growth, at 8%, increased at the highest pace in the past five years during FY19. However, imports too grew at an even higher pace expanding the trade deficit to USD 176 billion. Consumer Price Index (CPI)-linked inflation is expected to soften to around 3% in first six months of FY20 due to lower food and fuel prices.

Upside risks to inflation, however, arise from three factors: (i) fiscal actions (such as higher minimum support price (MSP) and higher pension outgo going to the Seventh Pay Commission) that will exert higher influence on inflation; (ii) firmer global oil and metal prices that will compel manufacturers to raise prices given improving domestic demand conditions; and (iii) higher MSPs for farmers and higher import duties. Current account deficit (CAD) is expanded from in fiscal 2019, owing to import growth exceeding export growth. Higher CAD will exert pressure on the Rupee as well. Capital inflows face risks from tightening of global liquidity and adverse global financial developments.

# Management Discussion and Analysis

Exhibit 02: India's GDP (%)

Source: CSO, Govt of India, RBI

## BUSINESS SCENARIO AND INDUSTRY OUTLOOK & OPPORTUNITIES

Our business is directly related to our customers' vehicle sales and production levels across various segments. Automotive sales and production are highly cyclical and depend on general economic conditions and other factors, including consumer spending and preferences, as well as changes in interest rate levels, consumer confidence and fuel costs.

We have two primary business lines, namely (i) the design, manufacture and supply of exterior lighting systems to passenger cars OEMs worldwide (our "Global Lighting Business" for VLS), which we undertake through our subsidiaries forming part of the VLS group and (ii) the design, manufacture and supply of a wide range of auto components in India (our "India Business"), primarily to two-wheeler and three-wheeler OEMs, including exports.

Our India Business offers a diversified set of products across three product lines, namely Polymers/Plastics, Electrical/Electronics and Metallic components. In addition, we have other smaller businesses, which include the design, manufacture and supply of two-wheeler lighting to global OEMs, and under carriage forged machine components for OHVs and drill bits for the oil and gas sector.

### i) Global lighting business

In 2018, worldwide sales of passenger cars and light commercial vehicles decreased for the first time since 2009, as carmakers sold 0.5% fewer vehicles, according to JATO Dynamics figures, based on their data of 54 top markets.

Passenger car and pick-up sales were down 0.6% to 81.8 million and LCV sales were up 2.5% to 4.2 million vehicles. Of the major markets, double digit growth was recorded by Thailand (+20%), Brazil (+14%) and Russia (+13%), while sales declined by double digits in Turkey (-35%) and Argentina (-10%) as these two countries battled economic downturns. But small declines in Europe, United States, and most significantly China had a great impact on global car sales. India, on the other hand, set a fourth consecutive annual sales record and finally surpassed Germany to become the world's fourth largest car market. The fastest growing segment worldwide was that of EVs, which increased by more than 73% to over 1.2 million sales.

Regarding future trends, Yole expects global PC and LCV sales to reach 99 million units in 2021 at a CAGR2016-2021 of 2.0%. Yole notes that growth will be driven by emerging markets where GDP growth per capita will enable more households to purchase their first car.

Factors which will revolutionize the automotive industry in the upcoming years are:

- Electrification,
- Stricter emission regulations,
- Autonomous driving
- Shared mobility

### Review and outlook on the global automotive exterior lighting market

The increasing demand for superior systems that enhance users' driving experience and convenience is propelling the growth of the global automotive exterior lighting system market. The increasing initiatives by government agencies to promote road safety campaigns is leading to innovations and the introduction of advanced automotive lighting systems in the market. The development and adoption of ADAS technology will augment the demand for laser headlamps and OLED lights in the global market.

The introduction of electric and hybrid vehicles and the establishment of safety and emission regulations will create lucrative opportunities for key players operating the global market. Innovations in the electrification of engine mechanism and propulsion technologies will drive the global automotive exterior lighting system market

# Management Discussion and Analysis

The geographical segment in the global automotive exterior lighting system market is divided into APAC, Europe, North America, Latin America, and MEA. APAC occupied the largest market share in 2017. The increasing production across China, Japan, India, and South Korea will boost the development of the APAC region in the global market. The growing sales of SUVs in China and other countries in APAC will increase the performance of the automotive market in this region. The presence of large manufacturers such as Toyota, Honda, Suzuki, and Nissan will contribute to the revenues in the global automotive exterior lighting system market.

The beginning of the favourable economic environment, availability of financing options, and established presence of global OEMs will contribute to increased sales and help companies in APAC to gain a larger market share. The digital revolutions and supportive trade reforms will increase revenues in the APAC market.

## ii) India business

### Indian Two-Wheeler Sector

According to CRISIL Research, India is one of the largest two-wheeler manufacturer in the world.

Two-wheeler sales in the domestic market in the 2018-19 financial year saw a 4.7% increase in volumes. According to SIAM, the domestic two-wheeler sales stood at 2,11,81,390 units in FY2018-19, as against 2,02,00,117 units sold in 2017-18. However, this growth numbers were lesser than estimated, especially after registering double digit growth for the past year post a five-year hiatus. Factors including a weak customer sentiment, increase in fuel prices and overall increase in insurance for vehicles contributed to slow buying period, especially in the second half of the financial year.

Domestic sales for scooters during FY2018-19 stood at 67,01,469 units, dropping by 0.27% over 67,19,909 units sold in 2017-18. Motorcycle sales, on the other hand, continued to bring in the larger chunk of volumes as sales increased by 7.8% to 1,35,99,678 units in 2018-19, as against 1,26,20,690 units sold during the previous fiscal. Moped sales also increased by 2.41 per cent to 8,80,243 units from 8,59,518 units in 2017-18.

Two-wheeler exports witnessed a strong growth for the 2018-19 fiscal with 32,80,841 units shipped, a growth of 16.6% over the 28,15,303 units sold in FY2017-18. Scooter exports grew by 26.74 per cent with 3,98,316 units shipped while motorcycle exports increased at a relatively lesser pace by 15.4% with 28,65,851 units.

The biggest challenge for the industry would be to make the transition to the new norms related to safety and emission over the next 12 months. New regulation like ABS to the 100 and 125 CC vehicles would increase price to end users effective April 2020. BS VI implementation is also expected to result an increase in price of the vehicles and hence impact demand in the near term.

### Indian Three-Wheeler Sector:

India is one of the largest exporters of three-wheelers, and major players are continuously expanding their distribution reach in other countries to boost exports growth. Exporting countries include emerging markets like Africa, South East Asia and Latin America.

Issuance of fresh permits, availability of funding, replacement demand, favorable CNG economics and demand from cab aggregators for three wheelers are driving the domestic growth for the three wheelers.

The three-wheeler segment has reported a robust 24% growth in overall production volume (sales) in the financial year 2019, producing 12.68 lakh units vis-à-vis 10.22 lakh units in FY 18

While the domestic sales during the fiscal under review saw a 10% growth to 701,011 units as compared to 635,698 units in FY18, exports supported domestic sales heavily with 49% growth to 567,689 units in FY19, against 381,002 in the year-ago period. SIAM attributes this growth possibly to enormous demand for the Indian three-wheelers in Asian and African regions.

According to CARE Ratings, carmakers are also setting up units for manufacturing electric vehicles and many launches, both in two- and three-wheelers categories, are planned in the coming months during FY20.

We at Varroc have developed products to cater to these changing emission norms and expect to benefit from the trend. We have already secured orders for products like Electronic Fuel Injection (EFI) and Catalytic Convertor (Cat Con) to meet the BS VI emission norms.

Apart from these products, Varroc is well positioned to capture the growth emanating from trends like Electrical Vehicle penetration. We have successfully developed prototypes for products like traction motor for EVs. This is being highlighted in detail in the outlook and opportunity section below.

(Source: SIAM, CRISIL Research, CARE).

## OUTLOOK AND OPPORTUNITY

The increases the lighting value and lighting content per car as a result of technological improvement and upgradation presents a big opportunity for our lighting business. Going forward we will continue to focus on high growth markets and customers where we can increase customer revenue and on improving operational efficiency across our businesses. We will continue to invest in our R&D, design, engineering and software capabilities in order to capitalize on future trends.

The Indian two and three-wheeler industry is expected to grow at a promising rate in the medium term supported by a buoyant economy with rising rural income. In addition, there are significant opportunities created by the future safety and emission norms for our Electrical and Lighting divisions. All of these factors are likely to support our growth going forward.

# Management Discussion and Analysis

## Our Strategies

### ***Focus on high growth markets for our Global Lighting Business***

The global exterior automotive lighting market is expected to grow at a CAGR of 4.3% between 2016 and 2021 (Source: Yole). Such growth is driven by the trend towards autonomous driving and connectivity between cars, with lighting becoming an increasingly prominent design and aesthetic feature, as well as playing a critical role in safety requirements and lighting technologies playing a greater role in energy efficiency and design flexibility. As such, we are looking to expand our market share in the global exterior automotive lighting market, including projection systems, signalling functions and electronics.

We have expanded our customer base to include new OEMs such as the VW Group, Renault-Nissan-Mitsubishi, TVS Motors and Volvo Truck. With our cost efficient and global manufacturing footprint, we are well-positioned to continue to serve our customers' needs across different car models and geographies.

### ***Focus on increasing customer revenue for our India Business***

The primary demand drivers for the Indian domestic two-wheeler industry are improving affordability and lower cost of ownership, whilst the key growth drivers for two-wheeler industry exports are rising crude oil prices and a focus on other markets. Given the high exposure of two-wheelers in rural areas, they depend, in turn, on trends in rural incomes and infrastructure

In addition to benefiting from the overall growth in the Indian two-wheeler and three-wheeler markets, we also intend to increase our revenue with our existing customers by expanding the array of our existing products that we supply to them and by continuing to develop technology solutions aligned with their needs. Our pan-India manufacturing footprint provides us with the ability to be close to our customers across key automotive manufacturing hubs in India, and we seek to foster customer loyalty by being closely attuned to each of their needs.

In particular, our growing business with Hero and Honda, India's two largest two-wheeler OEMs, provides us with significant opportunities to capitalize on the growing market for scooters and motorcycles in India. In addition, we have added TVS as a customer during the year, which should provide additional avenues to increase our scale in India.

We also have grown revenue in the passenger vehicle and commercial vehicle segments in India for both our lighting and polymer businesses. Since 2012, we have seen a growth in revenue from our business relationships with Mahindra, Volvo Truck, VECV and Renault-Nissan-Mitsubishi. We have also won orders from customers like VW in the previous year.

### ***Continue to invest in our R&D, design, engineering and software capabilities in order to capitalize on future trends***

We plan to continue expanding our R&D, engineering and software development capabilities in order to capture future growth trends. We seek to expand our capabilities in a cost efficient manner, by focusing on low-cost geographies nearby major automotive markets, in order to expand our capabilities in a cost-efficient manner. For example, in India we established a R&D facility specifically catering to VLS, which provides support to our core R&D facility in the Czech Republic. Moreover, we established a new R&D facility in Poland which started operations in 2018.

### ***Pursue strategic joint ventures and inorganic growth opportunities***

We intend to actively pursue acquisitive opportunities and strategic alliances with targets that are complementary to our business. We are mainly focused on growing existing product lines, such as automotive lighting and electronics for the global exterior automotive lighting market, in key markets including North America. While we will continue to focus on the polymer, electrical and metallic businesses within India, we will also continue to be disciplined in evaluating complementary businesses in India to increase our focus on other segments if necessary. In particular, we will seek to make acquisitions that provide us with access to new technologies, or new customers, or new geographies.

### ***Focus on operational efficiency***

We also focus on operational efficiency in order to improve returns in a rapidly changing technological environment. Within each production facility in India and internationally, we have sought to improve efficiencies, streamline our capacity and asset utilisation and manage our capital expenditure. We have implemented various initiatives to lower costs, improve man & equipment productivity and improve customer delivery. Few such examples are: purchasing raw materials in bulk to take advantage of promotions and economies of scale, shop automation to improve output and quality, Industry 4.0 implementation for faster response with accurate data, Implementation of Lean tools and practices.

We apply a lean manufacturing standard in the Global Lighting Business, which we refer to as the Varroc Excellence System ("VES"). VES is structured to boost industrial efficiencies and increase profits and operating cash flows by reducing costs and eliminating waste in excessive stocks, workforce and processes. Through the VES, VLS aims to achieve operational excellence by meeting our key goals of "Superior Quality", "Lowest Cost", "Timely Delivery" and "Highest Motivation", which we pursue through the three pillars of flow management, people development and quality enhancement. By focusing on these elements, we seek to achieve: (i) zero defects, by implementing scheduled maintenance and monitoring in order to detect and remove the causes of such defects; (ii) zero waste, by reviewing manufacturing methods to manage and minimize excess produce; (iii) zero lead time, by managing product processes and delivery times; and (iv) zero accidents, by focusing on training and safety.

VLS's global industrialisation team is directly responsible for the global result of the VES strategy and agrees targets and goals with the Board of Directors of VLS for each fiscal year. Plant managers are responsible for aligning their respective facilities to the global vision across daily Key Performance Indicators ("KPIs"), which are standardized across the Global Lighting Business.

For our India Business, we have implemented total preventive maintenance ("TPM") in order to help ensure high quality, low costs and on-time delivery for our customers. This program has now been rolled into Varroc Manufacturing Excellence System (MES). This new program exerts more

# Management Discussion and Analysis

rigor on improving the efficiency of production and support functions by identifying and eliminating losses. For example, on the shop floor, we conduct activities to eliminate major losses that affect equipment and achieve higher OEE, production per hour, production per headcount and lower costs. We have also received TPM Awards for our 12 plants from our largest customer, Bajaj, during 2008-2014. The practices which we have put in place at our manufacturing plants, Business Units and at group level are, among others, (i) the development of the periodic TPM audit system in 2011 to ensure the effective implementation and improvement of the TPM system, (ii) the development of TPM knowledge through the preparation of a methodology manual and (iii) the TPM pillars awareness book in 2014. Each Business Unit Head and Business Unit management team is directly responsible for business results and, together with the Board of Directors, define the goals for each fiscal year. Each Plant Head is responsible for aligning the respective facilities to the group's vision, mission, business plans, KPIs and project themes, which are standardized across the units and plants of our India Business.

## OPERATIONAL REVIEW

### Financial Review

Analysis of profit and loss account and balance sheet including the key ratios based on consolidated results is mentioned as follows:

#### Profit and loss account

##### **Revenue from operations**

Our consolidated revenue from operations increased by 16.0% to ₹ 120,364.6 million in FY2019 from ₹ 103,784.6 million in FY2018, primarily as a result of an increase in sales across all businesses.

##### **Other Income**

Other income increased to ₹ 907.9 million in FY2019 from ₹ 386.1 million in FY2018. The other income increased as a result of benefit of change in surrender value of keyman insurance policy, increase in government grants and increase in miscellaneous income as compared to FY2018.

##### **Expenses**

###### **Raw Materials Costs**

Raw materials costs increased by 18.2% to ₹ 75,457.9 million in FY2019 from ₹ 63,826.9 million in FY2018, which was mostly in line with the increase in our revenue.

###### **Excise Duty**

Excise duty of ₹ 996.3 million in FY2018 was not applicable in FY2019 on account of the introduction of the Goods and Service Tax, which took effect from July 1, 2017.

###### **Employee Benefits Expense**

Employee benefits expense increased by 14.3% to ₹ 15,014.9 million in FY2019 from ₹ 13,135.2 million in FY2018, primarily due to increase in volume of operations and the impact of annual salary increments.

###### **Operating Profit and Margin (%)**

The operating profit as measured by EBITDA for the year increased to ₹ 11,539.3 million in FY2019 from ₹ 9,179.0 million in FY2018, i.e. as increase of 25.7%, positively impacted by implementation of Ind AS 115 and strong improvement in profitability of India business.

###### **Depreciation and Amortisation Expense**

Depreciation and amortisation expense increased by 46.4% to ₹ 5,656.4 million in FY2019 from ₹ 3,864.7 million in FY2018, primarily as a result of implementation of Ind AS 115 Accounting Standard in our VLS business and incremental depreciation on capital expenditure incurred in last two years across our manufacturing facilities located in our VLS business and in India.

###### **Finance cost**

Finance costs increased by 12.4% to ₹ 968.5 million in FY2019 from ₹ 861.7 million in FY2018, primarily as a result of increased finance costs attributable to capital expenditures and increased working capital in our VLS business.

Interest Coverage Ratio for FY2019 was at 6.7x as against 6.9x in FY2018. The ratio declined as interest expenses increased during the year.

###### **Other Expenses**

Other expenses increased by 11.7% to ₹ 19,002.7 million in FY2019 from ₹ 17,018.0 million in FY2018, which was less than our increased sales of +16.0%. This was achieved as a result of operational cost efficiencies in the second half of FY2019 in our VLS business and in our India business.

###### **Tax Expense**

Total tax expenses increased by 52.0% to ₹ 988.9 million in FY2019 from ₹ 650.6 million in FY2018. Our total tax expenses increased mainly on account of an increase in profit before tax and lower tax benefit in our VLS business as compared to FY2018.

###### **Profit for the Year**

Primarily for the reasons stated above, our profit for the year was at ₹ 4,497.8 million in FY2019 as compared to ₹ 4507.8 million in FY2018. The profit was at almost similar level to FY2018 in a challenging situation across our global operations throughout the year and in the fourth quarter in our Indian operations.

Net Profit Margin (%) for the year was at 3.7% as compared to 4.3% in the previous year. The margin was negatively impacted by higher depreciation and amortisation expenses and higher taxes.

# Management Discussion and Analysis

## Balance Sheet

### **Net worth**

Net worth increased to ₹ 31,112.3 million in FY2019 from ₹ 28,487.7 million in FY2018.

### **Return on Net Worth**

Return on Net Worth declined to 15.1% as compared to 18% in the previous year mainly due to increase in net borrowings over FY2018.

### **Net asset per value**

The net asset value per share has increased to ₹ 230.8 per share at the end of FY2019 from ₹ 209.8 per share at the end of FY2018 (including the impact of additional shares)

### **Gross Borrowings**

Gross borrowings increased to ₹ 24,393.0 millions from ₹ 11,990.2 million at the end of FY2018. The debt increased as a result of increase in working capital and higher capital expenditure to meet future growth requirements at our VLS business and acquisition in Turkey for ₹ 3,453 million.

### **Debt-to-equity ratio**

Net debt to equity ratio for the company is at 0.7x as at the end of FY2019. The ratio increased from 0.3x in FY2018. The ratio increased as borrowings increased due to increase in working capital, higher capital expenditure during the year and acquisition of Sa-Ba business in Turkey.

### **Debtors Turnover**

Debtors turnover ratio measured in the number of days sales outstanding for the company for the years decreased to 41 days as at the end of FY2019 from 50 days as at the end of FY2018. Debtors considered for calculating this ratio are year end.

### **Inventory Turnover**

Inventory turnover ratio measured in the number of days sales outstanding for the company for the years decreased to 28 days as at the end of FY2019 from 31 days as at the end of FY2018. Inventory considered for calculating this ratio are year end

### **Current Ratio**

Current ratio for the company is at 0.7x as at the end of FY2019 as against 1.0x as at the end of FY2018 due to increase in current liabilities as short-term borrowings and current maturities were substantially higher than those in FY2018.

## RISK MANAGEMENT

The current economic environment, in combination with significant growth ambitions of the Company, carried with it an evolving set of risks. It counters the impact of unfavourable internal and external events and attempts to ensure business continuity across different stages of the economic cycle. The Company's risk management processes ensure that the Company accepts risks as per the boundary conditions based on its risk appetite. The Company is primarily engaged in the business of manufacturing auto components relating to automobiles sector which is a cyclical industry where global liquidity, government policies, government spending, competition and corporate sentiments have a huge bearing on the industry's prospects, and the long-term success of the Company depends mainly on the existence of a robust risk identification and mitigation process. The Company recognises that these risks need to be managed to protect its customers, employees, shareholders and stakeholders, to achieve its business objectives and enable sustainable growth. Our risk management framework reduces the volatility due to unfavorable internal and external events, facilitates risk assessment and mitigation procedures, lays down reporting procedures and enables timely reviews by the management. The Audit Committee of the Board oversees implementation and effectiveness of the risk management processes. Business level risks and their mitigation plans for each business unit are reviewed periodically by the risk management committee. This section provides an overview of the key risks and control framework and its approach to risk management.

**The following section discusses some of these risks :**

Risk type	Description and mitigation
Pricing pressure from customers	<p>Pricing pressure from customers may adversely affect our gross margin, profitability and ability to increase our prices, which in turn may materially adversely affect our business, results of operations and financial condition. Our customers generally negotiate for larger discounts in price as the volume of their orders increase. In addition, substantially all our products are customised to specific customer requirements, which requires us to incur significant costs in setting up our capabilities to manufacture these products.</p> <p>We believe that we have high pricing power given the following factors: a concentrated market with few number of players, low lighting cost (as a percentage of car cost) and the importance of technology and design which prevents entry of new players. Additionally, we are continuously working towards achieving sufficient production cost savings to offset price reductions by the customers. These reductions are through improved operating efficiencies, new manufacturing processes, sourcing alternatives and other cost reduction initiatives etc.</p>

# Management Discussion and Analysis

Risk type	Description and mitigation
Market Risk	<p>Market risk is the risk of loss related to adverse changes in market prices, including commodity risk and interest rate risk. We are exposed to interest rate risk, commodity risk, foreign exchange risk and inflation risk in the normal course of our business. We follow established risk management policies to mitigate these risks.</p> <p>We are exposed to risks in respect of price and availability of certain commodities that we use in the process of manufacturing our products. This risk is mitigated to some extent as we primarily purchase raw materials back-to-back and in line with the terms and prices that are agreed with our customers for our India business. For our international business, we typically agree a fixed per-unit price for raw materials for each purchase order, and thus bear the raw material price risk for such purchase order.</p> <p>Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Our exposure to the risk of changes in market interest rates relates primarily to the fluctuation of the prevailing market interest rates relating to our long-term debt obligations with floating rates. We continuously monitor our borrowing levels and the cost of funding these loans. We have also been able to lower our borrowing costs for a variety of reasons, including, in particular, the improvement of our credit rating in India as our financial strength has improved, which has allowed us to access cheaper sources of credit, commercial paper in particular. Additionally, decreasing interest rates have allowed us to refinance loans as they come due with cheaper sources of funding.</p> <p>Changes in currency exchange rates influence our results of operations. We have designated certain derivative instruments as cash flow hedges to mitigate the foreign exchange exposure of forecasted highly probable cash flows. For our Indian operations, we enter into forward contracts, in order to cover our foreign currency exposure, especially in the case of exports.</p>
Credit Risk	<p>Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities, primarily from trade receivables. We typically have credit terms of 45 to 60 days with customers of our Global Lighting Business and of 15 to 60 days with customers of our India Business, save that our exports from India typically give customers 90 to 170 days credit terms. Most of our largest customers have high credit ratings, which helps to mitigate credit risk.</p> <p>Customer credit risk is also managed by the group's established policies, procedures and control relating to customer credit risk management. Further, our customers include marquee OEMs and tier one companies, which have long standing relationship with us. Outstanding customer receivables are regularly monitored and reconciled.</p>
Loss of major customers	<p>Our business is dependent on certain major customers, with whom we do not have firm commitment agreements. Significant reduction in purchases by any of our major customers, or a lack of commercial success of a particular vehicle model or lack of commercial success of such model, of which we are a significant supplier could adversely affect our business, results of operations and financial condition.</p> <p>At Varroc, we strive to meet our customer requirements with our QCD program. We always strive to remain competitive through our R&amp;D efforts and with respect to technology, design and quality. In addition, our success in expanding our business also depend on significant investments in our R&amp;D capabilities, in order to support our growth and business strategy. We have been continuously investing in our R&amp;D capabilities.</p>
Safety Risk/ Cyber Risk	<p>The Company is committed to conduct all its activities in such a manner so as to avoid harm to employees and the community. At Varroc, the use of information and telecommunication technologies are increasing, resulting in greater security threats to its digital infrastructure. These impacts may include the loss of sensitive data or information, legal and regulatory breaches and reputational damage.</p> <p>The Company continues to strengthen its cyber security policies, standards, technical safeguard, ongoing monitoring of new and existing threats and IT security awareness initiatives which include IT disaster recovery, emergency response and business continuity management capabilities to enable reduction of impact of any cyber-security event.</p>
Regulatory Compliance Risk	<p>The Company recognises that timely compliance with the ongoing frequently changing regulatory requirements can at times be challenging, and therefore will:</p> <ul style="list-style-type: none"> <li>▪ Strive to understand the changing regulatory standards, so as to strengthen its decision-making processes and integrate these in the business strategy of each of the segments in which it operates</li> <li>▪ Drive business performance through the convergence of risk, compliance processes and control mechanisms to ensure continued operational efficiency and effectiveness</li> </ul>
Political Risk	<p>Social / Civil unrest, act of terrorism within India or internationally can have an impact on the Company's operations. Political and civil unrest and tensions globally may have an impact on the safe and timely execution of projects, which may have financial implications.</p> <p>We review our risk management practices and activities on a quarterly basis. This included a review of risks to the achievement of key business objectives covering growth, profitability, talent aspects, operational excellence and actions taken to address these risks.</p>

## INTERNAL CONTROLS

The Company has an adequate system of internal controls implemented by the management towards achieving efficiency in operation, optimum utilisation of the Company's resources and effective monitoring thereof and compliance with applicable laws and regulations.

Controls deployed are appropriately designed to manage the key business risks and is operating effectively. Audit plans, internal auditor's observations and recommendations, significant risk areas assessments and adequacy of internal controls are also periodically reviewed by the Audit Committee. The Company has an ERP system - SAP, to have better internal control systems and flow of information. Further, the Company adheres to rules and regulations of ISO.

# Management Discussion and Analysis

The Company's internal audit department conducts regular audits to ensure adequacy of internal control systems, adherence to management instructions and compliance with laws and regulations of the country, as well as to suggest improvements. The Internal Audit Function provides assurance to the Board and Senior Management in the various Businesses and Functions that the system of internal

## ENVIRONMENT, HEALTH AND SAFETY

Health, employee safety and the environment is among our top priorities and is seen as both a right and a responsibility for all our employees. We take initiatives to reduce the risk of accidents and prevent environmental pollution through implementing a five-pronged environment, occupational health and safety ("EOHS") plan which is based on the requirements of ISO 14001 on OHSAS 18000. First, we seek to eliminate exposure to serious accidents by identifying hazards and reducing the total number of accidents. Second, we work towards preserving our industrial assets by achieving compliance with all applicable legal norms. Third, through a systematic approach towards training and development, we hope to enhance our managers' skills such that these concerns will be efficiently managed. Fourth, we remain conscious of the impact our industrial activities have on our environment, and actively monitor and minimize the environmental impact of our operations. Fifth, we seek to prevent occupational disease and maintain employee health and safety by maintaining industrial hygiene at work places. We also maintain public liability act insurance for some of our plants and also have a commercial general liability policy for all our locations in India. The EOHS plan is implemented on a group level and we are committed to measuring, evaluating and continually improving our EOHS performance by establishing goals and objectives through regular periodic management reviews and guidance. EOHS performance is reviewed periodically in order to monitor the EOHS performance of our plants and EOHS strategies are developed to achieve our EOHS objectives, which include:

- reduce the dependability of conventional energy sources through the use of renewable energy sources;
- having all our plants in India certified for environmental management systems, in accordance with the requirements of ISO 14001 and OHSAS 18001;
- proactively enriching the EOHS culture within key parts of our organisation;
- having a strong focus on the sustainability of our EOHS system and compliance with the system;
- developing EOHS competency in our organisation;
- having a proactive focus on upcoming legal requirements and internal mechanism of audits; and
- driving sustainability through various initiatives.

### Varroc's EHS core values

To ensure compliance with occupational regulations and controlling occupational hazards that put risk to employees' life, property and the environment by investing in safe and eco-friendly technologies.

#### Implementation of Varroc's EHS Core Values through:

- Communication – Actively informing stakeholders about EHS guidelines
- Collaboration – Working as a team (CFT) to provide and implement EHS practices
- Commitment – Dedicated to promote a proactive EHS culture

EHS is an integrated part of our core values. Our goal is to be injury-free, while being eco-friendly. Our employees are expected to follow these values with team work and integrity. Employees who passionately improve the EHS plan have been duly rewarded.

#### *Health and employee safety*

We are committed to maintaining high standards of workplace health and safety and we regard the safeguarding of such interests as one of our most fundamental responsibilities as an employer. We see safety as both a right and a responsibility for all employees and we aim to become a zero-accident organisation. Any mishaps or accidents at our facilities or any emission or leakage from our factory could lead to personal injury, property damage, production loss, adverse publicity and legal claims. It is therefore important that we maintain the Occupational Health and Safety certification in relation to our management of the safety of our people and property.

As of March 31, 2019, 17 of our plants in India have been certified for environmental management systems, in accordance with the requirements of ISO 14001 and OHSAS 18001.

#### *Environment*

In addition to creating initiatives to improve workplace employee safety, we also implement initiatives to reduce the environmental impact of our operations.

As at March 31, 2019, we have obtained, or are in the process of renewing, all material environmental consents and licenses from the relevant governmental agencies that are necessary for us to carry on our business. Our activities are subject to environmental laws and regulations, which govern, among other things, air emissions, wastewater discharges, the handling, storage and disposal of hazardous substances and wastes, the remediation of contaminated sites and natural resource damages. We have an automated internal system to track laws applicable to us. For further details on approvals relating to our business and operations, please see "Government and Other Approvals" on page 559 of this Prospectus.

As part of our commitment to the environment, we have set up three wind power plants, totaling 12 windmills with an aggregate power generation capacity of 8.35 MW. These windmills are located at three different locations, with four windmills at Supa, Maharashtra with power generation capacity

# Management Discussion and Analysis

of 1 MW each, six windmills at Satara, Maharashtra with power generation capacity of 0.35 MW each and two windmills at Jaisalmer, Rajasthan with power generation capacities of 1 MW and 1.25 MW each. The power generated at Supa and Satara is consumed by our plants located at Waluj and Aurangabad and the power generated at Jaisalmer is sold to Rajasthan Vidyut Board as per the Power Purchase Agreement executed with the Rajasthan and Jodhpur Vidyut Nigam.

We have also set up a solar plant at Shivaji Nagar Sakri Dist Dhule, which has a power generation capacity of 5 MW. The power generated by the solar plant is used by our forging plant in Aurangabad.

Further, we have setup solar panels at eight of our plants that have sufficient roof space for the installations, with total power generation capacity of 4.2 MW.

## **HUMAN RESOURCES**

We have seen significant enhancement in employee engagement driven by a focused agenda, rewards and recognitions. Our policies and benefits continue to help us in attracting and retaining best resources.

As of March 31, 2019 we employed approximately 13,800 full-time employees across the globe (excluding those employed at our China JV).

As at March 31, 2019, many of our employees are members of labour unions. We have in the past entered into labour union agreements, for the mutual benefit of our employees and our business, as we recognise that employee satisfaction impacts upon productivity, quality of product, employee engagement and employee discipline. Such agreements have involved, inter alia, agreeing revised wage structures, ex-gratia payments, interest free loans, attendance bonuses and the provision of or enhancement of insurance policies as a quid pro quo for employee agreement to adhere to specified disciplinary rules, codes of conduct, rules on absenteeism, productivity and quality standards and other miscellaneous terms and conditions.

In addition to our full-time employees, we frequently hire workers on a contractual basis through registered contractors for some of our ancillary activities. Such activities include packing, material handling, housekeeping, cleaning, gardening, driving, security and canteen services.

## **CORPORATE SOCIAL RESPONSIBILITY**

The Company has engaged in CSR activities for more than two decades and has contributed in the areas like healthcare, education, safe drinking water, food distribution, women empowerment. etc. We were always been at the forefront of voluntary CSR. Details regarding CSR initiatives taken by the Company during the year under review is available on page no. 52 of this report.

## **CAUTIONARY STATEMENT**

This report comprises the facts and figures along with assumptions, strategy, goal and intentions of the Company which may be "forward-looking". The Company's actual results, performance may differ considerably from those presented herein. The Company's performance is dependent upon global and national economic conditions, price of commodities, business risk, change of government's rules and regulations, etc

# Board's Report

Dear Shareholders,

The Directors of your Company take pleasure in presenting the 31<sup>st</sup> Annual Report on the business and operations of the Company together with financial statements for the financial year ended on March 31, 2019.

## 1. Financial results & appropriations

### a. Financial results

(₹ in Million)

Particulars	STANDALONE		CONSOLIDATED	
	Financial Year 2018-19	Financial Year 2017-18	Financial Year 2018-19	Financial Year 2017-18

### b. Company's Performance

Continuing the resilient revenue growth, on a consolidated basis, the revenue from operations for the Financial Year 2018-19 stood at ₹ 120,364.65 million as against ₹ 103,784.57 million in previous year representing a growth of 16% on a reported basis, driven equally by the Indian and Overseas business. On standalone basis, the gross revenue for the Financial Year 2018-19 stood at ₹ 25,731.53 million as against ₹ 20,954.75 million in previous year representing a growth of 23%.

The Net Profit, on a consolidated basis, for the Financial Year 2018-19 remained stagnant at ₹ 4,497.79 million as against ₹ 4507.77 million in previous year. On standalone basis, the Net Profit for the financial year 2018-19 stood at ₹ 1,195.40 million as against ₹ 698.30 million in previous year representing a growth of 71% mainly on account of improved performance.

### c. Dividend and transfer to reserve

The Board has recommended a dividend of ₹ 4/- (Rupees Four only) (i.e. @ 400%) per equity share of ₹ 1/- each for the Financial Year 2018-19. The total cash outflow on account of payment of Dividend would be ₹ 650.09 million including Dividend Distribution Tax of ₹ 109.80 million. The said recommendation of Dividend is in compliance with Dividend Distribution Policy adopted by the Company.

The Board of Directors has considered it appropriate not to transfer any amount to the General Reserve before declaration of Dividend.

As per Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as 'SEBI LODR Regulations'), your Company has formulated a Dividend Distribution Policy which is available on the website of the Company at weblink [http://www.varrocgroup.com/corporate\\_governance](http://www.varrocgroup.com/corporate_governance) under the tab Policies.

# Board's Report

## d. Credit Rating

During the year under review, ICRA changed the outlook on the credit ratings for the Company's long term borrowing to 'AA-(Negative)' from 'ICRA AA-(Stable)' and maintained ratings for short term borrowings at 'ICRA A1+'.

## e. Details of Internal Financial Controls with reference to the Financial Statements

The management guide the conduct of affairs of your Company and clearly delineates the roles, responsibilities and authorities at each level and key functionaries involved in the governance.

The management is committed to govern financial and accounting policies, systems and processes. #### Update on Varroc Lighting Systems entities

Consequent upon completion of 100% acquisition of shares and integration of management and operations under the overseas lighting business or for the statutory reasons, the name of the following entities were changed during the year under review:

Sr. No.	Old name of the Company	New name
1	TRI.O.M., S.p.A., Italy	Varroc Lighting Systems, Italy S.p.A.
2	Electromures SA, Romania	Varroc Lighting Systems, Romania S.A.
3	TRI.O.M Vietnam Co., Ltd	Varroc Lighting Systems, Vietnam CO. Ltd.
4	Sa-Ba Endüstriyel Ürünler İmalat Ve Ticaret Anonim Sirketi	Varroc Lighting Systems Turkey Endüstriyel Ürünler İmalat Ve Ticaret Anonim Sirketi
5	Sa-Ba Bulgaria EOOD	Varroc Lighting Systems Bulgaria, EOOD
6	Varroc do Brasil Comercio, Importacao e Exportacao de Maquinas, Equipamento e Pecas Ltd., Brazil	Varroc do Brasil Industria E Commercia LTDA

As reported in last Annual Report, VarrocCorp Holding BV, a WoS has acquired 100% stake in SA-BA Endüstriyel Ürünler İmalat ve Ticaret Anonim Sirketi, (name changed to Varroc Lighting Systems Turkey Endüstriyel Ürünler İmalat Ve Ticaret Anonim Sirketi) a Turkey based company engaged in the business of manufacturing and supply of automotive lighting for four wheelers along with its wholly owned subsidiary company in Bulgaria at an aggregate consideration of Euro 43 million in June 2018.

## Board's Report

During the year under review, Varroc Lighting Systems has formed small and two-wheeler lighting division under its umbrella. Aries Mentor Holding B.V., The Netherlands has acquired balance 20% stake in Varroc Lighting Systems, Italy S.p.A. (erstwhile TRI.O.M., S.p.A., Italy) as per the Option Agreement with its erstwhile promoters. With the acquisition of said stake, Varroc Lighting Systems, Italy S.p.A. has became wholly owned subsidiary of Aries Mentor Holding B.V., The Netherlands.

In September, 2018, Varroc Lighting Systems has signed a joint venture agreement with ELBA Electronics SRL, a privately-held lighting and electronics company based in Romania. By virtue of the said JV agreement, in the month of January, 2019, a new Joint Venture Company under the name and style of Varroc ELBA Electronics SRL, Romania was formed for manufacture of electronic components and sub-assemblies (modules). The manufacturing facility is being set up at Timisoara, Romania. VarrocCorp Holding B.V., The Netherlands a WoS is holding 70% stake in the said entity.

In January, 2019, Varroc do Brasil Industria E Comercial LTDA has started commercial production in Sorocaba, São Paulo, Brazil. The said plant is manufacturing automotive lighting products to cater to the requirements of north American customers.

In January, 2019, Varroc Lighting Systems, Bulgaria EOOD has started production facility in Dimitrovgrad, Bulgaria. This facility is initially producing a variety of small lighting products, including centre high-mounted stop lights, fog lamps, and turn indicators. It is part of Varroc Lighting's newly formed small and two-wheeler lighting division, which leverages the global Varroc network to bring state-of-the-art mass-market lighting technology into lower-volume vehicle market segments through right-sized processes and dedicated lower-volume facilities. The Dimitrovgrad facility increases Varroc Lighting's presence in Europe, joining the existing European facilities in the Czech Republic, Italy, Romania and Turkey.

Varroc Lighting Systems SA, Morocco has completed the construction of first phase of the facility and started commercial production in February, 2019. It is a green field manufacturing facility located in Tangier, Morocco. The said facility produces headlamps, rear lamps, and daytime running lamps for the customers located in Morocco, Spain and France.

In March, 2019, Varroc Lighting Systems S.p.Z.o.o., Poland opened a new research and development office in Krakow, Poland and has planned to tap the best engineering resources in cooperation with AGH University of Science and Technology and Krakow University of Technology. The said Company has also started construction of a new manufacturing plant in Niemce, Poland which is planned to be completed by third quarter of 2019.

### Update on Indian entities/plants

As reported last year, the Company has partnered with Dell'Orto S.p.A., Italy for equal co-ownership of IP rights of Electronic Control Unit (ECU) to be used in electronic fuel injection system and signed a Joint Venture Agreement for setting up 50:50 joint venture company for manufacturing and sale of electronic fuel injection system mainly for two wheelers in India. By virtue of the said JV agreement, a private limited company under the name and style of Varroc Dell'Orto Private Limited was incorporated on January 10, 2019.

Further, the Company has commenced commercial production at Halol, Dist.: Panchmahal, Gujarat State in January, 2019. The said plant is catering the requirements of two-wheeler OEM Hero MotoCorp Ltd. The said plant is at present producing electrical items for two wheelers viz.; Blinkers, head lamps and tail lamps.

The Company has partnered with Heraeus, a globally leading technology group founded in 1851 and headquartered in Hanau, Germany for development of cutting-edge and cost-effective solutions for catalytic converters in automotive applications which will be compliant with the stringent emission norms of BS-6, EURO-V as well as future emission norms. This would enable the Company to provide innovative emission solutions to automotive OEMs to help them remain competitive while complying with the aforesaid emission norms.

In March, 2019, the Company through its wholly owned subsidiary Varroc Polymers Pvt. Ltd. has acquired additional 5% stake in Bangalore based Company Team Concepts Pvt. Ltd. As on March 31, 2019, Varroc Polymers Pvt. Ltd. is currently holding 95% of the paid-up share capital of Team Concepts Pvt. Ltd.

The Company's wholly owned subsidiary Varroc Polymers Pvt. Ltd. has decided to merge the operations of Pathredi Plant into Binola Plant as both plants are catering to the requirement of customer Hero Motorcycle & Scooters India Pvt. Ltd. This will enable the Company to optimise the existing resources and reduce costs.

In accordance with Section 136 of the Companies Act, 2013, the audited financial statements, including the consolidated financial statements, financial statements of Subsidiary Companies and related information of the Company will be available on Company's website at web link [http://www.varrocgroup.com/financial\\_results](http://www.varrocgroup.com/financial_results). These documents will also be available for inspection during business hours at the registered office of the Company. A Copy of these financial statements shall be made available to any Member of the Company, on request.

## ANNEXURE - II To Board's Report

### FORM MR-3 SECRETARIAL AUDIT REPORT

[Pursuant to Section 204 (1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

FOR THE FINANCIAL YEAR ENDED 31<sup>ST</sup> MARCH 2019

To,  
The Members of  
Varroc Engineering Limited  
Plot No. L-4, MIDC, Waluj,  
Aurangabad- 431136.

We have conducted the Secretarial Audit of the compliance of applicable statutory provision and the adherence to good corporate practices by **M/s Varroc Engineering Limited** (CIN: L28920MH1988PLC047335) (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on our verification of the **M/s Varroc Engineering Limited** books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2019 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minutes books, forms and returns filed and other records maintained by M/s Varroc Engineering Limited for the financial year ended on March 31, 2019 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (regulation) Act, 1956 (SCRA) and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations any Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act')
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure requirements) Regulations, 2018;
  - (d) The Securities and Exchange Board of India (Registrars to issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
- (vi) All Tax related laws as applicable in respective states where company is operating its business;
- (vii) I further report that having regard to the compliance system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof, the Company has complied with the following laws applicable specifically to the Company:
  - Motor Vehicles Act, 1988 and the Rules made thereunder;
  - The Motor Transport Workers Act, 1961
  - The Explosive Act, 1884 and Gas Cylinders Rules, 2016
  - The Petroleum Act, 1934 and the Rules made thereunder;
  - The Environment (Protection) Act, 1986 read with Bio-Medical Waste Management Rules, 2016
  - The Water (Prevention and Control of Pollution) Act, 1974
  - The Air (Prevention and Control of Pollution) Act, 1981
  - The Batteries (Management and Handling) Rules, 2016.

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by the Institute of Company Secretaries of India.
- (ii) Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

## ANNEXURE - II To Board's Report

I further report that there were no events/actions in pursuance of:

- The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
- The Securities and Exchange Board of India (Delisting of Equity Shares), Regulations, 2009;
- The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;
- The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;

We further report that:

As per the explanation given by the Company, all the existing related party transactions of the Company with its related parties are in the ordinary course of business and on arm's length basis or as per the contracts existing on the commencement of the Act, 2013 and have been approved by the Audit Committee, where applicable.

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors ,Non-Executive Directors, Women Director and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarification on the agenda items before the meeting and for meaningful participation at the meeting.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above except the following;

1. As per Regulation 8(2) of SEBI(Prohibition of Insider Trading) Regulation, 2015, Company failed to intimate the stock exchanges with respect to amendments made in Code of practices and procedures for fair disclosure of unpublished price sensitive information at the Board meeting held on 13/11/2018.
2. Non-Compliance of Section 117 of the Companies Act, 2013 read with Section 179 of the Act, as the Company failed to file Form MGT-14 with respect to Appointment of Mr. Ashwani Maheshwari as Chief Executive Officer (CEO) of the Company and Appointment of Mr. Arjun Jain as Whole Time Director (WTD) as well as Key managerial Personnel of the Company.

We further report that during the audit period there were no major events which had bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines

### SECTION E: PRINCIPLE-WISE PERFORMANCE

#### Principle 1: Business should conduct and govern themselves with Ethics, Transparency and Accountability

**1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?**

Varroc is guided by five core values coined as SHIPS:

- Sincerity – To speak and act from the heart
- Humility – To walk with everyone
- Integrity – To do what is right
- Passion – To go the distance against all odds
- Self-Discipline – To make it happen

## ANNEXURE - III To Board's Report

The Company's Code of Business Conduct and Ethics addresses subjects like bribery, corruption, compliance to the Company's standards of business conduct and ethics and ensures compliance with regulatory requirements. All employees provide necessary undertaking at the time of joining the Company. As a new initiative Code of Conduct and Business Ethics session has been made mandatory for all new joinees. The Company also has in place a Whistle Blower Policy. The workmen are governed by model standing order.

All joint ventures, suppliers and contractors of the Company are independent entities. Therefore, the Company's Code of Conduct and Whistle Blower Policy do not apply to them.

**2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?**

If so, provide details thereof, in about 50 words or so.

NIL complaints were received in the past Financial year 2018-19.

**Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle**

**1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.**

The Company is engaged in the business of manufacturing of automotive components. These products have insignificant social or environmental concern or risk. However, Social and environmental concerns are always on the fore with regard to all manufacturing processes.

**2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product(optional):**

The Company always take efforts for optimum utilization of natural resources.

(a) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain? NOT APPLICABLE

(b) Reduction during usage by consumers (energy, water) has been achieved since the previous year? NOT APPLICABLE

**3. Does the company have procedures in place for sustainable sourcing (including transportation)? (a) If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.**

Yes, The Company has a procurement policy in place for purchase of goods and raw material. The Company evaluates the vendors for different components/materials based on Productivity, Quality, Cost, Delivery, Safety & Morale criteria (PQCDSM).

It is difficult to ascertain the percentage of inputs sourced from these suppliers accounting towards total inputs due to different kind of materials being used by the Company.

**4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? (a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?**

Yes.

Localization is one of the important aspects of sourcing strategy and the Company is procuring goods and services from local Vendors which include large, mid size and small scale industries which meets our criteria of PQCDSM. Most of the Company's vendors are located in vicinity to its manufacturing plants. The Company has developed a Local Direct (Tier I) and sub-supplier (Tier II) base of 900 vendors around its manufacturing plants. To encourage small suppliers, 85 vendors (@10%) are selected from the MSME (Micro, Small and Medium Enterprises). The Company is continuously working to build the capability of its vendors through a structured Vendor Up-gradation program. Long Term Suppliers (LTS) for various products and the categories of the same are identified. The Company, at periodic intervals, reviews its suppliers based on Vendor Performance Rating and developmental support in the past. Capabilities of LTS are enhanced through: Trainings for Total Productive Maintenance (TPM) way of working are conducted; these are aimed at overall efficiency improvement with defined PQCDSM targets (Productivity, Quality, Cost, Delivery, Safety, and Morale).

39 vendors are Practicing TPM under company guidance and 24 out of them were awarded by the Company for TPM sustenance during the FY 2018-19.

Technology up-gradation of suppliers is done by providing training for manufacturing, quality, flexibility, validation and testing of components, sharing of process knowledge & driving continuous improvement.

**5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.**

The Company believes that waste can be used as a resource and recycles/ reuses the waste generated during manufacturing process. Awareness sessions and workshops are conducted internally on water conservation. Water saving kaizens are implemented through use of water balance diagram. The Company also encourages use of recyclable (green)/returnable packaging wherever possible. This consumption is between 5 and 10% of our total packaging consumption. We intend to increase wherever possible in future.

## ANNEXURE - III To Board's Report

### Principle 3: Business should promote the well-being of all employees

1. Please indicate the Total number of employees: 3,472 Nos.
2. Please indicate the Total number of employees hired on temporary/contractual/casual basis: 6,398 Nos.
3. Please indicate the Number of permanent women employees: 254 Nos.
4. Please indicate the Number of permanent employees with disabilities: Nil
5. Do you have an employee association that is recognized by management:

There are 6 agreements entered into with labour unions for the Company's plants located at Waluj (Aurangabad, Maharashtra), Takve & Chakan (Dist. Pune, Maharashtra) and Pantnagar (Uttarakhand).

6. What percentage of your permanent employees is members of this recognized employee association?

As of March 31, 2019, 749 employees, representing 19% of our total workforce, are members of labour unions.

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year

Sl No.	Category	No. of complaints filed during the financial year	No. of complaints pending as on end of the financial year
1.	Child labour/ forced labour/involuntary labour	Nil	Nil
2.	Sexual harassment	Nil	Nil
3.	Discriminatory employment	Nil	Nil

8. What percentage of your under mentioned employees were given safety & skill up-gradation training in the last year?

Sl No.	Category	% Employees that were given safety training	% Employees that were given skill upgradation training
(a)	Permanent Employees	65	65
(b)	Permanent Women Employees	85	85
(c)	Casual/Temporary/Contractual Employees	90	90
(d)	Employees with Disabilities	Nil	Nil

### Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized

1. Has the company mapped its internal and external stakeholders? Yes/No

Yes, VEL has mapped its internal and external stakeholders.

Our stakeholders both internal and external, play a significant role in expressing our values, carrying out our mission, developing strategies, implementing processes and fostering long-term relationships.

Internal and external stakeholders mapped includes, Employees, Customers, Shareholders, Investors, Regulatory bodies, Suppliers, Vendors, Distributors, CSR beneficiaries, Governments and Knowledge partners.

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders: Yes

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders. If so, provide details thereof, in about 50 words or so.

Yes, the Company has identified the disadvantaged, vulnerable & Marginalized stakeholders viz. unemployed & unskilled youth, people having limited or no access to basic education, clean water etc.

The Company has taken initiatives to engage with the disadvantaged, vulnerable, marginalized stakeholders as per its CSR policy both directly and through implementation agencies.

## ANNEXURE - III To Board's Report

- (a) **Skill Development Programme** directly by the Company for the vocational courses conducted jointly by Varroc Academy & Deccan Management Consultant Finishing School (DMCFS) in partnership with Tata Institute of Social Studies–School of Vocational Education (TISS-SVE) for promoting skill development of local underprivileged youth. Successful students are absorbed in the industries in and around respective locations. During the year, 223 students have enrolled out of which 185 students have been sponsored by the Company for the 3 years Vocational Course.
- (b) **Kham River Eco Restoration Programme:** The Company in association with CII has undertaken restoration project of Kham River. The company has so far completed various activities which include 6 green bridges, 1 Eco Park, 2 MS Metal Screens to clean nondegradable solid waste and beautification of river beds. The said project will maintain natural beauty of the river and environmental sustainability. The Company is committed to maintain environmental sustainability and ecological balance and conservation of natural resources.
- (c) **Varroc Vengsarkar Cricket Academy (VVCA), Pune** is formed between the Company and Dilip Vengsarkar Foundation. The Academy provides cricket training to the promising talents in the age group of U-12, U-14, U-16 and U-19 and nurture them for the national tournaments. The academy presently provides coaching to around 150 promising players and it has so far produced more than 10 best players who have been selected for Maharashtra State, National matches and for Ranji Trophy.

### Principle 5: Businesses should respect and promote human rights

1. **Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?**

We at Varroc respect the dignity of all individuals and communities and adhere to the principles of Human Rights.

The Company has adopted Code of ethics and whistle blower policy. These policies are applicable to Varroc India Business employees. The underlining principles are communicated to all the vendors, suppliers and distributors and other key business associates of the company, which they are expected to adhere to while dealing with the company.

2. **How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?**

There have been no complaints against breach of human rights aspects in the reporting period.

### Principle 6: Business should respect, protect, and make efforts to restore the environment

1. **Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.**

The 'Environment, Occupational Health and Safety' policy is applicable to the Company and its subsidiaries in India. The vendors are governed by their respective policies. Adherence to environmental laws and regulations is one of the pre-requisites for awarding a contract to any vendor.

Various steps are taken for optimal utilization of our resources in-line with ISO 14001 standards requirements.

2. **Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.**

The Company has been undertaking various initiatives to address environmental issues. The emissions or waste generated by the company are within the permissible limits specified by the Central Pollution Control Board (CPCB) and State Pollution Control Board (SPCB).

3. **Does the company identify and assess potential environmental risks? Y/N**

Yes, environmental risk is covered in the company principles that are based on ISO 14001 standards. Once risk is identified, the steps are taken to measures and mitigate the risk.

4. **Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?**

The Company continues to work towards development and implementation of climate change mitigation project mainly through energy saving projects (including generation of power through wind mills and solar) across the company. However, we do not have any registration of CDM projects.

5. **Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.**

The measures introduced by the Company for conservation of energy at its plant locations are contained in the Report on Conservation of Energy and Technology Absorption which forms part of the Board's Report.

6. **Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?**

Yes

## ANNEXURE - III To Board's Report

### 7. Number of show cause/ legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

Nil

### Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

#### 1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

The Company is a member of several leading Industry Associations, including:

- ACMA - Automobile Component Manufacturers Association,
- BAVA - Bajaj Auto Vendor Association,
- SIAM - Society of Indian Automobile Manufacturers
- CII - Confederation of Indian Industries,
- JIPM - Japan Institute of Plant Maintenance
- CMIA - Chamber of Marathwada Industries Association

#### 2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

As a responsible corporate citizen, the Company's approach is to contribute to public policy formulation through recognized industry associations only.

### Principle 8: Business should support inclusive growth and equitable development

#### 1. Does the company have specified programmes/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

Yes, the Company has a Corporate Social Responsibility Policy which derived its core value on various aspects as per the requirements of the Companies Act, 2013. The Policy is aimed at socioeconomic welfare, uplifting quality of life of the people, maintain environment, promoting youth and young talents, providing opportunities to underprivileged and bright student, imparting vocational education etc. in line with the broad framework of Schedule VII of the Companies Act, 2013. The Policy can be referred in detail on the Company's website [www.varrocgroup.com](http://www.varrocgroup.com).

#### 2. Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

The CSR initiatives are implemented either directly by the company or through implementing partners which include NGOs having an established track record of at least 3 years in carrying on the specific activity. The main implementation partners the company works with are Varroc Foundation and Varroc Vengsarkar Cricket Academy and I Love Mumbai Foundation.

#### 3. Have you done any impact assessment of your initiative?

The CSR Committee periodically reviews the progress of the initiatives for all the projects and programmes to assess the desired outcome on the society.

#### 4. What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken.

For details on Company's contribution to its CSR projects and programmes, please refer 'Annexure – I Annual Report on CSR activities', to the Board's report for FY 2018-19.

#### 5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Yes, the Company regularly monitors CSR initiatives to ensure that they are properly implemented and sustain within communities beyond our interactions.

### Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

#### 1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

The Company (including its subsidiaries in India) caters to two, three and four-wheeler Original Equipment Manufacturers ("OEMs"). There is a strong mechanism defined in the Company to deal with issues and complaints reported by OEMs. OEMs can communicate issues through their online portals, e-mail communications, during their visits to plants or at meetings. The Company also caters to retail market through its aftermarket division. The Complaints can be raised through any or all of the following modes:

- Lodging of complaint on dedicated Customer Care number;
- Sending complaints through email at [customercare@varroc.com](mailto:customercare@varroc.com);
- Communicate the complaint at the customer care desk at local representative/ distributor.

There is no complaint which is pending attention and requisite action at Company's end.

## ANNEXURE - III To Board's Report

**2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/ No/N.A. /Remarks (additional information)**

Yes.

We display information as required by the Legal Metrology Act, 2009. Since the Company's product are OEM specific and as per OEM requirements, the Company display product requirement of OEM and consistent with applicable laws. The typical information display on product includes details of manufacturers & marketed by, Product Part number, code, Price Details, Customer Care Number and email etc.

**3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.**

No

**4. Did your company carry out any consumer survey/ consumer satisfaction trends?**

Customer response and customer satisfaction are one of the most important factors of any business. The Company engages with its customers at various platforms to understand their expectations. The company obtains the customer feedback directly on a regular basis to identify the areas of concerns. Accordingly, corrective measures have been planned and implemented. Customer satisfaction trends are complied, monitored and reviewed by the top management at regular intervals for getting the directives for improvements.

## ANNEXURE - IV To Board's Report

### DISCLOSURE OF REMUNERATION AND OTHER DETAILS AS REQUIRED UNDER SECTION 197(12) OF THE ACT READ WITH RULE 5(1) OF THE COMPANIES (APPOINTMENT AND REMUNERATION OF MANAGERIAL PERSONNEL) RULES, 2014

**H. Justification for Average increase in Salary**

The average increase in Salary is in line with average industry standards and comparable to the prevalent market rates.

## ANNEXURE - V To Board's Report

### INFORMATION AS PER SECTION 134 (3)(m) OF THE COMPANIES ACT, 2013 READ WITH RULE 8(3) OF THE COMPANIES (ACCOUNTS) RULES, 2014 AND FORMING PART OF THE DIRECTORS' REPORT FOR THE YEAR ENDED ON MARCH 31, 2019

#### A) CONSERVATION OF ENERGY

The Company continued to give major emphasis for conservation of Energy and the measures taken during the previous years were continued. The Efficiency of Energy Utilization in each manufacturing unit is monitored properly, in order to achieve effective conservation of energy.

During the year under review, the wind mills installed by the Company at Satara and Supa in Maharashtra State and Badabaugh in Rajasthan State, generated 79,00,601 units of electricity (including 62,61,485 units of captive consumption). The Company earned an income of ₹ 54.07 million (including captive consumption ₹ 46.29 million) from the generation of wind power.

Further, Solar Plant installed by the Company at Shivaji Nagar, Distt. Dhule, Maharashtra State generated 61,17,031 units of electricity. The said units were captively consumed by the Company. The total amount of captive consumption is ₹ 46.29 Million.

The Company ensures that the manufacturing operations are conducted in the manner whereby optimum utilization and maximum possible savings of energy is achieved.

#### i) THE STEPS TAKEN OR IMPACT ON CONSERVATION OF ENERGY:

The significant Energy Conservation measures taken during the year were:

- Capacitors provided to maintain power factor to unity
- VFD provided for dust collector and cooling tower
- Compressed Air line leakages identification and rectification
- Modification of reduce roll machine hydraulic power pack circuit
- Energy efficient LED lamp replaced in machine shop
- Centralized cooling system - Installation of Evaporative air-cooling systems to save energy
- IBH coil modification for energy consumption reduction from 4000 KW coil to 3400 KW coil
- Eliminate idle running of hyd. motor – Eliminated by modification of logic
- Eliminate separate cooling pump to modify cooling system
- RO plant converted into UV filtration system
- Cooling tower sprinkle system modification done by using gravitational force instead of motor
- Provided air blower to MNPH instead of use of compressor air
- One methanol pump used for furnaces instead of pumps
- IBH coil modified for energy consumption
- Plate Type Heat Exchanger installed in place of Chillers
- Kaeser DSD 238 Screw Replacement
- VFDs provided to Air Compressor, Hydraulic power packs, STP aeration blower and Grinding wheel of Grading machines
- Air pressure optimization and machine shops and cold forging area
- Air booster installed for HMT press and shop floor
- Energy efficient pumps installed in heat treatment cooling tower
- Air supply interlock with machine operation timer in dry cut machines
- Hot forging cooling tower Energy efficient pumps installed with revised piping logic
- Ideal machine trip circuit modification in grinding machine
- Air supply to be controlled by timer to save air and energy at Machine Shop
- Energy saver valve to be installed before air gun to control air pressure to reduce air and energy consumption
- Bus bar ducting for LT panel incoming to reduce the losses
- Normal air gun replaced with low pressure air gun
- Hydraulic interlock provided for idle running of machines
- Interlock added for Centerless Grinding machines for programming modification done for idle running
- Load balancing at each phase
- Use of Solar water heater with HWG
- Magnet pre-heating oven removed from line in place of curving oven
- 11W CFL Inspection lights replaced with 8W LED
- Street Light CFL 85W replaced with LED-60W
- Auto ON & OFF control system provided at New STP Plant
- Auto ON & OFF control system provided at New ETP / ZLD/ STP Plants
- Use of LED Indication lamps on Machine & Control Panels
- LED fittings installed at Transformer Area / DG – LT Room
- Modified Air Line main header installed to reduce load on compressors
- Continuous monitoring of power usage throughout the year.

#### ii) THE STEPS TAKEN BY THE COMPANY FOR UTILIZING ALTERNATE SOURCE OF ENERGY

- Installation of roof top solar at three manufacturing facilities (VEL-III, V & VII) have been done in FY 2018-19.
- The Company is using green source power like solar and wind for its plant operations as an alternative source to thermal power.

## ANNEXURE - V To Board's Report

### iii) THE CAPITAL INVESTMENT ON ENERGY CONSERVATION EQUIPMENTS

An amount of ₹ 55.95 Million has been spent on energy conservation equipments during the Financial year ended on March 31, 2019.

### B) TECHNOLOGY ABSORPTION

#### Research & Development:

- (i) Automotive industry has been showing reasonable growth with stable demand from within the country as well as from other countries. The Company has been making investment in Research and Development (R&D), In-house Technology Development and innovation for achieving targeted growth, business profitability and sustainability. The Company has two R&D Centres approved by the Department of Scientific and Industrial Research (DSIR) which are dedicated in developing new products and improvise existing product portfolio in order to offer technologically upgraded solutions to its customers.
- (ii) The benefits derived like product development, cost reduction or import substitution: The efforts taken by your Company towards in-house technology development and absorption help deliver competitive advantage to your Company through the launch of new products and variants, introduction of new features and improvement of product performance coupled with enhanced customer delight and confidence.
- (iii) In case of imported technology (imported during the last three years reckoned from the beginning of the Financial Year) : Not applicable
- (iv) Expenditure on R & D for FY 2018-19:

(₹ in Million)

Particulars	Amount
Capital	165.53
Recurring	487.97
Total	653.50
Total R&D expenditure as a Percentage of total turnover	2.54%

### C) FOREIGN EXCHANGE EARNINGS & OUTGO

#### Actual Foreign Exchange used and earned for FY 2018-19:

(₹ in Million)

Sl. No	Item	Amount
<b>A Used for:</b>		
1	Capital Goods	365.38
2	Raw Materials	1,433.23
3	Components, Stores & Spares	26.23
4	Foreign Travels	9.65
5	Consultancy Charges	36.75
6	Interest on Term Loans	30.04
7	Royalty	3.21
8	Others	59.44
<b>TOTAL</b>		<b>1,963.93</b>

B	Earned:	
1	Exports	1,682.47
2	Others	210.24
	<b>TOTAL</b>	<b>1,892.71</b>

## ANNEXURE - VI To Board's Report

### CERTIFICATE ON CORPORATE GOVERNANCE

To,  
The Members of  
Varroc Engineering Limited  
Plot No. L-4, MIDC, Waluj,  
Aurangabad 431136

We have examined the compliance of conditions of Corporate Governance by M/S. VARROC ENGINEERING LIMITED (CIN: L28920MH1988PLC047335) (the Company) for the year ended March 31, 2019 as stipulated in the relevant provisions of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (collectively referred to as "SEBI Listing Regulations, 2015) as referred in Regulations 15(2) of the listing regulations for the period from April 1, 2018 to March 31, 2019.

The compliance of conditions of Corporate Governance is the responsibility of the Management. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance on the financial statement of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with all conditions of Corporate Governance as stipulated in the SEBI Listing Regulations, 2015.

We state such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

# Corporate Governance Report

This Corporate Governance Report relating to the financial year ended on March 31, 2019 has been issued in compliance with the requirements of Regulation 34(3) read with Clause C of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and forms a part of the Report of the Directors to the Members of the Company.

## 1. Company Philosophy

The Company's philosophy on Corporate Governance mirrors its belief that principles of transparency, fairness and accountability towards the stakeholders are the pillars of a good governance system. The Company believes that the discipline of Corporate Governance pertains to systems, by which companies are directed and controlled, keeping interests of members, while respecting interests of other stakeholders and society at large. It aims to align interests of the Company with its members and other key stakeholders. Accordingly, this Company's philosophy extends beyond what is being reported under this Report and it has been the Company's constant endeavour to attain the highest levels of Corporate Governance.

The foundation of the Company's Corporate Governance rests in its core values 'SHIPS' as outlined below:

- Sincerity – To speak and act from the heart
- Humility – To walk with everyone
- Integrity – To do what is right
- Passion – To go the distance against all odds
- Self-Discipline – To make it happen

The Company's Code of Conduct serves as a guide to each Director, Senior Management and employee on the ethical standards and values and the business principles which govern their conduct. The Directors and Senior Management have affirmed that they have complied with the Code of Conduct and a certificate to this effect forms part of the Annual Report.

## 2. Board of Directors

The Board of Directors ensures that the Company runs its business on fair and ethical principles and plays an important role in creation of core VARROC value for its stakeholders. All statutory and other significant and material information including information mentioned in Regulation 17(7) read with Part A of Schedule II of the SEBI LODR Regulations is placed before the Board of Directors to enable them to discharge their responsibilities of strategic supervision of the Company with due compliance of laws and as trustees of stakeholders. The Managing Director and Executive Directors are responsible for the day-to-day management of the Company, subject to the supervision, direction and control of the Board of Directors. The Executive Directors are ably assisted by the business heads and functional heads and they implement the decisions and the strategic policies of the Board of Directors.

### Information supplied to the Board

In advance of each meeting, the Board is presented with relevant information on various matters related to the working of the Company, especially those that require deliberation at the highest level. Presentations are also made to the Board by different functional heads on important matters from time to time. Directors have separate and independent access to the officers of the Company. In addition to items required to be placed before the Board for its noting and/or approval, information is provided on various significant items.

### 2.1 Composition

As on March 31, 2019 the Board of Directors of the Company consists of 8 (Eight) Directors of whom, 3 (Three) are 'Executive' Directors, 1 (One) is Non-Executive Director, 4 (Four) are Independent Directors including one Woman Independent Director. There is no change in the Board of Directors since last Annual Report.

The Chairman, Mr. Naresh Chandra is a Non-Executive Director. Mr. Tarang Jain, Managing Director, Mr. Arjun Jain, Whole time Director and Mr. Ashwani Maheshwari, CEO & Whole-time Director are the Executive Directors.

The details of the Board of Directors as on March 31, 2019 are as follows:

Name of the Director	Category of Director	Particulars
Mr. Naresh Chandra (DIN 00027696)	Chairman, Non-Executive / Non-Independent	Appointed as Non-executive director effective from March 31,1997

Mr. Naresh Chandra*	Chairman	1,00,00,000
Mr. Tarang Jain	Managing Director	6,07,29,800
Mr. Tarang Jain\$		3,38,50,000
Mr. Arjun Jain	Wholetime Director	5,000
Mr. Ashwani Maheshwari	CEO and Wholetime Director	540
Mrs. Vijaya Sampath	Independent Director	703
Mr. Marc Szulewicz	Independent Director	Nil
Mr. Vinish Kathuria	Independent Director	Nil
Mr. Gautam Khandelwal	Independent Director	Nil
Mr. T. R. Srinivasan	Chief Financial Officer	540
Mr. Rakesh Darji	Company Secretary	540

\* Held by Naresh Chandra in his capacity as the trustee of Naresh Chandra Holdings Trust.

\$ Held by Tarang Jain in his capacity as the trustee of TJ Holdings Trust.

As on date of this report, no convertible instruments are outstanding in the Company.

## 2.6 Familiarization Programme for Independent Directors

The Company has established a Familiarization Programme for Independent Directors. The discussions at various Board Meetings provide the Board members with a realistic view of the Company's businesses, the challenges and its potential. At the Board Meetings, the following aspects are presented to the Board:

- Nature of the industry in which the Company operates – detailed information on the industry trends, industry challenges, industry innovations vis-à-vis business operations, business plans and strategy are presented by the Managing Director, Chief Executive Officer and Gr. CFO.
- Business model of the Company including risks and challenges being faced by the Company;
- Changes in business environment and impact thereof on the working of the Company;
- Strategic future outlook and way forward to achieve Company's Vision.

To create awareness amongst the directors about recent regulatory changes, an eminent law firm was invited to give presentation on regulatory changes made in SEBI regulations, the Companies Act, 2013 and other allied corporate laws.

The framework together with the details of the Familiarization Programme conducted has been uploaded on the website of the Company. The web-link to this is [http://www.varrocgroup.com/corporate\\_governance](http://www.varrocgroup.com/corporate_governance).

## 2.7 Key Board qualification, expertise and attributes

The Company's Board comprises qualified members who bring in the required skills, competencies and expertise that allow them to make effective contribution to the Board and its committees.

The table below summarises the key skills/competencies and expertise identified by the Board in the context of its business and those actually available with the Board:

<b>Leadership</b>	Extended leadership experience in organizations with demonstrated strengths in developing talents, fostering growth and bringing a positive change through alternative thinking
<b>Global Business</b>	Experience in driving business success on global platform, with an understanding of diverse business environments, cultural differences and regulatory framework
<b>Technology</b>	Background in technology with an ability to extend or create new business models, adopting state-of-the-art technology
<b>Ethics &amp; Corporate Governance</b>	To lead by example best ethical and Corporate Governance practices
<b>Financial</b>	Proficiency in financial management, capital allocation and financial reporting process
<b>Mergers and Acquisitions</b>	A history of leading growth through acquisitions and other business combinations, analyzing the strategic fit of target entity vis-à-vis Company's vision and mission
<b>Management &amp; Business Excellence</b>	Follow best management practices and working towards business & operational excellence and research and development of the niche products

# Corporate Governance Report

## 2.8 Details of the Director liable to retire by rotation

In compliance with the provisions of section 152 and other applicable provisions of the Companies Act, 2013, Mr. Naresh Chandra (DIN 00027696) will retire by rotation at the ensuing Annual General Meeting and it is proposed to re-appoint him as a Director of the Company. The personal information about Mr. Naresh Chandra is mentioned in the Notice convening the Annual General Meeting and therefore is not mentioned separately in this Report.

## 2.9 Code of Conduct

The Code of Conduct adopted by the Board of Directors, is applicable to the Directors and all Senior Management Personnel of the Company. This Code of Conduct emphasizes the Company's commitment to the compliance with the highest standards of legal and ethical behaviour. The Code of Conduct is available on the website of the Company [www.varrocgroup.com](http://www.varrocgroup.com) under heading 'Investor'. All Directors, Key Managerial Personnel and senior management have adhered to the Code of Conduct of the Company during the year and have signed declarations and given affirmation of compliance to the Code of Conduct. A certificate signed by the CEO & Whole time Director as required under Regulation 34 (3) of SEBI (LODR) Regulations affirming compliance of said code is given in this Annual Report.

## 2.10 Independent Directors

Independent Directors play a key role in the governance processes of the Board and in shaping various strategic initiatives of the Company. These Directors are professionals, with expertise and experience in general corporate management, business, finance and information technology. This wide knowledge of their respective fields of expertise and best-in-class boardroom practices helps foster varied, unbiased, independent and experienced perspective and also prevent possible conflicts of interest that may emerge in such decision making.

Your Company has several subsidiaries, both in India and overseas. In order to leverage the experience of Independent Directors of the Company for the benefit of and for improved Corporate Governance and better reporting to the Board, some of the Independent Directors also serve on the Boards of material subsidiary companies.

An Independent Director is the Chairman of each of the Audit Committee, Nomination & Remuneration Committee and Stakeholders Relationship Committee.

None of the Independent Directors serve as "Independent Directors" in more than seven listed companies in line with the requirements of the SEBI LODR Regulations.

The Independent Directors have confirmed that they meet the criteria of independence as laid down under the Act and the SEBI LODR Regulations as amended. During the year under review, none of the independent directors has resigned.

## 2.11 Confirmation regarding independence of Independent Directors

In the opinion of the Board, Independent Directors, fulfil the conditions specified in the SEBI LODR Regulations and are independent of the Management.

## 2.12 Pecuniary transactions with Non-executive Director

During the year under review, there were no pecuniary transactions with any of the Non-executive Director of the Company except payment of sitting fees and profit based commission and professional fees as disclosed in this report.

The register of contracts is maintained by the Company under Section 189 of the Act and the same is placed before the Board for approval from time to time. The register so placed before the Board is signed by all the directors present at such meetings.

## 2.13 Directors Remuneration

The Non-executive Directors are entitled to sitting fees for every meeting of the Board or Committee thereof attended by them. They are also entitled to commission not exceeding 1% of the net profits of the Company. The Managing Director and Wholetime Directors do not receive sitting fees for attending the meetings of the Board or any Committee thereof nor do they receive any commission on net profits. None of the Directors had any material pecuniary relationship or transaction with the Company during the year.

Details of remuneration paid to the Directors are given in MGT-9 which is available on company's website on the link [http://www.varrocgroup.com/shareholders\\_information#tab5](http://www.varrocgroup.com/shareholders_information#tab5).

The remuneration paid to the Managing Director and the Whole-time Director(s) was duly approved by the Board of Directors and members.

The Company has obtained Directors and Officers Liability Insurance Policy covering all Directors and Officers of the Company in respect of any legal action that might be initiated against any Director or Officer of the Company.

## 3. Committees of the Board

The Board of Directors have constituted the following Committees:

- 3.1 Audit Committee
- 3.2 Nomination and Remuneration Committee
- 3.3 Stakeholders Relationship Committee
- 3.4 Corporate Social Responsibility Committee
- 3.5 Risk Management Committee
- 3.6 Finance Committee

The composition, terms of reference, attendance and other details of these Committees are mentioned hereunder.

No voluntary recommendations were made by the aforesaid committees to the board.

# Corporate Governance Report

## 3.1 Audit Committee

### 3.1.1 Constitution and Composition

The Audit Committee was constituted on February 06, 2018 in compliance with the provisions of Section 177 of the Companies Act, 2013 and Regulation 18(1) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The constitution of the Audit Committee as on March 31, 2019 is as follows:

Name of the Member	Position in the Committee	Category
Mr. Gautam Khandelwal	Chairman	Non – Executive, Independent Director
Mrs. Vijaya Sampath	Member	Non – Executive, Independent Director
Mr. Tarang Jain	Member	Managing Director, Executive Non-Independent
Mr. Vinish Kathuria*	Member	Non – Executive, Independent Director

\* Inducted as member w.e.f. November 13, 2018.

The Chief Financial Officer is permanent invitee in all meetings of the Audit Committee. The Company Secretary is the Secretary of the Audit Committee. All the Directors are financially literate, and Mr. Gautam Khandelwal, Mr Tarang Jain and Mrs. Vijaya Sampath have accounting and related financial management expertise. The Statutory Auditors and Internal Auditors are invited to the meetings to discuss with the Directors the scope of audit, their comments and recommendation on the accounts, records, risks, internal procedures and internal controls of the Company and to discuss the Internal Audit Reports. Minutes of the Audit Committee meetings are circulated to all the Directors and discussed at the Board meetings.

As per Regulation 18(a)(d) of the SEBI LODR Regulations, Mr. Gautam Khandelwal, Chairman of the Audit Committee was present at the last Annual General Meeting to answer Shareholders' queries.

### 3.1.2 Terms of reference

The terms of reference of the Audit Committee cover all the areas mentioned under Section 177 of the Companies Act, 2013 and Regulation 18 read with Part C of Schedule II of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The broad terms of reference of the Audit Committee therefore include review of all financial results, statements and disclosures and recommend the same to the Board, review the internal audit reports and discuss the same with the internal auditors, review internal control systems and procedures, evaluation of internal financial controls and risk management systems and their effectiveness, to meet the statutory auditors and discuss their findings, their scope of audit, post audit discussion, auditor's independence, adequacy of internal audit functions, audit qualifications, if any, appointment/removal and remuneration of auditors, changes in accounting policies and practices, if any, and disclosure of all related party transactions and compliance with company law and other statutory provisions.

### 3.1.3 Internal Audit

The Internal Audit Department of the Company conducts internal audit on a pan India basis and is also supported by external agency in some of the areas of internal audit. The Chief Internal Auditor presents his report to the Audit Committee on quarterly basis.

### 3.1.4 Attendance

During the financial year 2018-19, 6 (Six) meetings of the Audit Committee were held on April 20, 2018; May 31, 2018; August 07, 2018; September 05, 2018; November 13, 2018 and February 08, 2019. The Attendance of the committee members at these Audit Committee meetings is given below:

Name of the Member	No. of Meetings		
	Held	Eligible to attend	Attended
Mr. Gautam Khandelwal	6	6	6
Mrs. Vijaya Sampath	6	6	5
Mr. Tarang Jain	6	6	6
Mr. Vinish Kathuria	6	1	1

It can be seen from the above table that the frequency of the Committee Meetings was more than the minimum limit prescribed under applicable regulatory requirements and the gap between two Committee Meetings was not more than one hundred and twenty days.

The Minutes of the Meeting of the Audit Committee are discussed and noted by the Board of Directors at the subsequent Board Meeting.

The functional / business representatives also attend the committee meetings periodically and provide such information and clarifications as required by the committee members, which gives a deeper insight into the respective business and functional areas of operations. The Cost Auditors and the Statutory Auditors attend the Audit Committee Meetings for their respective agenda items relating to Cost Audit Report and Limited Review Report on Quarterly Financial Results. Mr T. R. Srinivasan, Chief Financial Officer and Mr. Rakesh Darji, Company Secretary had attended all committee meetings.

## 3.2 Nomination and Remuneration Committee

### 3.2.1 Constitution and Composition

The Nomination and Remuneration Committee was constituted on February 06, 2018 in compliance with the provisions of section 178 of the Companies Act, 2013 and Regulation 19(1) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The constitution of the

# Corporate Governance Report

Nomination and Remuneration Committee as on March 31, 2019 is as follows:

Name of the Member	Position in the Committee	Category
Mr. Gautam Khandelwal	Chairman	Non – Executive, Independent Director
Mrs. Vijaya Sampath	Member	Non – Executive, Independent Director
Mr. Marc Szulewicz	Member	Non – Executive, Independent Director

## 3.2.2 Terms of Reference

The terms of reference of the Nomination and Remuneration Committee cover all the areas mentioned under Section 178 of the Companies Act, 2013 and Regulation 19 (4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The broad terms of reference of the Nomination and Remuneration Committee therefore include analysing, monitoring and reviewing various human resource and compensation matters; remuneration and employment terms of wholotime directors and senior management personnel, adherence to and review of the remuneration/employment policy as approved by the Board of Directors, formulating the criteria and identify persons who may be appointed as directors or senior management of the Company, preliminary evaluation of every Director's performance, Board diversity, compliance of the Code for Independent Directors referred to in Schedule IV of the Companies Act, 2013, compliance with the Company's Code of Conduct by Directors and Senior Management of the Company, reporting non-compliances to the Board of Directors and any other matters which the Board of Directors may direct and/or are statutorily prescribed from time to time.

## 3.2.3 Attendance

During the financial year ended on March 31, 2019, two meetings of the Nomination and Remuneration Committee were held on April 20, 2018 and November 13, 2018. The Attendance of the Directors at these Committee meetings is given below:

Name of the Member	No. of Meetings		
	Held	Eligible to attend	Attended
Mr. Gautam Khandelwal	2	2	1
Mrs. Vijaya Sampath	2	2	2
Mr. Marc Szulewicz	2	2	2

Mr T. R. Srinivasan, Chief Financial Officer and Mr. Rakes Darji, Company Secretary had attended all these committee meetings.

As per Regulation 19(3) of the SEBI LODR Regulations, Mr. Gautam Khandelwal, Chairman of the Nomination and Remuneration committee was present at the last Annual General Meeting to answer shareholders' queries.

## 3.2.4 Performance Evaluation of Directors

Pursuant to the provisions of the Companies Act, 2013 and SEBI LODR Regulations, 2015, the Board has carried out an annual performance evaluation of its own performance, and that of its Committees, Chairperson and Directors. The manner in which such formal annual evaluation was made by the Board during the year 2018-19 is given below:

- Performance evaluation criteria for Board, Committees of the Board and Directors as approved by the Board at its meeting held on February 06, 2018 were revised on recommendation of independent director, in line with SEBI's Guidance Note dated January 5, 2017 on Board Evaluation, by the Board at its meeting held on November 13, 2018 and the same were placed on the Company's website [www.varrocgroup.com](http://www.varrocgroup.com).
- Based on the said revised criteria, rating sheets were filled by each of the directors towards the end of the year with regard to evaluation of the performance of the Board, its Committees, Chairperson and Directors (except for the director being evaluated) for the year under review.
- A consolidated summary of the ratings given by each of the directors was then prepared, based on which a report of performance evaluation was prepared by the CHRO in respect of the performance of the Board, its Committees, Chairperson and Directors during the year under review.
- The report of performance evaluation so arrived at was then noted and discussed by the Nomination and Remuneration Committee and the Board at their meetings held on April 03, 2019.

The directors have received briefings and updates on key financial, legal and governance matters. The Independent Directors have ensured governance and good conduct, adherence to laws, mitigating risks and growth. The evaluation covered overall performance of the Board and its Committees, individual reviews of each Director and analysis of the performance the Chairman. The evaluation concluded that the Board remained of high caliber and was functioning well, with open and challenging debate and transparent information flow. Assessment of individual Directors concluded that they contributed effectively and proactively in debates at all meetings and devoted adequate time. Committees have also operated effectively.

**3.2.5** The Terms and Conditions of appointment of Independent Directors are available on the website of the Company [www.varrocgroup.com](http://www.varrocgroup.com) under heading Investor/Corporate Governance.

## 3.3 Stakeholders Relationship Committee

### 3.3.1 Constitution and Composition

The Stakeholders Relationship Committee was constituted on February 06, 2018 in compliance with the provisions of section 178 of the Companies Act, 2013 and Regulation 20 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

# Corporate Governance Report

The constitution of the Stakeholders Relationship Committee as on March 31, 2019 is as follows:

## 6.12 Transfers during the year to the Investor Education and Protection Fund (IEPF) and Unclaimed Dividend to be transferred to IEPF:

The Company does not have any amount of unclaimed dividend to be transferred to Investor Education and Protection Fund (IEPF).

## 6.13 Unclaimed Shares

As on March 31, 2019, there were no shares of any shareholder lying unclaimed with the Company or lying in the suspense account. The disclosure required to be given under Regulation 34(3) read with Clause F of Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 are therefore not applicable.

## 7. Other Disclosures

### a) Related party transactions

During the year, as required under Section 177 of the Act and Regulation 23 of the SEBI LODR Regulations, all RPTs were placed before Audit Committee for approval. A statement tabulating the value and nature of transactions with related parties as required under Accounting Standard 18 (Ind AS 24) is set out separately under Note no. 47 to the financial statements in this Annual Report.

During the year, there were no material transactions entered into with related parties, which may have had any potential conflict with the interests of the Company.

The Policy on determining materiality of and dealing with Related Party Transactions' is placed on Company's website at [http://www.varrocgroup.com/corporate\\_governance](http://www.varrocgroup.com/corporate_governance).

### b) Details of Capital Market Non-Compliance, if any

The Company has listed its equity shares on stock exchanges with effect from July 6, 2018. There has been no non-compliance by the Company of any legal requirements; nor has there been any penalty/stricture imposed on the Company by any stock exchange, SEBI or any other statutory authority on any matter related to capital markets.

# Corporate Governance Report

## c) Whistle Blower Policy/Vigil mechanism

Pursuant to Section 177(9) of the Act, the Board at its meeting held on April 7, 2014, adopted the Whistle Blower Policy. The Whistle Blower Policy includes vigil mechanism as mandated under the SEBI LODR Regulations and provides a mechanism for director/employee to report violations, any unethical behaviour, suspected or actual fraud, violation of the Code of Conduct etc. which could be detrimental to the organisation's interest. The mechanism protects whistle blower from any kind of discrimination, harassment, victimisation or any other unfair employment practice. The Company affirms that no employee has been denied access to the Audit Committee.

The said Policy is amended from time to time and is also placed on the Company's website at [http://www.varrocgroup.com/corporate\\_governance](http://www.varrocgroup.com/corporate_governance).

## d) Disclosure of material transactions

In terms of Regulation 26(5) of the SEBI LODR Regulations, Senior Management has made disclosure to the Board relating to all material financial and commercial transactions, if any, where they had personal interest that might have been in potential conflict with the interest of the Company. Based on disclosures received, none of the officials in senior management team of the Company have personal interest in any financial or commercial transactions that may have potential conflict with the interest of the Company.

## e) Disclosures of the Compliance with corporate governance under Regulations 17 to 27 of the SEBI LODR Regulations except those which are already disclosed elsewhere in this report:

### i. Orderly succession to Board and Senior Management

The Board had satisfied itself that in the event of a requirement for addition/succession at the Board level or in the Senior Management, there is a process in place.

### ii. Information supplied to the Board

The Board is presented with relevant information on various matters related to the working of the Company, especially those which are critical and require deliberation for arriving at a decision or for resolving an issue. Presentations are also made to the Board by CEO and different function heads on important matters from time to time. In addition to the items which are required to be placed before the Board for its noting and/or approval, information is properly provided on various significant matters.

In terms of quality and importance, the information supplied by the management to the Board of Directors of the Company is precise and provided with relevant details that is necessary for the directors to enable them to fulfil their duties. The Independent Directors of the Company expressed satisfaction on the quality, quantity and timeliness of flow of information between the Company management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

### iii. Compliance Certificate

The CEO and Wholetime Director and Group Chief Financial Officer have certified to the Board with regard to the financial statements and other matters as required under Regulation 17(8), read with Part B of Schedule II to the SEBI LODR Regulations and the same is given in this Annual Report.

### iv. Report on Corporate Governance

This section, read together with the information given in the Board's Report, Management Discussion and Analysis section and General Shareholder Information, constitute the compliance report on Corporate Governance during the year. The company submits the quarterly compliance report on regular basis to the stock exchanges as required under Regulation 27 of the SEBI LODR Regulations.

### v. Certificate from Practicing Company Secretary on compliance of Corporate Governance conditions

The Company has obtained the Certificate from a Practicing Company Secretary regarding compliance with the provisions relating to corporate governance laid down in Part E of Schedule V to the SEBI LODR Regulations along with Certificate to the effect that none of the Directors of the Company have been debarred or disqualified from being appointed or continuing as Director of companies by the Securities and Exchange Board of India, Ministry of Corporate Affairs, or any such other Statutory Authority.

These Certificate(s) are annexed to the Board's Report and will be sent to the stock exchanges, along with the Annual Report to be filed by the Company.

# Independent Auditor's Report

## To the Members of Varroc Engineering Limited

Report on the Audit of the Standalone Ind AS Financial Statements

### Opinion

We have audited the accompanying standalone Ind AS financial statements of Varroc Engineering Limited ("the Company"), which comprise the Balance sheet as at March 31 2019, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

### Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

### Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Board's Report (including the Annexures), Corporate Governance Report and Management Discussions and Analysis (but does not include the standalone/consolidated Ind AS financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and Corporate overview and other details to be included in the annual report, which is expected to be made available to us after that date.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Corporate overview and other details included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

# Independent Auditor's Report

## Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2019 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Other Matter

The Ind AS financial statements of the Company for the year ended March 31, 2018, included in these standalone Ind AS financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on June 6, 2018.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - (e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;

## Independent Auditor's Report

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (g) In our opinion, the managerial remuneration for the year ended March 31, 2019 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 50 to the standalone Ind AS financial statements;
  - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 27 to the standalone Ind AS financial statements;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

## Annexure 1 referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirement" of our report of even date

Re: Varroc Engineering Limited (the "Company")

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) All fixed assets have not been physically verified by management during the year but there is a regular programme of verification to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by management, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
- (ii) The inventory has been physically verified by management during the year. In our opinion, the frequency of verification is reasonable. No material discrepancies were noticed on such physical verification. Inventories lying with third parties have been substantially confirmed by them and no material discrepancies were noticed in respect of such confirmations.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, provisions of section 185 and 186 of the Companies Act 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and guarantees and securities given, have been complied with by the Company.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of its products and are of the opinion that *prima facie*, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of custom, goods and service tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases in respect of payment of income taxes (TDS) and provident fund. According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and services tax, customs duty, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (b) According to the records of the Company, the dues of income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax and cess which have not been deposited on account of any dispute, are as follows:

Name of the statute	Nature of the dues	Amount* (₹ in Million)	Period to which the amount relates	Forum where the dispute is pending
Income Tax Act, 1961	Income Tax	12.70	AY 2008-09	Bombay High Court, Aurangabad bench
Income Tax Act, 1961	Income Tax	11.06	AY 2015-16	CIT (A), Pune
Sales Tax Act	Sales Tax	0.65	FY 2000-01	Bombay High Court
The Central Excise Act, 1944	Excise Duty	200.53	FY 2011-16	Commissioner of Central Excise, Aurangabad
The Central Excise Act, 1944 & The Finance Act, 1994	Excise Duty & Service Tax	21.23	Jan 2005 to June 2017	Various Tax Authorities

\* Against the litigation amount as mention above, ₹ 0.53 million have been deposited with respective authorities.

- (viii) In our opinion and according to the information and explanations given by management, the Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or government or dues to debenture holders.
- (ix) In our opinion and according to information and explanations given by management, monies raised by the company by way of term loans were applied for the purpose for which they were raised. According to the information and explanations given by management, the Company has not raised any money by way of initial public offer or further public offer (including debt instruments).
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by management, we report that no fraud by the Company or no fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- (xi) According to the information and explanations given by management, the managerial remuneration has been paid/provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.

## **Annexure 1 referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirement " of our report of even date**

- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of the Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given by management, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and accordingly reporting requirements under clause 3(xiv) are not applicable to the Company and hence not commented upon.
- (xv) According to the information and explanations given by management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.
- (xvi) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

## Annexure 2 to The Independent Auditors Report of Even Date on The Standalone Ind as Financial Statement

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Varroc Engineering Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these standalone Ind AS financial statements.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these standalone financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# Notes to the financial statements for the year ended March 31, 2019

## 1. Corporate information

Varroc Engineering Limited (the "Company") is engaged in the business of manufacturing of automobile components. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the Company is located at L-4 M.I.D.C Area ,Waluj, Aurangabad-431 136.

The Company has 13 manufacturing plants, 3 research and development centres, 3 wind power and 1 solar power projects in India and caters to customers both in the domestic and international markets. The Company and its subsidiaries operate from manufacturing plants and technical development centers across 4 continents and 14 countries spread across the globe.

The above financial statements were authorised for issue in accordance with a resolution of the Board of directors on May 24, 2019.

## 2. Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

### Basis of Preparation

#### (i) Compliance with Ind AS

These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

All amounts included in these financial statements are reported in Million of Indian rupees (₹ In Million) except earning per share data and unless stated otherwise.

All amounts in the financial statements have been rounded off to the nearest million or decimal thereof.

#### (ii) Use of estimates and assumptions

The preparation of the Financial Statements requires the management to make certain judgments, estimates and assumptions. It also requires the management to exercise judgement in the process of applying the accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2A.

#### (iii) Historical cost convention

"The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value; and
- defined benefit plans, plan assets measured at fair value.

#### (iv) Current - non-current classification:

All assets and liabilities have been classified as current or non current as per the company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current- non current classification of assets and liabilities.

## A) Property, plant and equipment

### Tangible assets

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term as follows:

▪ Leasehold Land	Amortised over the period of lease
▪ Buildings Factory	30- years
▪ Buildings offices	60 years

## Notes to the financial statements for the year ended March 31, 2019

▪ Plant and Machinery		
▪ Plant and Machinery, Factory Equipment & Electrical installation and fittings	8-12 years	
▪ Moulds	2-7 years	
▪ Computers	3-6 years	
▪ Vehicles	2-5 years	
▪ Furniture and Fixtures	5-10 years	
▪ Tools and office equipment	2-5 years	

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and lease term if there is no reasonable certainty that the company will obtain ownership at the end of the lease term.

The useful lives have been determined based on technical evaluation done by the management's expert which are different than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

The asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/(losses).

Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

### Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 30-50 years. The useful life has been determined based on technical evaluation performed by the management's expert.

### Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

#### (i) Computer software

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life of the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised softwares amortised over a period of 3 years.

#### (ii) Technical know how

Expenditure on acquiring technical know-how (including income tax and R & D Cess) is capitalised and amortised over a period of six years.

#### (iii) Research and development

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. During the period of development, the asset is tested for impairment annually.

# Notes to the financial statements for the year ended March 31, 2019

## B) Investments in subsidiaries/joint venture

The Company accounts for its investments in subsidiaries/joint venture at cost less accumulated impairment losses (if any) in its separate financial statements. Investments accounted for at cost are accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale

## C) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

### As a lessee

Leases where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Contingent rentals are recognized as expenses in the periods in which they are incurred.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

### As a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

The Company has determined that it does not meet criteria for recognition of lease rental expense/ income on a basis other than straight-line basis.

## D) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit or loss.

Intangible assets with indefinite useful lives are tested for impairment annually as at the year end at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

## E) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

## Notes to the financial statements for the year ended March 31, 2019

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

### F) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- a) Raw materials, Stores and spare-parts, Loose tools and Packing materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- b) Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on weighted average basis.
- c) Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
- d) Duties and other taxes (other than those subsequently recoverable by the entity from the taxing authorities) are included in the value of inventory.

### G) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property, plant and equipment are included in current and non-current liabilities as deferred income and are credited to profit or loss on straight-line basis over the expected lives of the related assets and presented within other income.

### H) Revenue Recognition

#### Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer. Amounts disclosed as revenue are net of goods and service tax (GST).

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 30.

#### Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods. The normal credit term is 30 to 120 days upon delivery.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties). In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any)..

#### Variable consideration

If the consideration in a contract includes a variable amount (like volume rebates/incentives, cash discounts etc.), the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The estimate of variable consideration for expected future volume rebates/incentives, cash discounts etc. are made on the most likely amount method. Revenue is disclosed net of such amounts.

#### Significant financing component

Generally, the Company receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

#### Warranty obligations

The Company typically provides warranties for general repairs of defects as per terms of the contract with customers. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. Refer to the accounting policy on warranty provisions in section (L) Provisions.

## Notes to the financial statements for the year ended March 31, 2019

### **Sale of services**

Income from services is recognised on the basis of time/work completed as per contract with the customers. The Company collects goods and service tax (GST) on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

### **Contract balances**

#### Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policy refer note S Financial instruments – Financial assets at amortised cost.

#### Contract Assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional

#### Contract liabilities

A contract liability is the obligation to transfer goods to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Company performs under the contract.

#### Refund liabilities

A refund liability is the obligation to refund some or all the consideration received (or receivable) from the customer and is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

#### Wind/solar power generation

Income from the wind / solar power generation is recognised when earned on the basis of contractual arrangements with the buyers.

#### Export Incentives

Income from duty drawback and export incentives is recognised on an accrual basis.

### **I) Foreign currency translation**

The Company's financial statements are presented in INR, which is also the functional currency.

#### Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss with the exception of the following:

Exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of a foreign operation. These are recognized in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.

Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

### **J) Employee benefits**

#### **(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### **(ii) Other long-term employee benefit obligations**

The liabilities for earned leaves are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided

# Notes to the financial statements for the year ended March 31, 2019

by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

## (iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity and
- (b) defined contribution plans such as provident fund

### Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

### Defined contribution plans

The Company makes contributions to funds for certain employees to the regulatory authorities. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when an employee renders the related service. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

## (iv) Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

## (v) Termination benefits

Termination benefits are payable when employment is terminated by the company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

## K) Income tax

### Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

## Notes to the financial statements for the year ended March 31, 2019

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the concerned company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority

### L) Provisions

#### General

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### Warranty provisions

Provisions for warranty-related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually

#### Onerous contracts

If the Company has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision.

### M) Earnings Per Share

#### (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the reporting period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

#### (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all period presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

# Notes to the financial statements for the year ended March 31, 2019

## N) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management. Bank overdraft are shown within borrowings in current liabilities in the Balance sheet.

## O) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

## P) Segment reporting

In accordance with paragraph 4 of notified Ind AS 108 "Operating segments", the Company has disclosed segment information only on the basis of the consolidated financial statements.

## Q) Financial Instruments

### Financial Assets

#### Initial Recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

#### Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in finance costs/income in the Statement of Profit or Loss. The losses arising from impairment are recognized in the Statement of profit or loss. This category generally applies to trade and other receivables.

#### Debt instruments at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the P&L. On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income under EIR method.

#### Debt instruments at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI is classified as FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instruments as at FVTPL.

# Notes to the financial statements for the year ended March 31, 2019

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in P&L.

## Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind-AS 103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such an election on an instrument-by-instrument basis. This classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on the sale of the investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in P&L.

## Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a company of similar financial assets) is primarily derecognized (i.e. removed from the Company balance sheet) when:

-The rights to receive cash flows from the asset have expired, or

-The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

## Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:-

- (a) Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- (b) Financial assets that are debt instruments and are measured at FVTOCI
- (c) Lease receivables under Ind-AS 17
- (d) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18
- (e) Loan commitments which are not measured as at FVTPL
- (f) Financial guarantee contracts which are not measured as at FVTPL

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

-Trade receivables

-All lease receivables resulting from transactions within the scope of Ind AS 17

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the company is in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

-All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

# Notes to the financial statements for the year ended March 31, 2019

-Cash flows from the sale of the collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

## **Financial assets measured at amortized cost, contract assets and lease receivables:**

ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

**Loan commitments and financial guarantee contracts:** ECL is presented as a provision in the balance sheet i.e. as a liability.

**Debt instruments measured at FVTOCI:** Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/origination.

## **Financial liabilities**

### **Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

### **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

#### **- Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

### **Loans and borrowings**

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss. This category generally applies to interest bearing loans and borrowings.

### **Financial guarantee contracts**

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of the debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per the impairment requirements of Ind-AS 109 and the amount recognized less cumulative amortization.

### **Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an

# Notes to the financial statements for the year ended March 31, 2019

exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

## Embedded Derivatives

If the hybrid contract contains a host that is a financial asset within the scope of Ind-AS 109, the company does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind-AS 109 to the entire hybrid contract.

Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss, unless designated as effective hedging instruments. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

Embedded derivatives closely related to the host contracts are not separated.

## Embedded foreign currency derivatives

Embedded foreign currency derivatives are not separated from the host contract if they are closely related. Such embedded derivatives are closely related to the host contract, if the host contract is not leveraged, does not contain any option feature and requires payments in one of the following currencies:

- the functional currency of any substantial party to that contract,
- the currency in which the price of the related good or service that is acquired or delivered is routinely denominated in commercial transactions around the world,
- a currency that is commonly used in contracts to purchase or sell non-financial items in the economic environment in which the transaction takes place (i.e. relatively liquid and stable currency)

Foreign currency embedded derivatives which do not meet the above criteria are separated and the derivative is accounted for at fair value through profit and loss. The Company currently does not have any such derivatives which are not closely related.

## Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

Disclosures for valuation methods, significant estimates and assumptions (**Note 43**)

Quantitative disclosures of fair value measurement hierarchy (**Note 43**)

Financial instruments (including those carried at amortized cost) (**Note 44, 45 and 46**)

# Notes to the financial statements for the year ended March 31, 2019

## Derivative financial instruments and hedge accounting

### Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to hedge its foreign currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognized in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- 1) Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment
- 2) Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment
- 3) Hedges of a net investment in a foreign operation

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the Company's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

### Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognized in OCI in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the statement of profit or loss.

The Company uses derivative contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognized in finance costs.

Amounts recognized as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognized or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognized as OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognized in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

### Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities.

For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent.

The Company senior management determines changes in the business model as result of external or internal changes which are significant to the company operations. Such changes are evident to external parties. A change in the business model occurs when the company either begins or ceases to perform an activity that is significant to the operations.

If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

# Notes to the financial statements for the year ended March 31, 2019

The following table shows various reclassifications and how they are accounted for:

Original Classification	Revised Classification	Accounting Treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in P&L.
FVTPL	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

## R) Contingent liabilities

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

## 2.1 Changes in accounting policies and disclosures

### New and amended standards

The Company applied Ind AS 115 for the first time. The application of Ind AS 115 does not have any material recognition and measurement impact. However, disclosures as required under Ind AS 115 in respect of revenue from contracts with customers have been given.

Several other amendments and interpretations apply for the first time in March 2019, but do not have an impact on the financial statements of the Company. The Company has not early adopted any standards or amendments that have been issued but are not yet effective.

#### Ind AS 115 Revenue from Contracts with Customers

Ind AS 115 supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. In addition, the standard requires extensive disclosures.

The Company adopted Ind AS 115 using the modified retrospective method of adoption with the date of initial application of 1 April 2018. There was no material impact on application of Ind AS 115. The comparative information for previous year was not restated and continues to be reported under previously applicable standards.

# Notes to the financial statements for the year ended March 31, 2019

## Note 2A: Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

### Judgements

In the process of applying the Company's accounting policies, there are no significant judgements made by the management.

### Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### 1) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Further details about gratuity obligation are given in Note 42.

#### 2) Deferred taxes

At each reporting date, the Company assesses whether the realization of future tax benefits is sufficiently probable to recognize/carry forward deferred tax assets (including MAT credits). This assessment requires the use of significant estimates/assumptions with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income change or if changes in current tax regulations are enacted.

## Note 2B: Standards issued but not yet effective

#### 1) Ind AS 116 - Leases

Ind AS 116 - Leases was notified by MCA on 30 March 2019 and it replaces Ind AS 17 - Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from the current accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company intends to adopt Ind AS 116 from 1 April 2019. As the Company does not have material leases, therefore the adoption of this standard is not likely to have a material impact in its financial statements.

#### 2) Other Amendments to Standards, issued but not effective, which are either not applicable to the Company or the impact is not expected to be material

- (a) Appendix C to Ind AS 12 Uncertainty over Income Tax Treatment
- (b) Amendments to Ind AS 109: Prepayment Features with Negative Compensation
- (c) Amendments to Ind AS 19: Plan Amendment, Curtailment or Settlement
- (d) Amendments to Ind AS 28: Long-term interests in associates and joint ventures
- (e) Annual improvement to Ind AS (2018):
  - Amendments to Ind AS 103: Party to a Joint Arrangements obtains control of a business that is a Joint Operation
  - Amendments to Ind AS 111: Joint Arrangements
  - Amendments to Ind AS 12: Income Taxes
  - Amendments to Ind AS 23: Borrowing Costs

#### (i) Amount recognised in Statement of Profit and Loss for investment properties

(₹ in million)

	For the year ended March 31, 2019	For the year ended March 31, 2018
Rental income	50.42	46.72
<b>Profit from investment properties before depreciation</b>	<b>50.42</b>	<b>46.72</b>
Depreciation	11.37	11.32
<b>Profit from investment properties</b>	<b>39.05</b>	<b>35.40</b>

#### (ii) Leasing arrangements

Certain investment properties located at M139-140 MIDC Waluj Aurangabad and B-14 MIDC Chakan Pune are leased to tenants under long-term cancellable operating leases with rentals payable monthly. There is escalation of 10% in lease rentals during the lease terms.

#### (iii) Fair value

Fair value of the investment property as on March 31, 2019 was ₹ 366.16 million. (March 31, 2018 ₹ 364.79 million)

#### Estimation of fair value

The Company obtains valuations for its investment properties internally. The best evidence of fair value is current prices in an active market for similar properties.

### (b) Rights, preferences and restrictions attached to equity shares

Equity shares: The Company has equity shares having a par value of ₹ 1 per share (previous year ₹ 1- per share). In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend.

## Notes to the financial statements for the year ended March 31, 2019

(₹ in million)

			As at March 31, 2019	As at March 31, 2018
(c)	<b>Bonus issue of series C CCPS</b> During the year ended March 31, 2017, the Company issued and allotted 1,168,377 Series C CCPS of ₹ 10/- each fully paid as bonus to eligible equity shareholders of the Company in the ratio of 57 fully paid up Series C CCPS for every 469 equity shares of the Company held by them. The Series C CCPS were non-cumulative, participating preference shares, mandatorily and fully convertible into equity shares on occurrence of the trigger event. The holder of each Series C CCPS were entitled to preferential dividend at the rate of 0.0001% per year on the face value. The Series C CCPS were entitled to participate, on a pari passu basis with Equity Shares, in any dividend distribution to the holders of Equity Shares on an 'as if converted' basis. For the purpose of dividend distribution, the Series C CCPS prior to their conversion would constitute 1.3% of the Equity Share Capital on a fully diluted basis. Under Ind AS, Series C CCPS were classified as an equity instrument based on the terms of the agreement and trigger event, which is earlier of: (i) the date on which the Company files a red herring prospectus with the SEBI for undertaking an IPO or (ii) IPO Veto Date; (iii) the Conversion Deadline, as defined in the terms of the agreement.			
(d)	<b>Capital reduction</b> During the previous year, the Company, pursuant to the provisions of Section 66 of the Companies Act, 2013 and the rules made thereunder, had filed a petition for reduction of 852,349 equity shares of ₹ 10 each held by wholly owned subsidiary Varroc Polymers Private Limited (VPPL) without any consideration. This scheme was approved by the National Company Law Tribunal (NCLT) and was filed with the Registrar of Companies (ROC) on December 18, 2017. The ROC registered the order on January 15, 2018 and the Company took on record this transaction at the Board Meeting on January 16, 2018. Pursuant to this transaction, share capital of ₹ 8.52 million has been transferred to Capital Reserve as at March 31, 2018.			
(e)	During the previous year, face value per equity share and preference share have been sub divided from ₹ 10 to ₹ 1. Further authorised share capital of the Company was reclassified from ₹ 500 million consisting of ₹ 165 million (165,000,000 equity Shares of ₹ 1/- each) and ₹ 335 million (335,000,000 preference shares of ₹ 1/- each) to ₹ 250 million (250,000,000 equity shares of ₹ 1/- each) and ₹ 250 million (Consisting of 250,000,000 preference shares of ₹ 1/- each).

## Notes to the financial statements for the year ended March 31, 2019

(₹ in million)

		As at March 31, 2019	As at March 31, 2018
<b>Nature and purpose of reserves</b>			
<b>General reserve</b>	General reserve is the retained earning of the Company which is kept aside out of the Company's profits to meet future (known or unknown) obligations.		
<b>Debenture redemption reserve</b>	The Company is required to create a debenture redemption reserve out of the profits which is available for payment of dividend for the purpose of redemption of debentures.		
<b>Capital reserve</b>	Capital reserve is not available for distribution as dividend.		
<b>Securities premium</b>	Securities premium is used to record the premium on issue of shares. It is utilised in accordance with the provisions of the Companies Act, 2013.		
<b>Cash flow hedge reserve</b>	The Company uses hedging instruments to hedge its exposure to movements in foreign exchange rates and interest rates, which are designated as cash flow hedges. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedge reserve. Amounts recognised in cash flow hedge reserve are reclassified to profit or loss when the hedged item affects profit or loss.

\* Provision for loan taken by subsidiary - One of the foreign subsidiary had taken intercorporate loan from another subsidiary for which the Company had given a guarantee. The Company has created a provision in the financial year 2013-14, against the same. Changes in the value of provision is due to foreign exchange restatement.

\*\* Provision for warranties - The Company provides warranties on applicable products, for their satisfactory performance during the warranty period as per the contracts with buyers. Provision for warranty claims arising out of such obligation is made based on such warranty period. The impact of discounting is not material.

\*\*\* Provision for coupon scheme - Provision is made for supplies to other than OEMs on estimated cost of coupons redemption. These coupons are expected to be redeemed within 2-3 years. Management estimates the provision based on historical claims information and any recent trends. The impact on discounting of the provision is not material.

## 30 Revenue from operations

For the year ended March 31, 2019 (refer note 2(H))

(₹ in million)

Particulars	March 31, 2019
Revenue from contracts with customer	25,144.42
Other operating revenue	587.11
<b>Total</b>	<b>25,731.53</b>

### Revenue from contracts with customer

#### A. Disaggregated revenue information

(₹ in million)

Particulars	For the year ended March 31, 2019
Goods transferred at a point in time	
Finished goods	
Electrical & Lighting Auto Parts	13,263.99
Steel Forged Products	5,254.56
Polymer Auto Parts	2,522.86
Engine Valves	1,531.98
After Market Auto Parts	2,478.75
Toolings	70.45
Job work	21.83
<b>Total revenue from contracts with customer</b>	<b>25,144.42</b>
<b>Revenue by region</b>	
India	23,033.54
Asia pacific	261.75
Europe	941.67
North America	534.64
Others	372.82
<b>Total revenue from contracts with customer</b>	<b>25,144.42</b>

#### B. Contract balances

Particulars	March 31, 2019
Trade receivables	3,060.46
Contract liabilities	43.00

Trade receivables are non-interest bearing and are generally on payment terms of 30 to 120 days.

Contract liabilities include advances received from customers for delivery of goods and development of tools

#### Set out below is the amount of revenue recognised from:

Particulars	March 31, 2019
Amounts included in contract liabilities at the beginning of the year	57.43
Performance obligations satisfied in previous years	-

## Notes to the financial statements for the year ended March 31, 2019

### C. Reconciling the amount of revenue recognised in the statement of profit and loss with the contracted price

Particulars	March 31, 2019
Revenue as per contracted price	25,259.28
<b>Adjustments</b>	
Discount	(114.86)
<b>Revenue from contract with customers</b>	<b>25,144.42</b>

### D. Performance obligation

Revenue from contracts with customers include revenue from finished goods, tooling, and Job work.

#### Finished goods / tooling

For the sale of finished goods the performance obligation is generally satisfied upon its delivery or as per the terms of the customer contract and payment is generally due within 30 to 120 days from delivery. For sale of toolings, the performance obligation is considered satisfied on billing after approval of the part(s) by the customer. The Company generally receives advance for toolings contracts ranging from 30 % to 50% of the contracted price. The revenue from the sale of finished goods/toolings is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

The Company provides normal warranty provisions on some of its products sold, in line with the industry practice. The Company considers that the contractual promise made to the customer in the form of warranties for the parts supplied does not meet the definition of separate performance obligation as it does not give rise to additional service.

Job work revenue is recognised when the work is completed and billed to customer.

#### Other operating revenue

Particulars	For the year ended March 31, 2019
Scrap sales	135.41
Wind and solar power generation	100.36
Export Incentives	131.19
Management fees	150.10
Others	70.05
<b>Total other operating revenue</b>	<b>587.11</b>

#### For the year ended March 31, 2018

Particulars	For the year ended March 31, 2018
<b>Revenue from operations</b>	
Sale of products	
Finished goods	20,604.16
<b>Other operating revenue</b>	
Wind and solar power generation	95.68
Job work receipts	4.40
Scrap sales	82.65
Export Incentives	66.61
Management fees	73.43
Others	27.81
<b>Total revenue from operations</b>	<b>20,954.74</b>

Revenue from contract with customers for the year ended March 31, 2018 includes excise duty, which is discontinued w.e.f. July 1, 2017 upon implementation of Goods and Services Tax (GST) in India. The Company collects GST on behalf of the Government. Hence, GST is not included in Revenue from contract with customers. In view of the aforesaid restructuring of Indirect taxes, Revenue from contract with customers for the year ended March 31, 2019 is not comparable with the previous year.

40	<b>Conversion to Public company and Initial Public Offer</b> During the previous year, the shareholders at their meeting held on January 25, 2018, had approved for conversion of the Company from a "Private Limited Company" to "Public Limited Company". Necessary documents were filed with the Ministry of Corporate Affairs and the same were approved by the Register of Companies (ROC) Mumbai on February 05, 2018. During the year, the Company completed the Initial Public Offer ('IPO') (through offer for sale) and listing of its equity shares on recognised stock exchanges in India. The equity shares of the Company were listed on July 6, 2018. The IPO being an offer for sale, the issue proceeds were received by the selling shareholders who sold 20,221,730 equity shares in the IPO at a price of ₹ 967 per equity share. No new equity shares were issued by the Company. The expenses incurred for the IPO have been entirely reimbursed to the Company by the selling shareholders.

### Note 41: Dues to micro and small enterprises

The Company has certain dues to suppliers registered under Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED Act'). The disclosures pursuant to the said MSMED Act are as follows:

Sr.no	Particulars	March 31, 2019	March 31, 2018
a)	Principal amount due to suppliers registered under the MSMED Act and remaining unpaid as at year end	504.25	7.21
b)	Interest due to suppliers registered under the MSMED Act and remaining unpaid as at year end	1.42	0.01
c)	Principal amounts paid to suppliers registered under the MSMED Act, beyond the appointed day during the year	3,229.68	29.04
d)	Interest paid, other than under section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
e)	Interest paid, under section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
f)	Interest due and payable towards suppliers registered under MSMED Act, for payments already made*	13.06	0.25
g)	Further interest remaining due and payable for earlier years	1.54	1.28

\* The above interest has not been provided for in the books of accounts.

The Company has a process of sending out confirmations to all vendors, regarding their status as MSME. Based on responses received, The Company marks vendors as MSME and others.

## Notes to the financial statements for the year ended March 31, 2019

### Note 42: Employee benefit obligation

#### A. Defined contribution plans:

The Company has certain defined contribution plans. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is as under :

	(₹ in million)	
	March 31, 2019	March 31, 2018
(I) Contribution to Employees' provident fund	47.79	41.51
(II) Contribution to Employees' family pension fund	37.17	32.35
<b>Total</b>	<b>84.96</b>	<b>73.86</b>

#### B. Defined benefit plan (Gratuity)

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary plus dearness allowance per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

Particulars	(₹ in million)	
	March 31, 2019	March 31, 2018
<b>(a) Change in present value of benefit obligations</b>		
Liability at the beginning of the year	158.62	149.57
Service cost	27.47	28.84
Interest expense	12.18	10.29
Transfer of obligation	(0.09)	-
Remeasurements - Actuarial (gains)/ losses (refer note (e) below)	17.41	(16.53)
Benefits paid	(9.01)	(13.55)
Liability at the end of the year	206.58	158.62
<b>(b) Change in fair value of plan assets</b>		
Fair value of plan assets at the beginning of the year	158.64	134.59
Interest income	13.82	10.24
"Remeasurements- Return on plan assets excluding amounts recognised in interest income (refer note (e) below)"	(0.75)	0.09
Contributions	39.83	27.27
Benefits paid	(9.01)	(13.55)
Fair value of plan assets at the end of the year	202.53	158.64
<b>(c) The net liability disclosed above relates to funded plan is as follows:</b>		
Present value of defined benefit obligations	206.58	158.62
Fair value of plan assets	202.53	158.64
(Surplus)/Deficit	4.05	(0.02)

## Notes to the financial statements for the year ended March 31, 2019

(₹ in million)

Particulars	For the year ended March 31, 2019	For the year ended March 31, 2018
<b>(d) Expenses to be recognized in the Statement of Profit and Loss under employee benefit expenses</b>		
Service cost	<b>27.47</b>	25.70
Past service cost*	-	3.14
Net interest (income)/expense	<b>(1.64)</b>	0.04
<b>Net gratuity cost</b>	<b>25.83</b>	28.88
*This pertains to past service cost on account of amendment to Payment of Gratuity (Amendment) Act, 2018 dated March 29, 2018, there is an increase in the existing ceiling limit of the amount of gratuity payable to employees who have completed five years of continuous service from ₹ 10 lakhs to ₹ 20 lakhs.		
<b>(e) Expenses to be recognized in statement of other comprehensive income:</b>		
<b>Remeasurement</b>		
Experience (Gain)/ Losses on plan liabilities	<b>9.98</b>	(1.66)
(Return) / loss on plan assets excluding amounts recognised in interest (income)/expenses	<b>0.75</b>	(0.09)
(Gain)/loss from change in financial assumptions	<b>7.43</b>	(14.88)
	<b>18.16</b>	(16.63)
<b>(f) Valuation in respect of gratuity has been carried out by independent actuary, as at the balance sheet date, based on the following assumptions:</b>		
Discount rate	<b>7.60%</b>	7.90%
Salary growth rate	<b>7.00%</b>	7.00%
Weighted average duration of defined benefit obligation	<b>11.28</b>	11.40
Expected rate of return on plan assets	<b>7.90%</b>	7.20%
Withdrawal Rate		
Service below 5 years	<b>20.00%</b>	20.00%
Service 5 years & above	<b>2.00%</b>	2.00%
The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government bonds.		

### Quantitative sensitivity analysis for significant assumptions are as follows:

(₹ in million)

Change in Assumption	As at March 31, 2019	As at March 31, 2018
Increase/(decrease) in present value of defined benefit obligation as at the end of the year		
(i) 1% increase in discount rate	<b>11.28%</b>	11.46%
(ii) 1% decrease in discount rate	<b>13.56%</b>	13.78%
(iii) 1% increase in rate of salary escalation	<b>12.23%</b>	12.49%
(iv) 1% decreasing rate of salary escalation	<b>10.47%</b>	10.68%

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 1%, keeping all other actuarial assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method(present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied while calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

## Notes to the financial statements for the year ended March 31, 2019

### Major categories of plan assets are as follows:

Particulars	(₹ in million)			
	As at March 31, 2019	As at March 31, 2018	As at March 31, 2019	As at March 31, 2018
Amount	%	Amount	%	
Funds managed by Insurer	202.53	100%	158.64	100%
<b>Total</b>	<b>202.53</b>	<b>100%</b>	<b>158.64</b>	<b>100%</b>

As the funds are managed wholly by the insurance company, the break-up of the plan assets is unavailable.

Actual return on assets for the year ended March 31, 2019 and year ended March 31, 2018 was ₹ 13.07 million and ₹ 10.34 million respectively.

The Company expects to contribute ₹ 20.00 million to the plan asset during the year ended March 31, 2020. During the year ended March 31, 2019, the Company has contributed amount of ₹ 39.83 million net of charges and taxes.

maturity profile of defined benefit obligation:

Particulars	(₹ in million)	
	As at March 31, 2019	As at March 31, 2018
Within 1 year	₹ 8.03	₹ 4.31
1-2 year	₹ 9.17	₹ 6.47
2-3 year	₹ 12.08	₹ 9.76
3-4 year	₹ 17.81	₹ 12.41
4-5 year	₹ 16.42	₹ 16.84
5-10 years	₹ 136.91	₹ 113.96

### RISK EXPOSURE AND ASSET LIABILITY MATCHING

Provision of a defined benefit scheme poses certain risks, some of which are detailed here under as companies take on uncertain long-term obligations to make future benefit payments.

#### 1) Liability Risks

##### Asset-Liability mismatch risk-

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements. Hence, companies are encouraged to adopt asset-liability management.

##### Discount rate risk-

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practice can have a significant impact on the defined benefit liabilities.

##### Future salary escalation and inflation risk -

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

#### 2) Asset risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years.

The Company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The Company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

<b>Total</b>		<b>-</b>	<b>48.59</b>	-	<b>48.59</b>

### (ii) Valuation technique used to determine fair value

The following methods and assumptions were used to estimate the fair value of the financial instruments included in the above tables:

- The fair values of the mutual funds are based on price quotations at the reporting date.
- The Company enters into derivative financial instruments with financial institutions with investment grade credit ratings. Foreign exchange forward contracts, interest rate swaps are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The models incorporate various inputs including the credit quality counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spread between the respective currencies, interest rate curves etc. The changes in counterparty credit risk had no material effect on financial instruments recognised at fair value through profit and loss.

### Commentary

The carrying amounts of trade receivables, loans, trade payables, cash and bank balances, security deposits, government securities, other financial assets, borrowings, other financial liabilities, acceptances are considered to be the same as their fair values, due to their short-term nature. The fair value of non-current financial assets and non-current liabilities also approximates its carrying value.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

### Note 44: Financial risk management

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also enters into derivative transactions.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

#### Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, receivables, payables, deposits, investments and derivative financial instruments.

##### a) Foreign currency risk

The Company operates internationally and the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sale and purchase of goods and services, mainly in the North America and Europe and borrowings in various foreign currencies. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are affected positively/adversely as the rupee appreciates /depreciates against these currencies. The Company evaluates exchange rate exposure arising from these transactions and enters into foreign exchange forward contracts, interest and principle swaps and options to mitigate the risk of changes in exchange rates on foreign currency exposures. The Company follows established risk management policies, to hedge forecasted cash flows denominated in foreign currency. The Company has designated certain derivative instruments as cash flow hedges to mitigate the foreign exchange exposure.

## Notes to the financial statements for the year ended March 31, 2019

<b>Net assets / (liabilities)</b>	<b>(56.32)</b>	<b>172.33</b>	<b>(115.54)</b>	<b>(11.19)</b>	<b>(10.72)</b>

### iii) Sensitivity

For the year ended March 31, 2019 and March 31, 2018, every 5% percentage point appreciation/depreciation in the exchange rate between the Indian rupee and U.S. Dollar, would have affected the Company's incremental operating margins by approximately ₹ 12.41 million and ₹ 2.82 million, respectively. And for Euro, every 5% percentage point appreciation/depreciation in the exchange rate would have affected the Company's incremental operating margin by approximately ₹ 9.10 million, previous year ₹ 8.62 million. The sensitivity for net exposure in JPY and in other currencies does not have material impact to Statement of Profit and Loss.

Sensitivity analysis is computed based on the changes in the receivables and payables in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

#### b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates.

#### Interest rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

(₹ In million)

For the year ended	Currency	Increase/ decrease in base points	Effect on profit before tax	Variable rate CC balance / Term loans
March 31, 2019	₹	+100	(16.21)	1,621.15
	₹	-100	16.21	1,621.15
March 31, 2018	₹	+100	(10.90)	1,089.89
	₹	-100	10.90	1,089.89

## Notes to the financial statements for the year ended March 31, 2019

### C) Other price risk

The Company does not have material investments in equity securities other than investments in its subsidiaries. Hence, equity price risk is considered to be low. Further, the Company's operating activities require the ongoing purchase of various commodities for manufacture of automotive parts. However, the movement in commodity prices are substantially adjusted through price differences as per customer contracts and hence commodity price risk for the Company is also considered to be low.

### Credit risk management

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Company only deals with parties which have good credit rating/worthiness given by external rating agencies or based on the Company's internal assessment.

### Trade receivables

Customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management. Further, Company's customers includes marquee OEMs and Tier I companies, having long standing relationship with the Company. Outstanding customer receivables are regularly monitored and reconciled. At March 31, 2019, receivable from Company's top 5 customers accounted for approximately 75.76 % (March 31, 2018: 74.26%) of all the receivables outstanding. An impairment analysis is performed at each reporting date on an individual basis based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 12. The Company does not hold collateral as security.

### Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's corporate treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties. Credit limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Company's maximum exposure to credit risk for the components of the balance sheet at March 31, 2019 and March 31, 2018 is the carrying amounts as disclosed in note 13 except for financial guarantees. The Company's maximum exposure relating to financial guarantees is disclosed in note 50 (B)

### d) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows. As of March 31, 2019, cash and cash equivalents are held with major banks.

#### (ii) Maturities of financial liabilities

The table below summarises the maturity profile of the company's financial liabilities based on contractual payments.

(₹ In million)

March 31, 2019	On demand	< 1 year	1 to 5 years	> 5 years
<b>Non- derivative</b>				
Borrowings	31.17	2,351.38	1,560.00	-
Trade Payables	-	3,504.65	-	-
Acceptances	-	212.10	-	-
Other financial liabilities	49.43	407.50	-	-
Derivative liabilities pending settlement	-	6.98	-	-

(₹ In million)

March 31, 2018	On demand	< 1 year	1 to 5 years	> 5 years
<b>Non- derivative</b>				
Borrowings	52.64	2,508.33	2,204.61	-
Trade Payables	-	3,243.29	-	-
Acceptances	-	184.12	-	-
Other financial liabilities	36.75	409.01	6.00	-
Derivative liabilities pending settlement	-	48.59	-	-

The amounts disclosed in the above table are the contractual undiscounted cash flows.

For Financial guarantee contracts, refer Note 50(B).

# Notes to the financial statements for the year ended March 31, 2019

## Note 45: Capital management

### (a) Risk management

The Company's capital comprises equity share capital, preference share capital, security premium, retained earnings and other equity attributable to shareholders.

The Company objectives when managing capital are to:

- Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and for other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company monitors debt-equity ratio, which is net debt divided by total equity. Net debt comprises of long term and short term borrowings less cash and bank balances. Equity includes equity share capital, preference share capital (classified as equity) and other equity attributable to equity shareholders. The debt-equity ratio at the end of the reporting period was as follows.

The Company's strategy is to maintain a debt-equity < 1

(₹ in million)

	As at March 31, 2019	As at March 31, 2018
<b>(A) Net debt</b>		
Non current borrowing (refer note 20 )	1,560.00	2,204.61
Current maturities of non-current borrowings (refer note 27 )	1,560.59	836.65
Current borrowings (refer note 25 )	821.96	1,724.32
Less:- Cash and cash equivalents (refer note 13 )	(67.35)	(85.86)
<b>Net debt (A)</b>	<b>3,875.20</b>	4,679.72
<b>(B) Total equity</b>		
Convertible preference shares	-	11.68
Equity share capital	134.81	123.13
Other equity	11,152.84	9,980.66
<b>Total equity (B)</b>	<b>11,287.65</b>	10,115.47
<b>Net debt to equity ratio (A/B)</b>	<b>0.34</b>	0.46

No changes were made in the objectives, policies or processes for managing capital of the Company during the year.

### Loan covenants

The Company's capital management aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There has been no breach in the financial covenants of any interest-bearing loans and borrowing during the current year and previous year.

### (b) Dividends distributed and proposed

#### Dividends recognised in the financial statements

(₹ in million)

	As at March 31, 2019	As at March 31, 2018
Interim dividend for the year ended March 31, 2018 of ₹ 0.50 per equity share declared and paid	-	61.56
Interim dividend for the year ended March 31, 2018 of ₹ 0.50 per preference share paid on April 30,2018	5.84	-
Dividend distribution tax	1.19	11.19
	7.03	72.75

#### Dividends not recognised at the end of the reporting period

Directors have recommended the payment of a final dividend of ₹ 4 per equity share (March 31, 2018 ₹ Nil). This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.

Provident fund liability	See note (ii) below	-

## Notes to the financial statements for the year ended March 31, 2019

- (i) The Company is contesting excise and service tax demand and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No expense has been accrued in the financial statements for the tax demands raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of the operations. The Company has deposited ₹ 1.46 million with the tax authorities against the said demand to comply the order of hon'ble tax authorities. The hon'ble tax authorities has accepted the plea of Company and has given stay on entire demand after deposit of specified amount till the disposal of case.
- (ii) There are numerous interpretative issues relating to the Supreme Court (SC) judgement on PF dated February 28, 2019. As a matter of caution, the company has made a provision on a prospective basis from the date of the SC order. The company will update its provision, on receiving further clarity on the subject.

### Note 50: Contingent liabilities

#### (B) The Company has provided corporate guarantees / stand by letter of credit as at March 31, 2019 :

(₹ in million)

Particulars	March 31, 2019	March 31, 2018

# Independent Auditor's Report

## To the Members of Varroc Engineering Limited

Report on the Audit of the Consolidated Ind AS Financial Statements

### Opinion

We have audited the accompanying consolidated Ind AS financial statements of Varroc Engineering Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") and its joint ventures comprising of the consolidated Balance sheet as at March 31 2019, the consolidated Statement of Profit and Loss, including Other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and joint venture, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its joint ventures as at March 31, 2019, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2019. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
<p>1. Accounting for Business combinations (as described in note 54 of the consolidated Ind AS financial statements)</p> <p>Accounting for Business combinations is complex and requires involvement of the Group's senior management in identification, valuation and recognition of assets acquired and liabilities assumed. Business combinations also involve determining Goodwill, the future evaluation of which requires estimates with significant effects for the Group.</p> <p>The recognition at fair value of the assets acquired and liabilities assumed requires the use of valuation methodologies that require significant judgments and estimates and the involvement of the Group's external experts.</p> <p>During the year ended March 31, 2019, the Group acquired SA-BA Endustriyel Urunler İmalat ve Ticaret Anonim Şirketi (now Varroc Lighting Systems Endüstriyel Ürünler İmalat ve Ticaret Anonim Şirketi) in Turkey ("Turkey subsidiary") that resulted in the inclusion and measurement of assets acquired and liabilities assumed in the consolidated financial statements. The accounting for the above business combination including the valuation criteria and judgements and estimates made have a significant impact on the consolidated financial statements for the year ended March 31, 2019 and for future years. Accordingly, the same is determined to be a key audit matter in our audit of the consolidated Ind AS financial statements</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>Obtained an understanding of the terms and conditions of the purchase agreement and the consideration transferred. We tested the fair valuation of the assets acquired and liabilities assumed as arrived at by Group's external experts, the assignment of such fair values and the process used to determine residual Goodwill.</li> <li>Tested the methodology used to identify and value the assets/liabilities;</li> <li>Tested the estimates and projections of cash flows and the discount rates applied for valuation of the intangible assets;</li> <li>For the valuation of tangible assets, we read the reports of the independent external valuation experts;</li> <li>Tested the liabilities recognised, analysing their valuation and estimates of the provisions taken into account based on the information available at the date of acquisition;</li> <li>Tested the arithmetical accuracy of the models;</li> <li>Tested the disclosures of the information in the consolidated financial statements.</li> <li>Involved valuation specialists, where warranted.</li> </ul>

# Independent Auditor's Report

Key audit matters	How our audit addressed the key audit matter
<p><b>2. Impairment of Goodwill relating to acquisition of Turkey subsidiary (as described in note 5(b) of the consolidated Ind AS financial statements)</b></p> <p>The Goodwill of ₹ 1,992.53 million in the Group's balance sheet includes ₹ 1,657.81 million pertaining to goodwill towards the acquisition of Turkey subsidiary. Goodwill balances are allocated to Cash Generating Units (CGUs) which are tested annually for impairment using discounted cash-flow models wherein each CGU's recoverable value is compared to the carrying value of the assets. A deficit between the recoverable value and the CGU's net assets would result in impairment.</p> <p>The inputs to the Goodwill impairment testing model for Turkey subsidiary which have the most significant impact on CGU's recoverable value include:</p> <ul style="list-style-type: none"> <li>- Revenue forecasts and EBITDA margins during explicit forecast period of 5 years;</li> <li>- Growth rate and EBITDA margins for terminal value period;</li> <li>- Discount rates;</li> </ul> <p>The impairment test model includes sensitivity testing of key assumptions, including revenue growth, EBITDA margins, terminal value and discount rate.</p> <p>The annual impairment testing for Goodwill pertaining to Turkey subsidiary is considered a significant accounting judgement and estimate and a key audit matter because the assumptions on which the tests are based are highly judgmental and are affected by future market and economic conditions which are inherently uncertain and also because of the materiality of Goodwill to the financial statements as a whole.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>▪ Assessed the Group's methodology applied in determining the CGUs to which Goodwill is allocated with the applicable Ind AS.</li> <li>▪ Assessed the assumptions around the key drivers of the recoverable amounts for the CGU pertaining to Turkey subsidiary including revenue growth, EBITDA margins, terminal values and discount rates used.</li> <li>▪ Also assessed the recoverable value headroom by performing sensitivity testing of key assumptions used.</li> <li>▪ Tested the arithmetical accuracy of the models.</li> <li>▪ Tested the disclosures in the Ind AS financial statements for compliance with the relevant accounting standards requirements.</li> <li>▪ Involved valuation specialists, where warranted.</li> </ul>
<p><b>3. Recoverability of deferred tax assets recognised in Varroc Lighting Systems SRO ("Czech subsidiary") and Varroc Lighting Systems, S.de.R.L.de.C.V ("Mexico subsidiary") (as described in note 22 of the consolidated Ind AS financial statements)</b></p> <p>The Group has deferred tax assets of ₹ 1,755.02 million as at March 31, 2019, of which ₹ 1,646.54 million pertains to Czech subsidiary and Mexico subsidiary, the recoverability of which depends on the generation of sufficient taxable income in future years.</p> <p>The estimation of future taxable profits of Czech subsidiary and Mexico subsidiary is based on the respective business plans and the applicable tax legislations under the respective jurisdictions.</p> <p>Therefore, the conclusion concerning the recovery of the deferred tax assets recognized in the consolidated balance sheet in respect of Czech subsidiary and Mexico subsidiary is subject to significant judgments and estimates by the management with respect to both future tax results and applicable tax legislation in the respective jurisdictions in which they operate.</p>	<p>The audit procedures performed by the independent auditors of Czech subsidiary and Mexico subsidiary included the following:</p> <ul style="list-style-type: none"> <li>▪ Tested the projected figures which are based on business plans/budgets approved by the Board and analysed the key assumptions used to determine growth rates and future margins, comparing them against available comparatives and available third party contracts;</li> <li>▪ Assessed the criteria used by the management to estimate the possibility of recovering the deferred tax assets in subsequent years, in light of the business plans;</li> <li>▪ Tested the tax adjustments, with support from tax specialists, which are taken into account to estimate taxable income, applicable tax legislation and the decisions concerning the possibilities of using applicable tax benefits with respect to the group entities.</li> <li>▪ Tested the disclosures of the information in the consolidated financial statements.</li> </ul>
<p><b>4. Transition to Ind AS 115 – Revenue from contracts with customers (as described in note 2.1 and 29 of the consolidated Ind AS financial statements)</b></p> <p>The Group has applied Ind AS 115 "Revenue from Contracts with Customers" from April 1, 2018 using the modified retrospective approach.</p> <p>The management has evaluated each type of contract with the customers in light of the requirements of Ind AS 115. The evaluation involved significant judgment in determining whether the promises to transfer goods and services to the customers are separate performance obligations or one or more of such promises are part of the same performance obligation. Further, significant judgement is also involved in evaluating whether the performance obligations identified are satisfied at a point in time or satisfied over time.</p> <p>Based on such evaluation, the management has determined that Product development/Engineering services for automotive lighting business should be considered as related to supply of parts rather than a separate performance obligation. As a result, revenue from product development/engineering services is recognized over the period of production as the promise to supply the parts is fulfilled.</p> <p>Accordingly, the application of Ind AS 115 in respect of product development/engineering services was determined to be a key audit matter in our audit of the consolidated Ind AS financial statements.</p>	<p>The audit procedures performed by us and/or by the independent auditors of the components included the following:</p> <ul style="list-style-type: none"> <li>▪ Assessed the evaluation done by the management in identifying the promises to transfer goods and services in the customer contracts and the performance obligations arising from such promises and also the criteria used to determine whether the performance obligations identified are satisfied at a point in time or satisfied over time.</li> <li>▪ Reviewed sample customer contracts and discussed with group senior personnel involved in providing product development/engineering services to understand the rights and obligations of the Group under the customer contracts.</li> <li>▪ Tested the workings prepared by management for the application of Ind AS 115 under the modified retrospective approach for completeness of data and tested sample contracts for accuracy of the calculations.</li> <li>▪ Tested the disclosures in the Ind AS financial statements for compliance with the relevant accounting standard requirements.</li> </ul>

## Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the Board's Report (including the Annexures), Corporate Governance Report and Management Discussions and Analysis (but does not include the standalone/consolidated Ind AS financial

## Independent Auditor's Report

statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and Corporate overview and other details to be included in the annual report, which are expected to be made available to us after that date.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Corporate overview and other details included in the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

### Responsibilities of Management for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group including its joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group and of its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and of its joint venture and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its joint venture are responsible for assessing the ability of the Group and of its joint venture to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and its joint venture or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group and of its joint venture are also responsible for overseeing the financial reporting process of the Group and of its joint venture.

### Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

## Independent Auditor's Report

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its joint venture of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements for the financial year ended March 31, 2019 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Other Matter

- We did not audit the financial statements and other financial information, in respect of 8 subsidiaries, whose Ind AS financial statements include total assets of ₹ 54,195.65 million as at March 31, 2019, and total revenues of ₹ 74,185.67 million and net cash outflows of ₹ 1,128.92 million for the year ended on that date. These Ind AS financial statement and other financial information have been audited by other auditors, whose financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated Ind AS financial statements also include the Group's share of net profit of ₹ 302.86 million for the year ended March 31, 2019, as considered in the consolidated Ind AS financial statements, in respect of 1 joint venture, whose financial statements and other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and joint venture, is based solely on the reports of such other auditors.

Certain of these subsidiaries and joint venture are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries/joint ventures located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries/joint ventures located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

- The accompanying consolidated Ind AS financial statements include unaudited financial statements and other unaudited financial information in respect of 9 subsidiaries, whose financial statements and other financial information reflect total assets of ₹ 12,633.21 million as at March 31, 2019 and total revenues of ₹ 1,458.44 million and net cash inflows of ₹ 165.69 million for the year ended on that date. These unaudited financial statements and other unaudited financial information have been furnished to us by the management. The consolidated Ind AS financial statements also include the Group's share of net profit of ₹ 12.37 million for the year ended March 31, 2019, as considered in the consolidated Ind AS financial statements, in respect of 3 joint ventures, whose financial statements, other financial information have not been audited and whose unaudited financial statements, other unaudited financial information have been furnished to us by the Management. Our opinion, in so far as it relates amounts and disclosures included in respect of these subsidiaries and joint venture and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries and joint venture, is based solely on such unaudited financial statements and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.
- The consolidated Ind AS financial statements of the Company for the year ended March 31, 2018, included in these consolidated Ind AS financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on June 6, 2018.

Our opinion above on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

### Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and joint venture as noted in the 'other matter' paragraph, we report, to the extent applicable, that:

- We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;

## Independent Auditor's Report

- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2019 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group's companies incorporated in India is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act;
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements of the Holding Company and its subsidiary companies incorporated in India, refer to our separate Report in "Annexure 1" to this report;
- (g) In our opinion, the managerial remuneration for the year ended March 31, 2019 has been paid / provided by the Holding Company and its subsidiaries incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries and joint ventures, as noted in the 'Other matter' paragraph:
  - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its joint ventures in its consolidated Ind AS financial statements – Refer Note 40 to the consolidated Ind AS financial statements;
  - ii. Provision has been made in the consolidated Ind AS financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note 26 to the consolidated Ind AS financial statements in respect of such items as it relates to the Group and its joint ventures;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries incorporated in India during the year ended March 31, 2019.

## Annexure 1 to The Independent Auditor's Report of Even Date on The Consolidated Ind as Financial Statements

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of Varroc Engineering Limited as of and for the year ended March 31, 2019, we have audited the internal financial controls over financial reporting of Varroc Engineering Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

#### Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements.

#### Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Ind AS Financial Statements

A company's internal financial control over financial reporting with reference to these consolidated Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these consolidated Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Consolidated Ind AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these consolidated Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements and such internal financial controls over financial reporting with reference to these consolidated Ind AS financial statements were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## 1. Corporate information

Varroc Engineering Limited (the "Company") is engaged in the business of manufacturing of Automobile components. The company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the company is located at L-4 M.I.D.C Area ,Waluj, Aurangabad-431 136.

The Company and its subsidiaries (collectively, the Group) are primarily engaged in the business of auto components and services in the automotive industry to Indian and global customers. The Company, its subsidiaries and jointly controlled entities operate from manufacturing plants and technical development centers across 4 continents and 12 countries spread across the globe.

The consolidated financial statements were authorised for issue in accordance with a resolution of the Board of directors on May 24, 2019.

## 2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated. The consolidated financial statements comprise financial statements of the Company, its subsidiaries and its jointly controlled entities.

### (a) Basis of preparation

#### (i) Compliance with Ind AS:

The Consolidated Financial Statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

All amounts included in these consolidated financial statements are reported in Million of Indian rupees (₹ In Million) except earning per share data and unless stated otherwise. All amounts in these consolidated financial statements have been rounded off to the nearest million or decimal thereof unless otherwise stated.

#### (ii) Use of estimates and assumptions

The preparation of the Consolidated Financial Statements requires the management to make certain judgments, estimates and assumptions. It also requires the management to exercise judgement in the process of applying the accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 2A.

#### (iii) Historical cost convention:

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value; and
- defined benefit plans and plan assets measured at fair value.

#### (iv) Current - Non-current classification:

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

### (b) Principles of consolidation and equity accounting

The Consolidated Financial Statements comprise the financial statements of the Company, its subsidiaries and joint ventures as at and for the year ended 31 March, 2019.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the Consolidated Financial Statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

# Notes to the consolidated financial statements for the year ended March 31, 2019

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

## (i) Subsidiaries

Subsidiaries are all entities over which the group has control. The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

## (ii) Joint arrangements

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

### a) Joint ventures

Interests in joint ventures are accounted for using the equity method (see (iii) below), after initially being recognized at cost in the Consolidated Financial Statements.

### b) Joint operations

The Group recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These are incorporated in the financial statements under the appropriate headings.

## (iii) Equity Method

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the group's share of the post-acquisition profits or losses of the investee in profit and loss and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from joint ventures are recognized as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the group and its joint ventures are eliminated to the extent of the group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note 2(i) below.

## (iv) Changes in ownership interests

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognized within equity.

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognized in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to profit or loss where appropriate.

(v) The difference between the cost of investment in the subsidiaries and jointly controlled entities, over the net assets at the time of acquisition of investment is recognised in the financial statements as Goodwill or Capital Reserve on consolidation as the case may be.

(vi) The list of subsidiaries and joint ventures considered in the Consolidated Financial Statements is given in Note 48.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## (c) Foreign currency translation

The Group's Consolidated Financial Statements are presented in INR, which is also the parent company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

### Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss with the exception of the following:

- Exchange differences arising on monetary items that forms part of a reporting entity's net investment in a foreign operation are recognized in profit or loss in the separate financial statements of the reporting entity or the individual financial statements of the foreign operation, as appropriate. In the financial statements that include the foreign operation and the reporting entity (e.g., Consolidated Financial Statements when the foreign operation is a subsidiary), such exchange differences are recognized initially in OCI. These exchange differences are reclassified from equity to profit or loss on disposal of the net investment.
- Exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognized in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss.
- Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively).

### Group companies

On consolidation, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognized in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognized in profit or loss.

Any goodwill arising in the acquisition/ business combination of a foreign operation on or after 1 April 2015 and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

Any goodwill or fair value adjustments arising in business combinations/ acquisitions, which occurred before the date of transition to Ind AS (1 April 2015), are treated as assets and liabilities of the entity rather than as assets and liabilities of the foreign operation. Therefore, those assets and liabilities are non-monetary items already expressed in the functional currency of the parent and no further translation differences occur.

Gain or loss on a subsequent disposal of any foreign operation excludes translation differences that arose before the date of transition but includes only translation differences arising after the transition date.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

## (d) Revenue Recognition

### Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer. Amounts disclosed as revenue are net of goods and service tax (GST).

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 2A.

### Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods. The normal credit term is 30 to 90 days upon delivery.

# Notes to the consolidated financial statements for the year ended March 31, 2019

Product development/Engineering services primarily pertaining to global automotive lighting business are considered as relating to sale of parts rather than a separate performance obligation. As a result, revenue from product development/engineering services is recognised over the period of production from the start of production date and is included in the revenue from sale of finished goods.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., warranties). In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any).

## Variable consideration

If the consideration in a contract includes a variable amount (like volume rebates/incentives, cash discounts etc.), the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The estimate of variable consideration for expected future volume rebates/incentives, cash discounts etc. are made on the most likely amount method. Revenue is disclosed net of such amounts.

## Significant financing component

Generally, the Group receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

## Warranty obligations

The Company typically provides warranties for general repairs of defects as per terms of the contract with customers. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. Refer to the accounting policy on warranty provisions in section (t) Provisions

Customer prepayments are amortised in Revenue over the life of the respective project

## Sale of services

Income from services is recognised on the basis of time/work completed as per contract with the customers. The Group collects taxes on services (where applicable) on behalf of the government and, therefore, they are not economic benefits flowing to the Group. Hence, they are excluded from revenue.

## Tooling Revenue

Development of toolings for customers is considered as a separate performance obligation. Revenue from toolings primarily pertaining to global automotive lighting business is recognised over time based on the progress towards complete satisfaction of that performance obligation. Such progress is measured based on the proportion that the aggregate costs incurred for work done till the balance sheet date bear to the estimated total costs.

Determination of toolings revenues to be recognised over time necessarily involves making estimates by the Management (some of which are a technical nature) of the costs of completion, the expected revenues from each contract and the foreseeable losses to completion.

Foreseeable losses, if any, on the contracts are recognised as an expense in the period in which they are foreseen, irrespective of the stage of completion of the contract.

### Contract balances

#### Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policy (l) Financial instruments – Financial assets at amortised cost.

#### Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

#### Contract liabilities

A contract liability is the obligation to transfer goods to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Group performs under the contract.

#### Refund liabilities

A refund liability is the obligation to refund some or all the consideration received (or receivable) from the customer and is measured at the amount the Group ultimately expects it will have to return to the customer. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Wind/solar power generation

Income from the wind / solar power generation is recognised when earned on the basis of contractual arrangements with the buyers.

## Export Incentives

Income from duty drawback and export incentives is recognised on an accrual basis.

## (e) Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of property plant and equipment are included in current and non current liabilities as deferred income and are credited to profit or loss on straight-line basis over the expected lives of the related assets and presented within other income.

## (f) Income tax

### Current income-tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

### Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the concerned company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

## Notes to the consolidated financial statements for the year ended March 31, 2019

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognized subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognized within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognized in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognized in profit or loss.

Sales/value added taxes paid on acquisition of assets or on incurring expenses-

Expenses and assets are recognised net of the amount of sales/value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable;

- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

### (g) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

#### As a lessee

Leases where the group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Contingent rentals are recognized as expenses in the periods in which they are incurred.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

#### As a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Group to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

### (h) Business combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

# Notes to the consolidated financial statements for the year ended March 31, 2019

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognized in profit or loss. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

## (i) Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses of continuing operations, including impairment on inventories, are recognized in the statement of profit or loss.

Goodwill is tested for impairment annually as at the year-end and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets with indefinite useful lives are tested for impairment annually as at the year-end at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

## (j) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management. Bank overdraft are shown within borrowings in current liabilities in the Balance sheet.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## (k) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials, Stores and spare-parts, Loose tools and Packing materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on weighted average basis.

Initial cost of inventories includes the transfer of gains and losses on qualifying cash flow hedges, recognized in OCI, in respect of the purchases of raw materials.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Duties and other taxes (other than those subsequently recoverable by the entity from the taxing authorities) are included in the value of inventory.

## (l) Financial instruments

### Financial Assets

#### Initial Recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

#### - Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortization is included in finance costs/income in the Statement of Profit or Loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

#### - Debt instrument at FVTOCI

A 'debt instrument' is classified as at FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the P&L. On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income under EIR method.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## - Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI is classified as FVTPL.

In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Group has not designated any debt instruments as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in P&L.

## - Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind-AS 103 applies are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such an election on an instrument-by-instrument basis. This classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on the sale of the investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in P&L.

## Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

## Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:-

- (a) Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits, trade receivables and bank balance
- (b) Financial assets that are debt instruments and are measured at FVTOCI
- (c) Lease receivables under Ind-AS 17
- (d) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- (e) Loan commitments which are not measured as at FVTPL
- (f) Financial guarantee contracts which are not measured as at FVTPL

The Group follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables or contract assets ; and
- All lease receivables resulting from transactions within the scope of Ind AS 17

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

# Notes to the consolidated financial statements for the year ended March 31, 2019

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

- Cash flows from the sale of the collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured at amortized cost, contract assets and lease receivables: ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Group does not reduce impairment allowance from the gross carrying amount.

- Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet i.e. as a liability.

- Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Group combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Group does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/origination.

## Financial liabilities

### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

### Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

#### - Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Group has not designated any financial liability as at fair value through profit and loss.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## - Loans and borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss. This category generally applies to interest bearing loans and borrowings.

## - Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of the debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per the impairment requirements of Ind-AS 109 and the amount recognized less cumulative amortization.

## Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

## Embedded Derivatives

If the hybrid contract contains a host that is a financial asset within the scope of Ind-AS 109, the Group does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind-AS 109 to the entire hybrid contract.

Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss, unless designated as effective hedging instruments. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

Embedded derivatives closely related to the host contracts are not separated.

### Embedded foreign currency derivatives

Embedded foreign currency derivatives are not separated from the host contract if they are closely related. Such embedded derivatives are closely related to the host contract, if the host contract is not leveraged, does not contain any option feature and requires payments in one of the following currencies:

- the functional currency of any substantial party to that contract,
- the currency in which the price of the related good or service that is acquired or delivered is routinely denominated in commercial transactions around the world,
- a currency that is commonly used in contracts to purchase or sell non-financial items in the economic environment in which the transaction takes place (i.e. relatively liquid and stable currency)

Foreign currency embedded derivatives which do not meet the above criteria are separated and the derivative is accounted for at fair value through profit and loss. The group currently does not have any such derivatives which are not closely related.

## Reclassification of financial assets and liabilities

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities.

For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent.

The Group's Senior Management determines changes in the business model as result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to the operations.

If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

# Notes to the consolidated financial statements for the year ended March 31, 2019

The following table shows various reclassifications and how they are accounted for:

Original Classification	Revised Classification	Accounting Treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in P&L.
FVTPL	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

## (m) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet where there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the asset and settle the liability simultaneously.

## (n) Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (note 43)
- Quantitative disclosures of fair value measurement hierarchy (note 43)
- Financial instruments (including those carried at amortized cost) (note 43)

# Notes to the consolidated financial statements for the year ended March 31, 2019

## (o) Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to hedge its foreign currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges, which is recognized in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment
- Cash flow hedges when hedging the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment
- Hedges of a net investment in a foreign operation

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes the group's risk management objective and strategy for undertaking hedge, the hedging/ economic relationship, the hedged item or transaction, the nature of the risk being hedged, hedge ratio and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

### **Cash flow hedges that qualify for hedge accounting**

The effective portion of the gain or loss on the hedging instrument is recognized in OCI in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the statement of profit or loss.

The Group uses derivative contracts as hedges of its exposure to foreign currency risk in forecast transactions and firm commitments. The ineffective portion relating to foreign currency contracts is recognized in finance costs

Amounts recognized as OCI are transferred to profit or loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognized or when a forecast sale occurs. When the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognized as OCI are transferred to the initial carrying amount of the non-financial asset or liability.

If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover (as part of the hedging strategy), or if its designation as a hedge is revoked, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognized in OCI remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

The Group does not use hedges of fair value and net investment.

## (p) Property, plant and equipment

Freehold land is carried at historical cost except in case of certain freehold land which are at revalued amounts. All other items of property, plant and equipment are stated at historical cost less depreciation except in case of certain assets which are at revalued amounts.. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives or, in the case of certain leased furniture, fittings and equipment, the shorter lease term as follows:

# Notes to the consolidated financial statements for the year ended March 31, 2019

Class of Assets	Estimated useful life (Years) (on single shift basis)
▪ Leasehold Land	Amortised over the period of lease
▪ Buildings	30- 50 years
▪ Plant and Machinery	8-20 years
▪ Moulds and Dies	4-7 years
▪ Computers	3-7 years
▪ Vehicles	4-7 years
▪ Furniture and Fixtures	5-15 years
▪ Other Assets	4-10 years

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter term of the asset's useful life and lease term if there is no reasonable certainty that the group will obtain ownership at the end of the lease term.

The useful lives have been determined based on technical evaluation done by the Management's expert which are different than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other gains/ (losses).

Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

## (q) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 30-50 years. The useful life has been determined based on technical evaluation performed by the Management's expert.

## (r) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

### (i) Goodwill

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal Management purposes.

### (ii) Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred.

Separately acquired software are shown at transaction cost, software acquired in a business combination are recognised at fair value at the acquisition date. They are subsequently carried at cost less accumulated amortisation. Computer software are amortised on a straight line basis over a period of 3 to 5 years"

## Notes to the consolidated financial statements for the year ended March 31, 2019

### (iii) Research and development

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Group can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. During the period of development, the asset is tested for impairment annually.

Capitalised development expenditure is amortised on a straight line basis from the start of production over a period of 3 years or project life whichever is lower.

### (iv) Technical know-how fees

Expenditure on acquiring Technical Know-how (including Income Tax and R & D Cess) is capitalised and amortised on a straight line basis over a period of six years

### (v) Customer relationships:

Customer relationships acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses. Customer relationships are amortised on a straight line basis over a period of 10-12 years

### (vi) Patents and others

Costs of intangible assets other than those internally generated, including patents and licenses, are valued at acquisition cost and amortized on a straight-line basis over their estimated future useful lives being 10 years.

### (s) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

### (t) Provisions

#### General

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### Warranty provisions

Provisions for warranty-related costs are recognized when the product is sold or service provided to the customer. Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.

#### Provision for onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Contingent liabilities recognized in a business combination

A contingent liability recognized in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognized in accordance with the requirements for provisions above or the amount initially recognized less, when appropriate, cumulative amortization recognized in accordance with the requirements for revenue recognition.

### (u) Employee benefits

#### (i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### (ii) Other long-term employee benefit obligations

The liabilities for earned leaves are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

#### (iii) Post-employment obligations

The group operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity, pension; and
- (b) defined contribution plans such as provident fund

#### Pension and Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The benefits which are denominated in currency other than INR, the cash flows are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### Defined contribution plans

The Group makes contributions to funds for certain employees to the regulatory authorities. The group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when an employee renders the related service. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

#### (iv) Bonus plans

The group recognises a liability and an expense for bonuses. The group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## (v) Termination benefits

Termination benefits are payable when employment is terminated by the group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The group recognises termination benefits at the earlier of the following dates: (a) when the group can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

## (v) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

## (w) Earnings per share

### (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the parent company by the weighted average number of equity shares outstanding during the reporting period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

### (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the Consolidated Financial Statements by the Board of Directors.

## (x) Contingent liabilities

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

## (y) Treasury Shares

Own equity instruments that are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in capital reserve.

## (z) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ('CODM'). The CODM is responsible for allocating resources and assessing performance of the operating segments.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## 2.1 Changes in accounting policies and disclosures

### New and amended standards

The Group applied Ind AS 115 for the first time. The nature and effect of the changes as a result of adoption of the new accounting standard are described below.

Several other amendments and interpretations apply for the first time in March 2019, but do not have an impact on the consolidated financial statements of the Group. The Group has not early adopted any standards or amendments that have been issued but are not yet effective.

### Ind AS 115 Revenue from Contracts with Customers

Ind AS 115 was issued on 28 March 2018 and supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

Ind AS 115 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Group adopted Ind AS 115 using the modified retrospective method of adoption with the date of initial application of 1 April 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Group elected to apply the standard to all contracts as at 1 April 2018.

The cumulative effect of initially applying Ind AS 115 is recognised at the date of initial application as an adjustment to the opening balance of retained earnings and other components of equity. Therefore, the comparative information was not restated and continues to be reported under Ind AS 11 and Ind AS 18.

### The effect of adopting Ind AS 115 as at 1 April 2018 was as follows

	Reference	Increase / (decrease)
<b>Asset</b>		
Intangible assets	a	2,457.22
Intangible assets under development	a	534.46

The nature of the adjustments as at 1 April 2018 and the reasons for the significant changes in the balance sheet as at 31 March 2019 and the statement of profit or loss for the year ended 31 March 2019 are described below:

(a) Product development/Engineering services:

Product development/engineering services till previous year were considered as a separate performance obligation. The revenue from such services in respect of customer contracts providing for lump-sum consideration were recognised based on percentage of completion method measured in proportion of the actual costs incurred till date to the total estimated costs. Under Ind AS 115, from April 1, 2018 such services are considered as related to sale of parts rather than a separate performance obligation. As a result, revenue from engineering services is now recognised over the period of production from the date of start of production. Costs incurred in respect of providing engineering services are recognised as intangible assets and amortised over the period of production from the date of start of production. Payments received from customers in respect of product development/engineering services are presented as contract liabilities.

### Note 2A: Significant accounting judgements, estimates and assumptions

The preparation of the group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

#### Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the consolidated financial statements:

##### 1. Revenue from contracts with customers

The Group provides product development/engineering services to its customers. Revenue from such services was recognised separately from the revenue from sale of finished goods under Ind AS 18 till previous year. Under Ind AS 115, the group has determined that such services generally do not constitute a separate performance obligation under the contracts with customers but are part of the performance obligation of the group to supply finished goods to the customer. Accordingly, under Ind AS 115, revenue from product development/engineering services is recognised over the period of production from the start of production (SOP) date. Payments received from customers in respect of such services before SOP date are considered as contract liability. Further, the group has determined that the costs incurred in respect of product development/engineering services are eligible to be capitalised as intangible assets and accordingly such costs have been presented as 'Capitalised development expenditure' under Intangible assets (also refer note 2.1).

Development of toolings for the customers has been identified by the group to be a separate performance obligation. Further, the group has determined that the performance obligation in respect of development of toolings primarily pertaining to global automotive lighting business is generally satisfied over time. For other tooling contracts, the performance obligation is satisfied at a point in time or over time based on the specific terms of the contract.

##### 2. Non-recognition of deferred tax liability on undistributed profits of subsidiaries

Certain subsidiaries of the group have undistributed earnings which, if paid out as dividends, could be subject to tax in the hands of the recipient. An assessable temporary difference exists, but no deferred tax liability has been recognised as the parent entity is able to control the timing of distributions from these subsidiaries and is not expected to distribute these profits in the foreseeable future.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Estimates and assumptions

### 1. Business combination - Purchase price allocation

Accounting for business combinations is complex and requires the management to make estimates/assumptions in identification, valuation and recognition of assets acquired and liabilities assumed. Business combinations also involve determining goodwill, the future evaluation of which requires estimates with significant effects for the Group.

The recognition at fair value of the assets acquired and liabilities assumed requires the use of valuation methodologies that require significant judgments and estimates and the involvement of the Group's external experts.

During the year ended March 31, 2019, the Group carried out the acquisition of SA-BA Endustriyel Urunler Imalat ve Ticaret Anonim Sirketi (now Varroc Lighting Systems Endüstriyel Ürünler İmalat ve Ticaret Anonim Sirketi) in Turkey ("Turkey subsidiary") that resulted in the inclusion and measurement of assets acquired and liabilities assumed in the consolidated financial statements. The valuation criteria and judgements and estimates made have a significant impact on the consolidated financial statements for the year ended March 31, 2019 and for future years. Refer note 54 (a) for details.

### 2. Goodwill Impairment Test: Key assumptions used for value-in-use calculations

The group tests whether goodwill has suffered any impairment atleast on an annual basis irrespective of whether there is any indication of impairment. The recoverable amount of a cash generating unit (CGU) to which goodwill balance is allocated is determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth, consistent with industry forecasts. The growth rates are consistent with forecasts included in industry reports specific to the industry in which each CGU operates. The key assumptions used to determine the recoverable amounts for the different CGUs to which goodwill amounts have been allocated, including a sensitivity analysis, are disclosed and further explained in Note 5 (b).

### 3. Defined benefit plans

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. The benefits which are denominated in currency other than INR, the cash flows are discounted using market yields determined by reference to high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation.

The mortality rate is based on publicly available mortality tables based on the country where the entity operates.

Those mortality tables tend to change only at interval in response to demographic changes.

Future salary increases and gratuity increases are based on expected future inflation rates of the respective country.

Further details about defined benefit plans are given in Note 42.

### 4. Deferred taxes

Deferred tax assets are recognised when it is probable that these amounts can be utilised against future taxable surpluses and against fiscal, temporary differences. At each balance sheet date, the group assesses whether the realization of future tax benefits is sufficiently probable to recognize/carry forward deferred tax assets (including MAT credit). This assessment requires the use of significant estimates with respect to assessment of future taxable income. The recorded amount of total deferred tax assets could change if estimates of projected future taxable income or if changes in current tax regulations are enacted. Refer note 22 for details.

### 5. Recognition of tooling revenue over time

In respect of tooling contracts where revenue is recognised over time, the measurement of progress towards completion requires the group to estimate the services performed to date as a proportion of the total services to be performed which is based on the proportion of actual costs incurred to total estimated costs. Such estimates are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

## Notes to the consolidated financial statements for the year ended March 31, 2019

### Note 2B: Standards issued but not yet effective:

#### 1. Ind AS 116 – Leases:

Ind AS 116 - Leases was notified by MCA on 30 March 2019 and it replaces Ind AS 17 - Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from the current accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The group intends to adopt Ind AS 116 from 1 April 2019. The group continues to evaluate the available transition methods and its contractual arrangements. A reliable estimate of the quantitative impact of Ind AS 116 on the consolidated financial statements will only be possible once the implementation has been completed.

#### 2. Other Amendments to Standards, issued but not effective, which are either not applicable to the Group or the impact is not expected to be material:

- (a) Appendix C to Ind AS 12 Uncertainty over Income Tax Treatment
- (b) Amendments to Ind AS 109: Prepayment Features with Negative Compensation
- (c) Amendments to Ind AS 19: Plan Amendment, Curtailment or Settlement
- (d) Amendments to Ind AS 28: Long-term interests in associates and joint ventures
- (e) Annual improvement to Ind AS (2018):
  - Amendments to Ind AS 103: Party to a Joint Arrangements obtains control of a business that is a Joint Operation
  - Amendments to Ind AS 111: Joint Arrangements
  - Amendments to Ind AS 12: Income Taxes
  - Amendments to Ind AS 23: Borrowing Costs

## Note 4: Investment Properties

(₹ in million)

Asset Class	Gross carrying amount			Accumulated depreciation			Net carrying amount
	As at April 1, 2018	Additions	As at March 31, 2019	As at April 1, 2018	Depreciation charge	As at March 31, 2019	As at March 31, 2019
Leasehold land	20.09	-	20.09	0.60	0.52	1.12	18.97
Factory buildings	137.83	-	137.83	16.77	5.63	22.40	115.43
<b>Total</b>	<b>157.92</b>	-	<b>157.92</b>	<b>17.37</b>	<b>6.15</b>	<b>23.52</b>	<b>134.40</b>

(₹ in million)

Asset Class	Gross carrying amount			Accumulated depreciation			Net carrying amount
	As at April 1, 2017	Additions	As at March 31, 2018	As at April 1, 2017	Depreciation charge	As at March 31, 2018	As at March 31, 2018
Leasehold land	20.09	-	20.09	0.40	0.20	0.60	19.49
Factory buildings	137.83	-	137.83	11.18	5.59	16.77	121.06
<b>Total</b>	<b>157.92</b>	-	<b>157.92</b>	<b>11.58</b>	<b>5.79</b>	<b>17.37</b>	<b>140.55</b>

### (i) Amount recognised in Statement of Profit or Loss for investment properties

(₹ in million)

	For the year ended March 31, 2019	For the year ended March 31, 2018
Rental income	37.93	32.50
<b>Profit from investment properties before depreciation</b>	37.93	32.50
Depreciation	6.15	5.79
<b>Profit from investment properties</b>	31.78	26.71

### (ii) Leasing arrangements

Certain investment properties are leased to tenants under long-term cancellable operating leases with rentals payable monthly. There is escalation of 10% in lease rentals during the lease terms.

### (iii) Fair value

Fair value of the investment property as at March 31, 2019 were ₹ 223.60 million (₹ 223.60 million March 31, 2018)

### Estimation of fair value

The group obtains valuations for its investment properties internally. The best evidence of fair value is current prices in an active market for similar properties.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Note 5 (b): Goodwill

Goodwill acquired through business combinations has been allocated to the CGUs below, which are part of automotive segment, for impairment testing:

- Varroc Lighting Systems Turkey Endüstriyel Ürünler İmalat Ve Ticaret Anonim Şirketi. ('VLS Turkey')
- Team Concepts Private limited ('TCPL')
- Others

### Carrying amount of goodwill allocated to each of the CGUs:

As at March 31, 2019

(₹ in million)

Particulars	VLS Turkey	TCPL	Others	Total
<b>Balance at the beginning of the year</b>	-	183.90	150.82	334.72
Add: Acquisitions during the year (refer note 54 a)	2,007.96	-	-	2,007.96
Add/(less): Translation adjustment	(350.15)	-	-	(350.15)
<b>Balance at the end of the year</b>	<b>1,657.81</b>	<b>183.90</b>	<b>150.82</b>	<b>1,992.53</b>

As at March 31, 2018

(₹ in million)

Particulars	TCPL	Others	Total
<b>Balance at the beginning of the year</b>	-	150.82	150.82
Add: Acquisitions during the year (refer note 54 b)	183.90	-	183.90
<b>Balance at the end of the year</b>	<b>183.90</b>	<b>150.82</b>	<b>334.72</b>

The Group performed its annual impairment test for years ended March 2019 and March 2018 on March 31, 2019 and March 31, 2018 respectively. The Group considers the relationship between the fair value (based on DCF) of each CGU and its book value, among other factors, when reviewing for indicators of impairment.

The recoverable amounts of each of the CGU below, have been determined based on a value in use calculation using cash flow projections from financial budgets approved by senior management covering the period of 5 years. As a result of the analysis, management did not identify impairment.

(₹ in million)

CGU	Recoverable amount	
	March 31, 2019	March 31, 2018
VLS Turkey	6,469.79	-
TCPL	821.90	750.00

Key assumptions used for value in use calculations and the sensitivity to changes in these assumptions are as follows:

CGU	Basis	March 31, 2019		March 31, 2018	
		Assumption used	Sensitivity	Assumption used	Sensitivity
VLS Turkey	WACC	10.23%	Increase by 4.36% would result in impairment	-	-
	Growth rate	"For first 5 years: 4.92% to 23% Terminal Growth rate: 1.9%"	Decrease by 11.8% would result in impairment	-	-
	EBITDA Margin	For first 5 years: 20% to 24.4%	Decrease by 7.96% would result in impairment	-	-
	Terminal EBITDA	22.7%	Decrease by 11.15% would result in impairment	-	-
TCPL	WACC	14%	Increase by 1.9% would result in impairment	13%	Increase by 1.21% would result in impairment

\* There are no trade receivables which have significant increase in credit risk.

<b>Non-Current Portion</b>			
<b>Current Portion</b>		<b>13,495.13</b>	14,027.34

### Credit period

Trade receivables are non-interest bearing and are generally on terms of 45 to 120 days.

No trade or other receivable are due from directors or other officers of the company either severally or jointly with any other person. Nor any trade or other receivable are due from firms or private companies respectively in which any director is a partner, a director or a member.

### Transferred receivables

The carrying amounts of trade receivables include receivable which are subject to a factoring arrangement. Under the arrangement, the Group has transferred the relevant receivables to the factor in exchange for cash and is prevented from selling or pledging the receivables. However, the Group has retained credit risk and late payment risk. The Group therefore continues to recognise the transferred assets in its balance sheet. The amount repayable under the factoring agreement is presented as secured/unsecured borrowing.

<b>The relevant carrying amounts are as follows:</b>			
Total transferred receivables (Refer note 24)		<b>283.50</b>	1,874.28

<b>13(a)</b>	<b>Cash and cash equivalents</b>

<b>(b)</b>	<b>Rights, preferences and restrictions attached to equity shares</b>						
	The Company has equity shares having a par value of ₹ 1 per share (previous year ₹ 1- per share). In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend.						
<b>(c)</b>	<b>Bonus issue of series C CCPS</b>						
	During the year ended March 31, 2017, the Company issued and allotted 1,168,377 Series C CCPS of ₹ 10/- each fully paid as bonus to eligible equity shareholders of the Company in the ratio of 57 fully paid up Series C CCPS for every 469 equity shares of the Company held by them. The Series C CCPS were non-cumulative, participating preference shares, mandatorily and fully convertible into equity shares on occurrence of the trigger event. The holder of each Series C CCPS were entitled to preferential dividend at the rate of 0.0001% per year on the face value. The Series C CCPS were entitled to participate, on a pari passu basis with Equity Shares, in any dividend distribution to the holders of Equity Shares on an 'as if converted' basis. For the purpose of dividend distribution, the Series C CCPS prior to their conversion would constitute 1.3% of the Equity Share Capital on a fully diluted basis. Under Ind AS, Series C CCPS were classified as an equity instrument based on the terms of the agreement and trigger event, which is earlier of:						
	(i) the date on which the Company files a red herring prospectus with the SEBI for undertaking an IPO or						
	(ii) IPO Veto Date;						
	(iii) the Conversion Deadline, as defined in the terms of the agreement.						
<b>(d)</b>	During the previous year, the Company, pursuant to the provisions of Section 66 of the Companies Act, 2013 and the rules made thereunder, had filed a petition for reduction of 852,349 equity shares of ₹ 10 each held by wholly owned subsidiary Varroc Polymers Private Limited (VPPL) without any consideration. This scheme was approved by the National Company Law Tribunal (NCLT) and was filed with the Registrar of Companies (ROC) on December 18, 2017. The ROC registered the order on January 15, 2018 and the Company took on record this transaction at the Board Meeting on January 16, 2018.						
<b>(e)</b>	During the previous year, face value per Equity Share and Preference Share have been sub divided from ₹ 10 to ₹ 1. Further authorised share capital of the Company was reclassified from ₹ 500 Million consisting of ₹ 165 Million (165,000,000 Equity Shares of ₹ 1/- each) and ₹ 335 Million (335,000,000 Preference Shares of ₹ 1/- each) to ₹ 250 Million (250,000,000 Equity Shares of ₹ 1/- each) and ₹ 250 Million (Consisting of 250,000,000 Preference Shares of ₹ 1/- each).

General reserve is the retained earning of the Group which is kept aside out of the Group's profits to meet future (known or unknown) obligations.			
<b>Debenture redemption reserve</b>			
The Group is required to create a debenture redemption reserve in respect of Indian entities out of the profits which is available for payment of dividend for the purpose of redemption of debentures.			
<b>Capital redemption reserve</b>			
Capital redemption reserve is not available for distribution as dividend.			
<b>Capital Reserve</b>			
Capital reserve is not available for distribution as dividend.			
<b>Statutory reserves</b>			
Statutory reserves are created based on statutory requirements of respective region and hence is not available for distribution as dividend.			

# Notes to the consolidated financial statements for the year ended March 31, 2019

(₹ in million)

		As at March 31, 2019	As at March 31, 2018
	<b>Securities premium</b> Securities premium is used to record the premium on issue of shares. It is utilised in accordance with the provisions of the Companies Act, 2013.		
	<b>Foreign Currency Translation Reserve</b> Exchange differences arising on translation of foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed-off.		
	<b>Cash flow hedge reserve</b> The Group uses hedging instruments to hedge its exposure to movements in foreign exchange rates and interest rates, which are designated as cash flow hedges. To the extent these hedges are effective, the change in fair value of the hedging instrument is recognised in the cash flow hedge reserve. Amounts recognised in cash flow hedge reserve are reclassified to profit or loss when the hedged item affects profit or loss.

	* Provision for warranties :- The Group provides warranties on applicable products, for their satisfactory performance during the warranty period as per the contracts with buyers. Provision for warranty claims arising out of such obligation is made based on such warranty period. The impact of discounting of these provisions is not material.  # Other provision includes provision for coupon schemes and customer claims related to tooling contract. These claims are expected to be settled within 2-3 years. Management estimates these provision based on historical claim information and any recent trends. The impact of discounting of these provisions is not material.

<b>Total revenue from contracts with customer</b>	<b>1,16,533.14</b>	<b>2,912.84</b>	<b>1,19,445.98</b>

Revenue from contract with customers for the year ended March 31, 2018 includes excise duty, which is discontinued w.e.f. July 1, 2017 upon implementation of Goods and Services Tax (GST) in India. The group collects GST on behalf of the Government. Hence, GST is not included in Revenue from operations. In view of the aforesaid restructuring of Indirect taxes, Revenue from Operations for the year ended March 31, 2019 is not comparable with the previous year.

### B. Set out below, is the reconciliation of the revenue from contracts with customers with the amounts disclosed in the segment information

(₹ in million)

Segment	For the year ended Mar 31, 2019

<b>Total revenue from contracts with customers</b>	<b>1,16,533.14</b>	<b>2,912.84</b>	<b>1,19,445.98</b>

# Notes to the consolidated financial statements for the year ended March 31, 2019

## C. Contract balances

Particulars	March 31, 2019
Trade receivables	13,495.13
Contract asset	4,951.65
Contract liabilities	4,154.29

Trade receivables are non-interest bearing and are generally on terms of 30 to 120 days. The acquisition of a subsidiary resulted in increase in trade receivables of ₹ 406.63 Million in 2018-19 (refer note 54(a))

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract liabilities include advances received from customers for performing engineering design and development services. The outstanding balances of these accounts increased in 2018-19 due to the continuous increase in the Group's customer base.

### Set out below is the amount of revenue recognised from:

Particulars	March 31, 2019
Amount of revenue recognised from amounts included in contract liabilities at the beginning of the year	1532.56

## E. Reconciling the amount of revenue recognised in the statement of profit and loss with the contracted price

(₹ in million)

Particulars	March 31, 2019
Revenue as per contracted price	1,19,619.05
<b>Adjustments</b>	
Discount	(114.86)
Amortisation of customer prepayment	(58.2)
<b>Revenue from contract with customers</b>	<b>1,19,445.98</b>

## F. Performance obligation

Revenue from contracts with customers include revenue from finished goods, tooling and job work services.

Information about the above Group's performance obligations are summarised below:

### *Finished goods:*

For the sale of finished goods the performance obligation is generally satisfied upon its delivery and payment is generally due within 30 to 120 days from delivery. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

The Group provides normal warranty provisions on some of its products sold, in line with the industry practice. The Group considers that the contractual promise made to the automaker in the form of warranties for the parts supplied does not meet the definition of separate performance obligation as it does not give rise to additional service.

Product development/engineering services are considered as related to sale of parts rather than a separate performance obligation. As a result, revenue from engineering services is recognised over the period of production from the date of start of production. Costs incurred in respect of providing engineering services are recognised as intangible assets and amortised over the period of production from the date of start of production. Payments received from customers in respect of product development/engineering services are presented as contract liabilities.

### *Supply of toolings*

Development of toolings for the customers has been identified by the group to be a separate performance obligation. Further, the group has determined that the performance obligation in respect of development of toolings primarily pertaining to global automotive lighting business is generally satisfied over time. For other tooling contracts, the performance obligation is satisfied at a point in time or over time based on the specific terms of the contract.

## Notes to the consolidated financial statements for the year ended March 31, 2019

Job work revenue is recognised when the work is completed and billed to customer.

### Other operating revenue (₹ in million)

Particulars	For the period ended Mar 31, 2019

## Notes to the consolidated financial statements for the year ended March 31, 2019

		(₹ in million)																																								
		For the year ended March 31, 2019	For the year ended March 31, 2018																																							
<b>37</b>	<p><b>Conversion to Public company and Initial Public Offer:</b>  During the previous year, the Shareholders at their meeting held on January 25, 2018, had approved for conversion of the Company from a "Private Limited Company" to "Public Limited Company". Necessary documents were filed with the Ministry of Corporate Affairs and the same were approved by the Register of Companies (ROC) Mumbai on February 05, 2018.</p> <p>During the year, the Company completed the initial public offer ('IPO') (through offer for sale) and listing of its equity shares on recognised stock exchanges in India. The equity shares of the Company were listed on July 6, 2018. The IPO being an offer for sale, the issue proceeds were received by the selling shareholders who sold 20,221,730 equity shares in the IPO at a price of ₹ 967 per equity share. No new equity shares were issued by the Company. The expenses incurred for the IPO have been entirely reimbursed to the Company by the selling shareholders.</p>																																									
<b>38</b>	<p>The Group prepares Consolidated Financial Statements at each year end by translating its foreign operations in accordance with IND AS 21 - "The Effects of Changes in Foreign Exchange Rates".</p> <p>The Group, while preparing previous period financial statements, had identified an inadvertent error in translation of one of its foreign subsidiary's operations for FY 2016-17.</p> <p>In accordance with IND AS 8 Accounting Policies, Changes in Accounting, Estimates and Errors, the Company corrected the above error by restating the comparative financial information for the year ended March 31, 2017. Accordingly, opening balance of total equity as on April 01, 2017 was reduced by 262.29 million.</p>																																									
<b>39</b>	<p><b>Income tax expense</b></p> <table> <tr> <td>Current tax</td> <td><b>1,444.66</b></td> <td>1,193.75</td> </tr> <tr> <td>Deferred tax expense</td> <td><b>(455.81)</b></td> <td>(543.19)</td> </tr> <tr> <td><b>Income tax expense</b></td> <td><b>988.85</b></td> <td>650.56</td> </tr> </table> <p><b>Reconciliation of tax expense and the accounting profit multiplied by India's tax rate:</b></p> <table> <tr> <td><b>Profit before tax &amp; share of net profits of investments accounted for using equity method</b></td> <td><b>5,172.10</b></td> <td>4,468.06</td> </tr> <tr> <td><b>Tax at the Indian tax rate of 34.944% (March 31, 2018— 34.608%)</b></td> <td><b>1,807.34</b></td> <td>1,546.31</td> </tr> <tr> <td>Weighted deduction on research and development expenditure</td> <td><b>(132.91)</b></td> <td>(101.24)</td> </tr> <tr> <td>Investment Allowance</td> <td><b>(546.94)</b></td> <td>(657.60)</td> </tr> <tr> <td>Non deductible expenses</td> <td><b>90.96</b></td> <td>310.13</td> </tr> <tr> <td>Previously unrecognised tax losses used to reduce deferred tax expenses (Refer note below)</td> <td><b>-</b></td> <td>(335.72)</td> </tr> <tr> <td>Other items</td> <td><b>24.66</b></td> <td>83.60</td> </tr> <tr> <td>Deferred tax asset not recognised on losses</td> <td><b>174.30</b></td> <td>36.15</td> </tr> <tr> <td>Difference in overseas tax rates</td> <td><b>(428.56)</b></td> <td>(231.06)</td> </tr> <tr> <td></td> <td><b>988.85</b></td> <td><b>650.56</b></td> </tr> </table> <p>During previous year, following a significant improvement in business performance at one of the subsidiaries, the group reviewed previously unrecognised tax losses and determined that it was now probable that taxable profits will be available against which the tax losses can be utilised. # Notes to the consolidated financial statements for the year ended March 31, 2019

## Note 40: Contingent liabilities

(₹ in million)

Contingent liabilities not provided for	March 31, 2019	March 31, 2018
a) Claim against the group not acknowledged as debt		
Disputed Excise and Service Tax matters	<b>285.54</b>	160.65
Income Tax matters	<b>24.14</b>	124.59
Sales Tax matters	<b>5.30</b>	43.11
b) Other money for which the Company is contingently liable/Employees Related Disputes	<b>55.10</b>	151.53
c) Export promotion capital goods (EPCG) Export obligation	<b>203.58</b>	342.69
d) Provident fund liability	<b>See note (ii)below</b>	

- (i) The Group is contesting excise and service tax demand and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No expense has been accrued in the financial statements for the tax demands raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Group's financial position and results of the operations.
- (ii) There are numerous interpretative issues relating to the Supreme Court (SC) judgement on PF dated 28th February, 2019. As a matter of caution, the company has made a provision on a prospective basis from the date of the SC order. The company will update its provision, on receiving further clarity on the subject.

## Note 41: Dues to micro and small enterprises

The Group has certain dues to suppliers registered under Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED Act'). The disclosures pursuant to the said MSMED Act are as follows:

(₹ in million)

	March 31, 2019	March 31, 2018
a) Principal amount due to suppliers registered under the MSMED Act and remaining unpaid as at year end	<b>658.70</b>	17.97
b) Interest due to suppliers registered under the MSMED Act and remaining unpaid as at year end	<b>1.68</b>	0.02
c) Principal amounts paid to suppliers registered under the MSMED Act, beyond the appointed day during the year	<b>4,475.46</b>	77.96
d) Interest paid, other than under Section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
e) Interest paid, under Section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
f) Interest due and payable towards suppliers registered under MSMED Act, for payments already made*	<b>16.98</b>	0.84
g) Further interest remaining due and payable for earlier years	<b>9.03</b>	8.39

\* The above interest has not been provided for in the books of accounts.

\*\* The information has been given in respect of such vendors to the extend they could be indentified as Mirco and Small Enterprises on the basis of information available with the Group.

## Note 42: Employee benefit obligation

### A. Defined contribution plans:

The Group has certain defined contribution plans for Indian and Foreign entities. Contributions are made to provident fund in India for employees at the rate of 12% of basic salary as per regulations. The contributions are made to registered provident fund administered by the government. Contributions are made to defined contribution plans in foreign entities based on regulations of the respective region. The obligation of the group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is as under:

#### The expense recognised during the year towards defined contribution plan of are as under:

(₹ in million)

	March 31, 2019	March 31, 2018
<b>(a) Indian Entities</b>		
(I) Contribution to Employees' provident fund	<b>98.22</b>	78.67
(II) Contribution to Employees' family pension fund	<b>64.56</b>	62.14
<b>Total</b>	<b>162.78</b>	140.81

## Notes to the consolidated financial statements for the year ended March 31, 2019

(₹ in million)

	March 31, 2019	March 31, 2018
<b>(b) Foreign Entities</b>		
Contribution to defined employees contribution plan	146.27	106.24
	146.27	106.24

### B. Defined Benefit Plan (Gratuity) (Indian entities)

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary plus Dearness Allowance per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Group makes contributions to recognised funds in India. The Group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

(₹ in million)

Particulars	As at March 31, 2019	As at March 31, 2018
<b>(a) Change in present value of benefit obligations</b>		
Liability at the beginning of the year	320.86	297.28
Service cost	53.00	60.81
Interest expense	24.51	20.34
Remeasurements - Actuarial (gains)/ losses (refer note (e) below)	30.01	(27.82)
Benefits paid	(21.07)	(29.75)
Liability at the end of the year	407.29	320.86
<b>(b) Change in fair value of plan assets</b>		
Fair value of plan assets at the beginning of the year	307.19	262.72
Interest income	26.31	19.90
Remeasurements- Return on plan assets excluding amounts recognised in interest income (refer note (e) below)	(1.30)	0.23
Contributions	72.84	57.07
Mortality Charges and Taxes	(3.32)	(2.98)
Benefits paid	(21.07)	(29.75)
Fair value of plan assets at the end of the year	380.65	307.19

### (c) The net liability disclosed above relates to funded plan is as follows:

Particulars	As at March 31, 2019	As at March 31, 2018
Present value of funded obligations	407.29	320.86
Fair value of plan assets	380.65	307.19
<b>Deficit of funded plan</b>	<b>26.64</b>	<b>13.67</b>

### (d) Expenses to be recognized in the Statement of Profit and Loss under employee benefit expenses.

Particulars	Year ended March 31, 2019	Year ended March 31, 2018
Service cost	53.00	60.81
Net interest (income)/expense	(1.81)	0.44
<b>Net gratuity cost</b>	<b>51.19</b>	<b>61.25</b>

## Notes to the consolidated financial statements for the year ended March 31, 2019

**(e) Expenses to be recognized in statement of other comprehensive income:**

(₹ in million)

Particulars	Year ended March 31, 2019	Year ended March 31, 2018
<b>Remeasurement</b>		
Experience (Gain)/ Losses on plan liabilities	<b>20.43</b>	(6.22)
Financial (Gain)/ Losses on plan liabilities	<b>9.45</b>	(21.61)
(Gain)/loss from change in demographic assumptions	<b>0.13</b>	-
Experience (Gain)/ Losses on plan assets	<b>3.60</b>	(2.45)
(Gain)/loss from change in financial assumptions	<b>(0.01)</b>	-
Financial(Gain)/ Losses on plan assets	<b>(2.29)</b>	2.22
	<b>31.32</b>	(28.06)

**(f) Valuation in respect of gratuity plan has been carried out by independent actuary, as at the balance sheet date, based on the following assumptions:**

Particulars	As of March 31, 2019	As of March 31, 2018
Discount rate	<b>7.60%</b>	7.60%- 7.90%
Salary growth rate	<b>7.00% - 9.50 %</b>	7.00% -10.5 %
Weighted average duration of defined benefit obligation	<b>7.89- 12.8</b>	7.56-13.11

As per actuary report, the group assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government bonds.

**Quantitative sensitivity analysis for significant assumptions are as follows:**

	March 31, 2019	March 31, 2018
Increase/(decrease) in present value of defined benefit obligation as at the end of the year		
(i) 1% increase in discount rate	<b>-10.93%</b>	-10.81%
(ii) 1% decrease in discount rate	<b>13.06%</b>	13.45%
(iii) 1% increase in rate of salary escalation	<b>11.67%</b>	12.06%
(iv) 1% decreasing rate of salary escalation	<b>-10.09%</b>	-9.98%

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 1%, keeping all other actuarial assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method(present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied while calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

**Maturity profile of defined benefit obligation:**

	March 31, 2019	March 31, 2018
Within 1 year	<b>18.59</b>	12.21
1-2 year	<b>17.58</b>	12.40
2-3 year	<b>23.18</b>	21.03
3-4 year	<b>32.24</b>	24.16
4-5 year	<b>36.24</b>	31.63
5-10 years	<b>278.11</b>	225.62

# Notes to the consolidated financial statements for the year ended March 31, 2019

## C. Pension Plans (Overseas Entities)

The group operates defined benefit pension plans in Mexico, Germany and Italy under broadly similar regulatory frameworks. All of the plans are salary pension plans, which provide benefits to members in the form of a guaranteed level of pension payable for life.

The level of benefits provided depends on members length of services and their salary in the final years leading up to retirement.

The group funds the pension liability as per legal requirements of respective countries. Plan assets are governed by local regulations and practice in each country, as is the nature of the relationship between the group and the trustees (or equivalent) and their composition.

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

(₹ in million)

Particulars	As at March 31, 2019	As at March 31, 2018
<b>(a) Change in present value of benefit obligations</b>		
Liability at the beginning of the year	1,054.31	845.04
Service cost	67.08	63.05
Interest expense	35.60	31.35
Remeasurements - Actuarial (gains)/ losses (refer note (e) below)	(6.32)	15.86
Benefits paid	(37.32)	(18.55)
Effect of Foreign exchange rate	(38.41)	117.56
Liability at the end of the year	1,074.93	1,054.31
<b>(b) Change in fair value of plan assets</b>		
Fair value of plan assets at the beginning of the year	511.67	395.08
Interest income	12.74	12.02
Transfer of assets	8.06	-
Remeasurements- Return on plan assets excluding amounts recognised in interest income (refer note (e) below)	(11.12)	(6.96)
Contributions	94.70	59.52
Benefits paid	(26.23)	(12.03)
Effect of Foreign exchange rate	(25.55)	64.04
Fair value of plan assets at the end of the year	564.28	511.67
<b>(c) The net liability disclosed above relates to funded plan is as follows:</b>		

Particulars	As at March 31, 2019	As at March 31, 2018
Present value of funded obligations	1,074.93	1,054.31
Fair value of plan assets	564.28	511.67
<b>Deficit of funded plan</b>	<b>510.66</b>	<b>542.64</b>

### (d) Expenses to be recognized in the Statement of Profit and Loss under employee benefit expenses.

Particulars	Year ended March 31, 2019	Year ended March 31, 2018
Service cost	68.18	63.05
Net interest (income)/expense	22.86	19.33
<b>Net gratuity cost</b>	<b>91.04</b>	<b>82.38</b>

## Notes to the consolidated financial statements for the year ended March 31, 2019

**(e) Expenses to be recognized in statement of other comprehensive income:**

(₹ in million)

Particulars	Year ended March 31, 2019	Year ended March 31, 2018
Remeasurement		
Experience (Gain)/ Losses on plan liabilities	13.51	12.26
Financial (Gain)/ Losses on plan liabilities	(50.06)	(8.11)
(Return) / loss on plan assets excluding amounts recognised in interest (income)/expenses	4.76	6.46
(Gain)/loss from change in demographic assumptions	13.13	-
Experience (Gain)/ Losses on plan assets	(1.64)	0.50
(Gain)/loss from change in financial assumptions	24.33	11.71
Financial(Gain)/ Losses on plan assets	0.66	-
	4.69	22.82

**(f) Valuation in respect of above pension plan has been carried out by independent actuary, as at the balance sheet date, based on the following assumptions:**

**Mexico**

**Quantitative sensitivity analysis for significant assumptions are as follows:**

Particulars	As of March 31, 2019	As of March 31, 2018
Discount rate	8.75%	8.00%
Salary growth rate	4%	4%
Weighted average duration of defined benefit obligation	19	20

As per actuary report, the group assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government bonds.

Change in Assumption	March 31, 2019	March 31, 2018
Increase/(decrease) in present value of defined benefit obligation as at the end of the year		
(i) 1% increase in discount rate	8.77%	9.59%
(ii) 1% decrease in discount rate	9.92%	10.26%
(iii) 1% increase in rate of salary escalation	10.69%	11.09%
(iv) 1% decreasing rate of salary escalation	6.27%	10.10%

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 1%, keeping all other actuarial assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method(present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied while calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

**Germany**

**Quantitative sensitivity analysis for significant assumptions are as follows:**

Particulars	As of March 31, 2019	As of March 31, 2018
Discount rate	1.90%	2.00%
Salary growth rate	3%	3%
Weighted average duration of defined benefit obligation	20.82	20.82

## Notes to the consolidated financial statements for the year ended March 31, 2019

Change in Assumption	March 31, 2019	March 31, 2018
Increase/(decrease) in present value of defined benefit obligation as at the end of the year		
(i) 0.5 % increase in discount rate	0.96%	0.97%
(ii) 0.5 % decrease in discount rate	1.10%	1.09%
(iii) 0.5 % increase in rate of salary escalation	0.23%	0.36%
(iv) 0.5 % decreasing rate of salary escalation	0.37%	0.24%

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 0.5 %, keeping all other actuarial assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method(present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied while calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

### Italy

#### Quantitative sensitivity analysis for significant assumptions are as follows:

Particulars	As of March 31, 2019	As of March 31, 2018
Discount rate	2.80%	1.80%
Salary growth rate	1%	1%
Weighted average duration of defined benefit obligation	9.63-15.43	10.27-15.43

Change in Assumption	March 31, 2019	March 31, 2018
Increase/(decrease) in present value of defined benefit obligation as at the end of the year		
(i) 0.1% increase in discount rate	0.90%	1.22%
(ii) 0.1% decrease in discount rate	1.30%	1.24%
(iii) 0.1% increase in rate of salary escalation	1.00%	1.12%
(iv) 0.1% decreasing rate of salary escalation	0.99%	1.11%

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 0.1%, keeping all other actuarial assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method(present value of defined benefit obligation calculated with the projected unit credit method at the end of reporting period) has been applied while calculating the defined benefit liability recognised in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Maturity profile of defined benefit obligation for foreign operations are below:

Change in Assumption	As at March 31, 2019	As at March 31, 2018
Within 1 year	23.21	19.00
1-2 year	19.27	18.95
2-3 year	29.29	24.55
3-4 year	35.07	32.17
4-5 year	46.11	38.06
5-10 years	359.15	320.80

### RISK EXPOSURE AND ASSET LIABILITY MATCHING

Provision of a defined benefit scheme poses certain risks, some of which are detailed here under as companies take on uncertain long-term obligations to make future benefit payments.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## 1) Liability Risks

### Asset-Liability Mismatch Risk-

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuation swings caused by interest rate movements. Hence companies are encouraged to adopt asset-liability management.

### Discount Rate Risk-

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practice can have a significant impact on the defined benefit liabilities.

### Future Salary Escalation and Inflation Risk -

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

## 2) Asset Risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years.

For Overseas entities, the group has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The group has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claim settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

### Note 43: Fair Value Measurement

<b>Total</b>		<b>-</b>	<b>48.80</b>	-	<b>48.80</b>

## (ii) Valuation technique used to determine fair value

The following methods and assumptions were used to estimate the fair value of the financial instruments included in the above tables:

- The fair values of the mutual funds are based on price quotations at the reporting date.
- The Group enters into derivative financial instruments with financial institutions with investment grade credit ratings. Foreign exchange forward contracts, interest rate swaps are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The models incorporate various inputs including the credit quality counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spread between the respective currencies, interest rate curves etc. The changes in counterparty credit risk had no material effect on financial instruments recognised at fair value through profit and loss. - the fair value of forward foreign exchange contracts and principal swap is determined using forward exchange rates at the balance sheet date.

### Commentary

The carrying amounts of trade receivables, loans, trade payables, cash and bank balances, security deposits, Government securities, other financial assets, borrowings, other financial liabilities, acceptances are considered to be the same as their fair values, due to their short-term nature. The fair value of non-current financial assets and non-current liabilities also approximates its carrying value.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Note 44: Financial risk management

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include trade and other receivables and cash and cash equivalents that derive directly from its operations. The Group also enters into derivative transactions.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

### A] Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. Financial instruments affected by market risk include loans and borrowings, receivables, payables, deposits, investments and derivative financial instruments.

#### a) Foreign currency risk

The Group operates internationally and the business is transacted in several currencies. Consequently the Group is exposed to foreign exchange risk mainly in the North America and Europe. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Group's operations are affected positively/adversely as the rupee appreciates/ depreciates against these currencies. The Group evaluates exchange rate exposure arising from these transactions and enters into foreign exchange forward contracts, interest and principle swaps and options to mitigate the risk of changes in exchange rates on foreign currency exposures. The Group follows established risk management policies, to hedge forecasted cash flows denominated in foreign currency. The Group has designated certain derivative instruments as cash flow hedges to mitigate the foreign exchange exposure.

#### The group's exposure to foreign currency risk as of March 31, 2019 expressed in INR , is as follows:

(₹ in million)

	March 31, 2019				
	USD	EURO	JPY	Other currencies ₹ Value	Total
<b>Financial assets</b>					
Trade receivables	519.01	3,672.79	-		4,191.80

<b>Net assets / (liabilities)</b>	<b>(50.90)</b>	<b>(6,882.17)</b>	<b>(164.85)</b>	<b>(793.61)</b>	<b>(7,891.53)</b>

#### Sensitivity

For the year ended March 31, 2019 and March 31, 2018, every percentage point appreciation/depreciation in the exchange rate between the Indian rupee and U.S. Dollar has affected the Group's incremental operating margins by approximately ₹ 2.28 Million and ₹ 0.51 Million respectively, and Euro by approximately ₹ 181.12 Million and ₹ 68.82 Million, respectively.

## Notes to the consolidated financial statements for the year ended March 31, 2019

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period."

### b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with floating interest rates.

#### Interest rate sensitivity

The sensitivity analysis below have been determined based on exposure to interest rate. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. With all other variables held constant, the group profit before tax is affected through the impact on floating rate borrowings, as follows:

(₹ in million)

For the year ended	Currency	Increase/ decrease in basis points	Effect on profit before tax	Variable rate Cash Credit and Term loans balances
March 31, 2019	₹	+100	(183.24)	18,323.82
March 31, 2019	₹	-100	183.24	18,323.82
March 31, 2018	₹	+100	(61.52)	6,152.09
March 31, 2018	₹	-100	61.52	6,152.09

### c) Other price risk

The Group does not have material investments in equity securities other than investments in Joint Ventures. Hence equity price risk is considered to be low. Further, the Group's operating activities require the ongoing purchase of various commodities for manufacture of automotive parts. However, the movement in commodity prices are substantially adjusted through price differences as per customer contracts and hence commodity price risk for the Group is also considered to be low.

### B] Credit Risk Management

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its investing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group only deals with parties which have good credit rating/worthiness given by external rating agencies or based on the Group's internal assessment.

#### Trade receivables

Customer credit risk is managed by the Group's established policy, procedures and control relating to customer credit risk management. Further, Group's customers includes marquee OEMs and Tier I companies, having long standing relationship with the Group. Outstanding customer receivables are regularly monitored and reconciled. At March 31, 2019, receivable from Group's top 11 customers accounted for approximately 84% (March 31, 2018: 71.20%) of all the receivables outstanding. An impairment analysis is performed at each reporting date on an individual basis based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables disclosed in Note 12.

#### Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Group's corporate treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties. Credit limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

The Group's maximum exposure to credit risk for the components of the balance sheet at 31 March 2019 and 31 March 2018 is the carrying amounts as disclosed in Note 13.

### C] Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at a reasonable price. The Group's corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Group's net liquidity position through rolling forecasts on the basis of expected cash flows. As of March 31, 2019, cash and cash equivalents are held with major banks.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Maturities of financial liabilities

The table below summarises the maturity profile of the company's financial liabilities based on contractual payments.

(₹ in million)

March 31, 2019	On demand	< 1 year	1 to 5 years	> 5 years
<b>Non- derivative</b>				
Borrowings	16,154.85	3,666.21	3,967.58	604.38
Trade Payables	-	20,322.02	-	-
Acceptances	-	240.37	-	-
Other financial liabilities	49.43	3,556.12	127.17	-
Derivative liabilities pending settlement	-	6.98	-	-

March 31, 2018	On demand	< 1 year	1 to 5 years	> 5 years
<b>Non- derivative</b>				
Borrowings	877.22	4,751.50	6,361.46	-
Trade Payables	-	19,793.80	-	-
Acceptances	-	210.34	-	-
Other financial liabilities	36.75	3,510.37	123.17	-
Derivative liabilities pending settlement	-	48.80	-	-

- The amount disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

## Note 45: Capital Management

### (a) Risk management

The group's capital comprises equity share capital, preference share capital, security premium, retained earnings and other equity attributable to shareholders.

The group's objectives when managing capital are to:

- Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and for other stakeholders, and
- Maintain an optimal capital structure to reduce the cost of capital."

In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares .

The Group monitors debt-equity ratio, which is net debt divided by total equity. Net debt comprises of long term and short term borrowings less cash and bank balances. Equity includes equity share capital, preference share capital (classified as equity) and other equity attributable to equity shareholders. The debt-equity ratio at the end of the reporting period was as follows.

The group's strategy is to maintain a debt equity ratio below 1:1

(₹ in million)

Particulars	As at March 31, 2019	As at March 31, 2018
Net debt	22,758.74	8,700.81
Total Equity*	30,871.02	28,280.05
<b>Net debt to equity ratio</b>	<b>0.74</b>	0.31

\*Total equity does not include share of non controlling interest.

No changes were made in the objectives, policies or processes for managing capital of the Group during the year.

### (i) Loan covenant

The group capital management aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. There has been no breach of covenants for the loan obtained by the Group except as disclosed in note 26

## Notes to the consolidated financial statements for the year ended March 31, 2019

### (b) Dividends

(₹ in million)

Particulars	As at March 31, 2019	As at March 31, 2018
Interim dividend for the year ended March 31, 2018 of ₹ 0.50 per equity share declared and paid	-	61.56
Interim dividend for the year ended March 31, 2018 of ₹ 0.50 per preference share paid on April 30, 2018	5.84	-
Dividend Distribution tax	2.55	12.52

#### Dividend not recognised at the end of reporting period

Directors have recommended the payment of a final dividend of ₹ 4 Per equity share (March 31, 2018 Nil). This proposed dividend is subject to the approval of the shareholders in ensuing annual general meeting.

# Notes to the consolidated financial statements for the year ended March 31, 2019

<b>Balance at the end of the period/year</b>	<b>(6.65)</b>	<b>(2.26)</b>

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Note 47: Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM), which is the Board of Directors.

The "Automotive" segment consists of the business of automobile products consisting of auto parts for two-wheelers, three-wheelers and four-wheelers and related design, development and engineering activities and other services. "Others" comprise of forging components for off road vehicles and components for mining and oil drilling industry which is below the thresholds for reporting as separate operating segment. Investment in Joint Venture and corresponding share of profit from joint venture is considered under unallocated assets and profit respectively.

## Note 48A: Interests in Subsidiaries

### (a) Subsidiaries

The subsidiaries at March 31, 2019 are set out below. Unless otherwise stated, they have share capital consisting solely of equity shares that are held directly by the company, and the proportion of ownership interests held equals the voting rights held by the company. The country of incorporation or registration is also their principal place of business.

## Note 54 (a): Business combination

### Summary of acquisition

On July 02, 2018, the Group acquired "SA-BA Endustriyel Urunler Imalat ve Ticaret Anonim Sirketi" ("Turkey Subsidiary"), a Turkey based company engaged in the manufacture and supply of interior and exterior lighting products mainly for the automotive sector for a purchase consideration of ₹ 3,453.07 million (Eur 43.30 Million) paid in cash.

**The assets and liabilities recognised at fair value as a result of the acquisition as at the acquisition date are as follows:**

	₹ in million
<b>Non Current Assets</b>	
Property plant & equipment	680.80
Intangible assets	826.58
Capital work-in-progress	30.54
<b>Non Current Financial Assets</b>	
Other financial assets	126.32
<b>Current Asset</b>	
Inventories	259.02
Financial Assets	
Trade receivables	406.63
Cash and cash equivalents	8.29
Other current assets	209.98
<b>Total Asset</b>	<b>2,548.17</b>
<b>Non-current liabilities</b>	
Provisions	91.79
Deferred tax liabilities (Net)	283.42
Borrowings	373.46
Financial liabilities	
Trade payables	262.69
Provisions	
Current tax liabilities (Net)	67.55
Other current liabilities	24.16
<b>Total Liabilities</b>	<b>1,103.07</b>
<b>Net identifiable asset acquired</b>	<b>1,445.10</b>
<b>Calculation of Goodwill</b>	
Fair value of consideration	3,453.07
Less: Net identifiable assets acquired	(1,445.10)
<b>Goodwill on acquisition</b>	<b>2,007.96</b>

As part of the purchase price allocation, the Group has recognised Customer relationships and Brand (presented under Patents and others in note 5(a)) at their acquisition date fair values which assets were not recognised in the acquiree's books before the acquisition. (Refer note 5(a) for details)

From the date of acquisition, Turkey Subsidiary has contributed ₹ 2,037.6 Million of revenue and ₹ 376.96 Million to the profit before tax from continuing operations of the Group. If the combination had taken place at the beginning of the year, revenue from continuing operations would have been ₹ 2,593.6 Million and the profit before tax from continuing operations for the Group would have been ₹ 505.75 Million.

# Notes to the consolidated financial statements for the year ended March 31, 2019

## Note 54 (b): Business combination

### Summary of acquisition

On November 30, 2017, Varroc Polymers Private Limited, a wholly owned subsidiary of the Company acquired controlling interest in Team Concepts Private Limited. The entity is engaged in the business of manufacture and sale of auto accessories and is recognized as a premium auto accessories manufacturer among OEMs and after market.

The fair value of purchase consideration of ₹ 559.60 Million (including redemption liability of non controlling interest) was allocated to assets and liabilities based on their acquisition date fair values.

**The assets and liabilities recognised as a result of the acquisition as at the acquisition date are as follows:**

	₹ in million
<b>Non Current Assets</b>	
Property Plant & Equipment	128.08
Intangible assets	230.31
<b>Non Current Financial Assets</b>	
Other financial assets	0.82
<b>Current Asset</b>	
Inventories	29.94
<b>Financial Assets</b>

<b>Deferred tax liabilities (Net)</b>	77.33
<b>Current liabilities</b>	
<b>Financial liabilities</b>	
Trade payables	18.04
Provisions	3.32
Current tax liabilities (Net)	9.57
Other current liabilities	7.83
<b>Total Liabilities</b>	<b>117.24</b>
<b>Net identifiable asset acquired</b>	<b>375.70</b>
<b>Calculation of goodwill</b>	
Fair value of consideration ( Including cash paid and redemption liability)	559.60
Less: Net identifiable assets acquired	(375.70)
<b>Goodwill</b>	<b>183.90</b>

## Notes to the consolidated financial statements for the year ended March 31, 2019

The goodwill recognized in connection with the acquisition is primarily attributable to anticipated synergies from future growth.

From the date of acquisition, Entity contributed ₹ 93 Million of revenue and ₹ 24.29 Million to the profit before tax from continuing operations of the Group for the previous year. If the combination had taken place at the beginning of the previous year, revenue from continuing operations would have been ₹ 332.74 Million and the profit before tax from continuing operations for the Group would have been ₹ 72.85 Million for the year ended March 31, 2018.

## Notice to Shareholders

- (a) In compliance with the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014, Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements), 2015 ("Listing Regulations") and any other applicable provisions, if any. The Company is pleased to provide members the facility to exercise their right to vote at the 31st Annual General Meeting (AGM) by electronic means and the business may be transacted through e-Voting Services provided by Central Depository Services (India) Limited (CDSL).
- (b) A member may exercise his vote at any general meeting by electronic means and Company may pass any resolution by electronic voting system in accordance with the Rule 20 of the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the Listing Regulation.
- (c) During the remote e-voting period, members of the Company, holding shares either in physical form or dematerialized form, as on the cut-off date i.e. August 02, 2019, may cast their vote electronically. The voting rights of shareholders shall be in proportion to their shares in the paid-up equity share capital of the Company as on the cut-off date. As per Explanation (ii) of Rule 20 of the Companies (Management and Administration) Rules, 2014, cut-off date means a date not earlier than 7 days before the date of general meeting.
- (d) The remote e-voting period commences at 9:00 a.m. (IST) on Monday, August 05, 2019 and ends at 5:00 p.m. (IST) on Thursday, August 08, 2019. The e-voting module shall be disabled by CDSL for voting thereafter.
- (e) Once the vote on a resolution is cast by the shareholder, the shareholder shall not be allowed to change it subsequently.
- (f) The facility for voting, either through electronic voting system or polling paper, as may be decided by the Chairman of the meeting, shall also be made available at the meeting and members attending the meeting who have not already cast their vote by remote e-voting shall be able to exercise their right at the meeting. The members who have cast their vote by remote e-voting prior to the meeting may also attend the meeting but shall not be entitled to cast their vote again.
- (g) Instructions for members for remote e-voting are as under:
  - Log on to the e-voting website [www.evotingindia.com](http://www.evotingindia.com)
  - Click on "Shareholders" tab.
  - Now Enter your User ID
    - a. For CDSL: 16 digits beneficiary ID,
    - b. For NSDL: 8 Character DP ID followed by 8 Digits Client ID,
    - c. Members holding shares in Physical Form should enter Folio Number registered with the Company.
- (i) Next enter the Image Verification as displayed and Click on Login.
  - If you are holding shares in demat form and had logged on to [www.evotingindia.com](http://www.evotingindia.com) and voted on an earlier voting of any company, then your existing password is to be used.
  - If you are a first-time user follow the steps given below:
    - For Members holding shares in Demat Form and Physical Form
    - PAN\* Enter your 10digit alpha-numeric \*PAN issued by Income Tax Department (Applicable for both demat shareholders as well as physical shareholders)
  - Members who have not updated their PAN with the Company/Depository Participant are requested to use the first two letters of their name and the last 8 digits of the Client ID /Folio number in the PAN field.
  - In case the folio number is less than 8 digits enter the applicable number of 0's before the number after the first two characters of the name in CAPITAL letters. e. g. if your name is Ramesh Kumar with folio number 100 then enter RA00000100 in the PAN field.
  - DOB# Enter the Date of Birth as recorded in your demat account or in the company records for the said demat account or folio in dd/mm/yyyy format.
  - Dividend Bank Details#
  - Enter the Dividend Bank Details as recorded in your demat account or in the company records for the said demat account or folio.
  - Please enter the DOB or Dividend Bank Details in order to login. If the details are not recorded with the depository or company please enter the Client id/Folio number in the dividend Bank details field
- (ii) After entering these details appropriately, click on "SUBMIT" tab.
- (iii) Members holding shares in physical form will then reach directly the Company selection screen. However, members holding shares in demat form will now reach 'Password Creation' menu wherein they are required to mandatorily enter their login password in the new password field. Kindly note that this password is to be also used by the demat holders for voting for resolutions of any other company on which they are eligible to vote, provided that company opts for e-voting through CDSL platform. It is strongly recommended not to share your password with any other person and take utmost care to keep your password confidential.
- (iv) For Members holding shares in physical form, the details can be used only for e-voting on the resolutions contained in this Notice.
- (v) Click on the EVSN for the relevant <Company Name> on which you choose to vote.
- (vi) On the voting page, you will see "RESOLUTION DESCRIPTION" and against the same the option "YES/NO" for voting. Select the option YES or NO as desired. The option YES implies that you assent to the Resolution and option NO implies that you dissent to the Resolution.
- (vii) Click on the "RESOLUTIONS FILE LINK" if you wish to view the entire Resolution details.

## Notice to Shareholders

- (viii) After selecting the resolution, you have decided to vote on, click on "SUBMIT". A confirmation box will be displayed. If you wish to confirm your vote, click on "OK", else to change your vote, click on "CANCEL" and accordingly modify your vote.
- (ix) Once you "CONFIRM" your vote on the resolution, you will not be allowed to modify your vote.
- (x) You can also take out print of the voting done by you by clicking on "Click here to print" option on the Voting page.
- (xi) If Demat account holder has forgotten the changed password then Enter the User ID and the image verification code and click on Forgot Password & enter the details as prompted by the system.
- (xii) Shareholders can also cast their vote using CDSL's mobile app m-Voting available for all mobile users. The m-Voting app can be downloaded from Google Play Store. iPhone and Windows phone users can download the app from the App Store and the Windows Phone Store respectively. Please follow the instructions as prompted by the mobile app while voting on your mobile.
- (xiii) Note for Non-Individual Shareholders and Custodians Institutional shareholders (i.e. other than Individuals, HUF, NRI etc.) and Custodian are required to log on to <https://www.evotingindia.co.in> and register themselves as Corporates. They should submit a scanned copy of the Registration Form bearing the stamp and sign of the entity to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com). After receiving the login details they have to create a user who would be able to link the account (s) which they wish to vote on. The list of accounts should be mailed to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) and on approval of the accounts they would be able to cast their vote. They should upload a scanned copy of the Board Resolution and Power of Attorney (POA) which they have issued in favour of the Custodian, if any, in PDF format in the system for the scrutinizer to verify the same.

In case you have any queries or issues regarding e-voting, you may refer the Frequently Asked Questions ("FAQs") and e-voting manual available at [www.evotingindia.co.in](http://www.evotingindia.co.in) under help section or write an email to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or you may also contact CDSL on Toll Free 1800-200-5533 (10.00 am to 6.15 pm Monday – Friday and 10.00 am to 2.00 pm on Saturday)

- 20) The members would be able to cast their votes at the Meeting through ballot paper if they have not availed the remote e-voting facility. If the vote is cast through remote e-voting facility then the members cannot exercise their voting rights at the Meeting. However, the members who have cast their vote by remote e-voting prior to the AGM may also attend the AGM but shall not be entitled to cast their vote again.
- 21) Mrs. Uma Lodha, Practicing Company Secretary (Membership No. FCS 5363) has been appointed as the Scrutinizer to scrutinize the e-voting process and voting through ballot paper at the AGM in a fair and transparent manner.
- 22) The Scrutinizer shall within 48 hours of the conclusion of the AGM, submit a consolidated Scrutinizer's report of the votes cast in favour or against, to the Chairman of the AGM ('Chairman') or to any Director or any person authorized by the Chairman for this purpose, who shall countersign the same.
- 23) The Results declared along with the Scrutinizer's Report shall be placed on the Company's website <http://www.varrocgroup.com/> and on the website of CDSL and communicated to the Stock Exchanges.

### EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESSES PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

#### Item No.4

##### To increase borrowing limits of the Company

The Members of the Company vide their resolution passed at the Extra-ordinary General Meeting held on November 2, 2013 had authorized the Board of Directors of the Company to borrow from time to time a sum not exceeding ₹ 1,500 Crore (Rupees One Thousand Five Hundred Crore) on such terms and conditions as it may deem fit under Section 180(1)(c) of the Companies Act, 2013.

Considering the business plans and the growing fund requirements of the Company, it is proposed to increase the existing borrowing limit of the Company from ₹ 1,500 Crores (Rupees One Thousand Five Crores) to ₹ 2,000 Crore (Rupees Two Thousand Crore).

As per the provisions of Section 180(1)(c) of the Companies Act, 2013, a company shall not borrow money, where the money to be borrowed, together with the money already borrowed by the company will exceed aggregate of its paid-up share capital, free reserves and securities premium, apart from temporary loans obtained from the company's bankers in the ordinary course of business, unless prior approval of the Members is obtained by way of a Special Resolution.

The Board accordingly recommends for approval of revised Borrowing limit of ₹ 2,000 Crore (Rupees Two Thousand Crore) outstanding at any point of time under 180(1)(c) of the Companies Act, 2013 as set forth in Item No.4 for approval of the Members by way of special resolution.

None of the Directors or Key Managerial Personnel of the Company including their relatives is interested or concerned in the Resolution except to the extent of their shareholding, if any, in the Company.

#### Item No. 5

##### Creation of Mortgage/Charge on the assets of the Company

The Members of the Company vide their resolution passed at the Extra-ordinary General Meeting held on August 30, 2014 had authorized the Board of Directors of the Company to create charges over its assets, properties and licenses by way of hypothecation, mortgage, lien, pledge etc. in favour of its lenders from time to time, for an amount not exceeding ₹ 1,000 Crores (Rupees One Thousand Crores) on such terms and conditions as it may deem fit under Section 180(1)(a) of the Companies Act, 2013 ("the Act").

## Notice to Shareholders

In connection with the loan/credit facilities to be availed by the Company, as and when required, through various sources for business purposes, the Company might be required to create charges over its assets, properties and licenses by way of hypothecation, mortgage, lien, pledge etc. in favour of its lenders (up to the limits approved under Section 180(1)(c) of the Act), for the purposes of securing the loan/credit facilities extended by them to the Company or its subsidiary or associate companies. As per the resolution proposed at Item No.4 the Company intends to increase its borrowing limits and in line with the same it is necessary to increase the amount upto which the Company can create charge on its assets.

As per the provisions of Section 180(1)(a) of the Act, a company shall not sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the company or where the company owns more than one undertaking, of the whole or substantially the whole of any of such undertakings, unless prior approval of the Members is obtained by way of a Special Resolution.

Accordingly, the Board recommends the Special Resolution for approval of limit of ₹ 2,000 Crore (exclusive of interest and other charges) for creation of Mortgage/Charge on the assets of the Company, to be consented by the shareholders to be passed at this Annual General Meeting of the Company or upto such higher amount/s as may be so consented by the members of the Company from time to time, in future pursuant to Section 180(1)(c) of the Act, as set forth in Item No.5 for approval of the Members by way of special resolution.

None of the Promoter, Directors or Key Managerial Personnel of the Company including their relatives is interested or concerned in the Resolution except to the extent of their shareholding, if any, in the Company.

### Item No. 6

#### **Increase in the limits applicable for making investments / extending loans and giving guarantees or providing securities in connection with loans to Persons / Bodies Corporate**

The Members of the Company vide their special resolution passed at the Annual General Meeting held on November 1, 2016 had authorized the Board of Directors of the Company for making investments/ extending loans and giving guarantees or providing securities in connection with loans to Persons / Bodies Corporate from time to time for an amount not exceeding ₹ 1,200 Crores (Rupees One Thousand Two Hundred Crores) on such terms and conditions as it may deem fit under Section 186 of the Companies Act, 2013 ("the Act").

The Company has been making investments in, giving loans and guarantees to and providing securities in connection with loans to various persons and bodies corporate (including its subsidiaries) from time to time, in compliance with the applicable provisions of the Act.

The provisions of Section 186 of the Act read with the Companies (Meetings of Board and its Powers) Rules, 2014, as amended to date, provides that no company shall, directly or indirectly, (a) give any loan to any person or other body corporate; (b) give any guarantee or provide security in connection with a loan to any other body corporate or person; and (c) acquire by way of subscription, purchase or otherwise, the securities of any other body corporate, exceeding sixty percent of its paid-up share capital, free reserves and securities premium account or one hundred per cent of its free reserves and securities premium account, whichever is more, unless prior approval of the Members is obtained by way of a Special Resolution.

As per the latest audited Balance Sheet of the Company as on March 31, 2019, 60% of the paid-up share capital, free reserves and securities premium account amounts to ₹ 665.17 Crore while 100% of its free reserves and securities premium account amounts to ₹ 1,095.10 Crore. Therefore, the maximum limit available to the Company under Section 186(2) of the Act for making investments or giving loans or providing guarantees / securities in connection with a loan, as the case may be, is ₹ 1,095.10 Crore. It is now proposed to increase the said limit to ₹ 1,800 Crore.

During the previous year, the Global Lighting Business carried through subsidiaries of the Company ("VLS") expanded its production capacity through various investments, joint ventures and acquisitions. To capitalize on emerging market growth and increase the global presence Turkey-based interior and exterior lighting manufacturer viz. Sa-Ba, Turkey was acquired in June 2018. VLS has completed green-field expansion by completing the construction of Phase I of the Morocco Plant and setting up new Plant at Brazil. Both these facilities have started commercial production during the last year. VLS has also completed and started operations at new R&D Centre set-up at Krakow, Poland. VLS is in the process of setting up a new manufacturing plant in Poland, to serve key customers in European markets, in Romania (through JV) for manufacturing of electronics components and sub-assemblies(modules) and in Chennai, to serve some of the key global OEMs. To fund these activities and to meet additional working capital for expanded business, the Company will be required to infuse the funds in the form of additional investment, loan or providing corporate guarantee for the funds raised by subsidiary companies.

To undertake such activities, the Board recommends the Special Resolution set forth in Item No.6 of the Notice for approval of the Members, notwithstanding the fact that the same exceeds the limits provided under Section 186 of the Act.

None of the Promoter, Directors or Key Managerial Personnel of the Company including their relatives is interested or concerned in the Resolution except to the extent of their shareholding, if any, in the Company.

### Item No. 7

#### **Ratification of remuneration payable to Cost Auditors**

The Board of Directors, on the recommendation of the Audit Committee has approved the appointment of M/s. S. R. Bhargave & Co., Cost Accountants, as Cost Auditors of the Company for auditing the cost accounts of the Company relating to the products of the Company, as applicable, for the financial year 2019 - 20 at a remuneration of ₹ 3,00,000/- and applicable rate of taxes and reimbursement of out of pocket expenses at actuals. In terms of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors is to be ratified by the Shareholders of the Company.

The Board of Directors recommends Ordinary Resolution as proposed at item no.7 of the notice for approval by the shareholders.

None of the Promoter, Directors or Key Managerial Personnel of the Company including their relatives is interested or concerned in the Resolution except to the extent of their shareholding, if any, in the Company.

# Notice to Shareholders
