The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

3. Some events may not be material at present but may be having material impact in future.

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

Any percentage amounts, as set forth in **“Risk Factors”** on page 34 and **“Management Discussion and Analysis of Financial Condition and Results of Operations”** on page 228 of this Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the **“Financial Information of the Company”**.

INTERNAL RISK FACTORS

1. **Our business and revenue are substantially dependent on the Ministry of Railways, Government of India. Any adverse change in policy of the Ministry of Railways may lead to our contracts being foreclosed, terminated, restructured or renegotiated, which may have a material effect on our business and results of operations.**

Our business and revenues are substantially dependent on the Indian Railways. We provide services to the Ministry of Railways, Government of India, either through directly awarded contracts secured via competitive tendering or through pre-bid arrangements with various OEM’s. Revenue through direct contracts from railways for the period ending September 30, 2025

and financial year ended March 31, 2025, 2024 and 2023, accounted for 74.60%, 69.18%, 31.44% and 35.18% of our revenue from operations for the said period respectively and revenue from Pre-bid arrangements with various OEM's for the period ending September 30, 2025 and financial year ended March 31, 2025, 2024 and 2023, accounted for 25.40%, 30.82%, 68.56% and 64.82% of our revenue from operations for the said period respectively. We cannot assure you that we can maintain the historical levels of business from Indian Railways or from above mentioned OEMs or that we will be able to replace these in case we lose any of them. Furthermore, major events affecting our clients, such as changes in government policies or insufficiency of government funds (in case of railways), change of management, mergers and acquisitions in other cases could impact our business.

Our reliance on Indian Railways for our business exposes us to risks, that may include, but are not limited to, reductions, delays or cancellation of orders from our clients, failure to negotiate favourable terms or the loss of these clients, all of which could affect financial position and future prospects of our Company. We have not faced any past instance wherein we have been blacklisted by Government or Indian Railways, however, there are a number of factors, other than our performance, that are not predictable and could cause our business from the Indian Railways to reduce. Though we enter into definitive agreements with our clients which may range up to 3 years and may further be extended as per the requirements of the contract, the success of our business is dependent on maintaining good relationship with them. If we are not able to continue to receive orders in the manner we have in the past from the Indian Railways, it would have a material adverse effect on our results of operations and financial conditions. In the past, certain contractual agreements have been terminated or suspended due to performance related issues, and any similar occurrences in the future could adversely affect our business operations. In addition, during an economic downturn, many of our competitors may be more inclined to take greater or unusual risks or terms and conditions in a contract that we might not deem as standard market practice or acceptable. As a result, we are subject to the risk of losing new awards to competitors thereby adversely impacting our business growth, financial condition and results of operations. In addition, we are supposed to deposit Earnest Money and performance guarantees to Indian Railways which are released only after the completion of assigned work order. There is no guarantee that our client will honour outstanding amounts in time and whether will be able to fulfil its obligations, due to any financial difficulties, cash flow difficulties, or a downturn in the global economy. If such events or circumstances occur our financial performance and our operating cash flows may be affected.

For details related to revenue from business operations, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

2. Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

We are engaged in the business of executing various types of contractual railway projects and related services and manpower plays a key role for us in the delivery of essential services under various railway projects. We have a team of more than 1000 skilled and semi-skilled employees as on October 31, 2025 and our labour expenses for the period ended September 30, 2025 and financial year ending March 31, 2025, 2024 and 2023 amounted to Rs.183.01 lakhs, Rs. 511.55 lakhs, Rs. 249.24 lakhs and Rs. 81.87 Lakhs, respectively, which accounted for 9.45%, 12.97%, 8.24% and 3.16% of our total expenses for said periods respectively. We incur various employee benefits expense, including salaries and bonus, contribution to provident and other funds and staff welfare expenses and for the period ended September 30, 2025 and F.Y. ended March 31, 2025, March 31, 2024 and March 31, 2023 our employee benefits expense accounted to Rs. 852.93 Lakhs, Rs. 1107.24 Lakhs, Rs. 1092.39 Lakhs and Rs. 917.06 Lakhs, respectively, representing for 44.15%, 28.07%, 36.10% and 35.38%, respectively, of our total expense for the respective year. For further details, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

Our Company's performance depends on the continued service of our employees and workers or replacing them with equally capable persons. If we lose the services of any of these or other key individuals and are unable to find suitable replacements in a timely manner, our ability to realize our strategic objectives could be impaired. The attrition rate of the Company in FY 2022-23, 2023-24 and 2024-25 was approx. 10.29%, 55.06% and 31.75% respectively. We may also face challenges in retraining and redeploying our employees and workers to match new industry standards and changing client needs. So far, our operations have not been affected by strikes, work stoppages, or increased wage demands, however, if such issues arise in the future, they could negatively impact our business. The loss of our employees and workers, particularly to competitors, could have a material adverse effect on our business and results of operations. For further details for employees of our Company, kindly refer section titled “**Our Business**” beginning on Page 123 of this Prospectus.

3. *Currently, we are delivering our goods and services to Indian Railways across various zones. Any adverse developments impacting our operations in these zones could negatively affect our revenue and overall financial performance.*

We generate a notable portion of our revenue from operations from Central Railway Zone and for the period ended September 30, 2025 and financial year ended March 31, 2025, March 31, 2024 & March 31, 2023, we derived 22.22%, 37.76%, 65.90% and 70.53% of total revenue from operations, respectively from Central Railway Zone. Further, we derived 51.66%, 60.47%, 83.11% and 84.14% of total revenue from operations from top-3 zones, respectively, for the period ended September 30, 2025 and financial year ended March 31, 2025, March 31, 2024 & March 31, 2023. For details related to total revenue from operations, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

We have delivered our services across various zones in India including Central Railway, Western Railway, Eastern Railway, Northern Railway, North Eastern Railway, Northeast Frontier Railway, East Coast Railway, Southern Railway, South Central Railway, South Eastern Railway, North Western Railway etc. and we further seek to identify other untouched zones where we can provide with our goods and services. Our inability to expand into other areas may adversely affect our business prospects, financial conditions and results of operations.

4. *We conduct all our operations from our registered office and corporate office located in Mumbai, Maharashtra. Any materially adverse social, political, or economic developments, including civil disruptions in the state, may adversely impact our business operations.*

We carry our entire operations from our registered office and corporate office located at Mumbai, Maharashtra. Due to the geographical concentration of our registered office and corporate office at Maharashtra, our operations are prone to local, regional and environmental factors. Any materially adverse social, political or economic development, civil disruptions, or changes in the policies of the state government or central or local governments, may require a modification of our business strategy, or require us to incur significant capital expenditure or suspend our operations. Any such adverse development affecting continuing operations at our office could result in significant loss due to an inability to meet our sale orders and delivery schedules, which could materially affect our business reputation within the industry. Though no such events occurred in past, the occurrence of or our inability to effectively respond to any such events could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects.

5. *We have significant working capital requirements. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business, cash flows and results of operations.*

Our business requires significant working capital in connection with financing our inventory, providing performance guarantees which are generally maintained throughout the execution period of the project, providing earnest money deposits, purchase of materials etc. which may be adversely affected by changes in terms of credit and payment. We are required to maintain a high level of working capital as a large amount of our working capital is blocked in availing performance guarantee for our tenders, in trade receivables and inventories. Payments under ongoing purchase orders or of advance payments and/or accelerated payments to suppliers, fixed deposits to facilitate performance guarantees to our clients, making earnest money deposits could adversely affect our working capital, lower our cash flows and materially increase the amount of working capital to be funded. We may also be unable to adequately finance our working capital requirements on account of various factors, including extraneous factors such as delay in disbursements under our financing arrangements, increased interest rates, insurance or other costs, or borrowing and lending restrictions or finance our working capital requirements on commercially acceptable terms or at all, devolvement of our performance guarantees etc., each of which may have a material adverse effect on our business, financial condition, prospects and results of operations. Our working capital for the financial years ending 2023, 2024, 2025 and period ended September 30, 2025 amounted to Rs. 758.14 Lakhs, Rs. 709.41 Lakhs, Rs. 1987.98 Lakhs and Rs. 2613.15 Lakhs respectively. Continued increase in our working capital requirements may have an adverse effect on our financial condition and results of operations. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations.

For details, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 and “**Objects of the Issue**” beginning on page 93 of this Prospectus.

6. We do not own the registered office and corporate office from which we carry out our business activities. In case of nonrenewal of rent agreements or dispute in relation to use of the said premise, our business and results of operations can be adversely affected.

Our office from which we carry out our business activities, are being taken by us on rent. We do not own the registered office and corporate office from which we carry out our business activities. While we have taken the corporate office on rent, our registered office is owned by our Promoter, Tejas Lalit Mehta who has granted permission to use the said entity as the registered office through a no objection certificate (NOC). Though, there were no instances w.r.t. the revocation of NOC/ termination of lease agreements in past, any such event in future, may require us to vacate the said premises which may cause disruption in our corporate affairs and business and impede our effective operations which could temporarily impact on our business operations until we get suitable alternative premises. For details on the duration of existing rent/lease agreements for our premises, please refer to the section titled **“Our Business”** beginning on page 123 of this Prospectus.

There can be no assurance that we will, in the future, be able to renew the rent agreement or NOC for the existing locations on same or similar terms, or will be able to find alternate location for the registered and corporate office on similar terms favourable to us, or at all. We may also fail to negotiate the renewal of our rent agreement for our corporate office, either on commercially acceptable terms or at all, which could result in increased rental rates for subsequent renewals or searching of new location, affecting our financial condition and operations. In the event that the rent agreement is terminated or is not renewed on commercially acceptable terms, we may suffer a disruption in our business operations which could affect our business, financial condition and results of operations.

7. Our current order book value is not necessarily indicative of future growth. These orders that constitute our current order book could be cancelled, put in abeyance, delayed, modified, put on hold or not paid for by our client, which could adversely affect our financial condition.

Our business operations involve a lead time between allotment of work contract and its successful closeout & billing. We expend significant time and effort of our organization to ensure successful completion of our work contract. Even after expending significant time and effort we may not materialize an order which may consequently impact our business operations. As on December 12, 2025, we have an outstanding order book of 60 projects worth Rs. 14,378.01 Lakhs for Indian Railways comprising of various services. Although we have not encountered any past instances of order cancellations or orders being held in abeyance, certain contractual agreements have previously been terminated or suspended due to performance-related issues. We cannot assure you that such an event of cancellation of orders or orders being put in abeyance will not occur in future. Any potential disassociation with our clients in the future could adversely impact our ability to execute the existing order book.

Our order book value is neither an indicative of future growth nor is it a guarantee of future revenues. Further, our order book value is based on work orders which are considered firm orders. However, these orders may be exposed to several uncertainties, many of which are beyond our control, including cancellation, modification, withholding, partial or non-payment, or delays or suspensions in the implementation schedule. In the event our client renege on our work orders or payments terms, our anticipated revenues may not materialize and we may be required to seek recourse to dispute resolution mechanisms which could be time consuming and, or, expensive which could adversely affect our financial condition. While we expect our order book to translate into future revenues, we cannot assure you that such revenues will be realized on time or be profitable.

8. We have experienced negative operating cash flows in the past. Any operating losses or negative cash flows in the future could adversely affect our results of operations and financial conditions.

As per our Restated Consolidated Financial Statements, our cash flows are as set out below: -

(Rs. in lakhs)

Particulars	For the period/year ended			
	30-Sept-2025	31-Mar-25	31-Mar-24	31-Mar-23
Net cash from operating activities	241.27	(497.11)	(203.32)	(156.82)
Net cash flow from investing activities	11.73	1,657.56	(561.99)	(241.08)
Net cash flow from financing activities	(57.27)	(703.36)	534.20	649.52

Cash flow of a company is a key indicator to show the extent of cash generated to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. Any operating losses or negative cash

flows could adversely affect our results of operations and financial conditions. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

9. *The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.*

The deployment of funds as stated in the “**Objects of the Issue**” beginning on page 93 of this Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilized i.e. for meeting working capital requirements of the Company, have not been appraised by an independent entity and are based on our estimates and on third-party quotations. In the event, for whatsoever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds. In such a situation, in accordance with the Companies Act, 2013 and the SEBI ICDR Regulations, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Prospectus without obtaining the approval of shareholders of our Company through a special resolution. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations. Further, our Promoters would be required to provide an exit opportunity to the shareholders of our Company who do not agree with our proposal to modify the objects of the Issue, at a price and manner as prescribed by SEBI. Additionally, the requirement to provide an exit opportunity to such dissenting shareholders of our Company may deter our Promoters from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoter will have adequate resources at their disposal at all times to enable them to provide an exit opportunity. In light of these factors, we may not be able to vary the objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition, if any, which may adversely affect our business and results of operations.

10. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.*

The proposed fund requirement for our Working Capital requirements, as detailed in the section titled “**Objects of the Issue**” is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled “**Objects of the Issue**” beginning on page 93 of this Prospectus.

11. *Our business, growth prospects and financial performance largely depends on our ability to obtain new contracts, and there is no assurance that we will be able to procure new contracts.*

We actively participate in the competitive bidding process for various projects on an ongoing basis, with a focus on Railway maintenance. The Government of Railway typically awards contracts through a competitive bidding process, contingent upon meeting specified qualification criteria. Our bid to win ratio for the financial year ending March 31, 2025, 2024 and 2023 is 13.82%, 19.13% and 20.83% respectively. It is important to acknowledge that there is no guarantee of our ability to fulfil these criteria in the future, whether independently or in collaboration with joint venture partners. Furthermore, we cannot provide assurance that we will be chosen to bid on contracts for which we are qualified, or that our submitted bids, whether pending or already submitted, will be accepted. In case we face challenges in securing new contracts, it will have a significant and adverse impact on our business.

12. *Our Company is dependent on limited number of suppliers, within limited geographical locations for procurement of certain products as tools or consumables to be supplied to our clients. Any delay, interruption or reduction in the supply of such goods may affect our business, results of operations, cash flows and financial condition.*

We are dependent on third party suppliers for certain products to be used as tools or consumables. We source such material from various domestic suppliers. For the period ended September 30, 2025 and financial year ended March 31, 2025, 2024 & 2023, purchases from our top ten suppliers amounted to Rs. 1306.69 lakhs, Rs. 1287.57 Lakhs, Rs. 2203.14 Lakhs and Rs. 1386.40 Lakhs respectively, which represented 94.76%, 90.85%, 91.33% and 87.50% of our total material purchases, respectively, for the said period. We do not have any long-term supply contracts with these suppliers and therefore, we cannot assure that we shall always have a steady supply of material at prices favorable to us.

Any disruption of supply of materials from such suppliers could adversely impact our business if we are unable to replace such suppliers in a timely manner. We cannot assure you that we will be able to enter into new arrangements with suppliers on terms acceptable to us, which could have an adverse effect on our ability to source materials in a commercially viable and timely manner, if at all, which may impact our business and profitability.

Additionally, we source our material requirements indigenously. Major portion of our purchases of materials for the period ended September 30, 2025 and financial year ended March 31, 2025, 2024 and 2023 is from the state of Maharashtra which is 91.89%, 68.22%, 96.14% and 95.17% of the total purchases of material, respectively, for the said period. Our cost of materials consumed constituted a significant component of our expenditure and in the period ended September 30, 2025 and financial year ending March 31, 2025, 2024 and 2023 the same were Rs. 1378.92 lakhs, Rs. 1417.26 Lakhs, Rs. 2412.22 lakhs and Rs. 1584.42 lakhs respectively, which constituted 71.37%, 35.93%, 79.72% and 61.13%, respectively, of our total expenses. For details related to purchases of raw material, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

Though, there have been no past disruptions in the supply of tools or consumables from the state of Maharashtra to the Company, any inadequate supply of required material or stock caused either by a sudden change in the prices or imposition of any new taxes or loss of any of our existing major vendors for any reason or any adverse change in the policies of Central/State Government may affect the availability of such material which could have a material adverse effect on our business operations and profitability. Further, any materially adverse social, political or economic development, civil disruptions or changes in the policies of the state government or local governments may affect our continuing business operations which could materially affect our business reputation within the industry. If we cannot fully offset increases in the cost of materials, through increases in the prices for our products, we would experience lower margins and profitability, which would have a material adverse effect on our financial condition and results of operations. Our ability to remain competitive, maintain costs and profitability depend, in part, on our ability to source and maintain a stable and sufficient supply of raw materials at acceptable prices. Further, discontinuation of such supply or a failure of these suppliers to adhere to the delivery schedule or the required quality could hamper our production schedule and therefore affect our business and results of operations.

If we were to experience a significant or prolonged shortage of material from any of our suppliers and we cannot procure such material from other sources, we would be unable to meet the demand for our products and to deliver such products to our clients in a timely manner, which would adversely affect our sales, margins and relations. Further, our Company has outstanding dues of trade payables for the period ending September 30, 2025 and Fiscal years ending 2025, 2024 and 2023 of Rs. 1687.77 Lakhs, Rs. 824.14 lakhs, Rs. 1019.43 Lakhs and Rs. 637.00 lakhs respectively for the said period.

For details related to outstanding trade payables, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

13. We are subject to strict quality requirements and client inspections, and any failure to comply with quality standards may lead to cancellation of existing and future orders and could negatively impact our reputation and our business and results of operations and future prospects.

We are engaged in the business of executing various types of contractual railway projects and related services. Given the nature of our services and the sector in which we operate, our clients have high standards for quality of products or components which are utilized in the delivery of our contractual railway projects and associated delivery schedules. The tools and components to be utilized are generally pre-determined and are required to meet specified quality standards which are supplied after RITES (Rail India Technical and Economic Service) inspection, however, as per the requirements of the project the material is also procured from the open market or from our OEMs,

As part of quality assurance requirements, if specified in the tenders, the Company shall deploy Qualified Graduate Engineer(s) or equivalent personnel, failing which, a penalty shall be applicable. Adherence to quality standards is a critical factor as a defect in products or services provided by our Company or failure to comply with the specifications of our clients may, in turn, lead to the faulty end products or services. If the material procured from the open market or OEMs does not meet the required quality standards, it may have a negative impact on the business or reputation of the Company. This may lead to cancellation of orders by our clients and at certain instances may impose additional costs in the form of damages or penalties. Further our processes are exposed to regular inspection by our clients to ensure that their internal standards are appropriately met. Any non-compliance observed during inspection may have an adverse impact on our business, financial condition, results of operations and future prospects.

14. Tender are typically awarded to us on satisfaction of prescribed pre- qualification criteria and following a competitive bidding process. Our business and our financial condition may be adversely affected if new projects are not allotted to us.

Open Tenders typically have two bidding systems. One is technical bid and another is financial bid. Technical bid cover technical ability ageing, years of experience, size of man power, Quality certifications, past performance, reputation for quality, safety record and size of previous contracts/projects in similar projects. Financial bid cover financial strength, financials for the previous three (3) years, turnover, net worth, solvency certificates etc. Price bid is also made with technical & financial bidding. However, price competitiveness still is a significant selection criterion.

This technical and sufficiency of financial resources are important considerations in awarding contracts, there can be no assurance that we would be able to meet such technical and financial qualification criteria. Further, once prospective bidders satisfy the prequalification requirements of the tender, the project is usually awarded on the basis of price competitiveness of the bid. We generally incur significant costs in the preparation and submission of bids, which are onetime non-reimbursable costs. The ratio of such tender charges varies depending on the nature of the project and the procurement platform. For instance, when tenders are submitted through the Government e-Marketplace (GeM) portal, tender charges amount to 0.30% of the order value for orders exceeding Rs. 10 lakhs but less than Rs. 10 crores. For orders valued at Rs. 10 crores or above, the tender charges are fixed at Rs. 3.00 lakhs. Conversely, when tenders are applied through the Indian Railways E-Procurement System (IREPS) portal, the tender charges vary from nil to Rs. 0.10 lakhs, depending on the specific tender conditions. We cannot assure you that we would be bidding for projects, where we are pre-qualified to submit a bid, or that our bids, when submitted or if already submitted, would result in projects being awarded to us. For the period ended September 30, 2025 and financial year ending March 31, 2025, 2024 and 2023 expenses related to Tender charges were Rs. 5.33 lakhs, Rs. 4.58 lakhs, Rs. 4.69 lakhs and Rs. 4.64 lakhs respectively.

15. As an integral aspect of our business operations, it is necessary for us to provide Security deposit and performance guarantees. Failing to secure these guarantees or the activation of such guarantees has the potential to negatively impact our cash flows and financial standing.

In alignment with industry norms for the fulfilment of contractual obligations for our contracts, generally we are required to provide Earnest Money Deposits along with Security Deposit & Performance guarantee to Indian Railways. The amount of Earnest Money Deposits, to be provided by the Company at the initial stage of work contract, accounts for approximately 2 percent of contract value if value of contract is upto Rs. 1 crore and if the value of contract is more than Rs. 1 crore the earnest money deposit shall be Rs.2 lakhs plus half percent of the excess of the cost of work beyond Rs. 1 crore, subject to a maximum of Rs. 1 crore. Further, we are required to furnish performance guarantees in the form of fixed deposits and along with the same in some cases, client also holds some amount as security deposits at the time of final bill. The amount of Performance Guarantee and Security Deposits together shall be up to 10% of the total value of the work orders. The amount of EMD & Performance Guarantee is required to be furnished upon receipt of purchase orders and the amount of Security Deposits is deducted from the final bill. This is generally retained by our client till the Defect Liability Period of the Projects, which generally varies from 1-3 years or such extended period as defined in the specific work orders. Typically, these guarantees and deposits are issued to the pertinent authorities with whom contractual arrangements for our contracts have been established. However, a potential challenge lies in consistently securing new performance guarantees in quantities commensurate with our operational requirements. Difficulties in providing sufficient collateral in the form of fixed deposits to underpin these guarantees may impede our capacity to enter into new contracts and procure essential supplies.

Our inability to arrange such deposits and guarantees or the invocation of such guarantees may adversely affect our cash flows and financial condition. If we are unable to provide required security deposits or sufficient collateral to secure the performance guarantees, our ability to procure new purchase orders could be limited and could have a material adverse effect on our business, results of operations and financial condition. Providing security to obtain performance guarantees also increases our working capital requirements. The invocation of such guarantees in relation to our purchase orders or forfeiture of security deposits could have an adverse effect on our business, results of operation, and financial condition.

For details, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

18. Inventories and trade receivables form a major part of our current assets. Failure to manage our inventory and trade receivables could have an adverse effect on our sales, profitability, cash flow and liquidity.

Our Company's business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets. The results of operations of our business are dependent on our ability to effectively manage our inventory (purchases of material) and trade receivables. To effectively manage our inventory, we must be able to accurately estimate client's demand / potential orders and supply requirements and purchase new inventory accordingly. However, if we misjudge expected demand / potential orders, it could cause either a shortage of products or an accumulation of excess inventory. During the period ended September 30, 2025 and FY 2024-25, 2023-24 and 2022-23, our inventories were Rs. 866.38 lakhs, Rs. 212.52 Lakhs, Rs. 912.46 lakhs and Rs. 104.22 lakhs, respectively.

Further, a significant portion of our Company's working capital is tied up in trade receivables due to the nature of the billing cycle. Delays in recoveries and / or write offs could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. During the period ended September 30, 2025 and FY 2024-25, 2023-24 and 2022-23 our trade receivables were Rs. 2411.67 lakhs, Rs. 2098.07 Lakhs, Rs. 587.39 lakhs and Rs. 474.73 lakhs, respectively. In the past three years, we have incurred bad debts amounting to Rs. 0.37 lakhs in FY 2022-23 amounting to 0.014% of total revenue from operations in said year and there is no assurance that similar losses will not occur in the future. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

For details related to inventory and trade receivables, kindly refer section titled "**Financial Information of the Company**" beginning on Page 174 of this Prospectus.

19. Our company has not complied with certain statutory provisions of the Companies Act, 2013. Our Company has not complied with certain provisions of the Companies Act, 2013, which inter-alia includes non-filing of Form CHG-1 for registration of a charge created in connection with an overdraft facility against a fixed deposit, which constituted a technical non-compliance under Section 77 of the Companies Act, 2013. However, the overdraft facility secured against the fixed deposit has been closed by the Company. Further, the Company had not prepared consolidated financial statements for the financial years 2018-19 to 2023-24 in respect of its joint ventures. The Company has since rectified this by preparing audited consolidated financial statements, which were duly approved by the Board of Directors on September 16, 2025 and have been incorporated in the Restated Consolidated Financial Statements included in this Prospectus.

Although, no show cause notice in respect of the non-compliance has been received by the Company till date, any penalty imposed for such noncompliance in future by the any regulatory authority could affect our financial conditions to that extent. In case of any action being taken by the regulatory authorities against the Company and/or its officers, the same may have an adverse effect on our business and reputation.

Since such Joint venture have been formed to engage in similar line of business and our promoter group entity is also engaged in similar line of business, potential conflicts of interest while availing business opportunities may arise.

However, our Company will ensure necessary procedures and practices as permitted by laws and regulatory guidelines to address situations of conflict of interest as and when they arise. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

Any denial, suspension or revocation of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

23. Compliance with, and changes in, safety, health and environmental laws and labour regulations may adversely affect our business, prospects, financial condition and results of operations.

Our operations are subject to central, state, and local laws and regulations relating to the protection of the environment and occupational health and safety, including those governing the generation, handling, storage, use, management, transportation and disposal of, or exposure to, environmental pollutants or hazardous materials resulting from our business processes. Due to the nature of our business, along with extensive and increasingly stringent environmental, health and safety laws and regulations, various labour related laws and regulations are also applicable on us.

The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of facilities for non-compliance, other liabilities and related litigation. 24. Contracts with our clients and purchase orders placed with our clients typically include provisions for liquidated damages and penalties which if invoked, could have an adverse effect on our business, result of operations and financial condition.

Contacts and purchase orders entered with Indian Railways, typically include provisions for liquidated damages and imposing penalties or warranty claims in the event of inadequacy in performance of our obligations pursuant to these purchase orders. In past we have been charged with damage expenses and penalty expenses from Indian railways for inadequacy in performance of our work orders. For instance, Indian Railways has imposed penalty expenses on us amounting to Rs. 25.00 lakhs, Rs. 86.47 lakhs, Rs. 8.40 Lakhs and Rs. 15.19 lakhs for the period ended September 30, 2025 and FY 2024-25, 2023-24 & 2022-23 respectively. For details, kindly refer section titled “**Financial Information of the Company**” beginning on Page 174 of this Prospectus.

Accordingly, any failure at our end to deliver the services as expected by our clients could expose us to warranty claims, indemnities and cancellation of existing and future orders without liability. We cannot assure you that liquidated damages or penalties will not be imposed or performance guarantees will not be invoked in the event of inadequate performance or non-performance or delay in performance of our obligations under these contracts and purchase orders.

25. Registration of the trademarks which we are using for our business is under process and is yet to be received. We may be unable to protect our intellectual property or knowhow from third party infringement which could harm our brand and services.

We have not registered the trademark  which we are using for our business. Even though, we have filed the application for registration of trademark vide application no 7249757 dated September 22, 2025 before the Registrar of Trademarks, we do not have any control over the registration of the trademark and same may also be opposed by third parties that claim to have prior or superior rights. Such actions are not within our control and can severely impact business and may result in requirement to undertake rebranding exercises, all of which result in additional costs for us and could also impact our reputation. We routinely monitor third party trademarks, including domain names, by keeping a check on the use of our trademarks. However, it is possible that we are not aware of misuse of our trademarks and this could potentially cause loss of our reputation, which could impact our business and may even affect our goodwill. The use of a deceptively similar or identical third-party mark may result in a loss/injury to us. Such an action may also become a lengthy and costly exercise for us and may not always be in our favour.

Additionally, there is the risk of inadvertently infringing on the IP rights of other companies, which could result in costly lawsuits and financial penalties. These legal challenges not only threaten our financial stability but could also damage our reputation and disrupt business operations. For further details on above and other trademarks, please refer to chapter titled “**Our Business**” beginning on page 123 of this Prospectus.

If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations.

For the details of the cases please refer the chapter titled “**Outstanding Litigations and Material Developments**” on page 238 of this Prospectus.

27. Our historical performance is not indicative of our future growth or financial results and we may not be able to sustain our historical growth rates.

Our business has experienced significant growth in prior periods. Our revenue from operations has increased from Rs. 2660.11 lakhs in financial year 2022-23, to Rs. 3146.84 Lakhs and Rs. 4448.42 Lakhs in Financial Years 2023-24 and 2024-25 respectively and our Profit after tax has increased from Rs. 106.42 lakhs in FY 2022-23 to Rs. 296.78 Lakhs and Rs. 652.78 lakhs in FY 2023-24 and 2024-25 respectively. We cannot assure you that we will be able to sustain the levels of revenue and profit growth that we have had in the past. Further, a number of our strategic initiatives are in initial stages. While we may experience initial success with such initiatives, there is no assurance that these will succeed in the long term.

28. Adverse publicity regarding our products and services could negatively impact us and may cause the Company substantial costs which in turn could adversely affect our goodwill and our sales could be diminished.

Like any other business our business also relies on our service quality which enables us to gain client trust. Adverse publicity regarding any of our products and services or similar products marketed or sold by others could negatively affect us. Though we have not faced any such adverse publicity in past, if any studies raise or substantiate concerns regarding the efficacy or safety of our products or other concerns, our reputation could be harmed and demand for our products & services could diminish, which could have a material adverse effect on growth in new clients and sales of our product & services, leading to a decline in revenues, cash collections, and ultimately our ability to meet operating cash flow requirements. We currently carry no service liability insurance with respect to our services. Although we attempt to maintain quality standards, we cannot assure that all our services would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

29. Any disproportionate increase in labour costs including increase in wage/salary demand, labour unrest or labour claims arising from accidents may adversely affect our business operations and financial conditions.

Our increasing business operations may require our employee strength to increase in future. In the past our Company has not experienced any labour unrest, but there is no assurance that it will not experience the same at any time in the future. Also, there is a possibility that the labour costs increase disproportionately due to increase in wage/salary demand. In this event, if our Company is unable to pass on the increased costs to our clients, our business operations and financial conditions may be adversely affected.

30. We are heavily dependent on our Promoters and Key Managerial Personnel for the continued success of our business through their continuing services and strategic guidance and support.

Our success heavily depends on the efforts and abilities of our Promoters, along with support of our Key managerial personnel. We are dependent on our Promoters and Key Managerial Persons to manage our current business operations. The loss of any of our Promoter and/or Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an

adverse effect on us. The loss of service of the Promoter and/or Key Managerial Personnel may lead to loss of technical knowledge which may materially and adversely impact our business, results of operations, and financial condition. For further details of our Directors and Key Managerial Personnel, please refer to Section **“Our Management”** on page 151 of this Prospectus.

31. One of the natures of our business model from government /tenders exposes us to liability claims and contract disputes and our indemnities may not adequately protect us. Any liability in excess of our reserves or indemnities could result in additional costs, which would reduce our profits.

Time is the essence in our projects. We typically enter into contracts with government, which provide for liquidated damages for time overruns and which may range up to 3 years and further be extended as per the requirements of the contract. In the event there are delays in our current or future orders and we are unable to receive extensions from our clients, we may be exposed to late delivery charges, liquidated damages and termination apart from entailing significant cost and time overruns. Further, the contracts generally include provisions permitting our clients to terminate the agreement at their convenience and if contracts are terminated prematurely, Company may not receive payments otherwise due to company which may result in a material adverse effect on business, financial condition and results of operations.

We are generally required to furnish performance guarantees to our contractors. In the event we fail to perform under the terms of a contract, such performance guarantee may be called upon by our client, which could adversely affect our financial condition and results of operations. Failure to effectively cover ourselves against any of these reasons could expose us to substantial costs and potentially lead to material losses. In addition, if there is a client dispute regarding our product or deliveries, it may delay or withhold payment to us. In the past, certain contractual agreements have been terminated or suspended due to performance related issues. Faults in technical specifications might also lead to order rejection or modification, which may not be foreseen.

32. Technology failures or Cyber-attacks or other security breaches could have a material adverse effect on our business, results of operation or financial condition.

IT systems are critical to our ability to manage our operations. Our IT systems enable us to coordinate our operations, from planning, material ordering, invoicing, delivery, client relationship, management and decision support. If we do not allocate and effectively manage the resources necessary to build and sustain the proper IT infrastructure, we could be subject to transaction errors, processing inefficiencies, client service disruptions and, in some instances, loss of clients.

We face cyber threats, threats to the physical security of our facilities and employees, the potential for business disruptions associated with IT failures, natural disasters, or public health crises. We have installed anti-virus software to prevent our systems and infrastructure from being infected and crippled by computer viruses. All our internet facing servers installed at all our data centres as well as at all our offices are also secured with firewalls and intrusion preventions systems to prevent hacking. Even though we have always been cautious in managing our IT system and have not faced any cyber threats, technology failure or other security breaches in past, if we are unable to protect sensitive information in future, our clients could question the adequacy of our threat mitigation and detection processes and procedures. Due to the evolving nature of these security threats, the impact of any future incident cannot be predicted.

33. Failure to recover adequately on claims against our work contract for payment could have a material adverse effect on us.

We occasionally bring claims against our work contract for additional cost exceeding the contract price or for amounts not included in the original contract price. These types of claims occur due to matters such as delays or changes from the initial project scope, which result in additional cost, both direct and indirect. Often, these claims can be the subject of lengthy arbitration or litigation proceedings, and it is often difficult to accurately predict when these claims will be fully resolved. When these types of events occur and unresolved claims are pending, we may invest additional working capital in projects to cover cost overruns pending the resolution of the relevant claims. A failure to promptly recover on these types of claims could have a material adverse impact on our liquidity and financial results.

34. We propose to repay or prepay all or a portion of certain outstanding borrowings availed by our Company from the Net Proceeds of the Issue, and there can be no assurance that such repayment or prepayment will improve our financial condition or result in any significant benefit to our Company.

As disclosed in the Objects of the Issue, a portion of the Net Proceeds is proposed to be utilized for the repayment or prepayment, in full or in part, of certain borrowings availed by our Company. While we believe this will help reduce our interest burden and improve our leverage position, there can be no assurance that such repayment or prepayment will lead to any significant improvement in our financial condition or operational flexibility. Further, early repayment may result in the loss of existing credit lines or prepayment penalties, and we may need to incur additional debt in the future to meet our working capital or expansion needs. Any such future borrowings may be on terms less favourable than our existing arrangements. Accordingly, there is no guarantee that the intended use of proceeds towards debt reduction will result in long-term financial or strategic benefits for our Company.

35. We have incurred indebtedness which exposes us to various risks which may have an effect on our business and results of operations. Further, we are required to comply with certain restrictive covenants under our financing agreements and any non-compliance may lead to, amongst others, accelerated repayment schedule and suspension of further drawdowns, which may adversely affect our business, results of operations, financial condition and cash flows.

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on September 30, 2025, our total outstanding indebtedness was Rs. 2128.59 lakhs

Our significant indebtedness in future may result in substantial amount of debt service obligations which could lead to:

- a) increasing our vulnerability to general adverse economic, industry and competitive conditions;
- b) limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- c) affecting our credit rating;
- d) limiting our ability to borrow more money both now and in the future; and
- e) increasing our interest expenditure and adversely affecting our profitability.

If the loans are recalled on a shorter notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of these events may have an effect on our cash flow and financial conditions of the company.

Further, we have availed credit facilities with banks to meet our working capital requirements which contain specific covenants which require us to obtain the prior approval/ permission from the banks on the occurrence of certain events such as formulation of any scheme of amalgamation or reconstruction, undertaking of any new project or expansion, making any substantial change in our management set up, any change in our capital structure resulting in reduction of capital, etc. While we have obtained necessary consents from our lenders for the Issue, there can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details regarding our indebtedness and other banking facilities, please see **“Statement of Financial Indebtedness”** on page 226 of this Prospectus.

36. We operate in a competitive business environment. Failure to compete effectively against our competitors and new entrants in the industry in any of our business segments may adversely affect our business, financial condition and results of operations.

The industry in which we operate is unorganized, competitive and fragmented in India. Manpower, financial position, having more experience, technical viability are the key factors among competitors in this industry. For further details of our competitors, please see **“Our Business – Competition”** on page 123 of this Prospectus. We compete on the basis of our ability to fulfil our obligations for the secured purchase order including the quality and the timely delivery of the products and services. Additionally, while these are important considerations like: vendor approval registration, eligibility qualifications, price is a major factor in most tender / bid awards and our business is subject to price competition. Our competitors may have substantially greater financial, management, research and marketing resources than we have as a result of which they may be able to utilise their resources and economies of scale to develop improved products, divert sales away from us by winning larger orders or they may hire our employees by offering more lucrative compensation packages. Our failure to compete effectively with respect to any of these or other factors could have a material adverse effect on our business, prospects, financial condition or operating results. In such a scenario, we may find difficulties in maintaining our position in the market.

37. Our contingent liabilities as stated in our Restated Consolidated Financial Statements could affect our financial condition.

Except as mentioned below, there are no other Contingent Liabilities of the Company as at and for the period ended September 30, 2025 and for the Financial Years ended on March 31, 2025, March 31, 2024 and March 31, 2023:

Rs. in Lakhs

Particulars	As at			
	30-Sept-25	31-Mar-25	31-Mar-24	31-Mar-23
Contingent liabilities in respect of:				
TDS Defaults with respect to Delay filing fee, Short Deduction and Interest thereon	2.44	2.75	1.79	0.95
Income Tax Outstanding Demand	1.04	1.03	-	-
Total	3.49	3.78	1.79	0.95

For further details of the contingent liabilities and commitments of our Company see **Annexure-AE** of “**Restated Consolidated Financial Information**” on page 220 of this Prospectus. If a significant portion of these liabilities materialize, fully or partly, it could have an effect on our results of operations and financial condition. Further, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

38. Certain of our investments may be subject to market risk and we have not made any provisions for a possible decline of the value of such investments.

We have made certain unquoted investments amounting to Rs.25.67 lakhs as on September 30, 2025. The value of these investments depends on several factors which are beyond our control, including the prevailing Indian and international economic conditions, inflationary expectations etc. Any decline in the value of these investments could affect our financial condition and results of operations. For details, please refer to **Annexure J–Restated Statement of Non-Current Investments** under Section titled “**Financial Information of the Company**” on page 174 of this Prospectus.

39. We are subject to the risk of failure of, or a material weakness in, our internal control systems.

We are exposed to risks arising from the inadequacy or failure of internal systems or processes, and any actions we may take to mitigate these risks may not be sufficient to ensure an effective internal control environment. Given our high volume of transactions, errors may be repeated or compounded before they are discovered and rectified. Our management information systems and internal control procedures may not be able to identify non-compliance or suspicious transactions in a timely manner, or at all. Though no material weakness in our internal control system has been faced in past, if internal control weaknesses are identified in future, our actions may not be sufficient to fully correct such weaknesses. In addition, several of our collection related processes are yet to be fully automated, which may increase the risk that human error, tampering or manipulation will result in losses that may be difficult to detect. As a result, we may incur expenses or suffer monetary losses, which may not be covered by our insurance policies and may result in a material effect on our business, financial condition and results of operations.

40. If we are not able to successfully manage our growth effectively, our business, future financial performance and results of operations could be materially and adversely affected.

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. As part of our growth strategy, we aim to, among other things, continue to grow our businesses as and when opportunities exist including by Continuing to strengthen our existing product and service portfolio with attractive growth and profitability prospects, to leverage the Government's policy and budget relating to our business, to strive for cost efficiency, attracting and retaining talented employees and focusing on consistently meeting quality standards.

This could place significant demands on our operational, credit, financial and other internal risk controls. In pursuing our growth strategy, we will require additional capital investments and cash outlays, which may have a material impact on our cash flows and results of operations. Our operating expenses and capital requirements may increase significantly pursuant to our expansion and diversification plans. Our ability to manage our growth effectively requires us to forecast accurately our sales, growth and to expend funds to improve our operational, financial and management controls, reporting systems and procedures. An inability to implement our future business plan, manage our growth effectively or failure to secure the required funding on

favourable terms or at all could have a material and adverse effect on our business, future financial performance and results of operations.

41. *Our actual results could differ from the estimates and projections used to prepare our financial statements.*

The estimates and projections are based on and reflect our current expectations, assumptions and/ or projections as well as our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance will prove to be correct or that any of our expectations, estimates or projections will be achieved.

42. *Loans availed by Our Company has been secured on personal guarantees of our directors.*

Our directors namely Tejas Lalit Mehta and Jagruti Tejas Mehta have provided corporate/personal guarantee to secure a portion of our existing borrowings taken from the banks and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal/corporate guarantees provided by the aforesaid may be invoked which could negatively impact their reputation and net worth. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer “**Statement of Financial Indebtedness**” on page 226 of this Prospectus.

43. *We are dependent on third party transportation providers for the delivery of material and the provision of our services. Accordingly, continuing increases in transportation costs or unavailability of transportation services for them, as well the extent and reliability of Indian infrastructure may have an adverse effect on our business, financial condition, results of operations and prospects.*

We rely on third-party transportation providers for the delivery of materials and the provision of our services. Consequently, transportation strikes or disruptions could adversely affect the timely receipt of materials and hinder our ability to deliver products.

In addition, transportation costs in India have been steadily increasing over the past several years. Continuing increases in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business, financial condition, results of operations and prospects.

In addition, India’s physical infrastructure is less developed which may create problems like road networks, communication systems or any other public facility could disrupt our normal business activity, including the delivery of our products. These problems, though not encountered in past, could interrupt our business operations in future, which could have a material adverse effect on our results of operations and financial condition.

44. *Our Company has unsecured loans which are repayable on demand. Any demand from lenders for repayment of such unsecured loans may adversely affect our cash flows.*

Our Company has availed unsecured loans which may be recalled by lenders at any time with or without the existence of an event of default, on short or no notice. As of September 30, 2025, such loans amounted to Rs. 1,036.70 lakhs.

In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. As a result, any such demand may materially affect our business, cash flows, financial condition and results of operations. For further details, please see the section entitled “**Statement of Financial Indebtedness**” on page 226 of this Prospectus.

45. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Company.*

Our Company is engaged in the business of executing various types of contractual railway projects and related services which attracts tax liability such as Goods and Service tax and Income tax as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund, ESI and Professional Tax. During the past, our Company has delayed payments of statutory dues such as the depositing of GST, Professional Tax, ESI and provident fund

contributions. Such delays were mainly on account of technical glitches in the regulatory website and sometimes due to delay in preparation of information required for filing such return by the Company.

We have taken all the necessary approvals and deposited the required returns and taxes, along with applicable interest, under various applicable Acts and have also appointed Chief Financial Officer to oversee such compliance matters, but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of the Company.

Some instances of delay related to statutory compliances in the past are as follows:

Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

52. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, working capital requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholder’s investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “**Dividend Policy**” on page 173 of this Prospectus.

53. Employee misconduct or failure of our internal processes or procedures could harm us by impairing our ability to attract and retain clients and subject us to significant legal liability and reputational harm.

Our business is exposed to the risk of employee misconduct or the failure of our internal processes and procedures. For example, misconduct by employees could involve the improper use or disclosure of confidential information, which could result in costly litigation and serious reputational or financial harm. While we strive to monitor, detect and prevent fraud or misappropriation by our employees, through various internal control measures and internal policies and have not faced any such instance in past, the precautions we take to prevent and detect such activity may not be effective in all cases and we may be unable to adequately prevent or deter such activities in all cases.

In addition, we may be subject to regulatory or other proceedings, including claims for alleged negligence, in connection with any such unauthorized transaction, fraud or misappropriation by our employees, which could adversely affect our reputation, business prospects and future financial performance.

54. Any future issuance of Equity Shares, convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

55. *Our Promoters and the Promoter Group will jointly continue to retain majority shareholding in our Company after the issue, which will allow them to determine the outcome of the matters requiring the approval of shareholders*

Our Promoters and the Promoter Group holds 98.33% of shareholding as on the date of Prospectus and 72.36% of shareholding Post the Issue. They will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. For further information, please refer to the chapters/section titled “**Our Business**”, “**Our Promoter & Promoter Group**” and “**Annexure – AB - Related Party Transactions**”, beginning on pages 123, 168 and 216 respectively of this Prospectus.

58. *The estimates and forward-looking statements as provided in this Prospectus may prove to be inaccurate and actual results may differ from such estimates and forward-looking statements.*

This Prospectus contains forward-looking statements and estimates that are based on management’s current expectations, assumptions and projections about future events. These assumptions may prove to be inaccurate and actual results may differ materially from those expressed or implied. Factors such as market conditions, regulatory changes, competitive developments, operational challenges, economic uncertainties and other external influences may impact our performance. Many of these factors are beyond our control and may cause deviations from our projections. As a result, our estimates may not be reliable indicators of future performance. Inaccurate forward-looking statements may also affect investor expectations. Such variances could adversely impact our business, financial condition, and results of operations. Prospective investors are therefore cautioned not to place undue reliance on these forward-looking statements.

59. The determination of the Price Band is based on various factors and assumptions, and the Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.

The determination of the Price Band is based on various factors/ assumptions and will be determined by our Company in consultation with the BRLMs. Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the BRLMs through the Book Building Process. The Issue Price will be based on numerous factors, including the factors described in “**Basis for Issue Price**” on page 103 of this Prospectus and may not be indicative of the market price for the Equity Shares after the Issue.

The market price of the Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. In addition, the stock market often experiences price and volume fluctuations that are unrelated or disproportionate to the operating performance of a particular company. These broad market fluctuations and industry factors may materially reduce the market price of the Equity Shares, regardless of our Company’s performance. As a result of these factors, there can be no assurance that the investors will be able to resell Equity Shares at or above the Issue Price resulting in a loss of all or part of the investment.

60. The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

61. We may be subject to surveillance measures, such as the Additional Surveillance Measures (ASM) and the Graded Surveillance Measures (GSM) by the Stock Exchanges which may adversely affect trading price of our Equity Shares.

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility.

On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the Offer due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are subject to such pre-emptive surveillance measures implemented by any of the Stock Exchanges, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

62. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of National Stock Exchange of India Limited in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. In accordance with current regulations and circulars issued of SEBI, our Equity Shares are required to be listed on the Emerge Platform of National Stock Exchange of India Limited within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

There is no guarantee that we will be able to meet all new regulatory requirements effectively. Non-compliance with updated statutes or regulations could lead to delays in obtaining approvals. Additionally, failure to adhere to the conditions attached to approvals, licenses, registrations, and permissions could result in regulatory bodies suspending, curtailing, or revoking our ability to market those products.

63. Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, IFRS and U.S. GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our restated summary statements of assets and liabilities, restated summary statements of profit and loss and cash flows for the period ended September 30, 2025 and for the financial year ended on March 31, 2025, 2024 & 2023 have been prepared in accordance with the Indian GAAP. We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. Ind AS, US GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Consolidated Financial Information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

64. Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. While we are required to complete Allotment, listing and commencement of trading pursuant to the Issue within three (3) Working Days from the Bid/ Issue Closing Date, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Issue or may cause the trading price of our Equity Shares to decline on listing.

EXTERNAL RISK FACTORS:

65. Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Recent developments in the ongoing conflict between Russia and Ukraine has resulted in and may continue to result in a period of sustained instability across global financial markets, induce volatility in commodity prices, increase

borrowing costs, cause outflow of capital from emerging markets and may lead to overall slowdown in economic activity in India. In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries.

66. A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by Centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. Further, there have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

67. Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, man-made disasters, including acts of war, terrorist attacks, environmental issues and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations.

Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares.

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

68. Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. For further details, please refer to the chapter "**Government and Other Approvals**" on page 245 for details of the laws currently applicable to us. The governmental and regulatory bodies in India and other jurisdictions where we operate may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, or impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, financial condition, results of operations and cash flows.

In addition, unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and investments in our Company by non-residents, could result in us being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. Tax and other levies imposed by the central and state governments in India that affect our tax liability include central and state taxes and other levies, income tax, turnover tax, goods and services tax, stamp duty and other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred.

Any change in Indian tax laws could have an effect on our operations. For instance, the Taxation Laws (Amendment) Ordinance, 2019, a new tax ordinance issued by India's Ministry of Finance on September 20, 2019, prescribes a number of changes to the income tax rate applicable to companies in India. According to this new ordinance, companies can henceforth voluntarily opt for a concessional tax regime (subject to no other special benefits/exemptions being claimed), which would ultimately reduce the effective tax rate for Indian companies. Any such future amendments may affect other benefits such as an exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/tribunals/ courts would influence our profitability.

The Finance Act, 2022 ("Finance Act"), has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax ("DDT"), will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as nonresident and are likely to be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Further, the Government of India has notified the Finance Act, 2023, which has introduced various amendments to taxation laws in India. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

69. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

70. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and Pakistan might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse

social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

71. If certain labour laws become applicable to us, our profitability may be adversely affected.

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

72. Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

73. Investors may be adversely affected due to retrospective tax law changes made by the GoI affecting us.

Certain recent changes to the Income Tax Act provide that income arising directly or indirectly through the sale of a capital asset of an offshore company, including shares, will be subject to tax in India, if such shares derive indirectly or directly their value substantially from assets located in India. The term “substantially” has not been defined under the Income Tax Act and therefore, the applicability and implications of these changes are largely unclear. Due to these recent changes, investors may be subject to Indian income taxes on the income arising directly or indirectly through the sale of the Equity Shares. In the past, there have been instances where changes in the Income Tax Act have been made retrospectively and to that extent, there cannot be an assurance that such retrospective changes will not happen again.

74. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

2. To Meet Working Capital Requirements of our Company

We propose to utilize ₹3050.00 lakhs from the Net Proceeds towards funding our Company’s long-term working capital requirements. We have significant working capital requirements, and we fund our working capital requirements in the ordinary

course of business from our internal accruals and financing facilities from various banks and financial institutions. Our Company has demonstrated consistent growth in revenue from operations over the past three financial years. Our Revenue from operations on a standalone basis has increased from ₹2,626.72 lakhs in FY 2022–23 to ₹3,143.66 lakhs in FY 2023–24 and further to ₹4,369.96 lakhs in FY 2024–25. Such an increase in the turnover reflects our business performance and increasing market demand. In line with this growth, the Company requires additional long-term working capital to support its expanding operations and to fund future growth initiatives. We are continuously expanding our business and planning to increase the size of projects and our pre-qualification. In light of the above, our Company will require incremental working capital to fund inventories, trade receivables, trade payables, EMD and arrange fixed deposits for issuance of Performance Guarantee. Further, Our Company's working capital requirement depends upon the current Order Book value, expected order and the resultant requirement of EMD, Performance Guarantee and Security Deposit for such current and expected orders.

Details of Estimation of Working Capital requirement on standalone basis are as follows:

The estimates of the long term working capital requirements for the Fiscals 2026 and 2027 have been prepared based on the management estimates of future financial performance. As certified by M/s Mundra & Co., Statutory Auditor, through its certificate dated December 15, 2025.

The Company is required to furnish Earnest Money Deposit along with Performance Guarantees and security deposits to the Authority towards performance of its obligations for assigned Work Orders. The amount of Earnest Money Deposits, to be provided by the Company at the initial stage of work contract, accounts for approximately 2 percent of contract value if value of contract is upto Rs. 1 crore and if the value of contract is more than Rs. 1 crore the earnest money deposit shall be Rs.2 lakhs

plus half percent of the excess of the cost of work beyond Rs. 1 crore, subject to a maximum of Rs. 1 crore. The performance guarantees are furnished in the form of fixed deposits and along with the same in some cases, client also holds some amount as security deposits at the time of final bill. The amount of Performance Guarantee and Security Deposits together shall be up to 10% of the total value of the work orders. This is retained by company's clients till the Defect Liability Period of the Projects, which generally varies from 1-3 years. The Company is issuing the Performance Guarantee in the form of Fixed Deposits. Thus, its working capital requirement arises from the need to retain bank balances in the form of fixed deposits towards securing such performance guarantees. These Fixed Deposits have a varied period from one to three years and even more if required by the terms of the specific work contracts. This amount of Fixed Deposit is thus classified under 'Current assets' and 'Non-current assets', as per the maturity of the Fixed Deposit in the Restated Standalone Financial Statements.

Below are the details of performance guarantees issued by the Company in the form of FDs in last three years:

Rs. In lakhs					
Sr. No.	Financial Year	Total Contract Value of Projects Awarded	Amount of performance guarantee in the form of Fixed Deposit	Holding period of performance guarantee in the form of Fixed Deposit	% of performance guarantee to total value of Project
1.	2022-23	1974.71	84.78	03-38 months	4.29
2.	2023-24	6272.97	359.88	03-38 months	5.74
3.	2024-25	4900.34	282.16	03-38 months	5.76
	Total	13148.02	726.81		

Management is of the opinion that Fixed Deposit under Non-current assets should be classified as part of long term working capital.

Accordingly, in view of the above, we propose to utilize ₹3050.00 lakhs from the Net Proceeds to fund the working capital requirements for the business operations of our Company in Fiscal 2026 and 2027.

Assumptions for working capital requirements

The following table sets forth the details of the holding period (with days rounded to the nearest whole number) considered for the period ended September 30, 2025 and for the financial years ended March 31, 2025, March 31, 2024 and March 31, 2023, as well as estimated for financial year ended March 31, 2026 and March 31, 2027.

Particulars	Unit	March 31, 2023	March 31, 2024	March 31, 2025	September 30, 2025	March 31, 2026	March 31, 2027
		Audited (Standalone Restated)				Estimated	
Debtors	Days	66	62	110	142	115	107
Creditors	Days	152	122	232	167	64	36
Inventories	Days	14	115	99	117	70	84

Justification:

S. No.	Particulars
Debtors	The historical holding days of trade receivables has been ranging between 62 days to 110 days during Fiscal year 2023 to 2025. The Company has witnessed an increase in its revenue from operations over the past three years and expects continued revenue growth in future periods. Its revenue from operations on a standalone basis has increased from Rs. 2626.72 lakhs in financial year 2022-23, to Rs. 3143.66 Lakhs and Rs. 4369.96 Lakhs in Financial Years 2023-24 and 2024-25 respectively, representing a year on year growth of 19.68% and 39.01% respectively. Such an increase in revenue from operations in FY 2024-25 has led to a corresponding increase in its trade receivables in said period. Further, the projected increase in trade receivables is in line with the projected increase in revenue from operations. As per the current credit terms of the company & prevalent trend in business of the company, the holding level for debtors is anticipated at 115 days and 107 days of total revenue from operations during Fiscal 2026 and Fiscal 2027, respectively. The projected trade receivables days is in line with the nature of the business of the company as

S. No.	Particulars
	the Company's customer base primarily comprises various government authorities. Payments towards running account bills are generally approved and released by such authorities upon completion of inspection and satisfactory verification of the corresponding work or services rendered. Until such approvals are obtained, the related amounts are recorded as trade receivables, which results in an increase in the outstanding receivable balance.
Creditors	Past trend of Trade payables holding days has been in the range of 122 days to 232 days approximately during Fiscal 2023 to 2025. However, with additional working capital funding, the Company intends to reduce trade payable days to 64 days and 36 days during Fiscal 2026 and Fiscal 2027 respectively to avail competitive purchase price to increase overall profitability of the Company. By reducing the time, to settle its payables company aims to negotiate more favourable terms and conditions with its suppliers, enabling it to access competitive pricing for the goods it procures.
Inventories	Inventories include tools, consumables, overheads and labour expenses incurred to execute railway projects and associated services but are yet to be invoiced to the customers as its customer base comprises of government authorities where payments of running account bills are approved post inspection and satisfactory verification by the authorities. The historical holding days of inventories has been in range of 14 days to 115 days during Fiscal 2023 to 2025. The Company estimates inventories holding days to be around 70 days and 84 days in Fiscal 2026 and Fiscal 2027 respectively considering the scale of operations. Further in order to avoid any supply chain disruption the company expects to increase the inventory levels of regularly used tools & consumables. As on December 12, 2025, the Company has an outstanding order book comprising 60 projects aggregating to ₹14378.01 lakhs for the Indian Railways, covering various products and services. In order to execute and deliver these work orders within the stipulated timelines, the Company is required to maintain adequate inventory levels of various required tools and components. Consequently, this has resulted in an increase in inventory levels during FY 2026 and FY 2027.
Cash & Cash Equivalents (Fixed Deposit lien with Railways)	Bank balances other than Cash and cash equivalents majorly includes Fixed Deposits issued to customers as Performance Guarantee which have maturity of more than 3 months and less than 12 months. These are included in our internal working capital base.
Non-Current Fixed Deposit Lien marked for performance guarantees)	The Company is continuously expanding its business and planning to increase the size of projects. To serve the requirement of Performance Guarantee and Security Deposit for current Order Book value and expected order wins, the requirement of keeping bank balances in the form of fixed deposits towards collateral security for performance guarantees is estimated to increase.

Rationale for decrease in Net Working Capital requirements for FY2024 but increase in Net Working Capital requirements for FY2025, FY2026 and FY2027.

In FY 2023-24, Company's revenue from operations comprised maximum amount of sales through Pre-bid arrangements with various OEM's, which was approx. 68.56% of total revenue from operations. Accordingly, it was not required to retain high bank balances in the form of fixed deposits towards securing of performance guarantees to be provided to Indian Railways. Hence, its working capital requirement was also less in said period.

However, the Company witnessed a gradual increase in its Sales through direct contracts from railways, which has increased from 35.18% & 31.44% of total revenue from operations in FY 2022-23 & 2023-24, respectively, to 69.18% of total revenue from operations in FY 2024-25. Accordingly, there has been a consequent increase in the amount of Earnest Money Deposit, Performance Guarantee and Security Deposits in FY 2024-25, which is to be provided by the Company to its clients i.e. Indian Railways. Also, the Company has an outstanding order book comprising of 60 projects aggregating to ₹14,378.01 lakhs as on December 12, 2025. The average tenure of projects ranges up to 3 years, however, for some of the projects its sometimes expended as per the requirements of the projects. The order book which is expected to be executed in FY 2026 and 2027 is approx. Rs. 6450.54 Lakhs. These work orders are required to be backed by Performance Guarantee, EMD and Security Deposits in said period and subsequent periods, which is retained by company's clients till the Defect Liability Period of the

Projects, which generally varies from 1-3 years. The Company is issuing the Performance Guarantee in the form of Fixed Deposits. Thus, its working capital requirement arises from the need to retain bank balances in the form of fixed deposits towards securing such performance guarantees.

Additionally, with increase in revenue, there is consequent increase in trade receivables of the company in FY 2025, 2026 and 2027. All these factors have resulted in a significant increase in Net Working Capital requirements for said periods.

(Details of order book as on December 12, 2025 is certified by M/s Mundra & Co., Statutory Auditor, through its certificate dated December 15, 2025).

3. General Corporate Purpose

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. We confirm that any issue related expenses shall not be considered as a part of General Corporate Purpose. Further in case, our actual issue expenses turn to be lesser than the estimated issue expenses of Rs. 583.09 lakhs, such surplus amount shall be utilized for General Corporate Purpose in such a manner that the amount for general corporate purposes, as mentioned in the Prospectus, shall not exceed 15% of the amount raised by our Company through this Issue or Rs. 10 crores whichever is lower.

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act, 1961 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY:

- The Company is not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

- The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This Annexure also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
3. The above Annexure of special tax benefits is as per the current direct tax laws relevant for the assessment year 2025-26. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.

- ✓ Deduction under section 80G

Lower corporate tax rate under Section 115BAA of the Act and Minimum Alternate Tax ('MAT') credit under section 115JAA of the Act which are in general available and hence may not be treated as special tax benefits.

The Company has evaluated and decided to exercise the option permitted under Section 115BAA of the Act for the purpose of computing its income-tax liability for the Financial Year 2024-25 and onwards.

6. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.

GLOBAL ECONOMIC OUTLOOK

Steady global growth and varied regional dynamics

The year witnessed unprecedented electoral activity on the political front, with more than half of the global population voting in major elections across countries. Meanwhile, adverse developments like the Russia-Ukraine conflict and the Israel-Hamas conflict increased regional instability. These events impacted energy and food security, leading to higher prices and rising inflation. Cyberattacks also became more frequent and severe, with growing human and financial consequences due to the increasing digitisation of critical infrastructure. Geopolitical tensions, have reshaped global trade. Geopolitical risks and policy uncertainty, especially around trade policies, have also contributed to increased volatility in global financial markets. Nonetheless, global economic growth has remained fairly moderate. The global economy grew by 3.3 per cent in 2023. The International Monetary Fund (IMF) has projected growth of 3.2 per cent and 3.3 per cent for 2024 and 2025, respectively. Over the next five years, global growth is expected to average around 3.2 per cent, which is modest by historical standards. While the overall global outlook remains steady, growth varies across different regions.

Despite higher interest rates, advanced economies (AEs) witnessed stable growth in the first half of 2024. This was on account of moderating inflation and sustained employment and consumption. However, the growth outlook differs between the United States (US) and the Euro Area. Growth in the US is expected to remain strong at 2.8 per cent in 2024 and may decline slightly in 2025, reflecting a moderation in consumption and exports. In the Euro area, growth is expected to improve from 0.4 per cent in 2023 to 0.8 per cent in 2024 and further to 1.0 per cent in 2025 on the back of improving services activity. However, growth outcomes in Europe have been varied. Some countries like Spain, France, Poland, and the United Kingdom have benefitted

from the strength of their services sector. Meanwhile, manufacturing-intensive countries like Germany and Austria are being weighed down by weak demand. Germany's structural weaknesses, particularly in manufacturing, have been noticeable, contributing to the slackness in Europe's manufacturing. Political developments in France and Germany are also adding to policy uncertainty in Europe's major economies.

Between January 2023 and November 2024, data for the US economy continued to present more 'positive' surprises than the EU, compared to the analyst estimates. Within Asia, Japan's growth was hindered by domestic supply disruptions in the early part of the year, while China's growth weakened after the first quarter, affected by sluggish private consumption and investment, alongside challenges in the real estate sector.

The global composite Purchasing Managers' Index (PMI) has stayed in the expansion zone for the fourteenth month in a row (as of December 2024). The services sector continues to show strength while manufacturing PMI indicated contraction. In 2024, the global manufacturing PMI started strong, moving into expansion for the first time since mid-2023 and remained so through the first half of the year. By July 2024, weaker conditions pushed the PMI back into contraction. Following four months of gradual declines, the global manufacturing sector stabilised in November with an index value of 50.0, indicating no overall change in operating conditions. Output growth in consumer and intermediate goods offset a downturn in investment goods. Increased production was attributed to stabilising new order intakes and the clearance of backlogs of work.

Production trends varied widely across regions in December. Production rose in 13 of the 30 nations for which December PMI data were available. The Eurozone saw the steepest contractions, led by France, Germany, and Austria. North America showed mixed results, with Canada's growth offset by declines in the US and Mexico. India reported the strongest expansion of output. The outlook for global manufacturing also remained subdued in December, with business sentiment dipping to a three-month low. On the global services front, the global Services PMI Business Activity Index rose to a four-month high of 53.8 in December. This signals expansion for the twenty-third consecutive month. Expansion was recorded across business, consumer, and financial services. Financial services experienced the fastest pace of expansion. Inflationary pressures ease, but risks of synchronised price pressures persist. Inflation rates across economies have trended downward steadily, approaching central bank target levels. This has been the result of tighter monetary policy regimes across the globe and supply chains adapting to higher levels of economic uncertainty. As a consequence, price pressures eased in 2023 due to a reduction in fuel prices. In 2024, it was attributed to a broad-based reduction in goods inflation.

However, recent disruptions in global shipping have pushed goods prices up. These events have also pressurised the global supply chains. This is reflected in higher levels of the Global Supply Chain Pressure Index (GSCPI) in the quarter ending September 2024. shows that while container freight rates normalised in 2023, they experienced a significant surge in 2024. This was due to stronger demand, shipping route disruptions in the Red Sea, and delays at the Panama Canal, all of which have partially sustained inflationary pressures. The risk to inflation from increases in commodity prices seems limited in 2025- 2026. After softening in 2024, commodity prices are expected to decline moderately. While this easing is a positive sign, the risk of synchronised price increases remains, especially during periods of global economic stress. Although recent shocks like geopolitical conflicts and extreme weather have caused price fluctuations, their impact has largely subsided, leading to more varied commodity prices. However, escalating tensions continue to pose a risk of synchronised price increases, undermining the effectiveness of inflation mitigation.

INDIAN ECONOMY OUTLOOK

As per the first advance estimates released by the National Statistical Office, Ministry of Statistics & Programme Implementation (MoSPI), the real gross domestic product (GDP) growth for FY25 is estimated to be 6.4 per cent. From the angle of aggregate demand in the economy, private final consumption expenditure at constant prices is estimated to grow by 7.3 per cent, driven by a rebound in rural demand. PFCE as a share of GDP (at current prices) is estimated to increase from 60.3 per cent in FY24 to 61.8 per cent in FY25. Gross fixed capital formation (GFCF) (at constant prices) is estimated to grow by 6.4 per cent. On the supply side, real gross value added (GVA) is also estimated to grow by 6.4 per cent. The agriculture sector is expected to rebound to a growth of 3.8 per cent in FY25. The industrial sector is estimated to grow by 6.2 per cent in FY25. Strong growth rates in construction activities and electricity, gas, water supply and other utility services are expected to support industrial expansion. Growth in the services sector is expected to remain robust at 7.2 per cent, driven by healthy activity in financial, real estate, professional services, public administration, defence, and other services.

The COVID-19 pandemic caused widespread disruptions to economies worldwide. Economic Survey 2023-24 compared the post-pandemic trends until Q4 FY24 with the pre-pandemic trajectory and concluded that the economy grew briskly enough to avert any permanent loss of output. Aggregate GVA surpassed its pre-pandemic trend in Q1 FY25, and it now hovers above the trend in the H1 FY25. The agriculture sector remains strong, consistently operating well above trend levels. The industrial sector has also found its footing above the pre-pandemic trajectory. The robust rate of growth in the recent years has taken the services sector close to its trend levels. A closer look at industrial sub-sectors reveals a spectrum of performances. Construction has been a standout, gaining momentum since mid-FY21 and soaring approximately 15 per cent above its pre-pandemic trend—an impressive feat driven by robust infrastructure development and housing demand. The utilities sector, including electricity, gas, water supply, and other services, reached its pre-pandemic trend by the end of FY23 and has consistently stayed above these levels. Manufacturing, while steadily recovering, remains slightly below its pre-pandemic trajectory. Meanwhile, mining continues to operate below its pre-pandemic trend. The recovery within the services sector has been uneven. Financial, real estate and professional services have taken the lead, surpassing pre-pandemic trend levels by the end of FY23. Public administration, defence, and other services followed suit, exceeding the trend for the first time in Q1 of FY25 since the onset of the pandemic. However, trade, hotels, transport, and communication services are gradually catching up with the pre-pandemic trend. These contact-intensive sectors faced challenges due to lockdown, restricted demand for travel, and reduced demand for hospitality, entertainment, and personal services.

The industrial sector grew by 6 per cent in H1 FY25. Q1 saw a strong growth of 8.3 per cent, but growth moderated in Q2 due to three key factors. First, manufacturing exports slowed significantly due to weak demand from destination countries, and aggressive trade and industrial policies in major trading nations. Second, the above average monsoon had mixed effects - while it replenished reservoirs and supported agriculture, it also disrupted sectors like mining, construction, and, to some extent, manufacturing. Third, the variation in the timing of festivities between September and October in the previous and current years led to a modest growth slowdown in Q2 FY25. Disaggregated data reveals that while many manufacturing sub-sectors experienced growth, others faced challenges, likely due to global and seasonal factors. Oil companies suffered due to inventory losses and lower refining margins, while steel companies faced price pressures and lower global prices. The cement sector faced weak demand in Q2 due to heavy rains and lower selling prices. However, with the conclusion of the monsoon season and the expected pick-up in government capital expenditure, sectors such as cement, iron, and steel are expected to see a recovery. Further, mining and electricity are expected to normalise after the monsoon-related disruptions. Despite various challenges, India continues to register the fastest growth in manufacturing PMI. The latest Manufacturing PMI for December 2024 remained well within the expansionary zone. The expansion rate for December 2024 exceeded its long-term average, driven by new business gains, robust demand, and advertising efforts. Meanwhile, international orders grew to a four-month high midway through the third fiscal quarter, signalling recovering external demand, as reported by companies. The services sector continues to perform well in FY25. A notable growth in Q1 and Q2 resulted in 7.1 per cent growth in H1 FY25. Across sub-categories, all the sub-sectors have performed well. The robust performance of the services sector is also reflected in high-frequency indicators (HFIs). PMI services have been in an expansionary zone during H1 FY25, supported by growth in new orders, rise in output, improvement in sales and enhanced employment generation. The hospitality sector performed well, with hotel occupancy rates in H1 FY25 similar to the previous year. Average daily rates and revenue per room increased due to higher corporate and leisure travel. Air cargo activity grew in double digits, while port traffic remained stable. Information Technology (IT) companies also performed better than the previous quarter.

India's GDP at constant (2011-12) prices grew by 6.7 per cent and 5.4 per cent in Q1 and Q2 FY25, respectively. This implied a real GDP growth of 6.0 per cent in the first half of the current fiscal.

INDIAN RAILWAYS INDUSTRY ANALYSIS

The Indian railway system is regarded as the foundation and lifeblood of the economy. Indian railways span thousands of kilometres practically covering the entire nation, making it the fourth largest in the world after the US, China, and Russia. The Railways Board, which has a monopoly over the provision of rail services in India, oversees overseeing the whole infrastructure. Due to its low cost and effective operations, railways continue to be the most popular means of transportation for most Indians when travelling long distances.

India's railway network is recognised as one of the largest railway systems in the world under single management. The railway network is also ideal for long-distance travel and movement of bulk commodities, apart from being an energy-efficient and economic mode of conveyance and transport. Indian Railways is the preferred carrier of automobiles in the country.

The government of India has focused on investing in railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.

Indian railways launched Semi-high-speed self-propelled trains that have ultra-modern features like quick acceleration, a substantial reduction in travel time, a maximum speed of 160 kmph, on-board infotainment and GPS-based passenger information system, automatic sliding doors, retractable footsteps and Zero discharge vacuum bio-toilets, CCTV cameras etc. and other contemporary features as per global standards.

According to Indian Railways 2023 book, Indian railways plan to market semi-high speed 'Vande Bharat' trains by 2025-26 to European, South American, and East Asian markets for exporting 'Made in India' trains.

Market Size

The Indian Railways earned total revenue of Rs. 2.70 lakh crore (US\$ 31.57 billion) by the end of FY25.

Passenger traffic in FY25 is 7.35 crore, 6% higher than the previous year.

In FY25, Indian Railways loaded 1,617.0 MT of freight and Revenue rose by approximately Rs. 1.75 lakh crore (US\$ 20.5 billion) compared to 1.70 lakh crore (US\$19.8 billion) last year.

Indian Railways is developing and creating technology in areas such as signalling and telecommunication with 15,000 km being converted into automatic signalling and 37,000 km to be fitted with 'KAVACH', the domestically developed Train Collision Avoidance System.

Investments/ Developments

Following is some of the major investments and developments in India's railways sector:

- A wave of on-demand, shared, and electric-powered urban transportation services will generate Rs. 56,44,320 crore (US\$ 660 billion) in revenue globally by 2030.
- Over 21,800 track km (TKM) of Indian Railways are now fit to run semi-high-speed trains of 130 km per hr in India, as per an internal report of the Ministry.
- Around 76% of the excavation work has been completed on the Mumbai bullet train station located at 'Bandra Kurla Complex' (BKC), which is the only underground station on the Mumbai-Ahmedabad High-Speed Rail Corridor. According to the official report, 14.2 lakh cubic metres of the excavation work has been completed. 18.7 lakh cubic metres of earthwork must be excavated from this site.
- In a significant move towards enhancing passenger experience by returning the lost/missing mobile phones, the Railway Protection Force (RPF) has successfully onboarded with the Central Equipment Identity Register (CEIR) portal of the Department of Telecommunication. This initiative follows the success of a pilot program in the Northeast Frontier Railway (NFR).
- Indian Railways has taken a major step towards automation and efficiency in rolling stock maintenance by signing a Memorandum of Understanding (MoU) with the Delhi Metro Rail Corporation (DMRC) for the procurement and installation of Automatic Wheel Profile Measurement Systems (AWPMS).
- India is in the process of developing high-speed train sets capable of reaching a maximum speed of 280 km/h. These trains are being designed and manufactured by the Integral Coach Factory in collaboration with BEML. Each train car is estimated to cost approximately Rs. 28 crore (US\$ 3.2 million) and will incorporate advanced features such as aerodynamic designs, sealed gangways, and modern amenities.
- India aims to transform Indian Railways into a net-zero emitter as part of its broader energy goals by 2030, as confirmed by Prime Minister Mr. Narendra Modi.
- The implementation of the PPP model is anticipated to meet the growing demand for mineral and coal transportation, with the development of these corridors—integral to the economic corridor program—projected to attract over Rs. 5.25 lakh crore (US\$ 60.43 billion) in investments by 2031.

Government Initiatives

The Government of India has adopted few initiatives for the Railways sector in the recent past, some of these are as follows:

- Under the Union Budget 2025-26, the government allocated Rs. 3.02 lakh crore (US\$ 34.7 billion) compared to Rs. 2.52 lakh crore (US\$ 30.3 billion) in 2024-25 to the Ministry of Railways.
- Starting November 1, 2024, Indian Railways has revised its ticket booking rules by reducing the advance reservation period (ARP) from 120 days to 60 days.

- As of January 2023, a total of 1724 kilometres of Dedicated Freight Corridor (DFC) had been commissioned, with 861 kilometres completed on the Eastern Dedicated Freight Corridor (EDFC) and 863 kilometres on the Western Dedicated Freight Corridor (WDFC).
- The Union Cabinet chaired by Prime Minister Mr. Narendra Modi announced about the MoU signed with USAID/India on June 14, 2023, help Indian Railways achieve Net Zero Carbon Emission by 2030.
- Indian Railways (IR) is proactively working towards the achievement of Net Zero Carbon Emission by 2030.
- As part of its commitment to reduce carbon footprints, Indian Railways is taking several initiatives. In line with this, a Memorandum of Understanding (MoU) was signed between Indian Railways, Government of India and United States Agency for International Development/India (USAID/India) on 14th June 2023 for collaboration on Renewable energy and Energy Efficiency. The MoU was signed by Shri Naveen Gulati, Member (Traction and Rolling Stock), Railway Board, Indian Railways and Ms. Isabel Coleman, Deputy Administrator, USAID, in the presence of Sh. Road Ahead

Indian Railway network is growing at a healthy rate. In the next five years, the Indian railway market is expected to be the third largest, accounting for 10% of the global market. The government has announced two key initiatives for seeking private investments-running passenger trains by private operators across the railways network and redevelopment of railway stations across the country. According to Indian Railways, these projects have the potential of bringing an investment of over US\$ 7.5billion in the next five years.

Introducing 3,000 new trains over the next four to five years to increase the current passenger capacity of the railways from 800 crore to 1,000 crore, with a focus on meeting the needs of the expanding population.

‘Adarsh’ Station Scheme has been started in 2009-10 and presently, railway stations are upgraded/modernised based on identified need of providing better-enhanced passenger amenities at stations. Under the scheme, 1253 stations have been identified for development, out of which 1215 stations so far have been developed. Indian Railways is also looking at other areas of revenue generation such as the following: a) Change in composition of coaches so that it can push the more profitable AC coach travel; b) Additional revenue streams by monetising traffic on its digital booking IRCTC; and c) Disinvesting IRCTC.

3. Use of estimates

The preparation of the financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as at the balance sheet date, the results of operation during the reported period and disclosure of contingent liabilities as on the reporting date. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable and are in their best knowledge of current event and actions. Actual results could differ from these estimates and differences between actual results and estimates are recognized in the period in which the results are known or materialize. Significant estimates used by the management in the preparation of these financial statements include provision for employee benefits, estimates of the economic useful life of plant and equipment, provision for expenses, provisioning for taxation etc.

4. Current-non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within 12 months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

Operating cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle being a period of 12 months for the purpose of classification of assets and liabilities as current and non-current.

The following material accounting policies are adopted in the preparation and presentation of these financial statements:

1. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured in accordance with AS-9, Revenue Recognition as prescribed by ICAI.

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Income from services is exclusive of GST.

Interest Income: Interest Income is recognized on accrual basis after taking into account the amount outstanding and the rate applicable.

Investment Income: Investment Income is recognized on sale of investment.

Other Income: Other items of income are recognized on receipt basis.

2. Inventories

Cost includes purchase price, other costs incurred in bringing the inventories to their present location and condition, and includes non-refundable taxes. The cost is determined on the basis of First in First Out method. Cost of conversion are allocated on finished goods on the relative sales value of each product at the completion of production. Materials and other items held for use in the production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. Obsolete, slow moving and defective inventories are identified at the time of physical verification and wherever necessary a provision is made.

Finished goods are valued at lower of cost and net realisable value. Cost of inventories of finished goods includes cost of raw materials, direct and indirect overheads which are incurred to bring the inventories to their present location and condition.

Stock in trade are valued at lower of cost and net realisable value. Cost of stock-in-trade includes cost of purchase and other cost incurred in bringing the inventories to the present location and condition.

Work-in-Progress represents costs incurred on ongoing projects which are not yet completed and therefore not billable to customers as at the reporting date. Such costs primarily include material consumed, direct employee costs, sub-contracting

charges and other directly attributable expenses incurred in relation to project execution. Work-in-Progress is valued at cost, which is determined on a project-specific basis.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

3. Foreign Currency Transaction:

i. Initial Recognition:

Foreign currency transactions are recorded, on initial recognition in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Measurement:

Foreign currency monetary items are reported using the closing rate.

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

iii. Treatment of Foreign Exchange:

Exchange differences arising on settlement/ re-measurement of foreign currency monetary assets and liabilities of the Company are recognized as income or expenses in the Statement of Profit and Loss.

4. Employee Benefits

Short-term employee benefits

Employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the period in which the employee renders the related services.

Post-employment benefits

Defined benefit plans

The Company's gratuity is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. Liability with respect to gratuity is determined based on an actuarial valuation done by an independent actuary at the year-end using the projected unit credit method.

The Company recognizes all actuarial gains and losses arising from defined benefit plans immediately in the Statement of Profit and Loss. All expenses related to defined benefit plans are recognized in employee benefits expense in the Statement of Profit and Loss. When the benefits of a plan are improved, the portion of the increased benefit related to past service by employees is recognized in Statement of Profit and Loss on a straight line basis over the average period until the benefits become vested. The Company recognizes gains and losses on the curtailment or settlement of a defined benefit plan when curtailment or settlement occurs.

Defined contribution plans

The Company makes specified monthly contributions towards employees' provident fund and employees' state insurance, which are defined contribution plans. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which employee renders the related service.

Long-term employee benefits

As per the company's policy, leave encashment is paid to employees in the year in which it becomes due. Unutilized leave is not permitted to be carried forward to subsequent financial years. Accordingly, there is no provision created towards leave encashment liabilities as at the balance sheet date, since no obligation exists beyond the current reporting period.

5. Borrowing Costs

Borrowing cost includes interest and amortisation of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

6. Accounting for Taxes on Income

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

7. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, share split and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

8. Property, Plant and Equipment and Depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and / or accumulated impairment loss, if any. The cost of property, plant and equipment includes non-refundable taxes and duties, freight and other incidental expenses related to the acquisition and installation of the respective items of property, plant and equipment.

Subsequent expenditures related to an item of property, plant and equipment are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on

existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the year during which such expenses are incurred.

Depreciation on tangible assets is provided on the Written Down Value (WDV) method. Depreciation is provided over the useful lives of assets estimated by the management which are equal to the useful lives prescribed under Schedule II to the Companies Act, 2013 and provided as below:

Category	Useful Life
Computer & Accessories	3 years
Furniture & Fittings	10 years
Office Equipments	5 years
Vehicles – Motor Car	8 years
Plant & Machinery	15 years

The useful lives are reviewed by the management periodically and revised, if appropriate. In case of a revision, the un-amortised depreciable amount is charged over the revised remaining useful life.

Depreciation on additions to property, plant and equipment is provided on pro-rata basis from the date the assets are ready for use. Depreciation on sale / deletion from property, plant and equipment is provided up to the date of sale / deletion.

An item of property, plant and equipment is derecognized from the financial statements on disposal or when no further benefit is expected from its use and disposal.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is de-recognised.

Capital work in-progress represents expenditure incurred in respect of assets which are yet to be brought to it working condition for its intended use and are carried at cost. Cost includes related acquisition expenses, construction or development cost, borrowing costs capitalised and other direct expenditure.

9. Intangible assets and amortisation

Intangible assets are carried at cost less accumulated amortisation and / or accumulated impairment loss, if any. Intangible assets are recognised when the asset is identifiable, is within the control of the Company, it is probable that the future economic benefits that are attributable to the asset will flow to the Company and cost of the asset can be reliably measured.

Intangible assets are amortised on a Written Down Value (WDV) over the estimated useful life of the asset. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss. The estimated useful life of intangible assets is reviewed by management at each Balance Sheet date.

Amortisation is provided on a pro-rata basis i.e. from the date on which asset is ready for use.

Company has Computer Software as an Intangible asset which is amortised over an estimated useful life of 3 years.

An intangible asset is de-recognised on disposal or when no future economic benefits are expected from its use and disposal. Losses arising from retirement and gains or losses arising from disposal of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss.

10. Provisions, Contingent Liabilities and Contingent Assets

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

11. Impairment of Assets

The carrying amounts of property, plant and equipment including intangible assets are reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount is estimated, as the higher of the net selling price and the value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. If at the Balance Sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost. Reversal of impairment loss is recognized immediately as income in the profit and loss account.

12. Investments

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long-term investments. However, that part of long-term investments which is expected to be realised within 12 months after the reporting date is presented under current assets as "current portion of long-term investments".

Long-term investments (including current portion thereof) are carried at cost less any other-than-temporary diminution in value, determined separately for each category of investments.

Current investments are carried at the lower of cost and fair value, on an individual investment basis. The comparison of cost and fair value is done separately in respect of each category of investments.

Any reductions in the carrying amount and any reversals of such reductions are charged or credited to the Statement of Profit and Loss.

13. Segment Accounting

The Company is a Small and Medium Sized Company (SMC) as defined in the Companies (Accounting Standards) Rules, 2021 and therefore disclosure for Segment reporting is not applicable to it.

14. Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

15. Cash and cash equivalents

Cash and cash equivalents comprise cash and cash deposits with banks. The Company considers all highly liquid investments with an original maturity at a date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

(“**our Company**”) before the District and Sessions Court, Karkardooma, (“**Ld. Court**”) under Section 34 of the Arbitration and Conciliation Act, 1996 (“**the Act**”). An arbitral dispute bearing Tender No. 56-W/Elect. /14-15/T/03/C/Bank dated November 8, 2014, arose out of a contract for “Supply, Provision, Testing and Commissioning of Capacitor Bank for Power Factor Improvement in End-on-Generation (EOG) Air-Conditioned (AC) Coaches and upgradation of Electrical Passenger Amenities in EOG First ASC Coaches.” Although the bid was submitted, Performance Bank Guarantee (PBG) deposited, and contract executed, the Petitioner terminated the contract on October 3, 2015, alleging non-performance, and further forfeited the Security Deposit (SD) and encashed the PBG. Arbitration was invoked by our Company on December 22, 2015, and an Arbitral Tribunal (A/T) was constituted on July 28, 2020. Vide an arbitral award dated October 11, 2022, the Ld. Sole Arbitrator directed the Petitioner to refund ₹ 6,09,001/- towards the PBG and Earnest Money Deposit (EMD) out of the total claim of ₹ 58,93,402/-. The Petitioner has now challenged the said award before the Court. The matter is currently pending adjudication and the next date of hearing is January 27, 2026.

(“**our Company**”) against the Union of India (“**Respondent**”) before the High court of Judicature at Bombay (“**Ld. Court**”) under Section 34 of the Arbitration and Conciliation Act, 1996 (“**the Act**”). The dispute arose from a Letter of Acceptance (LOA) dated November 8, 2016, for conversion of BG Coaches into Camping Coaches for Track Machine staff. Out of 16 coaches, only 12 were made available, and the Petitioner completed work on all 12 coaches by March 28, 2019. Payments amounting to ₹ 1,93,84,108 were released belatedly on September 20, 2019. Aggrieved by non-payment during execution, wrongful imposition of penalties, and denial of legitimate claims, the Petitioner invoked arbitration on December 28, 2019. Vide an arbitral award dated March 26, 2022, the Ld. Arbitral Tribunal partly rejected Petitioner’s claims, allegedly ignoring Respondent’s breaches, allowing claims in Respondent’s favor without counterclaims, and relying on material not on record. The Petitioner has therefore challenged the said Award specifically w.r.t claim no.’s 1, 3, 4, 5, 6, 7, 8, and 10 to 15 through the present Arbitration Petition. Accordingly, the disputed amount, to the extent quantifiable stands at ₹ 1,82,57,897.15/-. The matter is currently pending adjudication.

Our Company is claiming total amount of ₹ 3,02,82,588.96/- through this present petition. However, the Respondent has opposed the Petition on the ground that it is barred by limitation under Section 34(3) of the Act, since the award was received on January 30, 2023, the limitation expired on May 30, 2023, while the Petition was filed only on August 31, 2023, and registered on September 1, 2023, beyond the mandatory 120-day period, with the reasons cited for condonation of delay being vague and insufficient. The matter is currently pending adjudication and the next date of hearing is April 15, 2026.

The DPIIT also issues the Consolidated Foreign Direct Investment Policy (“**FDI Policy**”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DPIIT with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT till October 15, 2020. All the press notes, press releases, clarifications on FDI issued by DPIIT till October 15, 2020 stand rescinded as on October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.
