For further details please refer to the chapter titled "*Our Business"* on page 230.

Summary of the Industry in which our Company operates

India is the topmost offshoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India. IT spending in India is estimated to record a double-digit growth of 11.1% in 2024, totalling US$138.6 billion up from US$124.7 billion last year. *(Source: https://www.ibef.org/industry/information-technology-india)*

India's IT exports are projected to reach Rs.17,95,920 crore (US$ 210 billion) in FY25, with US market recovering, European demand weakening, and a 5-6% growth anticipated in FY26, alongside opportunities and challenges posed by generative AI. *(Source: National Association of Software and Service Companies (NASSCOM)*

The financial performance comparison between Fiscal 2025 and Fiscal 2023 highlights significant metamorphosis in structural and operational aspect of our Company. In Fiscal 2023, the financial results solely represented our Company's operations as a stand-alone entity sans subsidiaries.

In Fiscal 2024, our Company embarked on a strategic expansion by acquiring almost the entire stake in BrainCapitol Technologies, an Indian partnership firm which was a vendor to a systems integrator. This acquisition marked a pivotal shift and set the course approach towards expansion, operational scale and scope. Building on this momentum, Fiscal 2025 saw a paradigm shift towards onsite presence for project execution, with the acquisition of Methodhub Consulting Inc., USA, as a wholly owned subsidiary. During the same fiscal year, our Company acquired majority (51% equity interest) in ZorTech Solutions Inc., a Canadian company. This resulted in a non-linear growth in the company's revenues due to consolidation.

These above measures enhanced our Company's presence in the U.S. and Canada, diversified its revenue streams, and introduced new industry verticals. The Revenue from Operations of Methodhub Software Limited on a standalone basis also recorded a significant increase of 64.14% from ₹354.90 million in Fiscal 2023 to ₹582.53 million in Fiscal 2025.

The financial performance of Fiscal 2025 reflects the combined impact of these strategic acquisitions and the robust standalone growth of the company. This performance differs substantially from the standalone operations of Fiscal 2023, showcasing the transformative effect of the company's strategic initiatives.

The sharp rise in PAT in FY 2025 is primarily due to:

- Substantial revenue growth due to the reasons stated under the head "Impact on Revenue from Operations"
- Improved gross margins due to controlled CoGS, no substantial incremental selling, general & administrative overheads
- Growth in Other Income
- Efficient cost management, especially in administrative and employee expenses
- Higher operating leverage, leading to better EBITDA and EBIT

Risk Factors

Specific attention of Investors is invited to "*Risk Factors*", beginning on page 32 to have an informed view before making an investment decision

Summary of Contingent Liabilities

The summary of our contingent liabilities as per AS 29 for the six months period ended September 30, 2025 and the Financial Years ended March 31, 2025 and March 31, 2024 on a consolidated basis and March 31, 2023 on a standalone basis as indicated in the Restated Financial Statements are as follows:

(₹ in million)

Particulars	For the six months period ended September 30, 2025 (Consolidated)	Financial Year ended March 31, 2025 (Consolidated)	Financial Year ended March 31, 2024 (Consolidated)	Financial Year ended March 31, 2023 (Standalone)
Contingent Liabilities				
Bill discounted and Purchased	250	198	131	-
Claims against the company not acknowledged as debt - GST/HST	25	28	25	-

Our Company enjoys bill-discounting facilities with its bankers. These bills are only specific to customers approved by the bank and the said customers enjoy a high credit standing and till date there is not a single instance of default. The loan agreements executed in favour of the banks cover the entire sanctioned working-capital facility, including the bills discounting sub-limit. Consequently, our Company may be required to meet obligations under these arrangements in case of default by the drawee i.e. the customer. The disclosure as a contingent liability is due to the facility being linked by the loan implying potential future obligations despite no immediate liability. These facilities are secured by a first charge on current assets. Our Company has enough cash flows to take care of any eventuality, should there be an instance of default.

For further details, refer "*Restated Financial Statements – Note 26 - Contingent Liability & Commitments*" on page 333.

For further information, see "*Summary of the Offer Document - Summary of Restated Financial Information*" and "*Financial Information*" on pages 19 and 309, respectively.

Our Company's financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year and accordingly, all references to a particular financial year or fiscal, unless otherwise, are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless stated otherwise, or the context required otherwise, all references to a "year" in this Prospectus are to a calendar year.

The degree to which the financial information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, Accounting Standards, the Companies Act and SEBI ICDR Regulations. Any reliance by persons not familiar with the aforementioned policies and laws on the financial disclosures presented in this Prospectus should be limited. There are significant differences between Indian GAAP, Ind AS, IFRS and U.S. GAAP. Our Company does not provide a reconciliation of its financial statements with Indian GAAP, IFRS or U.S GAAP requirements. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Prospectus, and the investors should consult their own advisors regarding such differences and their impact on the financial data. Accordingly, the degree to which the restated financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

Unless otherwise indicated, any percentage (excluding certain operational metrics), as set forth in this Prospectus, including in the sections titled "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Position and Results of Operations*" beginning on page 32, 230 and 353 respectively, and elsewhere in this Prospectus, have been derived from Restated Financial Statements of our Company.

In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. Except as otherwise stated, all figures in decimals have been rounded off to the second decimal and all the percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.
Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Non-GAAP Financial Measures

Certain non-GAAP measures such as EBIT, EBITDA, EBITDA Margin, net worth, average net worth, return on average net worth, average borrowing, debt to equity ratio, net asset value per Equity share ("**Non-GAAP Measures**") and certain other industry metrics relating to our operations and financial performance presented in this Prospectus are a supplemental measure of our performance and liquidity that are not required by, or presented in accordance with, Ind AS, Indian GAAP, or IFRS. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability, or cash flows generated by our activities derived in accordance with Ind AS, Indian GAAP, or IFRS. In addition, these Non-GAAP Measures are not a standardised term and, therefore, a direct comparison of similarity titled Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting their usefulness as a comparative measure. Although the Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that they are useful to an investor in evaluating us because these are widely used measures to evaluate a company's operating performance. For further details, please see "*Risk Factors - Significant differences exist between Ind AS and other accounting principles, such as Indian GAAP, IFRS and U.S. GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows"* and *"Other Financial Information"* on pages 63 and 350, respectively.

Currency and Units of Presentation

All references to "Rupee(s)", "Rs.", "₹" or "INR" are to Indian Rupees, the official currency of the Republic of India.

All references to "$", "US$", "U.S. Dollars" or "USD" are to United States Dollars, the official currency of the United States of America.

All references to "C$", "CAD", "CA$", "CA" or "Canadian Dollars" are to Canadian Dollars, the official currency of the Dominion of Canada.

All references to "€" or "Euro" are to the official currency of the European Union.

In this Prospectus, our Company has presented certain numerical information. All figures have been expressed in million. One million represents 'million' or '1,000,000'. However, where any figures that may have been sources from third-party industry sources are expressed in denominations other than million, such figures appear in this Prospectus expressed in such denominations as provided in their respective sources,

Exchange Rates

This Prospectus contains conversion of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

Unless otherwise stated, the exchange rates referred to for the purpose of conversion of foreign currency amounts into Indian Rupee, are as follows:

Industry and Market Data

This Prospectus includes information derived from third party industry sources and from publicly available information as well as industry publications and sources. We have taken extracts from the report titled 'Mordor Intelligence Report- Market Assessment of Indian IT Services and BPM Exports to North America' issued by Mordor Intelligence, 'Strategic Review 2025' issued by Nasscom, 'IBEF- IT & BPM Industry Report' issued by IBEF, respectively, and have taken their consent for inclusion of data from their reports , respectively, and have taken their consent for inclusion of data from their reports.

Industry sources generally state that the information contained therein has been obtained from sources generally believed to be reliable, but accuracy, completeness and underlying assumptions not guaranteed, and their reliability cannot be assured and accordingly, investment decisions should not be based on such information. The data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in *"Risk Factors - The information in the "Industry" section is derived from publicly available sources. There can be no assurance that such third-party statistical, financial and other industry information is complete or accurate and neither has our company independently verified the same. Prospective investors are advised not to place undue reliance on such information as included in this Prospectus, when making their investment decisions"* on page 63. Accordingly, investors should not place undue reliance on or base their investment decision on this information.

The extent to which the market and industry data is used in this Prospectus is meaningful, depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources. Accordingly, no investment decision should be made solely on the basis of such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors.

In accordance with the SEBI ICDR Regulations, "*Basis for Offer Price*" beginning on page 141 includes information relating to our peer group companies. Such information has been derived from publicly available sources specified herein. Accordingly, no investment decision should be made solely on the basis of such information.

FORWARD LOOKING STATEMENTS

This Prospectus contains certain statements which are not statements of historical facts and may be described as "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "aim", "anticipate", 'are likely', "believe", "continue", "expect", "estimate", "intend", "will likely", "likely to", "may", "seek to", "shall", "objective", "plan", "project", "propose", "will", "will continue", "will pursue", "will achieve", "can", "could", "goal", "should" or other words or phrases of similar import but are not the exclusive means of identifying such statements. Similarly, statements that describe our Company's strategies, objectives, plans, goals, future events, future financial performance or financial needs are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, plans, revenue and profitability (including, without limitation, any financial or operating projections or forecasts) and other matters discussed in this Prospectus that are not historical facts. However, these are not the exclusive means of identifying forward looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. For the reason described below, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Therefore, investors were cautioned not to place undue reliance on such forwards-looking statements and not to regard such statements as a guarantee of future performance.

Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally which have an impact on our business activities, investments, or the industry in which we operate, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations, taxes, changes in competition in the industry in which we operate and incidents of any natural calamities and/or acts of violence. Certain important factors that could cause actual results to differ materially from our Company's expectations include, but are not limited to, the following:

- We generate a significant portion of our revenue from operations from our top client and top 10 clients who for the six months period ended September 30, 2025 represented 32.09% and 91.95% of our revenue from operations, respectively. Any loss or reduction of business from these clients or customers could reduce our revenue and adversely affect our business, results of operations, cash flows and financial condition.
- We derive significant portion of our revenue from customers operating in BFSI, Healthcare and life science, automotive and transport, oil & gas and energy and telecom and tech infra industry. Any decline in demand from these industries or change in requirements from customers in these industries may result in an adverse effect on our business, revenue from operations and financial conditions.
- Our success hinges on our ability to changing customer needs and technological advancements. If we fail to provide innovative solutions and services to keep pace with industry trends and technological advancement, it could adversely impact our business, results of operations and cash flows.
- We rely on our key suppliers for various aspects of our information technology infrastructure. Our Top 10 suppliers accounted for 32.09%, 65.94%, 72.13% and 56.72% of our total expenses for the six months period ended September 30, 2025, Fiscals 2025 and 2024 on a consolidated basis and for 2023 on a standalone basis, respectively. Any failure on part of our suppliers to supply in a timely manner or if they ceased supplying products/services to us and we were unable to find a supplier to replace it, it could have an adverse effect on our business, financial condition, results of operations, and cash flows.
- If we fail to integrate or mange acquired companies or businesses efficiently, or if the acquired companies or businesses are difficult to integrate, divert management resources or do not perform to our expectations we may not be able to realise the benefits envisioned for such acquisitions, and our overall profitability and growth plans could be adversely affected.

For details regarding factors that could cause actual results to differ from expectations, please see "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Position and Results of Operations*" on pages 32, 230 and 353, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses in the future could materially differ from those that have been estimated and are not a guarantee of future performance.

There could be no assure to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors were cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of our future performance.

Forward-looking statements reflect the current views of our Company as of the date of this Prospectus and are not a guarantee of future performance. Given the uncertainties, Bidders are cautioned not to place undue reliance on such forwards-looking statements and not to regard such statements as a guarantee of future performance. These statements are based on our management's beliefs, assumptions, current plans, estimates and expectations, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect.

Neither our Company, our Directors, our Promoters, the Book Running Lead Manager, the Selling Shareholder, the Syndicate Members nor any of their respective affiliates or advisors have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company will ensure that investors in India are informed of material developments pertaining to our Company and the Equity Share forming part of the Offer from the date of this Prospectus until the time of the grant of listing and trading permission by the Stock Exchange.

In accordance with the requirements of SEBI, the Selling Shareholder will ensure that investors are informed of material developments in relation to the statements and undertakings specifically undertaken or confirmed by it in the Red Herring Prospectus until the receipt of final listing and trading approvals for the Equity Shares pursuant to the Offer. Only statements and undertakings which are specifically confirmed or undertaken by the Selling Shareholder to the extent of information pertaining to his and/or his respective portion of the Offered Shares, as the case may be, in this Prospectus shall be deemed to be statements and undertakings made by such Selling Shareholder.

SECTION II – RISK FACTORS

Any investment in equity shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks, uncertainties and challenges described below, before making an investment in our Equity Shares. The risks described in this section are those that we consider to be the most significant to our business, results of operations and financial conditions as of the date of this Prospectus.

The risks set out in this section may not be exhaustive and additional risks and uncertainties not currently known to us or that we do not deem material may arise or may become material in the future and may also adversely affect our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a complete understanding of our Company and our business, prospective investors should read this section in , conjunction with sections entitled "Our Business", "Industry Overview", "Restated Financial Information" and "Management's Discussion and Analysis of Financial Position and Results of Operations" beginning on pages 230, 151, 309 and 353, respectively, as well as the other financial and statistical information contained in this Prospectus. In making an investment decision, prospective investors must rely on their own examination of us and our business and the terms of the Offer including the merits and risks involved.

Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Offer. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section.

This Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward- looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. For further information, see "Forward Looking Statements" on page 30.

Unless otherwise indicated, the financial information included herein is based on our Restated Financial Information included in this Prospectus. For further information, see "Restated Financial Information" on page 309.

Unless otherwise indicated, industry and market data used in this section has been derived from publicly available data. The data may have been re-classified by us for the purpose of presentation. A copy of the section titled "Industry Overview" beginning on page 151 will be available on the website of our Company at https://methodhub.in/industry-reports/. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in "Risk Factors - The information in the "Industry" section is derived from publicly available sources. There can be no assurance that such third-party statistical, financial and other industry information is complete or accurate and neither has our company independently verified the same. Prospective investors are advised not to place undue reliance on such information as included in this Prospectus, when making their investment decisions" on page 63.

Internal Risk Factors

1. ***We generate a significant portion of our revenue from operations from our top client and top 10 clients who for the six months period ended September 30, 2025 represented 32.09% and 91.95% of our revenue from operations, respectively. Any loss or reduction of business from these clients or customers could reduce our revenue and adversely affect our business, results of operations, cash flows and financial condition.***

A substantial portion of our revenue is significantly dependent on certain key customers with whom we have entered into an exclusive brand licensing agreements under which the "MethodHub" brand is used by them for sourcing business. We cannot assure you that we will be able to maintain historic level of business from our top 10 customers, or we will be able to reduce customer concentration in the future.

The table below sets forth our revenue from our top client, top five clients and top 10 clients based on their contribution to our revenue from operations for the six months period ended September 30, 2025 and for the Fiscals 2025, 2024, on a

consolidated basis and for Fiscal 2023, on a standalone basis, and such revenue as percentage of our revenue from operations:

Particulars	For the six months period ended September 30, 2025 (consolidated)		As of / for the year ended March 31, 2025 (consolidated)		As of / for the year ended March 31, 2024 (consolidated)		As of / For the year ended March 31, 2023 (standalone)	
	Amount *(₹ in million)*	**% to Revenue from operations**	**Amount *(₹ in million)***	**% to Revenue from operations**	**Amount *(₹ in million)***	**% to Revenue from operations**	**Amount *(₹ in million)***	**% to Revenue from operations**
Top 1 client	256.53	32.09	419.14	31.08	160.07	28.18	112.05	31.57
Top 5 clients	666.93	83.43	949.57	70.41	418.06	73.60	281.11	79.21
Top 10 clients	734.99	91.95	1,112.67	82.51	513.58	90.42	325.09	91.60

For the six months period ended period September 30, 2025, the contribution of our top 10 clients accounted to 91.95% of our revenue from operations, on a consolidated basis. However we are unable to disclose the names of our top 10 clients for the six months period ended September 30, 2025, Fiscals 2025, 2024 and Fiscal 2023, as we have not received their consents for inclusion of their names in this Draft Red Herring Prospectus.

A significant portion of our revenues is derived from one of our largest customers in the United States, with whom we have entered into an exclusive brand licensing agreement under which the "MethodHub" brand is used by them for sourcing business, and we execute delivery through our U.S. subsidiary and offshore delivery centers in India. While this arrangement has provided us with substantial opportunities for growth and market penetration in the U.S., it exposes us to a high degree of customer concentration risk. Our dependence on a single customer makes us vulnerable to any adverse changes in this relationship, including but not limited to termination, non-renewal, reduction in business volumes, changes in commercial terms, financial difficulties faced by the customer, or a shift in their strategic direction.

We have long-standing relations with our top 10 clients and enter into exclusive agreements with them, however there can be no guarantee that we will get continued business from them. Our contracts with our clients are typically for a period ranging from one to four years, and some of these contracts may not have evergreen provisions, which enable automatic renewal upon the expiry of the initial term. Our clients have no obligation to renew their agreements after the expiry of the initial term, and there can be no assurance that these contracts will be renewed beyond their initial term. In addition, the exclusive nature of the licensing arrangement may restrict our ability to independently engage with other customers for a defined duration as mutually agreed upon with respective clients, under the MethodHub brand. If our engagement with our top clients is reduced or discontinued for any reason, or if the terms of our agreement become less favourable, our business, financial condition, results of operations and cash flows may be materially and adversely affected. Although we are actively pursuing diversification of our customer base across geographies and verticals, there can be no assurance that such efforts will adequately mitigate this risk.

Further, our client agreements include provisions that restrict clients from soliciting or hiring our employees during the term of the engagement and for a period of one year thereafter. While these clauses are designed to protect our workforce and business interests, their limited duration may not fully prevent clients from in-sourcing employees or IT consultants currently deployed by us once the restriction period expires. This could potentially impact our service continuity, resource availability, and future revenue from such engagements.

We rely and expect that we will continue to rely on a limited number of customers for substantial portion of our revenue. The loss of any of our top 10 customers due to any reasons including, but not limited to, loss of, or failure to get continued business; negotiate favourable terms with our key customers; change in technology, deficiencies in services, adverse changes in the financial conditions of our customers, changes in the regulatory and government policies in the industry in which are customers operate, could have a material adverse effect on our business, results of operations and financial condition. Further, the performance of our customers, their sales network and their ability to expand their businesses are crucial to the future growth of our business and directly affect our revenue and profitability. The loss of any of our major customers, or a significant decrease in the volume of work they outsource to us or the price at which we sell our services to them, could adversely affect our business, cash flows, financial condition and results of operations.

2. ***We derive significant portion of our revenue from customers operating in BFSI, Healthcare and life science, automotive and transport, oil & gas and energy and telecom and tech infra industry. Any decline in demand from these industries or change in requirements from customers in these industries may result in an adverse effect on our business, revenue from operations and financial conditions.***

Our range of customised offerings and our ability to specifically tailor solutions to the specific needs of customers have enabled us to garner prominent customers across industries and we count leading businesses across diverse customer industries such as banking, finance services and insurance (BFSI), health care and life science, oil & gas and energy telecom and tech infra, and automotive and transport and information technology (IT) consulting. Set out below is the breakup of our revenue from operations from the industries wise customers for the six months period ended September 30, 2025 and Fiscals 2025, and 2024, on a consolidated basis and for Fiscal 2023, on a standalone basis:

**Others include customers across various sectors.*

Our commercial success also depends to demand and requirements of our customers. Therefore, our revenue may be adversely affected by any change in requirements, advanced technology in such industries or specifically, our customers. Any decline in the demand for solutions and services within these industries could have any adverse impact on our business, results of operations, financial condition and cash flows. Our ability to provide solutions and services that align with evolving industry requirements is crucial to our success. We cannot assure you that our solutions and services will continually meet the evolving demands of our customers. Failing to do so could impact our overall business, results of operations and cash flows.

Further, over-reliance on a limited industries exposes us to risks associated with concentration of customers to particular industry segment and the risk associated with such industries and emerging industry trends. Any decline or slowdown in such sectors could adversely impact the revenue we generate from them. While we have not experienced such an instance till date, there can be no assurance that our revenues will remain unaffected should these industries face challenges. Further, if we are unable to maintain our current customers or expand into new innovative solutions and offerings for customers in other industries, it could severely impact our business, results of operation, and cash flows.

3. Our success hinges on our ability to adapt to changing customer needs and technological advancements. If we fail to provide innovative solutions and services to keep pace with industry trends and technological advancement, it could adversely impact our business, results of operations and cash flows.

We offer a wide range of IT and Consulting Services including Cloud Services, Data & AI Services, Cybersecurity, ERP/CRM Integration, IT Infrastructure, Recruitment Delivery Services and Combined Offerings. In addition, we provide bespoke IT solutions supported by a dedicated and well-managed IT team and a team of seasoned professionals to ensure continuous monitoring and support according to the client's specific needs.

Rapid technological advances, changing delivery models and evolving standards in information technology and IT infrastructure, changing and increasingly sophisticated customer needs and frequent new product introductions and enhancements characterize the industry in which we operate. Digitization is driving major changes in the global business software market, with IT leaders looking to adopt new technologies and software platforms to meet business needs, including revenue growth driven through new solutions and services, better customer experience and delivery mechanisms, and growth in revenue and profits. Our success depends upon our ability to anticipate, customise, market and provide solutions, services, and enhancements of current services in response to evolving industry requirements.

To effectively meet evolving customer demands, our Company has embraced continuous innovation as a core business strategy. While we do not have a dedicated R&D team, we have built a dynamic and responsive approach to innovation that allows us to stay aligned with industry trends and technological advancements. We actively monitor emerging technologies and market developments to identify opportunities for integrating new tools, platforms, and methodologies into our service delivery model. This enables us to design and implement solutions that not only meet the immediate needs of our clients but also anticipate future business challenges. Our focus on customized solutions ensures that we remain flexible and responsive to the unique requirements of each client. However, we recognize that the markets for such offerings are rapidly evolving, and the level of acceptance can vary. To navigate this uncertainty, we continuously refine our services in areas such as cloud computing, cybersecurity, mobility, and platform-as-a-service, among other transformative trends in the IT industry.

While we have not faced any service delivery deficiencies in past, yet any failure to design and offer in the most efficient manner, would reduce our margins and would materially and adversely affect our profitability. Also, ability of our competitors to design innovative solutions and service in a manner which is more efficient and feasible than ours would give our competitor the ability to offer attractive prices to the customers, without affecting their margins. We cannot assure you that our solutions and services will continually meet the evolving demands of our customers. Failing to do so could impact our overall business, results of operations and cash flows.

Our ability to provide solutions and services that align with evolving industry requirements is crucial to our success. If we are unable to provide such innovative solutions and support services in a timely manner or position and price our services to meet demand including in response to new industry standards, customers may not purchase or subscribe to our IT and ITeS products or cloud offerings or data center infrastructure or other products and services. Renewals of these contracts are important for the growth of our business.

Changes in technology may render our current technologies obsolete or require us to make substantial new investments. As a result, we may be unable to successfully market our existing solutions and service offerings, innovate and provide novel solutions and services to match the customer preferences and emerging industry trends on a timely basis, which could severely impact, our business, operating results and financial condition.

4. ***We rely on our key suppliers for various aspects of our information technology infrastructure. Our Top 10 suppliers accounted for 32.09%, 65.94%, 72.13% and 56.72% of our total expenses for the six months period ended September 30, 2025, Fiscals 2025 and 2024 on a consolidated basis and for 2023 on a standalone basis, respectively. Any failure on part of our suppliers to supply in a timely manner or if they ceased supplying products/services to us and we were unable to find a supplier to replace it, it could have an adverse effect on our business, financial condition, results of operations, and cash flows.***

Our suppliers provide a wide range of essential hardware and software products and services. These include core IT infrastructure like servers, storage systems, antivirus software, and cloud-based computing resources. We also depend on them for general IT solutions, enterprise-level support, and critical security services. Additionally, they supply connectivity services, data centre related materials, and annual maintenance contracts. For more details, see "*Our Business-Our Top 10 Suppliers*" on page 252.

The table below set forth the cost of supplies from our top supplier, top five suppliers and top 10 suppliers based on their contribution to cost of purchases for the six months period ended September 30, 2025, Fiscals 2025, 2024, on a consolidated basis and Fiscal 2023, on a standalone basis, and such costs as percentage of our purchases:

Particulars	**For the six months period ended September 30, 2025 (consolidated)**		**As of / for the year ended March 31, 2025 (consolidated)**		**As of / for the year ended March 31, 2024 (consolidated)**		**As of / For the year ended March 31 2023 (standalone)**	
	Amount *(₹ in million)*	**% of Total Purchases**	**Amount *(₹ in million)***	**% of Total Purchases**	**Amount *(₹ in million)***	**% of Total Purchases**	**Amount *(₹ in million)***	**% of Total Purchases**
Top 1 supplier	59.28	10.57%	54.01	22.70%	80.77	36.98%	24.68	22.34%
Top 5 suppliers	149.65	26.28%	124.01	52.12%	138.00	63.18%	55.08	49.86%
Top 10 suppliers	179.98	32.09%	156.90	65.94%	157.54	72.13%	62.66	56.72%

For the six months period ended September 30, 2025, the contribution of our top 10 suppliers' amounted to 32.09% of total purchases, on a consolidated basis. As such, we have been relying on and may continue to rely on our top 10 suppliers for our hardware and software material for our business operations. We are unable to disclose the names of our

top 10 suppliers for the six month period ended September 30, 2025, Fiscals 2025, 2024 and Fiscal 2023, as we have not received their consents for inclusion of their names in this Draft Red Herring Prospectus.

We do not have any contracts with our suppliers and we purchase the products and services on a purchase order basis. While we believe that we will be able to find alternative supplier(s) at competitive prices if a supplier ceases to do business with us or is unable to supply us, there can be no assurance that we will be able to identify such alternative arrangements a timely manner. There have been no instances when we have not been able to purchase the products and services we need for our business in the six months period ended September 30, 2025 and the Fiscals 2025, 2024 and 2023. However, there can be no assurance that this will always be the case and if any of our top suppliers ceases to sell us the products and services we need and we are unable to find one or more suppliers to replace them, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

5. ***If we fail to integrate or mange acquired companies or businesses efficiently, or if the acquired companies or businesses are difficult to integrate, divert management resources or do not perform to our expectations we may not be able to realise the benefits envisioned for such acquisitions, and our overall profitability and growth plans could be adversely affected.***

In order to expand our offerings and gain new customers, we have recently acquired our Wholly-Owned Subsidiary, namely, MethodHub Consulting Inc. (USA) effective from April 1, 2024. The services offered by MethodHub Consulting Inc. (USA) consists of IT solutions, staffing services, software development and IT consulting services. MethodHub Consulting Inc.(USA), acquired 51% of the share capital in ZORTech Solutions Inc. (Canada), making it our step-down subsidiary. MethodHub Consulting Inc. (USA) and ZORTech Solutions Inc. (Canada), both are identified as our Material Subsidiaries by our Board. Additionally ZORTech Solutions Inc. (Canada) has a wholly owned subsidiary, namely, Zortech Solutions Inc. (USA), making it our indirect subsidiary. Both are engaged in providing IT solutions, software development and IT consulting services.

We cannot assure you that we will be able to successfully integrate these acquired entities into our existing operations as planned. These acquired entities may have liabilities or adverse operating issues that we may have failed to discover through due diligence prior to the acquisition. While we have not experienced any instances where we incurred any liabilities or faced operating issues with respect to the aforesaid entities post their acquisitions, we cannot assure you such instances will not arise in the future. In particular, to the extent that prior owners of these acquired entities failed to comply with or otherwise violated applicable laws or regulations, or failed to fulfil their contractual obligations to customers, we, as the successor owner, may be financially responsible for these violations and failures and may suffer financial or reputational harm or otherwise be adversely affected. While we have not experienced any such instances with respect to the aforesaid entities post their acquisitions, we cannot assure you that such instances will not arise in the future. In addition, we may require additional financial resources for the successful expansion of the acquired entities and integrating their operations into our operations. Our inability to successfully integrate these acquired entities into our operations, may affect our growth strategy, market share, profitability, or competitive position.

In the future, while we may acquire additional businesses that we believe could complement and expand our business, enhance our geographic foot print, strengthen capabilities and service offerings, integrating the operations of acquired entities successfully or otherwise realising any of the anticipated benefits of acquisitions, including anticipated cost savings and additional revenue opportunities, involves a number of potential challenges. These integration activities are complex and time-consuming, and we may encounter unexpected difficulties or incur unexpected costs, including

- our inability to achieve the operating synergies anticipated in the acquisitions;
- consolidating and rationalising administrative infrastructures and complexities associated with managing the geographic separation of the combined businesses and consolidating multiple physical locations;
- possible cash flow interruption or loss of revenue as a result of transitional matters;
- unforeseen or undisclosed liabilities and integration costs and incurring liabilities from the acquired entities for infringement of intellectual property rights or other claims for which we may not be successful in seeking indemnification;
- generating sufficient revenues and net income to offset acquisition costs;
- retaining key senior management and key sales and marketing and research and development personnel, particularly those of the acquired operations;
- diversion of management attention from on-going business concerns to integration matters;
- integrating personnel from different corporate cultures while maintaining focus on providing consistent, high quality services;
- demonstrating to our customers and to customers of acquired businesses that the acquisition will not result in adverse changes in customer service standards or business focus;
- incurring debt, amortisation expenses related to intangible assets, large and immediate write-offs, or issuing common stock that would dilute our existing stockholders' ownership;
- potential loss of, or harm to, employee or customer relationships;

- failing to realise the potential cost savings or other financial benefits and/or the strategic benefits of the acquisition; and
- integrating and documenting processes and controls

While we have not experienced any of the aforesaid instances with respect to the entities mentioned above post their acquisitions, we cannot assure you that such instances will not arise in the future. If we fail to properly evaluate acquisitions or investments, we may not achieve the anticipated benefits of any such acquisitions, and we may incur costs in excess of what we anticipate. The failure to successfully integrate the operations or otherwise to realise any of the anticipated benefits of the acquisition could seriously harm our business, cash flows, financial condition and results of operations.

6. Data networks are vulnerable to attacks, unauthorised access and disruptions. Any unauthorized access to our network or data, including internal breaches, cyberattacks or system vulnerabilities, could harm our reputation, create additional liability and adversely affect our financial condition, results of operations and cash flows. Additionally, losses or liabilities that are incurred as a result of any of the foregoing or failure of our IT systems could adversely affect our business, cash flows, financial condition and results of operations

As our business involves processing of high volumes of data, we are significantly dependent on information technology systems, including internet-based systems, to support our business processes. The complexity of our computer systems may make them potentially vulnerable to breakdown, malicious intrusion and computer viruses. While we have not faced such instances in the past, we cannot assure you that we will not encounter disruptions to our information technology systems in the future and any such disruption may result in the loss of key information or disruption of our business processes, which could adversely affect our business and results of operations. In addition, our systems are potentially vulnerable to data security breaches, whether by employees or others that may expose sensitive data to unauthorized persons. Such data security breaches could lead to the loss of trade secrets or other intellectual property, or could lead to the public exposure of personal information (including sensitive personal information) of our employees, clients and others. Any such security breaches could have an adverse effect on our business and reputation.

Our offerings involve the transmission and processing of data, and security breaches and incidents could result in the loss of this information, litigation, indemnity obligations, fines, penalties and other liability. We may become the target of cyber-attacks by third-parties seeking unauthorized access to our data or our client's data or to disrupt our ability to provide services. There is also a danger of industrial espionage, misuse, theft of information or assets (including source code), or damage to assets by people who have gained unauthorized access to our facilities, systems or information. As there are many different techniques used to obtain unauthorized access to systems and data, and such techniques continue to evolve, we may be unable to anticipate attempted security breaches and incidents and proactively implement adequate preventative measures.

Computer malware, viruses, social engineering (phishing attacks), and increasingly sophisticated network attacks have become more prevalent in our industry, particularly against cloud services. We may also face cyber threats such as (i) phishing and trojans -targeting our clients, wherein fraudsters send unsolicited mails to our clients seeking account sensitive information or to infect client machines to search and attempt ex-filtration of account sensitive information; (ii) hacking –wherein attackers seek to hack into our website with the primary intention of causing reputational damage to us by disrupting services; (iii) data theft –wherein cyber criminals may attempt to intrude into our network with the intention of stealing our data or information; and (iv) advanced persistent threat a network attack in which an unauthorized person gains access to our network and remains undetected for a long period of time with an intention to steal our data or information rather than to cause damage to our network or organization.

To address these risks, we have adopted a structured framework aligned with globally recognized standards, including ISO 27001 (information security management), ISO 9001 (quality management), and SOC 2 Type 2 (service organization controls). These certifications reinforce our commitment to safeguarding client data, ensuring operational resilience, and maintaining defined quality benchmarks. We conduct half-yearly internal audits across business functions, with non-conformities identified, corrective action plans implemented, and progress tracked through periodic reviews. Our processes are further validated by independent Certified Public Accountant (CPA) firms and globally recognized standards organizations, providing external assurance on the robustness of our internal controls.

Further, our Company utilizes a range of licensed software solutions and cloud services to support its business operations to ensure seamless workflow across departments which include Microsoft licenses such as Microsoft 365 Business Basic, Business Standard, Business Premium, Azure Active Directory Premium P1, among other. While we aim to provide our customers with a high level of security through these licensed tools and softwares, we may still continue to face security threats and attacks from hackers. Since there are many different security breach techniques and such techniques continue to evolve, we may be unable to anticipate attempted security breaches, react in a timely manner or implement adequate preventative measures. In addition, errors due to the action or inaction of our employees, or others with authorized access

to our network could lead to a variety of security incidents. A breach of our security could adversely affect our systems, creating disruptions or slowdowns and the information stored on our networks could be accessed, publicly disclosed, altered, lost, or stolen. While since there have been no instances of such breaches of security in the past, we cannot assure you that such breaches of security may not occur in the future. Any actual or perceived data breach in the future, whether at our end or relating to data we process, could result in loss of reputation, negative publicity, customer churn, and increased costs, and could materially and adversely affect our business, financial condition and results of operations.

We have not faced any instances of bugs or defects as our Company's network security framework follows a defence-in-depth strategy, incorporating next-generation firewalls with deep packet inspection at all perimeter points. These firewalls are deployed with dual WAN internet services to ensure continuous, high-availability protection against evolving threats. For further details, refer *"Our Business - IT Infrastructure & Network Security"* on page 255. However we cannot assure you that such undetected real or perceived errors, failures, bugs or defects may occur in the future in our customer solutions. Such issues may not be found until our customers use our services, which could result in negative publicity, loss of or delay in market acceptance of our services and harm to our brand, weakening of our competitive position, claims by customers for losses sustained by them or failure to meet the stated service level commitments in our customer agreements. In such an event, we may be required, or may choose, for customer relations or other reasons, to expend significant additional resources and incur additional costs in order to help correct such errors, bugs or defects. We have not received any client complaints during the six months period ended September 30, 2025 and last three Fiscals. Any real or perceived errors, failures, bugs or defects in our customer solutions could also impair our ability to attract new customers, retain existing customers or expand their use of our services, which would adversely affect our business, financial condition, results of operations and cash flows.

Any security breach or other security incident, or the perception that one has occurred, could result in a loss of client confidence in the security of our offerings and damage to our brand, reduce the demand for our offerings, disrupt normal business operations, require us to spend material resources to investigate or correct the breach and to prevent future security breaches and incidents, expose us to legal liabilities, including litigation, regulatory enforcement, and indemnity obligations, and adversely affect our revenues and operating results. A significant disruption in access to, or ability to use, our services could damage our reputation with current and potential clients, expose us to liability, cause us to lose clients or otherwise negatively affect our business.

7. If we fail to attract and retain employees, we may not have the necessary resources to properly staff projects, and failure to successfully compete for such employees could adversely affect our business, cash flows, financial conditions and results of operations.

As on October 31, 2025, we have employed 294 permanent employees and independent consultants. Our success depends largely on the contributions of our employees and our ability to attract and retain qualified employees. A significant increase in the attrition rate among employees with specialised skills could decrease our operating efficiency and productivity and could lead to a decline in demand for our services. The table below sets forth the voluntary attrition rate of our employees in the years indicated:

Particulars	**For the six months period ended September 30, 2025 (consolidated)**	**Fiscal 2025 (consolidated)**	**Fiscal 2024 (consolidated)**	**Fiscal 2023 (standalone)**
Total employees[#]	196	187	159	145
Attrition rate (in %)[*]	5.74%	5.78%	5.92%	7.91%

 # All employees excluding consultants

** Attrition rate is calculated as a cumulative voluntary resignation divided by average number of employees during the relevant period.*

Further, the specialized nature of our services, requires high skilled workforce. Significant resources are required for attracting and retaining top talent in these fields, especially as demand for healthcare IT professionals/ qualified professionals continues to grow. We must invest in training and development to keep our teams up to date with the latest technologies, while ensuring that services maintain their high standards of accuracy and efficiency. Set forth below are details of our employee benefits expenses in each of the corresponding period and Fiscals:

Particulars	**For the six months period ended September 30, 2025 (consolidated)**	**As of / for the year ended March 31, 2025 (consolidated)**	**As of / for the year ended March 31, 2024 (consolidated)**	**As of / For the year ended March 31 2023 (standalone)**

	Amount *(₹ in million)*	% of Total Expenses	Amount *(₹ in million)*	% of Total Expenses	Amount *(₹ in million)*	% of Total Expenses	Amount *(₹ in million)*	% of Total Expenses
Employee benefit expenses	46.43	6.79%	69.98	5.71%	53.53	10.40%	51.22	14.96%

Our ability to maintain and renew existing engagements and obtain new business will depend, in large part, on our ability to attract, train and retain qualified. Although we implement a robust employee retention strategy by constantly engaging which gives us the insight and early warning to address root causes of attrition, proactively addressing employee issues and creating a right environment for employee, creatively structuring compensation to incentivize the right behaviour and performance to align with customer satisfaction and other growth goals and constant and relevant retraining in sync with technology trends and business needs to ensure high utilisation and low project downtimes, we cannot assure you that we will be able to attract and retain the qualified employees we need.

If we are unable to attract and retain our employees we need, we may have to forgo projects for lack of resources or be unable to staff projects optimally. Our failure to attract, train and retain employees with the qualifications necessary to fulfil the needs of our existing and future customers or to assimilate new employees successfully could adversely affect our business, cash flows, financial condition and results of operations. High attrition rates of employees would increase our hiring, reskilling, upskilling and training costs and could have an adverse effect on our ability to complete existing contracts in a timely manner, meet customer objectives and expand our business.

Increased hiring by technology companies and increasing worldwide competition for employees may lead to a shortage in the availability of suitable personnel in the locations where we operate and hire. Failure to hire, train and retain employees in sufficient numbers could have an adverse effect on our business, cash flows, results of operations and financial condition.

8. Our success depends substantially on the continuing services of our Senior Management, and Key Managerial Personnel ("KMPs"). If we are unable to attract and retain them, we may not be able to maintain client relationship and grow effectively, which may adversely affect our business, result of operations, cash flows and financial condition.

Our operations are heavily depends upon the continued services of our Senior Management, and KMPs. If one or more of our Senior Management and KMPs are unable or unwilling to continue in their present positions, it could disrupt our business operations, and we may not be able to replace them easily or at all. While we have not experienced any instances where the exit of any Senior Management and KMP has impacted our business or results of operations, we cannot assure you that such instances will not arise in the future. In addition, there is extensive competition within the Indian technology market with respect to hiring, owing to an increasing number of players and services and we may be unable to retain our Senior Management and KMPs in the future, in which case our business may be severely disrupted, which could adversely affect our business, cash flows, financial condition and results of operations.

For details regarding the changes in Senior Management and KMP during the six months period ended September 30, 2025 and the last three Fiscals, see "*Our Management – Changes in the Key Managerial Personnel and Senior Management in last three years*" on page 300. If any of our Senior Management and KMP joins a competitor or forms a competing company, we may lose customers and know-how to them which may adversely affect our business, cash flows, financial condition and results of operations. We cannot assure you that our competitors will not offer better compensation packages, incentives and other perquisites to such skilled personnel. There could also be unauthorised disclosure or use of our technical knowledge, practices or procedures by such personnel. If any dispute arises between our Senior Management and KMP and us, any non-competition, non-solicitation and non-disclosure provisions in our employment agreements we have with our Senior Management and KMP might not provide effective protection to us.

9. The implementation process of solutions may in some cases be time consuming, and any failure to satisfy our customers or perform as desired could harm our business, results of operations, and financial condition.

Our services are complex and are deployed in a wide variety of network environments. Solution designing is a complex and lengthy process since we often customize our services and solutions for a customer's requirements and environment. A customer's decision to purchase our software products or our services often involves a comprehensive implementation process across the customer's network(s) which includes customer education, pre-purchase evaluation by a number of employees in our customers' organisations and, often, a significant strategic or operational decision by our customers. Our sales efforts involve educating our customers about the use and benefits of our products and solutions, including any potential cost savings achievable by organisations that partner with us. We spend substantial time, effort and money on our sales efforts without any assurance that our efforts will produce any sales. Additionally, licensing and implementing our software products and any related services may entail a significant commitment of resources by prospective

customers, accompanied by the risks and delays frequently associated with significant technology implementation projects.

Inability to meet requirements of our customers may result in customers dissatisfaction and/or damage to our reputation, which could materially harm our business. It is possible that our services may be used by customers with smaller or less sophisticated IT departments, potentially resulting in sub-optimal performance at a level lower than anticipated by the customers. As our customers rely on our services to address important business goals and challenges, the incorrect or improper use or configuration of our services, or failure to properly provide implementation or analytical or maintenance services to our clients may result in contract terminations or non-renewals, reduced customers payments, negative publicity, or legal claims against us.

10. We have had negative cash flows in the past and may have negative cash flows in the future.

The following table sets out our cash flows derived from the Restated Financial Statements for the period/ years indicated:

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, prospects, results of operations and financial condition may be materially and adversely affected. We cannot assure you that our net cash flow will be positive in the future.

For further details, see "*Management's Discussion and Analysis of Financial Position and Results of Operations – CASH FLOWS*" on page 375.

11. We operate in a rapidly evolving industry, which makes it difficult to evaluate our future prospects and may increase the risk that we will not continue to be successful which could adversely affect our business, reputation, results of operations, cash flows and financial conditions.

The technology services industry is competitive and continuously evolving, subject to rapidly changing demands and constant technological developments. Because services and technologies are rapidly evolving and each company within the industry can vary greatly in terms of the services it provides, its business model, and its results of operations, it can be difficult to predict how any company's services, including ours, will be received in the market. Our revenues, operating results and profitability have varied in the past and are likely to vary in the future. Factors that are likely to cause these variations include:

- the number, timing, scope and contractual terms of IT projects in which we are engaged;
- delays in project commencement or staffing delays due to difficulty in assigning appropriately skilled or experienced IT professionals;
- the accuracy of estimates of resources, time and fees required to complete projects and costs incurred in the performance of each project;
- foreign currency exchange rate fluctuations;
- changes in pricing in response to customer demand and competitive pressures;
- changes in the allocation of onsite and offshore staffing;
- the business decisions of our customers regarding the use of our services;
- the ability to further grow revenues from existing customers;
- seasonal trends, primarily our hiring cycle and the budget and work cycles of our customers;
- unexpected changes in the utilisation rate of our IT professionals;
- unanticipated contract or project terminations;
- the timing of collection of accounts receivable;
- the continuing financial stability of our customers; and
- general economic conditions

One or any combination of the above factors may cause our customers' demand for our services to decline as a result of which our business may suffer and our results of operations, cash flows and financial condition may be adversely affected. Further, given that the IT industry is subject to rapidly changing demands and constant technological developments, our failure to promptly upgrade our technology or provide innovative solutions may result in disruptions

to or lower quality of our services and may adversely affect our business, results of operations, cash flows and financial condition.

12. Our profitability will suffer if we are not able to maintain utilisation rates of our employees.

Our profitability and the cost of providing our services are affected by the utilisation rates of our employees in our delivery locations. If we are not able to maintain appropriate utilisation rates for our employees involved in delivery of our services, our profit margin and our profitability may suffer. Our utilisation rates are affected by a number of factors, including:

- our ability to promptly transition our employees from completed projects to new assignments;
- our ability to forecast demand for our services and thereby maintain an appropriate number of employees;
- our ability to deploy employees with appropriate skills and seniority to projects;
- our ability to manage the attrition of our employees and to hire and integrate new employees; and
- our need to devote time and resources to training, professional development and other activities that cannot be billed to our customers.

Employee shortages could prevent us from completing our contractual commitments in a timely manner, taking up new contracts and cause us to lose contracts or customers. Further, to the extent that we lack sufficient employees with lower levels of seniority and daily or hourly rates, we may be required to deploy more senior employees with higher rates on projects without the ability to pass on such higher rates to our customers, which could adversely affect our profit margin and profitability.

13. ZORTech Solutions Inc. (Canada), one of our material subsidiary, has a loss for the six months period ended September 30, 2025 and for Fiscal 2025. There can be no assurance that ZORTech Solutions Inc. (Canada) will not incur a loss for in the future. If ZORTech Solutions Inc. (Canada) were to experience a loss for the year over continuous fiscal years, especially if the losses were large, its ability operate its business as a going concern may be adversely affected, which may require it to raise additional financing, which may not be available, and it would adversely affect our consolidated financial condition, results of operations and cash flows.

ZORTech Solutions Inc. (Canada), one of our Material Subsidiary has reported loss for the six months period ended September 30, 2025 and for Fiscal 2025. The table below sets forth ZORTech Solutions Inc. (Canada), loss for the six months period ended September 30, 2025 and for the Fiscal 2025:

(₹ in million)

Particulars	For six months period ended September 30, 2025	Fiscal 2025	Fiscal 2024	Fiscal 2023
ZORTech Solutions Inc. (Canada)	(2.88)	(8.41)	-	-

There can be no assurance that ZORTech Solutions Inc. (Canada) will not incur losses for the period/year in the future. If ZORTech Solutions Inc. (Canada) were to report a loss for the year over continuous fiscal years, especially if the losses were large, its ability operate its business as a going concern may be adversely affected, which may require it to raise additional financing, which may not be available, and it would adversely affect our consolidated financial condition, results of operations and cash flows. In addition, our Company could lose its investment in ZORTech Solutions Inc. (Canada), which would have an adverse effect on its financial condition on a standalone basis.

14. Our growth, in part, depends on our ability to maintain successful relationship with our technology and business collaboration partners and any breakdown of such relationships could adversely affect our business, financial condition, results of operations and cash flows.

We enter into agreements with third party companies to deliver customers with bundled solutions to whom we offer our Data Centre, cloud and managed services. Our success is driven in part by our ability to collaborate with leading technology and solution providers. These strategic partnerships enable us to deliver integrated, end-to-end solutions tailored to address critical business gaps, thereby driving innovation, efficiency and sustainable growth for our customers. Outlined below are certain key partnerships that form an integral part of our solution ecosystem. For details, refer "*Our Business- Business Applications/ Partners*" on page 254.

We may also be held liable for breach of performance obligations in such instances. Breakdown of such relationship can affect our business adversely, including reputational harm, loss of revenue and our inability to benefit from technological collaboration. Our partners can terminate the contracts with us due to number of reasons, which include repetitive outages for the cloud infrastructure or network outages. Since April 1, 2023, there have been no such instances of our partners terminating their contracts with us.

Even if we successfully deliver on contracted services and continue to maintain close relationships with our technology and business collaboration partners, several factors outside of our control could cause the loss of or reduction in business or revenue from our existing clients. These factors include:

- the business or financial condition of our technology or business collaboration partner or the economy generally;
- a change in strategic priorities by that partner, resulting in a reduced level of spending on cloud or data centre services;
- changes in the personnel at our clients who are responsible for procurement of information technology services or with whom we primarily interact, in cases where the relationship is not institutionalized;
- a demand for price reductions;
- mergers, acquisitions or significant corporate restructurings involving that partner; or
- a decision by that client or partner to move work in-house or to one or several of our competitors

The loss or diminution in business from any of our major partners could have a material adverse effect on our business, financial condition, results of operations and cash flows.

15. If we are unable to collect our receivables from our customers, our results of operations, cash flows and financial conditions could be adversely affected.

Our business depends on our ability to successfully collect payments from our customers of the amounts they owe us for services offered.

The below table sets out details of trade receivables, trade receivables turnover days, billed days sales outstanding for the periods indicated:

(₹ in million)

Particulars	For the six months period ended September 30, 2025 (Consolidated)	As of / for the year ended March 31, 2025 (Consolidated)	As of / for the year ended March 31, 2024 (Consolidated)	As of / For the year ended March 31 2023 (Standalone)

Trade receivables, as a percentage of revenue from operations (%)	76.72%	31.26%	31.46%	50.66%

We cannot assure you that we will be able to accurately assess the credit-worthiness of our customers. Weak macroeconomic conditions and related turmoil in the global financial system could also result in financial difficulties, including limited access to the credit markets, insolvency, or bankruptcy for our customers, and, as a result, could cause customers to delay payments to us, request modifications to their payment arrangements that could increase our receivables balance, or default on their payment obligations to us. Timely collection of customer balances also depends on our ability to complete our contractual commitments and bill and collect our contracted revenues. If we are unable to meet our contractual requirements, we might experience delays in collection of and/or be unable to collect our customer balances, and if this occurs, our results of operations, financial condition and cash flows could be adversely affected. The table below sets forth details of provision for expected credit loss and bad debt written off in the years indicated:

Particulars	For the six months period ended September 30, 2025 (Consolidated)	As of / for the year ended March 31, 2025 (Consolidated)	As of / for the year ended March 31, 2024 (Consolidated)	As of / For the year ended March 31, 2023 (Standalone)

16. ***We face intense competition from onshore and offshore IT services companies. Increased competition, our inability to compete successfully against competitors, pricing pressures or loss of market share could adversely affect our business, cash flows, results of operations and financial conditions.***

The markets for IT services that we operate in is highly competitive, and we expect such competition to persist and intensify in the future. A significant number of companies are offering services that currently, or in the future may, compete with some or all the services offered by us. We believe that the principal competitive factors in our markets are reputation and track record, industry expertise, breadth and depth of service offerings, quality of the services offered, marketing and selling skills, scalability of infrastructure, ability to address customers' timing requirements and price. We may not be successful in convincing the management teams of our potential clients to engage our services to enhance their operations or to prefer our services over those of our competitors. In addition, our competitors include large enterprise software companies and system integrators, and we may face competition from emerging companies as well as established companies who have not previously entered this market.

We face competition from offshore IT services providers in emerging outsourcing destinations with low wage costs or with a more favourable time zone for US customers as well as competition from large, global consulting and outsourcing firms and in-house IT departments of large corporations. Customers tend to engage multiple IT services providers instead of using an exclusive IT services provider, which could reduce our revenues to the extent that customers obtain services from other competing IT services providers. Customers may prefer IT services providers that have more locations or that are based in countries which are more cost-competitive or in a more favourable time zone than India.

Our ability to compete successfully also depends in part on a number of factors which are beyond our control, including the ability of our competitors to recruit and retain highly-skilled IT professionals, the price at which our competitors offer comparable services and our competitors' responsiveness to customer needs. Some of our present and potential competitors may have substantially greater financial, marketing or technical resources. If our competitors develop and implement methodologies that yield greater efficiency and productivity, they may be able to offer similar services at lower prices than we do without adversely affecting their profit margins. Our current and potential competitors may also be able to respond more quickly to new technologies or processes and changes in customer demands; may be able to devote greater resources towards the development, promotion and sale of their services than we can; and may also make strategic acquisitions or establish cooperative relationships among themselves or with third parties that increase their ability to address the needs of our customers. Buying patterns may change if customers become more price sensitive and accepting of low-cost suppliers. Therefore, we cannot assure you that we will be able to retain our customers while competing against such competitors. Increased competition, our inability to compete successfully, pricing pressures or loss of market share could have an adverse effect on our business, cash flows, financial condition and results of operation.

In addition, if one or more of our competitors were to merge or partner with another of our competitors, the strength of the combined companies could affect our competitive position. If we are unable to compete successfully against current or future competitors, our business and results of operations may be adversely affected

17. ***We are a company with global operations and subject to risks and uncertainties of conducting business outside India. Additionally, international operations may expose us to complex management, legal, tax and economic risks. Our operations may be governed by the laws of foreign jurisdictions and disputes arising from contracts in such jurisdictions may be subject to the exclusive jurisdiction of foreign courts***

We conduct our business across developed markets and serve clients across USA and Canada. In the six months period ended September 30, 2025, Fiscals 2025 and 2024 on consolidated basis and 2023 on standalone basis, revenue from operations from clients outside India represented 81.01%, 74.48%, 51.55%, and 49.01%, of our revenue from operations in such periods, respectively. The markets in which we operate are diverse and fragmented, with varying levels of economic and infrastructure development and distinct legal and regulatory systems, and do not operate seamlessly across borders as a single or common market. Therefore, we may be subject to risks inherent in doing business in countries other than India, including: risks related to the legal and regulatory environment in non-Indian jurisdictions, including with respect to privacy and data, or in relation to taxation or repatriation of our revenues or profits from foreign jurisdictions to India; security, and unexpected changes in laws, regulatory requirements and enforcement; challenges caused by distance, language and cultural differences; providing services that appeal to the preferences of users in multiple markets; complex local tax regimes; higher costs associated with doing business in multiple markets; imposition of international sanctions on one or more of the countries in which we operate; potential damage to our brand and reputation due to compliance with local laws, including requirements to provide information to local authorities; fluctuations in currency exchange rates; political, social or economic instability; difficulties in managing global operations and legal compliance costs associated with multiple international locations; and exposure to local banking, currency control and other financial-related risks.

Our Subsidiaries operates in the USA and Canada and enter into contracts that are governed by laws of these jurisdictions. Such contracts are also subject to interpretation and adjudication, in case of any dispute, based on the governing law of these territories and in these foreign courts. Our clients and employees may also be located in these jurisdictions and we may therefore be required to comply with local laws, which we may not be historically familiar with. We are therefore subject to risks inherent in operating in countries we are not familiar with, such as exposure to foreign currencies and associated risks, including exchange rate volatility and translation risk arising from foreign currency transactions being translated into Indian rupees for the purposes of our consolidated financial statements. We will also be subject to laws of any other country in which we may operate in future, which may differ in various respects from similar Indian or US laws and may require us to expend additional resources and engage advisors in the relevant jurisdictions to ensure compliance with applicable laws and the regulatory regime at all times. We may not be familiar with the tax regime in the relevant countries, and may not be able to procure expert advice in a timely manner, or at all. We may be exposed to the risk of penalties for non-compliance with legal requirements in our day to day operations. While we have not faced any such instances in the six months period ended September 30, 2025 and the last three Fiscals, we cannot assure you that we will be able to adequately address risks arising from operations in USA and Canada. Non-compliance with laws in these jurisdictions may lead to negative publicity, potential action against us, and adversely affect our revenue, results of operations and cash flows.

Further, several of our agreements with clients are governed by laws other than Indian law. We cannot assure you that in the event of a dispute under such agreements, we will be able to successfully defend our position, and any adverse decision may adversely impact our financial position, results of operations and cash flows. If we are unable to manage our global operations successfully, our financial results could be adversely affected, which may impact profit margins or make it increasingly difficult for us to conduct business in foreign markets.

We intend to continue to expand our offerings, as well as our client base, within existing regions where we operate and to various other jurisdictions. We may have limited or no experience in marketing, developing and deploying our offerings in such jurisdictions, and may require considerable management attention and resources for managing our growing business across markets. Further, any restriction on repatriation of money to India from countries where we have operations, may result in overexposure on the cash being accumulated for our overseas operations, which may have an adverse impact on our cash flows, results of operations and profitability.

18. If we are not successful in executing our strategy to increase our sales to larger clients, our results of operations may suffer

An important part of our growth strategy is to increase sales of our solutions to large enterprises. Sales to large enterprises involve risks that may not be present (or that are present to a lesser extent) with sales to small-to-mid-sized entities. These risks include: increased leverage held by large clients in negotiating contractual arrangements with us; changes in key decision makers within these organizations that may negatively impact our ability to negotiate in the future; client IT departments may perceive that our services pose a threat to their internal control and advocate for legacy or internally developed solutions over our services; resources may be spent on a potential client that ultimately elects not to engage our services; more stringent requirements in our service contracts, including stricter service response times, and increased penalties for any failure to meet service requirements; increased competition from larger competitors, such as large software and service companies that traditionally target large enterprises and government entities and that may already have purchase commitments from those clients; and less predictability in completing some of our sales than we do with smaller clients.

Large enterprises often undertake a significant evaluation process that results in a lengthy sales cycle, requiring approvals of multiple management personnel and more technical personnel than would be typical of a smaller organization. Large enterprises typically (i) have longer implementation cycles, (ii) require greater scalability and a broader range of services, (iii) demand that vendors take on a larger share of risks, (iv) sometimes require acceptance provisions that can lead to a delay in revenue recognition, (v) typically have more complex IT and data environments, and (vi) expect greater payment flexibility from vendors. All these factors can add further risk to business conducted with these clients. If sales expected from a large client for a particular quarter are not realized in that quarter or at all, our business, financial condition, results of operations, and growth prospects could be materially and adversely affected.

19. We have applied for registration of certain trademarks which are pending with the authority. Any inability to protect our intellectual property or any claims that we infringe on the intellectual property rights of others could have a material adverse effect on us. Further any misuse of trademarks under trademark licenses agreement entered into by us with third parties may result in loss of business revenue. Any deterioration in the reputation and market perception of our brands, or if our sales and marketing efforts are ineffective, it could adversely affect our sales, profitability and the implementation of our growth strategy.

As on date, we have made applications for registration of eight trademarks with the Trade Marks Registry which are pending. For details, refer *"Our Business – Intellectual Property Rights"* on page 262.

Our success is heavily reliant on our ability to develop and use our tools, code, methodologies, and services without violating the intellectual property rights of third parties, including patents, copyrights, trade secrets, and trademarks. There is a risk that we could face litigation due to claims of intellectual property infringement or violations. We often provide indemnities to customers who purchase our services and solutions, protecting them against potential intellectual property infringement claims. exposes us to the risk of indemnification liabilities, which could lead to prolonged and expensive litigation on behalf of our customers, regardless of the validity of such claims. These claims frequently fall outside the scope of liability limits or exclusions for indirect, consequential, or punitive damages. We have not received any indemnification claims from our customers in the six months period ended September 30, 2025 and the last three Fiscals, however if we receive such claims and if they are successful, we may be required to pay damages for our customers, redesign or discontinue offering the infringing services or solutions, or secure licenses for the disputed intellectual property. While no such events have adversely affected our business or financial results in the past, we cannot guarantee that they will not occur in the future, potentially affecting our operations.

Additionally, current or former employees may contest our exclusive rights to the solutions they developed during their tenure with us. We cannot assure that we will always successfully defend against such claims or demands for additional compensation for works created during their employment. Although we have not encountered such situations in the past three fiscal years that adversely impacted our business, we cannot rule out their possibility in the future.

Furthermore, our master service agreements generally assign intellectual property arising from the services we provide to the customer, making us liable if any employee or contractor infringes upon the customer's intellectual property rights.

Our Company entered into certain trademark license agreements that allow third parties to use our trademarks. In return, these licensees are required to outsource all related business activities to us. For details see, "*History and Certain Corporate Matters – Other Material Agreements*" on page 271. We have not experienced any misuse of our trademarks or any use beyond the agreed purpose of outsourcing business to our Company. However, if a licensee uses our trademark to secure business opportunities but fails to outsource the related activities to our Company, it would constitute a breach of the agreement. In such cases, we reserve the right to terminate the license agreement however such breach could lead to loss of anticipated revenue, as the business generated under our brand does not benefit our operations.

We are also exposed to risks related to recent and future acquisitions, as well as the hiring of new employees, who might inadvertently or deliberately misuse intellectual property from their previous employers. Intellectual property disputes are costly and time-consuming, often diverting management's attention away from core business activities. Whether we prevail in such litigation or not, these claims could harm our reputation and negatively affect our business, financial condition, cash flows, and overall results of operations.

Further, our brands may not be registered as trademarks in all the jurisdictions where we provide our services. In addition to the above, we may not be able to protect our intellectual property rights, including our trademarks after receipt of approval from the Trademark Registry in India or trademark authorities internationally, against third-party infringement and unauthorised use of our intellectual property, including by our competitors. Despite our efforts to protect our proprietary rights, unauthorized parties may copy aspects of our proprietary products, technology, systems and processes and use information that we consider proprietary. Further, unauthorized parties may also attempt, or successfully endeavour, to obtain our intellectual property, confidential information, and trade secrets through various methods, including through cybersecurity attacks, and legal or other methods of protecting this data may be inadequate.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty as to whether we are infringing on any existing third-party intellectual property rights, which may require us to alter our technologies, obtain licenses or cease some of our operations. We may also be susceptible to claims from third parties asserting infringement and other related claims. If such claims are raised, those claims could: (a) adversely affect our relationships with current or future customers: (b) result in costly litigation; (c) cause supplier delays or stoppages; (d) divert management's attention and resources; (e) subject us to significant liabilities; (f) require us to enter into potentially expensive royalty or licensing agreements and (g) require us to cease certain activities. In the case of an infringement claim made by a third party, we may be required to defend such claims at our own cost and liability and may need to indemnify and hold harmless our customers. In addition, we may decide to settle a claim or action against us, which settlement could be costly. We may also be liable for any past infringement that we are not aware of. Any of the foregoing could adversely affect our business, results of operations, cash flows and financial condition.

20. All of our offices, including our Registered Office are located on leased premises. If these leases are terminated or not renewed on terms acceptable to us, it could have a material adverse effect on our business, financial condition and results of operations.

Presently, all our operational offices including our Registered Office, are currently held on a lease basis. For further information, see "*Our Business –Properties*" on page 260. We typically enter into term lease agreements with an option to renew such term. We may not be able to renew or extend these agreements at commercially acceptable terms, or at all.

Further, we may be required to re-negotiate rent or other terms and conditions of such agreements during their currency. We may also be required to vacate the premises at short notice period prescribed in the lease agreements, and we may not be able to obtain alternate location, in a short span of time. In addition, lease agreements are required to be duly registered and adequately stamped under Indian law and if one of our lease agreements is not duly registered and adequately stamped, we may face challenges in enforcing them and they may be inadmissible as evidence in a court in India subject to penalties along with the requisite stamp duty prescribed under applicable Indian law being paid. We may also face similar issues with jurisdictions we operate in outside of India. Furthermore, the deeds for our existing and future leased properties may not be adequately stamped or such stamp duty may not be accepted as evidence in a court of law, and we may be required to pay penalties for inadequate stamp duty. Occurrence of any of the above events may have a material adverse effect on our business, results of operations and financial condition. Further, any adverse impact on the ownership rights of our landlords may impede our effective future operations.

21. Our international sales and operations subject us to many uncertainties and we are exposed to foreign currency exchange rate fluctuations. We have partially hedged or in some cases not hedged our foreign currency exposure, which may cause a negative impact to our business and financial conditions in case of fluctuations of foreign currency.

We transact business in various currencies other than the Indian rupee and have significant customers abroad, which subject us to currency exchange risks. Our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and foreign currencies, especially the USD, may have an adverse impact on our results of operations, cash flows and financial condition.

Our revenues, expenses, and finance costs are affected by currency exchange rates, especially between the Indian Rupee and the US Dollar, since we have operations in the United States as well. These exchange rates have fluctuated in the past and may continue to do so, impacting our financial results. For instance, when the Rupee strengthens, our foreign earnings convert to fewer Rupees, reducing revenue. On the other hand, a weaker Rupee may not always lead to noticeable gains due to other business factors. Such currency movements can also affect the amount of capital returned to foreign investors.

As we provide IT services to certain customers outside India, we are subject to numerous, and sometimes conflicting, legal rules on matters as diverse as tariffs, taxation, sanctions, government affairs, internal and disclosure control obligations, data privacy and labour relations, particularly in India where we operate. For more information in relation laws applicable our Company in India, see "*Key Regulations and Policies*" on page 265. Violations of laws or regulations in the conduct of our business could result in fines, criminal sanctions against us or our officers, prohibitions on doing business, damage to our reputation and other unintended consequences such as liability for monetary damages, fines and/or criminal prosecution, unfavourable publicity, restrictions on our ability to process information and allegations by our customers that we have not performed our contractual obligations. Due to the varying degrees of development of the

legal systems of the countries in which we operate, local laws might be insufficient to protect our rights. Our failure to comply with applicable legal and regulatory requirements could adversely affect our business, cash flows, financial condition and results of operations.
Further, our arrangements with our clients do not include exchange rate fluctuation provisions. This limits our ability to revise prices or pass on the impact of currency fluctuations to clients. Even in cases where price changes are allowed, they usually apply only going forward and may not fully offset the impact of exchange rate changes. As a result, currency fluctuations could negatively affect our financial condition and have a material adverse impact on our results of operations.

***22.* Our inability to modify our pricing models to retain existing clients and attract prospective clients may have an adverse impact on our business, financial condition and results of operations.**

We expect that we may change our pricing model from time to time, including as a result of competition, global economic conditions, general reductions in our clients' spending levels, pricing studies, or changes in how our offerings are broadly consumed. Similarly, as we introduce new services, or further customize existing services, we may have difficulty determining the appropriate price structure for our offerings. In addition, as new and existing competitors introduce new services that compete with ours, or revise their pricing structures, we may be unable to attract new clients at the same price or based on the same pricing model as we have used historically. Moreover, as we continue to target selling our services to larger organizations, these larger organizations may demand substantial price concessions. If we are unable to modify or develop pricing models and strategies that are attractive to existing and prospective clients, while enabling us to significantly grow our sales and revenue relative to our associated costs and expenses in a reasonable period of time, our business, financial condition, and results of operations may be adversely impacted.

23. We have in past entered into related party transactions and we may continue to do so in the future.

Since the inception of our Company, we have entered into related party transactions with our Promoter, individuals and entities forming a part of our promoter group, Subsidiaries, Directors and KMP. All these transactions entered into between the Company with the Promoters, individuals, and entities forming part of our promoter group during the six months period ended September 30, 2025, Fiscal 2025, 2024 and Fiscal 2023 have been conducted in compliance with all applicable laws. For further details, please refer to the section titled "*Summary of the Offer Document – Summary of Related Party Transactions*" on page 21 and "*Restated Financial Information- Note 25 - Related Party Transaction* on page 333.

A summary of related party transactions entered into by our Company with related parties and as disclosed in the Restated Financial Statements for the period/ Fiscals indicated, is set forth below:

While we believe that all our related party transactions have been conducted on an arm's length basis, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future. The related party transactions entered by the Company are in compliance with the applicable provisions of Companies Act, 2013.

24. There are outstanding litigation proceedings against our Company. Any adverse outcome in such proceedings may have an adverse impact on our reputation, business, financial condition, results of operations and cash flows.

Certain legal proceedings involving our Company, Promoters, and some of our Directors are pending at different levels of adjudication before various courts, tribunals and authorities. In the event of adverse rulings in these proceedings or consequent levy of penalties, we may need to make payments or make provisions for future payments, and which may increase expenses and current or contingent liabilities.

Further, as on the date of this R Prospectus, we do not have any Group Companies.

Such proceedings could divert management time and attention and consume financial resources in their defence or prosecution. Should any new developments arise, such as any rulings against us by appellate courts or tribunals, we may be required to make payments to third parties or make provisions in our financial statements that could increase expenses and current liabilities. Further, an adverse outcome in any of these proceedings may affect our reputation, standing and future business, and could have an adverse effect on our business, prospects, financial condition and results of operations. We cannot assure you that any of these proceedings will be decided in favour of our Company or our Directors or our Promoters, or that no further liability will arise out of these proceedings. We may also be subject to inspections, investigations and fines in the future, which may affect our business and operations.

25. In the event we are found to be non-compliant with any applicable regulations in relation to the regulatory filings or corporate actions, we may be subject to regulatory actions or penalties for any such possible non-compliance and our business, financial condition and reputation may be adversely affected

Although, our Company endeavours to comply with all compliance/ reporting requirements, there may have been certain instances of delays/non-discourses/erroneous disclosures and non-filings of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 1956 and Companies Act, 2013 with RoC. For instance, there was a delay in holding the AGM of the Company for the financial year ended March 31, 2022 by sixty days. Our Company filed an application for compounding of offence under section 441 of the Companies Act, 2013. An order of has been passed by the Regional Director, Ministry of Corporate Affairs levying a penalty of ₹200,000 on our Company and officers in default which has been paid. Subsequent to which we received an order dated August 5, 2025, disposing the compounding application. Further there has been a delay of 120 days in filing of Form FCGPR for the allotment amount received from Abundantia Capital VCC - Abundantia Capital III pursuant to conversion of Compulsorily Convertible Preference Shares into Equity Shares. Such delay in filing of form FCGPR resulted in contravention of FEMA Regulations. We paid a late submission fee of ₹10,000 for the same.

Additionally, there have been certain delay in filings with respect to certain secretarial form filings for which additional fee payments were done and the forms were filed. No action or show cause notice has been received from RoC for such delayed filings.

Going forward, we shall endeavor to file the requisite statutory forms within the prescribed timelines, however we cannot provide assurance that there will be no delays in the filing of statutory forms in the future. While no penalties have been imposed on us by the regulatory authority to date, there is no assurance that penalties or fines will not be levied in the future. Further we cannot assure you that we will not be subject to any legal proceedings or regulatory actions, including monetary penalties by statutory authorities on account of any inadvertent discrepancies in our secretarial filings and/or corporate records in the future, which may adversely affect our business, financial condition and reputation, divert management attention, and result in a material adverse effect on our business prospects.

26. We are required to comply with certain restrictive covenants under our financing agreements. Any non-compliance may lead to, amongst others, accelerated repayment schedule and suspension of further drawdowns, which may adversely affect our business, results of operations, financial condition and cash flows.

The table below sets forth certain information on our total borrowings, debt to equity ratio and finance cost as at the dates indicated:

Particulars	Six months period ended September 30, 2025 (Consolidated)	Fiscal 2025 (Consolidated)	Fiscal 2024 (Consolidated)	Fiscal 2023 (Standalone)
Total borrowings[(1)] *(₹ in million)*	391.71	321.58	288.32	255.01
Debt to equity ratio[(2)]	0.68	0.75	2.55	6.49
Finance costs *(₹ in million)*	30.93	45.54	35.11	43.46

(1) *Total borrowing is calculated as the sum of current and non-current borrowings.*

(2) *Debt-Equity Ratio is calculated as Total Debt divided by total equity. Total Debt is calculated as the sum of (i) non-current borrowings and (ii) current borrowings (including the current maturities* of non-current borrowings).

Some of the financing arrangements entered into by us include conditions that require our Company to obtain respective lenders' consent prior to carrying out certain activities and entering into certain transactions. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of the corporate actions that require prior consents or intimations to be made to certain lenders include, amongst others, (a) change in equity, management and operating structure of the Company or effect any material changes in its shareholding; (b) amendments to memorandum and/or articles of association of our Company, (c)

change in ownership or control or management of the Company, (d) merger or amalgamation or buy-back; (e) change in the general nature of business of the Company or to undertake any expansion or invest in any other entity; (f) to make corporate investments or investment by way of share capital or debentures or advance funds or monies to or place deposits with, any other company, body, person or concern and (g) declare dividends. While we have received all relevant consents required for the purposes of this Offer and have complied with these covenants, a failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time.

A failure to observe the covenants under our financing arrangements or to obtain necessary consents/ waivers may lead to acceleration of amounts due under such facilities and triggering of cross default provisions. If the obligations under any of our financing documents are accelerated, we may have to dedicate a portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. In addition, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing.

27. Our insurance coverage may be inadequate, which could have an adverse effect on our financial condition, cash flows and results of operations.

Our operations are subject to risks inherent to our operations including interruptions in the supply of power, internet and telecommunication risk, employee fraud and infrastructure failures, risk of equipment failure, work accidents, fire, earthquake, flood, acts of terrorism and other force majeure events.

The table below sets forth particulars of our insurance coverage as at the period/ Fiscals indicated:

Particulars	Six months period ended September 30, 2025 (Consolidated)	Fiscal 2025 (Consolidated)	Fiscal 2024 (Consolidated)	Fiscal 2023 (Standalone)
Net value of insurable assets *(₹ in million)*	13.91	6.96	3.54	3.07
Insurance coverage	67.39	8.20	-	-
Insurance coverage as percentage of net value of insurable asset (%)	484.47%	117.82%	-	-

Note: Insurable assets are all assets including laptops and desktops.

We maintain a variety of insurance policies to cover our assets against external risks, given the nature of our business including, errors and omissions insurance coverage and commercial general liability insurance coverage, and for the benefit of our employees, employee health insurance and such other insurance policies as required by applicable law and which are subject to certain exclusions and limits on coverage. For details related to insurance, kindly refer section titled "*Our Business- Insurance*" beginning on page 260.

However, we may not have sufficient insurance coverage to cover all possible economic losses. While we have not experienced substantial uninsured losses during the six months period ended September 30, 2025 and the past three Fiscals, in the event of a substantial uninsured future loss, our policies may not be sufficient to recover the full current market value or current replacement cost of our assets. The occurrence of an event for which we are not adequately or sufficiently insured, or changes in our insurance policies (including premium increases or the imposition of deductible or co-insurance requirements), could have an adverse effect on our business, reputation, results of operations, financial condition and cash flows. Further, we cannot assure you that renewal of our insurance policies in the normal course of our business will be granted in a timely manner, at an acceptable cost or at all.

28. There have been certain delays in payment of statutory dues in the past. Any delay in payment of statutory dues in the future may result in the imposition of penalties and in turn may have an adverse effect on our business, financial conditions, results of operations and cash flows.

We are largely dependent on our highly skilled and technically competent workforce for the timely completion of our projects. As of October 31, 2025, our Company along with our Subsidiaries had 294 employees and independent consultants in our Company to support the day-to-day business operations including HR functions, Fulfilment, Sales & Marketing, Projects Department, Administrative, Secretarial, Legal, Finance and Accounting functions in accordance with their respective designated duties. For details, see *"Our Business- Human Resource"* on page 252.

We are required to make certain payments to various statutory authorities from time to time, including but not limited to payments pertaining to employee provident fund, employee state insurance, income tax and GST. The table below sets

forth the details of the statutory dues paid by our Company in relation to our employees for the period and fiscal years indicated:

As on date of filing the RHP, there are no delayed statutory dues. We cannot assure you that we will be able to pay our statutory dues timely, or at all, in the future. Any failure or delay in payment of such statutory dues may expose us to statutory and regulatory action, as well as significant penalties, and may adversely impact our business, results of operations, cash flows and financial condition.

Further, there have been certain instances of inadvertent delays in payment of statutory dues during Fiscals 2025 by ZORTech Solutions Inc. (Canada). Such delays occurred in the ordinary course of making such payments, *inter alia* due to delay in completion of audit process, administrative and clerical issues and technical difficulties. The table below provides the delays in payment of statutory dues by our ZORTech Solutions Inc. (Canada) during the six months period ended September 30, 2025 and Fiscal 2025. MethodHub Consulting Inc. (USA) and Zortech Solutions Inc. (USA) have not defaulted in payment on statutory dues.

29. We rely on third-party data centers and cloud computing providers, and any interruption or delay in service from these facilities could impair the delivery of our products and adversely impact our business and results of operations.

We currently serve our clients from third-party data centers and cloud computing providers located around the world. Some of these facilities may be located in areas prone to natural disasters and may experience events such as earthquakes, floods, fires, severe weather events, power loss, computer or telecommunication failures, service outages or losses, and similar events. They may also be subject to break-ins, sabotage, intentional acts of vandalism and similar misconduct or cybersecurity issues, human error, terrorism, improper operation, unauthorized entry and data loss. In the event of significant physical damage to one of these data centers, it may take a significant period of time to achieve full resumption of our services, and our disaster recovery planning may not account for all eventualities. We may also incur significant costs for using alternative equipment or taking other actions in preparation for, or in reaction to, events that damage the data centers that we use. Although we carry business interruption insurance, it may not be sufficient to compensate us for the potentially significant losses, including the potential harm to the future growth of our business that may result from interruptions in our services or products.

As we grow and continue to add new third-party data centers and cloud computing providers and expand the capacity of our existing third-party data centers and cloud computing providers, we may move or transfer our data and our clients' data. Despite precautions taken during this process, any unsuccessful data transfers may impair the delivery of our products. Any damage to, or failure of, our systems, or those of our third-party data centers or cloud computing providers, could result in interruptions to our services or damage to, or loss or compromise of, our data and our clients' data. We have not faced any impairment of our or our clients' data or interruptions in the functioning of our offerings,

whether due to damage to, or failure of, third-party data centers and cloud computing providers or unsuccessful data transfers. However occurrence of such instance may reduce our revenue, result in significant fines, cause us to issue credits or pay penalties, subject us to claims for indemnification and other claims, litigation or disputes, result in regulatory investigations or other inquiries, cause our clients to terminate their subscriptions and adversely affect our reputation, renewal rates and our ability to attract new clients. Our business will also be harmed if our existing and potential clients believe our products are unreliable or not secure.

30. Jayakumar Ammasaikutty, one of our Promoters has misplaced his documentation relating to educational qualifications and as a result, we have not inserted details in relation to his academic qualifications which may not give accurate information about Promoter's education may raise concerns among investors regarding the completeness and accuracy of disclosures pertaining to our Promoters.

Jayakumar Ammasaikutty, one of our Promoters has stated that he has misplaced his educational records. As a result of which, we have not included specific details regarding his academic background in this Prospectus. While this does not impact his role or responsibilities within the Company, the absence of verifiable educational credentials may raise concerns among investors regarding the completeness and accuracy of disclosures pertaining to our Promoter.

This limitation may raise concerns regarding the completeness of our disclosures and the credibility of the Promoter's academic background. Although this does not impact the Promoter's role or responsibilities in the Company, and there are no regulatory disqualifications arising from this issue, investors should consider this as a potential risk when evaluating our Company, its management, and this Offer. We undertake to update this disclosure should the original certificate be recovered or if any further verification is obtained.

31. Our contingent liabilities could materially and adversely affect our business, results of operations, cash flows and financial condition.

Our Restated Financial Information disclosed the following contingent liabilities as at the dates indicated:

The summary of our contingent liabilities as per AS 29 for the six months period ended September 30, 2025, the Financial Years ended March 31, 2025 and March 31, 2024 on a consolidated basis and March 31, 2023 on a standalone basis as indicated in the Restated Financial Statements are as follows:

(₹ in million)

Particulars	For the six months period ended September 30, 2025 (Consolidated)	Financial Year ended March 31, 2025 (Consolidated)	Financial Year ended March 31, 2024 (Consolidated)	Financial Year ended March 31, 2023 (Standalone)
Contingent Liabilities				
Bill discounted and Purchased	250	198	131	-
Claims against the company not acknowledged as debt - GST/HST	25	28	25	-

Our Company enjoys bill-discounting facilities with its bankers. These bills are only specific to customers approved by the bank and the said customers enjoy a high credit standing and till date there is not a single instance of default. The loan agreements executed in favour of the banks cover the entire sanctioned working-capital facility, including the bills discounting sub-limit. Consequently, our Company may be required to meet obligations under these arrangements in case of default by the drawee i.e. the customer. The disclosure as a contingent liability is due to the facility being linked by the loan implying potential future obligations despite no immediate liability. These facilities are secured by a first charge on current assets. Our Company has enough cash flows to take care of any eventuality, should there be an instance of default.

For further details, refer "*Restated Financial Statements – Note 26- Contingent Liability & Commitments"* on page 333.

Most of the liabilities have been incurred in the normal course of business. If these contingent liabilities were to fully materialize or materialize at a level higher than we expect, it may materially and adversely impact our business, results of operations, cash flows and financial condition.

32. Our Subsidiaries are in businesses similar to ours which may result in potential conflict of interest with us.

The services offered by our Subsidiaries encompasses IT solutions, staffing services, software development and IT consulting services.

Name	Type	Description of Business
MethodHub Consulting Inc.,(USA)	Wholly-owned subsidiary	Engaged in the business of IT solutions, staffing services, software development and IT consulting.
ZORTech Solutions Inc. (Canada)	Step-down Subsidiary	Engaged in the business of information technology services and consulting
Zortech Solutions Inc. (USA)	Step-down Subsidiary	Engaged in the business of IT solutions, staffing services, software development and IT consulting services.

Although the customer and supplier profile for our Company and Subsidiaries differ slightly, our Subsidiaries are involved in a similar line of business as that of our Company, and accordingly, there are certain common pursuits among the Subsidiaries and our Company. For instance, the customer profile of our Company is largely restricted to other system integrators, master service providers (MSP), domestic contractors who work with end customers. For our Subsidiaries the customer profile will be end customers form all types of industries situated in the respective country where they operate from. Further, the supplier profile of our Company is restricted to sub-contractors and independent consultants in India. Whereas the supplier profile of our Subsidiaries is restricted to the country where were they operate from. Despite these differences, the overall nature of business remains aligned, which may lead to common business interests. Further, our Subsidiaries undertake or operate in line with the business as that of our Company and as a result there may be common pursuits with respect to business aspects. However, there is no conflict of interest among our Subsidiaries and our Company, as our Subsidiaries are controlled by us and are based out of India. While our Company will adopt necessary procedures and practices as permitted by law to address any conflict situation as and when they arise, we cannot assure you that these or other conflicts of interest will be resolved in an impartial manner. Further, we have not entered into any non-compete agreement with our Subsidiaries and there can be no assurance it will not compete with our existing business or that we will be able to suitably resolve any such conflict without an adverse effect on our business and financial performance.

33. Our customers may terminate contracts before completion, negotiate adverse terms of the contract or choose not to renew contracts, which could adversely affect our business, results of operations, cash flows and financial conditions.

The term of the agreements we enter into with our customers typically range from one to four years. The tables below set forth below summarises number of long standing customers with longstanding relationship for the respective period/ Fiscal years and our revenue from such customers:

Particulars	For the six months period ended September 30, 2025	As of / for the year ended March 31, 2025	As of / for the year ended March 31, 2024	As of / For the year ended March 31 2023
Number of long standing Customers	20	31	19	6
Revenue from long standing customers (₹ in million)	610.46	564.45	351.21	173.44
Trade receivables, as a Percentage of revenue from operations (%)	76.37%	41.86%	61.83%	48.87%

However, our engagements with our customers are typically for projects that are singular in nature. In addition, with respect to certain engagements, our customers can terminate our master services agreements and work orders with or without cause, and in most cases without any cancellation charge. While we have not experienced the cancellation of any agreements due to our failure to perform the obligations specified in the agreements, resulting in an adverse impact on our business or results of operations in the six months period ended September 30, 2025 and the last three Fiscals, we cannot assure you that such instances will not arise in the future. In addition, large and complex projects may involve multiple engagements or stages, and a customer may choose not to retain us for additional stages or may cancel or delay additional planned engagements. We may not be able to renew our contracts on favourable terms, or to replace any customer that elects to terminate or not renew its contract with us, which could adversely affect our revenue and thus our cash flows, financial condition and results of operations. Further, our failure to perform or observe any contractual obligations could result in cancellation or non-renewal of a contract, which could cause us to experience a higher than expected number of unassigned employees and an increase in our expenses as a percentage of revenues, until we are able to reduce or reallocate our headcount and may adversely affect our business, cash flows, results of operations and

financial condition. Further, some of our agreements with customers contain non-compete or exclusivity clauses. These clauses may restrict our ability to offer services to different customers in a specific industry or market, which adversely affect our business, cash flows, financial condition and results of operations.

34. Any variation in the utilization of the Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior Shareholders' approval.

Our proposed objects of the Offer are set forth under "*Objects of the Offer*" on page 119. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the Shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations

Further, our Promoters or controlling Shareholders would be required to provide an exit opportunity to the Shareholders who do not agree with our proposal to modify the objects of the Offer as prescribed in the SEBI ICDR Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition and may adversely affect our business and results of operations.

35. Our Promoters have provided personal guarantees for loans availed by our Company. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the invocation of all or any guarantees provided by our Promoter and Promoter Group.

Jayakumar Ammasaikutty, our Promoter and Ahobilam Nagasundaram, our Promoter, Executive Director & Chief Executive Officer have provided guarantees for the loans availed by our Company from various lenders. The details of the personal guarantees extended have been provided below:

(₹ in million)

Sr. No	Name of Lender	Name of Promoter/ Director	Nature of Facility	Amount of Guarantee (as per respective sanction letter)
1.	HDFC Bank Limited	Ahobilam Nagasundaram and Jayakumar Ammasaikutty	Credit Facility of Rs 35 Crore (Overdraft:12.25 Crore, TERM LOANS: 2.75 Crore and Invoicing discounting: 20 Crore)	350.00
2.	Axis Bank Limited	Ahobilam Nagasundaram	Sales invoice Discounting	50.00

For details, refer to the chapter titled "*Financial Indebtedness"* on page 379.

In case of a default under our loan agreements, any of the guarantees provided by our Promoters may be invoked, which could negatively impact the reputation of our Company. In addition, our Promoters may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company. We may also not be successful in procuring alternate guarantees satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

36. Failure to obtain or renew approvals, licenses, registrations and permits to operate our business in a timely manner, or at all, may adversely affect our business, financial condition, cash flows and results of operations.

We are required to obtain certain approvals, registrations, permissions and licenses from regulatory authorities, to carry out/ undertake our business. These approvals, licenses, registrations and permissions may be subject to numerous conditions. If we fail to obtain some or all of these approvals or licenses, or renewals thereof, in a timely manner or at all, or if we fail to comply with applicable conditions or it is claimed that we have breached any such conditions, our license or permission for carrying on a particular activity may be suspended or cancelled and we may not be able to carry on such activity, which could adversely affect our business, results of operations, cash flows and financial condition. For

further information on the nature of approvals and licenses required for our business, see "*Government and Other Statutory Approvals*" on page 388. In addition, we have, and may need to in the future, apply for certain additional approvals, including the renewal of approvals, which may expire from time to time.

There is no assurance that such approvals and licenses will be granted or renewed in a timely manner or at all by the relevant governmental or regulatory authorities. Failure to obtain or renew such approvals and licenses in a timely manner would make our operations non-compliant with applicable laws and may result in imposition of penalties by relevant authorities, and may also prevent us from carrying out our business. Our licenses and approvals are subject to various conditions, including periodic renewal and maintenance standards. Any actual or alleged failure on our part to comply with the terms and conditions of such regulatory licenses and registrations could expose us to legal action, compliance costs or liabilities, or could affect our ability to continue to operate at the locations or in the manner in which we have been operating thus far.

37. We are required to maintain certain approvals or licenses required in the ordinary course of business and the failure to obtain them in a timely manner or at all may adversely affect our operations

We require certain approvals, licenses, registrations and permissions for operating our business. Further, the approvals that we obtain may stipulate certain conditions requiring our compliance for which we may be required to make compliance-related expenditure. Failure to obtain, maintain or renew any approvals or licences, in a timely manner or at all, may result in a levy of penalties or other regulatory action against us, in accordance with applicable laws, which may have an adverse effect on our business. Certain of these permits and approvals are valid for a certain period and are required to be renewed at regular intervals in accordance with the timelines prescribed under the relevant statutes. We need to apply for certain such approvals, including the renewal of approvals that expire from time to time, in the ordinary course of our business.

As at the date of this RHP, our Company has obtained all material approvals required for its business and operations. For details of such licenses, registrations and approvals for our Company and our Material Subsidiary, see "*Government and Other Statutory Approvals*" on page 388.

If we fail to comply with the terms and conditions of our approvals, we may incur increased costs, be subject to penalties or have our approvals and permits revoked. Any such revocation of our approvals or permits or failure to continue to obtain or renew the approvals and permits required for our operations, could result in a disruption in our operations, and our business prospects, financial condition, results of operations and cash flows may be adversely affected.

38. Failure to comply with laws and regulations applicable to our business could subject us to fines and penalties and could also cause us to lose customers or otherwise harm our business.

We are subject to evolving and complex laws on data privacy, internet use for commerce, and data sovereignty. These regulations are extensive and often inconsistent, creating uncertainty in compliance. In India, these laws include the Information Technology Act, 2000 and rules thereunder and the Digital Personal Data Protection Act, 2023 ("DPDP Act"), which provides for personal data protection and privacy of individuals, regulates cross border data transfer, and provides several exemptions for personal data processing by the Government. The DPDP Act provides for and imposes restrictions and obligations on data fiduciaries resulting from dealing with personal data and further, provides for levy of penalties for breach of obligations prescribed under the DPDP Act. The Ministry of Electronics and Information Technology, Government of India has introduced a Draft Digital Personal Data Protection Rules, 2025 ("DPDP Rules"), which are yet to come into force, which provide detailed guidelines for data fiduciaries, consent managers, and the Data Protection Board to ensure compliance with the DPDP Act. For further details, "*Key Regulations and Policies*" on page 265.

These laws and regulations in India and other countries where we have customers impose added costs on our business. Changes in laws or regulations relating to privacy, data protection, and information security, could require us to modify our existing systems or invest in new technologies to ensure compliance with such applicable laws, which may require us to incur additional expenses. The implementation of such laws can increase our data security and compliance related costs thereby adversely affecting our business, financial condition, results of operations and cash flows.

Additionally, our business is also subject to various central, state, local and foreign laws, including employment and labour laws, workplace safety, environmental laws, consumer protection laws, anti-bribery laws, import and export controls, anti-corruption and anti-bribery laws, and tax laws and regulations. For details of certain sector specific laws and regulations in India that are applicable to us, see "*Key Regulations and Policies*" on page 265.

While we ensure compliance with applicable laws and regulations relating to our business, we cannot assure you that the Government or the regulatory authorities will not take different interpretations regarding applicability of, or compliance with, the laws and regulatory framework governing our business. Unfavourable changes in the applicability, implementation, or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. Moreover, there is no assurance that the Government or regulatory authorities will not take a different interpretation regarding any of our current business activities being restricted or prohibited under applicable laws or the terms of the regulatory registrations and approvals obtained by us.

Our attempts to comply with applicable legal requirements may not be successful, and may also lead to increased costs for compliance, which may materially and adversely affect our business, financial condition, cash flows, results of operations and prospects. For instance, we have delayed in the payment of statutory dues, including tax deducted as source. See *"Risk Factors - There have been certain delays in payment of statutory dues in the past. Any delay in payment of statutory dues in the future may result in the imposition of penalties and in turn may have an adverse effect on our business, financial conditions, results of operations and cash flows"* on page 55.

Changes in laws or regulations could require us to adjust our business practices, which may negatively impact our operations, financial health, and future prospects. Non-compliance could lead to investigations, penalties, contract terminations, and other serious consequences that could materially affect our business.

39. In addition to the existing indebtedness of our Company, we may incur further indebtedness during the course of business.

As on October 31, 2025, the outstanding borrowings of our Company and Subsidiaries on a consolidated basis aggregated to ₹ 391.71 million. In addition to the indebtedness for the existing operations, our Company may incur further indebtedness during the course of the business. We cannot assure you that our Company will be able to obtain further loans at favourable terms. Increased borrowings, if any, may adversely affect our debt-equity ratio and our ability to borrow at competitive rates. In addition, we cannot assure you that the budgeting of our working capital requirements for a particular year will be accurate. There may be situations where we may under-budget our working capital requirements, which may lead to delays in arranging additional working capital requirements, loss of reputation, levy of liquidated damages and can cause an adverse effect on our cash flows.

We have not defaulted on any of our loans. However, any failure to service the indebtedness of our Company or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company, could trigger cross default provisions, penalties, acceleration of repayment of amounts due under such facilities which may cause an adverse effect on our business, financial condition and results of operations. For details of our indebtedness, please refer to the section titled "*Financial Indebtedness*" on page 379.

40. A portion of the Net Proceeds of the Offer is proposed to be utilized towards funding unidentified inorganic acquisitions. However, as on the date of this Prospectus, we have partially identified certain potential acquisition targets. However, these targets are still under evaluation, and therefore, there is uncertainty regarding the timing, nature, and commercial viability of such acquisitions.

Our Company has identified a few targets in North America for which it has issued mutually executed letter of intent ("LOI") for two of them. These two and the other targets are in various stages of review / due diligence.

The details of such targets identified by our Company are as under:

Target Company	Services/Industry served
Target 1	IT Consulting/ Transportation and logistics
Target 2	Managed services / United States Federal / State transport department
Target 3	IT Consulting in Oracle ERP / CRM
Target 4	Business & IT Consulting, project management solutions

Until such time as the acquisition targets are identified and definitive agreements are executed, we intend to deploy the unutilized Net Proceeds in accordance with the interim use of funds as disclosed in the section titled "*Objects of the Offer*" on page 119.

There can be no assurance that we will be able to identify suitable acquisition opportunities or consummate such

transactions within the anticipated timelines. Any delay or inability to deploy the Net Proceeds as intended may adversely affect our growth strategy and financial performance.

41. Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and we are required to obtain consents from certain of our lenders prior to the declaration of dividend as per the terms of the agreements executed with them. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past and there can be no assurance that our Company will declare dividends in the future. For further details, please refer to "*Dividend Policy*" on page 308.

42. Our Promoters have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.

Upon completion of the Offer, our Promoters will own 26.45% of the Post-Offer Equity Share capital of the Company. As a result, the Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval, including the election of directors and approval of significant corporate transactions. The Promoters will also have an effective veto power with respect to any shareholder action or approval requiring a majority vote. Such concentration of ownership may also have the effect of delaying, preventing or deterring a change in control. For further details of Promoter' shareholding, please refer section titled "*Capital Structure*" page 93.

Further, sale of a large number of the Equity Shares by the Promoters could adversely affect the market price of the Equity Shares. Similarly, the perception that any such primary or secondary sale may occur, could adversely affect the market price of the Equity Shares. No assurance may be given that the Promoters will not dispose of, pledge or encumber their Equity Shares in the future.

43. The information in the "Industry" section is derived from publicly available sources. There can be no assurance that such third-party statistical, financial and other industry information is complete or accurate and neither has our company independently verified the same. Prospective investors are advised not to place undue reliance on such information as included in this Prospectus, when making their investment decisions.

This Prospectus includes information derived from third party industry sources and from publicly available information as well as industry publications and sources. We have taken extracts from the report titled 'Mordor Intelligence Report-Market Assessment of Indian IT Services and BPM Exports to North America' issued by Mordor Intelligence, 'Strategic Review 2025' issued by Nasscom, 'IBEF- IT & BPM Industry Report' issued by IBEF, respectively, and have taken their consent for inclusion of data from their reports , respectively, and have taken their consent for inclusion of data from their reports. We cannot guarantee the accuracy, adequacy or completeness of any such information in the RHP and the in section titled "*Industry Overview*" on page 151. Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources believed to be reliable but their accuracy and completeness are not guaranteed and their reliability cannot be assured and also contains certain industry and market data based on certain assumptions. Further, the reports use certain methodologies for market sizing and forecasting. There are no standard data gathering methodologies in the markets in which we operate, and methodologies and assumptions vary widely among different industry sources. Such assumptions may change based on various factors. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Industry sources do not guarantee the accuracy, adequacy or completeness of the data.

We cannot assure you that such assumptions are correct or will not change and, accordingly, our position in the market may differ from that presented in this RHP. Further, industry data or sources are not recommendations to invest in our Company. Prospective investors are advised not to place undue reliance on such information or extracts thereof as included in this Prospectus, when making their investment decisions. See chapters titled "*Certain Conventions, Presentation of Financial, Industry and Market Data and Currency Of Presentation*" and "*Industry Overview*" on pages 27 and 151, respectively.

44. Significant differences exist between Ind AS and other accounting principles, such as Indian GAAP, IFRS and U.S. GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our Restated Financial Statements of assets and liabilities, restated financial statements of profit and loss and cash flows for the six months period ended September 30, 2025, Fiscals 2025, 2024 and 2023 have been prepared in accordance with the Indian GAAP. We have not attempted to quantify the impact of Ind AS, US GAAP, IFRS or any other system of accounting principles on the financial data included in this Prospectus, nor do we provide conciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Financial Statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

45. Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.

We intend to utilize the Net Proceeds of the Offer as set forth in "*Objects of the Offer-Requirement of Funds and Utilization of Net Proceeds"* beginning on page 120. The funding requirements mentioned as a part of the objects of the Offer are based on internal management estimates and have not been appraised by any bank or financial institution. This is based on current conditions and is subject to change in light of changes in external circumstances, costs, business initiatives, other financial conditions or business strategies. However, the deployment of Net Proceeds will be monitored by a monitoring agency appointed pursuant to the SEBI ICDR Regulations. We intend to deploy the Net Proceeds in FY 2026 and 2027, but may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, such as interest rate fluctuations. Accordingly, prospective investors in the Offer will need to rely upon our management's judgment with respect to the use of proceeds. If we are unable to deploy the Net Proceeds in a timely or an efficient manner, it may affect our business and results of operations.

Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. Accordingly, use of the Net Proceeds for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

46. Our business depends on a strong brand and corporate reputation and if we are not able to maintain and enhance our brand, our ability to grow our business and our results of operations and financial condition may be adversely affected.

Since many of our specific client engagements involve highly tailored solutions, our corporate reputation is a significant factor in our clients' and prospective clients' determination of whether to continue engaging us or hire us for prospective services. We believe that our brand name, "Methodhub" and reputation are important corporate assets that help distinguish our services from those of our competitors and also contribute to our efforts to recruit and retain talented professionals. However, our corporate reputation is susceptible to damage by various factors such as actions or statements made by current or former employees or clients, competitors, vendors and adversaries in legal proceedings, as well as members of the investment community and the media. There is a risk that negative information about our Company, even if based on false rumours or misunderstandings, could adversely affect our business. Any negative news affecting us might also affect our reputation and brand value. In particular, damage to our reputation could be difficult and time-consuming to repair, especially due to the competitiveness in our industry, which could make potential or existing clients reluctant to select us for new engagements, resulting in a loss of business, and could adversely affect our employee recruitment and retention efforts. Damage to our reputation could also reduce the value and effectiveness of our brand name, could reduce investor confidence in us, affect the price of our Equity Shares and adversely affect our ability to grow our business and our results of operations and financial condition.

47. Employee fraud or misconduct could harm us by impairing our ability to attract and retain customers and subject us to significant legal liability and reputational harm.

Our business is exposed to the risk of employee misappropriation, fraud or misconduct. Our employees could make improper use or disclose confidential information, which could result in regulatory sanctions and serious reputational or financial harm. Further, our Company operates in an environment where risks relating to information security, compliance, and service quality are inherent to recruitment and technology delivery services. To address these risks, we have adopted a structured framework aligned with globally recognized standards, including ISO 27001 (information security management), ISO 9001 (quality management), and SOC 2 Type 2 (service organization controls). These certifications reinforce our commitment to safeguarding client data, ensuring operational resilience, and maintaining defined quality benchmarks.

We conduct half-yearly internal audits across business functions, with non-conformities identified, corrective action plans

implemented, and progress tracked through periodic reviews. Our processes are further validated by independent Certified Public Accountant (CPA) firms and globally recognized standards organizations, providing external assurance on the robustness of our internal controls.

While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures, we may be unable to adequately prevent or deter such activities in all cases. While we have not been able to identify such issues in the past, there could be instances of fraud and misconduct by our employees, which may go unnoticed for certain periods of time before corrective action is taken.

In addition, we may be subject to regulatory or other proceedings, penalties or other actions in connection with any, fraud or misappropriation by our employees, which could adversely affect our goodwill, business prospects and future financial performance. We may also be required to make good any monetary loss to the affected party. Even when we identify instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, we cannot assure you that we will recover any amounts lost through such fraud or other misconduct.

48. We may not be able to successfully manage the growth of our business if we are unable to maintain adequate internal systems, processes and controls.

We have experienced considerable growth since we commenced business in 2016, and we have expanded our operations and product portfolio. We cannot assure you that our growth strategies will continue to be successful or that we will be able to continue to expand further, or at the same rate.

Our inability to execute our growth strategies in a timely manner or within budget estimates or our inability to meet the expectations of our customers and other stakeholders, could have an adverse effect on our business, results of operations and financial condition. Our future prospects will depend on our ability to grow our business and operations. Further, in order to manage our growth effectively, we must implement, upgrade and improve our operational systems, procedures and internal controls on a timely basis. While there have been no such instances in the past, however, if we fail to implement these systems, procedures and controls on a timely basis, or if there are weaknesses in our internal controls that would result in inconsistent internal standard operating procedures, we may not be able to meet our customers' needs, hire and retain new employees or operate our business effectively. Failure to manage growth effectively could adversely affect our business and results of operations.

49. The Equity Shares have never been publicly traded and the Offer may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Offer Price.

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Indian Stock Exchange may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, there will be liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Offer.

The market price of the Equity Shares after the Offer can be volatile as a result of several factors beyond our Company's control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian and global key lithium battery industry, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalisation and deregulation policies, and significant developments in India's fiscal regulations. In addition, the Stock Exchange may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance may also affect the price of the Equity Shares. In particular, the stock market as a whole in the past has experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies' operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

50. Any further issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding.

Our Company may be required to finance our growth through future equity offerings. Any future equity issuances by our Company, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares

including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of the Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of the Equity Shares. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that the Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

51. An Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.

Subject to requisite approvals, the Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in this Offer and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately two Working Days from the Bid Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods. For further details, see "*Offer Procedure*" on page 424.

52. There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.

Following the listing of Equity Shares through the Offer, the Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by the Stock Exchange, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian Stock Exchange. The percentage limit on the Equity Shares' circuit breaker will be set by the Stock Exchange based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchange is not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the trading price of the Equity Shares beyond the circuit breaker limit set by the Stock Exchange. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

53. The determination of the Price Band and Issue Price is based on various factors and assumptions and the Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.

There has been no public market for the Equity Shares prior to the Offer, so the determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLM. Furthermore, the Offer Price of the Equity Shares will be determined by our Company in consultation with the BRLM through the Book Building Process. These will be based on numerous factors, including factors as described under "*Basis for the Offer Price*" on page 141 and may not be indicative of the market price for the Equity Shares after the Offer. For further details, see "*Other Regulatory and Statutory Disclosures – Track record of past issues handled by the BRLM*" on page 401. The factors that could affect the market price of the Equity Shares include, among others, broad market trends, our financial performance and results post-listing, and other factors beyond our Company's control. Our Company cannot assure you that an active market will develop, or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

54. There is no guarantee that the Equity Shares will be listed on the BSE SME in a timely manner or at all.

There is no guarantee that the Equity Shares will be listed on the BSE SME in a timely manner or at all. In accordance with Indian law, permission for listing and trading of the Equity Shares will not be granted until certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Offer. In accordance with current regulations and circulars issued by SEBI, the Equity Shares are required to be listed on the BSE SME within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in the Equity Shares will commence in a timely manner or at all. Any failure or delay in

obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares. Further, there can be no assurance that the Equity Shares once listed will continue to remain listed on the Stock Exchange. Indian laws permit a company to delist its equity shares on compliance with prescribed procedures including the requirement to obtain the approval of its shareholders. Further, certain instances of non-compliance with applicable laws can result in the delisting of the Equity Shares. We cannot assure you, therefore, that the Equity Shares, once listed, will continue to remain listed.

55. Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction that you are in, does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in our Company may be reduced.

56. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the regulations under the SEBI Act, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Investors can revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While our Company is required to complete Allotment pursuant to the Offer within 3 Working Days from the Bid/ Offer Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

57. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted.

58. Investors may not be able to enforce a judgment of a foreign court against us.

Our Company is a company incorporated under the laws of India and majority of the assets of our Company and such persons are located in India. As a result, it may not be possible for investors outside India to effect service of process upon our Company or such persons in India, or to enforce against them judgments obtained in courts outside India.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes, among others, the United Kingdom, Singapore, United Arab Emirates and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908. Judgments or decrees from jurisdictions, which do not have reciprocal recognition with India, cannot be executed in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us or our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favour such final judgment is rendered may bring a new suit in a competent court in

India based on a final judgment that has been obtained in a non-reciprocating territory within three years of obtaining such final judgment in the same manner as any other suit filed to enforce a civil liability in India. If, and to the extent that, an Indian court were of the opinion that fairness and good faith so required, it would, under current practice, give binding effect to the final judgment that had been rendered in the non-reciprocating territory, unless such a judgment contravenes principles of public policy in India. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with Indian practice. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the RBI to repatriate any amount recovered pursuant to the execution of such a judgment.

59. Our Company may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (ASM) and Graded Surveillance Measures (GSM) by the Stock Exchange in order to enhance market integrity and safeguard the interest of investors, once the Equity Shares of our Company are listed.

The Equity Shares of our Company may be subject to general market conditions which may include significant price and volume fluctuations, once the Equity Shares of our Company are listed. The price of the Equity Shares may fluctuate after the Offer due to several factors such as volatility in the Indian and global securities market, our performance and profitability, or any other political or economic factor. The occurrence of these factors may lead to the surveillance measures stipulated by SEBI and the Stock Exchange for placing securities under the GSM or ASM framework being triggered in relation to the Equity Shares. If the Equity Shares are covered under such surveillance measures implemented by SEBI and the Stock Exchange, we may be subject to certain additional restrictions in relation to trading of the Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of the Equity Shares or may in general cause disruptions in the development of an active trading market for the Equity Shares.

External Risks

60. Adverse geopolitical conditions such as an increased tension between India and its neighbouring countries, the Russia-Ukraine conflict, the conflict between Iran-Israel and other countries in West Asia, and the recent trade wars and imposition of tariffs could adversely affect our business, results of operations and financial condition.

Adverse geopolitical conditions such as increased tensions between India and its neighbouring countries, resulting in any military conflict in the region could adversely affect our business and operations. For instance, tensions between India and Pakistan are at their highest in decades following a major escalation in Kashmir in May 2025. Any military conflict may lead to countries including the Government of India imposing restrictions which could have an adverse effect on the Indian economy. Further, any restriction on commodities, or other factors cause global supply chain disruptions could have an impact on global prices and could have an adverse effect on the commodities markets in India could be affected. For instance, the government of India has imposed additional tariffs in the nature of countervailing duty and anti-dumping duty on a number of items imported from China. Any such measure or reciprocal duties imposed on Indian products by China or other countries may adversely affect our results of operations and financial condition could have a chilling effect on trade and commerce between the nations which could lead to uncertainty in the securities and commodities markets, inflate costs etc. Further, prolonged Russia-Ukraine conflict and the armed hostilities between Israel and other countries in West Asia, impacting, *inter alia*, global trade, prices of oil and gas could have an inflationary impact on the Indian economy, result in higher interest rates and adversely affect our business, results of operations and financial condition.

The conflict between Russia and Ukraine, the Israel-Gaza conflict or the ongoing tensions in the Red Sea, which are beyond our control, may lead to economic instability, including in India and globally, and may adversely affect our business, financial condition, cash flows and results of operations. The short and long-term implications of the conflict between Russia and Ukraine, the Israel-Hamas conflict and the Iran-Israel conflict are difficult to predict at this time. We continue to monitor any adverse impact that the conflict between Russia and Ukraine, the subsequent institution of sanctions against Russia by the United States and several European and Asian countries, and the Israel-Hamas conflict may have on the global economy in general, on the businesses and operations of us, our lenders and other third parties with which we conduct business.

To the extent any geopolitical tension may adversely affect our business, it may also have the effect of heightening many of the other risks described herein. Such risks include, but are not limited to, adverse effects on macroeconomic conditions, including inflation; disruptions to our global technology infrastructure, including through cyberattack, ransom attack, or cyber intrusion; adverse changes in international trade policies and relations; disruptions in global supply chains; significant volatility in commodity prices and supply of energy resources; political and social instability; changes in consumer or purchaser preferences and constraints; volatility, or disruption in the capital markets, any of which could negatively affect our business and financial condition. In the recent past, we have been witnessing increased geopolitical tensions globally. Any potential aftermaths of such tensions such as cross-border restrictions, sanctions,

trade barriers, imposition of tariffs could adversely affect our supply chains and as a result our production schedules. While we have alternative supply sources and have not experienced any disruption to our business or supply due to geopolitical tension in the past, should the conflicts lead to global shortages of commodities that are related to our business, such as energy, we may face challenges in sourcing raw materials and parts, including experiencing significant procurement cost increases.

Moreover, recent trade wars and increasing protectionist policies by several countries, including the imposition of import tariffs and duties on goods originating from certain regions, have created an unpredictable and unstable global trade environment. As such, the landed cost of our products in certain international markets may increase. This may adversely affect our pricing competitiveness, which could in turn impact customer retention, reduce order volumes, or result in delayed or cancelled orders from our international clients. Additionally, any withdrawal, renegotiation or suspension of favourable duty regimes under bilateral or multilateral trade arrangements may further increase our cost of compliance and disrupt existing export strategies. These developments may necessitate changes to our pricing models, operational realignments, or strategic shifts to alternate markets. Such changes, if material, could adversely affect our revenue, margins, and overall export performance.

61. You may not be able to immediately sell any of the Equity Shares you subscribe to in this Offer on an Indian Stock Exchange.

The Equity Shares are proposed to be listed on the Stock Exchange. Pursuant to Indian laws and regulations, certain actions must be completed before the Equity Shares can be listed and commence trading, including the crediting of Equity Shares in the investor's demat accounts within the timeline specified under applicable law. Further, in accordance with Indian law, permission for listing and trading of the Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until Allotment of Equity Shares pursuant to this Offer. The Allotment of Equity Shares in the Offer and the credit of Equity Shares to the investor's demat account with the relevant depository participant and listing is expected to be completed within the period as may be prescribed under applicable law. Any failure or delay in obtaining the approvals or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. Our Company cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the prescribed time periods or at all which could restrict your ability to dispose of the Equity Shares. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

62. A slowdown in economic growth in India could adversely affect our Company's business.

The structure of the Indian economy has undergone considerable changes in the last decade. These include increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian economy or manufacturing sector or any future volatility in global process could adversely affect our Company's business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting commodity and electricity prices or various other factors.

Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States, Europe or China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our Company's business, financial condition and results of operations and the price of the Equity Shares.

Increasing employee compensation in India may erode some of our Company's competitive advantage and may reduce our Company's profit margins, which may have a material adverse effect on our Company's business, financial condition, cash flows and results of operations.

Employee compensation in India has historically been significantly lower than employee compensation in the United States and Western Europe for comparably skilled professionals. However, compensation increases in India may erode some of this competitive advantage and may negatively affect our Company's profit margins. Employee compensation in India is increasing at a faster rate than in the United States and Western Europe, which could result in increased costs relating to managers and other mid-level professionals. Our Company may need to continue to increase the levels of our Company's employee compensation to remain competitive and manage attrition. Compensation increases may have a material adverse effect on our Company's business, financial condition, cash flows and results of operations.

63. Adverse geopolitical conditions such as an increased tension between India and its neighbouring countries, conflict amongst some of the countries in Europe and the Middle East, could adversely affect our business, results of operations and financial condition.

Adverse geopolitical conditions such as increased tensions between India and its neighbouring countries, resulting in any military conflict in the region could adversely affect our business and operations. Such events may lead to countries including the Government of India imposing restrictions on the import or export of products or input materials, among others, and affect our ability to procure input materials required for our manufacturing operations. We could also be affected by the introduction of or increase in the levy of import tariffs in India, or in the countries to which we export our products, or changes in trade agreements between countries. For instance, the government of India has imposed additional tariffs in the nature of countervailing duty and anti-dumping duty on a number of items imported from China. Any such measure which affects our input material supply or reciprocal duties imposed on Indian products by China or other countries may adversely affect our results of operations and financial condition. Further, the ongoing war amongst some of the countries in Europe and the Middle East that is currently impacting, inter alia, global trade, prices of oil and gas and could have an inflationary impact on the Indian economy.

64. Our Company may be affected by competition law in India and any adverse application or interpretation of the Competition Act could adversely affect our Company's business.

The Competition Act, 2002, of India, as amended ("**Competition Act**"), regulates practices having an appreciable adverse effect on competition in the relevant market in India ("**AAEC**"). Under the Competition Act, any formal or informal arrangement, understanding, or action in concert, which causes or is likely to cause an AAEC, is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment, or the provision of services, or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of customers in the relevant market or directly or indirectly results in bid- rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On April 11, 2023, the Competition (Amendment) Bill 2023 received the assent of the President of India to become the Competition (Amendment) Act, 2023 ("**Competition Amendment Act**"), amending the Competition Act and giving the CCI additional powers to prevent practices that harm competition and the interests of consumers. It has been enacted to increase the ease of doing business in India and enhance transparency. The Competition Amendment Act, inter alia, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered by us could be within the purview of the Competition Act. Further, the CCI has extraterritorial powers and can investigate any agreements, abusive conduct, or combination occurring outside India if such agreement, conduct, or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered by us cannot be predicted with certainty at this stage. We may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows, and prospects.

65. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

The regulatory and policy environment in which we operate is evolving and is subject to change. The Government of India or State governments in India may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government of India, state governments and other regulatory bodies, or impose onerous requirements.

Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

We cannot predict the impact of any changes in or interpretations of existing, or the promulgation of, new laws, rules and regulations applicable to us and our business. Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us, our business, operations or group structure being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and expend resources relating to compliance with such new requirements, which may also require significant management time, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

66. Any downgrade of our credit ratings could adversely affect our business. Additionally, a downgrade in ratings of India and other jurisdictions we operate in may affect the trading price of the Equity Shares.

Credit ratings reflect a rating agency's opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. As on date of the Red Herring Prospectus, our Company has not obtained any credit ratings in relation to its debt obligations.

Our Company's borrowing costs and our Company's access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our Company's ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our Company's control. This could have an adverse effect on our Company's ability to fund our Company's growth on favourable terms or at all, and consequently adversely affect our Company's business and financial performance and the price of the Equity Shares.

Further, any future equity issuances by us, including to comply with minimum public shareholding norms applicable to listed companies in India or sales of our Equity Shares by our shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt.

In case there is any disposal, pledge or encumbrance of the Equity Shares (in accordance with applicable law including procuring regulatory approvals, as required) by any of our significant shareholders may affect the trading price of the Equity Shares.

67. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

Our performance and the growth of our business are necessarily dependent on the health of the overall Indian economy. Therefore, any downturn in the macroeconomic environment in India could adversely affect our business, results of operations, financial condition, cash flows and future prospects. The Indian economy could be adversely affected by various factors, such as the impact of COVID-19 or other pandemics, epidemics, political and regulatory changes, including adverse changes in the Government's liberalisation policies, social disturbances, religious or communal tensions, terrorist attacks and other acts of violence or war such as ongoing Ukraine-Russia conflict, natural calamities, volatility in interest rates, volatility in commodity and energy prices, a loss of investor confidence in other emerging market economies and any worldwide financial instability.

68. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our

Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the proceeds received by Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

69. Investors could be subject to Indian taxes arising out of capital gains and stamp duty on the sale of the Equity Shares and will be subject to Indian taxes on any dividends.

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of ₹ 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

The Finance Act, 2019 introduced new provisions under the Indian Stamp Act, 1899, thereby providing that in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount.

Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations, could result in Investors being subject to additional taxes on the sale of our Equity Shares and Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

70. Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. For instance, the economic downturn in the U.S. and several European countries during a part of Fiscals 2008 and 2009 adversely affected market prices in the global securities markets, including India. Following the United Kingdom's exit from the European Union (Brexit), there still remains significant uncertainty around the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets. In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. Further, the recent collapse of the Silicon Valley Bank also caused economic downturn. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of the Equity Shares.

71. Under Indian law, foreign investors are subject to investment restrictions that limit our Company's ability to attract foreign investors, which may adversely impact the trading price of the Equity Shares.

A company based in India may issue equity instruments to a person resident outside India subject to entry routes, sectoral caps and attendant conditions prescribed in the FEMA Rules. Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the requirements specified by the RBI. If the transfer of shares is not in compliance with such requirements or falls under any of the specified exceptions, then prior approval of the RBI will be required.

Further, in accordance with the Consolidated FDI Policy dated October 15, 2020, Government of India, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares land border with India, can only be made through the Government approval route. These investment restrictions shall also apply to subscribers of offshore derivative instruments.

In addition, shareholders who seek to convert the Indian Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no-objection or tax clearance certificate from the income tax authority. Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from the RBI, or any other government agency can be obtained on any particular terms or at all.

72. Our Company's ability to raise foreign capital may be constrained by Indian law.

As an Indian company, our Company is subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions could constrain our Company's ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, our Company cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to our Company without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our Company's business growth, financial condition and results of operations.

73. If security or industry analysts do not publish research, or publish unfavourable or inaccurate research about the business of our Company, the price and trading volume of the Equity Shares may decline.

The trading market for the Equity Shares may depend, in part, on the research and reports that securities or industry analysts publish about us or our business. Our Company may be unable to sustain coverage by established and / or prominent securities and industry analysts. If either none or only a limited number of securities or industry analysts maintain coverage of our Company, or if these securities or industry analysts are not widely respected within the general investment community, the trading price for the Equity Shares would be negatively impacted. In the event our Company obtains securities or industry analyst coverage, if one or more of the analysts downgrade the Equity Shares of our Company or publish inaccurate or unfavourable research about our business, the price of the Equity Shares may decline. If one or more of these analysts cease coverage of our Company or fail to publish reports on our Company regularly, the demand for the Equity Shares of our Company could decrease, which might cause the price and trading volume of the Equity Shares of our Company to decline.

Book Building Process

Book building, in the context of the Offer, refers to the process of collection of Bids from investors on the basis of the Red Herring Prospectus, the Bid cum Application Forms (and the Revision Forms, if any) within the Price Band and minimum Bid Lot, which was decided by our Company, in consultation with the BRLM in accordance with the Book Building Process, and, was published in all editions of the English national newspaper, all editions of Hindi national newspaper and in regional newspaper where our Registered Office is situated, each with wide circulation, at least two Working Days prior to the Bid/Offer Opening Date and was made available to the Stock Exchange for the purpose of uploading on their respective websites. The Offer Price of ₹194 was determined by our Company, in consultation with the BRLM in accordance with Book Building process, after the Bid/Offer Closing Date. For further details, see "*Offer Procedure*" on page 424.

The SEBI ICDR Regulations have permitted the offer of securities to the public through the book building process, wherein allocation to the public shall be made as per Regulation 253(1) of the SEBI ICDR Regulations.

The Offer was made through the book building process wherein not more than 50% of the Net Offer was made available for allocation on a proportionate basis to QIBs, provided that our Company could in consultation with the BRLM allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations (the "**Anchor Investor Portion**"), out of which 33.33 percent of the Anchor Investor Portion was reserved for domestic Mutual Funds and 6.67 percent of the Anchor Investor Portion was reserved for life insurance companies and pension funds, subject to valid Bids having been received from domestic Mutual Funds at or above the Anchor Investor Offer Price. At least 5% of the QIB Portion was made available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion was made available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids having been received at or above the Offer Price.

Further, not less than 15% of the Net Offer was made available for allocation on a proportionate basis to NIIs of which (a) one-third of the Non-Institutional Investor Category was available for allocation to Individual Investor with an application size of more than 2 (two) lots and up to such lots equivalent to not more than ₹ 1 Million and (b) two-thirds of the Non-Institutional Investor Category was available for allocation to Individual Investors with an application size of more than ₹1 Million provided that the unsubscribed portion in either of such sub-categories could be allocated to other sub-category of Non-Institutional Investor and the remaining shares, if any, were to be allotted on a proportionate basis in accordance with the conditions specified in this regards in Schedule XIII of SEBI ICDR Regulations and not less than 35

% of the Net Offer was available for allocation to Individual Bidders, in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

All potential Bidders could participate in the Offer through an ASBA process by providing details of their respective bank account which would be blocked by the SCSBs. All Bidders were mandatorily required to utilize the ASBA process to participate in the Offer. Under subscription if any, in any category, except in the QIB Category, would be allowed to be met with spillover from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange.

All Bidders, except Anchor Investors, were mandatorily required to use the ASBA process for participating in the Offer by providing details of their respective ASBA Account in which the corresponding Bid Amount would be blocked by SCSBs. In addition to this, the UPI Bidders should have participated through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount would be blocked by the SCSBs; or (b) through the UPI Mechanism. Except for Allocation to Individual Bidder, Non-Institutional Bidders and the QIBs in the Net QIB Portion, Allocation in the Offer was on a proportionate basis. Anchor Investors were not permitted to participate in the Offer through the ASBA process.

Subject to valid Bids having been received at or above the Offer Price, allocation to all categories in the Net Offer, was made on a proportionate basis, except for Individual Portion where allotment to each Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Individual Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under – subscription, if any, in any category, would be allowed to be met with spill – over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular no. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (except Anchor Investors) applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, Individual Investors applying in public issue may use either ASBA facility for making application or also can use UPI as a payment mechanism with ASBA for making application. For details in this regard, see "*Offer Procedure*" on page 424.

In accordance with the SEBI ICDR Regulations, QIBs in the Net QIB Portion and Non-Institutional Bidders bidding in the Non-Institutional Portion are not permitted to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Individual Investors in the Individual Portion (subject to the Bid Amount being upto ₹ 2,00,000) can revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date. Further, Anchor Investors are not allowed to withdraw their Bids after the Anchor Investor Bidding Date. Except for Allocation to Individual Bidders, allocation to QIBs (other than Anchor Investors) and Non-Institutional Investors, will be on a proportionate basis while allocation to the Anchor Investors will be on a discretionary basis. For further details, see "*Terms of the Offer*" and "*Offer Procedure*" on pages 409 and 424 respectively.

The Book Building Process is in accordance with guidelines, rules and regulations prescribed by SEBI and are subject to change from time to time. Bidders were advised to make their own judgement about an investment through this process prior to submitting a Bid.

Our Company will comply with the SEBI ICDR Regulations and any other directions issued by SEBI in relation to this Offer. The Selling Shareholder has specifically confirmed that he will comply with the SEBI ICDR Regulations and any other directions issued by SEBI, as applicable in relation to the Offered Shares. In this regard, our Company and the Selling Shareholder have appointed the Book Running Lead Manager to manage this Offer and procure Bids for this Offer.

Bidders should note the Offer is also subject to: (i) obtaining final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment within three Working Days of the Bid/Offer Closing Date or such other time period as prescribed under applicable law, and (ii) acknowledgment of the RoC for filing of the Prospectus with the RoC.

For further details on the method and procedure for Bidding, see "*Offer Structure*", "*Offer Procedure*" and "*Terms of the Offer*" on pages 419, 424 and 409, respectively.

For an illustration of the Book Building Process and the price discovery process, see "*Offer Procedure*" on page 424.

WITHDRAWAL OF THE OFFER

Our Company and the Selling Shareholder in consultation with the BRLM, reserved the right not to proceed with the Offer at any time before the Bid/Offer Opening Date without assigning any reason thereof.

If our Company withdrew the Offer any time after the Offer Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Offer Closing Date, providing reasons for not proceeding with the Offer would be issued by our Company. The notice of withdrawal would be issued in the same newspapers where the pre-Offer advertisements have appeared and the Stock Exchange would also be informed promptly. The BRLM, through the Registrar to the Offer, would instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdrew the Offer after the Bid/Offer Closing Date and subsequently decided to proceed with an Offer of the Equity Shares, our Company would have to file a fresh draft red herring prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is subject to obtaining (i) the final listing and trading approval of the Stock Exchange with respect to the Equity Shares offered through the Prospectus, which our Company will apply for only after Allotment.

In accordance with Regulation 261 of the SEBI ICDR Regulations, our Company and has entered into an agreement with the Book Running Lead Manager and the Market Makers (duly registered with BSE Limited to fulfil the obligations of Market Making) dated November 18, 2025 to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Offer.

Giriraj Stock Broking Private Limited and Rikhav Securities Limited, registered with SME Platform of BSE Limited will act as the Market Makers and have agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Makers shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by BSE Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making Arrangement:

1. The Market Makers shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Makers shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Makers.

2. The prices quoted by Market Makers shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of BSE Limited (SME Platform of BSE) and SEBI from time to time.

3. The minimum depth of the quote shall be ₹1,00,000. However, the investors with holdings of value less than ₹1,00,000 shall be allowed to issue their holding to the Market Makers in that scrip provided that they sell their entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.

4. After a period of three (3) months from the market making period, the Market Makers would be exempted to provide quote if the Shares of Market Makers in our Company reaches to 25% of Offer Size (Including the 265,200 Equity Shares sought to be allotted under this Offer). Any Equity Shares allotted to Market Makers under this Offer over and above 265,200 Equity Shares would not be taken into consideration of computing the threshold of 25% of Offer Size. As soon as the Shares of Market Makers in our Company reduce to 24% of Offer Size, the Market Maker will resume providing 2-way quotes.

5. There shall be no exemption/threshold on downside. However, in the event the Market Makers exhaust their inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.

6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.

7. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.

8. The Marker Makers may also be present in the opening call auction, but there is no obligation on him to do so.

9. There will be special circumstances under which the Market Makers may be allowed to withdraw temporarily/fully from the market – for instance due to system problems or any other problems. All controllable reasons require prior approval from the Exchange, while force majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

10. The Market Makers shall have the right to terminate the said arrangement by giving a one (1) month advance notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker.

    In case of termination of the above-mentioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI ICDR Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time.

11. The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and from time to time.

12. Execution of the order at the quoted price and quantity must be guaranteed by the Market Makers, for the quotes given by them.

13. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on BSE Limited (SME Platform of BSE) and Market Makers will remain present as per the guidelines mentioned under BSE and SEBI circulars.

14. Risk containment measures and monitoring for Market Makers:

BSE SME Exchange will have all margins, which are applicable on the BSE main board viz., Mark-to-Market, Value-At Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.

15. Punitive Action in case of default by Market Makers:

The Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties/fines may be imposed by the Exchange on the Market Makers; in case they are not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Stock Exchange from time to time. The Exchange will impose a penalty on the Market Makers in case they are not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Makers from time to time.

16. Price Band and Spreads:

The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for offer size up to ₹250 crores, the applicable price bands for the first day shall be:

i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the offer price.

17. Additionally, the trading shall take place in TFT segment for first trading 10 days from commencement of trading. The following spread will be applicable on the SME platform.

Sr. No.	Market Price Slab (in ₹)	Proposed spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

18. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Offer size and as follows:

Offer Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Offer Size)	Re-entry threshold for buy quote (including mandatory initial inventory of 5% of the Offer Size)
Up to ₹ 20 crore	25%	24%
₹ 20 crore to ₹ 50 crore	20%	19%
₹ 50 Crore to ₹ 80 crore	15%	14%
Above ₹ 80 crore	12%	11%

19. The Market Maker arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI and Stock Exchange from time to time.

20. All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

4. **Eligibility of Equity Share for Minimum Promoter's Contribution in terms of Regulation 237(1) of SEBI ICDR Regulations**

Regulation 237(1)	Promoters' Minimum Contribution Conditions	Eligibility Status of Equity Shares forming part of Promoter's Minimum Contribution
(a)	specified securities acquired during the preceding three years, if they are:	
(i)	acquired for consideration other than cash and revaluation of assets or capitalisation of intangible assets is involved in such transaction; or	The Minimum Promoter's Contribution does not consist of Equity Shares which have been acquired for other than cash and revaluation of assets or capitalisation of intangible assets. Hence, they are eligible for forming part of Minimum Promoter's Contribution.
(ii)	resulting from a bonus issue by utilisation of revaluation reserves or unrealised profits of the issuer or from bonus issue against equity shares which are ineligible for minimum promoters' contribution;	The Minimum Promoter's Contribution does not consist of such Equity Shares. Hence, they are eligible for forming part of Minimum Promoter's Contribution.
(b)	specified securities acquired by the promoters during the preceding one year at a price lower than the price at which specified securities are being offered to the public in the initial public offer:	The Minimum Promoter's Contribution does not consist of such Equity Shares. Hence, they are eligible for forming part of Minimum Promoter's Contribution.
(c)	specified securities allotted to the promoters and alternative investment funds during the preceding one year at a price less than the issue price, against funds brought in by them during that period, in case of an issuer formed by conversion of one or more partnership firms or limited liability partnerships, where the partners of the erstwhile partnership firms or limited liability partnerships are the promoters of the issuer and there is no change in the management: Provided that specified securities, allotted to the promoters against the capital existing in such firms for a period of more than one year on a continuous basis, shall be eligible;	The Minimum Promoter's Contribution does not consist of such Equity Shares. Hence, they are eligible for forming part of Minimum Promoter's Contribution.
(d)	specified securities pledged with any creditor.	Our Promoters has not pledged any shares with any creditors. Accordingly, the Minimum Promoter's Contribution does not consist of such Equity Shares and are eligible for forming part of Minimum Promoter's Contribution.

5. **Details of Promoter' Contribution and lock in for one year and two years**

In terms of Regulation 238(b) of the SEBI ICDR Regulations, in addition to the Minimum Promoters Contribution which is locked in for three years held by the Promoters, as specified above, (a) fifty percent. of the promoter's holding in excess of the Minimum Promoters' Contribution shall be locked in for a period of two years from the date of Allotment, and (b) remaining fifty percent of the promoters' holding in excess of the Minimum Promoters' Contribution shall be locked in for a period of one year from the date of Allotment.

Other requirements in respect of 'lock-in'

As required under Regulation 242 of the SEBI ICDR Regulations the locked in Equity Shares held by the Promoters, as specified above, may be pledged with any scheduled commercial bank or a public financial institution or a systemically important non-banking finance company or a housing finance company as collateral security for loan granted by such bank or institution provided that the pledge of Equity Shares is one of the terms of the sanction of the loan. Provided that securities locked in as minimum promoter contribution may be pledged only if, in addition to fulfilling the above requirements, the loan has been granted to the Company or its subsidiary by such bank or institution, for the purpose of

financing one or more of the objects of the Offer.

In terms of Regulation 238(b) of the SEBI ICDR Regulations, the entire pre-Offer held by persons other than the Promoters shall be locked-in for a period of one year from the date of Allotment.

In terms of Regulations 241 of the SEBI ICDR Regulations, the Equity Shares which are subject to lock-in shall contain the inscription 'non-transferable' along with the lock-in period and where the Equity Shares are dematerialised, the Company shall ensure that the lock-in is recorded by the Depository.

In terms of Regulation 243 of the SEBI ICDR Regulations, the Equity Shares held by our Promoter which are locked in as per the provisions of Regulation 238 of the SEBI ICDR Regulations, may be transferred to and amongst Promoter / members of the Promoter Group or to a new promoter or persons in control of our Company other than the promoters, subject to continuation of lock-in in the hand of the transferees for the remaining period with compliance with SEBI Takeover Code, as applicable.

* *Subject to finalization of Basis of Allotment.*

Requirement of Funds and Utilization of Net Proceeds

The Net Proceeds are proposed to be used in the manner set out in in the following table:

(₹ in million)

Sr No.	Particulars	Estimated Amount
1.	Repayment and / or prepayment, in full, of certain outstanding loans (including foreclosure charges, if any) availed by our Company	136.00
2.	Augmentation of long-term working capital requirements of our Company	250.00
3.	Investment in our wholly owned subsidiary MethodHub Consulting Inc. (USA) for augmentation of long-term working capital requirements in MethodHub Consulting Inc. (USA)	40.00
4.	Unidentified inorganic acquisitions and General Corporate Purposes[(1)]	305.92

(1) The cumulative amount to be utilized towards inorganic growth through acquisition and other strategic initiatives and general corporate purposes shall not exceed 35% of the Gross Proceeds. Further, the amount utilized for our object of 'Unidentified inorganic acquisitions' shall not exceed 25% of the Gross Proceeds.

Proposed schedule of implementation and deployment of Net Proceeds

We propose to deploy the Net Proceeds for the aforesaid purposes in accordance with the estimated schedule of implementation and deployment of funds as follows:

(₹ in million)

Sr. No.	Particulars	Amount which will be financed from Net Proceeds*	Estimated deployment of Net Proceeds	
			Fiscal 2026	Fiscal 2027
1	Repayment and / or prepayment, in full, of certain outstanding loans (including foreclosure charges, if any) availed by our Company	136.00	136.00	-
2	Augmentation of long-term working capital requirements of our Company	250.00	150.00	100.00
3	Investment in our wholly owned subsidiary MethodHub Consulting Inc. (USA) for augmentation of long-term working capital requirements in MethodHub Consulting Inc. (USA)	40.00	40.00	-

	Total (1+2+3+4)	**731.92**	**631.92**	**100.00**

(1) The cumulative amount to be utilized towards inorganic growth through acquisition and other strategic initiatives and general corporate purposes shall not exceed 35% of the Gross Proceeds. Further, the amount utilized for our object of 'Unidentified inorganic acquisitions' shall not exceed 25% of the Gross Proceeds.

Since, the entire fund requirements are to be funded from the proceeds of the Offer, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Issue.

Our fund requirements and proposed deployment of Net Proceeds are based on current business plans and internal management estimates, and have not been appraised by any bank or financial institution. Given the dynamic nature of our business and external environment, the actual utilization of funds may differ and may require rescheduling, revision, or reallocation at the discretion of our management, subject to compliance with applicable laws.

In the event of a shortfall in meeting the aforementioned Objects, we may explore a range of alternate funding options including utilizing our internal accruals and/or seeking additional debt from existing and/or other lenders while any surplus amount after utilization of the Net Proceeds towards any of the aforementioned Objects, shall be

used towards one or more of the other objects as set out above, provided that (a) the total amount to be utilized towards general corporate purposes does not exceed 15% of the Gross Proceeds or 100 million whichever is lower; (b) the cumulative amount to be utilized for general corporate purposes and our object of 'funding unidentified inorganic acquisitions' shall not exceed 35% of the Gross Proceeds; and (c) the amount to be utilized for our Object of funding 'Unidentified inorganic acquisitions' shall not exceed 25% of the Gross Proceeds. As of the date of this Prospectus, no bridge financing has been availed, and no portion of the Offer Proceeds shall be utilized for repayment of any outstanding unsecured loans.

Subject to compliance of applicable law, if the actual utilisation towards any of the Objects is lower than the proposed deployment, such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards inorganic growth through acquisition and other strategic initiatives and general corporate purposes does not exceed 35% of the gross proceeds from the Fresh Issue in accordance with Regulation 230(3) of the SEBI ICDR Regulations.

In the event, the Net Proceeds are not utilized (in full or in part) for the Objects of the Offer during the period stated above due to factors such as (i) the timely of completion of the Offer; (ii) market conditions outside the control of our Company; and (iii) any other economic, business and commercial considerations, the remaining Net Proceeds shall be utilized (in part or full) in subsequent fiscals as may be determined by our Company, in accordance with applicable laws.

Means of Finance

The fund requirements set out for the aforesaid Objects are proposed to be met entirely from the Net Proceeds. Accordingly, our Company confirms that there is no requirement to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the Fresh Issue and internal accruals as required under the SEBI ICDR Regulations.

For further details on the risks involved in our proposed fund utilization as well as executing our business strategies, please refer chapter titled "*Risk Factors*" beginning on page 32.

Details of Objects of the Fresh Issue

1. ***Repayment and / or prepayment, in full, of certain outstanding loans (including foreclosure charges, if any) availed by our Company***

   Our Company has entered into various borrowing arrangements with banks, financial institutions and other entities. For details of these financing arrangements of the Company including indicative terms and conditions, see "*Financial Indebtedness*" on page 379. As on October 31, 2025 our total outstanding borrowings from banks and financial institution amounted to ₹ 136.65 million on a standalone basis. Our Company proposes to utilize an estimated amount of ₹136 million from the Net Proceeds comprising 99.52% of our total outstanding borrowings from banks and financial institution towards prepayment or repayment, in full or in part, of all or a portion of certain outstanding borrowings availed by our Company.

   We believe that such repayment or prepayment will help reduce our outstanding indebtedness on a consolidated basis and debt servicing costs, and enable utilization of the internal accruals for further investment towards business growth and expansion. In addition, we believe that this would improve our ability to raise further resources in the future to fund potential business development opportunities.

   Further, our Company may also avail additional borrowings and/ or draw down further funds under existing borrowing facilities, from time to time, after the date of this Prospectus. Accordingly, in case any of the below listed loans are pre-paid or further drawn down prior to the filing of the Red Herring Prospectus, we may utilize the Net Proceeds towards repayment and/ or prepayment of such additional indebtedness. In light of the above, if at the time of filing the Red Herring Prospectus, any of the below mentioned loans are repaid in part or full or refinanced or if any additional credit facilities are availed or drawn down or if the limits under the working capital borrowings are increased, then the table below shall be suitably revised to reflect the revised amounts or loans as the case may be which have been availed by our Company. However, the aggregate amount to be

utilised from the Net Proceeds towards repayment/ prepayment of borrowings (including refinanced or additional borrowings availed, if any, or otherwise), in part or in full, would not exceed ₹136.00 million.

Pursuant to the terms of the borrowing arrangements, prepayment of certain indebtedness may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will also be funded out of the Net Proceeds. Further, interest will also be funded out of the Net Proceeds. Given the nature of the borrowings and the terms of repayment/ prepayment/ redemption, the aggregate outstanding amounts under the borrowings may vary from time to time and our Company may, in accordance with the relevant repayment schedule, repay or refinance some of their existing borrowings prior to Allotment.

The selection of borrowings proposed to be prepaid or repaid or redeemed amongst our borrowings will be based on various factors, including (i) cost of the borrowing, including applicable interest rates, (ii) maturity profile and the remaining tenor of the loan, (iii) any conditions attached to the borrowings, restricting our ability to prepay/ repay/ redeem the borrowings and time taken to fulfil, or obtain waivers for fulfilment of such conditions, or relating to the terms of repayment, (iv) levy of any prepayment penalties and the quantum thereof, (v) provisions of any laws, rules and regulations governing such borrowings or investments by our Company in overseas step-down subsidiary for pre-payment of borrowings of such subsidiaries, and (vi) other commercial considerations including, the amount of the loan outstanding.

There has been no instance of delays, defaults and rescheduling/restructuring of the borrowings of our Company.

The proposed repayment/prepayment will help in:

- Reducing the overall debt burden of our Company
- Improving our debt-equity ratio
- Enhancing our financial flexibility and credit profile
- Reducing the finance cost and thereby improving profitability

The following tables provide details of outstanding borrowings availed by our Company as on October 31, 2025, which we propose to prepay or repay, in full or in part, from the Net Proceeds up to an aggregate amount of ₹ 136.00 million.

The present order book of our Company on a standalone basis is ₹ 2,123.83 million. The order book will be executed over FY 2026 to FY 2027.

The projected growth in the order book is based on the active statements of work (SoWs) and purchase orders (POs) currently in hand, which reflect committed client engagements under execution. Our Company has considered these along with ongoing discussions and renewal opportunities with existing clients. Based on current market conditions, client demand, and our established delivery capability, the Company believes the projected revenue is reasonable and achievable. Our Company also expects additional growth through both organic expansion and inorganic opportunities, including potential acquisitions in identified markets. Further, our Company has strengthened its delivery capacity and resource base to effectively execute the projected business as referred to in the order book.

As our Company relies on the current orders from the existing customers, they will continue efforts to strengthen the strong relationships with existing clients and prioritize customer delight to ensure business continuity and scalability. Our Company intends to implement a strategic plan to ensure the availability of adequate infrastructure, resources, and tools to efficiently meet project requirements and delivery commitments without any operational hindrances. Further, our Company plans to strengthen relationships with existing customers and ongoing engagements to identify and develop new business opportunities. Simultaneously, our Company plans to drive organic growth by acquiring new customers through structured lead generation initiatives and the continued efforts of its sales and business development teams. These measures are expected to contribute to consistent revenue growth, ensure business continuity in case of contingencies, and support the achievement of our Company's strategic objectives.

Organic Growth

Our Company plans to introduce niche and modern offerings to gain a competitive edge in key market segments. One such initiative is the fiduciary partner model, under which the Company proposes to implement Build-Operate-Transfer (BOT) and Extended Delivery Center (EDC) arrangements for clients. These models are designed to help clients optimize costs, enhance operational efficiency, and ensure scalable and sustainable service delivery.

We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial condition, receipt of new orders, business strategy and external factors such as market conditions, competitive environment and interest or exchange rate fluctuations and other external factors which may not be within the control of our management. This may entail rescheduling or revising the deployment of funds for working capital including utilizing the entire amount in Fiscal 2026 or utilize part of the amount in Fiscal 2026 and part in Fiscal 2027. The planned utilisation, implementation schedule and funding requirements would be at the discretion of our management, subject to compliance with the applicable laws. Subject to applicable laws, in the event of any increase in the actual utilisation of funds earmarked for the purposes set forth above, such additional funds may be financed by surplus funds including from internal accruals and any additional equity and/or debt arrangements from existing and future lenders, subject to compliance with applicable law.

Justification for holding period levels

Particulars	Details / Commentary
Current Assets	
Inventories	Our Company's inventory holding period rages from Nil days in FY2023, FY2024 6 days in FY2025 and Nil Days during the period if six months ended September 30, 2025. We expect inventory holding period to be around 6 days for FY2026 and FY2027.
Trade Receivables	Our Company's general credit term varies across geographies and type of customer. We had Debtors Holding days of 186 days, 133 days, 140 days and 124 days in FY2023, FY2024 , FY2025 and six months period ended September 30, 2025. We expect Debtors Holding days to be around 120 days for FY2026 and FY 2027.
Current Liabilities	
Trade Payables	We had creditors payment cycle of 41 days, 15 days ,18 days and 4 days in FY2023, FY2024 , FY2025, and six months period ended September 30, 2025. We expect our creditors payments days to be around 20 days for FY2026 and 21 days in FY2027.

From a standalone operation with 354.90 million of revenue the trade receivables stood at 186 days in the year 2023. As the integration of acquired companies occurred in subsequent fiscals and the business volumes improved to 1348.58 million in 2025 the receivables stood at 140 days, contained from higher days earlier.

In the budgeted forecast of projections, the trade receivables would be contained to around 120 days eliminating elongated cycles of fresh orders and restricting and improving efficiency in receivables especially from domestic large tech infra orders. Continued growth in revenue in overseas centres also would ensure smoother passage of receivables on a consolidated basis while ensuring that in the next few years the same is brought below the industry peer levels.

The augmentation of working capital from the net proceeds of the issue from IPO would help in streamlining the operational efficiency and supply chain efficiency in meeting the above objectives.

The increase in revenue between 2023 and 2024 is on account of a spurt in telecom and tech infra projects business. The corresponding increase between the next 2 years is on account of acquisition of Zortech and wholly owned subsidiary, Method Hub Consulting Inc., resulting in consolidation of revenues.

3. Investment in our wholly owned subsidiary - Augmentation of long-term working capital requirements in MethodHub Consulting Inc (USA).

Our wholly owned subsidiary, MethodHub Consulting Inc., incorporated in Delaware, USA, with its principal place of business in Alpharetta, Georgia, is engaged in providing IT consulting and staffing services, including talent acquisition, project management, and technology solutions across multiple industries.

MethodHub Consulting Inc. is primarily engaged in IT consulting services, staffing solutions, and software development for clients in North America. The nature of its operations involves providing skilled IT professionals on project-based or time-and-material basis to its clients, requiring significant working capital to fund employee costs, payroll, infrastructure, client acquisition, and vendor payments.

Currently, MethodHub Consulting Inc. finances its working capital requirements primarily through internal accruals and short-term borrowings, which limits its ability to scale operations. The proposed infusion will provide the necessary liquidity to strengthen its financial position and support business growth in its target markets.

One of the strategic objectives of our Company is to have direct client engagement rather than solely rely on prime vendors / system integrators. This is possible only if a company has on-site presence to have contractual commitments with customer enforceable in the respective jurisdiction., in the instant case USA. Further, on site projects can be executed only when the company has a legal presence both for customer contracts as well as for employee engagements.

The funds will be used by MethodHub Consulting Inc for working capital to cater to the growing business needs and will improve the profitability of our Company on a consolidated basis.

Our Company would significantly benefit from the infusion of money in the WOS in terms of scalability in revenue, making further inroads from new business, operational efficiency and improvement of margins. MethodHub Consulting Inc is an integral part of our Company operations catering to the core line of business and it is by geographical location distinct catering to customers in that region and hence no separate non-compete is required. Our Company and MethodHub Consulting Inc are complementing each other in the core business objectives of our Company.

The demand for IT consulting and staffing services in the North American market continues to grow, particularly in sectors like BFSI, healthcare, and retail. MethodHub Consulting Inc. intends to:

- Expand its client base and geographical reach
- Recruit and retain highly skilled technology professionals
- Meet upfront payroll and related expenses before client collections
- Fund marketing and business development activities for client acquisition
- Maintain liquidity for operational stability without incurring high-cost borrowings

The present order book of Methodhub Consulting Inc on a standalone basis is ₹ 692.37 million. The orders would be executed over FY 2026 and FY 2027.

The projected growth in the order book is based on the active statements of work (SoWs) and purchase orders (POs) currently in hand, which reflect committed client engagements under execution. We have considered these along with ongoing discussions and renewal opportunities with existing clients. Based on current market conditions, client demand, and our established delivery capability, we believe the projected revenue is reasonable and achievable. We also expect additional growth through both organic expansion and inorganic opportunities, including potential acquisitions in identified markets. Further, Methodhub Consulting Inc. has strengthened its delivery capacity and resource base to effectively execute the projected business as referred to in the order book.

As Methodhub Consulting Inc. relies on the current orders from the existing customers, they will continue efforts to strengthen the strong relationships with existing clients and prioritize customer delight to ensure business continuity and scalability. Methodhub Consulting Inc. intends to implement a strategic plan to ensure the availability of adequate infrastructure, resources, and tools to efficiently meet project requirements and delivery commitments without any operational hindrances. Further, Methodhub Consulting Inc. plans to strengthen relationships with existing customers and ongoing engagements to identify and develop new business opportunities. Simultaneously, Methodhub Consulting Inc. plans to drive organic growth by acquiring new customers through structured lead generation initiatives and the continued efforts of its sales and business development teams. These measures are expected to contribute to consistent revenue growth, ensure business continuity in case of contingencies, and support the achievement of Methodhub Consulting Inc's strategic objectives.

Our Company plans to introduce niche and modern offerings to gain a competitive edge in key market segments. One such initiative is the fiduciary partner model, under which the Company proposes to implement Build-Operate-Transfer (BOT) and Extended Delivery Centre (EDC) arrangements for clients. These models are designed to help clients optimize costs, enhance operational efficiency, and ensure scalable and sustainable service delivery.

Another strategy is to go through war veteran owned companies which have to be considered for being given preference in Federal, State and large companies. We have a strategic arrangement with one such company which has already started yielding results on-site in the USA and is expected to grow significantly.

- Overseas Direct Investment (ODI) norms of RBI
- Other applicable laws in India and the United States of America

4. Funding unidentified inorganic acquisitions and general corporate purposes

A. *Unidentified inorganic acquisitions*

Funding inorganic growth through acquisition and other strategic initiatives We expect to utilize ₹ 205.92 million of the Net Proceeds towards funding inorganic growth through acquisitions and other strategic initiatives, subject to (a) the cumulative amount to be utilized for general corporate purposes and our object of 'Unidentified inorganic acquisitions' shall not exceed 35% of the Gross Proceeds, and (b) the amount to be utilized for our object of 'Unidentified inorganic acquisitions' shall not exceed 25% of the Gross Proceeds.

In light of the above and in pursuit of our overall strategy of expanding in Northern America, Canada and other geographies, expanding our network, nurturing and acquiring brands that will complement our existing business, we continue to selectively pursue opportunities for evaluating potential targets for strategic investments, acquisitions, and partnerships, that complement our product offerings, strengthen or establish our presence in our targeted domestic and overseas markets. We intend to expand into these business verticals and also strengthen existing verticals through acquisitions and strategic partnerships. See "*Our Business – Our Strategies*" on page 245.

We have benefited significantly from the acquisitions undertaken by us in the past. The table below summarizes the key acquisitions that we have undertaken in the past and our shareholding as on the date of this Prospectus. For further details including the consideration paid by us for these acquisitions, see "*Our Business*" on page 230 and "*History and Certain Corporate Matters – Details regarding material acquisition or disinvestment of business / undertakings, mergers, amalgamation, etc in the last ten years*" on page 276.

Year of Acquisition	Name of target	Country	Consideration paid in Foreign Currency in USD	Equivalent consideration in ₹ million	Capabilities acquired	Rational for acquisition	Key verticals

For further details, see *"Management's Discussion and Analysis of Financial Position and Results of Operations"* on page 353.

Our Company has identified a few targets in North America for which it has issued mutually executed letter of intent ("LOI") for two of them. These two and the other targets are in various stages of review / due diligence.
The details of such targets identified by our Company are as under:

Target Company	Services/Industry served
Target 1	IT Consulting/ Transportation and logistics
Target 2	Managed services / United States Federal / State transport department
Target 3	IT Consulting in Oracle ERP / CRM
Target 4	Business & IT Consulting, project management solutions

Rationale for investments and acquisitions in future

Some of the selection criteria that we may consider when evaluating strategic acquisitions include:

- expertise in the domain we operate in or wish to expand into;
- strategic fit to our existing business or serving connected extensions;
- enhance our geographical reach;
- strengthen market share in existing markets; and
- strong management team.

The amount of Net Proceeds proposed to be deployed for funding inorganic growth through potential acquisitions and strategic initiatives includes utilization of up to ₹ 205.92 million over Fiscal 2026. This amount is based on our management's current estimates and budgets, and our Company's historical acquisitions and strategic investments and partnerships, and other relevant considerations. The actual deployment of funds and the timing of deployment will depend on a number of factors, including the timing, nature, size and number of acquisitions or strategic initiatives proposed, as well as general macro- or micro-economic factors affecting our results of operation, financial condition and access to capital.

Our acquisition strategy is primarily driven by our Board and the typical framework and process that would be followed by us for acquisitions will involve identifying the strategic acquisitions based on the rationale set out above, entering into requisite non-disclosure agreements and conducting diligence of the target. On satisfactory conclusion of the diligence exercise, we will enter into definitive agreements to acquire the target based on the approval of our Board and the shareholders, if required. As on the date of this Prospectus, we have not entered into any definitive agreements towards any future acquisitions or strategic initiatives for the object set out above.

The actual acquisition will depend on number of factors, including the timing, nature, geographical and strategical location, size of acquisitions and other factors including but not limited to legal, operational and financial challenges, liabilities and the quality of asset to be undertaken and general factors affecting our results of operation, financial condition and access to capital. Another factor would be the organizational set-up, i.e., if the proposed acquisition to be undertaken by purchase of assets and/or liabilities by way of the acquisition of shares of the target entity by our Company or its Subsidiaries. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be directly done by our Company or whether these will be in the nature of asset or acquisitions or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as cash transactions, or be undertaken as share-based transactions, including share swaps, or a combination thereof. We intend to utilise the above-stated portion of the Net Proceeds towards our unidentified acquisitions and/or investments which may be undertaken over the course of next three Financial Years. The proposed inorganic acquisitions shall be undertaken in accordance with the applicable laws, including the Companies Act, FEMA and the regulations notified thereunder, as the case may be. The amount of Net Proceeds to be used for each individual acquisition and/ or investments will be based on our management's decision and may not be the total value or cost of any such investments, but is expected to provide us with sufficient financial leverage to pursue such investments. The actual deployment of funds will also depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken in a particular period, as well as general factors affecting our results of operation, financial condition and access to capital. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be in the form of equity, debt or any other instrument or combination thereof, or whether these will be in the nature of asset or technology acquisitions or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as share-based transactions, including share swaps, or a combination thereof, or be undertaken as cash transactions. At this stage, our Company cannot identify any acquisition targets and whether the form of investment will be cash, equity, debt or any other instrument or combinations thereof.

We intend to utilise the above-stated portion of the Net Proceeds towards our unidentified acquisitions and/or investments which may be undertaken over the course of next three Financial Years. The proposed inorganic acquisitions shall be undertaken in accordance with the applicable laws, including the Companies Act, FEMA and the regulations notified thereunder, as the case may be. The amount of Net Proceeds to be used for each individual acquisition and/ or investments will be based on our management's decision and may not be the total value or cost of any such investments, but is expected to provide us with sufficient financial leverage to pursue such investments. The actual deployment of funds will also depend on a number of factors, including the timing, nature, size and number of acquisitions undertaken in a particular period, as well as general factors affecting our results of operation,

financial condition and access to capital. These factors will also determine the form of investment for these potential acquisitions, i.e., whether they will be in the form of equity, debt or any other instrument or combination thereof, or whether these will be in the nature of asset or technology acquisitions or joint ventures. Acquisitions and inorganic growth initiatives may be undertaken as share-based transactions, including share swaps, or a combination thereof, or be undertaken as cash transactions. At this stage, our Company cannot identify any acquisition targets and whether the form of investment will be cash, equity, debt or any other instrument or combinations thereof.

B. General Corporate Purposes

The Net Proceeds will first be utilized for the Objects as set out above. Subject to this, our Company intends to deploy any balance Net Proceeds towards general corporate purposes, as approved by our management, from time to time, subject to (i) such utilization for general corporate purposes not exceeding 15% of the Gross Proceeds or ₹ 100 million whichever is lower, and (ii) the cumulative amount to be utilized for general corporate purposes and our object of 'Funding inorganic growth through acquisitions and other strategic initiatives' shall not exceed 35% of the Gross Proceeds, in compliance with SEBI ICDR Regulations.

The general corporate purposes for which our Company proposes to utilise Net Proceeds include, without limitation, meeting ongoing general corporate purposes or contingencies, strengthening marketing capabilities and brand building exercises, enhancing our technology related infrastructure, strategic initiatives, and acquisition and/or funding any shortfall in any of the above mentioned Objects.

The allocation or quantum of utilization of funds towards the specific purposes described above will be determined by our Board, based on our business requirements and other relevant considerations, from time to time. Our management, in accordance with the policies of the Board, shall have the flexibility in utilizing surplus amounts, if any. However, usage of funds will be as disclosed in the Objects of the Offer and any spill over from the intended Objects of the Offer to the general corporate purposes will not be carried out by the Company. In the event that we are unable to utilize the entire amount that we have currently estimated for use out of Net Proceeds in a Fiscal, we will utilize such unutilized amount in the next Fiscal, subject to compliance with applicable law. In addition to the above, our Company may utilise the Net Proceeds towards other purposes considered expedient and as approved periodically by our Board, subject to compliance with necessary provisions of the Companies Act. Our Company's management shall have flexibility in utilising surplus amounts, if any. Our management will have the discretion to revise our business plan from time to time and consequently our funding requirement and deployment of funds may change. This may also include rescheduling the proposed utilization of Net Proceeds. Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes.

Re: Proposed initial public offering of equity shares of face value Rs. 10 each ("Equity Shares") by Methodhub Software Limited ("Company") (referred to as the "Offer").

We hereby report that the enclosed **Annexure I** states the possible special tax benefits available to the Company and its shareholders, under direct and indirect taxes (together "**the Tax Laws**"), presently in force in India as on the signing date. These possible special tax benefits are dependent on the Company and its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and its shareholders to derive these possible special tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company and its shareholders may or may not choose to fulfill.

We were informed that the Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing Tax Laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares of the Company comprising a fresh issue of the Equity Shares by the Company particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the possible special tax benefits, which an investor can avail. Neither we are suggesting nor advising the investors to invest money based on this Statement.

We conducted our examination in accordance with the "Guidance Note on Reports or Certificates for Special Purposes (Revised 2016)" (the "**Guidance Note**") issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial information, and Other Assurance and Related Services Engagements.

We do not express any opinion or provide any assurance as to whether:

i)the Company and its shareholders will continue to obtain these possible special tax benefits in future; or

ii)the conditions prescribed for availing the possible special tax benefits where applicable, have been/ would be met with.

The contents of enclosed Annexures are based on the information, explanation and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Our views expressed herein are based on the facts and assumptions indicated to us. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of the Tax Laws and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to the Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to the Company and any other person in respect of this Statement, except as per applicable law.

We hereby give consent to include this Statement in the Draft Red Herring Prospectus, Red Herring Prospectus, and the Prospectus, and in any other material used in connection with the proposed Issue. The Statement is not to be used, referred to or distributed for any other purpose without our prior written consent.

Terms capitalised and not defined herein shall have the same meaning as ascribed to them in the Issue Documents.

ANNEXURE I

STATEMENT OF POSSIBLE SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHARE HOLDERS

The information provided below sets out the possible special direct and indirect tax benefits available to Methodhub Software Limited ("the Company") and the shareholders of the Company ('Shareholders") in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the subscription, ownership and disposal of equity shares of the Company, under the current Tax Laws presently in force in India. Several of these benefits are dependent on the shareholders fulfilling the conditions prescribed under the relevant Tax Laws. Hence, the ability of the shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which, based on business / commercial imperatives a shareholder faces, may or may not choose to fulfill. We do not express any opinion or provide any assurance as to whether the Company or its shareholders will continue to obtain these benefits in future. The following overview is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the issue. We are neither suggesting nor are we advising the investor to invest money or not to invest money based on this statement.

The statement below covers only relevant special direct and indirect tax law benefits and does not cover benefits under any other law.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION.

A. SPECIAL TAX BENEFITS TO THE COMPANY

The Company is not entitled to any special tax benefits under the Act.

B. SPECIAL TAX BENEFITS TO THE SHAREHOLDERS

The Shareholders of the Company are not entitled to any special tax benefits under the Act.

Note :
1.All the above benefits are as per the current tax laws and will be available only to the sole / first name holder where the shares are held by joint holders.
2.The above statement covers only certain relevant direct tax law benefits and does not cover any indirect tax law benefits or benefit under any other law.

No assurance is given that the revenue authorities/courts will concur with the views expressed herein.

Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. Global Economic Outlook

The global economy is at a precarious juncture, marked by heightened trade tensions and elevated policy uncertainty, according to the World Economic Situation and Prospects as of mid-2025. The recent surge in tariffs—driving the effective U.S. tariff rate up steeply—threatens to raise production costs, disrupt global supply chains and amplify financial turbulence. Uncertainty over trade and economic policies, combined with a volatile geopolitical landscape, is prompting businesses to delay or scale back critical investment decisions. These developments are compounding existing challenges, including high debt levels and sluggish productivity growth, further undermining global growth prospects. Global GDP growth is now forecast at just 2.4 per cent in 2025, down from 2.9 per cent in 2024 and 0.4 percentage points below the January 2025 projection.

The slowdown is broad-based, affecting both developed and developing economies. Growth in the United States is projected to decelerate significantly, from 2.8 per cent in 2024 to 1.6 per cent in 2025, with higher tariffs and policy uncertainty expected to weigh on private investment and consumption. In the European Union, GDP growth is forecast at 1.0 per cent in 2025, unchanged from 2024, amid weaker net exports and higher trade barriers.

For many developing countries, this bleak economic outlook undermines prospects for creating jobs, reducing poverty, and addressing inequality. For least developed countries—where growth is expected to slow from 4.5 per cent in 2024 to 4.1 per cent in 2025—declining export revenues, tightening financial conditions and reduced official development assistance flows threaten to further erode fiscal space and heighten the risk of debt distress. Escalating trade frictions are further straining the multilateral trading system, leaving small and vulnerable economies

increasingly marginalized in a fragmented global landscape.

Indian Economic Outlook

The global economy exhibited steady yet uneven growth across regions in 2024. A notable trend was the slowdown in global manufacturing, especially in Europe and parts of Asia, due to supply chain disruptions and weak external demand. In contrast, the services sector performed better, supporting growth in many economies. Inflationary pressures eased in most economies. However, services inflation has remained persistent. Although commodity prices have stabilized, the risk of synchronized price increases persists. With growth varying across economies and last-mile disinflation proving sticky, central banks may chart varying paths of monetary easing. This will lead to uncertainty over future policy rates and inflation trajectories. This apart, geopolitical tensions, ongoing conflicts, and trade policy risks continue to pose significant challenges to global economic stability. In this global context, India displayed steady economic growth. As per the first advance estimates of national accounts, India's real GDP is estimated to grow by 6.4 per cent in FY25. Growth in the first half of FY25 was supported by agriculture and services, with rural demand improving on the back of record Kharif production and favorable agricultural conditions. The manufacturing sector faced pressures due to weak global demand and domestic seasonal conditions. Private consumption remained stable, reflecting steady domestic demand. Fiscal discipline and strong external balance supported by a services trade surplus and healthy remittance growth contributed to macroeconomic stability. Together, these factors provided a solid foundation for sustained growth amid external uncertainties. Looking ahead, India's economic prospects for FY26 are balanced. Headwinds to growth include elevated geopolitical and trade uncertainties and possible commodity price shocks. Domestically, the translation of order books of private capital goods sector into sustained investment pick-up, improvements in consumer confidence, and corporate wage pick-up will be key to promoting growth. Rural demand, backed by a rebound in agricultural production, an anticipated easing of food inflation and a stable macro-economic environment provide an upside to near-term growth. Overall, India will need to improve its global competitiveness through grassroots-level structural reforms and deregulation to reinforce its medium-term growth potential

IT & BPM Industry in India

Introduction

The IT & BPM sector has become one of the strongest pillars of India's economy, contributing significantly to growth, employment, and public welfare. In April 2025, the industry recorded 16% YoY growth in hiring, driven by the rising adoption of artificial intelligence, cloud modernisation, and the expansion of Global Capability Centres (GCCs). India's AI Mission has also added momentum by securing 38,000 GPUs in September 2025, tripling its original target of 10,000 and strengthening compute power for researchers, startups, and enterprises developing advanced AI models.

With over 76 crore citizens now connected to the internet, India is home to one of the world's largest online populations while offering some of the lowest access costs. This has been supported by the Digital India Programme, which has expanded digital infrastructure and improved accessibility across the country. Together with growing private sector innovation and widespread adoption of digital applications, India is entering the next phase of its IT revolution. Reflecting this shift, the country climbed six places in the Global Innovation Index 2024 to secure the 39th position, highlighting its rising global competitiveness in technology and innovation.

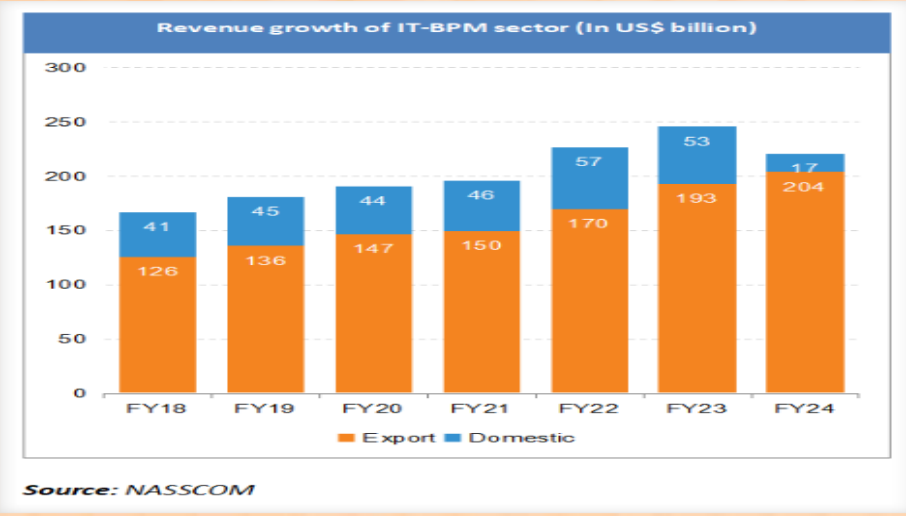

Market Size

As per NASSCOM, India's IT industry revenue has expanded from US$ 118 billion in FY15, including US$ 100 billion in exports, to an estimated US$ 283 billion in FY25, with exports contributing US$ 224 billion. IT exports rose 12.48% in FY25, up from US$ 199.5 billion in FY24, with STPI-registered units contributing Rs. 10.64 lakh crore (US$ 124.56 billion). Export of IT services remained the largest contributor, accounting for more than 65% of total IT exports. The United States continued to dominate as the top market with US$ 103.2 billion (54.1%) of exports, followed by Europe at US$ 58.8 billion (30.8%), including the United Kingdom at US$ 26.8 billion (14.1%). Asia, Australia & New Zealand, and Canada together accounted for about 10.5%. Within the export mix, BPM, engineering and R&D (ER&D), and software products contributed 26% and 8% respectively in FY24.

India's IT growth is being increasingly driven by new hubs beyond traditional metros. Non-metro cities such as Udaipur, Vizag, Coimbatore, and Nagpur recorded over 50% IT hiring growth in H1 2025, significantly higher than Bengaluru and NCR at 12–15%. This reflects a structural shift as tier-II and tier-III hubs attract demand in AI, cloud, and cybersecurity while offering cost savings of around 30%. Mid-tier IT companies also reported stronger growth than their larger counterparts in FY25, highlighting their agility in navigating uncertain global conditions, although sustaining this momentum in FY26 remains a challenge.

The domestic market is also expanding steadily. IT spending in India is estimated to have grown 11.1% in 2024 to reach US$ 138.6 billion, up from US$ 124.7 billion in 2023. The Indian software product industry is projected to reach US$ 100 billion by 2025 as companies expand globally and strengthen delivery centres.

The system infrastructure software market is forecast to reach US$ 20.8 billion by 2030, growing at a CAGR of 9.2% between 2023 and 2030. In parallel, the data annotation market, valued at US$ 250 million in FY20, is expected to surge to US$ 7 billion by 2030, driven by accelerated domestic demand for AI, even though the US continues to account for the bulk of current demand.

To further support the ecosystem, the government has partnered with Paytm (One97 Communications Ltd), under which the company will provide mentorship, infrastructure support, market access, and funding opportunities to startups. Looking ahead, India's IT industry is likely to reach US$ 350 billion by 2026, contributing nearly 10% to the nation's GDP, according to Infomerics Ratings. Increased adoption of cloud technology alone could generate 14 million jobs and add Rs. 33,01,060 crore (US$ 380 billion) to GDP by 2026, underscoring the sector's critical role in shaping India's digital and economic future.

Investments/Developments

Indian IT's core competencies and strengths have attracted significant investment from major countries and companies.

- The Goa government has launched the Goa AI Mission 2027, a strategic blueprint to build an inclusive, innovation-driven artificial intelligence (AI) ecosystem in the state. The mission aligns with the Centre's India AI Mission. It aims to empower citizens, strengthen governance, and fuel sector-wide innovation.
- Union Minister for Communications and Development of Northeast Region, Mr. Jyotiraditya M. Scindia, launched the artificial intelligence (AI) -powered mobile application for the upcoming India Mobile Congress (IMC) 2025, themed Innovate to Transform. The ninth edition of IMC will be held from October 8 to 11, 2025, at the Yashobhoomi Convention Centre, Dwarka, New Delhi.
- Prime Minister Mr. Narendra Modi's August 29-30 visit to Japan secured over Rs. 5,96,564 crore (US$ 68 billion) in investment pledges, alongside an economic security pact covering semiconductors, critical minerals, and AI, with discussions also advancing defence collaboration through technology transfer and joint military hardware development.
- A report from the Reserve Bank of India (RBI) suggests that generative Artificial Intelligence (AI) has the potential to enhance banking operations in India by up to 46%.

- Announced in July 2025, Google's US$ 6 billion investment to develop a 1-gigawatt data center in Visakhapatnam, Andhra Pradesh, representing the largest single data center investment in Asia.
- In July 2025, the IT & ITES industry led private equity funding with investments worth Rs. 5,994 crore (US$ 696.46 million). The largest deal was the Rs. 1,461 crore (US$ 170 million) investment in artificial intelligence (AI) analytics firm Fractal Analytics. The second-biggest transaction was the Rs. 613 crore (US$ 70 million) funding in risk management company Safe Security, followed by a Rs. 518 crore (US$ 60 million) investment in conversational AI platform Gupshup.
- In Q1 2025, the IT & ITES industry topped the funding chart with investments worth Rs. 33,603 crore (US$ 3.88 billion), led by deals in Impetus Technologies, Innovaccer, and Meesho.This was followed by the acquisitions of Wingify Software for Rs. 1,732 crore (US$ 200 million) by Everstone and Qburst by Multiples PE.
- The IT & ITES industry led investments with Rs. 49,738 crore (US$ 5.75 billion) in H1 2025. The largest deal was Rs. 3,028 crore (US$ 350 million) in data analytics and enterprise AI solutions provider Impetus Technologies, followed by Rs. 2,379 crore (US$ 275 million) in Innovaccer and Rs. 2,336 crore (US$ 270 million) in e-commerce platform Meesho.
- The computer software and hardware sector in India attracted cumulative foreign direct investment (FDI) inflows worth Rs. 7,84,971 crore (US$ 110.70 billion) between April 2000-March 2025. The sector ranked second in FDI inflows as per the data released by Department for Promotion of Industry and Internal Trade (DPIIT).
- Computer software and hardware make up 15.19% of the cumulative FDI equity inflows.
- Google inaugurated its Ananta campus in Bengaluru the company's largest campus in India and one of its largest offices globally. Spanning 1.6 million sq. ft., the new campus can house over 5,000 employees.
- Hyderabad, known for its prominence in the IT sector, achieved exports worth Rs. 2.68 lakh crore (US$ 32.2 billion) in FY24, with a workforce of 9.46 lakh employees. This represents a YoY growth of 11.2%.
- Direct employment in the IT services and BPO/ITeS segment was estimated to reach 5.4 million in FY23 with an addition of 290,000 people.
- The revenue of India's public cloud services market totalled US$ 6.2 billion in 2022, and it is expected to reach US$ 17.8 billion by 2027 growing at a CAGR of 23.4%.
- Announced in January 2025, Reliance Industries is set to build the world's largest data center in Jamnagar, Gujarat, marking a major step in its entry into India's artificial intelligence (AI) sector.
- In January 2025, TCS approved the Rs. 1,625 crore (US$ 187.1 million) acquisition of TRIL Bengaluru Real Estate Five & Six Ltd. to develop delivery centers, acquiring 100% equity in one year.

- In December 2024, TCS has expanded its partnership with Bank of Baroda, India's second largest public sector bank, to continue to implement an end-to-end financial inclusion solution over the next five years.
- In November 2024, TCS Partners With IIT KGP to Launch Advanced Research Center for Innovation in Digital Health, Robotics & Intelligent Systems.

Government Initiatives

Some of the major initiatives taken by the government to promote the IT and ITeS sector in India are as follows:

- The Union Budget 2024-25, presented by Finance Minister Nirmala Sitharaman on July 23, 2024, proposes an allocation of Rs. 1,16,342 crore (US$ 13.98 billion) for IT and Telecom sectors.
- In March 2024, The Cabinet approved an allocation of over Rs. 10,300 crore (US$ 1.2 billion) for the IndiaAI Mission, marking a significant step towards bolstering India's AI ecosystem.
- The government prioritizes cybersecurity, hyper-scale computing, AI, and blockchain. With data costs at Rs. 10/GB ($0.12/GB), India ranks among the world's cheapest.
- Cabinet approved PLI Scheme – 2.0 for IT Hardware with a budgetary outlay of Rs. 17,000 crore (US$ 2.06 billion).
- The government introduced the STP Scheme, which is a 100% export-oriented scheme for the development and export of computer software, including the export of professional services using communication links or physical media.
- The Department of Telecom, Government of India and Ministry of Communications, Government of Japan, signed an MoU to enhance cooperation in areas of 5G technologies, telecom security and submarine optical fibre cable systems.

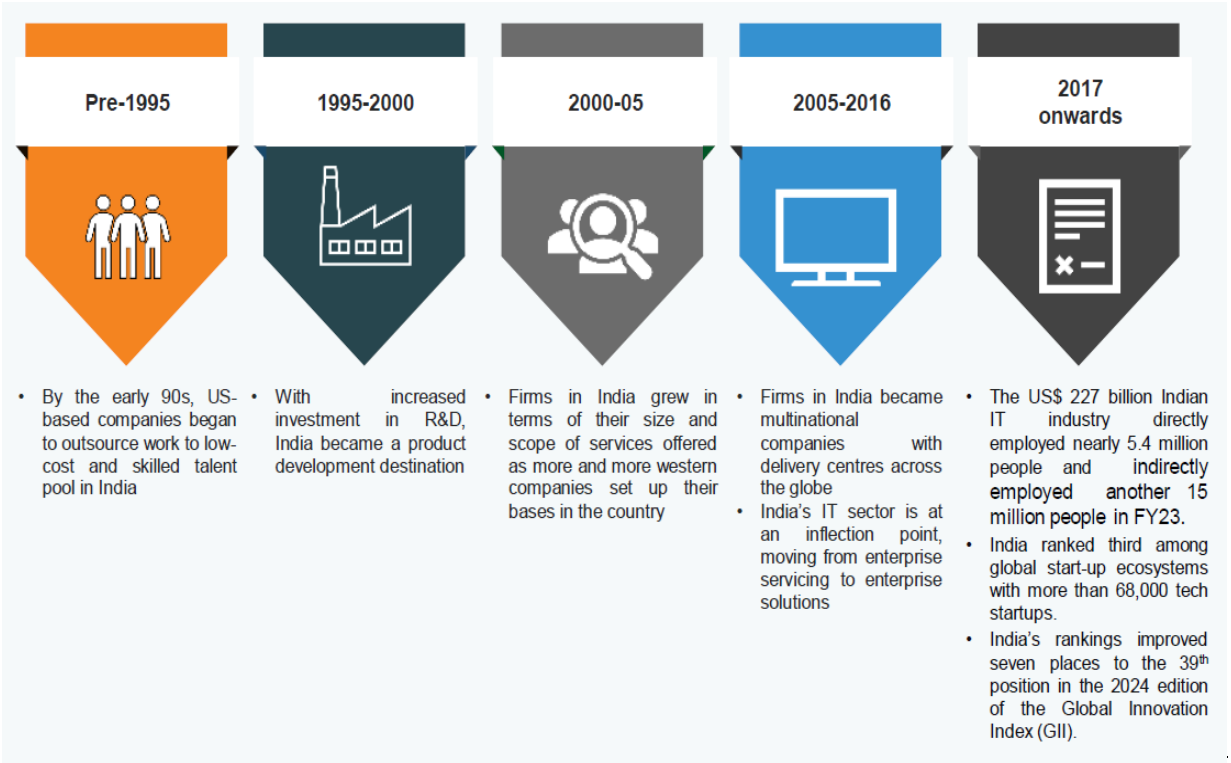

Road Ahead

India continues to be the world's leading offshoring destination, trusted for its ability to deliver both on-shore and off-shore services at scale. The sector is now entering a new phase, with emerging technologies such as AI, cloud, cybersecurity, and data engineering opening fresh avenues for growth. IT spending in India is expected to rise 11.1% year-on-year to US$ 161.5 billion in 2025, up from US$ 145.4 billion in 2024, according to Gartner. The domestic public cloud services market, which grew to US$ 3.8 billion in the first half of 2023, is projected to touch US$ 17.8 billion by 2027.

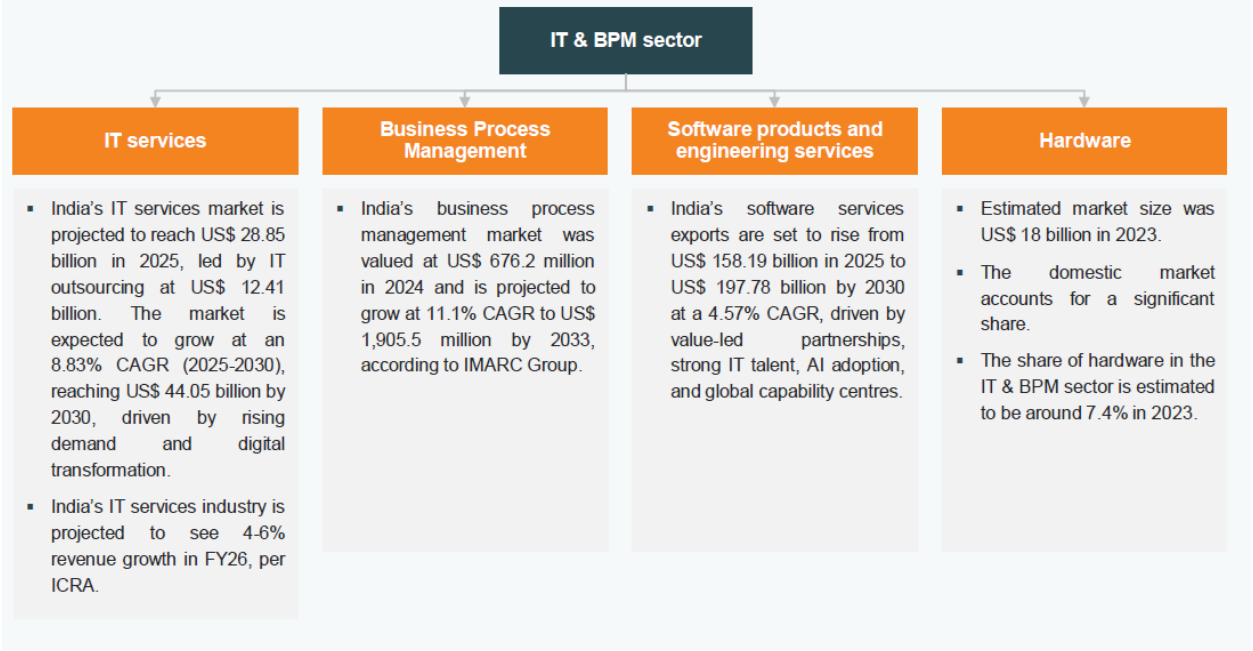

By 2026, widespread adoption of cloud technologies could generate 14 million jobs and add nearly US$ 380 billion to India's GDP. With a robust talent base, rising demand from non-metro hubs, and continued global confidence in its IT capabilities, India's technology industry is well-positioned to cement its role as a driver of digital transformation worldwide.

Evolution of Indian IT Sector

Segments of Indian IT Sector

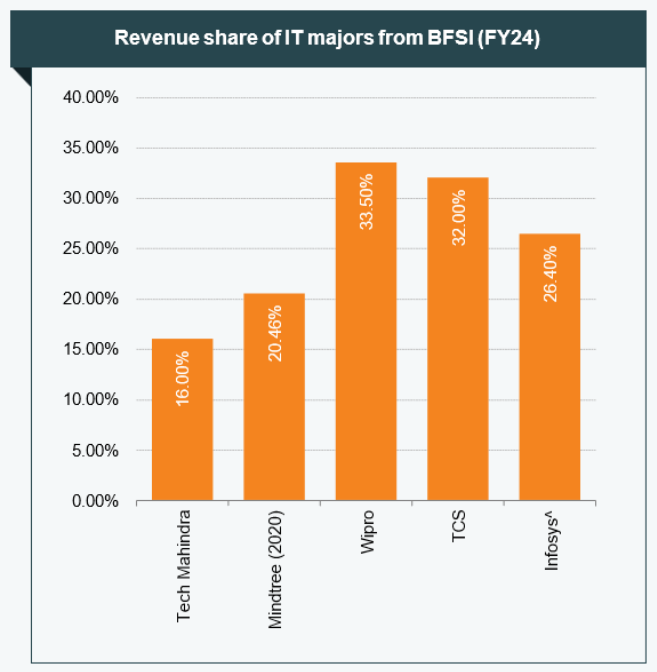

Strong growth in IT & BPM exports

- India's IT exports rose 12.48% in 2024-25 to US$224.4 billion from US$199.5 billion in 2023-24, with STPI registered units contributing Rs.10.64 lakh crore (US$124.56billion), according to MeitY citing Nasscom.
- Export of IT services was the major contributor, accounting for more than 65% of total IT exports
- Hyderabad, known for its prominence in the IT sector, achieved exports worth Rs 2.68 lakh crore (US $ 32.2 billion) in the FY 24 with a workforce of 9.46 lakh employees This represents a YoY growth of 11.2%
- In FY24, India's top five software services export destinations were the United States (US$ 103.2 billion, 54.1%), Europe (US$ 58.8 billion, 30.8%) including the United Kingdom (US$ 26.8 billion, 14.1%), Asia (US$ 12.8 billion, 6.7%), Australia & New Zealand (US$ 4.6 billion, 2.4%) and Canada (US$ 2.6 billion, 1.4%).
- BPM and engineering and R&D (ER&D) and software products exports accounted for 26% and 8%, respectively of total IT exports during FY24.
- The total software exports achieved by STPI-registered units is approximately Rs. 10.64 lakh crore (US$ 123.72 billion) in FY25.

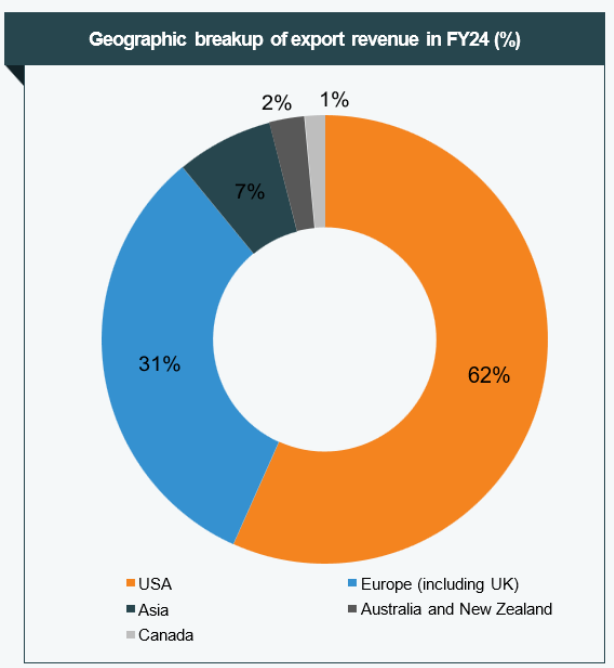

BFSI- a key business vertical for IT & BPM Industry

- BFSI is a key business vertical for the IT & BPM industry. A major share of revenue of IT majors comes from the BFSI business vertical.
- Adoption of new technologies is expected to accelerate the growth of the BFSI vertical. The need to undertake investment in IT will also be required to gain a competitive advantage instead of solely reducing operational costs.
- In 2025, from the top-tier IT companies' perspective, there would be an increase in uptake from the BFSI sector.
- The India BFSI BPO services market reached US$ 4.10 billion in 2024 and is projected to grow at a CAGR of 6.70% during 2025-2033, reaching US$ 7.32 billion by 2033. This growth is driven by cost-effectiveness, regulatory compliance requirements, digitalisation, increasing fintech usage, and enhanced risk management capabilities.
- BFSI emerged as the second fastest growing vertical for TCS in Q4 FY25. The company reported a total contract value of US$ 4 billion from BFSI clients, maintaining its position as the market leader with annual revenue of Rs. 2.48 trillion.
- Financial services accounted for 28.4% of Infosys's total revenue in Q4 FY25, compared to 26.4% in the same quarter the previous year. The company secured seven out of 24 large deals worth US$ 2.6 billion from the BFSI sector in Q4 FY25, with revenue from this vertical growing 12.6% in constant currency.
- The IT-BPM sector employs 5.4 million people as of 2024, with the BFSI vertical being one of the top employment-generating sectors. BFSI workforce demand increased by 21% during the first four months of 2024, indicating robust job market recovery.
- The IT services sector is projected to experience steady revenue growth of 7-9% in FY26, driven by increased BFSI spending and generative AI initiatives.
- As of June 2025, India's UPI system now serves 491 million individuals and 65 million merchants. It connects 675 banks on a single platform, allowing people to make payments easily without worrying about which bank they use. The average daily transactions reached 613 million in June 2025, increasing from 602 million in May.

Note: *BFSI - Banking, Financial Services and Insurance, mentioned figures are for IT and BPM only and do not include engineering services and hardware exports, ^For the 'Financial Services' vertical*

With over 54% share, the US is a major importer of Tech services

- In FY24, India's software services exports to the United States stood at US$ 103.2 billion, accounting for 54.1%.
- Exports to Europe were valued at US$ 58.8 billion, forming 30.8%, of which the United Kingdom contributed US$ 26.8 billion or 14.1%.
- Exports to Asia touched US$ 12.8 billion, making up 6.7%.
- Australia & New Zealand together accounted for US$ 4.6 billion, or 2.4%.
- Exports to Canada stood at US$ 2.6 billion, representing 1.4%.

Notable Trends

Global delivery model

- Indian software product industry is expected to reach Rs. 8,62,000 crore (US$ 100 billion) by 2025. Indian companies are focusing on investing internationally to expand their global footprint and enhance their global delivery centers.
- As of September 2024, TCS employs more than 23,000 people in the UK and Ireland, making it among the region's biggest IT employers.

India to become the data annotation and labelling hub

- The data annotation market in India stood at US$ 250 million in FY20, of which the US market contributed almost 60% to the overall value. The market is expected to reach US$ 7 billion by 2030 due to accelerated domestic demand for AI.

New technologies

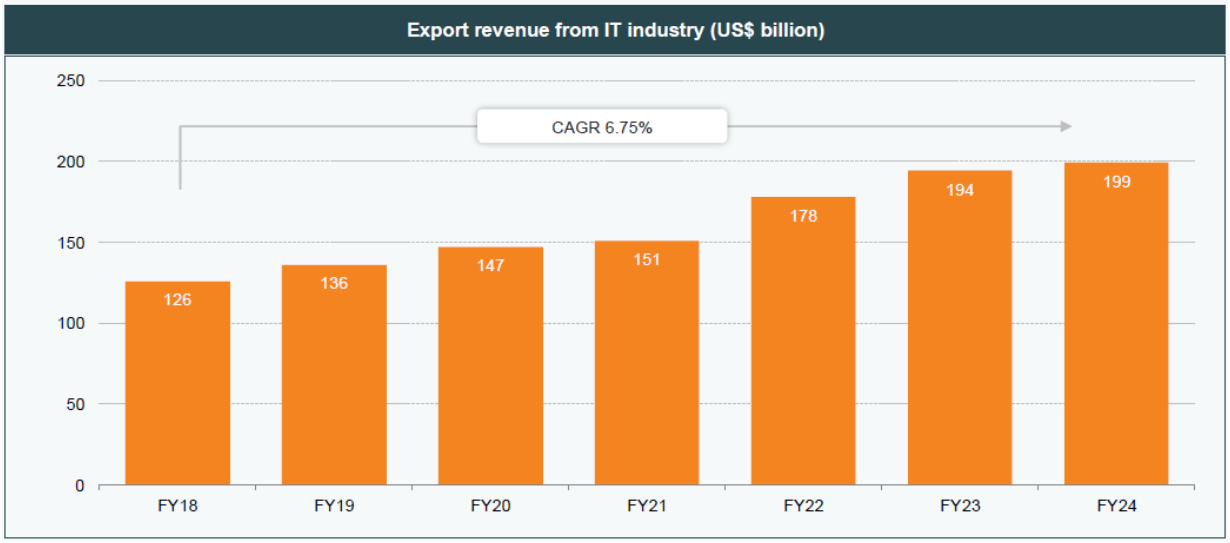

- Disruptive technologies such as cloud computing, social media, and data analytics are offering new avenues of growth across verticals for IT companies In addition, emerging technologies like artificial intelligence, machine learning, blockchain, the Internet of Things (and robotic process automation are driving further innovation and creating additional opportunities for market expansion.
- In June 2022 ZStack International, a worldwide market leader in cloud computing, IaaS and PaaS solutions,

announced that they were entering India and the SAARC Region.

- American Irish consumer credit reporting company Experian is planning a major expansion of its global innovation Center (in Hyderabad to about 4,000 employees over the next three to five years According to sources, GIC will concentrate on employing emerging technologies in the BFSI (financial services, and insurance) sector, including cloud computing, big data analytics, artificial intelligence, and machine learning.

Exports to remain robust as global IT industry maintains growth

- As an estimate, India's IT export revenue rose by 3.3% YoY in constant currency to US$ 199 billion in FY 24.
- Export revenue from the industry grew at a CAGR of 6.75% to US$ 199 billion in FY 24 from US$ 126 billion in FY 18

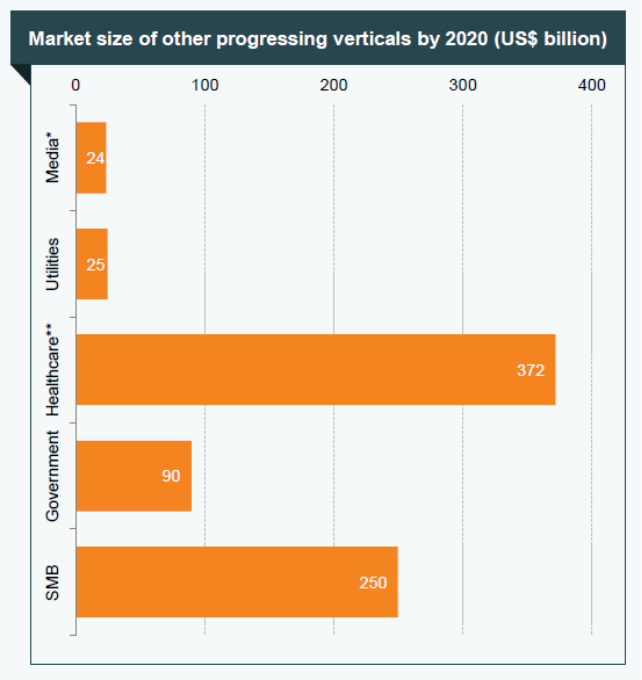

SEZs to drive IT sector; tier II cities emerge as new centers

- IT SEZs have been initiated with the aim to create zones that lead to infrastructural development, exports and employment.
- Over 50 cities already have the basic infrastructure and human resources to support the global sourcing and business services industry Some cities are expected to emerge as regional hubs supporting domestic companies.
- Software Technology Parks of India (has set up 65 centers across the country to provide single window clearance and infrastructure facilities STPI units can avail excise duty exemptions on procurement of indigenously manufactured goods Notably 57 centers are in Tier II/III cities.

Parameters	STPI	SEZ
Term	▪ 10 years	▪ 15 years
Fiscal benefits	▪ 100% tax holiday on export profits ▪ Exemption from excise duties and customs	▪ 100% tax holiday on exports for first 5 years ▪ Exemption from excise duties and customs
Location and size restrictions	▪ No location constraints ▪ 23% STPI units in tier II and III cities	▪ Restricted to prescribed zones with a minimum area of 25 acres

Expansion of focus areas to aid future growth

- The Cabinet approved an allocation of over Rs 10,300 crore US$ 1.2 billion) for the IndiaAI Mission, marking a significant step towards bolstering India's AI ecosystem This substantial financial infusion, slated over the next 5 years, is poised to catalyze various components of the IndiaAI Mission, including pivotal initiatives like the IndiaAI Compute Capacity, IndiaAI Innovation Centre (IndiaAI Datasets Platform, IndiaAI Application Development Initiative, IndiaAI FutureSkills IndiaAI Startup Financing, and Safe Trusted AI A cornerstone of this effort is the IndiaAI Compute Capacity, envisioned to erect a cutting edge, scalable AI computing infrastructure by deploying over 10,000 Graphics Processing Units (through strategic public private collaborations.
- India and France emphasized democratized AI access, ethical deployment, and cross border collaboration in AI governance at the AI Action Summit in Paris.
- The government has approved the procurement of 19,000 GPUs to build AI data centers and foundational AI models, exceeding the initial target of 10,000 GPUs.
- The government has also announced the establishment of five National Centers of Excellence for Skilling, focused on training professionals in AI, automation, and advanced IT technologies.
- Technologies, such as telemedicine, health, remote monitoring solutions and clinical information systems, would continue to boost demand for IT services across the globe.
- IT sophistication in the utilities segment and the need for standardization of the process is expected to drive demand.
- Digitization of content and increased connectivity is leading to a rise in IT adoption by the media.
- RBI is executing a plan to reduce online transaction costs to encourage digital banking in India.
- Emerging geographies would drive the next phase of growth for IT firms in India.
- AI and new age tech to increase India's annual growth rate by 1.3% by 2035.
- Focus on building local credible presence, high degree of domain expertise at competitive costs and attaining operational excellence hold key to success in new geographies.
  Emphasis on export of IT services to current importers of other products and services.

CY24 Global Trends- Stability makes a comeback

After the uncertainty that the world has witnessed over the past four years driven by a once-in-a-century pandemic, eruption of geopolitical conflicts, and extreme weather events that disrupted supply chains, and prompted governments to take unprecedented actions, 2024 began with signs of improved economic activity across major regions being better aligned to their potential.

This is reflected in the near-stable global GDP growth rate of 3.2% for CY24, down 10 bps from the 3.3% in CY23, but revised upwards from the 3.1% reported last year, despite delayed and lower quantum of rate cuts in major economies due to regional pockets of resilience, particularly a steady US, resurgent UK and Europe, and growing Middle East.

Discretionary spending continued to stay muted as most of the core spending sectors, including BFSI and healthcare grew much slower, while manufacturing, telecom, and retail de-grew. Semiconductor had the highest growth in CY24.

Global technology growth remains positive

According to IDC, global technology industry witnessed significant growth with the global tech spending growing 10.8% primarily driven by strong hardware and software spending, while IT services growth remained flat at 4.7%.

According to ISG, global annual contract value (ACV) crossed the $100 million mark reaching $104.1 Bn growing 11.2% y-o-y, driven by increase in both managed services and As-a-Service ACV growing at 2% and 18% y-o-y respectively. According to Everest Group, global sourcing spend grew 3% in CY24 reaching $289-294 Bn, with India accounting for 57-58% of the sourcing spend, continuing to be the most favored global sourcing location.

Indian Technology Industry Demonstrates Resilience

While FY24 emphasized on the industry's mettle to sail through a tough year, FY25 witnessed the industry strengthening its position as the global technology and innovation hub, reflected in higher revenue and hiring growth, growing share of GCCs, and increase in complex technology development.

Despite uncertainties due to elections in several countries, the industry witnessed resilient growth in FY25 with revenue (including hardware) estimated to reach $283 Bn (5.1% y-o-y growth), an addition of nearly $14 Bn over last year.Exports at $224 Bn is expected to grow 4.6% y-o-y, while the Domestic technology sector is expected to cross $58.2 Bn, growing at 7.0% y-o-y.

With improving market conditions, the industry is expected to add 126K net employees this year, taking the total employee base to 5.8 Mn (2.2% y-o-y growth). Core markets USA and BFSI resurfaced as the key growth drivers with APAC, telecom, retail and healthcare emerging as the other key growth markets for the industry.

ER&D the Fastest Growing Export Segment for the Fourth Consecutive Year

1. IT services is expected to grow at 3.7% in FY25 y-o-y driven by the rise of Generative AI usage, cloud-native technologies, India's emergence as a global cybersecurity services hub, and increasing demand for data engineering services.
2. Business Process Management (BPM) is witnessing broad based growth with optimism in the financial market and demand for tech and AI led solutions and is expected to grow 4.4% in FY25.
3. ER&D maintains its lead as the fastest growing segment at 7.0% driven by increased focus on innovation, regional manufacturing and digital engineering.
4. Software products is witnessing increased demand from evolution of horizontal SaaS (software-as-a-service) to AI enabled SaaS pushing verticalization of software products, and is expected to grow 3.9% y-o-y.

- Indian IT services was driven by expansion of AI-led delivery, cloud-native technologies, and cybersecurity services. The year highlighted growing adoption of these technologies, signaling a future where innovation and resilience are paramount in navigating the ever evolving and complex tech landscape.
- BPM witnessed transformation and reimagination of services as it drives innovation and adapts to the evolving client needs. GenAI became the top investment focus for organizations, amidst increased demand for customized BPM solutions across micro verticals including BFSI, healthcare, retail, and telecom.
- Software products and DeepTech remained catalysts for innovation and change. Software products ecosystem continues to play a pivotal role in driving transformative solutions across industries, while the technology startup ecosystem supports in addressing emerging challenges through cutting-edge technologies.
- ER&D remains the hotbed of opportunities emerging as the highest growth segment for the fourth consecutive year. This rapid growth is driven by increased focus across organizations towards outsourcing their research and engineering requirements as India transforms from a low-cost R&D destination to a global innovation hub.
- GCC emerged as the poster-child for tech industry with the number of new GCCs setup and expansions of existing GCCs witnessing accelerated growth. The segment underwent notable transformations characterized by growing mid-market GCCs, 'GCC as a Service' model and increased focus on skill development and innovation.
- AI strategy matured from self-led to partnership-led as majority clients seek PoC-to-production with simultaneous developments in both AI democratization and practical AI convergence. CY23 witnessed experimentations with LLMs for text-to-image models, open and closed-source models, first-pass prompts and hallucination-reducing techniques, with CY24 seeing a decisive shift toward practical use cases and vertical AI solutions. The year saw focus pivoting from raw capabilities to reliability, efficiency, and specificity led by improvements in model reasoning, factuality, and context management.
- Skill focused talent development and management remained a key focus with increased application of AI/GenAI in the tech sector further strengthening it across organizations. Professional skills and learning attitude gained prominence as top HR priorities, while 'Skills-First' emerged as the new approach for talent management. With this shift towards skilling academia also concentrated on redesigning curriculum in line with industry requirements to make the students' future ready.
- The domestic market maintained its vigour and grew faster than exports, second time in a row driven by the demand push from the government, enterprises and consumer segments with digital transformation and AI/GenAI emerging as the key focus areas of spending.

- India rising continued to be the dominant growth theme for the year with the country all set to fulfil the vision of a Viksit Bharat by 2047 which aims to transform the country into a developed and self- reliant nation by the year 2047. This is also reflected in the improvements that the country has witnessed across economic development, employment statistics, global competitiveness, physical and digital infrastructure, sustainability and innovation and the overall tech ecosystem which includes the diverse landscape, cost competitiveness, robust tech talent pool and government policies and investment.

CY25: A Year of Possibilities & Technological Leaps

The start of a gradual demand revival backed by a limited soft recession, easing of monetary policies, and higher private capex for CY24, sets the foundation for the growth in CY25 with global GDP expected to increase 3.3%, 10 bps higher compared to CY24 with advanced economies taking the driver seat. However, the ongoing geopolitical conflicts, rising costs of ignoring climate action and exacerbating trade tensions due to protectionist policies could create disruptive growth shocks.

Nasscom Annual Enterprise CXO Survey 2025 indicates stronger growth momentum for CY25 with higher technology spend, particularly AI-led digital spend, enterprises are likely to invest in convergence of tech spend into high-impact use cases that could provide the foundation for the next five years of technological leaps.82% of the CXOs expect to increase digital spend by 5%+ compared to CY24.

For technology providers, FY26 is expected to see greater technology spending with 77% of the providers in the Nasscom Annual Tech Services CXO Survey 2025 expecting a higher business growth compared to last year driven by growing foundational digital scope, emerging markets, and strategic AI-led demand. Hiring growth expectations are also modest with 45% of the providers expecting increased hiring compared to FY25. However, providers remain cautious of challenges emerging from AI-led services transformation, skills/labour shortage, cyber risks, and margin pressures. On the external side, macroeconomic and geopolitical upheavals and widening trade tariffs remain major challenges.

For the industry to focus beyond disruptions and become future-ready it is imperative to focus on the following:

Transformative Future Technologies Redefining a Digital-First World

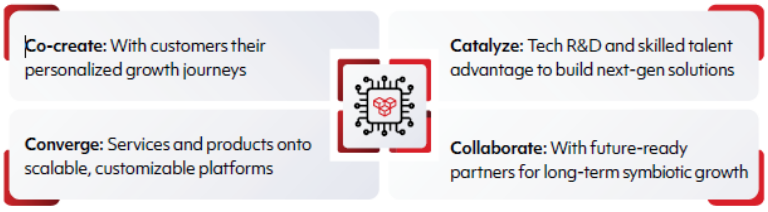

The emergence of GenAI has fuelled a global shift to digital native AI-first business models to -exploit the democratization of intelligence that this tech offers –from legacy companies trying a foot-in-the-digital door, to digital-natives spending on forward-looking tech. We have identified seven major technology domains and 20 key transformative technologies that could redefine the paradigm of a digital-first world over the next 4-5 years.

- **AI/ML -** Autonomous AI Agents, Multiagent AI systems, Edge AI, Disinformation Security, Autonomous Security, Business-to- Machine Models
- **Digital Twins –** Human Organs, Customer Experience, Digital Threads
- **Next- Generation Computing –** Quantum Computing, Spatial Computing,

- **Bio-Technology -** Intracellular Therapeutics, Synthetic Biology, 3D Bioprinting
- **Industrial Robotics –** Polyfunctional Robotics, Humanoid Robotics
- **Energy Security –** Distributed Energy Storage, Digital Grids
- **Autonomous Systems -** Neuromorphic Control Systems (Brain-Machine), Self-Driving Vehicles

4C's to Go Beyond Disruptions and Become Future-Ready Today

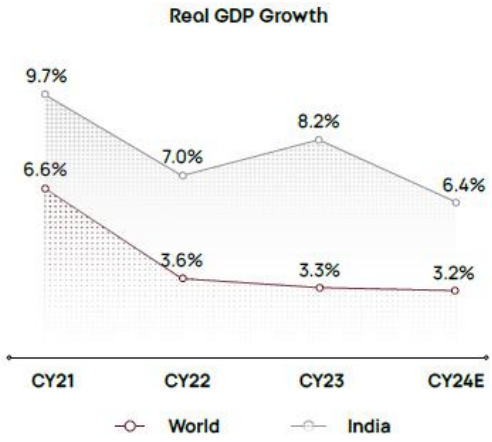

Indian tech industry is at yet another cusp of transformation where it is required to lead with a digital- first, but humancentric approach in a rapidly shape-shifting digital era. For the industry to go beyond disruptions, capitalise on the growth signals and become future-ready today, we recommend a set of '4C' strategic imperatives:

Global Macroeconomic Trends

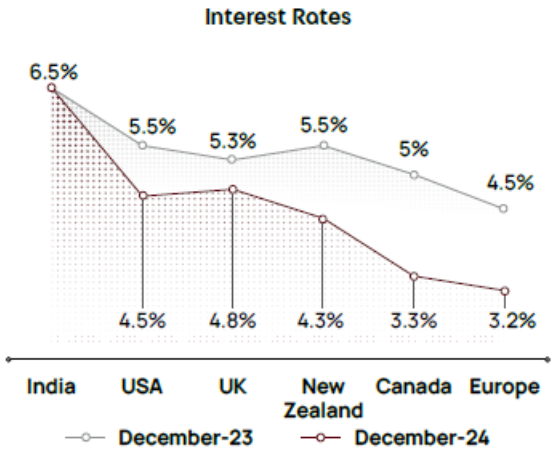

Stable real GDP growth

Late-n-less rate cuts fail to cause deceleration At 3.2%, CY24 is expected to close with near-stable global GDP growth rate, down 10 bps from the 3.3% in CY23 that was revised upwards from the 3.1% reported at this time last year.

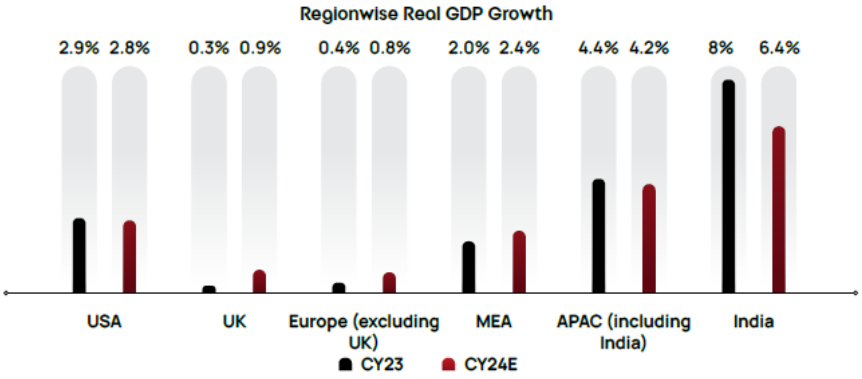

Late-n-less rate cuts **fail to cause deceleration**

27 of the 37 major economies' central banks cut rates in CY24 between 25-175 bps, below and behind expectations at the start of the year. Most regions saw persisting inflation and lower rate cuts, but did not expect steady growth.

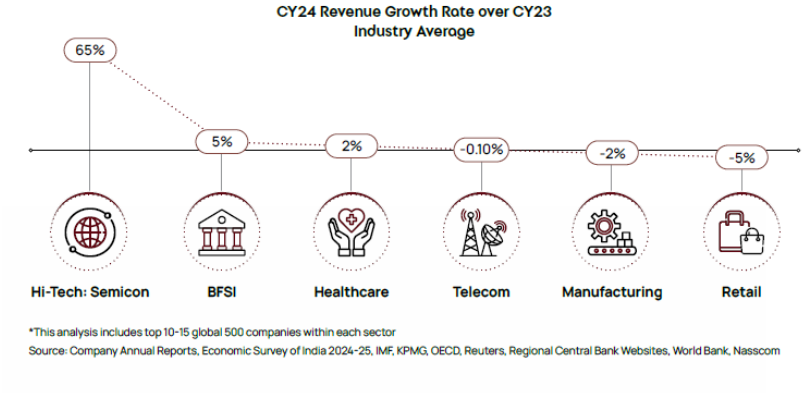

Growth seen in regional pockets

Private consumption in European markets, tight labor conditions in the US, combined with new market opportunities across MEA held CY24 growth steady. APAC declined slightly despite major downward adjustment to China and India GDP rates with ASEAN growing well.

Core sectors underperform

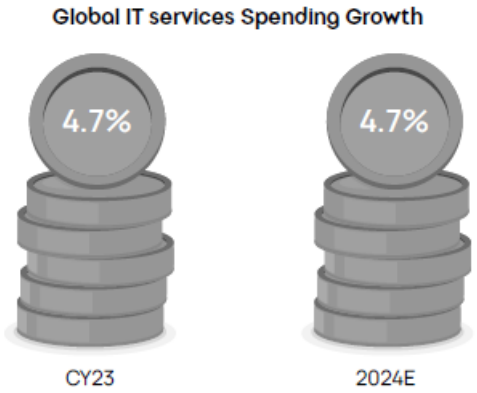

BFSI and healthcare grew relatively slower compared to CY23, while retail, manufacturing, and telecom de-grew in H1CY24, compared to H1CY23. Within manufacturing, automotive vertical saw significant decline affecting European demand, while semiconductor companies recorded 65% y-o-y growth.

CY24 Global Technology Trends

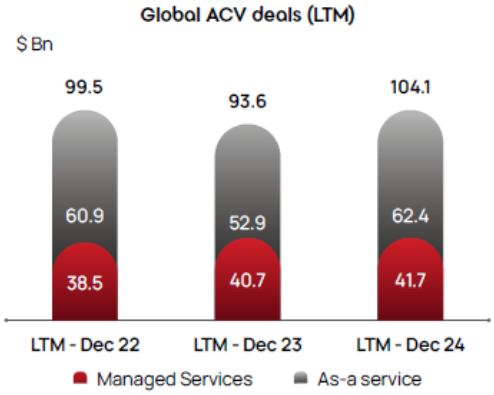

Global IT services spend growth flat at 4.7%

IT services spend worldwide growth stayed flat at 4.7%, same as CY23. However, overall techspend1 grew by 10.8% y-o-y on the back of a 10% jump in hardware spending coming at 12.2% y-o-y growth and incremental growth in software spending at 13.8%, up 1.3% from CY23.

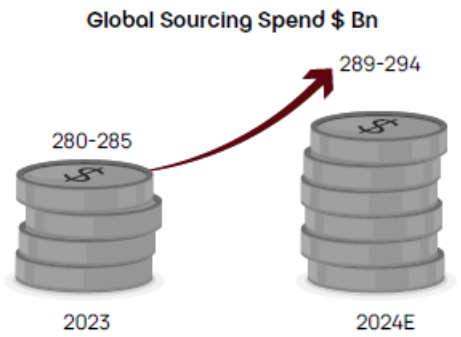

Global **tech contracts grew by 11% in CY24**

Global annual contract value (ACV) in CY24 grew 11.2% y-o-y to $104.1 Bn, driven by increase in both managed services ACV of $41.7 Bn at 2% y-o-y growth and As-a-Service ACV of $62.4 Bn at 18% y-o-y increase.

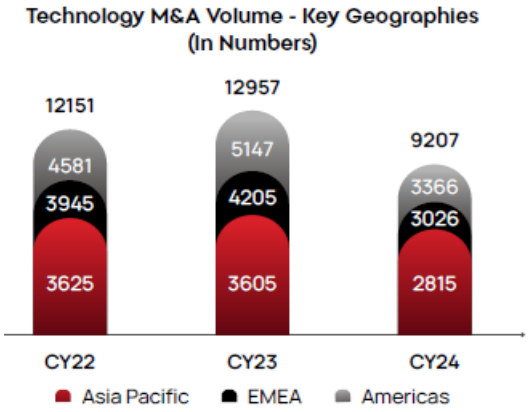

Global sourcing spend rises 3% in CY24

Global sourcing market is estimated to have grown ~3% in CY24, reaching $289-294 Bn, from $280-285 Bn in CY23. IT offshoring (ITO) market is estimated at $168-170 Bn, growing at 1.8% while the business process outsourcing (BPO) market is estimated at $122-124 Bn, a growth of 4.2% over CY23. India continues to be the most favored global sourcing destination.

Global tech M&A volume declined by ~29% in CY24

Global tech industry accounted for 20% by volume and 18% by value of total global M&A of $655 Bn in CY24, dominated by the software product companies, and a stable M&A trend in APAC, amongst a sharp decline in Americas

Shift in imperatives for technology deployment in CY24

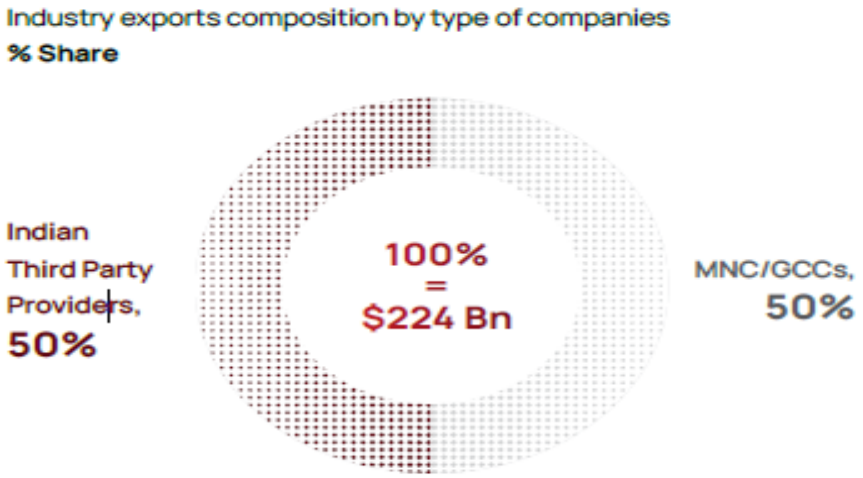

- Strength in developed markets of US, UK, and Europe, despite persistent inflation and lower-than-expected rate cuts, held growth in 2024 and resulting nondiscretionary tech spend. • Certain emerging markets, prominently Middle East and ASEAN countries, grew robustly, thereby creating opportunities for diversification of the current tech providers' portfolio.
- Growth varied within sectors, creating micro-verticals of concentrated high growth. For instance, while larger banking and insurance segments stayed flat or de-grew, financial services performed well. Providers with that exposure or ability to pivot benefited from the micro-vertical focused strategy.
- Tech services spending stayed at the same levels as in CY23, but not much lower against the uncertainties due to GenAI-led disruption. More as-a-service deals compensated and mega deals held steady at similar levels to CY23.
- AI-related deals saw an increase, and so did data services projects as organizations geared up to become AI-ready.
- Within as-a-service deals, enterprises increased investments in infrastructure-as-a-service to procure more compute and store for AI workloads, driving up cloud adoption.
- Greater tech and digital allocation also manifested in more IT and BPM outsourcing contracts being materialized. BPM managed services grew the most as BPM providers quickly pivoted to AI-enabled customer service and process transformation offerings.
- More global MNCs took to offshore insourcing of tech services by setting up global capability centers (GCCs) in locations with tech talent and cost advantages.

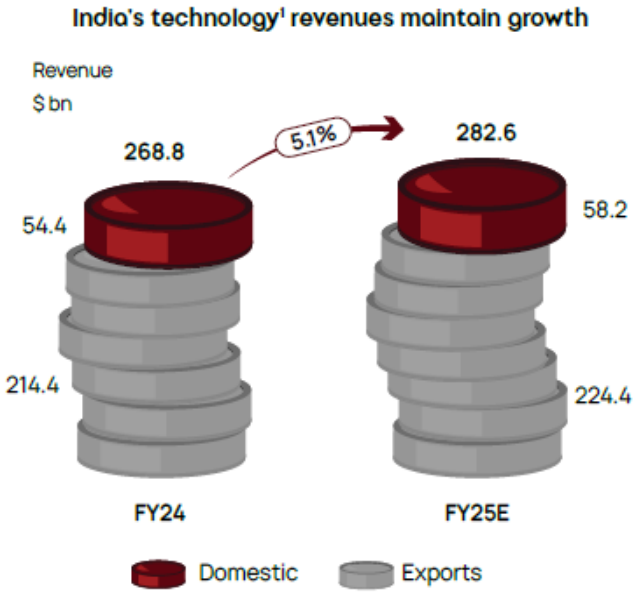

- India continued to be the most preferred global location for outsourcing and GCC establishments in CY24.

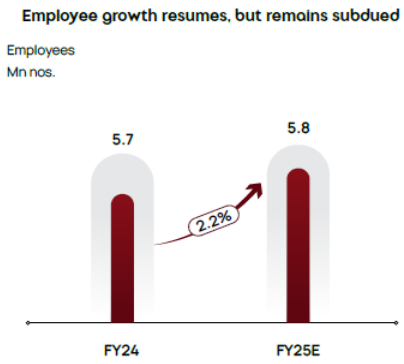

FY25E – Technology industry traverses the $280 Bn mark

Changing structure of the Indian tech industry

Indian tech sector is on its way to become the global technology and innovation hub, which is reflected in the increasing share of MNCs and GCCs which today account for nearly 50% of the total tech sector revenues in the country. Over the last five years the number of GCCs in the country have increased from 1285+ in FY19 to 1750+ GCCs in FY25 employing over 1.9 million professionals. India's innovation prowess is reflected in the fact that most of the MNCs and GCCs today house their largest engineering teams in India which are supporting the nextgen technology innovation. This maturity in capability is also reflected in India's technology revenue which is expected to grow 5.1% in FY25 - from $268.8 Bn in FY24 to $282.6 Bn (including IT services, BPM, Software products, ER&D, and Hardware).

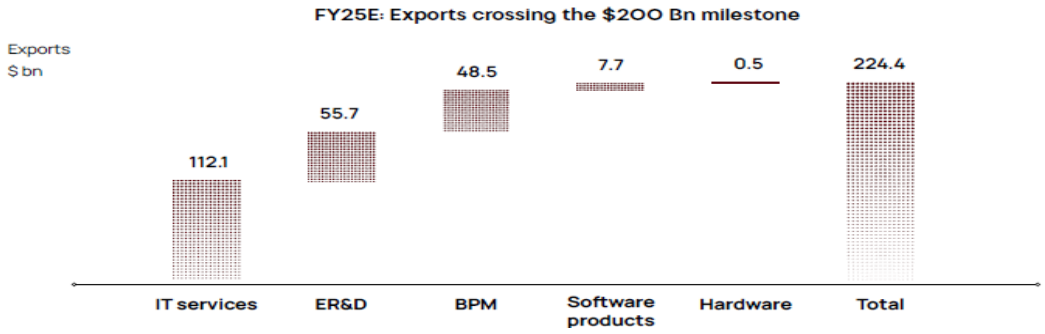

The direct employment in the industry is estimated to reach 5.8 Mn people, indicating a net addition of 126,000 people over FY24, 1.4x higher than last year's lowest ever addition.

Exports for the industry are expected to cross $224 Bn (incl. hardware), an addition of $10 Bn, growth of 4.6% over FY24.

All Export Segments Record Positive Growth Rates

IT services

3.7% growth; driven by the rise of Generative AI usage across the delivery cycle, cloud-native technologies accelerating time to market, India's emergence as a global cybersecurity services hub, and increase in demand for data engineering services.

BPM

4.4% growth; this segment witnessed broad based growth with optimism in the financial market and demand for tech and AI led solutions. Prior investments in developing specialized capabilities in data monetization, harnessing cloud-based AI and analytics, platform-based services and automation are now yielding results.

Software products

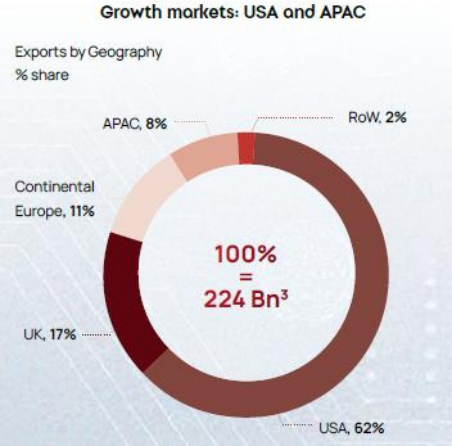

Growing at 3.9%; evolution of horizontal SaaS (software-as-a-service) to AI enabled SaaS is pushing verticalization of software products, in turn increasing the demand across industries.

ER&D

Fastest growing at 7%, as ER&D intensity across sectors continues, driven by the focus on innovation, emphasis on regional manufacturing coming from the China plus one approach and the concentration on digital engineering with the growth in AI. Domain wise transportation and sustainability led the growth for the segment.

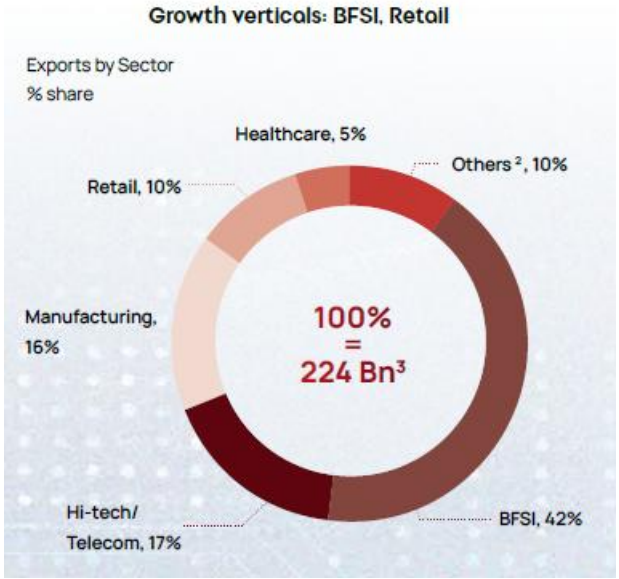

USA witnessed a resurgence in growth

USA, the largest market grew at 5.3%, demonstrating signs of recovery with increased client spending. Continental Europe, UK and APAC grew at 3.3%, 2.8% and 5.5%, respectively, driven by increased traction in the BFSI segment, while APAC continues to witness increasing investment in technology.

Growth Sectors – BFSI regains growth momentum

With global geopolitical tension easing out, clients are now shifting their focus from efficiency to high-priority transformation projects that were put on hold last year. BFSI, retail, healthcare and telecom emerged as the leading growth segment.

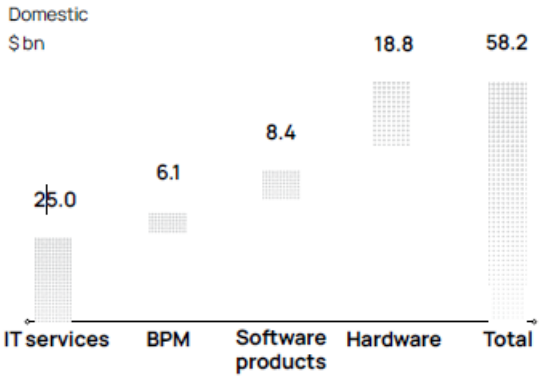

Domestic Segment - Continues to lead growth

FY25E: Domestic market continues to lead growth at 7%

Domestic revenues is expected to register a growth of 7% in FY25, higher than exports for the second year in a row, reaching $58.2 Bn.

Demand push both by the government and enterprises with a focus on AI/ GenAI, cloud, and cybersecurity emerged as a key driver for growth this year. Steady rise in digital consumers especially in the Tier 1 and 2 cities, played the lead role on the consumer side.

AI-led deals, M&A and partnerships remains a key growth strategy

Key highlights of technology deals, M&A and partnerships in CY24

Deals

1.1x – Increase in technology deals

1.8x – Growth in large deals[1]

Growth in key verticals:

- Telecom 1.7x
- BFSI 1.2x
- Retail 1.2x

Rise in capabilities

- Digital engineering 2.2x
- Cloud 1.8x
- AI & Gen AI 1.1x

M&A[2]

M&A value increased 1.3x

Domestic M&A value increased 1.4x

Capabilities in demand

- Digital Experience
- Product Engineering
- AI

Partnerships

3x surge y-o-y in digital technologies partnerships:

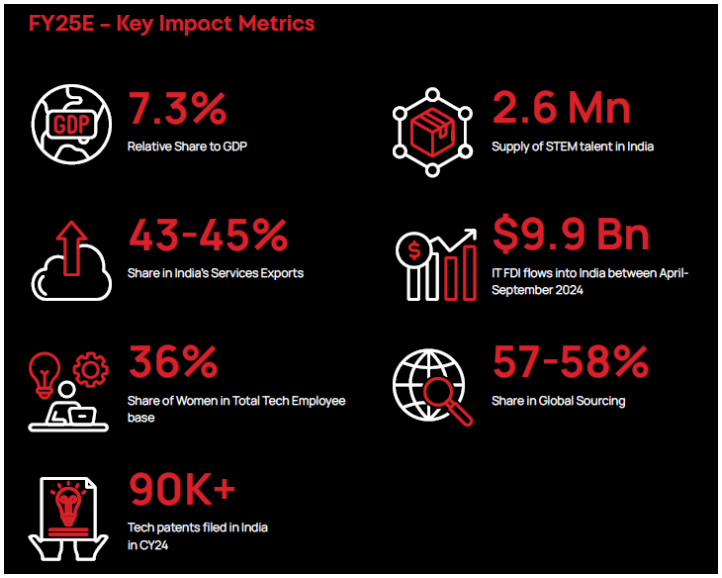

- Includes - AI, robotics, blockchain, cloud, analytics
- ~90% of this growth led by AI

Growth in partnerships:

- For co-creating offerings – 1.6x
- Academia – 2.6x
- Government – 1.2x

Number of deals won by Indian tech companies increased 8% y-o-y for CY24, primarily driven by the increased uptake in North America, and improved momentum in Telecom, BFSI and Retail verticals, while the deal duration remained stable at 5-6 years. In CY24, technology M&A's value increased 25% y-o-y driven by increased focus on geographic & vertical expansion and strengthening capabilities.

Corporate alliances were led by building AI capabilities to enhance efficiency, customer experience and innovation; and to create transformative sector-wide co-offerings. Academic partnerships were primarily driven by advanced research and addressing skill demands in AI and other emerging technologies. Government partnerships focused on creating Centres of Excellence (COEs), improving digital infrastructure, and skilling initiatives.

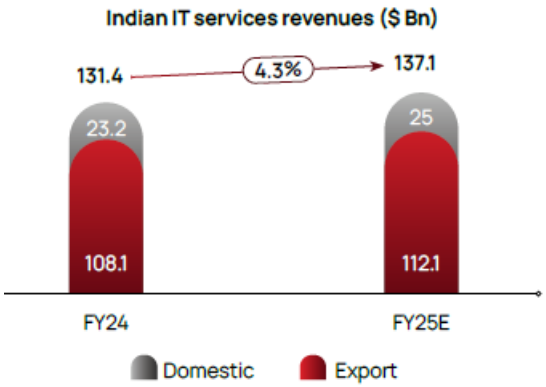

Themes That Defined FY25E

IT services: Expansion of AI led delivery, cloudnative technologies, and cybersecurity services

The convergence of AI advancements, cloud-native development, and intensified cybersecurity needs has driven the recovery for IT services in FY25. Organizations have responded to these trends by enhancing development and bolstering defenses against cyber threats. This year highlights the growing adoption of these technologies, signaling a future where innovation and resilience are paramount in navigating the ever evolving and complex tech landscape.

IT services exports growing at 3.7%; domestic at 7.5%

The Indian IT services revenue is expected to see a growth of 4.3% in FY25 compared to FY24, with exports accounting for 82% of the revenues. In the spotlight – FY25E Highlights.

A. Dynamic mix of deals driving growth and consolidation, with cybersecurity and cloud services leading the way.
B. AI/GenAI transforming the software development and delivery landscape, streamlining processes, and accelerating time to-market.
C. Cloud-native technologies empowering rapid development and deployment of scalable, resilient applications by unlocking speed & efficiency.

D. India emerging as a global hub for innovative cybersecurity solutions

Software products, Startups & Deeptech:

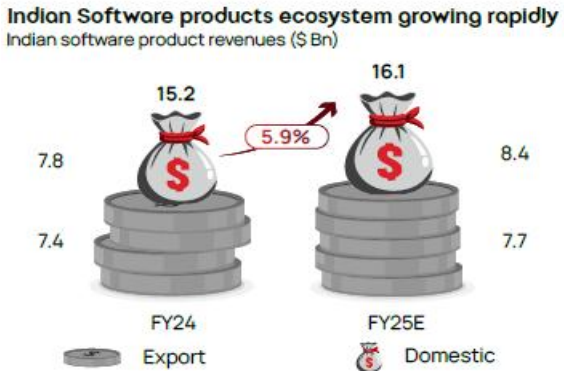

Catalysts of innovation and change

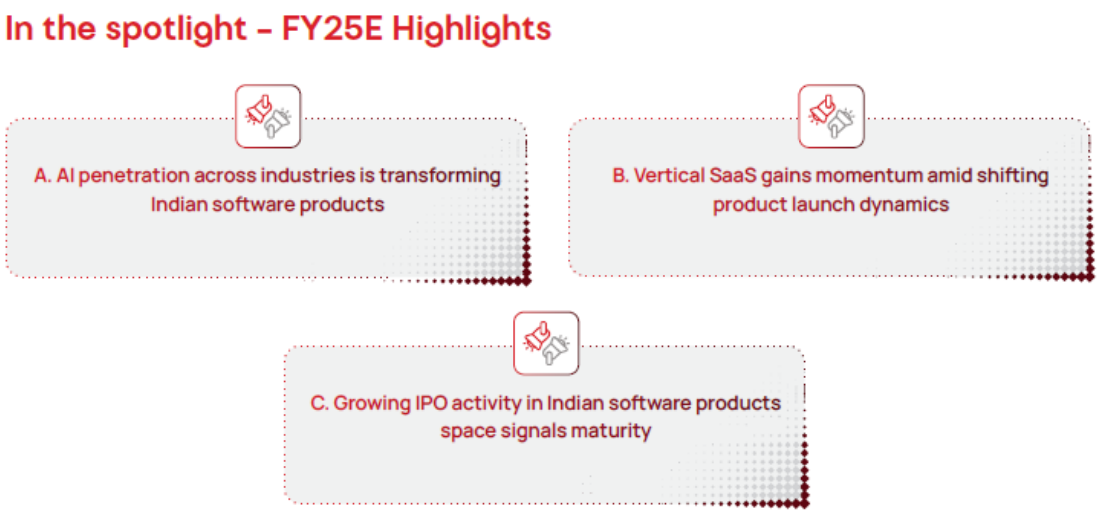

Innovation serves as the cornerstone of India's journey toward becoming a global technology leader, with the software products and technology startup ecosystems forming complementary pillars of this narrative. The software products ecosystem, encompassing IT services giants, tech-first enterprises, software product companies, and traditional businesses, has been instrumental in driving transformative solutions across industries. Meanwhile, the technology startup ecosystem – often overlapping with the software products space brings unparalleled agility and entrepreneurial creativity, addressing emerging challenges through cutting-edge technologies such as AI, SaaS, and DeepTech. Together, these ecosystems reflect India's multi-faceted approach to innovation, where established players scale solutions globally, and startups pioneer disruptive ideas.

Software products

India's journey towards becoming a software product hub

India's software products segment has grown into a strategic pillar of the country's digital economy with revenues accounting for $16 Bn in FY25 up from $15.2 Bn in FY24. The rise of affordable cloud computing, low-code development tools, and AI-driven platforms has enabled companies to deliver globally competitive products. Furthermore, the segment is redefining its role by catering to underserved markets and scaling solutions tailored to emerging economies. This transformation is being fuelled by an evolving funding landscape that prioritizes scalability and IP-rich solutions, highlighting India's ambition to become a global hub for software products.

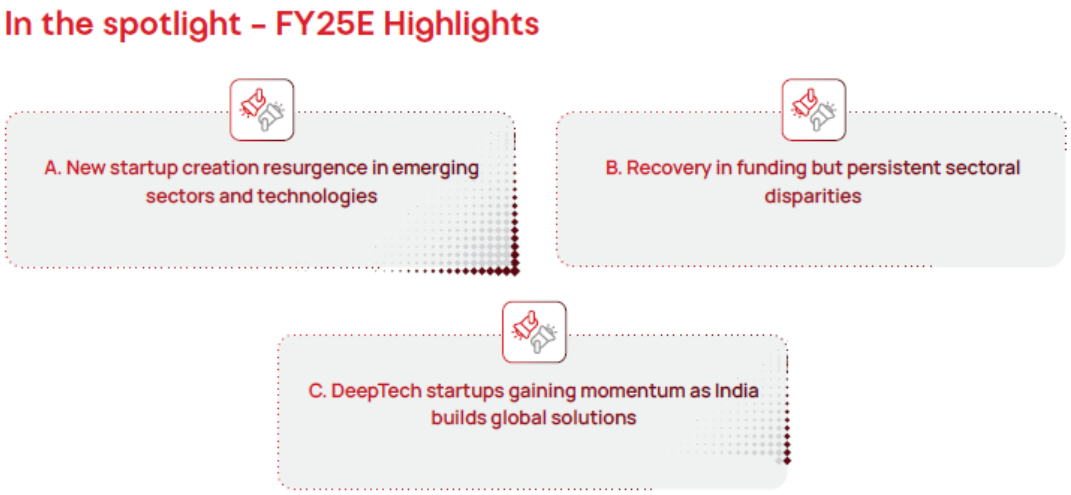

Startups

Indian technology startup landscape disrupting the status quo

India's technology startup ecosystem has emerged as a powerhouse of innovation and growth, making its mark not only in the domestic market but also on the global stage. With between 32k-35k active startups, more than 80 active unicorns, India is now the third-largest startup ecosystem globally. The country also boasts of the second largest Incubator/Accelerator (I/A) ecosystem in the world with the second highest I/A density (number of I/As per 1000 startups). Indian startups are now building for the world, with a significant share of the total revenue coming from international markets, particularly the US and Europe. Furthermore, India's reputation as a hub for affordable and scalable innovation has drawn attention from global investors, including sovereign wealth funds and corporate VCs. While tech startups have been addressing some of the most critical national imperatives, the rise of DeepTech startups, particularly in areas like AI, blockchain, and robotics, reflects the ecosystem's maturity and ambition to lead in high-impact and high-tech domains.

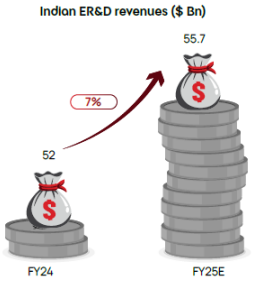

ER&D emerges as a hotbed of opportunities

For the fourth consecutive year, ER&D emerged as the highest growing segment within Indian tech industry

ER&D revenues from India's tech sector grew 7.% in FY25 over FY24. This is the fourth consecutive year that the ER&D segment has grown above industry average, and its share of total revenues now stands at 21.1% as compared to 20.2% in FY21.

ER&D is growing rapidly, outpacing other segments as companies shift toward outsourcing to partner for their research and engineering requirements. Offshoring, both in terms of outsourcing and GCCs continue to grow propelled by a symbiotic connection between the traditional as well as new value levers shifting the discourse from cost efficiency, and cost arbitrage through low-cost R&D to driving global innovation strategies. With this, India is no longer just a low-cost centre but emerging as the global innovation hub.

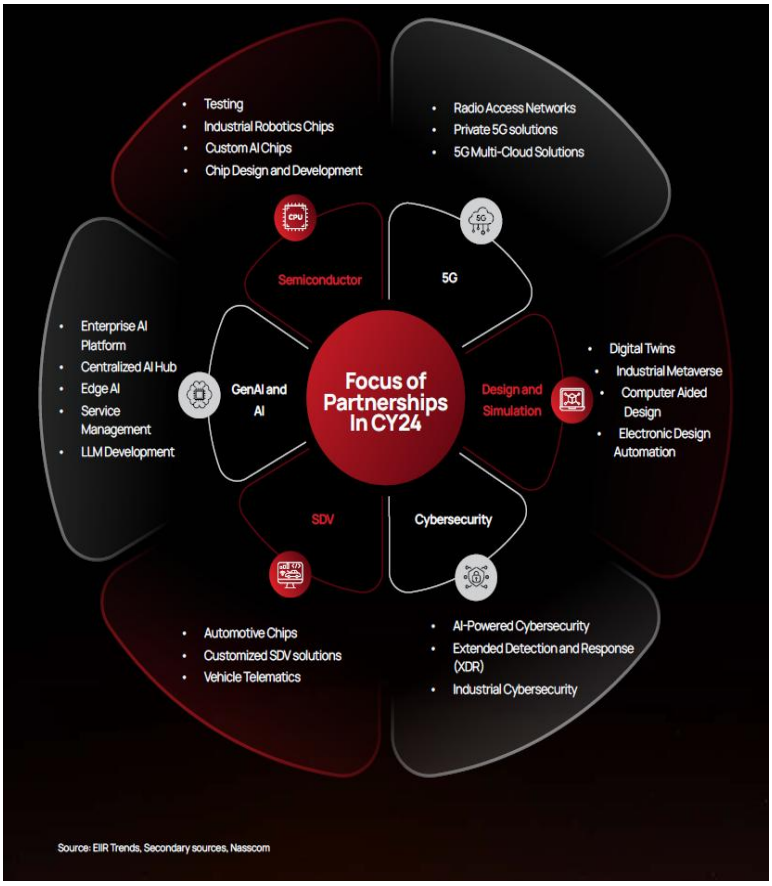

In the spotlight – FY25E Highlights

A. Large deals, M&As and enhanced digital engineering demand fuel India ER&D growth

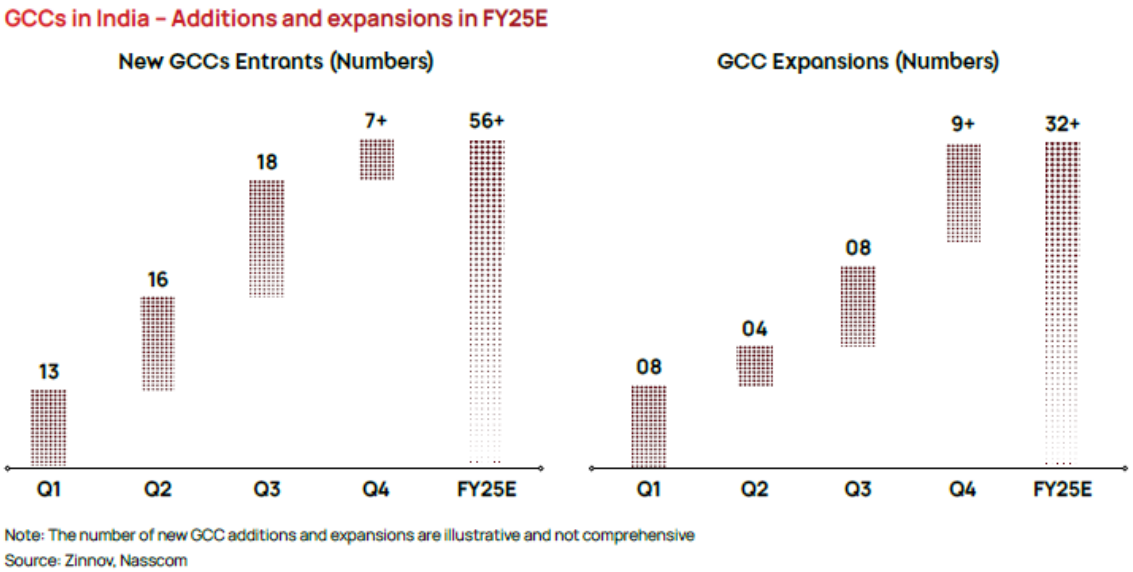

B. Mega trends like AI, digitalization, and sustainability leading to emergence of new growth levers for India ER&D

Non-traditional/ growth sectors gain prominence expanding the growth continuum of ER&D

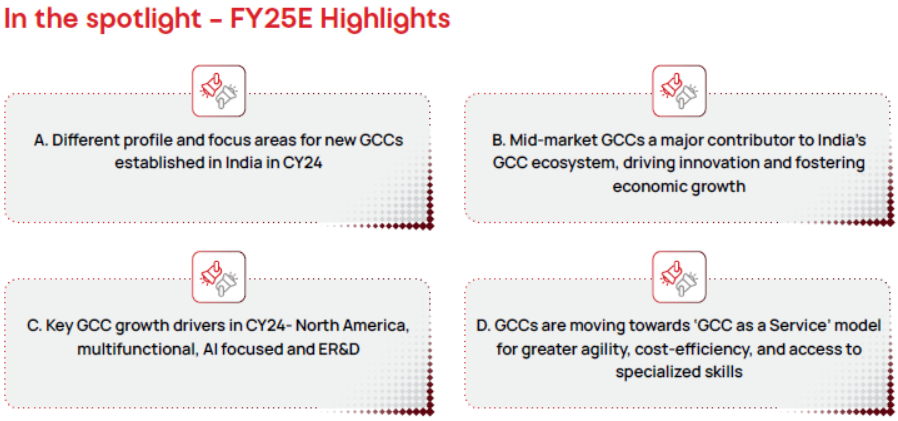

Vibrant GCC landscape emerges as the poster-child for the tech industry

In 2024, GCCs in India continued its accelerated growth journey, underwent significant transformations characterized by a notable increase in employment, a strong emphasis on skill development, and the establishment of a supportive ecosystem for growth.

Tech industry steers convergence of enterprise AI and GenAI adoption

CY24 could be the distinguishing year for AI with simultaneous developments in both AI democratization and practical AI convergence. After experimentations in CY23 with LLMs to text-to-image models, open and closed-source models, first-pass prompts and hallucination-reducing techniques, CY24 witnessed a decisive shift toward pragmatic use cases and vertical AI solutions. Focus pivoted from raw capabilities to reliability, efficiency, and specificity led by improvements in model reasoning, factuality, and context management. Progress in RAGs and knowledge graphs improved contextual outputs, custom and industry-specific small models became mainstream, and tech providers started integrating AI, cloud, data, and GenAI onto scalable and highly customizable platforms in a strong PoC-to-production push.

Recently introduced and rapidly advancing agentic AI technology is set to transform the construct of both AI systems and AI-enabled systems even further. Through these rapid GenAI developments, overall relevance of AI and data engineering regained prominence. According to ISG's Index Insider global tech services contracts data for CY24, most large cost optimization contracts are beginning to report components of AI/GenAI and data engineering services embedded in them, with companies having allocated ~5% of their technology spend on AI initiatives, amounting to over $15 Bn in deal value signed in CY24.

Yet, the technology is nascent, rapidly evolving, and unproven in RoI terms. Taking cognizance of the unfolding dynamism, the tech industry accentuated its pace of innovation, focused partnerships, and development of end-to-end PoC-cum-production grade AI and GenAI offerings in CY24.

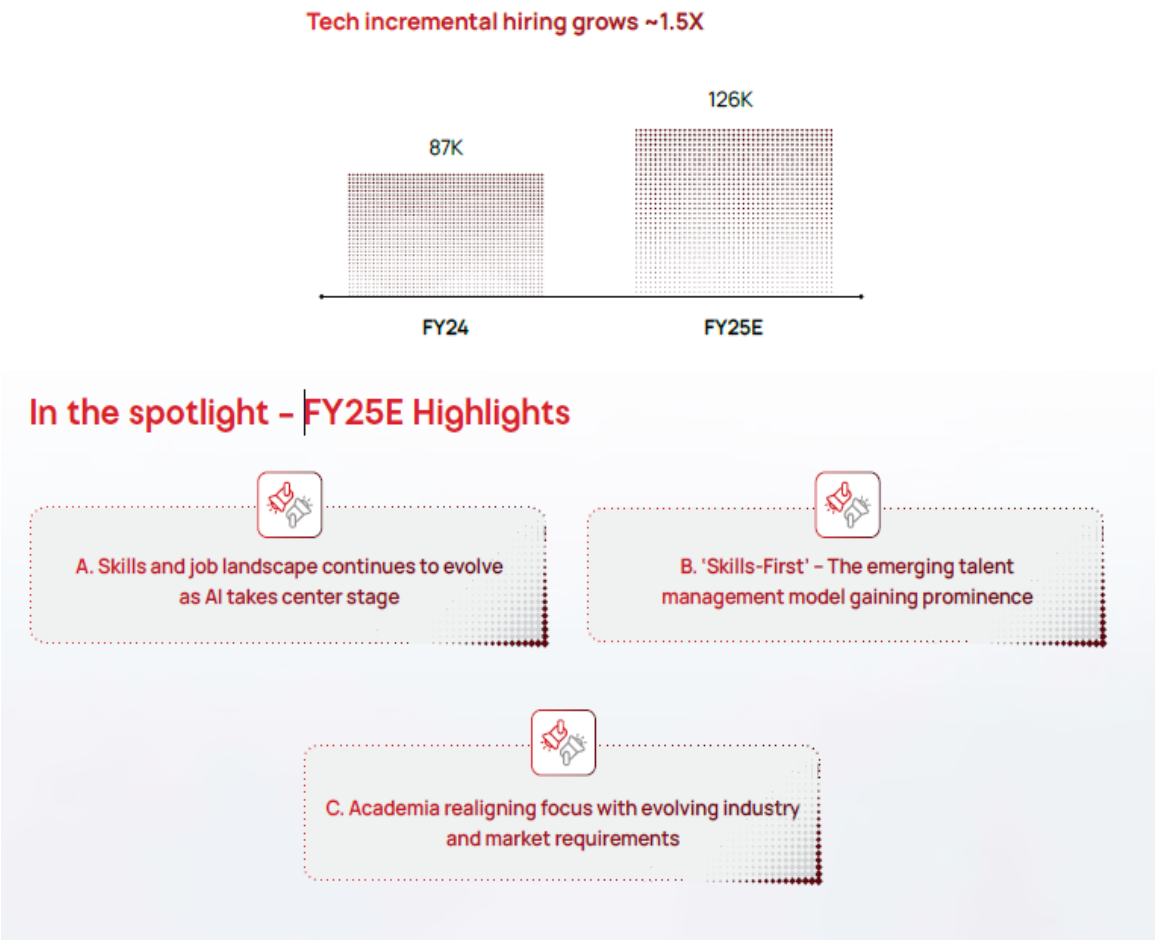

Key growth themes from tech industry AI initiatives in CY24

From education to employment- Prioritizing skill focused talent development and management

Tech industry hiring in FY25E grew ~1.5x over FY24 with all tech sub segments going back to colleges.

The year witnessed increased application of AI/Gen AI in the tech sector which in turn strengthened the emphasis on skilling across organisations. Academia concentrated on redesigning curriculum in line with industry requirements to make the students future ready. Professional skills and learning attitude gained prominence as top HR priorities, with 'Skills-First' emerging as the new model for talent management.

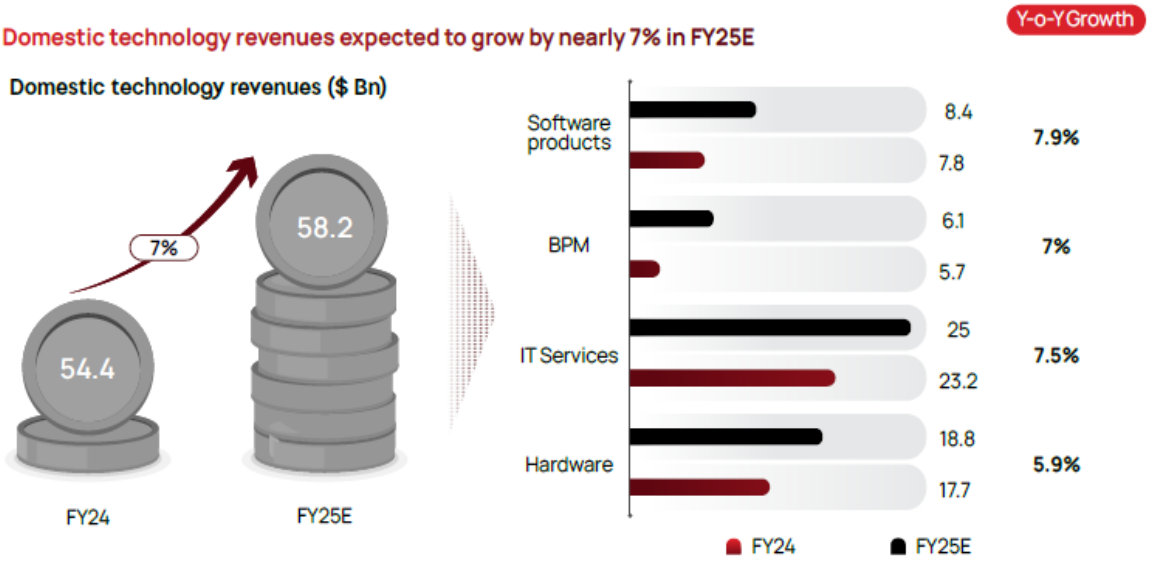

India Domestic Tech Market: Regaining vigour amidst promising times

The Indian domestic tech market maintained its growth momentum and grew faster than exports, second time in a row. The demand push provided by the government, enterprise and consumer segments powered a revenue of $58.2 Bn and near 7% growth rate during the year.

Both on the government and enterprise front, digital transformation and AI/GenAI emerged as key focus areas of spending. Further, service providers' focus on delivering India-centric solutions and heightened activity in the semiconductor and data centre domains opened a new avenue of opportunity driving optimism in the market. On the consumer-side, consistent onboarding of digital consumers especially in the tier I/II cities, declining rural urban digital divide, as well as a booming eCommerce segment, that witnessed a y-o-y growth of 35%, remained a key driver of growth.

Domestic technology revenues expected to grow by nearly 7% in FY25E

IT Services

Growth driven by rising adoption of cloud implementation and app maintenance and management services. As per MarketsandMarkets in CY24, SMEs reported a higher (19%) growth in the managed services sub-segment, in comparison to large enterprises, which witnessed a growth of 16%. In terms of share, large enterprises accounted for 64% of the market, while SMEs accounted for 36%. Further, on-premise deployments accounted for 65%, while cloud accounted for 35% of the market.

BPM

Data annotation, data analytics, database administration, data creation for GenAI, outsourced recruitment services, telecom and BFSI verticals drove demand. Further, the rise of regional call centres enabled growth in tier II/III cities like Coimbatore, Chandigarh, Mysore, and Ahmedabad etc, which witnessed the fastest growth in the domestic BPM segment.

Software Products

Software products witnessed the fastest y-o-y growth at 7.9% driven by CRM, ERP and content management. More than 25% of growth was driven by the growth of hyperscalers, while the remaining demand came from heightened cloud adoption by government organizations, public sector enterprises and the BFSI vertical.

Hardware

Demand from the consumer and commercial segments enabled growth in the hardware segment. On the consumer side, rising adoption of PCs for gaming and content creation and increasing focus on AI features and tools in PCs remained key drivers. On the commercial front, enterprises slowly kickstarting their IT device refreshment cycles was the driving factor.

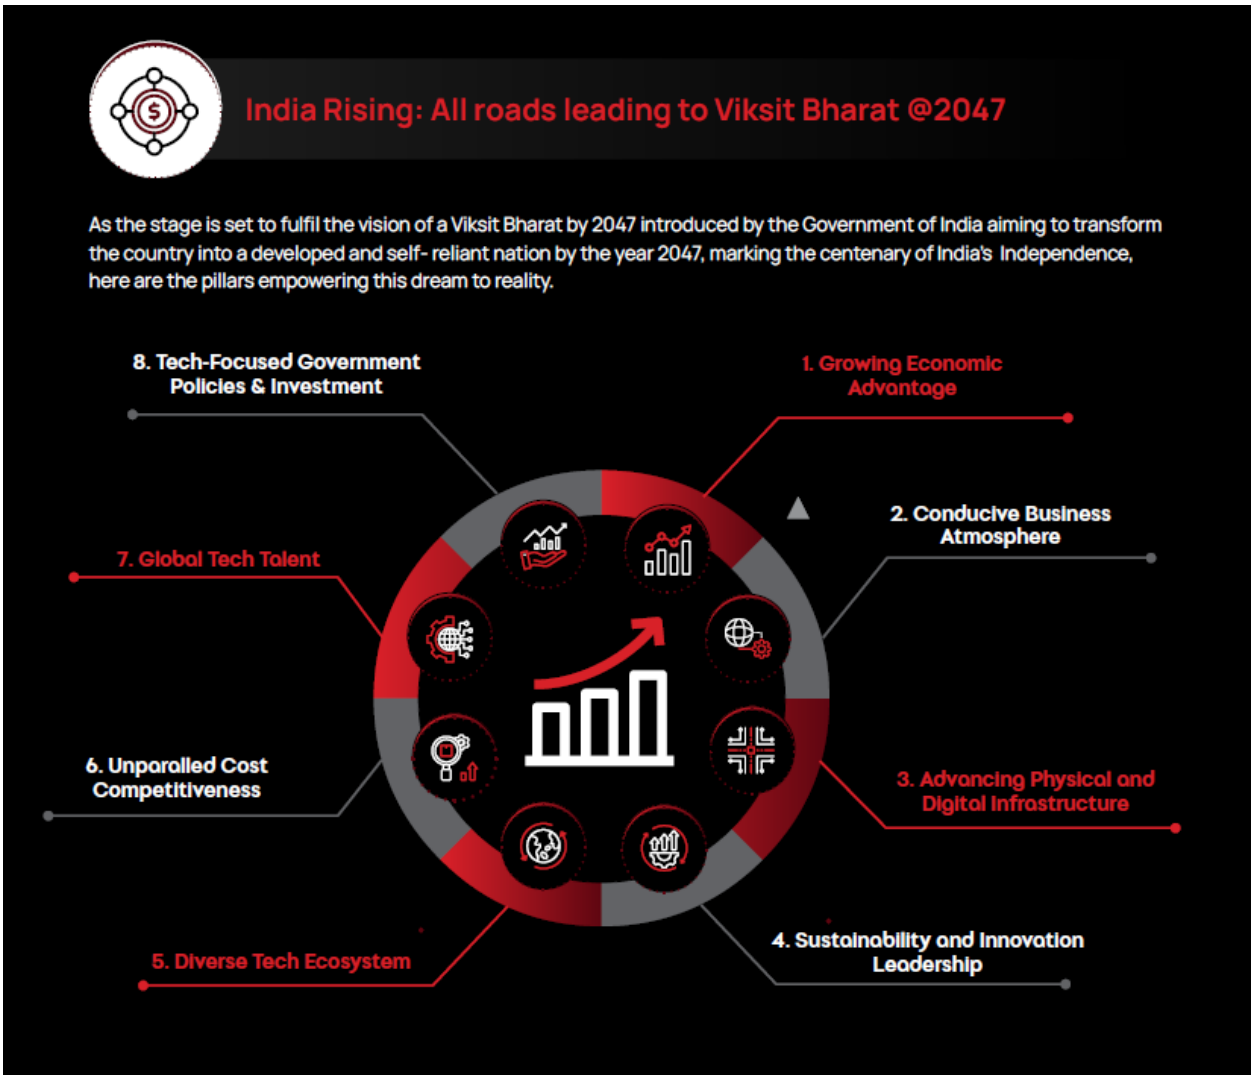

In the spotlight – FY25E Highlights

A. Hi-tech vertical outshines in enterprise tech spend, players line up to explore newer data centre and semicon opportunities

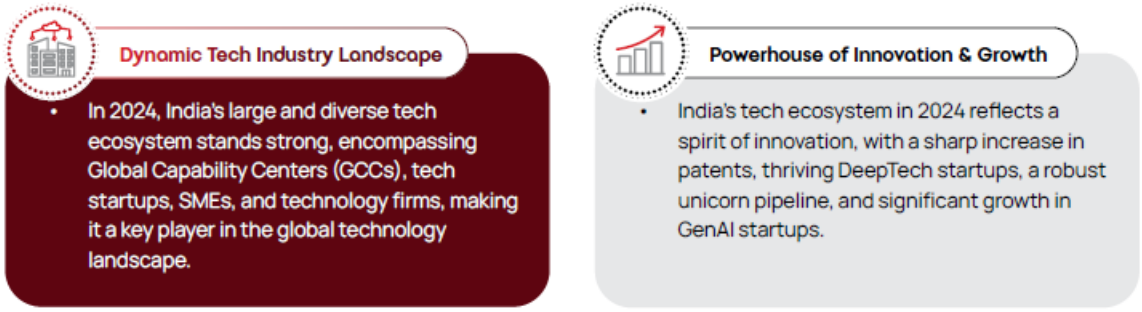

B. Government takes the lead in AI initiatives, powering new-age tech adoption and forming partnerships

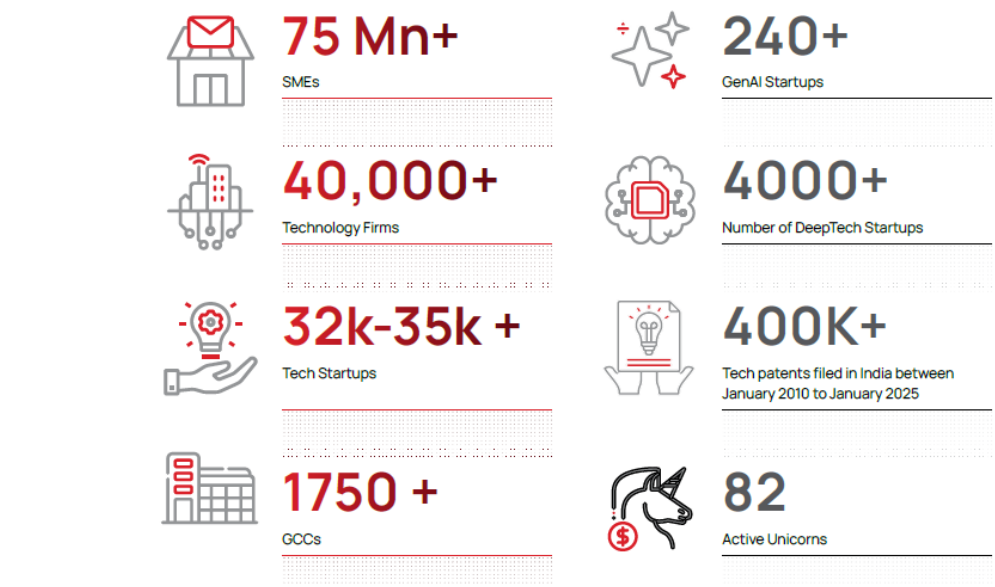

C. Tech interventions drive digitalization in consumer-focused verticals, eCommerce and 'Quick' commerce

Gujarat government formed partnerships with Intel, IBM and Microsoft.	**Gujarat**	These partnerships focused on enhancing AI readiness, establish an AI cluster to foster innovation, impart AI-based skill training and establish an AI CoE in GIFT city.
Telangana formed partnerships with Meta, NVIDIA, Nazara Technologies, Y otta, Nextwave, AWS, Microsoft, World Trade Centers Association (WTCA).	**Telangana**	These focused on establishing an AI CoE, using AI for e-governance, providing world-class AI and cloud infrastructure to startups, upskilling 0.25 million students and strengthening the state's AI talent pool.
In Tamil Nadu, launch of the five-year Tamil Nadu AI Mission that aims to establish it as a leading AI hub remained the highlight.	**Tamil Nadu**	The state formed partnerships with Google, Applied Materials, PayPal and AWS to strengthen AI capabilities for MSMEs and launch an AI CoE, an advanced technology centre, GenAI startup hub and AI lab

Tech-Focused Government Policies & Investment

Global Economic Growth Outlook for CY25

I. Stabilizing real GDP growth rate

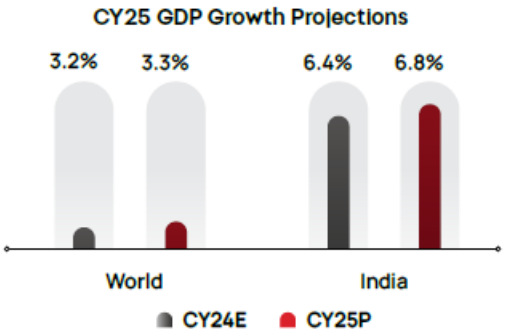

At 3.3%, CY25 global GDP is expected to stay within the post-COVID range of 3-3.5% growth rate, up 10 bps from the 3.2% in CY24, and just a tad lower than the 2015-2019 average of 3.4%. India is expected to grow between 6.3% to 6.8% as per the Economic Survey of India 2025.

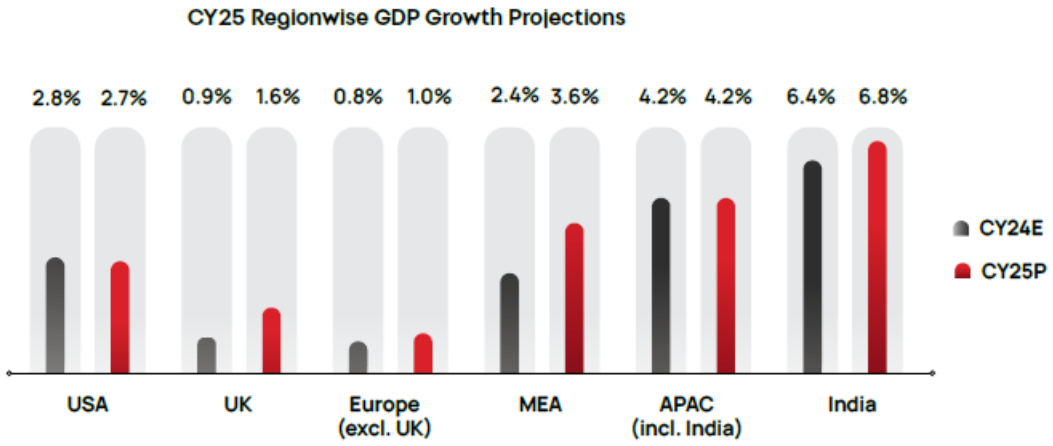

II. Advanced economies to drive growth

US growth forecast resilient at 2.7% despite higher for-longer interest rates due to rare wage rate vs. labor participation balance coupled with pro-America policy tailwinds. UK expects faster interest rate cuts and private and public spending boost from earnings/ tax collections.

Germany's return to positive could drive up manufacturing-led growth in Europe, although stricter regulations could start hurting innovation-led growth advantage for the region.

In EMDEs, relative slowdown is expected due to BRICS, except a stable India and growing South Africa. China's further growth decline is likely to create positive momentum for other ASEAN nations. MEA is likely to grow by 1.5x based on its renewed oil+ strategy.

III. Core sectors set for revival

Easing fiscal stances will likely boost BFSI and retail, while major public spending in a bid to boost local industry will revive manufacturing. Countries with aging demographics are planning investments in healthcare delivery and R&D.

In CY25, enterprises and governments are expecting better demand revival than CY24 and growth stabilizing within the 3-3.3% range. Supportive factors include continued easing of monetary policy with disinflation, robust growth in advanced economies, and strong tech push to reverse productivity declines due to aging populations. Yet, ongoing geopolitical conflicts, exacerbating trade tensions due to accentuated protectionist policies, and rising costs of ignoring climate action, could create disruptive growth shocks.

Major global tailwinds in CY25

Continued US resilience

US GDP's upward revision by 50 bps to 2.7% for CY25, likely based on consumption increase due to robust labour markets, accelerating investments creating strong wealth effects, and a growth trajectory agnostic of smaller misses in disinflation and rate cuts, offers strong global growth support.

Global efforts towards disinflation and rate cuts

Analysts expect ECB to effect sub-2% interest rates, UK to reduce by 100 bps, while eagerly awaiting more US rate cuts than the two announced for CY25. Emerging markets may have sticky inflation for longer and hence a gradual interest rate reduction. Collectively global consumer price index is expected to decline to 4.2% from 5.7%.

Higher growth in UK, Europe, MEA, and India

UK economy likely to grow from 0.9% in CY24 to 1.6% in CY25, powered by public investment and private consumption from better incomes and rate cuts. Germany returning to positive growth, from -0.2% to 0.3%, likely to trigger manufacturing upcycle in the region. MEA's growth offers new market opportunities, while a stable India is expected to offset weaker China growth in APAC with a 6.8% growth rate.

Efficiency-focused measures to prevent growth divergence

In a bid to prevent growth divergence from better performing peers, some countries may undertake efforts to increase labour supply, reduce misallocation, enhance competition, and support innovation, thereby improving long-term sustainability of growth.

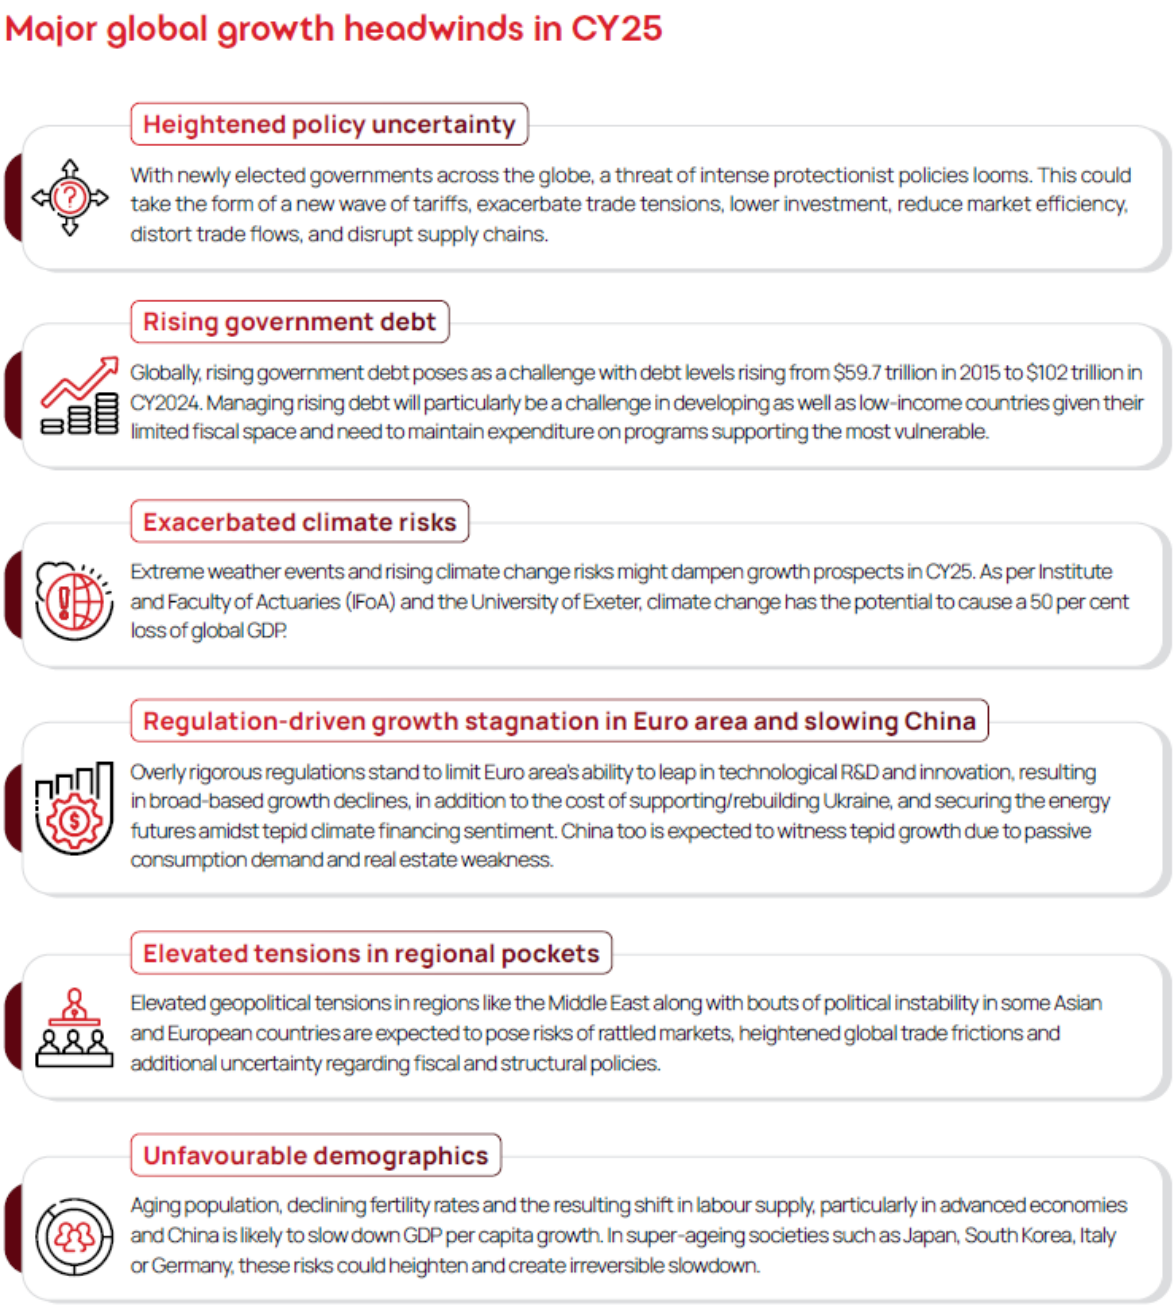

Revival of core sectors

Hi-Tech, BFSI, healthcare, particularly biotech, pockets of manufacturing, and trade, transport, and logistics are expected to drive growth, while auto, telecom, and alternative energy sectors may continue to see challenges.

AI-led acceleration of technology convergence

With AI becoming the foundation of next-age digital and competitive advantage, the fight for dominance will benefit through greater and more integrated use cases of AI for solving intractable societal and global challenges and deliver productivity improvements at speed and scale.

Enterprise Technology Spend Outlook for CY25

With higher technology spend, particularly AI-led digital spend, enterprises are likely to invest in convergence of tech spend into high-impact use cases that could provide the foundation for the next five years of technological leaps, through 2030. In nasscom's Annual Enterprise CXO Survey 2025, 500 global CXOs indicate a stronger CY25 in terms of demand, growth, tech spend, and digital focus. Major trends are:

I. 5.1% Global IT services spend growth in CY25

IDC's January 2025 global tech spending forecast reveals a likely 5.1% growth rate in IT services spending in CY25. Significant impetus from data and cloud spending may continue while core AI spending is expected to gain

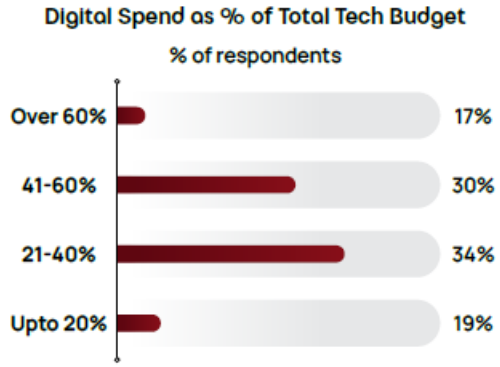

with emerging clarity on vertical and cross-functional use cases. Spend on software is expected to stay flat at around 13.5% while hardware is expected to decline to 7.8% growth, after a strong CY24.

II. Higher-range digital spending to rise

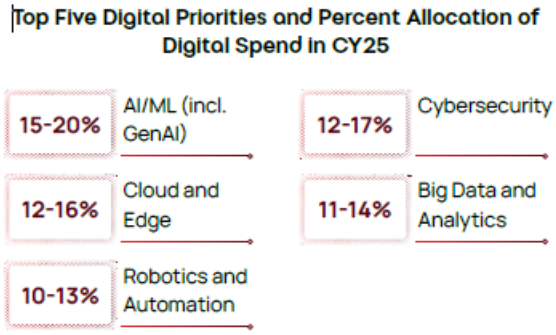

70% CXOs expect an increase of 5% or more In their CY25 tech budgets with another 15% suggesting no change from CY24.

82% of the CXOs expect to increase digital spend by 5% or more from the CY24 levels, spending at least 20% of the tech budget on digital, with a significant 10 pp increase in the category spending 40-60%.

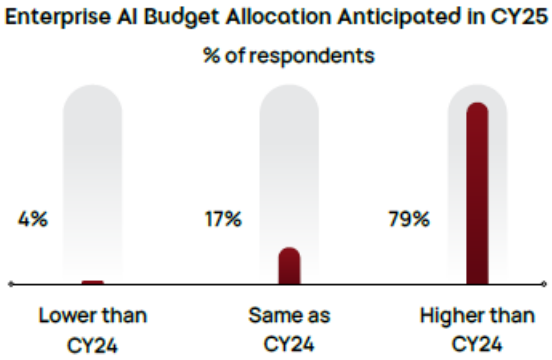

III. Top five areas to account for 60-80%

AI/ML (including GenAI), cybersecurity, cloud and edge, big data and analytics, and robotics and automation, account for 60-80% of the digital spend basket. AI/ML spending is expected to grow by ~30% y-o-y, with ~80% of the companies planning to increase their AI spend, including GenAI, and another 17% intending to retain CY24 allocations. Companies plan to decrease spend on networking tech from CY24.

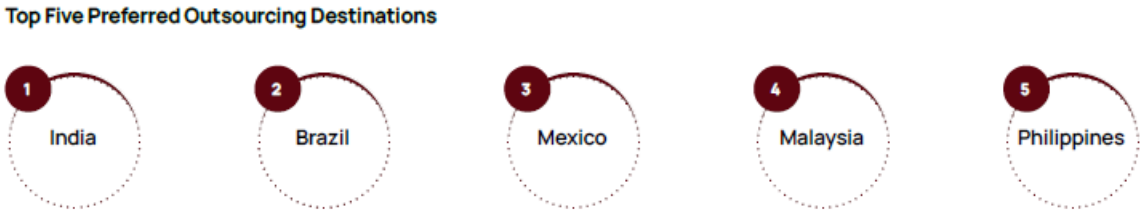

IV. AI expected to invite higher allocation

79% of the CXOs have indicated increasing AI allocation as part of their digital budgets in CY25, clearly indicating the primary technology spend focus for the year. Several enterprises also plan to hire specialist AI roles to boost internal capabilities, such as Chief AI officers, AI model trainers, AI ethics officers and AI reinforcement experts.

V. Tech outsourcing strong with India leading

Over 75% of the CXOs prefer outsourcing digital services, with India retaining top position in location of preference globally.

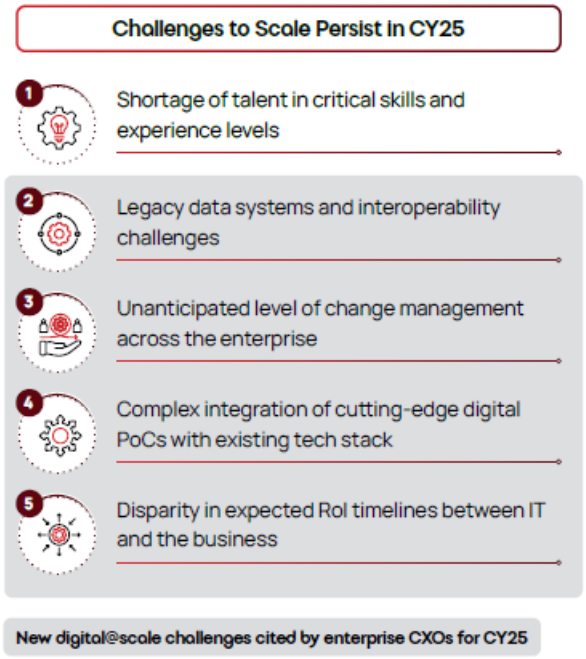

VI. Headwinds to scale digital more internal-facing, adaptability-driven

Majority CXOs concur that lack of operational flexibility to adapt is going to be the biggest hindrance to scaling up digital in CY25. When compared with their responses in CY24,challenges were more stakeholder-centric, such as building competitive differentiation, dealing with new market dynamics and ESG compliance.

Concerns about lack of right mix of domain and tech expertise exacerbated by the fast-evolving AI technologies is a major concern, same as last year. CXOs are also concerned about interoperability between coexisting legacy, modernized, and more-recently acquired, AI-centric tech stack components to deliver an integrated, seamless technology portfolio. This creates major change management challenges.

Due to these concerns, RoI from ongoing digital initiatives prove elusive and could impact future tech investments.

Technology Sector Growth Outlook for FY26

FY26 is expected to see greater technology spend, levels that were anticipated at the start of FY25. In nasscom's Annual Tech Services CXO Survey 2025, across 100+ tech service providers comprising IT services, BPM, ER&D, and software product companies, tech providers reveal their optimism toward better client demand, AI spend, and growth prospects.

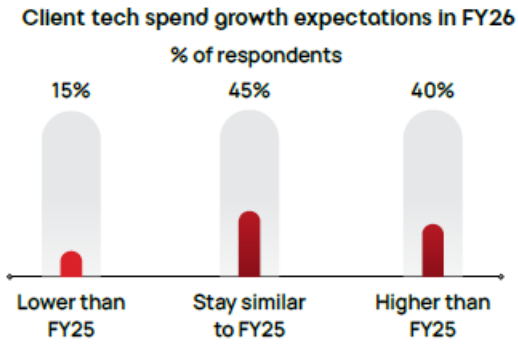

I. Business growth expectations rise for FY26

77% of the providers expect an increase in business growth in FY26. Growth is expected from growing foundational digital scope, emerging markets, and strategic AI-led demand.

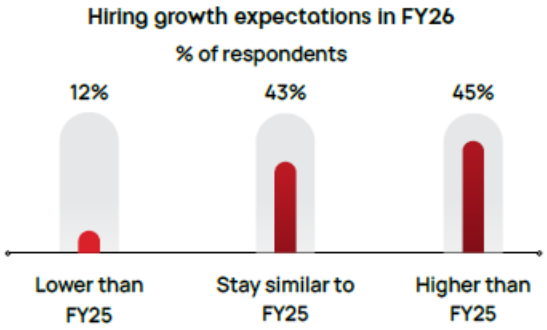

II. Although enterprise (client) tech budget expectations are moderated for FY26

In FY26, providers have expressed a more cautious view of client tech budget increase. Only 40% expect an increase, while another 45% expect levels similar to last year.

III. Hiring expectations to be modest in FY26

45% of the providers expect hiring to exceed FY25 levels, most likely at fresher levels where higher intake for further upskilling into AI-related roles may be seen. Data and cloud-related job roles may increase as more demand comes. Providers are also expecting to invest in new specialist roles to manage AI adoption, such as AI model validation or reinforcement trainers.

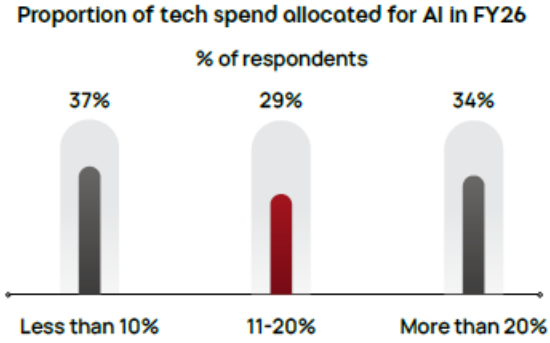

IV. Industry expects multiple factors to affect client tech spending in FY26

In FY26, the industry anticipates AI-led services transformation to be the primary source of disruption, followed by macro factors of muted discretionary spend and geopolitical upheavals. Providers anticipate multi-directional headwinds and will likely work to be flexible and responsive to address both external and internal challenges.

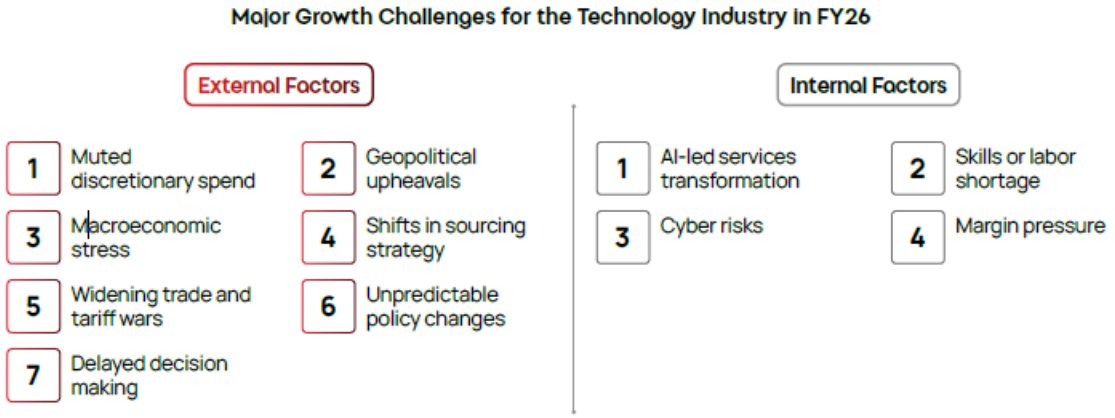

V. AI spending is expected to increase, albeit gradually

Providers are uniformly distributed across levels of AI spending indicating that while it may take time get to higher allocations, that the spread of intent and actual spend is broadening across the client base. More clients are expected to decisively move PoCs to production in FY26.

VI. Industry is expected to focus on specific strategies to capture growth tailwinds

Majority of the industry leaders highlight the need for somewhat diversified strategies for core and emerging markets, balance of portfolio across fixed cost and outcome-based deals, aggressive process rationalization and effective use of GenAI productivity tools, a strategic approach to partnerships for niche opportunities to allrounded growth, and extensive expertise development across the talent base.

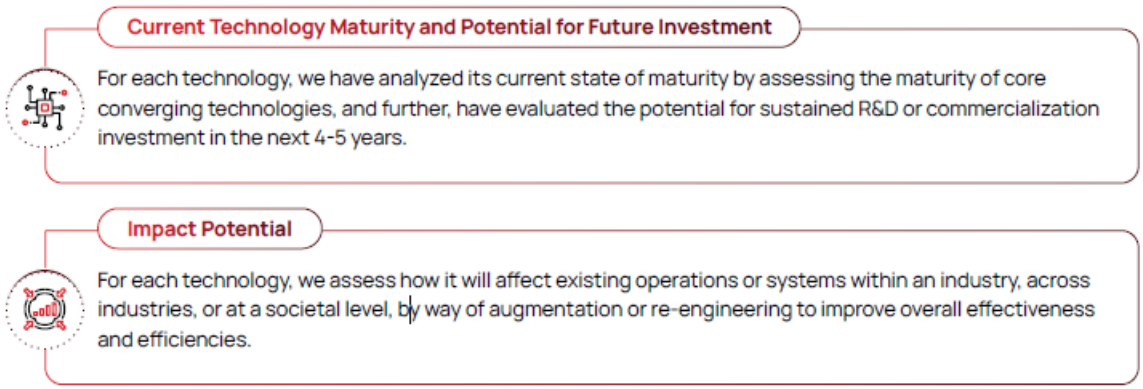

Transformative Technology Trends – A 2025-2030 Perspective

Emergence of GenAI has fueled a global shift to digital native AI-first business models in order to exploit the democratization of intelligence that this tech offers – from legacy companies trying a foot-in-the-digital door, to digital-natives spending on forward looking tech. Several analyses have been conducted to understand the technologies that will transform living and liveability by the turn of 2030. We have chosen a set of seven major technology domains and 20 key transformative technologies that could redefine the paradigm of a digitalfirst world over the next 4-5 years, inviting most R&D and commercial-grade investments, innovative solutions from providers, and new-to-world business models.

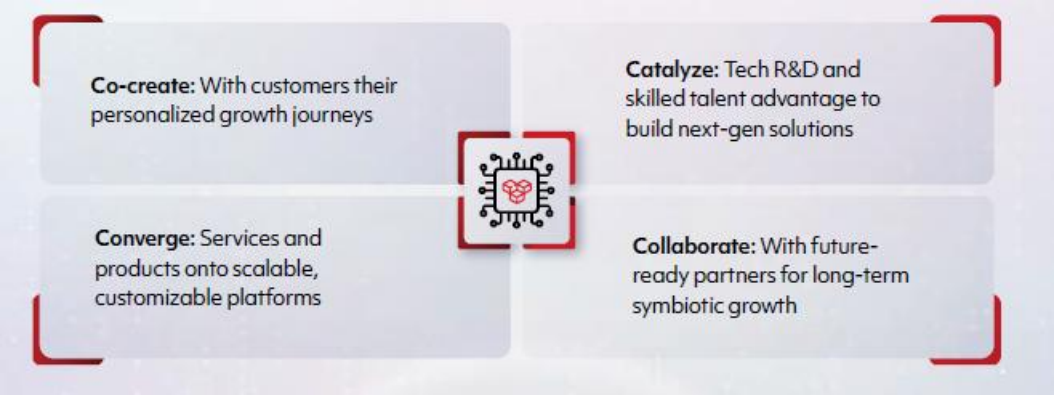

The shortlisted transformative technology trends score high on a combination of factors –

Strategic Priorities for the Indian Tech Industry in CY25

Indian tech industry is at yet another cusp of transformation where it is required to lead with a digitalfirst, but human-centric approach in a rapidly shapeshifting digital era. AI's infusion is as empowering, as intimidating. Global clients look towards the largest tech services industry for pragmatic direction, an empathetic and consultative partnership, and future-ready solutions. Not only the global markets, but India's domestic market too is primed for a rapid digital leap as India aggressively prepares for and executes on its 2047 vision. As the primary export-oriented services industry of the soon to-be 4th largest economy, 2nd largest startup hub, 3rd largest AI workforce provider, and aiming to be the applied AI lab of the world, India's tech industry has its objectives well-placed. With government-aided active CoEs in AI, quantum, deeptech, and cybersecurity, and a holistic approach to expansion of existing DPI framework, the future of digital tech expansion and advancement from India for the world has several

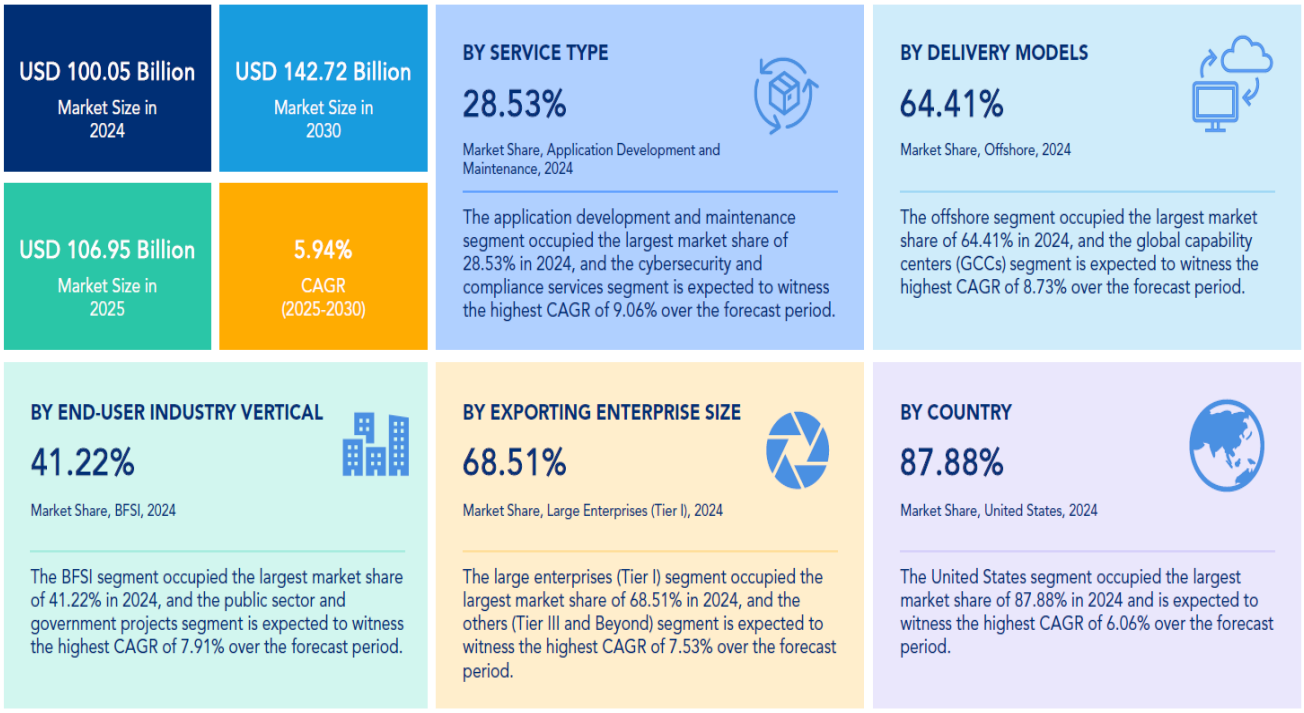

promises in the years to come. The tech services industry will play a pivotal role in driving these promises to fruition. We recommend a set of strategic imperatives for the industry to capitalize on growth signals in CY25.

Market Assessment of Indian IT Services and BPM Exports to North America

Executive Summary

Market Overview

The **Market Assessment of Indian IT Services and BPM Exports to North America** was valued at USD 100.05 billion in 2024 and is expected to reach a value of USD 142.72 billion in 2030, registering a CAGR of 5.94% during the forecast period (2025-2030).

INDIA'S ROLE IN DELIVERING IT SERVICES TO NORTH AMERICA

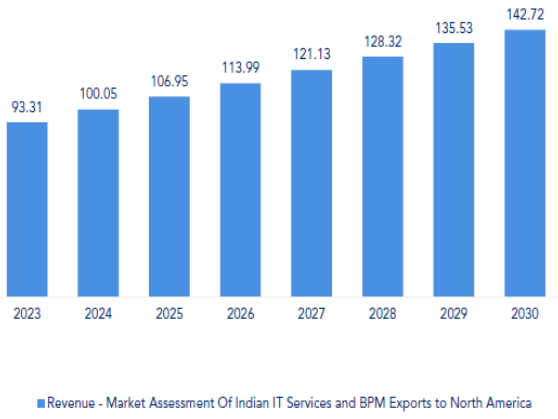

- India has established itself as a dominant player in the global IT services market, particularly in North America. The country has consistently increased its share in global IT outsourcing, showcasing its ability to adapt to evolving market demands and deliver high-quality services.
- The Indian IT services industry is on a robust growth trajectory, driven by innovation, digital transformation, and a strong focus on customer-centric solutions. The sector's growth is supported by its ability to scale operations and maintain competitive pricing.
- India's software and IT services exports continue to grow steadily, reflecting the country's strong position as a global technology hub. This growth is underpinned by its skilled workforce, advanced infrastructure, and a favorable business environment.

NORTH AMERICAN MARKET PENETRATION

- The United States remains the largest market for Indian IT exports, highlighting the strong bilateral trade relationship and the trust North American companies place in Indian service providers. This partnership is driven by India's ability to deliver cost-effective and innovative solutions.
- Canada, along with the United States, plays a significant role in India's IT export landscape. The combined demand from these two countries underscores the importance of North America as a critical region for India's IT services sector.
- North America's contribution to India's IT services revenue emphasizes the region's strategic importance. The strong presence of Indian IT companies in North America reflects their ability to meet the region's complex technological needs.

SIGNIFICANCE OF NORTH AMERICA AS A TOP MARKET FOR INDIAN SERVICE PROVIDERS

- Revenue Dependency on North America
  - Indian IT service providers heavily rely on North America as their most significant geographic market, showcasing a strong revenue concentration in the region.
  - The recovery of the U.S. market is expected to drive steady growth in the coming years, with sectors such as banking and retail playing a pivotal role in boosting demand for IT services.
  - India has established itself as the preferred outsourcing destination for American companies, reflecting the strong dependency of U.S. firms on Indian IT expertise.

STRATEGIC EDGE IN THE NORTH AMERICAN MARKET

- The time zone difference between India and North America allows Indian IT service providers to deliver round-the-clock support and development services, ensuring uninterrupted operations for North American clients.
- Cost efficiency remains a key advantage for Indian IT firms, offering significant savings to North American businesses without compromising on quality or language proficiency.
- Indian IT companies have built a mature ecosystem of partnerships with leading global enterprises, particularly Fortune 500 companies, fostering long-term strategic relationships and reinforcing their market presence.

KEY BENEFITS FOR INDIAN IT OUTSOURCING COMPANIES IN NORTH AMERICA (U.S. AND CANADA)

STRATEGIC MARKET EVOLUTION

- The India IT outsourcing market in North America is undergoing a significant transformation, moving away from traditional outsourcing models toward strategic partnerships. Companies in North America are increasingly seeking outcome-based revenue models and co-innovation initiatives to achieve shared business objectives. This shift, as highlighted by NASSCOM, reflects the growing demand for collaborative and value-driven relationships between Indian IT service providers and North American enterprises.
- Digital transformation is a major growth driver for Indian IT outsourcing services in North America. Businesses in the region are prioritizing the adoption of advanced technologies such as cloud migration, artificial intelligence (AI), and cybersecurity solutions to enhance operational efficiency and maintain a competitive edge. NASSCOM emphasizes that these services are critical for addressing the evolving technological needs of North American enterprises, positioning Indian IT firms as key enablers of innovation and growth.
- Global Capability Centers (GCCs) in India are emerging as innovation hubs, playing a crucial role in supporting North American businesses. According to NASSCOM, 72% of GCC leaders are focusing on talent management to bridge skill gaps and drive productivity, while 96% are leveraging emerging technologies to deliver advanced solutions. This evolution underscores India's strategic importance in the North American IT outsourcing market, as GCCs continue to provide high-value services and foster innovation for their clients.

COMPETITIVE POSITIONING

- India continues to maintain a strong foothold in the global services sector, highlighting its ability to sustain a competitive edge and establish itself as a key player in the global market.
- North America remains a vital region for India's software services exports, contributing significantly to the growth and expansion of the sector over time.
- India has positioned itself as a strategic alternative to China in the technology services space, with the United States relying heavily on Indian IT services to meet its operational and technological demands.

FUTURE GROWTH TRAJECTORY

- The services export sector is anticipated to experience significant growth, with software and IT services continuing to dominate and play a pivotal role in the overall export landscape.
- Artificial intelligence and other emerging technologies are expected to lead the next wave of growth, as top service companies increasingly adopt AI in their operations and prioritize investments in these advanced technologies.
- Market diversification initiatives are being actively pursued to reduce reliance on the U.S. market, while still leveraging North America as a primary driver of growth and expansion.

Emerging Trends and Opportunities

Accelerating AI and GENAI adoption in U.S. firms

Generative AI Spending Highlights

- U.S. enterprise spending on generative AI (GenAI) surged significantly in 2024, reflecting the increasing reliance on AI technologies across industries.
- AI adoption in the U.S. has become widespread, with a majority of businesses implementing AI technologies. Among large enterprises, many have established dedicated teams focused on GenAI, emphasizing its strategic importance. However, only a small percentage of enterprises report achieving full AI maturity, indicating a substantial opportunity for IT service providers to bridge this gap. Key drivers for AI adoption include productivity improvements, automation of customer service, code generation, and demand forecasting.
- A significant number of large U.S. companies plan to increase their investments in GenAI over the next three years. Despite this enthusiasm, many organizations cite a lack of skilled AI professionals as a major barrier, which has fueled the demand for external expertise. Indian IT giants are positioning themselves as AI-first partners by offering pre-trained models, proprietary tools, and frameworks for responsible AI. Outsourcing AI development has proven to be a cost-effective strategy for U.S. firms, enabling them to reduce operational costs and accelerate time-to-market.

Revolutionizing Business: Key AI Trends in the U.S.

- Enterprise-Wide Integration
  - U.S. companies are transitioning from isolated AI trials to integrating AI and Generative AI into essential functions like customer service, software development, and operations.
- Productivity and Efficiency Gains
  - AI tools are accelerating coding, testing, and content creation, leading to faster turnaround times in both back-office and customer-facing operations.
- Industry-Specific Applications
  - Adoption is surging across industries, from banking's fraud detection to manufacturing's predictive maintenance, each benefiting from customized AI applications.
- Partnership and Talent Demand
  - Collaborations are forming between cloud providers, AI platform vendors, and U.S. companies, driving a surge in demand for skilled integration partners, a domain where Indian IT firms excel.

Empowering the Future: Generative AI and Indian IT Outsourcing

- In the U.S., generative AI has transitioned from a mere experiment to a cornerstone of enterprise strategy. The demand for quicker outcomes, tailored industry solutions, and seamless integration is paving the way for Indian IT outsourcing firms. Armed with profound technical know-how, adaptable delivery frameworks, and strong ties in North America, these companies are primed to fast-track AI implementations. Moreover, they play a pivotal role in guiding clients through governance, compliance, and sustained innovation challenges.
  - ❑ Accelerated AI Deployments: Indian IT firms leverage their scalable delivery models and technical expertise to implement AI solutions swiftly and efficiently.
  - ❑ Customized Industry Solutions: These companies provide tailored applications to meet the unique demands of various industries, ensuring relevance and effectiveness.
  - ❑ Governance and Compliance Support: By addressing governance and compliance complexities, they enable clients to focus on long-term innovation.

Cybersecurity-as-a-service Demand Growth

Cybersecurity Outsourcing Trends

- The managed security services market in North America is experiencing significant growth, driven by increasing cybersecurity threats and the need for advanced security solutions. The market is expected to witness robust expansion over the forecast period, with certain segments demonstrating accelerated growth due to evolving technological advancements and rising demand for specialized services.
- Organizations are increasingly allocating a substantial portion of their security budgets to outsourcing cybersecurity functions. This trend is fueled by the growing complexity of cyber threats and the need for specialized expertise. A majority of Chief Information Security Officers (CISOs) are planning to outsource critical security functions in the near future, reflecting a shift toward leveraging external managed security service providers to enhance organizational resilience.

Rising Demand for 24×7 Managed Security Services

- The prevalence of cybersecurity incidents has underscored the importance of continuous monitoring and rapid response capabilities. Businesses are increasingly turning to managed security services that offer round-the-clock protection to mitigate risks and ensure operational continuity. This demand is further amplified by the need for proactive threat detection and response mechanisms to address the evolving threat landscape.

Role of Indian IT Companies in Cybersecurity

- Indian information technology companies, including Infosys Limited, Wipro Limited, and Tata Consultancy Services Limited (TCS), have emerged as global leaders in the cybersecurity services market. These firms are recognized for their innovative artificial intelligence (AI)-powered solutions, advanced threat detection capabilities, and expertise in regulatory compliance. Their ability to deliver comprehensive and scalable security solutions positions them as key players in addressing global cybersecurity challenges.

Addressing Talent Shortages in the United States Cybersecurity Workforce

- The shortage of skilled cybersecurity professionals in the United States has created opportunities for outsourcing to global service providers. Indian firms are well-positioned to fill this gap by offering managed detection and response (MDR), cloud security, and compliance consulting services. Their expertise and cost-effective solutions make them valuable partners for organizations seeking to strengthen their cybersecurity posture.

Regulatory and Financial Drivers for Security Services

- Regulatory requirements and the rising costs associated with cyberattacks are driving the demand for robust security services. Compliance with regulations such as those set by the United States Securities and Exchange Commission (SEC), Federal Trade Commission (FTC), and General Data Protection Regulation (GDPR) has become a critical priority for businesses.

Future Outlook	The managed security services market in North America is set to grow further as organizations continue to prioritize cybersecurity in response to evolving threats and regulatory demands. With Indian IT companies playing a critical role in addressing talent shortages and delivering innovative solutions, the market is well-positioned for sustained expansion in the coming years.

Cloud Native Modernization Projects – North America Cloud Migration Market: A Strategic Shift

NORTH AMERICA CLOUD MIGRATION MARKET: A STRATEGIC SHIFT

GROWTH OF THE NORTH AMERICA CLOUD MIGRATION MARKET

- The North America cloud migration market is witnessing significant growth, driven by the increasing demand for modernization and digital transformation. Enterprises are prioritizing cloud migration to enhance operational efficiency, scalability, and innovation.
- This shift reflects the growing importance of cloud technologies in enabling businesses to remain competitive in a rapidly evolving digital landscape. Organizations are increasingly viewing cloud migration as a strategic investment to future-proof their operations and align with the demands of a digital-first economy.

ADOPTION OF CLOUD SERVICES IN THE UNITED STATES

- Cloud services have become a cornerstone of business operations in the United States, with widespread adoption across industries. Enterprises are increasingly relying on cloud-native development to streamline processes, improve agility, and foster innovation.
- This trend highlights the critical role of cloud technologies in shaping the future of business operations and application development. Businesses are leveraging cloud platforms to not only optimize their existing processes but also to create new revenue streams and enhance customer experiences.

STRATEGIES AND TRENDS IN CLOUD MIGRATION

- Organizations are employing various strategies to migrate to the cloud, including lift-and-shift and full refactoring. These approaches are tailored to meet specific business needs and objectives.
- Emerging trends such as microservices, containers, and serverless architectures are gaining traction, offering enhanced flexibility and efficiency. Leading Indian IT companies, including Infosys Limited, Tata Consultancy Services (TCS), Wipro Limited, HCL Technologies Limited, and Mphasis Limited, are at the forefront of application modernization.

U.S. ENTERPRISES EMBRACE CLOUD-NATIVE ARCHITECTURES

- U.S. enterprises are increasingly turning to cloud-native architectures for their application rebuilds to achieve greater scalability, resilience, and quicker deployment cycles. This transition has spurred a heightened demand for Kubernetes, microservices, and DevOps expertise, particularly from Indian IT providers.

GCC Proliferation and Transformation

Indian GCCs: North America's Strategic Tech Allies

- Indian Global Capability Centers (GCCs) have established themselves as significant contributors, delivering IT and business services to organizations across the United States and Canada. Operating as integral extensions of their North American headquarters, these centers enhance product development timelines, ensure uninterrupted 24×7 operations, and capitalize on India's abundant and skilled technology workforce. By leveraging India's cost advantages and technical expertise, GCCs enable companies to remain competitive in an increasingly dynamic global market.
- In addition to fostering core innovations, GCCs play a critical role in enabling outsourcing strategies. By assuming responsibility for specific operational tasks, they allow internal teams to redirect their efforts toward high-priority strategic objectives. This operational model equips North American enterprises with the ability to achieve an optimal balance between cost-effectiveness and the delivery of superior service quality. Furthermore, GCCs contribute to operational scalability, allowing businesses to adapt quickly to changing market demands without compromising efficiency or performance.
- Beyond operational benefits, GCCs are increasingly becoming hubs for strategic decision-making and innovation. Many organizations are now leveraging these centers to drive digital transformation initiatives, develop cutting-edge technologies, and explore new business models. By integrating GCCs into their global operations, companies can access a diverse talent pool, foster cross-border collaboration, and accelerate their journey toward achieving long-term business goals. This evolution underscores the growing importance of GCCs as not just support centers but as strategic assets in the global business.

GCCs Transforming into Strategic Innovation Hubs

- GCCs Evolve into Strategic Innovation Hubs: Once viewed merely as back-office cost centers, GCCs have now emerged as pivotal players in the global innovation arena. Embracing advanced technologies like AI, cloud computing, and digital transformations, these centers are reshaping the landscape of global innovation.

India's GCC Growth and Emerging Opportunities

- India's GCC Surge and New Opportunities: With a strong and skilled workforce backing it, India stands on the brink of a significant GCC expansion. Multinational corporations are tapping into India's strengths in R&D, engineering, and digital transformation. As GCCs integrate advanced technologies such as AI/ML, cybersecurity, and analytics, they open doors for IT providers to offer high-value, outcome-centric services. Furthermore, the Build-Operate-Transfer (BOT) model is witnessing a surge, with numerous new GCCs forming through strategic partnerships with providers.
- As of 2024, India is home to over 1,700 Global Capability Centers (GCCs), generating a collective revenue of USD 64.6 billion. Projections, as per NASSCOM, suggest a leap to USD 100 billion by 2030. This trajectory underscores India's ascent as a global GCC hub, bolstered by its skilled workforce, cost-effectiveness, and a strong digital backbone.

Future Outlook	In conclusion, Indian GCCs have transitioned from being mere cost-saving hubs to becoming indispensable components of global business strategies. Their ability to deliver innovation, scalability, and operational excellence positions them as critical enablers for North American enterprises aiming to thrive in a competitive and technology-driven market.

Mid-Market Enterprise Outsourcing Opportunities – Rising Trends in IT Outsourcing: A Focus on Mid-Market Enterprise

Regulatory Landscape

The regulatory landscape for Indian IT services and BPM exports to North America is characterized by a complex web of federal and state regulations designed to protect data privacy, ensure financial transparency, maintain cybersecurity standards, and preserve national security interests.

SARBANES-OXLEY (SOX) COMPLIANCE REQUIREMENTS

SOX COMPLIANCE FRAMEWORK FOR IT SERVICES

- **Section 302 Requirements**: CEO and CFO certification of financial reports necessitates robust IT controls for data integrity and accuracy.
- **Section 404 Internal Controls**: Management assessment of internal controls requires comprehensive IT systems for financial data management and reporting.
- **Section 409 Real-Time Disclosures**: Requirements for real-time financial disclosures drive the need for advanced IT monitoring and reporting capabilities.

IT GENERAL CONTROLS (ITGC) REQUIREMENTS

- **Access Management Controls**: Implementation of role-based access controls, user authentication, and authorization systems for financial applications.
- **Change Management Procedures**: Formal change control processes for financial systems, including approval workflows, testing procedures, and documentation requirements.
- **Data Security and Backup**: Comprehensive data protection measures including encryption, backup procedures, and disaster recovery planning.

OUTSOURCING CONSIDERATIONS FOR SOX COMPLIANCE

- **Service Provider Evaluation**: Due diligence requirements for selecting SOX-compliant service providers with appropriate certifications and control frameworks.
- **Shared Responsibility Model**: Clear delineation of compliance responsibilities between client organizations and service providers.
- **Continuous Monitoring**: Ongoing assessment and monitoring of service provider compliance with SOX requirements.

TECHNOLOGY TOOLS FOR SOX COMPLIANCE

- **Security Information and Event Management (SIEM)**: Centralized logging and monitoring systems for detecting security incidents and compliance violations.
- **Data Loss Prevention (DLP)**: Systems to prevent unauthorized data access and transmission.
- **Identity and Access Management (IAM)**: Comprehensive user identity management and access control systems.

CYBERSECURITY REQUIREMENTS UNDER NIST FRAMEWORKS - NIST CYBERSECURITY FRAMEWORK 2.0 OVERVIEW

FRAMEWORK STRUCTURE AND COMPONENTS

- **Core Functions**: Five key cybersecurity functions including Identify, Protect, Detect, Respond, and Recover, providing comprehensive risk management approach.
- **Implementation Tiers**: Four tiers (Partial, Risk Informed, Repeatable, Adaptive) allowing organizations to assess and improve their cybersecurity maturity.
- **Organizational Profiles**: Customizable frameworks enabling organizations to align cybersecurity practices with business requirements and risk tolerance.

FRAMEWORK 2.0 ENHANCEMENTS

- **Expanded Scope**: Broader applicability beyond critical infrastructure to all organizations, including IT service providers.
- **Enhanced Governance Focus**: Strengthened emphasis on cybersecurity governance and integration with enterprise risk management.
- **Supply Chain Risk Management**: Improved guidance on managing cybersecurity risks in supply chain relationships.

NIST FRAMEWORK IMPLEMENTATION FOR IT SERVICE PROVIDERS - IDENTIFY FUNCTION REQUIREMENTS

- **Asset Management**: Comprehensive inventory of hardware, software, data, and personnel assets supporting business functions.
- **Risk Assessment**: Regular assessment of cybersecurity risks to organizational operations, assets, and individuals.
- **Governance Structure**: Establishment of cybersecurity policies, procedures, and oversight mechanisms.

PROTECT FUNCTION IMPLEMENTATION

- Access Control: Implementation of identity management and access control systems to limit access to authorized users.
- Data Security: Protection of data at rest and in transit through encryption and other security measures.
- Protective Technology: Deployment of security tools and technologies to protect against cybersecurity threats.

DETECT, RESPOND, AND RECOVER FUNCTIONS

- **Continuous Monitoring**: Implementation of systems for ongoing detection of cybersecurity events and anomalies.
- **Incident Response**: Established procedures for responding to detected cybersecurity incidents.
- **Recovery Planning**: Development of business continuity and disaster recovery plans to restore normal operations.

EXPANDING INDIAN IT & BPO GROWTH IN CANADA

Indian IT services and BPO companies are targeting the North American market, with Canada emerging as a key destination for expansion. As industries such as BFSI, healthcare, telecom, and energy undergo digital transformations, the demand for agile, innovative, and cost-effective IT and BPM solutions is increasing. Rather than perceiving a U.S. market slowdown as a challenge, Indian firms view it as an opportunity to expand in Canada. By diversifying their geography, services, and clientele, and offering flexible contracts, Indian IT and BPO companies effectively manage uncertainties and capitalize on emerging opportunities.

EXPANSION STRATEGY: A GATEWAY TO CANADIAN OPPORTUNITIES

Diversifying North American Revenue Streams

- **Capitalizing on Canada's Economic Resilience:** Indian IT/BPO firms target resilient sectors like healthcare, finance, and telecom in Canada, where digital modernization drives demand despite U.S. slowdowns.
- **Harnessing Cost Advantages:** Indian firms reallocate resources to Canadian clients during U.S. project reductions, offering competitive pricing and faster delivery.
- **Bridging the Talent Gap:** Indian IT/BPO firms address Canadian talent shortages and high labor costs by providing skilled remote teams and project-based solutions.

Navigating Uncertainty: Indian Companies' Strategies

- Diversifying Services and Industries: Indian firms are expanding into cloud solutions, cybersecurity, analytics, and BPM to reduce sector-specific risks. MethodHub Software Limited, for example, targets mid-market enterprises in Canada's BFSI, healthcare, and telecom sectors to lower U.S. market dependency.
- Embracing Contract Flexibility: Indian companies are adopting fixed-price, time-and-material, and outcome-based contracts to manage client costs and ensure service continuity.
- Building Local Trust: By opening offices or forming partnerships in Canada, Indian firms build trust and comply with local regulations.
- Harnessing Agility: Smaller firms like MethodHub Software Limited quickly adjust team sizes and innovate faster than larger competitors.

STRATEGIC EXPANSION & MARKET DIVERSIFICATION OF METHODHUB SOFTWARE LIMITED

Mitigating U.S. Market Slowdown

Acquired a strategic stake in Toronto-based Zortech Solutions Inc. to leverage its Canadian presence and ensure continued growth across North America.

Strengthening Service Portfolio

Acquired an additional 59% interest in BrainCapitol Technologies (partnership firm) to enhance staffing and IT service capabilities.

Key Impact

- Expanded North American footprint and access to new clients.
- Increased delivery capacity and diversified service offerings.
- Strengthened recurring revenue streams and market resilience.

Strategic Recommendations

- MethodHub Software Limited is poised to pivot 30–40% of its North American focus from U.S. clients to Canada in response to a potential U.S. economic slowdown.
- By targeting Canadian BFSI and healthcare sectors, MethodHub Software Limited can deploy remote project teams efficiently, offering cost savings of 15–25% compared to local providers.
- Forging strategic partnerships with mid-sized IT consultancies in Canada can bolster MethodHub Software Limited's market entry and shield it from U.S. economic volatility.

DEEP TECH TALENT POOL WITH STRONG ENGLISH PROFICIENCY

- India boasts one of the world's largest and most diverse pools of engineering talent. Professionals in India, trained at top-tier institutions and boot camps, excel in areas ranging from software development and cloud engineering to data science and cybersecurity. This rigorous training not only imparts deep domain expertise but also nurtures a talent ecosystem finely attuned to the evolving demands of North American enterprises.
- Furthermore, proficiency in English, both written and spoken, greatly boosts collaboration efficiency. With their linguistic skills, Indian professionals engage seamlessly with North American stakeholders, needing little in the way of cultural or communicative adjustment.
- This fluency not only builds trust but also speeds up onboarding and mitigates risks in offshore delivery models. To further bolster this advantage, Indian firms have established localized upskilling infrastructures. These include corporate academies, virtual learning platforms, and partnerships with esteemed universities, ensuring professionals stay updated in cutting-edge areas like AI, cloud-native technologies, and BPM tools.
- India's engineering talent pool is further strengthened by its cost-effectiveness, making it an attractive destination for global enterprises seeking high-quality services at competitive rates. The combination of technical expertise, linguistic proficiency, and affordability positions India as a strategic partner for businesses aiming to optimize their operations and drive innovation. This unique value proposition has led to a steady increase in foreign investments and collaborations, further solidifying India's role in the global technology and services market.

TIME ZONE OVERLAP ENABLING CONTINUOUS DELIVERY

- India's time zone, which is 9.5 to 12.5 hours ahead of North America, provides a strategic advantage through a "follow-the-sun" delivery model. This model ensures that when U.S. businesses conclude their workday, Indian teams seamlessly take over operations, enabling continuous, real-time progress overnight. This approach significantly accelerates issue resolution, shortens release cycles, and ensures uninterrupted, 24×7 support for mission-critical applications, which is a key requirement for many global businesses.
- This synchronized delivery framework also enhances agile collaboration. Sprint planning conducted during U.S. business hours is promptly executed by Indian teams overnight, allowing results to be delivered by the next U.S. business morning. This efficient process not only reduces feedback loops but also eliminates the financial burden of idle time and minimizes delays for clients. The ability to maintain such a responsive and efficient operational model is a critical factor in meeting the dynamic demands of global markets.
- Clients across a wide range of industries, including financial services, healthcare, and technology, highly value this operational agility. It is particularly beneficial in time-sensitive domains such as digital customer experiences and real-time analytics, where speed and accuracy are paramount. The ability to deliver consistent, high-quality outcomes in these areas strengthens client trust and fosters long-term partnerships.
- Key Development (August 2025): Recognizing the strategic importance of 24×7 delivery capabilities, Tamil Nadu introduced "GCC One," a single-window clearance system designed to streamline and expedite approvals for capability centers. This initiative underscores the country's commitment to supporting overseas businesses by leveraging time-zone alignment and operational efficiency.

A COST-EFFECTIVE WORKFORCE COMBINED WITH DELIVERY MATURITY

- India's cost-to-value proposition is highly competitive. Skilled professionals earn salaries 60–75% lower than their North American counterparts, while Indian centers leverage scale, infrastructure, and mature delivery capabilities to enhance margins and value.
- Indian Information Technology (IT) and Business Process Management (BPM) firms have developed quality frameworks and agile methodologies. Process frameworks like Capability Maturity Model Integration (CMMI), International Organization for Standardization (ISO), and Information Technology Infrastructure Library (ITIL) meet global standards. Domain-specific playbooks, automation frameworks, and centers of excellence (CoE) further ensure efficient execution.
- Corporate teams are increasingly establishing client-specific delivery hubs in India. These hubs, equipped with automation tools, industry templates, and integrated governance, are driving a shift from low-value outsourcing to high-value shared service models.

STRONG TRACK RECORD WITH LARGE U.S. ENTERPRISES

- Indian IT (Information Technology) and BPM (Business Process Management) firms have built enduring partnerships with Fortune 500 companies across sectors such as banking, healthcare, retail, and manufacturing.
- These collaborations often begin with standard mandates but evolve into strategic engagements, including app modernization, cloud migration, BPM automation, and AI (Artificial Intelligence)-driven innovation. By delivering mission-critical tasks at scale, Indian firms have become trusted partners. Their institutional knowledge, domain expertise, and global delivery quality, supported by referenceable case studies, sustain client confidence.
- Many U.S. and Canadian enterprises have adopted onshore-offshore delivery models with Indian partners, embedding them into their strategic IT roadmaps. These models enable businesses to leverage cost efficiencies, access a skilled talent pool, and ensure round-the-clock operations. Additionally, the integration of Indian partners into IT strategies allows companies to scale operations to maintain a competitive edge in the market.

GCC ECOSYSTEM MATURITY AND SCALE

- India leads the Global Capability Centers (GCCs) market, driving IT services and BPM exports to North America. These centers support traditional outsourcing and high-demand services like engineering R&D, product innovation, and enterprise transformation.
- Nearly 90% of India's GCCs integrate technology, operations, and engineering, enabling end-to-end execution, faster time-to-market, and reduced silos. Engineering R&D-focused GCCs are growing 1.3 times faster, reflecting a shift toward innovation-led engagements that enhance North American client competitiveness.
- India's GCC ecosystem benefits from network effects and geographic diversification. Centers in metros and Tier II/III cities like Coimbatore, Visakhapatnam, and Ahmedabad enable cost optimization, risk diversification, and access to fresh talent pools, supporting next-gen GCC growth.
- Additionally, India's GCCs leverage advanced digital tools and automation to enhance operational efficiency and deliver scalable solutions, meeting the evolving demands of North American enterprises.

Competitive Landscape

Market Concentration

- In the Indian IT Services and BPM export market, North America stands out as a focal point. Dominating the scene are major players like TCS, Infosys, HCL Technologies, Wipro, and Tech Mahindra. Yet, it's noteworthy that smaller entities hold a significant 74.75% of the market share. While the landscape is marked by fragmentation, intense competition, and price pressures, a discernible trend emerges consolidation and strategic acquisitions. This trajectory hints at an enduring dominance by the larger firms. However, it simultaneously opens avenues for niche players, emphasizing the importance of innovation and specialization.

CONSOLIDATION DYNAMICS

- Market Fragmentation: Despite the presence of leading companies such as TCS, Infosys, HCL, Wipro, and Tech Mahindra, the "Others" category accounts for a significant 74.75% of the market share. This highlights a highly fragmented market structure, characterized by many smaller and mid-sized IT firms actively competing for the remaining share. The COMPETITIVE LANDSCAPE reflects the diverse range of players striving to establish their presence and cater to various client needs.
- Increasing Consolidation: Prominent market players are consistently expanding their reach through a combination of strategic acquisitions, partnerships, and organic growth initiatives. For instance, TCS and Infosys have strategically acquired smaller, specialized firms operating in high-growth areas such as cloud computing, cybersecurity, and artificial intelligence. These acquisitions enable them to diversify their service portfolios, enhance their technological capabilities, and strengthen their market positioning in an increasingly competitive environment.
- Mergers and Acquisitions (M&A): The Indian IT services market is experiencing a notable rise in mergers and acquisitions activity. Smaller firms are increasingly consolidating their resources and expertise to remain competitive against larger players. Simultaneously, major companies are actively acquiring niche firms to augment their capabilities in specialized domains, including artificial intelligence, cloud computing, and business process management (BPM). This trend reflects a strategic focus on enhancing operational efficiency and addressing evolving client demands.

COMPETITIVE INTENSITY

- Market Saturation: Leading players such as TCS, Infosys, and HCL are encountering signs of market saturation, particularly in their enterprise and large-scale service offerings. These companies are engaged in an ongoing battle for market leadership across critical sectors, including banking, telecom, manufacturing, and retail, where competition remains intense.
- Focus on Differentiation: To navigate the highly COMPETITIVE LANDSCAPE, Indian IT companies are increasingly emphasizing differentiation by leveraging innovative solutions. Key focus areas include advancements in cloud computing, AI-driven automation, and data analytics, which are being utilized to enhance service offerings and deliver greater value to clients.
- Service Differentiation: To maintain a competitive edge, industry players are concentrating on providing tailored solutions, sector-specific services, and comprehensive digital transformation capabilities. These efforts are particularly targeted at attracting high-value clients in North America, a region that continues to be a significant revenue driver for the industry.
- Price Pressure: The sector faces mounting price pressures due to market fragmentation and the growing presence of low-cost service providers. While smaller firms often struggle to compete on price and scale, they are differentiating themselves by focusing on specialized expertise and niche service offerings, enabling them to capture opportunities in specific market segments.

Strategic Moves (Mergers and Acquisitions)

Key market drivers motivating Indian IT/BPM firms to pursue strategic alliances with North American counterparts

Indian IT services and BPM firms are increasingly forming strategic alliances, encompassing mergers, acquisitions, partnerships, and collaborations, with U.S. and Canadian companies to capitalize on North America's dominant position in global technology spending, which accounts for over 40% of worldwide IT expenditures. These alliances are driven by a confluence of economic, technological, and geopolitical factors, enabling Indian firms to enhance their competitive edge, accelerate innovation, and achieve sustainable revenue growth.

Access to Advanced Technologies	North American firms lead in advanced technologies like AI, cloud computing, and quantum computing, which Indian companies aim to adopt to enhance their offerings. For instance, the US-India Initiative on Critical and Emerging Technology (iCET), launched in 2023 and evolving through 2025, facilitates joint ventures in AI, allowing Indian firms like Infosys Limited and TCS to co-develop solutions. This driver is fueled by India's need to bridge the innovation gap. Such alliances help Indian firms access U.S. R&D ecosystems, boosting their tech capabilities amid a projected global AI market growth.
Client Base Expansion	Alliances provide Indian firms with entry into North America's vast client networks in sectors like BFSI, healthcare, and retail, where outsourcing demand is high. North America contributes significantly to the Indian IT exports, with U.S. clients alone driving growth for the sector. Additionally, Wipro Limited's 2024 partnership with a Canadian fintech firm to expand into North American banking resulted in a 15% revenue uplift in that segment. This expansion mitigates India's domestic market saturation and leverages North America's economic recovery, with U.S. IT spending forecasted to grow in 2025.
Competitive Pressures	Geopolitical tensions, including US-China trade wars, position India as a preferred alternative for outsourcing, with 70% of U.S. firms citing India for cost-effective, reliable services. Competitive rivalry from global players like Accenture Plc pushes Indian firms toward acquisitions in 2024. Indian IT M&A deals reached USD 15 billion, many targeting North American assets for market share. Infosys' acquisition of a U.S.-based AI startup in early 2025 exemplifies this, enhancing its competitive positioning and contributing to a 12% year-over-year revenue growth.
Digital Transformation Demands:	North American enterprises are accelerating digital overhauls, with 58% adopting specialized outsourcing for AI and cloud. Indian firms ally to meet this, as seen in TCS's 2024 partnership with a Canadian telecom giant for 5G transformation, driving USD 2 billion in combined revenue. North America is expected to dominate the digital transformation market, encouraging Indian firms to pursue long-term contracts in the region.

Key Insights	The Indian IT firms should focus on building partnerships to access advanced technologies, expanding their client base in high-demand sectors, aligning with evolving regulatory frameworks, pursuing strategic acquisitions to enhance competitiveness, and meeting the growing demand for digital transformation services in North America.

Highlights on Indian IT Services Firms are Acquiring, Merging and Partnering with U.S. Firms to reduce Opex and Increase Revenue

HIGHLIGHTS ON INDIAN IT SERVICES FIRMS ARE ACQUIRING, MERGING, AND PARTNERING WITH U.S. FIRMS TO REDUCE OPEX AND INCREASE REVENUE

Timeline	Type of Development	Details	Implications (Cost/Opex)	Opportunity (Revenue/Growth)
February 2024	Acquisition (majority stake)	Wipro Limited acquired 60% of Aggne Global Inc. (U.S.), a Duck Creek–focused P&C Insurtech consultancy, for USD 66 million.	This acquisition adds IP-led, repeatable Duck Creek delivery playbooks and nearshoring leverage, lowering delivery costs per implementation.	Cross-sell Duck Creek cloud transformations to U.S. insurers; faster time-to-value drives larger managed services annuities.
April 2024	Strategic partnership	Tata Consultancy Services Limited signed a multi-year agreement with Amazon Web Services, Inc. to accelerate cloud modernization and train 25,000 staff in GenAI on AWS.	Standardized tools and a skilled workforce minimize project rework and infrastructure overhead, while managed cloud operations deliver operational cost efficiencies.	Larger U.S. cloud/GenAI transformation deals; packaged migrations and GenAI solutions expand wallet share.
May 2024	Strategic partnership	Tata Consultancy Services Limited and CrowdStrike Holdings, Inc. (U.S.) launched a global cybersecurity partnership to power TCS Extended Managed Detection and Response (XMDR) with Falcon Extended Detection and Response (XDR).	A unified platform, supported by a managed Security Operations Center (SOC), reduces tooling complexity and staffing expenses, providing TCS with a scalable managed framework.	In the United States, new recurring Extended Managed Detection and Response (XMDR) revenue emerges, emphasizing the importance of attaching security to cloud and data deals to achieve a higher Average Contract Value (ACV).
July 2024	Acquisition	Persistent Systems Limited to acquire Starfish Associates, LLC (U.S.), an enterprise communications automation platform.	The automation of multi-vendor Unified Communications (UC) and Contact Center (CC) systems decreases operational efforts and Level 1/Level 2 costs, while expanding opportunities for reusable accelerators.	Upsell AI-powered contact center modernizations and managed services across U.S. customer base.
July 2025	Partnership extension	Infosys Limited extended collaboration with AGCO Corporation (U.S.) to transform IT & HR ops using Infosys Cobalt/Topaz.	Streamlined IT and HR processes, along with platform consolidation, lower operational costs, and established scalable templates.	Deeper penetration in U.S. industrials; referenceable case to win similar ops-transformation deals.

Strategic Recommendations	Indian IT services firms must adopt a multifaceted strategy to thrive in the competitive U.S. market. By focusing on sector-specific acquisitions, upskilling in GenAI and cloud technologies, and fostering robust partnerships with hyperscalers and SaaS providers, they can enhance operational efficiency and revenue growth. This approach will enable firms to reduce costs, deliver scalable solutions, and secure a stronger foothold in the U.S. IT services landscape.

ACTIONABLE RECOMMENDATIONS

- Evaluate Partners Strategically:
  - Prioritize North American firms with complementary tech stacks (e.g., AI/cloud) via due diligence tools like SWOT analyses. Target acquisitions under USD 500 million for quick integration, aiming for 10 -15% revenue within 18 months.
- Build Resilience in Alliances
  - Allocate 5 -10% of deal value to compliance and risk management; establish KPIs for productivity (e.g., 20% cost reduction) and revenue (e.g., 15% growth from new clients).
- Leverage Government Frameworks
  - Engage the US-India Initiative on Critical and Emerging Technology (iCET) or Canada's Indo-Pacific Strategy for incentives; monitor U.S. tariffs to diversify into Canada, where alliances grew 25% in 2024-2025.
- Monitor Metrics Quarterly
  - Track alliance performance via dashboards focusing on revenue attribution (target 20 - 30% from North America) and productivity metrics like utilization rates (aim for 85%).

Unlocking Revenue Potential in the North American Tech Ecosystem:

By focusing on these strategies, Indian IT service companies can tap into an additional USD 50-100 billion in revenue by 2030, elevating their firms to the forefront of the North American tech landscape.

OPERATING EXPENSE (OPEX) REDUCTION

Operating Expense (OPEX) Reduction: Indian IT services firms provide a cost-efficient global delivery model for U.S. and Canadian companies through acquisitions or partnerships. Key factors include:

- Offshore/Onshore Hybrid Delivery – Routine tasks are managed in Indian centers, while critical client-facing work remains onshore, reducing TCO by 20–40%.
- Shared Services Consolidation – M&As centralize IT support, HR, finance, and procurement in India, eliminating redundancies. Technology-Driven Automation – Indian partners leverage RPA, AI, and ITSM automation to reduce manual processes and lower OPEX.

Revenue Growth: These strategies enhance cost efficiency and drive revenue growth:

- **Access to Established Client Portfolios** – Acquisitions provide immediate access to U.S. and Canadian enterprise accounts. Cross-Selling & Upselling Opportunities – Indian firms offer digital transformation, cloud migration, and analytics services to acquired clients.
- **Expansion into High-Value Sectors** – Partnerships enable entry into regulated industries like BFSI, healthcare, and the public sector. Co-Innovation with Clients – Joint ventures create productized solutions for global marketing.

Realization Path

- **Phase 1**: Integration & Cost Synergy (0 - 12 months) Consolidate delivery operations. Implement standardized ITSM and DevOps frameworks. Optimize workforce allocation between onshore and offshore teams.
- **Phase 2:** Growth Synergy (12 - 36 months) Launch joint go-to-market strategies for large transformation deals. Expand service offerings for North American clients. Leverage the local partner's reputation to secure high-margin contracts.

Technology Leadership

- Indian vendors are increasingly adopting advanced technologies such as artificial intelligence (AI), machine learning (ML), robotic process automation (RPA), data analytics, and cloud computing to enhance their service portfolios. This strategic integration not only accelerates digital transformation for their clients but also drives superior automation capabilities and improves process intelligence, enabling businesses to achieve greater efficiency and competitiveness.
- Leading players in the market are focusing on the development and enhancement of low-code/no-code platforms and workflow automation tools. These innovations allow clients to quickly adapt their business processes to changing demands while achieving significant operational efficiencies. Furthermore, AI-powered automation and industry-specific solutions tailored for sectors like BFSI, healthcare, and manufacturing have emerged as critical differentiators, providing a competitive edge in the market.
- Supported by government initiatives, companies have established multiple Centers of Excellence (CoE) dedicated to emerging technologies. These CoEs function as

innovation hubs, fostering the development of skilled talent and driving advancements in next-generation, technology-led BPM and IT services. By leveraging these centers, businesses can stay at the forefront of technological innovation and maintain a competitive position in the market.

Strategic Moves and Developments

GEOGRAPHIC EXPANSION

- **Market Focus:** North America, particularly the United States, continues to be the primary focus for Indian IT services and BPM vendors due to the region's early adoption of digital solutions and its large base of enterprise customers. Indian vendors are actively enhancing their presence in the region by establishing local offices, acquiring U.S.-based firms, and forming strategic partnerships with American companies. These efforts are aimed at improving their ability to serve key sectors effectively and expand their footprint in a highly competitive market.
- **Customized Solutions for Large Enterprises:** A significant portion of the demand for IT services and BPM originates from large, geographically distributed enterprises that require tailored solutions to manage complex multinational operations. To meet these demands, vendors are customizing their service offerings, emphasizing support capabilities, compliance with regional regulations, and a deep understanding of the local market dynamics. This approach allows vendors to provide more targeted solutions, ensuring better alignment with the operational needs of large-scale enterprises.
- **SME Outreach:** The widespread adoption of cloud-based technologies has opened up new opportunities for IT and BPM vendors to cater to small and medium-sized enterprises (SMEs) in North America. Cloud-based offerings provide scalable, flexible, and cost-effective solutions that are particularly appealing to SMEs looking to modernize their business operations without large upfront investments. By offering services that meet the specific needs of this segment, vendors are expanding their customer base and contributing to the growth of digital transformation in businesses of all sizes.

BUSINESS MODEL INNOVATION

- **Cloud-based Delivery Models**: There is a clear and growing shift towards Software-as-a-Service (SaaS) and cloud-based Business Process Management (BPM) solutions. Indian vendors are increasingly adopting these delivery models, which offer clients the flexibility of pay-as-you-go pricing and the ability to scale services as needed. These cloud-based models reduce the barriers to entry for businesses, especially smaller ones, by lowering upfront costs and enabling rapid scaling without significant capital investment. The shift to cloud-based delivery also allows for more efficient service management, ensuring greater agility in meeting client demands.
- **Process and Outcome-based Pricing**: In response to evolving client expectations, there has been a notable innovation in commercial pricing models. Vendors are increasingly adopting process and outcome-based pricing structures, where fees are linked to the actual business performance and outcomes achieved by the client. These models align the interests of both parties, creating a performance-driven partnership where the vendor is incentivized to deliver tangible results. By tying compensation to specific business outcomes, such as cost savings or efficiency improvements, these models help strengthen client-vendor relationships and foster long-term collaborations based on trust and mutual benefit.
- **Value-added Partnership**: Indian IT and BPM companies are increasingly positioning themselves not just as service providers, but as strategic partners in their clients' digital transformation journeys. This approach involves taking full ownership of end-to-end processes and collaborating closely with clients to drive innovation and transformation. By becoming integral to the client's digital roadmap, vendors can deliver value beyond traditional service provision, offering strategic insights, new capabilities, and solutions that drive long-term growth.

MethodHub Software Limited – Strategy

Strategy Type	Description
Corporate Strategy	MethodHub Software Limited pursues growth through strategic acquisitions and alliances, targeting companies in the U.S. and Canada to expand its client base and technology footprint. The company emphasizes rigorous due diligence and funds these acquisitions via capital raised through its IPO. It also fosters business partnerships and joint go-to-market strategies with deep-tech solution providers to gain access to emerging technologies and markets. Geographic expansion is a priority, with focused efforts on strengthening presence in North America, supported by offshore product engineering and captive operations in India. The company maintains operational excellence by streamlining processes and building exclusive delivery centers in India to optimize cost and delivery timelines. Recruitment excellence ensures rapid, quality talent acquisition, reinforcing scalability and customer satisfaction.
Brand Positioning	MethodHub positions itself as a customer-centric, quality-driven IT service provider focused on delivering tailored solutions that address diverse business needs across multiple industries. It emphasizes operational excellence, timely delivery, and cost efficiency while maintaining a strong brand image associated with reliability and innovation.
Channel Strategy	MethodHub employs a multi-channel marketing and sales approach, leveraging digital platforms and partnerships to maximize reach. The company actively uses social media (especially LinkedIn) for brand promotion and customer engagement through daily, value-driven content. It expands geographically by partnering with local firms in strategic sectors like BFSI, healthcare, energy, telecom, and eCommerce, enabling organic and inorganic growth.
Product and Innovation Strategy	The company is committed to expanding and diversifying its software services beyond supply chain management into areas like marketing, sales, and finance by developing new enterprise products. Innovation is driven by leveraging data and AI technologies to create smart, ready-to-use solutions that solve industry-specific challenges. MethodHub fosters co-innovation through partnerships and acquisitions, integrating emerging deep-tech capabilities into its portfolio.
Geographical Expansion	The company is expanding into the United States and Canadian markets by targeting emerging sectors. Strategic partnerships have driven growth in BFSI, Healthcare, and Energy. A Texas-based services company with SAP expertise enabled entry into the Oil & Gas and Energy sectors, while an offshore delivery center in Mohali, India, supports North American healthcare clients, ensuring cost efficiencies and revenue growth. The acquisition of a Canada-based telecom and eCommerce consulting firm provided access to Canada, global infrastructure, and a scalable offshore framework. This positions the company to grow with clients and expand across Canada and key U.S. regions, including Silicon Valley, Dallas, Chicago, and Montreal.

Our Companies SOWT

STRENGTHS

- Highly skilled and trained IT professionals: The company boasts a team of highly skilled and well-trained IT professionals, ensuring the delivery of high-quality solutions and services to clients.
- Proven track record of delivering innovative and customized IT solutions: The organization has consistently provided bespoke IT solutions tailored to the unique needs of marquee clients, showcasing its ability to innovate and adapt.
- Long-standing client relationships and repeat business: The company has cultivated enduring relationships with its clients, resulting in a high rate of repeat projects and customer loyalty.

WEAKNESSES

- Limited operational presence: The company operates from a restricted number of locations, which may hinder its ability to expand its market reach and tap into new opportunities.
- Need for skill enhancement: The project execution teams require continuous knowledge upgrades to stay competitive and effectively manage evolving project demands.
- Revenue concentration risk: The company relies heavily on its top two customers for a substantial share of its revenue, posing a risk to financial stability if these clients reduce their business.

OPPORTUNITIES

- Limited penetration in the U.S. and Canadian markets, which restricts the company's ability to fully capitalize on growth opportunities in these regions.
- Dependence on offshore locations for executing partner-driven business sales, which may pose challenges in addressing local market dynamics and customer preferences effectively.
- Limited engagement with large enterprises, as well as federal, state, and local governments, due to insufficient partnerships with veteran-owned companies, which could hinder access to these segments.

THREATS

- Exposure to currency fluctuations, which may impact profitability and financial stability.
- Intense competitive activities and the need to continuously adapt to evolving customer IT strategies and technological advancements, posing challenges to maintaining market position.
- Uncertainty in government policies and political scenarios, including fluctuations in interest rates, political instability, and changes in immigration policies, which could affect business operations and workforce management.

Market Opportunities and Future Trends

Projected Growth of IT Exports in North America

PROJECTED GROWTH OF IT EXPORTS TO NORTH AMERICA

Market Size and Growth Trajectory

- Indian IT Services and BPM Exports to the North America market present substantial opportunities for Indian IT service providers, with the market projected to grow from USD 106.95 billion in 2025 to USD 142.72 billion by 2030, representing a compound annual growth rate (CAGR) of 5.94%. This robust growth trajectory is driven by accelerating digital transformation initiatives, cloud migration requirements, and increasing demand for specialized IT services across multiple industry verticals, creating significant expansion opportunities for Indian technology companies.
- Revenue Growth Projections
- NASSCOM forecasts the Indian technology industry will achieve revenue of USD 282.6 billion in FY25, representing 5.1% growth, with expectations to exceed USD 300 billion in FY26, driven by recovery in the US market and sustained demand across key verticals. Export revenues are anticipated to reach USD 224.4 billion in FY25, reflecting a 4.6% year-over-year increase, with traditional IT services expected to grow 4.3% to USD 137.1 billion and business process outsourcing revenues projected to rise 4.7% to USD 54.6 billion.

Sectoral Growth Opportunities

- The Public Sector and Government Projects vertical is anticipated to be the fastest-growing segment within the North American IT services market. This growth, projected at a compound annual growth rate (CAGR) of 7.91%, is primarily attributed to the rising demand for IT support services, as organizations in this sector increasingly prioritize digital transformation and operational efficiency.
- Banking, Financial Services, and Insurance (BFSI) continues to represent the largest opportunity for Indian IT service providers, with increased discretionary spending observed in the sector and growing investments in digital transformation, regulatory compliance, and customer experience enhancement initiatives. The retail sector demonstrates significant potential, driven by omnichannel transformation requirements, e-commerce platform modernization, and supply chain digitization needs that align with Indian IT companies' expertise in digital commerce and customer experience solutions.

Evolution of Service Models: Expanding Nearshore + Hybrid Delivery

EVOLUTION OF SERVICE MODELS: EXPANDING NEARSHORE + HYBRID DELIVERY

Transformation of Delivery Models

- The traditional offshore delivery model is evolving toward sophisticated hybrid and nearshore approaches, driven by client requirements for proximity, cultural alignment, and enhanced collaboration capabilities. Cross-border supply of software services has increased to 83.5%, while off-site services now account for 90% of total exports, representing a significant increase from 80% a decade ago, indicating the maturation and acceptance of remote service delivery models. This evolution reflects both technological advancement in remote collaboration tools and client comfort with distributed delivery models that optimize cost, quality, and responsiveness.
- Indian IT service providers are strategically establishing nearshore capabilities in locations such as Canada, Mexico, and the Caribbean to serve North American clients more effectively while maintaining cost advantages. Companies like Hexaware Technologies have opened new headquarters in Jersey City, New Jersey, while Zensar Technologies established a delivery center in Research Triangle Park, North Carolina, demonstrating the industry's commitment to proximity-based service delivery that combines offshore efficiency with onshore accessibility. These nearshore investments enable Indian companies to provide services during North American business hours, facilitate face-to-face client interactions, and address data sovereignty requirements while preserving cost competitiveness.

Hybrid Workforce Strategies

- The hybrid delivery model encompasses both geographic distribution and workforce composition, with Indian IT companies significantly increasing local hiring in North American markets to address visa restrictions, cultural requirements, and client preferences for domestic talent. Infosys has implemented a strategy to increase local hires to 60% of its US workforce, reducing reliance on H-1B visas while enhancing cultural alignment and client service capabilities. This approach enables companies to maintain competitive positioning while addressing political and regulatory concerns about foreign worker dependency.

Global Capability Centers (GCC) Expansion

- The GCC model enables North American companies to access Indian talent and innovation capabilities while maintaining direct control over operations, intellectual property, and strategic initiatives. Major technology companies, including Microsoft, Cisco, and JP Morgan Chase & Co., have established significant GCC operations in strategic locations such as Bengaluru, Hyderabad, Pune, Gurugram, and GIFT City, creating opportunities for Indian professionals to work directly with global organizations while remaining in India. This model represents a hybrid approach that combines the cost advantages of Indian operations with the strategic control and cultural alignment desired by North American enterprises.

Tech Segment Trends: AI, 5G, IOT, Digital Workplace

TECH SEGMENT TRENDS: AI, 5G, IOT, DIGITAL WORKPLACE

Artificial Intelligence and Generative AI Opportunities

- Artificial Intelligence represents the most significant growth opportunity for Indian IT services exports to North America, with 63% of technology executives expecting AI investments to exceed 10% of overall tech spending in FY26, creating substantial demand for AI implementation, integration, and management services. The generative AI revolution has created unprecedented opportunities for Indian IT companies, with over 90% of top service providers integrating AI across functions and 35% of deal pipelines being AI-led, demonstrating the market's rapid adoption of AI-driven solutions and services.

5G and Next-Generation Connectivity Services

- The deployment of 5G networks across North America creates substantial opportunities for Indian IT service providers specializing in telecommunications infrastructure, network optimization, and 5G-enabled application development. The technology enables new service categories, including edge computing, IoT connectivity, and ultra-low-latency applications that require specialized expertise in network engineering, software development, and systems integration. Indian companies like Cyient have been recognized as Major Contenders in the Everest Group PEAK Matrix for 5G Engineering Services, demonstrating their capabilities in this high-growth technology segment.

Internet of Things (IoT) and Edge Computing

- The Internet of Things represents a significant growth opportunity for Indian IT services, with North American enterprises increasingly adopting IoT solutions for operational efficiency, predictive maintenance, and customer experience enhancement across manufacturing, healthcare, retail, and smart city applications. The IoT market requires specialized expertise in device connectivity, data analytics, security, and systems integration that aligns with Indian companies' strengths in software development, data management, and technology integration services.

Digital Workplace Transformation

- Digital workplace transformation represents a substantial and growing opportunity for Indian IT service providers, driven by permanent changes in work patterns, collaboration requirements, and employee experience expectations resulting from the pandemic and ongoing digital transformation initiatives. The digital workplace market encompasses collaboration platforms, productivity tools, security solutions, and employee experience technologies that require comprehensive integration, customization, and ongoing management services.

OUR SERVICES

We offer a broad portfolio of services that are designed to address the evolving needs of our clients across industries and geographies. Our service offerings are structured into five key horizontal verticals, enabling us to deliver comprehensive and integrated solutions that support business transformation, operational efficiency, and long-term growth.

- Data and AI Services

We provide end-to-end data and artificial intelligence services that enable clients to modernize their data infrastructure, strengthen decision-making capabilities, and adopt AI responsibly. Our data offerings include the design and implementation of robust data foundations, data modernization programmes, platform integration, and workflow automation to improve scalability and efficiency. We also deliver data engineering, governance, security, and privacy solutions to ensure compliance with applicable regulations and safeguard client information assets.

In the area of artificial intelligence, our services cover strategic consulting, readiness assessments, adoption roadmaps, and implementation of generative AI solutions aligned with client objectives. We design, customize, and integrate domain-specific AI applications such as chatbots, AI copilots, recommendation engines, and industry-focused analytics within existing technology environments. Post-deployment, we provide Artificial Intelligence or Machine Language operations support, infrastructure optimization, and performance monitoring to ensure sustained value delivery. Our advanced analytics and visualization capabilities further leverage machine learning techniques to transform complex datasets into actionable insights, helping clients across industries unlock the full potential of their data while driving innovation and operational excellence.

- IT Infrastructure:

Our company provides Infrastructure Services covering computer systems, networks, and complete IT environment management. These services include the setup, monitoring, and maintenance of hardware, servers, and cloud platforms to ensure uninterrupted business operations. We manage enterprise networks, data storage, and security frameworks with a strong focus on reliability and uptime. Proactive monitoring and quick issue resolution help reduce risks and prevent operational disruptions. We also enable clients to scale their infrastructure in line with evolving business needs while maintaining cost efficiency and flexibility. Through robust processes and adherence to industry best practices, our company delivers secure, stable, and future-ready IT infrastructure solutions.

- Cloud Services

As part of our technology-driven service portfolio, we provide comprehensive cloud-based solutions designed to enhance operational efficiency, scalability, and cost effectiveness for our clients. Our offerings cover the entire cloud adoption lifecycle, including assessment of existing IT infrastructure, formulation of tailored migration strategies, and secure execution of cloud transitions. We also provide continuous management of cloud environments with a strong emphasis on performance optimization, security, and regulatory compliance. In addition, we design and develop scalable cloud-native applications leveraging microservices architecture, containerization, and DevOps practices, thereby enabling accelerated product delivery and supporting the evolving business requirements of our clients.

- Recruitment Delivery Services:

Our Recruitment Delivery Services are designed to enable clients to attract, evaluate, and onboard the right talent through a structured, transparent, and quality-driven approach. The process begins with lead generation, requirement gathering, and execution of master service agreements to ensure alignment with client objectives. We collaborate with hiring managers to define roles, prepare detailed job descriptions, and establish clear success benchmarks. Leveraging internal recruiters, job boards, referrals, and technology platforms, we source, screen, and assess candidates before managing interviews, negotiations, and onboarding. Strong documentation, compliance checks, and integrated payroll processes ensure efficiency and reliability across the engagement. With adaptability, proactive issue resolution, and measurable quality controls, we deliver recruitment solutions that contribute to long-term client success.

- Cybersecurity

We provide comprehensive cybersecurity solutions designed to safeguard client assets, ensure regulatory compliance, and strengthen operational resilience. Our service offerings include vulnerability assessments, penetration testing, intrusion detection and prevention systems, and security information and event management. We also deliver identity and access management solutions, managed security services, and customized security architecture to address evolving cyber threats. By integrating continuous monitoring, threat analysis, and incident response, we enable clients to protect critical systems and data, while minimizing security risks in dynamic digital environments.

- Combined Offerings

The Combined Services division provides an integrated delivery framework across data and AI, cloud, IT infrastructure, cybersecurity, ERP/CRM integration, and recruitment delivery services. This division is structured to enable coordinated execution, standardized governance, and consistent service quality across engagements. Offerings are delivered under unified program management, common controls, and defined performance metrics to support regulatory compliance, operational efficiency, and scalability. The division focuses on cross-functional solution integration, risk-managed delivery, and outcome tracking to align with client requirements and applicable laws and regulations.

- ERP/CRM Integration

We provide enterprise resource planning (ERP) and customer relationship management (CRM) integration services aimed at improving operational efficiency and maximizing returns on technology investments. Our offerings include the automation, integration, and optimization of enterprise systems and custom-built applications to enhance process performance, scalability, and agility. Leveraging our expertise in business process design, we develop and implement solutions that align with client objectives, enabling data-driven decision-making and supporting sustained competitiveness in dynamic market environments.

Oil & Gas / Energy	We deliver technology-driven solutions for oil, gas, and energy enterprises, combining SAP platform integration with customized applications to address client-specific requirements. Our capabilities span the full energy value chain, including exploration, mining, refining, distribution, and renewable initiatives. In the renewable segment, we support clients with energy management systems, storage optimization, and advanced analytics to enhance generation efficiency and sustainability. For utilities, we provide solutions that strengthen transmission and distribution management, improve grid resilience, and enhance customer engagement. Our services are underpinned by deep sector knowledge, regulatory expertise, and a commitment to sustainable practices, enabling energy enterprises to improve efficiency, reduce risks, and adapt to evolving industry dynamics.
Telecom / Tech Infrastructure	We provide comprehensive technology solutions for the telecommunications sector, leveraging expertise across fixed line, mobility, internet services, streaming, roaming management, network optimization, switch management, base stations, and satellite communications. Our portfolio includes telecom network operations management, infrastructure modernization, SAP-based solutions, and system integration, supported by advanced capabilities in big data analytics, application development, and customer experience management. We also enable telecom cloud environments through network automation, predictive analytics, business intelligence, and data warehousing to enhance efficiency and performance. In addition, we offer solar solution system integration services covering the design, installation, and management of solar energy systems across government, industrial, commercial, and residential clients, enabling improved energy efficiency and sustainability.
Automotive & Transport	The Company provides advanced technology solutions for the automotive and transport sectors, driving smarter, safer, and more efficient mobility systems. Our offerings include the deployment of AI and machine learning for autonomous driving, predictive maintenance, and personalized user experiences. We also implement enterprise platforms such as ERP, CRM, QMS, retail, and supply chain systems to strengthen operational performance and customer engagement. In support of sustainable mobility, the Company delivers energy management solutions and collaborates across industries to develop integrated mobility innovations. We further contribute to smart city initiatives by enabling transportation network management, optimizing public transit systems, and enhancing urban mobility experiences.
IT Consulting	Our company's IT Consulting services combine flexible engagement models such as contract staffing, contract-to-hire, and full-time placements with project-based consulting. These services are delivered through both time-and-material (T&M) engagements and fixed-bid contracts, giving clients the flexibility to choose the model best suited to their needs. We collaborate closely with clients to understand their technology landscape, business priorities, and project objectives before deploying skilled professionals or

DETAILS OF KEY PROJECTS COMPLETED UNDER VARIOUS BUSINESS SEGMENTS

A. Data and AI Services

a) Data Testing & Validation

Our company conducted large-scale data testing for a cloud and data services provider, ensuring accuracy, integrity, and performance across their platforms. The engagement included comprehensive validation, discrepancy detection, functional testing, and regression testing. This strengthened reporting accuracy, streamlined data processes, and improved overall decision-making.

b) Automated Reporting Solutions

We implemented an automation framework for business report generation, scheduling, and distribution for a cloud and data services client. By introducing reusable templates and optimized data pipelines, we replaced manual processes with dynamic, scalable automation. The solution minimized effort, accelerated delivery timelines, and provided stakeholders with real-time access to critical metrics.

c) Data Platform Modernization

For a leading global credit rating agency, our company modernized their data infrastructure by migrating transaction-heavy applications from legacy databases such as Oracle and SQL Server to distributed systems including YugabyteDB and CockroachDB. This transformation delivered high availability, scalability, and resilience, enabling the client to manage intensive workloads with efficiency.

B. Cloud Services

a) Custom Integrated Postal System (IPS) Development

For an e-commerce and logistics company, our company built a UPU-compliant Integrated Postal System (IPS) platform covering mail processing, shipment tracking, address management, and payment processing. Developed using cloud-native architecture and Agile methodology, the solution enhanced operational efficiency, scalability, and end-user experience.

b) Application Migration & Consolidation to Cloud

We supported a global credit rating agency in modernizing its technology landscape by consolidating diverse on-premises and cloud applications into a unified platform. Legacy systems were migrated to AWS through a structured strategy involving sprint-based planning, risk assessment, and phased execution. The project delivered standardization, improved system performance, and long-term scalability.

c) Comprehensive Warranty Management Portal

For an extended warranty management provider, our company developed a cloud-based portal to streamline warranty solutions. The platform enables service providers to manage and fulfill orders, administrators to oversee operations and process claims, and agents to book orders on behalf of customers. This digital solution improved service efficiency, transparency, and customer satisfaction.

C. Combined Offerings

1. **Custom Application Development for OPR Management**

Using the AppLegos framework, our company developed a multi-platform custom application for an OPR management provider. The solution included practice and patient scheduling, appointment management, and Zoom integration, with compatibility across desktop, iOS, and Android platforms. This ensured accessibility, operational efficiency, and improved patient engagement.

2. **E-Ticketing System for Monuments in India**

We developed a cloud-enabled e-ticketing application that allows users to book online tickets for monuments across India. The system simplified the booking process, improved accessibility for domestic and international users, and enhanced operational efficiency for authorities managing high visitor volumes.

3. **Human Resource Management System (HRMS)**

Our company is designing a comprehensive HRMS platform delivering end-to-end HR functionalities, including employee records management, payroll processing, recruitment workflows, and performance evaluations. The system enabled businesses to streamline HR operations, improve compliance, and enhance workforce management.

D. ERP/CRM Integration

a. Opportunity-to-Cash (OTC) Automation for Oil & Gas Exploration

Our company has been exclusively engaged by an Oil & Gas exploration enterprise to deliver strategic projects for its Application Support Group (ASG)—a critical division managing production and service applications. These initiatives focus on automating core business processes, including Opportunity-to-Cash (OTC), Supply Chain Management (SCM), and Real-Time Systems (RTS).

Through deep expertise in technology consulting and implementation, combined with established partnerships, we ensure continuous improvement, seamless maintenance, and operational efficiency under the Consulting

Service Agreement. A key outcome of this engagement has been the development and quality assurance of flagship OTC applications, such as SK-Quote and Ticket Manager, driving process standardization and efficiency.

OUR COMPETITIVE STRENGTHS

The following are the key strengths which enable our Company to be competitive in this business:

Long-term Client Relationships

Our Company has established and nurtured enduring relationships with a wide base key client, both in India and across global markets. These long-standing associations reflect the critical role our products and services play in our clients' businesses, reinforced by our deep technological expertise and domain knowledge. We focus on building partnerships that extend beyond transactional engagements, fostering close collaboration with multiple departments and divisions within client organizations. Our comprehensive service offerings allow us to cross-sell solutions to existing clients while simultaneously attracting new clients across industries and geographies. To ensure alignment with evolving client needs, we conduct regular senior management reviews with major clients, facilitating continuous feedback, exploring future opportunities, and strengthening mutual trust. By combining our broad portfolio of services with industry-specific insights, we deliver tailored, value-driven solutions that enable our clients to achieve long-term success while ensuring sustained growth for our Company.

Experienced Leadership and skilled workforce

Our Promoters, Ahobilam Nagasundaram and Jayakumar Ammasaikutty, have more than five decades of combined experience in industry and have been the guiding force for our Company. Since the inception of our Company, they have been actively involved in setting the business direction and in achieving organizational objectives. Ahobilam Nagasundaram, as the CEO of our Company, is responsible for making strategic decisions relating to business growth, expansion and sustainability. His experience covers a wide range of technologies across different industry segments and has contributed to developing systems, mentoring teams and building organizational capability. Mr. Jayakumar Ammasaikutty, as a promoter, also provides strategic guidance to the Company. Our management team has extensive knowledge of the IT industry, including the banking, insurance, telecom and energy sectors. This experience supports the Company in identifying and pursuing business opportunities while also managing risks associated with the industry. The Promoters' guidance, along with the knowledge and skills of our employees, has been central to the growth of the Company. We continue to invest in training and capability development of our personnel to strengthen operational effectiveness.

Scalable Business Model

Our business model is structured around technology-driven solutions and the integration of people, processes, and resources to ensure sustainability and expansion. The model emphasizes the formation of competent teams to deliver digital engineering solutions, the contribution of the marketing function in customer engagement and acquisition, and the role of management in identifying and implementing emerging technologies. It also covers budgeting and oversight of the production lifecycle to maintain cost efficiency and achieve economies of scale.
The structure of the model allows the Company to extend its operations into new sectors that are technology intensive, while simultaneously enhancing its existing range of offerings. Expansion into new geographies, development of sector-specific products, and the maintenance of consistent quality standards further support the ability to scale. The Company views its business model not only as a framework for delivering services but also as a platform for continuous growth, diversification, and adaptation to market requirements.

Our recent revenue distribution by geography for the six months period ended September 30, 2025 and for Fiscal 2025, 2024 and 2023 is as follows:

Continuous Innovation

In the software services industry, competitiveness is determined by the ability to remain current with emerging technologies and market trends. Our Company has adopted continuous innovation as a key business driver, ensuring that our service offerings evolve in step with industry developments. We continuously track the developments and upcoming technologies to identify and integrate new tools, platforms, and methodologies into our delivery model. This approach enables us to design and implement solutions that not only address the immediate requirements of our clients but also anticipate future demands of their businesses.

Our commitment to innovation is closely aligned with maintaining consistent service quality, timely delivery, and cost efficiency, which collectively strengthen client trust and retention. Further, we have established systems to capture client feedback and market insights, which are then integrated into our service development cycle. This helps us refine our offerings and align them with industry standards while pursuing efficiency and scalability.

By embedding innovation into our operations, we have created a flexible and adaptive business model that can respond effectively to changes in technology, customer expectations, and regulatory frameworks. This adaptability allows us to manage risks arising from rapid industry transformation and positions us to tap into new opportunities across sectors and geographies.

Catering to diversified industrial verticals

Our Company derives its strength from serving a wide range of industries, which enables us to maintain a balanced and resilient revenue model. With 99.15% of our income generated through domestic and export sales, we have built a diverse client base across geography and industry verticals that reduces dependence on any single market or industry cycle. This diversification not only mitigates business risks but also provides us with continuous opportunities to expand and adapt our services to evolving sectoral needs.

We have established a strong presence across multiple industries, including Banking, Financial Services and Insurance (BFSI), Healthcare, Telecom/Technology Infrastructure, Oil & Gas/Energy, and Automotive/Transport. Each of these verticals requires specialized knowledge, compliance with industry-specific standards, and the ability to adapt to distinct operational and technological requirements. By building domain expertise across these sectors, we have strengthened our ability to deliver tailored digital engineering and IT solutions that address critical client challenges.

Our exposure to varied industries also allows us to stay at the forefront of global technology adoption and innovation. Insights gained from one sector are often leveraged to create cross-industry solutions, giving us the flexibility to apply best practices and enhance value for clients across our portfolio. This breadth of experience not only safeguards us against sector-specific downturns but also ensures that we are well positioned to capture growth opportunities in emerging sectors such as renewable energy, electric vehicles, and advanced healthcare technologies.

Robust financial performance

Our Company has maintained a consistent track record of financial performance, supported by a stable capital structure and prudent financial management. We have demonstrated the ability to generate healthy revenues and maintain operational efficiency, resulting in sustainable cash flows. Our liquidity position enables us to meet short-term obligations in a timely manner, while our financial discipline supports long-term growth objectives. The strength of our financial performance provides a solid foundation for business expansion, investment in new

opportunities, and resilience against market fluctuations. As of March 31, 2025, the aggregate of our Company's cash and bank balance of ₹ 168.09 lakhs, and that some key financial ratios which are useful in determining the sustainability of an IT company are as below:

OUR STRATEGIES

North America Growth Strategy

Opportunities	• IT services and BPO solutions are rapidly gaining traction in both the U.S. and Canada. • There's a surging demand for tailored solutions in sectors like BFSI, Healthcare, Energy, Telecom, and IT Consulting. • Businesses are increasingly leaning towards AI and data-centric solutions. • There's a robust talent pool available for both offshore and on-site service delivery.
Strategies	• Strategic Acquisitions & Alliances: Utilize acquisitions (e.g., April 2024 – ZORTech Solutions Inc. (Canada) to onboard new clients, enhance technological capabilities, and bolster sector presence. • Industry-Focused Expansion: Provide customized solutions that tackle unique challenges in key sectors, fostering high-value partnerships. • Operational & Delivery Excellence: Fortify delivery hubs in Mohali,

	Hyderabad, and Chennai to ensure efficient and timely service. • Data & AI Innovation: Craft AI-driven solutions to boost client results and set services apart (e.g., SOC 2 Type 2 certification, March 2025). • Talent & Recruitment Strategy: Accelerate quality hiring and onboarding, leveraging social media, branding, and diverse sourcing channels. • Brand Equity & Market Presence: Elevate brand stature through certifications, client-focused services, and key partnerships.
Investor Impact	• Broadened presence in North America with steady revenue influx. • Unique tech offerings that bolster client loyalty. • A scalable, high-margin business model driven by operational prowess and top-tier talent. • MethodHub Software Limited's strong brand positioning amplifies its credibility and allure for investments.

Strategy to Grab Investment Opportunity

Benefit for MethodHub	Expand North American footprint through targeted acquisitions, industry-specific solutions, and AI-driven services, driving recurring revenue, operational efficiency, and scalable growth.
Benefit for Investors	Gain exposure to a high-growth, high-margin IT services and BPO company with strong brand positioning, diversified client base, and measurable value creation through strategic expansion and innovation.

Strategic Acquisition and Alliances

Our strategy includes pursuing selective acquisitions and forming technology alliances that complement and strengthen our existing business operations. Through such initiatives, we seek to expand our client base, gain entry into new sectors, and integrate advanced technology capabilities that create synergies with our service offerings. In line with this approach, our Company has identified potential acquisition opportunities in the United States and has signed a letter of intent with a few target companies. Preliminary business and financial due diligence has been conducted, and the targets have been assessed as viable from both a valuation and strategic fit perspective. These acquisitions, proposed to be funded through the proceeds of the Issue, are expected to enhance our technological footprint and broaden our market reach.

In addition to acquisitions, we have entered into Business Support Agreements under which we provide business support and strategy services to our partners. As part of our long-term model, we focus on investing in future-ready technologies by entering into business partnership agreements and selectively investing in companies engaged in deep-tech solutions. We also collaborate with technology solution providers to design joint go-to-market strategies, thereby accelerating growth and creating mutual value. By combining acquisitions, strategic investments, and partnerships, our Company positions itself to access new technologies, expand its solution portfolio, and strengthen its customer base in both domestic and international markets.

Expansion of our existing service portfolio

Our business growth strategy is centered on broadening both our geographical reach and the scope of our service portfolio. At present, our customer base is concentrated in the United States, Canada, and India, with a strong focus on deepening our presence in the North American market. We aim to further consolidate our position in these regions while simultaneously expanding into new geographies to tap into emerging opportunities in the global IT services sector.

A key component of this strategy is to strengthen our offshore product engineering capabilities and leverage India as a hub for captive operations, thereby offering cost-efficient and scalable solutions to our clients. We are also focused on developing partnerships with large system integrators to complement our service delivery, enhance credibility, and gain access to new client segments.
By diversifying across geographies and expanding our service offerings, our Company seeks to capture a larger share of the technology services market, reduce overdependence on specific regions, and align itself with the evolving digital transformation needs of enterprises worldwide.

Strategic Expansion and Market Diversification

Mitigating U.S. Market Slowdown - Acquired a strategic stake in Toronto-based ZORTech Solutions Inc. (Canada) to leverage its Canadian presence and ensure continued growth across North America.
Strengthening Service Portfolio - Acquired an additional 59% interest in BrainCapitol Technologies (partnership firm) to enhance staffing and IT service capabilities.

Key Impact	Expanded North American footprint and access to new clients.
	Increased delivery capacity and diversified service offerings.
	Strengthened recurring revenue streams and market resilience.

Strategy	MethodHub Software Limited is poised to pivot 30–40% of its North American focus from U.S. clients to Canada in response to a potential U.S. economic slowdown.
	By targeting Canadian BFSI and healthcare sectors, MethodHub Software Limited can deploy remote project teams efficiently, offering cost savings of 15–25% compared to local providers.
	Forging strategic partnerships with mid-sized IT consultancies in Canada can bolster MethodHub Software Limited's market entry and shield it from U.S. economic volatility.

Continuing to Focus on Providing Customer Centric Services and Offerings

Our strategy is centered on continuously strengthening our customer-centric approach by broadening the scope of our software services and tailoring solutions to meet the evolving requirements of enterprises. While supply chain management has been one of our focus areas, we plan to expand our offerings to cover additional business functions such as marketing, sales, finance, and other operational domains through the development of a new enterprise product suite. This will allow us to deliver a comprehensive range of solutions that address the diverse needs of modern businesses, thereby creating additional value for our clients and expanding our addressable market.

We are committed to enhancing our existing service portfolio with highly customized solutions designed around specific customer requirements. By combining deep domain expertise with innovative technology, we aim to strengthen long-term client relationships and reinforce our position as a trusted partner in their digital transformation journey.

To support this strategy, our dedicated sales and marketing teams will continue to focus on building visibility, promoting our service offerings, and engaging with decision-makers across functions such as finance, operations, and technology. Through these initiatives, we seek to further grow our corporate customer base, strengthen our brand positioning, and achieve sustainable business growth.

Building Partnerships with GCCs (Global Capability Centers) in India

Our company is strengthening its focus on partnering with Global Capability Centers (GCCs) in India that support North American enterprises, as these centers increasingly shift towards high-value services, ER&D, and digital innovation. By leveraging our domain expertise, technology capabilities, and talent ecosystem, we aim to deliver scalable and customized solutions aligned with global delivery models while ensuring cost efficiency and rapid deployment of skilled talent. This approach will enable GCCs to accelerate time-to-market, enhance innovation, and achieve greater operational effectiveness, while positioning our company as a trusted partner driving long-term collaboration and expanding our market presence in North America.

Product Engineering

Our product engineering strategy is aimed at enabling clients to accelerate product launches, adapt to changing market requirements, and ensure platform stability. We achieve this through structured new product development (including MVP design and scalable architecture), product customization for industry and regional needs, and embedded quality assurance within CI/CD pipelines.

We further support clients with lifecycle management under defined service levels, including multi-level product support, cost-optimized maintenance, and continuity services. In addition, we undertake modernization initiatives such as migration to microservices, technology upgrades, UI improvements, and performance optimization. This strategy positions product engineering as a driver of long-term client engagement, recurring revenues, and competitiveness, while aligning legacy systems with evolving technology demands.

Navigating Uncertainty: Indian Companies' Strategies

- Diversifying Services and Industries: Indian firms are expanding into cloud solutions, cybersecurity, analytics, and BPM to reduce sector-specific risks. MethodHub Software Limited, for example, targets mid-market enterprises in Canada's BFSI, healthcare, and telecom sectors to lower U.S. market dependency.
- Embracing Contract Flexibility: Indian companies are adopting fixed-price, time-and-material, and outcome-based contracts to manage client costs and ensure service continuity.
- Building Local Trust: By opening offices or forming partnerships in Canada, Indian firms build trust and comply with local regulations.
- Harnessing Agility: Smaller firms like MethodHub Software Limited quickly adjust team sizes and innovate faster than larger competitors.

Strengthening and Sustaining Our Brand Equity

We believe that our brand is one of our most valuable assets, built over time through consistent delivery of quality services and customer satisfaction. Our strategy is to strengthen and sustain this brand equity by continuing to associate with reputed corporate clients and ensuring that our offerings meet the highest standards of excellence. By consistently delivering value-driven solutions, we intend to reinforce our reputation as a trusted and reliable partner in the IT services industry.

We are highly conscious of the role our brand plays in attracting new clients, retaining existing ones, and creating long-term relationships built on trust and performance. Our brand-building efforts are not limited to marketing initiatives but are deeply rooted in our customer-centric culture, commitment to innovation, and emphasis on quality. Every client engagement provides us with an opportunity to further enhance our credibility and market visibility.
Going forward, we plan to undertake structured brand-building initiatives, including thought leadership, strategic alliances, industry partnerships, and participation in global technology forums. By leveraging these initiatives, we aim to strengthen our positioning, enhance recall value, and continue to differentiate ourselves in an increasingly competitive marketplace.

Driving Operational Excellence and Cost Efficiency

Operational excellence forms the backbone of our growth strategy. We are committed to building an agile, scalable, and efficient delivery framework that ensures quality outcomes while optimizing costs. By instituting standardized processes across all projects and leveraging best practices in project management, we aim to eliminate inefficiencies, minimize delays, and achieve consistency in execution. We strongly believe that optimal utilization of our people and resources is central to improving productivity and creating value. Our Company has already established exclusive delivery centers at multiple locations in India, enabling us to centralize operations, streamline workflows, and enhance delivery capabilities at competitive cost structures. These centers also allow us to take advantage of talent availability across regions and provide flexibility in managing large-scale client engagements.

Further, our focus on cost efficiency goes hand-in-hand with our commitment to customer value. By carefully balancing efficiency with quality, we ensure that our clients receive competitively priced solutions without compromising on service excellence. This approach not only strengthens client satisfaction but also enables us to sustain healthy profitability and reinforce our market positioning. As we continue to expand, we plan to integrate automation tools, digital collaboration platforms, and advanced analytics into our delivery model to further improve efficiency, reduce manual intervention, and ensure scalability. This ongoing focus on operational discipline and cost leadership will enable us to remain competitive in global markets while delivering long-term value to our stakeholders.

Leveraging Data and Artificial Intelligence for Scalable Value Creation

Our Company recognizes data and artificial intelligence (AI) as key enablers of innovation and competitive advantage in the technology services industry. We aim to harness the power of data-driven insights and advanced AI solutions to create differentiated value for our clients across industries. By systematically analyzing patterns, predicting trends, and understanding customer behaviors, we seek to design intelligent and actionable solutions that address specific business challenges.

Our strategy includes the development of pre-built, industry-focused AI frameworks and plug-and-play solutions that can be rapidly deployed to improve operational efficiency, decision-making, and customer engagement. These ready-to-use solutions are designed to solve recurring challenges in sectors such as retail, healthcare, logistics, and financial services, thereby reducing implementation time and accelerating measurable outcomes for our clients. In addition, we intend to embed AI into our existing service portfolio to enhance personalization, automation, and predictive capabilities. This will not only enable us to offer more tailored and responsive services but also deepen our long-term client relationships. By combining our domain expertise with next-generation AI and data analytics, we aim to position ourselves as a trusted partner for businesses seeking digital transformation and sustainable growth.

Going forward, we plan to invest in building data platforms, machine learning models, and AI-powered tools, while also collaborating with ecosystem partners and technology providers to expand our capabilities. This approach will help us continuously innovate, unlock new revenue streams, and maintain a leadership edge in delivering intelligent, customer-centric solutions.

Talent Acquisition Strategy – Driving Growth through "Quantility"

Our Company's origins as a Recruitment Process Outsourcing (RPO) service provider laid a strong foundation for what has now evolved into a staffing-centric enterprise with deep expertise in hiring and onboarding talent across diverse technologies and geographies. Recruitment continues to remain the cornerstone of our business model, and our ability to source and deploy the right resources on time, within budget, and in line with cost and quality benchmarks has emerged as one of our core competitive advantages.

A unique differentiator of our approach is the concept of "Quantility" – the ability to scale hiring volumes (Quantity) without compromising on the caliber and readiness of resources (Quality). This philosophy enables us to support large-scale staffing requirements while ensuring predictability in project delivery, thereby reducing uncertainty for both our internal delivery managers and our clients.

To achieve Quantility, we leverage a multi-pronged sourcing model, combining both active and passive recruitment channels:

- Passive channels include LinkedIn, our proprietary internal database, participation in industry trade fairs, professional networks, publications, and associations.
- Active channels include leading job portals, an incentivized employee referral program, and partnerships with tactical third-party vendors who help us meet work spikes and urgent client demands.

A key pillar of our recruitment strategy is speed, speed in risk assessment, translating project requirements into precise job descriptions, rapid propagation of opportunities across channels, and targeted focus on quick joiners. As a practice, we aim for a joining window of no more than three weeks for target candidates. While this approach may lead to higher upfront resourcing costs, it significantly reduces dropouts, counter-offer risks, and onboarding uncertainties, thereby ensuring smoother revenue realization and greater client satisfaction.

Our recruitment processes spanning interviews, assessments, selections, and offers are structured to be faster than industry benchmarks, resulting in a consistently higher joining ratio. This efficiency enhances our delivery capabilities and plays a key role in fostering long-standing relationships with our clients.

In addition, we have invested in enhancing our recruitment capability beyond sourcing. Our teams are trained not only to identify and screen candidates but also to position opportunities effectively convincing target resources of the career value, project impact, and long-term benefits of joining our assignments. This consultative approach, coupled with our proactive employer branding efforts, enhances our attractiveness as an employer of choice.

To reinforce our employer brand, we actively engage in social media campaigns, participate in trade fairs and industry summits, and organize events, sports activities, and outreach programs. These initiatives have significantly boosted our brand visibility and credibility, enabling us to "punch above our weight" in attracting high-quality talent.

Through this comprehensive recruitment strategy, we continue to build a scalable and resilient talent engine, an essential driver of our sustained growth and market competitiveness.

CRM Solutions

Our strategy is to develop Customer Relationship Management (CRM) solutions as a core growth area by focusing on industry segments where customer engagement and data integration create significant value. We seek to enhance our capabilities across major CRM platforms covering sales automation, customer service, marketing, commerce, community collaboration, application development, and AI-driven insights.
In the initial phase, our focus is on implementation and integration services, supported by process automation and managed services, with the objective of establishing long-term client relationships. As we scale, we intend to expand into advisory and transformation services to address broader business requirements.
We aim to leverage the expertise of our skilled consultants and our structured delivery approach to ensure quality execution and consistent outcomes. By targeting industries such as financial services, healthcare, telecommunications, automotive, and energy, we seek to create a sustainable pipeline of opportunities. Over the medium to long term, our goal is to build CRM into a key practice area contributing to revenue growth and positioning our Company as a trusted partner for enterprise business improvement and technology adoption.

Integrated Marketing and Growth Strategy

The effectiveness of our marketing and sales network is critical to the success and scalability of our Company. Accordingly, we have designed a comprehensive marketing strategy that combines advanced digital tools, geographical expansion, brand-building initiatives, and strategic sponsorships to enhance visibility, strengthen customer engagement, and drive business growth. Our approach includes the following key pillars:

1. Social Media Presence and Engagement

Social media platforms remain one of the most efficient and effective ways to promote brands and engage with a diverse consumer base. We have built a robust social media marketing strategy that focuses on delivering daily, value-driven and contextual content, particularly on LinkedIn, where we have witnessed significant growth. Our content developers curate and publish messaging that resonates with the target audience, enhances recall, and positions our Company as a trusted industry player. This deliberate focus on consistent engagement and thought leadership content has strengthened our visibility among clients, partners, and industry stakeholders.

2. Geographical Expansion

Expanding into international markets has been a cornerstone of our marketing and business growth efforts. We have adopted a focused approach to penetrate the United States and Canadian markets, targeting high-growth sectors such as BFSI, Healthcare, Energy, Telecom, and eCommerce.

In the USA., our Company leveraged our existing client relationship with SEW-Tech Inc. a Florida-based Information Technology services company with SAP expertise, which enabled us to successfully enter the Oil & Gas and Energy sectors in the U.S, while simultaneously enhancing our offshore delivery capabilities.

Recognizing the growing demand for IT services in the North American healthcare sector, we established a dedicated offshore delivery center in Mohali, India, which supports our U.S. healthcare clients by providing scalable cost efficiencies and contributing to our revenue growth.

In Canada, our acquisition of a telecom and eCommerce consulting company has enabled us to establish a strategic entry point, gain access to global infrastructure, and adopt a scalable offshore delivery and operations framework. This strengthens our ability to expand across regions such as Silicon Valley, Dallas, Chicago, and Montreal.

Through these initiatives, our geographical expansion strategy combines organic and inorganic growth, enabling us to scale operations, enhance client servicing, and strengthen our presence across North America.

3. SEO and Digital Optimization

To build a strong and sustainable online presence, we have laid the groundwork for a comprehensive SEO strategy. By integrating essential tools such as Google Site Kit and Rank Math plugin, we are able to monitor

our website's performance, optimize content, and enhance search engine visibility. As part of our long-term plan, we will continue refining our SEO efforts to achieve higher search rankings, greater discoverability, and stronger brand authority in the digital space.

4. Strategic Sponsorships and Brand-Building

As part of our strategic marketing initiatives, we have invested in sports
sponsorships that align with our values, strengthen community connections, and enhance brand visibility:
We served as an Associate Sponsor for the Texas Super Kings in the 2024 and 2025 editions of Major League Cricket, reinforcing our presence in Texas and showcasing our focus on the energy and healthcare sectors. This sponsorship also provided a valuable platform for stakeholder engagement and benchmarking against leading brands.

In the U.S., we have also played a leading role in women's cricket, with our brand prominently visible in major

tournaments, including the Women's Premier League. These initiatives underscore our commitment to community-driven engagement, diversity, and dynamic brand positioning.

SWOT (STRENGTHS, WEAKNESSES, THREATS & OPPORTUNITIES)

As part of evaluating our business and its prospects, we have undertaken an assessment of our internal strengths and weaknesses, as well as external opportunities and threats. This analysis provides a comprehensive view of the key factors that influence our competitive position, growth potential, and the challenges we may face:

SWOT ANALYSIS	
STRENGTHS	**WEAKNESS**
● Highly skilled and trained IT professionals ● Track record of innovative and bespoke IT solutions for marque clients ● Long standing relationship with clients ● Strong liquidity and financial position ● Robust data privacy and information security practices ● Strong offshore capability in development, recruitment and HR for servicing US and Canadian markets	● Operating from limited locations ● Need for continuous upgradation of knowledge of project execution teams ● Higher dependency on Time and Material projects ● Revenue concentration on top two customers ● Limited orientation towards soliciting large-scale deals.
OPPORTUNITIES	**THREATS**
● Deeper penetration into US and Canadian markets ● Expansion of partner-driven businesses executed from offshore locations ● Engagement with large enterprises, Federal, State, and local Governments through partnerships with veteran-owned companies ● Growing business footprint with key customers where our share of IT budget is still small	● Currency risk impacting revenue and margins ● Competitive intensity and evolving customer IT strategies ● Rapid technology realignment affecting client requirements ● Government and political factors including interest rates, stability, and immigration policies. ● Recent U.S. tariff increase, though not directly impacting IT services, may slow discretionary spending and delay project approvals, creating short-term pressure on revenue growth.

TECHNOLOGY ENABLERS

Our operations and service delivery are supported by advanced technology platforms and tools, which enable us to manage, integrate, and analyze large-scale datasets with efficiency and reliability. The key technology enablers include:

Cloud-based Data Platform: We utilize a powerful cloud-based platform designed to handle large and complex datasets, facilitating a unified data architecture that combines the strengths of data lakes and data warehouses. This supports a wide range of workloads, including artificial intelligence, machine learning, and advanced analytics.

Unified Data Environment: Our data platform provides a single environment that integrates data warehousing, data lakes, data engineering, data science, application development, and secure data sharing. Key features include separation of storage and compute, instant scalability, data cloning, and support for third-party integrations, thereby addressing the evolving data requirements of modern enterprises.

Cloud-native ETL Solutions: We employ cloud-native data integration and transformation tools that simplify the Extract, Transform, Load (ETL) process. These solutions are optimized for modern data warehouses, streamlining data workflows and enhancing operational efficiency in data engineering tasks.

EXCLUSIVE BRAND LICENSING AGREEMENT WITH LARGEST CUSTOMER IN THE US

Our Company, together with its wholly owned subsidiary in the United States, derives a significant portion of its business from its largest customer, SEW-Tech Inc., under an exclusive brand licensing agreement. Pursuant to this agreement, the "MethodHub" brand is licensed for use by SEW-Tech Inc. for business sourcing in the U.S., while execution and delivery of services are undertaken by our Company through its global and India-based delivery centers.

This strategic arrangement represents a key milestone for our Company, as it strengthens our presence in the U.S. market through association with a long-standing and growing customer. The agreement provides us access to substantial organic growth opportunities in the U.S., while simultaneously enhancing the utilization of our backend delivery infrastructure in India.

We are actively working to leverage this relationship by expanding into new verticals and service lines, with the objective of increasing the reach of the MethodHub brand across a wider customer base in collaboration with SEW-Tech Inc.

BUSINESS APPLICATIONS/S PARTNERS

Our future success is driven in part by our ability to collaborate with leading technology and solution providers. These strategic partnerships enable us to deliver integrated, end-to-end solutions tailored to address critical business gaps, thereby driving innovation, efficiency and sustainable growth for our customers. Outlined below are our current key partnerships that form an integral part of our solution ecosystem which will fuel our future business

AppLegos
Through our collaboration with AppLegos, we leverage their robust Application Development Environment (ADE), a full-featured no-code/low-code platform that enables enterprises to streamline application development cycles. With drag-and-drop interfaces and pre-built modules, AppLegos eliminates the need for complex coding, thereby reducing development time and costs. Its built-in security features further ensure resilience and reliability, empowering our customers to rapidly innovate and deploy applications in a competitive market.

Greenfuturz
Our partnership with Greenfuturz enhances our RFID-based solutions with advanced technological capabilities. Together, we are able to reimagine business processes across industries by integrating RFID solutions that improve operational visibility, traceability, and efficiency. This collaboration strengthens our leadership in process innovation while creating measurable value for customers through higher productivity and compliance assurance.

Factorized
In collaboration with Factorized, we provide a comprehensive Automotive Recall Management System catering to the automotive manufacturing industry. This solution offers end-to-end traceability and compliance throughout the manufacturing cycle, integrating digital reconciliation, quality control, and adherence to customer-specific requirements. By enabling early defect detection and structured recall management, the partnership contributes to enhanced quality standards and regulatory compliance for automotive clients.

AIROI
AIROI is a data-driven cloud analytics platform that supports businesses in achieving sustainability and green compliance goals. Its solutions cover Smart Energy Management, Smart Building Management, AQI Analytics, Green Coin (a carbon credit wallet), and Smart City Platforms. By embedding AI-powered insights into

operations, this partnership enables customers to track carbon policies, improve energy efficiency, and adopt ESG-compliant practices, thereby driving sustainable business growth.

AIQoD
AIQoD provides a no-code Intelligent Information Management (IIM) platform, powered by Generative AI, machine learning, and NLP. The platform automates and optimizes enterprise operations such as invoice processing, fraud detection, and document digitization, while ensuring compliance and data security. Its modular architecture, pre-built GenAI components, and industry-agnostic workflows allow enterprises to adopt cognitive automation at scale. Through the AIQoD 360 Super App, customers benefit from AI co-pilots, real-time dashboards, predictive maintenance, and workflow automation, leading to higher accuracy, agility, and cost-efficiency.

CXsphere
Our engagement with CXsphere empowers clients to elevate customer experiences by deploying AI-driven customer journey mapping and omnichannel engagement platforms. CXsphere's suite integrates voice, chat, video, and social media channels, while predictive analytics provides actionable insights to proactively manage customer needs. This enables enterprises to deliver personalized, frictionless interactions, reduce churn, and achieve measurable outcomes such as stronger customer loyalty, higher revenues, and operational efficiencies.

Other Partnerships

In addition to the above, we have also entered into certain other technology and business arrangements with reputed companies. However, due to the absence of formal consents from such entities, we are unable to disclose their names in this Prospectus.

COLLABORATIONS

As on date of this Prospectus, our Company has not entered into any technical or financial collaboration agreement(s). (except the collaborations mentioned under Business Applications/ Partners, on page 254.

INFRASTRUCTURE FACILITIES & UTILITIES

Our Registered Office is situated at Bengaluru, Karnataka and apart from the registered office, we have presence across three (3) cities in India viz Chennai, Mohali, Hyderabad. The offices are equipped with computer systems, internet connectivity, other communication equipment, security and other facilities which are required for our business operations to function smoothly. The offices are well equipped with requisite utilities and facilities including the following –
Power - Our Company meets its power requirements in our office from the local electricity supplier and the same is sufficient for our day-to-day functioning.
Water - Our registered office has adequate water supply arrangements for human consumption purposes. The requirements are fully met at the existing premises.

IT INFRASTRUCTURE & NETWORK SECURITY

The Company's IT infrastructure is supported by a distributed network spanning four key locations in India: Bengaluru (registered office), Chennai, Mohali, and Hyderabad. Each office employs enterprise-grade computer systems configured for high availability, with centralized management through domain controllers and directory services enabling uniform policy enforcement across all nodes. The multi-city architecture incorporates redundant fiber-optic internet connectivity from tier-1 ISPs, with dual-homed connections using BGP routing for automatic failover. Communication infrastructure combines VoIP systems with SD-WAN solutions, optimizing voice/data traffic between locations through dynamic path selection based on real-time network conditions. Power resilience is achieved through UPS systems complemented by diesel generators capable of sustaining operations during power outages. Server rooms utilize cooling systems with required environmental controls.

Network security implements a defense-in-depth strategy featuring next-generation firewalls with deep packet inspection at all perimeter points, configured in active-active clusters for continuous protection. Zero-trust architecture governs internal network access, requiring multi-factor authentication and device health checks before granting the least privilege of access to resources. Continuous traffic analysis occurs through network detection and response (NDR) systems employing machine learning to identify anomalous patterns, integrating

with endpoint detection and response (EDR) solutions for correlated threat hunting. Physical security layers include biometric access controls and IP surveillance. Regular vulnerability testing to validate security postures, while our Bengaluru and Chennai offices maintain ISO 27001:2022 certification with automated compliance monitoring systems.

CORPORATE SOCIAL RESPONSIBILITY

We as a responsible corporate citizen are committed to take up different developmental projects, as part of our Corporate Social Responsibility ("CSR") initiatives towards improving the quality of lives of the underprivileged sections of the society and other stakeholders. Our CSR strategies are aligned to national priorities to meet the basic needs of the local community. Our CSR policy defines the framework for implementing CSR activities in compliance with Section 135 of the Companies Act, 2013 and rules framed thereunder. We demonstrate our commitment towards our communities by committing our resources and energies to social development and we have aligned our CSR programs with applicable legal requirements. In furtherance of the same, we endeavor to undertake CSR activities such as sustainable environment development. CSR was not applicable to our Company for Fiscal 2024 and 2023, and it became applicable in Fiscal 2025, where we spent INR 0.58 million as contribution towards Tree Plantation Drive. The table below sets forth our CSR expenses for the periods indicated:

COMPETITION

We operate in a competitive atmosphere. Some of our competitors may have greater resources than those available to us. While service, brand value, Marketing, etc. are key factors in client decisions among competitors, reliability and business logic contribution is the deciding factor in most cases. We face fair competition from both organized and unorganized players in the market. We believe that our experience and reliability record with our customers will be key to overcoming competition posed by such organized and unorganized players. Although it is a competitive market, there are not enough competitors offering end-to-end solutions like us. We believe that we are able to compete effectively in the market with our quality of services and our reputation. We believe that the principal factors affecting competition in our business include client relationships, reputation, and the relative quality and price of the services.

KEY REGULATONS AND POLICIES

The following description is a summary of certain key statutes, rules, regulations, notifications, memorandums, circulars and policies which are applicable to our Company and the business undertaken by our Company.

The information detailed in this section has been obtained from publications available in the public domain. The regulations set forth may not be exhaustive and are only intended to provide general information to the Investors and are neither designed nor intended to be a substitute for professional legal advice. The information detailed in this section is based on the current provisions of applicable law, and remain subject to judicial and administrative interpretations, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations applicable. The details of such government approvals have more particularly been described for your reference in the chapter titled "Government and Other Statutory Approvals" on page 388.

Following is an overview of some of the important laws and regulations, which are relevant to our business.

INDUSTRY SPECIFIC LAWS APPLICABLE TO OUR COMPANY

The Information Technology Act, 2000 ("IT Act") and the rules made thereunder

The IT Act seeks to: (i) provide legal recognition to transactions carried out by various means of electronic data interchange involving alternatives to paper-based methods of communication and storage of information; (ii) facilitate electronic filing of documents; and (iii) create a mechanism for the authentication of electronic documentation through digital signatures. The IT Act provides for extraterritorial jurisdiction over any offence or contravention under the IT Act committed outside India by any person, irrespective of their nationality, if the act or conduct constituting the offence or contravention involves a computer, computer system or computer network located in India. Additionally, the IT Act empowers the Government of India to direct any of its agencies to intercept, monitor or decrypt any information in the interest of sovereignty, integrity, defence and security of India, friendly relations with foreign States or public order or preventing incitement to the commission of any cognizable offence relating to an investigation of the offence. The Information Technology (Procedure and Safeguards for Blocking for Access of Information by Public) Rules, 2009 specifically permit the Government of India to block access of any information generated, transmitted, received, stored or hosted in any computer resource by the public, the reasons for which are required to be recorded by it in writing.

The IT Act facilitates electronic commerce by recognizing contracts concluded through electronic means, protects intermediaries in respect of third-party information liability and creates liability for failure to protect sensitive personal data. The IT Act also prescribes civil and criminal liability including fines and imprisonment for computer related offences including those relating to unauthorized access to computer systems, tampering with or unauthorised manipulation of any computer, computer system or computer network and damaging computer systems, and creates liability for negligence in dealing with or handling any sensitive personal data or information in a computer resource and in maintaining reasonable security practices and procedures in relation thereto, among others.

The IT Act empowers the Government of India to formulate rules with respect to reasonable security practices and procedures and sensitive personal data. In exercise of this power, the Department of Information Technology, ("**DoIT**") Ministry of Electronics and Information Technology, Government of India, in April 2011, notified the Information Technology (Reasonable Security Practices and Procedures and Sensitive Personal Data or Information) Rules, 2011 ("**IT Security Rules**") which prescribe directions for the collection, disclosure, transfer and protection of sensitive personal data by a body corporate or any person acting on behalf of a body corporate. The IT Security Rules require every such body corporate to provide a privacy policy for handling and dealing with personal information, including sensitive personal data, ensuring security of all personal data collected by it and publishing such policy on its website. The IT Security Rules further require that all such personal data be used solely for the purposes for which it was collected, and any third-party disclosure of such data is made with the prior consent of the information provider, unless contractually agreed upon between them or where such disclosure is mandated by law.

The Department of Information Technology ("**DoIT**") also notified the Information Technology (Intermediaries Guidelines) Rules, 2021 ("**IT Intermediary Rules**") requiring intermediaries receiving, storing, transmitting, or

providing any service with respect to electronic messages to observe due diligence while publishing on its website or application and ensure that users do not host, display, upload, modify, publish, transmit, store, update or share any information that belongs to another person, if defamatory, obscene, pornographic, paedophilic, invasive of another's privacy, including bodily privacy, insulting or harassing on the basis of gender, libellous, racially or ethnically objectionable, relating to encouraging money laundering or gambling, or otherwise inconsistent with or contrary to the laws in force, is harmful to child; infringes any patent, trademark, copyright or other proprietary rights; violates any law for the time being in force; deceives or misleads the addressee about the origin of the message or knowingly and intentionally communicates any information which is patently false or misleading in nature but may reasonably be perceived as a fact; impersonates another person; threatens the unity, integrity, defence, security or sovereignty of India, friendly relations with foreign States, or public order, or causes incitement to the commission of any cognizable offence or prevents investigation of any offence or is insulting other nation; contains software virus or any other computer code, file or program designed to interrupt, destroy or limit the functionality of any computer resource; is patently false and untrue, and is written or published in any form, with the intent to misled or harass a person, entity or agency for financial gain or to cause any inquiry to any person. The IT Intermediary Rules mandate the appointment of a grievance officer and a mechanism for victims to report violations. They also impose criminal penalties under the Bharatiya Nyaya Sanhita to intermediaries not adhering to them. Further, the IT Intermediary Rules was recently amended pursuant to the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Amendment Rules, 2023

The Digital Personal Data Protection Act, 2023 (the "DPDP Act")

The DPDP Act deals with the provisions relating to protection of personal and sensitive data by fiduciaries. According to the Act, entities responsible for collecting, storing, and processing digital personal data are defined as data fiduciaries and have defined obligations, that include maintaining security safeguards, ensuring completeness, accuracy, and consistency of personal data; intimation of data breach in a prescribed manner to the Data Protection Board of India, data erasure on consent withdrawal or on the expiry of the specified purpose, the data fiduciary having to appoint a data protection officer and set up grievance redress mechanisms, and the consent of the parent/guardian being mandatory in the case of children/minors (those under eighteen years of age). It also states that any processing that is likely to have a detrimental effect on a child is not permitted. It prohibits tracking, behavioural monitoring, and targeted advertising directed at children. There is an additional category of data fiduciaries known as significant data fiduciaries ("**SDFs**"). The government will designate data fiduciaries as SDFs based on certain criteria—volume and sensitivity of data and risks to data protection rights, sovereignty and integrity, electoral democracy, security, and public order. SDFs will have additional obligations that include appointing a data protection officer based in India who will be answerable to the board of directors or the governing body of the SDF and will also serve as the point of contact for grievance redressal; and conducting data protection impact assessments and audits and taking other measures as prescribed by the government. Any form of non-compliance shall attract financial penalty as prescribed in Schedule I of the DPDP Act which may extend to ₹ 2,500 million

The Government of India is considering enacting legislation for Non-Personal Data ("**NPD**"). In September 2019, the Ministry of Electronics and Information Technology established the NPD Committee to propose regulations for NPD. The committee has released two reports suggesting frameworks for NPD governance, access, sharing, and a registration regime for data businesses. In May 2022, a draft National Data Governance Framework was issued, aiming to mobilize non-personal data for public and private use, proposing a non-personal data-based India datasets program and outlining rules for secure access by the research and innovation ecosystem.

Consumer Protection Act, 2019

The Consumer Protection Act ("**CPA**") provides for a three-tier consumer grievance redressal mechanism at the national, state and district levels. Non-compliance of the orders of the redressal commissions attracts criminal penalties. The CPA introduced a Central Consumer Protection Council to promote, protect and enforce the rights of consumers executive agency to provide relief to a class of consumers. The CPA brought e-commerce and IT entities, and their customers under its purview including providers of technologies or processes for advertising or selling, online marketplace or online auction sites. The CPA also provides for mediation cells for early settlement of the disputes between the parties.

National Cyber Security Policy, 2021

The term cyber security refers to techniques and practices designed to protect digital data. The data that is stored, transmitted or used on an information system. Cyber Security is the protection of Interest connected systems, including hardware, software, and data from cyber-attacks.

This policy aims to build a secure and resilient cyberspace for citizens, businesses and the government. It outlines various objectives and strategies to protect cyberspace information and infrastructure, build capabilities to prevent and respond to cyber-attacks, and minimise damages through coordinated efforts of institutional structures, people, processes, and technology. The policy guides national cyber security efforts and outlines incident reporting mechanisms, critical infrastructure protection measures and international cooperation frameworks.

The goal behind the National Cyber Security Policy is to create and develop more dynamic policies to improve the protection of India's cyber ecosystem. The policy aims to create a workforce of over 500,000 expert IT professionals over the following five years through skill development and training.

ITI Rules, 2021

On February 25, 2021, the Ministry of Electronics and Information Technology introduced the Information Technology (Guidelines for Intermediaries and Digital Media Ethics Code) Rules, 2021 as a replacement for IT Rules, 2011. Subsequently, on June 6, 2022, the newly updated draft amendments were published by the Indian Ministry of Electronics and IT ("**MeitY**") to improve the IT Act to keep up with the challenges of the ever-changing digital landscape.

The new amendments aim to allow ordinary users of digital platforms to seek compensation for their grievances and demand accountability when their rights are infringed upon, as well as institute additional due diligence on organizations.

IT Rules, 2021 also distinguishes between smaller and more significant social media intermediaries based on user numbers and places a much heavier burden on larger social media intermediaries concerning personal data protection.

Additionally, there are changes to the privacy and transparency requirements of intermediaries, such as:

- Requiring intermediaries to inform users about rules and regulations, privacy policy, and terms and conditions for usage of its services

- Requiring intermediaries to designate a grievance officer that can address and resolve user complaints about violations of IT Rules, 2021, National Cyber Security Strategy 2020

- The National Cyber Security Strategy of 2020 was the long-awaited follow-up plan by the Indian government to further improve cybersecurity efforts. While the plan is still under development and pending review by the National Security Council Secretariat, the plan's main goal is to serve as the official guidance for stakeholders, policymakers, and corporate leaders to prevent cyber incidents, cyber terrorism, and espionage in cyberspace.

- The strategy aims to improve cybersecurity audit quality so organizations can conduct better reviews of their cybersecurity architecture and knowledge. Once the policy is implemented, cyber auditors will improve their security standards, ultimately encouraging organizations to step up their security programs.

National Cyber Security Strategy, 2023

The National Cyber Security Strategy, 2023 was the long-awaited follow-up plan by the Indian government to further improve cyber security efforts. While the plan is still under development and pending review by the National Security Council Secretariat, the plan's main goal is to serve as the official guidance for stakeholders, policymakers, and corporate leaders to prevent cyber incidents, cyber terrorism, and espionage in cyberspace.

The strategy aims to improve cyber security audit quality so organizations can conduct better reviews of their cyber security architecture and knowledge. Once the policy is implemented, cyber auditors will improve their security standards, ultimately encouraging organizations to step up their security programs.

Data Centre Policy, 2020

Indian Data Centre market has seen tremendous growth in the past decade, riding on the explosion of data through smartphones, social networking sites, ecommerce, digital entertainment, digital education, digital payments and many other digital businesses / services. This growth in data is further stimulated by adoption of emerging technologies such as quantum computing, artificial intelligence, internet of things etc. While the Data Centre sector is witnessing growth in the country, there are known impediments to its growth such as lack of infrastructure or Industry status of the Data Centres, complex clearance processes, time consuming approvals, high cost of power, lack of published standards, absence of specialised building norms for building the Data Centres, submarine cable network connectivity limited to few states and high cost of capital and operational expenditure etc. This policy aims to offset these challenges in order to accelerate the current pace of growth and propel India in becoming a global Data Centre hub.

The Micro, Small and Medium Enterprises Development Act, 2006

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise ("**MSME**") the Micro, Small and Medium Enterprises Development Act, 2006 ("MSMED Act") is enacted. A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in providing or rendering of services. The Central Government is empowered to classify by notification, any class of enterprises engaged in providing or rendering of services as: (i) a micro enterprise, where the investment in equipment does not exceed ten lakh rupees; (ii) a small enterprise, where the investment in equipment is more than ten lakh rupees but does not exceed two crore rupees; or (iii) a medium enterprise, where the investment in equipment is more than two crore rupees but does not exceed five crore rupees. The MSMED Act inter-alia stipulates that any person who intends to establish, a micro or small enterprise or a medium enterprise engaged in rendering of services, may at his discretion and a medium enterprise engaged in the manufacture or production of goods, file a memorandum of micro, small or medium enterprise, as the case may be, with the prescribed authority.

LABOUR RELATED LEGISLATIONS

Shop and Establishment Legislations in various states

Under the provisions of local shops and establishments legislations applicable in the states in which establishments are set up, establishments are required to be registered. These legislations regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of opening and closing hours, daily and weekly working hours, rest intervals, overtime, holidays, leave, health and safety measures, termination of service, wages for overtime work, maintenance of shops and establishments and other rights and obligations of the employers and employees. There are penalties prescribed in the form of monetary fine or imprisonment for violation of the legislations.

Employees' State Insurance Act, 1948 (the "ESI Act")

The Employees' State Insurance Act 1948 encompasses certain health related eventualities that the workers are generally exposed to; such as sickness, maternity, temporary or permanent disablement, Occupational disease or death due to employment injury, resulting in loss of wages or earning capacity-total or partial. Social security provision made in the Act to counterbalance or negate the resulting physical or financial distress in such contingencies, are thus, aimed at upholding human dignity in times of crises through protection from deprivation, destitution and social degradation while enabling the society the retention and continuity of a socially useful and productive manpower.

Employees' Provident Fund and Miscellaneous Provisions Act, 1952

The Employees' Provident Fund and Miscellaneous Provisions Act, 1952 has been enacted as a social security measure which falls under the ground of 'retirement benefits', and it aims to inculcate the habit of saving in the form of a non-withdrawable financial benefit, and this sum becomes payable on retirement or death of the employee. It creates a statutory obligation on an employer to deduct a specific percentage as contribution from

the employees' salary, and the employer also contributes the same sum towards the employees' provident fund. The administration of the scheme under this Act is in the hands of the Central Board, State Board, the regional committee, and a Chief Executive Committee appointed by the Central Government.

In order to rationalize and reform labour laws in India, the Government has enacted the following codes which will be brought into force on a date to be notified by the Central Government:

- ***Code on Wages, 2019***, which regulates, *inter alia*, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees. It subsumes four existing laws, namely the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965, and the Equal Remuneration Act, 1976.

- ***Industrial Relations Code, 2020***, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes. It subsumes the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.

- ***Code on Social Security, 2020,*** which amends and consolidates laws relating to social security. It governs the constitution and functioning of social security organizations such as the employees' provident fund and the employees' state insurance corporation, regulates the payment of gratuity, the provision of maternity benefits, and compensation in the event of accidents to employees, among others. It subsumes various legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, and the Payment of Gratuity Act, 1972.

- ***Occupational Safety, Health and Working Conditions Code, 2020***, amends and consolidates laws regarding the occupational safety, health and working conditions of persons employed in an establishment. Certain portions of the Code on Wages, 2019, have come into force upon notification by the Ministry of Labour and Employment. The remainder of these codes shall come into force on the day that the Government shall notify for this purpose.

FOREIGN INVESTMENT AND TRADE LAWS

Foreign Exchange Management Act, 1999 (the "FEMA") and regulation framed thereunder

Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Promotion of Industry and Internal Trade. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment ("**FDI**") under the 'automatic route' within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the Foreign Investment Promotion Board and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Overseas Investment) Regulations, 2022, as amended from time to time to regulate and facilitate overseas investments by Indian residents and entities and Foreign Exchange Management (Non-Debt Investment) Regulations, 2019 for regulation of securities transferred by or to a person resident outside India.

Foreign Exchange Management (Non-Debt Investment) Rules, 2019 ("FEMA NDI Rules")

The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 by Notification No. FEMA. 395/2019-RB dated October 17, 2019 ("**FEMA Rules**") to prohibit, restrict, or regulate transfer by or issue security to a person resident outside India. As laid down by the FEMA Rules, no prior consents and approvals are required from the RBI for FDI under the "automatic route" within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral

limits under the automatic route, approval may be required from the RBI. At present, the FDI Policy does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore, foreign investment up to 100% is permitted in the Company under the automatic route.

Foreign Exchange Management (Overseas Investment) Rules, 2022 ("FEMA ODI Rules")

The RBI, with an aim to operationalise a new overseas investment regime, has introduced the ODI Rules and the Foreign Exchange Management (Overseas Investment) Regulations, 2022 ("**ODI Regulations**"), vide Notification No. G.S.R. 646(E) and Notification No. FEMA 400/2022-RB dated August 22, 2022 respectively. Further, the Foreign Exchange Management (Overseas Investment) Directions, 2022 were introduced to be read with the FEMA ODI Rules and the ODI Regulations. The new regime simplifies the framework to cover wider economic activity and thereby, significantly reducing the need for specific approvals. Investment may be made by an Indian entity only in a foreign entity engaged in activities permissible under the law in force in India and the host jurisdiction. Any manner of Overseas Direct Investment by an Indian entity shall be made as prescribed in the FEMA ODI Rules, namely: (i) subscription as part of MoA or purchase of equity capital, (ii) acquisition through bidding or tender procedure, (iii) acquisition of equity capital by way of rights issue or allotment of bonus shares, (iv) capitalisation of any amount due from the foreign entity subject to applicable conditions, (v) swap of securities, and (vi) merger, demerger, amalgamation or any scheme of arrangement.

Foreign Trade (Development and Regulation) Act, 1992 ("FTA") and the rules framed thereunder

The FTA is the main legislation concerning foreign trade in India. The FTA, read along with Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the FTA, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the FTA, including formulation and implementation of the Export-Import Policy. The FTA prohibits anybody from undertaking any import or export except under an Importer-Exporter Code number ("**IEC**") granted by the Director General of Foreign Trade pursuant to Section 7 of the FTA. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. Failure to mention IEC number attracts a penalty of not less than ₹10,000 and not more than five times the value of the goods or services or technology in respect of which any contravention is made or is attempted to be made, whichever is made. The IEC shall be valid until it is cancelled by the issuing authority.

Foreign Investment Regulations

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999, as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, and the consolidated FDI Policy, effective from October 15, 2020, issued by the Department for Promotion of Industry and Internal Trade, and any modifications thereto or substitutions thereof, issued from time to time

INTELLECTUAL PROPERTY LAWS

In general, the Intellectual Property Rights include but are not limited to the following enactments:

Trade Marks Act, 1999 ("Trade Marks Act")

The Trade Marks Act governs the statutory protection of trademarks and prevention of the use of fraudulent marks in India. It provides for the application and registration of trademarks in India. Further, it also provides for exclusive rights to marks such as brand, label, and heading and to obtain relief in case of infringement for commercial purposes as a trade description. Under the provisions of the Trade Marks Act, an application for trade mark registration may be made with the Controller General of Patents, Designs and Trademarks by any person or persons claiming to be the proprietor of a trade mark, whether individually or as joint applicants, and can be made on the basis of either actual use or intention to use a trade mark in the future. Once granted, a trade mark registration is valid for 10 years unless cancelled, subsequent to which, it can be renewed. If not renewed, the mark lapses and the registration is required to be restored to gain protection under the provisions of the Trade Marks Act. The Trade Marks Act prohibits registration of deceptively similar trademarks and provides

penalties for infringement, falsifying or falsely applying for trademarks. Further, pursuant to the notification of the Trade Marks (Amendment) Act, 2010, simultaneous protection of trade mark in India and other countries has been made available to owners of Indian and foreign trade marks. It also seeks to simplify the law relating to the transfer of ownership of trade marks by assignment or transmission and to bring the law in line with international practices.

TAXATION LAWS

Goods and Service Tax ("GST")

Goods and Services Tax is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by central on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination-based consumption tax GST would be a dual GST with the central and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017, State Goods and Services Tax Act, 2017, Union Territory Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017 and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder.

Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen-digit registration numbers known as Goods and Service Tax Identification Number. In case a person has multiple business verticals in multiple locations in a state, a separate application will be made for registration of each and every location. The registered assessee is then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon. GST has replaced following indirect taxes and duties at the central and state levels.

Income Tax Act, 1961 ("Income Tax Act")

The Income-tax Act, 1961, is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of the Income Tax Act or rules made there under depending upon its "Residential Status" and "Type of Income" involved. The Income Tax Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every company assessable to income tax under the Income Tax Act is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternate tax, etc.

Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or any trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per List II of the Constitution of India. The professional taxes are classified under various tax slabs. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wage payable to such person before such salary or wage paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wage, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

Customs Act, 1962 and the Customs Tariff Act, 1975

The Customs Act, 1962 as amended, regulates import of goods into and export of goods from India by providing for levy and collection of customs duties on goods in accordance with the Customs Tariff Act, 1975. Any Company requiring to import or export goods is first required to get registered under the Customs Act and obtain an Importer Exporter Code under the Directorate General of Foreign Trade. Customs duties are administrated by Central Board of Indirect Tax and Customs under the Ministry of Finance.

OTHER LAWS

Indian Contract Act, 1872 (the "Indian Contract Act")

The Indian Contract Act governs the conditions for validity of contracts formed through electronic means; communication and acceptance of proposals; additionally, revocation, and contract formation between consumers, sellers, and intermediaries. Further, the terms of service, privacy policy, and return policies of any online platform must be legally binding agreements. Additionally, the law is yet to update to deal with the lack of online signatures. Additionally, this will require certain types of contracts and the impossibility of determining the true consumer's age, with the standard age to enter into contracts set at 18 years

Competition Act, 2002 (the "Competition Act")

The Competition Act is an act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect the interests of consumers and to ensure freedom of trade in India. The act deals with prohibition of (i) certain agreements such as anti-competitive agreements and (ii) abuse of dominant position and regulation of combinations. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Competition Act.

The prima facie duty of the Competition Commission of India ("**Commission**") is to eliminate practices having adverse effect on competition, promote and sustain competition, protect interests of consumers and ensure freedom of trade. The Commission shall issue notice to show cause to the parties to combination calling upon them to respond within 30 days in case it is of the opinion that there has been an appreciable adverse effect on competition in India.

The Competition (Amendment) Act, 2023 introduces significant changes to the Competition Act in India. It introduces a Deal Value threshold of ₹ 20,000 million for reporting merger and acquisition transactions to the Commission. The time limit for Commission's assessment of mergers and acquisitions is reduced from 210 days to 150 days. The scope of anti-competitive agreements is broadened by replacing "Exclusive supply agreement" with "Exclusive dealing agreement" and now covers the selling side of such agreements. The definition of cartel is expanded to include hubs and spoke arrangements involving trade associates, consultants, or intermediaries. Additionally, the Amendment Act grants the Commission the power to appoint a Director General for more effective enforcement.

In addition to the above, our Company is also required to comply with the provisions of the Companies Act, and other applicable statutes imposed by the Centre or the State for its day-to-day operations. Our Company is also amenable to various Central and State Tax laws.

These restated Consolidated Summary Statement have been prepared in terms of the requirements of:

a. Section 26 of Part I of Chapter III of the Companies Act, 2013 (the "**Act**")

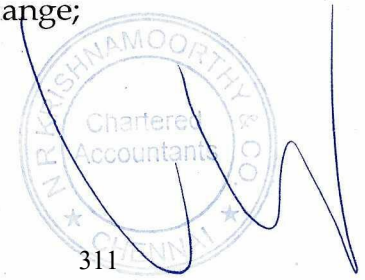

b. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("**ICDR Regulations**"); and

c. The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("**ICAI**"), as amended from time to time (the "**Guidance Note**").

2. The Company's Board of Directors is responsible for the preparation of the Restated Consolidated Financial Information for the purpose of inclusion in the Draft Red Herring Prospectus/Red Herring Prospectus/Prospectus to be filed with Securities and Exchange Board of India, Registrar of Companies, Chennai and the Stock Exchange in connection with the proposed IPO. The Restated Consolidated Financial Information have been prepared by the management of the Company on the basis of preparation stated in **Annexure 4 and 5** to the Restated Consolidated Financial Information. The responsibilities of the Board of Directors of the Company include designing, implementing, and maintaining adequate internal control relevant to the preparation and presentation of the Restated Consolidated Financial Information. The Board of Directors are also responsible for identifying and ensuring that the Company complies with the Act, ICDR Regulations and the Guidance Note.

3. We have examined such Restated Consolidated Financial Information taking into consideration:

a. The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter in connection with the proposed IPO of equity shares of M/s. Methodhub Software Limited (Formerly known as Methodhub Software Private Limited) (the "**Issuer Company**") on Stock exchange;

b. The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;

c. Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Consolidated Financial Information; and

d. The requirements of Section 26 of the Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the IPO.

4. These Restated Consolidated Financial Information have been compiled by the management from:

a. Audited Consolidated Financial Statements of the Group for the period ended on September 30, 2025 prepared in accordance with Accounting Standard as prescribed under section 133 of the Act read with Companies (Accounting Standards) Rules as amended, and other accounting principles generally accepted in India, which has been approved by the Board of Directors at their meeting held on 11th November, 2025.

b. Audited Consolidated Financial Statements of the Group for the year ended on March 31, 2025 prepared in accordance with Accounting Standard as prescribed under section 133 of the Act read with Companies (Accounting Standards) Rules as amended, and other accounting principles generally accepted in India, which has been approved by the Board of Directors at their meeting held on, 8th July, 2025.

c. Audited Consolidated Financial Statements of the Group (included only M/s. Brain Capital technologies) for the year ended on March 31, 2024 prepared in accordance with the Accounting Standards as prescribed under Section 133 of the Act read with Companies (Accounting Standards) Rules as amended, and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meeting held on, 13th July 2024

d. Auditors report issued by the Statutory Auditor i.e., M/s. Ram and Ravi and Audited Financial Statements of the M/s. However, the Holding Company's management has converted the financial statements of these Subsidiary and two step-down subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We audited these converted Financial Statement made by the Holding Company's management to us.

d) The financial information of one of the Group's M/s. Brain Capitol Technologies, a partnership firm, which has been audited by another auditor M/s. S K S V M & Co, whose report on the audited financial statements has been furnished to us by the management, has been included in the Restated Consolidated Financial Statements. Our opinion on the Restated Consolidated Financial Statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiary, is based solely on the audited financial statements provided by the said auditor. Further, the reporting under sub-sections (3) and (11) of Section 143 of the Companies Act, 2013, in so far as it relates to such subsidiary, is based solely on the report of the said auditor.

6. There were no qualifications in the Audit Reports issued by us as at and for the period/years ended on September 30 2025, March 31 2025, March 31 2024 and March 31 2023 which would require adjustments in this Restated Consolidated Financial Information of the Company.

7. Based on our examination and according to the information and explanations given to us, we report that:

   a. The Restated Consolidated Summary Statements have been made after incorporating adjustments for the changes in accounting policies retrospectively in respective financial years to reflect the same accounting treatment as per the changed accounting policy for all reporting periods, if any;

   b. The Restated Consolidated Summary Statements do not require any adjustments for the matter(s) giving rise to modifications mentioned in paragraph 6 above.

   c. The Restated Consolidated Summary Statements have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.

   d. The Restated Consolidated Summary Statements have been made after incorporating adjustments for prior period and other material amounts in the respective financial years to which they relate, if any and there are no qualifications which require adjustments.

   e. There was no change in accounting policies, which need to be adjusted in the Restated Consolidated Summary Statement. The details of Prior period Adjustments are given in Annexure 5 of the Restated Consolidated Financial Statements.

   f. From the six-month period ended September 30, 2025 and for the Financial Years from 2022-23 to 2024-25, the Company has not declared and paid any dividend.

8. ii) Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares having a par value of Rs.10/-each. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up-equity capital of the Company. On winding up of the Company, the holders of the equity shares will be entitled to receive the residual assets of the Company, after distribution of all preferential amounts (if any) in proportion to the number of equity shares held.

iii) Rights, Preferences and Restrictions attached to Compulsorily Convertible Preference Shares

The Company has single class of Preference Shares having a par value of Rs.10/-which are Compulsorily Convertible carrying a preferential dividend rate is 0.001% p.a. and the Preferential Dividend is cumulative, provided that it is due only when declared, prior and in preference to any dividend or distribution payable upon the Equity Securities of any class or series in the same fiscal year.

In the event of a Winding up of the Company, each holder of CCPS (or the holder of Equity Shares issued upon conversion of CCPS into Equity Shares) shall be entitled to be paid an amount, in preference to any other Shareholder ("Preference Amount"), which is higher of (i) an amount calculated pro-rata to its shareholding in the Company (on an as-if-converted basis); or (i) product of the Subscription Price paid by the holders of CCPS for each CCPS and the number of CCPS it holds (or Equity Shares held by such holder upon conversion of CCPS) along with all due and unpaid dividends pertaining to such CCPS. In the event that the assets of the Company available for distribution do not exceed the amounts necessary to pay the Preference Amount, the entire amount so available shall be paid to the holders of the CCPS pro rata to the amount invested by them towards subscription to their respective CCPS

Each Preference Shareholder except to the extent set out under the Applicable Laws and the Articles, shall not be entitled to any voting rights.

Preference Shares are not redeemable but are fully and compulsorily convertible into Equity Shares of the Company.

iv) Terms of Preference Shares convertible into Equity Shares

The holder of a CCPS by notice in writing to the Directors and the Company, and which date shall not be later than October 22, 2044 (the "Conversion Date"), exercise his/her option to convert into Equity Shares at the Price 50% of the Initial Public Offer (“IPO”) price per share (“Conversion Price”), and subject to compliance with applicable Laws. On exercising of such option each CCPS shall automatically be converted into Equity Shares, at the Conversion Price then in effect.

No fractional shares shall be issued upon conversion i.e., the number of Equity Shares issued shall be rounded off to the nearest whole share.

During the year, the Company converted 2,05,000 (Two Lakh Five Thousand) Compulsorily Convertible Preference Shares (CCPS) into 21,13,384 (Twenty-One Lakh Thirteen Thousand Three Hundred Eighty-Four) fully paid-up Equity Shares of face value ₹10 each at a premium of ₹87 per share, aggregating to an issue price of ₹97 per equity share.

The conversion was effected in accordance with the terms of issue of the CCPS and was approved by the Board of Directors at its meeting held on 22nd August 2025. The conversion was carried out at a conversion ratio of 10.3:1, and the resultant equity shares rank pari passu in all respects with the existing equity shares of the Company.

Trade Receivable is net of Bills Discounted and Purchased. Trade receivables are typically unsecured. Credit risk is managed in accordance with the Company's established, policy and procedures relating to customer credit risk management. Control is exercised through credit approvals, establishing and continuously monitoring the creditworthiness of the customer to which the Company grants credit terms in the normal course of business. The Company's credit period and outstanding customer receivables are regularly monitored. Exposure to customers is diversified.

Bad Debts are written off based on an impairment analysis carried out regularly during the year on an individual basis for major customers.

1. SIGINIFICANT ACCOUNTING POLICIES

1.1. Basis of Preparation of Restated Financial Statements

The summary statement of restated assets and liabilities of the Company as at 30th September 2025, 31st March 2025, 31st March 2024, 31st March 2023 and the related summary statement of restated profit and loss and cash flows for the period ended 30th September, 2025 and years ended 31st March 2025, 31st March 2024, 31st March 2023 have been prepared specifically for the purpose of inclusion in the offer document to be filed by the Company in connection with the proposed Initial Public Offering (hereinafter referred to as 'IPO').

The Restated Financial Statements have been prepared and presented under the historical cost convention on accrual basis of accounting and in accordance with Generally Accepted Accounting Principles (GAAP) in India. The Company has prepared these financial statements to comply with all material respects with the accounting standards notified under section 133 of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of Restated financial statements are consistent with those of adopted in previous years.

1.2. Significant Accounting Policies

The Restated Financial Statements have been prepared and presented under the historical cost convention on accrual basis of accounting and in accordance with Generally Accepted Accounting Principles (GAAP) in India. The Company has prepared these financial statements to comply with all material respects with the accounting standards notified under section 133 of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of Restated financial statements are consistent with those of adopted in previous years.

1.3. Basis of Restatement

The Restated financial statements comprise the financial statements of the Company and its associates (referred to as "Group" as of September 30, 2025 March 31, 2025 and March 31, 2024, March 31, 2023) .Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and can affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

i. Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
ii. Exposure, or rights, to variable returns from its involvement with the investee; and
iii. The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee.

The financial statements of the entity used for the purpose of Restatement are drawn up to same reporting date as that of the parent Company, i.e., period ended September 30, 2025 and years ended on March 31, 2025 and March 31, 2024.

The Group re-assesses whether it controls an investee, if facts and circumstances indicate that there are changes to one or more of the three elements of control. Restatement of a subsidiary and associates begins when the group obtains control over the subsidiary and associates and ceases when the Group loses control of the subsidiary and associates. Assets, liabilities, income and expenses of a subsidiary and associates acquired or disposed of during the period are included in the Restated financial statements from the date the group gains control until the date the group ceases to control the subsidiary and associates.

Restated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the Restated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the Restated financial statements to ensure conformity with the group's accounting policies.

Restatement procedure:

- Combine like items of assets, liabilities, equity, income, expenses, and cash flows of the parent with those of its subsidiaries and associates.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary and associates.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised are eliminated in full)

The difference between the cost of investment in the subsidiary and associate and the Company's share of net assets at the time of acquisition of share/ownership in the subsidiaries and associates is recognised in the financial statement as Goodwill or Capital Reserve as the case may be.

Minority Interest in the net assets of Restated subsidiaries and associates is identified and presented in the Restated Balance Sheet separately from liabilities and equity of the Company's shareholders.

Minority Interest in the net assets of Restated subsidiary and associate consists of the amount of equity attributable to Non-Controlling Interest (NCI) at the date on which investment in a subsidiary and associate is made and the share of movements in equity since the date parent subsidiary and associate relationship came into existence.

1.4. Investment in Associates

Section 129 (3) of the Companies Act, 2013, requires preparation of Restated financial statement of the company and of all the subsidiaries including associate company and joint venture businesses in the same form and manner as that of its own. Accounting Standard (AS) 23 on Accounting for Investments in associates in Restated financial Statements defines Associate Company as an enterprise in which an entity has significant influence and which is neither a subsidiary nor a joint venture of that party. It mentions that if an investing party holds, directly or indirectly through intermediaries, 20 per cent or more of the voting power of the enterprise, it is presumed that the investing party does have significant influence, unless it can be clearly demonstrated that this is not the case.

An investment in associate is initially recognised at cost and adjusted thereafter to recognise the Company's share of profit or loss of the associate. On acquisition of investment in an associate, any excess of cost of investment over the value of the assets and liabilities of the associate, is recognised as goodwill and is included in the carrying value of the investment in the associate. The carrying amount of investment in joint ventures and associates is reduced to recognise impairment, if any, when there is evidence of impairment.

1.5. Use of Estimates

The preparation of Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples for such estimates include provision against litigation and regulatory actions, provision of future obligation under employee benefit plans, useful lives of Property, Plant and Equipment, provision in respect of non-current investments, and provision for customer claims and recoverability of taxes.

Although these estimates are based upon the management's best knowledge of current events and actions, actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

1.6. Inventories

Work in Progress

Work in Progress is valued at lower of Cost or Net Realisable Value for the period ended 30th September 2025. Cost includes cost of purchase, freight and other charges incurred in this connection and is net of GST. The valuation of Work in Progress includes cost of material and labour.

1.7. Current/Non-Current Classification

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Considering the nature of business activities of the Company, the time between deploying of resources for projects/ contracts and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

1.8. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

a) Revenue from Information Technologies Services is recognised in the period in which services are rendered and is recognised net of GST. Revenue is recognized upon transfer of control of contracted services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those services. Arrangements with customers for information technology services and Telecom and Tech Infra Services are either on a fixed price, fixed-time frame contracts or on a time and material basis. Revenue from fixed price, fixed-time frame contracts where performance obligations are satisfied over a period of time and where there is no uncertainty as to the measurement or collectability of consideration, is recognized as per the percentage of completion method. When there is uncertainty as to the measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts have been used to measure progress towards completion as there is a direct relationship between input and productivity. In arrangements for Information Technology Services, Telecom and Tech Infra Services, the Company has applied the guidance. Revenue from Contracts with customers are recognized by applying criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering Information Technology and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative Restated selling price. Revenues in excess of invoicing are classified as unbilled revenue while invoicing in excess of revenues are classified as unearned revenues.

b) For Tech infra contracts where the aggregate of contract cost incurred to date plus recognised profits (or minus recognised losses as the case may be) exceeds the progress billing, the surplus is shown as contract asset and termed as "Unbilled Revenue." For contracts where progress billing exceeds the aggregate of contract costs incurred to date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as "Unearned Revenue." Amounts received before the related work is performed are disclosed in the Balance Sheet as contract liability and termed as "Advances from customer." The amounts billed on customer for work performed and are unconditionally due for payment i.e., only passage of time is required before payment falls due, are disclosed in the Balance Sheet as trade receivables. The amount of retention money held by the customers pending completion of performance milestone is disclosed as part of trade receivables. Contract revenues are net of GST.

c) Interest income on Fixed Deposits is recognised on accrual basis.

1.9. Property, Plant and Equipment ("PPE")

Property, Plant and Equipment are stated at cost less accumulated depreciation / amortisation and impairment losses, if any. The cost of Property Plant and Equipment comprises its cost of acquisition net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use and other incidental expenses up to the date the asset is ready for its intended use, Subsequent expenditure on fixed assets after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as "Capital Advances" under Other Non-Current Assets and cost of property, plant, and equipment not ready to use before such date are disclosed under "Capital Work- in- Progress."

1.10. Depreciation and Amortisation

Depreciation on Property, Plant and Equipment has been provided on the straight- line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support etc.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

1.11. Intangible Assets

Intangible Assets comprises of Property Time Share which is carried at cost less accumulated amortisation/depletion and impairment losses, if any. The Cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Intangible assets are amortized over a period share rights (25 years) for the period ended 30th September 2025.

1.12. Cash and Cash Equivalents (for the purposes of Cash Flow Statement)

Cash and Cash Equivalents comprises of cash on hand, demand and fixed deposits with banks, short -term balances (with an original maturity of twelve months or less from the date of acquisition), highly liquid investments that are really convertible into known amounts of cash and which are subject to insignificant risk of change in value.

1.13. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non - cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing, and financing activities of the Company are segregated based on the available information.

1.14. Exceptional and Extraordinary items

Exceptional Items:
Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's financial performance. Items which may be considered exceptional are significant restructuring charges, gains, or losses on disposal of investments of subsidiaries, write down of inventories and significant disposal of fixed assets.

Extraordinary items:
Extraordinary items are income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the enterprise and, therefore, are not expected to recur frequently or regularly.

1.15. Foreign currency transactions

Initial recognition
Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the balance sheet date
Foreign currency monetary items (other than derivative contracts) of the Company, outstanding at the balance sheet date are restated at the period end rates. Non-monetary items of the Company are carried at historical cost.

Treatment of exchange differences
Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

1.16. Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees, and duties.

1.17. Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund and compensated absences.

Defined contribution plan

The Company makes contributions to Provident Fund, Employee State Insurance, etc., for eligible employees, which is a defined contribution plan, and contribution paid or payable is recognized as an expense in the period in which it falls due.

The Company has no further obligations beyond its contributions. Employer Contributions made to a post-retirement benefits plan, e.g., Provident Fund, Employee State Insurance, etc, which is a defined contribution scheme, are charged to the statement of profit and loss during the period in which the services are rendered by the employees.

Defined benefits

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. Liability for the Gratuity Plan is determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. As these liabilities are relatively long term in nature, the actuarial assumptions take in account the requirements of the relevant GAAP coupled with a long-term view of the underlying variables/trends, wherever required.

Short Term Employee benefits

Short term employee benefits are recognised as an expense as per the Company's scheme based on expected obligations on an undiscounted basis.

1.18. Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

N. KRISHNAMOORTHY & CO. Chartered Accountants CHENNAI

1.19. Earnings per Share

There are no potential equity shares and hence the basic and diluted earnings per share are same. Basic earnings per share is computed by dividing the net profit or loss after tax for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

1.20. Taxation

Current Tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

Deferred Tax

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

1.21. Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. The following intangible assets are tested for impairment each financial year even if there is no indication that the asset is impaired:

a) an intangible asset that is not yet available for use; and an intangible asset that is amortised over a period exceeding ten years from the date when the asset is available for use.
b) If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.
c) The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.
d) When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

1.22. Provisions and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

Non-GAAP measures

Certain non-GAAP measures ("**Non-GAAP Measures**") presented in this Prospectus are a supplemental measure of our performance and liquidity that are not required by, or presented in accordance with, Ind AS or Indian GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, or IFRS and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the year/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS or Indian GAAP. In addition, these Non-GAAP Measures are not a standardised term, hence a direct comparison of similarly titled Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although the Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance.

OUR SERVICES

We offer a broad portfolio of services that are designed to address the evolving needs of our clients across industries and geographies. Our service offerings are structured into five key horizontal verticals, enabling us to deliver comprehensive and integrated solutions that support business transformation, operational efficiency, and long-term growth.

- Data and AI Services

We provide end-to-end data and artificial intelligence services that enable clients to modernize their data infrastructure, strengthen decision-making capabilities, and adopt AI responsibly. Our data offerings include the design and implementation of robust data foundations, data modernization programmes, platform integration, and workflow automation to improve scalability and efficiency. We also deliver data engineering, governance, security, and privacy solutions to ensure compliance with applicable regulations and safeguard client information assets.

In the area of artificial intelligence, our services cover strategic consulting, readiness assessments, adoption roadmaps, and implementation of generative AI solutions aligned with client objectives. We design, customize, and integrate domain-specific AI applications such as chatbots, AI copilots, recommendation engines, and industry-focused analytics within existing technology environments. Post-deployment, we provide Artificial Intelligence or Machine Language operations support, infrastructure optimization, and performance monitoring to ensure sustained value delivery. Our advanced analytics and visualization capabilities further leverage machine learning techniques to transform complex datasets into actionable insights, helping clients across industries unlock the full potential of their data while driving innovation and operational excellence.

- IT Infrastructure:

Our Company provides Infrastructure Services covering computer systems, networks, and complete IT environment management. These services include the setup, monitoring, and maintenance of hardware, servers, and cloud platforms to ensure uninterrupted business operations. We manage enterprise networks, data storage, and security frameworks with a strong focus on reliability and uptime. Proactive monitoring and quick issue resolution help reduce risks and prevent operational disruptions. We also enable clients to scale their infrastructure in line with evolving business needs while maintaining cost efficiency and flexibility. Through robust processes and adherence to industry best practices, our company delivers secure, stable, and future-ready IT infrastructure solutions.

- Cloud Services

As part of our technology-driven service portfolio, we provide comprehensive cloud-based solutions designed to enhance operational efficiency, scalability, and cost effectiveness for our clients. Our offerings cover the entire cloud adoption lifecycle, including assessment of existing IT infrastructure, formulation of tailored migration strategies, and secure execution of cloud transitions. We also provide continuous management of cloud environments with a strong emphasis on performance optimization, security, and regulatory compliance. In addition, we design and develop scalable cloud-native applications leveraging microservices architecture, containerization, and DevOps practices, thereby enabling accelerated product delivery and supporting the evolving business requirements of our clients.

- Recruitment Delivery Services:

Our Recruitment Delivery Services are designed to enable clients to attract, evaluate, and onboard the right talent through a structured, transparent, and quality-driven approach. The process begins with lead generation, requirement gathering, and execution of master service agreements to ensure alignment with client objectives. We collaborate with hiring managers to define roles, prepare detailed job descriptions, and establish clear success benchmarks. Leveraging internal recruiters, job boards, referrals, and technology platforms, we source, screen, and assess candidates before managing interviews, negotiations, and onboarding. Strong documentation, compliance checks, and integrated payroll processes ensure efficiency and reliability across the engagement. With adaptability, proactive issue resolution, and measurable quality controls, we deliver recruitment solutions that contribute to long-term client success.

- ERP/CRM Integration

We provide enterprise resource planning (ERP) and customer relationship management (CRM) integration services aimed at improving operational efficiency and maximizing returns on technology investments. Our offerings include the automation, integration, and optimization of enterprise systems and custom-built applications to enhance process performance, scalability, and agility. Leveraging our expertise in business process design, we develop and implement solutions that align with client objectives, enabling data-driven decision-making and supporting sustained competitiveness in dynamic market environments.

- Application & Infrastructure Vulnerability Management Services (“Cybersecurity)”

We provide comprehensive cybersecurity solutions designed to safeguard client assets, ensure regulatory compliance, and strengthen operational resilience. Our service offerings include vulnerability assessments, penetration testing, intrusion detection and prevention systems, and security information and event management. We also deliver identity and access management solutions, managed security services, and customized security architecture to address evolving cyber threats. By integrating continuous monitoring, threat analysis, and incident response, we enable clients to protect critical systems and data, while minimizing security risks in dynamic digital environments.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our financial performance and operational outcomes are influenced by a variety of internal and external factors. Understanding these factors is essential for evaluating our business, assessing our future prospects, and making informed investment decisions. The following discussion outlines the key elements that materially impact our results of operations and financial condition:

1. Revenue Growth Across Service Verticals

Our ability to sustain and grow revenue is a critical determinant of our financial health. We operate across multiple service verticals, including cloud and mobile application development, remote infrastructure management, data analytics and artificial intelligence, cybersecurity, and telecom infrastructure services. Each of these verticals contributes differently to our revenue mix and is subject to unique market dynamics.

The demand for digital transformation services, particularly in cloud computing and AI, has been a significant growth driver. However, any slowdown in client spending, delays in project execution, or reduction in contract size can adversely affect our top-line performance. Additionally, the competitive nature of the IT services industry may exert downward pressure on pricing, which could impact our revenue growth and margins.

2. Client Acquisition, Retention, and Concentration

Our business model relies heavily on long-term relationships with enterprise clients across various industries, including banking and financial services, healthcare, oil and gas, and telecommunications. A significant portion of our revenue is derived from business with existing clients, which underscores the importance of client satisfaction and service quality.

The loss of a major client, failure to renew key contracts, or inability to onboard new clients in a timely manner could materially impact our revenue and profitability. Furthermore, client concentration risk—where a small number of clients contribute a large share of revenue—can expose us to volatility if any of these clients reduce their IT spending or switch to competitors.

3. Human Capital and Talent Management

As a knowledge-driven organization, our success is intrinsically linked to the quality and availability of our human capital. Our ability to attract, train, and retain skilled professionals—particularly in high-demand areas such as cloud architecture, data science, cybersecurity, and DevOps—is vital to maintaining our competitive edge.

The IT industry is characterized by high attrition rates and intense competition for talent. Rising employee costs, talent shortages, or disruptions in workforce availability can affect our ability to deliver projects on time and within budget. Additionally, investments in employee training and upskilling are necessary to keep pace with evolving technologies, which may increase our operating expenses.

4. Technology Adoption and Innovation

The rapid pace of technological change presents both opportunities and challenges. Our clients increasingly demand innovative solutions that leverage emerging technologies such as artificial intelligence, machine learning, blockchain, and edge computing. To remain relevant and competitive, we must continuously invest in research and development, enhance our service offerings, and adopt new delivery models.

Failure to anticipate or respond to technological shifts could result in obsolescence of our services, loss of market share, and reduced client engagement. Conversely, successful innovation can open new revenue streams and strengthen our market positioning.

5. Operational Efficiency and Cost Management

Our profitability is influenced by our ability to manage operating costs effectively. Key cost components include employee compensation, infrastructure and facility expenses, software licenses, and technology investments. Efficient resource allocation, project management, and cost optimization are essential to maintaining healthy margins.

Unexpected increases in costs—such as wage inflation, higher utility expenses, or increased software licensing fees—can erode profitability. Additionally, inefficiencies in project execution, such as scope creep or delivery delays, may result in cost overruns and client dissatisfaction.

6. Regulatory and Compliance Environment

We operate in a highly regulated environment, both in India and in the international markets – USA & Canada, where our clients are based. Compliance with data protection laws (such as the Indian Digital Personal Data Protection Act and GDPR), intellectual property regulations, labor laws, and export control norms is essential to our operations.

Non-compliance with applicable laws and regulations can result in legal penalties, reputational damage, and loss of business. Moreover, changes in regulatory frameworks—such as new cybersecurity mandates or restrictions on cross-border data flows—may require us to modify our service delivery models and invest in compliance infrastructure.

7. Macroeconomic and Geopolitical Factors

Our business is influenced by global economic conditions, including GDP growth, inflation, interest rates, and currency exchange rates. Economic slowdowns in key client geographies can lead to reduced IT budgets, project deferrals, or cancellations. Inflationary pressures may increase our input costs, while rising interest rates can affect our borrowing costs and investment decisions.

Geopolitical developments—such as trade tensions, regulatory changes, or political instability—can disrupt global supply chains, impact client operations, and create uncertainty in the business environment. These factors may indirectly affect our revenue visibility and financial performance.

8. Capital Structure and Financial Leverage

Our financial condition is also shaped by our capital structure, including the mix of equity and debt financing. As of the latest reporting period, we have outstanding borrowings that contribute to our financial leverage. While debt can be a useful tool for funding growth and expansion, it also introduces risks related to interest obligations, refinancing, and liquidity management.

An increase in debt levels or adverse changes in interest rates may impact our ability to service obligations and reduce financial flexibility. Maintaining an optimal capital structure is essential to support our growth strategy while preserving shareholder value.

9. Foreign Exchange Risk

A significant portion of our revenue is generated from international clients, particularly in North America, Europe, and the Asia-Pacific region. As a result, we are exposed to foreign exchange fluctuations, especially in the USD-INR currency pair. While we employ hedging strategies to mitigate currency risk, sharp or sustained movements in exchange rates can impact our revenue realization and profitability.

Foreign exchange volatility may also affect the competitiveness of our pricing in global markets, influencing client decisions and contract negotiations.

Global Economic Outlook

The global economy is at a precarious juncture, marked by heightened trade tensions and elevated policy uncertainty, according to the World Economic Situation and Prospects as of mid-2025. The recent surge in tariffs—driving the effective U.S. tariff rate up steeply—threatens to raise production costs, disrupt global supply chains and amplify financial turbulence. Uncertainty over trade and economic policies, combined with a volatile geopolitical landscape, is prompting businesses to delay or scale back critical investment decisions. These developments are compounding existing challenges, including high debt levels and sluggish productivity growth, further undermining global growth prospects. Global GDP growth is now forecast at just 2.4 per cent in 2025, down from 2.9 per cent in 2024 and 0.4 percentage points below the January 2025 projection.

The slowdown is broad-based, affecting both developed and developing economies. Growth in the United States is projected to decelerate significantly, from 2.8 per cent in 2024 to 1.6 per cent in 2025, with higher tariffs and policy uncertainty expected to weigh on private investment and consumption. In the European Union, GDP growth is forecast at 1.0 per cent in 2025, unchanged from 2024, amid weaker net exports and higher trade barriers.

For many developing countries, this bleak economic outlook undermines prospects for creating jobs, reducing poverty, and addressing inequality. For least developed countries—where growth is expected to slow from 4.5 per cent in 2024 to 4.1 per cent in 2025—declining export revenues, tightening financial conditions and reduced official development assistance flows threaten to further erode fiscal space and heighten the risk of debt distress. Escalating trade frictions are further straining the multilateral trading system, leaving small and vulnerable economies increasingly marginalized in a fragmented global landscape.

Indian Economic Outlook

The global economy exhibited steady yet uneven growth across regions in 2024. A notable trend was the slowdown in global manufacturing, especially in Europe and parts of Asia, due to supply chain disruptions and weak external demand. In contrast, the services sector performed better, supporting growth in many economies. Inflationary pressures eased in most economies. However, services inflation has remained persistent. Although commodity prices have stabilized, the risk of synchronized price increases persists. With growth varying across economies and last-mile disinflation proving sticky, central banks may chart varying paths of monetary easing. This will lead to uncertainty over future policy rates and inflation trajectories. This apart, geopolitical tensions, ongoing conflicts, and trade policy risks continue to pose significant challenges to global economic stability. In this global context, India displayed steady economic growth. As per the first advance estimates of national

accounts, India's real GDP is estimated to grow by 6.4 per cent in FY25. Growth in the first half of FY25 was supported by agriculture and services, with rural demand improving on the back of record Kharif production and favorable agricultural conditions. The manufacturing sector faced pressures due to weak global demand and domestic seasonal conditions. Private consumption remained stable, reflecting steady domestic demand. Fiscal discipline and strong external balance supported by a services trade surplus and healthy remittance growth contributed to macroeconomic stability. Together, these factors provided a solid foundation for sustained growth amid external uncertainties. Looking ahead, India's economic prospects for FY26 are balanced. Headwinds to growth include elevated geopolitical and trade uncertainties and possible commodity price shocks. Domestically, the translation of order books of private capital goods sector into sustained investment pick-up, improvements in consumer confidence, and corporate wage pick-up will be key to promoting growth. Rural demand, backed by a rebound in agricultural production, an anticipated easing of food inflation and a stable macro-economic environment provide an upside to near-term growth. Overall, India will need to improve its global competitiveness through grassroots-level structural reforms and deregulation to reinforce its medium-term growth potential

IT & BPM Industry in India

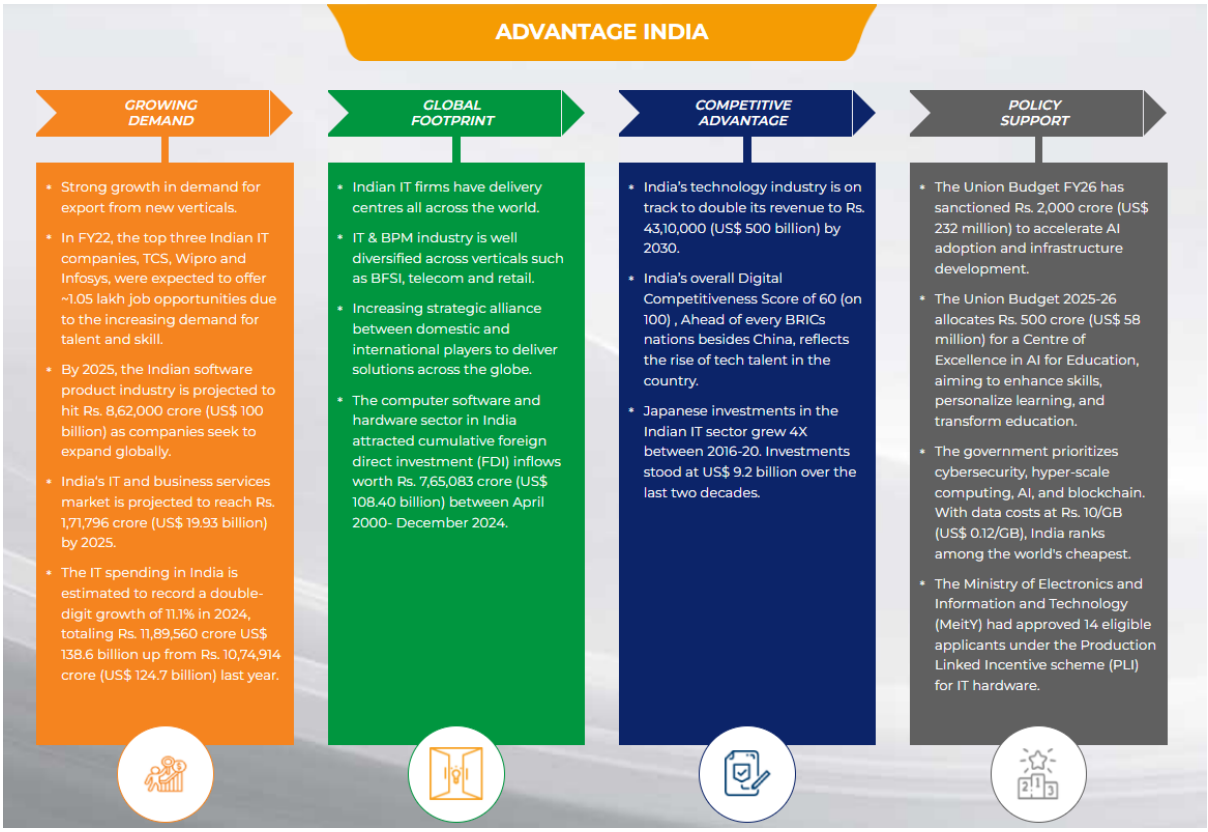

Introduction

The IT & BPM sector has become one of the most significant growth catalysts for the Indian economy, contributing significantly to the country's GDP and public welfare. India's IT sector witnessed a 16% YoY growth in hiring in April, driven by factors such as artificial intelligence (AI) adoption, cloud modernization, and the expansion of Global Capability Centers (GCCs).

India's first made-in-India graphics processing units (GPUs) are expected to be ready for technology demonstrations by the end of 2025. Production readiness is projected for 2029 under the Rs. 10,372 crore (US$ 1.21 billion) IndiaAI Mission. As innovative digital applications permeate sector after sector, India is now prepared for the next phase of growth in its IT revolution. India is viewed by the rest of the world as having one

of the largest Internet user bases and the cheapest Internet rates, with 76 crore citizens now having access to the Internet.

The current emphasis is on the production of significant economic value and citizen empowerment, thanks to a solid foundation of digital infrastructure and enhanced digital access provided by the Digital India Program. India is one of the countries with the quickest pace of digital adoption. This was accomplished through a mix of government action, commercial innovation and investment, and new digital applications that are already improving and permeating a variety of activities and different forms of work, thus having a positive impact on the daily lives of citizens. India's rankings improved six places to the 39th position in the 2024 edition of the Global Innovation Index (GII).

Market Size

According to the National Association of Software and Service Companies (NASSCOM), the Indian IT industry's revenue touched US$ 227 billion in FY22, a 15.5% YoY growth and was estimated to have touched US$ 245 billion in FY23. Mid-tier Information Technology (IT) companies have reported stronger growth than their larger counterparts in FY25, demonstrating their ability to effectively navigate an uncertain macroeconomic environment. The challenge, however, remains whether they can sustain this momentum in FY26.

India's IT exports are projected to reach Rs. 17,95,920 crore (US$ 210 billion) in FY25, with the US market recovering, European demand weakening, and a 5-6% growth anticipated in FY26, alongside the opportunities and challenges posed by generative AI. The government has inked an agreement with Paytm (One97 Communications Ltd) under which the company would provide mentorship, infrastructure support, market access, and funding opportunities to start-ups.

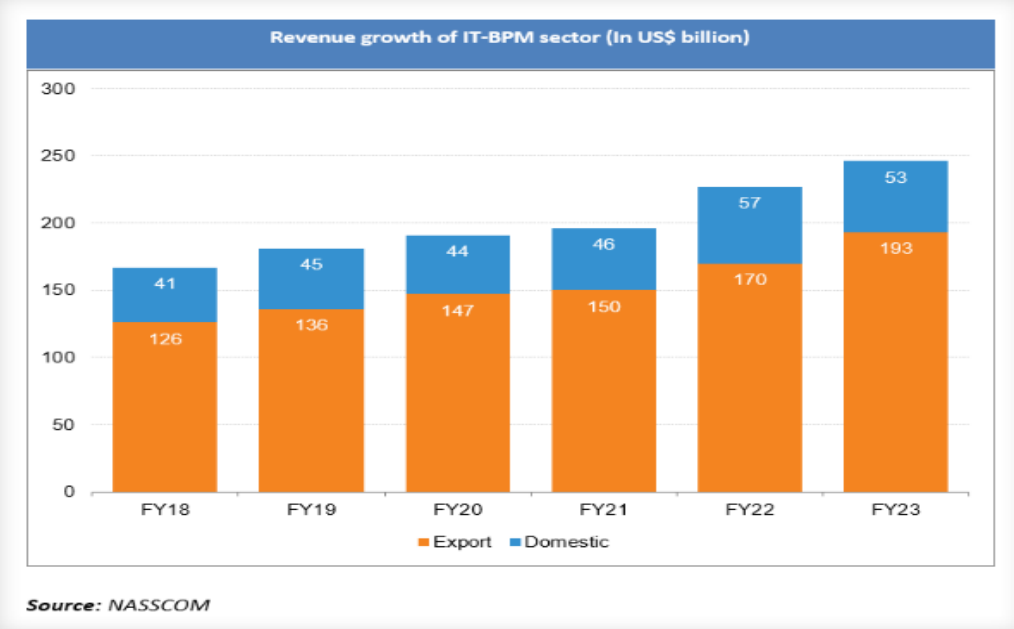

The system infrastructure software market in India is expected to reach a projected revenue of Rs. 178 million (US$ 20,823.6 million) by 2030. A compound annual growth rate of 9.2% is expected of India system infrastructure software market from 2023 to 2030.The IT spending in India is estimated to record a double-digit growth of 11.1% in 2024, totalling US$ 138.6 billion up from US$ 124.7 billion last year. By 2025, the Indian software product industry is projected to hit Rs. 8,68,700 crore (US$ 100 billion) as companies seek to expand globally.

The Indian software product industry is expected to reach US$ 100 billion by 2025. Indian companies are focusing on investing internationally to expand their global footprint and enhance their global delivery centres. The data annotation market in India stood at US$ 250 million in FY20, of which the US market contributed 60% to the overall value. The market is expected to reach US$ 7 billion by 2030 due to accelerated domestic demand for AI.

India's IT industry is likely to hit the US$ 350 billion mark by 2026 and contribute 10% towards the country's gross domestic product (GDP), Infomerics Ratings said in a report. The export of IT services has been the major contributor, accounting for more than 53% of total IT exports (including hardware).

BPM and engineering and R&D (ER&D) and software products exports accounted for 22% and 25%, respectively of total IT exports during FY23. Exports from the Indian IT industry stood at US$ 194 billion in FY23. The export of IT services was the major contributor, accounting for more than 51% of total IT exports (including hardware). BPM, and Software products and engineering services accounted for 19.3% and 22.1% each of total IT exports during FY23.

By 2026, the increased use of cloud technology could create 14 million jobs and contribute Rs. 33,01,060 crore (US$ 380 billion) to India’s GDP.

Significant Accounting Policies

The Restated Financial Statements have been prepared and presented under the historical cost convention on accrual basis of accounting and in accordance with Generally Accepted Accounting Principles (GAAP) in India. The Company has prepared these financial statements to comply with all material respects with the accounting standards notified under section 133 of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of Consolidated financial statements are consistent with those of adopted in previous years.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company, Subsidiaries and its associates (referred to as "Group" as of September 30, 2025, March 31, 2025 and March 31, 2024). Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and can affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

i. Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
ii. Exposure, or rights, to variable returns from its involvement with the investee; and
iii. The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee.

The financial statements of the entity used for the purpose of consolidation are drawn up to same reporting date as that of the parent Company, i.e., for the six months period ended September 30, 2025 and financial year ended on March 31, 2025, March 31, 2024 and March 31, 2023.

The Group re-assesses whether it controls an investee, if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary and associates begins when the group obtains control over the subsidiary and associates, and ceases when the Group loses control of the subsidiary and associates. Assets, liabilities, income and expenses of a subsidiary and associates acquired or disposed of during the year are included in the consolidated financial statements from the date the group gains control until the date the group ceases to control the subsidiary and associates.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

Consolidation procedure:

- Combine like items of assets, liabilities, equity, income, expenses, and cash flows of the parent with those of its subsidiaries and associates.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary and associates.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised are eliminated in full)

The difference between the cost of investment in the subsidiary and associate and the Company's share of net assets at the time of acquisition of share/ownership in the subsidiaries and associates is recognised in the financial statement as Goodwill or Capital Reserve as the case may be.

Minority Interest in the net assets of consolidated subsidiaries and associates is identified and presented in the consolidated Balance Sheet separately from liabilities and equity of the Company's shareholders.

Minority Interest in the net assets of consolidated subsidiary and associate consists of the amount of equity attributable to Non-Controlling Interest (NCI) at the date on which investment in a subsidiary and associate is made and the share of movements in equity since the date parent subsidiary and associate relationship came into existence.

Investment in Associates

Section 129 (3) of the Companies Act, 2013, requires preparation of consolidated financial statement of the company and of all the subsidiaries including associate company and joint venture businesses in the same form and manner as that of its own. Accounting Standard (AS) 23 on Accounting for Investments in associates in consolidated financial Statements defines Associate Company as an enterprise in which an entity has significant influence and which is neither a subsidiary nor a joint venture of that party. It mentions that if an investing party holds, directly or indirectly through intermediaries, 20 per cent or more of the voting power of the enterprise, it is presumed that the investing party does have significant influence, unless it can be clearly demonstrated that this is not the case.

An investment in associate is initially recognised at cost and adjusted thereafter to recognise the Company's share of profit or loss of the associate. On acquisition of investment in an associate, any excess of cost of investment over the value of the assets and liabilities of the associate, is recognised as goodwill and is included in the carrying value of the investment in the associate. The carrying amount of investment in joint ventures and associates is reduced to recognise impairment, if any, when there is evidence of impairment.

Use of Estimates

The preparation of Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples for such estimates include provision against litigation and regulatory actions, provision of future obligation under employee benefit plans, useful lives of Property, Plant and Equipment, provision in respect of non-current investments, and provision for customer claims and recoverability of taxes.

Although these estimates are based upon the management’s best knowledge of current events and actions, actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

Inventories

Work in Progress

Work in Progress is valued at lower of Cost or Net Realisable Value for the year ended 31st March 2025. Cost includes cost of purchase, freight and other charges incurred in this connection and is net of GST. The valuation of Work in Progress includes cost of material and labour.

Current/Non-Current Classification

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Considering the nature of business activities of the Company, the time between deploying of resources for projects/ contracts and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

a) Revenue from Information Technologies Services is recognised in the period in which services are rendered and is recognised net of GST. Revenue is recognized upon transfer of control of contracted services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those services. Arrangements with customers for information technology services and Telecom and Tech Infra Services are either on a fixed price, fixed-time frame contracts or on a time and material basis. Revenue from fixed price, fixed-time frame contracts where performance obligations are satisfied over a period of time and where there is no uncertainty as to the measurement or collectability of consideration, is recognized as per the percentage of completion method. When there is uncertainty as to the measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts have been used to measure progress towards completion as there is a direct relationship between input and productivity. In arrangements for Information Technology Services, Telecom and Tech Infra Services, the Company has applied the guidance in AS 9. Revenue from Contracts with customers are recognized by applying criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering Information Technology and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative Consolidated selling price. Revenues in excess of invoicing are classified as unbilled revenue while invoicing in excess of revenues are classified as unearned revenues.

b) For Tech infra contracts where the aggregate of contract cost incurred to date plus recognised profits (or minus recognised losses as the case may be) exceeds the progress billing, the surplus is shown as contract asset and termed as “Unbilled Revenue.” For contracts where progress billing exceeds the aggregate of contract costs incurred to date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as “Unearned Revenue.” Amounts received before the related work is performed are disclosed in the Balance Sheet as contract liability and termed as “Advances from customer.” The amounts billed on customer for work performed and are unconditionally due for payment i.e., only passage of time is required before payment falls due, are disclosed in the Balance Sheet as trade receivables. The amount of retention money held by the customers pending completion of performance milestone is disclosed as part of trade receivables. Contract revenues are net of GST.

c) Interest income on Fixed Deposits is recognised on accrual basis.

Property, Plant and Equipment ("PPE")

Property, Plant and Equipment are stated at cost less accumulated depreciation / amortisation and impairment losses, if any. The cost of Property Plant and Equipment comprises its cost of acquisition net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use and other incidental expenses up to the date the asset is ready for its intended use, Subsequent expenditure on fixed assets

after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as “Capital Advances” under Other Non-Current Assets and cost of property, plant, and equipment not ready to use before such date are disclosed under “Capital Work- in- Progress.”

Depreciation and Amortisation

Depreciation on Property, Plant and Equipment has been provided on the straight- line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support etc.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Intangible Assets

Intangible Assets comprises of Property Time Share which is carried at cost less accumulated amortisation/depletion and impairment losses, if any. The Cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Intangible assets are amortized over a period share rights (25 years) for the year ended 31st March 2025.

Cash and Cash Equivalents (for the purposes of Cash Flow Statement)

Cash and Cash Equivalents comprises of cash on hand, demand and fixed deposits with banks, short -term balances (with an original maturity of twelve months or less from the date of acquisition), highly liquid investments that are really convertible into known amounts of cash and which are subject to insignificant risk of change in value.

Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non - cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing, and financing activities of the Company are segregated based on the available information.

Exceptional and Extraordinary items

Exceptional Items:

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company’s financial performance. Items which may be considered exceptional are significant restructuring charges, gains, or losses on disposal of investments of subsidiaries, write down of inventories and significant disposal of fixed assets.

Extraordinary items:

Extraordinary items are income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the enterprise and, therefore, are not expected to recur frequently or regularly.

Foreign currency transactions

Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Measurement at the balance sheet date

Foreign currency monetary items (other than derivative contracts) of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

Treatment of exchange differences

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees, and duties.

Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund and compensated absences.

Defined contribution plan

The Company makes contributions to Provident Fund, Employee State Insurance, etc., for eligible employees, which is a defined contribution plan, and contribution paid or payable is recognized as an expense in the period in which it falls due.

The Company has no further obligations beyond its contributions. Employer Contributions made to a post-retirement benefits plan, e.g., Provident Fund, Employee State Insurance, etc, which is a defined contribution scheme, are charged to the statement of profit and loss in the year in which the services are rendered by the employees.

Defined benefits

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation, or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. Liability for the Gratuity Plan is determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. As these liabilities are relatively long term in nature, the actuarial assumptions take in account the requirements of the relevant GAAP coupled with a long-term view of the underlying variables/trends, wherever required.

Short Term Employee benefits

Short term employee benefits are recognised as an expense as per the Company's scheme based on expected obligations on an undiscounted basis.

Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

Earnings per Share

There are no potential equity shares and hence the basic and diluted earnings per share are same. Basic earnings per share is computed by dividing the net profit or loss after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

Taxation

Current Tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961.

Deferred Tax

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. The following intangible assets are tested for impairment each financial year even if there is no indication that the asset is impaired:

a) an intangible asset that is not yet available for use; and (b) an intangible asset that is amortised over a period exceeding ten years from the date when the asset is available for use.
b) If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.
c) The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.
d) When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss.

Provisions and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

**Note - Our Company has availed bill discounting facility amounting to ₹250.00 million, which does not form part of the outstanding borrowings as of the reporting date.*
As certified by N R Krishnamoorthy & Co., the Statutory Auditors of our Company, by way of their certificate dated November 21, 2025.

Principal terms of the borrowings availed by our Company and our Subsidiaries are disclosed below:

The details provided below are indicative and there may be additional terms, conditions and requirements under the various borrowing arrangements entered into by the Company:

1. ***Interest***: The applicable rate of interest for the working capital facility availed by our Company and our Subsidiaries is typically linked to benchmark rate, the repo rate, of a specified lender over a specific period of time. Typically, the rate of interest for our facilities ranges from 8.75% to 12.25% per annum.
2. ***Tenor***: The tenor of the facilities availed by our Company typically varies from 12 months to 60 months.

3. ***Security***: In terms of our borrowings where security needs to be created, the Company is typically required to, inter alia:

   (a) Create charge by way of hypothecation on entire current assets, both present and future; and
   (b) Create charge by way of hypothecation over all moveable fixed assets; and
   (c) Execute personal guarantees

4. ***Pre-payment***: The terms of certain facilities availed by us have prepayment provisions which allow for pre-payment of the outstanding loan amount, subject to such prepayment penalties and such other conditions as laid down in the facility agreements, on giving notice and/or obtaining prior approval from the concerned lender, as the case may be. These pre-payment penalties could range from 4% to 6% of the principal amount or of the amount being prepaid. Further, some loans may be prepaid without any prepayment charges subject to fulfilment of conditions.

5. ***Repayment***: Our secured facilities are typically repayable in accordance with the repayment schedules in the facility documents. Our unsecured facilities are repayable on maturity of the specified period of the facility as provided in the relevant loan documentation.

6. ***Restrictive Covenant***: The facilities sanctioned to our Company contains certain restrictive covenants, which require prior written consent of the lender or prior intimation to be made to the lender, including:

   (a) Undergoing any change in constitution, ownership, or control, including liquidation, merger, reconstruction, or amalgamation that materially affects creditworthiness;
   (b) Entering into any arrangement that permits another person to directly or indirectly manage or control the Company's business or operations;
   (c) Making any amendments to the Company's constitutional documents;
   (d) Opening a new bank account;
   (e) Permitting any change in ownership, control, or management, including pledge of promoter/sponsor shareholding to any third party, or entering into arrangements whereby the business or operations are managed or controlled, directly or indirectly, by another person.

7. ***Events of default***: Borrowing arrangements entered into by our Company contain standard events of default, including:

   (a) Failure to pay any amount due or breach of covenants, warranties, or undertakings;
   (b) Decline in value or theft/damage of secured assets like vehicles;
   (c) Admission of inability to pay debts or misuse of loan proceeds;
   (d) Any event that impairs the Borrower's ability to repay, including insolvency, bankruptcy, or significant adverse changes in employment, business, ownership, or control (such as liquidation, merger, or reconstruction)
   (e) Failure to provide required documentation or unauthorized creation or termination of security interests;
   (f) Default in repayment of loan facility;

8. ***Consequences of occurrence of events of defaults***: In terms of the Company's borrowing arrangements for the facilities availed by the Company, upon the occurrence of events of default, its lenders may:

   (a) Declare the entire loan and outstanding balance immediately due and payable without any notice or demand;
   (b) Take possession of, seize, and repossess the secured vehicle without court intervention and sell, lease, or transfer it by any method to recover dues;
   (c) Require the Borrower to hand over possession, transfer all related documents and registration certificates, and execute necessary documents at their cost;
   (d) Publish the name of the Borrower and its directors/partners as defaulters to credit bureaus or through other mediums at the lender's discretion;

(e) Exercise remedies under applicable laws including SARFAESI, DRT, and IBC;
(f) Set off deposits or other funds of the Borrower against outstanding dues without prior consent or notice;
(g) Recover any shortfall remaining after sale of secured assets from the Borrower.

This is an indicative list of the terms and conditions of the outstanding facilities and there may be additional terms including those that may require the consent of the relevant lender, the breach of which may amount to an event of default under various borrowing arrangements entered into by us, and the same may lead to consequences other than those stated above.

SECTION VII – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

*Except as stated in this section, there are no outstanding (i) criminal proceedings (including first information reports) involving our Company, Subsidiaries, Promoters or Directors (collectively, "**Relevant Parties**"); (ii) actions by statutory or regulatory authorities involving the Relevant Parties; (iii) claims involving the Relevant Parties for any direct or indirect tax liabilities disclosed in a consolidated manner, giving the number of cases and total amount; (iv) proceedings involving the Relevant Parties (other than proceedings covered under (i) to (iii) above) as determined to be 'material' by our Board pursuant to the Materiality Policy in accordance with the SEBI ICDR Regulations approved by it in meeting held on August 22, 2025 (as disclosed herein below) (v) criminal proceedings and also actions by statutory & regulatory authorities involving Key Managerial Personnel and members of the Senior Management.*

*For the purposes of material litigation or arbitration under (iv) above, our Board in their meeting held on August 22, 2025, considered and adopted a materiality policy with regard to outstanding litigation to be disclosed by our Company involving the Relevant Parties in this Red Herring Prospectus ("**Materiality Policy**").*

*In terms of the Materiality Policy all outstanding civil litigation/ arbitration (including tax proceedings) involving the Relevant Parties would be considered 'material', if the aggregate monetary claim made by or against the Relevant Parties is equal to or, exceeds the lower of the following (i) Two percent of turnover, as per the last annual Restated Financial Statements of the Company, being ₹26.97 million; (ii) Two percent of net worth, as per the last annual Restated Financial Statements of the Company, except in case the arithmetic value of the net worth is negative, being 8.54 million; (iii) Five percent of the average of absolute value of profit or loss after tax, as per the last three annual Restated Financial Statements of the Company, being ₹3.04 million. Based on the abovementioned criterial, ₹ 3.04 million was determined as the materiality threshold. ("**Materiality Threshold**").*

All outstanding civil litigation/ arbitration proceedings where the monetary liability is not quantifiable or does not meet the Materiality Threshold but where an adverse outcome would materially and adversely affect the business, operations or financial position or reputation of the Company. Furthermore, all outstanding civil litigation/ arbitration proceedings where the decision in one litigation is likely to affect the decision in similar litigations, even though the amount involved in an individual litigation may not exceed Materiality Threshold.

Accordingly, all such outstanding litigation proceedings where the aggregate monetary claim made by or against the Relevant Parties (individually or in aggregate), in any such outstanding litigation or arbitration proceeding is in excess of ₹ 3.04 million (being five percent of the average of absolute value of profit or loss after tax, as per the last three annual Restated Financial Statements of the Company), have been disclosed in this Prospectus.

Further, there are no disciplinary actions including penalties imposed by the SEBI or stock exchanges against our Promoters in the last five Financial Years, immediately preceding the date of this Prospectus as well as in the current year in which this Prospectus is getting filed, including any outstanding action. Further, except as disclosed in this section, there are no outstanding (i) criminal proceedings and (ii) actions by regulatory or statutory authorities involving our Key Managerial Personnel and members of our Senior Management.

For the purpose of the above, pre-litigation notices received by the Relevant Parties or the Group Companies from third parties (excluding notices issued by statutory or regulatory authorities or notices threatening criminal action) have not and shall not, unless otherwise decided by our Board, be considered as litigation until such time that Relevant Parties are impleaded as defendants in proceedings initiated before any judicial or arbitral forum.

*Further, in accordance with the Material Policy adopted on November 18, 2025, our Company has considered such creditors to be "material", to whom an amount due to such creditor exceeds 5 % of the total consolidated outstanding dues (trade payables) as on the date of the latest Restated Financial Statements. The consolidated outstanding trade payables of our Company as on September 30, 2025 was ₹ 121.68 million. Accordingly, a creditor has been considered "material" if the amount due to such creditor individually exceeds ₹ 6.08 million as on September 30, 2025. Further, for outstanding dues to any party which is a micro, small or medium enterprise ("**MSME**"), the disclosure will be based on information available with the Company regarding*

status of the creditor as defined under section 2 of the Micro, Small and Medium Enterprises Development Act, 2006, as amended read with the rules and notifications thereunder, as has been relied upon by the statutory auditors in preparing their audit report.

All terms defined in a particular litigation disclosure pertain to that litigation only. Unless stated to the contrary, the information provided below is as of the date of this Prospectus.

Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.
The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Period of operation of subscription list

See "*Terms of the Offer- Bid/Offer Period*" on page 412.

Nomination facility to Investors

In accordance with Section 72 of the Companies Act, 2013, read with the Companies (Share Capital and Debentures) Rules, 2014, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which such person would be entitled if they were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or varied by nominating any other person in place of the present nominee by the holder of the Equity Shares who has made the nomination by giving a notice of such cancellation. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered and Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

a. to register himself or herself as the holder of the Equity Shares; or
b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, the Board may thereafter withhold payment of all dividends, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized mode, there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Bidder would prevail. If the Bidder wants to change the nomination, they are requested to inform their respective Depository Participant.

The above timetable, other than the Bid/Offer Closing Date, is indicative and does not constitute any obligation or liability on our Company, the Selling Shareholder or the BRLM.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within the time prescribed under applicable law, the timetable may be extended due to various factors, such as extension of the Bid/Offer Period by our Company in consultation with the BRLM, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchange. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. The Selling Shareholder confirms that they shall extend such reasonable support and cooperation in relation to their portion of the Offered Shares for completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchange within three Working Days from the Bid/ Offer Closing Date or such other period as may be prescribed by SEBI. Pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, SEBI has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days); 'T' being issue closing date. The provisions of this circular were applicable, on voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company shall follow the timelines provided under the aforementioned circular.

The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In terms of the UPI Circulars, in relation to the Offer, the BRLM will submit report of compliance with T+3 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

SEBI is in the process of streamlining and reducing the post offer timeline for IPOs. Any circulars or notifications from SEBI after the date of this Prospectus may result in changes to the above-mentioned timelines. Further, the offer procedure is subject to change basis any revised SEBI circulars to this effect.

***UPI mandate end time and date shall be at 5:00 p.m. on Bid/ Offer Closing Date.*

[#] *As per recent BSE Circular dated June 18, 2025, Individual Bidders, QIBs and Non-Institutional Bidders can neither revise their bid downward nor cancel/withdraw their bids.*

On the Bid/ Offer Closing Date, Bids shall be uploaded until:

a) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Investors; and

b) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Individual Investors

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to the limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders were advised to submit their Bids one day prior to the Bid/Offer Closing Date and in any case, not later than 3.00 p.m. (IST) on the Bid/ Offer Closing date. Any time mentioned in this Prospectus is IST. Bidders were cautioned that, in the event a large number of Bids are received on the Bid/Offer Closing Date, as is typically experienced in public issue, some Bid cum Application Forms may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded on the electronic bidding system will not be considered for allocation under this Offer. Bids and any revision in Bids will be accepted only during Working Days, i.e., Monday to Friday (excluding public holidays) during the Bid / Offer Period. Neither our Company nor the members of Syndicate is liable for any failure in uploading the Bid cum Application Forms due to faults in any software/ hardware system or otherwise.

Investors were required to note that as per letter number List/SMD/SM/2006 dated July 3, 2006 and letter number NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids would not be accepted on Saturdays and public holidays as declared by the Stock Exchange. Bids and revisions by ASBA Bidders would be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchange.

Our Company, in consultation with BRLM, reserves the right to revise the Price Band during the Bid/Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision in the Price Band, the Bid/Offer Period shall be extended for at least three additional Working Days after such revision, subject to the Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company and Selling Shareholder,

in consultation with the BRLM, for reasons to be recorded in writing, extend the Bid/Offer Period for a minimum of one Working Days, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in Price Band, and the revised Bid/Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchange, by issuing a press release and also by indicating the change on the terminals of the Syndicate Members and by intimation to the Designated Intermediaries and the Sponsor Bank(s), as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

None among our Company and the Selling Shareholder is liable for any failure in uploading the Bids due to faults in any software/ hardware system or the blocking of Bid Amount in the ASBA Account on receipt of instructions from the Sponsor Bank(s) on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In case of discrepancy in data entered in the electronic book *vis-a-vis* data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid cum Application Form, for a particular ASBA Bidder, the Registrar to the Offer shall ask the relevant SCSBs / RTAs/DPs / stockbrokers, as the case may be, for the rectified data.

Minimum Subscription

This Offer is not restricted to any minimum subscription level and is 100% underwritten, in accordance with Regulation 260(1) of the SEBI ICDR Regulation.

As per Section 39 of the Companies Act, 2013, if the "stated minimum amount" has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the Offer through the Offer Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the Offer, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond fifteen days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI ICDR Regulations, the Companies Act, 2013 and applicable law.

In accordance with Regulation 260(1) of the SEBI ICDR Regulations, our Offer shall be hundred percent underwritten. Phased implementation of Unified Payments Interface

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 and circular number SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 circular number SEBI/HO/CFD/DIL2/CIR/P/2019/76 June 28, 2019, circular number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 and circular number SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (collectively the "**UPI Circulars**") in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by Individual Investors through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 01, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an Individual Bidder had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 01, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. Subsequently, it was decided to extend the timeline for implementation of Phase II until March 31, 2020. Further, as per SEBI circular number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount is continued till further notice. Under this phase, submission of the ASBA Form by Individual Investors through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.

Phase III: As per SEBI circular number SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, this phase has become effective on voluntary basis for all issues opening on or after September 1, 2023 and on mandatory basis for all issues opening on or after December 1, 2023. Accordingly, the Offer will be undertaken pursuant to the processes and procedures under UPI Phase III on mandatory basis, subject to any circulars, clarification or notification issued by the SEBI pursuant to the T+3 Notification.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchange and National Payments Corporation of India (NPCI) in order to facilitate collection of requests and / or payment instructions of the Individual Bidders into the UPI mechanism.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Book Running Lead Manager.

Book Building Procedure

In terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended (the "**SCRR**") read with Regulation 252 of SEBI ICDR Regulations, 2018, the Offer is being made for at least 25% of the post-Offer paid-up Equity Share capital of our Company. The Offer is being made under Regulation 229(2) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via book building process wherein not more than 50% of the Offer was allocated on a proportionate basis to QIBs, provided that our Company could, in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which 33.33 percent of the Anchor Investor Portion was reserved for domestic Mutual Funds and 6.67 percent of the Anchor Investor Portion was reserved for life insurance companies and pension funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the QIB Portion. Further, 5% of the QIB Portion (excluding the Anchor Investor Portion) was made available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion was made available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids having been received at or above the Offer Price. Further, not less than 15% of the Offer was available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35% of the Offer was made available for allocation to Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids having been received at or above the Offer Price.

Subject to valid Bids having been received at or above the Offer Price, undersubscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM, and the Designated Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spillover from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchange.

Investors should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID, PAN and UPI ID, as applicable, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialized subsequent to Allotment of the Equity Shares in the Offer, subject to applicable laws.

Bids by Indian public including Eligible NRIs applying on Non-Repatriation

Bids were to be made only in the names of individuals, Limited Companies or Statutory Corporations/institutions and not in the names of Minors, Foreign Nationals, Non-Residents (except for those applying on non-repatriation), trusts, (unless the trust is registered under the Societies Registration Act, 1860 or any other applicable trust laws and is authorized under its constitution to hold shares and debentures in a Company). A Bidder in the Net Public Category cannot make an application for that number of Equity Shares exceeding the number of Equity Shares issued to the public.

Bids by Eligible NRIs/FII's on Repatriation Basis

Eligible NRIs could obtain copies of Bid cum Application Form from the Designated Intermediaries. Eligible NRI Bidders applying on a repatriation basis by using the Non-Resident Forms should have authorized their SCSB to block their Non-Resident External (NRE) accounts, or Foreign Currency Non-Resident (FCNR) ASBA Accounts, and Eligible NRI Bidders applying on a non-repatriation basis by using Resident Forms should have authorized their SCSB to block their Non-Resident Ordinary (NRO) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

Eligible NRIs applying on a repatriation basis were advised to use the Bid cum Application Form meant for Non-Residents (blue in colour).

Eligible NRIs applying on non-repatriation basis were advised to use the Bid cum Application Form for residents (white in colour).

Pursuant to the provisions of the FEMA regulations, investments by NRIs under the Portfolio Investment Scheme (PIS) are subject to certain limits, i.e., 10.00% of the paid-up equity share capital of the company. Such limit for NRI investment under the PIS route can be increased by passing a board resolution, followed by a special resolution by the shareholders, subject to prior intimation to the RBI. Our Company has not passed any resolution to increase this limit and hence investments by NRIs under the PIS will be subject to a limit of 10% of the paid-up equity capital of the Company.

Bids by FPIs including FII's

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Offer, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the SEBI FPI Regulations was required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Offer, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or subaccounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) is not permitted to exceed 10% of our post- Offer Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectoral cap by way of a resolution passed by our Board followed by a special resolution passed by the shareholders of our Company and subject to prior intimation to the RBI.

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

FPIs were permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, by virtue of their investment manager being appropriately regulated, may issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority. In case of Applications made by FPIs, a verified true copy of the certificate of registration issued by the designated Depository Participant under the FPI Regulations is required to be attached along with the Bid cum Application Form, failing which our Company reserves the right to reject the Bid without assigning any reasons thereof.

Bids by SEBI registered VCFs, AIFs and FVCIs

SEBI VCF Regulations and SEBI FVCI Regulations inter alia prescribe the investment restrictions on the VCFs and FVCIs registered with SEBI. Further, SEBI AIF Regulations prescribe, among others, investment restrictions on AIFs. Accordingly, the holding by any individual VCF registered with SEBI in one (1) venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering. Category I and II AIFs cannot invest more than 25% of their corpus in one (1) investee company. A category III AIF cannot invest more than 10% of their investible funds in one (1) investee company. A venture capital fund registered as a category I AIF, as defined in SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not reregistered as an AIF under SEBI AIF Regulations shall continue to be regulated by SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of SEBI AIF Regulations. Further, according to SEBI ICDR Regulations, the shareholding of VCFs and category I AIFs or FVCI held in a company prior to making an initial public offering would be exempt from lock-in requirements provided that such equity shares held are locked in for a period of at least one (1) year from the date of purchase by such VCF or category I AIFs or FVCI.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency. There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Maximum and Minimum Application Size

1. **For Individual Bidders**

   The Application should have been for a minimum of 2 lots Equity Shares of face value of ₹ 10 each and in multiples of 2 lots Equity Shares of face value of ₹ 10 each thereafter, so as to ensure that the Application Price payable by the Bidder exceeded ₹0.2 million. In case of revision of Applications, the Individual Investors had to ensure that the Application Price exceeded ₹0.2 million.

2. **For other than Individual Bidders (Non-Institutional Investors and QIBs)**

   The Application should have been for a minimum of such number of Equity Shares that the Bid Amount exceeds ₹ 0.2 million and in multiples of 600 Equity Shares of face value of ₹ 10 each such that the Bid Size exceeded 2 lots thereafter. An Application could not be submitted for more than the Net Offer Size. However, the maximum Application by a QIB investor should not have exceeded the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder could withdraw its Application after the Offer Closing Date and was required to pay 100% QIB Margin upon submission of Application.

   In case of revision in Applications, the Non-Institutional Bidders, who are individuals, had to ensure that the Bid Amount is greater than ₹ 0.2 million with more than 2 lots for being considered for allocation in the Non-Institutional Portion.

Bidders were advised to ensure that any single Application from them did not exceed the investment limits or maximum number of Equity Shares that could be held by them under applicable law or regulation or as was specified in the Red Herring Prospectus.

The above information was given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus. Bidders were advised to make their independent

investigations and ensure that the number of Equity Shares applied for did not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company in consultation with the BRLM decided the Price Band and the minimum Bid lot size for the Offer and the same was published advertised in all editions of Financial Express, the English national newspaper, all editions of Jansatta ,Hindi national newspaper, Bengaluru edition of Vishvavani, Kannada Edition of Regional newspaper, where the Registered Office of the Company is situated, each with wide circulation at least two Working Days prior to the Bid/ Offer Opening Date. The BRLM and the SCSBs accepted Bids from the Bidders during the Bid/ Offer Period.

a) The Bid/ Offer Period was for a minimum of three Working Days and did not exceed 10 Working Days. The Bid/ Offer Period could be extended, if required, by an additional three Working Days, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, would be published in all editions of Financial Express, the English national newspaper , all editions of Jansatta, Hindi national newspaper, Bengaluru edition of Vishvavani, Kannada regional newspaper, Kannada being the regional language of Karnataka,, where the Registered Office of our Company is situated, each with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.

b) During the Bid/ Offer Period, Individual Bidders, were required to approach the BRLM or their authorized agents to register their Bids. The BRLM accepted Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Bid/ Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.

c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder/Bidder at or above the Offer Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.

d) The Bidder/ Bidder cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.

e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“**TRS**”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form

f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Bid/ Offer Period i.e. one working day prior to the Bid/ Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.

g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in *“Escrow Mechanism - Terms of payment and payment into the Escrow Accounts”* in the section *“Offer Procedure”* beginning on page 424.

h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the

ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.

i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.

j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.

k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Offer Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Offer.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

a) Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Offer Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

b) Our Company, in consultation with the BRLM, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.

c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. However, Bidding at the Cut-off Price is prohibited for Individual Bidder, QIB and Non-Institutional Bidders and such Bids shall be rejected.

d) Individual Bidders shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate.

e) The price of the specified securities offered to an Anchor Investor shall not be lower than the price offered to other Bidders.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE OFFER:

1) Upon approval of the basis of allotment by the Designated Stock Exchange, the BRLM or Registrar to the Offer shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Offer.

2) The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder

OFFER PROCEDURE FOR ASBA (APPLICATION SUPPORTED BY BLOCKED ACCOUNT) BIDDERS

In accordance with the SEBI circular number CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid cum Application Form is correctly filled up, as described in this section.

Lists of banks that have been notified by SEBI to act as SCSB (Self-Certified Syndicate Banks) for the ASBA Process are provided on http://www.sebi.gov.in . For details on designated branches of SCSB collecting the Bid cum Application Form, please refer the above-mentioned SEBI link.

BID CUM APPLICATION FORM SHALL BEAR THE STAMP OF THE SYNDICATE MEMBER / SCSBS / REGISTRAR AND SHARE TRANSFER AGENTS / DEPOSITORY PARTICIPANTS / STOCKBROKERS AND IF NOT, THE SAME SHALL BE REJECTED

Who can apply?

In accordance with the SEBI circular number CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process.**Mode of payment**

Upon submission of Bid cum Application Form with the SCSB, whether in physical or electronic mode, each ASBA Bidder shall be deemed to have agreed to block the entire Bid Amount and authorized the Designated Branch of the SCSB to block the Bid Amount, in the bank account maintained with the SCSB.

Bid Amount paid in cash, by money order or by postal order or by stock invest, or ASBA Bid cum Application Form accompanied by cash, draft, money order, postal order or any mode of payment other than blocked amounts in the SCSB bank accounts, shall not be accepted.

After verifying that sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the ASBA Bid cum Application Form till the Designated Date.

On the Designated Date, the SCSBs shall transfer the amounts allocable to the ASBA Bidders from the respective ASBA Account, in terms of the SEBI Regulations, into the ASBA Public Offer Account. The balance amount, if any against the said Bid cum Application in the ASBA Accounts shall then be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the Offer.

The entire Bid Amount, as per the Bid cum Application Form submitted by the respective ASBA Bidders, would be required to be blocked in the respective ASBA Accounts until finalization of the Basis of Allotment in the Offer and consequent transfer of the Bid Amount against allocated shares to the ASBA Public Offer Account, or until withdrawal/failure of the Offer or until rejection of the ASBA Application, as the case may be.

Unblocking of ASBA Account

On the basis of instructions from the Registrar to the Offer, the SCSBs shall transfer the requisite amount against each successful ASBA Bidder to the ASBA Public Offer Account as per section 40(3) of the Companies Act, 2013 and shall unblock excess amount, if any in the ASBA Account.

However, the Bid Amount may be unblocked in the ASBA Account prior to receipt of intimation from the Registrar to the Offer by the Controlling Branch of the SCSB regarding finalization of the Basis of Allotment in the Offer, in the event of withdrawal/failure of the Offer or rejection of the ASBA Application, as the case may be.

Terms of Payment

The entire Offer price of ₹194 per equity share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Offer Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Offer or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to Offer and the Registrar to the Offer to facilitate collections from the Bidders.

Payment Mechanism

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Bid Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Bid Amount in the relevant bank account blocked until withdrawal/ rejection of the Application or receipt of instructions from the Registrar to unblock the Bid Amount. However, as per the recent BSE Circular dated June 18, 2025, no Bidders shall withdraw or lower the size of their applications at any stage. In the event of rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Offer shall give instructions to the SCSBs to unblock the application money in the relevant bank account within 1 (one) day of receipt of such instruction. The Bid Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Offer and consequent transfer of the Bid Amount to the Public Offer Account, or until withdrawal/ failure of the Offer or until rejection of the Bid by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular number CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Bidders applying in public Offer have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

Payment into Escrow Account for Anchor Investors

All the investors other than Anchor Investors are required to bid through ASBA Mode. Anchor Investors are requested to note the following:

Our Company in consultation with the Book Running Lead Manager, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favour of:

a. In case of resident Anchor Investors: "**METHODHUB SOFTWARE LTD - ANCHOR RESIDENT ACCOUNT**"

b. In case of Non-Resident Anchor Investors: "**METHODHUB SOFTWARE LTD - ANCHOR NON-RESIDENT ACCOUNT**"

Bidders should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections from the Anchor Investors.

Procedure for Unified Payment Interface (UPI)

For such applications only the UPI mechanism would be permissible mode.

Who can apply through UPI Mode:

Only Individual Investors are allowed to use UPI for the payment in public issues. Qualified Institutional Buyers and High-Net worth Investors shall continue to apply as per the existing process.

Process

Applications through UPI in IPOs (Public Issue) can be made only through the SCSBs/mobile applications whose name appears on the SEBI website: www.sebi.gov.in.

Blocking of Funds:

a. Investors shall create UPI ID

b. Investors shall submit their IPO applications through intermediaries and the investors shall enter UPI ID in the Bid cum Application Form

c. Thereafter, intermediary shall upload the bid details and UPI ID in the electronic bidding system of the Stock Exchange

d. Stock Exchange shall validate the bid details on the real time basis with depository's records and shall bring the inconsistencies to the notice of intermediaries for rectification and re-submission

e. Stock Exchange shall share the details including UPI ID with Sponsor Bank, to enable the Sponsor Bank to initiate the request for the blocking of funds

f. Thereafter the Investor shall receive notification and shall confirm the request by entering valid UPI PIN and upon such acceptance of request, funds would get blocked and intimation shall be given to the Investor regarding blocking of funds

Unblocking of Funds:

a. After the Bid/ Offer Closing day, the RTA on the basis of bidding and blocking received from Stock Exchange undertake a reconciliation and shall prepare Basis of Allotment.

b. Upon approval of such basis, instructions would be sent to the Sponsor Bank to initiate process for credit of funds in the public issue account and unblocking of excess funds.

c. Based on authorization given by the investor using UPI PIN at the time of blocking of funds, equivalent to the allotment, would be debited from investors account and excess funds, if any, would be unblocked.

Further, Individual Investors would continue to have an option to modify the bid till the closure of the Bid/ Offer Period. For each such modification of application, Individual Investors shall submit a revised application and shall receive a mandate request from the Sponsor Bank to be validated as per the process indicated above. Hence, applications made through UPI ID for payment the same shall be revised by using UPI ID only.

The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/allotted either by our Company.

8. Such acknowledgement will be non-negotiable and by itself will not create any obligation of any kind.

9. In case of QIB Bidders, the Book Running Lead Manager has the right to accept the Bid or reject it. However, the rejection should be made at the time of receiving the Application and only after assigning a reason for such rejection in writing. In case on Non-Institutional Bidders and Individual Bidders, Bids would be rejected on the technical grounds.

10. The permission given by the Stock Exchange to use their network and software of the Online IPO system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Manager are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of our Company, our Promoter, our management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchange.

11. Only Bids that are uploaded on the online IPO system of the Stock Exchange shall be considered for allocation/Allotment. The Designated Intermediary will be given time till 5.00 p.m. on the Bid/ Offer Closing Date to verify the PAN, DP ID and Client ID uploaded in the online IPO system during the Bid/ Offer Period, after which the Registrar will receive this data from the Stock Exchange and will validate the electronic Application details with depository's records. In case no corresponding record is available with depositories, which matches the three parameters, namely DP ID, Client ID and PAN, then such Applications are liable to be rejected. The SCSBs shall be given one day after the Bid/Offer Closing Date to send confirmation of Funds blocked (Final certificate) to the Registrar to the Offer.

Build of the Book

1. Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the Book Running Lead Manager at the end of the Bid/ Bid/ Offer Period.

2. Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centres during the Bid/ Bid/ Offer Period.

Withdrawal of Bids

Individual Investors can withdraw their Bids until Bid/ Offer Closing Date. In case a Individual Investor wishes to withdraw the Bid during the Bid/ Offer Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite, including unblocking of the funds by the SCSB or Sponsor Bank in the ASBA Account.

The Registrar to Offer shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withy draw nor lower the size of their Bids at any stage.

Signing of Underwriting Agreement

The Offer is 100% Underwritten. For further details please see section titled "*General Information*" on page 81.

Filing of the Offer Document with the ROC

For filing details, please see section titled *"General Information"* beginning on page 81 of this Prospectus.

Pre-Offer Advertisement

Subject to Section 30 of the Companies Act, 2013, the Company, after filing the Red Herring Prospectus with the RoC, published a pre-Offer advertisement, in the form prescribed by the SEBI ICDR Regulations, in one widely circulated English language national daily newspaper; one widely circulated Hindi language national daily newspaper and Kannada regional newspaper with wide circulation where Registered Office of the Company is situated. In the pre-Offer advertisement, we stated the Bid/ Offer Opening Date and the Bid/Offer Closing Date and the floor price or price band along with necessary details subject to regulation 250 of SEBI ICDR Regulations. This advertisement, subject to the provisions of section 30 of the Companies Act, 2013, was in the format prescribed in Part A of Schedule X of the SEBI Regulations.

Price Discovery and Allocation of Equity Shares

a. Based on the demand generated at various price levels, our Company, in consultation with the Book Running Lead Manager, shall finalise the Offer Price and the Anchor Investor Offer Price.

b. The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Red Herring Prospectus. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.

c. Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the Book Running Lead Manager and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.

d. In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Offeror, Bidders may refer to the Red Herring Prospectus.

e. In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.

f. Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the Book Running Lead Manager, subject to compliance with the SEBI ICDR Regulations.

Illustration of the Book Building and Price Discovery Process

Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1000	23	1,500	50.00%

1500	22	3,000	100.00%
2000	21	5,000	166.67%
2500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22.00. All Bids at or above this Offer Price are valid Bids and are considered for allocation in the respective categories

Section 447 of Companies Act, 2013 deals with 'Fraud' and prescribed a punishment of imprisonment for a term which shall not be less than 6 (six) months but which may extend to 10 (ten) years and shall also be liable

to fine which shall not be less than the amount involved in the fraud, but which may extend to 3 (three) times the amount involved in the fraud"

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Stock Exchange, along with the Book Running Lead Manager and the Registrar, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

At Par Facility

Letters of Allotment or refund orders or instructions to Self-Certified Syndicate Banks in Application Supported by Blocked Amount process. The Company shall ensure that 'at par' facility is provided for encashment of refund orders for applications other than Application Supported by Blocked Amount process.

GROUNDS FOR REFUND

Non-receipt of Listing Permission

An Offeror makes an Application to the Stock Exchange for permission to deal in/list and for an official quotation of the Equity Shares. All the Stock Exchange from where such permission is sought are disclosed in Red Herring Prospectus. The designated Stock Exchange may be as disclosed in the Prospectus with which the Basis of Allotment may be finalised.

If the permission to deal in and official quotation of the Equity Shares are not granted by any of the Stock Exchange, the Offeror may forthwith repay, without interest, all money received from the Bidders in pursuance of the Prospectus.

In the event that the listing of the Equity Shares does not occur in the manner described in this Prospectus, the Book Running Lead Manager and Registrar to the Offer shall intimate Public Offer bank/Bankers to the Offer and Public Offer Bank to the Offer shall transfer the funds from Public Offer account to Refund Account as per the written instruction from Book Running Lead Manager and the Registrar for further payment to the beneficiary Bidders.

If such money is not repaid within four days after the Company becomes liable to repay it, then the Company and every director of the Company who is an officer in default may, on and from such expiry of forth days, be liable to repay the money, with interest at such rate, as prescribed under Section 73 of the Companies Act, and as disclosed in the Prospectus.

Minimum Subscription

This Offer is not restricted to any minimum subscription level. This Offer is 100% underwritten. As per section 39 of the Companies Act, 2013, "if the "Stated Minimum" Amount" has not been subscribed and the sum payable on application money has to be returned within such period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If the Company does not receive the subscription of 100% of the Offer through this Offer document including devolvement of underwriters within Sixty Days from the date of closure of the Offer shall forthwith refund the entire subscription amount received. If there is a delay beyond four days after the Company become liable to pay the amount, the Company shall pay interest prescribed under section 73 of the Companies Act, 1956 (or the Company shall follow any other substitutional or additional provisions as has been or may be notified under the Companies Act, 2013).

Minimum Number of Allottees

The Company may ensure that the number of Allottees to whom Equity Shares may be allotted may not be less than 200 failing which the entire application monies may be refunded forthwith.

Mode of Refunds

The Company may ensure that the number of Allottees to whom Equity Shares may be allotted may not be less than 200 failing which the entire application monies may be refunded forthwith.

a. In case of ASBA Bids: Within 6 (six) Working Days of the Offer Closing Date, the Registrar to the Offer may give instructions to SCSBs for unblocking the amount in ASBA Account on unsuccessful Bid, for any excess amount blocked on Application, for any ASBA Bids withdrawn, rejected or unsuccessful or in the event of withdrawal or failure of the Offer.

b. In the case of Bidder from Eligible NRIs and FPIs, refunds, if any, may generally be payable in Indian Rupees only and net of bank charges and/or commission. If so desired, such payments in Indian Rupees may be converted into U.S. Dollars or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and may be dispatched by registered post. The Company may not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency

c. In case of Investors: Within six Working Days of the Offer Closing Date, the Registrar to the Offer may dispatch the refund orders for all amounts payable to unsuccessful Investors. In case of Investors, the Registrar to the Offer may obtain from the depositories, the Bidder' bank account details, including the MICR code, on the basis of the DP ID, Client ID and PAN provided by the Investors in their Investor Bid cum Application Forms for refunds. Accordingly, Investors are advised to immediately update their details as appearing on the records of their depositories. Failure to do so may result in delays in dispatch of refund orders or refunds through electronic transfer of funds, as applicable, and any such delay may be at the Investors' sole risk and neither the Company, the Registrar to the Offer, the Sponsor Bank, may be liable to compensate the Investors for any losses caused to them due to any such delay, or liable to pay any interest for such delay.

Interest in case of delay in Allotment or Refund

The Company shall make the Allotment within the period prescribed by SEBI. The Company shall pay interest at the rate of 15% per annum if Allotment is not made and refund instructions have not been given to the clearing system in the disclosed manner/instructions for unblocking of funds in the ASBA Account are not dispatched within such times as maybe specified by SEBI.

Completion of Formalities for Listing and Commencement of Trading

The Company may ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at all the Stock Exchange are taken within 6 Working Days of the Offer Closing Date. The Registrar to the Offer may give instruction for credit of Equity Shares to the beneficiary account with DPs, and dispatch the allotment Advise within 6 Working Days of the Offer Closing Date.

Basis of Allocation

The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.

Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Offer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, Unsubscribed portion in QIB Category is not available for subscription to other categories.

In case of under-subscription in the Offer, spill-over to the extent of such under- subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an under-subscription applicable to the Offeror, Bidders may refer to the RHP.

Allotment Procedure and Basis of Allotment

The Allotment of Equity Shares to Bidders other than Individual Investors and Anchor Investors may be on a proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is

required to receive a minimum subscription of 90% of the Offer. However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

Basis of Allotment

a) For Individual Bidders

Bids received from the Individual Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Bidders will be made at the Offer Price.

The Offer size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Individual Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price.

If the aggregate demand in this category is less than or equal to 1,756,800 Equity Shares at or above the Offer Price, full Allotment shall be made to the Individual Bidders to the extent of their valid Bids. If the aggregate demand in this category is greater than 1,756,800 Equity Shares at or above the Offer Price, the Allotment shall be made on a proportionate basis up to a minimum of 600 Equity Shares and in multiples of 600 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b) For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Offer Price.

The Offer size less Allotment to QIBs and Individual Bidders shall be available for Allotment to Non-Institutional Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to 753,000 Equity Shares of face value of ₹10 each at or above the Offer Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 753,000 Equity Shares of face value of ₹10 each at or above the Offer Price, Allotment shall be made on a proportionate basis up to a minimum of 600 Equity Shares of face value of ₹10 each and in multiples of 600 Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c) For QIBs

For the Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to the SEBI ICDR Regulations or RHP /Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Offer Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Offer Price. Allotment may be undertaken in the following manner:

1. In the first instance allocation to Mutual Funds for 5% of the QIB Portion shall be determined as follows:
   - In the event that Bids by Mutual Fund exceeds 5% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for 5% of the QIB Portion.
   - In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Offer Price.
   - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (2) below;
2. In the second instance Allotment to all QIBs shall be determined as follows:
   - In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Offer Price shall be allotted Equity Shares on a proportionate basis, up to a

minimum of 600 Equity Shares of face value of ₹10 each and in multiples of 600 Equity Shares thereafter for 95% of the QIB Portion.

- Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, up to a minimum of 600 Equity Shares of face value of ₹10 each and in multiples of 600 Equity Shares thereafter, along with other QIB Bidders.

- Under-subscription below 5% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than 2,508,000 Equity Shares of face value of ₹10 each.

d) Allotment to Anchor Investor (If Applicable)

1. Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discussion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

   a. Not more than 60% of the QIB Portion will be allocated to Anchor Investors;

   b. 33.33 percent of the Anchor Investor Portion was reserved for domestic Mutual Funds and 6.67 percent of the Anchor Investor Portion was reserved for life insurance companies and pension funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and

   c. Allocation to Anchor Investors shall be on a discretionary basis and subject to:

      - A maximum number of two Anchor Investors for allocation up to ₹20 million;

      - A minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 20 million and up to ₹ 250 million subject to minimum allotment of ₹ 10 million per such Anchor Investor; and

      - in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

   2. A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

   3. In the event that the Offer Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Offer Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors.

4. In the event the Offer Price is lower that the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice

5. Basis of Allotment for QIBs (other than Anchor Investors) and NIIs in case of Over Subscribed Offer:

In the event of the Offer being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the SME Platform of BSE (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

i. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).

ii. The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

iii. For Bids where the proportionate allotment works out to less than 600 Equity shares of face value of ₹10 each the allotment will be made as follows:
- Each successful Bidder shall be allotted 600 Equity Shares of face value of ₹10 each; and
- The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (ii) above.

iv. If the proportionate allotment to a Bidder works out to a number that is not a multiple of 600 Equity shares of face value of ₹10 each, the Bidder would be allotted Shares by rounding off to the nearest multiple of 600 Equity shares of face value of ₹10 each subject to a minimum allotment of 600 Equity shares of face value of ₹10 each.

v. If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 600 Equity Shares of face value of ₹10 each, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this RHP.

Individual Investor' means an investor who applies for shares of value of not more than ₹0.2 million. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director/ Managing Director of BSE SME - the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI ICDR Regulations.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (FEMA). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991 unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("**RBI**") and Department for Promotion of Industry and Internal Trade ("**DPIIT**"), Ministry of Commerce and Industry, Government of India.

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("**FDI**") through press notes and press releases. The DPIIT, has issued Consolidated FDI Policy Circular of 2020 ("**FDI Policy**"), which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI policy issued by the DPIIT that were in force. The Government of India proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DPIIT issues an updated circular.

FDI for items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Foreign Investment is allowed up to 100% under automatic route in our Company subject to certain conditions. For further details, please see the section titled "*Key Regulations and Policies*" beginning on page 265.

RBI also issues Master Directions - Foreign Investment in India and updates the same from time to time. Presently, FDI in India is being governed by Master Directions on Foreign Investment Number RBI/FED/2017-18/60 FED Master Direction Number 11/2017-18 dated January 04, 2018, as updated from time to time by the RBI. In terms of the Master Directions, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the applicable pricing guidelines prescribed under the Master Directions. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including the filing of Form FC-GPR.

In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy has to be obtained by the company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, provided that:(i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations, (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy, and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. For details of the aggregate limit for investments by NRIs and FPIs in our Company, see "*Offer Procedure – Bids by Eligible NRIs/FII's on Repatriation Basis*" and "*Offer Procedure – Bids by FPIs including FII's*" on pages 433 and 434 respectively.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and/or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not issue, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment by NRI or OCI on repatriation basis

The purchase/ sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as "**Capital Instruments**") of a listed Indian Company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is

allowed subject to certain conditions under Foreign Exchange Management (Non-debt Instruments) Rules, 2019.
The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2020, Foreign Exchange Management (Non-debt Instruments) Rules, 2019, Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by an NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy and amendments from time to time thereupon, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule I, II, III, VI, VII, VIII, IX, X and XI of Foreign Exchange Management (Non-Debt Instruments) as amended from time to time. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment.

As per the FDI policy, up to 100% FDI in the paid-up share capital of Company is permitted under the automatic route however, investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral /statutory cap.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("US Securities Act") or any other state securities laws in the United States of America and may not be issued, sold or offered within the United States of America, or to, or for the account or benefit of "US Persons" as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Prospectus. Applicants were advised to make their independent investigations and ensure that the Applications were not in violation of laws or regulations applicable to them and did not exceed the applicable limits under the laws and regulations.

	20.1. Where at any time the Board or the Company, as the case may be, propose to increase the subscribed capital by the issue of further shares then such shares shall be offered, subject to the provisions of section 62 of the Act, and the rules made thereunder:
	20.1.1.
	(i) to the persons who at the date of the offer are holders of the Equity Shares of the Company, in proportion as nearly as circumstances admit, to the paid-up share capital on those shares by sending a letter of offer subject to the conditions mentioned in (ii) to (iv) below;
	(ii) The offer aforesaid shall be made by notice specifying the number of shares offered and limiting a time not being less than fifteen days or such lesser number of days as may be prescribed and not exceeding thirty days from the date of the offer, within which the offer if not accepted, shall be deemed to have been declined. Provided that the notice shall be dispatched through registered post or speed post or through electronic mode or courier or any other mode having proof of delivery to all the existing shareholders at least three days before the opening of the issue;
	(iii) The offer aforesaid shall be deemed to include a right exercisable by the person concerned to renounce the shares offered to him or any of them in favour of any other person and the notice referred to in sub-clause (ii) shall contain a statement of this right; Provided that the Directors may decline, without assigning any reason to allot any shares to any person in whose favour any member may renounce the shares offered to him.
	(iv) After the expiry of time specified in the notice aforesaid or on receipt of earlier intimation from the person to whom such notice is given that the person declines to accept the shares offered, the Board of Directors may dispose of them in such manner which is not disadvantageous to the Members and the Company;
	20.1.2. to employees under any scheme of employees' stock option subject to Special Resolution passed by the Company and subject to the rules and such other conditions, as may be prescribed under Applicable Law; or
	20.1.3. to any person(s), if it is authorised by a Special Resolution, whether or not those persons include the persons referred to in Article 20.1.1 or Article 20.1.2 above either for cash or for a consideration other than cash, if the price of such shares is determined by the valuation report of a registered valuer subject to such conditions as may be prescribed under the Act and the

	rules made thereunder; 20.2. Nothing in sub-article (iii) of Article 20.1.1 shall be deemed: a) To extend the time within which the offer should be accepted; or b) To authorize any person to exercise the right of renunciation for a second time on the ground that the person in whose favour the renunciation was first made has declined to take the Shares compromised in the renunciation. 20.3. Nothing in this article shall apply to the increase of the subscribed capital of the Company caused by the exercise of an option as a term attached to the debentures issued or loan raised by the Company to convert such debentures or loans into shares in the Company: Provided that the terms of issue of such debentures or loan containing such an option have been approved before the issue of such debentures or the raising of loan by a special resolution passed by the Company in general meeting. Notwithstanding anything contained in Article 20.3 hereof, where any debentures have been issued, or loan has been obtained from any government by the Company, and if that government considers it necessary in the public interest so to do, it may, by order, direct that such debentures or loans or any part thereof shall be converted into shares in the Company on such terms and conditions as appear to the Government to be reasonable in the circumstances of the case even if terms of the issue of such debentures or the raising of such loans do not include a term for providing for an option for such conversion: Provided that where the terms and conditions of such conversion are not acceptable to the Company, it may, within sixty days from the date of communication of such order, appeal to National Company Law Tribunal which shall after hearing the Company and the Government pass such order as it deems fit. A further issue of shares may be made in any manner whatsoever as the Board may determine including by way of preferential offer or private placement, subject to and in accordance with the Act and the rules made thereunder.	
21.	The shares in the capital shall be numbered progressively according to their several denominations, and except in the manner hereinbefore mentioned no share shall be sub-divided. Every forfeited or surrendered share shall continue to bear the number by which the same was originally distinguished.	**Shares should be Numbered progressively and no share to be subdivided.**
22.	An application signed by or on behalf of an applicant for shares in the Company, followed by an allotment of any shares therein, shall be an acceptance of shares within the meaning of these Articles, and every person who thus or otherwise accepts any shares and whose name is on the Register shall for the purposes of these Articles, be a Member.	**Acceptance of Shares.**

Sr. No	Particulars	
23.	Subject to the provisions of the Act and these Articles, the Directors may allot and issue shares in the Capital of the Company as payment or part payment for any property (including goodwill of any business) sold or transferred, goods or machinery supplied or for services rendered to the Company either in or about the formation or promotion of the Company or the conduct of its business and any shares which may be so allotted may be issued as fully paid-up or partly paid-up otherwise than in cash, and if so issued, shall be deemed to be fully paid-up or partly paid-up shares as aforesaid.	**Directors may allot shares as full paid-up**
24.	The money (if any) which the Board shall on the allotment of any shares being made by them, require or direct to be paid by way of deposit, call or otherwise, in respect of any shares allotted by them shall become a debt due to and recoverable by the Company from the allottee thereof, and shall be paid by him, accordingly.	**Deposit and call etc.to be a debt payable immediately.**
25.	Every Member, or his heirs, executors, administrators, or legal representatives, shall pay to the Company the portion of the Capital represented by his share or shares which may, for the time being, remain unpaid thereon, in such amounts at such time or times, and in such manner as the Board shall, from time to time in accordance with the Company's regulations, require on date fixed for the payment thereof.	**Liability of Members.**
26.	Shares may be registered in the name of any limited company or other corporate body but not in the name of a firm, an insolvent person or a person of unsound mind.	**Registration of Shares.**
	RETURN ON ALLOTMENTS TO BE MADE OR RESTRICTIONS ON ALLOTMENT	
27.	The Board shall observe the restrictions as regards allotment of shares to the public, and as regards return on allotments contained in Section 39 of the Act	
	CERTIFICATES	
28.	(a) Every member shall be entitled, without payment, to one or more certificates in marketable lots, for all the shares of each class or denomination registered in his name, or if the Directors so approve (upon paying such fee as provided in the relevant laws) to several certificates, each for one or more of such shares and the company shall complete and have ready for delivery such certificates, unless prohibited by any provision of law or any order of court, tribunal or other authority having jurisdiction, within two months from the date of allotment, or within one month of the receipt of application for registration of transfer, transmission, sub-division, consolidation or renewal of any of its shares as the case may be, or within a period of six (6) months from the date of allotment in the case of any allotment of debenture. Every certificate of shares shall be under the seal of the company, if any, and shall specify the number and distinctive numbers of shares in respect of which it is issued and amount paid-up thereon and shall be in such form as the directors may prescribe or approve, provided that in respect of a share or shares held jointly by several persons, the company shall not be bound to issue more than one certificate and delivery of a certificate of shares to one of several joint holders shall be sufficient delivery to all such holder. Such certificate shall be issued only in pursuance of a resolution passed by the Board and on surrender to the Company of its letter of allotment or its fractional coupons of requisite value, save in cases of issues against letter of acceptance or of renunciation or in cases of issue of bonus	**Share Certificates.**

	shares. Every such certificate shall be issued under the seal of the Company, if any, which shall be affixed in the presence of two Directors or persons acting on behalf of the Directors under a duly registered power of attorney and the Secretary or some other person appointed by the Board for the purpose and two Directors or their attorneys and the Secretary or other person shall sign the share certificate, provided that if the composition of the Board permits of it, at least one of the aforesaid two Directors shall be a person other than a Managing or whole-time Director. Particulars of every share certificate issued shall be entered in the Register of Members against the name of the person, to whom it has been issued, indicating the date of issue. (b) Any two or more joint allottees of shares shall, for the purpose of this Article, be treated as a single member, and the certificate of any shares which may be the subject of joint ownership, may be delivered to anyone of such joint owners on behalf of all of them. For any further certificate the Board shall be entitled, but shall not be bound, to prescribe a charge not exceeding Rupees Fifty. The Company shall comply with the provisions of Section 39 of the Act. (c) A Director may sign a share certificate by affixing his signature thereon by means of any machine, equipment or other mechanical means, such as engraving in metal or lithography, but not by means of a rubber stamp provided that the Director shall be responsible for the safe custody of such machine, equipment or other material used for the purpose.	
29.	If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new Certificate may be issued in lieu thereof, and if any certificate lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deem adequate, being given, a new Certificate in lieu thereof shall be given to the party entitled to such lost or destroyed Certificate. Every Certificate under the Article shall be issued without payment of fees if the Directors so decide, or on payment of such fees (not exceeding Rs.50/- for each certificate) as the Directors shall prescribe. Provided that no fee shall be charged for issue of new certificates in replacement of those which are old, defaced or worn out or where there is no further space on the back thereof for endorsement of transfer. Provided that notwithstanding what is stated above the Directors shall comply with such Rules or Regulation or requirements of any Stock Exchange or the Rules made under the Act or the rules made under Securities Contracts (Regulation) Act, 1956, or any other Act, or rules applicable in this behalf. The provisions of this Article shall mutatis mutandis apply to debentures of the Company.	**Issue of new certificates in place of those defaced, lost or destroyed.**
30.	(a) If any share stands in the names of two or more persons, the person first named in the Register shall as regard receipts of dividends or bonus or service of notices and all or any other matter connected with the Company except voting at meetings, and the transfer of the shares, be deemed sole holder thereof but the joint-holders of a share shall be severally as well as jointly liable for the payment of all calls and other payments due in respect of such share and for all incidentals thereof	**The first named joint holder deemed Sole holder.**

	according to the Company's regulations.	
	(b) The Company shall not be bound to register more than three persons as the joint holders of any share.	**Maximum number of joint holders.**
31.	Except as ordered by a Court of competent jurisdiction or as by law required, the Company shall not be bound to recognise any equitable, contingent, future or partial interest in any share, or (except only as is by these Articles otherwise expressly provided) any right in respect of a share other than an absolute right thereto, in accordance with these Articles, in the person from time to time registered as the holder thereof but the Board shall be at liberty at its sole discretion to register any share in the joint names of any two or more persons or the survivor or survivors of them.	**Company not bound to recognise any interest in share other than that of registered holders.**
32.	If by the conditions of allotment of any share the whole or part of the amount or issue price thereof shall be payable by instalment, every such instalment shall when due be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative.	**Instalment on shares to be duly paid.**
	UNDERWRITING AND BROKERAGE	
33.	Subject to the provisions of Section 40 (6) of the Act, the Company may at any time pay a commission to any person in consideration of his subscribing or agreeing, to subscribe (whether absolutely or conditionally) for any shares or debentures in the Company, or procuring, or agreeing to procure subscriptions (whether absolutely or conditionally) for any shares or debentures in the Company but so that the commission shall not exceed the maximum rates laid down by the Act and the rules made in that regard. Such commission may be satisfied by payment of cash or by allotment of fully or partly paid shares or partly in one way and partly in the other.	**Commission**
34.	The Company may pay on any issue of shares and debentures such brokerage as may be reasonable and lawful.	**Brokerage**
	CALLS	
35.	(1) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board. (2) A call may be revoked or postponed at the discretion of the Board. (3) A call may be made payable by instalments.	**Directors may make calls**
36.	Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.	**Notice of Calls**
37.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorising such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.	**Calls to date from resolution.**
38.	Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.	**Calls on uniform basis.**

40.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding 21% per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.	**Calls to carry interest.**
41.	If by the terms of issue of any share or otherwise any amount is made payable at any fixed time or by instalments at fixed time (whether on account of the amount of the share or by way of premium) every such amount or instalment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or instalment accordingly.	**Sums deemed to be calls.**
42.	On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, if shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, appears entered on the Register of Members as the holder, at or subsequent to the date at which the money is sought to be recovered is alleged to have become due on the share in respect of which such money is sought to be recovered in the Minute Books: and that notice of such call was duly given to the Member or his representatives used in pursuance of these Articles: and that it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.	**Proof on trial of suit for money due on shares.**
43.	Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.	**Judgment, decree, partial payment motto proceed for forfeiture.**
44.	(a) The Board may, if it thinks fit, subject to the provisions of the Act, receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the moneys so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at such rate as the member paying the sum in advance and the Board agree upon. The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' notice in writing: provided that moneys paid in	**Payments in Anticipation of calls may carry interest**

(b) No Member paying any such sum in advance shall be entitled to voting rights, dividend or right to participate in profits in respect of the moneys so paid by him until the same becomes presently payable. The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.	
	LIEN	
45.	The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Fully paid up Shares shall be free from all liens and in the case of partly paid shares the Company's lien shall be restricted to moneys called or payable at a fixed time in respect of such shares; Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.	**Company to have Lien on shares.**
46.	For the purpose of enforcing such lien the Directors may sell the shares subject thereto in such manner as they shall think fit, but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such member or the person (if any) entitled by transmission to the shares and default shall have been made by him in payment, fulfilment of discharge of such debts, liabilities or engagements for seven days after such notice. To give effect to any such sale the Board may authorise some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.	**As to enforcing lien by sale.**
47.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.	**Application of proceeds of sale.**
	FORFEITURE AND SURRENDER OF SHARES	
48.	If any Member fails to pay the whole or any part of any call or instalment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same, the Directors may, at any time thereafter, during such time as the call or instalment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or	**If call or instalment not paid, notice may be given.**

	instalment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment. Provided that no such shares shall be forfeited if any moneys shall remain unpaid in respect of any call or instalment or any part thereof as aforesaid by reason of the delay occasioned in payment due to the necessity of complying with the provisions contained in the relevant exchange control laws or other applicable laws of India, for the time being in force.	
49.	The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or instalment and such interest thereon as the Directors shall determine from the day on which such call or instalment ought to have been paid and expenses as aforesaid are to be paid. The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or instalment is payable will be liable to be forfeited.	**Terms of notice.**
50.	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or instalments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.	**On default of payment, shares to be forfeited.**
51.	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members.	**Notice of forfeiture to a Member**
52.	Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.	**Forfeited shares to be property of the Company and may be sold etc.**
53.	Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, instalments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so.	**Members still liable to pay money owing at time of forfeiture and interest.**
54.	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.	**Effect of forfeiture.**
55.	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.	**Evidence of Forfeiture.**
56.	The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of	**Title of purchaser and allottee of Forfeited shares.**

57.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a duplicate certificate or certificates in respect of the said shares to the person or persons entitled thereto.	**Cancellation of share certificate in respect of forfeited shares.**
58.	In the meantime and until any share so forfeited shall be sold, re-allotted, or otherwise dealt with as aforesaid, the forfeiture thereof may, at the discretion and by a resolution of the Directors, be remitted as a matter of grace and favour, and not as was owing thereon to the Company at the time of forfeiture being declared with interest for the same unto the time of the actual payment thereof if the Directors shall think fit to receive the same, or on any other terms which the Director may deem reasonable.	**Forfeiture may be remitted.**
59.	Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.	**Validity of sale**
60.	The Directors may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Directors may think fit.	**Surrender of shares.**
	TRANSFER AND TRANSMISSION OF SHARES	
61.	(a) The instrument of transfer of any share in or debenture of the Company shall be executed by or on behalf of both the transferor and transferee. (b) The transferor shall be deemed to remain a holder of the share or debenture until the name of the transferee is entered in the Register of Members or Register of Debenture holders in respect thereof.	**Execution of the instrument of shares.**
62.	The instrument of transfer of any share or debenture shall be in writing and all the provisions of Section 56 of the Act and statutory modification thereof including other applicable provisions of the Act shall be duly complied with in respect of all transfers of shares or debenture and registration thereof. The instrument of transfer shall be in a common form approved by the Exchange;	**Transfer Form.**
63.	The Company shall not register a transfer in the Company other than the transfer between persons both of whose names are entered as holders of beneficial interest in the records of a depository, unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee and specifying the name, address and occupation if any, of the transferee, has been delivered to the Company along with the certificate relating to the shares or if no such share certificate is in existence along with the letter of allotment of the	**Transfer not to be registered except on production of instrument of transfer.**

64.	Subject to the provisions of Section 58 of the Act and Section 22A of the Securities Contracts (Regulation) Act, 1956, the Directors may, decline to register— Subject to the provisions of these Articles and other applicable provisions of the Act or any other law for the time being in force, the Board may (at its own absolute and uncontrolled discretion) decline or refuse by giving reasons, whether in pursuance of any power of the Company under these Articles, applicable laws, or otherwise, to register or acknowledge any transfer of, or the transmission by operation of law of the right to, any securities or interest of a Member in the Company, after providing sufficient cause, within a period of (i) fifteen days, in case of transfer of shares, (ii) seven days in case of transmission of shares held in dematerialised form, or (iii) twenty one days in case of transmission of shares held in physical form, or such other time period as prescribed under applicable laws for transfer or transmission of securities, from the date on which the instrument of transfer, or the intimation of such transmission, as the case may be, was delivered to the Company. Provided that the registration of transfer of any securities shall not be refused on the ground of the transferor being alone or jointly with any other person or persons, indebted to the Company on any account whatsoever except where the Company has a lien on Shares. ;	**Directors may refuse to register transfer.**
65.	If the Company refuses to register the transfer of any share or transmission of any right therein, the Company shall within one month from the date on which the instrument of transfer or intimation of transmission was lodged with the Company, send notice of refusal to the transferee and transferor or to the person giving intimation of the transmission, as the case may be, and there upon the provisions of Section 56 of the Act or any statutory modification thereof for the time being in force shall apply.	**Notice of refusal to be given to transferor and transferee.**
66.	No fee shall be charged for registration of transfer, transmission, Probate, Succession Certificate and letter of administration, Certificate of Death or Marriage, Power of Attorney or similar other document with the Company.	**No fee on transfer.**
67.	The Board of Directors shall have power on giving not less than seven days pervious notice in accordance with Section 91 of the Act and rules made thereunder close the Register of Members and/or the Register of debentures holders and/or other security holders at such time or times and for such period or periods, not exceeding thirty days at a time, and not exceeding in the aggregate forty five days at a time, and not exceeding in the aggregate forty five days in each year as it may seem expedient to the Board.	**Closure of Register of Members or debenture holder or other security holders.**
